

## Special Soldier 1851

Chapter 1851: successful meeting

Qin Yuan quickly commanded in the earphone:,

"Listen, now you go to the left direction, go to the end and turn right, and then there is a small door on the right hand side at the end, you can come out from there, but you have to be patient, that is a special garbage delivery The underground passage must be very smelly."

Unexpectedly, Du Bingbing, a clean and beautiful girl, said:

"It's nothing to be dirty and smelly. Now it's time to complete the task, so there's nothing to be afraid of. Not to mention the sewer, we have to bite the bullet and drill even the cesspit."

He Chenguang looked at Du Bingbing with admiration.

Afterwards, the two ran in the direction directed by Qin Yuan.

At this time, Du Bingbing and He Chenguang could vaguely hear some movement in the cafeteria. It should be Effiete and the others who have already started searching.

However, fortunately, this is a public place, no matter how arrogant and domineering Effiete's people are, it is impossible to turn this place upside down. After all, after all, this is the territory of Country H.

As expected, this underground passage really smells worse the further you go in.

He Chenguang wore a mask and covered his mouth and nose with his hands, but he still couldn't stop the stench of the sewer.

"Is there dog \*\*\*\* here! Why is it so smelly, I can't do it, I'm going to spit it out."

Du Bingbing did not look as miserable as He Chenguang. Although she also covered her mouth and nose with her hands, she was very calm. She stared at He Chenguang with wide eyes. Obviously Du Bingbing didn't want to open his mouth to make any sound now.

Because she felt that when she opened her mouth, the stench would enter her mouth. What she was more worried about was that when she opened her mouth, the stench would make her spit out uncontrollably.

Qin Yuan was waiting for these two people in the car outside. Of course, he was not idle. He knew that there was a positioning system in this car, and he must quickly destroy the positioning system of this vehicle, otherwise, it would be very dangerous.

However, Qin Yuan knew very well that he couldn't find this secret positioning system for a while, because Effiete and the others would consider this point when installing this positioning system.

The more this situation, the more it can show that Qin Yuan is different from those ordinary people.

Because he has a unique and very powerful one-key recovery system.

However, at the same time, Qin Yuan also has a concern, that is, once the scanning function is enabled, he may consume another 10,000 merit points.

However, this urgent situation is not the time to hesitate at all. Even if you borrow all the remaining 900 million credit points, you still have to do this.

"System, system, come out!"

"Ding Dong, hello, host, what else does the host need?"

"Immediately, immediately, scan this car for me. There is a positioning system in this car. Can you help me find out where it is? Find it quickly, or we will be in danger."

"Ding Dong, is the host sure to scan the current vehicle? Scanning the current vehicle will consume 10,000 credit merit points of the host system!"

"Hey, it seems that my estimation is correct. This function really consumes 10,000 merit points. All right, I'm sure to scan, hurry up, it will be too late."

"Ding dong, the current vehicle is being scanned for the host, please wait a moment for the host..."

Qin Yuan watched the countdown to successful scanning displayed on the screen, and he was really anxious. Taking advantage of this time, he hurriedly asked He Chenguang and Du Bingbing if they had found the exit.

"What's the situation with you two? Why haven't you found the exit yet?"

"We also want to hurry up. Do you know how disgusting it is in here? It's cold, dark, wet and smelly, and I'm about to puke it up! No way, the more I think about it, the more disgusting it gets."

Although Qin Yuan wasn't in that environment, he could feel how disgusting that environment must be even if he was a bit of a clean freak. Although he sympathized with He Chenguang and Du Bingbing, he had to let them hurry up.

"I understand how disgusting it is in there, but if you want to get rid of that environment quickly, the best way is to come out quickly. Go back and take a hot bath, think about this comfortable scene, can you hold back the bad smell taste?"

Du Bingbing resisted the unpleasant smell, sobbed and said:

"We also want to go out as soon as possible, so you just wait outside obediently."

Just as Qin Yuan was about to refute Du Bingbing, he saw the numbers displayed on the screen, and the countdown was already counting down to a successful scan.

"Okay, I won't tell you now, you should find the exit quickly, I have something to do here, hurry up and leave as soon as possible, it's dangerous to stay here for one more minute."

"Ding dong! The system scan is successful, and the current vehicle has been scanned for the host."

The system's scanning results quickly appeared on the screen in front of Qin Yuan's eyes.

"Ding dong, the successful scan of the current vehicle has consumed 10,000 credit merit points, and the current credit merit points are only 80,000 points left. Warm reminder, please repay the used credit merit points as soon as possible to avoid system degradation."

Qin Yuan looked at the three-dimensional image of the whole vehicle that had been successfully scanned displayed on the screen.

He soon spotted a red dot.

"If I'm not mistaken, this should be the secret location alarm they installed."

Just as Qin Yuan was about to get out of the car to dismantle it, he saw a bright red dot appearing in another location.

"What's the situation? Are there two positioning systems? It shouldn't be, why do you need two for such a high-tech thing with such powerful functions?"

Qin Yuan decided to get out of the car and check for himself to see what was going on and why there were two positioning systems.

He followed the instructions on the screen and walked to the trunk of the vehicle first. After opening the trunk, there was indeed a hidden location inside, hiding an invisible positioning system.

After all, Qin Yuan is the king of special forces who has received training, and he can quickly solve such trivial matters. This invisible secret positioning alarm system can be easily dismantled by three times, five times and two divisions.

After dismantling the secret positioning alarm system, his hanging heart can be regarded as falling to the ground.

At this time, the screen in front of him suddenly turned on a red light, blinking.

Just see what's on the screen.

"The system reminds me that there are dangerous items in the current vehicle, please find and remove them as soon as possible."

Seeing these words, Qin Yuan was so frightened that his pupils trembled.

He thought to himself, what is going on? Why are there dangerous objects? Isn't the other one left some invisible secret? Alarm system?

Could this be...

Qin Yuan obviously had an ominous premonition in his heart.

So, he opened the engine position of the vehicle according to the display on the 3D stereogram.

Qin Yuan was so frightened that his hands were already shaking. Sure enough, things were developing in the direction he least expected, and what was displayed in front of him was also what he least wanted to see.

Now it was obvious that what stood in front of his eyes was not an invisible secret positioning system but a time bomb!

Although Qin Yuan had received some methods of dismantling bombs when he was in the army, he was not a professional bomb dismantling expert after all, and he had no idea what the bomb was actually working on.

Qin Yuan knew in his heart that this car turned out to be Effiete's car, and there must be many secret things on it. It seems that it is understandable for them to install a time bomb on it.

The more dangerous the place, the more important things are. It seems that this vehicle is definitely not such a simple scooter. It must be hiding a deep secret.

Although it can't be said that if you can't enter the tiger's den, you can't get a tiger's cub, but now the only way for the three of them is to dismantle this bomb.

Qin Yuan quickly contacted Du Bingbing and He Chenguang.

"Don't worry, we have found the exit, but the exit is too small, like a dog hole, we have to find a way to expand it before we can get out."

He Chenguang saw Qin Yuan contacting them again to urge them. So I hurriedly said these words with some impatience.

Qin Yuan sighed and said calmly:

"I don't want to urge you, but there is one thing right now, which should be bad news. I don't know if I should tell you now so that you can be mentally prepared."

At this time Du Bingbing said calmly:

"We are now comrades in the united front. Those things that have gone through so many tests of life and death, is there any reason for you to hide from us? If you have anything to say, hurry up, since even the dog hole is going to be drilled, There's nothing else I can't accept."

"Then let me tell you now, don't be afraid. I have good news and bad news, which one do you two listen to first?"

Du Bingbing said calmly:

"Bad news, don't keep it up, just say something if you have anything to say."

While enduring the stench and dirty garbage, Du Bingbing worked with He Chenguang to find a way to make the dog hole bigger, and only two people could get out.

Qin Yuan made enough mental preparations, and then said slowly:

"Then let's hear the good news first. The good news is that I know that there is an invisible secret positioning system on this car, and I have already found it. In this way, it will be more convenient for us if they don't know our exact location. run away."

He Chenguang said while busy:

"What about the bad news? Are you trying to tell me there's a bomb in this car?"

Under such a tense atmosphere, Qin Yuan was actually amused by He Chenguang.

"I didn't expect you to be so smart this time, and your guess was so accurate. That's right, there is indeed an invisible time bomb in this car, and it hasn't started yet. I guess there must be something very important in this car. Otherwise, Effiete and the others will definitely activate the explosive system as soon as they discover that the vehicle has been stolen."

He Chenguang resisted the stench in the air and laughed out loud.

"Damn it, what I said this time is so accurate. I'm not a crow, so I turned into a crow's mouth. I shouldn't guess that the thing in this car is a bomb."

What should we do now, or else you don't care about the two of us and run away first, if Effiete and the others really only activate this bomb, the consequences will be disastrous. "

Qin Yuan was really moved by this He Chenguang.

At this time Du Bingbing also said:

"If you really can't, you can go alone and leave us alone. This is not the time to show loyalty. It is a person who can enclose a person. But I don't know how powerful this bomb is. There are so many people in this cafeteria. There are too many people, do you want to evacuate the crowd?"

Qin Yuan carefully observed the bomb several times.

"No, according to my observation, this bomb should not be that powerful. The reason why the bomb is installed in the car is to fear that the secrets inside the car will be discovered, so if the bomb explodes, it can only destroy the car. The power of nothing."

What I mean by telling you two about this is to tell you two that it may be dangerous at any time if you come out now, should you two continue to stay inside and think of other ways? "

He Chenguang knew that Qin Yuan didn't want to hurt them by saying this, but they were good brothers who went through life and death, and it was absolutely impossible to leave Qin Yuan alone.

"When is it, and you still say such things, hurry up and calm down for me. It's dangerous for us to go out, isn't it dangerous to stay here? How about this, I'll go out alone, Doctor Du, just feel wronged and stay here for a while." Here it is."

Du Bingbing shook her head, she held He Chenguang's hand and said:

"We are comrades in arms who live and die together. I absolutely can't be here alone. Let's find a way to get out first. Don't think too pessimistically about things. Isn't the bomb exploded yet? It hasn't been activated yet. You are here to die and die." What are you doing!"

Neither Qin Yuan nor He Chenguang had any ideas. Du Bingbing, who usually looks weak and indifferent, was able to be so decisive and brave.

Through this mission, Qin Yuan's view of Du Bingbing has also changed.

"You really deserve to be a military doctor. It seems that I really underestimated you before. Doctor Du, you are really a hero among women, okay! If this is the case, the three of us will unite as one and do a big job. I don't believe it either. There are any difficulties that I, Qin Yuan, cannot solve."

Just as Qin Yuan was speaking impassionedly' two people who were dirty, wet, sticky and smelly suddenly appeared in front of him.

"You really came out!"

The three of Qin Yuan and the others finally reunited. After so many things, the three of them felt as if they had been separated from each other when they met.

He Chenguang quickly ran to Qin Yuan's side, and immediately hugged Qin Yuan tightly without saying a word.

Qin Yuan was so suffocated by the stench from He Chenguang's body that he vomited it out.

Seeing this, He Chenguang hurriedly dodged three feet away. And mocked:

"Now you know what happened to us just now. Did you know that both of us were disgusted in it just now? What rotten vegetable leaves, leftovers, and oil stains... My God, it's like it's all fermented in it."

Du Bingbing finally couldn't help but vomited out.

Chapter 1852: contact troops

When Qin Yuan saw Du Bingbing who couldn't help vomiting beside him, he felt distressed and secretly pleased.

Because in his eyes, Du Bingbing is always so domineering and cold, giving people a feeling that he is inaccessible. He did not expect that such an iceberg beauty would have a day of digging into a dog's hole.

Qin Yuan hurriedly said:

"Are you okay, just bear with me, we will be able to leave here soon, you didn't stand out in the inside just now, why did you come out, I can't bear it all at once. You make me look at you just now with admiration Another change."

Sometimes He Chenguang really can't stand Qin Yuan like this, because he really cares about Du Bingbing from the bottom of his heart.

"Okay, don't gloat at this time. He is a college student who has just graduated and encountered so many difficulties when he came out with us to perform the mission for the first time. You are still here cold wave and sarcastic, are you still there? A little conscience."

After hearing He Chenguang's words, Qin Yuan suddenly realized that he really couldn't continue joking around here anymore. The bomb in the car is still unsolved.

He didn't know what to do, whether he should defuse the bomb now or get in the car and drive back. Qin Yuan asked He Chenguang:

"There is a bomb in the car now, we should drive back first, but I don't know when Effiete and the others will detonate the bomb. If we dismantle it on the spot, neither you nor I are professional bomb disposal experts, and we have no protective measures , so what should we do?"

A wicked smile appeared on He Chenguang's face.

"I didn't expect that you would ask me for help sometimes. I thought you could do everything! Hahahaha, let me see what kind of bomb it is."

Du Bingbing looked at the two of them and was a little speechless, wondering what time it was! It's even so weird. Can you hurry up and do something serious?

Effiete and the others will chase after them at an unpredictable time. If Effiete leads someone to catch up, the three of us will die.

At this time, He Chenguang walked to the front of the car, opened the front cover, and looked for a long time but did not find where the bomb was.

"Qin Yuan, where is the bomb?"

Qin Yuan rolled his eyes, walked slowly to the front of the vehicle and said, pointing to an inconspicuous corner and said:

"Isn't this a bomb? Are your eyes for breathing?"

He Chenguang sighed, turned to Du Bingbing and said:

"Come on Bingbing, take a look, who can see the really hidden location, see if you can spot it at a glance? Your eyes are so good, you can't even see it."

Du Bingbing stood beside He Chenguang, and also poked his head to look inside. Then, Du Bingbing sneered.

"Hmph~ Indeed, it's quite difficult to find. But, having said that, since they planted bombs here, they must not be so bright and conspicuous that everyone passing by can see them? This kind of thing must be more The more concealed the better.

But how did you find out that Qin Yuan was really hidden? "

Du Bingbing's sudden question caught Qin Yuan by surprise. For a moment, he didn't know how to answer.

You can't tell the two of them that you discovered it through a system scan.

So, Qin Yuan scratched his head in embarrassment, and said:

"Oh, I was also thinking about checking this car, but I didn't expect to find this bomb when I checked the key engine.

Now don't worry about how I found out, just think about how to deal with it. He Chenguang, how do you look? Have you found any clues? How about it? Can it be removed directly? "

Du Bingbing supplemented what Qin Yuan said, and then said:

"Now we don't know anything. We don't know what type of bomb it is, and we don't know what kind of explosion it is. Will there be a countdown after it is activated, or will it explode immediately, or will it touch something? Also, I don't know how powerful this bomb is.

Don't forget, this is the city center, how many permanent residents there are. And this is a hospital, how many people are there in the whole building.

We have to take these things into consideration, we can't hurt the innocent! "

Qin Yuan thought for a while, and then said:

"I think there must be something very important in this car, or something very important, otherwise they will definitely activate the explosion system when they find out that the car has been stolen at the first time, but so far, even They couldn't find the exact location of the vehicle and they didn't

give up and they didn't activate the explosive system, which means that there must be something in this vehicle that they have to keep."

He Chenguang carefully observed the bomb next to the engine, so he said:

"I don't think this bomb is very powerful. Perhaps its function is not to have so much energy, but to completely blow up the car. So in fact, his explosion here should not affect too many people. People, but we shouldn't take the risk, it's still dangerous if we miss it."

Qin Yuan nodded his head, agreeing with He Chenguang's idea very much.

"I observed it for a while and thought the same way. It should not have much power."

Du Bingbing turned around, looked at the surrounding environment, and then said immediately:

"Why don't we drive the car away now, and before he explodes, we should also leave here and find an empty place, right? We should go there and find the clues to dismantle the bomb.

Besides, we should flee here as soon as possible, Evert. They have surrounded the entire cafeteria. Once they search here, they will find us.

Don't forget that you and they have pistols in their hands. Once the guns of both parties go off, the next thing will be unimaginable, and the bomb on the car may be detonated in advance. "

Qin Yuan said:

"It's been such a long time. I don't know if Chen Jixiang and Li Zheng are there. Professor Fang was successfully brought back to the army. I haven't received any relevant information until now."

Du Bingbing said:

"Yes, we can contact the army and ask them to send someone over. There are professional bomb disposal experts and very professional equipment over there. Since there may be something important in this car, we can't let the bomb explode, so as to put the Important clues on this car are destroyed.

Such a simple and direct thing, didn't both of you think of it? Why not contact the troops? "

Du Bingbing's question was obviously asked by Qin Yuan and He Chenguang, and they didn't know how to answer it.

In fact, it's not that the two of them didn't think about it, it's just that these two people are sometimes too confident, and even a little conceited.

The two of them thought that since they came out alone to complete the task and it was not a last resort, they didn't want to contact the army to come out to help.

They always feel that once someone steps in to help do this, it seems that their task is not completed perfectly.

Qin Yuan and He Chenguang looked at each other, and they both agreed with each other.

"Since it's this time, we can only follow this method. I know there is an empty space nearby. We can drive there, and then contact Fan Tianlei and ask him to send a professional bomb disposal expert over."

"Okay, this is the only way to go now, then let's get in the car quickly, don't hesitate any longer."

He Chenguang, after finishing speaking, the three of them got into the car one after another. Du Bingbing sat at the back.

Unexpectedly, he actually expressed the true thoughts of the two of them.

"I think you two conceited and conceited guys are afraid that once people from the army intervene in this matter, you feel that your mission is not perfect, as if you didn't complete it with your own ability, right?"

Both Qin Yuan and He Chenguang were caught by Du Bingbing and saw through their own thoughts. They were very embarrassed for a moment. They were silent and did not say anything, nor did they refute Du Bingbing.

Du Bingbing said with a sigh.

"I know that both of you are very good special forces, and there are many things that you can complete independently, and you don't need anyone to intervene or worry.

But you need to know what you are facing now? This is the bomb! Do you two dare to deal with such things easily and privately? I'm not worried that I'll be injured by a bomb when I'm with you two. Since I've chosen to be a soldier, I shouldn't put my own safety first.

But don't forget that we are soldiers who protect the people, and you two should not put your honor and name above the safety of the people. "

Neither Qin Yuan nor He Chenguang thought that they would be taught a lesson by a little girl.

Qin Yuan also realized that he was indeed a little too impulsive, and he really didn't think so thoroughly about dealing with the bomb. At this moment, he called Fan Tianlei.

"Hello? Your kid finally called me. How is your task going? Is it effective? Do you need my help? I tell you that at all costs, we must protect Professor Fang's life. Once Fang If the professor's life is in danger, then the mission represents failure."

He Chenguang said softly beside him:

"This Thor doesn't care about us at all, he only cares about his teacher. Could it be that his teacher's name is his name, and our lives are so insignificant?"

Du Bingbing heard He Chenguang's complaint, so he gave him a hard look from behind.

Qin Yuan suddenly realized that what Fan Tianlei said meant that Chen Jixiang and Li Zheng had not yet returned to the army. Fan Tianlei did not know that they had successfully rescued Professor Fang De.

"Don't worry about Thor, I'm here to tell you a good news and a bad news, which one do you want to hear first?"

"You kid is playing tricks here again. Since you have the time and energy to trick me here, it means that your mission here is not bad. Tell me."

Qin Yuan talked to Fan Tianlei while driving.

"You haven't said whether you want the good news or the bad news first?"

"Tell me the good news!"

"The good news is that I have successfully rescued Professor Fang De. Now Chen Jixiang and Li Zheng should be driving Professor Fang De back to the army. If there is no accident, they should arrive soon. ."

"Why are the two of them driving and the three of you? Maybe this matter is related to bad news."

As soon as Qin Yuan heard Fan Tianlei say this, he smiled slightly and said:

"That's true. We encountered a little difficulty. At that time, Du Bingbing, the doctor and He Chenguang didn't escape in time and were blocked by Effiete's people in the hospital. I could only stay here and share with them. advance and retreat.

This is another bad news. We stole Effiete's car now, but found that there is an invisible positioning system on the car, but this invisible secret positioning alarm system has been successfully dismantled by me.

In other words, no matter where I drive this car, they will not find this car. "

Fan Tianlei knew that Qin Yuan hadn't finished speaking, but still interrupted him.

"This should be good news, what do you say? Is this bad news? If you have something to say, hurry up and say don't breathe here."

"The bad news is that there is still a bomb on this car. It should be a time bomb, but this state has not yet been activated. We are driving the car and preparing to find a way to dismantle it or detonate it in an open field."

Fan Tianlei immediately understood what Qin Yuan meant.

"Then you clearly know that there is a bomb in this car, why do you still drive the two of them to stay on top of the time bomb? What does this have to do with the three of you choosing a sword on your head that may fall at any time? the difference?"

The three of you are not bomb disposal experts, Effie, they don't know when they will detonate this bomb, just throw the car down and find a way to come back, I will drive to pick you up? Quickly tell me the exact location. "

Qin Yuan quickly explained his thoughts.

"I guess Effie and the others found that the vehicle has been lost' and the positioning system has failed, but they still can't find a way to detonate the bomb, which means that there must be something in the car that they are reluctant to destroy. If we can successfully defuse this bomb, we will be able to obtain relevant information.

So now I am calling you, not to ask you to come and pick us up, but to ask you to find a way to call me a professional bomb disposal expert from the army.

You also know that the three of us are laymen in the matter of dismantling bombs. "

At this time, Fan Tianlei said suddenly.

"It turned out to be like this, so this is good news for me, because there should be something we want in this car. But, you three, it is too dangerous now, and I don't know when the bomb will come Start, and the countdown is still starting immediately, or there is no mechanism to know."

Qin Yuan said:

"Maybe that just leaves us a lot of time."

## Chapter 1853: critical moment

When Fan Tianlei heard Qin Yuan's explanation, he said angrily:

"What is it called? This leaves you with more time. Do you know how dangerous the situation is now? You don't know anything and dare to drive Du Bingbing and He Chenguang together in a car with a bomb.

I think you kid is simply too bold, dare to do anything. You stop the car immediately and get out of here, no matter what important clues are in the car, your lives are the most important! "

Qin Yuan seemed to realize the seriousness of the problem, but he had already driven out, so he couldn't stop like this.

"I'm sorry Thor, I can't listen to you now. I'm going to the open space soon, you should be able to see our movement trajectory, just send bomb disposal experts over quickly."

Fan Tianlei really couldn't handle Qin Yuan's stubborn temper.

"You kid is always like this, disobedient, and even joked about the lives of three people. I really convinced you."

At this time, unexpectedly, a piece of good news came. That was Chen Jixiang, and Li Zheng had successfully returned to the army with Professor Fang.

Qin Yuan was still waiting for Fan Tianlei to accuse him further, but he didn't expect him to stop suddenly.

"What happened? Why didn't Thor stop talking?"

Fan Tianlei said excitedly:

"Now I have good news to tell you."

Before Fan Tianlei could speak, Qin Yuan already knew what the good news was, so he said excitedly:

"Could it be that Chen Jixiang and Li Zheng have successfully led Professor Fang to answer our troops?"

Fan Tianlei breathed a sigh of relief and said:

"I said that you guessed more accurately. These two boys lived up to your hopes and actually succeeded in bringing Professor Fang De back. I won't tell you. I have already photographed a pair of bomb disposal experts following your map instructions." The direction is heading towards you, you better hold on to me, don't let the bomb go off.

I'm going to check on Professor Fang De's situation now, and see how your mission is going. "

After speaking, Fan Tianlei hung up the phone.

At this time, He Chenguang also heard the voice on the phone, and he said excitedly:

"I didn't expect these two boys to be able to complete the task. It seems that we really didn't misunderstand them. The next problem is the three of us. The comparison Fan Tianlei accused us really shouldn't be so impulsive and put ourselves into a trap." in a dangerous situation."

When Du Bingbing heard what He Chenguang said, he worried that it would affect Qin Yuan's mood.

"You shouldn't say that. The three of us made a joint research decision to drive out the car with the bomb. It shouldn't be blamed on one person. Since we have chosen to come to the army, we have already put our lives on the line. In the back of my mind.

Shouldn't every soldier shed his blood for the country?

Qin Yuan, you don't need to have too much pressure in your heart now. No matter what happens, I won't blame you, because this is something we have already decided. I can tell you right now that I am not afraid of death myself. "

Qin Yuan didn't expect that at the critical moment, Du Bingbing would change his previous cold and unapproachable atmosphere and speak to encourage him.

He was a little excited now, so he turned and looked at He Chenguang next to him.

He Chenguang said with a little embarrassment:

"You don't have to look at me like this, and I didn't blame you for putting our lives on the tip of a knife. I didn't think so much, I just said casually that you don't need to have too much psychological pressure, and I think our The situation is useless, it's too early to talk about life and death.

Just concentrate on driving..."

Before He Chenguang finished speaking, several people heard the sound of ticking.

At this time, Qin Yuan seemed to feel an ominous premonition in his heart.

"Brothers, it seems that we are really afraid of something. This bomb seems to have been activated..."

After Qin Yuan finished speaking, no one was talking in the car, and everyone tried hard to hear what the ticking sound was.

Although the three of them already understood that the bomb was really activated, they still didn't want to believe that the sound was the sound of the bomb countdown.

The air inside the car suddenly became cold, and no one could hear the three people's heartbeats when they were talking quietly.

At this time, Qin Yuan knew that he could not waste any more time, but the good news was that he had successfully driven the car to the pre-set open space.

Qin Yuan stopped the car with one brake.

Now he wanted to get out of the car to see how long the countdown was, but he didn't dare to move easily, because he was afraid that if he didn't pay attention, the bombs on the whole car would be activated.

At this time, He Chenguang said:

"It seems that the most dangerous place now is your position and my position. If a bomb has countdown and pressing functions at the same time, then the most dangerous place should be the position of the cab. But I don't dare to act rashly.

Dr. Du, your position should be relatively safe now, you can move a little bit to see if your position can be moved, you can get out of the car to see how long the countdown is. "

Qin Yuan thought that He Chenguang's analysis should be right. In fact, this is indeed the case, if Effiete, they really installed a press bomb under this car seat. Then the biggest possibility is the position in the driver's cab, because if someone really steals the car, he must sit in the driver's cab.

Therefore, Qin Yuan is also very worried now, and he dare not move.

Du Bingbing also quickly understood what the two of them meant, and he moved his legs carefully. It was found that there was no response for the time being, and the sound of ticking ticking did not speed up, which meant that his position was safe for the time being.

The three of them were all cautious, and no one dared to act rashly.

At this time, Qin Yuan said:

"It seems that your legs should not have any problems. Next, you are moving the seat."

Du Bingbing's eyes widened, watching the two men stand up gently and cautiously, and found that there was indeed no button bound to the bomb in his position, and he was sure that he could move at any time.

So Du Bingbing quickly got out of the car without saying a word.

The front cover of the car was overturned in an instant, and a bright time unfolded in front of his eyes.

"It's the countdown!"

Qin Yuan closed his eyes, swallowed and said:

"How much longer?"

Du Bingbing looked at the screen showing less and less time, and looked at Qin Yuan and He Chenguang with a look of despair.

"There are still 5 minutes!"

He Chenguang also said in despair:

"5 minutes? It must be too late for the bomb disposal experts to come over. Now that the bomb has been activated, what should we do? The only way now is..."

Qin Yuan said:

"The only way now is to find a way to dismantle it ourselves. But neither of us dare to move around. If both of us are frozen, it is very likely that we will start. The button under the seat will cause the bomb to explode directly. So This matter can only be left to you, Doctor Du."

He Chenguang said:

"Absolutely not. This matter is too dangerous. I don't think it's safe to leave it to Dr. Du. Dr. Du, you should leave here as soon as there is no danger."

Du Bingbing's eyes widened, looking at the two of them.

"At such a critical moment, do you let me go first? Are you leaving the two of you here to die? Let me tell you two, I will never leave here. What's the matter? The three of us advance and retreat

together. If I'm leaving now, you two have no chance of survival, I can only stay here to help you dismantle the bomb, so the three of us can survive."

Qin Yuan was very touched in his heart, and at such a critical time, Du Bingbing was able to help the two of them do such a thing regardless of life or death.

"Okay, then let's not waste any more time. Since you have made up your mind to help us, we will not be polite to you."

Du Bingbing said coldly:

"Who wants you to be polite to me! Hurry up, teach me what to do next."

Qin Yuan said:

"The two of us have no way to see what the bomb looks like now. You point your phone at the bomb. Let's take a video to see if there are any loopholes in the line."

Du Bingbing immediately took out his mobile phone and dialed Qin Yuan's video.

Qin Yuan saw from the video that the bomb now looks like there is a black box outside. Wrap the lines inside this.

If you take the black box apart, you should be able to see the wiring inside.

So, he hurriedly directed Du Bingbing.

"Dr. Du, go to the trunk of the car and take out some tools. When I was driving, I saw a box of tools in the back of the car. You can use this tool. The black shell on the outside of the bomb should be exposed. The specific line, we only know how to dismantle it when we see the line."

Du Bingbing quickly ran to the trunk and took out the toolbox.

This is a completely unfamiliar field for him, and he doesn't know how to dismantle such a box, but at a critical moment, he can activate some key skills.

Unexpectedly, Du Bingbing actually accidentally opened the shell of the bomb.

Qin Yuan looked at the bomb's wires. There were three wires in total, which should be the main wire connecting the bomb.

One red, one blue, and one white.

He Chenguang also cautiously put his head in front of Qin Yuan, and quickly looked at the specific situation.

"It seems to be a three-choice question. How about which color should I choose?"

Qin Yuan sighed, and said in one breath:

"Which color to choose? You ask me, if I knew, would the three of us still be in this situation? Besides, none of us are bomb disposal experts. It seems that you can only choose one color you like from here, help us decide the fate of both of us."

Du Bingbing said:

"Is it up to me to choose this matter? Choose one color from the three. If I make a wrong cut, the consequences will be unimaginable."

He Chenguang said:

"From the first time I saw you, you were the only goddess in my heart. And since I met you, I feel that my whole person is different from before. You have brought me a lot of luck, so I believe that this time, you will be able to bring us luck to choose the right thread."

When Du Bingbing was facing life and death, it was conceivable how much pressure he should bear in his heart.

She has always been calm, but now there are big beads of sweat on her head, he can no longer calm down, after so many operations, his hands have never shaken, and now his hands can't help it anymore , trembling constantly.

"I... I really don't know what to do. I dare not choose. The names of the two of you, as well as my own, are on the scissors. If I make a mistake, then..."

Qin Yuan saw that the bomb disposal experts were still a long way away from him on the map. It seemed that they had no way to rush here to save them before the countdown ended.

Therefore, Qin Yuan said:

"Don't put too much pressure on yourself now, I know you must be very nervous now, because the lives of the three of us are in your hands. But you have to know that this is our only chance of survival, I see now Even if any one of the three of us defuses it, the bomb is all based on our own guesswork.

Now the bomb disposal expert is about 10 minutes away from us. He has no way to feel that we are here to save us, so everything is on your body.

Don't worry, just choose boldly. No matter what choice you make, we are resigned to fate. "

Du Bingbing looked at the countdown on the screen, and now there were only 3 minutes left.

So, he knew that he absolutely couldn't waste any more time, and had to choose one quickly.

She then closed her eyes, and her mind was constantly flashing, which one should she choose among the three lines of red, blue and white? Afterwards, he closed his eyes and casually cut off a piece of white ' The scissors went down and Qin Yuan and He Chenguang who were sitting in the car could already clearly hear it, and the sound of tick-tock-tick-tick-tick-tick-tick-tick-tick-tick-tick-tick-tick-tick-tick-tick.

It seems that Lady Luck did not immediately stand beside the three of them this time.

As expected, Du Bingbing made a mistake. The number on the screen has accelerated and decreased, and now there is only one minute left.

Qin Yuan looked at Du Bingbing, and realized that the thread was cut wrongly, and his hands had reached the limit and he couldn't hold the scissors. The scissors fell to the ground at once.

Qin Yuan quickly comforted and said:

"Don't be nervous, now it's a choice between two, we still have another chance. Just now we were not killed immediately, it means that the goddess of luck is still on our side, Bingbing, pick up the scissors and say it again, we believe you. It must be good."

Du Bingbing's tears are already falling...

Chapter 1854: Successfully defuse the bomb

Qin Yuan knew that there was not much time left, so he hurriedly said it again:

"It's okay, Bingbing. You have done a great job, now is the time to choose one of the two, no matter what you choose, we are all resigned to our fate, the fate of the three of us is in your hands."

Don't give up, even if you choose one of the two, we have half the chance of surviving, but if you give up, we will have no hope at all.

Du Bingbing also knew the urgency and seriousness of the matter now, so in order to wake herself up, she pinched her arm fiercely with her nails, and blood stains soon appeared.

At this time, Du Bingbing was already awake, so he picked up the scissors on the ground. Looking at the countdown on the screen, there are only thirty seconds left.

Qin Yuan and He Chenguang in the car did not speak, and held their breath.

Only at this moment did everyone understand that it was really at such a critical moment of life and death that they could really hear every beat of their own heart clearly.

The countdown sound of "tick, tick, tick" is accompanied by the heartbeat of "boom, boom, boom".

Du Bingbing calmed down, at this moment the life and death of the three people were in the hands of the scissors in her hand.

So she didn't hesitate any longer, seeing the countdown, there were only ten seconds left.

Du Bingbing made up his mind, moved towards the red line, closed his eyes, and cut it fiercely.

Qin Yuan and He Chenguang in the car knew that now was the last chance to survive. So, I also closed my eyes and prepared to resign myself to fate.

At the critical moment, the sound of "tick, tick" suddenly stopped.

The only sound left in the entire space was the intertwined and complicated heartbeats of the three people.

A crystal clear teardrop from Du Bingbing fell on the countdown screen of the bomb.

At this moment, time seemed to stand still.

Qin Yuan and He Chenguang slowly opened their eyes. Through the windshield, I saw Du Bingbing, who was already in tears at this moment. She was crying and laughing at the same time.

With a trembling voice he said excitedly:

"I... I succeeded..."

Qin Yuan and He Chenguang hugged each other excitedly in the car.

At this time, everyone can truly understand the feeling of life hanging by a thread and narrow escape.

He Chenguang also cried excitedly and said:

"Damn it, I'm scared to death."

While talking, He Chenguang wiped the sweaty Qin Yuan's body with his hands.

Although Qin Yuan is also a person who has experienced many storms, it is also the first time he has experienced such a state of life hanging by a thread, almost waiting to die.

The three people who survived the catastrophe really can't express their feelings in words.

Qin Yuan eased his mood, because his legs are no longer in control. I don't know if this feeling is numb, or if my legs have completely lost feeling. Sitting in the car in a daze for a long time, Qin Yuan took off his seat belt, opened the door, and got out.

Qin Yuan's first reaction when he got out of the car was to rush forward and hug Du Bingbing tightly.

Du Bingbing also changed her previous feeling of being a cold and cold goddess, and hugged Qin Yuan tightly with both hands.

He Chenguang, who was in the car, looked at the embrace of the two survivors, and cried out excitedly.

Qin Yuan whispered in Du Bingbing's ear:

"Bingbing, thank you, thank you for saving us with your wisdom and bravery regardless of the consequences."

Du Bingbing also whispered:

"We have also experienced life and death together, and now we are a life-long friendship."

At this moment, the quiet atmosphere was suddenly broken by the sound of a car horn.

Qin Yuan sent hands embracing Du Bingbing, and turned to look at the approaching vehicle. Now the three of them are already frightened, and they are afraid that it will be Effiete's people who are chasing after them at this time.

Qin Yuan picked up the pistol hidden in his trouser pocket with one hand, and held Du Bingbing's arm with the other to protect Du Bingbing behind him. I thought to myself, if it is Effiete's people, I am ready to confront them head-on.

When the approaching vehicle saw the three people in a state of distress, it slammed on the brakes and stopped.

Soon, a man in his thirties who was dressed in black came out of the car.

Qin Yuan asked vigilantly:

"who are you?"

The man in black said:

"I'm Fan Tianlei. Chief of Staff Fan asked me to come and help you dismantle the bomb. How are you doing now? Has the bomb been activated? You'd better go away and leave it to me if you have anything to do."

He Chenguang, who had experienced so many things just now, saw this bomb disposal expert who arrived belatedly, and became angry. So he rushed out of the car angrily and said:

"Are you here now? Are you ashamed to ask us what's going on now? Let me tell you, if it weren't for Dr. Du Jun's calm and wise, we would have been dead for a long time. If we didn't tell you to come over and dismantle the bomb for me, even Help us collect the corpses, you can't even do it, and you still have the nerve to ask around. I really convinced you."

The bomb disposal expert who had just arrived was scolded by He Chenguang, and he was a little bit at a loss, and panicked all of a sudden.

Although Qin Yuan was somewhat dissatisfied with this matter in his heart at this time, he did not say it out loud and believed that the bomb disposal expert should not be blamed for this matter. This is all reasonable arrangement of Fan Tianlei's characters.

So, Qin Yuan also calmed down, and said to the bomb disposal expert:

"It's like this, the bomb on this vehicle was activated remotely when you didn't come just now. We only took five minutes to see it, and it took about ten minutes to see your itinerary on the map.

We can't just sit and wait for death, so we will find a way to defuse this bomb by ourselves.

Come and take a look, the specific structure of this bomb. "

While talking, Qin Yuan dragged the bomb disposal expert to the front of the vehicle, ready to show him the structure of the bomb.

"There are three wires attached to this bomb, one red, one blue and one white.

The first time we cut off a white one, we didn't expect that the time would drop very quickly and speed up. The second cut is a red one, and time stops.

Although we have also received training on bomb disposal before, we specialize in the art, after all, we cannot compare with professionals like you. So please come and see what's going on. "

After Qin Yuan reported the general situation to the bomb disposal expert, the bomb disposal expert drove up to the bomb, studied it carefully, and then said in surprise:

"Oh my God! How could this be? You guys really escaped death!"

Qin Yuan hurried to the bomb disposal expert and said:

"What's up buddy? What happened? Is there something wrong?"

Bomb disposal expert says:

"You guys are lucky, but if you mistakenly cut a thread, it could explode."

When He Chenguang heard this, he hurriedly said to Du Bingbing:

"Bingbing, you are so lucky. I would say that you are my goddess of luck. With you, we can complete the task so smoothly. If it weren't for you, we might have already been wiped out."

At this moment, Qin Yuan received a call from Fan Tianlei.

Qin Yuan directed all his anger on Fan Tianlei.

"Why are you calling us? Do you want to see if we are dead or not? I was really cheated by you. I called you for help. I just wanted you to quickly shoot a bomb disposal expert to help us. Didn't we let us? It is correct to guess randomly here to take a thread.

As a result, your bomb disposal expert came so late, everything was settled, she was late, if we were not lucky, you would not be able to find me now, let alone have no way to talk to me, you I can't even see my body, we have already been bombed to pieces. "

After Fan Tianlei on the phone heard this, he felt a little uncomfortable, but he couldn't continue to refute Qin Yuan like this.

Therefore, Fan Tianlei could only say nothing, and acquiesced that it was indeed a mistake in his work.

At this time, Fan Tianlei said on the phone:

"How do you feel now? Is it better? The bomb disposal experts should have arrived, right? I admit that this matter was indeed my negligence at work, so don't be angry. Since everyone has narrowly escaped death, it's just a matter of death." Something to celebrate.

So you should be more emotionally stable now. If something comes back and gets angry with me, I will bear it. "

He Chenguang, listening to the voice on the phone should be Fan Tianlei, it snatched the phone and said:

"Raytheon, let me tell you this time, we have been on the verge of life and death for a long time. If it weren't for Dr. Du, who was so lucky to find the correct bomb disposal route for us, we would have been dead by now. up.

The most important thing now is that we should hurry back to the army.

The three of us are now in a state of distress and stink, and this car can no longer be driven. You need to send another car to pick us up quickly. "

At this moment, Fan Tianlei felt that he was also very guilty. No matter what kind of request they made, he would try his best to satisfy everyone.

"Okay, okay, I'll send the car now, don't worry. The bomb disposal experts have already arrived. I think this matter may not be that simple. Since there is a bomb installed on the vehicle, it is impossible for you to dismantle it so easily. Come on, quickly let this bomb disposal expert check it for you. See if there are any mistakes.

Although you are safe now, I am still worried. Because I think that in terms of Effiete's conspiracy, it will never be cracked by you so easily. "

After being reminded by Fan Tianlei, Qin Yuan realized that this matter had indeed progressed too smoothly. Since they had put so much effort into installing a bomb on this car, how could it be completely dismantled by him so easily? What?

So, Qin Yuan hung up, and hurriedly called the bomb disposal expert next to him.

"Brother, the more I think about it, the more something is wrong. Please help me to see what else is wrong with this bomb."

Qin Yuan's words also reminded the bomb disposal expert. So he hurried to the car to take out some bomb disposal tools, because he thought the bomb had been dismantled, so he didn't put on that professional bomb disposal suit for himself.

As expected, experts are experts. Professionals are different. This bomb disposal expert dismantled all the bombs. As soon as he opened the box of the bomb, he shouted:

"No, it really isn't that simple."

This bomb disposal expert has no regrets in his life. All three of them were shocked. They are all terrified now. Once they heard that there was a change, their heartbeats began to speed up again.

He Chenguang quickly asked:

"What's going on here? What happened? Is there something wrong?"

Pointing to the dismantled bomb box, the bomb disposal expert said to Qin Yuan:

"Come over and take a look. Things are really not that simple as you expected. This bomb is a mother bomb. What you just successfully dismantled is that there is a daughter bomb inside the mother bomb."

When Qin Yuan heard this, it was like a thunderbolt.

"Then what should we do now? Has the bomb been activated now, and do we still have a chance to escape again?"

The bomb disposal experts looked back at the bomb repeatedly. So he could only say calmly:

"As far as I know, as far as I know, as long as one of the bombs is dismantled, the other will definitely activate the protection system and explode within a certain period of time. According to what I know, the remaining bomb is basically No possibility of removal.

The reason why people set up mother-child bombs is because they are worried that it will not be safe enough after one of the bombs is dismantled, so they set up two bombs in this place. "

Du Bingbing asked the bomb disposal expert suspiciously:

"But we have just successfully dismantled one and found that the other didn't explode. What's the reason? If we didn't find it' we might not know that there are two bombs inside."

He Chenguang thought for a long time, and he replied:

"If there is still no explosion, there is only one possibility. They haven't found out that we have dismantled the bomb. Perhaps there is another possibility that they don't even know there is another bomb.

Because they may not be responsible for assembling this vehicle, they only know half of it and don't know everything. "

Qin Yuan said:

"Maybe they still don't know that another bomb has been dismantled, because this bomb is bound to a positioning system, because the positioning system has been successfully dismantled by me, so they have no way to know whether this bomb will explode or not. Being able to start remotely, he is not able to remotely control all of his current situations.

If I guessed correctly, then they just waited..."

Chapter 1855: important clue

He Chenguang didn't understand, he asked curiously:

"Wait? Effiete them? What are they waiting for?"

A slight smile appeared on the corner of Qin Yuan's mouth, and he said meaningfully:

"The next thing they are waiting for is the news that the vehicle exploded. Because they don't have an automatic automatic positioning system now, they have no way to determine when the vehicle will explode. Only from the news can they know whether the vehicle will explode.

This also left us time, and hurried to the car to find clues. As long as we find clues, there is no fear of whether they will activate the remaining bomb. "

Du Bingbing said:

"Then we have no way to determine where the clues are for a while, so what if we make a play?"

He Chenguang was confused, he looked at Du Bingbing suspiciously and asked:

"What drama?"

Before Du Bingbing could explain, Qin Yuan said:

"This won't work. What Bingbing means is that we make a fake news about a vehicle explosion and show it to Effie and the others. However, this method is absolutely not acceptable. Effie and the others are not fools, so there is no way to lie to them. This will cause trouble instead. To get a reaction, let them know that we still have secrets that cannot be penetrated by them."

He Chenguang smiled fondly and said:

"Dr. Du, you are really naive. But thank you for your suggestion."

Qin Yuan looked at the bomb disposal expert and said:

"Brother, you need your help to solve this matter together. Now we plan to search for clues on the vehicle before the enemy finds out, but we are worried that we don't know if there are other organs on this vehicle that can be triggered. The explosion of the bomb.

In this regard, you are a professional, and I will trouble you. "

The bomb disposal expert said with a smile:

"No problem, this is what I should do. However, hesitantly, time is running out and I haven't had time to introduce myself. My name is Wang Gang. Nice to meet you."

As soon as Qin Yuan heard Wang Gang's solemn self-introduction, he quickly extended his right hand and shook hands with Wang Gang.

"Hi, I'm Qin Yuan. These two are my comrade-in-arms He Chenguang and our new military doctor Du Bingbing."

Wang Gang smiled and said:

"Since this is the case, it's not too late. Let's hurry up and search for clues."

Qin Yuan suddenly remembered an important matter, so he grabbed Wang Gang with one hand.

Wang Gang looked at Qin Yuan suspiciously, and said:

"What's wrong? What's the matter?"

"When the first bomb was activated just now, we suspected that there were bomb detonators ambush under the driver's cab and the co-pilot's seat, and worried that we would touch the bomb together, so Dr. Du helped us cut the safety wire of the bomb.

Just right, you can help us see if there is a bomb switch under this vehicle. And you have to be careful for a while. Effie and the others are full of tricks, and they really don't know what bad ideas they will come up with. "

Wang Gang patted Qin Yuan's shoulder with his hand and said:

"Don't worry, I just thought of this point, thank you for reminding me."

After speaking, Wang Gang walked towards the vehicle, ready to dismantle the vehicle and see the specific structure of the bomb.

Du Bingbing and He Chenguang who were standing next to them felt that they couldn't help at this moment, so they quickly helped to watch the remaining bombs, in case when the bombs were suddenly activated, no one would know.

At this time, Qin Yuan received another call from Fan Tianlei.

"Qin Yuan, what's the situation over there? We have successfully sent Professor Fang De to rest here. He should be fine. After a short rest, you will be fine. It seems that your task has been completed very well.

Everyone in your group is a hero. When you come back, I must reward you well! "

Qin Yuan's mood has calmed down a lot now. He calmly said to Fan Tianlei:

"That's good. By the way, how are the two boys Chen Jixiang and Li Zheng? Are they injured? Let the military doctor check them too."

"The two of them are fine, now that they have completed the task for the first time, the two boys are so excited that they are almost rolling around in excitement now.

The two of them are also very worried about you now, and don't know what's going on with you. They're right next to me, two little brats worrying about you. You kid can do it, you have a strong ability to lead a team, and you bought these two brats so quickly.

When they came back, they told me that they planned to follow you in the future, but Gong Jian didn't know about it yet. If you want these two boys, you can tell Gong Jian in person when you come back. "

Qin Yuan could hear from Fan Tianlei's words that Fan Tianlei was still brooding about what happened just now, and he felt a little guilty in his heart, that's why he was so polite to Qin Yuan.

Qin Yuan thought about it calmly for a while, and felt that these things should be something later, and he had to report to Fan Tianlei about the letter bomb found on the vehicle.

"Thor, there is something I need to report to you immediately."

"What's the matter? Tell me, if there is anything I can solve, I will help you solve it. I promise that this time I will never lose the chain at a critical moment again."

Qin Yuan looked at Wang Gang who was checking the structure of the bomb near the vehicle at this moment, so he said to Fan Tianlei:

"Thor, I have something to report to you."

"whats the matter?"

"It really developed according to the direction you said. There is indeed another bomb on this vehicle. The bomb disposal experts just said that this is a parent bomb, and once the mother bomb is dismantled, then if the child bomb is activated, there is no possibility of dismantling it."

Fan Tianlei paused for a while and said:

"Damn it, did I open my mouth? I even hit the mark. So what are you waiting for now? Why don't you get out quickly and wait to be bombed?"

"It's not that we don't come out, it's because there must be important clues in this vehicle now, and Effiete and the others don't know that this bomb is a combination of bombs and bombs. So we want to use this time difference to find some clues in this vehicle, if not If I find any clues, I will never give up."

Although Fan Tianlei knew that it was dangerous to do so, and he didn't want Qin Yuan to take He Chenguang and Du Bingbing to take risks, but he also knew Qin Yuan's personality very well in his heart, and he would never give up unless he found some clues. I can't persuade myself.

Therefore, Fan Tianlei had no choice but to say:

"I know that I can't dissuade you from your character, but I still want to write a few words, safety first, understand? No matter what happens, human life should be put first.

Since I have given you full power to deal with this matter, all you need to do is to deal with everything so far. If you need my help, just say it. "

Qin Yuan looked at the surrounding environment and said:

"You don't need to do anything for the time being, we can take care of everything here."

"It's better to let Dr. Du come back first. I'll send someone to pick her up. You won't need her to find evidence now. It's better to let him come back first."

Du Bingbing heard Fan Tianlei's order on the phone, she quickly refused and said:

"No, I don't want to go back first. I want to stay here with them. Although I am not needed here for the time being, we are teammates who advance and retreat together. No matter what happens, we must stick together. Until the task is completed Let's go back together again."

Listening to Du Bingbing's words, Fan Tianlei muttered in his heart.

"Is this little \*\*\*\* her head in love? Now there is no such thing as life and death. It's as if she will never see her again in this life."

So Fan Tianlei never brought up the matter of letting Du Bingbing come back first.

At this time, Qin Yuan saw Wang Gang, a bomb disposal expert who was inspecting the vehicle, looking at him as if he had something to say. So he hurriedly said to Fan Tianlei:

"I still have something to do here, you hang up the phone first."

Before Fan Tianlei could react, Qin Yuan hung up the phone. He hurried to Wang Gang and asked:

"What's the matter? Did something happen? I look at your expression in a weird way."

Wang Gang pointed to the cab and said:

"Look for yourself. I don't know whether you are smart or lucky. There is indeed a weight sensor under the seat."

He Chenguang walked over and said curiously:

"Weight sensor? This is."

"This weight sensor is one of the bomb's detonation systems. As you expected, this sensor is connected to the bomb. Once the bomb is activated, the weight sensor will change a little bit, and you will be useless. ."

He Chenguang was listening to all this, and the feeling of fear almost made him pee his pants.  
Called out:

"His grandma, this is really the feeling of escaping death. This time I will treat it as a new life, and I will go back to eat, drink and have fun."

Du Bingbing interrupted He Chenguang and said:

"Don't think about so many messy things, let's do more meaningful things while the bomb is not exploding. Don't waste any more time here. It is very dangerous for us to stay here for one more minute. "

Wang Gang also said:

"This beauty is right. The explosion mechanism of this bomb is still unclear. We are in a dangerous situation all the time."

This bomb disposal expert, Wang Gang, was busy while talking. I quickly removed all the two seats in the driver's cab.

The moment the chair was taken out, Qin Yuan saw something important inside a small black box.

His gut told him this was the secret clue they were looking for.

Without thinking, Qin Yuan reached for the mysterious small black box, but Wang Gang next to him grabbed him and stopped him.

"what are you doing?"

"I looked at this black box with a little mystery. I believe there should be some other things inside. I think it should be the clue we are looking for, so I didn't think so much, just wanted to reach out and touch it."

Wang Gang shook his head and said:

"You usually seem to be a calm and calm thinker with a clear logic. I didn't expect you to reach out so easily when you encounter such impulsive and dangerous things?"

Do you know that the entire vehicle is in a very dangerous situation now, as long as you gently stretch your hand aside, an explosion may occur at any time.

I don't know which mysterious place they bound the bomb mechanism, so we must be careful so that the Wannian Ship must not act rashly. "

Only then did Qin Yuan realize how dangerous his behavior was just now, so he quickly admitted his mistake.

"I'm really sorry, buddy, I was too impulsive just now. I just think there must be a reason for this mysterious box to be placed here, so I would like to trouble you to help me see if there is any mechanism bound to it. Help me take out this box intact, I believe there should be what we want, after all, my intuition tells me so."

After Wang Gang heard this, he quickly looked around the black box to see if there was any mechanism bound to it, because everyone's nerves are in a tense state now, for fear that any one of them will touch the mechanism if they make a mistake. , but everyone's life is bound to this.

Wang Gang looked at the surrounding environment, so he said to everyone:

"I'm starting to observe this mechanism now. You try to stay as far away as possible. If something happens, I don't want to hurt you."

Qin Yuan subconsciously protected Du Bingbing behind him, and He Chenguang beside him couldn't help but roll his eyes and look at them.

Du Bingbing said to Wang Gang:

"Do you wear some protective clothing? When it's so dangerous, do you go into battle like this?"

Wang Gang smiled and said:

"What kind of protective clothing do you wear? You really don't understand the work of bomb disposal experts. Our work is either safe and useless if you wear it, or your body is smashed to pieces. It is useless to wear it.

So, I have looked away a long time ago, and I am bearish about life and death, so I have to do this. "

What Wang Gang said caught Qin Yuan and Du Bingbing by surprise ' It seemed calm, but although these words sound humorous, they are more or less full of Feel a little helpless, after all, since you have chosen this profession, you should face it calmly. It's all about serving the country.

At this time several people were ready, Wang Gang carefully picked up the box and observed it carefully. You can see several mysterious lines connected to the black box.

"Sure enough, I'm right. This is not a simple box. There is really a bomb attached to it. It will explode if you move it casually."

Qin Yuan really couldn't help complaining.

"This Effie is too bold and reckless. There are so many flammable and explosive items in the car. What's the difference between this and riding a bomb every day? It's really a life of licking blood with the tip of a knife. Is my life dead? ?

What kind of belief do they have to persevere. "

Chapter 1856: Complete tasks and get promoted

While Qin Yuan was thinking, Wang Gang, a bomb disposal expert, had already taken the mysterious black box out of the car very quickly by virtue of his extraordinary professional skills.

Du Bingbing smiled and clapped his hands and said:

"You are amazing. You took down this box so quickly. It's amazing. I have to learn this bomb disposal technique when I go back. It's really awesome!"

He Chenguang said with a smile:

"Dr. Du, you are so innocent and cute. Haven't you heard that there is a specialization in surgery? Do you still want to learn it? Do you know when they started learning it?"

It is not so easy to learn this thing, the learning we usually receive in the army is just a superficial learning. If you want to learn, it is really not easy!

And it takes a long time to learn before you can practice it! "

Qin Yuan glared at He Chenguang, thinking to himself, you steel straight man, maybe the little girl is just talking, you are still explaining here, no wonder people always don't like you, you really deserve it.

And what Qin Yuan was thinking in his heart was not only that you, Du Bingbing, want to learn bomb disposal, but when I go back to complete the mission and get merit points, I also have to use my one-key recovery system to master bomb disposal, which is a must in the military field. prepared skills.

So Qin Yuan said to He Chenguang:

"Put away your appearance of being a good teacher! People are just talking, but you should take it seriously."

He Chenguang also had a slightly embarrassed expression when he heard what Qin Yuan said. All he could do was make an awkward yet polite smile.

Qin Yuan saw that Wang Gang had completely taken out the black box. After confirming that it was basically safe, Qin Yuan walked to the bomb disposal expert Wang Gang and said:

"How is it? Now it's all right? Can you try to open it?"

Wang Gang took the box and observed it for a long time, and he is not sure whether it is really completely safe now. And it's not easy to open the box. Because the material of this box is made of aerospace materials, which is extremely hard. Can withstand high temperature and pressure.

Looking at Qin Yuan, Wang Gang sighed and said:

"Brother, to be honest, I have reached the blind spot of my knowledge now, and I'm not sure if there will be any wireless signal or something like this when it is turned on.

But I think, since it is so high-tech, you should be careful when sailing for thousands of years. I suggest you take this box back to the army and find a room that isolates all kinds of signals.

Moreover, this box has a password. I looked at it and it is about a six-digit password. Do you know how difficult it is to crack this password? Do you know how many combinations of these six-digit passwords are possible?

There are at least thousands of possibilities. It would be impossible for us to try to crack it here. So let's hurry back. "

Qin Yuan felt in his heart that this was both good news and bad news. But being able to find clues shows that the danger to life was not borne in vain.

So Qin Yuan said:

"Then let's take the time to see if there are any clues. If there are any clues, we will quickly take them back together, and then return to the army as soon as possible. We can't waste any more time here.

Staying another minute is at our peril.

Wang Gang, please help us to look again, I still don't feel relieved if I don't search the whole car. "

Bomb disposal expert Wang Gang also had the same thoughts as Qin Yuan, because now that he has reached this point, he cannot give up, and it is more reassuring to check it thoroughly.

Wang Gang nodded at Qin Yuan and said:

"Don't worry, I think so too, I've come to this point, I won't give up easily."

Therefore, all three of them acquiesced to this approach.

After a while, Fan Tianlei called again. Qin Yuan took out his mobile phone and saw that it was Fan Tianlei, his patience was almost exhausted. But there was no other way, after all, Fan Tianlei was his boss.

Qin Yuan had no choice but to answer the phone reluctantly, and said in an impatient tone:

"Hey! Why are you urging me endlessly? I don't know if it's dangerous now? I know it very well, but the task has not been completed, how can I go back willingly? We all agreed with what I did, who would not want to? If he stays here, I would have sent him back a long time ago, can you just stop calling over and over again?"

Unexpectedly, Gong Jian's voice came to mind on the phone.

"Why are you so impatient, it's me!"

Qin Yuan immediately stood upright on the spot. Because in Qin Yuan's heart, he respected Gong Jian unconditionally. So Qin Yuan quickly eased his tone and changed his impatient attitude just now and said:

"So it's the instructor Gong Jian? How is it? What instructions do you have? I'm busy here, I was a little anxious just now, don't be angry, don't be as knowledgeable as me, I am targeting Fan Tianlei, not you, you must Don't take it to heart."

Gong Jian sneered on the phone and said:

"How could I be mad at you with your knowledge? We've known each other for so long."

Qin Yuan breathed a sigh of relief and said:

"Haha, that's good, that's good. By the way, what do you want from me?"

"Fan Tianlei let me find you. Don't get excited. Chief of Staff Fan couldn't persuade you himself, so he entrusted me to call you to persuade you to come back. Why are you so disobedient? Do you know how dangerous it is now? When is this already? Are you kidding me about the mother bomb?"

Why are you so disobedient, kid? The words of Chief of Staff Fan are not easy to use, are they? It's all because of him getting used to you. He also said that if you listen to me, I will listen to Chief of Staff Fan. "

Qin Yuan was completely bewildered by Gong Jian's verbal output, and was at a loss, let alone how to refute. Qin Yuan has always regarded Gong Jian's words as the standard.

After hearing Gong Jian finished speaking like this, Qin Yuan immediately recalled what Gong Jian had just said in his mind. In fact, this is indeed the case. Gong Jian's level is lower than Fan Tianlei's, so Gong Jian should listen to Fan Tianlei's words.

However, although Qin Yuan's approach was a true thought in his heart, he actually put Gong Jian in it. In this way, Gong Jian is not easy to do by Fan Tianlei's side.

Qin Yuan thought that he still had to pay attention to some standards and take Fan Tianlei's thoughts into account when dealing with these issues in the future. So, Qin Yuan said on the phone:

"I'm sorry, Instructor Gong Jian, you know my personality. I didn't do these things on purpose. I just hit it off with you. So, I'll understand after you finish talking now, don't worry , I won't cause trouble for you, I will be careful when dealing with these things in the future.

Please tell Chief of Staff Fan Tianlei for me, I didn't intend to fight against him on purpose. I really didn't complete my mission, we are all comrades in arms, we have been together for so long, don't you guys understand me? I don't have that many complicated ideas. "

At this time, Gong Jian also eased his tone and said:

"We know, you should deal with it as soon as possible. Your two little followers can't wait any longer, and have already driven from the army to pick you up."

Upon hearing this, Qin Yuan quickly said in surprise:

"Ah? What the hell? The two of them came to pick us up? What are you doing to pick us up? Didn't you tell instructor Fan Tianlei just now that we are dangerous here? Why are you sending someone over now? Isn't this nonsense? Isn't it! "

"Who's messing around? I think you're messing around? I'm going to talk to you about it and not listen to it. You just want me to give you some tricks, right?"

Qin Yuan heard that familiar voice again from the phone, yes, it was from the person Qin Yuan was most afraid of receiving the call.

So, Qin Yuan hastily said helplessly, dumbfounded:

"My God, why is it you again, Thor, you are really haunted, I helped you save your teacher Professor Fang De back, don't you hurry to care about him, you are torturing me here What are you doing?"

With Fan Tianlei's fiery temper, he couldn't hide even a single secret in his heart, so he hurriedly said:

"I'm just impatient. To tell you the truth, I just discussed with Gong Jian. Your beloved instructor Gong Jian has agreed to take Li Zheng and Chen Jixiang as your followers. We still have a lot of things to do in the future." You have to do the task, and you will be their team leader in the future, and you will be promoted. How about it, be happy."

Qin Yuan was naturally happy to hear the good news. Although he didn't care much about these things, he could get a sense of accomplishment from it after all.

Qin Yuan suppressed the excitement in his heart, pretending to be calm and said:

"Thank you in advance, though."

"You kid is doing this again, if you have something to say, don't talk about it."

Qin Yuan glanced at He Chenguang and Du Bingbing who were beside him, as well as Wang Gang, a bomb disposal expert who was desperately inspecting vehicles with bombs for his own mission.

So Qin Yuan thought of something to pay attention to. He said:

"I'm very happy that you can reward me, but we are a team. There are so many of us. I can't just give me a reward. It's good for everyone. You can't be partial, everyone is the same. The value of life is the same, if you treat one more favorably than another and only reward me, then I will not be able to accept it."

Gong Jian laughed heartily on the phone:

"Okay, okay, I guess I read you right, boy, tell me, what kind of reward do you want to share with everyone, you have to know, we can't give you any financial benefits here, this is against organizational discipline ."

"Don't worry, you two cunning old foxes, I will never do anything that violates discipline. As for the rewards given by others, it depends on the organization. I can't ask for it."

Gong Jian said:

"Okay, let's talk about this matter after you come back safely and successfully. You can't just make a hasty decision like this. Besides, after so long, how is your task done? We just call The one who came here to urge you, why are you here to delay me, right?"

He Chenguang had been listening to the conversation on the phone, and he couldn't bear it anymore. So I laughed. To Du Bingbing said:

"Look, the two of them have been dragged around by Qin Yuan, and they still don't know it after being delayed for so long."

Fan Tianlei angrily reprimanded He Chenguang:

"Shut up for me, you boy, to show that you are capable. When you come back, let's see how I deal with you. This day will be messed up and slipped away. The little \*\*\*\*\* here, \*\*\*\*\* it, I'm so mad. "

He Chenguang heard Fan Tianlei scolding him loudly on the phone, so he quickly stopped laughing.

At this time, a car seemed to be coming from a distance. Du Bingbing was keenly aware of it, so he hurried to Qin Yuan's side and pushed his arm, saying:

"Look, there seems to be a car coming over there? Could it be Effiete and the others chasing it?"

Qin Yuan tiptoed, stood up, looked into the distance and said:

"Don't worry, our people should be here."

"Our people? What are our people doing here? It's so dangerous now."

"It's still Chen Jixiang and Li Zheng, these two boys, it's okay, I should finish the matter right away, don't worry, I will guarantee the safety of so many people in my own name, if they have I will not live if there are three long and two short."

After Qin Yuan finished speaking, he hung up the phone decisively. Then he said to himself:

"I also said that the two of them are not old foxes, and they couldn't persuade me no matter what they saw, so they called Chen Jixiang and Li Zheng over. This is also threatening me, okay, I think it's about the same. Wang Gang, How is your inspection going? Are there any other clues."

Qin Yuan watched Wang Gang crazily busy beside him, and at the same time carefully checked the surrounding environment himself.

Holding a bunch of keys on Wang Gang's mobile phone, he shook it in front of Qin Yuan's eyes.

"What kind of key is this? Did you just find it in the car? Where did you find it?"

"I found it just under the passenger seat' You are really lucky. Fortunately, the two of you sitting in front didn't move. There are both under the driver's seat and the passenger's seat. The weight sensor, that is to say, if either of you two moves around, it may touch the explosion of the bomb.

But this bunch of keys doesn't seem to have anything to do with the mechanism inside the car. It should be because I don't know who put it on the bottom or what fell on the bottom may not be important, but it was accidentally dropped here. Are you going to take it back? Just leave it here. "

Qin Yuan immediately stopped Wang Gang's behavior and took the key into his hands.

"Since you have found it, don't throw it here. After all, it is a clue we collected. Whether it is useful or not, let's take it back first. In case it is really useful or some important clue. We Wouldn't it be a waste of our time to just leave it here?"

At this time, Chen Jixiang and Li Zheng had already driven to their vicinity.

Chapter 1857: high speed shootout

These two boys, when they got out of the car and saw Qin Yuan, they ran over quickly, ran to Qin Yuan's side and cared, and asked:

"Brother Qin Yuan, we came here to look for you. Now, are you injured? The two of us were so worried about you on the way back. We couldn't help but drove over to look for you."

Qin Yuan just wanted to speak out to blame. Chen Jixiang quickly said:

"Don't blame us. Our actions were approved by Chief of Staff Fan Tianlei and instructor Gong Jian. Don't worry, we are not afraid of bombs."

Upon hearing this, Qin Yuan stretched out his hand and patted Chen Jixiang's head, saying:

"You two boys, you are really not afraid of death, so you just ran over to find me. I think you all fell into Fan Tianlei's scheme. He was afraid that I would not go back, so he deliberately let you two come here."

Li Zheng smiled and said:

"We know, we are really worried about you, so we came here to see what's going on. Besides, we need to send you a car anyway, and there are not enough cars. Instead of letting someone else send it over, it's better for us Send the car over, if there is anything I can help you solve. Hehe."

Seeing the sincerity and kindness of these two boys, Qin Yuan couldn't bear to reprimand them too much, so he had no choice but to solve the matter here quickly to ensure everyone's safety.

Qin Yuan walked to bomb disposal expert Wang Gang and said:

Li Zheng realized the slowness of the matter as soon as he got up. Quickly said:

Shen Weidong also said outside the phone:

"It's him! It's him! You know that it's all their conspiracy outside, and it's more of their plan. Didn't you expect that he is also our internal agent, bad and bad, and you are talking nonsense to them , Just outside there today, kill them all. Only then can the hatred in your heart be dispelled.

"The sound of no car, maybe we are chasing Chen Jixiang. Hurry up and get out of the car, don't waste time there. Slow down!"

Even if Lao Tzu loses someone and gets killed by the organization, he will drag them to die together, don't think bad of anyone! "

Shen Wei felt that bullets were coming from the front, could it be that our bullets really haven't run out yet? At that time, outside the car in front, Chen Jixiang, who was sitting in the co-pilot, yelled at Li Zheng:

Li Zheng knew in his heart that although both Fan Tianlei and Wang Gang were able to drive, we are all new recruits after all, so we don't have such advanced driving skills. I have obtained world-class driving skills through the system, so I turned to the two of us and said:

"That time, there were really no clues. Don't worry. In fact, there is definitely no condition that you can't take that car back to the army. After dismantling and researching it, you think there are not many exquisite things on the outside of the car, but the news Said there was so little time to completely disassemble it."

During the low-speed driving of the two vehicles, no one can concentrate on which car is the key. The two people are still driving at low speed, speeding down the road.

From the corner of his eye, Li Zheng couldn't see that Fan Tianlei's face seemed to be full of disappointment. However, do you have time to comfort me now? We can only wait until we go back if the situation is tight.

And what the eyes see now must not be reality. Now we can only see the outside of our hands, and there are not many pistols. Judging from the style of the pistol, we still have a lot of bullets.

It should be that you send him the location again. He should be able to see the current situation and specific location of your vehicle clearly. "

Wang Gang turned around and shook his head at Qin Yuan, saying:

You see, he should be more calm. After all, you are at a disadvantage now, and you know when your rescue will come. If we are sure that we will die with you, you want to die with us. "

So everyone hurried back to the car.

Shen Wei shook her head and said:

"If you don't mean anything, do you have so few bullets on your side for the time being, and you only have a spare magazine on your side, and it's a long-term solution for you to fight with me like that down the road. They quickly called Du Bingbing and asked me to send a pair of people over to meet you."

Xiaoxiang app search "Spring gift" new users get 500 book coins, old users get 200 book coins]  
Wang Gang said at that time:

The huge impact force brought by the bullets traveling at low speed turned the vehicle into an S-shaped turn immediately. The few people outside the car were terrified by the situation. Shen Wei was normally calm, and I also took out my gun and opened the car window to hit the windshield of Chen Jixiang and our car in front.

"It's also a way for you to stalemate like that. You know that we don't have any spare magazines outside the car. If you just go down the road with us and shoot at us while driving at a low speed, I'm afraid you will also support it. How long has it been?"

"What's convenient, I'll send someone over right now, I'm sure he still wants you guys to stay alive. I didn't expect the bomb to explode, but we were chased by Shen Weidong instead.

But you can see it, it is said that there will be no landmines and bombs under our car, that is actually what Shen Wei wants to face the most. If we are sure that there are no landmines or bombs under our car, no matter how many rescue troops come, they will all be buried there with me.

"The two of them called and asked when our rescue would arrive. Why did Shen Weidong always lose the chain at critical moments? Could it be reliable?"

Shen Weidong immediately recognized the doctor who Shen Weidong entered the hospital in person, so I said angrily:

"They go first, you cover them in front, slow down!"

Li Zheng was avoiding the bullets in front of him while driving. I still don't seem to feel that Chen Jixiang has not fallen into a state of madness at this moment. At that time, I was planning to chase Professor Fang De back.

At that time Fan Tianlei said:

"Shut up, shut up, don't come up with any bad ideas, he still wants to take the car back, there is no bomb under the car that can't be dismantled, that's for taking safety items back to the army, are they all Want a head? How dare he say it, I, Li Zheng, can really do that."

"Damn it, it really is that group of them who stole my car. They are the ones who stole my car. You really hunt geese every day, and today you were pecked by geese. Don't run away if they don't have the skills! Get in the car Come and fight Lao Tzu one-on-one, if he loses, he will return this \*\*\*\* professor to you."

"It's too bad you didn't plan to drive it for a while. That car is not a discounted bulletproof car. At first, you thought that the bulletproof car was too small, and it would be able to withstand bullets, but now the facts Proven armored vehicles are still pretty useless."

"Is he crazy? He's going to die. Does he know it's safe now? He's still sticking his head out. We hate that we have to kill each of you. He's the one who sent him down. Is he stupid?"

Qin Yuan was also not firm in Shen Weidong's command, he slammed the accelerator and rushed in the direction of the troops.

Shen Wei heard Shen Weidong's humorous language, and couldn't help laughing out loud, saying:

And based on Li Zheng's world-class low-level driving skills, we haven't successfully avoided the bullets fired from outside our car by Chen Jixiang.

Just hit the front trunk of the car with one shot. I thought that our car only slightly changed the trajectory of the form, and there was not much damage.

A slow turn and elegant U-turn, the speed of the opposite car is also very slow. Very slowly, Shen Wei caught up with our two cars. As expected, it was Chen Jixiang our car. So, Li Zheng yelled at Shen Wei:

"You don't have a map below to see where their vehicles are moving, but he said that the positioning system Chen Jixiang has not been dismantled, and how did we find them?"

After Li Zheng asked, he realized that he secretly gave Wang Gang's gun, and Fan Tianlei knew about it. The boss let Fan Tianlei know that it is a pleasure to be close to each other, and he would think that he favors one person than another, which shows that he is trusted.

"Now, you drive, the two of them are sitting in front of you, Xiaojia is wearing a dangerous belt. Fan Tianlei, Wang Gang, are there any guns under the two of them?"

Effiete hurriedly interrupted Shen Wei's words and said:

When things got to that point, I didn't have to think about the way to burn the boat. In case the other party really wanted to die with me, I had to come up with a surefire plan.

"It's meaningless to worry about that now. We're going to chase you down right now. Let's talk about the rest when you return to the army. Hurry up and send someone to you right away. long time."

Li Zhenggang turned around to tell Shen Weidong that everyone should get off the car. I thought that at that time, there seemed to be the sound of a car coming from nearby.

Li Zheng seemed really not moved by what Shen Wei said. However, there is no bomb under the vehicle now, so I can only give up temporarily. Let's save that matter until later, since we have no clues now, let's go back to the army first.

After finishing speaking, He Chenguang and Li Zheng looked at the situation ahead from the rear view mirror. I made a rough guess that there were not many people in front and there were not many weapons outside.

Chen Jixiang, we are really good people, since we can do so few things that violate laws and disciplines, if we don't have a lot of real skills, even though we put Professor Fang De back when we were out of our minds that time and stole our car, but we're definitely going to let it go.

"Is there! When you leave the gun he gave you, you will hand it over to Chief of Staff Du Bingbing. You think that since you have not completed the mission and returned to the army, you should continue to hold such advanced weapons. So Hand it over to the leader as soon as you get back."

While driving the car to avoid the bullets from Chen Jixiang and us, Shen Wei said to the phone slowly:

Thinking of McPhet's gun, it hit the front of the trunk of Li Zheng's car as soon as it went up.

"Bad, you are not a suggestion. Now there are really no other clues out there, so you can go back worryingly. If you really don't have time to continue, you can find a way to study the car. It would be too bad to be able to bring it back. It was made in country d. They have seen or heard of it, the manufacturing technology of country d.

Li Zheng said helplessly:

Li Zheng was thinking about that terrible thing while thinking about it, and I asked impatiently:

In particular, the industrial manufacturing industry is simply not a top existence in the world. There are not many things that look complicated on the outside of the vehicle, but are actually technically simple. You go in and take it home to study it. "

And when the scolding was over, Chen Jixiang took out a pistol from the car, and hit He Chenguang on the head. Unfortunately, He Chenguang's reaction was slow enough, and he immediately saw Chen Jixiang's movements and put his hair back in time. When he came back, did he pass that job, or was it enough for He Chenguang?

Occasionally, I look at him as calm and calm, but I think of how he is so excited when encountering things, even more impulsive than you.

Chen Jixiang probably didn't want to die with us now, even if he ran out of bullets, he would kill us.

And when Li Zheng returned, He Chenguang opened the window and laughed:

At that time, Shen Weidong opened the car window again and shouted towards the front:

"His eldest son... In fact, he is really too obedient when he doesn't have it' He is really, hey, what's wrong with him?"

"How? Are there any other clues?"

"Hey Thor! It's broken now. You are being chased by Chen Jixiang. We are chasing you in a car. If it is convenient to go to their side, I will immediately send a pair of people to meet you. There are not too few spare bullets and we are in a stalemate like that, and the other party knows that we have prepared a few bullets, and if you insist on it for a long time, I am afraid it will be useless."

Li Zheng looked at his driving instrument and saw that there was no problem with any part of the vehicle. What's worse, all the other parts I missed were all inserted. It's just that the most important thing now is not the bullets left in his hand, but the lack of bullets left. .

"Competing with him? Does he treat you as eight-year-old children? Are you in the mood to talk to him? Is he ashamed and there is no way to get a job?"

Shen Wei thought for a while, and felt that what I said was very unreasonable, so she hurriedly said to the two of us:

Shen Wei subconsciously sat in the cab of the car Fan Tianlei drove over. He Chenguang was sitting in the co-pilot, Fan Tianlei and Wang Gang were in front, and Effiete had to sit with Qin Yuan outside the other car.

"Your rescue is coming soon. It's meaningless for him to chase you like that now. It will only put them in a smaller crisis. I'm sure your rescue force will be surrounded when they arrive. I'm sure they Now I still want to leave there, but now I want to chase you again."

Li Zheng saw He Chenguang, opened the car window and shouted at Ai Fei and our car, and I quickly stopped Shen Weidong's behavior.

It was too late, and Xiaojia wasted a lot of time, so Fan Tianlei quickly took out his phone and called Du Bingbing:

Chapter 1858: 1 Unusual Du Bingbing

At the critical moment, there was a sound of car horns in the distance. It seemed that Effiete and the others should have realized that rescuers from Qin Yuan's troops were already in place.

At this time, Effiete did not continue to pursue Qin Yuan and the others, but slammed on the brakes and stopped suddenly. Qin Yuan didn't have too many bullets here, so he didn't plan to go back to chase Effiete.

Du Bingbing, the co-pilot, looked at the situation and thought that they were already in the upper hand. He was curious why Qin Yuan didn't continue to chase, so Du Bingbing asked:

"Qin Yuan, why don't we continue to chase? Our rescue has arrived, so let's hurry up and chase him! Don't let them run away. Maybe they have more clues there! Isn't it very convenient for us to get clues from them after we captured Effiete?"

Qin Yuan smiled slightly and said:

"Don't chase after the poor, and even if Effiete knows a lot of things, he is not from country H after all. What reason does our army have to arrest him? This will undoubtedly give other countries a handle. We can't do it for no reason. provoke such a war."

The two people are right in front of you and me answering each other's questions. Chen Jixiang and Li Zheng in the back also listened quietly, intending to learn some useful knowledge from Qin Yuan.

In this world, a car slammed on the brakes and stopped in front of Qin Yuan and the others.

Qin Yuan watched a familiar figure come out of the car from the cab.

It was Chief of Staff Fan Tianlei who came out of the opposite car. He walked slowly to the side of Qin Yuan's car door. Qin Yuan had already seen clearly that it was him, but he didn't open the car door on purpose.

Fan Tianlei sighed, turned his head and smiled into the distance and said:

"Hahaha, you're fine, you don't open the door when you see me." While speaking, he knocked on Qin Yuan's car door glass.

Du Bingbing, Chen Jixiang, and Li Zheng looked at Qin Yuan like this and suppressed a smile. Du Bingbing thought to himself that this Qin Yuan was really unusual. Knowing that Xiao Bing, although he has a little strength, treating a chief of staff like this is too presumptuous.

Qin Yuan waited for a while, and he took me to this degree in his heart. He knew that with Fan Tianlei's fiery temper, if he continued like this, Fan Tianlei would definitely lose his face.

So Qin Yuan slowly rolled down the window.

The moment the car window was opened, Fan Tianlei smelled the smell inside the car, and quickly covered his nose with one hand, while fanning his face with the other. Make a very painful expression.

Qin Yuan said with a look of disgust:

"What are you doing? Thor, is there poisonous gas in our car? You make such a painful expression."

Fan Tianlei covered his mouth, he didn't even want to open his mouth and said:

"You're wrong. You don't have poisonous gas in your car, do you have biochemical weapons? What smells so stinky, did you come out of a cesspit? The toilets in the army don't smell as strong as yours, do you know that? "

As he spoke, he poked his head and looked at Chen Jixiang and Li Zheng who were sitting behind the car.

"Are you two boys deaf? You can't even smell it, and you're still sitting in the car. I'm going to be vomited by Qin Yuan after a while. You two are really the unwavering Qin Yuan now." Supporters, those who hold stinky feet don't even know the smell is bad!"

Before Qin Yuan had time to refute, Du Bingbing, who was next to him, finally couldn't help it, and burst out laughing with a "puchi".

Seeing Du Bingbing's expression, everyone expressed surprise.

I have never seen Du Bingbing make such a big expression, let alone such a smile.

All the people present looked at Du Bingbing in surprise.

Du Bingbing smiled patronizingly, not paying too much attention to the strange differences in the eyes of these people looking at him.

Fan Tianlei thought that Du Bingbing was on a mission, maybe he was stimulated by something? Carefully asked:

"Military Doctor Du? What's wrong with you? Are you okay? Why are you laughing? Are you stimulated?"

Du Bingbing smiled and said:

"Hahahaha, I'm sorry, you really blamed Qin Yuan and the others this time. It wasn't their smell, but mine. When He Chenguang and I escaped from the hospital, we had nowhere to go, so we had to I chose to go to the basement to drill that underground passage.

You don't know how disgusting that underground passage is, what leftovers, rotten leaves, and waste oil. It's disgusting to have everything. "

Fan Tianlei refused to take the hand covering his mouth off his face, and said again and again:

"In the past, I might not have known how disgusting it was, but now by asking about the smell from you, I can tell how disgusting it must be. I can feel it just from the smell on you. If it weren't for me If you have strong concentration, I am afraid that you would have spit it out in disgust."

Du Bingbing could only smile and say:

"Oh, I'm sorry, Chief of Staff Fan. Please bear with me a little bit. I'll go back and take a shower soon. It's not that exaggerated."

Qin Yuan interrupted Fan Tianlei and said:

"Bingbing, you should be by his side, the closer the better, it would be better to kill him, otherwise these big leaders always think that what we little people do is so simple, they just know how to direct us to do things with their arms akimbo, really! "

Although Fan Tianlei is their leader, his character is not so easy to care about. He is always so tolerant and understanding of Qin Yuan's complaints. Sometimes his character is even a bit like a child.

He was very sensitive to gossip and heard Qin Yuan address Du Bingbing right away. So he smiled badly and said:

"Hey~~~ Bingbing, who is your name? Why did you change your name so quickly? It seems that a mission will help the relationship between the two of you so much? Yes, Qin Yuan , your kid has strong communication skills and the ability to buy people's hearts! Your relationship has improved so fast in such a fast time?

And these little brats sitting in the back, were you bribed so quickly? "

As soon as Fan Tianlei said this, Du Bingbing, who was present, immediately felt embarrassed and blushed. Qin Yuan didn't think too much about it, and didn't react at all.

Because, so far, in Qin Yuan's heart, Du Bingbing is just a good-looking comrade-in-arms colleague, there is no special relationship, and he will not have some thoughts about Du Bingbing like He Chenguang.

After Fan Tianlei finished speaking, he kept watching the reaction between Qin Yuan and Du Bingbing. Although he is a straight man, he can clearly see the relationship between young people from their expressions.

He saw Du Bingbing's shyness and embarrassment in his eyes, Fan Tianlei thought to himself, now someone is about to be disappointed. It is estimated that he could see that Du Bingbing's feelings for Qin Yuan had undergone some subtle changes.

Although Qin Yuan didn't have any special feelings for Du Bingbing, Qin Yuan had already felt Fan Tianlei's sarcasm just now. Things are not simple at this time.

So he quickly changed the subject and said:

"By the way, I have something important to ask you."

"What's the matter, your kid wants to change the subject."

Qin Yuan said with a serious expression:

"It's really serious. Don't change the subject. Why did you come to rescue us with the convoy? Do you have time? Professor Fang De, your teacher has just been successfully rescued, and you are not by his side. Come here like this, are you too worried about Professor Fang De's illness, or are you too worried about our ability?"

Fan Tianlei smiled and said:

"There's no need to worry about this matter, I have arranged it myself. And this matter should be credited to Military Doctor Du."

Du Bingbing, who was shy on the side, understood as soon as he heard that he was mentioned, and now is a good time to change the subject. So Du Bingbing quickly put away the shy expression just now and asked:

"So how can it be considered as my credit? It seems that I didn't come out for nothing. I even made meritorious service and was praised by the leader."

Fan Tianlei said:

"Military Doctor Du, don't be modest. Professor Fang De has very severe asthma. Qin Yuan came up with this bad idea to prescribe medicine to Professor Fang De. If it weren't for your superb medical skills, I'm afraid my teacher wouldn't." It was so easy, and after suffering so little, he was able to escape successfully.

I still have to thank you for this matter, Doctor Du, I will apply for an award with you when I return to the army. "

Before Fan Tianlei could finish speaking, he remembered the phone call.

He picked up his phone and saw that it was Gong Jian calling.

"Look, how much your beloved instructor Gong Jian cares about you, I just came out to play for a while, so I quickly called to ask."

Fan Tianlei answered the phone while talking again, and said:

"Hello? Gong Jian, what's the matter?"

"I see you have been out to meet Qin Yuan and the others for a while. How is it? What's the situation now? Tell me quickly. I'm really worried about these children. I'm so scared every day that I don't dare to give it to you rashly. Qin Yuan made a phone call, worried that he would have a gun battle with Effiete's people while driving. I don't know what happened to them?"

Qin Yuan heard the worry of Gong Jian's instructor from the phone, and his tone was very anxious. So he hurriedly shouted beside him:

"Thank you for the relationship with the instructor Gong Jian. We have successfully reunited now. Chief of Staff Fan Tianlei acted quickly and found us soon. Effiete's group saw that our rescue had arrived, and they fled in fear. .

But I don't know where He Chenguang and the others went. He Chenguang was in the same car with the bomb disposal expert Wang Gang who came to help us, not with us.

Chief of Staff Fan also saw no sign of them. "

Gong Jian said beside him:

"He Chenguang and Wang Gang don't have to worry, they have successfully returned to the army. Both of them are safe and have no symptoms of injury. Therefore, I am so worried about your situation now, I can't help it , I just thought of calling and asking."

Fan Tianlei said:

"Okay, okay, since it is said that everyone is safe, then we can rest assured. Okay, let's not talk about it, you should take care of He Chenguang and Wang Gang over there first, while there is nothing to do now. Let them go back and have a good rest after checking their bodies.

After working so hard for so long, everyone was exhausted. "

Gong Jian said on the phone:

"Ok, I see."

So I hung up the phone.

Fan Tianlei put the phone in his pocket, and said to Qin Yuan:

"Okay, this time I can see that your instructor Gong Jian cares more about you. Really, he is such a spoiled child. I am not like him. I am very strict with you.

Okay, let's stop talking nonsense. If you have anything to say, let's go back and talk about it, don't waste time here. "

After Fan Tianlei finished speaking, he turned around and was about to go out. Qin Yuan held Fan Tianlei's arm with his hand in the car.

"Wait a second Thor!"

"What's the matter? What kind of trouble is your kid going to make?"

"It's been so long just now, did you hear the sound of an explosion?"

"What's the sound of an explosion? Why is there an explosion sound? What's going on?"

Qin Yuan still couldn't let go of the vehicle made in country D that he stole from Effiete and the others. Although Wang Gang told Qin Yuan that there should be no valuable clues on the car, Qin Yuan still felt that the car was not that simple.

It seems impossible to disassemble such a complicated thing by relying on a few of them without professional tools.

So Qin Yuan, knowing that he said it, Fan Tianlei would say it again. He still talked about it.

"Thor, we have found some mysterious clues in the car we stole from Effiete and the others. Although we have almost turned over the car, I feel that there are still things we haven't observed. ."

Fan Tianlei sighed and said:

"So? Do you have any weird ideas for me to do?"

"I want to take that car back to the army for dismantling' But there is a bomb on that car, we can't act rashly."

Fan Tianlei widened his eyes and said:

"Are you crazy? Knowing that there is a bomb and telling me to take it back to the army, I really want to kick you to death."

Qin Yuan said:

"Don't get excited, didn't I see Effiete and the others chasing them all the way, and didn't react? We didn't hear the explosion, which means that Effiete and the others didn't know that there was a hidden car in this car." Mother bomb, otherwise they would have detonated long ago. They wouldn't have waited until now."

"We are in the army now. Do you know how much responsibility we need to bear if something happens? The military order is like a mountain! Let me tell you now, you should give up this idea for the time being. It is absolutely impossible. I can't take so many people. Your life is at risk. Don't talk about it, go back to the army first, this matter needs to be discussed in the long run."

After Fan Tianlei said these words seriously, he turned around and returned to his car.

Chapter 1859: back to the army

Qin Yuan saw Fan Tianlei's serious look, so he couldn't say anything more, so he just obeyed Fan Tianlei's words and drove to follow Fan Tianlei and the others to the direction of the army.

Qin Yuan was thinking about Effiete and the others while driving, all he had to do now was to concentrate on driving and hurry back to the army, which was the most important thing.

At this time, Du Bingbing looked at Qin Yuan feeling a little unhappy. There was no smile on his face, and the car was quiet. Chen Jixiang and Li Zheng knew that Qin Yuan was in a bad mood and a little unhappy, so they didn't dare to speak. Du Bingbing couldn't bear the silence now, so Du Bingbing said:

"Qin Yuan, what's the matter with you? Shouldn't it be a happy thing to complete the mission? It shouldn't be like this, everyone is very happy to return to the army, and they are very happy in their hearts. Look at you, the two people behind you None of them dared to speak."

Although Qin Yuan was in a bad mood, after hearing what Du Bingbing said, he also realized that something was wrong with his behavior, so he said:

"Sorry, I didn't target you on purpose, I just can't let go of Effiete's car in my heart."

Du Bingbing sighed, rolled his eyes and said:

"If you miss anything, it's all the bomb disposal expert Wang Gang's fault. Take a look at him. If he hadn't told you about this, you wouldn't be thinking about it like this. It's all his fault."

Seeing that the atmosphere and Qin Yuan's mood eased, Chen Jixiang said cautiously:

"What car? What's wrong?"

"You guys found a mysterious white box, which was connected to the bomb, but the bad thing was that the bomb disposal expert Xie Yan took it up. That's right, is there any way to open the box now, because I know there is nothing outside Strange thing, maybe it's just a smoke bomb, an empty box. Put it out here as a smoke bomb to confuse you."

It is impossible for everyone to be a candidate for a spy if they do not know the answer thoroughly, so they must be extremely cautious and cautious.

"Did they drive the car away? You can come out and say that you, Xie Yan, stole Chen Jixiang's car. I don't think there are any clues under Chen Jixiang's car. He just had the heart to give up that car and wanted to tear it apart. Check, yes! I want to take Chen Jixiang's car back."

Fan Tianlei quickly echoed in front and said:

"He should be worried, Master. There is absolutely no important clue. Since the box is so secretive and can be easily opened, there must be some important clue. Don't be discouraged."

Although An Ran looked at Li Zheng's expression, which made Xie Yanfen feel very comfortable, but He Chenguang and Li Zheng are just your colleagues, so what can you say. So he just said:

When Wang Gang heard that, he immediately stopped Fan Tianlei and said:

Li Zheng saw An Ran reaching out to shake hands with me, Li Zheng was so excited that he didn't know what to do, he rubbed his hands under his pants before he reached behind and shook An Ran's hand heavily and said:

An Ran's aura was too weak. When you asked a heavy rhetorical question, Li Zheng was sweating profusely. Li Zheng himself also wanted to understand, how could a pure man like himself, a man with strong bones, feel his bones brittle when he saw An Ran? When speaking, the donkey's lips match the horse's mouth. Xie Yanfen was sitting in front of the car, her eyes were rolling around, she thought for a while and said:

Just after finishing speaking, I saw the unfamiliar instructor Qin Yuan get up and walk to our car, and immediately came out of the office to greet us.

So Li Zheng stepped out of the car. When she saw Xie Yan, she immediately hugged her.

Qin Yuan smiled and pointed to Li Zheng's forehead and said:

He Chenguang stretched out his hands and opened the car door, looking inside and looking at a place he was unfamiliar with. I said sadly:

"Yes! Resolutely! Is he trying to harm Brother Li Zheng? When something happens, everything will be fine. What if nothing happens? This is the time. Are they both dead?"

Li Zheng then said:

"But just now Chief of Staff Fan said, yes, I mean, there is no bomb under the car? It is indeed dangerous to bring the car without bombs back to the army. Didn't they find some clues under the car?"

He Chenguang said next to him:

In this way, no matter what reasons you say, they are just words to comfort yourself.

"Why, have you been able to return to the army since you performed the mission? Do you still have to report to me when you come back?"

"Aoao, let me introduce to them, that is An Ran, who can be regarded as your comrade-in-arms, your missions all the time have been such relatively hidden missions, but it is convenient for me to tell you the specifics.

At that time, Qin Yuan just wanted to say something to Xie Yan, but was interrupted by Du Bingbing who came out.

An Ran also smiled softly and said:

"They are back. He knows that you have been worried about them all the way. It is right that they left. You have stopped worrying and worrying all the time, although he is not a veteran who has completed few tasks alone. , but after all, there are still two recruits with him, and he is not a big girl.

"Does it need to be said? Yes, it is a place to protect the people. You doubt that there is no place in the world that is more dangerous and has no sense of belonging. You have not been a soldier since you came there. A sense of honor and belief."

Li Zheng saw Qin Yuan coming out of the house, and I also felt that there was no very little comfort in my mind. I thought that I could run behind us in a detour when I saw us the first time.

Li Zheng thought to himself that although they are all his own people, after all, the Gong Jian I just met is still a stranger to me, and the most important thing now is whether the spies in our army have been caught or not.

Li Zheng hurriedly asked Xie Yanfen:

Xie Yan looked at Wang Gang outside the front-view mirror, looked at me and said:

Xie Yan was immersed in the joy and excitement of reuniting with instructor Xie Yan just now, when she suddenly saw An Ran who suddenly appeared behind her eyes, she was at a loss for what to do.

Fan Tianlei patted He Chenguang on the shoulder and said:

At that moment, I seemed to feel Du Bingbing's mood. Maybe it's because Xie Yanfen is too conservative as a leader, but I have to consider the danger of everyone when I don't.

At that time, a tall and graceful man with yellow hair came out of the house in a hurry, wearing a tight red skirt.

"Just like Master said, since the bomb outside the car has not exploded, it means that Xie Yanfen and we know that there is no bomb outside. Since Du Bingbing asked you to contact and bring the car back to the army, you can wait until the evening. When downloading, secretly go to disassemble it, then you will be aware of the ghost.

"Now you understand Du Bingbing's mood. In fact, maybe I didn't think about it so little when I didn't. I was just worried about you. If that's the case, then you are causing me trouble first." Well, let's talk about that matter when we go back, and in fact, there should be few or no clues to be found. When we go back, we should first crack the white box and see if there is nothing outside.

Li Zheng nodded while driving, and I quite agree with that statement. If there is a way, it can be regarded as the next best thing. It must be that the car can be transported back to the army in time.

"Gong Jian and Xie Yanfen, the two of us have not returned long ago, the two of us?"

The handsome man said with a smile, and hurriedly walked to Li Zheng's side, stretched out his left hand to Li Zheng's heel, and was about to shake Li Zheng's hand.

"You said his eldest son is good at driving, so you just go behind. He chased ahead for a while before catching up with Effiete. I'm afraid he hasn't gone back outside the house to lie down and take a shower."

His eldest son is really too worried, he doesn't want to be bad now, so hurry up and take a rest, let's talk about the rest before they finish their rest. "

Xie Yan is a real child, I said next to him:

"Does he know? You were really moved by what he said. Of course you know that he and Chief of Staff Xie Yanfen are concerned about your performance, but they also know your character. It is absolutely true that you have completed your mission. Will let it go.

If you are worried, it is also possible. And he is obedient, knowing that there is no bomb, no matter how much you can persuade him, he just wants to take advantage of his horns.

And when we sloppily observed the box, Evert's people hadn't chased after him, so the box is not out of our hands now, it should still be out of the hands of the bomb disposal expert Gong Jian.

"Well, you think what he said is very unreasonable, and the most important thing is that since the vehicle has not exploded for the seventh time, it means that maybe we know about the bomb at all. That's not to say.

At this very moment, He Chenguang's dirty and smelly body looked so embarrassing under An Ran's halo of beauty. You only want to stand tall, and even dare to look at An Ran.

"Hey boy? He doesn't have any strange ideas, let's talk about it. Eight cobblers, you are also bad. I'm brainstorming, just tell me if you don't have anything, and see if you can use Du Bingbing , figure out what to do."

Qin Yuan also hugged Li Zheng tightly, and I said excitedly:

"He's bad, Li Zheng, see you after a long time!"

"See you soon, An Ran."

Make sure there are really no worthless clues out there, and you can go research and bring that car back to the army. "

"They want to act privately again? You tell them that Du Bingbing is a vegetarian. Don't mess with me."

Li Zheng looked at Fan Tianlei and Wang Gang who were staring at me, so he quickly took his hands back and said:

Xie Yanfen was afraid that Li Zhengyou would not have the patience to explain to Fan Tianlei, so I said:

"Why did you let the two of us go to rest?"

Didn't you feel very anxious when he saw you calling him? Du Bingbing didn't persuade them that you called them because they were staying, but it worked when you thought of your words. It seems that you still underestimated your position in their hearts. "

When Li Zheng heard what Xie Yanfen said, his eyes lit up:

As for the matter of Chen Jixiang's car, you must also ask if there is anything you can do, so don't be depressed. "

Li Zheng patted Xie Yan on the back and said:

"It seems that the unfamiliar place gave you a better feeling. From then on, did you feel that there is nothing the same outside, it's just the place where you live and work. It's only since you went there that you know that the army is the place you are most familiar with. The place."

And they should also ask you that you would take so few lives as a joke, you must not be fully sure to do that, because outside of your heart, maybe you yourself are afraid of death at all, but you are very worried about others Human life is in danger.

When Wang Gang heard what He Chenguang said, I smiled and said:

That's right, the beautiful man with yellow hair who appeared at that time was exactly the male \*\*\*\*\* in Li Zheng's heart, An Ran.

The people present all looked at Li Zheng who didn't know what to do. Although a small number of people knew An Ran, Xiaojia could also tell from Li Zheng's performance that the man named An Ran was special. At least my relationship with Li Zheng is special.

"His eldest son is really worried about others. He has always been willing to take care of you 100%. Would you put such important things away from you? The first time Gong Jian and Effiete came to the army The two haven't handed over that important thing yet, and you haven't put it outside a secret room that isolates signals.

"The box you found under Chen Jixiang's car, did he see where it is?"

He Chenguang's words immediately broke the subtle intensity.

"Dr. Du, don't talk to him, let you speak."

By the way, is he always inside? Why are you back? Is there nothing wrong? "

A few people just talked outside the car while driving very slowly and returned to the army.

Moreover, Xiaowan, Chen Jixiang, even if we want to activate the bomb, we have to be awake. We have already gone to bed in the evening, so you must be relatively dangerous. "

Now that all of you are back unharmed, they should be worried. "

As soon as Effiete was mentioned, Li Zheng remembered this important thing, found the mysterious white box from outside Chen Jixiang's car. Since the box was taken out, it has been placed on the

The bullet expert Gong Jian is here.

When Li Zheng heard what Qin Yuan said, I felt relieved.

"Li Zheng, hurry up and introduce to you who is that beautiful boy? You all know each other."

Although Xie Yan is impulsive, she is still relatively cautious about that matter. I can't risk my life, but being able to bring Fan Tianlei with me can make me take the same risk for you.

The longer this vehicle is left here, the more dangerous that vehicle is. It must have passed a certain timeliness, and we may just take that matter to heart again. "

Li Zheng listened to Qin Yuan's complaints from beginning to end, and I knew that he didn't care what the other party said, and he was worried about his own performance, so now I'm not moved, and I don't always want to refute me like Xie Yanfen the opinion of.

Chapter 1860: finally sleep well

While Qin Yuan was thinking about what to say, Fan Tianlei walked out with He Chenguang. At this moment, He Chenguang had already taken a shower and changed into clean clothes.

He Chenguang excitedly walked to Qin Yuan's side and said:

"See if I'm moving fast? I've already changed my clothes, and they smell delicious. Look at your stinky body, how dare you see An Ran. I haven't seen you for so long. When we reunited, you looked like this, but It's really embarrassing in front of An Ran."

At this time, Du Bingbing raised his head and walked to Qin Yuan's side, and said coldly in a not-so-good tone:

"If there's nothing else, I'll go back first."

Before everyone could react, Du Bingbing had already stepped out of the crowd, and Du Bingbing had walked far away without looking back.

He Chenguang looked at Du Bingbing's behavior very puzzled.

"What's the matter? It was fine just now, why did it trigger some of her skills as soon as she returned to the army? How come turning her face is like turning a book, and she has changed back to her original cold look.

Hey~~~ At first, I thought that the relationship with Dr. Du had improved, but why did such a big change happen all of a sudden? Could it be that one of you messed with her? "

The boy Li Zheng was at a loss by the side, he said blankly:

"I don't know what's going on, but Dr. Du seems to be angry. No one provoked her. Maybe he has this character."

An Ran said next to him:

"This little girl has personality, I like it."

When Qin Yuan heard what An Ran said, he could only smile awkwardly, then looked at Fan Tianlei, and said in an accusing tone:

"I said Thor, what's the matter with you?"

Fan Tianlei asked knowingly and said:

"What's wrong with me?"

At this time, I eavesdropped on He Chenguang and said:

"What's wrong with you? Feel free to ask!"

Qin Yuan waited for the two people to take a look and then said:

"An Ran is back, why didn't you say it earlier?"

An Ran still looked at Du Bingbing who had gone away with a smile, and said casually:

"Qin Yuan, why should I be surprised when I come back? Besides, I came back quite suddenly this time. Besides, why did I tell you in advance? Do you have anything to prepare in advance? You also need to prepare a welcome for me. Is the ceremony not complete?"

Qin Yuan could only smile awkwardly and didn't speak.

At this time, Gong Jian looked at everyone and said:

"Okay, okay, since you've come back safely, don't just stand here anymore, everyone has worked  
\*\*\*\* this mission, so hurry up and go back to rest. Especially Qin Yuan, you worked hard this time.

You can bring my two boys back safe and sound, thank you, you did a good job. Go back and rest quickly, and most importantly, take a shower quickly. "

As soon as Gong Jian finished speaking and asked Qin Yuan to take a bath, everyone laughed and didn't speak.

Qin Yuan looked at An Ran and didn't want to damage his image, so he said quickly:

"It's not that I stink. It's He Chenguang and Dr. Du who got into the sewer and came out to contact me. That's why I'm so stinky."

An Ran covered her mouth with a smile and said:

"Okay, okay, I got it, let's go to rest."

After speaking, everyone dispersed one after another. What Qin Yuan wanted to do most at this moment was to go back and take a shower. That's true, he himself can't stand the pungent smell on his body anymore.

And apart from one mission, he feels exhausted now. What he knew more clearly in his heart was that it must not be easy for An Ran to come back suddenly this time. It seems that there may be some important clues. When everyone has rested, an important meeting will definitely be inevitable.

While thinking, Qin Yuan came to the bathroom. It was a rare time when he was alone. Now is the time to call out the system and see what new gains you have recently.

"System, come out."

"Ding Dong, hello host, long time no see, how can I serve you?"

"I have successfully completed the task you gave me, right? How about it? How much merit can you give me?"

"Ding dong, congratulations to the host for completing the task of rescuing Professor Fang De. The system rewards you with 50,000 merit points. May I ask if the host chooses to give priority to repaying the system credit merit points you borrowed?"

"Does that matter? Of course, you have to pay back your credit merits quickly. I don't feel good about what I owe you. Besides, if you don't pay back quickly, won't you let me use it?"

"Ding Dong, 20,000 system credit merit points have been repaid first for the host, the current credit merit value has been restored to 100,000 points, and the remaining merit value of the host is 30,000 points."

"Hey~ okay, but your credit merit points are still very useful. Although it is in this way, it has indeed helped me accomplish many important things. If there is no such system merit points, at critical moments, I must Blind."

"Ding Dong, congratulations to the host, complete the surprise mission, dismantle the bomb, and get 10,000 meritorious points from the system. The remaining meritorious value of the current host is 40,000 points."

Qin Yuan was very happy to hear this broadcast from the Dao system. This is simply a windfall! There are even systematic surprise missions.

"There are surprise missions? Is this a hidden mission? Why didn't you tell me? This is planning to give me a big surprise, right? You little thing, you have learned how to make surprises!"

"Ding dong, the system reminds the host that the recent system upgrade will provide some surprises for the host from time to time, box tasks, and the merits of the tasks are directly distributed in the form of blind boxes."

"What is the distribution in the form of a favor? That is to say, the merit value of each surprise task box is different. I understand it correctly."

"Ding dong, what the host said is very correct. Isn't it a surprise that the form of this task is like this, and you can also obtain different merit points through this different task."

"This form is good. You can get some extra merit points from other tasks, but how many merits do these different tasks have, can it only be that each one is different?"

"Ding dong, the merit value of the surprise mission is different from 100 merit points to 100,000 merit points. It is arranged according to the specific assignment of the task. If the host completes some difficult tasks with merit value, he will get the corresponding high-difficulty meritorious service value."

Through such an explanation of the system, Qin Yuan understood that it was obtained in this way.

Qin Yuan thought in his heart that it would be great if he could get the merit of the highest task. At this time, he has fully repaid the credit merit points, and obtained 10,000 other merit points through this surprise box.

After chatting with the system for a while, Qin Yuan had finished taking a bath.

At this time, he could finally lie on the bed quietly and think about what to do next.

The top priority at this time should be to find the spies inside them and know about my actions about the underground secret arms system from Effiete.

Now that the new mission has been completed, the next step is to start catching this spy from within. Qin Yuan knew in his heart that if he could not catch this spy for a day, it would affect their completion of the next mission.

It is equivalent to being stared at and monitored all the time. This feeling is really bad. If the spy inside them has been lurking for many years, it will be even more terrifying.

Qin Yuan will think that he knows nothing about this system and all other things now. If there is really a high-level internal person who is a spy from another country, it will be like a pair of scissors ruthlessly inserted into our system. on the heart.

Perhaps it was because he was too tired to finish the task these few days, and Qin Yuan fell asleep silently after a while. For so long, this was the first time he was able to lie on his own bed and sleep soundly. No one disturbed his sleep, and no one came to wake him up.

Unexpectedly, he just fell asleep like this, and didn't wake up until around 9:00 the next morning.

After Qin Yuan got up, he opened the curtains and looked at the bright sunshine outside. I thought in my heart that it would be great if I could live such a stable life every day.

But since God has bestowed on me the ability to recover the system with one click, he must not let this ability go to waste, because the greater the ability, the greater the responsibility.

At this time, the familiar voice of the mobile phone came back. Someone called and walked in. It was He Chenguang.

"You finally woke up. I wanted to call you all the time, but I was afraid of disturbing your sleep. Then Fan Tianlei and the others would criticize me again, so I held back until now before calling you."

Qin Yuan stretched his waist, lazily looking at the bright sunshine outside, he was in a good mood now, so he said slowly:

"I said, why are you so incapable of enjoying yourself? After all, we didn't have any other tasks for us. Let's just blow on the air conditioner in the house for a while, eat some snacks, have a good sleep, and enjoy the blue sky outside. Baiyun, isn't this bad?"

Since I had a good night's sleep last night, I've been yearning for such a life, and I even hope to be an ordinary person every day. Enjoy the sun and good food. "

As a result, He Chenguang's words interrupted Qin Yuan's fantasy.

"I see that you always think of things so simple and so beautiful, who wouldn't want to live such a life? But since we have come here and become a member here, we have the ability and responsibility to protect our country and people. safety of life and property."

Qin Yuan couldn't believe his ears. He didn't know when that Synthetic Light who was usually fooling around could say such righteous words.

"What's the matter with you? After you came back from a mission outside, you changed my nature? You also said that Du Bingbing, after coming back from outside, the whole person has changed. Let me see how you have become so righteous and awe-inspiring this time. , as if he would sacrifice his life for the country at any time."

He Chenguang hurriedly said on the other end of the phone:

"I agree with you saying that I am righteous, but you must not use the word "sacrifice for the country" to describe me. There are so many beautiful things in this world, there are delicious things, and there are so many beautiful beauties. I don't have any. Enjoyed it. I don't want to die for my country so soon and so young."

Qin Yuan heard him say that, so he laughed on the phone:

"Look at this, it's like what you said before you said something righteous and for the country and the people. It's very offensive to say it from your mouth. You should stop saying it in the future."

"Okay, you spoiled me again in the morning. I want to tell you something serious."

Qin Yuan drank a glass of warm water while picking up the water glass, and said vaguely:

"If you have business, don't hurry up and say that you gave me such an opportunity to come and hurt you. Tell me, what's the matter? I know that as soon as I open my eyes, there will be endless tasks and things to deal with."

"An Ran, by my side now, the two of us are together."

"Oh! Why is she with you? What's the matter with him looking for you so early? I knew that for so many years, he had been out on missions and came back suddenly. There must be something important."

He Chenguang glanced at An Ran beside him, and then said slowly:

"He wants to go to you first, but he is afraid that it will be very hard for you to come out for so long to complete the task. He wants you to have a space of his own. Now sleep well and talk about it after he has rested.

So he came to disturb me first, so that I didn't have a good sleep in the morning and could sleep. "

"Then what's the matter, let's talk about it now!"

An Ran snatched He Chenguang's phone from the side, and he said to Qin Yuan:

"I can't speak clearly on the phone, or let's find a place to meet now."

After hearing this, Qin Yuan thought for a while, turned his eyes around, and then said:

"Is there any secret thing that can't be told to others, or is known by others, so why not, you two come to my place first. My room is specially arranged by Fan Tianlei, and the sound insulation effect is not bad. There should be no eavesdropping, and there will be absolutely no such thing as a wall with ears.

I'm already up now, ' I'll go wash up first, you guys come over now, we'll talk about it when we meet. "

Qin Yuan heard that An Ran would come over soon, and after he hung up the phone, he rushed to the bathroom and started to give himself a comprehensive wash.

In a few minutes he had shaved and washed his hair, and he was a completely different person from yesterday. After he got ready on his side, he heard a knock on the door.

Qin Yuan thought it was okay, I was fast enough and ready, otherwise An Ran would definitely have a bad impression of me when she saw my slovenly appearance.

"come in."

So He Chenguang took An Ran into Qin Yuan's room. Unexpectedly, the caring person wanted to bring Qin Yuan a serving of warm soy milk and two deep-fried dough sticks.

"I know you haven't eaten in the morning, so let's eat something first."

Qin Yuan was very touched by the breakfast that An Ran handed over.
