

Special Soldier 1661

Chapter 1661: Offended the Chief

Qin Yuan agreed directly, without considering any consequences at all, and the old chief who sat on the sidemost side frowned slightly, as if he was not satisfied.

Just when Qin Yuan wanted to look at other details, the old chief stood up, "Well, let's discuss it first, and call you up after it's confirmed."

Gao Shiwei and Qin Yuan were dumbfounded when they heard this, and quickly turned their heads to look at the old chief. What does this mean? The old chief said again that the two had no choice but to leave, and Qin Yuan didn't know what he said to offend them!

Just as Gao Shiwei was about to go out, he was stopped by the chief just now, "Wait, let him go first, stay and discuss something."

This is even more weird. After Qin Yuan came out, he became more and more curious. He originally wanted to listen to what was going on at the door, but after thinking about it, there was no need to do these things. Let's see the situation later.

The old chief was very angry when Qin Yuan just left, and he said directly, "I don't know what you are doing, can't several major military regions choose a leader? Just this guy, I don't believe he can lead Get up, it's too arrogant."

Gao Shiwei was also stunned. He didn't expect the old chief to say such a thing. He could only quickly explain to the side that Qin Yuan is a very good person. His character has been honed over the years because he has no opponent. So how much, he will be a little arrogant, but his strength is beyond doubt.

"Chief, you should know my character. When I first joined the army, you were the head of the regiment. I have been with you for so many years, and I have achieved a lot at that time. You should know me best."

"Okay, I know you brat, you were really powerful back then, and there were very few people who convinced you, but it's different now, you are all members of the Special Operations Brigade, so it's inevitable that you will speak up for him."

Speaking of this, Gao Shiwei was a little anxious. This was not his wish. He really admired it from the bottom of his heart, and it was definitely a talent.

The chief who is talking to him now is Zhao Youquan, the commander-in-chief of the Third Military Region. very strong.

He was a formidable figure when he was young, not to mention that although he is a bit older now, the soldiers he leads are not ordinary.

Several regiments are among the best, and the company under him is even screaming, and they are all representative champions of the military region if they are taken out.

So now that he has spoken, the two people next to him have nothing to say, they can only stare at each other. This old guy has such a stubborn temper.

Gao Shiwei quickly turned his eyes for help and looked at the chief next to him, and the chief with gray hair beside him also said: "Old Zhao, you should change your temper, you can't look at people with old eyes Well, there is a saying that people say that the waves behind the Yangtze River drive the waves ahead, and one generation is stronger than the next, so now we have to take a long-term view."

"That's right, Old Zhao, we all know the basics. Besides, this kid's ability is indeed strong. Haven't you read his information? All of them are superimposed military achievements. Such a person is absolutely fine."

Unexpectedly, Zhao Youquan didn't buy it, but just gave them a cold look, "What do you mean? You all deal with me alone, right? Let me tell you? If I say I don't agree, I don't agree. People like this I can't let it out and lose face."

Gao Shiwei felt dizzy when he heard this. As long as Chief Zhao disagrees, it will be very difficult for others to agree later, because his temper is too stubborn, and he might make things worse.

Several people talked for a long time, but he still didn't let go. Instead, he let out words. If anyone persuaded him, even his old comrades would be unable to do it. Don't blame him for tearing his face.

"I really don't know what you guys think, no matter how strong this person is, he just can't catch my eyes!"

After Zhao Youquan said this, he shook his sleeves, opened the door and walked out, ignoring the people behind.

Now Gao Shiwei was completely dumbfounded. He originally wanted to persuade him, but now the discussion has completely collapsed, and there is no way to talk about it.

"Mr. Chen, what do you think about this? His temper is too stubborn. Is it possible that he really needs to be replaced? The problem is that I really have no other candidates here."

The one with half-white hair is Chen Yongming, and this Zhao Youquan can be regarded as an old comrade in arms for many years. He knows this person's temper too well, so he can only shake his head helplessly. Now he has no choice but to reconvene to discuss the plan.

"You don't know him. I know him too well. As long as the things he thinks are impossible to change, unless he changes his mind, it's too difficult."

Gao Shiwei knew that this time he had encountered a tough problem, he should have persuaded him just now, Qin Yuan asked this kid to talk well, don't make so many moths, now he is fine, and he has clashed with the leader.

Under Gao Shiwei's persuasion, Chen Yongming said: "Well, don't beg me anymore. I'm not sure about this matter, but I can give you a time limit. At most, I can delay this old guy. It can only be delayed for three days, let him stay here, and you can figure out the rest yourself."

Think of a way by himself, he has a helpless face when he hears this, what else can he do, if there is a way, he would have brought the person here long ago.

Chen Yong understood him with a glance, why is this guy's brain not getting better now that he is the captain?

"You guys really don't think about it, what else can you do? Train in front of him and let him see that guy's strength."

Gao Shiwei instantly understood, then this is too easy, Qin Yuan's strength is recognized by everyone, absolutely no problem.

Just like that, he ran down quickly, and Chen Yongming next to him also spoke stubbornly, and that Qin Yuan didn't seem to be easy to settle, I don't know if he can listen to his persuasion.

But to be honest, he really felt that it was a pity. If this person could not be represented in the competition to command, then he would really be out of talent. Based on his understanding of this person, several major military regions have his footprints.

Basically, he can securely win the three armies of Shanghai, Army and Air Force. It is indeed no problem, but the words are a bit arrogant and unacceptable, but it may be misunderstood by someone with strength who just said it casually and didn't think so much. .

On the other hand, Qin Yuan felt a little baffled after he came out. He heard the quarrels from above just as he walked downstairs, and he probably understood that the above is actually not soundproof.

It seems that one of the leaders is not very satisfied with him! He returned to the dormitory and did not tell anyone else about it. After a while, Gao Shiwei came to find him in a hurry.

"You stinky boy is running really fast. I haven't finished my sentence yet. Haven't you heard what I just said? Let you wait and show yourself well, so that the leader can see you Ability."

"Since he doesn't like me, then I won't go."

When Gao Shiwei heard this, he felt his blood pressure go up. As soon as he got angry, he pointed at Qin Yuan and started cursing.

This kid is so heartless, now he is like a sandwich biscuit, being caught in the middle, he is really getting angry at both ends, the leader over there is not the same attitude here.

"You stinky boy, don't think that you are the captain of our brigade now, and I'm afraid of you. Tell yourself, how many troubles have you caused us, and when was it not me who wiped your ass?"

Seeing the person on the opposite side keep falling and falling, Qin Yuan couldn't stand it, so he could only reluctantly agree to his request, then go to the playground tomorrow to show a little bit, I don't know if that palm will be appreciated.

"But let me say this first. If he doesn't like me, it's none of my business. Whoever wants to lead the three armies can go. I can't climb high."

"Okay, you guys don't say a few words. After all, the old chief is really a bit stubborn. With your ability, is there anyone who can't look down on you? Wait, he just doesn't understand."

After finishing speaking, Senior Four left happily. The problem on this side was finally solved, and they were waiting to communicate with Chen Yongming tomorrow.

Find an appropriate time for him to take a good look. As long as he can see Qin Yuan's strength, he believes that the old chief will make his own judgment.

In addition, the old chiefs and the others in the dormitory had separate rooms. Originally, Zhao Youquan planned to go back tonight, but couldn't bear the persuasion of the two old comrades.

Tell him that there are still many excellent people in the special warfare brigade, and you can select them again tomorrow, and this time you will also follow his advice, and everyone will use whoever he likes.

Speaking of this, Zhao Youquan nodded in agreement. He only agreed to stay for a maximum of two days to see if there were any outstanding ones. If not, he would go to other military regions and not hang himself on a tree.

Chen Yongming knew that the old guy was really angry this time, and he didn't know why Qin Yuan didn't say anything too much, why was he so angry?

He explained to Gao Shiwei again, and the two sides reached an agreement. In this case, let Qin Yuan show his skills tomorrow. Whether it is marksmanship, fighting, or armed begging, this side is ranked first.

Qin Yuan tossed and turned on the bed and couldn't fall asleep, mainly because he hadn't felt this way for many years. With his current popularity, there should be no one who would not buy it.

The more he thought about it, the angrier he became. It's not the period of recruits anymore. Does he look down on people just because of one sentence? He sat up abruptly.

Li Erniu, who was next to him, was soundly asleep, and was so frightened by his movement that he got up, thinking it was an emergency assembly.

"Hey, I'll go, brothers, hurry up! Gather and gather."

Qin Yuan was completely speechless. He was already depressed enough on his side, but it also affected other people. He could only explain in embarrassment that there was a commotion on his side and nothing happened, so let them continue to sleep.

Tossing and turning on the bed, unable to fall asleep, he thought about going out for a walk, maybe it was because he hadn't trained normally for too long, and he just wanted to use up his energy.

In this way, he came to the training ground, but he smelled the smell of smoke as soon as he walked over. He still felt strange, who is so courageous, who dares to smoke in the training ground? All fireworks are prohibited.

They are the smoke of the Special Operations Brigade, which is a taboo for everyone. First of all, for a sniper, smoke will affect his judgment, and if he keeps this habit for a long time, it is easy to expose his own taste.

In this way, he followed the smell and saw a person sitting on the opposite sand dune, smoking a cigarette very calmly.

He couldn't bear it anymore, as he had said before, who was so courageous and dared to provoke him openly? Originally, he wanted to yell, but after thinking about it, he wanted to launch a sneak attack to see how this guy reacted Exactly how.

Just like that, he quietly approached the person sitting opposite on the sand dune without noticing it. Qin Yuan's speed was very fast, like an arrow on a string, he rushed over, first choked his throat, and controlled that person on the spot.

It wasn't until that person made a voice that Qin Yuan realized it. Why did the voice sound so familiar? It seemed to be the head of the office today?

"Hey, I'll go, who is this? Which brat dares to attack me."

How could Qin Yuan dare to speak? This is the end of the day. He offended him during the day, but now he is here again. I really can't explain it clearly.

The main thing was that he didn't want to embarrass Gao Shiwei, so he turned around and wanted to run quickly, and then slipped away first, but he didn't expect that the old chief's reaction speed was relatively fast, after all, he was a person who came down from the battlefield.

Just as Qin Yuan was about to run, the old chief shouted: "You bastard, stop, you really have two brushes, I really capsized in the gutter, if you don't run any more, I'll call someone."

Qin Yuan ignored him, and quickly took a look. There was a row of soldiers on the opposite side, coming towards this side. If he ran out now, he would be bumped into.

It's just that the old chief at the back is still talking endlessly. Qin Yuan is a little annoyed, but he just doesn't do anything, drags it over first, don't be discovered by others, and it looks like this, The old chief hadn't seen his face clearly.

In addition, it is dark now, and most of the lights on the training ground have been turned off, so he can't see clearly, and he is wearing camouflage.

Before the old chief could finish his sentence, he saw the person on the opposite side rushing over again, and he immediately put on a posture.

"Hey, you **** is really extraordinary, okay, I'll do a few tricks today."

Qin Yuan's movement was extremely fast, and it was very difficult for the old chief to connect. When he was beaten behind him, he backed up again and again, and the two of them retreated all the way behind the sand dunes.

Zhao Youquan's eyes were full of excitement. He hadn't fought with others for a long time, because others thought that he was the leader, and few dared to really fight. He felt that it was too boring.

Now the soldiers on the opposite side didn't see clearly, and they didn't know that he was the chief, so they dared to fight like this.

Chapter 1662: Expressive marksmanship

Zhao Youquan became happier as he fought more and more. Although he was completely at a disadvantage, it didn't affect him at all. He still persisted, but in the end it was true that because of his age, his physical fitness was not as good as that of the one who didn't stand still, so he fell into the ravine behind. Didn't try my best.

Qin Yuan was also frightened at this time. He was just thinking about fighting him, but he didn't expect that the person on the other side was really not simple, and the moves were more complicated. After all, he came down from the battlefield and used all of them. It's without any frills.

He felt that he had gone too far. At his age, isn't this bullying others? Quickly jumped down and pulled Zhao Youquan up.

At first, he thought that he would be scolded all over his face, but he also recognized that one person is doing things and the other is where he can go now. If he can run away, a monk can't run away from the temple.

Unexpectedly, Zhao Youquan burst out laughing, and said, "It's been a long time since I've fought like this, you kid is good at reaching out, this reaction is so fast, I feel a little bit stronger than my soldiers ."

"Chief, I really didn't expect it to be you. I saw someone smoking there just now..."

When Zhao Youquan heard the voice, he quickly raised his head, and after a closer look, he found that it was Qin Yuan, which made him a little embarrassed.

However, Zhao Youquan was not the kind of narrow-minded person, he patted the ashes and stood up, at least now his impression of Qin Yuan had changed, this person's basic fighting ability was pretty good.

The two of them didn't know each other, so they chatted back and forth like this, and Qin Yuan realized that the reason why Zhao Youquan was so disgusted today was because a soldier he had brought before was like that.

That soldier's ability is very strong, it can be said that he can reach the ranking in the whole army, and he can be regarded as the pride of heaven.

But just because he has won too many championships, this guy is getting more and more proud, and his words are getting bigger and bigger, the kind of boasting.

At a celebration party, after drinking, he bragged with others, saying that even if he drank, he would have no problem climbing obstacles.

This was a completely violation of the regulations, and they were on a rest day at the time. This guy was said in two or three sentences by others, and he was already relatively arrogant, so he didn't care so much, and came to the training ground abruptly.

After drinking the wine, the speed in front of him was indeed very fast, but when he climbed onto the grid, he was still a little unstable, and fell directly from the grid, landing on the back of his head, and he is still lying in the hospital now.

It was just such a small accident, but Zhao Youquan remembered it, because he was also the one who personally met the soldier at that time, and it was an honor to approach him as Zhao Youquan.

So he felt many times that the reason why this soldier became so arrogant was that he had something to do with him to be appreciated by him. This was enough bragging, which led to the accident.

From then on, as long as anyone said such big words in front of him, he became extremely disgusted.

Hearing what Qin Yuan said today, I immediately thought of that soldier, and felt that such a person was unreliable at all, no matter how powerful he was, he would die in vain on the real battlefield.

Hearing this, Qin Yuan smiled embarrassedly, "Chief, I hope you don't mind, I may have taken too many things, and I have never met any opponent, so I speak a little crazy."

Just now, Zhao Youquan already had some basic recognition of his ability, "You brat, forget it, take me over there to see how your other strengths are, and you guys kept me here, isn't it for this reason? purpose?"

Sure enough, he still had to persuade the old man himself. Qin Yuan thought that he would train sooner or later, so that he could see more clearly in front of him.

In this way, the two came to the shooting training ground. Zhao Youquan wanted to see Qin Yuan's overall strength, and then test other things.

Zhao Youquan looked around at the pitch-black training venue, and wanted to ask Qin Yuan why he didn't turn on the lights, but he didn't expect that he had already picked up the gun.

Now they are all electronic targets, Qin Yuan didn't even look at them and fired quickly, directly hitting the bull's-eye in the darkness.

Listening to the sound of the target being reported, the gun hit the target, in the darkness, he got used to it so quickly, Zhao Youquan sighed for a while, could it be that he was really too old

When he got older, he still had to adapt to the dark environment for a long time when he came in, but he didn't expect people to come here with their guns drawn.

This really made him admire, but Zhao Youquan curled his lips, after all, he still looked down on him during the day.

"After all, you are from the Special Operations Brigade. If you can't achieve this level of accuracy, you might as well go home and farm."

"Chief, that's right. This is where I go. I can also perform blind typing, including mobile ones. Whatever you say, you can hit wherever you point."

Zhao Youquan looked at it, and wanted to upgrade the difficulty. Since the training field is their world, they train here every day, and they are too familiar with it, so why not go up and see the others.

"You bastard, do you think I don't know? Why don't you dare to go out? Let's go to the back mountain, and I will test you with other things."

Having said that, Qin Yuan instantly became interested. To be honest, the old man quite liked him. He liked to do these challenging things, so he agreed to it right away, absolutely no problem.

The two left as soon as they said they would, but now there is still a problem, how to get out? They can be regarded as going out privately now. Although this is a special warfare brigade, he is the captain of the brigade.

But this seems to be a bad lead. Besides, doesn't everyone know about this going out?

In fact, Zhao Youquan also wanted to keep a low profile. This old guy still wants to save face. He still looked down on Qin Yuan during the day, and now he is with him again. This is really not good.

Qin Yuan said that he had a way to go out. He took Zhao Youquan to the big training ground behind. There was a wall more than 2 meters high on the outside of the big training ground.

Zhao Youquan looked at it, if it was when he was young, let alone being so tall, he would definitely be able to climb up with any big hand, but now he still has to consider physical problems.

I was thinking that this kid was probably playing tricks on him, calling him over from there, or making things difficult for him on purpose. It seems that I still misjudged the person. I finally got a good impression, but now I have no feeling for a moment.

However, when he was thinking, Qin Yuan said next to him, "Chief, I've offended you. I'll take you out first."

Before he realized what was going on, he felt that he was being framed by the willingness. Isn't this kid messing around? Jumping up a 2m high wall with a guy behind his back is totally insane.

"I said you kid, put me down quickly. I don't want to toss with you. Can you take responsibility for my old bones falling off?"

But he didn't expect Qin Yuan to jump onto the wall with ease while he was speaking, which made Zhao Youquan a little amazed, and fell steadily to the ground in the next second.

Before he finished speaking, he landed safely on the ground, Qin Yuan put him down, Zhao Youquan turned his head and looked at the wall of 2, good guy, how high is the jumping ability to be so easy, Still carrying a person.

What's more important is that his body has indeed gained some weight due to his age over the years. Now he weighs at least 90 kilograms. It is indeed extraordinary that this guy can still be so relaxed.

The bad feeling towards Qin Yuan just now disappeared in an instant, and the two started chatting again, while heading towards the back mountain.

During this period, Zhao Youquan asked a lot of questions, basically about command, such as how to conquer the mountain on the opposite side, and how to arrange troops. Started to draw a simple formation with wooden sticks.

As the chat deepened, Zhao Youquan felt that Qin Yuan was really talented. Not only was he strong in personal ability, but he was not inferior to anyone at all in terms of commanding troops in battle.

Before they knew it, the two had already arrived at the top of the mountain. Zhao Youquan lamented that the time passed too fast. In fact, the two of them chatted too fascinatedly. The main reason was that he knew Qin Yuan better and better. too strong.

No wonder he was recommended by so many people. This person is really powerful, and his arrogance also has this capital, but he still has to test his other abilities.

After all, this time he is going to lead the three armies. If his other abilities are not enough to convince everyone, then it will be a bit difficult to lead the command.

Standing on the hillside, he looked down and saw that the gun in Qin Yuan's hand was a 1,000-meter sniper rifle. Just now Qin Yuan also said where to shoot, but the light at night was too dark. , even he struggled a bit.

Apart from the handful of peanuts, he seemed to have nothing on him. Just when he was struggling with how to beat, Qin Yuan noticed the peanuts in his palm.

"Chief, if you don't mind, I can hit all these peanuts."

What! Zhao Youquan was completely stunned when he heard this, this kid is talking big again, what time is it now? At this big night, let alone hitting peanuts, even hitting big targets in the distance is relatively difficult.

Although this sniper rifle has night vision capabilities, it is really a test in this situation. It seems a bit embarrassing to say so.

Unexpectedly, Qin Yuan didn't use a sniper scope at all. He planned to hit blindly. Zhao Youquan felt more and more that this kid was really unpredictable. Is he so confident?

Moreover, Qin Yuan's request was even more exaggerated. If he was asked to stand at a distance and throw peanuts at will, he could hit them accurately.

Zhao Youquan was a little dubious, looking at the attitude of the person in front of him, but he was very persistent, and he slowly stepped back a few steps.

This position was only fifty meters away from Qin Yuan, but because the sky was too dark, and he didn't use the night vision function, he couldn't even see Qin Yuan's expression clearly at this position.

Unexpectedly, Qin Yuan waved his hand helplessly, telling him to continue to retreat. In this way, he kept retreating. When he retreated several hundred meters away, he couldn't see anything.

He could only hear the voice, and he could hear Qin Yuan talking on the opposite side. Good guy, isn't it a joke to hit peanuts in this position?

But now that it's all said and done, he also wants to see it. In fact, he is also making up his mind. Even if Qin Yuan misses the hit, he doesn't care. This is really a test, because it is impossible to do it.

Before throwing it away again, he reminded Qin Yuan. Unexpectedly, Qin Yuan said that there was no need to remind him, as long as he was responsible for throwing it away.

The old man's stubborn temper also came up when he heard this, and he kindly reminded him that he was still regarded as the liver and lungs of a donkey, so he wanted to see how arrogant this kid could be.

He was the first to throw a peanut. From this position, he couldn't even see which direction he threw it, but just after he threw it, he heard a gunshot.

The problem is that he couldn't see where he hit, and he still felt strange, when he heard the sound of footsteps, Qin Yuan ran over.

He squatted on the ground and began to search. Zhao Youquan felt that it was too much effort, but Qin Yuan raised his hand in the next second, and only saw a small piece of peanut with the smell of gunpowder on it.

This is simply unbelievable, Zhao Youquan opened his mouth in shock, if he hadn't seen it with his own eyes, he really couldn't believe it.

Qin Yuan smiled and asked him to continue throwing out the remaining ones in his hand, and what Qin Yuan said could be thrown at the same time, depending on his mood, he could hit as many as he wanted. .

Hearing this, Zhao Youquan became more interested. He had never seen this kind of thinking before, so he had to experience it today.

This time, when he lost three, he wanted to see how many this guy could hit. As long as he could hit one, he thought it was a magic gun.

It was followed by three gunshots, faster than before, and he could feel a peanut crumb falling on top of his head.

Qin Yuan didn't need to be sure about this one, he knew that this guy had hit again, and he didn't need to test the rest, this ability is really too strong, just relying on this one is enough to make the whole army shut up.

Qin Yuan, who was on the opposite side, saw that he hadn't moved for a long time, and then ran over, only to see Zhao Youquan crouching on the ground, how can you say that he was looking for those broken pieces.

"Chief, don't worry, I believe in myself very much. I have hit all three of these."

Zhao Youquan stood up in embarrassment. Thinking of what he said in the daytime, he really felt a little sorry, but he was also a straightforward person, and used to pat Qin Yuan's shoulder excitedly.

"You **** is really hiding something. Before, I thought they were exaggerating too much. You know, some of them like to exaggerate the facts. It seems that you really have strength."

"Chief, this is just marksmanship. Let's put it this way, the Marine Corps has an air force base, including the Southern Military Region. I have been there. No one can match my marksmanship."

This Zhao Youquan can be said to be fully approved, but then Qin Yuan

Speaking of armed swimming, fighting and boxing, this guy is completely decathlon.

Having witnessed such a legendary marksmanship, even if Qin Yuan didn't show other things, Zhao Youquan now completely believes in it. This man is really extraordinary.

Chapter 1663: The selection of several military regions

Zhao Youquan has a straight personality, so he directly patted his chest and assured that Qin Yuan would definitely be able to take the position of commander-in-chief, and he would be most at ease in handing over such a person.

"It seems that we old guys should change our views, otherwise we are really outdated, and your strength still cannot be viewed with superficial things."

Qin Yuan smiled. He knew that the chief had a stubborn temper, but he still agreed with them very much, and once the two chatted, the topic began to expand.

The two squatted on the ground and kept deducing the plan just now. He agreed with Qin Yuan's idea very much. There are too many things in Qin Yuan's mind, and many ideas can come up in a short while.

He also did not expect these changes in military plans. He couldn't believe that this person had never been to a military academy.

At this moment, Zhao Youquan's stomach suddenly growled inappropriately, Qin Yuan looked at him and asked if he hadn't eaten dinner.

"I'm ashamed to say you bastard, am I not angry with you today? They asked me to eat, I am too lazy to eat with them, thinking not to be with them."

"It's too simple, chief. Where are we now? This is on the mountain. There are many wild rabbits behind us. Just wait, I'll catch you."

Zhao Youquan was even more surprised when he heard this, it was late at night, besides, what Qin Yuan was holding in his hand was an empty bag from the training day, how could it be possible for an empty bag to hit at such a distance at night? dead rabbit?

Qin Yuan was very confident, patted his chest and promised that he would come back soon, and let him be angry here.

Zhao Youquan was a little dubious, so he could only look at the direction Qin Yuan left, and then found some dry firewood around him and started to light the fire.

Although that guy's marksmanship is really good, but these hares run faster, not to mention in this area, because the sound of guns can be heard for a long time, the agility of rabbits is higher.

Zhao Youquan had already lit a fire by the fire, which made him feel very comfortable. He hadn't felt this way for a long time. He also thought that it would be okay if Qin Yuan didn't call a rabbit. Chat next to me for a while, and then go back later.

Moreover, Zhao Youquan shook his head after not hearing the sound of shooting for such a long time. He actually believed it just now. No matter how good his eyesight is at night, he must first find the rabbit, right?

But within a few minutes, he heard footsteps. He raised his head, and just as he was about to tease him, he saw Qin Yuan holding a gray rabbit in his hand.

"Let me go, you kid, you are a blind cat hitting a dead mouse, where did you get a dead rabbit?"

This was Zhao Youquan's first thought, since he didn't hear the gunshot, the rabbit couldn't have been captured alive. Qin Yuan turned the rabbit upside down, only to see a dagger sticking out of it.

He used his own throwing knife skills. When killing at close range, this kind of sniper rifle can't use too much power, so the hand is the best weapon.

This time Zhao Youquan was even more admiring. This guy seemed to be omnipotent. The two of them just squatted by the fire, chatting and roasting the rabbit. After a while, the aroma came out.

Now that Zhao Youquan is getting older, he seldom has such opportunities in the wild, and basically spends time in the city.

"You are interesting, you are very capable, and you are doing a good job in dealing with people. By the way, I almost forgot to tell you."

While eating the rabbit, Zhao Youquan told Qin Yuan that this time they came for the selection, and they didn't make a direct appointment, but because of Gao Shiwei's strong recommendation, they came to have a look.

There is also a quota recommended by the Eastern Military Region, so the final decision is still not in their hands. They just came to check and recommend the list.

The reason why Zhao Youquan explained this way was mainly because he was worried that Qin Yuan would misunderstand. After all, this matter is not up to him to decide, "I'm just telling you, but don't worry, the quota will not be decided so hastily. People selected by several major military regions, and will conduct a unified assessment at that time, because everyone attaches great importance to this exercise."

After all, this is a world-class competition, and there are many troops from all over the country participating. In this case, the strongest candidate must be nominated.

Qin Yuan is on their team

The popularity inside is also very high, but in terms of leadership, there are still many candidates.

Qin Yuan tore off a piece of rabbit leg meat, chewed it slowly, "Chief, don't worry, you will definitely see me later, I am already working on this plan, how to lead the three armies, and Many of my plans can be taken up at any time."

Just as the two of them were chatting in full swing, they heard footsteps coming from a distance, and there was a flashlight shining towards them.

Qin Yuan felt something was wrong. After all, this area was a military restricted zone, and under normal circumstances, no one was allowed to move around here.

The patrolling people probably came to investigate because they saw the situation here. This is also their duty. Both of them were very calm, eating rabbit meat silently.

The soldiers on the opposite side were already shouting, "Who are you? Which team are you from? Or are you ordinary people nearby?"

Everyone is actually very nervous. They are all praying, but they must not be ordinary people. After all, there are restricted areas below. There are so many people patrolling and letting ordinary people in. Isn't this a proper slap in the face?

After they walked in, they realized that it was Qin Yuan, and the old chief in the daytime was sitting next to him. Everyone stared at this scene. Eat baked rabbit here?

The captain leading the team saluted and said, "Report to the chief, do you have any instructions?"

"There is nothing to instruct, go to sleep quickly, don't worry, this area is very safe, we are only here at night for training."

This made everyone a little embarrassed. Since the two leaders didn't say anything, the others also retreated.

In this way, the next day Gao Shiwei was in a very disturbed mood. He couldn't fall asleep just after the dawn of the genius. He was thinking about what method he should use to truly highlight Qin Yuan's ability.

After he got up, the secretary also knocked on the door, "Captain Gao, why did you get up so early today? We haven't even blown the horn yet."

"Forget it, I'll go down and see that brat Qingyuan is probably still very stubborn now. If he doesn't deal with the leader, it would be a waste of time to keep him in vain. I'll go and mention him first."

"Captain Gao, I don't think you need to go. I heard some news last night that Qin Yuan and that old chief grew up roasting rabbits in our back mountain in the middle of the night."

Gao Shiwei just put on his clothes when he heard the secretary say this, and was stunned for a moment. When will these two people make an appointment to go out to roast rabbits together? Are they on such a good relationship?

After thinking about it, he decided to go out and find Qin Yuan first. When he came to the dormitory, he found that Qin Yuan was still sleeping. After all, they didn't come back until midnight last night.

After careful questioning, I found out that the matter had been settled quietly, and now I am waiting for these chiefs to present the list. Three days later, all the lists will be combined, and they will go to the General Military Region for the final Examination and selection.

Gao Shiwei was so excited that he almost jumped up. You must know that Qin Yuan represented them, and he felt that Qin Yuan could definitely take the position.

Zhao Youquan's list has been finalized, so he handed it in with a few people first. After getting along with Qin Yuan yesterday, he really valued this person more and more. It can be said that he is an absolute general.

After returning to the military region, he hurried to inquire immediately, wanting to see what the quotas presented by the major military regions were like.

As soon as he walked into the office, the person in charge said with a smile, "Oh, what's the matter? You even came to see it yourself."

"Stop talking nonsense with me, you kid, hurry up and get out the list, I'll see what are the quotas for this selection, I just remember that I handed in one."

The person in charge looked at him with some embarrassment, "Chief, stop joking with me. How do I know what list you are talking about? This is all confidential."

"Hey, is it wrong for you to do this to me now? I won't tell others. I just want to see what's going on and who can be selected. The person I selected is very strong. of."

But the attitude of the person in charge is also very firm. He said that this thing is confidential, and there should be no disclosure from above. Anyway, everyone will know it in two days.

It's just that the person in charge

He said mysteriously that he valued the person from the Eastern New District the most, "This time, the places presented by several military regions can be said to be an absolute competition, which is more interesting than our usual trials."

This guy started to play tricks again, and Zhao Youquan was not used to him not being able to find out, so that's fine, in fact, he still believed in Qin Yuan's strength, and just wanted to see who he was.

Three days later, Qin Yuan and the others came to the general military region, and the red blood cell team also came. They came to cheer Qin Yuan, and felt that their captain was absolutely fine.

Looking around, the people sitting on the rostrum were all senior figures, and Zhao Youquan was also sitting on the side and waved at him.

According to the division of regions, they first found a seat and sat down. At this time, the people selected from the southern military region also came. Gao Shiwei whispered next to him: "I didn't expect that they were all old acquaintances. That guy, I remember you before It seems that I went to their regiment headquarters and trained."

Qin Yuan looked at it, didn't he? At that time, he was training and guiding them in the tank regiment. At that time, that person was still a staff officer, and his name seemed to be Li Feng. Now it seems that he has been promoted.

As soon as the people from the southern military region sat down, Li Feng, who was the leader, turned his head to look at Qin Yuan. He smiled wryly. No one knew the list until it was over, but some predictions speculated that Qin Yuan must be selected.

If this guy is here, there is no hope at all. After all, where his strength is, they are very different compared to each other.

But, after all, they all came here, so let's compete first, it can be regarded as learning, followed by people from several military regions, and finally came to the people from the Eastern Military Region.

What Qin Yuan didn't expect was that the people who participated in the selection of the Eastern Military Region were very young. After all, they were going to take the lead in commanding the battle this time, and they didn't need to go to the battlefield in person.

So what is needed must be someone who has experience and pays attention to several military regions on the scene. Except for him who is relatively young, the rest is the one from the Eastern Military Region.

Qin Yuan shook his head. It can be said that he had never seen this person before, and Gao Shiwei didn't know about it. After a while, everyone began to announce the discipline of the presence.

Then the five selected people were invited to the stage. First, they were introduced. When they were introduced to Qin Yuan, they raised their hands. There was warm applause. Most of them were his old acquaintances. Qin Yuan also saw Long Baichuan sat down.

When we went to the Eastern Military Region, although there was applause, everyone felt strange, because this person was a familiar face, and it could be said that most people didn't know him.

I only knew that this person was called Zhou Sheng, but after introducing the name, everyone was amazed by the following introduction. The list of schools in the back were all the schools he had studied in. The identity of this guy is really not simple.

No wonder everyone doesn't know him, he mainly focuses on learning theory. He has been studying in various military schools, especially for modern warfare, he has profound research, and he has published many academic theories.

He Chenguang, who was sitting down here, also reacted when he heard it. He said how he heard this person's name so familiar. When they were reading the newspaper some time ago, this person was also listed in their military daily.

There are several articles published by this person, basically they are some views on modern warfare. Looking at what he published, I feel that this person is quite talented.

Li Erniu listened to what He Chenguang said, and lowered his voice, "Cut, what's the matter, no matter how powerful it is, it's just a teacher in school, it's not as good as Brother Qin who can publish articles, It can also express martial arts."

Even though I said this, when the introduction was over, Zhou Sheng could see a proud look on his face. After all, the few people introduced earlier did not have as much money as him.

Among the selected people, he was most afraid of Qin Yuan. This person's reputation was too strong, and everyone said that he was the modern God of War.

However, he also has his own certainty. He is most powerful in tactics, otherwise he would not be promoted. He may not be as good as Qin Yuan in many practical operations, but in terms of theory and tactics, he can be said to be not afraid at all.

This time, the items they selected are divided into two categories. One is to conduct basic training competitions, such as shooting and fighting, and armed swimming.

Chapter 1664: offended most people

The assessment is mainly aimed at them personally, so everyone's eyes are focused on them, first to test their basic abilities, and then to conduct theoretical and tactical assessments.

Qin Yuan has no problem with the theoretical basis. After three games, he has always been among the best, and his results are basically unbeatable.

These are all top-level figures selected from various military regions, so everyone values them very much. However, everyone has heard of Qin Yuan's ability before, and it is quite capable to get such a result now.

The commander of the Southern Military Region shook his head. It seemed that they were only here to participate. With this guy already here, who can beat him?

But, no matter what, Qin Yuan's representative is all of them, and what he represents is that after Yan Guo goes out, he must choose someone with stronger strength.

Zhao Youquan applauded repeatedly on the stage. He felt that this kid hadn't displayed his true strength. He was already shocked by his strength that night. Now he was holding back, mainly because he didn't want to embarrass others too much.

Thinking of this, he even regretted that he almost missed such a genius that night. This person can keep a low profile, and he can take other people's face into account on this occasion, which is indeed extraordinary.

But Zhou Sheng didn't think so. After several games in a row, his ranking was around the middle and lower. After all, he was different from those who had been training in the camp for a long time. His main contact was theoretical commanding.

Especially in the last part of the armed swim, his score just passed the usual pass line, but Qin Yuan reached the finish line very early, leaning against a tree and waiting for them.

This kind of assessment is also very fast. After all, they have a small number of people. They can finish the assessment of four items in one morning, and then two in the afternoon, and then conduct the assessment of theoretical command the next day.

Zhou finished the morning game out of breath. He wiped the sweat from his forehead and glanced at Qin Yuan in the distance. This guy was so popular that many people gathered around him just after he left the field.

The comrade-in-arms next to him handed him a bottle of water. He took a sip of water and said nonchalantly, "Don't worry, tomorrow's theoretical command, I will make everyone's eyes brighter, and I will become the one that attracts everyone's attention."

The mouth corner of the comrade next to him twitched slightly. Is this guy too confident? His ability has not been fully utilized yet, and as far as he knows.

Qin Yuan is not only strong in basic ability, but also has rich experience in command, especially in leading training.

"No matter what, I still hope that you can adjust your mentality. This person is very powerful. You must pay more attention when the time comes. His tactical theory is very strong."

"What? Don't you even believe me? Just because my grades this morning were not satisfactory, hehe, I really don't understand why I want to do these nonsense? I'm here to command, not to fight with them!"

And Zhou Sheng's voice was already loud, and their morning match was completely over at this time, so most of them were on Qin Yuan's side, and they were all acquaintances.

As soon as this was said, it immediately attracted everyone's attention. What does this guy mean? Does he feel that as a commander there is no need for training?

Zhao Youquan was also a little unhappy. If he remembered correctly, the Eastern Military Region said they valued this person very much, but what this person said, he felt that he was someone who had never seen the world.

Not to mention other commanders, just take him as an example, he has to carry out basic training every day. Without training, there is no way to understand the current specific tactics.

There is no way to empathize, only to give orders blindly, resulting in ignorance of the true state of the soldiers and their real needs)

It's a pity that most people understand the truth. Zhou Sheng is too arrogant, and he doesn't want to listen to other people's opinions. He has always stubbornly believed that his theory is absolutely correct, and is everything he has learned in vain? All his tactics have been studied from ancient times to the present.

Jiang Xiaoyu and the others also came with Long Baichuan this time. Seeing Qin Yuan's excellent performance, they all rushed forward to congratulate him. Hearing what Zhou Sheng said, everyone frowned.

"Tch, this guy is really too arrogant. I remember that his grades were not very good this morning."

Don't you see it? It was because he felt that his basic abilities were too weak, so he made excuses, thinking that he didn't need these things as a commander. "

Just as he was talking, Zhou Sheng came over. He had heard the discussion of several people just now, and it seemed that they had very strong opinions on him.

Because the armed swimming just now made his face a little pale, he really needs to strengthen his physical fitness, but now he is looking at Qin Yuan coldly.

"Why, Captain Qin, aren't you very interested in my theories? I admit that you are really strong in these aspects, but sometimes, the mind is more important than the limbs."

Even Li Erniu next to him could tell that this guy came to laugh on purpose. Didn't he mean that Qin Yuan and the others were simple-minded and well-developed?

His temper is not used to the person in front of him, he rolls up his sleeves and wants to teach him a lesson, this kid is too arrogant.

Qin Yuan stepped forward and pressed Li Erniu, telling him not to be impulsive, and then squeezed out a smile, "That's a pity, I haven't read much, and I have been in the army since the beginning, from a basic soldier It took me step by step to get to this position, so I don't know what kind of simplicity you mean by being simple-minded."

"I think the whole army should improve now. As a commander, there is no need to carry out these insignificant training, it will only waste everyone's time."

As soon as this was said, even the head of their Eastern Military Region couldn't sit still. What the **** is this guy talking about? It was simply embarrassing, and the people next to them kept looking at them.

Zhao Youquan took this opportunity to walk over, "Look at why your Eastern Military Region is so arrogant? He said that, isn't it that even us commanders are inferior to him? He also wants to improve us. "

This time they were given too many hats, the commander of the Eastern Military Region hurriedly explained that this was not the meaning, which made everyone very embarrassed.

Qin Yuan just said calmly after he finished speaking, "I thought you were smart, but you haven't realized it after I said it for a long time. I said that I have gone from ordinary video to now, and I have reached this stage. , in your capacity, you must at least call me chief and salute me, don't you understand?"

Zhou Sheng didn't expect Qin Yuan's mouth to be so powerful. He wanted to tease him a few words, but he was ridiculed. This means that their abilities are not at the same stage now.

Doesn't this not show his mental ability? Now Zhou Sheng feels a little ashamed, especially after being so many people)

Fortunately, at this time, the commander of their Eastern Military Region came out and greeted Qin Yuan with a smile, which resolved the crisis. He quickly waved his hand to let this embarrassing thing go down quickly.

But Qin Yuan didn't buy it, he was usually a very talkative person, the problem was that others should not offend him, not to mention Zhou Sheng's level, even the commander in front of him had to give him a little bit of fluff.

Qin Yuan didn't say much, and walked down with his own people, expressing that he would rest at noon and play a good game in the afternoon.

Because this time it involves the three armies of the navy and army, they basically have to get in touch with the basic training of these armies, and conduct an assessment competition for them.

In the afternoon, there is parachuting training and deep-sea swimming. This is to let them know more about the training of soldiers, and to see whether their leadership ability can accurately command the three armies.

Qin Yuan didn't have the slightest worry about this kind of training. It can be said that he could complete it with his eyes completely closed. He was the first to jump off, and all the judges around gave him full marks, because there was really no option to deduct points. This guy seems to be jumping randomly, but he has completely mastered the technique.

Everyone has no doubts about this, and besides, the commander of the other air force base is still sitting below, and has received his guidance before.

Unsurprisingly, Zhou Sheng was at the end of the skydive this time, and he was really not good at these basic trainings.

Until the last deep-sea swim, he gritted his teeth and fought half his life to complete it. After coming up, his legs kept shaking and he couldn't even stand still.

As soon as he landed, he threw all his belongings on the ground, and then fell to the ground gasping for breath. At this time, Qin Yuan came over and kindly reminded him that he had just come up from below, so it was better not to do it immediately

lie on the floor.

The people next to him were also persuading him, but the more this guy heard other people's persuasion, the more he felt that it was too embarrassing, and he simply ignored it)

Qin Yuan shook his head, he seemed to be a no-brainer, and sure enough, within a few minutes, he saw the hygienist running towards that side with the medicine box on his back. It turned out that the guy came up, and he was too anxious, and now his ears and mouth were all numb. Already bleeding.

Originally thought that he would learn a little lesson from this, but he didn't expect that at night, he would criticize this kind of training that is not in accordance with the specifications, which is completely squeezing the soldiers' bodies.

Even more angrily, he found Long Baichuan and criticized him for not following the standard for this kind of training, treating the soldiers as human beings, it was just messing around.

Long Baichuan didn't want to talk to him about this at all, so he just said indifferently, "Your level is not qualified to talk to me about this, and Qin Yuan is in charge of all our training. Before, he was in charge of our side. Chief Instructor of General Training."

Zhou Sheng was stunned when he heard this. He didn't expect Qin Yuan to be related to the Marine Corps. He quickly recalled the time when he collected information.

The best understanding of this person is that everyone is saying that he is the God of War, and he doesn't pay much attention to the others, because he always feels that they are all bragging.

The identity of this guy is really not simple, mainly because this guy has offended many people again and again, first when he said that the commander needs to be trained, and now he is here to point out the matter of the Marine Corps.

Only the commander of their Eastern Military Region was wiping his ***** everywhere and apologizing. The commander of the Eastern Military Region was exhausted.

To be honest, he really regretted bringing this troublesome spirit to him. This guy usually didn't see any problems in the brigade, so why did he poke him some trouble every time it came to a critical moment.

He also specifically explained to Zhou Sheng that he had better do things tomorrow and stop talking nonsense, otherwise people in several military regions would be offended by them.

Zhou Sheng obediently nodded in agreement. In fact, the main reason was that he knew that tomorrow was the last chance to prove himself. Tomorrow he could show his skills and impress everyone. It didn't matter what small things happened.

The next day everyone came to a large training ground, and the surrounding area was full of soldiers who came to watch, as well as those chiefs.

If you look at it from below at this position, there is a huge sand table in the middle, and Long Baichuan is sitting next to Gao Shiwei, looking at the sand table below with a smile.

"Oh, it seems that the headquarters has done a good job this time, and they have spent a lot of money. It's such a big sand table. Let's see how they plan."

"It seems to be done by the game office. This time the sand table is a 3D simulation. They can completely simulate the actual combat state. Let's see how they call it. Everyone occupies a high ground."

So this is why this competition is very interesting. What kind of militarized simulation can fully demonstrate their command ability and reduce unnecessary waste.

And the person in charge of game development is An Ran. At this moment, she walked onto the stage with a smile and began to introduce the sand table in front of everyone.

An Ran glanced at Qin Yuan slightly, and then began to introduce. According to the current game rules, the assessment is divided into two rounds. The first round is to assess their personal abilities.

In the first round, they fought against the machine, that is, the organizer. The organizer was the first party, and they were the attackers. It depends on their attack power and the tactics they implement.

After the first round of results, they will be divided according to the form of drawing lots. The five of them each occupy an area and start to attack. During this period, they can defend together. One of them can join forces or attack alone, it depends on them. Choose by yourself After these two rounds of competition, the final champion will be revealed according to the points they get.

After activation, the sand table began to be officially highlighted, and the images on it, as well as the images of soldiers, could be seen, which was simply too real.

Just when everyone was sighing, a discordant voice sounded next to them, "I really didn't expect that China can do this now. I just heard that it happened abroad before. It seems that some of our comrades can still do it."

Although An Ran had a smile on her lips, but for what this person said

Chapter 1665: tactical competition

It's really too self-righteous. You must know that this sand table took their team nearly a year, because it is not so simple to complete the integration and simulation.

Does this guy really care so much if he thinks he has studied in several military academies for a while? Before An Ran could speak, Qin Yuan stood up first.

"As far as I know, foreign technology doesn't seem to be so advanced. At present, ours is a 3D automated simulation sand table. May I ask which country has achieved it?"

Being asked such a question, Zhou Sheng instantly felt extremely speechless. Why does this guy always interrupt when he is talking?

"Captain Qin, I don't think I provoked you either. You don't need to read every sentence of my words. I just sigh."

He Chenguang, who was sitting below, couldn't help but covered his mouth and sniggered. This guy probably didn't know who he was talking about. The couple was a family, and he didn't cherish their things at all when he said that.

Qin Yuan glanced at him slightly, "I think you may have misunderstood. I am not so narrow-minded, and I am not targeting anyone. I am just confirming the facts. This is what our comrades have worked hard to research. You can't One sentence is an understatement, and it ignores everyone's efforts."

As soon as the words were uttered, there was a burst of applause from below. I followed my gaze and saw that the person sitting there was the research team of the sponsor, that is, An Ran and the others who developed the game.

For this research, the effort everyone has put in is unimaginable. They need to de-materialize the framing and simulate according to the formation of each square team. They climbed mountains and waded.

So this is not something that can be researched in the office. Everyone's hard work can be imagined. Now that Qin Yuan is talking to them, of course they have gained support.

An Ran showed a smile, feeling very happy in her heart, as expected, she had to have her own people to support her, it was really good to have her own people to speak for her.

Zhou Sheng's face turned red, he didn't know what to say for a while, and he became more and more resentful towards Qin Yuan in his heart, this guy always attracted other people's attention.

After An Ran introduced the rules, they were asked to draw lots first, taking turns to participate in the first round. The selection was to compete against the organizer's machine simulation.

Qin Yuan was drawn to the last position, which is relatively better, and in his opinion, this is the finale.

The person in front of him is Zhou Sheng, so that the two of them together can be compared better. At present, the two of them are the most interesting ones. One is the God of War recognized by the army, and the other is theoretical Tactics are also super insightful.

Although everyone is watching them play, everyone is thinking, if they encounter the same situation, how will they make tactical guidance?

And although it is mechanized, it was artificially implanted at the beginning, so the difficulty is very high in comparison, which is also a test of everyone's experience.

Zhao Youquan stared at the people on the stage. The previous two matches had similar experience, and their tactical arrangements were also very reasonable. They were both relatively traditional. Although they both won, it took a long time.

Qin Yuan just watched silently below, and didn't speak. The people next to him were discussing, and basically most of them agreed with their current tactical arrangement.

Only Zhou Sheng took a silent look and was full of disdain. These tactics are too old-fashioned, and if he had come, they would have been completely eliminated.

Everyone on the machine side has a different formation, so what they see are different corresponding methods, and the three armies of the sea, land and air need to unite.

It also depends on their strong commanding ability. Basically, after everyone has finished the competition, Zhou Sheng will make his own opinions below like a mentor, as if he can find faults in everyone.

The people next to him couldn't listen any longer, and stayed away silently. This guy has been complaining about others. Besides, there are many people who are better than him in this place, so there is no need to slander him like this.

"Brother, let me say that your situation is almost enough, and everyone is in the army and knows what to do. You should say a few words, it is not good to be heard by others."

The person next to him was kind enough to persuade him, but he didn't appreciate it at all, "You don't know this, since you want to be selected, you must have the ability to comment on them. That's it. Don't you allow others to say it? Wait Come on! I'll let you guys see me later."

Although the people next to him couldn't bear it, this guy was really too arrogant, but he was really good in some aspects, and he had published many papers on tactical guidance.

In this way, it was soon Zhou Sheng's turn to play. This guy was full of confidence. He occupied the front of Fang, and when he looked up, he fell in love with Qin Yuan.

His eyes were full of arrogance. He wanted Qin Yuan to take a good look at his real ability. Those so-called foundations didn't mean anything at all. This is the real leadership style.

His tactical arrangements in all aspects are indeed very favorite. They completely broke the tradition and directly captured the opposite position in a short period of time. The results are better than those of the previous ones. This mainly depends on the time when they captured the position and the specific details. Offensive plan, so far, his results are considered the best.

Zhao Youquan rubbed his chin and looked at the young people below who were really like the waves of the Yangtze River pushing forward. The rise of the new generation made them really feel pressured, but it also gave him hope.

Seeing that he was very interested, the secretary said, "Chief, who is better, Qin Yuan or Zhou Sheng? This Zhou Sheng's theory has been published in Military Daily before, and it is quite powerful."

"In my opinion, although this guy is powerful, he is really too proud. Once a person like this fails a little, he may not be able to bear it. He has never accepted a big failure."

The secretary was a little surprised when he heard this, Qin Yuan hasn't started the game yet, so Zhao Youquan means that Zhou Sheng will lose?

Zhao Youquan is very confident in Qin Yuan. He has not competed yet. He knows the aura of that person. Some things can be seen from the outside. There is no need to think too much about details. In terms of temperament,

Qin Yuan was already even better. From the appearance and usual temperament of these two people, Qin Yuan was more like an excellent general who could lead the three armies.

Zhou Sheng's plan was indeed relatively novel, and it also won the applause of the leaders in the audience. This guy came down the stage with a confident face, just in time to meet Qin Yuan who was on stage.

"Captain Qin, I want to take a closer look at how your tactical guidance is. As you said, is it a simple mind or a well-developed limb?"

Qin Yuan didn't even bother to quarrel with such a person here. It's this time, and he didn't forget to make a joke. It seems that he is really too young.

He stood silently in front of the sand table. At this moment, everyone's eyes were on him. Zhou Sheng's demonstration just now was very exciting, and he didn't know what would happen next.

Qin Yuan directly broke the tradition as soon as he came up. After all, according to the previous tactics, the army was first sent out to attack on the ground. It was necessary to fight first, and then to lure the enemy out before launching an air attack.

Or if naval battles were to be the main focus, then the Marine Corps must have given priority to going up, but as a result, this guy sent out the vanguard of the three armies as soon as he came out.

The people below were stunned when they saw this scene. What kind of tactical arrangement is this? It feels like a pot of stew, there is no way, all the people are thrown out, there is no point in beating like this.

Zhou Sheng even laughed out loud below, at first he felt that this **** of war had more or less ability to look like this was just a name for nothing.

It's just that the basic operations are good at ordinary times, and in terms of tactical guidance, they still have to be trained in military academies.

He couldn't laugh anymore in the next second. Everyone saw the changes on the battlefield. It turned out that Qin Yuan sent the vanguard of the three armies, but it was just a cover.

The vanguard troops of the three armies in front had already attracted all the enemies inside. Qin Yuan immediately asked the troops in the rear to encircle and suppress them. In this way, a pocket was directly formed, with his vanguard troops as the support for the periphery, and his people. is gathering.

Surround everyone together, just like that, there is no way for the machine on the opposite side to launch an air strike, it is too dense, and Qin Yuan is very divided between his own people and the opponent's people, and his air power is also absolutely dominant The advantages.

Qin Yuan's operation directly pushed the battlefield to a fever pitch, and the battlefield was over in an instant. It seemed to be out of order, but it contained great wisdom. This is simply a link.

The leaders in the audience all stood up and applauded when they saw this scene. It was simply too wonderful for them to see such a vivid tactical instruction lesson.

Qin Yuan took the shortest time, and according to his plan, the death rate is also the lowest. Think about it, Qin Yuan is the champion of this round, and no one else has any opinions. After all, his strength lies there.

But there was one person who was not happy, and this person was Zhou Sheng. As Zhao Youquan guessed just now, this guy had never received too much setback, and now he couldn't stand it for a while.

He stood up and shouted very dissatisfied: "Why? Why am I ranked third now? Anyway, it's okay to rank behind him with my ability?"

Qin Yuan is indeed a powerful person. He admits that he has made some mistakes in some aspects, but why does he think he is ranked third?

Regarding this doubt, the judges next to him also made their own judgments. First of all, although Zhou Sheng's time was relatively short, his casualty rate to soldiers was relatively high throughout the process. In this comparison , can barely rank third.

Hearing this, he was very unconvinced, because in his opinion, if there is a battlefield, there must be sacrifices, and these are all necessary sacrifices.

Qin Yuan shook his head. He thought this guy was just a little bit arrogant before, but what he meant was completely mindless behavior.

The co-author was not for him to go to the battlefield, so he didn't care about the death rate. An excellent general must be the key to victory and ensure that the death rate of his soldiers is reduced. This is the meaning of modern warfare.

Now it is no longer a sea of people tactics, it is completely a technological war, so you have to be smarter, not just chasing victory and sending people forward desperately.

Faced with Zhou Sheng's behavior, the chief of the Eastern Military Region shook his head helplessly. He regretted more and more how he brought this guy out in the first place, it was completely embarrassing.

Fortunately, there was someone maintaining order at the scene, and everyone understood basic etiquette. There was no major conflict, but the impression of this person was extremely bad.

Now that the selection competition has just started, he can be said to have lost most of his recognition. The poor one is still the head of the Eastern Military Region, apologizing everywhere.

Now that everyone has finished, the second round of competition will be held in the afternoon, so they will be given a preparation time. The second round is the real duel. At this time, the final contender will be selected.

Seeing Long Baichuan walking ahead, the head of the Eastern Military Region hurried forward, "Baichuan, Baichuan, don't go so fast, I've called you several times just now."

Long Baichuan turned his head, pretending he didn't hear it just now, "Oh, it's too noisy in this gym, I didn't hear clearly just now, what are you doing?"

"Baichuan, I know it's my fault this time for saying that, but no matter what, I still hope that for the sake of my old comrades in arms, you can support us."

Long Baichuan was already annoyed enough in his heart, and even asked himself to support them. If it wasn't for the sake of his old comrades in arms, he would already want to beat someone up.

"Don't tell us about this, I dare not hand over my soldiers to such a leader, isn't that just harming others? Don't mention these old friendships, now we are doing business."

At this moment, Qin Yuan came out from behind. Now he was surrounded by a group of people. Before the chief of the Eastern Military Region could speak, Qin Yuan pulled Long Baichuan over.

"Long Dui, we haven't seen each other for a long time, let's go and have dinner together."

Just like that, a few people walked away talking and laughing. The lively atmosphere over there was really in stark contrast to their own.

And Zhou Sheng didn't feel that he did anything wrong, he was just expressing his own theory, war itself is cruel, and a general should not have a benevolent heart.

Now he is still very much looking forward to the competition in the afternoon. The reason why the chief of the Eastern Military Region is so pulling others is to let them form a team with him in the afternoon.

After all, the rule in the afternoon is that the five selected people will attack together, and they can each choose to see which side to attack first can be combined alone, so they must be drawn together.

Chapter 1666: choice of terrain

In this case, you must find an opponent who is allied with you, otherwise you will be easily targeted, especially Zhou Sheng's performance this morning.

Seeing his commander running around in front, Zhou Sheng didn't care, "Anyway, I don't care, only those with strong strength will be targeted, besides, what's the point of them four targeting me, I can still fight Win them."

At this time, if you still say such arrogant words and don't go in, the commander is about to be blown up by him, so he turned his head and gave him a hard look, telling him to stop talking.

Seeing that the commander of the Southern Military Region also came out, he hurriedly stepped forward and pulled him, "Old Liu! Anyway, we are better. You have to think about when I competed with you back then. Whoever carried you off the grid when you got hurt."

Now the commander-in-chief of the Eastern Military Region has no choice but to play the emotional card. Unfortunately, the people on the opposite side don't buy it either, and just barely pull out a smile.

"I know what you think, but don't you make it difficult for me? I can't take risks with my own people, right, you know that."

And for the result of this game, everyone has already predicted that the winner must be Qin Yuan. In this case, it can only be said that it is not too ugly to lose. Let it go.

They were already ranked behind in the morning, at least in the afternoon they had to show off well, if combined with Zhou Sheng, they might be targeted by everyone.

After hearing what the commander-in-chief of the Southern Military Region said, he was completely desperate. At this moment, it is estimated that everyone will target them.

But Zhou Sheng still had an indifferent attitude. He was quite satisfied with his results this morning. Even if he received the target in the afternoon, it didn't matter. He would definitely fight a good battle.

After eating, everyone had a break at noon. Zhou Sheng quietly came to the venue. He began to observe the situation on the sand table. At this time, the guard next to him blew his whistle.

After all, the game in the afternoon is very important, they don't allow anyone to get close to Zhou Sheng and said indifferently: "You can see clearly, I didn't do anything, I just came to get familiar with the competition venue, can't this also work?" ?"

"I'm sorry, comrade, according to our current regulations, no one can approach, please leave quickly."

Zhou Sheng originally wanted to take a closer look. He had to choose a more favorable terrain in the afternoon. The competition was too hasty this morning, and the entire sand table was huge, so he hadn't had time to analyze it yet.

But looking at the situation now, it's not allowed. The guard next to him didn't joke with him. He had already made a gesture of expulsion. Soldier laughs.

He originally wanted to come over to see it quietly. If he was bumped into by others, wouldn't he be ridiculed again? Everyone else is resting, so he came here to check the terrain quietly.

Thinking of this, he quickly jumped into the low wall next to him and hid in the gully, thinking that he would just wait for the past, but as people slowly walked in, he heard the voice of the female soldier An Ran from the morning.

And it's not just An Ran, Qin Yuan is also there. Seeing this, Zhou Sheng felt a little puzzled, what was the relationship between these two people, and felt that they were talking and laughing, but they were very close.

Qin Yuan originally sent Anran back after lunch, but Anran was not at ease. She wanted to come over to check the equipment to ensure that the game in the afternoon could proceed normally.

"Okay, you go in quickly, I won't go in, it can be regarded as avoiding suspicion, these things are also unified, let's talk about it later when I compete."

"You guys still say this, everyone knows, anyone can cheat, but you can't!"

Then he talked to Qin Yuan again, and the two separated. After watching the two walk away, a head poked out from the gully. Zhou Sheng looked indifferently at Qin Yuan who was leaving. There is an unknown relationship.

In an instant, another plan ignited in his heart. If he lost today, he just got the handle. This guy is really duplicity. Just showing off.

Qin Yuan was completely immersed in the conversation with An Ran just now, and he didn't notice the person beside him at all. Besides, this guy has been hiding in the gully, so he couldn't see it at all.

In this way, the afternoon game officially started. They selected by lottery, and they were selected in the order of 12345.

Qin Yuan's luck is still the same as in the morning. Anyway, for him, it doesn't matter which position he chooses. Even in the end, he was able to come back against the wind.

The first choice was Zhou Sheng. This guy was happy to see his number blooming. In his opinion, the first time is also very important. He must find a place that is easy to defend and difficult to attack, so that others can't. There is no way, because he also knows that he may be targeted, so he must stay away from them.

He struggled for a long time, and even the person in charge next to him couldn't help urging him. Although he said there was no time limit, this guy was too exaggerated. Look left, look right, and walked around the sand table two or three times. It has not been selected yet, and seven or eight minutes have passed.

The leaders in the audience also waited a little impatiently. What is this guy going to do? The person in charge could only remind him of his background, so he hesitated and chose a high ground.

After he finished his selection, the second one was from the Southern Military Region. They were observing just now, so they chose him next to him without any hesitation. After all, this guy is so arrogant, so he must be taken down first.

When Zhou Sheng saw the situation, he instantly became unhappy. Isn't this just targeting him blatantly? He had just chosen this high ground, and someone built it next to him. Isn't that directly shooting a cannon on his head?

He quickly raised his hand to signal that he didn't want this position, and the person in charge next to him was a little impatient.

"Comrade, I also hope that you will abide by the rules of the scene. Now that you have chosen to end it, please do not make other insignificant changes."

"What! You didn't say in your rules that you can't change it. Besides, I haven't made a decision yet. It's you who have been urging me. Didn't the time set by you say that there is no limit?"

This guy started to act like a rogue, the person in charge looked at the time, he was too lazy to bother with such a guy, so he asked him to re-elect quickly, and finally only gave him three minutes.

In the end, he chose the location in the southeast corner. That area was relatively large, and there were no mountains to attach to. Even if they wanted to choose, it was impossible for them to be far away.

Seeing himself choose a position, he was relieved. This time he wanted to see how these guys targeted him, and there was no one around him.

The people from the Southern Military Region scolded silently, this guy is really a despicable villain, but let him do as he pleases, since he sold the land just now and didn't want it, then he can do it himself, just like that, everyone has made their choices .

During this period, Zhou Sheng has been observing. It can be said that he chose this position to stay away from everyone, but the bad point is that this position is not very friendly for him to conduct naval battles.

This side is too far away from the port. According to the display on the sand table, the port is in his place, which is a distance of tens of thousands of kilometers.

If he wanted to send support, he could only choose air power, which was a bit too risky for him, so he frowned and began to think about the next countermeasures.

In the end, it was Qin Yuan's turn to choose. He didn't look at it at all, and pointed to a place at random. For him, the terrain was not important, the most important thing was the decision.

Zhao Youquan looked at the place Qin Yuan had chosen, and couldn't help laughing out loud. How could this kid be so dishonest on such an occasion? Everyone valued this competition very much, but he was very relaxed and just pointed at a piece of it. place.

Although the secretary didn't understand much of the terrain, he had figured it out a bit with the old chief over the years. He lowered his voice and asked:

"Chief, why does Qin Yuan choose the place so frequently? Isn't this just to let people beat him? He just wants to beat him at random."

is not that right? Take a closer look at what other people choose, either it is difficult to attack with one hand, or it is high altitude, so that they can fully abide by it, each has its own advantages.

But Qin Yuan's side is a piece of flat land, to put it bluntly, there are some small undulating slopes. This kind of terrain is completely a joke.

Zhao Youquan explained with a smile, "So you didn't see it? This kid is not in the election at all. In his opinion, he will win no matter what, so he doesn't bother at all."

"Ah! But the terrain is really important. If there is no perfect terrain, no matter how good his commander is, he will not be able to achieve such an effect."

"That's why I said that this kid didn't take this competition as a formality at all. He is too confident, and I also think he has that ability."

The secretary was a little surprised when he heard this. There are very few people who can be recognized by their chiefs, not to mention the people of the younger generation. What kind of ability does Qin Yuan have to make their chief So recognized.

On the other side, Zhou Sheng laughed out loud when he saw the terrain Qin Yuan had chosen. He said that this guy is simple-minded. Sure enough, who would choose that terrain? After a while, he will attack him directly and eat this guy first.

The other people were also obviously taken aback when they saw Qin Yuan's choice. They more or less had their own ideas in their hearts. If they really wanted to attack Qin Yuan, he was indeed a very good piece of fat now.

But every time this guy does something unexpected, just when everyone is struggling, the host has announced that the game can officially start, and now let them arrange their own troops and start to choose to attack.

The people from the Southern Military Region bowed their hands to Qin Yuan to express their apologies. After all, this is a competition, and he can't care about the previous friendship.

From the current point of view, Qin Yuan's position is the best to break through. No matter what, he has to try it first. After he just finished speaking, several other people also expressed their opinions.

Zhou Sheng snorted coldly. He felt that these people were too hypocritical. If they wanted to attack them, they should attack them directly. Is it necessary to engage in such hypocrisy? In this case, then he will stand still and let them fight first, and finally find a leak by himself.

Qin Yuan smiled, saying that they can attack whatever they want, whether it is an alliance or a single fight, he can accept it, and let everyone come wherever they want.

Now that he has said that, it's not easy for others to hide. In this way, the three formed an alliance and began to attack Qin Yuan. In their view, such a flat position can basically be easily attacked. .

Moreover, their numbers had an absolute advantage to a certain extent, and the three of them were relatively strategic. They dispatched the three armies of sea, land and air to attack Qin Yuan, which was also regarded as saving another part of their strength.

Everyone didn't expect that it was Qin Yuan who was targeted at the beginning. After all, everyone predicted Zhou Sheng in the morning. Who made him choose such a smooth terrain?

It was just the beginning, but the result surprised everyone. They only saw that the air force from the southern military region had just arrived in the sky above where Qin Yuan was, and a huge image could be seen on the sand table.

And Qin Yuan has already made sufficient preparations. He did not send out the air force to attack or counterattack, but directly sent out his own army.

Everyone couldn't understand this scene, but everyone was shocked in the next second. His army was a motorized force, and it attacked the air force base of the Southern Military Region directly and remotely.

He was the first to directly take away his air force base. This time, their air force was originally used as a cover first. First, his base has already been taken away. It is too late to go back to replenish ammunition. The people in the Western Military Region were not to be outdone, and quickly sent their own mobile regiment to confront Qin Yuan's side. Unexpectedly, Qin Yuan directly sent his own air force to deal with his mobile regiment.

Qin Yuan really caught everyone by surprise. Under such a limelight attack, the respective troops sent by both sides have been suppressed.

I have to say that this person's tactical arrangement is really too strong, and Qin Yuan directly drew two small teams from the army, and such small teams started to take the initiative to attack while shuttling through the mountains and forests.

He could mobilize several aspects at the same time, and the three people on the opposite side couldn't even keep up with his thinking. After a while, there was a problem with the Western Military Region, and his arsenal was unexpectedly attacked.

Although they fought hard, the arsenal was still destroyed, and Qin Yuan lost a small team, which was far more proportional to him.

Exchange a small team of people for an arsenal, it is simply too worthwhile, and the strategy is the same as the previous attack on the air force, directly cutting off their supplies.

Chapter 1667: risky tactics

This is the first time everyone has seen this style of play, and it was wrong at first. Watching the main force intercept the rear arsenal, the effect can be seen at the beginning, but this is not a long-term solution.

Soon they began to send other teams to carry out the encirclement and suppression, not to mention the three teams united together, their number is very large, coupled with the flat terrain.

The people in the southern military region breathed a sigh of relief. Although their arsenal was wiped out just now, as long as they persist now, the ammunition in their hands is still not a big problem.

Unexpectedly, the talents just rushed up, and I wish that the air force was immediately dispatched to directly encircle and suppress them.

Everyone was stunned when they saw this, is this guy Qin Yuan desperate? His own people are still on the ground, and now he directly sends the air force to bomb. This is completely a means of exchanging one life for another, and this approach is not worth it at all.

However, everyone noticed at this time that Qin Yuan's troops had been dispatched to the ravine below the hillside in a short period of time, forming a good cover.

When he attacked the arsenal just now, all his attention was on it. Everyone didn't notice when he fully deployed his troops to this place. Everyone didn't react, but Once the army here is dispatched, it is too late to have an order to withdraw.

In an instant, the paths of their two teams were fully laid out on this, and the left and right began to attack, and the air force above had come down to attack.

Everyone looked surprised at the numbers that popped up on the computer screen. The damage was too high. Now all of them have the same data, including the strength of their troops.

All you get is the foundation, and there is no mention of which regiment or company is stronger. This is all computerized digital control.

Therefore, it fully reflects the ability of commanding people. The commanding person reacts quickly and dares to take such measures, which is really too strong.

The three teams that were working together just now can only retreat quickly. They have to preserve their strength, and their arsenal has been destroyed. If they don't save it now, they will probably be eaten by Qin Yuan in this place. up.

Just now Qin Yuan only deployed his own air force, the army under him has not moved yet, and when the time comes to form a siege, they will not be able to escape even if they want to.

When they thought of this, Qin Yuan had thought of it a long time ago, and quickly gathered the formation when they were retreating. The people on the side didn't have time to retreat, and they were all wiped out by Qin Yuan's soldiers, and they were caught off guard.

The southern military region is the worst. Almost all of their people are on the side. Almost half of them have been wiped out here. In addition to the previous attack on their arsenal, this is a heavy loss.

The commander of the Southern Military Region frowned. Although they lost this time, the situation is really obvious. Qin Yuan has now started to fight back, and it is estimated that the battle will be completely resolved in a short time.

Judging from Qin Yuan's current steps, his military strength is very sufficient, and he is a heavy hand in replenishing ammunition depots.

The next step is when he fights back from the Jedi. These three teams are no longer good enough. Even if they have the advantage in numbers, the relatively strong forces before have been disintegrated by Qin Yuan.

Zhao Youquan stood up directly from his seat and applauded. This is really a rare learning opportunity. He can be said to be an old general who has fought countless battles, but now he sees this scene and feels tears in his eyes. strength.

Let him see hope for the future. If the future is in the hands of such a person, he can rest assured that this person's command ability is stronger than those of the older generation. It should mean that he is more daring to charge and try. .

Zhou Sheng watched all this silently on the opposite side, and was a little surprised in his heart. Although he was arrogant, sometimes he would analyze it carefully.

If that happened to him, he might be a little flustered, after all, three teams attacked his position together.

Although he also has other tactics to counterattack, the result of the counterattack may be that the opponent suffers losses. His side is not optimistic, and it will not be as smooth as Qin Yuan's side.

The main reason is that Qin Yuan really dared to try too much. If it was him, he would not dare to drop two squadrons to destroy other people's arsenal. This risk.

Zhou Sheng touched his chin when he thought of this, this person is really a difficult opponent, but it is also interesting, it is such a person who is worth fighting against him.

At this moment, the war on the opposite side has entered the final stage, just as the commander of the Southern Military Region predicted, and now they can be said to be retreating steadily.

Qin Yuan's speed was very fast, and he immediately cooperated with the three armies, and used the marines to attack their ports from a long distance, so that they couldn't respond back and forth.

Under this kind of attack, the southern military region was defeated, and the other two teams could only retreat as soon as possible, but it didn't make much sense.

Qin Yuan is really good at using tactics. In just 30 minutes, his tactics have changed more than a dozen. He is very familiar with each regiment, each and even the details of each squad, although these are mechanized simulations of.

But those details will not change, what they fight is what they are good at, and they have divided up more than a dozen combat plans, making it impossible for the opponent to defend against.

40 minutes passed, and the three teams were exhausted by Qin Yuan. The Southern Military Region was convinced of the defeat. They watched silently. This was really a great learning opportunity.

The entire venue was filled with warm applause and cheers for Qin Yuan. This was simply too unexpected. Qin Yuan not only completed the counter-kill, but also directly counter-killed three teams in such a short period of time.

But now the situation on the court is becoming more and more intense, because this is also the most interesting thing. Zhou Sheng is going to face Qin Yuan, and the distance between the positions of the two sides is really too far .

The corners of Zhou Sheng's mouth rose slightly. The place he chose had an absolute advantage. With the mountains behind him, it was impossible for Qin Yuan to attack him. He could only attack him from the front.

But he was fully defensive in the front, but when he was thinking about where Qin Yuan would attack from, he didn't follow the routine and went to beat his marines first, and his marines were right there. The location of the port.

Zhou Sheng frowned, but he didn't think it mattered. Anyway, he thought of abandoning that position in the Marine Corps just now. It would not be of any help to him, it was too far away.

This scene made Long Baichuan feel that even if this guy wins, it is impossible to hand over his people to him. Isn't this completely giving up?

Jiang Xiaoyu clenched his fists even more, and said indignantly: "This guy doesn't think that our marines are soft persimmons, so he gave up on us immediately. He really has the guts."

"Who knows? Didn't you see the position he chose at the beginning? He completely abandoned the Marine Corps outside. Such a person can abandon his subordinates at will. I don't want to follow him."

The people around are echoing, and everyone feels a little aggrieved, this person is really too arrogant.

Zhou Sheng felt that they didn't understand him at all. The current situation belonged to abandoning the car to save the commander. When Qin Yuan attacked the marines at the port, he immediately dispatched the team.

Started to attack Qin Yuan's position. In that flat position, as long as he didn't get close and kept away, there would be no problem.

But this guy thinks things are too simple, precisely because of the Marine Corps he gave up, now Qin Yuan has completely taken advantage of the position in the port.

This area has completely become Qin Yuan's bonus item, and the judges below are all scoring, and then Qin Yuan called out several members of the Marine Corps to start mixing with the Army.

The plan that Zhou Sheng thought of was actually okay according to the normal situation at the beginning. His first thought was to consume Qin Yuan's ammunition. The ammunition that everyone distributed at the beginning was all the same. It would cost too much to destroy his marines.

To deal with Qin Yuan who was too strategic, he could only choose a war of attrition. Now he is like a tortoise, huddled in the position, as long as he doesn't come out, Qin Yuan can't get up.

However, he was shocked by the scene in front of him in the next second. Qin Yuan's soldiers had already rushed up with weapons, and there was no sign of any shortage of ammunition, and they were constantly attacking his position.

However, his tactics are really powerful. Qin Yuan was beaten back after several attacks. In the end, both sides used air power. The side positions are getting closer and closer.

Zhou Sheng's complexion became more and more ugly, what's going on? If he remembers correctly, Qin Yuan has used air power for the third time now, how could he still have ammunition?

Before he could react, Qin Yuan's marines cooperated with the army, completely suppressed him in terms of numbers, and began to charge against the battlefield.

It can be said that he was completely caught off guard. Although his position is more difficult to charge, it is no problem for Qin Yuan. It is no problem to find a suitable breakthrough. Any position has flaws and cannot be perfect. flawless.

First, he harassed their heavy fire positions in the air, and then he sent two teams to outflank them, completely surrounding them.

Zhou Sheng originally thought that he had chosen this formation to be foolproof, but because of this, he had no chance of retreating at all.

This can be regarded as ruining his retreat, and now he can only fight a ***** way to see if he can rush out the small team, but this guy didn't do that, he knew it was a failure, he lost.

This guy didn't attack below, preferring to frown, which made him very unhappy, he stepped forward and grabbed Zhou Sheng.

"What are you doing? Quickly rearrange the plan to attack me. What do you mean?"

"Hehe, now that you've won, do you want to continue humiliating me? I really don't understand, enough, don't bother me here."

Qin Yuan pushed him away, and he was full of contempt for such a person. Could it be that a general let his soldiers give up before the end of the real war? Simply cowardly.

Facing Qin Yuan's accusation, he just smiled disdainfully, because Zhou Sheng felt that this was just a game from the beginning to the end, and that Qin Yuan was too serious, and he had already seen the final result, so there was no need to continue to insist.

"Now that you have won, what are you going to do? Continue to humiliate me, right? Is this your style?"

"It's really a shame to be my opponent with someone like you. At the beginning, I really wanted to have a good duel with you, but I found that you are not worthy."

This sentence completely angered Zhou Sheng, and it was more uncomfortable than losing him. He thought that Qin Yuan was humiliating him, let alone saying such a thing.

At this time, a clue suddenly flashed in his head, yes, what he was puzzled just now was why Qin Yuan still had ammunition, this is not in line with the previous law. Then his previous consumption: Where have they all gone? An idea came to his mind in an instant. At noon, he saw Qin Yuan and An Ran walking very close, and their relationship was very unusual. Maybe the people over there secretly helped him.

Thinking of this, this guy actually became confident, and walked over to question loudly, "You are really embarrassed to say, I just remembered now, you seem to have some close relationship with the person who developed this game, who knows if you used it?" What kind of despicable means won us?"

Originally, everyone around had already started cheering, because they knew that the result had come out. This guy's voice was originally quite sharp, and he took time to attract everyone's attention, and the resentment was already revealed in his eyes.

"It seems that you really can't afford to lose. You just lost and started biting people. There's no need to splash dirty water on me for things I haven't done."

"Who are you saying can't afford to lose? What I said is the truth. What is the relationship between you and that An Ran? You know it in your heart, you are not tricky, I don't believe it, and where did you get the ammunition just now?"

Unexpectedly, An Ran was also involved. An Ran sat on the rostrum with a dignified face. Before that, Qin Yuan didn't get close to her because he wanted to avoid suspicion. He only knew that during lunch, the two. After meeting, the two of them never said anything.

Chapter 1668: pre-selection meeting

Enron below couldn't sit still anymore. This guy had discredited himself from the very beginning, and he had no respect for the products they developed.

He stood up immediately, "I have seen many people who lost to Qin Yuan, but you are the first one who can't afford to lose like you. If you lose, you lose. There is no need to make other excuses, let alone Slandering others here."

Because the situation on the scene was so lively, everyone was looking this way. The chief of the Eastern Military Region was a little embarrassed. This guy lost as soon as he lost, and came out to cause trouble for himself.

Go forward and pull him and loudly ask the people next to him to pull him down, don't let him lose face here, the next scene will be even more chaotic, the two guards next to the chief of the Eastern Military Region are dragging Zhou Sheng, and Zhou Sheng No matter what, I don't want to go down.

Long Baichuan frowned, isn't this just a proper farce? It's necessary to make it like this, I really don't know what to think, I'm just willing to gamble and admit defeat, this kid really can't afford to lose.

However, Zhou Sheng started yelling in the next second. He looked at Qin Yuan and said viciously: "Do you dare to swear? Do you dare to say that you really have a clear conscience and there is no collusion between you? Haha, forget it, I Seeing and swearing doesn't help, I just believe what I see with my eyes."

Qin Yuan felt even more puzzled when he heard what he said. What did this kid see? And still so swearing, he had no choice but to step forward and pull the guard next to him.

"Two comrades, I don't think this matter has been perfectly resolved yet, let's let him go for a while, I want to see what's going on, no matter what, I can't be slandered for no reason, and seeing him like this It means the same as the real thing."

Of course, the chief of the Eastern Military Region knew what kind of person he was under. He was worried that he would make a bigger mess, so he could only go forward to smooth things over with a smile, but now Qin Yuan didn't buy it.

In addition, Zhou Sheng's emotions were very agitated, and he clamored that even if he was taken back, he would fall into the general military area and let everyone know about it.

Just as the two guards let him go, he told what he saw at noon that day, and pointed out why Qin Yuan still had so much ammunition.

The air force he sent formed a kind of suppression for him, otherwise it would be impossible to say that this shows that someone is helping him behind the scenes and quietly altering the data.

Ah Ran blushed when she heard this. In fact, it was nothing but Qin Yuan sent her back, but this guy saw her secretly, and always felt a strange feeling.

Now the people in the car are not calm anymore. Although they don't know if what this guy said is true or not, but this is really a good show, and everyone has become a melon-eating crowd.

Qin Yuan was very calm, he waved his hand, and An Ran came over, now the two of them standing together are really handsome.

"First of all, An Ran and I are husband and wife. The two of us have obtained a certificate. Of course, you don't need to slander this relationship. I never thought of anything. I just sent her over for lunch that day. That's all."

Zhou Sheng was stunned when he heard this. He originally thought that even if this guy had no other cheating behaviors, he could at least give him a good meal from this point.

After all, the relationship between the two of them is definitely not simple. I didn't expect that they are a qualified husband and wife relationship. Not enough, it is impossible to launch so many attacks.

Qin Yuan made an indifferent expression, and An Ran immediately understood. He called up the data monitoring at the side, and the data he used, as well as the consumption of ammunition, the deployment of troops, and the number were all displayed one by one. It is the power of technology.

Qin Yuan's ammunition is indeed not enough, but when he attacked the ammunition depot of the Southern Military Region, he had reserved it for himself, which means that what he intercepted there was the ammunition of the Southern Military Region.

Seeing this scene, Zhou Sheng couldn't believe it at all, he rushed forward, he kept checking carefully on the big screen, and he did not make any changes to the time.

Unexpectedly, Qin Yuan's speed was so fast. When everyone thought the ammunition depot was destroyed, he was able to bring out ammunition from it. This person is really not easy.

At this moment, Qin Yuan also explained beside him, "In addition to these deployments than yours, if it is my special operations team, it is not easy. It is a matter of destruction. I can get all the ammunition back. It is only because of your special operations team. I only got back half of the situation, but it's enough to deal with you."

Qin Yuan's explanation was very detailed, and the face of the chief of the Eastern Military Region turned ashen. This guy really made them famous this time. The people in the stands once again cheered not for Zhou Sheng, but for Qin Yuan, this kid Really old enough to make a living.

Even if Zhou Sheng didn't believe it anymore, the results were all in front of him now, and according to what An Ran said, even if they had any selfish intentions, it was impossible to make a transfer order, because she couldn't complete it by herself.

This brand-new 3D sandbox needs them to play games, and the three people over there start it together, which is also to achieve absolute fairness and justice.

With all the facts in front of his eyes, Zhou Sheng felt even more ashamed. He silently lowered his head. The chief of the Eastern Military Region didn't care about it, so he just walked away. This time he lost face to the general army. up.

This time Qin Yuan deservedly became the champion of this competition, and he is also qualified to represent the Yan Kingdom to go out to fight, and he can lead the three armies to conduct large-scale simulated battles.

Now the leader has been selected. It can be said that he has made everyone see an excellent general in front of everyone. There is no doubt about his leadership and command ability.

Another problem is the selection of the three armies, which teams should be sent, which also needs to be reconsidered. This is left to Qin Yuan to complete. After all, he will lead, so the selection is also handed over to him.

The first thing Qin Yuan thought of was the red blood cell team. The special warfare team can also be interspersed among the three armies. It does not violate the rules, and other teams can do the same.

As for the Marine Corps, it depends on what Long Baichuan recommends. After all, he was in charge of the training there before, and Qin Yuan felt that it would be no problem to be selected casually.

The rest is more troublesome, that is, the army and the air force. There are not a few excellent armies, especially the two military regions in the southwest and southeast. If you want to participate in this, it is mainly the mobile regiment.

This is an unprecedented large-scale battle. Speaking of which, I feel rather strange. If it is really such a worldwide competition, why not show it in such a sand table format.

In this way, everyone came to the office and began to have a detailed discussion. After entering the office, Qin Yuan glanced around. They were all regimental leaders and company-level cadres subordinate to several major military regions.

They all smiled when they saw Qin Yuan coming in. After all, this guy will decide their fate. It will be a very honorable battle to see who can be selected.

Before the official meeting, Qin Yuan also raised his own doubts. What this guy said on Wednesday was indeed correct. Mountain sand table simulations like this were first proposed abroad.

After so many years, they should have actually produced it, and now it is not possible for real people to go directly to the battlefield to fight hard, and so many soldiers are all in one area, no matter which country they are in, others are not at ease.

As soon as the troops of the three armies go out casually, according to such statistics, there are at least a thousand people in a country, which is still far from enough. No matter where it is, it seems that no one is willing to take over such a large scale.

Even in their Yan country, no one is willing to hold it. There are so many groups of people out of nowhere, who can accept this? In case people practiced it and it suddenly became real, it would catch everyone by surprise.

The military officer next to him laughed out loud. He agreed with Qin Yuan's statement, but at present, if it is 3D simulation, it will not achieve the real effect.

In recent years, the countries have maintained relative peace, and there has not been much fighting, except for some domestic infighting.

So this can be regarded as a test of everyone's basic ability, and there is a major reshuffle of the current military rankings in the world. You must know that this military ranking was set 60 years ago, and it has not changed until now.

Afterwards, the military officer next to him turned on the computer screen in front of him, and everyone looked at what was projected on the screen, mainly the ranking of the world's military power.

Qin Yuan smiled disdainfully when he saw this. The United States is ranked first. This is indeed their military, and it is also superior to them in other aspects, but that was 60 years ago, so it is not certain now. .

But country C is next, followed by country Xiaomao, and then country A, something that happened more than 60 years ago, and now they are not afraid, everyone goes down the rankings, and Yan country is actually ranked after the tenth place of.

The main reason is that everyone is not convinced. They want to reshuffle the cards and rearrange their military capabilities, because this happened decades ago. Qin Yuan even said that this competition is absolutely meaningful.

The military chief next to him took out a stick, pointed at the ranking in front, and he drew a circle, "This competition should not be underestimated. Although it has been 60 years, look at the top rankings. Several countries, their military capabilities are still obvious to all."

Zhao Youquan said from the side: "We have beaten them away, what is that? Besides, now that the new generation has risen, we will definitely be able to reach the top ten."

This is for sure, Qin Yuan looked at Zhao Youquan, and then stood up to express his opinion.

"And this time I am not only planning to enter the top ten, I also want to enter the top three, and strive to get the first position!"

The military chief coughed slightly. Although these words sounded heroic, they had to be judged based on their current capabilities. He said that the Mi Army's strength in all aspects is still relatively strong based on their statistics in recent years. It is still very difficult to break them.

This is not just the beginning, he just poured cold water on everyone, but staged according to the facts. Another relatively strong opponent is Xiao Maoguo. Although they had some acne before, they have also started to develop weapons over the years.

The main thing is to start research on their own military power, which is the second biggest threat to them after the United States, and the other is the C country.

The military chief is also here. It is conservatively estimated that they will be able to enter the top five this time. Years of research are also following up, but they are all slower than others.

Qin Yuan, on the other hand, is very self-confident. Now he can't talk big anymore, and others won't believe him after he says it. Anyway, he is definitely going to be the number one.

But it is indeed difficult. The difficulty this time is that he has to command, and he has to command the three armies. Such abilities are relatively unbalanced, and they must all be brought together.

Immediately afterwards, the military chief emphasized the location of the training camp this time. The location of the training camp this time is on the Eastern Continent. Representatives from several countries have already gone there to survey the terrain.

One of the chiefs sitting below silently glanced at it, and then said: "It's quite far away from the Eastern Continent It's just that they tacitly let everyone go there to compete, it's really strange."

"Hey, Lao Zhang, I think you are really old Hutu. Do you think there is something about their voluntary? They don't even rank in the Eastern Continent."

Speaking of this, everyone is self-evident. They don't have that strength, so they can only be slaughtered. If I say I want to compete with you, you have to agree if you don't agree. This is what the strong have to say.

This also made Qin Yuan realize the importance of this competition. He just wanted to break the ranking and let others see what can really speak. Before, he only relied on his own strength to move between various special warfare teams. , Let him witness the rising power of the Yan Kingdom.

small book booth

Still the same sentence, if you fall behind, you will be beaten, so they can only become stronger, let this ranking fully witness history, and also test each other's military capabilities.

This time the meeting mainly emphasized the location of the competition, as well as the selection of the competition. It will take about half a year until the official start of the competition, because now everyone is just confirming the selection first, and there are still preparations and so on later, so it is more time-consuming time.

This period of time is also relatively good for Qin Yuan. After he selects the three armies, he can quickly let them gather for training, speed up the running-in between them, and achieve a better degree of cooperation.

Chapter 1669: Information sent by An Ran

Everyone knows what it means now. Doesn't this mean that everyone has to obey his orders? In the office just now, everyone was restrained, after all, the people from the General Military Region were still there.

After he came out, good guy, Qin Yuan was immediately surrounded by everyone. The commander of the Air Force Brigade and the regiment-level cadres of each regiment were afraid of missing this opportunity.

Adding to the chattering, these leaders are usually high-ranking, and now they want to hug Qin Yuan's thigh, and they are already able to participate in this competition. It is very easy, and nothing can be exchanged. , as long as you can participate, it will completely ruin your reputation.

"Qin Yuan, you and your high team knew each other before, we were soldiers of the same age..."

"You kid can't forget us. Anyway, you were with us when you were in the recruit company, remember?"

When Qin Yuan heard this, he turned his head and glanced at why he didn't remember that the recruit company was on their side, and turned his head to face the commander-in-chief of the Southwest Military Region.

Good guy. This is too far away, he was only in a recruit company, and now he has directly involved the entire military area over there, so why doesn't he remember?

Everyone was chattering, wanting Qin Yuan to go over to them first to have a look. After all, everyone is still very confident in their team, anyway, admission is based on merit.

Qin Yuan only felt dizzy for a while, and finally they escaped under the rescue of Gao Shiwei and Long Baichuan.

"I'm going, the Dragon Team is too scary. They are all leaders. They are like this, just like the aunts in the vegetable market."

"Oh, you have to understand. After all, everyone wants their teams to be able to carry forward. This is the most important thing. Now there are not so many opportunities to perform in peacetime, right?"

Thinking about it this way, it is true that this is a good opportunity to make meritorious service, because this meritorious service is not just a single person's merit, but a collective merit, an absolute honor.

As soon as the words were finished, Long Baichuan patted him on the shoulder with a smile, "Since we are in this relationship, I believe that if you will not let me down, you should choose our beast camp. You won't be re-selected from other navies, will you?"

Because of the current restructuring, the two major naval systems have been re-divided, and Long Baichuan and the others only control one of them.

So he also wanted to communicate, not to rely on this relationship, but he felt that the people at the beast camp should be fine, and he had also received Qin Yuan's training before, so if it is true it is also handy to apply.

"Dragon team, don't worry. I've wanted to tell you about this for a long time. I hope you can help me select some people first. I'll look at the situation later. I'm absolutely assured of you guys." of."

Hearing this, Long Baichuan was overjoyed. This kid really didn't forget them, so he went to pick them first, and waited until he was picked from other teams. Anyway, this spot had already been reserved.

Qin Yuan is also continuing to think about where to start the formal selection. Now that the Marine Corps has solved a big problem, there is no need to worry about it here, but there are also the Air

Force and the Army, which are two major systems. Then There are many groups, and there are companies.

So now he didn't dare to have a moment's rest. Seeing Li Erniu still dozing beside him, he went over and patted him on the head, telling him to drive quickly and go to the army first.

In the car, he had already received the list from the General Military Region, mainly the top rankings after the annual martial arts competition, but this was too detailed.

According to the information, there are more than a dozen teams in one military region, not to mention four military regions. This made him feel dizzy, just when he urged Li Erniu to drive.

A person came to them. Seeing that the kid hadn't driven for a long time, Qin Yuan just wanted to scold him when he raised his head and found An Ran standing by the window.

He quickly rolled down the window, and then looked at the person in front of him, "I thought you were all gone, but I didn't expect you to be here."

"Why did I hear that you want to be selected? Do you believe that I have a way."

Hearing Qin Yuan's wide-eyed An Ran here, is there any strange way? He quickly waved his hand and asked him to get in the car first.

"Is there any way you can speak up quickly and help us, look at so many people, when will we have to be selected, the main problem is that I don't want to offend people directly, it's too troublesome to select one by one."

An Ran got into the car with a smile, and said that they had already studied this before. They already knew enough about the people in several major military regions in the game, that is, they had studied it when they divided the sand table. .

When they developed this military sand table before, they went to each company to conduct basic research, which took a full two years.

They went from regiment to year and even down to squad, so she knew the deployment of those people's troops best, as well as the specific division of strength.

Unexpectedly, An Ran would solve such a big problem for him. Now An Ran knows their strength the most. According to An Ran's recommendation, she selected three groups with relatively strong strength, which was recognized by them.

"Sister An Ran, I'm not doubting you, but why didn't our Iron Fist group rank in the ranking? I think the Iron Fist group is also very powerful."

It was Li Erniu who raised the question, and it was normal for him to say so, while An Ran patiently explained, and she also took out her tablet and began to provide their high-quality data at that time.

How long have Li Erniu and the others been away from the Iron Fist? That group has changed a lot. Besides, to be honest at that time, they were the most powerful members of the Iron Fist group.

After they left, the entire Iron Fist team was very powerful, not as strong as what I said before. This time they represent foreign countries and must choose stronger people.

Qin Yuan took the tablet computer and carefully looked at the data, which explained everything. Sure enough, it was much clearer at first glance. In their previous competitions, they could only see the results, but this time they can see the detailed data.

For them, this really solved the urgent need. At present, the three most powerful regiments are the Mobile 233 Regiment, the Mobile Flying Tiger Regiment, and the Red Three Regiment.

These regiments belong to the old teams before, and have incorporated a lot of new forces over the years, so the overall strength is very strong, looking at the data provided above.

Whether it is tactical guidance, marksmanship, fighting, armed swimming, armed cross-country, all of these regiments have a very high degree of cooperation.

Of course Qin Yuan believed in An Ran 100%, thanks to her data, otherwise they don't know how much time they would have wasted.

An Ran raised her eyebrows, "Then since I've helped you so much, how are you going to thank me now?"

Qin Yuan suddenly smiled evilly, An Ran felt that the matter was not as simple as she thought, before she could react, she hugged her and kissed her directly.

Everyone in the car was booing, An Ran's face instantly flushed with embarrassment, this guy is too reckless, so many people are watching, and there are people outside being seen by others, what should I do?

She quickly opened the car door and ran down, then turned her head, "You are not serious all day long, forget it, I don't want to argue with you, you should hurry up and do your work."

"Obey, my wife."

There was a burst of laughter, An Ran felt completely ashamed now, no matter what, he had been promoted now, at least he was the office director of the game office.

Now being messed with like this, he completely lost any majesty. Watching Qin Yuan's car leave, he could only stand beside him with a blushing face. At this moment, their game car also drove over.

"Director, should we go back now? Or should we wait?"

"Then go back now, there's nothing else to do."

"Director, why is your face so red? Is the sun so bright today? Could it be that you got sunburned on the playground just now, and I said that the temperature on this side of the general military area is higher than ours?"

When An Ran heard this, she lowered her head even more. It was all caused by Qin Yuan, and she must make him look good when he comes back next time. At this moment, Qin Yuan sneezed several times in a row, and he still doesn't know what happened.

Now they plan to go to the Red Third Regiment first, which is an old-fashioned team. If they go here first, it will be more convincing to everyone, let them see it, and make other teams retreat naturally.

Sure enough, Qin Yuan and the others had just arrived at the news of the Red Third Regiment, and walked out soon. Before this time, they still wanted to compete, but when they heard the name of the Red Third Regiment, there was no room for competition now.

It can be said that the Red Three Regiments have been able to win the championship for five consecutive years. The champions of various military regions and the national champions can really be regarded as an old ace team.

The leader of the Red Third Regiment laughed. He had just received the news, and he had already brought the team to the playground to welcome him. This was a great joy. Qin Yuan chose them first, which was a testament to their strength. recognized.

However, due to the limited number of participants this time, they could not bring all the people there, and the three armed forces could only choose three companies from them.

If calculated in this way, the number of people is also very large. One military branch already accounts for the number of three companies, not to mention the three armies, so the team is relatively mighty.

It just so happened that the data provided by An Ran helped them, and he planned to choose a company from each of the three regiments.

The leader of the Red Third Regiment is Gao Ming, and there is a scar at the corner of his eye, which looks quite special, but, after all, in this kind of mobile regiment, all kinds of firecrackers will be carried out at any time, and he has to go forward to monitor Data, so there will be times of damage.

Gao Ming didn't mind this at all, Qin Yuan and the others just came in, they started cheering, everyone felt the enthusiasm here.

Gao Ming also knew that time was running out, so he took Qin Yuan directly to the office to see what he thought. Qin Yuan also expressed his own thoughts, and he respected the old chief.

He also talked about the two regiments he was going to go to next and nodded his head. It seems that this Qin Yuan is really well-deserved. These three regiments are indeed the strongest at present.

It's just a pity that he originally thought that the members of the three companies could choose from his own side, but well, it is an extremely honor to have a company to participate in the battle.

Having said that, he pointed to the playground, where all his companies had assembled, "Captain Qin, I've heard of your name before, so I have to see how you select, all my people are already in. They are assembled here, let them practice, I give an order, you can watch at any time."

Unexpectedly, Qin Yuan waved his hand, which caught Gao Ming a little off guard, didn't it mean that time was running out? He originally thought that the selection would be carried out directly.

"Captain, I think you have misunderstood me. I just don't agree with this kind of mechanized selection. There is no problem with drills like this. I have to evaluate them."

"Oh, so it is like this, but I thought it was a little too simple, but it's no problem, how do you choose? I fully cooperate with you here."

Leader Gao's attitude is very good. really has no airs. Qin Yuan said that he doesn't need any cooperation. He will lead the red blood cell team to conduct surprise selection training for them.

When Gao Ming heard this, he turned his head and looked at the people behind him. He took a sip of tea and was thinking about what to say, because at this moment he felt that this was completely impossible.

"Captain Qin, it's not that I look down on you, but that I have so many companies here. Even if you want to assess one company, there will be a lot of people. Can you really do it?"

"Don't worry, Commander Gao. Of course, what I say is sure. I know what to do, so you just keep your heart in your stomach."

Seeing that Qin Yuan has said Gao Ming so affirmatively, there is nothing to do after thinking about it, so let's go with him, and he has heard of Qin Yuan's reputation before, so this time he just happened to witness it, look at the legendary Is it the same as now.

Just like that, the following teams had just assembled, and now they disbanded again, and everyone was a little confused.

The company commander of the first company looked at the office above for a long time without any movement, and also lost his mind, "Hey, it's really strange, I remember the team leader said before, let's get ready, that person is impatient, he will be ready when he comes." There was an assessment, but this disbanded us again."

"Company commander, could it be that he has asked the head to select the company? Then if that's the case, we probably have no chance. You know that the sixth company is what the head of the group values most."

The first company commander shook his head. He didn't know the specific situation, but it was really like what the soldier said, then it would be troublesome. Their commander really valued six years the most, and all the good equipment was mainly there. .

Chapter 1670: surprise assessment

After all, for their group, the Sixth Company is the champion of martial arts every time. Although thinking about it this way, I feel somewhat unconvinced. After all, there is very little difference between them. They have only been two or three points behind each time in the six years.

Originally, everyone was very confident and wanted to perform well this time. No matter which company wants to win honor for their regiment, and this opportunity is very rare, if it is really directly designated, it will really chill everyone's heart .

After the disbandment, everyone met in the cafeteria. The first company commander saw the sixth company commander's beautiful face, and felt a little unhappy, but he still walked up to say hello.

"Old Zhang, I said why are you so happy? Did something good happen to you? Did the leader reveal something to you?"

The sixth company commander is really wronged when he said this. Now basically the whole regiment is spreading rumors, saying that their company has been designated as an internal team. This is completely impossible. He, the company commander, has not received any information.

"Stop making fun of me, I really don't know, and can I have the final say? It's not just a matter of a word from the leader."

Originally, he wanted to explain, but in the end, such a fuss caused a misunderstanding. When the people next to him heard him say this, they felt that kind of temper in their hearts. From what this meant, they probably belonged to their company.

For a while, everyone felt as if they had been poured cold water. For this competition, everyone was holding on to hope, and recently everyone was training desperately, just trying to get a good chance to perform.

The sixth company commander hadn't realized which sentence he said wrong. He was explaining well, and the company commander did not inform him. Why did he feel that the eyes of these people looking at him changed a bit.

After dinner, it was time for their night training. The company commander thought about it and came to the training ground again. He saw that everyone was not motivated, especially the two classes he valued most. They ran there first. The appearance is simply too loose, completely perfunctory.

He was so angry that he stepped forward and kicked Li Qing, the third squad leader, on the ass, "I said, can you do it? You are my best squad leader. You can see for yourself what this is called." The team, the old lady runs faster than you."

Li Qing patted the dust, and then stood up from the ground. He was also very helpless, and turned his head to look at the company commander mournfully.

"Company commander, it's not our fault. Look at the news that everyone has already made an appointment. It's really useless for us to train. Besides, everyone has been training too hard for a while. I also want to give them some relaxation. a bit."

"It's just farting, who said that news is just everyone's guess, cheer me up now, and your training is not for competition!"

Being scolded by the first company commander, everyone can only cheer up and start to adjust the state of training. In fact, we can understand the mentality of these soldiers. Everyone has prepared for such a long time, but this matter has changed. I can't accept it.

The first company commander was actually comforting himself, because he knew that the pre-determined thing was likely to be true, and the strength of the sixth company was there. Although they were a little behind every time, if they lost, they lost.

Thinking of this, he simply put on his equipment and started running with the soldiers beside him. Now everyone began to compete, and even their company commanders came down to train with them, and everyone's previously lost morale instantly lifted.

At this time, Qin Yuan came to the corridor of the office after eating, and began to ask the secretary for a list. While waiting, he saw that everyone on the playground was training.

He'd heard a lot in the few short hours since he'd been here, and he was no kidding ear and knew what they were thinking.

Everyone was worried that he would decide by default. In fact, I didn't have such an idea at all, but it could also be seen from the status of other companies.

No matter what, he must choose the selection, and there are competitions. He must take the strongest team out. At this time, he noticed Lian who was running below.

This company has an indescribable momentum. Maybe they knew the result, but they never gave up. Their company commander personally led them to start training. This state is really exciting.

At this moment, the secretary also came over, and he handed over the list to Qin Yuan, looked in Qin Yuan's direction, and he explained beside him.

"This company commander is also a veteran team member. He is very strong. Running with these young boys at this time is really embarrassing for him."

Having said that, Lianchang's physical fitness is very good, and he will not lose any disadvantages when running with these young people.

"By the way, Secretary Chen would like to trouble you to tell me about their company's situation. I see that their company's overall morale is also very good. It should be considered relatively strong."

"Who says it's not? Although the sixth company is the strongest on our side, they are not bad. Every time they compete with the sixth company, they are always one point or two behind. Let's take last year as an example. One point disqualifies the championship."

It is indeed a pity to say that, facing this situation, they are still training desperately, what Qin Yuan needs is this kind of aura and momentum, which can motivate everyone.

But even Secretary Chen was partial to Liulian, he just explained casually, and then pointed to Liulian on the list.

After all, everyone wants to introduce the strongest company, which represents their face, "Captain Qin, you can take a look at our sixth company, they are a strengthened company, and their overall strength is very good, and their The competition results have always been ranked first in our team."

Unexpectedly, Qin Yuan just nodded indifferently, without too much disturbance. Secretary Chen still felt strange, shouldn't such a person be more curious about strong people?

Then Qin Yuan casually pointed to the training in the corner, "The strongest Sixth Company you mentioned is the team over there, right? I remember when the report was made, your regiment leader said that their company commander, I It's also very clear."

Secretary Chen looked in the direction, and was a little embarrassed for a while. Although the company commander of the sixth company was not there, he could see that the training situation of that team was very loose, and now they gathered together in front of the horizontal bar. Two people pull a single pole, isn't this making a fuss?

This is really in stark contrast to Yilian who was leading the team for training just now. One side is in a very positive state, while the other side is very relaxed.

Secretary Chen also wanted to protect the face of his team, but he explained embarrassingly, "Captain Qin, they are not like this usually, it may be because they are tired from training at night, so they relax later, their usual training It's also very hard work."

Qin Yuan just smiled and didn't say anything else. After receiving the list and thanking him, he left. Everyone knew exactly what it was like.

Now the Sixth Company is a little too proud to be honest, because they feel that they are the default one. Although their company commander doesn't think so, the soldiers under him already feel that they can definitely be selected, and now they are completely relaxed.

This situation is not very good, as the saying goes, arrogant soldiers are bound to lose, no matter how powerful they are, they still have to be clear about these things, and the opponent is working harder than them.

After checking for this period of time, Qin Yuan felt that Lian was better, especially that their company commander was indeed a hot-blooded character, who could adjust the soldiers' emotions with just a few words, and that's what he needed.

In addition, at the sixth company, everyone is in a state of having fun, and now their first squad leader and second squad leader are competing on single strokes.

In fact, other soldiers could go to training during this period of time, but they didn't. Instead, they had a mentality of watching the excitement.

And the squad leader didn't play a normative role, they already felt settled in their hearts. After the second squad leader jumped down, he took the towel handed over by the soldier next to him and wiped his sweat.

"What time is it now? Let me see, if it's about the same, let's disband."

"Squad leader, it's still early, it's only eight o'clock."

"It's really troublesome, then everyone will continue to train, and you will follow the same rhythm as before. If no two people come over to compete, please be considerate. Anyway, the training was too hard a while ago, and now everyone can relax."

Everyone was very happy to hear this. This is rare. It is true that they have been tense some time ago, and now they can relax.

It can be said that Gao Ming was very disturbed, especially when he heard from Secretary Chen last night that he didn't know which company Qin Yuan would choose, and what his selection would be like.

It was not yet dawn, and before the assembly sounded, there was a loud noise coming from the camp, followed by many people running, and gunshots. What is the cause of this commotion?

Gao Ming got up from the bed. His position is relatively far away from the training ground, which is relatively quiet. Who can shoot outside the training ground?

He looked at the time, it was only after 5 o'clock, it was too exaggerated, he was a little unhappy, which company was making trouble for him, and it started to make trouble in the early morning, although it was for training, But don't be so exaggerated.

He called several times that Secretary Chen lived next door, but he didn't respond for a long time. After a few minutes, Secretary Chen came running over with his clothes on.

"Captain, what's the matter?"

"Are you deaf, can't you hear the gunshots? Go down and see which company is doing something, can't you let people sleep this early in the morning? If you want to train, let them not sleep at the training ground." Make trouble in this area!"

Seeing that Gao Ming seemed to be angry, Secretary Chen still dared to hesitate, and hurried out in his clothes. The reason why Gao Ming was angry was because Qin Yuan's special operations team lived downstairs. Isn't this causing trouble for others?

Speaking like this, I feel that their group is very unruly, but Gao Ming waited for a long time, and Secretary Chen didn't come back. He was a little impatient, so he put on his clothes and went downstairs in person, because the gunshots became more and more intense.

I was complaining in my heart that Secretary Chen was getting more and more unreliable in doing things now, so I asked him to see what was going on, and it was fine if he didn't come back to report, but the gunfire still didn't stop.

When he went downstairs, he took a special look at the room where Qin Yuan and the others lived. The door was closed, and the curtains were drawn. It seemed that he was still sleeping. He just hoped not to be affected, or else it would really be Lost this old face.

He walked to the playground with a dark face, but he was shocked by the scene in front of him as soon as he passed, because at this moment he saw that the soldiers of the sixth company were all disarmed, and most of them hadn't even put on their clothes, just like that Crouched on the playground.

The few people standing next to him are Qin Wukong and his red blood cell team. What kind of game is this? Secretary Chen also squatted beside him with an embarrassed expression on his face. It was obvious that he was under control now.

Just as Gao Ming was about to step forward to speak, a red dot was only on his chest, "Hey, Captain Gao is safe and well, I just didn't expect you, a veteran, to come here."

Gao Ming didn't expect that he just came here to understand the situation, but it turned out that it seemed to mean he was shot dead. After all, they aimed at his chest.

"Captain Qin, what the **** is going on here? What kind of game are you playing?"

As soon as he finished speaking, he saw Liulian lying on the ground with a bruised nose and a swollen face. He was looking for the commander of Liulian just now. Where did this kid go? As a result, I saw it as soon as I looked down.

It's really too embarrassing, but his company commander's reaction is relatively fast. Compared with many other soldiers, his dress is relatively standard.

Before Qin Yuan could answer, the sixth company commander said beside him: "Commander, we don't know what's going on. Suddenly Captain Qin and the others attacked us. Everyone was sleeping at that time. How can we react to this?" , and then I was shot and they were captured."

Hearing these words, Gao Ming was furious, what does it mean to be shot to death and then captured again, they would never be captured, but looking at the soldiers in front of him, he was also Very helpless.

Qin Yuan stepped forward with a smile and said, "The sixth company commander is quite heroic. After all, he was in the process of resisting, so he was killed by us."

It turned out that this was a surprise assessment they held, just to observe and assess their temporary response ability, but it is a pity that their vigilance is too low.

They released all the guards at the door, and only after they got in did they use the traditional method of the Special Forces, throwing smoke bombs directly into the dormitory.

Although this ordinary team is strong, they have not undergone such traditional training, so their reactions are also slow, let alone in front of a professionally trained team like them.

So they were all captured in a short time, and they were taken back to the playground like this, and some who resisted were killed, and you can see that they have very embarrassing paint on their bodies.

This time everyone squatted on the playground like stripped monkeys, it was really embarrassing, Gao Ming didn't even want to admit that this was his pawn.
