

Special Soldier 1791

Chapter 1791 Spy's Two-handed Preparation

He Chenguang looked at the map and immediately fell into despair. Even if they went as fast as they could, they couldn't make it in an hour.

I didn't expect that the opponent knew the terrain here too well, and there was no detachment stationed around. Even if Qin Zhengyang kept searching, Qin Yuan quickly reacted to him. Have knowledge of all garrison troops.

"There's no need to search. I know there's no troops stationed there, because it's on a small tourist island, and it's surrounded by the sea. Even if it's a helicopter, it will take more than an hour."

Looking at it like this, the spy not only knows their side very well, but also knows the overall terrain here very well.

Another situation is that it is very convenient to escape over there, and this guy is probably fighting against them with a death mentality. Once she gets the data she wants, she will immediately tear up the ticket.

He Chenguang was completely desperate. On the one hand, it was his girlfriend, and on the other hand, it was their regulations. This was something that could not be crossed.

He slapped himself on the face, "I think I hurt Zhou Ping. I shouldn't have a girlfriend. People like us don't deserve to have a family."

He was in great pain and kept beating himself. Qin Yuan stepped forward and grabbed his collar, "Hold him here, boy, don't worry, I will arrive at that place within an hour and save the next week's life." Ping's."

After hearing this, He Chenguang raised his head in shock. He couldn't believe it. How could it be possible to pass here? It's a distance of thousands of kilometers.

"Brother Qin, it's too far away, you don't need to comfort me, I know what to do, don't worry, I won't send these things because of my girlfriend, I know how to keep the principle of confidentiality. "

"You talk a lot of nonsense, I'm too lazy to talk to you. Remember to hold her down now, and I'll be there in an hour."

In this way, Qin Yuan set off quickly under everyone's suspicious eyes. The others didn't know what he was going to do, but they could only follow his arrangement.

No matter how powerful Qin Yuan is, he can't do it in front of this speed. Even if he adopts the fastest helicopter method, there is no way to do it.

This time, in order to save He Chenguang's girlfriend, he was going all out. He kept counting the time, wondering if he could catch up. Now he could only make a risky decision. He had already arrived at the side cliff.

The current wind speed can be regarded as giving him a powerful boost, and he can use this boost to fly at low altitude.

At this time, Qin Yuan was already on the helicopter. This time, he had calculated the speed. Now he could only make good use of the helicopter, and then use the wingsuit to fly later.

This is the best way, and everyone in the office is very anxious at the moment, He Chenguang holds the phone tightly, for fear that he will miss the other party's call.

He has never been so worried. He never felt afraid no matter what he was outside before, but this time it is different because he has someone to worry about.

Even at this moment, since he made a living and wanted to quit the team, he looked at the brother in front of him who was comforting him, and stood up silently.

"If something really happens to Zhou Ping this time, then I will quit. I will take good care of her parents in the future, and I will be filial and loyal to her."

Li Erniu was very angry when he heard it, what was this kid talking about? He rushed forward and grabbed He Chenguang's collar, "I'm afraid you are crazy! Are you really going to abandon brother?"

"I'm not abandoning you, but I really have no choice. What do you want me to do? How can we guarantee that we can't protect the one we love?"

As soon as these words were said, everyone was silent, and they didn't know how to respond. Wang Yanbing just walked over and patted He Chenguang on the shoulder, telling him not to think too much, Qin Yuan will definitely arrive in time.

Having said that, everyone knew that the speed of the helicopter could not catch up. He Chenguang watched that 20 minutes had passed, but the other party still did not call, and he felt a little relaxed.

But another ten minutes later, the phone rang suddenly, and the other party's tone was already very impatient.

"I don't understand what you are doing, don't you understand me? Or is this woman not important to you?"

"You madman, what the **** are you going to do? We said we are preparing, I need time now, and the data transmission needs time, because I am deciphering the code on our side."

He Chenguang was almost roaring, he wanted to scare the other party in this way, but he didn't expect the other party to be really bluffed.

There was silence on the other end of the phone for a few seconds, as if she was in deep thought. If you push her too fast, it won't be good if the bowl breaks. The hostage in her hand is the bargaining chip, but the bargaining chip cannot be too tight.

Thinking of this, she was a little relieved, even if she gave these guys two hours, she would not be able to make it through, so she said viciously: "Okay, then I will give you another hour, and the countdown will start from now , I won't care if you send it or not after an hour, I will let this woman be killed by me."

As soon as she finished speaking, she heard Zhou Ping's crying voice on the other end of the phone, "Don't worry about me, I know what he said, it's confidential, I don't know much about it, but don't worry about me ."

He Chenguang wanted to say something at first, but the phone was hung up in the next second, and the other party didn't give him this chance at all.

"This bastard!"

At the moment, Zhou Ping on the other side is very helpless, his body is full of scars, she really can't believe that she was abducted to this place by the so-called girlfriend in front of her, and used herself as a threat.

She really regretted it very much. She shouldn't have trusted this best friend. You must know that when she was suddenly investigated by the review department, she didn't know what happened. The review department just told her to be careful of her best friend.

Then she was completely protected, but under this kind of protection, there were still omissions. After all, this Chen Qin was not a small character, and her skills were very sensitive.

She had dealt with all the people sent by the inspection department, and Zhou Ping, who was in her sleep, didn't know what was going on, so she brought her out of the muddy lake.

"Chen Qin, I treat you well, why do you want to approach me? Or you are such a person."

"Hahaha, I said you are really naive. Do you still believe me at this time? I said that women like you are the best to deceive. "

Zhou Ping shed tears silently, she really regretted it, "It turns out that everything is a trap, including when you introduced He Chenguang to me."

The person on the opposite side smiled slightly, all of this was in their plan, because Zhou Ping is indeed a good-looking person, but they belonged to casting nets everywhere, and they did not expect to be bet by them under such circumstances .

You must know that the Marine Corps has been experimenting, but unfortunately there is no chance to start. They have started from the entire Northwest Region. This time it is a powerful infiltration operation.

To be honest, his target was actually Qin Yuan, but he didn't know the orders from the boss, and finally became the people around him. In this case, they really infiltrated.

On the other side, He Chenguang immediately told Qin Yuan the news, and the other party gave them another hour, which gave Qin Yuan the best opportunity.

According to the current speed, it is definitely in time. The speed of the helicopter is very fast, and it will come to the sea area immediately, but if it passes from here, the sound of the helicopter is relatively loud, which can easily arouse the vigilance of that person, so Qin Yuan from Here you must use wingsuits to fly.

There is still a certain distance from the sea area here to the small island, and the woman just now seemed to have heard a little movement. She raised her head vigilantly, but she didn't hear any sound after a long time.

Anyway, this is the best bargaining chip in her hand. If it is a last resort, if it is a big deal to die together, she still has so many members who can avenge her.

She checked one side and there was no movement, and then walked into the cave. In this vast sea, as long as there is any situation, she can find it immediately, no matter what is close to her, she will be aware of it.

But she underestimated Qin Yuan, he didn't need to rely on other means of transportation at all, he put on his clothes and started to set off.

The pilot on the helicopter had his heart in his throat. This is really too risky. With such a strong wind, and if he set off like this on the sea, would there be any danger?

Although Qin Yuan took very risky actions every time, it was really too scary.

Qin Yuan used his speed, strength, and agility to the extreme. At this moment, he used all his skills at the top.

The pilot of the helicopter glanced slightly. He saw a black figure just now, but it disappeared in a blink of an eye. He even felt dazzled. Why did he disappear in the blink of an eye?

Is it that fast? He was worried if he fell into the sea, but the sea was very calm.

He couldn't stay here any longer, so he could only leave first, but he kept making the co-pilot look over there, and the co-pilot shook his head. He really didn't see anything.

At this moment, Qin Yuan's whole body was tense, his speed was very fast, and then the power of his flight kept flying at low altitude close to the surface of the sea.

Because the speed is relatively fast, and the whole person is kept at the level of the sea surface, the fluctuation of the sea water can hit his face, but it is nothing to him, the lower the lower the lower the possibility of being discovered.

Now I don't know how many people there are on the other side, so he can only take this way, first of all, to ensure the safety of the hostages.

After 20 minutes, Qin Yuan has arrived at the small island where he was positioned. This time he successfully landed on the small island, and did not notice any abnormalities. He has completely opened up the clarity of his whole body, only aware that there is no danger around him. , and already knew the location of those two people.

He also became more and more curious. The other party was really courageous, and he dared to break into this place alone.

At this time in that cave, the spy kept looking at the watch. The time on it passed by one minute and one second, and she became more and more anxious. In an instant, she regretted giving them more time. What kind of tricks are you doing?

In the end, she was really worried, so she called He Chenguang again, "You guys better not challenge my patience, do you really think she is my only punishment? I still have a bargaining chip, and I installed one in the city center." Explode the bomb!"

Everyone was stunned when they heard this. They didn't expect such a situation. At first, they thought the hostages were just bargaining chips. They didn't expect that there was a bomb, and it was in the city center.

This is simply a lunatic's behavior. He Chenguang can only try to stabilize his emotions on the phone, but the other party is getting more and more anxious.

"Don't tell me that. You have to send everything in the last 15 minutes, otherwise I will detonate the bomb and kill this woman in the end. At worst, your people will be buried with me."

He Chen's face was ashen, what should do now? Completely caught in a dilemma, he immediately reported the situation here to Qin Yuan, and Qin Yuan pressed the headset in his hand and whispered:

"Don't worry, there is no problem here. Everything can be handed over to me. I have arrived on the island. After five minutes, I will give you the exact location of the bomb and send someone to dismantle it immediately."

Everyone was very cautious when they heard Qin Yuan's voice on the phone. Could it be that he has already arrived, and he said that the specific location of the bomb will be given after five minutes. This speed is too terrifying.

"I'll go! How do you think Brother Qin did it? Since he really arrived in such a short time, this is simply not the speed of a normal person."

"Don't worry about that now, we'll wait for Brother Qin to send a message."

He Chenguang's hanging heart has actually completely let go, because he knows that as long as Qin Yuan arrives, there will be no problem.

The spy was pacing back and forth anxiously at this time, she kept listening to the movement outside with her ears up, but Qin Yuan didn't make any sound.

At this moment, she heard a slight sound of footsteps, and just turned her head, even though what came was a flying knife, Qin Yuan was close at hand, the power of this flying knife should not be underestimated, it shot through it on the spot her shoulder, another throwing knife pierced her arm.

The spy wanted to resist at first, but Qin Yuan's speed was very fast, and he controlled her on the spot. Qin Yuan then punched the spy in the mouth, and she spit out something from her mouth.

This is the usual method used by those spies. Once they are exposed, they will first swallow the medicine, and then let all the secrets on their bodies disappear here completely.

Chapter 1792: the truth of the game

It can be seen here that the other party is a very professional spy. Zhou Ping was so frightened that she couldn't make any sound. She was willing to do so quickly, controlled the person in front of her, and then directly invaded his consciousness. Before the spy could react, she felt The head suddenly snapped.

Two minutes later, Qin Yuan sent them the address, asking them to rush to the location in the city center, and everything was done perfectly.

And this guy didn't have the idea of releasing anyone at all, created chaos, and then took this opportunity to escape again.

Qin Yuan didn't expect to see an unusual figure in his mind. He knew the man who turned into ashes. It turned out to be a masked man. He didn't expect this guy to appear again.

I thought that ***** was dead before, but I didn't expect to appear again now, and it was still in this way. He had found his trace in that laboratory before, and I didn't expect to mention it here.

It's just that the spy can provide very few clues. He just knows that they are carrying out the orders from above, and the masked man is among the orders from above.

Qin Yuan was preparing to conduct in-depth research, but suddenly the spy on the ground twitched and fell to the ground within two minutes.

How is this going? He couldn't believe it, and quickly reached out to restore the spy, after all, he had this ability, but no matter how hard he tried, the spy on the ground was still.

He hurriedly called the system to check what was going on. After reading it, the system said that the spy was also implanted with a microchip. When this chip detects that a certain sensitive word is touched, it will Automatic destruction.

And the technical method of this microchip is exactly the same as that of the mask bar. This guy now uses such a method to prevent Qin Yuan from finding out his information.

Moreover, this kind of chip directly enters a section of his brain nerve, and it is cut off immediately when it comes to that thing. Even if Qin Yuan has a strong recovery ability, there is nothing he can do about it.

After all, there is no way to come back from the dead. Looking at the dead people on the ground, Zhou Ping tightly covered her mouth. She didn't know what happened. She just saw Qin Yuan questioning her just now.

Qin Yuan shook his head, feeling very helpless. It seemed that the clue was broken here again. He walked over to untie Zhou Ping. to comfort her.

"Don't worry, you're safe now, I'm here to save you."

Under Qin Yuan's constant persuasion, she calmed down. Qin Yuan also called for support from the base. After all, it was inconvenient to take Zhou Ping with her. Send her back first.

In fact, after Qin Yuan figured out what happened this time, he still felt quite guilty, because he knew that the masked man was here for him.

He didn't know why the masked man wanted to reproduce his own tactical guidance, including everything about the team that he wanted to know, which made him a little unclear.

Qin Yuan really couldn't figure out what the purpose was. At this time, the driver next to him had called him several times before he realized that he had already arrived at his destination.

When escorting Zhou Ping down, He Chenguang ran over from a distance. He was very excited, hugged Zhou Ping and kept apologizing, because it was all due to his status.

....Qin Yuan let them go on to the rest of the matter first, because now he mainly wants to figure out the matter of the masked man, and the spy has been investigated deeply by the inspection department, but the spy is dead, and now Qin Yuan is the last Witnesses, including Zhou Ping.

After a week of investigation, Qin Yuan was also in a state of turmoil. As long as the masked man was not eradicated for a day, he would always feel like an invisible bomb.

But at this moment, a piece of news came down from above, which completely interrupted Qin Yuan's thoughts. Long Xiaoyun went directly to the office to look for Qin Yuan with a serious face.

She was holding a newspaper and a document in her hand, "Look at it quickly, something big happened outside."

After Qin Yuan took the newspaper and checked it, he found out that a competition for special forces was held abroad. This kind of competition is actually very common, just like the hunter training they participated in before. Competition selection.

It's not just that some of the more outstanding teams from the other military regions on their side will participate. After all, their side is now focused on missions, and it has been a long time since they have participated in a game like this.

But this time there was an unexpected situation. In fact, the headline in this newspaper was very eye-catching.

"The God of War of the Yan Kingdom has become a legend. The Yan Army team has seven members, and the entire army has been wiped out. It has not entered the top 16."

How is this going? The top 16 didn't go in and checked the detailed situation inside. There were 25 teams participating in the competition this time, but they didn't even make it to the top 16, so they were terminated directly.

Long Xiaoyun sighed, now those foreign media are making a big publicity report, which is basically a little insulting, after all, they have magnified this matter.

"Now those guys are overwhelmingly saying in the media that the Yan Kingdom's army is no longer good, especially for special operations teams like this. The legends they have laid down before have become a thing of the past."

"This is really in line with their usual style. We haven't come out. They really thought there was no one else?"

However, what Qin Yuan was more curious about was what was going on with this team. According to their usual situation, it was impossible for them to have such poor grades.

Not even entering the top 16, this is indeed a bit too exaggerated, but soon Long Xiaoyun handed over another document, she said that only the captain of this seven-member team finally came out alive.

Having said that, the atmosphere was a little sad in an instant. After all, it is very difficult for every soldier, especially a special operations team like this, to be trained. Only one of the seven returned.

They don't know the specific results of the investigation, and they handed over the investigation to Qin Yuan at work, and wanted Qin Yuan to represent him again.

After all, this matter was already three months ago. The competition of the previous quarter has ended, and the competition of the next quarter is about to begin.

"I'm curious, why we didn't know this news before, it's really hidden deep enough."

"After all, this is not a good thing, and I heard that the captain who came back is still in the nursing home, and now he has a tenth-level disability."

Long Xiaoyun explained to Qin Yuan while flipping through the materials that this time the special warfare selection they participated in was really different, completely overturning the previous cognitive concept.

.... The general special training selections before, especially the competitions between countries like this, were all based on group confrontation, but this time it was different. They went directly to the Amazon region and wiped out the militants hiding there .

Of course, this is the final stage, and the selection in the early stage is also very harsh. The selection is similar to those of the previous projects, but the most difficult thing is the actual combat in the later stage.

In the past, several teams were selected against each other, but now they have to fight against militants with real swords and guns. No wonder there is such a high elimination rate.

Qin Yuan just glanced at it, and immediately knew what was going on. Now the Amazon area is flooded, and the international community really took great pains to deal with those militants.

Isn't this just a gimmick for free labor? What kind of award is there to be awarded, isn't it just relying on the country's special forces to eliminate those militants.

"And you see that the biggest beneficiary in the Amazon area is the United States. Don't think about it, it's all planned by them."

Long Xiaoyun nodded, that is indeed the case, the country of Mi is the biggest beneficiary, that area is so chaotic, it is not good for them, many of their goods have been robbed there, and friction has always occurred.

Besides, these guys didn't do it once or twice, and they did this kind of stunt every time.

"I will explain this matter clearly to the above. We will not go to this muddy water. It is not necessary at all. Although I have this ability, I don't want to help others."

Long Xiaoyun was a little embarrassed, and she coughed slightly next to her, "Although it is true, but the bounty they gave this time is very high. The team that finishes first will not only get 30 million US dollars, but also The latest batch of hydrogenation weapons they developed in the United States is used as a reward."

Good guy, it's no wonder that the special forces from so many countries are desperately going there. The things this guy gave are indeed relatively large.

If the money is not earned, it will indeed feel a bit of a disadvantage. Qin Yuan is already prepared, "Let's go, let's go to the nursing home now to see what the captain said. I want to know the real situation."

Long Xiaoyun's face was black by the side, didn't he just say no? Why are you so active now?

However, they quickly followed Qin Yuan's pace, and the two of them drove to the nursing home. This nursing home is relatively remote and relatively quiet. You can see many nurses in the courtyard below pushing patients to bask in the sun.

Long Xiaoyun explained next to it that most of the disabled soldiers in this nursing home are recuperating here, and all the treatment is borne by the state.

After the two went upstairs, they registered, and then came to a ward on the third floor. This time they were going to find the team leader, Chen Ziqiang.

Knowing that he was looking for Chen Ziqiang, the doctor next to him sighed slightly. You must know that there have been a lot of people looking for him in the past few months, and the threshold was almost broken. But, this Chen Ziqiang's condition has never been special. Stabilize.

Just when the two were about to go in, the doctor hurried over and told them not to say anything that irritated him. Apart from physical trauma, this man was also traumatized psychologically. After all, all six brothers died outside.

... Qin Yuan expressed his understanding, and just opened the door and walked in. The inside of the ward was very tidy and kept the same style as before. The left leg is gone.

Hearing the movement, Chen Ziqiang turned his head. He was almost used to people coming to him, so he just walked over.

"What else do you want to ask this time?"

"That's right, we are from the Special Operations Brigade, and my name is Qin Yuan."

Just as Qin Yuan finished his self-introduction, the eyes of the people in front of him widened. His face was full of disbelief, and he was very excited, "You are finally here. I am waiting for you. I thought they would not send anyone to participate. , but if you participate, there is definitely hope."

This made Qin Yuan a little puzzled, but Chen Ziqiang said to himself from the side, what is it to avenge his brothers and to gain honor.

Qin Yuan walked to his side, pulled his wrist and began to treat him. His nerves were indeed a little disturbed, and he would rather feel that there was still a shrapnel in his body.

It was near the spinal cord, and the current method really couldn't remove it. The shrapnel could be said to support him. If the shrapnel was taken out, he would also be paralyzed.

However, under Qin Yuan's slight treatment, his nerves were completely relaxed, and he began to think normally when speaking.

It turned out that what he said at the beginning was indeed true, , but the leaders above didn't believe it, and it wasn't that they were incapable of stopping at the top 16.

It was because they were conspired by other teams. In the Amazon jungle, the people were sinister, and the militants were not the most terrifying, but the players from the surrounding countries. ..

"Do you know? I really couldn't do anything at the time. We were in charge of the operation with country a, but when we cooperated in the search in the jungle, they suddenly shot us in the back!"

According to what Chen Ziqiang said, at that time they were still undergoing elimination and selection. During that period, they had cooperation from various countries and then occupied the high ground. Basically, it was some simple confrontation training.

Only those who really come out of the selection battle can enter the Amazon region, and finally kill those criminals, and select the first place based on the number of criminals.

"Why did the soldiers from country A suddenly attack you? What was the effect of this matter after you reported it?"

"To be honest, I don't know what happened until now, but they didn't admit it, and all the traces of the ammunition at that time were checked, and there was no problem."

The results given to them over there said that during the training process, militants suddenly came in and shot them, which caused them to stay in the top 16 directly.

To be honest, this result is really far-fetched, so until now, the leaders above are still investigating. It's not like Chen Ziqiang said that no one believes him, but that we must pay attention to evidence in front of this situation.

This has already involved international teams. If there is no evidence, it is really difficult to make a decision, and the above is also very difficult.

Chapter 1793: come to amazon

When Chen Ziqiang said this, he was really excited. He slapped himself on the face, thinking that it was all his fault. He didn't protect the soldiers well. As the captain of the team, he survived like this.

And it was very lucky that he survived at that time, because the other party did not check the left and right sides at that time, and there were soldiers who were training, and everyone ran over quickly when they heard the gunshots.

And he was lucky, a team member in front blocked the gun for him, but he was still shot through one leg. After all, it was a submachine gun at close range, and his leg couldn't be saved at all under such circumstances.

At that time, he thought that he must be doomed, after all, he would definitely not keep alive, but no matter what he said, no one believed it, and all the guns of the Chinese soldiers were replaced, and when they checked again, their guns The gun and the bullets were all untouched.

Qin Yuan stepped forward and pulled him. Chen Ziqiang's left side of his face was already swollen by himself. He felt that he was sorry for those brothers.

"It's been three full months, but no matter what I say, they don't believe it, and now I know what everyone thinks, they all think I'm a deserter, I'm the only one who survived, but the one who survives It's the most painful."

After Chen Ziqiang finished speaking, he squatted down, hugged his head and began to cry bitterly. What was in his heart also needed to be vented. Qin Yuan just listened quietly, and so far no investigations have yielded any results.

After listening to what he said, Qin Yuan felt that there was something tricky in it, and it was definitely not that simple. Why did he attack them suddenly? The benefits involved are more important.

As for the things reported by the media, he didn't care at all. For him, they were all on the bright side. Anyway, the foreign media like to seize these bright spots and start to hype the reports, which are completely untrue.

What he needs now is that he knows the truth, and he doesn't want other special forces to take risks again. This time, the upper part probably sensed something was wrong, so they let them go. Otherwise, according to the normal situation, the southern side would be arranged A special operations team.

"Don't worry, I will go there in person this time. I want to investigate and see what's going on. I will also seek justice for our team members. It is impossible to let this matter disappear like this!"

Chen Ziqiang didn't say anything when he heard this, and knelt down directly with a plop. Before Qin Yuan could stop him, he kowtowed his head.

"Captain Qin, as long as you can avenge my brothers and seek justice for them, I will treat you like a cow and a horse, and I can do anything."

"These are what I should do. You have been wronged, and I will definitely seek justice. But at the same time, I also hope that you can live a good life. This is hope, do you understand?"

Chen Ziqiang nodded, his heart knot was opened at this moment, after all, someone believed in him and was willing to do this thing, he was no longer as depressed as before.

The situation here has been clearly understood, the two walked out of the ward, and the doctor behind hurried to catch up.

"It's really strange. Every time someone comes to him, he will definitely go crazy. He yelled once, but why is it so quiet this time? Didn't you ask anything?"

"It's nothing, but I hope you can give him enough respect. He is a truly brave warrior, not a deserter."

The doctor was a little embarrassed to hear this, so he could only lower his head and smile awkwardly, because Qin Yuan was also warning him.

From Chen Ziqiang's words just now, it can be seen that he also received some discrimination and ridicule. He was the only one among so many people who came back alive, so others thought he must be a deserter.

Of course, for their soldiers, they definitely don't think so. Everyone knows very well how difficult it is in that situation. Only those outsiders don't know, so they will say this.

Although these words were not so fatal, they had added a strong psychological burden to him in the long run. Chen Ziqiang was able to survive until this time, and he was really strong psychologically.

Sometimes language is the best weapon of destruction, which can kill people invisible and completely defeat a powerful warrior.

After coming out of the nursing home, Long Xiaoyun was very emotional. "I really didn't expect the truth of the matter to be like this. I thought they had an accident during training, but now the report above says that they stopped at the top 16, completely erasing their sacrifices. ."

"We can only say this. The mission they went to perform is another kind of secret, and there must be no leaks, so the deaths of those people cannot be mentioned."

Although I can't mention it, Qin Yuan doesn't mean that he won't avenge them. It is absolutely impossible for people to die so unclearly.

"I know the situation this time is more complicated. If it doesn't work, I'll go. After all, your team also went through a review two days ago, and many things are still recovering."

Long Xiaoyun took the initiative to stand up, and she asked herself to lead the team, and her experience is relatively rich, so there should be no problem leading the team there.

"It's because the situation is more complicated this time. I want to personally lead the team to see if you are staying. If there are any tasks in the future, I can only let your wolf warrior team go up. I hope you can take charge of the overall situation."

Long Xiaoyun nodded, she is used to this kind of pattern, it is really good to entrust Qin Yuan to do some things.

After returning to the brigade, Qin Yuan informed the members of the red blood cell team that they were going to participate in the selection for the international special forces team.

Li Erniu was holding up the dumbbells, and felt a little strange, "Brother Qin, we have not participated in this kind of competition for a long time. Didn't we say that we should give them young people a chance? Or let the Blade Team play this time! I saw them before The performance was also very good."

"I know this, but this time the situation is more complicated, we can't let other people go, we can only go in person."

Qin Yuan explained to them what he learned in the nursing home, and everyone was shocked when they heard this.

"I didn't expect this news to have passed three months. We didn't know until now. What should the dead team members do now?"

"What else can I do? Just quietly enter the martyrs' cemetery. This matter cannot be expanded. What is their mission? Even the family members don't know, and until now they don't know how they died."

When Qin Yuan said this, the veins on his face bulged. This was the last thing he could accept. He wanted to seek justice for those comrades who died.

Three days later, Qin Yuan handed in the list of applicants. At the same time, a temporary combat command system was set up in Amazon Area A. To put it bluntly, this is the special selection base.

Their gimmick this time is to fight for the title of Amazon's strongest soldier king, and the staff inside are sorting out the list handed in by the country.

Some well-known special forces teams will not participate in such competitions. Basically, they are some small domestic special forces teams or relatively secretive ones.

However, at this time the staff saw a familiar name, the red blood cell team! He froze for a moment, and quickly took the documents to the opposite office.

There was a man sitting in the office, holding a glass of red wine in his hand, tasting the red wine leisurely. He was not angry when the staff interrupted his wine tasting, but just asked what was the matter.

"Sir, this time the representative of Yan Kingdom is fighting with the red blood cell team!"

What! The officer who was calm just now threw the red wine glass on the table and grabbed the information. How could the red blood cell team come out to play? According to the previous tradition, it shouldn't be. How could they have such leisure to participate in such a small competition?

Thinking of this, he was very angry, because it was all the bastards' fault. He waved his hand and asked the people in front to go down to do the normal registration first, and then made a phone call.

"You ***** are all because you ruined all of our strategies. At that time, I said not to attack Yan Guo, and we will find a reason to eliminate them later, but now there is a problem."

The person inside was the leader of the team from country A who had come to join the battle before, and he was very upset when he was yelled at for no reason.

"Is this your attitude towards me? Don't forget, you are just a person in charge over there. What's going on? Please make it clear, otherwise I will sue the Supreme Minister."

"Hehe, don't threaten me with these things. At that time, I advised you not to do anything to Yan Kingdom. Now the red blood cell team they sent directly, we all can't take advantage of it."

The people on the other side were also very shocked when they heard the news, how could such a thing happen, and according to the plan, all their things are going smoothly.

"Then what should we do now? Can we proceed normally this time?"

"Certainly not. Don't you know the power of the red blood cell team? The only thing we need to do this time is that they can't find any clues. We have to clean everything up."

The people on the other side were very helpless when they heard the news. They had already made all the preparations. This is a rare piece of fat. On the Amazon side, they also conspired for this shady affair.

But the red blood cell team got involved, and this matter was not so easy to handle. In the end, I had to choose to give up silently.

They will still participate in the competition normally, but they cannot leave according to the previous plan. Soon the person in charge notified people from other countries.

Qin Yuan on the other side didn't know the situation here at all. Anyway, for him, it was a piece of cake for him to go to participate in the training and selection.

The night before leaving, everyone was still eating barbecue leisurely around the playground. Training and other things have long been commonplace for them, and the training now is the same as the previous training.

"Brother Qin, how long are we going to stay there this time? Why don't I bring more instant noodles over there? I'm really not used to the food there. To be honest, there's nothing delicious in foreign countries."

"I can have this, otherwise I can't stand eating bread every day, and I can't get used to their messy things."

According to the requirements above, they have to stay there for a month, and the selection is carried out within four weeks of a month, and after the one-month selection is over, they will be directly released into the Amazon jungle.

Everyone understands this, and He Chenguang is absolutely curious, "I just want to know, according to what they said above, the selection has been carried out three times, but why haven't these militants been completely wiped out? Are there still people?" so much."

"The Amazon jungle is a very large primitive jungle, and it is very widely distributed, involving several areas, and the militants are also fleeing relatively quickly, so it is also more difficult to eliminate."

Li Erniu took a bite of the grilled chicken leg, "I don't think you need to worry about this, it's because you didn't meet our red blood cell team before, and when our team joins up, those militants will be gone. It's over."

Everyone laughed out loud when they heard this. This is indeed the truth. As long as they make a move, there is basically no problem, just like the most rampant Somali pirates before have all been solved by them.

Now that the reputation of their red blood cell team has been completely spread, this time it will be regarded as a good deed, and when the time comes, they will return safely with the bonus.

The next morning everyone was ready to set off. This time the journey was relatively long, and there was a special plane to pick them up after they arrived at the designated location.

For primitive jungles without roads, helicopters are basically airborne, which can also save distance and time.

The helicopter had arrived at the designated location, and Qin Yuan saw that the markings had been made below, and there were staff members waiting for them.

When Qin Yuan skydive, he even made a special move, a fancy skydive. Although the person in charge is somewhat displeased with the fact that this kid has to pretend to be handsome wherever he goes, he can't deny it. The great thing is that at such a low distance, people dare to do a fancy skydive.

After Qin Yuan and the others landed, the surrounding staff quickly ran forward to put away the parachute for them. All the actions were done in one go, and the person in charge also stepped forward with a smile on his face.

"Captain Qin, it's really been a long time. I really didn't expect you to come to participate in such a competition this time."

"It's just that I've been idle for too long recently, and there's nothing interesting to do, so I just come here to have fun. I haven't participated in this kind of small fight for a long time."

People directly described this as a small fight, but it will be a real battle later on. The person in charge coughed in embarrassment, and then led them to continue walking inside.

Their attitude is simply very enthusiastic, and there are people around to help them carry their luggage, which is really different from before.

You must know that when Qin Yuan brought the team out to participate in international competitions, not many people knew about them at all, and it was a completely contemptuous attitude.

Chapter 1794: strong momentum

Now the attitude of these people has really changed 180 degrees. Even the tents have been prepared for them. Everyone here lives in a temporary place, but the tents also have different sizes.

From this point of view, the tent where Qin Yuan and the others lived was very big, much better than those next to it. Their national flag was already planted in front of it, and the staff cared for them to carry their luggage inside.

The person in charge here also rushed up, and he introduced himself.

"Captain Qin, this is the first time we've dealt with each other, but I've heard of your reputation before. My name is Yukkin, and I'm the person in charge of this area. I'm in charge of everything."

"Well, that's no problem. By the way, I see that the notice above yours is that the official selection will start tomorrow, right?"

"Yes, today is to welcome everyone to come here, and tomorrow will officially start."

"Okay, there's nothing wrong now, you take me to the place where our team members had an accident before, I want to see what's going on."

Yukkin was very upset when he heard this. He didn't know if the person in front of him could see anything. Anyway, in the previous legends, it was said that this person was at the level of God of War, and he could see even a little problem. .

He was very nervous, but he couldn't refuse the request of the person in front of him, so he could only force a smile, "Okay, no problem, then take a rest here, and I'll take you there right away, after you guys sort it out." From now on, we will leave immediately."

What he was thinking in his heart was that he hoped that while they were cleaning up, he could clean it up again as quickly as possible. Although there were investigation teams who came to the scene before, those investigation teams were good at fooling the people in front of them.

However, in the next second, Qin Yuan didn't give him any chance to refute, and just said coldly, "Take me there now, I don't need to make any arrangements."

And when he turned his head and saw Qin Yuan's eyes, he was stunned for a moment, that eyes already said everything.

There was absolutely no way to refuse, no way, he could only squeeze out a smile and take Qin Yuan to the accident site.

It was quite a long way from here to the place where the accident happened, and Yukkin himself was a little fat, and he was out of breath after walking for a long time.

Qin Yuan was waiting for him all the way, but looking at this guy, he always felt guilty. His eyes kept dodging, and he only walked out for more than half an hour before he said he wanted to go back.

"Captain Qin, I really can't remember exactly where it was at that time. Otherwise, let's go back first, and I will let other clear team members take you there, okay?"

As soon as he finished speaking, a flying knife quickly slashed across his scalp, and slammed into the tree trunk behind him fiercely. He turned his head with a look of horror, only to see that the flying knife had completely sunk into the tree trunk. How big is that? power?

Qin Yuan didn't say much, just turned his head and smiled, "Ah? Is there something wrong with what you said just now? I didn't hear clearly."

"No, absolutely not, I'll take you there now, I remembered, where is it?"

This guy's reaction speed was several times faster than before, and he immediately led the way, and his body was not that weak, and he walked like flying.

The more this happened, the more Qin Yuan felt that there was something wrong. His performance was enough to explain everything. After another half an hour, they finally arrived at the scene of the accident. Although it had been three months, they could still be seen around. There are no traces of battle.

Because it was a bullet fired by an assault rifle at close range, the surrounding tree trunks were also affected, and a collapsed bush could be seen. He stepped forward to check carefully. Some bullet holes could be seen on the tree trunk, but no bullet casings were found.

"Where did you collect these shell casings?"

"These are all at our base. At that time, your investigation team came and collected some of the shell casings and took them away. All of them are 5.45mm."

In other words, this guy is also hurrying to get rid of the relationship. He said that all the bullets used in the training camp are 7.92mm.

They are doing everything in accordance with the rules and regulations, and it is absolutely impossible for the problem to arise on the side of the training camp.

"I know that there were big doubts at the time. The team member surnamed Chen among you said that it was done by the players from country A, but after our comparison and analysis, this statement is not true at all."

You Kejin kept talking beside him, Qin Yuan didn't listen to him at all, a lie is a lie, no matter how much he listened to, Qin Yuan turned his head and looked at the surrounding environment, first of all, if it is according to what they said, There are militants suddenly attacking this side, which is even more untenable.

According to what they said at the time, there were a total of four assault teams training in this jungle, because they had to cooperate with each other to achieve the purpose of training. This time the results were due to the cooperation of both parties.

On the way here just now, he kept observing the terrain. The trees on the left side were relatively sparse. If militants suddenly stepped forward, his team members would definitely be able to react.

Yukkin was still talking about the situation they were investigating at that time. Qin Yuan suddenly came up behind him and slapped him on the shoulder. He was so frightened that he broke out in cold sweat. What did this guy want to do? Don't kill people like this here.

"Relax, don't be so nervous. It's just that I have a question. Look at what you said just now that the militants rushed from the direction of six o'clock, but the direction of six o'clock is an open field."

"Yeah, so what's the problem?"

Qin Yuan took out the dart he was carrying, and quickly slid it towards the direction of six o'clock, and then heard a little movement in the grass, he patted the shoulder of the person in front of him, and asked him to go to the grass to pick up something.

How dare he disobey the arrangement outside, the people in front of him are not easy to deal with, he was terrified, so he could only run over to check the situation, and when he walked in, he found that there was a rabbit lying down in the grass.

The three darts all stuck on the rabbit, and the rabbit was lying on the ground and twitching non-stop. He was even more frightened, the people in front of him were really not easy to provoke.

If he didn't speak well, the rabbit's situation would change to him in the next second, and he walked over with his head down without saying a word.

"Don't be so scared, look up, are you really guilty? Am I not asking you the real situation?"

Facing Qin Yuan's questioning, he gritted his teeth, raised his head, and pretended to be indifferent, "Captain Qin, what are you kidding? How could we be in the situation you mentioned? We don't care about everything. It came according to the arrangement, and that was the result of the investigation at that time."

"It seems that the investigators are also a bunch of trash."

He didn't even dare to refute what he said. The person in front of him was so strong that he didn't even dare to raise his head just by looking at him.

Qin Yuan said at the side that there is an open field in the direction of six o'clock, let alone those militants, even if there is a rabbit, normal people can hear it.

"My team is a well-equipped special force. They can't even hear the militants approaching. Are they a bunch of waste? Even if I send a group of recruits here, he can see people."

"This... We don't know about this. The people we investigated at the time did find that there were traces of escape. Those militants should have launched a surprise attack."

"Oh, but didn't you just say that the militants were fighting against you, why do you say that there are traces of escape now? What's going on?"

This time his psychological defense was completely defeated, but he couldn't provoke the person in front of him, "Captain Qin, I'm not here to conduct the specific investigation... There is a special person in charge. After returning to the base, I will ask them to come in person tell you."

Qin Yuan snorted coldly. When he came to this place, he probably already knew the situation. The militants were completely fabricated by them, and there was no such situation at all.

"Okay, but I still have a question. Who did the autopsy on my team members?"

Yukkin was already sweating profusely, "It's also inside our base, and all the autopsy reports can be shown to you when we get back."

Qin Yuan was not talking, and strode forward with his hands behind his back. He was relieved for a long time. The people in front of him always gave him a very oppressive feeling, which made him unable to even lie.

Such a person is really terrifying. He doesn't know what will happen next, but he just hopes that the matter will not be exposed, otherwise there will be no good end for those involved in this matter. This guy is famous for revenge.

Before, it was because some pirates robbed their merchants. He cleaned up all the pirates in that area. It was completely crazy. Such a person is really scary.

He followed with the rabbit in fear all the time, and when they returned to the camp, the aura on Qin Yuan's body slowly relaxed. He really deliberately released his aura of king in front of this person.

Facing such a person, he must have a sense of oppression to defeat his psychological defense. More or less, he has grasped some clues. First of all, a person can confirm that they are lying, and that kind of situation is simply not true.

And now he also wants to give these people a bad start, telling them not to engage in such petty tricks, he wants to find out the truth of the matter, and he also makes it clear that he is here to investigate.

After arriving at the camp, Li Erniu also came out to check the situation, Qin Yuan pointed to the back, "I just hit a rabbit by chance, go, bring it here, and give us extra food tonight."

Li Erniu walked over with a smile, and took the rabbit from Youkejin's hand, "Brother Qin, this rabbit is quite fat, and your technique is still so professional, the rabbit didn't die directly, he still has a sigh of relief, In this way, we will still be alive at night."

Hearing what Li Erniu said, the person in front of him couldn't hold back at all. It was too cruel, and he could still know which piece was the lifeblood. The rabbit was indeed moving its legs non-stop. He looked at the piece in his hand. Blood, and I was very scared in my heart, worried that he would be the end of this rabbit in the next second.

Just when he was stunned, Qin Yuan came over, "What's the matter? Why don't we stay and eat roasted rabbit together? Oh, by the way, you can take me to the autopsy now."

Yu Kejin didn't dare to say anything, he quickly led the way ahead and didn't return. This guy can be said to be really scared.

Qin Yuan walked over and found a few small tents beside them, which were soldiers from country A, because he had already seen their signs.

The team leader of country A is setting up a tent next to him. He felt a staring stare at him that was close to death. He turned his head and shuddered instantly. What kind of eyes are those? Seems to be able to see everything.

The corners of Qin Yuan's mouth were slightly raised, and such a smile made people feel even more terrifying. He was like a **** of death from hell, scrutinizing everything here. The captain of country A could only lower his head and pretend to be busy with his own affairs.

He was praying in his heart that Qin Yuan would not come over. Just standing opposite such a person gave him a strong sense of oppression. If he came over, he didn't know what would happen. Bu Chaozhou came over.

"What commando are you from?"

Facing Qin Yuan's inquiry, he subconsciously reported his team name, "Report, we are from the God-killing commando team."

"Hehe. This name is not worthy of you."

Everyone froze for a moment when they heard this, and the captain realized why he had to tell him these things, they are their respective captains here.

Country A, a member of the god-killing commando team, was full of dissatisfaction and stood up directly. Although the person in front of him was very imposing, he also wanted to protect his honor.

"What do you mean by that? What do you mean I'm not worthy? Are you worthy?"

"I am indeed worthy, am I not qualified to say you? Three years ago, I went to your place to give you special training. When I was training your senior special forces, you didn't know where Well. "

As soon as he said this, several people were like a discouraged ball. What he said was indeed true. At that time, Qin Yuan's ability could be said to be very strong. Country A also invited him to be a special warfare instructor.

The captain of this god-killing commando is called Buttons, and he trotted over quickly, with an apologetic expression on his face, "Mr. Qin, we don't know where we offended you, but what you taught us is that our name really doesn't deserve it."

"Don't worry, I will give you special training. Although everyone is here to train, I am the only one who can train you. None of you can train me."

When he said this, he deliberately looked at the instructors in the surrounding bases. Those instructors didn't even dare to look at him. Who would dare to confront him? That strong psychological quality can't stand it.

Seeing that the other party has already given him a step down, Qin Yuan didn't bother to argue with him. This guy was probably sent here temporarily because he was worried that the matter would be revealed. He probably didn't know what happened before.

It would be no good to entangle with such a person any longer, Qin Yuan left with his hands behind his back, and went to the coroner first.

Chapter 1795: It's all a bunch of garbage

Yukkin walked in front of him in a daze. He didn't know how long he could hide this matter. At this time, he really regretted that he would not have participated in such a thing with them if he had known earlier. The person in front of him couldn't be fooled at all.

In this way, under his leadership, Qin Yuan saw the coroner. In fact, the coroner was a doctor in the training camp, and he was forced to pull him over to make up the number of people.

But at that time, he just went in to check the wound, and issued a report. At this point, he gave the report issued at that time to Qin Yuan to read again.

"Captain Qin, this matter really doesn't have much to do with me. I just do my job well, and I will complete all the inspections above."

"I know it has nothing to do with you, but you have to tell me how accurate the inspection report is."

When the person in front of him heard this, his heart skipped a beat. How did this guy know? To be honest, there is really a lot of moisture in this report, and he has made changes to many things, including the direction of shooting.

In that case, they could still judge, but at that time the team was isolated and helpless, and there was no one else to ask for help in this place, so they could only follow what was said here.

Qin Yuan glanced at him, and said that he would come to him again. It was just the beginning. Anyway, he must find out the truth of the matter when he comes here. As long as anyone related to this matter, he will not let go Pass.

"Now I'm going to participate in other training things, but this matter is endless. As long as I come to this place, I'm here to investigate the truth, and I'm not afraid of what you guys will do to me."

The coroner couldn't say anything anymore. To be honest, he was just a doctor who was forcibly pulled over. He really didn't know what else to say.

He already wanted to tell the truth, after all, there was something wrong with that document. At this critical moment, Yukkin suddenly stepped forward and stood in front of him.

"Captain Qin, what do you mean by this? We handle everything in accordance with the rules and regulations. If you have any questions, you can talk to our general manager. It seems that they are already waiting for you at the camp. Woolen cloth."

Qin Yuan looked at him coldly, as if he wanted to see through him, and he couldn't help but shudder.

"I'm talking to him, why are you here to interrupt, do you think you have the qualifications?"

Yukkin was even more frightened after being questioned like this, the person in front of him wouldn't attack suddenly, right? At this moment, there was a loud noise from the open space outside, and several people were attracted by the sound.

Qin Yuan turned his head and vaguely saw a few familiar figures, it seemed to be Li Erniu and the others, what's going on?

When he went down, he saw a member of the American team standing opposite Li Erniu. This guy was a **** guy who looked very strong.

However, when he was waving his hand, Li Erniu made a quick move and hit him on the throat. This guy fell to the ground on the spot and twitched non-stop.

Seeing the situation, the people next to him were not calm, and rushed forward. Just when the scuffle was about to break out between the two sides, Qin Yuan rushed forward and stopped it in time. He didn't want any chaos to happen now. Get up, in order to deceive others.

"What's going on? And you'd better not move me."

Before there was a word here, the members of the American team rushed up again just now, wanting to provoke, "What are you? Why command us? Let me tell you, your words don't work here, and your strength is recognized here."

Qin Yuan shot a look at him, and the man who was shouting just now trembled a little. He didn't know why that look made him so terrified, as if he came from hell.

"I'm the captain of the red blood cell team. Why are you so dissatisfied with us? You have to rely on your strength to speak, right? Anyone who is not convinced will fight me!"

Qin Yuan's words were very domineering, he explained that he could challenge everyone in the audience, no matter who they were, he could accept the challenge.

Everyone was stunned when they heard the red blood cell team. Although many special operations teams here have never seen Qin Yuan, they know this reputation. After all, Qin Yuan's reputation is very famous, and he is ranked first on the list of killers. .

After such a long time, his ranking has not been lowered. There is more than one person outside who wants to seek revenge on him, but there is always no return, and no one can hold him.

Including every group training, as well as such a selection, he can really say that he won the prize and got soft. The team leader of the United States saw that the situation was not right, and hurried out and smiled.

"It turned out to be Captain Qin. I'm really sorry. We didn't expect it to be you."

"What do you mean I didn't expect it to be me? Tell me clearly. Do you think that we Yan people are easy to bully, and you think it's the state before? If you don't explain it to me today, no one will want to leave."

Seeing Qin Yuan's domineering state, the onlookers couldn't help it anymore. The people who were eating melons didn't understand anything at all, but they were not convinced when they heard Qin Yuan's tone was too aggressive. .

"You captain is too arrogant. Even if you belong to Yan Guo, so what? You asked the red blood cell team's reputation outside, but you didn't ask anything, and you just came out with an orderly tone What are you to us?"

Qin Yuan moved his body. It seems that he has not set an example for a long time, so that these people can be so bold and dare to stand up and point out casually.

He turned around and pointed at the person who spoke just now, "Come here immediately, anyone who is not convinced can stand up, not just him, I will let you know what strength is, since you have come to this place, Isn't it just relying on strength to speak?"

Yukkin has been following behind, and he didn't say a word. To be honest in this place, there are not many rules in the training camp.

Tomorrow's training will officially start, but selections like this are also necessary. The confrontation between the two parties, or even the confrontation between several parties, has always existed.

So he also acquiesced that the other people looked at the person in charge here with this attitude, so there was no problem.

"Anyway, I have to train sooner or later. Why don't you teach me a lesson now? Do you know why I lowered my status to come here? To be honest, it's more than enough to train you rubbish."

This guy's words are really too arrogant. He is obviously a team member who came to participate in the selection together, but now he keeps saying that he wants to train them.

Originally thought that under such circumstances, if you were an ordinary person, you would have been frightened by such an aura long ago, but Qin Yuan was still not satisfied.

"At first, I thought everyone was a man, but it seems that only these few people are men. What about the others?"

Most of the other people had heard of their reputation before and didn't want to cause trouble. They didn't expect him to say this, which completely aroused the competitiveness among men. Why should this guy say such a thing?

The reason why Qin Yuan did this was that he also wanted to show them what real strength was, and he also wanted to give another warning to dissuade those who wanted to make small moves.

He came to this place not interested in the ranking of the selection, he just wanted to investigate the real reason for the death of that team, what is the conspiracy behind this?

After Qin Yuan said this, more people around stood up. At this time, the people of Yuan Kingdom couldn't stand it anymore. Although their strength ranking is relatively low, everyone has said so, if they don't stand up again It seems that there is no reason at all.

Seeing that their captain was about to take the lead to stand out, an old player next to him hurriedly pulled the captain.

"Captain, you just came here to take over. You may not know the strength of their red blood cell team. I have seen this person before. We have played against them in other places."

"So what about this? Don't mention it to me again. Now that I am your captain, I have the final say on everything. They have already challenged you to the top. Don't you dare to act?"

The captain of the Yuan Kingdom is also very arrogant, fully showing his bullying state, because he knows that there are more and more people now, he probably took a look, and there are more than 30 people who stand up, plus In their words, so many people are more than enough to deal with a few of them.

No matter how powerful a person is, how can he fight so much, and take the wheel battle as an example, this guy can't resist at all, his physical strength and energy can't match it at all.

You must know that these are not ordinary soldiers, they are all outstanding special forces members from various countries, and they have all undergone long-term selection and training. For such things, especially close combat, it is simply a piece of cake.

Seeing that they couldn't be persuaded, the old team members behind them could only helplessly shake their heads. Several people glanced at each other as their captain was about to go, but there was nothing they could do.

In this way, more than 20 people stood up, and there were more and more people around, and the people behind them were all watching, and they couldn't make up their minds for a while, would there be too many people in this battle?

And You Kejin was even more delighted, this guy is too arrogant, someone must come to deal with him, there are so many people, he wants to see if Qin Yuan can bear it.

Because this is a temporary camp, it is not spacious. Under the leadership of You Kejin, everyone came to the training ground behind. Although the training ground behind was also temporarily built, especially the fighting ground is relatively crude.

It is to surround a few wooden stakes, and then circle them out, and everyone can fight in them. According to that position, it can generally accommodate five people to fight at the same time.

Qin Yuan was also a little disgusted, but there was nothing he could do now, so let's go round and round. Speaking of which, he jumped into the fighting arena first, and didn't intend to let his team members in.

"Those who kept saying that they wanted to challenge me just now can come in. You can use whatever moves you want here. Of course, those who don't want to use melee combat are also fine. I can compete with you in anything."

But close combat is the most test of basic quality, and close combat also includes cold weapons.

The American team just caused trouble, but now they shrank back like tortoises. Qin Yuan originally wanted to teach them a lesson. It seems that he really got a bargain for them, and Qin Yuan didn't want to let them go.

"Why, the matter you provoked just now, now everyone came out together, are you just hiding behind and watching like this? Or let's compete together?"

Having said that, everyone noticed that the Mi country team that was really making trouble before was actually hiding in the crowd watching the excitement. Seeing that everyone's attention was attracted by them, the captain of the Mi country team couldn't hold back his face.

In the end, he had no choice but to bite the bullet and stand up. Anyway, there were so many people, he would definitely not be the first one to go up stupidly, and let the others consume their energy before talking, and the people next to him had already lost their patience.

They all thought that they would come in rotation. After Qin Yuan started the battle, his team members were taking turns. Unexpectedly, all his team members sat around and watched the excitement, without the slightest thought of playing.

Soon the game started, Yukkin secretly prayed in his heart that he hoped that Qin Yuan would be injured in this place, so that no one would investigate that matter, and he was too arrogant, someone should really destroy his arrogance arrogance.

"Captain Qin, I just don't know how you want to compete. According to this situation, let's go one-on-one, which is fairer."

"I don't need a one-on-one situation. It's fair to me, but it's not fair to them. If you want to fight with a few people, let's fight with a few people. I think it's only five or five, so as to avoid the venue being unable to perform well.

This guy is really too arrogant, the people below are already ready to move, and they all want to clean him up, otherwise he will save him from being so arrogant.

However, just as Yukkin blew his whistle, he saw a figure flying past him and fell heavily to the ground.

He was completely stunned. It was too fast. As soon as the hand sound fell, the person on the left was kicked on the chin by Qin Wukong, and he flew out of the fighting field on the spot. the person to attack.

It only took two minutes, and the people standing on the field didn't even have a chance to make a move. They were all knocked down by Qin Yuan. Now the whole audience fell into silence, only Li Erniu and the others kept clapping their hands. cheer.

This strength is simply too strong. If the team members were not selected directly here, would everyone think that those few people were beaten out like that on purpose? Is the strength of a person really so strong? One kick could knock a man off that high fence.

The people around were full of disbelief, but the second batch of people followed suit, and everyone wanted to test out what was going on.

Chapter 1796: Stand majestic!

Looking at these unfamiliar faces, Qin Yuan realized that the red blood cell team hadn't been dispatched for a long time. The indifference of these people reminded him of the past.

Here he set up his majesty and let them know who can't move. Country A even dared to attack his own team. After that, he didn't know what would happen.

Qin Yuan just felt that the venue was too small, and he didn't know how long the five of them would fight together, but he would resolve all the battles within half an hour.

Just after he finished saying this, the people around him started booing, thinking that this guy was just uttering wild words, they couldn't bear it anymore, Qin Yuan jumped directly to the outside.

"It's really troublesome, there are so many rules to speak of, let's all go together, you can use any tricks you have."

This made Yukkin unable to control the scene, because everyone became restless, and many people around took out their daggers,

I want to take this opportunity to educate and train the arrogant guy in front of me. Anyway, he said that there is no limit to any rules. uncertain.

Yukkin was worried that the scene was out of his control, so he desperately urged the whistle in his hand, "Everyone calm down, don't do this, if there is chaos, we won't have time to react..."

The excited crowd couldn't manage so much at all, they rushed over one after another, and Yukkin was also pushed down at this time, his whistle fell to nowhere, and the instructors around saw that the situation was wrong, and rushed forward one after another want to stop.

At this moment, a loud voice sounded in the crowd, and the voice penetrated through the crowd.

"I can take responsibility for the matter. If someone beats me to death here today, then I won't pursue anything. This is what I mean by my team members. Everyone present can testify to me!"

After saying this, the scene became even more uncontrollable, how many people wanted to gear up, how could he handle such a chaotic scene by himself?

But at the same time, Qin Yuan also said another question, if someone was knocked down by him in this situation, then he would not take any responsibility.

"Hahaha, I think you are really crazy. What do you think your red blood cell team is? You have indeed heard of your reputation before, but with so many people, do you think you can fight?"

"This kid just needs a beating. Let's go together. Anyway, he said that there are no rules."

Qin Zhengyang and the others sat beside him silently, and he leisurely took out melon seeds and distributed them to Li Erniu, "Brother Erniu, I think these guys are really too arrogant, and I wanted Brother Qin to hold back a little bit, look at it like this It just needs to be slapped hard."

"Especially those from the US, damn, that kid is too arrogant, just now he called us to occupy our tent, who is he?"

A few people were eating melon seeds while talking, completely in natural contrast with the lively crowd in front.

Yukkin was now in a very embarrassing situation. He didn't know who stepped on him a few times, and he ran over rolling and crawling.

"Big brothers, you really have the time to eat melon seeds here. Your captain was beaten up inside, so don't hurry up and think of a way."

"What can we do? The security here and those instructors can't do anything, what can I say? And don't worry, it wasn't our captain who was beaten up, but he beat others."

Although You Kejin had the mentality of watching the fun before, if something happened to Qin Yuan, he must also be responsible here, and he would only make the mess bigger and bigger.

His voice was already crying, and seeing the indifference of the person in front of him, he could only notify the guards to activate the emergency plan immediately and ask everyone to come out to stop it.

However, in the next second, he noticed a commotion in the crowd in front of him. First there was a scream, and then a few people flew out, and then a large number of people fell to the ground.

And the daggers in the hands of the people who fell on the ground also fell off, they didn't move at all, and they didn't have any chance to resist at all, and wave after wave of people went up.

Qin Yuan's speed was very fast, and his boxing skills were beyond anyone's comprehension. Those people didn't even touch Qin Yuan's body, and they were directly punched away by him.

Even the guards next to him were completely dumbfounded by this speed. No wonder this guy was so arrogant. Looking at it like this in a short time, it should be a complete comeback.

Captain Yuan Guo, who had rushed up clamorously before, was the first to be sent flying. He didn't even touch Qin Yuan's body. Thinking of this, he was unconvinced, clenched his fists, and rushed up again. This time he took Out of the dagger saw the timing, and stabbed Qin Yuan in the back.

"It's still some dirty tricks, but it's okay, it's like this on the battlefield, you have to remember, I'm teaching you a lesson this time."

Qin Yuan turned around slightly, kicked his wrist away, and then punched him in the chest again, Captain Yuan flew out like this.

After 15 minutes, Qin Yuan completely resolved the battle. The people behind him saw that the situation was wrong, and there were already wailing people on the ground, and they didn't dare to step forward and ran outside, but how could Qin Yuan let them go, Randomly kicked a stone and hit a person in the back, that person fell down completely.

"Run why run? Just now you agreed to fight, all of them will come here, today you have to fight if you don't want to fight."

What he said was so domineering, Li Erniu and the others applauded one after another, and the people watching the fun were also grateful.

Fortunately, they didn't go forward to look at those people who fell on the ground. This was a real attack, but they were all beaten to the ground.

Yukkin was completely stunned by this scene, he didn't expect the opponent to be so strong, this was the first time he organized and took charge of such a scene, it was really shocking.

The instructors around also shook their heads. It is obvious that these instructors are here to select these people. The instructors must have strong abilities, but seeing that the guy in front of them is more powerful than these instructors, who dares to train his team members.

With his hands behind his back, Qin Yuan dealt with the rest of the people. The surrounding area was very quiet now, except for the people on the ground who kept wailing.

"Er Niu, write down all the people from these countries who fought with me today, and I will have to ask them for training fees later, but today I managed to teach them a few tricks."

"Okay, Brother Qin!"

The people who fell on the ground were also very helpless. It wasn't that they didn't want to get up, but they couldn't get up at all. They were directly released by Qin Yuan in a short time. The weapons on the ground were even more varied. Qin Yuan walked over to pick up a bag of lime on the ground pink.

"I didn't expect you to still use this kind of thing. We don't even use female soldiers anymore. It's really ridiculous."

Although he was ridiculed, how dare the people on the ground resist, Qin Yuan just raised his hand slightly, causing the people next to him to cover their heads in fright.

He went over to check and found that there were heads, small sabers, and darts on the ground, "Look at these things, there are all kinds of things, but they are all rubbish. After all, the people who use them are very rubbish, and these things can be used in the hands of rubbish." It's of no great use."

He stood in the middle and began to mock these people. No one dared to refute, because this was a testimony of strength. No one counted the number of people in the chaos just now, but fifty or sixty people was sure.

He overthrew all these people in one fell swoop, and with bare hands, this had already achieved the effect and completely shocked everyone present.

In addition, it has been stated before that they are willing to fight, and it has nothing to do with Qin Yuan.

Qin Yuan waved his hand and left gracefully, then set up a fire at the door of the tent, and began to roast the rabbit meat.

Only then did Li Erniu explain the reason for the conflict just now. Qin Yuan didn't think it was important. Anyway, he had already established his dignity. He knew that the American team just now was just looking for an excuse to test their confidence, to see if the red blood cell team Still the same as before.

"We are only here to investigate the truth. I also gave them a warning. If someone from them can come and explain in advance, then I will not pursue it. But until now, they are provocative and want to cover up The truth of the matter."

"Brother Qin, that's what I said, why give them a slap in the face!"

Of course Qin Yuan and the others were discussing Zheng Huan on the other side, and everyone had a hard time, except for those who were knocked down by him and went to the infirmary wailing, there was already a long queue at the door of the infirmary.

This kind of scene is really very rare. Several doctors in the infirmary are already overwhelmed with their hands, and most of them have already taken off their wrists by Qin Yuan. This kind of strength is not a joke.

And Qin Yuan was enough to stop, but only the Mi country team was treated specially. Those people were injured, the most serious among them, and they are now being bandaged.

Unexpectedly, such a thing has already happened before the competition has even started, and the selection has not yet been carried out. There is no way, Yukkin can only report to the top and postpone the competition time, otherwise there will be no chance at all. People can participate in the selection normally.

In addition, there is another important issue now, which is which instructor should be sent there. According to the selection rules here, there will be instructors leading them to conduct special training. Such special training is an elimination system.

The time for the special training is one week, and after the end of the week, the general selection of all people will start. This is also a big elimination, and only those who remain in the final competition will be eligible to enter the Amazon jungle.

The tent was very quiet, and more than 20 instructors lowered their heads and said nothing.

Yukkin couldn't take it anymore, he patted the table and looked at these people, "None of you can make up your mind, some of you have been to the hunter training camp before, and the knife point training camp Yes, is there nothing we can do with them?"

Faced with such questioning, the instructor was also very helpless, and a person on the left stood up.

"It's not that we don't want to come out to lead the team, but that we don't have the qualifications. This person is really strong. To be honest, I have been trained by him before. We are not at the same level at all."

This is indeed the truth. Everyone is self-aware. Isn't it humiliating to lead the team now?

So everyone was indifferent and didn't want to pick up this hot potato. After thinking about it, Yukkin planned to randomly assign him to point to the person who stood up and spoke just now.

"Bruce, since you have stood up to speak, it means that you are familiar with them before, so you will lead the team."

He didn't expect that his speech would bring him such trouble. Bruce frowned slightly and said directly that if he was to lead the team, he could resign immediately.

"This kind of thing is not only humiliating, but also I don't know how to get along in the team in the future. I will never accept such a thing!"

Seeing the other party's resolute attitude, the tourists couldn't help feeling agitated. He finally sat in the position of the person in charge, and now this happened again.

There are only three days left for them to start training in groups, but now they can't even decide on the leader of the team. The other leaders are easy to talk about, but the red blood cell group is too difficult.

Just when he was at a loss, a person stood up and expressed his opinion. He felt that since this was the case, it would be better to mess up everything.

Instead of being led by instructors as before, they have become supervisors. They arrange some projects and let them complete them directly, so that the purpose of selection can be achieved. If they can't be completed, they will be eliminated directly. This time they are only responsible for supervision.

This suggestion was quickly approved by everyone. The team that came this time not only included the red blood cell team, but the team from the United States was also relatively strong, so they simply used this method to make their own selections.

"We don't want to offend people like this, and it's the best way to allow them to compete with each other."

Yukkin nodded, He immediately reported the situation to the superiors, although it was enough to be released, but it still needs to be approved by the superiors.

Soon the top agreed, and they probably knew that the red blood cell team had joined the battle. After all, the final decision-making party was still the United States, and the entire event was held by the United States.

The main reason is to pass this selection and then eliminate the militants in the Amazon jungle. During the three days of rest here, everyone was very leisurely.

On the afternoon of the third day, He Chenguang came over with a newspaper, "Look at the news I brought. I said why the United States is so active. It turns out that they have won the mining rights of the Amazon jungle, and there is a forest over there." Huge mine."

Li Erniu was a little puzzled when he heard this, "There is something wrong, isn't the Amazon jungle a tropical wetland jungle? How can there be mines?"

"There are very precious rare earth mines here. These guys can be said to be profitless. Those militants also took a fancy to this, so they operated here. The United States also took a fancy to these."

Chapter 1797: America's Calculations

Qin Yuan looked at the map. This map can be said to be very crude and completely drawn by hand. No wonder these guys have spent so much effort. The militants have also arrived at this place, and the country of America has also arrived at this place. All for this rare earth mine.

"And you can see that the biggest problem now is that this rare earth mine is not that simple. The inside is a natural deep pit. There is no way for artificial machines to get in, so we can only go in by labor one by one."

This is all a matter of later mining. Now it is who has the final say on this piece of resources. Since it was planned by the United States, they can completely follow the reason for developing the training ground here, and then quietly break ground behind the scenes.

So Qin Yuan felt that there must be a reason why the team was suddenly attacked. It should be that one of them discovered something different.

After all, the Amazon jungle does not belong to the country of the United States. If they want to carry out such activities in this area, they can only use this method. These guys are really capable.

After everyone's analysis, several people finally agree with Qin Yuan's statement. This possibility is the greatest, and at present, the suspicion of the United States is also the greatest. Up to now, they have only sent an ordinary team.

The little Mao country that once colluded with them is now in a state of standing still. They are the most honorable, but in this case they only sent a very ordinary team.

He Chenguang and the others have figured out all the situation inside these few days, "Brother Qin, let's put it this way, we don't know many famous teams among these teams. They will have the determination to win, but it doesn't look like this, their purpose is not this."

"Anyway, it's okay if it comes. Since they want to engage in these small tricks, we just need to cooperate with it a little bit, and I will definitely find out the truth of the matter."

In this way, Yu Kejin led the staff to issue equipment to them that night. The uniforms of each team were uniform, but this time, for the first time, the weapons they used were purchased from Yan Kingdom.

All these things are purchased by the organizers, and all the equipment is also decided by them. The specific weapons used are all managed by this side.

A soldier from country A picked up his weapon and looked at this submachine gun, he was a little disgusted, "I don't know where to get these junk things, what kind of good weapons can Yan

country produce, I think it's just a pile of scrap metal , you still have to let us carry it with you, trouble."

Just when he was complaining, Qin Yuan came behind him silently, and then skillfully manipulated the gun in his hand. Now their guns and the equipment on their bodies are all sensor devices.

Because now they are using training guns again, and they don't know when they will fire live ammunition, "Let me tell you, our training guns have reached international standards, or even higher than the standards. A slight touch can accurately detect the blood loss of the person who was shot, and the depth of his wound."

The soldier who spoke just now was very disdainful. He was everywhere, and he hated Qin Yuan to the bone. You must know that they were all overthrown just at the beginning. It can be said that they have been cultivated with great difficulty in the past three days.

"Hehe, isn't it so magical? This is your own thing. Of course you are bragging about it here. I don't think it should be so exaggerated. Now everyone knows that the best military weapons and equipment like these guns must be in the United States. After the United States comes down, our A country can also be regarded as a position."

What this guy said aroused the dissatisfaction of several other people, and people from other teams also stood up one after another. They felt that the weapons of the country of America were good, but they could not turn to country A in the second place.

When several people were arguing about which country's military weapons were the best, Qin Yuan fired quickly and quickly. Before the soldiers could react, they felt a pain in their shoulders and then fell heavily to the ground , because even if this distance is a training bomb, it will be very painful.

"I'm going! You are a lunatic, what are you doing? We just recovered yesterday, and you are doing this to us now!"

"I'm going to be the person in charge at work now. What are you doing? You're clearly targeting us. I've said everything before. We don't even know. You're still deliberately attacking us."

Hearing the noise of several people, Qin Yuan stepped forward, pulled up the soldier who fell on the ground just now, and then raised his right hand, because these devices are all in one set, and the watch on his right hand is used to detect his heart rate, and injuries.

"Please don't get me wrong, I think everyone doesn't know much about our weapons yet, so I specially made a standard demonstration, so that everyone can see what's going on more intuitively."

I only saw that the heart rate displayed on the watch showed symptoms of blood loss, and the heart strength increased rapidly, and the injured part was also displayed, and the artistic data appeared on the right side. blood, the condition of his wound, and directions for medication.

Everyone was amazed when they saw this. They did not expect that the current equipment of Yan Kingdom has reached this level. This is a new research project that Qin Yuan entered the research institute some time ago, but he did not expect to have it out now.

But you can definitely know that this price is definitely not cheap, and it can be regarded as making a good profit for the country. They bought other people before, and now they can use this opportunity to publicize it.

The soldier who fell to the ground just now was still cursing, but he stared at the data on his wrist and lost himself in thought. He didn't expect his technology to reach such a strong level.

"This is the scientific and technological equipment of our Yan Kingdom. It is the latest monitoring equipment. If you have any questions, you can ask me anytime."

They have done this, and others don't have much to say. All this proves their strength. A few people from the Yuan Kingdom stood on the side and watched from a distance.

Their captain was the most seriously injured. He is still wearing gauze on his right hand, and his teeth on the left have also been knocked out. Now his speech is in a leaky state, which is very embarrassing.

"I did underestimate them before, but I think we are not bad. Anyway, there is still a chance for selection. I must avenge my revenge. I don't know what you think."

Several team members looked at each other when they heard this. I'm afraid this guy is crazy, and he is still thinking of revenge under this situation.

One of the old players coughed slightly, "Captain, I think that according to the current situation, we should protect ourselves, and there is no need to become real enemies with them. This will also be very detrimental to our subsequent development."

"What **** are you talking about, did I let you speak? You must obey my orders, don't forget, I am the team leader this time, you just have a few more soldiers than me, you are here What is the boss here?"

The former old team members could only shut up helplessly when they heard this, what can he do to meet this kind of idiot captain who will only bring endless troubles to his team, he is even worried about the future, if he really wants to It's too troublesome to fight against that side.

They are not good at language, so what to say, and at this time Qin Yuan has already put on the equipment, and now they need to test the reliability of the equipment.

If you enter the jungle tomorrow, this is the first training session, and if there is any problem with the equipment, the organizer will not be responsible. Apart from these, everyone is a basic dry food bag.

They need to set off into the jungle at 5 am, and then arrive at a coordinate point on the map at 5 pm. During the whole process, they need to climb over two mountains and cross a river to reach the coordinate point.

After taking the flag at the coordinate point, the team with the shortest time to come back wins, and the ranking will decrease in order according to the time spent.

Of course, they will also receive some interference during the whole process, and there is no clear rule that they cannot attack the surrounding teammates during the whole game, which means that this is a completely open elimination.

Everyone is checking their equipment. In addition to these guns, medicines, and food-based equipment, each of them has an extra distress stick.

This thing is that when encountering life-threatening, or wanting to quit the game, as long as the signal is turned on, a medical team will come to rescue immediately, but at the same time Yukkin also explained:

"I hope everyone can understand. After all, this is a primitive jungle. Even if our rescue team wants to arrive, it will take a certain amount of time, so everyone must think carefully. When we are really in danger, we will act again. ."

It feels like this guy is shirking responsibility when he says this, and he doesn't take the safety of these team members into consideration at all. If they have to wait for rescue, time is still an issue.

But I really don't blame him for saying that. After all, it is a primeval jungle, and no one knows what will happen after entering. Even if they use a helicopter, they have to find the coordinates of the team members, which is quite troublesome.

Li Erniu looked at the tense people around him indifferently. He likes this kind of challenging things the most. Now they are considered by everyone to be the toughest opponents, and they are also the most dangerous.

So now there will be a total of two extremes, one is that once the game starts, everyone will avoid them, and the other is that someone will come to them to form an alliance.

Listening to Li Erniu's sound analysis, Qin Yuan also gave him an appreciative look, "Oh, my brother Niu is really different. I didn't analyze like this before, but now I'm pretty good. of."

"Hey, Brother Qin, don't laugh at me. I'm just speaking based on the current situation. I think it should be like this."

"Yes, almost, but there is another third situation, that is, we will not find anyone to form an alliance with us, and we will not find other people to form an alliance. You must know that this is a big training, and it has no actual power. It's just going to slow things down."

And it's only the first game. Everyone hasn't figured out the situation of other teams. It's not a good thing to choose an alliance at this time, and it hasn't reached a good time.

After Qin Yuan checked that there was no problem with the equipment, he led everyone into the tent. They will set off at 5 o'clock tomorrow morning, so they must have a good rest tonight.

Qin Zhenyang yawned, feeling that the delay was too long. "It's really slow. The official start will only start at 5 o'clock tomorrow morning, which makes us come so many days in advance."

"The non-fighting has already started now, it's just that no one dares to approach us, but it's not necessarily the case in other areas."

This made everyone feel a little strange, but as time passed, it soon arrived in the middle of the night. At about 3 o'clock, Wang Yanbing was suddenly awakened by a movement. He got up and found that other people were also awake. up.

I only heard a noisy sound from the direction of ten o'clock, and it was accompanied by some scolding and gunshots, which made the whole camp unable to rest well.

"I really don't know what these people are doing. Are they so full of hearing? Can't they all sit down and have a good rest?"

"Don't think about it, kid. The person in charge just said very clearly that once the equipment is handed over to us, they will not be responsible for any problems. In other words, someone can repair the equipment tonight. Do it."

It turned out that this is what Qin Yuan meant when he said that the battle started tonight. After all, many teams were not as strong as others, so they could only think of such a bad move.

Destroy other people's equipment and let them have problems in the first selection this time, so that they will have a certain advantage and can enter the following competitions.

"Brother Qin, Your idea is really too early, why did you predict everything?"

"What's this? Wait and see tomorrow morning. It's probably those guys at the end of the crane. They're just fighting each other. In other words, it's better to have a good rest if you have this little time, or else It's useless."

The commotion outside was a bit noisy, but no security personnel came out to stop it. Just like that, when everyone gathered, it was still dark.

But after coming out, everyone also saw that the outside was very messy, and the lights in the camp were also turned on. Now the team needs to be counted.

Yukkin explained it one last time, and then put the map into their hands, "From now on, I can only wish everyone good luck. We have enough time. Of course, this is without any accidents. Trekking through mountains and rivers, the journey back and forth is definitely before 5 p.m.."

As for the other things that happened and delayed the time, then they couldn't guarantee it. This is what he needs to explain in advance, so let's clear up the responsibility first.

Chapter 1798: abandon teammates

Under the instruction of the person in charge with the signal gun, everyone started to set off towards their destination. No one knows what will happen after you enter. completely gone.

Everyone knows that under such circumstances, concealment is the best solution, so everyone is moving forward quietly.

Needless to say, the cooperation between Qin Yuan and the others, and after the team members have been trained, their night vision ability is stronger. In this case, it is not a problem at all. The team has become a straight line, and Qin Yuan leads the way. , everyone followed his footsteps neatly.

Their speed is the fastest. After just half an hour of departure, they are already in the leading position. In this case, there are also team situations. Some teams completely deviated from the direction and kept going in the jungle. go in circles.

So although the time from 5 am to 5 pm is relatively long, they need to use it to distinguish the way during this whole time, and there are various dangers in this primitive jungle.

The American team has always maintained its own progress, and their speed is relatively fast, but they recognize the country A behind as Yan country.

"Thomas, do you see that they weren't so arrogant at the beginning? I think the progress is not as good as ours."

"It's better to say a few words and speed up. The strength of these people should not be underestimated. Although they are behind us, the gap between our two teams is not big, and they will easily copy them."

Having said that, several people also began to pay attention to it. Now is not the best time to attack, but it does not mean that they will not attack. The leader of the US team in front turned his head and glanced at the figure behind him.

"It's really despicable enough. Since you've been following us all this time, you want us to lead them the way. Amoeba, you stay here to set up two traps. Let them suffer a little setback here. Let's get rid of them first."

The one named Amoeba is their right blaster, and they also carry such blasting devices with them, and this time, the sensor device newly developed by Yan Guo is also more humane.

Soon they will be able to see the new functions of this batch of sensing devices, and at this time the team of country A following them has no idea what happened, and the people in front of them also think that it is very likely that they are from the country of Mi or country of Yan.

Everyone has just set off, so their strengths are about the same. The captain of the country A team just led the team past the location where the US team walked, and there was a burst of explosions.

"Damn it! It's really despicable to plant a landmine here."

The team leader of country A didn't expect them to make a sudden attack at all, and they were relatively close, and were directly hit by the landmines in front of them.

In the next second, he fell to the ground. The things that erupted from the mine were all set up and would not cause real damage to them, but the explosion just now did attract the attention of others.

It was just a little bit brighter now, and everyone was looking in this direction, but they all avoided this place wisely, and no one wanted to come to the place where the war took place. Although it was possible to pick up leaks, it would also affect the progress of their own team.

At that time, he quickly realized that something was wrong, because the captain of country a found that he couldn't move at all. He thought that he had fallen somewhere when he fell just now, and the team members next to him hurried up to check.

He didn't have any obvious trauma, and it was only at this moment that he noticed that the equipment was working. The equipment seemed to have inflated several times, wrapped around his whole body, and issued an early warning.

Picking up the watch on his right side and looking at it, he saw that the vital signs displayed on it had been exhausted. This simulated the most realistic situation. If he was injured by this landmine, he would be in this state.

"I really didn't expect that the thing Yan Guo researched is quite advanced, and even this can be detected and sensed."

He gritted his teeth and wanted to stand up, but found that there was no other way. Apart from being able to accurately calculate the follow-up development of this thing developed by Yan Guo, there is also the actual state of his body at the moment. simulation.

According to the real situation, once stepping on this kind of landmine, there is basically no survivability, so now he can only fall to the ground like a corpse, unable to move at all, and the gun in his hand is also lost. effect.

This is the most technological research and development of Yan Kingdom. This can also eliminate some cheating situations in the training. Once a serious injury occurs, it is closer to simulating the real battlefield.

The United States wanted to bring this technological thing back at the time, but they couldn't study it thoroughly. They couldn't touch it. Although they had bought it back, they still couldn't figure out what the research chip was. How did it come about?

You must know that this is controlled by Qin Yuan, and it is a blueprint purchased from the system mall. How could they study it thoroughly?

Listening to the lively noise behind, Qin Yuan smiled slightly. Their speed was so fast that they avoided those petty fights, and he didn't bother to fight with those people.

His sense of direction is very good, he immediately determined the direction, and then started towards that coordinate point. The time they provided before departure was simply too long for him, and he didn't need that long.

This training also assesses their judgment on direction, as well as unexpected situations encountered in the primitive jungle. It depends on whether they can cope with it, and it also tests their survivability.

Qin Yuan's side was very smooth, but other teams were not so smooth. Some teams accidentally entered the swamp area, and there were alligators in the swamp area.

At this time, the swamp is no longer dangerous, but the most dangerous thing is the crocodile inside. Besides, the captain of country A has no choice but to let a team member carry him on his back.

This guy's weight is not good. Now that the team members are carrying him, the overall speed has begun to slow down, and several people feel a little resentful in their hearts.

After all, they were already a long way behind, and the American team was snickering in front of them. At this time, a team member in front couldn't help complaining:

"These Yan people are really despicable enough, they know their equipment too well, and now we have two people injured, the other one of the captain's most serious injury can barely walk, but it too affects our progress."

"I think we made a mistake in our judgment just now. It should not be from the Yan country, but from the American country."

The team members in the back looked strange when they heard this, and asked him what basis he was making his judgment on. After all, the possibility that their previous course of action was almost only the Yan people in front of them was the greatest.

"It doesn't make any sense to judge these now, but I can clearly say that they are definitely not from the Yan Kingdom. They will not engage in such methods at all, and who else can this kind of landmine method be from the United States?"

While they were talking, they heard several explosions behind them. It seemed that everyone was following suit, and everyone wanted to know their opponents as clearly as possible in the first wave of selection.

At this time, the team member carrying the captain on his back completely fell to the ground. He walked out gasping for nearly an hour. The main reason was that there was no way in this primitive jungle. One kick, and now I have to carry this person, not to mention how difficult it is to get away.

One of the team members behind them couldn't move with one foot because he was imprisoned by the equipment. He was following their captain, so he was also affected.

The team member was cursing, trying to take off the equipment, but found that it was impossible, and once he destroyed the equipment, his vital signs also began to be lost, which would be considered cheating.

In the end, there was no way, a few people went to the intermission, and a player on the left looked at their captain, "Captain, although it is not appropriate for me to say this now, but I think it will affect our speed too much, I don't want us Be the last."

"Hehe, I know what you mean, but if it's a real battlefield, can you leave me?"

"Captain, don't be so excited. That's not what we mean, but I don't think it's a real battlefield now. We should decide according to the situation."

In fact, several team members are very clear in their hearts. If their captain is left behind, their progress will be much faster, but it also means that their captain will be completely eliminated, and they will not be able to follow up with them.

Because according to their requirements, no matter whether it is dead or alive, as long as the person is carried back, then this person can continue to participate in the follow-up battle with them, and there is no way to do it now.

At first they were really struggling, but after more than an hour of reciting this, no one could take it anymore. The captain of country A cleared his throat and told them to get ready, and now continue to set off.

"Don't rest anymore. If we continue to rest, we don't have enough time. Go on and hurry up. Now that the sun is out, let's hurry up and leave at dawn."

"Captain, you are really not polite at all when you speak now. You have to know that you can't walk, you can only rely on our backs, and our physical fitness is also affected."

Just like this, a few people had a dispute. They were already behind, and they were still arguing here. In this situation, it is really possible to see all kinds of people's hearts.

Compared with Qin Yuan and the others, the atmosphere was much more relaxed. Under Qin Yuan's leadership, they bypassed various obstacles, and with Qin Yuan leading the way, there was basically no problem.

It was just 2 o'clock in the afternoon, and Yukkin was still basking in the sun on the ground of the training camp when he heard a movement in the distance.

When he turned his head and looked surprised, he didn't expect Qin Yuan and the others to come back. Qin Yuan and the others seemed to have gone through a spring outing, it was extremely relaxing, and no one was injured.

At first, they thought that they quit for some reason, until they saw the flag in Qin Yuan's hand, they actually went to that place to get the flag, and the round trip was a few hours shorter than they expected before, which was simply too much. Exaggerated.

He even felt that the person in front of him was like a monster. Not only was his personal ability strong, but he could also lead the entire team to become stronger.

The instructors in the training camp were completely stunned. Fortunately, there was no pattern like before, otherwise they would have been beaten completely, and the instructors in this camp could not do this.

You Kejin stood up in embarrassment, "Captain Qin, I really didn't expect you to be the first to come back. It seems that your journey has been smooth."

"After all, there is no challenge. Things that can be lived with eyes closed. For me, there is no need to waste time. Come back quickly and take a good rest."

These words were undoubtedly slapping him in the face, but Yukkin felt that what he said was too easy. To be honest, this place is quite difficult, because all kinds of terrain are very dangerous.

At this time, Yan Country has also become the subject of discussion among the various teams. After all, this is their imaginary enemy. As long as Yan Country gets a higher ranking this time, the chances of subsequent assignments will be higher to form an opponent.

After Qin Yuan and the others came back, nothing happened. He just asked You Kejin about what happened before, intentionally or unintentionally.

Because he wanted to find out what happened to the previous team, and when they discovered the conspiracy of the Americans, even he didn't know the location.

It's just a pity that the team members at that time were already dead. If he was there, such a tragedy would never have happened.

He carefully sorted out all the action routes of that team. If we look at it according to this situation, they will also enter that jungle the next day.

Yukkin said that their training on the second day was about rescuing the hostages. They had to go into the jungle to rescue the hostages. The only difference was that the hostages and instructors were mixed. This time the instructor will play the role of the gangster.

In this case, it can be regarded as increasing the difficulty. Although it is different from the previous competitions, they also have to enter the jungle.

Qin Yuan felt that this was an opportunity. As long as he entered the jungle, he would have a chance to find the answer. He also went there when he went to investigate, but he didn't find anything wrong. This time he planned to take another look on the spot.

Just like that, no other team members came back until 5:00 p.m. Qin Yuan's speed was indeed unprecedented, and after another 20 minutes, they finally heard a little movement.

I didn't expect that the team from country A was the first to come back, but there was something wrong with the members of their team, their team was obviously lacking, their captain and another team member disappeared, and they didn't keep up.

Sure enough, these guys decided to abandon their captain after discussion. For the final overall victory, they thought they could reach the first place. For this first place, they really abandoned their teammates by any means.
