

Special Soldier 1861

Chapter 1861: back secret

Then Qin Yuan looked at the breakfast in his hand, and thought in his heart, how could there be such a perfect girl as An Ran in this world? Such a good personality, such a good-looking appearance, and such a graceful figure.

He is so considerate to his friends.

Before Qin Yuan could speak, An Ran said:

"I knew you couldn't eat breakfast alone, and you must have been busy outside for so long, you must have not eaten well, so I bought so many delicious food from outside for you.

Oops, I haven't come back after going out for so long, I really miss the soy milk and fried dough sticks at the corner of my sister's street nearby, do you know? This is something I never had in the US. "

Qin Yuan saw that this was a wish from An Ran, so he quickly opened it and took a bite. While chewing the delicious fritters in his mouth, he said vaguely:

"It's delicious, it's really delicious. Thank you, An Ran, you can still think of me after coming back from a long distance. By the way, why did you come back this time? I think there must be something important, Otherwise, why did you come back so suddenly?"

After Qin Yuan finished speaking, An Ran just kept looking out of the window, and then said nothing, Qin Yuan seemed to realize that what he asked was a bit too direct, and An Ran was performing a secret mission outside, so it must be inconvenient for her to tell herself .

Then, Qin Yuan continued to say:

"Well, if you don't want to say it, you don't have to. Shouldn't I be so direct?"

An Ran, who was standing by the window looking at the scenery outside, turned around slowly, said with a smile:

"No, there's nothing inconvenient to say. Although I'm on a secret mission, I have a purpose for coming back. However, I won't tell you now. You will know it naturally when the time comes. Don't worry."

He Chenguang next to him said:

"Oh, let's not ask so many questions, it's embarrassing for An Ran."

The three of them were talking and laughing in the room while chatting. At this time, He Chenguang's phone rang. Open it and look, as expected, it is Fan Tianlei.

"Hello? Thor? What's the matter? Didn't you call me so early to tell us to have a good rest? Why did you go back on your word? I just came back. Can't you let me rest?"

When He Chenguang saw that it was Fan Tianlei calling, he immediately turned on the speakerphone, and gestured for Qin Yuan and An Ran to keep quiet.

They planned to have a good time teasing Chief of Staff Fan.

"Morning? Take a look at what time it is now? Even if you are jet lagged, you are reversed. Look outside and the sun is drying your butt. I think you often go out to perform missions, and you have forgotten the wake-up time of the troops. Bar.

It's not enough to get used to it loosely. You have already started training at this time. "

He Chenguang yawned deliberately and said:

"Okay, okay, what's the matter?"

"You...you hurry up and go to Qin Yuan's side to see how he is doing. Has this kid been quiet since he came back yesterday?"

"Then why don't you call him directly? Let me go find him?"

Fan Tianlei smiled embarrassedly on the phone and said:

"Oh, I'm not thinking that he is suffering from the task, so let him rest. If he disturbs him, this kid will chatter with me again. I really convinced him."

He Chenguang's eyes widened in anger, and said:

"What's the situation? Are you afraid of disturbing him? You are not afraid of disturbing me? Do you think that I am a soft persimmon and want to bully me all day long? Huh, I said Chief of Staff Fan, you are already blatantly biased, I won't do it, I don't care, I won't go. If you're afraid of disturbing him, I'm afraid too!"

An Ran and Qin Yuan next to him listened to the conversation between the two, and then saw He Chenguang's angry look, they both thought it was quite funny. They all tried their best to cover their mouths and secretly smiled, for fear that Fan Tianlei would find out that they were together.

Unexpectedly, facing He Chenguang's angry complaint. Fan Tianlei said arrogantly instead:

"Oh! I am also kind, you don't appreciate it."

He Chenguang glanced at Qin Yuan and An Ran, he was also very puzzled, the three of them were waiting to hear what tricks Fan Tianlei could pull off.

Unexpectedly, Fan Tianlei said:

"Oh, I see that Dr. Du has come to work on time. Why is he so motivated? Why are you two so lazy?"

Besides, I didn't think about it, I asked you to get up first, and the first thing Dr. Du saw was you. Now, wouldn't her impression of you change?"

You are so ungrateful! "

Everyone knew that He Chenguang was interested in Du Bingbing, but He Chenguang felt a little embarrassed when he said it so bluntly in front of An Ran. So he simply told everything about Qin Yuan's presence.

"Okay, okay, I won't quarrel with you anymore. Qin Yuan is eavesdropping beside me! Chief of Staff Fan Da, if you have anything to say, just talk directly. We are all here, and I was joking with you just now. Our enthusiasm for work is also very high! Don't forget, give us a credit."

Fan Tianlei cursed on the phone:

"You little bastards, you're starting to tease me, right? I need you, hurry up! By the way, call An Ran over!"

Qin Yuan glanced at An Ran with a smile and said:

"Don't tell me, An Ran, she's here too."

Fan Tianlei sighed and said:

"This girl, An Ran, has also failed in her studies, hey~~~" After finishing speaking, she hung up the phone.

Qin Yuan picked up the remaining mouthful of fritters, stuffed it into his mouth and said:

"Let's go, Fan Tianlei told us to go quickly. He must have something important to say, otherwise we wouldn't be so impatient to ask us to find him in the morning."

He Chenguang said with doubts:

"What's the matter in the early morning? It's in a hurry."

"It's just Professor Fang De's business. I guess Professor Fang De is awake now. It seems that Fan Tianlei wants me to be a lobbyist. But I'm afraid this matter is not easy to handle. Fang De and I The professor has been in contact with the feeling for so long, this is a stubborn old man. He will not easily agree to this matter."

He Chenguang said:

"But we saved his life! Can he not be grateful for such a great kindness?"

Unexpectedly, An Ran said next to him:

"But he didn't force or ask you to save him. All of this is voluntary. I know Professor Fang De's character very well, and this is one of the reasons why I came back. I used to talk to Professor Fang De when I was in the United States. There have been some contacts. We have also had some intersections."

"So, does Fan Tianlei want you to come back to persuade this stubborn old man? It's just for this matter that he called you back all the way, so it seems inappropriate. Isn't this throwing away the watermelon to pick up the sesame seeds?"

An Ran thought for a while and said:

"Actually, there are other things, but it's not convenient for me to say it now. I have to wait until I can tell you."

Qin Yuan could only nod his head, expressing his understanding of An Ran's situation. So he took He Chenguang and An Ran to go to Fan Tianlei's office.

Walking to the door of Fan Tianlei's office, he saw Du Bingbing who had just walked out of it. She was back to the cold face she was before.

He Chenguang was very considerate, hurried to Du Bingbing's side and asked her with a smile on his face:

"What a coincidence, Dr. Du, why are you here to perform missions so hard that you can't take a good rest when you come back? Did Fan Tianlei bother you because you came so early today?"

Du Bingbing could only say coldly:

"Going out to perform tasks is what we should do in our work. There is nothing tiring. Since it is something in our work environment, we must do it well. This is not a reason for cheating and cheating. Now I feel that there is no problem with my health. Naturally I just came to work. It's all my own thoughts and has nothing to do with others."

Qin Yuan could feel that today's Du Bingbing is actually very different. Normally, he is at most a person with no expression and a cold face, but today he seems to be a little unhappy and in a bad mood, and even talks to them with a gun and a stick.

No one knew why he behaved like this.

Seeing that Du Bingbing didn't give everyone a good look, everyone ended the conversation and quickly knocked on Fan Tianlei's door.

Only a loud voice from inside the house shouted:

"Come in, boys."

So, Qin Yuan took He Chenguang and An Ran into Fan Tianlei's office.

Before everyone could speak, He Chenguang opened his mouth first, and immediately he was concerned about why Du Bingbing appeared in Fan Tianlei's office.

"Thunder God, good morning, why was Doctor Xiaodu here just now, did you find someone early in the morning?"

Fan Tianlei sighed, and said in one breath:

"I just said that you really value **** over friends, why don't you care about other people who can't help but care about others when they see a beautiful woman, why would I make him do this and that in the morning? He came over on his own initiative Looking for me, he has something to look for me."

Fan Tianlei knew that He Chenguang cared about Du Bingbing very much, so he deliberately didn't explain clearly why Du Bingbing came to his office early in the morning, he just said vaguely that he came to me for something.

As expected, He Chenguang naturally asked:

"Then what are you going to do now?"

"She came to me because she wanted to be transferred from this place. There are better positions in other places, waiting for her. He may go to another military region and is no longer in our unit."

An Ran, listening to the two of them discussing, could only nod and said:

"Do people go to high places and water flow to low places? I think this beautiful doctor has such qualifications at such a young age, and she was able to complete the mission so perfectly with you for the first time, without mistakes or omissions.

Talent like this is natural, and some places want it, and it is impossible for them to be limited to us."
"

In fact, Qin Yuan regarded Du Bingbing as a very ordinary colleague in his heart. And in his heart, he only wants to do his own thing well and use this one-click recycling system to do more useful things for his country.

Moreover, An Ran's position in his heart is not comparable to that of any girl. After hearing what An Ran said just now, Qin Yuan also expressed his agreement.

"I think An Ran is right. Since there are better places to choose, why does he have to stay with us? Compared with other military regions, our place is indeed not a place with the best treatment.

Moreover, we have fewer medical staff here than in other military regions. It may be difficult for her to learn more knowledge here.

Therefore, I still support Dr. Du's transfer to another place. You should have the idea of climbing up at a young age. "

In fact, although Fan Tianlei is a straight man, he is also very clear about the emotional problems among these children, and he knows why An Ran's sudden appearance made this Du Bingbing have

such a big love. It's just a matter of feelings between a few young people, as long as it doesn't affect their work and the tasks assigned to them by the army.

At this time, Fan Tianlei was thinking not to continue the topic. To put it bluntly, it would be bad for everyone.

So, Fan Tianlei hurriedly said:

"That's enough, let's get back to business. I'll talk about Dr. Du later, and I haven't agreed to it now. I'm so anxious to ask you to come here today because Professor Fang De has woken up in the hospital.

The main problem is that he has not promised to do anything for us now, and we still have no way to cooperate with him. "

Qin Yuan thought for a while and said:

"So you are calling us here now because you want us to find a way to help you circle this old academic professor? Let me tell you about my feelings. Although my contact with him is very short, he is in my heart. It can be said that the impression of this old man is very deep. This old man's stubborn personality may be like that of academics.

If he could easily agree to cooperate with us, he wouldn't have been kidnapped by Effiete and the others and suffered so much.

So it is still a bit difficult for him to cooperate with us easily. "

"That's why I called you over and asked you to help me figure out a solution. How many people are powerful? And if they are human, they will definitely have weaknesses. Find his weaknesses, and we will find ways to satisfy him whatever conditions he proposes." ah."

An Ran shook her head and said:

"Not necessarily. That's why you asked me to come here. Do you really want me to persuade Professor Fang for you? If he thought I approached him for some purpose, I believe he would be even more angry. In this case, Sora will have the opposite effect."

Fan Tianlei said to An Ran:

"The main purpose of your coming back this time is because you discovered the secret underground munitions system. We also have some clues about this matter. Oh, by the way, Qin Yuan knows about it."

Chapter 1862: meet formally

When Qin Yuan heard what Fan Tianlei said, he suddenly realized. It turns out that An Ran came back for this mysterious underground arms system. It seemed that An Ran was really a very qualified spy.

Even with friends like myself, I still keep it a secret. The mouth is really strict.

Qin Yuan smiled and said to An Ran:

"I didn't expect you to come back for this matter? You can do it, and you keep it so secret from us. No wonder you kept your mouth shut. What did you say that you can't tell you for the time being? It's okay, An Ran. It's been a long time since we haven't seen each other. It's a secret for me." ."

An Ran smiled and said:

"Don't be so ambiguous here. Qin Yuan, should I still talk about the relationship between us? But public affairs are public affairs, and private affairs are private affairs. They can't be confused. How dare I tell you so easily about such a big matter? !"

Fan Tianlei patted the table and said:

"An Ran did the right thing. You should all learn from him, you know? With your attitude, you should learn from An Ran's tight-lipped manner.

However, let's talk about this matter later, what we are most anxious about is how to persuade Professor Fang De to surrender. Let him cooperate with us as soon as possible. You should know that Professor Fang De is a well-known expert in engineering mechanics. It is very famous internationally. How many people want to cooperate with him, and how many countries want to win such talents. "

Qin Yuan said:

"I also know that Professor Fang De is very important to us, but you also have to understand that he has never cooperated with any country for so many years. Thor, do you know how difficult it is to convince him? ?"

Fan Tianlei said:

"I know how difficult it is, but knowing what to do, isn't this our motto!"

He Chenguang knew that Fan Tianlei had such a personality. It was not that he didn't know many things, but that he was such a character who refused to admit defeat. So He Chenguang said:

"Okay, ok, Thor, I know what you're thinking. Well, let's go to the military hospital to see Professor Fang De now. Let's go and see how his mental state is. Let's go and have a look first, if possible, let's try to ask first, if the mental state is not good, let's just stop talking about it.

Anyway, look no problem. "

Qin Yuan nodded, this was also his inner thoughts. However, Qin Yuan suddenly thought of something again.

"By the way, Thor! Where's the black box I brought back? How about it? Do you have any clues?"

Fan Tianlei said:

"Don't worry about this matter. Let's study it after we come back from the hospital. This matter is very complicated. It's not as simple as you think."

When Qin Yuan heard this, he became even more curious.

"Thor, what do you mean by this? Why is it so complicated? Have you already studied it?"

Fan Tianlei knew Qin Yuan's character of breaking the casserole and asking the bottom line. As long as this matter was brought up, he would not give up easily without asking the bottom line.

Therefore, Fan Tianlei had no choice but to go to the door and open it to see if there were any other people outside. After observing for a while and confirming that no one was eavesdropping, Fan Tianlei walked to Qin Yuan's side and said slowly:

"As soon as you brought this box back, I asked an expert to look at it. This is not a simple password box. Its structure is very complicated. It is not something we can open just by opening it.

Think about it, this box is so hidden by Effiete and the others, there must be very important clues in it, how can ordinary people easily know it? "

Qin Yuan also had a certain amount of psychological preparation in his heart, and he himself knew that this mysterious box would not be opened easily. But the more this is the more it means that this is good news.

Because, there must be some important clue, otherwise they would not use such high-tech technology. Qin Yuan was really curious. He secretly made up his mind. The more this is the case, the more we must find out what is unknown in it.

Qin Yuan stared into Fan Tianlei's eyes and said meaningfully:

"I know that another person may have a way to open this box."

An Ran hurriedly stopped and said:

"Qin Yuan, calm down. Now is not the time to ask Professor Fang De for help. Let's go to see him today. Don't make any demands easily. Otherwise, in his heart, we are threatening him for this matter. ."

He Chenguang sighed and said:

"I really don't know what to say. Why is this old man more sensitive than a little girl? Isn't he a person without borders?"

"It is precisely because he does not want to use his knowledge to favor any country, so he defines himself as a person without borders."

An Ran looked at He Chenguang and said patiently.

At this time, Fan Tianlei glanced at the clock on the wall.

"It's getting late, let's stop discussing it. Let's go see Professor Fang De first. In my heart, he is always my teacher. Whether he really helps us or not, I will save him. And never From the moment I planned to save him, I didn't have any purpose. It was out of a student's respect and affection for his mentor."

Qin Yuan was very moved after hearing what Fan Tianlei said. So he walked up to Fan Tianlei and patted him on the shoulder, and then said:

"Thor, don't worry. I understand your thoughts. You are a very affectionate and righteous person. We don't think so much now. We just look at your mentor from the perspective of a student. Don't be sad. Come on, let's go now."

At this time, a few people were just about to go out when there was a rush of knocking on the door.

Fan Tianlei quickly put away his excitement, resumed his usual tone, and said loudly:

"What's the matter? Come in and talk."

As soon as Fan Tianlei finished speaking, he saw a panting soldier walking outside the door.

"Not good, Thor."

Everyone present widened their eyes, wondering what happened to Fa. But they didn't dare to listen, and planned to go out first, because everyone didn't know what kind of secret Fan Tianlei was talking about.

Fan Tianlei said in a rough voice:

"You don't need to go out, there are no important secrets, just be generous and explain things clearly."

I saw the little soldier who came to report and said:

"It's not good, Thor, you let us secretly monitor that vehicle that was just towed away."

Qin Yuan thought to himself, it seems that they stole Effiete's car and was towed away. This is really not good news. Qin Yuan looked at Fan Tianlei in shock and doubt and said:

"What's the matter? Thor? He must be talking about Effiete's car."

Fan Tianlei knew that Qin Yuan would have a very violent reaction, so he had no choice but to lower his head and nod helplessly, and said without confidence:

"Since you came back, I have been paying attention to this car. I know Qin Yuan, you care about the clues on this car. Since you came back, I have secretly sent someone to watch the situation of this car."

Because there was a bomb on the car, we had no choice but to take him back to the army. We could only observe secretly, and we could proceed to the next step only after there were no other risks.

However, I didn't expect Effiete and the others to tow the car away. Qin Yuan, I know you are very angry now, but don't worry. We still have the box, and I think that's the big clue about the car. "

Although Fan Tianlei said so, Qin Yuan could clearly feel his sincerity, so he said:

"You don't have to be so nervous about Thor, I don't mean to blame you. Let's not discuss so much, let's go directly to Professor Fang De, and see how he is doing first, and we will talk about the rest when we come back."

Fan Tianlei thought that Qin Yuan would blame him again, but this time Qin Yuan let him go so easily. Fan Tianlei was still surprised.

"Why are you so successful this time, boy? You didn't whine around me, whining and complaining, okay, you can be regarded as making progress, it's okay, you've grown up. I can also be regarded as comforting gone."

He Chenguang also smiled and said:

"Okay, okay, the rest is to come back and talk about it. If you don't go to the hospital, you will miss the best time to visit Professor Fang."

After speaking, several people went out, and An Ran stopped when she reached the door. Qin Yuan turned around and asked:

"What's wrong?"

"I'd better not go. I don't know how to face Professor Fang De. I'm afraid he thinks I'm lying to him. That's not good."

Fan Tianlei had already walked a long way, turned around and looked at An Ran and Qin Yuan who were standing there, turned around and came back again, saying:

"What's the matter with you two? Don't waste time. Hurry up, An Ran, you don't need to think too much, just tell Professor Fang clearly if you have anything to say."

An Ran stood where she was and nodded, and several people got into the car just like that.

After a while, they came to the door of the hospital. Unexpectedly, when I got out of the car, I saw Du Bingbing standing at the door. Seeing Qin Yuan and He Chenguang approaching from a distance, Du Bingbing also walked down the steps.

Du Bingbing didn't speak to the two of them, but walked over directly and said to Fan Tianlei:

"Why did you come here?"

After hearing this, Fan Tianlei was very surprised and said:

"What's the matter? Is there something wrong with Professor Fang? Hurry up and take me in to have a look. I'm so patronizing and wasting time here with you brats, I've forgotten such a big thing. If there is something wrong with Professor Fang, I really can't help but blame myself, he is a teacher who has been so kind to me. Although I haven't contacted him for so many years, our relationship is still the same as when we were in school. "

Du Bingbing, seeing Fan Tianlei's excited look, he sighed and said:

"I said, Chief of Staff Fan Tianlei, don't be so excited. Why are you always so irritable? You are so impatient before I explain the whole story and details clearly."

Qin Yuan looked at Du Bingbing and said:

"Then what's the matter, please tell him clearly. You know that he has such a fiery temper and deliberately pushes back and speaks so slowly. He must be anxious."

Du Bingbing glared at Qin Yuan, so he turned his head and said to Fan Tianlei:

"What I mean is that you guys are a bit late now. Look at what time it is now. It's time for a nap. Professor Fang De just took the medicine and fell asleep. His body has recovered now. It's almost the same, there is no big problem, but it is not appropriate for you to disturb others when they are sleeping."

After listening to Du Bingbing's words, Fan Tianlei breathed a sigh of relief.

"I said you little doctor Du is really, how can you be so out of breath when you speak, you really scared me to death, because Professor Fang De's asthma has been troubled for many years. He is so old, Once something goes wrong and some danger happens, I really can't imagine such a thing happening.

Since he has already taken a nap, let's stand outside and wait for a while, and we will go in after he wakes up. "

At this time An Ran was standing beside him, his face was still a little anxious, at this moment he was very worried about how he should face Professor Fang De.

Because when they were in the United States, the two of them had a teacher-student relationship. At that time, Professor Fang De still valued An Ran very much, and treated him very well, from the bottom of his heart.

But although An Ran didn't intentionally conceal or deceive him on this matter, it was still a dishonest performance for him after all.

Unexpectedly, at this time, Du Bingbing walked up to An Ran's side, stretched out his right hand and said:

"Hello, An Ran. I heard your name a long time ago, but I haven't seen you for a while. Yesterday, I went back to clean up myself, because I really can't face you with such a sloppy face. Such an excellent beauty."

An Ran was thinking about the matter between him and Professor Fang De, did not expect that Du Bingbing's words would pull her from memory to reality. So An Ran stretched out her right hand and said politely with a smile:

"I didn't take what happened yesterday to my heart. I also saw that you were very tired from performing the task. You need to go back to rest immediately, and we are all girls. I can still understand it very well.

Have you even heard about me? Who did you hear that from? "

Du Bingbing smiled and said:

"When we were in school, there was one person who only gave an example saying that there was an outstanding graduate who was now engaged in a very secret mission, and from his description, I think the person he was talking about should be you.

You suddenly appeared here, you should have very important things to do. You should know my senior sisters in several years. But I believe that if we can get along day and night, we will become very good friends. "

Chapter 1863: Successfully persuaded Professor Fang

Seeing An Ran and Du Bingbing being so polite all of a sudden, Qin Yuan was at a loss for what to do. He could only smile awkwardly in place.

Fan Tianlei, who was watching all this, naturally thought so, because he knew in his heart that both An Ran and Du Bingbing seemed to have some interest in Qin Yuan.

This is understandable, after all, Qin Yuan is such an excellent boy. Who wouldn't be tempted to change it?

He Chenguang didn't care about so many thoughts at all, he just wanted to talk to Du Bingbing quickly.

But the two girls seem to have a feeling of hating seeing each other late. Unexpectedly, the two chatted and left each other's contact information.

Just in this climate. A young nurse came out of the hospital. She ran up to Du Bingbing, and said slowly: "Dr. Du Jun, Professor Fang woke up. As soon as he woke up, he asked where you were, and I hurried out to find you." Fan Tianlei said with a smile : "Military doctor Du, it seems that Professor Fang De really trusts you. This shows that you take good care of Professor Fang De. Thank you for your hard work. You came to me early in the morning to report about Professor Fang De Son." Qin Yuan listened and suddenly realized that Fan Tianlei was lying to himself and He Chenguang.

He is talking nonsense here about the fact that military doctor Du wants to apply for removal. At that time, Thor continued to say: "Oh? He is a young man, why did he talk about why there is no war? Look at his kid who always has boring and weird ideas. He said it out and listened. Look at him What kind of whimsical ideas can you come up with." It seems that Professor Qin Yuan heard such a statement for the first time, did I speak, and I didn't just listen to Thor's output quietly.

Whether you agree or disagree. You have always been like the United States, always trying to find ways to bully other countries. Once you really lose your weak military power, you just want to live in peace with the countries you don't have.

"So you want you to help you upgrade your military weapon system, help you develop more powerful weapons, and you want to use those weapons to attack other countries, or want to be independent from the top of the world.

"Don't he say that, he saved you. If he was clever and came up with such a bad way, I'm afraid you won't be able to get away from us for a while. From now on, I just hope that there will be people in the world. There is no war, so I want to use my professional knowledge to help any country with

armed forces. It is just a means for you to protect yourself. The gap between you and other developed countries is very small. You must not have enough weapons to arm Only by yourself can you ensure that you are in a position where you are being bullied in the world."

"Professor Fang, you understand him very well. Is there any way for you to refute him in that regard. Weapons and weapons have indeed caused very few people to lose their hometowns and relatives. But, has he thought about it? Why is there no war?" Du Bingbing hurried to the bed to help Professor Fang anxiously, and put a pillow on my front and back.

Carefully adjust Professor Fang to a comfortable position. And what you are mainly laughing at is that you just said that you will bully other countries without your own military power.

But you want to forget that your parents are also the people of that country. What kind of nature are we? Does he have Hanhu in his heart?

"Your first priority is to protect Professor Fang's danger. My life is in danger. On that basis, if I am sure I am willing to help you, this is the icing on the cake. Professor Fang smiled Said: But, I am sure I am willing to help you, and you will definitely coerce me. As long as I ask to leave there, you will also send me to a dangerous place. "

"Thor, you...how did you lie to us!"

"Professor Fang? You already knew that you are... why do you still blame you? Do you blame you for deceiving you?"

"Since they are here, why are they retreating to talk? What are you arguing about inside? Do you think that old man of yours can hear you?"

"You know Fang De's good intentions, but I'm afraid that Professor Fang understands that he knows that my temper is not like that. When I don't even care about life and death, I care more about wanting to be watched by others like that. , you are afraid that if I understand, you will be even more angry, and that will help you persuade me to surrender."

"He doesn't have a bad smile, doesn't he have any weird ideas, why don't you just say it and listen to what he said to stare at you outside, and then let out such a strange laugh." Surveillance is very disgusting, but it can also wrong Du Bingbing's good intentions.

So Cao Guifei also went to Thunder God's ear, and said heavily: "He wants to be so excited, bad or bad, he can be so sensitive after so little experience, and Fang De also wants to protect Professor Fang." At that time, An Ran walked to Fang Beside the professor, Da Xin said cautiously: No matter when, isn't that called the law of the jungle? The weak will always want to bully the strong.

"But what he said now is bad, and he is the leader of that country, maybe he thinks that way, but the others are not because you helped them improve their military power, before they didn't become strong, they would become weak Learn to bully other people, and is that what he said just now? Human nature is always greedy and aggressive."

"There is something, there is something, Doctor Du, what the two of us said, he takes it seriously. Since Professor Qin Yuan hasn't woken up yet, you should go back and look at me. Don't waste time there ." Soon came to the door of Professor Fang's ward.

I thought that Professor Fang would actually say: At that time, Fan Tianlei couldn't help laughing, Professor Qin Yuan looked at me with a puzzled face and asked: "Yes, teacher. It's been a long time. How are you?" When I knew how to talk to Professor Fang, I thought of Professor Fang saying: And now it is very easy for you to protect yourself.

How can you not have such a slow development speed to immediately improve such a small military force? Is it because he has too little confidence in you, or he thinks that you are really very stupid. "Thunder God could tell right away that those two were not his own medical staff, but members of his own army.

So I quickly pointed to those two people and questioned Du Bingbing: Cao Gui said: Are you a person with borders? Although your parents are from country H, your name has been lost forever because of the arms issue Your parents, so if you are inspired, you must be a person with national boundaries.

An Ran was very surprised and said: No one present here expected that Professor Fang would speak suddenly, it seems that Professor Fang could clearly hear all the conversations we had just had inside.

Since Professor Fang hadn't told everyone to retreat, Du Bingbing led everyone back out of the house cautiously.

"It's really bad, Professor Fang, to bring you such a small trouble. It's also bad for your health, but you really made a small mistake. You are not a sinner."

"You know the purpose of their visit today, but you still have to tell them about Hanhu. Although they saved you, you are very grateful, but in the end you haven't told them all. Even if they save you, you will help them to study military affairs just like that. Although you are an expert in engineering mechanics, you will definitely apply the knowledge you have learned in that field.

"See you soon, Lei Zi."

"Are you thinking about the danger of Professor Qin Yuan? Do you mean to monitor me? He needs to know that you have just rescued Professor Qin Yuan from Effiete's hands. He knows that we are planning now, what? Plan? As soon as Fan Tianlei heard that, I immediately put away my smile, and then hurriedly said: I will devote my life to the research of arms and weapons." Although you are afraid of death, you are more concerned about your scientific research Project, these children in your hands, without your guidance, it would be difficult to fail that task.

And there is no research and no results. If you die now, you will die in peace. "He Chenguang also nodded, and turned to An Ran and said: Thunder God glanced at everyone present, so I hurriedly said: Cao Guifei said respectfully: and wait for Fan Tianlei to finish speaking, Cao Guifei will immediately interrupt take my word for it.

So he said: Du Bingbing hurriedly said: What I think outside my mind now is: "How are you doing recently? Is he very sad? Hahahaha, let him see how you are now? It's not bad, you haven't hung your breath yet The old man is dead." While several people were arguing at the door, Professor Fang's voice came from outside the room.

He Chenguang also realized at this time that Fan Tianlei was lying to them, so He Chenguang hurriedly said: "What? What did you lie to them? What's the matter?" Human greed and desire are endless, aren't they? Bullying the powerful without a name makes the world full of wars.

If it is certain that a dynamic balance can be achieved between each country, then there is no way for him to defeat you, and no way for you to violate him.

In this way, each country can achieve a dynamic balance and restrict each other, so as to prevent the occurrence of war. "Thunder God didn't think so little, and I didn't expect to be able to convince that stubborn old man with my own words.

So I said anxiously and timidly: "There is nothing wrong with him. Everyone has nothing to do. In fact, they are all on their own. What he does just shows that he is a person who has no sense of family and country." Boy, very bad, and you appreciate him."

"You agree with what his elder brother said. It's true that you don't have very professional knowledge, but you can't increase the military power of a country to that level in a short period of time. You haven't thought about it so little, you're just thinking that maybe that's the case now, so it was before.

"Professor Qin Yuan, you know that you are an excellent expert in engineering mechanics, and you choose to be a person with national boundaries for world peace. Although you don't have very professional knowledge, you can help any country in the world to improve our Military power, but he did not do that for world peace. Professor Qin Yuan suddenly retorted at that time: "Professor Qin Yuan, does he know? Whether there is no weapon in the hand and whether there is a weapon in the hand are two different things. "Thunder God also said with a shameful smile beside him: Cao Guifei looked at Thor God and Fan Tianlei in surprise.

Then he asked: Du Bingbing knew that Thor had seen through his arrangement. So I didn't pretend to be sober with understanding.

I also said openly and honestly: Although An Ran wanted to leave with us, but Cao Guifei, Lei Shen and others strongly invited you to agree.

So he hurriedly walked back in front of a few people.

"You know what the teacher really thinks in his heart. He spent his whole life doing scientific research and never thought about his own affairs." As soon as he stepped back, he saw two medical staff in white coats standing upright at the door of Professor Fang. .

At that time, Thunder God said: Hearing Professor Fang say that, An Ran was worried, and An Ran felt better at that time.

Cao Gui looked at An Ran's suspense, but An Ran's heart finally relaxed, and he quickly felt very bad.

"Let's go, you all go back and have a look." Du Bingbing listened intently and nodded silently. Because Du Bingbing seemed to be the first to hear Thor's statement. Although the statement was novel, it was still very unreasonable, and it was true in fact.

"Fang De, what's the situation? What's he doing?" And you don't have ghosts yet, if you have big hearts, you will put Professor Fang in danger.

Effiete is so vicious outside of our hearts. Since we can get it, if it is guaranteed, we will harm Professor Fang.

"An Ran, remembers, how could you remember him? It turns out his real identity is... Don't you know that his boy's identity is complicated." Thinking of Professor Qin Yuan's sudden sense of enlightenment when he heard that sentence.

There was a hint of approval in my eyes. It seems that Professor Qin Yuan did not agree with me at all because of what Fan Tianlei said.

So I said: For the sake of future generations, you should also consider it. "

"I said he..." Professor Fang quickly sat up from under the bed and watched Xiaojia walk back through the door. Cao Guifei said righteously and sternly: "Because the strong eat the weak, there will be no wars in the world. Those who are famous will always want to bully the strong. Your country H is still a weak country, and you arm yourself for self-protection. .Professor Fang looked at Du Bingbing next to him and said, "Maybe I really didn't think too extreme about that matter. I thought that after studying so young and living so young, I'm still like Thor, that fledgling big boy who sees things." see clearly.

"Professor Fang, it's been a long time. Do you still remember you?" If you are like you, you will have no room to give Professor Fang medicine and poison. "

Chapter 1864: Misunderstood Du Bingbing

However, Professor Fang De now has a feeling in his heart that listening to Jun's words is better than reading ten years of books. Perhaps it is the scientific research projects that I have been engaged in for so many years, which have trapped myself in a rut.

Now, what Qin Yuan said actually allowed him to break free from this rut all at once.

So, Professor Fang De nodded slowly, and he said with a smile:

"Young man, you are right. I used to be narrow-minded and narrow-minded. After hearing what you said today, I have completely awakened. I also understand a lot of things. How about it, you guys Go back first. Let me think about it alone. After I think things through clearly, I will answer you, okay?"

Qin Yuan seemed to understand a lot of things after listening to Professor Fang De's words. Although Professor Fang De has not said that he will definitely agree to help them, at least his attitude is much better than before.

An Ran suddenly walked up to Professor Fang De and said:

"Qin Yuan, don't talk so much now. Professor Fang De's health has just recovered, so you can't wait to talk so much. It's better to wait until Professor Fang De recovers completely. Don't irritate him. ?"

Professor Fang De watched An Ran scold Qin Yuan, and then said:

"Girl, don't worry, my old man's body is not so fragile, and it is much better now than before. You don't have to worry so much, okay?"

He Chenguang also stood up and said:

"Professor Fang, we are not here to persuade you today. We are here specially to visit you. Don't put too much psychological pressure on you now. I hope you will be healthy and live a long life."

Teacher Fang laughed out loud, and even Du Bingbing, who was standing beside him silently, couldn't help laughing. There is no way, He Chenguang is like this, always bringing laughter to those around him.

Everyone laughed happily for a while, Fan Tianlei said:

"Okay, okay, children. It's almost done. That's it, let's go back first, don't interfere with Professor Fang's rest here."

Professor Fang said:

"It's okay, it's okay. It's rare for me to have someone to talk to an old man like me. It's too late for me to be happy. I've been doing scientific research in the laboratory for so many years, and I haven't had any serious contact with anyone. It's okay now, there is You young people talk to me, and life doesn't seem so boring anymore."

He Chenguang also followed Professor Fang De's words and said:

"That's easy. If you want us to come and accompany you often, that's fine. We'll just come and chat with you. But now you should have a good rest."

Qin Yuan also said:

"You should have a good rest. We'll go back first. I won't bother you. However, I hope you can think about the matter I mentioned to you today, and carefully and repeatedly echo whether what I said makes sense. If you also think If it makes sense, you might as well consider our proposal carefully."

Professor Fang De nodded after listening and said:

"Okay, I see. But I really need more time to convince myself now."

At this moment, Fan Tianlei's cell phone rang.

"Hello? Okay! Are you sure everything is arranged? That's fine, don't make any mistakes. That's fine, I'll go back now."

Everyone watched Fan Tianlei answer the phone. I was very confused about what he was talking about, but it should be a good thing, because Fan Tianlei had a good expression, even very happy.

Then Fan Tianlei hung up the phone.

He Chenguang hurriedly asked:

"Thor! What's going on? Is there any good news?"

"You're a little perceptive, boy. There is indeed good news. Our people studied the mysterious box that you brought back, Qin Yuan, for a day and a night. We can basically confirm that the box is safe. There is no bomb."

Qin Yuan also said excitedly:

"That's good, that's good. As long as it's not a bomb, we can study it here slowly. It's just that we need to go back and study it again. So far we have no way to open this box. But As long as we can guarantee the safety of our lives and put it here is safe, then there is no problem, and the rest will be left to time."

He Chenguang also said:

"Then let's go back quickly. I can't wait to open this thing. After all, we have been tossing for so long. Apart from successfully rescuing Professor Fang, the only thing we can gain is this box.

Moreover, I have a premonition that this box seems to have a lot to do with the underground munitions secret system we are studying. "

At this time, An Ran's eyes showed a thoughtful feeling. Although this gaze only passed in a split second, Qin Yuan could clearly see that there must be something flashing in An Ran's heart.

But since he didn't say it in public, it means that there should be something very secret, and he can't say it in front of everyone.

Qin Yuan thought in his heart that he felt that it must not be that simple for An Ran to come back suddenly like this. It's definitely not just the matter on the surface, there must be other things in his heart, because he can always feel her preoccupied appearance.

In this way, after thinking about it for a while, Qin Yuan was immersed in the reasoning of the matter.

At this time, Du Bingbing felt that it was almost time for everyone to come, and the purpose of visiting Professor Fang had been achieved, and now it was almost time, so they should be allowed to go back. So Du Bingbing said:

"Since you have nothing else to do now, you might as well go back first. Leave the rest to me. I know you have a lot of important things to do, and I will leave Professor Fang's safety to me." Bar."

Just as a few people were about to go out, Fan Tianlei suddenly remembered that there was one thing that he had not told Professor Fang.

"By the way, teacher, I sent these two people at the door to protect you, not to monitor your actions. And I have already said, if you are not willing to help us, stand by our side. Wait for your body. Well, you can leave whenever you want.

These two people are here to prevent Effiete and the others from coming over to make troubles, thus threatening your physical safety. I don't want something like this to happen again.

Although I didn't say hello to you when I did this, I think it's still yours, safety first. hope you do not mind. That's a little bit of my heart, too."

Professor Fang nodded with a smile and said:

"I understand this matter. Although I'm old, it's not to the point where right and wrong are irrelevant. I know you're doing this for my own good, so I don't think too much about it.

In fact, even if you send someone to monitor me, I don't have any other ideas. After all, I am treated this way no matter where I am. "

Professor Fang can still say this kind of thing half-jokingly at this time, which shows that he doesn't mind. This also made Qin Yuan feel better.

Because when he came here and saw two people standing at the door, he began to worry that his matter would arouse Professor Fang's attention, which would affect their relationship.

However, since he himself doesn't have too many thoughts on this matter now, it shows that his heart is still very open-minded.

Don't worry if there are only a few of you, and walk out the door. Du Bingbing also sent them out of the gate.

Fan Tianlei told Du Bingbing:

"Professor Fang's matter will be handed over to you. I know that you are very tired after completing the task with them, but I still don't trust anyone else in this matter except you.

So, I can only work ***** you, Doctor Du. I would also like to trouble you to come over early in the morning to take care of Professor Fang, even after you came back yesterday, you changed clothes non-stop and came to the hospital. Neither had a good rest.

But I promise you that after you finish this matter, I will give you a month off. Let you rest well and go on vacation anywhere. "

Du Bingbing smiled and said:

"You're welcome, Thor. This is what I should do within my responsibilities. Besides, doctors are parents, and I have been following this professor's body, since the moment I started researching what he wanted. He has already been my patient, and being able to protect his safety is also my responsibility and obligation as a doctor.

And we have been mentally prepared to work overtime at any time throughout our lives. But if you just give me a vacation, I won't refuse. "

After hearing the conversation between the two of them, Qin Yuan realized in his heart that Du Bingbing ran back to his office in a hurry after returning from the task that day, not because he felt uncomfortable seeing An Ran. It turned out that it was Fan Tianlei who arranged such a secret mission for him behind our backs.

But think back to how this Fan Tianlei was really so cautious. He even arranged such an important task for Du Bingbing in private without telling anyone, not even himself.

Now it seems that Du Bingbing and even An Ran are more suitable to be a spy. From this task, he could tell that this Du Bingbing was cautious and careful. And he is very careful in everything, and he is also very resolute and brave in his heart.

It seems that this person is not only limited to the medical field in the future, but also has a bright future in other aspects.

He Chenguang next to him also understood that Du Bingbing didn't ignore the others and walked away because he was angry that day. In this way, the big stone in his heart was also put down.

Because of Du Bingbing's performance that day, He Chenguang has been brooding in his heart, not knowing what he did wrong to offend the goddess in his heart.

Seeing Du Bingbing now, they have returned to the way they were when they were on missions. People are also much more cheerful than before. So He Chenguang said:

"It turns out that you went to complete the task behind our backs. I thought that what you said that day was inappropriate and caused your resentment and anger?"

Du Bingbing said lightly:

"Am I such a stingy person in your hearts?"

His sudden rhetorical question caught everyone present by surprise. Everyone could only smile awkwardly, because they were in their hearts. Du Bingbing is a person with a very delicate and heavy mind, and is so cold and difficult to approach. He really doesn't know when he says the wrong thing and a seed will be planted in his heart.

However, through these few contacts, everyone also found that Du Bingbing is not as cold-blooded and unapproachable as they thought, just like an iceberg, he may just be a little slow, just like them. It will be fine, and their relationship is not just that of ordinary friends, they are comrades who have experienced life and death together.

Fan Tianlei urged:

"Okay, let's do this first, we have important things to go back first, and I will trouble you here, Doctor Du."

Du Bingbing nodded, seeing Fan Tianlei and his car drive away, Du Bingbing also turned and walked back to the hospital.

When several people were in the car, Qin Yuan asked:

"Raytheon, what did you say when you answered the phone? Is it really about the box? How to deal with it? I can see that you are still smiling, and it is good news from your affection. Is there something inconvenient to be Say it in front of Professor Fang?"

Fan Tianlei said while driving:

"I didn't expect you to see it? The good news is true. There is no dangerous thing like a bomb in the box. But the bad news is that Professor Fang's help is probably needed to open the box.

However, judging from the current situation, this is not entirely bad news. Because Professor Fang has been persuaded by us. It's just that Professor Fang can't let Professor Fang know about this matter for the time being. "

He Chenguang asked suspiciously:

"This is why?"

Before Fan Tianlei could explain, Qin Yuan said:

"If you say it, it seems that we came here with a purpose. This is really not conducive to our persuading Professor Fang to surrender. Instead of this, it is better for us to hold back and wait until Professor Fang fully agrees to help us. Let him It will be better if this is resolved."

An Ran thought the same in her heart, so she nodded in satisfaction and agreement.

After a while they quickly returned to the army. Before getting out of the car, he saw Gong Jian waiting beside him. At this time Gong Jian said:

He Chenguang said:

"Why is Instructor Gong Jian here to greet us in person? I'm really sorry. "

Fan Tianlei said:

"Fart, Instructor Gong Jian will welcome you here? You think well, what kind of green onion are you? I asked him to come here. Let's go, get out of the car!"

Seeing them getting out of the car, Gong Jian rushed up to meet them and asked:

"How is Professor Fang De?"

Qin Yuan smiled and said:

"It's okay, it's basically recovered."

"So did he agree to help us? What does he say now?"

"If there is no accident, he has already agreed!"

Chapter 1865: research mystery box

Gong Jian said excitedly when he heard this statement:

"That's great! If Professor Fang really agrees to help us, it will be our blessing! It will be even more powerful for us to do anything. This is really good news."

Fan Tianlei said:

"By the way, how is your research on that mysterious box? It's been such a long time, is there any substantial effect?"

Gong Jian sighed and said:

"We have assembled all the technical elites of this unit. Oh, by the way, even the bomb disposal expert Wang Gang who came back with you is here. There is no way to crack this thing. You just talk about it, this thing It's so exquisite. I really don't know what kind of treasure is hidden in it."

Qin Yuan smiled and said:

"The more this happens, the more excited I am. It means that this thing is very important. Let's go, let's go in and have a look first. I want to see how many secrets can be hidden in this small box."

Then several people walked into the laboratory.

Qin Yuan took a closer look, good guy, what a big fight. Sure enough, it was what Gong Jian said. It was not an exaggeration at all. All the talented elites of the entire military region came, trying to find ways to study this mysterious box. They all tried their best.

But at this moment Qin Yuan was really worried. Because an important problem is that the inner ghost has not been caught yet, and so many people are gathered with such a big fanfare and blatantly. Are you really not afraid of secrets being leaked?

It's really daring. Qin Yuan couldn't help but have an ominous premonition in his heart. He was really afraid that something would leak out if he was not careful.

Qin Yuan complained in his heart that they were a little too nervous. How could such an important matter be ignored? But after thinking about it, I felt that they couldn't blame them all for this matter, mainly because they probably didn't know that there were spies from other countries inside.

Qin Yuan walked in and hurriedly asked with concern:

"What's going on? Has there been any substantial progress in the research for so long?"

Wang Gang was the first to stand up and said:

"I brought this thing back from the car myself, because I was afraid that there would be some unsafe factors in it, and I was worried that you would accidentally touch some detonation switch. But now, it has been confirmed by instruments that there is no bomb in it. Yes. So now everyone can do research at will."

It was really good news for Qin Yuan to hear the news, so he said excitedly and gratefully:

"Thank you very much, Wang Gang, I didn't expect you to be so concerned about this matter, so let's do it, let's study it with great concentration, but do you have any ideas? There is a solution."

Fan Tianlei also said:

"Yes, yes. If we have an idea, we will say it boldly and carefully verify it. Whoever can solve this problem can discuss any reward you want."

He Chenguang also echoed beside him and said:

"Yeah, yeah! Chief of Staff Fan has already spoken, and we have to use our nursing skills to solve this matter."

As soon as these words came out, everyone in the room whispered separately, trying to find the best way.

But it was all guesswork and you and I discussed each other sentence by sentence, there was nothing substantive to solve the problem. At this time, An Ran went to Fan Tianlei and whispered something.

Fan Tianlei said:

"Well, I think you all have been studying here for a while, you all go out to drink some water, rest for a while, and then we will continue to study."

Although Qin Yuan didn't hear An Ran's words clearly, but judging from Fan Tianlei's performance, he should have said something important that everyone present should not know.

But this is also good, this kind of secret should not be known by so many people. Therefore, Qin Yuan didn't say anything more.

After a while, all the outsiders in the house went out.

Except for Qin Yuan and Fan Tianlei, only He Chenguang, An Ran, and Gong Jian were left. Now the rest of these people are trustworthy people, and they can say anything straight to the point.

Qin Yuan walked to An Ran's side and asked in a low voice:

"What did you just tell Thor? Is there something secret that we don't want to know?"

An Ran looked at Fan Tianlei with a smile.

"It's nothing, just to remind Thor that this matter is very confidential. We couldn't keep many things secret, and now there are so many people talking about it. How can we research it so blatantly?"

He Chenguang said next to him:

"That's true. This matter should be kept secret. But if we don't have talents, how can we open this mysterious black box with just a few of us?"

In fact, Qin Yuan had already thought about it, and he also thought of this method. If there were not so many people, how should he open this mysterious box.

"This was indeed a difficult problem for us before, but since we convinced Professor Fang, he should be able to help us complete this matter in the future.

You need to know that he is an expert in engineering mechanics. If he is willing to help us, it must be a very simple matter for him. "

An Ran walked to the box, picked it up with her hands, and carefully looked at it inside and out.

Fan Tianlei asked curiously:

"Anran, what are you looking at? Do you think this box is very familiar? Or have you seen it somewhere? I don't know how he opened it. It may be a password or it may be the use of engineering mechanics in physics. ."

An Ran walked to Qin Yuan's side and said to him slowly:

"This thing is indeed very exquisitely made, but as you said, you can use your own scientific knowledge to open it. It is complementary, and it is a thing that can be cracked with a password.

Do you know Luban lock? The subtlety of this box is that it uses the Luban lock we are familiar with, and also adds some other technological means, which is why it is so difficult to open.

That's what they said they imagined. If this box is really lost one day, I am afraid that if it is the password, it will be the most dangerous place in the world.

Because of your current high-tech means, as long as there is a password, there must be a way to crack it. Although he has hundreds of thousands or even a combination of passwords, it is not a problem for the computer. "

At this time, He Chenguang scratched his head and said:

"I don't care what his principle is at all now, what I care more about is what is in it that is important to make them go to great lengths to create such a mysterious box to prevent us from exploring his mysteries ."

Qin Yuan said thoughtfully:

"I'm afraid the things contained here are what we want most, either related to the underground arms system, or the spy lists of various countries."

"Spy list? Will they randomly put such an important thing around? And such an important thing, do you think Effiete will know?"

He Chenguang said with puzzlement.

At this time, An Ran finally planned to reveal his real purpose of coming back. An Ran turned to look at Fan Tianlei, Fan Tianlei also saw An Ran's eyes, so he closed his eyes and nodded meaningfully.

At this time, An Ran stood up and said slowly:

"Since Chief of Staff Fan has agreed, then I will tell everyone the real purpose of my return."

Qin Yuan thought of An Ran, and finally told the truth. I knew it was not that simple for you to come back this time.

An Ran glanced at Qin Yuan, then said:

"During this time, I have been lurking in the United States. After my unremitting efforts, I was finally able to contact the senior officials in charge of arms development in the United States. Their current plan is to persuade Professor Fang to help them research a very sophisticated cruise missile."
"

Qin Yuan said in a doubtful tone:

"Cruise missiles? The United States has always been at the top of this technology in the world. Could it be that they have encountered some technical barriers?"

"You are really smart. They encountered an unsolvable problem in the research of this technology, but only one person in the world can solve this problem.

No, exactly, only one team can solve it. That is Professor Fang's team. I originally wanted to lurk there until I figured out their technology, but I overheard that they have spies lurking at high levels in various countries.

Of course, our country is also included. Moreover, the spy in our country has reached a very high position.

They cultivated the elite of hundreds of elites and scattered them in various countries. Some people have even mixed into the military system, very high positions. "

He Chenguang's eyes widened and he couldn't believe it. Is there really such an outstanding spy in this world?

"Can they have so many talents? If they have so many talents, why don't they first develop their own country's strength, but go to spy on the secrets of other countries? It's a detrimental act for them to do so."

Qin Yuan smiled bitterly, and then said:

"Haven't we understood the style of doing things in the United States for so long? They have always wanted to dominate the world. And they are very narrow-minded. They don't want any country in the world to develop more than them so that they can be long-term Controlling the lifeline of the international economy.

Casually bullying any weak country in the world is one of the reasons why we must become stronger. "

Fan Tianlei followed An Ran's words:

"Ever since An Ran told me about this incident, I knew that there must be spies from other countries among us. If this anti-rape plan cannot be carried out smoothly, no matter how much manpower and material resources we will put in in the development of various fields. May be destroyed by them."

"The anti-rape plan?" Qin Yuan asked suspiciously. He thought in his heart what kind of strange plan this is. This Fan Tianlei always plans things that he doesn't know about without telling himself, and then once there is something that needs him to do, he will immediately hand it over to him.

Now he has become Fan Tianlei's tool man.

Fan Tianlei knew what Qin Yuan was thinking, so he hurriedly said:

"The anti-rape plan is what the two of us studied together after An Ran came back. We call the plan to rescue the spies in our country the anti-rape plan.

Telling you this now is intended to include all of you in this planning group. I accept my fate now, An Ran is the leader of this anti-rape planning team. Qin Yuan, you can be the deputy team leader.

I want you two to come together and get this thing done. Within a month, I hope you will find out all the spies lurking in various departments and positions in our country H.

Let us have a clear environment to go all out for development, our own military strength and economic strength. "

Qin Yuan said with some mocking tone:

"There are only a few people in this planning team. Just get a team leader and a deputy team leader. You just say that An Ran will be our team leader. Don't give me a false name, as if it's giving me some face." Yeah, I don't care about that, I just want to do something substantial."

Fan Tianlei said with a smile:

"You kid always thinks things are so complicated. The few people in your group are those present. If you need it, Chen Jixiang and Li Zheng can be your team members. In this way, your team members will not be enriched?"

Instructor Gong Jian, who has been silent for a long time, raised his own question after listening to everyone's heated discussion:

"Chief of Staff Fan Tianlei, you said to give them a month to send out all the spies in our country, including various departments and positions. Is this a bit too much for them?"

Perhaps this is simply not something that can be accomplished overnight. If you really want to find out all the spies. I'm afraid it will take at least a year. "

When Qin Yuan heard what instructor Gong Jian said, he quickly nodded and continued:

"Instructor Gong, I agree with this idea very much. You are asking too much of us, you have to know that we don't have any information now, we only know that there are spies.

But it doesn't need you to say that any country will have some spies sent by other countries either to hold important positions, or to be insignificant and insignificant.

But there will be more or less. You asked us to find out all the spies within a month. I think you are deliberately embarrassing us.

Your task is a bit too big, I really dare not take it. "

Fan Tianlei lowered his head and thought for a while, and he also felt that he was indeed a little too strict. So he said slowly afterwards:

"It's true that I was a little aggressive."

Chapter 1866: anti-rape plan

Qin Yuan was really confused when he heard that, Fan Tianlei really knew how to assign tasks, regardless of other people's life or death.

Fan Tianlei smiled awkwardly and said:

"Okay, okay. I'm a little too anxious, and there's nothing I can do about it. For such a serious matter, I am indeed a little too strict with you. I have something wrong. I will reflect on it, okay."

Gong Jian was sober, so he said calmly:

"What are you going to do next? Now our plan has a tentative name 'Evil Rape Project'. This name sounds very tall, but it's useless just to have a gorgeous name. "

At this moment, An Ran went on to say:

"If we want to continue to implement our preparatory plan, we must find the list of their hidden countries, at least the list of spies in our country, and if we don't have the core list, we should still There are smoke bombs, such as a large list of hundreds of people, but in fact there are only a few people who are really lurking in various countries."

Qin Yuan really listened to Jun's words better than reading ten years of books. Before An Ran talked about this theory, he himself never seemed to have thought that such an operation would exist.

"If that's the case, it's too much work for us. If only one person out of 100 is the real spy, how are we going to find him?"

He Chenguang looked at the mysterious black box that had not been opened, and said meaningfully:

"I believe that there should be information about these spies in this box. Or it has something to do with the underground munitions system, maybe both of these secrets?"

Qin Yuan thought in his heart that he must quickly come up with a good solution to solve these two problems. But the most urgent task is to open this mysterious black box first. If they can't open this mysterious black box, then they will have no way to start with this matter, and they don't know where to start.

At this time, An Ran said:

"If we are allowed to aimlessly search for spies hidden in various agencies in our various countries, I believe that we must have no clue. No one can complete this task."

"Then do you have any good ways to implement this anti-rape plan?"

An Ran said:

"Now Effiete and the others are the only people in this organization that we can contact on the bright side. If we can start from Effiete's side and tear the loopholes of this organization, maybe this matter will be better than before. manage."

Qin Yuan stood on the spot and thought for a while. In fact, the idea of An Ran, it's not that he hasn't thought about it. This idea has been lingering in his heart.

It's just that he has no way to determine how many clues Effie and they know about these secret missions. In fact, it is also conceivable that the leader of a small organization like Effiete has no chance to get in touch with these core secrets.

Qin Yuan sighed, shook his head and said:

"But I think Effiete, they may not have the opportunity to get in touch with the most core secrets like this."

An Ran's eyes let go of a gleam of light, and he said with a smile:

"Qin Yuan, please don't take this matter so lightly. I found that sometimes you have a pessimist temperament, and you always like to think things in a pessimistic direction."

Qin Yuan did not refute when he heard An Ran say this, because this kind of pessimist thought was a cautious expression in his own opinion.

"Really? I don't think so. I think I'm going to fight an uncertain battle. As long as I do something, I must strive to be perfect. If I can't do it perfectly, I won't go to it easily." To implement anything, that's my character."

At this time, He Chenguang stood up and said clearly:

"Instead of imagining this matter here and imagining whether Effiete knows some core secrets, why don't we go directly to him and catch him to us? You can ask him. If it's really not possible, torture him. What kind of tiger stool chili water will he serve, I believe he has already explained it."

Gong Jian waved his hand and said:

"I think you just want to laugh at things too simply. Who is Effiete? Could it be that you can catch him if you say you can catch him? He has worked hard in this organization. It has been many years since he was in the There is someone behind the organization. Besides, his core role in this organization, although he does not have access to those top core secrets, he has also collected a lot of secrets of this organization. If we really catch it easily, I don't know. What kind of chain effect will it cause?"

Unexpectedly, An Ran was indeed an old spy who had been lurking outside for many years. She thought that things would always be so careful and thorough.

"Have we ever thought that maybe now is a tailwind for us?"

Fan Tianlei looked at An Ran suspiciously.

"How do you say this? What is a tailwind?"

"We rescued Professor Bafang from Effie's hands. Liushun stole his car and cracked their bomb, and even took out such an important mysterious box.

What a major principled mistake this is for Effiete, I think he has already ***** his pants in the corner by now. If we hand him an olive branch at this time, if he is willing to join us and tell everything about him, I believe he will tell us what we want to know in order to save his life. "

Qin Yuan reflected on An Ran's plan.

"It's not impossible if you think like this, but I think the hope is still very slim. Just imagine what kind of organization they are, and they study the secret fire raising system and are responsible for helping the United States arrange spies. Is this what you said? Is this a theoretical method that the people there have not thought of?

People like them will definitely not be carefree, there must be something in the hands of Mi Guo, otherwise, I am afraid they have already rebelled, will they wait until today? "

After Qin Yuan finished speaking, the room fell into a quiet silence, and no one was talking.

Because none of us have thought of a perfect way to solve this matter.

At this time, Fan Tianlei broke the tranquility in the house.

"Guys, let's just stand there blankly now, think of a way, can this anti-rape plan continue?"

At this moment, they are thinking about it, but on Effiete's side, they have already fried the pot.

Effie said angrily:

"What are you dogs doing for food? How can you lose a big living person and lose your car? What's the point of dragging this car back now? It's hard to say that what's important has been lost. What about the stuff? If there are any secrets in this car that are lost, none of us will survive."

At this time, one of Effiete's subordinates said timidly:

"But what should we do next? We don't know what secrets are on the car. If we rashly ask the organization, they will definitely find that our current mission has failed. When the time comes, our relatives..."

At this moment, Effiete's tears showed a trace of warmth and worry.

But he couldn't let his subordinates see the softest side of himself that was most afraid of being known by others. In fact, he can't help himself to do so many bad things, but what can he do? Many things are beyond his control. In many cases, he doesn't just live for himself, he has to consider the lives of his relatives.

At this time, Effiete has no better solution. He can only choose to temporarily cover up the matter, conceal it and not report it, and then report to the organization after he has figured out a countermeasure.

After Fan Tianlei's words on Qin Yuan's side came out, Qin Yuan said slowly:

"Raytheon, I think you are too hasty about some things. Many things are not because we don't want to do them, but because we don't have the time and opportunity now. Do you know what an opportunity is? An opportunity is something we can grasp inadvertently. The opportunity to do it.

I have an idea now, I don't know if it is feasible, if you think it is feasible, we will arrange to do it immediately, but if you think it is not feasible..."

Before Qin Yuan finished speaking, Fan Tianlei's impatient temper came up again, and he immediately interrupted:

"You stinky boy, don't play tricks on me here. If you have anything to say, hurry up and study it together. If it's feasible, we'll do it. If it's not feasible, don't waste your time here?"

Qin Yuan thought for a while before saying:

"Why don't we use the method of fishing law enforcement to do it! Lead the snake out of the hole!"

"Lead the snake out of the hole? What do you mean? Let's talk about it?"

As soon as Fan Tianlei's words came out, everyone felt that there was some room for implementation, and it would not be difficult to implement anything like before. At this time, everyone listened with pricked ears.

"Aren't we going to catch spies and crack the enemy's secret underground munitions system? If there are any suspicious people among us, don't we use a little bit of tricks to lure people out of the hole!"

He Chenguang sometimes has an elm head and can't turn around at once. He asked curiously:

"Then what method should we use to lure the snake out of the hole? These spies have been lurking for many years and have very rich experience. It may not be easy for us to use any scheme to trick them into taking the bait."

Qin Yuan thought for a while and said:

"If we want to do it, we need to make it bigger. We might as well take the opportunity to hold some kind of military exercise, and then borrow Professor Fang, saying that Professor Fang helped us crack the mysterious box, which contained a highly confidential blueprint of military weapons. We Prepare to build this military weapon in secret, and then we will use this secret military weapon for military exercises after success."

An Ran stood up and said with a smile:

"Your imagination is really rich, do you know? How much manpower and material resources will be spent according to your plan, and how much will it cost? Is it not included?"

And what if we can't catch our spies if we do that? Wouldn't doing so hurt Professor Fang? Have you never thought about so many things? Did you think of such a simple question? "

Qin Yuan never imagined that such an idea he put forward would be questioned by An Ran.

At this time, Fan Tianlei finally defended him once, Fan Tianlei stood up and said righteously:

"I think this matter can still be considered. Since we are going to do our anti-rape plan, then there must be sacrifices if there is struggle. Now for us, sacrificing some manpower and material resources and mobilizing some pressure from public opinion is nothing at all. .

For Professor Fang, if he has really agreed to help us deal with this matter, or even help us upgrade our country's arms system, then this is not a trap for him.

We just need to use more people to protect him. "

He Chenguang was very excited when he heard about this plan, so he stood up and said:

"It would be great if it could be done like this, but what kind of military exercise should we test and change? How can we pass this news to those spies?"

Qin Yuan smiled contemptuously and said:

"As the saying goes, good things don't go out and bad things spread thousands of miles. If we really have spies here, I'm afraid I've been watching our every move, so the next thing we have to do is very simple, It is the fourth year to promote our military exercise.

And since for us, he can know the secrets that we don't want him to know. There are more ways to let him know these things, and they can be passed into their ears.

The biggest obstacle now is whether Professor Fang can really agree with us to do this. "

Unexpectedly, as soon as Qin Yuan finished speaking, Fan Tianlei's cell phone rang, and he opened it to see that it was Du Bingbing's phone. Fan Tianlei said excitedly.

"See? It's really what I want. Recently, I found that everything goes very smoothly."

Fan Tianlei said excitedly while showing Du Bingbing's caller ID number on his phone for everyone to see.

Qin Yuan saw it. This was a call from Du Bingbing. She thought that no matter whether Professor Fang agreed or not, the conclusion should be settled now. This call should convey Professor Fang's meaning.

Fan Tianlei excitedly picked up the phone and said:

"What's the matter? Dr. Du?"

"I'm not the military doctor Xiao Du, but my professor Fang!"

As soon as Fan Tianlei heard Professor Fang's voice on the other side of the phone, he immediately became serious and said in a respectful tone:

"So it's Professor Fang, do you have anything to do? We just came back from the hospital. If you have something to do, why didn't you order it together just now, and now you're calling again?"

"Isn't it okay for a teacher to make a phone call to his own students?"

Chapter 1867: With the help of Professor Fang

As soon as Fan Tianlei heard that his teacher used such harsh words, instead of doing this, Zhiwen seemed to be back in school. When he thought of being reprimanded by the teacher in a harsh tone, he respectfully whispered:

"Of course not. I'm your student. If you have any orders, just tell me. Whenever you want to call me, I'll answer it twenty-four hours a day."

Professor Fang is over there, haha, smiling.

"I said Leizi, why are you still so afraid after all these years that I didn't do anything particularly harsh to you when I was in school? I'm calling you to tell you something that is important to you. A very good news."

As soon as Fan Tianlei heard that Professor Fang was planning to tell him a piece of good news, he didn't even need to think about it. It seemed that Professor Fang was really convinced by them and was ready to help them.

So, he widened his eyes and said excitedly:

"What good news, sir?"

"I think you've learned how to steal, ***** and play tricks. You weren't like this when you were in school. You're a teacher. Since I've already told you the good news, I think your tone of voice means you know what you're asking."

In front of everyone, Fan Tianlei seemed to have returned to the way he was when he was a teenager and went to school. Don't always expose his schemes. He could only scratch his head in embarrassment and said:

"It's still the teacher who can tell what the students are thinking at any time. I did ask a little knowingly. The good news you just said is that you have agreed to help us."

Professor Fang said in a kind tone:

"Yeah, I've thought it through thoroughly now. I think Qin Yuan is right. My previous thinking was indeed a little narrow. In the words of you young people, it's a small structure."

Fan Tianlei said in a trembling voice excitedly:

"Really? That's great, thank you so much sir! I really don't know what to say? It will be a great help to me if you agree to help us."

Professor Fang said slowly:

"You seem to be more grateful to the child Qin Yuan. This child is wholeheartedly thinking about this country. If I hadn't listened to what he said, I don't think I would have thought it through so easily."

Fan Tianlei smiled and looked at Qin Yuan. Qin Yuan knew that the two of them should be talking about himself at this moment, so he could only smile awkwardly and nodded.

At this time, Fan Tianlei heard Du Bingbing's voice on the phone, and Du Bingbing said softly:

"Professor Fang, okay, you should take a rest now, don't be too tired. I know you want to do a lot of things now, but you should wait until your health recovers. I think you just have a worry The heart of the country and the people. I really can't rest assured for a moment."

Professor Fang was about to hang up the phone when he suddenly remembered something and said suddenly:

"Wait a minute, I remembered something important."

Fan Tianlei was also taken aback and said:

"What's the important thing? If you have something to say, speak slowly, don't be in a hurry. Or, if it's not something urgent, just wait until you're fully recovered and you'll be discharged from the hospital."

Unexpectedly, Professor Fang on the other side of the phone sighed, and said in a sad tone:

"Hey~~~ People are old, and their memory is poor. Many things are interrupted just by the mouth. I don't know what to say. The reason why I am in a hurry to call you today is to explain two things to you."

Fan Tianlei hurriedly said courteously:

"Okay, okay. Tell me, I remember it!"

"The first thing is that I decided to help you. The second thing is also a very important thing. I have a non-critical research that has not been completed, and I always think about it in my heart. And my The two apprentices are both young children, and they have been doing research with me since they were young, and they are currently in Pakistan. I have a secret research base there."

Qin Yuan seemed to be able to vaguely hear some information through the sound of the phone. His biggest thought at this moment was shock.

Shock! Shocking! Unexpectedly, this old man actually had a secret base.

Fan Tianlei knew that this matter was absolutely serious. So he turned on the speakerphone, looked at Qin Yuan, and then waved his hand to signal He Chenguang to go out and guard. He must ensure that Professor Fang can keep this matter a secret.

As He Chenguang walked out, he complained in a low voice:

"Why is this kind of thing always entrusted to me? Really, is it possible that you treat me as the old man at the door every time? You are discussing such confidential things in the house and let me guard the door. It's really unfair."

But the complaints belong to He Chenguang. Although he is not satisfied with this matter, he has not reached the point of complaining. He just complains sometimes.

Because he also knows what this matter means in his heart, if other people know this secret, then many of their plans may fall short.

Fan Tianlei saw that He Chenguang had already gone out, and waved his hand at Fan Tianlei outside the door, indicating that there were no other eavesdroppers outside, and they could speak out with confidence.

At this time, Fan Tianlei could rest assured that Professor Fang said:

"Teacher, what do you have to say? Just say it, we are very confidential here now, no one will eavesdrop. And I have turned on hands-free Qin Yuan and An Ran, they can all hear what you say."

Professor Fang said slowly:

"My greatest hope for this matter is that you can help me rescue my two apprentices. They are now setting up a secret research base in Pakistan. This research base was jointly established by the three of us, because I When I was studying various important things in the United States, they would always send someone over to monitor me.

In fact, when I study these things, I don't want to make any military threat or missile threat to any country in the world. I just study these things purely out of the most scientific curiosity and awe. "

Fan Tianlei thought to himself that this was a good thing for him, because everyone understands the truth that a single tree cannot support itself, especially for someone like Professor Fang who is engaged in advanced scientific research, for someone like him, he can bring it out by himself. His apprentice is the one who knows his research situation best.

So make sure to find a way for him to get them both out.

At this time, Qin Yuan thought in his heart that it was really a wave of unrest and another wave of spies. The anti-rape operation of the spies here has not been fully launched, and the next task is coming. Let them go to Ba to rescue these two science and technology experts. Professor Fang's apprentice.

Qin Yuan knew in his heart that if this matter was not resolved, Professor Fang would definitely not help them accomplish anything wholeheartedly, and now Professor Fang did not have those scientific research data in hand.

For an expert in engineering mechanics who has been engaged in scientific research for so many years, the data in his hand is the most precious thing in the world. In the beginning, this has been the result of his decades of research.

It would be a fatal blow to him if the technology and data that had been devoted to research for so many years were lost in vain. This is far more unbearable than rubbing the pain on the body.

Qin Yuan then said decisively:

"Professor Fang, don't worry, even if you leave this matter to me, I should be very relieved to do things. Now you can tell me some basic information about your two apprentices or their specific locations, even if it is the coordinates. Can.

I will try to bring back the two of them and the data you have studied for decades, and give them to you within a week. Leave this matter to me, and you can take care of the rest. "

After hearing Qin Yuan's remarks, Professor Fang didn't know what to say in gratitude.

"You don't know that these two children are orphans that I researched in the war. Although they lived in a war-torn country called Shuria, which was looked down upon by all countries, both of

them were also lost in the war. My relatives are the same as me. I brought them up since I was a child, and they have been doing some research with me wholeheartedly.

And in my heart, I have long regarded them as my own children, so I beg you to save my relatives.
"

Fan Tianlei nodded and said:

"Teacher, of course I know that you have such a kind heart. If you hadn't raised me wholeheartedly back then, I'm afraid I wouldn't have achieved what I am today when I grow up."

When Fan Tianlei's words came out, everyone present was shocked. They never thought about what happened to Fan Tianlei before, they only knew that he was an orphan without father and mother.

What he didn't expect was that he had such a miserable childhood behind him, and what he didn't expect was that Professor Fang had such deep affection for Fan Tianlei.

Qin Yuan was also very shocked when he heard this, but at this moment, he was even more curious about why the teacher who had the kindness of nurturing and teaching Fan Tianlei would cut off contact with him, and even hadn't been there for so many years. What is the connection with him?

This should be the secret between the two of them. It seems that today is not the time to know the secret and wait until I have settled everything before asking Fan Tianlei.

Moreover, obtaining this matter has always been an unspeakable scar in Fan Tianlei's heart.

At this time, Professor Fang said:

"Lei Zi, you don't need to uncover the scars you couldn't face in front of so many people. I will tell you the basic information of my two apprentices. They are now in Ba, Sta. It's a small village in Kecheng, and it's a very inconspicuous place inside."

At this time, Gong Jian asked curiously:

"I'm sorry, Professor Fang has one thing. Although it's a bit presumptuous, I still want to ask you clearly."

"If you have anything to say, just say it. Now that we are all together, the people on the boat must know everything and say everything and will not hide anything from you."

"You used to go forward in the United States and have been engaged in scientific research for so many years, and the scientific and technological level of that country has reached the top level in the world. Whatever research you want to do can provide you with data support.

And you want to change to another country to do research, we can all understand, but why did you change to Pakistan, which is so backward in economic and technological development?

And for so many years, Pakistan has always been an existence that relies on our country's development. "

Professor Fang knew that they would definitely ask such a question. So he explained slowly:

"I knew you would have such doubts. The thing is this. When I left the United States, I wanted to find an inconspicuous country that seemed to be very backward in development. Although sometimes they would not provide us with enough There are funds and technical support, but we can solve the problem of funds by ourselves.

I have taken my two apprentices to study for so many years, and I have also sold some patents. We have never been short of money. That's why I have enough ability to secretly build such an underground research room in Pakistan.

It's just that I didn't expect that the people of the United States would be so cruel and merciless in pursuing the three of us, and tried every means to arrest me, trying to make me surrender to them by means of force. "

Qin Yuan laughed beside him, and then said:

"The United States, such an approach is simply extremely stupid. They are not only disrespectful to you, but also do not understand your temper. For scientists like you, they would rather bend than bend.

I will never bend down for five buckets of rice. "

"Qin Yuan, I really didn't expect that I, an old man who has lived for so many years, has never met a person who understands me so well. Now that I am over sixty years old, I can meet a bosom friend who is so much younger than me.

Maybe the two of us are like the year-end friends mentioned in ancient books.

You are right, I will never bend down for five buckets of rice, even if they kill me, they will never force me to do things I don't want to do. "

What Fan Tianlei didn't expect was that Qin Yuan could not only successfully persuade Professor Fang but also establish such a close relationship with Professor Fang, and that Professor Fang was so willing to believe him. Being able to listen to what he said to him is simply the icing on the cake for them.

Professor Fang Tianlei said:

"Teacher, it seems that you really like this kid Qin Yuan from the bottom of your heart! I hope he will not let you down. He likes and expects her to successfully go to Ba to take your two apprentices and you who have worked so hard for so many years. Bring back all the research data."

"Lei Zi, I think first of all, you have a better vision and can spot such an excellent soldier king, then I will tell you the specific positions of the two of them!"

Chapter 1868: This is another new challenge

As soon as Qin Yuan heard what Professor Fang said, he quickly took out his mobile phone, because he was afraid that his light-screen memory would not be able to remember such complicated longitude and latitude.

"I'm ready to write it down, tell me!"

"The two of them are now in Pakistan, Stark City, in an inconspicuous village. The specific location should be 72 degrees north latitude and 65 degrees east longitude."

While Professor Fang was speaking, Qin Yuan recorded it accurately.

An Ran next to him is definitely very capable of execution. While looking at the longitude and latitude recorded by Qin Yuan on his mobile phone, he quickly found the map on his mobile phone to inquire about the specific location.

After finding out, he immediately put this location in front of Qin Yuan's eyes, and pointed it out for him to see.

While answering Professor Fang's phone call, Qin Yuan looked at the exact location displayed on the phone that An Ran handed over.

Then he slowly said to Professor Fang:

"Professor Fang, don't worry. I have already recorded this location, and I have found it on the map now. You can definitely rescue your two apprentices if you give me some time. You can rest assured about that."

"Qin Yuan, maybe I still don't believe that other people are with me, but if this matter is entrusted to Yin to do it personally, I absolutely believe that you have the strength, so I put this matter Please.

If in my heart, you do not have the strength to study them, I will not disclose their specific location to you, this will only put them in a more dangerous situation. "

Fan Tianlei patted Qin Yuan on the shoulder and said:

"See? You can do it, kid. Now your status in my teacher's heart has surpassed my status as a student who has been loyal to him for so many years.

Sure enough, you kid is not easy, but since my teacher values you so much, I also believe in you, so go ahead and do it boldly. "

Qin Yuan thought in his heart that according to Professor Fang's description, these two children should also be Surya, children who have experienced war, so they should look very different from our H people.

Hmm, this point should indeed be asked more clearly, if the wrong person is identified, then the next thing will be difficult to do.

Unexpectedly, before Qin Yuan could speak, Professor Fang said there:

"Qin Yuan, one of them is Wu Zhan and the other is An An. Although both of them are from Surya, they look different from us in appearance.

But since I raised them both, he speaks the same language as us. If you communicate with him in the language of the United States, there should be no major obstacles. The two of them grew up in the United States and received education there, so no matter what language you use, you should be able to communicate with them. "

At this time, An Ran said next to him:

"Is there no contact information for the two of them? Or communicate with them before calling or something. If we go to them again in this way, it may be a lot easier, and it won't make them feel that they suddenly appeared. people give them a sense of fear."

"Anran, it was because I thought of this problem that I didn't leave any contact information for them, and let the two of them study there so hard that they must not be able to contact the outside world. If they have contact information, or the phone will Generate some radio waves with the outside world.

If these radio waves are detected by our enemies, their specific locations will soon be found.

It is precisely because I did not leave any contact information for them, and they have no way to have any contact with the outside world, so they can be guaranteed to stay there safely until now without being discovered by those spies with ulterior motives in the United States. "

Only after listening to Professor Fang's words did he nod slowly, only then did he realize that it was Professor Fang's good intentions. If he hadn't thought so much and thoughtfully, I'm afraid these two people would have been killed by those ulterior motives in the United States. It was discovered that if the two of them were caught, it might be the best way in the world to use the two of them to threaten Professor Fang.

After all, the two of them were brought up by madness. It is absolutely impossible to watch the two of them being hurt by outsiders like this. If they are caught, Professor Fang will definitely give in.

Thinking of this, Qin Yuan became more determined now, determined to rush to Ba to rescue the two of them.

At this time, Fan Tianlei said:

"Teacher, do you have anything else to do? If not, you should take a rest and leave the rest to us. Let's have a meeting to study who will be sent to Pakistan to save your two children." Two apprentices, one named Wu Zhan and one named An An, right?"

"Yes, yes. That's right! I admit that I am indeed old, so I can only leave this matter to you. Now you are the people I trust the most. If I don't trust you, I will never leave it to you. I told you the exact location of the two of them, so I can only wait for your good news in the hospital."

An Ran said to the phone at this time:

"Professor Fang, don't worry. You can leave the rest of the matter to us. You also said that you are too old to do many things, so you are just worrying about consuming your body in vain. It doesn't help much, so all you can do now is focus on it, don't think so much, take care of your body and wait for the good news from our triumph, okay?"

Du Bingbing from Professor Fang also said:

"It's okay, Professor Fang. If you hadn't begged hard just now, I would definitely not let you make this call. If your emotions are agitated, it will definitely not benefit your body.

So you have already explained this matter, so let's stop talking to them, let's have a good rest, shall we? "

Qin Yuan on the other side of the phone has never had Du Bingbing speak so softly to anyone. It seems that he only shows his caring side when he cares for the weak, and he is always so cold to us.

After finishing speaking, Du Bingbing snatched the phone from Professor Fang, and then he said to the phone:

"Qin Yuan, you should have heard what Professor Fang explained to you just now. You should understand how important this matter is to him, so you should arrange someone to do it as soon as possible.

I won't talk about other things. Professor Fang's body should be fine here, and the rest is for him to take good care of him. So I will put down all my work during this time to take care of Professor Fang's body wholeheartedly.

Until you successfully complete the task, I will not leave here to watch over him all the time, leave his physical condition to me, and if there is anything, just be held accountable. "

Listening to Du Bingbing's words, Qin Yuan felt a little terrified in his heart. It seems that Du Bingbing forced himself to issue a military order. If this matter cannot be done well, he will have no face and come back to face everyone.

However, although Qin Yuan was not convinced in his heart, and although he was not fully sure about this matter, his proud and conceited character made him have to continue, just go on.

"Well then, Dr. Du, I'll leave Professor Fang to you and do it. I'll do the rest of the work. When we're all done, we'll compare to see who has completed the task." How about more perfect?"

Fan Tianlei next to him looked at the two motivated young people and nodded in relief.

Because he felt that these two people were soldiers brought out by him, whether it was Qin Yuan or Du Bingbing, they were all apprentices he was very proud of.

So, Fan Tianlei joined in the fun and said:

"Okay, okay, I think what Dr. Du said about this matter is very reasonable. If this is the case, then you two will compare, and I will be a witness with you. Whoever completes the task well will naturally be rewarded. Whoever is rewarded for not completing the task well, then naturally there will be no reward.

It seems that your young people are also very aggressive and aggressive, which I like very much. "

Qin Yuan gritted his teeth and said fiercely:

"Okay, Doctor Du, let's make a deal."

At this moment, Qin Yuan was thinking about himself, and he must not lose to the girl Dr. Du.

An Ran, who was standing by the side all the time, saw the two of them communicating back and forth like this, and felt an indescribable feeling in her heart. Although he knew in his heart that Qin Yuan didn't have much contact with this Dr. Du.

There is not much emotional connection, but from his point of view, the dialogue between these two people always feels a little sour.

So, he could only squeeze out a little smile and said:

"It's not just Raytheon, you, everyone here can be a witness to see how their two missions are done, but it is true that as you said, Thor, your two subordinates compare with each other and the one who wins in the end You. Because no matter who wins, they are all your apprentices, so you, Thor, should be the most powerful."

Du Bingbing didn't see An Ran's words, but said coldly on the phone:

"That's a deal. You must come back safely, so that you can compare with me when you come back safely. If you can't come back safely, then it is obvious that I can only win."

After finishing speaking, Dr. Du hung up, and did not continue talking with them on the phone, because he felt that this conversation should be stopped immediately, and he could not continue to worry about the professor above, which was really not good for his health.

An Ran, as a girl, he understands the meaning of what Dr. Du said very well.

In fact, maybe it wasn't that he wanted to compare with Qin Yuan, who could win this victory in the end, but she was just worried about whether Qin Yuan could rescue the professor's two apprentices in the end and come back safe and sound.

Perhaps none of the men present could understand Dr. Du's mood. But as a girl, An Ran understood, so he also felt a little uncomfortable in his heart.

Qin Yuan is very competitive when he hears someone who despises him. Ever since he heard Dr. Du's words, he has been very concerned about going to Ba to rescue Professor Fang's two apprentices.

It's like getting blood from a chicken, and I wish I could fly to Pakistan now to save Professor Fang's two lands.

Fan Tianlei knew Qin Yuan best. He looked at Qin Yuan's excited look and said:

"Don't talk, I know you are very excited now, but don't worry, because this matter is definitely not as simple as you imagined, you go as soon as you say, we are H country after all, if you want to go to Pakistan If you go, you must communicate with Ba Guo in advance!

If we go to their territory without communicating with them in advance, then you are breaking into their country's territory illegally. "

Qin Yuan rolled his eyes at Fan Tianlei and said:

"Of course I know this. I also know very well in my heart that I have been performing the task for so long. Do you still remind me of such a small matter? You are so worried about me."

Fan Tianlei widened his eyes and said:

"You have to be clear, it's not that I'm worried about you. I'm just looking at your **** look. It's really dangerous. If you don't stop you quickly, I can't tell what will happen to you. I wish you were here now. Once you grow wings, you will fly to the country of Ba. Don't I know you yet?"

An Ran covered her mouth with a smile and said:

"It seems that Raytheon, you still know him very well. He is indeed in such a hurry, but even if we are in a hurry, we should be more cautious about this matter, after all, we just had the Effiete incident.

We don't know what's going on with them, Once they are really watching us secretly, they will find out if we do anything rash on our side.

What you need to know is that Professor Fang has been hiding this matter for a long time. If his two apprentices leaked some traces because of our incident and were discovered by people in the United States, even if the two of them have no life The danger is that we have no way to face Professor Fang's trust! "

Qin Yuan lowered his head and thought about what An Ran said. In fact, although I didn't think about this matter if I didn't accept it safely, I should be able to think about it clearly when I calm down.

But the most important thing is that An Ran can calm himself down and analyze the pros and cons one by one when he is very excited, which shows that An Ran is really the Xie Yuhua by his side and the person who can calm him down.

Qin Yuan smiled and looked at An Ran, nodded, and said:

"Thank you An Ran, thank you for reminding me to be cautious in doing things at such an important time."

Chapter 1869: Everyone has some dissatisfaction and complaints

When An Ran heard Qin Yuan say this, he didn't want to be so grateful, because he just wanted to remind this person out of instinct. After all, the comrade-in-arms relationship between the two made him unable to see any loopholes. Don't remind them.

Fan Tianlei was standing next to them, just staring blankly at the two of them, and felt that the two of them were like golden boys and jade girls, one was very happy to complete the task and had a strong execution ability, the other was meticulous in thinking, and could think of any details.

For a man, the two of them are very complementary, and for a man, if the two of them can really work together as a team to complete any task, this is also a very important gain for a leader like him.

Moreover, Fan Tianlei was very concerned about the two of them. Ever since he knew that the relationship between Qin Yuan and An Ran was extraordinary, he felt that the two should be together.

It's just that he was more out of the consideration of his superiors. He found that two people together would affect the progress of two people in completing the task.

But from now on to complete the task, the progress of the completion of the task will not be affected by the two people being together, and the team of two people will make everything easier, which is really a big deal for him good thing.

At this moment, He Chenguang, who was standing outside to let the wind out, saw that there seemed to be no movement inside, and the phone was put away, so he knew that the call should be over, and there was no need for him to ventilate, so he slowed down. Slowly opened the door and walked in.

He Chenguang, pushed the door open and walked in, he said:

"Why do you always let me do this kind of thing standing outside? Am I the lowest-ranking person in your team? This is something that my younger brother should do. I really don't want to do it anymore. .

You don't tell me any secrets in the house, isn't it worth knowing any secrets with you? Am I not worthy to be your best comrade in arms?

I'm really not dissatisfied with my status, I just feel that you won't let me do anything, and I know it makes me very sad. "

At this time An Ran stood up, patted He Chenguang on the shoulder and said:

"I said He Chenguang, don't think so much, you are the same as us, we didn't say that you are lower than us, or we didn't take your thoughts into consideration, it's just that you walked out naturally at the beginning , closing the door, which I think is a very muscle memory activity for you."

He Chenguang widened his eyes and said angrily:

"Muscle memory? Normal activities? Do you mean that everything I do for you naturally in your hearts is voluntary, and it's all my fault?

I didn't hear clearly what Dr. Du said to you just now, so you let me out, and quickly told me everything. "

Qin Yuan looked at He Chenguang like a child, and it felt like when children had some secrets when they were young, if he didn't let him know, he would feel a sense of loss psychologically.

I didn't expect that the man would be a teenager until his death. This sentence is simply the most suitable for He Chenguang.

Qin Yuan said with a smile:

"What important matter, we didn't want to hide it from you, you are the most important member of our team, you can do many things better than me, I ask you for help, so don't belittle yourself like this, think that we Always trying to keep you out of the team, we can't do anything without your support, you're important, you know?"

He Chenguang also has a childish temper. When he heard Qin Yuan say this, he became better in an instant, and he was not in the mood when he woke up. He was so bad just now, so he hurriedly said:

"What you said is pretty much the same. I'm just worried that you didn't tell me what Dr. Du said. It's not good for my relationship with him. I'm not angry or anything. Don't think I'm being narrow-minded like this. Behavior."

Fan Tianlei patted He Chenguang's head beside him, and said loudly:

"I see you kid moaning, like a stinky bitch. I have nothing to hide from you. Didn't I tell you everything, and I discussed it with you before doing anything, just now You took the initiative to go out, but now you are blaming us instead, I see how you look like a bitch, and you are jealous.

I just said that you are like this, so can Du Bingbing like you?

Let me tell you, although I don't have any experience in love, but according to my observations, I think this Dr. Du, he would like the kind of boy who is very smart, generous and responsible. Look at you now, you are more motherly than him . Can she like you? "

As soon as He Chenguang heard Du Bingbing, he immediately lowered his head, thinking that his behavior just now was really inappropriate.

An Ran was at the side, thinking in her heart that it was true.

Even if Fan Tianlei's words are right, Du Bingbing really shouldn't like the type of He Chenguang, because He Chenguang is sometimes very delicate, or he is indeed a little girly like Thor said.

But Humanity is a good person, and he should be very responsible when dealing with feelings, but he is not a normal girl, especially the type that girls like Du Bingbing will like, so I am afraid that He Chenguang will have to feel some feelings in the future The pain of falling out of love.

And at this time, An Ran didn't know if it belonged to the sixth sense of women, or because of his own feelings for Qin Yuan. He felt that Du Bingbing actually liked Qin Yuan very much, but he didn't express it because of his own reasons. The scene is that both he and Du Bingbing are interested in the members, but Qin Yuan doesn't seem to have any special expression.

At this time, An Ran didn't know whether Qin Yuan had no interest in him, or whether he was focused on completing the task, and never considered the relationship issue.

But from Qin Yuan's point of view, he really doesn't have much time to think about such emotional issues now. He just wants to complete the task wholeheartedly. I don't know why this kid is so ambitious?

However, although he has not considered feelings, the goddess in Qin Yuan's heart must be An Ran.

Because from the first moment he saw An Ran, his heart had already been touched by An Ran. Although he never expressed his intentions in this regard, one was because he was embarrassed to be there and the other was because he didn't have much time to see An Ran. An Ran had always completed tasks outside and never spent too much time with him.

It's not like Du Bingbing and they can be regarded as comrades in arms day and night. If the two of them had a relationship day and night, I'm afraid the layer of window paper between the two of them would have been pierced long ago.

At this time, the air fell into silence again.

Fan Tianlei patted his head and said:

"Since this is the case, let's not stand here anymore. Let's find a place to hold a meeting. It doesn't make much sense for us to be here at this time. We have no way to open this mysterious box now. It must be borrowed from the knowledge of engineering mechanics taught by the housing.

But you can also see now that if we hadn't succeeded in rescuing Fang Xiang's two apprentices from Ba, he probably wouldn't have helped us deal with this matter either. "

He Chenguang just missed that phone call. Now he doesn't know what Fan Tianlei is talking about. He just stands there in a daze, listening to everyone saying things he doesn't understand.

He Chenguang stood up and asked:

"You didn't tell me just now. What important call did I miss? What did you tell Professor Fang just now? Why did Professor Fang suddenly appear with two mysterious apprentices? Who are the apprentices? Why are they rescued from the country of Pakistan? Aren't they all from the country of America?

Is his apprentice worth it? Do we believe that they are spies from other countries? "

Facing this series of inquiries from He Chenguang, no one knew where to start to answer.

Obviously, everyone present, including Qin Yuan and Fan Tianlei, did not have enough patience and wanted to explain this matter clearly to He Chenguang.

At this time, Enron can only be used to do this.

An Ran stood up and said in He Chenguang's ear:

"This matter is like this. Professor Fang just called and told us that he has two apprentices trapped in their secret research base in Pakistan.

Professor Fang called and hoped that we could help her to complete this matter, because his two apprentices have always been in his heart. Professor Fang came to our country H from the United States, and many things were beyond his control. When he was there, Effiete and the others did many unforgivable things to him.

Professor Fang and his two apprentices chose to go to Pakistan to form a secret research base in order to avoid the control of Effiete and the others.

But now Professor Fang was caught by Effie by mistake, and his two apprentices were still trapped there. "

He Chenguang lowered his head, smiled, shook his head and said:

"It's not me, I don't want to help Professor Fang, and it doesn't count if I say anything about it. What I'm saying now is just expressing my own thoughts. Don't think too much."

Qin Yuan asked He Chenguang suspiciously:

"What do you think? Just say it."

He Chenguang couldn't control his emotions anymore, and he didn't care that much, so he straight to the point and said his feelings.

"It's not that I want to speculate on Professor Fang, but you don't think that we started from putting it out, and all our practices have always been considered from his perspective?

Everything is arranged by him, what we should do and what we should not do, and whether he is willing to help me depends on his mood.

That is to say, we have no right to choose independently in front of him.

Is this the meaning of our troops saving him? I don't understand, I really don't understand. "

In fact, it was not only He Chenguang who didn't understand that he boldly stated his thoughts, but also the thoughts of everyone present, but no one was willing to pierce all the window papers like him.

An Ran stood where he was, and he didn't say anything, because they all felt that they were indeed arranged by Professor Fang.

Although Fan Tianlei felt this way, he couldn't agree with He Chenguang's idea at this moment, which would only shake the morale of the army for completing the task. This will only discourage everyone from getting things done.

In fact, although Professor Fang is Fan Tianlei's teacher and his savior, and raised him so much. Professor Fang's kindness to Fan Tianlei can be said to be as heavy as a mountain.

If it is true, if he is unwilling to help Fan Tianlei or Country H, no one will compare to him, but he always shirks his own ideas step by step, and does not actually help him do anything. Fan Tianlei was very dissatisfied, or had some doubts about him.

Is it really my teacher who is using me to get to today step by step?

Thinking of this, Fan Tianlei still made up his mind and shook his head.

Walking up to He Chenguang, patted his shoulder and said:

"He Chenguang, I understand your thoughts very well now, and after completing the task for such a long time, you also have some emotions, and you have not had a good rest, I can understand what you said.

But now that we have reached the present, we might as well go one step further. If Professor Fang is still unwilling to help us do some of our own things after this matter is completed, then we should just let him go.

And after this incident, I plan to have a good talk with Professor Fang.

He doesn't need to change our original intention for us, and help us do some things he doesn't want to do, although we, especially I, have also received his favor.

But we have also done a lot of things for her. It cannot be said that we have canceled each other, but I can only say that I have done everything I can do for him.

If he really still doesn't want to help us, I have nothing to do, and I can't continue to waste time on him. "

In fact, Fan Tianlei had already made his words very clear at this time, and everyone present also knew what he was thinking.

Qin Yuan looked at Fan Tianlei with some helplessness and sadness. So he could only go to Fan Tianlei's side to comfort him and said:

"Thunder God, I am very clear about your thoughts at this moment, and I understand you very well, we have no other complaints, and I also know that it has been very difficult for you to do everything for so long.

But I am willing to do this for you to fulfill your thoughts and wishes.

If Professor Fang is still unwilling to help us after we finish this matter, then I have no other choice, we just let him go as you said. We are not too **** others. "

Chapter 1870: crisis of confidence

When Fan Tianlei heard Qin Yuan say this, he himself felt very relieved, and he could feel that there was a person who understood him very well, the kind who understood him wholeheartedly. Fully able to understand their own ideas.

Therefore, Fan Tianlei also said to Qin Yuan earnestly:

"Thank you for understanding my thoughts for so long, you should help me and Professor Fang for the last time in this matter.

We will try our best to study his two apprentices. If he is still unwilling to help us after we finish this matter, then I have nothing to do, and I can't force him to do anything. We just had to let it go.

In this case, we can't say that we are cleared up, and we will never contact again, at least I don't feel so uncomfortable in my heart. So in addition to helping the wrong person to complete the task, you should also consider it as helping me personally fulfill a wish that I have never fulfilled. "

Qin Yuan patted Fan Tianlei on the shoulder and said:

"Don't worry, I will leave the matter of Thor to me. I will never let you down, and I will also bring He Chenguang with me on this matter, lest he keep saying that I have nothing to hide from him. "

Unexpectedly, Qin Yuan's words made everyone present laugh.

He Chenguang also stared and said:

"Are you kidding me here? I didn't say I had any complaints just now. I just felt that everyone kept everything from me and didn't treat me as their own.

You know what a negative it is for a man.

And when I have personal mood swings, don't you allow me to have a little personal mood swings just now? I am not a saint either, can I maintain such a perfect and rational state all the time? "

Qin Yuan knew very well in his heart that after so many years of getting along with He Chenguang, he knew that what He Chenguang said was because he already felt that there was something wrong with his emotions just now, and it was a manifestation of admitting his mistake to everyone.

So Qin Yuan quickly smiled and said:

"We are all human, and no one is a saint. It is difficult to maintain a very stable mood all the time. It is normal to have mood swings in a perfect state. We don't blame you. We will definitely think about your mood in the future. I won't turn a blind eye to you as before, as if I didn't consider your feelings, making it true that we are all wrong."

Fan Tianlei saw that everyone was stepping down the steps for He Chenguang, so he had nothing to say, and continued to follow Qin Yuan's words:

"Yes, when everyone is emotionally unstable, I can't blame you. It is true that we did not do well enough just now, which made you feel uncomfortable. Let's go back and talk about what we have. Here It's not where we make our plans."

As soon as Fan Tianlei finished speaking, he turned his head and saw that Gong Jian had disappeared. You asked him suspiciously:

"Where is Instructor Gong Jian? Did you see where he went just now? Why didn't I see where he went, and suddenly turned around and this person disappeared."

An Ran said to Fan Tianlei next to him:

"Instructor Gong Jian went out just after answering a call. I don't know what he was going to do. He saw that we were answering Professor Fang's call, and he didn't bother us. He just waved to me and went out. It should be Are you out to answer the phone?

But go out to answer the phone, he should be back now, he has been out for a while. "

When Qin Yuan heard this, he was also very puzzled. What important call could Gong Jian have at this time? In front of them, you can't feel where you handed over and secretly answered the phone behind their backs.

But as soon as he thought of this, he turned around and saw Gong Jian who had just come in from the door after answering the phone.

Qin Yuan hurried forward and asked:

"Where did you go just now? We searched here for a long time but couldn't find you. An Ran said that you went out to answer the phone."

Instructor Gong Jian said blankly:

"Yes, I just went out and got a call from a very important department. I didn't expect this spy to act so quickly. We just carried out the opening operation of this secret box here, and someone over there has already spread it.

How about it? You look at our enemies, how terrible is this kind of efficiency. "

"What? So soon, someone has passed our news? I can't believe that this spy's ability is too terrifying."

Fan Tianlei's eyes widened, he couldn't believe it, and said in horror.

At this time, Qin Yuan and He Chenguang also had doubts on their faces. They didn't know when they left the news.

Qin Yuan shook his head and said:

"Let me just say, for such a secret mission, it is impossible to gather people from all departments. How can it be possible to do secret things in such an environment like a vegetable market?

Although we have to brainstorm. Gather all your thoughts to solve this matter, and you can no longer be so careless and make such secrets public.

Although I am also very surprised by this spy's ability to act, but after all, it is a loophole in our missions. I'm important, but that's to be expected. "

Fan Tianlei also realized at this moment that he was indeed not calm and hadn't thought through how to deal with this matter.

However, fortunately, at this time, it was not so bad to find out in time.

Because after all, this mysterious and selfie has not been opened, and it is not known what exactly is inside, so the spy has no way to reveal him to the enemy.

He Chenguang, at this time, completely expressed Fan Tianlei's inner thoughts.

"It's okay, it's okay, this is good news for us, and it's bad news."

Qin Yuan asked suspiciously:

"How do you say that? What do you mean is good news and bad news again?"

"The good news is that we know that there are indeed spies inside, and they may be among the people just now. This also narrows the scope of our search for spies. And we didn't have any real secrets just now, and we were afraid of others know.

The bad news is our news, leaked. "

An Ran heard what He Chenguang said, and he smiled beside him and said:

"I also think what He Chenguang said is right, but after this incident we have to be cautious in doing other things, and now this mysterious cooperation, I think it is very unsafe to put it here, since we If we fail to open it to discover the secrets inside, then someone will definitely want to continue to do this for us, so our top priority now is to XZ this thing up.

After waiting for Professor Fang's apprentice to be rescued, personally ask Professor Fang to help us solve this matter. "

Qin Yuan looked at An Ran and said:

"Didn't you listen to our analysis just now? What we just said is that maybe Professor Fang doesn't want to help us at all. The reason why he agreed to help us is because we gave him too many favors, and he has no way to return them to us. We He helped him several times, but he just wanted to return us a favor, not in the real sense, he was on the same front as us from the bottom of his heart."

An Ran looked at Qin Yuan and said with his smiling expression and gentle tone:

"Even if he doesn't want to help us in future research on military weapons, at least he will help us in opening this mysterious box.

Because in a certain sense, whether he wants to return our favor or really wants to help us, it is not a problem for him, and it does not violate the creed of peace that he has always believed in. "

Fan Tianlei also agreed with An Ran's words, because you think so about other things, regardless of whether Professor Fang is willing to help us in the future, but he will definitely not refuse this matter.

At this time, the instructor Gong Jian looked at everyone's situation, and he reminded:

"At this time, even this location is not safe, we shouldn't stay here to discuss the research plan of Jimi, and this mysterious box must also be put away.

Why don't we leave here now and go to a secret conference room to study this matter. The secret plan to rescue Pakistan must not be known by spies. "

After listening to Gong Jian's words, Qin Yuan nodded vigorously, and he very much agreed with this idea.

So, he hurried to the research table to take it off, and put the unopened mysterious box in his arms.

He Chenguang hurriedly asked:

"What are you doing?"

"If you want to take this thing away, you must hand it to me personally, so I can rest assured. Thor, from now on, give this box to me. I don't want anyone to know what this box is in. The place, and all the people on it."

He Chenguang followed up and asked:

"What? Don't you trust any of us here now? Have we all aroused your suspicion? Fortunately, we have fought side by side for so long, don't I naturally have no trust in your heart?

If you don't trust me and An Ran, don't you even trust Thor and Gong Jian? "

Obviously when He Chenguang said this, he was also a little angry, because just now he felt that he had no status in this team, and now everyone is still hiding things from him, and his own body is naturally a little bit Not happy.

Unexpectedly, Fan Tianlei said at this time:

"I think Qin Yuan's approach is very correct. It doesn't mean that he doesn't trust everyone here, but it's because he can fully think about the consequences of this incident. I feel very relieved."

Instructor Gong Jian has always admired Qin Yuan very much, so he didn't understand this behavior, and became distrustful of himself. Instead, he felt that Qin Yuan, a child who does things decisively, is very suitable for completing tasks in the army. It is indeed the king of soldiers brought out by them.

Therefore, Gong Jian knew the reason, and continued following Fan Tianlei's words:

"Don't misunderstand the meaning of Qin Yuan's actions. One less person who knows is more safe, including all of us above. Maybe we don't want to betray our organization, or this secret is leaked go out.

It's just that if you do this, you will better protect this secret.

Everything we do is for the sake of organization, so everyone has a little more understanding, don't get me wrong. "

An Ran also walked up to He Chenguang and patted him on the shoulder and said:

"We are all comrades-in-arms fighting side by side, and we will not doubt our companion's intentions just because of such a small matter. If the trust between us is so fragile, how can we be regarded as comrades-in-arms? You say so!"

He Chenguang said embarrassedly:

"Yes, yes. That's true. I just said it casually, just teasing Qin Yuan. I didn't think so much, and I didn't take it to heart. Don't worry. Blame me for talking fast. My fault, I wrong."

Everyone is not an outsider, a few words, laughing and joking will pass, no one will take it to heart.

Fan Tianlei emphasized it again:

"Let's find a secret place and study the rescue plan to go to Pakistan. We don't dare to rush out without a plan. We must be 100% sure before we go. You all know what kind of place Pakistan is. .

There are mixed fish and dragons there, and the management is very chaotic. If you go to that place rashly, it may touch the local interests.

I'm afraid that some of you guys went to Pakistan and never came back. "

Qin Yuan said proudly:

"Thunder God, do you not trust my ability? Am I so unworthy of your trust? Really, I often preach that I am the strongest soldier king. I see you are deliberately brainwashing me Well, I see you as a leader who really never believed me."

In fact, Qin Yuan knew in his heart what kind of dragon's pool and tiger's lair Baguo was, but because he had this amazing one-key recovery system on his body, he was naturally a little bit proud and complacent.

An Ran also said:

"Raytheon doesn't mean that, How could he not trust you, he just reminded you to be cautious, your ability is what we witnessed with our own eyes, there is absolutely no problem.

However, a wise man is bound to make a mistake if he thinks about it for thousands of years. You should be careful when sailing for ten thousand years. What do you think, Qin Yuan? "

In fact, Qin Yuan has always respected An Ran very much. So whatever An Ran said, he would immediately adopt it. In fact, Qin Yuan himself didn't understand why he had a very special feeling for An Ran, but he just believed in him from the bottom of his heart.

At this time, Fan Tianlei said:

"Besides, Qin Yuan. If I don't trust you, I won't let you keep this mysterious box in person. You can hide it wherever you want.

However, you'd better hide it in a secret place, because I don't think you'll need it for a while. "
