

Special Soldier 1361

Chapter 1361: always something is hidden from him

The three of them are astronauts who have been on the space station for a week for the first time, and they have done an excellent job. It is very likely that the three of them will still be needed to set off together next time.

"We still have many opportunities to cooperate in the future. You should go back and have a good rest. If you have the opportunity to go to our side, I will treat you to a roast whole lamb."

Yang Chongming waved at him, and Qin Yuan and the others left just like that. They came to a specific airport, and now they can return to the brigade by taking a helicopter.

Along the way, the two of them talked about interesting things in the team, and the time passed quickly, and they had already seen the guard post of the brigade.

After they got down, they found that Fan Tianlei was waiting for them. This guy was standing on the ground and said hello with a smile. Qin Yuan jumped off the helicopter and turned around to look for Li Erniu and the others. They should have known about it a long time ago. I'm coming, why didn't I see anyone?

"Qin team, Long team, you are back, let's go, everyone is waiting in the cafeteria to welcome you."

Even making it so big, Qin Yuan didn't think too much about giving himself a welcome in the cafeteria, just like that, the two of them came to the cafeteria.

Gao Shiwei was smiling in front, and all the soldiers applauded when they entered just now, expressing a warm welcome to them.

It's just that people from the Zhannan team were there, but they didn't see the red blood cell team. Just when Qin Yuan was about to ask, Gao Shiwei hurriedly said:

"You brat, you haven't come back for such a long time, can't you even say hello this time?"

"Captain Gao, look at what you said. Didn't I greet you just after entering the door? It's just Er Niu and the others? This group of boys has been gone for a long time."

"They were sent by me to carry out a mission, and they may come back in a few days. Now you can rest assured that we will welcome you, and someone from the Military Daily will come over later to interview you two."

Qin Yuan didn't think too much about Gao Shiwei's words. After all, it is common to perform missions. Although he is not the captain, he also believes that each of his team members can become an excellent captain and be able to perform missions.

In addition to having dinner with them, I also accepted interviews with various reporters, and it continued until the evening.

The next morning Qin Yuan woke up and came to the training ground. This is his daily training, but he always felt that the guards at the door looked at him a little evasively.

It seems that there is always something hidden from him, and the people in the whole brigade seem to be avoiding him, not daring to have too much communication with him.

Long Xiaoyun also brought the team to the training ground, "I didn't expect you to become a polished commander just after you came back. Do you want to join us and train with us?"

Originally, Long Xiaoyun was a normal invitation, but Fan Tianlei next to him was very nervous. He quickly stood up and said, "Dragon Team, I think Captain Qin probably doesn't want to train with us. Not very good."

"You bastard! What are you talking about? Are you afraid of training or something? I haven't taken you with me for a long time, what do you want to do?"

The more Fan Tianlei explained, the more chaotic he became. He quickly shook his head, "I'm not afraid that Captain Qin will make our tasks worse. We haven't relaxed recently, and we've been training every day."

Chapter 1362: What happened?

Originally, Qin Yuan didn't want to argue with them too much, but hearing Fan Tianlei's words aroused his desire to win and immediately led them to practice.

"Look, you guys are lacking in practice, just wait, when the people from our team come back, you will compete again."

At this time, Qin Yuan noticed that Fan Tianlei's face was a little unnatural, especially when he mentioned the red blood cell group.

He couldn't tell what was weird, but he didn't want to ask too many questions. When the Wolf Warriors team was resting, Qin Yuan found Long Xiaoyun to express his opinion. He always felt that everyone in the team seemed to be there after returning. Avoid him.

"I don't have this feeling. Could it be that you feel wrong? I think everything is normal."

"No, it's just that everyone in the red blood cell team is running away when I mention it. Is there really something wrong?"

Just as he was talking, Fan Tianlei walked over. He wanted to call Long Xiaoyun over, but he was caught by Qin Yuan.

"What's going on? You'd better tell me the truth, or don't force me to use some special means."

Hearing this, Fan Tianlei's eyes straightened. After all, he knew that Qin Yuan would hypnotize him, so he could only quickly avoid Qin Yuan's eyes.

"What's the situation? What's going on? Tell me quickly."

Faced with Qin Yuan's persecution, Fan Tianlei had no choice but to tell him the truth. It turned out that the red blood cell team had indeed gone out to perform a mission, but that was all two months ago.

But there was an accident during the mission. They went to the mountain to search for the trapped donkeys, but that piece of forest was primitive and the terrain was very difficult to walk.

In addition, due to the continuous rain, landslides occurred, which increased the difficulty of rescue.

When Wang Yanbing was rescuing a trapped crowd, a landslide suddenly occurred. In order to protect the rescued masses, he directly blocked the falling objects with his body, but he did not expect that the landslide was too severe. Wang Yanbing and the rescued one Donkey friends are buried below.

Everyone carried out the rescue in the first period of time, and both of them were rescued, but it was a pity that Wang Yanbin's leg was directly pressed down by the falling rocks. It was held down for three hours.

Speaking of this, Fan Tianlei lowered his head, he didn't know how to continue talking.

"Then what happened? Tell me quickly!"

The aura on Qin Yuan's body at the moment was very scary, and Fan Tianlei could only say it quickly. When Wang Yanbing was rescued later, his left leg had to be lost due to long-term oppression.

In the end, it had to be surgically removed' Hearing this, Qin Yuan was completely stunned. He was a little angry, and rushed forward to grab Fan Tianlei.

For a special soldier, legs and hands are essential things. If he is missing a leg, what will he do in the future?

"Why didn't anyone report to me who made the claim without authorization and asked him to cut off that leg. You know that if I were here, I would definitely be able to keep it!"

"Let him go! This matter has nothing to do with them, it's my order."

Qin Yuan turned his head and found that it was Gao Shiwei. At this moment, Gao Shiwei had a serious face, and he walked over slowly.

"Why! Team Gao, why didn't you contact me at that time?"

Chapter 1363: can't hide it

Because they were undergoing intensive training at that time, it was completely closed and could not contact the outside world at all.

Even if Gao Shiwei and the others wanted to get in touch, there was nothing they could do. At that time, they were in a critical period of training, and they must not be disturbed, so Gao Shiwei had no choice but to make this decision.

If the leg is broken, with Qin Yuan's ability, he can definitely connect it, but now that it has been surgically removed, how can he restore that leg?

"It's not fair to him. You should have informed me at the time, so what should he do in the future? If I were here, I would definitely be able to save him and keep his leg!"

Qin Yuan almost roared out these words, he knew it was the senior senior who made the decision, he couldn't control himself now, rushed forward and asked him why, Fan Tianlei who was next to him quickly stepped forward to hold him, let him Don't mess around with him.

"Captain Qin, as you know, Yuan's matter has nothing to do with Captain Gao. After all, the doctor kept urging him on the operating table. In such an emergency, no one can do anything, and we don't want to do this..."

Gao Shiwei shook his head, indicating that he didn't need to say any more. He made this decision. No matter what, he seemed to be the sinner in everyone's eyes. As a special soldier, he lost a leg, which means What are you wearing? Everyone knows it, but he is more concerned about saving his life.

But in that situation, he had no choice. As the leader of the scene, he had to make a decision as soon as possible. Wang Yanbing's leg had already been seriously infected, and if he didn't deal with it as soon as possible, it would be life-threatening, so he could only do that.

Qin Yuan was a little broken. This news really made him unable to accept it. No wonder everyone avoided him. No one wanted to mention this matter.

"Captain Gao, where are my team members now?"

"Since that incident, everyone has been depressed, which is very bad for their state, so I let them take a vacation, and now everyone is still on vacation."

Qin Yuan walked outside, no matter what, he wanted to see Wang Yanbing first, even if his leg was gone, he would still eat his brother.

Fan Tianlei wanted to catch up, but was stopped by Gao Shiwei, let him go now, let him know the result earlier, I wanted to hide it later, but there is no way to hide it.

"Captain Gao, you're not to blame for this matter, you don't need to take all the responsibility on yourself' The pressure on you to mature like this is too great!"

"Can the pressure I bear reduce his pain? If it is possible, then I am willing to put all the pressure on me. I don't want my soldier to take risks. He lost a leg. For me, I'm sad too!"

Gao Shiwei seldom exploded his emotions, but at this moment he really couldn't bear it anymore. In that situation, he made a decision for this soldier. Although Wang Yanbing's life was saved, it also ruined his future.

What he can do now is to apply to the higher authorities as soon as possible. The subsidies for disabled soldiers like this are still very large. This is what Gao Shiwei can do his best.

Long Xiaoyun also wants to catch up, but now he is the only one in the brigade and the Wolf Warriors team, if they are leaving, if there is any urgent task, it will be more troublesome.

Chapter 1364: Can you take it back?

Qin Yuan was like a walking corpse. When he heard the news, he was completely stunned. He regretted it, regretting that he hadn't participated in the so-called training camp.

That might be able to save Wang Yanbing, but it's too late to say anything now, no matter how powerful he is, he can't let a person without legs grow back again, this is impossible.

He didn't know what to do, so he could only go there to see the situation first. After many inquiries, he found out that Wang Yanbing had been transferred to the local hospital, and he didn't want to stay in the military hospital.

The doctor who treated Wang Yanbing in the military hospital said helplessly: "We have tried our best, but there is no way, and this soldier is really stubborn, we let him stay here for free, and we treat him, but He still wants to go back!"

Qin Yuan can understand, because he knows that Wang Yanbing is very strong. When he knows that he has no legs, doesn't that mean that he is crippled?

In addition, this was originally a military hospital that would receive all kinds of soldiers, and he didn't want to show his embarrassment in front of those people, so he proposed to go to the local hospital.

Qin Yuan inquired all the way, and finally came to the hospital where Wang Yanbing lived. The conditions of the hospital where he lived were very poor, and it did not follow what he said before. Gao Shiwei had arranged everything and let him enter the local city hospital. , Unexpectedly, he asked to be transferred to the county hospital again.

Qin Yuan stood at the nurse's desk, and the two nurses inside were immediately attracted by him, and hurried over.

"Sir, what's the matter with you?"

"I want to inquire if there is a patient named Wang Yanbing on your side."

"Wait a minute, I'll check the system for you to see which ward he lives in."

The little nurse's eyes looked at Qin Yuan from time to time. This is a famous person. They had seen him on TV before. He was an aerospace hero. They didn't expect that there would be an aerospace hero in their small department.

The little nurse was sure that she was absolutely right, so she quickly called her colleagues, and the two were whispering below, at this moment, Qin Yuan heard a movement from the end of the corridor.

He looked in that direction, and saw a familiar figure, which turned out to be Wang Yanbing. At this moment, he was really in a mess, leaning on a walking stick in one hand, and ran towards the stairs with one hand.

Qin Yuan didn't care so much, rushed over quickly, and pulled Wang Yanbing, he is unshaven now, and there is a big footprint on the hospital gown'Qin Yuan frowned, he didn't know who it was , dared to do anything to his brother.

"Brother Qin? You... why are you here?"

"What did you do? If I don't come, do you look at you like this? What's going on!"

Wang Yanbing smiled wryly and pointed to the direction of the stairs, "A thief stole my military ID card!"

Qin Yuan was instantly enraged. Wang Yanbing looked like this now, and someone would actually attack him. He jumped down without saying a word, and the man running below quickly shuttled among the crowd with a peaked cap. There were already many people, and he kept pushing and shoving the people around him, causing chaos.

Qin Yuan's speed is really fast!

Chapter 1365: don't make trouble

He has never paid attention to this kind of thief. The thief knew that he could not run away. Seeing that the surgery trolley that was pushed in front pulled past the trolley and got in the way, he jumped over.

Before the people next to him figured out what was going on, Qin Yuan also chased after him, but the thief was not caught, and the people behind grabbed Qin Yuan.

"What are you doing? Didn't you see that our patient just finished the operation? You guys are messing around here, this is a hospital!"

"roll!"

Qin Yuan turned his head with cold eyes and spit out a word. The man who was holding Qin Yuan shook his hands instantly. That look was really terrifying. Although it was daytime and the temperature outside was very high, it made him feel a wave of endless coldness.

Qin Yuan threw a throwing knife directly on the thief's leg, very precisely, the thief rolled down the stairs directly.

The little thief who rolled down was terrified, he didn't expect this man's skill to be so good, he kept retreating, and retreated to the corner, Qin Yuan didn't intend to let him, a bastard, dare to attack his brother.

Qin Yuan greeted the little thief on the head with one punch after another. He didn't hold back any strength, and the little thief spit blood out of his mouth after a few punches.

The little thief was terrified, knelt on the ground and kept begging for mercy. This guy is so powerful that he has no chance to fight back.

"Brother, don't...don't hit me, I don't even know what it is, I, I'll give it back to you!"

"You bastard, you just have the heart to bully a disabled person, he doesn't even have a leg, how did you do it!"

This kind of person with no morals at all, Qin Yuan became more and more angry when he thought about it, and he intensified his efforts. At this time, he heard a sound of bouncing and jumping, and saw Wang Yanbing come down and pull him.

The little thief was beaten to the point of fainting, Wang Yanbing hurriedly stopped him, shaking his head non-stop.

"Brother Qin, there's no need, stop beating, you'll lose your life, there's no need for such rubbish, it's not worth it!"

"It's because it's garbage, so I'm cleaning up this ***** now!"

"Don't do anything, Brother Qin. This is a hospital after all. You see, people from the security department are here. Let's not make trouble. There's no need to waste your future for this kind of people."

At this time, Wang Yanbing was still thinking about Qin Yuan's future. He didn't want Qin Yuan to ruin his reputation for this kind of person. There will be lawsuits.

Qin Yuan shook his head' picked up the things that the thieves robbed on the ground, inside were a few hundred dollars and a military ID card, besides that, there was a group photo of all of them, on the photo Wang Yanbing smiled brightly.

Seeing this, he couldn't help having a sore nose, Qin Yuan turned around, picked up Wang Yanbing on his back and walked upstairs.

"Brother Qin, don't do this, you let me down, I can go by myself."

"Don't talk nonsense, I am your captain, and you are also my brothers. What happened to me being a brother? You are still being polite to me at this point?"

Only then did Wang Yanbing relax, allowing Qin Yuan to carry him back to the ward, and he began to keep silent. The reason why he chose this place was to escape, because he knew very well that he could no longer be a member of the Special Forces now. He didn't want to be a burden to anyone, so he just wanted to leave quietly.

Chapter 1366: that man is a space hero

He doesn't want to stay even in the hospitals arranged by the army. Whenever he thinks of those places, he will think back to the past. He was so good in the past, but now he is a useless person.

Qin Yuan didn't care so much, and went directly to discharge him from the hospital. In this environment, he absolutely cannot continue to live.

At this time, the people from the security department brought the little thief who was beaten into a pig's head and came up. They came to make trouble. After all, there was such a commotion and it was a hospital, so how could they just let them go like this.

"It's you! The guy I saw just now is quite rampant, do you know where this is?"

"The elder brothers are not like this. This guy is a thief. He stole my things just now, and my brother helped me recover them."

Wang Yanbing quickly explained beside him, and Qin Yuan frowned even more when he saw this. How did Wang Yanbing become so humble now, and he was not like this before.

Qin Yuan looked at the man who was beaten into a pig's head with contempt. This guy has no morals to steal money in the hospital, but the people in the security department don't care about it. After all, the beating is so severe that he will definitely go to the police station.

Qin Yuan was a little impatient. Now he just wanted to get Wang Yanbing out of the hospital as soon as possible. He didn't want to cause so many troubles. He took out all the banknotes from his pocket. He didn't bring much money when he came out this time.

"Is this enough money? What should you do with it? Take him to deal with other things, I don't care about the loss from the fight just now, is this enough!"

Several security guards were stunned when they saw the money. This guy had to say that he was really rich, but the security captain next to him was still a little bit reluctant.

"Brother, it's not easy for you to handle this matter. After all, there are so many patients in Nanshan. If you hurt others, we have to talk about compensation, right?"

Qin Yuan instantly understood what it meant, and took off the watch on his hand, "You can check this watch yourself, starting at 150,000!"

The moment Wang Yanbing saw the watch, he quickly grabbed Qin Yuan, "Brother Qin, that's not okay, this watch was given to you by the instructor of the Hunter School at that time, how could you just take it out like this."

"It's okay, now I don't want to cause too much trouble here, I just want to leave quickly."

The security captain looked at his watch, worried that it was a fake, showed a contemptuous expression, and then looked up and down.

"It's true to say so, but how do I know that you are true or false? If you lose a lot of goods here, wouldn't we be in a big loss, and no one can be found."

At this moment, the little nurse next to her rushed over. She pulled the security captain and underestimated a few words, and in an instant, the security captain's expression changed.

"Are you serious, that man is a space hero, how is that possible?"

"Don't you watch TV? He is the aerospace hero Qin Yuan!"

When the security guard turned his head, he found that Qin Yuan had left with Wang Yanbing, and the little nurse was even more annoyed. The security guard felt that since he was an aerospace hero, the watch should be authentic.

It seems that this time they still made a lot of money, and they didn't feel any shame for their previous behavior. This is another kind of blackmail.

Qin Yuan drove the car to take Wang Yanbing back. In the car, Wang Yanbing didn't say a word. He took out a pack of cigarettes from his arms.

Chapter 1367: How could it be possible to pick it up?

"Since when did you learn to smoke? This habit is not good. You are an excellent sniper..."

In the middle of the conversation, Qin Yuan felt a little regretful. It was true that which pot was not opened and which pot was lifted. Wang Yanbing smiled wryly, and then lit a cigarette. Now that he still manages these things, he is already a ***** to be honest.

In the smog, Wang Yanbing looked out the window and said, "Don't blame the brothers, I told them not to come to see me, you know I got into a big fight with them because of my temper."

"I just can't figure out what you are going to do? We are all brothers who have died, what should we do if something happens to you?"

"You mean like today, look at me as a cripple, why should I involve others? I can't even take an ordinary thief."

"You! Forget it, I don't want to talk about you, you should know it yourself."

Wang Yanbing's aura is very low now, and he is unwilling to communicate. Qin Yuan didn't say anything more to him, and kept driving until the entrance of his alley.

When he was about to get out of the car, Wang Yanbing shook his head and refused, "Brother Qin, save me some face, it's daytime, I don't want them to see me like this."

The more Wang Yanbing was like this, the more sad Qin Yuan was. He always felt that if he hadn't participated in the **** military training, he would have been able to save Wang Yanbing.

In this way, the two of them sat in the car until it was dark, and there was no way to connect outside, so Qin Yuan took Wang Yanbing back together. He is now a bit used to living with a cane.

Unexpectedly, when I walked to the door, I found that the door of his house was unlocked. Just as I opened the door, I saw He Chenguang and the others inside. They were all taken aback. It turned out that He Chenguang and the others did not leave, but were scolded by Wang Yanbing. Then came to his house.

I plan to change all the furniture in his house, and then get him a special nursing bed. After all, he is missing a leg now, so it will be more convenient.

Looking at all this, Wang Yanbing's eyes became moist in an instant, and his voice was a little bit more choked, "What are you doing? I've said that to you before, you just go away, don't worry about me, I'm a **** now !"

"You are our brother, can we ignore you? Do you understand at all times?"

Seeing this scene, Qin Yuan couldn't bear it any longer. Li Erniu came over, "Brother Qin, can Yanbing survive this situation? Can you help him."

When Qin Yuan heard this, he didn't know how to answer for a while, and he was not sure about this matter. He hadn't seen Wang Yanbing's wound carefully until now, so he could only say to try it first.

No matter what' They have been brothers for many years, and Wang Yanbing has let go of his previous grievances at this moment, because he always feels that he is a **** who will drag Qin Yuan and the others down.

"Brother Qin, you don't need to put too much psychological burden on yourself. I know my situation and I can't save you. Just tell the truth, just like me now, I don't blame Team Gao."

"Can you stop talking, kid? Let Brother Qin take a good look. How do you know it can't be cured?"

When He Chenguang said this, he thought it was funny. This leg has already been amputated. How could he accept it? Qin Yuan squatted down and slowly played with his trousers. The empty trousers reached to the thigh.

It's all like this, how can it be possible to pick it up? But just when Qin Yuan came into contact with it, he suddenly heard a prompt from the system.

Chapter 1368: into the black market

"Drip! Remind the host to complete the task and receive 80,000 merit points!"

Qin Yuan thought there was something special, but it turned out to be just a reminder of meritorious deeds, but now he and he can't control so much, mainly focusing on Wang Yanbing's situation.

He knelt down and looked at Wang Yanbing's wound. He was still in the recovery stage. He tried to use his repairing ability, but of course he only repaired his current wound condition.

Everyone could see that his surgical wound was recovering quickly, and Wang Yanbing couldn't feel the pain anymore, but this broken leg would definitely not come back. After all, no matter how powerful Qin Yuan was, it was impossible to regenerate the broken limb.

It's too late, it should have been okay in the first place, but it's taking too long now.

Qin Yuan didn't know how to tell Wang Yanbing. After all, the people around him were looking at him with expectation, and everyone thought he was the last hope.

"Brother Qin, it's okay. Get up. I know what's going on with me. Just tell me if you have anything. We can all see it."

Li Erniu was even more excited than Wang Yanbing. He hurried forward and asked in disbelief, "Brother Qin? Could it be that you can't help it!"

"I can't do anything in such a situation, and you all know it. It would have been nice if I had been there. I'm sorry."

Wang Yanbing forced a smile beside him. He knew that his brothers had tried their best and everyone was trying to help him, but how could the broken leg recover.

It's just a pity that Qin Yuan helped him take over his leg once before, but he didn't expect it to be completely broken this time. If he was given another chance, he would rather get infected and die on the operating table than let himself be so useless.

At first he could bear it, but later on he hammered his broken leg desperately, thinking that he is a useless person now, letting such little thieves bully him, but he would not be like this before.

Everyone quickly came over and pulled him, telling him not to be so excited. Wang Yanbing had completely lost his mind at this moment, and he couldn't accept it. If this is the case, it would be better to let him die directly.

Seeing Wang Yanbing in such pain, Qin Yuan also blamed himself very much. He kept clicking on the system, wanting to find a solution.

"Why doesn't your broken system talk now? Haven't you already upgraded many times? You hurry up and think of a way for me, what should I do in this situation!"

"come out!"

When Qin Yuan went crazy, he always called the system. To outsiders, he seemed to be in a daze, but internally he was completely in a roaring state.

In the end, the system still appeared. Now the system is fully intelligent, "Please calm down, the host, there is indeed a solution for now."

After the system finished answering, Qin Yuan also saw hope in an instant. He hurriedly asked, the system opened the current mall, and only saw a kind of mechanical leg in the mall. Seeing this scene, Qin Yuan frowned. What kind of solution is this? Isn't this a prosthesis?

They have a lot of prosthetics like this here, and there is no need for him to exchange them from the field. This is not a solution.

"Remind the host, this is not an ordinary prosthesis, but a nano-super mechanical limb."

Nano super machine? Can this be applied to Wang Yanbing? He quickly clicked to check it, but he didn't expect this mechanical machine to be very powerful.

Chapter 1369: there is no difference

After installation, it can be said that there is no difference from normal limbs, and it will increase a certain speed and strength.

Qin Yuan was overjoyed in an instant, he turned his head and looked, everyone was not very convenient in this place, he pulled it out, he found an excuse and walked out, and then directly exchanged it with merit points.

When he came in, everyone was comforting Wang Yanbing. After all, this matter is not easy for anyone. At this time, Qin Yuan took out the nano-mechanical limb.

"Don't worry, I will definitely let you return to your previous level, or even higher!"

Everyone looked at the thing in Qin Yuan's hand with strange expressions when they heard this. It was a mechanical leg arm. It was indeed different from the prosthetic limbs they saw in the market, and looked more high-tech.

He Chenguang sighed silently. In fact, he had read it before, but the operation fee was really high, but Gao Shiwei had promised that these things would not be a problem, and he could apply to the higher authorities.

The key question now is whether the mechanical limb is very useful, and Qin Yuan is doing the installation operation beside it.

"Don't worry, the things I took out will definitely not be bad. After installing this leg, it will be the same as your usual walking, and there will be no difference."

"What? Brother Qin? You're not joking with me, are you? This is obviously a mechanical leg that will be the same as I usually do after it is installed?"

The people next to him also couldn't believe it. After all, no matter what, the reaction of these mechanized things is definitely not as good as his own, and in this case, it is very difficult for him to achieve that kind of sensitivity as a special operator. .

Wang Yanbing knew that Qin Yuan might be doing it for his own good, so he was comforting him, but Qin Yuan couldn't help but installed it on him directly. He didn't expect this thing to be so complicated.

As soon as it came into contact with the surface of his leg, it was immediately attracted, just like the original one, and it was tightly placed on his thigh. After a while, the fusion of the mechanical limb was completed, and Wang Yanbing was even more surprised. Thinking of the mechanized thing as his own leg, he felt one now.

He had tried it in the hospital before, because the local doctor had shown him that mechanical leg, which was so stiff that it could only be used as a support, and it looked at least so normal that it would not be trouser legs. It was empty inside.

Unexpectedly, it was completely different after putting on this set, and there was no difference between his slightly raised legs and his previous ones.

Qin Yuan looked proud at the side'Of course there would be no problem with the things he took out, "How? This leg is a hundred times stronger than your original one!"

"I'll go! This thing is too strong, is it stainless steel?"

Er Niu's words successfully made everyone laugh. He Chenguang stepped forward and slapped him on the head. This kid kept talking nonsense, this is a high-tech thing, how could it be made of stainless steel.

"Brother Qin, your things should be very expensive. The ones we saw in the hospital cost more than a hundred thousand even for installation and surgery."

"Don't worry about the price, we are all brothers, as long as it is good for everyone, let alone hundreds of thousands, I can pay millions."

Chapter 1370: All merit points are not enough

Wang Yanbing couldn't wait to come down and walk to see the situation. He Chenguang planned to help him at first, but he didn't expect him to get up and go freely, just like the normal situation before.

After he landed, he felt no difference in the force from his legs. He was very excited for a while, and he jumped a few steps on the spot without any feeling of falling off or discomfort.

"Brother Qin, your mechanical leg is too powerful, it feels like my own leg!"

"After you get used to it, there will definitely be no problems with my things, and they will definitely be stronger than your previous legs."

It's really no problem for Wang Yanbing to kick sideways directly. In this case, it means that he can still return to the special warfare team, after all, it will not have any impact.

"Yan Bing, it seems that you have recovered well, and you have adapted very well. We will still be brothers and comrades-in-arms in the future!"

"You kid, come and fight with me, how about your mechanical legs?"

Wang Yanbing also wanted to give it a try. After all, he was worried that it might fall off, but at present, it seems that the suction is relatively firm, and he doesn't know where it is fixed. The mechanical legs are completely on his body.

When he was competing with Qin Zhengyang, the mechanical leg suddenly fell to the ground with a bang, and Wang Yanbing fell beside him because of his imbalance. Fortunately, Qin Yuan had quick eyesight and quick hands to support him.

Everyone was confused by this sudden situation. It was fine just now, there was no problem, why did it suddenly fall when it was said to fall.

Qin Yuan felt even more strange. He picked up the mechanical leg and began to carefully examine and inquire about the system. Soon the system gave the answer that there was a rejection reaction.

After all, this product is produced by the system, which uses nanotechnology, and can be combined with the body in the most appropriate way. This combination will also cause certain rejection reactions, which is currently the case with Wang Yanbing.

The system also began to explain that if you want to get rid of this kind of rejection, you must get a peptide spar. When Qin Yuan heard the name, Qin Yuan was also confused, and soon the system gave this titanium crystal where the stone came from.

This kind of peptide spar is generally a kind of ore formed after volcanic eruption and volcanic rock are fused together to produce chemical reactions, but it must be precipitated in a specific period of time before it can appear, so it is very rare.

At present, there are indeed such peptide crystals in the system mall, but only one needs 100,000 merit points, which is too expensive, and according to Wang Yanbing's current situation, at least five peptide crystals are needed for complete fusion .

Calculated like this, it is really too expensive' Qin Yuan's merits are not enough, he frowned, and began to think of ways.

"The system, if this kind of peptide spar is used, will it not fall off in the future?"

"Yes, not only will it not fall off, but it will also return to its normal form. The appearance of this mechanical leg will become the same as the physical body, without any difference, but its speed and strength will be stronger."

It turned out that this was the case, Qin Yuan turned off the system and took the mechanical legs and began to explain to them, but he didn't explain it in detail, he just said it briefly, and now they need to find a kind of ore called peptide spar.

Although everyone doesn't quite understand it, they all know that as long as there is such a thing.
