

Special Soldier 1551

Chapter 1551: The water behind is so deep

Those people on the periphery remained motionless, what they had to do was to kill everyone inside, leaving no one alive.

By daybreak, the fire had completely burned the hunter school.

The people on the periphery left, and Qin Yuan also led the small team to evacuate quietly. Uncle Li felt angry all the time. He felt that Qin Yuan was just doing nothing but dying. So many people died in vain. Who are the militants who dare to touch their hunter school.

Qin Yuan took them to a safe place, Lao Hei threw half a compressed biscuit to the secretary, he turned his head, the secretary was unwilling to accept the food.

"What are you doing? At that time, I said that you must not stay. Just wait. When the principal comes back, I will definitely sue him."

Old Hei clenched his fists and was about to go up and beat him up, this guy dared to talk to him like that.

At this time, Qin Yuan opened the door and came in. He held a newspaper in his hand and threw it directly on the secretary.

"Look at it, and you will know how naive your thinking is."

The more the secretary took the newspaper, the more he read it, the more frightened he felt. This is a completely wrong fact, and it doesn't exist at all.

The biggest headline on the paper read "The Once Legendary Special School Turned Out to be a Den of Crime!"

The following is a brief introduction about the Hunter School, which mainly explains that the military launched a special operation. According to their investigation, it was found that the Hunter School has developed its own eyesight over the years and has colluded with criminals from various countries to engage in criminal activities.

Then the military carried out a campaign to completely control the people in this school. Frank, the main person in charge, has now been arrested and sent to a military prison, waiting to be tried a week later.

The secretary's hands were shaking after reading it, he couldn't believe it, and threw the newspaper, "No! It's not true, how could it be like this?"

"Hehe, I said that you are too naive. Believe it, what happened last night was directly published in the newspaper today. All the procedures are so clear. You still think it was just an accident, and you still think That's just your average criminal."

The secretary was stunned. He never expected that the water behind it could be so deep. He didn't realize it at all.

In his previous cognition, the Hunter School was a legendary existence, and it was absolutely impossible to be defeated like this, but they belonged to arms that could not twist their thighs, no matter how powerful they were, the old forces above would easily kill them.

"That's why I didn't talk to them yesterday, so as not to be exposed. If exposed, everyone will be in danger and everyone will be hunted down. Understand?"

"Then... what shall we do now?"

Everyone was lost in thought while reading the newspaper, and lost their mind for a while.

"What else can we do now? I said before that you are a reserve force. Frank dare not be so openly obliterated to them. He will be tried. If this is the case, we must rescue him and then announce the real truth. come out."

And that trial was just a process, and they should have known the result a long time ago, and everything had already been predetermined.

So the most urgent task is to rescue Frank, and then announce the truth to the world.

Chapter 1552: Preparing for a prisoner robbery

Otherwise, no one will be able to save Hunter School. The former legendary school has now turned into a so-called crime den, and no one can believe it.

But this is something that they have already prepared for what happened just yesterday. Today, the major news media followed closely to report. Those news media don't pay attention to the facts. Whoever releases the report, they only need to be responsible for publishing it.

The secretary fell into deep thought while reading the newspaper. He felt that what Qin Yuan said was right. Frank should be rescued now. Frank is the best witness. Aren't these guys just worried about the secret being leaked out? Although the secretary doesn't know what's hidden behind it, it must not be like this.

"But I still want to remind you now, if you are sure to go rescue Frank with me, then we will be tied to one rope in the future. The forces behind this are too great, and our strength is limited, so it is very difficult. There is a risk of retaliation."

Qin Yuan also made it very clear that if you don't want to participate, you can leave now. He respects everyone's choice.

Coupled with the assassination situation like yesterday, they all felt that everyone in the hunter school was dead, and now only Frank was left. They could take this opportunity to escape to other places to redevelop.

As soon as Qin Yuan finished speaking, Lao Hei stood up and patted his chest to promise that he would never leave.

Others also expressed their attitudes. No matter what, they still chose to fight with their backs. After all, the Hunter School has a very good reputation. Even if they go out and are carefully discovered by others later, they will still be in danger. These people's backs are too strong, it is better to fight them once.

"Instructor, just give the order, what do you say and how we do it, we have said before that everything is under your arrangement, and we will never shrink back, and we will stand up if we are men."

Qin Yuan nodded, and asked them to stay here first. After all, it is very dangerous outside now, so we should avoid people who know them.

I went to buy a batch of equipment first. If they were going to rescue people, equipment was the most important thing. In the afternoon, Qin Yuan brought the equipment back. There were two big bags, basically some bullets and grenades.

In addition to the equipment in their hands, what they need most now is bullets, which are also consumables.

While everyone was sorting out their equipment, the secretary also stepped forward and said to Qin Yuan, "Instructor Qin, if you have any extra guns, give me one too. I will join you in the battle now."

The sixth child saw that the secretary was going to join the battle, so he came out to persuade him. After all, this was a real knife and gun, and it would be too late to regret if something went wrong.

"I think you should stay here and do a good job of backup for us. After all, we also need someone to support us."

"Don't look down on people, you have to know that the people who can stay in the hunter school are not softies!"

What the secretary said was very firm. He picked up a gun and loaded it skillfully.

Anyway, there is one more person, one more force, and after sorting out the equipment, Qin Yuan immediately worked out a plan. According to the newspaper, Frank is now locked in a military prison in the south, and they need to enter this military prison.

Chapter 1553: still divided into large

You must know that the people in military prisons like this are not good people, so the management is also very strict, and it is very difficult to get in or out.

And first of all, it is necessary to determine which prison number Frank is in. The prison is so big, and they don't know the exact location.

So now we have to think of a way. Just when everyone was at a loss, Qin Yuan suddenly had an idea. He looked at the secretary next to him.

Now there is a perfect strategy, that is, they can cooperate internally and externally. If someone inside goes in to inquire about the news, as long as they know the accurate information and pass the information out, then they can cooperate outside.

Originally, Qin Yuan planned to go in by himself this time, but he always felt that something was wrong, so he planned to ask the secretary to go in first.

Because the secretary is always by Frank's side, and his work is kept confidential, few people know his identity, so it is the best choice for him to sneak into prison.

Qin Yuan used his hacking skills to forge a fake military certificate for him. After all, to enter such a military prison, the first requirement must be military talents.

Qin Yuan asked the secretary to go to the local government building to grow old as badly as possible. After all, the bigger the trouble, the more chance he had to be sent to the military prison.

Under their plan, the secretary came to the government building. He looked at the heavily guarded guards in front of him, and couldn't help but feel a little nervous. But thinking of Qin Yuan's explanation, he gritted his teeth and rushed straight up, facing the guards in front of him. Just a punch.

Then he took out the banner he had prepared long ago and pretended to be a troublemaker. Soon he was controlled by the guards, and some military certificates were found on him.

Special prisoners like this are usually handed over to military courts and then taken to military prisons for trial.

It can be said that Qin Yuan's fraudulent technique was flawless. He directly swapped the secretary's file with a person in the local military camp, and he could not detect any loopholes at all.

In this way, the secretary successfully entered the prison, but it was stricter than he imagined. Originally, he thought he could get preferential treatment in a single room, but now he was just an ordinary soldier, so he was still assigned to a large room.

There are more than 30 people living in such a large room, and Frank probably lives in a single room, so he must find out the news as soon as possible.

The people who entered this military prison were not good people. Since he just entered, everyone was looking at him. Of course, when someone heard that he was going to the government building to make trouble, they couldn't help but look at him in admiration. After all, who is so courageous? How dare you go there and make trouble.

Some of them were sent in because of various reasons such as mistakes made during the training process or during the execution of tasks, which led to information leakage.

The secretary just came in. Qin Yuan and the others are also making preparations outside. He has been paying attention to the news.

Lao Hei and the others are all ready and can set off at any time, but Qin Yuan feels that it is impossible to go so fast, and he always feels that something is wrong.

He definitely can't expose himself now, so he can only let the secretary go in first. What he is more puzzled about is that Frank is relatively a felon-level existence in their eyes.

Chapter 1554: The secretary was taken to the infirmary

But now the place where he was detained has been exposed. Even though the Hunter School has been razed to the ground, there are still many students under Frank's command. In addition to becoming instructors in the Hunter School, many students have gone to various places.

There are not a few people like him, why would they publish this news directly in the newspaper? Don't you worry that someone will save Frank?

This is what he was puzzled about, but he was thinking that soldiers are not tired of cheating. It is very likely that they deliberately released the news to deter other people. After all, this military prison is also very famous.

Everyone has been waiting for news from the secretary outside, and the secretary is also very tormented inside. For the first time, he experienced the feeling of catching the ball.

Fortunately, no one did anything to him when he went in on the first day, but a bald man came to find him the next morning before everyone got up.

"Hey, new boy, where did you serve before?"

Try to keep a low profile in this place, the secretary told what Qin Yuan had told about his troops before, and the bald head pondered for a while when he heard this.

"Now this proposal is divided into two major factions. According to your region, you should be on the northern side, but you have your own choice. You can join whichever side you want."

What's the situation? The secretary doesn't want to cause any trouble now, he doesn't want to join either party, he just wants to know Frank's whereabouts.

But the bald head didn't intend to let him go, so he had to make a choice now, either join the Southern Faction or join the Northern Faction. They are two different factions, and they also have an important position in the prison, except for the prison guards. , The rest of the communication between some prisoners is like this.

"Can I not make a choice? I just want to go out safely now, and my sentence is not very serious. I just need to stay here for a few months."

But the bald head didn't take his words seriously at all, "You newcomer, you better think about what you just said and make a choice right away, otherwise you won't be able to stay here for a day, let alone a few months. "

The secretary was still firm in his choice, he didn't want to join any faction, and he didn't want to cause more trouble at that time, and then politely refused, the bald head snorted coldly, and walked back directly, but when he turned around, he was vicious stared at him.

The wake-up call sounded later, they still follow the style of the previous army in this military prison, and everyone must strictly militarize management.

However, what the secretary didn't expect was that just as he was about to get up after hearing the wake up call, he was punched to the ground by the bald man behind him.

Just as he was about to resist, the people behind pulled up the quilt and beat him. After a while, the prison guards outside heard the movement and ran in, whistling. All the prisoners also lined up and stood beside him. .

The secretary clutched his stomach. Now he was beaten with bruises and swollen face, but someone covered him with a quilt just now, and he didn't know who beat him at all.

"He's a newcomer, he's really courageous, he just wanted to make trouble when he came in."

The secretary is struggling now, what kind of trouble is he doing? It was obvious that he was beaten by others, but he couldn't explain clearly, he only saw the bald head behind him staring at him with a sneer.

In this way, the secretary was taken to the infirmary.

Chapter 1555: there is no way

The doctor next to him was treating the wound for him. Seeing his distressed appearance, the doctor couldn't help reminding him.

"There are rules of this place in this place, you'd better abide by their rules, whatever gang they ask you to join, you just listen to them."

It seems that it is impossible for me to get out of the whole body, the only way is to get involved with them.

The secretary nodded, and after coming out of the infirmary, he came to him again at the moment when he returned to the cell, "How is it? Have you got an answer to the things you were thinking about before?"

The reason why these people let them join the gang is just that they want to run more errands for the dead ghosts, just like the secretary in front of him is the best choice. He only has a few months in prison now, so that he can take the blame for others. Take the blame for some bosses.

That's why these people kept asking him to join the gang. The secretary had no choice but to choose to join the northern faction where the bald head belonged.

But after he joined, his treatment didn't improve much as expected, and he was immediately isolated because he sat in the wrong area at lunch and made it to the southern area.

The secretary was suffering on this side, but still did not find out any news. Qin Yuan and the others also waited anxiously outside.

A week passed in a blink of an eye. According to the newspaper, Frank will be tried in court for a week before he is finally convicted of the crime.

This is also Qin Yuan's two-handed preparation. He took out the map and began to study the route carefully.

"Now we can only choose the second path. Frank will return to prison after being interrogated, but this journey is our best opportunity."

He immediately formulated a plan, planning to pick up the car directly on the road, and then rescue Frank, but they didn't know the exact time.

So they can only wait outside the prison, but this kind of waiting is a bit futile, because they don't know the exact time, and vehicles are escorted out every day, so they can't see any flaws at all.

Lao Hei felt that this was not the way to go, so he simply created a commotion, and then everyone rushed in together. Lao Hei's character was not so calm, and he felt that since everyone had been wronged, he might as well make the commotion louder.

"You know how to fight and kill all day long. Do you know what that means? They will transfer Frank away without anyone noticing. We have nothing to do."

"But it's not a problem for us to wait here. We can't do anything. Maybe he has already been dragged to trial."

Just when he and Lao Liu were arguing, Qin Yuan interrupted them. He is very confident now, because these guys have to do everything in detail. Since Frank has been wronged, he must be accused of this crime. Carry on your back well.

"Don't worry, we can just wait patiently here. You should know that the media will also come. When the media is the most, then we can take the opportunity to act."

"Then what do these guys mean? Are they really not afraid of someone saving Frank?"

"As long as I'm here, this situation can't happen. I can not only guarantee his safety, but also yours."

Qin Yuan spoke very confidently. He dispersed all the members of the team and ambushed in every section of the road. When an unexpected situation arises, it will be convenient to retreat.

Chapter 1556: Qin Yuan is injured

Qin Yuan's plan can be said to be very detailed, but Lao Hei has a problem, what about the secretary in the prison?

"Don't worry! I will rescue him later."

Qin Yuan said it very easily. If it was someone else, Lao Hei would definitely think that this person was bragging. Of course, it was from his lover's mouth. He really believed that this guy would dare to go anywhere.

Originally, the secretary was their first plan, but it seems that it will fail, and now they can only rely on them outside.

Qin Yuan and the others occupied a commanding height and have been monitoring the movement of the prison. The next afternoon, the perimeter of the prison suddenly became stricter and special forces were dispatched.

After a while, I saw a large number of reporters led by the bus to the periphery of the prison. This was a good opportunity for them to report.

Old Hei couldn't help sighing, fortunately he wasn't impulsive at the time, the number of people must have been too many, it was so exaggerated.

He also had some drums in his heart. Will their actions really succeed later? Two special forces are on the periphery, monitoring, and there are still a large number of early warnings inside, so they
**** one person.

When he was struggling, the gate of the prison opened slowly, and a car slowly drove out. The warden first came out to explain the situation to the reporters outside, saying that Frank would be sent to a military court for trial.

This was unprecedented news, and these reporters would not miss it. They hurriedly started the interview, but they couldn't see Frank himself. He had been locked in the car, and there were people waiting outside.

It seemed that it was that one, Qin Yuan stared at that black car intently.

"Everyone get ready and start to act when they are almost out."

"received."

Everyone held their breath and stared at the car closely, and the special forces on both sides also drove into the car, surrounding the car in the middle, forming a posture of complete encirclement.

As the target got closer, Qin Yuan took the lead in rushing down. Wearing a mask, he shot directly at the tire of the vehicle. The vehicle in front had a puncture and almost rolled over.

The guards behind also rushed forward quickly, and they looked around vigilantly, but Qin Yuan and the others cooperated very closely, and Hawkeye directly used guns to cover them from a distance.

Qin Yuan didn't want to hurt those staff members. After all, they were also his responsibility. He just knocked them out with the handle of a knife, and then kicked the car door.

There were four prison guards sitting inside, and Frank was in the middle, but Frank was wearing a black hood. The distance was too close, and those prison guards also had guys in their hands. Qin Yuan had no choice but to shoot and wound them, and then Jump out of the car as soon as you catch Frank.

However, what he didn't expect was that "Frank" next to him suddenly broke free from the handcuffs, picked up the gun and aimed at Qin Yuan, hitting Qin Yuan in the chest.

I didn't expect that everything turned out to be their scheme. No wonder they were so cunning. They made such a big show just to catch all of Frank's gang. All they had to do was catch them all.

Thanks to Qin Yuan's strong recovery ability, he clutched his wound and rolled and jumped into the ravine beside him. Lao Liu rushed forward to carry it, and he ran outside.

The sixth child kept asking Hawkeye to cover them on the walkie-talkie, and he found that Qin Yuan was injured.

Chapter 1557: Find Frank's lead

Needless to say, he kept shooting. Although Lao Hei is usually reckless, he did contribute a lot of power at the critical moment. One of his rockets shot directly towards the rear. With the sound of a huge explosion, , The vehicle in front also exploded.

The sixth child was originally carrying Qin Yuan on his back, but was completely blown away by this powerful aura. He steadied his footsteps to check Qin Yuan's situation. Unexpectedly, he stood up and ran forward while carrying him. What's the situation? This was a wounded man just now.

Soon he gave the order to evacuate, and everyone evacuated in all directions in an orderly manner. The huge explosion just now covered them.

After everyone evacuated to a safe area, they hurriedly asked what was going on. The old six was eager to check Qin Yuan's wounds. He pointed to the blood on his body and said that it was not his own.

In fact, thanks to my strong recovery ability and super defense just now, otherwise I might really have to explain where it was, I didn't expect them to play this one.

Even he was deceived, and these people are still unwilling to give up. They want to catch everyone and will not let anyone go. They are really extremely vicious.

Qin Yuan also explained the situation to them. It is estimated that all the news is fake news. Frank does not know which prison he is in now.

Old Hei's shoulder was also scratched by shrapnel, and Hawkeye next to him was bandaging him.

"Grandma, I didn't expect to suffer such a big loss in this place. This time, I was tricked like this."

"Fortunately, all of us have been safely evacuated. It is better to plan what the instructor said before. If we all get together, it may be difficult to evacuate."

"Then what do we do now? I even doubt whether Frank is still alive. You guys are so vicious. They probably all fake news, and they have already silenced them."

Qin Yuan shook his head. This situation is almost impossible. No matter what these guys do, they are afraid of being caught by others. This scapegoat is just an opportunity to splash dirty water. If everyone dies, isn't it? Death without a symptom? So Frank had to be alive.

It's just that now to find clues about Frank, Qin Yuan knows very little about the shareholders behind the largest company in Hunter School.

And with so many prisons, he really didn't know where Frank would be locked up, or he wasn't locked up at all, but was secretly hidden by them.

Just when everyone was at a loss, news came from the secretary at the prison. Originally, the secretary was no longer favored, but it was the secretary who got the key news.

After receiving the news that the secretary was going to meet him, Qin Yuan rushed to the prison immediately, but when he saw the secretary again, he saw his face covered in injuries, but the secretary didn't care because someone was watching them now.

The secretary's fingers tapped rhythmically on the table. The special password Qin Yuan told him before can be used to deliver messages at critical moments.

It probably means that Frank is in a military prison called Tom's house at the moment, and these are the clues he has got so far. Qin Yuan wanted to ask other questions, but the prison guard next to him seemed to have noticed their abnormal situation and hurried over.

Chapter 1558: capture any shot

"You'd better not make small moves for me, and meet as soon as you meet."

The secretary smiled helplessly. It seems that he can only wait for a few months. He will talk about it after he goes out. Just when he was about to be promoted to leave, Qin Yuan suddenly punched the explosion-proof glass in front. You must know the explosion-proof level But it can withstand armor-piercing bullets.

Before even the prison guard next to him could react, Ruan Ruan punched the glass again and the glass shattered completely. He kicked the prison guard next to him unconscious, then jumped inside, and dealt with the two prison guards inside.

The secretary was completely stunned by this operation. This guy didn't even discuss with him, and he did it suddenly. Before he could react, Qin Yuan grabbed him and threw him outside.

Because there was a riot outside the prison before, the perimeter of the prison was more vigilant. Unexpectedly, this sudden situation made everyone unresponsive.

However, Qin Yuan was also sure of this point, which caught them by surprise. Originally, Qin Yuan wanted to give the secretary a detailed plan, but it seems that this is unnecessary, let's come directly.

In this way, Qin Yuan rushed outside with his secretary, and escaped successfully. The secretary didn't react at all, and he was already outside. This speed is too exaggerated, and his strength just now was only with one punch. Just shatter the blast-proof glass.

"Instructor Qin, this is too exciting, can't you discuss it with me in advance?"

"I also came up with it on the spur of the moment. Besides, I don't know what you will suffer in it when I plan later. Just look at your appearance."

The secretary felt a little embarrassed. He had indeed suffered a lot in prison, but he also heard important news.

Qin Yuan and the others managed to escape, and the prison warden was facing his immediate superior. The person in front was very angry and slapped him directly in the face.

"They're all a bunch of trash. Those who know think this is a prison, and those who don't know think it's some kind of place. People come and go whenever they want!"

This riot not only made it into the news media, but did not catch any suspects. Unexpectedly, just after the riot, Qin Yuan successfully took people out of the prison, and did not capture any footage or news.

It even increased the publicity of those media. Before this prison was known as the prison with the strictest management, there had never been a prison escape incident. I didn't expect it to be the top trending search in the past two days.

So their immediate superiors were also very angry. They grabbed the warden and asked him to give an explanation. Of course, it was a suggestion at the moment.

When Qin Yuan brought the secretary back, Lao Hei and the others were stunned. They only heard the sound of police sirens all over the street, and they didn't expect that love could be so exaggerated.

"I'll go. Instructor, you are too courageous. Usually you still talk about us. I think you are really the king of heaven. I will not be afraid when I come."

"What is this? No matter what, I can't let my brother be bullied inside."

When the secretary heard this, he couldn't help but feel a little moved. They were regarded as a cooperative relationship before, but after going through these wishes, they really treat them as brothers.

Chapter 1559: absolutely no fake

He also quickly told the news about his inquiry. Since he joined the gang, he has indeed been bullied a lot, but he can also inquire about various news inside these gangs. Although the military prison seems to be tight, but corruption has always existed.

The secretary has done this before, of course he knows, and he is better than those people in dealing with people. He has received special training in the hunter school before, so it is not difficult for him.

More importantly, among these people were some students that Frank had taught before. They had no choice. After all, they were imprisoned here. The secretary finally got the news of Frank through many inquiries.

It's just that the prison that Frank is in now is even stricter, and all the prisoners in it are life-sentenced prisoners. It is basically impossible to have a chance to come out, and the environment there is also very bad.

The secretary sighed deeply. When he knew it was the prison, he lost hope. They had all heard before that no one had ever been able to get out of that prison alive.

"It's really not my exaggeration. You can take a look at the situation in this prison."

Qin Yuan also looked up the information with great interest, and basically there is no one who he said he could not save.

The prison is located in an environment of minus 50 degrees in the extreme cold area of the polar region, and it is covered by heavy snow all year round for a radius of 20 kilometers. The fate of death.

Not only that, that circle is surrounded by wasteland. In addition, in addition to some electronic equipment inside the prison, they also raise many wolf dogs outside the prison. These wolf dogs are no better than electronic equipment. Electronic equipment can be destroyed, but This dog's sense of smell and reflexes are extraordinary.

Moreover, the prison's security measures have reached the highest level, and everyone's troubles are transparent, so that no one can make small moves.

Qin Yuan frowned when he saw these situations. It seemed that it was really difficult, but what he likes is challenging.

"Can you be sure that he is really in this prison? These people are too cunning. We have got very few clues now, so we must be sure, otherwise he will be transferred to other places."

The secretary said that there was absolutely no problem with the news. He exchanged it with the boss above, and that boss was also a student of Frank before. The news he provided would definitely not be false.

Since this is the case, everyone plans to go to verify it first, to rescue Frank first, he is the most critical witness.

At that time, their crimes can be exposed in front of the media, but now Qin Yuan is still paying attention to the other side, that is the scholar.

He hoped that with Frank's reminder, those people could strengthen their vigilance, and the scholar has been paying attention to the news recently.

He seems to have known all this well, these people's style is still the same as ten years ago, what they do is to kill them all.

He looked at the news in the newspaper and threw it out in disdain. There is basically no real news that can be released now, but his subordinates rushed in and told him that there seemed to be a robbery in the prison where Frank was held.

"Hehe, this is something I've thought of before. How could he watch him go to jail with so many students under him?"

Chapter 1560: successful rescue

"Sir, but the situation over there is not optimistic. I heard that it seems to have failed. After all, it was their fake."

"These things have nothing to do with us. Just taking advantage of the chaos on their side, we can also start to implement the plan. How is the person you are looking for?"

The man wearing sunglasses handed over a list of documents, which they selected from among the best mercenary groups in various places, and could be used as the leading death squad.

This time, the scholar is going to plan an unprecedented big operation to make all those people pay the price. What he wants to do is not to destroy the weapon, but to get that weapon.

Back then, his parents also participated in the research, but his parents acted as guides behind the scenes. Unexpectedly, they were murdered just for the guidance.

So one can imagine the viciousness of those people. They didn't take human life seriously at all. Once the weapons fall into the hands of these people, the consequences can be imagined, and it is unknown how many innocent people have been hurt.

The scholar looked at the people on the list, and now there are more than 300 people organized by them, but he feels that it is not enough, although this has not included people from his own group.

He knew how strict the guards were in that place, and it was more than enough to deal with those guards. He wanted to carry out a bigger operation, so he had to wait for everyone to gather.

"Hurry up and let the people from country A quickly come and assemble."

"Yes!"

The man took the list and walked out. Now including the people in their base, there are more than 500 people in total. With such a large number of people, their boss doesn't think it is enough. He doesn't know what to do.

The scholar spent ten years researching from the clues provided by his parents. Now it can be said that the codes he has basically mastered are just not sure whether they are correct or not, but there are three chances, and he already has a model from these concepts. contour.

Three chances should be enough for him. He moved the Rubik's Cube to the side of the cabinet and looked around, and all the walls on the first floor were actually built Rubik's Cubes.

He has made all the preparations for the past ten years, as long as he can enter that place, everything will be fine.

On the other hand, I wish that they also came to the prison where Frank was held. This place is so sparsely populated that vehicles can't reach it. It's not that no one wants to go, but because you have no roads at all. The mountains were blocked by heavy snow many years ago. The road collapsed completely.

This also created a very bad environment in the prison there. The transportation of prisoners is carried out by air, including the supplies there.

Qin Yuan took out a map from more than ten years ago. This prison has a history of nearly 80 years. This map can only be said to be a reference, and there is not even a landmark there.

Everyone walked for four or five hours, then sat next to them and gnawed compressed biscuits. Lao Hei rubbed his sore ankles, "What the **** are these places? Why do such prisons still exist?"

"That place is torture. Although there is no death penalty, don't even think about getting out of it for the rest of your life. You can't even escape from prison."

These people are also vicious enough. They deliberately released fake news to wipe out all Frank's supporters, but what they didn't expect was that Qin Yuan's ability is very strong
