

Special Soldier 1571

Chapter 1571: children playing around

It's just playing with your life.

Hei Feng had already jumped down, and the people he led also started to adjust the rope according to his method.

Qin Yuan stepped forward and patted him, "Okay, people didn't say that much, let's go."

Lao Hei also felt that they were not afraid of what he was afraid of, so everyone followed Hei Feng's footsteps and slowly descended into the canyon. Below the canyon was a river valley.

It's just that it's not the rainy season, and the surrounding area is completely dry. They stepped on the stone bed and headed towards the dark ravine.

Passing through this gully, the front suddenly opened up, and some faint buildings were already seen, but this building was bigger than imagined, and Frank couldn't help but sigh, how many people did this guy gather?

And that's only part of it, the top has been completely covered by a high canyon, it's a natural shelter, and there's a wide cave in front of it, so it doesn't look like how many people there are?

When Hei Feng and the others arrived at the entrance, there were heavy soldiers here, asking them to hand in their weapons first, which was expected, and everyone continued to walk forward after handing in their weapons.

After entering, everyone was shocked by the scene in front of them. It was not a crude base, but like a small market. There were even many people living here. Before Frank felt that according to the character of a scholar, he gathered so many people should be some mercenaries.

But now it is as eye-catching as a paradise, there are children playing around, there are meals next to them, those women are choosing their favorite gifts, and children are running around.

The gap between this and what they had imagined was too great, Hei Feng looked at their shocked expressions with pride on his face.

"Did you see it? This is what my husband provided us. In this place, we don't have to think so much. We are guaranteed before and after."

The people on the street also warmly greeted Hei Feng. The situation here was a bit different from what they had imagined. These people didn't seem to be preparing for a big war at all.

The people here are completely isolated, some are different, and the buildings are similar, basically they are tall buildings made of wooden materials.

In a tall turret building in front, Hei Feng asked them to wait here first, and he wanted to go in to report.

And this is just a headquarters base arranged by the scholar, he also has other branch bases.

The purpose was to accommodate more people. After a while, the scholar came out of the Gaoqiao Building. This person was not much different from him before. He still wore a pair of glasses and looked refined.

With his attire, it's hard to associate him with that kind of serious criminal.

He looked at the children frolicking around with a smile, and when they saw him, they surrounded him one after another. He grabbed some candies from his pocket and distributed them to the children.

He looked at those children with compassion in their eyes, just like his own children. Everyone on the street turned to greet him and supported him vigorously.

A child ran over to get candy in a hurry, and accidentally fell down. He walked over and carefully picked up the child, and gently patted the dirt on the child.

"Don't worry, I still have a lot here."

The child looked at him with an innocent smile, without the slightest fear.

Chapter 1572: A different kind of scholar

The performance of the children is the most authentic. These children are not afraid of him at all, which shows that his usual state is also like this.

He walked over amidst the support of those civilians, and the moment he saw Qin Yuan, he stretched out his hand proactively.

"I really didn't expect that I was lucky enough to invite you here, but we are a gathering of smart people after all. I know you are smart, so I chose to join me."

"I'm coming, isn't this what you expected? You have to engage in such a big fight. To be honest, I admire you a lot. I don't know how you did it."

The scholar smiled, adjusted his glasses, and made a gesture of invitation, inviting them to the tall building inside.

The inside of the room was tidy and tidy. Although it was relatively simple and there was no high-end furniture, of course it looked very comfortable. On the wooden table in front was a large group photo of the scholar and the mercenaries.

Qin Yuan noticed that the person in the lower left corner was Hei Feng. The scholar asked everyone to sit down freely, and he sat in front and made tea for everyone.

Frank had many questions. He didn't know what tricks this man was playing. Is he really a scholar? Why such a big contrast?

He couldn't wait for the other party to make tea slowly, and couldn't wait to ask, "All this is too unreal, are you really that scholar?"

"Mr. Frank, seeing is believing, don't you believe it? There is a saying in Yanguo that it is a great pleasure to have friends coming from afar. Don't worry, everyone. Let's have a cup of tea first, and let's talk slowly."

Frank went to school to see what this guy could do. After drinking tea, the scholar led them around to the back of Gaoqiao Building.

It is different from the bustle of the market in front, but it is also a little surprising, because in the cave behind it is a large military production base, and the people inside are producing military weapons and ammunition in an orderly manner.

The scholar walked in and took out a grenade from the ammunition box.

"See? Just this little thing, they sell it for \$1,000 on the black market, but here I can make it all myself."

Speaking of this, he is still a little proud. Over the years, he has not only paid attention to these, because ability is also part of it. On the other hand, he has not let go of scientific and technological talents.

Many people produced in this cave are scientific and technological talents from various places. It is an exaggeration to say that these people are willing to become a member of his organization.

There are quite a few professors, scholars, and even scientific researchers inside. Under the leadership of the scholar, everyone followed him to visit the military base.

The scale inside can even be said to be better than the outside. Every step of them is very standardized, and the things they produce are also very precise, which has reached the military level.

This kind of folk production level can be compared with the productivity of a country. It is really surprising that there is such a military base hidden in this small cave.

The backside of the scholar was really not simple, and then they followed the scholar to the back. In addition to these necessary things for military production, they were self-sufficient, with chickens and ducks in the back, and some rice fields.

When the commoners saw the scholar, they greeted him proactively. Everyone had smiles on their faces, very happy.

Chapter 1573: 1 to work in the field

Seeing this, Frank couldn't help asking: "Why do you still need to grow your own food? According to the fact that you have gathered so many people, shouldn't your economic strength be very strong?"

"Mr. Frank, I think you really misunderstood me. I'm not as rich as you imagined. So many people need to be supported. I can't afford so much money. Everyone is self-sufficient."

Hei Feng also had an adoring look on his face, for him, the scholar is his idol, and he explained that these civilians are all their family members.

The reason why they were able to treat the scholars so faithfully was because the scholars had promised them at the very beginning that they would definitely protect the safety of their families, which cannot be guaranteed anywhere.

A more important reason is that almost all the people here are refugees left after the catastrophe ten years ago.

Including Hei Feng, who had just joined the army at that time, didn't know anything, and received the news of his parents' accidental death in a daze.

In fact, these were not accidents, all of them were caused by those people. Looking at the astonishing number, Frank couldn't imagine how many people these people killed ten years ago. All the people who knew anything about this matter would be killed. Killed, none of the researchers inside was spared.

As for the fact that they survived by chance at that time, it was just to cover up people's eyes and ears, so as not to let them create the illusion of killing people, and at that time they were sure that Frank and the others did not know anything.

So from that time on, the scholar led these people, he gave these people a guarantee, no matter what, he would guarantee the safety of these people, and Sheng's parents also anticipated all this very early on.

It's just that I didn't expect it to come so soon. They did leave some meaningful funds for the scholar, and he took this fund to help these refugees.

Then slowly this base grew bigger and bigger, he allowed everyone to bring their families here, not only for protection, but also for them to live carefree and free from outside interference , under such generous conditions, so of course everyone will be loyal to him.

The scholar was very proud when he said this. At this time, he actually went down to help the farmer next to him. Qin Yuan noticed that the farmer had only one leg, and the other leg had a cane, and he was still struggling to push the cart.

The farmer thanked him again and again, and the smile on his face couldn't stop, "What are you still doing in a daze? Hurry up and help, I don't support idlers here."

Hearing what the scholar said, everyone looked like cats, but when they saw him beckoning, even Hei Feng, who was next to him, went down to the field to work with everyone. They didn't say anything, and went to work together in the field.

"Everyone here has to rely on their own hands to obtain value, so I will not be limited to them. They can leave voluntarily and at any time. I have no restrictions on them."

"I'm curious, with so many people, can you manage them with this method?"

Frank was a little confused. At first he thought it must be bought with money, but it didn't look like this.

This is actually very understandable. After all, the safety of family members is the most important thing, and everyone has experienced the pain of losing family members.

Chapter 1574: really carefree

In addition, they all have a common purpose, which is to seek revenge from those people. Their strength is very weak, but when they gather together, they will become infinitely powerful.

And the scholar in front of him looks like a philanthropist. From the beginning until now, he has always given people an image that he is helping them, not deliberately leading them together.

Qin Yuan admired the person in front of him more and more. This guy can be said to be a strong opponent. His mind is really strong, and it is easy to grasp people's psychology.

The scholar explained while working, "This uncle was a victim back then. He lost his leg and survived by chance. So tell me how serious these people's evil deeds are. They can even kill civilians."

Frank was also thoughtful. The behavior of the people around him didn't look like it was staged, but we still had to watch it.

Qin Yuan got straight to the point and asked him when he planned to act. The scholar said that there are still some people gathered here, as long as all the weapons in his military factory are assembled and all the weapons in his military factory are produced, then he can act.

"Then I have another question, which is very curious. If you already know the inside so well, you should know that there is a protection device. Do you know the password inside?"

The scholar smiled evilly, "I don't think it's appropriate to talk about this matter now. Since you have decided to join me, follow me. I will definitely tell you about some things when the time comes."

This guy is also playing tricks. Looking at his appearance, Qin Yuan guessed that he should know the password to some extent, so that he can also be confident. When the time comes, as long as he enters the password, the weapon will be his own.

It is safest to leave it in his hands. As for the scholar in front of him, although he seems completely harmless, he is still worried.

The scholars here warmly entertained them, everyone was cheering, and a grand bonfire party was held at night. The sixth child and the villagers danced around the fire. They hadn't felt such a relaxing atmosphere for a long time.

Frank was a little lost in the glass of wine, he was a little dazed, and he didn't know why the hunter school he had worked so hard to establish was destroyed inexplicably.

To be honest, it might be better in this place, at least there is no need to consider those messy things here, people here really live a carefree life.

He raised his head and drank all the wine in the glass. At this time, the scholar came over and poured him another glass of wine.

"How about it? This is our own wine, is it better than the expensive wine you bought outside?"

"It really surprised me to see you this time. I thought the scholar we were looking for was a vicious criminal, but you are very different from what I imagined."

"Hahaha, I didn't expect that I still have this image, so do you think I am a good person or a bad person now?"

Frank has no way to define it, but he hesitated, which means that the balance has been broken. It would be wrong to say that the scholar is an absolutely good person. He has organized many riots in recent years and caused some great losses.

If he is not a good person, he really saved so many civilians.

Chapter 1575: Sitting on the ridge in a daze

The families of these civilians are well protected.

The scholar didn't care too much. Everyone just danced and drank like this. Qin Yuan kept his vigilance. He was a little suspicious of the scholar. His truest self.

At this time, Hei Feng and the others took turns to toast Qin Yuan. In fact, it could be seen that they wanted Qin Yuan to integrate into this place as soon as possible. Anyway, they also acted with them, so they became brothers and sisters.

When Lao Hei woke up the next morning, he saw that Qin Yuan was already making the bed. This was his habit for many years. No matter how excited he was last night, his biological clock was so punctual.

"Instructor, there is no need for you, right? After all, there are not so many restrictions in this place, so you don't have to wake up so early."

"This is different. This is my requirement and condition for myself. You don't have to worry about it. I have very strict requirements for myself."

At this time, someone knocked on the door, allowing them to go to have breakfast, and the days passed quietly like this. They were really carefree in this place, everyone was very happy, and they had nothing to compete for.

Everyone stayed here for four or five days, and the sixth child has fully integrated into it. From the very beginning, they doubted Qin Yuan's decision to now they have absolutely supported the scholar.

"I think we should follow him. Anyway, those guys won't let go. We happen to avenge our brothers. I think it's good for everyone to live together in this place."

"I also agree with this statement. The Hunter School no longer exists. If you succeed in fighting with him for the last time, then we will come back and continue drinking together. If you fail, then go down to accompany your brother."

"And we had too many misunderstandings about the scholar before. I think he is really a good person here, and his decision-making is very correct."

Qin Yuan originally wanted to remind them, but seeing that their expressions had gradually turned into admiration, he knew that the guy's brainwashing mode was too exaggerated.

He didn't say anything. Frank kept his mind clear just like him. They were all leaders who had seen big winds and waves. Of course, they would not be covered up by these superficial things.

In the afternoon, Qin Yuan was sitting on the ridge in a daze, thinking, when Frank came over.

"Well? Can we talk now? I think you might be the more sane one of us."

"To be precise, it should be the two of us, but we can't blame them. They haven't made too many decisions, and they can't see through people. The scholar hides too deeply."

"Then what do you think now? Shall we continue to stay here? I'm worried that they will all be instigated."

At this time, Qin Yuan suddenly couldn't stand up, and then went directly to the field, and started to pick up the hoe. Frank was puzzled, what was this guy doing, and he was talking about important things with him.

After he walked over, Qin Yuan directly threw a basket to him, "There is a person watching us at nine o'clock, don't talk nonsense, there are people watching here, I know what you mean."

Frank immediately understood. He knew that Qin Yuan's vigilance was the highest. They slowly moved away and walked to the ravine below. After all, they were on their territory now, so they had to be more careful in what they said and did.

Chapter 1576: different options

Just as the two of them went down, Qin Yuan looked around to make sure there was no one else.

"This time, I really miscalculated. At first, I felt a little hopeful that we could take advantage of this opportunity to achieve a win-win situation. We can get revenge again, and then I can get that weapon again."

"I don't blame you for this matter. It's because their willpower is too weak. They haven't experienced so many things, and it's easy for them to have a sense of trust in others. I don't know why I can't trust this person. in that way."

Qin Yuan originally wanted to get close to the scholar several times, then touch him and invade his consciousness, but this guy always avoided him consciously or subconsciously. The first time they had close contact was when they first came. one hand.

There will be no more chances in the future, this guy seems to be very busy, and no matter what, there are always many people around him, and it is not easy for him to start.

Although he didn't know his situation in detail, Qin Yuan always felt that this person was not that simple, so he kept himself vigilant.

Frank asked while shoveling dirt into the basket, "Then what should we do now? We can't just watch them become like this."

"Now I can only say don't worry about it, let's talk about it after I get out. Now you care about it, but they don't appreciate it."

How did Frank think this was possible? These are the last hopes of the Hunter School, how could he be ignored, but he still has one hope, that is to restore the Hunter School, and he will also bring justice to the Hunter School.

According to the current situation, the few of them no longer have this kind of thinking. Old Hei only wants to return after the war and live here all the time. Their thinking is too simple, and they have been deceived by the surface.

When Frank was still about to ask, a figure came out from behind him.

Unexpectedly, the person who came was the secretary, and Frank couldn't control that much. This secretary has been with him for many years, so no matter what, he must advise.

"It just so happens that you are here, I have something to ask you, what are you thinking now?"

"Huh? Don't know what you mean, but what are you two doing here?"

Unexpectedly, the secretary has already begun to change. He respected Frank very much before, but now he started to question Frank.

Qin Yuan winked at him, don't say any more now, besides, it is easy for the scholar to divert his attention to them.

In the end, the two had no choice but to continue working, and they returned to the top like this. After going up, they still saw the thriving scene. This kind of scene is really easy to get lost.

In this place, except for the well-trained soldiers, most of the civilians lived a peaceful life, and Old Hei and the others quickly integrated.

Qin Yuan and Frank are still persevering and training every day, but they haven't seen Lao Hei for a long time, and they can still see Lao Liu and the others at first, but they gradually disappear.

Frank was a little angry. He said before that as a special operator, he must not be lazy, he must not have any lazy thoughts, and he must receive training every day.

The sixth child and the others still listened to his persuasion, and got up for training after being told, but Frank had no choice but to look for Lao Hei.

When I found it, Lao Hei was inside a tavern

Chapter 1577: Who are you now?

Drinking with the local civilians, the whole person was so dizzy that he even threw the guns he carried on the cabinet at random.

Since they were born after confirming their relationship, they have not been forced to ask them, and the weapons have been returned to them, which looks very good.

But these guys don't cherish it at all, just like Lao Hei at this time, as a special operator, he can put guns anywhere else at will, which is very dangerous if someone else gets it.

Frank stepped forward and kicked Lao Hei. He was beaten for no reason. When he turned his head and saw that it was Frank, he couldn't help feeling angry.

"Look at your appearance, are you still a soldier now? How do you hold a gun when you drink like this? And how many times have I said before, I will hold the gun for me even when I sleep, and the gun will never leave my body!"

Obviously, Old Hei didn't take this to heart at all, and he looked at Frank with disdain.

Because he felt that Frank was not qualified to manage him now. He was indeed the principal of the Hunter School before, but now that the Hunter School no longer exists, what qualifications does he have to come here to teach himself?

In addition, whether to train or not, this is also my own business. This guy is here all day long, and he really regards himself as the boss. The old man Qin Yuan didn't say anything.

The civilian next to him looked at Frank with a strange look on his face, so let him go to training quickly, so as not to delay other things.

"It's okay, brothers, let's continue to drink, you continue to talk, how is the girl in the back?"

He completely ignored Frank, he was a little angry, and was about to drag him outside as soon as he dragged him. At this moment, Old Hei was drunk and his body was shaking a little. He barely stood up, and then stared at Frank viciously.

"Get me to the training ground right now, and according to your current performance, 500 push-ups, get ready!"

"Come on, who are you now? You also take care of me. Don't forget that you are the real murderer of Haojie. If you didn't say that, would they become like that?"

This guy didn't know if he had drunk too much, or if he just told the truth. What he said was indeed reasonable. Frank had blamed himself for this matter before, and now he felt even more emboldened when he was told this.

He clenched his fists tightly and could only release them slowly. Yes, he is really a sinner. Why should he impose these things on others?

All of this was caused by him, he looked at Lao Hei and shook his head in disappointment, "Yes, I am indeed a sinner, but I am making amends now, people must at least have a conscience, I hope you can listen to what I said, Of course, if you don't listen to it, forget it."

Then he turned around and left, he can't say anything now, the biggest culprit is him, he can just take care of himself now, he really has no ability to take care of others.

Not long after he left, the figure of the scholar appeared at the back of the tavern, and he walked in after a while. Old Hei lost his mind for a moment because of Frank's trouble just now, thinking that he might as well go to the training ground .

As soon as Lao Hei was about to go to the training ground, he was stopped by the scholar, "Brother, you haven't had enough wine yet, where are you going?"

"Forget it, I still have to go to training if I don't drink, after all, I don't know when I will play."

Chapter 1578: Speaking of which

"It's okay. The most important thing we don't pay attention to here is the rules. Besides, your skill is so powerful. I saw all the indicators that day. It's really good. Just relax for a few days."

Old Hei couldn't stand being praised in the first place, and when he said this, he felt complacent for a moment, and got the scholar's approval.

In addition, the scholar was surrounded by a few beautiful women, and all of them walked over with wine glasses, and Old Hei couldn't resist the temptation, so he followed them into the private room, and after drinking a few glasses of wine, he was born, looked at Old Hei with a full face of emotion.

"Brother, I really think you are very capable, but it's a pity that you are not the captain of your team."

This sentence also touched on Lao Hei's pain point. He wanted to be the captain before, but because of his reckless actions, he couldn't help it. Although he is his brother now, he still feels a little bit unconvinced.

Then he was said by the scholar again, and he felt that he had found a sympathy, and began to talk about his own affairs as if the scholar was a confidant.

The scholar next to him hid it very well, without revealing any flaws. He listened patiently to what he said before, and after listening to it, he showed a very surprised expression. He thought it was incredible. A person with ability should not make a small mistake, so let's just deny it.

Old Hei felt that the scholar was the one who really understood him. He stood up and toasted quickly, thinking that he should have met the scholar earlier.

In this way, the two chatted a few more words, and under the constant flattery of the scholar, Lao Hei was also a little smug.

"Brother, I really feel it's unfair for you! How about it! Are you willing to join my team? I'll give you the position of captain, and when the time comes, all the hundred or so people will obey you Command, let you manage."

Old Hei's eyes lit up when he heard this. This is what he dreamed of. Before, he was aggrieved enough to be the team leader. He wanted to be the captain but he didn't, and it became a joke for everyone. Now let him take a hundred There are many people, that is too majestic.

He couldn't believe it, but the scholar was sure again and again, and he was very sure that it was because of his ability that he gave him this opportunity. I hope he can grasp it well.

People have talked about this, and he would feel a little sorry for refusing, and besides, he never thought of refusing, and agreed without hesitation.

The scholar was also very happy, and immediately brought him a uniform for him to prepare to change later, and then started training with his own people.

The beautiful woman next to him also came over with a wine glass and kept leaning on him, "Brother, you are really amazing, you are really a great hero in our hearts."

Amid such continuous flattery, Lao Hei completely lost himself, he felt that this was the life he really wanted, and the scholar knew him best.

In this way, Lao Hei didn't go there for training on the second day and the third day. Qin Yuan felt a little strange. He didn't want to care about it before, but now he feels that there is something wrong if he doesn't care anymore.

It happened that everyone was talking about Lao Hei and came in. Qin Yuan quickly stopped him and asked him what was going on during this time, but he did not expect that Lao Hei's attitude was completely different from before.

"Everyone, sorry, my identity will be different from now on"

Chapter 1579: He was a sinner from beginning to end

Of course I can't live with you ordinary people, I'm moving somewhere else. "

Afterwards, two civilians came in to help him pack his luggage. Everyone looked confused. What's going on?

Lao Liu stepped forward to question on the spot, but he pushed Lao Liu away, thinking that this guy was meddling in his own business.

"What are you doing? I'm your captain. Why don't I know where you are going? Now, as a team member, you should obey orders."

"Hahaha, what a big joke, whoever said that you are still the captain, from the moment the other school disappeared, we have nothing to do with each other, it's all voluntary."

But it has completely changed, he has put on a brand new uniform now, with a smug expression on his face, just like that, he walked out swaggeringly in the eyes of everyone.

The sixth child felt that this could not happen to his brother, so he wanted to catch up and ask for a result, but Qin Yuan next to him stopped him, because it didn't make any sense, and you couldn't keep anyone who wanted to leave.

But Lao Liu didn't believe in this evil, no matter what, he wanted to chase him back, so Lao Liu ran out like this, Qin Yuan felt that it was useless, as expected, when he came back he pulled his face together, it seemed difficult to accept.

The sixth son and the others are just a little lazy recently, but in fact the essence is still preserved. They also have the same idea as Frank. They must avenge those brothers and restore the truth of the matter.

At this time, the secretary also stood up and began to pack his things. The sixth child rushed forward to question him.

"Why are you even going to betray us? What happened to all of you? Well, what do you want? Who else wants to betray now? Everyone stand up."

"It's not right for you to say that. There is no betrayal at all. Besides, don't we fight together now?"

This is completely different. The sixth child was a little anxious. He looked at Frank, and now Frank didn't care at all. He was stimulated by what Old Hei said, and he was a sinner from the beginning to the end.

Qin Yuan felt that he didn't need so many people, he could solve the problem by himself, and save a lot of trouble, besides, these were their own choices, everyone was an adult, and they had to do it for them. Pay for your choices.

After the secretary left, the sixth child kicked on the bed in frustration. He looked at the voices of the other brothers behind him and asked if anyone else wanted to leave. If he wanted to leave, let's go together today. .

Hawkeye immediately stood up and said that it was absolutely impossible. They had already made an oath before, and they must avenge those brothers. How could they break their promise?

Qin Yuan seems to have seen their results, and now it looks really good, very beautiful, but how could the guy have such a good thing to let them play.

So the scholar's move was really annoying, and he directly disintegrated them from the inside. Now Lao Hei has become the captain of the first brigade over there, and the secretary has also obtained the status of a staff officer, although it is different from his previous one. The position is not much higher than that.

They enjoy these rights very much. Although this place looks very peaceful, people like them are very respected, because the common people feel that they protect themselves.

Chapter 1580: ready to act

No matter where they go, they are warmly welcomed by the local civilians. They don't even have to go to the fields to work with them, and there are special people to serve them. This kind of life makes them feel very enjoyable and takes it for granted.

The secretary shook the wine in the glass and took a sip slowly. The wine brewed by the villagers themselves is really good, mainly because it is served by someone. It feels really good.

Thinking that he was ordered by Frank all day long, and he didn't get any benefit at all. The more he thought about this, the more he felt that he should enjoy life.

He is now in the same situation as Old Hei. He is asked to lead a team, and there is a captain above him, who is only responsible for auxiliary work.

When the secretary came outside, the civilians hurriedly greeted him when they saw him. The feeling of being recognized and surrounded by others made him very happy.

At this time, he saw Frank and the others walking towards this side. They were going to the training ground behind, but they didn't say hello when they passed him.

The secretary was a little unhappy, "What's the situation with you guys? Why didn't you say hello when you saw me?"

Is this guy here to find fault? Lao Liu has been holding back a fire in his heart, and he is really embarrassed to say it, why should he say hello to him?

The secretary is also getting excited. I have always been easy-going with them before. It was because of my status, but it is different now. He has been enjoying this feeling recently. Suddenly he found that someone didn't want to see him, and it felt like he was against him. Same, so he insisted on finding fault.

There are more and more civilians around, and everyone is a little surprised. They came together before, so why did they have a conflict?

Seeing that the two sides were at a stalemate, Frank could only step forward and say: "For the sake of our cooperation for so many years, I hope you will not be too embarrassed. Besides, I have always regarded you as my best subordinate."

"That's enough, don't tell me these big truths anymore. I can't hear how many people you have said to people based on these brainwashing big truths. Do you still think I am the same as before?"

Unexpectedly, the secretary has changed so much in a short period of time. Now he is very impetuous, and his whole person is in a state of arrogance.

Moreover, the soldiers next to him were also very arrogant. Frank and the others had to apologize immediately, otherwise it would be impossible to let them pass because they saw that the officer did not say hello.

The sixth child couldn't take it anymore, he clenched his fists and wanted to rush forward, Frank quickly grabbed him, now was not the time for a conflict, Qin Yuan was still waiting for them there.

And looking at the situation, once they make a move, they will not occupy your present at all, it will be like relying on others, so it is better to keep a low profile as much as possible.

In the end, there was no other way. It was Frank himself who came out to apologize, and the matter was considered over. Otherwise, the secretary would hold on to this matter all the time.

Seeing Frank's humiliating apology in front of him, the secretary felt extremely happy. Before that, he felt that he had wasted so many years of time in vain.

From this moment on, he wants to enjoy it. The old Liu next to him really can't understand his style of work, and he has been holding back his anger until he came to the training ground, and he vented his anger at the sandbag. come out.
