

Special Soldier 1461

Chapter 1461: can't bear it

He can tell the purity and quality just by smelling it a little bit.

At present, from the appearance, the purity of this batch of goods is very high, but I don't know how it tastes after being ignited.

He took out a lighter from his bag and threw it on the table, then glanced at Zhao Min, "You have a try."

Zhao Min picked up the lighter with ease, and then took out a piece of white paper and put the thing on the paper to light it up. It looked like he had tried it before.

This is Zhao Min's biggest secret. There is no way to enter here. This is the most basic test. If you don't touch it, you will be eliminated by them first. In order to completely lurk, she has no way at all.

It was precisely because of this that she gained the trust of the boss of the organization.

Zhao Min couldn't control herself, the temptation of this thing was too great, even if she had gone through multiple trainings, once she got in touch with this thing, people's willpower would weaken, and at the moment of ignition, she completely relax.

The poisonous dragon next to it smelled it a little, and it was very pure, and the smell was very good, so it was very suitable to give to the boss over there.

It's just that at this moment, he is staring at Zhao Min in front of him with a squinting face. Although Zhao Min is wearing a refreshing short hair, but the bumpy figure makes people imagine.

For Dulong, he is the one who has the most desire to conquer, but he didn't lack women around him before, but recently, due to some emergencies, he stayed in the primitive jungle for more than a month, and he just came out to pick up the goods.

But he also knew the character of this woman. If she came here by force, it would probably hurt her peace. After all, she saved him before.

Du Long thought for a while, his eyes kept spinning, Zhao Min beside him was already slumped on the chair, she tried her best to restrain herself, and only let herself inhale a small amount.

Fortunately, the amount of this thing is not too large, it just makes her a little wandering, she must stay awake.

Dulong showed a wretched smile, "You have been with me for so long, the amount I gave you before was too small, or you can try it completely and look at this batch of the highest purity flavor, which can make you want to die ."

If it was the former Zhao Min, she would definitely refuse without hesitation, but since she came into contact with this thing, even if she is a special soldier, this thing is a fatal temptation, and she really can't bear it.

Although she shook her head, her eyes were fixed on the things on the table. Dulong knew that he had controlled her.

He pushed the bag in front of Zhao Min, then waved his hand to signal the bodyguard next to him to retreat.

The bodyguards were a little hesitant, they knew Zhao Min's skills, and this woman still had some kung fu, "Sir, otherwise it would be difficult for us to stay here with one or two people to be women, in case he suddenly strikes at you."

"Don't worry, no, she saved my life before, how could she kill me, go out and watch outside."

Zhao Min didn't know what they were talking about, but just stared at the things on the table intently. At this time, Dulong made a seductive sound again.

"Try it, just try it for me, there is nothing wrong with it."

In Zhao Min's heart, he found that he was being defeated little by little. He was very disturbed now, because there were many things in his heart.

Chapter 1462: where do you come from?

Qin Yuan wants to attack these areas alone, what if it is exposed? What should I do if I am discovered? Neither of them can escape, she is fine now, Qin Yuan must be 100% exposed.

She is in a mess now, she doesn't know what problem to solve, and the poisonous dragon is getting closer and closer to her.

"Do you have any troubles? Then try this, and all troubles will be gone after you try it."

Under the tempting voice of the poisonous dragon, Zhao Min's inner defense was finally defeated, because she had tried it once before, and with this thing, she could forget everything else.

Her hands trembled slightly, but she still picked up the package and ignited the lighter. After a burst of smoke, Zhao Min slumped on the chair, enjoying this soothing moment. At this moment, her eyes were completely free, in a state of confusion.

She can't control that much anymore, she just wants to relax once, just this once, and she won't do it again in the future, especially because everything is for work.

The obsessed Zhao Min didn't notice that the poisonous dragon next to him was slowly taking off his clothes, and a salty pig's hand was also on her shoulder, but at this moment she couldn't feel it at all.

Du Long has a wretched face, he must have this woman, and without knowing it, Zhao Min's clothes were slowly taken off, and when Du Long reached out his hands wretchedly, suddenly the door was kicked open.

He was a little impatient, turned his head and was about to get angry when a figure flew in and kicked him on the forehead.

The poisonous dragon flew out with a scream, and fell heavily on the marble table behind. Just as he was about to get up, a pair of powerful hands grabbed his ankles and threw him out again.

The poisonous dragon lay on the ground screaming non-stop, and the marble table rolled over and pressed heavily on his feet, making him unable to move at all.

Qin Yuan hurried over to check on Zhao Min's situation. At this time, Zhao Min's face was flushed and his eyes were blurred. He didn't know what happened. No matter what Qin Yuan called her, she didn't respond.

He looked at the things on the table, and instantly understood that as an undercover agent, there were indeed some things that had to be passed through, but the price Zhao Min paid this time was too high, fortunately he met him.

Dulou lying on the ground looked outside and saw no one coming in, he was cursing.

"Damn, where did you come from? How dare you hit my place."

"Where are the bodyguards? Where did they all die? Why did I spend money for you to come here?"

Qin Yuan walked over and punched him in the face, "Stop screaming, there is no one else."

Du Long couldn't believe it, it was absolutely impossible, there were so many people at his base, and more importantly, he brought a lot of people over, how could he just say that there was no one there.

At this time, he noticed that the person in front of him had a lot of blood on his body. Could it be that he just killed all the way here, but he didn't hear any movement, and his defense here is also very tight.

But at this moment, Dulong is not worried about him slowly retreating back, because Qin Yuan is helping Zhao Min detoxify at the moment.

At this moment, he heard a rumbling sound, and when he turned his head, he saw that **** Dulong escaped along the tunnel. He didn't expect that there was a tunnel hidden in this room.

Chapter 1463: kill those 2 lunatics

Now that half of Zhao Min's poison has been removed, and he has not fully recovered, he can only carry Zhao Min on his back first, and then go after the poisonous dragon.

After entering, it was a dark tunnel. Qin Yuan couldn't control that much, so he accelerated his speed. He heard footsteps coming from the front. At this time, Zhao Min also woke up on her back.

The dim situation, the strong bumps, Zhao Min didn't know what happened, the important thing was that the clothes on her body disappeared.

She stretched out her hand and pinched the neck of the person below her. At this time, a familiar voice came.

"Don't move, it's me, I'm taking you out now."

It was Qin Yuan. Now Qin Yuan had recovered his previous appearance. He ran behind Zhao Min's back in the tunnel, and then explained what happened just now.

After Zhao Min heard it, she didn't speak at all. In fact, she was a very guilty combat member in her heart. She must have a strong willpower, but when she faced the temptation of that thing, she didn't do it.

"Captain, I'm sorry..."

"Don't talk about it now, catch that ***** first, this tunnel is too complicated, I must catch up, if he is bad in any trail, it will be troublesome, and we will talk about it later."

Zhao Min originally wanted to apply to come down and go by herself, but Qin Yuan didn't intend to let her go, and in this narrow passage, Qin Yuan's speed was very fast, and it would not be affected by carrying her on his back.

Qin Yuan saw a bright light coming from the front, and the sound of footsteps suddenly disappeared at this time, it should be the exit.

But right after Qin Yuan smelled a strong smell of gunpowder, the ***** actually placed explosives at the exit, just to blow up the exit.

There is no other way now, he can only speed up and rush out, if he backs up, the whole tunnel will collapse, and they will be buried here.

"Hold me tight, now I'm going to speed up."

Zhao Min was also very nervous. She also smelled the strong smell of gunpowder, and the content of the bomb was unknown.

"Can we run out? If not, let's go back first."

"Believe me!"

Qin Yuan simply said these words, and then speeded up. Zhao Min hugged him tightly. At the last moment, the two rushed out. Just after they ran out, there was an explosion sound from behind, a huge shock wave. He directly rushed the two of them out. He hurriedly protected Zhao Min under his body, after all his body's defense was very strong, but Zhao Min was an ordinary person who couldn't withstand such a shock wave.

Dulong, who just ran out, turned his head and watched the two people run out with a limp. He couldn't believe how this lunatic couldn't be killed.

Fortunately, he was usually cautious and had already made preparations. A helicopter was slowly approaching here. Qin Yuan hugged Zhao Min and speeded up to catch up.

The ladder descended by the helicopter, Dulong grabbed the ladder and slowly climbed up. He looked smug, and then ordered the people above to shoot.

"Shoot! Kill those two lunatics, ***** it, I don't believe you can't be killed."

The man with the gun on the top quickly shot at Qin Yuan behind him. Qin Yuan reacted quickly, even holding Zhao Min didn't affect his movements in the slightest.

After the poisonous dragon climbed up, he quickly took out another button and pressed it again. The building above also collapsed quickly, and bursts of explosions came from behind. Qin Yuan could only hug Zhao Min to avoid everywhere.

"Hehe, I want to see how you run, I didn't put these bombs in vain!"

Chapter 1464: The body is modified

Dulong has been in contact with all kinds of special forces. This can be said to be a hob meat-level existence. You know their methods, so he has prepared very early, and preventive measures like this are even better. few.

He didn't know which special forces team members were going to deal with him this time. Anyway, he was not afraid at all. He had already prepared a second plan. As long as someone dared to come, it was absolutely impossible to let them go back. All the bombs had been planted below.

The most vicious thing about this person is that he doesn't even spare his own people. He doesn't care if there are any survivors below. He sits on the helicopter with a lot of eyes and looks at the dense explosion points below. A burst of dust rises up. It was in ruins.

"Hahahaha, what else do you use to fight me? Damn it! It's a pity that I couldn't kill you with my own hands and let you die so cheaply, otherwise I really want to kill that woman."

At this time, a woman's voice sounded, "It seems that your vicious heart is still well-deserved. You don't care if there are people of your own."

"Those people are pawns, pawns can give up at any time, I can win pawns anywhere, as long as I have money and power."

He didn't care about the life and death of those people below. He just didn't expect that he would be so careful and prepared in every way, and the undercover agent would hide beside him.

Dulong looked at the woman sitting opposite, she was handsome and her peach blossom eyes made his heart flutter even more, this guy completely forgot that he just narrowly escaped death.

"It is said that good-looking women are dangerous, and so is that woman. I think you may be the same, but I just like to be close to dangerous things."

The person opposite was not polite to him. Just as he said this, the woman immediately took out a knife and gestured in front of him.

"I don't know if the other people are in danger or not, but if you still want to save your life, just be honest."

Poison Dragon silently swallowed his saliva. Sure enough, there was no one to provoke. He could only divert his attention and look out of the window. There were already ruins below, and there was still a faint sound of explosions.

It is impossible for anyone to survive in this situation, and all his evidence can be destroyed here.

The woman who spoke was Long Xiaoyun, but at this moment she was different from before. After disappearing for the past few months, she became a completely different person.

You can see the fierceness and calmness in her eyes. When Qin Yuan met her before, she was just a helpless female college student, and her eyes were full of innocence.

But now she was exuding a dangerous aura all over her body. Pulling sat on the seat and played with the Swiss Army Knife in her hand, and then said to the man next to her:

"Third, do you think that guy is still alive?"

"That monster is impossible to die, even if it is such a dense explosion, but the other woman is not sure, she may have already been smashed to pieces."

Listening to the conversation between the two, the poisonous dragon next to him looked shocked. How could it be possible that no one survived under such a dense explosion?

"Are you questioning my security measures? The explosives down here are full of dynamite, and there is absolutely no chance of anyone alive. Those two lunatics have already died under the ruins."

Long Xiaoyun didn't want to explain to him at all.

Chapter 1465: So much nonsense!

Explaining to such an ordinary person is a waste of words, she knows Qin Yuan's ability, this monster is really terrifying.

At this moment, the pilot controlling the helicopter suddenly noticed something was wrong. Their plane had a radar display on it. From takeoff to now, the radar has always shown that there are foreign objects on the chassis of the plane.

At first he thought it was some kind of system failure, but now it has been more than 20 minutes since takeoff, and the machine is still alarming, he feels a little strange.

For the sake of safety, he asked the people next to him to check what was going on. If there were foreign objects in the chassis, it might affect the balance of the entire cabin.

The man on the co-pilot stood up, and he slowly approached the cabin door. Long Xiaoyun also looked curious.

"what happened?"

"Long Jie, it seems that there is something hanging on the chassis. It should be a rock or branch that exploded just now. I need to check it."

Long Xiaoyun nodded, this kind of situation will happen too, after all, so many explosives exploded and raised dust and huge shock waves, which made them lose their balance for a moment just now.

Just as the man opened the hatch, suddenly a figure jumped in from the outside, kicked the man in the chest, and then grabbed the man and threw him from a high altitude.

The man didn't react at all, only heard a scream, and disappeared into the sky. Long Xiaoyun reacted quickly and quickly drew out his gun to shoot.

Now Long Xiaoyun has completely changed, that is, Qin Yuan's ability to dodge quickly, but Zhao Min on his back is not so lucky.

Zhao Min was shot in the shoulder by the man next to him, and Qin Yuan also quickly threw a throwing knife to fight back, causing chaos in the small cabin for a while.

Dulong was even more frightened and overwhelmed. He didn't expect that Qin Yuan was still alive, and he could jump into the helicopter under such circumstances. This is really a monster-level existence.

He hid behind his seat and shivered with fear, hoping that no one would notice him, but at this moment bullets were flying all over the cabin.

Qin Yuan looked at Long Xiaoyun in front of him, her shooting speed and reaction speed were already close to his range.

This surprised him a little. In just a few months, what exactly did this girl go through? Qin Yuan had checked her before, she was just an ordinary person, she didn't have any system on her body, and she doesn't have any system now.

But now I can clearly feel that her temperament is different, and when we meet again, it turns out to be such a scene.

"I said that a monster like you can't die. It's just that your ability is so against the sky. I'm curious, why do you have such a powerful ability? Can't be used by us!"

"So much nonsense!"

Qin Yuan threw the throwing knife straight away, but a miraculous scene happened, only to see Long Xiaoyun's eyes suddenly flashed red like light, and then the dagger he threw was instantly melted.

Long Xiaoyun's body has been transformed, it is not an ordinary person's body at all, but Qin Yuan needs to get in touch with her for the system to analyze.

Qin Yuan asked Zhao Min to find a safe place to hide on the side first, and he wanted to deal with Long Xiaoyun in front of him wholeheartedly.

The man next to him also slowly surrounded him. The man has a system, and his system ability masters speed.

Chapter 1466: This guy is still useful

The man took out a long knife from behind and slashed at Qin Yuan directly. Qin Yuan dodged sideways and kicked the man's wrist. The man's reaction speed was also extremely fast, and he escaped Qin Yuan's attack, but Qin Yuan's poker cards have been thrown from behind.

The man screamed, and the long knife fell to the ground. Long Xiaoyun also rushed over at this time, her speed and strength were even more ferocious than before.

Qin Yuan fought with her close to her, trying to grab her every time, but her reaction was quick.

Long Xiaoyun seemed to have seen his intention, with an imperceptible smile on her face, she deliberately got close to Qin Yuan, just when Qin Yuan was about to catch her, she suddenly jumped from the position of the cabin door, just like that jumped down.

All this happened so fast that Qin Yuan had no time to stop it. Long Xiaoyun, who jumped off, waved at him with a smile on her face.

"Don't worry, we still have a chance to meet again, I didn't expect your ability to become stronger and stronger."

Then I saw a white parachute slowly opening. This guy was running very fast. At this time, the man behind him rushed over again, just to hold Qin Yuan back.

No matter how fast the man is, but this time Qin Yuan threw five flying knives at once. Under such a dense crowd of flying knives, no matter how fast he was, he couldn't escape. One of the flying knives hit him directly between the eyebrows .

Qin Yuan kicked the man away, followed by the poisonous dragon. As Qin Yuan approached him step by step, Zhao Min who was beside him rushed out from the cab.

"Captain, come and see that something is wrong."

When Qin Yuan rushed to the cab, he found that the driver had died at some point. There was blood on the corner of this guy's mouth. It looked like he had taken poison.

Qin Yuan stepped forward and pulled the pilot away. Now he has to quickly control the steering wheel to control the helicopter.

"Here I am in charge of the helicopter, I have no problem, you go and see that bastard, and get rid of that bastard."

Zhao Min nodded, and hurried out, no matter how Qin Yuan moved the steering wheel, the bottom remained motionless without any reaction.

He instantly understood that the plane had been controlled by someone remotely, but he didn't know why Long Xiaoyun was on this plane, it seemed that he could only ask that poisonous dragon.

Qin Yuan walked out of the cab, and now the helicopter had completely deviated from the direction, and the entire cabin was in a tilted state. Du Long hugged the chair under the chair and shivered, and did not dare to let go.

Zhao Min picked up the gun next to him and was about to aim at Dulong's head, but was stopped by Qin Yuan. This guy is the biggest boss, and he can't be killed now. He still has a lot of things to ask.

"No, don't kill him yet, it's still useful to keep this guy."

"Captain, what should we do now? Since the plane has been remotely controlled, we can only skydive, but I saw that there is no extra skydiving bag just now."

He had expected this situation a long time ago. Since they were able to control the plane, they must be determined to die. How could they shed the extra skydiving backpack.

"You have to believe me!"

Before Zhao Min could react, he saw Qin Yuan take out two skydiving backpacks from behind as if by magic.

What's the situation? She searched the entire cabin, but found nothing. Where did these two skydiving backpacks come from?

Chapter 1467: can't help at all

Did Qin Yuan carry it with him?

Qin Yuan threw one to Zhao Min, then walked over and grabbed the poisonous dragon, this guy was still struggling, Qin Yuan was a little impatient, and slapped him unconscious.

There are too many things to take into account this time. He had to protect Zhao Min before, so he missed the opportunity. Long Xiaoyun also took advantage of the opportunity to escape. The most important thing now is to ensure everyone's safety.

The helicopter had deviated completely and was heading towards the cliff in front. Skydiving at this position was too thrilling, because the height was too high, and they had no preparations, so they could only make emergency skydiving.

Qin Yuan carried the poisonous dragon on his back, and then put on the skydiving backpack. Zhao Min couldn't stand beside him at all, and could only hold the lever on the side tightly.

"If it doesn't work, just throw this guy on it, because the height is too high now, it's very dangerous for us to jump down, and you still have one person with you, what if you can't bear it later?"

Qin Yuan is very confident in the things produced in the system. These two skydiving backpacks were exchanged in the system mall just now, and he reassured Zhao Min.

Now that there is no ground mark below, he can only jump down first, and Zhao Min has to follow him closely. He can't control so much now, it is safest to just jump down.

Qin Yuan jumped, and Zhao Min followed behind. Looking at the height, his legs felt a little weak, which was higher than any of their previous trainings.

But there is no way now, the helicopter was bumping very badly, and it was about to hit the mountain in front of it, Zhao Min mustered up his courage, closed his eyes and jumped directly.

The two landed quickly. Qin Yuan never opened the parachute. He had told Zhao Min that he must follow him, and Zhao Min would open the parachute whenever he opened the parachute, so as to ensure that the two were always on the same line.

Because I didn't bring other equipment, I only had a skydiving backpack. The strong wind made Zhao Min's eyes hard to open. The height here is really too big, and today's demeanor is also very strong.

She tried her best to maintain her figure, and Qin Yuan below was not affected at all. He was carrying a person on his body, and Zhao Min admired him even more.

At this moment, Qin Yuan opened the parachute, followed by Zhao Min. Their speed remained about the same, but their relationship was more stable. There was a forest below, and he was looking for a suitable place to land.

Zhao Min followed above and kept adjusting his direction, which was really difficult because the wind was too strong.

I can't stabilize my body and mind at all, my whole body has shifted towards the outside, getting farther and farther away from Qin Yuan, Qin Yuan wants to pull her with this situation, no matter how powerful he is, he can't help much at all busy.

Qin Yuan could only land quickly. After jumping off, he put the poisonous dragon beside him, and tied the guy to a tree for safety.

And Zhao Min landed in another place, which is still relatively far away from him. This can't be blamed on Zhao Min, mainly because the wind is too strong today.

Generally, in this situation, they will also conduct skydiving training, but it will be much lower than this height.

Qin Yuan landed very standard, perfectly avoiding the branches next to him. There was just a small circle of open space in this area, but Zhao Min had completely deviated from the past. He was very worried that if Zhao Min hung on a tree, the situation would be more dangerous .

Zhao Min's hands were trembling, she tried her best to control the rope of the landing rope, trying to stay away from the big tree on the side.

Chapter 1468: take to the road

She had heard of it before. During skydiving training, some recruits completely deviated from the direction and fell on a big tree. In the end, they were directly pierced through the abdomen by a branch.

This situation is very dangerous. She kept adjusting her direction and trying to avoid the big tree, but something happened that she didn't expect. The terrain here is too complicated. A cliff.

At this time, it was too late for her to control the direction, and her whole body was already deviated towards the direction of the cliff. In the end, she had no choice but to land vertically. She finally hung on the cliff, holding the cliff tightly with both hands raised stones.

This situation is very dangerous, mainly because the landing board is completely on her body, increasing the weight, and she keeps sliding down.

Zhao Min's fingers were completely oozing blood and were scratched by the sharp stone next to her. She didn't dare to let go. She didn't know how high the ground was. At a critical moment, a rope fell down, and she quickly grabbed onto the side. Qin Yuan pulled her up.

After Zhao Min was pulled up, she gasped for breath. She really experienced this feeling of surviving after a catastrophe. The last time was when she was hit in the chest by a bullet.

The two returned to the place where the poisonous dragon was tied up. This guy is now awake, he is the boss behind the scenes, and many things have to be brought back for interrogation, so he must not be allowed to die easily.

Qin Yuan is now more interested in their cooperation with the masked man, why the masked man sent someone to pick him up, plus Long Xiaoyun's skills have been completely remodeled, she is no longer an ordinary person.

He walked towards the poisonous dragon, and the poisonous dragon was so frightened that he wanted to back away, but he was tied to the tree and there was nothing he could do.

Qin Yuan stretched out his hand and pressed directly on Dulong's head, all his information will be seen through by himself. It turns out that this guy and the masked man's organization just have a cooperative relationship. Now the masked man's organization has been destroyed by Qin Yuan several times. Greatly hurt.

Many missions can only be done with these relatively large criminal groups. This time it was an accident, and Long Xiaoyun did not expect to meet Qin Yuan in this place.

As for Long Xiaoyun, he couldn't find any useful information in Dulong's head, only a vague outline, and it seemed that he didn't know much.

The rest are basically some criminal facts. These things are waiting to be taken back for interrogation. Qin Yuan made it public, and the poisonous dragon next to him also let out a long breath. The oppressive feeling just now made him unable to breathe.

He is now looking at Qin Yuan with awe in his eyes. After all, no normal person can survive that kind of explosion, and there is nothing wrong with jumping from such a high height. This is simply a monster, as they say.

Zhao Min looked around, "Captain, what should we do now? We have to find a way to get in touch with people outside."

"Don't worry about this. I already got in touch with them when I came out of District A. I have already sent them the locations of the other two districts. It's only a matter of time before they come to us."

It may take longer to just come to find them, because they don't even know where they are now.

So maybe he can only rely on himself to go out first, Qin Yuan quickly checked the wound on Zhao Min's body.

Chapter 1469: best chance

It was a shoulder injury, and now the blood had solidified, but during the parachuting just now, the wound was completely torn open.

Zhao Min smiled helplessly. She felt that she was injured in this place, and she didn't know when the rescue would arrive. Judging by the situation, she probably had to explain it here.

"Captain, can't we wait for rescue? With my current physical condition, it may be very difficult."

"Don't say that, I will definitely save you."

Zhao Min thought Qin Yuan was just comforting her, but what she didn't expect was that Qin Yuan didn't have anything in his hands, he just took out a set of silver needles and stuck them on her shoulder.

Slowly, the bullet was taken out by him at some point. She didn't feel any pain at all, and the wound healed quickly, which surprised her very much.

"Captain, what's going on? You were able to make me recover so quickly."

"This is a set of medical skills inherited from my family, so you don't have to worry."

Moreover, Qin Yuan not only helped her heal her injuries, but also completely eliminated the poison she had contracted before.

Zhao Min felt very relaxed all over his body, as if something had completely left his body.

When she opened her eyes, there was no cloudiness in her eyes before, and it was clear, because they were far away from the poisonous dragon, so the poisonous dragon didn't know what the two were underestimating.

"I know what you're worried about, don't worry, I've already got rid of all your addictions, I know you're doing it for the mission, don't take it too seriously."

"Captain, I really don't know what to say. I was almost desperate at that time. I thought I could restrain it, but I didn't expect that thing to be so strong that I couldn't resist it at all."

When Zhao Min said this, her voice was a little choked up. She originally thought that her whole life would be ruined, because the kind of thing she was infected with was for a mission at the time, but he didn't expect this kind of thing to be so attractive that even her Even a seasoned special forces member couldn't hold on.

Qin Yuan patted her on the shoulder, telling her not to think too much, now that everything is over, Qin Yuan is now going to go around to see if there is any way out, at least to find out where this is.

Zhao Min came over and looked at the poisonous dragon viciously. He almost let this guy get his way just now. If Qin Yuan hadn't arrived in time, the consequences would have been disastrous.

She found some twigs around and planned to make a fuss. Judging from the current situation, she might not be able to go out today, and she should only stay here first with someone.

Soon the fire rose, and if there was smoke, it would be convenient for their personnel to find them.

At this moment, the poisonous dragon sitting across from him laughed sinisterly, "Do you think you can go back? After you come into contact with that kind of thing, you can only rely on me. Everything will be destroyed after you go back."

"Oh, what do you mean?"

"What I mean is very simple. Now that the guy hasn't come back, after you take me out together. I will supply you with that kind of thing continuously, and we can achieve long-term cooperation."

Zhao Min smiled disdainfully, this guy is using this kind of thing to control his subordinates, and now she has already gotten rid of it.

Seeing that Zhao Min was completely indifferent, he was a little crazy, after all, this is the best chance to detect your latest reading progress as "

Chapter 1470: Positioning of the other 2 districts

If Qin Yuan comes back later, there will be no chance at all.

"The route here! I'm familiar with this side, as long as you follow me, it's absolutely fine. Let's go out together. How much do you want for that thing? How much will I give you?"

Zhao Min was still indifferent. To him, these were irrelevant. As long as Qin Yuan was by his side, there would be no problems.

After a while Qin Yuan came back, he was still holding two hares in his hand, Dulong's eyes also changed from hopeful to dim, he knew that this time it was completely hopeless.

Anyway, he looked at Qin Yuan and said viciously: "Do you still want to take him back? What is the difference between him and those criminals now? She has already been infected with that kind of shadow, and she will not have that thing in the future." I won't survive, do you understand?"

This guy simply sowed discord here, but what he didn't expect was that the two of them ignored him at all, and silently dealt with the rabbit beside him.

Because the poison on Zhao Min's body has already been lifted, so it has no effect at all.

After the two finished handling the rabbit, they grilled the rabbit meat beside them. After a while, they ate the rabbit meat, ignoring the poisonous dragon who was shouting beside him. At the end, Qin Yuan felt a little impatient when he heard him screaming. He walked over and randomly found a rag and stuffed it in his mouth.

Qin Yuan searched around. This jungle is quite big. Now that they have eaten and replenished some energy, they can go out to have a look first. He has no influence, but Zhao Min is also an ordinary person.

The two started to walk outside with the poisonous dragon like this, and Zhao Minye told Qin Yuan what he knew just now, as if this guy knew the route, Qin Yuan smiled and shook his head, wondering if he knew the best in his heart.

He had checked the poisonous dragon just now, this guy didn't know anything, he had never been in this jungle at all, everything was for running away.

The physical fitness of the two of them is fine, but Dulong has only been walking for more than half an hour, and he is already panting like a snail behind him.

The main reason is that there are no roads at all in the jungle here, all of which are opened by Qin Yuan, going uphill and downhill for a while, the terrain here is very complicated.

On the other side, Gao Shiwei and the others received the news and immediately dispatched special forces to start clearing the area Qin Yuan mentioned earlier.

Before waiting for a week, news came from Qin Yuan, and he gave the exact location of the other two districts.

This time, the transnational cooperation and operations are carried out very closely. After all, this blackwater organization has been lurking here for a long time, and all countries are very troubled, and their vision range is also very wide.

It's just that everyone didn't see Qin Yuan after the action, and they couldn't contact him at all if they wanted to contact him. It seemed that they had completely lost contact.

This time Jiang Xiaoyu and the others were also dispatched. They were in charge of getting in touch with Qin Yuan, but when they came to the place where the last love report was broadcast, they found that it was already in ruins.

Everyone was shocked when they saw the ruins, and there were countless corpses under the ruins.

A bad thought quickly came to Yu Xiaoyu's mind, "Quickly use the life detector to test to see if anyone is alive. Could it be that Brother Qin is down here?"

"It shouldn't be possible. His ability is so strong. What's going on?"
