

## Special Soldier 1251

Chapter 1251: Is 5 minutes too long to prep?

To be honest, everyone was also very nervous. When the sixth squad leader said this just now, the whole body was shaking. After all, everyone had put in so much effort, but Qin Yuan did not expect Qin Yuan to play cards out of common sense.

"I will give you five minutes to prepare. I don't want to see any more quarrels, but that is your business, because I will hide inside the small building. You need to find me. If you succeed, then all Advance."

This condition sounds very easy at first glance. After all, it is too simple to search for a person in the small building, but Qin Yuan gave them a time limit, and they must find it within half an hour.

Everyone is a little strange to hear the rules, no matter what they are given time, after all, it takes time to hide and hide.

"Report to the instructor, is this time too short?"

"Why? Half an hour is too short for you?"

"No, instructor, are we saying that your hiding time is too short? There is no time to hide."

After listening to Qin Yuan, he just found it funny. After all, this time is enough for him, "You don't need to worry about these. I hope you can find me in the next half hour."

After Qin Yuan finished speaking, he entered the opposite building, and Jiang Xiaoyu also started to count, and they could go in after the five-minute preparation time, because now they can discuss.

Everyone felt that Qin Yuan was definitely giving them water, which was too obvious. How could it be possible to not find a single person in such a building for half an hour? This is simply a joke.

They all felt that they didn't need the five minutes of observation time, they could just go in, and Jiang Xiaoyu reminded them again.

"I'm reminding you that it's best to do what you said before. If you don't think it's necessary, it doesn't matter."

Li Hong recalled this sentence carefully, every hint Qin Yuan gave was in his words, just like their previous knockout matches.

But is five minutes of preparation too long? They didn't have anything to prepare. After struggling for a while, they decided to enter as soon as possible. After all, there was not much time left for them.

In this way, everyone walked into the small building together. This small building is usually their training place. There are seven floors in total. The space is not big, and there are some basic buildings inside that can be used as hiding places.

After everyone went in, they began to separate each room, and quickly searched each floor. This time they were not arguing, but all obeyed the arrangement of the sixth squad leader. After all, she was indeed the most experienced among these people.

The Sixth Squad Leader quickly assigned the personnel. If they were assigned in this way, they could search four floors almost at the same time, which would greatly shorten the time.

It's just that after searching all four floors, there was nothing found. Everyone entered the remaining three floors together. There are about four rooms on the first floor. Some of the rooms have buildings, some are empty rooms, and there are some props for training.

But it's a pity that there is nothing. At this moment, Zhao Min noticed that the dummy on the opposite side moved a bit. What's the situation? Could it be that Qin Yuan disguised himself as a dummy?

Just when she thought she was going to find it, she rushed over quickly, but she didn't expect that it was really just a dummy, but the wind next to her shook her clothes.

Chapter 1252: All are 1 group of vases

Everyone kept searching like this, and soon the seven-story building was searched by them, but nothing was found.

This is really strange. Several people looked at each other in blank dismay. They were very sure that they hadn't missed any corners just now. After all, this was their opportunity. How could they miss it? But after searching, they found nothing.

Ten minutes have passed now, and there are still 20 minutes left before the time set by Qin Yuan. Everyone can only go down to the first floor again, and start a more detailed search.

Xia Ying wiped the sweat from her forehead when she walked to the top floor. It was really difficult. It can be said that they searched more carefully this time, and she spared every inch of it, but it was impossible for anyone to exist.

"This is really strange. Where exactly is Captain Qin hiding? It's just such a small place, it's impossible for us not to find any of them."

"Could it be that he wasn't hiding in this building at all?"

"This should not be. He said before that he would enter this building and let us look for it."

As the time passed by, everyone began to search separately again, but there was still no whereabouts. In the end, there were only seven minutes left, and everyone gave up. Is it going to be like this? This is the end?

Zhao Min's competitive spirit was very strong, and she was a little unwilling. She ran all by herself and found nothing. She didn't even let go behind the thin wooden boards.

After searching around, he found nothing, so Qin Yuan is too good at hiding.

Just when everyone was about to give up, Li Hong recalled what Jiang Xiaoyu said before, telling them to follow the rules and reminding them before, let them have five minutes to prepare and observe. They prepare, but let them observe.

She hurriedly reported this idea to everyone, and since they had all searched inside, could Qin Yuan be outside?

"It shouldn't be possible outside, there aren't any buildings to cling to outside."

But as the time passed, there were only the last three minutes left, but when everyone came out to watch, they were instantly stunned. Qin Yuan hung on the outer wall in an indescribable posture.

It was at the last moment that they found Qin Yuan. He let go of his hand and jumped, just like that, he jumped directly from the outer wall of the seventh floor.

The female soldiers below were stunned. Although they usually saw him doing other operations, this scene was too exaggerated. He jumped off the seven-story building without any protective measures, just like that.

It's the outer walls. They train every day. Basically, there is no place to put their feet on. How did he stay there for such a long time.

It's just that Qin Yuan didn't explain after jumping down first, but punished them first. Although they had found them within the specified time, Qin Yuan felt that the time was too short.

"This is the result of your self-righteousness. At the beginning, I said that I would give you five minutes to prepare for observation. None of you care. If you observe carefully after five minutes, you will definitely find that I am on the periphery."

Everyone was silent when they heard this, and accepted the punishment silently. The recent training really made them a little too drifting.

Chapter 1253: Zhao Min became the captain of the commando

This team, Qin Yuan, has been training for nearly two months according to the training method in the system manual. They are very strong in other aspects. The only thing lacking is experience, and the running-in between comrades, but this thing takes time.

Just like today they already know the importance of the team, and after completing the three target points in the handbook, the team is almost ready to start.

When the team disbanded and went back, Xia Ying really couldn't help the curiosity in her heart. She was really curious about how Qin Yuan kept his balance in that place.

Unexpectedly, Qin Yuan just took out a long nail from his pocket, about 10 centimeters long.

"That's it, it's very simple, put a nail on the outside wall, and then hold the nail to maintain balance."

If you hadn't seen it with your own eyes, no one would have believed it. This nail was able to last for such a long time. More importantly, how did this nail get in?

There are too many things that everyone can't figure out. The main reason is that Qin Yuan always gives people a sense of mystery. How strong is his ability? He can maintain balance on the outer wall just by relying on this nail. It can be described as elusive.

The next day, Qin Yuan conducted prisoner torture training for them. They were female soldiers, and the battlefield they would face later was very cruel. They had to carry out various undercover missions.

So there are many things they have to go through. During this training, Qin Yuan also inoculated them in advance. This training will be very painful, and they will try to simulate actual combat as much as possible.

Although everyone was well prepared, during the training, Xia Ying couldn't bear it any longer. She gritted her teeth and was about to be knocked down by the torture in front of her several times, because Qin Yuan and the others really did it. .

Electric batons and electric chairs are not the most cruel, and there are water prisons. Before this, they have heard of the training of the special brigade, but they did not expect that this is the horrible prisoner torture training.

Moreover, this kind of training was carried out directly for three days. Generally speaking, this kind of prisoner abuse training is basically a few class hours, but Qin Yuan used all the items on them. The more he trains now, the more he will treat them in the future. more help.

Mentioning that these three days were completely the life of the first class, Li Hong did not dare to think too much. Everyone was glad that this was just a drill, and Qin Yuan also told them that once captured, it would be worse than this. More cruel, they will suffer more inhuman torture.

In this way, at the end of the last class, this team was also established, but the formal awarding ceremony has not yet been held. This team is already perfect, and in Qin Yuan's view, there is absolutely no problem.

Moreover, in these several training and assessments, I did not expect Zhao Min's ability to be very outstanding, even surpassing the sixth squad leader. Before, even Qin Yuan thought that the sixth squad leader was the most suitable captain, but now he gradually discovered that Zhao Min is also quite good. suitable.

Although Zhao Min had personally eliminated her teammates before, it was under pressure. After a period of training, her ability was indeed very outstanding.

In this way, Zhao Min became the captain of this commando, and the sixth squad leader became the deputy captain, mainly to assist in the work.

They have come out of separate training camps.

Chapter 1254: eat early

Now go to Yunbei to report to Long Baichuan, and prepare for the awarding ceremony, and this women's special warfare team was also named by Qin Yuan as the Blade Commando.

Like sharp knives, they will penetrate directly into the enemy's heart and enter the most dangerous areas.

When Qin Yuan brought the team back to the beast camp, the soldiers of the surrounding Marine Corps were also training. Everyone couldn't help but look towards them when they saw the female soldiers.

"Look, there are female soldiers over there."

"But there are only these few people. It seems that the selection training mentioned last time will form a women's special warfare commando."

At this time, there was a male soldier in the team who was very disdainful, "Let me tell you, female soldiers should not be formed into a women's special warfare commando. Their advantage is not here. They should be in the rear. This is not robbing us. quota?"

Because in his opinion, the commando team was originally limited, especially according to the current situation. As a result, part of the training resources were allocated to the female soldiers, so their male soldiers would have no chance.

So this made him feel very unfair. In his impression, female soldiers should work in secretarial work in the rear or in the health team.

"Besides, I think it's just fooling around. No matter how good Qin Yuan is, it's impossible for him to train female soldiers better than male soldiers."

"I don't know about that. After all, he is the God of War. Do you think that the one who comes out of the hands of the God of War is not powerful?"

The man smiled, but he didn't think so. They didn't dare to say anything more when Wugang blew the whistle at this time, and quickly gathered in front.

After a while, Wuhan Iron and Steel announced that because the newly established commando team had a separate living and training area, the dormitory for the male soldiers closest to the training ground was divided as their separate training area and living area.

And their dormitory for the male soldiers has been moved to the rear, they are going to relocate, but they didn't expect them to give way to the female soldiers, which caused dissatisfaction among the male soldiers, but what the soldiers have to do is to execute orders, everyone. Although he is not convinced, he can only execute it.

But what makes everyone even more dissatisfied is still to come. In addition to giving them priority in the dormitory, even the meal time is different. They have the priority to eat.

They eat 15 minutes earlier than these male soldiers. In fact, this is not considered special care. It is mainly because of the training programs that Qin Yuan set for them. If they do not eat earlier, it will be too late to complete. There are training tasks.

Under normal circumstances, their male soldiers would get up at 6 o'clock to start a day's training, but this assault team started training half an hour earlier at 5:30.

In just three months, they have mastered the skills of blasting, eavesdropping, lurking, and sniping, and others need a long-term running-in to improve their physical condition.

But it was because of the fact that they ate early that made everyone dissatisfied. When everyone was training in the afternoon, the Razor Commando had already disbanded and was preparing to gather for dinner.

Zhao Min led the commando team towards the cafeteria, and when they passed by the male soldiers, some people in the team became dissatisfied.

"See? This is people's priority. I really don't know what is the priority for a group of vases.

Chapter 1255: Did you forget to even report when you entered the door?

And every time they eat first, why? "

When Zhao Min heard this, he turned his head slightly, and other people in the team heard it too, but after such a long time of training, they didn't pay attention to these words.

But the male soldiers saw that they didn't respond, and instead they talked more and more vigorously, "The most important thing is that they give priority to everything. I don't think it's really a commando team. It's called a special team. They are a special team, so That's called the Special Forces."

As soon as she said this, there was a burst of laughter among the crowd. Zhao Min clenched her fists tightly. If it was her previous personality, she would have rushed forward and punched them hard, but now after such a long period of running-in, her temper It has settled a lot.

"It's too much to say that about us."

"Anyway, the mouth grows on other people. Whatever they say, don't bother that we go to eat first, or we will delay the training at night."

The male soldier was still booing from behind, because seeing them indifferent, he felt that he had hit their weakness.

I thought it was just a small episode and it would be over soon, but I didn't expect the conflict to break out again when everyone was training collectively the next afternoon.

In order to improve their training in the brigade, and this was specifically explained by Qin Yuan, because the special operations team is different from the normal team. Their training tasks are very strong, so there will be some special care.

Long Baichuan also wanted Qin Yuan to help him train another special assault team, mainly for patrols on the coast.

Qin Yuan felt that there were already enough commandos on their side, and it would be better to improve the overall ability in order to train the commandos, because the commando team is most suitable for various tasks.

To carry out maritime patrol missions like them, it is mainly based on the entire team. In this case, the assault team does not have much effect.

While the two were discussing, a soldier ran in anxiously, "Captain Dragon, it's not good!"

"What are you doing in a panic? Did you forget to report when you entered the door?"

The soldier hurriedly made a symbolic report, and then said that it was the sharp blade commando and the male soldier who fought on the training ground.

Qin Yuan frowned slightly when he heard this. He shouldn't have frowned. The team he trained was already very stable, and he shouldn't have conflicts with others casually.

In this way, the two hurried to the training ground. After all, fighting in the army is a big deal. In addition, this is not a fight between one or two people, but a collective fight between them. This is a big event.

After Qin Yuan and the others came, they realized that it was not as exaggerated as the soldier said. It was indeed a fight, but three or four male soldiers had already been thrown to the ground, and the people around were just booing, and some were not convinced. .

At this time, someone in the crowd said that the captain was coming, and everyone turned their heads to see Long Baichuan walking over with his eyes wide open.

Everyone quickly stood up. The male soldier who fell on the ground wanted to get up, but found that he couldn't move at all. The female soldier's attack was too ruthless.

"What's going on? You really don't have any organizational skills. Do you know what happened to me here?"

#### Chapter 1256: Male and Female Soldiers Confrontation

The male soldier on the ground is also very embarrassed. Now there are more and more people watching. He wants to get up, but he probably has a broken wrist, which is too painful.

Long Baichuan frowned. He still didn't know the details of the situation. He didn't know until the two sides asked clearly. It turned out that they were fighting for the training ground.

According to the normal situation, the Razor Commando was originally trained first, because Qin Yuan had other training tasks behind him, so they were asked to do training in advance, not just the shooting training ground here.

There are other large and small training grounds that are dominated by the Blade Commandos, and they are given priority first, because now there are more training programs here.

Unexpectedly, this aroused the dissatisfaction of those male soldiers, because they felt that female soldiers should be given priority in everything, and those who eat and take a bath are different from them. As a result, even the training grounds now give priority to them, which caused a lot of trouble. Many people were not convinced.

In the past, Li Hong and the others were patient again and again, but the tolerance did not bring any good results. Instead, they intensified their ridicule. Now they couldn't stand it anymore, and a conflict broke out between the two sides.

After figuring out the reason of the matter, Qin Yuan can be regarded as a caretaker. Although they are all members of the Marine Corps, no matter what, the Razor Commando was trained by himself.

"Long team, it seems that these male soldiers are already impatient and want to try it out in advance."

"I said, you guys are really brave enough to compete with other female soldiers here? Besides, if you don't have the skills, just line up at the back."

Balang rushed up and looked at Nanbian who fell on the ground with some disdain. He felt that if he wanted to say something, he should use his strength to speak, but in the end he was knocked down to the ground by his words, which is really embarrassing.

Qin Yuan knew that the problem would not be resolved if this continued, and there might be other conflicts later, so he simply suggested to Long Baichuan to organize a simulated confrontation.

This time it's a confrontation between male and female soldiers, not just their commando confrontation.

As soon as this confrontation was mentioned, the people around instantly became interested. After all, many people were very interested in this commando team, and everyone wanted to see what the commando team trained by God of War could achieve. Effect.

Long Baichuan also thought the same way, just to test their training results to see if they could be established, and he immediately explained that if the Blade Commando team wins, then he will immediately confer titles on them later.

Li Hong and the others were very happy when they heard this, because they had been waiting for this conferring ceremony for more than a week, but the leaders above had remained silent, and they also wanted to test and see their specific abilities.

Qin Yuan is very sure about the ability of this assault team, everything is done according to the systematic training manual, basically there is no problem.

At this moment, the male soldier who fell on the ground just got up with the help of the people next to him.

"Competition is fine, what I want to know is how to conduct such a competition."

"It's very simple. In fact, it is a confrontational competition. The confrontational competition can test the combat coordination capabilities of the two teams, as well as the ability to advance and respond temporarily."

This is of course no problem.

Chapter 1257: It's not honorable to win

Just when the male soldier had agreed to fight, Qin Yuan proposed another condition.

And at this time, Long Baichuan also said a very attractive condition, as long as they win, these female soldiers can not only accept Qin Yuan's guidance and training, but also give them all the priority given to female soldiers before.

Qin Yuan's current reputation is quite resounding. After all, he is a figure at the level of the God of War. This condition is very tempting. Being able to get the guidance of the God of War will not be a problem in the later training.

So under the temptation of such conditions, everyone readily agreed, but this is a condition for male soldiers, and Qin Yuan has not said anything about the female soldiers.

"Well, after all, they were trained by me, and it can be said that they are capable of an independent special operations team, so in order not to bully you, you can have twice the number of them."

This is too contemptuous of the male soldiers. For a while, some people in the team were very dissatisfied. Originally, they thought that even if they were some kind of special forces team, there was no need to make such a fuss about dealing with these female soldiers.

"Captain, it's a bit too insulting for you to say that, no matter what, we are also members of the Marine Corps, and we came out of the beast camp."

Before this, these female soldiers also felt that their training in the cash register was already very harsh, but it was not until Qin Yuan helped them train that they knew what cruelty was, and they could not see any hope at all. Stand out, let alone now.

"What I just said is very clear. This is the condition of your confrontation. You can choose to accept it, and of course you can choose to have the same number as them, but it will be ugly to lose."

What? This is simply looking down on them. This time the male soldier quit. Just when they were about to refute, the soldier who was knocked down just shook his head.

"I said that you really don't understand. Since Captain Jiaqing has said so, is there any reason to refuse?"

Although it is true to say that, they can take advantage of it to a certain extent, but winning in this way is not very glorious, and it always feels a little weird.

The conditions offered by Long Baichuan were very attractive. No matter what, they had to win first. At this time, Qin Yuan also began to express his own conditions.

"But if you lose in this confrontation, you must apologize to my players and become their training partner. I will train them in combat in just two days."

As far as this condition is concerned, they just need to apologize. These male soldiers don't think it matters at all. No matter what, it is a sure win for them. Besides, it is impossible to become a training partner. They have already won in terms of numbers.

In this way, the two parties had already made an agreement, Long Baichuan smiled and said nothing, these male soldiers really underestimated Qin Yuan's training results, this kid always played some unexpected tricks.

At this time, the female soldiers did not become nervous because they had to fight against the male soldiers. They had already gone through various trainings before.

Qin Yuan just waved his hand, "Although it was really wrong to fight just now, I won't be ashamed if I won the fight anyway. Let's go, I invite you to have a barbecue."

Chapter 1258: leading male soldier

This time, Li Hong and the others cheered, and it had to be said that Qin Yuan was still on their side. In this way, everyone followed Qingyuan to the beach to prepare for fishing and barbecue.

He blinded the male soldiers next to him, what's going on? They were about to have a confrontation, so they didn't say anything, and they had to go to barbecue.

At this time, Wugang came over, and he blew his whistle to tell these male soldiers to step up their training, "To be honest, you are not at the same level. If you really want to win, then give me double training, and don't do it again at that time." shame."

For Long Baichuan and Wuhan Iron and Steel, they were not the ones who were ashamed anyway, because no matter what, they were their players.

The male soldiers didn't relax their vigilance either. No matter what, it was a team trained by the God of War. Everyone started training, and they selected 15 of them.

The competition was agreed to be three days later, and the male soldiers felt that they were basically sure to win. On the one hand, they had already won in terms of numbers, and the biggest key problem for both male and female soldiers was physical fitness.

Could it be that these female soldiers are physically stronger than them after being trained by God of War? So this is their advantage.

On the other hand, Qin Yuan didn't interfere too much in their confrontation this time, but left the initiative in their hands, because he had to learn to let go now, instead of making decisions for them all the time.

"For this competition, only you can rely on yourself. You must remember that the only people around you who you can trust are your comrades-in-arms, and only your comrades-in-arms can cooperate. Do you understand?"

The person Qin Yuan looked at when he said something wrong was Zhao Min. Now she is the captain of the commando. Although this guy has a criminal record before, he has restrained himself a lot now.

Zhaomin was a little embarrassed, "Instructor, don't worry, after all, I was ignorant at that time, and I will never make such mistakes in the future. Of course I know, they are all my comrades in arms, sisters who share life and death."

And today they fought because it was too much over there. They laughed at Li Hong's height. In these videos, Li Hong's height is not very outstanding. In addition, she is originally from the south and her skin is relatively dark, so she was called Those male soldiers were laughed at, so they started fighting.

Zhao Min really regarded everyone as comrades-in-arms, that's why he came out to fight. Qin Yuan was also looking forward to this competition. After all, this women's special team was selected from recruits. He wanted to read the training manual for the next three months. How is the training effect.

Soon after three days came the competition day, many people were looking forward to today's competition, Long Baichuan even made a bet with his lover.

"You look very confident, it seems that you have taught them your plan a lot."

"Team Dragon, you think highly of me in this matter. I will definitely not instill any plans with them. Now they have to make a choice, and they are the ones who should make the decision. We just wait and see the good show."

Both of them have come to the stage to draw lots. The red side is drawn as the attacking side, and the blue side is drawn as the defending side. This time the male soldier is drawn to the defending side, and the leading male soldier is called Liu Chuan.

This guy was the one who was overthrown by Li Hong before, and this time he also led the male soldiers to fight as the captain.

Chapter 1259: This battle is not easy

In addition, this guy is actually quite capable. Although fighting is not his strong point, his marksmanship is absolutely fine, and he has won the championship of their military region before.

So before being knocked down by Li Hong on the ground, he felt very shameless, so he just took this opportunity to return it.

And this time, God helped them, they got the starting lineup, because this time the place they need to defend is the previous training base, which can be said to be a position that is easy to defend and difficult to attack, surrounded by high walls.

In addition, they also have an advantage in number, and they can all be separated on the surrounding walls as a warning.

Liu Chuan has already begun to assign tasks. He has assigned several positions for snipers, observers, and patrols. He is lurking at the highest commanding height, and his marksmanship is basically fine. Below that commanding height He can see clearly the situation, and can make research and attack in time.

"Brother Liu, I said that you are too careful. Isn't it necessary to be so cautious when dealing with a few girls? Besides, I think they can take it down? Even if they are given a day."

"I think it's the same. I just walked through the high wall, and that little girl probably couldn't climb up that day, hahaha."

And not only that, Qin Yuan seemed to be particularly confident in his assault team, he also set another mission indicator, requiring them to directly capture the training base in front of them within an hour, otherwise, even if they captured it, it would be a failure.

In the eyes of those male soldiers, this was simply a gift to the door. It seemed that they were sure to win this time.

Qin Yuan's training for them from the very beginning has to be fixed and quantitative, and must be completed within the time limit, so this is not a problem for Li Hong and the other female soldiers.

At the beginning of the game, Qin Yuan also returned to the stands. Jiang Xiaoyu and the others were also looking forward to it. After all, they had been training with them during this time, and it could be said that those male soldiers did not know their true level.

But Jiang Xiaoyu and the others knew that these female soldiers were not so easy to mess with. They had conducted two simulated confrontation trainings before, and they were able to draw with Jiang Xiaoyu and the others.

Jiang Xiaoyu, they had been increased by Qin Yuan before, and they had also received special training. Under such circumstances, these female soldiers can draw with them, and this battle is not easy.

Three minutes into the confrontation, the male soldiers did not see the female soldiers attacking. At this time, the sniper in the southeast direction spotted a female soldier, and she moved very fast.

The sniper has been aiming at her, but he has not been able to find a chance, so he can only wait for the opportunity, and then shoot. He knows the importance of the first shot. If he misses it, it will be even more embarrassing. In addition, it will also make female soldiers more vigilant.

"Captain, look at how they really underestimated us. They planned to come in from the southeast. It's really your idea. They probably think that there are few people here, and they plan to use this place as a breakthrough."

Liu Chuan also had his own tactics. He deliberately arranged only one sniper in the southeast direction, so that the female soldiers mistakenly thought that there was only one person here.

In fact, he can also see the position here from that commanding height, and he can cooperate at any time. There is also a blaster on the side. As long as they dare to come in, they will never return.

Chapter 1260: sudden task

"So, I said that the girl is just the girl to make trouble. It seems that we are bound to win, brothers, everyone cheer up, end the battle as soon as possible, and quickly collect the net after they come in."

"Hahahaha, it looks like we can have dinner early today."

However, as soon as the person next to him finished speaking, a grenade was thrown in. Where did it come from? With the grenade on the commanding heights, Liu Chuan quickly turned around.

Unexpectedly, the female soldiers just now were just here to attract their attention. What they wanted to attack was from the southwest direction. The wall on the southwest side was much higher than the other sides, so Liu Chuan placed more people there. At least, there is only one male soldier guarding there.

"I'll go, this is too exaggerated, they can throw such a high wall in."

Immediately after an explosion sounded, the sniper next to him jumped relatively fast, but the poor observer was eliminated on the spot without firing a single shot.

The observer was blinded, the speed was too fast, and they cooperated really well, on the one hand to attract their firepower, on the other hand they threw the grenade almost at the same time.

The main reason is that the position of the grenade is just right. How much training does it take to hit it so accurately?

Then the grenade blasting female soldiers also launched a strong attack. Zhao Min and the sixth squad leader cooperated very closely. Her marksmanship was relatively accurate, so she was willing to cover her teammates behind.

The sixth squad leader led the team to quickly climb up the high wall with the help of the human wall. At this time, the sniper on the opposite side was about to start a counterattack. Zhao Min took his time and directly eliminated the sniper on the opposite side with one shot.

Long Baichuan looked excited, and stood up directly from his position. This scene was really exciting. The speed and accuracy of the female soldiers far surpassed them.

In this way, only 15 minutes later, they successfully broke into the interior. There were bursts of gunshots and bursts of explosions. After another ten minutes, they only saw white smoke rising from Liu Chuan's body with a dazed expression on his face. Walked out, did not expect them to be eliminated.

Fortunately, there were still three of them, and he pinned his hopes on the last three, hoping that they would persevere.

Now he only hopes that those three people can persist for an hour, because Qin Yuan said that the time he set is one hour, and if the female soldiers are not defeated, they will lose no matter what.

But his hope was completely defeated, the last two people were also eliminated, and there was only one person left, and none of the female soldiers were eliminated. This is really a big joke. There are many, and under such generous conditions, they were directly breached.

"What's going on here? Aren't the three of you in the same position? Where is the other person?"

"Da Niu is probably coming soon, because I saw them rushing in together. Anyway, we were eliminated and had to come out."

Liu Chuan sighed helplessly, this time he was embarrassing to the male soldier, what he said so swearing before, is now completely slapped in the face.

These female soldiers are really not easy to mess with. Their speed and reaction are too fast, especially their accuracy and marksmanship. He has never admired anyone.
