

Special Soldier 1221

Chapter 1221: drive away smoothly

The main reason is that they were the ones who insisted on leaving before, but they really didn't expect the situation to be so severe, and they regretted it when they set off on the road, but what I said just now was full of worries, wouldn't it be too embarrassing to go back now?

So I had to bite the bullet and walk, the whole road was completely frozen.

In the end, they insisted on going to this position and failed to grab it. The car skidded and fell directly into the ditch. The car in front was fine. When they got out of the car and were about to push the car up, they found that there was no way.

After tossing for a long time, they didn't expect that the second vehicle also broke down, and they were completely trapped in this place. In the end, they had no choice but to fire signal flares to call for help.

It's just that they didn't expect that the person who came would be Qin Yuan. You know, it was very embarrassing at first.

Qin Yuan jumped into the ditch next to him and looked at the vehicle. The vehicle just skidded, and then went straight into the ditch. He turned his head and asked.

"Your people are not injured, are they?"

This made Zhang Long feel a little ashamed. The first thing Qin Yuan came to do was to rescue them first, and then asked if they were okay. He shook his head, not wanting to say anything more.

The next second completely stunned everyone. Qin Yuan actually pushed the car up the ditch with bare hands.

Because both sides of the entire ravine are covered with thick ice, the car has been slipping since then. This is not a problem of strength at all. They think that they may need to use a trailer.

Qin Yuan pushed the car up with all his strength, Zhang Long behind was completely dumbfounded, and didn't know how to describe it for a while.

"Captain Qin, you... you have such strength."

"Needless to say, I don't want to waste two more cars here. After all, this is someone else's property."

"I'm really sorry about what happened today, and I asked you to come out and rescue us."

"You should be sorry. The person who should be grateful is not me, but the border guards. Do you know Company Commander Zhang and the others? They have been worried that you have come to the rescue with me now, but I just felt it first."

As soon as the words were finished, Zhang Lianchang and his people were seen rushing over. Without saying anything, everyone pulled the car out first.

But under such icy conditions, it is impossible to drive at all, and the road ahead has already happened, they, fortunately, they didn't pass, otherwise something unexpected would happen.

Company Commander Zhang hurried over and asked them about their situation, "I have to say that you are really lucky, just a little bit. If the road ahead collapses, it will be really dangerous."

"This time, it's a trouble for you."

This guy just said something so nonchalantly, Jiang Xiaoyu was not used to him, so he walked forward in a huff.

"You guys really have the face, just say something like that, we've been running for so long, and you don't even say a word of thanks."

"I didn't ask you to come."

Chen Yongguang was very unconvinced in his heart. He felt that if Qin Yuan said him, then he would admit it, but why should this guy who is defeated by his subordinates say him?

Seeing that the two sides were about to quarrel, Qin Yuan hurried forward to stop it. Now is not the time to quarrel, he should find a way to go back quickly.

"You guys have seen it now, the road is completely icy and you can't walk at all. Do you still want to go out now?"

Zhang Long sighed silently. It seems that this year's competition can only be given up. They have been waiting for this opportunity for a year, and they can only wait for next year.

In this way, everyone started to walk back, but Qin Yuan walked in the opposite direction. He couldn't put these two cars here.

After Zhang Lianchang saw it, he hurried forward, "Captain Qin is fine, you can put these two cars here. After the snow melts, the road conditions will be fine, and we will find someone to come and pull them."

Qin Yuan waved his hand. Originally, they came here to cause trouble for others. This time, it is unreasonable to put these two cars here. He is not such a person.

You can't just keep causing trouble to others just because they are polite!

"Lieutenant Zhang, don't worry, I will drive this car back for you, otherwise the car will be left here in the ice and snow, and the engine will be broken by then."

Zhang Lianchang was a little puzzled when he heard this, and wanted to drive the car back. This is not a joke, is it? Everyone has seen the way back. There is no such thick snow at all, and there is still a thick layer of ice under the snow.

The entire vehicle will skid, which cannot be controlled even with superb technology.

He felt that Qin Yuan was being too polite, no matter what, he would definitely not let Qin Yuan take this risk, and wait until the road conditions recovered.

"Captain Qin, stop joking. Let's go quickly. The temperature will only get lower and lower. It's getting dark and it will be more troublesome. Let's hurry up and go back."

"Zhang Lianchang, you go first, don't worry, I will catch up with you soon."

He was very persistent, and Company Commander Zhang had nothing to do with him. Jiang Xiaoyu and the others wanted to help, but they were all called back by Qin Yuan.

Qin Yuan is very clear that only he can do it, and in this situation, the road environment is very bad, so he must have very superb driving skills, and he is very confident about this.

After he got in the car, he tried to start the ignition, and then looked at the road conditions in front of him. It was not snowing now, but the road conditions were not good. He just started the car, and the car skidded on the ice. No matter what, he must If you want to drive the car back, you can't let the company commander Zhang, they wasted their efforts in vain.

Besides, they were here to help them. Although I really didn't want to get involved with Chen Yongguang and the others, they came together no matter what.

Even if they made a mistake, they should make up for it themselves. For example, for the loss of the car, Company Commander Zhang and the others might be punished or criticized by then, so he must drive back.

It has to be said that Qin Yuan's driving skills are indeed very superb. Under such difficult road conditions, he drove very steadily, but he started to slip a little, but gradually he got used to it, using his powerful strength to control the steering wheel, He managed to control the car abruptly.

Not only that, they quickly caught up with Company Commander Zhang and they turned their heads in disbelief when they heard the sound of the engine. They didn't expect Qin Yuan to catch up with him in a car.

Our company commander couldn't believe it. He squatted down and tapped the icy road under his feet. This is too exaggerated. With such thick ice and such thick white snow, it is possible to drive a car.

"Captain Qin, what game are you playing? This is too powerful."

"What's this? What's so good about me? I see, I have to say that our military vehicles are the most powerful. Don't talk about it, you guys who want to get on the car, come up."

Originally, Qin Yuan had good intentions, and this car was also the public property of the border guards, so Qin Yuan definitely wanted to take it back, but in Chen Yongguang's eyes, it turned into a different feeling.

"Team Zhang, I can't stand this anymore. This kid was really good before, and I recognized it, but look at what he means by that. Isn't this clearly against us?"

"This guy can really show off. In this case, it really shows him. It feels like we made a mistake on purpose and let him clean up his ass."

Hearing the complaints from his subordinates, Zhang Long hurriedly stepped forward to stop them and told them not to talk nonsense.

"Enough, don't talk nonsense, don't say a few words, don't you see the situation now? They are indeed helping us, and it is our mistake."

"But he is too exaggerated, it seems like we are incompetent."

"Isn't this the truth? We really don't have the ability to open it."

Zhang Long was also a little angry, mainly because he felt that everyone was embarrassed by this situation, but Qin Yuan did help them.

Originally, they didn't want to call for rescue when they were trapped here today, but there is no other way if they don't call for rescue. They can't just leave their car here and go back in despair.

In addition, the purpose of their firing flares is just to let them tow the car up later, and they continue to set off, but the road ahead has already happened, and the other party has no way to move forward.

At this time, Qin Yuan drove past them with a few people, and Jiang Xiaoyu sat on the co-pilot and knocked on the car door.

"I said how about the big brothers? Would you like to come up and experience our Brother Qin's skills? It's not a joke."

"Don't worry, I will never take you into the ditch."

These jokes completely angered Chen Yongguang. In his opinion, this is a proper mockery. He has rarely been subjected to such conditions since the establishment of the commando. He instantly felt that his self-esteem had been severely injured, and he stood up directly.

"What's the big deal? I can still drive the car they drive."

Chen Yongguang turned around and walked towards the parking direction, because there was another car parked there, Company Commander Zhang shook his head helplessly when he saw this situation, no matter what, he had to ensure the safety of these people.

"Comrade, don't be too impulsive. It's already at this time. Besides, if Captain Qin can drive, it's because of his strong ability."

"What do you mean by that? If he can drive, why can't I drive? Don't worry, definitely drive your car back, you don't need to persuade me. "

Zhang Lianchang originally wanted to persuade him, but he didn't expect it to completely backfire, and he couldn't help it.

Zhang Long can't control Chen Yongguang even more. Whatever this kid wants to do, he has been rushing to do it in a fit of anger. He won't listen to his management at all. Method, many things are handled by Chen Yongguang.

"Captain Zhang, this is your man. You must manage it well. If something happens on the road, it's really not a joke. Captain Qin, I believe he has this ability."

After all, Qin Yuan's reputation is well-known, and he is not a joke at the level of God of War, but he really doesn't understand this person in front of him. This guy seems to be angry. matter.

But Zhang Long also reassured Company Commander Zhang that they would not be held responsible even if something went wrong with this matter.

In this way, Company Commander Zhang felt that he had a cold ***** on his hot face. He originally wanted to remind him kindly, but he turned into this appearance. He couldn't say anything more, so he sighed silently, and then continued to set off with the team.

Seeing Chen Yongguang angrily going to drive behind, Jiang Xiaoyu couldn't help watching the excitement from the side.

"Brother Qin, do you think this kid can really drive away? I want to see what tricks he can do."

"Does he really think that anyone can drive this car? Don't cause any problems then."

Qin Yuan just smiled and didn't speak. The car he controlled steadily was very stable in such a harsh environment. After a while, he sent Jiang Xiaoyu and the others to the camp area. After getting off the car, he turned around and faced Jiang Xiaoyu hurriedly stopped him.

"Brother Qin, what are you going to do? Haven't we all come back already?"

"Of course I went to find that brat. Don't you just watch him have trouble like this? Although I don't want to care, but no matter what we came together, don't make it a joke."

"I just said that there is nothing good to happen when we meet them, and they cause us trouble again and again."

"Forget it, everyone don't say a few words, please help to see if there are any other problems with this car, and return it to others after it is done, so as not to make people think that we don't understand etiquette."

"Don't worry, Brother Qin, we will handle this."

This military jeep was the first to rush into the ravine next to it. They were lucky. There was a ravine on one side and a cliff on the other side. It would be even more unimaginable if it rushed to the bottom of the cliff.

After rushing down, only the side bumper was damaged a little, and the paint was a little off. Jiang Xiaoyu and the others planned to repair it with the tools they borrowed from them.

When Qin Yuan walked halfway, he saw Zhang Lianchang and the others had returned. It was almost dark at this time, and Zhang Lianchang was also very anxious.

Zhang Lianchang is purely warm-hearted, even if these people show him face again and again, but no matter what, he feels that they are all his comrades, and he feels uncomfortable when anyone has a problem.

When he saw Qin Yuan, he breathed a sigh of relief. He knew that Qin Yuan would not do anything, and he had been worried before.

It's just that Company Commander Zhang looked at the commando following Zhang Long and shook his head. They were obviously two commandos, and it was obvious that they belonged to different captains and had completely different styles of doing things.

But how come they act like Qin Yuan is their captain, taking care of everything, and worrying about big and small things, but instead, their Fox Hunting Commando just left their members and left.

Chapter 1222: changed

"Captain Qin, you are really good. You even drove the car back. I really admire it. Under such circumstances, your psychological quality is too good."

"After all, it was your car that was left outside for half a month, so what will you need later? Anyway, we are here to cause trouble for you."

"I still understand some things. Captain Qin, you are a very nice person, and there is no need to always act for them. Some responsibilities should be borne by them, so let them bear it themselves."

Company Commander Zhang finally understood that this was all because he was willing to do something thankless, and he was so excited to help the Fox Hunting Commando.

It turned out that the people next to him didn't appreciate it at all, so Zhang Long led his team members and walked away from the side without even greeting.

"I really can't figure out why there is such a big difference between the two commandos. This is too exaggerated. I really think it is too much."

"Actually, it's nothing. Just ignore him. Sometimes we can do things that are worthy of our own conscience."

Zhang Long looked at the young man in front of him with even more admiration. He had only heard of the legend of Qin Yuan before, but his relationship with him during this period of time really made him completely admire him.

When Qin Yuan rushed over, he saw Chen Yongguang still struggling to push the car. This guy also knew that he didn't dare to drive in this situation and could only push with his own strength, but he didn't want to. too easy.

Under normal circumstances, he wouldn't be able to push it alone, let alone in such a harsh environment, plus it was a plateau area.

Chen Yongguang's face was completely red, and he was panting heavily. This is a typical altitude sickness due to lack of oxygen, because he has been consuming his physical energy here.

Qin Yuan stepped forward, intending to help him, but Chen Yongguang said something coldly.

"What are you doing here? Are you here to see my jokes? Or are you here to watch the excitement? Let me tell you, I don't need sympathy."

Hearing this, Qin Yuan only found it funny. It is indeed normal for some people to be young and energetic, but if they are too ignorant, it will only make him feel very disgusted.

"Anyway, whatever you think, if you don't want my help, so be it."

Chen Yongguang gritted his teeth. He was even more convinced that Qin Yuan must not be allowed to help, otherwise it would be shameless. He would definitely be able to, but no matter how hard he tried, the car would only move forward a little.

Even the distance of 1 meter is less than, you must know that in this environment is already his limit.

Qin Yuan couldn't stand it anymore, and it would be dark if it continued like this, so he walked over and pushed Chen Yongguang away, and then threw a pot of water to him.

"Don't waste your time here, I really can't stand it."

Qin Yuan exerted a little force, and the vehicle went straight forward. The engine of this car was broken, and Qin Yuan had nothing to do in this situation.

No wonder this guy didn't drive it just now. It turned out that the engine was broken, and he thought it was because this guy didn't dare to drive.

In this way, Qin Yuan pushed the car step by step, and the car was like a toy car in his hands, and it was easily pushed out a lot.

Chen Yongguang, who was behind, fell to the ground and gasped for breath. He couldn't believe what happened in front of him at all, it was too exaggerated.

Although he didn't want to drink the water Qin Yuan handed over, but in this situation, he was really out of breath and had to add some water.

He unscrewed the lid of the kettle and gulped a few sips of water, but the situation didn't seem to improve. No matter how much water he drank, he still felt dry and thirsty. Looking at Qin Yuan's back that was drifting away, he struggled to stand up. Getting up, trying to keep up with him.

This is really embarrassing to say, originally he came to move the car, but he didn't expect it to end up like this, and he also thought that his team members would come to help him, but he thought too much.

Chen Yongguang gritted his teeth, he felt that his breathing became more and more rapid, no matter how he adjusted it, it seemed that there was no way to recover.

Then some double images began to appear in front of his eyes, and he tried his best to maintain the figure, but of course he still couldn't control it, so he just fell down.

He was lying on the ground panting and trying to make a sound, but he couldn't make a sound. At the critical moment, Qin Yuan ran up to help him up.

He was struggling even to speak, at this time Qin Yuan took out a silver needle, pierced his neck directly, and pricked his fingers a few times.

In fact, Qin Yuan did this mainly to confuse him. Now he only needs to use a little recovery power to completely recover his body.

A few seconds after the silver needle was inserted, Chen Yongguang felt such a heavy burden on his body. Just now, his chest was like a big stone, and he couldn't even straighten his waist. Now he feels a lot easier now.

He turned his head and looked at Qin Yuan who was treating him next to him, "How did you do this? You must know that I have altitude sickness, and it is basically impossible for me to recover with such a simple treatment."

"This is a little medical skill passed down from my own ancestors. You don't need to know anything more, as long as I treat you well."

After repeated contacts like this, Chen Yongguang lowered his head and said nothing, and it took a long time before Qin Yuan patted him on the shoulder.

"It's impossible for you to stay in this place, right? Get up quickly, it will be completely dark later, how can you go back?"

"I...I feel like I did something wrong this time..."

"What? Do you want to make some regrets for me here? It's not necessary. It's better to stop. I don't want to hear any regrets. Get up quickly."

Chen Yongguang nodded. Now he has fully recovered, and there is no other problem with his body. He stepped forward and pushed the cart with his lover, saying that he was helping Qin Yuan push the cart. In fact, he didn't use any strength at all. too fast.

He also admired him more and more, mainly because Qin Yuan's skillful movements are too many, and they can be used directly on the vehicle. In this case, someone needs to be in front to control the direction, but Qin Yuan actually relied on the strength of his hands , holding the rear of the car and directly changing direction, this is the first time he has seen such strength.

So I have to say that he really admires him. In the face of such absolute power, he can only describe it as awe-inspiring. No wonder they have always said that he is not a star and a half.

In this way, the two of them walked for a long time. Chen Yongguang felt that the atmosphere was a bit awkward. He sighed silently, and then couldn't help asking:

"Actually, I have a question. Why do the teams you lead seem to be very united, including those in the Marine Corps. Although you are not their captain, they listen to you very much."

Qin Yuan knew what he was talking about now. The mood of this group was as if he had been betrayed by his teammates. After all, he was left there alone to push the cart, and no one came to help him, so he felt chilled. .

Even the last self-esteem of this guy was seen by me, because his weakest and weakest side was presented in front of me.

But this can be regarded as a good thing, usually after such a situation, many things will be relieved, Qin Yuan smiled.

"This is the crux of the problem. Although I am their captain, I will not control them. I don't regard them as my subordinates or belongings, but as brothers."

"As a brother, how can this be? You are the commander, you must keep your head clear at all times."

"You know what? Sometimes you have to put yourself down a little bit. Everyone can be a commander."

Now Chen Yongguang has no way to understand, but he has seen Qin Yuan's success. No matter what, this guy seems to be very popular everywhere. On the one hand, he is as powerful as a man, and on the other hand, many people are very obedient. his arrangements.

In this way, the two pushed the car back to the barracks together. Company Commander Zhang was also relieved to see the two came back safely. Jiang Xiaoyu and the others stepped forward to hand towels and hot water.

"Brother Qin, you guys are back. This has been making us worry about what's going on. Balang also said that he would wait to come back for dinner together."

"You stinky fish, obviously you said you wanted to wait for Brother Qin to come back for dinner together, so you brought it on me again."

Deng Jiuguang looked at the two people who were arguing and laughed, "Okay, stop making trouble, come back to eat quickly, we all eat together, this brat Xiang Yu will serve us noodles inside."

"Hahaha, then I have to taste our chef's craft."

Qin Yuan walked towards the cafeteria with them while joking, leaving only a lonely figure beside him. This person was Chen Yongguang. He looked at the empty playground and was at a loss for a moment. The bustling people in front of him In stark contrast to him.

They were also captains, but he didn't get any attention from his side. Everyone felt that what he did was justified.

Isn't this the result he wanted? Because of his previous strict requirements, no one dared to disobey his orders, and he did not order his soldiers to come to help him.

So this is also self-inflicted. According to the normal logic before, if they are so obedient, I should be happy.

But I don't know how to say it, but now I have a sore feeling in my heart.

Qin Yuan actually noticed his feelings, but these things can only be realized slowly by himself. This person is really too arrogant, so some things can't be rushed.

Chen Yongguang walked into the dormitory, and the whole dormitory was deserted, with no one at all.

At this time, footsteps sounded from behind, and he felt a little surprised for a moment. Could it be that this group of boys really found out and came over to ask him to eat.

The one who turned his head was indeed a monkey, but he was not asked to eat.

The monkey just made a report very seriously, then came in, took the equipment and went out.

"Where are you going, boy?"

The monkey still felt strange, he turned his head, "Captain, shouldn't we be running a 5km run at night?"

He almost forgot about this matter. He said before that no matter what the situation is, he must keep up with the training every day. He cannot delay the training because of something, otherwise the training will be extended.

"Okay, then you go quickly."

"Yes!"

The conversation between the two parties was very official, without any emotion at all, and it sounded like some kind of order was deliberately carried out.

Chen Yongguang sighed silently. To be honest, he really envied Qin Yuan very much and envied him for being able to get such a brotherhood.

He also stood up and tidied up casually, and walked towards the cafeteria. By the time he went, the cafeteria had already been closed. The army's regulations were already strict, and Xiang Yu just added meals by themselves.

Seeing the closed door of the cafeteria, he smiled helplessly. At this time, the person next to Company Commander Zhang ran over. He knew this soldier who had clashed with them before and was thrown to the ground by them.

The soldier didn't think so much and put the two packs of biscuits in his hand regardless of the past.

"Captain Chen, you probably haven't eaten yet. Our company commander thought about it before, so he asked me to look for you. I went to the dormitory to look for you but couldn't find you. I thought you might come to the cafeteria."

"That's right, it's too late today, mainly because I was delayed in the dormitory for a while, and I wanted to come and get in."

"It's nothing, you can eat some biscuit mats first, if you are really hungry at night, we also have instant noodles over there."

Facing the concern of others, Chen Yongguang felt a little overwhelmed for a while, mainly because he felt quite guilty for his attitude towards others before.

The soldier didn't say much, and turned around to leave. Chen Yongguang finally stopped the soldier. He wanted to apologize to him, but he couldn't open his mouth after struggling for a long time. He had never apologized to anyone.

Seeing that he couldn't speak for a long time, the soldier was a little puzzled, "Captain Chen, what do you want to say?"

"This... is what happened before. My people are a little sorry."

"Oh, this matter is over, Captain Chen, you are too polite to say this, then I have other tasks to perform, so I will leave first."

Chen Yongguang nodded, and the little soldier left. He looked at the two packs of biscuits in his hand and fell into deep thought. Is it really a problem with his plan to lead the team?

In fact, think about it carefully. Except for Qin Yuan and the others, let's say they came to the border defense brigade, these soldiers are really good to them.

People who have only been together for a short time will come to care about whether they eat or not, but the people in my team have been together for so many years, and they are together.

It has been more than three years since the selection and training, but I always feel that I am not so close.

But when it comes to this, he is actually to blame himself. What he had to train at the beginning was cold-blooded, and he must not have any feelings. He felt that once he had feelings, it was his weakness, even the feelings between teammates.

Their only emotion is trust, they can trust their teammates around them, but other so-called concerns cannot exist, otherwise it will be easy for the enemy to grasp their weaknesses.

Chapter 1223: relax some

So that's why the people in Chen Yongguang's team are very powerful, they can win every competition, and they can even cause serious injuries to their opponents, that's because they are cold-blooded enough.

They can even treat their brothers in the team as opponents, let alone other people. For them, they must win at all costs, and they will not pay attention to any rules on the battlefield.

So just like Da Lei's shot against Hades before, he actually knew what the consequences of that shot would be, but he was able to bear it, because this was a competition in the first place.

He absolutely can't lose in such a competition, and he also knows the strength of Hades, he absolutely can't let such a terrifying person develop, that's why he had such an idea.

To be honest, if these fighters become completely cold-blooded, it will be very scary, because their own abilities are very strong.

This is also something that Qin Yuan is very worried about, and Chen Yongguang is also slowly realizing that they can even abandon their own chiefs, without ordering them, they will not take the initiative to think like a machine.

At this time, Chen Yongguang walked to the playground, looked at the people who were training, and just said something lightly.

"This is the end of today's training. Everyone is tired after a day of tossing around. Let's go back and rest."

The monkey almost didn't react when he heard this, it's too strange, what's going on? But Chen Yongguang didn't explain any more, and the others just walked back to the dormitory with their hands behind their backs.

"I'm going, what's the situation? It's impossible to rest if we don't train us to death."

"Rest when you rest, what are you talking about so much? Just follow the order."

"I think it's better to be careful, don't suddenly torment us again at night, he didn't do this once or twice."

Monkey nodded, and just like that, everyone returned to the dormitory. When they entered, Qin Yuan and the others had already showered and were sitting beside them talking and laughing with everyone.

When Jiang Xiaoyu saw them coming in, he didn't hesitate at all, "Brother Qin, I have to say that your skills are really amazing today, and it would be a loss to go straight back, otherwise it would be a real shame to leave those two cars there. It was scrapped, and there are some people, they are obviously the ones who did it, so far there is no explanation."

"Xiaoyu, this is your fault. If people know they are wrong, they may keep it in their hearts. Who would say it?"

"I just can't understand the kind of people who can't speak out. If it's a man, then he should have the courage to apologize and cause some trouble for others. The instrument will not even speak up if he is embarrassed."

Jiang Xiaoyu said so. According to Chen Yongguang's usual personality, he would definitely rush out to make a few sophistry, but at the moment he was lying on the bed silently, and didn't say anything. Say more.

Everyone felt a little strange, especially Zhang Long. This was too inconsistent with Chen Yongguang's attitude. He stepped forward and looked at Chen Yongguang and asked:

"What's going on with you today? And you came back with Qin Yuan in the end, didn't you say anything?"

"What else can I say? They pushed the car back by themselves. It wasn't me who pushed the car back, but he pushed it. I can at most support it from behind."

"What! Are you kidding? It's a military jeep, and he can push it for such a long distance with his own strength."

"Do you think I'll still lie? Things have come to this point, and I don't want to say anything more. Their strength is really not on the same level as ours."

It was rare for Chen Yongguang to admit the excellence of others. He turned over and was about to go to sleep. Zhang Long saw that his attitude was not good, so he asked more questions.

In this way, everyone stayed honest, and the daily training was still really hit by Zhang Lianchang. The snow fell intermittently for a week.

Finally, the sun came out. Qin Yuan looked at the sun and felt that the situation on the road would ease a lot, and they would be able to go out in a short time.

After getting along during this period, they had a rare peaceful time, without the previous quarrels.

The situation on the road behind has eased, and they can go out. There is absolutely no problem in this case.

When they set off, Company Commander Zhang specially brought some extra supplies for them, "I don't know if the place where he put it has been restored, but if you go out or what he sent, you can take a detour, as long as the road is not icy, You can go out by other ways."

"Zhang Lianchang thanked you for your care recently. I will definitely come to thank you in person later. Now we haven't gone back for a long time, so we have to go back and return."

"Of course I can understand this. Besides, there is no need to be polite. We are all a family. We are a brother company. We will help if we need to."

In this way, everyone said goodbye and continued to set off. Chen Yongguang was in a better mood during this time. Although he led the team to train every day, he was not as strict as before. He felt that it was time to change his training plan.

The section of the road he had placed before could not go out. Under Qin Yuan's leadership, they detoured to another road, and finally succeeded in getting out. Jiang Xiaoyu breathed in the air outside.

"Good guy, we finally came out. This period of time has suffocated me. I want to go back to eat seafood."

"Can your stinky fish have something to offer? Why do you want to eat all day long?"

"Then can you think of anything else? Besides, Brother Qin took us to train every day during this period, and I feel that I have improved a lot."

This is not bad, and with Qin Yuan's help, their altitude sickness is not that great. As for Zhang Long and the others, they plan to go back to their base after going out, and then look at the situation.

Qin Yuan wanted to send Jiang Xiaoyu and the others back to the Marine Corps first, and they were going to part at the intersection ahead. At this moment, Zhang Long stopped the car and walked forward with a smile.

"Captain Qin, then we will leave here. I really appreciate your care recently. Don't worry, we will meet again when we have the chance."

But Qin Yuan didn't intend to let them leave like this, "I said everyone, have you forgotten something? Our agreement before."

Zhang Long originally thought that if he could evade it, he would evade it for a while, but he didn't expect to face it so soon.

During this period of time, Chen Yongguang thought a little bit clearly. He should also be responsible for what he said before, and some things were provoked by them in the first place.

"Captain Qin, of course I will fulfill our agreement, but don't forget that we still have the last competition. Although I know it is a foregone conclusion, I still want to compete with you again."

Zhang Long sighed silently. He knew that there was no way to change this situation. Looking at Chen Yongguang, who was obliged to do so, he could only say to let them participate in the competition first, and see the situation later.

This assault team may still be unable to keep it, which was also expected before.

"Are you sure you will win this competition?"

"Team Zhang, the current situation is not whether I can win, and I only want to win once. Whether we win or lose, our team is doomed, isn't it?"

"It is indeed true to say so, but I still want to fight for it. I don't know if there is a chance."

Chen Yongguang shook his head. Judging from the recent events, maybe the commando team would be better if the coach was really changed. Before that, he always thought that the players in his team were very good.

This point can be said to be beyond doubt, but compared to some aspects, it is really incomparable. When this team was first established, he only wanted to achieve results, so he led the team to compete around.

Later, when he gained his own strength, he wanted to defeat Qin Yuan, but this series of failures, coupled with Qin Yuan's ability, made him secretly admire him.

So now he doesn't ask for any results, as long as he can achieve a victory on his side, it will be no problem to fulfill this wish.

Zhang Long was not reconciled, anyway, this commando team was organized and set up by him alone, and he couldn't accept giving up like this now.

"Why, Captain Zhang, are you a bit reluctant?"

"It's not a big deal, I'm just willing to bet and admit defeat, Captain Qin, I have to say, you are indeed very good."

With things at this point, it's hard to say anything more, they can only go back with Qin Yuan, compete first and then see the result.

Everyone in the team feels that they have nothing to do with them, and their attitudes have not changed much. They have nothing to do with the change of instructors or the reorganization of the team.

On the way back, Jiang Xiaoyu and the others were very happy. After all, according to Qin Yuan's intention, they were to be recruited, which could be regarded as giving them back a bit of confidence.

"Brother Qin, if I remember correctly, you seem to be working on a special operations team."

"That's right, they've been training recently. Their fox hunting commando team has good overall results and can be a ready-made team."

"Just now you didn't see Captain Zhang's gloomy face, hahahaha, it's rare to see that guy deflated."

"Isn't it a good thing for me to say, after all, it's very good for them to change to a good instructor."

"But people don't think so. I'm probably worried that Brother Qin will directly recruit them all. It's funny to say, what does Brother Qin accept them for, even training is for them!"

Several people were chatting and laughing. It seems that Zhang Long must have misunderstood. He thought that the team would go to the Special Operations Brigade after the training.

Jiang Xiaoyu had a smirk on her face, and she didn't intend to tell Zhang Long the news. This person was too arrogant before, so he was treated as a punishment. Zhang Long was a little restless in the car behind.

Three years of training plus selection, he has put in a lot of effort, didn't he think it would be over today? He looked at Da Lei who was driving without being affected at all, and even hummed a song.

Everyone was very relaxed throughout the whole process. Only Chen Yongguang took out his computer and tapped beside him. After all, he will compete with Qin Yuan in tactical guidance later.

Although it is a simulation of actual combat, it is also a test of the commander's on-site response and the ability to give correct instructions in a timely manner.

Regarding tactical command, he thinks that the problem should not be too big. He started to study this course in China, and studied abroad for three years. He has studied many combat plans of foreign armies.

Seeing that the Marine Corps was getting closer, Zhang Long became more and more anxious, "I said what did you do, now we may face the situation of replacement as a whole, why are you not in a hurry."

"Report to Team Zhang! Should we be in a hurry now?"

Hearing this answer, Zhang Long didn't know what to say. This was not the answer he wanted. They answered without any emotion, and even when faced with this situation, they were able to remain calm. It can be said that they had no emotion at all.

Zhang Long got angry in the car with some displeasure, and he loudly reprimanded these soldiers for not having any empathy. After getting along with each other for so many years, now facing this situation, they are not as good as outsiders.

At this time, Chen Yongguang shook his head at him, "Captain Zhang, it's not because they are too cold-blooded or emotionless, that's what we started training."

Under Chen Yongguang's reminder, Zhang Long also remembered that these soldiers had already been forced to undergo various desensitization training when they first arrived. Their biggest task was to complete the daily training, what else? Don't even have to think about it.

At that time, if someone had a problem with emotional orientation, they would interfere alone. It can be said that this team looks really good on the surface, but there are many problems in reality.

Now that the problem has gradually come to light, Zhang Long knows that he can't blame anyone for it. These training plans have been discussed by them, and he has understood all the training.

When it was time for the Marine Corps, Zhang Long saw Qin Yuan was already waiting for them as soon as he got off the car. Anyway, he would have to go through it sooner or later, so it's better to be more straightforward.

"Captain Qin, when will we start, let's start early and then finish."

"Don't worry, after all, it's your first time here."

"Huh? What do you mean?"

"Of course, I want to treat you well as a landlord. Don't worry, we are all comrades in arms, and we won't engage in such small tricks."

It seemed that he was petty when he said this, Zhang Long didn't seem to call to refuse, he could only agree, he didn't know what kind of medicine was sold in Qin Yuan's gourd.

They followed everyone to the beast camp Everyone is training on the training ground at the moment. To be honest, even Jiang Xiaoyu and the others can't see what Qin Yuan wants to do.

It's better to simply finish the competition. These guys came here last time, but it was purely for provocation.

Deng Jiuguang didn't say anything, he acted like a tour guide in front, introducing those warships and the purpose of the specific training ground.

In this way, everyone did not compete at night, but took them to grill seafood together on the beach. Although the team members were a little puzzled, what could be said about this food that could be eaten and played at the same time.

However, the members of the Fox Hunt Commando have always been in a tense state, and it is difficult to relax.

Chapter 1224: Convinced to lose

Chen Yongguang didn't know if he had really figured it out, felt that there was something wrong with his training method, or because of other reasons, the players had not been allowed to train for the past two days.

Everyone also did things according to the order. Hua who didn't need to train was of course good. Zhang Long would come out to say a few words at first, but later he felt that it was unnecessary. After all, this team would soon not be his own.

Now that Chen Yongguang has broken the pot, he doesn't bother to care about it so much. In the past two days, they have been led by Qin Yuan, either to play on nearby islands, or to go to the warship together.

Qin Yuan wants the team to relax completely. It is very easy to win against Chen Yongguang, but only when everyone relaxes can they retrain.

In the first two days, everyone was in a tense mood, which gradually eased up in the past few days. Before that, they were thinking about training tasks every day, or strengthening training.

Qin Yuan is very satisfied with their current state, so it's about the same. Zhang Long's side is indeed a little restless. He has been here for a week at the beast camp. In addition to showing them some basic equipment every day, is to go to the nearby islands to play.

Just when he was going to find Qin Yuan, Jiang Xiaoyu came to tell them to get ready, and took them to the big training room, where there were new media computer equipment for simulated actual combat command.

"Why are you suddenly notified to conduct actual combat exercises?"

"What? Do you still want to live with us until the Chinese New Year?"

Hearing what Jiang Xiaoyu said, Zhang Long smiled awkwardly, and asked Chen Yongguang to prepare quickly. At this moment, Chen Yongguang stood up and walked out silently with his computer.

No matter what, this day has come. Anyway, he has already prepared for this competition sooner or later. He now has 70% certainty in his heart. After all, he has done so many trainings abroad before and attended so many course.

What Chen Yongguang didn't expect was that when they arrived at the large meeting room, they found that it was full of people. The computers they were operating were also in the screen projection mode. Everything they operated was completely open. show in front of everyone.

Zhang Long can't accept this, because the other members of them have completely failed, so he cherishes this opportunity very much now.

In addition, there were so many people watching, which made him feel that he lost all face. It would be fine if Chen Yongguang won, but if he lost, he would be ashamed.

But now they are like ducks rushing to the shelves, there is no way to get down, and even the seats have been arranged, Deng Jiuguang greeted them politely, he can only go to the front of the stands silently.

Facing so many people for the first time, Chen Yongguang felt a little nervous to be honest. He had done this kind of simulation abroad before, but it was basically a training for some assault teams.

Let me show my results, and when he was in school, he conducted such a drill according to the arrangement of the teacher. Of course, he was facing some students at that time.

Everyone in this place is basically a professional, especially the first and second rows are all leaders. Long Baichuan is also watching this competition with great interest.

"I have to say that this technology is really powerful now. If we had to carry out militarized drills before us, it would take a lot of money, manpower and material resources, but now all can be simulated on the computer."

"However, such simulations are definitely not as good as actual military exercises. Only under such military exercises can we find problems."

Listening to what Wu Gang said, Long Baichuan also nodded, no matter what, now they want to see the specific situation of this competition.

Qin Yuan made a gesture of invitation, Chen Yongguang took a deep breath, and walked across from him. There are three stages in this kind of simulation training. The first stage is the simulation training of the assault team. On the computer, they each bring a commando.

For commandos like this, they must complete the tasks set by the computer itself before they can win. The way to win is also very simple, but it depends on the conditions of the task, the time to pass the level, and so on.

To be honest, this thing is actually similar to what Anran designed. Now Anran is mainly responsible for military game development. Large-scale software such as military game development is also designed by their department.

And it is very simulated in actual combat. Injuries, accidents and other situations in the game will be combined with actual combat.

Their task in the first level is very simple. They each lead a commando team and then enter a castle to rescue the hostages. However, they have to base on the number of enemies in the castle and the specific location of the hostages. The first is to kill the criminals, and the second is to ensure the safety of the hostages. .

In addition, the number of people in the assault team must also be well controlled, otherwise there will be a proportional imbalance if the number exceeds the number, and if the number of casualties is too large, it will also be judged as a failure.

The first level seems to be very simple, the two parties should not have too many problems, everyone is discussing it below.

They need to pass through the jungle, and then enter the castle. When passing through the jungle, there will be no traps such as mines nearby. Chen Yongguang's method is still the same as before. He controls the commando to break in directly from the main entrance.

Qin Yuan took his time here, because in this game, he couldn't show too much personal ability. After all, he didn't go in to rescue, but he wanted to control these commandos, so he needed an ultimate team. Safe way, because their goal is to rescue the hostages.

Qin Yuan's plan was to go around from behind and directly avoid the dangerous jungle, but they also had to face another danger, which was the cliff. If the cliff faced the actual Qin Yuan, there would be no problem at all. But now it is a simulation after all.

So he was also very cautious. He commanded the team on the computer safely. Under his command and order, the team passed the cliff safely, and he was completely relieved.

It has to be said that sometimes it is necessary to have the spirit of daring to take risks, just like Qin Yuan this time, he passed the cliff in a greatly shortened time and won the first pass first, although both sides rescued the hostages.

But Qin Yuan spent a total of seven minutes and eight seconds, while Chen Yongguang had to face the danger of landmines and the danger of cutting into the enemy head-on because of a forced breakthrough.

So he was a little overwhelmed for a while, and in such an attack, their players were injured. Although this was a simulation, it largely reflected the actual combat situation.

Therefore, the score given by the system was 9.8 points for Qin Yuan's side, and only 7 points for Chen Yongguang's side.

He was not very satisfied with the result, he didn't know where the problem was, his command was obviously fine, why would there be casualties, and Qin Yuan was better than himself even in this kind of simulated control.

Zhang Long kept cheering beside him. As a commander, he certainly understood that this was only the first level and didn't mean anything. He asked Chen Yongguang to work hard, and then there were the second and third levels.

For the second and third rounds, the number of people in command is more than the first time. In the second round, it is almost necessary to command the entire company to fight. In the third round, there will be more. As a general commander, you need to adapt to the changes in the number of people. On-the-spot command response.

It is also necessary to deal with various emergencies, which can also reflect a person's command ability.

Chen Yongguang thought about these three levels, no matter what, he would win once. Of course, he did not expect that the courtyard was better than him in every game. The onlookers applauded again and again.

Long Baichuan, who was sitting next to him, stood up and applauded him. Before, he thought that Qin Yuan was already very good at leading the commando team. He didn't expect that besides training, he knew so many tactical instructions very well, whether it was naval combat or He can command the air force with ease.

"You see, I said that this kid is hiding it. I didn't expect to have so many skills. He is really a treasure. Why didn't I find it before."

"This kid's strength is not only here, but you look at other aspects. He has been a coach in a tank company and an air force base before. This kid has been to many places."

In addition, commanding so many people to fight is a trivial matter for Qin Yuan. His system has recovered the ability before, and he has some other manuals, so this is no problem at all. In his opinion It doesn't matter how many troops you lead.

After these three levels of competition, the winners and losers were already obvious. Chen Yongguang had already lost from the second level, but he still persisted in the third level.

Moreover, he simulated a foreign army before, so this time he also used the foreign army's method of leading troops, but he did not expect that Qin Yuan would directly defeat him with the traditional confrontation with soldiers, because the third level It is mutual confrontation simulation training.

Seeing this scene, he couldn't believe it, because in his opinion, many plans of the foreign army were very effective, why didn't they work when it came to Qin Yuan.

Before he competed with Qin Yuan in various competitions, he felt that Qin Yuan had a strong personal ability, but now there is such a simulation training, which is about command, although it is also a display of personal ability.

However, the strength and capabilities they used in the simulated training were all uniformly set by the computer. It can be said that they were on the same level, but he still lost.

He looked at Qin Yuan helplessly, but he didn't expect him to think that there was a 70% winning rate, which was really ridiculous under such circumstances.

"I don't understand why I lost, and according to my plan, it should be the most advanced, why you can directly destroy my command post with basic confrontation."

"Because it's very simple, what you learned about the foreign army before must only apply to them. Of course, the characteristic of this side is that we are currently using the local terrain, and there are some basic conditions that some foreign troops are not suitable for you. You must know What applies to each country's military is only each country's operational plan."

"Do you mean that I understand this problem too complicated?"

"I'm not denying that their foreign troops are not good. They also have many good points, but we need to distinguish them. As commanders, we need to find good aspects and integrate them instead of just integrating them. Of course we There are good ones too,"

As soon as Qin Yuan's words fell, there was warm applause at the scene. This time's explanation not only allowed them to learn many commanding strategies, but also heard a wonderful speech.

Long Baichuan felt that he had benefited a lot, and many things were indeed worth learning for the current commanders.

"I really didn't expect that I had studied for so long before, and it wasn't worth the few words you said. Forget it, I have already lost, and this time I also admit defeat. My team, you can take it."

"What do you mean by that? Aren't you in this team?"

This surprised Chen Yongguang a bit. After all, from the beginning to now, he and Qin Yuan have been developing in the opposite direction, and he is constantly picking on problems in all aspects. He feels that if he is Qin Yuan, he will not want this at all. Bing, I didn't expect that Qin Yuan seemed to mean that he wanted to be with him.

"My meaning is very clear. What did you say at the beginning? As long as you lose, you will worship me as your teacher. Now that you have lost, this apprentice should fulfill your promise!"

"I didn't expect you to be so generous? Do you think I can be in your team?"

"It's not that you are in my team, but this is your team. As you know, I'm currently being ordered to train an assault team, so I'm just helping you transform your training to become a stronger assault team." Team, do you understand?"

Zhang Long in the audience was a little surprised when he heard this. He thought that Qin Yuan wanted to take back their commando team, but he didn't expect that he was just helping with training. Speaking of it this way, it seemed that they were using a villain's heart to save him The belly of a gentleman.

He felt a little embarrassed for a moment, and didn't dare to look at Qin Yuan in the audience. At this moment, Qin Yuan came down and patted him on the shoulder to make him get ready.

"Captain Zhang When I'm training, you can come over and give guidance. Don't worry, I already know the problems of your team. I will definitely train a stronger and better team than now. Commando."

"I...I'm really very..."

Sorry, before he could say it, he was interrupted by Qin Yuan. He was not used to hearing these things, and there were so many people here, so he was giving this guy some face.

"Let's talk about some things after we go back. It's not convenient to talk about it on this occasion, and everyone knows it in their hearts."

Zhang Long nodded in embarrassment. He had always misunderstood Qin Yuan before, but he didn't expect him to be so generous, which made him feel a little alien inside and out.

Chapter 1225: island training

Qin Yuan didn't say anything else, just walked out with them like this. After they came out, their team had assembled, and Monkey and the others were not surprised by the change of a new instructor. After all, they had done emotional training before. Things are maintained with an indifferent attitude.

In their thinking, what they need to accomplish is training and mission objectives, and this is what Qin Yuan needs to change when he takes over the team.

Chen Yongguang was convinced that he lost this time, he stood silently in the middle of the team, Monkey felt a little strange, after all, he was the former instructor.

But he didn't say much, Qin Yuan stepped forward to give them a new lecture, "I don't care how you have trained before, what kind of method you have before, but from today onwards everything will be broken, according to my goal, according to Here comes my training."

"Yes!"

The only best thing about this team is to obey orders completely without any doubts, because in their thinking, the instructors are not allowed to accept any doubts, which is what Chen Yongguang has been instilling from the very beginning.

Qin Yuan planned to train them on the Marine Corps side, which is also more convenient because there are various islands. There is no big problem with other abilities of the training team, because this time, although the members of the team lost.

But he has exhausted his ability, and when he usually competes with other players, he will restrain himself a little.

So strictly speaking, the ability of this team is still very good, and the ability is undeniable.

What needs to be changed now is their traditional way of thinking, as well as the training mode. He wants to train this emotionless team to make them more humane, and also to help them have other wonderful things in actual combat. Performance.

But this time also means that Chen Yongguang is no longer the captain of their team. Qin Yuan said very clearly that he wants to train this team, which is to completely break the previous tradition and organization. The team leader can be anyone.

This is a very simple order, and Qin Yuan has trained other teams before, everyone is very eager to sign up to be the team leader.

But the current situation is not like this. When the position of team leader was proposed, everyone still looked at Chen Yongguang.

Because they didn't have any thoughts of their own before, except that the mission was the goal, they didn't give them extra energy to think about the position of captain, so they were very confused for a while, and they only habitually looked at the person who gave the order before.

"From now on, I will assess each of you, and those who are capable can be qualified as captains."

Chen Yongguang didn't have any room to refute. He knew that he was incompetent as the captain. Judging from the training and confrontation during this period of time, he was still lacking in many things.

Zhang Long was hesitant to speak beside him, he didn't know whether he should intervene, but he finally chose to trust Qin Yuan, and didn't say anything more.

The ability of the whole team is already very strong. Qin Yuan doesn't need to give them any special training. What they need now is to relax. It can be said that the reason why they were so strong before was long-term training, which hardened their physique. elongated.

Qin Yuan led the entire team onto the warship. Zhang Long wanted to follow, but was stopped by Qin Yuan. To put it bluntly, he was just the captain of the team and did not need to participate in direct training. He only needed to check the results in the end. Can.

"Team Zhang, I suggest you not to follow this assessment. Our number is limited, and I will make up my own mind about some things."

Seeing that he was rejected, Zhang Long could only smile awkwardly, and immediately found a step for himself,

"That's fine, then you can ask me any questions you have about training in the future, after all, I've been with them for so long."

Qin Yuan nodded, and then led the team onto the warship. After a while, Jiang Xiaoyu and the others also came. Zhang Long felt very uncomfortable now, making him look like an outsider, but he really couldn't do anything now. Unless he also joins the training of this team.

But he is very clear that at his current age and physical fitness, he can't keep up at all. He can only be used as a commander in the rear.

Everyone didn't know where the destination was. The best thing about these soldiers was that they didn't have any fear. Everyone had a calm face about going to an unknown location.

Qin Yuan looked at Da Lei who was standing guard on the deck and said tentatively: "The training in the future may be very difficult, and it will involve some elimination system. How sure do you think you are?"

"Reporting sir, we never think about things that are sure, we just need to work hard, and there will be no problem with 100% effort."

Qin Yuan shook his head. He doesn't need how brave these soldiers are. What he needs is that they know how to be afraid. Only then can they have the thinking of normal people. Only then can they come out to analyze the current situation alone, otherwise this problem will only be solved. getting more serious.

Chen Yongguang is also aware of this problem now, and he smiles helplessly. To be honest, after so many years of training, even he has some fears that he doesn't know. Training has made them fearless of life and death.

He and Qin Yuan talked about the previous training situation. At that time, they were all high-intensity. Under such high-intensity, they had no thinking of their own, and they had forgotten their fear and fatigue.

Qin Yuan said that he understands that what he needs to train now is to make them emotional. Such training may be more difficult than making them stronger.

During this period of getting along, Chen Yongguang also realized that there might be problems with his previous training, because he knew that these people were all kinds of strong elites selected from all over the country. If they could be exchanged for Qin Yuan, their training results and the ability to perform tasks in the future will be stronger than now.

"Captain Qin, although I lost the competition with you, I hope that this team will get better and better than anyone else. He was also formed by me, and he has completely devoted all my efforts."

Qin Yuan patted him on the shoulder. As long as this guy wakes up now, there is still room for salvation. Now that he has this awareness, he can cooperate well with him later.

In addition, he himself is a big problem, so he can't tell him what to do with his own plan, he will do it himself.

The better thing about this team is that no one asked when they set off, so everyone came to an island together, Qin Yuan wanted to conduct special training for them, and Jiang Xiaoyu and the others knew about it after arriving on the island.

They had done this training before. At that time, they were all thrown on the island, and Xiang Yu came out. They originally wanted to unite them, but it was easy to fall apart on the island.

But this time, they only need to cooperate. After they first landed on the island, everyone came down and looked around the island. This island is much better than the one where Jiang Xiaoyu and the others were before.

"Brother Qin, this place is even bigger than our last time, and Xiang Yu really stole the limelight that time..."

Jiang Xiaoyu wanted to continue talking, but was grabbed by Deng Jiuguang next to him. If this kid continued to speak, he would probably reveal his secrets.

He understood in an instant and didn't say anything more. Fortunately, the others didn't pay attention at all, so Qin Yuan arranged them on the island according to the previous situation, and just announced to them that they would have a special training.

In order not to let them have any doubts, Qin Yuan is also on the island this time. Originally, he could have left, but with his toes, he knew it would be him, so they would be on guard, and they couldn't let go of that wary.

Everything was normal before, and everyone was a little surprised. Although it was said that they were going to train on the island, of course there were no training measures. They just did simple push-ups and then did fighting training on the beach.

It was getting dark soon, this side belongs to the island, so it got dark faster, but Qin Yuan didn't have any intention of going back, he asked everyone to simply set up camp on the spot.

For this kind of training, everyone did not have any doubts, and they all started to take out the tents and start building.

After the tent was set up, Da Lei stood up at night and began to take charge of the security. The discipline of their team was relatively strict, and they changed every hour, so that they could maintain absolute concentration.

Standing on one shift every hour sounds troublesome, but it is also the most effective, because under this situation, everyone's experience is highly concentrated, and there will be no problems. The reason why the team is so strong is because Chen Yongguang had very high demands on them before.

Seeing this situation, Jiang Xiaoyu felt ashamed. Before, they always felt that this team was really strong in some aspects, and they won by relying on their strengths, especially in the plateau area.

But after a careful comparison now, it is not without reason that they are strong. They are strictly following their training indicators 24 hours a day, and they have become accustomed to it.

According to this situation, they didn't have any chance to attack at all, and Qin Yuan didn't give any instructions, mainly because the time was not yet.

Jiang Xiaoyu and the others waited for several times and Qin Yuan did not give an order. In the end, everyone had to put up the tent and go to sleep like this.

Unexpectedly, at dawn the next day, Chen Yongguang found out that something was wrong. He was the first to get up, because he was going to pick up the monkey's shift, and the monkey stood at the last post.

But the monkey didn't show up at this time, and he was a little angry, because although he was not the captain of the team, of course, did this guy leave his post without authorization again? Although there was one time in the previous training, it was because this guy had a stomachache, but that time only lasted two or three minutes.

But now it has been such a long time, and he has not shown up. Chen Yongguang kept looking at his watch, and he said that he must criticize the monkey severely once he comes back.

Everyone picked it up one after another and saw Chen Yongguang with a dark face, a little confused, so Da Lei stepped forward and asked, "Captain Chen, what's the matter?"

"Who was on the watch at 5 o'clock last night?"

"What happened to Liu Yang?"

"When you came to pick him up yesterday, was there anything unusual? Now he has left without authorization for ten minutes!"

It has been ten minutes since everyone heard this, which is considered a serious mistake. After all, if it is an actual combat situation, these ten minutes are enough to destroy their team.

Although their team has never experienced actual combat, it is very important to stand on guard. Ten minutes out of the post like this is enough for the enemy to touch.

That's why Chen Yongguang was very angry. Yesterday it was agreed that only they would be on guard, and Jiang Xiaoyu and the others would not be responsible. Unexpectedly, this kind of thing happened. Just when he was wondering how to punish him when the monkey came, he heard There was also a noise from Jiang Xiaoyu and the others.

He turned around and saw Jiang Xiaoyu saying that Balang was gone too.

"Where did this kid, Balang, go? He said he wanted to catch fish with us, why did he disappear this morning?"

If this is the case, it would be a bit strange, if only one person disappeared, it would be reasonable, but it would be a bit strange if the two people disappeared at the same time.

He hurried over to inquire about the situation, and only then did he know when Balang disappeared, because they didn't need to stand guard yesterday, but everyone didn't find him when they got up. At this time, Qin Yuan also came out of the tent. Yongguang noticed that his eyes were sleepy.

It seemed that he didn't know about it, so Chen Yongguang could only quickly report the news that the monkey had disappeared.

"Captain Qin, did you send them to perform other tasks? Why didn't you see them?"

"What do you mean by that? Besides, if I want to train, will definitely train with you, and will not train anyone alone."

It is indeed reasonable to say this, and Chen Yongguang also dispelled some doubts, and to be honest, he did not hear any movement during the whole process.

Qin Yuan walked to the tent next to him seriously, "Based on the current situation, the monkey is on the last shift, so the problem is only after 5 o'clock. He is also the closest to Balang's tent, isn't it? Where did the two go together?"

They are now on the beach, because they are facing the sea, and it is better to set up camp in this position, and there is a row of small trees on the side, which can protect them from the wind.

In this case, the beach is on the side, and if someone passes by, they will definitely leave footprints, but everyone walked along the beach, except for the footprints they came up yesterday, there are no other new additions.

Chapter 1226: Missing one after another

According to this situation, there is only one possibility that they did not walk from the beach, but set off towards the woods behind.

This situation is also what Chen Yongguang is most worried about, because before they set up camp, they searched the entire island, and he was very sure that no one else existed, so where did these two people go.

At this moment, Chen Yongguang was a little angry. He was not in a hurry. After all, both of them had very good skills. Now he had a doubt in his heart, that is, these two people definitely went to other places together.

Before, Balang and Houzi had some small conflicts because of fighting, so now he couldn't help but think a little bit, he thinks the two of them went somewhere to fight quietly.

Originally, he wanted to report this situation to Qin Yuan, but he always felt that something was wrong. After all, he didn't have any evidence, and if he said it, it might be a little embarrassing if it wasn't the case.

Everyone waited for a few more minutes, but the two hadn't returned yet. Qin Yuan had to say that his acting skills were excellent. He pretended to be very angry, and said angrily:

"What the **** are these two guys doing? This is simply delaying our training today!"

Looking at Qin Yuan's attitude, Chen Yongguang also believed it a little bit. At first, he always felt that it must be Qin Yuan's fault. Could he secretly photograph these two people to perform some mission? It didn't look like this at the time.

"Captain Qin, what shall we do now? How about this, in order to avoid delaying today's training progress, I will take two people in to find them now."

At this time, as the captain, Chen Yongguang showed his advantage, because he is very confident, he will immediately become the commander, lead people to find people, and then the rest can continue to train.

"That's not necessary. If you want to find it, it's better to start together, because the two of them will not be able to keep up with the training progress if they come. Besides, it will delay other people. It's better to start together. When the time comes, everyone will be on the same progress." superior."

Chen Yongguang felt that what he said made sense, so he agreed, and everyone formed a small team and started heading towards the forest ahead.

This island is neither big nor small, and it took them almost three hours to walk through it yesterday, but he was very sure that there should be no one else inside, but when they walked over the top of the mountain, he looked The densely packed caves on the opposite side were a little dazed.

The reef below proves everything. The large and small holes above were soaked and corroded by seawater for a long time, and the surface of the back sank, and the island was gradually formed.

But it is also the big and small holes, some holes are countless small, big enough, it is absolutely no problem for an adult to go in, so he is very puzzled, if these two people really go to duel in private, according to their size There should have been a response to the movement, but the problem is that there has been no sound so far.

Moreover, the two of them didn't have any footprints at all, and they didn't leave any traces. He usually trained and was strict with the team. Even if someone stood guard, and it was around the tents, everyone's tents were next to each other. He will definitely be the first to hear any questions.

...

Just as he was thinking, he heard Xiang Yu yelling from the opposite side, saying that he had found a new clue, and they ran over quickly, only to see that he was holding a shoe in his hand.

He took a closer look and saw that these were military boots specially customized by them. The heels of this kind of military boots were relatively high, and the bottom of the shoes had been specially treated so as not to leave footprints as much as possible. He knew the shoes belonged to monkeys when he saw them.

The moment he saw the shoes, he was a little anxious for a moment, because how could the shoes appear here for no reason? Could it be that something unexpected happened to these two guys fighting here.

Qin Yuan also rushed over, and he asked everyone to search around, but they kept calling their names, but there was still no response.

In this way, everyone searched around for more than half an hour, but there were no clues. Chen Yongguang looked at the densely packed holes in front of him, and didn't know what to do for a while. At this time, Qin Yuan came up and gave his own opinion.

"Although I don't know what's going on with the two of them now, since the monkey's boots have been found here, it is very likely that he appeared near here. There are so many holes here, and it cannot be ruled out that the two of them fell through. Happening."

It does make sense to say this, because the hole here is wet and slippery, and if one is not paying attention, it is really possible to fall directly, and the inside of the hole is directly bottomless due to the corrosion of seawater all year round.

But with so many holes, do they have to find them one by one? Chen Yongguang also raised his own doubts.

"Captain Qin, of course there are too many holes here, and we won't have enough time to find them like this."

"There is no other way now. Let's look for it first. If there is no way, we can only contact the cashier and ask them to send members over. If there is any danger between the two of them, it will be troublesome."

Chen Yongguang nodded. What happened this time was really unexpected, and it happened before the training started.

But now there is no other way but to search first. Fortunately, they are all specially trained, so after everyone fixes the rope, they start to search in the caves below, but there are too many caves here. They could only start their search near where the boots were found.

After searching like this for more than an hour, with no clue at all, Ruan Ruo pretended to start asking for support from the animal camp with his walkie-talkie.

There is no other way now. According to his previous character, Chen Yongguang absolutely cannot ask for help. He feels that he will be able to pass, but now

At this time, Da Lei suddenly saw a camouflage pattern appearing on the hillside in the distance. He thought it must be a monkey, because the clothes on his body were so similar to their training uniforms. He was a little angry for a moment. What the **** is this kid doing? ghost? They searched here for so long without giving any response, but the guy appeared on the opposite hillside.

He directly left the team and ran towards the opposite hillside. When Liu Yang, who was standing behind him, realized that he had run over, he was already tens of meters away. He didn't know what Da Lei was doing there. ...

When he called Da Lei again, he saw that his figure had disappeared into the jungle. When the others came up from the cave, they found that Da Lei had disappeared. Chen Yongguang was a little angry. What the ***** was going on with this one after another.

When he turned his head and asked himself, Liu Yang pointed to the opposite hillside, and Chen Yongguang yelled at the opposite hillside a few times, but there was still no response, but the direction he first looked at was the direction of Qin Yuan. The rope has just come up from the cave.

It seems that it has nothing to do with him at all, because he has also learned about such special operations before, and the special training methods are usually artificially created by them, mainly to train them, but at this moment Qin Yuan seems to have really been Helping find someone.

Not only Qin Yuan, but even those guys from the Marine Corps were nearby. It was impossible for them to have such a fast speed. This was a distance of several hundred meters.

Moreover, Da Lei hadn't come back after a long time, Chen Yongguang was also a little anxious, and took two more people there, but Da Lei disappeared without anyone noticing.

Three people disappeared one after another, everyone was a little puzzled, could there be something on this island?

"Captain, you said there won't be any monsters in here!"

"I'm not the captain now, you can call me by my name directly, and you can report to Captain Qin if you have any problems!"

For this, Chen Yongguang is very clear, and what he is most worried about now is the problem of those three people.

Qin Yuan also followed, he looked around for traces, and he was still doing it in a decent way, then shook his head and said that he found nothing.

"We've never come to this island for training before. We were here for special training with you. This place looks really weird."

"Captain Qin, do you mean that you have never touched this place before? Is there anything on this island?"

"Your thoughts are a bit ridiculous. What else can there be in this place? And you have already checked it yourself when you came here. It is closed everywhere and surrounded by the sea. Could it be that there are some weird people?"

Everyone shook their heads. If someone really came up, it would definitely stop on the beach. It was impossible to come up from the cliff behind.

Chen Yongguang always felt weird, and he didn't know what to say. At this moment, they heard the sound of a flare gun on the beach, and then a red flare shot out from the beach.

Jiang Xiaoyu pointed to the flare and said loudly: "This is the flare gun that Balang carried with him, hurry down, is he down there!"

At this moment, Chen Yongguang and the others can't control so much anymore. As long as there are clues, everyone should hurry up and start to return the whole team in time. Get up, because at the beginning their training was mainly based on the whole body. If they exist as a whole, everyone will form a formation with protection everywhere.

But now after running up, no one cared about anyone else, and when they reached the beach, they found that another team member had disappeared, and Jiang Xiaoyu had also disappeared.

Until this moment, Chen Yongguang was a little flustered, because he was sure that Qin Yuan was by his side, how could he be so fast? If it's really his fault, it's unimaginable, it's impossible. ...

But at the other side at the moment, Jiang Xiaoyu and Balang were sitting in a cave, looking at the two team members in front of them. They had changed into other clothes and wore black masks.

This was explained by Qin Yuan. Qin Yuan was responsible for bringing the people and they were responsible for other special training for them.

For this team, other aspects are very strong, so what they need to change now is the emotional training. These two players look at me, I look at you, and I don't know what to say for a while.

The one on the left is Da Lei, and the one next to him is the team member who was finally captured. He didn't see the monkey. At this time, Da Lei also slowly woke up. He didn't know what happened. He just ran to the small forest. There was a sudden dizziness, and then I didn't know anything.

When he woke up, he found that he was caught in this cave, and his hands and feet were bound with very professional ropes.

Originally, he wanted to break free, but there were guards on the opposite side all the time, so he had no chance at all. He felt that this might be a test, but based on the conversation between the two people, it seemed that Jiang Xiaoyu and Balang were fooling. People really have a way.

"What on earth do you want to do? Do you know who I am? How dare you catch us here!"

"Stop talking nonsense, just wait for me now!"

"What does this mean? Could it be that you trained us!"

"Your thinking is really naive. I don't know what ***** training is. Let me tell you, it's you guys from the Marine Corps that completely ruined our business!"

Balang couldn't help laughing under the mask, this Jiang Xiaoyu really lied one way after another.

Just as he was thinking about countermeasures, his teammates around him also woke up. The two looked at each other, then shook their heads, obviously not clear about the current situation.

And this team member was even more confused. He just heard Xiang Yu's news, and because he was running at the end, he suddenly felt a pain in his neck, and then he came to this place.

At this time, the teammate next to him made a gesture with his eyes. Da Lei turned his head and saw a pair of feet with only one shoe. The one lying on the side wasn't a monkey, who else could it be? This kid only showed a pair of feet now, so he didn't know the specific situation at all.

After a few minutes after the masked two went out, Da Lei struggled reluctantly and wanted to call the monkey opposite, because he still had an iron chain tied around his waist.

But no matter how he yelled, there was no response. At this time, he noticed that the monkey's body was covered with blood, which made him a little flustered for a while. Although their team didn't have much affection at all, they got along so well after all. for many years.

The special emotional training for them before was to make them indifferent enough, but at this moment he really couldn't control his emotions.

He kept yelling at the monkey, but there was still no response. At this time, Jiang Xiaoyu, wearing a mask, walked in. He asked Balang to step forward and kicked Da Lei on the shoulder.

"Stinky boy, don't play tricks with me here, let me tell you that the boy didn't cooperate just now, we have already done it!"

"What! What are you talking about? Since you dare to kill him!"

"Why not dare? Including all of you, just wait, your teammates will meet soon!"

Chapter 1217 Another Missing Person

Hearing this, Da Lei was taken aback for a moment, because he saw that the monkey was in a very bad state. Could it be that what this guy said was true? Usually they only do some confrontation and basic training.

Speaking of going to a real battlefield, he had never encountered it before, so facing this situation, Da Lei was also a little flustered, mainly worried about the safety of other teammates.

At this moment, Jiang Xiaoyu walked over and dragged the monkey, only to see two obvious gunshot wounds on the monkey's chest, and blood all over his forehead.

Seeing this, Da Lei was even more sure that the monkey had an accident, because he didn't move at all while Jiang Xiaoyu was dragging him.

His mood at the moment is very complicated, and he dare not act rashly like before. Before that, he felt that there was still room for negotiation. After all, this is in their territory. If he really encounters some extremists, there may be room for negotiation, they will also be apprehensive.

But in this case, it is obviously impossible, they have already killed people.

After Jiang Xiaoyu and the others went out, Da Lei hurriedly looked at the team members next to him, "These guys must think that I am too big, so they are very wary of me. Quickly, how about the binding situation on your side? My side There's no way to untie it."

The team member didn't respond to him all the time, and when Da Lei turned his head, he saw that the team member had fallen behind, and there was a deep wound on his abdomen, which was bleeding out continuously.

This was also something Qin Yuan didn't expect. He just wanted to bring him back, but he didn't expect that during the process of bringing him back, this guy was struggling all the time, and accidentally scratched his abdomen when he was thrown into the cave.

On the other side, everyone was looking anxiously. When they ran to the beach, they found that two more players had disappeared. Everyone panicked for a while.

At this time, the equipment in Chen Yongguang's hands also suddenly lost contact. There are two equipments in total, one is on Chen Yongguang's side, and the other is on Qin Yuan's. At this moment, he tried to contact the outside world, but found that Only some rustling sounds can be heard, and the signal seems to be blocked here.

People in Chen Yongguang's team disappeared one after another, and the rest of them were a little nervous, but the more this happened, the more Chen Yongguang felt that this was probably just a surprise training, otherwise how could such a thing happen with Qin Yuan's ability? occur.

Chen Yongguang was a little anxious when he couldn't get in touch with the command post. He didn't know whether it was training or the real thing. These two situations had been bothering him for a long time. If it was real, then he had to worry about the safety of the team members.

"Captain Qin, let me ask again, what's going on? Are you sure you didn't send someone here to give us special training?"

"What do you guys mean? Do you think I need to hide it from you? This has already happened now, and there are also people missing from our side!"

Hearing this, Chen Yongguang frowned slightly. He believed it before, but for some reason, he always felt weird in his heart. Qin Yuan's strength is very strong. They have had many competitions and challenges before. They all failed at that time. His ability is so strong, if someone approaches, he shouldn't be unaware.

But now he can't tell that many things are full of doubts. Qin Yuan suggested that since he can't contact the command post, he should first look around for the whereabouts of the team members. They plan to send Deng Jiuguang out to find support.

"How about this, now that the problem has already occurred, then we should send people out to find rescue as soon as possible, and the rest of the people hurry up and find them here, otherwise there is really a problem, and no one can pay the responsibility!"

Qin Yuan said very seriously, the more so, the more doubts in Chen Yongguang's heart, but he has to see what will happen next, he turned his head and explained to his team members, let everyone try to stay close together, don't disperse, These two accidents were all alone or left behind.

After Deng Jiuguang left, everyone started to head towards the jungle, because all the missing team members disappeared there.

In fact, to be honest, Jiang Xiaoyu also felt strange, because Qin Yuan's skills were so fast, they hadn't had time to react, but those few people had already been brought back.

What Jiang Xiaoyu and Balang need to be responsible for now is to cooperate with the performance, and then conduct different tests on them.

"Smelly fish, what do you think we should do now? That guy named Da Lei still has a tough mouth, or we should deal with him first."

"I also think that guy is probably difficult to deal with, let's go and have a look first, let's deal with him first!"

At this moment, they heard a bird call, which was the secret signal that Qin Yuan had agreed with them, and it seemed that Qin Yuan had settled another person.

The two walked through the jungle, and then walked into the cave next to it. The cave on this side suddenly led to the reefs behind, so that they could shuttle back and forth, because a lot of roads were saved in the middle.

It's just that the roads inside are very complicated and intricate everywhere, so they came here for groping training a week ago.

Before, Qin Yuan took the members of the Fox Hunting Commando to relax in various ways in the name of training every day, while Jiang Xiaoyu and the others had already come to this island and figured out the terrain here, so Time comes and goes freely.

This time, Qin Yuan captured another team member. This kid was already in a state of coma. Qin Yuan just took advantage of this kid's use of the toilet, and a silver needle flew out, instantly knocking him out.

Qin Yuan threw people to Balang, telling them to hurry up and start planning, to make them feel fear, and then arouse their previous feelings.

"You two should cooperate faster, I have to go back quickly, if I leave for too long, I will be suspected by that guy."

"Brother Qin, you can rest assured and leave it to us. We are going to attack that big thunder first. That guy has a very hard mouth. It seems that we have to get rid of him first."

"Okay, you can figure it out, just follow my previous plan, I will go first now."

Qin Yuan circled a hill, his speed was very fast, and he came to the beach again in an instant. At this moment, Chen Yongguang wanted to find the team member, but found that he was gone again.

He was very angry, this time it was directly under his nose, because the team member said he wanted to go to the toilet, he thought there was no problem, and he was nearby, within a minute, the person disappeared!

"What do you guys do? Even if I'm here alone, what do the rest of you do? The teammates around you are gone, don't you know?"

The people next to them also shook their heads, and more importantly, a thought of fear was rapidly circling in their hearts.

In the current situation, the team members are being taken away one by one, and they don't know who the enemy is and what they are going to face, so this kind of unknown is even more frightening.

"What the **** is this? Who took them away? Just now I saw him go to the bathroom, and I just turned my face away. Why did they disappear!"

"You ask me, who do I ask, and more importantly, don't you all think this matter is suspicious?"

"You mean to say that this matter was caused by Qin Yuan?"

"I'm just suspicious now, but this guy doesn't say anything, so I'm curious now, if it's really him, then don't worry, if it's not him, it's troublesome, even he didn't find out People, think about how powerful it is!"

Saying this made these team members even more nervous, and now Chen Yongguang is also vigilant, there are only four people left, so he wants everyone to be together anytime and anywhere, including going to the bathroom together.

Chen Yongguang searched on the hillside for a long time, but he didn't find any clues. You must know that what he studied abroad was anti-reconnaissance. It is absolutely no problem to engage in reconnaissance. He feels that he has not missed any details, but it seems that there is nothing. Find.

In the end, he had no choice but to go down to the hillside in despair, but he only saw Qin Yuan alone on the hillside.

Chen Yongguang looked thoughtfully at where they were just now, at the beach far away from now.

"Captain Qin, have you been looking here just now?"

"Yes, I always feel that this beach is very weird. There was a signal here before, but now I came here and found nothing, so I want to look for it more carefully!"

This explanation is very reasonable. Chen Yongguang nodded. He turned his head and looked at the distance. This distance is absolutely impossible. As long as a target as big as Qin Yuan moves, it will definitely know it. If you really want to go up, you have to take people away.

It's almost impossible to keep his face unchanged now, and there are no footprints on the beach.

Just when Chen Yongguang wanted to ask about other things, Liu Xiaoshan suddenly pointed at the sea and said loudly: "You guys, look at the sea!"

Everyone looked in the direction of his finger, only to see their warship floating in the distance, and this warship was the one that Deng Jiuguang had just sailed out to find rescue, but compared to time, it shouldn't be so fast.

It took them more than two hours to come here before, and it has only been half an hour now, why did this warship come back? Could it be that help was found so quickly?

"What's going on here, has rescue arrived?"

"It shouldn't be so fast!"

Chen Yongguang kept paying attention to Qin Yuan's expression, only saw that he was very anxious and swam towards the direction of the warship first. This guy's speed was too fast, but he kept watching intently. After a while, the warship slowly moved towards the ship. Appearing in front of their eyes, Qin Yuan also directly climbed onto the warship.

But soon Qin Yuan shook his hand, and then dragged a person to jump into the sea. Seeing this, Chen Yongguang hurried forward to meet him, and they followed together, dragging Deng Jiuguang here.

At this moment, Deng Jiuguang's face was weak, his lips were white, and he was trembling after being fished out of the sea, and Qin Yuan also brought a very bad news that this warship had been completely destroyed.

"I don't know what's going on, but the fuel tank and the engine are broken, and they are completely swayed by the sea wind, so I came here, because this is the nearest island nearby, and the ship usually moves towards the island. ."

Chen Yongguang couldn't believe it when he heard this, how is this possible? This is bad on the sea, and besides, what is going on? But now Deng Jiuguang is in a semi-comatose state, unable to ask any questions.

He couldn't believe it, Qin Yuan looked at him at this time, he knew that it was not easy to deceive this guy, he was very disgusted with this kind of training before.

"If you don't believe it, you can go and have a look. It's not that you don't believe it. It's just that you go to the warship to see if you can find anything useful, and see if you can try to send a message on the warship."

Chen Yongguang was planning to find an excuse to go over and check it out. Unexpectedly, Qin Yuan took the initiative to say so, and he just took advantage of this opportunity, because no matter what, he still had no way to fully trust Qin Yuan.

Even if it's training, he has to figure it out, he doesn't want to be kept in the dark like this, without further ado, Chen Yongguang led a team member next to him and walked towards the coast, of course he followed closely and turned his head walked to the side of the other two team members, and whispered a few words.

He mainly explained that the two players must stay together all the time, and there should be no separation. He was worried that if it was really training, then they would be annihilated.

After explaining, he left at ease. After he went out, Qin Yuan suddenly heard a few birdsong. This was the signal from him and Jiang Xiaoyu. He frowned slightly. What are these two guys doing? ?

He said before that there are no special circumstances, so don't contact him, so as not to be caught, because the one he wants to deceive now is Chen Yongguang.

Fortunately, Chen Yongguang left, otherwise, if he was found out, all previous efforts would be for naught, but the bird chirping continued at this moment, and the two team members next to him did not notice anything.

Deng Jiuguang, who was unconscious on the ground at the moment, also heard it. Of course he knew that this was a hint, and opened his eyes cautiously.

Qin Yuan came to Deng Jiuguang's side by checking his health, "I don't know what's going on with these two brats, why can't a few people watch over them? What are they trying to do? Wait for me to go and have a look!"

"No problem, you go, I'm here to hold them back, but that guy surnamed Chen is probably a little confused, that guy is really too smart, you come back as soon as possible."

"Okay, I'll go and see what's going on first. It's planned at that time. If you don't get caught, then these two days will be wasted!"

After Qin Yuan finished speaking, Deng Jiuguang also woke up cooperatively at this time, he was struggling to get up, Qin Yuan looked at the two team members next to him, and then said: "Well, he just woke up, you go help Get some firewood nearby."

Chapter 1228: completely annihilated

Of course there is no problem with this. Originally, they recognized their own strength very much, but now there is a case of disappearance, but it is better for two people to be together. If there is any problem, they can take care of them.

In addition, Deng Jiuguang's current situation is indeed problematic, so the two of them set off together to find firewood. Then Qin Yuan quickly came to the scorched stone behind him at this opportunity, and then loaded it in from the cave. After a while Came to the previous cave.

As soon as he entered the cave, he saw Balang anxiously standing at the entrance of the cave and kept looking around. When he saw that it was Qin Yuan, he hurried forward.

"I said what the **** are you two doing? And Xiang Yu, where did this guy go!"

"Brother Qin, it's not that we called you on purpose, but there's a real problem. Come and see, one of the team members has been injured, and it's quite serious!"

Hearing this, Qin Yuan knew that things might be beyond his expectations, so he hurriedly put on his mask and entered the cave together, because the cave was originally dark and damp, and the wound was prone to infection once injured.

But how can a good person suddenly get hurt? Balang shook his head, expressing that he didn't know. When they entered, they found that the man was unconscious and had a high fever.

They were mainly worried that something might go wrong, so these two people hurriedly reported it to Qin Yuan. After all, this was on the island, and it would take them two hours to go back as soon as possible. If there was a problem, no one could take responsibility.

After Qin Yuan entered, he saw Jiang Xiaoyu standing on the side, Xiang Yu was pretending to be tied beside him, and Da Lei stared intently at the person who came in. The light in the animal circle was very dark, but he could see it from the top of the mountain. A faint light peeked through some of the cracks.

It has to be said that this is also a good opportunity for testing. Qin Yuan calculated the time. Judging from Chen Yongguang's investigation in the past, it is estimated that the time left for him is only 20 minutes at most.

But in these 20 minutes, he can also be used to calculate Dalei. He strode over and dragged the unconscious player beside him.

"It seems that this kid is a waste, let's drag it out and do it first!"

Da Lei was very anxious when he saw this situation, and shouted loudly from the side: "What are you doing? If you have the ability to come to me for something, he is already injured, what else do you want to do!"

"Brat, what am I going to do? Do I want to report to you!"

After Qin Yuan finished speaking, he kicked him directly in the waist. Da Lei had his hands and feet bound, so he just rolled to the side.

Then Qin Yuan dragged him out, and at this moment, Da Lei yelled and expressed his willingness to replace the player himself.

At this moment, Da Lei's psychological defense has completely collapsed, because Chen Yongguang has trained them before this, so that they can disregard the life and death of the players, but he is training after all.

Now he knows that the team members are really in danger, no matter what, they are his comrades who lived and died with him, and he can't control that much.

"Let me tell you, if you have anything to say, come directly to me. What are you doing to a wounded person? Don't you want to know the news? Let me tell you!"

Qin Yuan smiled, this kid finally compromised, but he wanted to see if this kid could really say it, if he did, it would be another result, because it would be considered as leaking the situation up.

But the most urgent thing is to treat this team member first. This guy is indeed infected. It seems that he didn't notice it on the way he brought here just now.

"You guys are quite loyal, but don't worry, I'll interrogate this kid first and then you!"

"What does he know as a wounded person, I tell you what, you come to Lao Tzu!"

Da Lei was very emotional, and he yelled directly. Now he can't control so much, he must protect the last teammate first, because the monkey has had an accident.

During the interrogation, Qin Yuan turned his head towards Jiang Xiaoyu, and Da Lei was taken out like this. Da Lei kept yelling before he was taken out, telling Qin Yuan not to hurt his teammates.

"I tell you, if you hurt him, I won't say anything..."

In any case, they have been given some basic emotional training before, making them forget that they have feelings, and now they have slowly awakened, which is also a good thing.

Qin Yuan treated the people on the ground first. The guy's wound was fine, and with his recovery ability, he recovered quickly.

He looked at the time, he couldn't delay here, it's better to go in advance, otherwise Chen Yongguang will find out, then this guy is the biggest problem, Chen Yongguang himself is facing emotional problems,

In this way, Qin Yuan explained a few more words, asking them to interrogate them in the same way as before, and then left quickly. When he returned to the beach, he only saw Chen Yongguang and the others, already heading in this direction swam over.

Chen Yongguang climbed onto the beach with his whole body soaked, and he had to say that it was too strenuous to go back and forth in the sea. He shook his head, but found nothing, and the signal equipment on the warship was completely destroyed.

And he took a closer look. If Qin Yuan really did it, it would be impossible to do it so rough. You must know that Qin Yuan is a professional, and he will leave flaws no matter what, but the scene was completely destroyed by violence, not at all. Like Qin Yuan's method.

At this time, he turned his head to look at the two teammates next to him. The two were living, and Deng Jiuguang next to him slowly woke up.

Under their questioning, Deng Jiuguang said unconsciously according to the previous statement, saying that he encountered a strange team while sailing at sea, and he was hijacked directly before he could react in time.

He jumped directly into the sea himself, and escaped the catastrophe. After those people left, he returned to the warship. Unexpectedly, the warship had been destroyed by them. In the end, he could only resist turning around and headed towards the small ship. The direction of the island floated over.

Hearing this, Chen Yongguang frowned, all this was too coincidental, "Did they threaten you with guns? But we didn't hear any gunshots?"

"They were pretending to be rescued. At first I thought it was something about the nearby fishermen. Just after stopping the warship, they directly controlled me after boarding overtime. I have no choice..."

It seems that there is really no major problem in saying this. Chen Yongguang questioned carefully, and it seems that there is no loophole. At this time, Liu Xiaoshan, who is next to him, quit. The main thing is to ask more questions, and really have to ask some questions.

"What do I mean by you guy? Do you think we did it on purpose? Now ours are all injured, and not only your people are missing, but ours are also missing. Do you think it will be us Did something happen!"

"No, this is just a routine cross-examination. I just feel that there are some problems, and I can't figure it out for a while. Since no one appeared on this island when we came, how could this happen?"

"Hehe, I think you are clearly doubting us. If you really think there is something wrong, then you can just swim back by yourself!"

After being said in this way, Chen Yongguang didn't say anything else, he turned his head to look at Qin Yuan, and Qin Yuan also gave him a very affirmative answer this time, telling him that he was indeed not training here, but that there were real people Hit them in the dark.

He was a little flustered for a while when he heard this. After all, even Qin Yuan didn't notice it in this situation, including his not noticing any movement, so it was very likely that he was a very extreme person.

On the other side, Jiang Xiaoyu and the others have already begun to work. Da Lei's emotional side has been completely aroused. He is no longer a military machine like before.

With the cooperation of Qin Yuan and Jiang Xiaoyu, there are only four people left on Chen Yongguang's side, and everyone is completely trapped on the deserted island at this time.

After night fell, under such a shroud of fear, no one could sleep. Qin Yuan looked at the people around him, and then said: "I think so, it's better to take turns sleeping, otherwise it will be difficult to survive tomorrow, and maybe you can sleep again tomorrow." In a few days, they will find out that we are here for special training, and the team will send people over to find us."

Things can only be done in this way now. No one in the headquarters sleeps. If this is the case, they can only consume themselves.

I have to say that Chen Yongguang has quite a lot of ideas. In order for Yifan to have other situations in his sleep, he made the guards and the sleepers wear the same rope. If there is any unexpected situation, everyone will wake up. .

However, it was hard for Qin Yuan to be like this. On the next morning, Chen Yongguang lost two more team members, and Deng Jiuguang also disappeared.

He stood up and shouted desperately, but there was no response, only his response came from the empty hillside.

Moreover, the ropes were neatly cut off, even if they were tied together last night, there was nothing they could do, and this time, three people disappeared at once.

Chen Yongguang couldn't care about anything else, he picked up the gun on his back, and rushed into the opposite woods with the rest of the team.

Now he can't control so much. Under the shroud of this fear, if he doesn't do anything, he will definitely be overwhelmed by fear. In addition, who is the other party? take them all away.

Qin Yuan kept chasing him from behind, and he didn't listen to what was going on at the moment. He just wanted to find out, and he didn't believe that he couldn't find a single figure after searching the hillside today.

Slowly, Qin Yuan's voice gradually became farther and farther behind him. Now there is only one team member beside him. The two of them walked one after the other. He looked back from time to time, but soon he lost his patience, because There were no clues along the way.

At this moment, he saw faint bloodstains on the ten yuan in front of him, and he rushed forward as if he had discovered a new continent, without noticing the teammates behind him, who were caught by a pair of strong hands just as they were about to step forward .

Before he had time to speak, he was dragged away by Qin Yuan. At this moment, Qin Yuan was like a ghost, moving quickly. After knocking out the team member, he hid under the big tree. When Chen Yongguang turned his head, he found that the person had disappeared.

He kept turning his head and calling the team member's name, but there was no response. His voice was the only one left echoing in the jungle. For a moment, a sense of fear swept over his whole body.

"Who the **** get out of here? Don't hide behind. If you have the ability, come out and fight!"

It was fear at the beginning, but later he gradually turned into anger, because he didn't know who was doing it, he was just a prank, and took away his teammates one by one.

At this moment, a black shadow came, and he reacted quickly, only to see a flash of cold light, the black shadow was holding a knife in his hand.

"Who are you? Dare to attack us here!"

At this moment, Chen Yongguang was completely attracted by the person in front of him, but he didn't notice that a pair of hands had grown on the big tree behind him, and grabbed his shoulders and lifted him up the tree.

The main reason was that Chen Yongguang had other weapons on his body. Qin Yuan was worried that he would hurt other people. He could solve it by himself, but this guy knew his own skills too well, because they had competed with each other.

Until the last moment, Chen Yongguang's eyes were fixed on the black figure in front of him. He doubted whether it was Qin Yuan, but at this moment, he saw Qin Yuan running over anxiously from a distance.

He wanted to make a sound, but he couldn't do anything, his throat was pinched tightly, and he was dragged away by the people behind him, and a black hood was put on his head in an instant.

When he opened his eyes again, he found himself in a cave. Da Lei next to him had blood at the corner of his mouth, his head was tilted to one side, and another team member was also unconscious.

He called out to the two of them in a low voice, and they woke up slowly. Da Lei smiled wryly, unexpectedly even their former captain was arrested.

"This is really the end All of us have been caught!"

"What the **** is going on here? Did you see the other team members?"

"I don't know anything else, I only know that Jiang Xiaoyu and the monkey have been killed by them!"

"What! Did you see them killed? How is this possible!"

"I saw it with my own eyes, and they have been using their deaths to force me to tell me the specific tasks of our commando team and the goal of our usual training!"

"Then did you tell me what you know? You have undergone review training. Even in this situation, you can't reveal anything. Do you understand?"

Da Lei smiled helplessly, what else could he say? He didn't say a word, and was beaten up by them in the end, and then he watched Jiang Xiaoyu being stabbed in the chest by the opposite person.

These people are completely extremists, and they kill people without blinking an eye, so Da Lei completely believes it.

Chapter 1229: reason of failure

"Then how is our team doing now? Who else do you know so far?"

Da Lei raised his head and pointed to the team member next to him. He didn't know the rest. Chen Yongguang looked around and found that besides Da Lei, he was on the ground, and there was no one else on that team member. It stands to reason that people from Qin Yuan's side also disappeared, but why didn't they see them.

Just when he was wondering, he heard footsteps, and then he saw Deng Jiuguang being dragged in. At this moment, Deng Jiuguang's face was covered with injuries.

After the special training that Qin Yuan instructed Jiang Xiaoyu to carry out, the basic emotions of these players have been awakened, so there will be no major problems.

Because before they were trained to be as indifferent as possible, but in this case, in order to protect their comrades, they had no choice but to arouse that layer of emotion.

People are emotional animals. Even if they have undergone desensitization training, these problems are not that big after such a long time. Now Qin Yuan wants to deal with Chen Yongguang wholeheartedly. Although this guy is strong, his personal emotional problems He is the biggest. To be honest, he is really suitable to be the captain.

As the captain, he had to completely forget all the previous training modes. Qin Yuan recognized this person's ability very much, and the training in the manual later could also be handed over to him. After all, there was no problem with the overall ability of this team.

"Who is the leader here to stand up for me? No one told me what I want to know. If this is the case, it is better to kill you all!"

Before Da Lei was kept in this place, he still felt hopeful, because Chen Yongguang and the others could come to save him outside, of course, considering the current situation, everyone came in.

"What the **** are you **** trying to do? No matter what, I won't agree! And I don't know what you are doing!"

Da Lei's attitude was very firm. Chen Yongguang knew that this guy was going to transfer the war to his side now, which surprised Chen Yongguang. He didn't know what happened in just a few hours. Take the initiative to protect him.

He was a little surprised, turned his head to look at Da Lei, and shook his head, "Why do you say that?"

"Don't worry about why I said that, you don't need to worry about what I do now, tell you the truth, I am the captain here!"

Jiang Xiaoyu, who was wearing a hood, stepped forward and kicked him on the shoulder, causing Da Lei to roll off the rubble beside him.

"Stop fooling me here, it's better to tell me clearly what you are training, and your establishment, how many members do you have!"

This guy asked all sensitive questions. Chen Yongguang just stood up and wanted to resist, but an electric baton hit him directly on the back. He didn't notice that there were people behind him. After all, the light in this dim cave It was too dark.

When Dalei saw Chen Yongguang being hit by the electric baton, he hurriedly shouted, telling them to stop. He knew everything, "If you do something to our people again, then I won't tell you anything even if I die."

"Oh, what do you mean you're going to tell us something about the situation? You'd better tell me honestly, otherwise you will suffer a lot!"

Da Lei smiled helplessly, and then struggled to stand up. He looked at Chen Yongguang, as if he had made up his mind. Since he knew the monkey was dead, his whole attitude had changed. He also began to have some doubts.

Anyway, this level of emotion has been fully stimulated, since the monkey and other team members have encountered unexpected situations, now he must ensure the safety of others.

At this moment, Chen Yongguang also came to his senses. No matter what, he wanted to ensure the safety of his teammates at the end, and he also struggled to stand up.

"Let me tell you, you let him go, he's just a team member and doesn't know anything, I'm the captain, you can ask me anything!"

Da Lei was a little anxious when he heard this, and he quickly said: "Don't listen to his nonsense, I am the captain, this is completely funny!"

"I said, are you crazy? Don't you understand what I said? I said very clearly, what is coming for me, I am the captain, and I will be responsible for this action!"

"You have not been the captain for a long time, have you forgotten? And only I know those things!"

He knew that Da Lei was protecting him, and Chen Yongguang couldn't stand it for a while, but Jiang Xiaoyu took advantage of this opportunity to drag Da Lei out and take him out. Chen Yongguang kept struggling behind, he wanted to Come up to rescue Da Lei.

Before Chen Yongguang could react, he heard two gunshots outside. At first he could hear Dalei's yelling and cursing. With the gunshots, everything was over. Chen Yongguang knew what it meant, and he was not reconciled. Roar!

He didn't expect things to turn out like this. He was supposed to come here for special training, so why did he encounter these inexplicable things? What's more, now he doesn't even know who his opponents are, only that they are some militants.

After a while, Jiang Xiaoyu came in wearing a hood. He looked at the three people in the cave, and then walked towards Deng Jiuguang.

Without further ado, he dragged Deng Jiuguang outside. This was also a play for Chen Yongguang. When Chen Yongguang saw it, he stopped loudly, "You assistant, don't mess with those things. They are innocent. They don't care about anything." I know, I am the captain, I will tell you whatever you want to ask, as long as you let them go!"

"Do you think I will believe your nonsense? What I hate the most in my life are you so-called commandos. I will cramp you one by one!"

Hearing this, Chen Yongguang was stunned for a moment, followed by Qin Yuan who also came in wearing a hood, and kicked Jiang Xiaoyu's ass, what nonsense is this kid talking about?

The two didn't say much, they dragged Deng Jiuguang out. Chen Yongguang was struggling just now, and when he was about to stand up, Qin Yuan kicked him in the abdomen, "Don't worry, it will be your turn later!"

These words are full of threats, mainly because they are a test of one's psychological endurance. Watching teammates around them die one after another may be unbearable in the end, but they have done this kind of training before.

The crux of the problem now is that the training is different from the actual situation. This is what Qin Yuan is worried about. He doesn't know whether Chen Yongguang can hold on to the final test.

Seeing Deng Jiuguang being dragged out, although this guy is not his team member, he is also very anxious at the moment. He is very worried about what is going on.

Now his hands and feet are trapped, he can only roar helplessly, and the life and death of the teammates next to him are also unknown.

Qin Yuan slapped Jiang Xiaoyu on the back of the head as soon as he went out with Jiang Xiaoyu, "I said, are you stupid? Why do you say that? We don't know the situation of the commandos if you know them. How do you know that they are a small team, you must know that although the number is small, they may also belong to other companies."

What Qin Yuan was worried about was that he had made so many preparations. If they were torn apart in one aspect, the play would not be able to be performed. At least the emotional status of the other people had fully recovered, and now only Chen was left. eternal light.

"Brother Qin, this shouldn't be possible. I said it casually just now. If I said it casually like that, he shouldn't have noticed anything!"

"I hope I don't notice anything, but it looks like he doesn't know. I just hope that I can speak later and be careful when doing things. Now is the last blog."

Jiang Xiaoyu nodded, and after a while, the two of them walked in. Chen Yongguang loudly asked where Deng Jiuguang was dragged by them, but the two didn't speak at all, they just went to the side and dragged the unconscious player .

"What are you **** trying to do? Put me down, what do you want to do!"

"What do you want to do? Of course it's a one-on-one interrogation. If you don't cooperate, you will only die. Anyway, we have a lot of lives on our hands, and we don't care about one or two of you!"

"Put him down! I know everything is coming for me, as long as you put him down!"

"Oh, it's really interesting, are you one after another so impatient to come up to your death!"

There was no fear in Chen Yongguang's eyes. Qin Yuan also carried out his test at the same time, which was to defeat Chen Yongguang's last line of defense. He told Chen Yongguang very clearly that there were only the two of them left.

"I'll give you a chance too, if you tell me, I'll let you live!"

Chen Yongguang knew very well, of course, at this moment, he wanted to keep his teammates safe first, "Give this opportunity to the people around me, I can tell you anything, but you must first send him out of this island safely!"

As soon as his words fell, Qin Yuan snorted coldly, stepped forward and slapped him on the face, Qin Yuan's strength was just right, and some blood oozes from the corner of his mouth.

"You guy, do you think you are still qualified to bargain with me here!"

"But if you don't agree to my conditions, even if we both die, I won't say anything unless you let him out!"

Qin Yuan knew that it was already effective, because before that, Chen Yongguang only thought about the mission, whether it could be successful, and the so-called honor of their commando team. At this moment, he could let go of everything for the safety of this teammate. .

"Do you really think you are funny? Now is not the time for you to make a decision!"

Qin Yuan directly took out the pistol from his waist, and slapped it to the side. The team member showed no signs of waking up. Chen Yongguang was a little anxious when he saw this scene. He originally wanted to negotiate terms with them, but looking at it like this, these Guys just won't bother.

Just when Qin Yuan was about to pull the trigger again, Chen Yongguang's psychological defense was completely defeated. He knelt on the ground and cried bitterly. What he broke this time was not only his own psychological defense, but also that belief, because this time for the sake of He has no choice but to save people, he can't make the entire commando disappear here!

No matter what, he wanted to save a person, at least let him go back alive.

"Don't shoot, I beg you, I'm begging you on my knees now, as long as you keep him safe, I will agree to whatever you ask me to do!"

He struggled slowly, then stood up, and knelt down in front of Qin Yuan, "If you let him go, if there are others alive, you let them go, if not, you put their bodies back, Just as I beg you, I will agree to whatever you say!"

Strictly speaking, Chen Yongguang's training this time was considered a failure, because it was another kind of captive training. He did not pass the test, because his situation would definitely tell the rest of the information.

But he also broke through his psychological defense at the same time, because although their commando team is powerful, they have never been in an actual battle. In this case, they were forced to participate in an actual battle.

After Chen Yongguang finished speaking, he lay on the ground gasping for breath, and he kept crying. He didn't know whether he was crying for the departure of his teammates, or crying for the complete collapse of his belief.

But in order to protect this last person, he is willing to do whatever he wants. At this moment, the militant standing in front of him slowly pulled down his mask. It turned out to be Qin Yuan.

At this moment, he couldn't take it anymore, Jiang Xiaoyu walked over to open his rope, he kicked him over, Jiang Xiaoyu rushed towards Qin Yuan, he wanted to vent his feeling of being played by others!

"You bastard, I knew you were lying!"

"It's not a lie, didn't I say that? Now that you have successfully broken through the emotional defense line, you can train according to the training method I said!"

"What! But what is it all about!"

Qin Yuan smiled and didn't explain much. With his ability, he wants to bring people back quietly. Basically, there is no problem. When he was willing to take him back to the beach, he only saw that other team members had assembled. Yes, everyone should have just realized that they were cheated.

Under Qin Yuan's order, Jiang Xiaoyu questioned and deceived them with the method just now, mainly to use this method to force them to awaken their feelings for their comrades-in-arms.

I have to say that the training this time was quite successful. Chen Yongguang kept his head down when he went down the mountain. Knowing that he saw his teammates on the beach, they couldn't help hugging each other and crying bitterly.

The main reason is that the simulation this time was so real that they felt the real situation.

"There is no way to do this. You have to know that I can't send all of you to the battlefield. On the battlefield, there is really no life. If there is no life, there will be no life."

"I know, but how did you do it? I didn't notice anything, your speed is too fast!"

Chapter 1230: Women's Special Forces Team

The "Okay, you can adjust it yourself. It doesn't make any sense to talk about other things now. After the adjustment is completed, we are ready to go."

It took a lot of effort to deceive them this time, so he got lazy, yawned and walked to the nearby warship.

It's not something he can intervene now, it depends on their own feelings to stimulate them, this needs to give them time, Jiang Xiaoyu and the others also came up, this time it was really tiring, in order to be completely concealed, they have been hiding in the In that cave.

But this time, they were completely convinced. There was absolutely no problem in this aspect. Anyway, the test this time was a success.

The team members began to vent their emotions accumulated over a long period of time. Before that, they were all closed, unable to vent their emotions, and there was no brotherhood in the battle.

They need to be completely indifferent. This is also the training Chen Yongguang has given them before. It can be said that they are completely war machines, but this situation is not suitable for actual combat.

Because actual combat pays attention to cooperation, and also pays attention to emotional things. If there is no emotion, there will be no cohesion, and it is easy to be defeated one by one, just like they did this time.

Chen Yongguang actually had a lot of questions, he struggled for a long time, and then silently walked to Qin Yuan's side.

"I'm very curious about how you did it? Could it be that you really know the avatar technique, but other people shouldn't have such a powerful ability?"

"It's actually very simple, because these players of yours are not only taken away by me, but also included!"

what! Chen Yongguang was very shocked when he heard the news, because in his opinion, Jiang Xiaoyu and the others were all defeated men, how could they be taken away by his own defeated men? This was completely beyond his expectations.

"How did their skills improve so much in a short period of time? What's going on? Do you have a special training method?"

Qin Yuan shook his head, he knew that Chen Yongguang would definitely come to ask him, this guy is actually quite strong.

"How should I tell you? Although your team is very strong, the strength lies in the individual. It is not enough for the group to be completely cohesive!"

Now they have lost, so he is listening to Qin Yuan's analysis very seriously. Thinking about it carefully, they also had individual confrontations in the previous confrontation with other teams, and there were very few groups. Basically, they were under his command. Down.

Qin Yuan also made it very clear, and they didn't even notice such an attack and defense, and it can only be used on recruits, just like Jiang Xiaoyu and the others before.

"This kind of situation makes the soldiers have no emotions at all, and then there is no cohesion. This is the most dangerous. If it is really in this situation, then your entire army will be wiped out!"

Jiang Xiaoyu also followed suit. At that time, they were still recruits, and their relationship was not that deep, so they were tricked. But now they have been training together for two or three years, and they should have enough tacit understanding, which can make people feel better. Their cohesion became stronger, but in this case, they were still broken one by one.

Speaking of this, Chen Yongguang bowed his head a little ashamed. It seems that there is really a problem with his training method, so everyone followed back together. Qin Yuan only needs to rectify the details of them, and there are no major problems in other aspects .

In general, he only needs a week to improve some of their other training methods, and then this assault team will be established.

In this case, it can be regarded as a meritorious reward, as long as a commando team is formed, there will be a meritorious reward.

Chen Yongguang also began to be humble this time. He had always regarded Qin Yuan as an opponent before, and he must surpass it, but slowly he found that Qin Yuan's ability was not only a problem for him to surpass, it was almost impossible.

No matter what, in the end this commando team was established under Qin Yuan's changes, and it was much faster than before, because the commando team's ability itself is also very strong.

Before, they were just to compete among the various teams. Now this commando team can enter the actual battlefield, and it can be regarded as contributing a lot. Zhang Long specially thanked Qin Yuan at the meeting.

What he had thought before was really simple, mainly because he was worried that Qin Yuan would poach his people, so that his hard work would be in vain. With the success of these commandos time and time again, Qin Yuan didn't care at all this time. You need to find someone else to talk to, and everyone is already actively signing up.

Originally, after Qin Yuan planned to arrange the affairs here, the commando team had already been established, and he planned to go to the special police brigade to set up three teams. In this way, it would be more convenient for them to have five such independent teams in the three districts.

Just when he was about to leave, Long Baichuan suddenly found him, "You are still busy all day, I wanted to talk to you, but you borrowed my soldiers without saying a word." , don't you report it?"

"Hey, Dragon Team, you're flattering me too much when you say that. I don't have such great ability. Besides, aren't we a family?"

"Stinky boy, tell me about the family now, forget it, don't talk about this mess with you, I really have something to tell you!"

Qin Yuan nodded, and then listened carefully. It turned out that it was this time to set up a commando team. They had set up a women's special warfare commando team before, but that was the first of its kind.

But in the past two years, there have been relatively few female commandos, especially in their navy. There was a dark cloud in their marines before they set up one, but there was nothing else.

But what Long Baichuan wanted this time was not such a commando team, but a team that could carry out special missions. In addition to some basic operations, it also carried out latent and undercover missions.

"As you know, our current situation is quite special. To be honest, there are some latent torpedoes in many places in the sea area of the exhibition hall, so we need internal personnel to infiltrate them, so it depends on whether your training and performance can Form me a women's commando!"

"Of course there is no problem with this. I thought about it before, and I wanted to ask for your consent. Although the leaders above gave me a lot of power this time, it was out of respect. Since you have no problem, then I have nothing to say."

"I knew you kid had a lot of ideas, so just go ahead and do it. We have quite a lot of female soldiers this year. See if you can pick a team!"

This is definitely no problem. In this case, let's focus on this side first. Immediately afterwards, Qin Yuan received a system notification that the previous meritorious value has been credited.

And this time the system also reminded that the third upgrade will be carried out after the blessing of 100,000 merit points. His own system is a powerful recovery system. If he upgrades again, he will directly open the military store.

Qin Yuan is very interested in this thing. It was in an unopened state before, because his merit points were not enough. More importantly, there is another thing that interests him. There is an aircraft carrier in the military mall. And the hydrogen bomb.

He already had the blueprint of the aircraft carrier before, but after the opening of the military industry mall this time, many small parts can be exchanged in it. The reason why the aircraft carrier is messed up is, on the one hand, the design problem of the blueprint itself, and on the other hand, there are still a lot of materials .

The construction of an aircraft carrier not only costs a lot of money, but more importantly, these parts need to be produced by several countries, and the most important part has been completely mastered by the United States. They have completely mastered it The techniques used to make such parts, and the materials.

Therefore, Qin Yuan urgently needs to open his military system mall for exchange. As long as there are parts that can be exchanged, it is also possible to build an aircraft carrier later.

At present, excluding the merit points used for their treatment before, he still has less than 10,000 merit points. If a few more teams are formed, the military industry mall can be established directly.

Qin Yuan was thinking about the internal affairs of the system, because at present his meritorious service is still relatively poor. At this time, Long Baichuan saw that he was in a daze, and couldn't help reminding him again.

"I said you kid is always in a daze here, what are you doing? Did you hear what I told you just now!"

"I heard it, I heard it, don't worry, isn't the dragon team just a women's special team? Don't worry, I promise to train one for you!"

"What I want is not only to be able to fight on the front line, are you sure they need to be able to complete undercover missions?"

This situation is very dangerous. For example, An Ran has been in contact with undercover missions before. Basically, they go deep into the enemy camp. For women, the enemy will relax their vigilance, but on the other hand, they will also be hurt, so you must ensure your own safety. Safety.

However, if women go undercover, the success rate is usually relatively high. Qin Yuan nodded, then took the information given by Long Baichuan, and strode out.

At this time, inside the second battalion, several female soldiers were chatting and laughing. They were newly recruited this year and had just joined the army for three months. There is a communication link.

A female soldier with short hair looked very dashing, and ran up quickly from behind, "Sisters, I have some good news here, do you want to hear it!"

"Shut up, you bastard, what's going on? Tell me quickly!"

"It's boring, don't you guys have any interest? But do you know about our company this time? We may go to the special operations company."

The short-haired female soldier was very proud when she said this, and the people next to her burst into laughter, because everyone knew that this was impossible.

"Honghong, are you still dreaming? Didn't you understand what the squad leader said before? The squad leader said that this time there will be no special recruitment for basic recruits, unless you wait until the three-year Recruit!"

The three-year sign they said was Qin Yuan's request to Wu Yun's special operations team. They would have other replacement members in three years, so they would be recruited once, and the number of them was very small.

So these female soldiers did not report any hope, because there are many people who are more capable than them, and these three years are too long, no one can tell what will happen.

"I'm really not talking nonsense. I got this from the veterans in front. The news is absolutely reliable. It is said that this time there will be a special recruitment for female soldiers."

The short-haired girl who spoke was called Li Hong. He first joined the Marine Corps because the female soldiers recruited here had a good chance of being able to go to the front line.

This is the reason why she most wanted to come to the Marine Corps, but after coming here, she found out that there are a lot of male soldiers here, and the requirements for female soldiers are more stringent, and their requirements for female soldiers are more to be sent to the rear.

Everyone felt that this news was too unreliable, because when they first arrived, the squad leader had already informed them that they would be assigned to other companies in a week.

But Li Hong firmly believed that the veteran she asked would not lie to her, because the veteran told her to get ready, and this time it was another special warfare instructor who came to recruit, but she didn't know who it was.

The few people present didn't care. Everyone just thought that this matter must be impossible. After all, there are many rules in the army that cannot be changed at will.

In this way, the whistle for emergency assembly suddenly sounded the next morning, and all the recruits assembled quickly. They recruited more female soldiers this time, and there were about 150 of them in the Marine Corps.

When Li Hong and the others assembled, they only saw a young man wearing a training uniform in front of him. This man was Qin Yuan. Most of the recruits did not know him. They had only heard of his legend and knew that there was a God of War in the military area. level of characters.

The side of the female soldier phalanx looked around and found that they were the only ones gathering, Li Hong couldn't help feeling excited, after all, if this was the case, then it would match what the veteran said yesterday, really It's calling.

Qin Yuan didn't say much, and went directly to the topic. This time, he mainly recruited the special warfare team, so he had to screen among the 150 recruits.

Today's main thing is the mobilization meeting, because the environmental missions that the members of the special operations team will face in the future are very dangerous, so they must first be allowed to participate voluntarily, and secondly, the issue of selection again.

Standing beside him, Balang lowered his voice, "Look at these recruits, especially these little girls, I guess not many of them would dare to sign up!"

Wu Yun was also angry behind him, this guy still had the same arrogant temperament before, if it wasn't for standing in line, she would have wanted to kick him up a long time ago.

Long Baichuan glanced at where they were talking, and they immediately shut their mouths. Qin Yuan started a mobilization meeting, mainly to explain the requirements of the special forces.
