

Special Soldier 1561

Chapter 1561: Hei said it's ok

They were not given this opportunity at all.

Now they are still ambushing heavy soldiers in the previous prison, because they know that these people have the second time after the first time, but Qin Yuan and the others have already come to the real goal.

He was not sure before, but after confirming this time, Qin Yuan planned to sneak in quietly. After all, it was too difficult to sneak in this time. It is not so easy for criminals in this prison to get in.

Everyone stopped and walked like this. After a day and a night, they finally saw the building in front of them.

To get to the prison on the opposite side, you have to cross a bridge over a big river, even Jiu Sixiu has broken.

Qin Yuan and the others were lying in the opposite ravine. It can be said that this place is very desolate. It has been this month and it is still covered by heavy snow. The climate of this place is also very special.

"Instructor, take a look. There are a total of six snipers in front, all in different positions. If we go over now, we will be exposed directly under their noses."

Qin Yuan also saw that, except that the power grid was set up next to the six snipers, it was really not easy to get in.

And this season, because the snow next to it has melted a little, the water in that river has become turbulent.

Lao Hei felt that this was really too difficult. First of all, they didn't have any means of transportation. After they rescued Frank, they could only leave here on foot, and the premise of not being discovered was the premise.

Qin Yuan had another plan, he said that he went in alone to save Frank, he went in to find out the news, and then asked Lao Hei and the others to approach him outside.

He looked around, maybe this river would give them the greatest vitality, and he asked Lao Hei and the others to build a raft on the periphery for several of them to ride together.

Then after he rescued Frank, everyone escaped along the river together. This is the fastest option, otherwise, once their large equipment came out, there would be no chance of escaping at all.

Lao Hei said it was okay. What they were more worried about was that there were not only snipers on the periphery, but also so many security guards. How could he get in?

This prison is leaning against a cliff, and there is only one way to get there, but going from here is like a living target.

Qin Yuan told them not to worry, he had his own way, so he waited until it got dark, but the situation was more serious than they imagined. After dark, the front searchlights were fully turned on, and the light on the road was no different from daytime.

This prison is indeed well-deserved, and the guards are not slack at all. Qin Yuan is lying in the ravine on the river bank. As long as he stands up in this position, he will be spotted by the opposite side immediately.

In this place, he could see the big wolfhound in the opposite wall. If it was surveillance, he could immediately paralyze the surveillance, but so many dogs are indeed troublesome.

There is no way now, this is the only way, he wants to temporarily confuse them after releasing the confusing breath, but the range is too wide, there are many people at the entrance of this prison, he is not sure whether he will clean the snake, so pay attention to safety, the effective way is to pause time.

It's just that now his skill is only valid for three minutes each time he uses it. During these three minutes, he has to rush to the opposite side. According to visual inspection, there is still about 800 meters away

Chapter 1562: What's happening up there?

He had to rush over within three minutes, and then smoothly enter the prison.

The main thing is to pass the river in front of them. The river is very fast now, and Lao Hei who is lying behind them dare not move. Everyone is worried that he will be exposed. This is really too risky.

Qin Yuan made a decision, and then he quickly used the time-pause skill. At the moment of using it, he also started at the same time, and jumped directly into the icy river.

The temperature of this water has no effect on him. He has tried colder than this before, but the temperature here is indeed too low.

If they were Lao Hei, they would not be able to hold on to jumping into this kind of icy river, they would go into shock due to hypothermia, and the width of this river is also very large.

Qin Yuan gritted his teeth and rushed forward. He clearly saw the leader next to him. Now everyone was motionless. He jumped straight onto the iron gate. The power grid next to him did not affect him in any way. .

It's just that when he jumped into this prison, he was instantly dumbfounded. What's going on? Didn't you say that this prison is transparent? Now it's more serious than transparent.

The prison is divided into upper and lower floors, with an iron net tightly separated in the middle, and the prison guards are all standing on the iron net, and the prisoners are just below. It is completely a vast space, and the bottom is separated by plastic panels.

The prison guards stood on the top and could observe everything about the prisoners below, so there was absolutely no chance of doing anything.

As the time passed by every minute and every second, the system also began to count down, and there was only the last 30 seconds left to think, so he quickly jumped onto the iron net, and then turned over. There was no place to hide here.

At this time, Qin Yuan noticed the passage above, but it was very narrow, he had no choice but to quickly hide at the entrance of the passage, not daring to move, as time began to flow as soon as he entered.

After Qin Yuan jumped up, the dogs below also started barking wildly. The prison guards didn't know what happened. After all, the noses of these dogs are not vegetarian. They can definitely smell it from this position. The dogs kept barking towards the pipe.

The dogs in the entire corridor were barking, and Qin Yuan felt something was wrong, after all, the prison guards had already come to check.

At this time, a prison guard walked over from the left side of the passage, with a cigarette dangling from his mouth, "What's it called, didn't you see that it's Lao Tzu?"

But those dogs are still barking non-stop. This warning stands on top to let the people below be optimistic. Why are these dogs suddenly barking like crazy?

"Sir, is there any movement up there?"

"How is it possible? I have been on it all the time, and there is nothing abnormal. It must be something like a mouse."

This is not going to work, Qin Yuan can only stare closely at the dogs below, this prison is even more exaggerated than he imagined, there is no chance to act, so he can only use the method of confusion.

He kept exuding a psychedelic aura in the passage. The prison guards just now were already fascinated by the lake. He could only release the psychedelic aura in this range, and it would be too far to go any further. Fortunately, the dog stopped barking.

He jumped on the iron net and moved carefully, and then observed the prisoners below. At this time, he found Frank. Frank's hands were tied behind his back, and he was hanging from the bottom post.

Didn't expect him to be tortured in this place

Chapter 1563: feeling very tired

Qin Yuan didn't have time to think about it, and walked forward, releasing a psychedelic aura, and soon entered the passage below.

Frank was already in a semi-comatose state. Qin Yuan called him several times before he could react. At this time, his face was covered with scars, and he barely opened his eyes. Seeing that it was Qin Yuan, he thought he was dreaming.

"Wake up!"

Qin Yuan is releasing the charm skill now, so he can't heal him, so he can only put him down first. Frank is seriously injured and can't move. The corners of his mouth twitch and want to speak, but he can't say a word.

Although this prison is very strictly managed, but because it is very wide, these corners cannot be noticed. Qin Yuan took advantage of this loophole and slowly moved out.

Because his time suspension can only be used once at a time, and the second use needs to wait for more than 24 hours, so Qin Yuan once again demonstrated his charm ability, and then led Frank out of the prison swaggeringly.

Lao Hei and the others in the distance have already made the raft, and are anxiously waiting for Qin Yuan and the others. They thought that Qin Yuan would come out in some way, or make some noise inside, and everyone was ready to charge at any time. Prepare.

What they didn't expect was that Qin Yuan walked out with Frank behind his back like that, and they didn't dare to go forward for a while, after all, there was a sniper on the opposite side.

It was not until they were about to reach the river bank that everyone dared to go forward to catch them. At this position, the searchlights could not be illuminated. Now it is pitch black. As long as there is not much movement, they will not be discovered.

Qin Yuan didn't say much, and asked everyone to keep quiet. They quickly boarded the raft and drifted down the river.

Frank's body was very weak, and he was only wearing a thin short-sleeve underneath, and his whole body was shivering from the cold.

Everyone didn't dare to ask more questions. After arriving at a safe place like this, Qin Yuan didn't intend to tell everyone to stop. This place is too dangerous, let's take people out first.

Moreover, Qin Yuan's complexion is not very good at the moment, this time he has used too many skills in a row, which has damaged his mental strength, and he feels very tired now.

And he was still treating Frank beside him, and the wounds on his body were slowly recovering. In the end, Qin Yuan's complexion became worse and worse, because the environment in this place was too harsh, and accidents would easily happen if he didn't save Frank.

It had been a long time since he had continuously used his skills, and he had exhausted himself to this extent. The main reason was that he had been releasing the charm skills just now, and the range of the release was too wide, which had already exceeded his own limit.

After doing all this, Frank has slowly come to his senses, but Qin Yuan's eyelids are getting heavier and heavier, and he urgently needs to rest now.

"Remember not to stop, keep... keep walking forward, after reaching the river bank, follow the route we came, and quickly withdraw..."

After Qin Yuan finished speaking, he closed his eyes and fell directly on the raft. The people next to him were also frightened by the situation. What's going on? Is he injured? But then everyone heard a snoring sound.

Several people didn't know what was going on, but they didn't dare to delay after listening to Qin Yuan's explanation. Frank also knew the seriousness of the matter. This time it was indeed his calculation that was wrong.

He looked at everyone around him, "I really didn't expect that I would hurt myself to such a degree with just a few words."

Chapter 1564: Take refuge in scholars

"Don't think so, now that we have rescued you, we still have hope."

"What about the rest of the school? How's the situation outside now? Who's in charge of the Hunter School?"

Speaking of this, everyone lowered their heads and didn't know how to explain it for a while. Since Frank had been locked up here, he didn't know the situation outside. He was a little anxious and grabbed the secretary.

"What's going on? Tell me quickly, what happened."

The secretary hesitated for a long time. Anyway, he would know when he got out, so he told Frank what happened to the Hunter School. Everyone was gone, and now they were the only ones left in the Hunter School.

Frank couldn't believe it when he heard this, his eyes were red, and a strong sadness poured into his heart, how is this possible? His hard work for so many years was gone in vain.

"Is this true? Why is it like this? They can really be so cruel. The Hunter School has nothing to do with this matter."

"Sir, don't you know their style of work? What they have to do is to kill quickly, and will never let anyone live. At that time, I saw with my own eyes that their school had been moved to the ground, and everyone died on the ground. !"

When Lao Liu said this, his eyes were very sad. Yes, the school that was so brilliant in the past is now gone, and it has been slandered as a criminal group.

Frank clenched his fists. He wished he could fight those ***** now. He slapped himself directly in the face.

"Sir, what are you doing?"

"I think I'm too useless. I should have listened to Qin Yuan in the first place. He told me not to talk about this matter with outsiders. If I had listened to his arrangement, I wouldn't have ended up like this. Those who were killed by me Bros."

Frank really regrets that he has caused himself to be like this now. The secretary kept asking beside him. It seems that Qin Yuan didn't tell them too much news. He shook his head. These things shouldn't put all of them Get involved.

Old Hei and the others quit. After all, they took such a big risk to rescue him. What's going on? It should also be made clear to everyone.

"Principal, now our school has become a pile of ruins. It's killing people, so let's just forget it? What's going on? You should also tell us clearly, we should also have the right to know."

"It's not that I won't tell you, but you can't afford the consequences of this matter. I don't want you to know anymore."

"But we have all come in now, and we already know if we don't want to know."

In the end, Frank had no choice but to tell them the news he knew, including what he had communicated with Qin Yuan before. Everyone was shocked when they heard the news. They didn't expect this matter to be bigger than they imagined.

No wonder Qin Yuan has been advising them that if they want to retreat, they can do it at any time. The forces behind this are not something they can provoke at all, because what they have to face are five countries, and the forces behind the five countries are really terrifying up.

The secretary was hopeful before hearing this, but now his heart is ashamed. This is not something they can do and stop.

"Sir, this is really naive, I think now that we've got you out..."

Chapter 1565: live a good life

"Then it's better to live a good life, we can't control these things."

"What do you mean by this? How can we not control it? Are we just watching those brothers die in vain!"

"But..."

At this time, the sixth child patted them on the shoulder, indicating that they had arrived, and now go out first, and talk about it later, the back is still very dangerous.

Lao Hei put Qin Yuan on his back, and they set off in a hurry like this. After 40 minutes, the prisoner found that the prisoner had disappeared, under the eyes of everyone. After all, the prisoner was tied to a pillar, how could it be possible? gone?

Everyone started to sound the alarm and notified their superiors, but no matter how they searched, the person just disappeared out of thin air.

At this moment, Frank and the others have come to a safe place, and Qin Yuan is still in a state of deep sleep, and he will not wake up until he has fully replenished his energy.

Now that there is a disagreement in the team, Frank feels that he must avenge those brothers. Even if his strength is weak, he still wants to fight back, and will not let those people succeed like this.

But the secretary felt that it was impossible to strike a stone with a pebble. If he thought it was some criminals before, he still had a chance to fight back, but how could it be possible in the face of such a powerful force?

Now Qin Yuan has been in a state of sleep, and everyone has not won the backbone for a while.

"No matter what you say, since you saved me, if you are willing to go with me, then I welcome it. If you don't want to go, I also respect your choice."

"Sir, are you still not clear? This is the last bit of strength of the hunter school. Are you going to let them all die in vain?"

The secretary was very excited at the moment, but after he knew that kind of power, he felt that it was out of reach.

Lao Hei and the others are also very hesitant now. If Qin Yuan was there before, then everything would be fine, but now there is no one who gives advice.

In the end, after arguing and arguing, there was still no result. The secretary could only suggest to wait until Qin Yuan woke up. He didn't know what was going on with him, so he just fell asleep.

Frank didn't say anything more throughout the whole process, because he felt that he was a sinner who killed everyone in the Hunter School, so many innocent lives.

Now he only thinks about revenge, no matter what happens when Qin Yuan wakes up, he must take revenge.

Qin Yuan fell asleep all night after this sleep, and only woke up in the afternoon. He stood up and stretched, and found that everyone was looking at him.

"Instructor Qin, I really admire you. This ability to sleep is too exaggerated. No matter how long you can sleep, you won't wake up."

"No way, I brought him out after all, and I have my own way, but I have to rest well, don't I?"

Speaking of this, Frank still doesn't understand how Qin Yuan got in, but he didn't mention his aptitude for this matter. Everyone knew that he didn't want to talk about it, and he didn't ask any more questions.

Qin Yuan had woken up, and Frank immediately expressed his attitude. He said that now he was going to recruit soldiers on the black market, and he must avenge his brothers.

"Are you in such a hurry? I have advised you before to not be so impulsive, and now I hope you can listen to me."

Chapter 1566: Black Blade's Daughter

"What do you mean? Do you just let it go like this? Are you afraid of it?"

Qin Yuan sneered when he heard this, he was afraid of anything, he never knew how to write about fear.

Of course he has his own ideas, as Frank said just now, he is going to recruit soldiers on the black market, the people he recruited from the black market are not reliable at all, they are completely disorganized, and they all run away when they fight. Sometimes it will be buckled with a bigger hat.

Frank listened to Qin Yuan's analysis and fell into despair. This won't work, and that won't work, so what should we do?

Qin Yuan told him not to worry, of course he has a way, his way is to find the scholars now, and then join their organization.

Everyone was shocked when they heard this. What is the solution? Doesn't that make them join a criminal organization?

Qin Yuan felt that this was not to let them really join the criminal organization, but a strategy. If those guys really had the code in their hands and had such a strong military force, it would be better to use them to get the weapons first.

Frank objected on the spot. He felt that the scholar was too mysterious, and with so many powers under him, they might be directly used as cannon fodder after entering.

"You know how important that destructive weapon is. If we join them, isn't that helping them?"

This time *M Zhang Si. "Don't worry about this. We are just a strategy. We can use them. After we actually enter there, I will certainly have a way to get that weapon back. You can completely trust me."

Frank hesitated for a long time. He looked at the people around him, and everyone was thinking. After all, there is no better way now. After such an analysis, it seems that what Qin Yuan said is very reasonable.

"I don't force everyone, but think about how we fight with these few people at the moment? They have the power behind five countries, but the scholar is different. This guy has been preparing for ten years."

The secretary who had been silent just now stood up suddenly. He expressed that he agreed with Qin Yuan's statement. When the others saw that the secretary had also expressed his opinion, they stood up one after another.

In the end, everyone still chose to follow Qin Yuan's statement, but the key to the problem now is where to find a scholar. This guy could not be found before them, let alone now.

"We can pass Hei Feng. If I remember correctly, you said that Hei Feng's daughter was in urgent need of a surgery fee, and that's why he betrayed the organization."

Qin Yuan's solution is to go to their previous address now. After going there, he has a way to find Hei Feng. He can find the scholar indirectly through this guy. Now it can be said that the scholar may also be waiting for them.

Strong reading sacrifice. Although everyone didn't know what Qin Yuan would do, he had given everyone too many surprises along the way.

According to the address found earlier, the secretary took Qin Yuan to the place where Hei Feng's family lived before.

He pointed to the independent small building in front, "We have sent people to search for that place before, and the building has already been emptied. It seems that no one is doing it now."

Never expected that the corner of Qin Yuan's mouth rose, he just left a word indifferently, and then walked forward.

Control the big and the owl. "Let's go, everyone, the guests are already waiting in front."

Chapter 1567: we are going into the mountains

What does it mean? Everyone was at a loss and could only follow Qin Yuan towards the front. They entered the small building smoothly, and as soon as they got to the second floor, they saw a person sitting on a chair, which was Hei Feng.

Frank was very angry the moment he saw Hei Feng, it was all because of this traitor, and it was all because of him from the beginning.

Although this matter has little to do with him, it is mainly because of the huge organizations behind it, but at Hunter School, he cannot accept betrayal.

"You bastard, you still have the face to appear here!"

"You are really too slow. My husband has been waiting for a long time. I thought he was lying to me. I didn't expect that you would really come here."

What Qin Yuan said before was correct, and the scholar had already guessed that if Frank and the others had a chance to escape, they would definitely come to Hei Feng, and through Hei Feng they could find the scholar.

Qin Yuan pulled the excited Frank, now is not the time to talk about these things, things have already happened, they can only find ways to make things better or solve them. strong reading

Hei Feng was full of disdain, "Forget it, I don't want to talk so much with you, after all, it's my husband's order, I'll take you there."

"You're a running dog, and you're ashamed to pretend in front of us."

Hei Feng dismissed these words at all. After they went downstairs, they saw a few cars parked at the door. Before they had a discussion, Qin Yuan walked in first. The others had no choice but to follow after seeing them. .

Frank lowered his voice in the car, and he looked at the other car on the black front.

"Should we just go with him like this? I always feel that something is wrong. I thought you have some way. Will there be any danger if we go there now?"

"Frank, Colonel, don't be so nervous. Relax. Besides, you are a wanted criminal now. It will be very good for you if we can join them."

"Qin Yuan, don't make fun of me. Now it's not my life alone, it's everyone's."

Seeing Qin Yuan's indifferent attitude, and dozing off on the back seat with his arms folded, Frank had no choice but to keep everyone on guard.

In this way, the vehicle drove from daytime to night and detoured into several small roads. The road was very bumpy and finally stopped.

Everyone was a bit confused, it can be said that they had been in the car for a whole day, after getting out of the car, they started to pack their equipment, Hei Feng walked over from the car in front, and then threw a bag of things.

"This is the supply for these two days, you have to follow up, we are going into the mountains."

"What the **** are you doing? Where the **** are we going now?"

Faced with Frank's question, Hei Feng ignored it, and just turned around and left with the team. He forgot that he is no longer the principal of the Hunter School, and to Hei Feng, he is indeed a non-threatening figure. control big owls

Qin Yuan took the backpack and looked inside, there were several bottles of fresh water and some compressed biscuits.

Next, it seems that these things should be prepared after a long journey, and he said that the place should be far away in the past two days. No wonder they couldn't find these people before. The hiding is too deep. For a long time, I still need to walk.

They didn't use any transportation equipment, so they couldn't find any traces. This scholar is really not simple, and his ideas are exactly the same as Qin Yuan's. Now everyone is just using each other.

Chapter 1568: 1 twists and turns

Hei Feng's attitude was very indifferent. When he walked halfway, Frank didn't want to care about it. He just wanted to ask an answer. Did Hei Feng choose to rebel because of economic reasons halfway, or was he the one from the beginning? flag?

But for Frank's questioning, Hei Feng did not answer. He was very indifferent along the way, and chose to walk in the front, leaving Frank and the others behind.

Frank didn't bother to worry about even hitting a wall a few times. Now that there are only a few of them left in the Hunter School, what's the point of worrying about those.

At this time, Lao Hei walked up to Qin Yuan, pointed to the people behind Hei Feng and said, "I didn't expect them to be so complicated. Look at those people, I knew them all from the Alpha commando team. According to me As you know, the one above is still a lieutenant colonel."

"Before I suspected that they had lurked in various mercenary groups and special schools like this. This is the revenge that the scholar has prepared for ten years."

"I can only say that the hiding is too deep. For ten years, aren't they afraid of someone's betrayal?"

This is indeed what Frank is thinking about, because the time is too long, and even he can't guarantee that someone in his team will be loyal to one person for ten years.

"I guess that scholar is very rich and has given them a lot of benefits. Otherwise, how could so many people follow him? That guy should have inherited a lot of inheritance after his parents died."

However, the secretary raised objections. According to his investigation, only from the scholar's home, after the death of his parents and younger sister, the local government purchased their real estate out of nowhere.

Hearing this, the sixth child couldn't help complaining, this is really black and white, and no child will be spared. At that time, he was only a student who graduated from middle school. He couldn't do anything. No wonder he planned revenge for so long. And at that time, his strength was too weak.

The sixth child also gradually felt that Qin Yuan's statement was correct, and that he might really want to cooperate with them. Maybe the scholar was not necessarily wrong.

Everyone stopped and walked along the way. At this time, the sun was about to set, and Hei Feng standing in front waved at the team behind.

"Okay, let's go here today, what are we doing here first? It's not safe in the mountains at night, and the target is easily exposed. Remember not to start a fire."

This is not a problem, but the climate here is really special. Fortunately, when it was just dark, everyone ate some compressed biscuits, drank some water, and leaned against the tree trunk next to them to prepare for rest.

As time got later and later, the temperature in the forest suddenly dropped. It should have been fourteen or five degrees before, but now it should only be two or three degrees.

Qin Yuan has super skin, so he didn't feel anything, and slept very comfortably next to him. Old Hei was already shivering from the cold, and he couldn't help moving his body when he stood up, his hands were already frozen.

"What's the situation when I went to the instructor? Why did he fall asleep again? Is he not cold?"

Just as Lao Hei spoke, Hei Feng on the opposite side came over. He couldn't see Hei Feng's eyes in the darkness, but he could feel his aura.

"Sit down, don't talk nonsense, always stay, don't move around, don't cause trouble for us."

Hearing this, Old Hei's tantrum couldn't bear it, he stepped forward and grabbed Hei Feng's collar, is this kid just looking for teasing?

Chapter 1569: the temperature is getting lower and lower

"Let me tell you, so far no one has dared to speak to me like this except our instructors. If I am not convinced, don't try to impose any orders on me."

"Hehe, I admired you a lot before. I thought your team was very powerful. It seems that you are just a guy with a simple mind and well-developed limbs. As a basic special operations team member, don't you even know the basics?"

Just as the two were arguing, there was a rumbling sound, and Hei Feng's expression changed, and he quickly pressed him to keep him still.

A few minutes later, a helicopter whizzed past their heads. It was too dark in the jungle, and they couldn't see the signs clearly. At this time, Qin Yuan, who was sleeping next to him, said something silently.

"Don't look at it, the military Type 99 aircraft is armed with a helicopter!"

Everyone turned their heads in surprise when they heard this, how did he see it, Qin Yuan actually didn't look at it at all, just relying on the sound.

Hei Feng also acquiesced, because they have been being scouted by this kind of helicopter recently, and after confirming that the helicopter has completely left, Hei Feng pushed Old Hei away, telling him to stay calm, and it is best not to make any noise.

Then he was about to turn around and leave, Frank stood up, he was somewhat displeased with Hei Feng's behavior.

"No matter what, you were all from the Hunter School before. Although you rebelled, you were also from the Hunter School before."

"Hehe, don't speak so harshly, don't talk about betrayal, I have never been loyal to the Hunter School from the beginning to the end, it is just a place for me to learn."

These words have confirmed that Hei Feng did not rebel halfway, he is a **** arranged by the scholar in the hunter school, so how big should this fight be?

Because Hei Feng came to Hunter School three years ago, he had to go through layers of screening and training, which is really unimaginable.

Hei Feng snorted coldly, and looked at Frank, "The person who is the least qualified to accuse me now is you, you are a murderer, you really think you are so noble, and you have killed so many people, you must know that all of this is Thanks to you, you almost ruined our husband's plans."

"You! You bastard..."

Frank opened his mouth to argue, but felt that what he said was indeed reasonable. There were so many people in the Hunter School because of him. He was too careless, and he underestimated the viciousness of these people.

It's just that from Hei Feng's words, it's not hard to see that he is very loyal to that scholar, protecting him everywhere.

With the gunship passing by just now, Lao Hei didn't say anything in the middle of the night. As a special operator, he also understood that now is not the time to make trouble.

It's just that the temperature is getting lower and lower in the back, and there is still dew in the morning, and everyone is already a little wet.

But it was nothing, they had also received this kind of training in the Hunter School, just before dawn, everyone got up, and Hei Feng led them on their way.

After walking for more than three hours, he let everyone sit down and rest for a while. Qin Yuan has been observing Hei Feng, and he has never used the map from the beginning to the end.

How on earth did this guy remember? Or was there some special marking among them that made him recognize the signposts?

You must know that the inside of the forest is no easier to remember than the roads outside or some highlands, but the various scenes in the forest are too similar.

Chapter 1570: The journey is too far

As he observed, he found that every time Hei Feng walked a certain distance, he would look at the flocks of birds on the trees in front of him from time to time. In this forest, flocks of birds are really very common.

He seemed to use the flock of birds to determine the direction. Qin Yuan was also very curious. Hei Feng stepped forward and asked directly. group to determine direction.

The two of them talked back and forth like this, and Hei Feng didn't have as much hostility towards Qin Yuan as before, everything was in his plan.

At that time, he just wanted to stimulate Qin Yuan and let him leave quickly, because it was not in their husband's plan, and he was worried that this person would disturb his plan in school.

Because this person is too powerful, he must get rid of this person as soon as possible in order to implement his other plans. The so-called training team he formed is also an undercover agent placed by the former scholar in the hunter school.

Before he said anything, Qin Yuan had already revealed all their previous plans, which surprised Hei Feng a little.

Sure enough, this person is really too smart, the decision he made at that time was correct, and Qin Yuan will definitely stop him if he finds any clues.

"If it weren't for these things, we might really become good friends. I am the first to recognize your ability. You are very strong, and I admire it."

"I didn't notice at the time that you were deliberately provoking me. It seems that your acting skills are too good."

Hei Feng just smiled. To be honest, without these things, he and Qin Yuan might become very good friends. This person is very much to his liking.

Everyone has been on the road non-stop, resting for a while, eating something, and then continuing to walk, amidst the slow loud noises, it seems that there is no end in sight.

Old Hei is a little impetuous. He said before that the training journey is farther than this, but now there is no goal, which makes him feel that it is nowhere in sight.

"Hey, I said what the **** are you doing? How long do we have to go before we reach our destination?"

Because of thinking about Qin Yuan's relationship, Hei Feng was not as indifferent as before, "After climbing over these two mountains and crossing a canyon, we will be almost there."

This is really too far, but at any rate everyone knows it, the destination didn't say anything, and they are still burying their heads on the road. Although it sounds easy and they have climbed over two mountains, the distance is too far. Live in the mountains.

It was not until the afternoon of the second day that they reached the canyon that Hei Feng had mentioned. It was a desolate place with a tall canyon towering in front of it.

In this scene, there was no sign of human habitation at all. Under the leadership of Hei Feng, everyone passed through the canyon, but there was a cliff behind the canyon. Wasn't there no way?

Standing on the cliff, Lao Hei was a little annoyed, he was playing tricks on them, "Hey, boy, what's going on with you? You should find a way out for me."

Hei Feng ignored him, but slowly straightened his backpack, and then took out a nylon rope.

"Let's go down from here together."

Old Hei just thought he was crazy, the canyon was so high, just relying on this rope, he was looking for death.

But Hei Feng had already buckled the rope to the side wall first, and jumped down with a single leap, which was simply crazy.
