

## Special Soldier 1621

### Chapter 1621: Negotiate terms

Seeing that they didn't believe it, Qin Yuan stepped forward and grabbed the president's hand, then pricked his fingertips with a silver needle. Under everyone's witness, the blood was black.

Even the medical experts next to him felt a little puzzled, how could the blood at this location be this color? The question is why can't their instruments detect it at all?

"You don't need to work so hard. This means that someone inside you is playing tricks. Otherwise, why can't your instruments see anything? These three toxins are mixed together and then ablated with each other, so ordinary detection instruments really can't detect it. come out."

Hearing this, everyone looked at Qin Yuan in surprise. This is really a genius doctor. Anyway, Qin Yuan is only in charge of curing diseases and saving people. solve.

The investigation is not in his charge, he is in charge of the treatment, but now they have to investigate clearly, or if he has a problem after he is cured, isn't that ruining his reputation?

So he said that the second stage will take tomorrow. On the one hand, it will delay the time for them to investigate, and on the other hand, it will also let them feel the magic of this medical treatment.

The security captain next to him completely trusted Qin Yuan, because he really saw that their president hadn't improved in the past few months, but after only a few minutes, he was able to talk to them normally .

Here he said that he would try his best to arrange it and send someone to investigate immediately, while on the other hand Mu Qingmei woke up in the morning and found that she had returned to the hotel where she was staying, but she did not see Qin Yuan.

Another person in charge came over to explain that it would take a few days for Qin Yuan to be temporarily taken out to treat other patients. After saying this, everyone didn't ask any further questions, after all, there would be no problems here for the time being.

Qin Yuan was taken to another room by them calmly. After the person in charge left, he quickly turned on the system. During the inspection just now, he found that the system could recover the blood of the president.

The system has been silent for a long time, so we can take this opportunity to see if we can sense any abilities again?

However, when Qin Yuan opened it, he realized that things were not that simple. The blood composition of this person was deliberately preserved by the system, because it was very similar to Long Xiaoyun's before.

Long Xiaoyun is a cyborg who has been transformed before. She didn't expect that there would be a chance of coincidence in this case. This can only explain one problem, their president is also undergoing secret experiments.

Qin Yuan snorted coldly, no wonder no one noticed this toxin. I guess this old guy is also experimenting on himself. He knows where the toxin comes from, but there are three kinds, two of which must come from the outside, and one toxin is his own. At least it is clear.

And this kind of toxin is more like when Long Xiaoyun first accepted the transformation. The hosts had to achieve a parasitic purpose and make their bodies stronger before they could accept the transformation.

However, when Qin Yuan learned about it, it was already in the late stage, and many things hadn't had time to investigate in detail, and the masked man was completely wiped out.

Originally thought that their last gene factory and their lair had been wiped out, and this matter would be over. Unexpectedly, this happened again now. It seems that the masked man is just one of the pawns, and this mysterious organization still exists.

He planned to wait until the next day to directly invade the president's meaning, and then see what the \*\*\*\*\* this guy was up to.

The next morning, Qin Yuan came to the room again, and the security personnel were already very polite to him. As expected, as Qin Yuan guessed, the president only cared about what the other two toxins were, which would have harmful effects on his body. what harm.

Qin Yuan pretended to \*\*\*\*\* him with silver needles, then directly invaded his consciousness, and began to search quickly. Among these consciousnesses, he only found some fragments, probably mechanized soldiers, and some corps, but they were all It is difficult to piece together some

fragments into a whole. It seems that the president is still in the experimental stage, and he still doesn't understand many things very well.

Anyway, the general situation is that country c wants to build an underground mechanized soldier. This is their mysterious power, and they are also related to the super weapon that Qin Yuan got before, but after the super weapon disappeared, they are even more serious. I feel that there is no guarantee, so I want to train a large number of such mechanized soldiers as my trump card strength.

Such an idea may be the original intention, but in the long run, some things will gradually change, just like the original system of the masked man may have some good aspects, and it will gradually become a weapon of his own rights.

These despicable guys are still experimenting with people, Qin Yuan shook his head helplessly, this matter is far from over, he can't take care of these things so much, he can only take care of his own country's affairs.

It seems that he has to step up the training of the brigade. He has too many things recently, and the training of the brigade has fallen a lot. Since these guys are going to be mechanized soldiers, then his special warfare soldiers are not kidding.

On the one hand, he trains the physical fitness of soldiers completely according to his special manual, and the basic abilities are improved compared with normal training. In addition, he will give them some merit points during the uninterrupted period to improve their own abilities.

If this is the case, it can be regarded as another trump card force, otherwise, in the various competitions that follow, semi-mechanized soldiers like them will definitely be unfair to their own side after they come out.

He has only just learned of a sign now, and it happens that he can go back to train hard in this gap. Qin Yuan has almost eliminated the toxins in his body. The other kind is parasitic, so there is no way to remove it, but his condition is completely complete. better.

But when Qin Yuan told him that he was almost healed, the president sat on the bed with a weird smile, then he clapped his hands, and soon a dozen or so heavily armed soldiers rushed in from outside.

Even the person in charge next to him was stunned. What's going on? "Sir, what are you doing now?"

"Idiot, do you know that what you have done has already been known to others, and I asked you to keep a low profile. You are so arrogant, I am afraid that others will not know that I have fallen."

Before the person in charge had time to explain, he was directly killed by the soldiers on the opposite side. Soon someone came out next to him to clean up the corpses. Qin Yuan didn't panic at all and sat on the opposite side leisurely.

The current president has almost recovered, and he was able to stand up easily, "It seems that you are really courageous, and you can do it so steadily even in this situation, but it's also pretty good. In your two days Don't worry, for my sake, I will let you die peacefully."

"Hehe, you think you can really kill me, and if you kill me, you kill yourself."

The president was taken aback when he heard this, what does this mean? In fact, Qin Yuan had expected before that a ruthless person like him would definitely kill people and silence him. Although he didn't know what was going on, people like them who could achieve high positions would eliminate all hidden dangers.

That's why he didn't want to bring Mu Qingmei and the others over. It's not good if there are too many people, and they will be completely controlled by these guys.

"In other words, your toxin may still flare up. Without me, you won't even have a chance to turn around next time."

However, in the president's eyes, this is a threat to him. How can he bear this situation? As the person sitting in the highest position, he must remain calm, and he should not have the slightest emotion. Without hesitation, he directly ordered people to shoot.

However, the person on the opposite side had just fired, and Qin Yuan was extremely fast, kicking the sofa down with a dodge, and threw a few throwing knives out quickly in the next second, and the soldiers in front fell to the ground in response.

The surrounding security guards also quickly cooperated to shoot. Qin Yuan only used a glance and used the instant killing skill again. total.

The two security guards stood vigilantly on the side, and the president hid behind them. In their view, this man was a monster. So many guns failed to hit him, and now the whole room was filled with a strong smell of blood.

Qin Yuan still had that laid-back look. He kicked off a stool and sat on it, "Is it really unreasonable for you to kill your savior like this? Believe it or not, I can now Do needles paralyze you?"

Now there are only two security guards, and outsiders can't come in for the time being, because for the sake of absolute secrecy, the president has already transferred all the trusted teams here, but Qin Yuan unexpectedly solved it instantly.

The security guard on the opposite side had already quietly touched his waist. There was a pistol on his waist, which could be fired at any time. Qin Yuan just raised his head slightly, and a playing card flew out. The security guard fell down clutching his neck in pain.

"When I'm talking, I hate other people's hands and feet. Don't force me."

The remaining security guard didn't dare to say anything. Now he quickly raised his hand and stood obediently. The president was even more frightened and at a loss. The person in front of him was simply a monster.

Qin Yuan tapped his hands on the table very rhythmically. He was thinking about what to order, "Tell me, how much medical expenses do you plan to pay this time? And my loss this time."

The President also understood that there is nothing he can do with this person now. With his ability, he can definitely escape from here safely, so he can only agree to his conditions.

According to his understanding, Country C is very military-oriented, and their equipment should be fine. It just so happened that his brigade also needed it, so he directly asked.

"I want 8,000 sets of modern military special warfare equipment, as well as small drones. Just look at it, don't search and search, I want your latest version, first one or two thousand, and yours Amphibious combat vehicles, come seven or eight."

The face of the president on the opposite side was ashen. This guy opened his mouth like a lion. He spoke so easily, and the special warfare equipment was already considered a very small loss.

Take the latest version of the drone. That drone is the latest combat drone. The cost of one for missile projection is not cheap, let alone one or two thousand.

There are also waterway amphibious combat vehicles. The cost of one can be said to be as high as hundreds of millions of dollars. This guy will buy seven or eight vehicles as soon as he opens his mouth.

The president frowned. This must not be agreed, the loss is too great, "You can make other requests, these things are too many."

"I think you should figure it out. Now you are not only paying for medical expenses, but also for your own safety and future insurance."

But he was still unmoved. At this time, Qin Yuan walked to the opposite wall to look at the map, took out the pen on the table and drew a circle.

"By the way, I forgot to tell you. I also learned something by the way. You should be familiar with this place, or I will go over to greet you later?"

The president's face changed instantly when he heard this, because that place was the secret base where he was transforming those mechanized soldiers. The place was extremely confidential and very few people knew about it. He didn't tell anyone on this side, only he and them The Minister of Homeland Security knows Has this guy already discovered something? Qin Yuan knew that he shouldn't startle the snake like this, "This place seems to be some kind of military base of yours. Although I don't know what it does, it should be very important to you."

The president was relieved when he heard this. At least this guy didn't know what he was doing, and it could be regarded as a little bit of protection. He didn't expect this guy to hold so many things in his hands. Although he lost himself, he was somewhat The feeling of being lured into a house.

In the end, he could only grit his teeth and agree, and the security guards next to him were shocked. He didn't expect his own kind to negotiate terms with the people opposite him. He knew that these things were expensive, so he gave so much in one go.

At this time, the president suddenly looked at Qin Yuan, "I will give you what I promised you, but I don't want other people to know about it."

Qin Yuan expressed his understanding. He lifted a poker card and flew out of his cuff. Before the security guard could react, he fell to the ground. This matter would never be known by others, and the president on the opposite side was already in a cold sweat. DC, because he didn't know if this guy even killed himself with a slight raise of his hand.

"You don't have to be so nervous. After all, you are my God of Wealth. I'm here for business negotiations. How could I kill my God of Wealth?"

After finishing speaking, Qin Yuan swaggered away. Before leaving, he turned his head and told him that the things must be delivered on time, otherwise he would come to greet him at any time.

Until the person left completely, the palms of the president's palms were covered with cold sweat. He is still betting that if this guy really gets out of here smoothly, then he will give him the things.

It's not so easy for him to get out of this place, but if this person really gets out smoothly, he can't resist this kind of ability at all, and can only follow his request.

Chapter 1622: help with training

About ten minutes later, there was no movement outside. The president felt a little strange. He went to the outside room and pressed a button. In an instant, the whole room sounded an alarm. Within two minutes, all the people outside rushed away. Come in.

The president looked strangely at the people rushing in, what the \*\*\*\*\* are these guys doing? Their speed and reaction are fast enough, didn't they see the people going out?

"What were you \*\*\*\*\* doing just now? Didn't anyone find out when you went out from here?"

These security guards rushed in in a dazed state, because they didn't know what the president was talking about, and no one went out from the beginning to the end. They all stood guard in the corridor and found nothing unusual.

Hearing what Anbao said, the president felt strange at first. Could it be that someone thought carefully after lying, if someone lied, it wouldn't be so many people saying it together. It seems that that guy is really talented.

There is no way, the things I promised before can only be done according to what he said, and this batch of supplies was sent out in the name of gifts, without leaving any flaws.

Mu Qingmei was relieved when she saw Qin Yuan come back. She was always worried about what would happen. This time they not only won the championship, but also proved their strength in the international arena.

This is their military medical achievement, which greatly protects the soldiers they belong to. It can be said that most of the credit this time is due to Qin Yuan. On the way back, Hu Jun said that he must apply to the higher authorities after returning.

The main reason is to give Qin Yuan the title of a great master of Chinese studies, after all, only in this way can he teach them in an open and honest manner.

Qin Yuan didn't take these things seriously. Anyway, everything can be done as it should be. This time, the president of country c was bleeding, but it should be done.

Qin Yuan, who came back, did not relax either. He started training in all aspects. This time he learned about the conspiracy behind country c. Although it has just begun, he still needs to find a preventive mechanism as soon as possible.

Moreover, he also said before that he would recruit an all-female special forces team, and now he is in full swing to eliminate them, and all the selection can be left to Li Erniu and the others. Can.

So he has a lot of things recently, because his reputation has spread, and basically all military regions have submitted lists of what they think are excellent.

It can be said that there are very few female soldiers, not to mention being able to enter such a special operations team, so it is indeed good to be able to get such a recommendation. Li Erniu sighed with the list of recommendations. To be honest, these Female soldiers are no worse than male soldiers.

"Hey guys, take a look, this is the top three female snipers in the country, it's really rare."

"What's the fuss about this? Have you forgotten that when we were in the Iron Fist Regiment, we met a female soldier who fought against us? She finished shooting within fifteen seconds. I'm really ashamed."

Qin Zhengyang was quite curious about this. It was no brainer for him to complete the shooting within fifteen seconds, but he did not expect to receive so many compliments.

"Brother Erniu, is this difficult? It seems that our requirements are all like this. The shooting must be completed within 15 seconds."

"Boy, you are still too young. If you think about it, we were only recruits in the Iron Fist at that time. Under those circumstances, they could shoot for 15 seconds. It can only be said that they are extremely talented."

While everyone was discussing, a car from the military area suddenly drove up to the door. Everyone was a little curious and kept looking inside. At this time, a heroic female soldier stepped out of the car.

Li Erniu thought to himself, no way, it was a coincidence that Cao Cao Cao Cao Cao would be here, because he felt that the person in front of him was quite familiar, but after so many years, there might be some changes.

After the female soldier came down, she gave them a military salute, "I think you are the training instructors of the Special Forces. My name is Cao Ying. This time I came to discuss some matters with your captain. Please show me the way."

Now the few people are not calm, the female soldier's movements are clean and neat, her words are not out of the water, and she is so good-looking, Li Erniu hurriedly stepped forward, and before he could speak, He Chenguang told her dragged down.

"Our captain is at the training ground, let me take you there."

Cao Ying nodded, and then asked the secretary in the car to come down together. Li Erniu took this opportunity to grab He Chenguang, "Chenguang, you boy is really rude. When you see a beautiful woman, you rush forward. I was the first one just now." ."

"I think you are really a toad who wants to eat swan meat. Besides, you are a married man, and you are here to join in the fun. Get out of here. Hurry up and give this opportunity to your brothers."

When the two were arguing, Cao Ying frowned slightly beside her. Didn't she expect the special forces to be so unreliable? He had no choice but to cough to remind them, and He Chenguang finally came to his senses, and walked forward with a smile to lead the way.

When they came to the training ground, they only saw Qin Yuan wearing gloves and shirtless on the opposite front desk, fighting with others, but there were actually five of his opponents.

It was the first time Cao Ying saw such a training method, and those five people didn't wear any protective gear. Qin Yuan was wearing boxing gloves and was entangled with them, his body's muscle lines perfectly highlighted.

Moreover, it can be seen that Qin Yuan did not focus on offense, but on defense. He mainly focused on the few people on the training platform. When the time was right, he would strike at the right time, and then exercise their reaction power.

This made Cao Ying a little stunned. This person's reflexes are too powerful. Five people attacking him from different directions can defend at the same time, and can adapt to the situation and attack.

He Chenguang introduced from the side, and when he saw Cao Ying's eyes, he instantly felt that there was no way to go. Why did he bring someone here? One must know where Qin Yuan is placed, who would care about other women?

After thinking about it, he quickly explained beside him, "How is it? Our captain is handsome, but he is already married."

Cao Ying was a little unhappy, turned her head and glared at him, what was this guy thinking, "I don't know what you mean, of course I just watched your captain's defense and offense, this man's agility It's too strong, worthy of being the God of War."

Now it was He Chenguang's turn to be embarrassed. He thought he was looking at Qin Yuan's figure, but he didn't expect that he was seriously studying tactics. Few women can do this.

Cao Ying was even more impressed. Now she knew why Qin Yuan needed to wear gloves. The boxing gloves were used to protect other opponents, because the five opponents fought here for nearly five minutes, and none of them could get close to Qin Yuan. deep.

It was like walking a dog. Everyone was exhausted after being dragged around by Qin Yuan. Qin Yuan turned his head and saw He Chenguang and the heroic female soldier beside him.

"Okay, you guys train each other first, remember to stand up according to what you just said, you don't have to attack all in the battlefield, the best offense is defense."

Everyone breathed a sigh of relief when they heard this. Qin Yuan took them here tirelessly all morning, and now they can finally take a rest.

Qin Yuan jumped down from the boxing ring very easily, then picked up the towel next to him and draped it over his body and walked over.

Cao Ying hurried forward and introduced herself first. After all, in terms of military rank, she was indeed much lower, and the person in front of her was the legendary God of War in the army.

While wiping the sweat off his body, Qin Yuan asked, "What's the matter?"

"Captain Qin, it's like this. We recently encountered a tough opponent! They are special operations teams from the West Country. This special operations team rotates between countries all the year round, mainly to challenge other countries. Special Operations Team."

A special operations team from the West Country? Qin Yuan frowned, he seemed to have never heard of this team.

Cao Ying explained from the side that it was normal that Qin Yuan had never heard of it, because they were an all-female special operations team, so they basically challenged the women's special operations team.

It turned out to be the case, and He Chenguang frowned after hearing it from the side, "You let us take action in this situation, and we are not in compliance with the rules. After all, they are the heroine special team, and we feel that we are taking advantage of others in the duel. Cheap."

Cao Ying shook her head, "No, I'm not asking you to help us play, but I want to ask Captain Qin to help us train, and I want to use my own strength to win this game."

This woman made Qin Yuan a little impressed, and she knew that she had to rely on her own strength, which was really good. After Cao Ying finished speaking, she handed over a document, which was the specific situation of the women's special warfare team in the West Country.

He Chenguang glanced at it slightly, and took a deep breath. Good guy, he challenged 24 countries and only lost one time. This is too exaggerated.

In order to enhance their own strength, various countries have already demonstrated various methods. Challenge each other like this, which can also enhance their strength, learn what should be learned from their opponents, and be able to recognize their own strengths in time. weakness.

The purpose of learning from each other to increase one's ability is indeed good. Qin Yuan also secretly admires their brains. Such opponents are actually very difficult to deal with. They have competed with teams from so many countries, so their experience is very rich.

Although the special training operations are generally similar in many trainings, there will be some differences in the training between the various teams. This is something they have trained themselves.

Qin Yuan took a look at the document, and then said: "Have you guys already fought? You can tell me the specific situation."

Cao Ying shook her head, "We haven't played against each other yet, I just heard about their reputation, and the challenge date they gave us is next month, now there is only one month left, I have found a lot of special warfare instructors, everyone I don't think it's possible, so I want to invite you to help us train this time."

This is no problem, Qin Yuan is just a little curious, it is really not easy for the women's special forces team of the West Country to be able to fight against 24 countries in a row.

Cao Ying looked at his expression and thought he was a little embarrassed. After all, a month is too short, and it is basically impossible to get a boost.

"Captain Qin, if you think the time is too short, that's okay, I know your ability, I just hope to get some guidance."

"No, you misunderstood that it's okay for a month, or even a week for me, but I'm just curious about this women's special team."

Cao Ying was relieved when she heard this, at least she had agreed, and they were one step closer to victory. She said that there was a video of this women's special team on their side, and they had already studied it, so they deliberately Ask Qin Yuan to help with training, this women's special team is indeed very capable.

Without further ado, Qin Yuan agreed directly, packed up his things that afternoon, and went to their brigade with him. Because Qin Yuan set a precedent, the Marine Corps conscripted a female special team. The clan, and later the whole country also began to rise.

Cao Ying's women's special warfare team is a special warfare company located in the Western Military Region. They are the affiliated women's special warfare team of the specialty company.

On the way, Cao Ying also shared bitterness with Qin Yuan. Now women's special forces teams like them are rarely taken seriously, because they are still dominated by male soldiers in national competitions, so they rarely Have the opportunity to be able to embark on international competitions.

But Cao Ying is very proud of their competition in the company. Their women's special forces team can get the first place, which is better than the male soldiers.

She never thought that female soldiers were weaker than male soldiers, so she valued Qin Yuan's theory very much, because Qin Yuan never distinguished the two, and it was he who set the precedent that gave them this opportunity.

"Hearing what you said, your team is still relatively strong."

"It's not that I don't have confidence in our team, but this is another opportunity. A challenge like this is very rare, so I want to prove myself this time. Our female soldiers are also very good and can participate in international competitions."

Qin Yuan nodded to express his understanding, this is no problem, their ability can be improved three times in one month, "It's just that you must obey the arrangement, and you can endure hardships, but many male soldiers can't insist on my training." come down."

"Captain Qin, I've heard about this a long time ago. I've made sufficient preparations when I came to you. I also hope that my team can become stronger under your training."

Looking at her determination, Qin Yuan felt that there was nothing wrong with it. They had already communicated with each other. In the past, they only needed training. Cao Ying said that this time, the one they wanted to challenge from Xiguo was the Marine Corps.

It's just that the female soldiers of the Marine Corps are secretly performing training missions, so this opportunity is left to them, and they have already driven into the camp while speaking.

Cao Ying pointed to the divided area outside. Their special offer company mainly has a large training ground. There are currently three large training grounds in total.

Chapter 1623: 1 bet first

Qin Yuan turned his head in the direction she pointed, and looked outside. The specifications of the training field on this side were really good, and this time the leaders above knew that they were going to compete with the foreign special forces team, so they specially set aside a big one. training ground.

"The No. 3 training ground over there is the largest in our entire training base, and it has been allocated separately for us now, so I can't live up to the expectations of the leaders."

Soon they came to the No. 3 training ground in front of them. Cao Ying introduced them enthusiastically and led Qin Yuan in. She said that the team members worked hard.

"Captain Qin, don't worry, our team members will never let you down, they are here every day..."

However, before Cao Ying finished speaking, she was shocked by the scene in front of her, because the hardworking players she mentioned were sitting around eating hot pot, and they were still in such a big training ground.

Cao Ying didn't get angry, what's going on? She had already told them when she left before that they must train hard, and even if she was not here for the past few days, she had to complete the training tasks. She didn't expect it to be only a few hours, not long after lunch, and they were playing here. Started hot pot.

And in front of Qin Yuan, just now she said that these people are very hardworking, isn't this slapping her face now?

"What are you doing! Xu Yu! Is this the person I told you to bring out?"

Everyone was a little flustered when they saw this scene, and quickly stood in a row. It can be said that Cao Ying's aura is relatively strong. In this case, she didn't give the slightest face, and it was just a reprimand.

"I'm really disappointed in you guys. I asked you to train hard. Without my supervision, you started to behave like this. Could it be that those trainings were all for me? All for yourselves, do you understand?"

At this time, one of the team members was a little dissatisfied. This team member Qin Yuan looked at her. She should be a sniper. She was a little impatient, mainly because it took a long time.

"Captain Cao, it's alright. I think we've worked hard enough. Isn't it okay to relax at this time? You don't need to push us all so hard, right?"

Cao Ying was stunned. She didn't expect that someone would dare to refute her. She was a little angry, and strode over, "Liu Qingzi, stand up! Can't I still tell you guys? Are you the captain or am I? "

"I know what you mean, isn't it just inviting people from the General Military Region? Then it is necessary to criticize us here. It feels like breaking the rules of heaven for the few of us to eat hot pot. I am really convinced. ."

The other female soldiers looked at Liu Qingzi silently. Everyone actually thought that what Liu Qingzi said was right, why did he target them so much? In their view, the training has been very hard, and it is time to relax when it is time to relax.

Even when Cao Ying was lecturing, some people laughed. From Qin Yuan's point of view, this is absolutely not allowed in his team. It is okay to make small troubles in ordinary times, but it is absolutely not allowed to be so indifferent in formal occasions. Rules, soldiers without rules, it is a mess.

Cao Ying was obviously very angry. Now these soldiers are really too difficult to lead. This is clearly a stabbing soldier. As a veteran of more than three years, Cao Ying really has no way to deal with these recruited special forces. .

You can only use the traditional method to go directly to confinement, but there is no such thing as this, Qin Yuan stood up, looked at Liu Qingzi in front of him, with a smile on his face, "Little comrade, I heard what you mean just now. , you seem to recognize your own ability very much."

"Tch, what is there to disapprove of this, I think my ability is already very strong, and I don't need to train. I really don't understand why you insist on forcing us to practice repetitive things every day, which is meaningless."

Cao Ying was very angry at the side, what kind of attitude is this guy, what level is Qin Yuan? People like her should speak with great respect, not to mention the soldier in front of him.

But Qin Yuan was not angry, but looked at her with interest, "Oh, since you recognize your ability so much, why don't you show it, I want to see what your ability is."

"What's the matter? I know you. Aren't you the God of War? You are very powerful, but I think I am not bad either."

Cao Ying was about to vomit blood, but Qin Yuan didn't take it seriously, because the more these stabbing soldiers were trained, the better the effect, and the reason why they dared to be so arrogant showed that they were very capable.

Liu Qingzi was also not afraid at all, walked to the moving target in front, and then pressed the switch to adjust the speed to the fastest, and she was shooting in a sitting position. In Qin Yuan's view, this posture was entirely for play cool.

Because the general use of sitting posture for shooting is because the caliber of the muzzle is too large, the shooting distance is relatively long, and the impact force is large, so the sitting posture is adopted in an environmentally friendly way, and the strength of the whole body is used to support it.

But with her current gun, the shooting range is 500-800m, there is no need for that at all, and it is so close, it is still too young, Qin Yuan just watched her perform silently.

Soon she was ready to shoot. With this high-speed moving frequency, her aiming rate was quite high. As the gunshot sounded, the electronic equipment on it began to report the target.

Qin Yuan roughly looked at the No. 1 and No. 3 targets. She hit the heart. The No. 4 and No. 5 behind her all missed, and No. 2 hit the shoulder.

However, for this kind of result, the surrounding teammates applauded for a while. Although the number four and number five were missed, they were relatively close to the heart.

Qin Yuan shook his head. Liu Qingzi had a smug face when he stood up, but when he saw Qin Yuan's expression, he instantly became unhappy. Is this guy throwing cold water? Her grades have already been calculated.

"What do you mean? Did you look down on me just now? Let me tell you, my usual score is better than this, but I made a slight mistake today."

"So it's at this level. To be honest, anyone from my team can play better than you."

what! Liu Qingzi even felt that this guy was humiliating her. How could this be possible? Her performance was considered excellent in the team.

Seeing her unconvinced face by the side, Qin Yuan knew that he should give her a demonstration. He stepped forward to check the gun, and was a little dissatisfied with the position of the distance mirror, because everyone's habit of using the position is different. .

He didn't bother to adjust it, after all, it was someone else's property. If it was adjusted, it would be troublesome for the person who would adjust it later, so he simply removed the sniper scope.

Everyone didn't know what he was going to do for a while, and when he was ready, everyone realized, is he going to blind type? This is an exaggeration, such a long distance.

"Don't say that I'm bullying you. After all, I've been training for so many years. This distance doesn't need any distance at all. Besides, this kind of shooting speed is too slow. I haven't played it for many years."

Liu Qingzi felt very uncomfortable hearing this. This is too exaggerated. She has already adjusted the speed to the fastest. In this case, her target is already very good, and he is still too slow .

Since this is the case, she wants to see what he can achieve. It is very difficult to know that it is very difficult to hit a full score. First of all, the goal must be determined. In this case, they have not tried it, and everyone's attention is focused on Qin Yuan. On the gun, but just after starting it, he fired in an instant.

After a few gunshots, the electronic screen began to report targets, and all hit the targets, and they were all on the head. Everyone was stunned, including Cao Ying next to her. She had heard of Qin Yuan's ability before, but now Seeing it with my own eyes is really amazing, and blind typing can achieve this effect.

Liu Qingzi silently swallowed her saliva. This is too powerful. She thought that this person could hit the target, but she never expected to be so precise.

"You! How did you do it? How could this be too fast?"

It is not enough to say that he trains every day, because the things in each training ground are different. Although the distance is similar, but he has just arrived and can achieve such results, which is really amazing.

Qin Yuan put the gun down, and then began to point, "Do you know why you didn't perform well today? It's not because you never paid attention to this matter today. As an excellent sniper, your attention has reached Without concentration, how can it be called excellent?"

Although Liu Qingzi did lose the game, she was a little unconvinced. It can be said that her skills are poor, but it cannot be said that she is not serious. She feels that she has worked hard enough.

Qin Yuan said that as an excellent sniper, his reaction and agility are several times that of ordinary people, and they should pay attention to the surrounding environment at any time. However, when they came in just now, no one noticed it until Cao Ying took They didn't know until people walked in front of them.

"If we were the enemy who came directly in front of you just now, do you have a chance to get a gun? As a sniper, you have to observe the commanding heights at all times, and then shoot, no matter where you are."

"You're just making unreasonable words. Although you are the leader, I'm not afraid that this is the training ground where you will have no enemies."

"Hehe, little girl, because you have never been on a real battlefield, so you don't understand what it's like to be an excellent sniper."

To observe the surrounding environment anytime and anywhere, and be able to make guarantees, this is what a real sniper should do. In addition, when she hit the target just now, all she hit was the heart, which is also a bigger fatal Wrong, because hitting the heart doesn't fully guarantee that the target is 100% dead.

After all, there are still very few cases where the heart deviates, and the snipers around them first rule out danger, so we must ensure that the death of the target person must hit the head.

And this situation is not accidental. During a bandit suppression operation on the border many years ago, a special forces member hit the heart of the criminal. The grenade in his hand rang.

At that time, three teammates were caused, one was seriously injured, and two died. Qin Yuan kept staring at Liu Qingzi's eyes when he said this, because they were not ordinary players, they were special forces, and they were going to be sent out. Those who perform missions must treat all training as a real battlefield.

"That's why I'm saying that you haven't learned enough, and you have learned to enjoy others before you start learning, then you really have no hope."

This is more effective than any confinement. Cao Ying didn't dare to get angry in the back, and silently listened to Qin Yuan's lesson. Qin Yuan is very good. First, he uses his own strength to prove that he can do it. situation to analyze.

Liu Qingzi bowed her head silently when she heard this. What Qin Yuan said was indeed reasonable. She failed in many aspects. The people in this team are relatively young, so they are somewhat tempered.

At this time, another team member said that the situation like what Qin Yuan said just now is impossible to happen, because they know that the military camp here is safer, so they will not be prepared. Outside, they will never do this Qin Yuan's principle is not to be convinced, so I will keep fighting until you are convinced, "In this case, I will show you again, it is still the scene just now, this time you should be prepared , knowing that there will be bandits rushing in, you can eat hot pot or make other preparations."

Everyone didn't understand what Qin Yuan meant, until Qin Yuan said it again, he would act as a gangster and rush in again like the situation just now.

Hearing this, Xu Yu was relieved. She thought it was an assessment, and it was too simple. Everything was on their side. Now get ready, there is only one breakthrough, and that is the door. If you want to rush in, that is unlikely.

Even if this person is very powerful, but they have so many people and so many guns, they can win no matter what.

Qin Yuan saw that some people were struggling, so he said a more attractive condition, "Well, if you can defend me, or someone can hit me, I will give you a week's leave."

Cao Ying was too late to stop it, isn't this nonsense? There is only one month left to compete, and there is a week off.

Qin Yuan is very confident, because no one can meet such conditions, not to mention these little girls, even the old special forces members of the red blood cell team, no one can hit him.

Sure enough, after saying this, everyone's enthusiasm has increased a lot. Qin Yuan wants them to go all out, "Remember, the opportunity is for you to fight for, only this time, if you miss, you have to listen to me , Train well."

Liu Qingzi was so happy that she almost jumped up, she hadn't come home for a long time, "Chief, this is what you said, you can't lie, you have to keep your word."

Chapter 1624: start from the basics

Qin Yuan said it was okay, and would give them 15 minutes of preparation time, Cao Ying was beside him in a hurry, isn't this a joke?

"Captain Qin, I don't think it would be appropriate to do this. No matter what, we should focus on training. This joke must not be taken."

"Don't you even believe me? Don't worry, I'm pretty sure about what I usually say, and you can even join them, just to let me see your abilities."

Cao Ying initially refused, but she nodded when she heard Qin Yuan said that she wanted to test her ability. She didn't know what kind of medicine he was selling in the gourd, so let's try it.

Soon Qin Yuan went out, and everyone began to arrange tactics. Liu Qingzi felt that this time they won a steady victory, let alone Cao Ying joining this time, that would be no problem.

She volunteered to point to the commanding height of the training above, saying that she was lying on that position, as long as Qin Yuan came in, she would take the lead in attacking, no matter what, she would definitely hit.

The remaining few people also found suitable positions. What they held in their hands was a submachine gun for training. The bullets were fired in a row, and there was a chance of hitting them no matter what.

Cao Ying looked worried. She observed the tactics and felt that something was wrong, so she switched Xu Yu over, "Xu Yu, come over and launch an attack with me on my side, and the people behind will fill up their guns."

"Captain, I said, do you have to be so careful? There are only a few of us, and he can win with his eyes closed."

"Hehe, I think everyone should be prepared. Haven't you heard of his reputation? Apart from being a God of War, don't you guys know how he became a God of War? His ability can defeat a hundred with one."

Cao Ying had already reminded them, but they were still unmoved. After all, they felt that Qin Yuan had almost no chance of winning in this situation.

Liu Qingzi has already planned this week's vacation, where she is going to play, she needs to relax, since she joined the special warfare company, she hasn't been home for a year.

Seeing her absent-minded appearance, Cao Ying was a little worried, and couldn't help reminding her again, "Qingzi, you are the most important thing. If we fail ahead, you are the last hope, understand? The sniper is to Guarantee us."

"Oh, captain, just put your heart in your stomach, I promise it will be fine."

As the time passed by every minute and every second, everyone became more and more nervous and kept their eyes on the door. However, at this moment, there was a burst of cracking sound from the side window, and everyone turned their heads and saw only one The figure jumped in.

Before they could react, Liu Qingzi, who was lying on the commanding heights, was shot instantly. Camouflage patterns appeared on his head, shoulders, and neck.

Immediately after Qin Yuan turned over and instantly eliminated the two female soldiers behind, Cao Ying quickly organized a counterattack. Fortunately, he called Xu Yi over. Xu Yu was at the same point as her, and the two quickly launched an attack. After suppressing the firepower for a while, Qin Yuan hid behind a cement brick.

But it won't work like this, Qin Yuan's marksmanship is too accurate. "I'll attract the firepower, and you'll shoot him as soon as he appears, understand?"

Xu Yu expressed his understanding, but just as Cao Ying jumped out, Qin Yuan was already in front of him, how did this guy manage to be so silent? As can be imagined, the two of them were quickly dealt with, and Qin Yuan also dealt with the position of the remaining female soldier in the corner.

Looking at the time on his watch, Qin Yuan took less than five minutes to deal with one of their special operations teams. This level is indeed too poor.

At this moment, Liu Qingzi, who was lying on the commanding heights, still couldn't believe that she was eliminated in the first time, and Qin Yuan shot three shots with precision in less than a minute after coming in.

"At your level, you still want to compete with others. To be honest, I didn't hit you. Don't embarrass our team. Just now, I had the nerve to eat, drink and play. It really shouldn't be."

Facing the ridicule in front of them, everyone lowered their heads, and Liu Qingzi silently jumped down from the commanding heights. She was a little unconvinced and wanted to defend herself.

"But if it was in a real battlefield, I would still be breathing. You didn't even come over to fill me up with the gun. I was just following the rules. Otherwise, in the situation just now, your back would be completely exposed to my vision. , I've shot you long ago."

Qin Yuan knew that this guy would say that, so he fired three shots and pointed out his point of view. The first shot was so close to the head that it pierced through it directly. Chance of survival, where the aorta was, the third shot landed in the shoulder and completely incapacitated her.

"And I have to correct what you said. If I only need one shot in the battlefield, I will never make a mistake, because what I want to hit is 100% death."

At this moment, Liu Qingzi lowered his head completely, and everyone looked at the camouflage on their bodies. Cao Ying's entire face was already covered, which meant that he basically had no viability.

After being teased like this, the others didn't refute anymore, and they had promised Qin Yuan before that as long as he wins, he will follow his training method.

It's just that after the victory, Qin Yuan was a completely different person. He didn't have the smiling face before, and immediately whistled and urged them to gather at the playground with a cold face.

Today's temperature has reached 35 degrees. The scorching sun is baking the earth and even the players on the playground. Each of them is carrying a tactical backpack.

With a gun in hand, they are undergoing basic training. This kind of training will start when they are recruits. I didn't expect to return to the recruit training period again after a year.

The other soldiers around looked at this side curiously. You must know that this female soldier is relatively precious to their special warfare company. After all, it is the only female special warfare company. Basically, what is so good about it? Conditions are given priority to them.

Everyone sighed with emotion that such a big sun has been standing for more than an hour. Qin Yuan felt that this time was not enough, because these basic trainings first honed their will, and now this team has been somewhat mature, so the last What is needed is to hone the will first.

"Don't shake your hands, lift them all up for me to be more standard. Is this the result of your one-year training? I can find any recruit who can do better than your standard."

Qin Yuan didn't show mercy at all, pointing out any mistakes directly, and Qin Yuan didn't train them in this special training ground, but took them to a training ground with more people.

The reason why Liu Qingzi is so arrogant is because she has been praised by too many people. Everyone thinks that she has achieved that level very well, so she has become so arrogant, so from now on, this concept must be broken.

Time passed by every minute and every second, everyone was completely soaked in sweat, and their hands were already numb. Xu Yu's hands were trembling uncontrollably. She hadn't carried out such tactics for a long time.

Gradually, some people couldn't hold on, and a female soldier in the team fell down directly. Qin Yuan walked over to check on the situation of the female soldier, took her to the side to rest, and the others continued.

As time went by, they fell down one by one, and finally only Cao Ying persisted. She persisted for 5 hours and 34 minutes.

Everyone sat next to them drinking water and resting, full of dissatisfaction. It was time to eat at this time, and they could only watch other soldiers go to the cafeteria to queue up for food. However, they were exhausted now, sitting in the big The tree has not slowed down yet.

Zhao Ran in the team couldn't take it any longer. She felt dizzy now, which was obviously heat stroke, and she was feeling nauseous. She felt that this training method was too rude, and it was not applicable at all.

"Didn't you find out? This guy is deliberately messing with us, saying that he wants to help us improve our training, but this kind of training has any improvement, it's all tossing, we guess it's revenge, we didn't give him face today."

"Of course, don't talk about it, just sit down and have a good rest."

"But don't you all resist? We're going to keep silent like this. We don't know how he will torture us later, and if we continue to stand like this later at night."

No one said a word. After all, no one knows what kind of training will be there. Coupled with physical factors, no one is willing to say a word.

At this moment, Qin Yuan came over with Cao Ying. Cao Ying's face was flushed from the sun, and her condition was not much better. Qin Yuan handed her a pot of water.

"Your performance today really makes me very dissatisfied. I didn't expect that the physical fitness is so poor. This is not a qualified special combat team member at all. It seems that we have to continue tonight."

What? Everyone was stunned when they heard this, they had to stand like this at night, and Qin Yuan told them that they would go to the training base at night, and stand in the underground pool directly in the pool.

Zhao Ran stood up, "Captain Qin, I think your training is really unreasonable. I don't understand what you want to do. If you want to target us, I apologize to you now."

"What do you mean? I don't understand."

"Captain Qin, I really don't understand. I think this kind of training is meaningless. What is your purpose?"

Qin Yuan smiled, picked up the gun casually, and shot forward. His position was very far from the shooting range in front. What everyone didn't expect was that they all hit the targets. Even the soldiers in the shooting range were stunned. up.

Everyone turned their heads and looked outside in disbelief. This is too exaggerated. Such a long distance is fine, and there are so many people passing by in the middle, which completely forms a kind of interference. He can be said to be innocent. Arrived with precision.

"Let me tell you, this is the meaning. It allows you to shoot anytime, anywhere and maintain absolute stability. Do you know why you miss it easily? That is because your hands are not strong enough, so you have to practice to understand it? "

After Qin Yuan finished speaking, he fell into silence for an instant. Not only that, he also asked Cao Ying to stand up to demonstrate. She kept holding a gun, and Qin Yuan attacked her. No matter how she hit, her aim was always aimed With Qin Yuan.

"I don't know how you practiced this year, but among your group, only La is truly qualified. Seeing that the guns are not aimed at the enemy at any time, this is stability."

Now everyone has nothing to say, because they all know what Cao Ying has paid for. When everyone else is having fun, she is very strict with herself, basically training all the time, and won the championship of their company.

Qin Yuan saw that they understood, and didn't want to say anything more. He asked them to prepare for dinner and continue training after eating.

Cao Ying followed Qin Yuan and said silently, "Captain Qin, I really bothered you, I'm very sorry, I thought they were all excellent before, but today I didn't expect them to be really bad."

"Actually, I don't blame you for this. You are indeed a very good soldier. But as the captain, you should be stricter with them. If you are strict with yourself, you should also be strict with them, otherwise it will hurt them, do you understand?"

Cao Ying nodded. After the meal, everyone didn't have any complaints. For the first time, they took the initiative to start basic training at the training ground, but everyone didn't know if this month was enough.

Qin Yuan intends to start from the basics, and there is no soldier who cannot be trained. After this week, these female soldiers are completely darker than before. It can be said that they spend most of their time in the training ground, completely from morning till night. They are all in a training state.

After a week of training, Qin Yuan planned to conduct an assessment on them, mainly to see the effect of this week's training.

Liu Qingzi, who was very proud before, felt a little unconfident when he heard about the assessment, "Instructor, isn't it too cruel for you to treat us like this? With our little means, let alone training for a week, I feel like training for a year I can't catch up with you either."

"Even if you have self-knowledge now, don't worry, you are not here to fight with me, I will find a male soldier from the company to try with you."

Everyone is very excited to hear this, and everyone is looking forward to this week's training. Since there is an assessment, it is time to verify their results, and everyone said that there is no problem.

Qin Yuan came to another training ground and started negotiating with the male soldiers. As soon as Qin Yuan walked in, he saw the squad leader of their fifth special warfare squad approaching.

"Captain Qin, I really didn't expect to see you here again. You are our idol. Are you here to help us inspect the situation?"

Unexpectedly, he also met a fan, but Qin Yuan quickly revealed his purpose of coming, mainly to select an excellent male soldier to compete against them.

Chapter 1625: completely changed view

Hearing that the squad leader opposite here is full of confidence, he has absolutely no problem with the people on his side. Besides, there is no reason to dare to confront the female soldiers.

He patted his chest and said there was no problem, "Captain Qin, let me tell you the truth, we have competed with them before, but everyone let them go, otherwise how could they really win against us based on their strength? Woolen cloth?"

Seeing the smug faces of the people in front of him, Qin Yuan just smiled without saying a word, and then turned around on the training ground with his hands behind his back. He wanted to come over and choose people himself, because basically all the people he selected were elites. Only in this way can we truly reflect the strength of the female soldier squad.

Led by the fifth squad leader, Qin Yuan came to the shooting training ground in front of him. He noticed a short soldier on the left who was doing design training. He didn't need to report the target there. Very good results, especially in front of this platoon of soldiers.

He pointed to the soldier in front, "Squad leader five, that's the one, I'll pick him out first."

The fifth squad leader burst out laughing when he heard this, "Captain Qin has to say that you have a unique vision, and you can really pick talents! This guy is one of the best marksmanship in our company, and he has participated in the national competition before."

"That's right, let's settle down on the others first, and then take me to have a look."

The fifth squad leader was a little different. Originally, he thought that when Qin Yuan came to pick people, he would pick out some of the poorer ones, so that the female soldiers would have a better chance of winning. He didn't expect to pick an elite right away.

So he also reminded him at the side, but Qin Yuan didn't care at all. He said that what he wants is the most powerful person, so that he can win in a real sense.

"Squad leader, don't look at people with that kind of old eyes. After my training this time, everyone can wait and see."

The fifth squad leader didn't take it seriously. He knew that Qin Yuan was very powerful, but everyone noticed the training in this short period of time. How could he improve in just one week?

He took Qin Yuan around the training ground, and quickly selected seven people. These people were outstanding in terms of fighting, shooting, and close-range sniping.

It's just that another unique team has been selected, because their special price company is completely divided, and he picked the strongest person in the company.

This time, everyone is looking forward to it. Everyone wants to see how the competition will go. These temporary teams, when they learned that they are going to compete with the female soldiers, they are very relaxed and feel that they are not at all happy. If you can do your best, you will definitely win.

The person who shoots better is called Zhang Qiang. He knows that the sniper on the female soldier's side is Liu Qingzi. He has seen that girl's shooting level before. in the eyes.

Everyone was discussing tactics at the side, Qin Yuan asked them to get ready, and the competition would start the next morning, so a temporary meeting was held on the side of the male soldiers.

Although it was said to be a meeting, no one took it seriously at all. Everyone was still laughing and joking. They felt that the game had already seen the situation clearly.

Zhang Qiang is more serious. As an excellent sniper, he also has a strong talent in shooting, so his personality is relatively calm. He is seriously analyzing the current situation.

"Brothers, it's not that I speak harshly. I think everyone should be serious. Among them, Liu Qingzi is the one who needs to be wary the most, and the other is their captain, Cao Ying. This person is also very powerful."

"Hahaha, strong man, I heard you right. Are you admitting cowardice before you start? Don't worry, there are brothers around, how could you lose? Besides, Liu Qingzi will leave it to you, and Cao Ying will leave it to you." I."

Others also followed suit, they felt that the match was solid and absolutely no problem.

Even when Zhang Qiang asked everyone to run in, no one was willing. They all found excuses to go back to rest early. Only Zhang Qiang and another soldier were left in the big training ground.

Although they are powerful, they are all from different teams. Now they are suddenly forcibly assigned together, and many things are not familiar to them. Although each of them has their own areas of expertise, they should study it.

Seeing this situation, the soldier next to him also showed an indifferent expression, "Forget it, since they are unwilling, let's stop messing around here, go back to sleep, and talk about it tomorrow morning."

"Brother, I think it's better not to take it lightly. When it's time to train, we will continue to train. If they really do this, I will go to the monitor to respond."

The soldier came over and helped him by the shoulder, "Qiangzi, are you stupid? Don't you offend people by doing this? Besides, how many people will listen to you? Come on, those female soldiers. It's not our opponent, so there's no need to make such a fuss."

Seeing this situation, there was nothing he could do. Zhang Qiang had no choice but to go back to rest in the end, but he still made a plan, mainly the basic tactical deployment, where they should be, the specific actions, and everything. record it.

The male soldiers have gone back to rest, Cao Ying and the others are still training on the playground, and they are still competing in tactics. Since Qin Yuan rubbed their spirits last time, these girls have become a lot more low-key and began to recognize the situation .

Qin Yuan looked at the contrast between the two sides with great interest. In fact, the result is already obvious. The strength of those male soldiers is not bad. If there is a competition, their chances of winning are still very high, but they are a little too underestimated. Once the enemy is underestimated, many things are uncertain.

The next morning, many people gathered around the playground, because everyone knew that the male soldiers and the female soldiers were going to compete against each other today. They hadn't had such a competition for a long time, so many people were looking forward to it.

There are also those who support the male soldiers, and some who support the female soldiers, but everyone is more optimistic about the male soldiers, after all, they are the elites in each team.

The company commander of the special warfare company was sitting on the rostrum. He didn't know which game Qin Yuan was playing, and he was so excited. He had only trained for a week. Wouldn't it be too embarrassing if he lost directly.

At first they thought it was just an ordinary competition, but Qin Yuan invited so many people to promote vigorously, Cao Ying's inner pressure was actually very great.

She didn't want to disappoint Qin Yuan, but in this situation, it would be embarrassing if she lost, "Captain Qin, I don't know why I don't have much confidence in my heart, there must be too many people here this time."

"I just want to ask, do you want to change the traditional view? Before I came to you, I always thought that you are very strong, but in the eyes of others, it is not like this. Even their squad leader said that they deliberately lost to you in the last competition. of."

Hearing this, I was very unconvinced in my heart. What are they talking about? They also relied on their strength to fight for it. Why should they be easily denied by others with a single sentence?

"That's why you have to prove your strength to these people, you can all do it."

Sure enough, under such stimulation, everyone's blood boiled, they must prove themselves to everyone, and Qin Yuan also found out why the so-called Western Women's Special Forces Team chose their little-known Women's Special Forces Team? It's not about picking soft persimmons.

The more this is the case, the more he has to prove to others that there has never been any soft persimmons in their Yan country, whether it is male soldiers or female soldiers, he can train them into a strong team.

Soon everyone was on the field. This time it was considered a confrontation training. The two sides drew lots first, and were divided into attacking and defending teams at the opposite training base. This is also the most common confrontation training.

The male soldiers had drawn the defender. If the female soldiers failed to capture the opposing base within half an hour, the male soldiers would be considered victorious. This was simply too easy for them.

Among the male soldiers, they felt that even God favored them. Knowing that the base here was originally easy to defend and difficult to attack, everyone looked relaxed.

Zhang Qiang submitted his action plan at this time, which he had just researched last night, but he didn't expect the people next to him to dismiss it.

"Qiangzi, why can't you see the situation so clearly? We can win casually this time, what research plan do you have to go up? After everyone finds their respective positions and guards well."

"Although you are the captain of the operation this time, I also have some doubts. I think we should seriously discuss the plan. We are not only facing these female soldiers this time, but Qin Yuan!"

Speaking of this, the people in the team are even more indifferent, because even Qin Yuan, how can a team suddenly become stronger in a short period of time, and it is only a week.

They laughed and walked into the building nonchalantly, which made Cao Ying even more irritated. These opponents didn't regard them as real opponents at all, it was really disrespectful.

After watching the male soldiers enter, Cao Ying turned her head to look at Qin Yuan who was sitting on the rostrum. No matter what, she would not let Qin Yuan down.

"Sisters, you have also seen and heard how these people mocked us just now. In this case, let's fight hard and let them see our strength."

"Yes!"

Everyone was excited, and soon they were researching how to attack the entire building. The stand was more subtle. The company commander of the special warfare company sitting in the middle was a little worried, so don't make any troubles at that time.

He originally wanted to warn those male soldiers not to win too much, which would be a slap in the face of Qin Yuan, but it was too late.

Seeing his expression, Qin Yuan also guessed the general idea, not only slowly said: "Commander Zhang, it seems that you are still very confident in your soldiers, do you really think those male soldiers can easily win?"

"Captain Qin, I don't mean to belittle you, but it's only been a week, and the results of their women's squad can't reach such a level, and the people you picked are the best of the best, to be honest. ."

"Hahaha, let's take a look later. I have seen many elites, but whether they are elites or ordinary soldiers, they are all the same here."

Company Commander Zhang was very helpless, and he didn't know why he invited this great god. If he really offended him, it would be too troublesome.

However, just after the game started, the female soldiers completely caught everyone's eyes. Cao Ying took the lead in attacking. She led the team into a triangle and completed the side attack first.

This is the most common formation, and the male soldier was not to be outdone, and quickly counterattacked. However, as soon as half of his head was exposed on the south side of the upstairs to aim, white smoke rose from his body.

what's the situation! Only a minute after the start, a person was eliminated by the male soldier. Everyone looked along and saw Liu Qingzi lying on a commanding height, and shot his head.

This shocked everyone. It was too exaggerated that this distance could be so precise at that tricky angle. After Liu Qingzi fired, he quickly changed direction.

Because this elimination completely disrupted the formation of the male soldiers They hadn't prepared for any discussion before, and now there is a vacancy, so they can only fill it up as soon as possible, and the firepower of the female soldiers below is also very fierce.

Zhang Qiang didn't dare to be careless, and quickly searched for Liu Qingzi's figure, but as a sniper, he didn't find any flaws, and he was analyzing all the commanding heights.

Cao Ying and the others were completely attracting firepower, mainly Liu Qing who was at the back, and Xu Yu. It can only be said that their cooperation was perfect. Xu Yu had already swooped down to the bottom of the building.

Under everyone's gaze, Xu Yu jumped, hooked the wall next to him, and began to climb up.

The soldiers watching the excitement outside were all shocked, this arm strength is too amazing! "I'm going, what's the situation? I've seen that female soldier before, he seems to be an assaulter, why is she so fast now?"

"Don't you see it? Not only her, but also that Liu Qingzi, her shooting has also completely changed. This marksmanship is really too accurate."

Everyone was still immersed in admiration, another burst of white smoke rose, and the second person on the male soldier's side was dealt with, and now they didn't dare to show their heads at will, so Xu Yu below had a chance, and he quickly climbed up climb.

The male soldiers in the building became restless, and after a long time, two of them were directly eliminated, and the one on the side was cursing.

"Qiangzi, what are you doing as our sniper? You can't even deal with a woman. You are also a sniper. Why can't you? Find out where she is, or we won't dare Head up."

Zhang Qiang was very calm, and he didn't become angry because of what he said. He knew that the opponent was very strong, and he was no longer as strong as before.

Chapter 1626: challenge abroad

It's not a matter of luck, but the opponent's strength has completely changed to be able to hit so accurately even from such a tricky angle.

Zhang Qiang can only tell everyone not to show their heads, and now he must adopt the second plan, but now no one listens to him, and instead blames him as a sniper.

Because they always compare Zhang Qiang with the opponents, they feel that the snipers on their side are not good enough, and they have not given them a guarantee in the later stage, but Zhang Qiang is also in a dilemma, what can he do in this place?

Liu Qingzi's speed was too fast, he couldn't catch it, and their cooperation was very good. In addition to the late support, the general snipers were also covered and protected by their teammates. He had no chance to shoot at all.

Zhang Qiang told them to act according to their own actions. They will come in soon, so the second plan must be adopted. This is what he has studied before. Once they enter the corridor, they can only push them together and concentrate their firepower, which can resist for a while.

This method is another helpless move. The main reason is that it can delay time and delay to the back, then there will be no problem. If there is no way, they will keep attacking in front, and the people are too scattered. Wait for the female soldiers below to come up, everyone is screwed.

But after Zhang Qiang raised his opinion, other people refuted it. They didn't have time to think about it. The firepower of the female soldiers below was too fierce, and a few people upstairs had an instant quarrel.

"Come on, who do you think you are, it's really embarrassing to command others in this situation, you don't even look at your marksmanship, you can't even beat a female soldier, if it wasn't for you, you didn't give us the late stage Guaranteed, will we do this?"

"What? Do you mean I caused it alone? Look at your fire support. If your support is not in place, how can I fight over?"

The male soldiers upstairs were arguing, and the company commander of the special warfare company sitting below the stage couldn't sit still. What the \*\*\*\* are these guys doing? Just now he was worried that he would be too embarrassing, but now it seems that he is the one who loses face.

He is a little embarrassed. Now that the battle is imminent, the most taboo thing is infighting among teammates. This is the best opportunity for the enemy. Sure enough, just a minute later, Xu Yu has already climbed up, and directly threw a bullet in the window. grenade.

Everyone did not expect this battle that was not favored by everyone. They all felt that the male soldiers must win because they had an absolute advantage. Such a terrain that is easy to defend and difficult to attack is very rare. It took only 15 minutes. It was captured by female soldiers.

As expected, white smoke instantly rose from the soldiers upstairs, and they were all eliminated. Even in this case, when these guys came down, they actually started fighting in front of everyone.

Some people in the team felt that everything was Zhang Qiang's fault. As a sniper, he couldn't even cover his teammates to dominate the battlefield, which led to this situation.

But Zhang Qiang felt that he was even more aggrieved. He had clearly proposed a plan, but no one listened to him. Besides, could all the victories be won by a single sniper?

Seeing the two sides wrestling together, Company Commander Zhang was very angry. He walked over and shouted loudly, "What are you doing? Do you think it's embarrassing to lose here? I think what's more embarrassing is your behavior. Now you are only losing to your teammates. , if you lose to others, I'll see what you guys say."

The two of them lowered their heads and were still a little unconvinced, because they both felt that they were not wrong, and the female soldiers were already cheering. It can be said that they took the shortest time. In this case, the momentum can be clearly seen.

At this time, Qin Yuan walked over, "Commander Zhang, in fact, you don't have to blame them for this time's result, I have already predicted it a long time ago."

If he arranges so many strong people from various classes together, there will definitely be unconvinced situations. Although a team leader has been temporarily found, this team cannot afford this responsibility. The team was formed temporarily yesterday. , It is simply impossible for them to have a sense of unity.

Although everyone is in the same company, they are not very familiar with each other, and they are all the top elites of each class. In this case, no one is convinced by the other.

No matter how strong people are together, if they don't have cohesion and don't know how to cooperate, it is impossible to win this time. It can be said that their female soldiers are lucky.

At this time, Qin Yuan took the formula in Zhang Qiang's hand and looked at it. To be honest, if this formula was followed, the female soldiers might not necessarily win.

Listening to Qin Yuan's analysis, Zhang Lianchang looked a little better, at least he didn't have to be ashamed in front of outsiders, but then again, the female soldiers are also on their side, so losing in their own team is nothing.

Qin Yuan coughed slightly, "Of course, if you want, I can train you and see how your results are."

Everyone was very excited when they heard this. This is a rare opportunity, how could they refuse it? He agreed on the spot, and Company Commander Zhang was instantly overjoyed. You must know that according to this kind of training, he has improved several degrees in an instant. One male soldier and one female soldier directly sent out two super special forces. .

In fact, Qin Yuan also has a purpose. He said that the training of the male soldiers is also secondary. The main reason is that this time the female soldiers will face the foreign team. They must not lose. If they lose, they don't know. How to be belittled by those foreign media.

So now we have to focus on the overall situation. The purpose of his training male soldiers is to be a sparring partner, because he doesn't know the team, and in the process of accompanying training like this, the male soldiers will also improve.

Now everything is based on the overall situation, everyone understands this truth, no one objected, and agreed on the spot. It can be said that after the training of love, the female soldiers have changed a lot.

You must know that if Liu Qingzi and the others won the victory before, they would definitely celebrate, cheer, and give themselves some rewards, but now that they have just won the game, they will start training on the playground again in the afternoon.

They knew that winning this time could be said to be a fluke, because this team was formed temporarily, and if they really encountered a perfectly coordinated team, there was no way.

Qin Yuan was very satisfied that they had such an idea. In the afternoon, he also brought over the male soldiers, which was the temporary team formed before.

Now they are like rivals to each other, so they are all secretly competing with each other. The training time is getting longer and longer, and Qin Yuan is very satisfied with this.

Soon, the one-week training was over, and this time they fought again, basically every once in a while they would conduct simulated confrontations, sometimes the male soldiers won, and sometimes the female soldiers could win. Not to mention.

With one week left before the challenge from the built-in women's special team in Xiguo, Qin Yuan brought them to the meeting room.

"We don't train today, the main thing is to get to know the opponent. I haven't let you get in touch, and I don't want you to have too much pressure, but now the battle is about to happen, so get to know yourself first, and know the enemy."

The main reason is that their strength is strong enough now, so there is no problem. Soon Qin Yuan turned on the projector, and all of them were video images of the female special forces team from the West Country challenging several other countries.

Cao Ying frowned the whole time. The captain inside was very powerful. In close combat, he could fight three against one, but their challenges were all kinds of strange and varied.

Qin Yuan introduced the captain of their West Country as Grace, "This woman is a dangerous person. I have studied it before. Not only has she won the Muay Thai championship, but she has also won the fighting championship for three consecutive years."

Not only their captain, but also the rest of the team members are not simple, they have all won various competitions, this team can reach the level of the red blood cell team, and even came to challenge their little-known female team special forces.

Liu Qingzi was a lot more low-key than before, she began to think seriously, and after watching the video, she raised her hand to speak, "Instructor, the difference in our strength is too big, although we have been training for a week, but I always feel that according to this It seems that the development is not enough."

"So I didn't let you watch their videos before, and they have challenged more than 20 countries in total, and the experience can be said to be very rich. I don't know what tricks they will do this time?"

According to the current analysis of the situation, the reason why they dare not challenge the women's special forces team on the Marine Corps is because their strength is relatively similar.

And in this case, it's better to challenge a relatively weaker team. Now that the reputation has been played, no one cares what team you challenge, but some people know that they have won against Yan Kingdom.

Hearing Qin Yuan's analysis, Xu Yu clenched his fists, which is too despicable, "In this case, we can't even say, instructor, don't worry, even if I risk my life, I can't admit defeat of."

"But hurry up and stop. I don't want you to lose your life in such a meaningless thing. Winning or losing is not the most important thing. Although it is easy and important, your lives are more important."

Qin Yuan has been pursuing all kinds of honors. In his opinion, this situation is not worth it at all. He told the female soldiers not to worry, "I will continue to strengthen training for you in the remaining week, and I will definitely be able to catch up."

Everyone was a little apprehensive, but Qin Yuan was full of confidence, because during the training during this period, he had silently added a lot of merit points to them, until the final moment of explosion.

They haven't tested their strength yet, the main thing is not to let them take it lightly, and that team is not simple.

Soon, a week later, Xiguo's special operations team was very high-profile, and no one had seen it yet. They just received an invitation letter. This time, the venue for their challenge turned out to be abroad.

Company Commander Zhang knew about this, so he refused without even thinking about it. It was too dangerous to be outside without his own venue.

"Absolutely impossible. They said they wanted to challenge before. Since we accept the challenge, we should decide the location. Why should they have the final say? What if there is an accident outside?"

The instructor next to him was a little calm, and he began to analyze seriously, "Old Zhang, I think this situation may not work well, think about it, if we don't agree now, wouldn't it be letting others dove? After it spreads How to do it?"

"I don't care what they say, it's impossible anyway, I won't take my soldiers out."

Company Commander Zhang can't be calm now, he knows what it means to go abroad, and if something happens, he can't help these female soldiers at all.

At this time, a voice came from the door, "Then what if I take them out?"

"Who brought..."

Zhang Lianchang turned his head and saw that it was Qin Yuan. If this guy took him out, it should be no problem, after all, he was the guarantee.

"Just put your heart in your stomach, I will bring you all the few people I bring out, besides, if we don't accept the challenge, we will be laughed to death by them, this time I want to see what tricks they play."

"That's what you said, Captain Qin, I'll hand these people over to you, and you must bring them back safely to me."

"Don't worry, I've seen all kinds of storms."

This is indeed someone's real special warfare brigade, can it compare with my basic special warfare company? Zhang Lianchang thought about it, and then agreed.

It was the first time for Xu Yu and the others to go abroad, so they were very excited, "Hahaha, sisters, this time we took our guns out in an open and honest manner. Normally, it would be impossible for us to take our guns out."

"You can take care of yourself, now it's time to go out to compete You really should go on a trip."

"What's the matter, the instructor said before, if you come, you can be at ease, it's useless for you to be so anxious now."

The atmosphere on the plane was very relaxed, and the special forces team specially photographed a special helicopter to pick them up. It felt like it was here to pick up people, but it always felt a little weird.

It seems that they are rushing ducks to the shelves, and they can't do it unless they come. Qin Yuan is very relaxed on the road, so that they don't have any burdens. When they get there, let's see what tricks they play. Basically, he has already thought of all the countermeasures. And there will be no problem with him guiding by the side.

Four hours later, they arrived at the designated location. As soon as they got down, they saw a row of people standing opposite them. After getting closer, they realized that it was the women's special team from the West Country.

The captain of the special operations team came out, but when she saw Qin Yuan, her face was obviously taken aback. She didn't expect to encounter a tough bone this time.

Seeing that she didn't speak, Qin Yuan took the lead to open the topic, "You look like you know me, but why haven't I met you?"

"Captain Qin, your ability is so powerful, it's normal not to know us, but I didn't expect you to be dispatched, which makes me feel a little stressed."

Chapter 1627: Actual competition!

"You don't need to have any pressure, this time I just followed my people to be a guide."

"As expected of Captain Qin, I admire him for being so low-key all the time, and I hope Captain Qin can guide us."

At this time, it is obvious that they have changed. Just now they just stood and watched from a distance, but after realizing that Qin Yuan also came, they changed completely.

The female team leader from the Western Country made a phone call, and after a while, several people in work uniforms came to greet them in person, and even drove a bus.

Led by the bus, everyone came to a star-rated hotel. The service attitude here is better. Not only is the environment very beautiful, there is a swimming pool on the side, and they will be the first to arrange accommodation for them after entering.

One big room per person, such a condition is really rare, just when everyone was excited, Qin Yuan directly refused, "We don't need to open so many rooms, they all live together, and I live in one. "

Hearing that the female soldiers next to here were complaining for a while, and finally thought about relaxing, they even wanted to live separately, Xu Yu even said, "Instructor, you are so boring, you still have to let us all live together. Together, we usually live together every day, and we already have a house."

"That's right, the instructor is really stingy, you opened a room by yourself, why can't we."

"Why are you little girls unconvinced? Do you want me to live with you? Do you know the difference between men and women?"

After finishing speaking, Qin Yuan asked the waiter to prepare the room, and the captain of Xiguo just smiled and said nothing, after all, she had to follow Qin Yuan's opinion.

After everyone entered the room, they were amazed. This room is so good. It is different from traditional hotels. After entering, there are not only TVs and computers, but also the big sofa next to them is enough for them to sleep. There is a big bed inside and a side A small room with two queen beds.

After walking in, the thick carpet on the floor is very soft. In this case, you can directly lay the floor here. The waiter saw that there were seven of them, and the bed was not enough to sleep, so he could only start asking.

"Hello, if it doesn't work, I'll open another room for you, it's obviously not enough here."

Qin Yuan refused again, "Thank you, we don't need it anymore, please bring us some more quilts."

After the waiter left, Qin Yuan looked at the team members who were a little unhappy. Knowing that it was their first time going abroad, Qin Yuan was very excited, but it was often because of this that he had to be more cautious.

He explained again that they were no different abroad this time than at home, and there was something difficult to deal with at all, so they were all allowed to live together. This was also for safety reasons. As for him, it was true, because men and women are different.

At this time the waiter came over, he handed over the quilt, and said with an apologetic face: "Mr. Qin, just now you asked for a separate room for you, so you can only be upstairs, because we want to ensure that the guests are absolutely free. \*\*It is semi-open, there is only this room on this floor, and there is another room upstairs."

"Oh, what's next door to you? I just saw a small room next door."

"That's our utility room. It's mainly used to store some cleaning things, which is convenient for cleaning at ordinary times."

"Then there, just give me a place to sleep."

The waiter was stunned when he heard this. Are you kidding me? It's a utility room. Even they don't sleep there. There won't be any problem with this person, right?

But seeing Qin Yuan's sincere face, he could only follow through, after all, the people below told them to do as required.

After the waiter left, everyone understood Qin Yuan's painstaking efforts. He just wanted to make everyone safer. In this case, he had too many things to think about, so he would rather live in the grocery room.

"Okay, everyone, let's do this first today, I will go to their captain later to ask how the situation is going, by the way, Cao Ying will come out with me, and I can explain to them later. "

After Qin Yuan came out, Liu Qingzi looked at Qin Yuan's back with admiration, "You see, this is a real man, he never thought of giving us any advantage, and he silently guarded our safety !"

"Oh, we all know that we really misunderstood him just now. The main thing is that we have to think about it. This time we are out for a match. Since the captain is so protective of us, we must not let him down, right? "

Several little sisters began to discuss beside them. Although they came abroad, they did not forget what Qin Yuan taught them before. They were ready to start doing push-ups in the room.

Cao Ying walked with Qin Yuan, and when she went downstairs, she saw the captain of Xiguo sitting below, already waiting for them.

"Hello, my name is Maris, and I'm the captain of our Fire Rose team!"

The name is quite strange, probably because of the translation. Qin Yuan didn't care about it, but just inserted the topic directly. He needs to know what they are competing for now, and it will probably end in a few days.

Unexpectedly, after asking for a long time, the captain on the opposite side hesitated, "Captain Qin, I'm very sorry, I can't give you an answer to this matter, and there are some changes at present."

"What do you mean? You were the ones who first said you wanted to change the location, and now what do you want to do? What do you mean?"

"Captain Qin also hopes that you don't mind, this matter is like this, we plan to have a real combat competition this time."

Actual competition? Cao Ying's face changed when she heard this. Although they had been in contact with each other in normal training, such a competition had never happened before.

If this is the case, then it is absolutely not allowed. Usually there will be more or less problems in the training, let alone the actual shooting. She quickly looked at Qin Yuan, and it turned out that Qin Yuan had the same idea as her.

This team is different from other teams. Although they have already come out under Qin Yuan's special training, it is impossible for them to be exposed to actual combat so quickly.

It was a bit embarrassing to see Qin Yuan rejecting Xiguo's captain, and in the end he could only tell the whole story. It turned out that this time he was going to compete with Yanguo.

But the son of an important local official was kidnapped, and they now need to rescue the hostages. Originally, this was a very common kidnapping case, but the identity of the kidnappers is not simple. Those criminals are a notorious local criminal group.

Maris didn't think too much about it at the time, so she directly accepted the task, thinking about completing the task, and then went to Yan Kingdom. After she understood it clearly, she realized that things were not that simple.

They have nothing to do with this criminal group. The number and strength of the opponent is several times that of theirs, but they have agreed to it at that time and have taken the deposit there. There is no way to do this.

She didn't want to lose her reputation, so she could only fool Yan Guo's special operations team over, so that they had a little chance of winning.

Cao Ying was very excited when she heard this, and said that they are going back now, which is completely deceiving, "I really don't know what you are doing, thinking of doing this will only make you lose credibility, and I will not talk to you again in the future." any cooperation."

"I know you are the captain, so I think you should be clear that such an opportunity is very rare. Do you just want them to stay in the training ground for the rest of their lives?"

This guy is very cunning, she knows what to say, this opportunity is indeed very rare in front of her, Yan Kingdom is relatively peaceful, and there are so many special forces in front, if there are any problems behind, it is not their turn Go to their teams.

So this opportunity can also be used for training. Maris looked at Cao Ying with some hesitation, and hurriedly pursued the victory.

"And this time, I didn't expect Captain Qin to come. Captain Qin is a well-known figure. Under his leadership, I don't think there will be any danger."

Qin Yuan knew what he meant. Not only did he elevate them, but he also offered such a good condition. Isn't this just to praise them for their help? It's just that this is not a helpful attitude at all, it is obviously a trick, and this is what he is dissatisfied with.

It is a trivial matter for him to save someone, but he feels very uncomfortable with the deceitful way of this person in front of him.

Seeing that Cao Ying was still struggling beside him, Qin Yuan said directly, "How much did that local official of yours pay you? Can you make you work so hard?"

Maris didn't expect Qin Yuan to ask this suddenly. For a while, she didn't know how to answer. Then she thought about it, "Captain Qin, in fact, we care more about reputation. He didn't give much money. Our team was founded It's been a long time, and I've defeated..."

"Enough, don't tell me these things, just tell the truth, how much is it? Otherwise, I will leave immediately."

Before she finished speaking, she was interrupted by Qin Yuan. Seeing that the person in front of her was not easy to deal with, Maris could only tell the truth, the local official directly offered them a high price of 30 million US dollars, as long as he protected him Son's safety.

Cao Ying couldn't believe her ears beside her. The amount of money was simply too exaggerated. No wonder they would stop and take risks, especially some women's special teams like Xiguo. What I get is only the troops today, so the money will not be too high.

The 30 million US dollars in front of them is a huge cake, so Maris couldn't help but let the team start to act, and it finally turned into this situation.

Qin Yuan didn't talk nonsense with her, and directly stretched out two fingers, "I can promise you to fight together, but I need 20 million."

Maris frowned, she didn't expect Qin Yuan to open his mouth suddenly, it took more than half of it, and Cao Ying next to him didn't know what kind of medicine was sold in Qin Yuan's gourd.

Just when Maris was struggling, Qin Yuan turned around and left, "Since you think your ability is worth the 30 million, then let's leave now."

This guy is really good at negotiating. At this moment, when he suddenly pulled away, Maris panicked. She knew that this was absolutely impossible. Her team didn't have that ability, so she could only quickly stop Qin Yuan and agreed.

"Okay, Miss Maris, we'll have a good time working together."

Qin Yuan reached out his hand to shake her friendly. The face of the person opposite was already covered with black lines. This guy was not a soldier at all, but a robber at all.

Cao Ying is now excited and excited, but also a little scared. She is very worried that her team will not be able to take on such a task. What if something happens to these girls? How should she explain? There are many, many questions.

But that 20 million is not a small amount, they could not earn so much money in their whole life, she went upstairs anxiously, at this time Qin Yuan stopped her.

She deliberately told her not to tell about the money after she went up, which was equivalent to a secret between them, otherwise the team members would be distracted by the money, and everyone would be dazzled by the money.

At this time, I can't tell them these things. Cao Ying is a relatively stable person, so I value her very much in person.

"Captain Qin, I know all this, but is it too risky? These girls haven't even had their first actual battle, so it's too dangerous to let them go to the battlefield like this?"

"You have to remember, they are not flowers in the greenhouse. Why do they come to the special operations company? They want to contribute to the country one day, understand? This is a good opportunity, and with me, they will definitely not Something went wrong."

This is indeed the crux of the problem. One day they will grow up, and they may also experience such things. Sooner or later, they will experience it, so it is better to give it a go.

Cao Ying looked at Qin Yuan's solid back and then heaved a sigh of relief. With this person around, there shouldn't be any problems.

After returning back, Qin Yuan told the team members the news and asked them to get ready. When they heard that it was an actual battle, they didn't show fear, but were very excited.

"Instructor, is what you said true? Then can't we fight those criminals for real?"

"That's right, don't be too happy too early. I will give you some tactical guidance in the next two days. It will be used for labor. Just remember one sentence, you must obey the command when you go to the battlefield."

"Hahaha, instructor, don't worry, as long as we can make us perform, it will be absolutely fine."

Everyone was very excited. It was so cool to see real guns and live ammunition, just like in the movie, dealing with those criminals.

Cao Ying looked at everyone's excited faces and shook her head helplessly. They hadn't thought of another layer, which meant real death.

Seeing this, he became even more determined that the willingness was indeed correct. They didn't even know what was going on at this moment, and it was just for them to learn, so that they wouldn't suddenly go to the battlefield in the future and make them panic.

Chapter 1628: rescue operation

Liu Qingzi checked her sniper rifle even more excitedly. She carefully checked every bullet. She sat on the sofa and adjusted her sniper scope, imagining how she would heroically kill the enemy on the battlefield.

Normally, they have never been treated like this in Yan Country. Yan Country is very peaceful, and they can only have such opportunities outside, so let them do it.

That night, everyone was so excited that they couldn't sleep. They didn't know when it would start, and Maris was also waiting for news. As soon as the actual arrival, they would set off immediately.

Now the official's son doesn't know where he is being held. Someone inside them will release the news, just wait for them to act.

That night, Cao Ying tossed and turned and couldn't sleep. Her main concern was what would Qin Yuan use for the 20 million yuan? Will it be distributed to everyone? But the money distributed to everyone can be regarded as ill-gotten gains.

Xu Yu couldn't understand Cao Ying's pain, but just watched her toss and turn and couldn't fall asleep, "I said Captain, can you stop turning over? I can't even fall asleep. If you really can't sleep, get up and do some push-ups." .”

"Go to sleep, there are so many things to do."

Cao Ying stood up and saw that the team members around her were slowly falling asleep, but she really couldn't fall asleep, so she could only stand up and plan to go outside for a walk.

Just as he opened the door and walked out, he heard movement from the corridor behind, turned his hair around, and found it was Qin Yuan.

"Captain Qin, why can't you fall asleep?"

"No, I just heard that you have opened the door, so I came to have a look, worried about what might be wrong."

Hearing this, Cao Ying was very moved. She didn't expect Qin Yuan to be so detailed, and he could hear such small movements. She could only explain and couldn't fall asleep.

Qin Yuan also followed him to the downstairs. The downstairs lobby is very quiet now. There are only two staff members standing on the side. There is a small park behind the hotel. The two walked towards the park.

Just when Cao Ying was struggling and didn't know what to say, Qin Yuan suddenly said, "I know what you are doing for, you are thinking about 20 million, right?"

Unexpectedly, he guessed it. Since she was guessed, Cao Ying didn't hide it. She nodded, and Qin Yuan just smiled.

"Don't worry, I will definitely not take the money alone, and I will not send it to you directly. This will harm them. They are too young to lose their minds when faced with so much money."

"Captain Qin, I never thought that you would take it all by yourself. In my heart, you are my biggest idol. I am just worried that I don't know what to do with the money."

"Don't worry, I have already thought about it. I will use the money to build a separate special training base. You basic companies can go there for special training. I will also bring people from the red blood cell team In the past, give you a complete strengthening training."

Cao Ying was very happy to hear this, so it would be even better. What they lack is not a venue, but a real instructor. Now that they want to develop another one, it must be no problem, which means they can recruit more people.

And Qin Yuan also had his own plans, the money was more than enough to build a venue, and the equipment he had extorted from country c had already arrived, and that batch of equipment could just be used.

Seeing Cao Ying's face gradually showing a smile, Qin Yuan also made a gesture of invitation, "Anyway, they are already here, why don't we go back to rest after running for two laps?"

"Okay, Captain Qin, maybe you can't outrun me."

Qin Yuan smiled and asked her to run first. At first Cao Ying felt that she was always in the lead, but when she turned her head, she felt a gust of wind. Then Qin Yuan passed her at an extremely fast speed, and Qin Yuan Still running backwards with a full face.

Qin Yuan just ran past a big tree, when suddenly a notification sound came out from the system, Qin Yuan hurriedly stopped to check what was going on, and at this time Cao Ying took the opportunity to rush up.

Cao Ying turned her head and saw that Qin Yuan was still in place, and she was very proud. It seemed that she was finally going to win this time, but she felt something was wrong. Why did Qin Yuan suddenly walk towards the big tree?

Suddenly an idea popped up, could it be that he needs to go to the bathroom? Thinking of this, Cao Ying's face turned red in an instant, and she quickly turned her head, trying not to look over there, but after thinking about it, Qin Yuan's quality would not be so low.

When she looked over, she saw Qin Yuan punching and kicking the tree trunk. Cao Ying felt that something was wrong, so she followed up. She only saw Qin Yuan go around, and even gave the big tree as thick as a bucket to him. break through.

She could see a breath of cold air, this is too exaggerated, this kind of strength can penetrate such a short distance.

Just when she didn't know what Qin Yuan was going to do, she saw Qin Yuan put his hand in, pulled out two wires after a while, and then a dark gadget fell out.

"What is this?"

Qin Yuan squatted down to check. Fortunately, the system had just alerted him that there was signal interference. Generally, if there is signal interference, it means there is a monitoring device nearby.

So when he sent these female soldiers to the room before, he walked in purposely, mainly because he wanted to see the surrounding situation. There really wasn't one at that time, but he didn't expect that there would be one in this place.

Cao Ying knew that this was a monitoring device, and immediately became serious. This is not a joke, mainly because the big tree seems to be very close to their room.

"Captain Qin, look, our room is facing the big tree."

"I know, that's why I think there is something wrong with this matter. Now that the line has been destroyed by me, someone will definitely come to check it later."

After speaking, Qin Yuan took Cao Ying to the nearby grass to hide, and later he wanted to see who was listening to them. He was already careful enough, but he didn't expect that it was really secret.

About ten minutes later, a figure quietly ran forward, and as expected, he had already come to check the equipment, because there was interference on their side immediately.

Qin Yuan rushed out without hesitation, and the person on the opposite side didn't react, and was directly pressed to the ground. Qin Yuan took a closer look, but he didn't expect it to be Maris.

"I really didn't expect why you guys like to play dirty tricks so much. What's going on? I can tell you the truth in 100 ways, do you believe it?"

Looking at Qin Yuan's murderous eyes, Maris was a little scared, "Captain Qin, I didn't do it on purpose, I just wanted to make sure if you really wanted to stay, so I wanted to monitor it."

Qin Yuan sneered, and stepped on the monitoring device directly, "It's better not to play these fake things for me, otherwise you will know the consequences, and I will do what I promised. I'm not some despicable villain."

Maris knew that what she did was wrong, she lowered her head, and finally explained under Qin Yuan's persecution. It turned out that Maris had already found several other teams before looking for their team, and the result was predictable. As far as I know, they have all been rejected.

No one is willing to talk to them at all, no matter how much she fools, no one will be fooled, so Qin Yuan is their last hope.

"I know that someone like you has a great chance of winning with us, so I really don't want any more problems, I'm worried..."

"I know what you are worried about. Are you worried that we will escape on the spot then?"

Maris didn't expect this guy to see through it straight away. Qin Yuan called Cao Ying to leave, "It's best not to make such small moves for me. I can't tolerate sand in my eyes. I will do what I promised before warning me at the end." once."

Marys nodded quickly, and she was relieved until Qin Yuan's figure completely disappeared. He didn't even dare to raise his head due to the oppressive feeling just now.

At noon the next day, Maris was very excited and hurried upstairs. Their internal staff had already sent information that the official's son would be transferred to another place at 6 pm today. The armed criminal had a total of Two relatively large bases.

This afternoon, they will be transferred to another place. On the road is the best time for rescue. Maris was very excited. She took out the map and began to tell everyone how to get there. After all, they are locals and they are familiar with this place.

According to her plan, there is really no problem, they can prepare an ambush by the side in advance, and then catch them by surprise.

It was just at this time that Qin Yuan suddenly raised a question. He pointed to two schools and a hospital on the map.

"Wait a minute, haven't you noticed that there are two very important issues here? I don't know if your intelligence officer is reliable, but the most critical issue is that there are hospitals and schools here, so you think it will change. What's it like?"

In that case, there would be a hail of bullets, and it would definitely be impossible to guarantee that someone would be injured or even killed. Maris didn't think about it at all, she just thought of being like the official's son with all her heart.

What Qin Yuan disliked most was this kind of style. He slapped the table and roared, "I know this is not my country, and it's none of my business, but those common people are innocent. This official's son is his life. Didn't you consider the lives of those people?"

"At present, we really can't do anything about it. Once we enter that base, there is really nothing we can do. There are too many of them, and even our government troops dare not move them."

"Hehe, let me talk about the second question. In that chaotic situation, it will be a hospital again. There will be too many people in the school. Do you think you can save that person in a real fight?"

Hearing this, Maris frowned and said that it really makes sense. Once it is very chaotic, there will be accidental injuries at that time.

Her opinion was directly vetoed by Qin Yuan, and Qin Yuan immediately came up with another plan, which was to let them go, and only after they were actually put into the base could these people relax completely, and that was the best time to act .

Maris frowned when she heard this. She said that there were about 60 people in the base, and they probably weren't good enough based on the strength of these two teams.

"Hehe, there are only sixty people, what did you think I was doing before? In my eyes, I'm just sixty pigs!"

Although this is somewhat inappropriate, in Qin Yuan's eyes, this is the case, and Qin Yuan has repeatedly assured that he is absolutely fine. Besides, wouldn't it be better to help them take down a criminal group?

Maris hesitated very much, saying that she must discuss this matter with the official, otherwise she would not be responsible for any accident.

Qin Yuan knew that once he went to discuss it, other moths would appear later, and that official would definitely not care about the safety of other people in order to protect his son.

In the end, he could only point to the map and say: "If we only consider taking this person away halfway without completely damaging their vitality, then there will be a second and third kidnapping, and he may not be kidnapped next time." So lucky."

Qin Yuan directly pointed out that the key problem is not to keep getting vaccinations, but to solve the problem directly if the problem exists, and prevent it all the time, but it will not achieve any effect, and it will make him worry every day.

Maris suddenly realized, yes, this situation is the safest, and they are also worried about whether they will be protected by the local organization. If they directly take over their side, there will be no problem .

"Captain Qin, do you really think it can be done?"

"I never speak big words. What can be said will definitely happen."

In Liu Qingzi's eyes, Qin Yuan was simply too handsome, but before she could wait for her nymphomaniac, he prepared to leave with Qin Yuan's urging.

Now, although they don't need to go to that place to ambush early, they still have to prepare to study the formation near the base how to attack.

In this way, everyone came to the vicinity of the base. There was a village on the outskirts of the base, but it was still a little far away from the village. If they wanted to go to the base now, they had to pass through this village.

Qin Yuan is too familiar with this situation. This village here is a great cover. There are so many people in the village, no one can tell who is letting the wind go.

It was too high-profile for them to bring so much equipment, so they could only think of another way. Qin Yuan took out the map and looked at it. Isn't there a small road next to it?

Maris looked down at the route, and immediately shook her head, "Captain Qin must not go there, because of the perennial rainfall, the area has turned into a swamp, although there is a road, but now it is the rainy season, there is no way to go there. It's too dangerous to pass."

"Oh, we went through that swamp."

Mary's face was dark. This person really opposed her every time. As long as he raised any opinions, he would quickly refute them. He would definitely go to places where he said he was not allowed to go.

But who made this person so strong? Originally, Marys thought of going through the disguise and then passing through the village, so it shouldn't be a big problem.

Chapter 1629: smooth rescue

Seeing that Qin Yuan was very persistent, she had no choice but to think that he would know how difficult it would be if he got to the swamp anyway, and he would definitely return here, but it was just a waste of time.

Because of the detour, it took them more than half an hour to finally reach the swamp. After arriving here, the situation was really not ideal, because it had been raining recently, so the surrounding area was completely flooded.

When it was dry before, you could still see the difference between the grassland and the swamp, but now it is completely connected. It is too dangerous to pass through this kind of place.

Maris raised her eyebrows with a smug expression, "You see, I didn't lie to you just now, Captain Qin looks like this, we should go back quickly, make a disguise from the village, and then go in."

Qin Yuan didn't give the slightest bit of face, and vetoed her statement on the spot, "Did you never take on other tasks, so you don't even have basic thinking?"

Maris was stunned by Qin Yuan's words, what does this guy mean? This tone is too exaggerated! To be honest, she really didn't take on any big tasks, basically they were all small tasks, and she still cooperated with others.

But what does that have to do with her judgment? Qin Yuan began to explain slowly, like this kind of organization group, they chose the place after careful consideration, and it must be beneficial to them, and here is the village.

According to the normal situation, a village like this is easily at risk of exposure. Besides, they have to transport goods and conduct transactions every day, so they can't always be on guard!

So it is still the same sentence, the village and that organization absolutely have an inseparable relationship. Although they are disguising, to the people in that village, they are outsiders and are easy to be discovered. The people inside raised their vigilance.

Maris frowned and listened to his analysis, which was really good, but what evidence could he produce? This is just his analysis.

Qin Yuan smiled, this guy really didn't cry when he saw the coffin, "Do you still remember that we just arrived near the village, and then there was a small car parked on the side? There are three people in the car who are monitoring them at any time. If you have any questions, you can directly Drive in, and at the entrance of the village, there is a family, and two old people are drying food on it."

Maris had noticed the car, but she didn't know much about the old man mentioned above, so Qin Yuan directly expressed his opinion.

First of all, how can a car be parked on the main road into the village? Then you are not the place to park. If there is a car passing by, you must let the car in front move, otherwise you will not be able to pass.

The second is the two old people who are drying food upstairs in that building. The weather today is not very good. It has been raining recently. How can normal people take out food to dry in this situation?

This is the basic camouflage, and the people who are working in the field opposite are all eyeliners.

Hearing Qin Yuan's analysis, all the team members were stunned. They really didn't think of such a detailed problem, and they are worthy of being the God of War.

"So everyone should understand why I have to take such a long way around, I don't want everyone to be in danger, but I don't want to let this mission fail, and if you come here alone, you will definitely be in danger. I am, absolutely not."

Hearing his confident answer, everyone felt a little unbelievable, but even if he is the God of War, what can he do in the face of this swamp? To put it bluntly, this place is really a matter of luck.

And Qin Yuan had already taken the lead in the front, he asked everyone to follow him, never step on the wrong foot, the people behind followed the steps of the people in front.

At this time, Maris picked up a stick from the side and gave it to Qin Yuan. If Qin Yuan wants to explore the way ahead, this thing is better, although the stick is not so tentative.

But it's better than nothing, and it's just for safety. I didn't expect that Qin Yuan didn't need it at all. He said that what he used was his eyes, "My eyes are enough to see clearly."

The players from Xiguo were even more surprised. How is this possible? This looks completely connected, with puddles everywhere, how can you tell which are grasslands and which are swamps?

Just like that, everyone set off with half-belief. Anyway, Qin Yuan and his team members are leading the battle, so the people behind don't have to worry too much. If something goes wrong, it's them who are the main ones.

Cao Ying was following Qin Yuan. She believed in Qin Yuan very much. Maris kept looking at her watch. She thought it would take a long time to delay like this, because the area of this swamp is still very wide.

Unexpectedly, the speed in front was very fast, without the slightest hesitation, just like walking normally, leading them to shuttle through this swamp, ten minutes had passed, and there was no problem at all, and their speed almost reached the level of trotting.

This made Maris very admired. In the end, it only took 20 minutes for them to pass through the swamp and see the organization base looming in the mountains ahead.

After everyone came out safely, Maris couldn't believe it, whether it was luck or this swamp no longer existed, how could it be possible to pass so quickly, there was a piece of water everywhere, and she could see clearly.

He can't figure out this problem at the moment, but the most critical problem is that they must lurk as soon as possible, because there is not much time left, and they will send people over later, and they will attack quickly when they want to send people again. Then save the hostages.

Qin Yuan began to analyze from the side. He saw that the base here was mostly due to the village, so the guards here were very relaxed, and basically there were no stations.

This task is too easy for them to ambush, and there are only dozens of people inside, so it is trivial for him to solve it.

He turned his head to look at Maris and said, "You guys lie in ambush on the right side, we are on the left side, and we will launch an attack together at that time."

One of Maris's team members looked at the surrounding situation and frowned instantly, "Your division is too unfair, and there is a heavy machine gun on the right, which is very detrimental to the impact we will have later."

Qin Yuan smiled helplessly. He obviously distributed the most relaxing place to them. He pointed to the left side, "Don't you notice the two protruding places in front? That's not a three-pack. Like, there are two snipers there, are you sure you can deal with them later?"

what! There was a sniper on the opposite side, which made everyone nervous for a while. They quickly adjusted their posture and began to lie down in the grass. Qin Yuan only thought it was funny. They didn't notice it for a long time, and wanted to discuss the plan with himself.

"Come on, don't pretend, he can't find us in this place, the terrain here is relatively high, so it just hides our figure."

After listening to that team member, he poked his head out quietly to see that this position is indeed a bit unfavorable, but if they really attack from this side later, there is nothing they can do. The position of the sniper is relatively high, and they can't reach it at all. arrive.

The shooting angle was really too difficult, Qin Yuan looked at her embarrassed face, and didn't care too much, still following the previous plan, "That's it, it won't be a problem for you guys to solve a heavy machine gun, right? Let me deal with the heavy firepower here to deal with the snipers."

Maris nodded. There was nothing wrong with saying that. Everyone began to wait for the hostages behind. Qin Yuan led them to move quietly and lay on the left side in the gully on the side.

Yesterday everyone was still very excited, because everyone felt that they could go to the battlefield and face the real enemy face to face, but today they felt a little nervous.

Liu Qingzi didn't say a word, her palms were already sweating. This kind of nervousness has actually been with her since today, but she kept it in her heart and didn't say that she is a relatively strong person. If there is any problem, I will not say it face to face.

Cao Ying saw that Liu Qingzi, who was always talkative, was unusually quiet today, so she couldn't help calling her in a low voice through the headset, "Qingzi, are you okay? You will be a sniper later, remember to protect us behind."

"Captain, don't worry."

It sounded nothing unusual, and Cao Ying also began to explain to the other team members that they must act better later on. Qin Yuan is no stranger to this kind of scene, and is very relaxed.

An hour passed like this, and everyone heard the sound of a car starting in the distance, and only saw the car slowly dying towards this side. They didn't know which car the hostage was in.

Maris did not dare to act rashly, and kept looking at Qin Yuan, who would give them a signal. At this moment, Qin Yuan also began to explain in a low voice, he was responsible for solving the two snipers, and then Maris was responsible for solving the heavy machine gunner on the opposite side , The rest of the team concentrated their firepower and began to attack the vehicle.

The division of labor was clear, and in a blink of an eye, the vehicle was already close to them. Qin Yuan gave an order, turned his head and shot at the sniper on the side.

Everyone shouldered their responsibilities, and there was no time to take care of the people next to them, but the speed of willingness was extremely fast, and the sniper on the opposite side was dealt with in two thousand. They didn't have any worries behind them, they just needed to live well in front.

At this moment, the people in the car were attacked, so they quickly got out of the car to fight back. Liu Qingzi didn't hesitate at all, and fired as fast as she usually trained, but this was her first time killing someone.

She saw a burst of blood gushing out, and the man fell to the ground and twitched, his eyes fixed on her, making Liu Qingzi's hair stand on end.

Just when she was hesitating, the people on the ground suddenly picked up their guns. Fortunately, Cao Ying next to her reacted quickly and fired another shot. She was a little puzzled, looking at Liu Qingzi's position, what is this guy doing?

But now it was rather chaotic, so she didn't have the time to manage Liu Qingzi, so she could only attack quickly.

After Qin Yuan eliminated the two snipers, he hurried forward to support him. Qingyuan's marksmanship was very accurate. Under his suppressed firepower, the people in the convoy were almost eliminated. He stepped forward and kicked the car door, knocking out the man inside. brought out.

At this moment, the man was holding his head tightly in fright. He didn't know what happened. This man was the official's son, and Qin Yuan had already remembered his photo in his mind.

At this moment, the people at the opposite base heard the attack from outside, and quickly sent someone to support. Qin Yuan directly pushed the person into the ravine behind, and then started attacking towards the front.

His speed was really too fast, not as procrastinating as Maris imagined. Under the leadership of Qin Yuan, they went very smoothly and rushed into the main camp inside.

It only took ten minutes to deal with all the people inside. Looking at the corpses on the ground, Maris couldn't believe it. To be honest, most of them were taken care of by Qin Yuan.

The team members were all very excited. This was a real battle for them. They didn't expect to directly deal with a member of a gang. This time, Maris admired him and stepped forward to express his gratitude to Qin Yuan.

"Captain Qin, you are really as impressive as in the legend, and you are still impressive. Thanks to your help this time, otherwise we really can't do anything."

"It's just the result of everyone's hard work, but don't forget what you promised me back then."

Maris smiled awkwardly, this guy really looks like a profiteer, I will never forget this, everyone was discussing it on the way back, Xu Yu was very excited, she said that she killed six people.

"Hahaha, you haven't seen how accurate my marksmanship is, it's even more extraordinary than in usual training."

"Come on, the most powerful person today is of course the instructor, otherwise we wouldn't be able to resolve the battle so quickly, but today's lesson is really good, I beat two people."

Listening to everyone's discussion, Liu Qingzi next to her fell silent, which was in stark contrast to the bustle. Cao Ying stepped forward to ask her what was wrong, and Liu Qingzi said that she was just a little too tired.

Seeing what she said, Cao Ying didn't want to tell her to pay attention to rest. Anyway, it's over now. After returning home, Maris directly paid 20 million as agreed, and the official was very satisfied with Maris's performance.

This is their first real action, and thanks to Qin Yuan's help, "Captain Qin, I don't think there is any need to compete this time. The winners are definitely you. I saw your team members. Their abilities are truly amazing." It's very strong."

"I hope you can be more sincere. If you want to compete in the future, welcome to our side to challenge at any time."

Maris felt that she had played some tricks before, and she was a little embarrassed, saying that she would definitely come to the door to thank her in person in the future.

It's over here, and everyone packed up their things and prepared to go back. Everyone was very happy to go home, but under this lively atmosphere, Liu Qingzi sat silently in the last seat.

She didn't know what was wrong with her. When her teammate finally got into the car just now, she almost jumped up in fright at the sound of the door closing. The slightest movement around her made her feel very irritable.

Chapter 1630: Liu Qingzi's accident

Liu Qingzi simply put the hat on her face, put on the earphones, and leaned on the back seat to rest. Everyone saw that she was unusually quiet today, and thought that she might be really tired, and everyone was in a state of excitement. They complete the task for the first time.

So no one noticed her emotions, and Qin Yuan was not in the same car with them at all. He followed Maris over there to prepare for some handover ceremonies later.

They finally met at the airport, and everyone had already got off the car. Xu Yu came over and slapped Liu Qingzi on the body. They usually do this in the dormitory, playing and joking. I didn't expect Liu Qingzi to be very excited today. .

She jumped up from her seat, and then subconsciously touched the pistol at her waist. Xu Yu is also a rather nervous person, so she didn't notice anything unusual.

Thinking that Liu Qingzi was joking with La, he frowned and said, "Aren't you naive, what time is it, you're still pointing a gun at me, hurry up, everyone is waiting for you."

After she finished speaking, she turned around and left, not noticing that Liu Qingzi was really frightened at the moment, cold sweat broke out on her head, and she quickly put away the pistol.

She shook her head, wondering if it was because she was too tired from the car ride today, she couldn't keep her spirits up, and she was a little dazed, watching the lively teammates outside waving at her.

She picked up the backpack and slapped herself directly in the face. She suspected that she was really crazy and pointed the gun at her teammates.

On the plane, Qin Yuan told them that because of their outstanding performance this time, he would give them a week's leave after returning, so they could go back and have a look.

"Before, you clamored to go home every day, but at that time I wanted to train you, and there was no way. Now that the official order has come down, go back and relax."

"Wow, that's really great. Instructor Qin, you are indeed the most handsome."

"You little girls really have nothing to do with you, are you the most handsome only when you are on vacation?"

"Hahaha, no, you are the most handsome at any time."

Liu Qingzi was in stark contrast to this lively environment. Qin Yuan noticed her abnormality and turned his head to ask, "Qingzi, aren't you usually the liveliest? You made a bet with me before to go back, how did you know this time?" I'm going home, but I didn't say anything, do you still want to stay and train?"

La could only force a smile, she was still in a daze about what happened just now, how could she point the gun at her teammates, and at that time she subconsciously wanted to shoot in her mind, she was frightened.

"Instructor, I'm also very happy, but I'm too tired today, and I can't cheer up the whole journey."

"I think you are really doing the opposite. When you were not allowed to rest before, you were very energetic. Now that you are going to rest, you feel sick. Forget it, go back and have a good rest."

Liu Qingzi nodded, and then leaned back on his seat. After returning home at night, the special warfare company held a ceremony for them to welcome them.

Everyone barbecued on the playground and teased each other. The former male soldiers also looked at them with admiration. You must know that they can really go to the battlefield here is a precedent.

Company Commander Zhang heaved a sigh of relief. To be honest, it was really too dangerous. "Captain Qin has to say that you are brave enough to take them directly in this situation. This is a group of novices."

"Sometimes we should let go and do it, and I promised you how many people I would take out, and I would bring you back intact. I will do what I said."

"That's right, just focus on this, I will definitely give you my best in this cup, you are indeed worthy of the title of God of War."

In the midst of such excitement, Liu Qingzi recovered a bit, eating barbecue and drinking drinks with everyone, she felt that she might be too tired, she should really relax, maybe it would be gone in a few days.

At this time, the male soldiers kept pulling Qin Yuan. Since the female soldiers were trained so well by him, everyone wanted to become excellent together.

"Captain Qin, just teach us. It's a waste of your time. Give us a little more guidance, so we can do it, right? Besides, don't we have to be fair now?"

Anyway, nothing happened recently, Li Erniu and the others have been training in the special warfare brigade, so it's okay.

Qin Yuan agreed that he would stay here for a few more days and give them tactical guidance. After the bonfire party, everyone returned to the dormitory excitedly and began to pack their things.

After all, their female soldiers can go back the next morning. Cao Ying is very emotional. Since she became the captain, especially after coming to the special warfare year, she hasn't gone back for three years. No time to.

"By the way, sisters, where are you going to play when you go back?"

"I'll just stay at home. I haven't eaten my mother's dishes for a long time, and I really want to eat her dumplings."

Speaking of this, Xu Yu's eyes were full of tears, which was completely different from their previous state on the battlefield. This is the softness that should be faced with family members.

"Forget it, let's not talk about those too sad topics. Everyone should have a good rest when we go back. We can't stop training when we come back. Didn't you hear that Captain Qin is giving instructions to the male soldiers. I guess we have to talk to him when we come back. They compete."

Everyone was noisy, they put away all their things, and they were very excited. In this way, they changed into casual clothes the next morning. It was completely different from before, and the male soldiers who were training next to them were stunned.

"Hey, let me go, is this still our female soldier team? Why are the clothes really different after changing? It has more beautiful temperament."

"Look at what you said, our special warfare company is full of beauties and handsome guys, but we usually don't pay attention to dressing up, people rely on clothes and horses."

While the two soldiers were discussing enthusiastically, Qin Yuan suddenly came up behind them and knocked them down with one move.

"Hey, I think you two brats are quite leisurely. You still talk to me in the team during training. Do you pretend that I don't exist?"

The two had no choice but to look back quickly and start training hard. Cao Ying stood in the distance and greeted Qin Yuan.

"Understood, you go quickly, I will still be there when you come back, don't forget to come back, I may really have to assess you."

Guessing with Cao Ying was really good, how could Qin Yuan let them go so easily, although they said that there was an assessment, but that was all in a week's time, now they just go home and go home.

Everything was smooth and peaceful at first, until three days later a call came directly to the Special Warfare Company, which turned out to be from the police station in the jurisdiction of JH City.

Zhang Lianchang still wondered why the call came here. After answering the call, his face was solemn, and he quickly called Qin Yuan who was training on the field.

After Qin Yuan came in on this hot day, he went to get a glass of water next to the water dispenser, but Company Commander Zhang hurried over to hold him, "It's not good, hurry up and go to JH City with me, something happened over there."

"Can't you calm down a bit? How big things can happen depends on how anxious you are."

"Oh, can I not be in a hurry? It was Liu Qingzi who had the accident, and now everyone has been detained there."

what! Qin Yuan couldn't believe it when he heard this, he was fine when he went out before, what's going on? Zhang Lianchang explained while leading him outside.

"It was Team Chen from their urban police station who called just now. Now that he has been detained by the serious accident department, let us rush over to assist in the investigation, saying that there was an injury case."

Qin Yuan immediately vetoed it when he heard this. This is absolutely impossible. Liu Qingzi is a very stable person, and he is also a sniper. How could there be an incident of wounding someone for no reason? It must be a criminal.

"I also know this, so let's go and find out what kind of criminals they are, and how they were detained by the serious case group. Shouldn't this situation be commended?"

The two looked puzzled, so they could only talk over there first. When they arrived in JH City, Captain Chen was already waiting, and immediately drove them to the heavy eucalyptus team.

On the way, Company Commander Zhang couldn't wait to ask. After all, it was his soldier, "Captain Chen! What's going on? My soldiers will definitely not kill people for no reason. You need to investigate clearly!"

"I can understand this. After all, I am also a veteran, but her state is a bit strange. It did hurt someone else, but that person is a thief."

Hearing this, Company Commander Zhang's face darkened completely. His men helped them catch a thief, but they were not commended, and they were even detained. It is estimated that the thief suffered some serious injuries during the removal process.

"Team Chen, Captain Qin is also here today. You should know him too. We don't need to introduce any more. Since this is the case, there is no need for you to embarrass yourself so much."

Team Chen sighed silently, then turned to look at Qin Yuan, "I know it all, but I'm also in a dilemma, but now that thief is disabled at the tenth level, not only that, but ordinary people around are also injured."

Hearing this, the two became uneasy. If it was just a thief, the problem would be solved, but if other people were involved, then the problem would be serious.

Soon everyone came to the heavy case group, but they didn't see Liu Qingzi when they entered the office. At this time, a policeman came over.

"You are here to find Liu Qingzi, right? Come with me."

This guy's attitude was cold and very impolite. Company Commander Zhang was holding his breath all the time. He thought Liu Qingzi was taken to a separate office by them, but unexpectedly he was detained alone, and it was the place where prisoners were usually held.

She was still wearing handcuffs and shackles on her hands. Seeing her soldiers being treated like this, Company Commander Zhang couldn't bear it anymore and patted the table directly.

"What are you going to do? Let me go quickly, who gave you the right to do this to my soldiers?"

The policeman standing next to him was also stunned, "Hey, you can't talk like that, why are you so aggressive? She is a criminal suspect now."

Hearing the suspect, Company Commander Zhang became even more uneasy, and the two started arguing like this, Qin Yuan could only persuade them to fight first, and soon, the noise attracted the team leader of their heavy case group.

A man in his thirties came over, his face was exhausted, he seemed to have dealt with a lot of things, he came over and patted the policeman on the shoulder first.

"Xiao Liu, forget it, you go down first."

"Team leader, listen to what they said. They are so rude. Do you know how much trouble this person has caused us?"

"Forget it, you go down here first, and I'll take care of it."

The company commander stared angrily at the man leaving, because he felt that he must not slander his own people, and the leader of their heavy case team came over very politely.

"Several, our little comrade has been too busy recently, mainly because of this incident. Everyone, come to my office and let me talk about it in detail."

Company Commander Zhang was not too polite, anyway, he felt that he had a point, no matter what, he couldn't treat their people like criminals.

But Qin Yuandan was not sure, he knew that the serious case group would not make mistakes, but he didn't know how big the case was.

After arriving at the office, the leader of the heavy case team talked about the specifics of what happened, and he also took out the relevant documents of this case.

"Originally, we are still investigating this matter, so it is inconvenient to disclose it to you directly, but I also trust everyone very much and hope to solve this matter together."

According to their investigation, at first Liu Qingzi found a thief on the street, and the two started chasing him. Where did the thief run before? Hold it down.

Originally, the matter was almost over here, and the thief was caught, and the people from the police station in the following area would deal with it. Unexpectedly, other things happened in the alley.

At this time, there were a few people nearby who also heard the movement and walked towards the alley. Liu Qingzi didn't know what was going on, and suddenly attacked them.

When the people from the police station in the jurisdiction arrived at that place, they could only say that the situation at the scene was very tragic. The thief probably wanted to run away, but Liu Qingzi directly broke six ribs.

And those three innocent people were even worse, all were injured to varying degrees, two were slightly injured at the first level, and one was seriously injured, and they are still being rescued in the hospital.

Hearing this, Company Commander Zhang gasped, "That shouldn't be the case. Could it be that those people are all accomplices?"

"We thought so too at the time, but after investigation, it wasn't that the thief didn't know these three people at all. You also know that she is very skilled. We have no choice but to temporarily detain her in this way."

That said, they can understand them. In order not to hurt other innocent people, they can only temporarily control her.
