

Special Soldier 1371

Chapter 1371: stay home for me

In the future, Wang Yanbing will be able to put this leg on his body for a long time.

"Brother Qin, where are we going to find this thing? Anyway, we're all on vacation recently, so let's go out together."

"This thing is very rare. We can only try our luck first. Anyway, it is near some relatively large volcanoes. At present, the country is relatively large. We can only try the volcano that erupted recently. If it doesn't work, we can only go abroad."

This is not a problem. Everyone said that as long as Wang Yanbing's legs can be restored to the same level as before, they can find anything.

Wang Yanbing watched his brothers put so much effort for his legs, and felt that he should not have given up on himself before, no one else gave up on him, but now he gave up on himself.

"Brother Qin, I really can't help you now, but I believe you can restore my leg."

"Of course, then we will set off to look for it. You boy, please stay at home during this time. Do you need me to leave someone to take care of you?"

Wang Yanbing quickly shook his head, expressing that he was not needed because he just lost a leg, "I'm not really a cripple, besides, you really left someone to take care of me, making me feel too incompetent, I should hurry up and exercise now stand up."

After finishing speaking, he struggled and jumped to the side, picked up the crutch that was thrown away before, after the experiment just now, he felt that the mechanical leg was definitely useful, all he needed to do now was to wait for Qin Yuan to bring back the substance, and he could For complete fusion.

Now they don't know if they can find it near the volcano in this country, because it is extremely rare, and even the price in the system mall is very expensive. Qin Yuan thought of two plans. On the one hand, they searched for it, and on the other hand, they went underground. Check out the black market.

After the explanation, everyone set off together. For the convenience of Qingyuan, he planned to divide the troops into two groups. He still went to see the underground black market in person. Because he helped Liu Huaqiang a lot before, there was no problem with the black market. He could go to the underground black market. Talk to him.

He took out the map. The latest eruption of the largest volcano in the country was seven years ago, so we can only let everyone try their luck. He clicked on a picture from the system.

Then hand it over to them and let them search for the ore according to the picture. He took Qin Zhengyang and set off to the black market.

Because he hadn't contacted Liu Huaqiang for a long time, Qin Yuan didn't know what was going on with him. He just made a few phone calls, but they couldn't get through.

There is no way He can only go to the villa to find him in person. After he came to the villa, he found that the building was already empty. Originally, he wanted to use Liu Huaqiang's relationship to directly help him inquire about the purchase. Look at it like this This guy couldn't find it, so he had to go to the black market by himself.

Fortunately, he knew better about the black market, and he came to a relatively large local trading place with a little effort.

If money can solve the problem, he thinks it's nothing to worry about. He has no problem with the economy, but the merits in the system mall are not enough, otherwise there is no such trouble.

Qin Zhengyang followed Qin Yuan into the trading market. Originally, their target this time was peptide spar, but just after entering, Qin Zhengyang saw a simple table next to it, surrounded by barbed wire.

Originally, he was curious about what was being auctioned here, but he didn't expect that after a while, two girls were brought onto the stage.

Chapter 1372: 1 got nothing

This situation caught his attention instantly, and Qin Yuan kept searching ahead, because he was looking at the sales stalls of these special ores.

He didn't notice that Qin Zhengyang had already walked towards the stand just now, and the thing in front of him was also attracted at this moment. Qin Yuan saw that it was a strange gem, which can only be produced near the volcano.

Since there are things related to volcanoes in this place, there should be that special peptide spar. He looked at the boss in front of him. The boss was dark-skinned and very thin, with a hat covering most of his face.

"Boss, do you have another special stone?"

"Tell me about it. Although I haven't displayed it here, as long as you tell me, I can basically find it."

The boss was very confident in the stone research at the time, and he felt that there was nothing he could not find.

"Peptide spar."

what! The boss shrank his eyes when he heard this. After all, the big business came. Of course, he didn't have this peptide spar here, but at this moment he looked at the person in front of him.

The guy's eyes started to roll wildly, and he made up his mind in an instant, but Qin Yuan had seen all of this clearly, "You'd better not give me any crazy ideas, if you have it, you don't have it!"

"Little brother, it seems that you don't understand the rules here. Are you here alone?"

The boss started to catch Qin Yuan's words, Qin Yuan was a little impatient, turned his head and stared at the boss coldly, at this moment, there was a sudden sound of fighting.

He turned his head, unexpectedly, it was Qin Zhengyang who started a conflict with someone over there. He was fighting with two men in black uniforms.

Qin Zhengyang originally wanted to come over to check the situation, but he didn't expect it to be an auction transaction. The two girls were treated like commodities, and the bids were started by the spectators below.

How could he ignore this situation, these girls were abducted and trafficked through illegal means, so he took action to stop them, unexpectedly there was a thug next to them, and a conflict broke out like this.

When Qin Yuan came over, Qin Zhengyang had already put the two thugs on the ground. After all, it would not be a problem to deal with them with his skills.

But soon more people came over. Several people in uniform took out their weapons and looked at them fiercely. The person who was beaten on the ground just got up.

"Damn! This kid is probably crazy. He doesn't know what's going on, so he just doesn't do anything to me. It seems that he really doesn't understand the rules!"

"If you don't know the rules, let's show him what the rules are here!"

For a moment, the electric batons in the hands of those people made a stabbing sound. But Qin Zhengyang didn't back up, instead he jumped into the stands in front, pulling the two girls behind him.

"Brother Qin, these guys are so rampant, they actually conduct human trafficking in this place!"

In fact, Qin Yuan is aware of these situations, but each place has its own rules, and he can't keep interfering, just like these underground trading places, even if they take one of them now, others will sprout.

But now that the conflict has already happened, we can only find a way to get out first, and then say that although these thugs are very skilled, they have no way to face the well-trained special forces.

The two girls were trembling behind

Chapter 1373: really brave

Qin Zhengyang comforted them, "Don't worry, we will rescue you no matter what."

The girl nodded cautiously. At this time, Qin Yuan had already easily dealt with all the thugs next to him. The thug who fell on the ground stared at Qin Yuan viciously.

"You kid is really desperate. Do you know whose territory this is? How dare you make trouble here?"

"Hehe, tell me, who is in charge of this?"

"To tell you the truth, you don't want to go out today! Wait, we'll go find Brother Bao now."

Qin Yuan didn't take it seriously, pulled Qin Zhengyang up, and asked him to bring the two girls to the boss's booth just now. Originally, he didn't want to take care of this matter, but Qin Zhengyang has already taken care of it, so there's nothing he can do about it.

Seeing Qin Yuan's fierce skill, the boss froze for a moment. He didn't react until Qin Yuan called him several times.

"Boss, are you still in business?"

"I said you little brother dared to make trouble in this place, you should leave quickly, it will be miserable when they come there!"

"Don't worry about these, I'll just ask you if you want to do business or not, do you have what I want here?"

The boss doesn't dare to do business, and he didn't have one in the first place. Just now, he looked at Qin Yuan alone, and he felt easy to bully because of his unfamiliar face. He originally wanted to deceive him, but of course he was still a strong man. of.

At this moment, he shook his head again and again, expressing that he was no longer in business, but Qin Yuan quit, went over and grabbed his collar, and lifted him onto the table.

"What did you mean just now? I gave you money, but you dare not do my business?"

"Brother, don't do it with me. Let me tell you the truth. The thing you want, let alone our market, is not available anywhere else."

"Are you lying to me? Just now you said yes!"

The boss can't care about other things now, so he can only tell the truth quickly. This boss was in the jewelry ore business many years ago. He had a mine before, and it closed down completely later, so he came here with the previous inventory. sell.

He has heard of the peptide spar that Qin Yuan mentioned. The price is too expensive, and basically it rarely appears in these places.

Just when he wanted to teach the boss in front of him a lesson, after all, this guy dared to lie to him just now, a voice sounded from behind.

"Hey, you are really brave. Two cucumber eggs have come, and they dare to make trouble with me!"

The speaker wore these sunglasses, had tattoos on his shoulders, had a cigarette in his mouth, and held a long knife in his hand. Seeing Qin Yuan and the others spit on the ground Qin Yuan simply He didn't take them seriously, since there was nothing he wanted here, he could only go to other places, and he didn't want to make trouble here.

But the other party didn't let him go at all. After all, although their place is an underground trading place, it still has the order it should have.

"I said boy, you injured my brother and robbed me of my things, so you just leave like that?"

"That's because your people moved my brother first, so I thought they and the goods you mentioned were also from wrong sources. I'm just acting on behalf of the heavens."

Brother Leopard laughed loudly when he heard this, what kind of joke is this kid talking about? He waved his hand, and more than twenty people walked out of the alley next to him.

Chapter 1374: you're in trouble

They were able to build such a trading place in this place for a long time, and the forces behind it were also very strong. Qin Yuan just smiled contemptuously, and there was no need to fight these local ruffians.

He didn't want to make a big fuss, so he took out two cash from his backpack and threw them on the ground in front of him, "I don't want to make a fuss, is this enough money? I want these two people!"

Brother Leopard just stared at Qin Yuan's backpack, this guy is too simple, what money does he need now, if that's the case, then just stay the whole thing.

"Boy, do you really think this little money is enough? What I want is your entire backpack!"

Qin Yuan shook his head, it's true that there is a way in heaven, they didn't leave, at this time the thugs next to him also rushed up, these guys started hacking randomly with knives in their hands, and the whole market was in chaos.

He kicked a person flying with one kick, and then punched another person on the shoulder, and the gangster flew out completely.

Brother Leopard opened his mouth in surprise when he saw this. This guy stretched out his hand so strongly and with such force, he quickly called for others to come up with him.

"What are you posing here? Hurry up, this kid really has two brushes, let me do it!"

In an instant, seven or eight machetes greeted Qin Yuan, but Ruan Yuan didn't pay attention at all. He kicked the two people in front with a sweeping kick, and then kicked them sideways. These guys were not enough for him to beat.

Soon, the twenty or so thugs were completely beaten by Qin Yuan just now, and the street was in a mess. Brother Bao was completely stunned. The cigarette he was holding just now fell to the ground in fright. This kid is really skilled. That's amazing.

The little hooligans on the ground didn't even have a chance to get up. Qin Yuan raised his hand slightly, and one of the hooligans was so frightened that he ran into the alley next to him with his head in his arms.

"They're all a bunch of trash, not enough for me to warm up!"

"You! Who are you? Who sent you to mess with us!"

"I just said that I'm not from any side. I just wanted to buy something. I didn't expect to have a little conflict with you. It was you who touched my brother first, otherwise I wouldn't do it."

"Boy, let me tell you, you've got a big deal going on, just wait."

Qin Yuan looked at him and called him on the phone. He probably called Liu Huaqiang. After all, this area is under Liu Huaqiang's control. Brother Bao just said halfway, Qin Yuan walked over slowly and pressed the button. Touching Brother Bao's shoulder, he yelped in pain, and then his phone was snatched.

"you this..."

Before he finished speaking was punched by Qin Yuan, he picked up the phone, and it turned out to be Liu Huaqiang, who was obviously angry, after all, he didn't know who was hitting him place.

"Brother, are you sent from there? You can tell me, and I can consider letting you go."

"I said, can't you even hear my voice?"

Liu Huaqiang was stunned for a moment when he heard this. It was really a flood that rushed into the Dragon King Temple. He quickly explained, "I said brother, why didn't you tell me in advance when you came to my place? The brothers collided."

"It's nothing. I didn't contact you with that number before. I came here because I wanted to buy something, so I wanted to take a look."

Chapter 1375: Brother Leopard is smiling all over his face

Liu Huaqiang immediately expressed that he understood, and asked Qin Yuan what he wanted. He immediately sent someone to check, and then he handed the phone to Brother Bao. At this moment, Brother Bao was still cursing. But it is very broad.

He felt that his elder brother would send someone directly later, and the kid would be too hungry to walk around, but he was speechless in the next second.

Brother Bao was very humble on the phone, and even nodded and looked at Qin Yuan with respectful eyes. After all, Liu Huaqiang had confessed, and even the boss above them was so respectful to this person.

Especially this person's skill is so strong, he suddenly remembered that he had heard that Liu Huaqiang had a benefactor who saved his life and avenged his brother.

Could it be that this person in front of him really caused him a lot of trouble? After hanging up the phone, tremblingly came to Qing Qin Yuan's side.

Seeing his appearance, Qin Yuan just thought it was funny, "Brother Leopard, right? Now it's time to take me to see if I can find what I want?"

"No, no, you can just call me Leopard. I'll send someone to investigate right away. Please wait in the reception room for a while."

Qin Yuan kicked the backpack next to him, "I want to take these two people away, do you have any opinions?"

"No, I don't dare to have any opinions. You can take whoever you want, and I don't want this money."

This guy's attitude really turned 360 degrees. Qin Zhengyang was a little confused, but Qin Yuan patted him on the shoulder, indicating that everything had been resolved.

The two of them just waited in the conference room for him to check, because they could check the transaction records nationwide. After ten minutes, Brother Bao rushed in. This guy is really fast.

"Brother, I just asked someone to check. There is no such transaction in the whole country. Although we have everything here, it may be too expensive..."

Brother Bao was cautious when he said this, he kept looking at Qin Yuan, worried that this big boss might be unhappy, so he directly took the anger out on him.

This is also the result Qin Yuan expected before. In this case, he can only go abroad to have a look. Qin Yuan swaggered away with the two girls, and Brother Leopard was smiling all over his face behind him. Dare to say.

Even their boss didn't dare to speak, he dared to say something, the eyes of the people around looked at Qin Yuan changed at this moment, what is it about this young man that can make these local bosses so afraid.

After going out, Qin Yuan specially placed two girls. Now they are waiting for news from He Chenguang, they have already set off for the volcano.

In the evening, news finally came from He Chenguang's side. They had checked all the volcanoes that had erupted before, but there was no such substance.

Because this kind of peptide spar actually needs to be formed when the volcano erupts, the collection speed needs to be very fast, because it cannot be exposed to the air for a long time, otherwise it is easy to oxidize.

The difficulty of collection is also very great, so few people will take the risk to collect this kind of stone, and it needs to be loaded with special equipment, so on the one hand, it is difficult to collect and store, and the cost is very high.

There have been no volcanic eruptions in China in recent years, so there must be none.

Chapter 1376: waiting for the eruption

This is where the preciousness of this thing lies, and if you want to talk about its specific use, it is general scientific research, but there is no clear standard for the specific direction, so there are very few such things.

However, this peptide spar has not been discovered by scientific research. Its appearance is very beautiful. The whole spar presents a natural shape and glows from the inside to the outside. This light is the inside of the spar. Strange structural refraction formed.

Speaking of it, it's a bit like the Luminous Stone from Yanguo before. Qin Yuan also made a special call to Liu Huaqiang, after all, they caused trouble there.

Although I did have some facts about him before I met him, there are still some things that need to be clarified, especially with these bosses.

Qin Zhengyang was a little puzzled, he felt that such a thing happened today, there must be many victims, why not just wipe them all out.

"Brother Qin, look at the two girls we rescued today. I heard from them that they saw some other girls before. That means they are not the only ones. We should let the police destroy that den now."

"Silly boy, this is the rule of every place, even if we destroy this place, other places will develop again, and it will be more difficult to control than here, do you understand?"

"This? Are you saying that there will be other bosses, even if we capture the boss who manages here, there is nothing we can do?"

"Yes, there is no way to solve this matter. We can only increase everyone's awareness of prevention on the other hand, and reduce the number of victims. If there is no sale, there will be no killing. In addition, if the boss is down, there will be other bosses." stand up."

Liu Huaqiang is relatively honest under Qin Yuan's control now. The business he did before was much darker than this, but now he has restrained himself because of his contact with Qin Yuan.

Just as He Chenguang and the others had returned, everyone looked exhausted. They hadn't rested for the past two days, and kept meeting and searching near several volcanoes.

After Li Erniu came back, he lay down on the bed directly, he was so tired, "If I really found that spar this time, Yanbing must wash my socks for a month!"

"And don't forget mine, this kid is lying comfortably at home now, and the brothers are running around outside."

Although they are always saying this in , they are actually just complaining. After all, there are indeed too many places to run in the past two days. They have gone to all the volcanoes on this side. all over.

"I know the brothers have worked hard, everyone should work harder. After all, if there is any task in the pair, Team Gao made an exception this time and gave us a holiday. Let's take this opportunity to get the spar back quickly."

Seeing that everyone was exhausted, Qin Yuan planned to set off to visit the foreign country the next morning, and now he had to wait. Recently, there was indeed a volcanic eruption in Dongguo.

But this is because experts detected that the volcano was about to erupt, and the latest eruption was within this week, so they had to wait for Qin Yuan to think that the safest solution was to go there and wait.

After all, this thing oxidizes too fast. If they miss the eruption time, everything will be in vain.

Chapter 1377: Boss, how many bottles of water?

Everyone set off together the next morning. They needed to take a plane to Dongguo, and the location of the volcanic eruption was near a small town in Dongguo.

In this way, everyone kept changing trains, changing planes and then trains, the town was relatively remote, and finally everyone staggered into a minibus.

The road was very tossing, Li Erniu couldn't help complaining, he opened a can of soda, raised his head and drank it, "This road is too rough, it's not as powerful as our off-road vehicle!"

"As long as you have a lot of things to do, just close your eyes and go to sleep. I'll call you when I get to the place."

"How can I sleep on this broken road? The breakfast I ate yesterday almost turned upside down. Now I just want to find the peptide spar quickly."

"Can you keep your mouth shut, kid, for fear that others won't know? Did you forget Brother Qin's explanation before?"

"Oh, why are you so worried? Can they understand us? Don't worry, there's nothing wrong with it."

Qin Yuan didn't sit in the same car as them. After all, with Qin Yuan's speed, he didn't need to be this kind of minibus to suffer.

But he was going to inquire about the news first, and look at the surrounding situation. Li Erniu and the others came by car behind.

Several people were chatting noisily, without noticing that there was a man behind the seat staring at them intently. Although they were in a foreign country now, the man behind seemed to be very interested in them.

After the minibus swayed for more than two hours, it finally reached its destination. After they arrived in this small town, they had to walk for more than an hour to reach the vicinity of the volcano, and at their speed.

Qin Yuan was already waiting for them near the volcano, and when he came to this place, Qin Yuan realized that the volcano was bigger than he imagined.

After Li Erniu got off the car, he smelled the smell of sulfur in the air. It was the volcano that was about to erupt. The smell here was already solemn. He waved his hand. The smell was lingering, and the whole sky was gray. of.

"It seems that the volcano is indeed about to erupt. By the way, Brother Qin is in front."

After they met with Qin Yuan, they roughly talked about the situation. There was indeed an eruption here, but judging from the situation, it probably took the past two days.

The whole town was very quiet, Qin Yuan came to a small restaurant nearby, the owner was packing his luggage in a hurry.

"Boss, how many bottles of water?"

The boss was very curious but he raised his head to look at the outfits of several people, and then said, "Are you here to explore?"

In order not to attract attention, Qin Yuan could only follow his words. The boss said while taking water: "There are too many people like you these two days, not only adventurers, but also some news media, everyone Let's all pay attention to this matter, but the volcano is about to erupt, so hurry up and leave, we are leaving too."

The residents in the small town have almost evacuated. This is the place closest to the volcano and will be affected, so the boss is also doing the final evacuation work.

"Boss, thank you for the water, don't worry, we will go."

The boss packed the suitcase and left the whole town without looking back. Only Qin Yuan and the others were left at this moment. Qin Yuan looked at the surrounding situation. If the volcano erupted, it would be quite dangerous.

Chapter 1378: hot everywhere

Mainly because of the high temperature, he took out a few sets of equipment from his backpack, which he had prepared before. He came here first to prepare equipment and supplies. He didn't need it, but these team members couldn't.

This is a special fireproof suit. He asked everyone to put it on first, it can withstand high temperatures, and it will be easy to find when the time comes.

Originally, according to the predictions on the news, the volcano would erupt in about two days, but that night the whole ground began to shake. Qin Yuan knew that this was a sign of an eruption, so he quickly woke up everyone, and everyone was always preparing for the eruption. , They have to quickly rush to the first scene, and then look for the peptide spar.

"Remember, it might be very dangerous later on, so you must pay attention to safety. I'm basically fine. I'll go ahead first, and you must protect yourself in the rear, understand?"

"Brother Qin, don't worry, getting this thing is not easy."

There is another point that worries Qin Yuan the most. Although the volcano did erupt in this place, he doesn't know whether it will form a golden stone. It will happen almost instantly, so he must seize the time.

After more than half an hour, the rumbling sound became more and more solemn, the whole sky was dark, and the smell of sulfur in the air became stronger and stronger.

Everyone looked nervous, staring at the crater in front of them, and then there was a huge explosion, and the fiery breath came oncoming.

This is the first time that everyone has felt the power of a volcanic eruption at close range. People are too small in the face of this natural disaster. The hot magma has been bubbling outside, and the surrounding trees are instantly ignited.

There was thick smoke billowing everywhere. In this situation, everyone put on oxygen masks and rushed in. Qin Yuan ran to the front first. He must seize the opportunity, because this thing oxidizes very quickly.

He handed over a jar to Li Erniu and the others, which was used to pick up leaks. After all, his strength alone was still limited. If they had others, they could immediately put them in the jar and seal them up.

Qin Yuan rushed to the foot of the volcano first, the ground and the air everywhere were hot, only a small part could stand on it, but the ground where he could stand was also very hot. Fortunately, his resistance was not a problem. Under such circumstances, Just feel a little hot.

He looked around carefully and suddenly saw a shiny thing rushed over like a dragonfly, stabilized his figure, used the dragon claw hook on the backpack to hook the peptide spar, and pulled it instantly. over here.

This thing is mainly formed by the rapid condensation of the chemical reaction with the ingredients in the original plasma at the moment of the volcanic eruption, but after the volcanic eruption, it will be oxidized immediately when it comes into contact with oxygen, losing its efficacy.

Under Qin Yuan's collection, three spars were quickly collected, and now there are pure magma everywhere, even Qin Yuan can't stand up, he shook his head, watching a spar instantly engulfed by the fire of magma.

It was still two yuan short, and at this moment, a voice came from his headset, and Li Erniu and the others successfully found half a yuan.

There was thick smoke everywhere, and even Qin Yuan couldn't stand it under such circumstances. He coughed, seeing that he couldn't stay here any longer, so he had to retreat quickly. As soon as he jumped off the boulder, the magma on it instantly exploded. rolled down.

Chapter 1379: It's so hot I can't even get in

The intensity of the volcanic eruption was getting stronger and stronger, and the whole earth was shaking. Many animals ran down the mountain quickly, and the surrounding trees were all ablaze.

Qin Zhengyang also saw a spar in the distance, but the fire there was too strong, he tried several times but couldn't do anything, just when he was about to jump, Qin Yuan grabbed him from behind.

Because the trees that were burned by the fire just now were falling down, many falling rocks rolled down, and those stones fell into the magma like fireballs rolling down the hillside one by one.

"Is your kid dying? Look at the fire."

In an instant, a fiery snake rushed towards them. Qin Yuan pushed Qin Zhengyang away, and the two jumped to a safe position. Now the wind is in the wrong direction, and the wind is too strong. This can't guarantee their safety at all. Now he has to take care of the team members. It is too difficult to find the spar and the safety.

"Forget it, everyone retreat first, and collect these today."

Qin Yuan also speeded up, and rushed to the foot of the mountain to meet Li Erniu and the others. Everyone ran towards the town. The volcano spread faster and faster, and the hot magma caused the mountain fire.

Now it seems that it can't be collected here. No matter what, for the sake of safety, with such hot magma, there is no place to stand.

Several people ran all the way, and finally ran to a safe zone. Everyone panted heavily, watching the magma smoke billowing in the distance. The position they were standing at was far away from the volcano eruption, but they could feel it. That scorching heat wave.

Panting heavily, He Chenguang opened the backpack. There was only half a piece of gold and stone in it. He shook his head helplessly. The situation was too urgent just now, they couldn't pick it up at all, and the other half was completely oxidized.

"It's a pity. If we added the half yuan just now, at least there is some hope."

"It's okay. This volcano won't erupt only once. Today is definitely not going to make it through. I'll come back to see it tomorrow. You guys wait for me in a safe zone."

"What! Brother Qin, isn't this enough? You have to come back tomorrow. "

"That's right, the fire is so intense that I can't even get in. I can only wait and see tomorrow. If the situation improves tomorrow, then I'll come back and see if I can find it."

Just as the few people were talking, the fire surrounded them in an instant. Before they entered the town, the trees here had been engulfed by the fire.

The fire here is getting stronger and stronger, everyone can only keep retreating, and everyone has pushed to another town, where you can feel the dirty air, the whole air is full of sulfur and the smell of flames.

This made everyone very embarrassed. Qin Yuan found a hotel and asked everyone to rest first. He would check the situation the next day and then go out to search.

Next time he decided not to take the team members with him, after all, it would be enough for them to find two spars by themselves.

Qin Zhengyang lowered his head. He felt that if he had fought for that spar just now, he should not have to let Qin Yuan take any more risks.

"I'm sorry, if I tried my best just now and got the spar faster, then we can all go back now."

"Even if we get that one, it's still half a dollar away. This material is very scarce. We must ensure enough. After all, it's hard to come here. Don't blame yourself so much. I will figure out the rest."

Chapter 1380: Be stunned!

Everyone nodded in agreement with Qin Yuan's opinion. After all, Qin Yuan had never let them down.

The volcanic eruption lasted for a full four hours, and finally stopped. This side is the largest crater.

However, there are still some small volcanoes that have not erupted near this large volcano. Experts predict that the surrounding small volcanoes will cause a second eruption.

The relevant authorities have dispatched personnel to organize effective fire extinguishing. After all, the fire is very large and spreads rapidly to the surroundings. What Qin Yuan is not concerned about is this. What he cares about is to wait until the volcano erupts as soon as possible before finding the remaining crystals so that he can go back.

Qin Yuan has been observing the situation of the volcano. He asked the team members to wait for him at the residence. This time he still brought his equipment. Even in that environment, he still needs some basic equipment.

Hot magma is everywhere, and there is no place to stand at all. This time, he has prepared a wolfclaw hook, and as long as he stands on a suitable commanding height, he can get the spar.

When Qin Yuan just walked out of the hotel, he noticed that there were several people in the opposite coffee shop looking in his direction, but when he looked again, there was nothing unusual, he shook his head, could it be that he saw it wrong? Maybe it's because I'm too vigilant.

After he left completely, several men wearing hats walked out from the corner of the coffee shop.

One of them was the man who was in the same minibus with Li Erniu before. The corner of the man's mouth was raised, and he watched Qin Yuan leave meaningfully.

"This guy seems to be their boss, but he was almost discovered by him just now."

"Isn't this undiscovered? Just as this guy is away, let's go up and grab something."

Several people lowered their voices and began plotting a plan, but Qin Yuan didn't know anything about it, because his mind was full of crystals now.

He drove forward along the previous road. Apart from the small town, there were some small villages around, but fires were ignited around the village, and many villagers were spontaneously fighting the fire.

Although the volcano has stopped erupting now, the fire has not stopped. Qin Yuan originally wanted to go around the village and continue to set off, but when he heard cries for help from inside, his instinctive responsibility made him stop.

He rushed to the village quickly, and villagers kept running out of it, and everyone was shouting. At this time, he saw that the houses on the opposite side were crumbling and surrounded by fire.

There was a woman in front of her who kept shouting, she rushed over and grabbed the woman, her voice was trembling.

"My child, the child is still inside."

Qin Yuan went all out directly rushed into the fire scene and searched for the child everywhere. The whole house had been burned down, and it was in a bad shape. Buildings kept falling down, and there was thick smoke everywhere.

At this time, he saw another small figure passing by, he rushed in desperately, and picked up the child.

A burning wardrobe directly blocked the way, and he had no choice but to jump from the window on the third floor.

Fortunately, the child was fine, but fainted by the smoke. Seeing that the child had been rescued, the child's mother knelt on the ground to thank Qin Yuan, because their small village was easily overlooked and no one came. Control their life and death.

At this time, the small volcano in the distance also made a rumbling sound.
