

Special Soldier 1601

Chapter 1601: Gao Shiwei was attacked

Others did not notice Qin Yuan's abnormality, only Gao Shiwei knew that Qin Yuan would not say such things for no reason, and would bring people here.

It seems that there are other secrets in it, especially the action he made just now. He remembered that Qin Yuan made that provocative action towards him when he first came to the Special Operations Brigade.

Thinking of this, he tentatively asked, "You traitor, what are you doing here now? Don't you think your troubles are not big enough?"

Long Xiaoyun next to him was taken aback when he heard it. How could Gao Shiwei say such a thing? How could he draw such a conclusion even though the matter is still unclear?

Gao Shiwei didn't talk to Long Xiaoyun, but asked her not to talk so much, and he would take care of things here.

Sure enough, Qin Yuan did not follow the previous situation, but suddenly said, "I think the choice I made before was really wrong, a big mistake, so from this moment on I am the real me. "

When Gao Shiwei heard this sentence, he felt relieved. He knew that Qin Yuan was giving him an answer, because Qin Yuan would never say such a thing, and with the wink he just made, it was just that he didn't know What does this kid want him to cooperate with, and what are his difficulties.

At this time, Qin Yuan suddenly raised the gun in his hand, and the Wolf Warrior squad on the opposite side was also stunned. What's going on? If what Qin Yuan said just now is true, are they going to be rivals?

Long Xiaozuo next to him kept urging Qin Yuan to shoot quickly, this is the best time.

Unexpectedly, Qin Yuan rushed forward and directly strangled Gao Shiwei's throat. The people next to him looked nervous, and the members of the wolf squad had no choice but to pick up their guns and point them at Qin Yuan. He had no idea that such a thing could happen.

Long Xiaoyun on the opposite side stared at him intently, worried that this guy would make other moves, because there was still a certain distance between the two sides, and Gao Shiwei didn't understand. Is this kid going to finish it? Isn't this the best opportunity? Now that he has come over, let's cooperate together and kill all these people.

In the next second, a dagger stabbed him directly in the chest, and the people beside him were stunned. Long Xiaoyun subconsciously fired a gun to petition, one sideways dodged the bullet, and the two sides fought instantly.

Qin Yuan's speed was too fast, these people were not his opponents at all, and the people on the opposite side also started throwing smoke bombs. Under their mutual cover, everyone retreated quickly, leaving only Gao Shiwei lying in a pool of blood .

Long Xiaoyun is still in a daze until now, she doesn't know what happened just now, she actually shot Qin Yuan, but the crux of the problem is that Qin Yuan actually wanted to kill Gao Shiwei.

She gritted her teeth and Fan Tianlei came over to bandage her quickly. She pushed Fan Tianlei away and asked him to check Gao Shiwei's condition quickly, after all, it was a vital part.

She really couldn't figure out why it happened like this, Qin Yuan really made a move, Fan Tianlei was trembling all over, he cut Gao Shiwei's clothes with scissors, at this moment he was relieved, Qin Wukong's dagger grasped the strength, It was so accurate, the location of the wound was very shallow, although it was on the chest, it only penetrated a few centimeters.

"Damn it, what on earth is this kid going to do? Could it be that he really turned his back on the water, and if he knew it, he would have shot him, otherwise Team Gao wouldn't have been injured."

Although Gao Shiwei was not seriously injured, he was also thinking about it carefully. At this time, he touched his pocket, and there seemed to be something in it.

He reached out and took it out, it turned out to be Qin Yuan's medal in the special warfare brigade. This thing is also very important to Qin Yuan. During that chaotic time, he took the opportunity to put it in Gao Shiwei's pocket. This time he was even more sure that Qin Yuan had something. Difficult, definitely under coercion, this may just be some kind of plan.

Long Xiaoyun was crying silently beside her. She really couldn't figure out why this happened. The person next to her took the bullet for her, and she didn't seem to feel any pain.

Gao Shiwei wanted to tell the story, but he gritted his teeth and still didn't say anything. He knew that this was Qin Yuan's plan, and he couldn't let too many people know about it, otherwise it might be destroyed, or he would have used it long ago. Notified by other means.

"As you can see, he is no longer our comrade-in-arms, he is no longer the former Qin Yuan, he is already our enemy!"

"Could it be that Gao Dui is not like this, does he have other difficulties?"

Long Xiaoyun still couldn't believe that Qin Yuan, who was so upright before, could suddenly point his gun at them? Gao Shiwei pointed to his wound, "Then what do you think this is? He wants to kill me now, will he kill you too? So next time you meet him, don't be soft-hearted."

Fortunately, Gao Shiwei didn't say much. At this moment, under the opposite table, a small thing was flashing red light, which turned out to be a monitor.

Hearing the conversation inside, the masked man was very happy on a helicopter. Qin Yuan was completely dragged into the water by him this time. The leader who trusted him the most before, the place where he served began to think that he was a thorough criminal.

He picked up the walkie-talkie and started to let the people below proceed according to the plan, and Qin Yuan's ***** had fallen into his pocket securely.

On the other side, Long Xiaoyun and Qin Yuan were in a high-speed car, Qin Yuan was serious now, he really hoped that Gao Shiwei could understand what he meant, and stop letting the team over here, Otherwise, he really doesn't know what kind of actions these crazy people will make, but for now, Grandma Sun should be safe.

At this time, Long Xiaoyun looked at him with some amusement, "Welcome to Captain Qin, you will be the leader of our team in the future, of course you can rename it, I think our ability is no less than yours before. That team, how about we also call it the Red Blood Cell Team."

Qin Yuan turned his head and stared at her fiercely, it was this woman, "You are also worthy?"

The team members sitting in the back felt a little uncomfortable hearing this, but they didn't dare to offend Qin Yuan, after all, where his strength lies.

Long Xiaoyun didn't mind, anyway, this team was formed temporarily anyway, and she still mainly obeyed the masked man, "By the way, I was really curious what you meant by Wu Sangui just now? Why did you say that?"

"Are you suspicious of me?"

"No, no, no, how dare I doubt you. Captain Qin and we will be on the same boat in the future. Just now, my husband has called me and asked me to take you to see that old man."

"It's best to do what you say, otherwise, I won't cooperate with you even if it's a dead end."

After Qin Yuan finished speaking, he leaned directly on his back and closed his eyes. Long Xiaoyun couldn't say anything more. Anyway, the future will be long in the future. Just now, the husband said on the phone that the senior four were not killed, but just suffered. hurt.

It seems that Qin Yuan didn't make a killing move, but it is understandable, after all, if Qin Yuan really made a killing move after such a long time, he would be a little suspicious, thinking that he must be playing some kind of trick.

The vehicle was driving non-stop. At this time, they came to a small alley. After entering the small alley, they saw a building. After Long Xiaoyun went in and opened the door, Qin Yuan saw Grandma Sun sitting on the stool inside. When someone came in and said that grandma was very vigilant, she quickly stood up and shrank in the corner.

"Grandma! Don't be afraid! It's me."

Hearing the familiar voice, Grandma Sun hurriedly got up, only to see Qin Yuan walking towards her, "Grandma knew you would definitely come!"

Grandma Sun was crying beside her excitedly. At this moment, Long Xiaoyun also walked in. Grandma Sun looked nervous when she saw her, "They brought me here!"

"Grandma is fine. The things here will pass soon. Now I will take you back."

Long Xiaoyun came over untimely, "Captain Qin, this is a bit out of order, sir, he just asked you to meet her, but he didn't say that he wanted you to take her away."

"Go away!"

Qin Yuan has accumulated a lot of anger all the way, this guy insists on coming forward, he has done so much now, don't these **** plan to let Grandma Sun go?

Seeing the killing intent emanating from Qin Yuan, Long Xiaoyun flinched instantly. This guy would really kill her, "I'm just reminding you."

Then she retreated silently, only Qin Yuan and Grandma Sun were left in the room. Although Grandma Sun didn't know what happened, looking at Qin Yuan made her feel a lot more at ease.

The more this happened, the more guilty Qin Yuan felt. He felt that it was all because of himself that Grandma Sun suffered such a situation, and was forced to go to a foreign country at a young age.

"Grandma, you may have to suffer for a while recently, but don't worry, the environment is definitely better than now. I can't tell you about many things, but don't worry, I will definitely take you back later."

"These grandmas know that I only hope that you can be safe and sound. I know what they think. If those bad guys use me to threaten you, you must not compromise. Don't forget your mission ."

Qin Yuan nodded, at least now he knows the exact location of Grandma Sun, but it does not rule out that the masked man will transfer Grandma Sun to other places.

There is no better way now, I can only go to the back to see if I can delay the time, and it is better to see each other more, so that I can find a chance to send Grandma Sun out.

The two exchanged a few more pleasantries, and then Qin Yuan walked out. He looked at Long Xiaoyun who was standing opposite, "I want to live with Grandma Sun now, because I can guarantee her safety. Trust you."

"Captain Qin, this may not work, because the husband has already arranged it. You can rest assured that our security is definitely more transparent than yours."

After Long Xiaoyun finished speaking, she saw more than a dozen people in uniforms coming up from behind. She said that these people were protecting Grandma Sun. Qin Yuan clenched his fists, saying it was protection, but it was actually surveillance.

He didn't speak, and Long Xiaoyun should have tacitly accepted it. After all, he had no other way out. When those people brought Grandma Sun out, Qin Yuan directly deformed the big iron gate with one punch.

The people next to them were shocked, what kind of strength this group is so strong, Qin Yuan just vented, and threatened them again by the way.

"It's best to take good care of her and protect her as you said. If she makes any mistakes, you will end up worse than this iron gate."

This time, those people's attitudes became much more polite, and Grandma Sun also silently glanced at her side. Qin Yuan nodded and followed what he had said before, and he would definitely pick her up later.

On the way back, the car was very quiet. With Qin Yuan's strength, no one dared to talk nonsense. It is estimated that Qin Yuan is in a very bad mood now.

Qin Yuan was taken to another separate base. He never saw the masked man, this cunning old fox, and he didn't know where he went.

This time, the task assigned to him by the masked man was to be in charge of training. Long Xiaoyun introduced it from the side, and she pointed to the people who were queuing up for training.

"Captain Qin, this shouldn't be too difficult for you. As far as we know, you have trained a lot of teams in Yan Country. I think you should be able to train them too! These people don't have any system capabilities."

"I don't train trash."

"Captain Qin I think you have misunderstood. Although they have not received systematic transformation, their physical fitness is much better than ordinary people under the growth of our other medicine. Are people considered ***** in your eyes?"

"Yes, including you too."

Qin Yuan was not polite at all, he already hated the woman in front of him, Long Xiaoyun smiled awkwardly.

"Since this is the case, please ask the captain to train well, these rubbish, sir said that he needs three teams."

Qin Yuan didn't say anything, and jumped directly from the platform on the second floor. Everyone's eyes were attracted by him. What is this guy doing?

After he went down, he looked at the people in front of him and shouted loudly: "Isn't it just training? Okay, now the selection starts, all of you come over and attack me."

What? Did you hear me right? This guy jumped over suddenly and said something inexplicable here.

But before they could react, Qin Yuan rushed into the crowd. These people were suddenly attacked, and they also started to attack him, but the result was very tragic. The few people in front were all beaten to the ground by Qin Yuan and rubbed against each other.

The man standing upstairs frowned, "Sister Long, are you sure you really train like this? Will there be any problems?"

"Then you go down and get beaten by him. This guy is a lunatic now. He needs to vent now. These people are not important anyway. It's a big deal to bring some people later. The last thing we need is people."

Chapter 1602: Harvest genetic skills

Long Xiaoyun folded her hands on her chest. She didn't dare to provoke this guy. The kind of sandy feeling that he exuded just now could kill her at any time, so it's best to stay away.

The man next to him also retreated silently, only to see the group of people below being knocked down, Qin Yuan was still roaring angrily, telling them to stand up.

It was indeed completely venting. These people were knocked down again and again, and in the end they really couldn't get up. Within half an hour, the people on the ground had already collapsed into a mass of screams.

Qin Yuan just raised his head like that, and stared at Long Xiaoyun coldly, "See, I said these are rubbish, how can you bring the **** here to train me, I want to train all elites. I don't know how to train Rubbish."

How dare the person lying on the ground say anything now, this guy is a complete monster, so many people can't beat him.

Long Xiaoyun could only smile along, "Captain Qin, look at it this way, I will contact the headquarters later and send a new batch of people, see if you can pick them out, after all, this is also Mr. Order..."

"Enough, I don't want to hear those two words, you can do whatever you want."

It was a dream to want to help them train. Qin Yuan stepped on a person. Anyway, these people are not good people. Those who can join this organization are not good people.

At the moment in the country, because Qin Yuan's influence is too great, he is the **** of war in the hearts of the people, so most of the news and insider information have been blocked and suppressed.

This kind of thing happened to the God of War, no one can accept it. This belief must not be broken. Gao Shiwei has been talked to by the leaders several times, and he must be asked to hide the news.

Even An Ran didn't know about it. An Ran always thought that Qin Yuan was going on a mission. She brought her child to the Special Operations Brigade. The child hadn't seen his father for a long time, so she thought of coming. It's empty, but it's not here.

An Ran is already used to it, "This child is arguing to find her father every day, and I am also very busy with work. I wanted to take her over to take a look, but I didn't expect him to go on a mission again."

He Chenguang took the child naturally, "Let's take the child out to play, anyway, Brother Qin is similar to us, and his child is our child."

Li Erniu also took out a candy and handed it to Qin Ran, "Come on, uncle will take you to ride in the tank, okay?"

The child clapped his hands happily, and then went out with them. Li Erniu and the others were worried that they might ask other questions, so they decided to take the child away from this place first, because An Ran is very smart.

Long Xiaoyun was also quite conflicted at this time, she didn't know whether to tell An Ran the truth, it would be too unfair to An Ran.

But what if An Ran knew about it? Do you want to tell the child that her father is a criminal, from a hero that everyone admires to a criminal, she can't believe it now, and she can't accept it.

An Ran casually sat opposite and peeled an apple, "I said this Qin Yuan is real, at least he would call to inquire about the child's situation before, why it seems to have disappeared for a while, there is not even a phone call."

"This guy is like this every time, and their men are relatively big, maybe they didn't think about these aspects, after all, the task is still relatively important."

"I don't mean to complain. Anyway, I also know that your mission is completely confidential. Don't worry, I can understand it. It's just that the child is clamoring to be called Dad every day."

Speaking of this, Long Xiaoyun was in great pain, she was too entangled, after thinking about it, she still couldn't tell An Ran.

Li Erniu and the others were inside the tank with Qin Ran, the child was having fun, when suddenly the child pointed at Li Erniu and said abruptly, "Uncle Liu, you lied, I know."

What? Li Erniu thought that the child's words were childish, and he was just joking with her, so he teased her jokingly, "Of course, then what do you say Uncle Erniu is lying about?"

"You lied to Mom, why did Dad hurt Grandpa Gao?"

As soon as these words came out, several people present were shocked instantly. What's going on? How did this little girl speak out their inner thoughts? The moment they saw An Ran just now, they really thought so, because An Ran kept asking Qin Yuan, so they could only carry out the task with duplicity, but in fact they were suffering in their hearts.

"Of course, how did you tell uncle that you knew?"

"Well, Dad said that you can't say it, anyway, I just know it."

The system ability of Qin Ran was suppressed by Qin Yuan once before, because she is a child after all, and she has developed many abilities, which even she has no way to control.

But now Qin Yuan is no longer here, and has not suppressed her for a long time. This is like a system update, which must be resolved every once in a while, so Qin Ran's system capabilities began to slowly awaken again.

Everyone was in disbelief, but He Chenguang reacted immediately, "Of course, do you think this is okay? Mom must not know what you said today and these things. We are going to play games with mom, and this is what dad told you. right?"

Qin Ran nodded with a serious face. Although the child looked small, he was really sensible.

Several people explained a few more words before taking the child back. Watching An Ran take the child back, what the child said just now was too amazing. Could it be that she, like Qin Yuan, can have the function of hypnosis without knowing it? Hypnotized everyone?

Li Erniu shook his head, he really couldn't figure it out, "You said that the above is not allowed to discuss love songs, but he is our captain, and everyone knows it, do you think he will do this?"

"I definitely won't do it! But Grandma Sun's whereabouts are also unknown now, so I always wonder if there will be any connection during this period?"

When Qin Zhengyang heard Wang Yanbing say this, he instantly became angry from embarrassment. He stepped forward and grabbed Wang Yanbing, "What do you mean? Do you think Brother Qin is that kind of person? He will really kill us for Grandma Sun."

"You're so embarrassed to say, look at your leg. If it wasn't for Brother Qin, you would be a ***** now, a cripple."

This Qin Zhengyang was so excited, he didn't allow anyone to slander Qin Yuan, and even said such hurtful words, He Chenguang quickly pulled him aside, saying that Wang Yanbing didn't mean that, but everyone was analyzing it.

Qin Zhengyang was still relentless, and he said that if no one really cared about it, he would go there in person, and he would investigate all this clearly.

Wang Yanbing was also angry. They have been suppressed for too long. The people above have been monitoring them and they are not allowed to have any discussions. Everyone is cautious about what they say.

This feeling is really uncomfortable, even An Ran and the others are under surveillance in secret, always worrying about whether they will have any contact with outsiders, this is simply an insult to them.

It was so unfair, Wang Yanbing let out a roar, and smashed his fist directly on the big tree next to him, and blood flowed from his fist in an instant.

"Yanbing, what are you doing?"

"I feel like I'm a waste. Maybe Brother Qin is waiting for our help now, but we can't do anything."

"Who said it can't be done? Are you willing? Anyway, I don't care. If our special warfare team doesn't have Brother Qin, is it still called a special warfare team?"

In this way, under Qin Zhengyang's suggestion, everyone began to conspire, intending to sneak into the United States quietly, and then began to investigate this matter. Now the management is very strict, and there are people monitoring them everywhere, so they must find a way.

There is no rush for this matter, after all, there are no clues at all, and there are all kinds of rumors outside, and many of them are false.

The red blood cell team is making preparations here. They want to plan to go to the country of America, and Qin Yuan's side is more troubled, because under Long Xiaoyun's constant urging, he has to carry out training.

Long Xiaoyun kept suppressing him with the masked man and Grandma Sun. Qin Yuan had no choice but to train these players in western clothes first.

Although she said before that she wanted to change people, it was still the same group. These people are still bruised and swollen, and they couldn't help trembling when they saw Qin Yuan walking over.

Long Xiaoyun even brought a high-tech weapon, "Captain Qin, since we are already on the same rope, you need to know these things. Now we are no longer purely relying on manpower. These technological things can enhance our capabilities."

I was quite curious about this Qin Yuan. I only saw Long Xiaoyun make a demonstration. He called out a team member, and then embedded the weapon of the equipment directly on his neck. Soon, the equipment slowly integrated into the body. off his skin.

After the equipment was fully integrated, Long Xiaoyun connected to the computer beside him and began to test his speed. His speed and explosive power were much improved than before.

"I didn't expect you to be very powerful in doing these crooked things. I'm curious what it is?"

"This is the latest research in Mr.'s Science and Technology Museum. We call it a gene modification chip."

Qin Yuan reached out and touched it, Long Xiaoyun was very nervous, she knew that Qin Yuan's ability could not let this guy succeed.

"Captain Qin, it's better for me to manage this thing specially. You don't need to worry about these small things."

The more nervous Long Xiaoyun became, the more important it was. The corner of Qin Yuan's mouth raised and he stretched out his hand silently. Long Xiaoyun also heaved a sigh of relief. What he didn't know was that in just a few seconds, Qin Yuan Already let the system recycle.

It's just that it's too late to check it now. When he gets to a place with few people, he can take a look at the specific recycling function.

His system ability is very powerful now, as long as he makes contact, he and the system have reached a temporary donor, and any thought will be recovered immediately.

Long Xiaoyun put the thing away like a baby, and told Qin Yuan that the other team members here have already implanted this gene chip, so they can train with confidence.

After training in the evening, Qin Yuan came to his room. No need to guess, there must be some monitoring equipment and monitors. Qin Yuan didn't care. He turned over and fell asleep. On the surface, he looked at him sleeping. Actually he is looking at the system.

As soon as he turned on the system, he saw three messages pop up on it.

"Ding! Congratulations to the successful recovery of the host, please select the system capability."

"1. National-level gene remote control skills, as long as one of the genes is obtained, you can control any object and any person."

"2. National-level genetic programming skills can completely artificially change anyone's genes, erase all memories, and allow genetic recombination."

"3. National-level genetic immunity skills, any genetic modification of this technology will be rejected, and self-protection will be activated, and it will not invade the host's body."

Qin Yuan just glanced at it casually before, and was more interested in the gene remote control skill. He clicked on the detailed view, and then he understood. Suddenly he found that this skill is really convenient.

The general situation is that if he can get Grandma Sun's hair or a bit of her blood, nails, these things contain the genes of Grandma, then he can manipulate Grandma Sun, and this manipulation is instantaneous.

I can bring Grandma Sun directly in front of me, but because it is now a national-level genetic remote control skill, there is a certain distance limit. You must keep him and Grandma Sun within a range of 10 kilometers. Within, beyond this distance, there is no way to teleport.

Another way is to use merit points to upgrade, which is not expensive to upgrade. Qin Yuan immediately clicked to upgrade. After upgrading to world-class, his ability range began to expand. This time, he just needs to experiment again.

Qin Yuan quickly sat up from the bed. He wanted to verify it. At this time, he remembered the gene chip that was copied and recovered in the system. If he remembered correctly, Long Xiaoyun brought it from the headquarters. of.

He didn't know how far the headquarters was from here, so he could only give it a try.

Since there is a part of this chip, it also represents its genes, let's see if we can bring other things over.

Qin Yuan's thoughts just popped up in his mind, and suddenly he felt something in his heart. He quietly saw that it turned out to be that kind of gene chip, which is too amazing, so he came here directly.

Not only that, but the distance is also included in the data analysis. The headquarters is about 800 kilometers away from here, and the ability to calculate all the kilometers is really too strong.

Qin Yuan quickly put away his expression. He knew that he was being watched now and must not be exposed. This was the best chance to rescue Grandma Sun.

And not only can Grandma Sun be saved, but the masked man can also be found by using this situation, as long as his genes can be obtained.

Chapter 1603: mission to sea

At this moment, in another room, several surveillance personnel were staring at the computer screen intently, and Long Xiaoyun walked in from behind.

"How is today? Does he have any strange movements?"

"Long Jie is not. Everything is normal, but he went to bed earlier today than yesterday."

"That's good, continue to monitor, it must be 24 hours a day."

A staff member next to him was a little puzzled, why should he monitor this person like this? Although they didn't dare to relax, they always felt that it wasn't that exaggerated.

Long Xiaoyun just rolled his eyes at him indifferently, telling him to work hard, don't ask if you shouldn't ask, because labor is needed now, she thinks labor is not reliable, but the masked man will develop it soon Get a new monitor.

This monitor can monitor Qin Yuan systematically, and if he uses the system ability, it will send out a reminder, especially in this room.

The main reason is that until now they don't know how many kinds of Qin Yuan's abilities there are. It is too inscrutable. Their old equipment can be completely tested before, but it doesn't work for Qin Yuan at all.

The next morning, Qin Yuan still led those people to train these team members. No one dared to resist. Qin Yuan's method was indeed more cruel. After only three days of training, most of the team members could no longer bear it.

At first, Long Xiaoyun wondered if these people were being lazy, so many people asked for leave, which was too strange, but when she came to the infirmary of the base, she instantly understood that most of the people had come here .

She had no choice but to find Qin Yuan again, "Captain Qin, although you don't want to listen to what I say, but if possible, I still hope that you can train them well according to the previous agreement. We have always been on the same line. above."

"What do you mean? Are you questioning my training?"

Qin Yuan approached step by step, he stared at Long Xiaoyun coldly, she felt unprecedented fear, Qin Yuan was not like this before, she was still with Li Kang at that time, Qin Yuan was relatively gentle , but now it has completely changed.

"No...everything will follow your arrangement."

Long Xiaoyun completely lowered her head, Qin Yuan didn't bother to talk to her, and just passed her side. It wasn't until he left that Long Xiaoyun let out a long sigh of relief, the feeling of oppression was too strong.

After staying for a few more days, Qin Yuan saw an acquaintance, it turned out to be Wells. This guy brought his team over here to deliver supplies. When he saw Qin Yuan, his eyes widened. He didn't expect them The internal news turned out to be true.

He heard the news a week ago that a strong man came to their base, and it was unprecedented. At that time, he just smiled. After all, the only strong man he thought was Qin Yuan, but when he knew that person's name At that time, he was also stunned. At first he thought it was the same name and surname, but when he actually saw himself now, he was completely stunned.

Wells stared at Qin Yuan with a complicated expression, but it was a pity that there were people around him, otherwise he would really have to go up and ask for clarification. Qin Yuan was his only hope to leave here and become stronger. Unexpectedly, even he came in now, here and there How can I become stronger?

But before he could ask clearly now, there was a new task from the masked man, asking Qin Yuan to set off with the supply team.

They need to transport supplies to the southern part of the Atlantic Ocean, across the entire Atlantic Ocean, this journey can be described as very difficult and dangerous, there are many pirates on the way, even a large force like the masked man will be attacked by pirates.

The main problem is that the materials they transport are relatively precious, and they cannot withstand repeated robberies by these pirates. However, because the items are special, it is too troublesome to transport them by air, and it is even more unsafe to transport them by land through multiple channels. .

So the most direct way is to go from the sea. They thought of many ways before and sent a lot of people with systematic capabilities, but those pirates are too rampant, not only some, but they will encounter many along the way. Pirates, it will take them seven days to get there.

Even with the ability of the system, such layers of exploitation are really unbearable, so every time they transport materials, they have to mobilize people, at least three **** ships, but the cost is too high up.

But this time they have Qin Yuan, so the masked man is completely relieved, and the assembled team has been prepared, but Wells found that there is only a team of 12 of them. Although he doesn't know the exact number, it is very likely to arrive. There were other people at the pier, and with Qin Yuan this time, it shouldn't be a big problem.

Although the two started together, they followed Long Xiaoyun and her people all the time. This team has been managed by Qin Yuan by default, so Long Xiaoyun can be said to follow him inseparably.

So the two of them have never had any chance to communicate, so they arrived at the pier all the way, and after making an appointment, they were forbidden to board the freighter. This ship is very big, but when the people of Wells went up, they found that they were really the only ones. Two teams of people, this is too exaggerated.

The captain on Wells' side was very unhappy. He hurried to contact the captain, mainly because he felt that this matter was impossible to do.

"What are you doing? Is this really an order from Mr.? Although I haven't escorted it before, it is absolutely impossible. I heard from them that at least fifty or sixty people set off together. It is impossible to go on like this." There are not too many pirates in any sense."

"You don't need to tell me these things. This is what the gentleman means. Let's go now and don't waste any more time."

The captain has no choice but to upload it silently. After that, everyone is not very interested. They have more or less heard of those pirates. Isn't this telling them to die?

After a while, the crew on the top came over, "Actually, you don't have to worry. This time, the master said that there is a powerful person following us, so we can rest assured."

Everyone looked in the direction of the crew, only to see Qin Yuan who was basking in the sun on the deck. This kid really came on vacation, and even left his weapons beside him.

Except for Wells, none of these people knew about Qin Yuan. The captain shook his head. So what if the power of one person is equipped with a system? Everyone among them has a system, so why can he be so confident?

The captain shook his head, feeling more at ease in self-protection. He went to the cabin and checked the gas. If the situation is really bad, he can only abandon the ship and go to a nearby small island to avoid it. Otherwise, there is no other way. .

Qin Yuan still had that calm attitude. Anyway, if you come, you will be safe. Eliminating pirates is much easier for him than training those rubbish. He doesn't want to give the masked man any chance to train.

Although the masked man explained something to these people on board, everyone still couldn't believe that he was the only one in front of them. Could it be that he was able to surpass the previous fifty or sixty people?

At this time, Qin Yuan still called him to express that he wanted to eat seafood noodles. After a while, Long Xiaoyun brought him a bowl. After he took a bite, he threw the tauzi on the ground.

"Are you guys eating this? How long have you kept this fish for yourself? I'm afraid this shrimp is frozen."

Long Xiaoyun was a little embarrassed. After all, there were many people on the deck, "Captain Qin is like this, because we have a long time to go back and forth, so the food we prepare is mainly frozen, but don't worry, the quality is absolutely fine. ."

"Use this kind of thing to fool me, I don't want to eat it, I want to eat fresh."

Although they are on the sea now, they have to eat fresh unless they catch them on the spot, but they are cargo ships, not fishing boats. Everyone has only one impression of Qin Yuan's appearance, and thinks he is a helpless roll, even though he wears a mask There are no good people here, but this guy has gone too far.

The captain next to him was even more worried. Can such a person really protect them?

At this time, something unexpected happened to Da Geng, Qin Yuan jumped into the sea, this is a ship in motion, this guy is crazy.

Long Xiaoyun exaggeratedly ran to the fence, she kept yelling Qin Yuan's name, if this guy ran away from her, the masked man would definitely not be able to spare her.

At this time, Qin Yuan poked his head out of the water, and wiped the water on his face. The waves in the water are too big now. In this situation, since he was able to stabilize his figure.

Everyone on the deck hurried over to watch the excitement. Long Xiaoyun was about to throw the lifebuoy down, but Qin Yuan waved his hand unexpectedly.

"Captain Qin, what are you doing? Have you forgotten our agreement? Are you going to leave now?"

"What are you talking about? I just want to eat a bowl of fresh seafood noodles! Don't worry about me, I will follow up later."

This guy is probably crazy. In this case, he didn't bring any equipment. This is the deep sea. Did he think it was Xiaohe Xiaojiang?

Long Xiaoyun was not worried, because he knew Qin Yuan's ability, and the captain next to him was in a hurry. He felt that this guy was just sending him to death.

"Long Jie, don't we really need to tell them to stop the bed and let's go down to rescue him? He's been down for five minutes, is there any problem?"

The people next to him also said mockingly: "Hahaha, Captain, it's really interesting for you to say this, our ship has already traveled such a long distance, even if he takes a speedboat, it will take a while, this kid probably has Feed the sharks."

While several people were talking, suddenly the team members on the deck pointed to the water in the distance and said, "Look, what is that?"

I only saw Qin Yuan showing his head, and then he swam towards the ship quickly. His speed was extremely fast, and within a few minutes, he came directly to the bottom of the ship, just when everyone was trying to throw him a rope, he didn't bother at all.

He directly grabbed the edge of the ship and climbed up like that. This scene completely stunned everyone. First of all, he was able to stay in the sea for such a long time without suffering any damage. More importantly, since his speed could keep up with the ship, this also It's too exaggerated, even sci-fi movies dare not shoot like this.

The captain looked at him in shock just now, could it be this kid's system ability, his speed is very fast.

After Qin Yuan came ashore, Long Xiaoyun handed him a towel, and he wiped the water off his head, then threw out the two fish that were inside his clothes.

The fish is still in a fresh state, struggling desperately after throwing it on the deck, "See? This is really fresh, go, take these two fish down and cook seafood noodles for me, this is the real fish. Authentic seafood."

This kid is too exaggerated. He jumped into the sea to catch fish with his bare hands just to eat noodles. Everyone was still discussing this matter during dinner. This person can only be described as desperate.

The journey was fairly calm. After all, this sea area was relatively close to the surrounding borders, and the management was very standardized, so there were no large-scale pirates.

After dark, the captain was in the wheelhouse. He was carefully alerting the soldiers on the deck. They were about to enter the area where there were pirates.

The sailors next to them also looked nervous. Last time they were attacked by the first wave in this area, but there were more people at that time, so they were completely beaten down, but the situation was also very dangerous.

After walking for a while nothing happened, the captain's hanging heart slowly let go, but at this moment, a roaring sound sounded.

The soldiers in charge of guarding on the deck quickly used the walkie-talkie to report that they found suspected pirate ships. Three ships were approaching them rapidly. Sometimes even explosions and fires occurred.

Directly using suicide attacks, they are very good at water, and took this opportunity to climb onto the big ship and move the goods to their pirate ship.

In addition to this, they are taking advantage of the strong attack from a distance. In addition, the speedboat is relatively small, and there are some invisible blind spots under the ship, where they can board the ship quickly.

Every time we meet these pirates, everyone has a headache. Even if the captain speeds up, the pirates are still chasing after them. Everyone wakes up from their sleep, and everyone is staring at the direction of the pirates.

The captain took a look, why didn't he see Qin Yuan? Where did this guy go again? Now the pirates are coming, didn't he say he wants to protect everyone?

But now he didn't have time to worry about that much. He only saw Long Xiaoyun was also getting ready. Ten minutes later, the pirates were completely close, and the two sides had already started fighting.

At this time, Qin Yuan yawned and walked out slowly, "I'm really irritable, I didn't sleep well during the day, and you dare to disturb my sleep at night, don't you want to live anymore?"

Chapter 1604: find cloning base

At this time, a row of bullets came directly, and everyone was hiding behind sandbags made on the deck. This Qin Yuan was just like a normal person, but he just dodged the bullets slightly, and the bullets passed by. Good guy, at this speed Also too fast.

Qin Yuan walked up to Long Xiaoyun, "I want to eat dumplings today, let the kitchen prepare them first, it will take about ten minutes, remember, don't make the dumplings thin for me."

The captain next to him was furious, what time was this guy talking about, and he still wanted to eat dumplings.

Now that they are fighting so hotly, it's impossible to rely on them alone. Just as he was about to complain, he saw Long Xiaoyun actually ran down to find the chef to make dumplings.

They are all lunatics. At this moment, the captain only thinks that he is crazy. When is it? Don't these people know that life is more important? These pirates are no joke.

Wells didn't know what Qin Yuan was going to do, why he didn't make a move, but the next second Qin Yuan stood on the deck, he found the best commanding height, and at this time the pirates had already dispatched, they rode The motorboat moved quickly. In such a rough sea, the shaking on it was too great, and it was very difficult to aim and shoot.

The captain stared at Qin Yuan intently, he wanted to see what tricks this kid could play, and soon, the first shot was fired, but he didn't see him fall down, he cursed silently, it seemed that he was It's a waste, and I didn't see the hit person.

However, a huge explosion sounded on the sea in the next second, and only a motorboat exploded. Unexpectedly, Qingyuan directly hit the fuel tank of the motorboat.

Good guy, a sea of flames erupted on the sea in an instant, and the gasoline in the motorboat completely leaked out. The pirates in front couldn't dodge in time, and they all collided together.

Qin Yuan took his time and kept firing. Explosions sounded one after another, and the pirates were caught off guard. The marksmanship was so accurate.

Seeing that the situation was not good for them, the leader on the pirate ship quickly ordered to retreat. This was not the way to go. He wanted to withdraw the motor boat in front, and then use the advantage of their big ship to attack directly from a distance.

While the pirate leader was still in command, a golden bullet pierced his head directly.

At this moment, there was no leader in the group, and the pirates were completely panicked. They were willing, but did not intend to let them go. They took the walkie-talkie to let the cab below adjust their direction, and chased them directly.

This is just crazy! But what else can the captain say at this moment? Their strength lies there, just like that, Na and the pirates were beaten by them and fled. In the end, Qin Yuan attacked at close range abruptly and knocked down their pirate ship.

The team members on the deck were completely shocked. This guy's strength is too strong, mainly because of his marksmanship and precision, which is too accurate to be able to do so in such a turbulent sea.

And the time was just right, in the ten minutes Qin Yuan said, Long Xiaoyun also brought the dumplings.

Qin Yuan put the gun next to him, and then ate the dumplings. He also disliked the taste of the dumplings, "It's just a small matter, please trouble me, and call me when there are more people, otherwise it's really bothering me." I sleep."

Long Xiaoyun nodded at the side, she admitted that this guy is too strong on the sea, his ability is unlimited.

The captain didn't say much about Qin Yuan's ability after witnessing it with his own eyes. Sure enough, they had to believe in the arrangement above. This is really the strength of one enemy against a hundred. Under this situation, they are still so calm.

With Qin Yuan's guarantee along the way, and the two pirate gangs were eliminated along the way, they can basically be said to be invincible in this generation.

Soon the supplies were transported to the island over there, and Qin Yuan followed, but was stopped by Long Xiaoyun unexpectedly.

"Captain Qin, I think you are the one who escorted us all this way. It's really hard work, so I don't think you need to come down, just rest on the bed, we will be ready to go after we finish loading the supplies."

Qin Yuan looked at the staff who were unloading the supplies on the ship. Such a large ship has a lot of supplies, and it is estimated that they will not be able to carry them all until evening.

He wasn't curious at first, but this guy kept hiding, which always made him feel that there was some ulterior secret in it, and the more he was like this, the more curious he became.

"You can't let me stay on the boat all the time, isn't it boring?"

"Captain Qin, I think you must have misunderstood. The main reason is that the goods are being unloaded here, and I am worried that there will be collisions, so it is best to stay on the ship."

Qin Yuan ignored her and walked back. Long Xiaoyun was relieved. She wanted to supervise Qin Yuan at all times, but she would be responsible for handing over the goods later, and there were other things waiting for her. You can't keep watching here.

At this time, she saw the team members on the deck, and the others were lying leisurely beside them basking in the sun. She noticed Wells, and remembered that this guy's ability seemed to have an immortal body.

Such a person is actually the most suitable, if Qin Yuan is angered, Qin Yuan can't kill him if he is unhappy.

"Hey, that guy named Wells."

Wells didn't know what kind of tricks this woman was going to do. He had to be careful with this person. He had suddenly appeared next to the masked man before. Anyway, it was not a good thing to be by his side.

"Don't be stupid. You are now responsible for taking care of Captain Qin. You must meet his requirements. Remember, you can't take your eyes off him when you take care of him."

Good guy, if it's someone else, he must be cheated. Everyone doesn't know how powerful Qin Yuan is. This guy has a big temper, and he will beat people if he disagrees with him.

Several team members next to him cast a sympathetic look at him after hearing it. Isn't this intentionally tricking him?

His captain also couldn't stand it anymore, "Sister Long, I don't think it's necessary, after all, Captain Qin stayed up there well, and you know his temper, let alone us, even you will have to suffer if you follow him." scold."

"What do you mean? Do you want to disobey my order? The sir said before that you must obey everything when you come out."

There was no other way, the captain could only helplessly spread his hands, and Wells was secretly happy. They didn't know that they finally had a chance to get close to Qin Yuan.

But now he can't be so obvious, "Sister Long, that's the only way to do it now, but his temper is too big, what if I get beaten up by him?"

"Anyway, I remember that your ability is not immortal? You can't die no matter how hard you fight!"

The people around him burst out laughing when they heard it. What he hates the most is when others mention this to him. He feels that he will never die, and he can be assigned to any dangerous job at will, including this time.

But what they didn't know was that although he couldn't die, he still had to suffer the same pain. He really had enough of it again and again, so he wanted to become stronger even more.

Soon Wells came to Qin Yuan's room, and Long Xiaoyun left with peace of mind. After entering, he looked around and made sure that no one else followed, so he hurriedly asked. He really had many questions in his mind. What is Qin Yuan going to do?

"I really don't understand what your plan is, why are you here?"

"I can't even understand what you are talking about. Of course, it's because your place is very good, so I joined you."

"Brother, stop joking. You promised me before. Now that you have come in, is there any hope for me to get out?"

Qin Yuan didn't intend to tell him at first, but he was worried that this guy was broken, so his plan reluctantly told him something.

"You don't need to know too much about many situations. Don't worry, I must have my own purpose when I come in, and it's easy for me to get out. Of course, this does not prevent me from giving you strength to improve your skills."

Wells was dubious when he heard this, but after thinking about it, if Qin Yuan's powerful ability hadn't been voluntary, who could have brought him here?

"Forget it, let's not talk about this for now. I'm curious about what's in this place? That woman is so wary of me."

Wells said he didn't know, it was his first time here, but it seems that the headquarters will come here to deliver things every three months, all the things are packed in containers, and they don't know what it is .

Qin Yuan really wanted to go out, he looked at Wells, and then patted him on the shoulder, "Well, you lie here, and from this moment you play me, as long as you don't show your face."

"Then how do you get out? You can't completely imitate me, or do you have the ability?"

Qin Yuan smiled knowingly. He used his makeup skills to become himself in front of Wells. Wells was stunned by this operation. This guy's skills are too terrifying.

They also specially made a play. After a while, they only saw Qin Yuan dressed as Wells fly down from the cabin and hit the ground heavily. Everyone was attracted by this desire. , including Long Xiaoyun.

The captain on the deck couldn't help but frowned. Fortunately, it was still this kid, he couldn't die anyway.

Long Xiaoyun walked over without the slightest worry, "How are you doing this?"

"Long Jie, I can't help it. He said he was going to sleep and told me not to disturb him. I just said that I was at the door, and he kicked me down."

It has to be said that Long Xiaoyun's vigilance is still very strong. She walked up and saw Qin Yuan sleeping through the small gap next to her.

At this time, the staff who helped the container below accidentally dropped the container to the ground. She frowned. How did these people do things? She could only run over in a hurry and passed by the team members on the deck. She turned her head and said seriously :

"Remember, if he comes down, he wants to come out and try to delay the time. He must not be allowed to leave this room, understand?"

The captain had no choice but to agree. Who told this guy to be directly assigned by the masked man?

At this moment, Qin Yuan turned over and came to the back of the container. He knocked on it, but he didn't hear any movement inside. At first he thought it was so mysterious, could it be some living thing?

He saw these workers take out the carts and push the containers to the building inside. Because there were a lot of goods, the scene was quite chaotic. Everyone was busy with their work, and no one noticed him at all.

He mixed in with the team pushing the container. After entering, he was completely stunned. The size inside was unimaginable to him, and another group of workers inside were dismantling the container.

He walked forward and saw that the dismantled parts were quickly sent to the laboratory inside. He looked at those parts and looked familiar. He quietly reached out to touch the system and quickly gave an analysis. They were all nano-electronic parts.

He took a closer look. If all these things were assembled together, it would really look like a normal human being.

Suddenly he remembered that Long Xiaoyun was not so strong before, he was an ordinary person, and coupled with the crazy experiment at that time, this kind of system ability is not suitable for most people, it is very likely that he This kind of transformation is going on I didn't expect such a large-scale experimental manufacturing to be hidden on this island. It is estimated that Long Xiaoyun's transformation also started here, and she only needs her brain and heart. The others are completely mechanized, so there is no need to worry about pain or fatigue.

And not only that, Qin Yuan also saw a familiar scene, and there was a model in it that turned out to be a masked man. No wonder this guy has so many clones, they were all produced here.

In order not to be discovered, Qin Yuan observed for a while, and then quickly backed out. When Wells was struggling with what to do, he was worried that what would happen if Long Xiaoyun pushed the door directly in?

Suddenly Qin Yuan appeared, and he quickly changed his clothes, "You are finally here, I am really too worried about being exposed, do you know how dangerous this is, if we are discovered, all our previous efforts will be for naught!"

"I wasted a little time just now. I didn't expect that all the clones of your boss came from here."

Wells was shocked when he heard this, "If this is the case, then we can find an opportunity to destroy this base."

"You and I have the same thoughts. If you want to go out now and become stronger completely, it is unreliable. You don't know when it will be. The most important thing is to solve the source problem!"

As long as the masked man is dealt with, he will have no worries after he escapes. The two of them agree with each other in an instant, but they soon fall into another problem. How to destroy such a large base?

"It's not difficult. Don't worry now. Don't arouse his suspicion. After I go out, I will find a way to deal with it."

Now that he can't expose himself, let this guy run rampant for a while, and the things he creates here will only get stronger and stronger, so we must destroy this base as soon as possible.

Chapter 1605: child missing

"But according to what I have said before, the only way to come to this place is by sea. If it is by land, then I don't know the specific route. They are hiding very deep here."

"I don't need you to worry about this matter. I will solve it myself later. You do your job well and keep it up. We will contact you later."

Wells nodded. He felt that if Qin Yuan destroyed this place, the hope of getting out of him would be greater and greater, so that he could completely get rid of the clutches of the masked man. Before, he thought that he would be able to have more opportunities here after becoming stronger. high status.

Slowly he realized that this should not be realistic, because it is impossible for the mask bar to let them go, especially those who want to betray the organization, there is no good end at all.

There are also people who plan to leave quietly, but the organization is now doing more and more research, just like Long Xiaoyun, there is no way to leave at all, even if they have strong system capabilities, facing these mechanized things, The technology is too strong, and they are powerless to parry.

Long Xiaoyun finally finished dealing with the matter over there. She came to the cabin and wanted to see what Qin Yuan was doing, but she didn't expect that this guy was still sleeping. She always felt that something was wrong, so she opened the door and went in.

Unexpectedly, Qin Yuan yawned and turned around, and threw the shoes out, "What the ***** are you doing? I'm going to sleep well, but if you insist on disturbing me, you won't let me talk about it!"

Long Xiaoyun hurriedly bent down to apologize, and then closed the door by the way. Could it be her illusion, how did this guy become so honest now?

But by the end of the night, all the goods will be used up. As long as she lasts until the evening, she will take good care of Qin Yuan and there should be no problem. The masked man has nothing to do. Other things were wasted on transportation, so he took the risk of bringing Qin Yuan over.

Until all the cargo was finished, Qin Yuan just stood on the deck and walked back and forth without any abnormalities.

He has already understood everything he should know. This time, he just needs to remember the route. He will definitely come to this place next time. Long Xiaoyun and the others have ignored Qin Yuan's powerful memory. It is long, but Qin Yuan can remember all the routes in his mind.

Thanks to Qin Yuan's ***** along the way, nothing went wrong, and a few waves of pirates were also wiped out.

After returning to the base, he still had to train those people. Although he didn't want to, it was a necessary disguise. After the last experiment, Qin Yuan felt that there should be no problem. Bring it to your side, with the ability to teleport instantly.

After training for a few days, he asked Long Xiaoyun to see Grandma Sun.

Long Xiaoyun was a little embarrassed, the place they had just moved was to guard against Qin Yuan, and now Grandma Sun was another card in their hole.

"Captain Qin, you might as well train this team first, and then I'll apply to my husband, so that you can meet the old man again."

"Aren't you talking nonsense? Really don't force me, otherwise I won't be sure if I will do something. Anyway, isn't it just breaking the pot now?"

Long Xiaoyun had no choice but to apply with the masked man. Unexpectedly, they agreed quickly, mainly because their mission went very smoothly this time, and Qin Yuan also passed his preliminary assessment, at least he didn't give up on that man. Place hands.

In this way, Qin Yuan saw Grandma Sun again. This time, the environment was much better than before. It was in a separate small building, but there were guards upstairs and downstairs.

Grandma Sun was full of sadness. She had been away for such a long time, and she didn't know what happened to the orphanage. "I'm not worried about myself, but why are you here? Although I don't know what happened, I really don't want to become your burden."

"Grandma, what are you talking about? Don't worry, with my ability, it is absolutely impossible to be soft like them. Now it is only temporary, you should understand."

Grandma Sun looked at Qin Yuan's resolute eyes and could only nod her head. At this moment, Long Xiaoyun was waiting outside a little anxiously, mainly because she was worried that Qin Yuan would play some tricks.

"Captain Qin, I think it's almost time, and we should go back."

"What are you doing? I have done so many things for you this time, and you all know it in your heart. Now I only have one simple request. I want to have a meal with my grandma. Isn't it okay?"

The expression on Long Xiaoyun's face was a bit perplexed, but she looked around, there were so many people under control in this place, and she was also here, there shouldn't be any problem, so she could only reluctantly agree.

After Long Xiaoyun left, Qin Yuan pretended to go to help Grandma Sun and quickly whispered in her ear, "Grandma, find a way to give me some of your hair later."

Although Grandma Sun felt a little strange, she still followed his request. When going out, Grandma Sun quickly tore off two strands of hair and put them in Qin Yuan's hands. After going out through this door, they had no chance to get along alone again, even Long Xiaoyun followed when eating.

Although their plan is completely ruined now, and Qin Yuan's reputation is somewhat broken with that side, but Qin Yuan's ability is still placed here, even if he is not on Yanguo's side, he can go to other places, so Grandma Sun is theirs. The last hole card.

Long Xiaoyun was worried all day long, but fortunately Qin Yuan didn't cause any trouble, she finally breathed a sigh of relief and took Qin Yuan back together, halfway back she received a message from the masked man.

To be precise, the masked man has already sent a second wave of missions, asking them to eliminate another powerful opponent.

The masked man might have had some scruples before, but now with Qin Yuan, he became indifferent, and soon the specific situation of the mission was sent.

Qin Yuan was also very nervous at the beginning. If they wanted to target some organizations by themselves, then it would be fine, but if they planned some kind of conspiracy, then he would definitely not agree, and had to find a way to bypass it.

It was not until after reading the information that Qin Yuan heaved a sigh of relief. It turned out that he was asked to deal with the masked man's rival company, which was a technology manufacturing company. Their company mainly focused on technology robots in the past two years, and produced many full-time robots. These robots are all sent to the battlefield.

It can be said that his things replaced most of the soldiers, but for some technologically weak countries, it was simply an unprecedented disaster.

However, this technology company did not restrain itself. They accelerated their rise to power. Before that, they were regarded as a cooperative company under the masked man, but later they were quickly separated and completely became the masked man's side. Strong opponent.

Anyway, things here are a bit too complicated, mainly due to the disputes among the leaders above. The organization where the masked man is now has been divided into three major areas. One thing is that another headquarters still maintains a cooperative relationship with the masked man.

In addition, this so-called technology company has been completely independent and has become their strongest opponent. At that time, it also took away most of the technology materials, so it was able to reach such a prosperous level.

Qin Yuan flipped through the information here casually. To him, these things are just some waste paper, and it doesn't matter whether he reads them or not.

Long Xiaoyun, who was standing next to her, attached great importance to it, "Captain Qin, I still hope that you can take a good look at these materials. The robots they produced are perfect. I can say that they are basically like me."

Qin Yuan smiled contemptuously, then turned around and grabbed Long Xiaoyun's neck. His speed was so fast that Long Xiaoyun didn't even react.

"What level are you talking about?"

Long Xiaoyun was a little out of breath, until Qin Yuan let go of her hand slowly, she felt relieved, although most of her body was made of machinery, but under such strong pressure, she also felt relieved. There is nothing to do.

"You have to remember that you are just one of my entourages now, just my subordinates, understand? There is no need to remind me of something, I am already very dissatisfied with you today."

Long Xiaoyun knew in her heart that it was mainly because she had delayed his reunion with Grandma Sun, so it was normal to have resentment towards her. She smiled and said nothing.

This matter is killing two birds with one stone for Qin Yuan. On the one hand, it can weaken the strength of the masked man. Although they have completely diverged now, they are still a force that cannot be underestimated. When they develop later, they will form another masked man. .

Since none of them were good people, there was no need for him to restrain himself like this. According to the instructions on the mission, they needed to wait for the internal intelligence personnel to send accurate information before attacking the base.

In addition, An Ran is also very busy recently, the annual military exercise is about to start again, as the office director of the military exercise game office, she is responsible for all things, and the routines are almost the same every year , this year she is going to change the plan again, and basically spends all day in the office studying how to proceed.

Now it is almost the same in theory, but it needs to be practiced. Before, Qin Yuan was asked to cooperate with him to carry out tactical actions, more accurate and detailed, but it is a pity that Qin Yuan is not here now.

The secretary next to him looked at An Ran who looked embarrassed, "Don't we have family members here? You can ask Captain Qin to come again, and let's study the tactics carefully."

An Ran smiled helplessly, it seemed that they didn't know how busy Qin Yuan was recently, she hadn't seen this guy for almost half a year.

"He has other tasks now, and it's hard for me to see him, let alone come here to help."

Now they are classified as confidential, so An Ran basically cut off all contact with the outside world, until a soldier hurried in at night.

"Chief, you should go to the communications department as soon as possible. It seems that the regiment headquarters has urgent matters with you and has already contacted you."

An Ran frowned slightly, a little unhappy, now that she finally had some clues, she planned to develop new exercise equipment, why did she have something to look for at this time?

"Let's talk about it later, let them wait first."

"Chief, it seems that this matter is very urgent, because it has been spread several times, and our secret channel can reach our door."

An Ran felt that something important could happen, and it was from the regiment headquarters. It would be best if someone wanted to disclose some information to her. She had no choice but to follow this soldier to the communications department.

What she didn't expect was that it was Gao Shiwei who picked it up just now. She wanted to tease him about what this old guy wanted from her, but Gao Shiwei was very dignified over there.

"An Ran, there is no way around this matter, I have to tell you, I have already greeted the leader on your side, my car will come to your side to pick you up soon, something happened to the child. "

Hearing that something happened to the child, An Ran's heart skipped a beat, her mind went blank for a while, she didn't know what happened, she kept asking.

Gao Shiwei could only tell her that An Ran's parents went to pick up the child from school as usual during the day, but unexpectedly they didn't pick it up. The kindergarten teacher found out that the child was missing at this time.

The main reason is that the monitoring has changed I just found a figure of a model lake, and the child climbed out from the fence next to it, but the fence is more than 2 meters high. Why is this five-year-old child like this? climbed up?

Everyone began to search around. After all, the place a few meters away was the military compound. How could it be the safest place for a child to lose, but everyone searched all night and couldn't find it.

Originally, Gao Shiwei didn't want to contact An Ran, but now something happened to Qin Yuan again, now the only child left is An Ran's mother, so he can only tell An Ran the news first.

An Ran can't control that much, she has really neglected to take care of her children all these years, and she left them all to her parents. She never thought that such a thing would happen. On the way back by car, she was so anxious that she wished to fly there immediately. .

When I got out of the car and came to the military compound, I found that many people had already gathered in the courtyard, including the Red Blood Cell Team and the Thunder Commando Team.

An Ran's mother passed out because she was too anxious, and now she is at the hospital, An Ran's father walked over tremblingly with a face full of self-blame.

"It's because we didn't take good care of the child. You gave the child to us, but I didn't expect such a thing to happen."

An Ran smiled wryly in her heart, how could she blame her parents? Parents had raised her over the years and are now taking care of her children. It was supposed to be An Xiang's old age, but he and Qin Yuan were too busy with work and there was nothing he could do.

Lei Zhan also hurried over to comfort her, "Don't worry, our two commando teams have already been dispatched, as well as other comrades in the compound, everyone is looking for children who are so young, they shouldn't go too far."

Chapter 1606: destroy tech base

An Ran shook her head now, she couldn't listen to anything, she rushed directly to the monitoring room of the kindergarten, she asked to watch the monitoring, and the teacher of the kindergarten next to her was also terrified, she didn't know that such a thing would happen.

He Chenguang led the team to search along the fence where the child walked out, but found no clues. In the past, there were indeed several surveillance cameras, but because the child was relatively small and walked along the corner, there was no clue at all. can not see.

I don't know whether to say that this child is smart, avoiding the camera on purpose, or not walking this way.

Everyone was very anxious, Qin Yuan had already had an accident, and the child must not be allowed to have an accident.

An Ran saw the small figure in the surveillance, climbed up the fence easily, and jumped out like that, which really surprised her, this child really inherited the genes of the two of them.

These were the only clues. She turned her head to look at the teacher and asked, "But did Ran do anything special in the classroom?"

All she can think of now is that the child ran out by himself. The surveillance has made it very clear, and no one is trying to trick her outside.

The teacher began to think about it carefully, and then suddenly said: "By the way, I said why this child is so strange today. He came with a schoolbag in the morning, and there was a schoolbag in it. I think it should be given to her by the child's grandparents." I didn't think too much about the preparation, and when the snacks were distributed at noon later, the children didn't eat them and hid the snacks."

At this point, everyone understands that this little girl is really brave and resourceful, and it is obvious that she ran away from home after playing a game.

Gao Shiwei felt relieved when he heard this, at least he was not taken away deliberately by someone. If so, if he ran away from home, he should be able to find where the five-year-old child could go soon.

"An Ran, don't worry, we have mobilized so many people, we will definitely get the child back, and I have also contacted their police, intercepting at various intersections, there will be absolutely no problems."

Even though I said that, one night has already passed, and there is no clue at all. An Ran has no choice but to go out and look for it. Now she has no specific direction, and can only go to the playground where her children usually go to play. have a look.

There are policemen on duty at the entrances and exits of various train stations, train stations, and airports. Everyone felt a little curious when they saw this scene. This is not a Chinese New Year holiday, so how can they increase so much energy, and they seem to be checking something.

The special police who went to reinforce were also a little curious, "I said, didn't I just lose a little girl this time? Why did you make such a big commotion? Even us special police were transferred here. I borrowed it."

"Who knows, I guess this little girl's background is a bit strong. I heard that the two special forces teams have already been dispatched. Can you tell me that this can't be taken seriously?"

The two special police officers were discussing, when the special police captain who came from behind heard him, and immediately scolded them.

"Can you two be more careful, and don't talk about the loss of anyone here, we must pay attention to it, understand? What's more, you know who this child is, she is Qin Yuan's daughter."

Everyone immediately understood when they heard this. Everyone knew about Qin Yuan. They were given special training some time ago. Why did they lose their child?

The special police captain looked solemn, "Although so many police forces have been mobilized, I know that everyone has complaints, but the child's father and mother have been waiting for the safety of us all. They have offended too many criminals, so we have to deal with them as soon as possible." I'm worried about finding this kid..."

Everyone's blood boiled instantly when they heard this. Needless to say, we must find out the child.

The search for the child is in full swing, but the child seems to have disappeared without a trace. So many people can't find a five-year-old child, it's a joke to tell it.

Qin Yuan also received the news that he wanted to enter that technology group and destroy it, which was considered a good thing for him. It happened to be a technology company after all.

On the side of the masked man, he specially sent two teams of people, including the team he is leading now, there are more than 30 people in total.

These people all have system capabilities, but what they have to face is a powerful technology company. Qin Yuan is lying on the small building opposite. From this position, he can see the technology companies in the distance, where they are basically completely isolated. It turns out that the power grid has been erected two hundred meters away from the technology company, and there is no way to get there.

Long Xiaoyun also explained that they wanted to destroy this technology company several times before, but there was no way, no matter how capable people were in front of those power grids, they had found some power system players before.

The power problem was solved, but the tall buildings opposite were all covered with electronic devices like electronic eyes, which could be locked at any time, and they had no way to escape.

"The electronic equipment in that place uses different circuits, so there is no way to achieve the effect of complete removal. As far as we know, there are at least six different electrical equipment there. Even if one is cut off, the other several The place still has normal power supply."

Qin Yuan was a little interested when he heard this, but he didn't expect this technology to reach this point, which sounds quite interesting.

"Captain Qin, what method do you have now to break through that barrier?"

"Of course, I think you are made by machinery? I want to see what happens when those electric shocks hit you."

Long Xiaoyun's expression became extremely unnatural, what is this guy talking about? Qin Yuan suddenly burst out laughing, "Oh, you're just kidding, don't be so casual, don't worry, I've already figured out a way, and you can just follow my actions later."

Qin Yuan's method is also very simple, that is to directly open a tunnel and go underground, so that he can avoid all the electronic equipment above. After all, if it were him, he would not be able to control so many systems at the same time.

"Will it take too long to build an underground passage? What if they find out?"

"With me here, do you still think it will be very long? Go find a few fast and nimble people, and I will take them with you. It is estimated that we can get through in an hour from here to there."

Long Xiaoyun nodded, and brought a few people over after a while. They hadn't thought about this before, because it was too troublesome, and the chance of being discovered was very high. There are many issues to consider next, whether there will be Hypoxia, and what if it collapses?

Qin Yuan was very calm, he asked Long Xiaoyun to be vigilant on the top, and started digging directly in the small building where they were, with a distance of at least 1,000 meters from here to there, and followed him for two hours. The few people in front of him are also complaining, how is this possible?

But Qin Yuan's speed was so fast that they didn't let them get started at all. He was like a small excavator below. At first they thought they needed to use those electrical equipment, but the sound of the electrical equipment was very loud, there was a roar, let alone that Those around you will soon be heard.

Qin Yuan was digging with bare hands, and in a blink of an eye he had already dug a passage downwards, and urged the people beside him to move the soil outside quickly.

Unexpectedly, this guy's ability is so strong that he directly opened up such a hard concrete floor, and the team members behind were not idle, and began to participate in the soil transportation process.

In this way, the time was not too long, and in just two hours, Qin Yuan had already reached the vicinity of the power grid, because he could feel the powerful electrical equipment above.

According to the distance inside, you should be able to enter by driving a few meters ahead. Anyway, after going inside, everything is up to him.

Long Xiaoyun looked at the baskets of dirt brought out one after another, and was a little anxious. He grabbed a person and asked, "What's going on here? Is it about to get through? How far is it?"

"Long Jie, we don't know about this. We are only in charge of transportation, and Captain Qin is fighting inside."

Long Xiaoyun was a little worried. The masked man had told him before that he must be optimistic about Qin Yuan and not let him have any chance to get in touch with those technological equipment, otherwise he would not know what abilities this guy could recover.

She wanted to go in anxiously, but the inside was already blocked by those team members, so she had to wait for them to come out first before going in, otherwise the narrow passage would barely accommodate a single person.

She could only keep urging outside to let the people inside come out first, and she wanted to go in, but the passage was too long, and it would take several minutes for the news to pass in.

At this moment, the person in charge of observation above suddenly stopped her, "Sister Long, come over quickly to see what's new. There seems to be something wrong on the other side. The electrical equipment has disappeared, and the power grid next to it seems to be out of power."

Long Xiaoyun's expression became more and more dignified, which only meant that Qin Yuan had already attacked inside, but there was nothing he could do if he was in a hurry outside, and she rushed in first after all the team members came out.

After they entered, they found corpses all over the place, and they were in a mess everywhere. She could only head towards the headquarters, and soon heard a burst of gunfire coming from the front, and she also asked the team members to get ready.

At this moment, Qin Yuan was seen hiding behind a table, and the people inside were desperately resisting, and they quickly joined in, completely suppressing those people in terms of firepower in an instant.

From Long Xiaoyun's point of view, Qin Yuan seemed to be hiding there to attack, but in fact he had already got something in his hand.

His system has been recovered and copied without any trace, and what he didn't expect was that he would get the corresponding merit points for killing these technicians here. , but there are so many people here.

At this moment, Qin Yuan saw that there were two laboratory cards locked with a coded door inside. The contents inside should be very precious. Just when he was about to pay, Long Xiaoyun suddenly rushed up, Then a demolition bomb was placed on the door.

After a loud blast, the entire laboratory began to tremble, and the doors were completely deformed. It can be seen that the power of the bomb was so strong that the contents inside had been shattered, and the glass in many laboratories was completely shattered.

Qin Yuan stared at Long Xiaoyun coldly, this woman is really cunning, doing this deliberately is destroying the things inside.

And Long Xiaoyun rushed very timely, after entering, she threw a few blasting grenades at the things inside.

It seems that Qin Yuan was quite in time just now, otherwise he would not be able to get anything. Although the woman's speed was extremely fast, Qin Yuan still saw some general things, similar to what he saw on that island before.

If this is the case, then it's meaningless. It's the same anyway. With the help of Qin Yuan, most of the people in the experimental base were controlled, and a small number of people were resisting. But at this time, Qin Yuan simply sat it on the ground and doesn't plan to get out.

Long Xiaoyun was a little anxious, she dodged the attack with a roll, and came to Qin Yuan, "Captain Qin, what are you doing? Hurry up and act together, or we won't be able to complete the task. With these people, their abilities No way I really want to make a move, but weren't you very powerful just now? And you don't have to keep guarding me like a thieves, so I'm very uncomfortable. let's go."

No matter how Long Xiaoyun tried to persuade him, Qin Yuan just leaned on the table next to him, just indifferent.

She could only sigh, and then led the team to charge. Without Qin Yuan's precise suppression, although these people have systematic capabilities, they are not vegetarians, they are all exquisitely built killing machines.

In a short time, most of Long Xiaoyun's side were killed or injured. This is really an absolute suppression, there is no way to do it. At this time, Qin Yuan also stood up. He wished that these people would die as many people as possible.

In the end, under Long Xiaoyun's repeated pleas, he finally made a move, mainly because if he didn't make any more moves, it would be hard to say if reinforcements came later, the most important thing was to return the base.

After Qin Yuan shot, it was a repressive victory. The killing machine that was so rampant just now was like an ant in front of him, and was directly pierced by Qin Yuan's flying knife.

Soon the people and the machines in the base were wiped out, and Long Xiaoyun also quickly placed the explosive bombs. The base must be destroyed.

The helicopter that had been agreed to evacuate also came near the building, and they quickly boarded the helicopter. Long Xiaoyun stayed at the rear, and she needed to press the blaster.

Long Xiaoyun looked at the helicopter that had already taken off and jumped with all her strength, but it was still a little away. She looked at the tall buildings below, and she would probably be crushed if she fell from here.

She didn't expect a pair of big hands to pull her. She raised her head and looked at Qin Yuan in disbelief. This guy actually saved her!

Chapter 1607: strange induction

With a wave of Qin Yuan's hand, he directly pulled her into the helicopter. Long Xiaoyun didn't react for a long time. It felt like a dream that this guy would save her. Didn't he always want to kill himself?

"Hey, are you scared stupid? I remember that you didn't look like this when you jumped from a height of 10,000 meters before."

Long Xiaoyun finally came to her senses, shook her head, and then pretended to be calm and sat next to her, "It's nothing, by the way, thank you this time for making our mission go so smoothly."

Qin Yuan just waved his hand to express that it was just a trivial matter. Now the base below has become a sea of flames, and the powerful explosion is enough to reduce the entire base to ruins.

Everyone sitting in the helicopter can feel the heat wave coming from the base below, not to mention those people below. In this case, basically no one will survive.

Long Xiaoyun also hurriedly reported to the masked man on the helicopter. Everything else was normal until the masked man asked Qin Yuan. After thinking about it, Long Xiaoyun still didn't tell about Qin Yuan's rescue. According to the previous agreement, the masked man asked her to report Qin Yuan's every move.

Long Xiaoyun has been thinking about why this is. Qin Yuan next to him raised an imperceptible smile. This is also his trick. Why can only this woman lie to him? She pretended to be so innocent before and deceived everyone. Now He also came up with a trick, he is very familiar with this trick, doesn't this woman just like to play with it?

Soon they arrived at the base where Qin Yuan and the others were. Looking at Long Xiaoyun, who was distracted, he took the initiative to invite her to have a drink.

Why did Qin Yuan's attitude towards her suddenly reverse? Long Xiaoyun was a little puzzled, but she didn't refuse, so she followed him to the tavern inside the base.

Qin Yuan started to play that trick again, and he casually mentioned before, "Actually, if we didn't have these things, we might become very good friends, or even become a couple, because I think you are also a very good person. girl."

Long Xiaoyun looked at Qin Yuan in disbelief, why did she really want to give up when she knew his identity and that he already had a child, even though she had been attracted to him before.

In addition, her status is also special, she is absolutely not allowed to have her own feelings, she is just a pawn, she can't make decisions by herself at all, even this life belongs to the masked man.

Now that Qin Yuan said this again, she even suspected that she had heard it wrong, but Qin Yuan who was sitting opposite said it very seriously, and pushed the wine glass in front of her.

Under the light, Qin Yuan's already handsome face became more distinct, and sincerity shone in his eyes, which made Long Xiaoyun calm down for a moment.

"You don't need to look at me with that kind of suspicion. Isn't I being cornered by you now? Now that it has become like this, I might as well live on. What kind of environment am I in? can survive."

Long Xiaoyun was completely confused, she didn't know if what this man said was true or not, was he testing her, or did he have other ideas?

Just when she was puzzled, Qin Yuan stood up suddenly, and then quickly approached, "Since the other roads have been forced to nowhere, then I will go on this road well."

Qin Yuan's voice was very charming, and she couldn't get it out of her mind. After speaking, Qin Yuan got up and left, leaving behind Long Xiaoyun who was in a daze.

As for this expert in love, Qin Yuan can be said to be well-deserved of his reputation. He has met countless women, and he knows how to grab a woman's heart. Even if Long Xiaoyun is a transformed cyborg, her heart and head are both. If you belong to normal human beings, then you have normal thinking.

Just now he was very clear that Long Xiaoyun had already developed a little trust in his words, anyway, take it slowly step by step, Long Xiaoyun is the most important target.

In addition, An Ran in Yan Country is already anxious like an ant on a hot pot, because the child has been missing for a whole day and night now, and there is no clue at all.

Gao Shiwei could only comfort her constantly, the child must not have gone far, so where can such a small child go? Now that all the gates have been blocked by them, how can the child get out?

But at this moment, on a freighter bound for the United States, a small figure was curled up in a closet next to it, people were coming and going, and no one noticed it at all.

Qin Ran used his ability to evade all the surveillance cameras, and quickly hid in the ship. Then, with his figure and ability to block information, he successfully evaded all inspections.

The little guy took out a map from the backpack behind him. It looked very delicate. It was drawn by Qin Ran himself. She had actually read the adult's heart, but she didn't understand it, because Li Erniu and the others. The heart is different from Gao Shiwei's.

Even if Qin Yuan possesses these super powers, she is only a child after all, and her understanding ability is limited, so she must ask Qin Yuan clearly if she wants to find Qin Yuan now.

The ship finally arrived in the United States in the afternoon. Qin Ran drew a map based on the information she had read before, and she wanted to start looking for it from the embassy where the accident happened.

Qin Ran's small figure shuttled through the streets of a foreign country. Just such a child was not as safe as in China, and soon she was being watched.

The two men behind him approached maliciously, mainly because Qin Ran's skin color was different from theirs here, and they also knew that such a child did not have much protection.

Qin Ran always remembers what Qin Yuan taught her before, absolutely not to show her abilities in front of outsiders, otherwise they will be afraid and they will never see them again.

So facing this situation, Qin Ran could only keep running away. On the other side, Qin Yuan was sleeping, and suddenly felt flustered in his heart. He sat up quickly, what happened, why did he feel uneasy?

This is the first time he has noticed this feeling. Usually, if he encounters any danger, the system will give advice in advance. That feeling is different, and now he is feeling flustered and nervous.

He could only sit up and drink water non-stop to relieve himself. In fact, this is the blood connection between him and Qin Ran. At this time, the little guy ran away everywhere, and finally ran into a small alley. The two men couldn't help laughing when they saw this scene. Can such a small guy still outrun them?

"You little girl can run quite well, but we'll send you to God soon."

Qin Ran looked around, there was nothing he could do now, there was only a row of trash cans behind him, although she listened to Qin Yuan very much, but there was nothing he could do now, the system forced her to activate the protection mechanism, the man in front just stretched out his hand to get close to her, and was directly caught. She grabbed her wrist and made a sound of Kacha.

The man knelt on the ground in pain, and his wrist was broken abruptly. This was not over yet. The lover grabbed the man's shoulder and knocked him down with one punch. The accomplices beside him were stunned when they saw this scene.

How is it possible that a five-year-old girl has such great strength to knock a 1.8-meter-tall man to the ground? This is too exaggerated, and no one will believe it.

The accomplice next to him thought that this guy was joking, but when he saw the whole body spit out a mouthful of blood, he was a little scared for a moment.

Could it be that the legend is true that everyone in Yan Kingdom knows martial arts, regardless of gender, age or age? He backed away in fright, but how could Qin Ran let him go, grabbed him, and with a light wave of his small hand, the man drew out in the air. A perfect arc, and then hit the trash can behind him.

The trash can was smashed and deformed, Qin Ran patted his little hands, and then took out a lollipop from his schoolbag, "I listen to my father very much, but you are bad people, so you can teach dad a lesson, and you won't blame me. "

The little guy stepped on the back of the man just now after finishing speaking in a childish voice, and left in such a cool way.

Qin Ran's speed is very fast. This is a systematic ability. It can be described as traveling thousands of miles a day. When she is tired, she will find a place to sleep, and continue on her way after waking up.

This child has a big heart, and finally came to the embassy. She squatted down and stretched out her little hand, touching the place where the fight had been before. The traces of the scene here have been cleaned up.

At this moment, she sensed Qin Yuan. This is the connection between blood. She was able to find her based on where Qin Yuan had been before.

Qin Yuan, who was drinking water non-stop at the moment, suddenly choked out a mouthful of water. Why did he have a familiar feeling just now? If he felt right, it should be his daughter.

And he could feel that his daughter was not far away from him. To know where Qin Ran was, it was thousands of miles away in Yan Kingdom, how could he sense it here?

Something was wrong, ever since he had that strange flustered feeling tonight, he felt something was wrong, it wasn't his normal reaction at all.

Suddenly Qin Yuan thought of something, could it be that these ***** attacked his daughter? Thinking of this, he rushed outside without saying a word, and kicked open the door of Long Xiaoyun's room.

Long Xiaoyun hadn't reacted yet, she was still immersed in the joy of last night, she didn't know what Qin Yuan meant by what he said to her, did she really have a good impression of her?

But at this moment, Qin Yuan was exuding endless murderous aura, and he was a completely different person. When he walked to the bed, he grabbed her and threw her on the ground.

"Why? Why are you doing this? I have said many times, don't touch my bottom line, don't do anything to my relatives, what are you doing? Believe it or not, I will kill you all now."

Seeing this scene, Long Xiaoyun was trembling with fear, it was completely different from the Qin Yuan she usually saw, now he was a demon.

She struggled and ran out quickly, and the people outside also rushed over when they heard the commotion. Qin Yuan didn't care so much, and rushed into the crowd directly, and all the people who blocked him in front were blown away by him.

For a moment, the corridor on the second floor was in chaos, Long Xiaoyun was terrified, what on earth was this guy going to do, she ran downstairs and locked the iron door below.

The people above were howling, and Qin Yuan kept throwing people down from the second floor, and then there was a loud noise, and the 100-kilogram iron gate was kicked out by Qin Yuan, and hit the opposite side directly. The flowerbed, the whole flowerbed has been broken.

Everyone was stunned, everyone didn't dare to move, gathered together, this guy is crazy, he is really killing people.

He walked through the crowd to lock on to Long Xiaoyun, stepped forward and grabbed her, "Hurry up and tell me what you did to my daughter? Tell me his whereabouts now, or I will kill everyone here."

Long Xiaoyun was stunned when she heard this, what's going on? She shook her head desperately, "I really don't know what you're talking about, we didn't arrest your daughter!"

Qin Yuan didn't believe it at all, he punched Long Xiaoyun on the shoulder, and he hit the ground heavily. Although this body is mechanical, it can't stand such a toss!

Qin Yuan's strength was truly terrifying. With just two punches, Long Xiaoyun's nanomachined shoulder was completely pierced by him.

Long Xiaoyun was completely scared at this moment, she knelt on the ground and shook her head desperately, expressing that she really didn't know.

"Calm down and think about it, things may have been misunderstood, if we really captured your daughter Do you think we will still be here so calmly?"

Qin Yuan didn't know what these guys wanted to do, but he clearly had that feeling just now, and he realized that his daughter was here.

Seeing that Long Xiaoyun was beaten into such a state by herself, she still kept an ignorant tone. It seemed that she really didn't know, so there was only one person, the masked man!

Qin Yuan dialed the masked man's phone number on the spot, and he was also surprised when he received the call, "I never thought you would call me."

"Don't talk nonsense, I just want to ask one thing, what are you guys going to do? Challenge my bottom line again and again, my daughter, I want you to ensure his safety, otherwise let alone cooperation, I will risk my life. I'm going to kill you all too."

what! The masked man looked puzzled, "I don't understand what you're talking about, are you threatening me?"

"You guys threatened me first. Do you know what my bottom line is? Even if you are a clone, I can kill you 100 times, 1000 times. You have to find the real body."

The masked man instantly realized that things might not be that simple, and he quickly reassured that even if they wanted to kidnap Qin Yuan's daughter, they didn't have the ability. Unexpectedly, he was tied back.

"And we have reached a cooperation, why should I destroy this plan? You have to believe me, we really want to cooperate."

Faced with the masked man's explanation, Qin Yuan chose to hang up the phone directly. He didn't want to listen to this guy's nonsense anymore. He looked around and made a decision. In this case, there might be an insider among these people.

Chapter 1608: RBC Squad Assembled

Long Xiaoyun's shoulder was punctured, and now she was lying on the ground, struggling desperately, not knowing what crazy move this guy would make next.

Qin Yuan slowly walked towards the crowd, grabbed the person in front of him, and invaded his consciousness on the spot. This kind of forced intrusion is very harmful.

He wanted to use this method to check one by one whether it had anything to do with Qin Ran. He didn't believe that so many people couldn't find anyone who knew the truth, so he tried one by one. Although this method was stupid, of course it was the only one he had I can think of it.

The man struggled desperately, Qin Yuan quickly invaded his consciousness, checked carefully, and there was no major problem, Qingyuan shook his head, threw it away, and threw the man aside, the corner of the man's mouth was drooling at this time, Already looked like a dementia.

The others didn't know what happened when they saw this scene, and wanted to run outside as fast as they could, but how could Qin Yuan let them go?

Under such an invasion, Qin Yuan had already invaded the consciousness of more than a dozen people in a short period of time, but it was also very detrimental to himself. It was the first time he had invaded other people's consciousness for a long time.

Gradually, he felt that he was a little physically weak, but he was still holding on, and he couldn't just let it go, until he had contact with more than 30 people in a row, and he couldn't hold on anymore.

Even if he gritted his teeth and persisted, the amount of energy consumed was relatively equal. He staggered and fell directly to the ground. He desperately opened his eyes, but the exhaustion in his body could no longer hold back, and he just fell asleep like this.

The people around looked at Qin Yuan vigilantly. After confirming again that he had really fallen, everyone breathed a sigh of relief.

"The monster has finally fallen. He shouldn't wake up suddenly now."

"Who knows what to do now? What about Long Jie?"

Facing the inquiries from the people next to her, Long Xiaoyun shook her head. She didn't know what to do, so she could only contact the masked man first. They took advantage of Qin Yuan's coma and found a few people to carry him to the iron cage opposite. However, it seems that this iron cage cannot bear Qin Yuan's blow at all. Is there any way now.

The masked man didn't know what was going on, Qin Yuan pressed his daughter to question him as soon as he came, but the problem was that they really didn't know about this matter.

But the masked man had another guess. He felt that this guy was making trouble on purpose, and the so-called daughter was just an excuse, because everyone knew that it was unrealistic for them to kidnap Qin Yuan's daughter now. Two don't have that ability.

"Sir, what should we do now? He just fell into a coma temporarily. It should be that his experience has reached a limit. What if he wakes up and goes crazy again?"

"Then threaten him with that old woman. Tell him, this is my order. If he still wants to see that old woman, he will stay in the base honestly. If he wants to make trouble again, he will make trouble again. I cut off that old woman's finger."

Long Xiaoyun frowned tightly, wondering if this move would be effective, it was a threat, but at present, it seemed that there was no other good way.

Qin Yuan slept for a very long time. He didn't wake up until after 10 o'clock in the evening. As soon as he opened his eyes, he saw him in the iron cage. At this moment, outside the iron cage, dozens of people were vigilant with guns in their hands. looking at him.

He directly kicked the iron cage out of shape with a light kick, and walked out of it easily. Those people around saw this scene and backed away in fright. This is simply a monster.

Seeing him approaching Long Xiaoyun step by step, he said, "Wait a minute, Captain Qin, we can talk about something, you hurt yourself again in the way you just did, and we don't know what you want what."

"Don't you really know that you are still pretending to me? I made it very clear that you had better not touch my bottom line. My children and my family are the bottom line."

"You have said this sentence many times, but we really don't know what's going on!"

What Long Xiaoyun said was very sincere. She could still see those mechanical tissues on her shoulders. This guy didn't dare to relax for a moment, and didn't dare to repair it at all, so he could only stare at it all the time.

Qin Yuan ignored her at all, and continued to head towards the crowd, because he wanted to be tested one by one, so that he could rest assured, Long Xiaoyun stood up at this moment, and she said that if Qin Yuan really didn't believe it, he could be tested at any time .

How could Qin Yuan believe her? She had long since lost trust in this woman. At this moment, that strange feeling came again, and this time the distance was getting closer.

He also had an ominous feeling in his heart. He always felt that his daughter was being controlled by others. When he thought of this, he rushed up. The people in front were so frightened that they shot directly, but Qin Yuan's speed was extremely fast. Not only did he avoid the bullets, Two throwing knives were thrown out.

The scene was in chaos, only screams could be heard everywhere, and at this moment Long Xiaoyun was also begging.

"Captain Qin, I really don't know what we did wrong. We really don't know the daughter you mentioned just now. If you think we control your daughter, why don't we threaten you with her now!"

Hearing this, Qin Yuan felt that it made sense. Long Xiaoyun is also a smart person. She still dare not talk about Grandma Sun. After all, this guy is in a state of madness. Saying things like this will only irritate him completely. , so we can only take our time.

The feeling in Qin Yuan's heart was getting closer and closer. He felt that his daughter was nearby. He didn't care so much. He jumped and jumped directly off the wall. The rest of them didn't dare to chase him.

The people inside were all terrified, the destructive ability of this monster was too strong, no one could control him at all.

"Long Jie, what should we do now? He ran away, how should we explain to Mr.?"

"Don't worry, he will come back. The old man is still in our hands. I always feel that things are not that simple this time. I don't know why he said that."

Long Xiaoyun sighed silently, looked around at the collapsed people, and could only ask everyone to tidy up first. Although Qin Yuan was instigated by them this time, it was not completely instigated. This guy's power is too bad Amazing.

On the other side, Qin Yuan ran forward desperately in the direction in his heart, but he passed through a bamboo forest, and suddenly saw a small figure squatting in the bamboo forest.

Qin Ran also saw Qin Yuan on the opposite side, and the two ran towards each other. The child was very happy and threw himself into Qin Yuan's arms.

"Father, I finally found you, I knew I was right, I thought you were here."

Qin Yuan was so excited that he couldn't speak at the moment, he knew this could be blood induction, so why did the child appear here? Looks like it's definitely up to those guys.

He hugged the child and refused to let go. At this moment, he clenched his fists tightly, and he must make those guys pay the price. Unexpectedly, Qin Ran had already felt his emotions and comforted him while saying:

"Father, no one brought me here this time, I came to find you by myself."

what! Qin Yuan was a little surprised when he heard this. How could it be possible that the child came here by himself? She is in Yan Country, where there are so many people protecting her, how did she come here?

"Tell me the truth, what's going on? If you tell me, Dad won't blame you. "

Seeing Qin Yuan's serious face, the child could only speak clearly. In fact, the child didn't know what was going on, but out of nowhere, she began to hear other people's voices again.

It was easy to see what everyone was thinking, and this child's thoughts were also very simple. She just wanted to make sure that her father was okay, so she ran out without telling everyone.

Qin Yuan was a little shocked after hearing this. He had clearly blocked the child's ability before, why is it like this now? He hurriedly asked what was going on with the system?

Under the system's explanation, he realized that this happened because the children were growing up slowly because they hadn't been sealed again for a long time.

After understanding the whole story, Qin Yuan looked around, and this is not a place to talk, if Long Xiaoyun and the others find out, it will be troublesome.

This kid is so courageous, he even ran out by himself, and even traveled so far across several countries! Qin Yuan felt angry and funny, and didn't know what to say about her.

Before Qin Yuan could start talking, the child pulled him and asked seriously: "Dad, I really want to know if you have become a bad person. I saw what Uncle Niu and the others were thinking." It's all about taking care of us, and I can't tell my mother yet, so I'm curious."

"Of course you are still too young to understand these things, but you have to believe that Dad will never be a bad person."

Holding Qin Ran in his arms, he walked on this mere mountain road. I don't know how the child got here these days. Although relying on his own system ability, it is still very difficult for a five-year-old child, and there are no adults. company!

Now he is also thinking about a question, what should this child do? Soon, he must kill this guy.

After the child found him, he was very at ease, and fell asleep on his shoulder. Qin Yuan smiled wryly. After all, the child didn't need to think about those things. The problem is now embarrassing for him.

As time passed, Qin Yuan was sitting on the hillside with the child in his arms. He was thinking about what to do. If the time was too long, Long Xiaoyun would definitely become suspicious. If he came out to find him, it would be troublesome up.

Qin Yuan thought for a while, the only way now is to contact the red blood cell team and let the brothers take the child back. Only when the child is handed over to them can he feel relieved.

In addition, on the Yanguo side, everyone was setting up checkpoints to intercept every car, but it had been three full days, and the child hadn't disappeared. Wang Yanbing hadn't eaten all day, and he went back and forth on that road. Repeatedly.

But there was no trace of the child, and Hechengguan was guarding in front of the surveillance. He was pondering over every detail, and he investigated every car that passed there.

Li Erniu brought a box of lunch and put it in front of Wang Yanbing. At this time, he had no time to answer with the map.

"Yanbing, don't look for it yet, just eat something!"

"No, time is life now. Every minute we waste, the child will be in danger for another minute. We must find the child quickly."

Li Erniu was also very upset. Qin Yuan was good to them before, and he saved them countless times, so everyone wanted to protect his children with all their might.

"Yanbing, actually I have a bad idea in my heart. The five-year-old has been three days old. Do you think she ran away by herself? We have already come out at the first time, so I suspect..."

"That's enough, don't do those suspicions. I don't want to hear anything. No matter what, I must find her!"

Wang Yanbing actually knew something in his heart, but he didn't want to accept it. What he feared most was being retaliated by criminals. This kind of thing was not an exception. They had family members who had such a situation before, and when they found them, they were already dead. There is a dead body.

At this time, Wang Yanbing suddenly received a message on his mobile phone, he quickly picked it up to check, he didn't miss any news recently.

The above information is very short is just one sentence, "01 requests assembly, the child is here with me, the team will start secretly, don't let anyone find out, the speed must be fast."

Li Erniu thought it was from the kidnappers at first, but upon closer inspection it turned out to be Qin Yuan. Both of them were at a loss. What's going on? Why is the child over there?

Coupled with Qin Yuan's previous aspects, everyone was a little suspicious. Wang Yanbing didn't dare to make a claim without authorization, so he quickly told He Chenguang the news and asked the team to gather.

After everyone discussed it, Qin Zhengyang had already wanted to go out before, and just taking this opportunity, he felt that Qin Yuan must have some difficulties, otherwise he would not be so low-key.

"Look at him saying that the child is with him. I think it is possible. After all, it has been such a long time. There are so many of us. Thousands of people have been mobilized, and none of the children can be found. Do you think it is possible?"

"Then what should we do now? We have to find a way to get there, anyway, I still obey his orders."

"No matter what the outside world says, he is still a love song. I don't think he will become that kind of person. I also agree to follow his arrangement."

He Chenguang looked at his brother, this is their trust for many years, if this is the case, then find a way to pass quietly, all the people are running around outside these days, it can be said that they are completely overwhelmed, even Gao Shi Wei Du is already looking for someone outside.

So this is also a very good time for them. Qin Yuan told them to hurry up, and everyone hurriedly set off according to the location on the mobile phone.

As the time passed by, Qin Yuan was also a little anxious. Even if the red blood cell team rushed here, it would take at least five hours.

Chapter 1609: return the child safely

So the most important thing he needs to solve now is to ensure the safety of the child. After thinking about it, he hid the child in a cave first. Qin Ran is also a smart child.

"Of course, listen to what Dad told you. Now Dad has something to go out for a while. You must stay here and don't move around. If someone comes in, you have to protect yourself with your own abilities, but the most important thing is to hide yourself. ."

The child frowned and looked at her a little confused. Could there be other bad people? Qin Yuan was also worried that it would scare the child, so he could only explain to her that this was a game, they were playing hide-and-seek, and they must not let others find out, so the child nodded.

After explaining everything, Qin Yuan checked the cave to make sure there was nothing dangerous, hid the child well, then brought some branches, camouflaged the entrance of the cave and carefully cleaned the traces before leaving.

After a while, he returned to the base again. The moment Long Xiaoyun saw her, she was completely relieved. Sure enough, her guess was correct, but now she doesn't understand what this guy is going to do?

Because of the too much commotion before, the masked man took a lot of hands here, but now everyone put on their equipment and no one dared to step forward, but kept a distance from him.

Seeing their frightened appearance, Qin Yuan said contemptuously, "Hehe, don't worry, I won't hurt you, but the premise is that it's best not to touch my bottom line."

Hearing Qin Yuan's calm tone, Long Xiaoyun also took this opportunity to rush forward, "Captain Qin, what do you mean by what you just said? Is there something wrong with your daughter?"

Qin Yuan said without changing his face: "Because I heard a news that you are going to attack my family, so I can only attack you."

"Captain Qin, this is definitely a misunderstanding. We have never said that before. I don't know where you heard the news."

"That's enough, I don't want to argue, I just heard it anyway, so I said that if anyone dares to do something to my family, then I will definitely let him die without a burial."

Long Xiaoyun is actually a little guilty at the moment, because she has indeed discussed it before, and she can't guarantee that the people around her have not discussed it. The main reason is that Qin Yuan's ability is too strong, and he is always a threat here. Everyone will occasionally mention it. When it came time, he used his family as a shield.

So it is very likely that he took it seriously when he heard it, and in this case, Long Xiaoyun immediately promised again and again that he would never touch his daughter, and now they are in a cooperative relationship.

It is still necessary to do a full set of acting, Qin Yuan still has that cold attitude, and then walked in, now he has to find a way to find a reasonable excuse to leave here.

He couldn't let the child stay there alone for too long, his fingers were tapping on the table, and he was thinking about countermeasures.

Just at this time, Long Xiaoyun came in. She came in to test Qin Yuan's tone. After chatting for a few words, she found that Qin Yuan seemed to have completely let go of the previous matter, and she didn't have such a big grudge.

"Captain Qin, this must be a misunderstanding. I think if the misunderstanding is resolved, then we can get along peacefully in the future."

If Qin Yuan didn't answer, now he wants to think about countermeasures. Long Xiaoyun suddenly said that since the matter has been resolved, she needs to go back to the headquarters base, because the parts on her body are damaged, so she must return to the headquarters to proceed. repair.

"Captain Qin, if there is nothing else, I'll go back first. Of course, if you have any requests, you can ask the people around you. They can satisfy you unconditionally."

This is really good news for Qin Yuan. This woman is the most troublesome. As long as he leaves, the problem should not be too big.

He nodded casually, and Long Xiaoyun left. She had to go and come back quickly, hurry up, but the soonest it would be repaired would be tomorrow afternoon.

After going out, she immediately confessed to the subordinates next to her. These two people have been with her all the time, and they are also her confidantes.

"Be sure to keep an eye on this person, and report to me immediately if he behaves strangely."

"That's no problem, Long Jie, but you know he's so capable, if he really wants to go somewhere, we won't be able to stop him at all."

"I know this. When the time comes, you will report to me as soon as possible, and I will tell him, and we have another hole card, the old woman, so he should not act rashly."

The two subordinates could only nodded cautiously. To be honest, they didn't have much confidence, they just hoped that Long Xiaoyun would come back as soon as possible.

After Long Xiaoyun left, Qin Yuan came out of the room, and seeing him appear, the two people at the door were startled.

Is there something so scary about yourself? But Qin Yuan thinks about it, it seems to be the case, after all, he killed with bare hands in front of them.

He beckoned, even if the person opposite was extremely unhappy, he could only bite the bullet and come forward, forcing a smile, "Captain Qin, what do you want?"

"Go, get me some cases of wine, I want to drink."

The man heaved a sigh of relief when he heard this. Fortunately, it was not a strange request. This one is absolutely no problem and can be satisfied.

Just as he was about to leave, Qin Yuan stopped him again. It can be said that this guy saw many expressions on his face, repeatedly, his palms were already sweating.

"I'm hungry, let's make some more food!"

Fortunately, this request was not too difficult, the man nodded, and hurried down to prepare, for fear that he was going to be slow, Qin Yuan was also thinking about his own plan.

It's just that there is surveillance in this room, which has been watching him, so he has to move to the playground. The playground is more chaotic and crowded. As long as everyone is drinking high, no one will notice him at all, especially Because of his drinking capacity.

The man came to the room carrying a box of wine, Qin Yuan just looked at it and said: "Carry it all down, I can't drink all by myself on the playground, let's drink together!"

The man quickly shook his head, how dare they drink with him, no one can take responsibility for what happens, but seeing Qin Yuan's tough attitude, he has no choice.

He also has a fluke mentality now. After all, he feels that Qin Yuan is only alone. If he really wants to drink together, there are so many people under them.

With so many people, can't they drink him alone? So there shouldn't be any problem. Qin Yuan drank more than 20 bottles in a row with the blessing of his skill of never getting drunk, and there was no problem at all. The people around were still very cautious at first, after all, they were worried that he would suddenly attack him.

Afterwards, everyone began to drink. After all, they were not allowed to do this when Long Xiaoyun was around. Once a person is indulged, it is very scary, especially in such a long-term tense situation.

Seeing that the drink was about the same, some people were already drunk, some fell down on the side of the road, the playground was in a mess, and some people continued to punch and drink, but they were all in a state of confusion. Qin Yuan took this opportunity to directly send out, there was no one at all. Anyone find out.

Qin Yuan speeded up and came to the cave. Fortunately, the child had no major problems, but had fallen asleep. All he needs to do now is to wait for the red blood cell team to be faster than Long Xiaoyun.

On the other hand, He Chenguang was on the helicopter, and he really couldn't figure out what Qin Yuan was going to do. In addition, they were traveling in secret this time, so if something went wrong, no one could afford it.

After all, Qin Zhengyang was young, so he felt that if something went wrong, even if there was a problem, it would be a big deal for everyone to bear it together. Now that even the captain is gone, what's the point of their team.

They knew what Qin Yuan meant, and in order to be more concealed, they chose to jump on the helicopter at a certain distance, and then proceeded on foot.

Finally, just before dawn, He Chenguang and the others arrived at the place where Qin Yuan was sent, but nothing was found on the bare mountain. Just when several people were puzzled, Qin Yuan came out from behind, carrying a bag on his back. It was Qin Ran.

Qin Zhengyang was very excited and ran up directly. For him, Grandma Sun disappeared, and such things happened to Qin Yuan. It was really hard for him to accept.

"Brother Qin!"

Qin Yuan knew that now was not the time to be sad, so he could only make a long story short, "I don't have time to explain so much, you must ensure the safety of the child, maybe I will be back in a short time, I was forced to do nothing this time, you have to believe me , I have already given Gao Dui a hint."

The amount of information contained in these few words is too powerful, everyone was dumbfounded, as expected, this is cooperating with acting, Qin Zhengyang was very happy, he said that Qin Yuan has always been his belief, how could he become a bad person?

"Good guy, Brother Qin, it's hard for you and Captain Gao to lie to us, you don't know, now the higher-ups don't let us talk about your affairs at all, I'm really almost desperate."

"This time the incident happened suddenly, and I have nothing to do. I can only say that I am now inside a criminal organization. I will enter their lair in a short time. This time I will not let that person go, otherwise I will only Endless troubles."

Everyone chose to believe in Qin Yuan. Since he said this, there is absolutely a reason for him. Qin Yuan can't stay here for too long, and explained a few more words, telling them to protect the child well.

In this way, everyone left in a hurry, and Qin Yuan hurried back to the base. Although everyone had a lot of doubts in their hearts, they knew that Qin Yuan had confidence in his heart, otherwise they would not have come to see them so rashly.

On Qin Ran's side, her ability has already been sealed by Qin Yuan again, and this time the seal will be valid for half a year, so the child will not run out so easily.

Qin Yuan didn't expect that his ability could be inherited in this way, and it would be more obvious in children.

He Chenguang and the others took the child onto the helicopter without any risk. Everyone knew that the result was very happy, at least it proved that Qin Yuan was right.

Qin Zhengyang couldn't help asking: "Brother Chenguang, what should we do in the future, it's impossible for Brother Qin to be misunderstood by others forever!"

"He has his own considerations. This matter has not been known to too many people. He should have his own reasons. We didn't even have time to tell him. It shows that he has difficulties. I believe he can solve this matter."

"But what if he can't handle it and needs our help?"

Qin Zhengyang wanted to act with Qin Yuan wholeheartedly, Wang Yanbing patted him on the shoulder beside him, telling him not to be so anxious, "What we have to do now is to believe that Brother Qin will handle it well, and if he can't, he can also act like Just ask us for help directly this time."

On the contrary, if they ingested it, it might bring him other troubles and destroy his plan. He rarely saw Qin Yuan so cautious.

Everyone has a lot of questions now, the most important question is how did this kid come here? With such a long distance, they immediately carried out a blockade search as soon as they discovered that the child was missing that day.

But no matter what, the child came back safely, Qingyuan and his guess were good, he thought that Long Xiaoyun would come back in the afternoon at the earliest, but he didn't expect the masked man to be extremely worried about her.

Specially arranged for the team to come here with the equipment, which surprised Ruan Yuan, but he was able to catch up in time, and there was no major problem.

After Long Xiaoyun came in, he saw a row of people lying on the ground, he stepped forward angrily and grabbed a man, "What are you **** doing?"

The man was drunk and was still in a state of confusion, she slapped him, and the man instantly sobered up a lot.

"I told you what to do, what are you doing?"

"Long... Long Jie, you are back."

Just when Long Xiaoyun was in a hurry, she turned her head and found Qin Yuan crawling up from under the table, "What's the noise in the morning? Didn't you see that he was sleeping?"

It was a bit embarrassing to change Long Xiaoyun's side this time, she thought Qin Yuan took this opportunity to escape, after all Grandma Sun hadn't had time to transfer, too many things happened recently, which made her a mess.

"Captain Qin, I don't think sleeping outside is good for your rest. I'll let someone help you in."

"No need, it's too much to talk about."

Qin Yuan deliberately staggered to his feet, and Long Xiaoyun subconsciously stepped forward to help him, "I think why don't you accompany me in?"

After finishing speaking, she put her hand directly on Long Xiaoyun's shoulder. At this moment, she was a little confused. She didn't know what Qin Yuan was thinking, and her attitude towards herself was completely different.

"Captain Qin, I think you must have drunk too much."

Qin Yuan showed an evil smile, and then pulled her away, "I can help you."

Gently after finishing speaking, she did not expect that her damaged shoulder was slowly recovering. Qin Yuanna has a strong recovery ability, not only can restore a normal human body, he can also repair such mechanical damage.

She didn't expect Qin Yuan to repair himself, and to be so perfect, even better than the research team.

The research team also hurried forward to check. At this time, Qin Yuan waved his hand and walked into the room as if he had done a good deed without leaving his name.

Chapter 1610: completely pulled into the water

After the inspection by the research team, Long Xiaoyun's body has been completely repaired. The captain of their scientific research team inspected Long Xiaoyun, "This is really unbelievable. He was able to repair you without using any materials."

Over the years, they have been losing a lot of consumables. They need to continuously dig out materials in this area, especially the nanomaterials used on Long Xiaoyun's body. The closer to the skin, the more expensive the nanomaterials are.

A cyborg like Long Xiaoyun would cost about 20 to 30 million yuan if he wanted to fully build one, so the masked man has not been fully put into large-scale production, but only a small amount of settings.

The main reason is that the failure rate of this kind of experiment is relatively high, and Long Xiaoyun can be regarded as one of the lucky few. She did not experience any rejection reaction.

Even so, every time there is any damage to be replaced and repaired, she will have great pain. Although she has such a mechanical body, there is no way to avoid this pain when replacing.

She didn't expect Qin Yuan to solve it for her so easily, she couldn't believe it, the main thing was that she couldn't figure out Qin Yuan's attitude.

Just as she was thinking, a person in blue clothes came up next to her, "Don't be fooled by his superficial behavior, and you must remember the task assigned to you by your husband."

"I know!"

Long Xiaoyun said this sentence coldly, then retracted her previous expression, and put on a cold look. Everyone had no choice, and she had no choice either. Say only obey.

At the same time, He Chenguang and the others have arrived safely, strictly following Qin Yuan's previous explanation, they only need to pretend to find the child at a suitable time, and then send the child back.

Qin Yuan used his ability to temporarily close the child's system, and then hypnotized her, so the child didn't know what happened next.

An Ran was on the verge of collapse in the monitoring room. She had walked on the road where the child was lost. She had walked on it countless times. The five-year-old child did not know how to get out. No matter how she walked, everyone was investigating from house to house. Still no results.

As time went on, Gao Shiwei was also very worried. According to his many years of experience, there was no whereabouts for such a long time. There was only one possibility, and the child was probably killed.

At the same time, he also thought about whether Qin Yuan would leave, and then perform special tasks alone outside, and the secret code about the last time. Although he understood it, he didn't know what Qin Yuan wanted to express.

He looked at An Ran who was crying in front of the surveillance camera, and he didn't know how to comfort him for a while. The two of them had done too much for the country, and now they couldn't even guarantee the safety of their child.

At this moment, he received a call, and he grabbed An Ran excitedly and told her that the child had been found.

An Ran couldn't believe it for a moment, it had been four full days, "Team Gao! How is the child? Is he still alive?"

As a mother, she really shouldn't curse her child like this. Of course, as a military officer, she is very clear about what kind of situation she will face, and she must be prepared. Gao Shiwei was very excited and told her that there was absolutely no problem. , he also heard the voice of the child.

After a while, the child was brought back safely, and everyone was cheering. Although everyone didn't know what lost the child, at least they found it.

An Ran hugged the child tightly, reluctant to let go, and the child couldn't tell what happened to her, after all, most of her memories had been interfered by Qin Yuan.

Under An Ran's questioning, Li Erniu just told her that the child was found on the side of the road, and he was probably kidnapped. After all, it has been so many days, and the criminals may be in the way of their sensational search. Because the pressure was really unbearable, so the child was released.

This explanation sounds more reasonable, and they have reviewed it before. The most important thing now is that the child comes back.

In addition, the child is relatively young, and after so many days of tossing, he couldn't tell for a while, but on the way back, Gao Shiwei sat in the co-pilot, and He Chenguang drove in front.

"Okay, there is no one else now, let's just talk about it, what's going on?"

"Captain Gao! What do you mean by this? We don't understand, the child was indeed found by the side of the road."

"You bastards, I have eaten more salt than you have traveled, and you still want to lie to me, tell me quickly, what's going on?"

He Chenguang looked at the others. Anyway, we couldn't hide the matter, and Gao Shiwei also knew that Qin Yuan had difficulties, so he just said it out. After hearing this, he frowned tightly. Although he didn't know the specific situation, this One time things are indeed a little too much.

"I see that you really have grown wings, Qin Yuan and your red blood cell team, don't think that you can make decisions independently after you are separated from the special operations brigade. What are you doing without organization and restraint? ?"

It's no wonder that Gao Shiwei got angry, everything was hidden from him, and it was all done first, after all, as the former leader, he definitely couldn't accept it.

"Captain Gao, what we did was really wrong, but I think Brother Qin must have his own reasons."

"With his own reasons, can he take the child away and let so many of us look for it here?"

Li Erniu shook his head. He was very sure that the child was definitely not taken away by Qin Yuan, otherwise Qin Yuan would not have let them go so far away to bring the child back. Wouldn't this be an extra trouble? So obviously the child was taken back by someone else.

Speaking of this, Gao Shiwei also thought about it carefully, and it seems that it does not make sense. Qin Yuan may have done all this for his own family, or there may be a very powerful criminal group that threatened him. In order to protect his family, he made such a decision.

Everyone was silent along the way, and no one was talking. He Chenguang was a little worried. He got angry when he saw Gao Shiwei just now, and he didn't know how to explain it later.

After a long time, when it was time to go to the brigade, Gao Shiwei said slowly, "It's enough for the few of us to know about this matter. Others must not talk about it. It's a very important matter. From tonight, we will take turns around the children. 24-hour latent protection."

After he finished speaking, he got out of the car, and after a while he came over, "You little brats, don't think that you can get out of my control if you leave the brigade. The small team was also transferred to help."

Everyone was very touched when they heard this, but this is not necessary. We can't transfer everyone, and if there are too many people, it will be enough to expose a few of them.

With this level of protection, such a situation will not happen again in the future. Everyone just hopes that Qin Yuan can come back as soon as possible and give them an explanation.

On the other side, Qin Yuan was lying quietly on the bed, apparently he was sleeping. In fact, he was doing a review in the system. Just now, he was repairing Long Xiaoyun. He seemed careless, but in fact, he had extracted some of Long Xiaoyun's files in an instant. parts.

He always remembered that Long Xiaoyun said many times that her parts came from the headquarters, and the masked man was always in the headquarters. Their headquarters was very mysterious. Qin Yuan searched for it many times, but there was no whereabouts.

He quietly got this part, so that he would have the opportunity to directly enter the headquarters, find the masked man's body, and then destroy the base.

After the last restoration, Long Xiaoyun's attitude towards Qin Yuan has changed a lot. Although she doesn't quite understand, this person did help her. For example, when Qin Yuan didn't want to train, she would go over to help her.

Just like that, just a week later, the masked man saw that Qin Yuan had calmed down a lot, and sent them another mission. In fact, he was also trying to make Qin Yuan his own little by little.

In the first two missions, one was to eliminate pirates, which Qin Yuan could accept. After all, it was considered killing harm for the people. The other mission was the technology company. Both sides were not good people anyway, but this mission was different.

The masked man needs a lot of money, so this time they need to rob the largest treasury. This treasury is well-deserved of its reputation. Basically, the rich and powerful from all over the world will store their wealth in it.

Because his security ranks first in the world, even the most basic outer iron fence is a pure electronic combination lock imported from country D, and it also has the highest face recognition.

At that time, it was rumored that the staff inside had just cut a double eyelid because of a slight plastic surgery, but there was no way to enter, and the alarm was triggered instantly.

Although it was an accidental touch, a large number of security forces were also activated, and the world's largest employment group was in charge of this vault.

There are no dead ends 24 hours a day. In addition to electronic equipment, there are constant patrols by personnel. There is no gap at all. During the handover, the three teams complete each other. One team is in charge of duty, and the other two teams perform handover.

Qin Yuan had heard of this treasury before, but he didn't expect the masked man to come up with this idea, so he rejected it on the spot.

"Don't you think such a request is unreasonable? Then your security system is said to be the strongest, even if I go there, there will be great risks."

"Oh, I didn't expect that there would be something that makes you flinch."

The masked man kept prodding him, Qin Yuan didn't like him at all, and he would never do such a thing.

The masked man could only change one statement, "How about this, this time you don't have to be the main commander of operations, and you can let Long Xiaoyun cooperate with you."

"Did you not understand me? No matter who it is, I will not participate in this operation."

The masked man seemed to know what Qin Yuan cared about, he smiled, "I know what you're thinking about, but don't worry, the things in this treasury can definitely be taken, otherwise, how do you think those top rich people are formed? We just took it out for another scientific study."

This guy spoke so blatantly about the robbery, and even changed his statement completely. He was worried that Qin Yuan would not believe it, and then specially asked Long Xiaoyun to hand him a copy of the data.

The records on this data are all the depositors who entered the vault, especially the first few belong to the top tycoons, whose names are somewhat familiar, but no matter what Qin Yuan thinks, this is other people's money and has nothing to do with him .

And he didn't want to let himself sink deeper and deeper, and there was no way to get out later. Long Xiaoyun explained next to him: "The money of these rich people is not that clean. We can definitely join hands, and we can absolutely guarantee the secrecy of your information in the future."

Even though he said this, Qin Yuan knew what they were thinking. In this case, it would be better to use the plan and ask them to bring more people to attack the treasury. hold them back.

But he can't be so obvious now, that guy is an old fox, and it took another two days for Long Xiaoyun to be soft and stubborn, before Qin Yuan reluctantly agreed.

Unexpectedly, he agreed, and Long Xiaoyun immediately reported the news to the masked man, "Sir, he agreed, but there is one request, asks us to keep his identity absolutely confidential. There can be no leaks."

"Hahaha, it seems that this guy still doesn't give up. Does he still want to simply go back? How could I just want to completely ruin his reputation this time and let him enter the abyss with us."

Long Xiaoyun was a little confused for a while, she promised Qin Yuan that his identity would not be exposed, but the masked man didn't mean that.

"Everything is going according to the plan. If you agree to it first, then he won't be able to let him go. I will let the major news media be filled with his name."

After hanging up the phone, Long Xiaoyun fell into a deep entanglement. Just at this time, Qin Yuan came over, "How is it? You two have communicated!"

She couldn't say anything, she could only nod her head in a panic, and put away her emotions, "Well, sir, we need to do the preparation work now, and there is still about half a month, we need to conduct a detailed inspection of the treasury. survey."

"Okay, that's no problem. When will your side be okay? Then when will I act, remember my request."

Long Xiaoyun thought that what she did was perfect, now that Qin Yuan was unable to hypnotize her, so she couldn't see her consciousness, but from her facial expression, Qin Yuan had already guessed that this old fox was really cunning and wanted to use her. This opportunity completely pulled himself into the water.

But, everyone has their own ideas, there is still half a month, and then it will be the best opportunity. In the next time, he will constantly test his ability, mainly to be precise.

Later, he discovered that not only could this thing be teleported, but it could also be reversed. He could teleport to the vicinity of that thing. As long as he took Grandma Sun with him after finishing the work, he could leave here safely.
