

## Special Soldier 1631

Chapter 1631: PTSD!

'Zhang Lianchang was stunned for a moment. He didn't expect the matter to be so serious and hurt civilians, but according to Liu Qingzi's character, how could she suddenly become so riotous? She is usually very stable.

The leader of the heavy eucalyptus group was also in a difficult situation. He brought tea and put it in front of the two of them, "You know that we usually don't disclose such details, but it's because everyone is their own, so I don't want to put this matter in front of them." It's complicated, so I asked you to confront it face to face."

"But I really find it very strange why he suddenly rioted, and the thief was subdued, wasn't he?"

At this time, the phone of the leader of the heavy eucalyptus team rang, and after he hung up the phone, he turned his head and said to several people: "The hospital called, saying that the thief has woken up, let's go over there first to ask Let's talk about the specific situation."

Now we can only investigate what is going on first. When passing by Liu Qingzi, I only saw her with a dull face, sitting on the bed at a loss.

From this position, she can't see people outside, but can only hear some footsteps. Qin Yuan dragged Company Commander Zhang away. The truth of the matter has not been revealed yet, so it's better not to see her, mainly because many things are still unclear. .

Soon they came to the hospital and saw the thief on the hospital bed. Now the thief shrank back on the bed in fright when he saw the man in the military uniform.

The doctor next to him explained: "Try to be careful not to stimulate his emotions. This guy's injuries are too complicated. In addition to broken ribs, there are also fractures of varying degrees around him."

Qin Yuan really understands it very well. According to their fighting habits, the first thing to do is to control their actions, so they focus on attacking their hands and feet. In addition, Liu Qingzi was originally a member of the Special Forces. Facing these ordinary people, there is no harm at all. The power of parrying, so the shot may be too heavy.

The leader of the heavy eucalyptus team stepped forward and stared at him coldly, "Okay, let's talk about what's going on in detail?"

"You still ask me what's going on, I don't know, I just stole a mobile phone, how did it become like this?"

"Don't talk nonsense, who asked you this, start from the beginning."

Seeing such a serious atmosphere, the thief didn't dare to say anything more. He could only explain in detail. This thief was originally a well-known pickpocket in the neighborhood. He had already been through several cases, so he was considered an old fitter.

This time, he deliberately chose a location on the side of the station, mainly because there are alleys behind him. If there is any situation, he can escape. He was discovered by Liu Qingzi when he just stole the phone, and Liu Qingzi subdued him on the spot. .

The thief was released just now. If he was caught again, wouldn't he have to go in again? The thief was also unwilling, so he was caught again like this, so he thought about how to escape.

So the thief took advantage of Liu Qingzi's inattention and ran directly into the alley. The thief wanted to cry when he said this.

"I've never seen a woman who can run so fast that she can be described as flying over eaves and walls. I was caught by him as soon as I entered. I know that we are all bedbugs, but we can't beat them to death like this."

The leader of the heavy eucalyptus team coughed slightly, "Okay, hurry up and continue, what happened next, why did she suddenly attack you?"

"Leader, I don't know why now, but it was inexplicable at the time."

The thief was quite aggrieved, and now he was crying while talking, which made everyone present very embarrassed. Qin Yuan suddenly saw him and asked, "Are there any noisy or loud voices at the scene?"

Zhang Lianchang didn't know why Qin Yuan would ask this question, but the thief suddenly thought of it and nodded quickly, "By the way, there was indeed a noise at that time, and there were a few kids next to them setting off firecrackers."

Hearing this, Qin Yuan probably understood. He knew what was going on, and then let everyone go back. Now he only needs to go to the confession over there.

After he came out, Company Commander Zhang couldn't wait to ask, what happened? They haven't figured it out yet, a few firecrackers won't drive Liu Qingzi crazy.

"A few firecrackers really don't question it, but I overlooked a problem. She is likely to suffer from battlefield trauma emergency syndrome."

Hearing this, the team leader of the heavy eucalyptus team frowned a little. It seemed to be true. Anyway, after bringing her back, she was very quiet, and she didn't have any intention of attacking anyone.

If this matter is true, then Qin Yuan feels that it is also his responsibility. He did not do a good job of psychological intervention later. At that time, he should be optimistic about the emotions of the team members at the first time. This male soldier and female soldier are really different.

Because most of the soldiers he trained before were male soldiers, and Li Erniu and the others were brought directly to the battlefield. There was no big change at that time, so no one noticed this matter.

Speaking of it now, it seems that there is indeed that possibility, mainly because of the close-range shooting at that time. At that time, Qin Yuan's main consideration was to ensure their safety and complete the task smoothly. He did not expect such an unexpected situation.

The atmosphere in the car turned cold in an instant. Everyone knew what this meant, and Company Commander Zhang didn't say a word. When he returned to the heavy case group and saw Liu Qingzi who was silent in the detention room, he felt it was a pity. .

At this time, Liu Qingzi had been brought to the interrogation room. Under everyone's questioning, Liu Qingzi also explained why she did it in the first place.

According to her, the thief had already been subdued at that time, but there was a crackling sound in the alley. At that time, she didn't know what happened. She thought it was an attack and was shooting.

And at this time, a few enthusiastic people came over and wanted to help her subdue the thieves in front of her. At that time, he thought that these people were a threat, and his brain short-circuited instantly, so he shot those civilians.

Liu Qingzi shed tears of remorse when she said this, she shook her head desperately to defend herself, "I really don't know what happened, but I thought it was shooting, I wanted to protect them, I didn't know."

And the policeman who was sitting opposite and responsible for recording suddenly patted the table, "You'd better tell me honestly, how did the sound of firecrackers turn into gunshots? How is this possible? Don't try to excuse yourself."

Liu Qingzi had tears in her eyes, she really didn't know, she was holding her head in pain at this moment, at this moment Qin Yuan walked in, he patted Liu Qingzi's shoulder, "It's okay, I'm here."

"Instructor, am I really wrong? I don't know what happened at that time."

The team leader of the severe case group also came over. Now this matter is more difficult. It needs to apply to the higher authorities, send a special medical team, and a psychoanalyst to identify it.

Qin Yuan also blamed himself very much. He knew that he brought the person out, but now that something happened, he must not be able to get rid of it. Now he has no choice but to treat Liu Qingzi first.

Because of the particularity of this incident, Qin Yuan and the others can't take the person back now, and they need to wait for the identification at their side for the time being. After returning to the special warfare company, Company Commander Zhang immediately applied for a group of psychological interventionists to deal with the remaining people. Under the guidance of psychological intervention.

Looking at Company Commander Zhang Qin Yuan sitting across from him, he still said: "I really didn't think carefully about what happened this time. Although I said I brought them back safely, I am really responsible."

"Actually, you can't blame you for this matter. Everyone's psychological endurance is different, and you can't consider them all. Since the moment you joined the special warfare company, you can't let them go."

Another problem Qin Yuan is considering now is whether his recovery ability can repair this situation. He tried to repair it just now, but it seems that nothing has changed.

It seems that his recovery ability can only restore some substantial damage changes, and there is really no way for this kind of intervention.

In addition, they can't get in touch with Liu Qingzi now, and they can only look at the investigation results over there. Soon, everyone will be called back because of this matter. Company Commander Zhang also has his own considerations, and he is worried that it will affect other people in it, so as soon as possible. Get a psychological intervention.

Qin Yuan also knew that this matter had nothing to do with him, so he kept waiting for the result, but after waiting for a week, there was no effect, and he was notified that Liu Qingzi had been transferred to a local special agency.

After all, a fatal accident happened this time, so in addition to investigation, she must be treated systematically.

Qin Yuan originally wanted to wait for the results here, but something happened to the brigade, and he had to go back to deal with it. Before leaving, he also specifically explained that Company Commander Zhang should contact him in time for any problems, and he will definitely take responsibility in the end.

But Company Commander Zhang knew that this matter had nothing to do with him, but he could be notified if anything happened later.

After returning to the brigade, Qin Yuan was also a little absent-minded. This was the first time he encountered such a situation. At this time, he saw He Chenguang waving at him from a distance.

"You bastards, when I wasn't around, didn't you lose any training methods, did you get lazy?"

"Brother Qin, from what you said, do you just distrust us so much? Turn your mind back, not only are we not lazy, but everyone has been mobilized. Anyway, we have to set an example now."

"Okay, I won't be poor with you, what happened this time?"

After arriving at the office, He Chenguang took out a circular document, "The Gao team also called to ask us for our opinion. This time, it depends on who we want to send to the world-class military games. It's a group of six."

Qin Yuan took the document and looked at the matter. He almost forgot it. He had always remembered it before. He never thought it would be so fast. There was only one week left, so they had to determine the quota as soon as possible, and then submit.

"I remember that it's not our turn in this military sports meeting. Where did you go last time?"

"The last time I went to the Southern Military Region, their results in the competition were relatively good, and they came back with a third place."

Military games like this are relatively based on basic training, such as 400-meter obstacle course and high-altitude grid. 5K races and more.

So it's not their special team's turn yet, so why is this registration form mentioned to them, and they are asked to make a decision? He Chenguang said that he didn't know, and he only received this document yesterday morning, so he contacted Qin Yuan immediately.

Qin Yuan immediately made a phone call to check with his superiors. Military games like this don't need their special forces at all. After the phone call, he will understand that this matter is really a coincidence.

It turned out that the teams to participate in had already been fully determined. This time it was the team sent by the Western Military Region, and these people had been preparing for training half a year in advance. After all, this kind of competition is world-class.

As a result, something unexpected happened when the application form was due to be handed in. First, the captain of this team was injured in an accident during training and is still recuperating in the hospital.

However, there will always be substitute players for training like this, but I didn't expect accidents to happen one after another, and the accident in the end was even more exaggerated. They were training separately at the special training base, because the training items were not the same as usual. Same.

On their way back, there was a car accident, and the team members in the car were all injured to varying degrees. Now it was too late to find them temporarily. After all, they had entered the training state half a year in advance.

Qin Yuan felt very strange when he heard this, the successive accidents couldn't be justified, the most important thing is that this car accident is too exaggerated! However, he also asked casually. The leaders above said that they had investigated it, and it was indeed an accident.

At present, only people can be ordered in a crisis, and the quota must be determined as soon as possible within this week So I handed over the problem here.

Since this is the case, there is nothing to say, Qin Yuan said, then he will bring the team up, the quota here has been determined, and they will represent Yan Guo in the next week.

But it's not that he thinks too much, he always feels that the accidents one after another are artificial, and Li Erniu doesn't understand his analysis, "Brother Qin, do you mean that someone got in here?"

"You silly boy, how could this happen? We are very strict internally. The scenes where they have accidents are all outside. Except for the captain, the others are in the process of returning from training. problems that arise."

Hearing this, everyone suddenly realized that there must be someone deliberately making troubles on the road, and even the people above did not find out. This is really a secret.

He Chenguang immediately suggested whether or not to keep their list confidential, and wait until they got there completely. Qin Yuan felt that it was unnecessary. If the person behind the trick really dared to come out, then he would clean it up.

And there is only one week left, even if the person on the other side wants to play tricks, there is nothing to do. At this time, two people in charge of docking came to check the list, and also took

out the competition items to let them familiarize themselves with it as soon as possible. Although time is tight, But there is no way.

#### Chapter 1632: Different Military Games

'And Qin Yuan was lying on the bed humming a song, not intending to stand up at all, Li Erniu took the document casually, and then threw it on the table.

"Then trouble the two comrades. We have understood the general situation now. Thank you for coming to deliver the documents."

These two people are similar, and they are confused at first sight. What's the situation? Just throw the file on the table casually like this, don't you want to take a look? After all, this is a world-class competition, and there are many items in which the descriptions and passing grades required to be achieved are more stringent than what they usually train to achieve.

Is it so insignificant? Although the two of them knew that Qin Yuan was very powerful, why did they feel like they didn't take it seriously at all?

The man on the side can only remind gently, "Captain Qin, I suggest you take a serious look at it. After all, time is very tight now, and there is only one week left. If possible, I hope you will train more."

Qin Yuan sat up when he heard this, "What? Are you not confident in us, or do you not believe us at all?"

"No, Captain Qin, you misunderstood, I just want to remind everyone."

"Since this is the case, there is no need for that. I am very aware of our own abilities. I am already familiar with those training items in my mind, and I can recite them backwards."

The man in front was stunned. They had just delivered the documents, and this time the world-class military sports meeting was relatively confidential. They would only receive the real competition events after the registration form was handed in.

How did Qin Yuan know? Thinking of this, he became more and more curious, while Qin Yuan asked him to open the file with a confident face, "You can ask any questions, I know all the items well."

Originally, this man didn't intend to ask questions. If he didn't answer, wouldn't it be embarrassing for everyone, but seeing Qin Yuan's confident appearance, he couldn't help but give it a try.

"What are the naval pentathlons?"

"Racing, lifesaving swimming, practical swimming, sailing skills, amphibious cross-country, this is really too simple, all of which are our foundation."

Because there are many events in the military sports meeting, he actually wants to separate the military in a strict sense, but because of the previous unexpected situation, I would rather they can be regarded as rushing ducks to the shelves, but they have the strength.

Qin Yuan stood up and patted the man's shoulder, "Don't worry, little comrade, I have been in the Marine Corps tank company or the air force base before, and I am fully familiar with all the items in my mind. ."

Hearing this, the man felt that he was worrying too much. This guy's most low-key identity should be the captain of the special warfare brigade. He was really running around in various military regions before.

When they left, they also specifically explained that they hoped that they would pay attention to safety at this sports meeting. After they came out, everyone still acted as if nothing had happened, because this was their daily training. Physical fitness is also very reassuring, all of which have been strengthened by myself.

Originally, they were limited to the number of people participating in this military competition, but this time Qin Yuan and his team were in a hurry, so it can be said that they had to do it at the same time.

It was not a big problem for him, a week passed quickly, but this time the competition was held in Country H, Li Erniu couldn't help complaining in the car.

"If you want me to say that this competition is already world-class, it's a small place like them."

"Who knows what is the relationship behind them? In their country, of course they are familiar with the track before them. It seems that everyone still doesn't know enough about them?"

Everyone knows what He Chenguang said. Although they have not participated in other similar competitions before, it is well known that people in country h are very despicable. They don't have any sportsmanship, and they will do anything to win.

This time doing it on their side, isn't it because they are the hosts, and they have taken advantage of it.

Qin Yuan said leisurely in the front: "It doesn't matter where he does it. Anyway, everyone remembers that everyone must get a gold medal in the field they are in charge of. Don't give me a silver or bronze medal. I don't care much about it."

"Hahaha, brother Qin, don't worry, don't you know the abilities of the brothers? The gold medal must be ours."

Because after they got off the plane, there was a special vehicle to pick them up to the stadium. The driver next to him was a local. Although he couldn't hear what they said clearly, he clearly heard the gold medal at the end. The driver smiled with disdain laugh.

This kind of competition is world-class. Even in the United States, which is the strongest in the world, I dare not say that all of them will win gold medals, but the driver didn't say anything, and quickly sent them to the designated hotel. The stadium is behind the hotel. .

When everyone got out of the car, they were instantly dumbfounded. There were too many people queuing up to register, and it was just as they had guessed. Sure enough, there was no experience in holding such a large-scale competition in a tiny place like H country. It is an exaggeration for so many people to live in such a hotel.

From the outside, the hotel looks like an ordinary hotel. There are many people queuing up for registration. At this time, Qin Yuan suddenly noticed a familiar face.

"Isn't that the captain of the Alpha team?"

Everyone followed his gaze, and sure enough, they saw the captain of the Alpha team. He was holding the registration form. At this time, several people got out of the car. I didn't expect that this place was still crouching. Even the Alpha team coming.

Is it necessary to dispatch them in this kind of game? But soon Qin Yuan noticed that not only the Alpha team, but also the Black Tiger Special Warfare from the country d next to them also came. These teams are relatively well-known, and this time the military games are really full of big fish .

The captain of the Alpha team seemed to have noticed that someone was looking at him. He turned his head and saw Qin Yuan. The expression on his face was also very surprised. It seemed that they had participated in many international competitions. Compared with this kind of sports meeting, they simply disdain glance.

Qin Yuan also greeted politely, because everyone was queuing up, the captain of the Alpha team came over to say hello.

"Captain Qin, since the end of the game three years ago, we haven't had the chance to meet each other again, but your reputation is very famous. I have heard of it many times in the world."

"You guys are not bad. I really didn't expect so many capable people to come to such a small military games. It seems that this time is really interesting."

"But Captain Qin, don't worry, we will never show mercy."

"Of course, it's been a long time since I competed with you guys. Although we may not meet each other later, I'm sure I'll win the gold medal."

The face of the captain of the Alpha Squad is a little unnatural. This guy is really the same as before, his temper has not changed at all, he is really too arrogant, but he really has the capital of that arrogance that he didn't grab, even someone as powerful as Qin Yuan came here This time the game was too difficult.

A few people from the Special Forces appeared in the back. Everyone felt something was wrong when they saw this. Isn't this just an ordinary military sports meeting? Why is it so exciting? Basically, some aces came to participate.

Qin Yuan felt that things here must not be that simple, and soon it was their turn to register. At first they thought that at least one person had one room, but the waiter at the front desk said very apologetically: "Everyone, we compete according to each country. It is assigned according to the situation of the personnel, so you will be in the same room."

It sounds like they are thinking of them. In fact, it is not because there are not so many rooms to arrange. It is really too stingy. World-class competitions here are so sloppy.

Anyway, they came to participate in the competition. Qin Yuan and the others didn't say anything. They followed the staff upstairs. They lived in a room on the sixth floor. Coincidentally, the members of the Alpha team lived next door.

After everyone entered, they suddenly felt that this was the wrong room? It was clearly a standard room, but six beds were abruptly added.

Li Erniu didn't get angry, and threw his backpack on the ground. He wanted to go to them to argue, but Qin Yuan shook his head. Here it is.

"This bed is not as wide as our dormitory, it's really stingy."

"Forget it, everyone is here to participate in the competition. The competition is the main thing. The rest is not important. After the competition is over, we will go back."

Qin Yuan and the others prepared to eat in the cafeteria downstairs after they packed up their things. The main reason was that the staff had informed them that after eating, there would be a bus to take them to the stadium for the competition. It was said that the stadium for the competition was in front.

But there were so many people, so the organizer also thought of a countermeasure, taking everyone there by bus.

After all, the official competition will start the day after tomorrow, so they have to go to familiarize themselves with the venue of the first competition in the past two days, as well as which sports they are involved in. They should be familiar with it today.

When Qin Yuan and the others came down, they saw a few people making noise in the lobby. Looking at the logo of the clothes, they seemed to be from country A. They were also complaining

that the room was too small, but the staff at the front desk said that there was nothing they could do about it. , can only be arranged in this way.

This time, h country really doesn't have that diamond, so don't take the porcelain work, if you can't do it, you have to force it, even the place where you live is arranged so shabby.

Qin Yuan shook his head. It had nothing to do with him anyway, and he was not the one who was laughed at. It was just that they were even more dumbfounded when they came to the cafeteria. The self-service area they agreed to see was full of kimchi at a glance.

Li Erniu picked up the delicate plate suspiciously, "Don't tell me this is what we want to eat."

The staff next to it came over enthusiastically to introduce them, telling them that this is a self-service area, all of which are their special kimchi, everyone's face was blacked out instantly, this is really too stingy.

A few people didn't pay much attention to it. They ate something casually. It's better to go to see the competition venue earlier. This time, there are too many people participating in the competition. After entering the gymnasium, they saw various competition venues.

And the competition venues are also very different, there are indoors and outdoors, because they still have skydiving, at least in terms of training, they are relatively strict, so there is no need to be picky about it.

The three items of skydiving were all covered by Qin Yuan, because the main ones were acrobatic skydiving, fixed-point skydiving, and modeling skydiving. The difficulty of these skydiving is relatively high, so Qin Yuan chose to complete it by himself, and let them choose the others.

When Qin Yuan and the others uploaded their registration items, the staff soon came to find him.

The attitude of the staff is okay, "Hello, I want to ask if your registration items are confirmed?"

"Yes, what's the problem?"

"It's like this. We saw that you all participated in several games in a row by yourself. The interval of this game is very short. Are you sure there is no problem?"

It turned out that what they considered was this, just like Li Erniu, he participated in a race in front of him, followed by another 400-meter cross-country obstacle, and most people are already exhausted after running a 400-meter cross-country obstacle I did my best, because there are too many projects in the middle.

So the staff quickly made sure, Qin Yuan said that there was no problem, and that was how their registration was.

Although the staff found it strange, they still submitted the registration project according to their requirements. Anyway, this is their business, and I have reminded them.

After watching the competition venue, Qin Yuan and the others returned to their place of residence. At this moment, the system suddenly issued a notification sound.

"Ding! Remind the host that powerful mechanized equipment appears around."

Mechanized equipment? Qin Yuan didn't figure it out for a while, and he didn't understand until he clicked in to check it in detail. It turned out that it was the transformation of a cyborg like Long Xiaoyun before Speaking of this, he suddenly remembered the country c before They are doing such a secret experiment. They transformed some soldiers into a half-human and half-mechanized state. They were doing this experiment before.

Could it be that these people are participating this time? He turned his head and looked around, and in a corner, he saw a few people from country C.

This time they were very low-key, although there were many vacant seats beside them, but they sat in the corner, Qin Yuan could tell that those few people were not simple.

His eyes were a little solemn. This time the competition was too deep, and he couldn't tell for a while what conspiracy was behind it, but this was really unfair to the other competition personnel.

Semi-mechanized like this, they have undergone complete external transformation, whether it is physical strength, speed or senses, they are several times stronger than ordinary people.

However, if these people were to face Li Erniu and the others, they would be at about the same level. The members of the red blood cell team had already been strengthened by him, and their physical fitness had also been improved.

But the more this situation is, the more you can't be careless. He turned his head and told everyone, "Everyone remember, as long as there are people from C country in the next project, then give me your best and rush forward."

Chapter 1633: plug-in

Li Erniu didn't understand. "Brother Qin, I remember that in this country c, they were not outstanding in some sports games. They probably won't have the turn to compete with us. They probably will be eliminated in the first round."

"Do as I said. These guys have already made preparations. Didn't you see that all the special forces came this time? So it's obviously not easy."

Li Erniu could only nod his head. Although he didn't know exactly what would happen, he was still very confident in himself.

Although the specific list has not yet come out, the situation is similar, because this is a kind of sports competition, everyone will participate, and then gradually eliminate, and finally compete for gold, silver, and bronze medals.

In order to learn more about the situation, Qin Yuan got up and went to the next room. He knocked on the door. The captain of the Alpha team came to open the door. He felt a little strange seeing Qin Yuan.

"Captain Qin, what's the matter with you staying up late at night?"

Qin Yuan looked at the few people inside who all looked at him warily. No matter what, they were all competitors, and it was inconvenient to talk in this place now.

"I have some other things I want to discuss with you, but this is not the place to talk, or go downstairs for a cup of coffee?"

The leader of the Alpha Squad didn't hesitate, "Okay, then you go down first, and I'll come in a coat."

Qin Yuan nodded, and then walked down first. As soon as the door was closed, the team members inside immediately raised objections.

"Captain, we're about to start a match, isn't it good for you to go find this guy now? Who knows what he's going to do?"

"Don't make people think so complicatedly. When we got in touch with him in the past, at least this person will not make any small moves behind his back. He is relatively upright."

"But in this case, we have to guard against it. If something goes wrong, our competition will be ruined this time, and it will affect our reputation even more."

"I know this, but don't worry, of course I have my own discretion in doing things, and I know what to do."

After finishing speaking, the captain of the Alpha team went out. The team members behind were worried, but they seemed to have no choice, and if they refused directly, wouldn't they be too cowardly?

When he went downstairs, he saw Qin Yuan sitting in a corner and beckoning to him. There were basically no people at this point, only two or three scattered here and there.

The seat where they were sitting was relatively quiet. As soon as they sat down, he couldn't wait to get to the point directly, "Captain Qin, what do you want to say? Tell me quickly, I really want to know why you came to us suddenly?"

"Sure enough, you are also the captain, and you have such a straightforward personality, so I'll just say it bluntly. Did you come on the bench this time because something happened to the team?"

I only saw a slight look of surprise on his face, but he quickly restrained himself. After all, this is also some of their secrets, and it must not be revealed to the outside.

"Captain Qin, I don't quite understand what you mean by this. We just participate in the competition normally, and this kind of competition is just a warm-up, it's nothing."

"Hahahaha, it seems that you are still on guard against me, but I really want to talk to you, because we became substitutes because of unexpected circumstances, don't you think it's strange? It's a Special Forces soldier."

Hearing that Qin Yuan was the first to reveal his trump card, the captain of the Alpha team didn't hide it, and could only nod to show that it was indeed because of an accident with the team members who had prepared before.

But their accident was a little different. The captain and team members of that team all submitted applications for withdrawal due to various reasons, so there were no substitutes for a while, and they could only be allowed to play in the end.

This time the Military Games is about the honor of everyone and the country, so the higher-ups also attach great importance to this matter. Alpha Squad is used in the Military Games. Although it is a bit of a fuss, at least it saves face.

He didn't expect that he would find Qin Yuan's red blood cell team after he came to this place. At that time, he also felt that something might be wrong, but he couldn't figure out what was going on.

Qin Yuan always had a bad premonition. This time, he mainly wanted to remind the Alpha team. In his eyes, they were also a relatively good commando team. No matter what, they didn't have a big conflict in general.

"Whether you believe what I say or not, you must be careful about country C."

"what do you mean?"

"I've already said what I should say. There are too many things I can't say clearly, but this accident is not simple. You'd better be careful, especially your team members."

Faced with this unfair situation, Qin Yuan could only use this method to make a point. No matter what, in this game, although they were rivals to each other, he still valued the Alpha team.

After finishing speaking, Qin Yuan left. After the captain went upstairs, he couldn't figure out why Qin Yuan said these words to him. Was he deliberately trying to sow discord, or did he really want to remind him?

Anyway, be careful about this, as a member of the special forces team, if he doesn't lose in this kind of competition, he will really lose face.

Moreover, this sports meeting is extraordinary. Qin Yuan and the others are mainly in charge of the first few general positions, and there are other sports events in the back, because there are so many sports events of this kind, it is impossible to complete them alone. Among several countries, it is like this that the leading team will report and other team members will be sent out later.

Those basic sports, such as basketball and badminton, are done by the team members at the airport, so there is still a difference in essence.

More people came on the second day, mainly because the participants from various countries had basically reported. Qin Yuan and the others had also made preparations for the reception. Qin Yuan and the others were mainly preparing for the military and other sports. Leave it to the basic players.

The more lively people in the stadium are getting more and more. At this moment, Qin Yuan understands why such small rooms are arranged for them. The two hotels behind are here to accommodate these athletes.

The following specifications are basically four or six people per room. To be honest, it is quite stingy. This time there are a total of 104 countries participating in the competition, with a total of more than 9,000 people.

A total of 403 people from Qin Yuan and his side participated in the competition, and there were more people participating in the basic sports, so they were all arranged by the organizer.

The arrangements for the staff were almost the same, and the opening ceremony began immediately. On the day of the opening ceremony, Qin Yuan finally saw Country C. These guys had been keeping a low profile before, but now they finally showed their faces in a fair manner.

Qin Yuan began to identify with the system, basically all of them were semi-mechanized transformations, and people couldn't tell any difference from the appearance.

I don't know which game c country is playing, but these cyborgs have been used in this military games, and it is estimated that they will be used more widely in the future.

After the opening ceremony is over, it is time to officially enter the competition venue. Various competitions are proceeding in an orderly manner. Qin Yuan and Li Erniu are completely separated, because his main competitions are skydiving and stunt skydiving. It is very difficult.

The players from the U.S. played first, completed the basic moves, and finally landed on the target point smoothly. As long as there are no mistakes in this wave of operations, basically there will be no points deducted.

The extra points are judged based on the completed movements and tricks. The results of the United States are not bad. There will not be too many problems in this kind of skydiving. After all, everyone has military literacy, and the usual training has already been completed. effort.

At this time, it was the turn of the players from country c to play, and Qin Yuan stared at him intently. The current bonus item is to use more tricks and movements in the air, so as to get extra points.

Unexpectedly, this guy actually used a 180-degree rotation during the skydiving process. This action quickly got extra points from the judges below. It is difficult to complete difficult actions in the air, and it is necessary to find the right time to prepare open umbrella.

Just when he was about to open the umbrella, another 180 degrees came, and the judges in the audience gave high marks instantly. So far, this is the highest score that has been achieved on the field.

The players from the American country frowned. They thought they were sure to win this time, but it looked like there was no hope. They didn't expect that the performance of country C this year was too surprising. Normally, they couldn't even get into the normal rankings.

Qin Yuan is following country c. Everyone is looking forward to it even more. They don't know how Yan country will perform this year. The players from country M said leisurely: "There is no comparison. He has already got the highest score. Can he do more exaggerated moves than this?"

"This may not be true, after all, their previous achievements in Yan Kingdom were also very good."

The players from the U.S. are very disdainful. Based on this situation, at least he can get a bronze medal. After all, he has completed all the basic movements before and landed very steadily.

Now there is no need to worry too much. Unexpectedly, when Qin Yuan appeared on the stage, he shocked everyone even more. At the beginning, he made a 360-degree turn in the air, which was more exaggerated than the previous 180-degree turn.

Then there was a continuous big turnaround in the air, which no one could do. He was getting closer and closer to the ground. At this time, he opened the backpack. His speed was extremely fast, and he controlled the backpack and landed steadily on the target point. There was warm applause from the audience.

This speed is clean and neat, and he completes all the movements without breaking away from the water, and also adds other movements.

The commentator was also beside him, very excited. It can be said that he has won the championship steadily with this jump, and there is absolutely no problem with this event.

After he came down, he noticed that the team members of country c looked not very good, and they were staring at him closely. After all, they had undergone physical transformation to achieve that level, and now they were a little suspicious of life.

Qin Yuan basically covered all the events like skydiving, and he won three gold medals that day, and he got the best ranking in all the events of skydiving.

But the other team members were not so ideal. Synthetic Light actually won the silver medal in shooting. Originally, his ability to win the gold medal was steady, but he didn't expect Cheng Yaojin to come out halfway. Contrary to his expectations.

This kind of shooting is more difficult than the shooting in their usual training. The synthetic light can be regarded as playing his normal level, but he didn't expect that country c is even more powerful.

Not only that, but in the next few days of the competition, their advantages were even more revealed. Because of Qin Yuan's relationship, they had been ranked first, and they were the ones with the most gold medals, but country c soon Just surpassed, Qin Yuan really couldn't do anything about this kind of crowd tactics.

Because in addition to these specific military strength competitions, there are other basic sports. Basically, their entire team is semi-mechanized, and their physical fitness and responsiveness are stronger than ordinary people. This is simply unfair.

There was no comparison at all. The data was monopolized for a moment, and country C rushed to the first position. It was not until this time that the captain of the Alpha team realized that something was wrong. Qin Yuan had been telling him to be careful before.

Unexpectedly, the members of their special operations team would still lose in military competitions. This is what confuses him the most. Up to now, they have only won a few bronze medals, and they can't get the silver medals.

The competition has been on the fourth day, and in three days, all the competitions will be completely over. This time the results are not very ideal for everyone, especially the basic sports.

The more you get to the back, the more you can't lift your spirits. Qin Yuan can only hold a brief meeting for everyone. How can this win?

Qin Yuan has no choice but to try his best to participate in the competition, but he can't do everything. He is only one person, and the competition events are separated, so he can't participate in many things.

After the meeting, everyone seemed to have a little bit of morale. At least Qin Yuan was still taking the lead. Just as Qin Yuan walked downstairs, he saw two team members from country C sneaking up to the third floor.

Qin Yuan took a look at the third floor, which seemed to be where they lived in Country H, and their athletes also lived here, all for unified arrangements, but did Qin Yuan think it was such a coincidence?

Thinking of this, he quickly followed up. The main reason is that Country H is determined to host the military games this time. All the coincidences, it seems that things are not that simple.

As soon as he went downstairs, he saw two H nationals standing at the door. Fortunately, he was extremely fast, so he jumped to the stairs and hid in the upper compartment.

I didn't expect them to be guarded here. The floor here is much more exaggerated than the one above. I have never heard of a guarded floor. It seems that they are unconsciously registering with a work card.

Those two people also seemed to have heard the movement and came out, looked up suspiciously, and found nothing unusual.

#### Chapter 1634: The conspiracy of several countries

At this moment, Qin Yuan was hanging on the protruding platform of the building in an extremely difficult way. Fortunately, the two people in front of him didn't notice anything, and there was nothing unusual after looking around, and then left.

The more careful he was, the more Qin Yuan felt that there was a problem. After walking far away, he jumped off the platform and followed quietly.

I looked at the ventilation pipe in front of me, climbed along the wall next to it, and after a while, some soldiers from country A left, and I noticed that they seemed to be leading the captains in the team.

The situation is a bit more complicated. I didn't expect that even country A would participate. Now the schedule is nearly halfway up, and country C is basically the winner.

At this critical moment, it will definitely be a good thing for several countries to come together. The location of the ventilation pipe, Qin Yuan can only see the door.

And you need to be so thoughtful that you can hear the information you want just by being there.

After another twenty minutes or so, after the team leader from another country entered the room and closed the door completely, and followed by some pretending to be cleaners, they began to clean the entire third floor. In fact, the purpose was to Substitute.

Qin Yuan's location is very secretive, and he can only be identified based on the accent inside. At first, it looks like country A.

"It really makes me gain insight. How long has this kind of research been done? I'm more curious about what kind of damage it will cause, especially if it's reversed."

"Country H has the same problem, and no matter how you say it, the most powerful one has tried its best to contract the venue, which can be regarded as a good cover."

Hearing this, Qin Yuan understood that the countries had already hooked up. No wonder the water behind was so deep. After listening to it for half a day, he left in batches. After a while, even the watchmen in the corridor began to evacuate. Qin Yuan jumped when he saw the machine.

Really, because of the loss of super weapons, countries are starting to develop their own forces, and they are very worried, so they want to act urgently.

After returning, He Chenguang just took a shower and left, "Brother Qin, why is it so late? I've been waiting. The captain of the Alpha team also came looking for me just now, as if to discuss something."

Qin Yuan only nodded perfunctorily. Compared with what he heard just now, some of them are heavy. Now he has figured out the purpose of those guys, but he can tell others, because the content is concealed. The main situation is about the super transformation Soldier.

In the beginning, the genetic modification carried out by the masked male pair has a fatal flaw in the modification. If it can be systematically fused like Qin Yuan, it will have a high success rate, but the number of people who can be fused accounts for more than half.

Basically, ten talents can be fully integrated, and the research and development capabilities are random and very stable. In this case, another research has been carried out, that is, semi-mechanized soldiers.

Just like Long Yunzhi, now that although the whole organization of the masked man has been taken over by him, those behind him are slowly revealed, especially in country C.

The core strength was quickly mastered. The half-mechanized soldiers developed in a decent way are more stable than ordinary soldiers, and the master is more moldable. Although the research cost is relatively high, its value far exceeds its own cost.

One time, including letting Qin Yuan participate in the competition, it was planned, even the Alpha team, the country C side let him see the ability of his super soldier, in terms of basic sports literacy in all aspects.

Qin Yuanzhi's guess was correct, all the accidents were done by hand, using those super soldiers, so there was no flaw left, and the countries were already on guard, and there was no communication about this kind of thing, everyone belonged to the players Classified.

Therefore, countries do not know each other, so the main purpose of country C is to show its strong ability to transform soldiers, and then let country H and country A reach cooperation.

It's wrong to say that it's going on, look, the military games will take the rankings, and the most important thing is to test the country's ability to reform soldiers.

Faced with this kind of thing, Qin Yuan has no way to stop it, and now he can act out of thin air, and he has no evidence, on the other hand, even if the matter is stabbed, it will not do any good.

The master did not have more accurate evidence, and when the masked man was destroyed, all the data was destroyed. So even if the investigation later is more difficult, the country C side is doing it very covertly.

Now I just hope that the so-called competition will end as soon as possible. Although the expectation was not met once, it is already very wrong compared to other countries. After all, some of the medals were contracted by country C, and the rest were taken by the side.

As for other aspects, I hope that some people will stretch their hands and say that there is no conflict of interest.

After a few more days, the institute's competition events have been completely over. Although my family is more or less reconciled, this year's country C has become a hot search, and the results of the basic institute's events are very good, and there are no mistakes.

For some things Qin Yuan wanted to care about, they were just a bunch of despicable people. It was a bad thing for Qin Yuan to know about the conspiracy of the three countries in one military games.

After returning, Qin Yuan trained more vigorously, and now he has successfully trained two special forces, and the merit points have increased a little. It is more difficult to strengthen all the merit points, and it has to rely on completing other tasks.

Now I am in a hurry to train, because I saw those mechanized soldiers. Compared with ordinary soldiers, there is really no way. They have plug-ins at home. No matter what they encounter in the future, they will be absolutely restrained.

So now I urgently want to get merit points, but the system has not prompted for a long time, and the master basically has no tasks recently, and the players who follow the training have to let others experience, and now they are the hands-off shopkeeper, and the master is responsible for the rest.

I supervised the training early, and basically changed the training plan according to the training situation in the afternoon, and the training plan was the same.

Sitting on the playground, studying the training plan, Li Erniu left with a letter in his hand.

"Brother Qin, there are still more letters in the week, so let's look at one by one, seven."

Hearing this, Qin Yuan felt a little curious about who sent them so frequently, one by one, because the training is basically closed now, and the training venue is the same, the letters will be delayed a little bit, it is estimated that some letters will be accumulated, and then distributed to the side.

After Li Erniu took the letter, he sent it to him. Qin Yuan turned his head to look at the playground and didn't pay attention. He ruled out any way of sending letters. Anyone who definitely knew him had his contact information.

Sure enough, after opening it, I looked at the cover of the book and it was sent by a certain newspaper. It seemed to be mail, letters and the like, but the words inside were very simple.

"Mr. Qin, Mr. Jia attaches great importance to your calligraphy and paintings. Would you like to have a cup of tea at home to catch up with the old days?"

The words reminiscing about the old days are quite meaningful, which means that he knows, or knows himself, but Qin Yuan seems to have no friends in painting and calligraphy after thinking about it for a while.

The contents of the several letters I opened were almost the same, and the tone of the interview became more and more polite, until the last two covers used more modal particles.

"Mr. Qin, I hope you can answer the question about calligraphy and painting as soon as possible. Mr. Jia has been ill recently, so he has more time. I hope Mr. Qin can give the opportunity. Mr. Qin will definitely thank you when he arrives."

I wanted to answer the question of what kind of calligraphy and paintings to read inside and outside the words, but I was quite persistent seeing how many thick letters could be sent.

There is also an address on the letter, only the address is written very well, the address is the bus station next to Xingfu Street in Longshi?

Looking at the address, Qin Yuan was also surprised, and quickly understood that the other party should let him go to that place first, and he would pick it up, and wanted to reveal the real address, which was really concealed enough.

The more you look, the more interested you are. My family has already sent so many invitations, so it would be more appropriate. Recently, I have been worrying about the task, and it's okay to stay in the team. It's better to have a look, and I'm sure I'll meet something opportunity.

Just explain a few things, let them take the training, pack it up and send it out, and the estimated time will be long.

Qin Yuan arrived at the bus stop in the afternoon, and was wondering how the other party would pick him up, when suddenly a rental car stopped in front of him.

"Mr. Qin, hello, the one who picked you up is finally waiting for you."

It can be seen from these behaviors that the people behind them are not only very low-key, but also very close in doing things, like renting a car on the street, so it will also attract their attention.

In terms of completely covering up his whereabouts, Qin Yuan had nothing to fear, and got into the car directly. The driver was chatty, stopping and talking all the way.

"Mr. Qin, I also admire his courage. In such a situation, he just said a word and drove straight away."

"With admirable courage and strong strength, even if you want to stop now, it's a matter of minutes."

The driver smiled, then quickly changed his tone, "That's right, I have no brains, I hope you don't mind."

Qin Yuan was interested, and directly asked the other party what he wanted to do and where to take it. The driver was also very clear about the specific things, and only said that since the letter was sent, he would patrol every day.

After all, Qin Yuan's whereabouts are mysterious, for the protection of the troops, so the other party also found it, but even after that, this situation is very forced.

I can only use a stupid way, wandering around the bus station every day, and then met Qin Yuan today, and asked about the specific situation later, just one.

After getting to know a little bit, the rented car started to get on the road, and after a while, he left the urban area and arrived in the suburbs. Qin Yuan remembered that an area seemed to be full of villas in the future.

It's really simple for a guy who likes his calligraphy and painting. After entering the villa area, Qin Yuan thought he would go inside again, but he didn't expect the first one to be quite good in terms of size.

To be precise, the area on one side is more like a manor. Each area is independent, which can be regarded as better protection of privacy. There are basically no security guards along the way.

The master next to him also patiently explained, "Sir, you have a piece of privacy, so you can rest assured that you will only be on the way all the way, and you will never know where you are."

Qin Yuan, who was so mysterious, became more and more curious After the car stopped at the door, he was greeted by the car just after the car, and the people in their 10s and 40s were greeted with a smile, but they were more polite.

"Mr. Qin, please follow me, the Patriarch is already waiting in the room."

After entering the manor, Qin Yuan looked around slightly, good guy, the green belt on the side, and the building opposite are all in ambush, the cleaner next to him looked at it attentively, but actually looked around.

Seeing the situation, Qin Yuan was a little happy, "I know what's going on, but it's best to make some movements under the eyelids, rubbing sand in the eyes, since you are invited, I will definitely help, so don't make some movements to poke the eyes."

The man in front of him immediately understood what he said, and took out a few words on the walkie-talkie. Soon, all the guards around him had completely evacuated, and now he felt more comfortable, at least being watched by the family all the time.

Qin Yuannan was led to the upstairs, and the decoration in the whole manor was more luxurious and focused. After entering the commissioner, Qin Yuan was more sure that he must know the people behind.

Chapter 1635: rescue operation

There are actually all kinds of calligraphy and paintings hanging in the main manor. Is it possible that the guy really collects calligraphy and painting? I really thought about it too much, because I always felt that it was so mysterious.

He would simply collect some calligraphy and paintings, and when Nian was thinking about it, he opened the door of the room. After Qin Yuan entered, first of all, there were two or three medical staff standing on the side of Nian in India.

There are some security guards next to him, and it looks like the letter said, the guy is really sick, and with decent money, so many private doctors can be invited to the house.

Qin Yuan went to observe carefully, only to see a white-haired old man lying on the bed, the old man's complexion was livid, and he was in very good condition. Even in such a situation, he still struggled to remember to say hello, Qin Yuan waved his hand.

"As far as the status is concerned, don't worry about it, it will only take a month or two."

Hearing the words, the doctors next to him were happy. These doctors belonged to the old private doctors who have been helping to manage their health. They must hope for the better, but the guy started talking wildly.

"Although Mr. Zhong invites guests, he really wants to say that he can show some respect, so he can talk like that."

Unexpectedly, the old man who was lying on the bed didn't mind, instead he said with a smile: "What are you panicking about? The ones who really dare to tell the truth, seem to be fooling around, what do you know about your own body."

The doctor next to him was a little embarrassed, and he bowed his head and could only explain in a low voice, that he would definitely guarantee the old man's health.

After the old man finished speaking, he coughed a few more times. Qin Yuan took a real look and started to take his pulse. The situation he saw just now was much worse. The old man had problems with his liver and kidneys, especially his kidneys. Now one kidney was necrotic, so he had to rely on the other. Kidney barely maintained.

It's also the money of the old guy, who has been spending money to use imported medicines from abroad to crane his life, otherwise he would have passed away long ago.

The old man on the bed waved his hand and let everyone know that only Qin Yuan was left in the whole room. Seeing the situation, Qin Yuan also understood and simply asked for calligraphy and painting.

He also simply went directly to the topic, "If you want to be saved, then you can see what benefits you can give. I can guarantee it, but at least you can live for a few more years."

I thought it was an old purpose, but I didn't expect the old man in bed to shake his head, "Mr. Qin, by the way, compared to life, it's more important. I hope it will be done for me. Of course, the reward will be very generous. "

The old man paused for a while, struggling to lean up, so that he could breathe better, and now his physical condition is indeed extremely poor.

"Let's talk about the remuneration first. Sensei is interested. If the job is done for me, all the dealers around me will pay for it."

Qin Yuan smiled, it's just a manor, it seems that the money in his hand is enough to buy a few cents, and there is no temptation to grow things.

I always looked at Qin Yuan moved, and felt a little strange, "Mr. Qin, what are you thinking about? The commissioner in Zhibian has a long history, and the cost is also very high. From the inside to the back, the commissioner in the entire western area, what you said of!"

I didn't expect that the old guy would buy all the villas in the entire western district for so much money. If you count them in detail, there are at least a dozen of them.

The cost is very high. To be honest, Qin Yuan is really tempted, but often he can pay such a high salary, and the task behind it is also very difficult.

"The conditions are wrong, let's talk about the specific situation first, and see if you can agree."

The old man nodded, but now it is very difficult to say a few more words, Qin Yuan actually sees that, anyway, he can help to the end, besides, let him recover a bit, explain the matter clearly as soon as possible, and stabbed the old man's arm a few times with a silver needle.

I didn't expect it to be so simple. In an instant, I felt that the blood in my body was unobstructed, and it didn't take as much effort to speak as before, and I was even able to stand up.

The look in his eyes revealed a kind of joy, and he stared at Qin Yuan intently. His eyes were really as powerful as the legend said, and his abilities, especially his medical skills, were really incompetent.

The old man recovered a little, and then he began to slowly talk about it. His old name is Zhong Min, one of the top real estate tycoons in Long City. In addition to some manors, there are many real estates in his place.

In just two years, due to health reasons, he basically sold all his real estate, and all the money was invested in the side manor.

He has been diagnosed with severe kidney failure for about three years, and he is slowly supporting his body with money. Zhong Minzhi and Liu Huaqiang cooperated. Liu Huaqiang heard about Qin Yuan's reputation, so the two have not seen each other.

When Qin Yuan helped Liu Huaqiang, people in that circle would basically introduce each other, and decent resources were also considered a means of trading.

And once he asked Qin Yuan for help, he rescued his only daughter, the president of the Foreign Wildlife Conservation Association, who specializes in protecting endangered wild animals abroad, and long-term wild raids are quite hard.

Zhong Min said many times that he wanted his daughter to come back. Now that he has the same idea as a young man, he also calls less, but the child's attitude is very firm and he insists on his career.

There is no way to do it later, I can only follow the child, but I didn't expect that there was a war in the area where my daughter lived this year, and now it is completely blocked, I have sent a young man there, and even contacted the local employment group.

My daughter still hasn't got any contact so far. I haven't had any contact with her for two full months. I am very anxious and I have searched for a few later, but when I don't know the area, they all refused.

The place where the daughter lives is a place close to the border of country O, where there is a vast primitive grassland, but in addition to wild animals, poachers and various organizations are all entrenched there. Now that a war has broken out, several parties The forces became more chaotic.

That place is really dangerous. Now that there is a war in the country, it has been blocked. It is easier to enter, but it is even more difficult.

So far, the price has been raised very high. If only the daughter is saved, a price of 300 billion will be offered directly, but no one dares to accept it.

When Qin Yuan heard the staring eyes, the old guy was lying again, but he was also polite, and exposed it on the spot, "Wait a minute, say I didn't dare to accept it, don't fool around with such a high price, I know there are many excellent ones, if you really want to invite Help, then tell the truth."

Because Qin Yuan wanted to know more details, the more he knew, the better. Zhong Min didn't expect Qin Yuan to be so cunning that he didn't lie.

I can only honestly say that when it is true that two domestic teams have taken over, they are all composed of civilians, some of them are composed of retired troops, or some special instructors are very wrong.

But two teams have already been sent, and in the end there was no news from them. After entering that area, they disappeared completely. If they contacted the back again, their reputation spread, and they didn't dare to accept the mission again.

Qin Yuan was very smart, and looked around for a while, "If I'm not wrong, the non-government organization I'm looking for should be the Dragon Gang?"

Zhong Min nodded repeatedly when he heard Li, and hid everything he saw. Qin Yuan smiled disdainfully. No wonder he didn't dare to take over. The Dragon Gang is also relatively well-known in the local area. It specializes in solving various special incidents abroad, and some foreign countries are under control. , There is no way to go back, and some private organizations will be found to take over.

The Dragon Gang is relatively well-known, and they even return the pies, let alone theirs, no matter how high the price is, it will cost them money.

Beside Zhong Min was very hesitant, knowing whether Qin Yuan would be willing to help, Qin Yuan stretched out his hand in a second, "Okay, I promise, and hand over the photo of my daughter."

"Really? Are you really going to bring it back?"

"It can be faked. If you say it, you will definitely do it. Don't worry, as long as you are still alive, you can bring it back. But if you only find the dead body, how about returning it?"

Unexpectedly, when it comes to Zhong Min, he is very sure, "Absolutely, he must be alive, very sure."

Qin Yuan didn't find anything unusual at the time, and when he heard this, he usually only felt the obsession of his parents' heart, and didn't think about it.

"Mr. Qin, how long will it take? Don't worry, all the problems of the plane ticket will be resolved, and there is nothing you can do to help after you get there."

"How to get in there, just send it to the periphery, and do a detailed investigation, and report it anyway. How about it, San should be able to bring it back, at most a week."

When it came to the time limit, Zhong Min's eyes flickered with excitement, and he called impatiently, and after a while, the person in person delivered the materials.

Qin Yuan opened the profile and saw what the old man looked like. He didn't expect his daughter to be quite beautiful. Her daughter's name is Zhong Chuchu. She is 24 years old this year, a student who has just graduated and has been abroad.

Seeing Li Qin Yuan shook his head, if so, then the chance of survival is low, there is no news for two months, how can a weak woman survive in such a war-torn area? Just looking at the state of the old man, I can't bear it. Besides, since the old guy insists, let's take a look.

Hou Zhongmin said slowly: "Mr. Qin, do you need his hands? There are many sides."

Qin Yuan shook his head. The area over there is rather chaotic. If you look for it, you can say that there is no problem. If you take it with you, it will be completely cumbersome.

Hearing Zhong Min's surprise, the guy is really courageous, he can be a lone hero in the face of all kinds of situations, indeed this kind of courage can generally bear it.

In order to save time, Qin Yuan chose to send it immediately, Zhong Min was very happy, and directly sent a special car to pick him up, thinking that it would be more troublesome, and found that all flights there have been grounded.

As for the issue of money, my own private helicopter, even the helicopter can get close. After all, there is a war over there, so if there is any accidental injury, that's fine.

The helicopter was dozens of kilometers away from that area, so it had to be forced to stop. If it went further, it was likely to be detected and Qin Yuan could understand that tens of kilometers was far away.

The helicopter also lost a bag of equipment, Qin Yuan opened it and looked, good guy, Zhong Min is really simple, all the things he makes are hard currency.

In addition to the submachine gun, there is also a sniper rifle, and the rest are blasting grenades. If you buy some things, there will be no problem, enough protection.

From the helicopter Qin Yuan began to walk on foot according to the map, the speed was very fast, and the location was patrolling in country O, after all, it was completely blocked.

They were all cleverly hidden by Qin Yuan, and the border line inside was also very long, no matter how defensive they were, they were always negligent.

After it was dark, Qin Yuan successfully sneaked in. He didn't hear any gunfire inside. It should have just been a truce, because he could smell the smell of fireworks in the air.

Qin Yuan found that he had to go to the primitive grassland first, so that he could start investigations there. The closer he got to that area, the more he could see the wounds left by the war. There were a lot of beautiful things everywhere, and there were many bomb craters on the ground, which was shocking to see.

I am used to these things, but I am more and more worried about Zhong Chuchu's situation. The battle here is said to be very fierce. According to the clues provided by the information, Zhong Chuchu is accompanied by a security team, which his father specially uses for protection.

In this kind of real situation, even the security team can hardly survive, and in this desperate situation, it is hard to imagine what will happen.

Chapter 1636: Are you still alive?

The journey along the way was very tragic, and bombed-out buildings could be seen everywhere. Qin Yuan should have been fine along the way, but he heard some slight movements from the ruins ahead.

Hurry up to hide your figure along the base of the wall. It is about seven or eight kilometers away from the wild protection base given on the map. Dark Qin Yuan saw that he had crawled through the ruins. Dressed like that, it should be the local people, just to avoid war.

After Qin Yuan walked around the area, he saw that the local armed groups were patrolling, and their target direction was obviously his own area just now. Qin Yuan only hoped that the civilians behind him would be safe.

The current situation is very stable, so it is very chaotic, and some militants will catch local civilians to increase the number.

I can participate in some things. After all, the internal affairs of the family are still more important to do. Although I heard the cry for help from behind, there is no way.

I will talk about it after I find it, and soon arrived at the wildlife protection base. The building is relatively intact, but there are still some signs of being attacked by bullets at the door, and the signs at the door have been hit.

The main base was originally established by an international organization, and some individual armed forces dared to act rashly. From the position, it can be seen that the inside is completely blocked.

Qin Yuan tried to push it. There should be a heavy object inside the door to resist it. He jumped and jumped directly from the high wall next to him. He only saw it after jumping into the courtyard. The reason why the door was pushed open was because there were many piles of Office desk.

It seemed that Zhong Chuchu was still alive, after all, those militants hadn't entered yet, but Qin Yuan immediately denied his idea as soon as he turned his head, because a hole had been punched in the side wall, and Hei couldn't see it clearly just now.

The things in the yard are crumbling here and there, basically nothing of value, just some tables and chairs that have been taken away, and there is only an office building inside. It looks very chaotic, and I don't know if I can still live in this situation.

We can only investigate first to see what clues Zhong Chuchu will leave behind. Clear bullet marks and some bloodstains can be seen in the corridor, but no corpses have been seen yet.

After Qin Yuan walked to the second floor, he pushed open the door of the room and was completely shocked by the scene in front of him. There were dozens of corpses lying densely inside.

Judging from the clothes, they should be protecting the staff in the base. Hou Qinyuan also noticed that the clothes next to him were the same, all in camouflage uniforms, and turned over the corpses.

Zhong Chuchu should have asked Zhong Min to rescue his daughter, but they all died. It seemed that Zhong Chuchu had resisted for a while, but the local armed forces were so vigorous that even those inside the base could not completely protect themselves.

The question is where is Zhong Chuchu? Qin Yuan searched around, but found no other clues except for the corpse over there.

Whether he was alive or not didn't matter, Qin Yuan didn't let it go, he searched all the way to the top of the building, and heard a slight movement inside a water tank.

Quickly climbed up the water tank, opened the lid, and saw a man in a camouflage uniform lying inside, his breath was already very weak, Qin Yuan looked at the situation inside the water tank, the water tank was about two or three meters high.

The man who fell to the ground had a complete difficulty in his left leg, and now he could smell a foul smell. There were some food packaging bags next to him, which should have lasted for a long time. Get a clue.

The man only opened his eyes slightly, and he didn't even have the strength to speak. Qin Yuan put his hands on his shoulders and restored his body a little, before the man could barely speak.

"No water? Can I have a drink? It's been a long, long time since I've had it..."

Qin Yuan took a pot of water from his backpack, and the man drank it without hesitation, but after a while, the pot of water was completely drained, and he was still a little bit unsatisfied.

"It seems that the accent you still hear should be from the country, Zhong Min?"

When the man heard this, his eyes flashed with hope, and he nodded desperately, "Mr. Zhong sent it? Finally, when rescue comes, I'm almost desperate."

After confirming his identity, Qin Yuan continued the treatment. In such a situation, he had to be more cautious. Qin Yuan did not completely heal the wound, but debrided the wound and then bandaged it.

Qin Yuan learned about the man's condition while he was being treated. The man was indeed a member of the Dragon Gang. His name was Ahu. He was in the last batch. After a lot of effort, it took him more than a week to get to the border because the border checkpoints were so strict. Yes, I have been finding opportunities to enter.

When they got to the base later, they found that Zhong Chuchu had been controlled by the local organization, and they wanted to attack the base all the time, so when the local organization took Zhong Chuchu away, more people rushed in.

There was a scuffle between the two sides, and it took a lot of effort to get to the place, not to mention the chaos in the place, and one of them had no power to parry.

In the end, the family could only fight while retreating. Ahu's luck is relatively good. He is a sniper, so he occupied the commanding heights. When he went to the back to see the situation, he was also injured by the grenade thrown in front of him. With the last bit of strength, he climbed into the water tank and hid.

As for the water tank, which was pierced by a bullet, half of the water has leaked, which has no effect on the health. For more than half a month, it has been relying on the food on its body, and there is only a lot of water left in the water tank to survive.

Qin Yuan was quite impressed when he heard that his leg was still injured, how long the Lord could persist, the wound had already been infected, if it was his own, how long would he have lived.

So Ah Hu was very grateful, "Brother, I saved a life once. Although I know which side it is, I can pay you whatever you want after returning."

Ah Hu originally thought that Qin Yuan brought it back now, but Qin Yuan didn't expect to ask directly: "I'm interested, I just want to know where Zhong Chuchu is at the back."

"Brother, what do you mean? Are you still planning to leave? Didn't see that the situation on the other side is getting worse, is it hard to pay back?"

Qin Yuan shook his head, expressing that he was only one, so he entered relatively smoothly, without so many troublesome things, Ahu's eyes dimmed instantly when he heard Li, and felt that the chance of escape was really low.

"Brother, it's hard to speak, now it's hard to think twice, let's go."

Qin Yuan didn't respond, and threw a few packs of compressed biscuit noodles, "The only way now is to tell the girl where she is, and then find her, and then take her with her."

Ah Hu got a little emotional when he heard that, is he going to die? Struggling to stand up, but the leg injury made it difficult to even stand.

"Brother, let's go quickly, there is really no hope, that girl is dead long ago! Come back now, for the little money it is really worth it, even though the guy gave you a lot of money, you still have to spend your life, right?"

Qin Yuan stared closely at Ahu's eyes. The guy was lying, and Ahu was a little scared, "It's best to tell the truth, and then leave directly. If you lose it, do you think you will take it?"

Ah Hu was completely panicked when he heard that, so he could only explain the pawn's situation in detail, because the pawnshop protected Zhong Chuchu, and went directly to the top floor along the stairs.

Zhong Chuchu's skill was very wrong, she jumped to another building along the roof, and then ran away. When there was another bodyguard by her side, Ah Hu didn't think much about it at that time, he didn't expect the situation to be so serious.

"Oh, are you kidding me that a weak woman can climb from one side to the other building?"

Ah Hu was very excited when he heard what Qin Yuan said, and quickly pointed to the rope on the opposite side, "Don't believe it, the Jurchen is simple and skilled, and the bodyguards around him look like the ones on the rope."

Qin Yuan left, and indeed saw a rope between the two buildings, and the other end fixed the opposite building firmly, and fought face to face, the woman was indeed very courageous, in this case, she was able to climb to such a high height.

"Okay, believe it for now, stay here now, find Zhong Chuchu first, and bring him back when you find it."

Ah Hu is completely desperate now, what can he do? Qin Yuan has said everything, but the guy only has that purpose, not to save, the probability of saving is low.

No matter how much he begged, Qin Yuan ignored him and climbed to the opposite building along the rope to see if Zhong Chuchu would leave any clues.

However, after crawling, I found nothing, which made me feel a little strange. Zhong Chuchu should have known that his father would send a rescue, so he would have left some clues.

I could only follow a building and start searching around. After searching all night, there was no clue when it was lit. Qin Yuan was also a little discouraged. Could it be that Juju is really dead? The main species is like finding a needle in a haystack.

Sitting by the wall to rest for a while, I began to analyze the target situation. Now that the country is in a state of war, the various situations are also very stable. It is not so easy to imagine a complete blockade.

Where can Zhong Chuchu and her daughter bring a bodyguard? The most likely ones are some comparative refugee camps, or relief camps established by local organizations.

There is no other way but to check the relief camps. First, we need to find the local rescue camps. Qin Yuan walked aimlessly. The area is near the primitive grasslands, so it is relatively remote.

Follow the directions on the map and go further. You should be in a town. When you look at the map carefully, you can hear the sound of a car starting from behind.

As soon as he turned over, he jumped directly into the ravine on the opposite side. The one behind did not rush to shoot, but the one who drove straight to the front jumped with the gun.

They began to communicate in the local dialect with a few babbles.

"Hey, I didn't expect foreign countries."

"Old, what should I do? Can I bring it back?"

"I still don't care about so much now. I will definitely bring them back. Even if they are foreign countries, at least they are male. Anyway, everything is blocked now. I don't care about foreign countries."

What's the point of using this method of catching strong men now, Qin Yuan smiled disdainfully, just as he was still short of warmth, he would be sent home soon.

The man was annoyed when he saw Qin Yuan's smile, and felt that he hadn't paid attention to it. He just raised his hand to clean up, but Qin Yuan rushed forward and kicked him.

As soon as another shot was fired, Qin Yuan kicked the gun away from one side, and the other car's throwing knife had already hit the other car as soon as it charged, killing both of the car's on the spot.

The scene even frightened the three just now The guy's skill is also improved, and the other one fell into the ravine and just picked up the gun, Qin Yuan's flying knife hit his arm directly, and screamed in pain, Clutching his arms tightly.

"Do that kind of stupid behavior, and stay honest now, otherwise it will be the same in a second."

San didn't dare to move anyone, so he could only stare at Qin Yuan vigilantly. He didn't expect to meet a master. After a few minutes, San stood still and stared at the car Qin Yuan drove away.

The old man lowered his voice and said, "Are you sure that guy is gone? It should be moving."

"Brother, I think you should wait a little longer. If you shoot at a distance, there is nothing you can do."

Qin Yuan saw from the rearview mirror that San was still standing where he was, and he just tidied up a little, so that he could witness his strength.

I don't want to take care of extra things. According to San's account, there are many relief camps, and the most important one is Shixin. The specific situation is also clear, but I only know that Shixin will definitely accept foreign countries.

Chapter 1637: find Zhong Chuchu

If foreigners are accepted, this chance will be relatively high, because generally those who can accept foreigners are some United Nations organizations that are doing this, but this area has been completely blocked.

It's not easy for Qin Yuan to talk about this matter, so he can only go to see what's going on first. The city center is about 400 kilometers away, which is relatively far away.

But he should have no problem driving now, just be careful along the way, and he can hear the sound of guns and guns from a distance, which is still some distance away.

You can see civilians fleeing everywhere around. As they slowly entered the urban area, the situation has improved a lot. There is a local army in the urban area, which is organizing and managing it.

So Qin Yuan didn't encounter any trouble along the way. Halfway through the drive, he saw some temporary tents on the side of the road. It seemed that those refugees could only go down and check in this way. He didn't miss anyone along the way. a camp.

But there are basically local civilians here, and basically no foreigners are seen. Qin Yuan didn't come to the city center until it was dark. The security here has improved a lot.

There are still people opening their doors for business, and the refugees are housed in their downtown square, where they set up this row of tents.

This is Qin Yuan's last hope, if he can't find Zhong Chuchu here, then he really has to give up, basically he has run all over here.

Ah Hu on the other side was almost desperate on that rooftop. When it got dark, the love still didn't appear, but this was what he expected. Although the guy looked powerful in the depths, but in this kind of war situation, It's hard to keep yourself safe.

Ah Hu struggled to stand up and go out with his own strength, but it was too difficult, let alone whether he could cross this deserted plain, plus he was injured now, he would bleed if he moved casually, there was no way to go.

So he still can only pin his last hope on Qin Yuan, wondering if that person will come to pick him up.

Qin Yuan entered the refugee camp and saw the chaos here. There are indeed a large number of foreigners here, occupying the majority. It is time to eat, but these civilians are protesting and they want to apply to go back.

After all, this is not their own country, but the country has been completely blocked, and it is impossible to even come in, let alone go out.

This kind of protest is obviously ineffective. There are a few uniformed people who are registering the civilians who came in. It looks messy, and the registered people are still getting angry. Various requirements.

These foreigners are relatively difficult to deal with, and their own people are left alone. The greatest hope of these foreigners is to go out. Obviously this is impossible, so the scene is very chaotic.

Qin Yuan kept shuttling among these crowds, looking for Zhong Chuchu's figure, but there were too many people, and small tents built randomly could be seen everywhere.

There is a temporary building next to a big tent, and many buildings are very chaotic. If you go on like this, you don't know when you will find it, and it will be dark soon. There is not even a light here. If you want to find it, it is like finding a needle in a haystack.

Going on like this is not an option, Qin Yuan came to the person in charge, looked at his registration book, which contained the specific information of the refugees, and he took it over.

You can check on this to see if there is any information released midway. When the person in charge saw that the registration book was taken, he stood up a little angrily and cursed loudly: "What are you doing, you bastard? Put it down quickly, that's not what you should have done." Touch something."

In the next second, Qin Yuan's saber pierced the table directly, otherwise he would be speechless for an instant. The saber pierced through such a thick table in an instant, and the noisy people at the scene were all attracted by this side.

The person in charge didn't know who this person was, so he could only call the security guards nearby, and Qin Yuan raised his hand to stop them.

"Don't move around. I don't want to hurt anyone. I just came here to find someone. If you find me, go away, otherwise it will cause unnecessary trouble."

Hearing this, the security guard felt that Qin Yuan was provoking him. What is unnecessary trouble? This guy has nothing, so he dared to come to this place to shout.

The security raised the gun and pointed it directly at Qin Yuan's head, "Then I'll show you what works best. You'd better be honest with me in this place, don't..."

Before the security could finish his words, Qin Yuan directly controlled his gun with a backhand, then kicked the overturned table, and the muzzle of the gun turned instantly. The people on the scene were startled by this sudden situation. In the city center, the security guards were also calling loudly.

Qin Yuan frowned, this is not good, originally he didn't want to make things big, but things backfired, since everyone is here to watch, why not take this opportunity to give it a try.

He fired a few shots into the sky in an instant, and the chaotic crowd just now completely quieted down. No one dared to act rashly. It was a row of assault rifles, and they didn't even have a chance of escaping.

""The point guard is here"

The security guard just now was also frightened and squatted on the ground. This guy stretched out his hand really well. Qin Yuan jumped on the table, looked at the refugees and said loudly:

"Zhong Chuchu! Are you there? If you are, come out quickly, and don't let other innocent people die."

Qin Yuan's voice was very loud, he said it three times in a row, but there was still no response, could it be that the girl was dead, or somewhere else, Qin Yuan only felt dizzy for a while, what happened this time was really serious Tricky, not as simple as he imagined.

Just when he was about to leave, because the surrounding security had all surrounded him, mainly in the city center, he was somewhat provocative.

Suddenly there was a voice from the crowd, and he looked in the direction of the voice, and it turned out to be Zhong Chuchu, but this woman was wearing a camouflage uniform with a very indifferent expression on her face.

"That's enough, don't hurt these innocent people, I'll just follow you."

It turned out that Zhong Chuchu thought that Qin Yuan was going to harm these people, so he stood up. What is the point of this? Now he has no time to explain, the security outside has surrounded the place, so he has to take them away quickly.

This Zhong Chuchu's skill is really extraordinary. At this time, the security has already rushed in. Zhong Chuchu waved his hand to let Qin Yuan follow her. After all, she is the most familiar here. She rushed into the tent with Qin Yuan, There are people everywhere.

All the security guards also rushed in, and the scene became even more chaotic, with people screaming everywhere. Under the leadership of Zhong Chuchu, the two ran into the alley opposite the square and shuttled between the corridors. In constant pursuit.

Zhong Chuchu opened the underground manhole cover, Qin Yuan jumped down without hesitation, this made Qin Yuan a little impressed, this woman was different from what she had imagined, she was a very quiet girl in the picture before.

Now it's not pretentious at all. After jumping into the stinking ditch, she didn't make any pretense and walked straight ahead. The inside of the pipe is very complicated, and there are many rats beside it. I didn't expect her to remember this underground pipe so clearly. , the two people behind crawled out along another exit.

After climbing up, Zhong Chuchu skillfully came to the flower bed by the side of the road, turned on the faucet next to it and started cleaning.

"Okay, can you come with me now? I'll take you away."

"No, where are your people? Now I order you to save people with me."

Qin Yuan frowned, just now he praised the girl for being quite sensible, why is she starting to make trouble again now, when is this? Also told him to save someone.

"This is absolutely impossible, because I promised your father that I just took you back to save other people. I have no obligation."

Zhong Chuchu sneered when she heard this, "Tell me, I will give you double the benefits that old thing has given you."

Qin Yuan finds it even more interesting. The father and daughter are really carved out of the same mold. Why are they so obsessed with money? Now it is not about money anymore. He has wasted too much time on this matter and just wants to go back quickly .

And this woman has no gratitude at all. Her father sent so many people to find her, and two teams have disappeared here. So many people are looking for her, this guy has no guilt at all.

"Okay, stop messing around. I don't want to talk to you about this. We have to pick up another person. He was also here to rescue you before. He was injured. I will temporarily place him there."

Speaking of this, Zhong Chuchu was very excited. She wanted to break free from Qin Yuan's hand, but there was no way. Qin Yuan had great strength and directly grabbed her wrist tightly.

"I ask you to let me go now, aren't you sent by my father? Then you should listen to me now. "

"It's really funny, why should I listen to you? I just promised to take you back, and I don't care about other things."

After finishing speaking, Qin Yuan directly carried her on his shoulders. This woman is too troublesome. Originally, he didn't want to fight with her, but now he can only be tough.

Zhong Chuchu kept struggling on his shoulder, and the last way was to bite his shoulder, but Qin Yuan didn't seem to feel any pain at all.

She intensified her strength again, but Qin Yuan didn't feel the slightest pain. It was already chaotic outside, even though Zhong Chuchu kept calling for help, no one answered her at all. After searching for a long time, Qin Yuan found an embarrassing thing, he lost his way. Because he was really not familiar with this side, the car was parked at the refugee camp.

After walking around for a few times, she didn't seem to go out. At this time, Zhong Chuchu said proudly: "I thought you were so powerful, but it seems that's the case. Do you want me to take you there? But I will take you there, you You must agree to my terms."

Qin Yuan put her down directly, then glanced at her, and instantly read her consciousness. It doesn't need to be so troublesome at all. If you want to know something, you can just look at it yourself.

He chose to skip the other things. Now he just needs to find the route. Before Zhong Chuchu could react, he was carried on Qin Yuan's shoulders again. She didn't know what the \*\*\*\*\* this man was doing, and the next second he actually It made him find the right way and start walking that way.

Soon people came to the previous refugee camp, and now the security inside was maintaining order, and noises could be heard in the distance, the car was parked opposite, and Qin Yuan threw Zhong Chuchu in the car.

Then he locked the car door, and Zhong Chuchu in the back seat cursed and asked Qin Yuan to obey her orders immediately. These so-called eldest ladies are really troublesome and have a princess temper, but Qin Yuan is not used to her. .

"You'd better be honest, or I'll let you sleep all the way back to China!"

Maybe this sentence completely threatened Zhong Chuchu, she was a little afraid of quieting down instantly, but seeing the vehicle slowly driving towards the wild base, she knew that Qin Yuan was not joking, and was really going to take that person, Then go back with her.

"I'm really curious, aren't you sent by my dad to protect me? Why don't you listen to me?"

"Why should I listen to you, including your father? I don't want to listen to him. He just took what I needed. He begged me to do something, understand? So I won't listen to you."

This time Zhong Chuchu didn't speak anymore, she didn't expect Qin Yuan to be different from the previous people, the car had been driving for a long time, at this moment Zhong Chuchu suddenly changed her tone and began to pray.

"You even saved that person, which proves that you are not a bad person, then I beg you, please, help me save a person, no matter what the conditions are, I will agree to you."

Qin Yuan didn't speak, and concentrated on driving. At this time, Zhong Chuchu seemed to have made a lot of determination, and even started to drag his clothes on the back seat. This time, Qin Yuan couldn't help but feel scared Get out of the car.

"What are you going to do? I've said many times that I don't want to listen to your arrangements. I just want to take you back. You'd better not get me into trouble."

Unexpectedly, the girl who was so calm just now burst into tears, "But I really can't help it, he is my bodyguard, and he was taken away by those people to save me. I really beg you, help me!" May I rescue him? Otherwise, he will die at the hands of those people sooner or later."

Qin Yuan cursed secretly, it was really troublesome, originally he only wanted to save one person, but now he had to save three people, Zhong Chuchu saw that he didn't respond for a long time, and sighed silently, it seemed that it still wouldn't work.

"Well, I'll say this all the time, if you don't want to, I won't force you..."

"Where did he disappear? Do you know his exact location?"

Hearing this, Zhong Chuchu immediately became excited, "I know it's near that base, and their organization should be there, because that's where he was taken away."

Since agreeing to her, Zhong Chuchu talked more, because this bodyguard has been protecting her safety from the beginning to the end, and has rescued her twice, so she can't leave others like this.

Chapter 1638: change view

Hearing the reason of this matter, Qin Yuan's impression of Zhong Chuchu changed slightly. When he first came into contact with him, he felt that this person was an overbearing young lady, a rich girl who was spoiled by that kind, so he really liked Zhong Chuchu. disgusted.

Now it seems that this girl is quite sincere, at least she is willing to save others together in this war situation, but from the beginning to the end, Zhong Chuchu only talked about her bodyguard named Qiangzi, and the others She didn't even mention her father.

These are other people's private affairs, and Qin Yuan didn't want to get involved. Soon following Zhong Chuchu's instructions, they arrived at a place seven or eight kilometers away from the base.

Zhong Chuchu jumped out of the car and kept looking around, with a very anxious expression on her face, "How could this happen? It's definitely here, I definitely remember it correctly, why is there nothing?"

"What do you mean? What was the situation like that day?"

"To save me that day, he was taken away here by those people. I remember that those people were stationed here, and you can see that there are traces of their camping on the ground, including tents and fires."

Qin Yuan noticed it just now, he just didn't want to say that these people don't have a fixed place at all, and there are so many organizations in this place, where can he find them? It took a lot of effort to find Zhong Chuchu first, let alone find the so-called bodyguard.

Zhong Chuchu didn't believe in evil, and searched around everywhere. She didn't believe that the bodyguard left just like that, and would definitely leave clues for her.

"Okay, let's go quickly. Now, while it's still early, let's take that person with us and leave. I also came to this place according to what you said, but there's nothing I can do if he's not here."

"No, I beg you, can you help me again? He will definitely leave clues. We made an agreement before, and I said I would come to rescue him."

The reason why Zhong Chuchu went to the refugee camp in the city center was because she wanted to go there to ask for help. She wanted to use her identity as a foreigner to seek help from those security guards, but it was useless at all. The security guards ignored her at all, and the city center The situation is already very chaotic, how can anyone take the time to save people with her?

Zhong Chuchu circled around a few times and still didn't give up. Qin Yuan was a little impatient, and when he was about to urge her, Zhong Chuchu suddenly cried out excitedly.

"Come and see, I said he will definitely leave clues."

Qin Yuan shook his head. Anyway, he promised her before, so why not go and have a look. He came to the back of a grass team and saw Zhong Chuchu squatting there excitedly, with his finger on the ground, and a CAC logo was drawn on the ground.

Moreover, he specially made a circle and drew an arrow, which was obviously left on purpose, Zhong Chuchu was very excited.

"I knew it, I knew Brother Qiang must be waiting for me, I beg you, you and I will save him, okay? This CAC should be the name of the organization."

"There's so much nonsense, get in the car."

Zhong Chuchu's eyes were full of disappointment, she knew that she was not obligated to ask this person to save others, and whether to save them was a matter of his words, even if she wanted to escape, she had no choice but to do so.

After getting in the car, Qin Yuan started the car, "There are too many organizations here, I don't know, I can only ask someone."

Only then did Zhong Chuchu regain her smile. At this moment, she looked at Qin Yuan with tears in her eyes, "I knew you were really a good person, and you wouldn't ignore us like this."

Inexplicably being issued a good person card, Qin Yuan felt a little uncomfortable. This woman is really troublesome. If she hadn't agreed to her before, she really wanted to go all out and take her back.

Qin Yuan drove the car and began to rush across the grassland. Zhong Chuchu felt a little worried. This was too blatant. She thought Qin Yuan would have other options. She didn't expect that he would ask someone to ask, but he went directly to the local area. organization.

"Well, brother, I still want to remind you that there are a lot of organizations here. Is there any danger if you ask us like this?"

"You don't need to worry about other things. Just stay in the car and leave the rest to me. I will help you find that strong man and bring them back."

Zhong Chuchu was also very obedient, and didn't speak any more along the way. At this time, Qin Yuan saw a few people appearing in front, and those people in front turned their heads when they heard the sound of the car starting.

It's really a narrow road to Yuanjia, aren't these people the ones who Qin Yuan snatched the car from? But those few people just saw from a distance that it seemed that their own car was about to wave, and they found Qin Yuan sitting in the car.

The moment the person in the lead saw Qin Yuan, it was like seeing a ghost. He yelled and ran to the distance, and the other people also ran like crazy.

Seeing this, Zhong Chuchu wondered what was going on with this person? How did others see him running so fast? "Why, do you know them?"

"Of course, they are all old acquaintances. It's a great fate. I just met them."

But when Zhong Chuchu saw Qin Yuan's expression, it didn't seem to be the case. This guy actually had a playful face, chasing a few militants with guns. This kind of scene is really rare in a century.

After a while, Qin Yuan speeded up, and then rolled down the car window, "Hey, can you guys stop running? My car also consumes fuel."

Unexpectedly, as soon as the voice fell, the person in front turned around and shot him, giving him a shuttle. Qin Yuan was a little angry for a moment, drove with one hand, then took out a pistol from his arms, and shot that person in the shoulder.

The hats of those who were still running ahead were blown away by him, "Stop all of you, otherwise, none of you will survive today."

Now these three people became honest in an instant. The man who was hit in the shoulder just now fell to the ground in pain. Qin Yuan handsomely parked the car in front of them, and then pointed a gun at the man in the distance to let him come over.

Zhong Chuchu was dumbfounded when he saw this scene. The situation was too exaggerated. Qin Yuan was holding a pistol, and the opposite was holding a submachine gun. Those three people were afraid of him, so they came here so obediently.

Moreover, the action of this man just now is indeed a bit handsome. He can hold the recoil while driving with one hand, and shoot directly. And these three people also have self-knowledge. This man's marksmanship is too fast. They are not opponents at all. Follow his arrangements.

The boss whose hat was blown off in front completely knelt on the ground this time, "Brother, we didn't see clearly just now, I don't know if it is your car, we don't want it, we will give you whatever you want, please let us go ,OK?"

"Oh, how can this brother say that? Such a big grassland, it is fate that we meet."

"God Comes"

The person in front smiled wryly, he didn't want this kind of fate, Qin Yuan teased a few words, and then got straight to the point.

"I want to ask where is your cac organization? Do you know what they do?"

The boss obviously knew it, he nodded, "This organization is the largest organization in our area, and now they are fighting the local military."

"Oh, have they all gone? Or are there still people left here?"

The boss shook his head when he said this, "No, they had conflicts with the local military before, and then retreated to the grassland, and now they are basically hiding in the grassland."

It turned out to be like this, so it would be easy to handle, Qin Yuan smiled slightly, and then put away his gun, "Okay, then please do me a favor, take me to that organization now."

The boss was stunned when he heard this, "Brother, this is really not good, that organization is ruthless, and they are in urgent need of manpower now, basically they are caught by them, and they are all used as cannon fodder on the battlefield."

"There's so much nonsense, I asked you to take me to find them, not to send you there."

"Brother, you don't know, there are a lot of them, and their weapons are several times better than ours..."

Qin Yuan really couldn't hear him underestimating, so he fired a shot in front of him, and the man immediately shut up. Now he has only two options left, either to be killed by Qin Yuan, or to take him to find that man. organize.

The consequences of these two paths are the same, both are death, but relatively speaking, if you take him to find that organization, there may be a chance to escape.

Just like that, those three people got into the car. They were very familiar with this area. With the guidance of these people, they soon came to the main road. On the way, Qin Yuan learned that these men belonged to a relatively small organization.

They were separated from their headquarters organization, so they were driving in the car to search, but unexpectedly, they ran into Qin Yuan, which led to the following incidents.

Qin Yuan said that as soon as he found the organization, he would release them immediately and ensure their safety. After driving for about 40 minutes, the boss behind indicated to Qin Yuan that he could stop.

"Brother, the organization you are looking for is right ahead, but there is a minefield here, and only they know how to get in. We really dare not go."

Qin Yuan turned his head and played with the gun in his hand, "Why don't you give it a try, otherwise how would I know if you were lying to me?"

The man's face changed greatly when he heard this, "I dare not lie to you, that area is really a minefield, you see, there are still many corpses, if it is really difficult for people without them, I really dare not go."

Qin Yuan looked up and saw that there were indeed a few corpses in front of him. He got out of the car and squatted down to feel it. It was really a minefield.

He turned his head to look at the man and said seriously: "This kind of minefield is a small problem in front of me, but if you find out that you have lied to me, after I come out, even if I turn this whole place upside down, I will find you. "

The three shook their heads desperately, and said that the front was really where the organization was stationed. Seeing that the three didn't dare to lie to him, Qin Yuan put away his gun.

"Okay, get out of here quickly, it's best not to make any plans, otherwise I can kill you even if you are thousands of miles away."

How dare the three of them say this, they have already seen Qin Yuan's tricks just now, Qin Yuan originally wanted to leave Zhong Chuchu in the car, but after thinking about it, it was a bit unsafe, and it is not clear what is going on ahead , I don't know how long the delay will be, but after thinking about it, I still take Zhong Chuchu with me.

"Now you have to listen to me seriously, you must follow my footsteps, and then don't make trouble, whatever I say is what I say, don't make any noise, understand?"

Zhong Chuchu nodded seriously, but he was still a little worried. After all, this was a minefield, especially when he saw the shocking corpse on the other side.

"Are you carrying some stealth equipment, specifically for mine clearance?"

"I'm afraid you've watched too many TV shows!"

Qin Yuan complained silently, and then strode towards the minefield with big strides. The three people behind were completely dumbfounded, and they didn't walk as calmly as they had imagined.

It's just that the walking pace is different. He seems to be able to sense where there are landmines, so he directly chooses to bypass Zhong Chuchu who is behind him and follows him intently.

The boss just swallowed his saliva silently, "This person is completely a monster, he is fine in this situation."

"Brother, can we go now? I really don't want to see him anymore."

"Wait a little longer, wait for him to go a little further, or if he is in a bad mood, if he attacks us, it will be over."

Qin Yuan turned his head slightly and saw the three people still standing there motionless. Could it be that he was really so scary? Qin Yuan walked unhurriedly, at this time Zhong Chuchu just turned his head and saw the disgusting corpse.

The main reason was that the weather was hot, and the smell was so strong in this situation that Zhong Chuchu couldn't help but vomited beside her. At this time, she saw Qin Yuan walking over, she was a little scared, and quickly suppressed her nausea and waved her hands.

But his body couldn't stand the pungent smell, and he was still retching beside him. Zhong Chuchu originally thought that Qin Yuan would definitely come over and scold him.

Unexpectedly, he handed over a bottle of water, "Remember to take a deep breath now, don't look at those things, breathe through your mouth, understand? This will reduce the smell from entering your nasal cavity."

This is completely different from his previous state. Qin Yuan actually saw that this girl is really not hypocritical, and he is not in a hurry when facing this situation. Ordinary girls, let alone entering a minefield, just hear these two words. The words will not come forward at all.

Qin Yuan was a little curious about what Zhong Chuchu had experienced? In order to divert her attention, he also began to ask about her past.

"I feel that you are quite courageous, and your body is still quite flexible. What did you do before?"

"Brother Qiang taught me these things before. Unlike other bodyguards, he would only follow me. He would teach me a lot of survival skills. Without him, I might not be alive now."

It seems that this strong brother is really unusual. Zhong Chuchu's physical fitness is relatively good, and he should have undergone some training. After a while, the two finally walked out of the minefield, because some tents can already be seen in front up.

Qin Yuan led Zhong Chuchu to the opposite ravine with a bent waist. Those people really didn't lie, but it's still too bright now, so we won't act until later in the evening.

Chapter 1639: Sure enough, there is something hidden

Zhong Chuchu looked at Qin Yuan adoringly from behind. This person's ability is really too strong. To be honest, she was also very flustered in the minefield just now, but when she turned her head and saw Qin Yuan with a confident face, it seemed that she didn't So flustered.

The two of them were lying in the gully at the moment, waiting for the dark. It was estimated that there would be more than an hour, and the atmosphere at the scene was still a little awkward.

Suddenly Zhong Chuchu spoke first, "Anyway, I am very grateful that you came with me to save my friend. I will give you another reward when I go back, although maybe I don't have much."

Speaking of this, she smiled wryly, Qin Yuan observed the situation ahead, and said, "Isn't it easy for a young lady like you to get something, what else can't be obtained?"

"Hehe, it's not that simple. Why do you think my so-called father paid such a high price for you to come here to take me?"

"Why else? Isn't it that you are his biological daughter?"

"It's not that simple. Sometimes people's hearts are too scary. In order to survive, let alone his own daughter, he can give up on anyone. This is his usual style."

Hearing this, Qin Yuan was a little curious. He really felt that Zhong Damin's attitude was very strange from the beginning to the end. If others heard about his daughter's disappearance, it would not have dragged on for so long.

Especially from some of his tone, it seems that he is very concerned about this daughter, but it seems that he only cares about her return and doesn't care about other issues.

Zhong Chuchu explained helplessly beside him, "What else can it be for? Isn't it just for my kidney? Because I am his daughter, and his kidney has problems, so he can use mine."

Qin Yuan was shocked when he heard such calm words. Now he is also a father. If there is something wrong with him, it is absolutely impossible to sacrifice his daughter. Only he, the father, can sacrifice.

He was wondering if there might be some hidden secrets, and Zhong Chuchu also explained beside him. It turned out that Zhong Damin had already proposed it a year ago. He said that Zhong Chuchu is now a healthy person, and he has two kidneys and donated one. Give it to him, there will be no problem.

But this is absolutely unacceptable to Zhong Chuchu, because his so-called father has never seen his obligations.

As long as Zhong Chuchu can remember, she has been living with her mother. Although she has a name now, she feels like a rich second generation, but she never enjoyed any treatment a year ago.

The so-called studying abroad is all due to her own hard work. Since her mother died of illness, she has come abroad alone. She doesn't want to stay in that sad place in China.

Later, Zhong Damin's body had a problem, and he could not find a suitable kidney source, and other unrelated kidney sources would have a strong rejection reaction even after transplantation, so he thought of his daughter for the first time.

He sent a lot of people to bring Zhong Chuchu back, but due to factors abroad, they were unsuccessful. Later, when a war broke out in country O, the country was completely sealed off, and Zhong Chuchu's life was saved.

But even so, he didn't let his daughter go. He sent people over and over again. Hearing this, Qin Yuan understood. No wonder Zhong Chuchu's attitude was so bad at the beginning. It is conceivable that her father sent people to arrest her. She went back.

Why didn't I expect this girl's fate to be like this, Zhong Chuchu got used to it, she saw that the sky was getting dark, "Forget it, let's not talk about it, I will save my friend later, you will save me Take it back, I know you are also doing business, and the old guy asked you to do business, and I will not make it difficult for you."

Qin Yuan didn't speak all the time, and Zhong Chuchu couldn't figure it out. This person might have such a personality, anyway, he would act as if he didn't hear what he said sometimes.

When it was completely dark, Qin Yuan lowered his voice and asked, "Do you have any photos on your body or try to describe that person's appearance? I'll go in and have a look."

"What do you mean? Aren't you going to take me there?"

"Don't talk nonsense, we don't have much time now, there are so many people there, I'll take you there, do you think you are causing me trouble or what do you want to do?"

Zhong Chuchu didn't speak any more, and took out a group photo from his bosom, which was with that Qiangzi. This person did have the qualities of being a bodyguard, because he only had a public face, which was very ordinary. This kind of person was thrown in the crowd It can't be found inside, so it's very suitable for bodyguards.

Qin Yuan quickly took note of his face, then explained to Zhong Chuchu again, and then rushed forward with a low waist.

At this moment, Zhong Chuchu saw his back, and was worried for a moment. When she was lying here just now, she didn't feel anything, but now the surrounding is very quiet, only herself is left, and the front is pitch black, and fear enveloped her instantly. .

Her palms were already sweating, and she couldn't help but worry at this moment, what if something happened to that person? How will I get out of that minefield by myself?

The main reason is that Qin Yuan had already given her a great sense of security when he was there, and she didn't need to think about anything, but when this person left, she instantly became at a loss.

At this time, she could only pray silently, praying that Qin Yuan would come back safely, and it would be best to bring Qiang Zi back too.

Qin Yuan has already touched it quietly at this time, perhaps because there is a minefield in front, and these militants have been entrenched here for a long time, and they don't have much defensive awareness.

There was only a fire in the distance, and a few people were dozing off by the fire, and there were people drinking and \*\*\*\* next to them, looking very chaotic.

Qin Yuan poked his head out just now, and came from the tent next to him. A man staggered and pulled Qin Yuan, "Brother, go, go and drink!"

Qin Yuan pulled the man into the tent. After a few minutes, he wiped the blood off the knife, and then walked out slowly. There was no Qiangzi in the tent.

He felt a little strange, if this organization was really arresting people everywhere as they said before, then they should be more vigilant, and now they are in a completely relaxed state, as if the war has nothing to do with them.

Qin Yuan continued to move towards the tent in front of him. He searched several times in a row but found nothing. At this moment, a man came out of the front tent. The clothes are obviously not the same as these people.

I saw Qiangzi walking to the fire and kicking the person next to him, "Damn it, \*\*\*\* it, did I pay you to sleep here?"

Seeing this scene, Qin Yuan felt very puzzled. According to what Zhong Chuchu said before, Qiangzi was forcibly brought by these people, but seeing this situation, why does he feel like the boss?

And at this time, the person next to him quickly stood up, nodded and said to him: "Boss, you can't let the brothers not rest, besides, there is nothing to do, we can only sleep here all day long."

"Fart, I spent so much money, where is the whereabouts of the woman I asked you to come here to monitor? You haven't given me any news until now, saying that the urban area has the ability to bring her out?"

The subordinates next to him faltered, Qin Yuan had heard the general idea, could things be reversed? Now that I can't control that much, since people have appeared and their relationship is not normal, Qin Yuan walked out of the darkness.

The moment he saw Qin Yuan, Qiangzi quickly touched his waist, "Who are you? Why did you suddenly appear here?"

"Don't be so nervous, I was sent by Zhong Damin."

Hearing this, Qiangzi on the other side heaved a sigh of relief, but he still had some doubts and asked, "How can you prove it?"

"Then how many people do you think can risk their lives to come in under such circumstances?"

This is also now, after all, there are wars everywhere outside, and it is definitely a lot of money to be able to come in under such circumstances, and only Zhong Damin can do it.

"My husband called me two days ago. He said that someone would come here, but he didn't tell me who it is. It seems that it should be you."

Qin Yuan hasn't figured out what's going on here, so he can only follow his words first, "Just now I heard you say that I have found Zhong Chuchu, but she asked me to take you back."

Qiangzi was very excited when he heard the news. He hurried forward without caring too much, and grabbed Qin Yuan, "Where is that woman? You found her, great, then we have finally completed the task."

"But what's the situation with you? She's been thinking about you. By the way, she's not here, she's still in the district. No matter how I take her, I won't come here. I just want to see you."

"Why are you so stupid? A big man can't even bring a woman, what a waste."

Qiangzi was cursing at the side, and began to complain that he thought he could complete the task and go back, but after going around, he returned to the original point. It is impossible for him to go to the city, because it is really too dangerous to go out.

Later, under Qin Yuan's guidance, he talked about what happened. It turned out that he had been Zhong Damin's undercover agent next to Zhong Chuchu.

The purpose was to gain Zhong Chuchu's trust, and then bring her back smoothly. Unexpectedly, a war broke out later. Both of them were trapped here. He also wanted to leave, but he never had a chance.

And that is, he has been quietly sending messages to Zhong Damin for contact, which can also explain why Zhong Damin has always emphasized that Zhong Chuchu is still alive, and this traitor has been sending messages.

Not only that, even this organization had been dealt with by the local army at that time, and only a small group of people remained. Qiangzi had no choice but to be captured by people from this organization up.

Fortunately, he was quick to respond. After coming to this organization, he killed the boss and replaced this organization. Originally, these people were captured everywhere. Most of them died in that battle, and this is the only thing left. Everyone doesn't fight often, and it's all for money.

Qiangzi took advantage of this and started buying them with money, and then they gradually got up. Originally, he wanted to go out to find Zhong Chuchu, but hearing the gunshots outside, he really didn't dare to go out, and he didn't dare to take that risk.

He laughed out loud at this point, "If you want to say, that woman is really stupid. She really thought that I liked her and trusted me so much. In fact, what I like is the money from her father."

This guy is now completely revealing his true nature, cursing and cursing on the other side without hesitation, Qin Yuan frowned and couldn't stand it anymore, he couldn't let Zhong Chuchu know the news.

That girl's life experience is already miserable. She was abandoned by her father since she was a child, and then she will be used by her father when she grows up. Now if she knows that the only person she can trust has also betrayed her, she will be the one from the beginning to the end. She definitely couldn't accept a conspiracy.

At this moment, there was a sudden movement from behind, Qiangzi stared at the back vigilantly, unexpectedly, the person who appeared was Zhong Chuchu, and she had tears in her eyes at this moment.

"Is what you said true? All of that and your approaching me are lying to me, all because of my father?"

"Hahaha, so what if I lie to you? Besides, you want to believe it yourself, and I didn't lie to you too much. I haven't touched you before, but you will believe me just by saying a few words."

Looking at his smug face, Zhong Chuchu clenched his fists and wanted to rush up, but Qiangzi didn't hesitate at all, and directly fired a shot towards the ground.

"I'm telling you it's best not to mess around. Although your father told me to take you back, he didn't care how he brought you back. Believe it or not, I'll break your leg? Save you and run away."

But as soon as his words fell, a throwing knife was thrown out. Qin Yuan's speed was extremely fast, because he saw that this person was really about to attack, and this was also a hidden threat. With this time bomb, Reporting the situation to Zhong Damin at any time is really extremely unstable.

Zhong Chuchu still felt a little heartbroken when she saw him fall down. After all, after getting along for so long, she didn't expect that he lied to her.

Her tears couldn't stop flowing down The people next to her were stunned by this scene, what's going on?

And Qin Yuan turned his head while playing with the flying knife in his hand and said, "I don't want to hurt anyone, and you'd better not act rashly, otherwise you won't get any benefit."

"Hey, what are you \*\*\*\*\* talking about? Believe it or not I'll teach you a lesson today?"

Qin Yuan just raised his hand slightly, and this person fell down straight in front of him. The speed was so fast that it frightened the people around him for a while, and no one dared to act rashly.

Zhong Chuchu was also frightened. The person in front of him turned out to be a murderer without blinking an eye. This skill was too terrifying. With this warning, the people next to him did not dare to step forward.

Qin Yuan looked at Zhong Chuchu who was already stunned and said, "Let's go, what are you still doing, waiting for me to carry you?"

Only then did she quickly follow, but she turned her head and looked at the corpse next to her. At this moment, Qiangzi was completely lying in a pool of blood. Even at this moment, she felt that Qin Yuan's attack was too ruthless, and this person didn't do anything .

Chapter 1640: successful rescue

Although it is true that Qiangzi has been lying to himself before, but the crime is not fatal! Killing people like this, plus Qiangzi had always been her most trusted person before, at this moment she looked at Qin Yuan's back and felt a little apprehensive.

She didn't know the specific origin of Qin Yuan, she only knew that this person was too ruthless, there was no room for discussion.

It was very silent along the way, Qin Yuan kept looking back, mainly to confirm how those armed forces caught up, but they would not take such a big effort, after all, it was all for money.

After leaving this area completely, Qin Yuan planned to go directly back to the base and take Ah Hu out first. After all, that guy really didn't do anything bad, but he was just doing things with money, which was regarded as saving his life.

As soon as Zhong Chuchu changed her previous excitement, she was very silent along the way, but shed tears from time to time. Seeing her in such a state, Qin Yuan didn't know how to comfort her, but said calmly, "Where do you want to go?" ? I can take you anywhere."

This surprised her a little. She looked at Qin Yuan in disbelief, "Is what you said true? But didn't you take my father's money to do things for him?"

As soon as this sentence was said, Zhong Chuchu laughed at herself, she felt that she was too stupid, she was cheated just now, why didn't she react now.

Maybe this person just said what he said, but she foolishly believed it here. If it wasn't for the money, this person came so far to this place, how would he do business after returning?

Unexpectedly, Qin Yuan looked at her from the rearview mirror in the next second, "I do what I say, so don't look at me like that."

Qin Yuan knew that Zhong Chuchu was a little afraid of him, mainly because of the killing of Qiangzi, and he began to patiently explain why he had to kill this person.

This person has been lurking by her side from the beginning to the end, constantly reporting the situation to Zhong Damin. This kind of person is very dangerous and will destroy her plan.

And at that time, if he was very emotional, he would indeed shoot Zhong Chuchu. He also wanted to be on the safe side. Zhong Chuchu just nodded silently after listening.

There are so many things she needs to accept and digest today, many things she still can't understand, especially the person in front of her, will she really let her go so easily?

Even the person she has been with for so long can be betrayed, so it really makes it impossible for her to trust others so comprehensively again.

Soon the two came to the previous base, after Qin Yuan went upstairs. Hearing the movement, Ah Hu was so frightened that he wanted to move towards the water tank, but the injury on his leg made it difficult for him to move even a single step.

After seeing the person who came, the guy burst into tears, "Brother, I didn't expect you to really come, I thought you would definitely ignore me."

"What I promised before will definitely be done, okay, now I will take you back."

At this time, Zhong Chuchu, who came up from behind, saw this scene, and felt a lot of feelings in his heart. Qin Yuan didn't know this person, but because of a verbal promise, he actually took such a big risk to come back to find someone.

But what does it matter, she will be taken back anyway, and it is impossible for her to escape in the face of such a powerful person.

Zhong Chuchu didn't say anything along the way, and Qin Yuan quietly recovered his leg injury while changing the gauze for Ahu. After all, he had to move outside no matter what, so let him recover a little Mobility.

To avoid dragging everyone down later, Ah Hu didn't notice anything unusual, but felt that after changing the gauze, he moved a lot faster.

After Qin Yuan went downstairs, he checked the fuel tank. The current situation is not good. With this amount of gasoline, it is estimated that after driving for another 3km, it will completely stop working.

Zhong Chuchu suggested to look for the abandoned vehicles around, Qin Yuan shook his head, how is this possible? This is you in a war zone. Gasoline is a scarce commodity. It is impossible to find gasoline here.

But Zhong Chuchu didn't believe in evil, so he looked for it nearby, and Qingyuan was ready to start, and now he can't control so much, as far as he can go, in the end, he can only go down for a walk.

After a few minutes, Zhong Chuchu came over with a helpless face, as he said, as long as the fuel tank of the car parked outside was pumped out.

"I didn't expect you to be so predictable."

"It's not that you can predict things like a god, but that you have more experience, and you will get used to it slowly."

Because there is Qin Yuan on this road, there is no danger. Basically, there is no major problem. Although they have no cars behind and can only walk, but with Qin Yuan's protection, they did not encounter any danger along the way. They were all covered by him. It was avoided in advance.

Ah Hu was even more shocked. He was very curious about the strength behind Qin Yuan. He was already very strong behind the gang, but this person was not only capable of detection, but also his ability to act was beyond ordinary people. .

After they lost their cars, they could only rely on walking to slow down a lot. At night, everyone could only live in an abandoned building. However, Qin Yuan, who had been driving for a whole day during the day, was able to stay awake at night and stay vigilant.

Ah Hu felt a little sorry, although he was injured, but if he wanted to be vigilant, it should be fine.

"How about this, and avoid taking advantage of you, we take turns, you can stay until midnight, and I will stay until midnight."

Zhong Chuchu also said that if she was just standing guard, she should be fine, but Qin Yuan next to him lay on the window and said coldly, "I will not hand over my back to anyone, so you just Get some sleep and leave the rest to me."

This was a bit embarrassing. Originally they wanted to help, but Qin Yuan didn't like their abilities at all. Ah Hu thought about it, forget it, it depends on how long he can last, in this case , One day and one night is probably the limit, and I have to hurry tomorrow.

The two could only sleep next to each other, and Zhong Chuchu slept more peacefully with Qin Yuan beside him. Just before dawn, Qin Yuan woke them up.

Ah Hu saw that it was not yet dawn outside, and his sleepy eyes were hazy, "Is it because you can't hold on any longer, okay, I'll replace you."

"No, we should leave, someone is approaching this way, let's go."

Both of them found it strange that someone was approaching this way, but they didn't hear anything in the dark night. Qin Yuan kept urging beside him. He had already carried the equipment on his back and dealt with the traces of the scene.

According to the strength of the two of them, there is really no way. After walking a few tens of meters, they heard the sound of a car starting in the distance. Ah Hu quickly lay down in the gully, looked into the distance, and saw After driving two cars, the destination was the building where they slept just now.

He stared at Qin Yuan in surprise, "How did you do it?"

"It's just experience, let's go."

Qin Yuan had already heard their movements from far away, and according to the situation of these people, they urgently need to expand their organization now, so they can only come out to arrest people in these abandoned buildings. Once, but still will not let go.

After a day of traveling, they didn't dare to rest along the way, and Ah Hu even endured his foot injury, because Qin Yuan said that if they were fast, they should be able to reach the border at night, so that they wouldn't have to stay in this dangerous place any longer. out of place.

But it was still a bit later than they expected, mainly because they had to avoid local patrols on the way, so they had to take a detour. After 9 o'clock in the evening, Qin Yuan took them out of Country O smoothly.

Ah Hu stepped forward to hug Qin Yuan very excitedly, "Brother, thank you so much, you finally got me out of this ghostly place!"

Zhong Chuchu was worried, and she didn't say anything along the way, but at this moment, Qin Yuan, who was facing her, looked at her and said, "Now you've come out, where do you want to go? I'll take you there."

"You? What do you mean? You really won't take me to my father."

"Is there still a fake? Since you have already come out of that dangerous place, why send you to another dangerous place?"

Ah Hu was stunned. After all, what he thought was that Zhong Chuchu had gone back, so he could get a sum of money, but it also depended on Qin Yuan's attitude. Now as long as he can come out alive, he didn't either. No more control.

Qin Yuan asked Ah Hu to leave first, and he took care of the rest, "Don't worry, I won't take her to receive credit alone, because it's unnecessary, I really want to send her out, if you want, You can follow us, but I am considering your injury."

Ah Hu can still manage so much at this moment, since he has already come out, money is not important anymore, he nodded, and then bid farewell to Qin Yuan and the others.

Only at this time did Zhong Chuchu believe that the person in front of her was really thinking of protecting her for her sake, "But what should you do? How will you explain to my father after you go back like this? I know him best, he is cruel, I can do anything, think about it, I am his own daughter, and he can sacrifice at will."

"You don't need to worry about this. No one who can touch me has yet appeared, but I can't understand this kind of style."

Zhong Chuchu nodded, expressing that she could be sent to the country of America, where her mother had spent her whole life leaving a fund for her to survive there.

"The Point Guard Is Here"

No one knew her in that place, so she could come back again, Qin Yuan nodded, and arrived at the country of Mi after dawn, and he said goodbye to Zhong Chuchu for the last time.

Zhong Chuchu felt that she had been prejudiced against him all the way, no matter what, this person was the only one who only wanted to save herself, "That... I am very sorry, of course, if I have the opportunity in the future, I will definitely repay you ."

Qin Yuan just waved his hand. This kind of opportunity to repay will be discussed later. It is too unrealistic. Seeing the back of Qin Yuan leaving, Zhong Chuchu shed two lines of tears. Although this person has not been in contact for a long time, but Always keep her warm.

After Qin Yuan came back, he saw that Zhong Damin's condition was getting worse and worse. He didn't bring back good news this time, but told him that he had not found his daughter.

But Zhong Damin, an old fox, was full of disbelief. He kept staring at Qin Yuan, "Mr. Qin, I don't think your ability should be a problem, and you said before that you would report to me when you arrive there, but I haven't heard anything, which makes me very curious."

Qin Yuan stared at him condescendingly, such a person did not pose any threat to him, "I must ensure my own safety over there, and I will not report to you, that is my own business, for the sake of safety."

Zhong Damin wanted to refute, but he didn't seem to have anything to say. He could only helplessly look at Qin Yuan's back, and sighed silently. Could it be that he was really hopeless?

For such a person, Qin Yuan wanted to save him before, but knowing that this old guy is so cruel, there is no need to save him, and there is no need to waste his ability.

This old fellow deserved his own fault. Qin Yuan returned to the brigade just in time for the assessment and training. This is also the credit of Li Erniu and the others. During this period of time, they kept training the players in the brigade.

He roughly took a look, and the current training results are still very good. If there are any competitions to participate in later, as long as they improve their own abilities a little and use the merit points, then there will be no problem.

At least according to his training method, they are already much better than many ordinary soldiers in this place, but at this time a phone call came.

Unexpectedly, it turned out to be Cao Ying, Qin Yuan almost forgot, he has been busy during this time, and has never asked about Liu Qingzi's situation.

After the two exchanged a few pleasantries, when it came to Liu Qingzi Cao Ying was full of regret, "It's really a pity. She was originally a very good sniper, but she has quit now."

what! Qin Yuan felt a little unbelievable when he heard this. She is currently undergoing treatment, so why did she say that she has retired? After hanging up the phone with Cao Ying, Qin Yuan blamed himself a little.

He was the one who took these people to participate in the \*\*\*\*\* competition at the beginning, and as the leader, he really didn't consider the details of some members, because he was used to strong soldiers like Li Erniu and the others.

Liu Qingzi can only have today. To be honest, he has nothing to do with him. Thinking of this, he plans to go to Liu Qingzi, because the assessment training has ended and everyone has a short vacation. Li Erniu is planning to go home.

Wang Yanbing is basically an idler. He plans to go with Qin Yuan after he hears about Liu Qingzi's deeds. It was the same situation with one of his squad leaders before, but he will be fine in the future, because this thing is different from person to person. The situation is different.

The two of them drove Qin Yuan's rare silence, and Wang Yanbing could only comfort him by the side, maybe after they left, he would take her back to the training and let her get in touch with it slowly.
