

Special Soldier 1691

Chapter 1691: Halsons call for help

For him, the lake is too far away, even if they want to come here, they have to use transportation, and there are no boats here, and it is basically impossible for so many people to come from that place, so He wants to put all the focus on the front defensive position.

"The most important thing now is to prevent air strikes. I always feel that they still have real means that have not been exposed. This is the most important thing."

"Sir, according to what I mean, I suggest forming an air-raid shelter on the side, so that we can get in and counterattack at any time."

"That's a good idea, but the location of the air-raid shelter must be concealed, and it must be sufficiently resistant to war, otherwise, won't it be taken by others if you are locked in it?"

Now I can only think of all possible solutions to solve the problem here as soon as possible. Qin Yuan is a terrifying opponent to him, but he will not back down just because of this.

After looking at the map, they will go for a field trip in the afternoon, mainly to look at the surrounding situation. This location is very good for an air-raid shelter, because there are trees as cover and there is a hillside on the side.

What Qin Yuan is more powerful about is their air force. They have already seen it when they attacked Xiaomao before, so they must be prepared for air strikes.

While they were observing the terrain, a soldier nearby ran over and reported that Qin Yuan and the others had also come.

"What's the situation? How did he come here? This is a violation of the rules. He can't come to our position."

"Report sir, he did not come to our position, but was 10 kilometers away from us."

Buck frowned. He didn't know what this guy meant, but everyone was here. If he didn't go to meet him, it seemed a little bad. He just looked at the terrain and asked the people around him to be vigilant. They infiltrate.

The terrain is also very important, and they cannot see each other in other areas, so this is the most critical point, Buck drove to the agreed place in a hurry.

From a distance, he saw that apart from Qin Yuan, there were two strange men standing beside him. The one on the left should be their team member, because they were wearing the same clothes, so the other one was a bit invisible.

Buck was a little confused why this guy said he wanted to see him now, he squeezed out a smile and stepped forward and said, "Chief Qin, I don't know what you mean, now we are going to war, and it may be a bit awkward to meet now." It's not appropriate."

"Hahaha, I just came to inform you of one thing, maybe you will be more curious about it."

Buck was confused by him, just when he raised his head, he saw the man standing next to him take off his hat. At this moment, Buck knew him, because he was so familiar with this man.

They had been connected before, especially when the outside had just come in. This person was the captain Halson who was in charge of patrolling the outside.

"Chief Qin, I am even more confused when you are like this. What does this mean?"

"It seems that Matsushita Haotian really didn't tell you anything, but I have to kindly remind you not to be used by others. You don't know if you are used as a gun by others."

Hearing this sentence, he immediately became vigilant, because he didn't know what Qin Yuan meant, could he be trying to sow discord here?

Just when he was hesitating, the man next to him suddenly knelt down. "Both officers, I really beg you, you must save me, you are my last hope, I really don't know what to do now, everything is because of that ***** Panasonic, he wants me to be like this made."

"What the ***** do you know? You'd better tell me what conspiracy is going on between you."

Buck also felt that something was wrong when he heard this, so he hurriedly asked, and this time Halson didn't dare to hide any more, and told all the previous behaviors in detail.

At this time, Qin Yuan just folded his arms and watched the fun. He didn't know about this at first, but he didn't expect Halson to come to him on his own initiative.

At first he thought it was just

A trick, it should be that they wanted to frame him, but after he entered Halson's deep consciousness through hypnosis, he realized that this guy was indeed not lying. He was threatened now, and he jumped the wall in a hurry.

Because he knew from the side that his family had been persecuted, his parents told him to find a way to save his wife and child after they came back, otherwise he would have no chance.

Halson also somewhat understood the face of this ***** Matsushita Haotian, and he hurried to beg him, hoping to let his child back first, but unexpectedly, he was severely rejected.

More importantly, he was not allowed to video or make phone calls with his wife.

At this moment, he knew that his wife and children must have been killed by that bastard, because this person has always been so unscrupulous in doing things, and even himself was completely used by him.

He originally wanted to get rid of this matter completely and talk about it to the headquarters, but then he thought about whether this ***** would bring everything to him. By then, not only would he have no way to get out, but he would also become a victim Black pot.

Thinking of this, in order to protect himself and the parents who were released by them, he only thought of one way, and that was to ask Qin Yuan for help.

That's why this happened, and Qin Yuan brought him here because he discovered a more interesting thing. On the surface, it seems that country O and Xiao Mao are allies, and they help each other. Unexpectedly, Xiao Mao and the others It's all calculated.

All the strategic maps of country O, including their previous tactical arrangements, are all in that data, because they had to submit their own plans at the beginning.

Qin Yuan was not that honest. He casually handed over a basic plan for his own training, which he couldn't use in his tactics at all, and he couldn't reveal too many secrets.

So even they are in the calculations of Xiaomao country. They have always regarded O country as their opponent, and they can cause a fatal counterattack against them at any time.

Buck couldn't believe it when he heard this. He shook his head and said that all this is not true, "Impossible, and it is absolutely impossible for me and Mao to fight. will be opponents."

This guy is really stupid, he still doesn't want to believe it now, the facts are all in front of his eyes, the data has been leaked, and he is still quibbling here.

"I said you won't think about it? You won't be rivals with them, but you will be rivals with other people. He can hand over this data in exchange for greater benefits."

Hearing what Qin Yuan said, Buck's mind suddenly buzzed. If he did this, there seemed to be no reason to refute.

But the crux of the problem now is whether he wants to believe Qin Yuan and the others, and whether this person's words are true.

The most anxious thing now is Halson. Qin Yuan brought him here before, and told him that this matter can only be known by everyone, so that he can completely help him get rid of the suspicion, and more importantly, let others know that he is in a state of illness. Only in this way can we really save him.

"Bosses, I really know I'm wrong. I'm just an ordinary patrol officer. I lead my team to patrol the outside world, but I really can't do anything. I beg you to help me."

Buck heard this and carefully observed the person in front of him. He found that this guy had wounds on his face and neck. Could it be that he was threatened, so he was very entangled now.

"Chief Qin, I don't know what's the point of you bringing this person here to say these things. If that's the case, you can report to the headquarters directly, there's no need to tell me."

"Don't have any other ideas, I just want to remind you, and to be honest, you are doomed to fail, and you will fight with other countries. If all your tactical arrangements are understood by other countries, what do you think? Will you still win?"

Originally, Qin Yuan wanted to remind Buck that he wanted to use Buck to completely expose the conspiracy of Xiaomao Kingdom, so he would not be the first to lose in this matter.

But Buck didn't react. He didn't trust Qin Yuan very much, especially when he heard that they would definitely lose, he couldn't get angry.

"It seems that you really treat yourself

Is too confident, do you really think I will lose? Let's wait and see, no matter what! I'll stay on the field until the last of my soldiers is eliminated. "

Qin Yuan shook his head and said that this old antique didn't seem to have much to say, so he let him figure it out, anyway, his own reminder was already in place.

"Then it's up to you, I'll say mine, just pretend you haven't been here today, then I'll leave first."

After Qin Yuan finished speaking, he lifted Halson on the ground, "Look, what should be done for you, I have already helped you, there is nothing he can do if he doesn't believe me, but I will not give up on you."

Watching them go away like this is very uncomfortable for Buck, and now he is still thinking about whether this matter is true or not.

The military chief next to him had the same idea as Buck, "Sir, I think it was Qin Yuan who deliberately acted out this play for us to see. Have you noticed that Halson's scars on his body should be threatened by his beating."

"I don't rule out this possibility, and I don't say it sooner or later, but at this time, it is probably because I want to shake our army's morale."

At this point, Buck was even more sure that he waved his hand to tell the few people present that no one is allowed to reveal what happened today, and we will wait until the problem here is resolved.

Now their biggest problem is to meet the competition two days later. Buck has made various plans. He seems to be seamless, and there are countermeasures for every direction and every formation.

He even started to direct and act on his own. The higher-ups kept planning and let the military minister accompany him to practice over and over again. Sometimes he was Qin Yuan's role, and sometimes he was himself.

This kind of dedication is very good, but unfortunately, in terms of ability, there are some things that really cannot be surpassed.

On the other side, Qin Yuan and Halsen took him back. Halsen was holding his head now. He didn't know what to do, so he could only follow Qin Yuan's arrangement.

"You said you would help me, is that true? I can rely on you now, and you are the only one I can trust."

"I won't go back on what I said, and this thing is really interesting. Since that guy has already got the data, he is still in this state. It really makes people feel bad."

Qin Yuan still didn't forget to sneer at this time, Halsen next to him can't control so much now, this person is powerful on the one hand, but now he can't protect himself.

After getting out of the car, Qin Yuan looked at Halsen and told him that no one else could talk about this matter, because his side would definitely help him, but others might not.

After Halsen left, Li Erniu felt a little curious beside him. "Brother Qin, if you report this matter directly to the headquarters, they should handle it. There should be no need for us to come in, and there will be suspicions at that time."

"You silly boy, think about how despicable that Matsushita is. Even if this matter is reported, there will be no good results. Anyway, I will get them out of the stage later."

Qin Yuan won't suffer from being dumb. After all, his data has been seen by others. Fortunately, he has made preparations beforehand. He is not the kind of person who suffers. He will definitely pay back this matter, and it will be doubled.

Several other people couldn't see through Qin Yuan's thoughts, so they could only do what he said, and secretly sent someone to protect Halson.

Two days later, their competition with country O officially started. This time the competition is also very interesting, after all, country O is relatively famous in the rankings.

Country O didn't expect that their opponent would suddenly become Yan Country. The fights were quite tense, and the military ministers on their side recognized their own strength very much.

"The worst result is just a tie. In the end, it depends on the consumption of both sides, and there will be no difference."

He confidently explained all the combat plans to the soldiers below. They did not have any problems in the statistics. However, they had made a lot of preparations to prevent air strikes before, and Qin Yuan's plane had never come here until now.

This made them feel a little confused, and both sides seemed to be in a state of being unable to move.

The military minister under Buck was a little impatient, and it would be a bit unfavorable for them to procrastinate. What he was worried about was that the other party would initiate a conflict at night.

So he plans to take the initiative to attack, and the distance here is relatively short. They can use the army to attack first, and then add air strikes, and hit him first.

Buck saw that the other party seemed to have remained silent, and nodded in agreement. He didn't know what the **** they were doing. It would be good to send out a small army to investigate first, so he asked the military minister to start off with a company of people.

Chapter 1692: big win

This distance is not a problem with this number of people. If there is any impact later, it can be withdrawn quickly, so as not to destroy the pattern on his side.

At this time, they didn't know that Qin Yuan had already led his troops towards the lake behind. They didn't arrange too many people in that position, and the lively area was indeed very wide, and it couldn't be seen at a glance. In this position They can dive completely.

Qin Yuan also took a very risky approach and directly transferred the Marine Corps, because he believed in Jiang Xiaoyu's ability and they could adapt to the turbulent sea, let alone this kind of lake. .

As a result, there is no team in the Marine Corps. There is only one company in the Marine Corps, and the remaining two companies brought him over.

Everyone was wearing equipment on the shore, Jiang Xiaoyu looked at the oxygen cylinder, the oxygen can last for about 40 minutes.

"Attention everyone, we must hurry up, otherwise the oxygen content of the dive is not enough, and we may be exposed in the middle of the dive."

"Hahaha, brother, are you kidding? We have trained on the sea before, let alone 40 minutes, we can pass in 20 minutes."

Everyone is very confident. For this kind of lake, it doesn't have much influence on them, and there is no problem with their speed.

Qin Yuan and the others are quietly proceeding from this side, while the military minister on the other side leads a company of people interspersed in the middle of the road.

In fact, the Minister of Military Affairs also finds it strange that although they have launched an attack on their own initiative, why there is no movement from the other side? This is not a good thing.

"Sir, we are still about 20 kilometers away from their position, but we haven't seen any movement."

Under normal circumstances, it is impossible for such a long time without any movement at all, and they are very close here, and they will definitely be discovered at any time. The Minister of Military Affairs was ready when he came before.

"Maybe they really regard us as opponents. The quieter the environment, the more we must pay attention to precautions. Maybe they should ambush somewhere. Let the people in front slow down and investigate carefully."

"Yes!"

Fortunately, the Minister of Military Affairs can be regarded as intelligent. He set off more cautiously on this side, and personally said that the other side had reached the middle of the lake.

He always took the lead in watching, and he made a gesture to the soldiers behind, asking Jiang Xiaoyu and the others to take the rest, while he was the first to charge, and he wanted to go up and deal with the people on duty on the shore.

Jiang Xiaoyu made an ok gesture, He Chenguang, they followed Qin Yuan and set off quickly towards the front, Qin Yuan's speed was unusual, it should be said that the speed of their entire team was completely behind the others open gap.

The soldiers behind were a little surprised, mainly because their speed was too exaggerated, and they could still be so fast under such circumstances.

When everyone swims halfway, they are basically in a state of exhaustion. The safflower distance of this lake is still relatively long.

They are in the state of diving, and they still have to carry oxygen cylinders and equipment on their backs. This is a kind of exhaustion for their physical fitness. I didn't expect Qin Yuan and the others to reach such a fast speed.

In a blink of an eye, the figure of Ruan Yuan was no longer visible in front of him, and soon he would be approaching the shore, and the lake here was relatively clear.

He poked his head out quietly to observe, only to see that there were about seven or eight soldiers on the opposite bank. The patrolling was not very strict, and they were all standing loosely on the opposite side.

Qin Yuan quietly swam to the other side, then took out the throwing knife from his hand, and he shot it into the grass on the opposite side at an extremely fast speed, instantly attracting the attention of the soldiers.

At this moment, he jumped out of the water at an extremely fast speed, and rushed in front of the soldiers, and the knife in his hand touched their sirens.

The few people behind were about to shoot, and Li Erniu and the others also rushed out of the water. Everyone quickly knocked them down. Happening?

"Okay, follow the rules of the exercise, you are dead now, don't make any fouls, fouls are not good for anyone."

These people stared wide-eyed and cursed secretly, what else could they say? Now I can only be tied to the shore silently by them.

Then I saw soldiers coming up from the lake one after another. Everyone was shocked. This time it was completely over, and the breakthrough came in from them.

The soldier who resisted the most was now tied up. He said helplessly, "Captain, what should we do now? They entered through us, how can we explain to the officer later?"

"How do I know there are so many people, but no one can shoot the gun out."

The captain is also very helpless, he also wants to shoot, but there is no way, once the siren is destroyed, their guns cannot be used, and the speed of the opponent just now is too fast.

Just like this, I watched them gather quickly, and then started to move towards their position. This side is completely backed by the lake, and their position is facing the front. Going from here will really catch them by surprise. Everyone is desperate.

They really didn't expect Qin Yuan and the others to be able to fight so unexpectedly and come out of the lake. No one could have imagined it.

At this moment, Buck, who was on the ground, seemed to realize something. He felt that he couldn't wait for death by doing this, since Qin Yuan hadn't taken any action.

Then it's better for him to attack first, and the attack he said is to use the marines to attack from a distance first, to see what this guy is up to.

Buck is also quite intelligent. He decided to directly call out his navy to attack Qin Yuan's navy. Now the distance between the two navies is relatively far. Let's fight remotely like this to see how he will react.

Then several people next to him stood up and objected. They were all important members of the military meeting this time, and they were specially sent to assist the eight divisions in fighting together.

"Their naval power is much stronger than ours. We don't need to take this risk. We might as well turn around and attack his position directly."

"But no one is dispatched now. We rashly put a lot of troops on this. What if he uses other tricks?"

"If compared, I think the strength of our army will be even better, as well as the strength of the air force."

The analysis of this military official is not without reason. They have seen Qin Yuan's naval battle strength before, and if they really want to fight, they may not win.

It was precisely because of this guy's decision that he gave Qin Yuan a wave of divine assists. If he followed what Buck said, he would set off immediately to fight Qin Yuan's marines.

They will definitely win, because there is only one company left on Qin Yuan's side, no matter how hard they fight, they will definitely not be able to win.

It's just a pity that although Buck seems to be the highest leader here, all decisions must be discussed by these few people. In fact, it is the decisions made by these few people that can affect the overall situation.

Buck sighed helplessly, feeling that it was inappropriate to put so many people on the ground at risk, but he couldn't make a decision, so he could only do what they said.

However, just as they were about to mobilize their forces to Qin Yuan's position, gunshots suddenly rang out from behind.

"What's the situation? Who's behind?"

Soon, a soldier hurried in and reported, "Sir, no, it's not good. Many soldiers rushed up from behind. They are fighting with us. Our defense line can't be defended."

"How is this possible? Our defense line is so strong, where did they attack from?"

"It seems to be from the lake behind, because from that direction, our first line of defense has been broken by them."

Buck cursed and slapped the face of the video directly. He felt that this guy was trying to confuse the army. This is absolutely impossible. He strengthened all the defense lines so firmly.

How could it be broken so easily? He hurried to the front position to see what was going on. However, he had just left the command post when an air raid siren came from above.

The soldier next to him acted quickly and pushed him away. The two sides rushed into the ditch behind, and then a burst of shells fell down.

Qin Yuan's cooperation here was really wonderful. The two sides acted together. His side came in and was responsible for breaking through their defense line, and then the air force immediately provided support.

At this time, Qin Yuan issued another order. The army had already waited for a long time, and only a small number of people were assigned to guard the position, and the others all went to the siege.

This is the first time everyone has seen this method of fighting, because it is really too barbaric. Basically, the three armies are dispatched at the same time, and they have never seen this method of fighting.

The military minister was about to reach Qin Yuan's position when many soldiers suddenly appeared from inside. He had no time to react and was eliminated on the spot.

In this way, under the siege of several of them, country O has not even dispatched the marines, and the command system has completely collapsed, and it has been completely taken over.

Buck looked at everything in front of him helplessly. The alarm system on his body kept calling, and he tore it off and smashed it on the ground a little annoyed. He didn't expect to lose so soon.

The few military officials next to them were very unconvinced. They were still clamoring that they must let the team fight back for the rest of the way. No matter what, there was still a little hope.

"That's enough. Let's take a good look at it now. What's going on now? We can't fight back at all. Their abilities are here. We only have these long soldiers left. How can we fight? If we continue to fight, it will only embarrass us." ."

"Buck, what do you mean? Do you want to directly disobey the order now?"

Buck shook his head. Such resistance is meaningless, and it will only be more embarrassing when the results are counted later. It is better to end this battle early, at least it is not so exaggerated when counting the number of eliminated.

These military officials are not willing. They think that there is still the Marine Corps, so there is still hope for a counterattack, but they did not expect that the air force is so powerful that they can counterattack at any time.

This means not grasping the timing well, not making a move when it was time to make a move, and missing the best opportunity.

Buck was a little impatient at being quarreled by them, so he just sat down on the ground, "What do you say, now our entire command system has been completely paralyzed, we have all been eliminated, all of them are dead, whoever commands will command them."

As soon as these words were said, several people present were stunned. That's right, no one commanded them to give them orders, so they had to watch them act on their own. The risk was too great.

The blond military officer before me was very unconvinced. He walked over and scolded Buck non-stop. He felt that this guy hadn't done a good job of planning, including the line of defense.

"You should take responsibility this time. Our failure this time is all because of you. You are an extremely bad commander."

Buck doesn't want to explain so much now. Many things he said were directly rejected by these guys. What else can he say?

At this time, Qin Yuan came over, "How is it? We met again. I told you about the result of this battle before. Unfortunately, you didn't believe it at the time. Then, do you believe it in other aspects?"

It was only then that Buck remembered what he said before, especially that Halson. Now he was a little hesitant to tell the truth, but he still didn't know.

"So you mean you have also seen our military deployment map?"

"Hahaha, I don't need that thing, and I can't find that thing, after all, I wasn't the one who gave it to me, and it's still at Matsushita Haotian's."

Seeing Qin Yuan's seriousness, he didn't know what to say, this guy's attack speed is also very fast and his statement may be closer to the truth, if he really knows his military is extraordinary, then There is no need to delay so long, he will start earlier.

And it can also be directly from the front, because he has completely mastered it, and there is no need to go around the lake so much, so he doesn't know the specific military drawings at all.

Qin Yuan and the others were very impressive this time. They won two consecutive victories, and they all showed their military strength in the shortest time. This military status has far exceeded the previous ranking.

And it also allowed everyone to witness different tactics, even if others wanted to copy it, they couldn't copy it.

More importantly, there are already some voices discussing quietly below. They even feel that if Yan Guo and Mi Guo compete in the end, Mi Guo may not be an opponent.

But this statement was quickly unilaterally vetoed by the United States. They are now a powerful country in the world. On the contrary, Qin Yuan is much calmer. He never responded to those rumors. He just did what he should do. .

Chapter 1693: data exchange

Several high-level officials in the United States, as well as the team leaders here, are holding meetings in tents. This situation is not good for them. Originally, they thought that if Xiaomao came to Yan, they could delay it for a few days. , to a tie.

"What do you think of the situation this time? According to the previous development, they shouldn't be able to fill up the venue to fight me so quickly, but they did."

"I see that you are all thinking about this issue. Have you overlooked that there is another country that is also very low-key this time. They have won three consecutive victories."

A few people were studying their tactics in the tent. Qin Yuan's words were all unexpected. Such tactics made them somewhat incomprehensible. It seemed that he didn't have any tactical arrangements on his side, and he did whatever he wanted. what.

"The leader of the Yan Kingdom has confronted us many times. He has appeared in some of our small competitions before. This person is very capable."

"I know you're talking about this person. At present, the strongest opponent is the country and the country of Yan."

Hearing what he said, an officer next to him smiled disdainfully, "As you have seen just now, this man doesn't have any tactical arrangements. He thinks of what to do. In my opinion, he is just an unqualified commander. God, he is just lucky, when we meet us, I will let him know what the real tactics are."

This officer is the deputy commander of the team this time named Moyev. This person was also the commander-in-chief of the Marine Corps before, and his strength is also very strong.

Moreover, he had many actual combat experiences before, so he was sent out this time. Under the conflict of his ideas, what Yan Guo did was all fake, what he wanted was real tactics.

So at present, he thinks that the country is the toughest opponent. They should secret the country now. Since the founding of the country, the ranking has been similar to them, just behind the fifth place.

"I've heard of Qin Yuan who led the team this time, but I don't recognize his strength. Maybe being the captain of a special operations team and being able to lead the team members is his strength, but I don't think of him as a real opponent."

His tone was extremely arrogant. After he finished speaking, he didn't care if other people were still analyzing and discussing. He directly switched the computer screen and forcibly pulled the country's game screen.

Judging from the pictures of this country, all their soldiers are extremely brave. Everyone looks different, but they are surprisingly consistent, that is, all their actions can reach a peak speed.

This surprised everyone. First of all, look at their path level. When they are attacking, everyone is facing the same direction. The speed is too fast. This kind of charging speed is really something that normal people can do. ?

They didn't have too much before, but now they really found some problems after a closer look. First of all, from this point of view, it seems that their soldiers seem to have been exposed to some special training and are more like the style of special forces.

Moyev turned his head and looked at a black officer next to him, "This should be your strength. You have also been in the Special Operations Brigade before. Let's see what their abilities are."....

After the black officer looked at the screen carefully, he was very sure that the training these people received was the same model, but how could it be possible to select so many special forces on such a large scale? You know, there are thousands of people, how can you choose so many?

"This is what I'm more confused about. Could it be that their country has been conducting training all these years, and the whole country is arresting them, but this is too exaggerated."

Having said that, everyone started to discuss and flipped through it, and slowly got off the mark. Moyev patted the table.

"Everyone, I don't think we need to discuss those irrelevant issues. What we should pay attention to now is how to fight them, not how they are formed."

In this way, everyone brought back the previous topic and began to discuss their plans. This side is still discussing, and Qin Yuan and the others are going to fight against country a next. As long as they win country a, they will completely enter In the finals, if you win three games in a row, you will enter the finals.

However, there is no suspense in this game. The game will be held three days later, and it will still be in the same format as before. The main test will be everyone's tactics.

Qin Yuan and the others are making preparations in full swing, and Country O has quietly withdrawn. They still have one chance now, but they can't lose again. If they lose again, they will be completely finished.

But the better thing this time is that their opponent is country h. Country h lost to country a, so they were eliminated. Now they are going to have a duel.

When Buck knew that they were going to fight against Country H, he let go of most of his vigilance in an instant. After all, the opponent really didn't have much strength, especially from the development trend of the past two years, it was completely possible to lie down and win.

It's just that they played against Yan Kingdom this time was a bit too embarrassing, and the ranking may not look good at the end, but at least this time the duel should not be a problem.

But what Buck didn't know at the moment was that the other side had already counted them in. He thought it would be no problem to fight country h, but country h had already reached an agreement with Panasonic Haotian.

In the camp of Country H, Matsushita Haotian smiled and shook his wine glass, then slapped the data on the table.

"Remember, this is a cooperation between our two parties. From now on, we will stand on the same line. If there is any problem, it will be everyone's loss, so I hope you can understand."

The team leader of Country H is called Pu Yongtian. This guy has a little mustache around his mouth, and he seems to have taken the data with a very cunning smile.

"This is definitely no problem. Since you have sent us such a big gift, we will definitely not let you down in the future. Just ask for any conditions you want."

Park Yingtian thought that it must be a good thing that there is no pie in the sky. It must be something good for this guy to be able to send such a crucial thing, but at present, such a good opportunity should be agreed by the higher authorities.

Matsushita Haotian took another sip of wine, and then said unhurriedly: "The current situation is like this, you are sure to be able to achieve what I want, it just depends on whether you have the sincerity, and you don't want to use this data. It's too early to be happy, it's only half, if you want the other half, then you have to do as I say."....

Just as Park Yingtian took over the data, he stopped in mid-air immediately, and he knew that this guy was really cunning.

"You feel like you don't trust us very much by doing this. If you don't trust us, why is our cooperation like this necessary?"

"I hope you understand this. After all, it's not just you who want this data, many people want it, so I can only come to discuss cooperation with you. Of course, you can also regard it as a business."

Although Park Yingtian was a little unhappy when he heard this, but with this thing, their chances of winning would be greatly increased, and it was completely free.

The data in front of me are all the strategic deployment maps of country O, as well as their current real military strength, and the data on all aspects of military equipment are very detailed.

After thinking about it for a while, he asked: "Then tell me what you want now, I have to respond to the higher-ups to see if it can be achieved."

"Captain Park, it seems that you still don't understand what I'm talking about. I said that you can definitely do it, but there is no need to report it."

Pu Yongtian didn't quite understand, at this time Panasonic Houtian suddenly approached him and whispered a few words into his ear, expressing what he wanted, Pu Yongtian was shocked after hearing it.

"How is it? Captain Park, the condition I mentioned is very simple, you can definitely do it, and you don't even need to report it, it's just a trivial matter."

"No! Although this matter is a small matter, the impact is too great. I must discuss it first, and I can't make a decision so hastily."

Matsushita Haotian seemed to have expected it a long time ago, and reached out and took the half of the data directly, "Although it's half a point, I have to let me see your sincerity. I'll give it to you again, anyway, there's still time."

At this moment, Park Yoochun has scolded the guy in front of him all over in his heart, and he wants to say

Their despicable words are not considered to be cooperative guys at all, but they are simply good people in comparison.

Matsushita Haotian walked out triumphantly with his hands behind his back, and repeatedly explained to him in time if there was any problem, and also reminded them that there were only three days left to consider, after all, they were going to war soon.

Looking at the people walking out, the secretaries next to him didn't understand what he said just now.

It's just that seeing the other party take that data away again, several people feel that it's a pity, what kind of request is it, their chief actually directly vetoed it.

"Sir, we feel that in order to win now, this method is actually advisable. There is no need to consider these things at all, and their O country is not a good person. They have done more despicable things than us before."

"Hehe, nonsense, do you think I don't want this data because of kindness and justice? Do you know what the conditions he proposed are?"

Everyone looked curious, and Park Yootian finally said it. It turned out that Matsushita Haotian asked him to drug the army on the side of Yan Kingdom. Because everyone was together recently, they all ate in the base cafeteria on the side of the headquarters. .

However, there are still a lot of differentiations, because people in different countries have different eating habits, and the organizers have made it more grand, and the diets are completely divided.

The food in country H is a little bit similar to that in Yan country, so the materials used in their cafeteria area are all next to each other.

This gave them a good opportunity to tamper with the food. Matsushita Haotian made it very clear that what he needed was to make the soldiers he brought unable to stand up.

But it will not be fatal. After all, if it really affects their lives, it will be relatively serious when investigating. It is just a little gastrointestinal problem that makes them unable to hold a gun, then this is nothing.

Hearing such conditions, several people were silent for an instant. They didn't know how to say that this matter could be done, but the risk was too great.

"So you understand why I rejected him just now. He called this guy really despicable. If we really did it, then he would be a bad person. If there is any problem with us, it will only be us after the investigation."

It's just a pity that he is really reluctant to part with that data now. If they get that data, then they will really win this time.

So now he is also very entangled. At this time, an officer next to him said: "Sir, we can actually try it. Isn't the thing he said just a laxative? Anyway, there are so many people, they really want to give it a try." If you investigate, you will not be able to find out."

"Nonsense, of course I know what needs to be placed, but they should have considered food safety in the cafeteria before, so there are more assistants, and we have no chance to do it at all. If we are discovered later, it will be even more troublesome."

The officer smiled brightly, "Sir, I found out that there is a problem with their power system before. It must be that they didn't consider so much when they were separated, so the voltage system is unstable."

The officer's meaning was very clear. He wanted to take advantage of the instability of the voltage system and add more damage. When the entire cafeteria was plunged into darkness, that was the best time for them to attack.

Moreover, they will prepare the food in the cafeteria in advance, take samples and test them, and only take them out for everyone to use when there are no problems. This is also the intention of the organizers.

So if they want to engage in raw materials, they basically have no choice but to take advantage of that opportunity.

Park Yoochun touched his chin, "Are you sure this method can be used and won't be discovered?"

"Sir, I have two young men with good skills. It would be even better if I could let them go to the power system, let people do it outside, add voltage, and it will be paralyzed immediately."

Park Youtian thought about it and weighed the pros and cons. This method is not bad. In order to win this time and make their rankings look better, he is going all out.

In this way, he found Matsushita Haotian again at night and agreed to his request. They also got the data at the same time.

But not now.

Matsushita Haotian looked at the things he signed and nodded in satisfaction. He was not afraid that this guy would not accept his account, because he was only asked to accept this data, and they were all grasshoppers on the same rope, and no one could escape.

He smiled knowingly, "Captain Park, with your signed agreement, I can rest assured, you can play with peace of mind, and I will come back to you later."

Chapter 1694: technology war

Pu Yongtian clenched his fists, and now he was threatened by this guy. He really wanted to turn his back on him before, but that agreement couldn't deceive anyone.

Now he is forced to be dragged into a pirate ship, and he has no choice. In order to win this time, he can only do this. He is doing everything for his own country.

The few secretaries next to me were very much looking forward to it. They didn't really inspect the product just now, and they didn't know if it was genuine or not.

"Sir, did we act too quickly just now? What if this guy deceives us? We didn't even see clearly what was inside."

"Don't worry, based on what I know about this person's character, he is absolutely capable of getting this thing, and there is no benefit for him to lie to us, and he will probably use us again later."

The secretary nodded, inserted the data into the computer, and started to copy the data, and it was released. However, what they didn't know was that the moment they connected the data interface to the computer, their data was copied at the same time. carve.

At the moment, Matsushita Haotian on the other side raised his mouth slightly. There were several officers sitting beside him, and Reiko was sitting beside him. Everyone was staring at the computer screen, and at the same time, the data from country H was being transmitted here.

All of this is actually due to Lingzi, because before she came in, she was a top student who graduated from a very well-known research university in their country.

At the beginning, Matsushita Haotian looked down on such a person very much. He thought that he just knew how to read dead books, and he looked down on women. He didn't expect that he really tasted the sweetness today.

The current war focuses on the battle of science and technology, no matter how they detect this kind of thing, there is no way to avoid it.

Panasonic Haotian has never done business at a loss, this time it is just an experiment, after all, the various strategic deployments of country h, as well as their material reserves, have nothing to do with themselves at all.

It can be said that Matsushita Haotian didn't bother to fight them at all. At that time, the data he asked Halson to steal mainly contained the strategic deployments of the top ten countries.

Those who are ranked lower are not eligible at all, because their data is all archived and saved in batches.

Panasonic Haotian looked down on country h at all, but on the one hand, this data can be used to test the new technological equipment they are currently using, and it can be perfectly copied.

Then he can use this thing to transmit to other people, and then use the same method to obtain intelligence from other countries, and then resell it in turn.

"Lingzi, I really looked down on you before. I didn't expect you to impress me today. I feel very good. Remember that we are all for the country."

Reiko nodded when she heard this, and felt a little proud in her heart. In fact, she was very opposed to this method at first. Isn't this kind of opportunism? And it's really despicable to use this kind of technology.

It is based on their subsequent analysis, if they want to win, they must do this, otherwise the subsequent games will be meaningless at all, and they will not win.

This is a certain fact. These few games have exhausted their strength, and they will only fight more difficult in the future, and the opponents they encounter later will be very tough. This method is also for the long-term. victory.

So Reiko compromised in the end, and she used the technological means she had learned to attack other countries.

When Pu Yongtian saw the data report, he had a gratified smile on his face. He knew that Xiao Maoguo would definitely not lie to him, and all the data were exactly the same.

He even needs to change the opponent's strategic plan a little bit, and he will know what's going on. This is a very cost-effective deal.

But at the same time, some people asked questions. They always felt that this data could be said to be very precious. Why did Xiao Mao only make such a weak request?

"Sir, you also said just now that they won't trade at a loss, but compared to other conditions that were proposed just now, it seems that the value of what they gave us is higher than the conditions he proposed."

"Of course I know this, so we must start to guard against it when we start to do things. These people are too despicable, and we don't know when they will start, but this is also relatively risky. Only when we have risks can we win."

The discussion on their side was in full swing, and they began to analyze the tactics of country O, while Buck didn't care at all.

He has completely ignored country h, and began to analyze the opponents below. If he wins country h this time, if he retreats later, he should fight with country Yuan.

Country Yuan's words were slightly better than Country H's, so now he also began to analyze.

The battles were going on in an orderly manner. Qin Yuan and the others had no suspense and directly won country a. The fight was as easy as before, which made country a feel even more shameless.

This result was within the expectations of most people. Now that the Yan Kingdom is coming aggressively, all their methods are very good, including those tactics that cannot be reproduced at all. It's hard to guard against.

Compared with Qin Yuan's menacing attack, another big upset broke out on the field.

Qin Yuan and the others are now preparing to rest and face the next battle, because there are still selections, they are going to enter the finals now, and they are starting to wait slowly.

At this time, He Chenguang ran in from outside mysteriously, "Brothers, don't sleep, do you know? It's going to be noisy outside."

"Tell me what you guys have, don't disturb my sleep."

"Oh, don't go to sleep, let me tell you, do you know who won the fight between country o and country h this time? It turned out to be country h."

Wang Yanbing got up from the bed with a grunt. This result was really unexpected. Anyway, from the perspective of military strength and their weapons and equipment, Country H doesn't have much chance of winning.

On the other hand, Qin Yuan was much calmer, and he had expected this result long ago, after all, he had already mastered their strategic blueprint.

It was also guessed that they could win this thing before, and there was not much suspense.

"I told you before that I asked you to do more analysis. In fact, this result was already in my expectation. There is not much suspense and it is boring."

"Brother Qin, what about Halson? Little Mao has been using such despicable means. Isn't that causing many countries to be treated unfairly?"

"There is no way to take them for the time being, but don't worry, I'm not saying that there is no way to stop doing it, but let this guy climb slowly first, he is like climbing a mountain now, when he climbs to the highest peak, I came out on the spot to expose him and let him fall from a height."

What Qin Yuan has always liked to do is to kill people, and he wants to make this guy never have a chance to stand up once. This is the best. He wants to connect at the highest point and expose what this guy has done to everyone. for.

And at that time, they might still receive some unexpected surprises. Now they don't have to worry about those things, they just treat it as watching a play by the side.

The result this time was indeed too unexpected, and everyone was discussing it. Buck in Country O seemed to have aged a dozen years overnight.

If it is said that he lost to Yan Country, it was because he was really strong, but he really couldn't accept the loss to Country H. Country H has never been considered by him, so it is a weak country.

They were sorting out the information in the camp, and they kept getting calls from the officers above. They didn't expect this guy to get such a poor result this time.

Buck also felt that he had nothing to say. He didn't know, but this time he always felt very strange, because Country H seemed to know that all his deployment plans were targeting his weaknesses. Where did he deploy troops, the other party seemed to be It's the same as knowing in advance.

What's the use of saying it now, it feels like an excuse anyway, because in the end, he can only say it if he wins the game.

Now their O country has become the object of everyone's discussion. Their strength was so strong before, but now it has become like this, and no one can accept it.

Fortunately, there is still a competition behind them, but their ranking has plummeted, and they have fallen to the bottom, fighting with other teams.

He had never looked down on those teams before, and Country O quickly took countermeasures, and they immediately redeployed the commander from the country.

Faced with the new commander's accusation, Buck didn't know what to say. He just silently reported the recent events. In fact, he already understood what was going on in his heart. What Qin Yuan reminded him before was true.

Now he originally wanted to talk to the new commander, but this guy was even more arrogant, thinking that the failure this time was all due to Ba Ke alone.

Under such double pressure, Buck was a little mentally broken. He simply stopped reminding them. If they were on guard because of his reminder, then if they turned defeat into victory and won, it would not be of any benefit to him.

He just silently accepted the questioning. The new commander was called Pelton, who was younger than him, and he was better than him in every aspect and field. This made Buck feel even more deeply frustrated.

Buck also stayed, and now he can't go back to the country, and he can't go back to the country alone to face those condemnations, it's really too embarrassing.

We are all in meetings now, and it feels the same with him or without him. Everyone is doing the following tactics, not to mention, so he can only withdraw silently.

Before he knew it, he came to the area where Qin Yuan and the others were stationed. This place is very quiet now, and they don't have much training now, just waiting for the next competition.

When the soldiers at the gate saw him coming, they rushed to report him, and he was brought in after a while.

The moment Buck saw Qin Yuan, he managed to force a smile, "Mr. Qin, it seems that you are the real smart person. Unfortunately, I was deceived by those things at the time. I didn't expect that you were really kind enough to remind me. I."

"That's okay, but what do you mean by coming to me now? Do you want me to think of a way for you, or to remind you?"

Buck quickly shook his head. He just came to learn more about the specific truth of the matter. As for the reminder, that's hard to say.

Qin Yuan had long expected that he would come to find him later, and this person was the key factor in exposing Xiaomao and the others later.

He also told Buck the ins and outs, and it must be inconvenient for him to do anything now, so he deliberately stepped forward, and patted Buck on the shoulder after speaking.

"Actually, I feel wronged for you. The main reason is that many people don't understand at all. If you really endure this incident, then your whole life will be 5 o'clock. Even when you die, your family will be condemned. "

Buck is also seriously thinking about Qin Yuan's words. He is indeed right. Now he is only participating in the competition on this side. He already knows a lot of things in China. Even his family in China has been threatened. Everyone thinks he is a useless command.

"So I think we should work harder, expose this matter thoroughly, and let others see how you failed."

After what Qin Yuan said, Buck's emotions could no longer be controlled. For so many days, no one was willing to believe him. Everyone blamed him but put on a useless label.

At this moment, he felt that Qin Yuan was the one who understood and trusted him the most, and he was full of hope.

"Chief Qin, what should I do according to what you want? Now I can cooperate with you no matter what you say."

"It's actually very simple. When Halson's parents were released, his wife and children should have been killed. So now I want you to find them. This is the key clue."

Buck also reacted when he heard this. Qin Yuan has not moved. It is very likely that he has not found the key evidence. The testimony of Halson alone is definitely not enough.

But now that everyone is staring at Yan Guo, he must not be able to act. Relatively speaking, Buck is relatively relaxed now, and basically no one is paying attention to him.

So leave it to him to do this. Not only will he be able to find the corpses, but he may even find the person who killed them. When the time comes, he will link these things as real evidence.

"Chief Qin, I will definitely cooperate with you on this matter. Don't worry, I will notify you as soon as I find any news over there."

Qin Yuan smiled slightly when he heard this, and then sent him out. He thought that Buck was an old man, but he was still very naive. He just said a few words to him casually, and he immediately went crazy. to run errands.

Chapter 1695: restaurant friction

At this time, Qin Yuan didn't know that they would be tricked by Xiaomao country next. After all, Xiaomao country didn't need to go out in person, it had already bought H country.

Qin Yuan and the others came to the restaurant for dinner as usual. This restaurant is relatively large. After all, people from various countries are here, but the area is divided.

After Li Erniu entered the restaurant, he let go of his nature. He brought a few plates of steaks and picked them up with a fast stick. Everyone thought it was funny.

"What's there to laugh about? You see, eating like this is enjoyable. Take a knife and cut it there, cut it, and eat it in small pieces. What's so enjoyable about it? Let me tell you, don't be so pretentious and stutter. Meat."

Everyone just said that his action was funny, but no one said how he was, but at this moment a discordant voice came from the opposite side.

"It's really a bunch of bumpkins. Have you never eaten meat, but you actually eat like this?"

Qin Yuan looked in the direction of the voice, it was the side of the country of Mi, and there were about six or seven tables between them, but the voice of the soldier from the country of Mi was so loud that it reached his ears directly.

And when those people saw Li Erniu, they laughed for a while. On the contrary, he himself didn't mind. He could eat whatever he liked, and it had nothing to do with others.

Qin Yuan didn't want to argue with these people at first, but he didn't expect them to talk too much, and even used insulting words, laughing and slapping the table while talking, very unruly.

Li Erniu also noticed the abnormality at this time. He couldn't quite understand what the other party was saying, but it was not a good thing to see what it meant.

"I'm going, what are those foreign devils talking about? Although I don't understand, it seems that he is talking about me. I saw him staring at me all the time."

"Don't worry, I'll take care of these people. Have you seen the guy who laughed the most?"

Everyone nodded, watching Qin Yuan's movements, only to see Qin Yuan casually grabbed a handful of peanuts, just put them on his fingertips and flicked them out slightly. The speed of the peanuts was extremely fast, mainly because the target was small and there was no target people noticed.

In the next second, I heard the American soldier who laughed the loudest just now, hey, fell down clutching his waist, and the people next to him thought this guy was joking.

After a long time, he got up and kept rubbing his waist. He didn't know who it was. Turning his head to see Qin Yuan and the others eating happily, no one paid any attention to him.

"Who on earth is so courageous to come and beat me?"

This guy cursed and stood directly on the chairs at the dining table with a very arrogant attitude, because their strength is doomed here, and no one around him dared to talk to him.

The main reason is that the surrounding security guards acted as if they couldn't see them. This kind of rowdy behavior in the restaurant was already against the rules, but everyone saw that the United States did not come out to stop it.

Qin Yuan snorted coldly, it's really a double standard, and is that guy so out of control? In this case, teach him the principles of life.

The next second, there was no peanuts, and this time it hit the guy's front teeth directly, and the peanuts also slipped into his throat. He coughed a few times, and the people next to him realized that something was wrong, so they hurried run forward.

That guy was swearing at first, but he coughed violently after being choked by the sudden peanuts, his whole face was flushed, and it took a long time before he vomited it out.

At this time, Qin Yuan also applauded at the scene, "I really didn't expect that Mi Jun, who has always been said to be the highest quality, would perform for us in front of a large audience. What are you still doing? Don't you applaud such a wonderful performance? ?"

The people around were already watching the excitement, and these guys were too arrogant, there were many people who didn't like them.

He even burst out laughing when he was told this, there was a booing sound in the whole restaurant, and there was someone whistling behind, instantly making these Mi Jun feel ashamed, this is really embarrassing in public.

The big man next to him was clenching his fists and was about to come over to settle accounts with Qin Yuan, but at this time the security guard also came out, and he blew his whistle to signal them to separate.

"Hey, what are you doing? If this continues, I will notify your respective officers. Remember that no trouble is allowed here."

The big man was very unconvinced, he glanced coldly, and stopped their security just now, "Anything is worthy of talking to me here, let me tell you, you are not worthy of carrying my shoes."

The security guard's face was a little livid when he said that, this guy is too insulting, just because they are Mi Jun, they can be so arrogant.

Moreover, this big man was not satisfied with saying this, he even raised his hand to hit the security guard, and the people around him were just watching, because at present, the military rank of this big man is more than enough to beat the security guard.

There is a saying that the chief wants to beat you, there is no reason, and this security guard also felt very wronged, he wanted to raise his hand and return it, but the security captain next to him shook his head at him, they are doing more things here than doing less one thing.

Just as the fist was about to land on Anbao, Qin Yuan came out and grabbed the big man's wrist.

The big man still felt baffled. After all, the power was so powerful that his hands were trembling faintly. When he turned his head, he saw Qin Yuan pinching his wrist with a relaxed expression.

"I said that this friend should be forgiving and forgiving. Don't you know this sentence? And you are indeed making trouble. He is just performing his job, so you are going to make things difficult for him?"

"Don't point and point here, what are you?"

Qin Yuan sneered, and pointed to his military rank, "Although I don't belong to your country, no matter what, my military rank is higher than yours, much higher than yours! Even higher than everyone present, do you think you What should I say? What should I say when I see the officer?"

At this moment, all the people present turned their targets to the willing side, isn't that right? In other words, no one present was taller than him.

This big man is very unconvinced, but there is no way, this is the suppression of the military rank, if it really makes things worse, it will be bad for everyone, so he can only let go.

However, he had already let go, Qin Yuan didn't plan to let him go, just holding his wrist, he felt a pain in his wrist.

"Let go of me quickly, what are you doing? Do you want to fight?"

"You can see, I didn't do anything, isn't this guy just touching porcelain? You are not made of dough, what if I touch you? And I am stopping you from beating people, I am educating you ,Do not understand?"

This sentence made the big man speechless in an instant. This guy was so eloquent that he didn't know what to do after a while, so he could only quickly turn his eyes to the teammates next to him for help.

At this time, the teammate next to him also left. A guy with a big back looks quite narcissistic. He came to the restaurant for a meal and even wore sunglasses. This is too pretentious. Qin Yuan is useless at all. Look him straight in the eye.

This guy didn't even take his sunglasses after he walked up to him. He just stretched out his hand for a handshake. Qin Yuan just glanced at him indifferently, didn't make any gestures, and didn't move. The whole atmosphere was very awkward for a while.

He could only withdraw his hand silently, and then forced a smile, "My friend, no matter what, we can only be friends. You don't need to keep embarrassing my comrades like this."

"I'll say it again, look at my military rank and speak, what are your identities now? What do you say when you see the officer?"

When Qin Yuan spoke this time, he even added his own aura, and all of a sudden his momentum was raised. The American soldiers who were wearing sunglasses just now were stunned. He quickly took off the sunglasses. If he read correctly, that kind of The aura of the king really shocked him.

This kind of request made it impossible for people to refuse for a while, but it came from the fear in their bones. The two of them entered inexplicably and you said hello, sir.

"The voice is not strong enough, especially when he offended me and the security personnel who came to his responsibility just now, what should I say?"

The big man just now didn't know what to think in his heart. He obviously felt very reluctant in his heart, but his body was very honest. It was a feeling of fear.

He could only be extremely reluctant, and apologized to the security guard next to him. Just after the apology was over, Qin Yuan was still not satisfied. He glanced at him when he turned to leave.

"They come to maintain order. This is their job. If you don't give face like this, I will punish you. If you don't follow the rules, then each person will do 100 push-ups."

Hearing this, the big man was obviously unwilling, but Qin Yuan turned around directly, and patted him on the shoulder hard, half of his shoulder was tilted for a while, and it seemed that it was Qin Yuan, and his movements were very gentle.

But that force hit his shoulder like a thousand pieces of gold, he clenched his teeth, he couldn't hold on, he couldn't make a fool of himself in front of so many people, and if he didn't do it, this guy wouldn't plan to let him go .

In the end, he had no other choice, he could only bend down and start to sit up on the ground and perform push-ups on the soldier wearing sunglasses. Seeing that the other party had done it, what else could he say, he quickly followed suit.

The two of them were sitting on the ground doing push-ups, and everyone around them was watching the fun. On the contrary, the security guard just now let out a sigh of relief, which can be regarded as a bad breath.

But he thought about it again, whether these guys would embarrass himself later, after all, he was just a security guard here, and he came to maintain order.

"Sir, I think it's almost done. He has already apologized to me just now. Can this matter be over like this?"

"Are you so cowardly? Let others bully you. Remember, no matter what your status is, if someone bullies you, you will pay back ten times and a hundred times."

An Bao was stunned by Qin Yuan's words, because according to this meaning, he never regarded himself as an ordinary An Bao and gave him enough respect.

At this moment, Qin Yuan didn't know that it was because of his invisible behavior that He Chenguang died later.

The farce in the restaurant was over soon, and the others returned to their seats and began to take the dishes, while Li Erniu smiled, "Hurry up and eat, what are you doing watching me? This steak tastes really good." good."

"I see that your kid knows how to eat all day long."

Several people were chatting and laughing, when suddenly the whole restaurant was in darkness, Qin Yuan also quickly adapted to the darkness, he subconsciously looked at the direction of the restaurant door, after all he wanted to determine where he could leave, and left export.

So I didn't notice the movement of the people behind at all, and there were still many people around that position at this time, holding food and meals, and they had many videos lined up, and no one noticed the situation over there at all.

The soldier from country h was relatively short in stature, he quietly walked along the wall to the window, holding a bottle of liquid in his hand and poured it on the vegetables frantically.

His time was very short, and the security guards at the scene quickly responded and turned on the emergency lights on their heads to let everyone not panic, but the scene was relatively calm.

There was no panic, everyone was sitting on chairs, Li Erniu was still eating in the dark, and he was very calm.

In about two or three minutes, the entire power system was restored again. A person in charge ran in and bowed to everyone apologetically.

It said that the trip occurred because of excessive voltage pressure, and they have just sent staff to repair it. There will be no problem.

Qin Yuan looked around and no one reacted too much. Seeing this, it should indeed be just an accident. Hey, Qin Yuan was not in the mood to eat after the commotion just now, so he picked up an apple and gnawed on it.

On the contrary, Li Erniu was not satisfied with the mountain of food in front of him, and he kept eating non-stop. He Chenguang next to him reminded him to eat less, because his stomach would not be able to bear it.

This guy didn't listen. After eating, Qin Yuan went back to his place of residence. This time, they lived in separate places, and Qin Yuan's commanding privilege was in the single room next to him.

There was nothing to do recently, which made him a little relaxed. He leaned on the sofa, and just fell asleep in a daze, when he heard a hasty knock on the door.

The person who came in was He Chenguang, and he was full of anxiety, "Brother Qin, come and take a look, something serious has happened, our soldiers have health problems."

In other words,,,,,version. 】

what! Qin Yuan frowned, why did something go wrong within half an hour after he left?

Without their coats on, they ran out with He Chenguang, and they rushed all the way to the infirmary inside the venue. Originally, the infirmary was relatively small, and it was just to deal with the trauma of usual training, so they didn't consider the sudden arrival at all. so many people.

Chapter 1696: self treatment

He turned his head and was about to ask He Chenguang, only to see that he was also covering his stomach with a pained expression on his face, and then ran to the toilet opposite.

There is something wrong with this, and so many people have this problem at the same time, it can only be a problem with food or drinking water.

He quickly analyzed that they have independent water tanks for drinking water, so this shouldn't be a big problem, but judging from the current time, it's mostly about food.

They just had lunch, so this has an unsealable relationship with the food in the restaurant, and someone must have tampered with it.

At this time, several persons in charge also hurried over, bringing along a few people in overalls. They were also surprised when they saw the people lying on the playground. They didn't expect the incident to be so serious. Half of the soldiers.

Their symptoms are nausea, vomiting, and diarrhea, which is unbearable for just a few times.

A person in charge of Mediterranean Sea came over and wiped the sweat from his forehead. It seemed that he was really flustered. After all, he was in charge of the food safety of the restaurant, so he didn't dare to neglect if something went wrong.

"Mr. Qin, I'm very sorry. We're sending more staff over to coordinate and help. This is also our lack of work. We can only temporarily put everyone on the playground."

"I don't want to hear those polite words. I just want to know how long it will take for you to deal with this situation? How long will it take for my soldiers to recover?"

Facing willing questioning, these few people stared wide-eyed. After a while, a doctor in a white coat also came over and said a lot, all of which were nonsense.

Qin Yuan sorted it out, which probably means that they haven't investigated the specific situation yet, because they can only conduct blood analysis, only to find that the flora in their bodies has exceeded the standard.

Treatment like this will take at least two or three days before these videos can be recovered. Qin Yuan frowned when he heard this, two or three days, which is a bit too long.

And even after two or three days of treatment and recovery here, their physical condition can't recover to the initial condition. According to the doctor, their medicine here is limited.

At present, I can't analyze what causes it, so I can only treat you with you. This symptom may appear intermittently in the follow-up, and it will last for about a week.

A person in charge on the side had some problems, he looked at Qingyuan, and finally said: "Mr. Qin, in view of this situation, I suggest that all the soldiers be sent to the hospital. After all, our side is only a medical station. Rather limited."

Qin Tao frowned and looked at him. What did this guy mean? After this tossing back and forth, do they want to compete later?

Since it is impossible to rely on these guys, then rely on yourself. He looked at the soldiers who were suffering on the ground. They were too slow to deal with them. Those who first showed symptoms have not been relieved yet.

Qin Yuan walked over and pulled up Li Erniu who was on the ground. His face was already pale from vomiting. Even if his body was too strong, as long as he pulled and threw up, he couldn't hold on any longer.

"Oh, Brother Qin, this is too uncomfortable. I, I feel like I've spit out my gall. Why are you still feeling sick?"

The symptoms of the others were similar. Qin Yuan watched everyone and gave an order to let everyone go back to the camp.

This order stunned the person in charge next to him. What does it mean? Is he going to take the soldiers back to where?

"Chief Qin, what decision are you going to make? Do you want to transfer soldiers? Then we will send a bus right away."

"No, you just need to send the car and send them to our camp. You don't need to worry about the rest, and these doctors are unnecessary."

This time the person in charge was completely stunned. He preferred to look at them. The main reason is that the attitude of these people is really too slow. There are so many people treated like this one by one, when will they have to wait?

It's better to rely on him to come directly. When Qingyuan sent these soldiers with food poisoning back to the camp, a news spread quickly. Everyone on the side of Chuanyan Kingdom is likely to retreat. They were all taken back, most likely because they wanted to go back to China for treatment.

Mi Guo, who heard the news first, felt that the news was a bit unbelievable. After all, it was impossible for Qin Yuan to give up so easily with Qin Yuan's style.

"Everyone, what do you think of this news? Also, their poisoning incident this time reminded us that it's not that simple during this period."

"Who knows who they offended, anyway, they offended a lot of people, but they are going to retire. I don't think this is true."

"What do you guys mean by taking everyone back? Let them kill themselves?"

Everyone discussed for a long time, but there was no result. At this moment, Qin Yuan was treating his soldiers, and he began to treat these soldiers almost with his left and right hands.

Although many soldiers were poisoned, the speed of love was faster than that in the infirmary. They still needed two or three days of treatment, but Qin Yuan completely recovered them in just a few seconds.

The people over there couldn't see clearly what was going on inside, and they were willing to let all the soldiers who were not poisoned stay outside and not allow anyone to come in, and the previous person in charge was also anxiously pacing outside, which would be a bad delay.

"What the **** are you doing here? Even if you want to heal yourself, Yan Country doesn't have to be so strict. What's going on? If something goes wrong, can you be responsible?"

"This leader, I'm sorry, my commander's order is that no one is allowed to enter. We have our own medical soldiers here, and we can solve it ourselves."

As soon as the words came out, everyone felt that this was too nonsense. After all, everyone would bring the accompanying medical team, but the medical team only had a few people, and so many of their soldiers were poisoned. Isn't this a joke?

Soon, several big leaders in charge also came. This matter was no small matter, but no matter what they said, Qin Yuan would not allow them to visit.

It wasn't until the evening that all the poisoned soldiers had recovered, and Qin Yuan came out, only to see a few big leaders waiting at the door.

Before he could open his mouth, he directly asked how the matter was handled. What he mainly wanted to ask was how was the investigation of this matter going?

The leader on the opposite side was confused by his question. Shouldn't he care about the physical condition of the soldiers now to see if they can compete? Why did you ask this in the first place?

"Chief Qin, I can understand your feelings. We all need the truth of the matter, but what is more important now is that we have to send them to treatment as soon as possible."

"They have been cured by me, so you don't need to worry about these things. What I need is the truth. If you can't find out, then I will do it myself."

A short sentence shocked everyone, and the treatment was cured in just one afternoon at the same place. How is this possible?

In the next second, they heard the sound of orderly footsteps from behind, and only saw that several soldiers in the phalanx had assembled and were training on the playground.

"How is it? Would you like to visit? My soldiers are fine. This is the responsibility of our medical team, but to investigate the truth of this matter, shouldn't you give me an explanation?"

This kind of direct questioning attitude made several leaders on the opposite side feel extremely pressured. One leader could only quickly say that they were already investigating.

The food is strictly sampled and analyzed before being given to them. If there is no problem, it will be brought up for them to use.

Qin Yuan interrupted him directly when he heard this, "I know all this, so what I asked you to investigate was when the power was cut off at noon today, it should be the few minutes of the power outage, someone tampered with those dishes."

Qin Yuan seems to be directly commanding the battle now, these leaders dare not show any air, they can only nod repeatedly, and then trot all the way out to investigate.

On the other hand, Matsushita Haotian is the happiest about the poisoning of the soldiers of the Yan Kingdom. For him, it really solved a serious problem. At least there will be no opponents to threaten in the future. They will definitely not be able to compete if they delay the back and forth for a week. of.

However, before he was happy, the soldiers outside came over to report that Yan Kingdom had fully recovered.

In other words,,,,version. 】

"Asshole! How is this possible? I carefully prepared that medicine. It is absolutely impossible to recover so quickly. Where did you hear the news?"

"Sir, I really didn't talk nonsense. Everyone knows about this matter, and now several big leaders above are investigating, and they may come to us soon. The people here seem to say that as long as everyone who passes by the cafeteria It's all going to be investigated."

Matsushita Haotian cursed inwardly, he didn't know if it was because Country H was not doing well, or if Country Yan really had some special means to allow the soldiers to recover in a short time.

People from the investigation team came soon and began to question them one by one. That's it, the investigation is obviously not enough. After all, there are so many people every day. At the moment of the power outage in the restaurant, no clues were found.

Because of the previous poisoning incident, most people chose not to eat in the restaurant when it was time for dinner. After all, who knows if such a thing will happen again.

Everyone was worried that they would not be able to compete because of food poisoning. Like Yan Guo and the others, they had their own medical team, and they were able to solve it in a short time. It can only be said that they were lucky.

So when it was dinner time, there were basically not many people in the entire restaurant, and everyone ate their own canned vegetarian food, which was relatively safe, but at this time they came to the restaurant swaggeringly with a team.

Qin Yuan tasted every dish in front of the dishes they were going to eat first, he is his own poison testing machine, this time there is no problem with the dishes, because no one has the chance to poison.

Just because of this move, the few soldiers in the restaurant were even more shocked, but their commander was willing to test the poison for his soldiers.

In fact, Qin Yuan himself is invulnerable to all poisons, and he has a system to identify it. He waved his hand, so that everyone can rest assured that there is no problem in eating these dishes.

Moreover, Qin Yuan dared to come here in such a high-profile way to tell the poisoner that they were not afraid at all, and he also wanted to observe the situation of the poisoner behind his back.

At present, the first thing he thinks of is Matsushita Haotian. This guy has been targeting him all the time, and he was very unconvinced because he lost the game before.

But now he couldn't find any evidence and had no choice but to ask Halson again what was going on.

As for the investigation team, he didn't report any hope at all, and there was no result until the next morning. This matter seemed to be over. After all, the longer the time dragged on, the less evidence they could find .

Qin Yuan looked at Halson who was sitting opposite, "We can say that we have a cooperative relationship now. I can help you survive completely, including your family, so you have to do something for me now."

Halsn nodded in the affirmative, "I can do whatever you need me to do immediately."

"Right now, Matsushita Haotian is not so vigilant towards you. When he will use you in the future, I want you to investigate and see if you can get something out of him. Is it because of him to drug this time? ?"

Although this is more risky But Qin Yuan knew that Matsushita's IQ was the day after tomorrow, so he definitely didn't expect that Halsn had already been bought by his side.

In addition, knowing that this ***** killed his wife and children, Halsn must have wanted to catch him earlier. Even if Qin Yuan didn't come to him, he still wanted to find evidence.

Soon, Halsn came to Matsushita Haotian's camp in the afternoon. He first excused that he wanted to see his wife and children, but he was rejected again just like before.

He was a little emotionally broken, "So many things happened this time, you know, I really want to make sure they are safe, I have done so much for you, I can do whatever you want me to do now ."

Matsushita Haotian looked at him with a smile. This guy may not have many opportunities to take advantage of it, and he can take advantage of it for the last time.

"Actually, I really understand you very well. We are all in a cooperative relationship. There is no need to be so nervous. I take good care of your family. You just need to help me with the last thing, and I will return them to you of."

Halsn clenched his fists when he heard this. He clearly knew that his family members were dead, but for revenge, he could only choose to endure it.

Chapter 1697: find a scapegoat

Before, he was thinking of keeping Halsen until the end, maybe he could steal other information later when they fought with other teams, but this time they lost to Yan Kingdom, he was not interested in the information of those behind them at all.

If they really sprint to the finals, which teams are too strong, their defense and various systems are stronger, this guy will never be able to get it, so he wants to find a suitable time Kick this guy out.

Just as he was thinking about what method to use, he didn't expect Halsen to come to his door. This was a great opportunity, how could he miss it?

Matsushita Haotian walked over with a smile and poured him a glass of wine himself, "I haven't seen you for a long time, but don't worry, I take good care of your family, haven't I released all your parents already?" Is it? What we pay attention to in doing business is integrity."

This guy said so, but Halsen was already very wary of him in his heart, especially after knowing the poisoning incident, he was more cautious about the wine handed over by the person in front of him.

Fortunately, Matsushita Haotian was immersed in his own thoughts and didn't notice these small movements of Halsen.

"Just tell me what you want. There's no need to tell me these things. I just want to see my family as soon as possible. What do you want me to do?"

"Of course it's very simple. You should know about the poisoning of soldiers from Yan Kingdom this time."

Speaking of this, Matsushita Haotian was still very proud, but he didn't notice that Halsen subconsciously touched the collar, and there was a bug in that place.

Matsushita Haotian is just too proud. He thinks that with his ability, he can absolutely abide by the sky, and he is not afraid to reveal the secret to such a person. Anyway, only the dead will not speak in the end.

So he didn't have any precautions at all, and he also told about the fact that he ordered H country to poison, and at the same time he was warning Halson.

"How could Country H just listen to you so easily? You're not lying to me, are you? You deliberately want to pull me to do things for you."

"Hahaha, after all, I told you that the business I do is very big, and anyone will become my business partner. If they have this demand, of course I will sell it to them. There are no excessive factors."

Halsen snorted coldly in his heart, this guy is really despicable, on the one hand he mentioned country H in order to lower his guard.

After finishing speaking, he took out a small bottle, which contained the things he had prepared before. He wanted Halsen to continue to go to the picture below. They are patrolling soldiers and will also be on duty outside. There are still many things about the power system. Everything is very familiar.

Now the suspicion in country h is a little bit bigger, because they ate the same food as Yan country, but they did not show any symptoms, which aroused suspicion.

The investigation team is now tracking all the key points to country h. Now they are very dangerous. Matsushita Haotian means to let him poison again, whichever country is fine, and get rid of this suspicion first.

When Halsen heard this, he stood up angrily and patted the table, expressing that it was absolutely impossible for him to do such a thing.

"This is meaner than what you've asked me to do before, do you think I'll do it? If something goes wrong, or if I get caught, I'll be the scapegoat?"

Matsushita Haotian smiled slightly, but he didn't expect this guy to react, but he didn't think too much, because he had firmly grasped this person.

"I have analyzed it before. There are two situations. One is that if you work hard, you will definitely not be discovered. If you retreat safely, I will put your family back. It is very good for you and me of."

After he finished speaking, he took another sip of wine and continued: "The other situation is that this operation failed because of your mistakes, and others discovered it. Your family, what do you think of this deal? It's a good deal."

Halsen scolded the **** in front of him 100 times in his heart. This guy kept saying it was for himself, but he arrested his family and threatened this bastard.

mean.

Now he can only endure this anger, because there are still plans behind that cannot be destroyed, Qin Yuan asked him to take the initiative to find this person, just to quickly pull out the real culprit behind the scenes.

What he is looking for is the real person behind it. He knows that Xiao Maoguo will not take the risk of poisoning at this juncture, and will definitely let other people, so he wants to find this evidence and handle, so that other people will not be in this situation. .

These people are in the dark, and they are in the light. Sometimes it is really hard to guard against, so it is necessary to find evidence as soon as possible.

When it was getting dark, Halsen came out of Xiaomao country's camp area. Matsushita Haotian was still worried about him. After he came out, he sent someone to monitor him until the middle of the night. He left him. Opportunities come out.

At this moment, Halsen also began to feel entangled in his heart. He tried many times, and Matsushita Haotian's answer was watertight. He didn't know whether his family members were really still alive.

What Qin Yuan told him was that his family members had been killed, but Qin Yuan was still looking for evidence over there. He was really torn now and didn't know who to trust. If he rashly believed in love, his family members would still If he is alive, will he kill his family because of this later?

After all, he didn't see it with his own eyes, so he didn't believe his family members, and he really died like this. Now he started to waver before this question and answer.

Everything was told to him by others, and he was still not sure. Thinking of this, he found his parents again, and now his parents are with him, this is the greatest security.

The two old people are also very anxious now, after all, their daughter-in-law and grandson are still in the hands of others.

As soon as Halson's father came in, he asked anxiously, "What's the matter, Lina and the others are back?"

Halsn shook his head helplessly. He looked at his parents and didn't intend to tell them before, but now he still has to ask carefully.

"Now I really want to ask you a question. When you were arrested, did you meet Lina and the others? And did you contact them in the end?"

The two elderly people both denied it unanimously. They were detained separately after they were arrested.

When Halsn heard the news, his heart skipped a beat. From the beginning to the end, including now that he has been asking to talk to his wife, he has never had one, which made him more and more flustered.

On the other side, Qin Yuan had been waiting for Halsn, but this guy didn't come, so he also felt a little strange.

After thinking about it, he originally wanted to ask Li Erniu to take a look, but he felt that this guy was too reckless sometimes, so he called He Chenguang over.

"Go over there and see what this guy is doing. If he is worried or hesitates, tell him the news that I asked Buck to find his family, and tell him clearly that it is a corpse."

He Chenguang said that there was no problem, and just came out quietly like this. The place where Halsn and the others were originally patrolling outside, so the place where they lived was made of temporary tents, and ten people lived in one tent. personal.

And because Halsn is the team leader, he lives in the most central position, living alone in a tent.

He Chenguang's speed was also relatively fast. In this case, not only was he not noticed by others, but he went right and left and went straight to the very center of the tent. As soon as he reached the door of the tent, he heard conversations coming from inside.

In the next second, without hesitation, he opened the tent and walked in, which shocked Halson inside. How did this guy come here? No one outside informed himself.

"You! How did you come here?"

"Sir, I hope you don't panic. I'm just representing our captain to convey something to you."

Halsen was reluctantly relieved when he saw this. He was glad that Qin Yuan didn't have much to do with him. If there was any problem, he would sneak in quietly and kill himself.

He Chenguang handles this matter relatively smoothly, and in terms of negotiation, he is better at making Qin

Yuan told him word for word, and added some other things, all of which were completely his own understanding.

Halsen didn't believe it at first, but when he heard that Buck's investigation had some clues, it was confirmed that the person had been killed, but he couldn't find the place where the body was buried. So far, Buck has only caught one of them. one person.

Hearing this, Halsen sat completely paralyzed on the ground, and his parents beside him were also in bed, crying bitterly. They couldn't believe it, but this turned out to be like this. If they knew it, they would have asked for their grandson to be replaced first.

"I also hope that you can mourn. No matter what, the result is like this. He has no intention of letting your family go. So our captain made it very clear. I hope you can recognize the current facts."

After He Chenguang finished speaking, he planned to turn around and leave. The rest should be left to this guy to consider, and he can't force him too much.

Just when he turned around and was about to leave, the people behind suddenly called out to him that Halson's last bottom line had been completely breached, and he took out the wiretapping equipment from his body.

The wiretapping equipment Qin Yuan gave him can record in real time, which is also important evidence.

"You take this, you bring it to Chief Qin, and this is the medicine that guy gave me. I only hope that you can really avenge me, protect my wife and children and protect us."... .

The more he gets to the end, the more he has no confidence, how dare he ask for so much now, he is just a ***** being used to the end.

Thinking of this, he sighed silently. Unexpectedly, He Chenguang turned around and patted him on the shoulder, "Don't worry, what our captain promised you will definitely come true, and we will also guarantee your safety."

Halsen smiled wryly, how can this be guaranteed? He felt that he would be threatened at any time, and Matsushita should kill him at any time the day after tomorrow.

Unexpectedly, He Chenguang pulled him to the outside of the tent, and then pointed towards the six o'clock direction, "You can rest assured about protecting you. Look, they are our comrades. If there are our people there, we will be there at any time." Protect you."

Halsen looked carefully for a long time, but he didn't see anything. At this time, He Chenguang took out his flashlight and started to make a signal, and the other side also started to make a signal from him, but he didn't notice it at all.

With this layer of protection, Halsen became more determined. He said that if he could really be protected, no matter what was to be reported, he would stand up immediately.

He Chenguang nodded, then turned and left. At least the goal had been achieved, and what Buck should have done was almost done.

The next morning, Matsushita Haotian was sleeping happily. He was trying to expand his business completely. At least he still had several countries as his handles. No matter what, he could survive until the end.

However, a loud noise woke him up, and he stood up cursing. He called the soldiers outside but there was no response for a long time.

He could only put on his clothes and go out. He didn't expect to meet people from the investigation team just after he went out. They were wearing uniforms and staring at Matsushita Haotian coldly.

This guy was actually very calm in the face of this scene, because he was sure that he would not have any evidence on his side.

Country h has not had any news that cannot be investigated, and even if it is found out country dare not offend him, at most it will find two scapegoats.

That's why he said calmly, "What are you doing? Why did you come into my camp? Controlling my soldiers casually, do you know that this is a violation of the rules? Can you do that? I'm now reporting to the officer above."

"Hehe, Mr. Matsushita looks like you have no chance. You should go with us now. Aren't you going to sue? Then we will go to see the supreme officer together."

The person who led the team in front left, came up and waved his hand involuntarily, and asked the people next to him to tie him up.

Panasonic Haotian was completely fooled, what is going on? Moreover, all his soldiers are now controlled together, and their weapons are all disarmed.

The highest officials they mentioned are not only from their side, but from several countries. They are responsible for the fairness of this competition, and they will deal with any problems.

Chapter 1698: Bite 1

When he was brought to an office, he raised his head, besides the persons in charge of organizing the contest, the person sitting next to him was actually Qin Yuan.

He couldn't understand for a while what it meant, and at this time, several responsible persons beside him saw that the person had been brought up, and the person sitting on the far left asked: "Now that the person has been brought up, Didn't you say you want to talk face to face? So what's going on? Tell me."

Qin Yuan looked at how his watch was different from the time he had agreed on, because he had already made an appointment with Buck, and Buck only had to bring him back at the end, so all the evidence had already been formed, but so far there is no come over.

"Please wait a little longer, everyone. After all, this good show has just begun, and there are many things that still need evidence."

At that time, Matsushita Haotian had already become very flustered. After all, he knew that this guy had mastered something, and when he was thinking wildly, he was brought in alone.

Unexpectedly, the person who came in turned out to be Halson. When he saw this person, he was completely stunned. He was even more sure that these two guys must be playing tricks behind their backs. Qin Yuan is over there.

He stared fiercely at the person in front of him, until Halson walked past him, and he said in a low voice, "You'd better think carefully, don't talk about what's there, or you'll know what I'm going to do."

Halsn gave him a cold look. He still dared to threaten him at this moment. His face was full of sadness now, and he was sure that his family members were dead.

Buck had already brought back the corpses of his wife and son, and what else could he say after seeing the corpses with his own eyes.

In other words,,,...version. 】

This matter was supposed to be resolved before, but Buck has not found any direct evidence. Although he found his wife's body, if there is any evidence to prove that Matsushita Haotian killed him, it will have to be re-examined.

It was delayed until this time, but with the passage of time, Qin Yuan couldn't wait any longer, which was a bit wrong. Buck was also a soldier, and he was very observant of the concept of time.

But 40 minutes had passed according to the time they agreed on, and something was wrong with this situation. Thinking of this, he quickly picked up the phone and called, but there was no answer from Buck's side.

The people in charge next to him couldn't wait any longer. After all, everyone directly mobilized so many people to tie the generals of Xiaomao Kingdom to this place.

"Mr. Qin, because your previous poisoning incident had a relatively large impact, we respect your decision very much. You said that you have firm evidence before, so we brought him here, but it has been so long, you should also give an explanation."

"Everyone, it's not that I don't give an explanation, but that there seems to be a small problem on my side. I have the evidence now, but there is still evidence for one incident that needs to wait."

Qin Yuan had just finished speaking, when a senior official from the country of America said, "This is not a solution, you have to tell what is going on at the moment, otherwise we will not be able to explain it, and it will be a big deal for everyone. How can a person with status make such a appearance?"

This guy can be regarded as standing up to speak for Xiao Maoguo. No matter what, Xiaomaoguo still has something to use in the end, so he can be regarded as a wave of performance.

And at this time, a woman's voice sounded outside, sounding like they were arguing.

"What! You won't let me in? Where is this rule? We must be misunderstood now, so I want to come in and ask for an explanation. Is this your attitude in handling things?"

"Hello, please step back outside the cordon, this is the office area, no one is allowed to make noise here."

As the noise grew louder, several people in the office couldn't help but waved their hands and asked the outside to see what was going on. After a while, a soldier ran in to report.

"The reporting officer is a soldier from Xiaomao, and he said that there is something urgent to report to their officer."

The few people in the front seat glanced at each other, as if it was not good to keep blocking him, and Qin Yuan hadn't produced evidence yet, so it's better to let people in and see what they have to say first. It's really a delay of something, and it's hard to explain to Xiao Maoguo.

After a while, Reiko came in, and the expression on Matsushita Haotian's face was not relaxed at this time, because he probably already guessed what was going on.

Afterwards, Reiko gave a military salute to the next few people, and then came to Matsushita Haotian's side, "Sir, he said that all tactical plans after us will be implemented according to plan b."

At this moment, Halson was suddenly very excited. He was worried that these guys might have some purpose, so he stood up and shouted:

"Wait! What are the two of them talking about here? This guy is a criminal now. Do you know how many things he has done? Could it be that they are being contacted like this? They must be tipping off the news."

Halsen was very emotional, and the two soldiers next to him hurried over to pull him, but he refused to let him go. After all, this is the pain of killing a child.

At this time, Matsushita Haotian looked relaxed. He knew what message Reiko was conveying to him, which probably meant that the outside matter had been resolved by the superior.

So now he doesn't need to worry about those problems, someone outside will solve them for him, he raised his head, his expression has completely changed, Qin Yuan also noticed, until now he stood up and explained the situation instead of waiting any longer.

Halsen also directly talked about how he was threatened by Matsushita Haotian during this period, including the things he did. In addition to stealing data, there was also the issue of poisoning.

Those officers were all stunned when they heard this. This matter is too big. I thought it was just a small fight before, but if they don't deal with it, it will be completely messed up, because it involves multiple people. national interest.

An officer with white hair in front looked at Qin Yuan and asked solemnly: "But are you really sure about this matter? This is not a joke. I hope you can take it seriously. No matter what the reason is, we do it. It's all about the evidence."

Before Qin Yuan could speak, Halson next to him was already very excited. He felt that he had told so much, why these people in front of him still didn't believe him, and almost stomped his chest.

"How on earth can you trust my wife and son? Their bodies are now in my crowd. You can check them out and send someone to inspect them. They were killed by him."

Matsushita Haotian, who had not spoken just now, snorted coldly, "I really doubt his mental state, Chief Qin, I know we had some conflicts with you before, but you don't need to frame me like this. Come on, look at this man's mental state, his own family is dead, is it on me?"

This guy is really despicable, and now he just wants to bite back, Qin Yuan directly took out the electrical appliance from his pocket, put it on the table, and clicked play on the spot.

The voice of Matsushita Haotian also came out from the bug, and what was grasped in this bug was that he was only Halson who poisoned, including all the evidence of the poison.

When he heard this recording, the expression on Matsushita Haotian's face had already begun to change. This was one of the few pieces of evidence, but for the rest, he just had to kill him and deny it.

"Yes, I admit that I was poisoned. It was because they used those methods to win us before. I was not convinced, so I wanted to poison, but as for the data he said, it has nothing to do with me."

Everyone heard that there are different opinions in all aspects here, which is a bit difficult to deal with, and this matter is not trivial, so the investigation team immediately intervened.

Qin Yuan sat in the office without saying a word, watching the people of the investigation team take Matsushita Haotian down, and when the guy took him down, he gave him a cold look with a smug expression on his face that was visible to the naked eye.

It seems that there should be something wrong with Buck, so this guy dares to be so confident. He admitted the poisoning, and the data has nothing to do with him. After all, the poisoning is only related to them. The matter of data is related to several other countries, which is troublesome.

The speed of the investigation team is also very fast. These leaders also said that they will definitely give everyone a result of the investigation. Regarding the data problem, this is not a small problem. Soon Halson was also taken down. At this time, he very nervous.

"Officer Qin! As you said before, you will save me. Don't let them hurt me. You know that I was wronged and forced."

Qin Yuan just wanted to go forward to comfort Halson, but the people next to him didn't give him a chance to get close at all.

"The officer hopes that you will not embarrass us. From now on, he will not contact anyone. We will definitely investigate the truth of the matter."

In the end, he just opened his mouth, gave Halson a look, made him believe in himself, and said nothing else. At least he would protect Halson's parents very well, and it was impossible for him to let him go. So wronged.

Unexpectedly, things turned around this time. He has always been impeccable in everything he does, and he has never suffered such a disadvantage.

Qin Yuan's complexion was not particularly good. After he came out of that office, he kept contacting Buck, but it was as if that guy had disappeared without any news at all.

They really need to get the evidence now, that is, the data on the USB drive, but it is a pity that he can't get in touch with Matsushita Haotian now.

And now this guy only admits that he ordered the poisoning, and didn't give any data to country h. Country h must have refused to admit it. As for the data, they had already destroyed it.

Pu Yongtian knew that when Matsushita was arrested the day after tomorrow, his heart was like a roller coaster, and the experience of this day made him feel anxious all the time.

He kept sending his subordinates out to investigate the situation, but before he even went out, he was already taken away by the investigation team, because this time they were also involved, mainly to explain the poisoning incident.

Now Pu Yongtian simply refused to admit it, and put everything on those two soldiers, saying that it had nothing to do with him, that's all he could say.

The investigation team is also investigating step by step, but did not find any clues, and can only check their original timeline through verbal inquiries.

Because of the data problem this time, all the teams participating in the competition are suspended, because it involves the issue of leaking, there is no fairness at all.

This matter is very big, and everyone is paying attention. In addition to the investigation team on this side, various countries have also sent special teams to participate in the investigation, because there are too many people involved. There are already three countries.

After Li Erniu was questioned from the outside, he threw his hat on the bed. He kept holding back his breath. They were obviously the victims, but everyone was dragged to question him.

"I'll go, think about it for yourself, what kind of ***** question they asked, why did we recover from the poison so quickly Is it because we are directing and acting ourselves, isn't this pure fart?"

"Okay, you already know they're farting, so why bother with them so much?"

Wang Yanbing felt a little indifferent, and stretched his waist after coming in. They had been questioned by different people this afternoon, but in his opinion, if they were upright or not, they could ask them whatever they wanted.

On Qin Yuan's side, he has been contacting Buck, but he just can't get in touch. The investigation team is also holding on to him, leaving him no chance. All inquiries on their side did not end until the next afternoon.

The suspicion of Yan Country can be said to be completely ruled out, and Qin Yuan has also been completely released. They are now waiting for the results of the investigation above, and he came to the defense zone of Country O immediately.

What happened this time was beyond his expectations. He had no choice but to come to this place to find someone first. The soldiers on duty at the gate didn't dare to stop him, so they hurried in to

report. Qin Yuan was invited in after a while. But it was not Buck who saw the person, but their new chief.

When the people on the opposite side learned that he was looking for Buck, their faces were not so good. After all, Buck was a failed commander with him, and he brought all the troops into the ditch.

"Officer Qin, I don't know what you mean by looking for him. There's a lot of chaos outside now. Of course I have no obligation. I'm not a kindergarten here. He's a big living person. I can't stop him with arms and legs."

"It's nothing, it's just that I had a little friendship with him before, so I want to come to talk to him."

Listening to what this guy said, he didn't pay much attention to Buck at all, questioning that person's life and death had nothing to do with him, and didn't find any useful clues here, Qin Yuan planned to go out in person after returning a trip.

Chapter 1699: strengthen defense

After he came back, he explained to He Chenguang that no one was allowed to reveal his whereabouts. If someone came to him, he would indicate that he was not there. Now he has to go out and investigate this matter secretly.

"Brother Qin, can you go out alone? If not, let's go out with you. If we spread out like this, everyone can investigate together."

"It's okay, this time the matter is to investigate the face, how could that idiot Matsushita Haotian be so careful, the people behind must have helped him, so I have to be more cautious about this matter."

Now what they think of is the high-level officials of Xiaomao Country. After all, this matter involves their overall interests. From their point of view, once this thing is exposed, it will affect the honor of their entire country, so all these things must be cleared up. go out.

After Qin Yuan came out, he called Buck again, but there was still no answer. In a blink of an eye, he thought of another way, using hacking techniques to invade the signal area and quickly enter the connection.

Start to determine Buck's final location. After all, all the current calls have satellite positioning. Although he didn't connect, but according to the IP address when he answered the call at the beginning, Qin Yuan sorted it out again, and quickly got the result. .

Because it took a lot of time to find the previous signal trace, Qin Yuan came to an abandoned warehouse according to the signal. He looked around and saw two or three men standing outside the warehouse, talking and laughing. smoking.

The last position of the signal is here. It is not known whether Buck is dead or alive, but as Buck, they should not dare to make any moves.

The men didn't realize the danger approached at all. The next second, Qin Yuan quickly moved out, and the two throwing knives on the left and right flew out.

Before the man standing smoking on the left could react, he fell to the ground with his mouth wide open, with a lot of blood spreading from his chest.

The person on the side realized that the situation was wrong, so he turned his head and ran. A dagger was directly inserted into his neck. The speed was too fast. Qin Yuan then turned sideways and kicked the person who was about to run to the ground.

This guy knew that it was not Qin Yuan's opponent who dared to shout. Qin Yuan felt that it was not good. It seemed that there were other people inside. He quickly covered this person's mouth tightly, and then dragged him to the warehouse door. The people still heard some movement, and a short man came out.

In the next second, a knife from Qin Yuan directly pierced his eyes. The man screamed and backed away again and again. Taking this opportunity, Qin Yuan rushed into the warehouse and quickly observed the situation inside the warehouse.

I only saw a man tied to the pillar opposite, and that man was Buck. At this time, Buck also had some scars on his face, and he seemed to have been tortured. The moment he saw Qin Yuan, his eyes were full of Hope, with a rag stuffed in his mouth.

There was no one else in the warehouse, and the man who was willingly hit in the eye just now was covering his eyes and screaming on the ground. Qin Yuan thought it was too noisy, so he punched him directly in the chest, and the man fell silent for an instant.

The man who was hijacked by Qin Yuan just now was thrown aside by him. The man watched the scene on the ground and was so frightened that he didn't dare to breathe. This man killed him with just one punch.

Qin Yuan took a slight look, and he quickly knelt on the ground in fright, "I advise you to not move around. Do you think it is possible to avoid my attack with your speed?"

The book chasing app recommended to me by an old book friend who has known me for ten years! It's really easy to use. I rely on reading and listening to books to pass the time while driving and before going to bed. You can download it here..】

Because this guy's hands are very dishonest, his hand has already touched the position of the back waist, Qin Yuan threw a flying knife over in the next second, the flying knife passed his belt, and the pistol on his waist clicked fell to the ground.

At this moment, the man didn't dare to move when he saw this scene, and he knelt down obediently on the opposite side. At this time, Qin Yuan also walked over to untie the rope on Buck's body, and the rag in his mouth was even worse. I don't know where it came from, it's disgusting to watch.

After Buck got up, he covered his swollen face and rubbed his sore hands, then walked over and kicked the man.

"It's really bold. Do you know who I am? Since you dare to imprison me, you don't believe what I said before. This time I will dig out the people behind you, you bastards."

No matter what, he is also the leading officer of country o this time. He is a colonel-level character after all, and he has been tortured in this place all the time.

Qin Yuan took out a kettle from behind and threw it to him. The chapped lips of this guy can be imagined. After all, what happened in the camp area was also very serious. Qin Yuan had wanted to come to him a long time ago, but he had to put that The side matter is settled.

"Okay, you don't do anything to him anymore, this guy is just a kid, it's right to dig out the people behind him."

"Do you still need to dig? Isn't that the ***** Matsushita Haotian did it? It looks like he belongs to him, this despicable guy. I only found a few clues, but he was caught by him."

Qin Yuan told him not to worry, but to tell the details of what happened first, so that he could see what was going on.

It turned out that Buck had already found enough evidence three days ago. One was the secretary who had been following Matsushita Haotian all the time. This guy sent all his secretaries out to handle this matter himself.

At that time, he had already found the bodies of Halson's wife and son and sent them back. Now he only needed to find other evidence, the key USB drive.

Buck followed the secretary, and then came to their usual business hut, where he also met other leaders of Xiaomao Country, which was very illegal.

Because the rule this time is that only the leader of the team can bring the team over, and no one else is allowed to appear.

"Are you so sure that you are the leader of Xiaomao Kingdom?"

Qin Yuan is not suspicious of him, but this matter cannot be joked, and evidence must be obtained. Although he knew that Xiao Maoguo would do such a despicable thing, the evidence was the most important thing, otherwise these guys would really refuse to admit it.

"I can see clearly that the person in the lead is someone who attended the State Council before. I have met him. He is one of Xiaomao's leaders. The two people next to him seem to be his secretary and their military minister. "

"What's going on behind the scenes? Why did you suddenly lose your information?"

But when he said this, he directly frowned. He said that he was so fascinated by listening at the time that he didn't even notice that there were guards behind them, so he was caught directly. Those people originally wanted to execute him, but it seemed that an officer recognized him. his identity.

They didn't dare to kill Buck at will. It would be too serious if this matter got bigger, so they could only temporarily lock him up and deal with him later.

"Then they brought you here directly. Do you know where those people are? And you found out where they were discussing before."

Buck nodded. Just as he was about to tell Qin Yuan, the person in front of him suddenly grabbed him, and then the two jumped out from the back window of the warehouse at an extremely fast speed. Buck had no time to react, and then a huge explosion sounded behind him. up.

Buck was dizzy from the powerful shock wave, and couldn't even stand still. Qin Yuan next to him was like a normal person, carrying him and running all the way, then jumped to a safe subway, and the two hid in the dark alley in.

After a long delay, Buck finally realized that blood was already oozing from his ears, and the shock wave was too strong.

"How? Are you still able to walk normally?"

"No problem, but what's going on? These **** really dare."

"Why don't you dare, in order to destroy the evidence, they have done this kind of thing not once or twice. They wanted to destroy the evidence for the things they did to us before, let alone this. In order to destroy the evidence, they can ignore it." everything."

As soon as Qin Yuan picked it up, he jumped to a small platform on the second floor with ease. The two of them lay there quietly, watching the warehouse in the distance was on fire, and several people suddenly appeared around the fire. Heavily armed personnel, they have been guarding the warehouse door.

"See, if the explosion didn't kill us, as long as we dare to go out from there, we will definitely die. These **** are too crazy and can do anything. This time, they want to completely destroy the evidence."

Qin Yuan also cursed secretly in his heart. Originally, he wanted to find evidence this time to completely eliminate Xiao Maoguo. Such a despicable player should not be sent to the field, but it seems that this is not enough.

This fire can be said to have destroyed everything. Even if Buck wanted to testify, there is no other way now. Qin Yuan patted him on the shoulder and asked him to follow him back to the camp area first.

"As for the USB flash drive, we can only start with Halson. Only he can change. This person is important. He must be protected. I have to find a way to get close to him as well as Matsushita Haotian."

Although Buck didn't know what they could do, but now there was a raging fire on the opposite side, and the explosion left a lot of shadows on him. These guys really dare to do anything, so they can only follow go back.

When Qin Yuan came out, he alone had no influence, he could come in and out at will, and the other party didn't notice at all, especially the patrolling personnel, but now that he brought Buck with him, he had to be more careful.

He looked at the time, and he probably couldn't get in now, and he found that the patrols on the outside had also been strengthened, so he had to wait until after dark to see if he could find a way to get in.

"This is really strange. Why have the patrols on the periphery been strengthened? You can see that the strength of a company has been fully strengthened, and sentries are even arranged on the side!"

is not that right? Qin Yuan had no problems at all when he came out yesterday. He shuttled freely. In this situation, it is too difficult for him to go in during the day, let alone bring Buck, so the two of them can only wait until night to act. He also said Not sure what's going on.

At this time, a very important event also happened in the camp. He Chenguang didn't know what happened, but felt that the patrols in the camp seemed to be strengthened. There are a lot of external forces coming.

At this time, a person in charge came outside the camp to inform Qin Yuan to hold a meeting. Now the leaders and persons in charge of each district must go to the meeting.

He Chenguang frowned when he heard this. It was not a good idea, so he could only quickly ask the time, "Exactly when will the meeting start? I will inform our officer."

The people on the opposite side were a little impatient when they heard what he said. After waiting for a long time, Qin Yuan didn't come out, but he, the big soldier, answered to himself here. This somewhat disrespected his status as the person in charge. responsible for the principal.

"You don't need to know these things, as long as your chief knows, why hasn't your chief come out yet?"

He Chenguang also heard that he was very contemptuous. Since this guy doesn't want to respect, there is no need for him to engage in that kind of thing, and he changed his attitude directly. Anyway, the feeling of Yan Kingdom is different now. .

"When your big leader came before, our officer said he couldn't see him, let alone you. I just go in and report what's going on. You still want to wait to see our officer. , if he gets angry, I won't be able to say."

Hearing He Chenguang's tone, the person in charge wanted to get angry, but after thinking about it, he couldn't afford to offend this person. This Qin Yuan is very powerful in all aspects, and what's more, the officials above really respect him.

"Don't talk to me with this attitude, he is him, you are you, don't think that I am really afraid of you, the meeting will be held at 7 o'clock in the evening."

After the person in charge finished speaking, he left directly, and stood in the same place with Chen Guang. He turned around and went in after he left, and quickly discussed with everyone what to do now.

After Qin Yuan went out, there was no news at all. The meeting will be held at 7 o'clock. This is no joke, because it is the responsible leaders of all regions.

Li Erniu felt that since the matter was so urgent, it would be better to send two people out to find Qin Yuan first, and now, while everyone didn't pay attention to this, hurry up and find him back.

Although Qin Yuan told them before that they should not rush out, but the current situation is no longer allowed. After all, this is going out privately, and there are many things that happened recently, so it is easy to cause misunderstandings.

After discussing with them, they planned to go out and have a look. It would be better if they could find it. However, when they came to the outer area, they were completely shocked. Three times the troops deployed in the outer area are currently on duty, which is completely impossible. go out.

He Chenguang frowned and became more serious. It was very difficult to go out under such circumstances, and it was also very difficult to come in. He became more and more worried about whether Qin Yuan would be able to come in.

Chapter 1700: Matsushita Haotian is dead!

Just when they were hesitating, a deep voice suddenly came from behind.

I only saw a person in charge leading the team members to come to them, and waved his hand to let the others go to be on duty first. Unexpectedly, the troops were increased again. What is the situation?

"Hello, now we have received an order from our superiors. I hope that everyone will return to the camp and stay well. If there is no emergency, don't go out. I also hope that you can cooperate well."

Having said all this, He Chenguang could only look outside for a while, then turned and left. There were many things he couldn't ask.

Qin Zhengyang was a little anxious. He said that if they attract attention here and help Qin Yuan take the opportunity to come in, then this is a good way.

As soon as he reached the corner of the tent, he couldn't wait to say: "Did you hear what I said just now? We're going over now. Don't worry, I will hold them back. As long as there is a lot of movement inside us, we will stop them." It can let Brother Qin come in smoothly."

"You silly boy, if you think this way, don't others think so? We are making too much noise now. If the treat is not outside, wouldn't we be wasting it and attract others' suspicions."

"This? Then what do you think we should do now? Are we just sitting there like this?"

"Besides this, what else do you think can be done? At present, Brother Qin is not here. I must keep everyone in a good state, at least not to be caught by others."

A few people can only go back in this way, and it is true that what He Chenguang said, the movement they are making now will arouse other people's suspicion. it is good.

They had just returned to the camp, and soon a message came, which made everyone even more nervous. At first, they wondered if this meeting could be avoided. After all, they didn't know whether Qin Yuan could come in at 7 o'clock, but it seemed that this matter could not be delayed at all. of.

Wang Yanbing was very anxious and kept pacing back and forth in the room. He walked outside the tent to check the situation from time to time, but Qin Yuan still didn't come in. The time passed by one minute and one second, and now it's more than five o'clock.

There were only two hours left before the meeting, and everyone was very nervous, wondering if Qin Yuan would be able to come back in time.

Until the last moment, Wang Yanbing was a little desperate. Now there are only five minutes left, how can this be in time? And most of the people inside have already assembled in the venue, and everyone is preparing for the meeting.

But only the area of Yan Kingdom was vacant. The person in charge frowned, a little unhappy. Don't be late for this guy from the beginning. This is the first time that all the team leaders have been notified for a meeting.

After a few minutes, he raised his hand to see that it was already seven o'clock, but Qin Yuan still didn't show up. He was not very happy, so he waved his hand and asked the soldiers beside him to hurry up.

The team leader of Baguo felt that something was wrong with this situation, because it was not Qin Yuan's style at all, this person basically would not be late, he had a strong sense of time, he only arrived early and never said that he was late.

Before, he had heard that Buck, the captain of country O, seemed to be missing. After all, he hadn't seen it these days. He always wondered if there was some connection between it?

As time passed by, the people in the venue became somewhat impatient, because the meeting was not yet complete, so the meeting could not be held.

At this moment, the soldier who came to inquire about the news was also stopped by He Chenguang and the others, "What are you doing? Is your face so big? I know some of your previous victories, but this is the order of the highest officer. Get everyone to the meeting."

"Our captain is sick, and it's inconvenient to come out to meet people now. If you can't do it, report it to the highest officer."

The soldier who came here to inform was baffled when he heard this. Why did he just say that he was sick and let him go back to report that he didn't see anything? So many people are waiting for him.

But He Chenguang here was very persistent, and led people to block the door directly, so that he had no chance to go in and see it. In the end, he could only leave in despair, planning to go back and sue.

The soldier felt that he brought the top officer with him and could not order him. Now that he has become like this, he must not be convinced in his heart. He felt that the other party looked down on him, and he even added embellishments after returning to the venue.

"Reporting sir, I think this person is deliberately delaying the time, and he didn't pay attention to us at all. I said I wanted to go in and check his situation, but was rejected."

Now the few leaders who were preparing for the meeting in front were not happy, this completely ignored them, and said sternly at the meeting place, no matter what kind of illness, even if someone lifts him, he must be lifted Come in.

The leader of the U.S. country said mockingly: "I don't think you have any need to take others. Isn't it obvious that they don't want to come? If they don't want to come, why do you want to force them?"

"Hehe, what do you mean? Do you really think this is a place? He comes and leaves whenever he wants, how can it be so simple."

The leader of the American team helplessly spread his hands and said that he was just talking casually. In fact, this guy was very happy. After all, he felt that he had succeeded in provoking, and he wanted to let these people deepen their impression of Yan Guo, especially Yan Guo. Such a bad impression.

While everyone was discussing, a deep voice sounded from the door, only to see Qin Yuan walking in with his hands behind his back with a relaxed face.

The officers in charge at the front saw him like this, so they didn't say it. This guy was late, but he still put on such a face, he really thought this was his home.

"Officer Qin, I think you have to give an explanation for being late. There are so many of us waiting for you, don't you even feel guilty at all?"

"Oh, I'm sorry, I didn't know you were waiting for me. So my identity is so important. People have three urgencies. I'm going to the toilet. What can I do?"

When he said this, the whole room burst into laughter. At this moment, the leading officer of country A was not particularly happy, and stood up and patted the table, "On such a serious occasion, look at what you are talking about. You look like an officer." nothing."

"Why are you still not convinced? You have to listen to the explanation, and I explained it to you. I explained it, but you don't believe it. I don't know whether I should report to you or to whom."

The person from Country A hadn't spoken yet, and Qin Yuan said directly, "Do you think I'm lying? If you don't believe me, you can go to the toilet to see, it should still be steaming."

This time, the whole room roared with laughter. The captain of country A was so angry that his face was livid. This guy is really exaggerating.

Just when the two were still arguing, the leader in charge patted the table, and then everyone quieted down. How much time would be wasted? Everyone gathered here today to solve the problem at a meeting, not to see them noisy.

"I think you are all dignified people. No matter what, you are the leaders of each family outside. Are you going to quarrel in this place?"

Qin Yuan didn't say anything. He walked to the side and sat down. Country A saw that he didn't say anything. He was thinking about it. Isn't that to make people laugh? In the end, he could only bear the breath.

Qin Yuan probably already knew the content of this meeting, because He Chenguang told him when he set off that Matsushita Haotian actually died, and he committed suicide in fear of crime, and committed suicide directly in the place where they were detained.

Apart from announcing the training of this guy, the main content of the meeting was the issue of the data, which made everyone panic, because they didn't know how much data was leaked, and where the data was going.

This time I came to discuss this matter. It was indeed the negligence of their organizers that caused the loss of data this time.

Speaking of the several leaders of the organizer who began to shirk their responsibilities, the person in charge coughed twice and said: "According to our interrogation, it should not have leaked too much data. We can do that. Guaranteed, otherwise wouldn't it be all messed up?"

After saying this, everyone started to discuss. Of course, the US side is not afraid. Their data confidentiality level is the highest, and they are in the front. They will definitely not be known, so they show an indifferent attitude.

Like Pakistan, their tactical equipment is not as good as other countries, so the key to victory must be tactics. If all the information about their tactical creativity is figured out, then what's the point of fighting like this?

"But you keep saying that the data is not lost, please show the evidence. After the person dies, the evidence will disappear."

This question was very straightforward, and it took time to embarrass the leaders above, but he quickly adjusted his mood.

"I can understand everyone's excitement, but I can use my group grid here to guarantee that this is absolutely not lost. No matter whether we searched or wanted to ask, we did not find any missing data, so everyone next You can play with confidence."

When Qin Yuan heard what this guy said, he snorted even more. At first, he thought they really wanted to solve the problem, but it looked like they just wanted to shirk responsibility, and just found a reason to dismiss everyone, and then let everyone feel at ease. It doesn't make sense.

Balala said a lot, and he only yawned, so he was ashamed to call everyone here to talk.

Maybe because he noticed Qin Yuan's emotion, the leader of the Ba State next to him said: "Chief Qin, I don't know about the data, how much do you know? After all, this matter came from you in the first place, so I just want to know Will it really be leaked? I don't believe them at all now."

Qin Yuan looked at the people around, everyone was discussing, and there were people arguing next to him, but no one paid attention to his side, so he lowered his voice.

"Yes, I have learned about this. As far as I know, the data of at least seven countries has been leaked, but I don't know which seven countries."

what! The leading officer in Pakistan gasped so much, isn't this a joke? That doesn't pay attention to fairness and justice at all, it's completely transparent.

"Since the matter is so serious, why don't you respond to them? This matter should be emphasized to them. We must find a solution. Otherwise, wouldn't our efforts be in vain?"

Seeing him so excited, Qin Yuan was very calm, "Do you think I don't want to find evidence? To tell you the truth, in fact, I already have witnesses, but without other evidence, these guys have nothing to do with them. "

"What! Even you can't do anything? Isn't this going to be messed up by them?"

Qin Yuan sneered, not to say that there is no way, he would not have thought of it, but these guys are really good enough to make Matsushita Haotian the scapegoat who was scapegoated. Now that guy means that he is just biting, He admitted the poisoning thing, but he didn't mention the other data issues at all.

So the most important thing is that so many people haven't found that USB flash drive, but he is not sure, he still has to find a way to enter the resident of Xiaomao country.

However, because of the special relationship in Xiaomao country, they are all under strict surveillance. It is not so easy to enter that place, and it still costs something.

As for the people in charge, they can't be counted on. Even a matter of poisoning can be led by the nose, and Qin Yuan doesn't dare to compliment him on other things.

But the person in charge of the organizer also said that because of this incident, everyone will actively investigate and will definitely give everyone another explanation. Now their suggestion is to temporarily repair the war for three days.

In these three days, reorganize and then completely change the layout from the previous model. In this case, even if there is a real data loss, the layout can be re-made on other tactics.

As soon as this condition was stated, some people objected immediately, because in their view, it was absolutely impossible to re-plan the battle situation in three days, and it would take at least a week.

"Our army, land, and air force have to cooperate with each other. How can you do it in such a short time? Moreover, this is obviously a matter of your negligence. You must give an explanation."

The people below started to boo. Under such heavy pressure, the organizer could only reluctantly agree to give it a maximum of five days. If it was more than that, it would be bad for anyone to delay.

Because there are still many teams that have been eliminated before this, it must be unfair to others, and the time left for them has increased.

After the so-called saliva meeting, Qin Yuan yawned straight away. When he came out of that office, he was thinking in his mind that now that Buck had gone back, he was also an important witness.
