

Special Soldier 1381

Chapter 1381: Mining to subsidize life

It erupted again, now is the best time, he will find the spar when the volcano erupts.

But Qin Yuan turned his head and looked at the calls of helpless people everywhere. He really had no choice but to participate in the fire fighting together. Fortunately, thanks to everyone's efforts, the fire was finally brought under control.

In this case, he has no way to give up these common people directly. Although these common people have nothing to do with him, he can't do it.

Everyone also evacuated to a safe place. At this time, the head of the village hurried over and looked at Qin Yuan gratefully.

"This gentleman is really very grateful to you. You can still rescue us in this situation. I am really grateful."

"You're welcome, it's just a matter of raising your hands."

Now the volcano has stopped erupting. After all, it is a small volcano. Even if Qin Yuan rushes over now, he probably has little hope. He sighed silently. It seems that he can only wait for the next opportunity. eruption.

The village head looked at Qin Yuan with a solemn expression, "Sir, do you have any difficulties or problems? If you need help, just tell us, although we won't help much, but we I will do everything possible, you are our savior."

Qin Yuan looked at the villagers around him. They were tired and frightened. To be honest, it didn't help much.

He shook his head, and when he was about to say that he didn't need it, he turned his head and saw a little boy holding a spar in his hand, which may have been grabbed by the child when he was fleeing.

It's just that this spar is obviously made of special materials, because it has been polished, just like a child's toy.

The village head followed Qin Yuan's line of sight and saw the spar in the child's hand, "Sir, are you interested in this? This thing is very common in our village."

what! This surprised Qin Yuan. She and he walked over, and the child cooperated very well, handing him the spar in his hand. Unexpectedly, the spar was wrapped in amber outside, so it was not oxidized.

"Village chief, you mean you have a lot of crystals like this, what's going on?"

"Because our village is close to the volcano, the volcano will erupt from time to time, and a lot of land can't be planted at all, so we can only carry out mining to subsidize our living."

By accident, they discovered this strange spar'Although it is very dangerous to collect, as long as it is handled in time, it will not oxidize, and the selling price is very high. Sell it to some rich people around, they specialize in collecting this spar.

Qin Yuan was very excited when he heard this, he took out the money from the bag and put it directly into the hands of the village chief.

"Village chief, how much do you want to sell this for? I still need two yuan. I don't want much, because I really need this thing."

The village chief shook his head, and then he walked among the villagers, murmured something in the local dialect, and after a while, a woman came over with a backpack, Qin Yuan was stunned when the village chief opened it , all of which are this kind of spar.

He didn't expect that there were so many things that were so difficult to collect in their small village. He really couldn't imagine how the people in this village collected them.

Chapter 1382: Get out of that environment as soon as possible

The village chief also mentioned another situation. At this time, Qin Yuan also noticed that there were very few men in the village, less than half of the population.

Because of the long-term eruption of the volcano, they have no way to maintain a normal life at all. They can only rely on collecting some ores and other crystals to maintain a normal life, but the work of collecting is very dangerous, and these are ordinary people. It is easy to fall directly into boiling lava during harvesting.

But for the sake of publicity, everyone has nothing to do, even if it is dangerous, they can only fight with their lives, so it can be said that all these crystals were bought with human lives.

"Sir, you have been saving our villagers just now, so I definitely can't ask for this money. Take all these spars as much as you want from us."

Looking at it like this, it should be that the crystal stones of the whole village are here. Qin Yuan shook his head and just picked up two gold stones. After that, he didn't know how much it would cost. He was in a hurry to go out this time. I didn't bring that much cash, so I took out all the cash in the bag.

They exchanged their lives for these things, and he couldn't take them for nothing, so his conscience couldn't bear it. Finally, under Qin Yuan's repeated pleas, the village chief accepted the money, and Qin Yuan only took away two gold stones. Saying that is totally enough.

This time is really an unexpected harvest. If you go to the vicinity of the volcano, you may not be so lucky. If you can find such a spar, you will get it here.

After bidding farewell to the village chief, he returned to the hotel with two spars to meet his teammates so that they could go back.

"Boy, have you all fallen asleep? Hurry up and open the door for me, I brought something good."

Qin Yuan was very happy, but he called several times and no one got up to open the door for him. He felt a little strange, it shouldn't be, he kicked open the door and saw Li Erniu, who had fallen to the ground, and the whole room There was a peculiar fragrance.

not good! It was Mixiang, with a heavy expression on his face, he went in and quickly woke up Li Erniu and the others. At this moment, the few people were in a daze and didn't know what happened.

Qin Yuan can only bring them out first, the fragrance inside is too heavy, although he can help them restore the function, he still wants to get out of that environment as soon as possible.

After moving everyone out, He Chenguang yelled that it was not good. He wanted to rush in, but was stopped by Qin Yuan. At this moment, Qin Yuan entered the room again. He checked his belongings, and basically everything was looted. The equipment they brought also included the most important spar.

Everyone is completely dumbfounded' This is simply a big joke, they are well-trained special forces, and they were tricked by thieves in this place.

Qin Zhengyang was so angry that he stood up and slapped himself directly. He felt that he was too incompetent. This was something to save Wang Yanbing.

"What the **** is going on here? Did you come into contact with any strange and suspicious people just now? Look for yourself, you are still special forces members, I really don't bother to talk about you."

Qin Yuan was really angry. These guys are stronger than ordinary people no matter what, but in this situation, they were all stunned by drugs.

"I didn't know what was going on just now, but I suddenly smelled a fragrance. I still felt strange, and then I became dizzy and fell asleep directly."

Chapter 1383: Just say how much is this thing worth?

"Me too, **** it, this place is really evil."

He Chenguang hurried to the front desk to ask the boss, but the boss spread his hands and said that he didn't know at all. It seemed that the boss didn't want to meddle in this business at all. Qin Yuan immediately asked to adjust the monitoring to see the specific picture, but he didn't expect that the monitoring turned out to be a decoration.

Li Erniu and the others were completely unprepared. These guys used the mist to slip in the crack of the door quietly. They didn't expect such an insidious move.

Qin Yuan glanced at the boss, and now it is estimated that only this guy knows the inside story, after all, he is a local, he stepped forward and grabbed the boss by the collar.

"You'd better tell me who went up, there is only one exit here, don't you know who goes up and down?"

The boss is also a ruthless character, he didn't care at all, he pushed Qin Yuan's hand away, "Don't threaten me here, let me tell you, boy, you are too lively here, what does it matter to me? You live alone Here, my things were stolen, could it be that I stole them?"

The boss didn't want to get into this muddy water, he must know the identities of these people. Qin Yuan knew that the boss was not a good person, so he took out a knife and inserted it into the boss's palm instantly.

Unexpectedly, Qin Yuan was more ruthless than him, so the boss revealed the specific situation, "Don't you all say that I said it! It's the local Ssangyong Gang."

"You'd better tell me the actual situation honestly. If you miss one thing, then I'll give you a knife."

The boss looked at Qin Yuan with fierce eyes, it didn't look like he was joking, so he could only tell what he knew.

It turns out that the Ssangyong Gang is a very well-known gang in the local area. They are members of the gang here and often do some illegal activities, especially some tourists who come here for tourism. They are easy to be targeted by them. What was said somewhere was heard by them.

The goal of these guys is obviously for the spar. Qin Yuan took out the spar from his arms and patted it on the counter when he heard this.

"How much is this thing worth to you?"

"How did you have this?"

"Stop talking nonsense, just tell me how much this thing is worth?"

"With one like this, they'd make an infinite number of smaller pieces that would sell for at least \$80,000."

what! I didn't expect this thing to be so expensive. It's not the same as what the village chief said before' It is estimated that these guys are also following the pattern of cheating and eating gangsters. Only the most profitable are those businessmen, and this Some villagers who really risked their lives to collect it did not make much money.

It seems that they should have been heard when they were discussing on the road, otherwise they didn't meet anyone along the way, how could they be targeted?

At this moment, Li Erniu also remembered that he had only mentioned the peptide spar in the car, so it seemed that it was at that time.

Qin Yuan turned his head and glanced at Li Erniu, "I said you are an old team member now, why are you still making such low-level mistakes, don't you know that you should pay more attention outside?"

Li Erniu knew he was wrong, "Brother Qin, I was really wrong. The most important thing for us now is to find these things. After you find them, you can punish me as you like. And these bastards, I really won't let them go."

Chapter 1384: Capsize in the gutter

After all, they are members of the Special Forces, and they have always been the only ones who deal with others. They didn't expect to capsize in this gutter, and if it was spread, wouldn't it be a big joke?

Everyone was very dissatisfied that they were picked up by some hooligans in this place, but these people were really brave. Qin Yuan immediately took He Chenguang and the others to set off. Now they are going to the inside of the Shuanglong Gang. Someone dares to take him He wants to let these people know that this thing is not so easy to get.

They just went out, and the boss who fell on the ground had blood on his hands. He struggled to stand up, stared fiercely at the direction they left, and then took out his mobile phone to make a call.

These people can be said to form an industrial chain here, and their people are everywhere, so they can start at any time. Most tourists who come here can only swallow their anger if they are robbed or stolen. After all, the investigation yielded no results.

In addition, most people dare not say anything after hearing that the Ssangyong Gang has been repeatedly threatened by the boss. After all, they cannot afford to offend such a gang organization, but Qin Yuan is different. He wants these guys to know that they have offended the wrong person. up.

It is easy to inquire about the location of the Shuanglong Gang. They are a relatively large gang in the local area, and they are very famous in the local area.

Qin Yuan inquired with a street vendor, and the vendor also kindly reminded him that it was best not to provoke him, "Brother, I kindly advise you that the Ssangyong Gang is not so easy to provoke, you'd better not go to their place."

"Returning the Ssangyong Gang is nothing more than two worms in my eyes."

The vendor boy looked around nervously when he heard this, and then shook his head, "It's better to speak in a low voice, there may be their people everywhere around, if they hear it, it's over."

Qin Yuan wished that these guys would come to him now, and save him from going to the boundary over there. At this moment, a few tall men came over, and they heard Qin Yuan's words not far away.

"Hey, kid, were you talking about our Ssangyong Gang just now?"

Unexpectedly, it was delivered to the door. The boss next to him was worried that he would get into trouble, so he quickly stood up and ran. People on the street saw the situation here and left one after another. It seems that the reputation of the Ssangyong Gang in the local area is really good. Very smelly.

"That's right, even if you lost yourself and crawled out, I'll go find you if you don't have to."

"Stinky boy, what the **** are you talking to us? Let me tell you, you'd better come and kneel on the ground and apologize to me.

As soon as the man finished speaking, Li Erniu rushed forward and kicked him on the chin. The people next to him only saw the man flip back and fall directly to the ground, and two teeth flew out like this.

Without waiting for Qin Yuan to make a move, Li Erniu and the others took care of these people directly. It was really too simple. Li Erniu stepped on a man's shoulder.

"You better tell me where is the person who stole our things, and where are our things?"

"It's too courageous. Where did you **** come from? You dare to attack us. I really don't want to live."

Unexpectedly, at this time, this guy would dare to say such cruel words, Li Erniu increased the strength of his feet.

Chapter 1385: has already been eliminated

He only heard a click, and the man's shoulder was directly broken by him.

"Hurry up, our patience is not good."

The man lay on the ground and gritted his teeth. This guy is also a ruthless character. He rolled his eyes and might as well lead them to the gang.

These people are very skilled, there is no way to deal with them, it is better to take them directly and let other brothers deal with them. Although they are very powerful here, they are in the central street after all, and they dare not directly engage in brazen gun fights .

Although these guys are very skilled, of course they have guns, and when they get to their territory, it's not necessarily true.

"Hey, you guys are really brave. Few people dare to say go to us. In this case, if you have any typing, just follow me. If you have the guts to return your things."

He Chenguang grabbed him, "Stop talking nonsense, and take us there quickly."

Just like this, several people got into their van, the man was driving in front, but when they drove to a small forest, Qin Yuan opened his eyes while leaning on the back seat and resting his eyes.

"Brothers, it seems that the lower body can be warmed up. Do you take care of these ***** or should I take care of them?"

Li Erniu rubbed his hands on the sidelines. After all, this incident was caused by him. If he hadn't talked so much at the time, he wouldn't have been targeted by these thieves.

"Brother Qin, just take a good rest in the car. You can't do anything with these rubbish. Wait for us to come and clean up the ***** right away."

The man driving was stunned. He didn't expect that the people they were ambushing here would be discovered. The guys in the car were not simple, and their tone was too arrogant.

Anyway, he had already been discovered, so he didn't pretend to be pretending at all. He stepped on the brake urgently and just opened the door to jump out, but was kicked away by He Chenguang on the co-pilot.

After the man was kicked out of the car, he shouted loudly and ran towards the grove. The people in the grove heard the movement, and all ran out with a huff. At this moment, these guys all had hot weapons in their hands.

No wonder these guys are so confident, what they have in their hands is not simple, they are holding some light submachine guns, which can be bought on the general black market, but this kind of weapon has long been eliminated in Qin Yuan's view.

In the past two years, they still used this kind of submachine gun during the training of recruits, but now they basically don't use it, because this kind of gun is easy to explode after being used for a long time.

The man who was beaten just now ran to the opposite side' Their current number is several times larger than that of Qin Yuan. live ammunition.

Originally, he thought that the person on the opposite side would ***** his ***** in fright, but what he didn't expect was that Qin Yuan didn't get out of the car at all, it was He Chenguang who got out of the car, and they rushed over quickly.

An old black who was standing on the side was about to shoot when a throwing knife flew out of the car and hit the center of the eyebrow, and old black fell straight down like that.

They have already done this kind of training before. When the opponent is at a disadvantage, how to counter-seize the weapon and Qin Yuan has given them some help. Just like that, He Chenguang and the others rushed forward quickly, and there was a burst of gunshots outside. .

Although these guys have weapons in their hands

Chapter 1386: 1 gang of hooligans

But to put it bluntly, it was a group of local ruffians who forcibly got together, and they couldn't do anything with marksmanship.

There is no such thing as well-trained. After all, they usually rob ordinary people. These ordinary people are no threat to them at all, and now they encounter professional special forces. It is not worth mentioning.

Soon he was completely beaten, and all the weapons on his body were snatched by He Chenguang and the others. Qin Yuan slowly opened the car door and glanced at his watch.

"It seems that I haven't been in your training recently, and my training has declined. Look, you still spent 15 minutes on this piece of rubbish."

The faces of the people lying on the ground were shocked. They didn't know who the other party was. This skill was so powerful that they couldn't compare with it. Their number was several times higher than the other party's. Unexpectedly Not only was he beaten up, but now he is also disliked by others for being too slow.

Li Erniu and the others also understood and did push-ups directly on the ground. This is a form of punishment, and they failed to complete their goals.

These little hooligans who were beaten and lying on the ground instantly had black lines on their faces. Good guy, can you respect them?

Qin Yuan gnawed on the apple and taught him a lesson, "It seems that after I go back this time, I have to train well, or else I won't come out and embarrass me."

While talking about a little hooligan struggling to get up, Qin Yuan threw the apple core in his hand. The little hooligan didn't expect an apple core to be so powerful. Nuke was stunned.

"I hate being interrupted by others when I'm talking. It seems that I'm really impatient. Remember, I'm training my people now. If they are interrupted, the next time will be a knife."

The hooligans who had time to lie on the ground did not dare to move, they could only quietly wait for them to finish their push-ups. They had seen Qin Yuan's skill just now, a throwing knife flew out directly in this situation, Accurately killed the old black just now.

At the moment, inside the Ssangyong Gang on the other side, the bosses are surrounded by clouds of beauties, and a few blond beauties are sitting on the sofa with indescribable movements.

The boss next to him was so excited that he took out the money directly from the box and threw it out pile by pile. The whole room can be described as a drunken fan.

At this time, there was a knock on the door, and a boss was very upset. After all, he was having fun, and a wine glass hit the door directly.

"Don't you **** have eyesight? I just said that it's best not to disturb us when I'm playing."

But the knock on the door became more and more urgent, and the boss became more and more angry' He took out a gun from the side of the sofa and hit the door a few times.

Just like that, the knocking on the door ended, and the beauties in the middle of the dance floor were all petrified, but the two bosses next to them waved their hands to signal them to continue.

"Don't worry, as long as you serve us well, I won't do anything to you."

The man wearing sunglasses looked at the boss who shot just now, and said slowly: "I said Grizzly, you have to restrain your temper anyway, if you continue like this, it's easy to make others have opinions."

"Hehe, don't talk about this here, I think you are the one who has an opinion, right?"

Just as the two were talking, a loud noise came from outside.

Chapter 1387: Where else do you want to go?

When they turned their heads, they saw that the door had completely collapsed and a cloud of dust was raised. The boss next to him couldn't bear it any longer. He didn't know what was going on outside. Then he saw two men flying in from outside.

He stood up cursing, and saw a flying knife flying towards him. He quickly dodged, and the flying knife flew past his ear. Although this guy avoided the vital part, his ear was directly cut off. Half off.

In an instant, blood flowed down. He quickly covered his ears and came to the back of the sofa. The beauties on the sofa also ran around in fright.

He immediately turned his head to look at the man who was talking to him just now, and at this moment the man was also hiding behind the side sofa.

"Black Dragon, is this your fault? Are you ***** playing with me?"

"Don't talk nonsense, if it's Lao Tzu who messed up, do I have to do this? It seems that something happened in the gang."

But Grizzly doesn't believe the person in front of him at all. This guy must have played a trick. Their gang is very strong. Who would dare to touch them? This gang has been spying on their status. Now the Ssangyong Gang has two bosses. It lasted too long.

So he felt that it was the ghost of the person opposite. Thinking of this, he quietly went behind the table and pressed a button. He was worried that such a situation would happen before, so he made preparations very early.

"Bastard, you wanted to stab me in the back a long time ago. You really thought I didn't know. If that's the case, you should die here."

Before the black dragon next to him could react, he heard a beeping sound, and it was too late when he turned his head, and then Qin Yuan, who was outside the door as a macro sight, also noticed the abnormality, and hurriedly urged everyone to jump out of the window and leave.

Fortunately, they were well-trained and escaped a catastrophe. They just jumped out of the window when a huge explosion sounded. Unexpectedly, this crazy guy actually planted bombs in the entire building. The sound of explosions everywhere caused a chain explosion, debris flying everywhere.

Li Erniu's arm was directly scratched by the flying lump, blood was flowing, Qin Yuan hurriedly bandaged the wound for him.

They have encountered many vicious gangsters, but they are most afraid of encountering such a desperate person, who even counts on themselves. At this moment, the grizzly bear jumped to the side and laughed.

The black dragon was killed long ago, and was crushed under the ruins, "Oh, you want to plot against me? Die here."

However, just as he was about to run away, a figure blocked his way. He hurriedly touched the pistol behind him, but only heard a click, and He Chenguang from behind also rushed forward and directly controlled him Where do you want to go? "

Grizzly didn't expect someone to survive such a powerful explosion. He turned his head and stared at Qin Yuan and the others in astonishment.

"I really didn't expect that we didn't need to do anything at all. You guys started killing each other right now. Sure enough, I saw a good show and saved us so much trouble."

Grizzly was at a loss when he heard this. Could it be that he really misunderstood that there were other enemies, "You! Who are you?"

"It doesn't matter who we are, I just want to ask you for something. In the hotel on West Street, our people were attacked by your men and our things were also taken away. Where are these things?"

Chapter 1388: Dare to move my things?

Grizzly was dumbfounded when he heard this. After all, he still hadn't realized what was going on. He killed his brother because of a misunderstanding.

It was only after Qin Yuan's repeated questioning that he finally figured it out. It seemed that he had really misunderstood. Qin Yuan and the others were the real enemies.

"My patience is not very good, let me ask again, where are our things?"

As Qin Yuan spoke, he stepped forward and stretched out his hand to grab his wrist. With just a little force, the whole wrist was torn off by him.

"It's just dislocated now, and if you don't say anything else, I'll disable it from now on."

Grizzly was lying on the ground and howling in pain. His eyes were cold and he was thinking about countermeasures. There should not be many people left outside of him now.

And this place was directly detonated by him. It seems that he can only choose to cooperate. When he was still struggling, Qin Yuan once again tore off his arm with force.

Because these people are not good at all, he just cleaned up the garbage by cleaning up these guys like this.

"Don't do it, I said that I said that although I don't know what it is, because these are not in my control, but I only know that the things we rob every day will be handed over to the black seller above."

what! Qin Yuan looked at the time, nine hours have passed since their things were robbed, and the things must have been transferred to the black market, so the situation is not good.

After inquiring about the location of the black market, Qin Yuan directly killed the man in front of him with a knife. The man's eyes widened and he looked unwilling, and finally fell to the ground.

Qin Yuan and the others held the weapons of those guys before. Although they were relatively crude, depending on who used them, well-trained special forces like them could maximize the effectiveness of these weapons.

After all, they were not on a mission this time and were away from home, so they did not carry other firepower weapons.

Moreover, after Qin Yuan inquired, the underground black they were going to was relatively well-known in the local area, and there were a total of three organizations jointly managing it, so it was also very complicated.

But these are nothing to Qin Yuan, his things are not so easy to get, no matter who it is, he must hand over his things today.

Qin Yuan brought a few people to the black market. The situation here is more rampant than in the country, and the domestic words are still relatively hidden. After all, these things are not visible, but these three organizations are jointly managing here.

The scale is still very large' and it is very formalized. Li Erniu looked at the side with snipers and the power grid on the wall. The management on this side is completely militarized.

Compared with the organizations they broke into before, it was much stricter. Everyone who entered had to hand over their weapons, and everyone was queuing up to enter the trading market. At this time, Qin Yuan took Li Erniu, and they walked towards the gate without saying a word. The direction rushed in, causing a burst of chaos in an instant.

The people next to him immediately sounded the alarm, and all the security personnel immediately gathered at the gate. These people seemed to have done a lot of simulation training, so they acted very quickly.

"Who is so bold to come here to make trouble in the trading market? I really don't want to live."

"I don't know. I heard that some foreigners have never seen it. Anyway, go and see it first."

Chapter 1389: does make sense

The weapons they held in their hands were much more advanced than those used by those people before. The captain who spoke just now led people over, and saw that the few people who were in charge of guarding the door before had been completely beaten to the ground.

The guards on the west side also rushed up quickly, Qingyuan didn't pay attention to these guys at all, and threw a few throwing knives over before even firing a gun, and the people running in front fell down.

The captain behind was stunned seeing this scene. This man's skill is very powerful, especially the few people he brought quickly formed a formation.

Seeing that they were surrounded at first, they didn't expect that they would form an anti-encirclement posture, and a few people could have such great ability.

These few people are definitely not that simple. The captain didn't dare to act rashly, so he could only hurry forward.

"This brother has something to discuss first, there is no need to do it in such a hurry."

"Hehe, I didn't want to do it. It's your people who want to embarrass me. I want to go in. Why don't you let me in?"

The captain was still puzzled, and the subordinates who were knocked down quickly got up and told him that they were going to check the weapons, but they couldn't help but go in directly, and they kept saying that they were looking for their things.

"Captain, you can't blame the brothers for this matter, they don't obey the rules, we can't just let them do it."

The captain wanted to get angry at first, but it was really because these guys were too ignorant of the rules to cause trouble in their territory. Although their weapons were a bit crude and not as good as theirs, they were very powerful.

I can only endure it. After all, there will always be some powerful people in places like them, and they will cause some big trouble. "Brother, what are you looking for? Just tell me, I will mediate now."

"It's nothing, it's just that our things were robbed yesterday, and then sold on the black market today, and now I need you to return them."

Originally, the captain thought that it would be fine if they said they bought it back, but he didn't expect to just say it and return it. How is this possible? The things on the black market were bought from various places, how could they just return them for free?

"Brother, I think you may not understand the rules here. We also spent money to get this thing back, so how to deal with it is our business. It is very simple for you to get it back. Based on our side Just buy it back at the price."

"Hehe, I think you didn't understand. I made it very clear that it belongs to me. I'm just coming back to get it now."

The captain was already impatient when he heard this. It seems that this guy is determined to make trouble, he gave him a look, and asked the younger brother next to him to report the news first, after all, the influence here is very extensive.

He held Qin Yuan and the others here first, and he brought more than a dozen people. In this way, he should be able to hold off for a while and get other brothers to support them.

"Captain, I think don't bother with these guys. They are just a bunch of country bumpkins who don't understand our rules at all. The brothers will deal with them directly."

"Damn it, they injured many of our brothers just now. If they want to play like this now, it is absolutely impossible. Even if they report it to the boss, the boss will not blame him."

Captain, it makes sense to think about it.

Chapter 1390: can't get through

These guys are obviously here to make trouble, and they keep talking about their own things, how can they have anything of their own when they enter their place.

Qin Yuan was too lazy to fight with them at first, but these guys didn't intend to let them go at all. In this case, let's play with them, and your own things are so easy to get.

Half an hour later, a man in black clothes was covered in blood and limped into a high-end club.

Several people in the clubhouse are surrounding the table to calculate this month's share, and they are the largest black responsible shareholders in Dongguo.

The sudden man broke the calculations of several people. The man stumbled and ran in, and hurriedly reported what happened to the trading center. The boss was very angry when he heard this. Their organization is so huge, and there are really people who are not afraid of death to make trouble.

But the man in front of you didn't come to ask for reinforcements. He knew Qin Yuan's horror, so he killed all of you.

"Brother, let's return the things quickly. Although I don't know what it is, it seems to be something sent by the Grizzlies yesterday."

"What are you talking about, kid? There's no reason for me to return it. It's really itchy."

"Brother, we really can't afford to offend him, our brothers are basically dead."

Before the man finished speaking, the person in the seat stood up and shot him in the head.

"It's just a piece of trash. How could so many of our brothers be killed? Who has such a great ability, even the real military can't take action against us."

As soon as he finished speaking, he heard a burst of gunshots from outside. Several people were suspicious for a while. When they poked their heads out, they heard a man's voice coming from the yard.

"I'll say it again, return my stuff, or I'll keep doing it."

These bosses didn't expect that the affairs of the exchange would be involved here, and they were not afraid. After all, the bosses had many people under them, and they were three whole organizations that dominated the local area.

However, what they didn't expect was that the boss on the left picked up the phone to contact his subordinates, but found that there was no answer at all.

The same was true for the other people. Just when they didn't know what was going on, a grenade was thrown in through the window.

"I rely on it!"

"run..."
