

Special Soldier 1591

Chapter 1591: mass elimination

The speaker was Zhao Peng, who had just been assigned from the recruit company to the machine gun company. Before that, his marksmanship and close combat skills were good. He originally wanted to be assigned to the mobile company, after all, he could get access to tanks and chariots there.

Unexpectedly, he was assigned to the machine gun company, which made him somewhat unconvinced, especially when getting along with these people. Respect for recruits.

After all, the new recruits are completely separated now. After leaving the company, the veterans in it are more powerful than him, and they will overwhelm him immediately.

The previous ability is really not worth mentioning. This time he originally wanted to prove himself, so he participated. Unexpectedly, people in the same class as him would start to encourage him. Of course, this is what he thinks.

Xiaomeng, who was running in front, turned her head and looked at him, "You have this kung fu, hurry up and run together, don't you know what the Special Forces do? Don't say I'm targeting you, you recruit, I just hope you don't drag We'll do."

"With so many people, do you think it's really possible to catch up with us? Besides, now that we're running so hard, we ran in a different direction and deviated from the route. What should we do?"

It's really a lot of nonsense, I can't run anymore, and it's too exhausting on the top of the mountain, and they have to carry 30 kilograms of things on their bodies.

Hearing that the team members in front stopped here, the team composed of five of them still has to maintain unity of opinion. Since some people are tired, they should take a short rest.

"Okay, let's rest for a while now, but after the rest, you must go all out and go quickly, otherwise you will be caught up, and you will be in trouble."

"Hahaha, I agree with you, we have to recharge our batteries now, and get a good rest, otherwise, if you don't have the stamina, how can you run?"

When Zhao Peng said this, he simply threw the equipment on the ground, and then lay down directly. Xiaomeng next to him was a three-year veteran, and he couldn't help frowning when he saw this.

"Pick up your weapon, and give me the equipment. You must carry it on your back, and you can go in case of emergencies at any time."

Faced with Xiaomeng's reminder, he felt that Xiaomeng was targeting him instead, so he stood up a little unconvinced.

"I knew that you looked down on me very much in the class. Aren't you a veteran? What's so good about it? Why should I listen to you?"

"I think you are really a dog biting Lu Dongbin, and you don't know a good heart."

"Say it again, who did you say was a dog? Let me tell you, when it comes to fighting, I have never been afraid of anyone. Don't say you are a veteran, even if you are the squad leader, I can kill you."

This kid started talking nonsense again, and the people next to him quickly stood up to stop the two from avoiding a bigger dispute. Now is not the time for conflict, they must remain united.

Xiaomeng sighed, thought for a while, don't argue with this new recruit, seeing that Xiaomeng didn't speak, Zhao Peng was even more proud, he felt that he was justified, because from the beginning to the end he felt that these veterans were too arrogant, Isn't it just relying on being a few years longer than yourself?

At this moment, there was a burst of gunfire from a distance. Before Zhao Peng, who was lying on the ground, realized what was going on, a puff of white smoke rose from his body, and he was eliminated in this way.

Xiaomeng's reaction speed was very fast, and she rolled and hid behind the big tree, allowing everyone to quickly find the bunker.

"Ten o'clock direction, hurry up!"

As the gunshots rang out, everyone quickly retreated to the back, leaving only Zhao Peng on the ground. Seeing everyone running towards that side, he felt very uncomfortable. Why was he the only one eliminated?

Thinking of this, he felt even more uncomfortable, and grabbed a soldier's foot.

"Did you group of ungrateful guys leave me like this? The squad leader said before that we should help each other, and this is how you treat me."

"Zhao Peng, what are you doing? You have been eliminated now, how can we help you?"

"I don't care. Why should I be eliminated alone? You have to stay with me to be buried with me."

What he said was really infuriating, Xiaomeng stepped forward and didn't care that much, hit his hand with the ***** of a gun, and then pulled the soldier to make him leave quickly.

Zhao Peng clapped his hands and shouted helplessly on the ground. He felt that he was abandoned by those comrades.

After two minutes, the person who shot at them just now came out from behind. It was Jiang Xiaoyu and the recruits who were really too ignorant. This was the first time Jiang Xiaoyu saw someone directly throwing weapons and equipment on the ground. The gun is his own life is gone, nothing.

Before he could ask, Zhao Peng pointed at his back, "What are you still doing? Hurry up, they ran away from there."

To be honest, this is the first time I have encountered such a situation, and I have openly betrayed my comrades in arms, and I have said it so confidently.

Zhao Peng lay on the ground and watched Jiang Xiaoyu and the others being moved, and was instantly angry. What are these guys doing? I have already told them in which direction the person is running, why don't they chase after him?

"What are you doing? I see, all of you are targeting me. Don't you go after them just because they are veterans?"

"I'm sorry, but now you have been eliminated. On the battlefield, you are already a corpse. Can a corpse speak?"

"You! But..."

"What I don't like the most is a person like you who betrays his comrades. We won't believe what the corpse says."

After Jiang Xiaoyu finished speaking, he lifted him indifferently and asked him to pick up the equipment. Zhao Peng still didn't understand what he did wrong, and he didn't think it was a betrayal.

Zhao Peng kept holding his breath in his heart, but he didn't dare to attack. He just asked in a low voice: "Didn't you say that we have a helicopter to pick us up for the eliminated personnel? Why did you ask me to walk back?"

"There is a helicopter, but it's used to pick up other people. You don't know anything, you new recruit. Let me run back now."

In this way, Zhao Peng didn't understand, so he felt that he was targeted inexplicably, and others had taken him away by helicopter, but Balang followed him and kept monitoring him. Facing Balang's fierce eyes, he didn't dare to resist.

Li Erniu looked at the soldier running on the ground and still felt strange, but after Jiang Xiaoyu explained to him, he felt that he was not relieved at all, so he should let this boy run back and forth here.

This is the fate of being a traitor. They will never betray their comrades in arms under any circumstances. He thinks this kind of behavior is not betrayal, so what kind of behavior is it? Fortunately, this kid was eliminated. If he really committed a crime, it would be a hidden danger in the team.

Li Erniu and the others also started to act in batches. These people were indeed running too fast, and they had to hurry up. In this way, by the afternoon, more than 300 people were eliminated from a team of more than 2,000 people under their siege and interception. people.

The first day has not yet passed, and there is still a difficult time at night. Everyone has seen the power of the special forces. Now the weapons used by the special forces are the same as theirs, a complete ninety-five style.

The difference is the combat experience of the special operations team and their large number of people. Although there were some people who resisted during the siege this time, Jiang Xiaoyu and the others are not vegetarians.

These rookies know that resistance is futile, so they can only run forward desperately, and the three days are limited, the mountains ahead will take a lot of time, and now Li Erniu and the others are already arresting people all over the mountains.

He Chenguang didn't need to look at the map at all. He remembered that he was very familiar with the terrain. Now he would arrest people when he saw them. Anyway, according to Qin Yuan's instructions, he would eliminate 500 people on the first day.

Otherwise, the latter indicators will not be completed at all, and Ruan Ruan also said that if so many people cannot be eliminated on the first day, then all special forces members will be punished.

All requests must be arranged according to his request. Li Erniu wiped off his sweat. He was at the end of the line. At this time, he noticed that something was wrong with the grass in front. Why did it suddenly protrude?

He stabbed Wang Yanbing in front of him, and the two cooperated tacitly, and quietly went around from behind.

Wang Yanbing had already made a good posture, and jumped suddenly. Unexpectedly, he missed it. It was really just a grass, but there was something wrong with the grass, it was completely taller, and it didn't grow naturally at all. It looked like a human being. Deliberately.

"Hahaha, it's really interesting. I don't know which kid did it, and even played a trick on me."

At this moment, not far from the bushes, a pair of eyes were staring vigilantly at this side. Wang Yanbing couldn't help admiring, this kid is really a master of hiding, and they didn't even notice it.

He Chenguang also walked over curiously. After scanning around, he did see that guy was at the six o'clock direction.

All kinds of abilities can be highlighted in this place, as long as the final result can be achieved.

It is also a skill to be able to disguise and evade well, but it is a pity that He Chenguang feels that he still has to do business, and this kid was discovered by him, so he can only be eliminated.

Just when he was about to step forward, a voice suddenly came from the walkie-talkie. It was Jiang Xiaoyu and the others notifying them that they could close the team, and the number of people eliminated today had reached.

"Hey guys, what did you do? Could it be that you eliminated more than 50 people at once, or how could you achieve this goal?"

"Hahaha, I happened to meet a few recruits here just now, I didn't expect them to run around, and a lot of people were blown up."

Jiang Xiaoyu was full of excitement when he spoke. They had completed the task ahead of time, and Qin Yuan would let them have a good rest at night. After all, the blow they had given them during the day was already big enough, and the elimination will continue tomorrow.

Upon hearing this, He Chenguang also asked everyone to prepare to close the team, then he looked at the grass over there, and threw a stone over there.

"Boy, don't hide there, I have already found you, but I want to give you another chance, after all, now that our goal has been completed, there is no need to eliminate it, remember, you must hide well next time, don't be caught by us Found."

The people hiding in the grass have not dared to move until now, and it was not until He Chenguang and the others left that he poked his head out of the grass. This guy was covered with branches, completely disguising himself as a half-savage.

As expected of the Special Forces, he just took a casual look and saw through his disguise, and he found out exactly where he was. He felt that there should be nothing wrong with his disguise.

Following He Chenguang, they withdrew, and night fell. This was also the most difficult first night for these rookies. First of all, there was the problem of food.

They need to reasonably control their own eating situation, otherwise this food will not last for three days. Although Qin Yuan didn't say it clearly, there is no guarantee that someone will start to **** the food.

During the break, Xiaomeng looked at the food in front of him. He was also struggling at the moment, and the two teammates around him also showed embarrassed expressions.

"Are we really going to do that? If we eat all these things now, it's really very likely that we won't be able to last."

"But human nature can't stand the test. This is the first day that we were chased by them during the day. This day is less than a dozen kilometers. If some people can't hold on, there will still be problems of killing each other. After Xiaomeng finished speaking, he was still very worried. He was worried that if they really couldn't hold on after eating everything, they would also want to **** other people's food.

Finally, after discussion, they decided to store the food in batches. The three of them are veterans and know the special forces very well. They will definitely seize this opportunity.

The food is kept by one person. If there is any danger, then try your best to cover that person to leave, and if it is a situation where their own comrades in arms find each other to kill each other.

That basically doesn't mean knocking them out, because their goal is food, as long as they protect the food, that person can escape.

This night was very difficult for the rookies who had just entered the field. They had no tents in the wild and no measures to keep warm. The temperature dropped very low at night and they had to suffer from hunger.

That's why they really realized that the cruel selection of the Special Forces was just the beginning.

Just after dawn the next morning, Qin Yuan and his special operations team had already entered the jungle to start a new day of elimination.

The drones fly in the sky, broadcasting the number of eliminated people. The number of eliminated people has been increasing. Before, they thought that the number of more than 2,000 people was huge, but now the number of eliminated people is getting smaller and smaller.

Xiaomeng and the other three veterans are also relatively good, at least they have rich experience, and they persisted until the third day under such siege and interception. They just need to find the place after turning over the mountain.

During this period, many recruits chose to give up, because they couldn't bear it at all. Before, they thought they had an absolute advantage in numbers, but this was just what they thought.

Chapter 1592: Weeded out humanity

Even though they were distributing food along the way, there was not much food left in their hands by the third morning, and the food was simply not enough.

The elimination this time was a nightmare for everyone. Xiaomeng's sense of direction was very good, and soon he found the previous target point, which should be just passing through the woods in front of him.

However, at this moment, they heard a rush of footsteps from behind, and turned their heads to find seven or eight soldiers running towards them.

The teammate next to Xiaomeng walked forward with a smile on his face. It was good to meet other people at this time, at least they could cooperate.

After all, during the previous two days of fighting, their bullets were also consumed more, now one more person would get one more bullet, and they could fight together later.

The team member had just stepped forward when the person on the opposite side suddenly shot at him. Xiaomeng reacted quickly and pushed his teammate away.

It was still a step too late at that time, and white smoke rose from that teammate instantly. He couldn't believe that he was killed by his own people when he saw what happened to him.

At this time, the people on the opposite side didn't intend to stop at all, they kept attacking them, and Xiaomeng and the others quickly counterattacked.

At this time, a soldier on the opposite side suddenly shouted loudly, "I don't know which company you are from, but now we have an advantage in numbers, so let's not eliminate you, you throw all the bullets and food over. ."

This group of ***** was just taking advantage of the fire to rob, Xiaomeng clenched her fists. At this time, they obviously needed to be united, but they still stabbed a knife in the back, but this is human nature.

At this moment, Li Erniu and the others also quietly came to the back, after all, there were gunshots coming from here.

Just as Wang Yanbing was about to shoot, He Chenguang stopped him. This was an opportunity to watch a good show, so he asked the mantis to catch the cicada and the oriole to wait for them to consume for a while before everyone came forward.

Xiao Meng is now caught in a dilemma. He and his teammate next to him are leaning against each other. Now they are surrounded by enemies, and the opponent is running out of ammunition. No one dares to shoot rashly.

"You bastards, do you know what you're doing? Now we can get out together, I know the route."

"Hehe, what if they ambushes there after the past? What we need now is ammunition, please hand it over quickly, don't force us to do it."

In addition, the person on the other side also said something chilling. Their meaning is very clear. Now their special forces team's elimination goal is only 500 people left in the final 2000 people.

Therefore, they can speed up the progress of this elimination by assisting the elimination together, and the remaining people can enter safely.

But if they hand over their guns and bullets now, isn't this just forcing them to play at a dead end? What's the difference between eliminating them? When the time comes to meet other people, there is no chance of resistance at all.

Just when the two sides were at a stalemate, another team came behind. Because of the large number of people, everyone formed a team.

This group of people did not expect that the people coming from behind would suddenly shoot at them. Taking advantage of the gap between the two parties fighting, Xiaomeng led his teammates to break out of the encirclement.

In the end, the more he saw a dispute between human natures, Li Erniu and the others also took this opportunity to rush forward to meet them together. He really couldn't figure out why these people recruited on a large scale now would have such a Selfish and narrow minded.

He remembered that this kind of situation rarely happened in the eliminations they had experienced before. Everyone focused on cooperation, but now they actually thought of eliminating some internally first.

It's a pity, but these people were all eliminated. Xiaomeng and the others managed to reach the finish line. As the sky got darker, the countdown began.

The 500 people Qin Yuan mentioned before was just an approximate number. He looked at the time, and the selection would be terminated as soon as the countdown was over.

After all, there are too many people for him to select, this is just the first batch of people selected, and he will go through three such selections later.

Xiaomeng thinks she is lucky, but this is only the first time, after the selection later, they will have the second, third, until seven special warfare teams are selected.

He slumped on the ground with a tired face, and Li Erniu next to him threw two compressed biscuits.

"You're a pretty good kid. I remember meeting you twice before. You are very agile, and your marksmanship is also good."

Xiaomeng smiled, "I know you, and we came from the same regiment."

Unexpectedly, Xiaomeng in front of him also came from Iron Fist Group. Li Erniu was already quite enthusiastic, so he couldn't help chatting with him beside him.

But this scene was firmly remembered by a soldier behind. After a while, Qin Yuan blew his whistle to signal the end of the elimination.

"Everyone has to say that you are lucky. Congratulations on passing the first test, but you only have three days to rest."

Once these three days pass, they will enter the second batch of elimination. Everyone here is in a state of complete obscurity. Didn't they mean that all the people will be eliminated before selection?

They thought they could have some time to rest, at least to let them catch their breath. The three-day escape made them exhausted.

Qin Yuan didn't play cards according to the routine. He had to do the first batch of elimination and the second batch of elimination at the same time, so he paid attention to efficiency, otherwise he didn't know when he would be able to formally eliminate the players.

The main reason is that there are too many people this time, so this method can only be used. Qin Yuan also explained the rules. These 500 people will be taken to the snowy plateau by them, and they will undergo the most severe test and receive training on that place. .

He didn't stipulate how many teams these 500 people could select. In the end, judging from their results, it is still unknown.

"Now I can also remind you that I took the team to train on the snowy plateau before. The average temperature is minus 30 degrees Celsius, which belongs to the high altitude and high cold environment. If someone is afraid now, they can directly choose to quit. "

Many people are really hesitant when they hear this, but if there is trouble in the plateau area, people will really die.

Some people also began to question whether this kind of selection would be too fast, and it would come one after another, and everyone's body couldn't bear it at all.

Although some people questioned it, no one dared to stand up and say that after all, Qin Yuan represented the strongest ability, and if he wanted to enter the special forces team, he would definitely need his approval.

Qin Yuan took a look, and no one had any objections. Just as he was about to lead the team back, a soldier suddenly stood up.

"It seems that there are still some sensible people among you. Let me tell you that the subsequent elimination rounds will be very difficult. It is wisest to leave now, and I will save you from eliminating you."

Unexpectedly, that soldier did not intend to take the initiative to leave the game, but stood up and said indifferently: "Instructor, I want to report! I want to report someone who is covering up others!"

Qin Yuan frowned and turned his head, which surprised him a bit. You must know that cover-up incidents are never allowed within the scope of his jurisdiction, which is absolutely unfair.

"What's going on? Tell me in detail."

After the soldier came out, he had a slight injury on his foot, but he hesitated a bit, "I'm a little scared now, I'm worried that what I say will affect my subsequent elimination, what if he retaliates against me? "

There is such a thing? Qin Yuan became more interested. He patted his chest to ensure that he was there, and it was absolutely impossible for anyone else to embarrass him, so he could speak boldly.

"Okay, I want to report that some of you special forces team members have colluded with our selected team members, and he is secretly helping him."

The willingness to say this is stunned, this is absolutely impossible, how could he not know about the soldiers he brought himself? He turned his head to look at a few people, they were also dumbfounded, they didn't know what was going on.

The soldier stood up and pointed to Li Erniu more clearly, saying directly that he was in collusion with Xiaomeng.

Li Erniu rushed forward, grabbed the soldier by the collar, "You kid is spewing dung here, isn't it! I'm aboveboard!"

Just when he was about to wave his hand, Qin Yuan grabbed him. Now is not the time to do it. So many people must explain this problem clearly, otherwise their names will not exist in the future.

Unexpectedly, after talking for a long time, the soldier actually said that it was because of what Li Erniu and Xiaomeng said just now.

Qin Yuan only found it funny when he heard this, he looked at the soldier and then at the people around him, "Does that mean I also want all of you? I remember you were in the tank regiment for three years, and I also went to you in that year. However, there are also your machine gunner company, night tiger reconnaissance company, I can say this, I have gone to most of the companies in the military region."

"Do I have to cover everyone? It's best not to talk about things without evidence. If it's on the battlefield, it's in my heart, understand?"

The soldiers were instantly frightened by Qin Yuan's aura. Just now, he really didn't understand and had doubts, but the team members next to Xiaomeng tried their best to prove it to him.

After this episode, on the way back, Li Erniu punched the back seat indignantly. What he couldn't stand the most was being misunderstood and wronged.

"Brother Qin, I really don't know what happened to the people selected this time. Can you see someone attacking your brother? Right behind their backs, they killed each other."

"I know this. I've expected it before. The soldiers now are different from ours. They don't know much about our special operations team. Many things need to be adjusted slowly."

Li Erniu and the others don't know why Qin Yuan is so calm. These guys are attacking his brothers. What they don't know is that after training so many special forces, Qin Yuan has already deeply understood the word human nature. , There are many things that need to be guided by him slowly.

In this elimination, because of the large number of people, everyone felt that the opponent was an opponent, so they treated their own people mercilessly.

This matter has both advantages and disadvantages. On the one hand, it can also relieve Qin Yuan and the others' pressure. He turned his head and looked out the window. This matter is getting more and more interesting. He doesn't know what wonderful performances will be encountered in the subsequent elimination.

Although Qin Yuan didn't punish the soldier, he was treated separately after getting into the car. No one wanted to sit next to him or talk to him.

This is not a good situation for him, because they will enter the snowy plateau later, and it will be too difficult to be selected and eliminated in that place if there are no reliable teammates around them.

Soon they were pulled into a yard, which was filled with temporary board houses as their dormitory.

Everyone has a number. From now on, according to their performance, each person has 100 points, and after the 100 points are deducted, they will be completely out of the game.

After these three days of selection, everyone was very tired. After receiving their things, they went to the dormitory to prepare for rest.

They still have three days to rest, but they don't know where the snow-covered plateau is. At this time, a soldier from the Yehu reconnaissance company came over and looked at Xiaomeng who was arranging clothes on the bed.

"Brother, my name is Zhang Long, how about it? We can form an alliance. After all, we are from the same area. I have two brothers over there."

"No problem at all."

Veterans like them understand the latter situation, and it will only get worse, so it is a good thing that someone is allied with themselves.

"Then let's talk about it like this. We will set off together in three days, but no matter what happens, we can't betray our teammates."

"Don't worry, we definitely won't. By the way, I still want to remind you to stay vigilant tonight."

Zhang Long was a little surprised. Could it be that there will be some unexpected situation tonight? Xiaomeng showed a meaningful smile. He knew these special forces too well. Now that he has said that they have points deducted, he must keep it.

Perhaps from this moment on, all their behaviors have been observed.

Zhang Long shook his head. Logically speaking, it shouldn't be possible. After all, they have just experienced three days and two nights of hard work, so they should take a good rest now.

He had just walked to the bed when he suddenly heard someone yelling, turned his head and saw countless tear gas bombs thrown in from around the window.

He reacted quickly and ran towards the outside, but he didn't expect that the door was locked from the outside. At this time, a voice came in.

"You still have five minutes to assemble. Pack up your equipment and prepare to break the door. For every minute added to the time, I will drop five tear gas bombs."

This guy is not kidding, is he? The soldiers inside were so smoked that they burst into tears and coughed non-stop. In this smoky environment, they had to quickly fumble for equipment.

Many new recruits are simply confused, squatting on the ground already choked and unable to move freely. How can they pack their equipment under such circumstances?

Chapter 1593: sudden live ammunition

After these rookies ran out with all their strength, Qin Yuan had already made people start deducting points. In this case, no matter how fast the reaction was, they did not meet Qin Yuan's requirements, and everyone was deducted points.

This situation is different from what they thought before, and it is much more serious than they imagined. These soldiers are still coughing violently. They have not yet reacted from the chaotic environment just now, and some people are still in the dormitory and have not come out. .

In the end, he was dragged out by Li Erniu and the others. After all, if he didn't come out again, he would really faint inside, and it would be bad for anyone if something happened.

Li Erniu kicked a soldier on the ass, "Damn it, you can't run, do you want me to go in and recite it for you?"

The soldier's face was full of anger. He was choked and speechless, but he ran to the middle of the line and still raised his hand vigorously.

Qin Yuan threw a water bottle in front of him. He raised his head and drank a few sips, then washed the choked tears off his face. His eyes were red and bloodshot, which was caused by the tear gas bombs.

"I think your training is too unfair. Is this the special forces I know? Then I choose to give up. This is training animals. Animals are treated better than this."

The soldiers on the ground stared at him with big eyes, this guy is too daring to say it.

Qin Yuan squinted his eyes and looked at him with a smile, beckoning him to continue, the soldier seemed not satisfied, and continued to angrily reprimand them for their various behaviors, thinking that such training had no moral bottom line at all, so he didn't treat them as human beings Look.

After he finished speaking, Qin Yuan stood up and said seriously: "This time I made an exception and recruited special forces from among the recruits, that's why I encountered such a situation, you can take a look from among the veterans to understand what It is the special operations force, what is a special operation?"

After speaking, Qin Yuan pulled Wang Yanbing away and showed everyone his leg. All the soldiers gasped when they saw it. They never expected that Wang Yanbing, who usually moves so nimbly and nimbly, had a prosthetic leg. .

This is the life of real special forces, not those shown in TV dramas. Their sense of security comes from themselves. Only by continuous training and continuous overcoming can they protect themselves better.

Otherwise, why send these people to the front line? What they have to do is to ensure the greatest safety of the people, and they perform the most dangerous and special tasks.

"You have to know that the special forces are never acting. The gangsters and criminals we face are the most vicious. You don't know how many lives they have lost. They will not be kind to you."

Qin Yuan's words shocked everyone, and everyone was silent. This is the true meaning of the special forces. After he finished speaking, he looked at the people on the ground.

"Now that I have finished my words, if someone wants to withdraw, they can withdraw at any time. I know that I respect your choice."

After two minutes, someone stood up and chose to abstain. It was indeed a wise choice. Since you can't bear the hardship now, you should quit early and don't feel sorry for it later.

The withdrawal just now was just a small episode, the selection is still going on, and the other side of the selection is completed by the Thunder Commando. They cooperate with Jiang Xiaoyu to carry out the selection of 2,000 people, so as to buy time to the greatest extent.

After a week of elimination, there are only 300 people left among the 500 people. Everyone feels that life is in dire straits every day, and there are different challenges waiting for them.

From the initial load-bearing of 5 kilometers to 10 kilometers, 20 kilometers, 30 kilometers or even super long cross-country training, survival in the wild.

They had just finished the 20-kilometer cross-country training and marksmanship shooting in the morning, and they were pulled to the fighting training ground in the afternoon.

Now all they think about is obedience, obeying orders, and taking a rest after training. Everyone has no mind to think about other things.

If the training task is not completed, the people behind will have to starve. It can be described as Devil Zhou. These rookies were dragged into the quagmire by Qin Yuan and asked them to fight in close quarters.

"Come on, show your best abilities and defeat the opponent. At this moment, he is no longer your comrade in arms, but your opponent. Your victory or defeat depends on what you eat today."

Again, everyone seems to be used to the fact that those with good grades are ranked at the top, of course they are entitled to delicious and spicy food, and those with bad grades can only eat leftovers. This is the reality.

Qin Yuan sat beside him leisurely and roasted the hare. The smell inspired people like them to fight. It might not be surprising that the hare was normal, but for them who have been eating steamed buns for a week, This is simply delicious food.

Following the order of the whistle, everyone fought together. Everyone used the usual combat training moves. Some people were knocked down and others got up. Everyone didn't want to admit defeat and wanted to persevere until the end.

Later, due to differences in physical fitness and skills, some people could no longer get up, and the winner also climbed ashore, and they could eat barbecue next to them.

Just in the middle of the process, suddenly a soldier in the quagmire screamed, and then called loudly to call the ambulance personnel.

Qin Yuan sensed that something was wrong, and rushed forward, only to see that the soldier's eyes were bleeding, and he was clutching his lower body in pain.

Opposite him was a tall soldier, sitting on a mud puddle, staring viciously at his opponent.

"Ah! Help, I need medical treatment, my eyes, my eyes!"

The soldier cried out in pain, but the person on the opposite side was very indifferent and completely ignored his pain. Qin Yuan stepped forward to examine him, and his eyes kept bleeding, which could already reach the level of disability, because the inside The eyeball has been damaged.

Not only that, his urethra was directly kicked open, Qin Yuan just put his hands on the soldier's body and realized that this opponent was too ruthless, he was trying to kill him.

Fortunately, Qin Yuan has a strong recovery ability. He seized the time to treat this soldier. After Li Erniu knew the situation, he walked to the shore, dragged the soldier who was still gnawing on a rabbit leg, and punched him in the face. .

"You ***** is really embarrassed to eat here. Look at what you have done?"

"Hehe, sir, isn't that what you guys said before? I really did it to defeat the opponent by all means. What are you guys doing?"

"All the means we said are for you to apply to the enemy. Now he is your opponent and your comrade-in-arms. This has different meanings. Do you know what you did just now? You almost ruined his life."

But the soldier didn't care about it at all. He sat on the ground indifferently, patted the dirt on his hands, and continued to gnaw on the rabbit legs on his hands.

Such a person is really terrifying, Qin Yuan helped the soldiers walk down, and explained the rules again, telling everyone not to make such insidious actions.

There is no need for such a person in his team, he walked over and looked at the soldiers in front of him, "Very good, now you are eliminated."

This soldier is called Wang Dahu. He was famous for being fierce in the team before. His boxing and fighting are very good, but he just likes to make dirty tricks.

After making dirty tricks, I still have to complain about other people's inability. I didn't expect him to meet Qin Yuan today. He is a very principled person. No matter how strong his other abilities are, his shots are too ruthless. Such a person If you put it in the team, something will happen sooner or later.

"Why do you eliminate me? I did as you asked. I am the winner now, and I won."

Qin Yuan stepped forward and punched him directly in the chest. He was knocked down to the ground and wanted to stand up, but found that there was severe pain in his chest, which made him unable to get up at all.

"Now that you have failed, I will make the rules for elimination. If I say you are eliminated, then you will be eliminated. And you should wait for the job change notice. You don't deserve to be in the team at all."

Everyone was stunned by this news. What's going on? If you are eliminated, you are eliminated, why are you even deprived of the rights in the team?

Wang Dahu couldn't believe his ears, he pointed at Qin Yuan angrily, and asked him why he had the right to treat him like this, but he forgot Qin Yuan's rights, and he really gave him this right.

In the end Wang Dahu was dragged down, he was still roaring unwillingly, He Chenguang also stepped forward at this time, did he think Qin Yuan's handling this time would be a little serious? Since the tricks of the underworld are used here, it is enough to eliminate them directly. I didn't expect him to be unable to become a soldier. Is this too exaggerated?

"Brother Qin, that person is from the Third Army. It's a big deal if we do this. Is it too serious to expel him from the army?"

Qin Yuan knew what He Chenguang was worried about? Worried about offending the leader over there, but he never considers these things when he does things. He doesn't care who the person behind this person is, he has his principles.

The moment he came into contact with Wang Dahu just now, he felt that this guy was extremely violent and ferocious. He usually treats his comrades like this. How could such a person stay in the team?

The training continued like this, and after more than a month, the team of more than 500 people was eliminated to only a hundred people, and this hundred people still have to be eliminated.

They can be said to have reached the elite level. Now he wants to select two teams among these people. To be precise, there are 14 people. A team with more than 100 people only needs 14 people. The probability of this is really low. Everyone All under pressure.

The thunderbolt commando team is also carrying out methodical elimination. They have all counted the time. As soon as the elimination on this side is over, the selectors behind the two teams will be sent over again.

Soon, two special operations teams were finally established, and these 14 people stood out from a team of more than 2,000 people. This was just the beginning, and they had to undergo various trainings before they could actually go to the battlefield.

Wang Yanbing and Li Erniu served as the substitute instructors of the two teams to give them special training. In Qin Yuan's view, this was just the beginning, and he would add merit points to them to improve their abilities.

The team here has just been established, and the personnel selected from the Thunder Commando team have been sent over again. They are all in the process of matching, and the third batch of eliminated teams will be selected again.

Before leaving, Qin Yuan explained to Lei Zhan that this time they eliminated another team of more than 2,000 people, and they had to change locations. They couldn't always be in the same place to avoid people training in advance.

Lei Zhan expressed his understanding that he finally set up two commando teams, so that his brigade can be established according to the normal organization immediately, and can officially take over the task.

In the middle of the training, Qin Yuan suddenly received a call from Lei Zhan. He called and asked if Qin Yuan did some sudden training attack on their side. How did it become a live ammunition mode?

"Qin team, what plan do you have? You have to tell me in advance, so that we don't know at all. Of course, you may also want to train these soldiers' on-the-spot response, but this is too dangerous. You have already had soldiers shot gone."

what! Qin Yuan was dumbfounded when he received this call, "Wait and explain things clearly, I don't have any training plan over there, I don't have enough people, now I'm training here Lei Zhan

suddenly realized the seriousness of the matter, who would it be if they were not arranged willingly? He quickly told what happened, it turned out that they were ambushed with live ammunition during the elimination process.

But this kind of attack was only on those fighters who were being eliminated and not on their Thunder Commando, which made him feel very strange, and he thought it was arranged by Qin Yuan.

"How about the live ammunition on the other side? How many people are there? How many guns are there?"

"The number of people may be four or five. We don't know the specific guns yet."

This matter is not a joke, Qin Yuan can only temporarily hand over the matter here to He Chenguang and the others, and then rush to the place where they are eliminated first.

After arriving at that place, Lei Zhan also looked helpless. Before he notified that everyone would be eliminated and selected, he put everyone on the mountain, and then there was a shooting incident.

Now that he realized the seriousness of the matter, he notified everyone in the form of a drone broadcast and asked everyone to come back, but no one believed them, and even thought it was just a way to lure them back and eliminate them.

"What can I do now? I can only let my team members go all over the mountains and plains to bring people, and bring back more than forty people now."

"Lei Zhan, I think you are really muddy. It is necessary for you to lead people like this, so why don't you take the initiative to attack? Can you find those few people with the Thunder Commando?"

"Qin team, it's not that I didn't expect it. The problem is that this place is too big. At that time, they ran away after the attack and mixed with our people. They haven't appeared now. They really can't find them. I wanted to protect them." They can only come up with such countermeasures."

Chapter 1594: Despicable Wang Dahu

Looking at it now, Lei Zhan's decision is indeed good, because he is not Qin Yuan, and his ability is limited. Although he has a special warfare team, the area is so big that the number of people he can protect is really too limited. , so many mermaids and dragons.

"I just don't know who is so brave, and they dare to provoke us? This makes me really curious."

After all, like the uniforms they are wearing now, and guns in their hands, everyone knows who is so courageous.

Lei Zhan also couldn't figure it out, Qin Yuan also asked a key question, he said was it an accident or premeditated? If someone premeditated, it means that something went wrong inside them and the news was leaked.

They came to this place to practice and eliminate this matter, and not many people know about it. Only a few players in their team know that there should be no traitors in their team, and more importantly, they announced the news half a day in advance Hours.

Qin Yuan grabbed Lei Zhan half an hour earlier when he heard this, so he should understand that he was among these people.

"Qin team, I still don't understand what you mean. We shouldn't rush to save people now, why are we still struggling with these things?"

"Saving people is of course important, but at the same time, I also want to know who stabbed me in the back! I won't let them run to you. Don't worry, no one can escape with me here."

Qin Yuan's words were very domineering. Fortunately, the wounded soldiers were not seriously injured, but this matter cannot be left as it is. After the end, he would rather let the two teams separate to find other personnel. His purpose is to find the attacker.

He came to the place where the soldiers attacked before, and he wanted to find clues here for counter-investigation.

And according to the injured soldiers, the other party was also wearing camouflage uniforms, but the speed was so fast that they couldn't see clearly at all.

The guns they were holding were M11s. This kind of gun has a very powerful impact, but it can be bought on the black market, mainly because it is so crazy in this area.

Lei Zhan also blocked this area with Qin Yuan's cooperation, and now no one can let him go.

At this moment, there was another burst of gunshots, and Qin Yuan could hear very clearly that this was definitely not a training round, but a live round that was quickly approaching that side.

At this moment, the person who fired the gun stared coldly at the fallen soldier on the opposite side, and the fallen soldier on the opposite side didn't know what happened at all. He didn't expect it to be live ammunition. What was said in the broadcast just now was true, really A group of people broke in.

A man from the same group as the shooter rushed up and slapped him on the head, "You are **** crazy, you dare to shoot now, don't you know who is coming? Let's run now It's too late."

"Hehe, this forest is so big, we are mixed with them all, can he really find us?"

"You are a lunatic. I just want to ask for money. You are completely forcing us to die."

If you look carefully, the shooter is Wang Dahu who was directly expelled by Qin Yuan before. The corner of Wang Dahu's mouth was bleeding, and he stood up and wiped it.

"I promised you before, I know some specific munitions locations, but don't forget what you promised me, I am here this time to take revenge."

"But you have to think about who our opponent is! We have no chance of winning at all, and now I regret it, let's go quickly."

After the man finished speaking, he was about to leave with the people around him. Unexpectedly, Wang Dahu's face showed a hint of ferocity, and he pulled the trigger without hesitation.

"Damn it! This is the first time I've seen such a cowardly boss."

The other people around him all stared at Wang Dahu in surprise after seeing it. This kid really ate his heart and made a fuss, and even killed their boss.

"Don't mess around with me, otherwise I will kill whoever moves. I know you have a lot of guns, but there is no need for this now. We all want money. What are you doing with him? I believe that after you follow me to get out the batch of arms Brothers get rich together."

This group of people are originally some desperadoes, they are all here for money, it doesn't matter which boss they are with, anyway, as long as they give money.

Now I heard Wang Dahu say that he knows the secret location of some munitions, and they will make a fortune if they rob the munitions. This thing is very valuable now.

Just like this, a few people put down their guns and played with the big tiger tacitly. After seeing it, he was even more proud. He had already determined the psychology of these people. They ran all the way here, and just returned empty-handed like this?

"Brothers, you are all very wise, don't worry, there is absolutely no problem with me leading you."

"I don't care about the rest. Now you can tell me what to do? We've already fought it out."

"Take these two injured people back. They are hostages. I know their methods too well. As long as there are people in their hands, what are we afraid of? They don't give us a lot of money for those things."

Several people laughed out loud when they heard this. The wounded soldier lying on the ground belonged to the Tiger Company of the Third Regiment. He had heard of Wang Dahu's reputation before he knew him. After all, he was a soldier who was directly fired after participating in the knockout round.

I didn't expect to meet him here, and he would attack his comrades, he would stare at him fiercely, Wang Dahu showed no mercy, walked over and slapped him on the face.

"What are you looking at? Let me tell you, from today on, I will be a new man. The former Wang Dahu is dead, and you two are now my hostages."

This guy is full of arrogance when he speaks. There are still so many people on this mountain for him to choose from. When the time comes, he will bring more hostages. This is his law of secrecy.

On the other side, Qin Yuan heard gunshots again, and he sped up even more. The situation was not good, but when he rushed over, there was only a corpse left on the ground, with some blood beside it.

He heard two gunshots just now. Judging from the posture of this person who fell, he was attacked from behind. The injured person should have been taken away. Did they have internal strife or was the person taken away theirs? Soldier?

Qin Yuan hurriedly asked Lei Zhan to come over here and let everyone investigate together. Soon Lei Zhan's people came to the news. The dead man was called Chen Qiang. He was a local hooligan.

He has been arrested many times, and he is still on the wanted list. He didn't expect to appear here. He has a small gang of more than 30 people under his command.

It seems that the real culprit has been found, but Lei Zhan frowned, he knew about Chen Qiang, and they were responsible for it before, this guy is an old fritter level.

"I know this guy very well. Although he is a gangster, he is not that courageous. He would never dare to shoot and kill people. It seems that there must be another mastermind behind it."

"Looking at it like this, I know that if he is really the mastermind, it would be unreasonable. They were all killed here, and there should be internal strife between them."

Qin Yuan looked at the fresh footprints ahead, and immediately led his men to chase after them. At this time, Wang Dahu took advantage of the terrain to hijack two soldiers. This guy had already reached the point of madness.

The player who was shot by him just now lost too much blood. The movement was also very slow. He had people pushing him non-stop, but the team member finally couldn't hold on and fell on the road.

"Damn it, it's a waste of time. It seems that you are not worth much anymore. I'll send you to see Hades directly."

After he finished speaking, he was about to shoot. At this time, he heard movement from behind and turned his head in horror. How did he catch up so quickly? He didn't have time to think about it, so he left this team member in a hurry and fled westward with the rest of the team.

He remembered that there was a cliff from here to the west, and the best terrain was to be on the top of that cliff, and then he could negotiate terms.

Qin Yuan and the others also chased after him. At this time, they saw a soldier struggling on the ground. This soldier was injured on the shoulder. The bullet directly pierced his shoulder blade, and his clothes were instantly stained with blood.

He Chenguang hurried forward to bandage him, but he could only do a simple bandage, and the shrapnel was still inside, so he had to be sent back to the base for treatment.

But the soldier couldn't care less, he struggled to stand up, and took He Chenguang's hand, "I know who it is, Wang Dahu! This... this bastard, he is a lunatic."

what! Everyone was very surprised to hear this result. This guy was driven out by him two weeks ago. He didn't expect to appear here now. This is obvious revenge. No wonder he knows so much terrain.

Now that he already knows his identity, there is nothing to investigate, and everyone will go all out in the future.

Qin Yuan led the rest of the team to catch up quickly, and followed the traces to the west cliff. At this time, he also saw Wang Dahu, but he was very smart, blocked the hostages in front, and then fired into the sky.

"Don't come here, I know your tricks, just stand there and don't move."

Qin Yuan stared at that guy closely, now he has a gun in his hand. Those hostages were too dangerous, and this distance was not conducive to his sudden attack.

"You ***** is really despicable, you dare to attack your teammates."

"Hehe, stop talking nonsense, I owe everything to you today, why do you fire me when you say fire, I want to see today, even if I leave there, my ability is the strongest. "

This guy still didn't give up until now, he was cursing and very agitated, in order to appease him temporarily, Qin Yuan could only ask him about his conditions.

"Okay, since you are very clear about the process, we all know that there is no need to engage in those things. I just want my soldiers to be safe, and you can leave as you please."

"Sure enough, he is a straightforward person. Well, I will also explain my conditions. I want 3 million and a helicopter!"

When the gangsters next to him heard Wang Dahu's conditions, they all turned their heads to see what this guy was doing. Why only three million.

"What are you guys talking about? How can 3 million be enough for so many of us, how much is a single person? We took such a big risk this time."

"Shut up for me, a bunch of idiots, don't you know their methods? Just take the lead, and they will use the excuse of raising money to delay time everywhere. It will be very unfavorable to our situation later on. Can there be a little It's a little bit, understand?"

It has to be said that Wang Dahu really mastered everything about the army, and he had also heard of Qin Yuan's reputation, so he didn't dare to act rashly.

This guy is really smart. Qin Yuan told him that he could arrange everything in ten minutes, "But you also know that if you want to prepare a helicopter, you need to apply for approval from the higher authorities, and it will take at least half an hour."

Wang Dahu was a little hesitant, but he looked at the hostages in his hands. With these hostages in his hands, what was he afraid of? Thinking of this, he agreed.

At this time, Wang Yanbing had already climbed to the opposite hillside. He aimed several times, but the shooting position was not very good. Anyway, this guy is too conscious.

"Brother Qin, the situation here is not good. I can't find a suitable position. Can you take a look at Erniu's side?"

Soon Li Erniu's voice came from the headset, he was not very good there, and there was a dead end behind him, this guy had already studied the route before. No wonder he was so familiar.

As time passed by, Wang Dahu's psychological defense became more and more vigilant, and he fantasized about various scenarios.

"Forget it, I don't want a helicopter, I want two military off-road vehicles now, you call the car over quickly, I will take the money and leave now, and then I will put it on your people."

This guy was already thinking about running away, Qin Yuan stepped forward and raised his hands to indicate that he had nothing, Wang Dahu was very emotional and kept making him stop.

"Don't move around, you stand there, or I will shoot."

"Don't be so excited, are you so afraid of me? It's really like what you said before. You are a bully and you are usually very ruthless when you beat your teammates."

Qin Yuan was provoking him on purpose. This guy is very emotional now, so he can only guide him from this aspect to see if he can be lured out.

Wang Dahu was cursing. He felt that Qin Yuan was deliberately mocking him. Just as he was about to go out, he suddenly realized that this was this guy's plan.

"Hey, do you think I'll be fooled by you? I tell you it's impossible."

Wang Dahu had a stern look on his face. At this time, he changed his mind again. He felt that as long as he kept a distance of about 50 meters from Qin Yuan, it would be absolutely fine.

"Now you kneel down and kowtow three times to me, I can consider letting someone go."

The surrounding people were all shocked when they heard this, this guy is completely crazy, he dared to make Qin Yuan kneel down.

But Qin Yuan still kept smiling, "You are very courageous, I admire you very much, but I can agree to your request, as long as you release the hostages, I hope you can do what you say."

Chapter 1595: Goodbye Mu Qingmei

Wang Dahu was even more proud. He just wanted revenge. Under such circumstances, he just wanted to humiliate Qin Yuan in public. How could this guy decide whether to stay or not.

He even felt that Qin Yuan forced him to walk on this road today. Seeing Qin Yuan walk in step by step, just as he was about to kneel down, he slowly became complacent, and just poked his head out to see clearly.

The flying knife in Qingyuan's hand, which was empty just now, flew instantly, and the boss who went out to play and yelled and stared at him didn't react at all, and the flying knife hit him directly between the eyebrows.

The speed was so fast that even the people beside him hadn't reacted yet, Qin Yuan had already rushed forward and knocked down the two people beside him on the spot.

Li Erniu and the others cooperated directly from a distance and shot directly from a distance. In an instant, under their close cooperation, there were only two people left on the field.

Seeing that the situation was wrong, these two people quickly dropped their weapons and lay down on the ground to express their surrender. At this level, it really depends on their courage and love. They didn't even look at Wang Dahu's body on the ground. This guy didn't even have his last words. explain.

This guy's skill is really good, but he used it in the wrong place. Although it's a pity, Qin Yuan is more fortunate. Such a person must not be allowed to officially enter the team.

With this little episode, the elimination was still going on in an orderly manner. Finally, after three months, the later teams were finally formed. The first two teams could already reach the level of taking on the mission, because they were special in the new city. Continuous training within the battle brigade.

Under Qin Yuan's instructions, Li Erniu and the others performed their duties, and everyone trained according to his manual. Now the two special operations brigades are under the unified deployment

of Qin Yuan, and so many special operations members have been established. Their tasks will be relatively easy.

Before they had time to celebrate, the first mission soon followed. Originally, this was for the red blood cell team, but they would rather feel that they, the established special forces, would always go out, and planned to entrust this mission to them Finish.

Xiaomeng persisted until the end, but it was a pity that among so many people, he was the only one who persisted with him in the end, because what is needed here is the elite among the elite.

//118220/ "My Healing Game"

The ones with weak abilities all quit in the subsequent training and elimination. Xiaomeng is in the first team, and they haven't been officially named yet.

Qin Yuan led them into the jeep, and everyone maintained a uniform habit, without asking about specific tasks or specific locations.

They are special operations forces, and what they want to accomplish is a special mission. After arriving at the location, Qin Yuan told them that their operation this time is to destroy a transnational trafficking organization.

There are not many people in this organization, there are about twenty people, but they are all outlaws, so they need to act as soon as possible, and they cannot let a member of the organization go.

This was their first action. Qin Yuan didn't interfere too much. He just let them go after taking them to the mission site. Everyone was a little caught off guard. They were used to hearing orders before, but now they suddenly let go Let them do it, it might be a little too soon.

This team was started by Qin Zhengyang for training. Although Qin Zhengyang is young, he has good basic abilities in all aspects. Qin Yuan feels that it is no problem to hand it over to him. It just so happens that this is a test.

And he led the members of the red blood cell team to lie on the hillside, and began to watch their every move. He pointed to the factory below, which was their lair. It's up to them to negotiate.

Qin Zhengyang was also very nervous, this was not just an assessment, they were also an assessment of themselves.

Just as he was about to set off, Yang Hao, the captain of the first team, turned his head, "Instructor Qin, I think we may be a little out of sorts, can you give us a specific plan?"

"Nonsense, are you still not weaned or what's the matter? You have used my place as a nursery school. Now that you have been training for three months, you can definitely come out to complete the task alone. Otherwise, what do you need? Do you want to rely on me for the rest of your life? ?"

After being taught by Qin Yuan for a while, Captain Yang could only lead the team to set out bravely, and then they had to rely on themselves, they always had to grow.

At this moment, Li Erniu looked around in the sniper scope. What they did was the last guarantee. If they failed, they would take action immediately.

Bored, Wang Yanbing took out the poker and asked them if they wanted to play. The main reason was that Qin Zhengyang was too nervous and kept staring at them.

"Zhengyang, let me tell you, can you just relax a little bit? It's something they should consider now. Why are you so nervous?"

"Can I not be nervous? They are all brought out by me. I taught them all the training in the last month. I am really worried."

"Oh, don't be so nervous. Besides, they are all very capable. You should rest assured to them. You didn't come here like this back then. Hurry up and play with me."

Qin Yuan also came over. He felt that there should be no problem. This team had excellent results in the exercise assessment before, and it would be no problem to deal with these gangsters.

He also said before that every assessment should be regarded as a real actual combat, and they should have gotten used to it. In the following training, they basically focus on live ammunition.

Unexpectedly, just a few minutes later, Li Erniu suddenly became nervous, and hurriedly greeted them and asked them to come and have a look.

"No, it seems that we have to prepare for the situation."

Following the direction Li Erniu said, everyone looked, they didn't know how to choose. According to the best route before, they should attack from the side, and there happened to be a low hillside on the side, and they attacked from there. Then outflanking is the best solution.

Unexpectedly, they would directly choose the position of the back door from the rear that is not conducive to attacking. Although it is possible to outflank, the terrain is too dangerous, and it is not conducive to their capture and attack at all.

"What is this group of boys doing with such a simple plan? They made a mistake in the first step. What are they trying to do?"

"Don't get excited, just wait and see if it really doesn't work, we'll make another move. We can't miss this opportunity."

Qin Yuan frowned, she still wanted to give them a chance, when the gunshots rang out below the speaking room, someone had already discovered the battle between the two of them immediately.

Just like what they thought before, they only thought of non-stop attacking, and didn't think of surrounding them at all. They felt that they could definitely take them down with their speed, but these bandits were not vegetarians.

Under their attack, a boss led four or five people carrying boxes, and started to rush up the hillside in the side direction, and then escaped.

Seeing this situation, Yang Biao was a little anxious, and asked his team members to bring a few people to outflank the area, but it was too late, the enemy in front attacked very violently, and they had no way to get past.

Seeing that those people were about to run away, Xiaomeng felt anxious for a while, so he had to quickly recharge the money, because he was an assaulter and had to cover. At this moment, a row of bullets came and hit Xiaomeng directly. Fortunately, he was wearing a bulletproof vest, but the distance was too close, and he fell to the ground in pain.

Qin Yuan shook his head, it seemed that there was no other way, he had to take the shot himself, the boss thought he could escape, but a red dot suddenly aimed at his chest, and in an instant a golden bullet hit him directly, hitting him in the shoulder. The bomb fell to the ground.

Seeing this situation, the few people in the back dropped the box and fled in all directions, but Li Erniu and the others were faster, and everyone surrounded them all in an instant.

Wang Yanbing also rushed down first, attacked the gangsters inside, completely reversed the situation just now, and willingly rushed in too, completely controlling the situation with the cooperation of the few of them.

The gangsters inside were brought under control, and Qin Yuan's face was a bit uneasy. He didn't know why this special operations team, which he was very optimistic about, did so badly in its first mission.

Although Xiaomeng was wearing a bulletproof vest, his ribs on the side were still hit by bullets, bleeding all the time, and the team members next to him were bandaging him.

Qin Yuan walked over and reprimanded directly, "Do you think your behavior is really heroic? In my eyes, it is stupid, so stupid that it can't be any more stupid, a waste of life and a waste of my training."

Hearing Xiaomeng being reprimanded, Yang Biao ran over quickly, and he lowered his head to admit his mistakes, he felt that everything was the responsibility of his captain.

"Instructor Qin, all of this is my fault. I shouldn't have done such a plan deployment. There is indeed a problem. My team members did not make any serious mistakes."

Qin Yuan stared at him coldly, there was nothing wrong with it, this was just running around on the battlefield and risking his life, wasting his own life and getting nothing.

Qin Zhengyang also began to conduct self-criticism beside him. He felt that it was a problem with his training at the beginning, because he never let them do it, and he always felt that they had to wait.

Although the operation was successful this time, it was with the help of the red blood cell team. It can be said that the red blood cell team accounted for the main attack.

Everyone sat in the car with their heads down. Compared with when they first came, everyone was looking forward to the task. Now the whole car is very quiet.

After arriving at the location, Qin Yuan asked them to come down directly, "Everyone, prepare for 100 push-ups."

Everyone has no complaints, the mission has failed, this is the punishment, Qin Yuan also started to tell them that they have their backing now, so what should they do in the future? One day they will become independent and complete tasks independently, and they cannot always rely on them.

Now that they have failed in their mission, they can be punished. If these vicious gangsters run away, what kind of consequences will they cause? They may not be found in the future, or they will be punished more severely. These are all uncertain .

In addition, Qin Zhengyang's training method was really problematic, and he also trained according to Qin Yuan's method, but he didn't let go so much.

The other teams who were training originally thought they could welcome the cheers of the first team's first mission, but they didn't expect this kind of scene. No one dared to talk nonsense, but just looked over there silently.

Qin Zhengyang was still too young, and he couldn't let go of some things. Qin Yuan transferred Li Erniu and asked him to conduct assault training for the first team.

The instructor is also very important. What he can teach can directly determine how the team will deal with it in the future.

Qin Zhengyang felt very sorry for this matter. Qin Yuan only felt that he still needed to practice more. Some things should be done slowly. The teams trained later basically had no problems, and even carried out actual combat assaults on them without their knowledge. , Everyone has done very well, which also means that the second special warfare team has really been established.

On the day of its establishment, many leaders came here to inspect, and Gao Shiwei felt very proud, because it needs such capable people to bring out more capable teams.

Qin Yuan saw a familiar figure in the crowd, it turned out to be Mu Qingmei, and the two of them hadn't seen each other for more than half a year.

The meeting before was still very hasty, after the conferring ceremony was over, Qin Yuan couldn't wait to find Mu Qingmei, she still hadn't changed, except that she had a refreshing short haircut this time.

"You little girl is too busy recently. I've been looking for you. They said where did you go to study?"

"I think you are the busy person, you will forget about me like this, hum!"

Mu Qingmei pretended to be angry, Qin Yuan hurried over to coax her, she burst out laughing, "Forget it, I won't tease you, this time I really want to ask you something, is that okay?"

Seeing Mu Qingmei acting like a baby beside her, can Qin Yuan refuse to agree to something? "All right, all right, I promise you whatever you say, as long as I can do it."

"You can definitely do it. I want you to help train our medical team. In a few months, we will go to participate in peacekeeping and rescue missions."

Training medical squads? Qin Yuan was a little embarrassed when he said this. He doesn't seem to be very good at this kind of thing. If he wants to train the special operations team, he will definitely have no problem, but it may be a little problem to train other people's medical treatment.

"What do you mean? You just promised me just now, and you are about to go back on your word, and your words don't count."

"No, Qingmei, listen to what I tell you, it's mainly about medical treatment. I'm not that good at it. If the training is not in place, wouldn't you say that it would embarrass you?"

Mu Qingmei didn't care so much, she had heard a lot of Qin Yuan's deeds, especially his traditional medical level could directly bring the dead back to life, and the spread became more and more powerful, so she asked Qin Yuan to train them .

Besides, if their medical team is trained, their abilities will be raised to a higher level, and they will be even better at rescue.

Qin Yuan is also very entangled. His medical ability is completely his own system skill. It doesn't seem to have much to do with medical level.

Chapter 1596: Grandma Sun is missing!

But at this time, Mu Qingmei pouted at the side, she was a little angry, because she knew Qin Yuan's abilities, but this guy deliberately didn't teach her.

"Tch, I promised well just now, but now I'm starting to regret it, I've seen it through."

Qin Yuan only felt that one head was big, so he hurriedly pulled her, told her not to be angry, and thought of a way on his own, "Then do you think this is good? You wait, I will finish the matter here, and I will Look for you."

"What I want is not that you come to me, what I want is that if you want to teach us, isn't it something that is passed down from our ancestors? Is it a disadvantage to teach me?"

Hearing what Mu Qingmei said, Qin Yuan had no choice but to agree temporarily. What can he do now? I can only quickly open the system to see if there are any related books. This thing is not a joke.

Besides, most of the members of their medical team are graduates of medical school, and their deputy captain seems to be an old military doctor who has practiced medicine for ten years. What should I do if my words are exposed?

The skills he acquired before were surgical skills, but if he really wants to practice them to achieve the effect of bringing the dead back to life, it may not be enough time. After all, it is based on his own ability, and he will definitely have no problem performing surgery.

Qin Yuan began to search in the system mall, when he noticed a divine book with Hua Tuo's secret recipe.

I finally found it. I'm sure there's nothing wrong with performing surgery, but to really teach it, it seems that I can only do it according to the book, and it's not expensive to exchange it. After all, his power is already very strong, far surpassing this book. Book, so only 1,000 merit points are needed to redeem it.

With this book, Qin Yuan was relieved a lot, so he had a little bit of confidence, and it would be better for Mu Qingmei and the others in the future.

Second, the Special Warfare Brigade has just been established, and many people came to congratulate it. Everyone also watched their performances, mainly conducting military exercises, so that outsiders can see the combat capabilities of their second brigade.

There was a lively bonfire party in the evening, and celebration was a necessary ceremony, but the place of celebration was not inside their base. The base of the Second Special Operations Brigade has always been a mystery.

This is also what Qin Yuan requested. He wants the Second World War Brigade to be completely kept in a state of secrecy. There are many tasks that they need to do in the future, and they can completely replace their red blood cell team.

Qin Yuan was toasting at the table next to him, Gao Shiwei drank two glasses of wine, couldn't help sighing a little, walked over and patted Qin Yuan on the shoulder.

"You brat is making it so mysterious now, even I don't know where it is."

"Hey, this thing must be kept mysterious, you will know later."

The real training base is underground. This time, Qin Yuan can be said to have applied to the higher authorities and spent huge sums of money to build a huge underground space. He wants to hide this power, mainly to keep it absolutely secret.

Qin Yuan originally planned to unify the training on this side, and then went to find Mu Qingmei, but he didn't expect a phone call to break his plan.

This call was from the orphanage, and the caller was from the nursery teacher in the orphanage. They said that Grandma Sun had been out of contact for three days. I wanted to ask if she was here?

Qin Yuan was very shocked when he received the news. He hurriedly called Grandma Sun's cell phone, but it turned off all the time.

He hurried back to the orphanage with Qin Zhengyang. On the way, Qin Zhengyang looked worried, "What's going on? Why did Grandma Sun disappear suddenly?"

"The teacher who called said that Grandma Sun was here to visit us, and she left three days ago. It stands to reason that she took the plane that day, then transferred to the bus to the company above us, and it took only a few hours."

Qin Yuan first came to the airport where Grandma Sun was flying, and checked the surveillance there. She did see Grandma Sun in the airport, but because of the rain, the flight was delayed, so Grandma Sun walked out of the airport.

From the looks of it, she should be planning to transfer to other means of transportation, and that is only the bus.

A bad premonition flashed in Qin Yuan's mind. He vaguely felt that it might have something to do with the masked man. This guy has disappeared for so long. Could it be that this guy really did it?

Thinking of this, Qin Yuan clenched his fists and punched the steering wheel, because they searched the monitoring at the station just now, but they didn't find any whereabouts, so there can only be one possibility that Grandma Sun is not on the bus inside the station. , then there are too many possibilities outside, it's like looking for a needle in a haystack, you can't find it at all.

The local police also contacted Qin Yuan and asked him to go there first, and they found other clues.

When Qin Yuan and the others arrived, they didn't see Grandma Sun, but only saw a few backpacks on the stool next to the office.

"Captain Qin, come here and identify it first, and see if it belongs to the old man."

Qin Zhengyang stepped forward and grabbed the backpack, only to see that it was full of various fruits brought by Grandma Sun and the biscuits she made, smelling the familiar smell, Qin Zhengyang immediately determined that it was Grandma Sun's backpack.

"What should Brother Qin do? This is grandma's!"

The policeman at the police station also had serious faces, and hurriedly introduced the situation to the side. They found these backpacks on the side of the road. In addition to the backpacks, there was also a scattered shoe.

In order to find the owner, they set up surveillance nearby, but for some reason, it seemed that the surveillance over there had been maliciously damaged, and nothing happened.

Hearing Qin Yuan's heart skip a beat here, he felt that it was too bad, such a professional technique, and anyway, such a strong consciousness, it was definitely premeditated, according to normal thinking, who would do anything to an old lady , it must be the masked man and the others.

Qin Yuan slammed his fist on the table, "I want to watch that surveillance camera now."

"Captain Qin, I hope you calm down. That surveillance has no reference value and has been artificially sabotaged."

"I made it very clear that I want to watch the surveillance take me there."

The aura exuding from Qin Yuan was very scary, and the policemen at the police station were a little dazed. What was this guy doing? Qin Yuan also realized that there might be something wrong with his attitude, so he quickly restrained himself, but the police still took him to the scene of the incident. , he turned his head and saw the monitor on the telegraph pole.

The police next to him didn't take it seriously, because they had adjusted all the nearby surveillance cameras, but there was no whereabouts. The other party directly destroyed the surveillance at that time with a natural signal receiver, so there was no clue for half an hour. .

Qin Yuan ignored it, walked to the side alone, took out his laptop and sat down, using his hacking skills to directly hack into the local detection network.

Under his operation, he beckoned, and Qin Zhengyang ran over. The two policemen were also a little curious. When they saw the picture on the computer, their eyes widened instantly. This is too exaggerated.

At this moment, an image has appeared on the computer, and it can be clearly seen that Grandma Sun is carrying her backpack and walking to the intersection in front. It looks like she is planning to wait there for the bus.

But only a few minutes later, a van stopped in front of him. The person in the van couldn't see clearly. He was wearing a hat and a mask. He waved at her. The two seemed to be talking about something. less than.

It can be seen that Grandma Sun directly refused, but the people in the car did not intend to let go. The people in the car suddenly made a gesture from the outside, which should be cutting off the monitoring.

Then they walked straight down and dragged Grandma Sun into the car, because it was raining that day and there were few people on the road.

Although Grandma Sun was calling for help, no one noticed at all. Just like that, he was forcibly dragged to the van by three men.

Qin Yuan was very angry. He didn't expect Grandma Sun to be taken away in such a way. The police next to him also quickly said that they immediately copied the surveillance and tracked down the vehicle, but after the investigation, the result was let He was very disappointed.

This vehicle is a set car, there is nothing about the specific situation, even the driver's information is fake, and the few people who get on and off can only see their height, they are all wearing uniform hats and Face mask.

Qin Zhengyang was also very anxious. He felt that the previous criminals were taking revenge. He anxiously recalled asking Qin Yuan to find out the list of all the previous criminals.

But this is even more tantamount to finding a needle in a haystack. They have taken over countless criminals before, and they don't know who they will be.

And from the moment Qin Yuan saw the surveillance until now, he has been silent, because he knows who did it, it is definitely the masked man who has such a strong anti-investigation awareness.

This despicable villain would threaten him with these things every time, but now they have too few clues. After Gao Siwei knew the situation, he immediately dispatched the Wolf Warrior Squad and the local special police to start a search.

This kind of search continued from morning to night without any results. They didn't have an accurate target and could only follow the direction of the van, but the area where they drove was too wide.

There was no result at all. Qin Yuan couldn't take it anymore, he roared, and rushed out. Now he couldn't care so much, so he called Li Kang after he came out.

Li Kang didn't know what happened, and before he had time to greet him, he saw Qin Yuan rushing straight over, grabbing 23.

"Hurry up and recall to me now! Where else is that guy, I want to find him."

When Qin Yuan said this, he exuded a terrifying murderous aura. The atmosphere at the scene was very tense, and the people beside him were too scared to move. Zhang Meng's hand was hanging in the air, and he didn't know what to say.

"Qin...Captain Qin, what are you doing? I, I really don't know, I have taken you there before."

"I don't care about that, you have to recall to me now, everything must be remembered."

Qin Yuan has become angry from embarrassment, and now he can't take care of so much. Grandma Sun has been missing for three days. He doesn't know what kind of danger Grandma Sun will encounter in these three days. He must find clues quickly.

Soon he made a decision, intending to directly invade 23's mind, just when he was about to do it, the system suddenly prompted him.

"Remind the host that you have already made two intrusions before, and another intrusion like this will easily damage his brain tissue and stimulate his cranial nerves."

"According to my order, I can't control so much now, I must find out the clues."

Just when Qin Yuan was about to make a move, Zhang Meng stopped him. She kept persuading him, and Qin Yuan slowly let go of his hand. He knew that innocent people should not be hurt, and this 23 didn't know any more clues. , There is no way to deal with him like this.

Qin Yuan sat on the ground, he really didn't know what to do, he was not afraid of that masked man, but he was afraid that his family would be hurt.

At this time, Qin Zhengyang called, "Brother Qin, come here quickly, we have found a new clue."

Qin Yuan didn't have time to explain, so he had to go back quickly. When he got to the police station, he found a child sitting in the office. Qin Zhengyang explained that the child was ordered by others to deliver things to them, and that he must give it to Qin Yuan. Yuan This kid is holding a lollipop in his hand. He looks about five or six years old. He doesn't know anything else. He just said that when he was playing on the side of the road, a man handed him this thing. And let him be sent to the police station to be handed over to a man named Qin Yuan, they will know, and they will give him ten yuan after handing it over to him.

It's a very traditional trick. It can be seen that some people are really cautious, because the child is too young to describe the person's appearance at all, so now all the situation can only be seen on the USB flash drive.

It happened that Qin Yuan also came, everyone opened the USB flash drive, and a video popped up, the person who appeared in the video was actually Long Xiaoyun, this woman has completely changed, now she is wearing black leather pants in the video , a pair of hated sky high stepped on the feet.

"Hello, Qin Yuan, we met again, but it's a pity that we used this method."

Long Xiaoyun was talking to herself, then she turned around and saw Grandma Sun who was tied to the stool behind her. At this time, Grandma Sun's face was a little pale and her hair was very messy.

"I think you should be familiar with this person. By the way, you should thank us. We are protecting your family."

"Don't worry, we won't hurt him, but it depends on your performance. You need someone to come here in three days. Whether you can come to this old man at that time depends on your own performance."

After finishing speaking, Long Xiaoyun burst out laughing. In the video, Grandma Sun was struggling non-stop. She shook her head desperately. The background behind it was also very simple, but there were some echoes from the surrounding situation.

At the end of the video, Long Xiaoyun took out a blank piece of paper with an address written on it, and the police next to her hurriedly searched, it was abroad, in the country of America!

Chapter 1597: 1 group of lunatics!

Qin Yuan's guess was right, that guy in the mask had been quiet for so long, and now he was finally dispatched, but he didn't expect to attack Grandma Sun.

The few people next to her didn't know Long Xiaoyun, but they just felt baffled, why there was such a video, and it seemed that they knew each other.

"Captain Qin, this is really the previous revenge. It seems that it means the criminal you caught before."

Qin Yuan could only nod his head and deal with it. He knew what was going on, and he didn't want other people to get involved. If these ordinary people got involved, the consequences would be unimaginable, because they simply didn't have the strength to fight against these terrorist organizations.

Qin Zhengyang carefully observed the environment of the video. No wonder they found no clues in the past few days. There are echoes in this video, and it is a closed environment. After amplifying the sound, you can still hear the roar of some ships. This is obvious. It's inside the container. It seems that when the video was filmed, Grandma Sun had already been transported out by them.

They are transported by sea, which directly avoids the inspection on land, and directly transports Grandma Sun out by smuggling goods by sea.

It was so cunning, Qin Zhengyang hurriedly asked Qin Yuan what should they do? Qin Yuan shook his head, he could only follow what the video said, and he said something coldly.

"Now I will follow her request, and I will go to that place in three days, and none of you will follow."

What does it mean to hear that the police next to here quit? How could you not go? And this is really too dangerous, he crossed the border alone, this is not a joke, he must apply with upload.

"Captain Qin, I know you are very powerful, but you also have to think about your own safety and the safety of the hostages. You have too many risk factors in the past by yourself, so why not call there and we will carry out transnational operations. "

"unnecessary!"

After Qin Yuan said these three words, he turned around and walked out. He knew that there was no other way to do it now, and several policemen froze on the spot. This is why the captain of the so-called special warfare brigade is so arrogant?

A few policemen next to him were chattering about him. This person is too impolite. After all, everyone is helping and trying to find a way. Why is he acting like this? Really think who owes him the same.

Qin Zhengyang could only quickly explain beside him, hoping that everyone can understand, after all, it was his relatives who had this situation, and then chased him out.

As soon as he chased him out, he saw that Qin Yuan had already driven away in the car. He kept chasing after him, and finally Qin Yuan stopped the car.

"Brother Qin, what are you doing? Don't you take me with you? "

Looking at Qin Zhengyang, he shook his head. Now he doesn't want to take anyone with him, and he doesn't want to bring more innocent people into it. There must be a break between him and the masked man. If that's the case, then he will go alone.

"No, you go back to the brigade first, I have other work arrangements for you, and I will figure out a way later."

After thinking about it, he still retreated and picked up Qin Zhengyang, intending to send him back directly to prevent this kid from following him.

No matter what Qin Zhengyang said along the way, Qin Yuan turned a deaf ear to it. It was impossible for him to take anyone with him. This time he was determined to go by himself.

After returning to the brigade, he pushed Qin Zhengyang down without saying a word, and then drove away in the car. Even though Qin Zhengyang yelled from behind, he remained indifferent.

The rest of the people hurriedly gathered around to ask what happened. Li Erniu even ran out with half a bowl of unfinished noodles to watch the excitement.

"I'll go, what are you two doing? No matter how hurried you came, you didn't even say hello when you left."

"Oh, I can't explain so much now, what should I do, brothers?"

Qin Zhengyang had no choice but to tell what happened. Everyone was very anxious when they heard that Grandma Sun was kidnapped, and Qin Yuan went to the country of America alone, which was really too dangerous.

Qin Zhengyang suggested that they go to that place as soon as possible, because only he knew the location, but Wang Yanbing stood up and raised objections. He felt that since Qin Yuan refused to let them go, they had their reasons.

"But this is obviously a trap. Don't we brothers help him?"

"Brother Qin himself knows that this must be a trap. The question is whether he needs us or not. Is he the kind of person who won't talk about it when he has difficulties?"

After what happened last time, Wang Yanbing understood that if he was not capable enough, going to that place would only be a disservice to him.

That's why he let everyone calm down. Qin Yuan has his own considerations. If there is really no other way, he will definitely ask his brothers for help. It will not be too late to help. If we go now, we can really only help to play. .

On the other side, Qin Yuan has already rushed to the airport as fast as possible. Although it said that we will meet there in three days, he wants to go there early, and he wants to see how Grandma Sun is doing.

The above address is a small country on the edge of the United States, and it is still relatively remote. After Qin Yuan arrived there by plane, he changed cars a few times.

Looking at this desolate place, Qin Yuan shook his head. He only hoped that Grandma Sun would not suffer too much. According to this situation, those people should not hurt him. After all, what they want is themselves.

It's just a little strange, the place they asked Qin Yuan to go to was a local school, there are many students in this place, and there are many innocent people, the reason why these guys choose to come here is probably to escape their own sanctions, because they know Qin Yuan's ability.

He can only live nearby for the time being, and there are still two days left when he comes down. He has to observe everything around him, turn on the system at any time, and monitor whether there are people with the system around.

In the past two days, he didn't go out except when he went out to eat. He watched every move in the school every day, but there were not many clues at all.

In addition to the systematic monitoring, there are really too many people here, basically they are all students and their parents. Even if Qin Yuan has the ability to monitor it, it is really very troublesome.

He didn't know if these people would bring Grandma Sun here, so he kept watching closely, and he didn't let anyone who came over.

Soon it was the third day and the appointed day, but there was still no whereabouts. Just when he felt strange, the system suddenly issued a reminder, and people with the system appeared around him, so he quickly became vigilant.

He noticed three people coming from the opposite side, two men and one woman, and the woman in the lead was Long Xiaoyun! This woman hid too deeply, and escaped his attacks again and again, but it was a pity that they didn't have Grandma Sun by their side. Thinking of this, he clenched his fists. What he hated most was being threatened by others.

Qin Yuan also walked down, and several people met at the school gate. Long Xiaoyun made a gesture of please.

"What on earth do you want to do? I'm impatient to tell you your conditions."

"It seems that this person is really important to you, otherwise you wouldn't be so anxious, but very good, our judgment has succeeded, although the price we paid is a bit heavy, but at least it can make you feel threatened."

"You bastards!"

Qin Yuan really couldn't control it, he stepped forward and grabbed Long Xiaoyun, his hand was already tightly holding Long Xiaoyun's neck, unexpectedly she just smiled contemptuously, and then said something out of her mouth.

"You have to be careful. If you can't guarantee my safety, then I can't guarantee the safety of that old man."

Speaking of this, when Qin Yuan could only let go unwillingly, Long Xiaoyun coughed violently beside him. At this time, the students were in class, and they couldn't get in from the main entrance. Qin Yuan didn't know that they were What to do, but now only from their arrangements.

Long Xiaoyun walked in front, Qin Yuan began to exude the charm of the past slowly, he wanted to control the woman in front of him, but Long Xiaoyun turned his head.

"Give up, your previous trick may be useful to us, but don't you know that our system will also be updated, and now your charm skill has no effect on us."

Qin Yuan couldn't help being taken aback, what's going on? His charm skills have reached a world-class level, but he turned his head to look at the two men just now and was not affected in the slightest.

What the masked man is doing is getting more and more advanced. Even they are evolving. It seems that I must seize this opportunity. If I can catch them all this time, otherwise things will only get worse and worse. many.

Qin Yuan was a little confused by Long Xiaoyun's mysterious appearance. There was no way to control them, so he vaguely felt a little uneasy.

Led by Long Xiaoyun, they climbed in from the school wall. There were no security personnel here, and the height of the wall was very easy for several people.

"What exactly do you want to do?"

"You will know when you come in with me. If you are satisfied with what you do later, I will definitely return that old man to you safely. After all, we are not killing innocent people indiscriminately."

It was really ironic to say this, Qin Yuan followed them and jumped into the campus, after entering, Long Xiaoyun sat directly on the flower bed next to her, and then looked at the time without being in a hurry, Qin Yuan could only be patient.

About ten minutes later, the bell rang for the end of class, and all the students in the classroom ran out and came to the playground. Open clothes, no good! There are bombs.

These lunatics! Qin Yuan hurriedly yelled loudly for the students in front to get out of the way, but those students couldn't figure out what he was yelling at all. The man had already rushed up while speaking, Qin Yuan could only kick the man away, he just kicked the man over on the ground.

A huge explosion sounded a suicide attack, what on earth are these madmen going to do? Then the second man also rushed up!

Qin Yuan could only stop it quickly and evacuate the students. Those students ran outside frantically after hearing the explosion.

And Long Xiaoyun showed an evil smile over there, these people were too fast, it was impossible for Qin Yuan to defuse the bomb, so he could only try his best to beat the men to other places far away, away from the students as much as possible.

The second man was kicked out by him. The moment he landed, there was an explosion. Blood and flesh flew everywhere. There was a smell of gunpowder smoke and the screams of students. The playground was in chaos.

The security personnel in the school also rushed out quickly and began to maintain order. They surrounded Qin Yuan and Long Xiaoyun in the middle of the playground. She still looked calm, and Qin Yuan stepped forward and shouted loudly. Asked why she wanted to hurt these innocent people, Long Xiaoyun did not answer, but raised her hands and slowly lay on the ground.

Qin Yuan instantly sensed a dangerous aura, subconsciously flipped back, and a bullet hit him directly behind. After he passed through, he saw the security personnel in the school and the special police next to him had already rushed over .

This speed is too fast. How did they do it? They seemed to know it in advance. Qin Yuan could only quickly shout to the security personnel rushing up: "They are the real criminals, hurry up!" Come and control her together!"

However, those security personnel just loudly told him to get down. Hold his head and don't move around. More than a dozen people pointed their guns at him. The more mess it made, he could only learn Long Xiaoyun's appearance and slowly lay down on the ground.

Long Xiaoyun on the ground said abruptly, "The game has started, are you ready?"

What are these lunatics up to? When the security personnel came over, Long Xiaoyun suddenly stood up, kicked the security personnel away, and shouted loudly at Qingyuan: "Brother! Run quickly, I will cover you!"

Qin Yuan was stunned, and those security personnel also rushed up and forcibly controlled Qin Yuan. Long Xiaoyun's move was really vicious. The play she deliberately performed made those security personnel I think Qin Yuan is the boss.

They have just been escorted out of the school and many media reporters have gathered outside the school. The speed is really too fast. Long Xiaoyun must have greeted them in advance. Otherwise, it would only take ten minutes for the explosion. How could these media maybe so fast?

The two of them were put on the car with handcuffs and ankle chains, and a dozen police officers beside them stared at them coldly. No matter how Qin Yuan explained, everything was futile now.

"How is it? I just used your previous method. This feeling is very cool. Aren't you the best at using the power of these media? This time you use it on yourself, right?"

"You lunatics, do you really think they will listen to you? I will clear myself."

"Oh, let's wait and see."

Soon, the news of the explosion in the school in the United States spread quickly, and it rose to the international community. After all, school safety is the topic that everyone cares about most, and the popularity has always been high.

Chapter 1598: despicable conditions

At the same time, the domestic side also received news at the same time. Gao Shiwei and the others didn't pay attention to it at first, they just saw the ordinary kidnapping case, but his phone rang right after.

"Old Gao, what are you doing? Haven't you read the news yet?"

"What's the matter? I'm watching, isn't there another explosion? And it looks like a suicide attack, but it has nothing to do with us."

"Hey, can't you hurry up and take care of it? You haven't seen the chief criminal above, so you can see if it looks familiar to you."

Gao Shiwei took a look and was stunned for a moment. If he read correctly, the criminal pressing on the TV screen was Qin Yuan!

"Hey! Lao Gao, are you listening?"

No matter what the person on the other side said, Gao Shiwei didn't respond, hung up the phone directly, and then quickly called the Ministry of Foreign Affairs, asking them to investigate quickly, what was going on, and why his people were on the news I don't even know myself?

If it's good news, let's not talk about it, the question is what's going on! After a while, Long Xiaoyun also rushed to his office, it seems that everyone already knew about it.

Gao Shiwei was also in a dazed state. They wanted to contact the Ministry of Foreign Affairs, but because it was too far away, they had to contact the local embassy to verify the news, step by step, so there was no progress yet.

Sitting in the car, Qin Yuan began to think carefully. In fact, it was all the conspiracy of these people. No wonder they asked him to meet at school. Threat, but Qin Yuan's ability is very strong. In this case, they can only resort to such despicable means.

Because it involved a bombing attack, this was no small matter. They were quickly surrounded by heavy soldiers and were taken to the interrogation room under heavy escort.

In the face of those people's interrogation, Qin Yuan only said three words. He didn't know. He knew very well that if he admitted it, the consequences would be disastrous.

And the people here have long been used to it. They have their own way when facing these criminals. A blond-haired officer in front of him patted the table and stood up.

"Damn, who do you think you are? You launched an attack in the school. I hate you violent terrorists the most in my life. The evidence that I will never let you go is already in front of me. What else do you have to say? "

"Evidence! What do you mean by evidence? I was brought in inexplicably. How do I know?"

"Just because you are at the scene, do you think it's over if you don't admit it?"

Qin Yuan still had that attitude, he didn't bother to talk to him at all, he didn't expect that the blond man was so excited, he stepped forward and punched him in the chest.

But to Qin Yuan, this power is not as good as old tickle, it doesn't hurt, he doesn't show any expression, just staring at the man indifferently.

The man did not let him go like this, and soon got the electric baton. The terrifying sound of electric current sizzled in the interrogation room. The stick was broken into two pieces, Qin Yuan didn't show any expression.

"What kind of monster are you? You're not even afraid of this."

"First of all, I'm not a monster, and there are things I haven't done. Why should I ask you to investigate the matter first?"

The blond man was a little suspicious for a while, could it be that he really didn't do it? Most people couldn't stand this kind of torture long ago, but he was extremely calm, not to mention any physical pain, and he persisted until this time.

Just as the blond man was thinking, the door of the interrogation room was pushed open, and a man in uniform walked in and whispered something in the blond man's ear.

His expression changed subtly in an instant, and looking down at Qin Yuan was even more meaningful, "Hehe, I was almost fooled by you, your acting skills just now were really good."

"What do you mean? I don't know."

The blond man ignored him, took the document from the man's hand, and slammed it on the table. It turned out that it was the result of Long Xiaoyun's confession. She said that Qin Yuan was their boss, and they all obeyed Qin Yuan. order.

Of course, Qin Yuan didn't approve of this result, and the man started another round of interrogation. After a day, the man couldn't take it anymore, Qin Yuan was really soft and hard.

In the evening, another person wearing a hat came in. He lowered his hat, and Qin Yuan couldn't see his face clearly, but when he walked in completely, he was instantly furious, because the person who came in was really a masked man.

This guy is still wearing a leather mask as before, but he is wearing an extremely exaggerated hat on his head, covering his entire figure.

It can be seen that the identity of the masked man here is also very special. After he just waved his hand, the person who was interrogating just now retreated lost, and he also noticed that even the surveillance camera above his head was turned off, and it was not flickering. red light.

This guy is really pervasive, he can be seen everywhere, the masked man just sat across from Qin Yuan, Qin Yuan easily broke free from the handcuffs, and then rushed forward, holding his neck tightly.

"You bastard, I said before that my family is my bottom line. If anyone dares to touch them, I will not let anyone go."

"Of course you can kill me now, but you may never see that old woman again."

Qin Yuan's eyes showed the **** Sha Yi, and threatened him with Grandma Sun, but he can't do anything now, the person in front of him is just a clone, and he hasn't found his real body until now.

There was no way, he could only force himself to loosen up a little bit, and he couldn't be fooled by this bastard. The masked man looked smug at Qin Yuan's loosened hand, because he knew that he had firmly controlled the situation. It was Qin Yuan who dominated, because his strength was too strong.

"You know what? You are really my most successful work, so I have always admired you, and I want to pull you to my side, but why don't you obey me?"

"Then look at what nasty things you've done. There's a saying that if we don't conspire with each other, I won't be able to be your subordinate in my life."

"Hahaha, is it? Now in this situation, don't you even want to? Don't forget, I'm here to help you. Now I'm the only one who can help you. I'll help you get rid of the suspicion."

It's really ironic, it's obvious that these guys were involved in framed him, and now they say they want to help him get rid of the suspicion, Qin Yuan didn't speak, just stared at him viciously.

"I know you want to kill me now. Of course, you already know my identity. Although I am a clone, my thoughts are all shared, and my body can also feel pain. Just like that Cruel? Anyway, I was the one who created you in the first place, too."

"roll!"

The masked man smiled and didn't speak again. After a while, a man brought a USB flash drive, which the masked man plugged into the computer, and then played the picture of Grandma Sun on the computer.

"Let's have a look, maybe you are very interested in this, and then you will consider whether to cooperate with me."

At this moment, Grandma Sun is being held in a closed room. This is the surveillance picture. There is only a small square table in the whole room. There are several bags of biscuits and several bottles of water on the table.

Looking at Grandma Sun's appearance, she didn't suffer any torture, but was just frightened. She curled up in the corner, looking very helpless. Seeing this scene, Qin Yuan was really heartbroken. He didn't know what these **** were going to do. Stand up and yell loudly, let them come to you, don't hurt innocent people.

"I thought you wouldn't have any emotional fluctuations. It seems different. You see, this situation is very straightforward. It depends on your attitude. There is only this food for her. If you are willing to stay here, Then continue to mess around, but I won't provide her with food in the future."

It was a kind of torture for this group of despicable guys to use such a method. The masked man kindly reminded him, telling Qin Yuan that a day had passed now, and the food he provided would last up to three days.

This is completely forcing Qin Yuan to make a choice, otherwise Grandma Sun might not be able to survive at all. As time goes by, Qin Yuan still grasps his principles. He can't agree to the demands of these bastards, he has to imagine other things Method.

"It's useless, I know your ability, you want to see my thoughts from me, I'm just a clone, so you can't see it, don't worry, you can kill me casually, but you will never Know where this old woman is."

Qin Yuan smashed the table angrily, the masked man looked smug, and walked out with a loud laugh. This was his plan. He thought of many ways to instigate Qin Yuan, and even couldn't kill Qin Yuan in the end, but this The guy's abilities are too perverted, he can't be killed at all, so there is only one way now, which is to pull him into the same rank.

The masked man came to the next room, and Long Xiaoyun raised her legs as if nothing happened, "You did a very good job this time, I will reward you, take it."

After finishing speaking, he took out two chips-like things from his pocket. Long Xiaoyun's eyes lit up when he saw it, and he directly connected the two chips without being polite.

Long Xiaoyun has already accepted the transformation, except that this head and heart are her own, everything else has been systematically transformed, otherwise she would have died hundreds of times when facing Qin Yuan This time, she knew that only in this situation could she confront Qin Yuan head-on.

So they remodeled themselves regardless of everything. Now these two chips are to strengthen her ability. In this place, they want Qin Yuan to leave or stay, it's just a matter of words.

The size of their organization is really beyond imagination, there is nothing they can't do, including kidnapping Grandma Sun this time.

As time passed, Qin Yuan was taken to a room alone. This time, there was no torture or interrogation, but his heart was very tormented.

Looking at the wall in front of him clenched his fist, he can directly break the wall, and then rush out no matter what, he must find Grandma Sun, he can't do anything now, these people always push him to a desperate situation.

Just as he was raising his fist, he put it down again. He couldn't do this, because he might not be able to find Grandma Sun after he went out, and he would be completely convicted of his crimes, and the explanation would be even more unclear at that time.

Qin Yuan has never felt that the time is so difficult. During this period, the staff of the embassy also came here to inquire about the situation, but there is no news. The official side said that they will not disclose any investigation progress, and everything is under investigation now. among.

In fact, it was the masked man who was manipulating all of this behind the scenes. He wanted to take advantage of the hot spots in the media and use this public opinion to rectify Qin Yuan.

Long Xiaoyun, who didn't get the news for a long time, was very anxious. She couldn't wait to come directly to the country of Mi, and she wanted to ask Qin Yuan for clarification.

She came to the office fully armed, and Gao Shiwei frowned when he saw her appearance, "What are you doing? Don't you think things are not chaotic enough? You are here to add chaos, you know?"

"Captain Gao! Don't you even believe him? This is definitely slandering these bastards. I don't know what method they use. I must prove his innocence to him. At least he should be now Trapped, otherwise why wouldn't you send us a message, don't contact us?"

"I know that, and I want to defend him, but now we don't have any accurate information, we can't act blindly, you understand? You still carry guns, and you know who you are representing now? When you go out, you represent where?"

Long Xiaoyun was stunned, she really didn't think so much, she just wanted to save Qin Yuan, at this moment, Li Erniu and the others also came in from the outside, expressing that they must go to the country of Mi.

Gao Shiwei can only stop them, what can be done now, Qin Yuan's whereabouts are unknown, what is going on, I haven't figured it out yet, just relying on a fragment can't make a random decision.

While Gao Shiwei was still trying to get more clues, Qin Yuan couldn't bear it any longer. Although the masked man said he wouldn't touch Grandma Sun, what's the point of this guy doing it directly with him? the difference?

At dawn the next day, Qin Yuan called the masked man, no matter what, he must protect Grandma Sun.

"Tell me, what are your conditions? Let me see what you ***** are doing?"

"I thought you were the kind of person who didn't like oil and salt, but it doesn't seem to be the case at all. By the way, you'd better be more polite to us now, after all, we will all work together in the future."

Hearing what he said, Qin Yuan seemed to have guessed what this guy wanted to do, so he might as well use his tricks, and if that was the case, he would just get mixed up with them.

The masked man also revealed his plan, asking him to plead guilty on the spot, and then someone would pick him up at night.

Chapter 1599: cunning mask man

Asking Qin Yuan to plead guilty on the spot was just an excuse, he just wanted to let the media know and spread the news, especially the people in Yan Country.

The people over there knew that Qin Yuan would have no way out in the end, so that he could hold Qin Yuan firmly. The masked man always believed in strength, no matter how tall a person was, he had his weaknesses and handles, and his family was Qin Yuan's handle.

At first, the masked man was targeting Qin Yuan's daughter, but Qin Yuan protected her very well, and he didn't have any chance to attack her. Finally, he turned his attention to Grandma Sun. At first, he thought it was just an old woman who didn't care much. It is also useful in Qin Yuan's place.

At this moment, Qin Yuan lowered his head, and the masked man felt that he had won. After all, he had begun to give in to himself, and soon he could witness a real killing machine, and it would kill without a trace.

Qin Yuan was just planning if he was thinking of obeying now, he would enter the interior, find the masked man's body and kill them completely, then break into their base camp and take all the systems in one go.

"Okay, I agree to your request, but you have to ensure the safety of my family."

"Hahaha, don't worry, as long as you agree, you can protect anyone, let alone her."

There was excitement in the eyes of the masked man, but he turned his head slyly, "By the way, in order to avoid whether you are loyal to me, that old man may have to stay with us for a while."

"You! What exactly do you want to do? I have already promised you."

"Don't lose your temper so much, don't worry, I will definitely not hurt him, you have agreed to cooperate with us, we will be partners in the future, we are together, aren't we? I will definitely guarantee his safety, It's just that this decision is in your favor."

After the masked man finished speaking, he left. Qin Yuan punched the table, and now he has nothing to do.

Half an hour later, it was still the two chief interrogators from yesterday. After the two came in, they planned to start a new round of investigation, but Qin Yuan unexpectedly confessed on his own initiative, and admitted that he was the mastermind of the explosion. Just to get revenge.

Both of them were stunned. They thought that today would be a fruitless day, but they didn't expect to get the result so easily.

Judging from the situation at the scene, the murderer could only be Qin Yuan. After all, the other two people had died in the explosion, and the only survivors were him and Long Xiaoyunyun, and the woman had fully confessed.

Soon this report document was circulated. After all, there are too many relationships involved in this explosion, and many media are paying attention to the report, so they must give the public and everyone an explanation.

They held a press conference and deliberately took out Qin Yuan's censored video. Soon many media reprinted the report, and the embassy also received the news immediately. After all, Qin Yuan's identity is special.

With the intervention of these news media, one report after another, one picture after another, the titles began to be marked.

"The captain of the world-ranked red blood cell team is now a criminal!"

"The King of Special Forces became the mastermind of the explosion, did he intend to retaliate or did he mean something else?"

"The truth behind the suicide attack, the legendary instructor became a murderer!"

Everyone was discussing the hot spots that these reports rushed to, and the click-through rate reached 30 million times. The hunter school also heard the news. The moment Frank saw the news, he couldn't believe it. He thought it was absolutely impossible.

Some time ago, he was still discussing with Qin Yuan that there was no problem in the process of getting along with them, and Qin Yuan is definitely not that kind of person, how could he suddenly have something to do with the explosion?

Frank inquired through his own internal relations. He was really worried about whether Qin Yuan was being coerced or for what purpose, because he knew that those people were too dark and could do anything.

He spent a lot of money, but he couldn't see Qin Yuan, because Qin Yuan was surrounded heavily at this moment. After all, his status was special, and his previous achievements made people feel scared.

The embassy received the news and immediately notified the Ministry of Foreign Affairs. This matter is no small matter, because many media reporters have completely changed the direction of this trend. It was originally Qin Yuan's personal matter, but now it has risen to the international level and has become Yan Kingdom's revenge on the United States.

In an office, Gao Shiwei tried his best to explain. He and the officer next to him talked about Qin Yuan's contributions. He has made contributions to the country over the years. He is absolutely impossible to be that kind of person. He can use his own Personality, and even use the entire special warfare brigade as a guarantee.

"Leader, you don't have to believe me, but do you think he is untrustworthy? It can be said that everyone knows how much he has made over the years and how many teams he has trained for us. Do you think it is necessary for him to do it? Such an attack?"

"Old Gao, I think you are really smeared now. The point now is not whether he is innocent or not, but that this matter has risen to another level, which is beyond our control."

"Then what do you mean? Are you going to abandon him!"

The leader sitting in the middle is also in a difficult situation. What can he do? At present, the best solution is to leave it to the US side to do it. After all, the crime was committed in the US side, and they cannot interfere in any way, otherwise they will be suspected of covering up, and the explanation will be even more unclear.

It's not that he wants to give up on Qin Yuan, but that there are only these solutions at present. This is also decided by everyone after discussion. The Ministry of Foreign Affairs is also trying their best to communicate. It was because of Qin Yuan's unique identity that he was easily caught by those reporters.

Gao Shiwei still didn't give up. No matter what, he wanted to fight for Qin Yuan once. He felt that Qin Yuan was definitely not that kind of person, and he couldn't just give up on him like this.

Seeing him chattering next to him and saying that the leader is a little impatient, what can he do now, "Enough, don't forget your identity, first of all you are a soldier, do you understand? A soldier is to obey orders, what are you going to do? "

"I don't want to do anything. I just want to protect a person who has contributed to the country. We can't just give him up like this!"

"But you also saw that video. He admitted it himself. What can we do? If he didn't admit it, I can hire him the best team, the best lawyer team, and I can rescue him. Now there is no Method."

Gao Shiwei understood after hearing this. This matter can only be said to be unsolvable. The particularity of his identity is the point of creating public opinion. He doesn't know what Qin Yuan has experienced, but no matter what, he will do it at any time. Be ready, if there is a need, he will lead the team out immediately.

When he came out of the office, he was in a godless state. Qin Yuan was in the state of a **** of war here, and he had never failed. Now he didn't know how to rescue this **** of war.

As soon as he came out, all the members of the red blood cell team surrounded him and began to ask about Qin Yuan's situation. He just shook his head silently. He wanted to save Qin Yuan more than anyone else, but there was no way, just like the leader said, he The first is a soldier.

"What is Gao Dui going to do now? Should we go directly? I want to ask Brother Qin personally, what's going on? Those guys must be threatening Grandma Sun's life!"

"Enough, don't talk about it, from now on, you can't mention this name anymore, and leave everything to the Ministry of Foreign Affairs."

what! When everyone hears this, they wonder whether they have heard it wrong. What does it mean? But in the face of everyone's persecution, Gao Shiwei had no choice. He knew what was more important than that.

Now the relationship between them and the United States is already tense. If the conflict is enlarged because of this matter, the loss outweighs the gain. No one knows how to solve it now. No action is the best measure. Otherwise, once they are caught by them, then It's even more troublesome.

These few hours were tormenting for Qin Yuan. He didn't care about the damage to his reputation. He just wanted to see Grandma Sun and ensure her safety.

After dark, there was a rush of footsteps in the quiet corridor, and then remembered the messy gunshots, Qin Yuan shook his head, originally he thought these guys would pick him up in a secret way, but now there is such a big commotion , I was really worried that I would not cooperate with them.

At this time, a grenade rolled to the wall, and after a huge explosion, the tall wall collapsed.

Several people appeared on the opposite side, and it was Long Xiaoyun and the others, "Come on, everyone, come and welcome our new members together, after all, he was a God of War figure before!"

Long Xiaoyun's words were full of sarcasm, and Qin Yuan didn't bother to talk to her, "You guys have made such a big deal just to let others know that I absconded for a crime. It really took so much pains."

"Mr. Qin, you can't say that. We are all grasshoppers on the same rope now. You are me, and I am you. Aren't we a family?"

Qin Yuan ignored her, walked out straight away, and then went outside, seeing that the entire supervision area had been engulfed in flames, and how many innocent people had lost their lives. These people had done too much.

After he came out, he got into the van. There was such a commotion here that he didn't know what the situation in China was like. He just hoped that the members of the red blood cell team could listen to persuasion and follow Gao Shiwei's arrangement. He didn't want to be here. meet anyone.

Gao Shiwei had been looking forward to good news, and only hoped that all this was just a misunderstanding. However, things did not develop as he expected, but became more and more chaotic.

Soon the news that Qin Yuan was picked up by his accomplice spread quickly. After all, he was the mastermind of the explosion. Under such circumstances, people were panicked. Everyone was worried that it would cause a second explosion again, thanks to the The media hype.

Some media with ulterior motives started the so-called official arbitration, and unilaterally began to pursue the specific responsible persons. They felt that since Qin Yuan was from the Yan Kingdom, and was the highest special warfare officer on their side, they should be held accountable for this. Take responsibility for the next thing.

The pressure from the Ministry of Foreign Affairs is also great. Under the pressure, they have no choice but to deny Qin Yuan's identity, and say that everything Qin Yuan does is personal, and it is impossible to promote it to any country and interests, which belong to him personal matter.

The two sides were also suffering. Gao Shiwei didn't want to face this result, but there was no way, and Qin Yuan was taken to another room at the moment. He also watched the video with Grandma Sun, and Grandma Sun was also picked up. Now he can't get in close contact and can only observe through video.

The masked man showed him today's statement from the Ministry of Foreign Affairs with ulterior motives, and then said eccentrically next to him, "You see, this is the result of your hard work in exchange for this situation. Don't you feel chilled? So early Joining us is the right choice for you."

It's a good plan to sow discord, isn't it caused by them from the beginning to the end? Qin Yuan can only pretend to cooperate now. It is not so easy to let this cunning fox show his feet, so he can only try his best to cooperate.

"It's useless to say these things now, since I'm already on the same boat as you there's no need to engage in these things."

"No, no, there are some things you should know, which is good for us."

After the masked man finished speaking, he handed over a document in a brown paper bag, "By the way, in order to show whether you are loyal to us, we still have a small test for you to complete. If you complete it, we promise that the old man will her safety and send her back."

Qin Yuan had expected these things a long time ago, but when he opened the kraft paper bag, he was completely stunned. The task above was nothing else, but to directly assassinate his former direct leader Gao Shiwei.

Anything else is fine, but I didn't expect these lunatics to be so mad. In order to lure him into the gang, they can only push him into a deeper abyss.

He frantically slapped the table to protest, but the masked man still had that unhurried expression, "As long as you complete this task, then you have absolute trust in us, and we are a true alliance."

There are really many plans, so that Qin Yuan will have no way out and will always serve them. At this moment, Qin Yuan's mind is also running fast. He is thinking about how to persuade Gao Shiwei to cooperate with him in this role. a show.

The masked man was really too cunning. In order to test Qin Yuan, he even called Long Xiaoyun, saying that he was cooperating with the task, but in fact it was to better supervise Qin Yuan and see if he had completed the task.

Before leaving, he patted Qin Yuan on the shoulder, expressing that he knew Qin Yuan's ability, and told him not to make unnecessary struggles, otherwise, if things didn't go as expected, Grandma Sun's life would be safe. Not guaranteed.

Chapter 1600: Assassinate Gao Shiwei

The task given by the masked man is also very straightforward. He wants Qin Yuan to kill Gao Shiwei with the cooperation of the two in front of Long Xiaoyun. Then this task will be completely completed, and Qin Yuan will be completely reduced to them in the future. people.

This guy's move is too insidious, Qin Yuan frowned, "Don't you know what my situation is now? I have been wanted outside, how do you let me go back? I will be caught by them directly after I go back ?"

Qin Yuan could only use this method to delay time. He wanted to see what the masked man had planned. Sure enough, this guy had already thought about everything, and it seemed that he had planned it before.

"You don't need to worry about this. We will arrange everything. Now you just need to follow what we do. By the way, in order to ensure that this plan can be carried out in advance, you can't go anywhere now, of course to ensure your safety."

After the masked man finished speaking, he gave a wicked smile, and then left the room. This guy was really despicable. He said he was protecting Qin Yuan in name, but he was actually preventing him from having any contact with the outside world, so that the news would not spread. .

The plan of the masked man is that they plan a violent terrorist attack, and it is aimed at the local embassy. It must be difficult for Yan Guo to do it. They can only call Gao Shiwei out, but according to their previous Investigation, this person has basically stopped accepting tasks.

So this time the masked man made very good preparations, focusing on revenge. He snapped his fingers and called other people up, "Tell them that the second plan can now be implemented."

He looked optimistic, this time he will surely get this chess piece, Qin Yuan is a tool for him, a powerful killing tool.

On the other hand, Gao Shiwei was already in a state of exhaustion, and Qin Yuan had no news at all. The captain of the Second Special Operations Brigade had just been established, and he was in this state. He had no choice but to catch both sides together, greatly increasing workload.

The current problem is not these, but how to solve Qin Yuan's problems in the future. He still can't believe that Qin Yuan will become like that. Although Grandma Sun's life is a threat, he knows that he will not under any circumstances. do that.

The matter here has not been dealt with yet, but another explosive news came quickly. This news is not about Qin Yuan, but about the attack on an embassy in another area. This is not a trivial matter.

After thinking about it, Gao Shiwei decided to directly send the Wolf Warriors team out. He was more at ease with Long Xiaoyun, and now he was able to divert Long Xiaoyun's attention. Looking at the people who came to the office, he had a serious expression on his face. .

"Xiaoyun, you know that I really trust you very much. Now I can rely on very few people. It can be said that in our brigade, there are not many talents, but talents like you are rare. Qin Yuan is already like this. I want you to be the leader."

"Captain Gao! What do you mean, do you want to give up on him? Do you think he has really become like that?"

"I never gave up on anyone. I just followed the instructions of the leaders above. You have to know that we are soldiers. Some identities prevent us from making some choices."

Long Xiaoyun also knew Gao Shiwei's difficulties, so he didn't say any more, but chose to accept the task silently, the reason why he sent her to the task this time. Gao Shiwei also felt that she would not cause trouble for him, and returned to the team immediately after completing the task, leaving nothing to do there.

Originally, everything had been arranged here, but a sudden news broke their plan.

There was a violent terrorist attack at the embassy, and the condition proposed by the terrorists who were hijacked there was to ask Gao Shiwei to personally participate in the rescue operation. They wanted to have an interview with Gao Shiwei. The only condition.

The embassy let Gao Shiwei make the decision. After all, many violent terrorists will put forward some conditions. This is indeed the first time that such conditions have been imposed. They are also the main actors. It depends on how they choose.

Long Xiaoyun immediately refused to come when she heard it, she felt it was absolutely impossible, "Captain Gao! This is their deliberate provocation, besides, it is obviously a Hongmen Banquet, and the person who invited you to go by name must be your former enemy. "

Gao Shiwei also understood that this must be the criminal he had dealt with many years ago, and now he was trying to find ways to take revenge in this way, thinking of this, he couldn't back down even more.

"Hehe, I really thought that I would be a bully if I didn't leave the mountain for so many years. Anyway, I was also very popular before. If this is the case, I will personally take you out of the team once!"

"Captain Gao! You can't be without you in the brigade now. I think it's safer for you to stay. I'll go and have a look first. If the situation is not right, then we can find other ways."

"There's no need for that. I've never heard of cats being afraid of mice. This tossing back and forth is a waste of time. Now they have hostages in their hands. Let's go and see what they want to do first."

Long Xiaoyun turned his head and thought about it, no matter what, their Wolf Warriors team is still there, and it can definitely guarantee Gao Shiwei's safety, so Gao Shiwei also set off, although most of the team members objected, but He was very persistent.

And he also has a selfish intention. Although he told Long Xiaoyun that he must never go to the country of Mi to check Qin Yuan's situation, but this time he leads the team and if the mission goes smoothly, he can really go there to find out the real situation.

After all, the things reported by the outside media are too adulterated. He would not believe that Qin Yuan would do such a thing. If possible, he would like to return Qin Yuan's innocence.

Although it was his selfishness, it was also because he really didn't want to give up Qin Yuan. This person was really important to him, and he had become the mainstay of their special warfare team.

At the same time, the door of Qin Yuan's room was also pushed open. This time the masked man didn't come but Long Xiaoyun, she still had that cynical expression.

"Hey, it seems that our Captain Qin has had a good rest recently."

"If you have anything to say, just say it directly. There is no need to engage in these yin and yang weird things. If I remember correctly, you said that I will treat me as one of my own."

"Hahaha, it seems that you have adapted to this identity quite quickly. It is indeed the case, and our mission has come. As long as we complete this mission, then we can truly be said to be on the same front."

After Long Xiaoyun finished speaking, he made a gesture of invitation, and Qin Yuan also walked out with him, and when he came out, he saw a fully armed team standing outside.

"Captain Qin, you can lead our team. Of course, our team is very capable, no less than any special forces team you have led before."

"Stop talking so much nonsense, let's go directly."

Long Xiaoyun smiled, because she knew that Qin Yuan didn't like them at all, and this person's thoughts were not on their side at all, the masked man told her to be on guard at any time.

But now they still have a hole card in their hands, that is Grandma Sun, with the person in front of this person, they can be obedient.

Qin Yuan didn't know what he was going to do, and Long Xiaoyun didn't say anything clearly all the way, until she got off the plane, Long Xiaoyun said: "Don't be so anxious, you will be able to see your former comrades in arms later, guess what they saw?" What will be your expression? By the way, I almost forgot, now your identity may be opposite to them. "

These guys are really despicable, Qin Yuan didn't know what method they used to invite Gao Shiwei, so he could only take one step at a time.

Moreover, he had to find a way to ensure Gao Shiwei's safety without arousing suspicion from some people, otherwise all previous efforts would be in vain.

Soon they came to the vicinity of the embassy, followed closely by the Wolf Warrior squad. They lay on another commanding height, and Qin Yuan saw familiar vehicles and people at this position.

If there were no accidents before, he was the person sitting in the car, but now he really can't think of it, and he is even more eager to get rid of the masked man. This ***** is too despicable, and he is hard to guard against every time.

Gao Shiwei quickly surrounded the embassy with his team, because the interior has been occupied by violent terrorists. In this case, we can only negotiate with them on conditions.

"Team Gao! I have already lined up all my people. If these people want to do anything to harm you, I will issue an order immediately."

"The reason why I came here this time is not only because I believe in myself, but I also believe in you."

In fact, Long Xiaoyun is under a lot of pressure. Now that Qin Yuan is not here, everything depends on her, and there is still a difficult problem in front of them. They don't know exactly how many terrorists are inside. , the specific organization is not yet known.

Everything about the other party's situation was unknown, and it was really a big challenge for her. For the first time, she felt tremendous pressure, not only to ensure the safety of the hostages inside, but also to protect Team Gao.

Just behind them, Qin Yuan was watching their every move, when Long Xiaoyun next to him suddenly took a sniper rifle.

"I think you should have no problem shooting from this distance, even me. Our position is really good, but I don't know if Captain Qin will miss it."

Qin Yuan's heart tightened. He didn't expect them to use such a method. If other people could avoid using sniper rifles, the probability of this was too low. He didn't know how to protect Gao Shiwei.

At this moment, he is struggling in his heart. If he is finally forced to do nothing, he will choose to protect Gao Shiwei, and at worst he will fall out with them.

But there is only one result of such a fallout, Grandma Sun is very likely to be directly killed by them.

Such a choice is really difficult, but he will not give up another person for the sake of one person. In comparison, Grandma Sun is very important to him, and Gao Shiwei is also very important.

Just when he was struggling, Long Xiaoyun beside him suddenly laughed, "Hahaha, what was your expression just now? Why do I feel like you want to kill me?"

It's true that I didn't feel wrong. Long Xiaoyun changed his style of painting and put away the sniper rifle. This was not their purpose, because if they shoot with a sniper rifle, the other party has no idea who designed it, so he asked Qin Yuan to be the one who designed it. Go out face to face, and have a positive contact with Gao Shiwei.

Hearing this, Qin Yuan breathed a sigh of relief silently. This result is great, so he can send information to Gao Shiwei at any time. They have cooperated for so many years, and there is still a lot of tacit understanding.

"Captain Qin, let's go down now. By the way, I still have to remind you, you'd better not mess around, otherwise we won't be able to guarantee the safety of that old man."

Qin Yuan had endured all the way, turned his head and slapped her on the face directly, and the men beside him were stunned, they didn't expect Qin Yuan to do it suddenly.

"Is it enough? If you say this again, or threaten me with this, it will not be a slap."

Unexpectedly, Long Xiaoyun wasn't angry, after all, she didn't have the capital to be angry, "Ok, I just want to remind you."

"No need! Shut up now, don't affect my judgment."

Qin Yuan completely occupied the dominant position at this moment, he reversed the power, because he knew that in this situation his strength is absolutely suppressed, and the masked man must have confessed to the dragon before Xiaoyun didn't dare to cross the line too much.

Just when Gao Shiwei and the others were about to shout to the gangsters inside, suddenly a familiar voice sounded from behind.

"Captain Gao, long time no see!"

Following the sound, everyone turned their heads. When they saw Qin Yuan, everyone was very excited. Fan Tianlei almost rushed up. He didn't expect Qin Yuan to appear at this time.

Long Xiaoyun was even more relieved. She felt extremely stressed before, but now that Qin Yuan is here, it is easy to deal with the terrorists inside.

"I'll go, what are you doing here? Is this a surprise for me?"

"Wait a minute, I think you've made a mistake. I'm not here to help you this time, but I planned this terrorist attack."

what! Everyone couldn't believe it when they heard this. Long Xiaoyun stared at him and the woman next to him in surprise. Now Qin Yuan was really struggling in his heart. He really wanted to explain all this, but for Grandma Sun For the safety of the general situation, he can't say anything.

"What do you mean? What are you doing! Qin Yuan, have you forgotten your identity?"

Gao Shiwei deliberately raised the volume, but Qin Yuan didn't answer his words, instead he said to himself, "I don't know if you have heard the story of Wu Sangui?"
