Chapter 1991: Water leakage from underground cabin leaks

Seeing Efite's arrogant look, Qin Yuan felt uncomfortable at all.

Chen Jixiang also said submissively from the side.

"I really can't understand how they can go so far when they can be so arrogant. They are treating us too unscrupulously."

"Now we are under the low eaves and have to bow our heads to manage Efit. He looks arrogant and annoying. We must endure it. For the sake of so many innocent people on the dock, we must not fight him here.

It's really useless to take all precautions. This guy is really thoughtful about the bomb measures he installed in the munitions on the ship.

It seems that I have indeed met my opponent. "

I don't know why Qin Yuan still felt a sense of excitement and challenge while talking.

It seems that the current Efit is completely different from the guy he knew in the past who was always defeated by him.

I don't know when it started. Did he meet an expert to give him guidance?

Thinking of this, Qin Yuan laughed.

Jason looked at Qin Yuan and smiled, knowing that he must be very confident. At least he had never been afraid of Efite, nor did he take him seriously.

What Efit hates the most is Qin Yuan's arrogant look. He smiled when he looked at him.

Efit walked to Qin Yuan fiercely and glared at him.

"Why are you staring at me like that?"

"I really don't understand why my superiors admire you so much for an arrogant guy like you?

I actually want to keep you here.

Although, I don't think so, I hate you very much. The relationship between the two of us has reached the point where either you will die or I will live. "

Chen Jixiang said next to him.

"You guys are really good at using it. What do you mean by life and death?

We will be the ones who die in the end if we co-author, you are dreaming! "

Efit looked at Chen Jixiang. This guy was not good. If he bothered with him any more, he still had important tasks. The most important thing was to get this batch of arms first.

Then Efit came over just as one of his men, went to the dock first, clicked on the arms on the cargo list, and confiscated them first.

At this time, the bottom of the ship could no longer hold up, and water began to seep into the underground cabin.

Qin Yuan, he vaguely seemed to hear movement in the underground cabin, but now he is not sure because he is also worried that if something goes wrong in the underground cabin, all of them will be in trouble today.

At this time, Efit said to his men.

"Now you are divided into two groups. Some of you will go to the underground cabin to control the stowaways for me. The other group of people will hurry up to lighten the cargo. We still have some important things that the boss has assigned to us, which have not yet been completed. "

Qin Yuan listened quietly beside him. What tasks would Efit, the boss of this guy, give him?

Is there any task that he has not completed yet?

He was now ready to lighten the cargo.

If Efit discovered that the numbered weapons were missing, how would they explain it?

Jason looked at Qin Yuan with squinting eyes as if he was discussing with him. He couldn't find it for a while. What should I do about taking me to number the munitions?

At this moment, Efit's men who had just gone to the underground cabin ran up to him in a panic and said.

"Boss, I'm sorry. We went to the underground cabin just now and found a big hole in the underground cabin, and water has started to seep inside!"

After Efit heard this, he was now in a panic. It was obvious that he was concerned about the underground inheritance.

Including the fact that the ship had a hole, he didn't know about it at all.

"How could this stupid thing be like this? Why is there water seeping in the underground cabin?"

"Report to the boss, because their ship was hit by someone who had a hole just now, and it seems that the people in the underground cabin are very serious and don't know about this matter. Now it has started to fill with water, and they are all rioting.

The current situation is not optimistic. These people already know that the underground inheritance is full of water. If they are not released quickly, there will definitely be a big commotion here, and people from Pakistan will discover it.

I'm afraid our secret is about to be revealed. What should we do? "

Qin Yuan looked at Efit's reaction. It turned out that he didn't do this, so who did it?

Could it be that Jason himself found someone to create a loophole in the underground cabin?

Efit was very panicked now, and he glared at Qin Yuan fiercely.

"Why are you looking at me like this? It's not me who caused the underground cabin to leak. Didn't you find the ships on the pier to come over and challenge us?"

Now that you have done it, you should be able to think of the consequences of such a thing.

I really can't believe you can be so stupid.

We have already arrived at our destination, and they are still using such a despicable method to deal with us. "

Efit walked to Qin Yuan and said angrily.

"Is it possible that I would use this method to deal with you? You obviously found someone to dig a hole under the bed.

Do you still think I don't know? It is true that I am looking for ships to hit, and you want to give you some impact.

But I never thought that it would be so severe that the boats inside would already be leaking.

Qin Yuan, if you don't move carefully, would it be good for me to think carefully about the leakage of the ship? Now all the cargo on the ship has not been moved, and water is constantly flowing into it.

If I can't co-transport these goods, I tell you that all of you will be in trouble with me! "

Chen Jixiang secretly laughed beside him.

"I really don't know which angel sister said this for us. If the ship sinks today, none of us will be able to leave here."

"What are you talking about here? We are already at the dock now. It has been secured. Even if the ship leaks, I can escape!"

"We know you can escape, but your cargo can't escape. You should know how much this ship of arms is worth, and how much your boss spent to allow you to transport such a large batch of cargo. .

At that time, nothing you have achieved will be lost, and everything will be in vain.

After losing so much money, do you think your boss will let you go?

You are just a little too whimsical. Do you really think your boss is doing charity? "

After Chen Jixiang said these words, Qin Yuan realized that this matter was probably not done by Efit, but someone else.

It wouldn't do him any good, so who did it?

Efit walked up to Jason angrily, picked up his collar, and stared at him fiercely and angrily.

"Jason, yes. When did you become so cunning and cunning? You can do this kind of thing. This is called burning the boat, if you guessed it correctly?"

Jason didn't want to say anything to Efit or look at this face.

"I will not do such a thing. I am a man of his word. Didn't you tell me that when you found me? As long as I want to leave Old K completely, I will help you get this batch. Once the arms are delivered to Pakistan and handed over to you, the mission will be considered completed. From now on, even if we don't offend the river, no one will be embarrassed.

You have already said this, how could I behave like this and do something stupid?

Obviously we don't know who did this, but we are all victims anyway. "

Speaking of this, Qin Yuan also nodded silently.

Efit, he was so panicked that he kept spinning in circles.

"What are you idiots looking at here? Hurry up and move the goods down first!

The goods in this box were all bought by Old K. He spent a lot of money to buy them. If there were any mistakes, none of us would be able to leave here alive today. "

Qin Yuan could obviously see Efit's nervousness. He should be really scared, and according to his words, this batch of goods was indeed supervised by Old K himself.

If something really went wrong, he wouldn't be able to afford the compensation.

So, according to today's situation, it was indeed not Efit's fault.

At this moment, everyone was wondering, who is the mastermind behind this?

Looking at Efit's panicked appearance, Qin Yuan also knew that scaring him this time was enough, and he could not continue to scare him.

"If you are going to leave here soon, we all have to work together to move all these things away.

Don't you understand now? This is no longer a problem between us. Now the conflict between us is not just that simple. If you want to hurry up, we can only work together. "

Looking at the messy situation in front of him, Efit didn't know what to do. He was a little panicked.

After listening to what Qin Yuan said, he himself didn't know what to do now. He knew that Qin Yuan could not be trusted.

"I can handle my own affairs, I don't need you to teach me here!"

After finishing speaking, Efit immediately turned around and said viciously to his men.

"What are you idiots waiting for here? Why don't you move things quickly and wait for me to move them?"

"Boss, it can't be done here now. After a while, all the water will seep in."

"So what if you come?"

Don't I want all these things? This product was discovered by our superior. Have you forgotten what he told us?

Don't you all listen to what the boss above said?

As long as you idiots are here whining, the goods have already been moved. "

Seeing Efit panicking and making no choice here, Jason felt he breathed a sigh of relief.

He said to Efit calmly.

"You don't need to be so anxious. I have made these goods waterproof. Even if they fall into the sea, they should not be in any danger for the time being. You just need to go to the sea to fish them out."

After listening to Jason's words, Efit was furious now.

"It must be you, right?"

"Of course it's not me. You should know very well that I don't bother to do these things."

At this moment, He Chenguang couldn't bear it anymore, so he rushed up from the underground cabin.

He Chenguang was also expecting to see Efite here, and he was not too surprised.

"What's the situation in the underground cabin? Are those people running around?"

"Don't ask. Think about it. Those people in the underground cabin have been here for so long. Is it possible for them to wait for you here? They have already escaped. , everyone does not know where to go.

Sea water has been seeping in one after another. If we don't leave here quickly, we will be finished.
"

Effit is now holding a gun over everyone's head, and they don't dare to leave here casually.

Moreover, Qin Yuan knew that if they all left here temporarily, the bricks would lose their stability and would not only sink but also turn over.

"He Chenguang, let's calm down and don't worry. With Efite here, even if he dies, he will be buried with us. What should I be afraid of?"

Chen Jixiang looked at Qin Yuan. With this unhurried look, he knew that Qin Yuan must have some ideas in mind.

"Brother Chen Guang, don't worry yet. We should believe Brother Qin Yuan. He will definitely be able to think of a good solution for us. Don't panic, we will definitely leave here."

At this moment, Effit finally believed Qin Yuan's words.

"There is no time now. We must move the goods quickly first, and then we can save as much as we can. We cannot let all the goods sink with it."

After listening to Efit's words, his men were trembling while frantically carrying the goods.

Qin Yuan thought that he might not have time to take inventory right now.

"How's it going? When do you plan to take away Efit's goods today?"

"Qin Yuan, I knew it was you who was behind this. I didn't expect you to be so cruel and ruthless. In order to deal with me, you even sacrificed the entire ship and the lives of those who were smuggling. How dare you say that you are Someone from some army."

At this moment, Jason was secretly chuckling beside him.

Qin Yuan looked at Jason's expression and knew that everything was under his control, should have been done by himself.

"Did you do all this?"

"It doesn't count. If he is in the first year of junior high school, I will be in the fifteenth year. Since he found someone to crash our boat, I knew that such a day would come, so I decided to fight against him at all costs!"

After listening to Jason's words, Qin Yuan felt somewhat confident.

"Yeah, you're right to do that.

It's just a pity. What will happen to your ships now and the brothers on your ship? "

"Qin Yuan, you don't need to worry about this.

These brothers on my ship have all gone through the test of life and death. They have been transporting with me at sea for a long time.

Everyone is familiar with water. "

Chapter 1992: Wetsuit in the room

Qin Yuan saw that a big hole had been made in the ship by Jason himself, and all the people in the underground cabin below the ship had fled.

Under such circumstances, it will only become more and more chaotic.

After a while, these local guards from Pakistan and others stationed on the shore will soon come over and discover something abnormal here.

Chen Jixiang looked at Qin Yuan. He was obviously a little scared now, and he was a little overwhelmed and worried. Seeing this situation, Qin Yuan also felt a little panicked.

"Brother Qin Yuan, what should we do now? They found out soon."

Qin Yuan looked at Chen Jixiang next to him and asked with firm eyes.

"Boy, can you swim?"

Chen Jixiang knew Qin Yuan's next plan when he heard what he said. He thought about it for a long time before speaking out with trembling in his heart.

"To tell you the truth, I'm not a particularly good swimmer at all."

"If it does, it will, and if it doesn't, it won't."

What does not special mean?

It's already reached this point. Don't hide my situation anymore. Our situation will become very dangerous soon. If you don't tell me clearly, what should I do to you? "

He Chenguang added next to him.

"I know this kid is a novice at swimming.

He had just learned to swim, not long after.

It would be okay if he was in the shallow end of the swimming pool, but he would still be very panicked when he got to the deep end. This is what he meant. "

Qin Yuan, he can't believe it now and is also a little angry.

Looking at the boy Chen Jixiang next to him, he is really too courageous.

Obviously knowing that Pakistan is a country close to the sea, and they came here by boat this time, this kid can't swim, but he dared to come with them.

In the shallow end of the swimming pool, it is not a good swimmer, it is just a landlubber in the shallow end.

Now they have to swim in the sea, and they have to jump into the sea, and maybe even dive in it. This kid is not familiar with water at all, so jumping will not lead to death.

I originally thought that this kid could do everything, but Qin Yuan had already thought of a way out for himself, so he jumped down and hid in the sea for a while.

When people from Pakistan arrive, they probably won't find out.

Now this kid can't swim. If he goes into the sea, he probably won't be able to hold on for a minute. Then he will definitely be the first to reveal his secrets. Even if his secrets are not revealed, there is a risk that this kid will be drowned again.

If Qin Yuan brought him out safely, he must bring him back safely without making any mistakes. This was the bottom line Qin Yuan gave himself.

He could not allow such a mistake to happen. Seeing Chen Jixiang, Qin Yuan felt a little sad that this boy was scolded by him, and he couldn't bear it now.

"Brother Qin Yuan, I'm sorry, I lied to you about the skill of swimming.

I shouldn't have lied to you and made you misjudge the current situation.

It's all me who has caused you trouble. Don't think about me for a while. Whatever your original plan was, just go ahead and do it. Don't, because I have caused you trouble. I'm really too worried about you being like this.

When I think about today's situation, I will feel very guilty.

I don't want you to stop thinking about me because I'm putting you all in danger.

Let me fend for myself here alone.

Anyway, if our tasks can be achieved, I will be relieved.

If I really hurt you, I will not rest in peace even if I die. "

Jason looked at Chen Jixiang in front of him and felt that this child was quite pitiful.

"Forget it Qin Yuan, don't blame him, let's find other ways to throw this kid here at Tianwu Jue Ren Road Headquarters."

"It's okay Jason, you really don't have to think about it, I don't want to, because I will hurt everyone by myself!"

Qin Yuan looked at Chen Jixiang who was very disappointed and said.

"Let me tell you, you kid must not have any thoughts of giving up on yourself. We all came out together today, and you have to go back to me intact.

Even if you lied to me, so what? Do we really not care about your life? "

"Then what should we do now?

Efit and the others are busy moving these goods now. When they discover that these goods are missing the numbered arms, we will also be dead.

If we jump into the sea now, there is still a chance of survival.

Just do as you say and don't worry about me, I really don't care.

Moreover, it's not that I can't touch any water. I still have some skills. I just can't swim casually in the middle of the sea like you do. I can do a little bit of water.

If it really doesn't work, I'll just endure it, and I can always get through this period.

Moreover, if I have a chance, I can put my head out for a breath. There should be no problem. It is better than all of us waiting to die here.

This Effit is a madman. If he really catches us in a while, the consequences will be really disastrous.

I can't put everyone in such danger just because of me. Just listen to me.

Hurry, what was your original plan? "

Qin Yuan looked at this boy Chen Jixiang and felt guilty for the consequences of his lies.

He was also very distressed. He was the young man who was brought out by himself. How could he just watch him like this?

At this moment, Jason suddenly seemed to remember something.

"It's okay, Qin Yuan, you don't have to worry. There are a few diving suits in my room. Just give this boy Chen Jixiang to change into."

After hearing what Jason said, Chen Jixiang asked in retort.

"Then it shouldn't be too late now. If it's a diving suit, I'm afraid it's too late for us to change into it. It's also very dangerous."

Qin Yuan said to Chen Jixiang.

"If you keep on whining and whining, it will really be too late.

Now go to Jason's room. It's a mess outside. Effit is busy moving his own goods. He can't control us.

After you change into your diving suit in a while, don't worry about us and just jump into the water.

We will figure it out ourselves and find the opportunity when the time comes.

We'll meet up, we won't last long here.

The people in the underground cabin slowly ran out. The ship began to tilt and was slowly taking in water.

Effit is currently doing his best to ensure that his weapons are not soaked by water, so he has no time to take care of us. We only need to take care of ourselves.

Pakistan is a huge country and we must not be separated.

After a while, we will also jump into the sea, and we will meet in the sea.

Chen Jixiang, you go ahead and put on your diving suit and jump down. You kid doesn't understand water. If you don't have a diving suit, I'm afraid Effit won't need to take action, and you will be dead.

I brought you out alive and kicking, and there is absolutely no way I would put you in any danger. Fan Tianlei will not let me go when the time comes, and I will not let myself go.

Although you lied to me about this matter, I know it is excusable and you are unwilling to do so.

As your big brother, I understand you. Stop talking so much and quickly change into your diving suit. If you waste any more time, it will be too late. "

Chen Jixiang knew that it was very likely that he would be separated from Qin Yuan and the others after jumping into the sea first. Moreover, Qin Yuan and the others were still under Efit's control and had no way to escape.

For some reason, Chen Jixiang felt like he was parting from life or death. He was worried that he would never see these people again after he jumped.

Jason looked at Chen Jixiang. The boy was still reluctant to leave, so he ordered his men to take him down first.

"Akun!"

"What's wrong? Boss?"

"First take this kid to my room. There is a diving suit in the cabinet for him to change into!"

"Okay, I know!"

After saying that, Jason's men forcibly took the boy Chen Jixiang down and put him into a diving suit first.

It was not up to him to choose. At this time, let alone him, even Qin Yuan had no chance to choose.

Now is a critical moment, and they must obey Qin Yuan's command.

"Chen Jixiang!"

"arrive!"

"I, as the captain of the special forces, order you to go to the shipyard right now, put on your diving suit and jump into the sea right away!"

"Special Forces member Chen Jixiang, received!"

After saying that, Chen Jixiang was taken down by Jason's subordinate Akun with tears in his eyes.

Now, the only ones present were Jason, Qin Yuan, and He Chenguang, who looked at each other in confusion and were at a loss.

Jason smiled and looked at Qin Yuan.

"How's it going? You feel very excited when you come out with me for the first time. There will be more exciting things waiting for you later.

Let me tell you that in a short time, the water in this ship will submerge half of the ship. There is a hidden bomb system in it.

Once the ship is half flooded, the ordering system explodes.

We have to get out of here before the bomb system triggers an explosion signal. "

Qin Yuan watched as Jason told him swornly about the bomb system, and his eyes were full of firm belief. Qin Yuan only understood it at this moment.

It turns out that the real madman is not Effit, but Jason.

He was driven crazy by this guy Efit. It seemed that he not only hid the bomb system in the ship once, but that the bomb system followed Jason's ship all the time.

At any time and at any time, he has a feeling of being in a desperate situation.

It seems that for so many years, he has indeed lived in fear all the time, and even prepared things that could be given away to him at any time.

"Jason, are you crazy? Do you know how much this ship is worth? When did you install the bomb system?"

Jason smiled grimly.

"It doesn't matter to me how much he's worth now.

Only by saving our own lives can we make more money.

To tell you the truth, this bomb system has been installed on my ship. I may be caught by Old K and the others anytime and anywhere. If I are really caught by them, I will die with them.

Moreover, the wetsuits in my room are also for my brothers.

If they are really in danger and let them put on their diving suits and leave, I will blow up the ship and die with Effit and the others. If they refuse to let me go, I will die.

I can only do this. I have no choice. It's not that I'm crazy. I was forced into this state by them. "

After Qin Yuan heard what Jason said, he now felt very sorry for the man in front of him.

"So is there a control system for the bombs on this ship? When will it be cancelled?"

Jason shook his head expressionlessly.

"There is no possibility of canceling the bomb on this ship. As long as I am here, he will always follow us. He will be on this ship forever, and it is impossible to cancel it once it sets off."

Qin Yuan couldn't bear to see how far Jason had been forced by Efit and them.

"It turns out that the diving suits in your room are actually for brothers like you. Once you are in danger, you let them leave first, and then you and these guys die together.

So have you ever thought about your daughter? "

As soon as he reminded his daughter Jason, who was now silent and silent, Qin Yuan actually prepared a bomb system.

It's just that Qin Yuan doesn't plan to destroy the ship now because there are too many arms on the ship.

If this ship is blown up, it will definitely cause a huge explosion, which will definitely make international news. They will become famous.

Not to mention that this batch of arms has long been targeted by Norman Karim. If they were destroyed, Norman Karim would never let them go.

More importantly, this is the first time that Old K has shown up. Effit also told a lot of important information. Qin Yuan also plans to take this opportunity to collect evidence of underground arms trading.

This is something they have been investigating for a long time. If they can investigate this matter clearly by the way, it will really be a great achievement.

Qin Yuan didn't care whether he made great achievements or not.

He just wants to realize his self-worth, He only knows to let this, the one-click recycling system follow him all the time.

If you don't do something spectacular, you will really be wasting your cheating life.

Qin Yuan looked at Jason and said.

“Jason, don’t worry, this batch of arms cannot be destroyed now. We still have the last trump card, Norman Karim.

As long as Effit, they are determined not to let us go.

Norman Karim will definitely help us. At worst, we will cooperate with them.

However, the ship cannot be destroyed!

The munitions on the ship cannot be destroyed!

Once such a large amount of munitions explodes, disaster may occur for dozens or even hundreds of miles around. "

Chapter 1993: life and death confrontation

Qin Yuan, he now understands very well what Jason is thinking. It seems that he has already had the idea of dying with this Efit.

However, joining here seems to have saved him in the future, making him less pessimistic.

That's what He Chenguang said.

"Qin Yuan, are you really relieved that this boy Chen Jixiang dived into the sea alone?

He just said he couldn't swim, let alone dive.

What if we can't find him after we leave? It's not just us, but also people from Pakistan. What if the people from Pakistan caught him? "

"He Chenguang, you don't have to worry so much, I believe in this guy Chen Jixiang.

People say that Ji people have their own destiny. I believe he should have no problem. He can handle this problem well.

Moreover, the diving suit in Jason's room was specially prepared for their brother.

We don't need to worry about this, we believe in the quality of Jason's wetsuits. "

At this moment, Qin Yuan didn't know that their every move had already been watched carefully by people sent by Norman Karim on the shore.

Seeing that they were all under Efit's control, they didn't know what to do next, so everyone was very nervous and didn't know how to deal with it.

He Chenguang did not agree with Qin Yuan's idea now. If he jumped directly into the sea, the risk factor would be higher.

Jason looked at Qin Yuan and asked seriously.

"Are you ready first?"

At this moment, Efit slowly walked up to them.

"Now I have moved all the weapons off the ship!"

"So what? This is not something that has already been agreed upon. There is no need for you to show off to us so proudly. We have already discussed this matter and there is nothing worth showing off."

Efit walked to Qin Yuan and patted his face.

"Aren't you a pretty cool kid?"

I was smug to see that no one took it to heart, including me of course.

I have suffered from you more than once. If my superiors had not told me that I would not harm your life, I would have killed you today. "

Qin Yuan is not a good-tempered person. He was already very dissatisfied with Efit, this guy, and he said so many provocative and insulting words to himself.

Qin Yuan really can't understand it.

He took out a military dagger from his pocket.

At lightning speed, the dagger was pressed against Efit's neck.

Efit asked, trembling with fear.

"What are you going to do? I spared your life just now. You won't do anything excessive to me again. I tell you, although the arms have been completely transferred off the ship.

However, your ship is going to sink soon, and you still don't know what to do when you get back?

If you beg me, I can take you back.

If you kneel down, our previous affairs can be wiped out.

I don't care about anything and it just depends on your attitude? "

Qin Yuan sneered and said to Efit.

"Sometimes I really don't know whether it's your words that are faster, or my military dagger?

Why don't we give it a try?

I believe that even if you have a bomb controller in your hand, your throat will have been slit by this military dagger before you can press it.

Do you want to try this feeling? The feeling of gushing blood. "

Jason, although he was relieved to see Qin Yuan's behavior, he was also very worried about Qin Yuan. If Qin Yuan really did something excessive, none of them would be able to leave today.

What's more, we are now on the territory of Pakistan. If they are discovered by people here, the subsequent matters will be even more difficult to deal with.

"Qin Yuan, calm down. I know you hate this person in front of you. I hate him as much as you do, but he can't die now, and we can't kill him."

"Seeing Jason without him, this guy is already scared. I didn't expect you to be quite courageous."

"Let me tell you, Jason is not afraid. The reason why he pleads for you is because he still cares about the brotherly relationship with you."

He had never forgotten the fact that he had been helped by you in those early years.

Moreover, the friendship between you two has been mentioned to me more than once.

I didn't expect you to be so ungrateful. In order to please old K, you would frame him at all costs?

He also wants to make a fuss about his daughter. Do you know that family ties are the most important to him? He has nothing now, his wife is dead, and he only has one daughter left, and there is a congenital disease. heart disease.

You don't know all this, do you? After all, you used to be good brothers who shared weal and woe together. Now that he has left this organization, are you going to kill him?

I really can't understand that even a beast wouldn't kill my brother who we worked well with in the past.

You are worse than an animal!

If Jason hadn't been here, I would have killed you long ago, you know?

Although we are in Pakistan now, I also know that our every move is likely to be monitored by someone.

I'm not afraid that Old K will take revenge for you after I kill you.

However, you should also think about it yourself, even if you die, will Old K care?

What are you? You are just Old K, a dog he raised.

Do you think the owner will be sad if a dog dies?

What's more, you're not the only dog around him.

There are many people who are more loyal and capable than you. If you were really that powerful, you wouldn't have suffered three or five times at my hands.

I believe that your superiors are already very dissatisfied with you, so you don't dare to do anything excessive to us today.

You have to understand that you are under my control now and your life is in my hands.

I advise you to kneel down and beg me for mercy. If you kneel down and beg me for mercy, I will let you go today.

Otherwise, we will all perish together.

I know you are a madman, but I know you are a madman who does not want to die.

You don't want to die with us, so you are just here now.

However, I took this opportunity, and let me tell you, I am actually crazier than you.

Facing my brothers and the people I care about to protect myself, I would rather die with you than let you hurt them at all.

Have you thought about it now? If you kneel down and beg me for mercy now, I will let you go today.

Otherwise, the military dagger in my hand will not obey my command. It does not have eyes. "

While Qin Yuan frantically told about his dissatisfaction with Efit, he gently moved his wrist.

The sharp blade of this military dagger made a small cut on Efit's neck.

Efit gritted his teeth and looked at Jason.

"Jason, he just said it and helped you recall what happened when we were young. Since you know that I have helped you so much and I am your benefactor, why can't you beg for me? "

I know Qin Yuan is your good brother. You two have known each other for a short time by fate, but your relationship is very deep. As long as you say a word, he will definitely let me go. "

Jason glared, and Efit felt that this guy was becoming more and more shameless.

"If you really regarded me as a good brother, you wouldn't have threatened me with my daughter's life.

Let me do such a thing. Although I didn't know Qin Yuan before, I also know what happened to this batch of numbered arms? "

Jason accidentally let me know about the numbered weapons.

Although Efit was under control at the speed of his life, he still reacted very quickly.

"What did you say Jason?"

Qin Yuan also realized that Jason accidentally spilled the beans.

He told me about the numbered weapons, because Jason didn't know about it.

Jason also accidentally discovered that this batch of arms was numbered during the inspection. How serious this matter was, after he reported the matter to Qin Yuan, the two of them came up with a solution together.

Only then did he ask Fan Tianlei to help him solve this matter.

So far, none of them know about this and have not spoken out about it.

However, Jason was so excited just now that he accidentally spilled the beans, which made Qin Yuan a little panicked. Effit also seized on the loophole between the two of them.

"Jason, when did you know that? Some of these arms are numbered. How did you know?"

Why don't you tell your good brother me about such a big thing? "

Jason realized that after he let it slip, they were now at a disadvantage in front of Effit.

Efit, who had just been on psychological defense and was about to be pressed by Qin Yuan, now realizes that he can do it again.

He stuck out his tongue and licked his lips through gritted teeth, then nodded very angry.

"Qin Yuan, you can do it!"

"What does this have to do with me? I don't know what you are talking about about arms with my serial number."

"It's already happened now, are you still here pretending to be stupid with me?"

He accidentally let it slip just now. I really don't know Jason, you still treat me as a good brother and tell me on purpose, or if you want to tell us some secret. "

He Chenguang also realized that things were not good.

At this time, Efit discovered something important.

"That's not right!

What about that little follower who has been following you all this time? Why didn't I see him? Was he still here just now? "

Efit has discovered that Chen Jixiang is no longer here.

At this time, Qin Yuan was still holding the military dagger against Efit's neck.

"I told you not to move. Didn't you hear what I just said to you? If you want to kneel on the ground and beg me for mercy now, I will let you take responsibility, and the two of us will die together."

"Qin Yuan, don't be so ***** shameless. I was indeed scared by you just now. Now I realize that you are just a tiger. You are just scaring me. If you have the ability, you can kill me." My throat was slit.

Otherwise, we will all die together here today. Anyway, I have already transferred all the arms on the ship, and now it is just a few of us here.

After being discovered by people from Pakistan, what do you think they will think?

Moreover, you are now one less person. When the time comes, I will report to them that you came here smuggled in and brought weapons and ammunition.

No one can protect you then. "

After finishing speaking, Qin Yuan still refused to put down the dagger and pressed it against Efit's neck.

Seeing that the mood was becoming very tense, Qin Yuan also knew that the weapons had been transferred away by Efit.

There is no point in continuing the stalemate now. What they can do is to find an escape opportunity for themselves and everyone present as soon as possible.

Now the ship has begun to slowly fill with water. Thinking of what Jason just told him, once the water in the ship reaches a certain height, the ship will automatically explode.

Everything on the ship will be destroyed by then, including the people on the ship.

Now they are in a very dangerous situation and cannot hesitate any longer.

Seeing that Effit still refused to leave Qin Yuan, he planned to scare him.

"What kind of person am I, Qin Yuan? As a man of integrity, you should know very well that I am not afraid of you scaring me, and I am not afraid of dying together here.

If there is any problem later, I will slit your throat first and then talk about it. Although Fan Tianlei may not be able to save me, there is one person who can save me. "

"Who are you talking about? Is it my superior I just mentioned?"

"I don't even know who your superior is. How could I expect someone I don't know to protect me? What I can tell you is that it's Norman Karim. You should know him, right?"

"How could you possibly meet Norman Karim when you first came to Pakistan?

Did you hear it from Jason or did you find it somewhere? "

As he spoke, Effit turned his eyes to Jason next to him.

"You don't have to look at me like that, I didn't tell Norman Karim.

Moreover, I can tell you the truth from the bottom of my heart. He did know Norman Karim. This is the person you have always wanted to climb high, but others simply ignore you.

He admires Qin Yuan very much. I think he should have someone nearby who has been observing him.

If you dare to do anything excessive to us, he will definitely appear to help us. "

Efit laughed loudly after hearing Jason's words. He couldn't believe it at all.

"Just a bunch of you guys still want to contact Noman Karim?

And you use him to scare me, do you think I will believe it? Do you think I'm a fool? "

Chapter 1994: Just let me go, I can say anything

Qin Yuan knew that as soon as he told Efit about Norman Karim, he would definitely not believe it, because in his knowledge, he would never contact Norman Karim like this. A powerful person.

Efite stared at Qin Yuan with big eyes.

"You don't need to look at me like this, I'm not lying at all, nor am I trying to scare you. I've known Norman Karim for a long time.

You probably don't know, right?

Are you surprised that this person you have always dreamed of and wanted to cling to is actually someone I know? I tell you, you don't need anything else. This is a life of cheating. You don't need to understand.

People like you are just ordinary people who have been treating Lao K as a dog, but I am different from you. I am a human being, and I am an upright person.

Only people can be admired by others, dogs cannot.

For a dog like you, Old K will never take you seriously. You are still here feeling good about yourself, and you are still not caring about your own life and death because of him.

I really admire you so much! "

"Stop gossiping and making sarcastic remarks here. What do you admire about me?"

"I admire how proud you are of being a dog for others. I'm different from you. I'm born with a hard knee.

I have a tough life and will never learn to bend down. "

Qin Yuan looked at Effit plausibly while speaking these words to stimulate him.

Qin Yuan also knew very well that people like him had no dignity.

They have lived in the United States since childhood, where they were exploited and oppressed in various ways, including their boss, Lao K, who never regarded them as human beings.

In fact, sometimes people jokingly say that they are not as good as dogs.

But in their place, they all live worse than a dog.

Otherwise, Jason wouldn't have tried every possible means to escape.

Jason, looking at Efit now, had mixed feelings. Sometimes it was difficult for him to accept that his good brother in front of him had become like this inexplicably.

Jason was even a little soft-hearted now, with a hint of tenderness in his eyes as he looked at Qin Yuan.

"Qin Yuan, otherwise let's forget it.

We all know what the situation is so far. He will no longer be able to stay here, and he will die sooner or later. "

"Jason, you traitor, I think you are truly inferior to a dog. Your good brother is still here and keeps saying that I am a dog. Who are you?

If I were a dog, at least I would be loyal, but you are not even worse than a dog.

If you were really a dog, you would never betray your master.

Do you look back and see what you have done? I had to leave our organization because of a woman.

The boss has already been very tolerant of you. He has now told me that if you are willing to go back, he will still welcome you at all times.

Have you ever thought about how much the two of us have been through together?

I have always regarded you as my best brother. The reason why I treat you like this is just because I feel disappointed in you. The most unacceptable thing for me is betrayal.

But the one who betrayed me was my best brother. How could I not be disappointed? "

This kid Qin Yuan has already heard that this guy Efite is using the bitter trick now.

"Jason, please don't be soft-hearted, he is just lying to you now.

I can't see any brotherly love for you in his eyes. He is just using you. You don't need to get involved with him so much. "

"You guy, please don't destroy our brotherhood, okay?

If it weren't for you, maybe Jason would still go back with me. Our organization can provide him with the best environment, including medical treatment for his daughter.

This is what I promised him before! "

Qin Yuan sneered, looked at Efit and said.

"Did you promise him?

People like you often go back on your word, and it's not uncommon for lies to come out of your mouth.

On the contrary, if you can fulfill your responsibilities and what you have said, we will really be curious.

Jason, don't believe what he says. We have put your daughter in a safe place. No one will hurt her. Don't worry, as long as I am here.

I will never let anyone hurt your daughter. I regard you as my best brother, and your daughter is my daughter. "

At this moment, Jason's subordinate A Ming ran over.

"A Ming, why are you here?"

"Boss!"

A Ming, as he spoke, looked towards the underground cabin.

Jason, of course, knew what he was talking about, because the water in the underground cabin was gradually spreading and was about to reach a critical point.

Once this critical point is reached, the ship will be blown up.

But at such a desperate situation, Qin Yuan, with the military dagger in his hand, still pressed Efite's neck tightly and refused to let go.

The most important thing Qin Yuan grasped was that Efit was afraid of death.

The words he is saying now are all for his own survival instinct, not out of his emotions at all. This man no longer has his own emotions. He has been brainwashed and controlled by Old K.

He is no longer just a killing machine. The most terrifying thing about him is that he is a walking corpse. He has no thoughts of his own and will only do whatever his master tells him to do.

Originally, Qin Yuan had some sympathy for people like Efit, and felt that he was also controlled involuntarily, but now it seems that he was not involuntarily.

He agreed very much with the ideas that Old K had instilled in him, and even believed in them deeply.

On the contrary, I feel that they, decent gentlemen, should make room for themselves.

Efit's men came over one after another.

"The boss is not good!"

At this moment, Efit's neck was bent at a forty-five degree angle, trying to avoid the military dagger in Qin Yuan's hand.

Because he knew that this military dagger was so sharp that if it touched his throat even slightly, it would be cut immediately.

When the time comes, his blood will be splattered on the spot.

Seeing his men discovering his embarrassment, Efit was furious now.

But he must be cautious and careful to calm down, because he knows that if he loses his temper now, it can only be called incompetent rage.

He said to his men in a calm tone as much as possible.

"What time has it been now? Can you not be so surprised? Just tell me what happened. You see, there are still things I can't accept."

"Boss...I...we found it in the underground cabin..."

The subordinate swallowed the saliva hesitantly as he spoke. This feeling of being hesitant to speak makes even an impatient person feel very uncomfortable.

Qin Yuan rolled his eyes at this subordinate, still holding the military dagger tightly in his hand and refusing to let go.

Effit's lifeline was in his own hands, and he had to give Jason's brothers on the ship, as well as Chen Jixiang, whom he had just let go, a chance to escape.

Only if Effit himself gives up attacking them can they have a chance to survive. In fact, the bomb is not that terrible, and Jason cannot get such a powerful bomb.

The reason why he did this was to give his brother a chance to escape.

Otherwise, he would not have prepared so many diving suits for his brother.

Effit finally couldn't bear it anymore and shouted angrily.

"I'm not even nervous here. Why are you so nervous? Don't be so nagging. Just say it and let it go!"

"Boss! There is a bomb in the underground cabin!"

After hearing this, Efit immediately looked at Jason next to him in surprise.

"Are you **** crazy?"

Jason smiled.

"Yes, I have already told you that I am crazy!"

It's just that you don't believe it. Do you think I can't do such an extreme thing? Do you think I can give in to you step by step for the sake of my daughter?

I've had enough! I can tell you the truth, this bomb has always been on my boat and has never left it.

Ever since I escaped from the organization, I have made up my mind. If you find me, I will die with you. Don't you want to be a good brother with me?

Then we should do it. We cannot be born in the same year, the same month and the same day, but we can die in the same year, the same month and the same day.

This is the oath we made to each other when we became brothers. Have you forgotten it? You guy who can even forget your oaths, I really can't believe any of the promises you gave me. "

Effit is completely confused now. He knows that Qin Yuan will not attack him or hurt him, because he has too many clues, and Qin Yuan is reluctant to lose this clue.

So the most he could do was threaten himself with the dagger.

However, I never expected that Jason was a lunatic and he planted a bomb on the ship.

"Jason, calm down and disarm the bomb quickly.

Look, I don't want to do anything to you now. I have already agreed. As long as you transport the arms to Pakistan safely, I will let you leave the organization smoothly.

I'll go back and help you talk to Old K and ask him to let you go, and I'll help you bear the rest, including your daughter's medical expenses.

I can help you with anything, as long as you calm down and don't blow up the bomb, okay? "

Jason said to Effit with a smile.

"Thanks to you, you keep saying that you are my good brother, but in the end you don't understand me at all like Qin Yuan."

After listening to Jason's words, Effit seemed to have an ominous premonition.

"Jason, what do you mean by this? What do you mean I don't know you as well as he does?"

Qin Yuan said with a sneer.

"Because, I know better than you, who calls himself Jason's good brother, that once the bomb is activated, there will be no room for recovery. He is such a person who never looks back.

He usually seems to be nice and talkative, but in fact he is a very persistent person.

If you make him commit to something, he will never regret it. No matter whether it is life or death, even if there is only one way to die, or even if he goes to the eighteenth level of hell, he will never regret it.

Therefore, you should know that once this bomb is activated, there is no room for recovery.

All you can do now is leave here immediately.

I can also tell you that the principle of activating this bomb is the water level. As long as the water level reaches a certain height, the bomb will be activated.

I don't know exactly how long this bomb can be controlled. "

Effit, he is nervous, excited and scared now.

"Jason?"

He looked at Jason hard as he spoke.

"Stop talking so much, I can also tell you the truth that there is no room for regret."

"Are you ***** crazy? Do you know how many people are on board? What consequences will it cause in Pakistan if this bomb explodes? Do you know?"

"I am already a dying person, how could I care about these things.

Since you want to perish with me, then we will all perish together. "

"Jason, I beg you to let me go, you want to die and I don't want to die with you!"

"You are pestering me like this. Only if the two of us die together can you rest assured and achieve your goal. Don't you want to be a good brother with me? Then today is the best opportunity."

Qin Yuan listened to what Jason said. He knew that Jason was not really crazy. He was very calm now.

He was just scaring Efit.

Sure enough, it was Jason, who knew Efit better. Efit had been wet by Jason so much that he almost peed his pants. His legs were trembling and he couldn't stand still.

At this moment, a very critical moment.

Qin Yuan received a message on his mobile phone, which was from Chen Jixiang.

"I have jumped into the sea! Find a chance to meet again. Hope you are safe!"

Qin Yuan was relieved when he received this message.

"Efit, if you don't want to die so much, I will let you go, but you must promise us to leave here quickly with these arms of yours. I know that this batch of arms was not ordered by you. of.

This is an important task assigned to you by Old K, so you don't dare to discuss too much with us here now. You should be very worried that we will destroy your arms, right? "

Efit nodded crazily, even the hairstyle he cared about most was messed up.

"Yes, yes, yes, whatever you say first is right! Let me go immediately, I will promise you everything, I will take these people and leave quickly, and the rest of you should leave as well.

This guy Jason is crazy. He could blow us all up anytime and anywhere! "

Qin Yuan and Jason looked at each other, closed their eyes and nodded.

Qin Yuan slowly let go of the military dagger in his hand.

After Efit saw that the military dagger that threatened him had been released, he immediately straightened up, stood up straight, and breathed a sigh of relief.

Chapter 1995: They were all caught by Efit

After Qin Yuan put down the military dagger, Efit could stand up straight.

He can now slowly let go of the tension in his heart, knowing that Qin Yuan will not hurt him.

Seeing Qin Yuan relax, Jason also breathed a sigh of relief later, because he was also very scared just now and his nerves were in a very tense state. He was very worried that Qin Yuan would really kill Efit because of this matter. .

Now Efit is of great use value to them, even if they can't contact the boss directly behind him, that is, the old K behind Efit.

They can now also obtain some relevant information from him about this underground organization that buys and sells arms.

Jason looked at Efit and said with disdain.

"Efit, what do you think now? Qin Yuan just let you go once. I think you should express your gratitude to him. If it weren't for his mercy, I'm afraid you would have died without a burial place today. "

Effit watched Jason say so many words to him. He didn't say anything but silently took out a piece of chewing gum from his pocket and put it in his mouth.

This scene surprised Qin Yuan. He didn't expect that this guy was so perverted that his psychological quality could withstand such a strong level?

Facing such a sharp military dagger, he could still calmly take out gum and chew it in his mouth. Isn't he afraid of choking to death?

Qin Yuan rolled his eyes at Efit.

Efit chewed gum carelessly while looking at Qin Yuan and said.

"Qin Yuan, I'm really curious. You said that the two of us have known each other for such a long time and have fought against each other many times.

Every time, I can basically become your defeat.

I don't know why.

Before I met you, my life was a smooth road with no setbacks at all.

After meeting you, why did I become a loser inexplicably?

It's because we have different horoscopes, and you are born to defeat me.

Or is it for some other reason? Could it be that you, this kid, have a cheat on you? "

Qin Yuan, now he has a physiological reaction when he hears the word "plug-in".

Qin Yuan thought to himself, yes, I just have a plug-in, and I have a one-button recovery system. You guys have nothing, how can you compare with me?

Your failure is already doomed.

Even if I don't have this plug-in system that helps me gain all kinds of fancy abilities, can you still defeat me with your h IQ?

It seems that there is nothing wrong with saying that knowledge changes destiny.

Efit, this guy, just doesn't have much knowledge. If he had really gone to school, I'm afraid he wouldn't be in the same situation now.

Jason looked at Qin Yuan, they now knew they should hurry up.

Unexpectedly, at this moment, Effit suddenly clapped his hands.

Each of his men took Jason's men and **** Jason's men.

Just like bringing prisoners, they were escorted to Jason.

It was definitely impossible for Jason to see his men being caught and still remain indifferent. He was very angry and looked at Effit and said viciously.

"Efit, what are you doing? You already know that they are my good brothers, why do you still treat them like this? The grudge between the two of us is a matter between the two of us, why do you want to affect it? my buddy?"

Effit laughed.

"What you said to me, Jason, is the funniest joke I have ever encountered. You kept saying that you treat them as good brothers. You used to say that I was your best brother, so why don't you do it for me?" What have you done, apart from betrayal, what else have you done for me?"

"I beg you to figure out the cause and effect of the matter. I betrayed Old K. What does it have to do with you?"

Qin Yuan rolled his eyes.

"Jason, you don't understand. Didn't I just say it? Some dogs will really regard themselves as their masters over time. They think they can hold their heads high like their masters.

After all, they are still dogs, and in the eyes of their owners, they are dogs that can be discarded like garbage anytime, anywhere. "

"Qin Yuan, it's useless for you to tell me these things. I don't care about what you say now. These are topics about people being dogs. People say that the winner is the king and the loser is the bandit. We haven't clearly distinguished success or failure yet. You There is no need to draw conclusions for me temporarily.

In fact, isn't it clear enough now? These Jason's men were useless and were restrained by my men.

Just now, people were fighting for their lives, but now the situation has changed.

How about it? Qin Yuan? Do you think everything in front of you is incredible?

I would like to ask you to pat your face with your palm, so that you can feel for yourself whether this is reality or a dream.

If this is a dream, I'm afraid you still have a chance to survive.

But it's such a pity, now it's no longer a dream, now it's reality!

When you look back, I have caught all these stupid guys. They are all Jason's good brothers. Didn't Jason just say that?

We don't want to be born in the same year, same month, and same day, but we want to die in the same year, same month, and same day.

Since they both believe that they are each other's good brothers, it would be good for them to die on the same day.

To save you brothers from being too lonely down there, wouldn't it be a good choice to let these insignificant guys go down below to accompany you? Do you think I am very considerate? "

Qin Yuan can no longer make any trouble in his heart.

Because he has a one-button recovery system, which is a life-saving talisman for him.

It's like an immortal plug-in that no one can hurt forever. he. This is also the reason why Qin Yuan is so arrogant and dares to go anywhere to complete the mission.

It was as if he was trapped in the game's cyclical system. As long as he was killed, it would start again, and there would always be a chance for him to win.

Efit looked at Qin Yuan and was very angry at this dismissive look.

"Qin Yuan, come on, come on, look at my eyes carefully, are they filled with all kinds of business and hatred for you?

You are right. Before I met you, everything was going smoothly. Old K trusted me and was willing to leave everything to me. But after I met you, I started to become unlucky. I don't know. What kind of spell have you put on me?

Why am I so unlucky when I see you? If that's the case, I really have nothing to say.

However, you may not understand me as well as Jason. I am very stubborn and unconvinced by nature. No matter what special situation I encounter, I can solve it.

Just meeting you gave me a real headache, and I even got a migraine because of you.

Should you reimburse me some medical expenses? "

Jason looked at Efit's men. Each hand held a dagger, aiming at the heart of his men.

Jason is both at a loss and distressed now.

For a person like Jason, he would not be afraid even if a dagger was pointed at him. It was the last thing he could bear to do to his brothers and relatives.

Jason softened his tone and said to Effit.

"Effit, after all, we are good brothers. If you really hate me so much, you can attack me, kill me or kill me, it's up to you.

Please don't do anything to my brothers. Each of them has his own family. They are fathers, sons and husbands.

Originally, they followed me just to beg for a meal, but if they weren't desperate, who would be willing to do such a dangerous thing?

Don't you ever have any sympathy for them?

Don't you see the shadow of us in them?

At that time, we looked very timid and helpless. We relied on each other to get to where we are today.

I know you hate me for leaving the organization.

I hate that I betrayed our brotherhood, but I was helpless. We didn't know what the consequences would be if we didn't leave. "

After listening to Jason's words, Effit spit into the sea.

He spit out the chewing gum in his mouth into the sea.

"Jason, times have changed, what's the use of telling me this anymore?

In my heart, it's a betrayal of our friendship. Don't say these glorious and upright words to me.

If you hadn't met that woman in the first place, would you have left him willingly? The organization is indeed very good to us. Even if we are regarded as dogs, we are still the highest-level dogs.

When you meet that woman, you will focus on ***** over friends and have nothing to say. I cannot forgive this.

People say that brothers are like brothers and sisters, and women are like clothes. When clothes are torn, they can still be sewn, but how can the limbs be refurbished? "

After hearing what Efit said, Qin Yuan also sympathized with him. He is a person with extreme ideas, perhaps because he experienced these things when he was a child.

This led to some distortions in his heart. He no longer had any friends. He regarded fitness as his only friend and even his spiritual sustenance.

It can be seen now that in the organization, except for his superiors and subordinates, no one can regard him as his good friend.

Old K has always treated it like a dog, beating and scolding it at every turn.

Other people who are lower than him flatter him every day, but they are not sincere at all.

As for other people and those who rated themselves, they framed each other every day in order to show off their performance in front of old K.

It can be seen that Efit feels very empty and lonely in his heart. Ever since he was a child, the only one he has had his spiritual sustenance for is Jason.

Later, Jason met his wife and followed her without hesitation. Efit completely lost his spiritual sustenance. He has now become a person without any spiritual sustenance.

Such a person is very scary. He only knows polarization, either he is right or he is wrong, he either listens to his master's words or he opposes his master's words.

Therefore, Qin Yuan seemed to be slowly able to understand Efit.

However, what Qin Yuan doesn't quite understand is that Efit lacks emotional sustenance so much. Why doesn't he find a wife like Jason? Maybe with a woman by his side, he can really change his extreme self.

Qin Yuan feels that he should learn more about this matter in the future.

Suddenly, Qin Yuan seemed to have figured out something.

I see, it seems that this old K is really a master of animal training.

He treated all the people under him like beasts, making them listen to his words without allowing them any spiritual sustenance. But whoever has spiritual sustenance can truly become a person of flesh and blood.

Just like Jason, they have become a failed killer.

A real killer cannot have feelings. No matter what kind of feelings, family, friendship or love, they are not allowed to exist. They can only be their own killing machines.

Qin Yuan shook his head helplessly.

"Efit, I feel very pitiful about you now, do you know?"

Efit sneered.

"Huh~ Qin Yuan, please open your eyes wide and take a look, who of us is in the upper hand now? You think I'm pitiful, and I also feel pitiful for you. What's so pitiful about me? Do you know that I'm very popular every day? My boss, who drinks spicy food, still takes me seriously.

Yes, he will give me a lot of money when I complete the task. Do you know how much money is in my bank card? "

“What do you think your money can buy?”

“My money can buy anything.

Old K, told us that as long as you have money, you can buy anything you want, including women of course.

I will not be as stupid as Jason, who met a woman and left our organization with her. You see, he is living a life like a ghost or a ghost, and he will become a defeated enemy of mine.

What's the point of being called around by me now? If I was asked to live such a life, I would not choose it. I believe he should have regretted it. "

In fact, Qin Yuan had always been puzzled as to why Jason could successfully escape from Old K's organization.

Logically speaking, their organization should be very strict. Either they are alive and working for him here, and there is only a dead end if they want to leave here.

There must be other reasons besides his intelligence for Jason to escape.

Now Qin Yuan knew clearly that it was Old K who deliberately let Jason go.

I can't say that it was intentional. I can only say that when he left, he slightly added fuel to the flames, and there was a slight suspicion of letting go. There was no real nature, and he died.

Because Qin Yuan saw everything clearly.

Old K has long discovered that the brotherhood between Efit and Jason is under his control, but there cannot be any emotion and can only be a walking corpse.

You just have to listen to what he says. You are not allowed to have your own thoughts, let alone your own feelings and social interactions.

Chapter 1996: Qin Yuan's hidden language ability

Qin Yuan sees that they are all at a disadvantage now and has no way to save these innocent people. What can he do?

He could only simply think about how to get out of the current predicament.

Qin Yuan knew in his heart that it was impossible for Efit to hurt him now.

Because Efit's superiors, who they didn't know, had given him a death order and they must not harm him, but they had not told Efit that Chen Jixiang and He Chenguang were not allowed to be harmed.

Now, some of Efit's doubts about He Chenguang have disappeared.

He felt that He Chenguang was also innocent. If he and Efit were really together, it would be impossible for the two of them to treat him like this.

Thinking about it, Efit would not be so stupid and go to He Chenguang to cooperate.

At this time Jason looked at Qin Yuan and said.

"Qin Yuan, although we haven't known each other for long, I already regard you as my best friend and brother.

Today... I'm afraid we can't be born in the same year, the same month and the same day, we can only die in the same year, the same month and the same day. "

Jason clearly had some thoughts of giving up on himself.

Qin Yuan absolutely cannot see him like this.

"Jason, how can you be so stupid? Are you going to give up now?"

"I'm sorry, Qin Yuan, I have no way not to give up. You also know that I am a stubborn person. For such a long time, I have never refused to admit defeat, and I know what I lack.

Just because I'm not afraid of death, I installed bombs on my ship.

I am prepared, it can even be said that I am always prepared. If Effit dares to hurt my good brother or my family in front of me one day, I will die with him. "

Qin Yuan, he looked at Jason crazily and said.

"But don't misunderstand us. We haven't lost yet. He just caught your brothers. I believe he won't hurt your brothers."

Effit said with a smile after hearing Qin Yuan's words.

"Why, do you think you know me very well now? I can tell you that if you don't let me hurt you, then I will hurt you anyway. This group of people is of no use.

Each of them follows his boss but can't help his boss solve his problems. What's the point of living? Even if they lose their lives, they are still wasting their lives. "

After finishing, Effit looked back at his men. His green men received the signal, picked up the dagger and stabbed Jason, one of his men, in the heart.

Blood spurted out immediately, and Jason's men splattered with blood on the spot.

Jason looked at his men crazily. He couldn't accept being in such a situation.

"Effit, what are you doing? How can you kill someone? This is in Pakistan? You... you are simply a madman. If you want to do something, don't hurt my brother.

Come and kill me, I don't want to live anymore anyway. "

As Jason spoke, he raised his neck, exposing his Adam's apple, as if he was stretching his neck and waiting to be slaughtered.

Effit looked at Jason, then slowly walked to his side, touched his neck and pinched him hard.

Jason didn't react at all.

Qin Yuan looked at Jason, as if he had given up on himself, so he immediately stood up to stop him.

"Jason, I know you are very sad, but no matter how sad you are, you can't give up on yourself!

Do we just give up in front of bad people?

This is not the you I know. If you don't avenge your good brother, then you let me underestimate you. Your brother has died so miserably, are you still watching him die with eyes open?

He died for you. If you really regard him as a good brother, you should avenge him.

Don't think about the rest of the things. It has nothing to do with us. All we need to do is find an opportunity to get revenge on this guy.

He has already killed one of our lives, what if he continues to hurt others?

We cannot just admit defeat. If we do, others will die.

If you fight him hard, there may be a chance of survival.

If you are really waiting to wash your neck and wait for death, then you are not my good brother. I don't have such a cowardly brother. "

Qin Yuan knew very well that Jason was a kind-hearted person, and he would definitely not be able to bear it when he saw such a situation.

So many good brothers watched it being killed one by one with blood splattered on the spot.

These are all good brothers who talk and laugh with him all the time.

Efit looked at Qin Yuan's righteous words and found them very funny.

It's like hearing a joke.

He paused, then whistled and said to Qin Yuan.

"Qin Yuan, this is the situation now, why don't you admit defeat?

I think if you kneel down and beg me for mercy, maybe I will let these guys go.

Jason, his knees are weak and of no use to me anymore. I just want to see you kneel down for me, just like I did just now. "

How could Qin Yuan know me with Efit? He glanced at Efit, then rolled his eyes and said.

"Efit, is this the first day you met me?

How could I kneel down to you? People like me would rather bend than bend. You should know my character very well. Even if I die together with you today, I will never kneel down to you.

If you want me to kneel down for you, then you should come over and demonstrate again. My memory is not very good, and I have forgotten what you looked like just now.

Maybe I just remember that you just knelt in front of me like a dog, and I pressed a military dagger on your neck. "

Efit walked up to Jason and patted his face.

"We've already reached this situation. You still haven't forgotten it. You don't kneel down to me and beg for mercy. Instead, you treat me as a bully and casually insult me."

"You guys have lost your self-esteem a long time ago. What can I do if I just insult you?"

After finishing speaking, Jason spat in Effit's face.

Efit bit his lip, full of hatred, wiped the saliva on his face, and then turned back to speak to these guys.

"You should have seen that I gave your boss a chance to take care of you, but you boss didn't know how to cherish it.

Even if you die in a while, remember to go find him, don't come to me.

On the road to hell, you have figured out who harmed you! "

After saying that, he was ready to attack these people first.

It happened that people from Pakistan came over at this time.

It seems that a group of people were patrolling here. After discovering the movement on the ship, they walked nearby.

When they saw Efit kidnapping these people, they immediately shouted on the shore.

"What are you guys doing sneaking around here?

The ships have already docked, why haven't they gotten off yet? What are you doing? Where did you come from? Do you have any documents? "

As the Pakistani people spoke, they pointed their guns at everyone.

Effit said something.

"You dogs from Pakistan, get as far away from me as possible and don't dirty my place. Who am I? Why don't you open your eyes and take a good look?

You have the nerve to ask me here how much money I will contribute to you every year. Don't you know how much money I have to contribute to you?

It is impossible to accept my things and still want to bully me here.

If you dare to bully me, Efit, you will only die. "

Jason travels to Pakistan many times every year, so he can naturally understand the Pakistani language.

He thought Qin Yuan couldn't understand the local language when he came here for the first time, so he looked at Qin Yuan blankly.

Who would have thought that Qin Yuan had already used the one-click recovery system to give himself the ability to communicate fluently in the Pakistani language.

Qin Yuan discovered that Efit seemed to be a little afraid of these people from Pakistan.

Therefore, Qin Yuan deliberately provoked Efit.

"Since my friends from Pakistan ask you well-meaningly what you are doing here, why don't you tell them directly? What are you busy with?

There is nothing worth hiding, tell them quickly. If you don't tell them, they should be able to see clearly when they come up.

What exactly is on this boat? When the time comes, all these things on your boat will be confiscated. I'll see how you go back and explain to your boss, Old K.

Efit thought Qin Yuan couldn't understand the Pakistani language at all?

He said nothing, looked at Qin Yuan and sneered, and then began to mock him.

"Qin Yuan, what are you talking about? When you talk about the needs of our country H, our friends in Pakistan can't understand it at all. You should speak the language of Pakistan to them.

How can anyone help you if they don't understand you? Think about it, you are really ridiculous. Why don't you pack up and go back quickly? Don't make trouble for us here. "

Qin Yuan secretly rejoiced, first thinking that this guy Efit still didn't know that he could speak the Pakistani language.

The Pakistanis on the shore were still pointing guns at them all.

Seeing this situation, Qin Yuan was still very confused. He felt that these Ba people should have been taken care of by Efit, so why were they still making things difficult for him here?

Could it be that the distance was too far and they couldn't see clearly that the person opposite was Efit?

Probably not. Their eyes shouldn't be that bad. If their eyes were really that bad, they wouldn't be able to perform such a task in the army.

There is also a possibility that this group of people don't know Efit at all. If this is the case, it is very likely that it will be businesslike.

Or this group of people, Noman Karim's people.

At this critical moment, He Chenguang said.

"Efit, you should be able to tell by now that these people on the shore don't know you at all. If you don't leave here quickly, they will regret it soon, and you will suffer."

When Qin Yuan was wondering, at this critical juncture, what He Chenguang said couldn't help but make Qin Yuan suspicious.

This suspicion is justified.

"He Chenguang, what's the use of telling Efite this at this time? Are you reminding him? Or are you conveying some kind of information to him that we don't know? Isn't it convenient for you to tell us?"

After He Chenguang heard Qin Yuan's words, he was a little angry now.

"Qin Yuan, please open your eyes and take a look. What time is it now? Why do you still doubt me like this? Is the relationship between the two of us so untrustworthy?"

Efit was also very nervous now, because he seemed to have been able to tell that some of the Pakistanis on the shore didn't like him.

"Who are you? What's the purpose of coming here? Are you smuggled here? What are these goods on your ship?"

Although the other party spoke in Pakistani, Effit could understand every word.

At this critical moment, Qin Yuan immediately shouted to the shore.

"Pakistan people! We all came here smuggled here, and these are our smuggled goods on the boat. Do you want to come up and take a look?"

The guy next to him is called Efit, and he specializes in transporting arms.

If you come here and discover these munitions, I believe it will be a great achievement for you. By then you will have made great achievements, and the benefits you can get are countless, much more than what Effit has given you. "

"What are you talking about?"

Qin Yuan just communicated with these people in the H language. Of course, these people couldn't understand what he was talking about. Efit thought Qin Yuan really couldn't speak the Ba language.

Later, faced with the Pakistani people's questions, Effit laughed.

"Qin Yuan, you don't even speak the language here, aren't you going to die when you come here?"

When someone sells you, you will still have to help them count their money. I advise you to listen to me honestly. When the time comes, after I have finished using you, I will sell you to the park.

There should be people who will treat you well there. I believe that the park will not treat you badly. It is a good place. When the time comes, you will go there specifically to commit fraud.

What a career this is for you! "

Qin Yuan, I was thinking that you will be in trouble soon, but you still have the nerve to say these things to me here. Who will go to the park to commit fraud in the future?

Qin Yuan looked at Jason and asked.

"How are you feeling now? Are you feeling better?"

"Qin Yuan, one of my brothers has died. I can't get out of here today. If you want to leave here, I won't stop you. I'm willing to exchange my life with you.

As long as you catch me, Effit shouldn't make it too difficult for you.

I have sworn to my brothers that if we die, we must die together. I will not let down their brotherly love. "

Chapter 1997: Attracting Pakistani patrols

Qin Yuan now knows very well that he can no longer persist, let alone waste time here.

Because, the longer Effit is delayed, the more powerful his ability will be. This is a very bad thing for them now. Only when they are completely defeated can Effit continue. One step planning.

Although Effit had just killed one of Jason's men, there was nothing he could do about it. What would happen if it fell into his hands?

Qin Yuan looked at Jason's very disappointed look. He seemed to have lost his survival instinct.

Seeing the current situation, Qin Yuan shook his head helplessly.

"Jason, can you be stronger and don't let me underestimate you? When I knew you, you were much braver than you are now.

Are you about to give up now when you encounter a little difficulty?

This is not the you I know, you shouldn't do this, we should seize the opportunity again and don't let them underestimate you.

You don't know that when you are weaker, the difficulties will become stronger. I hope you can be strong and don't let Effit look down on you. He took advantage of these good brothers just because he caught your weakness. to humiliate you. "

After Jason's men heard Qin Yuan's words, they hurriedly said next to him.

"Boss, I think Qin Yuan is right. You must not be as weak as him. If you are really so weak, then our brother's sacrifice just now was in vain.

He did die for you, but don't forget who hurt him. You should avenge him instead of doubting yourself.

You must never forget that you still have your daughter to take care of.

If you really died today on the same year, month and day as us, then we really have no way to save you.

I know we haven't seen anyone here for a long time.

No one can come to save us. The only one who can save us is ourselves.

Boss, please stand up quickly and don't let us disappoint you, okay? Don't kneel down. Our knees are the hardest. We can kneel to the sky and the ground. Why should we kneel to this guy Efit? "

A Kun and A Ming looked at each other and quickly said to Qin Yuan.

"Qin Yuan, we know that when you first came to the ship, many of us didn't like you and many brothers did some rude things to you, but I hope you don't hold grudges.

From now on, the boss will be left to you, and we brothers may not be able to accompany him out of here.

Boss, don't commit to the promise we made. You must die with us on the same day. Only if you live can you have hope. If we can survive, we can avenge our brothers who just died together.

If we all die here today, I also hope that you, boss, can survive. For us and with our hope, surviving is the best thing.

This is the real brother, we don't want to die with you! "

Qin Yuan looked at Jason, who looked so weak now, and quickly walked to him and slapped Jason hard in the face.

He Chenguang was stunned when he saw the situation in front of him. He had never seen Qin Yuan like this before.

"Qin Yuan, what are you doing?"

"He Chenguang, please don't worry about the guy in front of me. He is already asleep. He doesn't know what he is doing or what he should do. He sees that his brother is dead, but there is nothing he can do. .

The Jason I know is not like this. He should face difficulties, be brave in challenges, and refuse to admit defeat.

Isn't it because the Efit in front of me doesn't have anything to be afraid of? I've never been afraid of him. "

At this time, Effit said casually.

"Qin Yuan, I know you are not afraid of me, but I have a reason why you are not afraid, because the kid next to you is no longer with you for the time being, that guy named Chen Jixiang.

I know you treat him as your own brother, but unfortunately he left here suddenly. This guy runs very fast. If I catch him, I will kill him first. Got him. "

Qin Yuan knew that as long as Chen Jixiang left here, he could do what he wanted to do without any worries.

As Efit lay there, he was so angry that he gritted his teeth and tried to get him but there was nothing he could do. Qin Yuan also felt secretly happy.

Because he still has a trump card in his hand, which is the Pakistani troops on the shore.

These guys, with guns in hand, were patrolling around here. They should have discovered anything dangerous, and they chose to kill them immediately.

And what made Qin Yuan feel very puzzled was that this group of people was not ordered by Efit.

According to common sense, if people like Efit often travel between Pakistan and Pakistan, they must have gotten through to all the people here, and it is impossible for them to raise weapons against him.

It was obvious to these people that even if they knew her, they would not be merciful to him. It seems that this group of people will definitely not be the people Efit has bribed.

The reason why Efit has not attacked them now is because Qin Yuan and the others still have value.

They can be used to carry out some transactions. What's more important is that his subordinates and superiors have given clear instructions to Efit that they are valuable. This is Qin Yuan's invisible protective talisman.

Qin Yuan knew very well that as long as he stimulated Effit now, he would definitely not be able to bear it. This person's psychology is very fragile.

So, Qin Yuan looked at Efit, then smiled and said.

"Weren't you very powerful just now? Why didn't you continue to attack us? Didn't you laugh at me for not knowing the Pakistani language?"

"How about I just laugh at you? I have arrested you all now. I can do it whenever I want. What can you do to me?"

Now you who are captured by me are my knives, and you are my flesh and blood.

The knife is already on your neck. I can strike whenever I want.

Have you never seen a cat catching a mouse? Usually after playing, when they have had enough and are tired of playing, they will be killed and eaten. "

Qin Yuan knew that Efit actually said such words, which meant that his psychological defense had collapsed. Once this person's psychological defense collapsed, he would start to say such incompetent and angry words.

Qin Yuan smiled and thought to himself that you are right, it is indeed the case, but now you are the mouse and I am the cat playing with you.

Seeing you like this makes me feel even better.

Qin Yuan, what he is most worried about now is Chen Jixiang.

When Effit brought these Jason's men up just now, Qin Yuan was very panicked, because Chen Jixiang was brought out by these people, and he didn't know if he was in the team.

If he is no longer here, it means he escaped successfully.

However, this kid didn't understand water. If something went wrong with the diving suit, he would be in even greater danger. Qin Yuan knew he shouldn't waste any more time.

So, he quickly looked at Jason and asked.

"Jason, your men have just told you so much, do you still think you should continue to be weak?"

At this time, Jason smiled and said to Qin Yuan while also looking at Efit next to him.

"Don't look at me like that. We turned out to be good brothers today. I can't let you go now, including your subordinates. I will send you down together today, and you won't be alone when you go down. Look at our past For the sake of being a good brother.

I'll start faster in a while and won't make you suffer so much. "

Jason looked at Efit and couldn't help but keep smiling at Efit. He felt a little scared in his heart.

Qin Yuan saw Jason's reaction and knew that he was not someone willing to admit defeat. He was already preparing to take action.

"Efit, haven't you noticed why we haven't been panicking all this time? Because there are still bombs on the ship. Didn't I just tell you that the bombs on the ship are customized according to the water level.

Once the water level reaches a certain height, the bombs on the ship will be activated, and there will be no room for return. You should know my character very well. I will not lie to you at all. The reason why I have nothing to do with you now conflict.

It's because I feel that we will all be here soon, so why waste our time arguing with each other?

Why don't we quietly enjoy this moment of tranquility? After a while, we are all going to die together anyway. You don't have to be so anxious. Not only are my brothers accompanying me, but you are also accompanying me. "

In fact, Qin Yuan was also very surprised. According to Jason, the water level was about to reach the critical point soon, but they still didn't have any reaction. He didn't know why Qin Yuan didn't feel panic in his heart.

It's a sixth sense, or maybe it's a feeling like this. Anyway, Qin Yuan, he is now looking at the patrolling people from Ba State unhurriedly.

Now that Qin Yuan had felt it and Jason was ready, he began to shout what he just said to the people of Ba on the shore.

Efit couldn't help but laugh at Qin Yuan's strange and useless behavior.

"Are you this guy at the end of your rope? There is no way you can deal with me anymore?"

Let me tell you, I just told them in a language they can understand that there is a bomb on this ship, and they are all very greedy and afraid of death and dare not come up.

If we are really going to die together, I'm not afraid. Don't lie to me here. If there was really a bomb on the ship, it would have exploded long ago, or you would have already panicked.

Seeing how calm you are now, I know that nothing is wrong with you.

The most important thing is that those guys are very afraid of death. They don't dare to come up. Don't expect them to come to save you. This is impossible. As long as I am here, no one will dare to come up. "

Qin Yuan couldn't help but laugh at Efit's arrogant look.

"Efit, sometimes you are indeed a smart guy, but sometimes you are really stupid. How can you be sure that I won't say what you said here? I just lied to you, and I did it on purpose. ."

"Really? If you can really understand the language here, then say a few words and let me listen. Don't treat me like a fool. I'm not that easy to deceive."

Although Qin Yuan was not sure what the situation was on the ship now, he had to ask the local patrols to come up and help them, because these people would definitely not help Efite.

So, Qin Yuan rushed to the shore and spoke to them in a language they could understand here.

"Everything I just told you is a lie. There is nothing on this ship, and if there really is an explosion on this ship, do you think you can escape such responsibility?

I believe you have heard of Noman Karim. I know him. He is a good friend of mine. If you don't want him to blame you then come up and help us.

Otherwise, once something unexpected happens here, you will definitely be left without food. All the goods and people we have here belong to Norman Karim. If you don't believe it, you can send someone to ask him now. . "

Effit heard that Qin Yuan could indeed speak their local language. He was stunned now and didn't know what to say.

He stood there blankly, looking at Qin Yuan.

"You! You can actually speak the local language. How is this possible? I once understood that it is impossible for you to speak the language here. This is something that will never happen.

When did you learn it? Do you have such a strong learning ability? In the past few days on the ship, I have learned the language here and can communicate with them smoothly. This is impossible.

You are indeed a liar, You just lied to me. "

Qin Yuan said proudly to Efite.

"What can I do even if I lie to you? You are too stupid. Didn't you just say that? We can't lie to you.

It's because you don't see it yourself. I would say that the language here is your own negligence. No matter what situation you encounter, you must be responsible for your own actions. "

Seeing that Qin Yuan was about to call the people patrolling the scene to the boat! Efit's men started to really panic.

"Boss, Old K, once told us not to cause trouble locally and not to let them discover our goods. These goods are very hidden and it is impossible for Norman Karim to know about them. If we want to complete the boss's goal .

We must leave here quickly. You must waste time with them here. All our goods have obviously been moved away. Why do you want to hold on to these people? "

Chapter 1998: Unlock new languages and shock people

Efit was now extremely frightened. He knew that he had really underestimated Qin Yuan.

When Efit saw Qin Yuan's triumphant look, he couldn't bear it even more. Moreover, coupled with Jason next to him who was good at acting, the two of them had really deceived themselves enough.

At this moment, Efit spoke to Qin Yuan at the top of his lungs.

"You are simply a liar. You are the most powerful liar in the world. If you can successfully deceive me, it means that you are already very powerful. I really admire you."

Qin Yuan thought, "What's the use of wanting you to admire me? You should admire the one-click recovery system in my body."

If it weren't for this system, I'm afraid he would have been defeated by Efit a long time ago. Thinking of this, he was secretly rejoicing now. This was really an opportunity given to him by God. If he didn't take advantage of it, he would really be in trouble. It's a waste of natural resources.

Although, Jason knew that Qin Yuan was not a person to be manipulated by others, he would definitely think of many ways.

Including, he has his own opinions and solutions to this matter, but he thought of this.

Everyone still thinks Qin Yuan is a very cunning person, and even Jason himself is surprised.

When he was on the boat, he never told himself that he could speak Pakistani language.

"Qin Yuan, you are really a powerful person.

Even I didn't see it, but you really surprised us when we were on the ship.

At that time, you carefully told us that you felt guilty because of this incident, and felt that coming here because you could not speak the languages of so many countries seemed to have affected everyone.

We didn't expect you, it really surprised us. If we had such an opportunity and knew that you knew so many languages, I wouldn't worry about you.

I don't mean to blame you when I say this. I just think that if you have already made a mental plan, you should tell me in advance.

Lest I worry about you in vain, I thought you were really desperate. I also encouraged myself that there will be a road when the car reaches the mountain, and the boat will go straight when it reaches the bridge.

Unexpectedly, this time, I turned into a fool.

Because there are too many people involved in this matter. If I don't plan it carefully.

It seems like I feel like a fool. If you don't even tell me, do you think you don't treat me as a good friend? "

Qin Yuan looked at Jason and seemed to blame himself, and he didn't know how to explain it.

He couldn't tell Jason that there was a system in his body.

This is a huge secret. Except for Qin Yuan himself, he has not told anyone else, and it is impossible for anyone to know it. If more people know it, it will only implicate himself more.

At this moment, He Chenguang also felt surprised. He saw Qin Yuan being able to speak the Pakistani language fluently.

He felt very excited, surprised, and nervous at the same time. He didn't know how to deal with the problem at hand. Thinking of He Chenguang, he excitedly said to Qin Yuan.

"You kid can do it. You worked so hard to deceive me. I thought you were really at a loss because of this!

I didn't expect that you were so good and solved this problem so quickly, which really surprised me.

If there is a chance, I will definitely find you again.

It seems that I really don't regret coming with you. Being with you makes me feel particularly confident. "

"He Chenguang, don't say these polite words to me. It's useless. I've hinted to you more than once, you have to believe me.

But you have never believed it. I don't know if you don't regard me as a brother or for some other reason.

Anyway, since this is the time, let's not be here. Let's quickly figure out our next plan. "

After He Chenguang heard this, he now felt very ashamed. He had indeed doubted Qin Yuan more than once.

I had doubts about the relationship between the two of them, but after such a long time, I can still handle the relationship between the two of them more harmoniously in the future. This is the most important thing, isn't it?

"Qin Yuan, let's not talk so much for now. These people patrolling the shore will be coming soon. You should think carefully about what we have to do.

How to explain to him the arms on the ship? And our identity. "

At this time, Qin Yuan looked at Jason and said.

"Let's not think about it so much now. I believe in Jason. He should have a way to help us solve the problem at hand."

After listening to Qin Yuan's words, He Chenguang also turned his head and glanced at Jason.

Then he said to Jason.

"Do you already have a plan for this matter? Then why don't you explain it to us? I also know that this matter is very dangerous for us.

If you are willing, then let's discuss again, how should we deal with this guy in front of us?

Efit and you used to be brothers, and you both listened to old K. We already know this. We have never doubted the relationship between you two. You also tricked us more than once on the ship.

If you really have any conscience, please give us some advice quickly. You should be familiar with these guys on the shore. "

Jason turned to look at Efit and said.

"Efit, the relationship between the two of us has been feuding for so many years. You can do whatever you want to me. Qin Yuan has nothing to do with our matter, and you put numbered munitions on the ship.

He knows about this matter and will not settle the score with you in the future. You will just give in to each other and settle the matter, so as not to leave any excuses for the other party.

I think this is really unnecessary. If you really want to continue to struggle here, you won't know what to do when the Pakistani patrols come up.

I know that this batch of arms on the ship is what Old K wants.

Old K has been doing business in this area for a long time. We all know what kind of temper he has. If you want him to find out, you secretly include a numbered part in his arms.

What's more important is that these numbered ones are from country H, the United States and country H. There has always been a conflict between the two of them, and it has never changed for so many years.

We all know Old K, he is very powerful in the United States.

There is no doubt about this, and there must be someone behind him supporting him. I believe you have never doubted this. If this is the case, why can't you think about it carefully? "

"Consider? Then what do you think I should consider? Do you want to threaten me with bringing me numbered munitions? I have already told you that I am not afraid of anything at all. I am barefoot now. I'm not afraid of wearing shoes anymore.

And I have just killed one of your brothers. Based on what I know about you, either you will die with me, or you will kill me. I know this very well, and I will deliberately stand against you. "

When Qin Yuan listened to Efit's words, he felt that this person had become completely abnormal now, and his feelings for Jason were approaching the point of hatred.

I really don't know why two good brothers would end up like this? Is it because the relationship between the two of them has become very delicate now? It was Efit who couldn't believe it.

And this person is now very close to a pervert.

He Chenguang looked at Efit and said with confusion.

"Why do you still do this now that you know the consequences? Didn't you keep saying that you and Jason are good brothers? You two had a consensus under Old K before, and you also relied on each other and supported each other.

Just because he got married, gave birth to a child and started a family, and is not in the same organization as you, do you have to treat him like this? And the brothers around him are also innocent. Why do you have to do this?

I really don't know what your brain circuit is thinking, and you included numbered weapons in this batch of weapons. What do you want to do? You are clearly not just targeting Jason, you are also targeting Qin Yuan, right? "

Efit said with a sneer.

"That's right, this batch of numbered arms is what I used to frame him, so what?

I have already told you about this matter. There is no important topic for me. I just want to use this batch of arms to do it. What can he do? "

"Then why don't you tell me about this batch of arms with my serial numbers? Where did they come from?"

Efit laughed like a fool after hearing what He Chenguang said.

"Can you stop smiling so silly? I'm asking you a serious question."

"Please, it's not that I'm laughing so stupidly, it's that I'm laughing at you. You are all fools. How could I tell you to take this kind of thing? Qin Yuan has asked you many times just now. What I won't say is that I will die." Now, I want you to take this secret with you.

Aren't you awesome? Are you good at investigating? If that's the case, if you want to know the result, just go find it yourself. Why do you ask me? I've told you this more than once.

Since the number above is related to your unit, you should also know very well that there is a spy in your unit, and you have been trying to catch him but have not caught him. "

When Qin Yuan heard this, he clenched his fists and finally heard some useful information for him.

"Efit, if you say so, did this spy in our country H army tell you that he knew you?"

In fact, even if Qin Yuan didn't ask, he already knew the answer very well in his heart.

Qin Yuan knew very well that there was something wrong with them, especially among the top officials, there was someone else's spy, but he was not sure whether the spy was from the United States or other countries.

After all, country H is now becoming more and more powerful in the international arena, and many people want to deal with it.

It is not easy to defeat this group of people now, so they are trying every possible means to plant moths in their troops.

This is something Qin Yuan finds very disgusting.

Qin Yuan had to recall that the reason why he had to join this group in the first place was because he didn't want to see these people causing trouble here.

Qin Yuan actually had a military dream since he was a child.

He hopes to become a member of these iron-blooded armies.

Later, by chance, he gained the ability to recycle with one click.

It is because of this ability that he was able to go through all the obstacles and get to the wrong place like a cheater in life, and all the leaders favored him.

Even a veteran like Fan Tianlei can be so respectful when facing him.

Thinking of this, Qin Yuan felt secretly happy. If it weren't for the cheating system behind him, he wouldn't have been able to defeat Efit every time. Efit had now turned into a morbid lunatic.

At this moment, Efit suddenly saw Qin Yuan and seemed to be secretly happy.

"What are you laughing at? Do you think I have lost to you?"

"Otherwise? If you didn't lose, what are you doing kneeling on the ground now? Now I can remind you that these people patrolling the shore will be coming soon. If they come and see you, what do you think will be the consequences? "

After Efit heard Qin Yuan's words, he was very nervous now, but in order to protect his face, he still pretended not to care.

he said nonchalantly.

"So what? Let me tell you, you don't think it's my first day on this road.

When you were still unknown and you didn't know where you were, I had already become the boss of the United States, Old K, and the most capable subordinate. At that time, Jason and I were a double kill.

No matter where we go, no matter what task Lao K gives us, both of us can complete it. "

Qin Yuan rolled his eyes when he heard Efit continue to play here.

"What's wrong? Don't you believe what I say?"

"It's not that I don't believe what you said, I just think what you said is useless.

What you said has happened in the past. Don't you just want to show me that you have always been in Pakistan and that you have become familiar with the people here over the years? Even if you come up to patrol for a while, these people won't do anything to you.

I also know that they will definitely not do anything to you, because you have Lao K behind you.

As long as Old K remains alive for a day, you will not be in any danger. I am convinced of this and have never doubted it. "

"Then why are you still wasting time with me here? You are obviously people who smuggled over from country H.

You should be more afraid of facing these regular troops patrolling the shore! "

Chapter 1999: Patrol troop on board

Qin Yuan knows Efite. At this moment, he is very panicked. If he is not allowed to take this opportunity to quickly and completely fail, he is likely to hurt himself again.

Efite was staring at Qin Yuan now, seeing an indescribable feeling in his heart.

"What the **** is going on with you? You are really a master at lying, and you keep calling me a liar.

Unexpectedly, you are the biggest liar in the world.

You actually deceived us all over such a trivial matter. Do you think you are a good person?

Unexpectedly, you even lied to your own companions.

Jason, take a closer look. Does he regard you as a good brother?

If he really regarded you as a good brother, how could he not tell you anything and keep you in the dark like a fool.

Now follow me and face these realities with your own eyes. Thinking about the things you don't know, I feel so sad. You are really feeding the dog with your sincerity. "

He Chenguang looked at Efite. He walked up to Efite and kicked him **** the leg.

Everyone under Effit was under the control of Jason, the controller. They saw that their heads were being bullied, and they did not dare to let go of Jason's men without authorization.

He could only stay there and curse He Chenguang anxiously.

"You guy, can you stop bullying our boss here?

Now it's not certain who wins and who loses?

Don't think that you are anything great now.

In fact, you are just a group of losers, why are you still here feeling so complacent?

Didn't you see that Jason's men were controlled by us one by one?

What use can it be? Thinking of this, we feel that you guys are so pathetic that you can't even control your own lives.

Everything is in our own hands.

After a while, if our boss is happy, he may let you go. If our boss is unhappy, you will all die today.

The worst thing is, as our boss Efit said, it would be better if everyone died together, so why waste time here? I think you all don't want to die. If you don't want to die, then think of some ways to survive.

It's better than wasting time here. You have wasted such time, but we can't afford to waste it. It seems that you guys are also cowards and are afraid of death. "

Qin Yuan looked at Efit's subordinates who were still here and knew that Efit was actually very panicked before he could let his subordinates fart here.

"Efit, I advise you to leave here quickly. Otherwise, when these patrols from Pakistan come up later, how are you going to explain these arms?"

Efit is now a dead pig and is not afraid of being scalded by boiling water. After hearing what Qin Yuan said, not only was he not anxious, but he said proudly.

"You don't have to scare me here!

Didn't I tell you everything just now? Some of the arms on the ship are numbered. What does the numbered arms mean? You should know it better than anyone else.

Moreover, it is the Pakistani country that has personally seized the arms with the H country number. You people should be worried the most. After catching it, you will be dead. What does it have to do with me. "

Effit is going crazy now. What he is thinking is that since they have been discovered by Qin Yuan, it means that there is something very wrong with them.

But now, he really ignored a very important clue, that is, since there are numbered munitions on the ship, how dare Qin Yuan? Are these Pakistani people patrolling the shore called over?

Jason is a smart man, and he immediately realized that Effit has become a fool now. If he doesn't leave quickly and is discovered by the Pakistanis, it will be really bad.

Qin Yuan looked at Efit and thought to himself that it would be best if you didn't leave.

Only if you stay here can we have evidence to prove what's wrong with you? Now I'm afraid that he won't dare to persist here.

"What are you thinking now? If you can leave here, we can all give you a way to survive. Why do you have to persist here?

We all know what this batch of arms means to you.

If you don't leave quickly and are discovered by them, I believe it should be clear how Old K will treat you and how strict your family laws are.

I won't be prepared to die with everyone just because of this little thing.

Efit is also a smart person. If you want to leave, just leave quickly. We all take a step back for a while. After they come up, we can explain it to you, but the grudges between the two of us will be wiped out.

Stop making things difficult for each other, it doesn't make any sense.

In fact, we are all victims. We have all been tricked by Old K. You know that you are a victim and still help her. Are you stupid? "

Efit knew that Jason said this because he wanted him to write off the past and stop making things difficult for each other.

In fact, Jason didn't have any other ideas. He just wanted to leave Old K as soon as possible and no longer be controlled by him.

As for Efit, he has nothing worth discussing or regretting about the relationship between the two of them. This was the biggest problem they faced before, and everything else didn't matter.

Thinking of this, Effit also had some contradictory feelings in his heart. He didn't know how to face it. It was this situation that made them feel even more embarrassed.

"Then what do you want now? How can you agree to our solution to this matter?

We also know very well that it is very difficult for you now. It is not easy to let go of so many years of grudges.

However, I think Effit, you are actually working in the street, so you shouldn't be so narrow-minded, right?

Do you already hate me to this extent? Even if you abandon the mission that old K gave you, you still have to die with me. This is really unnecessary. Anyway, we are giving you a chance now.

After a while, the patrolman comes up, and you should know very well whether you have interacted with them before. If they refuse to give you face, I'm afraid they won't come up.

You are also a smart person, so there is no need to be too arrogant. It is better to quickly understand the current affairs and leave here. We will not make things difficult for you.

As for other things, you should think it over before answering. This is the choice we give you.

If you are really unwilling to bear it, then take your men and prepare to spend the rest of your life in a Pakistani prison with these arms.

Although, this country's control over arms is not that strict.

However, if you were caught openly on the shore, you were simply seeking death.

When the time comes, the charge of smuggling arms will fall on you.

What are the consequences? We all have ways to empathize with you. I know you want to drag me into the water, but this is impossible. I have already told you that there is someone behind me.

Noman Kalim is the support behind me. Apart from him, I have nothing valuable. You should know it very well and will not compete with me based on this trivial matter.

If you really want to leave here, you can do what happened with Norman Karim now. I am definitely not lying to you. If you don't believe it, you can verify it yourself.

Think about it, I have never been to Pakistan.

If I wasn't really related to Noman Karim, how would I know his name? How do you know that his power has spread throughout Pakistan?

I will use him as my protection, you never have to think about this.

You just blindly know that I framed you and the grudges between the two of us. You don't even have the ability to analyze the problem. How can you seek revenge from me?

I also welcome you to seek revenge from me one day and use your own skills. Other than that, you have no room for rebuttal. "

Efit looked at Qin Yuan's triumphant look, and now he felt an indescribable feeling of regret in his heart.

I should have known it earlier. Killing this guy with one shot was really a mistake that would lead to eternal hatred.

Efit carefully thought about what Qin Yuan and Jason had just said to him.

At this moment, he is very clear in his heart that the grudges between him and Qin Yuan have not yet been understood, even if he really wants to have a chance to kill Qin Yuan.

He didn't dare to do it now, because Efit's superior had clearly given him instructions.

Qin Yuan's safety must be ensured. This guy has enough value.

Therefore, he didn't dare to do anything now. After thinking for a long time, Efit became very angry and said to his men who were controlling Jason's men behind his back.

"Hurry up and let these guys go first. Move the weapons first. It's important to leave."

Efit's men all knew there was a bomb on the ship. After hearing Efit's instructions, they were so happy. No one wanted to die here.

"Boss, you are right, we should move the goods first.

This group of guys, if we don't have today, we will have a future. Anyway, there is always a chance to seek revenge from them. If we put our lives here, we really have no hope. "

"Stop talking nonsense here and listen to my instructions quickly!"

Hearing this, Qin Yuan seemed to really understand. It turned out that Old K was really a very scary existence. Qin Yuan knew Efit's resentment towards him. Once he had the opportunity, he would never miss this opportunity to talk to him. A chance for revenge.

Being able to choose to leave today shows that he is very afraid of old K.

Qin Yuan put his head close to Jason's ear and spoke to him softly.

"It's thanks to the mysterious boss you call us that we can help Efit today. It seems that he is indeed a very scary existence.

Otherwise, Effit would not have been deceived by us so easily.

Let the two of us go. If I have a chance one day, I really want to take a good look at this old K.

Who is he? He has such a powerful ability and can take care of an arrogant guy like Effit.

Even Fan Tianlei can't control me. "

Jason saw his men being let go. He was in a very good mood now. He smiled after listening to Qin Yuan's words.

"Qin Yuan, you are wrong that Fan Tianlei can't control you, not because of your bad temper.

It's because Fan Tianlei is a rule-abiding person. He is a member of the army after all. No matter how dissatisfied she is with you or wants to conquer you.

Everyone must strictly follow the rules, and they must not break the rules or do anything excessive to you.

But Old K is different. You should know who he is. He is a very cruel and ruthless person. If you offend him, you will definitely not end well. This is why many people are afraid.

Do you know what a water prison is?

Do you know what punishment is?

In Lao K, everyone in the organization knows that there are even more incredible things that you may not believe if I tell you. It is precisely because of this that he can control his subordinates to be so obedient.

He treated his men like taming animals. When the beasts were very young, he would beat, scold and whip them with a whip every day, so that even the beasts would develop some feeling of fear.

When these beasts grow up and have the ability to resist, they will be instinctively afraid when they see a whip. This is how Old K trains his men. "

After Qin Yuan listened, he was now very curious and very sympathetic to Jason.

"Then if according to what you said, you also grew up under a whip?"

"Of course, as long as they are under Old K, no one is safe and can live quietly under him.

I am now the beast I was trained to be from childhood.

I would also be instinctively afraid after seeing a whip. "

While they were talking, Efit has already asked his men to take away all the weapons they just transferred.

After Qin Yuan saw Efit successfully moving the goods away, he still hadn't left yet.

"The Pakistani patrol will be here soon. Why don't you leave now? Are you waiting for them to find you?"

"What can they do if they find out about me? Now that the goods have been taken away by me, you don't have any evidence. When the time comes, they won't believe what you say without any basis.

Even if Norman Karim helps you, I believe he will never threaten me like this without evidence. "

Qin Yuan looked at Efit thoughtfully and said.

"So you're not afraid because there's no evidence to threaten you now, right? It seems like you're really a clever guy?"

Chapter 2000: Nothing found

In fact, Qin Yuan looked at Efit and knew from his relaxed look that he was no longer afraid of this matter.

That must be the case. He has destroyed all the weapons and ammunition on the ship so far. What does he have to worry about?

The goods have been successfully moved away, leaving him alone here.

Not to mention, this matter is nothing to him at all. Even if patrolling people from Pakistan come to the door, they can't do anything to him.

There is no substantive evidence anymore, so who can do anything about it?

Efit, this guy, can completely relax now. He thinks that no one can stop him.

As long as he transports these goods, he will be safe even if he is caught by Pakistani people.

So Efit, he is very relaxed now.

He just waited for the Pakistani patrols to come up and compete with them. Anyway, this matter was already a very simple and stress-free matter for him.

Efit looked at Qin Yuan and said proudly.

"I knew you were very cunning.

Haven't you ever deceived me more than once?

Just now, with your reminder, I was able to successfully transfer the goods. So it seems that I should still thank you. Thank you for reminding me how dangerous this matter is.

Otherwise, I would not be able to completely and successfully transfer these goods this time.

If Old K knew about this, he would definitely not let me go!

I know this very well. He is not a good person, and he is not a fool. I already know what he said to me today.

He doesn't want to kill you. Old K has heard of your name now. I believe I will report it to him when I go back, and he will be willing to recruit you into the organization.

You can think about it carefully when you go back.

If you are interested in this matter, you are welcome to join our organization anytime and anywhere.

At that time, we can provide you with some things you need individually.

But don't think that we are too stingy. Old K is the leader of all of us, and we all listen to him.

As long as you join us in the future, we can laugh away our grudges. I don't care. I don't hold grudges at all.

I can smile with you anytime, anywhere, as long as you want. "

Qin Yuan was a little surprised by what Efit said, but he could accept it.

Although he didn't know who Old K was and why he seemed to be so interested in him behind his back, Qin Yuan knew that.

Since Efit has already said that someone above him is not willing to take his life and is desperately trying to protect him, it means that this person really appreciates him the most.

Efite would never lie about this.

Otherwise, judging from the grievances between the two of them, Efite would definitely take this opportunity to do something special and kill Qin Yuan.

However, not only did he not go so far this time, but he said so many heartfelt words to Qin Yuan, which shows that the person behind Efite must be doing his best to protect him.

Who exactly is this person?

Although Effit himself is also very curious, it is impossible for him to know the relevant information for a while.

This person still looks very mysterious. At least according to the current method, this person is still very dangerous for such unknown things.

Qin Yuan would never let down his guard. Thinking of this, he had nothing to say. He just looked at Efite silently, and Efite nodded and said to him.

"You can think about what I told you just now.

Although, I don't know if this is Old K's idea, but since someone above wants to protect you, it means you are a talent. In fact, although there are so many grievances between the two of us.

But I never deny that you are a talent, and I agree with your superiors' appreciation for you.

In fact, in the final analysis, there is no deep hatred between the two of us. We have to fight to the death, but just because I completed the task twice, I fell into your hands.

As for me, I don't hold grudges that much. If you think about it one day and are willing to join us, I will still welcome you.

There won't be any awkwardness between us, so there's no need for each of us to be our own master.

You may not necessarily have any pursuits or benefits by following Fan Tianlei. Fan Tianlei has been obsessed with it all his life.

We wanted to bribe him over and over again, but this guy seemed like he couldn't understand. In fact, to put it bluntly, wasn't he just a fool?

Who would have trouble with money?

Only a fool like him would have trouble with money.

Thinking of this, I have to sigh that this guy is really stupid. "

After Qin Yuan heard this, he first felt serious, but he calmed down in an instant.

It's right when you think about it, considering the frequency with which people like Efit and others resell arms like crazy.

It's impossible for them not to bribe others, especially people like Fan Tianlei. Fan Tianlei must be on their bribery list. Why didn't they succeed?

It's because this guy is so persistent that no one can tell me that he can successfully buy it. He can only survive by following his own heart.

This is something Fan Tianlei has always insisted on.

Therefore, Qin Yuan didn't feel too surprised when he thought of this.

He Chenguang put his ear next to Qin Yuan and asked.

"He just said that they had bribed Fan Tianlei. Did he make a mistake? How could Fan Tianlei be complicit with them? Anyway, I don't think Thor is such a person."

"We just have to trust our hearts.

Since we all think that Fan Tianlei is not such a person, then they can say whatever they want. What Zuo Bu said was just to sow discord.

We all know what Fan Tianlei is like in our hearts, and we will not change our views on Fan Tianlei just because of his few words.

At least I won't. I think Fan Tianlei is a trustworthy and good leader and partner. "

"Actually, you think so, and I think so too. No matter what they say about Fan Tianlei, I won't believe it."

Effit smiled, looking at the two of them as if they were fools.

"You two guys are really loyal. Since you trust Fan Tianlei so much, if he really sells you one day, I'm afraid you will have to count the money for him.

This is also a bit silly, knowing that you can live longer if you have fewer things. This is a truth that has not changed since ancient times.

If you know too much, it may not be a good thing.

Anyway, this has been the case for a long time. People who know too many things never live long. "

Jason looked at Effit's arrogant look and turned to talk to him.

"Now that you have done what you have to do and your mission is completed, can you leave here? Take your goods and get out of here.

Get out of our sight quickly, I don't want to see this despicable and shameless guy like you now. "

"Jason, why are you so angry? After all, the two of us were good brothers in the past.

The Pakistani patrol will come up soon. Aren't you going to explain to them the bomb problem on the ship?

When you came here from country H, you still had bombs on the boat, but you still refused to go to a special parking place. You had to wait here for them to get on the boat. How are you going to explain to them?

Don't you think that they will all believe what you say? You are a bit too naive.

I have already predicted that none of you people have ever been peaceful, and you will definitely take this opportunity to do a lot of things.

Fortunately, I was prepared, otherwise I would have finally fallen into your trap today.

Have you guys always been so selfish? "

"What qualifications do you have to speak against us?"

Qin Yuan was thinking that this guy Effit has now taken away all the goods, so he can give them away better than anyone else and can talk to them here in peace.

At this time, all the people from Ba who were patrolling on the shore were called to the boat by Qin Yuan's shout.

This group of people looked at the guys in front of them carefully. Although they knew that they had called them here, they were still cautious and thought that none of these guys were safe.

I don't know what outrageous thing they will do next. Each of these people from Pakistan raised their guns at Efit and the others.

Qin Yuan raised his hands above his head because he knew he was facing such a situation.

If you go head-on, there will really be no good outcome for you.

Qin Yuan spoke to them in the language of Ba.

"Brothers, don't be anxious or dazed. I called you here. I have something to tell you. I don't mean any harm. I have to be reborn. The purpose of calling you here is because someone is smuggling arms here. ."

"Who are you? Why did you come to us?"

How do you know someone is secretly transporting arms here? Do you know how serious the crime of lying to us is? Wouldn't you be so stupid as to be like this? "

Qin Yuan raised his hands above his head and spoke to these people carefully.

"Brothers, please calm down first. Of course I know. I brought you here with my own hands. How could I not know?"

The reason why I am reporting these situations to you is because these situations are real, and there are indeed people here secretly transporting arms.

But it's not us, it's the guy in front of you who sees it? It's this guy with a sinister look on his face. "

The person Qin Yuan was talking about must be Efit, so there was no need for anyone to think about it.

However, everyone was surprised at how Qin Yuan could suddenly speak the Pakistani language so fluently. What was going on?

Where did he develop such skills?

He Chenguang said from the side.

"You kid can do it. When did you speak so much Pakistani dialect now? Even I don't know. It seems you really have a lot of skills.

Let me tell you quickly, I don't know how many surprises you have. "

Jason quickly turned his head and said to these Pakistani patrollers.

"Brother, don't you recognize me? Over the years, I have come here several times almost every month. I have said hello to you and your superiors still know me. Don't you have any impression?"

After hearing Jason's words, these people all looked at each other and carefully recalled the person in front of them.

After a while, they seemed to remember something and turned to look at Jason.

"Yes, we do have a little impression of you. You come to our place several times a month, but we all know what kind of business you are engaged in.

It seems that all the stowaways on the boat have gone out, right? "

Jason smiled awkwardly, without any explanation.

Because everyone knows what he does, and even if he explains it, people are unlikely to believe it. It is better to be calm and sincere, which is more important than anything else.

These guys suddenly saw Qin Yuan and it was Deng Shao who attracted their attention and walked to Qin Yuan's side to ask.

"Did you call us here?"

"Yeah, yes, that's right, it was indeed you who I called just now."

"Are you from H country?"

"Yes."

"Have you been to Pakistan before?"

"No, this is my first time here."

These people were obviously surprised when they heard Qin Yuan's answer. They didn't expect that someone who came here for the first time could speak such a fluent language. Who could not be surprised?

"You will say what we say when you first come here. It seems that you are not a simple guy. What is your identity? Now that you have attracted our attention.

Just show your identity quickly and let us take a look. "

In fact, Qin Yuan had already been mentally prepared. If he shouted so openly and openly to these Pakistani patrolmen, how could they pass the test if they didn't provide some evidence of their identity?

Fortunately, Fan Tianlei had prepared these identification certificates for them in advance, is very real.

To be precise, the document that can prove Qin Yuan's identity is real.

He is now a different person. This is the most important thing about his career, which is belief and belief.

He had completely identified himself as the person on the document, so he didn't think it was fake.

When Qin Yuan was about to take out the evidence to prove his identity, Efitte said with a smile beside him.

"A few of you are already old people patrolling here, don't you know that there is something called fake documents?

He called you here out of nowhere. Don't you think he's kidding you?

Moreover, if he gives you this fake ID, will you believe his words? Documents can prove a person's identity, and you know this best. "
