

## Special Soldier 171

### Chapter 171: Silhouette

The black man sitting on the side at this time, General Walli also laughed, and said to the white man:

"My dear friend, if you do such a thing, I can ask my soldiers to do it for you!"

But Jameson glanced at General Walli with a slight disdain. Although the old man didn't deal with him, he was still a master. How could an idiot like you be able to kill him.

But he thought about it for a moment, then shook his head, and said to Zai:

"That's not what I said, the old man, if he could be killed easily, then I would have done it a long time ago. Although the mission failed this time, he has someone in the company, so even if you don't see him Pleasing to the eye, I can't move him either."

Zay stood up directly, picked up his pistol, and kept making gestures:

"I think your company's system is really unreasonable. Like us in the Silver Triangle, we will kill those who are not pleasing to the eye, drink and eat meat, and make a lot of money. It is really cool!"

Speaking of this, Zai suddenly coughed twice, then took out a cigarette and said to Jameson and General Walli:

"Would you like to come with me?"

General Wali saw the cigarette, his eyes glowed, he took it directly, lit it, and took a sip!

And Jameson, of course, understands that there is something in this cigarette, which comes from the Silver Triangle, so it must not be wrong.

But Jameson shook his head and smiled. He envied the profit of the Silver Triangle, but he would never do it if he wanted him to join the Silver Triangle.

These people really tie their heads to their waistbands, and they are even more dangerous than those who are mercenaries, because they are soldiers who are backed by a group, and these people are real duckweed, maybe. When a big wave comes, it is gone.

"I don't want this thing. I use too much and it affects my skills. But I am very interested in you. Can you provide me with a supply channel for the Silver Triangle? You make money too quickly. Even faster."

Hearing what Jameson said, Zai smiled and said to Jameson:

"I know you kid is thinking about this, but since we are friends, there is nothing difficult. After this is done, I will give you a supply channel directly, and everyone can make money together!"

Hearing this, Jameson's mouth also showed a smile

But when it comes to the task, Zai is a little puzzled and said:

"You said what exactly our boss wants to do, and not to do a good business, but he drags us to this place where birds don't shit. The people here are so poor that there is not even a girl who can be seen!"

"Why not, if you want women, I will call you a dozen immediately!"

At this time, General Walli said directly, but Zai shook his head. In these women, the black ones are the same as the black charcoal, and they are not visible at all:

"Forget it, take it yourself, I will have a nightmare at night!"

And when Jameson heard this, he shook his head and smiled:

"Okay, stop complaining. I don't know what the real big bosses think, but since they are taking money, naturally they have to do things well for them. I won't talk about these boring things. You give me Let's talk about it, what's the trick to doing your business..."

As soon as General Walli talked about this, he stopped talking and waited attentively to listen to the business.

But at this moment, the three of them heard a sound, the door was suddenly opened, and a figure rushed in directly from the outside!

Seeing this person at this time, Jameson's brows suddenly frowned, and he said directly to this person:

"Father, you useless idiot trash, don't you know what politeness is? Knock on the door before entering. Your father didn't teach you such simple knowledge!"

And Zai also held the golden pistol in his hand, looking at his father with a bad face.

Although the business between the two of them is not a big deal, it is still illegal after all. If the old man went to make a small report, if the two of them said less, they would have to be put down.

And the old man looked at Jameson, but said angrily:

"You idiot. You know you are making money here, do you know that the prisoners outside have already run away!"

"what?"

Hearing this, both Zai and Jameson's faces changed. Their main task here is to guard these prisoners. If these prisoners really run away, then the two of them really can't eat it. .

Both of them quickly ran towards the window, wanting to take a look at the outside.

But Jameson soon reflected that it was impossible for the prisoners outside to escape. Otherwise, why didn't there even a gunshot outside?

But Jameson just turned around and wanted to say something to the old man, but he saw that he was holding a dagger in his hand, and he suddenly drew towards him.

Jameson's eyes were very surprised. He didn't expect that his father would dare to shoot directly at himself. You must know that the father who didn't complete the task this time was the father who should be punished. Does this guy think Do you dare to do such a rebellious thing with someone behind you?

Thinking of this, there was also a fierce light flashing in Jameson's eyes. Since he is unkind, it is no wonder that he is unrighteous.

Jameson directly wanted to take out the pistol and kill the old man, but at this time he was very surprised to find that the dagger in the old man's hand was almost a flash of lightning, and it was impossible to avoid it.

This guy is not an old man!

The last thought came to Jameson's heart, but unfortunately the news could not be spread, because the dagger in the hand of the old man had directly hit the center of Jameson's eyebrows, and the huge force directly hit the position of the center of the eyebrows. The sunk in, Jameson lost his breath in an instant!

At this time, Zai also discovered that something was wrong. The gun in his hand was about to be fired, but he found that his hand was empty, and then there was a pain on his neck, and air could no longer enter his lungs.

Qin Yuan held the golden pistol of Zai in his hand and looked up and down, feeling that it was still too ostentatious. Wouldn't it be regarded as a living target by others on the battlefield with such a gun?

"You...what are you doing?"

At this time, General Wali looked at Qin Yuan with endless horror in his eyes.

Qin Yuan smiled slightly when he heard this, the power of the ant in his right hand burst out instantly, and he gently squeezed Zai's neck.

Wali only heard a click of Zai's neck, and it was put into a strange shape in an instant, and his neck hurt.

And Qin Yuan ignored Wali, just looking at Zai's body. He had heard the conversation between these three people just now through his super hearing, but he didn't expect that this fellow Zai was still a person in the Silver Triangle.

Chapter 127: What do you think

"It seems that these people are not small in power, and they have their staff everywhere!"

Qin Yuan murmured a word, but now is not the time to delve into these matters, now first complete the task in front of him.

And then it's time for the real drama to be staged.

At this moment, Wali who was on the side saw Qin Yuan's unkind eyes, and his eyes became more and more frightened. He just wanted to yell, but saw Qin Yuan suddenly fired a shot and hit it directly. Wali's forehead!

The body of General Wali retreated a few steps, broke the window directly, and fell abruptly from the upper floor!

At this time, there happened to be a group of Jacobeans patrolling downstairs. The body of General Walli fell from the upper floor and fell on top of the patrol team, killing two people abruptly!

The people on the patrol team were in an uproar. They stared at the corpse that fell from the top with wide eyes. Upon closer inspection, they discovered that this was their general Wali!

"General Walli is dead!"

"What the \*\*\*\* is going on? Isn't he chatting with Eagle Beak?"

At this moment, everyone became panicked. At this time, someone saw that there was a person by the window upstairs. He was still looking at it and found that this person was Zai!

"It's the white-skinned monkey and the national pig!"

"Damn, they saw us not pleasing to the eye before, this time they killed General Walli!"

"Let's go, let's go over and ask, ask for a justice, to avenge our General Walli!"

"Vengeance!"

At this time, a group of people went directly upstairs, and seeing the menacing appearance of these people, the mercenaries at the door were like enemies, and they all touched their guns.

At this time, on Qin Yuan's side, Qin Yuan first fiddled with the corpses of these two people, and then ran downstairs pretending to be horrified, and said to the mercenaries downstairs:

"Damn, the guy Zai just smoked a lot of white noodles, and he broke the black skin with just one shot. What should we do now?"

"what?"

At this time, hearing Qin Yuan's words, the mercenaries downstairs were also full of panic. They just wanted to rush to ask Hawkeye what to do, but they suddenly heard it, and two gunshots sounded inside!

walked over and took a look, but found that Zai was holding a pistol in his hand, and the eagle's hand was also holding a gun. The two shot each other, and all the bullets hit each other's body. Both of them were out of breath!

"Damn, why did things become like this?"

The mercenary screamed, and at this time they also heard the voices from the Jacobians downstairs:

"Vengeance!"

"Vengeance!"

"Vengeance!"

Hearing this voice, the face of the mercenary captain was also extremely ugly, but he had no experience in handling such things, so he had to face Qin Yuan with a tangled expression:

"Father, what should we do with this matter?"

The "daddy" in front of him had a calm face and said to this person:

"There is no way. Now those people are completely angry. If we tell the truth, they will never believe it. Therefore, for our little lives, we must act first to be strong, directly occupy here, and kill them!"

Hearing this, the mercenary also sighed, his eyes changed, and he took up the weapon in his hand.

Anyway, these black-skinned monkeys are not important things. After you get rid of these people, go and explain to their chief.

At this time, there are also a few people who feel that something is wrong, but even if they want to break their heads, they can't believe that Dad is pretending to be Qin Yuan!

Qin Yuan also saw a trace of hesitation on the faces of some mercenaries, and at this moment, Qin Yuan suddenly heard gunshots outside, and the black uncles actually shot directly at this place as a demonstration.

And Qin Yuan stretched out his hand, and a bullet suddenly appeared from the position of the window, directly hitting the mercenary with a slight hesitant expression just now, and directly killed this person!

At this time, seeing that someone really died, the eyes of these mercenaries became crazy!

And Qin Yuan took advantage of this opportunity and yelled directly:

"Fuck! Those people are really crazy, if we don't do anything, we will really be killed by these people, and everyone will copy the guys and kill them!"

Looking at the body of this mercenary, the eyes of the surrounding mercenaries also turned red, picked up the guns in their hands, and began to shoot at the outside.

The black uncles outside did not expect that their demonstrative shooting could kill people, and even more did they expect that these people actually shot at them, and they were swept up in an instant!

But after all, there are so many people, they quickly settled their feet and started to counterattack these mercenaries!

That's how the two people fought!

It's just that none of these people noticed. At this time, Qin Yuan's mouth was sneered with a trace of conspiracy.

The reason why the mercenary was shot just now was because Qin Yuan directly flew a bullet out, using the maneuver technique of playing cards to make the bullet go around a big bend and hit the mercenary's head!

"Hit it! It's better to kill more people!"

Qin Yuan thought of such words in his heart, while the cold wind standing outside the camp was shocked when he heard the gunshots in the camp!

He thought that Qin Yuan was exposed, just wanted to send a message to Long Xiaoyun and the others, asking them to come and support, but he picked up the gun and took a look through the telescope above, only to find that Qin Yuan was hiding in a floor, shooting people vigorously.

The mercenaries and the black uncles outside are in a group.

Leng Feng was completely stunned at this time, and he really couldn't understand what was going on.

At this time, Long Xiaoyun's phone was also connected, and the voice came from inside, and asked the cold wind:

"Hey, what the \*\*\*\* is the cold wind? Did your action fail?"

Leng Feng heard what his captain said, but his face was full of entanglement, and said to Long Xiaoyun:

"I don't know if we have failed, but it seems that we are still under the control of the master, but just in case, you should come here."

At this time, Leng Feng looked through the telescope and saw that Qin Yuan made a gesture to him. This was a gesture for him to stop the soldier, proving that the situation was still under Qin Yuan's grasp.

As a result, Leng Feng's heart was also relieved, but he suddenly thought of Qin Yuan's thoughts, but his eyes widened:

"Damn, let us not move. Is the master planning to kill all these people alone? How did he make it think?"

Chapter 173: 5 grids

At this time, Qin Yuan, of course, could not hear Leng Feng's doubts. He was focusing his attention, observing the overall situation, and ensuring that the forces between the two sides reached a balance.

And he also wanted to take advantage of this opportunity to check his record, see which mercenary was injured, and fly out a wooden thorn to completely kill the opponent, and when the black uncles of the opponent were about to die, he shot one step first. Shoot directly to grab the head!

In this way, he abruptly maintained the balance between the two sides.

Those mercenaries are few, but they are powerful and cooperative, and they occupy a favorable position. Although the Jacobians outside are large in number, their weapons are behind and they lack command.

In the end, these mercenaries forced the black uncles of Jacobs back!

But even so, these mercenaries suffered heavy losses. Upon seeing this situation, Qin Yuan also understood that he could no longer hide, so he just retreated back, loaded the bullets, and shot from behind these people. All these mercenaries were wiped out immediately!

These mercenaries were not Qin Yuan's opponents, let alone Qin Yuan's unintentional sneak attack!

They did not expect that bullets appeared from behind them.

So when they turned their heads in disbelief, they found that the man who shot them was actually the old man!

"Father, you dare to betray the company, aren't you afraid of your brother being killed?"

At this time a mercenary was struggling to say, but Qin Yuan did not answer, he just made a shot, and completely killed the guy, and the black uncles outside were even more unsatisfied, Qin Yuan directly rushed out and excited the bullet. Kill all the remaining dozen people directly!

In this way, all the more than 150 people in the entire plant died here!

At this time, Liu Mei, who was hiding in the prisoner of war camp, saw the situation here, but her eyes widened. She had been paying attention to the situation outside, but she did not expect that what Qin Yuan said about saving them was not Sending someone to break through here, but caused an infighting between the two parties, and relied on one person's strength to directly kill everyone!

How did this strange guy do it?

The cold wind hiding outside also wanted to ask this question very much, his face collapsed, did he come here to let Qin Yuan out? With these more than 150 enemies, he didn't even hit a bullet, so he couldn't believe it!

This is too awesome, is this really something that people can do?

Leng Feng is completely convinced by his master. He has killed more than 150 such sturdy records by himself, and Leng Feng dare not even dream of it.

Before, Leng Feng was still thinking about whether he could get closer to his master if he had been trained, but now Leng Feng has completely lost this thought.

People should have self-knowledge and compare themselves with people who are similar to them. Compared with such abnormalities, it is purely unhappy for oneself!

After Qin Yuan killed the last rebel army at this time, he headed directly towards the prisoner of war camp and found that, except for a few people in the prisoner of war camp, most of them were scared to pee on their pants. They all obeyed Liu Mei's suggestion and did not rush out to find death.

In Qin Yuan's mind, there was also a sound at this time:

"Ding Dong~ Congratulations to the host for completing the task, completely destroying the enemy, and rewarding three squares!"

"Ding Dong~ Congratulations to the host for completing the task, completely saving the hostages, and rewarding two grids!"

Hearing this voice at this time, Qin Yuan couldn't help showing a smile at the corner of his mouth. After so much thought, the harvest finally came, 5 squares!

At this time, Qin Yuan had 10 squares left, and he became a rich man!

Don't know how to spend these grids!

This is really an exciting annoyance!

But now is not the time to think about this, Qin Yuan directly said to these people:

"Okay, now the enemies outside are all dead, come out quickly, this is not very safe, I will take you to a factory in the south!"

But when these people heard what Qin Yuan said, they had a look of fear. Although Qin Yuan spoke the national dialect of Yan, he was facing a white face. Qin Yuan realized the fear of these people. , One is to grab the makeup of his own, and then show his true face, said to these people:

"Okay, you don't have to be afraid, I am a native of Yan country, and I am here to save you."

"Yes, he is from Yan Nation, we can safely go out with him, he gave me this gun!"

Liu Mei took out the pistol Qin Yuan gave him at this time. Although she had a pistol just now, she didn't tell these people because she was afraid that these people would influence Qin Yuan's plan.

Now seeing Qin Yuan's face and hearing Liu Mei's words, these talents slowly reacted, and then endless joy gradually appeared on their faces. They did not expect that someone would actually rescue them!

"My god, I thought we were all dead, but I didn't expect someone to rescue us!"

"I will never speak ill of our country and the army again. I am really grateful this time. I will donate supplies to the army when I go back!"

"If anyone dares to say that the Yan Nation army is wrong I will blow his head!"

Hearing what these people said, Qin Yuan also smiled slightly, and seeing Qin Yuan's smile, Liu Mei, who was standing on the side, asked Qin Yuan:

"Okay, now you can call out all your teammates and let them protect us from here."

When he heard this, Qin Yuan also nodded, and just wanted to make a gesture to the cold wind to let the cold wind come, but found that the cold wind had already appeared at the door.

"All my teammates have come here, it's okay, then we are going to find a few cars and send you back."

But as soon as Qin Yuan finished speaking, Liu Mei looked at Qin Yuan in shock, and said to Qin Yuan in shock:

"Don't you say, you brought someone here this time, right?"

"Uh? Is there any problem?"

What's the problem?

Seeing Qin Yuan's innocent look, Liu Mei felt her head dizzy. Fortunately, she still trusted Qin Yuan so much. Unexpectedly, there were only two of them coming here!

Two people dare to fight against a camp of more than 100 people. Are these people's courage with iron?

Fortunately, I just held my mind and didn't directly take out the pistol, otherwise, wouldn't they be dead!

Chapter 174: importance

"you you....."

Liu Mei stared at Qin Yuan and couldn't say anything. When she saw Liu Mei's appearance, Qin Yuan showed white teeth:

"Okay, I know you find it incredible, but this is our specialty, so don't just doubt it!"

Specialty?

You are bullying me and I have never eaten pork. You bullied me and I haven't seen a pig run!

Have such expertise?

Liu Mei looked at Qin Yuan in her eyes as if she was looking at a strange species. How did this person grow up?

Qin Yuan shook his head, and stopped explaining to Liu Mei, and said to Leng Feng:

"To find a car, we will send these people to the factory first, and then we will send everyone to the port at dawn tomorrow."

Leng Feng agreed, and then began to take some people who can drive to find transportation.

And Qin Yuan went to the office just now.

In order to wipe out all these people, Qin Yuan didn't have time to search the office just now. He didn't know why these people got together.

Qin Yuan returned to the office. At this time, the corpses of Eagle Mouth and Zai were still lying here. Just now, Qin Yuan specially put the corpses of the two people in a scene of shooting each other and killing each other. Now it seems that there is still a hint of irony. mean.

Qin Yuan flipped through the bodies of the two people, and found nothing, but when Qin Yuan felt a little lost, a voice came from behind:

"What are you looking for?"

Qin Yuan did not look back, because he knew that this person was Liu Mei, shook his head and said:

"I want to know their purpose here, just to arrest people, it seems that there is no need for all three of them to be here!"

"This used to be a biological weapons research room, but now they have moved the research room to another place, so they used it as an outpost for the time being. Not everyone in the Resistance Army is willing to cooperate with Dane Company, and there are some problems. At least I really want to save this country."

Hearing what Liu Mei said, Qin Yuan's face showed a little strangeness, and asked Liu Mei:

"How do you know so clearly?"

"Get to know, Liu Mei, the chief researcher of North Biological Corporation, oh, I was wrong, it is the former chief researcher."

There was a bitter smile on Liu Mei's face, but Qin Yuan's eyes lit up:

"You said you studied those things before?"

"Yes, in fact, at the beginning, this company's research was biopharmaceuticals. I thought these people wanted to make antibodies against the Ramanra virus. Unfortunately, I later discovered that they wanted to make genetic weapons. "

Genetic weapons?

Qin Yuan's face suddenly sank when he heard this. He remembered An Ran's guess before and asked Liu Mei:

"I wonder if you have ever heard of a person named Minden?"

"Minden? No, but I do know that North has a mysterious boss. Since that boss arrived, their company's research direction has become radical, and even began to experiment with living people, if it weren't against these people, I will not fall to where I am now."

Liu Mei laughed at herself. As a chief researcher, she ended up as a prisoner. In such a situation, not many people can be encountered.

"How old is that boss, have you seen it? And, do you know where their research has moved?"

Qin Yuan's eyes are constantly shining, he suspects that the boss is Min Deng!

"You're 50 or 60 years old. It looks like someone from the country and the country. Why, don't you want to pursue this research institute? Tell you, it's impossible. The whole Philippines can study these things Not much. Since they abandoned this place, they can only move to their base camp. The people there are not one or two, but counted in thousands. Don't think about it."

Hearing what Liu Mei said, Qin Yuan's mouth showed a smile. He is now 90% sure that the boss is Minden!

This guy did not get enough blood samples from their country last time, and now he has come to the Philippines. It seems that Minden has never given up his genetic weapons program.

This time, if Qin Yuan can kill Minden, he will not only be able to complete the task, but also be able to avenge Thor and others!

What's more, this is a time bomb, which must be cleared as soon as possible!

"Okay. No matter what you do next, it has nothing to do with you. Now I guess the car is also ready. I will send you back first."

Hearing Qin Yuan's words, Liu Mei's eyes were filled with suspicion. Although listening to Qin Yuan's meaning, she seemed to have given up the plan, Liu Mei always felt that Qin Yuan was not such a person.

The person who was able to rush into a camp of more than 150 people single-handedly, and killed all these people, was thinking about what Liu Mei simply couldn't think of.

And what Liu Mei could not think of was the craziest and most terrifying idea!

"I advise you, if you really want to destroy those things, you'd better take me!"

Liu Mei looked at the man in front of her, feeling really worried, and finally reminded Qin Yuan.

"Why?"

Qin Yuan turned his head, he really wanted to sneak in, to see if he could destroy the genetic weapon, and even wondered if there was a chance to kill Minden directly!

"Do you think genetic weapons are Chinese cabbage? Just find a bomb and you can blow it up. He has a device that must be specially modulated. First, adjust their genetic frequency to a harmless frequency. Otherwise, the boldness produced by the bomb will be directly inspired by this device, and then those of you who are close, even if you are not dead, will have various genetic diseases!"

Hearing such words, Qin Yuan also gave a stimulus. He had also conducted anti-chemical drills before, and understood that this kind of thing was not a joke.

In case something contagious comes out by then, he will be completely useless!

"So if you really have any plans, you must take me there!"

Liu Mei looked at Qin Yuan and said loudly.

But Qin Yuan glanced at Liu's eyebrows with his head up and chest up, but his brows wrinkled tightly. Although Liu Mei's performance was not bad, when Qin Yuan performed the latent mission, he didn't even bring the cold wind. Such a weak woman?

"I can help you to completely disrupt the program of that weapon. Then you can even destroy this thing without a bomb!"

Liu Mei explained directly, and Qin Yuan just wanted to say something, but suddenly heard a voice in his mind:

"Ding Dong, the system will launch a mission to lead Liu Mei to destroy the genetic device, and bring Liu Mei back safely, rewarding two grids!"

Chapter : 175th Zhang Chayin

Hearing the system's prompt, Qin Yuan's face suddenly looked helpless. It's all right now, it won't be possible without it. Now even the system recognizes the importance of Liu Mei.

Although Qin Yuan can choose not to do this task, if those people are allowed to develop recklessly, Qin Yuan is also a little worried.

"Well, I will think about it again, and now take the people below safely back."

Qin Yuan said helplessly, but seeing what Qin Yuan looked like, Liu Mei smiled, she knew that Qin Yuan had listened to her.

Then Qin Yuan and Leng Feng led these overseas Chinese towards the factory, but when they were just about to set off, they saw a vehicle coming here from a distance. It was Long Xiaoyun and others. !

Long Xiaoyun and the others came to support him. After all, Leng Feng said hesitated on the phone, and he didn't explain clearly.

And they were full of worry about Qin Yuan's actions. Now that there is such a situation, they naturally put down their phones and rushed over!

And this time the people in the red blood cell team have also completed the \*\*\*\* mission, so Long Xiaoyun took these people directly to this side to see what happened.

But when they got here, they discovered the situation at the scene!

Looking at the corpses outside, Long Xiaoyun's heart was filled with incomprehension. Could it be that Qin Yuan and Leng Feng killed all of these more than 100 people?

Although Qin Yuan and Leng Feng are both very powerful, they can't do it, right?

And He Chenguang and the others were also a little surprised. They knew that Qin Yuan was relatively fierce, but the cold wind wouldn't even be so fierce.

"Hey, buddy, tell me, how did you do this? This is too awesome, I heard that you are our captain's apprentice, so you are not so far behind us?"

At this time, He Chenguang asked Leng Feng, but when Leng Feng heard this, he smiled bitterly and said directly to He Chenguang:

"What's awesome? These people were basically killed by the master alone. I just hid outside to watch the wind from the master, and I didn't even shoot a bullet!"

Ga?

A person?

Even the members of the Red Blood Cell Squad were shocked!

They had tried their best to think of Qin Yuan higher, but they couldn't think of how Qin Yuan could kill all 150 people single-handedly!

Know that one person and two people are two completely different concepts!

At this time, Long Xiaoyun's face couldn't stop twitching, and he asked Qin Yuan:

"You really did it alone?"

Hearing this, Qin Yuan did not answer, but smiled at Long Xiaoyun.

Seeing this familiar smile, Long Xiaoyun and Anran Anfisa, the three women shuddered. They were too familiar with this smile. Once Qin Yuan did something incomprehensible, they would reveal this. Smile!

And Qin Yuan saw the shock of these people, but raised his eyebrows and said to these people:

"Okay, go back quickly, it's been almost a night after tossing, I also want to go back, take a good rest!"

After all, Qin Yuan yawned directly. To tell the truth, Qin Yuan has not rested on this road, even Qin Yuan is a little tired.

Seeing Qin Yuan's appearance, the people around them all had a trace of reverence. After all, they saw what Qin Yuan did, and Qin Yuan had indeed never rested.

Soon, a convoy began to set off in the direction of the factory.

Just as they didn't have much time to leave, someone discovered the strangeness in this research institute and sent someone to check it out!

A group of people came here directly, looked at the corpses all over the floor, and saw the miserable situation in the office, detected the contents of Zai's cigarette, and quickly figured out what happened!

It is obviously the fault of the white-faced cigarette!

"Asshole! Asshole! Asshole! I've said it many times, and it is forbidden to use this kind of thing when performing tasks, this \*\*\*\*\* actually uses so much! Now that something like this

has happened, how can you make me feel good? The people of the Canadian army explain? Did you know that this guy named Wali is the younger brother of the head of the Jacobite Resistance Army!"

At this time, a middle-aged white man roared loudly, and Minden's face couldn't stop twitching as he watched the guy spitting and splashing in front of him.

Indeed, as Qin Yuan guessed, Min Deng is also in this company, but it is not the boss, but the boss's assistant.

The last time Minden suffered a heavy loss in Yan Nation, although he still had a lot of wealth, it was a major failure after all. Naturally, he did not have his own capital, so he could only rely on the k98 organization.

And this guy in front of him is a leader of k98.

"Chief, I know very well that my subordinates are old people. Although they may use these things on the battlefield, it is absolutely impossible to do such a thing!"

Minden explained, and upon hearing Minden's words, the middle-aged white man in front of him showed a hint of mockery:

"You know? What's the situation with poisonous insects, I know better than you, but it's just a bunch of broken fish and shrimps. Who do you really think of yourself as a person? What kind of self-control can I have after smoking? Not surprising! Minden, you said you just stayed on your one-third acre of land, what are you doing? Now things are like this, dare you make excuses?"

At this time, Lenda was also angry. Although their strength is very strong, but after all, there is not enough manpower, so they are attached to the rebels.

It was so easy for him to get a general of the rebel army, turned out such a thing, and directly killed the general's younger brother, it was a waste of all previous efforts!

At this moment, Lunda's phone rang directly. He glanced at the number on it and said to Minden:

"Okay, you can go out and calm down."

"Yes!"

Minden lowered his head, then pushed directly out.

While looking at Minden's back, Lenda's eyes flashed a little, and she started to answer the phone:

"Hey, General Warin, this time, it is indeed my subordinates who did something wrong..."

After Minden exited the room, a subordinate greeted Minden directly and said to Minden:

"Boss, what shall we do this time?"

And Minden glanced at his subordinate, but said directly:

"Withdraw, give up everything here, and get out overnight."

"Huh? Well, we have invested a lot of time and money here. Now that we have withdrawn directly, our losses will be great!"

The person with a tattoo on his hand is called Chain, who is the number one general under Minden.

Chapter 176: It&#039;s you

"The loss is big, and it's better than losing your life. The guy inside has already planned to abandon us. Since we are going to fall out with these people, how can we get it?"

Minden said with a sullen face, and Chayin's eyes suddenly changed when he heard this, and then he directly took out the gun and fired at those around him!

and the other subordinates are also quick to respond, follow along!

Those K98 people didn't expect that Minden's people would take action, and they were killed more than half of the time!

At this time, Lenda, who was calling in the room, was panicked when he heard the gunshots outside. He didn't understand what was going on. But as soon as he opened the door, he saw Minden holding a handful. The Ruger revolver, known as the hand cannon, banged, and splashed red and white.

wiped the blood spilled on his face, Minden picked up the phone on the ground directly and said to the person inside:

"I know he has sold me to you, and now our cooperation has been cancelled, General Wallin, please do it yourself in the future."

After that, Minden directly hung up the phone, then walked to Zai's body, looked at Zai's injuries, and said coldly:

"Although I don't know who is doing the ghost, this time, I wrote it down!"

Of course, Qin Yuan didn't know that these things had happened. At this moment, he was lying in the carriage sleeping, with An Ran on his head and Anfisa on his feet.

Seeing Qin Yuan's treatment at this time, Wang Yanbing was envious:

"Wow, is the captain's treatment too good!"

"You envy, if you can achieve the captain's record, then you can also be treated like this!"

Xu Tianlong said directly at this time, and Li Erniu also chuckled:

"Then if you don't dislike it, I can also give you a pillow!"

"Hey, that's good, Xiaobingbing, come, give you a knee pillow!"

And He Chenguang said strangely, and seeing the appearance of the two people, Wang Yanbing suddenly felt a little nauseous.

Sure enough, this person is different from other people. This captain is a group of beautiful women. How come he becomes a big man when he arrives?

And Liu Mei, who was in the car at this time, saw Qin Yuan's happy appearance, and she also curled her lips. This person was really happy.

Qin Yuan also smiled at the corner of his mouth at this time, if it weren't for such a big record and completely suppressed everyone, how could he be treated like this.

It's just that the happy time is short, and it didn't take long for them to arrive at the factory.

Qin Yuan got out of the car with a trace of loss, and found that Lao Zhuo brought his son Zhuo Yifan to meet them.

"Wow, you brought so many more people, how many trips can be transported by our helicopter!"

is safe now, Zhuo Yifan has restored the character of a rich second-generation dude, not to mention, even though Qin Yuan saved him, he just can't understand Qin Yuan's appearance of anything like this!

Especially when he saw that these beauties were all around Qin Yuan, he felt even more angry!

"Go away! Do you want to talk?"

At this time, Lao Zhuo slapped his hapless son aside and asked Qin Yuan with concern:

"How is it, is it going well?"

And seeing that Zhuo Yifan had already received the lesson, Qin Yuan did not take this guy to heart, and said to Lao Zhuo:

"Soon, as long as tomorrow dawns, we will take you directly to the port."

"I still need you, my helicopter will come tomorrow!"

At this time, Zhuo Yifan whispered, and in the end he slapped Lao Zhuo back.

Qin Yuan shook his head when he looked at the plane that this guy was still thinking of. Anyway, in Qin Yuan's impression, that plane was shot down by his father, although now his father is dead, but the plane Whether it can fall safely or not is still unknown.

But since Zhuo Yifan is thinking about airplanes, don't talk about it. Anyway, for Qin Yuan, there is no big difference between whether there are airplanes or not.

And Zhuo Yifan was beaten, naturally he didn't dare to stay here any more, suddenly, his eyes lit up and he saw a beautiful woman!

This beauty is naturally Liu Mei. After so many visits, Liu Mei's body is naturally with a touch of grace.

And Zhuo Yifan hit a lot of walls on the three of An Ran. Finally, there was an Anfisa, but now he ignored him. Now that he met a new beauty, he naturally had to show his courtesy!

"Beauty, get to know, my name is Zhuo Yifan! I am the director of this factory!"

Liu Mei just glanced at this guy, and understood what kind of person it was. He showed a big smile and said to Zhuo Yifan:

"Then Mr. Factory Manager, can you please get us something to eat? I'm already very hungry!"

"Well! Go here!"

Zhuo Yifan chuckled and arranged for the cook to cook the food. In this environment, they can't sleep anyway, so it's better to do something good for the body and mind!

Qin Yuan also shook his head when he saw Zhuo Yifan's behavior. Why doesn't this guy have a long memory? He didn't even know what kind of woman he could get.

Since this guy was willing to find abuse by himself Qin Yuan didn't stop him, but after a while, Qin Yuan saw what this guy was holding and delivered it directly.

"Hey, beauty, I don't know if you have the guts to eat this, cold bat wings, tell you, this thing looks a little scary, but it tastes so good..."

But Zhuo Yifan hadn't finished speaking yet, Liu Mei's expression changed. When she just wanted to say something, she saw Zhuo Yifan fly out!

The one who did it was Qin Yuan!

Everyone present was shocked, including Lao Zhuo!

Lao Zhuo knew that although his son was rather annoying, he didn't do anything irritating. He just spoke to Qin Yuan and talked nonsense. Qin Yuan didn't care about it. Why did he suddenly start his hand now?

"Fuck, what are you hitting me for?"

At this moment, Zhuo Yifan also got up from the ground. His eyes were full of anger. Instead of being beaten by the rebels, Qin Yuan was beaten by Qin Yuan, and he was still in front of the beauty, which made Zhuo Yifan How to bear it?

Fortunately, Zhuo Yifan is a little sensible, knowing that he is not Qin Yuan's opponent, otherwise he wants to rush to fight Qin Yuan!

And Lao Zhuo also looked ugly at this time. Although Qin Yuan rescued them, he suddenly did it for no reason. Isn't it a bit too dismissive of them?

"Why are you hitting me? Hehe, I hit someone like you, who uses his mouth as a toilet and pours everything inside!"

Chapter 177: Amazing fact

At this time, Qin Yuan's face was angry. Hearing Qin Yuan's words, everyone around him looked at Qin Yuan with strange expressions.

Zhuo Yifan was beaten out and couldn't stand up. At this moment, Lao Zhuo saw his son's tragic condition, his face twitched, and said to Qin Yuan:

"Case your breath, cool your breath, isn't it just eating some bats? It's not like this!"

"Haha, I know that in the Philippines, you can't stop you from eating this kind of food, but what you eat is bad, you have to eat bats, and you have to eat cold salads. Do you know how many bacteria there are in bats? People who even eat cockroaches and mice are terribly scared of this bat. Are you dying!"

said this, Liu Mei also said directly:

"He is right. Wild animals such as bats and civet cats carry viruses. This virus is not harmful to them, but it is harmful to us humans. We have already gone through research. This time, the Ramanra virus, Also from the wild animals."

what?

Hearing this, everyone's hearts were suddenly shocked. They couldn't see or touch other diseases. The Ramanra virus is right in front of them, but it's village by village!

When Qin Yuan saw Lao Zhuo, his eyes widened, and he surrounded him directly, and said to him:

"Old Zhuo, do you know that without this Ramanra virus attack, the rebels would not have become a climate, and without the rebels, you probably don't need to be where you are now, this time in the Philippines. , How much did you lose?"

"Hehe, it would cost tens of millions to say nothing. After years of hard work, all of them went in!"

At this time, when Lao Zhuo said this, he was gritting his teeth!

The real source of the original thing is here!

At this time, Lao Zhuo also showed a slight grin on his face, and walked directly towards his hapless son!

At this time, Zhuo Yifan saw his father, walked over here, just said:

"Dad this guy hit me for no reason, you don't care!"

"Hit you? I want to smoke you now!"

Speaking these words, Lao Zhuo untied the belt on his body, and without a head and face, he drew towards Zhuo Yifan!

"Damn! What are you doing?"

Zhuo Yifan was also taken aback. His father loved him very much, and he didn't usually hit him. It was like this, but only ten years ago he broke his favorite porcelain. That's it!

"Kill you, you don't have eyes, you are a \*\*\*\*\* thing Xia Ji eat, this doctor, is there any way to relieve a situation like this?"

Although Lao Zhuo gave his son a meal, he was still worried that his son would really get sick after all, so he asked Liu Mei calmly.

And Liu Mei saw this situation and said directly to Lao Zhuo:

"We are short of doctors and medicines, and there is no way to check him, we can only wait for a safe place to talk about it!"

"Hey, I do have a recipe that works for him in this situation!"

At this time, Qin Yuan leaned forward and said to Lao Zhuo.

"What can I do? Can I use it now?"

Lao Zhuo asked nervously, but Qin Yuan's eyes looked at Zhuo Yifan with a hint of inexplicable meaning, and said directly:

"In fact, most bacteria are not enough to survive high temperatures, so ah, can we just sterilize them with high temperature?"

"what?"

Hearing this, Lao Zhuo was stunned, and disinfected with high temperature. Didn't he kill everyone together?

"Don't worry, I have a way to keep him safe, but it's unavoidable to suffer a bit."

After saying this, Qin Yuan directly asked Li Erniu to prepare a large pot, and then filled it with water, and put a lot of firewood under it!

After doing this, Qin Yuaner walked towards Zhuo Yifan.

"Don't... don't come here, what are you doing!"

At this time, Zhuo Yifan was like a little drake who was about to be killed, and he couldn't help but retreat. It looked so pitiful and pitiful.

It's a pity that no matter how pitiful it is now, it's useless. Qin Yuan grabbed this guy, ripped off his clothes in a few strokes, and threw him directly into this cauldron!

"what!"

The firewood below is very hot, so the temperature in the cauldron is not too low now, and it suddenly becomes a hot howling!

Qin Yuan stretched out his hand and touched it, and found that the temperature was pretty good, and said to Li Erniu: "Put out the fire and cook slowly with a little flame!"

Hearing this, Zhuo Yifan's eyes suddenly widened. This is really going to be used to stew the soup. He can't help but struggle. It's a pity that he is in Qin Yuan's hands, just like a chicken. No decent resistance!

The people around shivered when they saw Zhuo Yifan's tragic situation.

"Ghost, do you really want to make this guy bacon?"

At this time, Wang Yanbing was also speechless, while Long Xiaoyun on the side said coldly:

"This is to teach you a lesson, let you know what you can eat and what you cannot eat!"

Hearing this, these special forces team members all twitched, which obviously improved their memory.

Even if they have eaten these things, they will go to check their bodies and take various antibiotics before returning to the team, but these people dare not eat raw food without any precautions, and they are really convinced!

Zhuo Yifan howled for an hour, soaking bald skin in it, was picked up by Qin Yuan. After such a time, it is estimated that Zhuo Yifan not only does not eat game in this life, but also does not want to eat it in this life. Go to the sauna.

Long Xiaoyun saw the large red patch on Zhuo Yifan's body and walked over to Qin Yuan and asked:

"He won't really..."

"Don't worry, I just want him to increase his memory, and I will cure him with a silver needle later."

Qin Yuan smiled, in fact, this kind of disinfection did not have any effect on the virus. He was simply letting this guy rise up.

At this time, An Ran and Liu Mei walked towards Qin Yuan, their faces a little ugly.

An Ran said directly to Qin Yuan at this time:

"Qin Yuan, it is estimated that we have no way to rest. We must set off now to destroy the genetic weapon. Otherwise, we may not be able to keep up with the warship returning."

After knowing Liu Mei's identity, An Ran naturally asked for some information from Liu Mei's mouth, and Liu Mei knew everything he could say without saying anything, and the last two people inferred an amazing fact.

That is this genetic weapon, it is very likely that it will be developed soon!

After all, there is such a serious epidemic in Philippine now. They will have a large number of experimental samples, and the progress will inevitably be much faster!

When it's noon at the latest, the warships will leave the Philippine continent. If they can't leave by warships, they will probably be hunted down by those organizations!

Chapter 178: Recycling bats

It's already more than 2 o'clock in the night, even if they act overnight, they don't have much time!

Hearing the explanations of the two people, Qin Yuan also nodded. Their main purpose is this, and of course they will not let it go easily.

Qin Yuan nodded, and said directly to the two people:

"Well, then I'll take Liu Mei directly over and blow up that thing. If it's faster, it should be too late!"

"With Liu Mei? Isn't it a bit..."

Hearing that Qin Yuan was about to bring Liu Mei, Long Xiaoyun frowned, but Liu Mei explained the reason again.

"Well, that's good, we are also ready to go!"

After saying this, Long Xiaoyun planned to direct everyone to prepare, but when he saw the appearance of these people, Qin Yuan directly stopped them:

"Huh? I only said that I would take Liu Mei, but I didn't say that I would take you. This is a latent mission, and it won't work if there are too many people!"

But Long Xiaoyun looked at Qin Yuan sternly:

"Do you still want to go by yourself? Do you want us to worry about you? Stop it, what do you say this time we have to go with you? What's more, don't you want to bring Liu Mei this time? We are not going to support you Yes, to protect Liu Mei."

"Yes, the destination is close to hundreds of kilometers, handsome brother, you have been tired for a long time, take a good rest in the car, I will drive you there!"

Anfisa also blew a kiss to Qin Yuan, and Qin Yuan glanced at An Ran, who was behind him, and looked at the other party's fluttering big eyes, his mouth twitched:

"Okay, I won't say anything, I will bring you too!"

Enron was happy this time, and went straight to organize the equipment.

However, when Qin Yuan turned his head, he found that the people from the Red Blood Cell Team were also constantly blinking at him. Suddenly, it was Lei's outer Jiao Linen, and the slap slapped these guys aside:

"Fuck off, I won't bring one more, you guys will honestly take this place to protect the diaspora."

Hearing this, Wang Yanbing and the others suddenly wailed:

"No, the boss doesn't have such a patriarchal man!"

"That's right, you brought us out. We haven't completed any tasks!"

"Let us see and see, anyhow!"

Qin Yuan sighed when he heard this. Although this group of guys are all hippie smiling faces, there is a trace of worry in their eyes.

After all, this time Qin Yuan went deep into the enemy's nest. If he was discovered, he might not even have the chance to escape!

They also knew that the chance of exposure would increase, but they were really worried, and Qin Yuan would perform this task alone.

In case Qin Yuan and others are really exposed, but they have not done anything, I am afraid that they will be in the shadow for the rest of their lives.

"Well, you guys will act with me, but you still have to keep people here, Leng Feng, you stay here, organize these people for defense, and when the helicopter arrives tomorrow, arrange for the evacuation of personnel."

Qin Yuan knew that the Leng Feng in the original work was able to take these people away safely, so the current situation is slightly better than he was at that time, and he can naturally evacuate more safely.

"Well, I will stay here."

Leng Feng was also full of reluctance, but he couldn't say more. After all, he destroyed a base with Qin Yuan just now. Although he didn't contribute much, looking at such a record, it was enough for him to say something.

Qin Yuan smiled and patted Leng Feng's shoulder:

"Okay, don't be depressed. If you want to fight, there will be more opportunities in the future!"

After saying this, Qin Yuan plans to treat Zhuo Yifan. Although this guy has done something wrong, he hasn't caused any serious consequences yet. It's just a lesson, and he can't really do anything to the other party. Irreparable damage.

Qin Yuan went directly into Zhuo Yifan's room and found that this guy was still wailing. Lao Zhuo hated Zhuo Yifan for being inferior to steel, while applying ointment to this guy.

Zhuo Yifan was tortured both physically and mentally!

Seeing this, Qin Yuan smiled and said directly to Lao Zhuo:

"I will deal with him, don't worry, it won't leave him any damage!"

Hearing this, Lao Zhuo was also relieved. After all, he had seen Qin Yuan's medical skills with his own eyes. Since Qin Yuan had already made a guarantee, he did not need to worry too much about his son.

Qin Yuan directly took out the silver needle. Zhuo Yifan's injury was just a simple skin burn. Qin Yuan only needs to comb through the first needle of the eight needles against the sky, which is not too much effort.

And seeing Qin Yuan starting to put the needle, Lao Zhuo was relieved a lot, then glanced at the mess in Zhuo Yifan's room, his face was cold, and he began to clean up.

Since I didn't know it before, it's fine. Now that I know that these things will produce viruses, then I can't let him play them.

After Qin Yuan dropped the needle, he saw that Lao Zhuo was dragging some messy packages out. Qin Yuan directly followed and asked curiously:

"what is this?"

"They are all specimens made by this bastard. I guess his habit of eating this thing is from this hobby. Anyway, he can't take it with him. Just burn it!"

Qin Yuan took a closer look and found that there were indeed various animal and plant specimens in this package!

Hearing what Lao Zhuo said, Qin Yuan was a little bit dumbfounded. Although what Lao Zhuo said is true, if handled properly these specimens will not contain any bacteria. After all, the body's defense capabilities are still very good. Strong, general contact is not contagious.

But these things really cannot be taken away.

But Qin Yuan saw the contents inside, his eyes lit up, and he said directly to Lao Zhuo:

"You leave these things to me, I will help you deal with them!"

After speaking, Qin Yuan picked up the thing without waiting for Lao Zhuo to answer, and walked outside.

Qin Yuan was full of excitement. He was worried that 10 grids were useless, but he just delivered so many things at once!

This time must be strengthened!

And the thing he saw just now was exactly a bat specimen!

Qin Yuan directly found a hidden place, poured all these things out with excitement, found a bat specimen, and directly recovered it into the grid!

After that, Qin Yuan heard a familiar voice, and he was immediately happy!

"Dingdong~Please start choosing the host!"

"1, get world-class echolocation function!"

"2, get perfect listening!"

"3, get world-class blood-sucking ability!"

#### Chapter 179: World-class Chinese medicine

Seeing these three options appear in front of his eyes, Qin Yuan's heart suddenly felt loose. He was still worried that these specimens could not be used. Now it seems that as long as it is this kind of animal, it seems to be okay whether it is dead or alive. Look like.

And Qin Yuan has acquired hearing ability from the bat before, so now Qin Yuan has no hesitation, and directly chooses the first item!

"System, I choose item 1!"

"Ding Dong, congratulations to the host for your successful selection and get the world-class echolocation function!"

"World-class echolocation function: Let the host have radar echolocation function in a radius of one kilometer!"

With the sound of the system, Qin Yuan felt that there was something extra on the center of his eyebrows, constantly sending shock waves, and then all the things in the surrounding 1 km appeared in front of Qin Yuan!

At this moment, Qin Yuan's eyes suddenly brightened. His night vision and thermal imaging capabilities have certain limitations during the daytime!

And now with this echolocation function, it makes up for the defect!

In the future, whether in the day or night, Qin Yuan has a powerful detection ability!

Qin Yuan laughed, then rummaged from the inside to the outside, and then found a few bat specimens, directly raising this ability to the universe level!

"Universal-level echolocation function: Let the host have the echolocation function of radar in a radius of five kilometers!"

Five kilometers!

Qin Yuan's heart was filled with joy. The average sniper has a range of less than 5,000 meters, and even the average short-range missile has a flying speed of three kilometers. With this ability, plus 21 times the dynamic vision, Qin Yuan may be In the future, it can also be used as an anti-missile weapon, directly hitting the missile!

When I think of that scene, even Qin Yuan can't contain the excitement in his heart. If this is to knock the missile off with a single blow, it will not scare others' jaws!

But Qin Yuan quickly reacted, and then continued to search for other things, and then, he saw a long centipede.

Qin Yuan thought for a while, and also directly put this centipede in the grid!

"Ding Dong~ Please start choosing the host!"

"1, get world-class anti-drug ability!"

"2, get a world-class thousand feet \*\*\*\*\* leg!"

"3, get world-class Chinese medicine treatment!"

Thousand Feet God Legs? I still have a thousand hands!

Qin Yuan looked at these three options, a little bit dumbfounded, what kind of martial arts this is!

But this anti-toxin ability is what Qin Yuan needs. After all, although Qin Yuan is able to withstand the attack of biological toxins such as viruses and bacteria, he still can't withstand that chemical toxin.

Just like being bitten by a poisonous snake or some poisonous creature, Qin Yuan is also poisoned.

Some neurotoxin drugs will also have an effect on Qin Yuan.

And if you get this anti-drug ability, you probably don't need to be afraid of these things!

Qin Yuan's thoughts moved and he directly chose the first item!

"Ding Dong, the host has chosen to successfully obtain a world-class anti-virus ability!"

With the sound of the system, Qin Yuan also felt that some changes had taken place in his body.

Qin Yuan knew that there was no need to worry about venom and other items now, and then Qin Yuan found a few centipede specimens and raised this anti-drug ability to the universe level.

It's just that after reaching the cosmic level, Qin Yuan realized that there were a few more. After thinking about it, he chose the third option.

"Ding Dong, congratulations to the host for obtaining world-class Chinese medicine treatment!"

Qin Yuan knows that air-dried centipede is also a famous medicinal material, which is effective for rheumatism and hemiplegia.

Although Qin Yuan has received surgery and eight needles against the sky, the more such medical methods are still the better.

"Ding Dong, congratulations to the host for obtaining world-class Chinese medicine treatment!"

"Ding dong, it is detected that the host has obtained three medical treatments, and he will be upgraded to the cosmic level, and he will be awarded the title of genius doctor who will come to the world and unlock advanced skills to rejuvenate!"

At this time, when he heard this voice, Qin Yuan was also stunned. He did not expect that this medical skill was actually an integrated skill like the previous special forces training! Able to point out the senior title!

This time Qin Yuan was happy in his heart, but after searching for it, he found that the centipede was gone.

This caused Qin Yuan to scratch in a snack. If there were a few centipedes, he could get this advanced skill!

After thinking about it, Qin Yuan threw these things directly, turned on the radar capability, and rushed into the woods on one side!

There must be many centipedes in this forest!

Qin Yuan directly turned on the echolocation function, and then mixed with the night vision ability and thermal imaging ability, and directly rushed into the woods!

At this time, Qin Yuan's feeling was extremely strange. He walked in the woods, like the controller here, with countless information in Qin Yuan's mind.

Huge hearing and dynamic vision make Qin Yuan feel that everything is so beautiful, and every move of these animals will be clearly perceived by Qin Yuan.

took a long breath, and Qin Yuan felt that his mood had calmed down a lot.

But there is still work to be done, Qin Yuan directly activated his abilities and started looking for centipedes!

Soon, Qin Yuan found four centipedes and recovered them directly!

"Ding Dong, congratulations on the birth of the title of genius doctor, unlock advanced skills and rejuvenation!"

Then Qin Yuan felt a thud in his mind Numerous information rushed directly into his brain, and Qin Yuan was directly stunned in place!

All these are all kinds of medical knowledge, Chinese medicine, Western medicine, and even some ancient recipes and methods, all appeared in Qin Yuan's mind!

After a long while, Qin Yuan was sober!

He knew that these skills would have to be learned separately. If Qin Yuan were to obtain this ability directly, Qin Yuan's head would probably explode!

At this time, Qin Yuan also showed a smile. Now he is a serious doctor, and there is not only one needle against the sky, and the mobs must be enlarged!

Then Qin Yuan just wanted to leave, and the time to come out was not short, and there were still tasks to do.

But when Qin Yuan just wanted to leave, he found Brother Flathead, and there were still a few!

This time Qin Yuan was a surprise in his heart. He didn't expect that his luck was so good that he actually met a flat-headed brother family!

There are a total of seven flat-headed brothers in the big and six small, it is too rare!

The virus resistance ability that Qin Yuan obtained from Brother Pingtou is only world-class. If you want this ability to be upgraded to universe-class, you need four more!

However, this mother's honey badger is different from the ones I encountered before, so she directly counseled and started to retreat! !

Qin Yuan probably brought so many cubs with him. Knowing that he could not beat Qin Yuan, he wanted to escape.

It is a pity that Qin Yuan has radar and thermal imaging capabilities. Even if he hides in a cave, he can't escape!

Chapter 180: Solve the flat head brother

After that, Qin Yuan shot a flash, and directly put all these flat-headed brothers in the grid!

"1, get world-class iron head skills!"

"2, get the perfect toxin resistance!"

"3, get world-class fearless spirit!"

Looking at these options at this time, Qin Yuan directly raised the toxin resistance ability to the universe level!

"Ding Dong, congratulations to the host for gaining cosmic toxin resistance! All pathogenic bacteria and viruses that are harmful to the host cannot survive!"

With this voice, Qin Yuan's body suddenly shook, and he felt as if there was something missing in his body!

Qin Yuan knew that this should be his own illusion. After all, the virus and bacteria have no weight, so how could it be much less.

But Qin Yuan still has three flat-headed brothers left, and looking at this option, Qin Yuan directly chose the first one!

"Ding Dong, the host gains world iron head power!"

Following the system's prompts, Qin Yuan felt that his head seemed to have undergone some changes, and in his mind, he also got some moves!

And Qin Yuan tapped his head lightly, and made a dull sound, looking very solid.

"It seems that the system has strengthened my bones regardless of whether the system is a method of iron head training!"

Qin Yuan murmured, and then, Qin Yuan had a strange thought in his heart.

He wants to test the hardness of his head!

Qin Yuan found a stone directly and slammed it on his head!

Boom!

The stone smashed directly, but Qin Yuan touched his head, but didn't feel at all.

While looking at the stone fragments on the ground, Qin Yuan's eyes were filled with joy!

This is only a world-class iron head skill, if you want to raise this iron head skill to the top, then your head is not the key to Qin Yuan!

Thinking of this, Qin Yuan directly reclaimed it for a while, directly raising this iron head skill to the Universe level!

While feeling the iron head skill of the Universe Grade, Qin Yuan touched his head, and another thought came up!

He picked up the pistol, and then broadcast a bullet, flatten the bullet on the bullet, and then put it in the pistol.

Then he shot his head suddenly!

Qin Yuan was extremely nervous. The 21x vision was activated instantly. He could clearly see that the bullet was excited from the pistol and flew towards his head. It took him a lot of perseverance to restrain himself. The urge to avoid, then with a bang, watched the bullet touch his head!

The place he chose is not the key point. Even if he is injured here, he has enough reaction ability to help himself heal.

Click!

Qin Yuan just felt a slight pain in his head, and then an iron piece fell directly.

Looking at the bullet fragments falling on the ground, Qin Yuan's eyes were filled with disbelief, and then he became a burst of joy!

"Fuck, this iron head skill is really awesome, it can really be stopped!"

Although Qin Yuan flattened the warhead, the power of his pistol was not small, and the distance was so close that it could kill people. That is to say, Qin Yuan felt that he was a master of art and bold enough to do such an experiment. If someone else, I'm afraid I'm scared to death!

Now that he picked up the bullet on the ground, he was extremely happy. He didn't expect this iron head skill to be so powerful. Isn't it equivalent to a natural third-level head?

Although Qin Yuan is unlikely to be hit by a bullet now, the more protection is naturally the better!

This time Qin Yuan was extremely happy, and went back contentedly.

Long Xiaoyun and others were already fully armed, waiting for Qin Yuan, they were all planning to go out to find Qin Yuan.

Qin Yuan was full of confidence when he saw these people, and he directly ordered:

"set off!"

.....

Early the next morning, a group of mercenaries came to Liwei City.

In this group of mercenaries, whether there are six men or even three women! Those who provoke the surrounding Red Scarf Army can't help looking over here.

Liwei City is an important stronghold of the Red Turban Army. There are only a thousand garrison personnel here, not counting the civilians living here!

Moreover, there are some real big killers here, tanks known as the king of the army!

With these tanks, these Red Scarf soldiers naturally have confidence, not to mention that their boss seems to be at odds with these mercenaries, so looking at these people, naturally there is no good face!

At least, there is no fear of these people!

"Hey, chick, come down and play with me!"

"Yes, let you know how good your brother is!"

The people from the Red Scarf Army around        were whistling towards this place while speaking foul language.

But the female mercenary sitting in the car rolled her eyes, and the light in her eyes was like ice dug from the bottom of the Antarctic. It was so cold that people shivered, and the rebels suddenly got here again. Swallowed back.

After this team of mercenaries arrived in the small town, they hid directly in a hidden place. This was the gathering together.

"Did you see clearly? How many tanks do they have in total?"

At this time, a person with the appearance of a captain asked his companion beside him, and a young man who looked a little honest and honest behind him said with a bitter expression:

"I just counted it There are 10 cars alone, and there are all kinds of heavy weapons, Captain, what shall we do?"

When the captain heard this, he gently patted the player on the shoulder and said relaxedly:

"What can we do? We only have 6 people, and the other party has more than 1,000. One spit is enough to kill us, so even if there are more tanks now, it doesn't matter. Originally, we

didn't plan to fight with them. Our goal As long as it is to blow up that genetic weapon, as long as it can bring Liu Mei to the laboratory and destroy the laboratory."

The two people who talked are naturally Qin Yuan and Li Erniu.

Qin Yuan has made some costumes for his team members, so that they put on mercenary clothes, dressed as mercenaries, and entered the city directly.

It's just that Qin Yuan didn't expect them to come in so easily, and the people at the door didn't even stop him.

At this time, the other people looked at each other when they heard Qin Yuan's words.

Qin Yuan said lightly, but how can this be done?

"You should be alert around first. I will find a way first and get in the laboratory to see the situation."

Qin Yuan directly spoke to Long Xiaoyun and the others, and then walked out directly.
