

Special Soldier 1211

Chapter 1211: Plateau 5 km

Jiang Xiaoyu lowered his voice, "Brother Qin, I know you're fine, but they're too despicable, and they will always come up with some weird tricks, you still have to be careful, after all, we've all suffered a lot."

Unexpectedly, Qin Yuan raised his voice instead, because he was fearless at all.

"It's okay. I mainly guide them this time. If I guide them, I must diversify. I'm not afraid to make some tricks."

Jiang Xiaoyu had black lines on his face. He originally wanted to remind Qin Yuan, but Qin Yuan just said it outright.

Balang didn't think it was anything. He believed in Qin Yuan's ability very much. These small shrimps were not enough for him to play with. He felt that Jiang Xiaoyu's worries were a bit unnecessary. As far as they were concerned, the other party might have made some tricks to make them He was caught off guard, but Qin Yuan was different in his mind.

Someone who was able to come out of the hunter school before and also won the Warrior Medal, such a person is really extraordinary.

At this moment, Qin Yuan looked at Chen Yongguang in front of him and said loudly: "By the way, have you forgotten something? I remember when you challenged their marines before, you meant to take Xiang Yu away, right?" ?"

"Yeah, what's the matter? Including if you lose this time, then I want to take one of your team members away."

The people around laughed loudly when they heard this, Jiang Xiaoyu felt that he was a little worried before, but now he doesn't need to worry at all, this kid is really too arrogant, he wants to take Qin Yuan's people away, and he didn't listen just now Wrong, to defeat Qin Yuan.

"What are you laughing at? Am I not telling the truth? Or are you trying to play tricks?"

"Not really. It's just that I haven't lost since I enlisted in the army. You have the courage to say such a thing, but speaking, anyone can say it."

"What do you mean? Are you looking down on me? Let me tell you, don't play tricks with me. I don't have the time to talk to you. Anyway, my condition is like this. If you lose, I will also take away the members of your team." one person."

"Okay, no problem, but what if you lose?"

"How can I say it's impossible? Also, I haven't lost since I formed the Assault Squad."

It is indeed the reason why this guy has never lost, no wonder he is so arrogant, Qin Yuan smiled, "Since this is the case, I don't blame you, my condition is very simple, if you lose, you can directly worship me as a teacher, and it is The kind to kowtow."

It's really funny to say this, the conditions are too low-end, absolutely no problem, and it is impossible for him to say that Chen Yongguang is very confident in himself.

"Okay, but I feel like I'm bullying you a bit by saying it like this. If I lose, our entire team can worship you as a teacher, how about it?"

Zhang Long next to him didn't have time to stop him. This guy's mouth didn't have a handle at all, so he said it directly. He clenched his fists, really wanting to go up and punch him, but there was nothing he could do.

Qin Yuan was waiting for this sentence, he knew that this guy couldn't stand the stimulation at all, as long as he was provoked casually like this, he would reveal his flaws.

"Okay, then everyone is listening to this matter now, we keep our word."

"Don't worry, you just wait for your players to come to our team. Let me tell you, you are the one I challenged from the beginning."

Qin Yuan moved his body slightly, and got into the jeep next to him without talking nonsense. To be honest, he has been waiting for a long time these days. He wants to avenge the people in the armed police detachment, and he also wants to attack the thunder and lightning. He wants to get back the compliments from the team one by one, and he wants to teach them the principles of being human.

"Let's go, you lead the way, you can choose the challenge location and items, including the number of people."

After Qin Yuan finished speaking, Jiang Xiaoyu and the others hurried into the car. At this time, Zhang Long pointed at them and said:

"What do you mean? You agreed that you were the only one who challenged it, so why don't they go too? It's against the rules."

This guy is really afraid of Qin Yuan, mainly because he also knows Qin Yuan's strength. If Jiang Xiaoyu and the others are added, there is no chance of winning at all, so he is a little anxious.

"I said Captain Zhang, why are you so anxious? I said before that I am alone, so I am alone. Is there no audience allowed?"

Chen Yongguang next to him just felt so ashamed. When did their captain become so afraid of wolves and tigers? It's really embarrassing.

After getting in the car, Zhang Long began to blame him non-stop, thinking that Chen Yongguang was too self-indulgent, and inexplicably blocked the fate of the entire commando.

"I don't know what you think. You have to know that as a qualified commander, if you are patient enough and have enough endurance, you will be fooled if someone says a few words casually. What are you doing? What did you do?"

"Team Zhang, I don't understand what you are thinking. Shouldn't you support me? You have no confidence in our commando."

"It's not that I don't have confidence, but that guy is a terrifying existence. Do you know the concept of retreating from the hunter school with the entire commando? And annihilated the entire army of other countries."

"Hehe, of course I know this. I knew it before, but the version I heard is different. Most people say that he used tricks to win the game."

Zhang Long shook his head helplessly. He knew that this guy couldn't listen to what he said now, because like those foreign troops, they obviously wanted to protect their reputation, so how could they tell the truth.

He would definitely only pour dirty water on their team. I didn't expect this guy to believe it foolishly. If Qin Yuan really won by those despicable means, how could the instructors of your school recognize him and let him be a special person? What about the training instructors?

Chen Yongguang has been dazzled by anger now, so he didn't think about these issues carefully. Qin Yuan's achievements are not recognized by one person, but by most people.

His face was full of solemnity. Now that the words had been spoken, he could only quickly help him figure out a way. The most important thing was how to win.

"Then what can you do now, tell me about your goal? What will you do?"

"It's very simple. I have thought about this plan many times in my mind. I have never heard of altitude training. He has trained several times. This time we will fight on the snowy plateau, where the temperature is minus 30 degrees." about."

With Qin Yuan's help, they had no problems at all, and now they have fully adapted to the high-altitude environment, just like they were in the plains.

Chen Yongguang just watched them form a formation, and then sang while running.

This is simply a proper provocation, how can he bear it? Clenching his fists, he asked the driver to stop.

"Everyone listen to my order, get out of the car and put on your backpack."

Zhang Long hurriedly pulled him, this guy is crazy, they will have to deal with Qin Yuan later, consuming physical energy too early now will only drag them down.

"What are you guys doing? I don't allow you to risk the entire commando team. You need to know who you are dealing with. Now is not the time to be arrogant."

"I'm not being arrogant. I'm also a very confident team in my soldiers. Look at them, they have already provoked us. Don't we fight back?"

At this moment, Chen Yongguang couldn't listen to anything, and Zhang Long couldn't stop him at all, so he could only let him go. After he brought the team down, he also began to prepare for the 5km load.

Qin Yuan found it even more funny when he saw this. This guy has some courage, but he is just a little stupid and won't listen to persuasion, because he is completely occupied by his own self-confidence.

As the two teams competed, Qin Yuan's side ran faster and faster, because Qin Yuan was continuously adding merit points to them and enhancing their physical fitness in another aspect, so there was no problem for everyone to run down.

On the contrary, Chen Yongguang's team had already trained before, but with their altitude, they were in a state of going uphill, and everyone was already exhausted under such a heavy load.

Not only could Qin Yuan run back and forth to observe the situation at any time, he even came directly to the back and patted Chen Yongguang on the shoulder.

"Captain Chen, it seems that you still have to keep up with your physical fitness, otherwise what will you do in the future? I'm really worried for you."

"You don't need to worry about these, you take care of yourself."

Slowly they have already run out of the range of five kilometers, but Jiang Xiaoyu and the others have no intention of stopping at all, and Chen Yongguang can only bite the bullet and stick to it. After all, he has already reached this point, and he can't be halfway give up.

At this time, a video in Chen Yongguang's team couldn't hold on, and fell down. Not only did he not help the soldier, but he cursed.

"Stand up for me, is the usual training in vain? It's only been a long run, and you can't hold on any longer."

"Captain, I...I feel like my physical strength has reached its limit."

"Shut up, there is no such thing as a limit in our team, let me get up."

Looking at the situation in the car, Zhang Long might have an accident. He stopped the car quickly, and then walked over, because it can be seen from the state of both parties that there is no problem with Qin Yuan and the others. On the contrary, his team has already Tired and out of breath, this is not only physical exhaustion, but also under the pressure of altitude sickness.

"I see it like this. Everyone is not interested in this kind of ordinary contest. It is better to rush to the place we agreed on as soon as possible, and then compete, otherwise it will be a waste of everyone's physical strength."

"I didn't feel the consumption you said. I don't think there is any problem with the people in my team. They will be fine for another 10km, don't you think?"

Jiang Xiaoyu and the others also cooperated very well, shouting loudly from behind, I am no problem at 10km, Zhang Long's face became more and more cold and handsome, he didn't know what was going on, why did everyone fight with each other Like chicken blood.

Looking at his team, he knew that he couldn't procrastinate any longer, otherwise this matter would develop in an unfavorable direction, and their people might fall here before the competition started.

"Captain Qin, I mean the people in our team. After all, everyone's physical fitness is different. I hope you can forgive me."

This guy finally lowered his attitude. Chen Yongguang wanted to persevere at first, but he couldn't hold on himself, and only felt that his legs were a little weak.

You must know that they were originally just ordinary people's physiques, but he forcibly trained them to change their physiques, but such a change was not at all as Qin Yuan added a little bit of merit.

It was as if Qin Yuan had opened a cheat. Jiang Xiaoyu and the others were very proud. After all, they had been ridiculed by this guy before, and now they have shown a complete advantage.

Qin Yuan accepted it as soon as he saw it. After all, everyone said so, so he didn't care about it anymore. After all, this is not a real competition. If he just relies on running, he will defeat him. The kid will be somewhat unconvinced.

He wants to completely defeat him in many aspects, let him see his self-confidence. Just his poor self-confidence is not worth mentioning in front of his own ability.

The most important thing is that Qin Yuan attaches great importance to his assault team. Although his training is a mess now, to be honest, the ability is indeed very strong. He only needs to make some changes according to the manual.

Then a brand new assault team can be born, which is simply free merit points. You must know that as long as he successfully trains an assault squad now, there will be an increase in merit points. This merit point can improve the system's capabilities. And it can be exchanged for other things.

In this way, everyone drove for another hour and finally came to the foot of a snow mountain. Chen Yongguang got out of the car, his face was very bad, obviously he hadn't recovered from the running just now.

In this high-altitude plateau area, it is really exhausting to run like this with heavy loads. Qin Yuan also saw their problem. Even though their team members had undergone special training, they couldn't stand it.

"I think so, why don't you take a good rest at the foot of the mountain today, what's the competition, how about starting tomorrow?"

Chen Yongguang wanted to refute at first, but he turned his head and looked at the condition of the soldiers in his team. If they compete directly with Qin Yuan now, they will basically lose.

In order to win, he can only let go of his previous dignity, and now he regrets that the decision he made back then has not been adjusted at all.

In this way, both sides started camping at the foot of the mountain, and Zhang Long's view of Qin Yuan also changed a bit. He had heard all kinds of legends about Qin Yuan before, and he always felt that this person was praised too highly. In addition, I have been bullied several times before.

Chapter 1212: Roast Rabbit

With Qin Yuan's help, they had no problems at all, and now they have fully adapted to the high-altitude environment, just like they were in the plains.

Chen Yongguang just watched them form a formation, and then sang while running.

This is simply a proper provocation, how can he bear it? Clenching his fists, he asked the driver to stop.

"Everyone listen to my order, get out of the car and put on your backpack."

Zhang Long hurriedly pulled him, this guy is crazy, they will have to deal with Qin Yuan later, consuming physical energy too early now will only drag them down.

"What are you guys doing? I don't allow you to risk the entire commando team. You need to know who you are dealing with. Now is not the time to be arrogant."

"I'm not being arrogant. I'm a very confident team in my soldiers. You see, they have already provoked us. Don't we fight back?"

At this moment, Chen Yongguang couldn't listen to anything, and Zhang Long couldn't stop him at all, so he could only let him go. After he brought the team down, he also began to prepare for the 5km load.

Qin Yuan found it even more funny when he saw this. This guy has some courage, but he is just a little stupid and won't listen to persuasion, because he is completely occupied by his own self-confidence.

As the two teams competed, Qin Yuan's side ran faster and faster, because Qin Yuan was continuously adding merit points to them and enhancing their physical fitness in another aspect, so there was no problem for everyone to run down.

On the contrary, Chen Yongguang's team had already trained before, but with their altitude, they were in a state of going uphill, and everyone was already exhausted under such a heavy load.

Not only could Qin Yuan run back and forth to observe the situation at any time, he even came directly to the back and patted Chen Yongguang on the shoulder.

"Captain Chen, it seems that you still have to keep up with your physical fitness, otherwise what will you do in the future? I'm really worried for you."

"You don't need to worry about these, you take care of yourself."

Slowly they have already run out of the range of five kilometers, but Jiang Xiaoyu and the others have no intention of stopping at all, and Chen Yongguang can only bite the bullet and stick to it. After all, he has already reached this point, and he can't be halfway give up.

At this time, a video in Chen Yongguang's team couldn't hold on, and fell down. Not only did he not help the soldier, but he cursed.

"Stand up for me, is the usual training in vain? It's only been a long run, and you can't hold on any longer."

"Captain, I...I feel like my physical strength has reached its limit."

"Shut up, there is no such thing as a limit in our team, let me get up."

Looking at the situation in the car, Zhang Long might have an accident. He stopped the car quickly, and then walked over, because it can be seen from the state of both parties that there is no problem with Qin Yuan and the others. On the contrary, his team has already Tired and out of breath, this is not only physical exhaustion, but also under the pressure of altitude sickness.

"I see it like this. Everyone is not interested in this kind of ordinary contest. It is better to rush to the place we agreed on as soon as possible, and then compete, otherwise it will be a waste of everyone's physical strength."

"I didn't feel the consumption you said. I don't think there is any problem with the people in my team. They will be fine for another 10km, don't you think?"

Jiang Xiaoyu and the others also cooperated very well, shouting loudly from behind, I am no problem at 10km, Zhang Long's face became more and more cold and handsome, he didn't know what was going on, why did everyone fight with each other Like chicken blood.

Looking at his team, he knew that he couldn't procrastinate any longer, otherwise this matter would develop in an unfavorable direction, and their people might fall here before the competition started.

"Captain Qin, I mean the people in our team. After all, everyone's physical fitness is different. I hope you can forgive me."

This guy finally lowered his attitude. Chen Yongguang wanted to persevere at first, but he couldn't hold on himself, and only felt that his legs were a little weak.

You must know that they were originally just ordinary people's physiques, but he forcibly trained them to change their physiques, but such a change was not at all as Qin Yuan added a little bit of merit.

It was as if Qin Yuan had opened a cheat. Jiang Xiaoyu and the others were very proud. After all, they had been ridiculed by this guy before, and now they have shown a complete advantage.

Qin Yuan accepted it as soon as he saw it. After all, everyone said so, so he didn't care about it anymore. After all, this is not a real competition. If he just relies on running, he will defeat him. The kid will be somewhat unconvinced.

He wants to completely defeat him in many aspects, let him see his self-confidence, his poor self-confidence is not worth mentioning in front of his own ability.

The most important thing is that Qin Yuan attaches great importance to his assault team. Although his training is a mess now, to be honest, the ability is indeed very strong. He only needs to make some changes according to the manual.

Then a brand new assault team can be born, which is simply free merit points. You must know that as long as he successfully trains an assault squad now, there will be an increase in merit points. This merit point can improve the system's capabilities. And it can be exchanged for other things.

In this way, everyone drove for another hour and finally came to the foot of a snow mountain. Chen Yongguang got out of the car, his face was very bad, obviously he hadn't recovered from the running just now.

In this high-altitude plateau area, it is really exhausting to run like this with heavy loads. Qin Yuan also saw their problem. Even though their team members had undergone special training, they couldn't stand it.

"I think so, why don't you take a good rest at the foot of the mountain today, what's the competition, how about starting tomorrow?"

Chen Yongguang wanted to refute at first, but he turned his head and looked at the condition of the soldiers in his team. If they compete directly with Qin Yuan now, they will basically lose.

In order to win, he can only let go of his previous dignity, and now he regrets that the decision he made back then has not been adjusted at all.

In this way, both sides started camping at the foot of the mountain, and Zhang Long's view of Qin Yuan also changed a bit. He had heard all kinds of legends about Qin Yuan before, and he always felt that this person was praised too highly. In addition, I have been bullied several times before.

He has never had a good impression of this person, but based on what happened in the past two days, he thinks that Qin Yuan is a team member who dares to stand up for himself, and then he is very considerate of others.

Just like the current situation, he can obviously rely on his own advantages to push forward. It can be said that he has a very large advantage to defeat them, but he did not do so. Such a person really makes him admire.

"Did you see it? This is a respectable opponent. He didn't take advantage of our weaknesses to defeat us, but waited until everyone's abilities and physical conditions were similar before competing."

"Not to mention anything else, I really admire him for this, but what's the use of it? I admire him, I will definitely defeat him."

Zhang Long shook his head. What he wanted to express was not that, but in some respects, Qin Yuan had already completely defeated them. He might have seen the final outcome, but he didn't say it now, because he also Don't want to affect morale.

A fire has already been raised on Zhang Long's side. Everyone plans to boil some hot water, drink some hot water, and then simply eat some compressed biscuits and beef jerky.

Unexpectedly, Qin Yuan and the others were sorting out the equipment, Zhang Long was a little puzzled.

"Captain Qin, what are you going to do? Don't you bring dry food? We have a lot here, so I can give you some."

"This one doesn't need dry food. Everyone is tired of eating during training. I'll take them over there to hunt some hares. If I remember correctly, there are a lot of hares in this snow-covered plateau."

Zhang Long was taken aback for a moment when he heard this, did he hear correctly? Going to hunt hares? This is too much of a joke.

"Captain Qin, do you have live ammunition?"

"How is this possible? We can only require live ammunition weapons when we have missions. We all use training sticks now."

"Then if this is the case, I think you don't need to go. This is a waste of time. We have trained here for a long time before. If we only rely on empty shells, we can't hit the hare at all, and the speed of the hare here Very fast, we could barely hit it with military dogs before."

"In this case, I thank you for your kindness, thank you for your reminder, but don't worry, you can stop eating these things, and wait until I go to hunt wild rabbits and give them to you."

Zhang Long just thought why didn't this guy listen to persuasion? Because they have been training here for a year, the hares on this snowy plateau are very good at concealment. arrive.

"Team Zhang, why are you talking so much? People don't appreciate it, you don't care about them, they have this energy, let them consume it as they please, let's finish eating and take a good rest."

"It's best for you to correct your attitude now. I find that you are getting more and more arrogant. Anyway, we are teammates at the same time."

Chen Yongguang smiled, he didn't have any teammates, unless they were on his own side they were called real teammates, the others were only opponents.

"Don't stand still, hurry up and go back to rest after eating."

Today has exhausted a lot of physical energy for them, so they must hurry up and rest.

After more than half an hour, Chen Yongguang did not hear any sound of shooting. After all, this place is very empty, even if it is empty, the sound of shooting can be heard.

He found it more and more funny, and just waited to watch the fun, he wanted to see this guy come back empty-handed, so he could take the opportunity to make a good laugh.

But the result disappointed him greatly. After a while, he heard them walking back talking and laughing. When he looked carefully, everyone was holding a hare in their hands.

What's the situation? He couldn't believe his eyes at all. They were very lucky to meet two or three occasionally before, and that was after a day of training. I didn't expect them to hold one each. This is too exaggerated!

Qin Yuan stepped forward and deliberately shook the hare in front of him, "Hey, Captain Chen, I also said to invite you to eat hares. Look at this, you are resting."

Chen Yongguang was very dissatisfied, but he could only bear it, and said angrily, "Yes, we have already rested, you'd better keep your voice down, and don't disturb our rest."

Qin Yuan smiled when he heard this, and said nothing, and then everyone dealt with the hare beside him. After ten minutes, a smell of barbecue wafted over, and Zhang Long swallowed silently.

What can be done now? If Chen Yongguang hadn't made the relationship so stiff before, maybe he could still be cheeky now, but he can only watch others eat meat.

Balang also intentionally tore off a rabbit leg to avenge his past, "Brother Qin, I have to say that your skill in roasting rabbits is really superb."

"After all, these rabbits are all on the plateau. has very good meat. They run around every day. Finally, I have a chance. Let's have a taste."

On the side of Chen Yongguang's commando, the team members smelled the smell of meat wafting from outside, so they could only silently swallow their saliva in their sleeping bags.

Qin Yuan's move is really murderous, so Qin Yuan and the others started to rest after eating and drinking. Anyway, he already has a plan for tomorrow's competition, and he will start to crush Chen Yongguang in many ways. Let him know what is real strength.

Before dawn the next day, Qin Yuan heard the commotion outside, Chen Yongguang and the others had already woken up, wishing to check his watch, it was only five o'clock.

Then they actually started to do push-ups in the snow, Qin Yuan came out yawning, it was still dark and it was dark outside.

Zhang Long also stood beside him with his hands behind his back, watched Qin Yuan come out, and greeted Qin Yuan politely.

"Captain Qin interrupted your rest, but I hope you don't mind, this is our normal training time."

"Not really, I'm just curious, since you all have to compete with me? Why do you continue to train? Shouldn't it be to maintain physical fitness?"

Before Zhang Long could explain, Chen Yongguang next to him said first: "That's because our soldiers are absolutely not allowed to relax on any day. Even if it is a rest day, we will continue to train, every day."

It seems that Qin Yuan, who was trained in this way, shook his head. This kind of training method is really too powerful. After long-term training, it can only become a training machine.

The training should not simply increase the intensity, but should be loose when it should be loose, and tight when it should be tight. These soldiers simply cannot bear the long-term super-intensity.

Chapter 1213: sniper confrontation

Qin Yuan turned his head slightly and looked at the soldiers who were doing push-ups. Everyone's faces were full of exhaustion, but no one dared to complain, and they continued to repeat the movements mechanically.

"Captain Chen, with all due respect, your training method is too problematic. You have to know that they are all normal people, and it's not that if the machine keeps rotating all day long, problems will arise."

"There is no need for you to say anything here. We have been training this method for three full years, and there is no problem. This is my business, and you don't need to intervene."

"That's right, I almost forgot, you said before that after I completely defeat you, then you can all worship me as your teacher, and when I become your master, I can guide you. Now, Or should I let you practice first?"

Jiang Xiaoyu stretched out and walked out. After all, the movement outside was indeed too noisy, and she couldn't sleep at all.

Qin Yuan walked over and pulled him, and pushed him into the tent, what time is it now? What Chen Yongguang said was right just now, they have to complete the training goals that they needed to complete before 8 o'clock, and then they will compete with Qin Yuan.

"Brother Qin, what are you doing? I wonder if there is something wrong with these people? They don't sleep this early in the morning, what kind of training are they doing here? Didn't they promise to rest?"

Qin Yuan shook his head, thinking that this kind of behavior is not stupid, anyway, he disagrees very much.

"This is also their own training method. We have no right to interfere. Now just go back and do your own thing."

"I really can't understand it, but what I'm worried about is whether they will deliberately say later that they lost to you because they trained too much in the morning. These people are very cunning."

"Don't worry, at least this Chen Yongguang will not be so despicable. Although they have played a lot of tricks before, I think he should have no problem in this regard."

Jiang Xiaoyu yawned and planned to go back to sleep for another hour. Anyway, just watching them train quietly, these guys really worked hard.

Qin Yuan had nothing to do and opened the training manual. He began to search to see which training method could be applied to the current commando. You must know that the physical fitness of this commando has completely exceeded their own limits.

Usually Qin Yuan's team training can be called devil training, but when he saw Chen Yongguang, he really felt a little bit inferior. The main reason is that Qin Yuan knows what a combination of work and rest is, but Chen Yongguang pursues results too much.

Such soldiers have both advantages and disadvantages. At least in terms of physical fitness, they don't need to use merit points to strengthen themselves. Their physical fitness has surpassed some basic levels of normal people, but other aspects can be improved.

This is a ready-made assault team. Qin Yuan just clicked on the manual, but unexpectedly the manual started to turn pages automatically.

This is also the result of the system upgrade. Before, the lover had to choose the appropriate training method according to the team's situation, but now the manual has already made its own judgment.

Qin Yuan frowned slightly looking at the training in the manual, which was even stricter than his training for the red blood cell team, and it was completely two levels.

This level of requirements can be said to have fully reached his personal level, can it really be so strong?

"System, is there something wrong with what you're doing? Can they hold on to such intense training?"

"Returning to the host is currently based on their system situation, and the system has made the most suitable plan for them. The accuracy rate of the system is 99%."

Hearing this, Qin Yuan nodded his head, then there should be no problem. It seems that we will follow the instructions of the system in the future.

Zhang Long looked at the trainees, and everyone was a little worried. If they usually deal with other people, he thinks it doesn't matter. This time they are dealing with Qin Yuan, and he is always in a state of agitation.

"I think it's almost the same. Now you don't have to insist on exercising for such a long time, because you are consuming their physical energy. You have to know what kind of opponent you are facing."

"This is my persistence. Regardless of whether there is training or not, I will definitely lead them to the end. Regardless of the competition, I will persist to the end."

"Are you crazy, kid? If you want to insist, I really won't stop you, but look at the current environment and the enemies we have to face."

Chen Yongguang looked at his watch, it was almost seven o'clock now, he turned his head to look at the tent, and sighed silently, indeed in comparison, in such an environment, they consume too much energy.

"Everyone has it. Now start simple dressing and washing, and we will gather in half an hour."

The people in the team breathed a sigh of relief silently. After all, they had no choice but to obey such high-intensity training.

Chen Yongguang wanted to win too much, and he really didn't want to consume too much physical energy. Of course, the matter followed him and said another sentence, which made these players fall into despair.

"Today's training will continue to make up after the competition is over. When will I make up and when will I rest?"

This guy's training can be described as abnormal. Every day's training goals are stuck. No matter what emergencies happen today, or even if there is a task to be performed today, they have to fully replenish the training for that day when they come back. superior.

This situation sounds very unreasonable, but they have persisted for three full years.

So these soldiers are already used to it, but in today's situation, it is really too much, because their training intensity is still very high recently, and after the competition with other commandos, they are still training.

Half an hour later, when they were resting, Qin Yuan and the others also came out. Qin Yuan just stretched his waist and didn't intend to close the tent.

He originally intended to face these guys alone, but as for Jiang Xiaoyu, he let them stay at the foot of the mountain, it was no fun to go up with so many people.

"How? What kind of competition do you want? The most basic confrontation is fighting, or weight climbing? Anything is fine."

The corners of Chen Yongguang's lips turned up. He was very confident. He had been studying Qin Yuan all these years, "My team members will challenge you in every item. We have a total of eight people now, and all eight of us will challenge you."

"Of course this is no problem. All the projects are decided by you anyway, and I will accompany you to the end."

"How about this, avoid spreading the word that we are bullying you because of the number of people and the number of people is small, as long as you can beat the four of us, then I will count you as the winner."

After all, after four people, half of the victory has already been won. Chen Yongguang felt that Qin Yuan had won in this way.

Qin Yuan waved his hand, this is not what he wanted to win, "I want to defeat all of you, this is my ultimate goal, otherwise there will be no meaning of teaching, use all the tricks you have."

Chen Yongguang clenched his fists, he still felt that this was a provocation, it was too arrogant to challenge the eight of them alone, you must know that their assault team is different.

If this is the case, I should give him a good shot. In this way, Chen Yongguang sent a person in the team. Qin Yuan looked at it, and it was the sniper that day.

"Captain Qin, how about this, let's start with the first level, the sniping on the plateau, do you dare to challenge?"

"There's nothing you dare not do, you can play as you please."

I have to say that Chen Yongguang played a lot of tricks. To be fair, he asked Jiang Xiaoyu and the others to send people to the opposite side of the mountain and start flying the balloons.

The color of this balloon is also quite special, almost transparent, including the line is also a fishing line, it can be said that it is really difficult to distinguish.

If you look closely, it seems that the target of this balloon is quite big, but you must know that this is a snow-capped mountain, and there is a vast expanse of whiteness everywhere. What they have to challenge is not only the harsh environment, but also a test of eyesight.

It was just over 8 o'clock, Jiang Xiaoyu and the others climbed up the hillside, already feeling the strong wind.

Qin Yuan and the others had already found their respective positions below and were waiting, Jiang Xiaoyu's lips turned pale.

"If you want me to say that they are playing too big, such a long distance, even if you can't see anything clearly from the sniper, and the wind is so strong, even if I let it out from here, I probably won't be able to fly anywhere. Know."

"Anyway, I think Brother Qin can definitely hit him. I admire his marksmanship the most in the entire military region."

"Can you stop talking? Hurry up, it's too cold, and the temperature is too low."

Balang kept urging them from behind, telling them to go faster. It was too cold in the mountains. It was only after 8 o'clock, and the wind was so strong.

Their challenge this time is not only the color of the balloon, but also the height is very difficult to challenge according to the location where Jiang Xiaoyu and the others put it. According to this distance, the shooting range is far more than 1,000 meters.

Deng Jiuguang was holding glasses at the foot of the mountain, observing the people who released the balloons. Their figures almost merged with the mountain. It was hard to tell that even people could not be distinguished at this distance, let alone remind the balloons.

Soon Jiang Xiaoyu was ready, he ignited the signal flare, it was only used as a basic target point, from here he could only see a blurry figure, not to mention the balloon in his hand, he couldn't see anything at all not see.

Before Deng Jiuguang could react, Qin Yuan took the lead to shoot and hit a balloon directly. This is too exaggerated. His eyes were white and he saw nothing, including the opponents beside him. shocked.

Qin Yuan shot too fast, and his judgment was very precise, without the slightest hesitation, almost as soon as the balloon had just risen, he shot directly.

The person next to him was cheering on the sniper Dashan, "Shanzi, calm down, you can do it, it's okay, this is the first balloon and let's take our time."

For a sniper, he certainly knows that the first thing to do now is to stay calm, he can do it, but he is a little surprised, Qin Yuan's reaction is too fast.

He would never miss the second balloon. Standing in this position, Jiang Xiaoyu didn't know who hit the balloon at all. He just felt that the balloon had just been detached, and his palm was suddenly blown off.

Unwillingly, Chen Yongguang stared at the front with a high-power binoculars, and then there was another gunshot.

Qin Yuan still hit the second one, and Deng Jiuguang couldn't help applauding. You must know that in this case, the score, power and bullet speed will all be affected, and you have to judge by yourself, but Qin Yuan Yuan didn't hesitate at all.

Da Shan started to panic. You must know that this is really a very difficult challenge. To be honest, he was still aiming, but Qin Yuan's bullet had already been fired.

He always thought it was all good luck, but in the eyes of outsiders, it was already at the level of a super god, and the speed was really too fast. Then Qin Yuan made another move that shocked them.

"Well, if you don't think I'm bullying you in this position, I'll just step back another 50 meters."

After Qin Yuan finished speaking, he continued to back away, found a place, and then leaned down directly, with a relaxed expression on his face.

The position of the sniper is also very important, which is very beneficial to their judgment. Qin Yuan's position can be changed at any time, and he doesn't care at all.

Dashan became more and more anxious, but time waits for no one. Immediately after the third one, he was completely behind in the fourth one, because he didn't even have time to shoot, Qin Yuan's bullets and marksmanship were faster than He is fast.

Finally at the sixth one, he heard Qin Yuan fire a shot, but the balloon didn't explode. He saw hope, and just as he was about to shoot, the second shot from Qin Yuan's side rang out.

The balloon was blown up again, and Dashan didn't fire a single shot during the whole process.

He was a little unhappy for a moment, turned his head and said loudly: "The behavior you just did has already violated the rules. It was agreed that a balloon can only be shot once. What's going on with you? You can also make up the shot."

"No, I just typed in my own way, I wrote you too slowly."

"what do you mean?"

Qin Yuan yawned, and then patiently explained, "It's nothing, it's just that I broke the balloon's string first, and then exploded the balloon. I wanted to give you a chance, but unfortunately your speed is too slow."

The people next to him were completely dumbfounded. What kind of operation is this? Is this too exaggerated? You must know that what is tied to the balloon is wireless and nearly transparent, so how could it hit the fishing line?

Dashan couldn't believe it at all, let alone a fishing line, it was already very difficult for them to see the target.

Just when he was about to refute, Chen Yongguang stood up and stopped him directly. He really underestimated Qin Yuan's ability. He saw clearly under the high-powered telescope that Qin Yuan had indeed passed through the fish. Wire.

At this moment, Chen Yongguang looked at Qin Yuan with a strange face, and he always had a thought in his mind, could Qin Yuan control the speed of the bullet? You must know that when he was fishing just now, the speed of the fishing line seemed to be much slower, which made him wonder if he was dazzled for a while.

Chapter 1214: fighting competition

Because in that case, it seemed that the bullet slowed down on purpose to let him see clearly.

He quickly shook his head and abandoned this idea. This idea is too unrealistic, and he may cherish his dazzled eyes, but when he turned his head, he saw Qin Yuan looking at him with a smile.

How could anyone be able to control the speed? And the speed of the bullet, this idea is too nonsense.

"How is Captain Chen? Did you see it clearly just now? If you didn't see it clearly, I will show you next time."

The people next to him were confused, only Chen Yongguang understood what was going on, could it really be that way? Then this is too scary, he can control the speed of the bullet, how did he do it?

He couldn't believe it, so he quickly picked up the binoculars, Qin Yuan looked at him specially, "You have to watch carefully this time, I will demonstrate it again for the last time."

The mountain next to him was unknown, so he didn't know what kind of tricks Qin Yuan was going to do, and he was also a little nervous, with sweat on his palms. This was the most nervous time he had ever been in training or competition.

The strength of the two of them is completely unequal, this is not a matter of level, so his palms are already sweating, and he has no way to fully aim at the target, and then another balloon appears, Qin Yuan still fires two shots.

This time Chen Yongguang saw it clearly, the first bullet was absolutely slow, and he saw it, and the second bullet hit the balloon. The speed was so fast that it was almost disconnected. Instantly fire a second shot.

Chen Yongguang's eyes widened in astonishment, he couldn't believe that someone could really do such a sharp shot.

Even if he asked his men to select the best snipers in the entire military region for ten years of training, he didn't know if he could catch up to this level.

He even forgot to put down the binoculars in surprise, and has been standing there in a daze.

Dashan didn't fire a single shot from the beginning to the end, and this competition ended like this. Deng Jiuguang and the others applauded beside him. To be honest, Qin Yuan exceeded his expectations time and time again. Before he felt that Qin Yuan had arrived. A great height, but now he feels that no one can surpass it.

Dashan held the sniper rifle tightly. In his field of expertise, he has been training for so many years, but he still lost.

"Boy, in fact, your talent is quite good, why don't you dare to shoot?"

It's really a murderous taunt. It's not because he doesn't want to shoot, but because he has no chance to shoot. Qin Yuan's speed is too fast, and he is not allowed to shoot again.

Dashan walked down slowly with a dark face, and the players around him didn't say a word, after all, if you lose, you lose.

"Look at what you are so discouraged about. It's just the beginning. There's still a lot to come. Take your time. What's the next project?"

In the middle of the row, a thin and small man came out, his eyes were very calm.

"I want to challenge you to fight."

This surprised Deng Jiuguang. He originally thought that the master fighters were the two stronger people next to him, but he didn't expect it to be this thin and small man.

This small and thin man is called Monkey. As the name suggests, he is indeed quite thin, but his best trick is four or two thousand gold. Every time he succeeds in a fighting challenge, the opponent is stronger and stronger than himself.

In addition to strength, the most important thing in the fighting he has mastered is skill. Balang is one of the best in wrestling on the grassland. Combining the fighting he learned in the army, his close combat is absolutely fine. Lesson learned.

Deng Jiuguang walked to the side and lowered his voice, "This kid's tricks are very fast. Balang was defeated by him at that time, so be careful."

Qin Yuan still smiled without saying a word, no matter what tricks the other party used, he could follow.

But the place where the monkey chose to challenge was not here, but a lake tens of meters away from here, and now that lake has been completely frozen.

Everyone followed them to the thick ice on the lake. It was absolutely no problem for people to step on it, but they didn't wear professional anti-skid shoes on such ice, they were just ordinary training shoes, which were prone to slipping.

Jiang Xiaoyu and the others also followed, and just as they walked onto the ice, they threw themselves on their backs and fell heavily.

"Hey, I'm going, you guys don't come here, the ice is too slippery, the sun is out now, does it feel like the ice has melted a bit? There's water underneath, it's not good at all."

This is what the monkey wants. His figure is very sensitive, and he walked slowly to the ice surface, and then stabilized his figure. Qin Yuan noticed that his lower body is very stable. This kid should have practiced it since he was a child. Basic skills.

Qin Yuan didn't panic when he saw this scene, he also walked up, and then smiled at them.

"It's been a long time since I showed it. Today I will show you what Drunken Fist is."

The monkey burst out laughing when he heard this. It wasn't that he looked down upon it, but that the melee combat and attention were all related to Drunken Fist. Of course he knew that this was a kind of traditional martial arts, and he used traditional martial arts to deal with opponents in actual combat. Fighting, isn't this a joke?

Anyway, no matter what, he is bound to win this round, and he can definitely win this round.

Qin Yuan started to wobble as soon as he reached the ice, and Chen Yongguang next to him was a little puzzled, what was going on with this kid?

The team members standing on the shore also breathed a sigh of relief. It seems that what Qin Yuan said just now was just to scare them, and nothing more.

After all, he had just gone up, and he felt that his steps were not stable, and he was staggering on the top, but Liu Xiaoshan had a different opinion. Liu Xiaoshan had studied traditional martial arts before.

He kept staring at Qin Yuan's legs, although it seemed that they were wobbly, but every step he took was very beneficial, firmly attached to the ice surface, without any shaking at all, only the upper body was shaking.

This kind of situation is the most difficult. You must know that you can do this kind of action on a flat surface, but this is very slippery on the ice itself. It is really difficult for him to control the strength of his whole body and stabilize his figure. up.

With the sound of the whistle on the other side, the game officially started. Qin Yuan wanted to convince them, so this time he didn't hold back at all, and took the lead. The monkey didn't see Qin Yuan's moves at all, but only saw A figure ran towards him quickly.

He hurriedly dodged it. It has to be said that the monkey's figure is still quite sensitive, and he was able to stabilize it even in this situation.

But Qin Yuan was stronger, his speed was very fast, and he was not affected in the slightest on the ice. As soon as the monkey lowered his waist, Qin Yuan's foot kicked out directly, directly hitting his thigh.

Before the monkey got up, Qin Yuan rushed forward and grabbed his shoulder, and fell directly over his shoulder, and then posed a beautiful posture. The monkey fell heavily on the ice, and Qin Yuan also fell down He went down and made a gesture of drinking.

But the monkey was surprised. Qin Yuan didn't seem to weigh much, but he was pressed down like a thousand catties, and he couldn't move. At this moment, the monkey's face was tightly pressed against the ice, which was very uncomfortable.

Qin Yuan didn't intend to just let him go. First, he got up to give the monkey a chance to breathe. The monkey punched him hard. This kid was really fast.

He then dodged his wobbly figure and punched twice in a row. The monkey had no time to guard against it, and was directly hit hard in the chest.

The main reason is that Qin Yuan's punching speed was too fast, which made him dazzled for a while, and it was too late to guard against it.

It was this kid who broke Yang Xiaohu's ligaments at that time. To be honest, he was really cruel.

But Qin Yuan didn't intend to treat him in that way, after all, it's just a matter of pointing to the end, and if he does this, he's just playing a monkey.

Gradually, everyone also saw the clues. Qin Yuan just clicked to the end every time, just to tease him, mainly to improve the monkey's physical fitness, and then punched him again from time to time. Such a sneak attack made the monkey very annoyed.

On such a silky ice surface, Qin Yuan's figure was still able to maintain his composure. After playing for a while, Qin Yuan felt that it was almost the same. After all, the monkey's physical energy had been completely exhausted. He stood opposite and gasped heavily. I can't straighten my waist anymore.

"Boy, this lesson is taught to you for free. What does it mean to stop? Do you understand? Sometimes the shots are too heavy. You are not only hurting others, but also yourself. The murderous intention is too heavy."

Houzi was a little suspicious just now if he was really teasing him, but now he is more sure, he instantly became angry and rushed to the money, unexpectedly, Qin Yuan grabbed his collar and threw him flying with great strength .

The monkey quickly flew out on the ice and slid more than ten meters away. He hit the ice in various ways and couldn't stand up for a while.

This can be regarded as a small lesson for him, and Qin Yuan has stopped enough, the team members next to him hurried forward.

"I've already put in enough effort. I didn't expect this kid to be so weak. It's really boring."

After he finished speaking, he clapped his hands and returned to the shore. The monkey was very embarrassed and was carried over the ice by several people.

Balang was really relieved when he saw this scene, because this kid didn't stop at all when he hit someone.

He was in the beast camp at that time, and he was directly pressed and rubbed on the ground by this kid. Many people saw it. He really felt that it was too embarrassing. Looking at this scene now is very relieved.

Qin Yuan couldn't wait to have another interview with Chen Yongguang, and it became more and more serious. He didn't expect to be so willing, and after these two rounds, there were no problems at all, and it was very relaxed.

You must know that this is a high-altitude area, and the test is not only his personal comprehensive ability, but also his physical fitness. In this case, he just punched so many punches without breathing.

Chen Yongguang thought about it, and now he can only send another one, because he already knew very well before that Qin Yuan didn't seem to have much intake of heavy weapons.

"Da Lei, come out this time."

The man named Da Lei was the tall and strong man Qin Yuan saw before. He remembered that when he was fighting against the Black Tiger Commando, this guy used heavy weapons.

It's just that their competition is a little different this time. Chen Yongguang seems to have made preparations long ago. After a while, he saw two helicopters hovering above their heads.

Deng Jiuguang heard that their competition was really unheard of. They actually had to use heavy weapons to hit ground targets during skydiving, and the one who hit the most targets won.

But it was too simple for Qin Yuan, because he had already done this kind of training before, and what he was carrying was the parachuting training of tanks and chariots.

But this kind of operation is similar to that theory. If you only carry heavy weapons, you have to maintain your figure during the skydiving process. After opening the parachute, you must quickly aim at the target. Not only must you maintain your figure in the air, but you must also aim at the target. , is indeed quite difficult to do.

To be honest, Qin Yuan really admired the people Chen Yongguang trained. He said that most of them are talents, but such high-intensity training will really cause problems after training, so it is better to leave it to himself early.

This time Qin Yuan still accepted the challenge without any pressure, and they boarded the helicopter just like that with the bazooka on their backs. Jiang Xiaoyu and the others also began to set up ground targets.

Zhang Long was a little worried, because they had done this kind of training before, but they rarely did it again. They had done this kind of skydiving in the plateau.

"Are you sure there is nothing wrong with Dalei? Will there be any accidents at that time? The altitude here is different. It is too difficult to skydive."

"Da Lei has succeeded twice before, so I think there should be no problem."

Chen Yongguang said this very calmly, because he felt that as long as he succeeded once, it would be fine, but in Zhang Long's view, it was all nonsense.

"What are you doing? You're just kidding with his life. Do you know what that means? If there's a problem in the air, no one can save him."

"But he has succeeded twice before, I think there is no problem."

It was too late to say anything now, after all they had already boarded the plane, Zhang Long was a little nervous, he was closely watching the situation on the helicopter.

There is no rescue at all in the high altitude, and you can only rely on your own ability.

Jiang Xiaoyu and the others have arranged the ground targets. In the vast white snow, the ground targets have already been hidden, and it is easy to confuse the other party.

This undoubtedly increases the difficulty. Zhang Long has only one thought at the moment, hoping to get down safely and not to have any problems.

The two of them had to maintain the same level, and then set off at the same time. At the moment when they parachuted from the helicopter, Qin Yuan even made a difficult move. He did a 360-degree backflip and went straight out of the cabin.

Da Lei is relatively ordinary, their training is mainly about safety, and Qin Yuan has long been accustomed to these things.

Chapter 1215: weighted confrontation

I have to say that Da Lei's mentality is quite good. In this case, he is still calm and composed, checking his equipment. This kind of mentality is really good. After all, the opponent has already gone down, but he still doesn't panic, because he is in the middle of the sky. No mistakes are allowed.

In fact, he was still very nervous, because he had only succeeded in this situation twice before, so he was very worried.

After Qin Yuan jumped off, he checked his equipment and got angry, and jumped down straight away. The strong wind was blowing in his ears, and he felt a little short of breath. After all, this is a high-altitude area.

Qin Yuan's speed was very fast, and he didn't hesitate. When he reached the position below, he opened the umbrella directly, and the parachute opened in an instant, and immediately followed him to attack the ground target directly.

The wind below made him sway, but the movements of his hands were very stable, and every target was focused very precisely. Soon the four targets on the first side were completely hit, and the people below burst into cheers.

Zhang Long looked at Da Lei nervously with the binoculars. He was looking for a suitable opportunity to open the umbrella. Da Lei became more and more nervous. This did not come from his personal emotions, but an instinctive reaction of his body.

He felt that his breathing was not smooth, and he had a feeling that his throat was just blocked. He took a deep breath, but it was not relieved. In the end, he had no choice but to open the parachute in a panic.

Even under such circumstances, he still insisted on completing his task. Qin Yuan next to him noticed something. After finishing the other targets, he left a target that was easier to attack.

This Dalei is a respectable opponent, and his psychological quality is relatively good from the beginning. Qin Yuan also wanted to give him a chance. Dalei looked at the target on the ground, gritted his teeth and fired directly at the target. It is a pity. Biased.

However, this was done at high altitude and at a high altitude, which is already very good. He relied entirely on his own beliefs. At this moment, his ears were already bleeding, because he was under such high-intensity pressure.

He stabilized his figure, his hands were already trembling, but he still fired the second shot. After the second shot, it only hit the edge, but it was already very close to the target.

He still wanted to hold on, but it was too late, because the position of the parachute was slowly facing down, and he had to be ready to land now.

Qin Yuan, who was beside him, had already landed beside him very early, and slowly dispersed, just watching the excitement.

Da Lei got down from the parachute, but he didn't stand still, and got tangled up with the parachute. Seeing this, the people next to him rushed up to strike Thunder. This was due to lack of oxygen. His lips were completely white. Come to the oxygen tank.

He didn't care about his physical condition at first, but felt a little guilty, and looked at Chen Yongguang next to him.

"Captain, I'm sorry, I really tried my best, but you know, I've only done this twice successfully, and I haven't done it at such a high altitude."

Chen Yongguang didn't say anything, but just helped to untie the parachute from him. This continuous competition gave him a new view on Qin Yuan's strength.

Dalei was beside him, his body trembling uncontrollably, he had reached the limit of his physical strength, he was already very reluctant in that situation, at this time Zhang Long walked over, watching him trembling uncontrollably, the people next to him were also a little bit in a hurry.

You must know that there is a border military area closest to them in this place, but it takes more than two hours for them to drive there.

If there is any accident in this place, it will be troublesome. Although they carry emergency medicine with them, some things still require professional equipment.

Fortunately, Da Lei didn't have any serious problems, but in the high-altitude hypoxic situation, coupled with the high-altitude environment, he was a little uncomfortable, and now he is much better after inhaling oxygen.

Da Lei slowly got up, his lips were still a little pale, he was resting beside him, and he looked at Qin Yuan in front of him.

This person made him feel too strong, they were not on the same level at all, he had easily completed the parachuting and hit the target with such precision, and the last target was left for him on purpose.

He didn't know how this person did it, did he also train hundreds of times? That is really too strong, no matter how others do it, they can do it.

Looking at the successive failures, Chen Yongguang was a little anxious. He had clearly investigated before, and Qin Yuan had almost never trained at such a high altitude. Why? He turned out to be like a normal person, as if any training and competition couldn't trouble him.

At this time, a member of the team named Wu Yun came out. His role in the team is an assault type. He is very strong in reconnaissance and counter-reconnaissance, and his overall quality is also good in all aspects. He plans to come out and meet Qin for a while. deep.

"The captain let me play this time. I'll see if I can challenge him in other aspects. Since he is so good in other aspects, why not challenge his foundation."

They also began to discuss using other methods. After all, this is not going to work. If they lose one after another, the entire team may really lose.

"What do you mean? Basic training?"

"Yes, I said that if he is strong in other aspects, it is better for us to lower the standard. We have already competed with him in other aspects, so it is better to compare basic training. My weight is absolutely fine, you know ."

Chen Yongguang is also struggling. In this situation, he has no choice. Is it really okay for him to do basic training with the highest chance of winning?

"Captain, let me give it a try. Maybe there is hope to continue like this. Time is also a problem."

Chen Yongguang could only nod his head. Now he has no choice but to see if he can defeat Qin Yuan with this kind of basic training, at least let them win once.

Qin Yuan originally thought they would come up with some tricks, but he didn't expect to stand up suddenly and say that he would carry out weight-bearing climbing training.

It's really funny to say this, he hasn't played this kind of thing for hundreds of years.

"I said, are you serious? I didn't play this kind of pediatric stuff when I was in the recruit company."

Wu Yun said coldly: "Captain Qin, it's a little too much for you to say this. Did the recruits carry 50 kilograms? What I'm talking about is that in this high-altitude area, we carry 50 kilograms, and then we will compete with whoever comes first." Climb the opposite snow mountain."

"Yeah, I really think you're joking with me. Are you sure you want to compete with me? Then it's up to you."

Qin Yuan spread his hands helplessly. These guys didn't know what they were thinking, but they chose what he was very good at. If you want to compete in endurance and strength, you are absolutely fine. What is this 50 kilograms?

Wu Yun had already made a decision. He sat next to him and warmed up to prepare for the 50kg test. Not only did he test his strength, but also his overall endurance. Looking at the distant snow-capped mountains, people couldn't help but tremble.

But since he joined the army, he has trained endurance. His physical fitness and endurance are stronger than ordinary people. He thinks there is no problem, and he has done this kind of training before.

Wu Yun was already ready, he took his backpack and set off without saying a word, but he turned his head and found that Qin Yuan was still where he was, he was a little puzzled, what kind of tricks is this guy trying to do?

The teammates behind him waved to him, telling him to ignore what Qin Yuan was doing and just run towards his goal.

And Qin Yuan was leisurely bragging with Jiang Xiaoyu and the others, which was simply too insulting, and Chen Yongguang was a little unhappy when he walked over.

"Captain Qin, I think no matter what, you should respect it, respect your opponent, and respect our rules. Now that the game has started, don't you plan to start?"

"I'm sorry, it's because I respect my opponent that I didn't set off. If I set off now, I would have already reached the top of the mountain."

what! This guy's tone is too arrogant, this is completely looking down on people, Chen Yongguang doesn't want to say anything more, anyway, let him go, if he likes to set off, it's better if he stays where he is.

After a long while, Wu Yun was nowhere to be seen. Only at this moment did Qin Yuan slowly lift up the backpack. The 50 kg weight in his hands was like carrying a small chicken, and he carried it on his body with ease. .

This kind of weight is simply too easy for him, and he didn't run, he just walked slowly, just like traveling.

Chen Yongguang later felt that this was really disrespectful, and this guy probably wanted to release water on purpose.

He clenched his fists tightly, but Zhang Long beside him shook his head. He had a different opinion, maybe what Qin Yuan said was true.

"I don't know, do you remember that this guy seems to have broken through the limit when he was in the recruit company? He was attached to 60kg at that time."

What? Chen Yongguang couldn't believe it, why didn't he know about this? He felt that he knew Qin Yuan well enough. Of course, he thought about it carefully. He only started to know Qin Yuan after he became famous, and he knew nothing about him in the recruit company.

If so, it would be too difficult, but he changed his mind, his soldiers had been trained in these high-altitude areas before, so it shouldn't be a problem.

Because the road to the snow mountain is Panxuan, I can't see what they are like at all. Time passes by every minute and every second, half an hour has passed, and there is no movement.

Jiang Xiaoyu kept looking forward, but couldn't see any results. They were not worried about Qin Yuan, they just sat down cross-legged, and then got up to compress the biscuits.

At this moment, Balang seemed to have discovered something. He quickly pointed to the top of the opposite mountain.

Because he clearly saw a signal flare fired from the top of the opposite snow mountain, the two of them held different signal flares.

Qin Yuan was holding a blue one, while that Wu Yun was holding a red flare. As long as they reached the top of the mountain, they could fire the flare.

Chen Yongguang stood up excitedly, which was too exaggerated, and he climbed up directly in half an hour.

And Qin Yuan was still leisurely before, and it took about ten minutes before he set off. This kind of physical fitness is really too scary. At this moment, Qin Yuan has already descended the mountain. He saw Wu Yun when he walked halfway, and Wu Yun's face was pale at the moment. , he was very tough.

The main reason is that the weight of 50 kilograms, coupled with the high altitude, is already a very big challenge to physical fitness.

Qin Yuan also kindly reminded him when he stepped forward, because now the victory has been divided, there is no need for him to go up.

"Brother, it's alright. You've tried your best. There's no need to continue walking up. It's just consuming your energy. Let's go. The victory has already been won when we go back."

Wu Yun knew the result halfway through the walk, because he saw Qin Yuan's back getting farther and farther away from him, and he knew that his physical fitness was no longer dominant at this time, Qin Yuan was completely against the sky Same.

"You don't need to worry about this, I will go up by myself, don't worry, this is my own persistence But your persistence is meaningless, we are just an ordinary competition, and now the victory is over Come out, there is no point for you to go up."

"Don't worry about it, I will take responsibility for what happens."

Qin Yuan put his hands behind his back and looked at the guy in front of him. To be honest, he liked it quite a bit. He was aiming at this unwillingness to admit defeat. He knew the result, but he still wanted to accomplish his goal step by step.

He stepped forward and patted him on the shoulder, and quietly gave him a little merit point, which can be regarded as a little bit stronger, so that his physical strength will not make him fall halfway, otherwise his situation is precarious, and he might fall down at any time Down.

After all, he has a lot of merit points for him now, and besides, if he wants to form a commando later, the merit points are also within his grasp.

In the eyes of everyone looking forward to, Qin Yuan walked back with big strides, still looking relaxed, he easily threw his backpack aside.

Zhang Long was a little worried. After all, he hadn't seen any news about his own people. The main reason was that time passed too fast. Qin Yuan went up and down the mountain in less than an hour. It was really against the sky in this high-altitude area. up.

"Don't worry, don't look at the one who can't see him. I saw him in good condition before. This kid is dead-headed and insists on climbing up by himself."

How can you breathe a sigh of relief when you hear this? At least there is love to confirm that there is no problem, so he can rest assured that he cares more about the physical condition of these players than winning or losing.

If something goes wrong with them, he can't be responsible. This commando team has been established for so long, and the daily devil training makes him feel terrified.

Chapter 1216: Just to challenge you!

But even in the face of such a devil's training, he can't do anything, because he made a rule with Chen Yongguang before, and Chen Yongguang is responsible for all training matters. Although he is the team leader, he can't interfere with it.

During this training period, only he, the team leader, knew exactly how many problems went wrong. They had sent away more than a dozen players intermittently. You must know that these players were all selected from the whole country.

Moreover, most of the players who went out from them were in shopping malls, and had to quit due to physical reasons. This kind of training has completely exceeded the limit of normal people.

And the players they left behind are fully adapted to this physical limit, so they can stand this kind of training.

But every time he was very worried, he was always worried that something might go wrong.

Qin Yuan sat beside him with a relaxed face, not even a little sweat on his body, which made Chen Yongguang feel a little strange. He even suspected whether Qin Yuan was cheating, so he couldn't help but stepped forward and kicked his backpack.

"Captain Qin, you are too relaxed, it really makes me suspicious."

"I know what you're thinking, you can see for yourself."

After Qin Yuan finished speaking, he threw the backpack directly at his feet. You should know that he lifted the 50 kg load easily. Chen Yongguang walked over and lifted the backpack with the strength of his hands. This is too exaggerated Alright.

At first, he really doubted whether Qin Yuan was cheating, but such a backpack was absolutely impossible. He even wondered whether Qin Yuan would secretly lighten his load halfway through the climb, but the knot on the backpack made him fall into deep thought.

This time the result was already doomed, and everyone waited for nearly an hour and a half before seeing Wu Yun in the distance, running over staggeringly, his physical strength had reached its limit, and the whole figure was fished out of the water Like coming out, sweating profusely.

He just ran over when he collapsed on the ground. To be honest, Qin Yuan respected him quite a bit. He walked over to look at Wu Yun who was panting heavily.

"Although you lost, you are a very respectable opponent. In this case, you not only challenged yourself, but also challenged your own will."

Wu Yun couldn't listen to anything at the moment, he just felt black in front of his eyes, and he passed out immediately. His whole body was in a state of collapse, and the people next to him hurriedly unbuttoned him and unloaded his backpack.

His problem is not big, but he has reached the limit of his physical fitness and is in such a high altitude area, so he really can't hold on.

Seeing this scene, Zhang Long felt more and more that this kind of competition should not be continued.

"Enough, now that you've tried it, I think that's it, and stop messing around."

"Team Zhang, what do you mean by that? Are we going to give up now?"

"Look at your team members who are injured, injured, and comatose. What problems do you have to come up with before you give up? Besides, the result is already obvious. Half of your entire team has already lost. What do you want to do?" Sample?"

This is the first time that Zhang Long has such a fierce opposition. What does Chen Yongguang usually do? Zhang Long wouldn't even say a word, but he really didn't allow these soldiers to have any problems.

They are the last hope of the commando team. After setting up the commando team with great difficulty, if there is any problem later, the higher-ups will directly blame it.

In addition, he really didn't want these soldiers to have any more problems, because looking around the entire military region, there were really no candidates. They expanded their targets infinitely, and now there are only a few people.

"Anyway, no matter what, this time the competition is up to now, I won't allow you to mess around like this again."

Chen Yongguang wanted to say something, but he turned his head and looked at the rest of the soldiers. He didn't know what to do for a while. Now more than half of them have already competed and lost completely. What can the rest do? manage?

He has also learned a lot of probability abroad. According to probability, their team has more than half of the casualties, and it cannot be regarded as a real victory.

He sighed helplessly, there was really no other way, Wu Yun next to him hadn't woken up yet, and everyone was giving him oxygen.

At this time, Qin Yuan came over to check the situation. Wu Yun's condition was not very serious, but simply speaking, he was too exhausted and tired. Just let him have a good rest.

"What about Captain Chen, do we still have to compete now?"

Zhang Long shook his head, he didn't give Chen Yongguang a chance to speak, he directly rejected this competition, and then lowered his attitude a lot.

"Captain Qin really showed me something different in this competition. To be honest, I really admire you. Congratulations this time, you won."

"Isn't this going to happen sooner or later? It's just that I'm still a little unconvinced when I look at Captain Chen."

As soon as the words fell, Chen Yongguang stood up directly with his fists clenched, "No, I still want to challenge you this time. I don't need my team members to challenge you, I will challenge you personally."

Zhang Long was very angry beside him, why didn't this guy listen to persuasion? What I said to him just now was completely useless, and he pushed Chen Yongguang away.

"I tell you, now you obey my order and sit down, don't talk about those messy things here."

"Team Zhang, just give me this chance. I know that if I don't take advantage of this opportunity, I will really have no chance. I just want to challenge him. This is my wish, do you understand? I formed this assault The group was also there to challenge him."

Every word Chen Yongguang said hit the point. He was doing it for Qin Yuan. No matter whether he wins or loses, he must fulfill his wish.

Qin Yuan knew that if he was not given this opportunity, it would only be endless.

"Okay, I agree with you, this way you don't implicate other people, if you want to compare, you can do anything."

"Okay, that's what you said! I want to challenge all of you, including the tactical guidance you said in the hunter school. I want to challenge everything. I want to show you what makes a good commander."

Qin Yuan always felt that what he said was very familiar, as if he had said it before, he looked at Chen Yongguang.

"Have we had any problems before?"

"Of course people like you don't remember, but I just want to challenge you. I want to tell you that your method is not good at all. I am the best instructor."

Qin Yuan really can't remember any intersection between this guy and himself before? He really didn't have the slightest impression.

But after today's ups and downs, it was almost dark, so everyone decided to have the final competition tomorrow morning, this time between him and Chen Yongguang.

Because the two of them were going to compete the next day, Chen Yongguang didn't know where he went, and he hadn't seen anyone. Qin Yuan knew that there were injured people in their team today, so he shot a few hares on purpose. I can send it over.

"Captain Qin, I'm really sorry about this matter today. I didn't expect him to say that suddenly. I thought this matter should end now."

After all, he was short-handed and short-mouthed to eat people. Besides, Zhang Long also gradually discovered that Qin Yuan had no hostility towards them at all, and it was entirely their own imagination.

Looking at the roasted hare in his hand, he was even more ashamed. Looking at his demeanor, he didn't regard them as any opponents from the very beginning, but just as comrades-in-arms, and everyone guided each other.

"Team Zhang, it's a little too outlandish for you to say this. It's okay to say it again. Anyway, it's normal for young people to be unconvinced."

"Actually, he thinks this way because of his experience many years ago. I don't know anything else that is too specific, but I still know more or less."

Qin Yuan was instantly interested when he heard this, and he was quite curious about this person. After Zhang Long's narration, Qin Yuan suddenly realized.

In addition to the previous training and elimination, they had another intersection, that is, in a selection. At that time, Qin Yuan was only performing some basic selections on behalf of the special warfare team.

But Chen Yongguang also participated, but at that time more than 100 people signed up, and he was eliminated in the third batch of candidates.

In that case, Qin Yuan didn't even remember his name, he was eliminated directly, and in his opinion, that kind of insulting training, he was very disdainful, so he secretly wrote it down, he felt that Qin Yuan His training is not good at all, he will go abroad to study, and learn a set of training that is exclusive to him.

"Actually, don't blame him. It's really extreme that he has such thoughts, but generally speaking, he is doing it for everyone's benefit. Sometimes I have persuaded him."

"I know what you mean, but won't there be problems if you continue to train like this? Think about his training methods for yourself."

After Qin Yuan finished speaking, he left directly. He didn't want to say anything more about those who were still confused. Zhang Long, as the captain, should be responsible for these soldiers. You must know how many soldiers have been trained below. Soldiers, this is a shadow of life for others.

Zhang Long sighed silently. It's not that he didn't want to, but sometimes he couldn't help it. He also wanted to do a lot of things, and he tried his best. score.

In this way, the next day, Chen Yongguang stood at the door of the tent fully armed, and he was waiting for Qin Yuan.

Chen Yongguang is very confident in his fighting skills. In order to train his fighting skills before, he worked very hard. He directly threw himself into the black boxing ring in the underground black market, and then fought with those people.

You must know that in that situation, as long as he got on the front desk, life and death were in his own hands, and he had to work hard to fully train his fighting skills in that situation.

So he is very confident now, and in addition to the fact that he has been carrying a heavy load for a long time, Jiang Xiaoyu and the others were a little surprised to see Chen Yongguang slowly untie the sandbag from his body.

"This guy is a lunatic. Under such circumstances, he was carrying a heavy burden from the beginning to the end."

"This is the reason why he is so good. You guys should learn a little bit, don't keep your mouth shut, just find various reasons."

Qin Yuan didn't think it was a big deal, but to be honest, he was really ruthless to him, and he was completely super strict.

"I have been waiting for this day for a long time. Fighting, marksmanship, military training command, I will challenge you, at least one of them can win you."

After so many rounds of competition, Chen Yongguang also understood one point, he felt that as long as he had a little victory, there would be no problem.

This time Qin Yuan gave him the greatest respect, before Qin Yuan planned to challenge him with one hand, but since this opponent has been preparing for so many years, he also has to give him enough respect.

In this way, Qin Yuan was ready. Chen Yongguang on the opposite side rushed over like an arrow on the string. After subtracting the weight, his body became much lighter. A heavy punch came, Qin Yuan slightly dodged it, and then he struck again at a very fast speed. .

Qin Yuan didn't care about it, and then kicked with a sweeping leg. Chen Yongguang reacted very quickly, and dodged a backflip. The people around were extremely nervous, and the two of them fought fiercely. Very intense.

In fact, Qin Yuan gave way to him, but this guy really has a lot of skills, and it's not easy to avoid his own tricks. You must know that Qin Yuan's speed is already very fast.

Chen Yongguang only felt a gust of wind, and he called towards him, and then Qin Yuan's fist appeared in front of him, he could only quickly raise his hand as a block.

The power of this fist was so strong that it knocked him to the ground directly, and then Qin Yuan grabbed his ankle and threw him out heavily.

Unexpectedly, Chen Yongguang took this opportunity to quickly climb onto Qin Yuan's wrist, and immediately wanted to lock his throat.

But Qin Yuan's strength is simply immeasurable, he grabbed Chen Yongguang's shoulders, threw Chen Yongguang off, and hit him ***** the face with another heavy punch.

After that, Chen Yongguang didn't have any power to parry at all. He could dodge before, but in front of such a fast heavy punch, he didn't have any chance to dodge at all.

He fell to the ground completely, and the people around were completely stunned. This fight was really exciting. It can be said that they were on par in the front, but in fact, it was Qin Yuan who let him all the time.

Chen Yongguang seemed to have expected this result, he stood up and wiped the blood from the corner of his mouth.

"Your fist strength and speed are very fast, this time I lost, I also admit defeat!"

"You also have a lot of technical moves. It seems that you have endured a lot of hardships for fighting, and they are all evasive training."

Only Chen Yongguang knew what evasive training was. At that time, he was on the front desk and was beaten by countless people. In that situation, he could only dodge non-stop.

Chapter 1217: completely lost

It was under that kind of coercion that Chen Yongguang allowed himself to master so many dodging methods, and he has completely formed muscle memory.

It's just that Qin Yuan's speed is faster than he imagined, especially Qin Yuan's strength, he can't even believe it. You must know that he has been training with weights for a long time, and sandbags are tied to his body at all times.

He always thought that by insisting on training, he would be able to surpass his own physical ability, but Qin Yuan easily broke his idea.

The team members next to him wanted to help him, but he pushed him away.

"Let me tell you, I will definitely beat you in one aspect, even if it is only in one aspect, but I also feel that I have won you."

I have to say that this guy is too persistent. Qin Yuan just smiled and didn't speak. Whatever he likes to say, let him go. Anyway, we'll see the situation later.

"Captain Chen, I don't deny what you said, but I still need to remind you that this is a plateau area, you must pay attention to your mood swings, and you will be in trouble if something goes wrong."

"You don't need to worry about this, I will pay attention to it myself."

Just after Chen Yongguang finished speaking, the blood in his nose was low, he was a little stunned, he didn't expect that he had gone through so much training, and in such a high-altitude area, the strong high pressure still made him a little unbearable.

But this guy was asking for money so much, he stood up and wiped off the blood, then insisted on the second item.

The second item is that he also saw Qin Yuan's shooting before the shooting training, so this time he planned to change the method again.

That is face-to-face shooting. Although this is a training ammunition, it is still very painful when hit on the body. Usually, they will use another kind of pigmented one. When shot, the color is more obvious, and the pain is not like this. powerful.

But now they have no time to change, and Chen Yongguang is very insisted that he must have a face-to-face shooting.

This kind of shooting is actually very common. Their previous training was to occupy a pit with one person, and then conduct defensive and offensive training. However, in this high-altitude area, and their guns are also relatively special, so the distance is also relatively wide. Far.

"If you want to compare, you can set whatever conditions you want and I can accept them."

"It seems that you are also a person who is easy to accept challenges. In this case, don't regret your choice."

"There will never be any choices that I regret. I remind you again and again to let you pay attention to yourself."

Chen Yongguang snorted coldly, and said his own rules. He asked the two to occupy a hill each, and then start attacking each other within ten minutes. As long as they successfully hit each other, they will win.

In fact, Chen Yongguang's stamina has been exhausted here, especially in the previous fighting training, so this time he plans to adopt a lurking tactic to lie in ambush on the top of the hill, waiting for Qin Yuan to attack, and then give him a fatal blow.

Thinking of this, he quickly ran towards the opposite mountain, while Qin Yuan leisurely found a place and lay down.

"Isn't this messing around? At such a close distance, does Captain Qin want to think about him?"

Zhang Long didn't understand, but Qin Yuan felt like he was giving away for nothing, so he was a little suspicious.

Unexpectedly, Qin Yuan was just waiting for Chen Yongguang to reach the opposite mountain, and he had just gone down when Qin Yuan set off directly.

"This speed is really too slow, and I'm a little impatient waiting."

Qin Yuan's speed was very fast, and he rushed to the opposite mountain like an arrow on a string. Before Chen Yongguang could completely hide, he felt someone approaching him.

Just two minutes into the match, Chen Yongguang was completely stunned when he saw a gun being held above his head.

This is really too exaggerated, he hasn't made any preparations yet, and his speed and reaction are already very fast, I didn't expect Qin Yuan to react faster than him.

Qin Yuan didn't shoot. After all, such a short distance is meaningless. It's the same whether you shoot or not. Chen Yongguang didn't want to give up. Seeing that Qin Yuan didn't intend to shoot, he couldn't care so much at this time. He grabbed a handful of blood directly from the ground and swung it towards Qin Yuan's eyes.

Seeing this scene, Jiang Xiaoyu clenched his fists. This guy is really despicable. Sure enough, he always uses some dirty methods like they did before.

"If you see it, I'll just say that this guy can play tricks, which is too despicable."

"Don't be so excited, kid, don't forget, they are competing now, and there are no rules in this kind of competition, you can use it in any situation, and when you are facing the enemy, it can be regarded as a good one. Method."

"Master, why are you talking for them? You haven't seen this guy being so arrogant and using such despicable methods. What if something happens to Brother Qin?"

"I said you kid just eat radish salty and don't worry about it. Think about it with Qin Yuan's methods, how can you watch it carefully?"

As soon as the words fell, Qin Yuan stretched out his hand and grabbed Chen Yongguang's collar directly. The blood just now had no effect on him. He could judge the opponent's position just by his voice without using his eyes.

Seeing that this move was not going to work, Chen Yongguang pulled out the dagger from his waist. This guy is really serious. Why did the gunfight that was promised turn into a close combat? That's just too mean.

Qin Yuan didn't want to shoot, because he didn't want to hurt people in this plateau area, because he knew his own strength, even if he was training this time, he would definitely hurt people if he shot out, so he restrained himself.

But Chen Yongguang really wanted to win. His opponent stabbed towards Qin Yuan. Qin Yuan caught the sharp dagger with his bare hands. Yong Guang was kicked to the ground by him.

Qin Yuan threw the dagger aside and stepped on his chest. Chen Yongguang couldn't turn over at all, but grinned in pain. Zhang Long was worried that something might happen, so everyone ran over.

"Captain Qin, just click to the end, and now we have lost."

"What you said really sounds good. Are you finished if you lose? Look at what this guy wanted to do to me just now?"

Looking at the dagger next to him, Zhang Long's face changed, and he felt a little ashamed. He felt that he knew too little about Chen Yongguang. Why is this guy so persistent?

"Although Captain Qin is like this, no matter what, we are all our comrades-in-arms, and I hope you can show some mercy."

Qin Yuan snorted coldly and let go of his feet. He was already merciful enough. If he really wanted to hurt Chen Yongguang, this guy probably wouldn't even be able to get up.

To be honest, there was no suspense in this competition, because Qin Yuan had no reservations about these people, and the team members beside him were also stunned, because Qin Yuan's speed was really too fast just now, and he could immediately distinguish Chen Yongguang's position.

Such a person is not something they can get in contact with at this level. The strength of the two sides is too great. Two players wanted to try it out, but they all shook their heads when they saw this scene. This is not an opponent at all.

Chen Yongguang got up from the ground indignantly. He patted the snow on his body. He didn't understand that his speed was fast enough, but Qin Yuan's speed was simply against the sky.

After losing two games in a row, he had to compete in other competitions, but Zhang Long stopped him because he felt that it was meaningless. Even if he only won once, it was nothing, not a loss.

"Enough, don't you feel ashamed enough? When is it? If you lose, you lose. Go back to practice."

Unexpectedly, Qin Yuan interrupted him from the side, "Wait a minute, this loss is not a matter of one sentence, but he said before that if you lose, you all have to worship me as your teacher. I remember this right."

The expression on Zhang Long's face was a bit awkward, because this assault team was established with great difficulty. He didn't know what Qin Yuan meant, but he couldn't do it if he asked him to hand over the team.

But this is another bet made by Chen Yongguang before, what he said now may be too embarrassing, and with Qin Yuan's character, how could he just let it go.

He sighed silently. Now he has no choice but to go back and see if he can find other leaders to intercede. After all, it is not easy to set up this team. If it is handed over to Qin Yuan directly, wouldn't it be a wedding dress for someone else? ?

Chen Yongguang now only feels that his chest hurts too much. He prefers the kick just now, but with a little force, he is so painful that he can't speak now.

But it is impossible for him to just give up like this, and he will talk about it after everyone thinks that he will go back first. After all, it has been two or three days since he came to this plateau area.

The result is very obvious, they can go back, unexpectedly, when everyone was packing up the tent, Chen Yongguang also recovered a lot, he came over and looked at Qin Yuan and said coldly:

"I know that your shooting and fighting are very strong, but I still want to challenge the last one. If I really lose this time, then I will accept my fate."

"You guys are really fun. If you insist on delaying so many people in this place, you can challenge whatever you want when you go back."

Qin Yuan didn't bother to talk to him at all, because no matter what kind of competition he chose, he had an absolute advantage in this place, because his physical fitness and endurance had no effect on this place.

Looking at the restless Chen Yongguang, Zhang Long hurried over and pulled him away. He couldn't let this guy ruin his plan. Now he could only try his best to comfort Qin Yuan, and he would ask the leader to intercede when he returned.

A fierce quarrel broke out between Zhang Long and Chen Yongguang, mainly because of this incident. On the one hand, they lost all kinds of competitions one after another. After many rounds of fighting, Qin Yuan's physical fitness was not affected in any way.

"Don't you understand? You are not at the same level at all. Look for yourself, even if you win a game, so what? Generally speaking, if you lose, you lose."

"But I'm just not reconciled. Do you know how long I have been waiting for this opportunity? Why is he still so strong despite all my hard work?"

"Arms can't twist thighs. I hope you can understand this truth. From these competitions, don't you see that his strength is completely in a state of peak invincibility?"

"Team Zhang, do you also feel invincible? Doesn't a person with this kind of existence have any weaknesses?"

Zhang Long shook his head. He didn't know, and he didn't deny it, but Qin Yuan's situation really surprised him. He even thought that this person might really have no weaknesses, and he was perfect in every aspect.

Chen Yongguang didn't want to give up, he looked at Qin Yuan in the distance and lowered his voice, "Since we can't deal with him in this high altitude area, what if we are underwater?"

Zhang Long smiled when he heard this. Didn't this guy really understand before? In the water, that is Qin Yuan's world.

"Don't you know how great he was in the Marine Corps before? This guy doesn't even use an oxygen tank in the water. He is simply a genius."

Chen Yongguang looked at Qin Yuan's back in a daze, and he didn't know what to do for a while.

Now everything can only go back and talk about it, this has completely exceeded his previous expectations. Originally, he wanted to use his own ability to win at least one victory, but now he lost very embarrassingly.

However, Qin Yuan has already promised him that he will continue to compete with him when he goes back. They still have a simulated military management and control.

As far as commanding operations is concerned, he learned this major before going abroad. There is absolutely no problem. He has to see if he can command a small team like this, and whether he can command a large army to fight. This is another kind of simulation training for them. , can be operated completely on the computer.

This is what he wants to compare with Qin Yuan. As long as he wins in this aspect, then he is a qualified leader. Although he can't compare with other trainings, he is absolutely fine in teaching. He wants Qin Yuan to personally admit his strength .

Jiang Xiaoyu and the others took a breath of anger this time. Everyone was in a good mood and were packing their backpacks.

"Brother Qin, you are so powerful that you wiped out their entire team just like that."

"It's all small problems. I just can't understand some people using their strengths to bully others' weaknesses. It's just a small lesson for them. Don't worry, they will be apprentices in the future."

Hearing this, everyone burst out laughing. Although the matter has not been written off yet, you can't go back on what you promised before in public.

When Balang thought that these guys would be trained by Qin Yuan to be like his grandsons, he felt relieved.

"Brother Qin, if you want to help with training and supervision later on, I'm absolutely fine."

Deng Jiuguang kicked him on the buttocks and told him to pack up quickly, "You brat knows how to fight every day, I will bring you with me when I watch the training, so that I will not be confused all day long."

Chapter 1218: road damage

The atmosphere here is very good. Although Deng Jiuguang said something, everyone knows that this is just a joke. This side is joking. On the contrary, Chen Yongguang's whole aura is very low because they lost completely this time. .

This is also what Qin Yuan is most worried about, because they have been competing non-stop for the past year and achieved unprecedented results, but they were suddenly defeated by themselves, and they were completely crushed by their strength, so they would have this gap in their hearts.

This kind of gap is like if he suddenly loses to a certain team one day, because he himself is very strong, so he knows that this kind of psychology is very uncomfortable.

So at the very beginning, what he did for his soldiers was attack training and anti-stress training. If this is the case, what's the problem even if they lose in the future? They can all take it.

And this so-called anti-stress training is also something that Chen Yongguang doesn't like. He thinks it is a method of insulting personality. His method is more strict, so that soldiers must have the strongest competitive spirit.

After packing up, they set off one after the other, and it took nearly four hours to go back. At this time, the sky was also snowing, and the temperature on this side was very low.

Jiang Xiaoyu and the others sat in the car with the windows closed, feeling the cold air outside.

"Good guy, this is the first time I've seen such a heavy snow."

After all, they are in the Marine Corps, and snow is rarely seen. Before doing some basic cold resistance training, they will also come near the snow mountain, but they are also equipped with equipment. This time the equipment is relatively good. Said relatively simple.

"It's too cold, and seeing how the snow hasn't stopped at all, it's been falling for almost half an hour."

"Who knows? It can only be said to speed up, let's drive faster. I am mainly worried that if the road is icy, it will be more troublesome."

When Balang heard this, he quickly accelerated the accelerator. After all, no one wanted to spend the night outside.

In this way, after driving for another half an hour, something unexpected happened suddenly. I didn't expect that the road when I arrived had a landslide.

Because this is the way in, the road ahead has been completely blocked by a lot of dirt, and the road ahead is completely unclear.

Seeing this scene, everyone came down one after another and kept looking forward. No one could tell what the situation ahead was, but the ***** clothes on this side didn't mean to stop. Qin Yuan's expression was a little dignified. He stepped forward and directly Jumped to the location of the landslide.

You must know that this kind of behavior is very dangerous, there is a cliff next to it, and there is no way to know if there will be other implementations, everyone is shocked, but Qin Yuan's speed is very fast, he shook his head after jumping off.

"The road ahead has been completely damaged. If we want to go, it is impossible. We can only abandon the vehicle and go out on foot."

Hearing this, Zhang Long was a little surprised. He wanted to leave the vehicle here. Isn't this a dead end? You must know that this is a high-altitude area, and it takes them more than four hours to drive.

"Captain Qin, what do you mean? If we don't drive, there is nothing we can do. It will take three or four hours to get in. How long will it take us to go out?"

"I'm not exaggerating. The road ahead has been completely destroyed. There is no way to get around it. There is a cliff next to it. Are we going to fly over it?"

Qin Yuan was also upset. He wanted to explain it to him before, but he felt that this guy couldn't understand it? What time is it now? It has been snowing heavily again, and if they don't leave, they will really be trapped in this place.

Zhang Long shook his head, he also felt that what he just said might not be very good.

"Captain Qin, don't get me wrong. I didn't mean that. What I said was that I remember that there is a border guard stationed here. Why don't we ask them for help first, and see if we can send troops to reinforce and dig a road."

Qin Yuan found it even more funny when he heard this. This guy really just opened his mouth and asked people from his team to rescue them.

The most critical problem is that they have no way to contact the team over there. This time, the incident happened quite suddenly, and they set off directly. No one brought radio equipment, and there was only a simple positioning on the car. system.

Even if they can be contacted, it is absolutely impossible for Qin Yuan to let such a thing happen and let others come to rescue them. Besides, this road is so dangerous, and implementation may happen at any time. We cannot let others pretend to be dangerous to rescue them Bar.

Qin Yuan analyzed and explained the matter to them for a while, no matter what it is now, it is the best choice to give up the car.

The Fox Commando team had a different opinion. They felt that it was too exaggerated to abandon the vehicle no matter what, and then go out on foot.

And next to it is a cliff, they have to bypass this section of the road from the steep cliff, and there may be stones falling from it at any time.

In this way, everyone had different opinions in an instant. As for Jiang Xiaoyu, of course Qin Yuan is the main one on their side. They believe it very much, because they have already gone up to see the situation and can't do it. let's go.

"You have to make a decision as soon as possible and set off with us, because the snow will definitely not stop for a while, and it is impossible for you to wait in this place."

"But what if we go out and get lost? Do you know the way we came? Since the road ahead has been damaged, we can only take a detour."

"Don't worry, if you trust me, as long as you follow me, you can definitely be taken out. It just depends on what choices you have to make now. It's best to hurry up."

Chen Yongguang was also hesitant. He didn't know what to do for a while. To be honest, this was the first time he encountered such a situation. This problem was really difficult.

Zhang Long's opinion is to wait for the rescue. After all, they have been here for so long, and someone outside the team will definitely find out, or find other ways to contact the border defense team stationed here.

But waiting like this is hopeless at all. It may take a day or two, or a week, what should I do? Their current food is only enough to last for three days at most.

The most important thing is that there is no place to camp in this area, unless you return to the previous position, where there are mountains and a little windshield, where you are completely exposed to the entire wasteland, and the temperature can drop to minus 30 at night. degrees or so.

The cold plus altitude sickness can really kill a person in an instant, so Zhang Long is very entangled now.

Qin Yuan ignored them at all, he had already said what he had to say, whether they wanted to go or not, he had brought Jiang Xiaoyu beside him, they were ready, they tied ropes on their bodies, and then they were ready to start climbing the side Qiaobi.

"I'll say it again for the last time. If you want to leave, you should do it now. Otherwise, the waiting time will be longer and the snow will not stop. One is the cold problem, and the other is that it will be more difficult after dark."

Zhang Long hesitated for a while, and finally decided to go with Qin Yuan and the others. No matter what, staying with Qin Yuan is better than staying here.

Everyone drove the car to the side, and now they can only give up the car first, and then bring all the equipment.

Looking at the cliff next to him, Jiang Xiaoyu couldn't help but want to curse, "It's because some people are self-assertive and mysterious, they insisted on bringing us to this place, it's all right now, no one can get out .”

"Okay, just say a few words less to maintain your physical strength and focus. You must stay very focused now than you usually do in training."

Qin Yuan tied everyone to a rope. With his own physical strength, it is absolutely no problem to pass here. The main reason is that the road ahead has completely collapsed. They can only go around the cliff from this side to the opposite side to see if they can go down.

Qin Yuan took the lead, and he accurately threw the rope, and it was thrown directly to the opposite side. There was a dragon claw hook on the rope, as long as he grabbed something that the assistant could cling to, it would be completely fixed.

After trying twice, he found that there was no problem, and he could basically bear their weight, and then threw another rope. This is for safety, and the two ropes are together.

Although it looks like it's just a very simple throw of the rope, but it's very skillful and powerful. From such a long distance, Qin Yuan hits the target every time.

He pulled the rope, and the leading member, he climbed over first, and there was a cliff as high as ten thousand feet below, and the whole person vacated on the rope, which made people shudder.

However, Qin Yuan arrived at the opposite side safely and without any problems. He fixed the rope again, and then gestured for them to come in this direction.

Now I can only bite the bullet and walk forward, the sky is constantly snowing, and there is a howling cold wind, which really challenges a person's psychological quality.

Everyone passed one by one like this. Although it was only a dozen meters away, everyone was in a tense state in this high altitude.

Jiang Xiaoyu and the others all passed safely. After all, Qin Yuan had trained them before, and they had all been trained for rope climbing like this.

Next came Fox Hunt Commando, Chen Yongguang's first test, he climbed half way, couldn't help but look down, and felt his scalp tingling instantly, it was too high, so he had to close his eyes , and then hurriedly climbed over.

Fortunately, everyone was safe and sound. Chen Yongguang's rigorous training had improved everyone's psychological quality a lot.

When Zhang Long came over for the last time, he glanced at the vehicles on the opposite side, which meant that they had to give up the vehicles completely and start to walk forward. He sighed helplessly, and followed the team.

The snow is getting bigger and bigger, and soon it will cover people's calves. Walking in such snow is really too much of a test. The speed of everyone's actions is also affected, and the whole team slows down. In this heavy snow, it is actually easy to lose your way.

Qin Yuan had looked at the map before, and he vaguely remembered the location of the border guards. Now that they were going out on foot, it was basically impossible under such harsh conditions. He could only see if he could find the border guards first.

It's just that there are no markers at this location, so he has to climb to the opposite hillside to see the exact location, so that he can find the border guards.

After walking for more than an hour, there was no change in the surrounding scene, and it can be said that walking was difficult. Everyone was tied with ropes, mainly because they were worried that someone would fall down after stepping on the air, and there were steep cliffs on both sides.

Qin Yuan looked at the panting crowd and signaled them to rest first. After all, this is a high-altitude area. In such a warm and plateau environment, everyone's physical energy consumption is really too great.

He climbed to the opposite side, then looked at the surrounding environment, and soon he determined the direction.

After he came back, he told everyone about the location of the border guards. If he remembered correctly, he was heading southeast now, which should be about 30 kilometers away.

Zhang Long was already a little impatient in walking like this. He thought he was going out, so why did he go to the border guards now?

"Captain Qin, I really don't know what to say, shouldn't we go out now?"

"That's right. If I'm the only one, then it's absolutely fine, I can go out, but I have to take you into consideration, and I have to take into account your physical fitness, and I'll go out at least a few hundred kilometers. Can we move?"

Zhang Long was speechless for a while, it seemed that he could only find the border guard, but even he didn't know the specific situation, because he only glanced at the map.

"But Captain Qin is right. Can you really find that unit? I don't have the slightest impression."

"You have no impression, but I have no problem. Don't worry, just follow me."

Now that they have nothing to do, they can only follow Qin Yuan. Not long after they set off, suddenly there was a burst of exclamation from the team behind.

The previous monkey was a little bit injured, so he couldn't keep up with the team. He was walking in the back position. He didn't expect to step on the ground, and there were snow-covered potholes everywhere on the snow mountain.

After stepping on the air, he lost his balance and rolled to the side. When the rope was pulled, he took away a team member. Fortunately, the team members behind him persisted.

Qin Yuan rushed over, and with everyone's help, he pulled the two of them up. There was no major problem at all, but Zhang Long quit at this time.

"Just now I said that we should stop where we are. At least it is safe in the car. We can find other ways to seek rescue by using incendiary bombs or burning fireworks."

At least it was better than searching aimlessly in this place now, he regretted agreeing to come out with Qin Yuan.

"Anyway, it's impossible for me to let others come to rescue me, plus waiting for rescue, when will I have to wait?"

Chapter 1219: Enter the camp

Some members of the Fox Hunt Commando were dissatisfied when they heard what Zhang Long said. After all, in such a situation, human emotions are the most important.

Qin Yuan was a little angry for a moment. He stepped forward and kicked Zhang Long on the shoulder in spite of everything.

Zhang Long didn't expect Qing to attack him suddenly, and the people beside him didn't expect this situation either.

"What are you doing? How dare you beat me up."

"Let me tell you what I dare not. First, I am the supreme commander in this team. Is your military rank higher than mine? I didn't want to mention the military rank, but I am the supreme commander. You agree?"

Just this one sentence made Zhang Long feel speechless for a moment. Usually, he would rather seldom talk about military ranks. He himself is relatively low-key.

It's just that at this moment he really can't take it anymore, he doesn't want anyone here to shake the morale of the army, it's very dangerous in this situation, we need to let everyone trust him enough, and have a firm direction, otherwise it's easy to appear question.

"I know your military rank is the highest, but you can't beat people casually like this."

"I hit you lightly. You know that if you shake your meticulousness on the battlefield, you can be executed on the spot. Do you understand?"

Zhang Long was overwhelmed by Qin Yuan's powerful aura. Before, he felt that Qin Yuan had been chatting and laughing with them all the time, and he felt that they would get along very well, but he forgot Qin Yuan's truly terrifying strength, and his How did he get his fame.

"From now on, everyone keeps up. Your goal is the back of the person in front. Others have no purpose, understand?"

He didn't tell everyone the approximate distance or direction, but he didn't want them to have hope. He wanted everyone to know that he was the last hope.

After all, this is the first contact with the Fox Commando Team. Jiang Xiaoyu and the others needless to say, everyone trusts him very much, so there will be no problem.

He hopes to take everyone out safely. There are so many people this time, it is impossible for him to take care of everyone, so he must stick to this belief.

He thought Chen Yongguang was quite annoying before, but he didn't expect that during this operation, Chen Yongguang was extremely calm, just followed them silently, and didn't complain about any problems afterwards.

This kid is quite powerful, at least in the aspect of forbearance, there is absolutely no problem.

Zhang Long's side was completely sobered up by this kick, and he didn't dare to say anything more. Everyone followed behind the team silently.

But as they moved forward, the wind and snow became more and more severe. The direction of everyone's progress was very difficult, and every step of the way required all their strength.

Chen Yongguang looked at Qin Yuan in front of him with some admiration. Qin Yuan was at the beginning. He was constantly exploring. If he had any unexpected situation, he would definitely be the first one. All the way is relatively smooth.

No one knew how long they had been walking, but everyone was exhausted. At this moment, Qin Yuan in front suddenly raised his hand and pointed the gun in front of him.

They saw the feelings of the border guards, they could already see the camouflage, and everyone saw hope in an instant. After all, they walked in the snow for almost an hour and a half, and the road was a little unclear, so they could only follow Qin. Yuan groped forward. ...

"Finally, it's almost here, I feel like I'm going to be unconscious from the cold."

"Everyone is working hard. We should be able to pass in half an hour at most, and they should also see us and come to pick us up."

They walked down the hillside, and as expected, two cars had already driven out of the opposite scenic spot, heading in their direction.

Zhang Long didn't say a word along the way, he was actually very guilty in his heart, he didn't know what to say.

No matter what, it was Qin Yuan who led them out. He didn't expect Qin Yuan to memorize the whole map just by looking at it.

When they returned to the camp, they were all comrades-in-arms after all. After verifying their identities, they took them to the cafeteria and prepared hot soup for them.

The people in charge of the camp here couldn't believe it. They actually walked for more than an hour in such a snowy situation.

"Captain Qin, I'm really surprised. You have to know that the temperature outside is already minus 20 degrees, and there are no targets, but how did you find this place?"

"It's actually very simple. I just remember a general direction. If you walk in this direction, you won't get lost."

It sounds simple, but in this snowy environment, it is easy to get lost even with a compass.

Qin Yuan's sense of direction is really too strong, which makes the person in charge of the camp admire him very much.

The road was really dangerous. Under such circumstances, they walked out completely. Zhang Long felt a little embarrassed. After the person in charge left, he walked over silently.

"Captain Qin is really sorry. I shouldn't have said that just now, because I'm a relatively nervous person, and I haven't experienced such a situation for a long time..."

"No need to talk about that, since everyone has come out, even if that matter is over, I am only right about things and not people."

Zhang Long felt that he really needed to learn from the attitude of others, and he also thought that he had to make a small report on his side, hoping to get some help from other leaders so that his team could still manage here.

According to the current view, the team

continue reading! If it is handed over to Qin Yuan, there may be a better development. He understands that it is not easy for these soldiers to stand out from so many people.

Zhang Long also had other opinions. After he left, he would not go to the leader to discuss this matter again. If Qin Yuan wanted this team, let him use it for training.

It's just that what needs to be solved now is Chen Yongguang's side, and he doesn't know how to tell Chen Yongguang.

If we talk to him now, there will probably be a point of conflict, and we can only talk about it after we get out.

Everyone was drinking the soup, and they had other thoughts in their minds. The commandos of the Fox Hunting Team used to trust Chen Yongguang and Zhang Long very much, but after this series of events, they also changed.

The monkey held the **** soup in his hand and looked in Qin Yuan's direction, "Although I know we are also very strong, the real strong man took us out there without saying a word or asking for any credit. He really kept a low profile They are all kings." ...

"I'm a little embarrassed to say it. We use this wheel-to-wheel battle formation to deal with others. If we really win, then I'm also embarrassed. After all, winning is not bright."

Everyone had some other opinions in their hearts, but when Chen Yongguang heard this, it turned into another flavor. He was a little unhappy, and slammed the table.

"What do you mean? Do you want to betray the team? You guys are thinking of betraying before you go out."

"Team Chen, we don't say that, but think that some of our previous trainings were not very good. After all, although we have been winning all the time, it seems that the wins are not so open and aboveboard."

"Hehe, what do you mean by this? Enough is enough, don't talk about it anymore, and talk about it after you go out."

Although Chen Yongguang was very grateful to Qin Yuan in his heart because Qin Yuan brought them out, he was still a little unconvinced in his heart. He didn't believe in people who had no weaknesses at all.

It's just that bad news came from the border guards, not only the road they went out before, but also the main road that went out because of the heavy snow, and the road was completely frozen. There is no way to get out.

The person in charge of the camp felt that there was nothing wrong with it, and they had long been accustomed to the road being blocked.

"Captain Qin, I think you should just stay here for a while. The food here is very sufficient. You can stay here for a year or so. It's not a problem."

Qin Yuan felt a little funny when he heard this. If he wants to stay here for a year or so, when will he be? And these words are very polite, after all, it is estimated that there should be no problem with this snow for a week.

"You are too polite. I think we can go out in a week as long as the snow stops."

"Captain Qin, you don't know the situation on our side. Our side is covered with snow all the year round, and according to past experience, the icy road is estimated to take half a month."

This Qin Yuan didn't expect that he was rarely here, he didn't expect that this letter would last for half a month, now it's over, everyone will stay here for half a month.

Chen Yongguang felt a little unbelievable. Is the temperature here really so exaggerated?

"It's been closed for half a month, how did you send in your usual supplies?"

"The living conditions here are relatively difficult. Generally, we prepare supplies for at least half a year. In this way, the logistics are guaranteed, and we have pig farms behind us, so we are self-sufficient."

The person in charge here said it was very easy, but in fact this is the real life of border defense, and it is indeed very hard.

Thinking of staying here with Qin Yuan for half a month, Chen Yongguang felt uncomfortable, because he said before that if he lost, he would recognize him as his master.

Qin Yuan seemed to have seen through his thoughts, "You don't have to think about those things, and I don't force you so much now. After all, I don't have the habit of forcing apprentices. As long as you are convinced, you can do it at any time. ."

His thoughts were seen through by Qin Yuan, he felt a little embarrassed, so he could only turn his head away, and pretended not to mention this matter now. ...

The person in charge of the camp also felt that the two teams were weird, and felt that they were always a little uncomfortable when talking.

But it's hard to say anything, and there are not many dormitories in the camp, so they were arranged in the same dormitory.

Deng Jiuguang felt that this matter was really too angry. It was obviously the position they had set before. Didn't they investigate it? Now everyone is delayed in this place.

"I really don't know what some people think. Don't they think about the consequences when they do things? We all got hurt in this place without even a word of apology."

"Who says no? Don't say apology, people still think it doesn't matter at all."

Zhang Long and the others didn't listen to these words at all, they turned a deaf ear anyway, everyone should sleep and rest.

Jiang Xiaoyu, they felt that this punch hit the cotton. These people are too thick-skinned. They don't give any explanations. It's obvious that they didn't handle it well, and they didn't even feel sorry for delaying everyone here. .

On Qin Yuan's side, he was quite open-minded. He was quite leisurely lying on the bed.

"I don't think you guys should talk about that anymore. Since things have already happened, talking about these things can't be solved for half a month, just half a month. It's just for everyone to experience the life of border defense."

"It's true to say so, but I always feel uncomfortable."

After Jiang Xiaoyu finished speaking, he glanced at

continue reading! Zhang Long on the opposite side of page 2/total 3 didn't respond at all, and he even felt that he was bullying his aunt.

In this way, they have to live face to face for half a month, which is really embarrassing.

Although the place was changed, everyone's training has not fallen behind. After all, this is what they have insisted on for a long time.

The next morning, they started training with these border guards. The company of Company Commander Zhang who followed them in the training also had relatively heavy tasks.

In addition to the usual daily training, they also need to conduct patrols. Anyway, there is nothing to do when they are idle, so Qin Yuan planned to go on patrol with them, and just went out to see the usual patrol route.

Zhang Lianchang is also very hospitable. After all, no one else has appeared for a long time, and he can't stop talking.

Originally, Chen Yongguang and the others didn't plan to go out, but seeing Qin Yuan, they all volunteered to go out and patrol with them. It's not a problem for them to stay in this scenic spot, and they always feel a bit lazy.

In this way, everyone went out together with Zhang Lianchang and the others, but what everyone didn't expect was that such patrols were actually on foot.

In this way, they walk at least a dozen kilometers every day. This is still a small thing. After all, the entire border defense line is very long, and their companies patrol in batches.

"It's the first time for you to come out to train with us. The environment here is very harsh. If you can't keep up, try to say that it's okay. We can understand that the altitude here is different."

"You are still working hard every day, with such a long border."

"We can be regarded as performing our own duties. After all, the tasks you perform are different from ours. Everyone is serving the people."

Zhang Lianchang smiled after he finished speaking, and he was quite talkative. He pointed to the long border line in the opposite direction, which was their patrol route. Apart from daily patrols, they would also encounter other dangers.

Chapter 1220: Forced to go out

"Company Commander Zhang, your usual patrols here should be quite boring, right?"

After all, Jiang Xiaoyu has never experienced such a life, so he is quite curious. In fact, it is the same as they are patrolling the sea.

"There are boring ones, but we must always be vigilant. There are still many dangers on this side, just like there are snow wolves on the snow-capped mountains here."

Hearing about Snow Wolf, the others instantly became interested, after all, they rarely saw this thing.

"Now there are such things as snow wolves, and I think they are almost extinct."

"How could it be that easy? This snow wolf is very dangerous, and it lives in packs. We allocated some horses during the patrol before, and we encountered this snow wolf. In the end, we had no choice but to leave the horse and retreat."

Da Lei couldn't help laughing when he heard this from behind. You must know that he is a sniper. He also trained in the border area before. They were holding guns in their hands. Why did they just retreat?

"Company Commander Zhang, I said that you guys are exaggerating. You just shoot the guy in your hand. I don't think he can run away."

"This comrade is not talking about the problem of shooting guns, but look at where we are. The sky is full of snow-capped mountains. The impact of this gun is not small. It not only hurts wolves, but also easily causes avalanches."

So Qin Yuan didn't speak the whole time. Of course he knew that it was best to use a cold weapon in that situation, but who would have the courage to rush into the wolves facing the wolves at close range.

Da Lei was speechless for a moment, he just wanted to express his own point of view, but after thinking about it carefully, it was indeed the truth.

In this way, a group of people walked on the border and started patrolling. Company Commander Zhang began to introduce the surrounding situation. In addition to the danger of these groups, they would also encounter patrols from the opposite side, but both sides greeted each other politely across the border.

"For now, our relationship with Dongguo is not bad, let's not invade each other, so there won't be any big conflicts between the two sides."

Just as he was talking, he saw a group of uniformed soldiers coming from the opposite side, and they also started patrolling in their territory.

I have to say that it is really hard work in such a harsh environment. After they patrol in such a circle, it is really worth the amount of exercise for a day. After walking like a normal walk, the whole area with one foot deep and one foot shallow is covered by heavy snow. cover.

Not only does it slow down the speed of action, but it also takes all the strength of the whole body, and the back is covered with cold sweat. It is really uncomfortable to wear it all the time.

Qin Yuan also took Jiang Xiaoyu to let them experience these border guards, but they each have their own hardships, just like they also need to patrol the coastline, Qin Yuan and the others are at the forefront.

In the evening, we shabu-shabu hot pot together in the cafeteria, and the relationship between the two parties seems to have eased a lot because of being together.

Company Commander Zhang didn't know exactly what was going on with them. Anyway, he wouldn't ask too many questions if he could get in touch with them for training. After all, they were all special combat teams.

Qin Yuan was watching the snowfall every day, but it seemed that the heavy snow would not stop, either during the day or at night. If this continued, no one would go out at all. I hope that it will be like what Company Commander Zhang said, that he will have to wait for half a month. ...

Zhang Long was a little anxious, because apart from competing with Qin Yuan and the others, they also took on another task, which was this year's martial arts competition.

This martial arts competition is a competition between various companies. They have already signed up to participate as an independent group. Now that the date of the competition has arrived, they may have to miss it.

"Team Zhang, why don't we ask them for equipment, and then go out on foot. There is still a week before the game, so we can't delay it any longer."

"What are you thinking, boy? It's impossible to go out with such a heavy snow. After going out, you will encounter many dangers, and there may be a danger of rocks falling on the road at any time."

"Of course I know the risk, but this competition is also very important to us. We managed to achieve some results. If we miss this year's competition, we will have to wait another year."

"But I can't take everyone's life as a joke, wait two days and see."

Three days passed like this, but the road conditions were still not very good. Seeing that the date of the competition was approaching, Zhang Long couldn't sit still.

Jiang Xiaoyu could see their anxiety. He didn't know what these guys were watching all day long. They went out to watch every day except for training. The road over there was completely blocked and they couldn't get out at all.

"Brother Qin, what the **** do you think these guys are doing? Is that game so important? This is too exaggerated. You still want to go out in such a heavy snow."

"Maybe what they are after is different from ours."

Qin Yuan could tell from the beginning, just like they wanted to be amphibious scouts, they wanted to be special forces mainly because they had their own ideals and goals.

But relatively speaking, the assault team formed by Zhang Long seems to exist for the purpose of competition. They have been competing everywhere since their establishment.

So he can also understand why they value the game so much and want to be recognized by others. To put it bluntly, Zhang Long also wants to get the same title as the Red Blood Cell Team and be recognized by everyone.

It's a pity that the red blood cell team has achieved unprecedented results, and the Wolf Warrior team is getting better and better under Qin Yuan's leadership, such results are almost hard to surpass.

Two days later, Qin Yuan and the others just came back from last year when they heard the commotion on the playground, and felt strange.

At this time, Balang ran in from the outside, with a gloating expression on his face, "Go quickly!"

continue reading! Page 1/Total 3 Take a look, I suspect that they are really crazy, they entertain us here with good intentions, and they still want to quarrel with others. "

"What's going on? Why did they get into a fight? Usually, they didn't say anything."

"What else could be the reason? Isn't it because they want to go out? The company commander Zhang has been a soldier here for many years with good intentions. Of course, he knows the road conditions here, so they insist on going out."

Qin Yuan originally planned to watch the excitement, but Deng Jiuguang saw that something was wrong, because there was already a conflict among them, and a soldier was directly knocked down.

"Hey, this group of kids are quite aggressive, so we'll get started right away."

Hearing this, Qin Yuan couldn't sit still anymore. After all, Company Commander Zhang is not bad. They came here to make trouble and beat people. What kind of situation is this? In this way, everyone walked down together. ...

After going down, I saw that it was a soldier from Company Commander Zhang's side. Because of the language conflict, the two sides began to compete.

The overall ability of their fox hunting commando team is indeed good, and this sudden attack, they didn't react at all, and this little soldier was directly knocked down.

Even in this situation, Company Commander Zhang is still working hard to maintain order and calm everyone down.

Seeing Qin Yuan approaching, Company Commander Zhang was also very helpless, "Captain Qin, hurry up and comment on this matter. To be honest, I am only thinking about everyone's safety, because it is really dangerous now."

"Of course I know this. I'm very sorry to cause you trouble."

I also have to say that Qin Yuan is really generous. Faced with this unexpected situation, no matter what, he apologized first. After all, it seems to Zhang Lianchang that they are together, they came here together.

He hurried to understand the situation first, Zhang Long and the others wanted to borrow a car to go out directly, but Company Commander Zhang definitely disagreed in this situation, because it was really dangerous and they couldn't go out at all.

"Captain Qin, you have never been in the border defense, and the temperature here is already low, and the thickness of the ice can reach tens of centimeters in some places. This is really not a joke."

Chen Yongguang next to him said angrily, "Then you don't need to worry about what we should do after we go out. It's our business and we don't need you. Worry about something, and is it so troublesome just to borrow a car?"

Qin Yuan originally wanted to come down to persuade him, but seeing that this guy would not shed tears when he saw the coffin, he simply waved his hand and pulled Lianchang Zhang past him.

"I think if they are so persistent, then there is no need to say anything to them, just let them go. Besides, we can't spoil their good deeds."

"Captain Qin, you are speaking out of anger. I know it's wrong for them to beat someone up, but this is a matter of life and death. What's wrong, I can't let them take risks."

"It's your fault. They are confident in their hearts. They are a special assault team. We all have to step aside."

Zhang Lianchang also understood the meaning of the words for a while, it seemed that he was really nosy, seeing the persistent attitude of the person in front of him, he didn't say anything more, and then asked the soldiers beside him to drive.

Qin Yuan didn't bother to respond to this kind of people who didn't listen to persuasion. The most important thing was to beat them. Just when they were about to get into the car, Qin Yuan grabbed the monkey.

"Captain Qin, what do you mean? You agreed to let us go just now. Besides, we are not under your management."

"I mean, the person you hit just now didn't even have an explanation, so just leave?"

Houzi was a little embarrassed for a moment, he turned his head and was about to apologize, but Qin Yuan punched him in the face.

The people around were stunned, it was too fast, everyone didn't react at all, and the monkey didn't even have a chance to fight back.

"I never accept any verbal apology. Since you beat someone up, I'll beat you back."

Houzi didn't dare to say anything, he knew he was not Qin Yuan's opponent, and Chen Yongguang didn't say much, now they just wanted to leave quickly, so they got into the car. ...

After they left, Company Commander Zhang looked worried. Of course, he knew the situation here. Even the old drivers of the army's large trucks for many years couldn't drive in. They were really too naive.

Instead, Qin Yuan was comforting Company Commander Zhang, telling him that there was nothing wrong, and that these people would know if they made them suffer.

I have to say that Qin Yuan's handling method is really gratifying. Company Commander Zhang thought they were really two commando teams, belonging to the same place.

Originally, Qin Yuan thought that these guys would last at least until the next day, but he didn't expect to hear the report from the assistant's soldiers in front of him just after it was dark. They saw a signal flare in the distance.

If you think about it with your toes, it is definitely Zhang Long and the others, and they fired three signal flares in a row.

Qin Yuan simply lay on the bed and read a book. It was none of his business anyway, and Jiang Xiaoyu and the others didn't bother to talk to him. They had already persuaded them before, but these guys insisted on going out.

At this time, Company Commander Zhang hurried in, "Oh, Captain Qin, you really have time to spare. There must be something wrong with them, after all, there have been three flares."

"Company Commander Zhang, you are too worried. He is a special operations force. How could something happen? Now you can take a good rest."

"Captain Qin, don't be joking. I don't think there is anything we can do if we don't go out. After all, this is a plateau and it's below zero. People will die."

continue reading! Page 2/Total 3 Pages Qin Yuan stood up helplessly when he heard this, because he knew that if he didn't go, Company Commander Zhang would definitely take people outside to such a dangerous situation.

It is impossible for their troops who have been stationed here all year round to go to that place, and getting lost will only harm more people, so he planned to set off.

Jiang Xiaoyu and the others had no choice but to follow along, "If you want me to say that these guys are really harmful, they have always been harmful to others. It is obviously their own fault, and they always implicate other people."

"What can we do now? If we don't go, what if something happens to Company Commander Zhang and the others?"

Everyone packed up their equipment and set off like this, heading in the direction of the signal flare, and everyone was able to drive at first.

But soon the vehicle couldn't move forward at all, mainly because the snow was too thick, and the entire road ahead was covered with thick ice.

There was no way, everyone could only walk forward, because it was also for safety, the ***** here was already steep, and Company Commander Zhang couldn't help but admire it when he saw it here.

"I said their team is really good enough, and they can drive the car out directly in this situation."

"In my opinion, this is completely stupid behavior. There is nothing worth advocating at all. It seems that it is really not clean up and disciplined."

Qin Yuan was really angry this time, mainly because he had brought so many people with him. Originally, he planned to set off alone, but Company Commander Zhang and the others were worried.

Another hour later, they saw another flare, this time farther from their destination.

Half an hour later, Qin Yuan came to their location first, only to see that the military jeep had rolled over beside it, and there was a car parked on the side with ropes hanging from it. They should try to pull the car up, but There is no way.

Zhang Long was a little embarrassed when he saw Qin Yuan, he didn't know what to say.
