

Special Soldier 1231

Chapter 1231: rules of elimination

Because he wanted to tell these recruits that it was not a joke to join the special operations team. Now that they are leaving the company, if there is anything inappropriate, they can still apply for withdrawal or apply for a change of company. Of course, joining the special operations team is not a joke.

"I know that many of you may have heard of it, and I may not have heard of it, but these are not important. What is more important is whether you dare to challenge yourself. What I want is a team that can face the situation and dare to challenge yourself. !"

"The team I need will pierce the enemy's heart like a sharp knife. You will face the most real battlefield and the most dangerous one. You must guard the front!"

Qin Yuan's words made the people present very excited, and everyone's blood boiled with enthusiasm. Before that, Balang guessed that not many people signed up under the encouragement of Qingyuan, but unexpectedly, there were quite a lot of people who signed up.

Long Baichuan looked at the people who were eager to sign up, and felt a little worried. Anyway, these are also recruits. These children have just joined the army not long ago, and they are all girls. Many things may not be clear yet.

"Is it not good for you to say that, you have to tell them the most real situation, that place is indeed very dangerous."

"Dragon team, after all, danger and honor coexist. I said that it is just the beginning, and the selection has not yet passed. Maybe there are very few people left. This will also encourage everyone to sign up."

Long Baichuan nodded. This is the only way things can go now. Anyway, he has let Qin Yuan do it. He looked at the young faces under the stands. Although he was very worried, there must be someone to do these things. With the growth of age, it is time to quit, and it is time to hand over to some young blood to do these things ahead.

And with Qin Yuan's training, he felt that there was basically no problem, after all, that's how special operations teams came here.

Li Hong and several people in the class were very excited. They signed up to join the army before to be able to go to the front line. The Marine Corps did not recruit female soldiers before, but the conditions have been relaxed a lot in recent years, and female soldiers can be recruited.

So he signed up without hesitation. Unexpectedly, when he encountered such a good opportunity, he was the first to register by raising his hand. There were many people who had time to sign up.

Balang and the others were in charge of registering nearby, and they were completely stunned. Before, he thought that there were not many people, but he didn't expect that after such a calculation, almost all of them had signed up.

"I see, these girls don't know the depth of the film, and they will be the ones who will feel better during the training and selection. They are all a group of recruits!"

When Balang said this, he didn't notice the dark cloud behind him. The dark cloud walked over and slapped him on the head, "You're starting again, is it a new recruit? You didn't come from the recruit at that time." Is it? And if you still dare to look down on female soldiers, then you have the ability to compare with me!"

When Wu Yun said this, Balang immediately corrected his attitude with a smile, "Look at what I said, I just said it as a joke."

In this way, they are responsible for the registration, and now they are only doing a preliminary registration, and there will be a lot of physical examinations, as well as their specific conditions. From the very beginning, they will be graded and eliminated according to their previous three-month training results. In one step, Qin Yuan planned to eliminate some people.

This elimination mode is also carried out for the first time, mainly based on the different situations of male and female soldiers. In any case, male soldiers do have an advantage in terms of physical fitness.

Everyone heard that the first round was just for registration, and they needed to be eliminated based on previous results, and many people were very discouraged in an instant.

"What do you think about this? I didn't talk about the assessment before. Besides, I don't know what their assessment standards are. I'm worried whether they will use the standards of male soldiers, and then we will compare them."

"It shouldn't be possible. It's just that everyone didn't know about the assessment before. During the training of this new barracks, I really felt that I didn't perform well."

After all, during the recruit training period, many people were very worried, and Li Hong was also very anxious. She was very worried that she would be eliminated directly at the very beginning.

After three days of review, the first batch of people to be eliminated was finalized. There were not many people to be eliminated, just a dozen or so. The main reason was Qingyuan's assessment criteria. He had a look at the results of these people one by one.

He didn't mainly focus on physical fitness. He had considerations in many aspects. In Li Hong's class, two people were eliminated in one fell swoop. These two people couldn't figure it out.

Especially a person named Zhao Min who was eliminated. Her usual basic training results are considered relatively good, and she has not made any mistakes. She did not expect to be eliminated under such circumstances.

This made her very puzzled, because she felt that she was better than most people, why was she not recognized? She instantly questioned the fairness of the selection.

"I think this is really unfair. Why should I be treated like this, and my grades are obviously better!"

This point also confuses everyone, because the elimination mentioned at the beginning was somewhat different from what everyone thought at first.

At this time, a recruit from the next class ran over and said loudly: "Hey, do you know? The worst Liu Meng in our class was eliminated. We all think it's fair..."

Before she could finish her words, she was quickly stopped by the people next to her, because everyone was quite depressed and hadn't figured out what was going on, especially on Zhao Min's side, she couldn't figure it out. That person Li Meng went to the art soldier from the very beginning, so even the three-month training of the recruits was full of complaints.

That guy is not only famous in their class, but also in the whole company. He can steal and play tricks in everything. She didn't expect that she would be eliminated with such a person. The more she thought about it, the more she couldn't understand. .

Now that someone said this, I felt even more wronged, and felt that there must be something tricky in it. At this time, a female soldier looked around and lowered her voice.

"Do you think someone is impersonating someone? After all, the number of female soldiers to be recruited this time is limited, so will such a situation happen?"

"Don't talk nonsense. We all don't know what's going on now. Besides, how could this kind of thing happen in our team?"

"How is this impossible? I think you are too simple. Haven't you heard of it before? Some veterans are going to participate in some special quotas, and they will be replaced inexplicably!"

There was nothing wrong with it, but these recruits had only been in the army for three months, and they had heard half-truths and half-false news, so they didn't know the truth and the falsehood, and couldn't tell right from wrong.

When Zhao Min was told like this, she was even more convinced that she must be doing a roll call. She clenched her fists and stood up a little dissatisfied.

Everyone was a little worried seeing her like this, worried that something would happen to her, and the people next to her were trying to persuade them, but at this moment, Lighting couldn't listen to anything, and she was even more convinced that her position must be replaced by someone else .

"I am definitely like this. I must go to the person who came to collect it and ask what is going on!"

"Zhao Min, don't be so excited, wait a minute, let's go to the squad leader to ask about the situation, so that if it affects you badly."

"The thing about co-authoring didn't happen to you at all, so you are not in a hurry. Do you know what this means? I came to the army to make contributions. I don't want to be in the rear of the army!"

Zhao Min was very excited now, and the more she said, the more outrageous she was. Originally, there was no distinction between the front line and the back line in this army. She couldn't control so much now, but insisted that her position was replaced, and rushed out to find Qin Yuan without saying a word.

The few people next to her were worried that something would happen to her, and they kept following behind to persuade her, but how could she listen to these things now.

On the other side, Xinyi saw a few of them walking towards the office building angrily, and hurried to call the class monitor because she knew that someone would make trouble after the screening.

"The squad leader is not well. Go and have a look. Zhao Min and the others rushed to the office. I'm worried that something will happen to them. After all, the new instructor seems to be very powerful."

The squad leader of their sixth class was just going to talk to them about the quota, but he didn't expect to go directly to someone here, which is really too exaggerated.

"What are they going to do? No organization, no cohesion, how can they find someone? What are they doing? They really treat the army as their own home!"

"Squad leader, stop talking, let's stop people quickly, when I came over just now, I saw them on their way to the office building!"

Just like that, the two rushed to find Zhao Min and the others, but they were still a step too late, and could only watch helplessly as Zhao Min and the others entered the office building.

"It's over for now, everyone prepares for self-criticism, there is a high possibility of corporal punishment!"

Xinyi was a little surprised to hear this, shouldn't it be? If they report the situation, they are likely to be punished or condemned. Only those who report should not involve the rest of them.

"Squad leader, don't talk about it. If you're so sure, I think there should be nothing wrong with it? A few of them are going to ask for an explanation. If there is nothing wrong, maybe the palm of your hand is afraid that they will come back."

"You also know that they are just talking about the quota. Apart from questioning the fairness and fairness of the quota, what else do you think they will say? But in the eyes of the leaders, this is unreasonable trouble, do you understand!"

Xinyi was also a little worried when she heard this, and the squad leader also told her that the person who came to the assessment this time was the God of War they had heard before. How could someone of that level compare with him? People can definitely guarantee the fairness of things.

At this moment, Zhao Min didn't care too much, and rushed into the office building directly. After knocking on the door, he began to question this matter. Qin Yuan and Long Baichuan were playing chess, but they were confused by the sudden arrival of these female soldiers.

I have to say that these female soldiers are still courageous, and they really do what they say when they encounter something. Long Baichuan is beside him dumbfounded, but he is not angry.

He wants to see how Qin Yuan can solve this problem, after all, male soldiers and female soldiers are really different in some aspects.

"I said Captain Qin, why don't you hurry up and explain to others, what's going on? After all, the newcomers have questions, so we have to solve them, right?"

Zhao Min hadn't heard the meaning of these words, and thought that Long Baichuan was indeed on her side, and felt more confident.

"Dragon team, I really don't know what to say about this incident. Obviously my grades are relatively good, but why should I be eliminated? People always make mistakes, and I don't know what to say." I can't guarantee that I'm among the best, but I do have doubts about who will be eliminated this time!"

Qin Yuan smiled, and then asked her name, "Oh, so your name is Zhao Min, right? I remember that."

Hearing this, Zhao Min felt that this matter must be tricky. There are so many female soldiers in the recruit company, so many names, and there were many people who signed up at the time. How could they remember themselves so quickly? This is completely unbelievable. I guess this guy is I'm talking casually.

Then what she didn't expect was that Qin Yuan actually told her basic situation verbatim, as well as her usual training situation, which surprised several people present.

Moreover, Qin Yuan also explained the specific reason for her elimination. She is indeed very good in other aspects, but the only difference is that there is already a martyr in her family, and her brother died while participating in a certain mission.

"Your indicators and training are very good, but this group is really not suitable for you, because the risk factor is also the highest!"

Qin Yuan also told the truth, after all, they encountered danger laterEspecially when they were performing various undercover missions, they had to go deep into the enemy camp, and there were many situations where they had no time to react.

If they enter some special missions on the front line, there will still be group operations, and they can be led by the captain, but if they want to carry out some extremely secret undercover missions, then only they can rely on themselves, and many accidents may happen.

A martyr has already appeared in Zhao Min's family. He can't let such a tragedy happen again. He doesn't think it is a very honorable thing to be a martyr. If he can, he hopes that he will never be disadvantaged, because this is a family. sorry.

"I know that you are very angry and have doubts. I can confirm your ability, but I can't confirm your situation, because there are many things in it that cannot be guaranteed, and no one can say what will happen in the future."

Zhao Min was completely relieved when she heard this, and her tears flowed down involuntarily. She thought of her brother, and thought of her stupid behavior just now, and started to question the fairness of the army. This is indeed a crime. big mistake,

Unexpectedly, they were still protecting themselves at this time, because they were the families of heroes.

Chapter 1232: selection rules

"Instructor Qin, I know I was too reckless just now, I shouldn't have rushed to you like this, because it's really against the rules, but I..."

"I know, I know what you mean, after all, there are 10,000, you can ask me anytime, don't worry!"

What Qin Yuan said really entered everyone's hearts. The people who followed Zhaoming were all comforting him. At first, everyone thought that something might happen, but they didn't expect this new instructor to be so reasonable. Blame them for being so reckless.

Long Baichuan sat in the back and smiled without saying a word. This Qin Yuan really played a good show. After all, he just started training now. He must not be able to show the devil instructor. This guy still looks kind and friendly, only him Know what's next.

"The special operations team I'm going to select this time will face the most dangerous missions, so you have to understand why I eliminated some people. There are various reasons, but I can definitely guarantee fairness. "

"Instructor Qin, you have said this before. It is indeed my problem. I should not doubt you. I am very sorry. I will go back and write the inspection now."

Zhao Min also realized his mistake. No matter what, even if there is a problem, he can't come to the instructor privately like this. This is a leapfrog report. Fortunately, Qin Yuan didn't care about it. Many people will be involved.

"That's no problem. I just said that if you have any questions, you need to give feedback in time. I can solve any problems for you. You can go back and think about it now. If you are sure you want to participate again, you can write a new application." ."

Zhao Min nodded. She originally wanted to agree directly now, because she had considered this question very clearly. She had already made up her mind when she joined the army, but Qin Yuan shook his head to indicate that she should not be too impulsive now. Emotionally unstable.

"You don't need to answer me in a hurry. I can give you three days to go back and think about it first. At least you have to discuss it with your family. Although you are an adult now, I think you can still discuss some decisions with your family. ."

Zhao Min nodded, and just like this, several people left together. As soon as they left, Long Baichuan knocked on the table, "I said that's not how you dealt with those male soldiers before. Physical punishment, 5km, 10km. , now it's changed."

"Dragon Team, see when you said I was so strict? Besides, we are all brothers and sisters."

Long Baichuan has seen through this kid, and now he shows an amiable appearance, and the female soldiers behind will know, "Forget it, I'm too lazy to tell you, come here and continue to accompany me to finish this one."

When Zhao Min and the others walked down, the monitor of their sixth class had been waiting anxiously. As soon as he saw someone, the monitor of the sixth class rushed up, "How's it going? Did the instructors and leaders over there say anything?"

Zhao Min also stood up and took the initiative to take responsibility for her mistakes. She said that she was really too impulsive just now, but the sixth squad leader can't control so much now. She just wants to know the result. She doesn't pay attention to the process. What the team sees is the result.

"What are you talking about? The instructor didn't care about it, it's impossible!"

"Squad leader, can we still lie to you? If the instructor really wants to care about something, we can't come out, and we will definitely be left there to write a review."

Squad leader No. 6 nodded. That was true, but he couldn't figure it out. He had heard of Qin Yuan's reputation before. He was a well-known God of War figure, and he was very strict in training other soldiers.

Why are you so relaxed with them? Could it be that they were treated specially just because they were female soldiers, which made her feel even more uncomfortable. She didn't want to be treated specially.

Thinking of this, the sixth squad leader felt a little uncomfortable, so he asked them to gather and line up, and then said seriously: "Everyone has 5 kilometers, let's go now!"

Everyone was puzzled when they heard this, since there was no punishment at all, why did they treat them like this, "Squad leader, what do you mean by this? I made it very clear just now, the instructor did not punish us, but he was very patient. Explain to us, we have no problem!"

The sixth squad leader felt that this could not be done, because she felt that they should be treated fairly, and that they should not be relaxed just because they were female soldiers. Instead, she should be more strict with herself. Run.

"You are completely embarrassing our female soldiers, making people think that we are so petty and always like to make a big fuss, so this is my punishment for you and myself. I didn't manage you well!"

Everyone was a little unhappy when they heard this. They still can't understand why they continue to accept the punishment stupidly. Obviously, other instructors don't mind anymore, but their squad leader still wants to punish, but this is the army. They had no choice but to obey the order, and everyone started running reluctantly.

The sixth squad leader took the lead, and Zhao Min felt a little guilty, and more of a complaint, feeling that their squad leader was making a fuss all day long.

"Look at the difference between our squad leader and instructor Qin. I've heard that the female leader is different from the male leader. It's true."

"I also feel that he has come to torture us all day long. Look at how polite Instructor Qin is. We went directly to his office. He didn't say anything, and he told us in a nice way."

"I don't even know what to punish. We have already done what we should do. The person involved didn't say anything, so she made a fuss here."

The squad leader of No. 6 suddenly turned her head at this time. It wasn't that she didn't hear it, but she felt that she didn't want to talk about them anymore. Unexpectedly, these female soldiers kept talking too much, so she turned her head and gave them a vicious look.

"It seems that you are still very energetic. In this case, after running 5km, do 50 push-ups!"

Everyone complained for a while, and no one dared to speak for a while, so they could only shut their mouths and run quickly. Who knows what they said wrong later, and they had to continue to practice more. .

Just like that, when they came to the cafeteria after training, the people in front had already finished eating, Zhao Min rubbed his sore shoulders, "Sisters, it's because of me that you were punished with me, right? Living."

"What's the point of this? Besides, can you be blamed? It's not that our monitor is too fussy, and we have been repeatedly punished for this matter. It's funny to say it."

"That's right, and we also had doubts about this matter at the beginning, so we went with you to figure it out. Now that the truth of the matter is known, let's pass this matter like this!"

They walked into the cafeteria and saw Qin Yuan sitting in the corner, eating. Zhao Min and the others hurried forward, "Instructor Qin, I didn't expect you to come to eat!"

"That's right, I have to deal with some things in the morning, so I'm late, so go and eat quickly, there will be no food later!"

It sounds very polite, and several people think that their monitor is too much. Looking at Qin Yuan, his attitude is simply too good.

Several people came out after dinner and were still discussing, thinking that it would be great if Qin Yuan was their squad leader. After all, they are very measured in everything they do, and they will not be punished at every turn. They are very patient in everything they say .

"He deserves to be a figure at the level of God of War. You see, he doesn't care about those things with us at all. I think such a person is simply an idol!"

"No matter what, I will definitely sign up this time, and I can understand what he said to me, but I also want to work hard for my own dream!"

Several little girls agreed with each other that they must become members of the commando team, and everyone worked together. Qin Yuan watched from a distance, feeling a little dazed for a while, probably thinking of himself back then. Start to excite.

The selection will officially start in two days. There may be a lot of people eliminated in the first batch, because the team members he requires are very strict, and these are all recruits, so it can be said that they only have a very small foundation.

However, the standards for male and female soldiers are different, and what he wants to select is also different. After much hesitation, Zhao Min decided to submit the application because she had already made a decision from the beginning.

Looking at the number of people submitted this time, there are quite a lot of people, and the basic value is similar, so Qin Yuan specially called Jiang Xiaoyu and the others to assist him in the selection.

Originally, they wanted to transfer the red blood cell team. Of course, they and the Wolf Warrior team are performing missions together recently, and they are all under the unified management of Long Xiaoyun.

I haven't led the team recently, so Long Xiaoyun is responsible for all the big and small things in the team. In addition, the red blood cell team can actually perform tasks alone without a leader.

And this time, after the establishment of the women's special warfare team on the Marine Corps side, it can be regarded as setting another precedent. Unique women's teams can also be established in other places.

Women are very dominant in many aspects. One is that they can reduce the enemy's vigilance during undercover missions. The other is that in the process of mine clearance, women are actually more patient and careful than men, so they have an advantage in mine clearance .

Zhao Min and the others saw Qin Yuan again on the day of the selection. They were going to be selected and eliminated. Qin Yuan looked at the number of soldiers. Except for those who did not sign up before, there were also some who were eliminated. Now there are a total of 120 soldiers.

The first round of training is about to begin. Standing on the stage, he first introduced the current selection rules, "I need the members of the team to have strong survivability, adaptability, and responsiveness, so in this selection process In the process, you can rely on the teammates around you, or you can rely on yourself alone, anyway, I will wait for you at the final finish line."

The conditions for their selection this time are relatively strict, that is, they will do it on the opposite hillside on the road. They need to climb over the opposite mountain, and then cross a sea area. This sea area is not particularly wide, so they need to do it themselves. The tools for making logs with self-weight steps beside them are very crude.

It is a simple test of their physical fitness, endurance, and manual ability.

They need to reach the destination Qin Yuan said before the sunset today, but in the process, there will be an assault team formed smaller than them, chasing and intercepting them. The test they have to face is not only to avoid hunting, but also there is a need to keep moving forward.

As for the number of people, Qin Yuan has no special limit today, as long as they can reach as many people as he can accept, the female soldiers in the audience are relieved to hear this, it sounds like the rules are quite simple.

Li Hong reminded them not to relax their vigilance in a low voice, and pointed to the opposite side, "Look at the situation on the other side, they are all pretending, so be more careful then."

Jiang Xiaoyu and the others are already ready and ready to set off at any time, but Zhao Min thinks it doesn't matter, they hold weapons as well, "Anyway, sisters, although they have more combat experience than us, we have more people, then run along the perimeter together."

Li Hong shook his head, thinking that what they were thinking was too simple. If everyone wanted to run from the periphery and no one ran from the center, then they would definitely think of this, plus how many Jiang Xiaoyu and the others came out years.

So now she is struggling whether to act together with them, or to act alone is more reliable, if she acts alone, maybe it will be faster.

At this time Qin Yuan signaled that the operation could start, they were already distributing weapons and equipment, and everyone's weapons and equipment were the same.

"Li Hong, how do we go then? You usually have the best grades and marksmanship. You should take a look at the map first!"

Such a statement made Li Hong feel a little at a loss. Originally, she was thinking of acting alone, so she set out along the central area, and the straight distance was the fastest.

There are too many of them, the main reason is that Zhao Min and the others have set up a newspaper group to gather everyone together. As far as they are messing around with their superiors, 11 people have already acted together, plus him. 12 people, this goal is really too big.

Li Hong knew very well in his heart that this was not just a play, and many situations were unpredictable. Such a big goal would definitely be the first to be targeted.

The comrade-in-arms next to her once reminded her that when she was thinking about how to refuse, Zhao Min said abruptly, "I said, what are you asking people to do? Don't put your face on your face and your ***** on me. Seeing that she just wants to act alone, I heard her muttering there just now, and I think there are too many of us."

Chapter 1233: selection criteria

Li Hong wanted to refute at first, but it's meaningless to say these things to people who don't know what to say for a while and are meaningless.

"Whatever you think, I won't say much. If you want, I have a suggestion. It's best not to stand so densely. If everyone is together, it's easy to get caught up in one pot."

"Did you see? I said before that she didn't want to be with us at all. She was the number one during training. She thought we were with him, and that would delay her!"

The female soldier next to her said a few words in a strange manner, then turned around and whispered to the person next to her, making the atmosphere a bit awkward. This has not even started yet, why is there an internal strife.

The sixth squad leader knew that this was not going to work, so she also participated in the selection this time. She was already a three-year veteran, so no matter what, she wanted to fight for it.

"It's just the beginning. What we need is unity. Don't cause infighting over some trivial matters. You must know that everyone is a comrade-in-arms. In the end, it is possible that you can only rely on your own comrades-in-arms."

"Oh, squad leader, we all understand the big truths you said, but don't we have them? We originally wanted everyone to be together, but it's a pity that some people don't want to do this!"

Anyway, what they were talking about was Li Hong in a strange way, and Li Hong didn't care, since things were already like this, what else could they say.

It is best to choose the route you insisted on firmly in the future. No matter what, you must not go with them. If you go on like this, only your own ability will be consumed.

Seeing that everyone is checking the equipment, and now there are groups, there are three people, there are two groups, and there are groups of people like them. Basically, each class is your own person. .

Li Hong stood at a loss at the same spot, calmed down, and she also began to check the equipment in her hands. Now they each distributed a pot of water, a bag of compressed biscuits, and a very simple first aid kit. Glucose water, and a little gauze, nothing else.

Qin Yuan stood on the stage and cleared his throat, and then said: "Check your equipment, there is only one signal flare inside, when you choose to abstain or cannot move forward independently due to physical reasons, sound your signal flare , our rescue vehicle will rush to your side as soon as possible!"

Hearing this, everyone paid more attention to it. After all, rescue vehicles have been involved. According to what he said before, it doesn't seem to be that serious. After all, Houshan and the others had trained for three months before the recruits.

But now that I hear it this way, I feel that rescue vehicles still need to be used. It is estimated that the situation of elimination is still relatively serious.

Li Hong knew from the very beginning that she had learned about Qin Yuan. He has the title of devil instructor. Although he seems to have no purpose now, he may not be as amiable as they said before.

Seeing those former comrades-in-arms of hers, she just felt that they were too naive. She wanted to remind them kindly, but they didn't appreciate it. She felt that this might be another kind of elimination.

After making preparations here, they will start to set off in ten minutes. The total time required is about six hours, but during this period they will be constantly hunted down by Jia Xiaoyu's special warfare team. , so the time may be delayed.

However, Qin Yuan needs people who arrive before 6 o'clock, no matter how many people arrive before 6 o'clock, they will all be considered as advanced, and he will not take people after 6 o'clock no matter how powerful they are.

This is also the rule he said in advance. He stood on the stage and waved to everyone, then jumped into the jeep.

"Everyone, let's see you at the finish line. I hope you can all work hard and successfully advance together. There are still many challenges waiting for you!"

This sounds very exciting. After all, these recruits have just joined the army, and many things are full of curiosity. In addition, it is the first time for them to experience such a test and competition.

Long Baichuan was very satisfied, seeing this scene, I have to say that everyone's epidemic situation was ignited for a while, and Wuhan Iron and Steel felt a little worried.

"This is the first time that new recruits are used for selection. Many of them lack experience, and some recruits don't even know how to shoot!"

What Wuhan Iron and Steel said is also true, because there are many female soldiers here, they have only undergone basic training, and many things, including combat experience and team cooperation operations, are still unclear, so it is very likely to make a mess.

"We shouldn't worry about these things. Since Qin Yuan has already chosen to select among these people, we just need to cooperate well. Besides, he also has his selection criteria."

"But this team is the strongest one. I think it's better to select from Wu Yun's special forces team. The chances are higher. I really don't know what to do with these recruits. How to say?"

Long Baichuan had this unit before, but now he chooses to trust Qin Yuan. He thinks that Qin Yuan will be able to train this women's special team well.

They also followed Qin Yuan to the finish line. Along the way, in addition to having a fixed camera position, there were also drones to follow the shots without dead ends. The main purpose was to observe the reactions of each team member. These were also Qin Yuan's assessment criteria. one.

Now most of the team members are excited, because it is the first time for them to experience this, and everyone is very curious. When they first started, everyone was very excited.

When starting to go to the back mountain, let them take a car to reach the foot of the mountain first, and then they need to walk the rest of the way by themselves. On the way, everyone even organized singing together.

Jiang Xiaoyu and the others followed behind. Hearing these female soldiers were still singing in the car, they couldn't help but feel a little funny, "You said these female soldiers are really innate optimists. Even in this situation, they still want to sing, don't hurry up Do you want to get ready?"

"Maybe it's really different. If you think about how nervous we were when we were selected, and we were worried in all aspects, maybe it's because they have a good mentality."

Balang felt a little indifferent when he heard this. This is not a matter of a good attitude. In his opinion, these female soldiers didn't take it seriously at all.

After all, he is a recruit, so he has not experienced it. The society should completely beat him. In this case, he has not yet made a clear distinction. The real test is coming.

"Just wait, let them see what is truly cruel!"

Balang still didn't forget to tell them not to let go of the water. This was what Qin Yuan had told them before. To let them go now is to be irresponsible to them. Everyone should go all out.

Zhao Min and the others pulled 15 people back and forth in total, and all the people in their two classes gathered together. At this time, Zhao Min felt that there were too many people, but he was embarrassed to kick anyone out, after all, it had been agreed before Such a team's goal is a bit big, and he can't help but feel a little worried.

She lowered her voice and said to Xiaoguo next to her, "What do you think we should do now? There are too many people here, and maybe we might be exposed."

"What else can we do now? Things have come to this point, so we can only bite the bullet and talk about it. On the contrary, I think it may be a good thing to have a large number of people. After all, we have a large number of people and great strength. It will be useful when we fight back." Woolen cloth."

"Wait, you don't really think we can beat Jiang Xiaoyu and the others, do you? They have participated in the Mars Warrior Award before."

"No one can tell. Besides, isn't there a saying that the old master was killed with random punches? There is absolutely no problem with so many of us working together. No matter what, we can use a cover!"

Hearing this, Zhao Min nodded. Now that things have come to this point, it is hard to say anything more, so I have to bite the bullet.

Li Hong was silently holding the gun beside her, and didn't say anything. She closed her eyes and cultivated it while listening to the person on the other side singing. Now there is at least half an hour in the past, so she has to take a quick rest during this time. .

Li Hong has already planned the route in his mind, which is the fastest and has a certain degree of concealment, but it is more dangerous because it will require a person to cross the side cliff.

But this is also the fastest, because the time is tight, the task is heavy, and there are pursuers behind, so walking from there is also the best way to avoid the pursuers. She doesn't think she can escape the husband and wife, so she can only use this Risky approach.

The sixth squad leader was sitting next to him. The sixth squad leader didn't form an alliance with anyone this time. She originally planned to act alone.

Seeing Li Hong who was also alone, she patted Li Hong on the shoulder, "How is it? If you don't mind, you can talk to me, but I have to listen to your plan first to see if you are eligible Join me as a group."

Because everyone was sitting in the back compartment, although the sixth squad leader lowered his voice, it was still heard by others, and the third squad leader sitting opposite her smiled a little disdainfully.

"I said, Sixth, there's no need for you to do this for a recruit. The status of the two of you is too low. It's better to have more people. That's okay,"

"After all, everyone has their own choice. I made this choice after consideration. You also have your choice. Everyone is different."

The third squad leader saw that he was so persistent, and didn't say anything more. Originally, he wanted her to join his team, because the chances of winning would be better. She was very clear about the strength of Jiang Xiaoyu's assault team that she was going to face. .

Li Hong didn't have any shyness, and she could tell her plan. The sixth squad leader nodded after hearing it. She didn't expect this recruit to be quite adventurous, and the plan was so perfect under this situation. I have to say that it may not be suitable for many people, after all, it is too dangerous for so many people to be on the cliff.

If you are facing only one person or two people, then it is definitely no problem, and this method is also the most suitable.

In this way, Squad Leader Six and Li Hong reached an agreement. The two of them formed a separate group. Squad Leader Three felt a little regretful sitting opposite, because she still recognized the strength of Squad Leader Six. If she could pull this person into her team, that's definitely no problem, the chances of winning will be greater.

"Lao Liu, do you want to consider coming to my team? There are not many people in my team. If the two of us work together, there will be no problem. We can definitely make it to the end."

When Li Hong heard this, she also got mixed feelings, because the three squad leaders were all in demand, and as far as she knew, two of them were the most outstanding in their recruit class.

However, there are already seven people in their team. If the sixth squad leader is added, just eight people can make up an assault team. If she is added, the number may be a bit too much, which is not suitable.

So now Li Hong is very hesitant. She originally planned to be alone, but the sixth squad leader had told her to form an alliance just now, and now this situation happened again, so she was also a little anxious.

Fortunately, the sixth squad leader politely refused, and the third squad leader felt a little embarrassed when he was rejected again. After all, she said it twice. Could it be that this guy can't see the form clearly?

"Old Six, in fact, you don't need to do this for that recruit. If you join us, your chances of winning will be better. You also know that you have been a veteran here for three years. If you don't cherish this opportunity, you will be discharged from the army." gone back."

The sixth squad leader smiled, but she didn't think it mattered, she had to fight no matter what, if she followed them, the chances of winning would be better, but is it possible to follow them together?

Everyone will be independent in the future, especially for the group, their requirements are higher, so it is better to be strict with yourself from the beginning.

When Li Hong heard that the sixth squad leader rejected their request to join, she felt a little warm in her heart, "Squad leader, actually you don't have to treat me like this, it will make me feel a little guilty, in case I don't have the ability to do it What did you expect to do before?"

"What are you talking about? I chose you not because I want you to do something for me, but because I think the two of us can match well. You don't need to have any psychological burden, just perform normally."

Li Hong nodded, and the expressions of the people next to her were different, because everyone knew that the sixth squad leader was very powerful, and now choosing to be in the same group as the sixth squad leader was undoubtedly a big step closer to her promotion.

Everyone has joined their respective teams, and the third squad leader can't say anything more. Just like this, the vehicle staggered and finally arrived at the destination. The outside is covered with thick camouflage canvas, and the people beside the vehicle did not hear the order , and dare not act at will.

"Squad leader, what should we do now? Do we want to go down? Or just stay in the car and wait for orders. Why didn't we tell us about this!"

Chapter 1234: cruel elimination

The squad leader of No. 6 who was standing next to her shook her head. She signaled everyone not to act rashly, but to observe the situation before talking, and then carefully recalled the conditions Qin Yuan said before.

But it was very quiet outside, and everyone stayed in the car for five or six minutes. The time passed by, and the sweltering heat in the car made everyone feel a little restless, and some people couldn't sit still.

"What's going on here? Isn't this delaying time? It was said before that we would arrive before sunset. If so, it will delay our time."

"I think it's better not to act rashly. Maybe it's them testing us. After all, we haven't received any orders. Have you forgotten what you taught us when you were in the recruit company?"

This is indeed true. As recruits, the first thing they do is obey orders. Now that they haven't received any instructions, they don't know what to do for a while.

Another ten minutes passed, Jiang Xiaoyu and the others who were hiding in the dark silently observed the movement inside the car.

"I said, do these recruits have any self-consciousness? After more than ten minutes, no one dares to come out?"

"It's not whether they dare to come out, but the subconscious reaction of the recruits. Everyone didn't receive the order, so they didn't dare to move around. Let's wait and see! Anyway, they will be eliminated sooner or later."

Deng Jiuguang has already made preparations, and they are responsible for ambush here, because what Qin Yuan said before is very clear, they will set off immediately after the vehicle arrives.

If they chose to come out before 15 minutes, the odds of winning might be even greater. Now that Jiang Xiaoyu and the others have completely ambushed, if they go out like this, they will be directly targeted.

These few trains of recruits really couldn't stay in this stuffy compartment, and finally someone couldn't bear it anymore. At this moment, the sixth squad leader and the people in this compartment also started to act.

"Anyway, I don't care. It's better to go down first and talk about it. Even if it's a violation, let's talk about it later. Waiting here is a waste of time!"

"I agree!"

Just like this, the two recruits were about to move the canvas outside and jump out of the car. At this time, the sixth squad leader hurriedly stopped them, "Don't move around, if there is an ambush outside, you jump off now, then go straight. Was eliminated, you know!"

"So what should we do now?"

They were talking about the people in the two cars in front of them getting down, only to hear a burst of gunshots outside, and everyone became nervous for a while. It seemed that there was really an ambush outside, and they were caught off guard.

There is still a burst of white smoke, which indicates that someone has eliminated everyone in the car. For a while, I don't know whether to get on or get off, but I heard a powerful explosion next to the car. If you continue to stay in the car, it was really about to be wiped out by the group, but everyone heard the gunshots just now, and no one dared to go out for a while.

The sixth squad leader looked around, and then pointed to the baffle on the side of the truck. Instead of going out from the front, they opened the baffle from the side and jumped out, so that they could rush directly into the jungle on the opposite side.

"In this case, we have a higher chance of surviving. I think we should cooperate first. The third squad leader and I are responsible for the cover. You rush in as soon as possible!"

In any case, they are considered veterans. They acted as a cover in the back, so that everyone's chances would be higher. In this way, the people on the side pried open the baffle and began to jump down one by one.

But they ignored Jiang Xiaoyu's vigilance, even though they just jumped from the side.

A few bullets hit the baffle directly, they could only speed up, and then quickly rushed towards the jungle amidst the smoke of those eliminated people and the chaos.

The team that had been agreed to be formed before also collapsed completely at this moment, because everyone was only focused on rushing forward, and there was no time to care about how many people were behind, and most of them dispersed. The route planned in their minds before, There was no time to think.

This is also the first time for Li Hong to face this kind of situation. No matter what, they are also new recruits who have just joined the army for three months. Faced with this unexpected situation, of course, they are not as quick as veterans. Everyone rushes forward, Li Hong He even ran desperately.

After they ran in completely, Li Hong realized that she had run away from the sixth squad leader. She had said it well in the car before, but she didn't pay attention when she ran just now.

She didn't know how far she ran. Of course, the surroundings were very quiet, and she could only hear her panting alone, and the map routes he had planned in his mind at the beginning were completely disordered at this moment, and she couldn't tell the direction for a while. , I can only try to adjust my breathing and let myself calm down first.

Qin Yuan and the others silently observed the specific situation on this side at the finish line. Wu Gang shook his head helplessly when he saw such a picture in the surveillance.

"Look what's going on here? You can't even fight back, so how do you know how to run? I really don't know what to say. If I go outside and catch a few, the common people are better than them!"

"I'm talking about Gangzi, don't talk too much. After all, they are just recruits. Besides, this selection has just begun. Who hasn't come from recruits yet?"

Wu Gang didn't speak any more, his expression just became more and more dignified, which was a bit beyond his imagination. Originally, he would have thought that these new recruits would respond more quickly, but he used the standards of male soldiers to evaluate them.

Jiang Xiaoyu and the others eliminated more than 20 people at the starting point. These people were quite innocent. After all, in this chaotic situation, they jumped down as the leaders and were shot dead without any vigilance.

A soldier in front threw his helmet on the ground helplessly. This is really too exaggerated, and it ended before it even started. "This is too boring, this is the so-called selection, and it is too difficult!"

Jiang Xiaoyu stepped forward and patted her on the shoulder, "I can tell you this, it's just training now, if the real battlefield is ten times crueller than this, do you understand!"

The soldiers froze in place when they heard this, and couldn't calm down for a long time. They eliminated more than 20 people just after they came down. According to the real account, they have all died.

On the other side, Zhao Min and the others kept running towards the front, because there were so many of them, they weren't so scattered, but when they ran to a safe area and checked carefully, they found that there were only nine of them, and the rest didn't follow.

Xiaoguo in the team saw that her good friend had lost her back, she looked around anxiously, but there were no other people around except for a few of them, the forest was very large and quiet, in that Under the circumstances, there was no time to react, and there was a little gunshot in the distance.

Zhao Min asked everyone to adjust quickly and set off immediately. Staying here is not a long-term solution. After all, Jiang Xiaoyu and the others are experienced, and they may catch up soon.

"No, Yangyang hasn't caught up yet! We have to go back to find her now, we are in the same class!"

"Are you crazy? What's the situation now? She might have been eliminated. Do we have to go back now!"

"At the beginning, we agreed to advance together, but it's only now. Are you going to abandon her? If she is behind, let's go find her quickly, we want to be together!"

For a while, there was a disagreement in the team. Faced with this situation, most people chose to continue to set off, because those who fell behind might mean that they were directly eliminated or went to other regions. In this case, it would be easy to expose them and they would go back. The risk is also very high.

"Xiaoguo, I advise you to be more sober, we are conducting a military exercise now, not playing tricks!"

"I know, so we can't leave our teammates behind. You don't want to go find her, right? Then I'll go find her!"

After Xiaoguo finished speaking, she turned around and left. She speeded up, no matter what, she must find Yangyang, because they said before that they would attack together, but now it turned out like this.

The rest of the people were a little hesitant, no matter what, everyone was still in the same class, and two of them wanted to go out with Xiaoguo to find the lost teammate, but they were stopped by Zhao Min.

"Think about it for yourself. Is it meaningful to find someone now? I don't know what's going on. Maybe Jiang Xiaoyu and the others are following behind. Do you want to all go out to die!"

This sentence completely awakened several people, and everyone did not hesitate any longer, and started running forward without looking back. Jiang Xiaoyu and the others also started to set out in the jungle. Drive them all in, and then weed them out one by one in the process.

There was also a reason why they chose a large number of people before, because Qin Yuan said before that he wanted to make a raft by himself, and making a raft was a very time-consuming and labor-intensive task.

If one person acts alone, or a group of two wants to make a raft, it is simply too difficult, and it will waste a lot of time at this level.

And if there are many of them, they can quickly make a raft and quickly pass through that area. Now each of them is carrying 30 kilograms of weight and the chaos just now, everyone is a little tired for a while.

Li Hong didn't dare to delay any longer, she just ran forward vigorously, but her way of doing this was too exhausting, and soon she felt that her breath could not keep up, so she could only sit down and let herself adjust first.

At this moment, just as she was taking the kettle, she heard movement behind her. She hurriedly hid behind the tree vigilantly, and then heard two people talking in a low voice. She looked through the branches, and it turned out to be two teammates. .

Seeing that they were her own, she was instantly relieved. Although she was not familiar with them, it was better than meeting other people in this situation.

She hurriedly stood up to say hello. She really scared the other two when she came out, but they quickly realized that a female soldier standing opposite looked at Li Hong in front of her.

"You're the guy from class six!"

What does this mean? Before Li Hong could react, the female soldier had a sneer on her face, and said very disdainfully: "Who did I think it was? It seems that he is also a despicable villain. You didn't know that I was in the carriage before, but you heard She wanted to form an alliance with the sixth squad leader, but she was busy running away from the beginning!"

For a moment, the two looked at Li Hong with disdain, thinking that she was a despicable villain, so they left her and ran away on the spot.

Li Hong originally wanted to cooperate with them. After all, if the three of them passed quickly, they would have a chance to build a raft when they reached the river bank, but it was impossible in the current situation.

She didn't explain anything. After all, in that situation, no one could stay in the same place and wait foolishly. Just like that, she picked up the water bottle and left silently.

Long Baichuan also noticed this female soldier in the surveillance. He felt that this person had quite a personality and was quite independent. You must know that this is not common among recruits. Because of lack of experience and ability, recruits would choose to form groups. .

"This female soldier is quite interesting. She can still be alone in this situation, and have you noticed the speed she ran just now? She also runs very fast on this kind of mountain road, and her skills seem to be good. "

Qin Yuan nodded beside him. He had noticed this person from the beginning, and some people might be destined to stay in the end.

Following Jiang Xiaoyu's pursuit, there were gunshots in the jungle, which indicated that someone was being eliminated. Hearing the gunshots approaching, everyone stepped up. Jiang Xiaoyu's speed was too fast. up.

There are too many people on Zhao Min's side. They feel that their movement speed is already very fast, but they are not as good as Jiang Xiaoyu and the others, and they will be discovered soon.

After all, they had a lot of people. For a while, Jiang Xiaoyu and the others kept chasing after them. Two of their teammates were already eliminated on the spot. Zhao Min and the others could only fight back while fighting back. In the chaotic situation, they completely separated.

Jiang Xiaoyu and the others didn't have the energy to save, they were chasing and killing them with all their strength, and the number of people eliminated in a short time was increasing, approaching 40 people.

Looking at this number, Long Baichuan was a little worried. Under such a big selection, those selected must be high-quality products, but unfortunately, the number of eliminations is too much.

"There is no way, the people I want are the strongest after all, otherwise they won't be able to adapt to that environment after entering, so maybe it's best to be eliminated in the first round."

This is indeed a good point. If they can't adapt to the rhythm later on, it will hurt them to let them choose after they are selected.

Li Hong was also vigilant, while heading towards the route she had planned before. At this time, she heard a faint call from a distance. She touched it quietly, but saw that it was a small fruit that had fallen in the nearby ditch. .

He didn't care so much, he quickly checked Xiaoguo's injuries, Xiaoguo accidentally sprained his ankle during the escape, and fell directly into it.

Chapter 1235: cruel elimination

Xiaoguo fell on her leg, and she tried not to let herself make a sound, but it looked like a broken bone. She felt that she couldn't stand up at all. At this moment, she was relieved when she saw Li Hong rushing over. .

"Don't relax so quickly, I'll help you bandage the wound now, take a look around and be careful, don't have any accidents!"

Li Hong behaved very calmly in this situation, which surprised Xiaoguo, after all, they were all recruits, Xiaoguo nodded, and then looked around, Li Hong squatted down and checked the ankle for her. hurt.

Li Hong turned her ankle lightly, and she couldn't stand the pain. It looked like she had hurt a bone, "No, it must have been a knife to the bone. It hurts too much."

"You wait for me to find a branch to fix it for you. If it is broken, you really can't move it, otherwise there will be some troubles left behind, and it will be troublesome."

Xiaoguo looked at the comrade who turned around and ran out to look for the branches, and felt mixed emotions in her heart. Before, she laughed at Li Hong with Zhao Min and the others, and felt that this person was too independent.

Unexpectedly, in this case, it was Li Hong who saved her. She felt a little guilty in her heart, and felt that she should not have said that about others before.

After a while, Li Hong ran back. She had a few more branches in her hands, then took out the roll of gauze from the first aid kit, and quickly fixed and bandaged Xiaoguo.

"You used your first aid kit? What will you need to do then?"

Xiaoguo's first aid kit was accidentally lost while looking for his comrade in arms, so Li Hong had no choice but to use his own first aid kit for her. How could he manage so much at this moment.

"What time is it now? There's no need to make it so clear, we all belong to the same class!"

"No, you misunderstood me. I was worried about what to do if you need to use gauze later? After all, there is still a long way to go."

"This is my business, you don't need to worry about it."

Seeing this, Xiaoguo couldn't say anything more. After the dressing was fixed, Xiaoguo tried to stand up and see that if she walked slowly, there would be no problem. Now she had to make a decision, whether to give up or follow along.

"You can see if you can take the next road now, it will only become more and more difficult, you have to think about it yourself."

"You have bandaged me up and helped me the most. If you have any questions, you can go first. I want to do the rest of the way by myself."

Xiaoguo doesn't want to drag Li Hong down, because according to the current situation, she is completely a burden, and they will have to make rafts together in the future. In addition, her leg is injured now, and her movements will only become slower and slower, which will affect their progress. speed.

She knew that Li Hong's grades were usually very good, and she couldn't let herself drag her down, so she kept urging Li Hong to leave quickly.

Unexpectedly, Li Hong didn't say much, instead he grabbed her by the shoulder, supported her like this, and the two of them walked forward together.

"What do you mean? I just said very clearly, if this continues, both of us will be eliminated. You know Jiang Xiaoyu's speed and we can't run away at all!"

Li Hong shook her head. She knew what she was doing. At first she chose to escape, so she walked up with the sixth squad leader. It was an agreement they had reached before, but before it even started, she ignored the sixth squad leader and ran away.

Now this is the second chance in front of him. It is absolutely impossible for her to abandon Xiaoguo and choose to run away. If Xiaoguo doesn't give up, then he will help her.

"I know what you think, are you thinking about the squad leader, but I think even if you leave, the squad leader's affairs have nothing to do with you, normal people will choose that way."

"Anyway, leave me alone, this is my choice, I know what I'm doing, don't talk, save your energy!"

In this way, under the support of Li Hong, the two slowly moved forward. Qin Yuan found it quite interesting to see this in front of the camera, but this female soldier was beyond his imagination.

At this time, Qin Yuan picked up the walkie-talkie. After Wu Gang saw it from the side, he thought he was planning to release water for these two people. After all, the friendship between the two is quite touching. Unexpectedly, Qin Yuan said directly: "Little fish, ten o'clock Direction, about a kilometer away from your direction, there are two soldiers, move forward quickly!"

Wu Gang was stunned when he heard this, "I said you really didn't play your cards according to the routine. Under normal circumstances, I thought you were going to give them two water."

"Didn't I train them? Let them know the dangers of society. Forget it, teach them a lesson first. After all, they are still recruits."

After Qin Yuan finished speaking, he showed a wicked smile. Long Baichuan knew that he would not hold back any good things, but that was fine. After a while, Jiang Xiaoyu and the others followed Qin Yuan's instructions and kept facing Li Hong. advance in their direction.

Jiang Xiaoyu and his assault team had no problem at all, and Li Hong had a wounded man next to him, so their movement speed had always been slow, so they quickly caught up with them.

When Li Hong heard the movement, she was followed by a row of bullets, and she was almost eliminated, and Xiao Guo, who was next to her, pushed her away.

"Hurry up and leave me alone!"

"Impossible, don't talk, hurry up and concentrate now, we will retreat while paying off, I will cover you, you hurry up!"

She knew that Xiaoguo had an injury on her leg, so she could only take cover by herself, and Jiang Xiaoyu and the others didn't have the slightest hidden strength, the firepower was too fierce, they didn't even have a chance to fight back, so they could only hide behind the cover.

"Hurry up, or else we'll both have to confess here later!"

Li Hong almost tried his best to throw out a grenade in his hand, which was originally used by La at the last moment, but now there is no way, this grenade can cover them.

The smoke from the explosion of the grenade confused Jiang Xiaoyu for a short time. They took this opportunity and ran forward quickly, but Xiaoguo's leg injury made her unable to move.

She moved her body with difficulty and kept shooting towards the back. Now it was too late to aim, so she could only shoot desperately and escape.

Jiang Xiaoyu's actions were really too fast, and they seemed to have received some kind of order to kill them directly, but they kept chasing them.

This was also Qin Yuan's order. He asked Jiang Xiaoyu and the others to force him to see what choice the soldier would make in the end.

The two were completely desperate. They were in a state of running out of ammunition and food. The main reason was that Xiaoguo was still injured. At this moment, a burst of gunshots came from the left. Li Hong looked up, and unexpectedly it was the sixth squad leader. , she quickly rushed over to cover them with her assault rifle.

"Come here quickly, what are you still doing!"

Li Hong dragged Xiaoguo and quickly moved towards the No. 6 squad leader. This was really interesting. Another person was added, and Jiang Xiaoyu and the others surrounded him even more quickly.

Xiaoguo looked at the sixth squad leader in front of her and then at Li Hong next to her. If these two people continued like this, they might be dragged down because of her.

She gritted her teeth and pushed it away cruelly, then ran towards Jiang Xiaoyu and the others.

She shouted while running: "Hurry up, hurry up and go with the sixth squad leader, leave me alone, or we will all be eliminated here!"

"What do you guys want to do? We are all leaving, come back quickly!"

Seeing this, the sixth squad leader threw a grenade, and then pulled Li Hong, and the two quickly jumped down the ravine beside them, and ran forward. With Xiaoguo's cover, they finally escaped. Yu looked at the two people who were running away and smiled, and gave them a little water.

Anyway, after killing a person, Xiaoguo couldn't help crying loudly when she saw herself leaning on the backpack covered in smoke. Deng Jiuguang stepped forward and handed her a tissue.

Now she is regretful and unwilling. If he hadn't run to the back to find that comrade-in-arms, then such a situation would not have happened now, and he sprained his foot, and he was eliminated in the first round. It's too embarrassing.

"I said you girl, what's there to cry about? Isn't it just a competition? Get up quickly."

"This is different, this is my dream, but I can't continue!"

"I know, but there are still many opportunities like this. Don't give up just because of this one time. Get up first, and we'll talk about it later."

Xiaoguo has recognized the reality, and now she has nothing to do, she just hopes that Li Hong and the others can keep going.

Li Hong kept looking back while running. The sixth squad leader asked her to concentrate and maintain her physical fitness. Xiaoguo had already been eliminated.

"Squad leader, why did you come here suddenly? And Xiaoguo, is she still alive? Should we go back and save her?"

"I heard gunshots, and thought it must be from our team, so I came over to take a look, but I didn't expect it to be the two of you, don't look, hurry up, she must have been eliminated."

Li Hong is in a very complicated mood now, she is a bit afraid to face the sixth squad leader directly, because at the beginning it was obvious that they had reached an alliance, but when she got

out of the car, she forgot about it and ran forward recklessly, which was regarded as her abandonment No. 6 squad leader, and now Xiaoguo has not been rescued.

This incident is really ironic, now that the sixth squad leader ran over to save her, she didn't know what to say for a moment, she just ran forward with her head down.

When the two ran to a safe area, the sixth squad leader signaled that they could rest first. They hid in a haystack for a short rest and observed the terrain, because they were only focused on escaping just now, and now they are not sure in which direction they are. If they deviate Destination, is that troublesome?

Li Hong didn't speak for a long time, until the sixth squad leader threw her half a jug of water, "What are you thinking about? Concentrate, you can't just rely on me now, the two of us must cooperate."

"Squad leader... I, I really didn't mean it before. In that situation, I was really a selfish person. I just left you and ran away."

"What are you guys talking about? Besides, that situation was originally voluntary by me. As a squad leader and a veteran, I should have stayed to cover you. It's normal for you to run away."

"But at that time, I had already reached an alliance with you. I should have stayed and helped you, but I chose to run away in that situation. This is an act of traitor."

The sixth squad leader only felt it was funny when he heard this. This was not an act of traitors at all. They were recruits in the first place, and that was a subconscious reaction.

Seeing that the sixth squad leader didn't mind at all, Li Hong felt a lot less guilty, "If you really feel sorry, then work hard, show all your strength, and let's fight to the end together. "

Li Hong nodded, and the two replenished a little water, and after confirming the direction again, they continued to set off.

Along the way, they also encountered other scattered soldiers. Slowly, their team became more and more, and they formed a small team of five scattered like this.

Originally, Li Hong's previous plan was to go directly through the cliffs, so there was no need to waste time building rafts. But judging from the current situation, they had to build rafts. On the one hand, they had to follow the regulations, and on the other hand, even if it is to find another way, the cliff is too dangerous.

I don't know if the ropes on them are enough, and they are still in a state of weight-bearing. The sixth squad leader wanted to try it before, but as the number of people increased, she gave up her previous idea.

After a few people discussed, they still set off towards the seaport together according to the previous route, and then set up logging.

When they came to the seaport, they saw Zhao Min and others. Their team was also completely disrupted. Now they are cooperating with other people, and everyone is building a raft together.

Li Hong was instantly relieved when she saw the people in her class. Although some people didn't see them, at least she was familiar with the people in her class.

Zhao Min greeted the sixth squad leader, they came more than half an hour earlier than the sixth squad leader, so the raft has been built.

"Squad leader, let's go first. We wanted to take you with us, but our raft is too small. If we take you with us, we won't be able to leave."

Squad leader Jiu shook his hand to let them go first, don't put everyone together now, try to go first if you can.

Li Hong looked at Zhao Min and saw that people had set off one after another, and she was also a little anxious. At this moment, gunshots were heard from a distance, which meant that Jiang Xiaoyu and the others had already caught up.

"Squad leader, what should we do? Can we make it in time? If it really doesn't work, I'll leave a cover. I'll go over and hold them back now, and you guys should speed up."

"Don't talk nonsense, speed up your hand, we can definitely pass, if you run to cover now, we will only waste one energy."

Chapter 1236: please take a bath

As soon as Li Hong and the others finished building, they saw a white mist rising from the opposite side, which meant that someone was eliminated. They couldn't help speeding up and quickly pushed the raft into the water. Li Hong turned his head and saw Jiang Xiaoyu and the others rushing. Come up and shoot at them.

A few people rowed forward desperately. Normally, there would be no problem, but in this situation, Jiang Xiaoyu and the others kept shooting, so the whole person was flustered.

Just halfway through the journey, one of the team members on the raft fell directly, and she kept struggling in the water. The sixth squad leader saw her and pulled her, but it was precisely because of this that the center of gravity on the entire raft fell. Unstable, because this raft was originally made simply.

Xiaoguo and the others didn't dare to act rashly. Standing up casually may cause the raft to turn over completely. The sixth squad leader can only rely on his own strength to hold on to the team member and let her ride on the raft. It is too late to let her go. She came up, so she had to go there first and then talk.

"Let go quickly, you will kill us if you say this, don't you see that our speed is already very slow? They are already coming up!"

"What do you mean by that! Ahem..."

The team members in the water choked on several sips of water in a row. She struggled to climb the mountain as much as possible, but the more this made the whole raft unbalanced at all, and their speed became slower and slower.

No one wants to be eliminated. If it is everyone, this is also their survival instinct. No one wants to be left behind at this time. A few people quarreled for a while. This is because in the face of absolute interests, everyone began to compete for the final spot.

The sixth squad leader asked them to stop arguing and try to find a way to go over first. The current quarrel is meaningless, so she firmly held the team member by her hand to show her position, and the person next to her couldn't say anything more. In this case, we can only take her with us, but it will take longer for everyone.

There was no danger, they finally reached the shore, but Aunt Jiang and the others followed closely behind. The situation was very dangerous, and they could only keep running.

The most important thing is that they have used grenades before, so now they don't have any weapons that can cover them, so they can only keep running forward.

When Li Hong and the others ran halfway up the mountain, they had already seen the end point on the opposite side. Everyone was cheering towards them, but Jiang Xiaoyu and the others were also chasing after them.

The sixth squad leader stayed behind and said, "It won't work like this, I'll stay and cover you, you hurry up and go first!"

"Squad leader, no, you were like this last time, this time I want to stay with you, I will cover with you, one more person, more strength!"

This time Li Hong chose to fight together with the sixth squad leader. The reason why she escaped last time was because she was only a recruit who had just joined the army for three months.

The sixth squad leader will definitely not let her stay, she understands her mission, these recruits are just starting now, and she has been in the team for so many years, it is time to make her own contribution and leave the opportunity to the younger ones people.

"Don't talk nonsense, rush over to me, I tell you, I'm the most sure if I stay, I've been in the team for so long, I have more experience than you!"

Unexpectedly, Li Hong didn't say much this time, but found an ambush position, and chose to ambush with the sixth squad leader.

This time, squad leader No. 6 didn't have much to say, but thanks to Li Hong's help, they were completely suppressed in terms of firepower for a while, and Jiang Xiaoyu and the others also took cover from the side.

After all, in terms of strength, it would be embarrassing if they were accidentally eliminated, so both sides were very cautious, and then the sixth squad leader and Li Hong rushed forward at this opportunity.

Everyone watched a good show at the finish line, which really fully reflected the spirit of dedication. At this moment, everyone at the finish line was cheering for them. They chose to stand up for their teammates and stay to cover.

Wugang had looked down on them before, but now it is silently cheering for them. Everyone is looking forward to it. At this moment, Deng Jiuguang rushed forward. He couldn't lose face. Anyway, at least he had to stay. Just be alone, otherwise their commando team would be in vain.

The No. 6 squad leader used her as a cover to retreat, and she stayed behind. At this moment, Deng Jiuguang fired quickly, and when he was about to hit her, suddenly a figure rushed past the No. 6 squad leader and pushed her away.

It was precisely because of this critical moment that the sixth squad leader was not eliminated, but a puff of white smoke rose from the side, and the one lying on the ground was the female soldier she had been dragging in the water just now.

"Squad leader, what are you still doing in a daze? Hurry up, hurry up, such a good opportunity!"

"you..."

The sixth squad leader didn't know what to say for a while. She originally wanted to save everyone, but she didn't expect to be saved in turn, but she must cherish this opportunity. This was another teammate's exchange for elimination. She gritted her teeth , rushed to the finish line quickly.

Everyone was cheering, she stared blankly at the eliminated teammate, she stood up slowly, her whole body was wet, this is the cruelty of the elimination system, some people have regrets, unwillingness, and mistakes, But this can't be a reason, elimination is elimination.

The sixth squad leader walked up to the female soldier and looked at her apologetically. After all, she gave her the opportunity just now, "Why did you do that just now? You have already rushed over, why did you come back!"

"Squad leader, what are you talking about? If it weren't for you, then I would have been eliminated in the water, but you reserved these few minutes for me."

The female soldier showed her white teeth and smiled, "Squad leader, you have to participate in the competition well, and you must stay until the end. You carry my hope."

The sixth squad leader was a little choked up at the moment. She patted the female soldier on the shoulder and said that she would persevere. Qin Yuan will be lenient.

Everyone felt that this was really cruel for them because of the elimination of comrades around them, and some people quit the competition because of injuries. Some were sobbing softly, and some felt lucky to be able to enter the selection.

Unexpectedly, Qin Yuan didn't show the slightest sympathy, but instead gathered them together, "Do you feel cruel now? This is just the beginning. I can tell you that the next selection will only be more cruel, because I only want seven people, I just want a seven-member team!"

This is the second condition Qin Yuan raised. I heard that he was going to form a commando before, but I didn't expect that the number of people has been clearly divided this time. The seven places are really too few. According to their current elimination amount If you look at it, there are still more than seventy people.

The chance of this is really too small, and Qin Yuan made it very clear that the next challenge will be even more cruel.

"It's still too late for you to withdraw, but later on, it's not you who said you would withdraw, but selection based on conditions. Some of you may be injured, you may become disabled, and there are many other possibilities."

Everyone was a little surprised when they heard this. They thought it was just a commando selection, but they didn't expect these things to be involved. This is too strict!

For a while, some people had retreated. From now on, it has been so cruel. They have never experienced this before, and they have been chased by others. They don't know what will happen next. After Qin Yuan said these words, two people A female soldier stood up and abstained voluntarily.

But this is a game, some people think it's worth it, so they will stick to it, and some people think it's unnecessary, so they can naturally choose to quit.

Looking at the rest of the people, Qin Yuan showed a smile, "Congratulations to you for passing the first test, and then I will take you to take a good bath!"

Everyone didn't respond, what's going on? Does this mean you are going back? But seeing that the sun was about to set, they should be able to go back.

However, what everyone didn't expect was that Qin Yuan led the team to the sea area at the foot of the mountain, and then asked everyone to unload their burdens, and then asked Jiang Xiaoyu and the others to go forward and tie up their hands. back.

Everyone couldn't understand what was going on, Qin Yuan still looked amiable with that smile, but what he said next made everyone chill.

"I see that everyone has worked hard all day. This sweaty one is the most suitable for taking a bath. Look at our natural sea water. You can go down and take a bath later."

"Instructor Qin, what do you mean by this? It's not suitable to take a bath in this sea water, right? And why do you want to tie us up?"

"Well, of course it's a special way of bathing, also known as the escape technique, but I want to rename it and call it bathing training."

Everyone has black lines on their faces when they hear this, what is it all about, bathing in this sea, and their hands are still tied.

Before everyone's situation was clear, Qin Yuan blew a whistle, and immediately gave an order to let them all jump into the sea water. Under such circumstances, normal people hesitated and didn't dare to jump, but they didn't dare. Those who jumped were pushed and pulled by Jiang Xiaoyu and the others, and thrown directly into the sea.

Pushing them, Qin Yuan gave an order, "You must know that you are amphibious scouts. If you don't know how to swim, there is nothing you can do. Now let's see how your escape ability will be underwater. I will give you ten minutes underwater!"

They now need ten minutes to break free from the ropes as soon as possible, and then successfully go to the opposite bank. Everyone did not expect the second wave of elimination to come so soon. Today they have been selected like this for a day, and everyone is exhausted. Now He did it again, and his hands were still tied.

The sixth squad leader had already sweated a little before jumping into the sea water, but now he was stimulated by the cold sea water, his upper and lower teeth could not help but tremble from the cold, the others were not much better, and after falling into the water, everyone My first reaction was to struggle, but it was too difficult to have my hands tied.

Many people were choking on the water at the beginning, but they didn't find the trick. Jiang Xiaoyu couldn't stand it anymore. They had done this training before, but it was in the later stage. Qin Yuan just made it ahead of time.

"Stop struggling now, what's the use of struggling with your hands tied up? Hold your breath, remember? Hold your breath!"

Jiang Xiaoyu's reminders are already in place. The smart people have already started experimenting. Taking a deep breath, they began to stabilize their body and break free from the rope. The sixth squad leader was the first to break free from the rope. Fish scolded.

"No help is allowed, those who untie the rope, swim to the opposite shore by themselves!"

In this way, some people have untied the ropes to file a case, but there are still people struggling in the sea. Everyone thinks this training method is too weird. The people on the shore looked at everything in the sea in surprise, because this situation is too Dangerous, it is easy for someone to be in danger.

"I don't know what they think, this is completely a joke with human life, I must warn them absolutely not to do this!"

"What are you talking about? What is the purpose of our coming here? The purpose is to become stronger. Do you think waste is needed here!"

Zhao Min had already landed, and she looked coldly at the soldiers beside her who were still complaining. On the contrary, she still felt that this training method was very exciting, which meant survival of the fittest.

However, Qin Yuan and the others didn't completely ignore the situation when they saw something was wrong, Deng Jiuguang and the others would rush down first and fish people up first.

Li Hong is strong in other aspects, the only one is water. She used to be afraid of water, but after knowing that she will come to the Marine Corps, there is basically no problem for her to overcome it, but now her hands are tied, which has increased her previous fears.

She kept struggling in the water and couldn't go down. She could only rely on her body's strength to help her up, but this was very exhausting of her physical energy, and she was completely exhausted after a while.

The sixth squad leader and other comrades have been cheering them on the shore, telling them to seize the opportunity and dive as soon as possible, otherwise, the longer it takes, the less physical they will be.

"Li Hong, hurry up, I've seen your diving speed before, you can do it!"

Li Hong has already choked on several mouthfuls of sea water, she can indeed do it, but that is in the swimming pool, in the training ground of the swimming pool, but she has never tried it here.

As time counts down, there are not many people left in the sea. Except for some people brought up by Jiang Xiaoyu and the others, the remaining people probably have no hope. Jiang Xiaoyu and the others are ready to jump down at any time Fishing people.

Li Hong felt that she was about to suffocate. She no longer had the strength to go directly to the seabed city. At that time, the rope in her hand was still stuck, because she was very panicked now.

Chapter 1237: Elimination of Escape

She kept shaking her body, trying to use the strength of her shoulders to break free from the rope, but now she was very nervous, such strength was not enough to untie the rope, and instead made her body sink quickly.

Long Baichuan on the bank saw this scene and couldn't help but feel a little nervous. No matter what, he couldn't train the soldiers to do anything. He hurriedly asked the people next to him to get ready and go to the rescue at any time.

"Wait and see, I think she can hold on!"

Long Baichuan didn't act rashly either, everyone was staring at the water surface intently, other soldiers gave up, and some speeded up to break free and swim over, now only Li Hong was still struggling at the bottom of the water.

Long Baichuan raised his watch and looked at the time and three minutes had passed. Generally speaking, the diving time is about three minutes. For the assessment of the recruits before them, as long as they can hold their breath underwater for 3 minutes and 35 seconds, they are considered qualified.

"Three minutes have passed. If I drag it on, I'm afraid it will be dangerous."

Qin Yuan frowned slightly. He is betting now. He thinks that Li Hong will be able to do it. This soldier has a strong explosive power from the beginning. If she can use this opportunity to force her, maybe she can overcome the water. of fear.

"In case something happens, none of us can take responsibility. After all, they are recruits who have only been in the army for three months. Will this be too strict for them?"

"Dragon Team, don't worry, I'm still sure. If something goes wrong later, I will definitely go out to save people first."

As soon as Qin Yuan finished speaking, he saw a head popping out of the opposite water. Li Hong swam up quickly, panting heavily. She finally succeeded, and she quickly swam towards the shore.

It was not easy for her to overcome her fear of water. In this situation, her inner fear was even stronger. It was only at the last moment that she thought of the sixth squad leader. With the support of this intense training, she quickly swam up.

She not only thought of the sixth squad leader, but also Xiaoguo, and the female soldier who was eliminated in the end to save the sixth squad leader. They all belonged to her own thoughts.

After this underwater escape training, another group of people were eliminated, because they will face the cruelest environment in the future, so from now on it is necessary to see if they are talented, although they have not undergone such training before.

Unexpectedly, at this time, among the eliminated female soldiers, there was a female soldier who was emotional and rushed out of the crowd.

"Let me tell you, what you are doing is very unruly, it is simply messing around, we are just recruits who have just entered the army for three months, and such underwater training has not been touched at all, you just tied us up and threw us into it. "

The recruit was very agitated, she was coughing violently, she felt that it was very unfair to them in this situation, there was no humanity at all.

"Then what do you want to express? Have you finished speaking? After we finish speaking, we will lead the team back."

"Do you really think I'm just complaining? I want to tell you that I must go to the leader and reflect the real situation. You are just abusing inhumane training!"

Qin Yuan only found it funny when he heard this. He pointed to Long Baichuan behind him, "Aren't you looking for the leader? The leader is right behind, go!"

During the whole process, Long Baichuan followed him all the time, but at this moment, Long Baichuan did not make any rebuttals. Obviously, he acquiesced to this kind of training. The female soldier said for a long time that no one responded to her, and collapsed on the ground , cried loudly.

This kind of training can only be regarded as the beginning. Compared with the tasks they will be exposed to later and some more cruel realities, this is really nothing. They come to serve as soldiers, especially if they choose to enter the ion special warfare commando team. This squad was meant to carry out the most special missions on the front lines.

If they can't even deal with the most basic danger now, they won't be able to deal with it later. He finally understands Qin Yuan's good intentions, which can arouse the greatest fear in people's hearts under such circumstances. Throw it directly into the sea, and still have your hands tied.

In this situation, most people will show their most authentic reactions, such as now, but once they get over this fear, there will be no problems later.

Qin Yuan also screened according to the general environment. From the beginning, they fought together, and now they are conducting individual ability assessments.

Everyone once again witnessed the cruelty of elimination, so everyone went back together, but this was just the beginning, as Qin Yuan said, from the moment they agreed to register for selection, everyone had to follow his orders action.

Just returned to the camp area, everyone is very tired now, after such a day of tossing, being chased in the jungle again, but Qin Yuan still has no intention of disbanding, everyone just stood on the field like this.

"I know that after today's training, everyone is already very hungry. In order to prevent you from working so hard and queuing up to eat in the cafeteria, I specially brought the food to the playground, and everyone will queue up to eat later."

Many people felt some comfort after hearing this, and felt that Qin Yuan was at least a little human. After receiving such intense training, they could finally have a meal.

However, their thinking was too simple. After two minutes, Jiang Xiaoyu and the others walked over with two large buckets. Everyone was dumbfounded when they saw the food inside. What is this? The other pot is full of white flour steamed buns, and next to it is a pot of cabbage soup.

You must know that the food standard of their Marine Corps is still relatively high, and it is rare to reach this level. Basically, there are meat and vegetables, and now there is only one head and one cabbage soup. Who eats the clear soup with little water? go down? Plus they have such a high-intensity training today.

"I've already brought you the meals for today, but well, the quantity of this item is limited, and those with strong abilities can certainly eat more."

What does it mean? Everyone was stunned, everyone was wet and dripping from playing, and now they were hungry and cold, and as night fell, the temperature began to drop.

Some people were already shivering from the cold, but Qin Yuan still had no intention of letting them start, and with this little food, it was obviously not enough.

Long Baichuan was very interested, this kid could always play some new tricks, he stood by and silently watched Qin Yuan's training.

He waved his hand while introducing the rules. Deng Jiuguang walked out, and after a while, he pushed a small cart over. Braised pork.

These are simply two differences. Normally, some girls who lost weight might not be able to eat, but facing the female soldiers who have been training for a day, they can't care about these things, they are already hungry.

"You have also seen that the food on both sides is different now. Eat according to your ability, but the quantity is limited. Now start with 100 push-ups as a base. After 100 push-ups, if you think you can persist, then continue to do it. "

What does it mean? Everyone was dumbfounded, and it took a long time for everyone to realize that this is an unlimited physical fitness, 100 bases, if someone finishes 100, they can choose to eat steamed buns and cabbage soup, but each person only Can have a steamed bun, a bowl of soup.

If you feel that your physical fitness is fine, you can continue to challenge. The second stage is 300 push-ups, then you can eat braised pork.

In the third stage, more than 300 people directly ate lamb chops, and Qin Yuan had already set up a fire to roast the lamb chops beside him.

"You have to know that today's society relies on ability to eat after all. Those who are able work harder, what to eat, and how good they want to eat, it all depends on your own ability. I just don't know if I still have my lamb chops today. There is an opportunity for some of you to eat."

Everyone swallowed their saliva non-stop, and the meaty smell of the lamb chops spread over. At this moment, everyone couldn't care less, and started to do push-ups.

If these 300 push-ups were done according to the usual situation, they could do it with more effort, but the crux of the problem is that they have already gone through a day of training today, and their physical fitness has reached the limit.

Everyone has no choice but to do 100 push-ups. Some people can't hold on to these 100 push-ups. Jiang Xiaoyu supervises someone to finish 100 push-ups. He really can't hold on, so he chooses to go to the side to eat steamed buns , drink cabbage soup.

Zhao Min has been insisting. She feels that her brother's belief is also supporting her. No matter what, she can't let her brother down.

Now it's not just a question of what food to eat, but the rest of the people started to compete with each other. The third squad leader saw that the sixth squad in front of him also gritted his teeth and insisted, isn't it just 300? Absolutely no problem.

Li Hong was definitely fine in this physical fitness, but during the previous escape training, her shoulder was strained, so now it is very difficult to do 100. After she finished, her shoulder couldn't help it. trembling.

Seeing its condition, Qin Yuan walked over to let her get up, "Don't force yourself too much, your physical strength has reached a certain limit, and today you have broken through the problem of not being afraid of water."

"But..."

"Needless to say, there will be other training later, you can't completely break down your body at this level!"

Li Hong nodded when she heard this, then stood up, and the health worker next to her also came forward to help her check the situation on her shoulder, and then gave her medicine.

When she walked past the sixth squad leader, she silently said cheers, then squatted down to the side and began to eat steamed buns. Her hands were trembling even holding the steamed buns. It seemed that Qin Yuan was right.

However, the hygienist checked her and judged that it was just a little muscle strain, which should not affect tomorrow's training, as long as she continued to take the medicine later.

This situation has little effect, and she was relieved when she heard this. No matter what, she will stick to it later.

At this time, someone in the team had already done 300 push-ups, came over and began to eat braised pork, one mantou per person, one bowl of cabbage soup, it must be enough to eat, everyone can only silently look at the meat-eating people next to them.

But at this moment, there are still some people on the court who are still persisting, the most obvious ones are the sixth squad leader and the third squad leader, they still refuse to admit defeat, Zhao Min really can't hold on anymore, she shook her head, and then backed out.

For her current physical condition, 300 has already reached the limit and if she persists, it is estimated that it will cause more damage.

"Squad leader, why are you doing this? You can eat meat. Look at the question he set up. He doesn't want us to eat lamb chops at all. This is completely released on purpose to confuse us. Hurry up and rest early Bar!"

"Don't talk nonsense, let me make a decision first, don't let other people say it for me!"

Zhao Min originally wanted to advise them, but seeing their attitude, he didn't want to say anything, so he just walked out silently, and the people around the playground were already cheering for them, after all, they had already done more than 300.

The two of them were completely soaked in sweat and mixed with the sea water from before, it was very uncomfortable, but even so, the two of them still did not give up, and the third squad leader gritted his teeth and persisted.

"I said Sixth, do you really mean that you must be better than me in everything!"

In order to maintain his physical fitness, the sixth squad leader didn't say anything to him, but just silently did push-ups. In the end, the third squad leader did 368 push-ups. He really couldn't hold on anymore and fell heavily on the ground.

The sixth squad leader achieved 370, and the gap between the two was two. They were lying on the ground gasping for breath. At this moment, the third squad leader only felt dizzy for a while, because his physical energy had been exhausted to the limit.

At this time, Qin Yuan came over, "It really surprised me, it's very good, although some people have done more than 300, in this case, your physical fitness has successfully challenged."

Jiang Xiaoyu also directly handed over two bottles of water for them to replenish a little water. Zhao Min silently watched Qin Yuan talking to them, feeling uncomfortable.

"I really don't know what they can compare to. This is too exaggerated. Isn't this just the beginning? Then aren't they engaging in introversion? If everyone does the same, then the training will not be too difficult in the future! "

"Who knows? After all, he is a veteran who is different from us, so it is normal for him to have a comparison."

"Tch, what kind of veterans do I see, then the other squad leaders in our team should be like them."

Zhao Min's appearance is really that of being unable to eat grapes, saying that the grapes are sour, eating the braised pork in the bowl with big mouthfuls, and looking at the two people in front of him indignantly.

Until now, today's training is considered to be completely over. After eating, Qin Yuan was kind enough to let them go back to take a hot bath, but after all the tossing around, the lights have already been turned off.

Chapter 1238: 1 bag of cookies!

Zhao Min had just climbed into bed, and it rang after the lights were turned off. Everyone had no choice but to fumble and start tidying up, "Oh, I'm going, I didn't expect to be so tired, I feel like my leg is not my own, and I can't even lift it up gone."

"Don't talk about this, it's too fast to turn off the lights today, my hair is still wet."

"I said Xinyi, why are you still in the mood to fix your hair? Isn't it all wet today? Why don't you hurry up and go to bed!"

And this is just the beginning, everyone is thinking that they don't know what is waiting for tomorrow, they just want to go to sleep quickly, at this time, the sixth squad leader also came in after washing, she did not open the quilt, but put the quilt Pack it up next to your bed.

Li Hong felt strange when she saw it, and lowered her voice and asked, "Squad leader, what are you doing? Aren't the lights off now?"

"If you want me to tell you, you are really naive, do you really think he just let us rest so simply?"

Li Hong thought about it, judging from today's training, it is estimated that they will torment them in the future, and Qin Yuan came from the special warfare brigade, and is famous for tormenting people, maybe there will be troubles in the middle of the night. moth.

The sixth squad leader also made preparations in advance, worried that the time would be delayed, and in case of an emergency assembly, she could rush out as soon as possible.

Li Hong thought about it for the same reason. After all, they have only been in for five or three months, and they are still not proficient in many things. Since they are not as fast as others, they should prepare in advance.

She also started to pack the quilt. At this time, the third squad leader who was sleeping on the opposite side got a little impatient, got up, and said loudly, "Have you forgotten the usual rules? You can't talk after the lights are off, you guys It's so loud that you can't sleep."

Hearing this, Li Hong was too frightened to make any other noises, tried to slow down her movements, and silently tidied up the quilt. After all, it was her own fault anyway, and she had indeed turned off the lights, and she was resting towards others.

The sixth squad leader shook his head at her, telling her not to mind, the third squad leader is that kind of person, he thought it was all right, but at this time, Zhao Min suddenly said something weird,

"The third squad leader, after all, they are preparing for the assembly at that time. You see, they have not started yet, and they are starting to introvert. Let me tell you, if the training in the future becomes more and more difficult, it will definitely be them. What a ghost."

What kind of nonsense is this? They didn't work hard themselves, and they still complained about others who worked hard. The sixth squad leader didn't bother to argue with him. He lay on the bed with his eyes closed and didn't speak.

"That's right. After all, everyone wants to be the first in everything. We can't compare. Forget it, let's go to sleep!"

The sixth squad leader clenched her fists. She wanted to refute, but she felt that it was unnecessary. There would be no good end if Qin Yuan and the others were recruited at that time. It would be better to preserve her strength.

After Li Hong collected the luggage, she quietly lay down on the bed to sleep. With their reminders, the others were prepared, and it was estimated that tonight would really not be peaceful.

Sure enough, in the middle of the night, the emergency whistle blew suddenly, and the sixth squad leader, a carp, jumped up straight from the bed, then touched the backpack in his hand, while wearing shoes, while shaking the person who went to bed.

"Emergency assembly, everyone hurry up, hurry up!"

In this way, everyone got up in a panic. Some people started to complain, some people were looking for clothes and pants.

"This is really tossing people. After a day of training during the day, I will not let it go at night. What kind of emergency assembly are we going to do?"

"Where did anyone see my shoes? Whoops, the socks are gone too!"

"Don't panic, hurry up and prepare your things!"

After the sixth class leader finished speaking, she went downstairs first. She couldn't waste her time because of other people. Li Hong also followed her. Li Hong gave her a thumbs up while running. I have to say it was really unexpected Like a god!

"Squad leader, it's really great to follow you, how do you know that they are going to gather urgently!"

"This is experience, learn from it!"

The two first came to gather below, Qin Yuan looked at them with a smile, and when the others ran down, he saw that many of them hadn't even put on their clothes yet, and looked embarrassed.

"Those clothes that don't meet the specifications, all of them will be sorted out roughly before entering the team!"

In this way, they were given a few more minutes to tidy up. After the whole team stood up completely, Qin Yuan said at this time, "The air is very good tonight. You can smell it. The lamb chops I grilled in the middle of the night are delicious." The taste is still a little bit now, is it fragrant or not!"

What the hell? Everyone is not calm when they hear this, what is the situation? Toss people up in the middle of the night and let everyone smell the air.

Zhao Min was so angry that her previous good impression of Qin Yuan was completely wiped out, he was not what she thought she was at all, this guy just likes to torment people so much.

After finishing speaking, they were asked to go back to rest. Although everyone was unwilling, they still dragged their weary steps upstairs.

After going up, Jiang Xiaoyu came out from behind mysteriously, "Brother Qin, play now, or later?"

"Silly boy, they are probably just lying down when they go up now, wait for another 40 minutes!"

Jiang Xiaoyu originally wanted to say a good word for these female soldiers. If they say it now, they can rest for a while. Judging from the current situation, they probably can't.

I can only smile helplessly, and pray for them in my heart, hoping that they can persevere. This tossing back and forth, to be honest, is really annoying.

After everyone went up, they felt that there should be no more troubles tonight. After all, someone blew the emergency whistle two or three times a night, so everyone went to sleep at ease, until 40 minutes later, the emergency whistle sounded again.

The sixth squad leader jumped up once, and everyone hurriedly began to put on their clothes again, "Hurry up and don't sleep, gather together!"

"Does this still allow people to rest? How many times will I have to toss this night, and there will be no end!"

Although everyone is complaining, the speed in their hands is also improving. The second time is obviously much better than the first time. The speed of the second time is very fast.

It's just that at this time there was a female soldier who simply lay on the bed. Anyway, even if the sky fell today, she would not be able to get up again. Isn't this purely for fun?

"Lele, get up quickly, when is this? Everyone has already gone down, so get up and go."

"Whoever you are going to go, I won't serve you anymore. What are you doing every day? I want to sleep, don't worry about me."

Seeing that she couldn't persuade her, the female soldier could only quickly run down. After everyone had assembled and started counting, Qin Yuan realized that there was one person missing.

"Why is there one person missing? What's the situation?"

"Report... her, she's sleeping on it!"

"Sleep! Hehe, it's really interesting. It seems that someone is so courageous."

There was an ominous premonition in everyone's heart, and Qingyuan strode forward. At this time, Zhao Min and the others were proud of themselves, after all, there was excitement to watch.

"What do you think Instructor Qin will do with that soldier?"

"Who knows? It's none of our business anyway, just watch the fun together. I'd like to see what the tough instructor Qin looks like."

As soon as everyone finished speaking, a quilt was thrown directly from the window, and then a female soldier quickly ran down the stairs, followed by Qin Yuan.

Qin Yuan's expression is very serious. You must know that the emergency assembly call is an order for a soldier, a soldier, and he must be there on call. Even if he is taking a shower or going to the toilet, he must race against time to reach the assembly point. .

The female soldier was criticized loudly by Qin Yuan, but she just lowered her head and remained silent. Originally, she wanted to be lazy, but Qin Yuan didn't give her this chance at all, and lifted the quilt without saying a word.

She was completely shocked by Qin Yuan's aura. Qin Yuan raised his head and glanced at the people around him. Some of these soldiers were tired, some were puzzled, some were gloating, and they were watching the excitement.

"What are you guys doing? Do you really think I'm playing with you from trip to trip? You feel like you've been called up now, but I have to get up from you too, do you understand? And them!"

The main reason is that they didn't take this attitude very seriously at all. Qin Yuan pointed to Jiang Xiaoyu and said, these female soldiers couldn't help lowering their heads when they heard this.

"Remember, when you come here to serve as soldiers, you must face up to your attitude, especially if you want to enter the selection team I mentioned. My team is very strict. First of all, you must pay attention to your attitude!"

Then Qin Yuan issued an order that shocked everyone, asking everyone to start leapfrogging around the playground.

"This is a punishment for you. If one person makes a mistake, all of you will be responsible. From now on, although it is not considered a real training in the strict sense, I want you to develop a sense of teamwork now."

Everyone was very angry when they heard this, and they all looked at the late female soldier. It was because of this guy that they were all punished.

The female soldier was also stunned, she didn't expect such consequences, "Instructor Qin, this has nothing to do with them at all, I caused this incident from the beginning to the end, why should everyone be punished!"

"What I said just now is very clear. If one person makes a mistake, all will bear it. Always remember that you are a collective. You come to the army to represent not an individual, but everyone. Understand!"

It was the first time that everyone felt that Qin Yuan was so serious. He was not joking at all, and what he said was very powerful. No one dared to stand up and refute in time.

At this time, everyone felt that he was really an instructor. No matter how reluctant everyone was, they could only squat down and leapfrog. This female soldier didn't know how to explain it. Now she is like an enemy in everyone's eyes. .

In this way, in addition to the overall leapfrog, there was an additional 5km load, and their training began again before dawn.

Some people also chose to bear it silently. After all this was done, everyone was given a bag of milk. When everyone was resting, Qin Yuan announced today's elimination items.

"Remember, this may be the last food you can touch today, but if you can eat others, then it will be fine. From the time I speak, to the third day, three days and two nights in the wild The long-term training begins."

Everyone was in a state of bewilderment, they all stopped what they were doing, and looked at Qin Yuan, he was not joking, he was relying on this bag of biscuits for three days, it was simply a joke!

After Qin Yuan finished speaking, he took out a map from the back backpack, "In the next three days, you will enter this primitive jungle. You only have five minutes to remember this map. Of

course, the location of the end point is also very easy to find. Yes, I will wait for you at the finish line."

Everyone felt that there was nothing good when they heard this. Every time he said yes, it must not be so easy. In addition, if they heard correctly, the bag of biscuits in their hands was actually the last one they ate.

At this moment, some soldiers couldn't bear it anymore, and quickly asked: "Instructor Qin, what did you mean just now? Are we not distributing supplies? This is three days!"

"That's right. This is a big elimination. In this primitive jungle, you will still be chased, and the number of places is limited. I only want 30 people!"

The number of people is smaller each time, and the conditions this time are only 30 people. You must know that their number is still close to 90. This time we have to eliminate so many people, and the more important thing is that the conditions are very difficult during these three days. Someone was chasing, and they didn't have any material supplies.

For a while, everyone silently put down the milk in their hands, and Jiang Xiaoyu couldn't help laughing when he saw it, and then reminded: "If I were you, then I would definitely choose to eat the biscuits directly, after all. Do you think that no one will **** the food from your hands along the way?"

What does it mean? Li Hong listened to this passage with vigilance. Does this mean that their comrades-in-arms can **** resources from each other? If so, it would be terrible, not only to guard against external enemies, but also to face internal competition.

However, Jiang Xiaoyu didn't say too much. After all, people's hearts can't stand the test. Under certain circumstances, anything can happen, and there are too many things that can happen in three days.

After finishing speaking, Qin Yuan and the others began to distribute the supplies. They still had the same equipment as before. This time they didn't make any preparations, they just got into the car, and then set off in a daze.

Everyone was very nervous, and the next thing to face was unknown. Some people chose to eat all the biscuits in the car, while others hid them silently. No matter what, personal choices are different.

And this time there is competition for places, but there are still groups. After all, if you partner together, you will run farther.

Chapter 1239: Elimination of limited places

Li Hong still chooses to stand with the sixth squad leader. After the last run-in, the trust between them has become higher. With the previous cooperation, the future should not be a problem. Next, they will face even greater challenges. We all know to choose a reliable helper.

While the two were discussing, another female soldier came over. This person was Xia Ying from the third class. This female soldier didn't talk nonsense, but said lightly,

"If I join you, I will have no problem with shooting and assault. You can investigate my performance."

This female soldier was quite indifferent, and she didn't say much during the whole process. She reported her grades in the class as soon as she came up, and it sounded very good. You must know that a recruit can basically achieve 90 points in shooting every time. The above is already excellent.

Xia Ying is a relatively simple person. After talking about the grades, let's look at their reactions first, "You don't have to answer me in such a hurry. If you don't want to cooperate with me, you can tell me directly that I don't like being judged." At once."

This female soldier has quite a personality. The sixth squad leader looked at the person in front of him and felt that he could not blend in with anyone when he saw the original self when he just came to the squad.

"That's how it is. The three of us form a temporary team. We will help and support each other along the way."

Xia Ying nodded, and then stood silently by the side. At this time, two more female soldiers came over and wanted to join them, but they were both rejected by the sixth squad leader.

After the two female soldiers had left, Li Hong asked a little puzzled: "Squad leader, we actually don't have many people now. If two more people come, it will be of great help to us."

"You don't know much about the situation here. You have to know that we are facing a challenge of elimination with a limited number of places. You may be fine at the beginning, but in the end, anything may happen to everyone because of a number of places."

Li Hong shook her head, she didn't understand very well, but no matter what, she still listened to the sixth squad leader first, and now they have been pulled to the destination, after six hours of bumpy cars.

Everyone looked around after they came down. Now everyone is more vigilant than the first time, and they all stared at the surroundings vigilantly. Fortunately, Qin Yuan was also beside him. He did not rush to start, but introduced the rules again.

"Remember that the quota is limited this time, no matter how strong you are behind, once the quota in front is full, all the people behind will be eliminated."

At this time, someone in the team raised their hands and asked questions, "Instructor Qin, you are talking about a three-day period, so what if someone arrives earlier?"

"This comrade asked very well. Why did I say that it would take three days? That's because I saw it based on actual measurements. There were various dangers along the way. During these three days, You need to organize it properly, otherwise there will be no time."

While Qin Yuan was talking, Jiang Xiaoyu and the others distributed this map to everyone, which was a very crude map. He roughly pointed to the location of the end point and there were a few more representative targets.

The most obvious one is a triangular-shaped hillside on the left, but such hillsides are too common. The end point is next to the hillside, and there is a bamboo forest at the foot of the hillside.

They need to memorize all the target points in this map within five minutes, but there are so many that one person can't remember them at all.

The map is messy, and many routes are messy. They need to find the shortest time and remember the road signs along the way.

The sixth squad leader thought for a while, and then pointed to the finish line, "Well, if I memorize it alone, I won't be able to memorize so much at all. The three of us will be responsible for part of it. In this way, everyone's memory will be deepened. These three aspects come together."

I have to say that the sixth squad leader's method is really good, so that they can only remember the part they need to remember in a short time.

However, there is also a problem, which is to ensure that none of them will be eliminated, otherwise there will be missing situations, and the method used by the sixth squad leader is quickly borrowed by other formed teams.

After all, it is too difficult to memorize the whole map in five minutes. Qin Yuan looked at the sixth squad leader with interest.

"They are somewhat beyond my expectation, and they are already able to work as a team now. I am very optimistic about this group."

"Brother Qin, it's just a group of recruits. I'll see who will be chased by us later."

"I think you better not underestimate this group of recruits, you will have to suffer."

Balang smiled and didn't take it seriously. After all, he is also a veteran and has participated in various competitions. He has participated in many selection competitions like this, so it is not a problem at all.

They are also the main team responsible for the pursuit this time, and they need to keep chasing and eliminating them in the course of these few days.

In addition, the three of them quickly memorized their respective parts, and the sixth squad leader confirmed with them again, "Everyone should be fine now, right? As long as you remember your own part, it should be easier."

Both of them nodded. At this time, Jiang Xiaoyu and the others began to go down to recycle the map, and asked everyone to close the map and put it in front of them.

"Attention everyone, the time is up now, no peeking is allowed, otherwise it will be considered cheating and you will be kicked out of the team."

The few people who wanted to take a peek could only silently put the map away. A female soldier next to her was so anxious that her forehead was covered with cold sweat. Some people are very good at memory. In this case, the advantages are revealed. Because what love needs is a special combat team, things like this memory need to be tested.

The basic observation of the map, as well as the memory recognition of the target, these are the foundations, and there are too many things for them to learn later.

For these recruits, the training they are receiving now is also the initial stage of memory training like this. If they are performing missions later, they need to quickly memorize the target and the target point in a short period of time, and then move forward.

After all, as soon as they get the task, they need to destroy the target to avoid omissions and leaks.

This point is similar to what Qin Yuan and the others did in the Special Warfare Brigade. The difference is that Qin Yuan has a superhuman memory ability, so there is basically no problem, and he can meet the standard of photographic memory.

Zhao Min was also a little worried. In order to learn from the previous lesson of too many people, this time they only organized five people, and the rest of them rejected their application to join the team.

The last time they had too many people and a big target, they were quickly locked on and were chased all the way to the back before being thrown away. So this time they tried to reduce the target as much as possible. Five people are almost enough.

Everyone looked at the primitive jungle in front of them, everything was unknown. Half an hour after they entered, Jiang Xiaoyu and the others would also enter. Now each of them has a flare gun, which is used to call for help. , After all, you will encounter various dangers in the primitive jungle.

Except for this bag of biscuits, they didn't have any food supplies, including water supplies, which everyone didn't expect. No matter what, the basic fresh water should be given, but there was nothing.

There are soldiers in the team, and they also have doubts about this aspect, "I would like to ask the instructor if there is no food supply, then it is understandable, but if there is no water source, it will be troublesome. You must know that if we do not drink water, we are likely to appear." Symptoms of dehydration."

Before Qin Yuan could answer, Balang next to him sneered and said, "Do you really think it's a play house? Then do you want me to prepare a children's meal for you and call a nanny?"

Balang's words made the people around burst into laughter. He felt that these female soldiers had a lot of things to do. When training male soldiers before, no one asked such questions. After all, they were going to join the special commando team.

At this moment, a person suddenly grabbed his shoulder, he was completely unprepared, and fell to the ground accidentally.

"Who? Who attacked me?"

Turning his head, he found that it was Wu Yun. Wu Yun looked at him seriously, and she caught him again. This guy always has some prejudices against female soldiers every time.

"I said, what do you guys think? We are all comrades and comrades-in-arms. Do you think we female soldiers are really so inferior?"

"Hey, no, how dare I say that you female soldiers are inferior to others, I mean these recruits must be incomparable to you."

Wu Yun didn't respond, snorted coldly, stepped forward and looked at the recruits and said, "You guys have to be more aggressive, although I'm also here to chase you down this time, but I hope you will show your strength during this process." Ability, don't be looked down upon by some people!"

As soon as these words were said, the morale was instantly boosted. Everyone secretly made up their minds to fight hard. Although this process will be very difficult, this time they have to prove that they are no worse than any male soldiers, and prove their strength. ability.

Although another commando joined in this time, the pressure began to increase again, but they have become accustomed to it. The road ahead is already very difficult and dangerous. There is a saying that those who stay must be excellent.

At this time, Long Baichuan was a little curious. He didn't know why Qin Yuan thought that he could select 30 soldiers from among these soldiers. It was indeed too difficult with such strict conditions.

"If I remember correctly, you did the selection training for Jiang Xiaoyu and the others even if they had been soldiers for a year. Wouldn't it be too difficult? I don't think 30 people can reach this level." number of people."

"Dragon team, why don't you have confidence in them? I think sometimes female soldiers are more explosive than male soldiers, and they are more persistent."

"I don't think there is any difference in this, but I think such conditions are a bit too strict. I am worried that the number of people may not be so large, and more people may be eliminated."

"Then we'll wait and see. If there are really more people eliminated, wouldn't it be better, and there will be more stringent eliminations later."

With Qin Yuan announcing the official start of the game, everyone started to rush into the jungle, because now they must hurry up and run forward. In half an hour, Jiang Xiaoyu and Wu Yun's commando team will rush in and attack them immediately. hunt down.

This time, Li Hong followed the sixth squad leader closely, and Xia Ying followed behind her. They memorized the direction of their own maps. At the beginning, many people ran together. They were able to see other comrades, of course very quickly, because everyone My own line is different, and everyone has differences for a while.

The first part was written down by Xia Ying, because this is also the deployment of the sixth squad leader. The more capable people must be kept at the end, so that they will have more hope for the entire team. She asked Xia Ying to remember the first part, and Li Hong to remember the second. part, she memorized the final part of the end point.

So they kept running with Xia Ying. Of course, they soon found that there were fewer and fewer people around, but it was also because the terrain of this jungle was very complicatedAfter entering, there were no roads at all. They were all dense forests, and their steps slowed down because the ground was very slippery.

"Xia Ying, is your path correct? Why are there so few people? The rest of them didn't come up."

"I can guarantee that there is no problem for me to remember. It's just such a short distance, can I not remember? Besides, the forest is so big, we can't all gather together!"

"you!"

Originally, Li Hong asked out of curiosity. He must have been worried that they might go the wrong way. If they went the wrong way, then all their efforts would be in vain.

But seeing Xia Ying's attitude, she couldn't say much. The two followed her all the time. At this time, the sixth squad leader also heard movement from behind, and turned his head to find that it was the soldiers brought by the third squad leader.

It seems that their route is indeed correct. The third squad leader is very smart, and it is impossible to get the route wrong. It's just that the third squad leader speeds up and runs forward with people after seeing her.

"Let's all try to run as fast as possible, so as to save some people from following us to take advantage of it, and don't let others know our route!"

When the third squad leader passed by, he deliberately said such a sentence in a sly manner, and he raised his volume for fear that others would not hear him.

Li Hong was a little aggrieved. Is it necessary for the three monitors to do something? "These three squad leaders are too much. Besides, who cares about following them? Of course we have our own route. I'm afraid that following them will make a mistake!"

"Forget it, there's no need to argue with them, besides, this is what they think, we just go our own way."

This is just the beginning, some of them are competing, and it may be more cruel in the future, because the number of places is also limited.

Chapter 1240: find coordinates

Zhao Min and the others were also following behind. They were not far apart, but only a few hundred meters away, because they moved at different speeds.

It's just that they deviated from the direction very soon. According to the direction they wrote down before, they can walk straight ahead, which is the most time-saving, but after entering, all directions have completely changed. It is a challenge to go out here. question.

Zhao Min felt that she couldn't see any shots in front of her at all. She also looked at the map at first, and she also chose the same method as the sixth squad leader, so that everyone in the team memorized part of it.

"This is really strange. Why can't I see any coordinates? We estimated that they ran for more than 20 minutes, and they will catch up soon."

"According to our speed, we should be near the first coordinate point soon, but why can't we see anything now?"

The people in the team also felt very strange. They didn't know when they deviated from the direction unknowingly. This is very scary, because now they only have a compass, but there seems to be some kind of compass in this primitive jungle. This kind of magnetic field will affect the judgment of the compass and there will be a little deviation.

The sixth squad leader had already discovered this situation at the beginning, so they did not rely on the compass, but judged the north-south direction based on the display of the leaves.

So the sixth squad leader ran to the forefront smoothly, passed through the jungle before and came to the first coordinate point, the first coordinate point was a huge stone, and three stones were placed on it to form a An arrow, it's just a simple signpost.

As soon as they reached the first coordinate point, they heard gunshots from behind. After all, it is relatively strong to penetrate the body in this jungle.

It seems that the commando team has already taken action, and they must speed up their pace. Although the primeval jungle is relatively large and they cannot be found for a while, everyone still moves forward one after another.

"It's okay, don't panic. We just reached the first target point. Each of us has memorized three target points. Don't panic. You must remember the route accurately and walk slowly."

If there are other mistakes in the panic, it is very likely that they will have a detour, and any situation in this primitive jungle may happen.

The three of them walked forward in an orderly manner. With the comfort of the veteran of the sixth squad leader, the two of them walked more steadily. Xia Ying kept thinking about the route in her mind.

On the other side, Zhao Min and the others were not so lucky. They walked for a long time, and then heard gunshots, which indicated that Jiang Xiaoyu and the others had already entered, but their first coordinate point had not been found yet, indicating that They've gone completely off course.

They felt that they had been walking in circles for more than ten minutes, when a female soldier in the team suddenly stopped them.

"Don't go away, we are coming back again, this is where we rested just now!"

"Why do you say that this is where we rest? Everywhere looks the same here, why do I feel like we've been moving forward."

"Nonsense, when I was resting just now, I kept an eye out and carved a knife on the root of the tree with a knife, look!"

Everyone hurried forward when they heard this, and they saw a shallow knife mark on the root of the tree. They didn't expect that they had been detouring for more than ten minutes, because the echo in the jungle was relatively strong, and they even felt that the gunshot was in their ears. side.

Under this kind of tension, some people have already collapsed, not to mention asking them to persist for three days. If this situation is followed, it is estimated that today will be difficult to get through. It is not dark yet, but they have not yet had a drop of water.

What Qin Yuan wanted to train them was to challenge themselves in an extremely harsh living environment, and this situation also simulated their usual tasks.

"Don't give up, everyone. We are working harder and we will definitely be able to go out. Although we are going around in circles now, fortunately we have not encountered them."

At this time they also discovered the problem of the compass. Zhao Min decided not to rely on the compass any more, but to rely on the direction of the leaves to distinguish. In this way, they walked for more than half an hour and finally came to the first coordinate point.

Starting in the southeast direction of the first coordinate point, they should be able to see the second coordinate point after a while, which proves that they are all correct.

Although they were asked to walk half an hour earlier, Jiang Xiaoyu and the others moved very quickly, but unfortunately this piece of primeval jungle is very large, and everyone spreads it relatively quickly, so they have only eliminated a few players so far.

Li Hong followed the sixth squad leader, and the three of them had a relatively smooth journey, and they didn't go around in circles, and they soon reached the second coordinate point.

But at this time, they hadn't had a drop of water for more than three hours, and the biscuits on their bodies were still there, but they couldn't eat them at all under such circumstances.

Squad leader No. 6 suggested looking for a water source nearby. It happened that there were coordinates here, so you could walk in the direction without getting lost.

They found a small stream a few hundred meters away from the coordinate point, but it was said to be a small stream, but it was actually a small ditch. The water flowed down the hillside, and it looked very clear.

Xia Ying couldn't control that much, she squatted down and picked up the water to drink, but was stopped by the sixth squad leader, "Don't be so anxious to drink this water. There are many bacteria and microorganisms in it. If you drink it, your body will be burdened." If you don't, you'll be in trouble."

"But the water looks fine! And what can we do if we don't drink this water? Isn't this the place to exercise?"

"No, survival in the wild doesn't mean that you can find the water source and drink it immediately. If there is any problem in the water, it will be your own body that will defeat us first."

After finishing speaking, the sixth squad leader took out the first-aid kit next to it, which contained two rolls of gauze. She grabbed the sand from the nearby stream, grabbed some stones, wrapped them in the gauze, and put them on the mouth of the kettle to slowly let them go. The stream flowed in.

But in this way, the whole water was very turbid, Xia Ying frowned slightly, can this kind of water be drunk?

"Don't look at the turbidity of the water, but it is cleaner than this stream. At least the simple filter I use can absorb some microorganisms on the sand and stones."

This was also a last resort, and Li Hong didn't have any doubts about the sixth squad leader, and just drank the muddy water. Xia Ying saw that Li Hong was so straightforward, and didn't say anything else.

The three returned to the second coordinate point after replenishing the water. At this time, they arrived at other teammates. The teammates in front were obviously sweating profusely, and they had already shown symptoms of slight dehydration.

Li Hong also kindly told them that there was a stream behind them, and told them about the approximate location, and they continued to set off.

In the jungle, gunshots are heard from time to time, which proves that someone has been eliminated. Jiang Xiaoyu and the others shot very decisively and accurately. Soon the sun will set. Li Hong and the others must find a place to hide as soon as possible. After all, in the primitive jungle It's too dangerous to go inside at night.

Long Baichuan looked inside the monitor. After all, this jungle is too big, and they have limited monitors, so they can only rely on drones.

"How do you arrange it now, kid? There should be no problem at night!"

"Let them continue to interfere with night vision goggles at night, how can we let them go at night? This is the best time to attack!"

Long Baichuan smiled, this kid has a lot of ideas, he can come up with all of them, it seems that this group of recruits will feel better.

The sixth squad leader is a three-year veteran, so he has rich experience. Of course he knows what special operations mean. They don't know how to distinguish day from night, so they have to find a place that is sufficiently hidden. It's already dark, the sun has completely set, and it gets dark very quickly in the jungle, but they still haven't found it. A suitable resting place.

The three of them were already approaching the third coordinate point, and the journey was very hard. Seeing that the sixth squad leader was still hesitating, Xia Ying said impatiently:

"Squad leader, what are you looking for? It's almost enough, we don't need to continue walking, and it will be dark later, and anything may happen. If we leave again, we will only expose ourselves, and later out of sight."

"I know, but we haven't found a suitable place yet, and we have to keep ourselves safe at night."

"Are you saying that you are worried about meeting other wild animals, so you want to find the cave? Reverse the pattern. Although the guns in our hands are training bullets, they are daggers."

The sixth squad leader shook his head, didn't say anything, just let them follow him first, and walked like this for more than ten minutes. It was completely dark and the visibility was very low.

Li Hong was the only one who didn't stand firm, and almost stepped into the ravine next to her. She stabilized her figure and continued to set off. She didn't dare to say anything, after all, she believed in the sixth squad leader.

At this time, the sixth squad leader pointed to a sunken gully in front of him and said, "Let's just go inside this one. We can lie in it first, and there are dead leaves on it to cover us up."

Xia Ying frowned, and squinted her eyes to try to see the gully in front of her, because it was completely dark now and the visibility was too low.

"Squad leader, are you kidding me? A place we dare not go in during the day, and now you let us in at night?"

After all, the pile of dead leaves like this is also the place where snakes like to live. I don't know if there will be any poisonous snakes in this pile of dead leaves. This is a primitive jungle.

But relatively speaking, this is also the safest place, with strong concealment, and the temperature of the primeval jungle drops suddenly at night, these dead leaves can keep them warm.

After the sixth class leader explained, she stepped forward first, and she stomped her feet vigorously. This move was called "striking the grass to startle the snake", followed by her urging the two of them into the pile of dead leaves.

Li Hong was a little hesitant. After all, she was a little scared. It was unknown inside. It was pitch black and she couldn't see anything. It would be dangerous if she went in. However, she overcame her fear in the end and pretended to go in like this. Xia Ying saw When Li Hong went in, he was not to be outdone.

The sixth squad leader sprinkled dead leaves on them and covered them up, "Wait here for me first, I'll go find something and I'll be back soon."

"Squad leader, it's dark everywhere, don't get lost, let's talk about it tomorrow!"

The sixth squad leader said that he had no problem, so he just got up and walked out. Time passed by, and it had been more than 20 minutes. The sixth squad leader hadn't come back yet, and Li Hong was very anxious.

She wanted to get up and look for the sixth squad leader, but Xia Ying beside her was quite comfortable, "Why are you so anxious? She is going out by herself, and she should know that she will come in later!"

"What you say is nice, but you also know the situation outside, what if the squad leader goes out and doesn't come back?"

"It's none of my business. We've already agreed. She insisted on going out. Who can blame her?"

The two had a dispute for a while, and Li Hong suggested that the two should make an appointment, and they could go out together to find the sixth squad leader, maybe she encountered some accident outside.

But Xia Ying felt that it was too dangerous to go out in the virgin jungle at night and at this time a drone was hovering over their heads, monitoring all their movements.

"I have to say that the sixth squad leader is quite intelligent, but he is also quite courageous and dared to choose this place."

"So sometimes female soldiers are not necessarily inferior to male soldiers, just focus on these aspects, they are very thoughtful."

Qin Yuan couldn't help but take a few more glances at the sixth squad leader. It's time to put some more tests on them. Some people may be destined to become the material of the special forces team. It can be seen from these details.

While the two were still arguing in the haystack, they suddenly heard footsteps, and the two subconsciously closed their mouths. Two minutes later, they saw the sixth squad leader walking over.

Li Hong was a little excited, but she didn't dare to act rashly. Squad leader Liu stepped forward and handed the things in the hands of the two of them. Unexpectedly, they turned out to be some wild fruits.

"Eat it, don't worry, I have already eaten this fruit in advance, and I know all these fruits that I grew up in the mountains before."

The whole day they can only eat some wild fruit to satisfy their hunger, if they don't eat it, there is nothing they can do, and they plan to save the bag of biscuits for the final sprint, which is the key to replenishing their physical strength at the end.

The sixth squad leader also climbed in, and the three of them just quietly heard gunshots from inside you from time to time. According to their previous arrangement, each of the three took turns standing guard for two hours, mainly because if the time was too long, There's a good chance of inattention, so two hours each.

The first class is Li Hong, the second class is Xia Ying, and the last is the sixth class leader. When it was Xia Ying's turn, she was still able to concentrate on observing the situation around her at first,

but slowly she ran around all day today. It made her sleepy, and she tried to open her eyes, but she became more and more sleepy.
