

## **Special Soldier 1981**

Chapter 1981: I will lead the whole cooperation

The Qin Yuan, what is thinking in his heart now is that since he has made up his mind to cooperate with Norman Karim, there is only one way that is the most reliable, and that is to let him lead the entire cooperation.

Qin Yuan knew very well that no one like Norman Callum could control him, and of course he couldn't control him, but he could guarantee the reasonableness and fairness of this transaction to the greatest extent.

"After hearing your story, Jason, I also understand your helplessness and what you have to do.

Don't worry, I will never let you down.

This matter has already taken root in my heart. I deeply understand what we should do and what we should not do, and I will never give anyone any chance to do it.

I can now confirm that if I want to cooperate with Norman Karim, I must lead the cooperation now so that everyone can rest assured. "

At this time, everyone thought of many problems, including all the difficulties encountered now. It is very likely that all of these have something to do with Effiete. Effiete, he is also willing to accept the challenge.

Jason saw that Qin Yuan had prepared so much for himself, and he was very moved now, to be precise, let alone how moved he was now.

"Qin Yuan, thank you so much, I never thought that you already knew, I lied to you so much, and you are still willing to help me."

"Ever since I found out that you were in the United States and did so many things with old K and the others, I knew that the desire for freedom was so strong.

You long to be able to escape from the hands of old K and do something that you think is truly free.  
"

"Yeah, thank you, brother, you can understand me so well!"

"Since you regard me as a good brother, don't say these polite words to me!"

Chen Jixiang, who had been observing the two of them talking, didn't know what to say at this moment.

"What's wrong? You kid can't say a word until now?"

If you have any ideas, you can just say it.

We all need to brainstorm, and of course we need you to help us come up with some ideas behind our backs. You kid has always had the most ghost ideas. "

After hearing what Qin Yuan said to him, Chen Jixiang didn't know what to say, anyway, he just felt that this matter was very dangerous.

If it is done well, everyone can benefit from this matter, at least they are safe and can be protected by Norman Karim's forces in Pakistan.

"Brother Qin Yuan, don't worry, I don't have anything to say, I just think we should be careful if we are seeking skin from a tiger.

Norman Karim is not an ordinary person, I don't want to simply regard him as Fan Tianlei's former good brother.

No matter how good it was, both of them were more than ten years ago! "

After Jason heard what Chen Jixiang said, he also hurriedly advised Qin Yuan.

"There is nothing wrong with what Chen Jixiang said. We are indeed careful. Although we have all experienced a lot, we must not be self-righteous compared with us Karim. We are still very young."

At this moment, Qin Yuan suddenly thought of a very important point.

"If we help Norman Karim successfully dispose of this batch of munitions, Effiete will not let it go. If he goes back to his master K in tears, then we must be There are good fruits to eat."

"It's okay Qin Yuan, if you feel worried and don't want to take care of it, I can understand.

I believe Norman Karim, he is not what kind of person, the reason why he dared to pull out the teeth in the tiger's mouth must have his own plan. "

"Hmm, regarding this point, I also firmly believe in Norman Karim. He will never be an impulsive person. Logically speaking, he is in Pakistan and old K is in the United States. , and it's still so far away, why does he have to go there for the first victory?"

Thinking of this, Qin Yuan suddenly thought of an important piece of information, which was the underground arms trading system that they had been secretly investigating.

It seems that this mysterious underground arms trading system should have something to do with Old K or Norman Karim.

After Qin Yuan's own investigation, he found that there was a high probability that Old K was preventing this matter, because Effiete was Old K's most loyal subordinate.

And before they kidnapped Professor Fang, they hoped that Professor Fang would help them research some arms.

These people, it doesn't matter how ambitious they are, they are just doing it for money, if the research results are more powerful than the normal munitions used in their troops, then they can indeed be sold for a good price.

However, if this is the case, will Norman Karim be interested in this matter?

Now Professor Fang is in Country H, in his own hands, but his two apprentices are currently in Country Ba.

Is there a possibility that Norman Karim is also monitoring Professor Fang's every move?

After all, if a talent like him wants to avoid attracting others' attention, there is only one way to die. Even if he thinks he is smart, he brought two apprentices to Ba to set up a research laboratory.

On the surface, I thought that if no one found out, there would be no one from the United States.

However, all of this has long been secretly controlled by Norman Karim.

He is now very clear about the specific locations of Professor Fang and the two apprentices. The reason why Effiete has not found them or done anything to them is that there is a possibility that the two apprentices of Professor Fang have been arrested by Nuo. Mankarim bought it.

Or protected by him, if this is the case, then it seems that I have really fallen into a mysterious force.

Thinking of this, Qin Yuan shuddered a little.

Although, he is not afraid of heaven and earth, and there is a one-key recovery system to help him.

But now, even in a foreign country, Fan Tianlei couldn't come to help him like a magic soldier descended from heaven.

He can only rely on himself, and he has He Chenguang and Chen Jixiang with him, so he must be able to ensure the safety of the two of them.

Now Qin Yuan is under great psychological pressure. He has to save Professor Fang's apprentice as soon as possible, and also protect the safety of this kid, Chen Jixiang.

It seems that when he thought of this, Fan Tianlei really gave himself a super important task.

Chen Jixiang was most afraid of seeing Qin Yuan's expression like this.

"Brother Qin Yuan, what are you thinking? Don't scare me. I also see you like this. I'm really worried.

Every time you don't eat, drink, talk, or sleep, you must be thinking about extremely important issues.

Don't say that, I'm really scared. "

Qin Yuan also knew that he was now the backbone of the entire team, and if he collapsed, this kid would have lost his way.

"Don't worry, as long as I am here, no one can hurt you, you don't have to be afraid, I am really thinking about the problem seriously, because I suddenly thought that it is very possible that we have been living in the trap of Norman Karim among."

"What do you mean by that? Don't scare me, I'm very timid."

Jason thought carefully about what Qin Yuan said, and he felt that this matter is not impossible or very possible, they have been living under the surveillance of Norman Karim.

"Qin Yuan has one thing, I want to listen to the liberty, I have always wanted to know what is the purpose of your coming to Ba?

However, I never asked.

Because I know that you are supposed to be performing certain secret missions, it might be impolite to ask you, or it might affect the progress of your normal missions. "

"Jason, thank you for never asking me. I know it's your respect for me, but since you said that today, you really want to know what our real purpose in Pakistan is, right?"

"Uh-huh!"

Jason nodded, because he knew that he was at a critical juncture, and Qin Yuan would tell him everything he wanted to know, not to mention that they were already fighting against each other.

Knowing some more useful information can open up their minds, and everyone brainstorms to find solutions to problems.

After Qin Yuan heard Jason's words, he also wanted to tell Jason to turn his head and look at Chen Jixiang next to him.

"Brother Qin Yuan, you don't need to look at me. If you think this matter is suitable and you can say something, then it's fine for you to say it. I don't really mind.

Don't forget you, but the leader of our project team, everyone will listen to what you say, and I won't mind. "

"Well, sir, I know that you are a trustworthy person, and we are willing to fight against such behemoths with our own strength!

To tell you the truth, we came here this time to save Professor Fang of Engineering Mechanics and his two apprentices. "

"Professor Fang? Can you tell me who this Professor Fang is?

You also know that I don't have much schooling, and I don't know much about these people who do scientific research, and I don't even know them. I can use so many of you to save him, and you are his two apprentices.

I believe it will definitely not be a simple character, Fan Tianlei should also know him, right? "

"This is a very intense matter. I tell you now that I trust you completely. I hope you will never happen again like the last time your daughter was kidnapped and used me."

Hearing what Qin Yuan said, Jason was also very embarrassed.

"Qin Yuan, don't worry, I have seen your temper last time. If there is any problem, I will definitely discuss it with you first."

"That's good, since you promised to keep the secret for me, I would also like to tell you about our mission.

Professor Fang, he is an internationally renowned expert in engineering mechanics, do you know what he mainly studies in engineering mechanics?

It's the study of munitions, and there are some more powerful things.

The reason why he came to us is because he works in the United States.

However, the Americans forced him to study some very powerful and offensive weapons. He is an expert without borders, and he does not want to work for any country to study this kind of thing that endangers our entire world.

So, he ran out with two apprentices. Although his two apprentices were only very young, they were very successful in scientific research.

He ran to Ba with his two apprentices, thinking that no one would be able to find them in the poor mountains and rivers.

It was here that the studio was set up very secluded.

By chance, he went to country H and was kidnapped by Effiete. I also rescued him during the mission.

Later, I found out that Professor Fang is also Fan Tianlei's teacher. The two of them hit it off right away. We also want to persuade Professor Fang to be used by our country and help us research those powerful weapons.

However, he is very stubborn. This old man dares not to do anything to them because he has two talents.

He is really stubborn, he won't listen to what we say.

Moreover, he refused to open his mouth to make him anxious, so he simply went on a hunger strike.

You also know that a powerful person like him has a very shrewd mind. If his brain is destroyed, he will become a useless person. His body is not very good.

Later, under the careful care and touch of all of us, he finally agreed to help us, but he had one condition: he must let his two apprentices return to him successfully.

His two apprentices are currently in Ba, and we also followed Fan Tianlei's order to rescue his two apprentices.

Originally, I thought this matter would be very simple. Although we know that Pakistan is a very chaotic place full of fish and dragons, I didn't expect that we would meet you during this period, and so many inexplicable things happened on the boat, and you were also involved. We are on the way to deliver the ammunition, so we are all under a lot of pressure now.

Just now I thought about it seriously. The two apprentices of Professor Fang have only two outcomes in Pakistan.

Either they have already been discovered by the people of the United States, and they are now in a very dangerous situation, and their lives are likely to hang by a thread, or they have been controlled and kidnapped by Effiete and the others.

The second result is that they have never been out of Norman Karim's sight since they came here. Norman Karim has been secretly controlling and protecting them, so we see the current situation.

I am more inclined to the latter, Norman Karim, he is a very shrewd person, once he knows about Professor Fang and his two apprentices setting up a research institute here, do you think he will easily let it go?

Now, he is already preparing to go to the United States to deal with the very powerful old K. He has finally caught an opportunity that can make himself a great success, and he will never let it go.

Now I am more sure that the two apprentices of Professor Fang are likely to be in the hands of Norman Karim. He wants to use these two people as bargaining chips, but also really wants to persuade them to do things for him. "

Chapter 1982: It's not a hostage, it's a bargaining chip

The After Chen Jixiang listened to Qin Yuan's analysis, he is now terrified.

"Brother Qin Yuan, are you telling the truth? Could it be that Xiang Xiangshou's two apprentices are really in the hands of Norman Karim now? Will he have such foresight?"

"You silly boy, it's not that he has foresight, but that he has already monitored Professor Fang and his two apprentices, from the moment they came to Baguo to set up their own experimental studio.

Everything is under the supervision of Norman Karim.

It was Norman Karim who let them do research here, but he didn't expect that by chance, Professor Fang would come to our country H, which should be the most unpredictable thing for him.

He thought that after Professor Fang's experimental studio researched some small achievements in it, he could show up and take their research for himself or directly threaten Professor Fang to do things for them.

He also didn't expect that Professor Fang would leave Pakistan temporarily, and he was controlled by Effiete's people, which caused all of us to be involved in this situation.

He probably didn't want to see Fan Tianlei's good friend again, but after he knew these things about Fan Tianlei, he had to contact Fan Tianlei again just for Professor Fang and his two apprentices. "

After listening to Qin Yuan's analysis to Chen Jixiang, Jason also nodded.

"Qin Yuan, you are really amazing, what you said is reasonable, and according to Norman Karim's character, he is indeed able to do it.

He is a man with a deep mind and a deep city.

You don't know what he really wants until the last moment. It seems that we are all just pawns in his plan. Now he has his eyes on the United States, the vision of old K.

He should be thinking..."

Speaking of this, Jason suddenly felt that this matter seemed too complicated, and the more he dug down, the more complicated it became, so he didn't dare to talk about it.

"What's wrong, Brother Jason?"

"He should be planning to take this underground arms business, and not share it with others."

Qin Yuan very much agrees, who wants to share a share of such a big business plate as Jason's theory?

"So, this time, he wants Professor Fang to help her develop some high-tech arms equipment, which will allow him to dominate the arms market.

If that's the case, this Norman Karim is really ambitious and we shouldn't think about it too simply. How could he be ordinary, stupid, or sweet when he can reach the position he is today? Simple people.

Even Fan Tianlei almost fell for him several times. "

Qin Yuan, he is very nervous now, he has to face Effiete and Norman Karim again, he really doesn't know what to do.

Turning their heads and seeing the direction of the ship getting closer and closer to Pakistan, they knew that they would reach their destination soon.

"I don't know what to do after arriving at the destination for a while? Will Effiete's people come up directly to accept the arms from us? After handing over these parties to him, what should we do after that?"

Jason was full of doubts now. Even they, everyone already knew about Norman Karim's tricks.

All of this is not at all the same as what Effiete planned before. He didn't plan like this before. He planned to make it much simpler than it is now. He thought that if he found this laboratory data, he could add some other mines. Unexpectedly Not only will the hostage not come out now, but it has become a bargaining chip for Norman Karim to make a deal with himself so that he has to succumb.

Qin Yuan knew very well in his heart that Norman Karim admired him very much. If he was willing to give up these current positions, Karim would be able to arrange more and better things for him anytime and anywhere.

However, how could Qin Yuan be the kind of person who bends his waist for five buckets of rice? He didn't even think about it, he didn't even look at it.

At this moment, Chen Jixiang said.

"Then what should we do next? I believe that if Norman Karim continues to participate in this matter, even if we face Effiete face to face, he will not dare to hurt us.

Although there is the country of America behind him, the powerful old K, but the strong dragon does not overwhelm the local snake.

Norman Karim didn't dare to do anything to them in the United States, but this is the country of Pakistan. In front of Norman Karim, a dragon must be coiled, and a tiger must lie down. "

"Hey~ I've been out for so many days, and now I really miss home and want to go back."

"How long has it been since you came out and you're homesick, and you haven't finished the tasks you should have done?"

Just like this, the three of them are discussing here, and they are also planning what will happen after they arrive at the destination. They are very confused now and don't know how to deal with it. Everyone is afraid that they will anger Norman Karim.

Qin Yuan, he now felt that he was Alexander, not only to successfully rescue the two hostages, but also to protect the lives of all the people.

"By the way, Jason, where did you hide your daughter?"

"Why are you asking this question all of a sudden?"

"Because I don't think it's safe for him to hide anywhere. I'm afraid our every move has already been monitored by Norman Karim. Although you are also on this boat, we all belong to the same boat for no reason. Moving on to Norman Karim and Old K, the fight between the two of them."

"Yeah, compared to their strength, we are just like ants. Being able to protect our own lives and the lives of our family members is the most important person."

I don't even dare to think about other things..."

"Then have you considered quitting this business? Don't do this smuggling job anymore, although Norman Karim once mentioned to me that you have been transporting some of our criminals to their country of Pakistan. Branch people."

All the normal public order here has been destroyed. This is simply a crime made out of nothing.

The reason why he would find such a crime to accuse you is because he wants you to join him.

I believe that you should have had enough of this kind of wandering life, why don't you take your daughter and fly away to a country where no one knows you after this ticket is over.

Take your daughter to live a good life and stop doing these dangerous things.

In fact, as you said, you should also be very clear about the importance of your daughter to you, and he is getting bigger and bigger, and he has his own thoughts. What if he follows your path in the morning?

Do you want to lead your daughter to live this kind of life day after day and year after year? Even putting your daughter into such a dangerous life situation?

I believe that parents who love their children have far-reaching plans. You should have considered your daughter more than once. I think he needs a good educational environment. "

Qin Yuan was trying to say something to Jason, the most truthful thing in his heart.

"Qin Yuan, thank you for telling me the truth, but how could I not have thought about it? I have fallen into such a situation, and I have no way to quit, let alone extricate myself.

If I had a way to leave them, I wouldn't have sacrificed my wife in the first place.

Now that's all that's left, I've gone to country H, but you see these things are still on my head, I can't run away anymore, unless..."

Chen Jixiang was listening.

"Unless what?"

"Unless they threaten you, those terrible forces don't exist anymore! Right?"

After listening to Qin Yuan's words, Jason nodded silently, and finally he shook his head again, then smiled wryly.

"Qin Yuan, you know that this kind of problem can only exist in your own imagination. You have never been to the United States, and you don't know how big the city is there, old K. If you think about it, even Norman Card People like Ream.

If you want to wrestle with him, you have to do it step by step carefully, for fear that every step will be wrong, and a mistake will cause eternal hatred.

What's more, people like us, if we really want to fight against old K, we are simply overwhelmed, we have no way to deal with him, just an Effiete can make everyone burnt out up.

I have been under the protection of old K since I was a child, and I know this person very well when I grew up. He will never be disintegrated by us just like this. "

"We can't do it, but someone can!"

"You mean Norman Karim? Him?"

"I think he has such abilities. Although I haven't seen the very powerful old K you mentioned, but I believe Norman Karim, he has already made such a thought and is ready to take action.

People like him definitely don't fight unsure battles. He has already started to attack Effiete, which means that he is sure to see the forces behind him. "

Originally, Jason didn't dare to think about it, but after hearing what Qin Yuan said, he had a better and bigger dream.

"If ever, I mean if.

Then I will truly achieve freedom, but who can guarantee that after Norman Karim defeats Old K, he will not become another force entrenched between the two countries?

It's not a good plan to drive tigers and wolfs away, it's just a helpless move! "

Looking at Jason, it seemed that he was completely disappointed in this matter, and he didn't even have any hope. Qin Yuan also felt very uncomfortable. He was like a little ant imprisoned in such a powerful background for a long time.

It was hard for him to escape and gain some time that he thought was a little bit free, but such a good time was too short, but Qin Yuan also knew that never underestimate the energy of a father.

Believe that Jason may be his own identity, he is unwilling to fight against these powerful backgrounds, but because he is a father, he is willing to do anything for his daughter.

But after thinking about it for a long time, Qin Yuan couldn't bear it. He couldn't bear to see someone like Jason, because his daughter gave his life, and he didn't want to use Jason.

While Qin Yuan was contemplating, Jason suddenly said to him.

"You just asked me where I hid my daughter. What do you think is the best place to protect him?"

"Our troops!"

"Hey! That's true, but we can't do it!"

"You can't do it, but it doesn't mean Fan Tianlei can't do it!"

"Are you planning to ask Fan Tianlei to help us?"

"Of course, as long as you stand on the same front as us, I believe Fan Tianlei will definitely help you!"

"You are forcing me like this!"

"How can this be compared to you? Jason, I hope you can understand, no matter what, don't let your daughter go into this senseless abyss, he is just a little girl, and now he has talent Heart disease, he needs better medical resources, you don't have to believe me, but don't you still believe in Fan Tianlei?"

I think if Norman Karim really wants to attack your daughter, he will restrain himself for Fan Tianlei's sake. Tell him where you hid your daughter and ask Fan Tianlei to take him to the army go.

In this way, he can have enough security, and you can let go and do what you want to do.

Effiete is our biggest threat so far. Although we have common interests with Norman Karim now, he will not do anything to us, but sooner or later he will be an enemy that threatens our safety.

On the premise that you can ensure the safety of your daughter, you must also ensure your own safety. Only when you are alive can you have hope. Don't think that you will never be able to get rid of the shadows behind you.

If you really have the intention of giving up on yourself now, then you guess you have lost forever and can't protect anyone. "

Chen Jixiang also persuaded from the side.

"Brother Qin Yuan, to tell you this, he doesn't want to use your daughter to do anything, he just wants to tell you, don't let your child go back to you just because he has experienced wind, rain and suffering. old road.

Tell me quickly, where is your daughter? ask Fan Tianlei to pick her up! Only when you can guarantee his safety will you have the motivation to live, just like Brother Qin Yuan said, people can only hope if they live, right? "

After listening to Chen Jixiang and Qin Yuan's advice, Jason seems to understand now.

In fact, he didn't tell Qin Yuan at first, partly because he didn't trust Qin Yuan. He didn't want to reveal his daughter's affairs to Norman Karim through Qin Yuan's mouth.

But now that he has heard what the two of them said to him, he now truly loves him. It is true that he is safest only by sending his daughter to Fan Tianlei's side.

No matter which way you think about it, as long as your daughter is in Fan Tianlei's hands, Fan Tianlei will not hurt him or threaten him.

Thinking of this, Jason was relieved.

"Qin Yuan, you are right, at least Fan Tianlei will not threaten me with my daughter's life!"

Chapter 1983: Go back and find the power bank

After a series of discussions just now, Qin Yuan and Jason also thought about it for a long time, not knowing what to do next.

However, seeing that it is almost time to reach the destination now.

They have no more choice, they can only plan according to this situation.

"Jason, I know what you think in your heart, since you have brought up such an idea with me, then I can only promise you, I will try my best to help you solve this problem.

I'll go and tell Fan Tianlei first, let him take your daughter into our army, and he should be relatively safe by then. "

Jason was very moved after hearing Qin Yuan's words.

"Qin Yuan, did you really promise me to do this? I really can't believe that when I met you, you were a very persistent person. Now you are willing to let Fan Tianlei help me protect my daughter?"

"Of course, I know that your daughter is your lifeblood. As long as he is safe and sound, you are willing to do anything. In order to consider your thoughts, I will definitely help you in this way.

These are all understandable things. Although I am very angry that you lied to me before, after so much consideration, I am still willing to help you.

I know very well in my heart, don't worry about the situation between us, I will not let you down, since you have opened your mouth to me, I will definitely help you well.

Let's talk about the daughter first, the daughter is very important to all of us, he is your daughter and my daughter, I regard you as my best friend, naturally I will not let you down.

You have told me so much, how could I ignore your thoughts? "

Chen Jixiang looked at Qin Yuan, he is really a quick talker, the most important thing is Qin Yuan, he can make everyone very satisfied with him.

"Brother Qin Yuan, I have to say that I really admire you. You can make everyone very satisfied with you, and you can't find any faults with you. We all have seen it after such a long time. It's what's happening right now."

"You kid is a little incoherent now, so don't flatter me here.

Let me tell you that I will contact Fan Tianlei now and ask him to help us get Jason's daughter to the army as soon as possible. At the very least, Effie should be prevented from getting in touch with Jason's daughter. "

After hearing what Qin Yuan said, Jason hesitated, and then looked at Qin Yuan.

"I want to confirm with you, are you really willing to help me? If you are willing to help me, go to Fan Tianlei for help. You will only involve Fan Tianlei in this dispute. I don't know if Fan Tianlei is willing or not." ."

"Fan Tianlei doesn't want it too late. Since he introduced Norman Karim to me, Fan Tianlei doesn't need to have any scruples."

"Qin Yuan, who I know, naturally said that Norman Karim also has a very good relationship with Fan Tianlei.

But I always feel that this matter should be more cautious, and I don't want more people to be involved.

This will only bring unnecessary disasters to everyone. Although Effiete is not a high-end figure, after thinking about it, I still don't feel relieved. "

"Jason, you don't need to think so much. The relationship between Effie and I has already been formed, and we have a deep hatred. The relationship between the two of us now is either you die or I live."

After hearing Qin Yuan's words, Jason sneered helplessly.

"It's too one-sided for you to say that. It's not just the relationship between you and Effie that made it so stiff, it's the relationship between me and Effie when we were young. Now there is no way to compare it. It's all in the past."

"Yeah, now that you've come to this point, don't think about the state of your good relationship in the past. It's not the same as it is now."

After finishing speaking, Qin Yuan was going to contact Fan Tianlei first, asking Fan Tianlei to help him protect Jason's daughter first.

Thinking of this, Qin Yuan suddenly realized that something seemed to have fallen into the underground cabin.

"Chen Jixiang, have you seen my mobile power bank?"

"Mobile phone power bank? Of course I haven't seen it. Haven't you charged your phone since you got on the ship?"

"I don't use my mobile phone very often. He just needs to make a phone call to communicate with the outside world. I don't need to worry about other things. I just turned it on and saw that the power of my mobile phone is indeed low. If so I'm afraid we won't be able to make it to the shore."

"Then what should we do?"

Effiete thought in his heart that if he really wanted to do something, the more he had to do it. He didn't want to go back to the underground cabin to see He Chenguang like him, but after thinking about it, he had to face it. .

"Then what else can I do? I'll go back to the underground cabin to get it first, otherwise we won't be able to contact Fan Tianlei. Maybe Norman Karim has contacted us just now, but the phone is out of battery. Just received it."

Hearing what Qin Yuan said, Jason was very nervous.

"Qin Yuan, do you mean that Norman Karim may take the initiative to contact us just now, but because the phone is out of battery, he can't receive it?"

"I think there is such a possibility, but after thinking about it, this possibility is relatively small. He should be waiting for us to contact him actively.

Because, he knows that he has the two apprentices of Professor Fang that I want the most, who can be his hostages. Even if I don't agree to cooperate with him, I will find clues from him sooner or later. What about the benefits? "

"Thinking about this Norman Karim now, he is really insidious and cunning. I didn't expect that after being in contact with him for so long, we would suffer losses every time."

"What's unexpected about this? It's just that we are good people, and we don't want to touch his dirty thoughts when we are with someone like him."

After finishing speaking, Qin Yuan knew that he could no longer hesitate, the phone was out of battery, which greatly affected the contact with the outside world.

"Chen Jixiang, I know that the relationship between you and He Chenguang has become very tense now, and I won't force you to go back. You can stay here with Jason, and help me observe other things around me by the way.

I will go back to the underground cabin to get my mobile phone charging treasure, and I will be back soon.

Moreover, seeing that we are about to reach our destination, I also have to remind He Chenguang not to sleep anymore, get up quickly, and we will be ready to meet the next challenge. "

"Wait a minute, brother Qin Yuan, do you really want to continue to trust He Chenguang?"

Chen Jixiang's sudden question made Qin Yuan feel that it was also expected.

"Now, I can only choose to believe that He Chenguang is giving him a chance, and also giving us a chance."

"However, to give the enemy a chance is to cut off one's own retreat. I believe Fan Tianlei has said this to you more than once, right?"

Jason watched the two of them play charades here.

"I'm a little confused, and I can't figure out what you two brothers are talking about here?"

"Are we discussing whether He Chenguang is trustworthy?"

After hearing Qin Yuan's words, Jason's face has obviously changed now, showing a strange reaction.

"Jason, do you know something?"

"Ah? No, I don't know what happened?"

Qin Yuan could clearly feel that Jason was now in a state of pretending to be deaf and dumb.

"Jason, if you know something, tell me quickly, and don't hide it from me.

I know very well what kind of person He Chenguang is, but since this is the case, it is impossible for me not to trust him, and I hope to give him one more chance. "

Jason looked at Qin Yuan and answered decisively. He knew that he was a person who always valued love and righteousness. If he wanted to betray his brother, it was impossible.

"Qin Yuan, you haven't experienced the feeling of being stabbed by a good brother, have you?"

"What do you mean by that? Have you ever experienced it?"

"Effite used to be my good brother, and now he treats me like this is considered being stabbed by a good brother, so in a sense, I have also experienced it."

Hearing the mention of Effiete Qin Yuan, he is embarrassed to say anything now. He knows that Jason has always cared about the brotherhood with Effiete when he was young, but they are now in two camps.

The most important thing is Jason, he now has his own daughter and family, and he doesn't want to do the messy stuff anymore.

So, looking at Jason's current appearance, he still feels a little pitiful.

Qin Yuan walked up to Jason and patted him on the shoulder.

"Jason, I know you will feel sad when you think of certain things. But don't worry, I won't let you continue to fall into helpless situations.

I have always regarded you as a friend worthy of friendship, and I will not change my opinion of you because of other things.

Okay, let's not tell you two, I still have to get the power bank first, in case Norman Karim really gets in touch with me later, he will definitely be anxious. "

After speaking, Qin Yuan was going to go to the underground cabin first.

Unexpectedly, just as he stepped off the deck, he saw a familiar figure, who had been watching something furtively at the door. As soon as he saw Qin Yuan found out, he immediately turned around and ran away.

Based on this familiar figure, Qin Yuan could tell that this person was He Chenguang they had just discussed.

"Why is He Chenguang here? Could it be that he has heard what we just said?"

As Qin Yuan talked to himself, he felt uncomfortable now.

Anyway, now that things are up to this point, Qin Yuan can't hide anything anymore. Now that they have already determined what kind of person He Chenguang is, there is no need to continue pretending. Everyone knows that it is better to open the sky and speak clearly.

Qin Yuan returned to the underground cabin.

Sure enough, He Chenguang didn't lie down, he just sat on his bed.

"you are back?"

He Chenguang looked at Qin Yuan with a gloomy face.

"I should be the one asking you this question, right? I should be the one asking. Are you back?"

"What do you mean by that?"

"You should know very well what I mean, I just heard you listening to us by the deck,"

"It's not me, I don't know what you're talking about."

Qin Yuan was really speechless to He Chenguang in front of him. He didn't expect him to be so stubborn. He had already caught the evidence, but he still refused to admit it.

There is no need for Qin Yuan to continue to entangle with him now, he can say whatever he likes.

Anyway, it is basically certain now that he is the one who betrayed him.

So, he had to silently look around his bed for a power bank.

Let's charge the phone first, otherwise there is no way to contact the outside world.

"Don't you want to say a word to me now?"

"I'm just busy looking for a power bank, don't get me wrong."

Seeing Qin Yuan's sneer, He Chenguang also felt very uncomfortable.

"It was true that I was eavesdropping on your conversation just now, but the wind at sea was too strong. I only saw the three of you talking to yourself and didn't understand what you were talking about."

After hearing He Chenguang's words, Qin Yuan bent over and suddenly straightened up.

Then, he stared blankly at He Chenguang's eyes.

"Then why are you doing this? You mustn't tell me you're doing it just because you're curious what the three of us are doing there?"

Ever since I got on the boat, I think it's strange that you are always sneaky. I don't know what you are busy with all day long. I am too embarrassed to ask you directly. I know this is a great blow to you.

You hate people not believing you, which is the same as me, but I have another characteristic, you don't understand, I hate people betraying me, especially people who I regard as my best brother. "

"Then you mean that I betrayed you, do you have any evidence? Then who do you think I am, Norman Karim, or Effiete?"

"boring!"

Qin Yuan didn't say anything, he just replied two words, because now he was completely disappointed and sad with He Chenguang, and he didn't have any hope for him.

The biggest reason why still brings him with him now is that he clearly knows that he may be someone else, is to take care of his face, and after returning to country H, he will hand it over to Fan Tianlei It's the same.

However, after thinking about it, Qin Yuan suddenly felt that since He Chenguang was no longer afraid of his identity being exposed, how could he follow him back to Fan Tianlei's side and give them a chance to deal with him?

Thinking of this, Qin Yuan felt sad and sad.

It seems that this trip to Pakistan should be the time to say goodbye to He Chenguang.

Even if he knew what he did to him, Qin Yuan couldn't bear to watch his former good brother leave him.

"He Chenguang, we will arrive at our destination soon.

Have you thought about how to go next? "

"The next way?"

Chapter 1984: It's not easy to go back

The He Chenguang, of course you can tell what Qin Yuan meant by these words? He is not a fool either, he knows exactly what kind of path he has taken. It seems that Qin Yuan also understands.

Seeing that He Chenguang never answered, Qin Yuan also became anxious.

So, I asked him again.

"Have you thought about how to go in the future?"

Unexpectedly, He Chenguang sneered.

"I've thought about it, but what's the use, we are all involuntary in everything from birth to now.

We have no way to choose our own origin, we have no way to choose our own family, what we can choose is the way out in the future.

But after a long time, you find that you don't even have to choose a way out.

Everything is being pushed forward by the general trend.

Many things are not what we are unwilling to do, and we also despise them, but I know that these are not correct, nor are they necessarily wrong.

Who is right and who is wrong, we all have a steelyard in our hearts...

If you can understand it, you can see it; if you can't understand it, that's all you can do.

Anyway, I don't have anything now, and you should be aware of other options. "

Qin Yuan didn't know why He Chenguang suddenly said a lot of inexplicable words that he couldn't understand. It seemed very philosophical to find a star, but when he thought about it carefully, he also revealed a lot of helplessness.

"He Chenguang, the two of us have known each other for a long time. Do you regard me as a brother through life and death?"

He Chenguang was caught off guard by Qin Yuan's question.

However, He Chenguang didn't even think about it, so he answered firmly.

"Of course I regard you as a brother. Exchange your sincerity for your sincerity. You treat my good brother with sincerity. Naturally, I also regard you as my best brother."

Qin Yuan looked at He Chenguang's glasses, his eyes were full of sincerity.

"If you regard me as a good brother, why do you still fight against me?"

He Chenguang felt very uncomfortable hearing what Qin Yuan said. He thought Qin Yuan was going to have a showdown with him.

"What do you mean by fighting against you? Could it be that you were just in the underground cabin? Did I bring those stowaways to raise some opinions with you?"

Qin Yuan knew that He Chenguang was just pretending to be stupid, obviously he didn't intend to answer his own question.

Qin Yuan didn't say anything, he nodded helplessly.

"If you want to talk about this matter, then I can only say that I apologize to you.

But I think Jason has done a lot wrong. He shouldn't have trapped me in this underground shipyard. Even if I went out to catch my breath, I was insulted and humiliated by his subordinates.

You know that I am a very optimistic and cheerful person, but at the same time I also have some arrogance on me.

Usually when I am in the army, many of you all give way to me.

When I came here today, his subordinates dared to boss me around. Do you think I might be happy?

Of course I will try my best to get revenge on them. This is all about Jason and has nothing to do with you.

If you feel uncomfortable, it can only mean that Jason is more important than my friend in your eyes. "

After hearing He Chenguang's sophistry, Qin Yuan thought in his heart that this guy has become so powerful now that he can say that black is white. It seemed that he was not going to be honest with himself.

If that's the case, that's fine too.

Qin Yuan shook his head helplessly, smiled wryly, and said to He Chenguang.

"I don't have anything to say, I came back this time to take a power bank to charge my phone.

By the way, I would also like to remind you that we are about to reach our destination. Normally, we are about to land, and the mobile phone can receive the signal.

If you have nothing to do, prepare your luggage in advance. Don't wait until you disembark in a hurry and leave all the important things on board. "

It seems that the conversation between the two people is still broken up, and no one is saying anything.

"Yeah, Qin Yuan, if you say that, then I know, but there is one important thing, I'm afraid you still haven't reminded me."

"What important thing, you say?"

"People like us who stow away in the underground cabin shouldn't be able to disembark immediately, right?"

After it needs to be docked, wait until the normal guests on the ship go down first, and then unload the cargo.

After the cargo is unloaded, we, the group of revealed people, can sneak down. "

"You're only half right, the first half is right, we have to wait for people and goods to go down before we can leave.

However, it is impossible for the ship to stay at the pier all the time after it docks, so after people go down, they have to unload the cargo.

After the cargo is unloaded, I will drive the ship to a secluded pier and anchor there to wait.

We can sneak down after there is no one else, don't forget our identities. "

He Chenguang nodded angrily.

"I see, it looks like we're still going to be here for a long time.

Fan Tianlei has already prepared some fake documents for us, why can't we let us disembark in a fair manner? Be sure to wait here! "

Seeing He Chenguang, I am a little crazy now.

Qin Yuan, he said something coldly.

"Anyway, the mobile phone can receive the signal, so you don't have to panic!"

After finishing speaking, Qin Yuan left the underground cabin without looking back.

"Hello? What do you mean by that?"

He Chenguang didn't give up, he actually yelled so loudly behind his back.

Qin Yuan, he now knows very well in his heart how Xiang He Chenguang should persuade her, he will never look back, just like you can never wake up a person who pretends to be asleep, it is the same reason.

Although Qin Yuan, he is guessing everything now, but he believes that his guesses are also gathered together. Is it really necessary to use the one-key recovery system to check if He Chenguang is a traitor?

no! Absolutely not, this system cannot be used casually for the time being.

Qin Yuan has been on the ship for a long time and has not completed his mission.

Merit points are not enough in the first place, if the merit points are wasted, based on the already basically determined answer, it would be a bit of a loss outweighing the gains, and deceiving oneself.

Thinking of Qin Yuan here, he stopped talking and was going to leave this place first.

As soon as he stepped out of the ground, he saw Chen Jixiang in the cabin.

This kid, what are you doing here without Jason?

Looking at Chen Jixiang, he was in a hurry and felt in front of him in a panic.

"Didn't I just ask you to stay with Jason? Why did you come here? What about others?"

"You don't have to worry about Jason, isn't this just about to reach the destination? He took his subordinate Amin out and didn't know what he was doing. Anyway, this is all their internal affairs, and we don't want to interfere too much Isn't it?"

Qin Yuan nodded, feeling that this kid Chen Jixiang had grown up a lot now, and he was able to control his proportions precisely. If he had changed from his former self, he would definitely go forward to find out what happened to him and see what Jason was up to?

"Okay, you kid has improved now, and you're not as stupefied as before!"

"I really don't know if you're scolding me or praising me."

"Stop talking so much, of course I'm praising you, I really have some skills in praising you.

If you changed to the previous one, you must be in a hurry, come over to me in a panic and tell Jason, they don't know what they are busy with, are they doing something to stab us in the back. "

Chen Jixiang rolled his eyes after hearing Qin Yuan's words.

"Look, you still said that you were praising me, and you were clearly scolding me, saying that I didn't have a bit of rampage in the past.

All the things I told you before were based on the fact that I didn't believe in Jiesen.

Recently, so many things have happened to the two of you. If I don't believe it, there is nothing I can do. Anyway, you have already reached this point, and you will work together in the future.

At least, during this period of time in Pakistan, none of us can do without each other.

Employers do not suspect, suspects do not.

Do you have to doubt others at such a critical juncture?

Anyway, what he should have said to you has basically been pretty much the same. Even if there are some things that he still hides from you, I believe it won't hurt.

Moreover, seeing him apologizing to you is really very sincere. He treats you as a good brother and you should be forgiving and forgiving. Don't always hold on to this little thing. "

After Chen Jixiang finished speaking, Qin Yuan thought in his heart that this kid has indeed matured a lot, and his role by his side now far exceeds that of He Chenguang.

The problem is that Qin Yuan doesn't believe He Chenguang now. What did He Chenguang tell him? He doesn't think it is useful, he will doubt it.

This is not the state that should exist between good brothers.

At this moment, Jason walked over from a distance, sweating profusely.

Qin Yuan thought in his heart that the weather doesn't look hot now, so he shouldn't be sweating so much.

On the sea, it's still cool with some wind. Jason must have encountered some problem, and he's so excited.

"Qin Yuan, you have finally come out of the underground cabin. I was waiting for you here just now. I was in a hurry to find you.

However, since you are with He Chenguang, I don't want to see He Chenguang, so I have been waiting here. "

"What's the matter? Jason? You need to calm down first. Something important happened to me. Wasn't Chen Jixiang here just now? You can talk to him."

"Now the signal can be received at sea.

Effie called me just now. "

Qin Yuan was very nervous when he heard that Effiete was facing an enemy, so he hurriedly asked Jason.

"What did Effiete tell you, tell me quickly!"

"He didn't say anything special, but just asked, and asked me about your situation if there was any special situation recently."

"He asked you about my situation, logically speaking, he should not know that we are on this ship.

Now I can see that he deliberately arranged this numbered munitions and wanted to frame it on me, because I have been on the ship all this time. "

"Well, that's true. He knows that you are an open secret with me, and we all know it well, but he asked about your situation, which shows that he is very worried about you."

Qin Yuan laughed out loud after hearing what Jason said.

"I've already said it, the relationship between me and Effiete is already irreconcilable, because of several missions, he fell into my hands. He is also a very strong character, I believe you should know him better than I do.

Therefore, he now regards me as the number one enemy, as long as he has the opportunity to kill me, he will never give up. "

"Then what are you going to do next?"

"What else did he say to you on the phone?"

"I didn't say anything else. I just said that he would be on time and wait at the pier to pick up the goods. I don't know if this is a test or the truth."

"Jason, do you think what he said may be some tentative words?"

"Well, if nothing else happens, I think there is still such a possibility. When I first met him, he was a very suspicious person.

Like you said, there's a good chance we'll have Effit's spies on board.

He learned from the information of these spies that there are so many special situations on our ship, so the words he just asked are likely to be deliberately testing me. "

After listening to the conversation between the two of them, Chen Jixiang hurriedly asked.

"What about your daughter? Did he remind you about your daughter?"

"That's not true. He probably doesn't know that my daughter has been hidden by me. Perhaps the spies on the ship may have told him about my daughter's disappearance. He may also be wondering who it is. made."

Qin Yuan recalled carefully, he must not miss any useful information in the conversation between Jason and everything he described just now and Effiete.

"Since Effie didn't ask about your daughter's situation, it means that he may not know about it for the time being."

"Why do you say that?"

"Jason, think about it, if he knows about your daughter's disappearance, no matter whether he suspects that you did it by yourself, he will definitely ask you. First of all, he also needs to show Effiete his hypocrisy.

Don't be too anxious to show concern for you, he will help your daughter find a way.

If he really doubts you, he will use this opportunity to test even more.

Test your reaction, this is the most suspicious part of him.

Jason, you have known him for so many years, I believe you know him better than me, do you think my analysis makes sense? "

Jason smiled silently.

"Well, Qin Yuan, your analysis is very reasonable. Effiete is such a person. If he knows about my daughter's disappearance, he will definitely test me. In fact, his first reaction is to understand that this is What I made myself has nothing to do with anyone else.

Since he doesn't know that my daughter's disappearance should be a spy on the ship, he didn't report it to him. "

Chapter 1985: At this critical moment, protect this little girl

After passing Qin Yuan's analysis, they can basically be sure now.

The Effiete spy on the ship did not report all their information to Effiete for the time being.

This is a good thing for all of them, and it is also an opportunity to fight back against them at any time.

"Brother Qin Yuan, what do you think we should do now? I am also very conflicted. Should I tell you about this? If I don't tell you, it will have a great impact on our entire plan. ."

"Chen Jixiang, you are right in thinking, neither of us is a calm and calm person, if you were not by my side to persuade me, I am afraid that I would really do many things wrong and miss many important opportunities.

Originally, I was still thinking about Fan Tianlei, why must I let you stay by my side, and I still have to take care of you, kid Now it seems that it is really uncertain who will take care of whom. "

Jason, he still hasn't stopped worrying about his daughter, because although Qin Yuan agreed, he doesn't know when he can talk to Fan Tianlei about it.

Now that her daughter has been exposed, if Effie finds out that her daughter is a false disappearance, and Effie catches her, he will never let her go.

"Qin Yuan, do you know? People say that he may not be as good as his wife and children, but I know Effiete very well. He is really ruthless.

If you give him a little chance, he will never give up. For my daughter, I must persevere and fight them to the end. "

Qin Yuan walked to Jason's side after hearing what Jason said, patted his shoulder and said with a smile.

"Jason, don't worry. Didn't I tell you just now? This matter is on my shoulders. No one can hurt your daughter.

Chen Jixiang, help me see if there are any strangers around here. If there is nothing unexpected,

I'm going to tell Fan Tianlei now to take his daughter into our army first. "

Chen Jixiang knew that Qin Yuan was a real person, and since he said it, he would never regret it.

"Okay, no problem, Brother Qin Yuan, don't worry, I will definitely hurry up and find a way for you.

Jason, let me accompany you here, and we have to observe the situation on the shore at all times.

Now we know people but don't know what we know. Just now, Norman Karim has sent his own people to cheat us of the list of goods.

Whether Effiete will continue to have any problems in the future, we don't know, it will take 10,000 minds. "

Qin Yuan nodded, the more he looked at the boy in front of him, the more pleasing he was.

"Okay, your logical thinking ability has become so meticulous now, kid.

I really didn't misjudge the person, and Fan Tianlei did not misjudge the person back then, you have a bright future and wait for a promotion and salary increase after you go back. "

"Forget it, don't draw big cakes for me, don't I know what you think?

On the surface, they boasted to me, but in fact they didn't take any substantive actions. I was almost disappointed.

However, Ming people don't say dark words, since you have promised to go back and give me a promotion and salary increase, you must work hard for this matter.

I don't want to rejoice in vain. If I talk about boundless love, then I can't do it.

I came out to complete the task for this little overtime and travel expenses. If you don't reimburse me, I will definitely feel very angry and disappointed, and I will never trust you again. You will not be able to complete any tasks. out with you. "

After hearing what Chen Jixiang said, Jason thought he was really joking.

"Okay, boy, I will be your witness now. If Qin Yuan doesn't care about your thoughts, I will be responsible for all your travel expenses and overtime compensation."

"Really? Jason, you are so generous."

When Qin Yuan heard this, he shook his head and still felt that Chen Jixiang was too young.

"Have you ever thought that it's not Jason at all, he is a generous person, but our travel and overtime pay, which is not much, so anyone can afford it."

Hearing this, Chen Jixiang suddenly realized.

"That seems to be the case too!"

"Okay, stop joking, hurry up, I will go to Fan Tianlei now and tell him what happened recently so that he can be mentally prepared at any time, so that he can come and rescue us if we are detained by Norman Karim."

"Hmm, this is serious business!"

After finishing speaking, Qin Yuan hurried to a corner and dialed Fan Tianlei's mobile phone. At this time, it should be night time again in Country H.

Qin Yuan took out his mobile phone to check, it was too late, Fan Tianlei probably wouldn't answer the phone.

Sure enough, after dialing for a long time, Fan Tianlei didn't answer the phone either. Qin Yuan, he was a little anxious now, thinking that he would wait a while before talking.

He suddenly thought of a more important question, where is Jason's daughter? How can you tell Fan Tianlei if you don't even know the location?

Afterwards, Qin Yuan returned to Chen Jixiang and Jason's side again.

"What's wrong? Didn't Fan Tianlei answer the phone?"

"You don't even look at it, what time is it now, Fan Tianlei's sleep quality has already fallen asleep.

By the way, Jason, I just remembered an important question and I forgot to ask you. Since Fan Tianlei was asked to protect your daughter, you haven't told me where your daughter is hidden by you. "

Jason looked around, and after finding no one eavesdropping, he spoke carefully to Qin Yuan.

"My daughter is at 471-5 Huizhan Road."

"Okay, I got it, don't worry, leave this matter to me for a while, I will quietly send this specific location to Fan Tianlei so that no one else will know."

"Qin Yuan, I still want to thank you for helping me like this, but I have an important point to remind you."

"What? You said?"

"My daughter has a congenital heart disease. He cannot do without a special medicine anytime and anywhere. This medicine is always by his side. I don't know if you have enough resources there.

Moreover, what he fears most about his congenital heart disease is being frightened. If the sky is turned upside down and someone is sent to protect him, he hopes to say hello in advance. "

Hearing this, Qin Yuan nodded silently.

In fact, Jason was a little embarrassed. He felt that it was unreasonable to ask Qin Yuan for help to protect his daughter, and he still said that so many requests were a little emotional and unreasonable.

"Jason, don't be embarrassed, this is our initiative to help you, and this is the only way we must go to deal with Effiete, we must not let him have hostages in his hands, let's be restrained by him.

And in your daughter's special situation, all of us can understand that it is normal for you to speak out.

If you don't say it, who will be able to bear the responsibility if any accident is caused? Children are innocent. As long as it is for the good of the children, we should all pay for it. "

At this time Fan Tianlei found out, Qin Yuan called him, and he quickly called back.

"I said Raytheon, you finally answered the phone, what's going on with you? Can you still sleep after such a big thing happened?"

"I said, can you stop accusing me of what's going on with you as soon as you come up? It's been out for so long, and you haven't reached your destination yet. Is your ship at the speed of a turtle?"

"Can you blame me? You know how much we have gone through.

Moreover, there are so many munitions on board now, its weight is really too big, and we can't drive the ship casually.

If the speed is too fast, it is likely to cause the sails to capsize, and all of us will never be able to return. Do you want to see our results? You are a vicious person. "

Fan Tianlei couldn't say no to Qin Yuan all the time.

"Okay, okay, stop talking nonsense, get to the point quickly, what's the matter, and what else do you need my help for?"

"We can basically confirm some clues now, but Jason's daughter, he has been hiding in a very safe place so far, I hope you can mobilize some people from our army to take the little girl into the army."  
"

"What are you barking at here? This is the army, not a shelter! Do you think it's appropriate to bring a little girl to us?"

"What's wrong with this? It's inappropriate. When did the army stop having women?"

"There are no precise regulations, but we have to follow the rules and regulations. Can you tell me to take him over? I need to report to my superiors."

"After you report to your superiors, he has already been captured by Effiete's people, and the day lily will be cold by then."

In fact, Fan Tianlei also knew the importance of this matter.

The reason why he hesitated to agree was because he was not sure enough to protect Jason's daughter, and he was also afraid of taking on such a big responsibility.

"I said Qin Yuan, you kid is really capable of finding trouble for me all the time, and now I already regret letting you complete these tasks, can you calm down for me?"

Jason's daughter, he has a congenital heart disease and cannot be easily intimidated. He is very timid. If something happens to him in our army, who will be responsible?

Let me ask you, can you afford this responsibility? "

"Well, you Thunder God, I didn't expect you to be such a wise and safe person, and you keep saying that you serve everyone?

Have you eaten all these vows you once made?

I am not kidnapping you morally at all, and now I have learned who is the boss behind the underground secret arms system that you most want to know. "

Fan Tianlei didn't care about Qin Yuan's various accusations against him and immediately asked.

"Then why don't you hurry up and tell me who is the black hand behind this underground arms system?

Lao Tzu is really interested in this matter, and after investigating for such a long time, there is still no clue.

If the truth can surface, you can ask me to do anything, even if you want me to be a horse for you to ride, I am willing. "

"Just now you still said that you disagreed. It took a while to change your rhetoric, which is really sanctimonious.

Let me tell you the truth, we have been investigating this matter for a long time, and we have finally achieved some results. It is absolutely impossible to give up halfway.

This matter has something to do with Effiete, if you want Effiete not to succeed so quickly.

You have to protect Jason's daughters, Jason and Effiete. They both knew each other when they were young and both worked behind the scenes to help him. "

"It turns out that Effiete really has a boss behind the scenes."

"Of course, otherwise, do you think that a person on the platform has such a great ability that he will fight us back and forth? Every time we have a little bit of success, we will recognize him and protect him. The power behind him is incredible. One can imagine.

The person behind him is a beautiful country who specializes in this aspect of business, and then wiped it out will no longer threaten our H country.

This will be a very large network of relationships.

Jason is now one of the few substantive evidence and witnesses we have in our hands, and he also knows Effiete very well. This person can really help us a lot. Even as a tainted witness, we should help him protect good daughter. "

Of course Fan Tianlei knew the importance of all this behind the scenes.

"Well, I promise you, it's just that this child's congenital heart disease is indeed very dangerous, it's like a time bomb, it's impossible to say when it will explode.

I can only guarantee that he will not fall into Effiete's hands, but whether he will have any accidents in the future, I can't guarantee this.

You have to make it clear to Jason, don't let his daughter have an accident because of a congenital heart disease, and he will come to discuss with us, don't say that I can't keep my position.

All of you are suffering from this.

I told you a long time ago, no matter how big your head is, how big your hat is, you dare to participate in this kind of thing.

I also really admire you. Sometimes you should consider your own strength and the importance of things when you are loyal.

I will take it as helping you this time, and absolutely don't trouble me next time. I also feel sorry for this little girl and must not let him fall into Effiete's hands. "

After Qin Yuan heard Fan Tianlei promised to help him, he immediately changed his face and said coquettishly.

"Then thank you, Thunder God, I knew you would be by my side to protect me, you are simply my patron saint who responds to every request!"

"Okay, okay, my goosebumps are all over the floor, don't mess with me! I feel sick to my stomach!"

After a while, use our own password to send me the specific location of Jason's daughter and send it to the phone.

remember! Don't send it directly, you must use our password.

Otherwise, the communication system will be broken if someone else cracks it! "

Chapter 1986: Ship docked, danger approaching

The Qin Yuan and Fan Tianlei have already said almost the same thing, and now they have agreed to help Jason protect his daughter.

Qin Yuan can be considered relieved. What they are most worried about now is not Effiete, but Jason's daughter.

In case he really falls into Effiete, they will be controlled by Old K again.

That's really unimaginable. At that time, Jason may become a sharp knife stabbing himself for his daughter.

"Thor, do you know? I'm doing this for our plan, and don't think that I'm just thinking about Jason's daughter. It's in the common interest of all of us."

"Don't worry, Qin Yuan, I understand what you think in your heart, you have been my apprentice for such a long time, don't you understand that your master's heart is towards you?"

Qin Yuan smiled and said to Fan Tianlei.

"I am really lucky to have a master like you."

"Okay, okay, don't flatter me here, you can send me the location of Jason's daughter in a while, remember to keep it hidden, I'll tell you again, and then I'll just wait for my good news.

Your side is basically about to reach the destination, and soon you will have a head-on confrontation with Effiete and the others. "

"By the way, Raytheon, I still have one important thing I haven't told you. Norman Karim, your old comrade-in-arms He Fei, is very interested in the goods we sent. I'm afraid he wants to take it all for himself. "

After hearing Qin Yuan's words, Thor was not surprised at all.

"He is still the same as when he was young. He has not changed at all. If he has a little bit of interest, he will definitely take it into his own hands. This is his most powerful point, and it is also the point I admire most about him."

"What Thor? Do you mean he did this? You expected it?"

"Of course, he said he was his former comrade-in-arms. Of course I understand him very well, but I didn't expect him to really attack Jason's cargo."

"Since you understand him so well and let me ask for help, what about our goods?

Is it really going to fall into his hands?

At that time, even if you have dealt with Effiete, you have dealt with the forces behind Effiete.

So what about Norman Karim, what are you going to do?

This kind of method of driving tigers and wolves away is not a good method. It is the worst method in the world. You are exchanging one benefit for another benefit. I don't agree with your approach. "

Qin Yuan, he is very angry now. He didn't think that Fan Tianlei would have thoughts about the cargo on Jason's ship when he knew that Norman Karim was so dangerous, and he still asked himself to ask for help.

Perhaps Fan Tianlei had already anticipated this method, and he deliberately wanted to use this idea of driving tigers and wolves away to achieve his idea of thoroughly investigating the interests behind Effiete.

Qin Yuan couldn't accept this, it was too dangerous.

"Thunder God, did you listen to me? Anyway, I don't agree with it!"

"What if you don't agree? Let me tell you, even if you don't ask Norman Karim for help.

He knows how many things Effiete has done in Pakistan.

This time, anyway, it can kill two birds with one stone, and it can help you and deal with Effiete. Isn't this a particularly good method? "

Thinking of this, Qin Yuan said to Fan Tianlei again.

"Okay, since you have your own ideas, I have nothing to do if I don't agree, but have you thought about what to do next? Are you going to let Norman Karim's power grow stronger day by day?"

"He is now in Pakistan, not in our country H, so what does it matter to us whether he is powerful or not?

As long as you can successfully rescue Professor Fang's two apprentices, the mission is truly completed. Other things have nothing to do with you, and you'd better not get involved. "

"Thor, do you think this matter is too simple?

What does Professor Fang do? You should be very clear, do you think Norman Karim would give up this talent so easily?

I am afraid that he has already set his sights on Professor Fang, and now the two apprentices mentioned by the house price are likely to be in the hands of Norman Karim.

We're not going to the lab and bringing them back, we're rescuing the hostages. "

Qin Yuan's words really shocked Fan Tianlei.

"What did you say that Professor Fang's two apprentices may still be under the control of Norman Karim?"

"Otherwise? Thor? I said when did you become silly and sweet?"

"What do you mean by that, boy? How come I have become a fool?"

"Otherwise, you will really trust Professor Fang. With his ability, he can successfully set up a laboratory in Pakistan, and he can do it without being controlled by Norman Karim. I'm afraid Effiete has already done it." Take them away.

Are you underestimating the strength of your old comrade-in-arms or are you underestimating the strength of Effiete and the others? "

After listening to Qin Yuan's words, Fan Tianlei stopped talking. He is indeed a little confused now, and he doesn't know what to do?

"According to what you said, it is indeed very dangerous. It seems that Professor Fang's two apprentices are indeed in the hands of He Fei.

This time, if he took all the goods on Jason's ship, maybe he could use this as an exchange to put these two people back. "

Qin Yuan stood there thinking about this mess, which was far beyond his imagination.

"I hope so, but now it depends on your relationship with him when you were young?"

"What do you mean by that? Do you think he gave up such an important thing because of the feelings of our comrades in arms when we were young?"

"I'm not very clear now, anyway, Norman Karim sent someone up just now."

"What did he send people up for?"

"On the surface, it was to help us to let him know what he had in mind, but after taking stock of the goods, he took away all the list of goods on Jason's ship.

It was only at that moment that I realized that Norman Karim had been eyeing the cargo on our ship from the very beginning.

Although these goods are not worth much to him, they are just a drop in the bucket, but he can use this opportunity to declare war on the forces behind Effiete. "

After Fan Tianlei listened to Qin Yuan's analysis, he now began to plan his own actions.

"If this is the case, then you don't need to look for Professor Fang's two apprentices. They must be in the hands of Norman Karim. He is waiting for you to contact him now as a condition of exchange. ?"

"Then what should we do? Or you send someone over to help us.

Just me, Chen Jixiang, and He Chenguang, why should the three of us oppose Norman Karim?

This is really a little too presumptuous. "

"The most important thing is that I haven't brought you enough weapons yet."

Now Qin Yuan, he no longer knows how to proceed with his next plan.

"How about this, Qin Yuan, I will let An Ran go to Ba to help you now!"

Qin Yuan's pupils quivered after hearing Fan Tianlei's words.

"You can't let An Ran come here, it's too dangerous, in case all of us are taken away by Norman Karim after we landed.

"You can't let An Ran come here, it's too dangerous, in case all of us are taken away by Norman Karim after we landed.

An Ran, a girl, can he fight against such a powerful force?

You are simply a fantasy, you should give up quickly. "

"Okay, don't talk so much, I have my own arrangements, so you don't need to come and direct me!"

After finishing speaking, Fan Tianlei hung up the phone.

Qin Yuan thought in his heart that it was over now, not only had it not been resolved, but with the existing problems now, it was very likely that An Ran would be implicated.

So, Qin Yuan, he returned to Jason's side in disgrace.

"Jason, don't worry, I have already contacted Fan Tianlei, and sent him your daughter's location in our highly confidential method, and he will soon take your daughter to the army and he is safe."

When Jason heard the good news, he was naturally happy, but he turned his head and looked at his good brother next to him as if he was thinking.

"This is indeed good news for me, but Qin Yuan, what's wrong with you? Like the eggplant beaten by Shuang?"

"I just told Fan Tianlei that he plans to ask An Ran to help us with the problems we are facing now."

Chen Jixiang asked in surprise.

"Let An Ran come here. If he wants An Ran to come and help us, let us come together. What can he do to help us now? Sister An Ran is just a little girl."

"I don't know about this. Maybe Fan Tianlei has his own arrangements. We just wait quietly. Anyway, Fan Tianlei knows it well, and we should trust him."

Although Qin Yuan said so, he didn't believe Fan Tianlei anymore.

It's just that I said this to comfort Chen Jixiang, he is too young to make him aware of any changes or dangers.

"Alright then, Brother Qin Yuan, since you've already said that, I'm relieved. The person I trust most now is not Fan Tianlei but you. I believe everything you tell me."

Now the three of them are blowing the wind on the deck, thinking about what will happen after landing.

Since the signal has just been released, I believe that Effiete has already sent people to wait on the shore, and once they land on the shore, they will be the first to take them down.

"Qin Yuan, pack up, we should be ready to disembark!"

"Is this about to reach the destination?"

Now Qin Yuan thought to himself that the biggest enemy he had to face so far was not Effiete, but Norman Karim.

How should Professor Fang and two apprentices be successfully rescued without harming everyone?

"I think there should be nothing to prepare. After we arrive at the destination, Norman Karim or Effiete will definitely come and pick us up directly."

Jason smiled.

"Qin Yuan didn't expect you to be able to see so clearly now. It's good if you can figure it out. It's true. We don't need to worry about finding a hotel to find a place to eat. Someone will arrange it."

At this moment, Akun, Jason's subordinate, came over.

"Boss, we will arrive at our destination soon, you should put away your things!"

While talking about Akun, Jason's subordinate, he handed Jason a box.

Qin Yuan didn't even need to think about what was in the box, it must be a pistol.

"By the way, where is the small pistol that Chen Jixiang and Fan Tianlei gave you?"

"Here I am, what's the matter? Do you want it now?"

"I don't want it now, what do I want him for, this is the guy who came to save your life.

Such a small thing is given to you so that it can be easily hidden. You must hide it well so that it cannot be discovered by others no matter what. "

"Yeah, brother Qin Yuan, don't worry, do you still need to worry about my strength? Hiding secretly is what I'm best at."

Qin Yuan sneered after hearing what Chen Jixiang said.

"He Chenguang, how is he doing now?"

As soon as He Chenguang and Qin Yuan were mentioned, his head became confused again.

"He's no different now and ready to get off the ship.

By the way, Jason, we should be the last to disembark after a while. Those of us stowaways have to wait for the boat to stop in a safe place before we can come out. "

"Hmm, yes. In theory, it should be so, but in reality, as you said, someone must have come to pick us up.

At that time, I believe we don't have to worry about where to go. "

"That's good, that's what I told He Chenguang just now.

If I tell him inaccurately, he will definitely blame me again then. "

"Okay, Akun, hurry up and inform the guests in the passenger cabin that if there is nothing wrong, pack up first and let them prepare to leave."

"Okay, I see, boss, I'll let them go now."

"Chen Jixiang, have you packed all your things? If it's packed, we're going to get off the boat."

"I didn't bring anything with me at first, so we can just prepare to go down, but what I'm very confused about now is why Effie hasn't contacted us yet?

Jason, has Effie contacted you yet? Normally, we are still some distance away from landing, so he should be able to contact you. "

After Chen Jixiang said these words, Qin Yuan also felt a little suspicious.

"What did he tell you at the time? Could it be that someone came to meet you when you landed?"

"That's right, told me that when we approach the shore, we should release the signal first, and when he receives it, he will naturally let us come over."

"Could it be that something happened to Effie?"

"What can happen to them? They are very insidious and cunning. The only thing that can happen is that they are now under the control of Norman Karim."

These people were talking about the boat, and now they have come to the shore, and the next step is for them to prepare to dock.

Now these people in the cabin have come out one after another.

Everyone was carrying their luggage, and they were all kept in the dark, thinking that it was just an ordinary passenger ship.

Qin Yuan, it's dangerous to watch them now.

Chapter 1987: Dress up and put on a beard

The Seeing these normal tourists in front of him, who are about to fall into a dangerous situation, Qin Yuan really can't bear it now. He knows that these people are innocent.

Many of them just want to travel to Pakistan, or go on a business trip to run their own affairs.

They are all innocent. What if Effiete really kidnapped all these people in case of a beast?

This is the fact that Qin Yuan doesn't want to see or imagine, but he has to think about everything first, and if he can't wait for the danger to come, it will be too late.

"Jason, do you think these people will be kidnapped by Effiete? Will he threaten us because of this?"

"According to my understanding, it should not be because of Effiete. He is unwilling to offend Norman Karim now. We can still guarantee safety for the time being. We will disembark soon. Do you want to meet He Chenguang first? ?"

In fact, Qin Yuan, he is unwilling to go back to the underground cabin, he needs to keep abreast of the movement outside, because Qin Yuan knows very well that once he reaches the destination, Effiete must be the first to come here to meet their challenge.

If he hid in the underground cabin, wouldn't he become a lamb to be slaughtered.

Chen Jixiang said to Qin Yuan.

"How about as Jason said, let's go back to the underground cabin first. There are really some dangers here, and it's not suitable for us to stay here."

"Do you want to go back and find He Chenguang?"

"We have too many uncertainties now, and it would be a good idea to leave here for the time being."

Qin Yuan thought in his heart that this was indeed the case, and he had better go back to the underground cabin to stabilize those stowaways.

Because this group of people's cultural level is relatively low, and some criminals came here, they must want to leave here first.

Normally, the first batch of uploaders must not be Effiete.

After a general ship arrives at its destination, especially this kind of transnational ship, it must first be sent by some of their local departments to inspect and find that there is nothing interesting and suspicious people here before letting them go to other places.

And this ship is a rare kind, a ship that can accommodate both guests and goods.

I believe that Jason should be able to do this after working here for a long time.

So, Qin Yuan turned around and said to Jason.

"Jason, no matter what, these guests on the ship, they came here through normal channels, we must ensure their safety, once we finish watching for a while.

You arrange for them to go down first, and we will discuss it after they have successfully disembarked.

The rest are our own people and some people who revealed it. In fact, there are mixed people among the people who revealed it. It is difficult to guarantee that everyone is there. "

Slowly and leisurely like this, the ship has already begun to prepare to dock.

Qin Yuan looked at the guests on the boat with their luggage, and couldn't wait to get off the boat.

Jason hurried down, his subordinates Akun and Amin.

"Boss, what's the matter?"

Jason pointed to the guests who were about to disembark.

"They don't understand the rules, don't you understand the rules? After a while, after we finish the exam, relevant people will come up to check.

Only after checking that there are no problems can they be allowed to leave, let them return to their seats quickly, stay honestly, and don't make trouble with us here.

Don't panic because this time, there are cargoes that are not normally available on our ship.

Although these people in Pakistan have been managed by us before, they can be regarded as acquaintances.

But we have to live with face, and we can't let them pick out any faults on the surface, which will only give them more opportunities to beat us.

Originally, we didn't make any money at all from the goods this time, and even put our own lives in danger, let alone give them the opportunity to blackmail us. "

Qin Yuan looked at Jason from the side, he was doing this without hesitation, and he felt admiration for him.

After Akun and Amin were criticized by Jason, the two of them were a little at a loss now, and they were also very afraid that Jason would lose his temper, so they hurried to the end of the deck.

Shout out to this above board group of guests.

"What the \*\*\*\* is going on with you guys? Don't you have any vision at all?

Haven't any of you guys ever been on a boat? Do you know that after arriving at the destination, especially if you are traveling abroad, do you need to check your documents first? Don't rush to disembark!

After all the people have checked that there is no problem with your documents, you will naturally be allowed to queue up and go down in an orderly manner. "

Seeing the ferocious appearance of Akun and Amin, everyone was naturally a little scared, because they all knew in their hearts that this group of people was not the captain and crew at all.

Because of their boat, even the upright seats are very cheap.

Knowing that these people are not easy to mess with, they all returned to the cabin one after another.

He returned to his seat and sat down.

Seeing that this group of people had basically stabilized, Qin Yuan thought to himself that he should hide.

In case, after a while Effiete comes up, he will not be able to explain.

In fact, Qin Yuan is not afraid of Effiete, he is mainly afraid that Effiete will use the lives of these people to threaten him.

"Jason, it's more suitable for me to hide now. It happens that I can help you watch those people who revealed it in the underground cabin. I believe they should also want to get off the ship as soon as possible. There must be unstable factors.

After a while, if Effiete comes up, you can deal with him yourself! "

"Hmm, don't worry, wait until the ship docks.

First of all, the people in these cabins will be let down first, and then we will find a place to unload the goods and stop to put the goods down.

I believe that Effiete should not come up when he first docked. "

"I hope so."

Chen Jixiang reminded them both.

"Are you really sure that Effiete won't be on board the first time?

He has always been a scheming person, and he has never been willing to trust others, so he will definitely choose to come up first and then talk. First of all, he should not harass these guests.

However, he was afraid that we would do something to the cargo on the ship, so he would definitely get on the ship as soon as possible. "

After hearing Chen Jixiang's warning, Qin Yuan also felt that this matter was definitely not as simple as he imagined.

It seemed that he had indeed underestimated Effiete.

"If that's the case, we might need to cross-dress!"

If it's casual clothes, then this is really Jason's area of expertise.

Jason smiled after hearing Qin Yuan's words.

"If you want casual clothes, I can help you, don't worry, there are some big beards in my room, you can stick them on your face."

"It doesn't look like putting a big beard on your face. Every one of us has such beautiful features, and we are all so young."

"It's not to make you look ugly, it's just to make you less conspicuous. I'm afraid that Effiete will board the ship as soon as possible. The lights in the underground cabin are already very dim, so he shouldn't will find you."

"But what if she knew we were all on board from the start?"

"You don't need to care about this, just do as I say."

Afterwards, Jason took Qin Yuan and Chen Jixiang to his room, found some worn out clothes, and changed them into some cowboy hats.

Pulled out these beards from the drawer.

Chen Jixiang walked in and smelled it, and in an instant he had a feeling of vomiting.

"I'm sorry, Jason, I didn't mean to laugh at you, nor did I mean to dislike you. I just want to know how long you haven't washed your clothes and beards. The smell is really bad."

"You don't mind, after all, we take them out when we need them when we are sailing on the sea, and then wash them with sea water.

It hasn't been deep-cleaned, so there's a reason why it smells bad now.

Qin Yuan, I hope you two don't feel disgusted. This is the reason why you can keep your secrets. You need to protect your identities. So far, this has almost reached Effiete's territory, and everyone can't head-on.

And there are so many innocent people on board, although everyone in the cabin will go down when the time comes.

However, many of the people in the underground cabin are innocent, they are not heinous, and they should not be implicated. "

After listening to Jason's words, Qin Yuan nodded silently. He never doubted this.

"Chen Jixiang, since you come out with me to complete the mission, you must suffer. Hurry up and take out these two things and dress them up for the two of us."

"Then He Chenguang, don't you care about He Chenguang?"

Speaking of He Chenguang, Qin Yuan really didn't want to bother with him, but if He Chenguang wasn't also dressed up, the three of them would show their secrets.

"You can dress up here first, I'll go find He Chenguang and bring him here."

Qin Yuan knew that he would reach his destination soon, and he had to hurry up, so he rushed back to the underground cabin.

Passing through the surging crowd, he came to He Chenguang's side, pulled him up and was about to leave without saying a word.

He Chenguang was a little confused.

"What happened, where are you taking me?"

"Don't ask so many questions, hurry up and go, I have something important to ask you, if you want to help us all!"

After hearing what Qin Yuan said was so serious, He Chenguang was too embarrassed to refuse. So he hurriedly followed Qin Yuan to Jason's room and saw Chen Jixiang already dressed up as soon as he walked in.

This guy wears a big beard and a big gray hat.

He was originally a young man in his twenties, but now he looks like a middle-aged sloppy uncle in his forties or fifties.

"Qin Yuan, what did you bring me here to see? Who is this?"

Chen Jixiang took off his hat to reveal a pair of eyes, and then looked at He Chenguang with a smile.

"It's me, surprise!"

"What are you guys doing again? Where did this come from?"

Jason looked at He Chenguang. The two of them actually communicated less often.

"Don't be nervous, and don't misunderstand that I don't want to do anything to you. This is what Qin Yuan just mentioned. The ship will be docked soon. I hope you can change your identities by dressing up. "

After He Chenguang heard this, he took out the fake documents that Fan Tianlei had prepared for them from his pocket.

After flipping the false certificate, the photo on it was revealed.

"Look at the difference between the photo above and what we are going to dress up now? We obviously already have fake documents, why do we have to do this? Isn't this superfluous? It will make people suspicious."

Qin Yuan knew that He Chenguang would definitely not want to dress up like this.

For one thing, he usually has a heavy burden of being an idol, and he doesn't like this kind of slovenliness.

Secondly, He Chenguang, he always has some sneaky behaviors, which is difficult for Qin Yuan to understand, so he refused to dress up this time, and Qin Yuan was also expected.

So, Qin Yuan hurriedly said to him.

"I know you are hesitant now, and I'm never surprised if you say no, but please think about it for me and Chen Jixiang.

In order to ensure the safety of all of us, you must dress up like this, and mix in with those people who are smuggling in the underground cabin to ensure the safety of all of us.

Besides, when Fan Tianlei prepared these fake documents for us, they could only be used in Ba.

It is not necessary to prove the identities of all of us on the ship, and the underground cabin is originally a place for smuggling, and this group of people will definitely not check our place when they come up to check.

We are not using this to guard against Pakistanis, but to guard against Effiete. "

He Chenguang looked at Qin Yuan's excited and nervous look and knew that he attached great importance to this matter, so he didn't refuse anymore, he just nodded silently.

"Then which outfit do you want me to wear?"

Seeing that He Chenguang didn't reject Jason, immediately took out two slightly cleaner clothes from his cabinet and changed them into two, and then put beards on their faces.

After finishing dressing up, Qin Yuan looked at himself in the mirror, and he couldn't help laughing.

"I've never tried this look, but it's probably safer.

But the smell on this body is really unacceptable! "

Jason patted Qin Yuan on the shoulder.

"I can't help it, brother, you have to be patient, in fact, in the underground cabin, this group of stowaways, they are not upright people, and their body smell is naturally not good.

Now that you have chosen to dress up, you must do it to the end. Don't let them pass by your side and find that your taste is different from this group of people. "

Chapter 1988: sudden violent impact

Qin Yuan couldn't help laughing after hearing what Jason said.

"What's the matter? What are you laughing at? We've all got big beards on now, it's already uncomfortable enough, plus this smell, what's so funny, can I live before it's too late?"

He Chenguang and Chen Jixiang, both of them are a little unhappy now, because they can't bear this unpleasant smell, just like they all have cleanliness, and they really can't stand this smell.

"Should I just say that everyone should be happier? What's so great about smiling?"

I just laughed because Jason said that Effie can also tell this smell, that's too funny. Effie is not a military dog, how can he be able to distinguish all kinds of smells? How good is his nose? "

Chen Jixiang said after listening to Qin Yuan's words.

"I said, can you stop putting gold on this Effie's face, why does he compare with us cute military dogs?"

He is just a mangy dog, no matter what kind of dog it is, it should smell very bad, and their noses are very good.

It's better not to let them grasp our taste, then we will fall short, we have already arrived here, and the last step cannot be controlled by them.

I also admit it, if it smells bad, write it badly, anyway, after we arrive at the destination, I will find a particularly good bath to take a bath and have a big meal, and then we will complete the task.

Otherwise, I would have made this trip in vain. I heard that the tourism industry in Pakistan is very developed.

Let's enjoy it here for a while and then go back.

Otherwise, it's really a waste of time to come out this trip. It's better to let me train with them all in the army. Anyway, I miss that environment. pitted. "

Qin Yuan knew that Cheng Jixiang was only joking when he said this. He knew the priorities very well, and he would never act recklessly.

Jason also said everything he could to scare the kid.

"Chen Jixiang, you only heard that the tourism industry in this place is developed. Haven't you heard of this place? Is the scammer industry also developed?"

After hearing Jason's words, Chen Jixiang was not nervous at all, but smiled instead.

"I said that I think you think of me as a three-year-old child. How can I be afraid that you can still talk about me with such a small amount of speech? I know that the tourism industry here is very developed.

Usually, many rich people from H country come here to travel. It is very famous, I know.

I also came here for the beautiful scenery and all kinds of food here.

Look at the people in the cabin outside, don't they all come here for tourism? Only in our underground cabin, these stowaways are like the stinky mud on the ground, they have no choice to mix here. "

Qin Yuan smiled.

"Chen Jixiang, I know you are feeling very sad, and I really want to try this tourism industry as soon as possible.

But I have to tell you, Jason didn't lie to you. There are also a lot of films here.

You should know that Pakistan is the only place in the world that is not subject to arms control, so they can do whatever they want in this place.

And they also have a place that specializes in all kinds of fraud, and there are many films. If you are caught by them and locked up in that park, you will never come back. "

Chen Jixiang was still a little unbelieving, he retorted.

"How is that possible? It's fine if they can catch ordinary people, but who are we? We have been specially trained since childhood.

How is it possible to catch me? Even if there are ten of them, they are not my opponent alone. "

Qin Yuan and Jason looked at each other.

"Seeing that there is no such kid, he is still young, he doesn't understand anything, I know he doesn't understand.

In this place, once you are captured by these scammers, you will never come back, unless you have enough money to be able to provide for your uncle, otherwise, you will have to cheat people like these scammers.

On the day you are useless, they will kill you, or directly dissect you. "

"Is it so scary? Are you lying to me?"

"Of course, you should never underestimate the evil of human nature!

Once you fall into the hands of liars, your whole life will be completely ruined.

After you are caught by them, they will first extract the remaining value from you, and after changing all the money on you, I will let you cheat with him, and wait until you are completely worthless , just remove the parts from your body.

Sell as much as you can, and feed the dog if you can't sell it!

Anyway, even if you're alive, you can't leave this crappy place if you're scared to death. Don't you think it's scary? "

Chen Jixiang still refuted.

"That's because they lied to ordinary people. If it was me, I believe Fan Tianlei would definitely come and be me!"

"At that time, Fan Tianlei can't save you, and you have only one person who can save you!"

"Who is it?"

"Norman Karim!"

"Him? Is he better than Fan Tianlei?"

After listening to Qin Yuan's words, Chen Jixiang still didn't believe it. Jason hurriedly explained.

"Haven't you heard a saying that a strong dragon does not overwhelm a local snake? No matter how powerful Fan Tianlei is, he can't interfere in this matter.

What's more, this is a place belonging to the Ba Kingdom. It's like there are some conflicts between you and your neighbors. No matter how powerful you are, can you go to other people's houses to smash, loot and burn them?

This is impossible. You can only negotiate in a public place. He can neither come to your home nor you can go to his home. The reason is the same.

You go and look at these people in the underground cabin, many of them are indeed very poor, they all came here by smuggling, but I don't know how many people will be taken away by these scammers.

I'm afraid today is basically the last time you will see the people in these underground cabins. "

Seeing Jason saying this in a serious manner, Chen Jixiang was actually muttering and scared in his heart.

"Is this really the case? That's terrible, but even if they deceive people, they must be some stupid people, or people who are greedy for money, some honest and shrewd people, they should not be able to deceive people. "

"You must not underestimate the abilities of these people. Even if you can't deceive them, you will take them away by force. This place in Pakistan has long been a place where no one is in charge.

This is why He Fei, after coming here, will become Norman Karim, because in this place, fists speak, as long as your fist is hard enough, as long as your rights are strong enough, no one can hurt you . "

He Chenguang is also trembling when he hears it now, he is also very scared.

He is different from Chen Jixiang, he is well-informed and knows where this place is. In fact, he was unwilling to come here at the beginning, and he was forced to come here by Fan Tianlei.

"Okay, Qin Yuan, don't go down to Hucheng Jixiang anymore, let's think of our own way quickly, the three of us together are unlikely to be taken to that mysterious park.

What's more, I believe in Norman Karim, he will protect you, you don't have to worry about it.

Chen Jixiang, don't be intimidated by the two of them. "

At this moment, they stood on the deck watching, the ship was about to dock.

Jason's men also came over and said to Jason.

"The boss ship is about to be pressed, look at the three of them..."

Qin Yuan looked at Jason and said.

"I understand, don't worry, I won't trouble you.

He Chenguang, Chen Jixiang, the three of us, we will go back to the underground cabin now, and we will come out after the weather is calm outside. "

In fact, Qin Yuan knew very well in his heart that this was just a plan in his own mind, and the sea was calm. As long as there were people like them, when would there be a calm time?

Only when they completely return to country H and return to the army, can they really sleep peacefully.

Chen Jixiang and He Chenguang nodded respectively, and went back with Qin Yuan.

Soon, they returned to the underground cabin and found that the people inside were already restless.

Everyone is like ants on a hot pot, wishing to leave here immediately.

All I could hear was a few insults from the crowd from time to time.

"What the hell, it's unlucky enough that we managed to come to this place and we were not allowed to disembark first when we arrived at our destination. What does this mean?"

"Forget it, you'd better calm down, we should all know what our identities are, and we have already agreed before uploading that we are smuggling. After arriving at the destination, we have to wait for all the guests who came to travel in a fair manner to leave. We can leave after that.

If you come here, you can settle down and just stay here honestly, no matter what. "

"Hmph! This is called status. Is there someone who is a noble person and sits in the cabin openly?

Look at us again, we are like mice in the sewer, we can only quietly wait for other people's arrangements. "

Chen Jixiang, it was really shocking for him to see such a scene for the first time.

"Brother Qin Yuan, is the legendary underground cabin like this? These are really scary, scary!"

"What's so scary about this? How many hours have you lived here? It's not like you haven't seen the virtues of this group of people, and they also had an accident."

On the contrary, He Chenguang was unusually calm, and he slowly returned to his seat.

"Let's not worry about it so much. We came here with a mission this time. As long as we protect our own lives, that's all. I've already figured out what's clean, dirty, and messy. An'an's fine."

It was rare for Qin Yuan to look at He Chenguang so openly.

Just when they all wanted to go back to their seats and wait for the boat to dock and they could go out smoothly.

All of a sudden, a violent impact was felt, and all the people standing in the underground cabin fell to the ground.

Chen Jixiang was also taken aback by the scene in front of him.

"What happened here? It seems like an earthquake. Could it be an earthquake?"

"Are you stupid? How could there be an earthquake on our boat now? The only possibility is that someone crashed into our boat!"

"These eyes seem to have reached the pier, who can hit our ship?"

Qin Yuan, he now has an ominous premonition in his heart that such a violent impact can be achieved.

Then their ships must have been damaged. If the ships were hit and leaked, the first water to enter is the underground cabin.

The first victims were also the stowaways in the underground cabin.

Although he knew the result in his heart, he shouldn't talk nonsense. This would cause everyone to panic, and the scene would get out of hand.

He Chenguang also looked at Qin Yuan with a different look. It seemed that both of them had realized the seriousness of the matter.

Qin Yuan lay beside He Chenguang's ear and whispered to him.

"After such a violent impact just now, I'm afraid that the clothes will leak soon, but fortunately, we will soon reach our destination. Even if we swim, we can reach the shore, so we won't die here."

He Chenguang also said to Qin Yuan.

"A collision on the dock is unlikely to happen. Although there are many ships on the dock here, in order to prevent these ships from colliding, they have their own waterways.

And there is a special person in charge of command here, it seems that someone should deliberately ram our ship! "

"I finally found the familiar feeling that the two of us can work together well."

"Then what should you do next? This matter seems really strange."

"When someone rammed our ship, it must have been aimed at the underground cabin.

I don't know whether it was done by Effiete or Norman Karim, or it may be aimed at some of us, so everyone should prepare in advance.

Be sure to calm down, Don't let these people in the cabin know what happened, try to stabilize their emotions. If they all know, it will have such serious consequences, and it will be unimaginable at that time.

It's very likely that there will be a stampede under the cabin, and the situation will become chaotic when everyone scrambles to escape.

Originally, these people came here by smuggling. If they were discovered by these people from Pakistan, they would probably shoot and kill these smuggling people in an open and aboveboard manner.

This kind of indiscriminate shooting, of course, includes several of us, maybe this is also a part of their plan.

In short, we are already on the verge of relying on pressure, and it will be much better than being in the sea.

I just feel that the only fortunate thing is that this group of people did not use such despicable methods against us on the sea.

Otherwise, we all have a dead end! "

Chapter 1989: Effiete finally showed up

The He Chenguang, although he is calm, he knows the seriousness of this matter. Once it is leaked out and put on, everyone will become nervous. At that time, they will have no way to ensure the safety of these people.

"Qin Yuan, don't worry, I will definitely stand on your side this time. I know the seriousness of this matter, and I will let everyone try to calm down.

I believe that now Jason, they should not dare to come in and tell you the actual situation.

You should go out secretly and ask what happened. If a hole is really passed and water comes in later, it will be too late for all of us to do anything. "

In fact, Qin Yuan was still moved by what He Chenguang said.

Although, he knew that He Chenguang had done some uncomfortable and embarrassing things, but now He Chenguang seems to have changed his ways.

Moreover, Qin Yuan was very moved by standing unswervingly on his side this time.

"Then what about Chen Jixiang?"

"Don't worry, with me here, he will not be in any danger. I will protect him well. He is our little brother. No matter what happens, I will not harm his life, let alone Let someone hurt him!"

Chen Jixiang also said.

"Qin Yuan, can you stop treating me like a child? I've already told you that this matter is nothing to me. I can protect myself well.

Since I promised Fan Tianlei to come and complete the mission with the two of you, it's definitely not brave!

I also have a plan in my heart, how can I put myself in a dangerous situation, believe me, I can definitely do it! "

After the impact just now, Qin Yuan could clearly feel that the sound of the impact was still very strong. Basically, the outer hull, even if it didn't break a big hole.

They are also damaged, and it may be difficult for them to leave here safely...

"Well, I'll go out now to see what's going on. You must stabilize the emotions of these people and don't let them find out."

As soon as the voice fell, someone shouted nearby.

"It's not good, it's not good, someone bumped into our boat, if the water leaks in after a while, we will all drown, so run here!"

Sure enough, this was exactly what Qin Yuan expected. This group of people knew that if they were in danger, they would definitely run for their lives first, and they didn't care about other things at all.

At this time, He Chenguang said.

"Who is here? This big-mouthed grin?

Don't you know that the ships have already docked? I didn't see that all of us were about to get off the boat, how could someone ram our boat?

Which bumpkin has never been on a boat! Don't you know that there will be such a movement when the ship is docked? Who dares to talk nonsense here? I was the first to kill him? "

Because Chen Guang had been fighting with them for a while now, this group of people still believed in what He Chengguang said, and they were also a little afraid of him. Coupled with He Chengguang's relatively big temper, all of them were really shocked. frightened.

Qin Yuan smiled, took a look, and He Chenguang went out.

No matter what happened, at this moment Qin Yuan believes that He Chenguang can complete the task it entrusted.

Just after leaving the underground cabin, Qin Yuan saw Jason's subordinate A Ming at the door.

"Amin, why did something happen to you here just now?"

"Qin Yuan, you finally came out. Our boss asked me to wait for you here. He knew that you would come out once he heard the noise. I didn't dare to go in and make a show. I was afraid that the group of people in the underground cabin would start a riot. .

I can only wait here quietly for you to come out.

It's hard to say, you will know when you come with me! "

Qin Yuan thought in his heart that this Jason really deserved the name of his good friend.

He actually knew that once something happened, he would come to find him. Now Qin Yuan, he was very worried and didn't know what was going on in the distance. For them now, all of this was too difficult.

If you don't make arrangements quickly, it is very likely that this group of people can do anything.

Qin Yuan led Amin to Jason's side.

Jason pointed at the holed boat without saying a word.

"look!"

Qin Yuan observed the surrounding environment. At this moment, they had already arrived, and they were waiting to dock. He didn't expect that the boat next to them would hit them.

"What the \*\*\*\* is going on? Didn't we have to dock just now?"

Why is this happening all of a sudden?

I was in the underground cabin, and I already felt movement. Although I don't often move around on the boat, I could feel that the movement was too loud, as if someone was hitting our boat, which was terrible. "

"That's right, that's true. I didn't expect them to be so ruthless that they would attack our ships on the shore."

"Are you sure they did it on purpose?"

"It must be intentional, it must be Effiete's intention. I thought he would come to the ship to meet us first, but I didn't expect that he would find someone to destroy our ship first. What is his purpose? He wants all of us Die here?"

After Qin Yuan heard this, he was also very flustered now, and touched his chin.

What is going on in his mind is running extremely fast? According to Effiete's character, although it seems that he can do cruel things, it seems that this group of people is doing it in an organized and purposeful way.

"I think so, maybe Effiete, they want us to cause some trouble here first.

In this way, he can achieve his purpose of framing us. "

"Why did he frame us? Don't they know that this batch of numbered munitions has been shipped away.

They can obviously use this to deal with us. Why go to such lengths to destroy our ship? "

Qin Yuan sneered.

"I can see it, it seems that this guy has made up his mind, what does it mean to let us go back and forth? It seems that he really hates me.

It's not just a few missions, he has become my defeat. I didn't expect this person to be so narrow-minded, which also surprised me.

He wanted us to drop all the goods in the water, and then use the underground cabin to make some troubles with these smugglers, so that we were all caught off guard and in a hurry, and then attracted people from Pakistan.

The things on our ship are even more indescribable, this guy is really tormented! "

Speaking of this, Jason suddenly realized.

"Didn't we analyze that there would be Effiete's spies on the ship? Didn't he tell him all this?

Didn't we tell him about the fact that we transported the numbered munitions away secretly? Why would he go to such lengths to deal with us? "

"Now it seems that he should not know these things!"

At this moment, Qin Yuan, the bigger question in his mind was that he once suspected that He Chenguang was Effiete's spy.

If that's the case, didn't he tell Effett all this? As a result, there is an information search between them now, which made him jump the wall and adopt such behavior.

At this moment, the group of people who collided with Jason's boat shouted to this side from the deck of their own boat.

"I'm sorry, we didn't do it on purpose. Come down quickly and see where there are loopholes. We will try our best to compensate!"

Jason doesn't want to talk to this group of people at all now, knowing that they are deliberately malicious, and he doesn't want to have anything to do with them.

Amin and Akun next to them couldn't sit still.

"Are you guys blind? Or is it your first time sailing?"

We've already arrived at the pier and we're about to dock. Was it intentional to bump into each other? Come down and give us an explanation! "

"Qin Yuan, we don't have time now. We must quickly get the water out of this ship. What should we do? Let the people in these cabins go down first."

Qin Yuan nodded hard.

"Now we have no other way, but this is the only way. After letting the people who came to Pakistan go down in the cabin, maybe we can reduce some weight.

I believe that the hole our ship should have broken is not that big. After this group of people go down, we will find another pier to stop.

Thinking about the goods, if Effiete and the others don't come to pick them up, we can only turn to one person for help. "

"You mean that after we've completely docked, if Effiete doesn't come, we can only ask Norman Karim for help?"

Having said that, Qin Yuan still doesn't believe that Effiete is the one who will give up this ship of ammunition.

"We can only make preparations like this. If Effiete doesn't come, what should we do?"

At this moment, Jason said to his subordinates.

"We've docked now. Although the ship was destroyed by them, we can relax for a while now. Let the people in the cabin go down first."

"Okay, we know, Boss! Don't worry, we will immediately arrange for the people in the cabin to go down first."

Jason's subordinates are also very neat in their work. After hearing Jason's arrangement, the people who arranged these classes immediately got off the ship one after another, and the number of people decreased little by little.

Qin Yuan felt relieved.

"Although this Effiete is really bad, he still has some conscience.

It will allow us to release the innocent people in the cabin first and then talk about it! "

After a while, Jason's subordinates came to report.

"Boss, you can rest assured for a while, the people in the cabin have already left one after another."

At this time, bad news came.

In the distance, a person came slowly from outside clapping his hands.

The man stood on the bank, across the distance of a river, and shouted to them.

"Long time no see, Qin Yuan!"

Qin Yuan looked up and saw that this person was Effiete they had been thinking about day and night.

He didn't feel too surprised, because Qin Yuan had already prepared in his heart that Effiete would definitely come to meet them, but he didn't expect it to be in this way.

"Effite? Long time no see!"

"I really didn't expect that we haven't seen each other for so long, how did you change from a handsome guy to a bearded guy? Are you afraid of being discovered by me? Aren't you awesome?"

Why, you are at a loss without Fan Tianlei's protection? "

After finishing speaking, Qin Yuan also felt a little embarrassed after all this, he lowered his head.

But think about it, it is impossible for a proud person like Qin Yuan to admit defeat, thinking that since he has been discovered by Effiete, he will definitely not be able to show his cowardly side.

Qin Yuan simply tore off all his clothes, revealing his handsome face.

"That's right, this is the Qin Yuan I know!"

"Efite, when you were in Country H, you were no match for me. No matter how many bad things you did, I can always handle you even in Country H."

"Do you think this is true? No matter what you think, I don't have time to talk to you here today. I'm here to collect the goods!"

Jason, the two of us have signed a contract in black and white, don't you forget that you brought me everything I asked for? "

"Don't worry, don't you understand what I do? I brought you everything you want. What do you want?"

"I don't want to do anything. I just came here to receive the goods. All the goods I want are already here. In a while, I want to check a little less. You all don't want to leave here alive today!"

After saying yes, Effiete asked his men to get on the boat quickly.

Seeing their current situation, Effie also walked from the shore to the deck.

"Since you are here to receive the goods, why did you send someone to crash our ship?

Don't you think you are too mean? Are you shameless? "

"I've always been like this, Qin Yuan knows me best!

Jason, you can earn a lot of money by running for me, shouldn't you hurry up and replace your broken boat?

By the way, I have to remind you not to waste time with me here, in case my time is wasted talking to you.

When the time comes, the underground cabin will leak, I can't guarantee that everyone will be able to live there! "

Qin Yuan, his teeth are itching with hatred now.

He took out a dagger from his pocket and pressed it against Effiete's neck.

Unexpectedly, Effiete was not in a hurry.

"Qin Yuan, that's how you treated me when I was in country H, why is it not your territory anymore in country H, how can you be so tyrannical?"

I said, can you change your temper? It's really a dog can't change eating shit!

You see, I have so much hatred with you, but I can still chat with you calmly here, have I made progress? "

Qin Yuan, he couldn't tell what it was like now, he always felt as if he was insulted by Effiete face to face, he was not afraid at all, and took out a gun from the other pocket!

Chapter 1990: A bomb was secretly planted on the ship

Jason saw Qin Yuan pull out a gun and point it at Efit, and he was very nervous now.

Because, Jason knew that even Qin Yuan, no matter how powerful he was, could not compete with the large number of people on Efit's side.

As for Efit, although he usually speaks so indulgently, today he probably deliberately angered Qin Yuan and wanted him to take some action against him, so that he could use this action to carry out the next step. plan.

Chen Jixiang was frightened and stunned when he saw Qin Yuan's behavior.

"Brother Qin Yuan, you must not do anything like this. He is deliberately irritating you and wants to take this opportunity to attack us. If you really shoot here, the consequences will be disastrous. You should be fooled." Are all the people stationed at the International Pier deaf or stupid?

Don't do this, put down your guns quickly, and everyone please consider not being angered by people like Efit. He is a shameless villain who deliberately comes to record your mistakes and make you make mistakes! "

Qin Yuan was so frightened when he saw everyone that he had no intention of putting down the gun.

"Efit, do you know? It is the existence of people like you that makes this world full of trouble!"

Unexpectedly, Effit was very calm and took out a lighter from his pocket.

He lit the lighter, then raised the lighter to the office and said provocatively to Qin Yuan.

"Come on! Fight here!"

Seeing Effit's arrogant expression, Jason almost couldn't bear it anymore.

"Efit, you should know very well what kind of person Qin Yuan is. What he fears most is anger.

If you insist on irritating him, none of us will be surprised by what Qin Yuan will do to you later.

When the time comes, you will be considered dead, and you should not blame anyone else but yourself for being such a mouthful. "

Effit was still provoking, but instead sneered and said to Jason.

"Have you already told him about our past? Judging from the way you two talk about it now, you look like a pair of desperate brothers?"

"So what if I told him? Are you afraid that others will know what you have done in the past?"

"I have nothing to be afraid of. We both did things together in the past. If I am a bad person, you are no better."

Chen Jixiang roared at Efit.

"Jason, he has now come back from his lost ways, unlike some people who are still obsessed with it. It is the existence of such people that causes trouble for everyone. If you really think you deserve to die, you should jump into the sea and commit suicide immediately."

"Where did the boy come from and kept chattering here? The winner is the king and the loser is the bandit.

If I really fail, you can do whatever you want with me.

Now, you should listen to me. Whatever I say will be done. There is no way for you to escape from my grasp. The best result for you is to get caught quickly! "

At this time, Effit became even more provocative. He held a lighter regardless of Qin Yuan's gun pointed at him, slowly walked to Qin Yuan, and pointed Qin Yuan's gun at the center of his forehead.

"Come on! Do you dare to shoot? You should know your identities, how did you get here? If you shoot me, I don't care, you will never leave Pakistan.

Even Fan Tianlei can't protect you!

Originally, you came here smuggled in. When the time comes, your country H and Pakistan will have no way to explain the identities of you people. Coupled with the arms on the ship, everyone will perish together! "

Qin Yuan, he was really itching with hatred, but he couldn't get excited for the sake of these innocent people on the ship and the people at the dock.

"Efit, you are really a madman!"

"You're wrong, it's not that I'm a madman! It's that this world is too crazy.

It was you who forced me to do this, and the world forced me to do this. If I hadn't lost my parents since I was a child, became an orphan, displaced, came to the United States, and was adopted by old K. After he trained me to do these crazy things, I How could it become like this?

If you hadn't sabotaged my actions over and over again, how could I have been punished by him.

This is my last chance.

If I can't finish it, I won't even think about living. It may be worse than death now. Why don't you shoot me now and give me a happy life! "

When Qin Yuan heard this, he didn't know why he still sympathized with Efit.

Although Qin Yuan knew that he was from Old K and had done many evil things.

However, he had taught him some lessons several times. Through the conversation with Jason, Qin Yuan seemed to know what kind of person Old K was. If he really failed to complete the task, what would he use? It's really hard to say how to deal with Efit in this way.

This kind of person can indeed do anything.

Efit said to everyone while holding the lighter in his hand.

"Do you think this is just an ordinary lighter? Do you want to take a closer look?"

Qin Yuan felt that things were not as simple as imagined.

He looked carefully and found that there was a button behind the lighter and an indicator light.

"Everyone, be careful! This is not just a lighter, this is a bomb remote control!"

After Efit listened to Qin Yuan's analysis, he clapped beside him.

Smiling and slapping her hands.

"As expected of country H, those who have received training in the special forces have sharp eyes and quick hands.

You have discovered such a small flaw, but you are quite stupid, and you still need me to remind you.

Now that you've discovered that this is a remote control, you should know that there are bombs everywhere right now!

What do you think these arms are carrying on your ship?

Let me tell you, these weapons have been installed by me a long time ago. The remote-controlled bomb asked me to press it gently. Not to mention you, even half of the people in this dock will not survive. "

Chen Jixiang is now trembling with fear.

It's not that he's afraid that something will really go wrong, he's just afraid that if this crazy guy detonates a bomb, how many innocent people will be buried here.

Chen Jixiang recalled that all the people in the cabin just now happily thought they were traveling to Pakistan.

This group of people must have finally saved some money to buy a relatively cheap ferry ticket and come here to see the world they want to see.

Each of them has their own life. If they were given away by this lunatic, it would be too much of a loss.

Chen Jixiang said to Qin Yuan in an almost crying tone.

"Brother Qin Yuan, don't be impulsive. For the sake of these innocent people, we can't let him continue to go crazy!"

"Efit, just tell me honestly. We all know exactly what you want to do. What kind of person you are. You are also a person who is greedy for life and afraid of death. Why do you have to scare these children?

You came here today just to play some tricks on me, to prove that you are stronger than me, to prove that everything I did to you in the past was just that I couldn't hurt you at all. "

"It's good that you know! If you are willing to admit defeat to me and admit your mistakes, I may be able to let these guys go today."

Qin Yuan sneered.

"This is simply impossible. Even if you are daydreaming, you would never dream of such a scenario. How could I admit my mistake to you? People like you should be cut into pieces by a thousand cuts.

You are obviously from H country, but you are controlled by the evil forces of the United States.

You didn't expect that you would feel proud instead of being ashamed. Only a shameless guy like you should die! "

"I really don't understand, when death is imminent, you can still be so stubborn and say these indifferent words to me.

I can tell you the truth, even if I don't press this button, you won't be able to escape him. The batch of arms I asked Jason to transport should have some important things on the ship that can destroy you.

Do you want to know what it is? "

Qin Yuan thought to himself that this guy finally got to the point. He didn't think that the batch of numbered arms on the ship was still there, right?

"I don't know what it is, but I'd like to hear its good news!"

"As far as I know, all the ones used in your army are numbered!

Didn't Jason tell you? I know this guy Jason, but I don't know when I started to know that little girl among you, An Ran.

Based on your relationship, he will definitely tell you that some of the weapons in this batch are numbered, but fortunately, even Jason himself doesn't know that I have foresight. "

When Chen Jixiang heard this, he felt that things were about to turn around.

"So what if there are arms with serial numbers?"

"You have lived in the army for such a long time, you should know better than me, right? What does the numbered munitions mean?"

It means that you stole the army's arms and wanted to abscond to Pakistan to engage in some dangerous tasks.

And then, coupled with your fake identity, what do you want to do when you bring arms here? "

Efit said with a crazy expression on the author's face. He even felt that he was about to succeed. He never thought that this batch of arms had already been transferred by Qin Yuan.

Fortunately, Qin Yuan discovered it in time, otherwise the consequences would be disastrous. It's true what he said. This guy Efit is a lunatic and he will do whatever it takes to deal with him.

Qin Yuan pretended to be panicked.

He lowered the gun and feigned pain.

"What? This guy Efit actually persecuted and framed me like this? You are really too despicable and shameless. Where did you get these weapons with my numbers? Not even Fan Tianlei can get them like this. There is so much stuff, where did you get it from?"

Qin Yuan thought that he should take this opportunity to get more words out of Efit's mouth.

Qin Yuan also knew that this batch of numbered arms was definitely not easy to obtain. It must have been done by spies among them.

The mission of catching spies has never been completed.

If we can take this opportunity today to find the spies hiding in their army, it would be a good choice.

As a result, Efit was so cautious and refused to say anything.

"Qin Yuan, do you think I'm a fool? It's impossible for you to trick me. Even if you are dying and about to close your eyes, I won't tell you. I will let you Die with regrets!

Just keep this answer and search for it slowly in your next life! "

Chen Jixiang sighed.

"I really don't know what your reaction is. Why do you hate Qin Yuan so much?"

"I don't know why this guy always messes up my plans again and again. Every time I fall into his hands, how could I not hate her? I am Old K, my most trusted subordinate.

Just because I met this guy, he always disrupted my plans and I was always punished by my superiors. I didn't believe that I was so much worse than him! "

Qin Yuan was thinking, how can you compare with me?

I have a key recovery system on my body, which is no different from the life of cheating. How can an ordinary person like you compare with me?

It's just that Qin Yuan can't tell him this matter. This systematic thing about him must be kept secret.

At this moment, Qin Yuan put down the gun.

"What's wrong? Why don't you point your pistol at me? Are you afraid that I will die with you?

I didn't expect you, this guy is so cowardly and fearful that he can't even die with me? "

"It's not that I can't do it. Why should I die with you in such a good time? If you want to die, you have to die by yourself!"

Unexpectedly, the moment Qin Yuan put down the gun, Efit also put away the bomb controller in his hand.

"I was just scaring you. How could I let you die? I came here today to inspect the goods. Jason, quickly take out the goods list. I want to check it now.

But Qin Yuan, don't be too happy too early. It's not that I want to let you go, but someone will protect you! "

After Qin Yuan heard what Efit said, he was a little curious. Could it be that Norman Karim had already found Efit?

Qin Yuan looked confused. He thought Norman Karim wouldn't help him so quickly?

However, after thinking about it, , it seems that this is not the case. If Anime Karim really intervened in this matter, he should come over and \*\*\*\*\* the goods immediately, because he would have already Qin Yuan was already interested in the arms on the ship. This was something Qin Yuan was very sure of.

"Efit, you just said no harm, did I tell you this?

Who is this guy? "

"I can't even tell you who it is, so don't worry so much!

I'm just telling you that we are not in conflict with each other now.

I have important things to do, and I have already obtained this batch of arms.

Originally, I planned to use this batch of numbered munitions on the ship to deal with you, but my superiors have given instructions.

There is nothing I can do! "
