Chapter 1471: don't stop at all

"You also saw how powerful the scope of the explosion is? These buildings have completely collapsed, and it is too difficult to survive in this situation."

Jiang Xiaoyu also forced himself not to think about those messy things, now he can only judge according to the development of the matter.

Unfortunately, in this case, the life detector did not respond, and Qin Yuan completely lost contact with their former undercover members.

As for Brother Qin, he thought he couldn't go very far. According to their speed, as long as they could see the road, there was hope. However, after walking for more than three hours in this jungle, he was very sure that there was no problem with his direction. , but have not gone out, it can only show that this jungle is too big.

Du Long was in a lying state at the back, and he couldn't move at all. In the end, no matter how Qin Yuan beat him, he wouldn't leave.

"Don't waste your time, this side is a primeval jungle, how do you get out! Don't pull me, I won't leave."

Qin Yuan punched him in the face, and he fell down. Anyway, this guy played a rogue, mainly because he couldn't stand it for such a long time. Qin Yuan and the others are well-trained special forces, and their physical fitness must be relatively good. Strong, this little thing is no problem for them.

"Captain. From the looks of it, the sun will go down in an hour. We need to find a place to live, otherwise it's too dangerous to be in the jungle at night."

"I underestimated this jungle before. I didn't expect it to be so big. It seems that this is the only way to do it."

They were lighting fires all night, and hoped that their personnel could find them, but there was still no whereabouts after the night passed. Qin Yuan walked over at dawn and kicked the poisonous dragon awake.

They are going to continue to set off now, taking advantage of the fact that the morning is not so hot, Dulong can only be forced to walk forward under Qin Yuan's coercion and lure, so it is almost noon, they should have gone around to another place, Because the terrain here is completely different.

After walking for an hour, they finally saw the road ahead. If there is a road, there is hope. As long as they can stop the nearby vehicles, they can go back.

Du Long didn't want to go back, but there was nothing he could do now, he would die if he went back, and he might starve to death if he stayed here.

They were dragged and dragged by Qin Yuan to the side of the road. They were waiting for the car. Zhao Min kept waving in front, but the cars on the side of the road had no intention of stopping at all, and they all roared by.

"Captain! These people don't stop at all, and they don't know what's going on."

"Everyone in the wilderness is afraid, mainly because they are afraid that there will be car robbers. Just wait and see what I do."

Zhao Min thought he was going to make some big moves, but he took out a few coins from the bag, held them in his hand, and waved towards the road outside.

But this trick was really useful, and soon a big truck stopped slowly. This kind of thing is called money can make ghosts go round, and even if you are afraid that the driver of the big truck will see the money, he will stop silently.

The driver rolled down the window. He was a bearded man with a full beard.

"Where are you going?"

After all, this combination is really weird, there is a person tied behind, and the clothes on these two people are also torn, mainly because they were scratched by those branches when they came down.

Chapter 1472: These robbers are not easy

The bearded man didn't care about those who wanted to reach out for money, Qin Yuan stepped back.

"You can take this money, but first tell us where this place is?"

After inquiring, Qin Yuan found out that they were hundreds of kilometers away from the site of the previous explosion, and they were now in another small town.

As long as you know the exact location, it's fine. Qin Yuan planned to walk directly for the sake of safety. Now that he has found the road and knows where it is, then there's no problem.

But the bearded man said from the side: "Brother, did I hear correctly? You are going to walk here, but you are far away. The nearest town is more than two hundred kilometers away."

Hearing this, Dulong immediately quit. He couldn't walk for more than two hundred kilometers. Looking at the poisonous dragon next to him, Qin Yuan had no choice but to take a ride first.

Qin Yuan asked Big Beard to take them to the station in the town so that he could contact the local area.

The bearded man was very happy, but he didn't know if it was because of the money or something else.

He greeted a few people to get on the bus, and after getting on the bus, the bearded man was very enthusiastic and took out water and food for them to eat.

Zhao Min was not interested and didn't respond at all. The poisonous dragon next to him wanted to eat it, but Qin Yuan gave him a vicious look, so he didn't dare to say anything.

"What are you worried about, brother? Are you worried that I will harm you? Don't worry, what age is it now?"

"It's okay, we don't need it and we are not hungry. You just need to be responsible for sending us to the town, and I will pay you a certain amount."

The bearded man didn't say anything when he saw that Qin Yuan didn't get in. He just drove the car silently, asking about Qin Yuan's situation along the way, but Qin Yuan was very defensive, and he cleverly avoided them.

But in the middle of the drive, the bearded man suddenly stopped the car. He said that there seemed to be something wrong with the fuel tank, and he wanted to go down and check it.

Qin Yuan made a gesture of indifference, letting him do whatever he wanted. At this moment, Big Beard had just got out of the car, and Zhao Min hurriedly lowered his voice.

"Captain, there is something wrong with the situation. You see, these two sides are perfect for ambushing in this wilderness. Why is this guy so coincidental? He was inquiring about our situation along the way just now."

Qin Yuan put his head in his hands and made a relaxed posture, "I know this. There are at least eight people hiding in the ravine opposite, and in the woods over there."

Zhao Min was very surprised when she heard this, she quickly turned her head to look around, but the distance was too far for her to see clearly.

"Don't be so anxious, don't worry, with me, I want to see what tricks these guys are playing."

After a while, the bearded man came over, and he patted on the car door, "Brother, come down and help me check this mailbox, there seems to be something wrong, will you fix it?"

"Sorry, I can't fix cars."

Anyway, Qin Yuan didn't get out of the car to shave his beard. In the end, he had no choice but to blow a whistle, and in an instant, seven or eight people rushed out of the ravine that Qin Yuan had mentioned just now. The people in the woods also ran out. The car is all surrounded.

The poisonous dragon in the car was taken aback. After all, he was usually the one who schemed against others, but he didn't expect to be double-clicked this time. He, the boss, did too much.

"Damn it! What's going on? You must protect me. Although I'm a criminal, don't you want to take me back?"

Chapter 1473: If you come here again, I will really shoot

In order not to hurt himself, this guy dared to say anything now, and anything could happen in this wilderness.

Qin Yuan sat in the car with a nonchalant expression on his face. The bearded man had changed from his previous smiling face. At this moment, he was vicious and took out a knife from his waist.

"Damn! This brat doesn't eat oil and salt. No matter what I say, he won't eat or drink. It seems that he can only force it."

"There are so many of us, this kid can't run away, brothers."

Qin Yuan thought at first that they were just blocking the way to rob, but judging from the situation, it seemed that it was not because they wanted to catch people alive.

This made Qin Yuan even more curious, what exactly do these guys want to do? Qin Yuan was about to make a move, but Zhao Min stopped him.

"Captain, let me take this opportunity to perform. This ***** doesn't need you to come forward at all. Wait for me to take a look."

Qin Yuan knew that it would be no problem to deal with these people with Zhao Min's skills, but they were too many, and if things went wrong later, he would go down to help her.

Zhao Min jumped out of the car, and the people around laughed even more arrogantly, after all, it was only a woman.

"Hahaha, I didn't expect that kid in the car to be a softie, and he needs a woman to protect him."

Before the man finished speaking, Zhao Min kicked him directly with a whip kick, and he couldn't laugh for a moment. Zhao Min's strength was also full, and the man flew directly a few meters away.

Everyone became vigilant in an instant. It seemed that the two people in the car were still difficult to deal with. Although they had weapons, they were nothing to Zhao Min. These people were not as strong as those mercenaries.

Seeing that the few people in front were beaten and bearded on the ground, they were also a little anxious. This situation would not be good for them. This guy quietly walked around to the rear of the car, and then took out a small box.

"Stop it for me, or I will shoot."

Hearing the movement, Zhao Min turned his head, but he didn't expect that the bearded man had a pistol in his hand, and he was threatening himself with the gun at the moment.

Qin Yuan also jumped out of the car at this time, and it was meaningless to stay any longer. The hand of the bearded man holding the gun trembled a little. Although these guys were robbers and hooligans, they had never actually shot a gun.

"Don't come here, if you come here again, I will really shoot."

Qin Yuan strode forward and pinched his wrist. The bearded man let go of his hand in pain, and the pistol fell to the ground like this. But at the moment he held the bearded man, he saw many things.

Now that his system has been upgraded and can be invaded at any time, the situation in Big Beard's mind soon flashed. Unexpectedly, they turned out to be an organ trafficking organization, and there were many children in their lair.

Qin Yuan just thought they were just ordinary robbers, but when it comes to organ trading, it is absolutely impossible to let them go.

With a sound of Kacha, the bearded man's wrist was directly interrupted by Qin Yuan, and the younger brother next to him rushed up with an axe, and Qin Yuan kicked the younger brother away with a side kick.

With the cooperation of Qin Yuan and Zhao Min, these dozens of people were instantly beaten to the ground, saying that the poisonous dragon in the car was too frightened to move. Don't say you ran away, let's stay honest.

Zhao Min didn't know why Qin Yuan made a move suddenly, and faced the bearded man in front of him and rode directly on him

Chapter 1474: Find a way to get rid of them quickly!

This guy will soon be beaten into a pig's head, his eyes are swollen and narrowed.

"Captain! It's almost enough. After all, they are ordinary robbers. Don't waste our time. We have to go to the town now."

"It seems that we can't go there for the time being. We have to deal with these ***** first."

Qin Yuan told her what he knew. There are still many victims in these guys' lair, most of them are children. They will definitely not stand by. Zhao Min was a little surprised when he heard this.

Not only her, but even the bearded man next to him was stunned. What is this guy's background? How do you know so clearly?

The bearded man suspected that there must be a traitor among them, otherwise how could this kid know so clearly, and his skills are definitely not ordinary people, they were being calculated.

These people were not Qin Yuan's opponents at all. They dared not move on the ground after being beaten by Qin Yuan. Under his coercion and lure, these people agreed to take Qin Yuan to the place where the victims were detained.

They drove down a small road, but they didn't expect it to be a village, which surprised Qin Yuan. He didn't expect that everyone in a village was doing this business.

Just passing by the entrance of the village, the bearded man who had been honest before suddenly shouted loudly to the two young people at the entrance of the village:

"Go and call someone. There are thieves in the car. Damn, we've been tricked."

Qin Yuan punched him on the mouth, and the bearded man screamed from the beating, but the two people next to him also hurried towards the village.

Zhao Min felt that the situation was not good. Qin Yuan's main concern was whether they would transfer the victims, but what he didn't expect was that he underestimated the courage of these villagers. Yes, their vehicle was surrounded by the villagers who came.

Qin Yuan kicked the bearded man out of the car. The guy was so frightened that he ran forward.

The villagers behind them held various weapons in their hands and began to approach them, and there were men, women and children.

Zhao Min frowned. This situation is a bit difficult to handle. After all, they are all ordinary people. "What should we do? Are we going to do something? But it seems that most of them are ordinary people."

"Don't hurt the vitals. Anyway, just knock down their weapons and don't hurt our own people."

Zhao Min nodded, at this time the person opposite also said something viciously, and then all the villagers rushed up.

Qin Yuan has been maintaining his own strength, try not to use so much strength, these are some ordinary people, if he punches out, he will not die or be half disabled.

"Let me say one more thing, you'd better not act rashly, otherwise it will hurt you."

But those villagers couldn't control that much at all, they all rushed up, holding hoes and sickles, especially the few old people who rushed in front, they seemed to be in their 70s or 80s, Qin Yuan didn't dare to move. They could only slightly **** the knives from their hands.

However, he showed no mercy to those young and strong Qin Yuan, and directly made them unable to move.

If these people don't deal ruthlessly, they will rush up again and again, which will only waste their own time. Zhao Min retreated while fighting, because this is not the way to go.

"What should the captain do now? We have to find a way to get rid of them!"

Chapter 1475: Physical fitness can't keep up

"Otherwise, it will take a long time, and our physical fitness will not be able to keep up. There are too many people here. There are only two of us, and we can't..."

Qin Yuan pulled her past, and a sickle fell directly at the place where Zhao Min was standing just now.

They have to show some color, these people really think they are easy to bully, this time Qin Yuan simply let go of the beating, he can't control so much, he must first deter these villagers.

The man in the back threw the ax directly towards Qin Yuan. Not only did Qin Yuan not hide, but he punched him. With a sound of Kacha, the wooden handle of the ax broke, and Qin Yuan kicked the man in the chest. The man flew out completely, taking advantage of the opportunity and knocking down several people.

This kind of force is really too great, before they could react, suddenly the crowd surrounding him was mainly in the front, and all of them dispersed at once, because the people in front were all knocked down by Qin Yuan.

At this moment, the people around started to run towards the outside frantically, but because there were too many of them, they kept running and turning around like this, and many people fell down in a short time.

Besides, most of the people here are villagers, and they have no fighting power at all. After being frightened like this, they all ran outside.

These villagers began to flee towards the village, Qin Yuan grabbed a villager who was lying on the ground and lifted him up.

"Brother, don't kill me, I don't know anything, I'm just here to help, don't touch me."

"Stop rambling, where are you keeping those people? Take me there now."

The man didn't dare to be negligent. Just now he saw Qin Yuan's method, and that punch directly broke the axe. They are ordinary villagers, how have they ever seen such a battle?

He staggered and led Qin Yuan towards the village, and came to the door of a dilapidated courtyard with many twists and turns. The conditions here were indeed too poor, and there were basically no better houses in sight.

The man stammered and kept saying things that had nothing to do with them, and everything was planned by the village chief.

"Then where is your village chief? Were you among the crowd just now?"

"The village chief is not here, and the village chief took those goods to trade."

"What? You better not lie to me."

The man nodded quickly when he heard this, "Brother, with the method you just did, do you think I dare to lie to you? The village chief is indeed going to deliver the goods, and he hasn't been in the village for two days."

Only then did Qin Yuan give up and followed the man into the courtyard. There was no one guarding the courtyard, and there were two large rusty locks on the gate of the courtyard.

The man stammered, "Brother, I...I'm going to get the key now, the key is with the big head, we don't have it."

Qin Yuan ignored him at all, took a deep breath, and kicked the two wooden doors to pieces completely. Seeing this scene, the man was even more frightened and dared not move.

After kicking open the wooden door, the light was very poor, and I could only see a woman with messy hair curled up in the corner of the wall, who seemed to be very mentally abnormal. After Qin Yuan and the others entered, they just laughed and laughed, knowing nothing.

At this time, Qin Yuan noticed that there seemed to be a secret door under the bed. As soon as he walked over, the woman screamed in fright, because the woman was squatting at the secret door.

It was only after Zhao Min walked in that she realized that the woman's body was covered with bruises. She didn't know how much torture she had suffered, and the woman was skinny, and she didn't know how long she had been here.

Chapter 1476: Request support

Seeing the woman's appearance, Zhao Min was so angry that he walked out of the yard directly and dragged the man in. The man was trembling with fright at the moment.

"Big Brother, Big Sister, don't kill me. I really don't know anything. I just asked me to help. The village head asked us to do all these things."

Zhao Min slapped him directly on the face, blood dripped from the corner of the man's mouth in an instant.

Qin Yuan held her back when she was about to do it again, because it was useless to find it here, the most important thing now is to go down and see how many victims there are, these people are just small people, they are not behind the scenes at all hand.

The two found a flashlight from the side, opened the secret door and walked down slowly. After walking down, they found that the situation here was even more tragic than they imagined.

The dark and irrelevant tunnel was already narrow, but unexpectedly, there were many half-person-high dog cages piled up here, and small figures curled up in each dog cage.

Seeing this scene, Qin Yuan clenched his fists. What these ***** did was really not human. Because they hadn't seen the light for a long time, after the light from his flashlight passed, those children subconsciously locked together and showed great fear.

After careful inspection, there were more than 20 people, most of whom were children.

Qin Yuan and Zhao Min quickly opened the cages and rescued them. These children were kept here for a long time, and some of them could not even walk.

A little girl about four or five years old was starving and starved at him blankly, her eyes full of fear, because they didn't know where they were going to be taken this time.

Qin Yuan squatted down and patiently wiped the stains on the child's face, "Don't worry, I will rescue you, I am here to rescue you."

The children didn't seem to know what this meant. Finally, Qin Yuan and Zhao Min took them out one by one. When they came up, they saw that the yard was already surrounded by villagers. Those villagers didn't dare to go up, so they could only surround them temporarily. stand up.

According to the man, all these children are kept here as goods for people to choose. If they find matching organs, they will be taken away directly. They are only responsible for abducting and taking care of these children here.

When the villagers saw Qin Yuan and they wanted to take the child away, they quickly surrounded him, and an old man came up and pulled Qin Yuan.

"You can't take them all away, if you take them all away, then we have no way to explain to the employers behind, they will kill us."

"And don't you have a conscience? You also have children, and these children are about the same age as your children! Look at what they have become now?"

But the old man in front of him was not moved at all, his body was trembling a little, obviously very scared and tangled, he was afraid that Qin Yuan would take these children away, they really had no way to explain.

Zhao Min didn't care so much, she just pushed away the old man in front of her, and pulled the children to go outside. Now she was going to find a car, anyway, to rescue these children.

Most of these villagers have bruised noses and swollen faces. After all, Qin Yuan really dealt a cruel blow just now, otherwise they would not be able to deter them at all.

At this moment, the old people in front of the villagers suddenly plopped and knelt on the ground, and the people behind them had nothing to do after seeing it.

Chapter 1478: half man high stone mill

So this is also the reason why those elders chose this place. At first they thought that someone needed these children to take them back to raise themselves, but later they found out that what they wanted were the physical organs of these children.

Many villagers were unwilling to do such a thing again, but they were threatened by the big boss and told them that they were already repeat offenders, and if they really wanted to make a scene, everyone would be arrested.

These villagers didn't have much education in the first place, so they didn't dare to speak out after being bullied a few times, and finally they could only silently become their accomplices.

And if sometimes there are too few donors, they don't find so many children, they will go directly to the village to pick children, because those people have weapons, and they have nothing to do.

In order to protect their children, they had no choice but to do this. When the old man finished speaking, tears flowed from the corners of his eyes. He said that he didn't want to do this either.

"If we don't kidnap other children, our children will be threatened. They are all armed, and we have nothing to do."

Zhao Min didn't agree with such behavior at all. This guy was just trying to justify himself, "Your children are fate, what about other people's children? What about the parents of these children? In my opinion, you are all a bunch of selfish people. little man."

The old man sighed silently, he didn't care what Zhao Min said, anyway, things have become like this now.

He just begged Zhao Min and the others not to take the child away, otherwise those people would come to them and they would have no way to deliver the goods.

Zhao Min doesn't care so much at all, these guys just want to keep themselves, so what about the families of these children? These children are so poor.

She wanted to take the child away by force, but Qin Yuan stopped her, because he thought of a more ingenious plan. In this case, it is better to follow the vine, find the masterminds behind the scenes, and take them all away, otherwise the same crime will occur .

"How often do those people come to collect the goods?"

The old man thought for a while, "Our village head has already brought a cargo. We have been there for about three days. The time is not certain. They will come to pick up the cargo if they need it."

It seems that we can only sit here and wait. Qin Yuan told Zhao Min about his plan, and Zhao Min also agreed very much. Only by catching all the masterminds behind the scenes can the safety of these children be guaranteed.

However, when they encountered this incident, they couldn't ignore it. Originally, these villagers wanted to persuade Qingyuan to keep the child, but they didn't expect the two of them to fight against those armed people.

Many villagers are worried that they will be hurt, after all, they have seen the methods of those guys.

"You can't beat those people at all. They have weapons in their hands. How can you beat them just the two of you? Maybe we will be implicated by then."

"You don't need to worry about this, but I want to emphasize one point now. If I find out that someone has tipped the news, then this is the consequence!"

There was a half-person-high stone mill in the yard. Qin Yuan walked over, took a deep breath, and punched the stone mill, which instantly shattered.

The surrounding villagers were stunned. The stone mill weighed at least a few hundred kilograms. They didn't expect his punch to be so powerful.

Chapter 1479: Make 1 mark with red cloth

Qin Yuan was still worried about other situations. He asked the old man to gather all the villagers together, and he didn't want anyone to report the incident. He wasn't afraid of revenge, but just worried that he would startle the snake.

Because according to the account of these villagers, those people are rich and powerful guys. If so, they are more willing to use money to settle or run away directly, and transfer to another target.

People like these are the most difficult to deal with, they are changing positions at any time, and if there is a little trouble, they can't be caught at all.

There are too many villagers in the village, and the two of them can't manage it at all. It seems that they need support from above.

He searched for a long time in the village, and finally found a phone. The place is really too backward, and the phone line needs to be connected on site.

The villagers didn't know where he was calling, and everyone was guessing his identity.

Dulong was beaten half to death by those villagers and thrown into the yard. Qin Yuan and Zhao Min were checking the children's wounds, but the children were not injured.

It's just that I was a little frightened after being locked in that closed environment for a long time, coupled with the long-term malnutrition, I looked skinny.

These villagers didn't dare to act rashly for a while, they all stayed in the yard, time passed by, Qin Yuan didn't say anything, everyone was really bored in the yard.

wucuoxs/42219/"Against the Cthulhu"

After another half an hour, some villagers finally couldn't bear it anymore.

"We know that you have demonstrated your skills just now, and we definitely won't think about running away, so you just let us go! We definitely won't report to you."

"That's right, everyone hasn't had a sip of water by this time..."

He was interrupted by Zhao Min before he finished speaking. Now that they know what it's like not to drink water, these children have been locked in that cellar by them for a long time, not to mention drinking water, eating is random.

"Hold it!"

The sun above the head was scorching non-stop. After a while, there was a rumbling sound in the sky, and the villagers all raised their heads and looked up.

The old man in front muttered, and his expression was a little weird, because those people with weapons came here by helicopter in the same way.

No one leaked the news, he kept looking at Qin Yuan, but Qin Yuan's expression was very relaxed.

Qin Yuan walked out of the yard slowly, and then made a mark with a red cloth. A rope was dropped from the helicopter, and the people on it began to descend rapidly.

The villagers didn't dare to move. After the people above jumped down, Qin Yuan went up to say hello, but unexpectedly it was Li Erniu and the others.

Li Erniu jumped up and hugged Qin Yuan, "Brother Qin! I miss you so much, you know? We couldn't find you, and Jiang Xiaoyu said that you were sacrificed with honor. I got a beating."

"Don't worry, the person who can kill me hasn't been born yet."

At this time, Jiang Xiaoyu also landed from another helicopter. They immediately rushed in this direction after receiving a call from Qin Yuan.

It's just that everyone didn't expect Qin Yuan to make another contribution. First, he wiped out the Blackwater organization, but he didn't expect to meet these organ traffickers on the way.

Qin Yuan told them the general situation, and now the two teams have enough people to control these villagers.

The villagers next to them were even more frightened and did not dare to move. After all, their equipment looked very sophisticated. They did not expect Qin Yuan's identity to be so unusual, and so many people were called by a single phone call.

Chapter 1480: Arrogant village chief

Some of the clamoring villagers shut their mouths instantly, and a man timidly walked up to the old man.

"This person is too powerful. Could it be that he is a general, how could he call so many people?"

"It seems that we have really gotten into big trouble this time. These people don't look easy to provoke, but those people are not easy to deal with either."

"We have nothing to do now. They're all here anyway, so let's use them to deal with those guys. I've had enough of being threatened by them every day."

"Don't talk about it. Now all we can think about is whether we can save everyone. Don't you know? We are all accomplices."

The man lowered his head helplessly when he heard this, the previous things have been done, and they have nothing to do now.

Qin Yuan introduced the situation here while leading them into the yard. When they knew that these children had become donors, everyone was very angry. These children could have lived a carefree life at this age.

They all expressed that they would definitely bring those criminals to justice, but Qin Yuan felt that the matter this time was not that simple, they were able to be so secretive, and they did not send many people in this village, basically no one of their own, This shows a problem, they are ready to retreat at any time.

Qin Yuan is not afraid of those who come to him directly, because his ability is placed here, he is very confident, and he can deal with as many people as he comes.

What he was more worried about was that he would disappear suddenly like the masked man said, without a trace at all. If they choose to escape this time, there is no way to do it.

wucuoxs/80858/ 《My Bingshan Beauty Wife》

And it was in a foreign country, so he was very worried that there would be more victims at that time. Now what they found was only one of the dens, and he didn't know if there were other places.

Everyone waited in the village like this for three days, and the villagers did not dare to act rashly under everyone's guard.

On the evening of the third day, the village chief who had gone out to deliver the goods also came back. Just after the village chief came back, he was controlled by Jiang Xiaoyu and the others.

The village chief didn't know what happened, so he turned his head and stared at them fiercely, "What are you trying to do?"

"Be honest with me."

Jiang Xiaoyu directly pressed the village head and brought him in front of Qin Yuan, but the village head in front of him was very arrogant, and he was not afraid at all.

"Who are you?"

Jiang Xiaoyu pointed to the clothes on her body, "If you can't read, can't you understand? I'm wearing a military uniform."

"Hey, I know it's a military uniform, but where are you from? How dare you meddle in our business?"

The attitude of the village chief was very arrogant, which made Qin Yuan a little puzzled, why is this guy different from these ordinary villagers? These villagers will be more or less afraid to see them.

This can only explain one problem, the village head has seen people who are more powerful than them.

Sure enough, the village chief pushed Jiang Xiaoyu's hand away, "I warn you, you'd better not meddle in other people's business here, otherwise the people above will find out, and none of us will be able to escape."

"Don't talk nonsense, but let's go to the people behind it now."

The village head didn't respond at all, but walked in instead. The children were arranged in several rooms by Jiang Xiaoyu and the others. He looked and saw that the children were all there.

Only then did he breathe a sigh of relief.
