

## Special Soldier 1711

Chapter 1711: let go

"Tactics were discussed on the American side, while Qin Yuan led the soldiers to set up a barbecue pit on the spot, and the entire camp was full of laughter.

At this time, Qin Yuan called Jiang Xiaoyu and the captain of the air force over. He mainly wanted to discuss the next plan with everyone.

He took a bite of the meat skewers, and then slowly looked at the few people across from him, "I know what you're thinking recently. I've always said that I was trying to show my personal heroism. Actually, I can understand."

Speaking of which, the previous Yang Hu spewed out water in one breath, he really didn't mean that, but he was too impulsive before, but he really didn't think that way, this time he was completely convinced by Qin Yuan.

"Chief Qin, it was my fault before. I shouldn't have said that at the meeting. I couldn't help it. After all, you have always been thinking about us, but I am talking about these things. You Punish me."

"You may have misunderstood. I don't mean to blame you. This is the last time after all. I want you to show yourself. I won't lead the charge this time, and I will give the initiative to you. Here, let me see your plan."

what! Several people were shocked when they heard this, and the initiative was handed over to them, and what they were going to face was the Mi Army, which is incredible.

To let them make such a hasty decision, Yang Hu didn't dare to rush forward at this time.

"Chief Qin, are you really angry? This time we are dealing with the Mi Army, and their strength is very strong. After handing over to us, I really don't think it will work."

Jiang Xiaoyu also said beside him: "Brother Qin, it's fine if you joke with us normally, but this time it's worldwide, so many people are watching, it's really too hasty to leave it to us."

"Why don't you believe in yourself or me? I believe in you. Don't you believe it?"

Having said that, everyone looked down on others with big eyes and small eyes, and didn't know what to do for a while, and it didn't mean that they didn't believe in themselves, but it was really difficult to hand over this right to everyone all of a sudden.

Qin Yuan reassured them, because in his opinion, the only real opponent was country c, and the others were not worth mentioning at all.

And on the side of the US, he also wants everyone to do it freely. The US is not that scary at all. At present, he has seen through the military strength of these guys. Besides, his research plan in the future is absolutely fine.

"I want you to really grow up. It's impossible to rely on me for everything. Before I thought who was the real opponent, then I would take it seriously. As for them, you don't have to take it to heart. You can talk about your first plan."

At this time, Gao Shiwei came over with a cup in his hand. He saw those people chatting and thought it was just a casual chat, but he heard something about fighting alone.

"Hey, what are you \*\*\*\* talking about?"

Jiang Xiaoyu quickly stood up and pulled Gao Shiwei, "Guy Gao, come over quickly to judge, Brother Qin actually wants us to do it ourselves, this time he won't go out to fight Mi Jun, he will be a Get rid of the shopkeeper."

Unexpectedly, Gao Shiwei burst into laughter. After the previous incident, he believed in Qin Yuan more and more, and he agreed with this guy's decision.

"Since he's the supreme commander, I'm just the head of the area here. I don't have the right to order him. You can do whatever he says."

Jiang Xiaoyu suspected that he heard it wrong. Are these two people messing around here and just handing over the command to them?

At this moment, Qin Yuan also stood up, "You guys continue to discuss, give me a plan tomorrow, I'll take a look at your plan, and then this matter is settled like this, remember don't bother me, I'm going to eat gone."

Then they were not allowed to go out like this at all, and a few people stared at each other, and they hadn't reacted at all.

Yang Hu said silently, "What do you think Chief Qin is doing? Does he really not take Mi Jun seriously, or does he think too highly of us?"

"I don't think he was joking, and like he said, he trusts us so much, we should also show confidence, okay, brothers, we will discuss it after we go back tonight, and come up with a plan tomorrow ."

A few people thought that since the chief dared to let them do it, why were they so timid? Anyway, just do it directly.

In this way, several people came to the camp with dark circles under their eyes the next day, and they also discussed their own battle plan. Qin Yuan took a glance at it, and it was indeed good.

Sometimes you should let them do it by themselves, don't think things are so difficult, Qin Yuan pointed to the red circle drawn on the battle map.

"This place should be used as a command post. I'll be waiting for you here. You have to protect me. This time I'll be the shopkeeper. I want to see how your three armies cooperate."

"Brother Qin, don't worry, we will never let you down, and what you said is right, we need to grow up one day, you have always taken us with you before, this time, leave it to us."

With their affirmative answer, Qin Yuan also took a look. At present, there is no big problem, at least in terms of the combat plan.

The main thing is to see the cooperation of the next few armies. Before, I led it myself, and then gave them command. Now it depends on whether they can cooperate.

However, they have already fought so many times, so there shouldn't be any problem with their cooperation, and they should all know something about it.

Three days later, this will be the last battlefield, and everyone is paying close attention to it, and at the same time, there is also a war in country a.

They could choose on their own, and they chose country o directly. This surprised everyone, and they chose a country whose strength was comparable to theirs.

On the other side, after they chose this result, it also directly led to the fact that the small Mao country would not fight against Pakistan, but chose the relatively weak h country. This result completely changed everyone's layout.

When Qin Yuan knew the result, he had already arrived at his command post. It was really interesting, he didn't expect to make such a move.

The Pakistani side must feel uncomfortable. Originally, they were fighting against the Xiao Mao country, and all the preparations had been made, but now the opponent has changed. If they follow their reasoning, then their opponent will soon become a country. Or country o, the decision can only be made after the two countries have fought.

This change made the leading officer of Pakistan very dissatisfied, and he started arguing directly in the office, but the headquarters office didn't care about him at all.

After all, this is the independent choice of country a. They were the winners before, so they can choose their own opponents. It has nothing to do with other people, but he always feels that this is a conspiracy.

Qin Yuan smiled slightly when he knew the situation. It seemed that it was time to expose the secret behind Xiaomao Country. He had sneaked into it once before.

At that time, I overheard some news, and now I should first catch the officer who was lurking inside, and then follow the clues to find the USB flash drive.

If he doesn't do it again, the time will be a little bit behind. After all, their side will end soon, and the other side will start soon. It is really unfair to country o or other countries.

Sure enough, before Qin Yuan went to look for them, Buck had already found them, but because Qin Yuan was fighting, he couldn't see them at all.

Buck's battle with them was held on the second day, a day later than theirs, but now he is really anxious, he doesn't know what will happen, which means that if they lose again, they will rank after ten .

I don't know what Qin Yuan's previous plan was, but it's useless to say anything now, he can only find the person in charge who takes the lead and explain the situation to him. This time, country A will not make a sudden choice, they must have a conspiracy.

But the other party didn't follow his suggestion at all. The other party felt that his previous failure was entirely due to him as the commander, and now they would not say they lost again.

"Do you know what the worst decision of our country is to send you here? Not only are you cowardly, but you also brought camels up the entire city. If it wasn't for you, then we would have already entered the rankings."

Hearing the accusations from the person opposite, Buck said helplessly: "No matter how much you accuse me now, I really want to remind you that you really need to be vigilant. We should oppose the result this time and should not agree, otherwise it will be true. That's too late."

The person opposite smiled contemptuously, and then threw the document on the table. He had already agreed to it, and he didn't need to discuss it with anyone. In his eyes, such a big matter was not discussed with him, and a decision was made directly.

"I tell you, you will regret the decision you made today!"

While speaking, Buck rushed towards the document excitedly. Now he just wants to destroy this document. If it is destroyed, it will have no effect, and he can start over.

At least he really didn't want everyone to lose so badly, that there would be no chance at all later.

But the commander on the opposite side felt that this guy was a lunatic, so he quickly called the soldiers outside to take him down.

"Lock this \*\*\*\* up for me, and don't let him go anywhere. Have you seen that? He's a lunatic, and he's completely bewildered."

Buck was cursing, but was quickly punched in the face by the soldier, and then dragged on.

On the other side, Qin Yuan was about to prepare for action, but today was the first day of their battle, so he still had to observe the situation.

The Mi Army never thought that their opponent's command was a hands-off mode at all, so what they are fighting with them now is completely a soldier's self-consciousness, which can be said to be very changeable.

In the beginning, they put all their focus on the navy and wanted to attack Qin Yuan's marines directly. However, what he didn't expect was that this time, not only did they not wait for Qin Yuan's team to raid the navy, but they also strengthened their defenses. .

Just on the first day, a fierce naval battle broke out between them. The two sides fought evenly, basically did not take advantage of it, and both sides were about the same.

It's just that the American side is very suspicious of what the \*\*\*\* Qin Yuan is doing. It's been so long, why hasn't he infiltrated it yet?

With previous experience, they protected the combat command post and the ammunition depot very well. The army focused on protection. However, after waiting for a day, except for the movement of the navy, they encountered several air strikes. Nothing else.

This time, both sides of the war fought more cautiously. If it was Qin Yuan, he would have chosen to lead the army to break through the siege, and then caused an air strike on him.

It's just that everyone's battle plan is different, as long as the final effect comes out, let them do it.

The next morning, just after dawn, Qin Yuan got up and stretched, and then changed into a set of ordinary soldier's clothes.

Li Erniu couldn't help laughing when he saw it, "Brother Qin, you still say that you let them do it, you don't feel relieved after seeing it like this, you still plan to help them clean up the mess, don't you?"

"That's impossible. I can't help anyone. I just have other things to do. You guys should be strict with me. If Team Gao comes to ask, you should know what to say Bar."

Li Erniu nodded again and again to express his understanding. He felt that Qin Yuan's mouth was too harsh. He was obviously there to help them, but he still couldn't hold back his face and didn't want to say more.

Qin Yuan, on the other hand, was well prepared. He planned to go to Xiao Maoguo to get the evidence first.

At this time, country a and country o are already at war' Xiaomao country is sitting on the mountain watching the tigers fight, they are waiting for another opportunity.

In this case, they didn't expect someone to come to their camp quietly, so they completely let down their vigilance.

Qin Yuan took this opportunity to directly find the tent he was observing before. That guy is still inside. When Qin Yuan entered, he turned around and looked at the person in front of him with a little doubt.

"You? Who are you? How did you come to this place?"

The corner of Qin Yuan's mouth raised slightly, and then he stretched out a finger. The man's eyes instantly lost their light, and he became confused.

He quickly intruded into this person's consciousness and began to search for the previous evidence USB flash drive. They should not have destroyed the data in the USB flash drive. After all, they sold it to country a and asked them to deal with country o.

Soon he found the place to transfer the USB flash drive in the man's mind, but he didn't expect it to be on that Reiko, and he carried it with him on that guy's body. The next step is to find Reiko.

After getting the information he wanted to know, Qin Yuan tied this guy into that dumpling and stuffed it under the bed, and brought it back later. This is also a key witness.

Chapter 1712: Win No. 1!

'Reiko on the other side didn't notice the situation here at all, but this guy is really dedicated, even though there are other officers behind her.

But she is also making tactical arrangements. Because of that arrogant guy Matsushita Haotian, all their tactical plans were disrupted, and many things were not brought into play.

She punched the table, still a little angry in her heart, Matsushita Haotian never let her touch these things before, and now she realized it was too late.

Otherwise, he didn't need to try his best to avoid the war with Pakistan, because the relationship between Ba and Yan was relatively good, and she was worried that the specific situation between the two countries would be revealed, which would be bad for them and would lose the game.

At this time, she suddenly called out to the secretary outside to let the secretary in. She had to send this document to the highest officer for review. This was the plan she had sorted out so far, so she had to do it first.

Even when dealing with other countries, she still has to show her strengths. Although she has a good chance of winning against a weak country like H country, she wants to play their strengths this time to let others know how strong they are. as before.

So her plan has been revised many times, but she didn't know that the highest officer at the moment didn't care about it at all, and that highest officer was simply arrogant, so she let her do these things.

Reiko yelled for a long time before she heard footsteps behind her. She was a little unhappy.

"I have said many times that you, as my direct secretary, should be available at any time. I have to arrange for you to do many things. You must show up immediately. What are you doing?"

What she saw just now when she turned her head was not a familiar figure, but a strange figure. When she saw it clearly, her face turned pale in shock. Just as she was about to open her mouth to shout, Qin Yuan's big hand directly covered her mouth.

"How do you deal with my sudden appearance? Shouldn't you be surprised?"

Lingzi is very scared in her heart now, she doesn't know how this guy came in, and he can do it so quietly, could it be that he has already dealt with all the soldiers outside?

Qin Yuan is not so stupid, he will not do things so badly, and now a lot of evidence has not been grasped, the matter of him directly killing people to the end is another matter, it is just to give people outside stunned.

"I don't want to talk nonsense, just hand over the USB drive."

"What u disk are you talking about? I don't understand what you're talking about at all. Get out of here quickly, or I'll call someone right away. I won't care this time."

This guy was really stubborn, Qin Yuan didn't say anything more, just hypnotized her, and just like that, Lingzi handed over the USB flash drive without knowing it.

To be on the safe side, Qin Yuan also refreshed on the computer next to him. All the data of a dozen countries are on it, and he can also see their copy records. In addition, having this is the key evidence. Let's see how they argue then.

When Lingzi woke up, she found that the person in front of her was gone, she was just lying on the ground, she quickly stood up and checked that the USB drive was gone.

It must be over now, the thing is the key evidence, Qin Yuan took it away, she hurried to another main tent, wanted to ask the supreme commander about the situation, but no one came out after calling for a long time.

When she went in, she didn't find any traces. She didn't know where the supreme commander had gone. When she asked the soldiers beside her, those soldiers didn't even know when Qin Yuan left. It was just that the four soldiers outside her tent were killed. stunned.

Now she has no choice but to wait for the supreme officer to come back and discuss the situation with her. She really can't decide on this matter.

On the other side, Qin Yuan has already arrived at the camp where he was stationed in country o, and now most of them have been sent out, and there are only a few civilians inside.

He knew that Buck would definitely not be taken there, because this guy had been spurned by them all the time, so he came to find Buck.

After asking for a long time, the soldiers inside were a little impatient and didn't pay attention to Qin Yuan at all, but they still love the relationship with others, so they went in and explained to him.

"You don't use this side anymore, Buck is no longer our leader, he has been dismissed, and this guy is a lunatic."

Qin Yuan frowned when he heard this, what the \*\*\*\* is going on? He still hasn't figured out a lot of things, so why did Buck become a lunatic again?

"Brother, I just want to see him. There are some things I want to talk to him about before, can you let me have a look?"

This soldier didn't want to offend Qin Yuan, and he couldn't do anything else. Now the officers above are fighting. Besides, Buck is not that important to them.

The most critical question is that he doesn't understand that Qin Yuan shouldn't be fighting now? Why did it appear in this place?

But in the next second, his mind went blank, and he was directly controlled by Qin Yuan, so he led Qin Yuan to another tent in a dull manner.

As soon as he entered, he saw the tied-up Buck. Now Buck's eyes no longer had the same brilliance as before, and he was lying quietly on the ground without struggling.

He hurried forward to untie them, but Buck shook his head, "It's too late, they've already started, everything is over."

"It's not over! They just started. What do you think this is? This is the key evidence. Now let's go to Halson, and we have all the witnesses and evidence!"

When Buck heard this, he saw hope in an instant. He grabbed the things in Qin Yuan's hand, and Qin Yuan pulled him up, and then asked him to check by himself.

After Buck's inspection was over, he secretly cursed, these guys from Xiaomao Country are really despicable, and they have reproduced all these things before.

Since this is the case, it seems that the subsequent wars are also meaningless, and they have completely confused them. This is not because they knew their cards in advance.

At this time, Qin Yuan also said to him: "Now I can't stay here for too long, I will give you the things, you go to Halson, I think you should be able to get in, I have to go back to the Lord It's on the battlefield."

After saying this, Buck remembered that he looked at Qin Yuan in horror, "You are too courageous, you are fighting against the United States, and you, the commander-in-chief, are still running around."

"Hehe, let me tell you the truth, I don't take Migu seriously at all. In my opinion, they are just a bunch of jumping clowns. It's enough that the people under me are responsible for fighting them."

Buck's eyes showed admiration. This person is indeed enough to become their most threatening opponent in the future, but it is currently impossible.

Qin Yuan left after hastily explaining, and he quietly returned to the battlefield. So far, the two sides are fighting pretty well, and their side has a great advantage.

According to their previous plan, now their army is about to countercharge.

Li Erniu is very excited. The result of this battle will be seen soon, "Brother Qin, are you surprised? Your army and the others are very capable, but this time they have shifted all the focus to the navy. ."

Qin Yuan had already guessed this result. According to their previous understanding of these battles, they would think that he would lead the team to infiltrate, so he simply didn't prevent his team from

directly attacking his navy, but he didn't expect that they would also infiltrate him this time. A surprise came.

"Let several companies behind them speed up to form a pocket formation, shrink them as soon as possible, and send drones to intercept them, so as not to let them pose other threats to our position."

He Chenguang nodded. This is similar to the plan they mentioned before. Everyone is proceeding in an orderly manner. If there is no accident, the battle will be resolved tonight.

On the other side, the commander of the United States is now staring wide-eyed. He didn't expect to make a mistake in judgment this time. More importantly, Qingyuan didn't play the cards according to the previous routine.

He fought in a very embarrassing situation and was constantly retreating. Although their naval battle strength was strong, they couldn't resist Qin Yuan's air strikes again and again, which completely delayed this matter.

Unexpectedly, Qin Yuan could really rewrite history this time, and everyone watching in the venue was looking forward to it.

Unexpectedly, after so many years, Qin Yuan would reshuffle the cards, and he would stand in the first position. Moreover, Qin Yuan was very proud at the moment, and he wanted more than just this result.

The super sexual weapon they studied before is still on his side, and this is the biggest trump card.

Under the siege of the police on the Qingyuan side, the Mi Army's side will soon lose money. In the end, they can only give up the naval battle and completely protect the command post. But this is also an even more wrong decision. They originally wanted to delay time, but It couldn't resist Qin Yuan's violent attack at all.

Under this wrong decision, it was not even night yet, the entire battle ended at 6 pm, and cheers erupted in the venue. This time they really witnessed history, and all the impossible is here A moment was witnessed.

Gao Shiwei shed tears with excitement. After so many years, they finally proved themselves. This is their strong military strength. They achieved the first place. Although this time it was only a simulated training exercise, it was shocking enough.

Although the Mi Army is not convinced, the battlefield is over, and they are in the second position. Relatively speaking, they are much better than other countries.

Their person in charge in the venue cursed, stood up and overturned the table, which caused quite a commotion.

"They're all a bunch of despicable guys!"

Gao Shiwei was unhappy when he heard this, what is despicable? They have adopted their own tactics from beginning to end. Their strength is not the enemy, but to blame themselves.

"Some people are not as strong as others, so they start talking here in a strange way. They are incompetent, incompetent, and have a big temper. It's really a joke."

The officer in charge of the country of America couldn't speak a word, so he could only shake his hands and leave directly. The person in charge of country a next to him also wanted to please him, after all, they still had contacts later.

"I think you are good enough this time, and you have achieved the second position. Compared with other countries, you are very lucky."

"I think there is no one who can look up to it. Second, I never take the second position, because the first is the best. I will not let them have this opportunity next time."

After he finished speaking, he left, and when this guy didn't know, how could he have such a chance next time, and he didn't know how many years later it would happen.

At this moment, everyone still doesn't know that there is a huge conspiracy that is about to be uncovered. With the end of the battle on Qin Yuan's side, the battle on the other side is also over.

This is mainly for countries O and A. The commander of country O really didn't expect that he would lose so thoroughly. Every command he made, the other party seemed to know everything about him.

This time they were completely ranked outside the eighth place. This result was really too humiliating for them.

Seeing this, it wasn't a problem with the command at all. They had already changed two conductors, but the result was still the same. Only then did he remember what Buck said earlier.

But now it seems that everything is too late, their rankings are already doomed, at this time, Buck hurried to the venue.

Halsen was still following behind, and a few soldiers behind him were intercepting them.

"Hey, stop them quickly, don't let them in, that person is a criminal suspect."

The soldiers in front hurriedly intercepted Buck and the others when they heard it, but Buck ignored them and took out his military ID card directly.

"I'm bringing this suspect here to clarify some things, ' How dare you stop me?"

Having said that, everyone was a little hesitant. Buck took this opportunity to kick open the door and walked in directly. In this case, he was able to better protect Halsen, and the moment the person in charge of Xiaomao Country next to him saw Halsen, his eyelids twitched.

Why are these two suddenly together? A bad feeling suddenly ignited in his heart. Everyone didn't know what they were going to do. Buck suddenly said loudly:

"I came to this place today to expose an ugly crime I committed before. This is a very unfair battle. Why did we lose? It's all because of Xiaomao Country!"

Hearing his voice, the person in charge of Xiaomao country stood up on the spot and immediately vetoed it.

"Why is this the style of your O country? It is obvious that your own strength is not as good as others, and now you are still hurting us after losing the game?"

"I never do things with my mouth. I have brought key evidence, not only evidence, but also witnesses."

This matter involved the previous unfair situation, and everyone began to be cautious, because it was handled by the previous group of people, and most people didn't know it yet.

Chapter 1713: Rank Cancellation

'Seeing Buck's swearing, and he was the commander-in-chief of country o before, his words are generally not false.

The rest of the people in Xiaomao Country were not happy when they heard it. Isn't this ruining their own good deeds? And it seems that this guy really has some evidence.

So I couldn't help but feel guilty, and immediately pointed at the person in front of me and shouted: "What? Do you really believe what he said? It's completely deceiving. In my opinion, it's not worth mentioning at all. Just There will be no such thing."

"Hehe, if there is no such thing, then why are you so excited? Is it true? I have evidence here, and it's not your turn to speak."

The person in charge of Xiaomao Country turned pale, and he could probably guess what happened, but at this moment, another burst of hurried footsteps came, followed by a person who was tied into a rice dumpling, and was Kicked in from the outside.

The person in charge on the opposite side took a closer look, isn't this the officer they were outside before? Why did you come to this place?

Before he could react, this guy just saw that something was wrong and wanted to go outside, but he was directly controlled by the people next to him, because Qin Yuan had already walked in with his hands behind his back.

"Since you don't even believe what he said, let me give you a gift. Let's see what it is. This is the best witness."

Gao Shiwei was also dumbfounded, they still haven't realized what's going on here, why did Qin Yuan bring a person in?

After Qin Yuan finished speaking, he slapped the USB flash drive on the table, and the person in charge of Xiaomao State completely slumped on the ground, everything was over, and everything was dug out by them, so what else? Say?

Halsen is very cooperative now. In his opinion, he is completely being used, and he was threatened at that time, and he had no chance to resist at all. Now that he has this opportunity, he must live, at least for himself living parents.

Under such circumstances, he kept defending himself, and the people in charge on the opposite side were also very shocked after hearing this. Unexpectedly, their information was completely leaked before they knew it.

However, just now, people from the United States continued to come back, and they also heard what happened in the conference room.

They came back not to preside over this so-called justice, but to condemn this injustice, because in their view, the reason why they say it is because of the unfairness that is happening now.

The person in charge of the United States did not feel embarrassed at all, and directly stood on the stage and published it.

"Everyone, if this is the case, then I suggest canceling the previous ranking directly, and we should redo the ranking, because this is unfair. Everyone has grasped the unfair situation. No wonder I said Why did we lose?"

Qin Yuan sat across from him with his legs crossed, and after listening to him finish speaking quietly, he burst out laughing.

This guy was fooled by Qin Yuan's laugh, he didn't know what was so funny, he was also stating the facts, and fortunately he caught this opportunity to make a name for them, otherwise they lost to Yan Guo, and they would not be able to do anything after they went back. There is no way to explain.

"I don't know what you're laughing at, and you obviously took advantage of it. Do you dare to say that you didn't get involved in this matter this time? Our information has already been leaked, which gave you a chance to win."

"Hahaha, what I'm laughing at is that you only heard half of the story and then ran away. Now let's talk about this again. Don't you understand that this data doesn't include us and you?"

It turns out that the data on the US side is completely independent. They have always been so overbearing. At the very beginning, they had to build their own independent database, and there was no way to decipher it.

So there is no effort to obtain their information in this data USB disk. Besides, Qin Yuan would never do such a thing. He just came to expose, so how could he possibly pour dirty water on himself? He has already dealt with this matter cleanly.

Everyone looked at the evidence on the table, and the officer in charge of the United States was a little embarrassed for a moment. It seemed that it was too early. He kept talking about this matter just now, but now he was beaten a little bit.

But now Qin Yuan is not in charge of these matters, the rest should be handed over to them, and the interrogation they should interrogate should go according to the procedure.

It was also because all this matter was delayed. In this place, three days passed. They held meetings non-stop, and the negotiations did not come to a conclusion until the fourth morning when Gao Shiwei came out of the meeting place cursing.

Seeing his angry appearance, Qin Yuan couldn't help asking: "What's the matter? I saw that you were very happy when you went out yesterday."

"These despicable guys, they want to completely overthrow the results now, and feel that if everyone's results are not technical, it means that this time all of our competitions are completely in vain."

what! Li Erniu was also shocked when he heard the news. Everyone has worked hard for so long, and they were selected in the country, and they came here to compete non-stop. It took more than half a year. If they say it doesn't count, it doesn't count.

"This is too exaggerated. Then the efforts of so many of our brothers are in vain, and it is not beneficial to us. We are now the first. Don't they recognize it?"

Gao Shiwei sighed, that's the problem, people don't care whether you are number one or seventh, now everyone's results are invalid, and it is in the form of voting.

Only a few countries agree that according to the current ranking, it is because the ranking is in their favor, and most of them have chosen to overturn this ranking because everyone thinks it is unfair and should not be counted.

"I really can't figure it out. Obviously we are doing things down-to-earth and have not participated in anything, but we are going to be dragged down by them. We really have a clear conscience for this first result, but now we have to be taken back."

Seeing Gao Shiwei's distraught look, Qin Yuan had already expected it, and he just calmly walked to the side to make him a cup of tea.

"I expected this from the very beginning, and they will definitely do it in the end, but the ranking is not important to us anymore."

what! How could this be unimportant, the efforts of so many people, but what Qin Yuan said next did convince them.

Because the ranking is for outsiders to see after all, and this time against so many countries, everyone has seen the specific results. Their first place is indeed a clear conscience. Others see their strength, the most important thing is that their strength is in the here.

"We came this time to show our strength. Although the ranking has been cancelled, everyone knows that we are number one in our hearts. It is not necessary, as long as it has that deterrent effect."

What he said was indeed true, and Gao Shiwei felt at least a little comforted, otherwise he would have nothing, and he felt that it was too bad for everyone to spend so long.

Because after the so-called ranking of this matter is gone, it will continue as before, but that is a title, and everyone knows who has the real strength.

Countries also began to return to their own countries one after another. The day Qin Yuan and the others set off were warmly welcomed by everyone. Although they had some names before, they were never so popular.

The person in charge of country a looked down on them before, but now they all ran over and smiled beside them, asking them to line up for registration first.

This attitude is indeed quite good. Compared to before, it is much better. Before these guys colluded with the US side, they would not care about them at all.

Qin Zhengyang looked around in the hall, but he didn't see anyone from Xiaomao Country. He thought he should settle accounts with these grandchildren, but there was no one.

"It's really strange. Don't they all go back? I remember that there were quite a lot of them."

"They shouldn't be able to go back, and do they dare to appear here? Not only do we want to beat them, but those whose rankings have been cancelled, want to beat them even more, so they should have stayed until the end, and several officers I have been left here, where else can I go?"

This is also called self-inflicted, they made it like this at the very beginning, and more importantly, there was country c. After the registration was over, Qin Yuan met the military minister again.

The military minister no longer had the arrogance he had before, and became very low-key, because he didn't know what was going on this time, especially when he was fighting against the Yan Kingdom.

He glanced slightly, praying in his heart, he didn't want Qin Yuan to pass by, in such a large crowd, if he suddenly asked some question, he didn't know how to answer it.

However, the more he was afraid of something, the more he would come. Qin Yuan walked towards him with big strides.

"Oh, what a coincidence, I didn't expect to meet you here."

"Chief Qin, what do you mean by coming to me? Our previous grievances have been resolved in that war. After all, it's not right for people. Isn't this an old saying you have always said?"

"Hahaha, relax. I'm not here to trouble you. Why are you so nervous? Did you do something with a guilty conscience? I'm afraid I'll find out."

This military minister is already scolding his mother in his heart. How could this guy guess what he was thinking in his heart? The more he was like this, the more flustered he really was. In fact, he had a good heart before, but he didn't know why he met Qin Yuan. No, getting this guy is his nemesis.

"Officer Qin is really good at joking, it's nothing, I was just joking."

"Actually, it's okay for me to come to you. I want you to tell your president that I can go and play with him when I have a chance. The things he promised me before have not been fulfilled."

The Minister of Military Affairs has already set off an uproar in his heart. He didn't expect Qin Yuan to have something to do with his own family. The soldiers next to him were also taken aback. This guy's tone is too familiar. Is he so friendly with the president?

"Oh, I didn't know Chief Qin and our president are so familiar. It seems that you were friends before."

"Actually, it's about the same. He asked me for some things before. Anyway, I will go to him later. I hope you can tell me. That's it. I'm going to register."

After finishing speaking, Qin Yuan left, leaving behind a confused military minister. He didn't know what this man was playing. Originally, he planned to deal with the president directly after returning this time. He was just a puppet anyway.

Hearing Qin Yuan's meaning, it seems that he can't move, otherwise he may be discovered by this guy, and this Qin Yuan is not a fuel-efficient lamp, he likes to meddle in his own business.

Thinking of this, he clenched his fists. This feeling was really uncomfortable. He had made all the plans, but now he was going to be broken because of this person.

But facing this situation, he had nothing to do, and Qin Yuan on the other side proudly walked back into the team.

He is definitely going to country c, he is going to rescue the special operations team in his country, and he will also threaten to prevent this guy from doing it in advance.

When he was probing the mind of the military minister before, he had already learned that he wanted to kill the president and replace him with another person.

Originally, this matter didn't have much to do with him, but thinking about how many times he had contact with that person before, it felt pretty good, so let's give him a small gift to save his life.

At this time, Qin Yuan also deeply understood what it means to be powerful. When your ability is strong enough, you can save a person with just one sentence.

Thinking of this, he is eager to get more improvements, because with the deepening of his research' who knows what weird things will be developed.

But Qin Yuan and the others received a warm welcome when they returned. After all, this time was a private plane pick-up. Although there was no ranking this time, their previous rankings had already been spread to the country, and everyone knew what was going on.

Although most of the people don't know what's going on, the insiders above must know, and everyone is warmly welcoming them.

As their plane slowly landed, the water trucks on both sides had already begun to welcome them with a water curtain.

After returning, although they didn't get any rankings in the world there, all the participating teams have won collective merit this time, which is a rare honor.

After all, in this battle, especially under the leadership of Qin Yuan, none of the defeats were beautiful.

It's just that Qin Yuan felt it was a pity. He was used to these fame, which kept most people in the dark. They kept saying that the most powerful country in the United States had now become their own defeat.

But there is still a chance in the future. This time it is mainly the organizer's problem. If we wait any longer, it should be five years later, and there will be such a competition after five years.

Chapter 1714: take the daughter

'Many people were rewarded in this competition. It can be said that Qin Yuan, who was everywhere, as the commander of the entire team, appeared in the internal daily of their military department several times.

Under such continuous interviews, he kept going around, accepting various interviews in various places, and met various leaders, who were also commended in various ways.

It made him feel a little tired, but what he couldn't let go of now was that he was going to investigate the affairs of country C.

Because of their achievements this time, Qin Yuan can take a vacation and have a good rest, but it is said that it is a vacation, but it is actually within the brigade.

Here, Qin Yuan just finished explaining that Li Erniu and the others are going abroad to investigate a matter. He didn't say the specifics, and asked everyone to keep it secret for him, and cover it up if there is any situation later.

"Brother Qin, where are you going so mysteriously? It's not interesting for you to act alone and leave the brothers behind. Let's go together."

"There are some things I don't want to hide that you are the special operations team that disappeared before. I have some clues, but I don't plan to take you there. It's too dangerous. I'm sure."

Qin Yuan generally made a decision, and no one could stop it. Everyone knew that since he decided not to take everyone with him, it was impossible for him to do so.

"Okay, Brother Qin, anyway, if you have any problems with this watch, you can call at any time. Brothers, we can support you wherever you are."

Qin Yuan nodded, and left in a hurry with his backpack in hand. Just after he left, An Ran also came to the brigade and brought the child.

Before An Ran came in, she heard her yelling outside: "Where is Qin Yuan! Tell him to get out, he really doesn't want this family, doesn't he know that he is married now, but I I heard that he has a vacation now, why didn't he even go home?"

Li Erniu hurried out and took the child over with a smile on his face. Qin Ran hadn't seen him for a long time, and he had grown much taller.

"Hey, sister-in-law, it's too coincidental for you to come here. Brother Qin just went out."

"Where else can he go? Why don't I know? Don't you lie to me, I know he must be here."

Li Erniu was very helpless, so he had to take him to the dormitory where Qin Yuan lived, and said that Qin Yuan had gone out to perform a mission, and they really didn't know what happened.

When An Ran heard about the execution of the task, she felt that it was a little impossible. If there was a task to be carried out, why did Qin Yuan only be sent there?

Just when Li Erniu was trying to explain, Qin Yuan suddenly said something in a childish voice.

"I know where Dad is and I can find him."

An Ran was stunned when she heard this, but when she thought about her daughter, there seemed to be something unusual about her. She was also taken away for no reason when she was young, and finally came back safe and sound.

"Of course, are you sure you can find Dad?"

"Yes, I know where Dad is."

As Qin Ran grows older, the system in her body can no longer be controlled, and it begins to explode again. For example, now she can feel her father's breath just by thinking about it.

Li Erniu saw that the situation was not good. Regardless of whether the child was telling the truth or not, he had promised Qin Yuan that he must not reveal his whereabouts.

But how could he stop An Ran, and An Ran made special preparations when she came. She asked Gao Shiwei, and she really didn't have any special missions. As for the team members, they will not be dispatched for normal missions. Basically, they are dispatched by the special forces below.

In this way, An Ran took the child, and under the guidance of the child, she came directly to the airport road. She also felt very curious and kept asking her daughter.

"Of course, you tell mom, how do you know dad's whereabouts, have you seen him, or has he called you?"

"I don't know, I just know where Dad is, and I will definitely take you to find him."

On the other side, Qin Yuan didn't know anything about this matter. He just bought a ticket and was waiting to board the plane in the airport lobby.

Just when he was bored, a child's voice sounded.

"Daddy! Daddy!"

Then he saw a little girl in camouflage, trotting all the way, running towards him, he took a closer look, isn't this his daughter?

Behind him was an angry An Ran, who had scolded Li Erniu all over when he saw this scene, because He Chenguang and the others had gone back on vacation, and Li Erniu was staying behind, but this guy was too unreliable, He turned around and sold him out.

But still smiling on the surface, An Ran didn't say out loud, "Don't laugh at me, this trick is useless to me now, I just want to ask where are you going? Don't talk about performing missions, I didn't listen Tell me what you have to do."

"Is it true that Li Erniu's mouth is a loudspeaker? I told you, I didn't perform any missions."

"Don't lie to me, and he didn't tell you. Our daughter said that we could find you, and then we came here."

Qin Yuan was holding the child and laughing just now, but he was stunned for a moment when he heard this. A thought quickly turned in his mind, and he lowered his voice in the child's ear and asked:

"However, is it because the system has come out again now, or you can hear other voices again?"

The child nodded, because the child is not very old, but she can still express clearly now. She said that there will be some mechanical voices in her head, which she can't hear clearly, but Momohuhu can hear it, just like this time She could sense Qin Yuan.

This news is not particularly good for Qin Yuan. She really hopes that her daughter can get through it safely. His current identity is relatively hidden. After all, he is the captain of the special warfare team.

But the child is different. This child has not undergone other special training, and if he suddenly becomes so strong, it is very likely that other people will suspect him.

It's just that he couldn't figure out why the system started to wake up again. He had clearly suppressed it before, and he remembered that this efficiency seemed to be maintained until he was 18 years old.

At least until the age of 18, the child is fully sensible. In that case, there is no problem even if the system is developed again.

Thinking of this, Qin Yuan hurriedly inquired about the system, and before his inquiry was over, An Ran outside kept shaking him.

"Hey, Qin Yuan, you are getting more and more courageous now. You pretended not to hear what I was talking to you, right? Just change the subject here."

Qin Yuan quickly explained himself with a smile, but he didn't get enough sleep, "How is this possible? I really want to spend time with you and the child, but sometimes I can't help myself."

"Then tell me clearly, what are you doing out this time?"

"Don't worry about this. This time I'm looking for a friend from before. Don't worry, it's a man. Because I promised him something, he is in country c."

An Ran was a little dubious when he heard this, but Qin Yuan would indeed know a lot of friends, and this was something he had promised to other people, so there was nothing wrong with it.

At this time, An Ran suddenly received a call. She was also on vacation, but orders are bounden duty, and sometimes it is like this.

After hanging up the phone, An Ran looked serious, now she must return to the team as soon as possible.

When Qin Yuan heard this, he quickly put the child in her arms, "When you return to the team, you have to take the child with you first. Send the child to our parents first, and let them take it for a while."

"Hey, I found that you are really a big problem. This is your own child. Don't rely on my parents for everything, and my parents are going on a trip now. I didn't know there would be such a thing matter."

what! Qin Yuan felt dizzy when he heard this, why did everything come together, it turned out that An Ran felt that this vacation time was quite long, so she planned to come to Qin Yuan.

In the end, she didn't expect an unexpected situation, and now she was called back. Before, she was thinking that the child's grandparents had been taking care of the child, and it was quite hard work, so she simply let the old couple go out to relax.

"Then what should I do with the child now? I'm going to find that friend, and I'm going abroad again. Do I just take the child with me?"

"Who else can take it if you don't? You know, we definitely can't take the child inside, so you can take her first. You're not on a mission anyway, so there won't be any danger, right?"

In order to reassure An Ran, Qin Yuan could only nod his head, and now that the child's system had awakened again, he thought it might be a good thing to be by his side.

"Okay, okay, then you go quickly, just leave the child to me."

Qin Ran was very happy, she was finally able to go out with her father, and now she was hugging her thigh tightly.

After An Ran left completely, Qin Wukong asked about the specific situation just now, and the child didn't hide anything, and told him everything.

It turns out that the child's hearing and sense of smell are very developed, and all senses are very developed, so he can feel Qin Yuan, and it should be related to blood.

Now I have no choice but to take the child with me first. Fortunately, after boarding the plane, the child fell asleep not long after.

Taking this opportunity, Qin Yuan quickly called out the system, "What's going on? Why did Qin Yuan's system start to recover again? Shouldn't it be that you said before that this would never happen again?"

"Answer the host, because he is your second upgraded version, so the system has undergone another evolution, and I have no way to control this evolution."

"What! Even you can't help it. Didn't you say that you have upgraded to a god-level system?"

The voice of the system is very cold, just explaining all this coldly, the solution told Qin Yuan at present is that Qin Yuan's system can be upgraded now, and the child can be suppressed.

But the current upgrade still lacks 90,000 merit points, and it must reach 90,000 merit points to completely upgrade.

Qin Yuan was going to scold his mother when he heard this. He didn't expect that this meritorious value could be used in other places, but now it's gone.

"Okay, I think your broken system is useless, so hurry up and think of a way, what is the fastest way I can use to get more merit points now."

"Ding! Please wait a moment, the host is being detected, and system tasks can be obtained."

In this way, the system kept checking, until Qin Yuan got off the plane, and there was no reply. Qin Yuan looked at the child next to him, no matter what, the child's ability had been fully stimulated.

After getting off the plane, he didn't go to the president of country c immediately. Now that he brought the child, he had to settle it first.

Just after returning to the room, the system sent out a reminder again.

"Ding! Remind the host, is there a system task to accept?"

Is not this nonsensical? Now as long as he can earn merit points, he will do anything. Next, he didn't watch so much, and took over six tasks in one go.

It was only when he checked carefully that he realized that all these system tasks revolved around country c, especially the one with the highest reward that could award 30,000 merit points.

The goal of this mission is quite related to him, because the goal of the mission is to directly solve the military minister of country c.

With Qin Yuan's current ability, it would be too easy to solve a person, but he doesn't understand why he has such a high merit value for solving this person. It seems that this guy must have undergone some transformation.

Based on his understanding of the system, the current situation is that the greater the difficulty, the more points he will give.

The other steps are to investigate the military research base of country c, to ensure the safety of the president of country c, and to obtain the serum of the military research base.

The points obtained for these one by one are not particularly high' But if he does all of them, he can get a total of 40,000 merit points this time.

After all, it was a very good deal. To be honest, he could go directly now, but he had no choice but to take the child with him.

At this moment, the child who was eating on the opposite side suddenly ran in front of him.

"Father, I know what you are thinking. Are you worried that I will cause you trouble? Don't worry, of course I won't. I will be where you let me be, and I can follow you. "

It was only at this time that Qin Yuan remembered that his daughter was the same as himself, so she also knew the basic mind-reading skills, so she could know what other people were thinking.

"Can you really keep up with me?"

In fact, Qin Yuan also wanted to see the time. He didn't see him, and wanted to see how far his daughter's system's ability had developed.

Thinking of this, he opened the window and checked the distance with his eyes. Now he is on the 22nd floor of the hotel. The outside is made of glass, and there is basically no place to climb.

But this is not too difficult for him, he can firmly adhere to the outside of the glass.

Chapter 1715: 2 faces

The 'Qin Yuan is actually feeling a little nervous right now. He doesn't know what his daughter's ability is. This is outside the 22nd floor.

At this moment, Qin Ran even made an unexpected move. The child jumped onto the window easily, and then came to Qin Yuan's side without any hesitation. At such a high height, she didn't have the slightest fear .

Qin Yuan's outstretched hand was hanging in the air, wanting to protect her, but he didn't expect it to be unnecessary, Qin Ran was very steady.

"Dad, you see I have no problem, this kind of trivial matter is too easy for me."

Qin Yuan didn't know whether to be happy or what to say, at least to prove that his daughter's abilities were not inferior to his own, and it was the safest thing to bring her with him under such circumstances.

After some tests, Qin Yuan felt that his daughter's abilities were absolutely fine, and at the same time told her where she was going this time. The child was too young to understand, so he just said something casually.

"Where is Dad going? Then I'll follow suit, and I won't make trouble."

"Okay, of course, then you have to promise me that you will never tell mom after you go this time, and this time, no one can tell. This is also a secret between us."

Qin Yuan must be very happy. It is very rare for her to be with her parents. She will not miss such an opportunity, so she quickly promised to nod.

Qin Yuan can be said to be worried now. He walked out of the hotel with the child, and now he wants to go to the president of the country. It is very easy to enter that management area.

The main reason is that the child is still relatively young and listens to him in everything, but when the child grows up and gradually has her own self-awareness, will she still listen to her, so she must solve the problems in her own system as soon as possible. Complete the upgrade.

Qin Yuan took the child and ran all the way, the two of them moved in unison, rolling non-stop in the dark night, and soon came to the management area.

"Did you see it? It's the building inside. We have to go in quietly now, so that the guards next to us can't find out. Can you do it?"

Qin Ran nodded quickly, which was a trivial matter to her. Although she hadn't tried it, the system ability in her body made her full of confidence.

However, Qin Yuan didn't even give the order here, so she rolled over and jumped over first. Qin Yuan was shocked in his heart that the child was too impulsive, and he didn't even make it clear.

He could only quickly keep up with the speed of the two people behind his own child, but Qin Yuan was even better, jumping over the high wall with ease, and then rushed in.

She ran all the way, and she must rush in front of her father. She desperately wanted to prove herself, so that her father would take her to other places in the future.

However, the child was too young to understand many things. Just after she jumped in, suddenly the siren sounded next to her.

This place has infrared sensors, but the child didn't know it, so she could only retreat quickly, and at the same time the guards also rushed over.

This side is a relatively large courtyard. If you want to retreat, there is no retreat at all. At the critical moment, Qin Yuan made a quick move. First, he controlled the guards, and the siren stopped abruptly in the next second. ....

In order to prevent other guards from coming over, after all the sound had already been made, Qin Yuan didn't have time to think about it, and ran towards the building with his child on his back.

After the two of them ran out completely, they had arrived at the outer wall country. The president was in the room. At this moment, he also heard the siren, and felt uneasy in his heart. He didn't know what was going on. Someone Dare to venture into this place?

Just when he was wondering, the window was opened, and he was going to call the guards outside in the next second. When he saw that familiar figure, he didn't speak, and it really was this guy.

Qin Yuan also jumped in with the child on his back. He moved very softly without making any movement, then turned around and closed the window.

Before explaining anything else, Qin Ran had an aggrieved expression on his face. He lowered his head and felt that he had made a mistake, and he could have come in safely just now.

"I... Dad, I know

Wrong, I influenced you just now, if it wasn't for me, then we should be able to get in more smoothly. "

"It's okay. From now on, you just need to remember that I will take you with you, and you can go away at ease. Besides, don't be so nervous. I am your father, and I will stand behind you and protect you at all times."

To be honest, Qin Yuan was really taken aback just now, but he will protect his daughter well. Although there is a small mistake, it is nothing to him.

When Qin Ran heard that Qin Yuan didn't blame her, he threw himself into Qin Yuan's arms and acted coquettishly.

After a long time, the president of the other country coughed slightly and interrupted the two of them, "Well, I think you two should take a look at my place? If you want to show your family affection, you can consider going to other places ."

Qin Yuan smiled, and took the child to the next room first, "Do you have anything to eat here? Bring some food first, my daughter doesn't seem to have eaten yet."

Although he thought so in his heart, he acted very honestly. He went to the door and asked someone to bring some milk and bread.

After a while, Qin Yuan came out after he settled the child.

"I see why you brought your child with you this time. No wonder you were discovered. You should be responsible for the alarm just now."

"That's right, but they won't doubt it, because I've already solved the rest of the problem. At most, they'll just think it's the Intelligence Service, or they saw some kind of wild cat."

"You are really very confident, but your ability also makes me very admired. It is true that only you can do this."

"It's not worth mentioning now, I'm here this time to tell you something."

The president has probably already guessed it, because since the minister of military came back, he has a strange attitude towards him, and he has not come to give any work report until now.

Qin Yuan told all about the previous competition there, including how much he, the military minister, recruited him outside, and even he could see the difference in the opponent.

"I knew this \*\*\*\* would do this before, but my strength is not as strong as his. Now he is slowly gaining power. I can't persuade him at all. He can only decide many things."

"These are minor problems now, things I didn't tell you, do you know that guy is secretly doing experiments behind your back? Those special forces from various countries, including ours, were all taken away by him."

It was still the matter of the special forces team member before, and the person opposite here gasped.

Because this is not something he can solve. If so many special forces members really find out about him, then everything will be over. As the president, he must not be able to get rid of it. How can he offend so many people? ?

"Do you have any other evidence now?"

"Why do I say that, you still don't trust me, if you don't trust me, then I think it's really a waste of time to come here, just pretend that I didn't come, I will solve it myself."

After Qin Yuan finished speaking, he turned around and was about to take the child to leave the country, and the president hurried forward to stop him. He said that he didn't mean that, he just asked if the evidence could be released, and then he could sanction him.

"I think you really think too simply. You think it's impossible to sanction him in this way."

Qin Yuan also told him his thoughts, except for those evidences, these are not worth mentioning, this time he went to find the real evidence.

Only by uniting with several other countries can he be suppressed and completely lose the support of the people. Otherwise, if this is done directly, the president will not have any real power and will be beaten instead.

Qin Yuan chuckled. In fact, he didn't think of these things, but he saw in the mind of the military minister that these guys originally wanted to push the president of the country with the hearts of the people.

"How do you need me to cooperate with you now? How are you going to investigate?"

"I don't need anything else, I just came to tell you, and shouldn't you thank me? If I didn't remind him

, you may have been pushed down by now. "

Hearing this, a burst of cold sweat broke out on his back, he didn't know what to say, "I... I really don't know about these things."

"Anyway, things are like this now. I'm here to tell you, just to let you prepare in advance. I can do the rest by myself. But you should reward or compensate me, and you should have it."

Children should be the safest in this place, "My daughter will stay with you, there should be no problem."

"You put the child here with such peace of mind, aren't you afraid that I will use her to threaten you?"

Qin Yuan showed a bright smile. He knew that his daughter would not be easily handled by others, so he was not worried at all. ....

After entering the room and explaining a few words, he left, and he will come back in two days at most, so there will be no problem, and it is fine if his daughter does not threaten the president.

However, in the next second he knew why Qin Yuan was so relieved, this child was not simple at all.

"I want milk with strawberries now. The milk just didn't taste good. I want strawberry. And this bread is not good. I want jam."

"Little guy, when your father was here just now, you were not like this."

"I don't care, you have to bring it to me now, or I'll go out and find it myself, or when my dad comes, I'll tell him you abused me."

"I want to play a game now."

"What time is it now? Where can I find you a game console in the middle of the night, go to bed quickly."

The president of the most country still compromised, can he not compromise? The child started to cry and make a fuss at every turn. He was worried that the crying would attract other people, and that would be the trouble behind.

Although he has never brought other children, don't those little girls fall asleep only after reading fairy tales or listening to storybooks in his impression? This child actually started playing gun games at such a young age.

Qin Ran in front of him started to play the game, and he was able to get headshots anytime, anywhere, and this operation stunned him.

This child really has two faces. In front of Qin Yuan, she looks like a good girl, but in front of others, she looks like a little devil.

And the guards outside at the moment are also confused. Tonight, they all don't know what's going on. One moment they want sweet milk, another moment bread, game consoles, and now Lego.

Qin Yuan was very happy here, and Qin Yuan had already set off to the pier. The military base was built on a small island, so it was only possible to go there by boat.

At night, after the captain of the boat was woken up, although he was a little unhappy, this is a door-to-door business after all, and there will still be many tourists here.

But when he heard where Qin Yuan was going, he immediately shook his head.

"We can't go to the Alan Island you mentioned' I don't know why it has been completely blocked now. It is said that there are military exercises, so we can't get through."

"I didn't let you go, but just sell me your boat."

The boss of the boat immediately felt that this guy must be joking with him, who came to buy the boat in the middle of the night, and said these strange things, but the next second, he only saw the boss waving his hand happily to let Qin Yuan leave, and he hugged Qin Yuan in his arms. With a big bag of cash.

So it turns out that as long as the money is there, nothing is a problem.

There is no laboratory on the island Qin Yuan is going to, it is just a warehouse for storing experimental supplies, and the experimental supplies mentioned here are the special forces members who were captured before, and they were all detained separately.

There is a large distance between the laboratory and the experimental supplies, so that even if someone is discovered, it will not be destroyed.

Chapter 1716: Give yourself a makeover too!

Qin Yuan is not in a hurry to go to the laboratory. He has to confirm the safety of these team members first. It has been such a long time, about a week before and after, so he has to confirm first.

As for another mission, he has been reminded all the time now, that is to assassinate the military minister, but he thinks that this mission will be saved for later, to ensure the safety of the team members first.

He drove the boat and started to head there. When he was about to reach the island, there were still four or five kilometers away. Unexpectedly, he heard the roar of the speedboat in front of him. It seemed that there was a patrol team.

For the sake of safety, he jumped directly into the water. Within a few minutes, the patrolling speedboat had arrived near the fishing boat, and the horn on the speedboat was constantly shouting.

"Please leave the military restricted area as soon as possible, please leave as soon as possible!"

But the speedboat didn't move at all, just floating on the water. The team leader felt that the matter was not that simple, waved his hand, took out the walkie-talkie, and called for some support. At this moment, something they didn't know was already going around underwater. past them.

After they checked the boat, they didn't find anyone, which made them feel a little strange. If there was no one, how did they drive the boat to this place?

"The captain is so weird, we checked inside and out, and there is no one."

"It's impossible, go down and continue to see if there are people hidden in the cabin below, don't let go of any corner."

But these team members searched around the cabin, and even the water tank below was pried open, and there was no one there.

This is so strange. Could it be that they were so frightened that they fell into the sea? The captain of the patrol felt that the matter was not that simple, and asked the people who came to support to start searching in batches. Could it be that they left in small boats?

The possibility of this kind of situation is relatively high. After all, this is on the sea surface. It is impossible for someone to jump directly into the sea in this place, and they can't hold their breath for such a long time.

The patrol team also began to expand the range to search. At this time, the speed of love was extremely fast, and it was like a balance underwater, without any obstruction, and soon he was close to the island.

It's really not that simple. A tall iron plate has been built around the island. This iron plate completely blocks all sightlines. You can't see anything inside. There are guard posts outside, especially the guard posts on the side. Also equipped with heavy weapons.

Qin Yuan looked around at the heavy weapon, but don't think about it there, you can basically hear it when it is opened, and there are seven people on the side of the heavy weapon.

He continued to go around to the back and looked at this position. There were only three people on duty here. Behind them was a high iron plate, which completely blocked all sight. The iron plate was about four or five meters high.

At this time, the three people on the shore haven't noticed anything unusual, the weather is relatively cold, and the few people around the island can only chat with each other.

"Hey, you found out that there is no good time and you haven't sent people over. Is it that our side is also ending. I really want to go back quickly. I haven't even gone home since I got up from this broken place."

"Quickly say a few words, don't forget what the officer told you before, don't speak when you are on guard."

"Oh, I said, why are you so rigid? You are a small island alone. If someone came over, the searchlights would have spotted it long ago, and we still need to be here."

As soon as the soldier finished speaking, he saw a person flying out of the water. Before he could react, he felt a chill on his neck, and then fell to the ground clutching his neck.

After Qin Yuan dealt with the three soldiers, he quietly put them away, and one of them adjusted to a sitting position, after all, the searchlights in front would hit him.

At least during this period, it cannot be discovered by others, and he has also observed just now, even if those large groups of people want to come up, they will not come from this position, they will basically reserve a gate from the front pier.

However, the guards at that place used a variety of heavy weapons. The military minister really took great pains to protect the experimental products here.

How could this four or five meter high iron plate stop love? However, just after Qin Yuan jumped up, he was instantly dumbfounded, since there were so many people below!

He had tried his best to keep his voice down on the iron plate, but there was still a sound, which quickly attracted the attention of the people below, because at the moment there were at least dozens of people below, and those soldiers turned their heads to look at him. Come.

Qin Yuan shook his head helplessly. Originally, he wanted to solve it quietly. It seems that this is not possible, and after the system prompts, all the soldiers here have been reformed. It is also a kind of harm for these soldiers to spread out. .

More importantly, their experimental transformation this time was not perfect at all, resulting in many side effects. If these soldiers did not receive those medicines, they would also die.

This time, unlike the previous exercise, Qin Yuan quickly dealt with the people inside, and the soldiers on duty outside at the moment felt a little strange when they heard the movement from inside. Is there a drill inside?

After all, the wide iron plate had already blocked all sightlines. Even if the soldiers outside heard the movement, they thought there was a drill going on inside, so they didn't take it seriously.

Soon the soldiers outside were all taken care of by Qin Yuan. He looked around and saw that all the surrounding buildings were temporarily built, but they were very concealed, and the surroundings were made of camouflage materials.

He ran along the building in front of him. Under this basic construction, he even added a fingerprint verification office. Have to beware.

That guy is capable of doing anything, he is ruthless, he is mainly worried about whether he will be connected to some mechanism, at this moment, he heard a movement from behind, turned his head and saw only a few people in work clothes come over.

Seeing him standing at the door of the experimental area, those people felt a little strange, and began to scold him loudly.

"What are you doing standing there? No one else is allowed to approach this place, except for our staff to leave quickly."

Qin Yuan didn't speak, just walked over with a smile, just approached the staff member and knocked out the whole family, the two people behind wanted to escape, Qin Yuan was extremely fast and grabbed one of them.

The other person was struggling desperately, but Qin Yuan didn't even look at it. These experimenters completely violated the human body, and they did not know how many people were harmed. When Qin Yuan exerted a little force, the man's eyes widened.

He lost his breath on the spot, and the staff member next to him trembled with fright after seeing this scene.

"You! Who are you? Don't kill me. I was just sent here to work by them. I really don't know anything else."

"Stop talking nonsense, how do you get in this experimental base?"

In order to survive, the worker hurriedly took off his badge, put his finger on it, and checked his pupils.

This guy could see that he was really scared. He was still reminding Qin Yuan that violence must not be used. If the gate is detected to be damaged, it will be destroyed along with the island. kilo bomb.

Qin Yuan smiled slightly, he knew that the matter was not that simple, this guy was cruel and merciless, and would never leave any escape for himself, so for him, destroying was the most direct.

Thinking of this, Qin Yuan walked over, took off the work clothes next to him and put it on himself, and then carried the staff in front to continue walking forward. Although there was such a big commotion outside, the staff inside didn't know it at all.

Although it was completely dark now, the experiments inside were still going on, and there were still roaring sounds coming from the various rooms in the corridor.

The roar made people's scalp numb, and they didn't know what kind of experiment they were doing. The staff leading the way kept opening the door.

Just now he saw Qin Yuan's method, he could directly kill people with a little force, this force is really terrifying.

As they walked in slowly, they could see clearly what experiments you were doing. All laboratories have that kind of wide glass, so you can clearly see the observation objects inside.

Qin Yuan lowered his voice, "What kind of experiment are you doing? Why is it not like the previous transformation, and you used them to do other things?"

"Don't, don't kill me, I really don't know, we are doing everything according to the above arrangement, the current experiment is just improving, we have increased the dosage of the medicine, to see if the dosage of the medicine is too much What will happen to them."

The staff member was so frightened that he could only tell what he knew, and he also provided another useful information.

Even the military minister himself was the first to accept the transformation, but his side effects were stronger, and he was very repulsive.

It's just that that guy is currently undergoing other transformations in another base, and his previous side effects have completely disappeared, and he is an ordinary person during the side effects.

This surprised Qin Yuan quite a bit, because at that time even his system did not detect that the military minister had been transformed, and this method even deceived him. It seems that the system must be upgraded as soon as possible.

At this moment, the staff member suddenly yelled, attracting the attention of the people inside, but before he could run over, Qin Yuan's throwing knife directly penetrated his chest, and the guy fell straight down like that.

Fortunately, there are partitions in the laboratory here, the people in front didn't notice it, it was the staff in the laboratory on the left who discovered the clue, they didn't figure out what was going on, Qin Yuan had already rushed in.

Qin Yuan is here to investigate the specific situation of this laboratory, while the president of Country C on the other side looks at the sleeping child and feels malicious in his heart. To be honest, he can indeed use this child to threaten Qin Yuan.

That guy's strength is really too strong. He wants that person to be his subordinate. With this weakness, he can at least protect himself, especially now that the military minister is the biggest threat to him.

Thinking of this, he came to the guard next to him. After coming in, he was a little surprised to see the child on the bed. How did this child get in? He had never seen anyone come in in the corridor.

"Don't ask what you shouldn't ask, take this child down and hide it in a place where no one will know."

The guard nodded, and just as he reached out to touch Qin Ran, the child suddenly opened his eyes and looked at them with a bright smile.

"My father told you not to touch me casually, but I already know what you think. You want to use me to threaten my father."

The president of country C was dumbfounded when he heard this, how did this kid know?

However, something that shocked them even more happened in the next second. The child actually punched the guard in the abdomen, and the guard bent down in pain. He couldn't imagine that a little girl had such great strength.

Because there was a commotion here, after attracting a few people from outside to run in, looking at the scene in front of them, their president was hit by a little girl riding on him, and the guards beside him had already fallen to the ground.

The president kept saying: "What are you still doing, put this child under control, but don't hurt her."

Qin Ran laughed out loud when he heard this, "I'm really too confident in you people, you're all a bunch of trash, not as good as my Er Niu uncle."

After she finished speaking, she rushed over, and those people looked at the five-year-old child, couldn't they catch it? However, he was played around by this little girl.

Qin Ran's body is more flexible, and his speed is also faster. A slight punch can directly knock people down, especially children, who can't control any strength at all. Qin Yuan has his own ability to think, so he usually keeps his strength. .

The president of country C was stunned when he saw this scene. No wonder that guy put his daughter here so reassuringly. This is simply another copy of him.

However, at this moment, his guards were beaten to the ground, and the child suddenly jumped to the window sill, and then said to him:

"People like you don't keep promises at all! My father told you to take care of me. Since you don't take care of me, then I won't play with you anymore. I'll go find him now."

The president of country C ran over in fright when he heard this, piling the ball and saying all kinds of good things.

No matter how powerful this child is, she can't let her run out alone. If something really happens or the child disappears, he can imagine that Qin Yuan may really make a mess of him here.

"Come down quickly, I will promise you whatever you want, uncle was just joking with you just now."

"Tch, I know what you think, don't think you can lie to me just because I'm a child."

"Come down quickly, what do you want? I'll give it to you right now, and I'll agree to your terms whatever you say."

The few guards don't know why their president is so humble, isn't he just a child? But this kid is really unusual.

Chapter 1717: cruel experiment

Even the big men couldn't deal with them, so everyone felt that this child was not simple, but the child's appearance was so inexplicable that he suddenly appeared in their president's room.

Now the president of Country C is really scared, he is afraid that the child will just jump off like that, he even thought of the scene where Qin Yuan came directly to him to question him.

Qin Ran just looked at the person opposite and smiled brightly, "Then you can agree, you have to agree to what I say, otherwise I won't come down, I can leave here at any time, you can't stop me. "

"I agree to whatever you say, I really swear to God, you come down quickly."

When Qin Ran heard this, he clapped his hands in satisfaction, and then he was about to jump down. This scene scared the president of Country C even more, and he kicked a security guard next to him.

"What are you still doing in a daze, why don't you hurry up and take the child, and then meet all her conditions."

A few people had no choice but to rush over, ready to pick up the child, but Qin Ran just glanced at them, and jumped directly to the door of the room.

There is at least four or five meters away from the window to the door of the room, and the kid's jumping ability is amazing.

Before the president of country C was surprised, he saw Qin Ran waving his little hand and wanted to order him. No matter what he did, he could only put down his face. After all, saving his life is the most important thing. Now he is like a sandwich biscuit. Both sides are caught in the middle.

Thinking about the horror of that guy Qin Yuan, it's better to appease the person in front of him first.

Ten minutes later, only a few people's faces were painted in a mess, and at this moment, Kieran was holding a game card in his hand.

They had a great time playing here, and Qin Yuan's side was also going very smoothly. He jumped into one of the laboratories and took the lead in solving the problems of the people inside to prevent them from leaking information. Now the military minister doesn't know this. side situation, so everything is confidential.

The sound insulation between the laboratories is relatively good, but just now I would rather hear the screams coming from the next room, which is where the experimental objects are held.

Qin Yuan looked at the operation. There was a man with a shaved head on the bed, who was undergoing experiments with various medicines on the bed, and all kinds of tubes were inserted into his body.

The man was having a hard time even speaking, but he raised his head and managed to squeeze out three words, "Kill me..."

Qin Yuan frowned slightly, and he stretched out his hand to hold the man's hand. No matter what, although this man was not the team member he was looking for, he was also a victim who was dragged to this place by them for various crazy experiments.

But what Qin Yuan didn't expect was that his system ability failed this time. He has a strong recovery ability, which is useless under such circumstances.

"System, what's going on here? Why did I make a mistake? Could it be that my resilience doesn't work for him?"

"Answer the host, the recipient you are currently using belongs to a modified gene, and there is no way to restore this modified gene system."

what! Qin Yuan was a little surprised, which meant that if the team members behind him also encountered this situation, he would have no way to save them, and could only watch them turn into what they are now.

The man kept begging, and his voice became weaker and weaker, but those instruments were maintaining his vital signs, making him feel relentless pain.

"Please, hurry up, kill me quickly, I don't want to conduct experiments like this again."

"Give me a little more time, I'm here to save you, and I will find your people, and then take you out, just wait."

"No need, I'll look like this when I go out, I can't do without these machines, I'll spend half my life here, I'd rather die!"

The man on the bed was almost struggling to say such words, and this was the first time Qin Yuan felt the helplessness of these experimental subjects.

Originally, he thought that after eliminating the masked man, everything would be calmed down, but things were not as simple as he thought. These guys made a comeback again, and they were even more powerful than before.

Where there are interests, there will be wars of people, and they will absorb the interests they need under any circumstances, and then come to excavate.

At this moment, Qin Yuan also felt very powerless. He wanted to save everyone before, but found that this matter did not develop as he expected.

Qin Yuan finally walked out of the laboratory, and the man on the bed closed his eyes forever. Qin Yuan gave him a hearty knife, which was considered to be the end of this miserable experimental career for him.

Thinking of this, he was even angrier. Although these experiments in country C had nothing to do with him, these \*\*\*\* moved his people, and he should resist such inhuman things.

He kept shuttling through the corridors, entering various experimental rooms, and after eliminating all the people inside, he was looking for the person in charge behind it.

He directly entered into their deep consciousness to explore everyone, but unfortunately he didn't find what he wanted.

After all, the secrecy measures here are very good. Because of the experience and lessons of the masked man, everything is separated.

These experimenters are not core members, they just analyze and cultivate the experimental subjects according to the procedure, and the real core members are all in another general base.

Qin Yuan soon came to the experimental subject's room. Inside, he opened the cell and saw a very terrifying scene. A soldier who had failed in transformation was sitting in front of him.

This soldier was chained with dozens of iron chains, his mouth was drooling, his head was very big, his height was close to two meters, his whole body was covered with muscles, and he looked very strong.

Qin Yuan couldn't even imagine what to use to describe a monster or a servant, because he had no human thoughts at all, and his eyes were full of indifference.

He called out tentatively, but the other party didn't respond, then Qin Yuan thought for a while and gave another command.

"stand up!"

Unexpectedly, the strange man in front of him understood such a simple instruction, and he stood up mechanically. For this strange man, he could only understand simple instructions and do things according to their instructions.

This made Qin Yuan even more angry. The experiments done by these \*\*\*\* were a hundred times more terrifying than those of the masked man, because they were really harming people.

The masked man has very accurate data, using the human body to transform without too many side effects, and now the military minister of country C is completely changing another gene.

He didn't know whether the transformation of the giant in front of him was successful or failed. Only a little less, this person is no longer a normal human being, he can only follow orders to act.

He continued to search for a room in the front, and rescued a few people, who were somewhat normal, but they had more or less undergone experimental transformation.

It was the players from other countries who disappeared before, but they were the only ones who couldn't find their own country.

A team member from country A who was rescued also became very short of breath. He was relatively normal during the transformation, but his heart rate would be faster than normal people, so he had to wear a pacemaker anytime, anywhere, because if he is not careful, he will directly explode because of tachycardia,

Under such circumstances, he couldn't be excited at all, and even Qin Yuan was helpless against him. Although Qin Yuan completed the task given by the system, he successfully obtained the serum in the laboratory core and gained a lot of merit points, but now But he couldn't be happy.

"I am very grateful that you came to save us. In return, I can also give you a piece of information."

He tried his best to control his emotions, "About a week ago, all of your team was taken away."

"What's going on? Why were they taken away alone? Could it be that something happened to the experiment, or did someone get involved?"

"I don't know. They have been subjected to the experiment from the very beginning. I only know that in your team, one person had an accident because of the explosive body experiment. They were all transferred that day, just a week ago."

Qin Yuan clenched his fists after listening to him. He thought he could save his team members here, but he didn't expect the military chief of country C to be too cunning.

The important thing is the unexpected situation he mentioned just now, who is it? He really doesn't want to face the situation of sacrifice. He wants to bring everyone back, at least to be safe under his protection.

And at this time, another team member from country A stumbled out, and during this period of time, he finally ended his days of being tortured.

"I'm going to destroy this place right now, destroy all these things."

Qin Yuan quickly grabbed him, "It's not when you're talking about this, you should calm down. I don't want them to notice this place. It must be done in secret now. There are hundreds of kilograms of explosives buried under this place."

Unexpectedly, this team member didn't listen to this at all. He said that it would be better to have explosives, and everyone would die together. Anyway, it would be more scary for them to go out like ghosts and people, and it would be better to die in this place.

"Where you die is none of my business, I just want to tell you, it's best to control your behavior, don't study my team members just because you affect me."

At this moment, this team member is already in a state of madness, he will not listen to these crazy running out, his speed is even faster than Qin Yuan, which makes him a little surprised.

Qin Yuan's speed has reached a world-class level, and his explosive power is also very strong. In this situation, no one can match him, but the person in front of him seems to be even better.

This guy rushed out like a lunatic, and was about to press the last blast button, because the button was in the corridor, so it could be seen everywhere.

The few people behind were very nervous. They wanted to rush forward to stop this player, but they had no choice. No one could match his speed. At the last critical moment, Qin Yuan had no choice but to throw a throwing knife.

Seeing the flying knife directly piercing the team member's body, the whole space was completely quiet, and everyone was relieved, but the team member's eyes widened, and he fell straight to the ground, and finally lost his breath.

Qin Yuan was a little helpless. He really had no choice but to take action in this situation. He turned his head and looked at the team members of country A.

"I don't know how to tell you. After you go back, you can truthfully report that I did kill him, but you know..."

The other team members expressed their understanding, especially those who were first rescued by Qin Yuan just now, "Don't worry about this, we all know what to do, and to be honest, you are our lifesaver, and our life is also in our hands." If it's in your hands, anyone would do that in this situation."

Qin Yuan nodded, and then looked at the situation in the laboratory here.

A team member from Pakistan suddenly ran into a laboratory, because at this moment there was a sound of beeps in the laboratory, which seemed to be some kind of alarm.

The team member had quick eyesight and quick hands, quickly manipulated the computer, and then sent a series of things. Qin Yuan felt strange and rushed over to grab him.

"What are you guys doing? Are you tipping the outside world?"

"What are you talking about? Do you think I would die for those despicable people? They hurt me like this, I wish they all died."

It was only then that Qin Yuan realized that this laboratory was too high-end. In order to prevent being attacked, they had to send codes every two hours to report the current situation. If the time was exceeded, the system would judge someone Intrusion, plus automatic alerts.

Unexpectedly, he misunderstood, Qin Yuan was a little embarrassed for a moment, he let go, "Sorry!"

"It's okay. I know that you are going to rescue your team members now. You will leave this place to us. Anyway, we don't know where to go when we go out in this state. There is this place, and we will control it for the time being."

No matter what, ' and they are considered to be separated, and now it must be a situation of helping each other, otherwise no one can get out.

At present, this is also the best way. He explained a few more words to a few people. Before leaving, he looked at them and said firmly: "Don't worry! When I save my team members, I will come to rescue you Go, your physical condition is much better than the previous ones, don't give up, wait for me."

Several people nodded, and then watched Qin Yuan leave. At this time, the team member from Ba Guo just slumped on the ground.

"Didn't you all have the idea of going with him just now? Now that we are completely trapped here, do you think he will come back? It is basically impossible. Who would take the risk to come to such a place?"

"But where can we go after we get out of this state? Maybe what he said is true, he will really come to pick us up."

The rest of the team members didn't believe that Qin Yuan would come to pick them up, and he was such an insignificant person.

Chapter 1718: acquire new skills

The 'Qin Yuan is hurrying to go to another headquarters experiment base, and there is a high possibility that the Minister of Military Affairs will be there.

He can't guarantee how long this side can last. If the code goes wrong, there will still be problems, so he must rush to the headquarters base before being discovered, and save his own people first.

At this time, the system also started to remind him warmly, telling him that if he only played those few players this time, he could get a total of 20,000 merit points.

Qin Yuan directly chose to ignore it, because now it is not a matter of meritorious service, but that he must save people.

When he was about to leave, he heard the movement from outside. It was the guards who had been attracted by him before returning.

He was worried that the guards would find other abnormalities when they came in to change shifts, so he simply wiped out all the people here in one go.

Most of the guards inside had already been wiped out, and he didn't care about the outside. Ten minutes later, he settled the battle, then rode on the motorboat, and left gracefully. The other headquarters was not on the nearby small island.

According to the address he got from the Minister of Military Affairs before, it was built near an extinct volcano, and a volcanic eruption had occurred in that place before.

After the eruption ended, all the villages had been moved away, so no one lived there, and more than 30 years have passed since the eruption of the volcano.

No one has asked about it until now, and basically no one has set foot in that place, so it has become their hidden military base, where they are doing experiments secretly.

Qin Yuan also knew very well that it is estimated that most of the core experimental members who escaped from the masked man before should be in this place.

His speed was very fast, and half an hour later he had already appeared at the site of the volcanic eruption. Standing at the head, he looked down, and there were some tents hidden in the col.

These tents are just outer guards. The real base is built underground. This is what he has learned before, but this underground base can only be opened by the Minister of Military Affairs, and no one else can enter or exit.

This is also the shocking news he learned before. This \*\*\*\*\* really feels that if something unexpected happens, the people below do not have his authority.

To be able to open that door, wouldn't everyone have to die in it? After all, he had placed other things, and so many explosives could be installed over there, let alone here.

If the previous masked man was meaner, then this man is ten thousand times meaner than him, and he is also very ruthless, and will not leave any leeway or retreat in doing things.

Just when he was about to investigate, a pop-up window popped up in the system. He was a little impatient, so he clicked to close, but the pop-up window popped up again.

In the end, he had no choice but to stop and click to see what was going on, but unexpectedly, a special mission was triggered.

"Trigger a special task, adjust the true identity of the minister of affairs to get 10,000 merit points."

Qin Yuan smiled slightly, this is simply a quest for nothing, how could he not accept it, he clicked to accept it immediately, anyway, he is sure to kill this guy, so the identity and so on are just known in advance.

....

As for knowing his identity, it's too simple. He has carried out a deep-conscious invasion before, and after controlling him later, he will know his identity. This is a very simple matter, and this task can be completed easily.

After completing all this, Qin Yuan continued to set off again, but he had to find a way to enter that inside, maybe the rules inside were too rigid, which caused these soldiers to become lazy.

After all, only the military minister can open the gate of the entire base, and he can come in and out freely, while everyone else must be closed. The last time he went out to participate in a world-class competition in this place.

Then these people will stay in this place for the whole time. For several months, there was no space to communicate with the outside world.

It's pretty miserable when you think about it this way, so when Ruan Yuan came to the front, he found that the soldiers were very loose, and they didn't

You may feel that something is too big of a problem.

This can be regarded as giving Qin Yuan a chance. Originally, he thought it would take some time in this place, but he didn't expect that this is the shortest place, which is on the periphery.

The gate inside is naturally blocked by several big trees, and nothing can be seen from above. The gate is also painted with camouflage color for simple camouflage.

A few soldiers were standing next to each other, chatting one after another. This was their only entertainment, chatting to pass the time, otherwise they would stay in this place all day and they would not be able to go anywhere. This is indeed quite torturous. of.

Qin Yuan looked at those soldiers who had been standing at the gate, which gave him no chance to make a move, and was about to use his confusion skills.

Suddenly, I received a prompt from the system, "Remind the host that in this place, your system capabilities will be suppressed and interfered. It is different from the previous sound waves, and seems to have been strengthened."

what! Qin Yuan felt strange, how could this be possible? The masked man basically wiped out all the people who knew about this matter, and suddenly there was a buzzing in his mind, which meant that he didn't kill the grass and roots, and someone ran out.

After all, to be able to use this kind of prevention method under such circumstances is to know his past very well and be able to know the previous systematic research.

More importantly, this system research has been strengthened and can completely resist him, which is not good news.

Thinking of this, Qin Yuan frowned slightly. Originally, he wanted to use the confusion skill, but it didn't work. If something was triggered, it would be hard to say, so he could only think of other ways.

In order to be more cautious, he asked again: "If the system uses my explosive power and my running ability, it should be fine."

"Answer the host, this is your own and will not affect the outside world. The things that are perceived will only affect the outside world. For example, the charm skill you just radiated will be recognized by the things inside."

It turned out that this is the case. Qin Yuan understood it when he heard this, and it is very simple to use other skills. Thinking of this, he slightly hid his figure, then looked at the distance, squatted down, and picked up a small pebbles.

He took aim, and flew straight to the distance. With the speed of his index finger, he quickly landed on the opposite tree trunk, and then rolled into the ravine below.

....

In this quiet jungle, this movement was so sudden that everyone became vigilant and quickly looked over there.

More importantly, these soldiers have not seen other people in this place for more than a year, and there is not much scope for activities.

A soldier standing on the left looked into the distance, "Do you think it is a hare or a pheasant? I saw it when I went to the toilet before."

"It doesn't matter what it is, we just need to be responsible for standing here."

"You guys are too boring. I mean, let's go and have a look. Isn't this also a patrol? We found the movement and went to check. If it happens to be a pheasant, then bring it back directly and improve the food tonight."

After all, in order to save food and make it easier for them to live here, they basically ate quick-frozen food this year, and they haven't tasted fresh meat for a long time.

In this way, Qin Yuan successfully diverted the attention of several people, but it was a pity that there was one person left at the gate, and they were relatively cautious.

The main reason for these people is that they are worried about whether the chief officer inside will come out suddenly, and there will be one person on duty, so that if something happens, they will not be scolded.

But this person is easier to deal with. When those people just left, this person's attention was not on duty. After all, this is a rare opportunity, and finally there is a little movement in this area.

The soldier who stayed behind kept looking over there. After several times of looking, he didn't find them coming back. Almost at the same time, Qin Yuan rushed forward, and then directly knocked the soldier unconscious with a palm.

He had already come to the gate, touched it casually, and found

There is an electronic version that requires a password and identity verification.

This is simply a small problem, he hurriedly took out the electronic watch that he carried with him, this electronic watch is a miniature decipher, specially used to decipher some advanced combination locks.

However, after deciphering the combination lock for a long time, it failed, because this is the most advanced combination lock equipment, and every time he unlocks it, he collects the owner's blood.

Qin Yuan felt like scolding his mother when he saw this, this guy is really a pervert, every time he opened the door he had to pierce his fingertips.

And according to the system's prompt, if the door is forcibly broken in now, it will definitely set off an alarm in the entire space.

Qin Yuan thought about it, since it can't be broken, why can't I take it back?

"System, can this thing be recycled?"

As soon as he finished asking, the system immediately analyzed it and started recycling. With the system beeping, he knew the recycling was complete.

"Ding! Congratulations to the host, successfully recovered the world-class AV combination lock."

Qin Yuan has to race against time now, he hastened to check the abilities recovered so far, and whether they can use the skills, and those people will come back later.

"Ding! Recovered successfully! Please choose the skill from the host."

"1. Super unlocking ability, without using any technology products, only fingertips are needed to unlock, any combination lock, electronic lock, mechanized lock, ordinary lock."

....

"2. Super power deciphering ability. With its own core equipment, it can super decipher all codebooks, and the code radio stations can easily decipher."

"3. The universal lock skill, which locks everything. There is no skill that can be opened. It can only be opened by listening to the host's password and performing voiceprint recognition."

After Qin Yuan analyzed it, he found that the first and third skills were quite good, especially the third skill, which he was very curious about.

When he checked carefully, he discovered that the third skill is that he can change all locks, which means that he can lock everything without any locks or keys, and he can only lock everything through his The voice came to unlock the lock, and he gave the password.

This thing sounds pretty good, but it doesn't help him much now, he is very entangled now, and at this moment, footsteps have already been heard in the distance.

In his heart, he could only curse secretly, can't the system give him the choice of two if he is really not a human being now? This really can't have both fish and bear's paw.

At the last moment, he could only choose the first one. As the system started, the skills had already been input.

But at this moment, when those people came to the gate, they realized that the soldiers who had been standing guard had disappeared.

"Omi must be slacking off. I've told him many times before that although the chief is not monitoring the perimeter! But every time he makes small moves."

"Forget it, everyone has been guarding here for more than a year, and it can be regarded as relaxing for him. He may be in a hurry to go to the toilet!"

The team members next to him were still chattering and unrelenting. After all, in his opinion, this guy was just being lazy. What's more, they went out for a walk just now and found nothing.

At this time, Qin Yuan had already dragged the soldier to the inside of the gate. After entering, there was a wide passage in front, and some corner rooms could be seen from a distance.

Qin Yuan just looked at the empty corridor in front of him, and was in a daze. If you look carefully, this is not an empty corridor covered with various infrared lasers.

Good guy, this is too complicated. He turned his head and saw a fingerprint combination lock appeared next to him. It turned out that he needed to enter the fingerprint verification again before he could enter.

It can only be said that the military minister is even more cautious than the masked man. He doesn't know who this person is, and with the system's previous reminder, does he have anything to do with the masked man? This style is really similar to the masked man.

Now that Qin Yuan has the universal lockpicking skill, ' is the same for fingerprint deciphering, which can be deciphered at any time.

Without the slightest hesitation, he put his hand directly on the

It covered the entire countertop, and with a beep, all the mechanisms disappeared completely.

This skill is really useful. Just now he was forced to make a choice in an emergency. He still felt a little pity, but now it seems to be quite good. As long as the immediate crisis is solved, anything will do.

After all, too many of his other skills could not be released in this place, and would be sensed by something.

At present, the skill he made has not been discovered. It should be that the aura that spreads out will be noticed, so according to his analysis, he just can't use the charm skill now.

As for the soldier, Qin Yuan was worried that he would wake up again, so he simply moved his hands directly to prevent him from waking up forever. There was no way, for the sake of safety, he had to find his own people first.

Zilanyouyou mobile phone users please browse and read, it is more convenient to read on the palm.

Chapter 1719: Can't use skill check

This time, it was considered an unexpected harvest, and he also obtained a skill. Currently, this skill is quite useful. Before, he had to use hacking techniques to hack into the system to fully open it.

Looking at this situation now, there is no need for it at all. All the door guards were in vain in front of him, and he easily entered the interior.

Because it is midnight after all, the headquarters here is not like the experimental product base where experiments are still being done, a laboratory is empty, but the lights inside are still on, Qin Yuan checked and there is no other abnormal situation .

At this time, he went around and found no one, which was a bit strange, so where were these people locked up? Not to mention that his team members are here to conduct experiments, where are these staff members?

At this time, he suddenly noticed that the floor under his feet seemed to be a little different. As expected, it was an entrance, and he was looking for the switch.

Turning his head, he found a raised point near the light. Could it be that after he walked over, he touched it slightly, and a fingerprint recognition appeared.

Now this thing doesn't need any means at all, he puts his hand in it directly, and the floor below slowly opens a passage, revealing it, and he quickly jumps down.

After walking a few steps, he heard footsteps in the distance. Qin Yuan looked around and immediately jumped onto the ventilation duct above.

He stood on the top of the ventilation duct and looked down, only to see two uniformed staff members rushing towards them with weapons in their hands.

"What's going on? In the middle of the night, why did the door above suddenly open?"

"I don't know either. Let's go and have a look now. It's better not to have any problems. Otherwise, the chief will blame us, and we can't bear this responsibility at all."

Listening to their discussion, Qin Yuan realized that the opening of the gate was recorded. No wonder they discovered it. This Minister of Military Affairs is really not simple, and he did it so carefully.

The two people came to check the position of the gate just now, and there was nothing strange, and there was no one.

"This is too exaggerated. Why did the system report that someone entered, because the door was opened, but no one was seen. We walked all the way and didn't notice anything unusual."

"Forget it, I don't think there will be any problems in the middle of the night. There is no movement from above. If there is a problem, the above will call the police."

"How do we report this?"

While the two were discussing, Qin Yuan jumped down and knocked the other person out with a punch. The guard who was standing on the side just now ran forward at a very fast speed, and came to him tightly Cover the man's mouth.

"you..."

The man couldn't speak at all, and he was willing to penetrate into his consciousness quickly, wanting to investigate the specific situation inside. After investigation, he found out that there are a total of six doors after passing here, each of which is set with this password.

Behind the password door is the dormitory of all our experimenters, and they have other passages, so that when an emergency occurs, these experimenters can quietly leave through that passage.

This is what Qin Yuan did not expect, the military minister really attaches great importance to these experimenters, although the things they have developed now still have many flaws.

Qin Yuan continued to investigate, he mainly wanted to know where the team members brought by them were sent, but the man in front of him didn't know other details, so he checked carefully in his mind After a while, there is nothing.

It seems that this man is the little boy behind him, he is not up to that level, many things are still unclear, and he is willing to solve it on the spot under the man's horrified eyes, so he continues to set off like this, according to the man's previous mental consciousness. .

The whole space was very quiet. After all, everyone was resting. Qin Yuan passed through the six gates and came directly to the core.

Inside the door of the first room is the place where the experimenters lived. There were four people living in a compartment. They were willing to check one by one. Afterwards, no other abnormalities were found. Then where were his team members hidden?

More importantly, Qin Yuan has turned this place upside down, making sure that there is no other space, not only the team members, but also the Minister of Military Affairs.

Qin Yuan remembered that when he inquired about the news before, the military minister was inside the base, and he was going to supervise the completion of the experiment.

But now he found nothing. Thinking of this, he directly entered the experimental dormitory. An experimenter was sleeping soundly on the bed, and suddenly felt a pair of big hands tightly holding his throat.

As soon as the experimenter opened his eyes, he saw a pair of hunter-like eyes staring straight at him. He was frightened into a cold sweat and wanted to make a sound, but he couldn't say anything.

Qin Yuan pulled him up, "I really didn't expect to see you again in this place."

Qin Yuan was still very impressed with this person. He had seen this experimenter in the laboratory before when he was in the foot mask bar, and thought he was just an ordinary worker.

I didn't expect this guy to hide so deeply that even Qin Yuan didn't find it. The most important thing is that he is still doing various illegal research here.

The experimenter shook his head desperately, trying to get rid of the relationship, but it was too late. He turned his head and smelled the smell of blood, and saw that the people on the left and right beds had died in a pool of blood.

"See, what's going on now? You should understand, are you explaining yourself, or should I investigate first?"

Because he has dealt with him before, this experimenter knows how willing he is. This guy can kill without blinking an eye. More importantly, his various system abilities are very terrifying.

"Me! Don't kill me, I'll tell you what I know, and you can't investigate me now, otherwise the alarm will be triggered, and all of us will die here."

what! Qin Yuan frowned slightly when he heard this, he didn't know if the person in front of him was threatening him, or he said it on purpose.

"Why, is someone of your level worthy of threatening me here?"

After Qin Yuan finished speaking, he stretched out his hand to his head. Unexpectedly, the experimenter knelt down on the bed in fright on the spot, and he kept kowtow.

"Don't do this, or we're all going to die. I really just want to live. I don't want to do this, but it's the same with anyone. I'll tell you everything. Don't move."

This guy really doesn't look like he's pretending, after all, the fear in his eyes is real, and his whole body is trembling.

"Then be honest, what the \*\*\*\* is going on? Why are you so scared?"

Seeing that Qin Yuan didn't do anything, the experimental member breathed a sigh of relief, "We are core members, so chips are implanted in our brains, as long as you probe us, it will trigger immediately." The alarm agency, the entire base will explode, and then be engulfed in a sea of flames."

Good guy, this is completely destroying all the evidence, this style is too similar.

Later, Qin Yuan only learned about the general situation after the experimenter's explanation, and even the experimenter didn't know the identity of the Minister of Military Affairs.

It turned out that apart from this research, they also had another more important research, which was on Qin Yuan, mainly on Qin Yuan's ability. This was half of their research when they were with the masked man.

They have no way to crack Qin Yuan's ability, they can only take precautions, so in that special situation, they can only maintain the status quo.

Just like this time, they have already planted hidden dangers in various places. If Qin Yuan really appears, once he is identified using his ability, the entire base will be destroyed, and he can't find any clues.

The man in front of him explained all the problems in one go. It looked like he was really scared, and he also showed Qingyuan the wound of their operation, only to see that there was indeed a scar behind his ear.

"The place is where we implanted the chip. Once you enter the investigation, we will be noticed immediately, and everything will enter a countdown, and we will not be able to run at all."

"Hehe, I'm just curious, why do you still give your life to him? This is the situation, don't you all die at any time?"

The man was very helpless when he heard this, and he said that he didn't want to do this either, but after he came to this place, he couldn't make decisions, and everything was completely under control.

Qin Yuan has no way to detect whether what he said is true or not, and can only identify it through some facial expressions.

At least until now, what he said was the truth. Another more important clue is that Qin Yuan also learned about the whereabouts of the Minister of Military Affairs.

About three days ago, the military minister left with a special warfare team, which was the experimental product they sent.

"Why did you take that special combat team away? Did something happen to them?"

The man in front of him was a little hesitant when he said this. He was wondering whether he should tell the story, but now he was a little scared.

Qin Yuan stuck his knife on the table, "I advise you to think clearly and tell me the truth, otherwise I can escape, and all of you can be buried here."

"No! I'll tell you everything, don't touch me, I still have my family in here."

No wonder this guy is so nervous. It turns out that he has other family members. This is the weakness of the Minister of Military Holding him. He can directly hold them through these aspects.

The military minister is now in a jungle in the Amazon, where they have established another underground military base, and now he has brought people to that place for re-research, it seems that the physiques of those special forces are different.

According to the experimenter's report, all their physical abilities have achieved another evolution, which is stronger than the ones they used for genetic modification before, and more importantly, these few people have no side effects at all.

"Did you know? At that time we were tested, there was a man, I don't know his name, we all use numbers to refer to him, I only remember his number is 3-2."

"Oh, what happened to that person? Tell me carefully."

"His genes have not changed in any way, but his physical strength has been strengthened, without any side effects, he directly punched through the steel plate with one punch."

Speaking of this, the experimenter still had lingering fears. It was the most shocking situation he had ever seen, punching through such a thick steel plate with a punch, which was enough to prove that the person's strength was too strong.

Qin Yuan frowned when he heard this. After all, they were all team members on their side, and they didn't know what they were transformed into.

Perhaps because of the particularity of these team members, they were taken to the Amazon jungle by that guy for other research.

But at the same time, he also had another question, "Since you said they are so powerful, of course they can escape directly, why are they still controlled? Go there willingly?"

"Because the military minister has something to control them. It is a special collar. As long as it leaves the range of the military minister, it will explode. It is all considered by him."

collar? Seeing Qin Yuan's puzzled expression, the experimenter said that he could take him to the laboratory over there to have a look at their research and development products.

"You guys better not play tricks on me, or I can kill you in minutes."

"Now I have regarded you as my last hope. Whether I can escape and survive depends on you. How do you think I could lie to you?"

But this guy is really lucky, he had escaped an attack before, thinking of this, Qin Yuan followed him to the laboratory, the man fumbled for a while, and finally took out a collar from the cabinet.

He picked up the collar and looked it over carefully, then quietly asked the system to recycle, but unexpectedly, the system said that the recovered ability is not worthwhile, especially in view of Qin Yuan's current ability, it is not worth recycling.

It didn't look like it was a particularly good thing, even the system was very disdainful, Qin Yuan threw it on the table casually, the reason why those team members didn't resist should not be just the collar.

It seems that there should be other things in this, otherwise how could these collars control them, if their ability is very strong, they would have gone berserk long ago.

Seeing Qin Yuan's performance, the experimenters thought that this guy didn't believe him, and when he was about to explain, he was interrupted by Qin Yuan.

"Okay, you don't need to explain anything else, just tell me the coordinates of where they went to the Amazon jungle."

The man shook his head. He didn't know about this. He only knew that there should be coordinates on the main laboratory side. "There is a computer on the main laboratory side. There is a password on the computer, and the password needs to be cracked by the Minister of Military Affairs himself." Otherwise, the alarm will be sounded."

Chapter 1720: the identity of the military minister

The man is really very cautious when it comes to this, every step he takes is reminding Qin Yuan that if he makes a mistake, everyone will die here.

Although Qin Yuan couldn't detect the man's thoughts, he felt that this matter, especially the military minister's style was too similar to the previous masked man, he was very cautious in many aspects, and seemed to know him very well.

"Now there is another question, how do you know to use this method to deal with me? Did any of you mention it to the military minister?"

The man didn't expect Qin Yuan to ask such a question suddenly, he was definitely curious and shook his head.

"Speaking of this, we really don't know that the military minister never discusses anything with us. He usually gives orders directly and then asks us to execute them, so I don't know the specifics."

It's really interesting, Qin Yuan thought of this, since the system asked him to investigate, the things inside must be not simple, the main reason is that everything is guarding against him.

In this case, he was really not very advantageous, he was relatively passive, but there was no problem, and soon he came to the main laboratory that the man said, and the man followed closely without worrying, taking every step carefully .

"You'd better be careful and don't mess with that door. I have a verification card here. If the laser is triggered, we can't escape. There is only a ten-second delay. Do you think you can get out?"

The man suddenly became very excited, because Qin Yuan was so casual, he just touched it casually, and he went in like that. He always thought that this guy was lucky.

"Why are you more afraid of death than I am? Ten seconds is enough for me to rescue you. At worst, I will take you out."

"What are you talking about! My family is still here, what's the matter if I go out with you?"

After the man finished speaking, he even took the initiative to help Qin Yuan organize the computer. He wanted to crack it, but he didn't dare to do it after controlling it for a long time.

"Although I followed behind before, I really don't remember the password. This thing can only have one chance. Once you enter it wrong, there will be errors."

Looking at his nervous appearance, Qin Yuan just thought it was funny, "Okay, get out of the way, let me show you what it means to be a master, isn't it just this code? It can be deciphered in minutes ."

"No! Stop it, you're a lunatic!"

As soon as Qin Yuan pushed the man away, he rolled over and fell to the ground. He definitely couldn't beat Qin Yuan, so he could only watch the man in front of him operate, and immediately closed his eyes in fright. Everything is ruined.

However, only a crackling sound was heard in the next second, and the data was successfully opened, and Qin Yuan saw many confidential documents in it.

In addition to those experimental data, Qin Yuan also discovered an important thing, only to see that the file was encrypted, and it said number one weapon.

What is this? After Qin Yuan clicked in, he found that the document had been deleted. He quickly used his hacking skills, wondering if it could be recovered.

His intuition told him that this thing was very important, but he hadn't succeeded in working on it for a long time. It seemed that it was permanently deleted, and even he couldn't restore it.

The military minister is really too cautious, and this number one weapon is next to the files of the team members they took away. He even pulled out the files completely. There are no detailed records in it. All important documents are was copied away.

At this moment, the experimenter who was brought in by Qin Yuan just opened his mouth wide in surprise.

"You! How on earth did you do it? This kind of code deciphering is all done in less than a minute."

"Hehe, do you think this thing is difficult? It's commonplace for me."

The man was instantly ashamed and ashamed. He didn't expect this guy's skills to be too powerful, and he was completely crushing.

"Okay, don't stand here anymore, I've got what I want, if you want to live, just stay there, otherwise I can directly solve you in the next second."

To tell the truth, Qin Yuan wanted to attack him directly, but the man can't make the core experimental members of them have chips implanted in their minds. Once death occurs, the base will be destroyed.

The main reason is that there will be a situation where he will startle the snake, so he can't do this yet, he can only let the man go temporarily, but he doesn't forget to threaten once before leaving.

"I told you very clearly, you have to remember what your situation is now, only I can save you, maybe I can let you out, but you will always be in fear if you follow this guy, and you will be smashed to pieces at any time."

"Our life has never been decided by ourselves. Whatever you say, I have given up now."

Hearing the man say this, Qin Yuan was quite surprised. Why did this guy suddenly look away like this? In fact, he was more worried about the man and the military minister secretly reporting.

As a result, the man sneered, "Do you think he trusts us so much? He has never communicated with us, let alone reported him. He is the only one who came to us. It is impossible for us to find him. I have seen him before. More cautious than our previous boss."

Qin Yuan kept staring closely at his eyes while he was speaking, and he was relieved to make sure that this person was not lying.

It's really too difficult to not be able to use skills, and Qin Yuan is indeed lucky. He killed so many experimental members just now, but he didn't kill the core members. It's considered relatively good, at least he didn't trigger the alarm and mechanism.

He has already obtained the specific location of the jungle on the Amazon map. This guy's investigation is really deep enough, but when did country C become so powerful.

After getting the address, he left and came to the president's room. When he jumped in from the window, he saw the face of the president of country C with a face covered in paper. It was still crawling on the ground.

But his own daughter actually rode him as a horse, and yelled at him to run faster while riding.

The security guards in the back stared even more, but unexpectedly, another person appeared out of the window. Just when they were about to make a move, Qin Ran was very fast, jumped off the same kind of back, pointed at those people and said:

"You better not move, or I'll make you cry in no time."

With such an understatement, several security guards stood still and did not dare to move. They really tasted the power of this little girl. The speed is too fast, and they can hit the vitals in minutes.

The moment the President saw Qin Yuan, he seemed to see a savior, and ran over, "Brother, you are finally back, hurry up and take care of your children."

After he finished speaking, he waved his hand and asked the security guards next to him to go down. "By the way, you should know what to say and what not to say. You don't need to worry about the following things."

The security guards were all serving the president, so they knew what was going on, so they all retreated silently, not daring to talk nonsense.

Qin Ran was very happy to see his father came back, and ran forward bouncingly, "Well, you are finally back, I miss you, don't listen to his nonsense, I didn't punish him, I just playing with him."

The president's face turned dark when he heard this, what does it mean to play like a cow and a horse with yourself? He not only has to play various things, but also plays elephants and giraffes. After all, this little ancestor can immediately hypnotize people if he is unhappy.

He saw with his own eyes how his security guards were played. Two big men hugged each other and kissed. What's the matter?

Then he was thinking that Qin Yuan could give him justice, this child is so naughty, I didn't expect him to hug the child and pamper him.

"Oh, is my baby tired from playing? Go to sleep if you are tired from playing. It's too late now."

Qin Ran yawned when he heard this, he was indeed a little tired, Qin Yuan didn't say anything, carried him into the room, and after a few minutes put the child to sleep, he came out.

As soon as he came out, the president of country C walked up to him and looked at him with black lines on his face, "You are so embarrassed, you threw the child to me, do you know how much I have suffered? You child ,Really are..."

Before he finished speaking, Qin Yuan shot his eyes over, "You'd better keep your voice low-key, or you'll wake up my baby, and I'll make you go all the way."

The president of country C can only shout in his heart, does anyone regard him as a president? After all, he is considered the king of a country.

No one respects him at all. First, he was played like this by a child. When Qin Yuan came to him, he would leave whenever he wanted, and stay as long as he wanted.

And the most hateful thing is that his military minister has not even heard from him until now, and he has completely disappeared. He is doing things silently by himself and has never reported to him.

He felt that he might be the saddest president, and he was really a failure.

However, he didn't show it on his face. Qin Yuan also brought him good news, telling him all about the discovery of the laboratory before, and the president couldn't believe it when he heard it.

"How is this possible? The situation he reported to me before was not like this. He reported to me for approval that there was only one experimental base in total. As for the Amazon you said, it is even more impossible from Linda University. We have no right to go there. "

It seems that the identity of the military minister is really not simple, Qin Yuan also quickly asked, "Then how do you become the boss? People have to ask for money to get things from you, and you don't ask for anything when you get it, just give it to you." money?"

"Speaking of this, I'm really angry. I didn't know that the Minister of Finance is now his man. Anyway, the following people have been developed into insiders by him. Sometimes they don't even know me. report."

This news really surprised Qin Yuan, this guy is too useless to be of the same species, he is not clear about everything on his side, and he was even set up by others.

"Then do you know who this military minister is? Do you really know him?"

"How could I not understand that this person was very trusted by my father back then, and he was one of my father's subordinates, so I trusted him so much and gave him most of the rights."

"Didn't you find out that there is something wrong with this person before? You don't think about it by handing over so many rights to him."

"But the problem is that this person was not like this before. He was loyal to me, which is why I taught so many rights. Now I think this person is hiding too deeply. He was acting with me before. "

Qin Yuan judged a problem through the conversation with him. If this person has always had that attitude before, on the one hand, it means that this person is too good at acting and has been pretending before, and on the other hand, he suddenly changed someone in the middle.

An idea popped up in his mind, but this idea was really terrifying, that is, the masked man didn't die at all, he just borrowed this person to come back to life again, otherwise how could he know himself so well, all the tricks All used.

He carefully recalled the scene where he dealt with the masked man that day. That guy had been blown to pieces on the spot, and it was impossible for him to come back, and he was sure that it was absolutely impossible to be a substitute.

Seeing that he had been in a daze, the president on the opposite side called him several times in a row before he could react.

"What are you thinking about? By the way, when will you take this child away?"

"In two days, I still have something to do, I have to go to Amazon to check."

"Ah! You're too irresponsible. You just left the child here, and then you left. What should I do? I have to spend a few days with her!"

"My baby is always the most obedient, but you don't know how to take care of children, so you should get used to it in advance. Besides, I'm going to the Amazon jungle. Who else on your side can go?"

This sentence completely blocked his mouth, ' Now he has no choice but to rely on Qin Yuan, so wherever he goes, he can only follow his request.

"Okay, I can't help it, but you must come back as soon as possible."

This child is a little angel in front of her father, but a proper little devil in front of outsiders, Qin Yuan is completely troubled by that question now, he doesn't know what his guess is, so he can only hurry to verify.

If it was really as he had guessed, it would be too scary. Qin Yuan thought about it and jumped out of the window. The president just breathed a sigh of relief and finally sent one away. Unexpectedly, Qin Yuan came back again.

"By the way, you have to give me a helicopter. I'm going to the Amazon now. It's such a long distance from you. You can't let me go on foot! And don't let too many people know."

"No problem, I will approve it for you now, and arrange a secret one for you. As long as you get this thing done well, brother, let me say one more thing, you must come back as soon as possible. I really can't bring a child."
