

Special Soldier 1641

Chapter 1641: Liu Qingzi is missing

But Qin Yuan knew in his heart that if it was really that simple, it would be great. Liu Qingzi is a very strong person, how could he suddenly talk about retirement?

He really couldn't figure it out, the two of them were driving relatively fast, and they planned to come to the company first to understand the situation and see what was going on.

Cao Ying was very happy to see Qin Yuanlai, but when she mentioned Liu Qingzi, she lowered her head sadly, "We really can't do anything about Qingzi's matter. We have done a lot of work, including these comrades. But it doesn't seem to work."

"What's going on behind that? Isn't she recuperating over there? Why did she suddenly say she's retired?"

"This is her own choice, because she feels that she doesn't want to burden us anymore, and because the previous things have caused a psychological shadow on her."

Qin Yuan knew what she meant. It was about the two ordinary people who hurt her last time. This was really hard for her to accept. Originally, her mission was to protect civilians, but she never thought that she would do harm to them. harm.

After asking about Liu Qingzi's address, Qin Yuan immediately took Wang Yanbing to her hometown, but after arriving there, even Liu Qingzi's house had moved out.

After many inquiries, I found out where his parents lived now, but when Qin Yuan and the others didn't see Liu Qingzi there, his parents were very polite. After knowing that they were comrades-in-arms, they even made special meals for them.

Liu Qingzi's father was an ordinary small employee, but after that incident, although it was judged that there was nothing wrong with him, he still had to pay compensation, basically emptying out the family.

Qin Yuan frowned, why didn't he know about the compensation? At this time, Liu Qingzi's mother took out the agreement from the room.

"Auntie, in fact, she is not wrong in this matter. Qingzi is also a victim. How could it become like this?"

"We also know what you said, but other people's children are also children, and they also have parents. In this case, we definitely can't stand it, and what should be compensated must be compensated. We can't wait for others to say Bar."

It can be seen that Liu Qingzi's parents are honest people, knowing that their daughter has caused a catastrophe, so they try to compensate as much as possible.

It is precisely because of the problem of compensation that the house in her hometown was sold, and the husband and wife have found an old community to rent it.

Seeing this scene, Wang Yanbing only felt very sad. Although he hadn't experienced much fatherly love and motherly love since childhood, this situation was really unacceptable. It can be said that it ruined several families at the same time.

"As for Qingzi's retirement, we didn't expect it, but we don't know where she is now."

Unexpectedly, Liu Qingzi's parents were very excited when they heard this. Her father even stood up and grabbed Wang Yanbing. treatment, so she went back."

Qin Yuan understood when he saw this, he hurriedly teased Wang Yanbing, and then changed the topic, "Uncle, you misheard just now, this article just said that other people didn't make it clear, Qingzi is staying inside right now, you Don't worry, our troops will treat her properly, and she will be absolutely fine."

Wang Yanbing also came to his senses, and nodded quickly to reconcile. It was indeed that he had made a mistake just now, "Uncle, you see, I just talk too fast. The main reason is that we are not in the same company now, so when did Qingzi leave? "

"Just left the day before yesterday. We said we would take her off, but she didn't need it. She said that the army would send a car to pick her up."

Hearing that the two looked at each other, Wang Yanbing hurriedly said after leaving Liu Qingzi's house, "Brother Qin, what's going on? But the higher-ups clearly said that she has retired."

"I'm very worried now because her condition is very unstable. What if something goes wrong on the way?"

Now no one knows where Liu Qingzi has gone. The main reason is that her traumatic stress syndrome has not been completely cured. If she is stimulated at any time under this situation, there will be problems.

Qin Yuan didn't dare to delay any longer, so he quickly contacted the local police station, because this matter was no small matter, and he knew that if he didn't stop the matter now, if other civilians were injured in the future, the problem would be serious. for three days.

The local police station immediately investigated the surrounding surveillance, and found out that Liu Qingzi had gone to the high-speed passenger station according to their tracking all the way.

Following this route all the way, he found that Liu Qingzi actually bought a plane ticket abroad, and he had already left the country at 8:30 last night. Qin Yuan and the others were still a step late. He was a little annoyed. If he had come a day earlier, then It should be able to stop it.

The more critical issue now is that although she is in a foreign country, this situation is more dangerous. Her status is not ordinary. If it is not handled properly, it may become an international incident.

Qin Yuan quickly summoned the red blood cell team. Now they are going abroad to find someone and bring him back as soon as possible. Everyone is paying attention to this matter and praying that Liu Qingzi will not cause any trouble abroad.

The current Liu Qingzi is like a ticking time bomb. Just when Qin Yuan was about to leave, he received a call from Cao Ying.

"Instructor Qin, I really respected you before, but why are you doing this now? You can keep a low profile and let everyone search together. There is no need to make such a big fuss."

Qin Yuan was stunned, what's the situation with this man? Why did she blame herself as soon as she came, and she was willing to feel that she had done nothing wrong? This matter can no longer be concealed. It must be dealt with as soon as possible, otherwise even the Immortal Da Luo will not be able to save her.

"Cao Ying, you are a three-year veteran anyway, do you think about the possibility? Now it is not a matter of your team, but has been promoted to the international level. If she hurts someone abroad, What do you think others will say if they grasp her identity?"

"But she should not cause harm to others after treatment."

"You know that in the army, all we need is an affirmative answer. Do you understand what it means? Think about it yourself."

Qin Yuan hung up the phone directly, and without further ado, caught the red blood cell team and set off quickly. The place Liu Qingzi went to was Xiaomao Country.

Everyone felt very strange halfway, why did she choose this place? Who asked her to go there, or did she want to go to relax?

If she just wanted to go on a trip to relax, she should have explained to her parents, and she also knew her current situation, let alone running around.

Li Erniu looked at Liu Qingzi's photo, "If there are no other accidents, this person is really a good sniper. Her eyes are very sharp, but the more she is, the more dangerous she is."

"I admit that what happened this time was my negligence. I didn't lead her out, so I hope everyone can cooperate and bring her back as soon as possible."

Three hours later, everyone arrived in Xiaomao Country. They did not bring any weapons and equipment when they came to Xiaomao Country this time. Although they said they were going to look for Liu Qingzi, this situation could only be concealed first, and their actions were all carried out in secret. .

Several people dressed up as tourists, Qin Yuan stayed in the airport hall and was manipulating the computer. He immediately entered the monitoring system of the airport hall and started to investigate.

For his hacker level, this was simply too simple, and soon he directly entered the main system and began to conduct interrogation.

The better thing about the airport is that there are surveillance cameras everywhere, so Liu Qingzi can be seen along the way, and soon she found out that someone actually came to pick him up.

However, judging from Liu Qingzi's state, he should not be very familiar with this person. There is a large distance between them. The man is holding a sign in his hand. The content on the sign is somewhat unclear because of the angle.

However, it could be seen that the man was very enthusiastic. He took Liu Qingzi out along the way, and even opened the car door for her. Qin Yuan quickly glanced at the license plate number, and silently wrote it down.

"Brother Qin, is it possible that he is really here for tourism? Do you think she knows this person?"

"I asked Cao Ying before that Liu Qingzi is a relatively simple person. She studied in China and basically has no friends abroad. Besides, if she is a friend, would she be so wary?"

He Chenguang nodded in agreement beside him, "And you should pay attention to the way this man walks. He is definitely a trainer, or he usually trains frequently. His lower body is very stable."

Qin Yuan closed the computer, and then led everyone out of the airport hall. No matter what, the only thing is to find this car as soon as possible.

He sent everyone out in batches to investigate, and now time is the key, "Everyone gather here at five o'clock, and then report the search situation, there are currently four directions in total."

According to the investigation, Qin Yuan found that the car had completely lost contact after driving into a small road, because there was no monitoring over there, and he could not track it down. Look for it separately.

Qin Yuan was alone, and the others began to group up. His speed was very fast, and his investigation method was relatively fast. Although there was no surveillance on the road, in the past, there were some shops in the store that he did not let go of the surveillance.

But this car seemed to be very cautious. It didn't find anything on the way, and Qin Yuan found nothing. At this moment, a call came from Wang Yanbing's side.

After he rushed over, Wang Yanbing waved at them. At this time, Wang Yanbing was near a gas station. He pointed to the front and suddenly saw the car parked inside the gas station.

But there was no one in the cab. As soon as they stepped forward, the staff next to them came out to stop them.

"Hey, what are you guys doing? This is your car parked by a customer, are you here to pick it up?"

"It's like this, we are friends with the driver, and he asked us to come and pick up the car."

In this case, of course the staff didn't believe it. He wanted to check it, and then said the number reserved at that time. Qin Yuan also kept an eye out and asked the staff to talk about it first to see if it was the same one.

In this way, he successfully obtained the phone number of the owner of the car, because there are probably no clues here, and there are no clues found on the vehicle, so he can only wait for the owner of the car to come, but this time is too long, just get the number.

Qin Yuan made two calls here before answering the phone on the other side. The voice was very noisy, as if he was in a very noisy place, "Who?"

"Friend, where are you? We haven't seen each other for a long time."

"Don't talk nonsense, who are you? Your voice is very strange, I don't know who you are."

Just as Qin Yuan was about to speak, he was hung up by the other party, but there was enough time, and He Chenguang next to him made a gesture of ok, and he had already carried out location tracking.

After all, this is the age of technology, so these technological weapons can be used for tracking. After a while, everyone came to an underground bar.

Mermaids and dragons here are mixed, and there are many people in disorder in the alleys in broad daylight.

There were two security guards at the entrance of the bar, they just checked casually, and the others didn't stop them, so they were allowed to go in. After entering, the loud music inside made He Chenguang feel a little uncomfortable for a while.

Several people began to search according to the target. During the monitoring, the man was wearing a white baseball cap and a signature beard. Qin Yuan saw at a glance that the guy was sitting on the edge of the bar chatting up a beautiful woman.

He immediately walked over, the man saw that he was about to succeed in flirting with a girl, but was interrupted by others, he was a little unhappy, and stared at Qin Yuan fiercely.

Qin Yuan was not polite to him either, and grabbed his wrist. Hearing Kacha's cry, the man was pushed down on the bar with a painful scream.

This time the man lost his previous aura, "Brother, if you have anything to say, just say it. Since you've taken a fancy to this girl, I'll give it to you."

"Don't talk nonsense, I just want to ask you some questions."

The people in this bar seemed to have gotten used to these things, so Qin Yuan and the others made a lot of noise, and the security guards just took a silent look. As long as there were no vicious murders, they would not care.

Li Erniu and the others also came over. Seeing that the other party was so crowded, the man was even more frightened instantly. He quickly recalled in his mind when he had offended these people.

This place is really too noisy, not a place to talk about things, Qin Yuan grabbed the man and kicked him out. Unexpectedly, just as he came to the door, the man ran out.

Does this guy still want to compete with them? He Chenguang and Li Erniu outflanked him instantly. Before this guy could react, he was already blocked in the alley. He didn't understand how these people were so fast.

Chapter 1642: Enter the employment group

In a blink of an eye, the man was already crushed to the ground. Li Erniu didn't show politeness to him, and kicked him on the waist, "Hey, you really don't know what to do, you dare to run in front of us."

Then there was a fat beating. After the beating, this guy was a lot more honest. When Qin Yuan came over, he was so scared that he shrank in the corner, and he definitely couldn't run away from this position.

"Big brothers, I really don't know who you are. When did I offend you, you wouldn't fight around me like this?"

"Stop talking nonsense, have you seen this girl?"

Qin Yuan directly took out Liu Qingzi's photo, and the man obviously shrank his eyes after seeing it. He definitely knew him, but he rolled his eyes, "Why do you want this man?"

"I don't need to talk about other nonsense. Let me see if you still want to be beaten. Let me tell you, I have many ways to deal with a ***** like you."

The man seemed terrified of being beaten, and he didn't dare to say anything else, so he could only explain quickly that it was Liu Qingzi who took the initiative to find him and asked him to come to the airport to pick her up.

Qin Yuan obviously didn't believe this. Liu Qingzi didn't know this person at all before, and he could see it very clearly from the surveillance. Just when Qin Yuan walked towards him and planned to use hypnosis directly, the man hurriedly confessed.

It turns out that he is an intermediary. They usually post some recruitment information on the dark web, mainly to recruit outstanding retired special forces from various countries. Of course, they are also recruiting some civil organizations.

And the main situation they recruit is mercenaries. This is a very famous mercenary group in Xiaomao, called the polar bear mercenary group.

This employment group is mainly to deal with some foreign organizations, and it also performs some special tasks outside the year. Their group is relatively formal. The original intention of its

establishment was to deal with foreign elements, but with the changes over the years, the employment group has become more and more many.

They can only make changes in order to survive. Now the main purpose of joining the war is for money. As long as the money is in place, they can do anything. In recent years, in some large-scale illegal activities, they have participated in the trafficking of overseas organizations, as well as kidnapping, assassination, etc. are their common tasks.

However, this is also rumored by the people, and no specific evidence has been found, so their employment group has always existed, and it has also been affected by some local influences, because many things are not visible, and they really need to be dealt with.

Qin Yuan was worried that the man would lie to him, so he went up to look for it. The consciousness in his mind was exactly as he said. It was actually Liu Qingzi who found him on his own initiative. This guy is an intermediary, and he is responsible for bringing people there. , take a guy there, and the guy earns a little commission from it.

After hearing what the man said, everyone stared wide-eyed, "Brother Qin, this situation is not good. If she really joins that group and she volunteers, what can we do?"

Everyone knows what it means to hire a group, Qin Yuan sighed, and told everyone not to report this matter, and everything will be discussed after they see Liu Qingzi himself.

Originally, he thought that there was still room for turning around, but Liu Qingzi joined the employment group, which meant that the road ahead was completely ruined, and even if he wanted to return to the team, it would be absolutely impossible.

At this time, the man on the ground also came to his senses. From his consciousness, Qin Yuan only knew that this guy didn't have a real name. After all, they were intermediaries who introduced other people to the employment group, and this employment group was not a good place in the first place. , so all the code names are used, this guy is called Crow.

"Get up, don't dawdle, since that place is so good, you can take us there."

Crow obviously didn't realize what Qin Yuan meant, "Brother, stop joking, there are so many people in their hiring group, aren't you trying to kill me?"

"Stop talking nonsense, we are doing business for you, you take us to that employment group, of course the few of us want to join."

Crow couldn't believe it, but Qin Yuan directly took out a knife and pressed it to his throat. He had no choice but to take a few people to that place.

The crow chattered non-stop along the way, mainly expressing that the hiring group was very vengeful, and if anyone knew that he had leaked the address on purpose, then he would be finished.

"Big brothers, you really don't need it. People don't go to that place, and their influence is very large. If they retaliate against us later, it will be troublesome."

Qin Yuan laughed loudly, "You have to figure it out, the revenge is not on us, but on you."

Crow's face was full of black lines, what could he do now, and in this way, under his leadership, they came to another urban area, which is more accurately an outer suburb.

This employment group looked like a school from a distance, and there were guards at the gate. Qin Yuan put a knife on the crow's waist, telling him to go in as he usually does, and let him go in now. Anyway, let's go in first.

Under the leadership of the crow, it went very smoothly. The guard at the gate was already very familiar with him. This guy would often bring people over, so he didn't conduct too many interrogations, but just glanced at it.

In this way, everyone entered the group smoothly. After entering, there were special people in front of them to greet them and take them to the office. It's just that the crow's face was very abnormal. What else could he say at this time.

Although Qin Yuan can't threaten him now, he brought him here. If something goes wrong, these mercenaries will not let him go.

Qin Yuan and the others walked on the playground and looked around. There should be a training ground in the distance, and they can hear the slogans of training. It seems that it is not much different from their usual training ground. The one on the far side should be a dormitory, the dormitory is the closest to the playground, which is convenient for gathering and departure.

There were two helicopters parked on the top of the opposite building, and a few soldiers in uniforms walked over and looked at them non-stop. Qin Yuan lowered his hat as much as possible, mainly because he knew that he had too many people. Don't cause too much trouble.

In this way, several people entered the office smoothly, and the person in charge brought some forms and asked them to fill in the basic information first. Those who came to this place knew very well that they were going to join the mercenaries, so they had to fill in the basic information and proceed. As for the assessment, their review here is quite strict.

The main thing was to check and exclude physical fitness. Qin Yuan and the others walked in all the way, but they didn't find Liu Qingzi. To be precise, they didn't find any female soldiers, except for the few soldiers they saw just now.

However, Qin Yuan looked at the registration form and just pushed it over. The person in charge was a little confused, looked at him and asked, "What do you mean?"

"Is it useful for you to talk here? If not, let your boss come to see me."

The person in charge laughed, who is this? With such courage, he dared to talk to him like this, "I have seen people like you a lot, but do you know who I am? I served in the Black Panther Commando in the United States before, and I served as the captain for four years."

"No, no, I think you have misunderstood. It's not that you mean to look down on you, but we didn't come to join you, but to find someone."

Hearing a sneer from the person in charge opposite here, these guys are here to find someone, but to find fault, he patted the table and stood up.

"Do you really think that everyone in my place wants to come, and everyone wants to leave? You're still looking for someone!"

The crow next to him was quite frightened, with cold sweat on his forehead, the person in charge just gave him a cold look, "Crow, this is the person you brought, it seems that you are also involved. You are so brave, you dare to join forces to deceive me."

Crow hurriedly explained beside him, "Sir, this is really not what I want. They said before that they were going to join the mercenaries, so I brought them in. I didn't expect it to become like this."

Now the crow had no choice but to quickly pour dirty water on Qin Yuan and the others, but Qin Yuan dismissed it and sat directly opposite Erlang's legs.

"Don't talk about these useless things. Can you be responsible? If you can, you can do it for me. If you can't, call someone else."

The person in charge was already very angry. He took out the pistol at his waist and pointed it at Qin Yuan. Their group is not a vegetarian. It is really a joke that only these few people dare to come to their group to make trouble.

In the next second, he was about to pull the trigger, but Qin Yuan was even faster. Wei Wei dodged his bullet by turning sideways, and flashed directly in front of him in the next second, pinched his throat, and knocked his chest away with a punch. pistol.

Such a speed made him gasp. Before the person in charge could react, he was already pressed against the opposite wall, and he couldn't even breathe smoothly for a moment.

This man's skill is really too fast, just when he felt that he was going to die, Qin Yuan suddenly let go of his hand, "I didn't come to make trouble, it's still the same sentence just now, I just want to find my friend , can only be used in this way, and I hope you can help."

After the person in charge was let go of his throat, he coughed violently for a while, and then took a few steps back, "Okay, you wait, I'm going to find the boss now."

Although he said so, Qin Yuan saw a glint of coldness in his eyes, Qin Yuan shook his head helplessly, why did he think these people were so disobedient? I can only turn my head and look at everyone and say:

"Brothers, get ready, there is probably going to be a fierce battle, let them see our strength, otherwise we might not be able to take them away."

Wang Yanbing picked up the pistol next to him, "This gun is not bad, but it's a pity that some people don't listen to advice."

The crow at the back was completely terrified. He felt that these people were completely crazy. Isn't this an open and direct declaration of war with their group? Still in other people's territory.

Crow turned around and looked around the room. There was no place to hide at all. He could only hide under the table temporarily. This guy was an intermediary, and he was really timid. Qin Yuan didn't care about him, anyway, it had nothing to do with him now.

Just as he guessed, the person in charge didn't go to find the boss at all. After a while, there were orderly footsteps in the corridor outside.

Immediately afterwards, a row of bullets directly hit the opposite glass wall. Qin Yuan was too familiar with this attack method. They usually broke the glass first, and then threw tear gas bombs or directly threw grenades.

It depends on what they want to do. Everyone used the table as a cover and hid below, so they were not injured. Soon a few tear gas bombs were thrown in. Qin Yuan had quick eyes and hands, and threw it out in an instant. The other one was kicked by Qin Zhengyang Kick away.

From the looks of it, they wanted to capture them alive, otherwise they would have thrown the grenade long ago. Besides, this is their office area after all, and everyone didn't want to do it so badly. Using a grenade might accidentally injure others.

book

The people outside didn't expect Qin Yuan and the others to react so quickly. They only saw the tear gas bombs that were thrown in and then flew out. The people outside would suffer, and the entire corridor was filled with smoke in an instant.

In the smoke, Qin Yuan flew out of the window directly. The mercenaries outside just saw a figure flashing out. Before they could react, they heard screams from around.

The person in charge stood on the side and didn't know what happened. He felt a little flustered. What's going on? The next second he only felt pain in his calf, and saw Qin Yuan kick his calf, and then punched him. his cheeks.

"Really, you're useless if I give you a chance. I've said it many times, I don't want to make trouble. But why do you always force me?"

These mercenaries were not vegetarians either. In this situation, no one conceded defeat. Li Erniu and the others also rushed out, and the two sides immediately sent out a scuffle.

More people rushed in from the outside, but in the smog, most of them were knocked down by Qin Yuan, and the boss of the group was so angry that he dropped the cup when he heard that someone was coming to their side to make trouble.

From his point of view, he thought it was some of the other party's employment groups, which were too competitive now, so they came to make trouble on purpose, and he immediately assembled his staff.

At this moment, the office building on the opposite side was completely surrounded by smoke, and the smoke also triggered the fire alarm on it, and the water was sprayed out in an instant.

The mercenaries inside also ran out one after another. Everyone was very embarrassed, and there were scars on their faces to varying degrees. Qin Yuan's speed was too fast, and they were knocked down before they could see clearly.

The boss of the group had a cold face, looking at his subordinates in such a mess, who the ***** is it? At this time, Qin Yuan kicked a mercenary flying out, and then jumped down from the window on the sixth floor.

Looking at it from a distance in the smoke, I just feel that this person is as domineering as if he had a halo, and his aura is completely different, but he didn't remember it, and walked towards the boss of the group step by step come over.

The people around the boss started to be vigilant, and they all raised their guns to point at Qin Yuan. At this time, the boss didn't order to shoot, because he wanted to find out who it was, and there were so many people and so many guns on his side. Afraid you can't handle someone alone?

Chapter 1643: losing contact

"Boy, I really admire your courage. Do you know where I am? You dare to pass it to me, and you have caused me so much trouble."

"It seems that if you can say this, you are the boss. If you had come out earlier, such a thing would not have happened. It is not your fault."

The boss of the group clenched his fists tightly. This kid is really arrogant. They obviously caused trouble here, but now they beat him up instead. He was not being polite, and directly ordered the people next to him to shoot.

The corners of Qin Yuan's mouth turned upwards. His speed was very fast. There was nothing he could do. In order to protect himself, he had no choice but to make a move. He quickly threw a few throwing knives, hit the few people in front first, and then dodged the bullets. Tumbling to the front of the boss of the group.

Everyone didn't see this speed clearly, and the boss of the group was even more stunned, but in the next second a cold dagger was directly stuck to his throat.

The mercenaries next to them were stunned, and the people on the side fell to the ground with their arms covered. Qin Yuan didn't hit their vitals. Relatively speaking, the boss of the group was much calmer. It shows that he has also experienced strong winds and waves before.

Seeing that the people around him gathered around and pointed their guns at Qin Yuan, he calmly waved his hand and told them to put down their guns.

"Look, I just told you not to act rashly. You just don't listen to me. Why do you have to fight me? Otherwise, there would be no blood."

In the next second, Qin Yuan let him go directly. The person on the opposite side didn't dare to shoot at will without the boss's order. The boss of the group looked at Qin Yuan's guts really too much.

"I don't understand what you mean by that?"

"It's very clear. I don't want to offend you. Of course, you don't want to push yourself too hard. This time I'm here to find someone. I can let you go now, but I can kill you directly in the next second."

Although Qin Yuan's words were spoken very calmly, the boss of the group knew from his eyes that this guy would definitely be able to do it, and he touched his throat with a bit of heart.

After such a toss, the boss of the group completely let go of his face, and took Qin Yuan and the others to another office to start a discussion. He didn't know who this guy was looking for to make such a big commotion.

After entering the office, Qin Yuan didn't talk nonsense, and directly took out Liu Qingzi's photo, "Do you know this person?"

It is reasonable to say that he is the boss of the group, and he is not responsible for these things. It is normal if he does not know him, but Liu Qingzi is indeed here, and he can ask other people in charge to come and have a look. Unexpectedly, he nodded to show that he knew.

"You'd better not lie to me, now I want to find out where this person is."

"Why should I lie to you? This is the case. I know you are fully prepared, but I also tell you that I have indeed met this person."

The boss of the group is now full of black lines. He felt that it was hard to send this plague **** away, but he didn't expect bigger troubles to come. He looked helpless, "Not only do I know her, look at the girl I'm lying in the infirmary." Several people were hurt by her."

Unexpectedly, this turned out to be the case, and the boss of the group also explained that although they were a mercenary group, they were considered to be relatively formal.

They all need to sign a contract to join the job. Liu Qingzi didn't think there was anything unusual about this person at first, but after an assessment, he felt that there was no problem with basic fighting and shooting training.

It can be said that she is relatively strong, and it is better for such a person to join their team, so the person in charge signed a one-year contract with her at that time. If you sign a contract with them, you cannot violate the contract. If you want to quit, That must pay three times the liquidated damages.

The liquidated damages are very high. Taking the contract signed by Liu Qingzi, if she wants to quit, she will have to pay at least 3 million.

Because after joining their employment group, the group will also purchase corresponding insurance for them to provide certain protection. In this respect, it is relatively humane, so there is such a contract system. From other aspects, there is no problem .

But the problem lies in the later training, because at the beginning they conducted training, which was all simulated training, which was very basic, but later on, these mercenaries participated in the form of a small team, so they had to carry out running in.

Unexpectedly, an accident happened during the training. Liu Qingzi suddenly started killing the teammates around him. One of them is still seriously injured, and the other two are not much better.

Originally, according to this situation, the solution to such dangerous people is usually to shoot them on the spot. If a person dies in this place, it has no effect on them, but if the group boss knows to do this, then he will It's too bad, three people have already been injured by Liu Qingzi.

If Liu Qingzi was just killed like this, wouldn't he have gained nothing? After all, he was still a businessman, and in the end he simply sent Liu Qingzi to Country D to perform a mission.

That's why the boss of the group had such a deep impression on Liu Qingzi. He thought that he had managed to send him away, but Qin Yuan and the others immediately found trouble.

"If I knew you were coming, I would have taken him away as soon as possible. Look at my current losses, what should I do? Besides, I am such a big employment group, and she signed the contract voluntarily. Anyway, she is here I have a one-year deadline here."

Qin Yuan originally thought that after his own means just now, this guy would retreat a few steps, but he didn't expect that Liu Qingzi would hurt someone again, and in addition, he would be so chaotic here.

He could only say cheekily: "Since this person has caused you so much trouble, let's just take him away, so as to avoid causing you more losses later."

The boss of the group had a dark face, "Why are you saying that too much? I know your ability, but do you think I will be afraid of you? Even if my group quits, I can't agree to such a thing. Today you came here to make a big fuss and take people away, so how can I take people away in the future?"

It seems that what Qin Yuan and the others did was a little too much. Originally, if they cooperated well, such a thing would not have happened. Li Erniu and He Chenguang looked at each other in blank dismay.

This time the matter may be a little difficult to solve, and the employment groups like them have more or less connections with the international community. If things become serious in the future, it will not be good for anyone.

At this time, Qin Yuan fully demonstrated his money-making ability. He looked at the contract and took out a bank card, "Okay, I know what you're going to say. There are 5 million in this card, is it enough for this person?" I want to take it away."

The boss of the group was stunned. Although they would usually be rewarded for completing tasks, but this opening was 5 million, just taking one person away. The deal was a good deal, and he put on a smiling face instantly.

"Enough is enough, how can it be not enough? All right, you just take this person away."

Qin Yuan glanced at him contemptuously. This guy is really a proper businessman. Money is nothing to him anyway, let alone a small amount of money.

But the crux of the problem is where is Liu Qingzi now. The boss of the group thought that this left hand quietly accepted the bank card, and was always worried that Qin Yuan would go back on his word, so he hurriedly made a phone call the next second.

"You guys wait a moment, I have asked the secretary to contact me now, and I will ask my people to send him back."

This guy's attitude changed after he took the money, and now his attitude towards Qin Yan and the others became a little humble, but things were still not that simple, and it took more than half an hour.

The secretary ran in anxiously. He was following up on country D, but the team over there completely lost contact. It was a simple matter, but the contact was suddenly cut off, which made him helpless.

Qin Yuan stood up and looked at him anxiously when he heard this, "What is the mission?"

When it comes to this, the boss of the group is a little entangled. They do everything for money now, so this task must be shady, but seeing that Qin Yuan is about to get angry, he can only bite the bullet and play the role.

It turned out that the task he sent the team to perform this time was to assassinate an officer from country D.

"Hehe, it seems that you really do everything for money as the outside world said. What crime did this officer commit? You are going to assassinate him."

"We mercenaries never think about these things. After all, everyone takes money to do things. If others give money to designate who to kill, then we can just kill the target directly."

Qin Yuan frowned and hurried to get the detailed information. After he saw it this way, this officer is really not simple. He is not an ordinary officer. This guy is in charge of a military base and has been staying in the base, so he sent out Such squads carry out assassinations.

This situation is very dangerous, not to mention that their team is fighting alone, and everyone is not familiar with it. Liu Qingzi's own illness has not recovered yet. In that case, if she fell ill again, it would be very dangerous.

Qin Yuan didn't have time to think about it, so he took the map and walked outside. Time is the most important thing now. He has to save Liu Qingzi before he makes a mistake. If Liu Qingzi really hurts the officer, he will never There is no way to undo it.

Even though she has joined the employment group now, but she hasn't done other things, it's nothing. Besides, the boss of the group just breathed a sigh of relief, but soon he heard a roar from the playground.

He hurried to the window, only to see Qin Yuan directly driving his helicopter towards the sky, he beat his chest angrily, this business is really a loss, this helicopter will definitely not come back.

He ran down angrily, watching the people below who were still in a daze kick a soldier.

"What are you all doing for food? This is our own thing, and it doesn't look good, so let him drive away like this!"

"Sir, it's not that we don't like it, but that his ability is too strong. Who of us would dare to stop him? Besides, you took him to the office just now, and we thought we had your permission."

The boss of the group is about to vomit blood, this business is too bad, he must find a way to make up for it later, but he turned around, if this guy goes, he should be able to eliminate that officer, so it's not a particularly bad loss .

As long as the officer dies, they can also get the corresponding reward, but he didn't expect that Qin Yuan was in such a hurry to save people.

Sitting on the helicopter, He Chenguang was very anxious. He frowned and said, "How could this Liu Qingzi agree to their request to assassinate an innocent person casually? Could it be that she is short of money now?"

"I think it's not because I know Liu Qingzi well. She wouldn't do this kind of thing for money. She probably doesn't know the specific task, and only found out after it was assigned."

But all of these are Qin Yuan's guesses, and many things are not sure. Soon Qin Yuan and the others came to the coordinate point on the map. After getting down and walking forward, they saw a hidden car , Judging from this, it should be Liu Qingzi's team.

There are no effective clues above, but the car is still here, indicating that they have reserved a retreat route for themselves, and they will return here later, but they suddenly lost contact for some unknown reason.

According to the coordinates on the map, the military base is still more than 20 kilometers away from here. It is wise to abandon the vehicle here, mainly to avoid being discovered.

Qin Yuan and the others tracked along the direction of the map, and found no traces on the road. These mercenaries are not vegetarians, and they are very careful in doing things He can only pray that the team has not acted yet, But everything was completely beyond his expectations. When they searched all the way to the military base, they didn't find the team. Instead, they saw that the military base on the opposite side had strengthened its vigilance.

And it is not difficult to see from the tents next to it and the surrounding trees that there have been extremely fierce fights here recently.

Li Erniu carefully took a detour to the side and removed some bullets left on the tree trunk, "Brother Qin, I guess we are late, and this team is strong enough, why don't we just face it head-on? And there is no news, Could it be that they were wiped out like this?"

I don't know how they made the decision to attack the military base directly. Isn't this pure courting death?

Qin Yuan didn't know what the situation was like at that time, but he only firmly believed in one principle, to live to see people, to die to see corpses, otherwise he would not give up.

He decided to sneak into the military base after dark to find out the situation, and let other people stay on the outside. Li Erniu and the others also launched a detailed search on the outside, trying to find out if there were any other clues.

Chapter 1644: successful rescue

Soon after dark, they began to move in batches. Qin Yuan told Li Erniu that they must pay attention to their whereabouts, but these people near the military base are not vegetarians.

This is a military base, so the impact will be very large, but for Qin Yuan, it is too easy to enter this kind of base, and soon he slipped in without anyone noticing.

After entering the base, although the inside was strictly guarded, it was basically no problem to pass through the high wall behind, and the guards were all sent to the periphery.

There was no trace of any attack on the inside. It seems that their team should have attacked from the outside, and they were directly cleaned up.

Qin Yuan slipped in front of a small building and saw two soldiers talking and smoking from the side. These two men became his targets instantly, and he dodged in front of them.

These two soldiers are human, what's the situation? Both of them haven't realized yet, why a person appeared out of thin air, but the consciousness in their minds was controlled by Qin Yuan in the next second.

Soon Qin Yuan got what he wanted to know. It turned out that Liu Qingzi and his team attacked the military base yesterday afternoon, but the attack failed, and they still survived to three members.

Now the three team members are locked in the dungeon below, but one of them died because of torture, and now there are only two left.

When Qin Yuan saw this, his heart skipped a beat. He didn't know if Liu Qingzi was still alive, but since he was in the dungeon, he wanted to go and see, and he wouldn't let go of even a glimmer of hope.

After the long jump, he unlocked the progress on the two soldiers. The two soldiers woke up instantly as if they were in a dream.

At this time, He Chenguang's voice came from Qin Yuan's headset, "Brother Qin, we found traces of freshly turned soil about 500 meters away from the grove. Now Erniu and the others are running down. Maybe something is wrong." Not too good, we also saw some blood."

Qin Yuan lowered his voice, "The situation on my side may also be a little bad. You should investigate first, and then continue to report if there is any situation."

After speaking, Qin Yuan rolled over to avoid the side patrols, and then came to the entrance of the dungeon. The guards here are relatively lax. After all, there are so many people outside on guard, so they don't pay much attention here.

Although the guards are not very lax, but if you look carefully, there is still a squad of people patrolling here. This situation is okay, but it is not good, and the location of the dungeon entrance is underground, just under the feet of these soldiers. It is not so difficult to go in. easy.

Qin Yuan lay on the side wall and observed for a while. Every once in a while, a patrolling soldier would pass by this place, but he still didn't know how often it would pass by. Seconds passed, and the soldiers patrolling before did not appear.

However, for the sake of safety, he still waited quietly, and later he found that those soldiers would pass by every half hour, and the others showed no sign of passing by.

If that's the case, it's easy to handle. Now that these soldiers have just passed by once, he can use the charm skill to confuse the guards in front, and then go in. In this case, the time is about the same.

The first person in front didn't notice any abnormalities, and their eyes were blank in the next second, and they were controlled by Qin Yuan. The distance was just right, and Qin Yuan quickly came to the dungeon entrance, touched the key next to it, and opened it directly, and then ran in.

I didn't expect that just after I jumped down, there was someone below. The dungeon was in a strange position. It was in a straight shape, so there were no car barriers after I got down, and the two soldiers in front spotted him instantly.

"Who! Stop! Don't move!"

Qin Yuan pretended to raise his hand, and then two flying knives flew out in an instant, directly hitting the vital points of the two soldiers, and the two fell down in response. Qin Yuan quickly looked around, and no one else noticed what was going on here. Happening.

"Invincibility begins with offering sacrifices to the ancestors"

The distribution of this dungeon is relatively narrow. Basically, you can see the faint sound of water flowing in front of your head at a glance. It seems that there are water dungeons inside.

After Qin Yuan walked in, he found a room on the side that should be the resting place for the soldiers on duty. The movement just now didn't disturb them, and it was very quiet inside.

After walking into the passage, the troubles on the side are caused by the big iron gate, and there is a small opening for ventilation. Qin Yuan quietly looked inside, and there was a man lying on his stomach in the first room, looking tortured. Half dead.

The second room was empty, but there were people in the third room and the fourth room, but they were not what Qin Yuan was looking for. In this way, he came to the water prison behind and took a closer look, and a familiar figure appeared in front of him.

The person in the water prison is Liu Qingzi, but at the moment she is holding the pillar next to her with difficulty. This kind of water prison is very cruel, and she is a little taller at about 1.8 meters. In this position, the water may always soak in the chin.

According to Liu Qingzi's height, the water can completely submerge her, so she can only hold on to the pillar next to her tightly. At this moment, Liu Qingzi has many scars on her face and body, and she is shivering in the cold .

When she heard footsteps, she raised her eyelids slightly. When she saw a familiar person, she couldn't believe it. She wondered if she was dreaming.

She smiled helplessly, and felt that she had suffered too much torture and had hallucinations. How could Qin Yuan appear under such circumstances? And he didn't know that he came here, she didn't tell anyone.

It wasn't until Qin Yuan opened the prison door, jumped into the water prison, and pulled her up, that this real touch made her wake up instantly. Tears filled her eyes instantly. She wanted to speak, but she couldn't, because I was tortured, and the torture of these tortures is unimaginable.

As soon as she opened her mouth, she saw the wounds all over her mouth. Qin Yuan frowned and felt distressed. No matter what, this was also his former team member, and this girl became what she is now, which has nothing to do with him.

"It's okay, don't talk, I'll take you out now."

Liu Qingzi nodded with tears in his eyes, and Qin Yuan trotted all the way with her on his back. She was seriously injured, and it can be said that he was tortured all over his body. ability to heal her.

Just like this, Liu Qingzi felt that there was no pain in her body just now, but she suddenly felt so relaxed. After suffering for so many days, she leaned on Qin Yuan's back and finally fell asleep.

When she woke up again, she found herself lying in a clean room. She was very vigilant, afraid that the previous one was just a dream, so she got up quickly, and the pain from her body made her more awake.

At this time, the voice next to her caught her attention. Li Erniu was very excited, and hurried out all the way, and Qin Yuan also came in after a while.

Liu Qingzi was able to speak now, "Instructor Qin, I really didn't expect that you would still save me in this situation, and you finally brought me out of the fire pit."

"Don't say that, your injury is slowly recovering now, it won't be too late to say these words of thanks after we go back, and I feel really guilty that you have become what you are today."

Liu Qingzi shook his head, and Qin Yuan hurriedly asked what was going on, why she chose to leave the army without saying a word, and why she came to join the mercenaries, which was completely different from her previous style.

In addition to this action, fortunately they ended in failure. If they really succeeded, then Liu Qingzi might never go back.

After eating something, Liu Qingzi talked about her experiences these days. It turned out that after receiving treatment, she thought she would recover quickly, but found that it was not that simple, and it made her more and more anxious.

Speaking louder can make her feel anxious, she feels unable to control her emotions, always like in the battlefield, she always wants to sprint.

Later, she chose to retire because she didn't want to hurt the people who really helped her, and she didn't dare to tell her parents about it after returning home. She checked it on the Internet, because she was really worried about this state.

Unexpectedly, she found a piece of news. It turns out that this kind of psychological barrier must be exposed to a real battlefield. After another stimulation, it is very likely to heal.

This is the information left by some veterans who participated in the war before. Since she has this hope, she will definitely not let it go. Thinking of this, she resolutely began to investigate.

That's why she had the idea of joining the mercenaries. When she finally came here, she found that it was not what she thought. Just during the training, she couldn't help hurting people again.

Qin Yuan and the others also knew a general idea of what happened next, but they didn't expect that during the process of carrying out the task, everyone would have conflicts, because they were all temporarily added together, and no one would accept the other.

The last mission ended in failure. Speaking of this, Liu Qingzi sighed, "I really don't want to do such a mission. I don't know what they said. They started saying that they came here to kill criminals, but to reach this place Later, I found out that it wasn't at all, they were regular military bases."

Similar to what Qin Yuan guessed before, Liu Qingzi was deceived, which is why she chose to complete such a task. Later, she suffered a lot of torture, but she did not reveal her identity.

This is also thanks to Qin Yuan's previous training, plus she has always had the idea that no matter what, she can't discredit her country. She didn't admit it when she was beaten to death, and she didn't explain where she was from.

Qin Yuan gave her a hug and comforted her well, everything is fine, it will be fine to go back now.

Liu Qingzi nodded, but unknowingly, she didn't realize that her psychological barrier had completely healed. After all, they had just left when there was a serious car accident on the street. The loud noise and the explosion of glass Qin Yuan was a little worried about the fragments, so he quickly looked at Liu Qingzi.

But she didn't respond at all, Qin Yuan was a little puzzled, could it be that what the method said was true, but she didn't realize that she had recovered.

However, on the way back, Qin Yuan told Liu Qingzi that she had been insisting since she went back, that she was only going abroad for a leisure trip, and don't talk about other things.

She expressed her understanding, because in that state, if she left without saying goodbye, it would indeed arouse the suspicion of others, and it was in that special situation.

Soon they returned to the country, and with Qin Yuan as proof for her, the investigation was just a process, and the main concern was that it would lead to international incidents.

After all the investigations were over, Liu Qingzi was really moved. Qin Yuan saved her again and again. In that devil-like place, she really thought she was going to die.

Just when she was about to thank her, Qin Yuan suddenly threw a set of equipment in front of her, "Put it on and follow me to the training ground."

Liu Qingzi was a little tangled, wondering whether she should follow Qin Yuan's arrangement, she was worried that what would happen if she lost control and did something hurtful again?

But Qin Yuan was very sure, and gave her an order again, so she put on the equipment proficiently and came to the training ground. Now everything is different.

She missed the equipment in her hand and those days of training. At this time, a whistle pulled her back from her nostalgia.

"400m off-road obstacle preparation!"

She looked ahead firmly, then nodded, and rushed out in one go, but she didn't notice the people behind, it was really Cao Ying, and the company commander of the special warfare company.

Everyone hid behind and cheered for her silently. Qin Yuan just wanted to prove to them that Liu Qingzi had recovered a long time ago, and also let her see clearly. Faced with such obstacles, how could Liu Qingzi survive? It was very easy, including the shooting part later, her level still did not drop at all. Facing the gunshots, she was very calm in her heart. In her mind, she only had to complete the goal and complete the task.

But at this time, a few people rushed out from the training ground next to them. It was Li Erniu and the others. Qin Yuan was just simulating a more realistic battlefield for them to fight.

Liu Qingzi hesitated, and Qin Yuan shouted loudly from the side: "What are you doing in a daze, this is confrontation training, hurry to me, remember to capture the opposite high ground, and rescue the hostages."

It was almost a subconscious reaction. Liu Qingzi rushed forward without thinking too much. Cao Ying and the others were very nervous and didn't know what the result would be. However, Liu Qingzi went very smoothly.

She didn't lose control, but hit the target very accurately, every step was done very well, and finally broke through successfully, and successfully rescued Wang Yanbing, who was acting as a hostage.

In the face of the gunshots and the interference of the grenade nearby, she did not lose control of her emotions, and everyone cheered behind her.

Chapter 1645: Kidnapped!

Even Liu Qingzi herself couldn't believe that she actually did it. In this situation, her emotions were still very stable. With tears in her eyes, she rushed forward and hugged Qin Yuan.

"Instructor really thank you very much, you not only saved my life, but also gave me a second chance."

"Don't say that, you earned it for yourself. I know you are a very good person. If you train hard, you will definitely achieve great things in the future. You shouldn't just give up in this place."

The other team members also rushed up, hugging Liu Qingzi excitedly. After experiencing so much, he should understand that Qin Yuan made an exception and gave her a chance. Such an excellent sniper should not be wasted, and as a female soldier, it is really very difficult to get to this position.

However, the matter here has just come to an end, everyone is preparing to go back to the brigade, everyone is talking and laughing in the car, suddenly Li Erniu received a call.

At first he was still smiling, because it was his wife who called, but the next second he couldn't laugh anymore, "Who the hell? What's going on?"

"Okay, don't worry, I'll be right back."

Li Erniu hung up the phone in a hurry. Everyone saw that his expression was a little bit wrong, so they hurriedly asked, and he said that his parents were taken away by others.

Wang Yanbing hurriedly comforted him and told him not to be so nervous. Maybe there is some activity below to pick up the old man. Generally, there will be no problem, and their identities are relatively confidential, and they will not say that they have enemies. of.

"No! No, my daughter-in-law is very sure. She said she was forcibly taken away. She is now at our local police station."

He Chengguang who heard the car here was not calm anymore, and immediately turned around and drove towards the airport. Although they were going very fast, they rushed slowly and only arrived at Li Erniu's house when it was dark.

The investigating policeman had already gone back, and the whole house was empty, only Li Erniu's wife was sitting in the house. When he saw his man coming back, he hurried forward.

The voice was crying, "You are back, I don't even know what to do."

"Tell me quickly, what is going on?"

Qin Yuan was also beside him to comfort Li Erniu not to be so anxious, the two old people will usually have nothing to do, and if it is really a kidnapping, they should receive a call from the kidnappers soon.

After comforting Li Erniu's daughter-in-law, she began to adjust her emotions. It turned out that yesterday morning, she went out early to go to the field. Because there was not much work in the field, she let the two old people stay at home. Er Niu's father's legs and feet are not very good.

So she stayed at home and did some simple farm work, but at noon, she didn't wait for her mother-in-law to deliver food in the field, because she had agreed before that in order to save time, she would not go home at noon. Her mother-in-law brought her food, and she just ate two bites.

But after waiting until 1 o'clock, she vaguely felt that something might have happened at home, thinking of this, she didn't dare to delay, and hurried back.

Unexpectedly, just after returning, he saw that the gate in the yard had been opened, the whole yard was in a mess, and the large water tank next to it was also broken.

There was food in the kitchen, but she didn't move it. She wondered what was going on. It was like a thief broke into the house. She hurried out to ask the neighbors for help.

The people in the village were already enthusiastic, so they hurriedly called everyone to find them. After all, it is impossible for the two old people to disappear for no reason.

In addition, Li Erniu had been serving as a soldier outside all year round and hadn't come back. The village head was also very worried, and immediately notified everyone with a big broadcast. An old man picked him up.

According to the villager, he didn't know the people in the car, and he thought it was Li Erniu who sent someone, but he didn't dare to ask further questions, and the windows of the two old people in the car didn't open, they just saw a back view.

Li Erniu was stunned when he heard this. He hurried out, wanting to understand the situation by himself. Seeing that something was wrong, Qin Yuan asked Wang Yanbing to follow him. Don't let this kid cause any trouble, and investigate here first. .

Li Erniu's daughter-in-law was wiping tears beside her. She kept blaming herself, thinking that if she had come back earlier, such a thing would not have happened.

"Sister and sister, don't say that. If you come back earlier, you will be taken away by them. If you are taken away, what will Er Niu do when you come back?"

Qin Yuan could only soothe her emotions and let her try to recall as much as possible, because she would not take people away by saying so suddenly, it must have been stepped on a few days ago.

So let her recall and see if there are any suspicious people around the house recently, especially in the village. If there are strangers, it is still easy to identify.

Under Qin Yuan's comfort, she wiped away her tears, and then she began to recall carefully. At this time, she suddenly remembered, "By the way, a few strangers came to the village a few days ago and said they were buying herbs. Yes, but where do we go to find herbs in this mountain, and not many people have them."

According to what she said, those herbal medicine dealers stayed in the village for a few days, and they asked door to door. It seems that these are the most suspected.

But because she didn't pay attention at that time, she could only roughly describe the appearance of those people, and she didn't know anything about other situations.

After a while, Li Erniu ran in from the outside. He shook his head helplessly. The villager who saw his parents was an old man, so he didn't notice the license plate at all, he only knew what color the car was.

The clues were completely broken, and Qin Yuan told him not to worry. Generally speaking, if it was a kidnapping, the kidnapper would definitely make a profit, and it seemed like it was very targeted.

There are so many people in the village, and Li Erniu's family lives in the center of the village. Even if they wanted to kidnap, they wouldn't say that they came into the house to remove people. It can only mean that Li Erniu must know someone.

While Qin Yuan was analyzing, the phone at Li Erniu's house suddenly rang. Qin Yuan signaled everyone to be quiet. In order not to startle the snake, because the other party must not know that they are back, it is best to let Li Erniu's daughter-in-law answer the phone .

small book booth

"Brothers and sisters, you have to remember, you must do what we say later, no matter what conditions he proposes, you just agree to it, and protect people's safety first, understand?"

She nodded desperately, then took a deep breath, and then walked over to answer the phone, and the phone was also pressed on speaker.

"Hey?"

"Oh, that's interesting, I know they're around! Let that Qin Yuan answer the phone."

Qin Yuan was stunned when he heard this, he didn't expect to know himself, then this matter was complicated, he didn't hesitate, since the other party already knew, there was no need to hide it.

"Just tell me what I have next to you. What are you going to do?"

"Hahaha, Captain Qin, your speed is really fast enough, but I knew it before I did this."

"Don't talk nonsense, since you know my identity, you should also know the consequences of offending me, but now I won't care so much with you, as long as you safely exchange the two old men."

"Captain Qin, I really can't believe this is what you said. Now you want to ask me, why are you still so pushy?"

The person on the other side seemed to be very angry, and hung up the phone immediately. Everyone present was stunned. This was the first step in the negotiation, but the other party actually hung up the phone.

And He Chenguang who was next to him shook his head. He failed to track the signal just now, which shows that the other party also used anti-reconnaissance technological weapons.

This guy is really too cunning. Originally, they wanted to use the communication equipment to find each other, but they failed to take one step. Just when everyone was at a loss, the call came again.

The other party obviously adjusted, and he continued: "Now you are begging me, you'd better put your attitude on it, otherwise you will only see two corpses."

Hearing this, Li Erniu clenched his fists, he wished he could rush to the opposite side now, drag that **** out and beat him up.

"We are negotiating now. What do you want? I will agree to your terms, of course within my ability."

"Hahaha, it's hard for Captain Qin to imagine that you are negotiating with others, and it feels so amazing. Well, let me talk about my request first, and now I want 30 million!"

Qin Yuan was very calm and agreed directly, "How can I give you the money? And how can you return the person to me?"

"Captain Qin, don't be so anxious. As for where to put the money, I'll tell you, and if you think it's that simple, I'll put the person back? This is just a condition."

After finishing speaking, the other party hung up, which made them very passive for a while. Li Erniu punched the table, and the table next to him was smashed by him in an instant, and blood flowed from his hands.

"These **** lions are asking for so much money! If I find them, I will smash them to pieces."

Qin Yuan asked him to calm down first, and now he has to quickly analyze the clues to see what this person means. He is very familiar with them and understands their style of work. This person is really too courageous. This is a blatant provocation .

He Chenguang frowned next to him. The last mission they completed was all from abroad. Basically, they are now in line with international cases. Could it be that they are criminals from the international side?

They could only analyze from the only clues, but Qin Yuan thought of a key issue. Their identity information was kept confidential every time, and he stood up as a representative, while the others basically did not. What an opportunity to show up.

So where did this information leak out from? At this time, officers from the police station also came to the house. They are conducting a second wave of investigation. Based on the vehicle information provided by the villagers, they also began to conduct investigations in the entire area. .

But that car was a licensed car, and there was no valid information on it, and it was very cunning. They changed it after getting in the car, and there was no surveillance on the country roads, so it was difficult to find it.

Talk to them personally and tell them the news of the kidnapper's phone call just now. Now they want to know who the kidnapper is and the place of the transaction.

However, after the comrades at the police station arrived, they heard the conditions put forward by the kidnappers. 30 million is not a small sum, "Captain Qin, let me see this, delay the time first, and look for this excuse to delay according to our usual situation." time before investigating their backgrounds."

Qin Yuan smiled. The other party obviously knew that he had such strength, so he dared to say this. Sure enough, after a few minutes, the kidnapper called again.

And this time he took the initiative to say that 30 million yuan was not a problem for Qin Yuan, so he was required to prepare it within an hour, and then he would inform him of the transaction location by text message.

The colleagues at the nearby police station were stunned. What's going on with this guy? Not following their routine at all, Qin Yuan felt that money was something outside his body, if he could use the 30 million to lure the kidnappers out, then there would be no big problem, as long as he could catch one person, the people behind him would not be able to escape.

Moreover, the kidnapper was more courageous. He knew the police's previous routine, so he didn't ask for cash, as long as it was a bank card. In this case, the target was greatly shortened, and there was no way to control it.

Soon a text message was sent, probably asking them to send the bank card by courier, and the other party also sent an address.

As soon as the address was received, the police next to it rushed to investigate. Unexpectedly, it was an abandoned warehouse. Could it be that they were hiding there?

Now everything is out of the question, and we can't let it go. Qin Yuan asked the police to go over there first, but be careful not to let them find out that the two sides acted at the same time.

In the car, Li Erniu was very anxious, while Qin Yuan had a premonition that this time he would be in vain. Why is the other party so courageous that he can send the address directly? It is very likely that he will be able to get away from the mountain count.

Soon Qin Yuan came to a courier point. He checked the surroundings and found that there was no problem. After filling in the information, the courier next to him was seriously packing.

"Brother, please ask, when will this mail be sent out?"

"This is a courier from the same city, and it's very fast. It's just that sir, I think it's very strange. The distance between you is not very far. Why do you still send it by express?"

"It's nothing, just do as we tell you."

The courier guy didn't say anything, and then started loading the goods beside him, while Qin Yuan retreated, and everyone sat in the car next to him, and began to pay attention to the courier's every move. Now it seems that they can only follow the courier guy, Maybe the kidnappers will call on the way.

Soon the courier brother finished loading the goods and started to prepare to go. Qin Yuan and the others followed all the way without missing any details. At this moment, a taxi slowly approached the courier brother, and the courier was holding a It was the package sent by Qin Yuan.

Chapter 1646: Zhong Damin did the trick

Sure enough, there was something wrong with this guy. They came to pick up the package on the way. Qin Yuan gave an order, and the driver in the car was surrounded by heavy siege before he could react.

The courier boy was in a daze. He said that he didn't know anything, and the package in his hand fell on the ground, and the taxi driver was indeed here to pick up the package.

"Speak! Where is the man who sent you?"

The taxi driver had never seen such a battle before, so he raised his hands in fright and hurriedly explained, "Brother, I really don't know what you are talking about, I was just sent by someone to pick up things."

"What's the situation, tell me quickly."

The taxi driver said that he was on the way to solicit customers, but he saw someone waving beside him. After he passed by, he found a man wearing a peaked cap. The man asked him to come and pick up his things, but he would pay him double the fare. fee.

When the driver heard that there was such a good thing, he must have agreed, so when he came over, Qin Yuan cursed secretly, he really fell into this guy's plan to divert the tiger away from the mountain.

Li Erniu was very anxious, "Brother Qin, what should we do now? Let him send the things back, and then we will follow?"

At this moment, Qin Yuan turned his head and looked around, and saw a man in a black suit running from the overpass. He pointed in that direction for everyone to chase after him. It doesn't make any

sense to let the driver go back now. He really ignored this. One step, this person is really too cunning, and his consciousness is very strong anyway.

He followed the driver along the way, and now he was putting people back, which didn't make any sense. Seeing this situation, everyone hurriedly chased towards the overpass, and there was a lot of traffic on the car.

While Qin Yuan was chasing, he suddenly received a call from the police over there. They said they had arrived at the abandoned factory and found a van at the gate of the factory, which seemed to be the kidnapper's lair.

Qin Yuan felt very bad in his heart, so he hurriedly explained on the phone, telling them not to get close to the car. The kidnapper is so cunning and can deal with them, how could he make such a low-level mistake and directly reveal the address in advance.

"Captain Liu, trust me, don't act rashly, wait for me, I'm chasing the suspect."

Although Captain Liu didn't know what he meant, he could only agree. After hanging up the phone, Qin Yuan's speed was extremely fast. The man in front was not his opponent at all. As soon as he turned his head, Qin Yuan came to his room. In front of him, as soon as he grabbed his shoulder, he fell over his shoulder.

The man fell to the ground, grinning his teeth in pain and backing away again and again. Qin Yuan stepped forward and stepped on his chest, "The boy runs quite fast, what's going on?"

Qin Yuan pulled off his mask, and a familiar feeling swept over him for a while. He always felt that this person had seen him somewhere, and quickly recalled it in his mind.

At this time, Li Erniu and the others also caught up. Li Erniu was very excited and rushed forward to grab him, "Hurry up, where are my parents?"

Unexpectedly, when encountering such a situation, the people on the ground did not have the slightest fear, but just looked at Li Erniu with a sneer on his face, "It seems that you are really too cold-blooded, and you have forgotten me so quickly, I want you to feel it too. The pain of losing a loved one."

what's the situation? Li Erniu didn't remember this person at all, but Qin Yuan felt that his brows and eyes looked familiar, so he didn't have time to think about it. He knew that he had no choice but to directly invade his consciousness in the face of this kind of hob.

However, just after entering his consciousness, Qin Yuan saw an important piece of information. All of this was indeed designed by them, and the car itself was the bait, and there was a bomb on it.

He just deliberately waited for them to take the bait. Qin Yuan felt that something was wrong, so he didn't have time to look any further, so he quickly called Captain Liu, hoping that this guy would follow his arrangement and not get close to that car, but he called several times, but the other party never heard of it. People pick up.

Qin Yuan punched the face of the sneering man on the ground, "You ***** are really insane."

"Hehe, you said I was insane, so was it the same when you killed my brother? And his child!"

Speaking of this, Qin Yuan was stunned. He dared to say that he had never made a mistake and killed any civilians for so many years. He asked Wang Yanbing to quickly find a way to contact Captain Liu and tell them not to approach the vehicle.

Qin Yuan continued to invade again. He wanted to quickly obtain the position of Li Erniu's parents. These guys were not doing it for money at all. All they did was to divert their attention. In fact, it was for revenge and murder. In this case It doesn't matter how much money you put down.

He soon realized that it was no wonder that this guy kept saying that they killed his brother. This was indeed the case. It was an overseas operation, and this guy's brother was not nothing.

But at that time they ran away with the criminals, and the criminals still had guns in their hands and kept shooting at them. For the sake of safety on this side, they could only shoot, basically the priority was the priority.

That time was their cooperation. As for the man's child was indeed very young, they didn't know about the situation at the time. Those criminals knew that they were doomed, so they simply killed all the insiders, including the man's child.

In the end, although the criminal was caught, the child and his elder brother were both dead. This guy put all the charges on the red blood cell team. His continuous investigation over the years is just to gain opportunities.

But when it comes to this, he is more curious how this guy knows, but the most important thing to delay him is to quickly find clues about Li Erniu's parents. Unexpectedly, this person is only responsible for taking Li Erniu's parents away, and then handing over Once in the hands of a few men in black, he didn't know anything else.

Just when Qin Yuan was about to investigate carefully, bad news came from Wang Yanbing.

"Brother Qin, it's bad, something happened to them!"

Qin Yuan's heart skipped a beat. It seemed that they still didn't listen to him, and could only take the man with them. When they arrived at the abandoned factory, they saw several ambulances around them, and the cordons were pulled up.

The large wall of the opposite factory was affected and completely collapsed, and some nearby trees were affected, and there were explosions everywhere, leaving debris, and there was still a lot of blood in front.

It looked very tragic, but the captured man smiled sinisterly, he felt a feeling of revenge that he had never felt before, "I just want you ***** to feel what it means to lose a loved one, but it's still far away Not enough."

Li Erniu stepped forward and slapped him directly on the face. The corner of this guy's mouth was already bleeding, but he still had that smile. He really didn't deserve a beating.

"Er Niu, don't do anything yet, hurry up and check the situation!"

After Qin Yuan and the others went in, they only saw Captain Liu wrapped in gauze, directing the whole scene, his voice was a little hoarse, Qin Yuan hurried over to ask what was going on.

Captain Liu was very guilty, he lowered his head helplessly, "I wish I had listened to you back then, but I think since the vehicles have been found, it's better to see if there are any clues..."

It turned out that when they looked at it, it seemed that there were indeed people in the abandoned factory, and when they thought about the safety of the hostages, they didn't care so much about their plans, they acted first, and Qin Yuan was already catching criminals, so they also Can't care so much.

Just when he was about to open the car door, there was an explosion. Several people standing around were injured to varying degrees, and the person closest to the car was killed on the spot.

Having said that, he clenched his fist and slapped himself on the face again. He was in great pain and knelt on the ground, "It was all me, and it was all my wrong command that killed those brothers."

Qin Yuan looked at the uninjured people around him, all of them should have been taken away by the ambulance, and the rest were only dealing with the slightly injured people. Such a powerful explosion affected everyone around to varying degrees.

In fact, what he was most worried about just now was that Li Erniu's parents were really in the car. If he opened the door, everything would be over. Fortunately, this guy seems to be cooperating with other people, and he saw it in his consciousness. Those men in black, otherwise it's all over.

Qin Yuan could only pat him on the shoulder to express his comfort, then stepped forward and began to examine carefully. Now there are basically no clues.

Hand over the man to Captain Liu, and let them do the rest of the review work. He already knows the general situation, but the place he handed over to those people feels familiar to him, so he quickly recalled it in his mind.

Suddenly he had a flash of inspiration, and he said that the place is so familiar, isn't it the villa area where Zhong Damin was before? Because he was so impressed at the time, no one lived in that row after the driver took him from the main road.

YY

So he was quite curious at the time, and he paid attention to it, seeing that what he got from the man's mind seemed to be exactly the same as the sign on that road.

This **** dared to do such a thing, he hurriedly took people to Zhong Damin's villa, and just arrived there, he found that this guy was already ready, he sat calmly in the wheelchair, and the people behind him stood one by one body.

Li Erniu was very excited, he wished to step forward and tear the group into pieces, and at this moment they also noticed that there were several people guarding the door of another room.

Looking at it like this, as expected, Li Erniu's parents should be in that room. Just when Qin Yuan was about to step forward, Zhong Damin suddenly burst out laughing.

"Captain Qin, you are still in such a hurry, but I advise you not to do such a thing, because if I move my fingers casually, his parents and this building will be wiped out."

"Hehe, you really dare to threaten me!"

"I know your ability. You'd better keep a certain distance from me. I have more than one chip in my hand. I have also planted bombs in other places, so everything depends on you. Even if you take my Kill them, and those bombs will still go off."

This despicable guy, Qin Yuan clenched his fists, now he can only see what this old guy is going to do, only after his questioning.

Before Qin Yuan replaced his daughter, he already knew about it. He felt that it was killing him completely. Now he only has one request, which is to let Qin Yuan bring his daughter to him immediately. Kidney replacement surgery.

But it took too long to go back and forth. Besides, he would not do such a thing. Wouldn't this push that girl into the abyss?

"I told you before that I can save you, and I can assure you that there will be absolutely no problems. I can treat you."

Zhong Damin couldn't believe it, "Captain Qin has reached this point. I am very aware of my own disease. Even foreign doctors can't help it. What can you do to save me? I need a healthy kidney now, do you understand? "

Qin Yuan sneered, and then directly picked up the pistol and shot himself in the arm. This scene shocked everyone, including the bodyguards on the opposite side. They didn't expect this guy to beat him so hard. , without blinking an eye.

Zhong Damin was also obviously taken aback. He thought that Qin Yuan was going to attack directly. Qin Yuan's ability is so powerful that he could recover instantly, but in order to convince this guy, he still took out acupuncture.

"I'll demonstrate it to you myself, it's the wound."

Then he quickly pricked a silver needle on his arm, and the wound healed at a speed visible to the naked eye. The previous blood had completely stopped flowing, and soon the wound miraculously recovered. Not even a scar was left.

Zhong Damin stood up excitedly The main reason is that this guy has also planted time bombs in other places, and now he really can't be touched.

He stood in the distance and kept observing Qin Yuan's wound until Qin Yuan showed him that there was nothing wrong with it. He clapped his hands subconsciously, "I have lived most of my life, and this is the first time I have seen such a miraculous medical technique." , It can actually achieve the effect of breaking the bones."

"So I said with certainty that I could save you, but you rejected me. How about now? Is this deal okay? You don't need to bring your daughter, I can save you intact."

Zhong Damin seemed to be thinking, because in this way, Qin Yuan could approach him, and his situation would become very passive.

But he just wanted to live, if there is this way now, it should not be a problem, "Okay, I agree, but I have one more request, you two more people to come over as human beings, otherwise I will be here now Press the siren."

Qin Yuan's heart blossomed with joy. If he said that this guy is really an idiot, if he called his people over, wouldn't that better protect the safety of Li Erniu's parents?

Chapter 1647: leaking reporter

At this moment, Zhong Damin didn't have time to think so much, he just wanted to get more hostages as soon as possible, so that he also had bargaining chips in his hand.

Qin Yuan stood in the distance and said it didn't matter, he could choose whatever he wanted. Zhong Daming looked at it, and among these few people, he felt that Qin Zhengyang was younger and might be easier to control, so he gave priority to another person, he pointed to He Chenguang.

"Just the two of them, but you better not play tricks, I want to watch you take off all your clothes, I'm not allowed to bring anything in, understand?"

Qin Zhengyang almost laughed out loud, even with his bare hands, he could wipe out all these bastards, while Li Erniu was very worried at the side, and he explained in a low voice, telling Qin Zhengyang to go in quickly to see how his parents were doing.

"Brother Er Niu, don't worry, your parents are our parents, and I will take good care of them after I go in."

Under Zhong Damin's inspection, the two of them took off their clothes, put on underpants, and walked in. The moment they entered, He Chenguang finally breathed a sigh of relief. Fortunately, the old guy also knew that they were bargaining chips. So it didn't hurt Li Erniu's parents, and his parents sat in the room safe and sound.

"Son, how did you come in?"

"Uncle and aunt, don't worry, we are here to save you. Now that we are here, we can better protect your safety. Don't worry, the cow is outside and brother Qin is also there. They will find a way to rescue you."

Li Erniu's parents were even more furious when they heard this. They felt that they were dragging their son down.

"I really didn't expect that at my age, I could be kidnapped by others. This is completely harming my own son, and it also caused you to dispatch so many people."

"Uncle, don't say that. These criminals are here for revenge. Besides, it is our responsibility to fail to protect your safety."

On the other side, Qin Yuan was even more relieved to see the two of them go in. Now there is basically no problem. The biggest problem is where are the bombs that the old ***** planted?

Zhong Damin repeatedly asked Qin Yuan what kind of treatment method to use? Do you need anesthesia?

Qin Yuan said that he didn't need it at all, all he needed was his silver needle, and he could hear it in a sober state. Zhong Damin's hanging heart was finally relieved.

As long as Qin Yuan finds an opportunity to approach him, he will basically get a general idea. Zhong Damin still feels that something is wrong, and he doesn't know why. Although he has a lot of chips in his hand, he always feels that it is not very wise for such a guy to approach him. s Choice.

He threatened Qin Yuan again, "Only I know the location of those time bombs. If you really kill me, it will explode at any time. Do you think how many people will be lost?"

"Don't worry, I will agree to your request now, and I will treat you well. After all, there is no need to confront you head-on. I still know some things."

Now he can only coax him first, and when he gets closer, it will be another matter. Zhong Damin thinks again and again, and finally he just wants to live, so he agrees to Qin Yuan's approach.

Several bodyguards nearby had been paying attention to Qin Yuan's actions, and just when Qin Yuan reached out to hold his hand, they directly entered his consciousness in an instant.

Dealing with such ordinary people is really too simple. Soon Qin Yuan saw the locations of those time bombs, and immediately notified the surrounding area. The security guards next to him didn't react. There is no value left.

He immediately notified Captain Liu and asked him to send a bomb disposal team to rush there. After all, it was a time bomb, which was still very dangerous. Now he can control Zhong Damin here.

Li Erniu also rushed into the room and saw that his parents were safe and sound. He was relieved. After Li Erniu's parents came out, they kept apologizing to everyone.

Now Zhong Damin's problem has been solved, the old guy has been controlled, but the crux of the problem is how he knew about Li Erniu's parents.

The person this person wants to take revenge on is Qin Yuan. He wants to get hold of Qin Yuan, but the information about Qin Yuan's child is very confidential. He can't find it, so he can only target the people around him.

After Qin Yuan's cross-examination, Zhong Damin really didn't know about Li Erniu's existence at present. He was only cooperating with the man before him, and that person really knew the information. The relationship between them was just a cooperative relationship.

Captain Liu soon got the results of the investigation. The man's original name was Chen Jinshui. Before that, he had been working for a well-known local newspaper as an editor.

Later, because his elder brother had an accident, his elder brother was his only relative, and he did not work in that newspaper office, but he also met a lot of people there, because this guy usually treats others pretty well, so Even though he is gone, there are still many people who come and go with him.

In this way, he found a reporter, and learned about Li Erniu's information and the exact location of his home from a reporter. Only then did the previous scene happen.

Hearing this, Li Erniu became uneasy. He clenched his fists and slammed it on the table. These reporters are really unconscionable now, so they just casually leaked his privacy. Fortunately, they reacted quickly this time. If they really What happened to him, he really didn't have time to regret it.

Following this line, Qin Yuan led the people directly to the newspaper office in person, but he was not polite to the people inside. The people inside didn't realize what was going on, so a few people in uniforms rushed in.

Qin Yuan's goal was very clear. It was the reporter. The person in charge quickly ran out. Seeing this kind of battle, he was also frightened. He hurriedly recalled that he hadn't committed anything on his side. What did he do? so grand?

"Comrade, is there some misunderstanding between us? We all do things according to our duties and have never made any mistakes. Why did we suddenly come here to investigate?"

"As for whether he is doing things according to his duties, we will find out after we investigate. Who is Li Jing? Bring her out."

The person in charge was frightened by the tone. After all, he was holding real guns. He hurriedly explained beside him that Li Jing had already gone out for interviews and should be back in a while.

He asked cautiously, "Sir, what did Li Jing do? How did you get into such a big fight?"

After all, in his opinion, Li Jing is an excellent female reporter in their department, and she has never made any mistakes in doing things. Besides, how much trouble can a girl cause?

Qin Yuan ignored him at all, and after a while, he heard footsteps coming from a distance, and several people walked upstairs talking and laughing, and were stunned by the scene before them as soon as they came in.

Wearing a white sportswear among several people was Li Jing, who looked full of youthful vigor, she had no idea what was going on, Qin Yuan strode towards her, and then looked at her directly.

"Come on, come back with us."

"Why! What are you doing?"

Li Jing was a little surprised because she was in the company and she had been in the news media for so many years. She knew that these people couldn't just take her back. Besides, she didn't know what she had done.

"Hehe, everything we can do is because of your random interviews, which led to the leakage of our team members' information and the retaliation of others. Now that **** is planting bombs in various places. You say this is not your problem?"

Li Jing was stunned when she heard this, she didn't expect the incident to be so big, and she began to think about it carefully, and she was also stunned when she saw Li Erniu.

He didn't remember the specific situation clearly, but at that time she became popular because of this report. She interviewed a special war hero alone.

This Li Jing is not a fuel-efficient lamp. After many inquiries, others have given up, but she still perseveres. Finally, she found Li Erniu's parents and conducted an interview. It was at this time that his family's information was leaked. .

At that time, Li Erniu had been training with Qin Yuan in various places and performing various tasks, so he didn't even know about it.

Hearing this, Li Jing looked at Qin Yuan, "But what does this have to do with me? I'm just reporting and interviewing heroes normally, and I'm promoting it for you. Is that how you treat me? If it's not my propaganda, someone Who knows about you?"

This guy is ashamed to take the lead here, he doesn't know where he is wrong, he doesn't even have the most basic moral guidelines as a news media, Qin Yuan stared at her coldly.

"Do you know? It's because of your bottomless behavior that almost made our hero's parents suffer revenge! We only want to be unsung heroes, so don't wishful thinking."

After finishing speaking, let the people next to her take her away. The source did appear here, and she was the one who provided clues to the criminals.

Only at this time did Li Jing realize that she was afraid. She saw that the other party was really going to do something serious, but the person in charge next to her didn't dare to say anything. On Fang's side, that's not a small problem. He wished he could take him away quickly so that he wouldn't get involved here.

nice romance

As the person was taken away, Qin Yuan turned his head and looked at the person in charge, "I really hope that some of you news media people have your own moral standards and don't harm others or yourself. You still have to have a bottom line in life, otherwise you will only Let us heroes be chilled!"

"Yes, sir, you are right, I will definitely strengthen the training in the future."

Qin Yuan shook his head. For them, what happened this time was safe and sound, but Captain Liu's side was not so good. Because of this explosion, one of their team members died, and several others were injured to varying degrees.

To put it bluntly, these people are just ordinary people after taking off their clothes, and they just want to live a good life with their families, but because of the responsibilities on their shoulders, they can only be given special protection.

This time the matter has come to an end for the time being. Qin Yuan has been quite busy recently, because it is near the end of the year, so various assessments have come one after another, and some people have borrowed people from them.

After all, their side is the newly established Special Warfare Brigade, and now the first and second brigades are under his affiliation, and they are invited to participate in the assessments of other military regions, mainly to guide their soldiers.

So it's been quite busy recently. His brigade has transferred out four teams of personnel. Gao Shiwei's side has basically not moved much. Tasks, so the training tasks are handed over to Qin Yuan.

He also worked out different plans, mainly aimed at the assessments they will conduct over there. In addition to the assessments between several military regions, there will also be separate assessment training among their special forces teams. This is also to test everyone's results. .

Just like the final exam every year, when he was so busy, a piece of news suddenly came one after another. A fire broke out in a chemical plant in the suburbs, and the local firefighters were immediately sent to rescue.

But because it is a chemical plant, there are various flammable and explosive materials in it. Although the fire was extinguished in the end, the price in exchange was very heavy. Eight firefighters died in that rescue.

During the meal, everyone was discussing this news. In recent years, except for those who are responsible for going to the front line, they are basically the most dangerous jobs in the rear.

When training those special police officers before, he wanted to set up a separate special operations team. He also thought that a fire brigade like this could actually be set up. Improving their overall quality can indeed reduce the death rate.

But these are two systems after all, and they have been completely separated before, So looking at it this way, if he went to train rashly, it would indeed be a bit out of order.

It's not that they were insufficient in this training, but Qin Yuan felt that if he was doing targeted training, it should be fine. Thinking of this, he quickly checked in the system. training manual.

Seeing it like this, after the busy period, if he can, he decides to apply to the above to see if he can give them a training guide.

The few armed police teams he trained this time have already achieved outstanding results and completed several major missions in the border area. This is an absolute result.

Before Qin Yuan had time to react, he received a call from Gao Shiwei and said that he would take him to meet a friend. Although he didn't know what kind of medicine he was selling in his gourd, Qin Yuan went with him.

The two came to a restaurant. After entering, they were in a separate private room. As soon as they opened the door, they saw two people sitting in it. People are different.

Chapter 1648: agree to training

They were very tall and straight. When they saw Qin Yuan coming in, the older man stood up quickly and greeted Qin Yuan very politely.

"Captain Qin is really young and promising. I have only seen him a few times from a distance before, but now seeing the real person is really extraordinary. The temperament of this person is really different."

"I've won the award, I've won the award, it's just to complete the task."

"Captain Qin, you are young and promising, and you are so low-key, we really admire him."

Qin Yuan quickly thought for a long time in his mind, which military region these two people are from, he seems to have never met before, and looking at the other person's temperament, this person's official rank should not be low.

At this time, Gao Shiwei lowered his voice beside him and introduced, "Don't look at me, you boy, these two are from the fire brigade of City A."

Hearing this, Qin Yuan instantly understood, but Gao Shiwei also said that the two of them were also veterans before, after all, they were considered special jobs.

After all, it seems that everyone is related, and soon a few people sat together and began to eat. The older one on the left was called Wang Ming, and the one sitting next to him was their instructor Liu Sen. Qin Yuan admired them very much. of.

Although they, the special forces, also need to face some uncontrollable factors in the periphery, but they have to encounter some unexpected situations every day, and they will be present at every rescue and disaster relief scene, which is really very hard .

Speaking of Wang Ming's regret for a year, he shook his head, "It's really ashamed to say that although we have gone through so much training, I really want to protect our soldiers. I don't want them to suffer any harm or danger, but Ah, backfired."

Qin Yuan knew what he was talking about. It was the recent explosion. The firefighters in Xishang were very young, on average they were all young men in their twenties. They were really young.

"Captain Wang, I don't think you can be blamed for this, it's just that you have too many uncontrollable factors at those disaster relief sites."

Wang Ming was a little emotional when he said this, and he just drank a few glasses of wine, "I know this too, but I am also thinking about this issue now. According to statistics, to be honest, the number of people we sacrifice every year is increasing, so I'm really worried."

This is also the reason why they came to find Qingyuan. They wanted to find Qin Yuan. If they could be given special training, the first thing was to improve the basic survival quality of these firefighters.

Although they were training every day, basically engraving safety directly on their foreheads, the number of sacrifices continued to rise, so he was also very worried, and wanted to see if he could change it in other ways.

When he found Qin Yuan this time, he also wanted to ask for his opinion first. After all, he is not a professional in this field, but when he saw that other arms, armed police, and special police had already set up special combat teams.

And they all achieved very good results, so he wondered if this kind of training would also be effective for their team.

He was worried that Qin Yuan would be a little embarrassed, so he quickly explained beside him. "Captain Qin, I'm a straightforward person, so don't mind me. If it's really all right, I'd really like to ask you to help us. We can improve our physical fitness and reduce our physical abilities. mortality rate."

Hearing people say so politely, Qin Yuan also stood up quickly. He said that he had such an idea a long time ago, but because their systems were different, he was not qualified to intervene in this matter. been delayed.

"Captain Wang, you have already said that. I will definitely come over to train you actively. I will not say anything. After finishing it, it is also for everyone's safety. I also saw the news before, and I really feel distressed. Those brothers."

Wang Ming directly raised his glass and drank it down, expressing his respect. To be honest, he really had no choice but to find Qin Yuan. He just wanted to improve their survival rate in all aspects.

And as the team leader, he was more cautious in asking questions, always worried that he would be rejected, "Captain Qin, when do you think you have time? After all, you are also relatively specialized. Take a look at your schedule." ."

"Captain Wang, don't be polite to me. I am a straightforward person, and when I do things, I also hope for a quick solution. Let's do it tomorrow, and I will go to your brigade."

Wang Ming didn't expect Qin Yuan to do things so simply, so he agreed directly. At first, he wondered if it was because his question was rather abrupt, and he just found an excuse to put it down first, and waited to talk about it later, but he didn't expect him to directly To be honest.

He was somewhat touched in his heart, thinking that the people in the army were reliable, and sometimes they would immediately agree to a one-sentence matter, and he said it was okay.

Because there are so many sub-branches under them, it is impossible for Qin Yuan to train in the sub-branches one by one, so they all select personnel from each sub-team to the head team for special training, and each sub-team selects five firefighters.

It sounds like there are only five people selected for each team, but in the urban area, their teams are spread out widely, and even Wang Ming doesn't know how many people there are.

Qin Yuan was not too polite, and asked him to go to the statistics quickly. He will arrive at their headquarter tomorrow morning, and then train everyone. After all, the time is also urgent training. The less this matter, the better.

After the dinner was over, Gao Shiwei looked at Qin Yuan with a satisfied face, "My boy, your development speed is really too fast now, I remember that you were still a kid before, how could you be able to take charge of yourself in a blink of an eye?" ?"

"Captain Gao, how many years have I been out here, and you still think I'm that brat."

"Now you are in charge of our two special warfare teams. I have to call you the chief. You still call me the high team. This is against the rules."

"Team Gao, no matter what, I couldn't do without your care since I had the opportunity to join the Special Operations Brigade. No matter what, we have different opinions."

Gao Shiwei smiled, this kid has never changed in this regard, it is indeed very comfortable to get along with, and there is no pretension at all.

On the other side, Wang Ming and the others rushed back immediately, and then notified the various sub-bureaus, asking them to select people overnight and send them over tomorrow, and they need an accurate list, so let's see how many people there are.

Everyone didn't expect it to happen so suddenly, but since it was the order of the general team, no one was delayed, and the screening was carried out quickly. In the end, there were a total of 40 people, and they sent five more from the general team, a total of 45 people .

The instructor frowned at the side, and he saw that there were a lot of people, "Old Wang, after all, they came to help us train, and suddenly there is such a big battle, do you think they will not accept it? These forty Multiplayer is no joke."

In fact, Wang Ming was also hesitant, but he couldn't leave any branch behind, besides, this was already the lowest standard for them.

After thinking about it, it is better not to give up the list, wait until Qin Yuan comes tomorrow, if he thinks there are more people, then divide into two groups for up and down training, and then go when he is free, he will do other training .

And when the several branches learned that a special instructor would come to train them tomorrow, everyone was very curious. The players sent by the third branch were relatively young.

Everyone only knew that the trainer was called Qin Yuan, but few people really knew who it was. The squad leader of their third division also went with them, packing up their things, when they heard the team members behind them discussing.

"Hey, what do you guys think is the origin of this person? Why did he do such a sudden thing, and he didn't hear anything before."

"I think the person who can take us all to the headquarters for training is probably a national champion."

The person who said this was Gao Youlin, the former martial arts champion of their division. This kid's skills are indeed very good, and he always gets the first result in every speed training assessment.

The squad leader next to him participated in their conversation while packing his things, "You may not know this Qin Yuan, but I am very familiar with it. I heard him before when I was a soldier, but I retired early. "

"Ah, squad leader, it turns out that he is not from our fire brigade. I thought he was some kind of champion from the fire brigade, but he is actually from the army."

Everyone heard that it was like a deflated ball, because the people in the army came to train them, isn't this nonsense? That set of training didn't seem to help them.

The squad leader next to him coughed slightly, "You brats, don't make such expressions on me. They are very powerful. In the army, they are at the level of God of War. Have you ever heard of God of War?"

Gao Youlin nodded. He seemed to have heard of it before, but he didn't notice it at all at that time. After all, they hadn't touched many things at that level, and they had only heard of the name.

"Squad leader, no matter whether he is a ***** of war or something, he must have a specialization in art. Isn't it unprofessional for him to train us so suddenly?"

"Yeah, I don't think it will be a waste of our time."

"I don't know about this. Let's talk about it. Let's wait and see over there first, and this person is very mysterious. I heard before that he trained the special police and the armed police. Basically, there is no unit that cannot be trained by other people."

When everyone heard this, they were a little dubious. They didn't understand everything, so they had to wait until tomorrow to see the situation.

In order not to delay the training, the people from several sub-bureaus set off directly overnight. The head team also specially vacated a large training room to provide them with accommodation. After all, there are more than 40 people.

Wang Ming originally wanted to go out and explain a few words, but after thinking about it, he seemed to have nothing to say, so why not wait for Qin Yuan to explain himself tomorrow.

Moreover, it is estimated that it will not be so fast when it comes to actually starting the training, and Qin Yuan's work is indeed in a hurry. Since he has already promised, he is also serious about arriving at the fire brigade at six o'clock the next morning. doorway.

He also repeatedly read the training manual in the system last night. This is not like the previous armed police and special police. Their training missions are completely different. They all start with rescue and various survival training.

So the training is also quite special. He quickly went through the training manual in his mind, and he probably knew some specific situations. As for other things, he really didn't get in touch with the firefighting officers and soldiers.

I didn't have this opportunity before, so I came earlier today, I want to get acquainted first, the person who came to meet Qingyuan was the vice-captain of their brigade, he didn't expect Qin Yuan to come so early.

"Captain Qin, you are really acting fast. You really have the style of the army."

"The main reason is to take a look and get acquainted with it. After all, this is the first time I have come into contact with such an environment."

Qin Yuan was more polite and asked the vice-captain to show him inside the brigade first, and he was not in a hurry to call the team members, after all, it was still early.

Under his leadership, Qin Yuan visited their usual training ground. The training grounds are indeed different, and they have undergone special modifications.

And most of them are fire-based. Looking at the various training equipment, Qin Yuan carefully recalled in his mind, which is similar to what he mentioned in the manual, and can be used to improve the basics of these training measures.

Then he came to their garage with love. There are different vehicles for rescue in the warehouse. The front position is where they change clothes. From the moment they receive the alarm, they must rush to the garage as soon as possible. Then go.

Looking at the clothes in front of him, Qin Yuan was a little curious that he really didn't wear the combat uniform, so he asked the vice-captain next to him to demonstrate it to him.

The vice-captain was actually a bit discouraged when he heard this. This guy has never even touched combat uniforms He actually wants to train them. This is different from what he imagined before. Yes, but this is entirely a matter of the two systems.

Although he felt guilty, he still acted quickly, "Captain Qin, then I will give you a demonstration first, this one is quite difficult, even for recruits who join the team, they have to go through a period of training Only then can it be put on and taken off completely and quickly."

They also paid attention to speed when putting on and taking off their combat uniforms. The deputy captain didn't have Hanhu. He quickly demonstrated in front of Qin Yuan, and he had to say that his speed was really fast.

It took them 16 seconds to reach the standard, and the vice-captain in front of them was also very agile. The whole wearing process took 13.6 seconds, which was indeed more stringent than they were in the army, because every minute of delay was fatal.

Seeing this scene, Qin Yuan also stepped forward and said that he wanted to see through, but the deputy captain did not object, after all, this attempt was very good.

"Captain Qin, if it's your first time to put on and take off, it's okay, just straighten out the order first, don't pay attention to the time, otherwise it will get messy, just follow my steps just now."

Chapter 1649: advance training

The deputy captain patiently explained beside him. Although he felt a little strange, everyone had their first experiment. Besides, this was what the captain above meant, so it was hard to refute.

He still respects Qin Yuan very much, at least he doesn't have any pretensions when facing someone of his level.

Qin Yuan nodded, "Then I would like to ask you to take a look at it for me, and give me some guidance by the way, what is the problem, and if there is anything wrong, you must correct it in time."

The vice-captain nodded. This is not a problem. He has brought so many people, and most of them don't care about the time now. If they can put them on smoothly, it is already very good, although it feels that putting on clothes is relatively simple. , But what they pay attention to later is speed, and they all race against time.

"It's okay, don't worry, just follow my previous steps, don't get the order wrong, it will be very fast."

However, as soon as his words fell, he was completely shocked by Qin Yuan's speed, which was not so fast. He had memorized all the steps after just a glance.

If it is said that this person is wearing a combat uniform for the first time, he can't believe it at all. This is too exaggerated. He was stunned that the speed surpassed him, because there was no timing at all.

As soon as the deputy captain finished speaking, he saw that Qin Yuan was already fixing the buttons on his hat. The speed was so fast that it could be said that he had completely surpassed him.

He didn't feel any embarrassment at all, after all, he is a person who recognizes the excellence of others, but he thinks it's a little too incredible.

"Captain Qin, are you serious? Have you really never participated in such training before?"

"Indeed, we have never had the opportunity to experience this kind of training. After all, only you can have combat uniforms like this. However, we also have other training assessment requirements, such as how many seconds it takes to gather."

This is not the same thing, the deputy captain almost dropped his jaw in shock, his clothes are very standard, and the time is completely beyond him, he has been in the fire brigade for so many years, it is simply unbelievable, instantly he Just one word came to mind.

This person directly has a feeling of pretending to be a pig and eating a tiger, which is too low-key, and he has completely memorized the knowledge points he and Qin Yuan just mentioned just now.

Afterwards, the installation and disassembly of the water bag is basically a complicated process like this. I didn't expect that Qin Yuan would never forget it. As long as he read it the first time, he will immediately learn it the second time.

And he didn't simply know the situation, but he reached a kind of familiarity and completely met their assessment standards, which surprised the vice-captain.

Time passed quickly, and the team members had already assembled on the playground, but everyone felt strange why the people who had agreed to train before had not come for a long time.

In order to welcome Qin Yuan, Wang Ming also came over in person. He kept looking at his watch, feeling a little strange, how could this person be late? According to what he said yesterday, he said he would come here on time this morning, but it was already almost 8 o'clock.

He thought for a while, maybe they didn't start until 8 o'clock, so let's wait first, no matter what, the etiquette that should be paid attention to should be paid attention to, after all, this is to invite people to do business.

The following team members just stood on the playground like this. Everyone was a little impatient, and they are usually like this, but I always feel that this person is too exaggerated. Waited here for over an hour.

Just looking at the captain in front, no one can complain. At this moment, they heard footsteps from the direction of the training ground. Wang Ming also turned his head and saw Qin Yuan in combat uniform.

The vice-captain next to him was chatting and laughing, and it seemed that the relationship between the two of them seemed to be very close. Wang Ming still felt strange, why did this come out of the training ground? Qin Yuan hurried over to say hello.

"Captain Wang, I'm very sorry for wasting your time. The main reason is that the two of us were too involved in the training just now, and we forgot the time for a while."

"What! You went to training, when did this happen?"

The deputy captain hurriedly explained that Qin Yuan had already arrived before 6 o'clock this morning, and he took Qin Yuan to familiarize himself with the surrounding field. The two of them mainly familiarized themselves with some equipment on the training field. They did not expect this time It's too fast.

Qin Yuan looked at the team members standing under the sun and felt apologetic, "I'm sorry to keep you waiting for so long."

Wang Ming felt that this person was really too active. Originally, he was thinking about how to get him familiarized in advance. After all, time was very tight, so he didn't know how long these team members would stay here. First of all, it was Qin Yuan. Need to be familiar with the problem, did not expect people to come early, only two hours to complete all the training.

But I still feel a little uneasy. Although the training is said to be completed, it is not certain whether it is up to the standard, and these players cannot be too flattered.

He didn't know how Qin Yuan should train, but he must maintain what should be maintained. After all, he invited the person, but he noticed that the expression of the deputy captain next to him was confident.

Qin Yuan stood in front and began to introduce himself, and then he also talked about some of his usual precautions and rules, mainly to let everyone actively cooperate and abide by them during this time.

Wang Ming quietly tugged at the vice-captain next to him, "You are really good at it, even I was kept in the dark, what's going on?"

"Captain, this is simply amazing. I can say that I admire this man. He is so powerful."

Wang Ming was also a little surprised. There are very few people who can even admire him as the vice-captain. After all, the vice-captain himself is also very good, and he has won several championships in martial arts competitions before.

The vice-captain explained from the side that Qin Yuan had fully met the qualified standards for all the projects, and all of them were overfulfilled.

Seeing what the deputy captain said, Wang Ming was a little surprised. He couldn't believe this person at all. Could it be that he had made special preparations before? But facilities like this are only available on their side. Could it be that this person is born with a photographic memory?

Qin Yuan's introduction has also been completed, and after he looked at it, everyone immediately worked out a plan, and started special training for them today.

This made Wang Ming completely relieved, because there were a lot of them. He originally thought that Qin Yuan would feel that there were too many people and planned to do it in batches, but he didn't expect these forty people to train together.

His affection for Qin Yuan gradually deepened. Qin Yuan didn't know what their current basic abilities were, so he decided to check their physical fitness first, and started with a basic five kilometers.

Only after some understanding of their basic situation can they carry out changes and assault training according to their own situation.

Everyone was hesitant while running. This instructor was quite different from what they imagined. First of all, he was very aggressive in doing things, and he did what he said. From the beginning, let everyone train directly.

But even though it was training, it was still the basic training they had done before, and it didn't feel like it had any special features. Some of the old squad leaders next to them knew why.

I haven't got a clear understanding of everyone's situation yet, so I can only use these to see how their abilities are, and finally make a plan. These are the basic elements of their usual training.

Soon, after two days of basic training, Qin Yuan roughly grasped some of their situation, and began to train them in detail.

First of all, the first training is to enter the fire scene and prepare to rescue people. This is a simulated situation, and it is quite difficult. It takes a lot of energy to complete a whole set of procedures. They need to rush into the fire scene and find the trapped dummies.

But in the whole process, it needs to be demolished by blasting, and then the position of the dummy is found, and then the dummy is carried out. The weight of the dummy is 60 kg.

Everyone is very confident about this training. They thought it was special, but isn't this their basic training before? It can be regarded as being carried out every day, and it seems that there is not much difference.

But the first group of people immediately felt something was wrong after entering the fire scene. The fire inside was more ferocious than what they usually saw, and the most important thing was that Qin Yuan was actually standing in the fire scene.

Qin Yuan kept urging them to speed up. If they can't finish today, they will keep training repeatedly. They usually reach the standard with a set process of 1 minute and 32 seconds, which is a qualified state.

But now Qin Yuan asked them to break the routine and follow his rules, and speed is not the most important thing, the most important thing is safety, and both safety and speed must be ensured.

After a long time, the first group of people who went in hadn't come out yet. Everyone was outside all the time.

What they didn't know was that the first group of people inside couldn't find the trapped people, and was punished by Qin Yuan to do push-ups in the fire scene. Under the high temperature, everyone couldn't bear it. Do push-ups.

Every time they do 20, they have ten seconds to find the time, which is too short, every minute and every second is stuck in the time point.

The main reason is to waste time on these, and Qin Yuan also increased the difficulty later on, every time he finished the push-ups, he had to extinguish the surrounding buildings.

This is a complete increase in difficulty. By the time the last two people came out, it had already seriously timed out. It took a total of 9 minutes and 35 seconds. It is basically meaningless to come out in this time period.

Wang Ming has been looking at him from the outside and feels strange. Although he is in a sub-team, it is not possible to make such a poor result. Moreover, the two of them were exhausted after they came out. They took off their oxygen masks and lay down. Breathing on the ground, the whole person is like being fished out of the water.

The people next to me were very disdainful. They thought it was a typical lack of exercise, and it took so long to find someone.

But later everyone discovered the problem. It was not a matter of finding someone. After entering, they would be made things difficult by Qin Yuan to varying degrees. Qin Yuan actually learned about the weaknesses of all the team members in a short period of time, and began to divide them into batches. Even down to solo training.

Everyone felt that such training conditions were too harsh, and it was completely against common sense to trap them in such a high-temperature environment and keep training.

The people who came out didn't even have the strength to raise their hands, they just panted heavily on the ground, because even though they were carrying oxygen tanks, their brains still had a certain degree of hypoxia in the confined environment.

Wang Ming really didn't know what was going on inside, until all the team members finished training, everyone came out in the same state, some of them had better grades, but the best grades were at six minutes, which was far lower Based on their usual training results.

At this time, Qin Yuan came out from the fire scene. He took off his mask, and everyone looked at him in surprise. This is the real monster. He has been training with them inside. Everyone went in for seven or eight minutes. I couldn't hold on anymore, but he accompanied me from beginning to end.

This is why although everyone felt that the training was unreasonable, and they were constantly challenging their limits in that high-temperature environment, but no one reported the problem, because Qin Yuan was with them from the beginning to the end, non-stop guide them in detail.

I have to say that this kind of training method is really too hard-core, and it is completely challenging everyone's limit. The first day of training is over after everyone has repeated it like this, basically all in a high-temperature environment.

Faced with such a high-intensity training, even a very experienced squad leader can't bear it. When they were assembled, I saw Qin Yuan standing in front of them with a smile on his face Since we took everyone to play with fire yesterday, today we will give you a different way to cool off and go to play in water together. "

At this moment, everyone didn't realize the seriousness of the matter, and soon they were taken to the reservoir in the suburbs. Although it was his usual training, Qin Yuan could always increase the difficulty of their basic training. These difficulties were their training. Skill, and flexibility.

Wang Ming has been observing the progress of Qin Yuan's training. It has just started now, and he can't see the specific situation. Everything on Qin Yuan's side is carried out according to the manual. He trusts the system manual very much.

No matter how fast the speed is, it can't match the on-site reaction ability, so he always creates various unexpected situations during the training process, and let them deal with them, just like the rescue operation on the water.

From the weight of the dummies to the oxygen carried on their bodies, everything is strictly controlled. If they fail to complete it within the specified time, the oxygen will be exhausted. They have no choice but to go into the water again and again. Come up again and again.

Chapter 1650: Appearance of Cyborg Soldiers

Qin Yuan seemed to lead them to do repetitive training, but each training had a special meaning, basically more stringent than their previous ones.

The main thing is to let them improve their speed and flexibility, and the most important point is to make them familiar with the environment and stay inside the fire for a long time.

Before, they conducted repeated training directly inside the fire site, and they have adapted to the rhythm of the high temperature, allowing their own bodies to completely overcome the fear of the fire.

To be honest, even if they are already some veteran combatants, they still have instinctive fear in the face of the fear of fire, and if there is fear, there will be times when mistakes are made.

After Qin Yuan pondered over and over again for a week, mainly relying on details to improve them, everyone found that the effect was really good. In the assessment after a week, they had fully reached Qin Yuan's target.

Qin Yuan's assessment standards are completely different from their previous internal requirements, and the training methods are also different. At the beginning, everyone has gradually accepted it from doubts, because this method is really very effective.

Gradually, he also got along with everyone. Generally speaking, these fire officers and soldiers are all young men in their twenties, and they are very comfortable to get along with.

Their usual training intensity is also very high, but now Qin Yuan makes them train the most technical things, which can save their lives. This is also the reason why Wang Ming asked them to train.

During the noon break, everyone also began to analyze this training. Everyone was discussing with each other and felt that this training was indeed very effective. Although it seemed to be the foundation, it added difficulty to the foundation.

While they were discussing, the alarm bell rang suddenly, and everyone looked over there subconsciously, because it was training time, so the people left behind by the main team went out.

Qin Yuan noticed that four fire trucks had already gone out. It seemed that the situation this time should not be underestimated. Squad leader Yang next to him also said: "The location of the headquarter is near the suburbs, and our division is responsible for other places. Could it be which factory?"

Everyone heard that the interior color is a little dignified. If it is a fire in an ordinary private house, the risk factor is not very high. What they are most worried about is the factory. There are too many combustible materials in a general factory. Once a fire occurs, That's all in pieces.

Qin Yuan was also a little worried, but he still took everyone to continue training. Now this is their responsibility. Relatively speaking, there is no problem with their physical fitness. He trained according to the manual for about a month. The 45 people were divided into several teams.

Then these teams will go down to train other players in batches, mainly to pass on the technical things, which will save time compared to his own teaching, and can be completely spread.

While they were training, the alarm bell rang again, but the people from the main team had already been sent out, and the deputy captain also ran out at this time, and he saw the loud shouting from here.

"Send a team over, it's an emergency, and there are not enough people now."

Qin Yuan immediately understood that after his training these days, he has been completely divided, and he immediately ran over with a small team.

The rest of the people began to continue training. If there was any emergency, they had to continue. Now the manpower has been sent out.

It was the first time for Qin Yuan to go to the police like this with them, and the squad leader beside him in the car also started to introduce the situation this time, the rest of the brigade, they set off for the factory in the suburbs.

The situation of the fire over there is still unknown, but generally this kind of factory takes a long time, and they can't come back until there is no safety hazard at all. This time they received the police and dealt with it in an old residential area.

To be honest, what they are most afraid of is these old communities, most of which are aging circuits. Once a fire occurs, the possibility of secondary combustion is easy to occur. In addition, because there are not enough passages, there are still many facilities that are old. Therefore, the rescue situation for them is also more difficult.

After the squad leader finished the introduction, they arrived at the community in just seven minutes during the whole process, and the security guard at the gate of the community desperately waved at them.

From a distance, we could already see the fire coming out of the window. After getting off the car, everyone hurriedly proceeded in an orderly manner, divided into a search and rescue team and a rescue team.

Qin Yuan was making a plan behind him. At this moment, a man ran up cursing. He looked at Qin Yuan and began to question him.

"Oh, what are you doing? Hurry up and save people, don't you see? My family is still inside."

The man was very emotional, and the squad leader next to him hurried over to pull him away, telling him not to affect the judgment here, because they couldn't just rush like this blindly.

First of all, their safety must be ensured, so that more people can be rescued. At present, we still don't know the situation of the community, so what else should we do to rescue them than to draw out the exact escape route? How to extinguish it?

But the man couldn't control that much, he kept urging him, Qin Yuan ignored him at all, and started a detailed analysis based on the map brought by the security guard, and then immediately made arrangements. The place where the fire started was on the sixth floor.

Such an old community can only be climbed, and the fire is getting bigger and bigger, and it has spread downwards. The entire corridor is full of smoke, and most people have been dispersed.

The security guard introduced next to him that there was an old man living alone on the sixth floor, who was the mother of the man who scolded people just now. This kind of old community is more complicated. Qin Yuan handed the walkie-talkie to the squad leader next to him and asked him to pay close attention to the development below. Now He also wants to join in.

The squad leader hastily pulled him away, this is not possible, Qin Yuan was sent by the superiors to conduct training, if something unexpected happened to him, it would be troublesome.

"Brother, don't go in soon. You are hosting here. What do you need? You tell me, and you can direct me to go."

Qin Yuan shook his head. He always felt that things were not that simple this time, so he wanted to go up and see for himself, because the two team members who went up just now have passed three minutes, but they seem to have not entered the room yet. , which made him feel something was wrong.

He couldn't control that much, he patted the walkie-talkie in the squad leader's hand, and then rushed up directly wearing the battle suit. Although he didn't need the protection of the battle suit, his own defense was already very strong.

When he rushed up to the sixth floor with all his might, he saw three people demolishing the big iron gate. This is the most troublesome thing in this old community. This kind of iron gate is the old-fashioned one, although it looks It's old, but it's really powerful.

The three of them took turns in demolition suits and kept knocking, but there was no movement at the gate. The main reason was that the gate was deformed due to the fire. Now that it was in a swollen state, there was no way to demolish it.

Qin Yuan let them get out of the way, then took a deep breath, kicked towards the big iron gate, and the whole iron gate was deformed in an instant, and the iron gate was kicked down directly with another kick, connecting to the broken wall next to it.

The few people around were stunned, this is too exaggerated, Qin Yuan's strength is even faster than this axe, before he had time to think about it, Qin Yuan rushed in immediately, and saw that he had been smothered by the fire and fell on the ground The old man on the ground.

The few remaining people rushed to search and rescue. Qin Yuan carried the old man down first. After all, the old man's condition was not optimistic, and the ambulance was waiting below.

He handed the old man over to the medical staff below, and rushed up again. The team members below were already working together to put out the fire, and it was brought under control soon, but the smoke was too much.

Then with their cooperation, two more people were brought out. At present, there should be no other survivors in this building, and all that can be brought out have already come out.

Qin Yuan's speed was really too fast, and he regretted it for five minutes during the whole process, and he could be in a state of delaying two. Before, Qingyuan only trained them and did not show other abilities. Everyone is in admiration.

The fire outside was basically under control. They have completed the search and rescue now, but when Qin Yuan and the others went downstairs, they heard a noise coming from the outside. The man before is having an argument.

It turned out that the man blamed their rescue speed for being too slow. He had already arrived downstairs, but did not take action for a long time, which caused his mother to be in a coma for so long.

Seeing the man's aggressive attitude, Qin Yuan didn't show politeness to him, and stepped forward to question loudly, "You are questioning us here, so I want to ask where you were at the beginning? You know that when the fire just started, that was the best time. At the time of the rescue, if I read correctly, you should have been there at the time."

Unexpectedly, the man's face changed when he heard this, and he rolled his eyes, as if his affairs were discovered, and he became a little angry from embarrassment.

"What do you mean by that? I don't understand at all. Do you think I locked the old man in there on purpose?"

Qin Yuan snorted coldly, and grabbed the man's collar, because he could see traces of wall dust on his back, and the reason why the door couldn't be opened was because someone locked it directly from the outside.

In addition, this guy was yelling at the side from the beginning. It didn't look like he was in a hurry, but he was deliberately obstructing them. Now that the old man has fallen into a coma, he still wants to make trouble here and prevent the ambulance from going out. Instead, it is to blame their rescue.

Qin Yuan directly pushed him away, "Don't worry, the truth of the matter will be investigated soon. I will not let any clues let go of the cause of the fire, and you have to accept the investigation."

The man lowered his head with guilt at this moment, he didn't dare to look at Qin Yuan again, but turned his head to look in the direction of his mother, the whole fire had been completely brought under control.

The squad leader below took people up to check the cause of the fire. At present, in such an old community, especially the elderly living alone, most of them are caused by forgetting to turn off the fire while cooking on the fire, but now it is very strange, and There is no meal, so this situation can basically be ruled out.

And Qin Yuan just patted the man on the shoulder just now, and he had already grasped the information. The squad leader came down with a few team members, and he said that he didn't see anything strange so far, it should be the fire caused by the aging circuit.

Qin Yuan stared at the people on the ground coldly, "It's not that simple, I think this kid just wants to kill and cheat insurance."

The man was very excited when he heard this, and quickly stood up. Just as he was about to growl, Qin Yuan patted him on the shoulder, gave him a direct look, and instantly hypnotized him.

Soon the man told the truth, and it turned out to be similar to what Qin Yuan guessed. This guy deliberately wanted to use this method to make his mother die in an accident. He bought high insurance for his mother before.

The surrounding melon-eaters felt very incredible when they heard this. It is true that they can do anything for money now. This time their task was completed relatively smoothly, without any damage, and it was completely completed as quickly as possible.

On the way back, everyone admired Qin Yuan even more, not only for his ability to command on the spot, but also his attitude in handling things on the spot. The plan is really admirable.

"Instructor Qin, I really think that if you are only an instructor, then you are really inferior. Your combat effectiveness just now is really nothing to worry about."

Qin Yuan just smiled. In fact, it is better to be an instructor. By transmitting this ability, more people can know it. In addition, they actually pay more attention to cooperation.

And at this moment, Qin Yuan is also thinking about his own calculations. This time he has trained 45 people. If these 45 people are accurately divided, they can be divided into six teams. Six teams, his meritorious value can be obtained almost at once. More than sixty thousand.

Although this kind of calculation is a bit unethical But this merit is straightforward, if you can get more, you can get more. After returning home, everyone started to praise Qin Yuan. Before, they only saw his training ability.

Unexpectedly, he was not worth mentioning in front of his comprehensive strength. When it was getting dark, the personnel sent by the headquarters had just returned. The fire on the factory side was relatively large, so they had to fully control it before returning.

Wang Ming thought that everyone was dispatched today, and Qin Yuan was on a mission for the first time, so he even held a barbecue party, and now all the team members were on the playground.

And at this moment, Qin Yuan's system suddenly received a prompt, "Ding! Remind the host, there are semi-mechanized soldiers around!"

Qin Yuan hasn't received such a reminder for a long time, and he was in the military games with country C before, what's the situation? Even here it will be found.

He hurriedly followed the system's prompts to start searching. According to the system's prompts, the final target was the captain of the third team on the main team.
