

## Special Soldier 1241

### Chapter 1241: Accidentally get separated

Xia Ying shook her head, trying to keep herself awake. She turned her head and looked at the two sleeping comrades beside her. She had to say that the position of the sixth squad leader was indeed very good, not only because they were very strong after all, but more importantly, they were here. Even if the temperature drops, there are still these leaves on the body to keep warm.

It's just that it was very quiet in the forest, and there was no gunfire. Xia Ying persisted for another ten minutes, and she was really sleepy.

He turned his head and looked around. It was so dark outside that he couldn't see anything clearly, and there was no movement. It's probably in the middle of the night that Jiang Xiaoyu and the others won't come to search at night! It's not there yet.

Even with this kind of fluke mentality, she fell into a deep sleep. She didn't know how long it had been. Suddenly, the sound of slight footsteps woke up the sixth squad leader. She quickly opened her eyes and tried her best to adapt to the surrounding darkness.

From a distance, a few black shadows could be seen moving towards them. It was definitely not her teammates who were still walking in the jungle at this time. She quickly patted Xia Ying and Li Hong who were sleeping next to them.

Xia Ying woke up and opened her eyes. Before she could figure out what happened, the sixth squad leader lowered her voice and told her not to speak.

At this time, the two of them also heard footsteps, and the footsteps were coming in their direction. Slowly getting closer and closer, everyone's hearts were in their throats.

"Squad leader, do you think he will be our comrade in arms?"

"It's too naive for you to think like this. Who would use this kind of assault formation at night? Listen carefully to the sound. Although we can't see it very clearly, the footsteps are spreading. If it is ours How could there be so many people?"

This is the end of it, she was the one who was on guard before, but she just fell asleep, and everyone didn't even know that she was in front of her.

The sixth squad leader looked at the figure in the distance, she was making a decision, whether she should run now, if she ran now, she might still have a chance, but this ignorant person couldn't see anything, if she ran, everyone would definitely get separated .

But seeing the people approaching in front, if they don't run now, it will definitely be too late.

"Both of you listen to my command. After a while, everyone is heading in the same direction. You must follow me closely. I will try to lower my steps, but I must be fast to prevent us from getting separated."

"What's the squad leader doing? They haven't found us yet, isn't it exposing ourselves by running out now?"

"What do you know? Didn't you see that in this situation, they walk the same as usual? They are wearing night vision goggles, which is different from us."

Having said that, Li Hong was also a little nervous. It seemed that they could only run. Just when they were about to run, suddenly there was a burst of gunfire in front of them.

Unexpectedly, there were two soldiers hiding in a place tens of meters away from them. Those two soldiers were the closest to Jiang Xiaoyu and the others, and they were about to approach them, so they immediately launched an attack. Taking this opportunity, squad leader yelled, and the two quickly followed her and ran out.

The scene was chaotic one by one. The sixth squad leader felt an empty shell hit the opposite tree directly, crackling, and she couldn't care less about it, so she just ran forward.

She also listened to the voice behind, and made sure that someone was following her all the time. Now, as long as someone followed her, they finally got rid of it until dawn, but when the sixth squad leader turned her head, she found that she was following behind her before No, it was just the sound she made when she hit the leaves next to her while running.

Squad leader Six had always thought that the two people in the back had followed, but she lost it. She groaned inwardly and turned her head to look for it, but there was no trace at all.

On the other hand, we are talking about Xiaoyu. After a night of chasing, they eliminated more than a dozen people. After all, they had night vision goggles in their hands, and most of them had already let down their vigilance at night. All relaxed a little.

These eliminated people were brought to one place by them, and they planned to hand them back today.

Among those who were eliminated at this time, there was a female soldier who was so hungry that she couldn't bear it anymore, "I said, brothers, we have been eliminated now, so please show kindness and give us something to eat, otherwise it will be all It's abusing prisoners."

"You girl is quite good at talking, what about abusing prisoners, to tell you the truth, we don't have anything to eat, just wait, the car will come to pick you up later."

What he said was indeed true, Jiang Xiaoyu and the others only carried a few packs of compressed biscuits with them, and they had to keep them until Wu Yun and the others would send supplies.

After more than half an hour, Wuyun and the others drove to the outskirts. They needed to take these prisoners down the hillside. After all, the road to get here was too difficult to walk, so they had to go around and go on the side dirt road.

When everyone passed by a grass team, they didn't realize that there were two people hiding next to them. These two people were Li Hong and Xia Ying. They didn't dare to show their anger. After everyone left, Li Hong came out vigilantly, and then Run quickly towards the southeast.

The two kept running in the southeast direction like this. They had to find the sixth squad leader to join him as soon as possible, because they didn't know the route behind, so now they could only walk in the southeast direction in front of the coordinate point as discussed earlier, saying Maybe I can meet the sixth squad leader.

Li Hong kept running forward. At this time, Xia Ying was panting from behind. She stopped Li Hong, "Don't run away. I said, what are you doing with such vigor? You are running so fast now, wait a while." I have no energy left."

"You have the nerve to say who is to blame for what happened last night? Since you fell asleep while standing guard!"

"You can really blame me, I fell asleep, but do you think I'm to blame for that situation? People have come to the door a long time ago, what's my business?"

"If it weren't for those two soldiers, we might have been eliminated last night. We really regarded you as a teammate and as a team, so we gave you the safety of the back, but you fell asleep ."

Xia Ying was a little guilty at first, but Li Hong kept scolding her, and she couldn't stand the grievance, so she pushed Li Hong away.

"That's enough, you really can't stop talking, I tell you that I did something wrong, but we have all escaped now, what else do you want to do?"

Li Hong threw her hand away, and this guy actually wanted to fight with him. Just like that, the two fought in the jungle without saying anything.

Qin Yuan watched with gusto from the other side of the monitor. These two people are really interesting. Under such circumstances, they can still fight. It seems that they are still not hungry.

At this time, Jiang Xiaoyu and the others also went back, preparing to replace supplies and replenish some ammunition.

At this time, Balang also noticed the two people who were fighting. Isn't this the place they passed by just now? Since neither of these two female soldiers was found.

"What's the situation? We just passed here just now, where did these two people come from?"

"Tch, who told you to look down on female soldiers, see? You are also scouts after all, but you passed under their noses and didn't find it. It really makes people laugh."

Wu Yun quickly seized the opportunity and taunted Balang, who made this kid look down on female soldiers before.

Balang was a little embarrassed, but he made up his mind that he would be more careful next time and would never let any fish in the road net go.

After finishing speaking, he planned to start directly now, but was stopped by Qin Yuan. After all, this is a primitive jungle, and they can't keep chasing, so they should take a breath, otherwise the other tests have not passed yet. People are almost eliminated.

These people are all new recruits who have just joined the army for three months, and many of their basic abilities are not strong enough. If this pursuit continues, there will really be no more than 30 people left, so Qin Yuan intends to let them take a break, and now they are testing their other abilities.

"Brother Qin, should we just look at it like this now? This is too much water."

"As long as they don't do anything too over the top, like start a fire or something, then don't show it, they're basically going to do it! Then chase at night."

The few people could only nod their heads, and began to rest beside them. After all, they spent all night searching for these recruits last night. The primeval jungle was relatively large, so everyone was exhausted for it.

The two recruits, Li Hong and Xia Ying, got into a fight for no reason, but they made up again. After all, the strength of both of them was about the same, and neither of them benefited.

"Okay, that's it. Don't fight anymore. If you fight again, it will only waste our energy. Aren't you hungry? I ate a little wild fruit from yesterday to today."

"That's not what you said about me first, but then again, your physical fitness is pretty good, since you can draw with me."

"What is this? Don't talk about it here now, go back and find the sixth squad leader first."

In this way, the two continued to set off, and met several other soldiers on the way. It was a coincidence that these soldiers were the ones who Li Hong had instructed them to drink water by the stream.

"It's really fate. I didn't expect to meet you. Thanks to you telling us that there is water there last time."

These female soldiers are quite polite. One female soldier smiled and took out her water bottle, saying that she had spent a lot of water there. If necessary, everyone can share one point, so everyone formed a temporary water bottle. squad.

However, Xia Ying and Li Hong didn't dare to drink their water with the reminder from the sixth squad leader before. If they were reminded now, they might be misunderstood, so the two looked similar and kept silent after a glance.

In this way, this temporary team continued to set off. At noon, everyone rested under the big tree. The female soldier handed over the water bottle again. Xia Ying was a little thirsty. Just about to take the water bottle, Li Hong Pull her.

"This comrade-in-arms is fine, you drink it first, we also have it here."

After Li Hong finished speaking, she took out the half pot of water that the sixth squad leader had given her earlier. The water in it was very muddy and mixed with a lot of sandy smell. To be honest, Xia Ying didn't really want to drink it.

"You guy, if you want to drink, you can drink it yourself, why stop me?"

Xia Ying didn't care so much, she pushed her away, took the water bottle handed over by the soldier in front of her, and took a few sips directly. The cool water tasted tasteless at all, so why bother with that? trouble.

Li Hong shook his head, didn't say anything, and silently drank the turbid water filtered in his hands. Just like this, the few people set off again. What's wrong? Something happened early.

In this way, in the afternoon, although they were gone and pursued, there was still a problem in front of everyone's eyes. Now the four soldiers who followed them had no dry food at all.

They chose to eat the biscuits yesterday, and now Xia Ying and the others still have two packs of biscuits on them. Xia Ying is quite righteous, after all, she plans to take out the biscuits and distribute them to others after drinking their water.

Li Hong couldn't help but get angry when she saw this. This guy completely forgot the previous agreement. Before they said that no one can touch this biscuit, it is their last ration. She didn't expect her to be like this now. He made his own claim and distributed it to others.

"What are you doing? Have you forgotten the explanation of the sixth squad leader?"

"I said that you are really in charge of the world all day long, and you talk about the sixth squad leader every day. Now you don't know where she went."

Xia Ying had been arguing with her all the time, and this biscuit belonged to her, so she could give it to whoever she wanted.

Li Hong didn't bother to talk to her, after all, what he said was useless. The soldiers next to him listened to the dispute between the two, and stood at Xia Ying's side and began to criticize Li Hong, thinking that she had nothing to do. Treat everyone as comrades-in-arms, hiding food even though there is food.

This is why Li Hong was reluctant to join such a small team before, because it is easy to have differences and everyone will stand on the other side.

She really couldn't stand this depressing environment. Originally, he wanted to go out alone, but when he found that everyone was going in the same direction, he could only bite the bullet and walk together in the end.

And the summer camp didn't plan to finish all the biscuits. Everyone divided into two pieces, and she planned to take out the rest tomorrow, or save it for sprinting. Although the sixth squad leader can't be found now, these people We all know the route of the final map.

Although she doesn't know the route on the map now, she has rations in her hand, and she can exchange this with them.

Fortunately, this guy did not forget Li Hong, "We have biscuits in our hands now, don't worry, my comrade-in-arms said so, but we will still divide the biscuits later, since you remember the map, let's set off together, and finally sprint to eat together."

There seemed to be nothing wrong with saying this, and the female soldiers agreed.

## Chapter 1242: There was a fire!

Li Hong just felt that she shouldn't make a conclusion so quickly, and more importantly, if they did this, it would be equivalent to abandoning the sixth squad leader, which was immoral.

The sixth squad leader had been helping them and protecting them on the road before, and it was only because of the help of the sixth squad leader at critical moments that they were able to escape.

"I don't think you can do this. We should go out to find the sixth squad leader instead of staying with them."

"Did I say you made a mistake? I was talking to you just now. I didn't even leave you behind. I brought you with me. Now you are talking to me about moral issues. We are selecting you now, you know?"

Li Hong shook her head. Now she doesn't care about the selection, she only cares about the sixth squad leader. She has already left it once before. At that time, she felt that she should not do that. Faced with such a choice this time, she will not do it either.

In this way, the two had a disagreement and had a big opinion, so they started arguing on the sidelines. Several female soldiers in front stopped to watch the quarrel, and the two came up to persuade them.

But the more the two of them quarreled, the more excited they became, and once again they said that because of Xia Ying's reasons, they were almost exposed to Jiang Xiaoyu and the others.

Xia Ying already knew about this matter, and she was extremely concerned about face. Of course, she was not happy to be brought up again and again about this matter, so she immediately broke out and pushed Li Hong to the ground.

"You are really enough. Is it necessary to talk about this matter again and again? I said that I knew I was wrong, so what else can I do?"

"I'm too lazy to talk to you about this. I'm going to find the sixth squad leader now. You can do whatever you like."

Li Hong didn't bother with her anymore, she just picked up the equipment and left the team. A female soldier next to her hurried forward and wanted to hold her back, but Li Hong had already made up her mind to go, and she didn't listen to the advice at all, and just threw it away hands away.

"Don't worry about her, this guy is just a crazy woman. Look at what she's doing now. She's selecting her. Do you really think she's playing tricks? Don't care about giri!"

Xia Ying also said this in a fit of anger. She actually thought that Li Hong was a good person, but she didn't expect to keep holding on to her own mistakes, and even mentioned this matter in front of others, which made her feel even worse. face.

Everyone looked at the recruits on the screen who still had time to fight here. The external factors hadn't even started yet, and their internal struggle had already begun.

However, this is also the main point of contradiction for recruits. They have not yet undergone real training or other assessments, so they still do not understand the meaning of comrades-in-arms.

At this time, it was normal for them to choose to give up, and it was normal for them to have differences. Li Hong left without looking back. No matter what, she must find the sixth squad leader.

In this way, Li Hong completely left the team, she walked forward aimlessly, and now she started to feel a little scared by herself, after all, this is a primeval jungle, and everywhere is very quiet, only the sound of panting and footsteps of a person.

She regretted a little, regretted leaving the team so early, but she and their goals were different, and it was normal to quit early.

She touched the bag of biscuits in her backpack. That bag of biscuits was her last belief, so she was able to sustain it.

As she walked, the sun was almost setting. She picked up the little water left and just took a sip. She didn't know how long this little water would last. No matter what, she would choose to follow the squad leader's arrangement.

Now she was alone, she couldn't find a suitable place to look at the big tree in front of her, so she simply climbed to the tree to rest tonight.

Trees are also a good choice, not only to avoid other wild animals, but more importantly, to be more concealed in trees, because normal people basically look straight ahead when walking, especially at night.

She tried her best to climb up. At this moment, a dagger was thrown from behind. She was so startled that she lost her grip and fell directly from the tree.

Fortunately, the grass below is not high, so there is no problem if you fall down. Could it be discovered? She turned her hair in horror, and found that it was Xia Ying.

It's this guy again, she's so angry, why is she everywhere, and she clearly said it just now, she wants to follow her sunny path, what she is going to do, it has nothing to do with her, what does this guy do Well followed again.

In addition, throwing a dagger directly, what does this mean?

But soon an object fell from the tree, and she looked down, and it turned out to be a limp snake, and the dagger cut the snake into two pieces.

Li Hong was so frightened that her back broke out in cold sweat. To be honest, she was more afraid of this thing. She was more afraid of this soft creature, especially the cold touch. It turned out that Xia Ying wanted to save her just now.

Xia Ying stepped forward and picked up the dead snake with a stick, "Hey, it seems that our dinner is settled."

"Why are you following here? What are you doing here?"

Xia Ying didn't expect that Li Hong was too persistent. Originally, she deliberately found a topic to talk to the next step, because she was really worried that Li Hong would come here alone, but she still broke the casserole and asked the bottom line. Isn't this embarrassing?

"Forget it, I don't want to argue with you, shouldn't you thank me as a lifesaver now?"

Looking at Xia Ying who was handling the snake with her head down, Li Hong also understood what it meant, so she didn't ask any more questions, but just squatted down and handled it with her. Although she was very scared, she couldn't let Xia Ying alone in this situation. people do it.

"Don't worry, I can do this thing. My family is in the countryside. This kind of snake is very common. I have done it before. Although it is not poisonous, it is troublesome to bite."

"But thanks to you just now, I didn't notice that there were snakes on this tree."

"So, didn't you say that before? You should be vigilant, and then you can become an excellent special operations team member."

The two laughed when they said this. The two of them were not acquainted with each other. Before, if they disagreed, they would start a fight, but now they get along peacefully for no reason.

Li Hong didn't think too much about it, and built a fire next to her. After all, they hadn't eaten for two days, and this was their first official dinner.

"Let's hurry up and put out the fire, or they will find out."

"I think the same way. I can't eat it raw, and there are a lot of parasites in it. It's better to bake it. It's more reliable."

At first, Li Hong didn't mind much, and was disgusted by what she said, but after waiting for the snake meat to be cooked, he didn't expect it to be quite delicious.

The few people on the other side of the monitor saw that the two female soldiers were too courageous to start a fire at night. Isn't this a blatant provocation?

"Look at it, I said we shouldn't indulge them too much. We didn't go out this afternoon, and they started the fire directly. This is really a tourist."

"Then what are you talking about? Brothers, let's go, and teach these two recruits a good lesson."

Jiang Xiaoyu and the others set off after finishing speaking. Qin Yuan really didn't expect that these two people were too courageous, but as recruits, they can still understand that this is called newborn calves are not afraid of tigers, and they did not think of many situations.

Li Hong stared intently at the barbecue on the fire, remembering that she was a picky eater before, she would not eat a lot of meat, now she has been hungry for two days, and she can eat anything.

At this moment, there was a sudden rush of footsteps, and the two subconsciously picked up the guns beside them, but this person was obviously coming towards the fire.

After Li Hong raised her head and observed carefully, she realized that it was the sixth squad leader. She stood up a little excitedly, "Squad leader!"

"You two have too much heart, you dare to live in this place, put out the fire quickly, and follow me."

Anyway, the snake meat was almost roasted, so the two obeyed the arrangement, quickly put out the fire with the mound next to it, and followed the sixth squad leader all the way forward. It was completely dark now.

But the sixth squad leader really didn't intend to stop. Instead, she pulled a rope and tied it between the two, and she led them all the way forward.

"Squad leader, it's too dangerous to travel at night, or we should find a place to rest near here."

"The two of you also know the danger. Do you know what you did just now? It's completely exposed yourself. It's not safe to walk around here now!"

The sixth squad leader is a veteran after all, and has a strong sense of anti-reconnaissance. Just like this, the three of them walked forward in the dark with one foot shallow and the other foot in the dark. Use the front as an open path to avoid stepping on other deep pits.

After walking like this for more than two hours, they stopped, because the speed was relatively slow, but they didn't go very far.

Squad leader No. 6 can't go on for a while. Now she needs to be highly concentrated at night, and her mental state is always tense. This kind of walking is really exhausting and unsafe.

Now that she can't find a suitable place to rest, her opinion is the same as Li Hong's before, and she plans to climb a tree.

Just as the three of them were climbing towards the tree, they heard a gunshot from a distance, but the gunshot was very far away.

Unexpectedly, they didn't let Li Hong go at night, and they were even more fortunate. Fortunately, they met the sixth squad leader, otherwise if they stayed in that place, they would really be eliminated.

At this time, Xia Ying took out the snake meat and shared it with the two of them. It took her a long time to tell her that she was really worried after seeing Li Hong leave. In this way, it was separated from the previous team.

"I declare in advance that I didn't admit defeat. I just don't want to see you in danger alone. I'm a good person."

Li Hong knew that this guy was duplicity, so he didn't bother with her. The businessman was relatively safe in this tree, but just after lying down for a while, he heard a hovering sound above his head, it was a drone! The three of them thought they were investigating, and were too frightened to move, but then they heard the sound of the radio.

"A warm reminder to everyone to pay attention to drinking water safety and food safety in the wild. This is basic common sense, so as to prevent you from being eliminated in the most stupid way!"

And the broadcast not only gave a reminder, but also informed the four recruits that because they used unfiltered stream water, this is a primitive jungle, and there will be feces and corpses of other animals in the stream water, and humans are prone to dysentery if they eat it by mistake.

And no more, no less, it happened to be four soldiers, Xia Ying couldn't help but shrink her pupils when she heard this, could it be the four during the day? But I also drank the water they sent over.

Li Hong also understood in an instant, and she quickly reported the situation to the sixth squad leader. After all, the sixth squad leader is experienced, and she should know how to solve it.

"I've said before that you don't take it seriously. Is something wrong now? But you haven't had any symptoms yet, probably because you use it less."

After the sixth squad leader finished speaking, he took out a few pieces of green herbal medicine from his pocket, "Swallow this, although the taste is not good, but it also has a certain detoxification effect, I don't know if it will be useful, after all, this is our The previous local method."

At this moment, Xia Ying can't control so much As long as she can help her, she will eat anything, she grabs a handful and chews it directly.

It seems that it is only reliable to have a veteran by their side. They don't know many common senses of survival, so Jiang Xiaoyu is not needed in this elimination. They can eliminate most people in many aspects of survival.

The sixth squad leader also once again criticized their behavior of lighting a fire just now, but Xia Ying explained that she had heard that Qin Yuan had also lit a fire in the course of carrying out missions in the past, and brought his comrades to eat and drink. Roast hare.

"Hehe, you really dare to compare. Do you know who Instructor Qin is, and what are you? The purpose of setting fires is to attract enemies, and his ability can make one enemy a hundred."

Although Xia Ying and the others had heard of Qin Yuan's reputation before, wouldn't it be too much of an exaggeration for one against a hundred? These are the plots that only appear in TV dramas.

But the sixth squad leader spoke very seriously. She respected Qin Yuan very much, including that they had the opportunity to participate in such a selection this time, and it was because of Qin Yuan that they entered the special warfare commando team.

This person never distinguishes between male soldiers and female soldiers. In his eyes, female soldiers also have the advantages of female soldiers, and they are very respectful. More importantly, his training methods have been successfully trained by many special operations teams under him, just like dark clouds Their only female commando.

"So no matter what, I will definitely stay at the end, and I will definitely enter the specialty he trained, the commando. Only then can I really go to the front line."

The three also secretly made up their minds, expressing that they would stay together until the end to join the special forces.

Jiang Xiaoyu and the others are already starting to collect the net, because there is only one day left before the stipulated time. According to this calculation, they will eliminate at least 15 players tonight.

Chapter 1243: eat rat meat

So the entire jungle was full of gunshots. At this moment, the three of them had already climbed to the big tree to rest. Everyone was very nervous. I don't know how many people would survive this kind of elimination until the next day, and at this moment, the three of them were already hungry. Lulu, not eating anything else for two days is too much of a test.

The next morning Li Hong fell asleep at some point, mainly because she was so tired from running around during the day, and he was instantly surprised that under such circumstances, she fell asleep so deeply.

She quickly pushed Xia Ying who was next to her, and the two of them fell asleep completely. It was agreed to take turns to stand guard, and she stood on the last shift at four o'clock, but she fell asleep unexpectedly.

"What's the situation? Since the two of us are asleep."

"Hey, where did the monitor go?"

After Xia Ying reminded her, Li Hong realized that the squad leader of the sixth squad next to her was nowhere to be found, and her equipment was also missing.

For a moment, some bad thoughts flooded into the minds of the two of them. Xia Ying felt that the sixth squad leader must have left them, because the number of places was limited, and only the sixth squad leader knew the map at the last moment.

On the other hand, Li Hong was very worried about the safety of the sixth squad leader. She knew that the sixth squad leader was not that kind of person, and she must have encountered some unexpected situation, otherwise she would not leave without saying goodbye. Now the sun has fully risen.

Looking at Xia Ying who was still chattering beside her, Li Hong patted her to tell her not to think about it, and now the important thing is to go down and find the sixth squad leader.

After they climbed down the tree and looked around, they didn't know which direction to go, because the jungle here was too big, it seemed that it was wrong to go from any place, and more importantly, such a big jungle, Where are they going to find someone?

Xia Ying was a little angry, and at this moment she touched her waist, but she didn't expect that the dagger she was carrying with her was gone.

This is the end of the day, and the sixth squad leader took away all the materials on their bodies. She quickly opened the backpack and took a look. Fortunately, the few biscuits were still there. Li Hong frowned slightly when she saw this scene , when has this guy been? Still thinking about this mess.

"What are you doing? You even suspected the sixth squad leader again. Don't you forget that she led us along the way. Without her, we would have been eliminated in the first round."

"It's true to say that, but you have to understand that we are conducting selections now, and the number of places is limited. My dagger is gone. Who else could it be if she didn't take it away?"

"Don't frame her, let me tell you that the monitor is definitely not that kind of person, and if the monitor really took it, why didn't she take our food away?"

Although Xia Ying couldn't explain this, why her weapon disappeared, and there were still many uncertain factors between them.

When the two were arguing, the sixth squad leader came back with a few dead mice in her hand. The moment Li Hong saw the sixth squad leader, she quickly went up to her, and she knew that the sixth squad leader was not such a person at all.

This is a bit embarrassing. She seemed to have misunderstood just now, so where did her weapon go? At this moment, she turned her head and found a dagger beside the tree root. It seemed that she had slept too soundly just now, and she didn't even know that the dagger fell from her waist.

"What were you two arguing just now? I heard it from a long distance. I told you before that you should deal with everything outside calmly. You can easily expose us like this, understand?"

Li Hong wanted to explain at first, but Xia Ying hurriedly spoke up next to her. After all, it would be embarrassing if she really explained the situation. She just misunderstood the sixth squad leader.

"Forget it, let's not talk about those situations, you two come over and have something to eat first."

At this time, Xia Ying also noticed the mouse in the sixth monitor's hand. She frowned slightly. What she said earlier, could it be this thing?

"Squad leader, are you kidding? Let's eat this early, I don't think it's necessary."

"Why is it unnecessary? Tell me now, do you still have the strength to go out? We haven't supplemented protein for two whole days, and this thing is the best protein."

"But..."

Before Xia Ying finished speaking, she saw a drop of blood dripping from the mouse's head. She couldn't stop for a moment, and ran to the side to vomit.

This thing is really disgusting, and it also exudes an unpleasant smell. Coupled with this advantage, in the primeval jungle, the size of this mouse is much larger than what they saw in the city. Anyway, it looks like a mouse. very disgusting.

Li Hong also can't accept it. If she wants to eat this kind of food, she doesn't know if she can eat it. In addition, there are so many parasites in this kind of mouse. If they eat this kind of raw meat directly, will there be any problems? ?

"Squad leader, this is just a selection, isn't it necessary? If we eat this thing, will there be any problems? You even asked us to filter the raw water we drank before."

"This is not just a selection to enter the special combat team. This is the best proof. We must supplement protein now, otherwise our body will not be able to bear it first. Today is the last day, and they will definitely carry out the final pursuit!"

What the sixth class leader said was indeed good, because now Jiang Xiaoyu and the others are ready for the final sprint, and they eliminated more than a dozen people last night.

But the number of people is far from enough, this morning is the best time, because today is the last day, their physical fitness has reached the limit, three days only rely on a pack of biscuits.

So now is the time when the largest number of people will be eliminated. Many people may directly lose to their own physical fitness. They still need to climb mountains and wading, especially at the end point, which is still relatively far away.

There is not even a normal road in this primitive jungle, which is a test of everyone's physical fitness. Now they each carry 30kg.

The sixth squad leader didn't say much, pulled out the knife at her waist, and then began to cut up the mouse. She divided the mouse meat into three portions.

"I don't care what you think, but this thing must be eaten. We will start immediately after eating. Don't think about the bag of biscuits. It's just the beginning of the morning. We don't know when we will reach the end. Our last hope, the last to be added!"

And to be honest, that pack of biscuits can't add much energy. What they need now is meat and protein.

At this time, there was also light rain in the sky, and the temperature today was very low. Under such circumstances, they must ensure the intake of protein, otherwise it would be easy to cause hypothermia and the body would collapse first.

Qin Yuan watched all this silently behind the monitor. To be honest, it was very difficult to take this step, but as long as they took this step, they would be one step closer to becoming a special forces member.

But if these few recruits can achieve this level, basically there is no problem, this is what must be given up to enter the special forces.

The sixth squad leader took the lead and directly picked up a piece of rat meat and chewed it, "Do you understand? We must eat this thing, otherwise our physical fitness will not be good at all."

Xia Ying was still talking hard, but in fact her hands were trembling uncontrollably, and she couldn't even aim. They were recruits for three months, and their marksmanship was not that accurate. There was nothing they could do in this situation. Focus on the target.

To be precise, from the day of training, they have not received any protein supplements for three whole days, and this is the best protein.

Li Hong gritted her teeth, and stepped forward to pick up a piece of rat meat to eat. Since the squad leader dared to eat it, she also dared to eat it.

Xia Ying worked hard, she walked over and slowly picked up the rat meat, but just as she put it in her mouth, a strong \*\*\*\*\* smell spread instantly, she couldn't control it, ran to the side and vomited .

"You have to get used to this taste slowly, do you understand? Even if you want to vomit again, you must bear it. If you vomit again, the water in your body will lose faster, and you will be the first to fall."

Hearing the warning from the sixth squad leader, she adjusted her mentality again. This time she simply closed her eyes and chewed randomly a few times. In the end, the three of them divided up the mice like this.

Although this thing is disgusting, it has supplemented their physical strength to a certain extent. The sixth squad leader calculates that they must get back on track by now. Kilometers away, so they must hurry up.

There were constant gunshots in the jungle, sometimes coming in and sometimes far away. Sometimes the gunshots were very close to them, and it felt like Elimination was right beside them.

In the end, the sixth squad leader found the final coordinate point, and they walked all the way along the coordinate point, and they could see the end point.

Find the last coordinate point, and the remaining distance is about 15 kilometers. This is just to say the least. After all, this is a primitive jungle. Shuttle inside.

So the actual distance is farther than this. Just after passing the coordinate point, the sixth squad leader asked everyone to take out the biscuits, eat the biscuits, and then go all out without resting halfway, because Jiang Xiaoyu and the others will only chase more and more. close.

At this time, Xia Ying took out her bag of biscuits from her bag. There were only three biscuits left in it, and she was going to divide them up. Half of it was given to Xia Ying.

"Squad leader, what are you doing? I don't need this biscuit for me to eat."

"Don't talk nonsense, I'm the monitor and I should take care of you. Besides, the biscuits are not enough for my physical fitness, so you just have to finish eating quickly and don't hold us back."

Although the sixth squad leader sounded reproachful, she was actually full of concern. During this elimination, many people had given up on their own initiative, so she didn't want anyone to give up in the final sprint.

In this way, the three of them set off vigorously after eating the biscuits. This time they went very smoothly, and they saw the army green tent from a distance, and the three of them were very excited.

"Squad leader, do you think we will be the first? How do I feel that we are the first to arrive?"

"Who knows, let's hurry up, or we won't be able to get into the quota."

Although the sixth squad leader said so, he was already very excited, because they came earlier at this time, and there were no major problems along the way. They should indeed be within the quota, but when they came, they found that there were already There are people, but there are only seven or eight people, so the number of people is relatively small.

Although they didn't reach the first place, they were still within the quota. The main reason was that they got there before, which caused a delay in progress. If it was earlier, it would definitely be fine.

Xia Ying also saw someone she was familiar with, and she waved to a female soldier inside, "Zhou Hui, I didn't expect you to be so fast that you came in front of me."

Zhou Hui had a wry smile on her face. Only she knew what they had gone through. They walked the most difficult and dangerous path. It was really not easy to get the first place.

After that, people came one after another, and the number of people gradually decreased. In the end, there were only four places left, but people came one after another.

At this moment, there were six or seven people moving towards this side quickly, and Jiang Xiaoyu and the others were also chasing after them. As long as they didn't reach the end, they were still in the scope of elimination.

A soldier behind was directly hit, and was eliminated in an instant. Everyone was silently cheering for them. At this time, Li Hong took a closer look, and it turned out to be Zhao Min and the others. They were obviously the first to set off. .

And everyone looked very embarrassed, especially one of them seemed to be injured. There was gauze wrapped around his arm, and he was running towards this side non-stop.

Under Jiang Xiaoyu's pursuit, there are still five people left, but there are only four places, and the last one must be eliminated among these five people.

"Speed up, no matter what, I only need four people in the end, and the rest will be eliminated."

Hearing this, Zhao Min was very anxious, and rushed forward, but because they hadn't eaten anything, they were already exhausted by the biscuits, and they were shaky when they ran.

As long as their number is still behind, they will keep shooting, and the bullets will keep hitting the ground next to them. This also adds a sense of fear invisibly, and they will be eliminated all the time.

At this moment, Zhao Min made a sudden move, and she shot directly at a team member running in front of her. Everyone was stunned, not only the soldiers around, even Qin Yuan didn't expect it.

I have to say that this guy really did everything possible to be ruthless, and he actually used this method to eliminate his teammates. Jiang Xiaoyu and the others didn't pursue it anymore, because the remaining four spots had already been born.

Chapter 1244: 1 person can complete

Jiang Xiaoyu and the others were stunned behind, what kind of operation is this? This is the first time in many years.

"I'm going, this is too cruel. If you want me to say that there are really not many people who shoot from teammates, even the bald man back then was not so cruel."

"Is your stinky fish itchy? Why are you comparing me to them? Besides, this \*\*\*\* is really cruel."

Everyone sighed for a while, and at this time they also ran over panting, but the soldier who had been eliminated was stunned, and she hadn't understood what happened.

At this moment, the female soldier who ran over with them stepped forward and punched Zhao Min in the face.

"You guy is a lunatic. You even shot your teammate from the back. Are you crazy?"

"Hehe, what are you talking about here? Have you forgotten? We have successfully advanced now. We are not comrades in arms. Now we are all competitors. There is a competition for places, understand?"

"I know there's a limit, but you'd be crazy to shoot your comrades in the back."

Zhao Min pushed her away with disdain, which was nothing to her, and she didn't regard everyone as teammates at all. Now that there is such a quota-limited elimination, she is an opponent.

For a while, the two scuffled on the ground. Qin Yuan stepped forward and stopped them. The female soldiers next to him asked Qin Yuan to comment, because it was too exaggerated to attack his teammates.

"Now the elimination is over. Congratulations to your 30 teammates who have successfully advanced. There are more cruel challenges ahead."

Unexpectedly, Qin Yuan didn't mention what happened just now, but told them indifferently that they had successfully advanced, and there were more cruel challenges waiting for them.

Because the rules don't say that you can't attack your teammates, it's just that this kind of behavior is really unethical in other respects.

Qin Yuan silently glanced at Zhao Min, this female soldier is really ruthless, it is hard to imagine that she came to him crying and complaining before, and felt that it was unfair, this guy is too competitive, in order to stay, in order to win , can be done by any means.

In this way, everyone took me back together, and in the process of going back, Zhao Min was completely isolated, because her behavior had already violated a taboo.

Although everyone is a three-month recruit, but they all belong to the same recruit company, more or less they have certain emotions, and they are very embarrassed along the way. Zhao Min tried his best to talk to the people around him, but no one responded. she.

In addition, everyone was also very tired, so they walked back in silence all the way, and began to take them into another training base after returning.

There is still a lot of training waiting for them. They have to train non-stop until they are eliminated until a formal special operations team is formed.

In the whole process, they are not only eliminated, but also specially trained for them. If they can't stand such high-intensity training and can't complete the task indicators, they will be eliminated directly.

Qin Yuan already had a plan in his mind. Because they came to a separate training camp, they all lived together, and thirty of them lived in a large dormitory.

During these three days and two nights of training, they were exhausted, and it can be said that they broke through with all their strength. Qin Yuan also gave them time to adjust.

Chapter 1245: 1 person makes a mistake, all bear

Zhao Min came in with a basin after taking a shower. The dormitory, which was still busy just now, suddenly became quiet, and everyone stared at her intently.

At this time, a female soldier walked over very unhappy, "It's really unlucky, why are you sharing the bed with this kind of person, maybe you will be stabbed in the back by him at any time."

"Be careful, don't speak so loudly, you will be heard by others."

Listening to everyone's chattering discussions, Zhao Min didn't say much, but she had already done it, so what can she do now, and even if she did it again now, she wouldn't regret it, besides, Qin Yuan didn't say anything .

It's just that at this time, the last few teammates who ran with her also started to target her. They have experienced together for three days and two nights, and they still have feelings in comparison.

But now those teammates also turned to accuse her, thinking that she was too cold-blooded, and even shot at their teammates.

"Enough, I really don't want to argue with you, but is it necessary for you to do this? Besides, even the instructor didn't say anything, why do you accuse me?"

"Hehe, let alone you, do you really think that your behavior is honorable? Let me tell you, your behavior is a traitor's behavior, and your brother is a martyr, but you are not necessarily so."

Hearing others talking about her elder brother, Zhao Min immediately recorded it, and without any hesitation, she rushed forward and the two wrestled together again.

Qin Yuan was still planning how to carry out the next training, but soon he heard someone report that there was a fight in the female soldiers' dormitory.

"Good guy, these female soldiers are more capable than us male soldiers, don't they feel tired enough?"

"Since you're not tired enough, let's all come out for training!"

Just like that, Qin Yuan blew the emergency whistle, and everyone quickly ran out to gather, "I think your experience has not been exhausted, since you still have so much energy, let's have an appetizer first, and prepare for the 10 kilometers ."

Now the first step is 10 kilometers, and everyone is stunned. The torture of the past few days has made them exhausted enough. Unexpectedly, they will go directly to the 10 kilometers, and some people in the team will soon be unconvinced.

"Report to the instructor This is a bit against the rules, it's obvious that they fought, and the rest of us didn't participate, why should we all be punished?"

"First of all, I am the rule here. I have the final say. Second, you are comrades-in-arms. You must share the blessings and share the difficulties. If one person makes a mistake, all of you will bear it."

Everyone listened to Qin Yuan's cold words, and didn't say anything more, they could only execute it silently, and if they don't run now, they don't know when they will run again.

It's just that everyone looked at Zhao Min's eyes and felt even more resentful, because it was this guy who caused them to be punished now.

In the next few days of training, people were eliminated one after another, and Zhao Min was fighting for it. In addition, her usual training was relatively strong, so there was no problem with this intensity of training.

Jiang Xiaoyu valued Zhao Min very much. He felt that this person was very capable. Her shooting ability, assault ability, and observation ability were all very strong.

"Brother Qin, I think there are already some people left. Although they haven't been completely eliminated yet, you can see that these abilities are very strong."

Chapter 1246: Are you sure you can do it alone?

"I didn't see it. Since you value Zhao Min so much, I'm not sure about this person. After all, it's the first time that I shot at my teammate's backup."

It's not easy for everyone to say, but the personal ability of lighting is indeed very strong, and he is excellent in all aspects. In the following training, he basically maintains the level of the top three every time.

In this way, after half a month of elimination, the members of the team were finally selected, and Zhao Min also stayed until the end. Although her behavior at the beginning was indeed not in compliance with the rules, her grades were still very stable.

After this period of training, the assault team was formally established this time, but it does not mean that they can perform tasks now. After the establishment of the team, Qin Yuan has his own unique training method, and they just passed the selection.

"Next, your training will be more specific. I will give you special training based on the strengths of each of you, and find your suitable position in the team."

They are receiving more cruel training every day. Qin Yuan began to take out the training manual to give them special training. Under such training intensity, they have no time to think about other things, and they only think about training every day.

From being unable to hold the gun steadily at the beginning, to now being able to shoot directly subconsciously.

Qin Yuan is very satisfied with this achievement, but now they are still like a mess. Each of them is very capable, but they don't have that kind of cohesion.

The most critical problem still lies with Zhao Min. Zhao Min's sniper ability is very strong, and her shooting level can be said to be ranked first in this team.

But no one was willing to cooperate with her and be her observer. At first, Qin Yuan asked Li Hong to be her observer. After all, among these people, Li Hong was relatively stable.

But unexpectedly, before Li Hong said anything, Zhao Min subconsciously refused, saying that she didn't need any observers.

"Report to the instructor, I can be an observer or a sniper myself."

"Are you sure you can do it alone?"

Zhao Min is very confident, because she is very sure of her shooting level, even if she observes by herself, she can hit the target more accurately.

Qin Yuan didn't say anything, now he wants to increase the cohesion of this team and let them know the importance of comrades-in-arms.

So there is still a special assessment waiting for them, and after this assessment is over, the captain of this assault team will be determined, but Qin Yuan hasn't said the specific assessment yet.

After Li Hong and the others were disbanded, they were all preparing for the assessment, "Squad leader, I guess the position of captain must belong to you. After all, you have the most experience among us. If you were to be the captain, no one would be unconvinced."

"This is not necessarily true. You all have your own strengths. If I can be the captain, I can indeed lead you, but I believe that each of you can do well, so everyone will try their best to do it."

The words of the sixth squad leader, Yang Yun, are more pertinent to the truth, and her ability lies there. She has also been a squad leader before, so it is generally no problem to lead the team.

But Zhao Min said something strangely.

Chapter 1247: you are really capable

"You're really going to put money on your face. Now that the quota has not yet been determined, why are you calling the captain here?"

"What do you mean by that? Besides, everyone has seen the ability of the sixth squad leader. Anyway, if there is a vote, I will definitely vote for her."

The rest of the people also said that if the sixth squad leader was the captain, everyone would support them in life along the way, and the sixth squad leader would also take care of them.

Zhao Ming even felt that she was isolated. She was very disdainful from the beginning of the training, and now she only wanted to use her results to speak.

Even if you want to choose a squad leader, you have to judge by your grades. At present, in terms of her grades, she has reached the first level of qualification in every item. In the entire team, her abilities are excellent in all aspects.

Besides, Qin Yuan said before that the selection of the captain was based on passing this assessment, which was obviously based on ability, and not based on the vote they said.

Everyone didn't bother to argue with her, this guy has always been a loner since the selection began.

After Zhao Min finished speaking, she walked out with a sniper rifle on her back. She would train herself every afternoon, so she was very sure that she could become an independent observer and sniper.

No matter what, she will definitely stay at the end for her brother's future dreams, and she doesn't think that these so-called teammates will help him in the future. The sniper is an independent individual, and he will perform various tasks in the back. The process of taking over will also give out her edge.

In this way, the assessment officially started the next day. This time the assessment was relatively simple, and it was a hostage rescue assessment.

They have done this kind of training many times. They need to enter the room where the hostages are tied, rescue the hostages, and kill the criminals.

The task sounds relatively simple. After looking at the general situation, there are six people in the class. They are distributed around. There are two kidnappers staying with the hostages, so they need to deal with the kidnappers outside first.

The sixth squad leader subconsciously began to assign. During the whole process, she was actually relatively capable of leadership, "I think so, let's follow the previous training. The three of us will be the first to attack as assaulters, and then Xiaoyu will stay behind. Grenade as a cover, Zhao Min..."

Before the sixth squad leader finished speaking, she was directly interrupted by her. She did not obey such an assignment, and she felt that she alone was enough.

"You are really capable, why should we all listen to your command? Besides, your arrangement is too delayed. We estimate that it will take half an hour according to your progress."

"Then what do you say? My current plan is the safest, because we must first ensure the safety of the hostages. Although this is a simulation training, we must also ensure safety."

"In this case, it reflects the ability of snipers. I personally think that you all go in to attract firepower, and then I will deal with these kidnappers from the commanding heights."

This guy had been talking about her for a long time, and she felt that she could solve the kidnappers inside with her own ability.

"With you alone, how could you do it?"

"Don't worry, I am very sure of my marksmanship, just leave it to me, if you delay any longer, the time will come."

Chapter 1248: Fight!

From a distance, Qin Yuan could only see that they had been hesitating, and after a while, they actually started fighting.

This is really the first time I've seen this kind of situation. In this kind of situation, they can still fight, and it's Zhao Min again. This guy has been having conflicts with his teammates all the time.

Qin Yuan hurried forward, he looked very seriously at the fighter in front of him and blew his whistle.

"Where do you think you are? What do you think you're doing now?"

Qin Yuan's voice was several times higher than usual, and for a moment the two fighters were stunned. The sixth squad leader also let go of the lighting and was a little unconvinced. Zhao Min also clenched his fists and looked at the sixth squad leader in disapproval.

These two people are obviously still not convinced. This is the first time Qin Yuan has seen this kind of situation. You must know that although it is only a simulation training, he said before that he should treat every training as a real situation.

"Is this why you joined the Special Forces? Where did you put your comfort?"

"If this is the case, I think there is no need to form this team at all. Your attitude makes me feel that there is no way to do this job at all."

Zhao Min didn't expect to have a fight with the sixth squad leader, and he didn't expect to disband the commando directly.

The two were a little anxious when they heard this, and hurriedly stood up to explain, but Ke Qingyuan didn't want to hear any explanation from them at all, which in his opinion was a serious mistake.

Now they have been having conflicts during training, how can they form a special warfare team that can complete the mission?

"Although it's training this time, if it's a real situation where you quarreled, fought, and led to the rise of hostages, it's human life. Who of you can take responsibility?"

Facing Qin Yuan's questioning, both of them lowered their heads silently. They were indeed wronged, and they shouldn't have made such a mistake, so they could only quickly admit it.

Qin Yuan ignored them at all, turned around and left, went back to the training office, and loudly asked Jiang Xiaoyu to take them back. There is no need for this women's special team to exist, and he has to choose other people.

Everyone didn't expect it to turn out like this. After they returned to the dormitory silently, everyone lowered their heads looking at the place where they had been training and living for a while.

Li Hong felt even more unconvinced, everyone worked so hardAfter so many eliminations, it was hard to stay among so many people, but in the end they were ruined by the two of them. The squad leader had nothing to say, after all, Zhao Min was too aggressive, so the two of them did it.

"Let me tell you, Zhao, do you really think this is your home? What kind of young lady are you playing here? You really killed everyone."

"I didn't do it alone, why didn't you ask her?"

"Do you think Instructor Qin is disappointed in us just because of this incident? He is because of it for a long time! Tell yourself how many conflicts you have had with us."

Zhao Min was still holding back his anger. If this is the case, the situation has become like this anyway, so it's better to have a good fight.

Just when she was about to make a move, Xia Ying, who had been taciturn before, stood up and shouted loudly:

"Enough, don't you think things are not messy enough? If you fight again, you probably won't even be able to keep this suit of clothes. Are we going back in gray like this? Are you willing?"

Chapter 1249: I didn't do it alone

The answer is of course yes. In this case, it would be embarrassing to be sent back directly by others, but what can be done now? They also knew Qin Yuan's temper, so they said what they said.

"Then what can we do now? It's not up to us."

"So now we have to rely on our own ability to fight for it. I don't think the suspension of the instructor's intention is not to disband, but to let us understand what is called a team and what is called a comrade-in-arms."

At this moment, their conversation was completely under the monitoring of Jiang Xiaoyu and the others.

"Oh, can't you tell, these little girls reacted so quickly, now that they understand."

"It's one thing to understand it, but it's another thing to let it go later. I know they are very capable, but if this team does not have a good discipline, it will be a mess."

Sitting in the office, Qin Yuan wanted to see what tricks they could play. If they really realized their mistakes, he would have another test waiting for them.

After a while, Jiang Xiaoyu came in and reported, "Brother Qin, come and see that group of female soldiers doing push-ups below."

At this time, Qin Yuan walked down, looked at them sitting on the ground, and asked loudly, "What do you mean? What do you want to do? I made it very clear just now, take everyone back. This team will no longer exist."

"Instructor Qin, we know that we are wrong. We know that we should not be so willful, especially as a special warfare commando, so this is our punishment for ourselves."

Unexpectedly, Qin Yuan agreed, and agreed to take them to continue training, but at the cost of eliminating a team member.

Everyone once wondered if they heard it wrong. Didn't they say that the elimination was over? Why is there an elimination system now?

"The situation like this time has not happened once or twice. If this situation happens to you in the follow-up mission, it will cause immeasurable losses, so I decided to eliminate another team member."

Everyone was very nervous when they heard that they were going to be eliminated. After all, elimination means that someone has to leave. Each of them has put in 100% effort to be able to come here and to be able to stay, and no one is willing to leave.

And Qin Yuan posed a big problem for them, let them decide who to eliminate.

"Each of you is actually very good, everyone is very strong, but I will only give you three hours, so before the sun goes down, you must give a place, and then the rest of the players continue to train ."

Qin Yuan left after finishing these words. This is the solution he said. I have to say that his solution is quite hurtful to be honest. After all, if they are allowed to make a decision, it is probably the result of cannibalism.

Jiang Xiaoyu and the others had been watching the excitement from the sidelines. It is estimated that this group of female soldiers will have a duel, or some kind of competition, and finally eliminate that person.

However, what they didn't expect was that this group of female soldiers didn't make any noise, and everyone just sat together quietly.

The long silence was finally broken by the No. 6 squad leader. She stood up and said that she was the one who caused the fight this time, and she should be responsible for it.

Chapter 1250: Ladies and gentlemen, have you been elected?

"It's not easy for everyone to come to this place. Zhao Ming, I also hope that you can get along well with the team members in the future. Don't let this happen again. I will take responsibility for this time, so I will go out."

As soon as the sixth squad leader said, Li Hong quickly stood up and opposed that anyone can go, but it must not be the sixth squad leader. How much effort La has made to be able to enter the special forces team, and she is also very good, such a person It's so unfair to go out.

"No, anyone can leave. You definitely can't. Your ability is so strong. You will play a greater role in the future if you stay. If you can't, I will leave."

And something unexpected happened to everyone. They didn't have any disputes. The only dispute was that everyone wanted to withdraw from this quota first.

In fact, even though they have been arguing and fighting in the past few months, especially with Zhao Min, they have gradually developed feelings during this period of training.

Zhao Min looked at the people who were in dispute and shook her head. She knew that she should also stand up and bear this matter. She carefully recalled what happened before, and it was true that she was too determined to go her own way and did not understand the importance of comrades-in-arms.

"Stop arguing, everyone. In fact, I know that I am too independent. I have always been alone. In this case, it is good for you if I leave."

On the other side, Jiang Xiaoyu and the others looked at the few people who were arguing, and everyone was guessing who would choose to be eliminated in the end.

At this moment, Qin Yuan walked over silently, and lowered his voice, "No one will leave tonight."

"Brother Qin, what do you mean? Then why do you make such a difficult problem for them? Besides, I think they all take it seriously. "

"However, it depends on their performance. If it is really what I think, then everyone can stay."

Everyone didn't know what Qin Yuan meant, so they could only wait to see the situation later. Soon it was the time set by Qin Yuan. He strode to the playground and looked at the people who were still struggling.

"How is it? Have you been selected, ladies? If you are selected, then end it as soon as possible, so as not to delay my next training."

The rest of the people, look at me I look at you, and finally gave a result that they were all disbanded, because invisibly they are already a whole, they are already a team, during this time During the running-in, they are already a complete team.

No one can do without anyone. Since this is the case, it is better to disband all of them. Qin Yuan stared at them coldly, and asked loudly again:

"Is that your answer?"

"Reporting to the instructor, we are now a whole, we are indispensable, even if we usually fight, but we know that we can't do without anyone!"

Hearing this, Jiang Xiaoyu and the others also came out and applauded. I have to say that everyone admires their courage, and they are all betting. If Qin Yuan agrees, then the entire team will be disbanded. After all, for Qin Yuan In practice, it may be faster to retrain a squad.

But this was Qin Yuan's answer, and Qin Yuan then gave them another choice.

"Very good. Now you have a preliminary sense of unity, but this is not enough, but I can give you one last chance. If you pass, then all of you will be promoted. If you fail, then you will directly consider substitutions."
