

Special Soldier 1831

Chapter 1832: Start side quests

When Fan Tianlei saw this girl coming in, his serious expression immediately softened, and he was full of smiles. For fear of frightening this tall and cold beauty.

"Yo, it's Doctor Du, do you have something to do with me?"

The beauty said in a gentle and deep voice:

"Thunder God, I'm not looking for you. I heard Director Gong sent someone to come to me and say that someone was injured. Let me come over and deal with it."

Fan Tianlei suddenly realized and was a little bit disappointed, this beauty didn't come to find him.

"Oh~oh~ yes, we have a wounded person like this, show him quickly."

Then Fan Tianlei pointed at Qin Yuan and said:

"It's him. He's injured. This is the best soldier in our army. He was injured when he went out to perform a mission. Show him quickly."

Qin Yuan also saw that the beautiful military doctor seemed at a loss. He stared blankly for a long time and couldn't move his eyes. He even forgot the pain on his body.

He Chenguang pretended to cough and pushed Qin Yuan with his hands.

At this time, the atmosphere in the room became very delicate.

Fan Tianlei said:

"Qin Yuan, you brat, why did you see that the beauty is dumb and can't talk anymore. You can't even fart."

Qin Yuan was in a daze, but he came back to his senses when he heard Fan Tianlei's scolding.

He stretched out his injured arm, ready to shake hands with Doctor Du. Just now he grinned his teeth in pain, but now he seems to be unconscious.

"Hi, my name is Qin Yuan. I accidentally got hurt when I was on a mission, so I have to trouble you."

This cold beauty, since entering the room, has no expression at all, as if she is otherworldly, and even gives people the feeling that she is a robot.

Although she had no expression, she didn't feel that she was that kind of impolite girl. On the contrary, she felt that she was not close to him, and she didn't even need to walk to his side to feel the chilling feeling.

The beautiful woman said coldly:

"Hi, my name is Du Bingbing."

After introducing himself, he didn't say a word.

Seeing the awkward atmosphere, Fan Tianlei hurried out to smooth things over and said:

"Ah, Military Doctor Du is our new intern military doctor here. You have been on mission for the past two days, so I don't know.

Xiao Du, let's see how Qin Yuan's injury is. "

"Okay, sir. But it's not convenient here, there are a lot of bacteria, so let's go to the infirmary."

"Okay, okay. Qin Yuan, what are you doing in a daze, go to the infirmary quickly, go by yourself, I'm still busy, let's ignore you for now."

He Chenguang said:

"It's okay, sir. If you have something to do, you should be busy first. I will accompany Qin Yuan to bandage the wound."

After He Chenguang finished speaking, he raised Qin Yuan's arm and held him carefully, making Qin Yuan look like a seriously ill wounded person.

Seeing such a scene, Fan Tianlei couldn't help laughing.

He thought to himself, the boy He Chenguang was so considerate because he saw the beauty of Doctor Du. this kid.

Fan Tianlei shook his head helplessly while thinking.

Three people walked into the infirmary.

Du Bingbing said to He Chenguang:

"Please go out first, it's not good if there are too many people here, you go out and wait for a while, it will be fine soon. It's not that serious, and you don't need to be here to accompany you all the time."

This is how He Chenguang was rejected thousands of miles away by the beauty. So I had no choice but to go out in despair.

After He Chenguang went out, Du Bingbing took out the mask from his pocket and put it on, then rolled up Qin Yuan's sleeves and saw his wound. Du Bing said coldly:

"Don't worry, it's nothing serious. Just sterilize and sew it up."

"Ah! What? Need stitches? It's not that serious."

While carefully disinfecting Qin Yuan's wound, Du Bingbing said:

"Whether it is serious or not is not the patient's decision, but the doctor's decision."

Qin Yuan smiled helplessly, thinking that he never thought that this glamorous beauty would be a domineering president. So he teased Du Bingbing.

"Why don't you let He Chenguang stay with me in the room? Don't you know his purpose?"

Du Bingbing, wearing a mask to cover most of his face, now only reveals a pair of watery peach blossom eyes, with thick eyelashes blinking back and forth.

It's really top-notch beauties who can hook people's souls just by looking at their eyes.

"I just know his purpose, so I don't let him stay in the house."

"Oh, then what purpose do you think he has?"

Qin Yuan really asked the question knowingly, and he insisted on bringing the topic up to this matter. Now it is obvious that Du Bingbing doesn't want to talk to them, and he doesn't know what kind of background this cold beauty is.

To be able to come to this kind of place as soon as he graduated for an internship, from this point of view, the background of the family must not be simple.

Qin Yuan wasn't too interested in this beauty's appearance, although he did look like a fairy. But Qin Yuan was more interested in what kind of background he had, so he asked:

"Military doctor Xiao Du came here for an internship right after graduation?"

"right."

"Then what school did you graduate from? It must be a very powerful school."

"I'm a master's degree from a medical university."

Du Bingbing, while chatting with Qin Yuan, applied various potions on his wound.

"Which step is it now?"

Just as Qin Yuan finished asking Du Bingbing, he took out a needle and pricked around his wound without saying a word.

Qin Yuan witnessed Du Bingbing with his own eyes and stabbed himself with a needle. He was just about to protest.

"How? Are you conscious now?"

Although Du Bingbing pricked himself with a needle, he was indeed unconscious, so Qin Yuan shook his head.

Du Bingbing said coldly:

"Well, very good, it seems that the anesthetic is working."

"Anesthetic? Smudged anesthetic? It's as simple as that, can it handle it? Don't you need to give me an injection of anesthetic?"

"You are a man who serves as a soldier. Even if there is a little pain, you should be able to bear it."

"Patience? There is a better way to relieve pain, why do I have people here not to scrape the bone to cure the poison."

After Qin Yuan finished speaking, Du Bingbing ignored him. Turn around and take the needle and thread, ready to start stitching the wound.

Although Qin Yuan didn't feel any pain, watching Du Bingbing thread needles on his body could easily cause physical discomfort. So he turned his head to the other side, not watching the process of being stitched up by himself.

Within a few minutes, Du Bingbing said:

"How? I don't feel any pain. I'm done."

Qin Yuan looked down at the wound he had stitched up.

Not to mention that this new intern was already quite capable, the wound was stitched neatly and beautifully, and he didn't suffer any pain.

Seeing that Qin Yuan didn't respond, Du Bingbing said:

"It's over, you can go. Remember not to get water on the wound, and don't take a bath these days."

Qin Yuan smiled politely and said:

"Then thank you, Doctor Du, there is nothing else, I'm leaving first."

Although Du Bingbing was wearing a mask, it could still be seen that she had no expression on her face. He also nodded politely.

Just as Qin Yuan was about to open the door, he heard Du Bingbing say:

"Oh, that's right. Don't forget to ask me to remove the stitches for you after seven days."

Qin Yuan turned his head and asked suspiciously:

"I heard that the sutures used in surgical sutures are not all absorbable? Why do they still need to be removed?"

"It seems that you know quite a lot. It can indeed be absorbed, but from our medical point of view, removing it is more conducive to the recovery of the wound."

Qin Yuan suddenly realized and nodded.

"Ooo, I really learned something. By the way, do I need to apply some medicine to disinfect?"

Du Bingbing walked to Qin Yuan's side and said:

"Of course I need it. It's best to take some anti-inflammatory drugs. You can go to the infirmary of the headquarters and tell him about your situation in a while, and he will help you get the medicine."

"You don't have any ready-made here, do you want to get me a copy directly?"

Du Bingbing took off his mask slowly, and said slowly:

"I guess you shouldn't just take the medicine given by a stranger casually, so you'd better take it yourself, so you can feel more at ease."

Qin Yuan never expected that Du Bingbing would say such a thing.

Does he know that he often performs some special tasks?

Forget it, don't think about it so much, I just finished suturing the wound and I still want to go back and have a rest.

When Qin Yuan opened the door and went out, he saw He Chenguang waiting outside. He Chenguang was outside alone, waiting for him to be bored and sleepy. Just for a while, it was time to fall asleep.

Qin Yuan walked up to He Chenguang and pushed him hard. He Chenguang was startled and opened his eyes.

"It's over? It's pretty fast. I'm bored waiting here, and I'm going to be sleepy."

Qin Yuan snorted coldly:

"Boring? I think you have no chance to strike up a conversation with a beautiful woman and fell asleep here depressed. I don't know you yet."

Qin Yuan looked back into the room again to make sure that Du Bingbing didn't hear him speak. Then he moved his head closer, and whispered in front of He Chenguang:

"Let me tell you, don't think about this beauty anymore. It's not something you can control at all."

"I can see it. I don't have so many thoughts now. I just want to go back and have a rest. Aren't you tired?"

He Chenguang said while yawning.

"It's good that you know, then let's go back now."

After finishing speaking, the two put their shoulders together and prepared to go back.

Passing by Fan Tianlei's office, Qin Yuan said:

"If you're tired, go back first. I still have something to tell Thor. After all, so many things happened today, I'm still not at ease. I still have to report to him."

He Chenguang thought for a while, he was also very conflicted now, should he stay with Qin Yuan or go back to rest first. If he insisted on staying with Qin Yuan out of good intentions and he wanted to talk to Fan Tianlei alone, it didn't seem right, so he said it directly.

So He Chenguang said:

"Then go in by yourself, I'll wait for you outside."

Qin Yuan said:

"Yeah, that's good, you wait here for a while, I'll be out soon."

So Qin Yuan walked to Fan Tianlei's door and knocked on the door three times. Before waiting for the sound from inside the room, he pushed the door and went in.

Seeing that Qin Yuan's wound had been bandaged, Fan Tianlei was not as worried as before.

"It seems that your wound has been healed. How about Doctor Du's medical skills?"

Qin Yuan sighed and rolled his eyes.

"The medical skills are still good, but she is a little withdrawn and not easy to get in touch with."

Fan Tianlei snorted.

"I think you are chatting up with someone, but they ignore you. You kid."

Qin Yuan pouted.

"I didn't strike up a conversation with anyone, it was He Chenguang. But what is her background, how can she come to us for an internship as soon as she graduates."

Upon hearing Qin Yuan's question, Fan Tianlei was obviously thinking about something. But he shook his head.

"No background? Why are you always so dark in your heart? Why can't people be good if they are capable? Don't tell me that all the young people who come to us have backgrounds? You are just an example."

Fan Tianlei's two words left Qin Yuan speechless. But he does have some truth to what he said. I am now in my current position by relying entirely on my superhuman abilities.

But not everyone is the same as me, there is a system. This matter can't be said directly, since Fan Tianlei didn't mention Du Bingbing's matter too much.

Qin Yuan didn't continue to ask any more questions. After all, the most important thing for him now is to quickly find out the spies hidden in the country.

"By the way, Thor. Have you reported the munitions system?"

Fan Tianlei shook his head helplessly.

"Is your kid a reminder? How long have you been in just now? Do you think I have time to report this for you so quickly?"

"Okay, okay, then I'll give you some more time. This matter is very important, and you need some refreshment, Thor."

"You kid said it lightly. After all, the mission given to us by the higher authorities is to catch spies. You have created some kind of underground arms system. The amount of information is too large. I have to report it little by little. ."

Qin Yuan really didn't have that much patience to listen to Fan Tianlei playing here.

"I know Raytheon, I know you also have difficulties, but you have to hurry up, I sneaked into Effiete today, they have already been discovered by them, and I was injured.

That is to say, they already know some news. If they don't act quickly, may not be able to transfer this underground arms system. Let's not talk about it by then, even spies There is no way to verify it. "

After listening to Qin Yuan's words, Fan Tianlei also thought of this.

Based on his experience, it is impossible for him not to know the seriousness of this matter.

But it is true that due to institutional reasons, he has no way to leapfrog the report, and he can't rush to the leader's office, and he is in a hurry to tell this matter directly here.

"Okay, I see. I am also very anxious about this matter. Apart from our own mission, it is more for the safety of our country H."

Qin Yuan knew that he was indeed a little impatient, so he said quickly:

"Okay, let's do this first. You think of a way, I'll go back first."

Chapter 1833: secret meeting

Qin Yuan came out of Fan Tianlei's office, not feeling very happy all the way, and returned to his dormitory in despair.

As soon as he opened the door, he saw several roommates staring at him. Qin Yuan also expressed his doubts.

"What's your situation? Why are you looking at me like this?"

One of the roommates said:

"Don't we care about you? Do you know? We have been worrying about where you have been these days since you left. If you are on a secret mission, we may never see you again."

Hearing what his roommate said, Qin Yuan was a little unhappy. Why doesn't it sound like auspicious words?

"What do you mean by that? Do I go on a mission? Will we not be able to meet again? Do I die outside if I go on a mission?"

Then another roommate said:

"Don't take it to heart, he didn't mean that. He thought you were going to carry out some secret espionage mission. You have to know that in a situation like ours, once you go to carry out some secret espionage mission, it is very likely that once you go It's a lifetime."

When Qin Yuan heard this, he also recalled all the dangerous things that happened today.

Not to mention other dangerous situations, just that it is hung on a high-rise building, and the situation of the air conditioner outside is likely to be the most dangerous moment to kill yourself.

So Qin Yuan also lowered his head, and did not speak when he got down.

At this moment, Wang Yanbing opened the door and came in.

"Your boy is healed?"

Before Wang Yanbing came in, he heard his voice.

He has always been such a character, cheerful, warm and generous. His voice was always heard by those who hadn't seen him yet.

Qin Yuan was also very happy when he saw Wang Yanbing push the door in.

"How is your side? Is there..."

Qin Yuan just wanted to ask him about the previous situation. But when I think about what I and my companions are performing, it is a secret mission after all, and it will be very troublesome if other people know about it.

Once so much information is easily revealed, it is easy to attract the attention of the enemy.

When Wang Yanbing saw that Qin Yuan's bandaged wound was still hanging around his neck, he couldn't help feeling a little worried.

"Didn't expect you to be so serious? Why didn't He Chenguang tell us?"

Qin Yuan looked at his comrades, worried about himself, so he said quickly:

"Don't worry so much. I'm fine. It's just a little dangerous today. It's just that some superficial wounds have already healed. Don't worry."

At this time, a gossiping roommate next to me said:

"Is Qin Yuan new here? Du Bingbing's little doctor Du Jun helped you bandage the wound?"

The man had a wicked smile on his face as he spoke.

When Wang Yanbing heard the name Du Bingbing, a smirk suddenly appeared on his face.

"Oooh, so it's Du Bingbing."

Qin Yuan was obviously puzzled when he saw Wang Yanbing's expression.

"What's wrong with Du Bingbing? Isn't he a new military doctor? Oh, by the way, is there any problem with being an intern?"

At this time, Wang Yanbing quietly walked to Qin Yuan's side and whispered carefully in his ear:

"Do you know what his relationship is? He is not an ordinary person. I suggest you stay away from him. This kid and girl are amazing. "

Qin Yuan had a question mark on his face when he heard this.

"Her? What can he have to do with listening to the graduate student who has just graduated from the master's degree."

Qin Yuan only cared about refuting Wang Yanbing, and didn't care about keeping his voice down when he just said it.

Wang Yanbing looked embarrassed, and pushed Qin Yuan helplessly with his arm.

"Don't spread rumors, say something, but there must be evidence."

Qin Yuan said slowly:

"What evidence do you want? Do rumors still need evidence?"

At this time, a roommate who looked very annoying next to me said:

"I know what's going on with Du Bingbing? Isn't she someone? I heard that our military region was going to recruit a group of intern military doctors, and they were all graduate students sent by the leaders to the school. Tell me why you chose her Is it? How about this matter, you really can't think about it carefully, and when you think about it, you feel that there are a lot of tricks in it."

After hearing the gossip, Qin Yuan didn't intend to continue the discussion with them at all. At this time, he just felt that this group of people was so boring that they could even make up such gossip.

Although Qin Yuan didn't want to meddle in these nosy matters, he was speaking from a righteous point of view. It's really unfair to spread such rumors about ordinary women, and this kind of girl who just graduated.

At this time, Wang Yanbing also angrily said:

"You people usually don't do business, but just gossip about who is related? Who has a special shady secret with whom? Can't you make some zippers to improve your abilities when you have time?

Don't you think it's too boring to always add other people's efforts to something? "

"It's not just boring, it's simply an expression of incompetence."

At this time, the room was full of discussions, and He Chenguang pushed the door in from the outside.

When he heard these people talking about Du Bingbing's paintings, he was naturally unwilling, and he was very angry, so he kicked the door open.

After all, these people are the best special forces, and the usual training is naturally very intense, and they have developed muscles like carving axes.

Unexpectedly, He Chenguang kicked so hard when he was angry, but his strength was even stronger.

With a "bang", the door lock of Qin Yuan's room was completely broken.

At this time, a gossip is obviously a little unhappy. After all, this is their territory, you, He Chenguang, even if you have the ability, you can't act wildly in your own territory.

This is not an express rule, but a polite behavior that everyone should respect, and it should be a question of the norms of adults in dealing with people.

So, Qin Yuan hurriedly said.

"Making pornographic rumors about a girl is one of the most shameless acts in the world. Do you know how many poor girls die every year?"

When Wang Yanbing heard this, he patted the table even more angrily:

"Although you and Qin Yuan live in the same dormitory, the quality between you is simply worlds apart,"

Seeing that the two teams were about to fight, Qin Yuan hurriedly spoke out to stop them.

"Forget it, forget it, everyone calm down. Maybe you don't have any malicious intentions, but you are just curious about this mysterious Du Bingbing."

Seeing Qin Yuan's words to stop him, people from both sides gave him a little face so they didn't speak.

At this moment, there was a knock on the door.

"Boom boom boom"

Qin Yuan thought to himself that fortunately someone came at this time to relieve the embarrassment.

"Who is it? Please come in."

As soon as he came in, everyone saw that he was a very ordinary recruit.

This kid was timid when he came in, and he looked a little uncomfortable looking at the faces of the two people, and he didn't dare to speak.

Qin Yuan looked at the boy's appearance, and quickly said:

"What's the matter with you? It looks strange to you."

"I...I came here to find...Qin Yuan at the words of Commander Fan Tianlei. May I ask which one of you is?"

Seeing that the boy was cute like this, He Chenguang couldn't help teasing him.

"What's your business with him?"

"I didn't look for him, but Chief Fan Tianlei asked me to come and look for him. Who is Qin Yuan?"

At this time, Qin Yuan's roommate also intentionally teased him.

Qin Yuan looked at this kid being teased by everyone, feeling a little pitiful, Qin Yuan quickly stood up and said:

"I'm the person you're looking for, what's the matter?"

As soon as the boy heard Qin Yuan speak, he immediately became excited. Originally, he thought that he would not be able to complete the task given by the chief officer, but he did not expect that the person he was looking for was right in front of him.

"Officer Fan Tianlei asked me to come and find you. He asked you to go to his office at 8:30 in the evening."

He Chenguang was a little puzzled.

"What is this Thor doing? He doesn't know if your injury is just healed? Why did he look for you alone at night if he didn't talk about something just now?"

Qin Yuan shook his head in doubt, and then suddenly had a flash of inspiration!

"Could it be that he had a result on that matter? It seems that he must have come to us to discuss that matter."

He Chenguang understood Qin Yuan's meaning, but Wang Yanbing and other roommates present were a little confused. Wang Yanbing asked:

"What happened?"

Qin Yuan patted Wang Yanbing on the shoulder and said:

"I can't tell you about this for the time being, but don't worry, you will definitely know when you have a chance."

After Qin Yuan finished speaking, he remembered the recruit who was still standing beside him, at a loss.

"Okay, I found out what you said and brought it with me. There's nothing else, so you can go back first."

As soon as the new recruit heard what his senior said, he quickly bowed and fled the low-pressure scene.

Everyone in the room laughed as soon as he went out.

"Is it like this when we first came to the wrong place? Like a green head."

With such a room full of people talking and laughing, the agreed time came.

Qin Yuan looked up at the watch on the wall.

"It's time, I'm going to see what Thunder God wants me to do. You guys continue to chat here, I'll go first."

So, Qin Yuan went out.

Soon, he arrived at the door of Fan Tianlei's office.

It was already past eight o'clock in the evening, and basically no one was in the office building. Because the time to turn off the lights in the army is still very early.

Qin Yuan knew in his heart that it seemed that Fan Tianlei deliberately found this time for him to come here. It must be something very confidential. It seems that the matter I should have mentioned should have a result.

Qin Yuan knocked on Fan Tianlei's office door. The voice of Brahma Thunder came from inside me.

"I knew it was you, kid, you don't need to engage in so many formalisms, so hurry up and come in."

Qin Yuan pushed the door open with a smile and went in. Unexpectedly, Fan Tianlei was the only one in the room.

"What's the matter, sir? If you don't talk about something during the day, it's really delaying my rest if you say it now. I'm working overtime. Is there any overtime pay?"

When Fan Tianlei heard Qin Yuan say this, he knew that this kid was still very skinny.

"Overtime pay? There's a **** overtime pay. It's all useless pay. Do you want it?"

Qin Yuan lowered his head and smiled. He didn't expect Fan Tianlei to be quite humorous sometimes.

At this time, Fan Tianlei's face suddenly became serious.

"Let's get down to business, you should know what I want you to do. You asked me to report it, and I have already reported it to my superiors."

Upon hearing what Fan Tianlei said, Qin Yuan stood up excitedly just as he sat down.

"How is it? Has this matter come to fruition? What did the officer above say?"

"Don't worry, kid. Why do you start now? Things are so frizzy. If you have something to calm down, I'll tell you."

Qin Yuan thought to himself that it should be good news, otherwise this Fan Tianlei wouldn't be so coy and deliberately procrastinating to take your own heart.

Qin Yuan immediately sat down and said:

"I'm not frizzy, let alone impatient. I'm not expecting good news. Besides, this matter is not for my own military exploits, am I for the common interests of our country H?"

"You guys always say something decent."

It seems that this Fan Tianlei is deliberately pulling his patience.

Qin Yuan thought to himself, well, since you're not in a hurry, then I won't act anxious, and I'll see who is anxious later.

So Qin Yuan lay back and leaned back on the sofa, looking very comfortable. He also picked up the water next to him and took a shallow sip.

When Fan Tianlei saw Qin Yuan like this, he knew that he had seen him.

"Is this really good news for you?"

Qin Yuan calmly said a word: "Oh?"

"I reported this matter to the leaders above. They mean that you did the right thing. Although catching spies is our very important task at present, we must not underestimate the information you provided about the underground arms system. ."

Qin Yuan was still leaning on his back, looking at the expression on his face, but he was not in a hurry.

"It seems that our chief executive is indeed very foresighted. , if it is said that he can achieve this position, his strategic vision is different from that of ordinary people."

Fan Tianlei could clearly feel the connotation of Qin Yuan's yin and yang eccentricity. So he took a look at him and didn't have the same knowledge as him, because Fan Tianlei knew that Qin Yuan didn't have any bad intentions, and he had always had such a character.

"The leadership above means that if the spies can be caught at the same time and the underground arms system can be completely destroyed, then it must be the best choice. embarrassing you."

Hearing this, Qin Yuan was a little confused.

"Embarrassing me? This matter won't depend on me to complete it myself."

I only saw Fan Tianlei grinning with his mouth crooked, showing a hint of a plot-successful expression, looking naughty and mischievous.

"What? Did the strongest man in our army feel a little timid when he heard this?"

Chapter 1834: Rescue experts

When Qin Yuan heard Fan Tianlei say this, he felt very dissatisfied in his heart, thinking, you Thor, do you mean to look down on me?

You are so funny. You actually look down on me, don't forget that I am the king of soldiers in the army. Is there anything that I, Qin Yuan, can't do, and there is nothing special that can make a man live with me.

Ever since, Qin Yuan said to Fan Tianlei:

"Don't worry, Thor, there is nothing I can't do that you entrusted to me. Tell me, what tasks do you plan to arrange for me next?"

Fan Tianlei looked at Qin Yuan's narcissistic face, thinking that this kid is really good enough.

It's really a bit of a real skill, so just talk about it. I have been injured recently because of missions, but I am still able to do things so actively.

This is really something that I didn't think of.

After all, when Qin Yuan first came to the army, he was indeed somewhat rebellious. Now they have grown into small leaders who can act on their own.

Fan Tianlei thought for a while and said:

"I have reported this issue to the leader above, and now the leader means that you should hurry up and do this, and catch the spies lurking in our country H as soon as possible. The system is also something that cannot be delayed."

At this time, Qin Yuan thought of a problem. He thought that when he was lurking in the mysterious organization that day, he saw an expert who was being kidnapped there. He heard that the one kidnapped by Effiete was an expert professor in engineering. Achievement is a height that is difficult for many contemporary scientists to reach.

From this point of view, Effiete, the expert they kidnapped, also wanted to get some clues about the secret arms system from him.

Qin Yuan felt that it was necessary to reflect on this matter with Fan Tianlei to see what the army thought about this expert.

If the army thinks this is a rare talent, then it seems that the most important thing now is to quickly rescue this expert professor from Effiete's organization, and then convince him to do things for him.

It seems that this is indeed a good idea, Qin Yuan thought about it, and a mysterious and gratified smile appeared on his face.

Fan Tianlei looked at Qin Yuan like this and said:

"What are you crazy about, kid, what are you thinking?"

"You're just crazy, I just thought of a problem."

"What's the problem, tell me, and see if I can solve it for you?"

Qin Yuan said while recalling:

"I went to Effiete's organization that day. I saw them kidnap an expert professor, and I heard them say that this person is an expert in engineering, and he is very powerful. I think maybe, we can get there first. Take this one step ahead. Talent is received here."

When Fan Tianlei heard Qin Yuan say this, he seemed to think of something in his heart, and his face was solemn.

Qin Yuan hurriedly asked:

"What's your situation? What are you thinking? Why do you know this expert?"

Fan Tianlei looked at Qin Yuan seriously and said:

"I know the expert you're talking about. It might be Professor Fang. Professor Fang De!"

Qin Yuan never expected that Fan Tianlei knew this person. I was very puzzled and asked:

"You actually know this person? Hurry up and tell me what's going on. My heart of gossip, I didn't expect to be an acquaintance who almost saved you?"

"Yes, he can be regarded as my acquaintance. You should be talking about Professor Fang De. He is an expert in engineering mechanics. He studies the trajectory of munitions and the operation of bullets and missiles. He is a leader in this field."

Qin Yuan was even more puzzled after hearing Fan Tianlei's words.

"You are in the army, and he is an expert in engineering mechanics, science and intellectuals. How can you get to know him so easily? Is there anything unknown behind this?"

Fan Tianlei said:

"You're the one who can find you wherever there is excitement. Professor Fang can be regarded as my teacher."

"Teacher? Raytheon, are you studying engineering mechanics?"

Hearing this, Fan Tianlei raised his head high and felt very proud. Qin Yuan could see the triumphant expression. And he thought to himself, it seems that he underestimated Fan Tianlei in the past. Always thought he was a big bum.

Fan Tianlei was complacent for a long time before slowly saying:

"Don't you know, kid? When I was young, I could be a top student in the Department of Engineering Mechanics of the Industrial University. How about it, you didn't see it. You really are so inferior."

"Yes, yes, I really didn't see it. It's my dog's eyes that see people as inferior. I really didn't expect you to be an intellectual."

"There are so many things you didn't expect."

Seeing Fan Tianlei's complacent look, Qin Yuan didn't interrupt him to recall the beautiful past. Anyway, there is no rush, just let him immerse himself there for a while.

After about fifteen minutes, Qin Yuan said:

"Since this old professor is your teacher, then we should find a way to rescue him."

Fan Tianlei patted the table excitedly and said:

"Of course, is there any need to ask? We not only need to rescue, but also find a way to rescue them as soon as possible without any injuries."

In fact, it doesn't take Fan Tianlei to say, Qin Yuan also understands that since this professor of engineering mechanics is so important, he must try his best to save him.

This is indeed a talent, if it can really help country H, it will be a great thing.

On the contrary, if this professor turns against him to help other countries, especially the United States, the consequences will be unimaginable.

At this time, Fan Tianlei seemed to have thought of this problem.

"Qin Yuan, let's not discuss the espionage issue, let's put it aside for now. Now we are going to rescue Professor Fang."

"Don't forget, we haven't caught the spy yet. Is this matter going to be put down temporarily?"

"I don't want you to stop catching spies. Don't you have more important things to do right now? And I think rescuing Professor Fang will be done soon without taking too much time. After rescuing Professor Fang, what do you want to do?" Just do what you want, and no one will stop you."

Qin Yuan looked at the excited Fan Tianlei, he didn't expect him to be so concerned when this matter was mentioned.

"Thor, I understand how you feel, but do you know how strict Effiete is on Professor Fang? Let's not talk about rescuing him. I'm afraid after what happened to me, I want to get closer to Professor Fang again. It's all difficult.

Besides, we can't act rashly, we must not threaten the safety of Professor Fang. "

Fan Tianlei thought for a while, and he himself felt that what Qin Yuan said was very reasonable. So Lei Shen hurriedly waved his hands excitedly and said:

"Yes, yes, you are right, you must ensure the safety of Professor Fang. If it is not safe, you really can't act rashly, and you must not threaten the safety of Professor Fang."

Qin Yuan himself did not expect that Fan Tianlei was such a person who valued love and righteousness. I didn't expect that after so many years, I still value the friendship between teachers and students so much.

"I didn't expect you, Thunder God, to remember the teacher-student relationship for so many years."

But Fan Tianlei's answer was something Qin Yuan never expected,

Fan Tianlei said:

"The relationship between teachers and students is only one aspect. What I need to consider more is the interests of many parties. If we can successfully rescue Professor Fang, he may be able to do a lot of things for us.

However, if things backfire, things are not easy to control. "

"Oh? How do you say that?"

"Qin Yuan, think about it carefully. Which force kidnapped Professor Fang now?"

Faced with Fan Tianlei's sudden inquiry, Qin Yuan was a little confused for a moment. But he can also imagine that there are many things here, and it is indeed very complicated.

Qin Yuan understood that since such a talent was kidnapped, it must have involved conflicts of interests among various countries, but now the country that is most likely to be behind the scenes is the country of America.

"I guess it should be the United States."

Fan Tianlei nodded and said:

"I think this incident seems to have an inexplicable connection with the United States, but no matter which country it is, the kidnapping of Professor Fang must have interests behind it.

Just imagine, what if we fail to rescue Professor Fang. It's not just the loss of a difficult talent, but more importantly, it will involve the power dispute behind it.

In the end, we might end up not being able to catch the fox, and even messing with it."

While talking, Fan Tianlei raised his head and nodded towards Qin Yuan, signaling Qin Yuan to understand what he meant.

Obviously, a smart person like Qin Yuan can understand Fan Tianlei's meaning in seconds.

So Qin Yuan said:

"Then I understand. This matter can only be done by outsmarting, not by force. How about this, you are reporting the situation to the leaders above. I will go back and study a perfect rescue plan. What do you think? Thor. "

Unexpectedly, Fan Tianlei said:

"There's no need to report to the higher-ups, I'm in charge of this matter. You can go ahead and do it boldly. If any problems arise, I will take care of them."

"Hey, I said Thor. Why are you so happy this time and dare to make your own decision? Didn't you just say that this matter will involve the interests of all parties?"

Fan Tianlei said without thinking:

"Have I been your leader for nothing? I can't decide on this matter. I'm not afraid. What are you afraid of? If something happens, I will be the one. Besides, the spies haven't been caught yet, in case something happens They report everything to the top in detail, and it is very likely that the wind will be exposed."

When Qin Yuan heard what Fan Tianlei said, he thought that this was indeed the case. Thor is right.

Before the spy is caught, the fewer people who know anything, the better.

So Qin Yuan stretched out his thumbs and gave Fan Tianlei two thumbs up expressions. Then said:

"Thunder God, you are really a man. You are decisive and dare to take responsibility. However, since you trust me so much, you can rest assured to leave this matter to me. I will never let you down. Don't worry!"

After hearing this, Fan Tianlei was also very relieved and happy. He walked to Qin Yuan's side and patted Qin Yuan's shoulder vigorously, as if to say, everything was left to you. Don't let me down.

Qin Yuan got up and said:

"Look, it's already midnight. I've been really tired for the past two days. I'm also injured. I'll get up early tomorrow morning and find a way to rescue your teacher."

"How long will it take you to complete this task?"

Qin Yuan bowed his head in thought for a few seconds and said:

"For three days, I need to make a plan, then arrange someone to do it with me, and finally implement it. In order to ensure nothing goes wrong, we must be cautious in everything we do."

After Qin Yuan was about to go out, he stopped and added:

"By the way, Thor. I have something to tell you. Hehehe"

Seeing Qin Yuan's expression, Fan Tianlei knew that he had something to say, and he looked a little embarrassed. So he had no choice but to say:

"What's the matter, tell me, I will help you if I can solve it."

"Hey, Thunder God. Can I borrow the new military doctor Xiao Du?"

When Fan Tianlei heard what Qin Yuan said, his face was darkened.

"You fell in love with Du Bingbing so soon? I'll give you the time to bandage a wound. What do you use her for?"

Qin Yuan quickly explained with a smile:

"It's not Thor, it's not what you imagined. Am I planning to rescue Professor Fang De? I'm thinking that Du Bingbing should be used. But I'm not sure yet, if I really need him, can you listen to me?" Dispatch."

Fan Tianlei frowned and thought for a long time, so he said in a rather embarrassed way:

"Well, after all, things on your side are more important, but what I'm thinking is that Du Bingbing just came to this place and is not familiar with all this. He is a graduate student who just graduated. You want to use him, but Don't arrange any dangerous tasks for others."

"Oh, don't worry, Thunder God. I know this well. Can I let him go with a little girl for dangerous things? I must protect her. By the way, He Chenguang and Wang Yanbing have to go with me too.

In addition, I also need a boy with a face. See if you can send me one too. "

Thunder God was really completely speechless by this kid Qin Yuan.

"Okay, okay, okay, follow what you said. If there is anything else you need, let's talk together. Don't do one thing at a time, my heart can't bear it."

Qin Yuan thought for a while.

"Well... There should be nothing special this time. Then I'll leave first. I'll go to Du Bingbing tomorrow after I figure out a way."

After speaking, Qin Yuan walked out the door. Not far away, Fan Tianlei shouted loudly at the door:

"You boy, be careful when you talk to Du Bingbing tomorrow, this little girl is not something ordinary people can handle. She has a very stubborn personality."

"Understood, don't worry."

Qin Yuan thought to himself, hum, wait and see my show tomorrow, I'm really tired now, let's go back and rest first.

Chapter 1835: In preparation

Qin Yuan returned to the dormitory alone and found that it was already midnight. Several of my roommates have also fallen asleep.

So he also lay on the bed, preparing to rest while planning tomorrow's rescue activities.

I promised Fan Tianlei that I would rescue Professor Fang De within three days. It seems a bit exaggerated to think about what I said in the dead of night now. After all, I can be regarded as your impulsive words, but since the words have been said this time, a gentleman's words are hard to follow.

You can't go back on what you say. Even if it's difficult to do, you have to find ways to complete it. You must not let Fan Tianlei underestimate yourself.

Just when Qin Yuan was very distressed, he suddenly had an idea. No, there's no need to think about it here by yourself.

After all, I am not an ordinary person, but the system with unlimited systems can give me a lot of support.

Qin Yuan thought to himself, or ask the system if there is a more suitable rescue plan.

So he quietly put it away ahead of time, planning to go to bed. Prepare to find a quiet place with no people to talk to the system. Ask, after all, this matter is a very confidential matter for him alone, and he must not let others know.

So Qin Yuan got up from the bed and walked to an empty place. After all, he didn't want anyone to eavesdrop on his conversation with the system in the middle of the night.

"System, come out."

"Ding dong, may I ask what the host needs at such a late hour?"

"I want to ask if you have any careful rescue plan here, can you give me a try?"

"Ding Dong, does the host want to search for a rescue plan?"

"Of course, otherwise, why would I come to see you so late?"

"The system prompts that the energy storage of merit points is insufficient to complete the host's request. Please recharge the merit points in time or complete a recovery task in time to open a new grid."

"What? I took the risk to come out to talk to you at such a night, and you actually told me that there is no way to search for what I want and you have to recycle the items to help me."

"Ding Dong, sorry, host. Your request cannot be completed at the moment."

"Forget it, I'll figure it out myself."

Qin Yuan originally thought that he could come out in the middle of the night to find a well-planned rescue plan, but he didn't expect that he had consumed too many merit points in the past two days, and he didn't have the corresponding items to recover, so he could open a new grid or replace it with a new contribution value.

Now I need to find a very perfect solution.

Suddenly Qin Yuan had an idea, the rescue plan is very simple, as long as I find a book about the rescue plan and hand it to the system for recycling, so that I can get the relevant content of the book. In this way, it is definitely not difficult to plan a very careful rescue plan.

But the library is probably closed at this time, where can I find related books?

At this time, let's go back to rest first, recharge your energy and recharge your batteries, and you will be ready for what you want to complete tomorrow.

So, tonight, I quickly and quietly returned to the bed in the dormitory, preparing for a good night's sleep, and went to the library early tomorrow morning to find a related book.

In this way, a quiet night passed, and when it was dawn, Qin Yuan was woken up by the army's wake-up call.

Seeing that Qin Yuan didn't get up when he heard the sound of the trumpet, his roommate said in a strange way:

"See, this is the celebrity in front of Thunder God. His status is beyond our comparability. It's already high in the sun, and he still doesn't get out of bed."

Another roommate also mocked there:

"Don't be sour here. What is his status? He is Thor's confidant, so he is naturally different from us. He has Thor himself to arrange secret missions, so you don't need to dictate here."

In fact, Qin Yuan has already woken up, and even woke up earlier than the whole room. He originally wanted to get up earlier to do his own things, but as soon as Naihe heard that these two people got up early in the morning, he began to act like an ignorant woman.

In a fit of rage, Qin Yuan lay down and didn't move. It is to intentionally annoy these two lemon essences.

I didn't expect these two people to taunt and taunt endlessly here.

Qin Yuan didn't want to waste any more time here, so he jumped up together.

Get off the two people and jump.

Qin Yuan got up and said:

"Oh, today's weather is really good, and it's another day that I don't have to train with everyone, but I really envy you people, you have to run in the morning when you wake up. I'm different, I just want to play like Thor gave me The task is done."

These two people also saw that Qin Yuan said that on purpose, so they left the door angrily.

After a while, He Chenguang walked in slowly.

"How is it? Your wound is much better. Do you want to have Doctor Du look at it again?"

Qin Yuan gave He Chenguang a hard look.

"I don't think you want to care about me, don't you want to care about Doctor Du? I advise you not to miss him, you have no chance."

"What do you mean, are you interested in him? They are good brothers. If you really like Du Bingbing, just say so, and I will quit."

Unexpectedly, Qin Yuan said disapprovingly:

"I'm young now, and I don't have time to think about those messy things. I have a lot of work to do now. By the way. I'm going to a military library. Would you like to go with me?"

As soon as He Chenguang heard the word book, he felt uncomfortable all over, so he said half-jokingly:

"I don't like reading books the least. Don't tell me anything about books. I won't go, you can go by yourself. Just hearing the word library makes me want to sleep."

Qin Yuan smiled slightly, and there was a trace of naughty expression on the corner of his mouth.

"Okay, I'm still thinking about going to the library later, and by the way, go to Du Bingbing's place to have a look at the wound and change the medicine. If you don't go, forget it, I'll go by myself."

As expected, as expected, He Chenguang's eyes lit up when he heard the word Du Bingbing, and he said quickly:

"Oh, I'm still worried about you going alone. After all, you have injuries on your body. Let me go with you."

Qin Yuan gave He Chenguang a helpless look.

"You really value ***** over friends. I'm too lazy to talk to you."

Before Qin Yuan could finish speaking, He Chenguang hurriedly dragged Qin Yuan out. While trotting, he said:

"If you want to read a book, you have to hurry up. The plan of the day lies in the morning."

Qin Yuan could only lower his head and shook his head with a smile.

After a while, the two came to the library. Qin Yuan was very anxious because he knew his plan with Fan Tianlei. I finished all this within three days, and now it is almost noon. After a while, I found a suitable food book, and I have to find a place to recycle it into the system, so the time will be delayed for a day. It's about to pass.

When Qin Yuan thinks of this, he can't wait to seize the time and not let it go.

At this moment, He Chenguang asked Qin Yuan:

"Come to the library so early, you are working too hard. I have never seen you studying in such a hurry."

"Stop talking sarcastic here, I'm looking for books, and I asked you to help me find books."

"Okay, what type of book are you looking for? Tell me and I'll find it for you right away."

Qin Yuan quickly searched in his mind for all the books that could copy all the careful plans.

But I do rarely read books on weekdays, so it is quite difficult to quickly search for such books.

I didn't expect to meet an acquaintance at this time.

Before Qin Yuan could speak, He Chenguang hastily greeted him courteously.

"Hello, Du Bingbing, the doctor didn't expect you to be reading in the library so early. You are working too hard. Anyway, you are worthy of a postgraduate degree. It seems that I will study hard with you in the future."

Never expected that He Chenguang said so many words, but Du Bingbing replied coldly:

"Good morning, what a coincidence indeed."

This He Chenguang was rejected several times but still did not give up, and continued to say happily:

"I accompanied Qin Yuan to look for books, do you have any recommendations?"

"What kind of books do you want to find, but you are only looking for a few books, and you two are not needed."

Go directly to the computer over there to check the system with the index on the computer, and you will find it out once you check it.

Do you still need to find the two of you who are struggling to write one book after another here?

If you need to use the method of the two of you, when will you find it? "

Qin Yuan heard Du Bingbing's words from a distance, and suddenly realized. I didn't expect that I was so stupid that I didn't even know the library's indexing system.

Unexpectedly, at this time, Du Bingbing would take the initiative to speak to Qin Yuan in the distance.

"Is your injury okay? But I think it still needs to be changed. After you finish looking for books, go to the infirmary and I'll help you treat the wound."

Qin Yuan didn't want to talk to Du Bingbing at first, after all, sometimes this woman's attitude is too cold. For Qin Yuan, he didn't want to use his hot face to stick to her cold face.

But since Du Bingbing took the initiative to greet him, it's not good to pretend he didn't see it.

So, Qin Yuan put his hands in his pockets, slowly pretending to be calm, and walked over from a distance.

"Good morning, you asked about my wound? My wound is nothing serious. But since I'm at your invitation, I'll drop by the infirmary later, please help me with it. And... "

Qin Yuan deliberately paused when he said this, to see if Du Bingbing continued to ask questions.

Du Bingbing just stood there and listened to Qin Yuan's words, but unexpectedly he stopped abruptly. Du Bingbing said with a puzzled expression:

"And? And what do you continue to say, is there anything else?"

This time Qin Yuan understood that this Du Bingbing was not as cold as he imagined, but just a cold little girl. It seems that it can help him complete this plan. That's right, this Du Bingbing is indeed a good candidate.

"Well, indeed, I have other things to look for you. Come later, I will go to you after I finish dealing with it here."

Du Bingbing, after listening to Qin Yuan's words, nodded thoughtfully.

"Okay then, I have nothing else to do, so I'll go first. You can go to the infirmary to find me later, and talk there if you have anything to say."

Qin Yuan is a face-saving person, he doesn't want to be caught by Du Bingbing, and finds out that he doesn't even know that the library has an indexing system.

So watching her walking away, he dragged He Chenguang to the front desk of the library until he disappeared, and asked the staff to find some books about the layout plan for him.

After some searching on the computer, I found several copies.

Qin Yuan looked at the books in his hand: "How to Make a Careful Plan", "Criminal Psychology", "Basic Negotiation Methods".

After searching for a long time, these few books seem to have a little connection with this matter.

He Chenguang looked at these books and asked suspiciously:

"What's your situation? You're studying planning, and psychology, and you're even studying negotiation? What a big game you're setting up."

Qin Yuan didn't hear He Chenguang's speech at all. He just kept thinking about it in his mind. How would he arrange a perfect research plan?

It seems that these three books must be recycled into the system to obtain the knowledge of these three books.

This matter needs to be done in a hidden place, so that it cannot be discovered by others, including He Chenguang of course. He also does not know that there is an existence system in Qin Yuan's body.

So Qin Yuan said to He Chenguang:

"Wait here for me, I'm going to the bathroom and I'll be back soon."

He Chenguang nodded, so Qin Yuan hurried forward and ran out quickly to find a corner where no one was around.

This game-like virtual interface appeared in front of my eyes, and the familiar system returned.

"Ding dong, a recovery system, welcome to the host. Recycle the white system grid to obtain the corresponding attributes of the item."

Qin Yuan counted and there are currently five white grids on the screen, that is to say, he can now recycle five items to obtain their corresponding attributes.

Just as Qin Yuan was about to click the Recycle button, suddenly thought of one in his mind.

Is the grid of this recycling system divided by category or by quantity?

In other words, whether the three books in my hand should be placed in three grids or in one box.

Qin Yuan thought for a long time and came up with a very good method.

Put the three books in the same grid first. If the system fails to recycle, it means that this method is not feasible.

But if the system recovery is successful, you can continue to use this method in the future.

Put the same category of things in the same grid for recycling, so as to reduce the waste of white recycling.

Thinking of this, Qin Yuan couldn't help but boast that he was a little genius. It seemed that such a method could be thought of by himself. Can't help but feel proud.

Chapter 1836: listen to my arrangement

So Qin Yuan thought of the most cost-effective method, putting all three books in the same grid.

I didn't expect the system to actually respond.

The moment Qin Yuan put the three books in the white grid again, the screen in front of him suddenly lit up.

"Dingdong, congratulations to the host for returning the item successfully. You have obtained the corresponding functions of the item."

Qin Yuan was very curious, after all, he was really anxious to find these three books. It depends on one's own good fortune to be able to obtain corresponding skills.

Qin Yuan is already mentally prepared, if he can't completely rely on the system this time, he can handle it by relying on his own ability alone.

After a while, the system prompts:

"Ding Dong, congratulations to the host for acquiring a new skill, a world-class overall planning skill."

Qin Yuan was simply too excited. He never thought that there would be such a good thing in the world. It was so easy to acquire such powerful planning skills.

In the future, if any character activates the corresponding world-class skills, all of them should be resolved.

In the end, when I continued to speak, I was interrupted by Thor.

Then Mei Feng ran slowly and went back to find Fan Tianlei.

Thunder God looked at Fan Tianlei's confused look, and couldn't help but feel like laughing. At that time, Fan Tianlei looked stupid.

"What did he do? How long have you waited for him? Does he know? Why is it taking so long to go to the bathroom?"

Mei Fengyue turned around, took off her mask and half sat under the desk and said:

"How is it? Where did you go last step?"

"He's really, didn't he see Mei Fengyue just now? How come he still has enough to follow you to my infirmary? He can also see my attitude towards him. I mean something to him Is there any, why does he always make fun of himself?"

"That's nothing to be surprised about. Their affairs are especially hidden. I'm sure he will tell you secretly what he wants to say. I'm sure he wants to say what you want to say. No matter how few of you there are, it will be in vain."

"Of course I found it, and you have also learned knowledge outside the book, so can you come to him so slowly? You have no time limit, and you have to ask him to help you see how your wound is recovering? "

"You have nothing to do, maybe you need his help."

"Hey, I may really hate you, but you have discovered a problem. Every time I see him, his expression will change a little bit. Has he noticed?"

Mei Feng felt very eloquent seeing Fan Tianlei like this, so he said helplessly:

Raytheon also didn't expect that He Chenguang, who is not just graduated from graduate school at a very old age, but still knows very little about the world. For a moment, I lost some admiration for me.

"What's the matter? Did he tell you just now? Let's see if he tells you. If you can help him, you will definitely help."

Fan Tianlei just sat quietly by the side and watched the conversation between the two, and he was very slow when he came and interjected.

After Lei Shen finished speaking, he deliberately paused for a while, thinking of He Chenguang, he didn't continue to ask questions, and he was still here to deal with the wound carefully, and Lei Shen also took time to wash, thinking that I could hold back and asked first:

"That's bad, you should talk to the leader about that matter. You mentioned it yesterday, but the leader hasn't rejected it yet."

"It's useless to say it verbally. He needs to know what it means to have nothing to say. If he wants you to help with personal matters, he's good-looking and timid. ordered."

Before Thor could finish speaking, he was interrupted by Du Bingbing's words.

Thunder God's words were simply beautiful. With his nirvana, he extinguished the anger of the angry Du Bingbing. Du Bingbing was out of stock and there was no place to spread it, so he quickly narrowed his eyes and said fiercely:

As soon as He Chenguang put on his white coat, he turned back into this little ice cube that was as hot as ice and repulsed people thousands of miles away.

Mei Fengyue still said with a warm expression on her face:

Fan Tianlei was not happy to hear that.

He Chenguang also saw that Mei Feng was in a hurry, so he quickly removed the gauze under my arm without wasting time.

"What he said is very unreasonable. The wound matter is indeed a big deal, but do you have so little time, and it's not that the two days may be very busy."

"You thought of a way to save Professor Fang!"

"If you want to bring him a copy, you must be carrying out the task to bring him down, so why do you want him to come with you idiot." While talking, Fan Tianlei raised his eyebrows with a thoughtless expression.

So Thor continued to say quickly:

"That method is also feasible. Both methods are good-looking, and you have approved them. He should go ahead and do it timidly. He will come back after giving Professor Fang as slowly as possible."

After finishing speaking, the two of them came to Du Bingbing's office very slowly, knocked on the door twice, and when I told them to leave, the two of them rushed back.

"What are the two of them talking about? You seem to understand it anyway? Is there nothing you need to do? If it is definitely necessary, this will take you too."

Raytheon saw if I had any reaction, and continued to say:

Successfully recovered the eight books just found, and also acquired the corresponding skills.

Thor nodded and said:

Du Bingbing thought for a while, then frowned and said:

"His wound looks good, he can't go back now."

Now that he has come to that place, he needs to know that it is the place with the strictest discipline in the whole world.

"Why did Dr. Du allow no eighth person outside the house today?"

While talking, the two walked slowly and came to the door of He Chenguang's office.

"What method? His eldest son has a lot of bad ideas."

"If he is willing to follow, then go. You see that the time is too early, do you want him to go back and rest for a while?"

When Du Bingbing saw the two retreating, he didn't continue to talk to each other about anything less. Hurry up to hang up the phone and open your mouth to praise the two of us.

If you are sure that you are going, it is not to obey the military order. You still understand that, so you just listen to the arrangement of the subordinates. If the leader asks you to go, you will naturally go. If the leader asks you to go, then you just stay there . "

Thor thought about it, and went on to say:

After speaking, Mei Feng took the eight books in his hand and returned them to the library administrator. Su Qian and Mei Fengyue rushed out of the library at the slowest speed, after all, both of them love to read, and they both wanted to spend less time in that place.

Fan Tianlei didn't even say a few words to He Chenguang that morning, feeling that the time he left early was all wasted. I can only say willingly:

"If he goes back first, you go to Qin Yuan alone and tell me something."

Thunder God was also very slow, but since he was able to tell Mei Fengyue her real purpose of going out, I could only nod quickly and agree:

At that time, Thor was lying outside waiting for He Chenguang to help you treat the wound. He always felt that there was nothing to talk about, thinking that he was idle, so he said:

"I thought that his wound recovery was quite slow, but he was able to lose focus. He came over for a few days to deal with it. After all, they are ordinary jobs. If they are not careful, they may still be infected again. safe."

"You have noticed that you think I look at everyone with the same eyes. I am really ashamed to be called Bingbing, I am sorry for the feeling that that name is so warm and repulsive to everyone."

He Chenguang's small watery eyes blinked without expression.

"Ding Dong, the system has released a new main mission. If you successfully rescue Professor Fang De, you will be rewarded with 30 system grids!"

Fan Tianlei gave Lei Shen a white look and said:

"You don't have a very bad idea, do you? Get a few people to pretend to sell it inside and sell it inside, and put a little poison on the outside, so that Professor Fang has to go to the hospital for medical treatment."

Qin Yuan was really stunned. Didn't he expect the system to be so generous?

[Xiaoxiang APP searches "Spring Gifts" New users get 500 book coins, old users get 20

0 book coins] "Return."

"Bad, Qin Yuan should be worried and wait for your bad news."

Raytheon said excitedly:

Fan Tianlei Yixing immediately gave me a hard look when he said that, thinking that you are so bad that you have no chance to be kicked out, but he is still trying to get me to kick you out by embellishing Doctor Dadu. What a bad brother he is.

"The old man can think of such a bad idea. What if we don't have our own doctor and let Professor Fang go to the hospital?"

Once we are willing to send Professor Fang to see a doctor. In this way, you don't have very few chances. It's bad to intercept people off the road, and it's also bad to rob people directly outside the hospital. It seems that there is no chance to rescue Professor Fang. "

He Chenguang saw through the window those who were not yet queuing up for medical treatment, so he coaxed the two of them out mercilessly without leaving two people behind.

"Okay, okay, let him speak quickly, let's see what kind of bad ideas his elder brother can come up with."

"Bad, since that's the case, then you are rejected. Hahaha."

"What's going on with the two of them..."

Mei Feng shook his head helplessly and continued:

"But if he knows what the task is and he agrees to it, what if he can do it?"

"Oh my god! This little character actually rewards 30 grids? Isn't that cool?"

"You are tired, hurry up and go together, you stay with him."

"Look for a few people. If we want to order the ones sold inside, we will poison the outside of the ones sold inside. It will look safe for Professor Fang, but it will look like they can be rescued. Because you suspect that if we kidnap Professor Fang because we want me to No life looks good.

After helping you deal with it, the person with the wound walked out of the door very slowly.

Fan Tianlei listened to the side for a long time and was confused, but he dared to intervene cautiously. At that time, the difference between the two people's words had not been said, so you said hastily:

After all, as an inexperienced student, it is very rare to be able to understand the right discipline.

Dangdang, two people knocked on the door.

"Is his eldest son saving or harming people? He even wants to poison Professor Fang in case there is a time to treat him?"

Mei Feng nodded without thinking.

It occurred to me that Mei Fengyue was on the phone. Seeing the two rushing forward, it was bad again when they retreated, and the two directly cursed and could only stare at the two of them fiercely.

Du Bingbing waved his hand and said:

"He said where to go now, he really asked the question, now you go to Dr. Du."

Thunder God was very pleased, thinking that Fan Tianlei would say that every time he saw He Chenguang, the time was in a hurry, he was busy with that matter, he was busy with this matter, and he didn't have time to watch my smile expression.

"The two of them went to the library so slowly and came back? What, did you find the book you were looking for?"

Soon, He Chenguang's gentle and warm voice came from outside the house.

"Why is he bad and what is his mission? Do you need his help?"

After a while, He Chenguang took off his mask after the wound was treated and said warmly:

"What method? Slow down when you have nothing to say, and slow down when you don't have farts! I'm going to make mysteries out of there."

At that time Fan Tianlei said:

Thor heard that and thought for a while and said:

Thor stood still and sighed, and said without thinking carefully:

After hearing those words, the two of them pushed the door politely and walked back out of the house. They thought that there was no one outside, and they were also injured. Du Bingbing will help you bandage the wound.

"How is it? Where did you go in the last step?"

"His eldest son is called Xie Mo Sha Donkey, you have accompanied him here and there when you were young, why are you going to find Du Bingbing now to bring you down, what secret things do they want to say? "

"Don't wait for him, you don't have another way?"

"Hey, it's finally come to that step, you didn't come out with him early this morning to see Mei Fengyue, if he came to see me today,

Did you come out with him in vain that morning? What a waste of time. "

"Talk about Mei Feng, when will he change his temper. He has listened to you."

Qin Yuan was more thinking about the next plan. Now that he can reward so many grids at once, it must be helpful for the previous step of catching spies and visiting the ground munitions system.

He Chenguang, listening to Thor's words while treating the wound, didn't say anything, just nodded slightly.

"Oh, isn't everyone slowing down? Why is he urging, you are done, you can't leave."

"If you do what you can, you suspect that he will come to you. As for whether you want to go or not, is up to you.

He Chenguang, when he went back to the medicine box, he knew how many medicines he had mixed, and then walked over to help Mei Feng wipe the wound, and said while wiping:

Seeing Mei Fengyue's expression, Mei Feng knew that if I hung up the phone after a while, it would be another bloodbath.

It was really hard to understand that He Chenguang when Thor was gone.

"Now you are sure about that matter, because it involved a secret mission."

"Just now this is just the first plan. You don't have another plan. The students who find Professor Fang call Professor Fang and say they are going to defect to me. Then, you suspect that Professor Fang and I will be locked up together. When the time comes, you Then find someone to create some chaos, and bring out Professor Fang's method of changing the civet cat for the prince out of the chaos."

Thunder God also didn't expect that he could tell himself some things to pay attention to yesterday, but today he drove him back so slowly.

Chapter 1837: select talents

Now the basic prototype of the plan has been calculated in Qin Yuan's mind. The rest is the specific personnel arrangements.

But now there are just these few people, and the manpower is still not enough. It is necessary to go to the superior to raise some personnel requests.

"By the way, I almost forgot about this."

Qin Yuan slapped his forehead suddenly and said.

This action gave He Chenguang a jump.

"You think of something amazing, so excited."

"Didn't Du Bingbing just say it? It's okay to ask her for help, but we need to provide her with a paper transfer order."

"I didn't expect this little girl who just graduated to follow the rules so strictly. She doesn't look like a young man at all."

After speaking, Qin Yuan hurried back to find Fan Tianlei.

"My mother, why are you so lingering? Didn't I tell you just now, you can do whatever you want to do. I have given you the power, how can you still be moaning? , can you stop bothering me over and over here."

Qin Yuan deliberately coughed a few times, and then said solemnly:

"Don't you want to rescue your Professor Fang De? Thor. If you don't want to save it, just tell me, I don't have to worry about so many things. Anyway, I'm quite tired, and you see I just suffered so much. Serious injury, I should also take a good rest."

Qin Yuan's operation caught Fan Tianlei by surprise.

"All right, all right, I've convinced you kid, what's the matter, hurry up and say I'm in a hurry to go to the district for a meeting."

Qin Yuan let out a long sigh and said:

"It's not that I still have so many things to do. Isn't it because I want the newcomer Du Bingbing to help us carry out this mission? But he kicked him out. If you want him to help, you must have a paper transfer order. I can't do this, so I can only trouble you."

After hearing what Qin Yuan said, Fan Tianlei gritted his teeth and nodded.

"Well, I didn't expect Du Bingbing, the little girl, to have so much thought. This is really clearly written in black and white."

So Fan Tianlei took a piece of paper from the table, signed a transfer order, corrected his official seal, and handed it over to Qin Yuan.

"It's okay this time, is there anything else?"

Today I am really a little embarrassed, after all, I have troubled Fan Tianlei time and again, although he is my leader and is mainly responsible for this matter, but I always come to find him in many places that I have not thought of.

"I still need two people, two new people. It's best to have new faces."

Fan Tianlei did not expect this question.

"If you want people, I can understand why you choose a new face? If you want a new face, it can only be a recruit who has just arrived in the army. They have no experience or long-term systematic training. I'm afraid it will be a bit difficult for them to complete the task."

Qin Yuan slapped the table excitedly and said:

"That's right, it's good to have such a talent? The more inexperienced, the more unfamiliar and unfamiliar the better. It's better to look dull, and the to-do list should be smarter."

He Chenguang could hardly listen to it anymore, even he felt that Qin Yuan's request sometimes was really a little too much.

"The person you want to find is too demanding. Where can I find it for you?"

Fan Tianlei lowered his head and pondered for a while and said:

"It's not difficult to implement. A group of newcomers just came two months ago. I think a few of them are pretty good. They look simple, but they are very old-fashioned when they do things."

Qin Yuan slapped the table excitedly and said:

"Then such a person is just right for me? He was born on purpose to complete this task. Hurry up and call the two of them over and let me have a look."

"Call here, it's a little difficult now. Let's see, there are about five or six people who meet this requirement. I'll let the logistics team find the resumes of these people in a while. You choose the right one first, and I'll let them come over. "

Fan Tianlei has a lot of experience because he knows how confidential this mission is. If everyone who meets the conditions is called here casually, then rumors will undoubtedly be leaked.

After all, there are still spies who haven't been caught yet. Once these hidden spies find any clues, all missions may be destroyed.

Qin Yuan also understood Fan Tianlei's worries, so he said:

"That's fine. Go and find out their resumes. Don't let me see the qualified ones. I'll call them over."

It seems that Qin Yuan also agreed with his idea, so Fan Tianlei picked up the phone on the table and played a number, saying:

"Notify the labor department, and quickly bring the resumes of the people I told you. Yes, I need it now. Hurry up. Immediately, immediately."

Fan Tianlei hung up the phone and turned to Qin Yuan and said:

"The explanation is over, wait a moment, someone will send a resume soon."

Qin Yuan also nodded in satisfaction.

No one thought that the most excited person at this time would be He Chenguang.

"It's great, Qin Yuan, you finally have a little follower. I won't be able to do any dirty work in the future. Someone will do it for me."

Qin Yuan looked at the expressions of He Chenguang and Fan Tianlei. It's always a little embarrassing to hear that. So he hastened to explain:

"Can you stop saying this, in front of the leader, as if I often bully you, no follower at all, we are all equal, it's just that the division of labor is different."

After hearing what Qin Yuan said, everyone present laughed out loud.

In fact, this is also the case, he didn't explain it, but fortunately, when he explained it, he became more and more suspicious. Because everyone in the army knows it. Qin Yuan never suffered a disadvantage. And he's a very capable leader.

No matter what tasks are assigned to him by the higher authorities, he is just the leader responsible for commanding. The one who really wants to go to the front line to complete the task is that he will assign others.

Now it seems that He Chenguang has been suffering for a long time, but it doesn't matter, a new little follower will come soon, and He Chenguang can also be liberated.

Fan Tianlei laughed for a while, then said seriously:

"Qin Yuan, tell me, boy, what method do you plan to use to rescue Professor Fang?"

Qin Yuan replied impatiently:

"I said Thor, why don't you say nothing? Didn't you just say that this matter should be handled by me alone? Why do you always ask me repeatedly? Don't you believe me? ability?"

"Are you so arrogant now? I know your ability and I believe in your ability. If I don't believe you, how could I entrust such important people to you. But you have to report to me, what are you going to do specifically, in case you really lose the chain someday, I can help you out."

"Okay, okay, you can expect me to order it, I can't lose the chain. Think back, the tasks you gave me, which one of the tasks, I didn't complete it to make you ashamed, or what? A task, I made a mistake, let you take it for me?"

Fan Tianlei was asked by Qin Yuan three times, and he was speechless.

Because the fact is indeed like this, Qin Yuan's ability is extremely outstanding. After all, he is the new soldier king in the army.

But then again, he still has a little too much pride and arrogance about him. However, some leaders still like such capable and arrogant people.

Therefore, Fan Tianlei, who backed up and didn't know how to answer, quickly moved to other topics.

"Uh... what do you think of the new Du Bingbing's medical skills?"

When asked about Du Bingbing, He Chenguang was the first to stand up and answer.

"I think his medical skills are very good, and he is very suitable for our army. You see, after applying some medicine to Qin Yuan just now, he has already recovered and is alive and kicking."

At this time, Qin Yuan interrupted He Chenguang's words.

"Thor, let me tell you something serious."

Fan Tianlei has been annoyed for the past two days, as long as he hears Qin Yuan speak, his heart will tremble. Because he always asks himself a lot for this and that.

So Fan Tianlei rolled his eyes and said:

"What's serious? Isn't everything you just said serious? Say it quickly."

"Can I apply for a new type of silent pistol?"

Fan Tianlei's eyes widened. He never imagined that the questions Qin Yuan raised now were getting more and more excessive.

"Why do you want a silent pistol, kid? You need a new type. Do you know how much a new type of silent pistol costs? Besides, we are not here, not the Secret Service. We use normal pistols. If you want a submachine gun, you can OK, there is no silence."

He Chenguang also quickly echoed beside him:

"And the silent pistol? Your request is too high. Do you want a silent submachine gun?"

Qin Yuan also knows that his idea may not be realized, but let's try it out. It would be better if he could provide it. After all, sometimes silent pistols are indeed much more convenient than normal pistols. At least they can perform tasks. Concealment is key.

Qin Yuan complained in his heart, it's fine if he doesn't give approval, it turned out to be some secret service. Although he belongs to the army now, he has long been working as an agent.

At this time, there was a knock on the door.

boom boom boom

"Please come in."

A little girl came in and asked shyly:

"Excuse me, is this the office of Leader Fan? The leader asked me to come over and deliver the materials to you."

Fan Tianlei pretended to be serious and said:

"Yeah, it's what I want, you can put it on my desk."

So this timid little girl carefully placed the information on Fan Tianlei's desk. Then quietly went out again.

He Chenguang looked at the little girl and said thoughtfully:

"Oh, the difference between people is really too big."

Fan Tianlei walked up to He Chenguang, knocked on his head once and said:

"Don't think about so many messy things, kid, come over and look at your resume with me. Choose."

Qin Yuan has already started to open the file bag to look through the resume, and choose the little follower he likes.

There are a total of seven or eight resumes in it.

Fan Tianlei looked at Qin Yuan with a proud face and said:

"Well, I have the foresight. I left the resumes of these people early, and I knew they would be useful one day."

Qin Yuan thought to himself, you, Thor, can really sell benefits, and you are obviously the one you fell in love with first. It was just by chance that it was my turn.

Thinking of this, Qin Yuan couldn't help but rolled his eyes at Fan Tianlei.

Just as Qin Yuan was thinking, he saw two familiar faces, and he pulled out the two resumes without any hesitation.

Qin Yuan took the resumes of these two people and said excitedly:

"I have the impression of these two. Thunder God, you can do it. You can recognize talents with your eyes."

Fan Tianlei was also shocked.

"What? You already know these two people? Your boy is actually the same as the person I'm looking for. This also shows that you are also talented."

He Chenguang hurried over and said:

"Bring it to me and have a look."

He Chenguang frowned, recalling carefully. These two people are also somewhat familiar to him. Taking a closer look at what was written on the form, he turned out to be a newcomer in Gong Jianying.

"It seems Director Gong really knows how to choose people."

Qin Yuan brought the two resumes and said:

"Guide Gong's subordinates, it seems that it will be easy to handle. Based on the relationship between me and Director Gong, he will always give me some face and will not let people go."

"Then you have to think about it, what if he doesn't want to come and be your little follower?"

Fan Tianlei's words were like a basin of cold water, poured over Qin Yuan's head in a daze.

He Chenguang took another resume and said:

"Hmm, it does make sense. It's an honor to be able to follow Instructor Gong in the army. There are no weak soldiers under a strong general. But this person should be mobilized without any problem. I believe that most people would definitely not want to take it to a place where oily smoke is billowing."

Fan Tianlei interrupted He Chenguang and said:

"What do you mean by that? What does it mean that a strong general has no weak soldiers? Who is strong and who is weak? You boy, you really can't speak."

For a character like Fan Tianlei, How could bear He Chenguang's words, as if he was much worse than Gong Jian.

Qin Yuan knew Fan Tianlei's temper, so he deliberately sarcastically said:

"Thunder God, it's hard to tell who is stronger and who is weaker between you and Instructor Gong, but now, we are all fascinated by the authorities. There is no way, and it's hard to judge. Now is the time to prove it."

Fan Tianlei said angrily:

"Then how do you prove it?"

He Chenguang also understood that Qin Yuan was clearly using the aggressive method. So he followed his words and continued:

"We've all been soldiers with you for so long, it's really hard to say, let's see what the new recruits say about you and Instructor Gong. If he agrees with who to follow, it means that in the eyes of these newcomers, you Which of the two is stronger."

Chapter 1838: Successful rescue

Fan Tianlei knew that Qin Yuan and He Chenguang were trying their best to catch him, and they were trying to gang up on him.

But his shortcoming is that he has to jump into it even though he knows it's the aggressive method of the two brats, and he knows it's a complete set.

So, Fan Tianlei said angrily:

"You two are fighting here, right? But it doesn't matter. I'm going to do it. I'm definitely better than Gong Jian. Don't you just need two people? It's not difficult, you two are waiting."

After Fan Tianlei finished speaking, he picked up the office phone on the table and called Instructor Gong.

"Gong Jian, come to my office quickly, right now. Don't ask me anything, I'll know when you arrive, but you have to be mentally prepared."

Qin Yuan and He Chenguang whispered beside them:

"Look, I knew that was the way he would do it. The aggressive method is the most effective for him. The two of us humbly begged him, but he didn't care. Only in this way can he be angered."

He Chenguang also nodded, agreeing with Qin Yuan's statement very much.

"If the two of us beg him humbly, he will definitely refuse us here again and again. But if we use this aggressive method, he is the latest to do it. I believe that the instructor Gong will come soon. Now, I will definitely hand over these two brats obediently in the future."

"I think so too, because Instructor Gong is not someone like him. Instructor Gong is always so grand."

Fan Tianlei put down the phone and saw two people whispering to each other and left, he glanced at them both.

"What are you two guys talking about here? I know you two must be talking bad about me, but it doesn't matter, you will know in a while that I'm good, or he is good. Don't you need two people? It's not too difficult. If he doesn't agree, I'll just transfer two people from me to his army, one by one."

Not long after, a knock on the door was heard. Presumably, Gong Jian should have arrived.

Fan Tianlei hurriedly sat down on his chair and said solemnly:

"Please come in!"

Both Qin Yuan and He Chenguang could hear the feeling that there was always a sense of yin and yang in his three words.

The two people present were already ready to see how Fan Tianlei and Gong Jian's instructor fought back and forth to compete for the two new recruits. The benches have been moved, ready, and watching the show.

Unexpectedly, the person who came in was not the long-awaited instructor Gong Jian.

It turned out to be Du Bingbing, a tall and tall beauty in a white coat.

As soon as he came in, the three people present looked at each other with serious expressions because they didn't expect him to come here.

Seeing Qin Yuan and He Chenguang, Du Bingbing suddenly felt a little awkward.

Because he came here today to talk to Fan Tianlei about Qin Yuan's affairs, and originally wanted to secretly report this matter to him, but he didn't expect the person involved to be there, so Du Bingbing was also caught off guard.

As soon as Fan Tianlei saw this little beauty, he smiled and said softly with a familiar serious expression:

"So it's Doctor Du, why are you here? Is there something so sudden?"

With Du Bingbing's character, although he was very surprised to see Qin Yuan here, it was different from what he originally planned, but her character is like this, and she will not change her original character because of too many factors. plan.

So, Du Bingbing put his hands in the pockets of his white coat and said softly:

"It turns out that Qin Yuan is here too. It just so happened that I came here today just to reflect on the matter you told me with the leader. It's really nice to see what the leader means. If the leader disagrees, then neither do I." There is a way to help you."

As soon as Du Bingbing said that Fan Tianlei knew why he came, so he said deliberately:

"What did you say to the little girl? People have reported it to me. Are you making people unhappy? Xiao Du, a military doctor, has just graduated from graduate school and came here for an internship. Don't be naughty with him if you have nothing to do. Affecting people's normal work."

Du Bingbing, seeing Fan Tianlei's expression, knew that he was deliberately teasing Qin Yuan here. So she watched from the sidelines to see what other tricks these two people could play in front of him.

Qin Yuan was afraid that Gong Jian's instructor would come in a while. Seeing such a scene, he didn't know how long it would take to ask for someone.

So, he went into his pocket and took out the transfer order regarding Du Bingbing that Fan Tianlei had issued to him just now.

Then he walked slowly to Du Bingbing's side and handed over the transfer order to him.

"Let me show you. I've already told the leader about it. He was teasing you just now."

Du Bingbing took it to his hand and saw that it was in black and white with Fan Tianlei's official seal, it was indeed an effective transfer order.

So after reading it, he also understood that the meaning of this was to put the transfer order in his white coat pocket.

"Since you have all made things clear, then I have nothing to do, I will go back first."

Unexpectedly, before Du Bingbing went out, Fan Tianlei stopped her.

"Military doctor Du, just came to this place and asked you to cooperate with them to complete such a confidential and dangerous task. Do you have some preparations in mind now?"

"I obey the leader's arrangement. Since I come here to work, obedience to orders is the first priority of the army. So I don't have any opinions. I will do my best to help the organization complete this task. As for what will be encountered in the process of completing the task I can't say that I don't care about such a danger, I can only say that I am not afraid.

Now that I have made up my mind to be a soldier, I will no longer be afraid of timidity. So please rest assured. "

Qin Yuan didn't expect that Du Bingbing, who is usually ruthless, could say such a thing. He could be regarded as a heroine among women, and his feelings for him were a little bit different.

Qin Yuan originally thought that An Ran was the smartest and most powerful girl he had ever met. I didn't expect that Meiduo would find that Du Bingbing was indeed very attractive when she came into contact with Du Bingbing once.

No wonder He Chenguang is fascinated every time he sees this Du Bingbing.

Maybe it's not because of how outstanding his looks are, but the mysterious aura about him is more attractive.

Then Fan Tianlei said:

"Then you go back and prepare. You are always on standby. We will arrange it later. Other tasks may make everyone anxious to have a meeting together to discuss these tasks and how to implement them."

"Okay, I understand. There's nothing wrong with that. I'll go back first."

After finishing speaking, Du Bingbing walked straight out of Fan Tianlei's room, and slowly closed the door.

Unexpectedly, before the door was completely closed, someone pushed it open and walked in.

Fan Tianlei looked up and saw that it was the instructor Gong Jian he was looking for.

"Your boy came at a good time. No matter how you came in, you didn't even knock on the door."

"Don't you stay here to deal with these useless messy things with me, didn't you ask me to come? I saw that your door was open, so I thought you saw me, so you came in directly. After all, what do you want me to do? ."

Obviously, instructor Gong Jian is also very smart and has good eyesight. As soon as he saw Qin Yuan and He Chenguang in this office, he knew that Fan Tianlei must have some secret things to tell him at this time.

Fan Tianlei waved his hand to signal instructor Gong Jian to come to his desk.

Then he picked up two resumes he had selected from the table and handed them to instructor Gong Jian.

"Look at it."

Qin Yuan knew that Gong Jian's instructor would soon understand what Fan Tianlei meant, but he still pretended to be confused, deliberately thinking that Fan Tianlei would take the initiative to raise this matter.

After all, this time it was Fan Tianlei who wanted something from himself, as if he wanted someone from his subordinates. This kind of thing can't let him take the initiative to hand over his subordinates to Fan Tianlei.

So Gong Jian asked knowingly and said:

"What does this mean? What are you doing?"

Fan Tianlei asked with a wicked expression on his face:

"Do you know these two people?"

"Don't talk nonsense here. If you have anything to say, just talk about my time. Time is also very precious. Don't you ask knowingly? These two people are my subordinates, can I not know them?"

"Ao'ao, it turns out that it's someone under your command."

Qin Yuan really couldn't stand Fan Tianlei's bewilderment like this. He was pretending to be confused. Everyone present couldn't see it. If he didn't know that these two recruits were Gong Jian's instructors, why would he directly Tell him to look at these two resumes?

"Tell me what's going on with the two of them? Is there something wrong with them? I don't know? Or do you mean that the two of them have some complicated background, and you want me to do a background investigation together?"

Qin Yuan really couldn't bear to watch it anymore, he had been embarrassed by this scene and used his toes to dig out a three-bedroom and one living room. And he didn't want to waste time in such extreme pulling, so he quickly stood up and said straight to the point:

"Okay, okay, you two old foxes are playing hard to get here, and you already know what the other means, but neither of you wants to speak. Since that's the case, let me talk about it. We have a secret mission to carry out, Now we need two new faces, but we must have some very good newcomers.

Under the selection, we selected these two people under your hand. So I want to discuss with you now, whether we can second these two people to us. "

Gong Jian has always been the person who likes to be straightforward and doesn't like to beat around the bush. Although he is not an impulsive person like Sanqianli, after all, working in the army is all about efficiency.

He was very satisfied with Qin Yuan's approach, so he also said straightforwardly:

"I just like young people like you who are straightforward. Don't learn some bad things from Thor. Since the organization is left to use the two of them to complete some tasks, then I must cooperate for no reason here. To put it bluntly, there is no need to beat around the bush here."

But in fact, Fan Tianlei didn't think so. He took a fancy to these two people because he wanted to transfer them to him from the instructor Gong Jian's staff, not because he wanted to be seconded.

When Fan Tianlei heard what Qin Yuan said, he obviously felt a little dissatisfied. So he didn't say that much.

"Gong Jian, you agreed very happily, but whether it is a secondment or a direct transfer, this matter is still open to discussion."

Gong Jian smiled evilly, feeling that he had completely seen through what Fan Tianlei was thinking, and it coincided with what he had planned a long time ago.

"I knew your purpose was not that simple, you just wanted to get two people away from me, right?"

At this time, Fan Tianlei's purpose was completely seen through by the three people present, and he felt a little bit in his heart, so I'm sorry. So he smiled and lowered his head and shook his head.

Instructor Gong Jian did not respond to Fan Tianlei's thoughts for the time being. He picked up the two resumes and said:

"Chen Jixiang, 17 years old. Now he is a relatively capable person under me. Li Zheng, 18 years old, is now a soldier in my cooking squad. Yes, you two have been discovered by you. I treat you like this. The ability to poach people can be regarded as convincing. These two boys just came to the wrong place. It didn't take long, and they were poached by you unexpectedly.

OK, I have nothing to say here. You must obey the orders of the troops. Since you want to use them to complete secret missions, you don't need to tell me what missions. If you want me to go through any procedures, tell me quickly. "

Fan Tianlei never imagined that Gong Jian would hand over the two of them so happily.

When Qin Yuan heard that such a decision was so easy, he was also afraid that the two of them would regret it, so he hurried to Fan Tianlei to pick up the transfer order on the table and handed it to Gong Jian!

"It's all for organizational tasks, but I still want to thank instructor Gong Jian for being so enthusiastic about helping us, so please sign these two transfer orders as soon as possible.

Gong Jian quickly signed the transfer order with a pen, and looked up at Qin Yuan. Soon the two transfer orders were signed.

"I'll take it for you. These two kids are quite capable, but after all, it's not right to come here just now. There are still many things they are not familiar with. Besides, what secret mission are you going to complete?" I'm afraid it is also dangerous.

There is only one child in the family now, and their safety must be protected. Since they are willing to shed their blood for our country H. We must protect their lives. "

Qin Yuan received two transfer orders from Gong Jian. I saw Gong Jian's very serious expression again. He knew that the two copies in his hand were not fluffy black and white paper.

It was a manifestation of Gong Jian's belief in him that he handed over two living lives to his hands.

Qin Yuan made up his mind that even if he had to sacrifice himself in the face of danger, he would protect the safety of these two newcomers.

Their families sent them here to dedicate their lives to country H, so they must never let their families have the day when a white-haired person sends a black-haired person.

Chapter 1839: perfect plan

After Qin Yuan made up his mind, he felt that the people in his hands should be almost arranged. So he said to Gong Jian:

"Call me Chen Jixiang and Li Zheng later, we want to have a meeting together to study the specific research plan."

Gong Jian nodded, agreeing with Qin Yuan's idea very much.

After all, if you want to complete any task, these people are still meeting for the first time, and you need a lot of time to adjust. A small meeting before this is very helpful for everyone to cooperate with each other.

Gong Jian said:

"I don't want to know so many of your plans. I'll go back and call them two over now, and then you don't have to bring me with you to the meeting. After all, this is a confidential task, and I don't want everyone to know, including myself. ."

Fan Tianlei didn't expect that Gong Jian would sometimes be so serious and know how to avoid suspicion.

"You don't have to avoid suspicion like this. In fact, these are all people under your command. It is understandable for you to know the specific plan. Besides, Qin Yuan was once a soldier under your command. It is inconvenient for you to know anything. where?"

Qin Yuan actually regarded Gong Jian as one of his own, and never thought of hiding anything from him, so he also hoped that Gong Jian could stay and have a meeting with them, so that one more person would be considered as an extra idea. If there is any imperfection in the plan, a seasoned and intelligent leader like Gong Jian can point out any imperfection for himself at any time.

So Qin Yuan said:

"I said you should stay, Instructor Gong. Don't forget that I have followed you before, and my trust in you is more than 100% trust. You don't have to avoid suspicion like this. Besides, you can stay. Come down and help us imagine what's not perfect about this thing."

Gong Jian bowed his head in thought, thought for a while, then nodded and said:

"Well, if that's the case, then I'd rather be respectful than obedient. I'll stay and study this plan with you. But I also need to call Chen Jixiang and Li Zheng over first."

Qin Yuan said:

"Instructor Gong, you don't need to be so anxious. You can call the two of them in person in a while, and if we have a meeting, we can't be in Thor's office. I have prepared a very detailed plan in my hand. I want to explain carefully to everyone in the way of slides."

At this time, Fan Tianlei said:

"Your kid also prepared slides, that's ok, okay, then we'll find a quieter meeting to talk about this matter alone. I didn't expect you to make slides, it's ok, good luck ."

Qin Yuan wondered where he would have the time to prepare some slides, and he would just go to the system for help in a while.

Although I don't know how to make slides now, I don't have a perfect detailed plan. But I have this kind of recycling system.

For such a powerful system, how difficult is it to make a small slideshow?

Unexpectedly, at this time, Chen Guang and Chen Guang hurriedly stood up and said:

"Is there something about me in this? I feel that sometimes I know too much. If you don't want to take me to complete this plan, then I will go back first."

Fan Tianlei looked at He Chenguang like this, patted him on the head and said angrily:

"You don't fart here, you kid, you moan without illness. If you are not allowed to participate, will you stay here for such a long time? We have long stopped treating you as an outsider, but why did you come up with such a thing?"

Qin Yuan also turned his head and waited for He Chenguang with a glance and said:

"Don't make trouble at this time, you are my good brother and comrade-in-arms for many years. We have gone through life and death together to complete many important plans. Didn't I take you with me every time, can I leave you behind this time? "

He Chenguang also knew that what he said was really wrong.

"Okay, okay, I know I'm wrong, don't talk about me anymore, I'll go back and prepare, why are you planning to go to the meeting when?"

Qin Yuan picked up his phone and looked at the time. Time passed so fast. He had promised Fan Tianlei that he would be able to come out to Professor Fang De in three days. Unexpectedly, it was almost night and he had to hurry up and act.

"Well, let's go separately and take action. After an hour, we will arrive at..."

Qin Yuan turned to look at Fan Tianlei while talking, because he didn't know where to go for the meeting, and Fan Tianlei hadn't arranged a hidden meeting place yet.

"Aoao, let's go to the meeting room in the basement of the administrative building. There are few people going in and out there, and the important meetings are usually held there. The sound insulation effect and leak prevention measures are very perfect there. I believe This matter must be kept to the highest degree of secrecy."

Qin Yuan nodded and continued:

"Okay, then the time and place have been decided. Let's all go back and prepare to see if there are any imperfections. Instructor Gong Jian, you can go back and call your two men over now,"

Gong Jian said:

"It may take me a little longer, so I have to go out first. Because these two are recruits after all, there are many things that they have never experienced, and they have to be mentally prepared and trained with them. That's it, I went out first."

So after speaking, Gong Jian went out first.

At this time, He Chenguang also thought of a question.

"We haven't notified Military Doctor Du about the time and place of this meeting. Why don't I inform him?"

Qin Yuan was really speechless by this He Chenguang, but since his time is very limited now, he still needs to find a hidden place to contact the system in a while, so he can leave it to He Chenguang to notify Du Bingbing.

"Okay, tell Du Bingbing in a while, tell him not to make him unhappy, we still have to carry out such an important task together, if there is any conflict between us, then we will have done it Disintegrated."

He Chenguang nodded and said confidently:

"I said don't worry, don't worry about me. Over the years, I have always looked slovenly and unscrupulous, but when I actually complete the task, I am the first rushed up."

Qin Yuan thought about it for a while, and it seemed that He Chenguang's words were indeed true.

Usually, this person seems to have no clue about his mouth, always likes to joke and talk big.

But if he encounters any serious tasks, he can also be serious.

Perhaps this is one of the reasons why Qin Yuan has been able to maintain such a good relationship with He Chenguang. This kind of person will bring you happiness and happiness on weekdays, and when you are really tested, he will be the first to stand up to protect you and help you take care of things.

Maybe what I need is such a good brother and comrade-in-arms.

Qin Yuan then nodded and waved his hand to tell He Chenguang to go out quickly.

At this time, only Qin Yuan and Fan Tianlei were left in the room.

"Thunder God, if there is nothing else, I will go out first, see you in the meeting room later."

Fan Tianlei nodded to indicate to Qin Yuan that he can go out quickly.

At this time, only Qin Yuan was left alone.

What he was thinking now was that he needed to find a hiding place quickly. Go ask the system if there is any good way. After all, if you want to hold a meeting and explain to everyone, you still need a very perfect slide.

At this moment, Qin Yuan thought of the forest he just went to in the morning. Maybe there is a very good choice there.

The environment is beautiful and relatively secluded, and no one is usually there, and once someone eavesdrops, they can be found immediately.

After speaking, Qin Yuan rushed to the woods and couldn't wait to summon the system.

"Ding Dong, hello host, I'm glad to serve you again? Is there anything I can do?"

"I've just returned three books to you, and already have world-class planning skills. Now I want to get a perfect slide plan from you."

"Ding Dong, okay, no problem, I am making a slideshow of the research plan for the host, please wait..."

Qin Yuan really waited for every minute now as if he had waited for a century. Because he didn't know whether the slideshow made by the system this time would be the same as what he had in mind.

If it was different from what he imagined, he would have to find a way to do something else, but what he said just now, if he had a slide in his hand during the meeting later, wouldn't he be laughed at by everyone.

After waiting for a while, Qin Yuan was also blowing the wind around, looking at the swaying leaves, feeling so comfortable.

"Ding dong, the slides are ready, please check the host."

"It's so fast? Is it okay to prepare things so quickly?"

Qin Yuan's eyes widened with excitement, but at the same time there was great doubt in his eyes.

"Let me play it first and let me have a look."

The system then starts playing the automatically generated slides of the research proposal.

While looking at the specific content, Qin Yuan muttered in his mouth:

"On the first page, Ao is a map... Yes, Professor Fang De is locked up in this place, the place marked with a small red circle. Next is the task arrangement, oh oh, someone will pretend to be a delivery guy, someone will go Pretending to be a doctor requires so many roles. Aoao is the next step to save people, and the guarantee of the later plan..."

After a while, Qin Yuan finished reading the content of these slides.

What I didn't expect was that it was the same as what I had planned in my mind.

"Ding dong, a host has finished playing the slide show. Is there any dissatisfaction with the self-help? You can modify any dissatisfaction within five minutes."

"Is there any dissatisfaction? I'm so satisfied, okay. How do you know what's in my heart? Now that I have made such a perfect plan based on my thoughts. Sometimes I doubt my ability to express myself , but you all helped me write this system and it's just amazing."

Qin Yuan really came here from the bottom of his heart, and even felt that he had such a powerful system.

I thought his one-click recycling function was already awesome, but I didn't expect him to be upgraded to what he is now. I have to sigh that I am more fortunate to have such a system by accident.

At this time, Qin Yuan thought of another question.

"Although the slideshow has been made, how can I put it on the big screen in the conference room and watch it with everyone?"

At this time, the screen of the system lit up, and a row of small black grids appeared.

The first grid has been opened, and there is a USB flash drive inside.

"Ding dong, there is no need for a host for this trivial matter. I am worried that a host is ready. The USB flash drive in this small grid has already been included. The slide of the rescue plan just made, the host is holding this USB flash drive. The computer in the normal large conference room Just copy the slides from the Internet."

"Ooo, it seems that you have prepared more than I thought."

Qin Yuan reached out and took out the USB flash drive from the black grid and put it in his pocket.

"Ding Dong, is there anything else I can provide for the host?"

Qin Yuan was also afraid that something would happen because of his negligence, so he thought about it for a long time. After confirming that my plan is perfect enough and nothing else is needed, I said:

"There shouldn't be anything else to do, that's enough, you should step back from the system first."

As a result, the bright screen in front of Qin Yuan's eyes disappeared.

In fact, only he can see the lit screen, after all, this system only exists in his body.

So whenever a villain accidentally sees Qin Yuan talking to the system there, he thinks he is pointing fingers at the air. Most people would think he was a psycho.

After everything was ready, Qin Yuan checked the time on his phone.

"Yeah, it's almost time, I have to hurry to the meeting room."

So Qin Yuan rushed to the conference room of the administrative building, after all, this small forest is still far away from the administrative building. is seriously going to walk for a while.

Qin Yuan thought that he would hold a meeting for everyone later, but he must not be late as the organizer.

Unexpectedly, he ran into two familiar figures on the road. They were going to the administrative building for a meeting. He Chenguang took the iceberg beauty Du Bingbing with him.

From behind, Qin Yuan looked that the two were a bit of a match. When the live broadcast thought of Du Bingbing's unapproachable appearance, he felt that He Chenguang had no chance.

And I feel that Du Bingbing doesn't like boys like He Chenguang.

If it's really about chances, he seems to have a better chance than He Chenguang, because he always feels that every time Du Bingbing sees his eyes, he is different from other people.

So Qin Yuan ran crazily behind and called to stop the two people.

Chapter 1840: tacit partner

Du Bingbing and He Chenguang walked in front and heard Qin Yuan's call, and hurriedly turned their heads to see him running madly towards them.

He Chenguang asked:

"You have arranged tasks for us, where did you go by yourself? How did you run out of breath."

Qin Yuan hesitated, he couldn't tell them the truth, he went to find the system to solve the problem by himself.

"I'm going there. I'm going back to get the USB flash drive. Isn't there a meeting? I don't know if they have arrived. Let's go quickly, don't waste time."

"Yeah, you're right. Let's go quickly, don't wait for the leaders to arrive, it won't be good if we arrive late."

Qin Yuan felt lucky, but fortunately he was fooled so quickly.

Talking and laughing, the three of them came to the underground meeting room of the administrative building.

He Chenguang looked at the dim environment and said:

"This place is indeed a good place to hold a secret meeting. I have never been here for so long because I am hidden."

Du Bing said coldly:

"Isn't that just right? Such a secret plan must not be easily known to outsiders."

Qin Yuan nodded and said:

"That's right, not to mention that there is an untimely bomb beside us now. There are also spies that have not been discovered. So we must be careful in everything we do at all times."

Just as the three of them were discussing enthusiastically, they did not expect to walk into the meeting room, and all these people had already arrived.

Fan Tianlei stared straight at Qin Yuan.

Qin Yuan also understood Fan Tianlei's meaning from this death gaze. So he quickly admitted his mistake first, lest Fan Tianlei speak first.

"I'm sorry, Thor, to keep you waiting. I know I'm late, sorry, it's my fault."

Fan Tianlei didn't say anything, it was because everyone present had something extra. After all, everyone knew that Fan Tianlei was a straightforward and violent person.

Qin Yuanxin is very clear that this is Fan Tianlei trying to save face for himself. After all, in front of Du Bingbing and the two recruits, as the small leader of this planning team, he must not lose face in front of his members.

Then he saw Gong Jian sitting in the corner with two newcomers.

Fan Tianlei said to Qin Yuan:

"Sit down quickly, start quickly, and tell everyone about your plan and specific personnel arrangements."

So Qin Yuan walked to the computer in the meeting, and quickly opened his own slides to show everyone. Introduced smoothly.

"We gathered everyone here today to implement a very confidential plan, to rescue an expert in engineering mechanics, Professor Fang De.

When I was on a mission, I accidentally discovered that Professor Fang De was kidnapped by Effiete's people. On the surface, this Effiete is a bounty hunter who does not participate in the previous battles of various countries, but in fact, I guess that he should really work for the United States. This Fang De is a leader in teaching engineering mechanics.

When it comes to engineering mechanics, I believe everyone here will understand the importance of engineering mechanics in the military. "

"This involves munitions."

At this time, a clear and bright voice below interrupted Qin Yuan's words.

Qin Yuan noticed that this tall, thin, dark-skinned young man was the first candidate he found in a pile of resumes.

"Chen Jixiang! My name is correct."

"Here! Sir."

Qin Yuan nodded and said:

"Well, there are not many young men, and you do things neatly. I admire you very much. Sit down, and I will arrange tasks for you later."

When Qin Yuan saw Chen Jixiang standing up to speak, he remembered that the two newcomers hadn't introduced themselves yet.

"Another boy, Li Zheng get up and introduce yourself. We will be comrades in arms who will do missions together in the future. We should get to know each other, right?"

As soon as Qin Yuan finished speaking, he heard a loud voice.

"Cooking squad recruits, Li Zheng is reporting to the chief."

Upon closer inspection, he was a boy of medium build, with a strong figure, full of heroism, and a star-eyed boy with sword eyebrows.

"Very well, sit down."

After Qin Yuan saw the two newcomers he personally selected, he was not to mention how satisfied he was. He secretly rejoiced, he didn't expect that the person he personally selected was so good. Sure enough, I didn't let myself down.

At this time, Qin Yuan continued to explain his slideshow plan.

"Look at this floor plan. The place with the red circle in the middle is the hiding place of Professor Fang De. When I met Professor Fang De on a mission that day, I put an invisible tracker in his pocket by the way. In this way, we can According to the trajectory of this tracker, the position of Professor Fang De can be observed at any time.

This will also prevent us from losing hostages during the rescue. "

When Qin Yuan was talking vigorously, He Chenguang interrupted again.

"When did you put the tracker, I didn't even notice it."

Qin Yuan looked at the bewildered He Chenguang and said:

"Is it possible for you to find out? With my shrewdness and ability, how can I be found out by you. If you can even find out my actions, then I believe that the enemy can also find out."

Not only He Chenguang was surprised by Qin Yuan's mysterious operation, but even Fan Tianlei and Gong Jian were also surprised. I didn't expect this kid to be able to do this with such a high degree of secrecy.

This kid really deserves to be the soldier king personally selected by the leaders. Fan Tianlei also nodded in satisfaction, with a comforting expression on his face.

Then Qin Yuan continued:

"Let's continue to look at it. This is a map. Just like before, the red circle is the specific location of Professor Fang De. The reason why I show you this map is to facilitate the arrangement of the following plans.

My preliminary plan is like this, Chen Jixiang, you are smart and clever, and you have a bit of a ruffian temperament. I think it is perfect for you to play the role of a delivery boy who graduated from junior high school and came out to work. "

When everyone present heard Qin Yuan describe Chen Jixiang like this, they all felt that what he described was quite accurate. They were all so amused that they couldn't help laughing.

The serious atmosphere just now eased up.

Qin Yuan saw that everyone relaxed a little, so he continued with the plan just now.

"I heard that Professor Fang De has asthma, so I plan to change his diet. As long as he develops asthma, I believe he will be sent to the hospital soon. There will be so many people in the hospital. It's easy to save directly.

After all, if you want to protect the safety of Professor Fang De, you must not go head-to-head. I believe everyone knows how decisive the United States is in doing things.

If they really know that we are also fighting for Professor Fang De, then maybe we will be forced to jump over the wall, and we will definitely fight to the death. Even if Professor Fang De is killed, he will never let him do it for us. Country H works. "

When Qin Yuan said this, Fan Tianlei nodded vigorously. This is indeed the case. The United States is the most selfish and vicious country in the world, and it will do anything for various interests.

Even often or do something that harms others and does not benefit oneself.

Fan Tianlei said:

"Your idea is good, and the plan is very meticulous. But is it too risky to let Professor Fang De suffer from asthma? After all, we still have to consider that Professor Fang De is already so old. If there is anything wrong with it, it will be troublesome."

How could Qin Yuan not have thought about Fan Tianlei's question.

It is precisely because of the fact that Professor Fang De is too old, the dosage of the medicine must be carefully considered. That's why Du Bingbing was found.

She can really be regarded as a very good candidate. He is both a face and a doctor. And still very young. A young intern suddenly appeared in a hospital, and everyone thought it was a new intern, so they didn't think much about it.

Qin Yuan thought of this, and quickly explained to Fan Tianlei:

"Don't worry about this matter. I also consulted a lot of information before I dared to come up with this method. This matter is left to Military Doctor Xiao Du, and this is also a task for you. You are responsible for finding the most suitable dosage. Then put this medicine into Professor Fang De's diet. When his asthma relapsed, he was just sent to the hospital.

As for the hospital, it needs you, Military Doctor Du, to make arrangements in advance. This matter naturally requires the leadership of Raytheon, you, to say hello to the hospital in advance. "

Fan Tianlei smiled slightly:

"Good boy, I've already been assigned a job, and I'm still involved. However, it's not a big deal to me. Zoom in on the map to see what hospitals are nearby."

So Qin Yuan zoomed in on the map on the picture.

"Oh, there are two hospitals near where Professor Fang is located. One is the Second Hospital of the Provincial Military Region, and the other is a friendship hospital, maybe a private hospital. Then how should I arrange it? Are they all arranged for masters?"

Qin Yuan analyzed with reason and evidence:

"The Second Hospital of the Provincial Military Region, this is an external hospital under our army. After all, it is still under the jurisdiction of the military region. They sent Professor Fang here. What is the difference from throwing yourself into a trap? How stupid It takes the brain to come up with such a question.

As for the Dongcheng Friendship Hospital, I checked it out in advance. It is a private hospital run by overseas Chinese. Absolutely nothing to worry about. Therefore, if something happens to Professor Fang, he will definitely be sent to this hospital. "

Only at this time did Gong Jian speak.

"It seems that you really have a delicate mind, you have thought of so many details. In the future, any tasks can be safely entrusted to you to lead the team, and you can be regarded as apprentices from the two of us."

He Chenguang followed Gong Jian's words and said:

"You have finished arranging tasks for others, what about me? What do I need to do?"

Qin Yuan looked at the anxious He Chenguang, fearing that he would be left with a task, so he quickly explained:

"You are such an important good brother, can you still be left behind? The task given to you is the most important task."

He Chenguang looked at Qin Yuan expectantly.

"What important task, come and listen to it."

"Have you ever heard of a civet cat being replaced by a prince?"

Qin Yuan smiled maliciously, staring at He Chenguang and said.

This remark made He Chenguang wonder, what does this matter have to do with the change of the civet cat for the prince.

Unexpectedly, Gong Jian joked beside him:

"Stupid boy, he meant to exchange you for Professor Fang De, but he didn't realize it."

"Ah? This is the important task you said. Can you do it, Qin Yuan? What kind of important task is this, why don't you go by yourself? Humph! It's not that I'm picky about the job, this task is too unchallenging gone."

Qin Yuan couldn't help laughing out loud. But he didn't intend to play tricks on He Chenguang at all. The reason for this arrangement was that He Chenguang was indeed the most suitable candidate. Because he has the same figure as Professor Fang De. He is the best candidate to trade civet cats for the crown prince.

Qin Yuan hurriedly explained to He Chenguang.

"You are in charge of ambush in the hospital. If there is a chance, you don't need to take Professor Fang De's place and take him away directly. Moreover, you and Dr. Du Bingbing need to assist in completing this task."

When He Chenguang heard Du Bingbing's name, he seemed to be fascinated. The reluctance in his eyes just now disappeared, and he could see anticipation and excitement in his eyes immediately.

Of course, all of this was within Qin Yuan's expectations. It can be said that he has firmly grasped He Chenguang's weakness.

Although Qin Yuan himself couldn't figure out why this He Chenguang was so obsessed with Du Bingbing, maybe this meant that the hero was sad about the beauty pass.

Qin Yuan remembered again that there was another Li Zheng that hadn't been arranged. Although this newcomer has an old personality, he is still a boy who is not yet twenty years old.

This is the age when he came out to serve in the army. If he was still at home, he would still be pampered by his family as a treasure in the palm of his hand.

Qin Yuan looked at the honest and down-to-earth Li Zheng and said:

"Li Zheng, I see that although you are young, your behavior is still very mature, and you can be regarded as prudent in doing things. As a free man, you can pretend to be a patient and lie in ambush in the hospital, waiting for orders at any time."

"Okay, received!"

After listening to Qin Yuan's words, Li Zheng immediately got up and gave a military salute, and replied very happily.

At present, all of Qin Yuan's tasks have been arranged, and the details of how to implement this rescue plan are estimated to be clear to everyone present.

At this moment, Fan Tianlei walked to Qin Yuan's side, with a satisfied and confident expression on his face.

"Very good. After listening to the whole process, I think Qin Yuan's arrangements are very reasonable. Everyone clearly understands their tasks, right? Now is the time for Q&A. If you have any difficulties and questions, please come up quickly. Instructor Gong Jian and I both I'm here. If you have any problems, tell them quickly, don't wait until you encounter problems during the implementation of the plan, but it's too late to solve them."

At this time Du Bingbing stood up and said:

"I have a question here. Can I talk now?"
