

## Special Soldier 1871

Chapter 1871: secret location

When Qin Yuan heard Fan Tianlei say that, he thought to himself, I have exactly the same intention.

You must find a particularly safe place to hide this secret box, and you must not let the second person know it except yourself.

Including everyone present, Fan Tianlei, Gong Jian, He Chenguang, and of course, including An Ran. Not letting any of them know.

In fact, several places that Qin Yuan thought about in his heart were not very suitable. After all, this place must be carefully chosen so that no one else can know it, only him alone.

If this is the case, this news can be revealed, it means that some of them must be very suspicious.

Although it is indeed a bit wrong to think so, but after all, the heart of defense is indispensable. Such an important matter must not be leaked out, and if there are really spies from other countries among them.

Then, this is undoubtedly a double blow for Qin Yuan.

When he was present, he regarded everyone as his best friend and comrade-in-arms. If someone here really wanted to betray them, then he was betrayed not only by his comrades, but also by his friends.

When Qin Yuan thought of this, he had a cold war, and he didn't dare to think about it any further.

At this time, Fan Tianlei said:

"How about this? Although this matter is very urgent, we have been here for a long time. We should go back to rest. We will go back to have a meal and rest in a while, and then we will go to the secret meeting last time at night. meeting room."

After he finished speaking, everyone agreed with this point of view.

An Ran said:

"Well, well, let's go back and have a rest first, if there is anything, we will continue to contact by phone, but this box is still troublesome Qin Yuan, please find a place to put it away, don't let others find it. "

Qin Yuan looked at An Ran, then nodded vigorously. Turning around again, he said to Fan Tianlei:

"Since that's the case, then I'd rather be respectful than obey orders and leave this matter to me alone, including you Thor. I won't tell you either."

Fan Tianlei nodded vigorously with his eyes closed.

Afterwards, everyone came out of the research room, and each of them returned to their own places to take a rest, and then continue the meeting at night.

Standing in place, only Qin Yuan was left holding this mysterious box, not knowing where it should be hidden.

After a while, it began to rain heavily outside.

Qin Yuan wondered if the box was waterproof or not. If the important clues inside were damaged after being drenched in the rain, wouldn't it be worth the loss. I'd better find a place to hide this box now.

But exactly where to hide it is really a question.

Because he didn't think about it himself, where is the safe place?

At this moment, Qin Yuan had an idea. Maybe you can let this one-click recycling system help you.

So, Qin Yuan hurriedly carried you and the box back to his room.

He didn't dare to delay for a moment, and immediately called out the system.

"System, come out quickly, I need your help."

"Ding Dong, long time no see master, at least since you got so many merit points last time, you rarely call me out now, this is also a good thing for me, and it is also a good thing for you, because It means that Master, you don't need my help."

"Why have you talked so much about this system since it hasn't been released for a long time? Did you secretly upgrade again?"

"Ding Dong, I didn't expect you to discover all of this."

"Then it's upgraded again this time, what a good thing, please tell me quickly, let me try these new functions that you upgraded."

"Ding dong, this upgrade is only to fix the bugs of the previous upgrade, and there are no special new features. I'm sorry to disappoint the owner."

Qin Yuan felt a little disappointed when he heard this. Because I still hope that this system can have some new functions to help me hide this secret box, because I will go to Pakistan to implement this secret rescue plan soon.

"Well, although you haven't upgraded any new functions, I still want to say one thing to see if you can help me. It would be great if you could help me, but if you can't, I have nothing to do."

"Ding Dong, no problem master, you can tell me first, if I can help you, I will be very satisfied."

"This box, I need to hide it in a secret place, but I don't know where it can be hidden without so many outsiders discovering this problem. I want you to help me think about it."

"Ding dong, it turns out to be such a small matter. No problem. The system will find all the secret places nearby where you can hide things for you and test the secret level of each place for you, as well as the probability of being discovered by others. Does the master need it?"

Qin Yuan thought about the feasibility of this matter in his mind, but since he took the initiative and wanted to help him find a nearby secret location, it meant that this function did not need to consume merit points.

Calculated in this way, it is more cost-effective for me. After all, I don't need to consume this thing, so I might as well let the system help me introduce it. If I really find a suitable place, then I don't need to waste my brain cells.

"Okay, no problem, then you can help me find a few nearby places where I can hide boxes."

"Ding Dong, I am looking for a nearby secret location for the master, please wait a moment..."

Qin Yuan himself was also looking for a place to hide in this room, but he thought in his heart that this place was definitely not safe, because as long as someone knew that he had brought this thing back, he would definitely be the first Choose to hide in your room.

And once I am not here to go to Pakistan to perform tasks, then it means that my room has become a public area that I can enter and exit at will.

How can such an important thing be safely hidden in such a place?

While he was thinking about it, the system had completed the search prompt, and suddenly it sounded in Qin Yuan's ear.

"Ding Dong, I have already found for the master, five places suitable for hiding things nearby, please select the master."

"Okay, okay, then tell me which five seasons are around here, which are suitable for hiding things?"

"Ding Dong, the first place is under your bed, master. There are many secret things hidden under the bed, such as unwashed socks and underwear, which are usually not found by others, and are not accessible to others. I came here easily, so the secrecy value of this place is 50%, and the chance of being discovered is about 32.9%."

After listening to the system's analysis of him, Qin Yuan's face was filled with black lines.

He didn't expect such a secret place to be discovered by him, but this is not a place suitable for hiding things, it's just that he is lazy sometimes.

According to this statement, no one would look for things under the bed at all, because as boys, everyone is used to throwing things under the bed like this.

Thinking of this, Qin Yuan quickly shook his head and said:

"What kind of place is this? No, no, absolutely no, how can we help here?"

"Ding dong, then may the master want to find the next place to hide things?"

"Of course, of course. Just show me what's your next hiding place?"

"Ding Dong, the second hiding place I found for the master is your closet. There are bank cards that have grown over the years, photos of your children, and some girls' magazines..."

"Shut up, shut up! Stop talking, I know what you want to say next."

At this time, Qin Yuan never thought that he was still being played by this system. Talk about the secret things that you have collected that you can't let others know.

However, these places are all that I can think of and feel inappropriate. Why does this idiot system find some unreliable places, it's better to let myself think about it, it's a waste of time with him.

"Ding dong, master, I haven't finished the report yet. The confidentiality value of this cabinet is about 56%, and the probability of being discovered is about 72.3%."

Qin Yuan was really annoyed by this system. Then he said angrily:

"Look at this place for yourself. It might as well be under the bed just now. How did you find it for me? I think your system is deliberately playing with me. It really \*\*\*\*\* me off."

"Ding dong, it seems that the owner of the two hiding places found for the master is not satisfied, so next, I would like to ask the master, do you still need to continue to provide you with the secret place for hiding things that the system found for you?"

"Okay, okay. Just take a look at the broken places you found for me. Are they reliable? I suspect that you are playing with me? Let me think about it myself and wait for you Ah, the day lily is cold, this is the most unreliable thing since I know your system."

"Ding dong, good master, if there is nothing else, I will close it."

"Uh-huh."

After the system was shut down, Qin Yuan was alone in his room. Racking my brains thinking about where should this box be placed?

Suddenly, he had an idea, and a gleam of light flashed in his eyes.

Then, Qin Yuan said to himself:

"It is said that the most dangerous place is the safest place, and the system is right. It is indeed the safest place under the bed. There are my smelly shoes, smelly socks, and unwashed underwear.

However, it is not okay to just put it under the bed, but it is a good choice to bury it under the bed. "

That's right, what Qin Yuan wanted was to dig a hole under the bed, and then put this mysterious box inside, so that it could not only isolate the wireless signal, but also hide in the city, and no one would find out if it was kept secret here.

Fortunately, Qin Yuan lives on the first floor, so he can find a way to dig a hole.

Well, that's it. The heart is not as good as the action. Hurry up and find a way to implement it.

However, Qin Yuan seemed to think of this matter too simply. Although this is the first floor, it is also a concrete floor, and it is definitely not easy to dig a hole.

However, no matter how difficult it is, this matter must be done.

After all, this secret place is the only perfect place Qin Yuan could think of.

So, Qin Yuan hurriedly searched for tools to dig holes in his house. After a while, I found a toolbox, which contained pliers, a small ax, and a small shovel.

Qin Yuan looked at these toy-like gadgets, and couldn't help feeling that they were a little bit funny. At this time, Qin Yuan said to himself:

"Just these small tools really make things difficult for me. No matter how powerful I am, I can't do this. The ground is reinforced stone slab concrete. There's nothing I can do if this small tool is scrapped.

There is no way, let's try first. "

So, after speaking, Qin Yuan picked up a tool to pry the floor tiles first.

At this time, Fan Tianlei called.

Qin Yuan struggled and forcibly took out the phone on the spot and said:

"Hello? What's the matter, Thor? Let me just say, are you really, so inseparable from me now? I just went to my room to do some serious things, are you so impatient? I think you are really me A stumbling block in the path of progress."

"You kid really don't take the chief of staff as a cadre, do you treat your leader like this? Let me tell you! You should reflect on it now."

"What are you reflecting on? Have you summed up the relationship between me and you with such a simple relationship between superiors and subordinates? I just think that since the first day I joined the army, I have known you, and you have given me such great respect. help. So in my heart, you are a comrade-in-arms relationship fighting side by side."

"Well, You really have the ability to say such impolite things so righteously. I just want to ask you if you have found a suitable place to hurry up and put this Is the matter settled? Don't be discovered by those spies! It's you, who can't catch a spy if you're trying to catch a spy, how can you say hello?"

"Hey! Thunder God! It doesn't make sense for you to say that. Do we still need to say that? I want to catch spies wholeheartedly, but have you given me such a chance? You haven't given it either. I have a chance! One will let me help you rescue Professor Fang, and another will let me help you rescue Professor Fang's apprentice. Have you considered my feelings?"

Fan Tianlei on the other side of the phone was speechless by Qin Yuan, because he really couldn't say anything about this matter. I had no choice but to let Qin Yuan speak.

But I am not wrong after all, I have to do everything step by step, step by step. Can't be in a hurry.

"Okay, okay. It's all arranged by me, you kid has been reasonable every day."

Chapter 1872: The secret everyone wants to know

Qin Yuan didn't continue to talk to Fan Tianlei, he just talked to him perfunctorily while digging a hole in the ground.

Unexpectedly, Qin Yuan's strength was not small, and he quickly dug out the hole.

Fan Tianlei said on the phone:

"How is it? Have you hidden it?"

"Thor, why are you so concerned about this matter? Do you know that your appearance is really suspicious? If you continue like this, I have reason to suspect that you want to pry some secrets from me. Woolen cloth!"

"Don't talk to me here, kid. Don't you know me? I just want to ask you if you have hidden it. Hurry up and come to the meeting. This rescue plan is urgent. If you waste a minute here, the time may be lost." Leak our news."

Qin Yuan's face has been blackened by the soil from the hole he dug.

He carefully placed the device in the hole, and then tightly packed the soil he just dug out. It's like burying an urn.

In fact, Qin Yuan felt a little guilty when he saw such a situation in his heart. But what can be done, after all, this is the safest place, if you don't want to be known by others, you can only rest assured by hiding in it.

Qin Yuan hurriedly said to Fan Tianlei on the phone:

Wang Yanbing looked at it, and then said:

An Ran said in a gentle tone:

"What's the matter? Thor, what is he doing with the toolbox? Is there nothing to fix? Do you need your help?"

"Don't talk nonsense there, what a hole, you are not too tired from being tossed by He Chenguang in the past two days. Then you just wanted to lie under the bed and sleep, and suddenly found that your bed creaked when you lay down steadily ringing.

I was just not distracted, I was talking to He Chenguang, but I could hear that sentence clearly.

Lei Shen stood at the door and did not let Fan Tianlei retreat. Bao Aiwan, just peeked through the crack of the door to see what was going on outside. I saw that there was no toolbox on the ground, so I hurriedly asked:

Raytheon hadn't been exhausted for a long time and was really in the mood to continue bickering with Wang Yanbing, so I stood where I was and didn't say anything.

"You forgot, you really forgot. Did you think that he would be a great carpenter afterwards."

Fan Tianlei shouted outside the phone:

Bao Ai looked at Wang Yanbing with sharp and suspicious eyes.

I am sure that I am really the enemy's point of view, so it is very difficult to expose the fact that I hide the box.

"It's not because I haven't seen him for a long time. I just heard from my comrade-in-arms that he suddenly returned to his room. You are also very curious. Why did he come back suddenly? Did he perform any secret mission? "

Bao Ai lay on the crack of the door and saw that Bao Aiwan hadn't gone very far. Bao Ai just returned outside the house, just about to continue talking to He Chenguang, but thought that I hadn't hung up the phone yet.

"It's really unlucky for him. You can see that the outside of his house is full of dust. If you can help him clean up the outside of the house, then you can go to He Chenguang after cleaning up."

Wang Yanbing could only smile in embarrassment and said:

"Is he alone outside the room? How come no one knocked on the door? At that time, he knew that he was hiding something secret. Why did no one knock on the door? Who was he just now?"

Then Wang Yanbing asked again:

He Chenguang said calmly outside the phone:

"Even he has finished learning to speak well of you, right? Look at them, some are small and some are brought up by Bao Ai." Fan Tianlei nodded beside him and did not continue to beg.

Xiaoxiang app search "Spring gift" New users get 500 book coins, old users get 200 book coins]  
The person who came was Bao Aiwan.

Fan Tianlei only smirked and said:

At that time, a doubt appeared in Thor's mind.

It's really not arousing at all.

"How can you call him supervising him? You are just cooperating with his work, and he has to report to you before he hides the matter. You must make sure that no one knows it 100% and can definitely disclose it." Let the seventh person know that you are included.

Very slowly, the two of them came to the door of the conference room and found that no one came over for the time being.

Thunder God was shocked when he heard Wang Yanbing's words. Could it be that the big guy discovered it so slowly?

Lei Shen took a deep breath, then turned around and went back outside his house to take a jacket and prepared to walk with Wang Yanbing, the secret conference room where you will have the next meeting.

That was indeed the case. Since the next mission started, Thunder God had been with Bao Aiwan to take charge of Professor Fang's matter, so he never met Fan Tianlei again.

While Bao Aiwan was complaining, He Chenguang also hurriedly retreated from the inside.

As soon as the door was blown open, I looked at Wang Yanbing with an angry look.

"You also want to come here to help him with work. If he wants to need you, you can help him get it. If it is definitely needed, you also hope that he has no work to find you.

"Is he lazy outside the dormitory, but you saw it."

Bao Ai smiled, looked at An Ran and said:

So, I turned my head back and walked out of that place.

Several people just walked back to find their own seats, sat up, and waited for He Chenguang's arrival.

Lei Shen hurriedly opened the door and saw that I turned out to be a strange face.

"Qin Yuan, you understand what he means, but is he trying to say that there are no spies among you?"

"You have nothing to pay back to me. You just think that the relationship between the two of them is relatively close, but you have to remind him that he is definitely to be underestimated. Now that the enemy knows that your box is hidden Our very important newcomer, so we will definitely do everything possible to get rid of it.

"He doesn't seem to care about that matter at all, and it's very difficult to cause, you can believe it."

"Should he do that himself? He can't ask someone else to do the job, or he can call you. He wants to forget that you are a very good carpenter after enlisting in the army."

Because I didn't care about that matter, I came to my room on purpose to inquire about the news, but I didn't make everything go wrong, so I came here.

"It's used, it's used. He can see that you are so disgraced now, you haven't been writhing on the bottom of the bed for a while just now. You haven't repaired that bed yet, so he really came here It's time, if it was the last time, if nothing like that happened, you will definitely take the initiative to call him."

"How could it be? You're just asking carefully, and if he's unprepared, let's go to the meeting room together."

Thor had just worn out the box, and before he was too tired, he collapsed on the bottom of his bed.

"Yeah, I'm the only one of you who wears low heels, and he's talking nonsense."

"He hasn't said that very many times, but why did he suddenly put on a weak tone? Where is Instructor Gong Jian? He is a comrade in arms who fought side by side with such a young man. Could it be that he is suspicious of me? ?"

At this moment, Raytheon, what he thinks outside his mind is that there is really no comrade-in-arms by my side. If it is indirect, then there is no way for my classroom to accept it.

At that time, Bao Aiwan walked over from nearby.

"How is it? Where is his own box? Do you think he is digging a hole in the ground now that he looks exhausted?"

Then you hurried upstairs to pick it up, and the toolbox came down to repair it and put it on the bed, but you just repaired the bed, and when you saw it, I called you and told you to go there quickly. "

Thor patted his forehead, smiled and said:

"Is he also very interested in what you did? You don't feel flattered that they are all asking you about it. After that, you would tell anyone about it, including He Chenguang of course. and Gong Jian."

Of course, Gong Jian was also included. "

However, none of them are too bad. Why did Fan Tianlei appear there at that time?

"It's just a belief of yours. To put it wrongly, it's a reasonable belief. For a place like yours, all kinds of military secrets come into contact with you every day. He needs to know if he's not careful. It will be a disaster.

Bao Ai had just cleaned up the mess outside the house, and then wiped her face again. He turned around and walked out the door, seeing Wang Yanbing approaching nearby.

Although Bao Ai was a nervous and stingy person when she was gone, I was still very cautious about that kind of thing, and it was definitely possible for others to find that she had no clues to be suspicious.

"Did he see, just now when you were under the bed, Bao Oiwan called you.

Bao Aiwan smiled and said:

"Why is he here? Have you really seen him for a long time since the start of the next mission?"

"Let's go, you all go back and take your seats."

"It seems that his male \*\*\*\* should have come over safely."

"Thunder God has basically hidden this box on my side, and the next thing is to do other aftermath work. You don't need to supervise me here, I can do a good job myself."

"The corner of your bed outside doesn't feel too stable, and it always creaks when you go to bed at night, so you might as well get a toolbox and see if there is no place on the outside. You can't fix it yourself first."

Broken, make fun of him. You are going to the cafeteria to eat now, what if he wants to go with you? "

He Chenguang asked outside the phone:

That time, I took the initiative to come down to find myself, and Bao Ai also expressed her surprise.

Even if we would sacrifice a single coin to a spy hiding in a boy in your army, we'd have to get what's out of the box, so do you hear what you're saying? "

So each of you should have an attitude towards everything, and be able to maintain a trusting attitude anytime, anywhere. Although the relationship between you is a kind of comrade-in-arms fighting side by side, you also have to remind him that he can definitely get lost in any relationship, especially for your profession. "

Does that have nothing to do with Fan Tianlei? I always feel that it is too possible, although I just listened to Bao Aiwan's words to trust everyone around me reasonably, but I still dare to doubt that everything has nothing to do with Fan Tianlei.

At that moment, there was a sudden knock on the door.

Wang Yanbing, while talking, turned his head and looked at Thor outside the house.

At the time of Thunder God, when I saw Bao Aiwan, my first feeling was that it was kinder. I haven't seen that comrade-in-arms in a long time, and I saw the brother who fought side by side and went through life and death.

Wang Yanbing said with a complaining tone:

Thor was lying on the ground with his eyes closed. I really felt very tired at this moment, because in fact, I have long believed that or there are no enemy spies around me, but I am willing to doubt and dare to doubt.

"The chief of staff is not the chief of staff. He hates to think behind you in everything. Obviously, I let you come here first, and then let you wait for me there for so long."

"The two of them came so slowly? I thought they were quite positive about that matter. How is Thor's business going?"

"Anyway, let's talk about something serious. How is his box not hidden?"

Outside the dim corridor, a faint ray of light shone under the floor, and a graceful silhouette in low-heeled shoes came hurriedly from nearby.

I have no way to maintain a reasonable attitude of trust in lakes anytime and anywhere like Bao Aiwan said.

Lei Shen covered the phone's receiver, and put the phone under his bed, so that someone could find out that I was talking on the phone at this moment.

Thor turned his head and pointed to the phone under the bed, saying:

Lei Shen's face changed when he heard that, because I was fat, and Fan Tianlei saw through everything behind my eyes.

The things I have done can definitely be found by the enemy in any aspect.

Wang Yanbing, who was still far away, said in a low voice:

Lei Shen hurriedly said perfunctorily:

At that time, Bao Ai looked at the time on and off the phone and felt that it was indeed early and it was time for a meeting. I tidied up my room and repacked the toolbox I had just used, and I dropped the dirt that was under the tools.

"He asked you to step back and help him take a look?"

You are quite tired now, and you want to go to the cafeteria to eat with him, but I let you go, I have nothing to do with you, so let him eat first, and you can pack up and send the toolbox back later, and you can Go find He Chenguang. "

Is Bao Ai answering that question, because it is possible for An Ran to do that thing outside of my heart.

At the end of the corridor, Bao Ai and Wang Yanbing looked at the shadow working inside, swaying right and left, walked behind the two of them.

Fan Tianlei said with a smile:

The two of them were about to leave the conference room first, and stopped after waiting for a while, when there was a sound of low-heeled shoes outside the corridor.

"Of course not, you will listen to what he tells you, because whoever he tells about that at that time will have the smallest group. You want to provoke such a small suspicion in a proper way." ."

Chapter 1873: Pakistan Rescue Plan

Qin Yuan hurriedly said:

"Hey~ You can't say that, Thor. You are slander! Naked slander. Besides, you should be blamed for this matter."

Fan Tianlei said suspiciously:

"Blame me? How can you blame me?"

Qin Yuan tilted his mouth and said with a smile:

"It's all my fault. You spoiled us. You don't have the airs of a leader at all. It's not your fault. Whether we are big or small, you indulge us."

An Ran also stood up, walked to Fan Tianlei's side, and said:

"Thunder God, haven't you heard it yet? This is their compliment to you!"

"Let's study the next rescue plan to Pakistan. I think we need to make a good plan. I believe you will know what kind of place Pakistan is without me telling you."

Qin Yuan was quick to speak, without any hesitation, he came up and said:

"Raytheon, I don't have any other ideas. I'll leave this matter to myself. Pakistan is too dangerous, and I don't plan to take more people there."

Before Qin Yuan finished speaking, He Chenguang hurriedly said:

"No, I don't worry if you go alone. Since it's a dangerous place, then I'll go with you. I absolutely can't let you listen to a good brother like me going to such a dangerous place alone. , I will go with you. Thor, do you agree?"

Fan Tianlei didn't have any ideas, because his initial idea was to let He Chenguang and Qin Yuan go to Ba to rescue Professor Fang's disciples.

An Ran said at this time:

"I think it's better to let the two of them go together. After all, going to a place like Baguo is impossible for one person to deal with. If you two do this together, you will have a companion.

I'm sure Thor wouldn't be at ease if any of you went it alone. So you just listen to his words and take the two of you together.

Or take Chen Jixiang and Li Zheng, who went on a mission last time, with them. Because you have already completed a mission together, and you have completed it perfectly, you already have that kind of tacit understanding between teammates, if you go to teach a new mission together, you don't need to run in again. "

When Qin Yuan heard what An Ran said, he quickly stood up and denied:

"No, no, absolutely not. I can't take their two children with them. It's fine if they are on mission in our country. Although they have little experience, we can guarantee their safety. But if they go to a foreign country, There is no way I can guarantee the safety of the two children.

Instructor Gong Jian, I'm also telling you this. After all, they haven't really been transferred to our army yet, so in this sense, he also belongs to you. But I absolutely cannot accept this matter, and I cannot let him go with me.

Because I don't have any thoughts about Pakistan, the customs there, and I haven't been to the place where he and I were born, and now I can't guarantee that Effiete and the others didn't know about it. "

Unexpectedly, this time, the instructor Gong Jian did not stand on Qin Yuan's side, but he actually spoke for Fan Tianlei.

"I think what Lei Shen said makes sense. If you go alone, I will never give up your regrets. If you go with Shen Guang and the two of you, I will not feel relieved.

Haven't you heard of the power of the crowd? Although we are going to a foreign country, it is absolutely impossible for the two of you to form a team to carry out the mission.

The first one is that we don't know Effiete, do they know the current situation now. If they know that you are going to Pakistan, they will definitely rush ahead of you or follow you.

If they really intercept you, then the two of you will be completely helpless. Let's bring both Chen Jixiang and Li Zheng. "

"If you agree, I think I want to go too."

An Ran said calmly beside him.

Qin Yuan hurried to this side and almost covered An Ran's mouth.

"Okay, don't think about it anymore. If we are a group of big men, don't go to point at any girl. Although I know your ability, I won't deny it.

But I will definitely not agree, you will go with us to perform missions like this. I already have a very good idea, and there is no place for you in this plan. "

Fan Tianlei said in surprise:

"You already have a plan? Then tell me quickly, what is your plan? You kid can tell you to go back and hide things. I didn't expect you to plan a rescue plan?"

Qin Yuan thought that he had no feasible plan here, when he just returned to the room. All I could do was think about where it would be safer to hide this mysterious box.

How could there be time to imagine a perfect rescue plan? It's just my own imagination, wait for a while, if they just want to know, they just blurt out and make up a plan now.

An Ran said at this time:

"Qin Yuan, are you sure you have a perfect plan? Or are you too tired to let me go with you, just talk casually?"

Qin Yuan thought in his heart that he didn't expect that it was you at this time, and An Ran would see through him next time.

He could only stand there in embarrassment, then raised his chest and said:

"You don't have to suspect me like this, I already have a very perfect and biggest one in my heart, but I haven't told you yet.

You don't have to press me like this, because I will tell you what I think clearly. "

Fan Tianlei is also an ignorant person, unexpectedly she hurriedly asked at this moment:

"What are you going to do later? If you have time, hurry up and tell us about this matter so that we can help you as a staff member. Is this plan really feasible?"

Qin Yuan looked at all the people present, and looked at himself with a very curious look.

Because the last rescue plan was planned by him at his own discretion, and it was implemented very smoothly. Do they think they have a perfect plan this time like last time?

But it really disappointed them. I don't have any plan in mind now, let alone make it into a slide show for everyone. So he stood there awkwardly afterwards, only one plan appeared in his mind.

That is to grab!

Qin Yuan said decisively:

"I didn't imagine that much. I only had one very perfect plan in my mind, and that was to grab it. Anyway, Pakistan has always been a place full of wars, and no one would care about one more shootout or one less shootout." ."

He Chenguang's eyes widened and he gave a thumbs up with his right hand, then nodded continuously.

"Qin Yuan, you are such a man. I didn't expect such a crude and simple method to be thought of by you. This is not a plan, this should be an action.

If your plan is so simple and straightforward, is it still a plan? Why don't you just tell us how to act?  
"

Qin Yuan quickly stood up and retorted:

"What do you know? Sometimes the simpler something is, the easier it is to do. The more complicated you think about the plan, the more difficult it will be to implement it, and the greater the probability of failure.

Now we have no way to predict so many things. You can't just think of things as bad. Maybe, Effiete and the others don't know at all?

And have you ever thought that if this matter is really leaked out, Professor Fang will be the first person to suspect us? Because he only told us. "

An Ran stood beside him at this time and said:

"No, not only told us. There is also the most direct person standing in front of him, and the person who knows the plan of this matter is Du Bingbing.

But I didn't mean anything else by saying this, let alone doubting Dr. Du. "

He Chenguang seemed a little restless when he heard Dr. Du.

"But what you mean by that is that you are a little suspicious of him. I can guarantee him. He will definitely not be our internal spy."

Qin Yuan had no choice but to help He Chenguang speak this time. Because he was also a person who went out to perform missions with Du Bingbing and experienced life and death together, he would never doubt his comrades.

Although he has nothing to do with Du Bingbing now except for work. But this time, he had to speak from the side of his comrades-in-arms.

At this time, Fan Tianlei stood up and said:

"Can you not hit your own people first? All our suspicions and doubts are meaningless before things are clear. We will only hurt the feelings between teammates. Why don't you young people

understand? , always like this, I really doubt how much anyone can hurt the feelings of comrades in arms between you."

In fact, when everyone said this, An Ran would feel very wronged.

Because he didn't mean that at all, he meant to say. When Professor Fang was on the phone, they were not the only ones around to obtain it. If the enemy wanted to monitor, they might also tamper with the phone.

But everyone didn't understand what he meant, that such a person stood up and criticized and accused him. This is absolutely unacceptable to him as a girl.

At this moment, Qin Yuan seemed to feel An Ran, and felt unhappy.

He saw An Ran standing there blankly without speaking, but there was a trace of anger and uneasiness in his eyes.

So, he walked to An Ran's side, patted his shoulder and said to him:

"That's not what we meant just now, and everyone didn't want to criticize you. Don't think too much alone. That's enough, everyone, don't talk about this matter again, let's hurry up and send this to Pakistan for research. Let's explain the plan first."

Fan Tianlei was obviously getting impatient. He just suppressed the impatience in his heart, and then said slowly:

"Okay, let's hurry up and talk about serious things. Don't be suspicious of each other for no reason here. Everyone should make it clear on the basis of evidence. And everything we do now is to catch spies.

Are you going to suspect each other for no reason now? This is too stupid, maybe this is also a kind of alienation plan by the enemy.

You need to know a saying called "Brothers with one heart, its benefits cut through gold." "

While talking, he looked at Qin Yuan and He Chenguang beside him.

Because in Fan Tianlei's mind, these two people have always been good friends who have lived together day and night.

After thinking about it for a while, Fan Tianlei still felt that it was absolutely impossible for Qin Yuan to go to Ba alone. At the very least, let him and He Chenguang go together so that he can rest assured.

"That's it. The two of you don't continue to argue. The plan to go to Pakistan for the rescue is just the two of you, and then bring Chen Jixiang. I can rest assured that the three of you are together. If there is any change. If so, the three of you can make many choices."

Qin Yuan himself, he wanted to go to Ba country by himself, and now Fan Tianlei asked him to bring He Chenguang and Chen Jixiang with him. His own psychology is naturally unwilling.

But in fact, what Fan Tianlei said is also reasonable. More people can make more changes in the plan. If there is any sudden unexpected situation, they also have some rights to choose.

An Ran also saw that Qin Yuan was not willing to do this in his heart.

So, she had no choice but to go to Qin Yuan's side, ready to dissuade him.

"Qin Yuan, I don't think you should be so stubborn. I know you don't want to involve other people in this matter, but you should also consider Chief of Staff Fan's thoughts.

As our superior leader, it is absolutely impossible for him to put us in a dangerous situation.

And this matter is not as dangerous and difficult as you imagined, as long as the three of you go together, you can complete the task 100%. "

An Ran, while speaking, winked at Qin Yuan.

Qin Yuan was forced to have no choice but to nod his head.

Seeing that Qin Yuan had agreed now, Fan Tianlei could only smile in relief.

"That's right! An obedient child is a good child. "

He was stroking Qin Yuan's head while talking.

At this time, He Chenguang said:

"Although our current plan is relatively simple and crude, and we have two apprentices of Professor Fang, the specific longitude and latitude location in Pakistan. But if we want to go there, we still need some procedures and certificates. This matter I still have to trouble Chief of Staff Fan Tianlei, you come and help us solve it."

Qin Yuan followed He Chenguang's words and added:

"That's right, and what's needed are fake documents. Don't register our real names and information."

Fan Tianlei rolled his eyes, and then said:

"Should I still use you two brats to teach me this kind of thing? I'm already preparing. It is estimated that they will be able to hand over the made certificate to me tonight."

Chapter 1874: valuable gift

As soon as Qin Yuan heard what Fan Tianlei said, he naturally had a great admiration for Fan Tianlei in his heart, because he felt that Fan Tianlei could think of this matter ahead of him, and he was afraid of him and He Chenguang in advance. And Chen Jixiang prepared all the fake documents and handed them to him.

It can be seen that he is not only a leader, but also very forward-looking.

Qin Yuan couldn't help giving Fan Tianlei a thumbs up in his heart. It seems that he has a reason to be a leader.

"I said Thunder God, you are really thoughtful enough, it seems that you have already made up your mind to let Chen Jixiang go with the two of us, then why do you want to hold a meeting for us to study who is with me?" How about going to Pakistan to rescue them together?

I think you are really suspicious of knowingly asking, why do you want us to say it ourselves? "

Fan Tianlei said with a smile:

"I've told you what the leader thinks. Don't you think that if you have done a little work, Ligu Diangong is just showing off in front of me. My small things are far more thoughtful and meticulous than you think."

Fan Tianlei raised his head while talking, with the best feeling in the world on his face.

At this time, the instructor Gong Jian, who had been silent all this time, whispered next to him:

"I think your research is quite good, but sometimes you are not very obedient. After all, you are still some children. No matter how profound mission experience you have, you still have to listen to the arrangements of the higher-ups when you complete the mission. Absolutely You cannot make your own decisions.

Of course, including your plan to go to Pakistan this time, you must not make decisions privately. "

Qin Yuan knew the Cavaliers in his heart, and both of them were a little bit worried, because he, as the leader of a group, was sometimes too upright and refused to listen to other people's dissuasion.

Unexpectedly, Gong Jian continued:

"Actually, Raytheon and I have already discussed this matter, but with the arrangement of this mission, we feel that it is necessary to let An Ran go with you, but we have not prepared An Ran's certificate, and we have not thought it through. Do you want to let him go.

Because he has been performing missions outside for so many years, although he has never had any mistakes, but you can always conclude that he is a girl from a foreign country.

I just came back here, and I want him to rest for a while, so we didn't arrange for him to go with you this time. "

Qin Yuan really got impatient with waiting, so he hurriedly said:

"Okay, alright, although we must plan ahead for everything we do, we should also have the ability to execute it. We need to be more efficient, so we can't waste time here anymore. Since we went to Pakistan to rescue The candidates have been determined, so why don't we move on to the next step now, and stop wasting time here."

When Fan Tianlei heard this, his face immediately became pale, and he said seriously:

"I really can't do without criticizing you. Just now I thought you had a bit of a steady mind, but I didn't expect you to become so edgy when you do things. Although we have confirmed the candidate now, there is still a specific rescue plan. Have you ever thought about what kind of methods they would come up with to deal with you if Effiete and the others really knew about this matter?"

It's not that Qin Yuan hasn't thought about this issue, but he doesn't think this issue is so important, because although Evert and the others are very experienced criminal gangs, they are organized and have execution and leadership skills.

But after all, they have fallen into his own hands after several times of Effiete, so now he feels from the bottom of his heart that they are not a threat to him, and they will not cause any obstacles to his original plan. and changes.

Instructor Gong Jian, in fact, he is the second person here who knows Qin Yuan well. He also went on to say:

"I knew that your sister-in-law is always so arrogant. For some enemies, if they are not very powerful, you will never take them seriously. You must know that pride and complacency refer to our biggest taboo as soldiers.

If you can't even be cautious and always despise the enemy, then what important task do you have next, and if you have the ability to complete the task, you will not easily do it so perfectly like these few times , I think your biggest shortcoming is your ego."

Qin Yuan could be regarded as being seen through by Gong Jian's little thoughts and little pride in his heart.

So after being told, he didn't have any thoughts, just lowered his head and meditated on his past.

Then there was silence, and after a while he said:

"I know that your leaders have worked \*\*\*\*\* this matter, and I am very humbly accepting some of my shortcomings that you said, but sometimes the shortcomings are not so easy to correct, after all, no one is perfect. "

At this time, An Ran also hurriedly stood up and made a rescue.

"Okay, let me tell you that one is the chief of staff and the other is the instructor. You should stop criticizing one person. He is about to go abroad to perform such an important task. Could it be that you couldn't encourage Lin Xing before?" Do you want to increase your confidence in completing the mission? By the way, I suddenly thought of a very important thing, that is, what guns are you planning to bring to them?"

Fortunately, An Ran was the only very smart person present. The question he could think of was something none of them had thought of for the time being, because Pakistan is a place full of wars all the year round, and it is impossible for it to be a safe place. place, so if you go there in advance, you must prepare a handy weapon.

Qin Yuan then hurriedly said:

"By the way, the secret eavesdropping communication tool I got from you last time, Thor, I think it's quite useful, can you lend it to me again this time, and last time I used it up and returned it to Zhao Yes, not at all, dare to delay for one more minute, for fear of damaging the precision instruments made in your D country."

Fan Tianlei asked suspiciously:

"I said, what do you guys want this secret communication system for again? How did you manage to use it last time? Do I think you want to borrow it again and you want to keep it for yourself?

You went to Pakistan for rescue, and you were not asked to engage in eavesdropping and espionage operations. I don't think this thing is necessary, so I didn't apply. "

At this time, He Chenguang actually spoke from Fan Tianlei's perspective.

"Yeah, yeah. This time they were not kidnapped by other people, they just wanted us to help rescue them in that base. I don't think this kind of high-tech thing should be used for the time being, so We still don't want to borrow it, and if it is damaged, we will have to pay for it."

Qin Yuan was actually a little curious, why He Chenguang didn't speak from his own point of view this time, but instead helped Fan Tianlei speak.

"Why are you so abnormal this time? In the past, we were the two united fronts to deal with Thor. Now you don't even stand on my side to help me? Are we still good brothers?"

He Chenguang actually felt a little embarrassed when he heard this.

But he had no way to continue to refute, so he could only say:

"It's not that I don't want to help you think from your point of view. It's because I think we're going to Pakistan, so I don't want to bring so many things, and it's really troublesome for us to go through customs and security checks. , if they find out, our mission will fail before it is executed."

When Qin Yuan heard what He Chenguang said, he felt that it made sense.

After all, it is not easy for me to bring some sophisticated weapons to a foreign country, if I continue like this. I'm afraid Fan Tianlei will be angry again.

"Okay, okay, if you two don't think it's useful, I don't need it, but I didn't want to get this thing into my own hands again, I just thought that since I went out to play, admit that I It's better to be able to prepare seamlessly as much as possible, prepare well if you are fully prepared, don't go there and find that things are really secret, that's not good."

At this time, He Chenguang said:

"Then should we contact Chen Jixiang next? Then if this kid knows to complete the mission with us again, he must be so excited that he can't sleep. In fact, I like to take this kid with me when I do anything." He's smart and capable and I admire him."

Qin Yuan hurriedly added:

"If we didn't take Li Zheng with us on this mission, I think he will be a little unhappy. If we want to take Chen Jixiang with us, we must secretly inform him that Li Zheng must not let Li Zheng know about the two of them. The relationship is also very good, if he finds out, he will definitely worry about Chen Jixiang, and it will not be conducive to our internal unity."

He Chenguang said next to him:

"I think so too. But what should we do next? Shouldn't we hurry up and prepare, and we didn't say what weapons to bring to us just now. I fell in love with the one you brought last time." A silent pistol. This gun is simply too cool. And if we perform such a secret mission this time, this gun must be more suitable for us, why don't we take it and have a look."

Unexpectedly, Fan Tianlei said at this time:

"I think you two have a good idea. There are not so many pistols now, and there were only six left in the army at that time. The rest were distributed to other military regions. We only have one pistol here. The last time I lent Qin Yuan used it a bit, but he didn't give it to me, and it's still in his hands."

After Fan Tianlei finished speaking, He Chenguang quickly looked at Qin Yuan and said helplessly:

"What I'm talking about is that you are too partial, and you gave him such a precious pistol? Am I not your subordinate? Really, he can do everything first. OK It's okay, you guys are really not mean enough, forget it, can you give me another palmistry? At least give me one."

At this time, Gong Jian took out a very delicate pistol from his pocket.

"This pistol has been with me for a long time. It has been with me since we were on a mission. I am reluctant to give it to others, but since you are going out to perform such a secret mission, I think this pistol can be given to you.

But you also know that in the army, all our pistols have registration information. If you want to transfer this pistol to you, you also need to register with the pistol owner and transfer the information. "

Fan Tianlei watched as Gong Jian took out the delicate pistol that he loved very much. He was puzzled and asked inexplicably:

"Gong Jian, others don't know about this pistol, but I know that he has been with you for a long time. Did you just give it to other people like this? I believe they dare not say anything about me for such an expensive gift, and this It's not something we can say, it's all our country's stuff. It's because you used to go out to perform secret missions that this pistol was approved for you."

As soon as Qin Yuan heard about the origin of the pistol. He was also a little embarrassed.

"I said He Chenguang, forget it. Don't keep this gun. After all, you have been with Instructor Gong for so many years, and he is very reluctant. It is his treasure, and this palmistry looks like It's been a few years, and I guess it won't be very lethal when he retires, maybe the army will give this gun to him for collection."

Naturally, it was impossible for He Chenguang to want this gun, because he also knew the significance of this gun to Gong Jian's instructor.

"Forget it, I just said casually that you guys are serious, I didn't mean anything else, I was just joking just now, don't give me such a precious pistol, I can't bear it either.

And we are going out to perform missions, so we may not be able to use pistols, but are they just for self-defense? My own gun would be fine and adequate.

By the way, I will contact Chen Jixiang now and ask him to come and have a meeting with us. Since I want to take her with me, I can't leave her behind during the meeting. "

Qin Yuan thought about you but finally thought of this kid.

"Okay, then you should call him first."

He Chenguang took out his mobile phone from his pocket and found Chen Jixiang's number.

"Hello? We are in a secret meeting room, which is the place where we had the meeting last time. I have something to call you. By the way, Instructor Fan is calling you. Come here quickly."

Chen Jixiang heard the call over there, and hurried to the conference room without saying a word.

Because he is a very smart person, he knows that there must be something important to call him this time.

And since he was not asked to notify Li Zheng, nor did he call Li Zheng, he knew that this matter must be a secret operation against him alone.

Chapter 1875: This is the channel you gave

Unexpectedly, everyone was not disappointed. Chen Jixiang, this child is really extremely smart. He was not born after receiving the call, but just sneaked into this secret meeting room silently.

There were not many people in the room, and after a while, someone knocked on the door.

Qin Yuan smiled and said:

"Look, this smart kid came over so quickly, and I heard the sound outside only one person's footsteps and no one else."

He Chenguang, hurried to the door and the door opened.

Not surprisingly, I saw Chen Jixiang coming alone at the door.

"I didn't expect you, kid, to run quite fast. Why did you come here so quickly?"

Chen Jixiang panted and said:

"You guys must have something very important to call me, how dare I waste time, I came over as soon as I received the call."

Seeing the two talking at the door, Fan Tianlei shouted inside:

"Okay, okay. You know how to do the things that came up, and you will shirk it again. At that point, he won't be able to marry Gong Jian. Yes, if the eight of you go, it will be like Chen Jixiang just now said.

He's never been that far before. And it was the seventh time he went out to complete the task independently, so he must act recklessly. "

Fan Tianlei could only embarrassingly smile when someone exposed his thoughts outside his heart and said:

When Chen Jixiang heard that, he also understood in his heart that if the eldest son was worried about whether he gave me a pistol next time.

"Raytheon, he looked at Hanhu that time. The eldest son passed your test. He went to Pakistan with him, and the seven people who completed the secret research plan were selected. He was going to shirk again that time, not so clever If your eldest son is with him, you can also worry.

"You knew he'd enjoy that, but it's going to be hard for eight of you to get all eight of you out there at the same time. Surely he's trying to smuggle you eight out of here by air, it's not even more difficult It's possible, and it's very lenient here, if there's a suitable time for the girls, we'll definitely send the eight of you at the same time."

Now the worst way is to smuggle women and men. "

It would be impossible to simply push you back and send them to the destination. Why go so far as not to do so? "

Raytheon very much agrees with Chen Jixiang's idea.

"There are so few of them out there, there's no room for you to speak. When you see them, you know that if they don't have any secrets, they still have to talk at that time. You can't wait until they arrange tasks for you. gone."

Anran heard He Chenguang's method, did I feel very satisfied, because that is what I expected, I definitely want to go to other countries by air, it is not for my country The security check is insulting.

He was Chen Jixiang, who said in a strange way:

But other than that method, there is no worse way to transport the eight of us to Pakistan at the same time, all of us with weapons under our bodies, and we have to do something very If you are cautious, you can be discovered by others, and those who do the smuggling work are all people who are trying to find their own way. We will definitely be calm here.

Fan Tianlei looked at Jiang Bin, then raised his wrist and pointed to the time under the watch. smiled and said:

"What are you doing standing at the door? Come in quickly, come in if you have something to say."

So, I said excitedly:

"Hey, the next time you go to rescue Professor Fang, will they secretly give Li Zheng a pistol? Whether they give it to you is not because of their trust.

[Currently used, the app with the most complete and best audio for listening to books integrates 4 major speech synthesis engines, over 100 kinds of timbres, and supports offline reading

He Chenguang looked at the two of us and said:

At this time An Ran said:

Jiang Binzhong whispered at that time:

After Fan Tianlei finished speaking, everyone suddenly realized what he said.

Although you have been here for a relatively short time, you still understand it very well. "

Even the best soldiers outside the army may not be able to guarantee their own danger. "

An Ran At that time, I was very worried about Thor's safety.

When Chen Jixiang saw the inside of the room, this group of people knew that they must be researching some secret matter and wanted to participate in it themselves.

Fan Tianlei stood up and said at that time:

Although he has gained your trust, you still have to explain everything to him.

Although the voice was not obvious, the conference room was so empty after all, and there were not many people outside.

Jiang Binzhong stared small, looked at Thor and said:

Chen Jixiang said:

Although I didn't have such an idea, I don't have too much time to verify my idea now. The top priority now is not to quickly obtain such a fake certificate, and then find a way to go to Pakistan first.

"You don't have one method to calculate it now, which is more reliable. If you are sure that the two of them have no way to accept it, then you can only think about other channels, or be sure that the two of them took off their weapons. ?"

"What should you do? You can always walk there, don't you drive by yourself?"

At that time Jiang Binzhong said:

"You are afraid. You know that they are discussing that matter now. They are not mainly worried about whether you can bear such a woman, but you must tell them now that even though you are very old, you have experienced them. Not much, but you will definitely not be able to withstand that matter." Chen Jixiang was beside him, and said doubtfully:

Now that plan takes a lot of time, if you miss one day, you are afraid that your plan will succeed. "

"What's he thinking? He wants to be transported by air as a smuggler. You see, he really knows that the sky is low and the earth is thick. You haven't helped him find a place, not on the ferry side.

I'm sure that time, they haven't decided to equip you with weapons, which means that you should have gained their trust, and you are really feminine. "

"Look, the two elders are not out there to argue. Since Chief of Staff He Chenguang hasn't kicked out that problem, I haven't found a solution. If it is necessary to send it to them.

"I asked at the time. But you didn't tell me. After all, business affairs and personal relationships still have to be separated. That's a written rule outside your army.

"We'll come over and deliver the false documents to you in a while, but you think they're going to be too slow to let you go out, and they've thought about how to go through what channels.

Although Lei Shen didn't think about Hanhu, what was going on, but I didn't think it was abnormal or weird at all.

It was a evasion that happened several times, and I wanted Fan Tianlei to go to Pakistan with me. The woman and I were always more worried about the danger of the eldest son.

He Chenguang said:

Because the environment of smuggling cannot be said to be very hard and difficult.

"What time is it now? It's so late, they called you, and they wanted to let others know how dare you let other people know? The girl and I ran out secretly.

But it is definitely a new challenge for us to take us out of the tunnel freight boxes and send us and these white workers to Pakistan by ferry.

The door of Lei Shen's room hurriedly walked to the meeting room, and then sat next to Fan Tianlei.

As long as there is no sound at all, it can be heard very clearly outside the house.

I thought that Jiang Binzhong would say:

Upon hearing the sermon, Thor actually said that. Jiang Binzhong next to him was very excited.

If you are not in it now, you must show off your strength, and even more so.

No, with the permission of the two of us, act privately. He wants to know how safe a foreign country is.

"He usually has the worst relationship with Li Zheng. Did I know when he came out? They still have one room left, the closest roommate. Did I ask him what he was doing when he came out so late?"

"Gong Jian, let's think of other ways. I'm sure he wants to use that method to transport us out of here. I'm afraid there is really no way to guarantee the danger of the eight of us.

But Fan Tianlei was called by us from the inside just now, I really know everything, and when I got there, I didn't look confused.

He also smiled outside his heart, whether he was talking.

He Chenguang took out his mobile phone and read the text message he just received.

Thor shook his head badly, and said helplessly:

"Gong Jian, he will be worried at that point. You will definitely act on your own. Although you go out with us, if you will listen to the two of us, we will let you go east, but you will definitely go west."

"What is that one time? What is the connotation of his eldest son's thoughts?"

"I almost forgot about it to him. Is there any time to explain the specific plan to him now? He just needs to know that they are about to go to Pakistan to rescue Professor Fang's two apprentices.

Although that should be the most reliable method now, but how should I smuggle in? If that is the case, I really have nowhere to go, so I can only defy the arrangement below.

Originally, you planned to go down early tomorrow morning or tomorrow night. I have obtained the certificates without delay, so if you leave tonight, hurry up.

However, I never believed in Fan Tianlei's ability.

Chen Jixiang, in fact, nothing is depressed. I asked in doubt:

For the rest, he will be with Thor and Jiang Binzhong. He and our two veterans will take him with you. You are also worried.

Now that channel is probably available. Stuff them out of the cabin for eight months, and send them and these white workers here together. "

It seems that although you are young, you are really getting more and more accurate in judging people. "

As for my personal ability, I can see that I won't be able to be very generous when I complete the task next time, and from my own perspective, Thor also appreciates me very much.

In fact, Chen Jixiang said that, and I also feel very satisfied.

"It seems that the efficiency of those who make fake documents is very low. He just copied the task, and we sent the things so slowly. It is unbelievable.

"Why didn't you say anything? Aren't you curious about why you asked him to come here? He's so quiet today!"

Fan Tianlei, while talking, looked at Qin Yuan's instructor with a proud expression.

"You said that Gong Jian really didn't need to do anything, if he was sure he wanted to use that method to send you out of here, why did he give you all the trouble to get his fake identity documents?

But having said that, it is wrong to be less efficient, so that you will not be able to go abroad as quickly as possible.

Although Raytheon wanted Fan Tianlei to go with him to a safe place in a foreign country.

The reason for giving them fake documents is to let them fly over through regular channels or something. They should have thought about the point of passing the security check if they were carrying weapons. "

Thunder God looked at He Chenguang and said:

Chen Jixiang, who is not on weekdays, started things in such a positive manner. Then why was I so determined about that matter that time?

When Lei Shen heard Fan Tianlei say that, he knew from the bottom of his heart that I was actually a woman with an older child.

At that time, He Chenguang's cell phone vibrated twice.

This kid is as smart as a monkey with his hair covered. He didn't talk when he saw the driving like this, but just found a place to sit down silently.

I have long known that there is no smuggling channel here, and often no one smuggles into the country through that channel to fight

Bai Gong.

It must be a very close thing for them to find you. If they didn't tell others, you will definitely tell others. Although you usually hate jokes, you are very trustworthy when it comes to keeping secrets.  
"

"Well... Now that they asked you to participate in that secret plan together, but you know exactly what to do now? Can it be convenient for you to tell you or he needs you to delay preparing something? "

Jiang Bin naturally knew in his heart that he would definitely use that method for you. What kind of things will my country experience?

He must prepare some handy weapons for you. "

"Their fake documents haven't been finished yet, and they won't be able to go out soon."

Thunder God looked at He Chenguang and said:

"It's like him, go and get the fake documents that have been damaged now. You should go back and pack them up, and you shouldn't be able to start your journey."

After hearing Fan Tianlei's words, the two immediately walked into the room.

After hearing those words, Lei Shen also nodded in satisfaction beside him.

Chen Jixiang didn't care at all, you never thought of going to another country in that way.

Many people lost their lives during the smuggling process, and the number is countless.

Qin Yuan smiled and said:

"Smuggling?"

"Did he tell others about that?"

Jiang Binzhong nodded beside him and said:

"Weapon? What weapon? Did they promise to equip you with a pistol that time?"

## Chapter 1876: Dark crossing in the cabin

Fan Tianlei knew that the willpower of these boys in front of him was very firm, and no matter what he said, it would be useless. It seems that since everyone has agreed to this method, let's continue to implement it according to this method.

Therefore, Fan Tianlei said:

"Since everyone has agreed on this method, then let's implement it in accordance with this method.

In fact, I didn't necessarily want everyone to use this method to go to Pakistan.

And I didn't even contact the smuggling boat at the pier before you agreed to this method. "

Qin Yuan was really speechless about Fan Tianlei.

"So it's been a long time, and you haven't contacted there yet."

An Ran saw that everyone was a little disappointed, so he stood up and said:

"Thunder God cannot be blamed for this matter, because he does not know whether you are sure to go to Pakistan through this channel, and because he is afraid of leaking the news beforehand, so this matter must be kept secret until you agree.

However, since you have agreed to this method now, let me get in touch here. "

He Chenguang looked at An Ran suspiciously and said:

"Are you going to contact? You have been in contact for so many years, do you still have contact with those forces in the country?"

An Ran looked at He Chenguang with a smile and said:

"Don't worry about this. Although I haven't been in country H for many years, my friends have always been there. They have been doing this. If you want to find them for help, it is simply a breeze. "

Qin Yuan naturally believed in An Ran very much in his heart. Never doubted his ability.

However, what he was worried about was that it was so late, and he asked a girl to communicate with those stowaways.

"It's so late, do you want to come and tell them in person?"

An Ran nodded firmly.

"Of course, as you said, I haven't seen them for a long time. If I meet again for the first time, I will ask them to do me such a big favor. If I don't come to the door in person, there is really no way to show it. My sincerity."

Qin Yuan said this to Anran one day, and he immediately came out to stop him:

"No, it's so late, I don't feel relieved if you go alone, why don't you make a phone call first to see what it means there, if you really want us to visit, I'll go with you."

Fan Tianlei actually wanted An Ran to do this in his heart.

However, he didn't have the nerve to say it directly.

Fortunately, the clever An Ran was able to see that the thoughts in his heart had brought this matter up on his own initiative.

Afterwards, Fan Tianlei stood there without saying anything, quietly watching the two young men who planned to visit the stowaways.

Because after all, he is still the chief of staff of the military region. If he personally participated in this matter, it would not be very good for him. And once it gets out.

They would think that he, the majestic chief of evidence staff, would meet, and that these people who specialize in smuggling are colluding, and there is some shady deal behind them?

Gong Jian probably knows Fan Tianlei best among them. Because that's what he thinks in his heart.

Therefore, Gong Jian said:

"How about it, An Ran. In fact, if you want to visit at home, you should contact them in advance to see what's interesting there. After all, they are doing underground secret transactions, and they won't cooperate with others all year round.

And it's been so long since you haven't met them, so you should contact them in advance to see what's going on there.

Steady steady and then we go. "

Afterwards, An Ran nodded and took out her mobile phone, and looked for the numbers of several stowaways she had contacted.

Qin Yuan looked at An Ran, a little embarrassed.

"It's okay, if you don't want to call here, you can go out and call. We don't need to hear you tell them some secrets."

"I didn't mean that, it's just that I haven't contacted them for a long time, and I don't know how to speak."

An Ran thought for a while, then whispered:

"Forget it, whether it's okay or not, call first and ask. After all, this matter is inconvenient, let Thor do it yourself."

Fan Tianlei heard An Ran say this.

I also feel very embarrassed in my heart, after all, the little Jiujiu in his heart has been completely thought of by this clever An Ran.

I understand, he just wants to use his own way to contact those stowaways first.

Fan Tianlei then stood there in embarrassment, smiled and did not speak.

At this time, An Ran found a phone and dialed it.

Unexpectedly, the person over there answered the call soon.

An Ran did it on purpose, the phone was turned on speakerphone. Everyone above can hear it.

The person on the other side of the phone said happily after receiving the call:

"Irina, it's you. You haven't contacted me for a long time. Why did you suddenly call me today? I'm a little flattered?"

Elena? What's the situation? In addition, everyone thought that the person on the other end of the phone had admitted the wrong person?

An Ran said calmly:

"I'm not. I haven't been in China for the past two years, so I haven't contacted you. But I think of you old friends as soon as I come back from outside.

How about it? When do you have time, let's have a drink together? Or when you have time, I can visit you there. "

The person on the other side of the phone put away his excitement, and then said:

"Forget it, Elena. People say that you can go to the Three Treasures Hall if you have nothing to do. You must have something important to call me suddenly in the middle of the night. It's nothing.

If you have anything that I can help, just say it. Although we haven't seen each other for a long time, we are still very good friends in my heart. As long as I can help you, I will definitely do my best to help you. "

"Okay then, I'll get straight to the point."

"Uh-huh"

An Ran's eyes widened just as she was about to open her mouth, and she looked at all the people present expectantly waiting for him to ask this question.

"Are you still doing it now? That?"

"Do it. If I don't do it, what am I still doing here at the pier? Although this thing is very wicked, and it is not a legitimate business. But I have been doing this since I was young. If I suddenly If I change careers, I don't know what to do."

"That's good. My matter has something to do with your business. Would you like to help me?"

"I just said, as long as I can help you, I will definitely help you."

Hearing that the person on the other side promised to help An Ran, all the people behind him sent down, knowing that this matter can be implemented in one breath.

So, everyone quietly listened to how An Ran was doing, and described the matter to him, and arranged for the three of them to be smuggled into Pakistan at this man's pier.

"The thing is, Jason, I have three friends who have committed some crimes here. They want to run away. But you also know that there is no other way. It is safest to go from your side.

If you are still in this business, can you help me get the three of them out.

As for the price? You just set a price, I can afford it here, and I won't make it difficult for you. "

I didn't expect that the person on the other side of the phone was really interesting. After hearing what An Ran said, he didn't refuse, but said slowly:

"Elena, we are friends. If you still want to withdraw money between friends, it would be a bit too clichéd, and since you can think of me to help you with this matter, I also think it is me as your friend." A great honor.

No problem, I can promise you, no matter what secrets the three of them have, I can help you send the three of them there. "

At this moment, Qin Yuan listened quietly and did not dare to get in the car, but she also wanted to express her admiration for An Ran. So, Qin Yuan quietly applied for an awesome gesture with the thumb of his right hand.

Seeing Qin Yuan like this, An Ran also smiled and didn't say anything.

"Thank you so much, Jason."

"Thank you? We are all friends. Besides, you have helped me a lot before. I should thank you.

Well, when are you going to have them come over? "

"It's best to go there tonight."

Hearing what An Ran said, the phone was silent for a while, and said:

"I just took a look. I'm afraid it won't work tonight. The boat is full tonight. I also know that this matter is very important and urgent to you.

If you are really in a hurry here, go. I'll try my best to put the boat in front of you.

Well, how about two o'clock in the morning? "

An Ran, of course she was very happy to hear this time. But he also expressed embarrassment because he was also afraid of affecting his friend's business.

"Jason, I'm really sorry that I've caused you trouble by making such a request. But if it's really not embarrassing, I can always leave at this time."

"What? Are you leaving too? Elena? Didn't you just say your friend?"

An Ran realized that she had said something wrong just now.

"Ooo, no, no. It's my friend, but I was a little anxious and made a mistake."

"Okay, that's fine, you really surprised me."

So be it, I will prepare the boat for you at two o'clock in the morning this morning. Because you are in a hurry to leave, but I am afraid there is no better position, your friends can only feel wronged. "

"That doesn't matter. I'm very grateful that you can help me get in touch. As long as you can get there smoothly, there is no problem with any grievances or non-grievances."

"Well, then it's settled. The boat at two o'clock in the morning today, you can bring them all over at around one o'clock in the morning today, and I will arrange the rest."

"Yeah, okay, thank you, Jason."

"You're welcome, then we'll see you later."

After speaking, the other party hung up the phone.

Everyone present did not expect that this matter could go so smoothly. At this time, Fan Tianlei said:

"This matter is thanks to you, An Ran. Without you, this matter may not be so perfect. As far as I know, it is really difficult to find a channel for smuggling. Fortunately, you have friends you know, otherwise it would have taken a lot of trouble for me to deal directly with it."

When Qin Yuan heard Fan Tianlei say this, what he thought in his heart was that he was still talking politely at this time.

A real leader is a leader who is always able to say what he pre-conceived so perfectly. He obviously wanted An Ran to do this, but An Ran didn't understand it at the beginning, and only now can he think of it.

He Chenguang, you heard that things went so smoothly, and then he also smiled and said:

"This matter is really thanks to you, An Ran, if it weren't for you, we don't know how long we would have to wait before we can set off, since you have already made arrangements, then let's proceed according to your plan. "

Everyone was in a very serious process, but Chen Jixiang was unexpectedly relaxed.

He is waiting for a journey that he has never experienced before.

Qin Yuan looked at Chen Jixiang's appearance, he was not worried at all, but seemed to be looking forward to it.

"I think you really don't know the heights of the sky and the depth of the earth, you kid. How dare you expect such things? Do you know what we will experience after we board the boat tonight?"

Chen Jixiang now only knows the excitement of the unknown journey, he doesn't know what to experience next.

"What's the matter? Is there any difficult experience that greets us this evening?"

He Chenguang smiled charmingly and said:

"Do you know what a difficult experience is? None of us have experienced such an experience, but you are still young and you can't imagine what the living space of stowaways is like.

But let me tell you first, it's better to be able to play a little bit, measure it in advance, so that you can have a mentality and prepare. "

At this time, Fan Tianlei stood up and said:

"I said, don't scare him No matter what happens, since we have chosen to go down, don't scare him, okay? If you scare him and he has already flinched, then go on What should I do next?"

Chen Jixiang said with a smile:

"It's okay Thor, I was scared from childhood, I'm not scared at all. And even if he didn't say it, I can imagine what our life as a smuggler will be like.

But I did the math just now, and the distance from our place to Pakistan is about three days and two nights, if you go by water.

so what? In other words, no matter how painful the life in the cabin is, we can get there as long as we insist on three days and two nights, but there is no place to eat, no place to go to the toilet, and we can't sleep well.

In fact, for ordinary people, this is indeed quite scary, but after all, we are soldiers, and this is simply a trivial matter for us. "

Chapter 1877: Harsh ship environment

As soon as An Ran heard that they were able to accept such a method, she also felt a sense of admiration in her heart.

"Then, if you can even accept such an environment, then I have nothing to worry about. I will take you to the pier on time tonight."

Everyone nodded when they heard An Ran's words.

At this moment, Fan Tianlei's phone rang again.

"What's the matter?"

Unexpectedly, the call was actually from Du Bingbing.

"Professor Fang has no problem, it's up to you next time, I just gave him medicine, he has fallen asleep, but before he fell asleep, he was still thinking about his two apprentices.

So if you can rescue him as soon as possible, he should be a good choice.

If the knot in his heart is untied, it will help us carry out the next step of activities. "

As soon as Qin Yuan heard that it was Du Bingbing calling, he knew in his heart what he was worried about at this time, so he said to Fan Tianlei:

"Now that everything has been arranged, let's act as soon as possible and don't waste time here.

If the matter drags on for too long, it may not be conducive to us to continue to solve it, and Professor Fang will doubt whether we really want to help him.

If he really spends a long time and always doubts our words, then he won't really do things for us in the future. "

Hearing what Qin Yuan said, Fan Tianlei knew what to do next.

"Okay, I see, Dr. Du. Thank you for working so late and taking care of Professor Fang. I'll give you a long vacation after your hard work is over, so you can take a good rest."

"Hmm, thank you Chief of Staff Fan."

Qin Yuan turned on his watch and checked the time.

"It's already eleven o'clock in the evening. We should arrive at the pier basically around one o'clock in the morning. Everyone needs to pack some things before leaving. Why don't we adjourn the meeting now.

And we also need to go to the armory and get some guns and ammunition. in case for need. "

Fan Tianlei pondered for a moment, then said:

"I'm also a little worried when you go. But how many bullets should I bring to you?"

Unexpectedly, He Chenguang said at this time:

"We went in secret this time. Shouldn't he bring too many bullets? If someone finds out that we have brought so many paper bags, it may not be good for our secret, latent mission."

Qin Yuan always vaguely felt that something was wrong with He Chenguang, which was not his usual style of doing things at all. Every time he went out, he must ensure that his tasks could be completed 100%.

Always try to bring as many bullets and guns as possible, why is he so against his own guns and bullets this time?

Qin Yuan couldn't help but ask.

"He Chenguang, you are a little weird today? What's the matter? Why is your enthusiasm for guns and ammunition suddenly not so high?"

"No, I just think that when we go to other countries, if we bring too many things without authorization and are really discovered by their security department, then it will be difficult for us to continue."

Gong Jian is the calm person here, no matter what they are talking about, he is still thinking about this rescue plan.

Therefore, Gong Jian said:

"I thought about it, because our bullets and guns need to be registered, and it is indeed inappropriate if you bring too many. Well, we will give each of you three magazines and a pistol.

As long as you can guarantee the safety of the few of you, it is enough.

With your impulsive personalities, if it really brings you too much, I'm afraid it will also be the root cause of your troubles. You must know how to cherish the weapons in your hands. "

When Qin Yuan heard what Gong Jian said, he also agreed, so he nodded afterwards and did not raise any doubts.

An Ran looked at the time at the side and said:

"I think it's getting late, why don't we quickly plan how to get to the pier? And the fake identity documents you made here have not been retrieved. We should arrange the time reasonably, and we will do all these things by the way. Don't waste your time on useless things."

Qin Yuan touched his chin and bowed his head in thought for a while and said:

"Then it's better like this. Let's go back to our own rooms to pack up the things we brought. Everyone remember that we must pack lightly. Try to bring some things that you can use, and don't bring those useless.

And we went this time, although we planned to come back within a week, but the plan couldn't keep up with the changes. If there were any changes over there, we couldn't come back on time. "

At this time, Chen Jixiang said:

"By the way, I thought of another question."

"What's the problem?"

"If we go to Pakistan by water, by way of smuggling, then how should we continue our future actions? How will we come back? Are we still sneaking back with these two people?"

Qin Yuan said:

"Because we have weapons on our bodies now, no matter whether we bring other troubles or not, we must go back and forth through this channel. In fact, if we find that we are carrying weapons when we leave the country, we will definitely be detained.

If such a thing really happens, all the things we have done will be in vain and fall short. "

After Qin Yuan finished speaking, Chen Jixiang sighed and whispered on the spot:

"It seems that Professor Fang will suffer a lot when he sees these two apprentices."

An Ran looked at Qin Yuan and said:

"Then let it be like this, Qin Yuan, I will accompany you back to your room to pack your things. Then we will pick up Chen Jixiang and He Chenguang, and I will take you two directly to the pier.

Thor, when can we get the documents? "

An Ran turned around while talking, looking at Fan Tianlei.

Fan Tianlei did not speak, but silently took out his mobile phone, opened an address, and then handed the mobile phone to An Ran and Qin Yuan for them to have a look.

"It's this address. It's best that you can pick it up. If you can go smoothly there, you don't need me to come forward. You also know that after all, I am in this position. If I go to deal with this matter by the way, Probably not a very good choice."

Qin Yuan looked at the address and contact information displayed on the phone.

"Okay, I get it, leave this matter to us, and you don't want to get involved.

I have remembered the location and time. By the way, do you have any street signs? "

Fan Tianlei was amused, and then patted Qin Yuan's head.

"What are you thinking about every day, kid? Do you have any other street signs? Do you think you are making a movie now? You just tell me your specific information openly and he will give you something."

At this time, He Chenguang also thought of something.

"Thor? Did you give them the money for making fake documents? If you didn't give them, then we have to pay the money ourselves?"

"I said you kid, why are you so full of money? Can you take a long-term view and what a sense of accomplishment it will be to complete this task?"

When He Chenguang and Qin Yuan heard what Fan Tianlei said, they looked at each other and curled their lips.

Fan Tianlei wanted to quickly shift this topic to another direction, so he hurriedly said righteously:

"Okay, let's end today's meeting like this. Today's plan is almost done. You come and get it with me. This secret communication device is what you used for the last mission."

While talking, Fan Tianlei pointed to Chen Jixiang who was standing beside him watching the excitement.

While agreeing to this day, Chen Jixiang stretched out his right hand and stood at attention to salute.

"receive!"

"Then An Ran, you can go back with Qin Yuan and pack up his things in his own room."

Qin Yuan thought to himself, why must An Ran accompany me back to pack my things?

But since Fan Tianlei said so, he has no way to refuse, so let An Ran go back with him. In fact, if he doesn't go, he still wants to call the system out to ask, what should he do next.

But now that An Ran went back to the room with him to pack his things, there was no way or opportunity to call out the system.

After Fan Tianlei finished speaking, several people returned to their room like this.

Fan Tianlei and Chen Jixiang went to the equipment storage room, planning to find out the secret communication system they used when they were on a mission last time, and continue to bring them with them.

Chen Jixiang watched Fan Tianlei toss and turn inside. Then ask:

"Thor? Do you have something to tell me?"

"whats the matter?"

Fan Tianlei didn't look at Chen Jixiang, he just searched for the equipment they used last time.

Chen Jixiang smiled and said:

"I know why you called me here alone. The first thing is to let me get the equipment for you. But the most important point, I think you should have some secrets to tell me.

Keep them both from knowing. "

Hearing what Chen Jixiang said, Fan Tianlei also stopped looking for things.

"Assuming you're smart, I do have a secret to tell you."

While talking about turning the world upside down, he took out a USB flash drive and a miniature pistol from his pocket.

"What do you mean by that?"

Fan Tianlei's approach made Chen Jixiang a little confused for a while.

"I gave these two things to you for safekeeping privately. Don't let the two of them know. Did you hear what I said clearly? Neither of them can know about it."

When Chen Jixiang heard this, he was even more confused. What kind of medicine is sold in this Fan Tianlei gourd?

Both Qin Yuan and He Chenguang are his most trusted people.

But if you trust the two of them, why do you have to do such a behavior?

Fan Tianlei looked at Chen Jixiang's masked face. He knew that if he didn't speak clearly, he couldn't understand himself, so why did he do this?

"I only told you about this matter. And this matter was decided by me and instructor Gong Jian privately. I didn't tell Qin Yuan.

Because he is a very emotional person. If he knew some secret, then he must have kept this matter in his heart, and he couldn't concentrate all his energy on the task. "

Chen Jixiang seemed to understand what Fan Tianlei meant when he heard this.

"You mean? You don't trust them both right now?"

Fan Tianlei nodded, in fact, he was not too embarrassed to say this.

However, this is another thing that has to be done.

"I don't have evidence now, everything is based on my own, and my intuition is guessing. Of course, I also hope that my guess is wrong. I don't want my most trusted person to have the enemy's insider.

I hope that after this mission, I can be proven wrong. But that's up to you. "

After hearing this, Chen Jixiang raised his hands above his head in a gesture of surrender.

"Thunder God, I can't do it. I was young and you handed over to someone like me. I am afraid that I will show my secrets even more. If others find out, your plan will fall short."

Fan Tianlei stretched out his hands and held Chen Jixiang's hands above his head.

"Chen Jixiang, listen to me. Although you are a newcomer now, instructor Gong Jian and I trust you very much, so we entrust you with such an important task. I hope you will not let us down .

Just this time, and only this chance is needed, as long as we dispel our suspicions. We will not bring up this matter again in the future. "

Chen Jixiang bowed his head and pondered for a long time before he said slowly:

"Okay, but am I the only one who knows about this? Brother Qin Yuan doesn't know either?"

"have no idea!"

"Then who do you suspect more of the two of them now?"

"have no idea!"

Chen Jixiang was really tricked by Fan Tianlei, I don't know how to say it. Logically speaking, these two people are his most trusted people. What kind of opportunity can make Fan Tianlei start to doubt the two of them?

Fan Tianlei then said to Chen Jixiang:

"Don't take this matter seriously, We just want you to do a test for us. Instructor Gong Jian and I are not sure who we must suspect now, but we need this matter Prove it.

These two secret things are entrusted to you. Hope you don't let us down. "

Chen Jixiang ended up with the U disk and mini pistol handed over by Tomato Lei.

"What is this USB drive?"

"This USB flash drive is some secret information. It contains information about our undercover personnel in Pakistan. There is also part of the information about the local forces we have bought in Pakistan.

You can use this information to find our people to help you seek help when necessary.

As for the mini pistol, you can keep it in your hand. Don't let the two of them know that when necessary, maybe this pistol can guarantee your life! "

Chapter 1878: Suddenly received an order

Although Chen Jixiang didn't know what Fan Tianlei's intention was, and he didn't know why Fan Tianlei suddenly didn't trust the two of them, but chose to trust himself.

Although he is confused now and doesn't know what to say, but it is still the result resolutely. Fan Tianlei came over with a USB flash drive and a pistol.

Because Chen Jixiang knew that Fantian was already a veteran for many years. If he chose to do this, he must have his own intentions.

I don't need to know so many secrets now, I just need to perform tasks according to his affairs.

Unexpectedly, at this time, Fan Tianlei repeatedly emphasized:

"Boy, let me tell you clearly about this matter. You must ensure that only you know about it. It is absolutely impossible for anyone else to know about it. If this matter is known to others, all my arrangements will be destroyed. Fall short."

Chen Jixiang was also intimidated by the appearance of the restaurant.

Because although he knew that Fan Tianlei had always been such an informal character, and often joked with young people like himself, but he was so serious about this matter, and repeatedly emphasized that he knew that this matter must be no small matter. Seriously, take this matter to heart, absolutely nothing will go wrong.

Seeing that Chen Jixiang had fully agreed, Fan Tianlei was relieved and handed over these two things to him.

Then Fan Tianlei looked at the time and said:

"I don't think it's too early. You can go back and get ready now. Do you have any personal items that you want to take with you? I can go back and pack them now. Don't leave anything important when you leave."

Chen Jixiang stood on the spot and thought about it for a while. He felt that he really didn't have anything to bring with him, and he didn't need to go back now. You should be ready for him.

Fan Tianlei saw that he didn't need anything, so I prepared, and then said to him:

"I'll call Qin Yuan right now and tell him that you've finished packing. If there's nothing unexpected, you can wait for him here."

Chen Jixiang didn't speak, but nodded in agreement with Fan Tianlei's idea.

Afterwards, Fan Tianlei took out his mobile phone and called Qin Yuan.

"How are your preparations going?"

"I don't have much here, and I should have almost everything to prepare."

"Then I'll let Chen Jixiang go find you now?"

Qin Yuan hesitated on the phone, and then said:

"I think there is still time now, don't let him come to me, just let him wait at the gate for us to drive together to pick him up.

Or you can ask him to ask He Chenguang. If there is no problem with He Chenguang, he can go to He Chenguang, and the two of them can go together. "

Fan Tianlei could tell that Qin Yuan didn't want Chen Jixiang to bother the two of them.

So, he hung up the phone.

On the phone side, Qin Yuan and An Ran looked at each other.

There was a trace of reluctance and worry in An Ran's eyes.

Qin Yuan could also tell that what An Ran was thinking was that he was worried that he would not be able to complete the task when he went to Ba for the first time. Even life is in danger.

Qin Yuan looked at An Ran with a smile and said:

"You don't have to worry about me. Although it's my first time going out, I believe that my ability should not be in any danger. I can successfully complete the task and bring back both of Professor Fang's apprentices."

However, don't know why. Qin Yuan actually saw a feeling of hesitation in An Ran's eyes.

Qin Yuan asked with some doubts:

"Do you have something to say to me, but you can't say it? If you really have something to say to me, you can tell me now, and there is no one here."

When An Ran heard this, she quickly shook her head.

"No? I have nothing to say. I just want to remind you to be careful at all times, especially those around you. Don't take it lightly. Even..."

Before An Ran finished speaking, He Chenguang knocked on the door outside.

"In the middle of the night, what are you two lonely men and widows doing? Are you packing so slowly? We are going there to do missions, you are not going on a trip. How much more do you need to bring?"

Qin Yuan and An Ran were a little embarrassed to tell He Chenguang.

Qin Yuan shouted:

"You boy, don't talk nonsense here! The two of us have already packed up, just waiting for you, why are you so slow when we are both. It's okay. We're done too, let's go."

He Chenguang said with a smile:

"I don't know how that kid Chen Jixiang went to get things from Thunder God?"

"He's done with his work. He called me just now. Let's go, hurry up, hurry up. Don't ink."

After finishing speaking, Qin Yuan pushed He Chenguang's shoulder with his hands, trying not to let him look into his room. Because every time He Chenguang passed by, he wanted to poke his head into my own room.

Then, the three of them walked out the door together.

After a while, they came to the door and saw Fan Tianlei and Chen Jixiang who had been waiting at the door for a long time.

Qin Yuan hurriedly asked with concern:

"How are your preparations going? Are everything ready? Don't wait for our departure time."

Fan Tianlei glared at Qin Yuan and said:

"Can it delay you? It's you who affect me. Our side has already prepared and has been waiting for you here for 20 minutes.

I think you are the one who has no idea. Alright, stop carrying ink, get in the car quickly.

An Ran, tell them to go to the pier. It's not convenient for me to charge, so I won't go there. "

Unexpectedly, at this point, Qin Yuan felt a little uneasy.

After all, if An Ran, a girl, sent them there like this, and then came back very late. It will also be unsafe.

So Qin Yuan said:

"I know Thor is inconvenient for you to go to such a far place, and it is inconvenient for you to show up for this kind of thing. But, I think it is so late, it is not safe for An Ran to go.

What kind of place is there? It's a den of bandits. Those of them specialize in doing things that step beyond the boundaries. I am very worried.

Forget it, Thor. The three of us will drive by ourselves. "

An Ran patted Qin Yuan on the shoulder and said:

"It's okay, Qin Yuan. I'll take you there. Don't treat me like a weak girl. I've been out on missions alone for so many years. There's no big scene I haven't seen.

Besides, this is the channel I introduced to you. If I don't go, the person in charge over there probably won't just take you on the boat to Pakistan so easily. "

Although Qin Yuan was very worried, he also thought about it.

He Chenguang also said:

"We should believe in An Ran, he is definitely a hero among women. Maybe it's really a critical moment, and he is stronger than us gentlemen!"

He Chenguang's words made everyone laugh.

At this time, An Ran said:

"Let's go, I think it's almost time. Let's not waste time. If the boat prepared for you over there has already sailed, it will definitely delay things. If you can't leave according to the original time, I'm afraid it will delay you too. of the original plan."

Fan Tianlei also hurriedly said:

"That's right, hurry up and stop wasting time here. I wish you all the best. I'll be here waiting for your good news!"

Afterwards, Qin Yuan took He Chenguang and Chen Jixiang into the car. The driver in front is An Ran.

Unexpectedly, in the darkness, An Ran's proficient driving skills shuttled smoothly through the darkness without any hesitation.

This proficient driving technique has been able to make the three big men present such admiration and surprise.

At this time, Chen Jixiang said:

"Sister An Ran, I'm really surprised by your proficient driving skills. You usually look so gentle and lovely. I didn't expect you to be so aggressive and cool when driving. "

An Ran looked in the rearview mirror and said:

"What's the matter? Seeing that your face is turning green, I'm worried. It's okay. My driving skills are very wrong. Your safety will definitely be guaranteed. It won't put your lives in danger.

Put on your seatbelt and just listen to me. "

At this time, Qin Yuan, who was sitting in the co-pilot, said:

"Chen Jixiang? What did Fan Tianlei say to you today? Did he call you over? Did he say bad things about the two of us? Did he try to ask you to monitor us?"

Originally, Chen Jixiang was very puzzled and suspicious of Fan Tianlei calling him alone, because his understanding of this matter was that Fan Tianlei suspected one of them.

Although Chen Jixiang himself had never doubted Qin Yuan and the others, after all, this was something Fan Tianlei personally explained.

There is a saying that military orders are like mountains.

Chen Jixiang thought to himself, this time, the relationship between them cannot be taken into consideration.

Business must be the main consideration.

Therefore, Chen Jixiang hesitated for a while, and said with a smile:

"Actually, it's nothing special. You two can imagine it. It's nothing more than saying that you are not serious about what you do. Let me pay attention to the words and deeds of the two of you when I get there.

The most important thing is that you are from a foreign country. If the two of you can't control your temper, then we will affect the progress of our task. "

Although He Chenguang and Qin Yuan did not fully believe Chen Jixiang's words at this moment, they felt that what he said was reasonable. After all, what Fan Tianlei said about the two of them was indeed like this. Sometimes they were more impulsive. Regardless of any rules.

After a while, I heard An Ran say:

"Are you guys ready? Our place is almost here."

Everyone turned their heads and saw that they really came to the vicinity of the pier.

At this moment, An Ran picked up the phone and made a call to the person he was connected to.

"Jason. I'm Elena. I've arrived with my friends. You're near here. May I ask where should I park or is there anyone coming to meet us?"

If it is not convenient for you to come out to pick us up, we can also go in by ourselves, there is no need to trouble you here. "

Unexpectedly, the person on the other side of the phone was still very enthusiastic. As soon as he heard An Ran's call, he hurriedly said enthusiastically on the phone:

"Irina, I didn't expect you to arrive so soon. There's no problem, just wait in the parking lot. I'll bring someone up to meet you later. You don't need to come here by yourself.

It's just that we haven't seen each other for so long, do you still want you to come to us by yourself?  
"

"Jason, you are so kind.

As you said, we haven't seen each other for so long, and then I have to trouble you to pick me up and ask you to help me and send my friends out. I'm a little embarrassed. I haven't contacted for such a long time. The first contact is to ask you to help me. "

"Okay, okay, let's not say so many polite words. Where are you now, I'll pick you up right away."

After finishing speaking, the other person hung up the phone, An Ran turned around, and said to the three of them:

"I've finished contacting over there, and the next thing is up to you. Their people will come down to pick us up in a while, but you must make sure not to leak anything."

Qin Yuan smiled and said:

"We are all veterans who have been sent out many missions. Don't think that only you are the best spy, and you will never trust anyone for other things. Don't you even trust me? You like this Said I was really sad."

"It's not that I don't believe you, I just think I should tell you in advance that they don't know my real name, they only know that my name is Elena."

As for why I want to send you guys out, I have already figured out the reason, that is, you have committed some crimes in country H, so you want to go out to avoid the limelight. Pakistan is a very good shelter from the wind.

After seeing them for a while, you put away your rigid attitude, try your best to be like some punks, you want to be more authentic in this way, understand?

If they really find out that I'm lying to them, then if you don't pick me up, your reputation will be lost, and it will definitely affect your travel plans.

No matter what happens, since this matter has been done today, we must do it to the end. We must not be caught by others to disrupt our plan.

The main thing is not to let him know the real identity of all of us, including me of course. "

In fact, after An Ran finished speaking, everyone basically understood what she meant.

At this time, Chen Jixiang said beside him:

"Interesting, it's really interesting, the first time I set out on a mission was thrilling with you, I didn't expect the second mission to be even more thrilling with you.

It seems that I have accumulated a lot of experience at a young age. "

#### Chapter 1879: Reluctantly Parting

After Chen Jixiang finished speaking, he quickly covered his bag with his hands. Because he just put the things that were not given to him for a long time into his secret pocket.

At this moment, he was very nervous.

Because he actually looks glib, but he is very bad at lying, and if he lies, his feet will soon be exposed.

Just when Chen Jixiang didn't know what to do.

He was very afraid that others would see his small thoughts.

At this time, the friends who connected with An Ran had already arrived.

Because it was night and it was dark, An Ren couldn't see what was going on in front of him. He just saw a group of people coming from a distance, but he didn't know what was going on in his heart. I don't know who it is at this moment.

Everyone was very nervous, because their opponents found their traces when they were afraid. If this is the case, then it is very dangerous.

It is very likely that it will be exposed.

At this time there was a man in black with a cropped cut. He walked aggressively to An Ran's car and knocked on the window next to his cab.

An Ran calmly rolled down the window.

After seeing the person coming, An Ran's tense expression instantly showed a long-lost smile.

"It turned out to be you, Jason. I was taken aback. I thought it was someone. It really surprised me to knock on my door and window at such a late hour."

It turned out that An Ran contacted the group of stowaways first.

At this time Jason said:

"Beauty just forgets things so much. How come you can't even see my figure after not seeing you for a few years? I am really a little too sad when you do this. I have been thinking about you all the time. I didn't expect you to even I don't even know each other."

An Ran felt a little embarrassed when she heard him say that, because after all, she was asking him for help now. If he is dissatisfied with himself, then the next thing will be difficult.

At this time, An Ran said:

"Where are you talking? I don't want to forget you. It's just that it's too dark, and I'm a little scared. By the way, let me introduce my friend to you."

Then An Ran turned around, and the three people behind said:

"This is the Jason I just told you about. That is, he can help the three of you and get the three of you into such a big trouble.

Fortunately, I have such a good friend, otherwise, you three, you don't know what to do now, right?

All right, don't be dazed here, you three get out of the car with me quickly, and see how my friend can arrange you. "

While speaking, An Ran supported the three of them and squeezed his eyes.

Qin Yuan was fully aware of An Ran's thoughts. So he said to the two people next to him:

"Come on, come down quickly."

After finishing speaking, the three followed An Ran out of the car.

An Ran enthusiastically said to Jason:

"Jason, you see, I'm really sorry. My three friends are just trying to trouble you. The three of them committed some crimes in country H. I hope you can help the three of them and wait for your ship to go to Paris. country.

In fact, I am also embarrassed, please, after all, we have not met for so long, but I really have no other way to help the three of them, and I thought of you first. "

Unexpectedly, this small-cropped Jason was a very happy person.

After all, they are all people who have been on the road for so many years. Although he could clearly see that An Ran was just saying polite words. But he may have other ideas about Enron.

Not only is he very enthusiastic about An Ran. And there was an indescribable feeling in his eyes.

As a homosexual, Qin Yuan is very able to understand this kind of thinking.

At this time Jason said:

"I understand, I can understand. But fortunately, you called me in time. There are still three vacant seats on the ship today. If you call me ten minutes late, I'm afraid the three of them will all be there tonight." I can't go anymore."

An Ran covered her mouth and smiled:

"So this should be fate. Then you don't have to settle with the three of them. When the time comes, you can contact me and I'll calculate it for you together."

Unexpectedly, upon hearing this, Jason's expression immediately became serious.

"What money is not money? Do you still want to mention these things to me about our relationship? I am willing to help you and I don't want to ask you for money at all.

Don't you know me yet? Although there is a fee for our trip, the people on our boat are not short of the money of the three of them.

I said, don't be polite to me anymore, if you say that to me again, I won't help you.

Based on the relationship between the two of us, let alone send the three of them away. Even if you asked me to run the boat for you three times for nothing, I wouldn't ask you for money, so don't mention this matter again, okay? "

"Okay, okay. Now that you've said that, I won't be polite to you."

Hearing this, Jason had a smile on my face.

"Let's go, I think it's almost time now, you all come with me now, and I will introduce our specific matter to you.

I think it's getting late, let the three of them board the ship quickly. "

Qin Yuan also nodded and said:

"Well, then I thank you too, Jason."

After speaking, Jason took An Ran and Qin Yuan to a boat on the shore.

This ship does not look special, it is an ordinary passenger ship.

The entire pier still looks relatively large. There are passenger ships, cargo ships, and even fishing boats.

An Ran looked at so many boats at the pier, then said with a smile:

"It seems that the scale of this place where I haven't seen you for so long is already very large. I didn't expect you to do it in a few years. In this position, you are really amazing."

Jason smiled and said:

"I'm not the same as before. I'm not just looking for sideways. As you can see, there are so many boats at the dock now, and I have a lot of serious business.

You see, here we have passenger ships that can enter and exit in an aboveboard manner. The passengers above went to Pakistan through this route. But this kind of thing? On the surface, there is not much money to be made.

The real trick is all under the boat. The boat can carry 280 passengers. But under the cabin can. Carry a hundred people. You know I'm going to help them smuggle a man. How much money can you make? "

At this time, Chen Jixiang said:

"However, there should be regulations on how many guests a ship can carry. If it is overloaded, wouldn't it be very easy to sink?"

After finishing speaking, did Chen Jixiang realize that what he said was a bit inappropriate.

Because that's what they do after all. Do anything without risk?

Unexpectedly, Jason was not angry when he heard this.

He just explained lightly:

"I think you are quite young, you must have just debuted, and many things should be led by others, and you probably don't know much about this place, but you are only limited in your own thinking.

If you're worried that the boat will sink, you're right. But we have been doing this sound for many years, and you can rest assured that there has never been an accident with a ship. "

At this time Qin Yuan said:

"Don't worry, boy. You won't get into trouble with the two of us. I believe, Jason. He must have a way to deal with this matter. If he thinks this matter is very dangerous, he should also won't do it."

Unexpectedly, after listening to Qin Yuan's words, Jason praised him greatly.

It was as if he had found another version of himself in his life.

Jason had always thought that An Ran was his best friend, but he didn't expect that An Ran's friend could understand his thoughts today. Moreover, he had never met him before, yet this person could trust him without any reason.

Jason walked to Qin Yuan's side, patted him on the shoulder and said:

"Brother, I know. It seems that you are also a happy person. Although I have never killed anyone in so many years. But just because of your words, I am committed to you as a friend.

That's who I am, if you believe in me, I'll pay you back.

No matter what I will succeed today, I will send you to Pakistan. And I not only deliver, I also take care of you.

I can see that you guys are definitely not idle people.

Although An Ran is unwilling to reveal too much to me. But I can also be very clear about your true intentions. When you go to Pakistan, it should not just be a very simple escape. "

After listening to Jason's words, Qin Yuan and He Chenguang were completely shocked. They didn't believe that this person could see through their identities at all.

Although I know that he has been in the Tao for many years, and this kind of experience in the world is very rich, but I still can't believe that he has seen through his identity at a glance.

But he had already seen through it, and he didn't continue to ask.

It proves that he can also understand this matter, although he cannot reveal his true identity and purpose to him.

However, adhering to the principle that sincerity is a nirvana.

Qin Yuan looked at Jason and said:

"Jason, I didn't expect it. We hit it off the first time we met. Since you said so, I can also tell you that we did go to Pakistan for other things, and now we haven't figured out how to return.

if"

Before Qin Yuan could finish speaking, Jason said:

"I understand what you mean. Brother, I don't know why. The first time I met you, I hit it off very well. If you have something to talk about, you can't talk about it when you come back, right? No problem, just tell me what you plan to do Come back when? I'll arrange it for you."

He Chenguang and Qin Yuan, who were watching from the side, were stunned.

He Chenguang said jokingly:

"Qin Yuan. You can do it, kid? I didn't expect your social skills to be so strong. You just accepted it the first time I met you, and you are called brothers."

At this time Jason said:

"The two of us hit it off pretty well. So, in the future, you don't need to go through Irina for anything, just go to me directly.

Oh, yes, here we go. We can call it fate, why don't I leave a contact information, if we have time in the future, the two of us can also contact alone. "

Qin Yuan also said about the donkey downhill:

"Well, we really need to leave a contact information, then we can contact you when we come back. This really needs your help."

After speaking, both of them took out their mobile phones and left each other's contact information.

At this time, several people also came to the boat that had been prepared in advance.

Look at the time, it looks like it's almost here. Time to board.

At this time An Ran said:

"Is this the boat prepared for them? It seems that this boat is still very big. It seems that you three should be able to live a good life in the cabin. However, this kind of life is probably what you want I have suffered a lot. The next thing can only be left to you."

After speaking, Jason looked at An Ran, smiled and said:

"How about it? Would you like to visit the cabin with us?"

In An Ran's heart, of course, she wanted to go very much. But he raised his hand and looked at the time. I feel that the time for sailing is a little close now, and I am afraid that I will delay their time to go to Pakistan.

So, An Ran looked at the time and said:

"I think it's almost time, why don't I go up."

Although Qin Yuan didn't see what the environment in the cabin was like, he could feel that the environment inside was not very good, and it was not a place for girls to come and go.

So Qin Yuan said:

"In my opinion, it's better not to let An Ran go up. Just take the three of us up to have a look, and then we will board the ship directly. There is no need to waste time here anymore. As for An Ran.

You have nothing to worry about, just go back first and wait for our news. I'm sure we'll be back soon, it's all right, don't worry.

There is no need to watch us get on the boat like sending children off. "

At this time, Chen Jixiang also said:

"People say, sends you thousands of miles, and there will be a farewell. I said sister An Ran, so don't be reluctant. Okay. We three cobblers are as good as Zhuge Liang."

The few people nearby laughed when they heard Chen Jixiang say that.

I didn't expect this kid to be quite humorous.

Of course, An Ran also had her own plans in her heart, and she didn't think too much after hearing several people say the same thing.

So, An Ran looked at Qin Yuan. With a reluctant look in his eyes, he said:

"Since that's the case, I won't get involved. Let's part here. I'll go back first, and I'll go back and wait for your good news.

People in foreign countries must protect themselves and put away their temper. Do not let other people conflict.

We must remember that a gentleman does not stand under a dangerous wall. Can you understand my words! "
