

## Special Soldier 1781

Chapter 1781: Into the depths of the desert

It does take time to cook this delicacy. Half an hour later, the aroma has completely diffused in the entire camp.

Sun Hongming ate the most delicious food. He had already eaten three bowls in a row. At this moment, Liu Yongtao, who was watching the excitement of everyone eating, also came out, with gauze wrapped around his hands.

Li Tianbo looked down on Liu Yongtao the most. This guy had a terrible speech before, but now he got a little injury. It's a shame that he even bandaged it up.

The main reason is that this food is really delicious, and he wanted to control it at first, but it was too lively to eat with the people outside, so he could only walk out of the tent, and he was a little embarrassed at this time.

Qin Yuan didn't bother with him too much, he stepped forward and picked up a bowl and offered him a bowl of chicken. "Okay, don't make it so serious. What we pay attention to when we come here is to be casual. After you come out, everyone will be comrades in arms. Let's eat."

Having said that, Liu Yongtao thought he should shirk it just now, but seeing the steaming meat in his eyes, he couldn't bear it anymore, picked up the bowl and started to eat it. Unexpectedly, it was really delicious, and it really lived up to its reputation.

The two cooks next to him felt that Qin Yuan's cooking skills were too high, and they asked him about the secret, "Captain Qin, to be honest, your cooking skills are much higher than our squad leader's. Curious how you do it, especially the grilled chicken is charred on the outside and tender on the inside, and is full of juice."

Li Tianbo and the others next to him laughed when they heard it, and said that so far they have not seen anyone who cooks better than Qin Yuan, anyway, they don't know why, the food he cooks will be better than others for a small barbecue .

"There is no secret to this, just do it with your heart. I know that my brothers like to eat, so I slowly learned how to do it."

The atmosphere has indeed been completely relieved, and it is no longer as stiff as it was during the day, and everyone is completely mingled with each other. After all, they still need to deal with each other later, because there is still an exercise that has not yet been completed.

Sun Hongming took a sip of the chicken soup and shouted comfortably, "By the way, Captain Qin, my exercise may be more difficult this time. We are going to find an abandoned factory to conduct the experiment. This time the main experiment is also the equipment we developed. "

Hearing this, Qin Yuan frowned slightly, not because he didn't believe Sun Hongming, but because today's incident made him feel somewhat unreliable.

"Director Sun, don't blame me for speaking badly. It's fine the last two times, but the next one is about harmony. After all, if you really don't take precautions, it will affect your whole life. I These brothers are all young and earning special forces."

Although Qin Yuan didn't say anything about the specific equipment, everyone could hear it. Director Sun patted his chest and assured that all the equipment this time was jointly provided by the research institute, so there would be no mistakes.

"Don't worry about this matter. We have tried wearing it before, but it was only on animals, but this time you need to stay in the joint factory area for two hours to complete the blasting, demining and final clearance work together. "

"Okay, since you said that, then I can rest assured, otherwise it will not be good for anyone if you really tear your face later."

After saying this, Liu Yongtao lowered his head more and more. He knew that everyone was talking about today's affairs. At this time, everyone had finished eating and was going to go back to the tent to rest and set off the next morning.

Sun Hongming and the others are going to make new preparations, and it will take about three or four days. Qin Yuan and his tent are not far away. Because of the problem of mosquitoes, everyone is almost concentrated in one place, and the surrounding area is lit with daylight. herbs.

Just as Sun Hongming entered the tent, when he spread his sleeping bag and was about to rest, he suddenly noticed a person behind him. Because the light inside the tent was not good, he was startled when he turned his head.

"I said Liu Yongtao, what are you doing? Standing silently at night, standing behind me, I'm really going to be scared to death by you."

But Liu Yongtao didn't say anything, just lowered his head, "Director Sun, I hope you will give me another chance. This time it is indeed my problem, but I want to help with you. After all, I don't know the venue. Professional researchers, no problem."

"It turns out that this is the matter. That's no problem. Since you are willing to help, we definitely welcome it. Regarding the data, we really need you to assist in the preparation."

Hearing that Sun Hongming agreed and Liu Yongtao nodded, he went out, but at this time, Sun Hongming felt a little strange, after all, he was the one who shouted that he was leaving before, but now he wanted to stay and help again. What a strange person.

However, after a day of work, he was indeed rather tired. He didn't think so much and fell asleep after laying out the sleeping bag, and at this time Liu Yongtao came out.

Several of their researchers were all sleeping in one place, including the research team from the main team. It was a big tent with eight people living in it.

Just when he was about to go in, he heard the researchers inside chatting.

"Hahaha, have you seen that guy's expression today is really funny, and it's really funny to use amateur things to pretend to be professional."

"Who said it wasn't? Thanks to Captain Qin's good care, otherwise he would go directly to the research institute, and his doctoral title might not be able to keep. I think that's the case, so he still has the nerve to stay in our research institute?"

"I think he came through the back door. This guy was very arrogant when he came here. I thought his research was so powerful, and you don't know how much money he spent on this batch of research."

Several people were very curious when they heard this, so how much money did he use? Just when they wanted to study in depth, Liu Yongtao walked in directly.

There were a few people who talked to them just now, but they shut their mouths instantly. After all, it is not easy to say more in front of the person concerned, but Liu Yongtao pretended not to hear, and silently entered his sleeping bag.

The people behind pointed at him quietly, then waved their hands, and several people looked at him, and then turned to sleep, but at this time Liu Yongtao showed a fierce expression.

Because in his opinion, all of this was caused by Qin Yuan. If it wasn't for him, it wouldn't be like this. It was him who made him lose face in front of everyone.

There was no sense of face at all, anyway, he felt that Qin Yuan couldn't be so straightforward, he was also a doctoral student after all.

This guy is a typical kind and revenge. If Qin Yuan really cares about this matter, he will immediately report this matter to the research institute above. Whether he can stay in the research institute is a matter.

Because if it wasn't for Qin Yuan's excellent professional qualities, there might really be problems with this batch of equipment, which would all be used on the soldiers behind.

But now he feels that Qin Yuan is to blame for everything, and instead wants to vent this hatred, he has already brewed his own plan.

The next morning, everyone started to get up one after another. After putting away the tents, Sun Hongming also expressed his thanks to Qin Yuan again and again, asking him to wait for a while, and he will be notified in three days.

In this way, Qin Yuan took the two teams back. On the bus back, He Yuan asked everyone about the next time he would directly enter the production area full of nuclear gas.

"The place we enter next time is very dangerous, so I will give you a professional training in the next few days. No one can lose the chain, especially after arriving at the venue, you must obey my command, understand?"

Everyone in the car answered very clearly. Qin Yuan knew that they hadn't contacted them. If the red blood cell team had done it before, it would have no effect.

So just set aside three days, he can explain to everyone in detail that they have to stay in a factory area full of nuclear radiation for two hours, and they have to complete various instructions, which is really quite impressive. worried.

However, most people are not aware of the real danger. After all, they feel that they have experimented before, so there should be no problem.

They are still too dependent on equipment, Qin Yuan feels that equipment is secondary, the most important thing is their ability to respond, and they must not violate any rules.

After returning, he called everyone to have a meeting first, and briefly explained the hazards of nuclear radiation, and then there are countermeasures and their current equipment.

In addition to this, it is to let them wear heavy radiation protection suits and start basic exercises. This is not the first time they have worn this kind of radiation protection suits. various hazardous chemicals.

It's just that they stayed longer this time. The most important part of the heavy radiation protection suits was the oxygen masks, the oxygen cylinders behind them, and the gas masks in front.

This time they only entered for two hours, so it was not yet possible to say that they needed to be replaced. In fact, the most dangerous thing is that they need to be replaced.

Fortunately, Sun Hongming didn't ask him on this point, but asked him to stay for two hours, mainly to test their equipment.

When Qin Yuan led them to train, Long Xiaoyun came over, and she also heard about it. The first two times she felt that there was no problem, and she felt more at ease with Qin Yuan leading the team, but this time they were going to enter Nuclear radiation zone.

"Why are you here? Isn't your team going to perform a mission?"

"I just came back last night, so I hurried over to your side. How is your situation? Why do you plan to take these newcomers this time?"

"There's no way. Newcomers always have to grow. We can't keep them at the back forever. This time can be regarded as giving them a chance to exercise."

"But I don't think it's too dangerous. If so, why don't we let our Wolf Warriors squad go up for a test, and let us old players feel more at ease. I'm worried about something going wrong."

"I know this too, but if we don't give them this opportunity now, it will be very difficult in the future. I still hope to have this opportunity, and I will take them personally."

Long Xiaoyun understood Qin Yuan's attitude, nodded, and told him if he needed help, he would stand up.

In this way, three days came soon, and Sun Hongming also called, this time he sent a coordinate, and the address of the coordinate was a Gobi area deep in the desert.

This place is very far away, covered by desert all the year round, it was already an uninhabited land ten years ago, it is indeed very suitable for training in such an area.

It's just that it's more difficult for Qin Yuan and the others. According to the normal situation, they took a helicopter and then headed there. However, due to the weather, the wind and sand in that area were really too big. It would be too risky to travel by helicopter. up.

In fact, for the special operations team, especially the special operations team with super-heavy helicopters, this problem is not very big. The main reason is that Sun Hongming asked them to drive in an off-road vehicle to bring some supplies.

Sun Hongming has rebuilt an experimental base there, and needs Qin Yuan's assistance, so he will probably stay there for three or four days.

In this way, the team started to set off. In this kind of desert area, off-road vehicles are also the best standard equipment. At first, everyone was very excited, but after driving for more than five hours, the scenery was the same everywhere. See any tree.

Or it's dry grass and vines, and I can't see anything else green, and in this environment, the temperature inside the entire car is very high.

At the beginning, everyone was chatting and laughing, and then there were some wholesales. It was not until after two o'clock in the afternoon that they finally arrived.

This place is indeed very far away from where human beings live, but when they arrived, they were already stunned by the scene in front of them.

The scale inside is really too large. It looks like a village. These villages are all made of sand and soil, and the inside is already ruined.

However, it is barely possible to see the scene where humans lived, and there are still many things that cannot be taken away. The outer wall is the most eroded by wind and sand, and it has all collapsed.

It's just that Sun Hongming and the others are not here. This place is their radiation test site, and the things inside have not been activated at this time.

Sun Hongming is also more cautious, let them go to this place first to familiarize themselves with the route, so as not to cause problems at that time, because this time it may take longer than they expected.

They are currently testing on animals. If their batch of equipment is to be leaked, it can be called at least six hours.

So he hopes that Qin Yuan and the others can stay here for four hours, and this time their latest equipment research found that there is no need to replace the poison gas mask within four hours, the filter element inside is the highest level, there will be no any problem.

Chapter 1782: latest equipment

Qin Yuan let everyone in to observe first, and then familiarized himself with the terrain. After all, Sun Hongming could only give a rough map, and no one lived here for a long time.

After everyone entered, they found that although the village was not particularly big, it had a lot of earthen walls, all of which blocked the line of sight. It was quite difficult to observe the surrounding situation.

"There are too many walls. If it doesn't work, let's knock down two. This will make it difficult for us to advance. If something goes wrong later, it will be like a maze, and we will easily be trapped here."

Hearing what his team members said, Li Tianbo stepped forward and slapped him on the back of the head, "You are really good at it. They asked us to test it. We have created such a terrain, and you said that you want to change the shape. What about the test?" What kind of effect is there?"

This team member rubbed his head, it is indeed the truth, now they can only get familiar with it as soon as possible, at this time Qin Yuan pointed to the room on the far left, there is a yard over there, and in that yard is the first device placed, Once the device is activated, the contents quickly leak out.

Yang Haokang stepped forward to observe it, but he still didn't dare to get too close. Although this thing was sealed like a pressure cooker, he was always worried that something unexpected would happen.

"Qin team, I have a question now. If there is a leak, isn't this thing uncontrollable? It will leak to the outside. Can this thing really stop it?"

"According to Sun Hongming, they have controlled the gas within 1 kilometer through precise calculations, and we need to complete the assigned task within four hours. If the gas valve is closed, then there is no problem."

This kind of training is necessary, because no one knows what will happen in the future, they must have enough experience, and their experimental actions this time will also become precious teaching materials.

Although most of the troops have done this kind of training, they have not really entered this kind of environment, so what is being tested now is also the psychological pressure of the soldiers.

"Let me explain again, everyone must get familiar with the route as soon as possible, and follow the command in all actions. I will take your two teams to set off."

Everyone nodded, and started to head towards the village separately. The village is not big. After a while, everyone has searched almost everything. There are two devices in the village, one is at the location just imported, and the other is at the middle position.

The first task of Qin Yuan and the others was to dismantle the bomb that Sun Hongming and the others had set up after entering the village. The second was to patrol the surrounding area and rescue the hostages. Of course, this character was played by a dummy.

Secondly, they must stay there for a sufficient time, then safely evacuate, and finally close the air valve. This is a set of task procedures.

Qin Yuan took a look at the time it took for everyone to walk around the village, and it took about 15 minutes. Because it was the first time, they patrolled every house, and now they have not found the location of the dummy.

After they are fully familiar with it next time, the time will be faster, and the test this time is not to make them faster, but to let them stay here long enough.

"How is it? Are you familiar with everything? Have you memorized the route and specific goals?"

"Qin team, we have no problem here."

After both parties answered that there was no problem, Qin Yuan took them back to Sun Hongming's side first, and the specific next step was to follow his benefit, and they also had to make other preparations.

The off-road vehicle convoy that everyone got on continued to set off again, and after driving for about five kilometers, they finally saw Sun Hongming and the others. They were stationed in a half-slope cave this time.

This place is full of wind and sand, and the wind and sand are relatively large. In this extreme climate, the temperature can reach 40 degrees during the day and around minus 67 degrees at night.

Sun Hongming led the members of the scientific research team. In this case, he must ensure the safety of the scientific research personnel.

So they all entered the cave. After Qin Yuan and the others went in, they found that the cave was quite large. The innermost part was for some monitoring instruments, and the sleeping bags of the team members were placed on the sides.

Sun Hongming's lips were slightly chapped, but it didn't affect him, "Captain Qin, you're already familiar with it, and we'll make arrangements as soon as possible, and you can leave in an hour."

After speaking, Sun Hongming brought the equipment of their research team and asked everyone to put it on first. The equipment was all integrated, and it was tightly wrapped from the beginning to the end, without any gaps that could be leaked.

Moreover, this batch of equipment has also been specially treated, and it is completely fired by lasers, which is not like the bullets commonly used. In such a situation full of nuclear gas, perhaps a small spark can easily cause an explosion. All integrated with equipment.

This kind of laser is a kind of electric shock management principle, mainly to knock down criminal suspects, but the high-voltage current in this demonstration place can also directly stun people, making them lose their ability to resist on the spot.

Qin Yuan patiently listened to the explanation. The team members felt very curious and wanted to try it. After putting it on, Qin Yuan felt that it was much lighter than the equipment they wore before. The equipment they wore before was heavier. Some are overwhelming.

Feeling that there is no problem now, Li Tianbo attacked the distant target with a stun gun under Qin Yuan's instruction.

Unexpectedly, the power of the stun gun was so powerful, and several people were shocked, because the stone in the distance was instantly smashed by the electric light.

Li Tianbo thought it was nothing at first, but the next second he opened his mouth wide in surprise, this is too exaggerated!

"It's too strong, and can we really control this situation? It's too powerful. If it was a human, it would have already flown out."

Sun Hongming hurried forward to explain. He said that the motor gun has three levels in total. Generally, you only need to use one level to deal with militants. The first level can directly knock people down.

But it will still be conscious. The second level can make people fall to the ground as the current rises. If it exceeds more than that, it will completely lose the ability to resist. The third level is immediate death.

After hearing Sun Hongming's explanation, he hurriedly checked. He didn't pay attention just now, so the stun gun was adjusted to the third gear. No wonder it was so powerful when shot from such a distance.

"Then I have a question now. What if the motor gun accidentally hits our own people? After all, the only shortcoming of this motor gun is that it must accidentally injure our own people at close range in this situation, which will be troublesome. "

This is indeed a big problem. The electric current is not a joke. Sun Hongming explained with a smile: "You can rest assured about this."

After finishing speaking, he began to show it generously. The current equipment is for greater protection on them. In addition to preventing nuclear gas invasion, the more important point is that their equipment is a very good insulator. It is absolutely impossible Damage now.

Qin Yuan knew what Sun Hongming meant. He had just come into contact with this equipment, and he immediately analyzed it. There is absolutely no problem with this equipment.

Just now everyone has witnessed the power of this stun gun, so they feel somewhat resistant and afraid, so in order to eliminate the fear, Qin Yuan waved his hand and asked Li Tianbo to point the gun at him.

Everyone was dumbfounded at this moment, including Sun Hongming, who quickly waved his hand and refused, "Captain Qin, you must not be joking, we usually conduct training, but it is all done on dummy people, so you must not do experiments. , I said this just to reassure you, and to remind you to be careful, there are many things that cannot be done absolutely."

"I believe in you, don't you believe in yourself? Anyway, I am sure in my heart. I let my subordinates shoot and there is a problem. It has nothing to do with you."

"It's not a question of whether it has anything to do with it or not. It's really too nonsense for you to do this. It really can't be done like this."

He was very worried about problems. Although he said that he was quite confident in the products they were researching, Li Tianbo, who was opposite him, was also very nervous at the moment. If he wanted to shoot his chief, he would definitely not be able to do it.

Qin Yuan stared at him coldly, and then gave the order again. He knew that this must be done. He wanted to set an example for everyone, and he wanted to completely dispel their fear. They were under pressure to enter that place. Yes, plus the power of this gun.

"Remember! You are the captain of the team now. If you can't do it, I'll let the captain of the Blade Squad come over."

Yang Haokang on the other side was actually very conflicted, not to mention that Li Tianbo was now conflicted with shooting, and no one would dare to shoot. Just now everyone saw that such a large stone was directly smashed into pieces.

Li Tianbo raised his gun now, he was really hesitant, Qin Yuan kept yelling at him from the opposite side, telling him to shoot quickly, without ink stains.

"Shoot quickly! This is my order!"

Sun Hongming persuaded him to come up and \*\*\*\* the machine gun in his hand. Qin Yuan was worried that something unexpected would happen, and Wu Shan would be in trouble if he came to other people.

He ordered the team members to control the people around them and not let them go forward. He wanted to set an example today.

"Li Tianbo, are you going to make everyone wait for you? We don't have much time behind us, you understand what I mean, you must shoot as soon as possible."

He gritted his teeth when he heard this, and finally shot. The electric current was so fast that they didn't even see it clearly, and they shot out. In the next second, Qin Yuan would be hit with a strong

electric current so that he took a few steps back. Fortunately, he stabilized his figure, if it were someone else, he would have already flown out.

Seeing this scene, Li Tianbo rushed forward to check Qin Yuan's condition, but Qin Yuan waved his hand and said that there was nothing wrong with him. He stepped forward to show everyone that he was not injured at all.

"Did you see it? It was just an electric shock just now, but it didn't cause any problems for me!"

Sun Hongming breathed a sigh of relief, and at the same time, he also admired An An in his heart that Qin Yuan was really a character, he was so courageous, he could not change his face under such circumstances, he was worthy of being the captain of the special warfare team.

"So you must believe that the products developed by the research institute are absolutely fine. If they tell us what's going on, everyone should follow our guidelines. This is already the greatest protection for us."

With Qin Yuan's demonstration, all the team members were completely relieved. Now they feel that since this thing can withstand such a strong electricity, let's not talk about the things inside.

This was just a small episode. After preparing the equipment, Qin Yuan and the others were about to set off. Sun Hongming found Qin Yuan on the way.

"Captain Qin, we have already placed all the things. After entering, you will follow our instructions. This time you may have to follow my actions, but the specific situation inside is still under your command."

"It's okay, I understand this, after all, you want to achieve the data effect of the experiment, it's okay."

Sun Hongming explained a few more words, and then watched the convoy start slowly. At this moment, a man came out from the deepest part of the cave. They were all completely cracked and bleeding.

A staff member is carrying some line equipment and walking towards it, and now he wants to connect it, this is the signal equipment connected to them, after letting them in, all the pictures will be displayed.

When the staff raised their heads and saw this scene, they were so frightened that they almost cried out. After a closer look, they found that the person standing opposite was Liu Yongtao.

"Scared me to death, why are you here suddenly?"

"Look at your guts, I've been here to check the equipment all the time, forget it, I'll take care of these things."

The staff member was a little puzzled, would he still make these lines?

"Forget it, this is the task assigned to me by the director. I will finish it now and then do other things."

"It's okay, I can do this. Don't you still need to go to the periphery to arrange the wiring? You arrange the interior of the periphery and leave it to me. I also want to do something for everyone and help out."

The staff member really made sense when he heard this. If the two parties work together, they should finish it as soon as possible and connect directly. He nodded and handed over all the lines in his hands to Liu Yongtao.

"Okay, I'll trouble you then."

After the staff left, a strange smile appeared on Liu Yongtao's face, because he wanted to plan a murder without anyone noticing it. At first he didn't want to do things so badly, but the research institute had already delisted him.

The main reason is that the funding he applied for at the beginning was very high, and he wasted five years. This guy has always occupied that spot, and the number of places in the research institute is also limited. If this guy can't do it, he will be replaced immediately.

But he blamed all these things on Qin Yuan, and he felt that it was all the fault of the two special operations teams.

Chapter 1783: Liu Yongtao's plan

He has already been famous by the research institute, and now there is nothing to miss. He didn't expect this to be the worst result. The main reason is that he didn't know that Qin Yuan's voice was so important.

Just mentioning Qin Yuan's name, he was directly expelled, and now he has nothing. He has worked so hard to study and study for so many years, and everything has been in vain.

So now he wants revenge and he plans to do everything. At this time, he is quietly connected to the power supply. This line is the only communication between Qin Yuan and the outside world. At that time, he can quietly change the channel.

This kind of line is relatively normal to connect to the host next to it, and use radio equipment, but in order to change the channel, he added a dark line of his own, and when he was operating, a person suddenly walked in.

He turned his head and found that it was Sun Hongming. At this time, Sun Hongming was a little anxious, "What happened? They have already set off for ten minutes. Why hasn't the line here been fixed yet?"

Sun Hongming thought it was some staff member who was in charge of the matter, why was there so much ink, but when he saw it clearly, it turned out to be Liu Yongtao.

"Huh? Why are you here? Didn't I tell Xiao Zhang to come here to do this? He is a professional line equipment engineer here. Why do you do these jobs here?"

Liu Yongtao's psychological quality is also very strong now. Although his eyes are a little flustered, he still said calmly: "Oh, in order to save time, I asked Xiao Zhang to do other things. I will be fine soon, turn on the power can."

"Okay, then hurry up, I really didn't expect you to deal with power cables."

Liu Yongtao unknowingly plugged in the hidden wire, and then pressed the switch, and the whole line began to light up. Sun Hongming nodded in satisfaction. He tested the signal in the walkie-talkie and the picture on their side.

There has been no problem with the walkie-talkie, but the picture is very clear. Qin Yuan and the others are still rushing towards that place, and they will arrive there in about four or five minutes.

Sun Hongming breathed a sigh of relief. The equipment was indeed all right. He walked over and patted Liu Yongtao on the shoulder.

"I really didn't expect that you are indeed very talented. I have heard about that too. Don't worry, your mentor Chen is my friend. I will talk to him when the time comes and see if I can get you Transfer to him."

Liu Yongtao smiled on the surface, but he was already very disgusted in his heart. Didn't he think that tutor Chen was from their previous basic department? Why should he be that guy's subordinate.

They kindly introduced him to a job and helped him arrange everything behind him. As a result, this guy had to complain, but instead speculated, thinking that Sun Hongming just didn't want him to be better, and deliberately arranged him to go to that kind of place.

At this time, if Sun Hongming knew that this guy was trying to harm Qin Yuan, he would probably have slapped himself two big mouths.

On the other side, Qin Yuan and the others had already seen the previous house, and everyone changed into their equipment after they got down.

"Director Sun, we've finished the preparations here, turn on the equipment on your side, we're sure there is no problem and we can enter."

"Okay, when the time comes, you will follow our command. In addition to the hostages with dummies, there are also several moving targets that you need to kill. We will judge the data when you hit it. This is very informative. Remember Move as slowly as possible."

"Okay, no problem, we keep in touch at any time."

Sun Hongming, including the staff in the cave, was very cautious. Everyone watched the button he pressed, and soon the things in the abandoned village began to be released slowly.

He felt that Qin Yuan should be fine. He performed very well in the first two times and resolved it easily. This time, he should lead the team without any problems.

The equipment they are wearing this time is also relatively advanced. Everyone's blood pressure and pulse can be displayed on the equipment here, and there are two medical soldiers sitting next to them.

Although it has been said many times, he still walked over and explained it again, "Your position is really important, you must monitor all the data, and if any player has any problems, report to me immediately."

"yes!"

Sun Hongming is a very busy person, he is running on two sides now, he wants to see the data here, and on the other side he has to stare at Qin Yuan and the others as they enter the screen.

In this case, all the staff were attracted by the screen, and no one noticed at all. At this time, Liu Yongtao quietly slipped into the depths of the cave again.

Qin Yuan started to enter with two teams, "Everyone listens to my command and follows the action line mentioned before in batches. Now start the search, first find the hostages, and then pay attention to the target during the search for the hostages."

The captains of the two teams expressed their understanding, so they led the teams separately. In fact, they were not far apart, the village was not very big, and everyone could be vaguely seen.

To tell the truth, Li Tianbo was actually very nervous. The outside was real. Although they couldn't see anything, the reports on their clothes showed the radiation value outside.

So this is a test for everyone. After entering the core area, the hearts of all team members have different degrees of acceleration, which is the normal speed of people when they are nervous.

But the two medical soldiers also fell into doubts when they saw the value on Qin Yuan's line, which is too stable.

"We checked just now and it seems that there is no problem, and all the data can be matched."

"It can only show that Captain Qin is really super capable. If he doesn't change his face under this situation, his psychological quality is beyond the reach of ordinary people."

Qin Yuan really wasn't flustered at all, he was used to seeing this kind of scene, and this costume wasn't of much use to him, his own defense had already reached a super strong level.

At this moment, the blade team on the left came over the intercom with their report that they had found the hostages.

"Captain Qin! Are the hostages found on our side joining your side now?"

"Yes, let's focus on the people first, and find someone to transport the hostages out first."

Although the hostage is just a dummy, what they have to do now is to completely simulate it, put protective clothing on the hostage, and then carry the hostage on their back.

Wearing this heavy clothes also brought some troubles to everyone's actions. There are indeed many inconveniences, but everyone persisted. The weight of this dummy is 80 kilograms.

Coupled with the equipment they were wearing, they were sweating profusely after walking down, and Qin Yuan was paying attention to their performance all the time.

Soon, the first target appeared, and a black shadow flicked across on the left. This was the robot they had placed inside to act as the gangster who appeared.

Because he was too nervous, Yang Haokang, who was standing by the side, fired quickly. The powerful electric current hit the earth wall in an instant, and flying sand was raised everywhere.

This earthen wall is old and could not withstand such a big impact at all. The wind and sand were too big and completely blocked everyone's sight. In addition, they wore this kind of protective clothing, which also affected the sight. damaged.

Yang Haokang suddenly realized that he had done something wrong, and he hurriedly apologized beside him, "Okay, you don't need to apologize, I know your subconscious reaction is really good, but you have to keep up with it."

At this moment, Qin Yuan raised his hand and hit the yellow sand. He only heard the sound of beeping and reporting data, and a robot fell down.

Under such circumstances, Qin Yuan was able to see clearly and hit the target accurately, which is really surprising, and his speed is really fast.

Everyone on the other side of the cave cheered, Qin Yuan's ability is indeed very strong, and the accuracy is so high that their computer data can't even capture it.

At this time, there was a sudden interruption of the signal, especially the rustling sound from Qin Yuan's headsets, because Liu Yongtao was about to cut into the signal because Liu Yongtao was making a move.

Sun Hongming still finds it strange, what is going on? Why is the signal skewed? This is state-of-the-art radio equipment.

"What's going on? Where's the technical department? Hurry up and check it out for me."

The two of them fiddled with the computer for a long time, and at this time the signal was restored again, "Director Sun, it seems that there was too much wind and sand here just now, so it was slightly affected, but there should be no problems later."

Sun Hongming didn't think too much, and continued to watch with his arms folded. During this period, he didn't need to have other communication with Qin Yuan, because he didn't want to affect Qin Yuan, and he followed his every step.

But the next second he was stunned, because Qin Yuan made a very strange move, causing those special forces to attack the surrounding earth walls, and instantly the entire space was filled with flying sand and rocks.

"What's going on? Is he crazy? I didn't even give him an order to do this."

Sun Hongming was a little anxious. This is not a good thing. If you accidentally break the sealed equipment that was placed there before, it will be useless to ask someone to close the valve later.

However, the more he was afraid of something, the more something would come, and then Qin Yuan unexpectedly led his team to the yard where the leaked equipment was placed before.

Without saying a word, he shot directly at the equipment in front of him. After a burst of electric current, the equipment was shot far away, and the position of the valve port was completely damaged. It is basically impossible to close it now.

It was very smooth before, why is it like this now? All the staff in the cave were stunned.

Sun Hongming was furious, and quickly picked up the walkie-talkie and began to ask: "Captain Qin, what the \*\*\*\* did you do? Why didn't you do what I said? You acted on your own, do you understand? You are responsible for this matter ."

However, there was no response, and there was a rustling sound from the other side. He felt a little strange, something was wrong.

He wondered why Qin Yuan would suddenly disobey his order. He had promised well before, but the staff in the cave were so arrogant that they didn't dare to come out. At this time, Liu Yongtao appeared out of nowhere.

"Director Sun, I think this guy is too arrogant. You respected him too much before. Look at him breaking the equipment now. We don't know how to block it later."

"That's enough, don't say these things that are not conducive to unity, you are a little sociating, I think Captain Qin must have a reason for him to do it, but I don't know it now."

Liu Yongtao felt disdainful and cold when he heard this, and snorted, this old guy is really an extreme dog licking, after this situation, he is still talking for others, and they probably don't want to talk to him.

But on the surface, he was calm and calm, and he also showed an attitude of thinking about the research.

"I also know this, but what they did this time is indeed completely against the rules, and what I am most worried about is whether there will be an explosion under this kind of vitality. After all, there is a pressure gauge inside."

He said that he reminded Director Sun, because he really didn't expect such a thing to happen before. There is indeed a lot of pressure hidden in it, and the things stored in it are stored under high pressure.

If the constant external attacks reach a certain critical point under such circumstances, an explosion may really occur, and the air pressure inside is no less than a small bomb.

Although the protective clothing they wore could mainly absorb electric current and block radiation, there was really no way to deal with the power of that kind of explosion.

Sun Hongming was very anxious, and he didn't know what to do, mainly because he didn't know why Qin Yuan did this at all.

On the other side, Qin Yuan was also in a dazed state, because he received a mission order, and the first thing was to let them attack the surrounding earth walls.

The radio said it was to test how well their guns would perform in this environment, so they had to follow suit.

This is Liu Yongtao's order. His purpose is to confuse the public, and his purpose is also very clear. When all these earthen walls are hit by this high-strength electric current, they will definitely collapse.

This is also laying the groundwork for the subsequent explosion. In this case, they will not even have a chance to hide. This guy is really cruel enough. He wants to kill everyone. He didn't pay attention to so many lives inside.

Then he gave another order to let Qin Yuan and the others attack the device, saying that it was to test the pressure resistance of the device.

Fortunately, at this moment, Qin Yuan discovered something was wrong, and he immediately asked the team members next to him to stop attacking.

Li Tianbo still felt a little curious, "What happened to Team Qin?"

"There's something wrong with their orders. You can see that there is a pressure gauge inside this device. Just now we attacked outside, and its pressure has reached a certain level. If we attack again, it is likely to explode. This thing exploded. Airflow is not easy."

Chapter 1784: last order

Hearing Qin Yuan's reminder, Li Tianbo stepped forward to check it, but he didn't know it, good guy, it's really a very big pressure gauge, and there is a value on it.

"But why did the higher-ups issue such an order, let's confirm with the higher-ups."

Qin Yuan asked everyone to back off a bit, and retreat to a safe area, because it is still uncertain when that thing will explode suddenly, and many things are unexpected.

If there is an explosion, the valve cannot be closed completely, and all the contents inside leak out, which will be even more troublesome, because this thing leaks out little by little over time.

The leakage standard is also arranged in advance, there will not be so many, once it explodes, all the things will come out, and it will definitely exceed this range. Sun Hongming and the others over there will not be affected, but here it is said Not necessarily anymore.

Although they were wearing protective clothing, this place was in the central area. If there was any error, no one could afford it. Even if Qin Yuan wanted to protect them, it would be too late.

But the few times he took out the walkie-talkie sample, there was no response. Sun Hongming also saw this strange behavior in the surveillance. He clearly saw Qin Yuan pick up the walkie-talkie and talk, but they didn't receive any signal.

Although the whole picture was very clear, he couldn't hear anything. Sun Hongming was a little anxious, so he called the staff and put on protective clothing.

"The rest of the people are all staying here. Don't let the signal here be interrupted. Keep in touch with us at any time. I'll go and see what happened to them first."

"Director Sun, you don't have any experience here. What should you do if you encountered any danger in the past? Calm down first, wait for Captain Qin to see what's going on, and we'll check the wiring again. "

"Don't be so troublesome. I'll hurry over now. Safety is the most important thing. They should have received other information. I know what Captain Qin is like. He will definitely not be so reckless."

After Sun Hongming finished speaking, he hurriedly set off with a few people. They were all from the General Research Institute. Everyone was worried that something might go wrong. superior.

Just when they were halfway there, Sun Hongming turned his head and found that Xiao Zhang, the circuit engineer from before, was also following them.

"What are you doing with us now? You are in charge of the safety of the entire circuit, hurry back to the base, you are needed there."

"Director Sun, to be honest, I have checked just now, and there is no problem on the base side, and there are other comrades standing there, I want to come over now to see if it is Captain Qin and the others who are here. question."

Sun Hongming nodded, he didn't think about the speed of so many people, they just wanted to stop Qin Yuan when he made the next move.

Liu Yongtao stared at the monitor with a sneer on his face, because he only knew what was going on. This guy had a wishful thinking in his heart, and he could just push everything out later. Anyway, it's okay to do something on his own. Guan Ji hangs high.

So he wanted to take this opportunity to give the last order directly, but he had to wait for Sun Hongming to go over there.

Because this is to cover up all the insiders in that place. As long as that thing explodes, the people in the past will not survive at all, so this is the best way to cover up.

Even if the higher-ups really want to come down to investigate, does it have anything to do with him? After all, the main person in charge this time is Sun Hongming, this guy.

This time, it can be said that he killed two birds with one stone. Just as he was planning his own thoughts, a staff member came over and patted him on the shoulder.

"Why are you standing here? Hurry up. Director Sun told you not to come and meddle in our affairs. You're just here to help, so just go over there and take charge of the surveillance."

"It's nothing, it's just that I know a little bit about circuits, so I want to help check it out. Leave it to me here, and you can rest assured."

A few people originally wanted to refute, but soon they saw a burst of sparks from the side line, which was caused by excessive pressure, and the few people didn't care about the situation here, so they hurried over to deal with the situation there of wires.

Because everything was built temporarily, it was done in a hurry, and many things were a little unprepared.

Taking this opportunity, Yong Tao quickly slipped to the deepest part of the cave, and he still came to that place, holding the walkie-talkie and began to give the final order.

"0101, this is the temporary command post, can you hear the news?"

Qin Yuan over there was still trying to contact the other side, but the news from the other side came over unexpectedly, "0202, what happened just now? Why didn't I receive any news?"

"Because the wind and sand are too big, and there are problems with the line, it can be received normally now, and the last order will be issued to you, and you can leave after the order is completed."

Qin Yuan frowned, many questions were not answered on the other side, and it was not Sun Hongming's voice, because the intercom was a bit messy, so he couldn't tell who it was, only knew it was a man.

Because Sun Hongming said before that all the things are issued by him, so what is Sun Hongming doing? At this moment, an order came from the intercom.

"You need to add two devices to completely complete the blasting, and then evacuate after the blasting is over."

What! Qin Yuan was really shocked when he heard the news, because wouldn't it mean that even they would be in danger? And such a blast should not be possible.

At present, they don't have any explosive devices on them, so they can only use the method just now to attack continuously, but the risk factor of this close-range attack is very high.

"Why such an order? Is it very unreasonable?"

"Since you are a special forces team, you have already accepted the task before, so you must complete it. This is an organizational test for you, and it was also agreed at the beginning, and you must complete it."

After saying this, Qin Yuan has nothing to say. They are a special force and they really have to take on this task, but there are too many loopholes in it.

But at this time there was no sound from the walkie-talkie again, Qin Yuan had no choice but to observe whether he should follow the instructions there.

Li Tianbo squatted beside him, and he glanced at the pressure device. If it was like this, someone must have attacked it, and the explosion was probably devastating.

"Qin team, I don't know why they issued such an order, but they may be very confident in this equipment, and they want to test the pressure resistance."

"I think the same way, but they do this, some can't understand, it seems that we don't take our lives seriously, everything is just like nonsense."

It's no wonder Qin Yuan thought this way. From the very beginning, his orders were very strange. When Qin Yuan was struggling, Yang Haokang stood up next to him.

"Leave this matter to me. Brothers all retreat. I run the fastest in the team. If something goes wrong, I will run faster."

Qin Yuan shook his head. It was obvious that no one could take the risk except him. He knew his physical fitness very well, and even if it exploded, he would have defenses himself, so there was absolutely no problem.

He is not entangled with the danger of this thing now, but entangled with why such a task was given. Sun Hongming hadn't told him anything before.

After thinking for a while, Qin Yuan glanced at the time. He couldn't delay any longer, and he should follow what they said as soon as possible. After all, they were the task that they took over before, and they had to agree to all their requests no matter what.

At this time, Li Tianbo could also stand up. Since the other party was also the captain, so was he, so why should he let the other party take risks? He couldn't lose face in front of his teammates, and stood up to express his willingness to go.

Seeing the two arguing next to them, Qin Yuan shook his head and gave an order for everyone to retreat.

"Captain Qin, this is too risky. As the commander-in-chief, you must not stay here. Let us go."

"You two brats dare to do this without much confidence. Don't worry, leave this place quickly and leave it to me. I know what to do."

Seeing that Qin Yuan's attitude was very persistent, the two could only reluctantly lead the team away. Qin Yuan planned to let them retreat to a safe area and keep in touch with him, and then he activated the device again.

Although the two teams felt a little bit reluctant, they still chose to trust Qin Yuan, and the captain of the blade team directly kept the car.

"What do you think is the use of leaving the car behind? Can you imagine the power of the explosion? What if something happens?"

"But what can we do now? This is his own choice, and as the captain, he has nothing to do. Just like if we face this kind of choice in the future, we will still stand up."

Yang Haokang sighed, and led the team to speed up. They must leave as soon as possible, and they must not hold Qin Yuan back.

Li Tianbo kept moving towards Zhang Wan behind him. Anyway, he still wanted to leave a little hope. He hoped that Qin Yuan could come back safely. I don't know how much power this protective suit can withstand.

Liu Yongtao who was in the cave didn't expect the result to be like this, because his plan was to kill people from two teams, and now Qin Yuan called those two teams away.

According to the time calculation, it should be about the same when Sun Hongming rushed over, but the crux of the problem is that they are very likely to meet.

Because he couldn't see the specific location of Sun Hongming and the others, he became more and more anxious, walking back and forth in the entire cave, trying to check the news.

"Can you stop messing around here and affect our work, Director Sun has just left, and you are going to make trouble here again."

The staff around him didn't look down on him at all. After all, this guy was very arrogant before, and after being completely exposed by Qin Yuan this time, no one paid any attention to him.

Liu Yongtao was very anxious. If the two teams meet, everything will be exposed. Thinking of this, he casually packed a backpack, and slipped away quietly from below while the others were not paying attention.

When the two teams were walking towards the periphery, Li Tianbo suddenly noticed a gust of wind and sand on the opposite side, and a vehicle was rapidly approaching here in the midst of the wind and sand.

"Old Yang, look at the opposite side, is that the research team's motorcade?"

Having said that, everyone started to pay attention, and it was true that only the other side noticed them, and they honked their horns desperately.

When the two sides met, Sun Hongming jumped off without even stopping the car, "What's going on, why are you back? Where's your captain?"

Several people felt strange why he would ask such a question, wasn't it an order from them?

Yang Haokang explained the previous matter clearly to Sun Hongming, but he didn't expect his expression to change drastically, and he drove towards that side without saying a word.

"It's too late now, you use the walkie-talkie to stop your captain and tell him not to act rashly."

Although Yang Haokang didn't know what happened, he quickly contacted Qin Yuan on the walkie-talkie. Fortunately, there was no problem with the signal reception this time, and he didn't take any action, because Qin Yuan first said that he would only act after confirming their safety. .

Sun Hongming was so anxious that his lips were almost bleeding. He was really worried about what might happen. When he arrived at that place, he saw Qin Yuan sitting on the wall with a calm expression on his face.

Seeing Qin Yuan standing safely in front of him, he breathed a sigh of relief, and immediately asked the staff behind him to take out professional equipment to test whether the current pressure value would explode.

It was only now that the two sides communicated, and unexpectedly, there was a big oolong, but Qin Yuan was very sure that they must have given the order, otherwise he would never have done it.

Sun Hongming immediately denied it. It was absolutely impossible. He was right there, and everyone else knew whether he gave an order or not. But this kind of situation is absolutely impossible.

"Director Sun, don't get excited. It's not that I don't believe you, but I think there must be someone playing tricks. That person gave me another order just now, and it was after you left."

Sun Hongming calmed down a little when he heard this, and he quickly analyzed, since it wasn't him, could it mean that there was a mole in the cave, someone sneaked in?

"I don't think the problem is that simple. It's not a traitor, but that guy just wants to kill us. If you think about it, which one of his actions is not trying to destroy our two teams."

Li Tianbo clenched his fists in anger when he heard this, as long as he knew who the traitor was, he would definitely beat him to the ground.

"It's really despicable, and your research institute is too unreliable. Putting people like this in here almost killed us all."

Hearing what they said, Sun Hongming could only apologize again and again. He said that he really didn't know.

Chapter 1785: successful blind date

Sun Hongming was also very anxious. If the internal traitor hadn't been found out, they would all be in danger now. If it wasn't for this time that he decided to come here directly, he probably didn't know what was going on.

Qin Yuan took out the walkie-talkie and checked it with the circuit engineer next to him. Xiao Zhang was quite professional, "Wait a minute, I just noticed that the two routes seem to be different, which is different from what we set up."

Taking this opportunity, Qin Yuan looked at Sun Hongming, who was anxious beside him, and patted him on the shoulder, "Director Shen, don't worry, now that we know who is responsible, we can continue to investigate this way."

Sun Hongming felt very guilty and almost had a big problem. Fortunately, Qin Yuan was magnanimous and comforted her by the side, which made her feel a lot better.

According to Xiao Zhang's investigation, he found that there were two lines interfering with their intercom. When the internal line of the walkie-talkie appeared, their main line was cut off.

In other words, Qin Yuan and the others could not receive the news from Sun Hongming, but received the news from the secondary line.

"What's going on here? Aren't all the lines arranged by our internal staff? Did someone intrude?"

Xiao Zhang shook his head. At this moment, he suddenly remembered that he was not responsible for the line over there. He was supposed to complete it, but Liu Yongtao took the initiative to preempt it.

He quickly explained the situation to Sun Hongming that it was none of his business, and based on the analysis of the situation before and after, the suspicion of this guy was too great.

Sun Hongming slapped his head after hearing this, and he said that something was really wrong with this guy, and there was a problem just before, especially when Qin Wukong and the others didn't follow his orders.

Suddenly attacking the surrounding earthen walls, he found it strange that this guy stood up and spoke, mocking Qin Yuan and the others.

"It seems that we have already found the problem. Let's not talk about that now. Anyway, he has nothing to do there. The key issue is to close the valve as soon as possible."

The two people were talking, when the inspector inside came out, the staff was very helpless, "Director Sun's equipment inside was damaged too much, the valve completely fell off, and there was no way to close it. According to this leakage speed, It is estimated that it will far exceed the range we previously expected."

What! Sun Hongming paced back and forth with his hands behind his back. He is really anxious now. If this matter is not controlled, it will become another kind of disaster. Originally, they were conducting experiments here.

All these things must be dealt with in the follow-up. According to the latest technology, these totals can be recovered, but the crux of the problem is that the things have been destroyed now, and there is really no way.

Although we know where the crux of the problem is, that \*\*\*\* Liu Yongtao did it, but even if we find him now, there is nothing we can do. The main problem is to solve the current valve.

Just when he was in a hurry, Qin Yuan thought of an idea, "Director Sun, I think so, this thing is actually very simple, I have dealt with similar things before, you just need to find me a pressure tank again, I will go Just deal with it."

"Captain Qin, what do you mean? Do you want to have a conversation? Change the gas inside to another tank."

Qin Yuan nodded, and Sun Hongming regretted it very much. He had arranged another solid type if he knew it earlier, but he thought of better recovery of gas, so he chose this method, but he was defeated by Liu Yongtao unexpectedly.

"This won't work, it's too dangerous. The largest gas concentration I've tested so far is released now. If all of it is released, the consequences will be unimaginable. If the gas is not blocked and the transfer is not successful, this is all a problem. "

"Then how do you plan to solve it later? Do you just let this thing sit here?"

You must know that the gas inside is not a joke, such a strong radiation, this area can no longer be used in the future.

Although it is true that no man's land has been hidden here, it was originally used for military experiments, but this is really a bit too wasteful, and there will be other problems, and someone needs to manage this area at any time to avoid unnecessary troubles. Someone who knows has entered here by mistake.

Sun Hongming was still hesitating, but Qin Yuan was already very determined, and asked him to send someone to bring the prepared instruments again, and they should have made preparations in advance.

"I think you should have kept these things all the time. Go and get them now, I can do it."

After much deliberation, this is indeed the best way, Sun Hongming sighed, and could only take out the walkie-talkie and ask the staff over there to deliver things.

And he also confessed to control the \*\*\*\* Liu Yongtao, but when the staff in the cave looked for Liu Yongtao, they found that this guy had already slipped away without knowing when.

And this \*\*\*\* took most of the food away, and almost dropped the walkie-talkie. They don't know how long they will have to deal with it here. This \*\*\*\* took most of the food away, and opened A car is gone.

"I really don't know what the people inside them are doing to eat. A big living person disappeared under their noses and drove away without anyone noticing."

"Actually, we can't blame them. After all, everyone's attention was on the surveillance screen. They all wanted to know what we were doing."

"Captain Qin, I'm really sorry. This time it was all my mistake. I really didn't expect him to be such a person, which led to such a problem of improper employment."

Sun Hongming really regretted it this time. Not only did Qin Yuan make mistakes on his side, but the food on the other side also became a problem. According to the staff's report, the food on their side should be distributed in the least proportion. It can only last for a day at most.

But here he doesn't know when it will be completely resolved. Now he has no choice but to ask the headquarters for support and let them send food.

Qin Yuan, on the other hand, was very confident that he didn't have to do this. One day was enough, and he didn't need this side. He could finish it soon, and then went to find Liu Yongtao.

Afterwards, he took the lead in giving the order, and he would solve the problem here, and let the Blade Squad and the Wild Wolf Commando cooperate with each other to find Liu Yongtao's trail, and he must be captured.

Although Li Tianbo was a little worried, he still believed in Qin Yuan that he would take care of everything.

In this way, the two sides set off separately, and Sun Hongming really had no choice. The equipment was delivered after a while, "Captain Qin, if it really doesn't work, I will apply to the higher-ups. This time is considered an accident, and I will bear all the responsibilities."

"Do you think I'm the kind of person who is afraid of taking responsibility? I just want to settle this matter, don't worry! Let me handle it."

Hearing this, Sun Hongming felt a great sense of security in his heart. This is the style of special operations forces. Everything is given priority to others and the country.

Qin Yuan took the instrument and connected it to a pipe outside. It is enough to transmit it, and then close the valve. Although it sounds simple, it is dangerous. Firstly, the radiation value at this time is the largest, and secondly, it is easy to produce radiation. Explosion, after all, the outside has been attacked by them just now.

For the sake of safety, Qin Yuan asked all of them to retreat. After all, his ability is there, and his own defense is very strong, which is absolutely no problem.

Sun Hongming is very anxious here, he can't see the picture inside, and he is also very worried in his heart, and has been praying secretly, but nothing will happen.

At this time, everyone in the cave could see the situation. Although they couldn't hear the sound, they could see that Qin Yuan's movements were very swift, and every step was very rigorous.

Ten minutes later, Qin Yuan came out carrying the jar with a relaxed expression on his face. The staff next to him in protective clothing picked it up and put it back in a container.

Everyone was cheering, and Sun Hongming stepped forward to hug Qin Yuan excitedly, but the heavy protective clothing completely blocked it.

The valve of the other tank was also completely closed. The problem on this side is not too big. As long as it is blocked for a period of time, they will deal with the residual gas inside.

"After Captain Qin goes back this time, I must report to the superiors that your actions this time really saved us a great loss."

"Actually, it's nothing. After all, I promised to come to the experiment with you this time, so I'm also the person in charge. I have to be responsible for everyone."

Qin Yuan said it very easily. Just like that, several people returned to the cave. The rest of the staff are still testing, mainly to measure the remaining air content. That area will not be affected, and they will not be affected, including the wind direction. Already tested.

The main problem now is to find Liu Yongtao. Sun Hongming was so angry that his teeth were itchy. This was the first time he had encountered such a situation, and he was directly set up by others.

The staff at the scene were also very helpless. No one noticed that he would do that at the time, so they didn't pay attention. As a result, this guy drove the car away.

Not only that, a staff member said helplessly: "This guy is really despicable, all the tires of our spare cars have been punctured by him."

He guessed that when he ran away, he wanted to completely cut off the back road and avoid being found. The more Sun Hongming thought about it, the more anxious he became, and he turned to look at Qin Yuan.

"Captain Qin, no, you can call back the people from the two teams first. After all, this is no man's land. It will be even more dangerous at night, and they didn't bring any supplies."

"If they can't even finish this thing, then there's no need to follow me. They will definitely be able to catch Liu Yongtao tonight."

Seeing Qin Yuan's self-confidence, Sun Hongming also hesitated, but immediately he contacted the top and sent someone to bring the spare tire and some other equipment.

To say that this guy is really too bad, he didn't consider other people at all, if he did this, it would be equivalent to trapping everyone in this no man's land.

Sun Hongming really couldn't figure out why he insisted on doing this, leaving everyone with no way out.

Just when he was thinking about where Liu Yongtao could go, there was a sound of a car starting outside, and then he saw Li Tianbo walking down with Liu Yongtao, followed by two people.

Liu Yongtao's eyes were black and blue, obviously he was beaten, and Li Tianbo didn't hide it, and directly reported the situation at that time. If this kid hadn't run away, he wouldn't have been beaten so badly.

After all, he was just a man with no power to restrain himself. Facing these special soldiers, how could he escape? At that time Li Tianbo had warned him not to think about running away, but he turned around and ran as an excuse to go to the toilet, which made Li Tianbo very angry.

"The rest of our team members will be here soon. There is no room in the car, so we will bring this kid here first."

Sun Hongming stared at Liu Yongtao coldly, he had nothing to say now, he knew that there was no turning back for what he had done.

Qin Yuan was even too lazy to talk to him about these things, but when we parted, he still told Sun Hongming one thing, maybe in a few days after he finished handling the team's affairs, he would go to study it, he wanted to see the current situation The latest equipment situation in each country.

After the mines last time, he was more convinced that he had to improve his own strength now, otherwise he would be fine, but these soldiers under his hands had never seen many things that could not keep up with the speed.

"Captain Qin, if you want to come, that's really great. Don't worry, I'll send someone to arrange for you to come right away. Just let me know on the same day."

He must be going there, so on the way back, Qin Yuan checked the system mall to see if there were any updates.

He hasn't been here recently, and he didn't expect that there are quite a lot of updates. He exchanged his points for blueprints of several submachine guns. These blueprints are very necessary, and they can be arranged at the research institute later.

And this time, Qin Yuan's experiment was also very successful. Sun Hongming and the others recorded the most authentic data, and then copied other things. These things can be used by the soldiers in the team to learn.

Qin Yuan had just returned to the brigade when he received a call from He Chenguang. This kid was on holiday for the past two days, but he made a special call to tell everyone that he had a successful blind date. This time, he also wanted his brothers to have dinner outside together. meal.

When Qin Yuan arrived at the location he posted, Li Erniu and the others had already arrived ahead of time. He Chenguang smiled and hurried over to say hello. Qin Yuan took a look at the restaurant's environment and it was pretty good.

"You kid is really good enough. You will be out of the order once you go back, but you didn't say anything about those things. What's the matter? You are also an old team member, so you should know better than me."

"Brother Qin, look at what you said. I have already made it clear about the principle of confidentiality. She only knows that I am a soldier, but she doesn't know exactly where or where I serve. "

Chapter 1786: Abnormal He Chenguang

My good brothers are also out of the order, after all, they have to have their own families, and they have to face many problems in the future.

He Chenguang seized this opportunity even more, "Brothers, please forgive me, she seems to be bringing her little sisters over for dinner later, so everyone should say a few nice words at the dinner table. "

"Hahaha, Chen Guang, don't worry, I will definitely tell you how beautiful it is."

Li Erniu came over hehehe, and put his arm around He Chenguang's shoulder, but He Chenguang looked helpless, "I want to explain most to you, boy, don't talk nonsense to me when the time comes, let Brother Qin talk about it. "

"Hey! You still don't trust me so much, anyway, we are brothers who have died."

Let's put it this way, I can completely hand over my back to my brother, but I still forget about this kind of thing. When a few people were fighting, I only heard a sound of footsteps outside.

Everyone looked in the direction of the voice, only to see the waiter walking in with two girls, both very beautiful,

Especially the \*\*\*\* the left, she is tall and has a very temperament all over her body.

She has a high nose bridge and relatively large eyes. She wears light makeup on her face, and she is not stage frightened at all in the face of this situation, instead she took the initiative to say hello.

"Oh, I didn't expect there to be so many people. He told me that he wanted to take me to meet his brothers. I haven't made any preparations yet."

Hearing this, everyone reacted. Wang Yanbing behind was stunned. He Chenguang, what kind of luck did this kid go to find such a beautiful girlfriend.

He Chenguang hurried over, "These are the ones I usually play better, by the way, come here and let me introduce you."

In this way, the two sides met each other and introduced each other. He Chenguang's girlfriend is Zhou Ping, and the one next to her is her best friend Chen Xiaohong. Both of them are kindergarten teachers. This profession sounds very good, and they both deal with children.

Moreover, this Zhou Ping spoke gracefully with others, without any stage fright at all, not only that, but also knew how to deal with people very well, and even brought presents to each of Qin Yuan and the others when they met for the first time.

"Brother Qin, I just heard a few words from him before, but I didn't know what you like, so I bought a necessity. This is a razor, and everyone has a share."

Li Erniu stepped forward and accepted the gift without any hesitation, "I really didn't expect it, Mr. Zhou, you really bothered, it's not like us who are five-year-old and three-year-old don't prepare anything."

"I think Chenguang is our friend, and we will meet each other in the future, so let's get acquainted with each other first."

This girl's words are really nice, especially that smile makes everyone feel that this couple is too good for each other, and the two of them are more or less husband and wife.

The meal was also very pleasant. After the meal, He Chenguang sent the two of them outside, and took a taxi for them before coming in.

This guy has a smug look on his face. Today, my girlfriend has given me enough face, and I really did a very good job in every aspect.

Wang Yanbing was very envious at the side, so he could only walk forward a little bit sour, picked up the razor and said, "Oh, there is no other way. Is it the only way for lonely people like us to go on like this in the future?"

"What are you thinking, kid? Don't worry, I've seen your thoughts a long time ago. Her best friend doesn't seem to have a boyfriend. I'll ask her to push that girl's WeChat over tonight. You two will add a friend to chat with. ."

Wang Yanbing's eyes lit up when he heard this, the relationship is good, there must be no problem, Qin Yuan is really happy for his brother, this time the blind date is much more reliable, at least he doesn't seem to have any major problems.

In the following week, Qin Yuan led them to start training. This is also a monthly assessment, which is the assessment every other month in the special operations force.

For other companies, it may be three months or half a year, but here there is an assessment every month, and there will be points deducted until the end, which is permanent elimination.

He left all the things here to Li Erniu and the others. He planned to go to the research institute. After all, he did not expect that the development of the United States was too fast. The information Sun Hongming sent him that day was only a submachine gun. On the other hand, they have re-developed six.

Not to mention other weapons, they have set up a special group for this kind of research, and they have invested a lot of manpower and energy to dig talents in various fields from other countries at any cost.

When Qin Yuan came to the research institute, Sun Hongming heard the news and rushed over immediately. This was a rare opportunity. He wanted to see how Qin Yuan did his research.

But Qin Yuan didn't mention his research at all. He just said that he wanted to see how the submachine guns in the country of America were. After all, they were newly developed.

When they came to the office, they found that many research professors were already waiting for them there.

Qin Yuan was only more interested in the guns he studied, why did the country of America suddenly make such a big commotion this time.

"As far as I know, they seem to have set up four research teams. The research team has forty or fifty people. This number cannot be underestimated, and they only specialize in the research of submachine guns."

You must know that this will consume a lot of financial resources. After all, like the research in their exclusive group, it is only a group of six or seven people.

"They don't seem to have made such a big commotion before, what the \*\*\*\*\* are they trying to do this time?"

"I guess it has something to do with the disappearance of the super weapon last time. Since the super weapon disappeared, they have also started to take various precautions and put all their energy into researching new weapons."

This analysis is indeed correct. After all, the super weapon is already on Qin Yuan's side, so he doesn't have to worry too much.

"Captain Qin, besides you want to know about their weapons this time, what is the specific research you brought?"

"I have already made all the research drawings, and you can give me an office for the rest, and I can show you the details."

Sun Hongming was full of surprise, and the people around him also cheered. He did not expect Qin Yuan to bring them such good news. The research institute has not done other latest research for a long time. Qin Yuan directly gave them Completed indicators.

Originally, Qin Yuan thought that the United States would make some big moves this time, and did so much weapon research, but he didn't expect to spend so many teams. After making such a big move, it is reasonable to research these.

So after submitting the latest research blueprint this time, he was about to leave. This was all exchanged from the system mall. Now the system mall has not been updated. At present, this is the latest one.

It didn't take too much time at the research institute, and Sun Hongming was still anxious to come to Qin Yuan, after all, the research blueprint was too successful.

There is no room for any mistakes in every step. You must know that Qin Yuan has never experimented in the laboratory, and he went directly to the field to make it. When he just arrived at the gate, he saw Qin Yuan's car was about to leave.

"Captain Qin, wait a minute."

Qin Yuan had no choice but to stop the car and ask him what was going on. Sun Hongming was running out of breath. He was already a little chubby, but now his face turned red.

"Captain Qin, I really didn't expect that I have already adapted to the batch of guns just now, and there is no problem at all. I am really curious about how you did it, so I would like to ask you to stay for a few more days."

Qin Yuan smiled slightly. It turned out that this was the matter. He waved his hand, expressing that it was a trivial matter, and asked them to try out these guns first, and then bring them out when he has other new research later.

"What I mean is that I want to apply for you to stay in the research institute directly. I really think that the research institute is the most suitable place for you!"

Sun Hongming's face was full of enthusiasm. He really thought about it for the research institute. Qin Yuan was able to produce so many things in a short period of time. He really admired him very much. He wanted Qin Yuan to stay.

"Director Sun, I would like to thank you for your kindness. I am used to being free. This place is not suitable for me, and the brigade over there really needs me for many things."

After finishing speaking, Qin Yuan kicked the accelerator and rushed out. He didn't care about Sun Hongming who was behind him. He felt a little helpless. He felt that the person in front of him was really a weird person. One must know that working in the research institute is much easier than that of the war brigade. .

The dean of the research institute here came out, and he looked at Sun Hongming with a smile, "Don't bother, we have already told him what we should say before, but his mind is not here, anyway, he has something to say." Anything can come to mind, and we can just be content here."

After all, in his opinion, these talented people have some eccentricities to some extent, and it is normal to have a little temper, and to be honest, this temper is nothing.

Qin Yuan only took four or five days to come to the research institute this time. The main reason is that he rushed back in such a hurry. He got a brand new thing from Director Sun. It was the triangle team from the United States. They made a special breakthrough formation.

This formation is indeed suitable for the special operations team. He is not going to imitate, but to do homework, specifically to explain this formation to other special operations members.

There are relatively few missions that can be assigned to them recently. Most of the missions he can send out should be completed by other new special forces members as much as possible.

So everyone was in the brigade. Long Xiaoyun, who he found first, explained the matter to her, and Long Xiaoyun was very interested.

After all, the opponent can have such a brand-new tactic, and they also want to see if they can make a breakthrough in research. In this way, everyone gathered in the conference room, except for those who went out to perform tasks.

Because the red blood cell team and the wolf commando team belong to two relatively important teams in the brigade, they are both in the front row, and whoever is missing can be seen at a glance.

Qin Yuan took a closer look and found that the seat at Hechengguan was vacant, but most of the other team members had already arrived and began to take their seats in the conference room.

"What's the matter with that kid? Didn't I just say that? Everyone comes here, even those who are training."

"Brother Qin, he's not feeling well today. He's resting in the dormitory. Shall I call him over now?"

When Qin Yuan heard what Li Erniu said, he probably understood that this group of boys were still playing tricks with him because they had been together for too long.

With just one look, he knew what these people were talking about, and because there were so many people, he didn't want to expose them, so he didn't bother, and started the lecture first.

He also approves of the assault plan of the American triangle team. After they lost their super weapons this time, they have been improving themselves, so the assault training like this has been strengthened a lot.

However, in his opinion, any training is a breakthrough method, and he can find weaknesses, and he quickly finds points where he can counterattack.

He spoke very carefully, and said that from now on, he will repeatedly observe their team's offensive formation, as well as the plan he was willing to provide before, and will have a comprehensive confrontation on Saturday.

The exercise is also going to be repeated, which is the assessment goal for this week. After the meeting, Qin Yuan originally wanted to ask about the situation. The members of the other teams also had some more detailed questions, and he was discussing with them to deal with them.

Just like that, he didn't ask any more about He Chenguang's matter. He Chenguang also came back that night, so he didn't say any more.

By Saturday, their red blood cell team does not need to go directly to the training ground, but needs to maintain order around them and ensure the safety of the players.

The beginning was pretty good. All the members of the red blood cell team had merit points added by Qin Yuanyuan. Their physical functions are very good. They can persist like this. Until the team training in the afternoon, the vitality of the other team members was still relatively sufficient. , but something went wrong with He Chenguang.

Qin Yuan usually left these things to them with confidence, and he would not go down to patrol, but when he walked to the side where He Chenguang was in charge, he found that this kid was sleeping soundly.

More importantly, as a veteran of the special forces for so many years, Qin Yuan came to him, but he didn't notice anything.

Qin Yuan wanted to test his reaction, and his gun was right next to him. Just as Qin Yuan bent down to pick up the gun, this guy came to his senses, turned around and quickly picked up the gun.

Seeing clearly that it was Qin Yuan, he smiled awkwardly, "Brother Qin, why are you here?"

"You kid is really good enough. What do you want to do when you sleep here at this time?"

"Hey, isn't this a bit too boring? I haven't had anything to do here. I want to deduct a few minutes, and I know it all well."

It can be considered that nothing happened, Qin Yuan didn't talk to him again, but left after a few verbal warnings. The simulation training this time was relatively smooth.

Qin Yuan specially made a USB flash drive, and then distributed all these materials to the companies below. This is also a learning opportunity. Although this is between the teams, it can let them know how the enemy's tactics are progressing.

#### Chapter 1787 Rescue the Female Reporter

Soon Qin Yuan and the others received a secret mission. Qin Yuan originally wanted to send the Blade Squad to train them, but the above said that this mission was very important because they could not reveal any whereabouts.

Because the task they received this time was to go to a war zone abroad and bring out a war reporter there.

It's very chaotic over there now, and because of the different situation, they can't participate in many things. They can only rescue people and send them out secretly

This kind of task is commonplace for them, and soon everyone was ready, but Qin Yuan looked at his watch impatiently, and there was still one person who didn't arrive.

Although the stipulated time is to gather within three minutes, because he has just received the order, but everyone is here, why is this guy still not here?

After a while, He Chenguang was seen wearing equipment and running over with his phone on the other hand. After seeing Qin Yuan, he quickly hung up the phone and got on the helicopter with a smile.

"Sorry, Brother Qin, I went to the toilet just now, so I'm a little late, but it's still at the time we stipulated."

"Be careful, and don't think I didn't see it now. I said before that you are allowed to use mobile phones, but don't be too blatant. Sometimes you still have to be careful."

He Chenguang quickly nodded in agreement, then took out beef jerky from his pocket and distributed it to everyone, "Try it, this is brought by my girlfriend, I will satisfy everyone's hunger."

This time, it was considered to be a little relieved. Qin Yuan began to tell everyone about the mission situation this time. After all, such missions are familiar to everyone, so it is more casual.

They need to enter the center of the war. According to the situation, those war reporters were controlled by the local militants because they captured some pictures.

Speaking of this, Li Erniu was a little curious, "This is not right, why only save one person? What happened to her?"

"It's obvious that they didn't go there by a national organization, but broke in unilaterally. Now there is a problem, so they contacted the local embassy, but the local embassy couldn't do anything about it. Completely evacuated."

Now there are two or three staff members left at the embassy to deal with the final aftermath. They also evacuated yesterday, and received the distress message from the female reporter when they evacuated.

Now everyone has completely withdrawn, there is no way to manage it, and the embassy has only two or three staff members, they have completed all the procedures, and now they can't stay there forever, they have to leave, so this is the notification. Special Forces here.

"Good guy, it's too late for this news. They received a call for help yesterday, and they only contacted us today."

"Are you stupid, kid? Think carefully about whether they can be contacted over there? All communication devices have been cut off, and they can only contact us after they come out."

It seems that this is indeed the case. Even their entry this time was carried out secretly. They need to reach the border area of that area first, and then infiltrate from there.

This kind of infiltration is simply commonplace for them, and there is no problem at all. According to the location information of the last female reporter sent by the embassy, they are still more than 300 kilometers away from that destination, which is still relatively far away.

In this case, you must first find a car. After entering the local area, you can see militants everywhere. Now the northern area where they are located has been completely occupied by militants, which is also the most dangerous area.

Qin Yuan asked them to wait on the hillside, and he went to find a way to get a vehicle. At this moment, Li Erniu suddenly pointed to the distance and said, "Look, what are those \*\*\*\*\* doing?"

Following his direction, several people looked, only to see that in the village below the hillside, several militants were dragging a girl out of a villager's house.

The militants had guns in their hands, and the girl's parents begged behind, but to no avail. The girl's parents were older, and were punched to the ground by a militant and pointed a gun at him.

The girl was very helpless, she could only cry in horror, but there was nothing she could do. The militants laughed and dragged you towards the grain drying field outside the village.

"Damn, these \*\*\*\*\* are too inhuman."

Li Erniu squeezed the gun tightly in his hand, because he also has brothers and sisters, he really couldn't see such a scene, but Wang Yanbing who was next to him shook his head at him.

"We can't act now, because if we act, our position will be exposed. These are not things we should manage."

"Watch those civilians hurt like this? And look at that girl! What good does it do to fall into the hands of these beasts?"

Everyone knows this very well, but what can be done now, the task they received this time is not to reveal any whereabouts, and they must be brought out secretly.

Everyone could only watch helplessly as the girl was dragged there, and the girl's clothes were about to be stripped off. At this moment, a black shadow appeared, and Li Erniu took a closer look and it turned out to be Qin Yuan.

But Qin Yuan didn't choose to make a move. Instead, he ran to the side to attract the attention of the militants, and he didn't do anything. He just led the militants around in circles until all the militants in the village rushed out.

After 20 minutes, Qin Yuan ran to the hillside, and those militants had been successfully thrown off by him.

"There is no way around this place. There are no vehicles. We can only continue walking. Let's go to the front and see the situation."

Speaking of this, Qin Zhengyang could only keep up with the team. He turned his head to look in the direction of the village from time to time. Those militants would definitely go back, because there were still a few people left behind in the village.

"Brother Qin, I don't know why you did this. You could have shot them directly just now, and you can definitely get rid of them with your ability."

"This is the real way to save them. Think about it for yourself, can these militants be killed?"

Having said that, Qin Zhengyang suddenly realized that if he had chosen to save the girl just now, it would have brought complete trouble to the village, because these militants had already spread all over the North District.

It is impossible for them to kill everyone. After they leave, the remaining militants will come up, and these villagers will be in danger. Everyone will be shot and killed by them mercilessly.

Just now Qin Yuan lured those militants away and gave the girl some money. He hoped that the girl could leave here. He could only help them in this way, and there was no other way.

On the way to leave, everyone's heart was very heavy. There was no way to do anything, but this was the only way. Looking at it from a distance, it was indeed too embarrassing.

They walked for about an hour, and finally saw a village, but this village seemed to be abandoned, but Qin Yuan soon smelled a flame, there were people in the village, and there was a jeep on the side.

The villagers in this village probably have all fled. This place has been occupied by militants. Qin Yuan looked around. This place is relatively remote, so there should be no problem. They quietly approached the village.

When I came to the center, I found that several militants were sitting in front of the campfire, drinking soup with bowls in their hands.

These militants were talking and laughing, with their guns behind their backs, and they looked very relaxed. After all, this area has now been successfully occupied by them, and it is completely their world.

"Brothers, I didn't let you do it just now, you can do it now, don't be so professional, don't be seen by others?"

Li Erniu and the others had already made preparations. He took out a saber from behind. After Qin Yuan gave the order, several people rushed forward. In fact, they could be killed with a single knife, but they had to be messy and not let people see that this is something a professional does.

Li Erniu first stabbed a militant's thigh with his knife, and then stabbed it in the abdomen. The militant wanted to resist, but he was knocked out with his shoulder. throat.

This method made everyone messy, because it couldn't be seen. After they finished dealing with this side, Qin Yuan checked the jeep, and there were some small amount of supplies on the car.

The more troublesome thing is that the car does not have enough fuel. If you want to run 300 kilometers, it is estimated that you will not be able to reach it, and you can only drive more than 200 kilometers at most.

There is nothing they can do in this place now. Unless they find a gas station, they can only take one step at a time. In this place, they can only rely on a crude map. After all, all communications have been completely cut off.

The vehicles ran wildly on this barren land, and they could see many simple buildings along the way, but they couldn't see any people. This area was completely controlled by militants.

And there will be some gunshots from a distance from time to time, Qin Yuan looked at the map, there is a gas station 50 kilometers away, but it is not known whether the gas station still exists, and if they go, it will still be more adventurous.

Qin Yuan took a gamble and went over to see the situation first. It must be faster to take a car in that place. Just like that, everyone drove to the vicinity of the gas station.

He got out of the car first and took a look. There was nothing special about it. There were a few civilians at the gas station, but he didn't see any militants. Qin Yuan stepped forward first, and those civilians became nervous instantly.

"Don't be nervous, I don't have any malicious intentions, I just want to come over to refuel, can you give me a barrel of gas?"

But the people in front of them were very excited. They saw foreigners here, and they didn't know what it meant. More importantly, an old man standing on the left rushed into the house, and then took out a gun to drive Qin Yuan away. .

Qin Yuan had no choice but to take out money and tell them that he wanted to buy it with money, not to rob them, but these people still didn't buy it.

At this moment, Qin Yuan noticed two women sitting in the corner, holding a child in their hands. The child was very hungry and emaciated, very pitiful.

Judging from this, it is estimated that the family lives here. This area is definitely under the control of militants, but they are not here for the time being. In this case, money is useless.

Thinking of this, Qin Yuan quickly retreated to the side of the jeep, then stretched out his hand, and Li Erniu took out the bread and water inside.

Sure enough, when Qin Yuan brought these things over, their hostility was reduced by half. Qin Yuan tried his best to communicate with them, saying that he only needed a barrel of gasoline and nothing else.

The old man just now nodded, and then walked over with a bucket, "Hurry up, they're coming later, if they find out, we won't survive."

Qin Yuan understood this point. He put the food on the ground and left with the bucket. With gasoline, the vehicles didn't have to worry about it this time. They traveled very fast and didn't encounter any trouble on the road.

Soon to be close to the destination, Qin Yuan and the others chose to leave the vehicle. In this place, the target of the vehicle is too big, and it is easy to expose themselves.

Everyone carefully moved against the surrounding earthen walls, because it was here according to the last address sent out.

As they approached, they soon heard a sound of laughter from a distance. After Qin Yuan and the others entered, they found that there was a river next to the village, and on the river bank, those militants from They are dancing, and on the side are shocking corpses of civilians.

After the militants killed these civilians, they threw them directly into the river, and washed all the corpses down with the running water.

At this time, Qin Yuan noticed a woman in white clothes kneeling among these militants. She showed a photo to others, and it was the female reporter.

It seemed that they were planning to execute someone here, and at this time the female reporter was already trembling with fright. Qin Yuan observed that there were a total of 12 militants around.

The deployment arrangement was made immediately, and everyone skillfully installed the silencer on the wall. "Remember, it only takes three minutes in total. After bringing the people out, quickly retreat without leaving any other traces."

Everyone nodded and understood that He Chenguang and Li Erniu had found the commanding heights, and they began to cover everyone as snipers on the left and right.

Just when the militants were about to shoot, Li Erniu pulled the trigger. The militant who fired just now was shot in the head, and the people on the side were also killed by He Chenguang at the same time.

The tacit understanding of the red blood cell team was very high, and quickly eliminated all these militants. Qin Yuan rushed down, took the lead in protecting the female reporter, and then untied the rope and dragged her to run outside.

He Chenguang and the others filled up the guns behind, trying to make the scene as chaotic as possible without leaving professional traces.

What they have to do now is to evacuate as soon as possible. After getting into the car, Qin Yuan observes the map. The previous route must not be taken. They must pass through the previous blockade line, because they will definitely encounter militants on the way back, so Can only go out from there.

#### Chapter 1788 The Unreasonable Reporter

Five minutes later, He Chenguang and the others quickly boarded the car. The space in the car was relatively small. After several people got on the car again, the female reporter was squeezed into the middle position, and the air inside the car was not particularly circulated.

The female reporter was full of panic now, and she didn't care about that much, she just urged them to drive quickly.

The vehicle moved forward in time, and after driving about two hundred kilometers, Qin Yuan saw a damaged building in front of him.

"Erniu, destroy the vehicle and erase the traces behind it. We will wait for you at the building."

Li Erniu expressed his understanding, and then everyone got out of the car and began to walk forward. If you walk, you can leave no traces. After all, this place is in the form of land. If a car passes by, the traces of rolling are too heavy to be clear at all.

The female reporter was a little confused, so she didn't know why everyone stayed in this enemy war zone. There were militants everywhere, and it was really dangerous. She kept looking behind with a look of horror.

"I don't know what team you're on, but can we leave now? Why stop here? What the \*\*\*\*\* do you mean?"

"Miss Sun, right? The order we received is to protect you and then \*\*\*\*\* you away. You don't need to worry about the rest of the things. We are carrying out these things normally."

Listening to the cold tone, this reporter Sun had no choice but to follow their footsteps, and soon everyone entered the abandoned building.

Qin Yuan began to discuss the current plan. According to the current situation, if he walked forward, he might encounter militants, especially the gunshots just now would attract other armed forces.

In another two hours, it will be completely dark. They can take advantage of the darkness and the chaos of the militants to take advantage of the opportunity to run out, so that they can be invisible.

The reporter next to her didn't say a word. The reporter's name was Sun Ying. She went to participate in an international battlefield shooting on her own. This kind of battlefield shooting is composed of reporters from several countries. They form a small team and then enter the theater to take these photos. and video.

This kind of shooting was originally against the rules, because the local militants definitely didn't want these things to leak out, so seeing these reporters would not have a good face at all, and they wished to kill them.

"According to our current situation, we need to walk about six kilometers from here, but this is no problem for us, but as long as we cross the blockade over there, it will be considered safe."

Speaking of which, Qin Yuan turned his head to look at Sun Ying, "Reporter Sun, you should have no problem walking the six kilometers, right?"

"I have no problem, but now I have an important message to report to you, you must get the camera back for me, and am I the only one of you? We still have many reporters who have been detained by them. Inside the armed base."

Wang Yanbing next to her frowned when she heard this. Is this woman crazy? For a camera, let them find it.

"I'm sorry, Ms. Sun, the order we received is to take you back alone. The others are from other countries and have nothing to do with us."

Hearing this, Sun Ying was instantly upset, and she stood up, "What are you talking about? Although they are not from our country, they can be regarded as my comrades-in-arms. Are you leaving them like this? "

Everyone was speechless after hearing this. This woman is really morally kidnapped. Qin Yuan didn't say much, but just threw the gun in front of her.

"Of course, if you want, can you save him yourself? Think about the situation now, do you want to provoke conflicts between our two countries?"

Unexpectedly, this woman actually picked up the gun and rushed out. Qin Yuan grabbed her clothes and dragged her back.

"This is really a lunatic, and he can't listen to anything at all."

Li Erniu, who just came in, complained silently. After all, he is in disgrace now, and this woman is going out to make trouble.

Seeing that Qin Yuan stopped her, Sun Ying yelled frantically beside her, expressing that she was going to find her comrades in arms and get back the camera.

Qin Yuan shook his head, pushed her into a corner, asked a few people to guard her, and told him not to move around, "I never do anything to women, if you do this again, then I will I can only tie you up, if it is 6 kilometers, it is nothing to us people, and it is easier to carry a person."

But at this time, Sun Ying started to yell, and the words she scolded were even more ugly. It probably meant that Qin Yuan and the others were a bunch of cowards who dared not do anything but hide behind other people's backs.

At this moment, He Chenguang covered her mouth, Qin Yuan also stared outside vigilantly, and soon saw an armed team driving by in a car speeding past.

In this way, they should go to the place where the gun was shot just now, Qin Yuan observed silently, and He Chenguang also warned in a low voice, telling the female reporter not to make any noise.

After the team had completely left, everyone breathed a sigh of relief. The situation is really aggrieved now. If they can play a game openly, then there is nothing to be afraid of.

When it was getting dark, everyone continued to set off. Sun Ying kept looking around. She wanted to run now, but there was no way. If she did, those militants would never let her go.

But she came to this place to capture so much evidence in that camera, and she wanted to take that out and let everyone know the truth.

I have to say that this woman is really naive. In the dark night, Qin Yuan tied a rope around her waist and asked her to pull the rope and lead her to the front. The team members followed behind. , everyone's speed was originally very fast, but because she slowed down a little.

Everyone kept walking until they saw the blocked intersection ahead. Those militants were sitting by the campfire, talking and laughing, and there were not many of them.

There are two heavy machine guns on the side. The firepower of this group of militants is relatively complete. Qin Yuan led everyone to hide in the ravine next to him. Now he wants to find the right time to rush over here. The river on the side crossed quietly, but the weather is relatively cold now.

But this is also the safest, he doesn't want to alarm anyone, so that he can take people out secretly, avoiding others to find out.

But at this time, the female reporter suddenly went crazy. She knew that if she left here, she would have no chance again, so she kept begging Qin Yuan.

"I beg you, can you let me go back and get the camera now? Or help me find it, it's in that armed base, I don't ask you to save people, if you pass by, you can save them ."

"I think you are really crazy, didn't you hear what I said before? Don't worry about that, now do as I said and get ready, we are going to start crossing the river."

"If this is the case, I won't go with you. What's the difference between you and those brutal militants? You don't care about other people's achievements, and you don't care about your life."

Qin Yuan shook his head, this woman is really a lunatic, he looked at the militants on the opposite side, they were still relatively far away.

"What do you think is the use of those cameras you brought back?"

"How can it be useless? I want to tell everyone about their crimes. We should especially as journalists. I have the obligation to announce these crimes to the public and let them know the truth."

"You're so naive, what do you think it's useful to publish these things? Are they going to apologize? Or stop killing because of it?"

This made Sun Ying unable to refute for a while. To be honest, she didn't know, but she felt that as a reporter, she should report these things truthfully.

There was no way, Qin Yuan was really excited when he saw this reporter, and it belonged to the kind that didn't allow oil and salt, so he just hit her directly on the back of the neck, making her dizzy first.

"It's really troublesome. Let's go now to prevent her from exposing us."

Qin Yuan carried Sun Ying into the icy river, and everyone crossed the river quietly without any danger. During the whole process, none of the militants came towards this side. After all, the river here And very urgent, no one would walk this way at night.

Just like that, when Sun Ying woke up, she was already on the plane back home, she was struggling non-stop, with a look of disbelief.

"You know what? It's something I've worked on for a whole month, and I've been there for so long, it almost cost me my life, and now you're just ruining it."

Sun Ying yelled that she was about to get off the plane now, but Qin Yuan told her to calm down, the plane was about to land in 20 minutes.

This time she completely gave up, she fell beside her with a look of lovelessness, she didn't have time to save many things, this time she took such a big risk and spent so much effort, but now it's nothing.

However, she looked at Qin Yuan viciously, "Your behavior is too domineering. I will definitely disclose your crimes when I go back."

Isn't this the real version of the story of the farmer and the snake? It took so much effort for Qin Yuan and the others to rescue this guy from the war-torn area, but they didn't expect to bite him back just after he came back.

Although the mission this time wasn't too risky, there was really no way to deal with this kind of reporter. After getting off the plane, Li Erniu cursed and handed the reporter over to the person who came to meet him.

At this time, Sun Ying didn't know how to repent. When she saw someone coming to pick her up, she hurried forward and said viciously, "Which department do you belong to? Now I want to complain about which branch they belong to. It's really too much." Overbearing, and very cold-blooded, no regard for other people's safety, they won't listen to what I say."

However, the person who came to pick her up didn't say much, but directly put her in handcuffs.

She was surprised, she couldn't figure out what was going on, she kept struggling, but how could she struggle better than the two men next to her.

"What do you mean? Then if you don't use it, I am now the project I witnessed. When I come back, you will arrest me like this."

"Hehe, Ms. Sun, please figure it out. This time, you made your own claim and entered the enemy's war zone. It almost caused international misunderstandings. If militants use your identity to make a fuss, then you think there will be How big of an impact?"

The current situation in all countries is very unstable. Once there is any small conflict, it will definitely break out, especially when it comes to this kind of international affairs. Everyone is unwilling to participate, so they have evacuated their overseas Chinese within a week. .

This kind of civil war will be handled by their own people, and other countries will not manage it.

In the end, this guy was not afraid of death, so he insisted on rushing forward. Now that everyone brought her back, they came to bite her back.

Soon Sun Ying was taken away by two people, and when she was taken away, she was still cursing like a shrew.

He Chenguang shook his head, "This woman is really too irritable, but my girlfriend is more gentle and considerate."

"Since you have a partner, you have been talking about your girlfriend all day long, as if you don't have anyone."

Wang Yanbing was a little sour beside him, After all, he and Qin Zhengyang were the only ones in the team now, and Qin Zhengyang was young, so he really wasn't in a hurry.

Seeing that the comrades around him had already found their other half, he was actually very anxious.

"By the way, didn't you say you were going to introduce your girlfriend's best friend to me? Why is there no news now?"

"Oh, don't worry, let's talk about it, I've already said it, people said that there is no need to push WeChat, let's meet directly and say this is a better opportunity?"

This time, Wang Yanbing was overjoyed, and hurried forward to help He Chenguang take the backpack, "Hey boy, my brother Chen is really good, come here, I'll give you the backpack."

This is a special military airport. Several staff members watched the red blood cell team come back, and they were so relaxed. You must know that they just came back from the enemy's war zone.

The staff beside him also expressed emotion, as expected of the Special Forces, they are so calm even entering the war zone now.

After He Chenguang went back, he couldn't wait to call his girlfriend. Qin Yuan originally wanted to teach him a few words, but after thinking about it, the task has been completed now, and there is nothing else going on in the team, so he just asked him to pay more attention to the influence.

But in the end, this kid really went too far. Although there is nothing to do on the weekend, they are just some training tasks now, but according to the regulations, they need to stay in the team.

In the end, this guy made excuses to go out. Qin Yuan had no choice but to approve it. When everyone was eating at night, Qin Yuan knew another thing. Unexpectedly, this kid had gone out quietly several times.

Chapter 1789 The review department is here

But this is what he said to the players before. If there is anything, they can actually make their own decisions. After all, he was often not in the team before as the captain.

If everything had to wait for his approval, it would be too messy, and he felt that everyone was an old player for many things, and he knew very well in his heart that he would not do those things that violated the rules.

Wang Yanbing looked at Qin Yuan next to him with a bad expression, and he quickly said with a smile: "Brother Qin, it's really nothing, he doesn't go out for a long time, only more than an hour each time, and he helps his girlfriend." Let's go take care of things at home."

"I really can't do anything with you guys. When he comes back, let him come to my office. I have to explain it carefully. Now you can be regarded as the people who lead the team. Don't be caught by others."

Wang Yanbing quickly nodded his head in agreement, and He Chenguang was taught a few words after he came back. This lesson was nothing to him, after all, he had never seen any kind of punishment before.

I can only promise that I will not make such claims without authorization in the future, and that I will be notified in advance if there is anything, and this situation will not happen.

But a week later, Qin Yuan suddenly received a call, which made him uneasy for a moment, and asked him to go to the headquarters immediately.

There are all his old acquaintances at the headquarters, so he is familiar with the road there, thinking that there must be some secret undercover mission, but he has not participated in such an undercover mission for a long time.

The little soldier who came to drive was also talking and laughing. After all, the little soldier didn't know what was going on, but he had picked up Qin Yuan several times before.

"Captain Qin, I really envy you. For a person as capable as you, every time the leaders come to you for something, you can win glory for them. Unlike me who has been working for so many years now, I am just a driver. ."

"Don't think so, I told you, at that time, Er Niu in our team came from the cooking class. As long as you want to work hard and have dreams, you can do anything."

"Really? Then I'll have to try and see."

The little soldier was very happy. Just like that, they arrived at the headquarters after a while. Qin Yuan was quite happy when he got out of the car and stopped. He didn't go out to perform the task alone for a long time. what is it.

But when he entered the office, he found that several important leaders were there, but they were all familiar to him. He greeted them with a smile, but the expressions of the leaders in front of him were very serious.

"Several leaders, what's going on? What's the mission? You called me over in such a hurry."

"Come and sit down first, and see if this person is in your team."

Qin Yuan's tone is not particularly good when he hears the other party here, is there something wrong? He hurried over and was stunned the moment he picked up the photo, because the person in the photo was He Chenguang.

The weapon in He Chenguang's hand was a sniper rifle, and he made a special pose for it.

"This is indeed our cell group, but what's going on?"

"This photo has been circulated on the Internet, but just after it was uploaded, it has been discovered by our technical department that it has been intercepted, otherwise they will soon investigate this person, including the relationship around him. "

What! Qin Yuan was stunned when he heard this, what's going on? And he took a closer look at the photo. The background behind the photo did hide important clues. First of all, it was their training ground.

Moreover, the fighter jets they trained before were still parked on this training ground. He remembered that this photo was taken about two years ago. At that time, they had contact with a new batch of fighter jets, which were also the latest models.

It was also a few people in the team playing around, and the teammates didn't pay that much attention. They took pictures of each other, and it was impossible for these pictures to be circulated.

"Now we are looking for you, just to ask, what is going on? Did he leak it on his own? If so, then he violated the principle of confidentiality. The things behind him, including the equipment he wears It will become something for the enemy to study."

"This kind of situation is impossible to my team members. The confidentiality principle I told them is very high. Generally, this kind of situation will not happen."

Seeing Qin Yuan, he couldn't believe that the leader next to him took out the record of their interception. The digital code on it had indeed been reflected. If it weren't for the hard work of these technicians, this photo would have spread out soon.

"We came here this time to let you stop your losses in time. You have to figure out what's going on. If it's really just a misunderstanding, then I hope you can resolve it as soon as possible, otherwise we will have to send reviewers again."

Qin Yuan nodded, he must handle this matter by himself, and must not let the inspector come to the door, otherwise it will only bring endless troubles.

A few leaders are enough to give him face. They suppressed this matter. Although this seems like a trivial matter, it involves many issues. The first is their internal loyalty, and the second is whether there are spies intrusion.

"Qin Yuan, we trust you very much and hope that you can handle this matter as soon as possible."

Qin Yuan is also really grateful to these leaders. If the reviewers followed the normal process, they would have gone to their brigade long ago.

"Leader, don't worry, I will definitely deal with this matter, but I also believe that such a thing will never happen to my team members. He is also an old player in our team."

"When we called you here, we actually did some preliminary investigations. There is indeed nothing wrong with him, but you have to pay attention to the people around him, and don't let our people be used by others."

Qin Yuan nodded, and left with the photo and the rest of the information. The information is mainly some network lines that were intercepted, and there are some network addresses on it. Qin Yuan can find a breakthrough from this and check to the end. Where is the photo from.

When he came out, the little soldier was still driving him, but Qin Yuan's face was very bad, and the little soldier didn't want to ask too many questions, so he sent him to the special warfare team and left.

Just when he went back, he saw Li Erniu and the others playing basketball on the playground. He walked over and asked, "Where is He Chenguang, tell him to come see me right now."

It is rare for Qin Yuan to call them by their names suddenly, especially seeing his expression is not quite right, "He took the blade team to the back mountain for training today."

"Go and find him, and tell him not to worry about those things, he must appear in my office immediately, and you guys should hurry over here too."

"yes!"

When everyone rarely saw Qin Yuan so serious, Li Erniu didn't dare to stay any longer, and hurried to the back mountain to find He Chenguang.

When Li Erniu came to the back mountain, he found the Blade Squad, but He Chenguang was not there. He was a little anxious. After all, the captain asked him to find someone. If they can't find them later, they will all be punished.

At this time, he heard a voice talking in the distance, as if he was on the phone. He followed the voice all the way forward, and finally saw He Chenguang in a ravine. This kid was still on the phone at this time.

Li Erniu couldn't help but jumped up and grabbed him and dragged him outside, but he didn't expect this kid to be unhappy.

"What the \*\*\*\* are you doing?"

"You are so embarrassed to say, hang up the phone quickly, now I have something important to tell you."

He Chenguang also became serious when he heard this, but he still whispered a few words on the phone, so he was reluctant to hang up the phone.

"You boy is really good enough. Don't think I didn't see that you just called your girlfriend. Did I find that you have completely focused on that person since you fell in love?"

He Chenguang got a little impatient when he said this, and pushed Li Erniu away, "You are so annoying, you have to take care of everything, what's going on?"

"Do you think I want to control you? Do you know what you have messed up? Anyway, the captain is very angry and tells you to go back to the office immediately."

He Chenguang was dumbfounded when he heard this, and quickly shook his head. He didn't do anything, and hurried towards the brigade.

After entering the office, the other team members were already inside. Qin Yuan had a dark face. After He Chenguang entered, he squeezed out a smile, stepped forward and said flatteringly, "Hey, it seems that I have lost face." It's quite big, everyone is waiting for me."

But as soon as he finished speaking, Qin Yuan threw the photos and documents on the table.

"Take a good look for yourself and give me an explanation of what's going on."

"It's just a photo, there's nothing wrong with it."

Up to this time, he hadn't realized the importance of the matter. He picked up the photos and looked at them carefully. There was really no big problem until Qingyuan explained that it was intercepted by the leaders above. will be transmitted.

He Chenguang was stunned when he heard this. He knew that this was a violation of the principle of confidentiality. He shook his head desperately and explained that he didn't know what was going on.

"We usually take this photo with a mobile phone. It is impossible for this kind of actual photo to appear. Did you print it secretly?"

"Brother Qin, you must trust me. How could I do that kind of thing? I don't even have this photo of myself, but I have it on my phone. "

Everyone knew that this matter was serious, but before Qin Yuan could ask clearly, the guard at the door called.

"Captain Qin seems to be someone from the headquarters. They asked to come in now, but it seems that it is not in line with the rules to come directly to our brigade."

While the soldier was explaining, he heard an impatient voice from the other end of the phone, "You don't need to say more, just tell him that we came with the order of the supreme commander, and we are from the inspection department." Yes, no one can stop us."

Everyone else said that about Qin Yuan, and there was no other way but to let them take him to the reception room first. Qin Yuan turned his head and stared at He Chenguang coldly.

"When I went there this morning, the leader over there promised me that we would not let the inspection department come over a lot of things for us to investigate, but now there is no investigation, there will only be one problem."

That means that they found more confidential things, not just this photo, and now it was He Chenguang's turn to be uneasy, and he hurriedly explained beside him.

"Brother Qin, I really don't know what's going on. I've never posted anything. I'm so wronged. I still can't figure it out."

Qin Yuan shook his head, it is not something he can solve now, the inspection department has already come down, even he, the captain, can't make the decision, he can only let others come to investigate.

The speed of the inspection department was very fast. They didn't go to the reception room at all, but showed the commander's momentum and asked the soldiers to lead them to the conference room.

After entering the door, the person in front was dressed in formal attire, looked at Qin Yuan and greeted him politely, "Captain Qin, please trouble me, we are also following orders, I hope you will hand him over to us now, of course we will not take him away, only Accept the interim review here first."

Qin Yuan nodded, what can he say now, everything can only be carried out according to the style of the inspection department.

Of course He Chenguang also understood this, so he was taken down like this, and several people in the meeting room stared at him.

Li Erniu was very worried whether this would affect He Chenguang's other things, "Brother Qin, what should we do now?"

"What else can I do? Follow their review. don't worry, the review department will not wrong anyone, and if there is any problem, I will defend you first, but first you must ensure that you are no problem."

The inspection department was still going on, and at the same time, Qin Yuan also received a mission, which was to cooperate with the border team.

He could only set off with the rest of the team, everyone was still worried about He Chenguang, and Qin Yuan also thought of a question on the way, could it be related to his girlfriend?

After all, this is not the first time this kind of thing has happened before. Speaking of this, he turned his head to look at Wang Yanbing.

"Have you two met before? Didn't he say he wanted to introduce you to his girlfriend's best friend?"

"That's right, but they took me to the bar directly. You know that kind of place. I'm not used to it, so I just came out."

Wang Yanbing also remembered this, "If I have to say it, I always think that Chen Guang's girlfriend is very problematic. We went to the zoo first last week, and I thought that woman was not simple."

Because at that time, the raptor area of the zoo was releasing live birds for the tigers to eat. Most of the girls were actually quite afraid of the \*\*\*\*\* scene.

But He Chenguang's girlfriend and her girlfriends watched it with great interest, and even bought live chickens to feed the lions. At that time, he just thought it might be for fun, but thinking about it now seems really wrong.

The possibility that He Chenguang's girlfriend is a spy is too high. They have experienced such a thing before. Why doesn't this kid have a long memory?

Chapter 1790 Zhou Ping is in danger

"Anyway, I think it's strange why a girl likes to watch such \*\*\*\*\* things so much."

Qin Yuan has not spoken all this time, and now he is waiting for the result of the review of He Chenguang, and it is estimated that the review department has already gone to find He Chenguang's girlfriend, what's going on? You can only look at the back.

After a while, they arrived at the border area. It didn't take a day or two to cooperate with the border fighters here. They had cooperated several times before, so they were familiar with it.

The squad leader leading the team in front came over, and he greeted several people with a smile.

"Captain Qin, it's more at ease to cooperate with you. Every time you come, we are more at ease, because your ability is really too strong. This time our actions will definitely be fine."

"The pressure on your side is really great. The main reason is that this gap always gives those criminals an opportunity to take advantage of it. It just so happened that this time they took the blame and scared them directly."

"I thought so too. Hey, what about your powerful sniper before? Why didn't you see him this time?"

The squad leader was talking about He Chenguang, and the people next to him were a little embarrassed. Qin Yuan explained that He Chenguang had gone to perform other tasks.

"I just said that your special forces team is amazing. A single person can perform tasks, unlike us, but I also admire it."

Qin Yuan is enough to save face for him, after all, the results of the review have not yet come out, and no one knows what will happen in the future.

It's just that Qin Yuan hoped that the result would at least be good, so that He Chenguang could pass the review and cooperate in the battle at the border here. That would be relatively easy, and it would be a piece of cake for them.

In this way, by 4 o'clock in the afternoon, it had entered the stage of the municipal committee, and several escaped criminals were arrested by them, so there was no problem.

The squad leader just came over and expressed his thanks repeatedly, "Fortunately, you are here, so we didn't receive any losses, and we successfully took everyone away."

"You're welcome. We are all brothers in arms. If you have anything to do in the future, just tell us, and we will all come over."

The squad leader was very polite and prepared a gift for everyone, which was a specialty from their side of the border, including He Chenguang's, which he also prepared.

"I'll trouble you to take his share back. If we have a chance to meet next time, let's have a meal and drink together."

Qin Yuan also said a few words politely, and then accepted the gift. On the way back after leaving like this, everyone didn't say a word, because they didn't know what the result of the review was.

After returning to the brigade, a small soldier ran over, "Captain Qin, the comrades in the inspection department said it was over, and I arranged them to wait for you in the conference room."

Qin Yuan originally wanted to ask about the specific result, but after thinking about it, the little soldier probably didn't know, so he shook his head and followed.

The team members behind were all looking forward to it. They hoped that Chengguan was innocent. After all, it was all caused by his girlfriend. Now it can be confirmed that He Chenguang himself is definitely fine. Everyone is very anxious. Know exactly what it is like.

When Qin Yuan came to the meeting room above, the people from the review department got up to say hello to him first, and then handed over the review materials to him immediately.

"Captain Qin, there are two problems now. The good news is Comrade He Chenguang. We have completely ruled it out. He is indeed fine, and his girlfriend is also fine."

What? I didn't expect it to be not, so how did this thing leak out? The comrades next to the review said. The most serious suspect is the girlfriend of He Chenguang's girlfriend.

"We found that the name provided by her best friend was Chen Qin, but when we reviewed it, we found that it was a fake name, and the girl had disappeared."

Not only that, the technical means used by the review department have discovered all the things that Mang sent the photo and how to hack into He Chenguang's phone have been found out.

Now they are doing their best to investigate the girl, and they have discovered another problem, not only related to them, but also related to the Marine Corps.

But this girl's name in the Marine Corps is not Chen Qin, but Chen Min.

The main thing is that mobile phones now have the function of surfing the Internet. They are all searched according to their IP. In the future, they will be able to know where he has been, where he has sent messages, and where he has sent things.

Therefore, the inspection department will immediately go to the Marine Corps to inquire about them. I didn't expect that this matter would have such a reversal. Say nothing.

"Brother Qin, I was indeed wrong this time. I violated the rules and didn't take good care of my mobile phone, but I really didn't know that happened at the time."

The investigation of the prosecutorial department should be that when He Chenguang was charging, the girl borrowed his charging cable, and that charging cable directly stole the data inside his phone. Fortunately, most of the other things inside his phone have been deleted. Only that photo.

Qin Yuan shook his head without saying a word. Now the punishment from the review department is estimated to come down in a week. This situation will definitely be punished.

After all, the upper department intercepted it relatively quickly, otherwise all these things would be transmitted, and the speed of this spy was also a little anxious. She hadn't grasped other important clues, so she wanted to send them out.

After all, He Chenguang's internal data is all coded, and their mobile phones are specially made here. Once there is a leak, they will be intercepted immediately.

This is also thanks to the powerful protection system. Qin Yuan regretted looking at him. Fortunately, the punishment this time was not very heavy, but he will be punished later as a warning.

"Go ahead and tell the team members to go to the office. I'll hold a meeting for everyone and explain the situation this time. I might go to the Marine Corps."

When everyone came to the office, he was willing to explain the previous situation to them. Wang Yanbing was dumbfounded. He didn't expect that girl to be a spy. At first they suspected He Chenguang's girlfriend.

However, Qin Yuan told everyone not to take it lightly, because many things are still uncertain, and what is going on still needs to be further investigated.

"I want to say that I have no objection to everyone looking for a partner. After all, everyone has the right to like and pursue love, but you must pay attention to your own confidentiality principles. First of all, what are our identities!"

Otherwise, once these things are leaked out, not only will it bring trouble to them, but the entire military region will also affect their families in the end. These things are immeasurable.

He Chenguang nodded. He expressed that he knew the importance of this matter. He was indeed in a daze for a while and didn't pay much attention to safety.

I thought this matter was temporarily over, but I didn't expect the inspection department to notify me a week later. As a result, there was no problem with the Marine Corps, and there was no leakage of secrets, which means that the spy at that time wanted to attack but had no chance. .

Unexpectedly, He Chenguang received a call from his girlfriend at this time, and Zhou Ping cried violently on the other end of the phone.

"I don't know... I don't want to call you, but they force me to call you. I really have no choice."

His girlfriend was crying so sadly, He Chenguang was also very anxious, but immediately after the call, another person snatched it.

"Stop talking nonsense. If I'm not mistaken, you belong to the Special Forces team, and it's that very powerful team. I won't name it, everyone knows it very well."

When He Chenguang heard this, his heart skipped a beat. How did the other party know? Just relying on that photo? This is not right.

"You don't have to think about those messy things, you just do what I say, since you are in the special forces, then I know you are capable, and now I need to know all your tactical arrangements, as well as your tactical skills, these things are not difficult for you, are they?"

"You lunatic, do you think I will give it to you? This is a matter of our principle, and I will never make mistakes."

The person opposite suddenly burst into laughter, and then heard Zhou Ping's scream. He Chenguang was very anxious, but the person opposite was not in a hurry.

"I only give you three hours. You have to send me the data. If you lose one minute, I will cut off one of her fingers."

He didn't expect the other party to be so despicable. He Chenguang originally wanted to find other reasons to delay this person, but the other party didn't give him this chance at all.

He hung up the phone directly, and then sent a website, asking him to send the data to this, and also explained that the countdown had already started.

Just when He Chenguang was at a loss, the other party called again, "Also, you'd better not tell other people, or you can tell them, if other people know, then I will greatly shorten the time, I only need two hours."

After finishing speaking, the other party directly hung up, but when He Chenguang called, he found that it was an empty number. The other party had set restrictions, so he had to call.

This time, He Chenguang did not choose to bear it alone. He quickly found Qin Yuan and reported the situation to him. Li Erniu also quickly checked the location of the previous call, but found nothing.

"It's so strange. The place where she called seems to have no signal. I can't find anything. Is there such a place? If there is no signal, how can she call?"

"It means that they have intercepted."

He Chenguang was anxious like an ant on a hot pot. He didn't know why it happened. Isn't everyone in the inspection department under supervision? Why is his girlfriend still arrested?

Qin Yuan could only tell him not to worry, everyone analyzed immediately, and Qin Yuan found the crux of the problem immediately. First of all, what this person needs is the battle plan and data of the red blood cell team. Why do he need these things?

"Think about it, if it is the general kind of spies, the first thing they want is the combat data of our large company. They need to use these data to judge our military strength and military weapons, but they only target our small team. "

It's really strange to say that, Qin Yuan always felt that this method was somewhat familiar, as if it was coming to welcome them.

And the more important point is that the other party recognized them. They are a special warfare team. You must know that He Chenguang had done all the secrecy measures well before, so it was impossible for them to be recognized.

As the time passed, He Chenguang was also very anxious, because the man said that he would only be given two hours in the end.

Even with Qin Yuan's technical means, there is no way to find out the other party's location. There is no way Qin Yuan gritted his teeth and made a decision to ask He Chenguang to send some data to him.

"Brother Qin, are you kidding me? We really want to send the data. This is really a leak."

"Are you a tiger, send us the most basic data. When you came here, we don't need that kind of basic data now. We have already discarded it. You can send that."

Besides, change that a little bit, the other party doesn't know anyway.

After receiving Qin Yuan's instruction, He Chenguang can only quickly sort it out, all the data are accurately arranged, these are all in the computer, he only needs to make a little change.

In this way, he quickly sent the first data, and while waiting, the phone rang suddenly, and that person called.

"Hehe, I didn't expect you to play such a trick with me. This kind of data is not yours at all. How can you use this kind of basic data?"

This made Qin Yuan a little surprised. He didn't expect the other party to recognize him, which meant that the other party must be inside a certain military, otherwise it would be impossible to analyze it so quickly.

He Chenguang also quickly calmed down. He kept delaying the time, "I can't do anything about that data now. I can only find the previous data, and you didn't say it. If you want it, please explain it clearly."

Taking advantage of this opportunity, the people next to him hurriedly started positioning, because the best time to locate was when they were answering the phone.

The other party seemed to know what kind of tricks they were playing, and just sneered, "Stop playing those tricks, I know what you are doing, don't you just want to position yourself? Don't worry, you won't make it through, the time is less than an hour, I have to ask you to send everything in an hour now."

He Chenguang roared anxiously, because he had heard Zhou Ping's scream, but the other party didn't answer him, and hung up the phone directly.

"Brother Qin, what shall we do now?"

Qin Zhengyang quickly operated the computer and immediately took out the positioning map. He didn't expect that the location was so far away from here. "I found the location! It's just on a hillside of Beihuan Mountain."
