

Special Soldier 1481

Chapter 1481: Do you see that these children are not saved?

Then he came out, "You can't manage our affairs here, don't stretch your hands so far, just take care of your own affairs."

Seeing the village head's arrogant attitude, Balang couldn't take it anymore. They wanted to save these children, so they pointed their guns at the head of the village head.

"We've been here for so long, what's going on? Take us to those people right now."

"You are not worthy at all!"

"What does this mean? I think you old guy is really tired of working, I want to show you some color."

The village head smiled contemptuously, "First of all, you dare to take action against our people in our country, you are really brave, and you will be the ones to decide our affairs."

Having said that, everyone was stunned for a moment. They really didn't realize this problem. Although this village is remote, it is not their country of Yan. It is really inappropriate for them to intervene in these matters here.

The main reason is that the influence is a bit bad, but Qin Yuan can't control that much. He walked over and forcibly invaded the village head, trying to find out the whereabouts of those people, but those people were too cautious.

I can't see any specific clues from the village chief, only some scenes of exchanging children, and some fragments of the hospital.

It's just that I can know where the hospital is, but the people behind the scenes haven't even seen the village head, he just saw the person who came to hand over.

The village chief was stunned for a long time, but he didn't realize it at all. It was like a dream just now. When he woke up, he saw Qin Yuan sitting in front of him.

Qin Yuan already knew the news that the village chief knew. Since he couldn't find the person behind the scenes, he had to wait until the next delivery. When he sent these children over, Qin Yuan also went out with him.

"The next time I need to send these children, I will send them there with you!"

"Didn't you understand just now? I said that you have no control over our affairs. This is on our territory and has nothing to do with you."

The village chief said these words almost in a snarl, Qin Yuan can't take care of that much, he took care of this business today, and Jiang Xiaoyu who was next to him also came over at this time.

"Brother Qin, I think there is something wrong with the situation. After all, if it rises to the international level, it will have other bad effects."

"It's okay, I'll be responsible for what happens, don't we want to see these children not to be rescued?"

"It's not that we don't want to save them. I think it's enough for us to save these children. Don't get involved in the inside. It seems too complicated."

When Balang heard what Jiang Xiaoyu said, he came over and pushed him away, thinking that Jiang Xiaoyu was greedy for life and afraid of death.

Seeing everyone's attitude, Jiang Xiaoyu didn't want to say anything, so he could only take a step at a time. Qin Yuan had actually considered this issue, but he felt that he should be able to bear it.

At least he won't leave these children alone, and this place is very close to their border. A village like this can't imagine if there are more than one other, and it doesn't know how many victims there are.

Everyone waited for another two days, but instead of a buyer, they waited for news from Gao Shiwei. Qin Yuan thought he was planning to send reinforcements, but what he didn't expect was that it was the news of the retreat.

Chapter 1482: Thought 1 has always been an accomplice

This news surprised everyone, but Gao Shiwei was also in a difficult situation. It was still the same problem. They are now in a foreign country. Such a situation cannot exist at all. The impact is very bad.

Although there is some evidence, no matter what, they can't take care of this nosy matter, because of their special status, even if they have good intentions, they will be used by Xin naturally, and when the time comes to provoke a war between the two countries, this matter will expand up.

Gao Shiwei persuaded Qin Yuan earnestly on the phone. He knew that Qin Yuan wanted to avenge those children and did not want to have more victims, but there was no other way now.

For the sake of the overall situation, Qin Yuan could only let the team retreat first, and judging by the meaning, it is estimated that the buyer already knew the news, that is, the big bosses behind the scenes, they used their own connections.

No wonder the village chief is fearless. He knows how big the umbrella behind him is. What's even more frightening is that the power behind it is simply unimaginable. Why can the news spread so fast?

Zhao Min was in great pain. She felt that she had no way to leave these children behind. They had just given hope to these children and saved them with great difficulty. Now she wanted to leave them here again. She really couldn't do it.

However, their local side did not do nothing, and immediately sent other troops, saying that they were handing over to them, but Qin Yuan always felt that there would be some problems, and the handover of the troops would be two days later.

Hearing that there was a local army to take care of the handover management, Zhao Min felt a little relieved. At least someone was going to take care of these children, but it was a pity that the boss behind them was not caught.

Qin Yuan felt that the matter was not that simple, and it was impossible for someone to come forward to solve it so easily. The main reason was that the news spread too fast, coupled with the village chief's attitude, he was very arrogant before, and he was always worried that they would be implicated.

But now this guy is like a normal person, the army is coming, according to them, the idea that they have been indoctrinated before has always been an accomplice.

If there was any problem, everyone would be arrested, but he didn't show a trace of fear, instead he was very relaxed.

So Qin Yuan felt that there was a big problem here, but Gao Shiwei's order had already been spread, and he had to take the team back, and there was nothing he could do.

On the day of the handover, an army did come, but they behaved a little carelessly and treated the children very rudely. The leading officer in front drove the children directly into the car like driving cattle.

Because the child was already scared, so he kept crying. The child knew who was good to them, especially the little girl who had established a deep relationship with Zhao Min in the past few days. She was reluctant to part and hugged Zhao Min. He started to cry, but the soldier on the opposite side didn't care so much, grabbed the child and pulled the child away.

They didn't care about the child falling to the ground, they just lifted the child up rudely in the past and told them to get in the car quickly.

This scene made the people present very angry. Jiang Xiaoyu stepped forward and reasoned with them, telling them not to be so rude to their children. They are all victims, and they should be treated well and sent back to their families.

Chapter 1483: You don't need to worry about it

The person who led the team was very disdainful, "Sir, this may be our business, and it has nothing to do with you."

"It doesn't matter whether it is related or not. He is a civilian. Your duty is to protect civilians. Do you treat them like this?"

The officer was so stunned by Jiang Xiaoyu that he couldn't say anything, he didn't say anything, and told everyone to hurry up and get the child into the car.

After bringing all the children into the car, those people immediately closed the team without saying a word of thanks. Qin Yuan felt a little strange, this is not okay, these children are taken away, so what should these villagers do? This is a den.

He hurriedly caught up and pulled the car door to prevent the team leader from getting in, "Wait a minute, isn't it right? What about these villagers? They are all accomplices, and you can't even do a basic interrogation here." No, just take the child away and it's over?"

"You are Captain Qin, right? You don't need to worry about this matter. We will solve it by ourselves, and there will be special interrogators."

The man's attitude was cold and arrogant. He didn't pay attention to Qin Yuan at all. Instead, he felt that they were meddling in their own business.

Now that Qin Yuan and the others had received the order, they had no choice but to look at the attitude of these guys. Those children were lying on the car door pitifully, and could only watch the car go away.

He Chenguang only hoped that these children would be treated well, and that they would find their families as soon as possible. After all, the authorities have already stepped forward, so there will be no problem.

"These children are pitiful enough. I really hope that they will get out of the sea of suffering as soon as possible. It's not something we should manage now. If we continue to manage it, it may cause trouble. Look at their attitude."

"I look down on this kind of person the most. What's the point of bullying ordinary people? If it weren't for the clothes he was wearing, I really wanted to go up and teach him a lesson."

Li Erniu complained angrily beside him, but there was nothing he could do now, so everyone had to gather and close the team, and the village chief next to him looked smug.

The village chief came out slowly with a cane, smiling, and his attitude was completely opposite to before. When he came, he was very worried and a little angry, but now he looked relaxed.

"Everyone, then I won't send you off. Young people, remember not to meddle in your own business in the future. Some things are not your business."

This guy's words were too arrogant, Qin Yuan stared at him coldly, he just hoped that he wouldn't be caught in this kind of thing next time, and he would take care of him every time.

Everyone had no choice but to close the team and go back. On the helicopter back, Zhao Min quietly wiped away tears beside him. Although these children are not from their country, they are all small lives. During these days of getting along, everyone All have feelings.

Li Erniu was at the side to comfort her, telling her not to think so much, and seeing the situation now, they would handle it better locally.

Qin Yuan also hoped that someone could handle this matter well, but he always felt weird, and he couldn't explain that feeling for a while, but the local army had all stepped in.

Soldiers must obey orders. This time, Gao Shiwei has been telling him not to act rashly, and asked him to go back to report by name, so he has no choice but to follow the arrangement and go back first.

After returning to the brigade, everyone was not very interested. After all, this mission was abandoned halfway, and there was no news from there, and it was really uncomfortable to see those accomplices getting away with it.

Chapter 1484: Complete the task quickly!

Li Erniu and the others went back to the dormitory first, Qin Yuan came to the office to report, Gao Shiwei heaved a sigh of relief the moment he saw him, this kid finally listened to his words to avoid causing other disasters.

Seeing Qin Yuan's frowning face, Gao Shiwei stepped forward and said solemnly: "I know what you are thinking, and you can blame me. We couldn't make decisions about some things at that time. If you were in my position, You'll understand. We represent the country first and foremost, especially on the outside."

"Team Gao! I'm sure I won't complain about you. As the captain, I know it too. I just feel a little unfair for those children."

"At least you have rescued those children, and now those children should have been properly placed, don't worry."

Qin Yuan still can't figure out how the news got out? Gao Shiwei didn't know the truth, he only knew that Dongguo had contacted them suddenly.

Gao Shiwei threw out a report while talking, which was sent by Dongguo. This report was very clear, saying that the soldiers of Yanguo were actually engaging in military activities in violation of regulations in their territory.

how can that be? Qin Yuan frowned and smashed the report on the table, "Captain Gao, this is completely slanderous, we didn't do anything, besides those criminals, why don't we just ignore them like this?"

"Of course we know, but if you want to, you will naturally use this thing to provoke our relationship. Now their authorities just let us give instructions to evacuate. Fortunately, there is no other reaction. If there is a war just because of this, how many innocents will there be?" people want to get involved?"

Qin Yuan is also aware of this. He didn't expect that the power behind this time would be so wide. They just wanted to take care of this matter, and immediately alarmed other people, and they seemed to have a lot to do with the high-level leaders of the Eastern Kingdom.

Gao Shiwei said that if only one of the victims they rescued this time is from the Yan Kingdom, they can take care of this matter as they please, but unfortunately no one from them is involved. If they do so, their suspicion will become more and more serious bigger.

"Don't think about it too much. Hurry up and train now. You still have a lot of things to do. You said before that you need to form a team, and there are things on the research base. There are many things waiting for you to do. Don't think about it anymore. That's it."

Qin Yuan nodded, and slowly backed out. This mission was a failure for them, at least those ****
**** were not punished.

After returning to the dormitory, everyone's aura is not high, and Qin Yuan is the same. When he closes his eyes, the figures of those children will always appear in his mind, especially the dirty little face with eyes full of fear and dread.

At night, Qin Yuan tossed and turned and couldn't sleep. He cursed secretly, and then got up from the bed. Unexpectedly, just as he got up, other people on the bed woke up one after another.

Li Erniu turned over and jumped off the bed, "Brother Qin, it seems that you are the same as us."

"What are you ***** doing? I just can't sleep, so I get up to get some air."

"Hey, Brother Qin, we are all brothers, so just say what you have to say. I know you are also worried about those children. Since it's not clear, let's go dark."

Chapter 1485: Fortunately, Qin Yuan reacted

A few people smiled knowingly, it is more than 9 o'clock in the evening, and there is less than an hour before the lights are turned off.

Qin Yuan was always worried about those children. He had to go and see what was going on. The rest of the team was the same. He originally planned to go alone, but everyone had the same idea.

Moreover, Li Erniu also successfully persuaded him that if there was any problem at that time, he had to protect those children and deal with those criminals. If the members of the red blood cell team went together, everyone could take care of them.

Qin Yuan immediately made a plan. They will act tonight. If they come back before, there will be no problem. After all, morning exercises will start at six o'clock, and the night is long enough for them to act.

It's just that it's easier to avoid the guards later. After all, there are no sentries under their small building, only on the opposite side.

They could climb out along the wall from behind, which was not a difficult task for them. As soon as the lights were turned off, a few people took advantage of the night and quietly climbed over the wall with their equipment.

After a while, two soldiers began to patrol the corridor with flashlights. They would not enter the dormitory for inspection. After all, this is a special operations brigade, and everyone is relatively observant.

After the two soldiers patrolled around, there was nothing else going on, so they went downstairs. Just as they went downstairs, they saw Gao Shiwei, and the two quickly saluted.

After all, the light-off signal has already passed, why is the captain still here?

Gao Shiwei was a little worried. He knew that Qin Yuan always liked to play tricks on himself, so he decided to come and see for himself.

"You go up to check if there is any problem?"

"Report to Team Gao, everything is normal."

"I mean, have you checked into the dormitory? How are the people in there?"

The two shook their heads. They would not enter the dormitory for inspection unless there were special circumstances where the lights were not turned off or there was noise.

Gao Shiwei was really worried and walked upstairs, he opened the door of the dormitory, saw that everyone was sleeping soundly in bed, he was completely relieved, and then left with peace of mind.

Shaking his head, it seems that he really thinks too much. Judging from the situation, Qin Yuan should understand that he should not care about these things this time.

At this moment, when they heard the sound of closing the door, and then the sound of footsteps leaving completely, the few people staying in the bed were relieved.

Fortunately, Qin Yuan came to his senses, just when they were about to leave, he remembered that Gao Shiwei had been explaining today, maybe he would come back and check directly.

That's why Qin Yuan brought his team back immediately, and dealt with the inspection first, but he didn't expect him to actually come for the inspection.

While carrying the equipment on his back, Li Erniu gave a thumbs up in admiration, "Brother Qin, your move is really too high, you even predicted Team Gao."

"This is not a prejudgment, it's just that I know too well. I know that Team Gao also has good intentions, but we will definitely not expose it this time."

In this way, taking advantage of the darkness, everyone set off, successfully left the special warfare brigade, and then rushed forward along the mountain road.

At the moment, in a small building in Dongguo, those children are locked in a room, and there are only a few big beds in the room, and the children are barely squeezed together to sleep.

Let's just say it's only a little better than the cellar they were in before.

Chapter 1486: from the orphanage

The children's faces were full of fear, and they didn't dare to sleep, after all, they didn't know where they would be taken again.

Apart from the soldiers who were on duty before, another man appeared at this time.

The man clapped his hands, and the two people behind him brought over two large boxes and opened them in front of the captain.

It turned out to be full of money. The moment the captain saw the money, he smiled knowingly.

"Captain Ham, there is a total of 3 million US dollars here, but this is just a deposit. Don't worry, I will give you the remaining 5 million in cash. I understand the rules."

"Then this is no problem. I will definitely "protect" it here. No matter who comes to respond, I will not let them leave."

"Okay, then I will trouble Captain Ham to deal with the others."

The conversation of several people gradually disappeared, and the man got up and said that he wanted to go and see those children. After all, he wanted to confirm the safety of the goods.

He collectively referred to these children as cargo, and Captain Ham immediately asked his subordinates to take them into the room. When the man entered the room, the children were bored, with expressions of fear on their faces, and one of the older children was even more so. He recognized the man in front of him.

The child was very innocent. He stood up and pointed at the man and said loudly, "Uncle! He is that bad guy. I met him before. He came to pick us and took all our friends away!"

But the captain next to him didn't pay attention at all, he just walked over with a smile, followed the child's head, "I know!"

Then he pushed hard, and the child's head hit the wall next to him. The child burst into tears, but he didn't dare to cry loudly. After all, in the cellar, if they dare to cry, what they get in exchange is A severe beating.

The rest of the children didn't dare to move when they saw this scene, they retreated one after another, and all huddled together.

The man frowned, and stepped forward to stop him, "Captain Ham, what are you doing? You'd better not do anything to these goods. If they have any losses, then I will make less money. These goods have Valuable things."

156n

The man didn't feel sorry for the children, but he was worried that these children would be injured or died, so it would be worthless. After all, organs need to be excreted to be used. Captain Hamm smiled and expressed his understanding.

It was exactly as Qin Yuan and the others had guessed that these people were all in collusion. After the man left, a soldier walked in.

"Captain, there are a few people outside who want to see you. They say they are from the orphanage."

"Fool! Didn't you tell them I wasn't there? It's bad luck to send them away."

After hearing this, the soldier ran out quickly. He severely reprimanded the people outside and told them to leave quickly, but the staff outside did not give up. Because they heard about this, they came to the door early to wait.

The staff was a little anxious, they had come here and waited for a long time, "Excuse me, how long will it take for us to see those children?"

"You have no right to know about this matter. It has been handed over to us now. You don't need to participate in this matter. Please leave quickly."

"We are an orphanage, and we are here to accept these children!"

"Sorry, the families of these children have not yet been located."

Chapter 1487: Conditions are far worse than orphanages

"Until their families are found, there is no way we can give them to you."

The staff is very helpless, and they don't know why, they just don't allow them to accept these children. Only with them can these children get better protection conditions. After all, this place is where they are stationed, and the conditions are far inferior to the orphanage.

But these soldiers forced them out in the name of protecting the children.

In the end, the dean was a little helpless, so he could only walk out, and the assistant next to him comforted him: "Dean, since they all said so, let's go back first."

"This is the only way to do it now. Those children are very pitiful. I still hope to come and see them tomorrow. If it doesn't work, take the children back first."

After arguing for a long time, there was no result at all, they could only go back first, and Qin Yuan had already brought the personnel of the red blood cell team to the hospital that he had seen in the village chief's consciousness.

When Qingyuan and the others came to the hospital, they found that the staff in the hospital were moving things outside overnight.

This situation is not normal at first glance. After all, they have just heard the news, and this side has already started to relocate.

He Chenguang immediately understood. He stepped forward to inquire about the situation. He looked at the security guard next to him and walked forward with a smile, "Brother, what's the situation? This hospital is running well, why is it suddenly moving out? "

The security guard was very vigilant, and waved at him impatiently, "Go away, this is not what you should ask, nor is it where you should be."

Seeing that he was speechless, He Chenguang simply took out a piece of money, but the security guard didn't even look at it, and just pushed him outside, and the news would not be revealed to him.

In the end, there was nothing he could do. He came back in a daze and explained the situation to Qin Yuan. The more vigilant these security guards were, the more it meant there was something wrong.

Just when he turned his head, he found that Qin Yuan had disappeared into the darkness. He had already become accustomed to this.

After more than ten minutes, Qin Yuan also found out about the situation. He used his powerful intrusion ability to invade the consciousness of those staff members.

This hospital is the most direct contact with those elders. Although the relevant personnel have been withdrawn, there are still some other staff.

Qin Yuan immediately took the red blood cell team to the place he obtained. In the tall building, the man just now was on the phone.

"I've already settled it here, the goods are safe, but I don't want this to happen again next time."

The man hung up the phone and stood in front of the window. This time he lost a lot of money. Besides the captain, there were many other people.

But compared to that batch of goods, these are nothing. After all, many rich people need these organs, and the money for a few organs will be returned.

This line must not be broken, the man was a little annoyed thinking of this, he rubbed his temples, then made a phone call and asked the secretary outside to come in.

But after a long time, there was no movement from the secretary. He was a little impatient, and he called again but no one answered.

He was a little annoyed, the recent incidents were enough to bother him, but why are these people so careless about what they do? He stood up and opened the door directly, just about to curse.

A black muzzle was aimed directly at his head. The man was quite calm, silently raised his hands, and then slowly backed away.

Chapter 1488: treat others in the same way

Looking at the man who suddenly appeared in front of him, he didn't react for a while. His head was spinning rapidly. He didn't know who he had offended. Logically speaking, it shouldn't be. Their sphere of influence in this area is very wide.

Qin Yuan stepped forward and didn't talk nonsense with him, kicked him in the stomach and kicked him into the room.

"Brothers, do you want money? If you want money, I will send someone to fetch it for you right now. Everyone should talk about it, there is no need to do anything."

"Don't talk nonsense, where are those children?"

Unexpectedly, it was for those children again. The man was relieved when he heard this, because he knew that the soldiers from the Yan Kingdom were the ones who got off the road, and it seemed that those guys were meddling again.

"You guys are really funny. You have to distinguish the national boundaries. You are not qualified to manage this matter in this place. This is a matter of our own country."

Qin Yuan was too lazy to talk nonsense with him, so he stepped forward and forcibly invaded his consciousness, and led him away. When he went out, Li Erniu was a little curious, he was worried that this guy would leak the secret.

"Brother Qin, what about this guy?"

Ever since Qin Yuan came into contact with this man, he had become extremely indifferent, and he didn't say a word. When Li Erniu turned his head again, he saw that the man could only giggle and drooling at the corner of his mouth, which was obvious at first glance. Just stupid.

Because Qin Yuan saw many things in his consciousness, this guy was not only involved in organ trafficking, but also a pervert who abused children.

A **** like this, Qin Yuan, wanted to kill him directly, but he thought it was too cheap, and he wanted this guy to try to feel that way.

He turned his head to look at Li Erniu, and asked him to take that man with him. At this moment, the man only knew he was giggling and didn't understand anything, so he walked forward after being pulled away.

In addition, on Hamm's side, he watched those children let people throw a few breads in the room. These children really can't do anything wrong. For them, every child is worth a lot of money, and he plans to wait until later. Use these children to make a good sum of money.

It's just a pity that there are bigger fish on him, so he just changed hands here a little bit, and other things are decided by the people above, and the child is only placed on him temporarily.

All he needs to do now is to block the reporters outside the door and prevent them from going out to report.

The main reason is that the impact this time is too great, but the circle they serve is also very large, mainly those relatively large chaebol groups.

These people are rich and powerful, so everything can be settled with money, just like the organs on these children, their children come directly to the operation to get them if they need them.

As soon as Hamm went to bed, he heard movement outside the door, but when he got up, he suddenly lost consciousness, and he didn't know anything else.

The next morning, the barracks where they were stationed exploded in an instant, because everyone found out that something had happened. There were signs of someone invading their barracks. Of course, no one knew what was going on. Everyone's weapons had been destroyed. seized.

The soldiers standing guard also fainted last night. They didn't know who did it. It was just strange that these people who invaded their camp just seized their weapons and did not hurt them.

Chapter 1489: no way out

But immediately after the bigger news came, a report in the major news media in Dongguo quickly climbed up the trending search and occupied the major news pages.

Hamm completely collapsed the moment he saw the newspaper, because he was on the front page of the newspaper!

"Extraordinary officials and gangsters colluded, sad and mad, and killed children and ordinary people at will."

Just such a big headline appeared on the front page of the newspaper, and there was his personal letter below. What appeared on the newspaper was only an introduction, and a video appeared on the major websites. The crimes are revealed one by one.

The main reason is that Hamm is too greedy. Every time those big bosses gave him favors, he has recorded them one by one, and there are also those child abuse videos.

He has videos including those in the operating room, because he originally wanted to keep these things to threaten the bosses, but he didn't expect to use them on himself.

For a moment, those big bosses were completely panicked, because there was a complete list, and Hamm was a key person. Including the trafficking organization, and helping them cover up their crimes, it was all done by Ham, he was a very important insider, and now he has blown up all the lists, those big bosses can't do it anymore.

A villa-like old man with white hair looked at the newspaper in shock and tore it up angrily.

"What the **** is this **** going to do? He doesn't have to drag everyone into the water if he wants to die."

The boss was completely panicked, because all of them had participated in this matter, and before he could react, the door was suddenly kicked open.

The military personnel came right after him, directly controlled him, and took him away. The old man was furious, he kept struggling, and then looked at the leader and said, "You can't catch me, do you know General Vic? ? Me and him are friends."

The leader of the team was cold, ignored him at all, and pushed him while saying: "Hehe, General Vic, to tell you the truth, we have arrested all the people, and you are General Vic who confessed. "

what! The old man was instantly ashamed, because he used General Vic as his last card. This man has a lot of power. He didn't expect that even he was brought out. People like them have no way to survive.

On the other hand, these children have been secretly sent to the gate of the orphanage by Qin Yuan. These people in the orphanage really want to help the children, and he can tell from the smell of pheromones.

The moment the children saw Qin Yuan, they were full of hope, but they were about to be transferred to another place, and a child reluctantly pulled Qin Yuan.

"Uncle, can we go with you? We know that you are the real good person. If we can, we will follow you so that we can survive."

"Don't worry, I've seen them, they must be good people, and they can help you find a home."

These children shook their heads. They had no home at all. Only a small part of them were trafficked. Of course, most of them were orphans, and they couldn't accommodate them at all. So this matter has developed to this day. Because these orphans are simply left alone.

Qin Zhengyang clenched his fists when he heard this. He seemed to think of his past. At that time, he was also brought by those people to train the boy scouts.

Chapter 1490: Where are we going?

If he hadn't met Qin Yuan, his fate might have been worse than these children, because they were sent directly to the battlefield as cannon fodder.

"Captain, let's keep them, or let's take them away and train them to be like me. I think they can."

Qin Zhengyang was a little bit reluctant, he had already thought of himself, that's why he sincerely wanted to help these children, but Qin Yuan shook his head and directly rejected him.

These children are too young. No matter what aspect they should receive education now, and this time the situation is special. Unlike before, they could bring Qin Zhengyang and the others out and hand them over to Grandma Sun There.

However, taking these people away suddenly because of special circumstances will cause dissatisfaction between the two countries. This time, they were acting secretly.

The older child seemed to see Qin Yuan's embarrassment. This child has experienced a lot, so he is also very sensible.

"Uncle, I know you can't take us away. It's the greatest help for us if you can save us. Don't worry, I will take them to live a good life. We believe in your choice."

The child is really sensible, which makes people feel distressed. Qin Yuan knelt down and patted his head, "Don't worry, uncle will definitely come to see you whenever he has a chance. You can live a good life here. The people here are absolutely fine. If there is a problem, I will come to rescue you as soon as possible."

The child nodded, and just waved goodbye to Qin Yuan. This time the situation was special, so Qin Yuan could not bring those bad guys to justice. He just took away a few main people, and took over these children directly.

It was almost dawn, so Qin Yuan and the others had to hurry up and leave. Everything would be stimulated at dawn, and he had already controlled Hamm with his consciousness.

Let him tell all the crimes, so now is the time for them to go.

On the dark road, a truck was running fast. Several people in the car were dizzy and couldn't stand at all, but their hands and feet were tied and they couldn't resist.

I don't know how long it took before the vehicle finally stopped. The moment the door was opened, the light shone directly into the compartment, and the people in the compartment squinted their eyes. They didn't know what happened, their faces were full of Fear.

"Where are you taking us?"

"What the **** is this place?"
