

Special Soldier 1761

Chapter 1761: skill failure

Several people looked at Qin Yuan at the same time, he stood up and waved his hands, "Come on, what are you looking at me for, didn't you invite us to drink tea?"

In this way, a few people followed the waiter in front of them to the back room. Just after opening the room, you two were stunned.

"Hey guy, this is bigger than our training ground."

"Look at that boy of yours who has never seen the world, don't say a few words."

But the room in front of me is indeed very spacious, the floor is completely covered with carpets, and more importantly, there is a huge screen in front of it, just like a movie projection hall.

On this huge screen was the host who was at the auction site before, introducing the lot in his hand.

The staff was very polite and asked them to sit in front first. After a while, a very thin man walked in. His eyes revealed shrewdness, and a woman followed behind him.

After he came over, the staff all lowered their heads to express their respect. Qin Yuan kept looking at him, "Why did you call us to this place? It's not because we took too many pictures. What do you think?" Be black and eat black."

"Hahaha, brother, you really know how to joke."

Qin Yuan wouldn't buy it at all. He had to know that there was no such thing as a pie in the sky. He was invited to drink tea if he was invited to drink tea. First of all, he had to stand up his own power.

Because they couldn't figure out what kind of medicine these guys were selling in their gourds. Hearing what Qin Yuan said, the man on the opposite side was not angry, but introduced himself instead.

He said that he is the person in charge of the Heart Group, and to be precise, he is Besen, the main shareholder of the entire underground black market.

"Don't worry, I brought a few people here just to discuss a business deal. I don't think anyone will have trouble with money."

"This is indeed true, but how do you know that I have this ability? Don't you guys be afraid of losing money? If I have money, I can earn it myself. Why should I share a cup with you?"

Listening to Qin Yuan's questions, he answered them one by one. At this time, he picked up his mobile phone and made a call. After a while, another person came in, which was Wu Bin, the boss behind the casino.

"As for how I know your abilities, I can ask him to explain. Relatively speaking, you are still fellow villagers."

Wu Bin also walked forward with a smile and sat up to introduce himself. He also started to get close. Qin Yuan couldn't understand this kind of person at all, so he just went through the motions.

"Brother, I also took a fancy to your ability just now. Although you escaped all my personnel inspections and my surveillance equipment, how you won the money is very clear to me. ."

Qin Yuan took a slight look at He Chenguang, and he immediately understood, stood up and said, "What do you mean? Are you trying to frame my elder brother? You are willing to gamble and admit defeat. What you are doing now is to imprison us."

"Brother, don't get excited. We are also talking to your eldest brother. Everyone knows this matter well, but now there is an opportunity to make a fortune. I don't know if you want it."

Seeing that everyone was stepping down the steps for him, Qin Yuan also hurriedly called He Chenguang to stop, just to bluff the other party. He wanted to completely wipe out this underground black market. It was not a big problem, but he wanted to catch the real people behind.

"Since everyone said that, I'll get straight to the point. I'm very interested in your arms blueprints. If you want me to work in the casino, you can work, but I also want to touch these things."

Wu Bin felt a little strange when he heard this. He couldn't decide why the casino was involved with the underground black market business. He turned his head and looked at Bessen next to him.

"Brother, your appetite is a bit too big. We are fellow villagers, so I asked you to come over and start the casino business together, and everyone will share a share, but your hand is too long."

"That's because if you give this thing to me, I can double your business by a hundred times."

Hearing what he said, Wu Bin burst out laughing, because this is absolutely impossible, including all those blueprints relying on him.

"Brother, the water here is too deep, you just don't understand it."

Qin Yuan smiled slightly. He looked at the people around him and asked silently, "Then do you think that with my ability, I can still know what I want to know?"

As soon as Qin Yuan's words fell, Li Erniu and the others moved quickly, and the table in front was immediately overturned. He Chenguang came to Wu Bin's side with a stride, and He Chenguang also grabbed Bei Sen.

Wu Bin also wanted to move a cold dagger and put it directly on his throat. He didn't expect that he had plotted against others all his life, and now he was plotted against by a brat.

"You guys are really brave. Do you know where this place is? If you dare to attack us, I won't let you leave the whole body."

"Then I'll tell you too, before they kill me, I'll let you die in my hands."

Now that Bei Sen has achieved this status, of course he hopes to survive well. His tone immediately becomes very tactful, hoping that Qin Yuan will not hurt them, and he can do whatever he wants.

"Stop talking nonsense, I just want to know where you got those blueprints from?"

Wu Bin didn't expect that it was because of this matter that he was going around. He felt very strange. What is the origin of this guy? Could it be that they came from China to investigate?

Qin Yuan didn't bother to talk nonsense with him, and planned to directly invade Wu Bin's consciousness, and then search for his whereabouts, but at this moment, Qin Yuan felt dizzy for a while, and he found that he couldn't use this skill anymore. What's going on!

On the surface Qin Yuan was a little calm, but he was very flustered inside. What's going on? He hurriedly used the hypnosis skill, but found that he couldn't use it either.

But now he can't be completely exposed, and he still has capital in his hands. As long as he gets hold of these two people, no one else can move them at all. In a short time, all the outside staff rushed in, and he had weapons in his hands. , facing a few people tightly.

Wu Bin also felt a little strange when the other party asked this question, so he could only tactfully avoid it, "Of course I did these things from the inside, but I don't have too much interest involved with you, you are trying to break me. Is it a source of wealth? How do you think I might tell you?"

"Stop talking nonsense! I want to know now."

Qin Yuan's emotions became very agitated, which made He Chenguang next to him a little unpredictable. Qin Yuan has always controlled his emotions very well, and this rarely happens.

At this moment, He Yuan felt a strong sense of crisis. He turned around and kicked over the table next to him. Just as he hid, a bullet came and shot directly through his shoulder.

Taking advantage of this opportunity, the person who was hijacked by him just now escaped quickly, and the surrounding people also quickly shot. After he was shot in the shoulder, he felt a strong pain, which he hadn't felt for a long time.

The scene was very chaotic. He saw that Qin Zhengyang who was standing next to him was also knocked down by bullets. Now they are really unarmed.

Qin Yuan wanted to use his skills, but at this moment it seemed that all his skills were lost. He was just an ordinary person, especially at the speed of the bullets just now, he couldn't dodge it.

Another bullet hit his thigh, and this time he fell down completely. Li Erniu and the others were stunned when they saw Qin Yuan fall down. You must know that this was never possible before.

In their eyes, Qin Yuan is a figure at the level of God of War. Why is this happening now? The moment Qin Yuan fell down, he tried to call the system in his mind, but the system was intermittent, as if he had lost the signal .

His meaning gradually became a little vague, and finally he only heard one sentence, "Don't kill me, just hurt me. It's really interesting, since someone dared to kidnap us."

Just like that, Qin Yuan passed out completely. Just as Bei Sen got up from the ground, he kicked Wu Bin in the stomach.

"You bastard, what were you doing just now? I'm still in that guy's hands, you just let them shoot, I almost died, you know?"

"Brother, you can't say that, we are all on the same boat, how could I have the heart to let you die?"

As soon as Bessen got angry, this guy wanted to seek power and usurp the throne a long time ago, because their forces are different. That guy controls the casino, but he controls the entire underground black market. The power behind it can be imagined. Know.

That's why in that situation, he hurriedly asked the outsiders to shoot, and at the moment Wu Bin was slapped, he didn't feel anything, just sneered.

"Brother, you can't say that about me. I have been working hard for so many years and have been doing things for all of us. They are the ones who deserve to be damned. If they hadn't appeared suddenly, we wouldn't have been hijacked."

"Hehe, I hope you are really loyal to me. Sure enough, I think you are an unfamiliar dog."

Besen saw that he had murderous intent now, but what could he do? This guy controls the casino, and there are the most thugs on the side of the casino, so this guy can't be moved now.

Thinking of this, he could only sigh. During the dispute just now, his foot was also sprained, and now he was limping and taken down by two subordinates.

As for Li Erniu, they were all under control. Qin Yuan was shot in the shoulder and thigh, and now he was lying in a pool of blood. Qin Zhengyang was even worse than him, and was shot directly in the abdomen.

Li Erniu looked at the two people in front of him as if they were having internal strife, but what could be done? People are fighting among themselves, but there are so many thugs around, they can be fearless at ordinary times, that's because of Qin Yuan,

Qin Yuan has always been able to strike first, eliminate all the people around him, and create the best opportunity for them, but now this way does not work.

Several people were taken to a separate room, and all their belongings had been taken away. Li Erniu hurried to Qin Yuan's side to check his condition as soon as he entered. His thigh was still bleeding profusely.

"Chen Guang, what should we do now? Why did such a thing happen suddenly?"

"Qin Zhengyang's condition is serious. Come and see, he has already passed out, and the wound on his abdomen is relatively large."

Hearing this, several people hurriedly surrounded him, only to see Qin Zhengyang's face turned pale, the wound on his abdomen was horrific, and the bullet had completely pierced through.

Since the establishment of the red blood cell team, this was the heaviest loss they suffered. It can be said that they were completely bewildered, and Qin Yuan fell into a coma as before.

Li Erniu had no choice but to come to the gate. Through the narrow window, he rushed outside and shouted, "Where are the people outside, where did they die? Hurry up to me."

He kept yelling and cursing, but no one paid attention to him at all. After a long time, there was a sound of footsteps. The people outside were a little impatient, so they picked up their batons and knocked on the door.

"Let me tell you to be honest, or I will give you a taste of this electric baton!"

"My brother is injured now, hurry up and find someone, your boss doesn't want us to die, he still has a lot of questions to ask us! If something happens to us, you can't afford to go around!"

He Chenguang was still smarter, he quickly changed the topic, and first threatened them with their boss.

Seeing that the other party seemed to be a little shaken, he seized the opportunity and continued: "Think about it for yourself. If something happened to us, your boss can't ask anything. Don't you want to know who sent us?"

Having said that, the subordinate cursed secretly, then turned and left. After a while, he was only seen walking in with two doctors.

After the two doctors came in, they didn't say much. The men next to them pointed guns at them, and pushed the others to the corner, leaving only Qin Yuan and Qin Zhengyang.

Soon, Qin Zhengyang's wound was treated and was being stitched up. Although he hit his abdomen, the most important thing was to avoid other important vital organs, and there was no great danger.

In addition, Qin Yuan's situation is even worse than they imagined, UU Reading www.uukanshu.com Because the shot hit his aorta, he was bleeding continuously.

The doctor wiped the sweat from his forehead, his hands were covered with blood, he stood up and mumbled a few words to the outside, they used the local language, so He Chenguang and the others didn't understand at all.

After speaking, a few subordinates walked outside, carrying Qin Yuan directly, and walked outside. When they saw this situation, they immediately stood up, and the subordinates took a gun and shot directly at the ceiling.

"Be honest, don't move around, or I will kill you all now!"

"Where are you **** taking him!"

But the person on the opposite side didn't pay attention to him, and saw the two doctors leave in a hurry with their boxes. He Chenguang looked at the situation as if they had misunderstood.

"Erniu, please calm down first. It seems that Brother Qin's injury is too serious. They need to perform another operation on him."

Chapter 1762: ability recovery

"How do you know you didn't hurt him? What if these **** take him to do something, he's in a coma now."

"Then what do you think we can do? This time our action has failed, and we are now begging you next, understand? You may kill him if you are so impulsive again."

After being yelled at by He Chenguang, Li Erniu sat on the ground completely. He hurried over to check on Qin Zhengyang's condition. Qin Zhengyang's shrapnel had been taken out and the wound was stitched up, but he was still in a coma.

Now they are indeed in a situation of isolation and helplessness, and they have never been in such a state before.

Wang Yanbing kept listening to the movement outside. The footsteps outside were very chaotic until it became completely silent.

"Hey, what do you guys think happened this time? Do you still remember that Brother Qin had the same situation once before, and fell asleep immediately?"

"That's right, I remember what you said, but after Brother Qin woke up, nothing happened. I don't know what happened this time, but he was actually hit by a bullet!"

At this time, Li Erniu blamed himself for his crow's mouth, because before he teased that the bullets were avoiding Qin Yuan, it was really amazing.

Now that something like this happened, everyone's heart is very heavy. In the past, Qin Yuan led them directly. They didn't need to deal with it too much, just follow along. I didn't expect that when Qin Yuan fell, the whole team was in chaos .

In fact, the main problem is not how weak their abilities are, but this time Qin Yuan still intends to launch an attack like before. They said that they need no weapons, but his throwing knife and playing cards can come in handy. Unexpectedly This time the skill actually failed.

In addition, He Chenguang and the others did not have weapons. If they had weapons, this result would have happened separately.

On the other side, Qin Yuan was indeed carried to an operating room underground, where several doctors were treating him, and Qin Yuan was brought back an hour later.

Li Erniu and the others hurried forward to check the situation. Luckily, the wound is indeed a wound that can be treated, but they are still in a coma. Seeing the two comatose people on the left and the right, they are all in a dilemma.

At this time, there was another sound of footsteps. It was Wu Bin who was kidnapped by them before. Wu Bin's head was already wrapped with gauze, because during the previous fight, his forehead touched the corner of the table.

"I really didn't expect that there are people who are so courageous and dare to come here to make trouble. Don't you know what kind of mess I am?"

"Hehe, whoever you are, do you really think I will be afraid of you?"

After hearing this, Wu Bin was completely enraged, but he did not order his subordinates to shoot, because now he wanted to know the truth of the matter and who was targeting him?

He Chenguang is also very smart. He knows that if he catches this person's dead point, he can keep going. More importantly, he must hold on.

"Anyway, no matter how you ask, we won't tell the person behind it. You can't afford to mess with the person behind it."

Hearing this, Wu Bin sneered even more. He had never had a mouth he couldn't pry open. He dragged He Chenguang out, including Li Erniu who came up from behind.

He winked at Wang Yanbing, he can go out there to delay time, as long as Qin Yuan wakes up, everything will be easy to handle.

He Chenguang and the others have all received special training. Qin Yuan has already used methods like these people against them before, so he is not afraid at all.

The two of them were taken to another room respectively. There were various instruments of torture in the room, which made one's scalp tingle.

"I'd like to see whether it's your mouths that are hard, or the tool in my hand. I don't believe you can't pry your mouths open."

At this time, He Chenguang had already been ***** on the table in front of him by five flowers. Wu Bin held an electric baton in his hand and beat He Chenguang hard.

The feeling of the electric current passing through is really too painful, but not only that, this guy poured a basin of cold water on his body, increasing the electric current.

But he didn't say a word from the beginning to the end, let alone Li Erniu who was next to him. He was kept pressed in the bucket next to him, and he was pulled up again and again when he was on the verge of suffocation.

"It turns out that this is all you have. If you have the ability to do it a little more, I still don't think it's enough. I just happen to take a bath here."

Wu Bin also couldn't figure out where this came from, his mouth was too hard, after an hour, basically all the torture instruments in this room had been used once, and Li Erniu's body was already full of three points, but from the beginning to the end He didn't say a word.

"Sir, these two guys are not easy to deal with. I think it's better to change to another one."

"Anyway, remember, you can't let them die, drag these two down first, don't feed them, and starve them, I don't believe that they won't be able to ask."

Just like that, Li Erniu and the others were brought back, and Wang Yanbing was dragged out. Several people were injured to varying degrees, but Qin Yuan still didn't wake up.

During this period, Qin Zhengyang has already woken up, and the wound on his body cannot be moved, after all, it has just been stitched up.

Looking at the injuries of the people around him, he felt even more pain than he wanted to live. He didn't know what happened this time, especially since he hadn't joined the team for a long time.

"Brother Er Niu, why have you all become like this?"

Qin Zhengyang's voice contained a bit of crying, and Li Erniu stroked his hair coolly, "You better suppress that crying voice for me, don't be a bitch, don't cry."

"But they are too cruel!"

The corners of Li Erniu's eyes were bleeding now, and several of his teeth had been knocked out, so his speech was somewhat slurred, and half of his face was completely swollen.

But in this situation, he didn't have any fear. After all, it was nothing. The bullet had pierced his calf before, and he didn't even snort.

On the other hand, Wu Bin has nothing to do with these people, he can only resort to a long-term tug-of-war. Unexpectedly, these guys are too hard-spoken, and he feels that the situation behind it is not simple. I checked it out, but can't figure it out.

"Sir, according to your order, we investigated it just now, and there is no movement from the surrounding organizations, and no one has been sent to our side recently."

"I have understood this for a long time. Just seeing that these people can't open their mouths is enough to show their ability to resist attacks. This is not an ordinary organization. I am very worried whether it is from the military."

what! The subordinates next to him were a little surprised when they heard it. If it was the military, then it would be too much trouble for them to get into trouble. If the military is really required to act, how can they resist?

Seeing the flustered faces of his subordinates, Wu Bin smiled disdainfully, "There's no need to panic. There are people from me in the military. You must know that this is not in the country. Since I brought you out to make a fortune, follow me." Play well, and I won't treat you badly."

Having said that, the people next to him nodded quickly, feeling that their behavior just now was a bit reckless.

"Okay, don't need to say more, go and monitor those guys for me. If it doesn't work, kill someone tomorrow. I don't believe I can't open their mouths."

The subordinate next to him left immediately after listening, and Qin Yuan also woke up in a daze, but he was not fully awake. He tried to call the system, and at this time the system finally responded.

"I was really cheated by your broken system this time. What's going on? I couldn't use any skills at that moment."

"Answer the host, our channel was completely interfered just now, the radio wave has never appeared before, and that radio wave is in a radiative way."

"What does this mean? It means that you have also been disturbed remotely."

"Yes, now I am one with the host. I am a powerful recovery system. I have upgraded it now. In order to upgrade, I just received interference."

"Okay, I don't want to know about this, I want to know if I can use my skills normally now?"

"There is no problem now, and the system has detected array injuries and is treating you."

Soon, the powerful recovery ability of the system started to activate, and Qin Yuan felt the pain in his body completely disappear after a while.

However, he still wanted to find out what was going on, especially the radio interference mentioned earlier. Could it be the mysterious person from before? He thought it should be the masked man from before?

That guy has been in a semi-disappeared state until now, and there has been no whereabouts.

Now is not the time to think about those things, he wants to take everyone out while the system has just awakened to understand the current situation.

When he opened his eyes, he saw a few people sitting beside him. Qin Zhengyang's eyes were red. Seeing him wake up, he struggled to stand up, but he had wounds on his body, and he couldn't walk. The few people were even more abused. Not human.

"Brother Qin! You are finally awake."

"What's going on now? How did this happen?"

He Chenguang and the others quickly explained what happened to Qin Yuan after he passed out. The situation is now more critical, because the other party doesn't know when they will be attacked again.

Qin Yuan stood up, and the wounds on his body recovered completely in a short period of time, which is no surprise to a few people, after all, he had this situation before.

"Brothers, this time it is also because of my problem that I have dragged you down, but don't worry, I will definitely avenge you."

He treated several people one after another. His strong recovery ability is absolutely no problem, and the injuries on several people are almost healed in an instant.

Li Erniu stood up and moved his body. Just now he suspected that his left leg was probably useless, after all the bones were all broken.

"This guy is really ruthless. When I go out, I must make them look good."

Qin Yuan made some preparations. He took off his tattered clothes, "I don't need you to do anything right now. When I need you, I will naturally ask you to go out."

Several people couldn't figure out what Qin Yuan meant. Could it be that he was going to act alone again? At this time, he walked to the door and punched the door directly through him.

The people outside rushed over when they heard the movement, and in the next second they were willing to kick the door away. The people who ran over were just smashed by the door, and there was a burst of wailing.

"I'll go! What's the situation? How did that guy come here?"

The subordinates outside had just said a word, and a figure flashed in front of him in an instant, and a flying knife was slashed across his throat.

The people behind couldn't see the situation clearly, so they could only shoot indiscriminately. In an instant, gunshots were heard in the entire corridor.

However, Qin Yuan's body skills were very sensitive. He kept shuttling, quickly came to those people, and directly dealt with the shooter.

At this time, Wu Bin was drinking red wine. He was wondering which organization could attack him when he heard a burst of gunshots.

He hurriedly called someone outside to investigate what was going on, but after a long time, the person he called out never came back. He stood up cursing, but turned around and went to the back drawer, took out a pistol to defend himself .

Then he made a phone call, "Brother, there is something wrong here, please come here quickly."

"What kind of trouble have you guys caused!"

The people on the opposite side were very dissatisfied with his attitude. After all, this guy is not a good person. The previous few people were all intrigues, and they all wanted to achieve that position.

But in the next second, something was wrong on the other end of the phone, because Wu Bin didn't answer him, but only heard a scream.

"Hey! What the **** are you doing?"

"Speak up! Wu Bin, are you looking for death?"

But there was no response from the other side for a long time. At this time, Wu Bin had already been caught by Qin Yuan. The phone was still in Qin Yuan's hand, and he was pinching Wu Bin's neck with the other hand.

Wu Bin's eyes widened. He couldn't believe what was going on. The man was seriously injured before, but now he killed him directly in his office.

Qin Yuan directly hung up the phone, UU reading www.uukanshu.com smiled slightly, seeing that he didn't hesitate at all, and invaded his consciousness on the spot. He didn't expect that those munitions blueprints were indeed leaked from this guy.

He also has an accomplice in the country, and he really got it from that person. He only knows that this person is Zhang Ye.

This Zhang Ye belonged to the Third Research Institute in China. Qin Yuan smiled slightly when he saw what he wanted to know. This guy was no longer of any value. With a strong hand, he directly cut off his neck.

In addition, Besen over there also felt that something was wrong. This guy would not call him so suddenly. Could it be that something went wrong there?

Hurry up and send people over there to check the situation. When Besen arrived with his men, the whole space was very quiet, and there was not even a person on duty at the gate.

"What kind of tricks is this guy playing? Isn't he trying to attack me?"

Wu Bin probably wanted to cheat, and stared at his position several times. Could it be that this guy called himself to trick him? Thinking of this, he let all his subordinates come in.

Chapter 1763: mysterious laboratory

However, just as he stepped into the hall, a burst of gunshots rang out from inside, and he quickly pulled one of the men next to him to block him.

Because he couldn't see the person who designed the opposite at all, he immediately concluded that it was definitely Wu Bin, this bastard, who dared to rebel now.

He knew before that this guy must have a day of betrayal, but he didn't expect to step on it at this time, they were all attacked, what was this ***** thinking? Thinking of this, he quickly called the boss of another organization.

"Patch! Hurry up and bring someone here! We need to clean up the traitors."

"What's going on here? Why is it so chaotic on your side?"

"It's all the ***** Wu Bin, who dares to lead someone to attack me now."

However, when the person on the opposite side heard him say this, he asked directly: "Is what you said true? Why did I hear the different version? You two have deep conflicts, but the two days ago I also know about the attack, you'd better be honest and don't make the relationship too rigid."

When Besen heard that the other party didn't believe him, he became angry for a moment, and the fighting inside was so fierce that many of his subordinates had completely collapsed.

If this continues, he won't be able to hold on for long. This time he is even more certain that it must be Wu Bin. That guy has so many people. He was really careless this time, and he didn't bring many people.

"Let me say it again for the last time, I have nothing to do with this matter, and you listen to this bastard, he is doing it to me now."

The person opposite was silent for a long time, but decided to bring someone over to see what was going on.

Besson hung up the phone cursing. Since he couldn't rely on others, he could only rely on himself. He hurriedly called the underground black market.

"Let everyone come here and bring weapons! Bring all heavy weapons."

After hanging up the phone, Besson turned his head and was even more surprised. Most of the people he brought were already dead, and the few remaining kept backing away.

The secretary who had been following him ran out, and the secretary's arm had been shot, "Sir, we can't resist their firepower at all like this, it's too fierce, and we can't see the attack on us clearly until now." Who are the people?"

"They're all a bunch of trash. Hold on, I've already called for backup, and they'll definitely arrive in half an hour."

As soon as Besson's words fell, the secretary was shot in the head, and the warm blood was sprayed on his face, and he was completely stunned.

I didn't expect the opponent's shot to be so precise, just about to run outside, but at this time Qin Yuan had already rushed out, shot him in the calf, and he rolled on the ground in pain, facing forward desperately run.

But Qin Yuan quickly caught up and shot him at the other leg.

When Besen turned his head and found that it was Qin Wukong, his eyes widened completely. Countless images flashed through his mind. At this time, he still believed that it was Wu Bin who connected the outsiders and directly betrayed them.

"What are you? Do you think that ***** Wu Bin can control the power on our side?"

"Hahaha, I'm not interested in your so-called rights at all. What I'm interested in is your life."

what! Qin Yuan directly shot him in the head, and this guy didn't understand what was going on until he died.

Originally, Qin Yuan just wanted to investigate the reason why the gun blueprint appeared here, but who knew it was involved. In this case, he just didn't do anything, and he didn't stop them if they wanted to come to their death.

At this moment, He Chenguang and the others also walked in from behind, and He Chenguang dropped the gun in his hand on the ground.

"Brother Qin, these guns are all imitations. Although they are similar to the ones we use in general, there are too many differences. If you use them for too long, the entire barrel will heat up."

Once this kind of barrel heats up, it is prone to the risk of explosion, which is why the death rate in previous wars was very high, because the handling of guns was not so good.

"Throw away all these waste weapons that have been used before, and prepare for the next wave of people. Now the good show really begins."

A hint of ferocity flashed in Qin Yuan's eyes. He really didn't think about killing all these people before, but his brothers almost died here. This time, he must make these guys pay back all of them.

More importantly, he always felt a little unusual in this place. Why was he disturbed in this place, and what happened to the previous situation?

He always felt that the situation was not that simple, so he told He Chenguang and the others to wait here, and whenever anyone came in, they would shoot and shoot down, and don't let anyone go.

This was simply a small problem for them. He Chenguang and the others quickly set up defenses in the entire building. As long as someone came in, they would not let them out at all.

Qin Yuan always felt that something was wrong, and he came to the previous room again. Everything was quite normal when he was disturbed in this place.

As soon as he entered the room, he called out the system, "Check to see if you can detect the trajectory of the launch at that time, why did this happen?"

The system began to scan the entire surroundings, but this is the basic scan performed by the god-level system, and it cannot make other judgments.

"What do you say now? Do I still need to upgrade?"

"Answer the host, this system cannot perform a judgment scan and needs to be recovered, and the accurate object can only be scanned."

Where did the interfering sound wave come from? Qin Yuan felt strange, was someone spying on him secretly, or was it an unintentional act?

He searched around here, but there was no effect. He directly kicked the chair next to him, but he didn't expect that this chair directly smashed into the opposite wall, creating a space inadvertently.

He poked his head out and looked inside, it was dark and he couldn't see anything clearly. After a few seconds, his eyes completely adapted to the darkness, and he could see some faint lights on the opposite side.

Thinking of this, he went up and explained to Li Erniu and the others. It is estimated that the guy called for reinforcements, and he will come in a while. Now everyone is guarding here, and if something happens, call him immediately.

"Brother Qin, just do what you want to do. Don't worry, leave it to us. We didn't have weapons before, but now we have guns in our hands. That's different. What are these guys?"

"Okay, I hope everyone pays attention to safety, don't have any losses, and if there is an emergency, call me immediately."

After Qin Yuan finished speaking, he walked towards the big hole in the wall. This is a long tunnel. It keeps walking in. The deeper you go, the more you can see the light getting closer. When he When I walked to the front, I realized that there was a layer of glass blocked inside.

This is not the real entrance, it's just that a little glass he accidentally opened didn't bother him at all. He smashed the glass on the side with one punch, and then jumped in. When he entered, he found that the whole space was full of What is connected in series is mainly the underground space.

It was a large-scale laboratory. He didn't expect that there were all these things hidden underneath, so why didn't he read it in Wu Bin's mind before, or that guy didn't know about it?

Qin Yuan probed inside while walking, and when he was walking in, the system suddenly issued a notification sound.

"Remind the host that the same sound wave frequency that was detected before should be nearby!"

Qin Yuan is very energetic now, because he doesn't know when the sound wave will attack suddenly, and it will make him completely lose his skills at that time, which will be troublesome.

When he walked to the innermost part, he saw an instrument similar to the size of a computer standing in the middle, with a faint light on the screen.

As soon as he reached out to touch the system, he began to analyze and recover it. After a few minutes, the system indicated that this thing could not be recovered.

"Aren't you a universal recycling system? I have to recycle this thing before I can analyze the data. What's going on?"

"Answer the host, the recycling of this item is not of great significance at present, but it can be confirmed that the previous sound wave was transmitted from here, but the power system of this instrument has been damaged, and it should have been triggered unconsciously before."

Hearing this, Qin Yuan squatted down and took a closer look. Sure enough, he saw a red wire on the left side, which had been bitten through by a mouse.

And the entire underground laboratory is already covered with thick dust, it seems that no one has been here for a long time.

It's just that he is becoming more and more cautious about this instrument. The system cannot recover it, which means that it cannot be scanned and checked, but the things inside can control and interfere with him.

After observing for a long time, he finally gave up on this instrument. At present, he can't find any good solution, so he can only continue to walk in, because he saw that there is still a room inside.

When he came to the entrance of the room, he heard gunshots from above. He hesitated, and asked a question in the headset.

"How is the situation above you? Can it be resolved? If not, I will come up to support."

"Brother Qin, don't worry, it's absolutely fine for us to hold hands with each other. We've already let them in, and none of us can escape."

Only then did Qin Yuan end the call. In his opinion, it shouldn't be a problem. The weapons of those guys above are relatively sufficient, and now it can be said that they were caught off guard.

He continued to investigate inside, and the small door in front of him was already covered with rust. It looked a bit out of place with the surrounding environment, as if it was built here temporarily, so he tried to push it.

The entire door was locked very tightly, and there was no way to push it open. He took a deep breath and kicked it up.

The next second the small door was kicked open, and a puff of dust accompanied by a rotten smell came directly towards him. When he saw the scene behind the door, he couldn't help but take a breath.

"This..."

In front of me is that kind of large dog, up and down, the whole room is not full, there are more than 30 in total, and more importantly, all of these dogs have people imprisoned in them.

This powerful rancid smell has been filling his willing mind. He took a few deep breaths, and then walked in holding his breath. The corpses inside were all rotten.

Some of the corpses on the top floor were already ossified, so it seemed that they were not from the same batch of deaths.

There are men, women and children in these corpses, and it is not clear who is doing these inhumane experiments here.

Qin Yuan checked everywhere, and finally found a syringe and a medicine bottle on the ground. When he picked up the medicine bottle, he felt a thump in his heart. He was very familiar with this medicine, and it was the transformation of soldiers made by the masked man before.

Those soldiers were injected with the substance in this drug. Although it is not clear, it completely stimulates the nerves and can make them perform supernormally.

He didn't expect to be inseparable from the masked man in this place. Thinking of this, he suppressed his nausea, opened an iron cage below, and the corpse was poured out directly. The whole corpse was completely rotten.

However, based on the clothes of the corpse, he still came up with some arguments. This is definitely the laboratory of the masked man before, and he didn't expect that there was another hidden here.

After the masked man captures the experimenters, he will change into uniform clothes with numbers on them, so that they can directly record the experimenters.

Qin Yuan shook his head, no wonder the sound of the radio waves would interfere with him, it turned out to be the fault of this bastard.

Thinking of this, he hurried outside to look for clues. The whole scene was cleaned up very clean, except for the corpses left behind, there was no information, and this damaged instrument.

This space is not big, but all the things that can be taken away have been taken away, and he can't find any effective clues.

At this time, Qin Yuanru had entered a dead end. He had been fighting the masked man for so many years, but this guy was getting away with it. Every time he felt that he had killed the bastard, but every time he did what he wanted.

At this moment, he heard He Chenguang's voice coming from the headset. "Brother Qin, we need support here, and suddenly another group of people came. I don't know what happened. Our firepower is a little bit overwhelmed."

Qin Yuan could only put away his previous emotions, and now he wanted to bring his brothers back safely. He glanced at the ground one last time, then took out a grenade from his waist, and threw it directly on the instrument.

Although he didn't know exactly what was going on, he couldn't let this harmful thing spread, and more importantly, it could affect him.

Qin Yuan felt the fierce conflict as soon as he went up, the wall on the left was completely smashed into a sieve, and then he yelled, telling everyone to get out of the way.

Just after he finished speaking, a rocket fired directly in from the outside. A huge hole was blown out where Li Erniu and the others were standing just now, and a raging fire ignited behind them in an instant.

Chapter 1764: Back to the Institute

Li Erniu's clothes were all on fire, he quickly tore off his clothes and cursed, "I'll go, there are incendiary bombs mixed in here."

"Be careful, now I will deal with the main firepower first, and you will be responsible for cleaning up the rest."

Qin Yuan is like an arrow on the string, and now he has been holding back a burst of anger in his heart. He saw that the people in the laboratory below didn't know what was going on. Is this a deal between them?

But the two people involved here are already dead, so he must catch the last one, and only the last Patch is left, who belongs to a third-party organization.

This guy's power is also relatively large, as can be seen from their firepower, basically all of them are heavy firepower, incendiary bombs, and howitzers are all used.

Now Paqi can clearly confirm that there is definitely an internal problem, but he thinks it is Wu Bin's fault.

In this case, he also let go of the shot, but in the midst of heavy fire, a man rushed out with two guns in his hand, and the person holding the howitzer in front hadn't reacted yet.

He was knocked down to the ground immediately, and just after filling it in, he shot it out towards the side, and a car was instantly detonated.

Qin Yuan started to work left and right with full of anger, very precise, and in an instant the firepower here was completely controlled by him.

Qin Zhengyang who was behind was stunned, "I'll go! Brother Qin is just hanging out, he's too handsome."

"Okay, don't be an idiot, you boy, hurry up! Replenish the firepower over there, Brother Qin can't bear it alone."

The firepower behind them also quickly replenished. Just now Patch rushed in with people, and the firepower on his side was very fierce. He controlled the situation for a while, but now it has completely reversed.

The two bodyguards beside him hurriedly escorted him away, because there was something wrong with the situation, and according to the situation, he probably couldn't stand it.

"Sir, let's go quickly, we will send you away from this side first, it seems that we can't stand it anymore."

"Fart, how is this possible? What are you doing? Do you want to escape now? I brought so many people here, can't I still deal with him?"

His words should have dropped a bullet, directly piercing the chest of the bodyguard just now. He turned his head and stared at the people behind him in horror.

At this time, he realized that the real crisis group seemed to come out of hell, and his eyes revealed a fierce light, walking towards him step by step.

The rest of the bodyguards quickly stepped up and shot Qin Yuan, and the rest escorted him to drive away.

Patch saw the bodyguards from the rearview mirror and fell down one after another, and he was even more puzzled, who is that? Speed and strength are beyond ordinary people.

But fortunately, their car was fast enough and had already rushed out. The two security guards next to him, one on the left and one on the right, were protecting his safety and were staring out the window vigilantly.

"Sir, it seems that we can't go to the base. We will send you to a safe place. Please tell me a safe address now."

Patch frowned. He had already killed Wu Bin 100 times in his heart. This guy was a complete traitor, and he really wanted to kill them at this time.

Just when Paqi was struggling with the address, a car rushed out from behind. The rear part of the car had been completely pierced by grenades, and Qin Yuan drove the car towards them.

The bodyguard's expression was serious. He had never encountered such a difficult opponent before, so he could only drive towards the city. As long as he entered the city, he might get rid of the car.

But how could Qin Yuan let them reach the urban area? Qin Yuan was driving while the rear glass was completely shattered, and a bodyguard on the left was hit in the shoulder.

But in this case, they still performed their duties and protected Patch in the middle.

The bodyguard sitting on the left felt that he had a chance to see the timing, took out a grenade and threw it towards the back. Unfortunately, he almost missed it. Instead, he was thrown by Qin Yuan just as he leaned out half of his body. Hit, instantly rolled off the car.

The bodyguard on the side no longer sat waiting for death, and quickly attacked the back. Soon, this bodyguard was also killed by Qin Yuan with a single shot, leaving only the driver and Paqi.

Patch is very anxious now, and keeps urging the driver in front, "Drive faster for me, increase the speed, don't worry about it so much."

Qin Yuan cursed secretly, the speed of this broken car was still not good, and soon they rushed into the opposite village, but at this time there were many people in the village. Especially under the big tree in front, there are many children playing.

The bodyguards rushed directly into the village. The children and the elderly were frightened and ran away in the village one after another. After the bodyguards entered the village, they could only slow down a bit. After all, there were people everywhere.

"What the **** are you doing? Speed up, that **** is about to catch up, hurry up."

"Sir, there is someone in front, I can't..."

Patch took out a pistol and put it directly on his head, "I want to see if you want to die or something, let me rush over, don't worry about so many guys who are in the way, and kill them all."

Now he is desperate to escape, very crazy, but taking this opportunity, Qin Yuan has already rushed up, just when Qin Yuan was approaching, Paqi directly jumped out of the car.

Qin Yuan's throwing knife hit the bodyguard's shoulder in an instant. His shoulder hurt and he deviated from the direction completely. He hit the wall next to him. The sparks from the huge explosion ignited the fuel tank instantly.

After he jumped out of the car, he saw that there were still some villagers looking at the old man on the opposite side. He could only keep waving his hands, telling them to leave quickly, because they were about to explode.

After finishing speaking, he rushed over and grabbed an old man, and pushed the old man to run towards the periphery. Just after running out for a while, a huge explosion sounded into the sky.

And the wall just now had completely collapsed. Seeing this thrilling scene, the surrounding villagers also started to panic and ran towards the inside of the village.

After Qin Yuan gritted his teeth and put the old man down, he chased in the direction where Paqi fled just now. He would not let this ***** escape, and he was still unclear about many things.

This person is likely to be the person behind the scenes. Although they have not participated in the experiment, they can ask something from their mouths.

After all, it's in their underground, how could they not know?

At this time, Paqi kept running towards the hillside. He took out his mobile phone and made a few calls before the other party answered. As soon as the other party answered, he couldn't wait to say:

"Damn it, where did you die? Now hurry up and send a location for you to pick me up! Immediately."

"Brother, what you said, I don't have any real power now. You drove me away before, and now I'm here to pick you up. It's not in compliance with the rules."

Patch really had no reliable people around him. This time he brought so many people here, but they all died here, so he could only turn his target to his former younger brother.

"Stop talking nonsense, come here now, and I'll give you 5 million directly!"

"Hahaha, yes, no problem, I'll be right there."

On the other side, the younger brother remained indifferent after hanging up the phone. The person next to him seemed to have heard the conversation and felt a little strange.

"Brother Long, are we leaving now? I heard 5 million just now."

"Don't go to die, sometimes the money is not what we should take, just stay honestly."

This Brother Long silently lit a cigarette, how could he not know what this old guy was thinking? This guy will definitely not contact him unless it is absolutely necessary.

If this happens, it means that even this guy can't handle it, and he must die if he goes now.

More importantly, he had received a gossip before. At the beginning, a small arms dealer over there had been wiped out as a whole.

No one would attack an arms dealer for no reason, and that arms dealer was quite popular in the local area, so it was wiped out by the regiment.

Immediately afterwards, there was an incident at the casino, and then there was the underground black market. This was all the property of his bosses. He knew very well in his heart that he didn't want to go to this troubled water.

That money is not what he should earn. Patch is a cruel man with so many thugs in his hands. Now he wants to ask him for help, a person who has been driven away. die.

Brother Long was relatively sober among these people, while Paqi on the other side was still waiting for his former younger brother to rescue him. After he sent the address, he kept running on the hillside.

He kept turning his head, looking behind him to make sure that no one was chasing him. At this time, he leaned against a big tree to rest for a while. He took out his mobile phone and kept looking at the message, wondering if the younger brother had received it.

At this time, a cold voice came from above, "I didn't expect you to run very fast, but do you think there is any point in running away now?"

Patch raised his head in horror, and saw a figure jumping down, and then he felt a pain in his shoulder, and was instantly pressed to the ground by the uniform of willingness.

"You! Who are you? Did Wu Bin send you here? Where is Wu Bin? I'm going to see him, don't kill me."

"If you want to see Wu Bin, then I can only kill you now and send you to see him. You just can be my companions."

Patch was terrified when he heard this. He always thought it was Wu Bin's fault, but it didn't sound like it meant anything. Qin Yuan didn't talk nonsense with him, and squatted down to invade the consciousness in his mind.

After a few minutes, Patch sat under the tree with a dazed face, drooling from the corner of his mouth, because Qin Yuan forcibly invaded his consciousness, so his brain was damaged, but this guy would rather not care.

After all, he had already obtained the result he wanted, and this guy really didn't know about the problems in that laboratory, mainly because the casino here could provide gamblers continuously.

The laboratory was built under them, and they didn't know exactly what it was for, and he saw the masked man in Patch's consciousness.

Those gamblers were sent to this place because of their debts. There is also an underground black market, and they will also have various transactions, which provides a very good donor for the laboratory.

However, according to Patch's conscious memory, they had completely evacuated here half a year ago, and this guy didn't know about other things that were too specific, but only provided people and venues.

Qin Yuan had a bad premonition in his heart. He always felt that things were not that simple. Once he got involved with the masked man, he would always feel uneasy.

The main reason is that this time the machine made his skills fail instantly and was disturbed by the sound waves.

As for the domestic weapon formula, he already knew who sold it. It can be said that the mission has come to an end by this time, and now they are also preparing to go back.

On the way back, Qin Yuan was depressed the whole time. He had something on his mind and couldn't calm down. He planned to go back and see his daughter after all the matters over there were dealt with.

When Qin Yuan returned to the country, he just made a phone call to report to the superiors. After all, this was a leaked formula, especially the gun formula.

After the report was over, he had already arrived at the gate of the Third Research Institute. The dean of the research institute and Qin Yuan were also old acquaintances, and he had also participated in some lectures here before.

"Old Chen, your body looks quite tough."

"Hahaha, we haven't seen each other for a long time, but you are getting more and more energetic, when will you consider coming to teach us a few more lessons?"

"I've been really busy recently, I'll talk about the class later, and I'm also researching other formulas, maybe I can come here to teach later."

When Mr. Chen heard this, his eyes lit up. This was something he wished for. Qin Yuan had conducted research at the General Academy before, and the guns were still the main content of their lectures.

It's just that he didn't know that the order to go to work was to let him come here to receive Qin Yuan, and he didn't know what happened until Qin Yuan told him about the leaked formula.

Boss Chen turned pale with shock, how is this possible? There are such people in the research institute!

"Who the hell? I will definitely not let him go. The thing developed by so many of us was taken abroad by him. Isn't this a traitor?"

"I have already investigated the specifics. It is a man named Zhang Ye. Do you know him?"

Old Chen nodded solemnly, why doesn't he know this person? It can be said that he is very familiar, because this Zhang Yeke is his student.

But he couldn't figure out why this person did this. In his impression, Zhang Ye was very polite to the people around him. He didn't seem like a person who would do such a thing, and he did things very well.

Sometimes people really can't be judged by their appearance, and this has triggered the bottom line. In fact, Qin Yuan is also very curious about how he transmits the secret recipe. The regulations of the research institute are very strict.

Surveillance equipment is everywhere, and it is almost impossible to take the secret recipe out.

Unless he completes a 1:1 replica, but this guy probably doesn't have this ability, so this time Qin Yuan came to investigate in person.

Chapter 1765: find the traitor

Mr. Chen even provided an important clue. The new gun transformation plan developed by Qin Yuan before, no one knew that the plan was classified as confidential, and Zhang Ye had no access to it.

That's why all the formulas he sold were from the previous ones, and up to now there are no new gun control recipes.

"Old Chen, so far I've only heard about Zhang Ye. Others, I don't know if he has accomplices, and whether he is under the cover of his accomplices."

Old Chen's expression was serious when he heard this, he couldn't take this as a joke, and more importantly, it was possible that what Qin Yuan said was true, and he basically only said what he said with certainty.

"I'll take you to see that ***** first. If this guy really becomes a traitor to our research institute, I will be the first one to let him go!"

Mr. Chen led the way and walked ahead. When passing an office, Qin Yuan saw a familiar figure. The person inside turned out to be Chen Qiang, who had just escorted him back.

He respected Mr. Chen very much, but the moment he saw Qin Yuan, he felt a thump in his heart. Could it be that the thing he secretly reported was discovered, and this guy came here to take revenge.

This guy can be said to be a despicable villain. When he came back, he immediately reported Qingyuan in private. The reasons for his report were also ridiculous, and all kinds of trumped-up charges were placed on Qin Yuan.

But that report letter has been sent out for several months, and there is no news at all. It seemed strange to him that the country attached great importance to researchers like them.

But this time their lives were in danger on the road. He reported these things truthfully, but no one cared.

As time passed, he wanted to take the report letter to the higher leadership above to complain, but he didn't expect to see Qin Yuan here, so he couldn't help but feel a little guilty.

Qin Yuan didn't notice him at first, but the dodging eyes of this guy made him feel that there might be something tricky. Could it be that this guy is united with Zhang Ye?

So I deliberately stepped forward to say hello, "I didn't expect that we could still meet here. How is the situation after you came back recently? It should be better than abroad."

"Captain Qin, you are really polite. Thanks to you, we can come back safely. We are doing well in China now."

This guy was also eccentric when he spoke, and his eyes couldn't help but glanced outside, which made it clear that he was guilty.

Mr. Chen didn't notice this, so he hurriedly stepped forward to introduce with a smile, "Chen Qiang, this is our most influential person whom I told you before, do you know who developed those new weapons? It's him, he's a heavyweight in our General Academy."

Chen Qiang was completely taken aback when he heard the news. What's going on? How is it possible, Qin Yuan is not a person in this field at all, how can he still do weapon research?

What he wants is that he still targeted the guns and weapons researched by Qin Yuan before. Before that, he secretly said that he must meet this weapon researcher, who is simply his idol.

"Old Chen, stop joking, is this true? Isn't Captain Qin from the Special Operations Brigade? Why are you cooperating again? You're involved."

"This is because Captain Qin is very low-key. I have already persuaded him to stay on the Internet before, including the general hospital. He was doing research there. At that time, the dean kept asking him to stay, but he still insisted. Go to the Special Forces."

Chen Qiang has been struggling for half his life and has never met the dean of the general hospital. He did not expect that the dean of the general hospital would put down his dignity and come to ask Qin Yuan in person.

At this time, he gave a helpless wry smile. No wonder why his report letter did not go anywhere. First of all, his status is unusual, and secondly, isn't this hitting a stone with an egg?

Just when Qin Yuan was about to inquire further, he wanted to see what this guy was hiding. A staff member in work clothes from the outside ran in with a few letters in his hand.

"Hey, Mr. Chen, why are you here? By the way, you have a letter. It seems to be from the General Hospital. I just brought it to you."

Mr. Chen took Xinjian and looked at it. It was sent to him by an old friend from the General Hospital. He smiled and said he knew. At this time, Director Chen also noticed other letters in his hand.

"Hey, what's going on here? Why are there so many letters? No one will send letters at this time, right?"

While the two were talking, they didn't notice that the city wall next to him was already dripping with cold sweat. He knew what had happened, but he was still pretending to be calm.

Because he saw familiar handwriting, all of them were his own letters, and when he was trying to figure out how to get the letters back, the staff member came up with a stroke of genius.

"Yeah, I'm also curious. These letters were all sent back from above, saying they were unqualified, and all of them were from Team Leader Chen Qiang."

Hearing this, Chen Qiang was a little embarrassed, and hurried forward to **** the letters. Qin Yuan took a closer look, and there were about seven or eight letters. He didn't know what this guy was going to do, and his behavior was really suspicious.

The more this is the case, the more it shows whether he has some kind of connection with Zhang Ye. Thinking of this, Qin Yuan stretched out his hand directly, "Group Leader Chen, can I take a look at the letter in your hand?"

Chen Qiang's complexion changed at this time, he was really more and more afraid of something, he shook his head desperately.

"Captain Qin, I don't know what you mean by this, but my private letters, it's fine if you were domineering to me before, but now you don't have the right to read these things."

The more guilty this guy was, the more he showed such a tough attitude, which made Qin Yuan feel that there was something wrong with him, and Mr. Chen next to him also heard something different. He frowned. How did this guy talk?

"Chen Qiang, what are you talking about? As I said before, Captain Qin is a very important researcher of ours. His level is higher than that of you and me. What's your attitude?"

More importantly, they have no secrets inside the research institute. All outgoing letters must be inspected. He doesn't know why Chen Qiang's letters are so important to him, even if they are sent, they must be inspected.

This was also to prevent the results of the research institute from being leaked out. Chen Qiang completely lowered his head when Mr. Chen said this, and he held the letter tightly with his hands.

He still wanted to make a final struggle, but Qin Yuan snorted coldly, "I'm here this time to investigate the incident leaked by the gun control party. I don't know if you are related to this incident, so a full investigation must be accepted."

Chen Qiang's eyes widened, and he quickly shook his head to express that it was absolutely impossible, that he couldn't do such a thing, so after thinking about it, he decided to go all out, so he had to hand over the letter, anyway, he would be seen no matter what.

Several people opened the letter on the spot and checked it. When they saw the content on Xinxin, Old Chen's face became darker and darker. This guy is really ambitious, and he actually did this behind his back.

Qin Zhengyang was very disdainful after reading the content, "I really didn't expect that we are such people in the letter. There is a story called the farmer and the snake. Maybe it is about us."

After all, everyone worked hard to protect their safety, and finally escorted them back. In the end, they had to accept reports from others. Many things in it were inconsistent with the facts.

Old Chen looked at Chen Qiang disappointed, "I really didn't expect that since you are like this, you have to know that if it wasn't for Captain Qin and the others, you are still abroad now, and you don't know where you have been exiled to."

This time he completely lowered his head, no matter what he was comparing with, but before he thought that his status in the research institute must be no problem, but looking at it now, it was completely hopeless.

He is much better than him in every aspect, and it's ridiculous to say that he doesn't know where his capital is worth. He has seen all the research data.

At that time, he lamented that this person's ability is too strong, and now he is like a clown.

Chen Qiang could only bow his head silently and express his apology. Qin Yuan was too lazy to argue with him, but it cannot be ruled out whether he has contact with Zhang Ye, so he was also temporarily taken to a separate office to receive a brand new review.

On the other side, Qin Yuan and the others also quickly came to the office. At this time, Zhang Ye and others were doing experiments, and suddenly they were a little confused when they saw so many people coming in.

It has to be said that Zhang Ye's psychological quality is still very strong. Faced with this situation, he didn't panic at all, and he was still doing experiments calmly.

Mr. Chen walked in front of him, he raised the crutch in his hand, and really wanted to beat him hard, he regarded him as his last apprentice, and handed over everything to him, such a trusting person turned out to be a traitor.

Looking at Mr. Chen in front of him, Zhang Ye was still pretending to be stupid, "Master, what are you doing?"

"Don't call me master, I don't have you as an apprentice, I'm really disappointed in you."

Amid everyone's puzzled looks, Qin Yuan asked Li Erniu to take Zhang Ye down alone first. As for all the people in the laboratory, they had to be inspected, which was a very big job.

Even when he came to the review room, Zhang Ye still had that calm expression, because he felt that what he had done was perfect, and he had been in contact with outside organizations for three years, and no one had found out.

It wasn't until Qin Yuan took out his laptop that he felt a little flustered, but he felt that the other party would definitely not be able to do it, but Qin Yuan listed the evidence in the next second.

"I didn't expect you to be unrepentant at this time. If your attitude was a little better just now, then I might consider letting your punishment be eased a little bit, but you still have this attitude, there is no way."

When Zhang Ye heard this, he didn't know what evidence Qin Yuan had, but raised his head in doubt, "I really don't know what you are talking about. I have been loyal to the research institute all these years and have never done anything. The thing, if anything, is that someone set me up."

Looking at this guy, Qin Yuan really interpreted a sentence that a dead duck's mouth is so stubborn that he still said that.

He directly turned the computer he deciphered to face Zhang Ye, "Since you said that someone framed you, then this computer is yours, right? What's the matter with the chat records and your communication copy records?"

Zhang Ye's eyes widened when he saw this. He couldn't believe it. This is absolutely impossible. He deleted all the records. It is absolutely impossible to happen. He is very cautious in doing things.

"Don't take any chances. I know who the person contacting you is, isn't it Wu Bin? You think there is nothing we can do if we take the guy, and I have already wiped him out."

This time Zhang Ye was not calm anymore, he jumped up from the chair, "What do you mean by this?"

It doesn't make any sense to listen to him now. Anyway, Qin Yuan already knows the general situation. They have newly established a fast transmission software, and then quietly transmitted the data of the research institute.

During the transmission process, it would pass through the firewall of the research institute, but Zhang Ye used his technology to successfully pass through the firewall without triggering any alarm.

So he kept silent like this, and every time he transmitted the data of the research institute to the overseas side, and then came to obtain benefits.

Half an hour later, Zhang Ye had fully explained that he was completely different from the state before he entered. At this moment, he looked down as if he had aged ten years in half an hour.

The reason why I heard the news that Wu Bin has been eliminated outside is because Wu Bin promised him that as long as he is transmitting two years of data, he will be sent to the overseas side, where they will establish a separate laboratory for Do gun research.

And what we need to do now is to transfer all the data as much as possible, and this Zhang Ye also kept a hand, he did not transfer the most core data, worried that it would be abandoned, and the core data is the previous research and development of Qin Yuan. The batch of weapons that came out.

And during the whole process, Wu Bin transferred a total of 18 million to Zhang Ye's account, and it was this money that completely changed him.

When Zhang Ye came out, he saw Mr. Chen with gray hair. Mr. Chen looked at him with disappointment in his eyes. UU Reading www.uukanshu.com and grudges.

"I really can't figure it out. You can do this for money. If you hand over those core data, don't we have any secrets to speak of? Do you know what the situation outside is like now?"

"Sorry..."

Now he doesn't know what to say other than these three words. He really has no face to face his master. I want to serve as a warning to others.

If they hadn't been accidentally discovered by them this time, how much data would have been continuously leaked out. For safety reasons, Qin Yuan also built a new firewall alone. This time, any data transmitted from here will trigger an alarm.

He had already reached the highest security level. Before leaving, Mr. Chen was very guilty, "I really didn't expect him to be such a person. Our entire research institute will be ashamed of him. I will strengthen my warning with them." educational."

"It is still necessary to let everyone not waver in the face of temptation, otherwise everyone's hard work will be in vain."

Chapter 1766: disappearing freighter

The matter here is enough for the time being, because they were originally going on vacation before, but they just discovered the situation here by accident, so they got involved.

However, it was also because of this discovery that the entire research institute, including the headquarters, began to re-screen all of them, and they were worried about data leakage.

One after another, Qin Yuan was asked to redefine their network security. It was really hard for Qin Yuan to refuse this matter, and to be honest, he would feel uncomfortable if the things he had worked so hard for were stolen by others, so Went to the institute to help again.

It's just that during the whole process, that mysterious laboratory has been lingering in his mind, and now the masked man is haunting like a ghost, and he doesn't know where this guy will appear next.

After dealing with these matters, he went to the family kindergarten over there in the military area to pick up Qin Ran first. After not seeing the child for a long time, Qin Ran happily ran towards him.

"dad!"

"You little girl, I haven't seen you for a long time. It seems that your grandparents have taken good care of you. This little face is full of meat."

Qin Ran hugged Qin Yuan tightly and didn't want to let go. After all, the child hadn't seen his father for a long time. Taking this opportunity, he quickly asked.

The main reason is whether the child has changed recently, and he also used the system to check to make sure that the system on Qin Ran's body has not been turned on again, so he was relieved.

After all, the child is still too young now. If she really has some super advanced ability, it is easy to be regarded as a freak by others, and this thing can't be explained clearly at all. What's more, she is too young to master these things now.

Qin Yuan came back with great difficulty, An Ran's parents started making preparations early in the morning, and when Qin Yuan came back to pick up the child, they could smell the aroma of steaming vegetables in the kitchen.

He hasn't felt this kind of family atmosphere for a long time, and this is what he has been longing for before, and he also really wants to retreat, holding his child and wife to warm the bed, but many things are not allowed, such as this masked man.

While he was in a daze, An Ran's mother brought out the last dish.

"Qin Yuan, come here quickly, wait for a few minutes, An Ran will be back soon, let's have a good reunion dinner with our family."

Qin Yuan nodded, and sat next to him with the child in his arms. The child knew the rules very well, and the adult sat obediently beside him without explaining the meal.

So it can be seen that the two old people took care of the children very well and taught them very politely. After a while, An Ran also came back. It had been a long time since An Ran had lost a lot of weight.

The main reason is that some new technological products have appeared on the side of their game office. She needs to test these products and then use them in the actual training and assessment. This is about the entire military region, so she has been very busy recently.

It was rare for the family to have a reunion dinner. After the meal, Qin Yuan took An Ran and the child to go for a walk outside. The three of them looked at the bustling crowd in the park and sighed. This kind of ordinary life is their best. Envious.

"By the way, how long are you planning to stay here this time? I still want you to spend more time with the children."

"I know I'm lacking in children. If you have anything to do over there, you can go to it first. I'm not in a hurry this time. Maybe I'll stay for five or six days."

Qin Yuan knew that he should spend more time with the child, especially with this special ability in the child, and he didn't know whether it would become a burden for the child in the future.

The two were talking while walking, when An Ran suddenly asked a question. "By the way, do you know where Mu Qingmei is now?"

Speaking of that little girl, Qin Yuan shook his head. They have been too busy recently, and this is what happens when they join the team, so they haven't seen each other for a long time.

"You don't know, she is very powerful now, and this is the third time she has gone out to do peacekeeping missions."

They are all shining in their respective fields. This change made Qin Yuan really feel very gratified. Only the strong and the strong can truly come together. Mu Qingmei did not relax in the slightest. She wanted to make herself stronger.

The two chatted a few more words, took the children to play with the train in the square for a while, and then went back. This kind of life was what they envied the most.

An Ran was in a hurry, she got up early the next morning and went back, there were too many things to do without people, and she still had to conduct tests.

Qin Yuan originally planned to take the child to climb the mountain and cherish the time alone with the child, but a phone call disrupted his plan.

There was no other way, he could only be very sorry, Qin Ran was very angry when he wanted to send the child back to the compound, and kept pouting all the way back.

"I can't help it. You see, Dad is quite busy with his work. After the busy work here is over, I will take you out to have fun, just like last time."

"I don't want it. You are like this every time. Last time my mother said she wanted to go to the playground with me, but she didn't go."

"Be obedient and obedient. When I finish this mission, I promise you that I will definitely come back and play with you, okay? Dad will take you wherever you want."

Having said that, the expression on the child's face softened a little, and in the end he could only be sent home sullenly.

Qin Yuan rushed back to the brigade after sending off the child. Li Erniu and the others were already ready. When Long Xiaoyun saw him coming, he also stepped forward and said: "We all know that you went home after a long time, and take good care of him. To accompany the child, I didn't want to call you, but the order from above can't help it."

"I know it all. This mission is urgent. Let's get on the plane first, and we'll talk about it later."

The task this time was really tricky, so the Wolf Warriors team and the Red Blood Cell team were directly dispatched, and Qin Yuan led them as a team.

Qin Yuan opened the map and began to check the specific situation. The task they received this time was to go to Assori Bay.

A week ago, an international cargo ship of theirs departed from country A. The cargo ship was carrying oil. According to the normal sailing route, it would take them a total of 15 days to arrive, but it disappeared mysteriously a week ago. .

In the end, they could only see that the coordinate point where they disappeared was in Assori Bay, and they also experienced a lot of sea areas during this journey.

In addition to the maintenance of security on this freighter, there are a total of 137 crew members, which is relatively large.

There are a total of 13 countries to go through, and finally arrive at Yan Country. There are also many intricate bays along the way, but this kind of large freighter generally will not lose its way, and their freighters are equipped with professional equipment.

Including the security force is also very strong, but now these freighters have disappeared in such a strange way, and it has been a whole week, especially at 6 o'clock this morning, they received the last distress message from Assori.

In the end, the distress signal completely disappeared. After Qin Yuan told everyone about the mission, everyone expressed their understanding. When he was in the team before, Long Xiaoyun had already said it first.

"Now that everyone understands the situation, everyone will follow the plan. After we get there, we will be divided into six teams, five of which will use speedboats to search from that area, and the remaining team will use helicopters to start searching in the air. ."

After all, that area is a sea area, so it can only be found in this way, otherwise there is no way at all.

Qin Yuan and the others arrived at the nearby area first, and then set off by ship, but when they arrived there, they found that the situation was worse than they imagined. Because of the weather, there was no way for the helicopter to fly in this area. case starts.

Especially the wind and waves on the sea are very strong, and they dare not take risks. They are only on the coast of the pier, and the entire cargo ship is already swaying. No one wants to go to sea at this time.

Qin Yuan and the others rented a ship directly, and now the situation is urgent, they must rush to that area to investigate as soon as possible.

The boss of the ship that leased them has been persuading them that it is very risky no matter where they go in this kind of weather, and more importantly, there are pirates in that area all year round.

With this important information, Qin Yuan hurriedly asked, "How can there be pirates in this area? I saw on the map before that it was basically a vast ocean. There is no place for them to stay here."

"Because of this, they come and go without a trace. They often rob nearby freighters in that area. As soon as they grab the goods, they start to flee in all directions. So far, no one has been able to capture their figures."

According to the legend, the boss said that he didn't care about his ship. If he really encountered pirates or encountered any problems, his ship would be insured. He was worried that the charterers would be in danger.

"In addition to this bad weather, I have been sailing on the sea for 20 years, and I dare not go out. This level of wind and waves must be suppressed by at least a freighter of more than 20 tons. It doesn't work at all."

But the more urgent the situation was, Qin Yuan and the others had to hurry up, after all, those crew members were in danger.

The boss of the boat couldn't persuade them. Although he wished that they had already disguised themselves, it was said that the boss knew that these people must not be ordinary people. It depends on how quickly they do things. They are methodical, and they don't have the slightest fear in the face of such storms.

In the end, I could only pray for them silently, and watched the ship slowly move away from the dock. In this case, the helicopter could not be counted on, so I could only get on the ship, and then use the small boat to go over there to check.

After boarding the boat, it will take at least four hours for them to reach that area at this speed. The red dot on Qin Yuan's phone represents the location where the distress message was last sent, and they will rush to that place to investigate now.

Because the wind and waves were too strong, the whole ship began to sway, and everyone couldn't stand at all, but fortunately, the physical fitness of the players on both sides had been improved under Qin Yuan's strengthening, and there was nothing wrong with this level.

After completely settled down, Qin Yuan asked everyone to take out the hidden weapons just now. Now they have to be prepared, they may encounter pirates at any time.

It has been four hours of wind and rain, and the sea is not so calm, but it is much better than before. They looked at the small island in the distance and the coordinates on the mobile phone were similar. Could it be sent from that place?

Such a large freighter, and there is so much oil on it, if their pirates want to **** it, they will only **** the whole ship.

But everyone knows what this means. Once the whole bed is taken away, if those pirates want to kill people, they will kill all the people on board and throw them into the sea.

Fortunately, they didn't find any corpses along the way. As they slowly approached the island, Qin Yuan had already seen something on the island.

As soon as the boat approached the shore, Qin Yuan couldn't wait to jump off. He trotted all the way, and soon came to the place where he found the clue.

The others also quickly jumped down. When they saw the scene in front of them, they all lowered their heads silently, because there were six corpses in front of them.

Looking at their faces, Qin Yuan clenched his fists. Ka Na was still a step too late, but why are there six corpses?

Li Erniu and the others hurriedly squatted down to check, only to see that these corpses had signs of resistance before, and many messy footprints could be found in the surrounding sand, it must have clashed with those guys, and then they suddenly violently killed .

Moreover, He Chenguang also found a broken mobile phone in the sand next to him, which was the last place where the distress signal was sent out.

Now all the clues have been broken. This bay is very complicated, and the surrounding area is surrounded by the sea. If you go further, there are a total of four countries adjacent to this place. It is impossible to know where these pirates will go.

Now the wind and waves on the sea have started to rise again, the weather has been very bad recently, there is nothing to do about this situation, Qin Yuan let everyone get on the ship, and then he directly put down the speedboat next to him.

Long Xiaoyun was stunned when he saw it, and hurried forward to stop it, "It is completely impossible for you to operate a speedboat in such a big wave, and the weather is too bad now, It's too risky, let's wait a bit and use the cargo ship to search first."

"Now time is life. Every minute of delay, they will be in more danger. I want to find them as soon as possible. I am sure of it."

Everyone knew that Qin Yuan couldn't be persuaded, so they could only watch him put the speedboat down. At this time, he was still directing everyone to look north, and he followed the south direction.

Because in his opinion, first of all, the freighter is so huge that it can leave its shadow anywhere, and this pirate is crazy enough. Since they dare to hijack such a large ship, and secondly, even if they want to destroy the ship, such a large ship will have to be destroyed. It takes at least one day and one night to completely sink into the bottom of the sea.

It's easy to find clues in this situation, so he didn't miss this opportunity and asked everyone to find it quickly.

Originally, he wanted to mobilize everyone. According to the previous plan, it was a pity that the storm was too big, and only he could control it.

Chapter 1767: find clues

Qin Yuan sat on the speedboat and hadn't started it yet. He could feel that the strong wind and waves on the seaside really deserved their reputation. If he didn't pay attention, he might be swallowed by the waves.

Long Xiaoyun and the others stood on the deck and stared nervously at Qin Yuan, but he waved his hands gracefully, indicating that there was no problem, then pushed the accelerator and rushed out.

Just as Qin Yuan rushed out, a huge wave hit him, and his heart was in his throat.

After all, in the wide waves, Qin Yuan's speedboat and him can completely disappear like a small leaf.

In the next second, Qin Yuan's operation was like a stroke of genius, and he actually crossed the wide coast directly and easily, which made everyone feel relieved of their choice.

Long Xiaoyun watched Qin Yuan's operation, and waved at the people next to him, "Okay, don't look at him anymore, he must be fine, we will also speed up, and try to search that side before heading towards him." Go to other areas."

Only then did everyone leave the deck, but the cargo ship was not much better. The entire cargo ship was in a bumpy state. Qin Yuan's speed was very fast. He drove the speedboat and galloped non-stop on the sea.

Long Xiaoyun's expression was unusually dignified. There was a GPS on that ship, but it had completely disappeared now. Li Erniu stepped forward and looked at the vast sea.

"Captain Dragon, I think we should look for the big ship according to its location, so we can find it."

He Chenguang glanced at him beside him. If this guy could think of it, others would have thought of it long ago.

"Do you think the dragon team is white? Everyone has already thought about it, so don't worry about it, just listen carefully and follow orders."

The chicken on that kind of big bed is not so easy to remove, and once it is removed, the alarm will be triggered, causing the entire cargo ship to be paralyzed in place, and there is no way to walk at all.

So now they should use some kind of technical means to directly block the GPS. This is the first time Long Xiaoyun and the others have encountered this situation.

At this moment, Long Xiaoyun saw a freighter appearing in front of her, and she hurriedly directed everyone to approach there, and Fan Tianlei next to her was a little nervous.

After all, if something goes wrong in this situation, it will be bad, and the area here does not belong to their area, so it would be inappropriate to just go forward and check.

"Team Dragon, otherwise, let's send a signal first to see what's going on over there, and don't go there so directly to avoid unnecessary trouble."

"I have no choice. If you think about more than 100 lives, we don't even know where they are, so I don't want to let go of all the ships."

Having said that, Fan Tianlei stopped talking, and they raised their own flags. The other party originally wanted to escape, but after seeing the flag, they were also a little confused.

Long Xiaoyun and the others successfully intercepted it. After all, the opponent's freighter was relatively large, and the overall speed was not as good as the small freighter they rented now.

The captain above walked to the deck, and several crew members followed behind him, all looking very nervous, Long Xiaoyun began to make routine inquiries.

Seeing them so nervous, Long Xiaoyun was a little excited. She didn't think it would be such a coincidence that she would meet those pirates directly, right?

Just when Long Xiaoyun and the others wanted to board the ship for inspection, the captain directly refused.

"Wait a minute, what are you doing? You are not qualified to inspect our ships, right? Although you belong to the Yan Kingdom, who are you?"

"Because we now suspect that you have colluded with pirates, you must be inspected."

The captain is not a vegetarian either, he turned his head to look at the crew inside, and soon they took out their guns, and the two sides confronted each other directly, especially when Long Xiaoyun and the others saw this situation, they definitely had something in their hearts Ghost, why don't they get on the boat?

At this time, a crew member in the back couldn't hold on, and fired a shot directly. You must know that Synthetic Light and the others are a special team, suitable for any emergency situation. Knock the shooter to the ground.

Their reaction was quick, some were in charge of shooting, and some were in charge of rushing to upload the controller. In this way, the control was completed in just two minutes.

The captain was completely stunned, the speed was too exaggerated, he was pinned to the ground, still struggling.

"You are not qualified to inspect, what are you doing? Get out of here."

"We can still say this now, waiting for us to find evidence."

He Chenguang and the others went down to the cabin to check, but found nothing else, except for a few boxes of freshly caught fish.

But when he came out, he found that something was wrong. Why did this deck below feel a little abnormal.

Moreover, when the captain saw him walking on the deck, his expression was very nervous. He Chenguang concluded that there must be something below.

Without further ado, he picked up a knife and pried open the splint below. Seeing this scene, the captain sighed silently. He knew it was over and the thing had been discovered.

When He Chenguang pried it open, he only saw three barrels underneath, and he was even more surprised when he saw the writing on it.

"Dragon team! It's our thing. You can see that the words on it are our numbers."

The corners of Long Xiaoyun's mouth rose slightly, she knew there was definitely something wrong with this boat, after all she believed in her instincts, and in such a bad situation, she was sailing in the sea regardless of the danger, except that they were anxious to find someone, that Those who are in a hurry to sell.

Seeing that the things were found by them, the captain is still quibbling, "You are a bunch of robbers, why do you say this is your thing? I bought it with my own money."

"Hehe, that's really nice to say, so what do you think about it now? Do you believe that I'll just throw you down to feed the fish?"

This captain is a hob-level meat player. He knows that the people of Yan Kingdom will never do it easily, so now he refuses to admit it even more. Anyway, he will not tell the truth.

Li Erniu is not used to him, that is more than 100 lives, so he directly took the rope next to him and tied it around his waist. The captain didn't know what happened, and He Chenguang kicked him off the next second. , the two cooperated very well.

Fan Tianlei was slightly surprised when he saw this scene. Why did he always feel a little too familiar? Then he remembered, isn't this just Qin Yuan's way of doing things?

What kind of person can bring out what kind of soldiers, the captain was thrown into the sea before he could speak, just after drinking two mouthfuls of seawater, He Chenguang lifted him up again, and then kicked him down again.

The captain couldn't bear this kind of back and forth, he didn't expect these people's style of doing things to be so barbaric, which was completely different from the Yan people he had seen before.

As for those crew members, before He Chenguang could do anything to them, they immediately explained.

"Brother, we really don't know. We are just some smuggled goods. Take whatever you want, it's really none of our business."

"That's right, the few of us just eat and drink, and working on this ship really has nothing to do with us."

smuggling? Long Xiaoyun asked He Chenguang to lift the captain up. At this time, the guy had drunk a lot of sea water and was coughing violently on the deck.

"Tell me, what is going on here? Otherwise, I have 100 ways to make you speak."

The captain saw that the woman in front of him was really not easy to mess with, especially with these few standing beside him, who could attack him without saying a word, and he could only explain it clearly.

They were indeed engaged in smuggling, from a small country nearby. Originally, they could not make much money by taking risks. They did not expect to encounter pirates on the way, so they had nothing.

I thought it must be over. After all, if these pirates didn't grab the money, they would take people back and ask their families to send money.

When they were there for a while, these pirates actually started a business with them, asked them to promote it, and brought these barrels of oil back first.

This is really a rare good thing, they have never seen such pirates, not only did not rob them, but also did business with them.

The captain couldn't care less now, so he could only give the money in a hurry, and then returned with three barrels of oil. The pirates didn't chase them halfway, so he was relieved, after all, there are many black and white things.

But the pirates have a request, but when they bring the oil back, they must make a publicity to let other people go there to buy oil. The price of their batch of oil is very low.

The captain didn't pay attention to it at the time, and pulled the oil back directly. Later, he met Long Xiaoyun and the others on the way.

The captain is now spitting water, and he doesn't look like a liar anymore, and he probably has explained everything.

Long Xiaoyun stepped forward and looked at him coldly, and asked him to lead the way, now to the island with pirates, the captain in front of him was stunned, there were more than two hundred pirates at least.

"You guys are not kidding. If you want to kill me now, just say that there is no need to get me to that kind of place. There are a lot of pirates, and even the sea view can't do anything to them. What's the use of you?"

The captain simply smashed the tank, and he would die sooner or later, and even took him to the pirate's lair. Those pirates were very cruel.

Long Xiaoyun told him not to worry about these things. He was now responsible for leading the way, and then she quickly contacted Qin Yuan. There was a lot of wind and waves on Qin Yuan's side, and the signal was not very good all the time, but some voices could be vaguely heard from it.

After receiving the position sent by Long Xiaoyun, Qin Yuan quickly rushed to the other side, and at this time several people also began to analyze the current situation.

The reason why this pirate started a business and sold the oil at such a low price is that it shows a problem. They also discovered the serial number on this batch of oil.

They dare not sell at will, and they are also notorious. They are all wanted in this area, and they dare not go ashore easily, so they adopt this method.

The captain also noticed the code on the oil barrel at this time, he sighed silently, and probably understood it.

"If I knew this was the result, I would definitely not have bought these things. Why did I forget to check the serial number?"

Long Xiaoyun had a cold expression on his face, "Oh, what are you particular about? Is there anything else besides this number?"

"There must be. When you see Yan Kingdom, everyone walks around. You must know that your commandos are not joking. They can really reach people's lairs."

Not to mention these serial numbers, this kind of serial number is unique to their Yan country and cannot be destroyed at all, and this is also a tank specially used to store oil, and the pirates can't open it at all, so they can only sell it like this.

The captain kept sighing beside him, feeling that he was really unlucky this day, not to mention that his money was cheated, and now he had to go back to the pirate's lair again.

Qin Yuan's speed is still relatively fast, and he successfully rendezvoused with them an hour later. Qin Yuan was completely soaked, and he jumped onto the deck easily. The boss of the ship next to him was even more surprised when he saw it. here?

Long Xiaoyun handed him a towel, and then told the specific things, he also knelt down and looked at the batch of oil.

Although Qin Yuan didn't gain much there, it was also good news. At least he didn't see any corpses in this area, indicating that the crew members should still be alive.

Just as Qin Yuan and the others set off, on the small island over there, a few pirates in camouflage uniforms were chatting and laughing.

"Hahaha, we must have made it this time. As long as we sell all these things in the next few days, we will have no worries about food and drink for the next year."

A bearded pirate next to him took a sip of wine, "But the boss only left a few of us here, is there any problem?"

"What's the problem? After all the goods are sold, it's time for to be destroyed. There's nothing left after a fire."

These few people talked very easily, and at this time the cargo ship was parked quietly beside it. There were many crew members lying on the deck, their hands were tied, and there were a few pirates guarding the side.

The watchman looked at the pirates below who were warming up, "Hey, let's change, it's too **** cold now, let's go down and warm up, you guys come up and watch."

"All of us are here. If there is anything we can do to make sure they can do it well, and we have guns in our hands, we won't dare to run away even if we give them 100 guts."

The guarded pirates heard the same truth here, and they all jumped off the boat to warm up over there. After all, today's weather is really bad, and the sea breeze is swaying back and forth, so they can't bear it.

At this time, in the crowd, an old man with gray hair looked at the young man in front of him with tears in his eyes, "Xiao Liu, you must persevere, the higher-ups will definitely send someone to rescue us, you must hold on!" what."

"Ahem...Master, I feel that I may not be able to hold on anymore. I understand my body myself."

Chapter 1768: find the pirates

After the young man coughed violently, he coughed up some black blood, and then his whole body began to tremble. The old man with his hands tied was very anxious. He couldn't watch his apprentice die in front of his eyes, so he struggled to the side.

"Hey! Hurry up and take a look, help, someone here has a problem, please save him quickly."

At this time, the crew members who were tied together felt a little helpless. They shook their heads and asked the old man to stop shouting.

"Uncle Chen, stop yelling. Those people don't care about us at all. Think about it, Lao Zhang and the others were all killed there. If you yell like that, it will anger them instead."

"But I can't just watch Xiao Liu die here. There is still a three-month-old child in his family."

Just when he was about to continue shouting down, a tall man stood up in the crowd. Old Chen thought the man was here to help him, but he didn't expect the man to knock Old Chen to the ground with his shoulder.

"That's enough, old man. We all want to live now. You don't want to make such a mess here. If you record them thoroughly, none of us will survive."

At this time, Xiao Liu, who was lying on the ground, was coughing violently. He shook his head desperately, telling Lao Chen to leave him alone. The situation on the deck was chaotic. At this time, one can see what kind of heart is.

But everyone is also talking about their own interests in this way, and they must think of themselves first. After a while, the guys below had enough food and drink, and then climbed onto the deck.

They looked around at the people on the deck and found that Xiao Liu was dying. After all, he was very weak and was still coughing non-stop.

A pirate in front covered his mouth and nose in disgust, stepped forward and kicked Xiao Liu.

"Damn, this guy won't have some infectious disease, don't pass it on to us then."

"It's too simple, why don't you just throw it away?"

After discussing with each other, the pirates walked to the side and untied the ropes of the two people in front, "Hey! You two go over and throw him into the sea."

Both of them were very surprised. Anyway, they were also former colleagues, so they were thrown directly into the sea like this. Now that the waves are so big and his body is so weak, he will definitely not be able to survive if he is thrown.

Just as the two were having sex, the pirate next to them stepped forward and punched and kicked the two. The two were not opponents at all, and they were instantly beaten to the ground.

"Hurry up, I'm an order now, you quickly throw him into the sea for me."

The two were beaten up and could only stand up with their waists supported. When they were struggling, a pirate suddenly became interested.

"Wait a minute, I suddenly thought of a fun one."

After the pirate finished speaking, he took out a piece of bread from the box at the back, "This piece of bread will be given to whoever throws him into the sea, but first come, first served, I don't care about the latter."

When this guy said this, he had a taste of sowing discord. He deliberately said this, and then caused everyone's conflicts.

They hadn't eaten anything for two days and two nights since they were caught, and now seeing this piece of bread, everyone was a little bit moved.

But the people on the ground are their colleagues. Those who worked together before threw people into the sea. Some people really can't do it. Some people are struggling, but some people have already started fighting. Everyone wants that piece. bread.

Looking at the chaotic scene on the deck, a few pirates stood by and laughed. They held guns in their hands. If there was anything wrong, they would shoot directly, completely playing these people as monkeys.

At this time, Xiao Liu's cough became more and more intense. He knew that he could not hold on anymore, so he got up with difficulty, and then grabbed Lao Chen.

"Uncle Chen, I know you are very kind to me. Don't worry about that now. Hurry... Hurry up and throw me down. That piece of bread is yours. You must live a good life."

Seeing Zhan Liu's pale face, Lao Chen burst into tears instantly, how could he do such a thing? He held Xiao Liu's hand tightly.

"Don't worry, I will definitely take you back. If you persist, I believe someone will come to rescue us."

"Uncle Chen, don't be so naive. Think about it, is it possible? It's been so long, we were brought here and there, and some people died in the process, let alone us."

It was already very difficult for Xiao Liu to finish these words, he shook his head, and just when he was about to give up, the fight next to him also ended.

It was the man who stood up against Lao Chen before. The man was very tall, and he was also outstanding among these crew members, so he was also very capable, and he quickly beat up the people around him.

The pirates laughed out loud, thinking that they had watched a very exciting competition, and then threw the piece of bread on the deck like teasing a dog.

"Go, the food is yours, throw him into the sea after eating and dispose of it properly."

These people don't care about human life at all. In their eyes, it's all for fun. At this time, the tall man didn't care about his dignity. He ran to the opposite side, grabbed the bread on the ground, and ate it voraciously. , the people next to him looked at him hungrily.

At this time, it was nothing, that is, this thing could keep them alive and make him starve again. Although it would not be enough to eat, at least it would give him something to eat.

When several pirates were giggling, suddenly a pirate on the side noticed a ship coming from the opposite side, "Hahaha, our business is coming, let the brothers on the island tell them to gather."

The large force of these pirates is not here, they just brought the goods and the crew to this place, and took the other half of the goods to other small islands for sale. They want to sell all the goods in a short time sell away.

From far away, Qin Yuan and the others saw the cargo ship they were looking for, because this ship was very huge, but the situation on board was still unclear, and the distance was relatively far away now.

"Brother Qin, what kind of heart do you think those guys have? Are these ordinary pirates so courageous? They dare to demonstrate against us so blatantly."

"That can only explain one problem. The weapons in their hands are very strong, otherwise they would not dare to say that. In addition, these pirates said they were doing it intentionally, but they were actually very afraid. They wanted to sell this batch of crude oil quickly."

Qin Yuan asked everyone to get ready, everyone squeezed their guns tightly, everyone didn't know if they would see other corpses, after all, they did see that scene at the sea stall before.

After they approached, they realized that the reason why these pirates were so confident was that, first of all, besides setting up a few shots on the small island, there were also howitzers and Chinese medicine on the side, and a small anti-aircraft gun, which surprised Qin. Yuan didn't expect it.

Li Erniu looked at the side and complained silently, "Am I so crazy to be some guy? The main reason is how did they get the anti-aircraft gun? That thing is only available in the army."

"Are you stupid, boy? Think about it. Warships from several countries will also parade here. If they want to ***** it, it is very easy. Sometimes warships are not necessarily safe."

So this is the confidence of those pirates, or if they have money, they can buy anything. In this case, they have no fear at all, and the few people in front are even more arrogant.

Shouted at them, let them get closer, not in that position, just when Qingyuan just jumped onto the beach, the pirates in front sensed an unusual aura, because the person in front of him seemed to be from Yan Kingdom.

Just when he and the people behind were about to report the situation, Qin Yuan's throwing knife had already been dispatched and shot through his throat on the spot, and several people on the side were also killed on the spot.

He Chenguang dealt with it directly on the deck. The man carrying the howitzer and Li Erniu dealt with the heavy machine gun. Their cooperation was very tacit.

These pirates hadn't realized what was happening, they had already been defeated in front of them, so they could only throw down their weapons and try to find a way to escape from behind, but how could Qin Yuan miss this opportunity? In just ten minutes, all the pirates on the entire island were captured.

This operation stunned the captain who was leading the way before. He didn't expect the speed of the other party to be so fast. Various possibilities had been crossed in his mind before, and he was always worried that he would get into some trouble. But it doesn't look like it will.

Their speed was too fast for the pirates to react. There were only more than 30 pirates on the island, so they were not many, not their large force.

These pirates were originally some buttons from before, and they didn't have much ability, so they were forced to ask a few words by Qin Yuan, and they explained everything in detail, and informed them of the specific island location of the large army.

The pirate who had finished explaining knelt on the ground and kowtowed non-stop, "Brother, I have already explained everything, please let me go, I don't know anything else."

The pirates next to them also knelt down in fright, but Qin Yuan didn't show mercy at all, and shot them directly, he wanted to let these pirates know that no one should move.

At this time, Qin Yuan turned his head and looked at the frightened captain beside him. This guy is a smuggler, and nothing else matters.

The captain's face was pale, he didn't know what would happen in the next second, but Qin Yuan just asked, "Apart from these pirates, is there any pirates in this area, as long as they are on this navigation route, I need to know."

This captain has been smuggling for so many years, and of course he knows where there is danger, so he told the range of pirate activities he knows.

He didn't know what Qin Yuan was going to do, he just prayed silently in his heart, hoping that Qin Yuan would not notice him.

At this time, Long Xiaoyun and the others had already arrived on the cargo ship, and the crew on it were very excited to see them. Everyone knew that the country had sent someone to rescue them.

Lao Chen hugged Xiao Liu very excitedly, "Help! Come and save him, is there a doctor!"

Long Xiaoyun and the others hurried forward to deal with the injured and the sick first, and then others began to register the specific number of people.

After a while, Qin Yuan came up. Their registration work was not over yet, and they had to check the number of people and the safety of that batch of goods.

"You are here to register and ensure their safety. Now I'm going to find those pirates, as well as the pirates around here. I will let them know who they shouldn't mess with and what they can't move."

Listening to Qin Yuan's tone, Long Xiaoyun nodded. He looked at the corpses of those pirates. These **** really messed with the wrong person. This guy was really angry this time.

After Qin Yuan glanced around and saw that there was nothing wrong, he was about to leave. Suddenly he thought of something, and went to Long Xiaoyun to explain it.

"There are too many people. You may have to worry about it. Too many people are the most prone to chaos. You should pay more attention to yourself."

Long Xiaoyun nodded, and Qin Yuan led the red blood cell team to drive the cargo ship to the address given by the pirates. The captain I was leading them just now was stunned and at a loss. It took a long time before he mustered up his courage. stepped forward.

"Excuse me, can we leave now?"

"Leave the goods and you can go."

Hearing this, the captain was even more excited and almost shed tears. You must know that this is really a narrow escape, how can you manage so much, and hurriedly greeted the people of Chuanshang to take down that batch of oil. He really regrets it now Yes, I knew I wouldn't move these things.

Just now Qin Yuan's aura really frightened him. That person said that he would make those pirates pay the price, but is it really okay for him to bring these few people with him?

On the other side, the pirates on the main island were eating and drinking, and they didn't realize the danger was coming.

The pirate leader is a blond man in his 30s. This guy is very afraid of death. Even when he is drinking and eating, he is still wearing a bulletproof vest.

The men next to him just came to report that they heard gunshots, and wondered if there was something wrong with the island.

But the pirate leader didn't think there was any problem, "You just heard the gunshots, but you didn't hear the gunfire. They have guns in their hands. Even if there is any problem, as long as there is a gunshot over there, we will know what happened." Something happened."

"Brother, that's why you left that heavy weapon over there. That's right, why didn't I think of that? It's true that I didn't hear too much gunfire."

"So, you are still too young to relax. With our heavy weapons, whoever dares to provoke us, follow me and I will definitely make you eat and drink."

This guy is very rampant, not to mention that he is from the Yan Kingdom, he killed all the Americans before, it doesn't matter at all, anyway, killing one is also a wanted list, and now he has always been on the wanted list, and he has never seen anyone come to catch him , so it doesn't matter.

It's just that he still did a good job of preventing him, just like wearing a bulletproof vest now, and there are a few younger brothers around him all the time.

They brought almost half of the crude oil over now, and now they can only sell it separately. He knows that this batch of crude oil has a serial number on it, so he dare not keep more.

Chapter 1769: Speech at Versailles

He had indeed heard about the situation of some Yan people before. Once they found them, especially the people who moved them, the consequences would be disastrous, but the pirate leader didn't care.

Especially after he directly robbed a warship some time ago, it was really unlucky to say that the warship was only performing daily maintenance tasks.

So there were not so many people in the first place, so let this guy run into a dead mouse and take advantage of it. In this way, since he grabbed the cannon, he has been very arrogant.

He feels that he has the confidence to go anywhere. Although there are not many shells, this shell is much easier. He can buy it from the underground black market, as long as he has money.

The more important thing is that since he robbed the warship, no one from the military has troubled him. After all, there are some small jobs around, and they don't have that much energy. They can't find it in this sea. to any trace.

The pirate leader became more and more arrogant. After getting those weapons, he felt that he was basically invincible, and this time he simply robbed Yan Kingdom's cargo ship.

At this time, the pirates were drinking and eating meat on the island, but seven or eight pirates on the other side were quietly lowering their boats towards the other side of the island.

These pirates all looked a little old, and a bearded man on the left was on guard, and kept urging them.

"You better hurry up, the gunshot you heard earlier was the signal."

"Barton, is what you said true? Will it really happen?"

"Nonsense, I have been a pirate for so many years, and I haven't stayed in this place for the longest time. Do you know what the fate of offending strict people is? They will never stop dying and kill all the pirates!"

Among these pirates, the youngest one has never experienced this, he felt a little strange, can it really be done? After all, it is very difficult to find them in this vast sea.

"I'm worried that if that's not the case, when the boss finds out that we have escaped privately, he will definitely not let us go. There is no way we can go anywhere."

"Hehe, if you don't listen to persuasion, then you don't have to go with us. This is your own choice, but don't delay our escape now."

Barton stepped forward and pushed him away, and then helped to put the bed together, and then several people jumped onto the boat along the rope, while the young man on top was still struggling, he didn't know what to choose.

After hesitating again and again, he still shook his head. Just as he was about to turn around and leave, the old man on the boat suddenly pointed his gun at him.

"Wait a minute, where are you going? Are you going to report on us? I'll tell you what a good idea!"

"You misunderstood me. I just don't want to take such a risk. I still plan to stay on the island. I don't think this matter is very reliable."

The young man repeatedly emphasized that he would never rely on secrets, and promised not to mention any situation and let them go as they please, but the old man on board did not believe it.

"Now you have only two choices, either you will be beaten to death by me, or you will leave with us now."

When the young man was struggling, he suddenly thought of a problem. He concluded that these guys didn't dare to shoot at all. If they did, they would be completely exposed.

"Then it's up to you. I told you that you shot me to death, but at the same time it also exposed that even if you were not found by those Yan people you said, you would definitely be found and killed by the boss first."

Barton frowned when he heard this, and could only hold down the old man who was about to shoot, telling him not to mess around, and let's go now.

"You have to remember that we usually treat you very well. If we go our way, you will act as if you don't know anything. Otherwise, if something goes wrong, I will never let you go."

The young man nodded, then cut off the grandson for them, and then threw Duan into the sea, watching their boat slowly getting farther and farther away.

He looked around and it was very peaceful. How could anyone from Yan Kingdom come to make trouble?

After all, under such circumstances, even if they escape to other small islands by chance, they will definitely be found by the leader. Now the leader is very cruel, and he will never allow betrayal.

After more than half an hour like this, the pirate who was on duty on the beach in front ran in to report.

"Brother, we found a fishing boat, what should we do now?"

"What else can I do? That's the door-to-door business. Let them come here to buy oil, and then inform the other three passing teams that we sell oil here at a low price, understand?"

The pirate nodded and ran out quickly, standing on the beach and waving the flag at the opposite ship. They didn't know that the person opposite was Qin Yuan and the others.

Qin Yuan told everyone to get ready, don't talk too much when they land on the shore later, now that there are no hostages left, just don't keep any hostages.

"Brother Qin, don't worry, I can't control it anymore. It seems that we haven't been dispatched for a long time. These guys have forgotten our strength."

"Pay attention to me. The one who kills the fewest pirates today will have to treat guests to hot pot. After returning, treat everyone to eat for three days."

Li Erniu patted Qin Zhengyang's shoulder, "Shenyang, it seems that it should be you, this time you can order the hot pot, I want to eat beef hot pot."

"Hey, Erniu brother, I used to be the tail of the crane in our team, but this time it may not be so. Don't fight with me later. I'm young, you have to let me go."

"You child, you should let us. We are getting older. Let us come. You should stay behind."

Fan Tianlei next to him was driving the cargo ship, listening to their heated discussion on the deck, he also had black lines on his face, what's going on? Killing pirates is so easy to say, and done like a family.

They also came first, first served, for fear that he would not be able to kill the same one. This was indeed different from what he had imagined. The cargo ship on this side had just stopped, and Li Erniu shot while standing on the deck.

He Chenguang cursed at the same time, "You brat is too disrespectful of martial arts, you are the first to shoot before the boat stops."

"Brothers, I'm sorry, you have to understand, I'm a family man, all my money will be left to my wife, I have to go first, whoever loses will be treated."

He Chenguang was not to be outdone, and hurried to catch up. At this time, the pirates on the beach were in a mess. They were caught off guard, and they didn't know that the opponent's firepower was so fierce, so they came directly at them.

And the pirate leader inside also ran out quickly after hearing the gunshots and directed everyone to fight back quickly. Now he has no heavy weapons on his side and can only rely on himself.

He picked up the phone to contact the pirate over there, but he couldn't get through, so he cursed secretly.

"They're all a bunch of trash. What's going on? Can't you hear gunshots from our side?"

Qin Yuan's speed was very fast, and they completely occupied half of the island in a blink of an eye. Fan Tianlei was half a beat slower because he had to stop the boat. When he jumped off, he only saw the corpses of the pirates on the beach.

To be honest, he was really surprised. This is too exaggerated. If they do it like this, they will have no chance at all.

The red blood cell team is really strong, especially in this situation, he can only silently give a thumbs up to express his admiration, and everyone is attacking these pirates with precision, without any words at all.

The young pirate who hadn't escaped with him just now was completely stunned when he saw this scene. His companions fell one after another. He hurried to the edge of the cliff, but now there was nothing left.

There was despair in his eyes, he had followed them before he knew it, their strength was not directly proportional to those soldiers of the Yan Kingdom.

He was completely captured in a blink of an eye, and the young pirate was shot in the head while hesitating and fell into despair.

It only took them 27 minutes to capture the pirates here, but Qin Yuan was very dissatisfied with this time, he walked over and kicked the pirate leader who had been beaten into a sieve.

What's the use of wearing body armor? Shooting at such a close range, he didn't even have time to escape, and it was really naive to think of using this ordinary body armor as a defense here.

"The time you have spent is too long. I really didn't do much this time."

"Brother Qin, the main reason is that this end is too big. If these pirates don't fight us head-on, we have to go find them one by one. It's really too troublesome. If they dare to charge, we can settle the battle earlier."

"I don't care. After I go back, I will write a review for this battle. The efficiency is too slow. In the future, the time for such small battles will be controlled within 20 minutes."

"yes!"

In the back, Fan Tianlei was stunned. Is this Versailles or something? They wiped out all these pirates in 27 minutes. They think they still have a long time?

The main thing is that none of them were injured, except that Wang Yanbing accidentally sprained his foot when he was sprinting to catch the pirates.

He sat on the side resting and looked at Qin Yuan with a smile on his face, "Brother Qin, just now you said that you didn't contribute much this time, which means that you were the one who killed the least number this time, so you have to treat us to hot pot when you go back ."

The others also reacted and called Qin Yuan to treat them to hot pot.

"You **** really caught my sheep and plucked its wool to death. I paid for all the expenses you went out to play before."

At this time, Qin Yuan turned his target to Fan Tianlei who was standing behind him. He was a little at a loss with the gun in his hand, and finally he could only say something in embarrassment.

"Okay, then I'll treat you, that's all right, you can eat whatever you want."

"Look, isn't the treat here just here? Let's go, let's go, let's move on to the next location."

Fan Tianlei was a little helpless, good guy, wouldn't co-authoring him become a driver? Now he is in charge of sailing the boat, leading Qin Yuan to clean up the pirates in this sea area.

From the moment of the gunshots here, the escaped pirates had already noticed it. They were also very scared, knowing what it meant, and managed to escape to a small island. Unexpectedly, they broke into the lair of other pirates.

A few people had just climbed onto the beach when more than a dozen people pointed their guns at them. Barton quickly raised his hand to show that he was not malicious.

"Hey, it's really interesting. It's the first time I saw someone deliver it to my door. Do you know where we are?"

Barton glanced at the speaker, quickly explained, and revealed their identities. Unexpectedly, the person on the other side burst out laughing after hearing it.

"It turns out that you guys are just a group of deserters. I thought they were some powerful characters. Seeing this, I might as well solve you for your boss."

Seeing that something was wrong, Barton quickly raised his hand to show that he still had a box of gold bars in his possession, and he was willing to bring out the gold bars if it could save his life.

Sure enough, when he said that, the people in front of him paused. After all, these people were relatively old, and they did have some wealth after working hard all their lives. How could they miss this opportunity to give money?

But Barton also said something at the same time, "But now I really advise you to leave quickly, there is no good end for offending the Yan people, so leave here quickly."

The pirate on the opposite side laughed even more after hearing this, and threw money directly at his feet to scare them.

"I didn't expect that other than deserters, they were also a group of cowards. It's really funny. Would I be afraid of them? Take me to find your gold bars immediately, then I can consider saving your lives."

Barton sighed helplessly. It seems that they made a mistake in judging the direction, which led to the transmission to other people's territory. Otherwise, according to his previous plan, they would definitely be able to log in to other borders, and then they would be able to leave.

The reason why he can understand so clearly is because he was in Somalia's generation before, and he has been in many pirate organizations.

In that situation, it was his luck that he escaped by chance. At that time, he also realized what a Yan country person is.

Especially the commando team at that time, which he only knew as the red blood cell team, could be said to be invincible. There was no opponent at all, and no one dared to go where they were.

Now being held to the head with a gun, there is no other way but to take these people to get gold bars first, but they don't have any gold bars at all, and they store everything outside the country.

He could only find a way to bring them there first, and then find a chance to escape later. The pirate leader on this island didn't take it seriously at all, and took seven or eight pirates to take Barton away.

As for the others, he stayed on the island. If there were no gold bars, he would just shoot and kill a few people.

However, just as Barton left, he heard several gunshots from behind. He knew that those people had been killed, and the few people who ran out with him still did not escape in the end.

This is life at sea. These pirates are very cruel. They don't care about this at all, especially those who defected like them will not be kept.

Chapter 1770: to protect the hostages

What Barton thinks of now is to protect himself. These people don't know who they have offended. They have almost been wiped out. That person's vengeance is very strong, and it will definitely affect everyone.

After thinking about it, he still made a decision and turned to look at the people behind him.

"Brother, do you believe me? I have been in this sea for more than 20 years. If you trust me, then I can consider saving your life."

The people next to him laughed out loud when they heard this, isn't this guy here to be funny? Also consider saving their lives.

"You old man don't say these things here, do you have any gold bars? In a word, hurry up and take us to get them, and maybe you can save your life after you get them."

"Let me tell you the truth, I do have gold bars, but at the same time I also want to tell you a situation, you will definitely not be able to go back there."

what! The person standing behind him stepped forward and grabbed his collar, because when he heard this, his first reaction was that this old guy was definitely cheating, and he must have deliberately lured them away, and then exposed the location of the island, so that His men attacked from behind.

"We haven't had any grievances over the years, and we haven't robbed you of anything. Why did you do this?"

Barton was very helpless, he sighed and looked at the person in front of him, "Why don't you believe what I said, you can think about it, if I really want to do that, is it necessary to leave? It is necessary for me to talk to you Say if there are gold bars."

But the person in front of him was very emotional. He felt that the old guy was lying, and planned to take him back to his boss to deal with, but a person behind him stopped him.

"Wait a minute, what this guy said may be true. I have heard of some experienced pirates before, and they all have their own judgment experience. It is better to listen to what he said first."

In this way, Barton breathed a sigh of relief. As long as the other party was willing to listen to him, he would have a chance. He had no time to tell what he had experienced and what had happened before. Now it was the turn of several people to be shocked.

There were some arrogant people just now, and their attitudes began to ease, "I heard what you said right, you mean that you also robbed warships and guns before!"

"Yes, in the face of this situation, they are powerless to fight back, because I know that person and that guy is a terrifying existence, and no one can hide from it at all."

Although a few people were curious, they still chose to believe him. Barton also told them that they could make a bet with him.

"You don't have to go back for the time being, we are nearby, if your side is indeed attacked, you can ask to see who it is, and whether I am lying."

The people who spoke just now were also hesitating. Barton knew that this was his chance, so he hurriedly explained a few more words, which completely shook them. After all, everyone just wanted to live.

More importantly, if this happens, Barton is an experienced brain pirate who is very familiar with the sea area, and he has other capital.

A chubby pirate next to him stepped forward and untied him himself, "We trust you once, but don't lie to us, or my gun will be faster than you."....

A few people still decided to take a gamble. After all, they did hear gunshots before, and it was true that this guy would not run out unless it was an extreme situation.

Just when a few people were about to go back, gunshots came from a distance, and the pirate who had loosened the board just now turned his head in surprise, and it was the direction of their island.

Barton is very confident now. He folded his arms and looked at the people in front of him, "How is it? Are you going back now? And I advise you to go ashore with me, don't stay in these places, and go out from the border quickly. That guy is a lunatic."

Now that everyone is sure what Barton said is true, they can only follow what he said and drive the boat to die in the distance, while Qin Yuan here is killing a lot on the island.

Anyway, it's doing harm for the people. If you don't teach these pirates a lesson, the ships around will be robbed by them, so they dare not leave here.

The pirate watched his men fall one by one. He had no choice but to surrender, but even if he surrendered, the people around him were not spared. Qin Yuan stepped forward and kicked him in the chest.

This guy was trembling with fright, and quickly lay on the ground begging for mercy, "Brother, I really haven't touched your people, I saw your people coming over and watched from a distance, I really never moved."

"Hehe, do you think it's okay to not move? You already have that kind of thinking, so I have to do a good job of eliminating harm for the people."

The pirate leader's eyes widened and he fell into a pool of blood. Although this scene looked very cruel and bloody, these pirates killed people without blinking an eye. Although the merchants who passed by were not from the Yan Kingdom, they also killed a lot of them. people.

Moreover, Qin Yuan also knew very well that these pirates could never be killed, and they would intercept another batch of pirates just after they dealt with them.

In addition, they were also registering at Long Xiaoyun's side, and there were gunshots everywhere. The gunshots lasted all night, and everyone on the deck was very scared. They didn't understand why they didn't leave.

After all, they didn't know what they were doing. Long Xiaoyun was taking a rest when a team member walked in.

"Captain Dragon, those people outside are clamoring for us to sail back now, what do you think about this matter?"

Long Xiaoyun knew that these people outside could no longer control them, otherwise she would not have come in to report herself, so she stood up and walked out, looking at the people who were chattering and discussing non-stop.

Now at least they are guaranteed food, and they have been allowed to return to their respective residences. This should be no problem. He is following the rules.

"I know you all want to go home, but we still have one thing to solve. When our team members come back, then we will go straight away."

At this time, the tall man who grabbed the bread stood up, "Hehe, what you said sounds good. I said that women are unreliable. I don't know why I hired a woman to manage us. Now I want to go home." .”

The team members next to him were shocked when they heard this. This kid was afraid that he would die, so he dared to directly challenge Long Xiaoyun.

"I'll go, it looks like we're going to see a good show, how long do you think the dragon team will get angry?"...

"It can only be said that this kid's life is too big. Think about it. Before, Team Qin, Team Qin and Team Dragon were all tied."

"I said you guys really can't see the essence, why do you think that Team Qin would say that he didn't let his own people?"

A few people were teasing, but the teasing was just teasing. They recognized Long Xiaoyun's strength very much, and no one dared to speak. This tall man was indeed constantly provoking Long Xiaoyun, who originally didn't want to talk to him.

But what this guy said was getting worse and worse, all of which were looking down on women.

"It seems that you have come to save you from me, and you still have such a big prejudice against your savior. Do you think you are very capable?"

"Hehe, if it wasn't for those **** with guns, who would be my opponent if we really wanted to fight?"

To be honest, this kind of person is an afterthought. At the beginning, he asked others to rescue him, but after he was rescued, he looked different.

Long Xiaoyun didn't get used to him and walked down directly, pointing at him to signal to come to the deck.

"If you are really so good, then fight me, I think you are really unconvinced."

Unexpectedly, the tall man burst out laughing. "Do you think I can fight you if you say this? Who doesn't know what kind of routine you guys are doing. You just charge me with a crime and lock me up. Don't worry, I won't beat women. I look down on you." ."

"This time I am the vice-captain of the commando. As the vice-captain of the team, I am very responsible to tell you that I will not take any revenge, but the premise is that you can fight well, otherwise everyone will watch joke."

Sure enough, the tall man couldn't stand such a blow. He felt that Long Xiaoyun just looked down on him, so he jumped off.

"Then let me say yes first,

What would you say if you were knocked down by me? Set sail immediately. "

"Okay, no problem, but if you get knocked down, just obey me and go back to your room."

The man gritted his teeth, he felt that there was nothing wrong with him now, wasn't he just a girl? In his view, women are useless.

For the sake of fairness, Long Xiaoyun also said that she could only use one hand, which angered the man even more, and the tall man rushed up quickly.

Several team members took out the beef jerky on their bodies, "Hurry up and place your bets, who do you think will win?"

"Isn't this nonsense? It must be the dragon team."

"You didn't understand what I said, I said how many moves can this guy resist?"

The person next to him analyzed for a while, looked at the strong muscles on the man's body, and thought that he should be able to hold on to four or five moves. However, before the bets were finished on this side, the man on the other side had already fallen to the ground.

The tall man didn't expect it to be so fast, he didn't have time to react, he felt his whole body flying up, Long Xiaoyun's speed was very fast, and his strength was very strong, just one punch hit him directly on the shoulder, he didn't. Any defenses were completely defeated just like that.

The people around were shocked, they didn't expect this female soldier to be so powerful, the tall man felt so ashamed, he gritted his teeth and stood up, his right shoulder was trembling all the time.
....

He rushed up again, this time he decided to use his legs not to be soft, but Long Xiaoyun bent down slightly, and then kicked him in the abdomen.

And it can be seen that Long Xiaoyun has been stopping, the man has no room to fight back, every time he hits him with one move.

"Okay, you don't have to get up anymore, if you hit me again, you will lose. With this ability, go home and find your mother."

The other team members laughed loudly. The man wanted to stand up this time, but he felt a sharp pain in his abdomen. He struggled for a long time before he managed to stand up.

Just when Long Xiaoyun turned around, this guy started a sneak attack, but she didn't care, she dodged sideways, and then grabbed the man's shoulder, and the man was completely thrown on the deck. This time, he stood still after a long time. Can't get up.

The other crew members who were rescued had long been disgusted with this guy's style of work, and all laughed loudly, finally someone could deal with him.

At this time, there was light in the distance, and only the lovers were seen. They came back in the boat, and Fan Tianlei became a boat driver the whole time.

It can be said that this area is relatively calm now, and the pirates have almost been dealt with. There will be reports in a few days, and it can be regarded as a shock to everyone, so that they will go around when they see Yan Guo's ships in the future.

As soon as Qin Yuan and the others got on the deck, they saw several people gathered together, and a man fell to the ground.

"Huh? What's going on here?"

"Hahaha, brother Qin, you didn't see it just now, that guy of yours dared to provoke the dragon team, and even looked down on women."

Before Qin Yuan could speak, the man just now was supported by several people and walked over. His brother stared at Long Xiaoyun fiercely, but he didn't dare to get angry at him. Looking at Qin Yuan's identity, he felt that he should be the captain here, with command authority.

"Is this the team you came to save our civilians? Since it is too much to take action against us civilians, as a captain, you should also take some responsibility."

Qin Yuan smiled slightly, he was indeed responsible, the flag raiser grabbed the man and dragged him into the inner room.

He has a lot of ways to deal with this kind of stubborn guy. After a while, there was a scream in the room, and after a while, it was completely quiet. He came out and watched everyone explain.

"Okay, don't gather here, he is already resting, everyone else should go back to the room, back to the room, we will start now."

Others don't care about that guy's life or death, after all, that guy's popularity is not very good, and he is used to being arrogant before.

Everyone is cheering, can finally go back, this time they can be said to have experienced too much, they are really on the verge of life and death.

But Qin Yuan and the others were considered successful in solving the problem.

They rescued them, and successfully wiped out a wave of pirates. Just three days after they left, Qin Yuan's reputation had spread, and the Yan Kingdom actually started a large-scale suppression in this area.

The phone calls at the Ministry of Foreign Affairs were about to explode. They reprimanded Yan Guo for sending troops directly to their territory.

The person in charge of the Ministry of Foreign Affairs told them very seriously that no troops were sent, just two special operations teams, not many people.

Moreover, they went to settle the hostages by the way. It was only because the pirates did not release the hostages that the conflict occurred between the two sides, and then they were wiped out directly. Everything was for the safety of the hostages.

This is something that no one on the other side can refute, and according to their sea records, they did not send any large-scale troops, but those pirates were indeed completely wiped out. .
