

Special Soldier 181

Chapter 181: protective suit

At this time, Qin Yuan swayed into the door of the laboratory, but when he was about to go up, he found that the elevator here actually required a door card. When Qin Yuan was thinking about how to get a door card, one of them was dressed in white. The researcher in the lab coat actually appeared here.

"Oh, isn't this Mr. Frank? Why are you interested in coming to us?"

Qin Yuan couldn't help but was taken aback when he heard this, but soon understood that his father's name was Frank, smiled slightly, and said directly:

"This is not boring, so come around, why, take me to see inside?"

How dad is also an important figure of Dane Military Company, his position is probably on the same level as Jameson before, so this researcher respects Qin Yuan very much.

This person took Qin Yuan directly down the elevator and began to introduce Qin Yuan some laboratory projects.

And Qin Yuan looked at the person in the isolation room in front of him, but his eyes were cold!

Because these people have vesicles on their bodies, it is obvious that these people are experimenting with these Jacobians!

"These are nothing. After all, the Ramanra virus is an accidental product of ours, and we have not researched an antidote. However, we have developed a resistant drug that was once strong. Although the cost is a little higher, at least not It's just that the organization's idea of using this virus to control the Philippines seems to be impossible!"

The researcher said a little regretfully, and then said to Qin Yuan:

"Oh, yes, I heard that there is a Chinese Yannian who seems to be studying this virus. It seems to be able to make a vaccine. I wonder if Mr. Frank has you found him? If he can get a vaccine earlier, that's right. We are a bit disadvantaged!"

Qin Yuan looked at this guy and understood this person's worries. If a vaccine was developed in advance, then people like them would not be able to make money or achieve other goals!

"Don't worry about this, no one will research a vaccine before us. We have already killed that guy!" Qin Yuan said softly.

"That's good. If we can develop a vaccine, and then release the virus to various regions of the world, and collect vaccine fees and patent fees from those countries, the money we make will probably be 10 billion yuan. In the end, the populations of Yan Country and the Three Kingdoms of Azerbaijan are relatively large, and they will definitely be able to do so by then. It's a pity that our progress is too slow and we don't know when we can complete it.

Hearing this, Qin Yuan's fist couldn't help but clenched gently. Fortunately, these people were not fast enough. If they could really complete their ideas, Yan Guo would be passive by then!

Fortunately, Xu Fan has now given Dr. Chen a vaccine. This Ramanra virus is no longer a concern.

Then Qin Yuan glanced at the researcher's business card, it said Dr. Du Sen, his eyes were low, and he said to him:

"Dr. Duseon, I heard that your research institute seems to have an important achievement, that is, genetic weapons. I wonder if you can take me to see it?"

Dr. Du Sen heard what Qin Yuan said, and also showed a triumphant smile, and said to Qin Yuan:

"Oh, I didn't expect the reputation to be spread to your side. In fact, it is a genetic weapon, but it is far from a real genetic weapon. It is just a gene editor that can diverge these specific gene fragments. Go out, but the effect of this thing is very slow, I am afraid it will take several years to have an effect."

With these words, Dr. Du Sen took Qin Yuan'er around a corner, and it seemed that he took Qin Yuan to see the genetic weapon.

But Qin Yuan's heart sank. He understands that if such a thing is taken by those who are hostile to Yan Country, it will be a serious hidden danger to a populous country like Yan Country!

But Qin Yuan also understands that the real hidden danger lies not in the machine, but in the frenzied people in front of him!

They never thought about what they had researched, how much damage they would cause, and how many people could be killed, but only about money and benefits!

And this Dr. Du Sen did not notice that the smile on Qin Yuan's face became more and more strange, and soon led Qin Yuan to a place separated from the glass room, and pointed to Qin Yuan that was more than 4 meters high. 'S machine said to Qin Yuan:

"Already here!"

"This is the so-called gene editor?"

Qin Yuan looked at this thing and asked in a puzzled manner, and Dr. Du Sen said to Qin Yuan with a hint of ostentation:

"Yes, this is the thing. Now it is full of all kinds of messy viruses and genes. If there is any accident with this thing, I am afraid that people in our radius of hundreds of miles will not be able to escape!"

"Really? That's really dangerous."

A big smile appeared on Qin Yuan's face, and then suddenly shot, grabbed one of Dr. Dusan's arm, then flew out two cards from left to right, and with two pops, he directly killed the two bodyguards behind them!

Then Qin Yuan squeezed Dr. Du Sen's throat, abruptly pressed the guy's exclamation into his mouth, dragged him to the door, and directly brushed Du Sen's Identify card!

"Didi!"

The electronic door rang lightly, and the door opened directly, but Dr. Du Sen's face was extremely horrified, and he pointed to the changing room on one side, struggling to say to Qin Yuan:

"protective suit!"

But Qin Yuan didn't care, as if killing a chicken, he snapped the guy's neck off and threw the body in.

After Qin Yuan jumped down, he suddenly heard a sound:

"Ding Dong, a powerful virus has been detected! It has resisted!"

Hearing this voice, Qin Yuan also breathed a sigh of relief. Fortunately, he had already raised the virus resistance ability to the universe level before. If it was a world-class virus resistance ability, it might not be able to stop it.

Then Qin Yuan directly took out his mobile phone and began to make a video call to Liu Mei. As soon as he was connected, Qin Yuan directly asked, covering his face:

"Give the phone to Liu Mei, I'm in front of this genetic weapon now, tell me how to disrupt the order of genes inside!"

At this time, Long Xiaoyun, who suddenly received the call, reacted quickly and directly gave the communication equipment to Liu Mei, but when Liu Mei heard Qin Yuan's words, she screamed and said to Qin Yuan:

"No! You come out quickly, the operation of genetic weapons is very complicated, and I say you can't do it! You don't even know the most basic instrument use, how can you complete this kind of complex gene fragment deletion!"

Chapter 182: Pretending?

Hearing this, Qin Yuan's heart was also cold. What Liu Mei said was true, because he raised his eyes and looked up. There are hundreds of buttons on the operating console of this machine weapon, not to mention there are more buttons below. All kinds of levers are simply more complicated than a computer.

And Qin Yuan still doesn't know anything about this thing. Now let him complete the operation of changing the code of genetic weapons, it is like letting a primary school student who has just learned to switch the machine to learn to hack other people's computers!

But letting Liu Mei come over now is not a solution. After all, Liu Mei does not have the ability to resist viruses like Qin Yuan. If he gets here, he is infected with a virus, then a big problem will occur.

And at this moment, Qin Yuan suddenly saw a dozen paper materials on the ground, rushed over and found that it was the materials of these genetic weapons.

At this moment, Qin Yuan was overjoyed. He received these materials directly into the grid. Although he didn't know whether these materials were useful, they were already at this stage, and he could only give it a try. Healed.

"Ding Dong~ Please start choosing the host!"

With the prompt sound of the system, Qin Yuan's heart was immediately happy, and then he saw three options appear before his eyes!

"1, get world-class genetic programming ability!"

"2, get world-class biological knowledge!"

"3, get world-class pulp making skills!"

Seeing these three options at this time, Qin Yuan's eyes suddenly lit up and he chose the first item directly.

"Ding Dong, congratulations on the successful selection of the host and gaining world-class genetic programming ability."

With the voice of the system, Qin Yuan felt that some knowledge had been stuffed into his mind, and then when Qin Yuan looked at this genetic weapon, he no longer had the sense of strangeness he had before, but instead seemed to have used it for a long time. The time is the same.

Qin Yuan walked to the genetic instrument with confidence, and said to the phone:

"It's alright, now stop talking nonsense, just tell me how to do it."

Although Qin Yuan has learned genetic coding now, it is just like learning how to operate a computer. Although surgery and various skills have been advanced, if he wants to win a game he has never seen before, he naturally needs other masters. Lead better.

At this time, Liu Mei heard what Qin Yuan said, but she was at a loss. What does this mean? Could Qin Yuan still operate this kind of genetic weapon?

"Don't make a fool of yourself, you'd better quit, and consider the long-term plan. I have to do it myself. If something goes wrong, you will be dead."

But Qin Yuan smiled slightly and said to Liu Mei:

"I just saw some information about genetic equipment on the ground. I looked at it and found that the operation of this genetic weapon is not difficult."

Yep?

After hearing Qin Yuan's words, Liu Mei wanted to pull Qin Yuan out of the phone. What is it called difficult? You know, with Liu Mei's academic background, learning the manipulation of this genetic weapon has also been a full 6 months. Qin Yuan read the information for a while and said that he had learned it?

Is this joke more reasonable?

But Qin Yuan still saw Liu Mei stunned and shouted directly:

"What are you doing in a daze? Let me try it first. Anyway, you can see that if there is something wrong, just let me correct it!"

After hearing this, Liu Mei swallowed nervously, and now I can only believe Qin Yuan in this situation.

"Well, now you first turn on the red button on your left, open the programming program, and directly transfer all the mRNA..."

At this time, a series of technical terms appeared directly from Liu Mei's mouth. After hearing Liu Mei's words, Long Xiaoyun and others looked at each other. Although they said they had also gone to school, they could not understand everything Liu Mei said. Can Qin Yuan really do it?

But at this time, Qin Yuan heard Liu Mei's instructions, but he shot something like electricity, and quickly completed what Liu Mei said.

Seeing Qin Yuan's operation, Liu Mei's eyes were full of surprises, because Qin Yuan's operations were all correct, and the speed was very fast, even faster than Liu Mei's speed.

Did this guy research this thing before?

Liu Mei couldn't help but think of how to explain Qin Yuan's operation otherwise, but although the thoughts were in her mind, Liu Mei's words never stopped, and she directly told Qin Yuan all the steps. come out.

At this time, Qin Yuan was listening to Liu Mei's commentary, but one hand was constantly flying, and both hands were about to dance.

After a full quarter of an hour, Qin Yuan pressed the last button before exclaiming in excitement: "It's done!"

Hearing Qin Yuan's words, Long Xiaoyun and others also showed a happy smile.

Liu Mei is equally happy, but watching the program in the video that is constantly scrolling on the weapon, Liu Mei's heart is constantly agitated.

What kind of person is this guy?

Li Erniu and others just thought this was a miraculous thing, but in Liu Mei's view, it was a miracle.

There are hundreds of buttons on the console. The ordinary people will feel dizzy when they see it. Even if it is changed to Liu Mei to operate, let alone reprogramming, just to remove the protection of the system. It takes an hour and a half, but what about Qin Yuan? All the things were completed directly, it only took a quarter of an hour!

You need to know this genetic weapon, but after hundreds of their research members have spent several years of hard work, Qin Yuan destroyed this machine in ten minutes?

The more Liu Mei thought, the more dizzy she felt. The eyes she looked at Qin Yuan were extremely strange, and she really didn't know how to describe this person.

Long Xiaoyun and others are still in shock, but Qin Yuan has already begun to think about the next move. Now the genetic weapons have basically eliminated Qin Yuan, but for the sake of safety, it is best to blow up this thing directly. .

As long as he flees back alive with Long Xiaoyun and others, then his mission is complete.

However, Qin Yuan hesitated in his heart whether he wanted to blow up the genetic weapon now. After all, once the genetic weapon was blown up, it would inevitably make those enemies suspicious. .

And at this moment, Qin Yuan suddenly heard a voice with a Fusang accent:

"Daddy, why are you here? And still down?"

Qin Yuan looked back and found that behind the glass on the second floor, a Fusang man in black appeared, and the eyes of this Fusang man who looked at Qin Yuan were full of shock! !

Because they have received the news, the old man is probably dead!

"No, this guy is pretending to be someone else, kill him!"

Chapter 183: Dead

What Qin Yuan didn't expect was that the Dane organization had to report on the situation every day. My father had not reported the day before, which has made the head office people suspicious!

After adding that the Fuso Club members who were with the father also disappeared, all the people in the head office have already given notice, thinking that the father is dead!

The researchers in those research institutes don't know, but these combat personnel know exactly!

And Qin Yuan also smiled coldly, and now he finally doesn't have to worry about whether or not to explode this genetic weapon now, the enemy has helped him choose it!

"Ding Dong, encounter Ryuji Yuji, kill to unlock two grids!"

At this time, a voice suddenly appeared in Qin Yuan's mind, and then Qin Yuan's eyes lit up, and the smile on the corner of his mouth became more brilliant!

I didn't expect that this guy in front of me was still a big fish, it turned out to be the Ryuzaki Yuji that An Ran said before!

This is a premium item worth two squares!

Yuji Ryuuji was also extremely shocked at this time. Seeing Qin Yuan against his father's face, it proved that father must have died in Qin Yuan's hands. Then they Fusang would follow the four guardians beside him. He must have died in Qin Yuan's hands!

"Baga! Is Sakata-kun also dead in your hands!"

Ryuqi Yuer cursed loudly, and seeing this guy's extremely angry look, Qin Yuan's face showed a little strange, because he looked at Ryuer Eryi's grief, it didn't seem to be lost. An important subordinate, on the contrary, seems to have lost a lover!

Fuck! The two of them are not in that kind of relationship, right?

An idea suddenly burst into Qin Yuan's heart, and then the look in Ryuuji Yuji's eyes turned into a chill!

But even if he knew that Ryuezaki Yuertong was a concubine, Qin Yuan would not let him off easily, so with a move in his hand, the two cards flew directly towards each other, and Ryuqi Yuji was also in his heart. With one move, two darts were thrown out!

Ding! Ding!

It's a pity that the attacks of the two people didn't work. Qin Yuan's poker cards and Yuji Ryuji's darts were all inserted into the isolation glass in the middle.

It's just that both people's hearts were shocked, because although neither of them hit anyone, they also saw the speed and strength of each other's shots, proving that neither of them is easy!

"Hurry up and block the door!"

Ryugasaki gave an order, and the few people behind him immediately ran towards the gate. Since the glass is so strong, once the door is closed, they will become cats in the urn! Qin Yuan don't even want to run with wings in it!

However, Qin Yuan suddenly flew out a few cards. The cards circulated, and directly shot the black men who rushed to the ground. Ryuji Yuji also moved and quickly ran towards the door. Qin Yuan It also rushed directly!

Qin Yuan kept advancing, his hands kept flying, the poker in his hands flying out one after another, and Ryugasaki Yuji also pulled out the samurai sword from his waist, brushed it, and covered it in a ball. The knife cut directly all Qin Yuan's playing cards,

Finally, the two people suddenly met at the door, and Qin Yuan suddenly picked up the power of the ant and smashed it towards Long Qi Yuer!

And Yuji Ryugasaki also clutched the samurai sword in his hand, and headed towards Qin Yuan's vitals!

Shout!

In Qin Yuan's eyes, Ryuji Yuji's knife was fast, but it was not impossible to avoid it. Although the knife was cut through his clothes, his body was unharmed.

And even though Yuji Ryuuji was punched and flew out by Qin Yuan, Qin Yuan could also clearly feel that he was hitting a mass of ooze, and this punch was not hit at all!

is really a master!

Qin Yuan's heart moved, to be honest, although the guy in front of him has such a habit, it may be that Qin Yuan has encountered the strongest enemy!

deserves to be worth two squares!

A trace of killing intent and excitement flashed in Qin Yuan's eyes, and he rushed towards Long Qi Yuji again.

However, Yuji Ryugasaki didn't rush, and threw a large group of smoke bombs with him, and the entire corridor was enveloped in smoke instantly!

But Qin Yuan showed a sneer. For him, who had gained the ability to resist smoke, such behavior was simply seeking his own death.

Ryuji Yuji saw Qin Yuan's extremely confident look, and he also had a trace of doubt, but he also flew out a few darts suddenly, and then slashed towards Qin Yuan this time!

But Yuji Ryuji hadn't cut it down yet, but suddenly a harrier turned over, turned abruptly in the air, and took back the knife that was slashed towards Qin Yuan, but even so, he groaned. , And flew out directly!

Qin Yuan felt a trace of regret at this time. If this guy went a little further earlier, his punch would be able to hit solidly, with the power of an ant and a cosmic mantis punch. If this punch hits Yuji Longqi, Even if you are not dead, you have to peel off the skin!

"This kid is just like me, he is not afraid of smoke at all!"

At this time, Yuji Ryugasaki is also in his heart Fortunately, his heart is vigilant, and he didn't completely put hope on the smoke bomb here, otherwise he would have died just now!

This is the constant temptation of two people. You come and I attack each other. Although the injuries of the two people are increasing, both of them understand that neither of them can easily kill each other!

Qin Yuan frowned a little this time. After all, this was on the opponent's territory. If the opponent could not be killed for a while, once a large number of opponents arrived, Qin Yuan would be in danger.

Thinking of this, Qin Yuan directly moved in his heart, and then sold a flaw, and suddenly rushed towards Long Qi Yuji, and Long Qi Yuji also had a happy look in his eyes. He instantly caught the flaw and touched it directly from his waist. Arriving with a small pistol, it instantly hit Qin Yuan's head!

Ok?

But Qin Yuan didn't evade this time. He forced the opponent's bullet and slammed Long Qi Yuer against the wall with a punch.

Long Qi Yuer spit out a big mouthful of blood, and looked at Qin Yuan with eyes full of disbelief. He was not shocking Qin Yuan's attack power, but was shocking Qin Yuan by three bullets. Why a little No response!

Although my pistol is compact and convenient, its power is not very powerful. .

But a normal person was hit, and I am afraid that all of the forehead Tianling Gai'er has been removed. Why is Qin Yuan not doing anything?

But Ryuji Yuji was also happy. He knew that his bullets were not powerful, so he said that all the bullets had been vomited with special poison. As long as they could break a little skin, Qin Yuan would be dead.

Chapter 184 shot

As long as it takes three seconds, Qin Yuan will foam at the mouth and fall to the ground.

Go and die. Although I don't know who you are, it's a good death to die under my special poison.

However, Qin Yuan seemed to be okay, he was unreasonable, moved forward in an instant, and slammed his fist directly on Ryuji's neck with a click, and forced Ryuji's throat bone. interrupt!

Ryuji Yuji's eyes were incredibly unbelievable. He didn't expect that the vice-chairman of his dignified Fusang Club would die in Qin Yuan's hands so easily!

What shocked him even more was why Qin Yuan got his own bullet, but he didn't react at all. Could it be that his bullet couldn't even break the opponent's skin?

Long Qi Yuer grabbed Qin Yuan's shoulder before he died, his eyes filled with resentment, and said to Qin Yuan:

"Someone...will...revenge me..."

But Qin Yuan's eyes flashed with contempt. With a move of his finger, he directly cut off Long Qi Yuji's neck and said lightly:

"There are too many people who want me to get revenge. You may have to wait a while."

After saying this, Qin Yuan's power moved, and with a click, Long Qi Yuji's eyes dimmed completely.

"Ding Dong, congratulations to the host for completing the task, killing Ryuji Yuji to get two grids!"

Hearing this voice, Qin Yuan was overjoyed. He knew that Yuer Long Qi was completely dead, and then he planned to go outside.

And Qin Yuan had just killed Long Qi Yuji, and when he turned his head, he saw a large group of people rushing towards this side, and then the machine guns were fired, and a series of bullets were shot at Qin Yuan!

And Qin Yuan instantly activated the danger perception ability and 21 times dynamic vision. All the bullets looked like slow motion in Qin Yuan's eyes, naturally giving Qin Yuan a lot of space to escape.

While the playing cards in Qin Yuan's hand were continuously stimulated, those people were constantly being killed by Qin Yuan, and Qin Yuan was just like that, he forced a **** path.

And Qin Yuan felt fortunate that, fortunately, he had just killed Ryuji Yuji. If Yuji Ryuji did not die, coupled with the troubles of these little soldiers, I am afraid that he would really be in trouble.

Fortunately, I gained this iron head skill when recovering the flat head brother. If it weren't for Qin Yuan's shot, there would be no damage at all, I guess Ryuji would not show such a flaw!

At this time, Qin Yuan also discovered his own flaws. Although he now possesses cosmic-level poker skills, it's okay to use such skills to kill ordinary people. Once he meets a truly responsive master, this poker Card skills are somewhat stretched.

After all, the material of playing cards is average, and their power is limited, and it is not always possible to carry heavy weapons. It seems that I need to learn some more powerful attacking skills!

At this time, Qin Yuan suddenly heard an alarm sound in the laboratory, and his heart sank. Knowing that someone must have discovered the anomaly here, he directly set off the alarm!

Now things are at their worst. Although Qin Yuan has already gotten genetic weapons, there are ten of them now, but they have to face more than a thousand enemies!

This is a 1:100 quantity comparison!

A hundred people hit one, even if it is thrown with a bullet shell, it will kill the person!

And the time went back to two minutes ago. Since Long Xiaoyun heard the sound, he has found something wrong, his eyes changed, and he gave an order:

"Prepare to break through, I will save Qin Yuan! Red blood cell team, go to the door first, and wait to meet us!"

Hearing this, everyone's heart was abrupt, but soon they were murderous and did what they should do!

And now Qin Yuan is hiding in the laboratory, taking pictures of all the facts!

He has set up a bomb, and within a few minutes, it will explode directly here, genetic weapons and even the entire laboratory will be destroyed!

However, these evidences showing the brutality of these ***** will also be destroyed. Although this hospital is doing this kind of thing, it is supported by the rebels. If Qin Yuan

can take these evidences out, he will surely gain support in public opinion. If Yan Guo wants to get involved in Jacob's work, this must be a powerful method!

Qin Yuan's movements were very fast. As soon as Long Xiaoyun arrived at the door, Qin Yuan had already photographed everything. Qin Yuan directly threw the phone over and said to Long Xiaoyun:

"Protect this thing, find a way to send it to Ambassador Fan and Captain Ding, it is estimated to be of great use, go! Break through!"

Long Xiaoyun was worried about why Qin Yuan didn't go out directly, but he also understood that Qin Yuan would not do useless things. He took this thing directly and hid it in his arms!

At this time, An Ran drove a jeep directly and stopped at the door, and said anxiously:

"Hurry up, those people are coming around!"

Qin Yuan and Long Xiaoyun got into the car quickly, but Anfisa stood behind the car and directly opened the thing that was pulled from the car!

This is a heavy shot in the car!

Qin Yuan's eyes lit up, he flipped to the back of the car, and squeezed Anfisa into the car, yelling directly:

"Go!"

And Anfisa was so angry, , she managed to get this thing, who knows Qin Yuan snatched it, but she also knows that this is not a time to be awkward, but also honest Grabbed his own rifle!

At this time, there was also a burst of words directly from the broadcast. These words were the local dialect, and Qin Yuan couldn't understand it at all, but he guessed what it meant!

That is, you can't let them escape, you must kill them!

As expected!

With this broadcast, the whole town is completely boiling!

I don't know how many members of the Jacobean Rebels rushed out from various places, and then rushed towards Qin Yuan!

It is said to be a thousand, but no matter how you look at it, it is more than a thousand!

Moreover, the Red Turbans in this city are obviously elite. Whether it is weapons, equipment or spiritual quality, they are obviously much better than those Qin Yuan encountered before!

These people yelled, carrying various weapons, and chased them directly in the direction where the jeep was fleeing!

"Anfisa, help transfer the video!"

Long Xiaoyun handed the phone directly to Anfisa, and Anfisa also nodded. The two of them guarded the two directions in front. Although sending files is simple, they can only do this in turn!

"Come on, get down!".

Qin Yuan yelled at this time, and then An Ran suddenly kicked the accelerator. The jeep rushed out like a stimulant bison!

At this time, the heavy shots in Qin Yuan's hand also fired!

Chapter 185: Are you a human

Control! control! control!

The heavy guns in Qin Yuan's hand are imitation Maxim machine guns with 7.62mm bullets. The rate of fire is not very fast, but the power is huge! Those cars that catch up can be shot through with just a few shots!

But the bullet consumption is still very fast, and although Qin Yuan has super dynamic vision, those bullets can't hit him, but Qin Yuan can't make the bullets hit the car!

Even when a rocket flew over, Qin Yuan even took out a pistol and exploded the rocket directly!

This is too worrying, if Qin Yuan can't react, then they are in danger!

Thinking of this, Qin Yuan felt fierce in his heart. If he weighs a few bullets, it can look like a pistol, so he can hit it wherever he can!

But Qin Yuan knew that this was a idiotic dream. After all, even if it is installed in a car, this gun still has a lot of recoil. What's more, the jeep is still moving at a fast speed. Wanting to hit it accurately is a idiot!

But Qin Yuan still wants to take a gamble!

Then, Qin Yuan took advantage of everyone's attention, and instantly put these heavy shots into the grid, and then took them out instantly!

The gap in between is so small that even the enemy on the opposite side feels dazzled!

However, Qin Yuan still heard the voice coming from the system:

"Ding Dong, please start choosing the host!"

And hearing this voice, Qin Yuan's mouth also showed an extremely ferocious smile!

"1, get world-class heavy shots!"

"2, get world-class heavy gun manufacturing skills!"

"3, get a world-class heavy-shot design!"

Seeing these three options, Qin Yuan directly chose the first one!

"System, I choose 1!"

"Ding Dong, the host chooses successfully, and he gets a world-class heavy shot!"

And following the system's prompt sound, Qin Yuan suddenly felt that his eyes had changed, and the heavy shots in his hand seemed to merge with him!

This time Qin Yuan was immediately happy, pressing his finger again, and he roared again after several shots!

But all this is completely different!

Several bullets fired from Qin Yuan's hand, as if they had eyes, swept directly over those who were pursuing them!

and extremely harmonious, even a little orderly!

Now, the pressure on Long Xiaoyun and others has suddenly decreased a lot!

And at this time, they discovered that Qin Yuan was not shooting in a row at this time, but was holding a few heavy shots and shooting!

and the accuracy is surprisingly good!

Hearing Qin Yuan's rhythmic click, the eyes of Long Xiaoyun and others were about to come out!

They are all well-trained masters, knowing that in this case, as long as they can hit someone with a few shots, they are already full marks, but what is the situation with Qin Yuan?

One bullet to destroy an enemy?

This is a few shots!

Moreover, Long Xiaoyun felt that the attacks on his car were also much less. Not only did Qin Yuan kill a lot of people who were pursuing him, but Qin Yuan even blocked some attacks!

Thinking of this, Long Xiaoyun and the others took a breath!

Is this something that people can do?

But Qin Yuan was unconscious, still laughing loudly, Maxin in his hand was like death's sickle, cutting down one enemy after another!

At this time, in the distance, a black uncle saw Qin Yuan's operation with a telescope, and suddenly patted his hand aside:

"This guy will never be the old man, who is he?"

If Qin Yuan is here, he must be able to find that the black uncle in front of him looks a bit similar to the general Wali who was killed by himself, and this person is the important leader of the Red Turban Army, General Walin!

"I think his teammates are all faces of Yan country, he is probably a soldier of Yan country!"

At this time, the staff officer on one side said, and when he heard this, the pupils of General Wallin suddenly shrank. After all, to them, Yan Kingdom was a behemoth that could not be provoked. He gritted his teeth and said:

"Isn't Yan country not doing this kind of thing? Why did they come?"

But as soon as Warin finished speaking, he heard an explosion in the laboratory in the distance, and then Warin's general's expression became even more ugly!

His allies live in that laboratory!

This explosion, doesn't it mean that his allies are dead!

"Go and see, what is going on!"

Although Warin has already fallen out with these people because of his younger brother, but after all, they have not completely fallen out. Although the leader of K98 and the leaders of the mercenaries have been killed, there is a Fusang Club as an option, so Warin still cares about these people.

Although he knows that these people are not good people, as long as they can successfully resist and become an independent government, then it will be easier to deal with them later!

And now, they still need their power!

Soon, news came from the other side: the laboratory exploded, but no one came out, all of them collapsed!

The staff was in a cold sweat, but General Warin calmed down at this time. He looked at the direction of the gunfire as if he understood the purpose of these Yan Guoren.

"It is estimated that they came to this laboratory, and now they have achieved their goals, so they are so anxious to escape!"

Warin said in a deep voice, then his eyes changed, and he said to the staff officer:

"Go directly to the tank, although they are not enemies with us, but since we have killed our allies, at least we have to give them some color, otherwise, who will dare to cooperate with us in the future!"

After saying this, Warin also went straight downstairs.

As one of the few in the Red Scarf Army who has received formal training, Warin is the real tank driver!

Moreover, he also wants to see what kind of guy these people, especially the headed person, are!

On Qin Yuan's side, everyone rushed all the way, and at this time Li Erniu and others also drove directly to meet Qin Yuan!

But before Qin Yuan had time to be happy, a sense of danger suddenly appeared in his heart. He suddenly raised his head, only to find that a shell was flying towards this side!

"Oh shit! Watch out, there are cannonballs!"

Qin Yuan gave a strange cry, and directly raised several shots in his hand, hitting this one with several bullets in a row, and forcibly deflected the cannonball, and then this one fell directly to the side! !

But Qin Yuan's car is like this, but Li Erniu and others' cars are not so lucky!

Although they also turned left and right, they made extreme operations, but their luck was not good. When the shell exploded, a fragment directly hit the tire of the car. Seeing that the car could not go!

Chapter 186: Dead

The hearts of the people in the red blood cell team in the Li Erniu cart sank. Now there are Li Erniu, Xu Tianlong, Song Kaifei, and Liu Mei.

They originally wanted to respond to Qin Yuan and others, but they didn't expect that the respondent would be fine, but the respondent would be finished!

Now that the car is broken, it means that they have lost their mobility, and there are countless rain of bullets behind them. They are dead!

At this time, the sniper team He Chenguang and Wang Yanbing who were supporting in the distance were also very eager in their hearts. They killed several rebels one after another, but it didn't help!

And when Li Erniu and others were about to be completely desperate, a voice suddenly came from their headsets:

"Damn, that's how I trained you, cry mourning, get out of the car, let's get out!"

"Longlong, open the right channel, Tie Niu, pay attention to protect Liu Mei, the pilot, look for the vehicle! Falcon team, cover!"

When Qin Yuan's voice was heard at this time, the members of the red blood cell team were taken aback, and suddenly they had souls!

"Captain, how do we run?"

"How to run?"

Hearing this, Qin Yuan licked his lips:

"Kill these people and we can run away!"

Can you run away by killing?

Hearing Qin Yuan's words at this time, the members of the red blood cell team couldn't laugh or cry for a while!

There are thousands of people behind, ***** them all?

But at this time, they heard what Qin Yuan said. Even if they knew that this was impossible, their hearts still seemed to have taken a reassurance pill, they were extremely relieved!

Qin Yuan is right, as long as these people are killed, wouldn't they be safe?

All the expressions in his eyes changed at this time. Xu Tianlong said to Li Erniu:

"You are optimistic about Liu Mei first, I will clear the way for you, and then I will help the pilot find the car!!!"

After all, Xu Tianlong rushed out directly, attracting a large amount of firepower!

And Li Erniu took Liu Mei to look for shelter. Even if they were all dead this time, they couldn't let Liu Mei die, otherwise they would not have the meaning to come here!

"This is a grenade. As long as you open the ring and throw it out, you can throw it away. If I ask you to throw it later, you can throw it directly. Remember?"

Li Erniu said to Liu Mei, and although Liu Mei was scared with cold sweat on her forehead, she still took the grenade given by Li Erniu.

nodded, Li Erniu suddenly rushed out and found a room, and found that there were many enemies in it. He shot a few and brought down a few, and then shot and killed the enemy while saying to Liu Mei:

"throw!"

Liu Mei directly threw out the grenade in her hand in a panic, and while taking advantage of this stall, Li Erniu quickly changed a grenade! Keep shooting!

Bullets do not have eyes. Although Li Erniu is trained well, they do not have the ability of Qin Yuan after all. Even if they see the bullet, they cannot hide. At this time, Li Erniu is completely red-eyed. , Stood at the door, did not evade, kept firing, and killed the Red Scarf army one by one!

And at this moment, Li Erniu suddenly saw that a Red Scarf Army appeared on the right, and at this time the enemy also appeared on the front, his heart was shocked, and now it was too late to turn!

Just after Li Erniu felt that he was going to finish the game, a bullet flew over and hit the Red Scarf in the head!

is the sniper team of He Chenguang and Wang Yanbing!

At this time, Li Erniu showed a big smile, and then completely awake, pulling willow eyebrows and moving in the other direction, while Wang Yanbing and He Chenguang, both of them, started shooting and began to cover Li Erniu!

On Xu Tianlong's side, he finally breathed a sigh of relief and said to Song Kaifei:

"Pilot, have you found a usable car?"

"Not yet, hold on for a while!"

Song Kaifei was also sweating on his forehead at this time. Although he found a lot of vehicles, but who knows, most of them are defective cars. For ordinary people, although they can drive, if they are running away, if they use These cars are dead!

And what he has to do now is to find a car that can support them to escape!

"Oh shit!"

Hearing what the pilot said, Xu Tianlong also cursed, and once again fought with the Red Scarf Army who rushed over!

The continuous sound of gunshots around has weakened Xu Tianlong's hearing. Five members of the Red Turban army quietly circled the long road and appeared directly behind Xu Tianlong!

The five people looked at Xu Tianlong who was shooting, with a dark smile at the corners of their mouths. They were about to shoot and knock Xu Tianlong to the ground, but at this moment, Xu Tianlong suddenly turned the muzzle and turned around. Two shots directly knocked down two people!

Then Xu Tianlong rolled over and hid, the gun in his hand must be replaced!

Two of the five people were killed in an instant, and the remaining three were also angry. They knew that Xu Tianlong could not be allowed to change their bombs. Otherwise, the three of them might be dead too. At this moment, they ignored them and went straight to Xu Tianlong rushed over!

But Xu Tianlong, who was hiding in the corner, saw the three people rushing over, but there was a ray of light flashing through his glasses. He did not bother to use a gun. He rushed in two strides, and punched. Smash it directly on a person!

The Xu family is a family of ancient martial artists that has been passed down for hundreds of years, and even changed its name to prevent the enemy from looking for it!

And why there are so many enemies, naturally, it is because the Xu family's kung fu is too domineering and can't hold back when they are discussing. In this way, there will naturally be many enemies!

But this also confirms that the Xu family's martial arts is indeed extremely powerful!

Xu Tianlong, who wanted to join the army since he was a child, learned the killing techniques of ancient martial arts!

Even if it is not comparable to Qin Yuan, it is not comparable to these young people!

Xu Tianlong progressed with a punch and hit a person's chest directly. With this, he collapsed the guy's chest abruptly.

This one directly caused this guy to squirt out a mouthful of blood, seeing only the breath out, not the breath in!

The other two people were also taken aback by this encounter. How could this person be so troubled?

Xu Tianlong didn't freeze. He swept the two people down with two legs one after another, kicking their guns flying with one kick. He just wanted to shoot the two people, but found that the two people seemed to be crazy. Charged directly towards Xu Tianlong!

What surprised Xu Tianlong was that these two people were obviously also trained, and under the attack of the two, Xu Tianlong had no chance to shoot! !

And these two Red Turbans were also extremely excited. They not only suppressed Xu Tianlong's gun, but even shot the glasses on Xu Tianlong's face away!

This guy is wearing glasses, he must have poor eyesight, and he is dead!

Chapter 187: Recycle books

The two became more and more excited, and hit Xu Tianlong's neck and vital parts without any scruples!

But Xu Tianlong was unobstructed. He flashed around, appeared in a gossip step, and slammed two punches directly on the back of the two heads!

immediately killed these two people!

And when these two people saw such a scene, their big eyes were full of puzzlement. Are you a myopic eye? Why does losing your eyes have no effect on you at all?

Xu Tianlong also saw this guy's doubts clearly, and said coldly:

"Silly b, I'm a gentleman, how can I be a gentleman without glasses?"

It's a pity that these two guys didn't understand Xu Tianlong's words at all, so they swallowed with bitterness!

And at this moment, Xu Tianlong's heart moved, he just wanted to fight back, but suddenly heard a voice:

"Wow, Longlong, sure enough, you should put on your glasses. I'm used to it. I feel like you are so fierce now!"

And Xu Tianlong looked back and found that it was Qin Yuan who appeared behind him at this time?

Xu Tianlong smiled shyly, found the glasses directly, and put them on again. This is what followed Qin Yuan to continue to kill those Red Scarf soldiers!

And this time Qin Yuan even brought the heavy machine gun just now. The 7.62mm bullet, like an invisible sickle, directly cut off the bodies of some people, smashing a **** path forcibly!

But they are too many, after all, Qin Yuan suddenly took out a dozen smoke bombs from his body, threw them all out, and said to Xu Tianlong:

"Cover, I rushed over."

Then Qin Yuan threw the grenade on his body again.

Boom! boom!

The explosions continued to explode, coupled with Xu Tianlong's cover, Qin Yuan directly rushed into the middle of the group of people, rushing unscrupulously, just like a sharp bayonet, directly piercing the crowd.

Those in the Red Scarf Army also understood that when the soldiers met, the rifle in their hands did not have much effect. The opponent had only one rifle. It was easy to accidentally be injured by the rifle. So they all took out the dagger and pistol from his waist and turned towards Qin. Yuan attacked over.

And Xu Tianlong was worried that Qin Yuan had an accident alone, and just wanted to rush to help, but before rushing over, he heard a scream, and a figure flew out in front of him! Smashed heavily on the house!

This is just the beginning. After that, Xu Tianlong only heard one scream after another, like a terrible behemoth hidden in the smoke, he can kill these people with his hands and feet!

Qin Yuan's ant power exploded, even a light fist, it still has tens of thousands of kilograms of power, as long as it hits a person, the bones and tendons are broken, and the internal organs will be directly shattered!

Seeing Qin Yuan's operation at this time, Xu Tianlong couldn't stop the twitching of his mouth. Qin Yuan said just now that he was more fierce, and that Qin Yuan in front of him was the real fierce god!

Is it okay when I was training, I didn't fight Qin Yuan. If Qin Yuan confiscates his hand during the fight, wouldn't it be completely finished?

Xu Tianlong smiled bitterly at this time, although he practiced martial arts since childhood, but if this is against Qin Yuan, I am afraid that he would never know how to die!

It is this supernatural power that makes people feel dizzy when they see it!

I guess this is what the elders of the family said, a rare martial arts wizard in a century...

At this time, with Qin Yuan's great power, the Red Turban soldiers also continued to fall, but there were too many of these people. With continuous support, they ran out of Li Erniu bullets. Start picking up guns from the ground!

"Fuck, pilot, all right?"

At this time, Long Long cursed, Song Kaifei was also in a cold sweat at this time:

"It's ready soon!"

He found a car with intact frames on the spot and is refueling the car!

There are no barrels of fuel tanks here, so he has to **** out the oil from other vehicles, and then pour it into their car!

But at this moment, Qin Yuan suddenly saw a pile of grenades thrown from the opposite side, his eyes suddenly shrank, and the bullets in his hand couldn't help but smashed the grenades into the air!

But Qin Yuan smashed the bomb on this side, but the other side couldn't take care of it! A grenade fell directly on Song Kaifei's location and exploded directly!

"Pilot!"

At this time, Qin Yuan yelled and rushed forward, and found that Song Kaifei was hiding behind a car with blood on his face, but his eyes were full of surprises:

"Captain, I'll be fine soon!"

But Qin Yuan's face was ugly, because he saw that a shrapnel flew directly to the battery of this car, and the battery was broken!

At this time, Song Kaifei also saw this situation, and he cursed directly, and then rushed over frantically, wanting to remove the battery and replace it!

But Qin Yuan understands that in this situation, they can't help but change the battery slowly!

It won't take long for them to expect casualties, and even if they don't get it right, even Qin Yuan will fall here!

Although Qin Yuan wants to leave, he can leave safely alone, but Qin Yuan will never do things like abandoning his comrades!

At this time, Qin Yuan couldn't help thinking about how to escape from www.readwn.com!

But at this time, Qin Yuan suddenly heard the sound of a cannon, his eyes lit up, and he said directly to Li Erniu:

"Li Erniu, didn't you say that there are tanks here? Where is it!"

Hearing this, everyone's eyes suddenly brightened, and Li Erniu said excitedly:

"I know that there is a tank two hundred meters southeast!"

"Cover, everyone rushes in that direction, drove the tank and rushed out!"

Qin Yuan roared at this time, and then everyone was heading southeast!

After finishing talking, Qin Yuan rushed directly to the back of their little bunker, and carried Liu Mei on his shoulders. The burst speed was instantly excited, his body turned into a ball of lightning, and he rushed out!

The distance of two hundred meters was almost a blink of an eye for Qin Yuan, who had an instantaneous burst speed. The Red Scarf soldiers guarding the tank just felt that there was a flower in front of them, and there was a pain in the neck, and they fell straight down. !

But there are still a lot of enemies here. Qin Yuan stuffed Liu Mei into the tank and said to Liu Mei:

"Hide well!"

Then Qin Yuan fired while starting the tank and rushed directly in the direction where Li Erniu was!

What made Qin Yuan even more happy was that he saw a book about tank posture in the cockpit, and put the book in his arms and recovered it directly! !

"System, recycle this book!"

Qin Yuan muttered in his heart that this tank textbook disappeared directly into Qin Yuan's arms!

Chapter 188: World-class tank driving

"Ding Dong~ Please start choosing the host!"

With the prompt tone of the system, three options suddenly appeared in front of Qin Yuan!

"1, get a world-class tank driving!"

"2, get world-class tank design capabilities!"

"3, get world-class tank manufacturing capabilities!"

Seeing these three options, Qin Yuan roared in his heart:

"System, I choose the first item!"

"Ding Dong, congratulations to the host for his successful selection and get a world-class tank driving!"

With the sound of the system, Qin Yuan's body suddenly shook, looking at the surrounding environment, a very familiar feeling surged in his heart!

The current Qin Yuan is like being integrated in this tank, the car is driving the gun, the trinity!

Qin Yuan's eyes were filled with excitement, he grabbed Liu Mei's hand, and said to Liu Mei: "Stop the accelerator, don't move!"

"Buffalo, Longlong, you come out from the east, I will blast you a way!"

finished speaking to the headset, then Qin Yuan directly grabbed a shell, filled it directly into the barrel, directly locked a position, and suddenly pressed the trigger button!

"Boom!"

The whole tank trembled directly, and a demolition bomb flew out directly, with a scream, and flew directly towards that wall!

rumbling!

Several members of the Red Scarf Army hiding behind the wall were directly blown up, and this wall also fell directly, killing a lot!

And Li Erniu and the others, while retreating and fleeing, got into this tank!

Qin Yuan's eyes filled with excitement, and said to several people:

"Er Niu, you come to drive the tank, Longlong and the pilot, you two are responsible for loading, I am the captain, you follow my command!"

"Captain, I, although I can drive, but I don't drive much, I don't know if it will work!"

At this time, Li Erniu was embarrassed, but he knew that this was not a drill. If anything went wrong, they would be finished!

"You can do it, don't forget, there is me!"

Qin Yuan said directly to Li Erniu, and Li Erniu gritted his teeth and directly agreed!

With Qin Yuan's order: "Break through! Let's go!"

59D under the seat of let out an angry roar, and suddenly moved towards the outside of this small town!

At this time, many Red Turbans were carrying rockets in their hands and wanted to launch them at Qin Yuan, but now Qin Yuan and the tank are almost as one body when they sit down. The spiders have reached the limit, and they don't. Give these people a chance, as long as they meet, kill them all in one shot!

There were even a lot of people who couldn't dodge and fell directly under the tracks of the tank!

And this time, Qin Yuan directly commanded and moved in the direction closest to the outside of the city. He didn't need to go to the city gate any more. After approaching, he directly fired a cannonball and blasted the city wall away!

Those in the Red Scarf Army simply have no choice but to get out of the way!

"Escape!"

finally escaped from this town, everyone could not help but breathe a sigh of relief!

Although it is not completely safe yet, at least there is no need to face someone who can't be beaten at all!

But at this moment, Qin Yuan suddenly jumped in his heart, turned his head and found that an M60 tank had been aimed at them!

"Turn left! Brake!"

Qin Yuan roared, and Li Erniu was very nervous at this time, and suddenly operated, an armor-piercing projectile with a roar, flew directly from their 59d!

Everyone was in a cold sweat. The 59D only had light armor and couldn't eat this armor-piercing bullet. If Qin Yuan hadn't seen it, their tank would be dead!

And seeing that the gun failed to hit, the driver of the M60 was also an accident, but the best time for the first gun has passed, so the next one can only be a chase!

"Attention driver, go serpentine!"

Qin Yuan gave an order, and then the tank began to wobble as if drunk, but Qin Yuan was not affected at all, staring straight at the M60, analyzing the tank's forward trajectory !

Soon, Qin Yuan said to the loader with a smile on his mouth:

"Armor-piercing projectile, coordinate E30, level 6, waiting to be launched!"

But Liu Mei, who was hiding aside at this time, said to Qin Yuan with anxious expression:

"No, the M60 on the opposite side is heavy armor. Our armor-piercing bullets simply can't hit the opponent!"

Qin Yuan glanced at Liu Mei a little unexpectedly. He didn't expect this woman to even study tanks, but he smiled:

"Don't worry, I know it!"

In fact, what Liu Mei said is right. M60 is indeed heavy armor. Their armor-piercing projectiles can hardly penetrate the opponent's armor. If you want to deal with this kind of

tank, it is best to go around behind the opposite side, but they are now on the run. How could it be possible to get behind the other side?

However, Xu Tianlong and Song Kaifei have natural trust in Qin Yuan. He quickly adjusted the coordinates and said to Qin Yuan:

"Already locked!"

Then Qin Yuan heard this, looked at the opponent's tank, observed the surrounding environment, stared at the opponent firmly, and finally gave an order:

"Launch!"

Xu Tianlong suddenly pressed the firing button of the artillery, and the firing pin in the barrel pushed this armor-piercing projectile and flew out of it!

With a sharp noise, the armor-piercing projectile directly hit the M60!

At this time, Liu Mei glanced at the opposite M60, but was unharmed, and said to Qin Yuan:

"Look, I have reminded you a long time ago, our armor-piercing projectile can't penetrate the other's armor at all!"

"Did you look carefully?"

Qin Yuan chuckled, but Xu Tianlong and Song Kaifei took a breath of air-conditioning at this time.

Because Qin Yuan's armor-piercing bullet did not hit the opposite armor at all, but directly hit the gap in the opponent's track!

This time, it directly interrupted the opponent's mobility and turned it into a living target that could only be beaten!

"I wipe it! So accurate!"

At this time, everyone looked at Qin Yuan with shocked expressions. It is not so shocking that guns can do this, but it can also be done with tanks, which is amazing!

"Niu b, Captain! This will work!"

Song Kaifei said with excitement at this time. They thought they were going to be chased by this M60 this time. Who knew that Qin Yuan would be crippled as soon as he shot!

"Okay, don't get excited, we are not completely safe yet, there are more than a dozen tanks on the opposite side!"

Qin Yuan sneered. Although they only had a few shells in the car, Qin Yuan didn't believe it. These people would reimburse all these tanks in Qin Yuan's hands! !

You know, these Red Turban soldiers are poor!

They are also counting on these things to fight against the Jacobites!

Chapter 189: Recycling goshawk

At this time on the side of the Red Turban Army, watching Qin Yuan kill so many of them and robbed a tank, General Wallin's teeth were about to be broken!

"These are people who popped up from somewhere, why are they so powerful? They say they killed a hundred of us!"

At this time, General Wallin was thinking about whether their breath was worth it.

After all, Qin Yuan's purpose is very clear, it is to blow up the laboratory, and this laboratory is the property of the k98 company, now their cooperation with k98 is almost over, so what are they doing?

What if they burned down the house, would they still fight Jacobs like this?

But General Wallin was a bit entangled. This word has been released, and the person is already dead, but the loss is so great that even the other party did not kill it. Is it a bit too embarrassing?

Seeing the appearance of General Wallin at this time, the staff on one side said to General Wallin:

"General, we have so many dead, we can't let them go so easily!"

General Wallin frowned. If Qin Yuan and others were really special fighters from the Yan Kingdom, if they killed Qin Yuan, and they were still such masters, wouldn't it be right if they killed Qin Yuan? Bad future development?

You need to know that even if they overthrew the Jacobite Army and established an independent country, they still need the help of Yan Country!

But before that, they must show their strength!

"Let's go, there must be another fight to have a good talk!"

After saying this, General Wallin found a tank and went straight in!

At this time, on Qin Yuan's side, they finally had a chance to breathe.

At this time, there was a sound in Qin Yuan's headset, and Long Xiaoyun's voice resounded inside:

"Qin Yuan, you can be regarded as escaping. We have transmitted all the information you gave. Captain Ding attaches great importance to it. He is asking for instructions from his superiors and may provide us with some support!"

Qin Yuan was also happy when he heard this. Although the weapons on the warship can reach here, the warship cannot be launched without sufficient excuses!

And those video materials of Qin Yuan are just excuses!

But at this moment, Qin Yuan's radar capability was activated, and he discovered that the chasing troops behind him actually caught up again, and this time, whether it was the tank or even in the sky, there were several goshawks!

Qin Yuan took a look at this time, and found that these goshawks were constantly humming, which was obviously providing directions to the tanks behind.

Qin Yuan's face sank. After all, these goshawks have very good eyesight. If they keep providing directions to the other party, it will be difficult for their tank to escape!

Tanks are heavy-duty weapons after all and consume very fast fuel. Their tank can run hundreds of kilometers at most, and Qin Yuan and others need to return to the factory.

And just when Qin Yuan felt entangled, another voice came from the headset:

"Captain, what shall we do next?"

This is He Chenguang's voice.

When he heard this voice, Qin Yuan was overjoyed and said to He Chenguang:

"You are back in the team, now the tanks are dispatched. If you leak, it will be very dangerous. Give me the blocking gun in your hand!"

Although the sniper is powerful, it is still incapable of facing this type of tank. After all, if the position is leaked, the opponent will directly explode with a row of artillery. You have great skills, and you are also killed!

He Chenguang and Wang Yanbing agreed. Soon, the two drove a motorcycle to catch up with Qin Yuan and others, and Qin Yuan also felt that the chasing soldiers were about to come up!

"Captain, give you a gun!"

He Chenguang directly gave the gun in his hand to Qin Yuan. As the main sniper, the gun in He Chenguang's hand is the most powerful and has the farthest range!

After Qin Yuan took the gun, he made some preparations, then directly looked up at the goshawks in the sky, a smile appeared on the corner of his mouth, and then pointed at these goshawks and fired directly!

"Boom!"

A gunshot sounded, and a goshawk flying in the air staggered and fell directly!

Hearing this voice at this time, General Wallin, who was sitting in a tank, was also excited, but soon a trace of hideousness appeared on his face, and he said directly to his men:

"It's in that direction, we chase it!"

And Qin Yuan also directly rushed out of the small motorcycle that he had jumped on before He Chenguang, and now he has to find a way to get the goshawk!

Before firing, Qin Yuan had already calculated that the goshawk hadn't landed far away, and Qin Yuan soon found this goshawk!

Although this goshawk was shot, Qin Yuan deliberately missed the point of the goshawk, so even though this goshawk had injured its wings, it still looked at Qin with extremely fierce eyes. deep!

But Qin Yuan didn't care, he grabbed the goshawk and received it in the grid!

Qin Yuan wanted to catch some birds like goshawks to make up for his vision problems during the day, and finally caught it!

And this goshawk is the best choice!

"Ding Dong~ Please start choosing the host!"

With the prompt sound of the system, three options suddenly appeared in front of Qin Yuan to obtain a world-class eagle eye! "

"2, get world-class goshawk command!"

"3, get world-class eagle claw skill!"

Seeing these options at this time, Qin Yuan felt a burst of joy in his heart!

The vision of an eagle can see places several kilometers away, which is dozens of times that of humans!

If the eyesight of an eagle is used, Qin Yuan does not need a scope when he uses a gun!

And this eagle eye is obviously to obtain the eyesight of the eagle!

But Qin Yuan glanced at the goshawks above his head, but he smiled and said directly to the system:

"System, I choose the second item!"

Since there are still a lot of things in the sky, Qin Yuan will naturally not be greedy for this immediate advantage. If he can catch all these eagles in one swoop, it will really make the people on the opposite side really dumbfounded!

Following Qin Yuan's choice, the system also reacted:

"Ding Dong, congratulations to the host for his successful selection and gaining world-class goshawk command ability!"

With the sound of the system, Qin Yuan's mind directly added some information, and then Qin Yuan directly released the goshawk in the grid, and then directly used the eight needles against the sky to cure this. Goshawk!

What is even more surprising is that the eyes of this goshawk looking at Qin Yuan gradually became docile! !

Qin Yuan glanced at the tanks in the distance, smiled, put the goshawk away again, and drove back to the tank!

But Qin Yuan hadn't left yet, but Long Xiaoyun's voice came from the headset!

Chapter 190: Cooperation

"Qin Yuan, the people above have already given instructions. They can provide us with some artillery support, but they need certain data guidance!"

Qin Yuan heard this voice, and he was immediately more happy. He had a plan, and with this support, they were able to run out properly!

Data guidance?

Qin Yuan glanced at the goshawk in the grid, and laughed!

Soon, this goshawk took off again, and its body was wrapped around a satellite phone of Qin Yuan!

And this time, the place where the Goshawk fell was not on Qin Yuan's side, but on the tanks on the opposite side!

At this time, Li Erniu and the others looked at the goshawk in the sky, and they actually fell into the enemy's camp, completely dumbfounded!

They did not expect that Qin Yuan would directly counter the enemy's eagle!

And still instigate rebellion on the spot!

how did you do that!

They just saw Qin Yuan pick up an eagle back, and didn't do anything. They just tied a phone call to the eagle, and then let the eagle out!

They are still worried, if they release this eagle, will it be counterproductive and let the enemy catch up, but Qin Yuan is not worried, he just wants the eagle to return to the enemy's hands!

And Li Erniu and others don't believe it. After all, if the eagle is not hungry and tired, it will not return to the ground, and it will return to the tank group with a lot of noise.

But this scene that happened before my eyes completely shocked Li Erniu and others!

What makes them even more happy is that in this way, the data guidance is completed, and they can call for support at any time to directly blow up the opposite tanks!

"Damn, Brother Yuan, how did you do this?"

"That's right, you can also boil the eagle!"

Qin Yuan just smiled and said to everyone:

"Well, when I was a child, my family was poor and there were no toys, so I could only find some chicks and puppies to play with."

Hearing this, everyone was speechless for a while, just looking for these things to play with, can they instigate the eagle that others have raised for a long time?

Funny?

But they were not trying to question Qin Yuan either, and Qin Yuan saw that the goshawk had landed on the enemy's position at this time, and also directly took out a cell phone and dialed the phone.

At this time, on the side of General Wallin, I heard the satellite phone ringing, and the Red Scarf Army under him quickly sent this phone call!

"General Warin, shall we armistice?"

At this time, Qin Yuan also made no secret of it, and spoke directly in the Yan Guo dialect.

And General Wallin's expression also sank. He could understand the Yan Guo dialect, but he did not agree with Qin Yuan's statement and said directly to Qin Yuan:

"You killed so many people, and still want to truce?"

"Then we continue to fight like this, how much do you think you will lose? We are not here specifically for you, just to complete the task. The Jacobites did not benefit us, so I am not willing to help them attack you. , This is something within your country."

Qin Yuan said with a smile on his face, and when he heard this, General Warin's expression was even more ugly. Qin Yuan was right. With Qin Yuan's skills, they didn't know how much they would lose if they were to fight.

And Qin Yuan continued:

"And I really don't understand why you would cooperate with those people. You are also a resistance army, why would you cooperate with those who use you to do human experiments!"

what?

Hearing this, General Wallin's heart was immediately shocked. Although he knew what weapons the institute was studying, he didn't know what he was studying.

Those people will also bring some sick people in. General Wallin thought it was studying the virus.

Ramanra virus is so raging in the Philippines, he also counts on what antidote this research institute can study.

But now that I heard what Qin Yuan said, it seems to be using their people to do human experiments?

"If you don't believe me, you can open your mobile phone and take a look. Although the laboratory has been blown up by me, I have taken pictures of what happened before. Of course, if you think it doesn't matter, then I have nothing to say."

General Warin quickly pulled out the video, but just watching the tragic situation of his compatriots, General Warin was distraught. He didn't expect that the person he was cooperating with was such a bastard.

What's even more hateful is that I planned to bet on the future of the Red Scarf for such a bastard!

Only after hearing the violent gasp of General Warin, Qin Yuan also laughed:

"I know that the reason you resisted is because the Ramanra virus is raging in the Philippines, but the Jacobites have no response and there is no solution, but I can tell you responsibly, Raman The vaccine to pull the virus has been developed by our Yan Chinese, and your epidemic may soon pass!"

"what?"

At this time, General Wallin yelled in surprise. Qin Yuan was right. It is precisely because of the Ramanra virus that they will rise up. Those in the Jacobean Army, Once a patient is found, the first reaction is to isolate the village, leave the patients in the village to die, and then burn the entire village.

People who are alive will of course feel unbearable when they see such a situation. When this emotion has accumulated to the limit and provoked by others, it will naturally form a wave!

But if the Ramanla virus has a vaccine, then they have no basic reason to resist!

"Is what you said true?"

At this time General Wallin said in a deep voice, but Qin Yuan smiled and said to General Wallin:

"I don't have any need to lie to you. In fact, since you received this call, your life has been in my control. I have transmitted those videos to it. It is estimated that the above blow will come soon. As soon as I gave the order, the missile would fall directly on your head!"

Hearing this, the people around him were in a panic, and General Warin's hand holding the phone shook suddenly.

But now that he did such a thing, General Wallin was also a man with a city government. He understood that missiles were washing the ground, and now he couldn't get away even if he wanted to run. So soon his hand stabilized and he said to Qin Yuan. ∴

"Then why don't you call the missile directly?"

"That said, this is your country's own business. To be honest, if we change our positions, I guess I will do the same thing as you, but I want to advise you, hope you After reaching your goal, don't be like the people you hate. Of course, now you should think about how to escape."
