

## Special Soldier 1801

Chapter 1801: system task

This made Qin Yuan feel a little strange. He always felt that there was something wrong with the selection this time, and it seemed that he broke the rules of these people after he came.

The main reason is that the selection feels formal, but it is very inadequate in many aspects, such as rescue.

What Yuan Guo reported was indeed the truth, but if he really wanted to target them, there was no need to be so open and aboveboard. Instead, it felt like they were not prepared for anything, including the medical team. He felt that those few doctors were not true level.

Especially when he heard that the amputation was going to happen, he thought it was very strange. He had checked the wound of that person, although he said that there was a possibility that the venom might spread from the poisonous snake bite.

But these are professional team members. They have sufficient experience in living in the wild, and they have already taken care of the wound immediately, and have made temporary treatment for the wound.

It is impossible to amputate the limb in a short period of time to prevent the spread of the venom. This is very unprofessional.

Moreover, their medical soldiers in the army are more rigorous. Everyone knows their hands and feet, which are the lives of soldiers, but the unprofessional performance of those people also makes Qin Yuan feel very strange.

Thinking of this, he called Li Erniu and asked him to look at those doctors first. He always felt that there was something wrong with those people, and the captain of the Yuan Kingdom probably hadn't told the truth yet, and there were many things that he didn't have yet. Explained clearly, it was a bit too hasty.

Qin Yuan planned to go to the captain of the Yuan Kingdom to see the situation the next day. Anyway, there were still so many days left for the selection, even if there was something tricky about the selection, the maintenance had to continue.

However, something happened the next day, and everyone's selection plan was temporarily terminated, because the captain of the Yuan Kingdom died quietly inside their tent.

This time the training and selection had just started, and there were accidents one after another. First, the eliminated players left the field without any notification, and then there was a problem with their map. Finally, the captain of the Yuan Kingdom died.

And they have already started to block the news. Qin Yuan originally wanted to find out more information, but Yu Kejin kept his mouth shut. This guy said that the captain of the Yuan Kingdom died suddenly because of a sudden illness.

This statement obviously made most people dissatisfied. You must know that they are not ordinary companies. They are all special operations teams. They are selected from various countries. Their physical fitness must be fine, especially before departure. How could it be possible? Will there be a sudden outbreak of disease?

At this time, the other teams also felt a little skeptical, and they all stood up to express their opinions. After all, this was in the primeval jungle, and if something went wrong, it would be troublesome to implicate themselves.

However, in the face of everyone's questioning, Yukkin did not explain too much, but blocked everyone with one sentence, saying that this is their internal matter.

Qin Yuan didn't care so much, and stood up from the crowd, "Why do you say this is your internal matter? Since we are here to participate in the competition, each of us has the right to know, and you have to tell us what happened. What's going on, let us dispel our worries! This is what you should do."

When Yu Kejin heard Qin Yuan say this, his heart skipped a beat. After all, he didn't want to provoke this person. The person in front of him spoke too sharply, and he pointed out the problem right away.

Just as he was trying to find a way to quickly explain the past, people from Yuan Guo's team suddenly came over.

Qin Yuan turned his head and looked at those people who were more familiar, and a small man next to him had a sad face, "I'm very sorry for taking up everyone's time, but we just want to say that this

incident is over, our captain It is indeed because of my own physical reasons, and we don't want to make things big, so we will withdraw early today."

What! This news is indeed quite shocking. Something happened to their captain, and the entire team has completely withdrawn. This also made others a little confused. This time the game has just started, and there are many situations.

After being said by the team members of the Yuan Kingdom, it is difficult for other people to say anything more. After all, their own people have not said much, and they have already acquiesced in this result. not too good.

Yukkin breathed a sigh of relief, "As you can see, this is a problem that they should solve internally. We have already dealt with everything, and we will definitely \*\*\*\* them to the airport over there today."

Since everyone internally said that there is no problem, other people can't say more, but someone raised a question, asking whether today's selection will continue.

Yukkin also answered, because things happened quite suddenly, and they needed to redeploy. Because several teams were eliminated yesterday, and today's number is not enough, they need to arrange a new match place.

This statement was accepted by everyone. Anyway, it was all their organizers' business. Others also asked some detailed questions before leaving. It seemed that they would have to spend another two days on this side.

As soon as he returned to the tent, He Chenguang couldn't wait to report what he found, "Did you find out that the American team is not there at all, I have been looking for them, and there is no team that announced the elimination yesterday in the entire team. ."

"Not only that, but when we asked over there just now, the team from Xiaomao Country also disappeared."

There will be no good things if these two teams are mixed together. Qin Yuan wanted to go out to investigate and see the feeling of being kept in the dark, which made him very upset, but he was stopped by the staff at the door .

The staff excused that they wanted to investigate other specific details this time, as well as the layout of the venue and so on, so now until noon, no one is allowed to leave the tent, and the outside needs to be re-arranged.

Qin Yuan got angry when he heard this, and dared to restrict his personal freedom. He knocked the person at the door to the ground with just a slight push.

"You pay attention to see who you are before talking to me. You are not qualified to say these things to me."

The staff at the gate also knew they were wrong, because their identities were not equal. Qin Yuan's own military rank was a kind of oppression for them, not to mention his ability.

The staff could only try to dissuade him, but how could Qin Yuan follow their arrangement? He is very clear that he came to this place to participate in the selection, and not to be reduced to a tool used by these people.

These few people couldn't stop him at all, he strode towards the previous tent, shouting Yukkin while walking, anyway he made a big noise.

At this time, in the tent in the country of America, Yukkin suddenly heard someone calling his name, and he trembled in fright. He was so familiar with this voice.

"What to do? Since he's here, I said before that those people can't stop him at all. This idea doesn't work at all. He won't obey any of our arrangements."

The captain of the Mi country was beaten like a pig's head by Qin Yuan before, and now the wound on his face has swelled a little, but he still looks very embarrassed, and his left eye is in a state of black and blue.

"Look at your cowardly look. Don't forget what your duty is. You are the person in charge here. You have the right to command him. Show your courage."

Yukkin glared at him angrily, this guy really can't stand and talk without back pain, "According to this, why don't you show up? Now that something happened and caused so much mess, I have to solve it all, you guys Instead, stand behind me."

"What's your attitude? I was giving you an idea just now, and don't forget your identity. No matter what, we are all on the united front."

Yukkin sighed helplessly. Now things are getting more and more chaotic by them. He thought that this time it was just a simple supervision and selection.

The main reason is that there are too many things involved this time, because there have been internal strife between the United States and several other cooperating countries, mainly because of the inequality of resources, so now there are other internal conflicts.

The captain of the Yuan Kingdom formed a new fuse in this conflict. Anyway, after all, it belongs to the interests of the higher-ups, and they are also very innocent, and they are all involved.

When Yukkin was thinking about how to deal with it, the captain of the American team next to him didn't allow him to think too much, and kicked him out. After all, if this guy stayed here and was discovered, it would be nothing. good thing.

Yukkin couldn't stand still, and almost fell to the ground. He cursed secretly, but now he didn't have time to think about it, so he could only quickly adjust his mood and quietly walked out of the tent next to him.

He thought his work was flawless, but he never escaped Qin Yuan's eyes. Qin Yuan had been looking around since he entered the training camp, and he was very clear about all the disturbances around him.

Of course he saw that guy coming out of the tent of the American team. You Kejin smiled and ran forward, only to see Qin Yuan followed by several staff members, but none of them dared to come forward.

"Captain Qin, what's going on? What are you trying to do by making such a big commotion?"

This guy also made a pre-emptive strike. Before Qin Yuan could visit, he also asked his own question. Qin Yuan didn't bother to answer him, and asked directly: "I don't want to talk to you about such a mess, what do you mean by that?" ? What is sudden closed management? What does your investigation of those things have to do with us?"

"This is a decision made by our superiors, and I hope you can cooperate. No matter what, you have to accept our arrangement when you come to this place. This is also our unified management."

This guy knows he is wrong, he has no way to make a reasonable explanation, he can only push it up, anyway, just refuse to admit it now, and talk about everything later.

Even if he wants to make a fuss, there won't be much trouble in this barren mountain and jungle. Anyway, if there is any feedback, just let him reflect after everything is over.

Qin Yuan approached him step by step, and at this moment Youkejin felt a chill suddenly arise from the soles of his feet.

Just when Qin Yuan was about to invade directly and enter his mind to consciously check what he wanted to check, there was that familiar fluctuating feeling again, Qin Yuan woke up instantly, and he turned his head nervously to look around.

He will never forget this fluctuating feeling. After all, this feeling comes from the masked man. Last time, it was because of this inexplicable fluctuation that he lost all his system capabilities.

This time he was ready and checked the system immediately. Fortunately, the system was not affected, and the system responded quickly.

The system has already given a reminder, Qin Yuan squinted his eyes and looked at the jungle in the distance. Could it be that there is something wrong there? The masked man has already invaded, so how do they know they are here?

While Qin Yuan was thinking about these issues, Yu Kejin next to him called him several times in a row and found that Qin Yuan was in a daze. Just when he wanted to step forward to confirm, Qin Yuan pushed him away without any hesitation. .

"Do not touch me!"

This icy aura startled him instantly, especially when Qin Yuan raised his eyelids to look at him, his eyes seemed to be looking at a dead person.

"Captain Qin, you. Don't get me wrong, I'm just explaining to you. I'm not targeting you, but everyone here has to obey the arrangement..."

You Kejin was still explaining in a low voice, and after explaining that he himself had no confidence, he could only helplessly say that Qin Yuan and the others could receive special care, after all, his abilities were different.

Facing such domineering eyes and his aura, Yukkin really had no choice but to admit that he was really scared.

Qin Yuan didn't pay attention to him at all. His attention was completely attracted by the jungle. Although the fluctuation was relatively fast, it disappeared soon.

At this time, he felt a little uneasy, had to go to that jungle to check the situation, and at the same time he also asked questions in the system.

"What the \*\*\*\* is going on with the system? What do I need to do to completely resist such fluctuations?"

"The best way at present is to upgrade. The merit value required for the upgrade is 38 million, and the current cumulative merit value of the array is 12 million."

Qin Yuan frowned slightly when he heard this. He didn't have the conditions for everything. He really wanted to check it now, but in case of any emergency, he really couldn't solve it.

He had been thinking about doing a wave of upgrades before, but there were too many things that had been delayed until now. Thinking of this, he quickly checked in the system, hoping to take on a few more tasks temporarily, so that he could earn some merit points.

Unexpectedly, the system actually gave him a task, asking him to set off immediately to protect a woman named Anbina, and also gave a location call for help.

Chapter 1802: protector

At this time, the system actually threw out a task. You must know that he hadn't received a task from the system for a long time. Qin Yuan felt very strange about this period. Could it be related to this incident?

"What's going on with the system? Why is there a protection mission out of nowhere now? You can't pick it randomly, right? The probability of this is too low."

However, the system did not respond after a long time, because it involved certain rules, and if the system answered it, it would be regarded as a violation, so it did not answer directly.

I would like to ask the system several times but there was no response, so he gave up. Anyway, this is a once-in-a-lifetime opportunity. Since the system has already issued tasks, it is useless not to accept such tasks.

And the points are also very considerable. If he successfully protects the girl, he will directly get 10,000 merit points at one time.

You must know that he completed the killing mission before. At that time, he killed 15 militants in that terrorist organization, and only then did he get 10,000 merit points. However, this time, he could get so much just by protecting this girl.

He can also understand that this must be because the difficulty of the system has been increased. The greater the difficulty, the higher the rewards given. He is used to it, but there is no major problem with so many skills in him.

Anyway, now that the task has been accepted, it is enough to execute it directly. Qin Yuan didn't think too much, and walked outside after putting on the equipment.

He Chenguang at the back looked strange, didn't they say that no one was allowed to go out these two days?

"Brother Qin, what are you doing here? Didn't you go out just now? I always feel that those guys seem to value this matter very much. You see, there are a few more guards around our tent."

"Hehe, how can these \*\*\*\*\* be trapped? My behavior is very shameless. We are here to participate in the selection competition. What's the matter if they are trapped in this place? Just stay here, I'll go out solve."

He Chenguang looked at Qin Yuan as if he was joking, but he was also a little puzzled. Before, Qin Yuan told them to keep a low profile. This time they came to investigate the truth of the matter. Why did he seem to be so impulsive?

When Qin Yuan came out, several guards around him stared closely at him, but no one dared to step forward, and could only stand silently by the side.

What's the use of adding more, do they dare to get started? Qin Yuan's ability is obvious to all.

The few people glanced at each other, and could only turn their heads silently. What's the use of just these few people, and at this time, the people in other tents were also observing them with some dissatisfaction. Why can Qin Yuan go out, but they can't.

When Yukkin heard the movement, he ran over quickly, knowing that he is the person in charge of this area now.

"Brother, can you stop causing trouble for me? What do you want to do? What do you want to do? You look for someone, I have arranged so many people at the door of your tent, you can just find someone to inform me, no Come out if necessary."

"What do you mean? Pay attention to the tone of your words to me, and this place. Am I not free? I haven't signed any contracts with you. Is it during the selection period?"

A few questions made Youkejin speechless for an instant. He knew that he could not restrain Qin Yuan at all, so he could only say weakly in the end, "Then where are you going? I should know something."

"You have no right to know."

Just such an understatement, Yukkin didn't know how to answer it, and stood there awkwardly, while a few soldiers beside him were covering their mouths and snickering. This guy was very arrogant before, but he didn't expect that when facing Qin Wukong, As cowardly as a mouse.

He could only vent his anger on those soldiers who laughed at him, cursed and walked away with his hands behind his back, what could they do? And now is not the time to deal with him. Later, when he unites with the United States, he will definitely be able to deal with him.

And Qin Yuan's speed is very fast, he has already set out in the direction of positioning, after all, the selection here has come to an end, Qin Yuan's speed is very fast, it takes about two hours for a normal person, but he is already in half an hour. arrived nearby.

Unexpectedly, there is such a factory hidden in the Amazon rainforest. The surrounding buildings are inseparable from the things in the jungle. It is said that the buildings are actually relatively simple, and they are all built with some surrounding wood.

However, the overall scope is relatively large. In addition to the video of patrolling in uniforms, some workers can be seen in it. The workers are having lunch at this time.

So very few people could be seen walking around, and they were all inside the house, and the inside of the house was made of wooden boards, which were very thickly blocked, and the specific situation inside could not be seen clearly.

Qin Yuan looked at the location according to the system's prompt, and it was in this area, but he didn't remember it too much. Just when he felt strange, he suddenly heard a movement coming from the front.

When he looked in that direction, he only saw a person wearing camouflage completely huddled in the grass. When the person moved slightly, he had already discovered that this guy's camouflage was really good.

Just looking at it from behind, Qin Yuan was sure that the camouflaged person in front of him was a woman. Could this guy be the one the system asked him to protect?

Qin Yuan didn't alarm that person, but just observed her specific situation lightly. He didn't know what this guy was going to do, but saw that person pull out a small device from his arms.

When he took a closer look, it seemed to be a small camera equipment. This guy was quite courageous. She had already disguised her whole body, but the only thing missing was this camera equipment.

One must know that in this situation, it is noon, even in the jungle, but there is sunlight reflection, does she really think that the person opposite is blind? Can such a reflection not be seen?

While Qin Yuan was watching the excitement, the people on the opposite side had already noticed something. They only saw a few soldiers patrolling in front took out their walkie-talkies and began to chatter. After a while, several people approached in her direction.

Qin Yuan smiled helplessly, it seemed that he really expected the ending, and that person was a little anxious seeing the soldiers approaching, she frantically rummaged through the things inside, Qin Yuan took a closer look, and found that this guy still had a With smoke bombs.

Then the first smoke bomb was thrown out, Qin Yuan shook his head, this guy was too reckless, he didn't even pull the pull ring, he just threw it out.

Fortunately, the soldiers on the opposite side saw something flying out and thought it was a grenade, so they retreated quickly. Qin Yuan took this opportunity to step forward and grab the person on the ground.

This is really a wrong shot, a dazed encounter with a group of soldiers who are greedy for life and fear of death created this opportunity, otherwise this guy would really die.

And this person didn't expect someone to attack suddenly, she screamed in fright, Qin Yuan covered her mouth and looked at her viciously.

"If you want to live, shut up now!"

The woman's face was already pale with fright. She was only focused on the front just now, but she didn't expect that someone would sneak up on her from behind. What's more, she didn't know whether this person was an enemy or a friend.

But in the current situation, there are pursuers ahead, she can only pin her hope on this person, at least this person has not hurt her yet, Qin Yuan carried her on his shoulders and ran wildly in the jungle.

This speed was no problem for Qin Yuan, and he quickly got rid of the pursuers behind him. Qin Yuan took the woman to climb the mountain, and the leaves on a big tree next to him completely blocked the two of them.

The woman was already out of breath from the fright, but she felt that it was too unwise to hide in the trees. Being in this place made her feel very insecure, and more importantly, she was also very afraid of heights.

"We shouldn't want to live in this place, I think hurry down, we should find a cave to hide."

"Do you have common sense? Do you think they won't get hurt? People are there? They won't look up in the most panicked situation, so this is the safest place, shut up!"

Perhaps seeing Qin Yuan's eyes, the woman didn't speak, but could only grit her teeth. She was already sweating profusely from fright, and then she heard footsteps.

After a while, the previous soldiers had already rushed over, and there were quite a number of them. Soon they passed the big tree and began to search forward.

It was exactly as Qin Yuan said, these soldiers didn't look up at all, and didn't pay attention to the situation here.

After these people passed by, the woman from just now breathed a sigh of relief. She turned her head and looked at Qin Yuan, "Why did you save me just now? And who are you? You wouldn't be with them, would you? I."

"Miss, you have so many questions, but I only have one question, is your name Ambina?"

"How do you know my name?"

Qin Yuan smiled slightly. It seemed that the person in front of him was the one he wanted to protect. He felt that the person in front of him had enough courage, but his IQ seemed a bit insufficient.

"You don't have to worry about the rest, anyway, I'll protect you from now on, but you have to tell me clearly, what's going on? Why are you filming them here?"

When it comes to this question, Anbina is very serious, and his vigilance is also very high, without any thought of answering.

At this moment, Qin Yuan held her down to keep her still, and a few soldiers hurried past under the tree. Unexpectedly, so many people were dispatched to look for her.

Ambina also felt that the situation was a little serious, and after another ten minutes, the surroundings became completely quiet, and the two of them didn't plan to stay in the tree forever, after all, they would be discovered sooner or later.

Under the leadership of Qin Yuan, the two quietly came to a hillside. The bushes here are relatively thick, and there are some earth pits around them. They can temporarily hide in these earth pits.

But Ambina didn't intend to stay here forever, she started to pack up her equipment, and didn't mind, she just grabbed the dirt on the ground and wiped it on her fair face.

At this time, Qin Yuan also seriously looked at the person in front of him. The woman in front of her had neatly cut short hair, and the short hair was hidden under the hat. She had big eyes and a straight nose. She was indeed a standard beauty.

A lot of mud has been smeared on her face, and she has indeed made a good camouflage in this jungle.

"Sir, although I don't know your name, I am very grateful that you saved me. I can't answer the question you asked just now. I also have my own work to do, and I hope we will be separated here."

"What do you mean? Are you planning to leave so directly? Since I saved your life, you should listen to me."

Ambina sneered. "I didn't ask you to save me. My gratitude to you is enough, and I don't know who you are, so why should I listen to you? All right, don't force me to be rude to you."

After she finished speaking, she actually opened her backpack and showed a pistol from inside. Qin Yuan found it even more ridiculous when he saw it, so he just asked her coldly.

"Would you shoot now? Or in other words, would you dare?"

Unexpectedly, she took out the pistol without saying a word, and started to load the pistol. This woman is indeed not simple, and she can act immediately with just a few words.

Mainly because she didn't think at all. This made Qin Yuan feel very headache. What he wants to protect is such a person. The main reason is that he still has some unclear explanations. But in other words, if a stranger ran to him and said he wanted to protect him, he would definitely do the same. Feel baffled.

He had no choice but to follow Anbina's wishes first. Anyway, everything was under his control. With his ability, if he saved her again at that time, he might be able to break her vigilance.

"Ok, you relax, I won't meddle in any of your affairs now, but I want to remind you that they searched in the direction of nine o'clock just now, you can now go towards If you walk in the direction of twelve o'clock, you will definitely stagger."

Anbina looked at him with a puzzled expression, obviously not understanding which way to go at twelve o'clock, she took out her watch and kept spinning herself, which made Qin Yuan feel very speechless, so he could only point out for her again direction.

And in this short period of time, Qin Yuan already got a general idea. According to her identity, she should be a reporter. After all, when she opened the bag just now, Qin Yuan had already seen everything in her bag.

The bag is full of shooting equipment, and there are several shots used to shoot in different locations. Combined with the factory he saw just now, could it be that he came to the rare earth mining factory established in the United States by mistake? place?

He said that the system will never give wrong information, nor will it display irrelevant things. It seems that it must have something to do with the United States.

Anbina had already left towards that place at this time, and Qin Yuan also started to follow quietly, what could be done, his mission this time was to protect the person in front of him.

Chapter 1803: lost backpack

Especially regarding Anbina's behavior, he really felt that this woman was unreliable, she could do many things as she wanted, and in other words, it was too easy for others to kill her in this place.

It's just that the reporter took such a big risk to shoot, can it really be broadcast smoothly? He is indeed very skeptical, after all, the United States has many methods.

Qin Yuan has not met such a simple person for a long time, and at this moment, Ambina has been walking towards the depths of the forest. She still has no intention of letting go of the factory. The filming just now is only partially completed, and she still needs to enter the factory. The actual filming takes place inside.

Otherwise, it would be meaningless for her to come here this time, and she didn't know how much she had spent in order to come here successfully this time.

Ambina sat on the ground and took out the water bottle she carried with her, and took a sip of water cautiously. She stared at her surroundings vigilantly. Now that there was a slight noise around her, she was as frightened as a bird.

Now she is really worried. Originally, she came here with her companions, but in the process, she and the other two people have already walked completely, and their direction has completely deviated.

Thinking of this, she took out another small communication device. She kept flicking the buttons on it, but there was no response after a long time.

This is the communication equipment left behind by the three of them when they separated. It was originally agreed to gather outside the factory because they wanted to shoot from different angles, but now the other two have lost contact.

Ambina is also very worried now. She feels that the other two companions must be in danger. Those people will not kill them. After all, they still have the evidence of filming in their hands. Even if those people caught the other two companions, and dare not do anything.

Thinking of Ambina's doomed determination here, she decided to set off immediately, no matter what, she would go and have a look. If she could get more evidence, she would keep the film and set off to find her companions.

All these small movements of hers were under Qin Yuan's surveillance, while Qin Yuan was leaning leisurely on a big tree, not in a hurry, and the distance between them was relatively far.

At this time, Ambina stood up and looked around vigilantly. She didn't know why she always had the illusion of being watched, and she couldn't explain it clearly.

Her speed was relatively slow, Qin Yuan didn't follow her at all, just glanced at her from a distance, and then walked over slowly, at Qin Yuan's speed, he could come to her in a few minutes.

Ambina came around the factory, and what made her feel strange was that it was heavily guarded before, but now there is no one there. Could it be that everyone has already gone to look for her? This is a rare and good opportunity.

Thinking of this, she hurriedly took out the equipment and prepared to shoot. Just as she was getting ready, a small stone fell not far away, and she was instantly startled.

She quickly looked over there, and at this time a person jumped out of the place where no pebbles fell, and then several soldiers around rushed forward.

Qin Yuan was very helpless, and he had already reminded her. Why is this woman so slow in responding? Normal people would turn around and run away when they saw movement over there. Why did she still stand there and look around?

Reluctant to be helpless, but still had to go forward to protect her, Qin Yuan didn't say much, and rushed up directly, and the few people who were about to attack Ambina just now were instantly knocked down by him.

Ambina really had no choice. She was just about to take out her gun to fight back, but she didn't expect the pistol to fall directly on the ground. This can't be her fault. After all, she only had a few days of special training a week before departure, and nothing else. Haven't been in touch.

Qin Yuan rolled forward and jumped forward, and then kicked away. A soldier in front, Ambina hugged her head in fright, Qin Yuan pushed her away.

"It's really troublesome, aren't you very courageous? Run to the back and wait for me in the direction of the bamboo forest."

Ambina can't control so much now, she didn't say any more, she ran towards this side with her head in her arms, and at this time, the soldiers on the opposite side had already fired, and Qin Yuan also took out his weapon and directly fought back, and there was a hail of bullets in an instant .

She didn't even dare to turn her head to look at the situation behind, but she heard the dense gunshots from behind. At this time, she was already trembling with fright, and she couldn't even speak out the sound of shouting.

She could only obey Qin Yuan's arrangement and run forward at a faster speed. She was desperate and wished she could grow two more legs now so that she could rush over.

The gunshots in the back became less and less, from the initial intensity to the occasional few gunshots in the back, she knew that the person couldn't hold on, and she didn't dare to imagine the situation behind.

Tears welled up in Anbina's eyes. Anyway, even though that person was a stranger, he died in that place because of herself. The more she thought about it, the more sad she became, that those people really dared to shoot.

She even started to get scared. At the beginning, she was really not that scared. She thought those people would mind her identity as an American and would not do anything to her. Unexpectedly, no one cared about this in this place. They didn't even care about their identity. No question, just shoot.

She could only speed up and run around non-stop, and she also forgot Qin Yuan's previous explanation. Qin Yuan told her that it was enough to reach the bamboo forest in front, but she had completely run away from the direction.

In the end, he didn't know where he ran, slipped his foot, and rolled directly into the ditch next to him, and fell into the ditch. She coughed violently and panted heavily, and no matter how many bodies curled up together, she just Want to hide myself.

The surroundings were very quiet, she didn't hear the gunshots, she could only hear her panting, at this moment she felt that death was beside her.

At this time, she was also crying silently, maybe because of fear, maybe because a stranger died like that in front of her, she had never experienced such a cruel thing, that kind of hail of bullets, countless bullets from her ears across.

At this moment, she heard a slight movement, and just as she pricked up her ears to listen carefully, she saw a figure jumping in front of her, and she felt that her breathing almost stopped in an instant.

But after seeing the person who came, she instantly breathed a sigh of relief, because the person who came was none other than Qin Yuan.

"You! You are still alive, what's going on?"

"I don't like listening to you when you say this. Is this how you thank your savior? I worked so hard to rescue you here. It's fine if you don't follow the route I said. Let me It's easy to find a meal."

Ambina didn't say anything now, and she didn't care about that much. In this critical moment, a stranger came to her to help, and she went through such a big shock just now, so she rushed forward and hugged Qin Yuan .

Qin Yuan originally wanted to continue talking to her, but he was confused by this sudden hug. What's wrong with this woman?

"I really didn't expect you to be alive. I really thought you had an accident. Sorry, I didn't mean it, but I was really scared and there was nothing I could do."

Qin Yuan could only soften his attitude a little, patted her on the shoulder lightly, and then comforted her slowly. After a while, Ambina calmed down a bit.

Qin Yuan knew that this was not the safest place, so he took Ambina and continued walking towards the periphery of the factory. During the whole process, Ambina lay quietly on his back, not as rebellious as before.

This made Qin Yuan feel very relieved. It seems that this woman finally understood something. Maybe she was too frightened just now. At this time, Ambina also felt incredible. This person's physical fitness is really good. , Carrying his back for more than half an hour.

Not only is there no panting, but the speed is also very fast without any slowdown. Who is this person? She is more aware of her weight.

Although she shouldn't be on guard against others, especially since this person has saved her twice, Ambina is still a little bit tangled in her heart, wondering why a person came out and kept helping her.

Just when she was thinking wildly, Qin Yuan took her to a safe place. This side was backed by the hillside, and there were many bushes on the side for them to hide.

"Okay, you wait here first, I'll find you something to eat."

Anbina could only nod her head, but soon she stood up and grabbed Qin Yuan. She was afraid of being left behind again, especially the situation just now, which really frightened her.

"Can you not go? What if you meet those people?"

"Don't worry about those people you mentioned. They have nothing to do with me. I have already solved everything that needs to be solved. Now you can stay here with peace of mind. I will be back in ten minutes at most."

Although Anbina was a little unhappy in her heart, because she was really scared now and didn't want this person to leave, but seeing how firmly she said, she could only let go of her hand slowly.

"Then you must pay attention to safety and come back quickly, I, I'm really scared."

Qin Yuan nodded, indicating that he would speed up, and then he ran towards the depths of the bushes. After all, it was going to be dark soon, and he had to prepare something.

He still hasn't figured out the girl's identity and the secrets inside the factory, so he doesn't plan to live at night, but just randomly finds some wild fruits, which can satisfy his hunger.

Others, he made a little disguise around, at least to ensure the safety of this girl tonight. After all, he still plans to go out to investigate and leave the girl here later, so there should be no problem.

He had already considered everything, and took the wild fruit and returned to the place where he was before, but when he came back, he didn't see Anbina's figure.

Qin Yuan is really angry, this girl is really enough to cause trouble for himself, many things are messed up, why is she so ignorant of her explanation?

Fortunately, the girl didn't run fast because her ankle was injured during the escape, she just walked a certain distance. Qin Yuan couldn't bear it anymore this time, so he rushed over to pick her up and walked back. If it wasn't for the system He didn't care about this woman at all for the broken task he gave.

It was really the first time to see such a disobedient person, it really refreshed his concept, Ambina kept struggling on his shoulder.

"Let go of me, don't pull me, I'm going to find my things now, my backpack, my backpack is left there."

"You are really a crazy woman. Do you know how dangerous the situation was just now? If you go there now, it is impossible to come back. Those people are still guarding there. You are really looking for death."

"But the stuff in that backpack is very heavy. It's something I've worked so hard to shoot for so long. It's impossible for me to leave it there. It's all evidence."

Qin Yuan frowned slightly, this guy was really troublesome enough, he could only roar angrily, and the people on his back finally calmed down.

Just like that, he walked back with Ambina on his back. At this time, Ambina was still begging, because she really wanted to get those things back.

"I really beg you, those things are very important to me, I can say that he is more important than my life, this time I came here to take such a big risk, just for it!"

"I've dealt with all the people over there, but I didn't see your backpack, maybe you dropped it halfway."

She nodded repeatedly and was very sure, she must have been too flustered in the process of escaping, maybe she was on the dirt \*\*\*\*\* before.

Thinking of this, he was even more anxious. If those things fell into the hands of those people, they would all be ruined. This time he really paid for nothing, and now the other two companions don't know where they are.

Thinking of this, he started to cry again. Qin Yuan really couldn't stand it, and told her not to move around this time. He went back to help her get it, but when he came back, he had to explain everything to him.

"I can't bother you anymore. Although I don't know who you are, , but you saved me twice. I'm really grateful to you. I can't drag you down anymore. I'll take care of this matter myself." .”

"That's enough. Do whatever I ask you to do. Can you listen to me? Also, I really have no other way to protect you. As for the reason, it's not convenient for me to tell you, but I will take your bag Bring it back."

After being told by Qin Yuan, Anbina completely calmed down, and she didn't want to offend the person in front of her. It was a miracle that this person survived the hail of bullets just now.

"You have to be careful, if... If you can't find it, then come back as soon as possible, and I don't want to cause you any more trouble."

Anbina sat on the ground, she waited quietly, and kept praying in her heart, until Qin Yuan's back slowly disappeared from her sight.

Now she is really in pain, she keeps thinking about who this person is in her mind, why she came out to help herself, and the things in the backpack, she also fell into deep self-blame, if those things are lost, All that effort was in vain.

#### Chapter 1804: Mining in the United States

As time passed, Ambina became more and more worried. The main reason was that it got dark really fast in this jungle. After the sun went down, the last light was gone.

It was pitch black, accompanied by the calls of some wild animals. She became more and more afraid, and the temperature dropped rapidly after the sun went down. All her equipment was in that backpack, and now she could only hold her arms , and dare not move.

Anbina has been praying silently. She hopes that Qin Yuan will come back as soon as possible. Now that equipment is not important anymore. She regrets it. She should not be so self-willed just now. She asked others to help her find the equipment. That person saved her life. What else do you want?

At this time, she had already fallen into self-blame and was thinking wildly. Suddenly, a slight movement came from a distance. She widened her eyes and wanted to see clearly, but with her vision range, she couldn't see anything clearly here. It was dark all around.

She tightly grabbed a stone in her hand, and she could only use it for self-defense. If it was really someone or some wild animal, she might be able to attack it.

At this time, a familiar person flashed in front of her. When she saw the camouflage uniform, she was instantly relieved. It was her savior.

Qin Yuan didn't say much, and silently threw the backpack in front of her, "You're really good at it, this backpack is quite hidden. Fortunately, I have good eyesight, otherwise I wouldn't even be able to find it."

Anbina didn't care so much, and hurried forward to grab the backpack and tightly protect it in her arms. You must know that she has gone through a lot of hardships, but it is because of the contents inside.

Her voice was a little choked, and she kept thanking Qin Yuan, "If it wasn't for you to help me, I really don't know what to do, you have saved me several times, and even helped me find the equipment ,Thank you so much."

"Okay, don't talk about it now, let's find a safe place first, it's definitely not safe here at night."

Qin Yuan originally dragged her to the back, but Anbina had never received any special training before. Under this kind of vision, she was just an ordinary person, and there was no way to speak of in this primitive jungle. .

She felt that she had a deep foot and a shallow foot. If Qin Yuan hadn't pulled her, she would have fallen several times, and the sharp leaves next to her kept scratching her arms. She really felt uncomfortable. .

Qin Yuanyuan felt that this speed was too slow, and it completely affected the progress. It was too slow to go to the place he said, so he simply picked up Ambina behind him.

Anbina was still in a daze. After all, this road was too difficult to walk. There was no way at all, so she flew into the air, and she almost screamed out of fright.

It was later discovered that Qin Yuan was walking forward with her on his back, and the speed was much faster. She felt a little embarrassed and wanted to get down and walk by herself, but on second thought, walking down by herself was completely dragging her back.

In the end, she could only say thank you silently, and just stayed quietly on Qin Yuan's back. After walking for about ten minutes, Qin Yuan found a cave.

Qin Yuan put Anbina down. After all, no one knows what's inside this cave, especially in this primitive jungle, the cave is quite dangerous.

Ambina's eyes widened, the surroundings were dark, her field of vision was too limited, she could barely make out the outline of the person in front of her, and she couldn't distinguish anything else.

"Didn't you say that it's not safe to be in the cave? Those people will come to look for it. Why do we go in now?"

"Didn't you make it clear? This area is the direction that those people have searched, and they will not conduct a second search. This is basic common sense."

When Qin Yuan said this, Anbina blushed slightly. To be honest, her sense of direction was really bad. Since she came out just now, she didn't know where the direction was.

Qin Yuan told her to stay at the entrance of the cave and go in to check the situation. Anbina could only nod her head. After a while, she heard the sound of fighting inside, and she was very nervous.

What's going on inside? She didn't know, but the sound of fighting kept stimulating her. After a while, she smelled a \*\*\*\* smell coming from the cave, and she tightly covered her mouth to prevent herself from making a sound.

After a while, Qin Wukong also came out from the inside. He was holding a large black object in his hand. When Ambina looked carefully, she almost cried out in fright, because what Qin Yuan was carrying was actually It's a leopard.

She had only seen this kind of thing on TV before, and the bite force and speed of the leopard were amazing. That guy didn't even shoot, how did he kill the leopard?

At this time, Ambina was shocked in her heart. She didn't know who Qin Yuan was, but she just thought that this person was really powerful and had extraordinary skills.

Qin Yuan just smiled slightly and told her that there was nothing wrong with the cave. It depends on where she wants to stay. Anyway, he is going to deal with the leopard outside. This is their dinner tonight.

The current Ambina dared not move around, she could only sit at the entrance of the cave honestly, and Qin Yuan didn't know where she went for a while, after all, Ambina couldn't track her at all under this kind of vision.

More than ten minutes later, Qin Yuan came back, and the flower buds had been disposed of, but he walked in with only one leg in his hands, and some dry firewood beside him.

Ambina carefully took out the flashlight from her backpack. Fortunately, she had prepared it before, and the two of them walked into the cave like this.

But just after he entered, he smelled the pungent smell of blood, and he hadn't eaten much for a day, and he was frightened, so he couldn't help but feel nauseated.

Just when she kept retching, she handed over a hand, and she saw that there was an extra bottle of medicine in Qin Yuan's hand, "Don't worry, this is just vitamin C, it can relieve your vomiting symptoms, and some sour ones will help you feel better." better."

Ambina can't take care of that much now, and the person in front of her has saved her several times, directly opened the medicine bottle and threw vitamin C into her mouth, and soon a sour taste spread in her mouth. The nauseous feeling has also improved a lot.

Qin Yuan wrapped the processed meat with leaves and placed it beside him, then took out an engineering shovel from his backpack and started digging in the cave.

Ambina couldn't understand it, but she wanted to help Qin Yuan and shook her hand, saying that he didn't understand the structure inside, and that she wanted to make a smoke-free stove, and the smoke could be completely drained from under it.

Then he casually took out a steel helmet from behind. This was taken from the patrolling soldiers before, and it can only be said to be barely used. After all, this is not like the old-fashioned steel helmet before.

However, the conditions are limited, so that's all. Qin Yuan still doesn't want to expose himself. In this kind of primitive jungle, the smell will be more scattered.

At this time, Ambina, who was sitting opposite, looked at the busy Qin Yuan, and she also began to relax slowly, and then carefully observed the person in front of her.

While waiting for the stew, Ambina finally spoke up. It turned out that he was indeed a reporter from the United States. After all, the mining of rare earth mines has been strictly prohibited by various countries. This is a very rare mineral.

The main reason is that the previous soil composition will be destroyed during the excavation process, which is equivalent to saying that the soil quality of this piece of soil will be destroyed after mining, and vegetation will not grow.

Therefore, rare earth mines are also prohibited, but many gun materials must have the participation of rare earth mines. On the side of the United States, in order to ensure their own interests, they are mining and digging in other countries.

This reporter also received some tips, knowing that the United States has started digging rare earth mines in the primitive jungle, but it is a heavy news, if it can be reported, it will definitely cause an uproar.

After all, the United States kept saying that it was going to ban the mining of rare earth mines. They banned it on the surface, but they did these things behind the scenes.

This time, a total of three of them came together. Besides Ambina, there were two other men, one named Alexander and the other named Mason.

Originally, they set off together according to the coordinates, but they were spotted by patrolmen on the way, and then they ran away. Because of Ambina's petite figure, she ran faster and was not found, but the other two also I've been missing until now.

Speaking of this, she was really worried. Before, she felt that she was a reporter from the United States, and this identity could definitely protect them. Apart from this, they were still citizens of the United States and had rights.

"But today when I saw that they really dared to shoot me, I didn't know what happened to my other two colleagues. I was really scared."

Anbini began to cry as he spoke, and Qin Yuan didn't know how to comfort her. He was not very good at comforting others, so he could only silently add a spoonful of meat and hand it to her.

Anbina stopped crying, mainly because she looked at the meat in front of her eyes and thought of the leopard just now, she still felt a little sick in her heart.

Qin Yuan directly took a piece of meat and threw it into his mouth, "Don't worry, this thing is not poisonous, and if I want to harm you, I won't harm you until now. Eat as much as you want. You have been running for a day. If you don't eat any more, you won't have any energy, it's protein."

Anbina quickly explained that she was not worried that Qin Yuan would murder her, but that she thought it was too cruel.

Qin Yuan didn't speak anymore, anyway, he had said what he should say, and he started to eat by the side, knowing that the things he made were not too bad.

Ambina swallowed while watching, and finally couldn't help but eat a piece. She didn't expect such a simple operation to be so delicious, even better than the ones she ate in those high-end restaurants.

The two just ate like this, and slowly opened up the conversation. Anbina asked Qin Yuan several times, why did she save her?

"Actually, I am serving the people, especially a beautiful woman like you. I will basically help you. You don't have to think about other things. I will definitely protect you anyway."

For this statement, Abina obviously didn't believe it. How could someone come to save herself for no reason, and even run away from such a forest.

But the person in front of her didn't mean to harm her, anyway, that's it, if she didn't want to say, she wouldn't ask any more.

Qin Yuan didn't expect this woman to go through so many twists and turns for her next plan, and she still wanted to shoot.

"I think you are really crazy. You can't even protect yourself, and you still want to expose these things. You know that those guys have guns in their hands, so you can kill you directly."

"I know this. They have already discovered it anyway. Then I must take the risk of exposing this matter, because the evidence will be destroyed by them soon. I want to let others know the truth."

Qin Yuan shook his head, only felt that the person in front of him was too naive, so what if he knew, for Americans, isn't this their usual style?

"Anyway, you can do whatever you want. I can protect you, but don't be as stupid as you are during the day."

Ambina was a little embarrassed when she was told, is she really stupid? But she had never experienced this before.

Just when she was about to explain, Qin Yuan waved his hand and told her to go to bed quickly. If this is the case, she must keep her spirits up tomorrow.

Ambina didn't dare to sleep at first, after all, she was in this place, but when she looked at the people next to her, she felt inexplicably at ease and had a sense of security.

In the end, she was so exhausted that she didn't know when she fell asleep until Qin Yuan woke her up the next morning.

Qin Yuan finally knew why the system asked her to protect this kind of person. Without her own protection, she wouldn't even be able to survive the first night. Who can sleep like this in a primitive jungle?

"I think you can really sleep well, Do you think this is your home?"

Ambina was a little embarrassed, and she didn't know why she was so tired last night. It might be because she experienced too many things yesterday.

After all this, Ambina trusted Qin Yuan even more. She didn't take advantage of others last night, and she really did her best to protect herself, so she told Qin Yuan everything she knew.

Qin Yuan also obtained an important piece of information. It turned out that the Mi Army exploited these rare earth mines to build a large military base, and this military base seemed to be related to some experiments.

Hearing the word "experiment", Qin Yuan immediately became interested, because the first thing he thought of was the masked man, so he couldn't help asking a few more questions, but Ambina shook her head helplessly, she really didn't know much about this situation.

"Because the colleagues who were in charge of investigating the incident at that time all died suddenly and bizarrely the next day, and the things they took were completely missing, which may be related to military secrets."

"It seems that there is really something going on here, isn't there any one of you following up?"

Chapter 1805: into the factory

Ambina shook her head, there is no follow-up. Since that incident happened, the department heads above them have strictly prohibited everyone from investigating this incident.

"They all said it was an accident, but I really don't believe that an accident will cause problems for five people at the same time? This is a bit too exaggerated."

Qin Yuan nodded and understood, but some things are like this, his arms can't twist his thighs, "Since they have problems in their investigations at the military base, you are really brave enough to come here directly to take pictures of the mine, don't you? Aren't you afraid of retaliation?"

"It is precisely because of this that I want to expose all their crimes. I hate their hypocritical side!"

Qin Yuan didn't expect this little reporter to have a sense of justice. He clearly knew that this place was very dangerous, and he wanted to take the risk of filming here, just wanting to announce the truth to the public.

"So have you ever thought about not just mining rare earths, or do you think they need to kill people?"

What! Anbina was surprised when she heard this. Killing them is at most attacking themselves.

At that time, she also analyzed it. It may be that she suddenly saw a stranger, and those soldiers would definitely shoot, but she is still naively imagining that if she directly revealed her identity, those people would definitely not attack her.

"Although you saved me, I really can't admit your statement. It's absolutely impossible. I know very well what's going on here. We started investigating three months ago."

Qin Yuan smiled slightly, then casually threw a watch out of his pocket.

Ambina was shocked when she saw the watch, and she repeatedly asked Qin Yuan where did it come from?

"Where did you get this watch? How could you have this watch? Is it all a conspiracy?"

"I think you are really persecuted. Do you think I need it? Now that you have recognized this watch, let me tell you directly. I found his body near the factory."

Anbina was trembling all over. She didn't believe it at the beginning, but she held the watch tightly in the end, because she knew that if it was Qin Yuan, there was no need to do such a troublesome thing, and he didn't. If it is necessary to save her, he will directly attack her.

"How is this possible? They can reveal their identities. Did they kill them before they could reveal their identities? This is definitely manslaughter."

"It seems that there is a good saying. I don't know if you can understand it. Our old saying is that we will not cry when we see the coffin. Anyway, we are going there today. I will take you to see it."

Ambina was confused by what was said, but at this time she still had the illusion of a mobile phone in her heart, because she felt that the other party would not be able to do things so brilliantly. Are

they so courageous? And they just filmed the mining of rare earths and they kill people to say that's probably too farfetched.

Qin Yuan stood up and packed his things, and the two continued to set off like this. Thanks to Qin Yuan leading her along the way, this guy is really strong. Today, her condition is better, and she has been trying to keep up.

Because of Ambina's relationship, the two walked in this jungle for more than two hours. If it was Qin Yuan, they would have arrived in half an hour.

Ambina was already panting from exhaustion in the back. She was gasping for breath. She didn't know when she would reach her destination. She had a really bad sense of direction. Seeing that everything around her was the same, she even wondered if she had already arrived. be lost.

Just when she was about to ask, Qin Yuan next to her covered her mouth, and then pressed her to the ground. Ambina was terrified. Is this person finally going to do something to her? He said that he was hiding in it.

The two lay motionless in the grass, until there was a sound of footsteps around, Qin Yuan lowered his voice to Ambina's ear, telling her not to move.

Ambina only felt that in addition to those footsteps, she also heard the heartbeat from the people behind her. The distance between the two was too close, especially in this environment, she felt that the time was too long, so The sound of footsteps around is still nearby.

At this moment, she heard someone talking in the crowd over there.

"Remember that no matter what happens today, we must find that woman. The captain was very angry when he let her escape yesterday, and there is also that \*\*\*\* who killed more than 20 of us."

"Today we are all carrying heavy weapons. I don't believe that \*\*\*\* can escape. Anyway, we must catch these two people."

Anbina listened intently, and she became more and more frightened. She didn't expect that the other party hadn't given up and was still looking for them. At this moment, a snake slowly crawled towards her, but her mouth was caught by Qin Yuan again. It was covered so that no sound could be made.

She could only carefully twist her body to remind Qin Yuan, but Qin Yuan had already noticed the snake, and the next second the knife went straight out, and the snake turned into two halves.

This speed was really too fast, and Ambina was shocked in her heart, but the snake's body was now in two, and it was still writhing on the ground, looking very disgusting.

Qin Yuan didn't let go until the sound of footsteps completely disappeared. Ambina was very scared and helpless in her heart, and she didn't know what to do.

The two walked for more than 40 minutes, and finally saw the factory, but today the security around the factory has been strengthened, and a large number of soldiers are stationed around.

Qin Yuan jokingly said: "You see, it's all thanks to our beautiful reporter. She has strengthened the situation today. Do you still want to go in and shoot?"

Ambina is also not forgiving, "Don't lie to me, that's what they said just now, they said that you killed more than 20 of them yesterday, so the security was strengthened today, so all this is related to you It's not my problem."

"Oh, this beauty is really turning her face and denying anyone. Then you have to think about who I did it for. If it wasn't for me at that time, you would have been beaten into a sieve."

Ambina opened her mouth, not knowing what to say, perhaps acquiescing to what Qin Yuan said, she turned her head aside to observe the situation.

Qin Yuan picked her up, and then dragged her to the side. You don't know Anbi, so you can only follow him. The movements of the two are very gentle. After all, this place is too close to each other, so they can only slow down. No sound is produced.

After walking for more than ten minutes, they came to a large soil root, and only saw a few corpses lying in the pit, and the most conspicuous ones were the two above, because they had not completely decayed, and the others had already emitted a burst of light. stench.

Some of the corpses below are already ossified. I don't know how long they have been dead here. They look very disgusting, and there are many bedbugs around.

Qin Yuan has already taken out Vitamin C and made preparations. It is estimated that this woman can't bear such an impact. Unexpectedly, she walked over slowly, which surprised Qin Yuan. Could it be that it will be all right in just one day?

In fact, it was Ambina who saw the corpses of her colleagues. She will never forget the clothes on the two bodies. She has fallen into great sorrow, and she didn't expect it to become like this.

The bodies of the two corpses were full of bullet holes, and their belongings were scattered around. Anbina couldn't accept it at all. She clenched her fists tightly, feeling very sad and resentful in her heart. She didn't understand why it happened like this.

"Okay, I've seen it, this is the truth I told you, so the things here are not that simple, let's go, it's not just about rare earth mines, there are probably other things, this is not something you can handle It's gone."

Anbina shook her head. Since this is the case, it is even more impossible for her to leave. Her colleague died here for no reason. She must get back the truth, how could she leave now.

Qin Yuan said that letting her see these things is to let her know and retreat. After all, his mission is to protect her, but when this woman has to be protected until the mission is over, what he wants is merit points.

Ambi, you are still comforting yourself, it must be that they did not see the passports and other certificates on them, and Qin Yuan's next action directly shattered her fantasy.

There were backpacks next to the two corpses. The contents of the backpacks had obviously been tampered with. There were their passports and identification documents scattered around. This seemed really ironic.

"You don't need to comfort yourself like this, think about it carefully, especially in this place, don't you see what is missing in the backpack? That is your shooting equipment, they must have captured something, so they were directly captured killed, including you."

Only then did Anbina burst into tears, Qin Yuan shook his head, he couldn't even cry so loudly now, this place is too close.

Qin Yuan really had no choice but to investigate the truth of the matter anyway, because he also felt that it was not that simple.

So just when Ambina gave him the shooting equipment, "Give this to me, aren't you going to take pictures of the interior? I'll show you all the pictures."

Anbina was a little surprised. Just now, this person was still trying to persuade her to stay away from this place, so why did she want to take risks?

Qin Yuan didn't bother to explain to her, after all, he had already wasted a day, and he also wanted to see what was going on, and then take a picture of the thing to this woman as soon as possible. To be honest, it would be really good to be able to expose it.

And the death of that team probably has something to do with this, after all, they have already started killing these innocent civilians.

As soon as Qin Yuan took the device, he took Anbina to a safe place and told her to hide here and not to move around.

Ambina is already very scared now, she doesn't know what to do, she is very helpless, and because of her colleague's incident, she was indeed very courageous just now, but at this moment she is a little cautious.

"Forget it, you still don't want to go, you are an innocent person, I don't want you to be involved, you send me out, I will thank you, I will let other people come in with me."

Qin Wukong didn't say any more to her, and walked outside with the device, but Anbina couldn't catch up at all, after a few steps, she didn't dare to come out again.

In the end, he could only stay in this place according to Qin Yuan's instructions. After Qin Yuan didn't follow this trouble, his speed became faster and faster.

Looking at the heavily guarded factory, he smiled slightly, and then he wanted to stop him. His speed was extremely fast, like a gust of wind passing by. Qin Yuan had already arrived inside without the guarding soldiers noticing anything.

After all, guards like them still have loopholes. These people are not cautious enough. They only feel that they are facing civilians and there is no need to engage in such a big battle. The first place is just a little more than yesterday.

When Qin Yuan entered the factory, he was also shocked by the scene in front of him. More than a dozen mines had been mined inside, and many workers in uniform were transporting things inside.

This has turned into a large-scale production area, and those migrant workers and some people in uniform are all supervising.

This is an overview of the interior of the factory. Apart from this, Qin Yuan noticed that a fortress was being built on the side.

Most of the things pulled out of the mine entered the fortress. When Qin Yuan was observing carefully, he only heard a sound of yelling behind him.

"Hey! Who the \*\*\*\* are you? What are you doing here?"

Because Qin Yuan's clothes are different from theirs, Qin Yuan turned his head, only to see a man wearing a hat walking towards him, and kept yelling loudly, Qin Yuan quickly flew out the silver needle, the silver needle pierced his throat, and the man couldn't make a sound for an instant.

Fortunately, the surrounding area was originally a construction site, with all kinds of machines, and artificial voices, which completely covered up the man's roaring voice.

Qin Yuan rushed forward, tightly covering the man's mouth, after a few minutes, Qin Wukong changed into the man's clothes and came out from behind.

The identity of the man here belongs to a small contractor, because the division on their side is relatively detailed, not only mining rare earth mines, but also other mines, with a total of six areas.

The man is just a small contractor in charge of one of the areas, and there are many people on it. It looks like the things mined here are really not simple.

The United States estimated that other mines besides rare earth mines were found here, and a fortress was built directly next to it. He didn't know what the purpose of this fortress was.

The fortress is also heavily guarded. The only way to get in is to pretend to be workers transporting mines and materials. After all, the fortress is still under construction.

Looking at this fortress, Qin Yuan felt inexplicably familiar. He remembered that when he came out of Xiaomao country, he was dealing with the nuclear field incident in Xiaomao country. It seemed like this.

Chapter 1806: Not an easy mine

Because the nuclear gas at that time was relatively special, the protective cover outside it was also different from the buildings he usually saw, especially when he saw this one now, it seemed to be similar to that one.

There are heavy soldiers around, which makes Qin Yuan even more curious. There must be something wrong during this period. These reporters have been killed and silenced. If they are just ordinary mining of rare earth mines, this is not enough to achieve the purpose of killing people, but if other things are photographed, then it is not necessarily true.

At this moment, Qin Yuan found an opportunity. He wore the foreman's clothes, pressed his hat extremely low, and followed the workers who delivered the materials.

Because the entire fortress is still under construction, there are many people coming in and out, and the soldiers did not investigate. After all, the outer area still intends to be the first, so the chance of getting in is very low under this situation, and they will not waste too much time.

It's just that Qin Yuan stepped forward suddenly, and the workers who followed just now felt a little strange. After all, the foreman didn't need to be with them, and this was just a supervisory role.

A migrant worker on the left glanced at Qin Yuan and felt a little curious. He felt that this person was too unfamiliar, and he had never seen it before. He knew the contractor.

It's just that the clothes on his body are responsible for supervising them, which made him feel a little strange, where did this person come from? Thinking of this, he could only step forward and ask: "Brother, you are in charge of our side Why? Why have I never seen you before, and your clothes are so familiar to me, as if they were worn by our foreman."

"The work uniforms distributed here are all the same. What do you mean? Are you questioning me? I am in charge of other areas including this side for supervision. This is only photographed from

above. Do you want to question me?" Qin Yuan speaks very confidently, and speaks very confidently in a few words, so that the migrant workers next to him dare not question any more. These things are really not his business.

In this way, Qin Yuan followed them to the gate of the fortress. The soldiers did not conduct a search and let them pass directly. Everyone pushed the materials into the fortress. After entering, Qin Yuan found that there were more migrant workers inside.

But these migrant workers are obviously different from the outside, their movements are relatively orderly, and judging from their figure, they are different from the people outside, more like soldiers.

Just when Qin Yuan was about to observe, the soldiers standing beside him with guns kept urging them to leave after putting down the materials and not to stay here.

At this moment, the migrant worker in charge of transporting the materials slipped and spilled all the ore in the cart on the ground. The soldier just now frowned and stepped forward to scold loudly.

"What are you doing? Hurry up and pick it up, don't waste your time here." The migrant worker was so frightened that he didn't dare to lift his head, and quickly squatted on the ground to start tidying up. Qin Yuan took this opportunity to hurry up and tidy up with him.

The others watched silently, then turned their heads and left immediately. They didn't want to stay in this place any longer.

The migrant worker was very grateful. He looked at Qin Yuan and whispered, "I think your clothes belong to the foreman. I didn't expect you to come to help me. Let's pack up and go out." Qin Yuan didn't say much. When it was time to clean up, I began to look around. It was a large site extending into it, and the construction work was about half completed. After all, the site was almost finished.

There is an extended space inside, where there are guards, and the materials they transport can only be piled at the door, and the entry passage is escorted by the people inside. It seems that the real hidden mystery is inside, and they cannot touch it .

Under the constant urging of the soldiers, they packed up their things and set out to push the cart outside. In just a few minutes, they would rather fight such a place. Probably the inside is airtight, and the only entrance is the place where they came in just now. I can come in later when I can find another time.

But at this time, the migrant worker next to him spoke up,

"I think you are so young. You should be a foreman in another area. We don't have such young people here." Qin Yuan could only nod his head to deal with it. He didn't want to say anything more to this person, because if he said too much, he would make mistakes, it will not be so good to be exposed at that time.

The migrant worker next to him seemed to be a talkative person, and he kept saying, "I really can't stay in this place for a long time. I was worried that I would hurt you just now, because people who go in there for too long will disappear, especially last time." Qin Yuan was a little curious when he heard this, this guy still knew something inside, he looked at this migrant worker, he was relatively old, about 50 years old.

"Oh, I don't know about this. I am indeed from another area. I was just called here temporarily to help today. I don't know what the higher-ups are doing." Anyway, Qin Yuan pushes something to the higher-ups, and these people don't know I asked, and migrant workers like this don't care about these things. I didn't expect to pick up the words of this migrant worker.

"It's always like this at the top of them, and people are transferred at any time. I don't know what it is, but I really want to leave here, but I don't think I can go anymore." It was also because Qin Yuan helped him just now, This guy also started to talk a lot, Qin Yuan wondered if this person knew something inside, thinking of this, he took out a pack of cigarettes from his pocket.

"It seems that you still know something, why don't we chat casually?" The migrant worker was a little surprised,

"It stands to reason that you are under supervision, and your labor contract is different from ours. Don't you know as much about the situation as I do?" Qin Yuan dismissed the migrant worker's guard as he handed him a cigarette, and then lowered his voice said: "I'm a new contractor and I'm also replacing others. To be honest, I've only been here for two or three days. I'm not familiar with many things, and I don't know. I was brought here for no reason. "Thinking that the migrant workers next to him actually believed what Qin Yuan said, he said that all the people who come here are like this, they have been tricked by them in various ways, they are all tricked, and when they come to this place Just found out the difference.

"In the beginning, they told us that the salary was very high, and it was indeed the same after we came here, but our personal freedom has been restricted, and we can't go out at all, as if we were sold here." Qin Yuan pretended to be surprised and expressed How could such a thing happen,

"Brother, don't scare me. I still have relatives at home. My parents are still waiting for me to go back. Wouldn't it be impossible to go back?"

"Little brother, I'm not trying to scare you. This is the real situation, and do you know why you came to this place? It must be that the last contractor has been quietly killed by them." Qin Yuan said on the surface. Surprised, he was already secretly happy in his heart, it seemed that this migrant worker knew a lot.

In this way, a lot of news came out of the love affair that came and went. I didn't expect the water inside to be so deep. They have been here for half a year in total, and the fortress is not as small as it looks on the surface. The shape of the fortress they saw Just an entrance.

The space inside is very large. At the beginning of the construction, people transported building materials into it every day, and they also began to move those stone materials. In the next six months, the construction should be almost complete.

Since last month, they have been transporting various minerals excavated from here in large quantities of factories.

Occasionally, they could see some staff members in protective suits coming out of it. They were wrapped very tightly, but they couldn't let them see more at all. There were soldiers chasing them away.

And according to this migrant worker, many of the migrant workers who entered the interior to deliver materials have disappeared.

"Could it be that these people have already finished their work and returned home? After all, according to what you said, the number should be huge, at least a dozen of them." In fact, Qin Yuan had guessed it when he said it, because he Some of the corpses seen in that pit belonged to migrant workers. It seemed that they were all there, but he couldn't tell the truth now.

The migrant worker shook his head. He said that this situation would definitely not happen, because his own brother was in there, and if his brother wanted to go home, he would definitely tell him.

But now it's gone. He went to the person in charge above, but the person in charge just told him that all of them had been dismissed and told them to contact them when they went out.

"How is this possible? If my brother wants to leave, he will definitely tell me, and I have not received any information so far. They have cut off all contact with the outside world. I always feel that those people must have suffered. It's an accident." Qin Yuan nodded, and it seems that these American people want to kill people to silence them, and after they have used all these people, it is estimated that they will die.

And the migrant worker in front of him probably already guessed something. After all, he has been here the longest, and he has also witnessed a lot of things here constantly being replaced by new people, which made him feel very bad.

At this moment, the sound of assembly was heard on the other side. The migrant worker shook his head, then extinguished his cigarette, saying that he could not continue, and he had to go to work.

At this moment, the migrant worker suddenly turned around and ran over,

"Little brother, don't tell others what I told you today. I'm just telling you what I know. You helped me just now. I also want you to be more vigilant and don't be harmed by others. gone."

"Brother, don't worry, I know all these things, and do you believe that I can take you out?" The migrant worker looked puzzled, the people in front of him must be Hutu, there are heavy soldiers here, and they are all unarmed Ordinary people, how could they run out, they can only wait to see what happened later.

Qin Yuan smiled slightly, this person is indeed a good person, and he told everything he knew, so he will definitely take him out later.

Now all he needs to do is to wait. After all, this side is temporarily built. The lights of the camp at night mainly rely on the surrounding generators, because it will have some influence in this primitive jungle, so he will take advantage of that opportunity to quietly slip in.

At the moment, on the other side, Ambina has been staying in the cave. She is very nervous. If there is any movement outside, she will think that Qin Yuan has come back. She wants Qin Yuan to come back quickly, but she is very worried what can go wrong.

At this time, she took out the photos she had taken before from her backpack and was going to check them out, but there was nothing she could do now.

Previously, they filmed a lot in the dark. They followed the transportation team to this place. It can be said that they overcame numerous difficulties along the way, including entering the primitive forest, and they followed them quietly all the way.

At this time, Ambina found a photo, and there was something wrong with it. More importantly, she was quite familiar with this sign, and she didn't notice it when she took the photo.

Among the photos they took, there is a car that stands out, and the sign behind that car is toxic chemicals. Why does this kind of sign appear here?

He didn't notice it at the time, because their attention was all attracted by the team in front, and a lot of those photos were taken.

Ambina quickly flipped through other photos, and finally found the logo on another photo, but this time it was not a car.

Because after entering the jungle, they began to use manpower. They only saw the boxes carried by the soldiers in front. There were such signs on the boxes, and they all wore protective gloves when carrying the boxes.

At this time, Ambina was finally a little more sober. Before joining the corpse she saw in the pit, she suddenly realized, This is not an ordinary mineral at all.

No wonder those people would directly attack them. It seems that they took pictures of different places. Thinking of this, she became more and more worried.

It's over now, she doesn't want to drag Qin Yuan down, because she didn't know about Qin Yuan before and took pictures for her, now that this problem happened, Qin Yuan definitely didn't know about it.

They have rescued her several times, she can't let them down like this. Thinking of this, Ambina couldn't sit still any longer, mustered up her courage, and ran directly into the darkness.

At this time, Qin Yuan was very leisurely. He came to the cafeteria quietly in that suit, not only did he look familiar, but he also ate a lot.

However, the other migrant workers around were not in the mood to eat. After all, what they ate here were some canned vegetarian food. In this primitive jungle, supplies are also very limited, so these canned foods are basically the main food.

These migrant workers, including the soldiers stationed here, have long been tired of eating. Basically, eating is just a formality for them, as long as they can fill their stomachs. For newcomers like Qin Yuan, the food is delicious.

Chapter 1807: dog eat dog

Qin Yuan definitely won't treat him badly, anyway, it's not a problem for him to hang out here, so he might as well have something to eat first, let's get familiar with him first, and he also needs to understand the situation again.

As time went by, the people in the cafeteria had almost left. Qin Yuan originally thought that there would be no work here at night, but he didn't expect that there was a 24-hour double shift here, and the mine was non-stop during the day and night. Transport things out, and then all enter that fortress.

He thought for a while, and decided to use his confusion skills to instantly confuse the soldiers guarding over there. Taking this opportunity, he could go all the way forward and make a suit of clothes. If this continues, he will not be discovered. There are many people here.

And he also learned of an important situation, these soldiers will be on duty at nine o'clock in the evening, and the other group will be on duty until the next morning.

He decided to enter directly when the shift was over. It was chaotic at that time, because there were many migrant workers who were also transporting materials, and it was easier to get in under such circumstances.

When the shift was over in the evening, Qin Yuan had already made preparations, and suddenly he received an early warning from the system.

"Remind the host that the target you are protecting is currently in danger, the system is obligatory to remind once."

Unexpectedly, there was an early warning in the system. Qin Yuan frowned slightly, what the \*\*\*\* is this Anbina doing? He looked at the entrance in front of him, obviously he almost went in.

But if he doesn't protect that woman, he won't get any points this time. Although he can investigate the truth, it seems that he can only give up this opportunity and wait for the next time.

Then Ye Qingqin quietly threw a small stone, directly destroying a street lamp on the left, and the left side was plunged into darkness in an instant.

However, this movement did not make the surrounding soldiers too flustered. They took out the walkie-talkie and asked the maintenance personnel to come and check. It seems that this kind of situation still happens often here.

The soldiers on duty at the side only felt a gust of wind passing by, and at this time Qin Yuan had completely left, and he quickly ran in that direction according to the system's prompts.

Just when he was halfway running, he heard some movement on the road, and there was a woman screaming, and he immediately realized that this must be Ambina.

When he arrived at the place, he only found a small group of patrolling soldiers tying Ambina with ropes and leading her towards the factory.

At this time, Ambina looked in poor condition, with some minor abrasions on her face and her feet were limping, which seemed to be the injury she suffered during the hunt.

Qin Yuan didn't hesitate much, and rushed out quickly, but these soldiers didn't expect that there were other people at all, and they were completely eliminated before they took up their guns.

The knife in Qin Yuan's hand was very fast. Basically, the knife was raised and lowered with his hand, and the flying knife flew out one after another with his left hand. Among them, the person standing next to Ambina was directly pierced in the chest, and blood gushed out quickly. She was so frightened. Stay where you are, not daring to move.

Fortunately, although the woman was frightened, she didn't bark indiscriminately, which made Qin Yuan a little relieved, otherwise how many people would be attracted.

The \*\*\*\*\* smell around her made her feel a little nauseous. The seven-person patrol team was eliminated by Qin Yuan in a blink of an eye. In addition to being shocked, Ambina felt scared, what kind of skills this person had.

Qin Yuan is really angry now, this woman is really disobedient, he has said it many times, but he has to do it every time.

"I really don't know why I took that \*\*\*\*\* mission. If it wasn't for you, I would have gone back by now, and I also have a time limit."

Qin Yuan is really very angry now, because he only has two days in total on the side of the selection camp, and the matter that could have been resolved tonight has been delayed. He must go back before dawn, otherwise there will be no The explanation is not clear.

But the task of this system is to protect the person in front of him. He understands that she will only leave if she gets what she wants, otherwise it will only disrupt his plan.

There was some panic in Ambina's eyes. Qin Yuan was fine before, but now he suddenly got so angry at her, she was too frightened to say anything.

"I, I'm really worried about you, because I found something unusual, and I want to show you."

She mustered up her courage and told Qin Yuan what she found in the photo. She really didn't come here to make trouble, she wanted to remind Qin Yuan.

Qin Yuan sighed helplessly, and finally had no choice but to take her back to another cave, telling her to stay here and pick her up before dawn.

"I'll tell you again for the last time. Don't disrupt my original plan. If you don't obey me again, I don't care about that. You can do whatever you like. This time is the last time I will protect you."

Ambina didn't understand why the person in front of her insisted on protecting her, and even issued such a mandatory order, which made Ambina feel uncomfortable.

"But why do you say this, you protect me, did I let you protect me? You are really funny, you ran out out of nowhere and said you wanted to protect me, and then said these words, I really can't understand. Know what you want to do?"

Qin Yuan shook his head, then snapped his fingers in front of her, Ambina only felt dazed, and then passed out, not knowing anything else.

If I knew it earlier, I would have used such a direct method. After all, this is the only way to directly control him. It is safe in this place. Qin Yuan carried Ambina to the innermost part of the cave, and then covered the surrounding with branches, which seemed safer. of.

After coming out, Qin Yuan made a camouflage around the cave again. Tonight is definitely enough for him to take care of everything. He really wants to do something here directly, and then he can destroy their fortress, but now he can't do it because There are a lot of people who know that he came out.

Especially Yukkin at the training and selection camp. This guy has hooked up with the Mi Army. He probably knows a little bit about it. If there is a problem, he will definitely investigate it to his side.

So Qin Yuan thought of a better way. In addition to exposing Ambina, there is another way to make them bite dogs.

The most important thing now is to take pictures inside. According to what the captain of the Yuan Kingdom said before, there is already a conflict between them, mainly because of the subsequent property division and non-operation.

It is estimated that this fortress was built by the United States without telling the other countries. They forcibly recruited people from other countries for the purpose of mining, and most of the things they pulled out were used in this fortress.

Now things are going to be exposed. After all, this kind of mineral resources is starting to decrease, and most of them are used in fortresses. There must be an uneven distribution of spoils. The other countries want to withdraw, so the United States is doing this. Everyone was warned by them.

In this way, everything is in line, so Qin Yuan must find a way to enter the fortress and find out the situation.

This time he came in much more smoothly, basically used all the skills, and soon he entered the fortress, and then he walked through the passage.

After entering the passage, what came into view was a gate surrounded by soldiers guarding it, but they didn't have much doubts. After all, Qin Yuan had already disguised himself, and he found a suit of clothes.

Although the person next to him was a little puzzled, he still put him in. It seemed that someone had been coming in and out for a long time.

Qin Yuan held Ambina's shooting equipment. This equipment is very small, only the size of a recording pen. This kind of equipment is also easy to shoot. After entering the interior, he is very sure that it is the same as what he saw in Xiaomao before. The structure is exactly the same.

Especially the door made of special material inside is completely isolated from radiation, and even lovers can't get in when walking inside, because all the people inside are wearing heavy protective clothing.

The thickness of the glass is also different, all of which have been specially treated, and there are various pipes at the joints of the gates.

Qin Yuan saw this place very clearly. He took pictures of everything inside. This factory is still relatively far from where they were selected.

After all, it took him more than three hours to come here, and his speed is considered very fast, so now he is more curious about what happened to his team?

So now he has a bold guess, maybe his team didn't find this factory, because they were more cautious and would not lead them to this place.

It was because they discovered those chemical products with special signs like Ambina, so they were in a hurry, and they killed them directly, and the team paid a heavy price.

According to the current situation, the country of Mi is already very anxious. They can't wait to solve the insiders. First of all, the country of Yuan, because they don't want to continue to cooperate with them, so they solved it.

That captain was a kind of warning. As for the other one, it was country A, and country A must be the only one who followed suit.

The following evidences began to point to that side one after another, and Qin Yuan continued to shoot. The entire interior is a kind of ring, and in the middle is the entire experimental site where the staff in chemical protective suits are working.

The mines brought in during the day were mainly in a passage on the side, because he saw some materials piled up around the door.

After these materials are transported to the side channel, there should be a separate processing factory there, and after processing there, they will be directly brought here for experimental treatment.

The shooting here is almost done, Qin Yuan planned to go over to the processing process of the shooting materials, but at this moment, a voice sounded from behind.

"Hey, which team do you belong to? Why are you hanging out here alone? I noticed you just now, what's going on with you?"

Qin Yuan turned his head when he heard this, and found that it was the soldier who was on duty at the door just now, and this guy was quite responsible.

"Oh, who are you again? Do you think you have the qualifications to ask me? Now I am conducting research here under the order of my superiors. If the task is delayed, do you think you will bear the consequences?"

Qin Yuan was very confident when he spoke, and he gradually exuded the aura of a king on his body, completely suppressing the other party.

The soldier who spoke just now was a little dazed for a while, his aura seemed to be different from that of ordinary people, but isn't this behavior a little too abnormal, he was wandering here in the middle of the night, and he didn't understand what he was doing.

Before the soldier could open his mouth, Qin Yuan said solemnly again: "If you continue to hinder me, I will immediately call the highest officer above and let him see who is influencing me here."

The soldier hurriedly waved his hands and lowered his head. He knew that there were some things he couldn't control, and the person in front of him looked a little imposing, which might have been photographed from above.

"Sir, if you have any instructions, please feel free to tell me. I will definitely obey your arrangement. I just felt a little confused just now, so I came forward to ask."

At this point, Qin Yuan felt that it was almost time, so he went over and patted the soldier on the shoulder.

"It's very good that you have this awareness. Don't worry, I'm sure there won't be any problems. I just came here for a normal inspection. The leaders above want to see the work situation at night, so I have to be responsible for these things. "

The soldier realized the seriousness of the problem in an instant. Fortunately, he reacted quickly just now. If he really delayed his work, he didn't know the identity of this person, and he might be punished directly.

In order to make up for their previous mistakes, the soldiers led the way directly in front. Who knows what kind of hobbies the big leaders above have, they came down here to inspect in the clothes of ordinary soldiers.

However, thanks to this soldier, Qin Yuan had more opportunities to show off, and the equipment given by Ambina can not only take pictures, but also record and shoot.

During this period, Qin Yuan got a lot of talk, mainly because they were doing some secret tasks internally, which was the complete evidence, and they couldn't deny it even if they wanted to.

After the visit like this, Qin Yuan rolled his eyes, taking this opportunity to announce his identity.

"Actually, you are very clear about the general situation. I am the new chief from A's country. This time, I mainly participate in the cooperation. Since this side is almost done, I will report to the leader later."

The soldiers breathed a sigh of relief. Fortunately, they were not from the US side. Those people above were very difficult to deal with.

Qin Yuan's operation directly dumped the blame on Mi Guo, which allowed them to succeed in dog bite dog, but this point of blame is not enough, we must make good use of this video.

So next, he will go to Ambina and ask her to do what he said. He plans to re-establish a website and start sending from that website.

Chapter 1808: successfully escaped

"But you have come here to dig graves in the middle of the night. You are really disrespectful to others, and aren't you afraid of retribution?"

"I didn't expect you to be so young and feudal. You have experienced so much, don't you understand? The living are the most dangerous. They are more terrifying than these dead people who can't speak or move."

Ambina didn't know what to say for a while, what this person said was indeed reasonable, but when she faced the corpse, she still instinctively felt that she was in a trembling state of fear.

He didn't know what Qin Yuan was going to do. After a while, Qin Yuan carried the corpse like that, and restored the tomb to its original state. It seemed that there was nothing wrong with it.

This time she chose to follow Qin Yuan from a distance, mainly because the smell was too strong, and that guy didn't dislike him, so he just carried the corpse on his shoulders and folded it, which made her admire even more.

"I really don't understand what you want to do? Don't you discuss these things?"

"Then what do you think will be the result of my discussion with you? We still have to make such mistakes. I don't want to waste time. I have said a lot. I am very busy now."

Because Ambina has been following behind, Qin Yuan can only wait for him for a while, so he wasted a lot of time. After 40 minutes, they appeared at the top of another hillside.

"This is really another geomantic treasure, very good, so here it is."

Ambina didn't quite understand what Qin Wukong meant, and he left in the next second, and asked Ambina to take off her coat.

Then he began to take off the clothes on a dead body. Ambina couldn't bear to look directly at it, so she quickly turned her head, not wanting to look at it anymore.

In her opinion, this is really very disrespectful to the dead. Although the experience these days really made her feel very scared, she at least understands what respect is. In this case, she does not want any other Blasphemy.

Looking at her eyes, Qin Yuan instantly understood what was going on in this woman's mind, so he could only start to explain to her.

What he has to do now is also relatively important. He needs to ensure the safety of Ambina. In this case, he can only fake death. After all, the dead can't lie.

That's why he found this place, because they will definitely use all their strength to find Ambina easily.

"You also know that these people are more dangerous than you imagined, and their methods are omnipotent, so I also hope to ensure your safety. Don't rush to send this thing, you can wait for a while, and I will tell you how to send it ."

Ambina was a little confused for a while, but she understood what Qin Yuan meant. Could it be that she will be an unknown person from now on?

Ever since she chose to come to this place, everything has been completely doomed. Her two colleagues have inexplicably become nutrients in this mountain. No one knows what will happen to them. No one will discover the truth here.

Qin Yuan knew what she was thinking, so he could only comfort her a few words, "Fake death is like real death. If something goes wrong in the follow-up, this can be a perfect replacement, and those people will definitely try their best Find yours."

So only death is the real relief. At that time, the safety of her and her family can be absolutely guaranteed.

Ambina also understood this point. Thinking of this, she took out the ID from her bag without hesitation, and threw it on the corpse.

From this moment on, she is about to bid farewell to the past, the former Ambina will no longer exist, and she will continue to walk on the next road. No matter what, she will definitely post this thing, and the matter has already reached this point. for the sake.

After a while, Qin Yuan asked her to turn around, then poured gasoline on the corpse, lit it again, and patched the corpse a few more times along the way.

This is also for those people to check. He is very aware of the means of the United States. They have a special investigation department and will definitely track this matter, so he must be foolproof.

After all these things were done, the sky was already slightly bright, and the two of them had already come to the side of a road all the way.

Ambina is very confused now, she doesn't know what to do, and Qin Yuan didn't tell her how to send this thing, just said it will be later.

She looked at the empty road and didn't know what to do for a while, but Qin Yuan asked her to follow him.

"You are not particularly safe now. I have some things to deal with recently. You can go to this place, and this person will help you."

Anbina took the business card and looked at the content on it. Looking at the introduction on the business card, it seemed that the chairman of the board was quite rich.

"Actually, I don't want to bother you much. If possible, I plan to leave by myself."

"What are you talking about? And the thing that was filmed was put here first, it's not safe at all in your place, it's not time to post it yet, I'll tell you how to post it later."

Anbina was taken aback, not knowing what to say for a moment, but at this time Qin Yuan had already started to stop cars on the road.

She said a lot that Qin Yuan didn't seem to listen. Anbina felt that she couldn't communicate with such a person. Maybe the person in front of her was not suitable for staying with girls at all, and many of her behaviors were too straight.

They have gone through so many things again, and Anbina feels that she really thinks too much, and now she always thinks about these things.

"If you do this, you won't be able to get a taxi. These people won't stop at all, and at this time two people appear on the side of the road for no reason. Do you think they will stop?"

As soon as Anbina finished speaking, she saw a pickup truck parked directly next to them. Isn't this a direct slap in the face? When Anbina was shocked, she only saw Qin Yuan raising the money in his hand, good guy, this is indeed more straightforward than saying it directly.

The driver just now was also smiling, didn't mind at all, and took the initiative to greet them and ask where they were going.

Qin Yuan roughly explained the situation, but only asked him to send Ambina to the city. It happened that the driver was also going there to pick up the goods. As long as he arrived in the city, he could go out and contact the person on the business card by phone.

And during this period, Qin Yuan had already quickly scanned the driver, and there was no problem, so he handed over Ambina with confidence. It would take more than three hours to reach the nearest urban area from here.

At this moment, Ambina didn't know anything about this matter. She was finally leaving this place with her backpack on her back, and it was only when she got into the car that she realized that Qin Yuan had no intention of going with her at all.

"What are you doing? Why don't you come with me? Where are you going?"

"Why is this beauty just getting along with me for such a short time, is she reluctant to part with me? You were very disgusted before and never wanted me to stay with you. Now I give you your freedom."

Ambina was so angry that her teeth itch. Why is this guy so annoying every time he speaks? She can't figure out everything now, and she can't make up her mind about many things, so she was asked to leave for no reason. She is really flustered now.

"Haven't you ever thought that if this person does something bad to me, don't you just say you want to protect me before handing me over?"

The driver next to him rolled his eyes when he heard this. He just wanted to take this opportunity to earn some extra money. In addition, Ambina had been in the jungle for almost a week, so one could imagine the smell on her body.

"Beauty, you can choose not to take my car. I just want to make some money. In your current situation, let alone me, I don't think anyone will be tempted."

It was only at this time that Ambina realized her embarrassment. The smell on her body was indeed a little strong. After all, she was in the mud these days, and then crawled and rolled in the cave.

Her face was a little reddish, and at this moment, Qin Yuan took out two banknotes and handed them to the driver, asking him to take the person to the destination, and don't worry about the rest.

Just like that, the driver happily drove away, leaving only Ambina in the co-pilot who kept turning her head and calling Qin Yuan.

"Don't worry, I will find you later, just remember to contact the person on the business card."

Ambina knew that it was useless to say anything now, she could only remember what Qin Yuan said as soon as possible, she tightly held the business card in her pocket, this was her only hope.

The driver next to him saw the appearance of the two of them, and thought it was a big scene of life and death, "I said that the little beauty is a man? I think although he said he was looking for you, he probably won't. Boyfriends like this should break up as soon as possible."

Anbina gave the driver a hard look, she didn't want to say anything now, and after the driver's reminder, she suddenly remembered that she didn't even know Qin Yuan's name.

Her heart has fallen to the bottom for a while, so what should she do next? Where should she go? Whether the person on the business card is reliable or not is unknown, and more importantly, the extremely important material for shooting was taken away by that guy.

Anbina was also relieved to leave Qin Yuan just now, and the system has not given any prompts so far. It seems that the system will not give the reward to the account until she is completely sure of her safety.

Without the influence of Ambina, Qin Yuan's speed was very fast. He had already returned to the camp, and at this time Yukejin had just woken up.

Li Erniu just turned around and opened his eyes when he saw Qin Yuan sitting across from him. He was taken aback instantly, "I'm going, Brother Qin, when did you come back? I didn't move at all. hear."

"You kid slept like a pig. It's okay to hear something. The sentinels here didn't find anything. This time, I made a major discovery outside."

Several other people gathered around curiously, but Qin Yuan was not in a hurry to say that he had been away for a total of two days this time, and he wanted to know if anything happened in the camp?

"That Yukkin didn't come here to make trouble, and what's the general situation here?"

It turned out that they had called in more foreign aid in the past two days. This foreign aid was invited by the organizer, America, and they had rebuilt a large venue on the side.

It is said that the construction is actually relatively simple. The main thing is to build a new training ground over there. It seems to be the new survival mode this time. They will be selected and eliminated here.

So there was no movement in the past two days. Yukkin came over twice, but was sent away by several other people.

"So now I want to ask if that guy came into the tent, does he know if I'm there?"

"Don't worry about that. It's absolutely impossible. We never let him in. Anyway, he knew you had left. He didn't even think that you would come back. If he came back, he would pass by those soldiers."

Thinking of this, Qin Yuan nodded. He probably knew what to do. There had been some movement outside, most of the people had already gotten up, and some teams began to prepare for drills.

Qin Yuan also led the team out. He chanted loud slogans to attract everyone's attention, and Yukkin was completely stunned. When did this guy come back?

He couldn't wait to run forward and ask, "Captain Qin, what's going on with you? When did you come back? Why didn't I find anything here?"

"What are you talking about? I don't understand at all. I haven't been anywhere these two days. I've been sleeping in a tent all the time."

Yu Kejin couldn't believe it when he heard this, how could this be possible, he had arranged so many people around, it's impossible that none of them noticed, and everyone just watched him leave that day.

Qin Yuan just insisted that he didn't go anywhere, and just slept in the tent, which made Youkejin feel unbelievable, and now he can't directly refute, he has to save face for the other party no matter what.

He could only express that he seemed to have misunderstood at the time, and after Qin Yuan left, he couldn't wait to find the guards around the tent.

"What the \*\*\*\* is going on? When did he come back? Didn't you find out at all?"

"Impossible. We all take turns to stand guard. Even if there is a meal, we can still find out that he really hasn't gone out!"

As soon as this statement came out, it was vetoed by Yu Kejin. You must know that he watched it go out that day.

When he was struggling with the problem on this side, the captain of the American team quietly found him and said that he had something important to discuss with him.

The captain of the American team received the news that their factory base had been damaged. The main reason was that some personnel had been damaged there. That person was very capable, and no one knew who it was.

At that time, his first suspected target was Qin Yuan, so he wanted to ask You Kejin to find out what was going on.

"As the person in charge here, you should be very clear about these personnel transfers. Did he go out at the time?"

Chapter 1809: Selection rules change

You Kejin also shook his head when he heard this. To be honest, he was a little confused. He did see Qin Yuan go out, but he really didn't know when he would come back.

"There are so many guards over there, how could it be possible for a person to come back safe and sound? If it was him, it would be unlikely."

"What I'm struggling with now is this problem. What's more, in this short time, he should be very tired going back and forth, but I have seen just now that he is training with people."

Speaking of which, Yukkin saw through the tent that Qin Yuan was training in fighting with his team members on the grass outside. That kind of strength and his agility didn't look like a person who had been running around for two days at all.

The distance from that side to this side is still relatively far away, and it seems impossible to calculate it this way.

The team leader of the United States fell into deep thought. Now the higher-ups asked them to conduct an investigation. It is very likely that the people here had almost leaked before, so they arranged to come in and have to monitor it all the time.

"What's your opinion on this situation?"

Yukkin lost his mind in an instant. After all, people did disappear under his nose, but no matter which calculation is used, this result is not valid. Now they must judge who the target is as soon as possible.

When everyone was tangled, a member of the American team was a little impatient. When this went on, there would be a result. He felt that he would rather kill the mistake than let it go.

"Enough, if you are like this, when can we discuss it? I think it is that guy. Let's just contract the result and see how the higher-ups deal with it. If possible, we should act according to the previous plan."

Yukkin understood what he meant, didn't he just want to solve them all like before? He smiled contemptuously, which instantly aroused the dissatisfaction of the opposite person.

"What do you mean? Do you think our abilities are insufficient?"

"Isn't it? Otherwise, you would be beaten so hard that you wouldn't be able to stand up in that situation?"

"Where do you think you are? If it weren't for you not taking care of it, would he still be able to run out? There would be no such thing happening. I think there is a great possibility that it is him."

The two sides quarreled for a while, Yukkin was originally the temporary person in charge here, and he had already been overwhelmed by the management of these people. Now the American team has fully participated, and they have to point fingers here from time to time, so that He felt even more embarrassed.

Seeing that the quarrel between the two sides is getting more and more intense, the captain of the American country is very helpless. Now is not the time to quarrel, but to figure out who the target is as soon as possible, so as not to affect their direction of judgment.

"Now is not the time to quarrel, so let's rule it out for now. After all, two days is really not enough, and his performance is too normal. If it was him, he wouldn't leave so quietly."

After all, other people have reacted. If it was Qin Yuan who made the move, knowing the truth with his personality would definitely silence everyone there, especially those related to this matter.

It is precisely because of this that Qin Yuan successfully escaped their suspicion, and they began to shift their targets to other places. You Kejin also thought, could it be that he was really wrong at the time.

So many people didn't see how Qin Yuan came back. It can only explain one problem. He is definitely in the camp. He can't believe that someone can have such a powerful skill, and dozens of people can't find it.

At this time, Qin Yuan was leading everyone to train, and he behaved very normally. At this time, he also noticed the things that were being built on the opposite side, and some pontoon bridges had already begun to be erected.

Those seem to be some routine training, which is not too difficult for them, and now they don't know what kind of elimination system they should use.

According to Yukkin, after waiting another day, all the construction work over there can be completed, and they have to start selection training immediately. In fact, up to now, Qin Yuan knows that the selection is just a cover, mainly to cover the United States. The little things you do here.

In the afternoon, a truck drove to the foot of the mountain. In this jungle, trucks couldn't get in at all, and people had to carry the supplies up.

After getting the supplies, everyone found that in addition to some new equipment, there were also a batch of canned food with new flavors in this place, which was finally a change of taste.

Only Qin Yuan knew what was going on, especially the batch of canned food, which he ate at the factory at that time, and it was really an excuse to continue the training here, and then kept delivering supplies. In fact, most of the supplies. They have all been delivered to the factory over there.

Qin Yuan is not in a hurry here, and he is very clear in his heart that he has been watched, especially him now. They were watched by the guards sent by Yukkin.

In the name of protecting the safety of the camp, more guards were added, but in fact, all of them were around Qin Yuan's tent, monitoring his every move at all times.

Qin Zhengyang was very unhappy in his heart. Just after washing, he walked in with a basin and sat on the bed sullenly.

"These guys are too much. Why are there no one around the other tents, but we have them here? What does this mean? Looking at us is like looking at thieves, and we are not criminals."

"The more they look at us, the more we feel that we are in danger. They are afraid, but I think it's okay to be watched by them. Anyway, with guards like them, I can go out at any time, just like The situation I told you before, I will personally solve it later."

"Brother Qin, we know what you said, but do you have time to go out now? We have at least one month left here. "

He is definitely not in a hurry, the later the better, these things will be sent out sooner or later, but it is definitely not the time for him to protect Ambina's safety.

Speaking of Ambina being on the other side at the moment, she had already got off the truck, she was very nervous at this moment, and fumbled to take out the money from her bag.

Now she was very entangled, and after thinking twice, she still called the number on the business card. At first, the other party was very impatient, after all, she didn't know Ambina.

"Someone asked me to call the number on this business card. He said that the people on this card could help me unconditionally. I don't know what happened."

Hearing this, the other party was about to hang up immediately, and they all felt that this must be a psychopath. They didn't know where they came from, and they made a call here for no reason.

"Miss, I don't know you at all, and who are you talking about? I know a lot more. I don't know where you got my business card, but this matter is over now."

Just when the other party was about to hang up, Ambina suddenly remembered what Qin Yuan had said to her before, "I can tell you, this man said that he saved your life and your son before."

The other party was stunned when he heard this, and he hurriedly asked, "Is the person who asked you to take the business card a man of about 30 years old, with a little dark skin, and he is from Yan Kingdom."

The other party was also relatively cautious, and did not disclose any name of Qin Yuan, but only described some basic characteristics. After saying this, Ambina nodded repeatedly, and she said that was the case.

Unexpectedly, after finishing speaking, the other party's attitude immediately made a 180-degree turn, and told her to wait there, and he immediately sent a car to pick her up.

"Sir, but my location here is very far away, and the person who asked me to find you told me to tell you, please protect my safety and not reveal any of my whereabouts."

"Don't worry about this, there is absolutely no problem. According to the location you called, I have already sent people to set off. It is indeed far away. I will send people to arrive in a day at most. As long as you get in my car, there is absolutely no problem. ."

This person is the rich businessman that Qin Yuan saved while dealing with the pirates. To be precise, he avenged his son. Now this rich businessman has no other regrets.

Qin Yuan would not miss such an opportunity, and he had contact with this wealthy businessman before, so he felt that this person was quite reliable.

Moreover, the background of this wealthy businessman is relatively clean. Apart from doing business, he has no contact with other things. It is better for such a person to protect Ambina, and there will be no information at all in the United States.

After Ambina hung up the phone, she found a small hotel nearby. She really wanted to live in a better place, but there was nothing she could do now.

Better places have to register their identities. She is now completely in the state of a black household. Fortunately, some local places are not very strict in management, and she can live in those small hotels.

And Qin Yuan's side had already started training the next day, and the competition mode and selection conditions were completely changed.

In the past, they were mainly targeted at the armed criminals in the Amazon jungle, but now they are not needed. They are only allowed to make achievements. Every team has a chance to participate in the election, and they are just ranked and scored.

This news is good news for most people. After all, there is no need to go to the battlefield and fight face-to-face with those militants.

Now the rules have been completely changed. As long as the results are made, all can be scored, and the scores are ranked from high to low.

The best thing is at least you don't have to face those militants, and you don't have to be sent back this time, just based on their ranking.

When He Chenguang heard this and combined with what Qin Yuan said, he probably understood. It seemed that those militants no longer needed to be dealt with. With so many teams constantly encircling and suppressing this place, it was impossible for those people to stay here forever.

On the contrary, when there are more teams, there will be more people, and you will see many details that have not been handled well, so they simply set up such a model, there is no elimination, only ranking according to the level of the score.

This rule has only just come out, and everyone is discussing it. At this time, Qin Yuan directly stood up, "I really don't know who is above you. It's really ridiculous which \*\*\*\* leader made such a decision."

Qin Yuan had no scruples, and directly turned back. You Kejin smiled a little embarrassedly. He said that these were the regulations from above, and he had no choice but to implement them.

"Compared to Captain Qin, this rule is very good for most people, at least you don't have to face militants, and you also participated in the selection."

"I don't need you to tell me about this. I just think it's too simple. There's no need for me to come to this place for such a pediatric thing."

Yukkin was a little embarrassed. He didn't know how to answer the conversation for a while. Fortunately, the instructor next to him gave a reminder that the time was almost up, so that they could get ready to enter the training ground for scoring and selection.

The reason why they selected in such a hurry this time is that there was indeed a problem with the factory. On the one hand, the previous people were not found, and on the other hand, the mine collapsed.

The main reason is that the large-scale equipment cannot be transported and there is no way to complete it. The large-scale support can only be supported in all directions with wooden frames in the most primitive way. However, such excavation is carried out day and night.

In the end, the upper level really couldn't hold on, and it collapsed directly. Now it has completely affected the progress, and the most critical problem is who the two people who ran in at that time were, and it has not been investigated until now.

The U.S. doesn't want to drag on here anymore. They plan to finish the training here quickly. They want to take advantage of the last few days to bring in a large amount of supplies, especially the establishment of this training base. A lot of supplies were brought in.

This kind of training is really too simple for Qin Yuan and the others, completed all the tests with ease, and the instructors beside them were silently keeping score.

When Li Erniu came back at night, he said mysteriously: "I said before that this matter must have nothing to do with them. Look at the team in the United States. They cared so much about their results before, but now they show a state of indifference. I saw them all ranked seventh today."

"Except for those teams who don't know anything, everyone knows what this game means, so it's very easy for everyone to compare."

"Brother Qin, what should we do now? I think what you said is right, but it seems that we haven't investigated many things. "

"Why didn't the investigation come out? Sometimes the truth of things doesn't have to be told to you personally. With the progress of my investigation, the truth has surfaced, and I will make it public later so that they can truly be cleared."

The training ground was mainly built with some wooden bricks and blocks, and Qin Yuan also guessed that there might be something wrong with the factory, after all, the things they brought here were made of stainless steel.

Chapter 1810: systematic concealment

It can be seen from this that this training is just a cover, and according to Qin Yuan's calculation, it is estimated that the training here will end in a short time, and then the ranking will be issued.

This kind of special training like the one established by the United States will gradually be established in other places, but it will become more famous, just like the hunter school that they were willing to attend before.

It's just that this time they acted completely under the guise, and then used it to cover up their real purpose.

Qin Yuan made everyone feel at ease. Anyway, he has already prepared everything. According to his speculation, the competition is about to end. It is estimated that the ranking will be selected in a hurry, and no one cares about this ranking.

It was the group of students who came here that made him a little bit out of control. The main reason was that he brought the team here and made them exceed expectations, so he became so cautious.

Now that the results are rushed out, the remaining people can be re-selected or other new players will come here, and those new players, especially on such a small scale, no one will care at all.

And according to what they expected, if Yan Guo's team members had an accident here before, then no strict team members would participate in the future. This was also in their plan, but they didn't expect Qin Yuan to break the rules and directly Come here to participate.

The training in the afternoon has already started, and Li Erniu ran very easily. This training ground is simply too low-level for them, basically there are no major problems, and they can pass easily.

"Brother Qin, look at the members of their American team over there who are all paddling, as if this matter has nothing to do with them."

"Since this is the case, let's have a good time with them, and don't move around now."

After Qin Yuan finished speaking, everyone stretched, and then lay down on the ground behind. Yukkin was a little puzzled when he saw it. Didn't this guy always aim at the first place? And according to their plan, in a few days, the game will be over soon.

"Captain Qin, what do you mean? Why don't you keep running forward, instead leave this opportunity to others, they are already going to surpass you."

"Oh, I'm just leaving the opportunity to others. After all, I'm also a helpful person. Well, if you let them run first, I won't participate in this matter."

You Kejin was speechless for a while, how did this guy change his attitude so much? If it continues like this, there will be problems with the ranking at that time, and there will be some controversy about whether Qin Yuan will jump out again at that time. This will be more troublesome Yes, according to their plan.

It will let Qin Yuan and the others get the first place. After they get the first place, they will not continue to participate in the competition. As long as they don't participate, there will be no major problems.

But now Qin Yuan is in a state of not moving at all. He is lying on the ground directly. Ba Guo and several other teams next to him are rushing forward very hard. As long as others are involved here, especially Mi Guo There also started acting up.

"Brother Qin, look at how exaggerated the captain of the American country is. He fell directly to the ground and fell alone. It's really funny that the other team members rushed up regardless of their business."

"So the more they do this, the more they prove that there is something wrong. Let's wait and see what happens. Isn't it just to play with them anyway? Just wait a few more days."

Qin Yuan stretched his waist, yawned and stood up, Yukkin finally heaved a sigh of relief, he couldn't figure out what this guy was thinking, it would be bad for a while.

The daytime training selection is over, and players leave every day, but these people who leave have been selected and screened by them.

Qin Yuan planned to go out at night to see what was going on in that factory. Now that there is no Ambina's delay for one night, it is definitely enough time for him to go back and forth, and there must be no problem at the top.

He then looked at the time when he came out for activities, good guy, now the number of guards outside has doubled again, and now they are not around his tent, but around the entire camp, but they are all on their side.

The more this happened, the more curious he became. The factory probably had other secrets to speak of, otherwise there would not be so many more guards, and those guards were also explained by Yukkin as new instructors, and they had to be inspected. Supervised training.

At one o'clock in the morning, the guards outside were still standing guard seriously. At this time, they smelled a strange fragrance in the peripheral position, and they didn't know anything else. When they reacted, everything returned to normal, because at this time Qin Yuan has slipped out.

Qin Yuan's intuition is very accurate, every time he feels something is wrong, it must be related, he speeds up and runs forward non-stop.

He was speeding non-stop in the jungle. At this time, no one could affect his speed. Soon he came to the factory. The current factory is in a state of shutdown, and only the guards standing guard can be seen from a distance. Heard the sound of digging inside.

At this time, Qin Yuan noticed something unusual around him, that is, a lot of people gathered around the factory, and he took a closer look to see the migrant workers from before.

These migrant workers had already packed their luggage, and the large and small bags were waiting to be assembled. Qin Yuan still felt strange. He quietly approached the surrounding trees, hiding his figure well.

When he got closer, he could probably hear the migrant workers discussing the issue of returning home. It seemed that the people above had promised to send them back.

However, according to his previous inspection, the things in that fortress have not been completed, and many things are still under construction. It seems that there are at least fifty or sixty people who

are sent away now. These people are the main labor force. How could it be possible? Just send it back?

Qin Yuan looked around in the crowd, and when he took a closer look, that familiar person appeared in front of his eyes, that is, the migrant worker he had just come to this place to find.

It's just that this person's expression of excitement is different from the others. He is full of sadness, keeps turning his head, looking around as if he is very anxious, and he is very reluctant to leave.

At this moment, the migrant worker stood up and raised his hand to signal that he wanted to stay.

Saying this surprised everyone else. They had been here for almost half a year, and everyone was looking forward to going back. After all, there was no communication with the outside world in this mountain, and he wanted to stay.

The migrant worker was very worried, his eyes met, but the person opposite him didn't give him any answer, just gave him a cold look, and then counted the number of people.

"Sir, I really want to stay. I want to continue to earn some money. I don't think I earn enough here."

Having said that, the person on the opposite side finally paid attention to him, but his attitude was very indifferent, "What are you talking about here, we let you go, do you know where this is?"

Having said that, the migrant workers around all turned their heads to look at this side. Everyone felt that this person was probably a fool. After all, this place was managed by the military. They had already regretted coming to this place and wanted to leave quickly. Only he want to stay.

The person next to him stabbed him on the shoulder, "I said brother, you don't need to waste time here, just go as soon as you have to, now people have given us a chance, hurry up and get out of this \*\*\*\* place, I'm really fed up ."

The migrant worker sighed helplessly. He looked at the people next to him and felt that bad feeling was getting stronger and stronger, and more people were called out from the factory.

I didn't want to leave at all, but at this moment, the team was almost determined, and everyone followed the team to leave.

In this dark night, everyone was using flashlights, and a long lantern dragon appeared in the jungle. They were very excited to go home. They couldn't take a car here, so they had to go through the jungle to get there. It takes about three hours to drive around.

Because of the long distance, everyone did not walk very fast. After all, they were just ordinary migrant workers, not soldiers.

The whole process was stop-and-go, and it lasted for a long time. When the migrant worker was sighing, a familiar person appeared next to him.

He turned his head and found that it was the foreman he saw before. He was a little surprised. The foreman on this side had already been called in, but he didn't even see it. Why would other people be involved.

Qin Yuan looked at him and smiled slightly, "Everyone is going back, what are you doing with such a sad face?"

"I didn't expect that since you are here, according to your level, I always feel that you should know something, but you feel like you don't understand anything."

"I don't know everything, but I can tell you that, I can save you."

The migrant worker's eyes widened. He understood that Qin Yuan was the same as him. They must have discovered something. He grabbed Qin Yuan's hand as if grabbing a life-saving straw.

"As long as you take me away, I can give you anything. I can give you all the money I have earned in these days, and I don't want anything else."

"I don't care about those things, I just want to know what you learned? Is it the same as what I said? But the premise is that you are willing to believe me, you have to tell me the truth, and I can promise to save you."

The migrant worker carefully looked at the person in front of him. He always felt that it was not that simple. From the moment he met this person, he felt that something was different. He was out of place with this place. What's more, his aura was more like an ordinary person.

The migrant worker is also very entangled now, and finally he sighed, maybe the other party is really his only hope, so he told all the things he saw before.

It turned out that he guessed that the departure of these people was probably related to the things excavated the day before yesterday. After checking, he found that all of them worked in the same mine as him, and all the migrant workers in their mine were taken away.

Because they were digging at that time, but in the middle of the process, they suddenly heard a few strange screams, and when they turned their heads to check the source of the sound, the sound stopped abruptly.

But immediately afterwards, he saw two people rushing towards the mine, and there were soldiers shouting non-stop outside, because the distance was relatively far, and he didn't know what happened behind him.

But soon he heard a burst of gunshots. When the shots were fired, everyone crouched down with their heads in their hands, and this migrant worker was no exception, but he still raised his head slightly to see what was going on. At this time, he looked at To the horror scene.

Those soldiers were shooting at the two people who ran in. The two people were very tall and had some tubes stuck in their bodies. They looked very abnormal.

However, when they shot, the person on the left stood up again, and then soldiers behind him kept shooting at him until all the bullets in a submachine gun were completely emptied, and the person fell down.

The migrant workers at that time were even more shocked when they saw this scene. How could this be possible? When the submachine gun was completely fired, the person would turn into a sieve, but the person who fell on the ground didn't seem to have much reaction.

Qin Yuan was also very surprised when he heard this. He knew that the system would definitely not give any mission instructions for no reason, and he also had a guess in his heart, because every mission instruction made by the system was related to the masked man. What the hell?

Thinking of this, he quickly chased the problem system, "It seems that your system is also hiding something from me. Anyway, I am your host, and we belong to the co-existence. You should tell me the truth."

After the system was upgraded, he seemed to have his own system, and he was able to make his own decisions in many cases, but the system fell into silence at this time.

The system didn't give any answer. In Qin Yuan's view, the system was just a bound, cold, mechanized thing, but now it seems that it is not that simple.

"It doesn't matter if you don't want to answer. This is definitely the work of the masked man. He must have participated in the things here Otherwise, you wouldn't have led me to this place."

"Host, please don't be so hostile to the system. We are a community and we all live together, but there are some things I can't answer."

According to the system, if he continued to answer, it would be a violation. Qin Yuan found it more and more interesting. He had already concealed the answer from the system, and he could ask further questions later.

At this moment, the migrant worker next to him kept calling Qin Yuan, because this guy was stunned.

"Listen to me. I still can't forget that horrible scene. That person can stand up after being beaten like that. Do you think it's possible for him to be a normal person?"

Qin Yuan coughed slightly, "So all the migrant workers in your mine saw these two people?"

"Not only did I see it, but the more important thing was behind! When the two corpses were carried out, I obviously saw someone move their hands, and they were also very nervous when facing the corpses. When they were carried out on a stretcher It was tied up."
