

Special Soldier 1581

Chapter 1581: separate team

"I really don't know what's wrong with these people. Could it be that this little temptation can't be tolerated? We worked very hard as special forces before, don't they understand?"

"I told you before that this is everyone's choice, and their choice is theirs. Of course, if you are interested, you can go there."

Frank didn't care so much now, he felt that if they wanted to leave, he couldn't keep them, so he might as well let nature take its course like Qin Yuan.

And all of this was seen by the scholar, but the plan hadn't met his expectations, and a man in uniform walked into the room.

"What's going on now? Does anyone else have this idea?"

"Sir, we have tried many methods, including treating them the same. We talked to them privately and offered them a certain position, but they all rejected them. The remaining few people may not be easy to deal with."

"Okay, I see, these two people are enough, and the abilities of these two people are not bad."

The man left the room after finishing his report. There is no such thing as a free lunch in the world, and the scholar already had his own plans.

Three days later, the scholar said that all the teams had been assembled, and they were going to meet up now, and they could start to act. Before the action, he specially held a bonfire party.

I have to say that this scholar is really good at arresting people. When this kind of war is approaching, many soldiers will be afraid and shrink back.

At this time, he asked these people to start cheering them on. These people are their family members and their hope.

Moreover, the scholar also held a so-called commendation meeting, mainly to reward those who were in the previous operation. In a paradise, they will get more land and control more people.

Such rights made them envious, especially Old Hei. He felt that he should pass it on by himself. If he had been in the team before, he might have been unknown for the rest of his life.

Lao Hei felt that his choice was too correct. Everyone's blood boiled instantly after the scholar's few words, and they all expressed that they could immediately join the battle.

Finally, under the scholar's signal, Qin Yuan and the others also formed a separate team, and they will cooperate with them when the time comes.

He was also sure of Lao Hei's aggressive mentality, and directly placed him in the first charge position, letting him take the lead, and Lao Hei felt that the scholar was interested in his ability.

Only Qin Yuan knew that this scholar was really despicable. He was just pulling him out as a scapegoat. Old Hei's ability was indeed very strong. It would be no problem for him to lead the team, but the front was really dangerous. have been.

It is useless to talk to them now, and they will mistakenly think that they are blocking their way, so Qin Yuan just watched silently. He had already said the most important thing to say, and they couldn't listen to it, so there was nothing they could do.

After the bonfire party, Qin Yuan met Lao Hei who was drunk. At this time, Lao Hei was highly praised. Everyone kept instilling an idea in him, saying that he was very brave, and let him be the first A captain is a matter of course.

He couldn't help but stepped forward and patted Old Hei on the shoulder, "For the sake of our previous training, let me tell you something..."

Chapter 1582: There are quite a lot

It is best not to rush forward when you encounter something, and hide when you should hide, it will not do you any harm. "

"Hahaha, I think I should be the one who said this to you. I know your ability. If possible, I hope you will allow us a little more and give me more opportunities."

This guy came to persuade him with good intentions. He thought he was here to grab an opportunity. Qin Yuan felt that this person was hopeless.

Old Hei seemed to want this strength in his heart, he felt that Qin Yuan's ability was too strong, and he must not let him take the lead when the time came, otherwise the credit would be gone.

Qin Yuan and the others are now waiting for the arrangement. Now he has become the hands-off cadre, walking behind silently with everyone.

"Instructor, when will this be the end? Where are we going? And they didn't tell us their combat plan, how should we cooperate?"

"Just follow them. Besides, isn't this kind of soy sauce uncomfortable? Follow them to avoid disadvantages."

"It seems right to say so, but what if there is a problem? I see that there are quite a lot of them. I am worried that there are more preparations over there."

Frank remained silent along the way, because he had reacted to this matter before, so he might strengthen precautions over there, which would be very unfavorable to their actions this time.

Although I don't know the specific situation of the scholar, but this time their purpose is the same, and they must win this battle.

Just like this, he walked around with the big troops, not knowing what the scholar was thinking, but the next morning, Qin Yuan found that Lao Hei and the secretary had disappeared with the two teams.

He originally wanted to ask the scholar for clarification, but the soldier next to him, who couldn't see him at all, just said that the scholar had other things to do and it was inconvenient to see them now.

Anyway, no matter what, they are not allowed to meet, Qin Yuan only hopes that that guy can listen to what he said, and don't act recklessly.

In the evening of the next day, they finally arrived near the 067 highland. The scholar did not give any action instructions, but just let them lurk in various places. The number here is indeed quite large. There are already close to five hundred people.

Although he didn't know what kind of medicine this guy was selling in his gourd, and why he hadn't acted all this time, a news came soon afterwards.

The five countries that participated in the operation together before were country M, country K, country A, country H, and country W. The capitals of these countries were attacked by militants at the same time.

The head departments of these countries also instantly analyzed that this is definitely not an ordinary militant. Like the previous militants, they would only engage in minor incidents at most.

But this was a direct attack on their headquarters. A commander-in-chief from country M felt strange looking at the few militants outside. What's going on with these people? Such a small number of people dare to come.

Soon the news from several other countries also spread, and everyone felt that this was definitely not accidental. After such an analysis, combined with the facts that Frank said before, it seems that their target is not the super weapon over there at all, but their Headquarters of these places.

People from several countries quickly got together for a meeting, although the militants were temporarily repelled

Chapter 1583: persevere

But they are all lurking in every corner of the city.

Everyone's opinions quickly reached a consensus. They felt that these militants must have no way to get close to the military weapons, because there are heavy soldiers there, and they can't get their hands on them. The scholar wanted to revenge, so he planned to kill the headquarters directly. .

Because they conducted an investigation on the military weapon and found nothing unusual, and they didn't dare to imagine that the scholars had assembled more than 500 people in an instant, and they felt that the people who came to attack their headquarters were already a large force.

And at this moment, Lao Hei was fighting hard with those people. He led people to break out of the encirclement time and time again. Can't stand it.

Although the abilities of the people he brought were not bad, they were basically mercenaries, but the number of people on the opposite side was several times that of them.

They broke through the encirclement again and again, but they could only hide in every corner of the city.

The vice-captain beside him was vigilant about the surrounding situation, and asked, "Captain, what should we do now? The vitality of these people is too strong, and there are too many of them, we can't stop them."

"It's okay, my husband has already told me before, he said that someone will come to pick us up every night, we just need to hold on until night and hold them here."

Originally, the deputy captain suggested to retreat directly, but when he heard Lao Hei said that the scholar would send someone to pick them up, he couldn't help but feel more confident.

Old Hei was already fantasizing about his future life. He felt that his harassing tactics were very successful this time, and he had completely attracted their attention. So the scholars and the others might have already taken action? When he goes back, he will be the number one hero.

But the reality was cruel. Before they stopped to rest for a while, the pursuers surrounded them again, and they had no choice but to keep retreating.

He followed the instruction of the previous scholar not to reveal his strength, and retreated as far as possible to the rear, mainly to show that there were a large number of them. In fact, there were only about a hundred people with him here.

He is now mainly attacking the headquarter of Country H. The local army is not a vegetarian, and they will soon encircle and suppress them again.

Under such circumstances they broke through the siege again and again, but there were countless casualties. He brought out more than a hundred people before, but now there are only more than thirty people left.

Old Hei has been persevering so hard that even his back was injured. In the end, he watched the sky slowly getting dark, and the time agreed with the scholar was getting closer and closer.

"Brothers, everyone work harder, after rushing out this time, we can go back."

Everyone became more motivated when they heard this, and desperately began to resist, and finally broke through the encirclement, but caused a lot of casualties, and there were only less than ten of them left.

Seeing that the number of people is getting smaller and smaller, Lao Hei is actually very happy in his heart, so that there will not be many people who will take credit from him.

However, when he came to the appointed place, let alone the rescuer, he didn't even see the shadow of the helicopter, nothing at all.

The soldier next to him was a little anxious, what's going on? It was agreed to be close before, why hasn't anyone come yet?

Lao Hei kept calling with the beeper, wanting to ask what was going on there and why the rescue hadn't arrived, and soon they were surrounded by the rushing army again.

Chapter 1584: Scholar's ferocity

Hei couldn't figure out what was going on, he could only comfort the people around him, telling them to persevere, the rescue team would arrive soon, and the scholar would never lie to him.

It should be said that this old black's ability is also very strong. In this extreme situation, he has been resisting all the time, making the other party mistakenly think that they have a large number of people.

Lao Hei was usually well-trained, but no matter how strong he was, he couldn't resist such a fierce attack, and soon their ammunition was exhausted.

The people on the opposite side had already waited. They wanted to capture him alive. They planned to know the whereabouts of the birth, the plan behind it, and how many people they had.

The more he fights, the more desperate he becomes. He can't believe what's going on. Is there a problem with the place where they communicated? He repeatedly confirmed that it was all right.

At this time, the soldier next to him looked at him with despair on his face, "Captain, let's not look forward to it, it's already at this time, do you think they will really come to rescue us? I feel like we were cheated."

"You bastard, how can you doubt Mr. casually, Mr. will never lie to us."

Lao Hei is still speaking for that scholar up to now, completely in a state of madness, until finally the people around him collapsed one by one.

He wondered if he had encountered some special circumstances, so he didn't come to rescue them, but what he didn't expect was that the scholar had no intention of coming to rescue them at all, but just took them there as bait to attract firepower.

At the same time, the scholars had already entered the 067 Heights with their wishes, and they also launched a fierce attack there.

Most of his troops are in this place, and he has also assigned some people to be outside as hosts. As long as he can get that weapon, then everything will be fine.

Because they received the news from there, the soldiers guarding the 067 highland also relaxed their vigilance. They felt that no matter how brave these people were, they wouldn't rush to attack this place.

However, the scholar made a lot of preparations for this time. He even managed to get the air power. This guy can be said to have taken out all the things. This time he is fighting with his back to the wall.

Qin Yuan didn't know what was going on with Lao Hei and the others, but he hadn't seen him until now. At this time, the scholar found him.

"Mr. Qin, I want to make a deal with you. I know that we all get what we need, and I also know that you are very skilled, so you should also show your skills."

"What you said is serious. I am just an ordinary soldier with no ability. I still need you to take the lead."

Unexpectedly, the scholar changed his face immediately, and the soldiers beside him took out their guns and pointed them directly at Qin Yuan and the others.

"Mr. Qin, it seems that you didn't understand what I meant. I'm saying that you can make a good contribution to me with your ability."

"What? Is the agreement we made before breaking now? Are you going to do something to us this time?"

The scholar walked up to Qin Yuan with a smile on his face, and said slowly, "If you don't cooperate, you will get two brothers, and you may never come back."

Naturally, the people next to them couldn't hear their conversation, and only saw Qin Yuan's face change slightly. Under such circumstances, his words could still be so calm and vicious.

Sure enough, it was different from his previous ones. The scholar also said that if he was willing not to cooperate, not only the two brothers, but everyone else would be resolved one by one.

The sixth child stood behind and didn't understand what was going on. Anyway, what they meant was that they must not rush forward to be a scapegoat. What they said before was cooperation, and they have so many troops, why let their small team rush forward first?

But Qin Yuan agreed for the first time, his face was full of shock, what's going on? How is it different from what they discussed before?

After Qin Yuan came out, he explained the specific situation to them. If they didn't do something, Lao Hei and the secretary would never come back.

Hawkeye was originally speaking in anger. He felt that those two guys were like traitors. They had already rebelled from the very beginning. It's none of their business if they don't come back.

But he still packed his equipment silently, no matter what, whether his brother should be saved or not, they have been together for such a long time.

When Qin Yuan heard that question, he felt that this matter was not that simple, and it was very likely that they would never come back.

It's just that he still doesn't want to believe it now, and we'll see the results later, and with the abilities of these people, it's very likely that they really want to attack him, otherwise, he won't know if he can get in when the reinforcements arrive.

He led the team and set off as the first infiltration force, and the scholar led his team to cover behind.

It has to be said that at this time, he showed the ability of willingness. His reaction was full. All the enemies in the front were killed by him with precision, and he also bought time for the rear. They marched forward bravely along the way, and the troops inside had already begun to call For reinforcements, people outside are also buying time for them.

It takes 30 minutes for the nearest reinforcements to arrive at this location, and they have to settle the battle within 30 minutes.

Soon the battle reached the place where Qin Yuan found the minefield before. Under such circumstances, the people inside couldn't get out, and they couldn't get in for the time being. Such extensive landmines became a stumbling block for a while.

During their fight, many landmines have been triggered. After all, it is an extremely slender fishing line, and a series of explosions occurred one after another, and sand and soil were flying everywhere.

Although most of the landmines have exploded, there are still a few that have not been triggered. It is hard to say. Now the place is in such a mess that even Qin Yuan can't see how many skills have not been triggered.

The vulgar voice kept urging, and at this time he also came to the forefront, and the sixth child pointed in front angrily.

"You didn't see so many mines ahead, it's impossible for us to pass such a wide minefield."

"This is very simple. Of course, someone just walks over."

This guy really talked a lot, and he didn't take human life as a human life at all. The sixth guy thought that this guy could be vicious enough to let them go up. After all, in his eyes, these people in his team are not worth mentioning.

Unexpectedly, he paid more attention to the ability of the sixth and the others, and called another team through the walkie-talkie. Qin Yuan turned his head and saw that the leader of the team was Hei Feng.

There are a total of 30 of them, all of whom were brought out by Black Front from the Hunter School. At this moment, they have already put on their equipment and heavy body armor, but this can only serve as a consolation. With the steel ***** that burst out, such body armor is useless at all.

Frank stopped it as soon as he saw it. This is absolutely impossible. This is a fresh life. How could it be possible for people to test it?

But the scholar said that if no one tried to test them, they would have been stagnant until the reinforcements arrived, and everyone would die here, and all their hard work would be in vain.

"I really misjudged you before you bastard. They are all loyal to your subordinates. Since you treat them so viciously."

"Hehe, don't be so harsh. They are all voluntary. If you don't believe me, you can ask."

I don't know what brainwashing the scholar gave them before, but now they are very firm, holding a kind of determination to die, and even feel that it is a supreme honor to be able to die for the scholar.

Qin Yuan had seen through everything. He knew that these people would not be able to persuade them at all, but Frank didn't want to give up. Anyway, Hei Feng was also his subordinate before.

"Hei Feng, are you going there so willingly? Do you know how dangerous the situation is? If you die, what will your family do? Are you so willing to work for this person?"

"You don't need to provoke me and my husband, it's useless, because after he saved me and let me join his organization, I knew that my life no longer belonged to me at that moment, and even if I died, my family is absolutely taken care of and I'm just taking revenge for all of us."

What's the point? Since it was about revenge, why that guy went to Frank is unclear to them now, and following the order of the scholar, 30 people lined up in a line of minefields and strode toward go ahead.

This situation is really shocking, I wish I had seen this kind of scene before, but at that time they were clearing the border, and they were able to make sure that it was absolutely safe, so all the soldiers walked forward hand in hand, also for The local people demonstrated that the minefields they deployed were absolutely safe.

But now there are so many disabled landmines, these people are undoubtedly going to die, as expected, just a few steps out, the first landmine exploded.

However, the vacancy that was blown up was quickly filled by someone, and it continued like this. With the sound of crackling explosions, this kind of density could not escape at all. Just now, 30 people have gone halfway, and they have been blown up. A dozen people.

In the end, it was indeed a cruel way to walk once. The scholar was still worried, and asked them to walk back and forth twice until all the mines had no possibility of starting again. There are not many people left that Hei Feng brought.

And Hei Feng's fate was not very good, his right leg was blown off, and he was lying in a pool of blood at the moment.

Qin Yuan looked at Hei Feng in the distance. At least he was lucky. Although a leg was blown off, the scholar would definitely save him. After all, he could see that the scholar attached great importance to him in the previous relationship.

However, a golden bullet came directly from behind and hit Hei Feng in the head.

The few people standing in front couldn't believe it at all. Frank turned his head and saw a pistol in the scholar's hand.

"You bastard, do you know what you did? His family is still waiting for him to go back, he was just injured, why did you beat him to death?"

"I'm just solving his pain. A person like this is useless in the future. He can't go to the battlefield. He is really powerful, but he can't go to the battlefield, you know? Now I can't waste other energy and transport him Go back, this is a bad deal."

It was so cruel. At the last moment, this guy's true nature was completely exposed. He began to measure, because he knew that there were very few people who could escape in the end, and there were very few people who could follow him to the end. Now it is Time to clean up.

In his opinion, a person like Hei Feng has no value. His legs and hands have been blown off, and he can no longer hold a gun in the future. Such a person has no meaning.

When the people from behind arrived, the scholar immediately put on a very painful expression.

"Brothers, let us pray together for the brothers who sacrificed their lives for us in front of us, and pray that their contribution is just to solve his pain. I don't want to see him in such pain, but I have no way to save him."

I don't know where this guy came up with this bunch of fallacies, but the people behind him are still foolishly believing him, Qin Yuan shook his head, completely hopeless.

As the minefields were finally breached, they reached their final positions, which were the most difficult to attack because layers of fortifications protected the weapons within.

Having already broken through here, the scholar didn't care so much directly said hello, and those people behind him rushed forward desperately under his call, completely adopting a desperate strategy. Crowd Tactics.

He knew that Qin Yuan and the others were very powerful, so he kept a few of them, and now he had to use others when it was time to charge.

"Let's wait and go in when they are almost fully charged. This is the most effective way. I have excellent weapons here, but the number of people is several times that of theirs. Just rely on the number of people to go up."

This guy is completely crazy, he doesn't care about the life experience of these people, Qin Yuan looks at those people, just feel worthless for them, the people who went forward kept dying on the way to charge.

Under such desperate attacks, Qin Yuan and the others finally reached the gate, and at this time there were also gunshots from the outside.

The scholar was full of smiles, because he knew that the soldiers on the periphery would definitely be able to hold it back. Besides, he had already entered here, and he could unlock the code in ten minutes at most.

Everyone fought all the way to the underground fortress, and came to the place where the destructive weapon was stored below. It was absolutely protected by an iron cage, which was similar to the scene Qin Yuan saw before.

It's just because this is an underground fortress, there are too many people on it for the time being, blood is already flowing down the corridor, it looks extremely cruel, this can be said to be the cruelest battle.

Qin Yuan doesn't set an example. At this time, he tries his best not to be a leader. Originally, this time he was busy coming out of the country, so he couldn't expose any of his actions.

And at this time, it is unfair to the soldiers of any side, and he can't fully expose his strength, otherwise the scholar will only be more wary of him in the end.

Chapter 1585: Recovery Superweapon

Now it's not time for this guy to enter the password, so he is still useful, and this guy is so cunning, Qin Yuan can only hide his strength first.

The scholar is just an old fox. In that paradise, including now, he has been testing him to test the real Qin Yuan's strength, and he is actually very worried.

He was worried that the efforts he had put in would be taken by others in the end, but after so many days of observation, even when he kept letting those people die one after another just now, Qin Yuan remained indifferent, which made him feel that Qin Yuan Not as powerful as the legend says.

He is always better than ordinary special warfare soldiers, and relatively more thoughtful in leading the team, but he is not the kind of person who brags to the level of God of War.

Thinking of this, he feels more relieved, and in addition, he has carefully selected a dozen people around him, who were specially selected by him to protect him. When the time comes, as long as he gets that destructive weapon, Qin Yuan will have to be obedient listen to him.

He came to the password port, looked at the large basement in front of him, and couldn't help sighing, this guy laughed like a lunatic.

After so many years, he finally came to this place, which contained the blood of his parents and how many lives were used to create this so-called invincible machine.

Now he is going to take control of everything, and the gunshots are getting closer. After all, the reinforcements are not vegetarians. Everyone knows that the importance of this destructive weapon is faster than they expected. They expected half an hour before. , but it took only 20 minutes for the military personnel to break through.

But I can also understand that it is the power of five countries, how can they deal with it so easily, but it is a pity that there are too few people, and there are many innocent soldiers who don't know why they are fighting .

Frank walked up to Qin Yuan quietly, he didn't know what Qin Yuan's plan was.

"That guy is going to open the password now, what should you do? Or wait until there is no need for us to cooperate with you."

"Not yet, try to stay as far away as possible, as long as he unlocks the password later, I will rush in immediately and beat him and the people around him."

Although Frank knew how powerful Qin Yuan was, he was still shocked when he heard this. That guy was not simple, and he was surrounded by more than a dozen people.

During this period of time, it was not easy to rush in and control him, and the people around him were not vegetarians, they were all one-on-one experts from the special forces.

Qin Yuan's face is relaxed now. He feels that there are too many masters with him. He has trained a lot of so-called elite masters, and he is never afraid.

The scholar entered the password for the first time in front, but he made a mistake. He was not in a hurry, and began to prepare for the second time according to his previous rehearsal.

Just when he was about to enter, Qin Yuan stepped forward. It was time to tell the part of the password he knew, so that the probability would be higher. At this time, he didn't hide it, and he should cooperate. .

Unexpectedly, the scholar was a little puzzled, "Why did you tell me the password at this time? What is your purpose? Or it was a fake password."

"Because I don't want to see you wasting a chance in vain, so there is only the last one, the probability is too low for us, your calculation may be the closest to the correct answer, but I will tell you this part should be fine ."

After listening to Qin Yuan's words, the scholar was struggling all the time. He didn't know whether to believe it or not. As the gunshots outside got closer and closer, the scholar could only make a quick decision. He still chose to believe in Qin Yuan, because at this time everyone It's a grasshopper on a rope.

He used the number Qin Yuan gave him to check, and it was indeed only one digit away from what he calculated before, so it should be no problem.

At the same time, after entering the password, the system from years ago emitted a burst of light, followed by a beeping sound, which indicated that the password was correct and the entire security system had been unlocked.

But the troops behind had already broken through, and the gunshots were getting closer and closer. Just behind them, the scholar couldn't wait.

He just turned his head, wanting the people behind him to protect him and not let Qin Yuan get close, but he didn't expect that just as he turned his head, he was greeted with a punch.

The scholar did not expect that Qin Yuan had been hiding his strength. In this case, his explosiveness was too strong. The people around him were not his opponents at all. When the scene became chaotic, the sixth child also rushed up to help Qin Yuan. The team behind is fighting in from the resistance side, and no one cares about it.

The scholar was shocked, and he looked at Qin Yuan viciously, "I really didn't expect you to hide it so deeply, but you think I have prepared for so many years, how can I make wedding dresses for others for nothing?"

The scholar laughed wildly, and then he pulled off his clothes, only to see a bomb strapped to his body, this guy is completely crazy, he wants everyone to be buried here.

"More than ten years ago, no one cared about us. Our lives were trampled on by those people at will. I wanted to change this, but it turned out to be impossible. The efforts I made could not be given to others in vain. Together die."

After he finished speaking, he directly pressed the controller, and the bomb on his body had already started counting down. There was only one minute left, and it was too late.

After Qin Yuan came up, he punched him on the cheek, but he was still laughing wildly, because he knew that it was too late, and no one could disarm the bomb.

This is completely crazy, but soon he couldn't laugh anymore, because the countdown sound stopped, he looked at Qin Yuan in disbelief, how did this guy do it?

Qin Yuan showed the small shrapnel in his hand. He didn't remove the stitches directly, but took out all the shrapnel controlled inside. The speed was really too fast.

Because it's too late to remove the stitches now, and the wiring this guy made is too complicated, with more than a dozen threads before and after.

Frank behind him also stepped forward and kicked him on the chin. He had endured this guy for a long time, "You bastard, where are my two brothers now?"

"Impossible. It's absolutely impossible. How did you do it?"

Now he is a little close to madness, he can't believe that all the efforts he has made, are they going to be wasted at this moment?

So he didn't listen to Frank at all, no matter how much Frank asked, he was still mumbling there, and at this moment Qin Yuan had already entered the underground security system.

After finally waiting for this moment, Qin Yuan carefully observed the surroundings after entering, and there was a huge safety glass placed more than ten meters in front.

There is no password here, just press the switch, and the super weapon will be displayed in front of him.

It's just that after he walked in, he saw a sentence on the console, and the general meaning of the conversion was, "Countless people have worked hard and even sacrificed their lives for its research, but I also regret that it was successfully released, and it shouldn't exist. In this world, I can't do anything."

It seems that this should be left by those few scientists. They are just to warn future generations, but they have completely ignored the cruelty of human nature, and no one will notice it at all.

Only Qin Yuan can understand the mentality of those scientists at that time in this state, which is why he came close to this place. Only after he gets this super weapon can everyone's safety be guaranteed.

He approached the super weapon, and after pressing the glass cover, the super weapon was more like a launch pad, and the launch device was connected to it below, mainly the things inside the launch device.

No wonder the scholar is so sure, because he feels that no one can take this thing away, and he can directly threaten everyone here.

But Qin Yuan can, he stretched out his hand and said calmly, "System, carry out recycling."

"Ding! The system is recovering, please wait."

This super weapon is so powerful that even the system can't analyze its ability, but it can be recycled into its own system, and it was completely received into Qin Yuan's system in only five seconds.

Although it can't recover its ability, there is nothing in front of him at this moment, that weapon is completely stored in his own system, and he can control it at will.

When Qin Yuan came out, the armed teams outside had already rushed in. The people leading the team were very vigilant, but they knew that no one could take that weapon away.

Everyone was confronting each other like this. Qin Yuan came out from the underground passage, and Frank was shocked. Why did the person who walked in just now completely change his appearance?

The moment Qin Yuan walked out, he changed his disguise technique, because there were too many people who knew him, but almost all the scholars had been wiped out.

Now he wants to use another identity to protect this super weapon.

"You are not qualified to negotiate with me, go ahead and call your top leadership."

"What are you ***** talking about? Don't you know that fights can be settled in a minute now?"

The captain of the team is very confident. The people he brought and the weapons behind him can definitely kill the people in front of him ten times.

Now they don't dare to act rashly. They don't know what the ***** these people are doing. Are they delaying time or what are they doing? They understood in the next second, Qin Yuan stepped aside and let them go in for inspection.

They were all controlled by the soldiers who rushed in, and everyone squatted on the ground, but Qin Yuan still looked calm, they couldn't understand what was going on.

But soon after entering, the captain of the team suddenly screamed. The soldiers above rushed in without knowing what happened, but when they entered, they saw the captain slumped on the ground. there is none left.

how can that be? How could this weapon be transported away in a short time? Without special equipment, how could it be transported away without large equipment? And this super weapon must be very careful during transportation.

Everyone didn't know what to do for a while, the captain could only quickly report the situation to the leader, and when he came up, he looked at the few people in front of him in disbelief, what was going on?

One of his guns was aimed directly at Qin Yuan's head, and now Qin Yuan completely changed his appearance, looking like an ordinary gangster.

"Now give you a chance, where is the content inside?"

"Hahahaha, I have made it very clear just now, and if you dare to shoot, or want to hurt anyone here, then none of you should know where the super weapon is."

Hearing the threat from the people on the ground, the captain was very annoyed, he kicked Qin Yuan, but it was just a painless move to Qin Yuan.

In the end, there was no way, even the leaders of the mall came, and everyone got together to discuss this matter, what should we do? They also photographed a professional investigation team, but even if the investigation team came, they don't know how the weapon was transported away.

Several countries have sent top-level research and investigation teams. After everyone came here, they have been conducting investigations here, including even questioning the captain who filled in, but there was no clue.

This is completely bad news for everyone, because the super device is not in their hands, and they don't know what the person who got it will do. What kind of means will they use to threaten them.

In the end, they had no choice but to meet Qin Yuan once. At this time, Qin Yuan stared coldly at the people in front of him, and raised his hand to signal them to release his handcuffs.

The person in charge had no choice but to ask someone to come forward and uncuff his handcuffs first. He wanted to see what tricks this guy could do.

"Now we are not in a state of negotiation, but you have to obey my orders, because this weapon is with me."

"Hehe, what are you talking about? You have to know that if you don't tell us where the weapons are, you won't even think about going out."

"It's very simple that I'm going, I just want to tell you, I want you to do something."

The leader here thinks it's all fantasy. This guy is like a lunatic. What he said doesn't match the words. Up to now, he hasn't explained where the weapon went, and they have been guarding the periphery. How could the weapon just disappear out of thin air?

No matter what Qin Yuan said, the people in charge just didn't believe it. They even used manpower to try to find that weapon three times. However, even if they dug through the entire underground space, they still didn't see that super weapon.

Qin Yuan and Frank were temporarily detained, and they were detained separately. They were being questioned for 24 hours. Of course, Frank and the others did not know about this situation.

Moreover, they were members of special forces before, and they had been trained many times for inquiries like this, so there was no problem at all.

The top person in charge of the US side also came to the scene. He looked at the messy dug underground, did he really disappear inexplicably like this?

Chapter 1586: do an experiment

Are they really going to compromise with these people? Especially Frank, now even his former chief executive is here, the original founder of their hunter school.

Enke stood in front of him, "Frank, I really didn't expect that we would meet in this way. My identity remains the same, but you are now a prisoner."

"Hehe, it doesn't matter if you are a prisoner or something. No matter what, you have the final say on these things."

Frank has already seen through the dark nature of these people. They can use the means for their ends. Before, he thought that the Hunter School would be able to retreat unscathed, but those people above were all in collusion.

"Shouldn't your attitude be better to me? Maybe I'm the one who can rescue you in the end. Of course, the premise is that you must cooperate with us."

Frank laughed loudly when he heard this. It was because he was too naive before that he believed this guy's nonsense, which caused so many people in the Hunter School to die without knowing it.

Moreover, many of these people can be called heroes. They are completing various tasks and clearing out those armed criminals every year, but the heroes behind them are all wiped out by them.

Frank clenched his fists when he thought of this, he was very excited, if it wasn't for the chains, he really wanted to rush up and beat this guy hard.

"The only thing I want to do now is to kill you."

The murderous intent released in his eyes, but Enke didn't seem to care, "I'm going to give you some face in the face of an old friend, and persuade you well, since you don't even plan to ask for it, then I can't help it either."

Frank only felt that it was too hypocritical. This guy is still lying to himself. He turned his face away and said whatever they did. It was impossible for him to counsel.

Seeing Frank's attitude, Enke clapped his hands, walked in after a while, and the two of them took Frank down directly.

Then Frank was brought into another room by him. Just as he entered, he saw the scarred sixth son in front of him. At the moment, the sixth son was tied to a chair with wounds all over his body, looking horrible.

Seeing this scene, he clenched his fists, turned his head and asked loudly, "What are we doing? You often use lynching, which is a crime, do you know? No matter what, we have dignity and rights. Yes, besides, don't you guys know what the ***** is going on here?"

He kept asking questions, but the other party ignored him, but pushed him over, and then the unconscious sixth child was dragged out.

No matter how much Frank yelled and struggled, it was useless. He was tied to the electric chair next to him.

"I know that for the principal of a special warfare school, this kind of thing should be very common for you. You used it when you trained students before. It's hard to imagine using it on yourself now."

Frank ignored it, but before he was ready, Enke walked over with a smirk on his face, and then directly pressed the button.

Frank twitched in an instant, and the powerful electric current ran through his body. As the electric current increased, Frank still clenched his teeth, and he couldn't say a word.

And he didn't have anything to say, Enke pressed the stop button, "How about it? Now you can say whether I will give you one last chance, this kind of feeling is not good."

"Go away!"

Seeing that Frank's attitude is so firm, he pressed the button continuously, and finally Frank was completely stunned, and he walked over with a look of disgust.

"This guy is too harsh on him. After all, he is the principal of the Hunter School, but there is always a way to make him speak. Continue."

Then a basin of cold water was poured directly on his head. After being woken up by the cold water, Frank slowly opened his eyes. Now his whole head is in such a numb state.

But the torture was more than that. Soon he was whipped again. In the end, even his nails were beaten off, but he still didn't let go.

The same goes for the others. Frank didn't expect that these guys would actually dare to lynch them, in this case.

But he was also very curious, how did Qin Yuan do it? After all, it was too difficult to make a weapon disappear out of thin air, and at the same time, he was glad that it didn't fall into the hands of these guys, otherwise he wouldn't know what would happen.

On the other side, Qin Yuan was accepting cruel criminal laws, but these tortured criminal laws were nothing to him. He fought back directly, and the entire electric chair suddenly burst into black smoke and was immediately scrapped.

The people around were all dumbfounded, what kind of ability is this? He was able to scrap the electric chair, not only that, even the whip that hit him was broken.

Put him in a water prison, and he can even think of it as a hot spring in it.

Everyone is really at a loss, these people seem to be indifferent no matter what method they use to deal with them.

Everyone also understands how cruel these people are, even if they say it now, it is impossible to just let them go.

So in the face of everyone, we can only persevere. After a week like this, the leaders above are also very anxious. After all, this is a destructive weapon.

Just when they were at a loss, Qin Yuan suddenly came to them and asked the supreme leader to talk to him, otherwise he would activate the weapon directly, and he knew what to do.

The news was very shocking, and everyone dared not underestimate it, so they could only report to the higher authorities. In the end, under pressure, several top officials had to come to meet him.

The supreme leader of the United States stared at him coldly. It was the first time he had seen such a tough opponent. No matter what conditions they gave, this guy just remained unmoved.

"I don't know who you are. Your identity is very mysterious. No matter how we investigate, we can't seem to find you."

"Now this is not the crux of the problem. The crux of the matter is that if I snap my fingers lightly, which country this thing will fly to, it should be enough for you to rewrite history."

These words made everyone's heart tremble, because they knew the seriousness of this destructive weapon.

The officer on the American side calmed down, and he also said threateningly: "It's useless for you to tell me these things. Do you think you can run after that weapon explodes? And those people behind you, you know the damage How strong is it?"

"Hahaha, it's really funny, do you think we haven't researched it? I can tell you this, I can set its range, and maybe just destroy your country."

Hearing this, everyone present was stunned, the whole office was very quiet, no one dared to speak, they were all thinking whether what he just said was true.

"Don't think about that, I don't need to lie to you, or I will do an experiment now, and you will know after seeing it, just choose a lucky one from among the five of you."

Hearing that the few people here are completely panicked, this is completely crazy, what does it mean to do an experiment? They can't afford to be hurt by such an experiment.

"You lunatic, do you know how many innocent people you killed by saying it so easily, and how many people would die if that thing really broke out?"

"Now that you know how to be afraid, then when you treated those ordinary people and those innocent people, you didn't have a soft heart."

Faced with Qin Yuan's questioning, these people lowered their heads. They had nothing to do, and the incident didn't happen to them at that time, so they felt it was not painful, but now it was about their personal interests.

This is human nature, Qin Yuan snorted coldly, he looked down on these people the most, they were as cowardly as a mouse, as long as things didn't involve him, they could hang on high.

They really didn't dare to make this bet. The price of this bet was too high. If a country was completely destroyed as he said, what would they do in the future?

The last few people had no choice but to compromise. The leader of the United States stepped forward, "Then what conditions do you have now? What are you going to do?"

"The condition is very simple. I will definitely not hand over the things to me. As for whether to launch or not, it depends on your attitude."

Several people look at me, I look at you, I don't know what Shedan means, Qin Yuan shook his head, let's explain it more clearly with them.

His request is very simple. First of all, these people need to hold a press conference, and it is in the form of a global live broadcast to explain to the news media that they are researching this destructive weapon.

The second is to send out the confession of those victims. When they developed this weapon, how many innocent people they killed. Such a life is life, especially the hunter school. The hunter school was completely silenced by them just because of Frank's words. .

What Qin Yuan wanted was an apology, and it was broadcast live.

The leaders of country A were immediately angry when they heard this. Isn't this just to destroy them completely? If they really do this, they will all be finished, and the image they have established will no longer exist. Just like that, how much responsibility should they be held accountable for?

They absolutely cannot agree to the conditions, and the attitudes of several people are also very firm. Qin Yuan sneered, it seems that they really don't know how much power they have in their hands.

"What? Didn't you just say that I should mention all the conditions? Now I'm back on my word."

"But we absolutely cannot agree to your condition. Besides, how do we know whether what you said is true or not? What if you lie to us then?"

"Simple, I will do an experiment for you to see now, just choose one of your countries."

This guy has this kind of attitude again. The leader of the United States clenched his fist. He has never encountered such a difficult situation. Now he has that weapon in his hand. No one knows whether it is true or not, but he does not know that he will Which country to choose.

Qin Yuan would not be so hasty about the matter of launching. After all, unlike these people, he has no humanity at all. He knows those innocent people.

But he also has another way. He looked at the dubious attitude of several people, and then asked them to take out a map.

After a while, the map was brought up, Qin Yuan stood up, and several people backed up a few steps in fright, and the bodyguard next to him also rushed up, Qin Yuan laughed out loud, just such a person is still the leader.

"This desert area is now a no-man's land, about 3,000 kilometers long. I can use it as an experiment, and the explosion range is not so wide that it will not affect other things."

Everyone was dubious when they heard this, and they really wanted him to do an experiment. Finally, after discussion, these leaders also agreed, and they also wanted to see what was going on.

However, Qin Yuan's request was to let all of them go out, and he had to operate in a separate room.

This is no problem, but these people still kept an eye out. Although they arranged a separate room, there was still a needle camera on the cloth inside.

As soon as Qin Yuan went in, he found that he just glanced slightly, moved his fingers, and instantly those cameras were completely dark.

Everyone is dumbfounded when they see this, what's going on? The few people in front of the screen didn't know what happened. If there was a failure, how could they all fail at the same time?

Just when they were about to investigate, they suddenly heard a huge explosion. It could be heard from this location.

The personnel in front also rushed to investigate, and the latest report came in a few minutes later, which was the powerful and large-scale explosion that occurred in the desert.

what's going on? Everyone rushed into the room, only to see Qin Yuan sitting on the chair with his legs crossed, very casual.

"How? Is what I said true? I can do it."

These people still can't believe it. After all, there is nothing here. How did he launch it? There are accomplices outside, or a time bomb has been activated there.

Everyone has doubts, so they can only investigate clearly first, and then take care of Qin Yuan's affairs.

Until the latest video broadcast came from the desert in the no-man's land, no one knew what it was that exploded. The no-man's land in the desert was completely destroyed. Under this powerful explosion, everything was lost. exist.

Qin Yuan had already reduced the range of the explosion to the minimum. He did not expect that the minimum range of the explosion could turn 3,000 kilometers into nothingness.

This is indeed somewhat beyond his imagination. If this kind of devastating disaster is used in any country, no one can bear it.

At this moment, everyone couldn't believe it. They didn't expect that Qin Yuan really had this ability. Although there were many problems, they didn't know how to do it, such as how the thing was launched, and how it was so accurate.

But if he can do this now, he will suddenly attack them later, and everyone just feels scared for a while when he thinks about it.

In another room, Frank was beaten and scarred. At this moment, the door opened, and he knew that he was going to take him out again to be tortured.

Chapter 1588: special investigation team

At this time, Qin Yuan smiled mysteriously, and then closed the door of the office, "Captain Gao, haven't you heard of it? The recent series of explosive news."

"Why didn't I know that I just heard the news at that time, and such chaotic things happened one after another, and you didn't show up, and you didn't care about it, so I felt very strange."

Gao Shiwei was actually a little worried in his heart, and he didn't want Qin Yuan to participate in the strife between these countries, including their sudden and inexplicable apology this time. .

They don't know many details about the news, but the destructive weapon is really shocking. The news we give is that the weapon is now being jointly managed by them, so everyone can rest assured.

This is what made everyone worry the most. According to what they explained before, they were able to kill so many people for this weapon. What good would this destructive weapon do in their hands?

Gao Shiwei knew that it was definitely not easy for Qin Yuan to mention this matter, "I can warn you in advance, don't make any trouble for me, you boy, this matter is very important, and a professional investigation team has been set up, even I am not qualified Get involved."

"Investigation team? What else do they want to investigate?"

"Look at the usual saying that you react quickly, why can't you react now? It must be the investigation of the super weapon. Are those people telling the truth? In fact, we have noticed it before, it's just their secret work Well done."

Qin Yuan smiled knowingly when he heard this, everyone was looking for this super weapon, but what they didn't eat was on him.

Gao Shiwei babbled at the side and told him not to cause trouble for himself, as the higher-ups attached great importance to this matter.

At this moment, Qin Yuan suddenly interrupted him, and then pushed him outside.

"Wait, what do you want to do, boy, don't touch your hands, just talk about what you have to say, it's getting more and more unruly."

"Captain Gao, let me show you a good thing. It can't be used in this place. We have to go to a bigger place and keep it secret enough."

Qin Yuan thought for a while and came to the warehouse below. The senior senior was confused by him. He didn't know what kind of medicine was sold in this kid's gourd. He also called Li Erniu and they cleaned up all the tanks below. Open it, this underground warehouse is where they keep these heavy weapons.

"Brother Qin, what are these tanks doing?"

"I see that you haven't trained for a long time. Can't this tank be driven?"

This seems to be true, but why did the trainer tank technology come suddenly? Everyone had no choice but to obey his order and drove out in a tank vigorously, which attracted the attention of many people for a while, after all, they are special forces members now.

They stopped doing the basic training of driving a tank a long time ago, and they did it only when they came here.

After Qin Yuan sent all the people away, Gao Shiwei looked at the empty warehouse, "I tell you, if you don't give me an explanation today, I won't let you go, you'll be the same as me all day long, you..."

Gao Shiwei hadn't finished speaking, when he turned around, he saw a flash of white light, and he turned his head quickly.

I was so surprised that I couldn't even close my mouth. Good guy, what's going on? What was displayed in front of him was a machine he had never seen before. Before doing anything, this was their underground warehouse, so there would be no such thing.

And this strange machine, he can say that he has never seen it before, "My dear, where did you get this?"

"Captain Gao, stand firm first, and I'll have a good talk with you."

"Don't be a fool, you kid, tell me what this is?"

"This is the super weapon you have been looking for, and it has been brought back by me."

At this moment, it was quiet for an instant, Gao Shiwei was completely stunned, he couldn't believe whether what was in front of him was real, wasn't this a dream? He pinched himself hard, it was too real, the main person who told him was him was Qin, it was impossible to lie to him.

He stepped forward and stretched out his hand, and began to carefully touch everything in front of him. This was the first time he had seen this kind of thing. If what he said was true, then they would be afraid that someone would have this thing as a guarantee in the future, so they directly Can walk sideways.

"You really didn't lie to me, did you? You can't joke about this thing. I told you seriously."

"Captain Gao, do you think it's necessary for me? Besides, I disappeared during this period of time because of this matter. I can guarantee the absolute safety of this thing with me, and it can also guarantee the safety of all of us when it is here."

He didn't even mention Frank before. Of course, Frank was also curious about where the super weapon went? Qin Yuan just told him that he had been destroyed.

In that case, Frank could only believe that this super weapon was destroyed. After all, so many people couldn't find it after digging three feet.

If Qin Yuan doesn't tell him, he can't help it. Now Qin Yuan's identity is different from his, but he is absolutely assured that this super weapon is in the hands of someone like Qin Yuan.

Frank was asked several times by them, and they were willing to circumvent them cleverly, and told him very firmly that he had been destroyed, so Frank didn't ask any more questions, so he bypassed it.

But Qin Yuan felt that Gao Shiwei must have the right to know. This thing is their confidence and their hole card, which is much more powerful than those aircraft carriers.

Qin Yuan explained the ins and outs to him clearly, Gao Shiwei hugged him excitedly, this was really a big surprise, although he didn't know how he brought it back, but these are not important, the important thing Here they are.

"Hahaha, you kid really gave me a face. They ranked me outside after the investigation in the city before. I really thought that we are old. Now that this thing is in my hands, I should let them see who it is. It's the boss."

Gao Shiwei is also very dissatisfied with the assignment this time, because this time the special operations team, their military personnel will also participate, but he was excluded as the boss of the special operations force.

Speaking of this, he became angry. The military actually sent a commander from the southern military region. Although their ranks were similar, they were representatives of the special forces.

The only difference is that he graduated from a famous military academy before, and he can still help with those scientific research.

"You don't have a face, kid. At that time, I felt that I couldn't get through this matter. They said it was because of scientific research. I think research is a fart. Isn't this thing that needs to be found before it can be researched?"

As soon as this was said, the leader next to him surnamed Zhang was a little embarrassed. What is this guy doing? Isn't it obvious that you are bullying him? Just ruled him out.

"What do you mean? Did you deliberately not let me go because I told you just now?"

"Sorry, don't think so much, I just want three people to go in from the beginning to the end."

Because the water in it is too deep, he doesn't want too many people involved, it will destroy his plan, and the possibility of leaking the secret will be very high.

Xiao Zhang was still retorting endlessly, but unexpectedly, the leader agreed. This is also what he meant. He didn't want too many people to know about this thing, so just take a look to confirm the authenticity.

"Leader, do you really want to go in alone? I think you should bring two bodyguards. This guy doesn't know what tricks he will play. Although he is from the military, I always wonder if it will hurt you." What a threat."

Good guy, Qin Yuan didn't even understand how he offended this person, and just came here, so he frantically smeared himself.

Gao Shiwei's eyes said everything. This person was originally the kind of small-bellied person. He was said a few words by Qin Yuan before, but he didn't get the leader's flattery. Of course, he blamed them all.

Qin Yuan didn't bother to argue with this person, whoever got the leader to agree, just like that, the leader, another military chief and Gao Shiwei walked into the room together.

Xiao Zhang and the few people around him stayed outside in embarrassment. He paced back and forth anxiously, wanting to know what it was.

A few people came out after half an hour, because the leader explained this thing emphatically inside, and after he considered it, he still put it in the special warfare brigade, which is currently the safest place.

Secondly, if someone really wants to investigate, they will never think that they will put this thing in the special operations brigade. The more dangerous the place, the safer it is.

Qin Yuan also did a good job of keeping secrets. Frank is the one who knows the news, but his information is incomplete. He only knows that Qin Yuan has destroyed the super weapon.

With this super weapon, all their safety can be guaranteed, and now they are more confident. Although others don't know it yet, if they are really threatened, this is their trump card.

Moreover, the leader also gave another task. Firstly, this is to deceive people, and secondly, to ensure the safety of this thing, he asked Qin Yuan to re-establish a special warfare brigade, so that there are two distributions, and as the two special warfare Commander-in-chief of the brigade.

"Qin Yuan, do you still have any doubts about this arrangement? Are there any difficulties? Just say, I can satisfy everything now, including the conditions you want to mention."

"Leader, this arrangement is very appropriate, and I will try my best to do it well."

"Okay, everyone, then I hope that today's matter will come to an end here temporarily. None of us can mention this matter to the outside world. Qin Yuan will be fully responsible for the safekeeping."

After everyone came out of that room, Xiao Zhang couldn't wait to run forward, but the leader was indeed indifferent, "Okay, there's nothing else going on here, everyone should go back first."

Xiao Zhang didn't get any news, and he put a cold ***** on his hot face. After everyone left, it was strange for Xiao Zhang to go to that room. The room was empty and there was nothing, so what were they doing? Just had a meeting?

This matter has come to an end, no one can guess the mind of the big leader, everyone can only obey the order.

On the way back, the corners of Gao Shiwei's mouth couldn't stop rising. He patted Qin Yuan's shoulder with great emotion, "I really didn't expect that, you boy has already climbed on top of my head now."

"Team Gao, in fact, I couldn't do without the Special Operations Brigade if I can achieve today's achievement. I'm not a person who doesn't know how to be grateful. Internally, we still have our own opinions. You are still my high team."

"What are you talking about, you silly boy? Do you think I am the kind of person who is greedy for fame and fortune? You are all soldiers brought out by me. The higher you climb, the better. Of course I hope that you are all better than me. I am the master of these things. It doesn't matter, I'm really happy."

"But I always feel that this is a bit bad, and it's too unfair to you."

"What's fair or unfair about this? You've done us such a great service, but it's considered low to just give you this seal. It's estimated that the order has already gone to the brigade. You just wait to receive the welcome. "

What Gao Shiwei feels more relieved is that now he doesn't have to worry about other countries plotting wrongdoing. After all, no one wants to go to war, but there are always some people who are obsessed with interests for their own interests. Now that they have these weapons, they are more confident .

It is also a good thing to develop another special warfare brigade, which can expand the scope of special operations, and it will be controlled by Qin Yuan himself, which also makes him more at ease.

The news that the second special warfare brigade will be established soon spread, according to the order above, the second special warfare brigade will be named Blade Their blade special warfare team will be as ruthless as this sharp knife It penetrates into the enemy's heart every moment to achieve a fatal blow.

This kind of reform is sudden to everyone. After all, everyone has accepted the fact that there is only one special warfare brigade. Now one is suddenly distributed. How is it divided? Do you want to assign the old members here?

While everyone was discussing, the red blood cell team had already been called out by Qin Yuan alone, and it was not so easy to set up another special warfare team.

"Brothers, I know that you have been following me, and I know your abilities very well. Now the higher-ups have assigned a very difficult task, you all know it!"

"Brother Qin, if you have anything to say, just tell us directly, we will never do anything if you say anything."

"I want you to be my special warfare instructors!"

What Qin Yuan said was very brief and very affirmative, but if they become special warfare instructors, it means that there will be some important tasks that can only be assigned to other people in the future, and it is not a joke that they have to lead the team for training .

Just like their previous Lone Wolf Group B, they have basically retreated to the rear and started to cultivate new forces.

"Brother Qin, since our red blood cell team was born for special warfare, I don't think it's a problem. No matter what task we are asked to do, as long as it is beneficial to the country, we can do anything."

"Hey you, Er Niu, now your awareness is good, and you have improved so much."

"Isn't this under the influence of everyone, I really want to do something practical for everyone sincerely, no matter what we do, we are willing to follow you."

Chapter 1589: The 2nd Special Operations Group

As soon as this was said, the leader next to him surnamed Zhang was a little embarrassed. What is this guy doing? Isn't it obvious that you are bullying him? Just ruled him out.

"What do you mean? Did you deliberately not let me go because I told you just now?"

"Sorry, don't think so much, I just want three people to go in from the beginning to the end."

Because the water in it is too deep, he doesn't want too many people involved, it will destroy his plan, and the possibility of leaking the secret will be very high.

Xiao Zhang was still retorting endlessly, but unexpectedly, the leader agreed. This is also what he meant. He didn't want too many people to know about this thing, so just take a look to confirm the authenticity.

"Leader, do you really want to go in alone? I think you should bring two bodyguards. This guy doesn't know what tricks he will play. Although he is from the military, I always wonder if it will hurt you." What a threat."

Good guy, Qin Yuan didn't even understand how he offended this person, and just came here, so he frantically smeared himself.

Gao Shiwei's eyes said everything. This person was originally the kind of small-bellied person. He was said a few words by Qin Yuan before, but he didn't get the leader's flattery. Of course, he blamed them all.

Qin Yuan didn't bother to argue with this person, whoever got the leader to agree, just like that, the leader, another military chief and Gao Shiwei walked into the room together.

Xiao Zhang and the few people around him stayed outside in embarrassment. He paced back and forth anxiously, wanting to know what it was.

A few people came out after half an hour, because the leader explained this thing emphatically inside, and after he considered it, he still put it in the special warfare brigade, which is currently the safest place.

Secondly, if someone really wants to investigate, they will never think that they will put this thing in the special operations brigade. The more dangerous the place, the safer it is.

Qin Yuan also did a good job of keeping secrets. Frank is the one who knows the news, but his information is incomplete. He only knows that Qin Yuan has destroyed the super weapon.

With this super weapon, all their safety can be guaranteed, and now they are more confident. Although others don't know it yet, if they are really threatened, this is their trump card.

Moreover, the leader also gave another task. Firstly, this is to deceive people, and secondly, to ensure the safety of this thing, he asked Qin Yuan to re-establish a special warfare brigade, so that there are two distributions, and as the two special warfare Commander-in-chief of the brigade.

"Qin Yuan, do you still have any doubts about this arrangement? Are there any difficulties? Just say, I can satisfy everything now, including the conditions you want to mention."

"Leader, this arrangement is very appropriate, and I will try my best to do it well."

"Okay, everyone, then I hope that today's matter will come to an end here temporarily. None of us can mention this matter to the outside world. Qin Yuan will be fully responsible for the safekeeping."

After everyone came out of that room, Xiao Zhang couldn't wait to run forward, but the leader was indeed indifferent, "Okay, there's nothing else going on here, everyone should go back first."

Xiao Zhang didn't get any news, and he put a cold **** on his hot face. After everyone left, it was strange for Xiao Zhang to go to that room. The room was empty and there was nothing, so what were they doing? Just had a meeting?

This matter has come to an end, no one can guess the mind of the big leader, everyone can only obey the order.

On the way back, the corners of Gao Shiwei's mouth couldn't stop rising. He patted Qin Yuan's shoulder with great emotion, "I really didn't expect that, you boy has already climbed on top of my head now."

"Team Gao, in fact, I couldn't do without the Special Operations Brigade if I can achieve today's achievement. I'm not a person who doesn't know how to be grateful. Internally, we still have our own opinions. You are still my high team."

"What are you talking about, you silly boy? Do you think I am the kind of person who is greedy for fame and fortune? You are all soldiers brought out by me. The higher you climb, the better. Of course I hope that you are all better than me. I am the master of these things. It doesn't matter, I'm really happy."

"But I always feel that this is a bit bad, and it's too unfair to you."

"What's fair or unfair about this? You've done us such a great service, but it's considered low to just give you this seal. It's estimated that the order has already gone to the brigade. You just wait to receive the welcome. "

What Gao Shiwei feels more relieved is that now he doesn't have to worry about other countries plotting wrongdoing. After all, no one wants to go to war, but there are always some people who are obsessed with interests for their own interests. Now that they have these weapons, they are more confident .

It is also a good thing to develop another special warfare brigade, which can expand the scope of special operations, and it will be controlled by Qin Yuan himself, which also makes him more at ease.

The news that the second special warfare brigade will be established soon spread. According to the order from above, the second special warfare brigade was named Blade.

Their Blade Special Forces will ruthlessly penetrate the enemy's heart like this sharp knife, achieving a fatal blow at all times.

This kind of reform is sudden to everyone. After all, everyone has accepted the fact that there is only one special warfare brigade. Now one is suddenly distributed. How is it divided? Do you want to assign the old members here?

While everyone was discussing, the red blood cell team had already been called out by Qin Yuan alone, and it was not so easy to set up another special warfare team.

"Brothers, I know that you have been following me, and I know your abilities very well. Now the higher-ups have assigned a very difficult task, you all know it!"

"Brother Qin, if you have anything to say, just tell us directly, we will never do anything if you say anything."

"I want you to be my special warfare instructors!"

What Qin Yuan said was very brief and very affirmative, but if they become special warfare instructors, it means that there will be some important tasks that can only be assigned to other people in the future, and it is not a joke that they have to lead the team for training .

Just like their previous Lone Wolf Group B, they have basically retreated to the rear and started to cultivate new forces.

"Brother Qin, since our red blood cell team was born for special warfare, I don't think it's a problem. No matter what task we are asked to do, as long as it is beneficial to the country, we can do anything."

"Hey you, Er Niu, now your awareness is good, and you have improved so much."

"Isn't this under the influence of everyone, and I really want to do something for everyone sincerely. No matter what we do, we are willing to follow you."

This is also Qin Yuan's original intention. Although they have temporarily retreated, he will still take the red blood cell team out if there is any special important task. It is impossible for the red blood cell team to disband.

They thought they were going to divide the special warfare brigade into two, but it looked like they were starting from scratch.

"Captain Gao, will they also follow us to the Dragon Corps?"

"No need for this. Our red blood cell team has already been separated, and there must be vacancies. Their wolf warrior team needs to withstand most of the tasks, waiting for us to train new strength."

Everyone agrees to follow, and they don't need the consent of the high-speed officer. After all, Qin Yuan has greater rights, and he is now the commander-in-chief of the two special warfare brigades.

Out of politeness, Qin Yuan discussed with Gao Shiwei, but Gao Shiwei told him not to worry about it. Originally, he also wanted to send people there, otherwise how could he do it as a poor commander?

"If you don't tell me, I will send them to you. These guys are doing very well."

A brief farewell to Gao Shiwei. He will bring the red blood cells, and the team members will set off immediately. All the work must be done by him, and he will complete the reselection of the address and selection.

Choosing an address is relatively simple, for him it is ok, the main reason is to facilitate training, and he handed in all the design drawings of the training ground.

Soon the above news spread, and the design proposals and requirements made by Qin Yuan can basically be completed within three months.

Now the problem of the address has been solved. It was originally a selection, and everyone sat together to discuss this matter.

He Chenguang looked at the maps of several major military regions, "Brother Qin, I didn't pour cold water on you. You should know that the name of our special operations team has never been very good. It might be too difficult."

Qin Yuan was full of confidence, because it was not a problem at all. This time, he had placed the order of the big leader above. With the big leader as his hole card to support him, who would dare to watch around.

Another facade is him, this time he is the commander, as the instructor of the Blade Special Forces, this is the signature.

Qin Yuan immediately worked out a detailed plan, and now he is going to conduct special recruitment for the entire military region, everyone can sign up, and there is no limit to recruits.

"Brother Qin, wouldn't it be a bad idea to not limit recruits? At that time, all kinds of messy people will come in, and we will be very tired during the selection process, and we will not have enough manpower."

"That's no problem. Don't underestimate those recruits. Some recruits hide their secrets. Besides, I have already found helpers. I have temporarily borrowed Jiang Xiaoyu and the others from the Marine Corps."

Qin Yuan now has the support of a big leader, coupled with his own prestige, it should be very easy to gather people together.

The next morning, Jiang Xiaoyu and the others also came here to report that they were going to start the first batch of selection with Qin Yuan. This was unprecedented, and everyone didn't know what happened.

Suddenly it became a reform. After the reform, special recruitment began, and the special recruitment was approved by the top leaders.

With this special recruitment, they also started a year's big selection, this time the selection conditions are completely unlimited.

Before, they all selected elites from among the elites, but this time the situation was different, because only a few months had passed since the last special move.

It is impossible to get so many people, that's why Qin Yuan came up with this idea, everyone is no exception.

It is also possible to find some unique seedlings among those recruits, but everyone is discussing this in the recruit company, and they think this matter is too unreliable.

In a company under the Eastern Combat Zone, these recruits have just completed three months of basic training, and now they are starting to distribute to the company.

Unexpectedly, this order came down, everyone is not limited, and everyone can sign up, so everyone exploded.

The company commander of the recruit company looked at the recruits who had just been assigned, and felt that they were fooling around, "I had a very reliable impression of this group leader before. How could he come up with such an idea? These recruits are all A group of rookies, how do you pull this up?"

"Company commander, we have nothing to do now. We can't stop them from signing up. We can only go with them. Besides, who can guess what he is thinking?"

"It's just to increase the workload for everyone. All the cats and dogs have signed up. If this is the case, can I go too?"

Having said that, the company commander of the recruit company also began to be eager to try, and he also went to have a look, maybe he will be selected.

This has set off a wave of waves. The previous special operations troops were out of reach for ordinary company soldiers like them. Many soldiers have only heard of his mysterious veil, and now they directly open the door. Be open to them.

The registration for the first week was finally over. What Qin Yuan didn't expect was that according to the statistics, there were more than 7,000 people who signed up.

Li Erniu looked at the registration form, which was taller than everyone else, and was stunned for a moment, "Hey, I'm going, this is too exaggerated, everyone already has a reinforcement group."

"I didn't expect everyone's enthusiasm to be so high."

Wang Yanbing had a wry smile on his face. He said that if the people below still stopped him, there would probably be more people than this.

The registration has ended. Although there are many people now, they have to conduct a preliminary screening. This first step is still in accordance with the tradition, which is to put them all together for a great escape.

It's just that their opponents are not each other, Jiang Xiaoyu's team and the red blood cell team, the workload is really too big, Qin Yuan has no choice but to separate the selection.

Let's start with more than 2,000 people, but their two teams will have more than 2,000 people, which sounds a bit too exaggerated.

He Chenguang suggested to ask people from other companies to help. Many of the companies below them are still very good to be eliminated and selected. There is no problem.

But it was directly rejected by Qin Yuan. The special forces team members he wants now must be selected by him from the beginning to the end. He knows who he wants.

Everything must be done according to his requirements and targets, and the first step must be strictly checked, otherwise they will be exhausted later.

There are only five people in Jiang Xiaoyu's side, and the ratio of their red blood cell team is really too big.

Chapter 1590: Selection of 2000 people

These few people were going to be eliminated, and a team of more than 2,000 people was selected. It was a bit too exaggerated to say it, but the requirements and assessment were issued soon.

After seeing it, everyone felt that Qin Yuan played too much this time, because it was impossible.

The secretary of the Special Operations Brigade also frowned with the request, and hurriedly sent it to the office. Isn't this just nonsense?

"Not to mention these soldiers who have basic training, there are still many veterans. Even if there are more recruits, there are still many experienced people. How could they be eliminated?"

Gao Shiwei was drinking tea slowly, and he felt that there was no problem, "Anyway, he has already let go of it, so what are we worried about? deal with."

"Captain Gao, don't you think that since the boss above gave him precise regulations, he has become more and more unscrupulous. Don't you think this is nonsense? Everyone is talking about us."

"It's their business to say what they like. You can't stop other people's mouths. It's not a day or two for us to be discussed by others. Forget it, don't say it, let him go."

The secretary was stunned. When did Team Gao protect Qin Yuan so much? Before, he would take care of him a little bit, but now the status is really different.

Gao Shiwei was also very caring. He knew that Qin Yuan must not have enough manpower now, so he specially dispatched the Thunder Commando Team there.

Qin Yuan had already formulated a plan, and the workload was really heavy. They had to eliminate all the two thousand people within three days, and then proceed to the next batch. To grasp the degree.

This is the first real special forces team that has passed his hands, so his requirements are relatively strict. From the first level, he has to be selected by his own people and follow his requirements.

When several people were having a meeting, a person came in through the door. Qin Yuan looked up and saw that it was Lei Zhan.

At this moment, his hand was still on the door panel, but the weak door frame fell down with a bang, and half of the doorknob was still in his hand.

Lei Zhan was stunned for a moment, he didn't use his strength to push it lightly, which was too exaggerated.

The team members behind them all look down on the big eyes, what's the situation? "I said Captain Qin, your quality is too bad, I didn't do anything."

At this time, Hades behind was very excited and shouted loudly: "Brothers in front give way, let's see what delicious food I brought."

Unexpectedly, there was a tree root under his feet, and he stepped on it, and fell directly into the small room due to inertia, and the several boards supported by the side couldn't withstand such a collision in an instant, and they all collapsed.

Several people have black lines on their faces. Are they here to help or to participate?

"I said, can you guys be more careful? Can't you be more polite when you do things? Everyone is a civilized person. You just came here to tear down our house after seeing it."

"Don't talk nonsense, look for yourself, who would have thought that you are also in this barren mountain and wild forest, we have already worked hard, besides, can't we make it stronger?"

Speaking of this, Li Erniu smiled embarrassedly. He was indeed the one who built the tofu dregs project, but the location was not confirmed at the time, so they just built it here. Anyway, they will not stay here for a long time. Just shelter from the wind and rain.

Not to mention sheltering from the wind and rain now, it's all collapsed, so we can only think of a way again, plus their personnel have also expanded, and now that there is a thunder and lightning commando to help, Qin Yuan is more confident, so there is no problem.

Qin Yuan immediately designed his own elimination plan. According to the previous three days, he gave them an accurate goal, and those who arrived at the goal within three days could stay, and all those who didn't feel it were eliminated. During this period, they are only provided with weapons and equipment and food once.

During this period, members of the special operations team chased them. This time it was not just a simple pursuit. During this pursuit, their on-the-spot reaction ability, basic design ability and their speed were tested.

But their ratio is still very low looking at it this way, Qin Yuan thinks there is no problem, their special forces are not joking, and it is no problem to deal with these people.

After all the preparations, we waited for the next day's gathering to start the elimination. Everyone valued this selection very much. Many people regretted not signing up, because they felt that the selection standard this time was too low.

So a few instructors against more than two thousand people, isn't this a joke? Some people even said that even if they caught 2,000 pigs within three days, they didn't catch them so fast.

But there are also those who are sober, because among them is Qin Yuan. His ability is one against a hundred. This is not a problem. Soon the day of selection will come, and everyone is ready.

This time the battle was very big, the first few cars were all participating in the selection, it was vigorous, and there were two cars behind.

When there were too many people, it felt like they got up for a spring outing. After everyone got out of the car, they gathered quickly, and Qin Yuan stood on it and began to explain the rules.

"From now on, remember that every word I said is not too much. There is only one place. After turning over three mountains, there is a banyan forest after going down. The swamp of banyan trees is just across the swamp."

Qin Yuan smiled. After introducing the map, he continued to say, "How is it? Do you think it is very simple? As long as you remember this basic route, it's fine. Anyway, you can run around the three mountains as you please. More people than us, right, and let you two hours in advance."

The team members below laughed out loud when they heard someone here. They felt that this time it was a waste of money. This kind of selection is basically no problem, and it is not as strict as in their company.

The main reason is that many recruits have only heard of Qin Yuan's reputation, but have never actually met him. Some people think there may be something wrong with the legend? This person doesn't seem to have much relationship with God of War, yet he can come up with such a rule.

With the end of the explanation, Qin Yuan would not repeat it a second time. He began to distribute the equipment. Everyone used the traditional 95-style assault rifle, and then each person fired three boxes of ammunition.

The first-generation battlefield dry food contains beef jerky, chocolate bars, and a bag of self-heating rice, which is much richer than they were at that time, after all, the environment here is relatively harsh.

But they need to hold these foods for three days, which is still relatively small. The best way is to divide all these foods into small portions, and then use them every day within the regulations. Even so, it is not enough , These things are at most a day's ration.

At this time, a soldier in the team raised his hand and asked, "Sir, if the dry food in hand is not enough, can I get it from other ways or other ways?"

Everyone was attracted by the soldier's voice, because in this case, everyone knew what method could be used to obtain it, and it must be robbing others.

It's only now that we can avoid internal competition. Everyone looks at this side with disgust, but Qin Yuan can understand. It's hard to be sure about human nature. Now is the time for our county's interests, and everyone is fighting for their own interests.

"This little comrade asked a very good question. Now, it's only the first round. There is no need to do this. I think you can persevere. If you can persevere, you will be opponents in the future. Now you are comrades-in-arms."

Hearing that most of the people in the team here are relieved, because they have reached an alliance a long time ago, and many soldiers are from the same company, so there is no problem with their cooperation.

Qin Yuan also kindly reminded them, it can only be said that the luck these guys have is too strong, or they haven't really realized his strength, and he also has his own plan, this time more than 2,000 people, His plan is to end up with only 500.

More than 2,000 people left 500 people. In fact, the ratio is relatively good. Qin Yuan just wanted to choose the stronger one.

The main reason is that in his special operations team this time, he plans to create a total of seven teams, so there are not many such people, and he will have to be selected layer by layer in the future.

Many soldiers were still talking and laughing, because this time the team was very large, they didn't have the slightest worry, even if someone was offending, they had already opened the bag of dry food and ate it all, because they felt like so many people, when the time came It's okay to light a fire on the mountain.

Most of the more sober ones are veterans, because they know very well what Qin Yuan means. The devil instructor is not joking. He has brought many people down to train them before. Such people are really ruthless characters.

Jiang Xiaoyu held a piece of dog's tail grass in his mouth, looked at the talking and laughing soldiers in front of him, and couldn't help sighing.

"Tell me who we recruited this time. We didn't take this selection seriously at all, and we were wasting our time."

"Forget it, don't worry about these things, and let them have a sense of experience, let them know what is more difficult. These people may be eliminated in the first batch, which is normal."

According to the previous regulations, they can start to set off after two hours. This is much easier than many of their previous selections. Two hours is enough for them to escape and hide.

The company commander of the recruit company originally wanted to bring a few recruits he was optimistic about before, but he didn't expect that those few people didn't plan to be with him at all.

"Yang Tianmo, come with me. Your marksmanship is better, and I have more experience in all aspects. Our cooperation will definitely last until the end."

"Company commander, I'm sorry, now I have someone to choose, I have to be with the people in our class."

Company Commander Zhao of the recruit company can't help it. Since this is the case, he can only look at other people. Unexpectedly, after asking around, no one is willing to be with him. This is normal, after all, everyone has already been assigned. up.

This is also a normal way of life. The recruit company no longer needs them. What they need now is to be in their own small teams, so no one will continue to be with him.

At this time, the company commander of the machine gun company greeted him and asked him to follow him. They were all veterans.

This lineup looks good, everyone is very experienced, and everyone is very well prepared. I looked at the time earlier, and now they have entered this mountain for half an hour. After another hour and a half, Qin Yuan and the others The assault is about to begin.

"We'd better stay away from them, hurry up as soon as possible, and climb over these three mountains first as before."

"It seems that several of us have the same idea. These recruits are really too proud. They don't know how powerful that guy is."

Company Commander Zhao is very thankful that he has met some old comrades in arms. If he is really with those recruits and has to take care of them, then it will be more troublesome.

Time passed by every minute and every second, Jiang Xiaoyu and the others couldn't wait for a long time. Finally, when the time came, everyone rushed in quickly. Qin Yuan hadn't felt such an exciting feeling for a long time.

Qin Yuan's speed was so fast that Jiang Xiaoyu and the others couldn't catch up at all. They only felt a breeze passing by, and Qin Yuan's figure disappeared in front of everyone.

He kept running, looking for the target. These guys were quite smart, and they kept running forward, but due to the large number of people left a lot of traces.

At this time, Qin Yuan saw a few figures. These boys really thought they were on a spring outing, but they were still sitting under the big tree repairing. They didn't take themselves seriously at all.

The corner of Qin Yuan's mouth twitched, and he aimed directly at the opposite side. After three gunshots, white smoke instantly rose from the three soldiers sitting under the tree. They also became the first batch of people to be eliminated.

The three of them were completely stunned, because they didn't hear any movement at all, and they didn't react until Qin Yuan walked towards them.

"I'll go, was he at a human speed just now? Why didn't I hear any movement? This place is quiet."

"Who knew this guy was too exaggerated!"

Opportunities are reserved for those who are prepared. For those who only want to take shortcuts, there will be no good end. This is the first batch of elimination.

Qin Yuan kept running around looking for targets. There were too many of them, but Qin Yuan's speed was also very fast, and seven people had been eliminated in just ten minutes.

Jiang Xiaoyu and the others also quickly followed. They kept shooting, but there were also some who had better marksmanship, so they were lucky enough to compete with them.

At this time, listening to the list of eliminated people on the radio, the number of people in Taoyuan continued to increase, and everyone became nervous, because so many people had been eliminated in a short period of time.

A few recruits also quickly put away their playful thoughts and started to get serious. These people walked in the general direction. They wanted to enter the deep mountains. Now they are all exposed in an open field, and they will easily be regarded as living targets.

"Wait, let me tell you guys, can you stop running? Can you wait? Is it necessary for me to do this?"
