

Special Soldier 1931

Chapter 1931: Still have to think of a surefire strategy

After hearing An Ran's doubts, Jason had nothing to say. He had never thought of such a long-term plan.

At the beginning, Qin Yuan was also very concerned about how to get rid of the numbered munitions on the ship first.

Because this numbered munitions will definitely not be available to ordinary people.

If people with relevant information from Pakistan really got hold of it, they would not be able to clear it up even if they jumped into the Yellow River, and they would have no way to defend themselves.

At that time, it will become a big fat sheep to be slaughtered.

Not to mention Effiete, they planned to use this incident to kill Qin Yuan and Jason.

The most important thing is that they probably want to use this matter to cause many things, even if they are blackmailing them, they can't stand it. How can a normal person be threatened by him like this?

It was only at this time that Jason seemed to realize the seriousness of the matter, and he looked at An Ran and Qin Yuan blankly.

"It seems that this time we really fell for Effiete. Their trick has turned into a situation where riding a tiger is difficult. What should we do next?"

Qin Yuan thought about it, and after a while he said:

If that's the case, you advise them to calm down first, maybe that matter hasn't turned around yet. "

Jason said to An Ran:

It's much weaker than being framed by me with a high-sounding reputation. "

Pei Jing was suddenly confused by An Ran's story, she was either at a loss or scratching her head.

"What are the two little girls doing submissively outside there? Things haven't developed to a good point yet, and it hasn't been long for you to prepare.

"An Ran, you think he is too naive, that matter is complicated to say, but it is not so difficult to implement, how can people from Ba Kingdom help you?

We simply knew that you didn't take her as a solution, and we thought we wanted to use those unnumbered arms to frame you.

They have transferred those arms now, and the overall number will not be much by then.

And you just found out that batch of munitions with no number, so quickly get rid of those things.

"Oh? Why would he say that?"

An Ran and Jason are not yet Qin Yuan, we all looked at each other and thought of a worse way to deal with it, Pei Jingbei.

You guess I don't hate you to death yet, I think it's because of you and Qin Yuan that she came up with so few ghost ideas, but what I didn't expect was that it was Qin Yuan's own idea that time. "

That's actually the best policy.

At that time, can I ask Effiete to help them again?

"You said he was really stupid when he was stupid, how could he be so stupid when he was smart?"

For sure, if that incident really got him involved, then you two may have no way to get rid of your heart in your whole life. "

[In view of the general environment,

Before Jason listened to Qin Yuan's words, I thought to myself that there was no other way.

"An Ran, you think it's better for him to go back first, he also did so little to help you outside there, you feel very embarrassed and sorry to go.

An Ran looked at Jason and Qin Yuan, the two of us obviously haven't been messed up by that incident, we are exhausted physically and mentally.

My real purpose is not to frame you.

When Qin Yuan heard that, I just understood what An Ran said.

At that time, Pei Jing's hand nearby said to Qin Yuan:

Jason, in fact, I'm even more curious about what kind of solution An Ran can't do until now? So I quickly asked:

At that time, you may be able to get rid of Fan Tianlei, but I will be miserable for Qin Yuan. There is no agreement between me and AI Fit, and if there are too many goods, I will bear the consequences. "

After all, the two of them got off Hanhu's boat

A batch of munitions with no serial number is no less important.

Jason, it suddenly occurred to him that if that was the case, he couldn't do it. After all, there is no other worse way now.

Who dares to take that responsibility? You suspect that no one among us dares to take such a small responsibility, it's just your own way.

"You suddenly thought of a very important thing. Maybe I have Pei Jingbei or not. There's nothing I can do about you."

Pei Jing nodded, I very much agree with that plan.

"Then he understands it, right? It's called psychological tactics. The more we think it's something that might happen, the more false it will be for us. By the time we react, I'm afraid we haven't caught the trick."

If there is nothing else, you can take the brothers to rest first. "

"You think that thing is not aimed at Qin Yuan, but Fan Tianlei is obviously aimed at him, I just want to use that thing to catch them all.

Pei Jing suddenly seemed to have thought of an even worse way to not delay the plan.

An Ran smiled and nodded.

An Ran thought for a while, and I raised my head, Xiaojia said:

Before they dock, Fan Tianlei, we will still threaten them with that incident. If they want to think badly about Hanhu, what should they do next?

Moreover, we have no evidence in white paper.

An Ran suddenly thought of something, and I said:

They should really think that Effiete will help them repeatedly like that? "

I suspect that Pei Jingbei will know again, if I haven't been so angry that I will explode before being cheated again.

But there is not much Fan Tianlei in detail, and I have no evidence to prove it at all.

It would be bad if I could think of other, worse ways. "

"She's serious, you guys think there's a worse way, then you can only rely on Pei Jing to bite her to death.

"Because when you were talking with Fan Tianlei, there was no evidence at all, saying that I gave you a lot of goods.

An Ran looked at the two little girls outside, he looked at you, you looked at him, no one thought of a bad way, I said without any anger:

When Fan Tianlei and us came to pick up the goods, those actors rushed down.

When An Ran heard what Jason said, I nodded in satisfaction and said:

You advise them to take it easy first, because things are not as embarrassing as you imagined, and you think there may be no other solution. "

An Ran thought for a while, and I said.

Do you have any resources to know people, not to mention that it also involves the issue of arms transportation between the two countries, in case there is a real problem at that time.

There is no way to trouble you again.

Before listening to An Ran's words, Jason was actually beating the drums in my heart.

You doubt that there should be no one who would dare to help you make such a guarantee with such a small responsibility. "

Now those things under your ship are hot potatoes, who can protect them? The most dangerous thing is not handing over to my master for protection. "

Maybe you think Fan Tianlei, I would have thought that you would be able to find out in time that not a part of those munitions were numbered.

No matter how bad Effie is to me, the relationship between us is definitely so complicated, Pei Jingbei will always ask for any reward to help her, and she also has the bad intentions to ask Effie repeatedly for help!

By the time we get to our destination, we should come straight down and inspect your cargo straight to the point.

That's when Jason said.

An Ran smiled, a mysterious smile appeared on her face.

Although, we clearly know that we have suffered a loss, but there is nothing we can do to you.

An Ran smiled charmingly.

"Is there anything worse?"

If you want to find someone to help you carry out that plan

, You need fewer actors, you are familiar with this place, who can help you.

Jason said:

"Boss, you guys haven't finished packing those goods, and she's supposed to check them out. To be specific, there are not too many boxes, and you haven't recorded them yet. Do you have any other orders?"

After we signed for it, we went back and checked it before, and if there is any problem, it has nothing to do with you!

"Don't let him say whether your brain is slow or slow, he just said that the method is feasible, it's better than if you find some actors to connect those things first and then talk about the plan.

At that time, you just need to pack a few empty boxes or get a few fake things and mix with us.

Do you have a worse solution now, when Fan Tianlei really questioned why you have so few goods, we have something to say.

"He said first to see if there is no suitable method, you can try it. If it is suitable, I am afraid that you will have to change another method. You can definitely wait for death."

What do they think of your plan? "

"Does he mean to find some actors to pretend to be Pakistani officials?"

"Well, An Ran, you can go back with these things first. I don't think the weather on the sea will get worse. If you want to delay the time, I'm afraid this batch of munitions will not be in time when you go back. gone."

"But now, have you thought of a worse way? It's called choosing the more serious of two evils. Even if you let him take away all the ammunition you don't have now, it's better than being caught by Pei Jingbei. We really caught substantive evidence." less bad.

"Now your plan is far from being thought out, but how should you implement it?

"It is possible for real people to help you, but you can't find some fake ones to pretend to be. When the time comes, let's see if Fan Tianlei can tell the difference."

"You think there's nothing else I can do."

"Before she arrives at her destination, you should first find a group of people to pick up those munitions, at worst they can catch up behind Pei Jingbei and us.

"What's too late, what kind of efforts are you in now, are they still thinking of her?

Pei Jingbei, if our people wait to sign for it.

Qin Yuan looked at the two of us, although he didn't think of any bad way, but he was still as depressed as before, so it could give Qin Yuan a little confidence to deal with that matter.

As far as the current situation is concerned, the Xiao family already knows that it is her fault. Are they still so obsessed?

"Is there anything else to do, let them go to rest first, thank you for your hard work!"

At that time, Fan Tianlei, as soon as we see people from the Pakistani country coming, we will be very slow, and we will pick up the goods first.

Before Qin Yuan heard what Pei Jing said, I also said:

"That's called Luan Quan, he killed the old master! Then Fan Tianlei and we have all been in the Tao for so long, don't we still know what is true and what is false?"

At least it is still recoverable now, if it is really recoverable, it is really not her. "

While you can help them while you are still there, when you are gone, they will really be at a loss.

Jason, with a sigh, said:

"Is there any turning point?"

Or speed up and come to the place where you hand over.

"That's right? That's the Pei Jing you know. I will definitely give up easily. No matter what kind of her she encounters, I will stick to my inner thoughts. Until the very last moment, I will always give up. "

At that time Qin Yuan said:

An Ran showed an anxious expression and said to everyone:

"Well, you seem to have thought of a way to do that."

"An Ran, you think what Jason said is very unreasonable, just like what I said.

"What does that mean? He is

No idea? "

When we found out that the unnumbered ammunition that we wanted to plant for you had not yet been seen, we had no less ideas to check the quantity of the goods.

An Ran patted Jason on the head and said:

By the way, use that opportunity to deal with Jason.

"It seems that they used her as a psychological tactic that time, to put some small pressure on us psychologically. It seems that you will be able to succeed that time.

At that time, there will be no official pick-up of your goods, and Fan Tianlei, we have no way to say anything more, we dare to confront them head-on. "

"Qin Yuan went to Qin Yuan. When I thought that he was not so ghostly, , his eldest son was really good."

At that time, Jason remembered that there were not many ways to contact the local vision on the USB flash drive Effiete gave him, and suspected that these people should be able to solve that problem. Besides, Fan Tianlei and our people are also fools. If she can make the scene too real, we will expose your conspiracy on the spot, and then it will be bad, and it will be done. "

"But there is no solution yet? Before she really arrived at the destination, Fan Tianlei rushed down and said that your goods are not too much.

Before Pei Jing finished listening to Pei Jing's words, I said with a smile:

At that time, you will bite to death, there is not much at all, what I gave you was not those goods, and I have no evidence, I can't prove it. "

At that time, Xiaojia didn't even make it clear to her that she should pay the money and deliver the goods face to face.

Pei Jing said to my hand:

"You think maybe that's the case, you can't find some actors to pretend to be local inspectors, and then ambush her there.

Chapter 1932: Find contacts on USB

Qin Yuan thought about it for a long time and felt that what An Ran said was quite appropriate.

But fortunately, the method Jason proposed is more suitable, in fact, this is just a psychological tactic.

They are a group of evil people, what they are most afraid of is psychological tactics.

Because they are more guilty in their hearts, they have done too many things in the past, and it is natural for them to do too many bad things, but they just don't know what to do.

Qin Yuan smiled and said:

"I think Effiete and his group are indeed evil people. Once they really encounter someone who is not afraid of death like us, they don't know how to deal with it.

That's one of the reasons why I can always beat them.

I've never been afraid to fear them, so what?

They are useless to me, no matter what kind of tricks they use, they are invalid to me. "

An Ran smiled and patted Qin Yuan on the head.

Jason, I am also a person who is used to talking. When I saw Chen Jixiang rushing out, I faltered and asked:

That's right, that person is not Chen Jixiang!

Your little family lived there just now, and you have been discussing that matter. What kind of secret is that? Do you have to tell him? Does he think that a father who is willing to let everyone know that his son is about to leave that world?

Chen Jixiang smiled and said:

Now both Jason and Anran feel very embarrassed, because we are both very concerned about Hanhu. Did He Chenguang tell Chen Jixiang and how should we explain the reason why Anran appeared there?

But how should he explain to Chen Jixiang that An Ran appeared there?

Jason and An Ran heard it, and they were very relaxed before that. We thought it was Qin Yuan who would meet Qin Yuan, so we were going to blow ourselves up at that time?

"Why are you able to appear there? The small family is silent outside, so you are the only one missing? An Ran is here, so why did he tell you, is he treating you as a bad brother?"

In the past, I was afraid that the lives of those two apprentices that Fang sold would be saved! "

At that time, Fan Tianlei, who was running out of breath from the front, also chased him down.

Including that time, he suddenly appeared behind several of us.

You just feel that they are busy with something inside.

Did you expect that at that time, Qin Yuan would actually say:

He really let you down! You feel that he is really ashamed of your trust in him. "

For such a long time, do you know how unbearable this underground cabin is, driving Chen Jixiang's super optimistic elder brother like Lu Guanglan to go crazy. "

Qin Yuan, Gu Shixia, Lu Guang and An Ran look at me with what kind of eyes, I am single-minded now, I just want to help Xiaojia solve the difficulties and problems in front of me.

I thought that when Xiaojia was discussing Zhe, a very strange voice came from the side.

Jason says:

You feel that things don't seem to be that complicated,..."

"Hey baby, what is a small matter of life and death?"

At that time, Qin Yuan said without any anger:

The reason why you came to Ba in person and took the boat with them was not because you heard that there was no one who could treat your son's illness.

When Chen Jixiang heard Qin Yuan speak, I just smiled maliciously and said:

On the contrary, Chen Jixiang was overwhelmed by An Ran's scolding, and I said nothing.

For a group of people who have spoken to you, what you do is useless. Since it is going to be postponed, they all have passed, or should you hide away? "

Before An Ran heard that, I said angrily:

Jason thought to himself, now it's time to quickly shift the conflict, and it's time to ask the eldest brother, Fan Tianlei, to come out and put on a play.

I have never thought about why Chen Jixiang would appear there. I was in the plan of everyone in Xiaojia. Now that I am face to face with An Ran, how should I explain it to me?

"Chen Jixiang! Why is he out there..."

Just come out and have a look.

Do you agree, if you agree.

"Okay, An Ran, you know that it's all due to him. If he finds Qin Yuan, you really won't be able to get there and reach your destination."

An Ran raised her head and smiled.

"That's right, you are also very bad, especially Anran, why did you appear there, you hope they can give you a reasonable explanation, if so, do you think there is really no way for your brothers to continue to do it.

I could only stand where I was, and listen blankly to the few of us arguing with each other.

"Chen Jixiang, do you think he insulted you too much?"

"I'm sure if he wants Anran to help him take care of the man, he can't just tell me directly, why did he get it under that boat? And they are still hiding it from you. ...

How do you explain it to me and make me believe that the ship will not bring unnumbered ammunition? That matter has nothing to do with it.

Anyway, you look at the expressions of the two of them, but there is nothing abnormal..." Fan Tianlei, who was standing in front at that time, saw the gang of brothers and sisters arguing, and I had no choice but to join in.

"In a few days, it should be counted by the hour, right? We will reach our destination soon.

Has this mysterious white box secret been solved yet?

It's natural, it must be said, I was suddenly bumped into by Chen Jixiang, the embarrassing feeling was like being discovered by someone else.

Chen Jixiang looked at Lu Guang with a sad and angry look, and felt sure that if I was an actor, my emotions would be fake.

Shiru should contact He Chenguang now, and transfer you back quickly, you are going to Baguo.

Is it bad to know what to do?

They also revealed their whereabouts. By then, they will definitely be known by those who are plotting or who are from the United States.

I also seem to feel that Jason and An Ran have a delicate relationship.

"Chen Jixiang, he is so eccentric. Do you have anything to hide from him, and there is nothing you need to let him know. The few of you are just chatting outside. Don't you tell him less about what you need to chat just now?"

He knows all about telling you?

"What? Lu Guang, did you hear me wrong? He keeps saying that you have talked to him?

Hearing what Qin Yuan said, Jason knew that Qin Yuan had really uncovered his scars for everyone to see...

"Tell him the truth, you asked An Ran to come over that time. Because you had to ask An Ran for help. Nothing is a small matter of life and death, only I can help you."

He must forget.

Then we will prepare according to this method. I believe that you will arrive soon in a few days. "

An Ran heard Jason's complaints all of a sudden, and it was only bad that I knew how to answer.

Qin Yuan saw that the two of us seemed to be arguing and bickering, but he knew why there was no such a sweet feeling.

Lu Guang was also surprised now, he was sweating all over his body, and his hands were also covered with sweat.

The few people you are most unfamiliar with are discussing what secrets they know, but they just keep it from you. "

You must be dreaming, right? "

"Lu Guang, there is nothing bad about him that can be known to others. He is cheating on others. Is there a bad thing about cheating on others?

He Chenguang, but Chen Jixiang knew about the repeated complaints.

We know that the person who will definitely tell me about that matter, since the scene is not cleaned up now, it means that Qin Yuan will also reveal a little, any secret that I will know.

Did you expect Qin Yuan to speak suddenly at that time.

So, have you ever told the insiders about that time.

Taking advantage of that moment, no one is watching your kung fu,

I have to keep everything from you, even the eldest brother Fan Tianlei knows the secret.

It's too bad that we haven't finished delivering the unnumbered munitions that we brought under the ship just now. I haven't seen any traces yet, and Qin Yuan's hands are naturally blind.

"I know you are the best, even the famous Evert and the others are very afraid of you, so what do you think of the method Jason told me just now?"

"You know they are willing to poke open your wounds, but now that Xiaojia is facing bad situations, he rarely responds, you have to tell Hanhu about it.

Even Lu Guang knew what he was. He and I only met each other for a few years. "

I just rushed out like that now, how can Xiaojia explain it to me? It was really embarrassing.

Jason saw that the two of us didn't look embarrassed like that, and he knew that if something happened to those two people when they were on the cabin just now, it would be a pleasure, so Chen Jixiang took that opportunity to rush out.

Lu Guang saw that Chen Jixiang bumped into An Ran before he came out, and now I feel relaxed and worried.

Qin Yuan glanced back at Jason and said to me:

Everyone didn't think about breaking a perfect plan, and they didn't think about breaking a perfect reason.

If you want to talk, he should have heard of it,..."

In fact, Jason has never talked to Chen Jixiang before, but my recent abnormal behavior is too rare.

"Lu Guanglan, what is he talking about? If he wants to listen? What is he barking about? He has never been a father, and he even knows that he has been a father. This sense of power.

Even less is a guilty conscience.

Jason knew that what Lu Guanglan said now was just a trick.

"An Ran? Why is he out there? Did you really dream that you would meet him there?"

Once they have no way to save Professor Fang's two apprentices, then I will help you solve your internal problems sincerely and falsely.

Before Chen Jixiang narrowed his eyes, he said:

But Chen Jixiang was still talking too much about what we said, so I asked back:

Qin Yuan, did you care that Chen Jixiang said so many eccentric words, I just said calmly beside him:

Now as long as there is no intention to upgrade, Qin Yuan will give up, that's why I called you down there and planned to hand over the man's medical records to you, so that you can use the resources you used to help my man find a heart capable of transplantation.

"Lu Guanglan, what is he doing standing here? Was it a pleasant thing that happened between him and Chen Jixiang just now in the cabin on the ground? You saw me rushing out angrily.

As soon as I came out, I vented all my anger, and I was under your body. I didn't even let that man Qin Yuan get sick. He told you, just now they What happened to be pleasant?

You haven't found any worse medical resources yet. Your son doesn't have a congenital heart disease. I need to wait for a heart transplant for me. Now, you can only think of An Ran coming to help you. Let me come under that little sea..."

"Jason, do you think you have always regarded him as your worst friend, do you know why he has such little trust and misunderstanding of you?

Lu Guang thought that Qin Yuan would tell Lu Guanglan the truth at that time.

An Ran, the embarrassing thing now is that I don't know what to do, and I know what to say to be bad.

But did you expect that halfway through, you would know that the doctor was kidnapped by someone else.

"Your son suffers from congenital heart disease. That secret has been bought out by you for a long time. You are even more afraid because you are afraid of others' ridicule. You have offended me under the Tao. Very few people will hurt your man.

I quickly grabbed Lu Guang's arm and said:

Chen Jixiang, the time you called An Ran over, you asked me to treat your son's illness..."

"What's the situation? You were still researching the plan just now, and now he is telling you about the environmental effects of other people's ships?

They are also willing to help you. If they are sure they are willing to help you, you tell them that they are still working outside the army.

Professor Fang, I am still lying under the bed outside the hospital, knowing how the situation in Pakistan is going.

Everyone, following the strange voice before looking over, Xiaojia all narrowed his eyes in surprise because he dared to doubt the person behind his eyes.

Didn't expect to see such a small show.

Brother, please ask him that when they were so anxious to go to Ba, it took you so much effort to help them find Qin Yuan?

"Since he wants to know An Ran, why did he appear there, you tell him. He also needs to tell you so little nonsense, and he is so angry.

They are familiar with the place of birth here, and I am really afraid that they will not be able to complete the task in time before they get here.

"What? What is treating his son? What does that mean?"

Jason's family all came out together to complete the task. You are curious, do they have any big secrets? Have been hiding it from you? You suddenly feel like the boat is moving faster.

"You think he should be curious, why did An Ran appear there?"

"Qin Yuan...forget it, he still wants to talk first..."

Qin Yuan, I said with tears in my eyes:

Tell him the truth, the reason why An Ran came under your boat is because you asked me to come..."

Chapter 1933: Partner to cheat 1 person

After Chen Jixiang heard Qin Yuan's knowledge, he was very embarrassed, smiled and said nothing.

At this time, An Ran also felt that the atmosphere between them was very wrong. Jason joined them as an outsider, and it was even harder for him to speak, so he just stood there blankly.

At this time, He Chenguang spoke. He said that apart from him and Chen Jixiang, something unpleasant happened just now.

"Some unpleasant things did happen to the two of us just now. We were all staying in the underground cabin, but I found a USB flash drive in this kid's hand. I don't know what it is. Ken told me that you didn't let him talk about this matter. I don't know if it's true or not, but I'm also curious about the reason? What's in this USB flash drive? Nothing important Can you let me know? It seems that there is really a lot of estrangement between me and you. Everyone really treats me as an outsider." After hearing this, Qin Yuan knew that Chen Jixiang was still a boy. It's really unreliable. He repeatedly exposed the important tasks that Fan Tianlei entrusted to him, so what else would he dare to entrust to him in the future?

"The reason why you didn't tell An Ran when you got off the boat. If He Chenguang would laugh at you and talk about it, that matter can be regarded as that you have been picking things up and there is no way to face Lu Kefu.

"Chen Jixiang, is he crazy? At that time, An Ran thought that he would be able to stop Chen Jixiang, and he probably had no tricks. Let him take a look, it's not your son's medical record, he must think If you cheat, you won't have time to cheat outside!" Although, there is no signal under the vast sea.

Of course Luke could also see that before I finished saying that, Chen Jixiang was still dubious.

Jason, I know very well that Lu Kefu, that person, although he usually seems to be the bitter fruit of Xiaojia's team, but it is difficult to convince me if I am really stubborn.

What else does he want after uncovering it for you to see? What truth did he want to know? "

"Chen Jixiang, is he going to make trouble for Xiaojia at that time? You were discussing your son's condition with Lu Ke just now. How serious is that? He is still making trouble for you now!" Seeing Chen Jixiang's satisfied expression, Jason hurriedly persuaded him: Fan Tianlei is very clever, and I'm very good at it.

Is he too skeptical, he feels that Xiaojia is busy with many things, but he is not like that in fact. "Before I heard Qin Yuan's roar, my hands rushed to that distance one after another.

Because your son does not have congenital heart disease, I need a heart transplant, do you have any way to ask others for help, you can only tell Luc.

"But An Ran said that when you got off the boat, he was telling me why you were all about to reach your destination, and he suddenly mentioned that matter?

"Brother, don't be angry, you know they let the splints come down, that's... you've been studying, you're not just trying to get quiet, you must be misunderstanding!" Now that Chen Jixiang is outside, he must be there for a while I thought about my mobile phone in front of everyone, so how can I explain it to Chen Jixiang?

Let me tell you that Enron does not have very few resources, and cannot help you find a heart that can be transplanted for your son.

By the way, you see, the two of them should be smugglers in the cabin on the ground, why are they outside there?

At that time, was it true that Daojia's partnership deceived me alone? At that moment, Qin Yuan rushed out of my room angrily holding a big notebook.

The reason why I have never told you about my son's illness is because you want to protect your son's little self-esteem in front of others.

As soon as Qin Yuan heard An Ran say that, although I was very willing to mention my son's illness, but now is a critical moment, and if Chen Jixiang is sent to Hu to pass school, the rest of us will not be able to think about An Sheng.

"Chen Jixiang, he hates bullying older kids when it's over, so he wants to be with you for a long time, can he not have any secrets?" Chen Jixiang also felt very embarrassed, I stood where I wanted to I was anxious to resolve the embarrassing atmosphere, but I also knew where to start.

Jason thought to himself whether He Chenguang could call, just in case, he should turn off the phone now, but don't let He Chenguang, we found something.

Naturally, Lu Kefu is also a fool, I immediately analyzed the smallest loophole in the whole thing. To force a sick father of a man, now Qin Yuan, I am the youngest of a stowaway, I am just a poor father now, what else will he want me to do?

Jason watched Lu Ke leave, and I knew that Qin Yuan should be looking for clues to persuade Chen Jixiang. Does he have to make Xiaojia appear on stage and make the scene so embarrassing, can he let it go?

Although you have no obligation to explain to him, you want to affect the relationship between him and Jason because of that incident.

He would definitely reveal to me that there was no ammunition under the boat, so Qin Yuan had to use his trump card, and I turned around and left without saying anything.

"Luke, do you know what happened under their boat? Qin Yuan was very speechless. He didn't know how to face He Chenguang now. He could neither tell the truth to He Chenguang nor want to deceive him anymore. The teacher was successful, and his mission was not completed, so he returned to He Chenguang in dismay. I haven't become the point where everyone loses, and I also realize that I am not too irritated. Maybe that method of wanting to know the truth of the matter is not so reasonable. I don't think Qin Yuan's hands are aiming at me unintentionally, which leads to so few pleasant things happening to me.

"That Qin Yuan said something and turned around and left. What does that mean? Are you hanging there, or is it that I regret letting you take my boat?" Even if Qin Yuan told his son There is no way to get any sympathy from me for the thing that is not sick.

All I want to know is the truth, all I want to know is why Xiaojia treats me as a friend and hides it from me?

Do you hope that there will be a crisis of trust between them. He knew that for congenital heart disease, the chances of being cured were very high.

"Brother Chenguang, can he say a few more words? He thinks the scene is less embarrassing now! Qin Yuan should have gone back to get my son's case. He has never been a father, and he simply cannot understand that Feeling, I haven't put the scar in front of everyone's eyes just now. Qin Yuan laughed and said: Fan Tianlei pushed up with his arm, Lu Kefu. I didn't expect Jason to say at this time: "You heard, he was very You're so angry, you think they got into a fight there. You originally wanted to say, why does he stand up and accuse you of what is he? He was just a family member among you, so how old is he? But think about it, Lu Kefu said those angry words back to Yan, after all, he is still in the territory of his marriage, if he really offended me. Do you think I am unreasonable in that matter? Haven't you repeatedly complained to them, the people in the cabin on the ground can't come down to the deck, it seems that you haven't told them repeatedly that it's bad. Although as an insider, you feel that you should keep some privacy for others, for example, what is on the USB flash drive is their privacy, and it is understandable for them to tell them. Then you asked An Ran to come over to discuss with you, and you plan to hand over the medical records to me personally, and let me help you find a suitable doctor. "Maybe I was too slow, I was too slow, I wanted to know everything.

They are not related to you, but you have met a bad friend. I had to use a trump card to make Chen Jixiang doubt what we said.

Is there any father in the world who would joke about the danger of his son's life? You only know that An Ran, I don't have so few resources outside my hands. I have gone to school to help your son find a heart that can be transplanted.

"Why are you so aggressive? You just want to know the facts, but how do you feel? Did they tell you the truth? I said my man is not sick. Is my man really not sick? I There is no way to prove it?" At that time, Qin Yuan, after passing the school, walked behind all of us, and it folded Lu Kefu and threw the medical records to the ground.

Before Lu Ke heard that, I was completely angry, and I scolded very angrily: Qin Yuan, now I know whether it is showing his true feelings or he is deliberately cooperating with An Ran in acting, anyway, I looked very serious and said: Lu Ke As soon as I got angry, I drove it to the boat, and I could only go back to the army with An Ran.

You are willing to explain that to him because of Jason. It's because he understands the psychology of being a father, and you want to mention that kind of sad thing.

But who is Lu Kefu? Why is he being aggressive there? An Ran also said very angrily: It was you who became strangers to Jason before getting off the boat, and you only mentioned that matter to you before.

In fact, Chen Jixiang needs to pick up the underground case, I haven't been able to see it yet, now Qin Yuan is definitely cheating, it is a real father's anger!

Besides, even in the vast Xiaohai, the mobile phone has no way to contact the inner world, how did they contact An Ran? "However, you haven't been running under that small sea for so long, so you naturally have no way to establish contact with the inner world.

The Lu Kefu you know, I am not that kind of person, why am I so aggressive?

Chen Jixiang, now I am very embarrassed at the same place, I didn't say anything.

"What's the matter, why are they here?" Luc's departure left everyone on the battlefield confused.

Make sure they follow the rules of your ship, and they can only be thrown into the small sea to feed the sharks! "That's what he needs to worry about and question. Do you know that it is correct for you to find a way out for your son?" There is no point in lying to them?

At that time, Chen Jixiang, I said with a disdainful tone: Chen Jixiang, do you think he was too big when he didn't have it? There's nothing to be angry about?

Unless I find a suitable matching heart, if so, my boy will just die. "An Ran, I said very angrily: Qin Yuan hasn't said anything about his son's illness yet, and he still wants to be so aggressive!" For fear that we would waste too much time, He Chenguang called again to urge us.

You know they probably went to Pakistan to escape something, but no other ordinary mission. At this time, are you and Jason still strangers? As a father, it is absolutely possible to disclose your son's condition to others.

At the very least, it is definitely the thing that can make Chen Jixiang find out that we did not carry unnumbered ammunition under our ship.

Why, that's your territory, and no one has bullied your young and old under your territory in front of your big brothers?

Chen Jixiang was reprimanded by An Ran and Lu Ke one after another, even Fan Tianlei is very satisfied with me now.

"What's the matter? Brother, what's the matter? They're quite quiet outside." In fact, Lu Kefu, I haven't seen Qin Yuan pleasing to my eyes for a long time.

Who changed? Who can feel at ease? Everyone could see that Qin Yuan was very angry. Jason thought that it was as expected that Qin Yuan went back to get my son's case.

Now that there is no conflict between us, Qin Yuan stood up and spoke again. What does that mean? Yes, it represents Qin Yuan. Now Guoxue and Jason, we stand on the same front and come to accuse me.

Did I learn from Chen Jixiang, Whether it is because of my eighth sense or other reasons, anyway, Qin Yuan, I am not suspicious of Lu Kefu now!

Before Chen Jixiang heard Jason's scolding, now I don't feel any guilt at all. Because, Qin Yuan, although I can become bad friends with Jason in a very short period of time, I am definitely a person who is easy to learn from others.

Jason, I would like to help you find a heart that can be transplanted for your son. You haven't thanked me very much yet.

"I don't think there is anything important in the USB flash drive. I believe that this kid has a USB flash drive with him. I believe that he should have learned some big movies that I hate to watch. The big guy must be quite shy. He wants to let them know. .Chen Jixiang glared at me before

hearing what Qin Yuan said. As for how to contact An Ran, you think he thinks too much of you. Then there is nothing to be angry about?

"Show him, isn't that your son's medical record, does he think any father would be honest with his son's life?

"Yes, about Lu Kefu, you want to tell too few people.

Chapter 1934: With the goods, return successfully

Jason's subordinates were not easy to mess with. After hearing Chen Jixiang's embarrassing explanation, they were reluctant to let him go.

"Look at the excitement, we don't have much excitement here, I think you are here to watch a joke, right?

I have heard what our boss is saying just now. I think you guys just want to come here to see our jokes. Letting you be our ships for free and smuggling you to your destination is already very easy. Not bad.

I think you are just being cheap and acting good, and you have helped you so much, but you still don't know how to laugh at us, right? "

Jason also knew very well in his heart that his men did not intend to target Chen Jixiang or Qin Yuan.

They were just targeting He Chenguang.

They saw how angry they were just now, and now they reprimanded them in a stern tone by their own subordinates.

He Chenguang who is here at this moment is like a clown. He also knows that no one wants to see him, but what can he do? He just wanted to satisfy his curiosity.

Seeing the ugly scene now, He Chenguang felt a little embarrassed.

"Okay, Jason, I know what's going on with you, let's forget it, and don't talk about this topic."

"Forget it, you have been tossing with us for so long just now, now you say forget it?"

"Then what else do you want? Do you want to change me? Or throw me down to feed the sharks. I have just apologized to you. Besides, you should also know why you did this?"

Every time I want to come out to get some air, your subordinates will stop me. I don't know what important secrets you have. I'm afraid that if I know, will I delay such a big event for you when I come out? "

At this time, Qin Yuan also said angrily:

"That's enough, He Chenguang, don't talk anymore, we have to abide by his rules in his territory.

Didn't they already tell us when we boarded the ship? You can stay in the underground cabin as you like, just don't come up on the plywood, as you saw just now, someone came up to inspect.

Fortunately, they didn't find our traces, let alone our identities. Do you want Fan Tianlei's plans to come to naught? "

Qin Yuan's rhetorical question made He Chenguang look a little ugly.

"Okay, I won't say anything, you can do whatever you like, you can hide anything from me, I just pretend I don't know and treat me like a fool!

I hope you never have any questions, beg me! "

After he finished speaking, He Chenguang, he didn't even look at the case on the ground, so he left here very angrily and turned around to go back to the underground cabin.

At this time, Chen Jixiang looked at him here and felt a little awkward, and he didn't dare to speak.

Qin Yuan looked at Chen Jixiang and said:

"I said you kid, what are you thinking now? Are you satisfied now? Let you take a good look at He Chenguang. If you don't take a good look at him, now he came to us and lost his temper. You Satisfied?

Why don't you talk now, don't you usually talk a lot? "

Chen Jixiang, this kid has a very high emotional intelligence. When he saw that Qin Yuan was angry, he wouldn't say anything, let alone make excuses. Instead, he said half-jokingly:

"I've already said it, you call it a fight between gods and gods, and the little devil suffers. I didn't say anything and you just criticized me indiscriminately, as if I did something wrong?

It's not me who lost my temper here just now.

Besides, don't you guys understand He Chenguang's temper? If he wants to rush out, can I stop him?

You don't even think about what I am, Fan Tianlei gave it to me, and you discovered it, and now I have lost control of it.

Now I am still your little brother, I will do whatever you want, even if you tell me to go east, I dare not go west.

If you want to criticize me, just criticize me, just to vent your anger.

After I go back, I guess He Chenguang will not let me go. I come out to perform the task this time, just to be the punching bag for the two of you. "

After An Ran heard this, she knew that Chen Jixiang was acting like a baby.

An Ran quietly walked to Chen Jixiang's side, and gently patted his head with her hand.

"Chen Jixiang, let me tell you that enough is enough, you must not make your Brother Qin Yuan angry.

After a while, if he drives you away when he is really angry, what do I think you will do?

These things today really don't have much to do with you. They are confrontation and games between the two of them, and you are involved in them for no reason.

It's indeed their fault that they lost their temper on you. Can't I apologize to you on their behalf? "

"Sister An Ran, please don't say that, it has nothing to do with you and it's their fault. They always bully a child like me over and over again.

By the way, Miss An Ran, why don't you leave? "

Only under Chen Jixiang's reminder did Qin Yuan come to his senses.

"That's right, An Ran, it's time for you to go back. You were supposed to leave just now, but He Chenguang delayed you. If you don't leave now, I'm afraid you won't be able to go back on time." .

After a while, I guess Fan Tianlei is going to urge him again. If he knows what happened just now, his beard will explode in anger.

oops! I almost forgot one big thing! "

Seeing Qin Yuan's sudden surprise, everyone asked anxiously:

"You almost forgot what happened, but don't scare us. If we make a wrong step at this critical moment, we may all fall into a situation where we will never recover."

Qin Yuan took out the mobile phone from his pocket, shook it in front of them and said:

"When I lost my temper with Chen Guang just now, I was afraid that Fan Tianlei couldn't bear it anymore.

He wants to call us again to urge us. When the time comes, he sees our sneaky contact with Fan Tianlei.

He couldn't be more angry, maybe, he lost his temper with us even more!

The most important thing is that Fan Tianlei's secret must not be revealed again.

Otherwise, Fan Tianlei will definitely eat people when he goes back. "

Jason felt both funny and serious after hearing this.

"Is Zheng Tianlei such a person in your eyes? It seems that he is really scary."

An Ran smiled and said:

"People say that there are no weak soldiers under a strong general. You can see that Qin Yuan is so strong because he has been with Fan Tianlei for so long. Fan Tianlei has indeed given him a lot of things, and he has actually learned a lot from Fan Tianlei. ability.

Therefore, Fan Tianlei is both a teacher and a friend in our hearts. He is our superior leader and our good friend. More is ours, iron buddy. "

"Yeah, An Ran, if you say that, then I understand.

It seems that Fan Tianlei is indeed not a simple character. According to what you said, I admire others more and more.

I hope that when I go back to Country H, if I have a chance, I can also meet him, the legendary God of Thunder.

It's really a pity that such a fairy is a character, and I don't see him for a while and get to know me. "

"Of course, I believe Fan Tianlei should have known about your existence during the arms operation this time. It would be fine if I introduced you by the way."

When it came to this, Jason seemed a little inferior. He said:

"But what kind of person is Fan Tianlei? I'm just a smuggler. The relationship between the two of us is very different. Will he look down on someone like me?

I believe that I am not the only one who admires him. In case he thinks that I am close to him, it is not for getting to know him as a friend, but to see a relationship with him. "

Qin Yuan smiled and said:

"That's true. As far as Lei Shen is concerned, there are indeed many people who want to get along with him and go through the back door, but he refuses them all.

He is an upright person, and he will never mess with what is there.

If he wants to see you, it means that he also admires you very much in his heart.

Otherwise, no matter how expensive gifts you give him, no matter how much money you give him, he won't see you. She has always been like this, anyway, that's what I understand. "

Having said that, Qin Yuan quickly turned on the phone.

"It can't be turned off anymore, if Fan Tianlei can't find it, I will be in trouble.

Sadly, don't waste time, you hurry back with these numbered arms. "

An Ran heard Qin Yuan, and once again urged him to go back quickly, An Ran showed a worried expression.

"Yeah, I think it's getting late, and I should really leave quickly.

If it is really discovered by Effiete and the others, it is really easy to fall short.

But I am still very worried about you, is the plan we just talked about feasible? "

Chen Jixiang, upon hearing this, he asked curiously:

"Plan What plan did you just make? You won't even tell me?"

"I just said that you are everywhere, but it's really too..."

"Qin Yuan, don't criticize him yet. You really can't hide this from him. After all, the U disk is still in his hands."

It was only when Chen Jixiang mentioned the USB flash drive that he suddenly realized.

"Ao'ao, I see, it turns out that your plan has something to do with my USB flash drive, it seems that you already know what I have installed here, just now to protect it.

This He Chenguang almost didn't eat me. Fortunately, I sacrificed my life to protect what Thor gave me. Let's give it to you. Let's see what's in it. "

Qin Yuan took the USB flash drive from Chen Jixiang's hand, and said with a smile.

"I know what's in this USB flash drive. Fan Tianlei has already told me. If you need it, you can contact the people above. I didn't want to trouble others, even if it was the resources given by Fan Tianlei.

It's not easy for him to know these people for such a long time. It may be said that they have lost contact for a long time.

Suddenly I was in contact with others, and as soon as I contacted them, I was asking for something. This is not very good for them, and it seems that they use people to move forward rather than people to look back. "

After Jason heard this, he smiled and said:

"I don't really agree with these words. When An Ran contacted me, did you say the same thing, but you didn't expect me to be so mean, and I have to help you after so much."

"Of course, I never thought about how interesting you are?"

Afterwards, Qin Yuan turned around and said to An Ran:

"An Ran, all the planners we want to contact are in this USB flash drive. After a while, I will find a computer to export the specific information in it, and then contact them properly.

You don't have to worry about this matter, you won't be able to help us if you continue to stay here, you might as well take this batch of numbered munitions back as soon as possible. "

An Ran was very reluctant to face Qin Yuan in his heart, and he was even more worried that these few people were here to complete such a dangerous task.

This is no joke, this can involve arms.

But, of course, it was impossible to continue procrastinating with them.

"Okay, I get it, if there is nothing else, I will go back with these ammunition first, and it will be regarded as letting go of the big stone in your heart.

The most important thing is that if I want to waste time here, I am afraid that Fan Tianlei will come after him.

Then you all have to rely on yourself for the next thing, I don't know if the things in this USB flash drive are reliable or not.

Fortunately, you were able to contact Fan Tianlei. "

As soon as Jason heard that An Ran was really going to leave this time, he also showed a trace of disappointment on his face.

"Are you leaving?"

"That's right, I can't always be here, I'm here to assist you this time, not mainly involved in this task.

I have already picked up the medical record you threw on the ground just now and put it in my own pocket.

Don't worry, after I go back and arrange these munitions, I will definitely help you find very reliable medical resources as soon as possible, even if you go to the United States or other countries.

I will definitely arrange this matter for you.

Although I don't necessarily guarantee that I can help you find a heart that can be transplanted, give it to Yaya quickly, I will do my best to help you save your daughter.

I know how important this matter is to you..."

After hearing An Ran's words, Jason was so moved that he didn't know what to say.

"Forget it, Jason, thank you for your kindness.

You won't have time to thank An Ran after you finish this matter for you! "

"Yeah, what Qin Yuan said makes sense. Then I'll go back first..."

"Let's go, An Ran, I will take you there with Jian Jian."

Chen Jixiang, this kid stood there smiling and said:

"Sister An Ran let the two of them see you off, I won't see you off, I'll just watch over here in case He Chenguang rushes out and goes crazy again..."

Chapter 1935: Deployment after docking

After Qin Yuan watched An Ran get on his own boat and leave their side smoothly, the big stone in his heart was relieved.

At the very least, there is no evidence on board that Effiete and the others want to frame them, and they can prepare the rest slowly, and nothing else matters.

But the question now is, how should we deal with the matter in front of us?

After landing in a while, there are still many things to do, including not knowing Effiete, what method they plan to use next, these are the unknowns they have to face.

Jason smiled and said to Qin Yuan:

"Finally, with your help, the serial numbered ammunition has been resolved, and we can feel relieved.

At this moment, I am also very worried about An Ran, I don't know what kind of situation he will encounter when he goes back. "

Qin Yuan patted Jason on the shoulder, comforted him and said:

"Don't worry, I have known An Ran for so many years, and I have never seen him fail.

He is very reasonable and has principles in doing things. The most important thing is that now he has Fan Tianlei by his side to help him, even if he encounters any difficulties.

Fan Tianlei was also able to help her solve it in time. Didn't we already talk to Fan Tianlei on the phone just now?

He has already made up his mind, he will help An Ran solve the immediate problem, and he can send a ship to pick him up after An Ran gets in touch with him as soon as he sets off. "

Chen Jixiang said with a smile:

"Although you called Leishen just now, I think sister An Ran has already left, and you should contact him again to make sure."

"An Ran, we should contact Fan Tianlei as soon as we set off, we don't need to worry."

"I said Brother Qin Yuan, you must not think about this matter too simply, what we thought was just that even if Sister An Ran called Fan Tianlei, it was their relationship.

And the person who asked you to contact him was Fan Tianlei. If you didn't complete the task by then, Fan Tianlei, he would say you again.

Don't give him another chance to criticize you, you should call Fan Tianlei and talk about it. "

Qin Yuan thought about Chen Jixiang, what this kid said was quite reasonable, Fan Tianlei was so unreasonable sometimes, if he didn't tell him, he might really pick his own reason.

"It seems that although you haven't been here for a long time, you still know Fan Tianlei quite well, so it's like what you said, I'll call Fan Tianlei first, and you guys are waiting here."

Both Jason and Chen Jixiang nodded.

Qin Yuan walked to a quiet side and called Fan Tianlei.

"Thunder God Anran, he has already set off, if you want to send someone to meet her, you should prepare to go.

I'm just letting you know. Arrange the rest by yourself. "

"My God, he has finally set off, this An Ran is always attached to you, and he can't wait to go to Pakistan with you to perform missions.

My heart is already in my throat, and she is still not in a hurry. Now that she has finally set off, I am relieved, and I will send someone to meet her now.

Even if he can complete the mission well by his side now, I don't feel at ease. I'd better let my people go there in person. This little girl is performing missions in such a dangerous place at night.

If something really happened, if you let me, Fan Tianlei, I wouldn't be able to survive in this life. "

After hearing Fan Tianlei's words, Qin Yuan said with a smile:

"I really didn't expect that there is something that you, Thor, are afraid of. An Ran, he has been performing missions outside for so many years. Why do you have any worries about him? I am very worried about him."

"You are at ease with him because you are a relatively new person. You don't care about any dangerous things. It's so late, and you dare not pass me.

You yourself, sneak to find a little girl to help you with such a dangerous task. If there is something wrong with him, see if I can let you go. "

"I know, you've told me this many times, my ears are getting calloused, how could I put a little girl in danger?

I believe that he can do well in this matter. I have great confidence in An Ran, and you should also have confidence in him. "

After Fan Tianlei heard this, he said angrily:

"You kid knows ***** all day long, and you have the confidence to have a shit, what I want is that all of you come back to me safe and sound is the most important thing, everything else is bullshit!

Of course, it also includes what kind of problems you three boys will encounter after arriving in Pakistan.

I am not familiar with the place of life and speak different languages, so I gave you the U disk with emergency contacts on it.

Remember, although there are emergency contacts above, it is better not to disturb them unless it is absolutely necessary, although they will take care of my face and help you.

However, you also know that I, Fan Tianlei, don't like to bother others, especially with such a dangerous matter, it's not good to let them go into this muddy water. "

"Thor, I was about to tell you about this..."

"If you don't know how to call them, why don't you have any secrets to tell you? You really know how to use all resources."

"Hey~ Thunder God, don't say that. Since you have already handed it over to me, why not use the hot resources?"

Fan Tianlei sighed helplessly and asked:

"Or why did I give this thing to Chen Jixiang?"

The biggest advantage of this kid is that he is young and obedient. If I want to leave it to you, look at the current result and still blame me for not trusting you. Why do I not trust you?

I just don't want you to trouble others unless you have to. You really did what I thought. "

"Now is the time, the time of last resort!"

"Then tell me, what kind of ideas do you have now, let me see if it works or not?"

Qin Yuan thought to himself that this Fan Tianlei is really, he must know everything clearly.

However, this is also excusable.

Fan Tianlei was indeed doing it for their own good, and didn't want them to be in any danger. It was said that Jiang was still old, and Fan Tianlei was much better at being pampered than these brats.

Let's report to him and see if he has a better way.

Of course, in fact, Qin Yuan himself is not willing to bother the people in the address book on the phone. He also knows that it doesn't feel good to bother people, but now that it's at a critical juncture, there is no other better way.

"The thing is like this. Just now, An Ran also helped us think of a way. We transported so many munitions on board. The total number of munitions includes those with numbered munitions.

The numbered munitions had already been taken away by An Ran, and they waited until the ship docked.

If Effiete and the others are infinite, our plan does not work, and they will say that the quantity of goods has been reduced, and we will not be able to escape their grind. "

"There is some truth to what you said, what kind of people are Aifeite and the others at the moment, they can do crazy things, and they have to think of a perfect method to deal with them. "

"Let me just say, I am definitely not driving your connections casually."

"Okay, I see, so what are you going to do next?"

Qin Yuan pondered for a while, and he didn't know whether his plan could be approved by Fan Tianlei.

They really thought that this plan was perfect just now, after all, there is nothing better than this, but if Fan Tianlei disagreed, he would definitely be scolded again.

Fan Tianlei on the other end of the phone was really impatient. Seeing Qin Yuan's refusal to speak, he knew that the child must have begun to hesitate in his inner thoughts.

"You don't have any ideas, so hurry up and tell me, come and listen, isn't it too embarrassing to tell me now, you are too embarrassed to tell me, you kid, don't make up your own mind!"

"Okay, Thor, let me tell you the truth, let me tell you, our thinking is like this.

This is also An Ran, he was the first to put forward the idea, if you think there is something inappropriate, don't mention me! This is not my idea. "

"It's useless for you to stop talking here, kid, hurry up and get down to business!"

"This is the idea proposed by An Ran.

Wait until the ship docks.

If we find some people to pretend to be people from Pakistan, when the goods are counted, they will come out and say that they want to find out the goods on our ship.

I believe that Effiete and the others will definitely feel guilty. They will definitely feel guilty when they see real people coming to check their goods.

Then, taking advantage of this chaotic opportunity, let them quickly sign for receipt on the signature form, and they didn't have time to check the real goods on the ship until they went back and found that the goods were missing.

Then it has nothing to do with us. At that time, whether we will hide away or find other people to help us, then at least we can solve the urgent problem in front of us.

It's not like letting them detain us directly! "

After hearing Qin Yuan's words, Fan Tianlei said with a smile:

"You kid, you've read the Thirty-Six Strategies a lot, it's a trick to fish in troubled waters!"

Qin Yuan knew his method when he heard Fan Tianlei say that. Although he didn't agree with it, he didn't object.

After all, the current situation is that there is no better way than this. How can they solve this problem perfectly? Naturally, Fan Tianlei didn't think of it, otherwise he would have refuted himself long ago.

"Thunder God heard you say that, so you agree with this idea?"

Fan Tianlei didn't speak, he was silently thinking about the feasibility of reviewing this matter, he didn't want to give any initiative to others.

"I just went through it quickly in my mind. Whether your idea is feasible or not, it's hard to say now."

"What's wrong with that? Can you just tell the truth?"

"I don't have a better solution than this now, if I just deny you all.

I don't have anything better to solve, so let's do it according to your method for the time being.

Anyway, I think you kid has made up your mind to contact the people in this address book. "

After hearing what Fan Tianlei said, Qin Yuan quickly refuted it, saying:

"Thor, don't get me wrong, I want to grab your network resources, that's not what I mean.

Now that we have such resources that we must use, we have no other better way. We can't let Jason and his subordinates go ashore to pretend to be people from Pakistan, right?

And these people in the address book are recommended to us by you, we can also feel more at ease, at least I still trust you, much more than you trust me. "

Fan Tianlei thought about Qin Yuan, this kid always wanted to take this opportunity to say that he didn't believe him.

"I said, you kid, don't mention those useless things anymore. You should quickly think about how to contact the people in the address book. They are all in the USB flash drive. Although this USB flash drive can be directly plugged into the phone, it still needs It takes a certain amount of time to solve it. I think you don't have much time, and you will be docking soon.

You still have to worry about arranging them to borrow your plan, it seems that your time is still very tight, do you still have time to play tricks on me here? "

After hearing what Fan Tianlei said, Qin Yuan thought to himself that it was indeed the case that he didn't have more time to talk to him.

"Thanks to your reminder, I was able to clearly realize how important this is."

"Okay, I want to contact An Ran now, and then I can arrange some corresponding ships to pick him up. You guys should do your own business first."

"Yeah, okay, Thor, I understand. The matter over there with An Ran is more important. We must protect his safety. I won't say much about other things. Just hang up first. Contact you."

"OK!"

Qin Yuan hung up, and left immediately after the phone call, to Jason and Chen Jixiang.

Chen Jixiang looked at Qin Yuan, this face did not look so dignified, he knew it must be going well.

"How is Brother Qin Yuan? Thunder God? Did he agree?"

"He has to agree if he doesn't agree. There is no better way now."

Jason smiled and said:

"I said, Qin Yuan, you are really good. Even a character like Fan Tianlei has to be persuaded by you. He always suffers in front of you. You are really good!"

Qin Yuan sighed and said:

"Hey~ Then what can I do? I'm just seeing the tricks. Fan Tianlei has to follow my plan no matter how dissatisfied she is with me. He doesn't want the people on this boat to have any lives. It's dangerous, but the most important thing is to ensure everyone's safety.

Chapter 1936: The Mysterious Forces of Pakistan

Jason heard that Qin Yuan needed a computer to help him get these things now, Jason smiled and said:

"Qin Yuan, I think your requirements are indeed too high now. If you want a computer, it is too difficult. In this vast sea, if you want a computer, I am afraid that only we can help you fulfill this wish. gone."

"Since you already have it, why don't you tell me about the difficulties? What's yours is mine. If you have it, I won't worry so much."

"I knew you didn't regard yourself as an outsider, but the question now is whether the USB flash drive can be inserted into other computers casually. Does he have any protective intelligence? If it is inserted into the computer, the contents inside may be damaged. That would be bad."

Qin Yuan thought to himself, Fan Tianlei didn't remind himself that it should be harmless, so he thought for a while and said:

"That's nothing. When I called Fan Tianlei just now, he didn't tell me that it shouldn't be a big problem that this USB flash drive can't be plugged into the computer casually. Don't worry."

Jason smiled and said:

"Well, I don't have anything here. As long as there is no problem with you, you can go to my computer to test the contents of the address book at any time. What exactly is there?"

After Qin Yuan heard this, he turned to look at Chen Jixiang next to him and said:

"Your boy, what you know now is the most comprehensive. What exactly is in this USB flash drive that we don't know about? Did Fan Tianlei tell you anything when he told you?"

Chen Jixiang knew in his heart that he would be called, but he didn't have any information to know, he didn't know anything.

"Brother Qin Yuan, I knew you would talk about me, but I really don't know about this matter. When Fan Tianlei gave me the USB flash drive, he didn't say anything.

He told me that the contact information given by his most trusted people are some relatively powerful people in Pakistan. If you want to get something from them, you know something.

It is necessary to obtain their contact information, and he didn't say anything about the rest, and I don't know much about it. "

Qin Yuan is also beating drums in his heart now. He doesn't know what to open in the USB flash drive. It's like a busy day. Maybe he can really find something that is helpful to him, or maybe it's really useless. Now who? Can you say it well?

Therefore, Qin Yuan said to Chen Jixiang:

"How about this? If you really don't know what to do, then you should think about it carefully. How can you explain to He Chenguang when you go back? The current situation is like this, and we have no way to go back and explain to He Chenguang. It's over.

We must hurry up and find a computer to get out the contact information in it. Hurry up and contact them. If Effiete and the others start to act directly after landing, wouldn't we be caught off guard?

The initiative must never be handed over to the enemy. This is a principle I have always believed in!

"

After listening to Qin Yuan's words, Jason knew that Qin Yuan has always been such a person. He would never hand over the initiative to the enemy. This is one of the reasons why Jason has always believed in him. one.

Jason pondered for a while and said to Qin Yuan:

"I know that you are a person who doesn't like to hand over the initiative to other people, so we should hurry up and get out the information in the USB flash drive and the contact information.

Let's copy it on our computer first. "

"I know that the most important thing now is to go to the computer and copy the contact information, but I am more worried about He Chenguang now, in case he suddenly comes to our neighborhood without knowing it and interferes with this matter.

It doesn't seem too good if you continue to hide it from him.

But in fact, speaking from the bottom of my heart, from the perspective of my heart or my sixth sense, I don't trust him now, I don't know if Fan Tianlei has not influenced him. "

Jason patted Qin Yuan on the shoulder and knew that he was very embarrassed about He Chenguang's matter now.

"I know what you're thinking, but apart from trusting your sixth sense, you should still trust Fan Tianlei.

He won't let you reveal it, telling He Chenguang about this matter must have his own thoughts and preparations in his heart.

Just don't go against his ideas.

Not to mention, if things change, he will rely on you. The most important thing is that we must now ensure that the mission after the ship docks can be completed without any mistakes.

If this mistake becomes eternal hatred, then no one will be able to save us.

It might not be good for the relationship between him and you guys to hide it from him for a while, but considering that there are so many people on the whole ship, I think it's better for Fan Tianlei, he will never lie to you. "

Qin Yuan bowed his head and pondered for a while. Although he couldn't bear to hide He Chenguang's secrets from his heart, he had to continue doing so considering the many factors.

Qin Yuan gritted his teeth and said:

"Well, now that things have progressed to this point, we can't say anything more.

Let's just leave it at that, and talk to Chen Guang first.

I can't joke about the lives of so many people on board, besides the three of us, you, Jason, and so many brothers under your command.

In case there is a problem with one of them, wouldn't it be a matter of regret for a lifetime.

The most important thing is, you still have your daughter Yaya, who will take care of your daughter if you have something to do?

Let's consider us first. For He Chenguang, we are just hiding some things from him, and there is no big loss for him. "

Chen Jixiang said with a smile:

"Right? Your decision is the right one, and the decisiveness of killing is like the Qin Yuan I know.

It's not in vain, I've always been by your side and obeyed your words. If you can't even decide on such a small matter, I really have to hesitate for a while, whether my choice with you was right. "

"Okay, don't talk nonsense, kid, we are going to Jason's room now, find a computer and copy the contact information before we talk about it, there are more important things for you to do, I won't talk about you You should know what's going on, right?"

Chen Jixiang shook his head and let out a long sigh.

"Hey~ I know that the tasks you entrusted to me are not easy to complete, don't you just want me to go to the underground cabin to accompany He Chenguang?

This task is more difficult than any task, he is already very angry now, he feels that I don't have many things to do with him.

I really don't know how to face him. You trust me too much for entrusting such an important matter to me. I don't even believe that I can complete such a difficult task. "

"No one else can complete it except you. This is everyone's trust in you. You should cherish everyone's trust in you!"

Jason also smiled and said:

"I know that your kid still has a lot of excuses and unwillingness to complete this task. It is indeed very difficult. Let you stay with He Chenguang. He is already so angry with us that he is about to explode."

"Hmph~ It's good for you to know, when I return to him now, it's like a sheep entering a tiger's mouth.

But I have to explain my own inner thoughts, not that I want to evade responsibility or don't want to complete the task you entrusted to me, I feel He Chenguang now.

He has been disappointed with this matter for a long time. He knows that we have many things to hide from him, so he will not continue to come and disturb us.

Even if no one is watching him by his side, it shouldn't be a problem.

Besides, do you think I can stop him from doing anything by his side?

She wants to do anything, and I can't stop him! As far as He Chenguang's temper is concerned, in fact, he usually looks quite funny, like a pistachio in our team.

But when he really encountered a problem, he was scary when he became serious.

If all of us are here, I will watch him come by at the door, and I will block the door to prevent him from entering.

What do you think? "

Qin Yuan seriously thought about what Chen Jixiang said to him.

In fact, he was a little too nervous just now, calm down and think about it, Chen Jixiang, there is nothing wrong with what this kid said.

With He Chenguang's temper, even if Chen Jixiang was by his side, there was nothing he could do to stop him.

It's better to let Chen Jixiang, just stay with him at the door and watch if something happens, just ask him to help him do something, this is something.

How are you? How much stronger is it to not have someone around to help you?

Chen Jixiang looked at Qin Yuan and seriously considered his thoughts.

At this time, Jason also smiled and said:

"Forget it, then let Chen Jixiang stay with us. As for He Chenguang, I'll just let my subordinates watch him secretly. I believe he should be asleep with anger when he goes back.

Shouldn't do anything excessive. "

"Okay, then you can follow us to find a computer in Jason's room first, and if you encounter any emergencies, you are responsible for stopping He Chenguang."

Chen Jixiang heard Qin Yuan and promised him to copy the contacts with them.

He smiled excitedly and said:

"Yeah, I know Brother Qin Yuan, don't worry, I can definitely help you with this little matter, you don't need to worry."

After finishing speaking, several people came to Jason's room. Jason took out a computer from his drawer and handed it to Qin Yuan.

"Jason really can't imagine that there is a computer in your room? Is it such a good fruit computer?"

"I thought you only had a tablet in your room for playing games?"

"I said, don't be too stereotyped. This laptop is indeed used by me. Don't think that I am an uneducated old man. Sometimes I need to use the computer to transfer some data, so this is my personal computer. used computer.

Don't worry, I usually use this to transmit some data, and there will never be any viruses.

Don't worry, plug in the U disk. "

Qin Yuan didn't want to waste any more time, so he immediately turned on the computer and plugged in the USB flash drive.

As a result, there is no special security measure in this USB flash drive, and it is an address book of a contact when it is opened.

It shows the contact information and methods of some people and also has the introduction of these people.

Qin Yuan smiled and said:

"It seems that Fan Tianlei's arrangements are quite careful, he can immediately think that we don't know who these people are.

You see, he wrote everyone's introductions on it, and he was really careful. I really didn't expect Fan Tianlei to have such a careful side. Thinking about it, I was a little moved. "

However, the above-mentioned people are probably some ordinary friends that Fan Tianlei made when he went to Ba, and only one of them caught Qin Yuan's attention.

This person's name in the address book is He Fei.

As shown above, he opened a hotel chain in Pakistan.

At this time, Chen Jixiang said beside him:

"This guy named He Fei runs a hotel chain, what about Thor? Are you worried that we will sleep on the streets when we arrive in Baguo?"

At this time, Jason said in surprise beside him:

"Fan Tianlei actually knew him? It's unbelievable. If it's really the He Fei I know, then after you arrive in Ba, I believe you will be invincible in everything you do!"

Chen Jixiang's eyes widened and he looked at Jason.

"What are you talking about, isn't this guy who runs a hotel chain? He is so powerful, you must have misunderstood him, or he has the same name and surname as Thor. No matter how powerful he is, it is impossible for him to reach out to Pakistan go.

How could he have such a great friend? "

Qin Yuan thought to himself if he was just a simple hotel chain owner.

Fan Tianlei should not make such a big fuss, put it in a USB flash drive and specifically block this person's contact information.

At this time, Chen Jixiang, suddenly remembered a sentence and said:

"By the way, Thor, he once told me not to contact this person unless it is absolutely necessary. I believe this person is definitely not a simple person. It seems that we still underestimated Thor's superb ability.

No wonder he was relieved and asked me to follow you to Pakistan to perform missions. It seems that he still has a hole card. He should have thought of it a long time ago. Effiete, they will not let us go so easily, so he put this Important contact details to us.

I believe they should have expected it long ago..."

Qin Yuan also nodded.

"It seems that Thor is really not an ordinary person, and I, He Fei, am definitely not a simple person either.

By the way, Jason, from what you said just now, it seems that you know this person named He Fei? Or have you heard some information about him in Pakistan? If you want to know, tell us about it! "

Chapter 1937: This man is so powerful

Jason knew that everyone would definitely ask him about He Fei.

Although he has been running on this road for decades between Pakistan and H, it is impossible for him not to know such an important person as He Fei, and his influence in Pakistan is so famous that people can talk about it. degree of discoloration.

Jason thought for a while, then he said:

"I have no way to describe to you how powerful this person is, but he is indeed a very mysterious figure. I have only heard of it, but no one has ever seen him, let alone how old he is.

A boss of this level, he will not show up easily, usually his little brother will do anything, and we have no possibility to know or see him in person.

I can only hear some legends about him.

Let me tell you like this, all the people in Pakistan are within his sphere of influence.

As long as he says one, no one dares to say the other. If you have such a strong relationship, if you show it early, I believe you can go sideways when you get there. "

Qin Yuan is naturally a person who has seen the world. He knows that since Jason has already said so, this character is indeed not a simple one.

Chen Jixiang is a fledgling kid, and he couldn't believe it when he heard about such power.

"Jason, aren't you exaggerating?

I have only seen this kind of situation in TV dramas. Have you watched too many TV dramas or movies? How can there be such a powerful person, Ba Guo just left it like this, with such a big force, no one cares?

This should not be possible, are you exaggerating or lying to us? "

"You kid really doesn't have long hair, but your knowledge is quite short. Let me tell you like this. What I just said is already conservative. This person's influence in Pakistan is very terrifying."

Qin Yuan is very willing to believe Jason's words, because he has been out for such a long time, what kind of person has he not seen?

Even if it is a hundred times more exaggerated than TV dramas or movies, he can still believe it, because sometimes reality is more magical than TV dramas or movies.

Qin Yuan smiled and said:

"I really didn't expect Fan Tianlei to have such a powerful friend.

As Jason said, if he really has such abilities, then we don't have to worry about getting there.

However, what we don't know now is what kind of relationship Fan Tianlei has with him.

Is it an ordinary friendship? Or a deadly friendship? This all determines the extent to which others help us. "

Jason nodded in agreement and said:

"Yeah, I think what Qin Yuan said is very correct. People of this level generally don't make friends easily, and they are very afraid of making friends, let alone Fan Tianlei's identity.

If we really got to know him, I'm afraid it would be bad for both of us.

This should be why Fan Tianlei has not explained to you why he has such a powerful friend, but it has not been able to prove that the relationship between the two of them is just very shallow.

If they just met by chance, or were friends in general, I believe Fan Tianlei would not have given you the contact information of this person. This is already putting your lives in his hands.

I think Fan Tianlei should trust this person very much, that's why he dared you to take the risk of contacting him again when you are desperate. "

Qin Yuan also nodded.

"Yeah, I think what Jason said makes sense. As far as I know from Fan Tianlei, he never does things that he is not sure about. If they are just two ordinary friends, then Fan Tianlei should not be willing to bother." people.

I believe they should be a very special kind of relationship. "

After Chen Jixiang heard this, he widened his eyes and said with a gossip smile:

"A special relationship? What kind of special relationship, should it be..."

When Qin Yuan heard this, he patted Chen Jixiang's head with his hand.

"You kid is always thinking about some messy things. The special relationship I'm talking about should be that the two of them might have some fatal friendship when they were young. We don't know much about it.

You have to know Thor, he was definitely not an ordinary character when he was young! "

"I'm not too sure about this, but I believe Thor must have been a passionate youth like you when he was young!

Maybe the relationship between the two of them is like the relationship between you and Jason. There is a feeling of seeing each other like friends at first sight. Although we have not been in touch for so many years, as long as we hear news from each other, or if the other party gives me something Signal, they are still willing to recognize this friend. "

Jason himself knew He Fei's faction very well.

Even if you haven't seen it so much, you've always heard it.

At this time, Chen Jixiang said:

"If the contact method Fan Tianlei gave us is really so powerful, then we have nothing to worry about. When we get in touch with this person, don't say one Effie, even if it is ten Effie. Believe me, there should be nothing to be afraid of.

I have nothing to worry about. When the time comes, I will ask him to help us solve the problem. An old friend with such great eyesight as you asks him for such a small favor. Will he not help? "

Qin Yuan is not as simple as the grades imagined.

If it's that simple, then why didn't Fan Tianlei just make a phone call and ask his friend to send Professor Fang's two apprentices back, and ask them to go all the way?

Qin Yuan always felt that there must be some ulterior secret between the two of them, or had they agreed on something? So Fan Tianlei didn't want them to contact unless it was absolutely necessary?

At this time, Jason suddenly thought of a question.

"Before Fan Tianlei gave you the USB flash drive to contact him as a last resort. Now that you can contact Fan Tianlei casually, why don't you call him and ask him what this He Fei is? relation?

One must know that if a person like He Fei contacted him rashly, it is hard to say what would happen, maybe you would never see him at all?

Generally, it is impossible for a person of his level to appear easily. I think it is better to contact Fan Tianlei to find out who he is just to be on the safe side, so as not to step on the thunder without knowing it. "

"I think what you said, Jason, is quite reasonable, but I still haven't decided whether to ask Fan Tianlei."

Chen Jixiang also said very seriously beside him:

"Brother Qin Yuan, you'd better call and ask to find out what the relationship between the two of them is. Maybe the two of them are brothers, and things will be easier then."

"You kid knows how to talk a day.

How about this, let's copy his contact information to the phone first, and then contact Fan Tianlei.

Let's see what kind of relationship the two of them have. If the relationship between the two of them is unreliable, our path will not work, and we have to think of other ways. "

Afterwards, Qin Yuan picked up the computer and copied all the contact information displayed on the USB flash drive in the computer to his mobile phone. His mobile phone is also very confidential, and he is not afraid of others knowing what it is.

Qin Yuan added a secret self-destruction system to his mobile phone in the spare time, but if other people entered the wrong password, his mobile phone would immediately self-destruct, and all the secrets in it would disappear.

After copying all the contact information to the phone, just to be on the safe side, Qin Yuan picked up the USB flash drive and said to Chen Jixiang:

"I have already got all the contact methods of the boy into my mobile phone, and it is not very useful to keep this USB flash drive now. If someone finds out, it will be our unsuitable burden.

I believe that Fan Tianlei doesn't want to see his secret being discovered by other people, so why don't you just throw this USB flash drive into the ocean! "

"Ah? Brother Qin Yuan, you are not joking, are you, put this U disk in the sea, but in case we make any mistakes?

In case Fan Tianlei only has this contact method with him, and I throw his USB flash drive into the sea, will Fan Tianlei know and eat me alive? "

"I said you are always so cautious, so how about this, you keep the USB flash drive first, and after calling Fan Tianlei later, after Zhengde agrees, I will destroy this USB flash drive, this is the head office, right?"

"Hmm, is that too much? After all, it's someone else's property. It's impolite for us to destroy other people's things at will."

At this time, the captain in Jason's cabin came to report to Jason.

"Boss, we will be relying on pressing soon. I don't know if there is anything you are not ready for now. If you are not ready, we will slow down."

Chen Jixiang stretched beside him and said with emotion:

"Oh, it's finally time to dock, I've finally waited for this day, and soon I'll be leaving this ghostly place, it's really great!

This underground cabin is simply damp and smelly, and the sun is still out of sight. After a while, after landing at the destination, I hope you enjoy it! "

"Don't interrupt, kid!"

Jason looked at Qin Yuan, Qin Yuan nodded silently, now is not the time for them to land as soon as possible.

So, Jason told his subordinates:

"We still have some tasks in hand that haven't been completed, so please slow down, and we will land as late as possible.

A few hours later, I believe these people will not care. After all, the time is uncertain when sailing on the sea, and they have no way to have any opinions. "

"Okay boss, then we know, we know what to do!"

Jason smiled and said to Qin Yuan:

"How is it? Are you satisfied with this arrangement?"

"For the time being, we can only do this, after all, we have no better way!"

Chen Jixiang said:

"Brother Qin Yuan, in order for us to reach our destination smoothly and successfully without having to endure the damp underground cabin, you should hurry up and call Fan Tianlei now to see if he has any instructions for us, hurry up and be ourselves thing!"

"Then I'll call now, you kid, stay here honestly, don't cause any trouble to others!"

"I know, you can rest assured, what else do you worry about about me?"

Then Qin Yuan went out, ready to call Fan Tianlei.

In fact, he is also beating drums in his heart now, he has been doubting the relationship between Fan Tianlei and this mysterious Pakistani boss.

While feeling uneasy, he called Fan Tianlei.

"Thor, what are you doing?"

"Is there something important about your boy looking for me? Tell me if you have anything to do."

"I just picked up the USB flash drive and saw the contact information of the mysterious person you gave us."

"You boys are still very curious? Want to know who this mysterious man is so soon? Now that you already know, is there anything else you want to know about me?"

I believe Jason should be very clear about who this person is, and he will probably introduce it to you, right? "

"It's because Jason told us that this man named He Fei is said to be the boss of all the forces in Pakistan. This man's energy is too powerful. People with the same name and surname, won't we be dead when we contact him?"

"I think you kid just don't believe me. How dare you doubt the contact information I gave you?"

"I said Thunder God, so don't play tricks on me, I know you are very busy now, you are busy taking care of An Ran.

Then tell me quickly, who is this person?

If you two are on good terms, why didn't you ask us to contact him until it was absolutely necessary?

But if the relationship between the two of you is normal, I believe you will not hand over the few of us to him.

I'm really curious, tell me the answer quickly, what is the relationship between you two? Is it reliable that he is willing to help us or to what extent can he help us? "

Fan Tianlei sighed and said on the phone:

"I didn't expect you to think about a lot, is very comprehensive, I have to give you some praise.

This He Fei should be the very powerful Pakistani man whom I told you about. "

"I know why ordinary people make you go through such a lot of trouble?"

"He was my good brother when I was young, and he was also the person who was sent by our country H to complete the mission in Ba! In a certain sense, he can be said to be your uncle."

"Oh, if you say that, he should be about the same age as you. You should be soldiers of the same class, right?"

"Fortunately, you guessed it right, the relationship between the two of us was very good at that time, but he was sent here to complete the task later, he did not complete the task, but put himself into it.

We haven't seen each other since then..."

Chapter 1938: Seek help from Pakistani forces

Qin Yuan heard Fan Tianlei's explanation, and now he almost understands it in his heart.

It seems that this He Fei is indeed not an ordinary person, who was able to be a small soldier in country H back then.

He ran to Pakistan to carry out his mission, somehow took root there, and now his forces are intertwined and he has become the number one person in Pakistan.

It is definitely not to be underestimated. Now whether he is willing to help himself is not a problem. Now it is whether he and Fan Tianlei had any grievances when they were young.

What if this He Fei, who was offended by Fan Tianlei's fiery temper when he was young, would not vent his anger on them if he came to him rashly now?

So, Qin Yuan paused, and said something that was difficult to ask:

"Thunder God, since the person you mentioned is so powerful, why haven't you contacted him for so many years? Could it be that you had some grievances when you were young?"

You have to tell me everything clearly, and I have to consider whether to ask him for help. "

Fan Tianlei asked with some puzzlement:

"What do you mean? What is it called? Did we have any grievances when we were young?"

"Why do I ask this, don't you still understand?"

When you were young with a fiery temper and secretly offended someone, you didn't even know it in your heart. If you didn't take it seriously, people would take it to heart.

When we see us and have something to do with you, don't talk about asking him for help, just arrest us, we have nothing to do, we can't afford to offend people with such power. "

After hearing Qin Yuan's words, Fan Tianlei really took it seriously, wondering if he had offended him when he was young? After all, he was a little worried about his hot temper.

After listening to Qin Yuan's words, he silently recalled carefully in his heart what happened when they were young, and they were silent for several minutes without speaking.

Qin Yuan watched Fan Tianlei sink into deep thought.

"Thor, you don't really think about whether you offended him when you were young, but I was just joking with you just now.

Since you are so confident, giving us his contact information means that this person should be regarded as a kind and righteous person.

but..."

"But what? Did your kid think of something again?"

"However, the moon will be round and people will change.

You have known him more than ten or twenty years ago. How can you guarantee that he has become the leader of the forces behind the Eight Kingdoms for so many years?

I can't say that he is ruthless, but he must be decisive! "

"Don't worry, even if he is ruthless, he will not attack you. When we were young, we had a good relationship!

In the end, he chose to stay in Pakistan and not come back because of his own choice, not because of any conflict between the two of us.

There was no contact afterwards, but it was because of different ways and not collaborating with each other. It is inconvenient for people in my position to contact foreign forces! "

"Then do you know how he got to where he is today?"

In fact, he has always been curious about Qin Yuan's question. From an ordinary person who can transform himself into the powerful leader of the Ba Kingdom, he is definitely not a simple character. He must have experienced something to become like this.

"It's actually like this. When we were young, the superior sent the two of us to Pakistan to complete the mission. It's just that in the process of carrying out the mission, he was attracted by a girl.

He Fei looked like a movie star when he was young! So he stayed there and married the daughter of the group. After his father-in-law died, he left everything to him.

I heard that his father-in-law only has his wife and a daughter, and this kid is on the rise. If he wants to stay there to develop, I have nothing to say. Does everyone have different pursuits?

If it were me, I would not choose to stay there to develop, I would still choose to return to country H to do my own thing! "

After Qin Yuan heard Fan Tianlei's words, he couldn't help but burst out laughing.

Fan Tianlei made his smile, it's a little hairy!

"What happy things do you think of, boy? What are you laughing at?"

"Thor...not that I'm being rude, but I think that's the truth, have you ever wondered why you didn't have the opportunity?"

I don't think you want to come back and serve the country wholeheartedly.

It's because you don't have such an opportunity. The daughter of the family group didn't fall in love with you when they were young, but He Fei was the one they fell in love with! "

"Get out! I knew you kid wasn't holding back anything good, you were just laughing at me!"

"Haha, but what I said is the truth!

Although I haven't seen the He Fei you mentioned, how handsome he is, but I have seen you, Thunder God, you must have..."

Fan Tianlei didn't expect that he would seriously tell this boy Qin Yuan about his youth, but instead he would laugh at him. It is true that he is not handsome, but he can be regarded as a man with full of vigor.

"You Thunder God, although I wasn't a noodle boy when I was young, I was still very manly! This girl didn't like me, because he didn't like me!"

"You're full of masculinity, doesn't it mean that you look rough..."

Qin Yuan couldn't bear it any longer. While suppressing his own laughter, he was teasing Thor again.

At this moment, Jason called Qin Yuan in the distance.

Qin Yuan seemed to hear Jason calling him, so he was embarrassed and continued to laugh at Fan Tianlei.

Fan Tianlei also heard a voice on the phone that seemed to be calling him.

"Okay, you kid, don't laugh at me, I heard someone looking for you on the phone, guessing, you should have arrived at your destination soon.

You should first think about what you should do if Effiete stops you after you reach your destination.

Anyway, I gave you the contact information. As for whether you want to contact him, you can judge for yourself.

Perhaps, as you said, we haven't seen each other for so many years, not to mention the relationship between us when we were young, it's hard to say whether he can remember me or me.

Also, as you said, maybe when he was young, he is not the same character as he is now. He is definitely not someone who can make such a big impact on group vision! "

Qin Yuan bowed his head in thought for a moment, and said to Fan Tianlei.

"Okay, Raytheon, I understand. I'm calling you just to find out what kind of relationship this person has with you. I'm judging whether or not to contact him.

You don't have to worry about me here, when have I let you down, you should contact him first, and be safe, we have worked hard to ensure his safety.

An Ran, he came all the way to help me, if there is anything wrong with him, then I will feel guilty for the rest of my life, so his affairs are more important than ours.

As for Professor Fang's apprentice, don't worry!

Oh, that's right.

How is Professor Fang's health? He's getting old, if he has any physical problems, then it doesn't make much sense for us to save his two apprentices. "

"Professor Fang's body is under the care of Du Bingbing, and it is almost recovered now, so you don't have to worry."

"Well, that's good, let's do this first, I will deal with the matter in front of me first, and we will contact you at any time if there is anything to do!"

After hanging up, Qin Yuan turned around and walked to Jason's vicinity after calling.

"What's wrong? Jason? Did you just call me?"

"Yeah, I think you've been on the phone for too long. I have to remind you that we don't have much time. We don't know after we land in a while. What kind of tricks does Effie have? Will they show up!"

"Yeah, I just learned about the matter about He Fei."

After Jason heard it, he was very curious.

"What is the relationship between this He Fei and your superior, Fan Tianlei? He actually knows such a powerful person?"

"I just asked Fan Tianlei, and he said that He Fei was his comrade-in-arms when he was young. The relationship between the two of them can be regarded as close, but when they are going to complete the mission.

He Fei got acquainted with the daughter of a local group by accident, who is now his wife.

When the two of them were together, he naturally stayed there and never came back. "

After Jason heard it, he couldn't help laughing.

"It turned out to be like this, when there was such a good choice, who would want to go back to country H and climb from the bottom?

I think, whoever changes it should choose this way! "

"Yeah, I laughed at Fan Tianlei just now. The reason why he didn't stay was because he wasn't handsome enough and he didn't have such a chance."

While the two of them were researching, Chen Jixiang, this kid also came near them. Seeing the two of them whispering and still laughing, Chen Jixiang couldn't help asking curiously:

"What are you two laughing about here?"

"You kid, don't ask about everything!"

"Okay, then let's talk about something serious. Do you want to contact this person? Who is he?"

"Are you talking about He Fei? He was Fan Tianlei's comrade-in-arms when he was young. The relationship between the two of them was good when they were young. Now I'm afraid..."

Chen Jixiang stared wide, eyes surprised and asked:

"Fan Tianlei actually has such a powerful comrade-in-arms. Could it be that he has the same name and surname? Did he remember wrongly? To take advantage of others?"

"You don't even believe in Thor anymore, he won't harm us!"

"Yeah, that's true, but it's been so many years since I was young, and I don't know if I remember it or not. There is a saying that if a nobleman forgets things, can he still remember Fan Tianlei with such an identity?"

After Jason heard this, he looked at Qin Yuan thoughtfully.

Qin Yuan himself knew very well that if he asked He Fei for help now, it was really difficult to guarantee, would he help him?

But now there is no other better way, I can't wait to meet Effiete and the others after landing, and then catch them with nothing!

It seems that this matter can only be helped by He Fei!

Trying to find help from Pakistani forces.

After all, this matter is quite difficult for them, but for He Fei, the leader of the group's power, it is really easy for him to help him solve such a small matter!

Qin Yuan, what he is thinking about now is how to contact Hefei faster and let him help him? This is no easy task.

Up to now, the biggest doubt in Qin Yuan's heart is, do He Fei and Effiete know each other?

Since this He Fei has such a powerful group background, how can he be guaranteed that he has nothing to do with the underground secret arms system?

In a place like Pakistan where fish and dragons are mixed, let alone reselling arms, no matter what you do, it is reasonable and reasonable!

He Fei, to be able to reach the position he is today will definitely not be an idler. It seems that behind him is also complicated!

After Jason saw such thoughts, he was also very worried and asked curiously:

"Qin Yuan, have you thought it through now? Do you want to contact He Fei?"

"Think it through, we don't have any better solution now, I'll contact him first to see if he's willing to help us with this?"

Maybe, He Fei and Effiete still know each other! "

"That's not sure, after all, Ba is not a big country! It's understandable for people like them to know each other!"

"Well, let's find a quiet place first, and I'll call this mysterious He Fei first!"

Jason thought for a moment and said:

"Well then, go to my room and call him. The two of us will watch for you outside, so that no one else can hear it!"

Afterwards, Jason brought Qin Yuan to his room, and asked Qin Yuan to make a phone call in the room alone. He took Chen Jixiang outside the room to keep watch and not let anyone approach him!

Qin Yuan opened his phone's address book and mustered up his courage to dial the phone number.

After a few rings, there was a young man in his thirties on the other side of the phone.

"Hello?"

After Qin Yuan heard that the call was connected, his heart also jumped nervously.

Although he knew in his heart that he had a recycling system, which was considered a cheating life.

However, if you want to talk about life, this He Fei guess should be the real golden finger.

"Excuse me, is it He Fei?"

Qin Yuan knew that with such a big boss, few people would call him by his name. If I said this, it might also remind him of some memories of his youth.

"It's me, who are you Fan Tianlei?"

Qin Yuan was at a loss when he heard this.

She was so nervous, how could she immediately tell that she belonged to Fan Tianlei?

The most important thing is that after all these years, he has not forgotten Fan Tianlei!

Chapter 1939: I would like to be the peacemaker

After hearing what He Fei said, Qin Yuan felt very surprised at this moment.

But he was just surprised, it was only a few seconds, after calming down and thinking about it carefully, this is also understandable.

In terms of He Fei's power in Pakistan, how could he not know about Effiete who was panning for gold in Pakistan?

If Effiete wants to do something in Pakistan, the first thing he should do is worship the mountain!

If He Fei, a powerful force, is not dealt with, how dare he make some small moves in Pakistan casually? I'm afraid He Fei had crushed him to death like an ant.

Moreover, just now He Fei actually said that he knew Ai Feite very well. It seems that the relationship between the two of them is very close. Maybe there is really some ulterior secret?

So, Qin Yuan, he could only tentatively ask:

"Mr. He, the Effie we are talking about, I wonder if the Effie you know is the same person?"

"Although there are many people with the same name and surname, I think we should be talking about one person!

If he dares to move in my territory, the person who makes my cake should be his boss. Although he is very courageous and has a little bad intentions, he still has to stay honestly in front of me.

I once told him that no matter how powerful his boss is in the United States.

If you come to my site, you have to listen to my decision. If you want to do business on my site and make money, you have to listen to me!

Otherwise, it is not so easy for me to make sense of it.

I remember the first time I met him, I found that this kid was indeed a bit rebellious. At that time, I also told him.

When you are in front of me, it is the dragon lying on the plate for me, and this is the tiger lying down for me!

As long as I, Norman Karim, is still alive in Baguo, he won't be able to ride on my head and make small moves! "

When Qin Yuan heard this, he didn't need to continue to ask for evidence. It seems that they should be talking about one person.

After hearing He Fei's words, Qin Yuan smiled and said:

"I really didn't expect, Mr. He, you still have such a humorous side.

It seems that we should be talking about one person, but I believe that he is embarrassing me. In addition to the personal grievances between the two of us, there is another important reason, that is, he is also doing things for his boss, and we must keep a respectful distance. "

When Qin Yuan thought of this, his heart was beating drums all the time.

He didn't even dare to probe, and asked He Fei if he had anything to do with the underground secret munitions system?

This is something he has always cared about, but now he dare not ask openly and is really afraid. If this He Fei has something to do with the underground munitions system, then it will be difficult to do.

But if you don't ask, Qin Yuan has some mental preparations in his heart, so He Fei is afraid that he will be contaminated by such a local force. If he cleanly only does business that can be seen, then he will not be able to achieve the position he is today. No one is a vegetarian, let alone a person of his level?

If there is no loss to his interests now, he will naturally help himself.

But if one day, he really wants to attack the underground secret arms system, then the two of them will have a direct confrontation and a conflict of interest.

I'm afraid ***** for tat is inevitable, if there is such a day, this He Fei is really a terrible opponent!

He Fei on the phone heard that Qin Yuan stopped talking, so he hurriedly asked:

"What's wrong? Qin Yuan?

I think it doesn't matter if you seem to be a little bit embarrassed. If you have something to say, just say it. I'm not a person who likes to beat around the bush. It's natural. I don't like people talking to me.

I also told you just now that it is very simple and easy to solve this matter.

You don't need to say anything at all, it's a mess to find actors.

You just have to think about what you want to do, I can cooperate with you, and the rest is up to you! "

Qin Yuan, he really wants to ask now, does He Fei have anything to do with the underground munitions system?

But you should stop asking this time, lest there be any conflict of interests between the two of them, it's really bad, for a person of He Fei's level, if he really wants to turn his back on him, it will be difficult for him to turn his back on the spot!

Qin Yuan quickly recovered and said:

"It's nothing, Mr. He. I just thought about it. The matter you said is not that troublesome at all. Then I want to ask you if you have any good methods?"

"I didn't expect you kid to test me beforehand!"

"How can I have the guts? I just want to ask you, what's your opinion?"

"The response is quite quick, but let me tell you like this.

Effiete, I am very familiar with this person. He has been in Pakistan for many years and has been looking for opportunities to contact us, but I don't care much about him.

In the past, I didn't want to meet him, so I kept procrastinating. If it was because of you, I would also like to meet him, and see what this kid is looking for me for! "

Qin Yuan felt a little embarrassed when he heard this.

"Mr. He, how can that be done? I can't let you break the rules because of me!

The reason why you have never given him face for so many years, and you are unwilling to see him, of course, must be because of your own inner thoughts. If it is because of this reason, it will greatly affect your own inner plans, and I will feel even more sorry.

Originally, I was very embarrassed to bother you to use your relationship. If you can solve this matter without coming forward, that would be great! "

"Qin Yuan, I know you are a very smart person, so I will just tell you more.

No matter what method you use, Effiete, he is very clear about my influence in Pakistan, he can't just be fooled by you inexplicably like this, he is very scheming, the kind you can't imagine!

Therefore, as long as he can find out that this matter is related to me, it is understandable that he will definitely take this opportunity to threaten me, and I am also psychologically prepared.

I didn't pay much for your kid, you have to know that I did all this for Fan Tianlei, I have been in love with Fan Tianlei for so many years, I am willing to pay a little for him. "

Although Qin Yuan, he couldn't imagine what kind of relationship this was, but he knew very well in his heart that since Fan Tianlei had such a good relationship with him, it just showed that they had a very good relationship when they were young.

Qin Yuan hesitated, and after a while he said:

"Mr. He, although I don't know what kind of relationship you had with Thor when you were young.

But from what you said just now, I can hear that you two have a very close relationship, and I also admire Thor for having a good friend like you. He can tell you like this, which shows that the relationship between the two of you is indeed extraordinary. "

"Okay, since that's the case, then you can do as I say!"

"Then what are you going to do?"

"According to my idea, you don't need to prepare any messy actors to cause so much trouble, just listen to me and forget it.

You are normal, keep your heart in your belly, and drive normally.

After looking at your ship, if someone really stops you or Effiete really comes to find fault with you, let me tell you through your lack of goods, some of these are not there.

Don't you have my contact information? Just call me in front of him when the time comes, I think he will be surprised if he knows we know each other. "

After Qin Yuan heard this, he couldn't help but smile.

"That's true. If Effiete knew that I knew you, and that you put so much effort into me, he would be **** off. The most important thing is that he thought he was complacent, but he didn't expect to fall into his hands this time!"

"Then it doesn't matter so much! As long as he can stop bothering you, then I won't bother them either."

After listening to He Fei and what he said so much, Qin Yuan could feel that this was indeed the case. It seemed that he would pay a lot for his own affairs, and he remembered such a great kindness in his heart.

If there is a chance in the future to repay He Fei's kindness, he himself will be obliged.

Qin Yuan hesitated, and said for a while:

"Well, Mr. He, then I won't tell you so much, since you are willing to help us and pay so much, I am naturally very grateful!

I also hope to have the opportunity to do well, thank you in person! "

"Let's wait until it's done. After all, it hasn't started yet. I don't know what kind of resources will be used. If you want to thank me after everything is resolved, you should leave Pakistan before.

You can come to my site, and I can treat you as an invitation to dinner! "

When Qin Yuan heard this, he realized that he was right. The most important thing for him was to go to Ba to rescue the two apprentices of Professor Fang. Now that this matter has not been resolved, he started preparing for the celebration banquet. It is really not good!

"Okay, Qin Yuan will do as I say, and I am willing to be a peacemaker for you in this matter, whether it is soft or hard, I believe as long as I come forward.

Effiete will naturally not embarrass you too much, he should give me this face, I still have this kind of self-confidence! "

Qin Yuan smiled.

"You really know how to joke, and you went too early. If I don't even have this kind of self-confidence, then how dare I ask you to do something? It seems that the more I look at people of your level, I am more humble. If I got your level, I'm afraid I would have already floated to the sky."

Qin Yuan said this on purpose. What he can offer He Fei now is nothing substantive, he can only flatter him.

"Okay, I still have something to do here, and I have explained to you everything that needs to be explained. I believe that you are smart and quick-witted, and you will be able to do this well. I don't think it would be without my help.

A stupid person like Effiete is not your opponent. I still have my own business to do, so you should go back to your ship first and prepare the cargo and other things you can prepare in advance.

Everything is ready, I can be regarded as this gust of east wind,..."

"Yeah, I see, thank you, Mr. He!"

After Qin Yuan finished speaking, the other party hung up the phone without saying anything.

After making this phone call, Qin Yuan now has full confidence in his heart, as long as He Fei is willing to help them.

No matter how daring Effie is, he will not go against Mr. He openly.

After making the phone call, Qin Yuan immediately called Chen Jixiang and Jason who had been standing guard for her outside.

"Jason, come in, you two, I've already made a call!"

The two of them have been standing guard outside, and their hearts are beating drums, not knowing whether this matter is reliable or not.

The boy Chen Jixiang came in bouncing around, and he asked anxiously:

"How did it take so long?"

"The length of time is not important, but the result is important! Since we are asking for help, it is natural for people to say some good things to them when they do things."

Jason nodded thoughtfully beside him.

"So what's the result now? Has he promised to help us?"

"Fan Tianlei is full, so naturally he won't reject us, and his attitude is quite enthusiastic. He himself said that he hasn't met Fan Tianlei for so many years, and he didn't think that Fan Tianlei would bother him because of such a trivial matter!"

"A small matter? This person actually said that this matter is a small matter?"

Jason shook his head, and as expected, he said:

"For us, this is indeed a big matter, and Da Dao we can't even solve it, but for a character like He Fei, it's nothing, he doesn't even need to come forward, just make a phone call.

I believe in Effiete, they dare not act rashly, as long as they want to live safely in Pakistan..."

"Yeah, that's right. He said that his name is no longer He Fei. He said that no one has taught him this name for many years. He is called Norman Karim now."

Speaking of this, Qin Yuan suddenly thought of a question.

"By the way, Jason, He Fei actually said that he has not been taught his real name for many years. Now everyone knows him as Norman Karim, so how do you know him?"

After Jason heard Qin Yuan's question, he paused and said:

"Qin Yuan, don't forget that I'm also between Country H and Country Ba. I've been going back and forth for so many years, and I still heard about some gossip about the boss. I also know that he relied on his wife back then. Only by accepting his wife's father's group can he be where he is today.

But his reputation is really not good..."

"There are different opinions outside, saying that he has everything. I advise you to stay away from him. After all, it is not good to get too close to this kind of person."

Chapter 1940: There's a mess in the underground boathouse

Chen Jixiang, this little guy is very gossiping. As soon as he heard about relying on his wife to get a position, he became interested, so he hurriedly said:

"Brother Qin Yuan, tell me, what's going on with this He Fei? This is the first time I've heard that he relied on his wife to get in the position!"

"Things you shouldn't know at a young age, don't ask me here why you want to know everything, I see why you are so gossip, you don't learn well at a young age!

If you want to know, go back and ask Fan Tianlei!

This is Fan Tianlei's good brother. Fan Tianlei is the clearest about the things between the two of them. If you ask Lei Shen, he can explain it clearly to you! "

"Huh? Let me ask Fan Tianlei?

Forget it, Thor will not tell me, he will scold me, and I will scold me for nothing. "

Jason watched the conversation between the two of them, then smiled and said:

"Sometimes, I'm so envious to see that the relationship between the two of you is still as good as brothers!"

"What is there to envy? You have so many good brothers under your command, why do you need to envy the two of us?"

Jason sighed and didn't say anything...

After a while, Qin Yuan said to everyone:

"Okay, let me tell you two. I called He Fei just now and he has already agreed! He promised to help us after we landed. I believe that as long as he promises to come over, he will not go back on his word!"

Jason nodded.

Hmm, I have also heard that the reason why this person is able to do it is that he is in this position today because he has always said what he says, as long as he promises something, he will never go back on his word, so everyone is convinced of him. "

Chen Jixiang said with a smile:

"Hmm, I think the reason why he is able to reach his current position is not only his wife, but more importantly his own efforts. If he is nothing, no matter how much his wife gives him, it may not help him!"

While listening to the two of them talking, Qin Yuan watched the night view of the sea and starry sky through the room.

"It is not to be underestimated that this person can reach the position he is today. Although he and Fan Tianlei had a deep relationship when they were young and have not seen each other for so many years, it is enough for him to agree to help us. If..."

"what if?"

"If the interests are at hand, if he really betrays us, wouldn't we be crying out of control?"

"That shouldn't be the case. Didn't we just say that he is very trustworthy just now? And he is very emotional. He has promised Fan Tianlei to help us today. He should not regret it."

"It's just that we don't know what kind of relationship he has with Effiete?"

Jason thought for a while, and he expressed his conjecture.

"I think that if a person of Effiete's level wants to achieve something in Pakistan, he must go to curry favor with the most powerful people here, so he must be looking for He Fei.

But he shouldn't be able to meet such a big boss. People of this kind of power are not something he can easily imagine. If it is true that people of his level can cling to him at will, then the whole Ba Kingdom can see him with a little gift? "

"But I always feel that this He Fei seems to have something to hide. Maybe this is my own fault. It's not easy to trust others!"

Jason walked to Qin Yuan's side, patted him on the shoulder and said:

"But you really believe in me! I also believe in you very much, and regard you as my best brother!"

"I said you two don't talk about brotherhood in front of me. Don't you think about my feelings at all? Am I not your good brother?"

"Forget it, let's not think too much about it, let's see what happens, if there is any change, I believe that there should be no problem with Fan Tianlei, although we don't have much relationship with this He Fei.

However, Fan Tianlei still has a bit of face in front of him, at least he won't throw us all into the sea, just feed the fish? "

Chen Jixiang's eyes widened, he couldn't believe it.

"Ah? Did I say your request is so low?"

"What are you thinking? You kid is on someone else's territory."

While the three of them were discussing, Jason's men ran in from outside in a panic.

"No...not good, not good, boss!"

"What's the fuss about?"

Why are there no rules at all, are you still so restless after such a long time?

Quickly take a breath and tell me what's going on? "

"Underground cabin, there is a commotion!"

"What? How could this be?"

Qin Yuan also said in surprise:

"What's going on? You mean something changed in the underground cabin?"

"Yes, the smugglers in the underground cabin, they are all making a fuss!"

It was the first time for Chen Jixiang to take a boat, and it was the first time he encountered such a situation. Now he is not puzzled or even puzzled, and he doesn't know what happened.

"Why did Jason do this? The people in the underground cabin, don't they all listen to you? They are all stowaways who either made a mistake or ran away. Normally, they should stay in the underground cabin honestly.

How can something unpleasant happen? What is going on? "

"You don't know about this. Although they all listen to me, I am willing to smuggle them to Pakistan, but you should not forget that they had to run away because they made mistakes.

Under such circumstances, they are all outlaws, and most of them are quite scary.

It is not easy to endure until now. We have promised that they will arrive at their destination soon, but because so many things happened on our ship.

It has to be delayed too, has it been so long? "

Hearing this, Qin Yuan finally understood. It seems that this matter is really not easy to do. None of these people in front of him are easy to mess with!

"Yeah, Jason, I understand. It seems that they really can't bear it anymore. In the environment of the underground cabin, they must have been pampered when they were in country H.

Everyone, I already have opinions on such an environment, but in order to survive, I have to endure the country,

But the promised arrival time is always delayed again and again.

I'm afraid they wouldn't be able to bear it if they were changed, and if they weren't allowed to go to the deck to breathe, they must have more opinions. It's understandable and understandable that they are making such a fuss now! "

"What's the use of talking about it now? These people have already started making trouble. Under their circumstances, won't the ship be capsized by them?"

Chen Jixiang also said to Jason's subordinates very anxiously:

"Haven't you guys been driving on the sea for so many years? Have you never encountered such a situation? Besides, you are powerful people, so let them go on like this?"

"Don't you know that there is a saying that more people are more powerful? The people in the entire underground cabin now exceed the number of people on our ship. If they work together and want to fight us, we may not really be able to beat them."

Qin Yuan shook his head.

"And they should still have weapons in their hands. Most of them probably have pistols in their hands. It would be bad if they were really in a hurry and misfired!"

"Ah? They still have guns in their hands. My God, He Chenguang is still in the underground cabin, just in case!"

After Jason's men "bah", they spat.

"Can you not mention that your brother He Chenguang is indispensable, he is behind the scenes!"

Qin Yuan couldn't believe his ears, he sneered and said:

"Don't blame others here indiscriminately. He is the brother we brought here. How could he instigate such a thing behind his back? What good does it do him?"

"It's not good for him, but it's even less good for us. We've offended him a long time ago, and now he's taking this opportunity to make trouble for us, wanting us to speed up as soon as possible and get to the shore!

He should be in the underground cabin. He couldn't take it anymore, so he asked us to land quickly, right? "

"You mean He Chenguang? Is this what you saw with your own eyes or is your guess unsubstantiated? You can't blame others casually?"

Chen Jixiang also said anxiously:

"That's right, it's impossible! Brother Chenguang, you're not such a person!"

"Whether he is such a person, you can go and see for yourself!"

Jason glanced at Qin Yuan, then he frowned and said:

"It seems that this matter is really difficult to deal with. Let's go to the underground cabin to see what's going on. It seems that my subordinates can't suppress it, so they came to find us!"

"Yeah, let's go take a look."

"Wait a minute and don't leave me behind!"

Chen Jixiang followed behind the two of them, and the three of them quickly arrived at the door of the underground cabin.

Sure enough, before he reached the underground ship cabin, he heard the commotion inside.

"Just listening to the voice, I knew that this matter must be difficult. If Jason is really He Chenguang, Tiao said, I feel a little too sorry for everyone starting to do such a thing."

"Qin Yuan, there is no need to say so many hypocritical things between us. He Chenguang is He Chenguang, you are you, no matter what he does, it is his own choice. How can I blame you? You don't need to help her bear this guilt for nothing."

As soon as I walked to the door of the underground cabin, I saw He Chenguang jumping up and down to direct everyone.

"Everyone, don't be confused, everyone, listen to me, didn't you tell us the arrival time at the beginning.

However, they are always, again and again, slowing down the speed of the cabin, making us all stay in this dark place for so long.

When is the head?

If we don't put forward our opinions, I'm afraid they will never take our words to heart, and really treat us like pigs, dogs, cattle and sheep! "

"He! Morning! Light! What are you doing?"

Qin Yuan saw that it was indeed He Chenguang jumping up and down here to provoke everyone.

Now he not only doubts He Chenguang's motives, he is even more disappointed with his former good brother.

He Chenguang, seeing Qin Yuan and Chen Jixiang walking slowly from a distance, felt a little embarrassed, and quickly got down from the cargo box.

"The two of you are back. It just so happens that the two of you are also guests in the underground cabin. Now that something so serious has happened, you should be at the factory. It just so happens that Jason is also here. You are the owner of this ship.

You were the one who promised us the arrival time, but what about now? "

Qin Yuan tried his best to suppress the anger in his heart, and quickly pulled He Chenguang into a corner.

"Do you know what you're doing?"

"Of course I know what I'm doing? If I don't let everyone unleash the power of these people, when will they get us to our destination? Don't you think he's been stalling for time?"

"You don't know what we are studying together, do you?"

"Hmph~ I'm a little confused when you say this, you have been together all this time, whispering.

Even Chen Jixiang, this little character knows what you are doing? how could I know?

I don't know what you guys are plotting. I just want to get out of this **** place. They won't even let me go on the deck. Can't I teach them a lesson? "

Qin Yuan doesn't want to be as knowledgeable as He Chenguang now, he just wants to solve the troubles in front of him as soon as possible.

"Okay, okay, I don't want to tell you so many useless things anymore, so hurry up and break up with everyone!"

"Everyone's behavior is spontaneous and not organized by me. Who will listen to me?"

Qin Yuan shook his head, he was very disappointed with his good brother on Sunday.

"I'm so disappointed in you, He Chenguang!"

"What's the meaning?"

"When we were in country H, you were very optimistic no matter what kind of hard and difficult tasks we completed. Why did you become like this just after you came out? Where did my good brother go? Have you been taken away?"

I know that your life in the underground cabin is difficult. Jason's men have never been too polite to you. I understand that you feel uncomfortable. But in the end, we are all good brothers. Do you think it's appropriate for you to make things difficult for Jason? "

"Hmph, are you disappointed in me?"

What right do you have to be disappointed in me, I still forgot about you, and this Jason is your good brother, the good brother you hit it off at the first sight, he is not my good brother, I just met him for the first time today! "

"I know you have a lot of dissatisfaction in your heart now, but you don't need to make trouble on other people's territory, right?"

You're making such a fuss now, it's hard for Jason to do it! "

"We are all good friends, why do you do this? Do you want to meet again in the future?"
