

## Special Soldier 1441

Chapter 1441: Older gingers are more spicy!

"But don't forget, \*\*\*\* is still old and spicy!"

Before Gao Shiwei understood it, the old chief had already stood up and walked outside with his hands behind his back. He hurriedly chased after him, but the old chief didn't say a word, just let the driver lead the way, and turned around in a short while. When they arrived at their dormitory, the driver pointed in a direction, and the old chief immediately understood.

"Old chief, what are you doing here? This is the accommodation area for our soldiers, and there is nothing wrong with it."

"You still want to play tricks with me here, don't you? Qin Yuan has already returned!"

Unexpectedly, this old guy was more informed than him. Gao Shiwei looked at the driver next to him and understood that this old guy had put eyeliner beside him.

I have to admire, as expected, Jiang is still old and spicy. He is not the only subordinate of the old chief, there are so many people, and the people around him are not ordinary people.

Gao Shiwei thought for a while, now that he has been discovered, he should admit it openly, but he must not let Qin Yuan be taken away. He was taken to the research institute, and he did not know when he would be able to return. According to Mr. Zhang's attitude, he probably didn't want Qin Yuan to be in the brigade.

Qin Yuan was lying on the bed in the dormitory at the moment, and Secretary Liu was lying by the window like a thief, quietly observing below.

This is the task Gao Shiwei entrusted to him, as soon as he finds Qin Yuan, hide him quickly.

Seeing Secretary Liu sweating profusely, Qin Yuan just thought it was funny, and asked him to come over and rest first, so there was no need to be so nervous.

"Miss Liu said don't be so exaggerated, hurry up and rest."

"This is not acceptable. Gao Dui told me that I will guard you every step of the way and prevent you from being discovered by others."

"Then if you didn't say it earlier, we must have been discovered long ago. I just saw someone who was not from our brigade. A man in a Chinese tunic suit has been eyeing me since I came in."

Qin Yuan was very familiar with the people in the brigade, but he had never seen this person before, so he paid attention to it.

Did you say that you were dumbfounded when you heard this, what happened? Then his hard work was not for nothing. According to Qin Yuan's description, that person was the driver of the old chief. He had been discovered so early, and they were still hiding here.

After a while, Secretary Liu received a call from Gao Shiwei, asking him to bring Qin Yuan to the office.

Secretary Liu could only say that he had tried his best, and reluctantly took Qin Yuan to the office. As soon as he entered, Gao Shiwei shot his eyes at him. This guy can't do even small things well.

"You kid don't blow your beard and stare in front of me. When I teach people, you don't know where you are still muddled."

Gao Shiwei immediately restrained himself a little, and then said with a smile: "Old chief, look at what you said, you taught me to shoot. How dare I make a mistake in front of you?"

"Hehe, don't give me such a trick. If I hadn't been more careful today, I would have been taken away by you."

After the old chief finished speaking, he walked to Qin Yuan's side, and looked up and down. He was a figure of the God of War level in the entire military region, and the research institutes of other aerospace bases were scrambling to get him to go.

The main reason is that I didn't expect to be so young. It's true that the waves behind the Yangtze River push forward the waves ahead. One wave is stronger than the other. The old chief is very satisfied. No wonder Zhang Lao has been asking him to get Qin Yuan over quickly.

Chapter 1442: The number of victims is rising every year

From a distance, this kid seemed particularly reliable.

The old general was not as direct as he said, he took Qin Yuan to greet him first, this matter still needs to be agreed by himself.

The more Gao Shiwei looked at the situation, the more he felt that something was wrong. According to this development, the old general was somewhat capable of persuading people. In addition to his unusual status, Qin Yuan would give him face no matter what. It's hard to speak.

He quietly went around behind the desk and took out a document in the drawer. At this moment, the two of them were having a lively chat and did not notice his actions.

After a few questions, the veteran felt that Qin Yuan was a rare talent. He was really capable in weapon design and manufacturing, and this guy had a lot of fame.

In fact, it is true to say that, although he is the captain, compared to technology, that is where he should really be.

Just like the elements they just came back from space this time, they are directly used in the manufacture of various weapons, which greatly solves the problem of many resource shortages, and can also be provided for the research institute. New Research Protocols.

Like the captain, he didn't know how many soldiers the king would pay each year, and he could be selected among these people, so the old general felt that Qin Yuan was more suitable to stay in the research institute.

He was completely convinced by Mr. Zhang. According to Mr. Zhang, research like this can advance the development of Yan Kingdom by a few degrees.

The old general turned his head and looked at Gao Shiwei with a serious face, "I know what kind of plan you have, but I'm also telling you seriously, if he goes to the research institute alone, how much research can he get in exchange for our technology? Moving forward, the times have changed now, it is the power of science and technology, the war of science and technology."

Although the old general has retired, he has been paying attention to many things, so what he said is very clear.

Gao Shiwei didn't know what it meant, but it's impossible for Qin Yuan to leave completely.

Although it is said that many soldier kings are continuously sent to the special warfare brigade for systematic training every year, allowing them to form various teams, the number of sacrifices is increasing every year.

"Old chief, you know how many lives our comrades sacrifice every year, isn't it worth it?"

"You! What are you talking about? When did I say that these human lives are worthless?"

"We are all soldiers, so I think you should know, especially we are all leaders, and we don't want our subordinates to have any mistakes, but since Qin Yuan became the captain and led the red blood cell team, our sacrifices have decreased to 10%."

This has not been carefully counted. Since Qin Yuan led the red blood cell team to carry out the mission, there has basically been no sacrifice in those extremely dangerous missions.

Gao Shiwei, as the direct leader of the special operations brigade, manages so many teams under him, and his special operations members are not machines, everyone is flesh and blood, and no one can bear any sacrifices.

The old general was a little confused for a while, but what Gao Shiwei said was indeed correct. Under his leadership, an excellent general can not only complete the task well, but also reduce casualties.

As an officer, he also understands this feeling very well.

Chapter 1443: I can breathe a sigh of relief

At this moment, Gao Shiwei knew that he had been persuaded, so he took the opportunity to slap the information in Qin Yuan's hands.

"This is the latest task. There are detailed information in it. Time is tight and the task is heavy. You are familiarizing yourself with the information on the way. Hurry up and go first."

Gao Shiwei can only let Qin Yuan avoid the limelight for a while, at least not let this guy appear here for a while.

The old officer looked at it like this and quit, "What kind of tricks are you playing with me? I told you it's best not to mess with the command. Didn't you see that we haven't finished talking yet?"

"Chief, as you know, our special operations brigade has a lot of tasks, and sometimes there is really nothing we can do."

The old officer looked at the sealed information bag and sighed silently. He had waited for so many days, but both sides seemed to be inseparable from this kid.

He was also a soldier himself, knowing what the mission meant, he could only helplessly wave his hand and let him go first.

When Qin Yuan went out, he turned his head to look at him and said, "Chief, I don't want to make it difficult for you, but being a special soldier is my dream all along, and I will definitely not leave!"

Gao Shiwei heaved a sigh of relief when he heard this. This was Qin Yuan's affirmative answer. He himself was unwilling, and it would be meaningless for outsiders to persuade him.

"Is this your answer? I've been waiting for so many days, and you give me this answer?"

Gao Shiwei's face darkened, is the old chief angry? What Qin Yuan said was indeed too straightforward, and he should be more tactful if he refused.

"Chief, I know that you have worked very hard. You have been here all the time. This time, when I return from my mission, I will go to the research institute, but I will cultivate more researchers, so that both sides can balance."

This is a good idea, the old officer nodded, and looked at Qin Yuan more appreciatively, this kid's head is aura. This approach is the best of both worlds.

After all, he only has one, so it is a good thing for him to cultivate other researchers, and he can inform other research team members as soon as there is anything.

After finishing speaking, the old officer also smiled helplessly. After waiting for so many days for this result, it was not a loss, so he also turned and left.

Gao Shiwei hurried up, "Old chief, don't leave in such a hurry, stay here for two more days, and I will have a drink with you tonight."

The matter was resolved, and Gao Shiwei could breathe a sigh of relief. He has been anxious about Qin Yuan these days.

"Hey, you still play with me, now you want me to leave quickly, and you still want me to stay here?"

"Chief, look at what you said. We haven't seen each other for many years. I definitely hope you can stay and have a good drink together."

"I don't need this anymore. I'm tired of eating here with you. I'm going back."

The old officer's temper is also very stubborn, and ordinary people can't persuade him. He has nothing to do now. The purpose of coming this time has been achieved. He wants to go back and answer Mr. Zhang when he gets the result he wants.

Gao Shiwei's heart was full of joy, what he said just now was indeed good, the old officer was here for one more day and he was a little worried, although Qin Yuan had persuaded him just now, who knew if he would change his mind again.

After seeing off the old officer, he saw Qin Yuan still standing at the door, "What are you doing standing here? Aren't you going to perform the mission?"

Qin Yuan was full of question marks. He thought it was just acting, but he didn't expect it to be a real mission.

"Take a good look at the information. It's an undercover mission. Cooperate with our comrades. This mission was originally for you."

Chapter 1444: undercover mission

Without further ado, Qin Yuan hurriedly set off. There are not many people needed for undercover missions. After he goes in this time, he will cooperate with the comrades who have been undercover internally before.

He opened the file and didn't see the details of the undercover agent inside. He only knew that the undercover agent's code name was White Cat, and there was no other information about whether he was male or female. Of course, he also knew that this was to protect the undercover agent.

Just as he was checking the information, the vehicle stopped, and two armed policemen came up with a person under their pressure.

"Captain Qin, I didn't expect it to be you."

Qin Yuan heard a familiar voice and looked up. It was the team members he had met in training with the Armed Police Detachment. The two were now fully armed, pressing a man with handcuffs and anklets and walking over.

The team member Xiao Wang handed over the information in his hand to Qin Yuan. The person in front of him was what Qin Yuan wanted to replace, so he had to be brought here now so that Qin Yuan could be familiar with it before he could make a good disguise.

Once he wanted to go undercover into the Blackwater organization. The Blackwater organization covers a very wide range. Every country has their members and their criminal records.

Over the past few years, relying on their large number of members, they have carried out criminal activities everywhere, engaged in various human trafficking and criminal transactions.

All countries have launched a crackdown on these forces. Of course, their headquarters have not been suppressed. Every time they catch only some small ones, it doesn't make any sense at all.

It's just that catching those small shrimps has no effect, and the hidden danger of the headquarters has not been eliminated for a day has always existed.

The headquarters of the Blackwater organization has always been a mystery until this time that Yan Guo successfully infiltrated their undercover personnel, but this Blackwater organization is very cautious. It has been undercover for three or four months, and there is no news at all until now.

So Gao Shiwei and the others acted in cooperation, photographed Qin Yuan, got in touch with the undercover insiders, cooperated with the inside and outside, and wiped them all out.

And the man brought by the armed police is called Da Biao, who is a middleman. This guy often made deals with people from the Blackwater Organization, and finally slowly developed into a member of the Blackwater Organization. During the operation, the organization distributed by this man was wiped out.

However, many members of the organization escaped back, so Qin Yuan took advantage of this opportunity to disguise himself as this man, and then sneaked into the Blackwater organization smoothly.

The man named Da Biao was full of dissatisfaction. Although his hands and feet were in shackles, he looked at Qin Yuan with cold eyes.

"Go away!"

Xiao Wang next to him yelled loudly, "Be honest! What else do you want to do?"

Da Biao didn't want to cooperate at all, because he knew the horror of that organization. If he betrayed the organization now, it would be over when he came out.

He is just a middleman, and these crimes are not considered serious crimes. At most, he will be released after being locked up for more than ten years.

But after he came out, he would definitely be retaliated against. He would rather stay in the cell honestly than go into this muddy water.

At this time, Qin Yuan grabbed him and lifted him into the car, "What are you going to do? Let me tell you, you are using your personal feelings like this, and you are breaking the law."

This guy really knows something, and he is yelling loudly here, and he feels that Qin Yuan must not dare to touch him.

And Qin Yuan didn't want to beat him at all.

Chapter 1445: scared expression

Instead of forcing this guy, it is better to use the most direct method to directly invade his meaning, and then check the specific situation, which is more accurate and less troublesome.

The man was still struggling just now, but suddenly he sat on the seat like a fool.

Xiao Wang next to him was dumbfounded. He had heard that Qin Yuan's hypnotic ability was very strong before. Could this be that hypnotic ability?

The two of them didn't dare to disturb, they just stood outside silently like that, after a while Qin Yuan asked them to take this person down, it was useless, he already had all the information.

Da Biao hadn't figured out what was going on, so he was taken away. Anyway, he didn't say anything, so there shouldn't be any problem, but he felt that the way Qin Yuan looked at him when he got out of the car was a little strange.

Qin Yuan is now going to play the role of this big biao, and the people who come into contact with this person are basically arrested, dead and arrested, so there is no one he is familiar with. Qin Yuan will use his identity to successfully sneak in.

According to the information, he doesn't need to do other imitations, as long as he is familiar with this person's information, but Qin Yuan decided to use the disguise technique for safety reasons. Some.

You have to do enough acting. Qin Yuan was smuggled out from the border and sat on a smuggled boat, so that he can act out the illusion of escape.

He knew where Da Biao usually went to connect, and he could find people from the Blackwater Organization there, and he could successfully sneak in.

When Qin Yuan came to their usual place on the street, it seemed that everything was normal before, because the previous campaign to suppress them had also affected them, so these guys were a lot more cautious.

He looked at the people coming and going, and suddenly found a familiar figure. He had seen this person in Da Biao's mind before, and he was a member of the Blackwater Organization.

He hurried forward and grabbed the man, you are a man from a foreign country, very arrogant, with a pistol pinned to your waist and a machete in your hand.

People around saw them and avoided them. Only Qin Yuan went up to meet him. The man was disturbed and turned his head very upset.

"Are you looking for death, kid?"

"Hey, brother, it's not right to say that. Anyway, we are also members of the same organization. I can be considered to have found an organization."

The man was a little puzzled when he heard this. He opened Qin Yuan's hand. This guy didn't take this at all, "I don't know what you mean? Who are you?"

"I'm Da Biao. I was in charge of the business in Yan Country before."

The man thought for a while, the scale of the previous suppression operation in Yan country was very large, now their business in Yan country is completely cut off, how could this guy escape?

At that time, he heard that everyone was killed, because even the temporary factory over there was directly destroyed.

Thinking of this, the man directly pulled out the gun in his waist and pointed it at Qin Yuan's head, "Hehe, I think you have already cooperated with that side, so you came here now."

"Brother, don't, the business in Yan Country can definitely be started now, it's just a matter of time, how could I betray the organization?"

Qin Yuan made a frightened expression, and quickly squatted on the ground. The man was very cautious. He felt that it was impossible for anyone to escape under such circumstances.

Chapter 1446: crooked mouth

This guy is estimated to have been controlled by the Yan country police.

Soon he asked the people next to him to start a body search. After searching for a long time, he only found a mobile phone on Qin Yuan's body. After everyone checked it, there was no problem.

But the man didn't say anything else, he felt that the most important thing was going out to hide the hidden dangers. This guy ran over out of nowhere, and the distribution he was in had been taken away by the police. How could he escape?

"Brother, I'm sorry. Although you said there's nothing wrong with it, I've heard about your department. How could you run away, so I'm sorry."

The man was about to pull the trigger as he said that, and Qin Yuan was also ready. If it didn't work, he could only kill them. At this moment, a person in the crowd recognized him.

"Brother Hu, wait a minute. Just now, this guy said he has business with Yan Country. If it is still useful to keep him, you need to ask the boss!"

When it comes to this man, I also hesitate. Now their organization is being suppressed by various places, and many businesses are declining steadily. If they can open up a market, it must be good.

But he can't bring Qin Yuan back to the headquarters now, he needs to send someone to check his identity first.

The man who spoke just now said a few words in Brother Hu's ear. Brother Hu nodded, feeling that it really made sense, and then walked over.

"Let me tell you, we all know where your wife and children are, and I'll bring them here for you to meet later. I'd like to see if you really ran out, or did you have some conspiracy with those cops?"

This is also the reason why Da Biao did not want to cooperate with the police before. His wife and children are likely to be threatened. Now these guys are threatening Qin Yuan with these things.

"Brother, don't worry, I'm sure there will be no problem!"

Brother Hu didn't say anything, and asked the two subordinates behind him to bring him and the others to a small hotel.

Qin Yuan was locked in a room alone, and there was another person guarding the door. After a while, the man who recognized him walked in.

He searched for information about this person in his mind. This person was called Waizui. He had cooperated with Da Biao before and Da Biao had rescued him in a campaign against him, so he stood up and spoke for Da Biao just now.

He threw a cigarette with his mouth crooked, "You better tell me the truth now, what's going on? With our relationship, don't lie to me. I just stood up and vouched for you. "

"Do you think I'll lie to you? Besides, what's the benefit of cooperating with those scouts? My wife and children are in their hands!"

After saying that, he nodded with his mouth twisted. This kid probably didn't dare to say, "How did you escape? I heard that so many people were sent by the special police and the armed police."

Qin Yuan started to play Da Biao, who was thoughtful and thoughtful, "Fortunately, I made a place and built a secret passage in the back. If it wasn't for that secret passage, I would have gone in."

"Hey, you kid really survived a catastrophe, okay? Then wait for Brother Hu, I have already arranged someone, and I may have to interrogate you later, anyway, everyone will continue to do business after the questioning ."

Qin Yuan nodded, this was the first step to success, and it was also thanks to the fact that he had changed his face, and he didn't expect to have someone he knew.

Chapter 1447: Brother Hu, don't worry

What he is most worried about now is the person who went undercover into the Blackwater organization. According to the information, he has been out of contact for more than four months. Qin Yuan can find his comrades as long as he signs on the street after entering the headquarters.

In this way, at night, several people brought by Brother Hu, who seemed to be from the headquarters, began to torture Qin Yuan in turn.

Their main concern is whether the trading channel can still be opened in Yan Country. Da Biao has always been in charge there, so the organization doesn't want to let such a big fish go.

There was really nothing wrong with repeated interrogation, and Brother Hu brought Da Biao's wife and children over again, mainly to a dormitory to let him think clearly and understand.

Qin Yuan looked at the trembling child and woman in front of him. These two people are truly innocent. If there is a chance later, he will definitely rescue these two people.

The woman was honest and dutiful, sitting obediently in the room with the child, Da Biao just stretched out his hand, unexpectedly the woman subconsciously hid behind.

Qin Yuan suddenly remembered that he invaded Da Biao's consciousness before, and found that this guy was still doing something to the woman. At first he wanted to comfort her, but now that he is Da Biao, he slapped the woman directly.

"Damn it, what's the fuss here if you're not doing enough to make things worse? Will I eat you?"

Crooked mouth saw it and hurried over to pull him, "You should put your temper back, it's not easy for a sister-in-law to bring a child, so forget it, don't talk about it."

The two talked for a while, and that was it, Brother Hu led them away, followed closely by Wicked Zui.

"Brother Hu, just now I saw that this kid is fine, and his reactions in all aspects are good. It seems that he escaped by luck."

"That's right, wait a minute, don't take him to the headquarters, wait a few days to find him."

In order to be able to stay, Qin Yuan also played a good show with the domestic side. He said that he still has many customers in the domestic side. After the limelight passes, he can still build a bridge to sell the things here there.

Brother Hu and the others are looking at this, so they keep Da Biao. This is the first step for Qin Yuan to succeed.

A week later, Brother Hu took him to the headquarters. Brother Hu temporarily arranged him here as an agent of other departments, and asked him to go with him to deliver the goods.

"Remember that there are no idlers in the organization. During this period of time, you can go with them to deliver goods. After the limelight passes, do as you say and open up the market."

"Okay, okay, Brother Hu, don't worry, I will definitely do well."

After Brother Hu left, Qin Yuan was taken to another dormitory by the people from the headquarters. There were already four people in the dormitory, and everyone was very indifferent. Although they belonged to the same organization, no one cared. It's all about money.

Qin Yuan took the initiative to say hello, because he wanted to find his comrade, and he had no idea who that person was, so he could only get acquainted here as soon as possible.

He took out a pack of cigarettes from his bag, "Brothers, this is the newest brand."

The big man who was sleeping near the door stood up and took a cigarette, "You know the rules quite well, where did you hang out before? Why did you come to our place?"

"Don't mention it, I was on the Yan country before, didn't this catch up with the suppression operation? So there is no way to come, the headquarters will hang out with the brothers first, and then go back after a while."

Chapter 1448: see familiar people

"Then you are lucky. For the sake of being so sensible, you can hang out with me in the future. Although you did a good job there before, you have to rely on something to know here."

The big man was squatting on the ground smoking a cigarette, and Qin Yuan understood it instantly. He took out a gold watch from his backpack.

"Brother, I've just arrived here and I'm not familiar with many things, so I hope you can take care of the place that needs to be taken care of."

The tall man's eyes lit up instantly when he saw the gold watch, he put the watch back calmly, and said, "You brother is too polite, don't worry, don't worry, you can call me if you need anything. I am in charge of this area, you can call me Brother Guan."

Qin Yuan nodded again and again, just like this, he became acquainted with the people here. This is something that has not changed since ancient times.

Qin Yuan also inquired a lot about the situation, and only then did he realize that the place he came to is not the real headquarters, but at most a processing factory directly under it. They are responsible for picking up goods from the factory and sending them to other places for trading.

The bosses of the Blackwater organization are not on the factory side, and they are all separated, just in case.

And I got a lot of information from Brother Guan. The reason why they haven't been found for so many years is that even this factory is mobile, and the periphery is surrounded by their eyeline. If there is any trouble, they will immediately evacuate with the goods.

Any electronic equipment is not allowed to be used here, just to prevent someone from tipping off the news, and all things are distributed at the factory.

The scale of the factory here is very large, except for some workers who specialize in production in the core area, they are thugs like Brother Guang and the others who are in charge of transportation transactions.

Qin Yuan also understood why their undercover comrade completely lost contact after he came in. No electronic equipment can be used in this place, and he was searched when he came in.

There are restaurants, bars, and canteens in the factory. The scale is very large, but you are not allowed to go out casually. The inside and outside of the factory are actually similar, and there are tobacco and alcohol inside.

According to Guan Ge's introduction, they can only go out once a month, and they must be accompanied by other people when they go out.

Therefore, it is really difficult to convey information alone. Everyone must live in a dormitory. No one has special circumstances, including this brother Guan. He can be regarded as a small leader in this area, but he must live in a dormitory.

This is also to achieve a kind of containment effect, members supervise each other, there is no chance to act alone.

The management scale here is really good. Qin Yuan didn't find anything after staying for two or three days. Brother Guan came to find Qin Yuan in the afternoon and asked him to make preparations, planning to take him out to deliver the goods.

Qin Yuan quickly smiled and smoked, and inquired about other situations, "Brother Guan, where are we going? Is the delivery place far away?"

"Don't ask if you shouldn't, what are you worrying about, we will take you there, you just follow us, and do your own thing."

Brother Guan is still relatively tight-lipped, he knows all the rules he should know, so he didn't reveal it lightly, "I didn't think that if it was too far away, I should just bring more things."

Chapter 1449: Brother Guan is about to lose his temper!

,!

"It's not that far away. It's just going to another district. It's only two or three kilometers away from here. We're going to another district to deliver the goods."

Qin Yuan nodded. In the past three days, he has almost left the factory area here. So far, he has not found anything special. What is more difficult now is that he does not have any information about the undercover agent.

The only useful information they know is that the undercover agent they lurked in would hold a newspaper in his hand and a pen in his pocket on Wednesday afternoon. , You can discover each other in this secret way.

But today is Wednesday, Qin Yuan has been wandering around the factory area, he wanted to see if he could find the undercover agent here, but the sudden mission disrupted his plan.

If you miss today, you will have to wait until next Wednesday. The delay is too long, the waiting time is too long.

Brother Guan has already delivered the goods, and kept urging him, Qin Yuan could only find excuses to go to the bathroom.

"Can you \*\*\*\* hurry up? Everyone's waiting for you."

Qin Yuan put half a pack of cigarettes in Guan Ge's hand, "I really can't help this stomachache. If you can't do it, brothers, go first."

"Stop talking nonsense here, as many people as you say, you must go. This is the rule, don't you know?"

Qin Yuan could only nod his head, and then hurried to the toilet. Compared with other places, their place is really different, and the rules are too strong.

This is also the reason why the Blackwater organization has been operating for several years. They all have their own set of rules, and everyone must abide by it. Just like today, there are a total of four people delivering goods, and those four people must be present.

According to Guan Ge, even if the fourth person dies, his body must be taken out. Every delivery is very secretive, and it is easy for undercover agents to infiltrate among them, so according to this method It is possible to rule out the undercover and prevent the undercover from passing on the information.

Qin Yuan squatted in the toilet thinking about countermeasures. It was too difficult. The situation here was different from what he had encountered before. Just as he was struggling, there was a violent knock on the door.

It's Brother Guan's younger brother, he was a little impatient, "Are you alright, Brother Guan is going to get angry!"

Qin Yuan sighed helplessly. He had no choice but to follow them first. Compared with revealing his identity, it was safer to go there and hide.

After Qin Yuan came out, everyone got into the car together, and the car drove out of the factory slowly, turning around the street outside and turning into another dirt road.

After passing through the dirt road, I saw some faint buildings ahead. This is another factory they said, but it looks very dilapidated, similar to those houses.

The car drove into the yard of a private house. Brother Guan greeted the person at the door. After checking the situation, the person at the door slowly opened the door of the garage, and the car backed directly into it.

Just when Qin Yuan was about to get out of the car, Brother Guan held him down, "I'm not loading the goods here, just wait."

There was also the sound of eating and chatting around, and then they followed the vehicle and descended slowly, unexpectedly, it turned out to be a large mobile elevator.

Chapter 1450: I didn't expect to be an acquaintance

After coming down, the surrounding scene really surprised Qin Yuan. The ordinary above is just a cover-up, and after coming down, there is a very large underground space.

There are armed personnel patrolling and holding hands everywhere, and there are some workers who are moving. As soon as their vehicles get off, the workers who will move later will come down with a trailer and start transporting.

Brother Guan was standing next to him smoking a cigarette. What they needed was to protect the safety of the road and ensure the delivery of the goods. This side was what they called Area C.

Although the distance is not too far, there will still be other factors along the way. The goods he sent are raw materials for processing, and the second processing will be carried out here.

Because these raw materials will release a lot of poisonous smell and smoke when they are processed, they are easy to be discovered, so they just carry out the first process and send them to this underground factory for secret processing. All the exhaust gas passes through the underground piped out.

The scale here is similar to the factory over there. There are also some bars and snack streets. They are completely militarized and no entry is allowed.

"Brother Guan, wait for me, I'll go buy some wine and cigarettes for the brothers."

"Go, you kid is quite up to the mark."

Qin Yuan walked in, and the situation was more complicated than he imagined. He didn't know how many areas like this existed in this place, but now he only knew about two of them.

He has to find a way to get in touch with the outside world. If he really can't get in touch, he can only do it himself. Anyway, it's not a problem to end these two areas, but the key issue now is to find the undercover comrade as soon as possible. .

Qin Yuan slapped the money on the counter. When the boss was filling the wine, he looked out the window aimlessly, and suddenly saw a familiar figure.

He tightened his grip and ran out quickly. The boss still felt strange, what is this guy doing? He kept calling him from behind.

Qin Yuan didn't care so much, he was worried that he would miss it, because he actually saw Zhao Min!

The former Zhao Min had a younger sister's hair during the training, but now she has a shaved face and is wearing a work uniform. Qin Yuan is very sure that it is her!

More importantly, Zhao Min now has a pen pinned to her chest pocket and a newspaper in her hand, wandering the streets outside.

Qin Yuan was very excited, finally found his undercover comrade, unexpectedly he was an acquaintance.

But at this moment, Zhao Min doesn't know him at all, and Zhao Min still has a cigarette in his hand. It seems that this guy has learned everything he taught before. life inside.

It's just that Qin Yuan looked at Zhao Min's state from a distance, and felt that something was wrong with her, her eye sockets were sunken, and her cheeks were often thin.

Just when he was about to get close to Zhao Min, Zhao Min suddenly realized that before Qin Yuan's hand was on her shoulder, she turned sideways to avoid it, and then directly took out the weapon from her waist.

"Go away!"

Unexpectedly, Zhao Min's vigilance was so high. This movement caused everyone around to look towards him, and some of them smiled meaningfully.

Qin Yuan originally wanted to explain, but there are too many people in this place, and now he is shown in front of Zhao Min in the form of Dabiao, so she doesn't know himself at all.
