

Special Soldier 1611

Chapter 1611: start to act

As time goes by, Long Xiaoyun has been monitoring Qin Yuan's every move recently. It is very strange that Qin Yuan is unusually quiet, just normal eating and training, and there are no other unnecessary movements. Could it be that this guy really figured it out?

Soon the masked man sent over the latest blueprint. This is the blueprint of the entire vault provided by the staff of their department. They need to find the weak point in it, and then study the attack plan.

Qin Yuan was also very cautious when facing such a treasury. He began to analyze seriously, because by doing so, there would be no flaws. Since he wanted to act, only the most authentic reaction could fool everyone.

"It seems that the plan we want to get from the ground this time will not work. As far as I know, the bottom of this vault is covered with hard marble, and there are thick steel plates. There is no way to pry a whole piece of it open. The steel plate, if you want to open it, the movement is too loud, it will definitely attract the attention of the higher-ups."

"We have researched many times before, but there has been no practical solution. You can see how far your ability can be applied. I have already recruited a few people with special system abilities. Let's see if you can use it. ."

After Long Xiaoyun finished speaking, she handed over a list. Qin Yuan glanced at it. The system capabilities of these people were relatively strong among them. People who divide 300m.

It seemed that the masked man was willing to go all out this time and sent all the elites in his team over. The facts were just like Qin Yuan's guess, Long Xiaoyun was very cautious.

"Captain Qin, I hope you can refer to the plan this time. The plan we have researched here still needs to be reviewed by the headquarters. We can only act after the review is completed."

"Why, don't you still worry about me?"

Qin Yuan approached Long Xiaoyun while talking, she was a little at a loss for a while, "No, I need to report to the headquarters, and then let them cooperate with each other."

"Oh, okay, I'll make a plan first and bring it to you as soon as possible, and then you can show it to those guys."

Only then did Qin Yuan straighten up, and he was also thinking seriously. The first thing he needed to break through was the first security electronic lock with face recognition, which was said to have reached the highest security level in the world.

There are a lot of security forces in the treasury. According to their investigation, as long as there is a slight movement in one direction, the security forces will quickly gather. According to this situation, Qin Yuan intends to lure the tiger out of the mountain first.

Send a few people at the southeast gate to attract firepower. With their special abilities, they can definitely hold back those people. Another group of people will launch an attack at the north gate, and then he will lead another team to enter directly from the southwest gate. They were caught off guard.

But when it comes to his attack, there is no specific plan. Long Xiaoyun looked at the front and felt that there was no problem, but when he reached his team, Long Xiaoyun put a question mark.

"Captain Qin, then you will act together with us. We will enter through this door. What is your attack direction? How should we cooperate with you?"

"I have a lot of skills. I don't pay much attention to those security guards. At first I didn't want to kill innocent people randomly, but this is the most effective way. I will kill as many people as there are. You just need to be responsible for rushing forward." , with your ability, you can definitely destroy the front gate."

This is no problem, Long Xiaoyun nodded, then sorted out the plan and sent it to the masked man. At present, there seems to be no loopholes, but it needs to apply for some more power. The headquarters can say that it is basically Empty more than half of the troops.

The masked man was a little confused. According to the plan given by Qin Yuan, the people he sent would need at least three teams.

The secretary next to him compiled another list, "Sir, our laboratory has been repeatedly damaged in the past two years, coupled with the instability of the host itself, these are the only people we can really participate in this operation at present."

"Don't bring all the people with special abilities of the system, keep some of them, and mix the rest with some people with good skills."

"Sir, but will there be any problems with this? That is the vault with the strongest security in the world."

"Don't talk nonsense, do as I say, I still can't fully trust him yet, at least some people should stay with me, so that I can rest assured."

The masked man didn't expect that Qin Yuan would attack him. What he thought was that Qin Yuan would probably take this opportunity to consume a lot of people with his system. Each of these people spent a lot of energy and money .

He is very confident that Qin Yuan will never find his place, so he is not worried about this. If this operation is truly successful, it will completely drag Qin Yuan into the water, and he will be able to fully believe it when the time comes.

Soon, all the soldiers sent from the headquarters gathered. They were on the playground. Qin Yuan stood on the second floor and just glanced at it. He immediately understood that this masked man is really an old fox, and he is always on guard against himself. .

"It seems that the old thing is still worried about me. These people still have a lot of moisture."

Long Xiaoyun was a little surprised at the side, Qin Yuan could tell at a glance, she could only explain quickly, "Captain Qin may not be such a gentleman, and he also has his own considerations. In recent years, our losses have been relatively large, so There may not be so many people there."

Qin Yuan put on an attitude of indifference. Whether he can find it or not is none of his business. "Whatever, it's just to attract firepower. It's not mainly up to me. It's absolutely fine if I get in."

Seeing that Qin Yuan didn't show any angry expression, Long Xiaoyun breathed a sigh of relief. If this guy goes crazy, no one can stop him at all.

The team here has been assembled, and the action will start in three days. However, before the action, Qin Yuan made a request, that is, to meet Grandma Sun once.

Because every time they see Grandma Sun, they will transfer someone new, so it is rather troublesome. Long Xiaoyun is a little entangled, "Captain Qin, why don't I arrange for you to meet after we come back from the mission."

"What? Don't I even have this most basic right? I'm worried that if something unexpected happens, maybe this will be the last time I see her. "

"Captain Qin, you are joking with me. With your strength, this situation is basically impossible."

"Then don't talk nonsense. My only request now is this. If I can't meet it, I can't go to the battlefield with peace of mind. I won't be responsible for what happens."

Seeing what Qin Yuan said, Long Xiaoyun had no choice but to apply a little bit to the masked man without any doubts, and agreed to let him meet.

This time when we met, Qin Yuan specially told Grandma Sun to prepare her well. Don't be surprised if anything happens later. Although Grandma Sun didn't know what Qin Yuan was going to do, she still nodded and said that she would cooperate in whatever she did.

After the explanation, Qin Yuan was also preparing for the back. Three days later, the team had already finished at the playground, and everyone was waiting to start.

Qin Yuan is in a particularly good mood today, he is finally leaving this ghostly place, and more importantly, he will be able to find the mask and take that bastard.

As the vehicle slowly moved forward, the headquarters has also been following up on their situation. This time the action was very large. It is impossible for these people brought out by Qin Yuan to come back alive, but once they get the wealth in the vault, then Enough for their subsequent research expenses.

The masked man looked at the route of the vehicle very seriously. He installed a tracker on the car to monitor it at any time. He would not believe Qin Yuan until the last moment.

He turned his head and told the assistant next to him to contact the reporter. As long as they succeed, they must take pictures at the best time.

The assistant said that there is no problem, "Sir, I have arranged everything, but will this affect their retreat? What if he can't withdraw? We have paid a lot for this person."

"Hahaha, he is the most successful piece of work I have researched in my life. It is impossible not to come back. He will definitely try his best to break through, and it will definitely make more sensations. What I want is that result."

After the guy finished speaking, he showed a meaningful smile, this time Qin Yuan will definitely belong to him completely.

Qin Yuan's side has already arrived near the treasury, and began to act in batches according to the previous plan. Everyone laid an ambush at each door, and obeyed Qin Yuan's orders at any time.

Soon Qin Yuan took the lead in giving the order to let them attract firepower at the southeast gate first, and immediately launched an attack there, and the enumerated gunshots came from that time.

Next came the second door, and Long Xiaoyun kept looking at her watch, "Captain Qin, it's almost time now, are we going to do it?"

"Don't worry, wait a little longer, they haven't completely passed, we must ensure the greatest success, don't you have confidence in those people?"

In fact, the purpose of love is to delay the time better. He wished that the security guards would assemble as soon as possible, the more people the better, just to catch all these bastards.

Hearing the gunshots getting more and more intense, Qin Yuan finally gave an order, and he led the team to rush up directly. Long Xiaoyun was also very fast, and was in charge of blasting the gate in front. The method they used was very rough. .

The security guards didn't expect to be attacked like this at the same time, several gates were attacked, and they began to support them in batches.

Long Xiaoyun had just placed the explosive bomb, but after squatting down to activate the bomb, she didn't find Qin Yuan's figure. Could it be that this guy has already rushed in? At this moment, the smoke was lingering, and the security guard also ran over.

It's too late to care about so many Long Xiaoyun can only quickly lead people to fight back, because those security guards have already rushed up.

At this moment, Qin Yuan had already used his teleportation ability to come to Grandma Sun's side. First of all, he had to ensure Grandma Sun's safety.

At this moment, Grandma Sun was full of surprise. She didn't expect Qin Yuan to appear in front of her suddenly. Qin Yuan signaled Grandma Sun to keep quiet, and then went around through the window, only seeing a few guards in the yard outside.

A few minutes later, all the people in the yard were dealt with by Qin Yuan. He took Grandma Sun out, hid him in a safe place, and told Grandma Sun to wait for him here.

"Son, let's go now, where are you going?"

"Grandma, now I have other things to do. Those bad guys haven't been punished. You wait here. I don't worry. I will definitely come to pick you up."

Grandma Sun didn't want Qin Yuan to take risks, but this was Qin Yuan's mission. She could only nod her head reluctantly, watching Qin Yuan leave with tears in her eyes.

This is the largest treasury in the world, and the security forces are not vegetarians. Long Xiaoyun was beaten by them and couldn't move an inch. She wondered where did Qin Yuan go?

The subordinate next to her is a system capable person, and his ability is perfect. "Sister Long, something is wrong. Why did Captain Qin disappear suddenly? I didn't see clearly just now."

"He should have entered the vault and wants to cooperate with us inside and out, so he must hold on."

After getting along with each other these days, Long Xiaoyun already has some other sense of trust in Qin Yuan, and Qin Yuan has saved her twice, so she feels that it is impossible for Qin Yuan to lie

to her. She kept attacking, and then tried to delay Qin Yuan's time. She felt that Qin Yuan must have rushed in at the fastest speed.

On the other side, Qin Yuan took out the chip in his arms. This is the chip on Long Xiaoyun's body from the headquarters. He has done many experiments before and quietly teleported many parts from the headquarters.

He squeezed the chip and closed his eyes to use the ability again. When he opened his eyes, he found that he was walking in a shaking space. Your space is very large. I think it is next to a laboratory and you can hear bursts of roaring. The sound turned out to be a ship.

I really didn't expect that he had been wondering why he couldn't find the headquarters of the masked man before. It turned out that this guy's headquarters could be moved, and it was on this ship.

At this moment, an experimenter outside also found that Qingyuan standing inside looked at his clothes, and the staff member felt strange, how did this person get in? Just as he was about to scold, a flying knife pierced through the tempered glass and hit him directly in the throat.

Qin Yuan is not sure whether the masked man's body is here. Of course, he can be sure now. This is the core research base of their headquarters. Even if he doesn't find that guy and destroys it, he won't suffer a loss.

This ship is really too big, there are four floors in total, and the laboratory is at the bottom, so Qin Yuan killed all the way up without making a sound.

So far, everything is going well. After all, no one thought that there would be problems in their lowest-level laboratory, except for the second floor after the laboratory. There are some security personnel, and it looks like it should be a dormitory.

There were still some security personnel in uniforms around. At this time, Qin Yuan had already changed into a set of lab clothes. It was better to catch the thief first and the king first.

Chapter 1612: 1 way to kill

Those security guards are sitting on the ground leisurely, some are playing cards, some are playing this game, there will be no problem in this place, their usual job is to be responsible for patrolling, after all, if there is danger on the sea, it also comes from above .

Even Qin Yuan hadn't been questioned by anyone in the past. He looked around and found that the space here is relatively large. In the past, there were a row of rooms. Now the place where he came here is a hall, and there are more than a dozen people sitting sparsely inside. security personnel.

However, when Qin Yuan walked up the stairs and was about to pass through the small door, the guard standing above was a little puzzled, because according to the previous regulations, the experimenters below were not allowed to walk around casually, this was also to ensure absolute privacy.

"Wait a minute, what's the matter with you? Don't you know the rules? You are absolutely not allowed to go out without rules."

Now it's time to test Qin Yuan's acting skills, and he immediately put on an excited expression, "Why do you dare to stop me, do you know? This time our experiment has made a breakthrough, and this is the most important experiment for Mr. "

The security staff was a little hesitant when they heard this, but they still asked cautiously, "Then have you talked to the secretary on the fourth floor? You have to confirm with them before you can go there, even if the experiment is successful..."

Before the man finished speaking, he saw a cold light flashing across Qin Yuan's palm, and then he fell down in pain while clutching his throat, looking at Qin Yuan in disbelief.

Because Qin Yuan has obtained effective information, this guy is on the fourth floor. In this case, he has to deal with all the people on this floor.

Ten minutes later, there were already corpses lying on the security guards on the second floor. In the face of Qin Yuan's absolute strength, these people were no problem at all.

He speeded up to the third floor. The third floor is the cafeteria, so the staff inside are busy preparing meals. Qin Yuan chooses to bypass this floor directly. After all, they are all insignificant people, so let's get straight to the point. .

Soon he came to the location on the fourth floor. This place is very different. The entire cabin has been remodeled. After going up, he not only needs to enter the password, but also needs to verify the fingerprint of the card for three consecutive tests to open the door. The alarm is triggered, and there are security personnel at the door.

In this case, he must resolve the battle within two minutes. He must resolve the six security guards at the door at the same time, try to keep his voice down to avoid being discovered, so as not to startle the enemy. Although he is in the sea, the guy in the mask has already escaped too much time.

He was still the same routine as before, and hurried forward, but the security here was obviously not at the same level as the ones below. They didn't follow this routine at all, and they were extremely calm. First, they had to check Qin Yuan's identity.

And more importantly, it is not easy to use a badge here, and you must use the equipment they are equipped to scan your face.

Just when the man in front picked up the instrument to scan Qin Yuan, he kicked the man in the face with a sweeping leg, and then flew out with three throwing knives and playing cards.

The problem has been perfectly solved, and now we only need to break through this gate, which may take a little time, but it is not a big problem.

On the other side, the masked man was very serious in the conference room. He spent a lot of manpower on this operation. Basically, more than half of the people in the base were sent out.

But the crux of the problem was that Long Xiaoyun lost contact. He tried to contact her several times, but he never got a response, so he was very worried about the situation at the scene.

After a few minutes, a secretary ran over with a document to report that they had received a message from the southeast gate, and that it was their other team that had suffered heavy losses there.

"Sir, this situation may not be good for us. According to what Qingyuan said before, the battle between the several gates will be delayed, but the southeast gate is no longer good. Do we need to send some other personnel up?"

The masked man was also very conflicted. He didn't know whether to trust Qin Yuan. If he didn't send someone at this time, the pressure on Qin Yuan would be great. Although this guy is very capable, this is the biggest treasury after all.

Just when he was struggling, the bad news came again. An hour had passed, but the battle became more and more fierce, and their people in the other two gates had been retreated steadily.

Now he has to make a quick decision. At this moment, the masked man feels that something is wrong. According to Qin Yuan's ability, the problem can definitely be solved in an hour. Why has there been no information until now.

He turned his head and saw the secretary next to him, "Now contact the old woman immediately and ask them to report the situation of the old woman."

The secretary was stunned when he heard it. What's going on? Are you going to take care of that old woman now? It's not a question of whether to increase the number of personnel, because most of their troops are already there, and if they don't send rescue troops, the remaining people may really not be able to come back.

The masked man stared at him coldly, "Hurry up, do as I say."

Uncle Mi could only hurry down and arrange for someone to contact him. He really couldn't figure out why the mask bar would make such a decision. In fact, the masked man had already felt **** in his heart. He didn't know what was going on with Qin Yuan, so he could only use Threat him again with Grandma Sun's life, otherwise this guy will always give him some surprises.

But after a long time, the secretary hadn't come back yet, and he was actually a little angry. Now that time was the most important thing, he could only ask someone to go out and rush him.

But the person sent out didn't come back, he felt a little strange, what's going on?

Just when he stood up, the door was kicked into pieces. Qin Yuan rushed in with the secretary in his hand, "What, old man? Were you looking for me just now?"

The moment the masked man saw Qin Yuan, the holes in his eyes shrank. Why did this guy appear here? At this moment, Qin Yuan saw the fear in his eyes. This was never before, because the

masked man was just a stand-in before. All are puppets, but this time it must be the main body, he was afraid.

"You! How did you come here? It's impossible that Long Xiaoyun doesn't even know about this place!"

This old guy is also very cautious, including when dealing with Long Xiaoyun. He always let Long Xiaoyun come to this place covered with a black cloth, so he doesn't know about Long Xiaoyun at the headquarters, and Qin Yuan can't get out of her consciousness. understand.

So the masked man didn't know how Qin Yuan knew about this place at all, his eyes were full of disbelief, and Qin Yuan came directly in front of him in the next second.

Although this guy is usually arrogant, it's because he has countless substitutes, and his current body is like a building ant in front of Qin Yuan, and Qin Yuan grabbed his throat and directly lifted him up.

"The old thing should be settled between us. Once it is settled, you have been entangled for such a long time. From today on, your place will disappear completely!"

"No...don't destroy it, it's my whole life's painstaking effort, I beg you, let me let you go, okay? I won't track you down again."

The masked man was very flustered, because he knew that Qin Yuan would definitely do what he said. Once this place is destroyed, everything will be meaningless. He has worked hard for so many years and managed so many organizations. Will he be destroyed today? ?

For the sake of safety, Qin Yuan stared closely at his eyes, and directly chose to invade. He was sure that this guy was the main body, and he also learned some secrets of many other countries, mainly the organization under this guy.

The organization of the masked man is too widespread. They exist all over the world. He keeps recruiting soldiers. It's just that under Qin Yuan's suppression in the past two years, they have not been so rampant.

This time they were hit hard, so they needed to rob the treasury to relieve their financial pressure. The crazy guy who took the mask took countless people to do experiments, and invested a lot of money and energy.

This **** should also disappear completely. I don't know how many people's blood was on his hands. Qin Yuan made a little forceful check, and the neck of the masked man was cut off alive. He stared wide-eyed, just like that. In front of Qin Yuan.

This guy wore that mask from beginning to end, and Qin Yuan was completely stunned when he took off the mask, because this guy actually looked exactly like him.

Qing Yuan couldn't believe it at all, but he thought about it, probably not. Just now, he noticed some pictures of surgery in this guy's consciousness. It is very likely that this guy has plastic surgery behind his back.

The masked man, an ambitious guy, not only wants to fully control Qin Yuan, but he also wants to replace Qin Yuan. This is a complete lunatic, and Qing Yuan is relieved. Fortunately, he came in time, otherwise he would not know the conspiracy behind this guy How big is it?

Looking at the corpse in front of him, Qin Yuan also sighed, after such a long time, it was finally over, but it was just the end here, and the bastard's experimental base in another place.

Qin Yuan planted a bomb on the ship. At the moment of the explosion, he used his teleportation ability to come to Grandma Sun. From then on, this mysterious and dark organization will disappear completely.

On the other hand, Long Xiaoyun couldn't hold on any longer, and they retreated steadily after being beaten. Even at this time, she was still worried about whether Qin Yuan was threatened in some way, or why he hadn't come to meet them all the time. ?

The subordinate next to him was hit by the security personnel on the opposite side, and his shoulders fell to the ground. He kept fighting back, and there were not many bullets in his hand.

"Long Jie, it looks like we can't do without today. You saved my life before, but today I'll pay you back. Hurry up and I'll cover you."

"This is impossible. He must still be inside. Everyone must persevere. We will win when he comes out."

"Long Jie, wake up quickly. It's been such a long time, why is he still inside? If he's inside, why are the security guards only attacking us? It's been so long, is he still there? ?"

This subordinate has been following her for the past two years, and he is loyal to her. Before that, she really thought about doing things for her in a down-to-earth manner, after all, she has these abilities.

This subordinate used his ability to directly shoot Long Xiaoyun away. This was his greatest help, but soon, the security personnel rushed up again, and they also found that these people were very difficult to deal with.

So the battle can only be resolved quickly, there are explosions everywhere, bullets are flying around, the fight here is chaotic, and Qin Yuan is comforting Grandma Sun on the other side.

They can go back now. As for the back of the base, he will personally lead the red blood cell team to carry out the extermination, and at that time he will prove to others that he is definitely not a criminal, but just lurking into these criminal groups.

After all, he has now become a wanted criminal internationally, and the internal explosion is still fresh in people's memory.

After all, few people knew the identity of the masked man. Even if the man behind the scenes was exposed, no one knew his details. As for the base, he could use it to clear his name.

Sitting on the helicopter, Grandma Sun was very nervous. She was not sure if she could really go back? It's been such a long time.

Feeling her nervousness, Qin Yuan held her hand tightly, this time he will not let his family suffer any harm Grandma, don't worry, I will definitely protect you in the future Yes, it's all over. "

The leader of the organization behind the scenes has been killed by himself, so there will be no more worries.

Three hours later, Qin Yuan showed up at the airport. At this time, the captain of the special operations brigade who was on duty at the airport saw Qin Yuan and immediately notified everyone.

Although he didn't know what was going on, but this was an order from above, as soon as he saw Qin Yuan, he should be brought back safely.

The captain of the Special Operations Brigade was very excited, and stepped forward to hold Qin Yuan's hand, "Captain Qin, I really didn't expect that I finally saw you. By the way, our leader said that if he saw you, he must bring you back." , you go with us first."

The captain of the Special Operations Brigade didn't know what the leader told him to bring back. He really thought he was asking to come back. Qin Yuan felt that this was the case. He had been slandered before. It stands to reason that there should be no such thing in China. Received any news, how come they still have such a good attitude towards themselves?

Grandma Sun also boarded another car under their escort. The captain of the special warfare brigade was familiar with Qin Yuan. Qin Yuan had given them training before and led the team, so the two were also old acquaintances Chatted in the car.

"I heard that you are going to perform a confidential mission this time. It's been a long time. I think it's been a long time since I saw you."

"There is no way to do our business, we must focus on tasks."

The two were chatting and laughing. The captain of the special warfare brigade was very enthusiastic and immediately called the cafeteria to prepare additional meals. Today, there are important guests coming, so Qin Yuan quickly waved his hand beside him, telling him not to be so polite. Send Grandma Sun back.

Chapter 1613: accept review

"Captain Qin, aren't you disrespecting me by doing this? Don't worry, the old man will be sent back to you safely. You don't have to worry about these things. Don't you trust us?"

Besides, the brothers at the base all miss him, and many of them are the team members brought out by him. In this way, Qin Yuan really has no way to refuse the captain of the special warfare team, so that he must stay, and everyone have a good drink.

Halfway through, the captain of the Special Operations Brigade received a call from the leader directly above them, which surprised him a bit.

As soon as he picked up the phone, the leader on the other side got straight to the point, "Where is Qin Yuan? Have you found him yet?"

"Yes, sit with me now, and I'm going to bring him back to the brigade."

"What? Didn't something happen to him sitting with you?"

The captain of the special operations brigade felt a little strange, what else could happen, why did the leaders say something so strange today? After hanging up the phone, he shook his head. He didn't know what was going on. He always felt that the leader had something to say, and he couldn't say much.

Although he was sitting in the front row, of course the content of the phone call was clearly heard by his lover. Qin Yuan probably understood what it meant. It seemed that the grassroots people didn't know the specific situation, only the high-level ones.

In this way, the vehicle slowly drove into the Special Warfare Brigade. As soon as he entered the yard, he saw not only special police officers but also armed policemen inside. The captain of the Special Warfare Brigade was very excited.

"Hey young man, I really didn't expect that even the armed police brothers are here. It seems that everyone is here to welcome you and welcome you."

Qin Yuan smiled wryly, guessing that the matter is not that simple, as expected, just as he got out of the car, the big leader in front stared at him coldly, and then gave the order, "Go up! Bind him."

what! The people around were dumbfounded, mainly because they had received an order saying that a major criminal suspect was coming, so they were told to get ready, but they did not expect that the so-called criminal suspect was actually Qin Yuan.

The armed police are also a little confused, their team was trained by Qin Yuan before, isn't this a big oolong? Everyone hesitated for a while.

"Chief, are you right, let us attack Captain Qin?"

"Can't you understand the order? Take down this suspect for me."

The captain of the special operations brigade was even more confused, he brought the man back, what's the matter? If it's a surprise, I didn't play like this, it's a bit too disrespectful.

But looking at the serious leader in front of him, he didn't seem to be joking, and he also felt that there was something wrong with the situation.

Which leader stepped forward with his hands behind his back, and he even put on a bulletproof vest, "Qin Yuan, you really know how to come back, do you know how much trouble you have caused?"

Qin Yuan smiled indifferently, "I'm too lazy to explain so much, but I'm not afraid of the shadow, and I won't hurt my brothers."

After Qin Yuan finished speaking, he directly raised his hands. The rest of the people were a little hesitant, but under the signal of the leader, everyone stepped forward to control Qin Yuan. The captain of the armed police next to him looked confused, and he walked over. He patted Qin Yuan on the shoulder.

"Brother, I'm sorry, although I don't know what happened, but I believe in you, and I won't wrong you."

"It's okay, I know what I have done, so I know very well, otherwise, if I were really like that, I would have done it to you long ago."

Everyone also understood that if Qin Yuan wanted to resist them with his ability, he would not be able to catch him at all. Although everyone didn't know what happened, they could only choose to obey orders.

On the other side, Gao Shiwei was completely stunned when he received the call. It turned out to be a call from the special police brigade, asking him to go over to accompany the review, and the other members of the separate review team had already passed.

At this moment, he was very angry, he patted the table and called the secretary, and asked him to assemble a good team, "It's really a tiger that doesn't show its power, and treats me like a sick cat! Detain my people without saying a word, They are really brave."

"Captain Gao, what's the matter?"

"If there is any other situation, you can go and tell the group of boys and ask them if they want to set off. Their captains have been detained."

what! Hearing this, the secretary felt that the matter was serious, and hurried out to inform the red blood cell team. The wolf squad also heard the movement and quickly assembled, followed by the thunder and lightning commando team. All the commando teams on the playground were fully assembled in a short time.

To be honest, everyone was suffocated during this period of time. The higher-ups did not allow this matter to be discussed, nor did they listen to any explanations. They always felt that the matter was not that simple.

Moreover, the red blood cell team must absolutely believe in Qin Yuan. Everything he did not do was blamed on him. Now they must seek justice for their captain.

Long Xiaoyun stood up, "Captain Gao, let's set off now, these people are too deceitful, they didn't ask about the situation, and even arrested Qin Yuan as a criminal, we can't bear this."

"That's right, Commander Gao, please give the order. We'll go straight away. No matter what, we have to make sense. This is really too much, and we must apologize."

"We're going to support Brother Qin."

At this time, Gao Shiwei calmed down instead. When he slapped the table just now, the idea in his head was to get Qin Yuan out, but now that he thinks about it carefully, things are not that simple.

Because on the phone, he heard the leader over there say that the people from the inspection team had already passed, so this matter was approved by the big leader above, and he is bringing people there now, isn't that causing trouble?

This situation is very unfavorable to Qin Yuan. On the contrary, it will make the leaders feel that they are concentrating on making troubles. Their current status is first of all soldiers, and they must obey orders. Doing so will make things more and more chaotic.

After thinking about it, he sighed, and just called Long Xiaoyun, and then took the secretary with him, intending to go over there to see what was going on.

The rest of the people had no choice but to wait for news in the brigade. Li Erniu was very anxious and kept pacing back and forth on the playground, looking at the cars driving farther and farther, "Hey, what should I say? Are we just going to sit like this?"

"What else can we do? If we go now, it will only make things worse. Are so many people going to make trouble? What will the people in the military region think of us?"

"But you also know that Brother Qin was definitely wronged."

"It is precisely because of this that we have to believe that the organization will definitely give a perfect result, and will definitely investigate clearly. Let's not make things big."

Li Erniu sighed helplessly, seeing that the car had run away and disappeared, and he kicked the tree trunk next to him, he was really aggrieved. The main reason is that he thought that Qin Yuan was escorted back by their special police brigade. Isn't that funny? Also known as criminals.

An hour later, Gao Shiwei brought Long Xiaoyun to the special police brigade in city A. They were stopped just as they were about to enter the door. Gao Shiwei was already full of anger. What does this mean?

The secretary next to him was also a little angry, "Why do you really think that the special police team is awesome? What is the identity of our high team? You deserve to stop here!"

"This comrade also hopes that you can understand that this is also our job. We need to conduct routine inspections. The leader has specially ordered that no matter who it is, anyone who enters here must hand in their weapons and then undergo inspection."

It seems that this time the matter is really not simple, Gao Shiwei poked his head and looked into the yard, the inside was already full of people, and there were still a few cars that looked like they should be the big leaders above.

In this case, he could only cooperate with the inspection. Long Xiaoyun handed over all his belongings before walking in. After entering, a staff member came to receive them and guide them to the office above.

After entering the office, I found many old acquaintances. Basically, the leaders of several major military regions have come here. The commander of the southern military region saw Gao Shiwei and said hello.

"Old Gao, you old boy is really leisurely, why are you the last one here?"

"Hehe, then you should ask them to detain my people and notify me as the last one. What does that mean? Are you really bullying my special operations team? Don't you usually care about them?"

The captain of the Special Operations Brigade was a little embarrassed by the side. They were not the ones to handle this matter. It was the leaders above who directly sent someone over to take over the notification. He didn't know either.

It just happened to be taken over by them, and they reviewed it on the spot because of Qin Yuan's special status. He is also very capable, so the leader is worried that there will be other unexpected situations.

The captain smiled awkwardly at the side, and then brought the tea to Gao Shiwei himself, "I heard that the captain of the special warfare team is a hot-tempered person before, it seems that the first meeting today is a well-deserved reputation. Tough guy."

"Don't come here to play tricks. I don't want to eat this. Now I want to know what's going on? What's wrong with my people?"

"Captain Gao, I hope you can understand that I'm completely dumbfounded. The reviewer has just entered. I don't know what's going on now. Anyway, the leaders have come here."

Gao Shiwei snorted coldly and didn't speak any more. The atmosphere in the office was a bit awkward, and the commander of the Southern Military Region quietly teased him.

"Okay, you don't have to look down on that face. When the leader sees you later, you will know that this kid has caused a lot of trouble this time."

He was clear about this, but he didn't know what the results of the investigation were now. As time passed, a staff member came in from the outside, mainly to report the review situation to them.

"Masters, our review work is currently in the first phase, and we will conduct the second phase later, and the third phase will be a total of three phases of the review."

Gao Shiwei was no stranger to such censorship, but felt a little unfair for Qin Yuan. Anyway, Qin Yuan only needed to tell the truth, and it was indeed a criminal gang.

Now is the time for their review team to verify. They have to repeatedly check what Qin Yuan said.

These people never let go of any details, and searched very carefully. On the same day, Gao Shiwei and the others also held an emergency meeting. The main reason was that the leaders above made a report on the results of this incident, and it is still in progress. middle.

First of all, they estimated two possibilities. One is that if Qin Yuan's side is confirmed to be a criminal, he can only be executed in secret. His influence this time is not small, and he has become an international The wanted.

Another possibility is that Qin Yuan is telling the truth, and there is indeed a criminal group that will send a team to clean up with him and give him a good reputation.

Watching the leader speak on the stage, Gao Shiwei couldn't bear it anymore. He stood up to defend Qin Yuan, "I know that necessary review is normal, but don't you guys know about Qin Yuan? How much he has done Contribution, and even if there is something wrong with him, do you think these people can catch him?"

"Captain Gao, I hope you can look at this matter calmly now. Everything must go through the process. We will not blame a good person, but we will not let a criminal go."

Gao Shiwei shook his head helplessly, now he can't say anything, this is a decision from the highest place above, no matter how much contribution Qin Yuan has made in the past But now we have to make things clear.

This kind of review work lasted for a week, including they sent people to secretly investigate abroad, and also went to the address Qin Yuan mentioned before to confirm that a ship had exploded.

There is also the incident that happened in the treasury, all of which confirmed Qin Yuan's statement.

Now is the time to prove it for him. The examiner on the opposite side stood up, and now he can be sure of his innocence.

"Captain Qin, I'm very sorry, I have been interrogating you non-stop for a week, but this is also our job, I hope you can understand, now we can return your innocence, and we will organize relevant personnel to hold a press conference immediately. "

"There is no need for this. I want to maintain my reputation myself. Since these criminals are trying to get me wrong, I'm not afraid of them at all!"

"Then what are you going to do?"

"I won't bother you to worry about this. I have my own plan, which will definitely be more convincing than the press conference."

Seeing his confident appearance, the examiners didn't have much to say. When Qin Yuan completely walked out of the examination room, he felt extremely relaxed. He finally came back and solved a problem in his heart Big trouble.

Long Xiaoyun couldn't care so much, she rushed forward and hugged Qin Yuan tightly. After so many days, she really thought that Qin Yuan was a traitor, especially when she attacked Gao Shiwei, she didn't expect He lied to everyone.

"You ***** is really embarrassed to come back. You are causing trouble for everyone. I really want to beat you up."

"Xiao Yun, pay attention to your image. Anyway, you are the captain of the Special Forces now. Look at the people around you."

Chapter 1614: completely over

Long Xiaoyun didn't care that much, this guy made them worry for so long, and now he just said it lightly, this feeling of lost and found made them care so much.

At this time, the members of the review team also came out, and Gao Shiwei hurried forward to inquire about the situation. Although the people did come out, there are still many things about the specific result and how to prove it later.

The members of the review team were also very helpless. The person in front of the team said: "Captain Gao, you God of War, we really have nothing to do with him. He is too strong. You should ask him yourself."

Gao Shiwei frowned. What is this guy doing? Did he say something that shouldn't be said during the review? Do you think things are not messy enough?

But Qin Yuan was not in a hurry to explain, but took them to the next room first. After all, it was quite troublesome to explain this matter, and for that base, his speed must be fast, and he didn't need to talk to everyone. Everyone said his plan. After all, there are so many special police and armed police outside.

After hearing Qin Yuan's plan, Gao Shiwei agreed. This would not only completely prove Qin Yuan's innocence, but more importantly, kill two birds with one stone.

There is no problem with their review, mainly because of the international influence, especially the problem that the United States caught last time and made a big fuss.

"Yes, how many people do you need to bring there? Is the red blood cell team enough? If not, let Xiaoyun go with you."

Long Xiaoyun beside him also had an expectant expression on his face, Qin Yuan went to shake his head, he had already investigated that base before, there was no major problem, he just set off with the red blood cell team.

Too much time wasted in this review. Qin Yuan knew that the masked man had completely collapsed, so he didn't know what the industry under him would develop into.

If it is going to collapse suddenly, the possibility is not very high. Although the masked man is a key leader, but he collapsed, there are other systems operating below.

The main geographical location of the base is also relatively special, and it is unlikely to be relocated in a short time, so there is no such rush these days.

Qin Yuan immediately led the team to go to that place, but at this moment, he didn't know that another person had also absconded there quietly.

This person is Long Xiaoyun. At this moment, she is seriously injured. Because she is a mechanical system, as long as her head and heart are not damaged, there will be no major problems. Half of her torso has been blown away.

It can be said to be very tragic. This time she took out a total of 187 people. In the end, only she and another subordinate barely escaped. She wanted to contact the headquarters, of course, but there was always a state of being out of contact. She has a bad feeling.

And according to the current situation, she is really desperate. First of all, the wounds on her body need to be repaired as soon as possible, so she can only come to this experimental base first.

Qin Yuan was worried about whether the experimental base would be paralyzed because of the collapse of the masked man. Obviously, this worry was a bit unnecessary. It was because of the cautiousness of the masked man that he only contacted the base every once in a while.

Including up to now, the experimental base has not found any clues, but they saw Long Xiaoyun who was covered in injuries and gave her treatment as soon as possible.

During this period, Long Xiaoyun kept contacting the headquarters, but there was no response. The subordinate who escaped with her was called Matthew. This guy's left hand was completely blown off in order to cover him.

However, Matthew's system ability is speed, which allowed him to escape with Long Xiaoyun. Long Xiaoyun's body is a machine, so it can be repaired again, but Matthew is different. One of his arms is completely useless. up.

Faced with this situation, Long Xiaoyun was very guilty. She remembered that Matthew had been protecting her and urging her to leave quickly, but at that time she believed Qin Yuan too much. Now there is really only one possibility, Qin Yuan, the ***** have escaped.

She leaned on the pillar next to her and looked at Matthew who was wrapped in gauze, "I'm sorry, don't worry, the headquarters will not treat you badly, if you can try it later to see if you can use the mechanical arm."

"Long Jie, you saved my life before, no matter what, I will follow you."

"Follow me? This time I harmed everyone. I made a mistake in my judgment. I don't know what punishment the headquarters will punish me. You'd better not tell me that it has nothing to do with it. I will take the responsibility for it." , you know the temper of Mr.

Long Xiaoyun smiled wryly after speaking, no matter what, she must keep Matthew first, he knows the mask man's temper very well, this guy would rather kill 1000 mistakes than let one go, especially in this situation, he must Find someone to come out and take responsibility.

But at this time Matthew frowned, he didn't know whether he should speak, seeing him hesitant to speak, Long Xiaoyun let him speak first.

Unexpectedly, this kid looked too far away. He asked whether there might be a problem at the headquarters. After all, with the character of the masked man, if the mission fails, he will definitely be held accountable immediately.

But now, after such a long time, there is no news at all, including the experimental base, which is their only experimental headquarters base left.

So Matthew was very worried that Qin Yuan's ability was too terrifying. It was very possible that he had discovered the headquarters. Long Xiaoyun immediately rejected this idea. She shook her head, this is absolutely impossible.

"Mr.'s ability is very strong. No matter how strong that guy is, he was created by him, and the headquarters doesn't even know how he found out."

Hearing what she said, Matthew couldn't say anything more. Anyway, let's take a step and take a step. On the other side, Qin Yuan has already brought red blood cells. The team took a helicopter to the vicinity of the experimental base, which is about 2 kilometers away. Helicopters are easy to spot if past.

They plan to land here, and then sneak in quietly. When Qin Yuan and the others arrived at the experimental base, the lights inside were still brightly lit. There are several lighthouses at this location, mainly facing the sea, with a bare cliff on the back. , Qin Yuan and the others flipped through the teeth from here.

Qin Yuan wanted to do something before, not to mention that now he has no resistance and easily broke through the gate. Long Xiaoyun, who was sleeping, got up instantly when she heard the sound of the explosion. What's the situation?

There are no powerful people in the experimental base here, but there are two security teams responsible for the normal order. Long Xiaoyun reacted quickly, and hurried to the front to ask what happened. The person in charge of the base also looked flustered.

"We don't know, it's just that the base was invaded, and the people who came were very capable. They seemed to be members of the Special Forces. I don't know which country they are from."

When the surrounding staff heard that it was from the Special Forces, they panicked instantly. Their place was not a formal structure, and they hadn't contacted the headquarters in the past two days, so everyone was very worried.

Immediately, a staff member suggested that if it was really a special operations force, it would be better to surrender directly, and there is still a possibility of survival, otherwise, there is really only a dead end if you resist.

Everyone was distracted for a while, and everyone was thinking about how to escape. After all, most of the people inside were just researchers, and there were only two teams of real security guards, who were now resisting outside.

"How do you know it's the Special Forces? You'd better not be alarmist here."

Long Xiaoyun was a little angry, why is the person in charge talking nonsense here, but the person in charge was very sure. He looked at Long Xiaoyun, "You haven't been here before, so you don't know the reason why I say this is because I'm pretty sure."

They have often been attacked by pirates in this position over the years, but because of the condescending terrain, those pirates couldn't attack them, and they were beaten back by them a few times. Most of the pirates were vagrants, and their combat capabilities were not that strong.

And the weapons that the masked man distributes to them are relatively advanced, so they can be beaten back again and again, but this time is very different, it is a deployment that can only be made by regular troops, and they are divided into three positions to face their gates. to attack.

"There is only one way now, and that is to contact the headquarters as soon as possible, but you also know that the headquarters has been out of contact for many days, what can I do? We are just researchers, not here to fight."

Long Xiaoyun was a little angry, and took out the gun at her waist and pointed it directly at his head, but the person in charge didn't panic at all, "Do whatever you want, it's useless even if you beat me to death, go and see for yourself."

At this time, Matthew also ran in from the outside. He looked at Long Xiaoyun and shook his head, "Sister Long, it seems that what he said is true, because these people have a very clear purpose. They just killed our security personnel. None of the experimenters moved."

what! Long Xiaoyun's complexion tightened and she ran out quickly, but she didn't expect to see a familiar figure rushing in, and the surrounding researchers all knelt down with their heads in their hands, lying on the ground.

Because what the leader said was also very clear, "Give up resistance and be lenient!"

The voice was so familiar that Long Xiaoyun was completely stunned. The person running from the opposite side turned out to be Qin Yuan, and it really was him! She smiled wryly, indeed, only this person has such ability, how could other people do it?

Qin Yuan smiled and walked forward, "It's been a long time."

"I didn't expect you to choose to betray us at that time! I still believe you so much, do you know how many people died that day? All the people we took out died there."

Long Xiaoyun questioned in a filial manner, but Qin Yuan sneered, "What are you talking about? Let me tell you, it's not a betrayal at all, because you forced me to take this dead end. Don't you forget how Framed me?"

Then Qin Yuan did not hesitate at all, quickly pulled the trigger, and aimed directly at Long Xiaoyun's eyebrows, but Long Xiaoyun did not choose any resistance, she felt that it was time to end, especially in front of Qin Yuan, it was impossible to have any chance of survival.

Matthew on the side wanted to run out to block the gun for her, but He Chenguang was faster and hit Matthew directly in the chest with one shot.

The two of them fell into a pool of blood almost at the same time, Long Xiaoyun twitched for a while, and finally her eyes were filled with unwillingness, and she just died like this.

It's finally over, Qin Yuan looked at this huge base, wondering how many people have been killed by them and their wives and children have been separated, especially those who were arrested by them for experiments, they are completely careless about their lives.

Countless people died in this so-called base, and even he destroyed one after another, and now he finally destroyed the last source of goods.

Three days later, a press conference that shocked the world quickly unfolded. Under the deep suspicion of the United States, Qin Yuan took the initiative this time and found a contract in their base laboratory. The main person has hooks.

But now that the mask is dead, without any evidence, it can only show that they have something to do with this matter, and it is not clear what it is exactly.

In this press conference Qin Yuan changed from an international fugitive chaser to a real undercover agent. As for the truth, it will only become more and more dirty, let's talk about the people above and the masked man. It doesn't matter, it is absolutely impossible, otherwise his power would be so great, he would be able to extend his hand in many places, and he would have such strong financial support.

The person in charge behind Miguo clenched his fists, because he knew that Qin Yuan had ruined all their aspirations. Over the years, they just pulled out the masked man as a scapegoat. In fact, they were the real mastermind behind it.

The systems developed by the masked man have done many unknown crimes for them and covered up a lot of things, but now everything is ruined. Even so, they can't say anything, after all, the active party has completely mastered it. On Qin Yuan's side.

Qin Yuan knew that it was too difficult to shake those people's positions with his power, and it was not so easy for him to truly seek the truth, but this was enough, not to prove his innocence.

On the way back, Li Erniu was a little puzzled, "Brother Qin, since those guys are indeed related to these things, why didn't there be a professional team to investigate, there are too many things involved."

"So the water here is very deep, and it is no longer something we should be involved in. After all, it is not our country, and I think the matter may not be over yet. The masked man is already a very powerful existence in my opinion, but for these people Just a pawn."

Qin Yuan vaguely feels that the matter is not over yet, but there is no other evidence now, but if they still want to make some small tricks, he will never let them go.

Even Li Erniu and the others knew little about this matter. They only knew that it was a powerful criminal group, but they didn't know what they were actually engaged in.

Chapter 1615: magic stitch

Although the matter here has temporarily come to an end and Qin Yuan's reputation has been restored, he always feels that the matter here should not be over yet.

It was that kind of illusion, after he went back, he still told Li Kang and the others the news, at least now everyone is considered free, don't worry anymore, they will be chased and killed by the organizers later.

Zhang Meng hesitated, but still asked about Long Xiaoyun's situation, although she knew that this person should not ask, after all, he was always a traitor lurking inside.

But because of the long time getting along before, she still had some feelings. At least she believed that this girl didn't think so at first, and she should have chosen to stand with the masked man because she was forced to do so later.

To be honest, even Qin Yuan didn't know why she made such a choice, but he still told the truth that Long Xiaoyun was dead, he killed it himself.

Zhang Meng teased slightly: "Captain Qin, you are really interesting, don't you realize that as long as there is a woman who likes you? If you don't like it, you basically won't live for too long?"

"Sister, don't tease me, okay? There's nothing wrong with it."

Zhang Meng smiled mysteriously, then waved her hand and left. Now she is considered a free one.

Qin Yuan also went back to the main team to visit his daughter, mainly because he was worried about the system ability of the child, and also to be able to get together with the child, but An Ran had no time at all, because the progress was delayed for a few days, So she's been in the office lately.

At this moment, three off-road vehicles were running in a desert, and a man wearing sunglasses picked up the walkie-talkie, "Plan A has completely failed. We will first implement Plan B in the second set of plans in Building 7."

The three vehicles slowly disappeared into the desert without leaving any traces. In this uninhabited land, no one would notice these details at all.

A week later it was Qin Ran's fifth birthday, so everyone got together, and Grandma Sun also came over, and everyone baked dumplings in the yard, preparing for the excitement.

At this time, I heard a noise coming from outside, only to see Li Erniu walking in carrying a rocking cart, and his face was full of pride.

Qin Yuan looked disgusted when he saw it, "Why are you carrying such an ugly thing? Don't scare the child."

"Brother Qin, that's why you don't know. Children like to play with this now. I'll make a rocking car for our goddaughter. Come on, plug it in."

As a result, Qin Ran, who heard the commotion, came out with exactly the same expression as Qin Yuan. His face was full of disgust, and then he said a word without giving any face.

"It's too ugly, I don't want to sit!"

Everyone laughed out loud when they heard this, the father and daughter were so alike, Li Erniu could only coax and trick her to come up and have a try, after all, kids outside like to play with this.

"I don't want it. I'm no longer a three-year-old child. I want to fly in a plane or a tank. You take me to be a fighter jet."

As expected of Qin Yuan's child, the requirements are different from others at the beginning. The five or six-year-old child already knows more than a dozen types of battlefield tanks.

At this moment, a person came in from outside the door, Qin Yuan looked up and saw that it was Mu Qingmei, Qin Ran was very happy, after all, he had brought her before, and trotted all the way into Mu Qingmei's arms.

"Aunt Mei, you are finally here."

"You little naughty, look what I brought you."

After Mu Qingmei finished speaking, she took out a military sniper scope from behind, Li Erniu next to her was stunned, this sniper scope is not ordinary!

He quickly took it and looked at it carefully, good guy, if he remembers correctly, this seems to be the reward for this year's international pacesetter.

"You give a child such a big thing, can he understand it as a child? Why don't you give it to me? Think about this sniper scope paired with my gun. That's a perfect match."

Unexpectedly, Qin Ran kept asking for the sniper scope down there. This little girl already knew what she wanted. Although Li Erniu was a little bit reluctant, but after all, it was a gift from someone and he had to give it to her. It's really different. Other children at this age are still playing with mud, and she knows how to touch guns and cannons.

Qin Yuan sighed a little, and said in a low voice: "That sniper scope is expensive, and you won it in a competition, so why don't you just give it to him? A child like her doesn't need it now."

"Aren't they all the same? What's the difference between your child and mine? Besides, it's good that the child likes it."

This statement made Qin Yuan a little embarrassed, after all, he had promised Mu Qingmei many things before, but they couldn't fulfill them due to time constraints.

A simple birthday celebration for the child. After the meal, Mu Qingmei followed Qin Yuan to the Second Special Forces Brigade. In fact, she came here for another purpose, which was to form the medical team last time. This time they wanted to represent Yan Guo went to participate, this time the competition is international.

Fang Fang attaches great importance to this matter, so she came to find Qing Qin Yuan on purpose, and wanted Qin Yuan to teach them some skills. This time, the international medical competition is no small matter. Elite teams from various countries will participate, and everyone will show various skills.

Qin Yuan felt a little guilty before, so he didn't refuse, and agreed directly.

"I won't tell you about other training or anything. I'll follow you this time, and I can guide you at any time."

"Really? Do you really have time to go? If you don't have time, yes, we only need to conduct a one-week training. After all, it is estimated that it will take a month to go abroad."

"Hey young man, look at what you said, when did you become so alien to me, do I dare not listen to what you said? Besides, don't look at our identities, who is this with whom?"

Qin Yuan said that he was dishonest, and slapped her on the buttocks. Mu Qingmei quickly looked around. The soldiers on the opposite training ground were training, and this guy was dishonest.

Her face turned red, "Shut up, there are other people here, it's not good to be seen later, you are still the team leader anyway, pay attention to the influence."

"What? Could it be that the captain can't have ***** with his girlfriend?"

This guy is really shameless, before Mu Qingmei could react, she was hugged by him, and went directly to the dormitory.

At this moment, Mu Qingmei blushed even more, when is this? Why is this guy so dishonest? Moreover, Qin Yuan deliberately walked towards the playground, and there was a burst of cooing in an instant, and Mu Qingmei's ears were already red.

The next morning, Qin Yuan followed Mu Qingmei to their medical team. Because she had participated in peacekeeping operations before, she was the deputy captain of the medical team.

Their captain is a man in his forties. According to Mu Qingmei's introduction, he was transferred from a military hospital and has rich experience. He has been traveling with their medical team all these years.

The team leader was called Hu Jun. He was very enthusiastic. He stepped forward and held Qin Yuan's hand, "Oh, it's really not easy for Captain Qin to meet you, you know? I've heard about you for a long time. You have gained a reputation, saying that you are an ancestral genius doctor."

Qin Yuan hadn't even started to introduce him yet, he was dazed, and Mu Qingmei spread his hands beside him, "I really didn't say anything, I just said that you are coming to our team, I usually rarely mention you , you know that I don't like to say anything."

Hu Jun looked at Qin Yuan with a confused look on his face, "Is there anything else I need to say? You don't know that one of my comrades in arms was rescued by Captain Qin."

Comrades? It was later learned that Hu Jun's comrade-in-arms turned out to be Liu Xiaoshan, and Hu Jun kept sighing beside him, because he and Liu Xiaoshan had only been in the recruit company at that time.

After the two people left the company, there was no contact. After all, the division was relatively far away. When he finally saw Liu Xiaoshan again, he was seriously injured at that time. At that time, he judged that this person would not be able to participate in any training in the future. No, because his knee is useless.

Unexpectedly, after only a few years, he saw Liu Xiaoshan's achievements in the Marine Corps and formed a small team, which surprised him. After many inquiries, he found out that it was Qin Yuan who had healed his legs.

"Captain Qin, that's why I've always wanted to see you. At that time, not only I had seen his leg, but basically all the doctors in our team had seen it. There was nothing I could do about it."

Qin Yuan smiled, so that was the case. He said that there was nothing wrong with it. He only knew a little ancestral skills and used traditional acupuncture, so his leg was healed.

Hu Jun sighed again and again, and was even more excited when he learned that Qin Yuan would stay in their medical team and would go out with them to participate in international missions.

He has heard many things about Qin Yuan. Apart from being called the God of War, he has created many medical miracles. You must know that there are many irreversible injuries in their army, but as long as Qin Yuan takes over, Basically become like a normal person.

Hu Jun was so enthusiastic. He couldn't wait to take Qin Yuan to drink. After these few glasses of wine, Hu Jun talked more. After several glasses of wine, he finally revealed his purpose. I want to see the acupuncture technique in Qin Yuan's legend.

"Captain Qin, to be honest, I don't really believe in Chinese medicine. At least before this, I have been mainly using Western medicine, so I really want to see how it is done?"

"Captain Hu, aren't you embarrassing me? Now that I'm not a patient, how do you want me to demonstrate?"

Speaking of this, Hu Jun pulled him with a bright smile, "Of course it's no problem, I have a living case here, and you just demonstrate it to me."

After a while, the two came to the ward at the back of the camp. Hu Jun introduced the situation and took him upstairs. It turned out that they recently admitted a soldier who was paralyzed from the neck down, and it can be said that he had caused severe disabilities. .

Recently, I have been doing rehabilitation with them, but the effect has not been good. I have tried all kinds of methods, but there is no effect.

This soldier is too young. He is a recruit who enlisted this year. He is just 18 years old. He is the beginning of a great life. He accidentally fell off the grid during training.

Speaking of this, Hu Jun regretted it again and again, so he hoped to see whether Qin Yuan's technique was really so magical, which was actually another test.

After all, this time was international. Qin Yuan had never even been in contact with real medicine, but relying on traditional Chinese medicine made Hu Jun always feel a little unreliable. Although there was a case of Liu Xiaoshan before, he wanted to see it more.

Soon the two came to the ward, opened the door and went in, and saw the little soldier lying on the bed and heard the movement. He tried hard to raise his head, and he couldn't even do such a simple movement.

Hu Jun hurried forward, "It's okay, you don't need so many of you, I brought a genius doctor here, don't worry, the army will not give up on you."

The little soldier nodded, Qin Yuan stepped forward and stretched out his hand to press his shoulder, and touched all the bones in his body. He already knew the general situation, and the spinal nerve was indeed damaged.

"How is it? Captain Qin, how sure are you that you can make him recover? I don't have too many demands. At least it's good to be able to move your left hand or half your body Captain Hu, It's exaggerating for you to say that, don't worry, I can make him stand up again, and he will be like a normal person."

what! Hu Jun was stunned when he heard this, he heard it right, he had never reported such high expectations before, because nerve damage is completely irreversible.

And Qin Yuan did what he said, without too much explanation, and took out the set of silver needles from his backpack. In fact, he can use his recovery ability now, but Hu Jun is by his side after all, so why not show it to him? .

Hu Jun didn't know much about traditional Chinese medicine. He saw that the little soldier's body was densely impaled with silver needles, and when it hit his leg, the little soldier suddenly let out a hey.

"It hurts, it really hurts, it's numb and painful."

"Since you are conscious, do you remember before? We tried various methods for you, even electrotherapy, but you said you didn't feel anything."

"Doctor Hu, this time I really felt it, I felt a tingle."

The little soldier was also very excited, he knew what it meant, Qin Yuan told them not to worry, there were still many steps ahead, just like this, after piercing the silver needle from head to toe, in this process, he slowly used his recovery ability to infiltrate go in.

After a few minutes, Qin Yuan took off all the silver needles on his body, and then said, "It's ok, come down and take a walk."

The little soldier couldn't believe it. He instinctively wanted Hu Jun to help him, but he didn't expect to get up, and then fell to the ground. Hu Jun's mouth was already wide open in surprise.

It's just that one didn't stand firmly and fell directly to the ground. Qin Yuan hurriedly told him not to be so anxious. After all, he had been lying on the bed for so long, and his body needed a process of adaptation. Just exercise slowly for a few days, as long as he adapts to the previous Rhythm is fine.

Chapter 1616: handover problem

The little soldier was so excited that he shed tears, because many doctors had visited him before, and he had been transferred to the hospital several times, basically in various military hospitals for rehabilitation, and finally came here.

There is no problem now. Before Hu Jun thought that it would be good to at least be able to move his fingers, he did not expect that the whole person had fully recovered.

After coming out of the ward, Hu Jun looked at Qin Yuan differently, and he was completely convinced, "Captain Qin, it seems that we will be the champions of this international competition. I didn't have much confidence before, but there is You're here, I think it should be fine."

"Captain Hu, I think you are also an old military doctor for decades, so you should be fine. Why do you feel so unconfident this time?"

Hu Jun sighed silently when he said this, and he went back to the office to take out a document, which was approved by the leader above, and there was a list of each participating team in it.

Qin Yuan roughly glanced at it. He didn't understand it very well, because he didn't know very well about medical treatment, especially who it was.

Hu Jun pointed to the medical team of Country A, "The leader of their team is called Hals. This guy is a medical genius. According to legend, his techniques are extremely tight, and he can do even the most difficult operations, especially for the in the field of surgery."

It turned out to be the case, Qin Yuan said that there is no problem at all, he has reached the top in Chinese medicine, such as acupuncture, and surgery is not a problem.

Qin Yuan is more curious about how their competition will be conducted this time. After all, in terms of medical treatment, it must be aimed at patients, so that the actual level of medical treatment can be better reflected.

Hu Jun said that they have participated in this kind of competition many times. Basically, they found some strange cases from all over the world, and then everyone conducted research together.

This medical competition is better for some patients. After all, medical experts from all over the world gather together, especially their military medical treatment. In the past two years, military medical treatment has been paid more and more attention.

So this is also very important to be strict, because military medical care is also a part of considering military literacy, showing the country's military capabilities.

"Captain Hu, then there is no problem. I will take you with me later. Don't worry, there will be absolutely no problem."

"I'm relieved to have your words. I have seen it today, Captain Qin. It seems that I have to change my words. I think you are really a miracle doctor."

"That's not necessary, you can call it whatever you want, besides, the relationship between me and Qingmei is there."

Hu Jun said with a face that he understands expressions, and now they only need to prepare some medical materials, and they only need to prepare some basic ones, after all, the organizers will provide them.

A week later, it was time for departure. All countries still attach great importance to medical treatment. There are special helicopters to pick them up, and there are buses after arriving at the destination.

It can be said that this time is a war without gunpowder, because all countries are competing. This time they are held in a stadium in country c, and the stadium on their side is very large.

There are a total of 14 countries participating in the competition this time. These medical teams have participated in large and small competitions, and they are all talents in the military forces of various countries.

Hu Jun pointed to the medical team in the United States and introduced, "Their medical team is still very good this time. After all, their medical level is currently at the top in the world. Basically, they have won the championship every time."

"Then after you participate in this kind of competition, what is the general ranking?"

Hu Jun smiled wryly, "We participated in this kind of competition relatively late. Basically, it can be said that every time we can enter the top six, it is considered relatively good."

Qin Yuan got a general idea, and then said calmly, "This time we are sure about the championship."

I didn't expect this to be heard by the people in country a. A man said with a look of contempt: "It seems that some people really know how to joke. This hasn't even started yet. How come they heard jokes?"

There was a burst of laughter from behind, Qin Yuan and the others turned their heads, only to see that Hols came up with the team, it seemed that this guy was very confident in them, and Qin Yuan noticed that the few people behind them were all behind their backs. Various instruments.

It's just that they seem to have brought medical equipment from various countries, which is embarrassing. Hu Jun also felt a little strange, so he hurried to inquire about the situation with the person in charge.

Because they really didn't bring anything here, Hu Jun ran over sweating profusely after a while, his expression was a little embarrassed.

"It's embarrassing now. It seems that there is a problem with our information connection. I didn't expect people from all over the world to bring their own developed machines."

Mu Qingmei also felt a little strange beside her, "Captain, what do you say?"

Hu Jun explained, taking country A as an example, this time they brought a newly developed treatment device, which can perform electric shock treatment specifically for cerebral palsy, and there are other blood purification devices, all kinds of them are theirs. Newly developed medical instruments.

Basically every country has them, because this time the organizer will not provide any medical assistance, basically relying on themselves, so all countries bring all of them, excluding some large-scale inspection equipment, such as CT, ECG and so on, but other things will not be responsible here.

Mu Qingmei frowned, this is troublesome, "If this is the case, then we have nothing to do, we just brought some basic medicines, if there are some difficult and miscellaneous diseases, there is no treatment at all, they can all come with healing equipment."

This is where Hu Jun felt embarrassed. This time it was over. They had a problem with handing over the information before, so they had to call and communicate with the domestic side to see if they could send it over.

Qin Yuan shook his head, when did the machine arrive? Besides, why do we have to rely on the treatment instrument, it is a living instrument.

"Captain Qin is already at this time, so stop joking. Although I know you are very good, some things still need basic therapeutic equipment. We didn't even bring an electrotherapy equipment."

"Don't worry, I said no problem, absolutely no problem."

And even if they go to notify to bring the machine over now, the competition has already started, there is no way to do it temporarily, and it will make others laugh.

At this time, the person in charge has already urged them to go on stage, because each medical team needs to be introduced, and you can see that the introductions of other medical teams are very long, because they are all showing various instruments and medicines developed by their own country.

Changing to Qin Yuan's side was even more miserable. There was nothing to introduce, and everyone in the audience was very curious. What are they here for? Did you really participate in the competition?

Most of the people in the audience were looking at the elders and felt that they would definitely win the game this time. In an instant, the people in the team were not in a good mood. I thought that even the equipment was not fully prepared.

At this time, people from the organizer came to communicate, because they felt that they did not bring any equipment, and they would definitely not be able to complete the treatment by then, so they decided to disqualify them from the competition.

After all, they have to consider the overall situation, and the number of places here is limited. If Qin Yuan and the others go out, the places can be given up to other people, so the organizer must want to let them go out as soon as possible.

Although Hu Jun is the team leader, he mainly focuses on medical treatment after all, and he is not very good at communication. In the end, it was Qin Yuan who came out and said that he would communicate with the organizer.

In this gap, Hu Jun sighed helplessly. He didn't expect to encounter such a big problem before it started this time. It was really negligent.

"I think this time, not to mention being able to get the ranking, as long as Captain Qin can negotiate, it will be very difficult for us to barely compete."

"Everyone, don't be so dejected. We should trust Qin Yuan. After all, I found him this time, so I completely trust him. I've heard a lot about him before. How many people he saved at that time did not have any equipment. Under the circumstances."

After what Mu Qingmei said, everyone managed to cheer up. At this time, Qin Yuan also came over and said that there was no problem. The organizer agreed to their participation, but they would probably be put on small shoes.

Because this time, Yuan Guo, who was on the side, was not able to sign up because of the limited number of places. This time, if Qin Yuan and the others quit, they could go up, but Qin Yuan did not agree.

So it is estimated that something will happen later, but Qin Yuan is not afraid, no matter what problems they have, he can solve them easily.

After the organizer arranged accommodation for everyone, the competition officially started on the second day. Some cases will be arranged for them, and then each medical team will make its own plan for these cases.

And the most fair way for these cases and which medical team to face is to draw lots.

The lottery really depends on luck. Sometimes the cases drawn are not what they are particularly good at, so it will be more troublesome. Hu Jun originally wanted to discuss with Qin Yuan, but when he turned his head, he saw that the person had fallen asleep. Nothing more to say.

The next morning, everyone was very uneasy, but Qin Yuan was very relaxed and didn't feel anything. He was used to the scenes of strong winds and waves.

All medical teams have made preparations, and the stadium is divided into 14 areas, and each medical team occupies an area as their diagnosis and treatment area.

There are also medical representatives sent by several countries on the side, mainly to rate their treatment. In fact, the whole process is not important, the most important thing is the result.

This is why they need to stay here for a whole month, or even longer than this, because these intractable diseases certainly cannot be said to be effective on the spot, at least they need to be observed for a period of time.

When drawing lots, Mu Qingmei went up, and she kept thinking in her heart, hoping to get a better case so that they wouldn't be so troublesome.

But the more they were afraid, the more they got the first case, which turned out to be a bedridden vegetative caused by severe brain trauma.

Mu Qingmei turned her head in surprise, only to see that the master behind her was earnestly signaling that they should have planned it before, otherwise how could it be so exaggerated? The audience is even more entertaining.

How is this condition treated? Her mood fell to the bottom in an instant. When she stepped off the stage, she looked at Qin Yuan, "I'm sorry, I didn't expect that I would win this..."

"There's nothing I'm sorry about, it's okay, I'll treat whatever revolt you draw."

Hearing Qin Yuan's gentle comfort, Mu Qingmei's heart felt warm, but what they were about to face next was a vegetative person, what should they do?

Soon this person was pushed in front of them, and Hu Jun also stepped forward to check it. He took out the flashlight to test the Tongkong reaction, but there was a slight reaction. The heartbeat and blood pressure were considered normal. Without oxygen and all kinds of monitors nearby, he would die on the spot.

Because this person didn't even breathe on his own, he was relying on the ventilator next to him. The organizer came over and started to introduce the specific situation of this person. This person was directly hit in the brainstem by a bullet on the battlefield. Damaged brain tissue.

Hu Jun was a little unhappy, "I think it's very unfair. Why are you able to push such a person over? You clearly know that this cannot be saved at all."

"Oh, then what else do we need you to do? Medical teams from various countries came to this place to discuss that this is just a competition, and no one is forcing you to treat it. If it can't be cured, then you can choose to give up."

This guy completely blocked the road. Qin Yuan looked at that guy with contemptuous eyes, because even they knew that they couldn't be saved.

"Well, let me make a bet with you, do you all think this person is hopeless?"

"Needless to say, it can only be said that you are unlucky if you even draw such a person."

"If I really heal him and let him return to a normal life, what do you say?"

Before the person in charge spoke, Hals from country a next to him said directly: "This is absolutely impossible, young man, you haven't seen through what's inside, but if you can really cure him, as long as you can Let him wake up. One of our blood purification machines can be given to you for free."

Qin Yuan was a little disdainful, he didn't need that broken machine, but Hu Jun next to him was full of eyes.

Hu Jun stood beside him. It turns out that this machine is very valuable. The cost of this kind of blood purification equipment is about 5 million in China. The main reason is that the internal equipment is very precise, and many parts need to be manufactured outside. , but this instrument is really life-saving for many patients.

I didn't expect that thing to be so valuable. Since this is the case, this bet is made on Qin Yuan, and he just brought something back, and whoever wants it for free, Hals thought it was impossible, so he just said it casually.

Chapter 1617: Treatment of vegetative

Although Hu Jun was very excited, on second thought, this is basically impossible. It is impossible to wake up a vegetative person on the spot, and this person has been in a coma for five years.

He picked up the case report next to him and kept looking at it. In the past five years, he had no ups and downs, and everything was assisted by various medical instruments.

The people around also heard their bet, and they all looked at this side curiously. The medical team in the United States was even more disdainful. They thought the vegetative state was a joke?

At this moment, Qin Yuan pretended to be mysterious, took out the silver needles and began to slowly spread them on the table. He just wanted to prove to these people and see their traditional medical skills.

Even Hu Jun was a little surprised, "Captain Qin, you are planning to use Yingzheng's method. I know that traditional Chinese medicine may be useful, but won't it be too difficult to wake him up immediately?"

"I definitely won't let him wake up immediately, I want him to wake up completely, so that he can walk and jump when he gets up."

Seeing Qin Yuan's persistence, Hu Jun couldn't say anything more, don't lose the chain in front of so many people.

Now after all, they are the ones who boasted about Haikou. In fact, if they didn't say anything before, even if the treatment failed, no one would say anything. It's just that their ranking is relatively low. After all, this is the first game. If the first game is lost It doesn't matter.

But now that Qin Yuan has said this, it has attracted the attention of countless people. Everyone knows what the situation is, but they will still be laughed at.

Qin Yuan was not in a hurry, and started from the beginning with a silver needle. Hols burst out laughing when he saw it, because in his opinion, this was simply nonsense, a person in an unconscious state, even using these tricks In his opinion, these things are crooked ways, and the machines they researched are orthodox scientific research.

However, he couldn't laugh anymore in the next second. As Qin Yuan's silver needle went down to the shoulder step by step, the vegetative person opened his eyes.

Not only that, he also spoke, "I...I can... move..."

It was just because he hadn't spoken for a long time, so he had to reorganize his language system, and what he said was a little unclear. Qin Yuan told him not to worry, and he should be able to speak smoothly after all the silver needles were pierced.

At this moment, everyone became uneasy, and even Hals came over to watch. This was too exaggerated. In just a few minutes, a five-year-old vegetable who had been in a coma spoke.

Soon the silver needle had reached the calf, and this person was able to communicate with them smoothly. Hu Jun asked him his name and family information, and he answered everything fluently.

Unable to see the previous state at all, Hals was stunned. This couldn't be too exaggerated. He stepped forward and took the person's case, and began to examine it carefully.

"How the **** is this done? Is there something wrong with this person's case?"

But even the person in charge came over, and he said that there is absolutely no problem, all the cases of this person are on their side, and the real situation of the hospital has just been transferred.

And during the transportation, they were all worried whether the person would die due to the replacement of the machine, because the person's breathing needed to be assisted by the machine at that time.

In this short period of time, this person was not only able to speak, but also very fluently. There was no problem with his brain. After Qin Yuan finished piercing it, he removed all the silver needles and signaled him to stand up.

Even the soldier himself couldn't believe it, it was Mu Qingmei who stepped forward to support him, it was the first time he fell to the ground, and he finally stood up in the past five years.

The soldier shed tears of excitement. He felt like he had been having a long dream for so many years. Even the doctor who followed him ran over. Everyone thought it was a miracle.

The person in charge who was still mocking Qin Yuan just now lost his composure for a moment. This is really too exaggerated, while Qin Yuan walked up to Hals calmly, "See now, I never say anything. What a lie, I said that if I can make him stand up, he will definitely be able to do anything? The instrument you promised us just now should also be fulfilled."

Hals's face was full of excitement. He said that everything was a small problem, and he really wanted to know how it was done.

"It's really amazing! I've never seen a treatment like this, what the **** is this?"

"Cut, you haven't seen too many, which means you have no experience, you know? This is the traditional medical technique of our Yan country!"

Qin Yuan didn't give face at all when he said this, and the medical team next to him felt a little embarrassed, but Hoss didn't mind at all, because he knew that this was the real powerful expert, who didn't rely on any equipment, just relying on the silver in his hand Needle.

Although Halls didn't care about the instrument, his team felt distressed for a while. The cost was really high, and he didn't expect to lose an instrument in a bet.

At this moment, the audience can say that Qin Yuan and his team have experienced a miracle. Obviously, the results have already been born here. After all, the other medical teams have not improved.

Originally, medical diagnosis and treatment like this was very boring. After all, it took a long time. They needed to take medicine first, and then see the patient's reaction. They didn't expect to have obvious results in such a short time.

Even the referees who were in charge of scoring ran over one after another. After some research, the vegetative person who had been sleeping for five years had completely recovered. However, some people in the crowd questioned it. After all, this is impossible.

A few people from the opposite Dongguo came over. They studied this soldier for a while, and they seemed to have no problem, but today Qin Yuan and the others all scored very well, obviously the first place.

"I think there's something wrong with this matter. Let's talk about this person's condition first. It's impossible to wake up in a short time. First of all, wake up. Whether you can get out of bed and walk is a problem. How can you do it today?"

"Yes, I think this person must be normal. Did you guys collude with the backstage?"

Qin Yuan knew that there would be doubts. He blamed this person's medical records and asked loudly: "Then did I forge these medical records too? For five years, I have to do things for so many years. Besides, I How do you know that this person will definitely be drawn by me?"

The person on the other side couldn't refute what he said for a while, it seems to be such a truth, but everyone still feels a little unconvinced, it's too easy!

Dongguo's medical team on the opposite side even threatened to rematch, because someone was going to be eliminated in the first match. Now that the number one spot has been released, it will only become more and more difficult in the future, so he thinks this is very unfair, because it is impossible to encounter such a thing, and it is impossible for a miracle to happen just like that in medicine.

Seeing that the person opposite was not convinced, Qin Yuan stepped forward and patted him on the shoulder, motioning him to sit on the chair.

The man still didn't know what Qin Yuan was going to do. He only saw Qin Yuan take out a silver needle, and the speed was so fast that the man didn't even realize it, so he stabbed it directly at his neck.

In an instant, the man who was still sitting on the chair twitched. He couldn't control his left hand and right foot, and just fell to the ground like that. He was paralyzed on the spot.

What is this doing? For a moment, even the security guard on the opposite side ran over in alarm, and their team members hurried over to check the situation. The corner of the man's mouth was drooling, and he couldn't speak clearly, faltering.

"You! What are you doing? You actually attacked our captain."

"Didn't you see it? He is the murderer. He stabbed our captain with that needle just now. Now that this is happening, why don't you stop it?"

Seeing more and more people around, no one expected this to happen, Hu Jun was so anxious that he was sweating profusely. Why didn't Qin Yuan discuss things with them?

Qin Yuan asked them to calm down a bit, then squatted down, and pricked the other acupoints in the same way again, the man stopped convulsing instantly, and stood up from the ground again.

The man who was completely hemiplegic was drawn out just now, and now he is intact as before. This scene completely shocked everyone present. If the vegetative person was just an accident, how can this be explained?

Everyone has to sigh, the traditional medical treatment of Yan Kingdom is too miraculous, it has the effect of bringing the dead back to life. The man looked at Qin Yuan in horror. He didn't want to feel the feeling just now in his life.

"I can paralyze you in an instant, and I can also restore you in an instant. This is the magic of our traditional medical treatment. Remember, I don't believe in miracles, I only believe in abilities."

After this little episode, no one said anything more, everyone went back silently to prepare the disease in their hands, Hu Jun laughed happily, got respect again, and got such an instrument .

It's really not a loss, Halls also respects Qin Yuan's attitude very much, and immediately asked his team to prepare the equipment and present it to them.

They passed by those medical teams along the way. Qin Yuan looked at the patients in front of him. Basically, they were all kinds of intractable diseases, which were really complicated.

Although he has the ability to recover and has a strong medical level, there is no need to waste too much energy, because they have completed their goals ahead of schedule, so they have already returned to the room to rest. After a while, Mu Qingmei came to the room .

Qin Yuan pulled the person who came over and pulled her into his arms, "What? Did you come to me so impatiently?"

"You are not serious, I came to talk to you about something."

"Okay, then tell me, there's no need to talk to me, I'll listen to whatever you say."

Mu Qingmei's face was a little red. It turned out that he wanted Qin Yuan to treat those patients with intractable diseases in the gymnasium, but just as she said it, Qin Yuan knew that this was not what she meant, it should be someone else who asked her to come of.

Sure enough, Mu Qingmei said that this was what Hu Jun meant, Qin Yuan smiled, "I know Captain Hu has good intentions, but do you know what will happen if you are too conspicuous? Too high-profile, and you will find trouble in the future We, I just did a small demonstration just now."

Qin Yuan didn't intend to make a move. In other words, he didn't want to offend everyone. Maybe Hu Jun really had good intentions. As a doctor, his first thought was to save patients, but he didn't realize how complicated this person's heart is, just like Today's vegetative state was specially arranged by someone.

He vaguely felt that things would not be so simple, so he focused on their matchmaking this time. How could there be a handover error in this kind of international competition? It must be that these people have not been notified in place, which shows that someone is deliberately targeting them.

So what they have to do now is to hide some of their strength, and they shouldn't expose everything, otherwise they won't be able to deal with any problems in the future.

Mu Qingmei also thought it made sense, but before she went back to report a phone call came, it was another person in the medical team.

"Sister Mei, come here quickly, something happened to the captain!"

After hanging up the phone, Qin Yuan and Mu Qingmei ran out quickly. After they came out, they saw all the security personnel running towards the gymnasium. Qin Yuan didn't dare to delay any longer. When they came to the gymnasium, only saw a circle of people in the southeast corner. A crying man saw Mu Qingmei coming, and hurriedly pulled her, "Sister Mei, you are finally here."

Qin Yuan looked down, only to see Hu Jun covered in blood lying in a pool of blood, and the team members next to him were bandaging him, but his condition was very bad, with at least three stab wounds on his body.

This happened so suddenly, Qin Yuan didn't think much about it, and hurriedly treated him to stop the bleeding. Fortunately, Qin Yuan came in time, because the wound on Hu Jun's body was too deep, hurting the main artery, and the blood kept gushing out. .

Qin Yuan stopped the bleeding in an instant, and after a while Hu Jun also slowly woke up. Qin Yuan glanced at the crowd, only to see two people leaving in a panic.

"What the **** is going on?"

Mu Qingmei was very anxious, and hurried forward to inquire. Hu Jun looked pained now, and he shook his head. Qin Yuan knew that it should be difficult to talk here, so he took him back first.

Unexpectedly, the person in charge came to stop them at this time. They said that Hu Jun was seriously injured and suggested sending him to their hospital for treatment, but Qin Yuan refused without thinking. He was afraid that the wound would not heal. ?

Moreover, Hu Jun has almost recovered to be honest, but in front of outsiders, he still has to act as he should. The members of the medical team don't understand what he is going to do. He is seriously injured, so he really doesn't need to go to the hospital?

But after returning to the place where they lived, they saw Hu Jun jumping off Qin Yuan's back without any signs of discomfort, and the wound on his body had already healed.

Hu Jun cupped his hands to express his gratitude. He knew that it was all thanks to Qin Yuan. He couldn't even breathe smoothly just now. Although he didn't know how he did it, this man was really strong.

Chapter 1618: medical team accident

Everyone was very surprised seeing this scene, but Mu Qingmei didn't say anything, she had seen it once before, and only knew that Qin Yuan's medical skills were very miraculous and had the effect of bringing the dead back to life.

It's just that this is not the point now, Qin Yuan shook his head, and hurriedly asked what happened just now.

Only then did Hu Jun talk about what happened just now. It turned out that they had already returned, but the gymnasium staff wanted them to help. There was a strange patient in country A, and his illness was very special, so I thought Have them go over there together and do research.

Originally, they had just accepted the gift from others. Although they were willing to gamble and admit defeat, what they promised to give, Hu Jun felt a little bit sorry.

He originally wanted to call Qin Yuan, but thinking that Mu Qingmei and Qin Yuan would not bother them if they stayed together, he might as well go and have a look by himself first, just like that, he brought some members of the medical team to the gymnasium , I didn't expect that it was not the patient from country A, but the patient from the country of America.

Anyway, it's the same on both sides, and the American side is also very enthusiastic, asking them to come over to help quickly, which is completely different from the previous attitude, which makes Hu Jun feel somewhat proud, and their Yan country is at least favored in the medical field. .

It's just that their patient is really strange, because he was severely injured on the battlefield and left post-war irritation syndrome. When he didn't get sick, he was just like a normal person, but once he got sick, his whole body would convulse and lose his ability to move.

Looking at the introduction of the disease, Hu Jun said that it was the first time he saw it, because he knew that post-war stress trauma was basically a psychological problem, which generally would not be attributed to their substantive cases, and generally required a psychiatrist to do it. Interfering.

But it was classified to this side. It seems that this person should have some substantive problems. Hu Jun glanced at it from a distance at that time. The person was taller and looked quite normal. He sat quietly. On the chair opposite.

It's just that at this time, members of the medical team in the United States asked a question. They asked why the person who gave the silver needle just now didn't come? Hu Jun didn't think much about it at the time. After all, he felt that he might be worried that his medical skills were not enough. Thinking of this, he was even more suffocated.

Although he knew that Qin Yuan was very powerful, he was a doctor who had practiced medicine for so many years, so he should have some confidence in himself.

And in front of so many people, saying this would not give himself face, he bit the bullet and took it, saying that he would check the situation first, but the person opposite didn't say anything, and asked him to go forward and check first.

Just as Hu Jun stepped forward to check, when he touched the man, the man suddenly stood up from the chair, then took out a knife, and stabbed Hu Jun desperately.

This scene stunned the people around, and everyone rushed to Qian, trying to stop the assailant, but the man was too strong, there was no way, and the team members beside him were already crying.

"I've been trying my best to go to Captain Rahu, but that man's strength is too great, and I, a girl, can't hold him at all."

Qin Yuan was a little strange when he heard this, turned his head and asked, "You are the only ones, I remember there were security personnel and their medical team?"

"But the situation was too chaotic, and I didn't pay attention. Now that I think about it, it seems that they didn't step forward at all."

After hearing this, Qin Yuan felt that this was probably a conspiracy, and it was so tricky that he originally wanted to target himself, but seeing that he didn't go here, he thought of using this extreme method.

It seems that it is not good to start too high-profile. This place is really an invisible battlefield. If some of their training games are like usual, there can be an actual contest, but in this case, there is too much darkness.

"Everyone has already shown their swords. I can't refuse to accept the move. Let's go. I'll go and see who it is."

"Captain Qin, do we still have to go there now? That place must be very dangerous, what if something goes wrong when we go there?"

Qin Yuan reassured the team member that he was also the captain of the special warfare brigade after all, so he was afraid that they would fail? He went this time to investigate the truth of the matter, and he wanted to see how it was handled over there?

At this moment, there was a knock on the door, Qin Yuan told everyone not to move, he stood up and opened the door.

The person who came over was the person in charge of the gymnasium, and this guy also brought a few people in clothes with worried faces, "Please captain, I am really sorry for what happened, I brought an excellent medical team specially for For safety's sake, let's go to the hospital together for further treatment."

"Thank you for your concern, this is unnecessary, we will handle our affairs ourselves."

But the person in charge was very persistent. Qin Yuan had clearly rejected him, but this guy forced his way in. Qin Yuan stepped in front of him. It didn't look like this guy was saving people, but he came down to investigate the situation.

Qin Yuan quickly made a gesture behind his back, and Hu Jun on the opposite side immediately understood when he saw it, and quickly lay down on the bed.

Several medical staff behind the person in charge also swarmed in. They said they wanted to check the situation.

"I'm sorry, you are really not welcome here. I will take responsibility for anything that happens, and I won't go to you. We will treat our people ourselves."

The person in charge roughly looked at the situation, and seemed to have made a decision, then he nodded without insisting before and left with a few perfunctory words.

Mu Qingmei stepped forward, frowned and said, "What do these guys mean? Wasn't his attitude very positive just now? He also wanted to send him to the hospital, why did he get dismissed with just these two sentences?"

"So their real purpose is not this at all. They just came to confirm. It seems that there is really something behind this. I don't know who is going to target us."

When Qin Yuan said this, he suddenly thought of something. He asked what the reward for winning the championship this time was, was it for this reward?

Mu Qingmei explained next to her that as long as she wins the medical competition this time, she can get a medical field vehicle accompanying the army. This medical field vehicle is very expensive and very useful, and can be used as a temporary operating room during the march.

Moreover, this military medical field vehicle can still be used amphibiously. At present, this prize is provided by country d. This is the biggest reward. In addition, there are some relatively advanced medical equipment, all of which are not expensive. Fei.

Therefore, in order to enter this medical competition, it can be said that everyone has put in a lot of effort. They are all military medical talents from various countries.

Hearing this, Qin Yuan understood. No wonder some people targeted them everywhere, because some people were in a hurry. Seeing that they had already won the first game, they could only use some despicable methods to prevent them from continuing to participate in the competition. .

So now he wants to give these people a false impression that Hu Jun is still seriously injured, which can be regarded as letting them relax their vigilance, otherwise it will be difficult for him to start.

What I'm afraid of is that these come from behind the scenes, because no one knows who is responsible, so Qin Yuan wants to investigate clearly.

Mu Qingmei also felt that the matter was serious when she heard this, and wanted to go with her, but Qin Yuan asked her to stay, "Do you remember the self-defense technique I taught you before? It may be useful at critical moments, remember not to let Anyone who comes in be alert."

Among these medical staff, it is true that only Mu Qingmei has the ability to come out to protect everyone. Although the situation is not as serious as Qin Yuan said, everything is to prevent problems before they happen.

After Qin Yuan came out, he went directly to the gymnasium. At this time, several medical teams in the gymnasium had opened a certain distance, and the security had also been increased.

From the moment they start receiving patients, they have to stay inside the gym all the time. On the one hand, it is for better supervision, and then they have to record their medication at any time, so as to ensure fairness. The referees next to them have always been Scoring.

The main thing is to look at the recovery process, and whether the instruments and drugs they developed are really useful.

The person in charge of the gymnasium was a little surprised to see Qin Yuan coming over, and wanted to come forward to say a few words of concern, but Qin Yuan didn't give him this chance at all, and asked directly, "Where is the person who hurt someone just now? "

"We are really sorry for what happened to Mr. Qin. In order to protect the safety of the people around him, that person has been transferred away. He belongs to post-war traumatic stress, so I hope you can understand this situation."

"Oh, traumatic stress after the war? I've never heard of someone killing a doctor in an emergency. Basically, something on the scene stimulated him. This situation is different from what I know."

The face of the person in charge changed slightly, but he quickly adjusted, "After all, these diseases are diverse, and we don't know exactly what they are, but don't worry, our people are actively investigating and will definitely give There will be a result."

"Don't worry, I'm not here to investigate the results. Since I'm a patient, it's understandable. I just want to see what's going on. Maybe I can treat him."

The person in charge originally wanted to refuse, but Qin Yuan's attitude was very tough. He had to see the patient no matter what. In the end, the person in charge had no choice but to take him to another room.

The person in charge said that the patient had been brought under control and was temporarily locked up in this room. Qin Yuan looked at it and said it was locked up without even a guard, which was really funny. If it wasn't intentional, it couldn't be justified.

The person in charge opened the door and told Qin Yuan to be careful. Although that person is under control now, his mood is still very manic.

"Oh, by the way, I forgot to introduce to you. Apart from being the doctor of the accompanying medical team this time and the captain of the Special Operations Brigade, I don't know if you have heard of it."

When Qin Yuan said this, he noticed that the guy's face changed instantly. This was to remind him that they had better not mess around. After entering the room, Qin Yuan saw their so-called control.

The man just sat on the chair calmly, as if nothing happened, and even had some tea and snacks in front of him.

Qin Yuan clenched his fists tightly. If he didn't come along this time, wouldn't it mean that they would suffer a big loss, and a life would be lost in a foreign country for nothing.

The person on the chair didn't panic at all, and raised his head to look at Qin Yuan, "Why are you here to ask for trouble? I've said it many times. In that situation, I couldn't control my emotions, so I regarded him as the enemy."

"But I looked at your medical records. There was no murder in any case. It just said that there was a riot, and the only restlessness was in the face of a person in uniform."

The man on the opposite side looked indifferent, "Then how do I know that my disease is not something I can control, and it happened at that time, what can I do?"

"Forget it, I'm not here to argue with you. Didn't you say that you are sick? Then I'll treat you."

The person in charge originally wanted to stop it but was completely frightened by Qin Yuan's aura, and soon there was a scream in the room. Five minutes later, Qin Yuan walked out of the room. When he came out, the face of the person in charge beside him was already pale with fright.

"This is just my first treatment for him. Of course, I will come back for a second time tomorrow. After all, aren't we going to treat the sick and save the sick?"

The person in charge took out a handkerchief and wiped the cold sweat on his forehead, and nodded beside him, not daring to make any rebuttals, and he let out a long sigh of relief until Qin Yuan left him, scaring even the two security guards following him. I dare not say anything more.

Because the people inside couldn't speak at all, Qin Yuan also used the excuse of treatment. Not only was he unable to speak, but he also suffered from incontinence. To put it bluntly, he was a useless person.

At first, Qin Yuan thought that these people would at least find a patient. If he was really a patient, then it would be fine, but when Qin Yuan came into contact with him, he knew that he was a puppet.

If this is the case, then there is no need to be soft-hearted, just do it directly, after all, he has never been soft-hearted to his own people.

Qin Yuan came out of the gymnasium and looked at the two people who were in the crowd just now. They were really suspicious, but because the scene was chaotic, he wanted to focus on Hu Jun.

I just don't know which country came to participate in the competition this time, but today's method is enough to deter most people. After returning, Mu Qingmei was relieved to see Qin Yuan came back safely.

Nothing happened on their side until the evening, but they heard another thing, that there was food poisoning in Yuanguo's medical team.

Everyone eats the same food at night, and the food for the medical team is served in the lobby on the first floor in the form of a buffet.

Chapter 1619: real purpose

The accidents happened one after another, and the matter was not that simple. The person in charge even came to apologize personally, and promised everyone that such a situation would never happen in the future.

In the evening, Mu Qingmei went out to investigate. She mainly inquired about the surrounding situation. After she came back, she shared a news with everyone. A doctor who was poisoned in Yuanguo had died, and that doctor was their team leader. .

A younger doctor in the team stood up a little aggrieved, "This is too much, they even stretched out their hands here, you know how difficult it is to train a doctor, first there is a problem on our side , now it's Yuan Kingdom again, what are they going to do?"

Qin Yuan was sitting on the sofa playing with the pen in his hand, and after a while he said: "We just need to do our own thing well, and as far as I know, this Yuan Kingdom was the last to join in, and their registration The qualification was originally cancelled, and the matter here seems to be not that simple, everyone should be careful."

The main reason is that the prizes involved this time are really so attractive? In fact, it is not too difficult for most countries.

In this way, the game is still going on, but Qin Yuan and the others have already completed it. The other teams have not even finished contacting patients in the first stage, so Qin Yuan and the others can only wait until all the progress of everyone is over and the scores are given. The ranking will be divided into the second stage.

In this way, a week passed, and the results of other teams came out one after another. The patients treated by them improved more or less, some recovered, and some were ineffective, and they were scored according to the degree of medication.

Qin Yuan was not idle during this week, he mainly went to investigate the specific situation of the person in charge behind this. Logically speaking, this was originally an international competition, but this time it was specially organized by country c.

To receive so many people and to create such a big scene, Country C has spent a lot of effort this time. Will they do such a cheap thing?

Qin Yuan was also a bit puzzled, but it was indeed different from what he said before. Just let everyone pay more attention. Soon the second stage of the competition began, and it was still the same as last time. This time, for the sake of fairness , the draw boxes are all transparent.

The patient they selected this time was a soldier who was deeply persecuted by bacterial weapons, and he was quite old. This person had been suffering from illness for ten years.

When this person was sent over, his whole body was covered tightly, only a pair of eyes were exposed, and the age written on the medical record should be 20 years old.

But judging from his various organs, this person's organs are at least forty or fifty years old, which is completely aging. This is the power of bacterial weapons, which can quickly corrode and attack human organs and internal organs.

According to the case report, this person's skin cannot be exposed to the sun for a long time, so it is packed tightly when it is brought in from the outside. There is no big problem under the light for a while, but if it is exposed to the air for a long time There will also be problems.

Hu Jun was very curious about this kind of medical record. He asked the person on the bed to stretch out his hand. When that hand was stretched out, everyone around him gasped. It didn't look like a 20-year-old with the skin on his hand tightly wrapped around it. On the arm, the skin is as thin as a stick, and the skin looks wrinkled and very old.

Someone in the medical team suggested that they could use the instrument they had acquired through a bet to perform blood replacement on him. The doctor who had been in charge of the man shook his head. They had tried all these methods.

"It's written very clearly in the medical records, hemodialysis, and we even changed a fresh lung for him alone, but it didn't work at all. As long as anything is replaced in his body, it will be corroded soon, even though it has been It's been so many years, but the bacteria in his body are still proliferating."

This sounded really scary, and Mu Qingmei couldn't help but take a few steps back, this was a bacterial weapon, and the people around who sent him here were all wearing protective clothing.

After such a long time, the person in charge slowly delivered some sets of protective clothing for them to put on temporarily. Qin Yuan only felt that it was an afterthought. This seemed to be intentional, as if he was testing them.

Hu Jun and the others went to change their protective clothing, but Qin Yuan was unmoved. The man on the bed looked surprised. This man was not afraid of his bite. He knew that all the clothes and people who had come into contact with him over the years were wrapped in the same color and seam.

After all, Qin Yuan has the title of being invulnerable to all poisons. In fact, it is very simple to save this man. Qin Yuan can use the silver needle to completely eliminate the bacteria in his body, and then use the recovery ability to repair his internal organs.

He looked around, told the people next to him to back away, and then brought a sealed glass jar, intending to expel those bacteria into the glass jar first, this is only temporary, in order to avoid leakage of bacteria like this, The best way is to use high-pressure tanks for storage.

But this is not my own business, and I can leave it to other people to take responsibility. When Hu Jun and the others came back after changing their clothes, they saw that the man on the boat had stood up, and all the things covering his body had been pulled down. .

His complexion has almost returned to normal, and he looks much healthier than before, but he is still relatively thin, even the doctor who has been taking care of him for ten years can't believe it.

The doctor next to him hurriedly took blood for a test. He didn't expect the bacteria in his body to reach the normal value. This is too exaggerated. He was in a vegetable state before. This time, a soldier who was persecuted by the bacterial weapon was rescued by him. come over.

The medical team next to him became uneasy, and came to watch. If it was a coincidence before, what is it this time? This is a real miracle doctor.

After repeated inspections, they found that the man had indeed returned to normal, but because he had been abused for a long time over the years, he was a little malnourished.

There was an instant burst of enthusiasm in the entire gymnasium. As a medical team, everyone was in a competitive relationship, but it was incredible to see such a miracle happen.

The medical team in Xiaomao country didn't even care about this side at first, but they came over after seeing this kind of feat. Their team leader was a gray-haired old man, who didn't care about the people around him, and was deeply moved. He bowed and wanted to ask Qin Yuan for his advice.

Qin Yuan frowned, "I'm sorry, this is from my ancestors, and it will never be passed on."

Seeing Qin Yuan's indifferent attitude, the other party couldn't force him any more, and he would rather not have much affection for these people. The reason why they were so excited was that they were doing this kind of experiment many years ago, but their experiment will last forever. There is no solution.

As expected, this time Qin Yuan and the others still won the first place in the second stage, and they were the first to complete the competition.

With this time, the other teams are no longer unconvinced. After all, this thing can be regarded as a world problem, and it has been overcome.

After Qin Yuan went back, he was very calm and fell asleep. Hu Jun was beside him with a curious expression on his face. How did this person do it? Could it be possible to overcome this problem with a mere silver needle?

After finally waiting for him to wake up, just as he got up and came to the living room, he saw that everyone was looking at him expectantly, including Mu Qingmei who was looking for knowledge.

"What are you doing?"

"Come here, sit down, and tell us how you did it. You know that no one has been able to solve this problem until now."

Qin Yuan felt dizzy for a while. He was showing off too much just now, and he didn't think about this problem at all. That's right, no one can solve this problem. What can he say?

After thinking about it for a long time, he could only hem and haw the end, maybe he was lucky, he had received so many years of treatment before, and he used silver needles to expel the bacteria in his body, so there was no problem.

He felt that what he said was euphemistic enough, but he didn't expect Hu Junnian to look at him adoringly, "I really didn't expect our Chinese medicine to be so miraculous, it can really expel toxins like martial arts novels."

"Ahem... In theory, this is possible, but my acupuncture method is quite special and a bit complicated, so it may be useful."

This is embarrassing, Qin Yuan can only explain it vaguely, anyway, he is talking nonsense, everyone is eager to know how to do it, Qin Yuan dragged a lot of acupuncture points, and put their heads on It's all blown up.

After talking for a long time, these guys gave up. Anyway, Qin Yuan was just talking nonsense. In the end, it can only be said that Qin Yuan had better luck. He happened to meet this person, and the treatment took a long time. When it was his turn, he Solved it with silver needles.

After a few more days like this, until the end of the third round, Qin Yuan and the others were always ranked first. It can be said that they are the champions this time. Originally, Qin Yuan was always on guard, always worried that something would happen. Something, I didn't expect that there would be no surprises when the final prizes were awarded.

The prize was so easily obtained, and the organizer was very generous, and directly transported these instruments back with a special plane.

Qin Yuan didn't expect this. He thought that there might be some problems with the equipment they were carrying on the way. If so, it doesn't exist.

Moreover, Qin Yuan learned that all these prizes were actually provided by country c, so it can be said that they really did a bloodletting this time, because of the chip before, so Qin Yuan was still very wary of them.

On the night of winning the championship, they even held a special press conference, which can be regarded as the international recognition of their medical treatment, and it is another pinnacle of military medical treatment.

After the press conference, the organizer was very enthusiastic and invited everyone to stay for the final celebration dinner. Qin Yuan didn't like this kind of occasion because there were too many people to deal with, so he wanted to refuse directly. But looking at other people are very interested.

He could only go along with him, and Qin Yuan noticed something was wrong when the reception was held, because the organizer took turns, and someone came to toast him.

At the beginning, a group of people came to toast him. After several rounds, Qin Yuan didn't respond at all. The organizers began to change direction, targeting Hu Jun, and they began to toast again.

These guys don't know what kind of medicine is sold in the gourd. Even if they thank you, they don't have to be so enthusiastic. It seems like a weasel is giving a New Year greeting to a chicken.

Seeing that Hu Jun was a bit overwhelmed, Qin Yuan walked over, raised his glass and started clinking glasses with the people opposite him. These guys are really good at catching honest people and bullying them, so why not come and drink with yourself.

The wine went on and on until the middle of the night, and most of the medical team couldn't stand it anymore, and they all went back. Only Qin Yuan and the organizers were left in the venue.

The organizers were basically drunk, and the person in charge shook his head on the table staggeringly.

"Mr. Qin, you can drink too much, why? Why didn't you react at all? There are so many of us, dozens of people can't drink you."

Qin Yuan smiledDon't talk about their drinking capacity, the previous company couldn't drink him, "Okay, you guys also speak directly, and I won't make things difficult for you, what on earth do you have?" Purpose?"

Having said that, the person in charge instantly sobered up a little from the wine, he stood up and shook his head quickly, "Mr. Qin, what do you mean by this? Why don't I know?"

"Since you really don't know, then let's do this. I'm going to take my people back. Book a ticket for us now, and we'll go back overnight."

The person in charge hurriedly stood up to stop him. He hadn't finished any tasks that could be explained. Looking at Qin Yuan's bright eyes, he knew that he couldn't fool this person, so he could only tell the whole story.

"This matter is very confidential. I also hope that Mr. Qin can keep it secret. If possible, I hope your medical team will go back with us."

This kid finally told the truth, Qin Yuan looked at Mu Qingmei who was already asleep beside him, and motioned for the person in charge to come out, it's not convenient to talk here.

The person in charge knew that he couldn't hide it, so he simply told the reason. He wanted the willing medical team to go with them to rescue a person whose illness was very strange, so they held this international competition this time. This kind of international competition is held every three years. The previous time has passed, and this time it was held in a hurry.

If they wanted to choose a reliable medical team, they could only use this method. Although the person in charge hadn't been able to save the person, Qin Yuan had already guessed about it.

What happened before should not be their mischief, but that other countries probably came to sabotage their plans. In addition, these guys paid so much attention to it and spent so much money and energy.

Obviously, the identity of the person they want to save is unusual, probably their current president, and they have kept it secret until now.

Chapter 1620: 3 toxins

The person in charge in front of him was shocked when he heard this. He didn't expect Qin Yuan to guess all their plans. At the same time, he was also a little puzzled, and for safety reasons, he had to ask again.

"How did you know this news?"

Qin Yuan only thought it was funny. Aren't these guys showing it clearly enough? People who understand can easily see that they spent such a large amount of money to find a good medical

team. Coupled with the events of this period of time, they came out as soon as they were tempted by others.

"You don't need to doubt me, because it's a waste of time. If this is your attitude of asking for help, just pretend I didn't say it."

The person in charge was a little confused. He didn't know whether he should trust Qin Yuan or not, but looking at more than half of the people who were already drunk, he felt very helpless. Now that their president's life was at stake, a medical team had to go there.

He gritted his teeth, and finally made a decision, "Since you already know our plan, then I won't be afraid of you, you should know what strength you are facing behind, if you dare to do anything, then you will take Don't even think about going back to these people who came here."

"Hehe, do you still dare to threaten me? Let me tell you the truth, this time, for unnecessary trouble, you'd better just take me there, because the less people know about this, the better?"

The person in charge thought about it for a while, and it seemed that this was the reason. Coupled with Qin Yuan's own identity, even if they wanted to make things difficult for Qin Yuan, they probably couldn't do it.

In the end, after he discussed with Qin Yuan, Mu Qingmei and the others stayed here for the time being, and Qin Yuan followed him back to see the specific situation. The person in charge also saw that Qin Yuan was able to infect the bacterial weapon through many experiments. The soldiers are all healed, and he is more sure of his direction.

On the way there, Qin Yuan began to ask for details, but he didn't expect that even the person in charge didn't know what strange disease their president had until now. When the disease started, they were already in the whole country of c Solicitation was carried out from top to bottom, and basically all doctors, large and small, had seen it, but they were helpless.

"Then do you know the symptoms of his disease?"

"I'm not very clear about this. I'm only in charge of the peripheral affairs. I'm not clear about the internal affairs. Basically, other people are in charge. I'm just in charge. As the doctor's support, I have already found several groups of people, but to no avail. ."

I have to say that they did it quite grandly. Qin Yuan was searched heavily from the moment he got on the plane, and even had to go through an extremely strict security check when he got in.

When he walked to a building, Qin Yuan noticed that the security here was very strict. There was nothing special on the surface, but there were many guard posts hidden on the side.

The person in charge can't get in at this position. There are other people inside who brought Qin Yuan in, but when the handover person came out and saw that Qin Yuan was alone, he felt a little strange. Normally, they would bring a medical team, how come there is only one person?

"Asiri, what do you mean? The things I told you before, can't you do this little thing well?"

"Sir, I have indeed done a good job. This man is very powerful. He can be said to be comparable to all the national medical teams."

Hearing that the chief inside here was dubious, but he still brought Qin Yuan in. The guards inside were even stricter. Just after passing through the corridor, there were six or seven people following Qin Yuan.

The security guard in front opened a door, and after entering, Qin Yuan smelled a strange smell, which he couldn't explain at the moment, the smell was rotten and mixed with a trace of reading, although it was very faint, But he still smelled it.

Pass through the front lobby and enter a room. There is a big bed in the middle of the room. On the bed lies a middle-aged man in his forties who looks like he should be the president of their country c.

There are several security guards around this person, and Qin Yuan almost understood it just as he approached, it was obvious that he was poisoned, and the toxin in his body was hypnotizing him.

Besides the security guards, there were several accompanying doctors around the man, and those doctors also looked solemn, staring at him intently. When the monitoring equipment next to him moved slightly, they were extremely nervous.

Seeing their nervous appearance, Qin Yuan couldn't help but chuckled, "What's the point of you doing this? You can't understand the poison, so just guard and let him be poisoned to death slowly?"

"What do you mean by this guy? How dare you curse our Mr. President!"

The medical team here can be said to be the top existence in country C. This foreign guy started talking loudly as soon as he came in, so this aroused the dissatisfaction of other doctors. Several doctors next to him took aim at it. Qin Yuan.

"Mr. Huo Sen, I don't know what's going on. Why a foreigner suddenly came and pointed at us. I don't see that he has any medical qualifications at all."

That Officer Huo Sen was surprisingly calm, because he knew that these guys had been guarding here for three full months, not only did they not make any progress, but their Commander was getting worse and worse, and his condition was not under any control.

They really have no choice but to look for a medical team outside, but they are also worried that the medical team they find outside is unreliable, mainly because the status of the president is relatively special. master.

So it's normal for these doctors to be worried. Qin Yuan didn't say much, but said indifferently, "You seem to be keeping him alive, but the toxins in his body are consuming him. It won't do anything if this continues. In our words, it's treating the symptoms, not the root cause."

"Why do you say that?"

"Give me two minutes and I can get him to talk."

what! Even the bodyguards next to him were stunned. How could this be possible? Their president has been in a coma for more than a week. It would be an exaggeration to ask him to speak now.

At this time, the person in charge of the guard also came in, and everyone stared at Ruan Yuan's every move. No matter what, the man was found, so why not let him have a try.

The doctors next to him began to check carefully. They found it strange that this guy came empty-handed without any medicine or medical equipment, so how should he treat him?

Just when everyone was curious, Qin Yuan stepped forward and took out a pack of silver needles from his bosom. Seeing this scene, the guard next to him became uneasy and hurried forward to control Qin Yuan.

"What are you doing?"

After all, they have never seen this kind of thing before, and it feels like assassination in their eyes, with such long needles and different sizes.

"Calm down, don't be so excited. This is the traditional medical technique of our Yan Kingdom. If I really wanted to kill him, wouldn't I have done it sooner? Why do I have to do it in front of so many of you and my team members are all outside?" , I will not do such a stupid thing."

The person in charge who followed Qin Yuan before was also let in at this time, he quickly explained beside him, and then showed the video of the previous gymnasium, but everyone saw that the vegetative person was alive and kicking in just a few minutes. It's incredible.

After such a toss, they agreed to let Qin Yuan continue. He stepped forward and put his hand on the president's pulse. He probably has seen the problem. This person's body contains toxins, and the toxins have penetrated into the nerves. So that's why no one invited him over, his nerves were completely paralyzed.

For a person of his status, who wants to poison at such a close range, he is basically someone he is familiar with, and the toxin did not burst out suddenly, but accumulated little by little over a long period of time.

It's really vicious. This kind of nerve-paralyzing toxin will swallow up the normal cells in the body little by little, and slowly it will show this kind of vegetative state, completely comatose, and the body's various skills will also decline rapidly. Only drugs and equipment can be used. Come to help, to put it bluntly, you will only become a useless person in the end.

If it wasn't for him, it would be impossible for him to wake up with these people treating him with simple equipment.

Under Qin Yuan's operation, the president slowly woke up. The people around were all surprised, and hurried forward to inquire about the situation. At this time, Qingyuan stood silently behind and observed everyone's reactions. Here are the reactions of these people It's all real.

At least those people in the room were very excited when they woke up, showing concern and excitement. A security guard next to him wanted to go out to inform his family, but was stopped by Qin Yuan.

Seeing that Qin Yuan had rescued the president, the attitude of the security personnel improved a lot, "Hello, I am just going to notify our husband's family as a routine, do you have any questions?"

"It's a big problem. Didn't you listen to me just now? There are toxins all over his body. Who can poison this kind of toxin?"

The person in charge of the guard next to him also frowned. It is indeed reasonable to say that, they are 100% careful about the safety of the whole species every day, but they really don't take so much precautions when it comes to people close to them. Maybe the problem lies in this above.

Qin Yuan just removed part of the toxins in his body. After all, he had to save some cards, otherwise these guys really thought it was so easy, and he didn't have much affection for country C. These guys are also very despicable. If he doesn't get some benefits, why Are you sorry for yourself?

The president woke up, and the doctor next to him rushed forward for a routine examination and asked, and found that his body functions had recovered a lot, at least he didn't need all assistance.

"What's wrong with me? Why do I feel so tired?"

"Sir, we have invited a professional medical team to treat you. He said that your condition is poisoning, so we are still investigating."

Tong Zhong was also a little surprised when he heard this, why did he get poisoned? Qin Yuan watched from the back as they were all saying polite words, and couldn't get the point out of the question for a long time, feeling a little impatient.

"This is only the first stage of treatment, and there will be several more treatments in the future, but I just said that if the truth is not investigated, then he is likely to cause secondary injuries. I can't save him again and again. ."

Hearing the arrogant attitude of the guy opposite, the president was a little puzzled, where did the medical staff come from, but he noticed that the expressions of the people next to him showed a little awe.

In the end, he realized that this person was the medical team invited by Yan Country, mainly because this person saved him, even his own country could not help.

He was also aware of the seriousness of the situation, and only then did he carefully recall what was going on. Qin Yuan was pretending to be treating him, and was piercing him with silver needles. With his ability, he wanted to make the person in front of him completely recover. It's too simple, but they can't let them see that it's so easy, otherwise, with these guys' suspicious attitude, they will probably doubt themselves.

Soon Qin Yuan frowned and showed a embarrassed expression. The person in charge next to him was a little anxious, and hurried forward to ask if he encountered any difficulties.

"His body is too weak now, and he is not suitable for the second treatment plan, so he has to wait for a while. I can only wait for him to recover a little tomorrow morning, and I will treat him again."

Saying it this way shows the magic of love. Before they studied something that they couldn't do anything about for a few months, Qin Yuan asked their president to speak just two minutes after he came here But now There is another question, who is the person who poisoned, and in what way?

Qin Yuan kept the silver needle beside him, and then reminded: "I just said that the daily intake is not much, so even if you conduct a physical examination on him every week, there is no way to find out, which means that in his daily intake In the diet."

Hearing this, the security captain next to here immediately denied it. This is absolutely impossible. Their diet of the same species is uniformly arranged by them, and there are people who test drugs every day, so there will never be any problems.

Just after Captain Bao denied it, the president frowned and asked, "Are you sure you poisoned the food?"

"At present, this possibility is the greatest, otherwise you cannot be exposed to other toxins every day."

The president sighed. He said that he would drink a cup of coffee every morning, and that cup of coffee was made by his wife himself. Although he said that his food requirements would be stricter, such details are the same as those of a normal family. There will be too much interference.

Not only that, but his son would come to drink afternoon tea with him in the afternoon, so he didn't know whether it was the coffee problem or the afternoon tea problem.

What Qin Yuan said at this moment shocked everyone present even more, "I found a total of three types of toxins in your body."

what! This is a bit exaggerated, and the medical staff next to him immediately objected, "This is absolutely impossible. We have not found any problems through instrument inspection. How can you conclude that there are three kinds of toxins?"

"I think you may not understand our Yan Kingdom's medical skills. We can diagnose it through his veins. This is what I have diagnosed so far. There are three types of toxins."
