

## Special Soldier 1671

Chapter 1671: Elimination of cards that do not follow the routine

Who would believe that all of them belonged to the champion of the martial arts competition, and the national champion is now squatting on the playground like a monkey. Fortunately, this is his regiment, otherwise it would be a shame to throw it outside.

The expression on Gao Ming's face was ugly, but Qin Yuan didn't care. After all, he had already said that these people would be assessed.

Qin Yuan glanced at his watch silently, "Er Niu, tell me how long it takes us now? From the beginning to the end?"

"Report to the captain, from the attack to the end, we spent a total of 7 minutes."

He took all of his companies in seven minutes. No one would believe this, Gao Ming was so angry that his face was livid, but what Qin Yuan said made him almost spit blood.

"I said before that the battle was resolved in five minutes, and you wasted another two minutes. You know what to do."

"Report to the captain! Understood!"

In this way, the members of the red blood cell team were uniform, lying on the ground and sitting up doing push-ups. This was an insult to them. They had to kill a company in five minutes, but now they were punished for only two minutes overtime.

Gao Ming couldn't hold back, "Please captain, I think it's almost enough. I have seen that your soldiers are very strong, so there is no need to do this. No matter how you say it, everyone bows their heads and does not look up. They are all comrades-in-arms. "

Qin Yuan was indeed very serious, he turned his head to look at Gao Ming. "This is my plan for leading troops. Not to mention two minutes missing, he will have to accept punishment, otherwise it will not be strict now. What should we do when we go to the battlefield later? The red blood cell team, our special forces team It's really going to be on the battlefield."

This time Gao Ming was not good, so what to say, he could only wait silently for them to finish their push-ups, and he gave the sixth company commander who was on the ground a hard look.

What did this kid really do? This kind of thing can happen in his own camp. After they finished, Qin Yuan also started to say that now the sixth company has withdrawn from the selection qualifications, because they really failed to do it.

I didn't expect the assessment to come so suddenly, and it was still carried out in this way. Soon there were many people around, after all, everyone was woken up by the morning movement.

The sixth company commander was even more ashamed this time. He was a little unhappy and stood up, "Captain Qin, I admit that your soldiers are powerful and caught us by surprise in a short period of time, but you directly assess us like this. Isn't that unfair to us?"

"Oh, what do you mean? What's unfair? We raided you. You are a company with so many people. Is this unfair?"

"I think you misunderstood me. I'm not saying that it's unfair in this place, but your assessment of other people later on is unfair to us, because we have already followed suit."

It turned out that this guy meant this. He has now become a joke of the company. Everyone knows that their sixth company was captured by the red blood cell team in a short period of time. This can be regarded as a wake-up call for other companies, so it is meaningless. It must have seemed unfair to him.

Unexpectedly, Qin Yuan was not in a hurry, but just said calmly, "Don't forget, we not only assessed you, but also assessed other companies. Of course, we also assessed for a year today, but their response was too fast. , we didn't succeed, that's why we went to assess yours."

what! The people of the Sixth Company couldn't believe what was going on when they heard this, but at this moment the commander of the first company was fully armed and brought his team members to Gao Ming.

"Reporting to the head, our guard post was suddenly attacked at 5 o'clock this morning, but I don't know, it has been discovered, so it didn't cause too much damage. I don't know if it was your training instruction."

They don't know what's going on, they just strengthened their defenses and didn't pursue them. After all, such things happen in the team, usually because of training arrangements.

Gao Ming couldn't help but take a second look at the person in front of him. This kid is quite cunning. Not only did he send out the Ming post, he even sent out the secret post, which is really unusual.

Qin Yuan also explained that it was their surprise assessment this morning, and it was indeed aimed at Yilian. He was very interested in Yilian yesterday, but he didn't expect to be discovered just after entering.

That's the end of the assessment, and they succeeded in the first step, so Qin Yuan turned around to test after thinking about it, and came to the Sixth Company.

But the result was really unexpected. Not only did it go so smoothly, but they took over their entire company. Up to now, their company commander is still not convinced.

The people around watching the excitement didn't expect so many things to happen this morning, but Qin Yuan coughed twice, and he told everyone that he would conduct assessments from time to time.

He will not tell everyone the specific time, but he hopes that everyone can take this as a lesson and stop making such low-end mistakes again, thinking that everything will be fine in the company.

He also deliberately said this to the sixth company commander, because he felt that this kind of training was a bit too much, and such a thing would never happen, but Qin Yuan told him with an example from abroad,

This kind of thing happened in a military base before. It started to disintegrate from the inside, and directly wiped out their entire base.

Qin Yuan was also very strict with his subordinates. They only exceeded the time limit by two minutes, and not only did 200 push-ups as punishment, but now they also had to do 20km of off-roading with heavy loads.

They didn't all come back until noon. Even so, no one said no, and no one felt dissatisfied with this kind of training. Everyone completely obeyed Qin Yuan's orders, which made Gao Ming really admire him. The leading team is really too strong.

After what happened in the morning, everyone looked at Qin Yuan's cell group with admiration. This is really not easy.

After the first company commander returned, he was even happier. He didn't expect things to turn around. Everyone was discussing that the sixth company must be the must-have candidate, but he didn't expect that there was room for maneuver.

After returning, he even directly praised the people on duty that day, and the soldiers on duty were also flattered. To be honest, all of them are actually very capable.

"Company Commander, I find it a bit strange. The Sixth Company seems to have secret whistle all the time. This is the regulation of each company. How could they not know?"

"To put it bluntly, just one word, crazy!"

This is indeed true. They are valued too much by the group. They really think that they are the boss of the group. Selected, many things let down their guard.

Now the sixth company has become a direct joke. Now everyone still mentions the people in one company, and they were all taken care of in just seven minutes, and the company commander was shot dead on the spot.

It's just that a whole week has passed since the beginning, but the assessment Qin Yuan mentioned has not been carried out for a long time.

The sixth company commander felt that he had completely lost face, and led the team to train desperately all day long. He still hoped to win another chance for the assessment, but Qin Yuan only gave him one chance.

Lian still didn't relax here, they prepared to take a lunch break after eating, six minutes earlier than usual.

The second company commander has just entered the cafeteria, and he is still teasing that today's food is good, "The braised pork they made is really getting better and better now, not bad, not bad, you have to eat this kind of braised pork, brothers recently trained It's too hard, eat more."

The soldiers below were also catering to him. The little soldier sitting next to him brought him a bowl of soup. It was really delicious to make braised pork with a bowl of vegetable soup!

Just as he took a sip of the soup, there was a sudden crackling sound, only to see Qin Yuan and the others jumping in from the window.

Before he could react, Qin Yuan shot directly. For a while, the whole cafeteria was in a mess. Everyone was eating, so they didn't notice it at all. What's more, no one was carrying equipment and weapons.

So the final result can be imagined, and now the most people here are the people of the second company. ability to resist.

When a few wanted to rush up and fight them with bare hands, Li Erniu and the others didn't agree at all, and just shot.

These few people were beaten with some paint, of course they were not convinced, they were controlled and pressed to the ground and they were still cursing, and in the end everyone was brought to the field.

Gao Ming's complexion is getting darker and darker, these guys really make him worry, the previous joke has not been bypassed, isn't it just too late to tell a joke now?

But this time those few people were very unconvinced. They said that they ate in the cafeteria. Who would notice this problem? Besides, they wanted to fight just now, why would they prefer not to fight with them?

"Captain Qin, your abilities are indeed strong, but you have weapons, we don't, this is very unfair to us."

"Hahaha, my friend, I think you are really naive. What do you mean with weapons and without weapons? What do you think is the result of you rushing forward with bare hands when you encounter an enemy?"

At this moment, the soldier on the opposite side was dumb for an instant, and he didn't know what to say back, as if what this man said was indeed reasonable.

In this way, Erlan was dealt with while eating in the cafeteria, mainly because of Qin Yuan's attack, which was really unexpected. After Erlan's lesson, everyone who went to the cafeteria to eat was fully armed.

The secretary was a little dissatisfied with everyone's state, and he said to Gao Ming: "Head, if this guy wants to be assessed, he must have a certain limit. Look at how our soldiers have been tossed. Eating is always a meal. Take it easy, it makes everyone nervous."

Gao Ming felt that it didn't matter. He felt that such an assessment was normal, because they were representing the whole country, and they really should be supervised. Such supervision is also beneficial to them.

Qin Yuan has never disclosed it to the outside world, so even if he loses face, only the people inside his regiment know about it, so just make adjustments.

This makes everyone a little more vigilant, otherwise they will not be able to react to any unexpected situation. Although his team is very strong, they are all very formulaic. When they pay attention to the rules, they can complete all of them. very good.

Like Qin Yuan who broke the rules directly and started to attack indiscriminately, they became helpless. This was their weakness, so he knew how to strengthen it.

Qin Yuan had already told them that they were going to undergo assessment and training before, and now everyone became vigilant as soon as they saw them coming, and they were all worried that there would be another assessment?

But I didn't expect that Qin Yuan and the others were really just passing by. Just like that, a few days later, the company commander of the fifth company came directly to the office angrily, and pushed open the door of the office.

This guy even forgot the question of politeness. When he came to the head's office and patted the table, he said, "Head, this is too much. I've never seen anything like this before."

"You guys are really getting more and more unruly. What do you say? Now you are a company commander anyway, can you stop being so impulsive?"

The fifth company commander also felt that he might be a little impulsive, so he straightened his clothes, saluted, and then began to say: "Our company has been eliminated."

This is too lightly said, Gao Ming almost spit out a mouthful of water, what's going on? Three companies in a short period of time, I'm afraid this is not a joke.

"It's not that I said what's going on with you guys? The Sixth Company was considered inexperienced before, so I won't talk about it. I have notified you, but the Second Company has become like that again. What's going on with you now?"

He is now worried about the annihilation of the entire army. If all the companies are eliminated, then Qin Yuan will have to start from other regiments. This is not a good thing for him.

The fifth company commander is also very helpless What can we do, who told him not to play the cards according to the routine, the people in our company were taking a bath, and he rushed into the bathroom directly. "

Gao Ming's face was dark when he heard this, this kid really didn't follow the routine, when he was sleeping in the bathhouse, when he was eating, he really caught everyone by surprise.

It seems understandable to think about it this way, but the problem now is that if you lose, you lose, and he can't find so many excuses, so he can only wave his hand, let the fifth company commander go down, and specially ask the secretary to notify For a moment, let all companies, especially the rest, strengthen their vigilance, and stop losing face.

He is also very helpless, this special warfare instructor is really something, he has never encountered such a specification of elimination.

On the other side, the first company commander also heard the news that the fifth company was eliminated, and they only knew that they were eliminated while taking a bath, which made everyone panic.

The first company commander also immediately took countermeasures. From now on, when taking a bath, divide the time. One squad will wash inside, and the other squad will be responsible for

guarding outside. After all, this is a special period, and we will talk about it after this period of time .

#### Chapter 1672: Successful selection

Not only him, other companies also started to be vigilant, everyone was getting nervous, after all, this is a special period, Qin Yuan had told them before that they would pass the assessment.

Especially at night, everyone was worried about being attacked. Even at night, I felt that I stood more frequently than during the day. It can be said that the morale has improved a lot during this time.

Relatively speaking, the Sixth Company was eliminated at the beginning, but now that they see one company after another being eliminated, they don't give any hope, and they have completely begun to be in a bad state.

At first, he really wanted to see if he could be assessed again, but after seeing Qin Yuan's methods, he could only say that this person was too ruthless, there was no way he could do it, it could be said that no one could catch his eyes.

That kind of speed is really too fast. The selection company didn't know about it. They thought they selected their special forces members based entirely on the assessment standards of their special forces team.

Although everyone has this saying in their hearts, Qin Yuan doesn't care, because he wants the strongest team in the first place, and he can't take it out. It will embarrass everyone in the future.

After going out this time, it will not be like the control on the sand table. Although the control on the sand table is all uniform in strength of the soldiers.

There are advantages and disadvantages. The strength of the soldiers is all unified, but they obey the command arrangement and do what they are told to do, but later he will face people with flesh and blood.

These people will have their own ideas, and there will be various situations. He has to take these things into consideration, so he has to standardize them with the strictest requirements.

And at the moment they were on the roof of the office building, Li Erniu looked excitedly at the burning charcoal, "Brother Qin, the coal you found this time is really good, it is really smoke-free! There is no smoke at all. "

"Of course, I ate with them in the cafeteria every day during this time. I lost my taste. Let's have a hot pot meal."

All I saw was a copper pot set up in the middle of the roof, and there were many side dishes and some mutton beside it. He Chenguang lay on the top of the water tank and began to observe every move below.

According to his observations, several companies are relatively vigilant among themselves, but judging from their various trainings, this company is still relatively strong.

Qin Yuan and the others were eating hot pot on the roof, and they didn't notice the thoughts of the people below at all, because they hadn't seen Qin Yuan all afternoon, everyone was a little flustered, especially the remaining companies.

The third company commander came here specially to find the first company commander, "I've been waiting for this. I'm too impatient. I haven't shown up all afternoon. They aren't holding back any big moves, are they?"

"Oh, what is this? I think you put your heart in your stomach. Let's train hard. When will we come and arrange when? Don't think about things that haven't happened yet."

"How can I not think about it? Look at the current situation. Everyone is staring at our companies that have not been eliminated. The pressure from the team leader is even greater. If we are all eliminated, this is not a slap in the face." ?"

The first company commander was just drinking tea calmly, but now he looks away. He was very impatient before, but now he doesn't care. After all, these teams have been eliminated. As long as he is fully prepared, he can fight according to his own strength. say.

If you have prepared so well and are still eliminated, then you can only say that your strength is not as good as others, and if you train well, you won't be ashamed to go abroad in the future.

The third company commander just sighed silently when he saw that he was so calm. He originally wanted to come to him to discuss a solution, but seeing that it was unreliable, he could only wave his hand and leave quickly. If something goes wrong, he has to hurry to catch the training.

It was around 6 o'clock when Qin Yuan and the others walked down contentedly. After eating the hot pot, they slept on it for a while and basked in the sun. It was a really comfortable day.

It's just that after I got down, I found that these soldiers on the training ground worked harder, and after seeing them, they showed even more nervous emotions.

Qin Yuan just waved his hand, telling them to relax as much as possible. It seemed that there was no danger. Who knew that this guy would change his face in the next second, and quickly shot three consecutive shots at the playground.

This was also a momentary situation. Sanlian was also preparing for this period of time. Although he was beaten in a panic at the beginning, he also began to fight back vigorously.

It's just that the playground is too wide, and their training just now has consumed a lot of physical energy. Now they are chased by this unexpected attack, and they have not reacted.

So the final result can be imagined. Just when they were about to be eliminated, gunshots came from behind Qin Yuan and the others, and it was the company commander who rushed up with people.

Qin Yuan narrowed his eyes and looked at the person rushing towards him. He just thought it was interesting. This person really would take the initiative to attack. He has been training here for so long, and someone finally reacted.

They have been waiting, not to wait for the assessment, they can take the initiative to attack at any time, but no one can react.

This time, someone finally understood. Qin Yuan was very excited, and immediately turned his gun to attack them.

The first company commander also had very tactical arrangements. He first sent a squad of soldiers to charge in front, mainly for the main assault, and two squads on the side to conduct separate assaults, mainly to rescue the remaining three companies.

But even under the attack of such a disparity in numbers, Qin Yuan was able to turn defeat into victory. He led the team members out of the siege alone. These special forces members are really extraordinary.

Gao Ming, who was standing at the door of the office observing, was stunned. This kid really lived up to his reputation. Surrounded by such an absolute number of people, most people might give up, but he was still able to break out of the encirclement, and gradually He has already gained the upper hand, because the company commander has been beaten back again and again by him.

Seeing this scene, the secretary frowned slightly. This is their last hope. Is it possible that the whole group will fail in this knockout round?

"Leader, you will think of a way. If this goes on, our team will not be eligible to participate. Everyone was holding out hope before, so it's not good."

"What do you mean, how can I help them? Is it possible that I ran up to help them plan? It's good now, let these boys remember that they are incapable, and no one can blame others. It's good to be eliminated now. Save yourself going out and embarrass me."

Although Gao Ming said this, he was still a little unconvinced in his heart. After all, the words had already been released. Everyone knew that Qin Yuan came to them for selection. In the end, even a company could not be selected. It was really annoying. joke.

It was at this time that he noticed that something was wrong. The number of people here was not right. They still had two classes, why weren't they there?

No wonder he was attacked by Qin Yuan so quickly. It seems that this kid is still hiding his back.

On the other side, the company commander was beaten back again and again by Qin Yuan and the others, and finally forced to a corner position. Qin Yuan stepped forward and admired him a lot.

"First company commander, I really admire you, and your ability is also very strong, but what do you use to fight me now?"

The first company commander just smiled brightly, "Captain Qin, don't you notice that I'm missing something here?"

Speaking of this, Qingyuan has long thought that he has lost two classes of people here, but is there any remedy for the people in those two classes rushing up now?

But the first company commander didn't let the people of those two squads rush forward, he just pointed to the high ground in the distance, "Captain Qin, my people are on that high ground, you must know that we are a mobile company, I want to You can look at the distance for your ability, the shells from that position are coming..."

Hearing this, Qin Yuan also smiled. This guy is fighting with his back to the wall. He has thought of two plans in total. If he can successfully save Sanlian, then he will fight Qin Yuan together with them.

If they can't be rescued, then the whole army will be annihilated. Now they are here to stall for time. They have already won the angle for the people on the high ground. If they give an order, they will call from that side, then it will be absolutely no problem.

This style of play is really good, Qin Yuan smiled and stretched out his hand, and pulled up the company commander who had fallen to the ground.

"I've noticed that you are in the company since I was a child. Okay, you really impress me. You can follow me. You have been selected successfully."

Hearing this, the company commander couldn't believe it. He really belonged to the last stand, but he didn't expect to succeed. The soldiers behind him hugged each other excitedly, and the whole playground was full of boiling sounds.

Although Sanlian was eliminated, someone from their regiment had already been selected. He was also happy from the bottom of his heart, and everyone was cheering.

However, Qin Yuan still said, "It's only in training now, you can do this, to be honest, although this strategy wins, if it is put on the actual battlefield, there will be too many sacrifices, you guys But they're all dead."

"Captain Qin has to sacrifice if there is a battlefield. I have no choice but to do this. This is also to win the victory. Of course, I do not approve of this method. I am not a cold-blooded person. It is just that I have to take some measures to win this time. ."

"So what I mean is that you can follow my command in the future. I don't know if you can do this. I don't want to have such a sacrifice, no matter what the situation is."

Hearing that Qin Yuan suddenly became serious, the first company commander quickly stood up and gave a solemn military salute.

"Captain Qin, we will follow your command and arrangement all the way up and down, and we will never disobey the order. We will obey and obey the arrangement."

Hearing his guarantee, Qin Yuan was very satisfied, walked over and patted him on the shoulder, and the selection was over like this, and at the end of the sixth company, he didn't expect that it was the first company in the selection.

Gao Ming, who was standing at the door of the office, was also completely relieved. After all, he had selected a team. He had been reticent these days. The main reason was that he still held his breath in his heart. Why couldn't such a strong team be selected?

Moreover, people have been eliminated in various aspects, which made him feel that he still needs to strengthen in many aspects, but he was finally selected today.

He turned his head to look at the secretary and said excitedly: "Go and inform the cooking class to have an extra meal tonight, and reward everyone well. You have worked hard recently."

However, during the extra meal in the evening, Qin Yuan and his red blood cell team were not seen, but the first company commander took out a letter, saying that it was left by Qin Yuan.

Gao Ming felt a little unhappy, this kid really didn't say hello, just left like this, what's the matter with leaving a letter?

The content is also very simple, which means that he is going to the next place for selection now, because time is tight, he wants to select them, and then gather everyone together for training.

It's understandable if you look at it this way, Gao Ming didn't say anything more, just wait for the notification now, but he has some sympathy for the mobile 233 regiment now.

Veteran troops like them have received too many honors before. It is not easy for them to persevere in the face of Qin Yuan's suppression.

It's no wonder that such a special warfare team is valued by the leaders above. Indeed, the team led by this person can compare with the strength of their team.

On the other hand, Qin Yuan's plan was to go to the mobile 233 regiment. This time, he would make a surprise attack first to see how strong their entire regiment was.

He Chenguang who was in the car was a little worried, "Brother Qin, it's not that I'm cowardly, I just said that we don't say hello, just pass it in, I'm afraid there won't be any major problems."

"What's the problem? The hail of bullets is coming, what are you afraid of? Besides, everyone is not in a special period now, and all they have in their hands are training bullets. Unless there are sentinels, we just need to go around there, right?"

In this way, the problem is not too big, they are not worried about something happening to them but they don't say hello, just go to attack people directly, this kind of situation is quite in line with Qin Yuan's style, he likes to fight Others were caught off guard.

In the middle of the night, several people had already arrived at the Mobile 233 Regiment. Everyone hid their cars at the foot of the mountain and planned to sneak up from here. There were soldiers on guard along the way, so they had to be very careful.

However, they had just climbed up to a position of more than ten meters when they heard the sound of an alarm from above.

It's a drone! A few people hurriedly lay down below, and the drone broadcast said: "Dear fellows, this is a military restricted area, please do not enter by mistake, please stay where you are, we will have someone to contact you soon, do not wander around , or you will bear the consequences!"

The drone kept broadcasting voices, and Li Erniu felt annoyed. If he really had a gun, he would have killed the machine long ago.

"I'll go, how did we find out!"

Wang Yanbing kicked his ass, "Are you a tiger? They use drones to patrol here, and they have thermal imaging sensors on them."

Chapter 1673: Control the entire power system

Qin Yuan smiled. It seems that these basic companies are now equipped with more and more complete equipment. In the previous training, he thought that these drones had not yet fully differentiated, and now they can be seen everywhere.

He stood up from the grass and patted the dust off his body, "Okay, brothers, it seems that a sneak attack is not possible. I originally wanted to catch them off guard, but I didn't expect us to be betrayed by high technology."

A few people could only wait in place, waiting for them to come to pick them up, and the speed on the other side was also very fast, after all, this was the result of their negligence.

Because they have already arranged feelings below, and there are still people patrolling non-stop, and they can still let people in under such circumstances, this is their major mistake.

The squad leader who led the team was furious. He looked at the people behind and shouted loudly: "What are you eating today? You know about this. If the company commander finds out, what will happen?"

"Squad leader, this matter is really strange. We didn't hear anything during our patrol."

"I still want to explain to myself now, don't you? Will your company commander explain it to you every day? This is the first time this has happened. You'd better pray that it's just fellow villagers. If it's someone else, then it's troublesome gone."

The squad leader's main concern is whether there will be other people. After all, many people in the vicinity of this forbidden military area know about it.

He was very worried that if the investigation team or something from above came to assess them specially, and if they were messed up like this, wouldn't this expose their weakness?

After all, which fellow villager would come to this mountain at night, so he was very anxious now, and kept urging the people behind to speed up.

On the other side, Li Erniu also asked the same question. In fact, they could have destroyed the drone just now and entered directly.

Qin Yuan is a master hacker. He can directly release the remote control of the drone above with computer control, and then input other commands to him.

"I said you are really stubborn. Think about where this place is. The leader of their 233rd regiment is a veteran general. Isn't it too high-profile to do this? And it's a little bit of a slap in the face. So impolite."

Li Erniu glanced at the side, "Brother Qin, you still have the nerve to talk about me, so who said just now that you want to hit the center of the family directly, and then solve them all like a goddess scattered flowers? Then give me more People are losing face."

"Hey, I think you kid is really getting better at fighting without me leading you by your side during this period, isn't it? Believe it or not, I will teach you to be a man again every minute?"

It is true that Qin Yuan has not conducted special training for them for a long time. In fact, Qin Yuan is very assured of their abilities, and now they have brought their own team members.

But thinking of the experience of being tortured before, Li Erniu quickly shut up.

At this moment, the members of the 233rd Regiment also ran over, and in an instant several beams of flashlights shone towards this side. When seeing the equipment Qin Yuan and the others were wearing, the squad leader felt a little bit in his heart. It was really him. Come whatever you say.

But he still had to follow the procedures. He walked up to give a military salute, and then asked to check the documents. After checking the documents, his mind went blank.

Although they were discovered in time by their own drones, they had already traveled such a long distance that they completely ignored their previous patrols.

After going back this time, they probably couldn't afford to walk around, but he managed to force a smile, looked at Qin Yuan in front of him and said:

"Sir, I don't know why you came here without saying hello, so we can go and receive you."

"It's all the same, don't mention any reception, this time I'm mainly here for the assessment and selection. You have passed the first level just now, but you still need to strengthen patrols. After all, if I want to use this drone, I still need to do it. It can be wiped out in minutes."

The squad leader's face was not very good-looking, he could only nod quickly to cater to the little soldier next to him, a little unhappy, this guy's tone was too loud, and he wanted to engage in drones.

"Sir, we really didn't have enough guards just now, but it's an exaggeration for you to say that you want to use this drone."

The squad leader next to him stared at the little soldier in fright. This is really a newborn calf not afraid of tigers. Does he know who Qin Yuan is? This drone was developed together with others before, can they not know?

"Shut up quickly, have you all forgotten what I said just now, when is it? You still have to do these things for me, and see if I don't take care of you when I go back."

"Squad leader, but what I said is clearly the truth. Maybe we also have some loopholes when patrolling. That is indeed our problem, but this is a technological weapon. They were obviously discovered, and they still don't admit it."

Qin Yuan smiled, these young people are really interesting now, the main reason is that these years he has basically focused on training, unlike before, all kinds of tasks are followed, and he has played out all at once. He has a lot of fame, so these newcomers don't know him very well.

The squad leader's face turned red. This time he was really hurt by his teammate Pig. This guy is usually very clever, so why can't he turn the corner today!

Just when he was about to scold him, Qin Yuan stretched out his hand to stop him, and then looked at the little soldier with a smile, "Little comrade, since you have questions, of course I will solve

them for you. Originally, I wanted to I want to give you a face, and make these things too clear, and you will definitely not be able to hold your face."

The little soldier was even more unconvinced when he heard this. It can be said that their patrols are not good, but this is a technological weapon. He has never thought that technological weapons can be solved, so he is very confident in his heart.

Hearing Qin Yuan's arrogant words, he felt that this person was just bragging. He glanced at the red blood cell team opposite him. The equipment on these people was several times stronger than theirs.

It still looks very majestic, this is the special warfare team, it is really unusual, but well, this tone is a bit too disrespectful, to be able to say such arrogant words, in his opinion, it is somewhat ignorant.

However, in the next second, he was instantly slapped in the face by what he said just now. Qin Yuan also showed it to them, and this time he didn't just ask the squad leader to order two more drones to come over, not in a negotiating tone.

Under such circumstances, how dare the squad leader disobey. After all, what they said was really an order, so he could only pick up the walkie-talkie and let the headquarters send two more drones to fly over here.

As soon as Qin Yuan turned on the computer, He Chenguang came forward, "Captain, how can you let such a trivial matter get in the way? Just leave it to us, don't worry, just show it to the new comrade."

"Okay, pay attention to the impact, don't play too much."

Although this guy said this, he patted He Chenguang's shoulder with his hand, and he immediately understood that if he wanted to do it, he should make it bigger, so that these people can see what the real slap in the face is.

Just when everyone was wondering what they should do, and the two drones at work were circling overhead with red lights on them, purple could attack them at any time.

However, within a few minutes of He Chenguang's input into the computer, a drone on the left suddenly got out of control in mid-air, hovered, and turned its direction.

The one next to it was also out of control, and the two drones were about to collide. He Chenguang made a slight adjustment, and the computer just passed by like this, which surprised the people below. Gotta gasp.

The squad leader below is even sweating in his palms. You must know that these special technological equipment are all newly approved this year.

Their team leader is like a baby, if something goes wrong, no one will be able to eat it and walk around! They didn't know what was going on there, they suddenly lost control of the two drones, no matter how they moved, they just couldn't control them.

The drone that He Chenguang easily controlled landed directly in front of them, then turned around and aimed at the group of soldiers on the opposite side.

Everyone was even more surprised, they couldn't keep their mouths shut. This is too exaggerated. In just a few minutes, the control was lifted directly, and they turned their backs on customers.

This is not the most exciting thing. In the next second, the drone controlled by He Chenguang flew directly in the direction of the headquarters. Everyone has not realized what will happen. Is this just putting the drone back?

However, in the next second, there was a chaotic voice from the monitor's walkie-talkie.

"What's going on on your side! The drones here are out of control. After entering, our entire system has been completely paralyzed, unable to perform any control, and our power system has also been completely lost!"

Hearing the question from the person opposite, the squad leader was speechless for a moment. He didn't know how to explain it. This is the battle of science and technology. It really made them really show their eyes.

The incident not only alarmed them, even the head of the 233 regiment was alarmed. After all, the system at the headquarters was suddenly paralyzed. Remark pro?

Here, Qin Yuan has already set off towards the top of the mountain under the leadership of the squad leader. After the operation just now, the rest of the people didn't dare to say anything, and everyone looked at them with admiration.

This is a real war, and the tactics used are not the same as before. This is okay, and love can be manipulated at any time. Now it can paralyze their power, and it can immediately disintegrate their internal organs.

When a few people returned to the headquarters, they saw that the entire regiment had entered a state of first-level alert, several company commanders were at the door of the office, and the regiment leader lost his temper inside.

The squad leader hesitated for a long time, but still knocked on the door, only to hear a deep voice from inside, "Who! Get in!"

After all, they have been debugging inside for a long time, and they have not been able to solve the problem of power failure and intrusion. Now their entire office is in a state of darkness, and all the drones are hovering in mid-air, without any control at all.

They are now in a mess, and he saw that these high-achieving students transferred from above were helpless about this matter. It has been 20 minutes since a group of power was paralyzed, and the outside world could not be contacted at all. What does this mean?

So now their group leader is very irritable inside. At this time, Qin Yuan walked in. Yang Mingyi, the group leader of the 233 regiment, just took a look. Just in time for their chaos.

I could only quickly call the secretary, and then forced a smile on my face, "Captain Qin, you guys are here at the wrong time. We are doing electrical maintenance here, and it has worked for you. I will make arrangements first to let you stay overnight. Don't worry, we can solve the problem quickly."

Yang Mingyi is upset now, and it is true that all embarrassing things have to be collided together, and this mess becomes a pot of porridge, let others see this scene.

Unexpectedly, Qin Yuan just said: "Teacher Yang, to be honest, we are responsible for your current situation, but please don't mind, this is just an assessment, and it was your video just now. I have doubts, so We just explained it."

Hearing this, Yang Mingyi turned his head to look at him in surprise, "Hey, what's going on? But you just came here, why did you suddenly control our power system?"

The squad leader next to him could only tell what happened just now, only to see that Yang Mingyi's face was a little uneasy. This is really a big joke. Against the generals.

At this time, Qin Yuan also pretended to be angry, and then yelled at He Chenguang: "You bastard, what I said just now was just to show off to our brother Zhanyou, what are you doing? Hurry up Yes!"

The two sang together, He Chenguang took out the computer and quickly started to operate it, while the high-achieving students from the 233 regiment were staring at each other. They had never seen such a complicated operation before, and all of them were densely packed with data.

This is simply too exaggerated. It took them 20 minutes to solve the problem, but they did not expect it to be solved in two minutes. Soon the power system was restored, and the entire office was lit up.

At this time, the little soldiers outside also ran in excitedly. "Report to the head! The drones outside have all landed, and they are all on the playground."

"Okay! Got it!"

He could see that the leader's face was not very good, and he hurried out after the report. At this time, Qin Yuan also took the opportunity to criticize He Chenguang.

"You don't even wink at all, you bastard. I'll let you demonstrate. You play so much for me. See how much trouble you have caused to others!"

Chapter 1674: unique selection

He Chenguang understood what Qin Yuan meant by this, and originally wanted to record a song for them. After all, the head of the Sansan Regiment is not an easy character to provoke. It is estimated that there will be some problems in the later selection, so Qin Yuan wanted to buy it. A dismount.

He quickly cooperated and said: "It was my mistake to report to the captain. I didn't understand what you meant just now. I am willing to be punished."

"Even if you have self-knowledge, don't you see that this is destroying our relationship? When you come to other people's territory, you are here to be selected. Look at what you are doing? Now get out of here and run 20 kilometers , and the rest of you, don't be idle, all of you will be punished!"

"Yes!"

Yang Mingyi, the head of the 233 regiment, was shocked by his operation. This random penalty is 20 kilometers, which is a bit too exaggerated, so he quickly stretched out his hand to stop it.

"Captain Qin, don't worry, I didn't mean that. I got angry just now because I didn't understand the situation. After all, you just came here and saw us in such a mess. It would be embarrassing to speak out."

"Oh, Captain Yang was originally to blame for this incident. I didn't teach good people. Look at them, it's okay. These boys are just tough, so give them a good training."

Yang Mingyi didn't want to say anything more, but it sounded a little too exaggerated, and those soldiers ran out without any hesitation, and then started running around their playground.

He also admired it in his heart. He had seen Ruan Yuan before. To be honest, he was very pleased with Qin Yuan's arrival. He was indeed a little angry at that moment, and Ruan Yuan directly paralyzed his system without saying a word. , this is indeed a bit of a slap in the face.

But if you think about it, it's your own problem. If they have strong capabilities and all the precautions are sufficient, they won't be able to find loopholes.

Besides, Qin Yuan had already punished his own people, so what else could he say, he could only smile, and then called Qin Juan to another office.

They started to discuss the specific issues of this selection, and on the other side, the whole regiment of the 233 regiment had already caused an uproar.

We all know that the special warfare team that came to be selected actually paralyzed their entire regiment's system in a short period of time, and was able to override the drone, and it was directly infiltrated, which made everyone very admirable.

The company commanders who were standing at the door just now happened to see their commanders coming out with their lovers, so they quickly stood up straight.

"Okay, you guys don't stick around at the door, come in, discuss it carefully, listen to what they say, how to select us and cooperate fully."

With Qin Yuan's previous operations, Yang Mingyi also planned to no longer care about the selection. How to choose, let this person do it. He will not interfere too much. It is of course a good thing to be selected.

Qin Yuan was also very simple, asking everyone to briefly talk about the situation of several companies, and then asked for their distribution list, mainly to look at the configuration of each company.

This 233 regiment is really unusual. It is worthy of being an old team before. They are now fully using the new weapons, various technological weapons, and the integration of new weapons is indeed a bit different. ...

Qin Yuan looked at it and nodded. This is much better than the previous Red Three Regiments, and there is not much difference in strength between them, and there will not be a big gap like the previous Red Three Regiments.

So this kind of selection can't follow the previous method, and you have to choose another method.

After understanding the general situation, Qin Yuan put away the specific situation they submitted, "Okay everyone, it's already very late tonight, and I'm really sorry for causing so much trouble to everyone. I already understand, I will make a selection plan as soon as possible, and then inform everyone."

Everyone should be okay after hearing this, and just wait for the announcement to see what selections can be made.

Yang Mingyi was actually guilty of Digu in his heart. Could this person be so casual and not go to see the strength of his own regiment in person, but just listen to their dictation and start making plans?

At this time, an idea suddenly popped up in his mind, maybe it was the kind of temptation just now that made people feel that their regiment had no strength at all, after all, their military system was paralyzed in just a few minutes.

He sighed silently, and after Qingyuan left, he came to the previous office again, watching those talented students tinkering with computers.

"It's really not me talking about you, you see for yourself the extent of the embarrassment and embarrassment this time. They probably have looked down on our whole group! I don't want this to happen again next time."

"Reporting head, don't worry, we have found the problem today, allowing them to directly invade our system. Now that we have strengthened it, the same situation should not happen again."

"I hope so. Don't embarrass me anymore. Let's all have some fun."

After he finished speaking, he left. When he walked to the corridor, he saw Qin Yuan's team members were still running on the playground, and their range was getting wider and wider, not limited to the playground, they had already run to other positions in their regiment.

The secretary next to Yang Mingyi smiled, "You can see that the special forces are different, and they are really different. Isn't this just stealing and cheating? If they run around the playground, everyone will know that they are running How much, and now they run around our entire regiment, who knows how much, they must be lazy."

Hearing this, he couldn't help laughing, but he couldn't laugh the next second, because he saw that the running directions of those players could be arranged, they were not only running alone, but also kept looking around .

It's not because they want to be lazy, they started to look at the layout of their whole group by running, he couldn't help but gasp, Qin Yuan is really not simple, the people he brought out are not easy to mess with what.

On the other side, Qin Yuan and the others had already arranged their accommodation. After more than an hour, Second Uncle Li and the others came back. They first reported the specific configuration of the 233rd Regiment, as well as the configuration of their camp, training ground, and arsenal. are fully understood.

"Brother Qin, they really treat them a little bit special here. Their weapons and ammunition depots are a bit special. Three groups of people were assigned to guard them. We didn't go up to check, after all, it might be too abrupt for us to go up. "...

Qin Yuan nodded in satisfaction, and everyone reported other situations separately, mainly to understand the views of each company during the run.

The strength difference between the companies of the 233 regiment is not very big, so the companies are very unconvinced, and they did not say which company is the strongest. the strongest.

This statement is similar to the information collected by Qin Yuan. At present, the weapon configuration of the third company is very good, all of which are technological. Take the drones this time as an example, their company has the most.

Now their motorized companies have also begun to add small drones, which have indeed strengthened them a lot. In addition to those tanks and chariots, the addition of these things has given him a very good fight. cover.

Qin Yuan began to watch. He was planning the selection plan for this time in his mind. Several people also packed up and prepared to rest. At this time, Wang Yanbing came up.

"Look at what we did today. It's really good. They are somewhat unconvinced by us. After all, we heard a lot of gossip when we were running."

"Understandable. After all, it's an old-fashioned army. They are somewhat arrogant, and they can receive so much attention. Their weapons and ammunition are much stronger than the previous Red Three Regiments."

"No matter how strong, these weapons, Brother Qin, I remember that most of them were modified by you before!"

Qin Yuan smiled when he heard this, so he knew what the weakness was, and he was able to infiltrate directly, especially the drone, but he didn't know if others had this ability.

After all, he is the maker, and he can accurately know the specific weakness, but it is impossible to truly break through this weakness.

At that time, he was working on firearms research, where he also provided them with some solutions. This drone was one of the templates, and it was also proposed by the system at that time.

After a while, Qin Yuan drew up a specific plan. He divided all the members of the red blood cell team. Since they have these technological weapons and are more dependent on them, let's see who is stronger this time.

Everyone nodded their heads when they saw his plan. This was commonplace for them, and there was nothing unusual about it.

When Qin Yuan submitted the selection plan he had developed the next morning, Yang Mingyi couldn't believe it.

In his opinion, isn't this just nonsense? What time is it playing peek-a-boo, but seeing Qin Yuan's serious face, he wondered what the \*\*\*\* this guy was up to.

Qin Yuan's selection plan is to conduct training and selection from their company from the first company to the back. The good condition is that they enter the high ground behind and then find out their special forces members.

This time their special forces team members are acting as armed criminals, so they can also fight back. Qin Yuan's request is very clear. As long as the three members of their red blood cell team can be caught, then half of the team members will be killed. You can directly pass the selection.

This time Qin Yuan is also involved. If Qin Yuan can be caught, he will be selected directly. That's why Yang Mingyi is so surprised. What kind of play is this guy playing? It's just a joke. A company of people caught them Isn't it simple? ...

"Captain Qin, you're not joking with me, are you? You are so scattered in that highland, as long as you stay out of range, we will definitely be able to catch you."

"Captain Yang, I made it very clear. All my requirements are on this, but there is a time limit. They only have three days. If they can't catch them in three days, they will be automatically eliminated and another company will be allowed to enter. "

Yang Mingyi couldn't help laughing out loud when he heard this, it was simply too funny, how much he looked down on his side.

"Captain Qin, you have to be responsible for what you say. If all my people are promoted, you can't bring them all up, can you?"

"Regimental Leader Yang sees what you said. If I dare to say this, I dare to be sure. As long as you really have the ability to advance, I can of course respond to the above and take your people directly."

"Okay, then I want to see what it is like and when it will be selected. Tell me."

"After all, I have relatively few people, so it can be regarded as giving you some time to prepare. Let everyone prepare for two or three days first, and start the day after tomorrow."

Yang Mingyi almost crushed the table below. This kid's words are too arrogant. Why do they have few people? Although he knows that this guy is capable, but this is considered too contemptuous.

He didn't pay attention to them at all. If that's the case, then he should teach this kid how to behave and let him learn to keep a low profile.

After Qin Yuan left, the secretary next to him couldn't stand listening anymore, "Their special warfare team has always been so arrogant, and it was the same when they came to our side for selection before. They always seem to be superior."

"Let's do whatever he wants, I've heard of his reputation before, so let's take a look, let a few company commanders call for a meeting, I have to explain it to them, don't embarrass me, everyone has said such things !"

The secretary nodded and hurried down to inform the meeting. Soon several company commanders were waiting in the conference room. After Yang Mingyi came to the conference room, he threw out the plan that Qin Yuan said.

Everyone couldn't help laughing when they saw this, this guy is too confident in himself, and this kind of arrogant didn't take them seriously at all.

"It's really interesting. If you catch him, you can advance directly. I think he is talking big."

"Don't forget, people said, he will resist, so don't embarrass me, try to catch him, didn't he say that there are as many people as possible? I hope that the whole group will advance."

Everyone is very confident about this, because they not only have an advantage in numbers, but also have a lot of technological weapons. This is not a problem for them at all. Now when thermal imaging appears, it is fake wherever they hide.

Everyone treated this selection as a joke, and felt that Qin Yuan was deliberately humiliating them.

And Qin Yuan has come to the opposite highland. Although it is a highland, it is actually a dense jungle. Overall, it is relatively large, and from a few positions on the side, you can see the large area left by their previous training. pit.

"Don't lose them to me when the time comes, and disperse them all. If anyone is caught, then go back and wash everyone's socks for a month."

Chapter 1675: crazy rules

Everyone looked at each other and smiled when they heard this, Li Erniu was even more confident, and patted Qin Zhengyang on the shoulder directly, "Zhengyang, you came late, so you haven't played this kind of game before, it seems that we You have contracted all the socks for the next month."

"Brother Er Niu, you can't look down on people. Although I was the last one to come, I don't think I will be caught."

This kid is quite confident. The few people in the cafeteria did not shy away and started to discuss. After all, after eating, they planned to go to the back mountain to investigate, specifically to see how to hide and how to fight back. You know what Qin Yuan said, they can fight back.

The people from the 233 regiment were even more unconvinced when they heard their unabashed discussion.

Couldn't their whole regiment take down a few of them? It's a joke just to say it, although their special operations team is also very powerful, but the tone of it is too arrogant.

Anyway, they are also a veteran team. Besides, if they can't even find anyone for a long time, what kind of soldiers are they? Let's just retire from the army.

Everyone is secretly competing in their hearts, and they can't wait for the day of the assessment. They have to show it well, so that these arrogant human beings can shut up.

Qin Zhengyang took a bite of the steamed stuffed bun, then looked at the people around him, and there was something wrong with their eyes, "Brother Qin, it seems that we may be talking too much, you see if they don't like it."

"I don't care if they like it or not. Besides, I've already given face to face. I mean if someone of us is caught, don't let us take it all at once. That's the most embarrassing thing."

Since he laughed out loud after he finished speaking, he would rather think that he definitely has such strength on his side, and after finishing speaking, everyone left directly after eating.

The squad leader next to them kept staring at them to leave, and then complained, "It is said that their special operations team is arrogant, today I have seen it, I just came here before, and gave us a blow, and now I have done something like this. "

"Squad leader, don't worry, let alone find them, I really want to deal with them severely, let them know how powerful our regiment is, and our three companies are not joking."

"As long as they are so arrogant, I want to see how long they can laugh!"

The cafeteria was still discussing with them, and Qin Yuan had already brought the team members to the jungle behind.

This time, it can be said that it is an assessment of them and another assessment for everyone. He pointed to the surrounding directions and let everyone disperse. Of course, depending on their situation, they can also form a team together.

He must be alone, and he not only wants to be alone, but also takes these guys and surrounds them completely in his circle.

"But let me tell you first. When the time comes, be merciful. Don't fight too exaggeratedly. If you eliminate too many people, you won't be able to show your face. After all, it is an old-fashioned army."

"That's not a problem, but it depends on the situation. In case people are so unconvinced, we don't clean up properly. We really treat us as sick cats."...

This sentence is so willing that I don't deny it. Anyway, it depends on the situation later. He is not afraid of other things. Let everyone be prepared. The only thing is that there is basically no problem after walking around this terrain.

According to their speed, it will take about five hours to complete this mountain, but this is because they are relatively small. If it is a company, the time will be shorter, only two Three hours.

The reason why Qin Yuan booked for three days was because they still had a confrontation. He wanted to see how strong these people were. After the terrain investigation was almost done, everyone went back.

The company is the first to search for them. They have started training on the mountain these days. Although it is not the same mountain, they have added training items.

In any case, they will not take it lightly, and they will also train for the training items. On the contrary, Qin Yuan's team members are still on their lunch break. They have already trained all afternoon, and they slept until 3 o'clock during their lunch break. .

After I got up, I came to the playground for a run, and claimed that it was because I slept for too long, so my waist hurt too much, so I just needed to do some exercise.

Everyone just stared at them indifferently, looking forward to this competition, and hoped that such an assessment would come sooner.

In this way, the agreed time came. Originally, Yang Mingyi thought that Qin Yuan and the others should enter the mountain ahead of time, because once the company searched, they would be very fast. They only entered now, and there was simply not enough time.

I only saw Qin Yuan standing calmly beside him with his team, and Li Erniu was still eating two buns. After all, it was not time to formally stand in line, and their company was also gathering, so it's okay now. There are other activities.

Yang Mingyi came over, looked at Qin Yuan and said, "Captain Qin, in fact, if you can, it's time for you to leave, it's already past 7 o'clock, you should go in two hours earlier, the last two. Go in in an hour."

"Don't be so troublesome. The waiting time is too long. It's only half an hour. My people are still eating breakfast. After they finish eating, they will go in. Your people will come in half an hour later."

What Qin Yuan said was so casual, Yang Mingyi couldn't help but look down on his soldiers like that? Alright, he wants to show this kid what an ace unit is.

They stretched after eating, and then they were ready to set off. When they set off, Qin Yuan waved his hand and said good luck to everyone!

Yilian has been impatient for a long time, and everyone is betting in private, "Company commander, which one of our squads do you think will catch them first."

"I don't care which class of yours catches them first, but as long as they are caught first, whichever class you go back to will be the outstanding class next week! The mobile red flag will hang for three months."

Good guy, this is a rare honor. Everyone worked hard to watch the time pass by under such stimulation. Half an hour later, Yang Mingyi looked at the stopwatch himself, and then shot towards the sky. flare gun.

This is also a reminder to Qin Yuan and the others, indicating that the time has come and his team is about to come in. Lian has not used technological weapons here yet, so they feel that we can talk about it first, or else they will use technological weapons as soon as they come. People think they are too dependent. ...

So everyone started to look for it. Qin Yuan and the others were completely dispersed, basically leaving no traces. Shallow, almost invisible to the back.

After Lianchang came in, he felt that something was wrong with this situation. How could this not leave footprints, and did they all walk from trees?

But fortunately, there is no need to worry about the large number of them. They let everyone scatter and start searching, without letting go of any bushes.

But right in front of him at this moment, Li Erniu took out two ham sausages from somewhere, and threw one to Wang Yanbing, "Come on, come on, eat something first, you can fight after you are full, besides, Brother Qin What you said is to leave some clues for them, or what if they can't find it?"

Wang Yanbing smiled knowingly, and the two of them sat under the tree and ate the ham sausage. After eating, they deliberately left the packaging of the ham sausage in an obvious place.

At this time, the company commander couldn't help but feel a little irritated. His speed is relatively fast, but these guys are too exaggerated. Not only have they not heard any movement, they have already passed half an hour. can not see.

At this time, a soldier in front ran over and reported that he saw the package of ham sausage.

This undoubtedly ignited everyone's confidence. These guys are too careless, so he just said, how can people not show their feet, and finally let him find a clue, then chase in this direction.

The first company commander rushed up with the people from the second and third squads, and the others began to look around.

Just as they were rushing in the direction of the packing bag, Li Erniu and the others had already ambushed at that position and shot directly at the soldiers in front.

He and Wang Yanbing cooperated very closely. The two shot in different directions, and quickly changed positions after firing.

The soldiers in front had been searching all the time, and they didn't even notice that they were about to be attacked suddenly. White smoke rose from their bodies in an instant, and they eliminated a few people in a short time.

The company commander frowned and quickly hid behind the tree. It would be embarrassing if he was eliminated. The two people on the opposite side were also very fast. They kept changing positions, and the soldiers on their side also hurriedly made moves. fight back.

But after fighting for a long time, there was no movement on the other side. At this time, he waved his hand and asked the people below to go up and check. After passing by, there was nothing but some footprints.

They fought here for a long time, but they didn't hit anything, and they lost eight soldiers on their side.

Yang Mingyi, who was outside at the moment, was also very anxious when he heard the gunshots. He didn't know what the situation was like, but the spectators outside had already started cheering. They thought there should be no problem. It also has an advantage.

However, after a few minutes, I saw several soldiers from a company come out dejectedly, the smoke on their bodies was not exhausted.

Seeing this scene, Yang Mingyi was so angry that he stepped forward and asked what was going on, why didn't he see the person eliminated by the other party? ...

"Reporting to the head, we really don't know what's going on, the opponent didn't even hit our side before we were eliminated."

"A bunch of trash!"

Yang Mingyi was really angry. He originally wanted to show others off, but he lost at the beginning, so he picked up the walkie-talkie and contacted the company commander.

"I can tell you, I will take care of you kid, and if something goes wrong, you, the company commander, don't do it."

The first company commander knew that the regiment leader was really angry, and they eliminated eight soldiers from the very beginning, which didn't look good to anyone.

However, another row of bullets hit him in the next second. Fortunately, he dodged in time. What's the situation? They are too courageous, they even dare to run over to fight back.

He was almost eliminated, so he quickly put down the walkie-talkie, and then directed the second squad to start rearranging the formation.

Listening to the gunshots coming from the walkie-talkie, Yang Mingyi frowned. He was also extremely anxious now.

After another half an hour, I saw soldiers coming out one after another. They were all eliminated soldiers. If this continues, more than half of them will be eliminated. It's embarrassing to say it.

In the end, the company commander had no choice. Their speed was too fast. Every time they wanted to counterattack, it seemed that they couldn't reach it at all. In the end, they could only apply for drones to carry out investigations.

At this moment, He Chenguang, who was on the other side, saw that the drone on the top had locked him, just smiled knowingly, and then dodged with a roll.

The first company commander looked at the direction of the drone, and his heart was full of joy. This time, he finally caught one, and now that there are so many of them, they are completely surrounded. Don't dare to move, just under the big tree in front of you.

He shouted loudly at the opposite side: "Brother, don't resist. You have eliminated so many of us. Now it's time for us to fight back. It's meaningless."

While talking, he waved his hand to make the rest of the soldiers start to approach there, but when they approached, they found that there was no one below, and the soldiers felt a little strange.

Moreover, the thermal imaging of the drone showed that it was always there, so why did the people disappear out of thin air, but they couldn't laugh the next second, only to see He Chenguang directly throwing two smoke bombs downward.

At this time, gunshots also came from the periphery. They were directly covering He Chenguang. Under the smoke, there is no way for the drone to lock on.

The company commander secretly cursed, the speed and reaction of these guys are really too fast, he didn't even react to so many people, but at least he saw hope.

At least the drone can be locked. It is daytime now. If it is night, the advantage of the drone will be even greater. After thinking about it, the company commander can only let everyone retreat first. If this continues, the number of people eliminated will only increase. more and more.

And Yang Mingyi's expression outside was very bad all the time, because a series of people were constantly eliminated, but Qin Yuan didn't receive any news.

There was no gunfire from the back. The first company commander seemed to have slowed down. He was also very worried about being eliminated again, so he could only lead the team forward slowly to make everyone more vigilant.

He now has his own plan, waits for the opportunity, and sends the drone after dark.

Chapter 1676: Eliminate 1 company commander

Yang Mingyi was in a hurry outside, he took out the walkie-talkie many times to urge the first company commander to speed up, it's best not to embarrass himself.

But the first company commander said that he had his own arrangements, and Yang Mingyi was so angry that he almost dropped the walkie-talkie. This guy made such a big joke at the beginning. Everyone saw that the whole regiment was here. Isn't this a direct slap in the face? ?

At this moment, suddenly a figure ran out from the inside. Yang Mingyi took a closer look, and his face burst into tears. Isn't this Li Erniu in their red blood cell team finally seeing hope? Does this mean that one of them has been eliminated? ?

The people next to him started cheering. No matter what, although the harvest received this time was relatively small, it was better to have one than to have none, and it was only the first day. What Qin Yuan said was Give it three days.

The company commanders who stood by and watched the excitement also breathed a sigh of relief. Anyway, at least there was a little gain, so that their commanders would not be so angry.

However, everyone saw the problem in the next second, because Li Erniu didn't have any white smoke on his body, and he showed everyone his equipment.

Isn't this a blatant provocation? Didn't they say they surrounded the entire area in Yilian, but now people just ran out of their encirclement, this is completely funny.

Li Erniu ran out, Yang Mingyi's expression was very bad, but he still stepped forward bravely.

"What are you doing? Did you run out suddenly to say something?"

"That's right, Commander Yang, our captain said that those soldiers who came out just now were eliminated by us. That can be regarded as our welfare. He asked to count the number first to see how many there are. We also have a number in our hearts." .”

Saying this is really a direct slap in the face, really insulting, and let them count the number of eliminated by themselves.

The secretary was also very unconvinced, but there was no way, what he said was the truth, just now their regiment leader fired a fire, causing all the soldiers who just ran out to roll to the back.

Their group leader said that they were annoyed when they saw these people, and now, according to Li Erniu, they still need to make statistics before making plans for the next step.

Yang Mingyi didn't have any expression on his face. He was really angry in his heart now. This guy was too shameless. He played such a big game as soon as he came here. What's more, his own people didn't live up to expectations.

He could only wave his hand impatiently, "They are all behind, if you want to count, do it yourself, this matter is not in our control, you can do it yourself."

You Erniu knew where he was angry. This was completely insulting them, and he didn't care too much. Just when he was about to run over, he suddenly turned his head and looked at them and said:

"By the way, everyone still hopes that you abide by the rules and don't warn the people inside. After all, I ran out by my own ability. I hope everyone is fair and just."

Yang Mingyi clenched his fists, and said coldly, "My 233 regiment won't do such nasty things, what should I do? Do it yourself."

Only then did Li Erniu run over, and he began to count carefully, because Qin Yuan had explained that if half of the people eliminated, they would start to stop, no longer eliminate them, but to dodge. host.

...

Too many eliminations, for them, it would make the other party feel uncomfortable, which is not good, so now he took the risk to run out.

He roughly counted, and now there are more than 70 people who have been eliminated. This situation is still early, which means that they can play freely in it, and we will eliminate half of the number first.

Li Erniu smiled, then turned his head and waved again, and ran in like that, Yang Ming threw all the cups on the table in a righteous manner.

"What the \*\*\*\* did this kid do? Have you seen it? Letting people come and go freely, this is a complete joke. Fortunately, it is our own team. If it is really put on the international stage, isn't it embarrassing? ?"

Everyone watched their regiment commander get so angry, no one dared to say anything, they all stood quietly by the side, Yang Mingyi turned his head to look at the several company commanders who were still watching and bullied the freshman Come out and make them stop standing here.

"Why do you think it's fun to stand here, why don't you hurry up to train me? Wait for the next few of you to connect up, if you make such a shameful thing for me again, don't be any of these company commanders."

Everyone, if you dare to say anything, you can only take your respective companies down for training. The pressure here can be said to be very high.

The third company commander and the others retreated silently in the car, and the squad leader next to him was also very curious.

"Company commander, it stands to reason that even their strength is not bad, how could it become like this?"

"Don't you see it yet? It's not a matter of strength at all. It's because they are too strong. It's not because our strength is too weak. They just treat us like monkeys."

"Ah, is their special team really that strong? You know, we have a company of troops. Will there be any problems with this tactic of a company commander?"

"I'm not sure about this one. I can only go back and train hard. I don't care what the other companies are doing, but when our company is on the team, give me a good performance."

At this time, the fifth company commander's car also quickly caught up, "Hey, I said, Lao Li, you are going too fast. I wanted to say a few words to you just now, but the person turned around and disappeared. "

"What's the matter? You haven't seen our leader's eyes are going to eat people. If you don't run quickly, will there be any good fruit to eat?"

"That's true, but I just wanted to ask you what you think about this matter? Your brain is quicker, what do you think is the problem?"

"Brother, it's not that I'm belittling ourselves. I only have one suggestion for everyone to go back and train hard. Although it's only a few days, it's better to strengthen it. Don't make any problems at that time. It's really embarrassing."

After the third company commander finished speaking, he waved his hand and left, leaving the fifth company commander behind, feeling a little curious. This is not the style of their third company commander. Pay attention to.

Unexpectedly, even this guy started to pay attention now, and the others didn't dare to relax, so he hurriedly led the team to the training ground.

On the other side of the jungle, there were still more soldiers to be eliminated. Yang Mingyi had no hope now. He didn't hope to catch anyone, but he just hoped that he wouldn't be too embarrassing.

...

In the end, even their best three squad leader has been eliminated. This person even Yang Mingyi is very impressive. He even won the championship of the whole team in the martial arts competition before. This squad leader is very good. How could this happen? ?

He hurried forward to ask what was going on inside, why there were eliminations one after another, and he could hear the gunshots, but why couldn't he even hit the opponent?

"Head, we don't know what's going on. Their speed is too fast, and their cooperation is very close. We don't have time to react. They feel like they are elusive."

"Okay, okay, get out of here quickly, you're still haunted, everyone is human, what they hold is a gun, and what you hold is a firestick."

The third squad leader is full of grievances now. What can he say? Even he doesn't know how he was eliminated. His evasion skills are usually very high, but they are useless in front of these special forces.

This kind of elimination continued until dark. The company commander watched the sky slowly darken. Finally, when it was time for him to fight back, he directly dispatched the drone. Now this kind of locking should be no problem, right? The figure of the man-machine is also better hidden.

At this time, Qin Yuan stretched himself on a big tree, and slowly jumped down. He slept really comfortably this afternoon, and gunshots could be heard everywhere. It seems that those boys are doing well. .

He found He Chenguang first, and he still felt that there was nothing wrong with what he was hiding, so how could he be found? Here he watched a company of soldiers walk past him without noticing.

"Brother Qin, I'm just curious, how did you find me? I'm hiding well enough, right?"

He Chenguang smiled wryly when he said this, he seemed to have never really hidden in front of Qin Yuan, "Come on, I taught you the level of hiding before you kid, of course I know where to find the loophole, but you now This is already very good, tell me about the situation in the afternoon."

He Chenguang didn't say any more, and quickly reported the current situation. They have basically eliminated half of the people, so they didn't take any action after dark, just kept hiding.

"Okay, do things according to the previous plan, now find a place to sleep well, whether you can sleep depends on your own ability, whether you can hide well."

He Chenguang expressed his understanding. When he turned his head, he realized that Qin Yuan had disappeared. The speed was too fast.

And the progress of the company commander is also very slow, because with previous experience, now they dare not rush forward with the drone, even if they are locked by the drone.

They are also very cautious, just like this, when they approached, they found that the person had already run away, and the drone could only continue to track from behind, and the drone also needed someone to control it.

At this moment, several soldiers were sitting around under a big tree. They used computers for remote control, and began to search for the area ahead according to the instructions of the company commander.

At the beginning, the first company commander got a few accurate targets, and followed the drones to keep moving forward, but soon something went wrong.

...

Even according to the instructions of the drone, he was still able to catch up with Li Erniu and the others, but in the end it was completely in vain, so he felt a little strange, so he could only hold the walkie-talkie and ask where the drone was controlled. what happened.

"What the \*\*\*\* are you doing over there? Why is this filming slow? By the time we arrived, no one was there, but the drone was still searching on it. There was nothing there."

But after calling for a long time, there was no response from the other side, but the drone was still hovering above their heads. He cursed secretly, not knowing what was going on.

At this time, the squad leader next to him realized that something might be wrong, "Company commander, this situation is too wrong, could it be that there is something wrong with our control side?"

It took the company commander to react after saying this. He hurriedly sent only one squad to check the situation, and after a while, the squad came to say that their control system had been damaged.

"Company commander, what should we do now? We don't know how to control the system at all, and the people who control it over there have been eliminated."

The company commander frowned, isn't this just cutting off his way? Now that there is no drone search in the middle of the night, they still want to find these people, which is simply a dream, and these guys are not good at it, and their counterattack is very strong.

He also wore a signal jammer before, because he was worried that Qin Yuan and the others would hack the drone.

I didn't expect that they didn't use the previous technology at all. Instead, they used the most direct one, directly controlling the pilots on their side, and then controlling the drone, making them completely lose their eyesight.

Speaking of this, Lian sighed for a long time. There is no other way now, but to cross the river by feeling the stones and let everyone be careful.

A search like this during the night was of no use at all, and the rest of them were so exhausted that by daylight they had found nothing.

And Li Erniu and the others had already rested for the whole night, and this kind of jungle was simply their territory. Before, Qin Yuan just threw them in the primitive jungle for three months in order to train them, and that was fine.

I didn't dare to take a group photo for a long night, because I could hear gunshots from time to time, and I was making preparations at any time, and it was only a few minutes before dawn.

But this situation is not enough Today is another day, he has to speed up, at least he has to catch someone first, otherwise it will be too embarrassing.

However, at this moment, a black figure appeared in front of them, and the squad leader next to them yelled, and directly blocked in front of their company commander, and then white smoke rose from that squad leader.

"At nine o'clock, hurry up and fight back!"

These guys are really elusive, and they ran away with one shot, which made them exhausted physically and mentally. When they chased again, they came out from behind to attack them again.

He was almost eliminated just now. Just when everyone breathed a sigh of relief, Qin Yuan suddenly appeared out of nowhere. The company commander just picked up the water bottle and was about to take a sip of water when he heard a gunshot. When he lowered his head, he saw white smoke rising from his body.

Seeing this scene, the first company commander fell to his knees and wasted so long, but he didn't expect the result to be like this. It was a big joke. After a day and a night, he was eliminated.

Chapter 1677: secret weapon

This was a result he never expected. The worst result he expected was that none of them caught them. He didn't expect that he would be eliminated now.

He saw the white smoke rising from his body, and a soldier next to him ran over and threw himself on him, asking him what to do?

"Company commander, what should we do now? How should we attack?"

Before he could speak, Qin Yuan on the opposite side said, "You have to abide by the rules, first company commander, you are a dead man now."

The first company commander is also considered to have a backbone. He knew that he could not break the rules. He gritted his teeth and said nothing. Seeing this, the soldier next to him raised his gun and shot at the place where Qin Yuan was talking. White smoke also rose, and was soon eliminated.

When Yang Mingyi outside saw that the first company commander was eliminated and the first company commander came out in frustration, he felt that the first company was unreliable, and even the company commander was shot to death by others, so what is there to do in the future? The result is obvious.

When the first company commander came out, he only saw the people from the regiment headquarters. He was secretly relieved. Fortunately, the other company commanders were not there, otherwise it would be really embarrassing to see him in such a mess.

But at the same time, he also saw the disappointed expression on their leader's face, he shook his head, there was really no way, Yang Mingyi came over and questioned him, what's going on?

"Being a company commander for so many years, you have also studied before. I just want to know what's going on? Are they really so strong?"

"Head, I have let you down this time, but I really don't know how to explain it. I can only say that we are not capable enough."

"Hehe, if you know that you are not capable enough, then go down and practice for me!"

It doesn't matter what the result is later, it just depends on Qin Yuan's personal wishes now, if he really wants to be eliminated, the entire company can be eliminated by him, these people can't find them at all.

This result also became meaningless, Yang Mingyi fired a flare gun outside, wanting to end this meaningless competition early.

There were still a small number of soldiers left in the company. Although they were a little unconvinced, they had no choice but to disobey the order of the regimental commander, so they could only walk out in dismay.

Seeing their company commander being taught like a dog by the side, it is conceivable how angry the regiment leader was. After all, they have been made like this since they came here, and they haven't made any achievements in a row.

A squad leader stepped forward and felt aggrieved. Although he saw Yang Mingyi getting angry, he still couldn't help but said, "If you let us persist for another two days, regiment leader, there should be no problem. We should be able to survive for three days." , at least one person was caught."

Yang Mingyi snorted coldly. This guy doesn't even know how much he weighs. Before, they couldn't catch him with a whole company, but now there are only two soldiers who can't reach him. dreaming?

Since it was too ugly to be beaten in the end, it would be better to end this meaningless fight early. Now that the result of the game is obvious, those things are unnecessary.

Yang Mingyi didn't speak, but just waved his hand, telling the people in front to call again, and let Qin Yuan and the others come out. Now this competition is over.

At this time, a company of people went outside to face each other, and only then did they see the people who had been fighting with them. They all had branches hanging on them, and the bunkers made of various leaves were very good.

In fact, everyone was still a little unconvinced, and couldn't figure out why so many people couldn't find them. At this moment, the first company commander suddenly thought of something, but he didn't dare, so he could only say a few words to the squad leader next to him. .

The question he thought of was why they couldn't be found all the time. Could it be that they cheated and crossed the border directly to another mountain range, because it was agreed that they could not escape from this mountain range.

But on the first day, they had already launched a general search, and basically found that area, but they were not found. They were followed by drones, and their figures were captured with the assistance of thermal imaging. .

So this also made the first company commander feel strange. Except for this possibility, he really couldn't think of it. No matter what, although they were a mobile regiment, they were an excited reconnaissance regiment before. As a qualified scout, they couldn't even find someone Come on, isn't this just fooling around?

He hesitated to speak, but Yang Mingyi next to him was a little impatient seeing his expression, when did this guy become so sissy.

"If you have anything to say, let it go quickly, and don't make some moths for me down there."

"Reporting to the head, I find it strange why we can't find them. I wonder if they have crossed the line, out of that line."

He Chenguang burst into laughter when he heard this, "Commander, it seems that you still don't know us well enough, why do you suspect that we crossed the line? Haven't you carefully looked at the cliff on the other side? Da Guang, you can't fly over."

Speaking of this, everyone in the red blood cell team burst into laughter, and everyone in the first company was a little embarrassed. The first company commander really didn't think of this problem.

At that time, he just thought that it was relatively close to the mountain range, and it was very possible to cross from this position. He didn't even carefully survey the terrain behind. If that was the case, it was really impossible. It's a cliff.

Qin Yuan also stood up and said: "If it was possible before, but the problem is that we didn't bring any rope equipment this time, so it was impossible to pass. If I wanted to pass, I would have brought a rope long ago, and it is impossible for me to violate the law. Regular."

In the end, in order to prove their innocence, they even told them in detail where they were hiding and some problems they found, including the vigilance of a company of soldiers. This really gave them a great education, Yang Mingyigang I was a little angry at first, but think about it carefully, this is a good educational opportunity.

Now everyone is still on their own, no matter what Qin Yuan said, he is also from his own country, it would be better to have him educate him, so as to avoid the embarrassment of being sent abroad.

It's just that his complexion was not very good. After Qin Yuan finished speaking, everyone also led the team back. This time it was the first defeat in a row.

But Yang Mingyi turned his head and found that Qin Yuan and the others didn't follow, he still felt strange, what the \*\*\*\*\* are these guys doing? After a while the secretary ran over.

"Head, Captain Qin said they won't be going back, let's get ready and let the people from Erlian come directly tomorrow, you are this mountain range."

Yang Mingyi frowned when he heard this, so the kid wouldn't go back to get rested, and they were willing to stay on this mountain. As far as he knew, they didn't bring anything to eat.

But this time his own choice has nothing to do with him, he has already said what should be said, turned his head and looked at Qin Yuan and they had already walked into the jungle behind them.

These special battles are really strange to him, are they all living this kind of savage life? He shook his head, these are not what he should care about now, now he has to go back and grab Erlian and let them train well.

But it's just one night, what kind of tricks can be trained, at most let Lilian pass on his experience, I just hope it doesn't make it so ugly.

After returning to the company at night, the first company commander was sullen. It was already embarrassing enough, but he couldn't disobey the commander's order. Now he has to publicize their experience in front of so many people. Summarize.

He braced himself and stood on the stage. There were several companies sitting on the playground around him, especially the second and third companies that were about to compete.

The second company commander listened to the first company commander talking on the stage, mainly saying that their attack plan sounds fine, but the second company commander is more arrogant, he thinks that the first company commander is too stupid.

"This guy said here for a long time that he didn't realize what his problem was. In the beginning, they should have used drones to target them directly. Now that there are technological weapons, why not use them? It's completely stupid."

The third company commander listened to what he said, just laughed without saying a word, and didn't make too many comments. Everyone has their own tactical arrangements, and relatively speaking, they should not underestimate the enemy.

Just listening to the second company commander complaining for a long time, he couldn't take it anymore, so he could only stop it quickly.

"Brother, I told you to stop complaining, and listen carefully to gain more experience. Tomorrow you will have to practice with real guns."

"I'm not bragging, you don't need to go to the third company. Tomorrow, according to my plan, I will go up and take them all at once."

The third company commander shook his head helplessly. The second company commander is like this every time. After the first company commander finished speaking this time, he concluded that he felt that the opponent's ability was very strong. Can handle it.

"I think our biggest problem is that we rely too much on technological weapons. You see, since these things entered, we have forgotten the training of soldiers themselves. This is the first thing everyone thinks of. As a result, they didn't use technological weapons at all. There was a corresponding confrontation with us."

Yang Mingyi nodded from below, he admitted this, but he didn't expect that a technological weapon that could increase his own ability, but now it seems so useless.

The analysis of the first company commander is indeed in place, and he still needs to strengthen himself and not rely too much on others. After he walked down, he looked at the second company commander very seriously and said:

"No matter what, I really hope that you can win this competition and bring back at least one person, so that we can also look good."

"Don't worry about this, I'm not arresting one person, I'm going to take them all."

"I'm not joking with you. I hope you take this matter seriously. You know the style of our company, but even we can't do anything about it. You really have to be serious."

"Oh, okay, don't use that way, you told me, I know what I should do, anyway, I have been a soldier for two years longer than you?"

Seeing his attitude, the company commander was also very helpless, and he couldn't say anything more, anyway, he had already said all the experience that should be said.

On the other side, Qin Yuan and the others were living in the jungle very well. Li Erniu was roasting pheasant beside him, and the scent wafted over.

"Brother Qin, you'll be fine soon, hurry up and get ready to eat."

Qin Zhengyang said leisurely: "I don't understand, why do you all like to be outside here? Isn't it nice to sleep on that comfortable bed when we go back?"

"What do you know, you little kid? You didn't see that our captain is very wise. Now of course we have to let them have a good meeting. Otherwise, when we go back now, people will think that we are secretly studying other people's tactics. "

Qin Yuan laughed when he heard this, and he nodded Li Erniu. "Hey young man, not bad, your cow's head has turned around now, very smart."

Li Erniu was a little embarrassed by the sudden praise. It was indeed because Qin Yuan didn't go back now, just to give them this opportunity to avoid being caught off guard later. Now he doesn't know anything.

Otherwise, people thought he had overheard some tactical arrangements, and later used these excuses to deny their mistakes.

So he simply stayed in this place. Besides, survival in the wild was nothing to them. He asked everyone to rest early after eating, and to deal with the new company tomorrow.

Although the Second Company Commander is arrogant, he can always think of some ghostly ideas. Yang Mingyi couldn't help but explain a few more words. In this way, the next morning, Yang Mingyi saw the Second Company pull out some big wolfhound.

"Commander, do you see it? This is my secret weapon. Reflect on it. I'm not such an arrogant person. I heard what they said yesterday. I also know that since we can't use technological weapons, we don't have this thing yet. ?"

Seeing this, Yang Mingyi burst out laughing, This kid has a lot of tricks, if those guys can control the drone, but this military dog is different, they have been pulled by their trainers, and they can also distinguish the smell.

"Go, then you have to behave well for me. Don't be ashamed like Yi Lian. I can't let go of my old face."

"Leader, don't worry, our second company will definitely not embarrass you."

At this moment, the military dogs are already very excited outside. These military dogs are usually trained frequently. Yesterday, in order to let them play, the second company commander specially told them to take a good rest for a day.

After being pulled out today, these military dogs were very excited, eager to lead people to rush in, but there is no goal yet, the second company commander hurriedly said: "Hurry up and stop them barking, isn't this letting others know? They are our secret weapon."

The squad leader next to him was also very helpless. These are military dogs. How could he control them from barking? He could only try to appease them. At this time, Qin Yuan had already heard the sound of the dogs barking, and he jumped down from the tree.

Chapter 1678: ready to fight back

Qin Yuan smiled and looked at the entrance in the distance. Erlian, who came to fight and eliminate them this time, was smart enough to choose military dogs.

"Brothers have heard it, pay attention this time, but there is a dog, everyone pays attention, don't get bitten."

"Brother Qin, look at what you said. They are well-trained military dogs. They are brought by trainers. Can they still be bitten? Besides, I have a way to deal with military dogs. Look at what we wear this outfit."

Li Erniu and the others had already used this trick before when they were in the Iron Fist Regiment, so he was not afraid of military dogs, but Qin Yuan felt that it was not that simple.

Now the military dogs have also begun to carry out systematic training. Although they can't distinguish the specific target, it doesn't matter if there is a trainer with them. Let everyone pay attention, and then they spread out.

Among the few of them, Qin Zhengyang hid his emotions. In fact, he was very nervous. He was very afraid of dogs. He couldn't drag the other teammates down, so he could only speed up and run quickly. Now he basically chooses to be on the tree. .

Qin Zhengyang's shadow of dogs is his previous childhood experience. At that time, he had not met love, he was just an abandoned child. Under such circumstances, they would be developed into weapons of war, so they often had insufficient food and clothing. Not warm.

Not only were they often beaten and scolded, but there were more harsh trainings waiting for them. What impressed him most at that time was that a dozen children were locked in a big iron cage, surrounded by seven or eight vicious dogs.

When they were locked in, neither the vicious dogs nor they ate anything. If they wanted to eat without being starved to death, they had to go outside through these vicious dogs, and someone outside would give them food.

Because of the protection of the iron cage, those vicious dogs just barked outside. As time went by, some of them couldn't get hungry, and finally chose to crawl out.

But in that situation, the dogs were also hungry, and the people were also hungry. How could those dogs see the food coming out, couldn't help it, rushed up and started biting crazily?

That kind of \*\*\*\*\* scene, he still has a cold war when he thinks about it. It can be said that his experience was really cruel. In that situation, a piece of meat was bitten off his calf, and he struggled and ran out.

So since then, he has been very afraid of dogs. No matter if it is a military dog or something, he tries to stay away from it as much as possible, but he can't show this weakness. At that time, he was very inferior and worried that Qin Yuan would not want him.

At this moment, he was very flustered, running forward non-stop, even when he heard a little trouble behind him, he would immediately become alert.

On the contrary, Li Erniu and the others were very calm. He felt that it would not be a problem to use his own method to deal with military dogs. As long as they dared to let go of the rope, he would be able to subdue them immediately.

At this time, the signal outside had already sounded, reminding them that the people from the second company had come in, and everyone began to split up.

I have to say that this second company commander is really something. He used drones at the very beginning, relatively strong. ....

At least the drone was faster than their walking speed, and they quickly followed, and the tactics used by the second company commander were more reasonable. Although this guy is arrogant, he does have a bit of brains.

He didn't disperse all the people. Like the year before, in order to quickly find Qin Yuan, they dispersed all the people. In this way, if they can't get in touch with each other, they will be easily caught by them. Sneak attack, now he gathers all the people together, one squad followed by the second squad, and the second squad followed by the next squad.

This is also a relatively stupid way, but he can't help it. Although the search speed is relatively slow, it can guarantee that his people will not be eliminated so quickly.

The second company commander was prepared, which made Qin Yuan a little impressed. This man's tactics are really good.

Just when Qin Yuan was sighing, a drone had already locked him. Qin Yuan smiled slightly. He raised his head and looked at the several drones flying above. All the drones are attracted, let Li Erniu and the others take a breath first.

His speed is very fast, directly surpassing the speed of the drone.

Shuttle through the jungle quickly, and the drone is originally controlled remotely by humans, so it can only recognize the development of thermal imaging.

So he was quickly fooled by Qin Yuan. In the images they detected, it felt like several people were running in different directions, but they quickly gathered together.

The soldiers who controlled the drone were very excited. The second company commander also learned to be smart. Instead of putting them together alone, he followed the team at the end. No matter how slow their movements were, it still kept them far away. followed.

The soldiers controlling here hurriedly used the walkie-talkie to report to the second company commander, "We have found the target, and they are fleeing quickly. It should be a few of them. I detected several figures, and now they are gathered together. It seems that we can solve the problem together." gone."

The Second Company Commander was very happy to hear this, and he knew that his method was absolutely feasible. How can an individual beat his own company.

He immediately made up his mind and began to pursue at full speed. Since he knew that they were leading so many people in front, he had to catch one of them.

The trainer who followed was also panting and exhausted. In this kind of mountainous area, the dog was also quite excited. He hadn't been assigned any missions, and he was found so easily.

However, when the second company commander and the others rushed over there, they were dumbfounded for a moment. There was no one there, only to see that the drones they sent out had been firmly hung on the trees.

The second company commander turned his head to look at the people who were controlling the drone, and those soldiers also rushed forward, and quickly explained when they saw this scene, this must not be their operation, it should be Qin Yuan's control again The system, even they have not discovered.

"Company commander, this guy's methods are really powerful. We have strengthened the firewall equipment before, but he was able to hack in, and it was silent."

"Okay, there's no need to say anything else, this guy is just playing us on purpose, he wants to exhaust our energy, but I think it's okay, they take the lead in running ahead, and we chase after us to waste all our energy." Energy on both sides." ...

What he didn't know was that Qin Yuan was the only one leading them from the beginning to the end, and this physical fitness was just a warm-up for Qin Yuan.

The soldier who controlled the drone just now stepped forward helplessly and asked what should he do now? Is this drone taken down or what to do?

"What else can I do? Hurry up and leave. Anyway, I didn't count on this thing at the beginning. It's better to rely on my military dogs for a pile of scrap metal."

After finishing speaking, he waved his hand and asked the trainer to bring the military dogs to the front, and let them start tracking in front. Finally, the military dogs were able to be used, and the trainer worked very hard, leading the dogs and running wildly in front, everyone followed them and chased after them.

On the other side, Qin Zhengyang climbed up a tree just halfway through the run. He wanted to check the situation. In this empty jungle, the transmission of sound was very fast, and he heard a few dogs barking.

This made him feel a little flustered, but he still kept comforting himself, because when he set off, Li Erniu told him that there would be no problem with the trainer pulling them, and the military dog should know them because of their clothes.

He comforted himself silently, people are so unlucky, the more afraid they are, the more they will meet them. Qin Zhengyang felt that this tree was not very good, because this tree was not very dense and could be easily spotted, so he could only get down and run forward.

The dog just disagrees with the machine. The machine is controlled by humans, so there will be mistakes, but the dog's sense of smell is very sensitive, and the dog barks at the opposite side after a while.

Hearing this, Erlan was very excited and told them to chase after them. The people were right in front. These military dogs were locked up for a day yesterday, and today they finally came out to let the wind go. Everyone was in a state of excitement, and the trainers couldn't help it. .

Qin Zhengyang's speed is also getting faster and faster. The speed of a human is definitely not as fast as that of a dog. The trainer has been pulling the military dog from behind, and he is a little unhappy. The second company commander looked at it, and then said:

"These boys are very cunning. Let go of the military dogs first, and let the dogs go after them first. We are keeping up. Otherwise, let them run away, and this opportunity will be missed in vain."

trainer

Hearing that you were also relieved, he wiped the profuse sweat from his head, and could only loosen the training rope on the military dog. Just as he let go of the rope, the military dog rushed out at a fast speed. extremely fast.

Although Qin Zhengyang usually has a lot of training, how can he run with two legs better than four? After a while, he heard movement from behind, and saw a big wolf dog running towards him from a distance.

In this situation, he was even more afraid and remembered the shadow before, and ran faster and faster, and the dog was also chasing after him, barking non-stop.

At this moment, he has scolded Li Erniu 100 times in his heart, which is not right, why is it not like what he said, why does this dog keep chasing him?

At this moment, Li Erniu was sneezing non-stop, he didn't know what was wrong with him, who was thinking about him?

In fact, you can't blame you Erniu for this. After all, when you Erniu was controlling the military dog before, it was relatively calm. The military dog regarded him as his own. Besides, when the dog chased people, people were If you can't run, the dog will be even more excited to chase after you run. ....

Qin Zhengyang is facing this situation now, the military dog doesn't recognize anything, and chases the target in front of him desperately.

At this moment, Qin Yuan noticed something was wrong, because he had already heard the sound of the military dog running, and he just wanted to watch the fun and see which kid was so unlucky.

When Qin Yuan caught up with him, he saw that Qin Zhengyang had been forced to the edge of the cliff by the army dog, and he might pounce on him and bite him at any moment.

And looking at Qin Zhengyang's state is also very wrong, he was so frightened that he was sweating profusely, his lips were a little pale, Qin Yuan felt that this was not an act, so he quickly comforted Qin Zhengyang.

"Don't mess with the dog, he won't charge up, wait for me to control them."

But Qin Zhengyang didn't care so much at this time, he remembered the experience of being bitten by the wolf dog before, and he was about to jump down the cliff with a strange bark, and at this time the military dog also rushed up.

It was too late and then too soon, Qin Yuan didn't care so much, he rushed forward and grabbed Qin Zhengyang tightly, but at this moment, because Qin Yuan's movements were too big, he frightened the army dog instead, the instinct of animals, Bite directly on Qingyuan's calf.

But this little pain was nothing to him, he pulled Qin Zhengyang up, just glanced at the military dog, and instantly the military dog let go of its mouth, and lay on the side with its tail between its legs, shivering in fright trembling.

Qin Yuan released the kingly aura in his body, even the tiger dared not move when he saw it, let alone the military dog.

Qin Zhengyang looked at Qin Yuan desperate to save himself, and was bitten by a dog, he felt even more guilty, lowered his head and didn't know what to say.

"Brother Qin... I, I'm really scared, I'm sorry, I caused you trouble again."

"Are you a tiger, silly boy? This is just an exercise. At worst, you can just stand where you are and get caught by them. Why are you jumping from the bottom of that stupidly? This is a 10,000-meter-high cliff. You are not Superman."

Qin Zhengyang hasn't recovered yet, he can only shake his head and keep saying sorry, seeing that his state is not right, the anger in Qin Yuan's heart also slowly subsided.

Only at this time did Qin Zhengyang talk about his childhood experience, so he has always been very afraid of dogs, lest he had no choice but to be really stimulated by that situation.

Qin Yuan just glanced at the military dogs on the ground and snorted coldly. These guys are too ignorant of martial arts, so he just let the military dogs out. At first, it would be better if they were pulled by people. What should I do if it really bites someone? Fortunately, it was him who bit him, so he didn't pay much attention to it.

But if you think about it carefully, maybe the second company commander was pushed too fast by himself. Now as long as he wins, he can use any means. He didn't make too many rules before, so he can't blame others.

No, since that's the case, there's no need for him to bear it all the time. Originally, he wanted to stop slapping Yang Mingyi in the face, so he just slipped away, and they just eliminated a few people, and it would be fine if they lasted for three days.

But now that this guy has released the military dogs and scared his own people, then blame him for being too ugly.

He pulled Qin Zhengyang up, intending to inform Li Erniu that they are now all starting to fight back, and they will be eliminated directly today.

A military dog was waved by him, and it followed behind him obediently. .

Chapter 1679: Speed up

Qin Zhengyang still has some time to spare, but he doesn't know what to say when he sees the two dogs following behind Qin Yuan so obediently.

"Brother Qin, are we really going to make things so extreme? I feel that Commander Yang seems to be patient with you all the time. If you push him into a hurry, will there be any problems?"

"Hehe, they forced me first. This is an assessment. They don't know what an assessment is, don't they? On the first day, he could be eliminated one by one."

Qin Yuan wasn't talking big, but based on his own strength, he analyzed that they were already forbearing enough.

Now he was going to fight back. When Li Erniu and the others received the news, they were stunned, because they heard Qin Yuan's whistle, which was to let them gather quickly.

On the other side, the second company commander hadn't figured out what was going on. They were originally chasing the dog, but when they ran up, they found that the two guides had completely lost their way.

"What the \*\*\*\* is going on with you! Can't you bark? Where's the dog?"

"Company Commander, don't worry, we've been looking here for a long time, and we don't know where to go. The woods here are too dense, and the dog will disappear as soon as it runs away."

"I see what you two are doing for food! Now that people haven't caught them, they lost the dog for me."

Erlian didn't let out a long breath, and kicked on the tree next to him. It was his secret weapon. He thought of the dog's sense of smell, it would definitely be right, but he never expected that he would not be able to catch up with the dog. footsteps.

He looked at the remaining two dogs, and asked the person next to him to pull them over, and let these two dogs find the other two together, and there must be no more mistakes.

Everyone is staring at each other, what else can they do now, the squad leader next to him glanced at the dense forest, and now their team is too dense, everyone is crowded together, like a forced march, so It also affects speed.

"Company Commander, I think it's better to divide us into two halves, so that we can not only expand the search area after we separate, but also the number of people separated will not be too many."

The second company commander was still struggling, but he looked at it, and the time passed by every minute and every second. Although he hadn't been eliminated yet, he only heard the barking of a dog before he even saw his shadow.

After thinking about it, although this method can better guarantee their safety, the progress is too slow, so I agreed with the decision of the squad leader next to me and divided them into two groups.

Everyone began to search in different directions. The second company commander still doesn't know what he is about to face, so it will only be more embarrassing than the first company.

Li Erniu and the others couldn't wait a long time ago. These few days of hiding and hiding haven't really exploded yet. Their strength is not fun for them at all. Now they can let go.

Soon, just ten minutes after they separated, the second company commander heard a burst of gunshots from the opposite team. He had already encountered something bad, so he hurriedly led the team to support.

The instructor who ran behind him felt that there was no problem. After all, it was half a company's strength, so there shouldn't be a big problem with just a few people.

But when they passed by, they were completely dumbfounded. What's going on? The smoke at the scene burst out in patches. The smoke either came from other places, or from the soldiers themselves, or they were eliminated.

Moreover, gunshots were constantly heard at the scene, and the whole scene was very chaotic. The second company did not let out a breath. Why did the tactics he usually said not work at this time? These guys don't know how to do it.

And Yang Mingyi, who was on the outside, was inexplicably flustered when he heard the gunshots inside. Why was this more intensive than the last time, and he was very worried that something might go wrong.

Only half an hour later, I saw the soldiers of the second company come out in disgrace, and the scale is really too big. At first, it was one squad, and then the people from the next few squads came out. It took only half an hour. In an hour, half a company was eliminated.

Even the second company commander was eliminated in the afternoon, and he felt that this competition was meaningless. At first, he insisted because he still had hope, but when he really faced off with Qin Yuan Only then did I know that they were not even a star.

His skill and marksmanship are completely miraculous, and he can change his position at any time. Although it seems that there are only a few people on the other side, it is really worth thousands of troops.

The second company commander is usually very arrogant, but after he was eliminated this time, he didn't say a word, just stood by silently, Yang Mingyi's face turned red.

He didn't know what to say for a while, it seemed that Qin Yuan was serious this time, and he really didn't give any face to his team.

This is not the style of a veteran company. In fact, besides the reason for releasing the dogs just now, Qin Yuan also has another doubt. Relatively speaking, the overall strength of the 233 regiment is not bad.

Watching their games in all aspects, the problem is that when he was duel with him, he found many details, and the biggest problem was tactics.

An Ran had also recommended them before, but they seemed to be very confident in simulated battles. After all, simulated battles were mainly based on sand tables, and the things in front of them needed to rely on actual combat and the experience of both sides.

Qin Yuan just wanted to test their strength this time, but he was very disappointed in the result. There was nothing too surprising. In this case, it is no different from an ordinary company. This is a waste of his own time.

So when he came out, he didn't take Yang Mingyi's face into consideration, he just said, don't waste time now, let the remaining companies continue to come in, he wants to quickly test the strength of these companies in a short time.

Yang Mingyi didn't know what to say for a while, what kind of tricks this guy was playing, "Captain Qin, don't you think this is a bit too fast? And it doesn't match the previous assessment at all, so let's not say that the assessment is too fast. What influence you have, it is also very unfair to us soldiers."

Qin Yuan walked over, without any change on his face, "Commander Yang, I respected you very much before and thought you were an old-fashioned regiment, but I didn't see any novelty after fighting these two times, so I wish it was quicker."

Yang Mingyi knew what he said, and what this guy meant was that his team was not good enough, so he would make a quick assessment, and if he failed the assessment, he would quickly switch to another team.

After all, Qin Yuan has the greatest right now, no one dares to offend him, and what he said is indeed reasonable, so Yang Mingyi can only agree.

It was supposed to go through one or two weeks of assessment and elimination, but now it only takes four days to complete, and all companies have completed the assessment.

Qin Yuan was not satisfied with any team, it was too much time wasting here, he could only hurry to find the next target.

Originally thought that according to what An Ran said, they could basically be selected from these three regiments, but this situation is not optimistic.

And this is just the selection of the army, and the air force has not yet resolved this matter, wave after wave, so he can no longer have any hesitation, and must speed up.

When the car was driving halfway, Qin Yuan took out the map and studied it carefully. He still had a thick detailed information about the company.

He Chenguang jokingly said, "This time, we completely offended Commander Yang. Didn't you see that just now he didn't even want to keep us down for dinner, so he just waved his hand, and then we left?"

"Whatever they want, I'm not afraid of offending people at all. Since I have done this, I must strictly control it, and don't embarrass me and throw it abroad."

Everyone admired Qin Yuan's attitude, but besides the Flying Tigers recommended by An Ran, he had to make another choice.

Everyone is a little unfamiliar with this regiment, but Wang Yanbing said, "Of course you don't know. After all, we were all recruited away back then, but their regiment is not simple. This regiment is basically a basic company. Elite among them."

Qin Yuan was also a little interested when he heard this, why there is such a team, and this style of work sounds a bit like their special warfare brigade.

Before Wang Yanbing, there was a fellow villager over there. In that regiment, it is said that any random cleaning person has won some awards.

Li Erniu felt that it was a bit exaggerated, "If you want to talk about a squad or a company, then I still believe it. It's a regiment, which is too bragging."

"Don't you believe me, kid. I told you that their group leader is capable. Everyone is rushing to go to their group to get an invitation. Who can't go? Their group leader was a powerful person back then."

Hearing this, Qin Yuan became more and more interested. Why hadn't he heard of the last character? There is strength, but also so low-key.

Speaking of which, he dug up their regiment's usual records. If you don't know if you analyze the data carefully, there are some problems. Although they usually compete with the Red Third Regiment, they are basically in a tie. , but it has never been ahead, but this data is a little bit wrong.

Especially the data brought by An Ran, first of all, judging from their marksmanship and overall speed, they can definitely surpass them. Then their leader is really interesting. They can win, but they don't let their team win. , just a tie.

But who would notice these details? After all, everyone is looking at the rankings, and the rankings won't be so ugly after all.

He opened it and looked at the introduction of their leader, Long Xingguo. He shook his head, making sure he didn't know him. It seemed that the other party was really low-key. Just like that, they came to the Flying Tigers.

At first glance, they didn't see much change. Their group leader, Long Xingguo, had a smile on his face, and he looked a little more amiable.

"Chief Qin, on behalf of our regiment, I warmly welcome you here. It really adds a lot of color to us. Regardless of whether the selection is successful or not this time, we hope to get your guidance."

Their group leader is quite modest, and he put it directly on the bottom, and put it down on the spot, it doesn't matter whether he chooses or not, anyway, they just take it as a study. It is really rare for the group leader to say such a thing, which shows He's in a good mood.

"Captain Long, I think you are really joking. Everyone learns from each other, and we are also here to learn from you."

"Haha, you guys should stop being humble. Long Xiaoyun from your previous special forces team, the dragon team came to us to train us for three months before, and his father also came to us to guide us. Pass."

what! Everyone looked at Qin Yuan in unison when they heard this, which made Qin Yuan a little embarrassed. He really didn't know, after all, Long Xiaoyun would never tell him anything, but he had heard of it before. , He frightened some basic companies to conduct training guidance, but he didn't expect to stay here for three months.

Long Xingguo didn't notice anything unusual. He introduced him to the side, saying that Long Xiaoyun is indeed a formidable man, and he brought them a lot of tactical arrangements. Since then, they have followed Long Xiaoyun's guidance, and their strength It has indeed grown a lot.

"I still want to take the liberty of asking, Captain Long, is there something to do with your surname Long?"

Long Xingguo looked serious when he heard this, "Chief Qin, I don't know why you ask such a question, but we have absolutely no fraudulent behavior. My surname is Long. This is just a coincidence and there is no connection."

Looking at the upright answer from the person opposite, it seemed that he was thinking too much, so he quickly apologized, saying that he was just asking casually.

Generally speaking, this regiment leader gave him a good feeling, and when they came, no one was involved in those bells and whistles, so their regiment leader greeted them at the door with a few company commanders, and introduced the specific situation. Let's see when he will be assessed. They can accept the assessment now.

This is really the first time that a team leader has said this It also confirms their strength, they can be tested at any time, and they are not afraid at all.

Hearing this, Qin Yuan also had a playful thought, he patted Long Xingguo on the shoulder, "Captain Long, if I kidnap you suddenly now, do you think the soldiers around you or in your regiment can rescue you?" Are you coming?"

"Officer Qin is really good at joking, but do you see what is hanging around my waist?"

Qin Yuan observed it just now, and the surrounding area was very quiet, but the soldiers at the training ground on the opposite side were probably training there. He reached out and touched the grenade hanging on Long Xingguo's waist. This is really a ruthless character. Who is there? Who is the leader who still carries grenades?

This really surprised him, not only the company commanders next to him also showed their own things, good guy, this is really determined to die.

"Officer Qin, I will not exchange my life for the lives of soldiers. What I firmly believe in is one life for another, or the fish dies and the net breaks."

Chapter 1680: Selection ends

What he said made Qin Yuan a little surprised, after all, in this era, it is no longer what it used to be.

"Captain Long, is it too serious for you to say this? It's not the case now. There's no need to be so serious. Everyone's life is life. Of course, we guarantee that the soldiers will not be injured to a greater extent. That's it."

"You also said that everyone's life is life, and I will not let my soldiers exchange lives for another to protect me as the regiment leader, so I am always ready." This kind of statement made Qin Yuan somewhat agreed, at least it proved that the head of the regiment was a good person, seeing them so heavily armed, there was really nothing he could do about it.

Qin Yuan also smiled helplessly, what they did was very similar to Long Xiaoyun, who was very bloody, and then they went to the training ground again.

All the layout and things are their special ones, because they have more people in the basic company, so there is no need to make it so special, but they have done it, and their training intensity is not lower than theirs at all. .

After He Chenguang saw it, he secretly admired it. The basic company has a lot to do. Although they don't have to face the kind of going directly to the battlefield, after all, there will be no large-scale battlefield now. They mainly use their small teams to infiltrate Mainly.

But seeing that each of them is full of spirit, everyone is ready and full of self-confidence.

Long Xingguo just said silently beside him,

"Mr. Qin, don't look at them like this and think it's superficial skills. I never do superficial skills here. All the companies under my regiment train like this." This is indeed conceivable, because Qin Yuan's coming here was only a temporary notice, and he didn't know that Qin Yuan would come, so there was no need to call the soldiers over for training suddenly, it just meant that they were like this every day.

This group is really low-key and powerful. It hides its own strength completely. Even when confronting others, it won't make others lose face too much. It's just a tie, but it's too hopeless. Concept.

Facing Qin Yuan's inquiry, Long Xingguo just smiled, and then said: "We are all old comrades in arms for many years, and we all know each other's strength. If we really want to fight so ugly, no one in the team will be good. , we are not like your special warfare team. If you are too strong, you will meet stronger people." This is also because of the scale of their competition, because their comparisons are all competitions between these groups, and In a special warfare team like Qin Yuan's, especially the sub-teams that were divided inside, they encountered a strong team, and after winning, they would fight against a stronger team.

This Long Xingguo is really a man of great wisdom. The most important thing is that he is also very open-minded. He can think clearly under such circumstances. Qin Yuan silently gave him a thumbs up.

At this moment, Long Xingguo waved his hand, and Qin Yuan saw a tanned soldier running over.

"Zhang Min said that you should go and collect the lists of all the companies, as well as the performance advantages of each company, and print them out and hand them over to Chief Qin."

"Yes!" Li Erniu was stunned when he saw this. They had passed through so many regiments, and basically the secretaries did some clerical work. Although they usually trained, they didn't train so exaggeratedly.

This is a direct training, nothing else has changed, it is exactly the same as the training of their other soldiers.

Long Xingguo thought it was normal, he directly raised his hand to show Qin Yuan his muscles,

"Although I am the head of the regiment, I didn't give myself special treatment. I should train with them, and I will train with them now, but my body is indeed not as good as their young ones." This regiment made Qin Yuan's eyes shine. , the whole group is very well-mannered and full of spirit.

The style of doing things is also very fast. After a while, the secretary has already counted, and all the information is handed over to him. Several company commanders also want to see how Qin Yuan arranges, so they can go down and make preparations .

This time Qin Yuan wanted to play something different. Since the entire regiment was trained in their special mode, there was no need for his assessment. He let several regiments fight against each other.

Just now he looked at several regiments with similar results,

"I just came here too, so I don't know what the difference is between you, so let's do it like this, I will assign one company to another company, and the last remaining company will follow me." Everyone thought it was fair, and they were willing to send The materials of several of their companies were placed on the table and randomly distributed, forming a circle, one company against one company.

It's quite easy to do this, they just need to be spectators and observe their specific situation at any time.

What Qin Yuan didn't expect was that things here went very smoothly. The next morning, Qin Yuan had already arrived at the high ground where they often train.

The first ones to play are San Lian and Liu Liang. They confront each other. The whole process can be said to be very worrying, because the two sides can be said to fight on the same level, and they are really similar in strength.

Li Erniu was a little admirable. Basic companies like them are really very strong in doing this. The whole company is united.

After such a selection, Qin Yuan also kept observing. He found that this regiment was indeed a little different. After a week, the confrontation between all companies had completely ended.

The final result was obviously that among them, the three companies finally broke out of the siege, and finally won all the companies. This is also a relatively good result. No matter what, a team was selected.

Long Xingguo was also proud of his company, but Qin Yuan said in the next second: "Captain Long, I have one more request, and it depends on whether you can agree to it." Long Xingguo was a little nervous, what is this guy playing Tricks?

Now that his company has been selected, don't you want to go back on your word, just when he was in a panic, Qin Yuan suddenly said: "During the confrontation these days, I think the performance of the second company is also very good, I want to bring them along, just to save me the time to choose other ones, choose and choose, that's it, relatively speaking, I recognize your strength, the main thing is to completely obey orders." This made everyone Unexpectedly, two companies were selected from their regiment, which is indeed a bit unusual.

Long Xingguo laughed even more,

"It scared me. I thought you were going to regret it. It's okay to take it out. It's a great honor for our regiment to produce two companies. You can choose whoever you want." The army's selection is over. After all, the three companies have been selected, and now he is going to go to the military base to see the specific situation.

But at this moment, a phone call came from the General Military Region. Qin Yuan did not expect that the head of the 233rd Regiment would bring the incident to the General Military Region.

Because now everyone knows what the situation is like. After all, there are only so many things in the army, especially such a large-scale selection.

What Yang Mingyi felt unconvinced was why he didn't select a single person after tossing around for a long time, but in their Mobile Flying Tigers, they directly selected two companies, which was a bit too much.

The moment Qin Yuan picked up the phone, the people at the headquarters didn't blame him, they just asked what was going on, because Yang Mingyi felt that there would be something tricky during this period, what if Qin Yuan had some friendship in private?

"Qin Yuan, you know that the headquarters is very relieved to entrust this matter to you, but everyone has doubts, and we have to solve this doubt." Yang Mingyi's meaning was very clear. They were trained by Long Xiaoyun, and it was because of this relationship that Qin Yuan took care of them.

This statement directly amused Qin Yuan,

"Chief, if I really want to have that selfishness, why don't I just choose the Marine Corps first. Their relationship with me is the deepest. Besides, according to this statement, all parts of the country are against me. It has something to do with it." It's true to say that, after all, Qin Yuan had given special training guidance to some of their companies before, and all kinds of training plans were obtained from Ruanyuan.

The chief opposite also laughed, he understood what was going on, he said that he would make it clear with Yang Mingyi, and let him do other things.

After Qin Yuan hung up the phone, he didn't care at all. Anyway, someone said what to do, so let them do as they please!

"Let's go, go to their 36th Army!" Li Erniu suspected that he had heard it wrong when he heard this, so he reminded in a low voice.

"Brother Qin, the air force base you are going to, they belong to the 57th Army."

"That's right, I'm very familiar with that place. I was the one who gave them training and guidance before. Now that the calls from their headquarters are here, should I avoid suspicion? Let's go to the 36th Army first." They set off with the 36th Army, but in fact they also have acquaintances here. The Sixth Flying Brigade under the 36th Army is also inseparable from Qin Yuan. They have all studied the previous courses.

Compared with the Air Force, the selection is quite special, because they must first obey the arrangement, and whether they can understand Qin Yuan's instructions before acting, mainly depends on the cooperation with Qin Yuan.

So he focused on these aspects, as well as their operations, so the selection for this side was relatively fast. Within a week, Qin Yuan selected a small team from the 36th Army.

Then he went to the familiar space base, a place he knew too well, and he had also led the team for training before, and this time he selected a lineup of female soldiers for the first time.

Because of his leadership before, he successfully brought out a female soldier, and slowly developed later, and now has an exclusive female air force.

This is a major feature, but the commander of the air force base is a little tangled.

"Qin Yuan, you have trained before and you know it. I won't let you see it again. Don't make a hasty decision. I have no objection to you choosing another team, but do you want to stop thinking about this women's team?"

"Are you not confident in your soldiers, or are you not sure about female soldiers?"

"What you said really pushed me into the pit of fire. I never thought that way. I just said that their team has not been established for a long time, it has only been established for a year."

"It's okay. I just checked that there are no problems with their various technical movements, and what their air force needs is to obey orders. As long as they follow my command and act according to the coordinates behind me, there will be no problem." Qin Yuan With such insistence, what can he say as a commander? The selection is determined by Qin Yuan, and he can only nod his head.

The selection became smoother and smoother, especially in the Marine Corps. There was a special feature that Jiang Xiaoyu and the others formed an independent team and brought the Beast Battalion Company to form a new combination.

Because Qin Yuan is familiar with the links from the end, there is basically no problem. He knows very well that everyone's ability assessment is just a process, and he has already mastered the ability.

It was originally planned to be a three-month selection period, but it was completed in less than two months, so he will start training everyone next.

In order for them to conduct training smoothly this time, the higher authorities even opened various green channels for them, allowing Qin Yuan to choose a suitable training location. Now both of them need to get in touch.

And Qin Yuan always did some unexpected things here, he didn't let the Air Force and the Marine Corps gather together.

He just took the army to the deserted Gobi Desert. He Chenguang took a sip of water from the kettle. The temperature here is too high. The temperature in the daytime is more than 40 degrees during the day.

In some places where the sun shines directly, even an egg can be cooked directly. The environment like is indeed very harsh, but no one has any complaints.

Qin Yuan is also doing this to let them adapt in advance. The red blood cell team has already adapted to various cruel environments before, so it is nothing, but these videos are not good. What they will face later is on the Eastern Continent. .

Moreover, the months they used to conduct exercises in the past were August and September, which was the hottest time, so now they had to adapt to this temperature in advance, which was more brutal than the temperature over there.

In this way, the first day of training had just ended, and it was mainly a kind of running-in between their several companies. There were cases of heat stroke in them, and everyone had different reactions.

Qin Yuan could only ask the cooking class to make herbal tea for everyone every day. This way of relief can only make the body adapt as soon as possible, otherwise there will be nothing to do after going there.

Even if this is the case, everyone knows that we will face even worse situations in the future. No one backs down, and everyone is persisting.
