

Special Soldier 201

Chapter 201: why

"Fuck!"

Zhang Dan'er didn't expect the police to come, and Qin Yuan dared to scold others, but he was so angry that he smashed Qin Yuan's face with a fist, but Qin Yuan directly moved Zhang Dan'er with one kick. Kicked and flew out, flying several meters away, just in front of a person.

Zhang Dan'er stood up, he looked up and found that it was his cousin standing in front of him. His eyes lit up and he said to his cousin Zhang Da:

"Cousin, you can be regarded as coming, these people dare to hit me and arrest all these people!"

But at this time Zhang Da's face became extremely ugly, and she kept winking at Zhang Dan'er, but Zhang Dan'er didn't see it, and yelled at Qin Yuan:

"Mother, today I will tell you seriously, I am not only going to take your car, when you all get in, the old paper will also get your family members to let you watch!"

But as soon as Zhang Dan'er finished speaking, he felt that he slapped the back of his head and turned his head to look, only to find that the person who beat him was his cousin Zhang Da, and said with a face of incomprehension:

"Cousin, why are you hitting me?"

"shut up!"

Zhang Da gritted his teeth, but at this moment, someone walked out directly, patted Zhang Da's shoulder, and asked Zhang Dan'er:

"It's okay, continue to say, we will be fair for you, ah, by the way, the last time you invited your cousin to come, we didn't know, what did you do last time?"

At this time Zhang Dan'er also found something wrong, because he saw his cousin seem extremely nervous, and his forehead was full of beads of sweat.

"No...nothing..."

Zhang Dan'er stammered to receive, but this person showed a smile:

"I have long heard that Zhang Da has a cousin, and now I finally saw it, not bad, very energetic.

After saying this, the man walked directly in front of Qin Yuan, and then suddenly saluted Qin Yuan:

"Hello, I'm Zhao Dalong, the chief here. Are you Comrade Qin Yuan?"

"Yes, this is my certificate!"

At this time, Qin Yuan directly took out his ID and gave this Zhao Dalong a look, but after Zhao Dalong looked at it, he found that Qin Yuan turned out to be a major with a smile in his eyes, and said to Qin Yuan more respectfully :

"I am also a soldier under Chief of Staff Fan. Although I was a few years earlier than you, my rank is not as high as you!"

And Qin Yuan also showed a smile and said to Zhao Dalong:

"I have already finished talking to you on the phone. If you are looking for evidence, both vehicles have dash cams. Also, I hope that one thing is to ensure the safety of my comrades. I'm going back to the army soon, so I worry that these people will do something irrational."

But Zhao Dalong showed a smile:

"Don't worry about this. Since you are willing to go through the procedures and it doesn't make it difficult for me to do it, I will definitely do these things properly if you are courteous!"

After saying this, Zhao Dalong also turned around and said to the police:

"It's really looking for death to arrest all these people. I don't know that now is the critical period for the eradication of evil, and I am worried about not being available! Go!"

At this moment, seeing this situation, Zhang Dan'er suddenly panicked, and quickly grabbed his cousin's hand, and pleaded with his cousin:

"Cousin, save me, what you said before is not like that!"

Zhang Da slapped Zhang Dan'er on the forehead:

"You ***** killed me, do you know that the person you provoke is a major!"

"Major?"

Hearing this, Zhang Dan'er was immediately dumbfounded. He thought that Li Erniu was just a cook. As Li Erniu's comrade-in-arms, he would be the leader of the cooking squad. Who could think of Qin? Yuan's identity turned out to be a major!

Zhang Dan'er panicked all at once, and quickly grabbed his cousin's arm, begging helplessly:

"Cousin, save me?"

"Save you, I cannot protect myself now!"

Sure enough, Zhao Dalong walked directly in front of Zhang Da and extended his hand to Zhang Da:

"Okay, be aware of it and hand over your police badge."

Zhang Da's face was ugly, but he could only hand over all his documents and the like.

Seeing that this large group of people had all been taken away, Li Erniu and the others looked at Qin Yuan in surprise.

"Boss, awesome. Even the chief inspector is here, the cards are on!"

"That's right, I thought I really wanted to line up with these people! If you get the number five to catch people, it will be a problem!"

"It's not easy to say, if this matter is to be known to the 5th, I guess it will have to be shut down?"

At this time Qin Yuan heard this, but he smiled:

"Okay, I will take care of this matter, you don't have to worry about it. The most important thing now is to go to Li Erniu's house for dinner How about trying Cuifen's craftsmanship?"

"Oh!"

There was a burst of cheers from everyone, and they put this matter behind their heads.

After that, Qin Yuan and Mu Qingmei stayed here for three days and took a good rest.

After that, the time was almost up, and then Qin Yuan took the team directly back to the military area.

This week, Qin Yuan and Mu Qingmei's feelings couldn't help heating up, so they were a little reluctant when they left.

Fortunately, the wolf base is not very far from the red blood cell base, so Qin Yuan can still visit Mu Qingmei frequently.

After arriving at the base, Qin Yuan first went to find Fan Tianlei to report, and he had solved Zhang Dan'er's matter before looking for Fan Tianlei, so Fan Tianlei naturally knew what happened to them outside.

Fan Tianlei only smiled narrowly when he saw Qin Yuan:

"It's really unexpected. I thought you would fight directly and knock them over before talking. I didn't expect you to know how to measure, unexpectedly!"

When Qin Yuan heard this, he was embarrassed and said to Fan Tianlei:

"Are you complimenting me or hurting me?"

"Of course I'm complimenting you. You did a good job in this matter. You didn't make the matter worse, and you haven't suffered. I hope you can follow this standard when you perform tasks in the future."

Qin Yuan rolled his eyes a bit, would he destroy a lot every time he did a task? This is not catching up!

"Okay, the vacation is over, then you can continue training. If there is nothing else in this period of time, don't go out for now."

When Qin Yuan heard this, he was taken aback and said to Fan Tianlei:

"Why? Because of that egg?"

Chapter 202: Found treasure

Could it be that Zhang Dan'er is really a man of great status, who offended him, even can't even go out?

Qin Yuan directly said his question, and when he heard what Qin Yuan said, Fan Tianlei was a little bit dumbfounded, and explained to Qin Yuan:

"Of course this is not the case. We found that your name appeared on the reward list on the international underground website, offering a reward of 30 million US dollars."

Qin Yuan was taken aback, someone offered a reward for him?

After thinking about it, it should be from the Fusang Club.

30 million U.S. dollars. Wouldn't it cost 200 million if it were replaced with soft sister coins?

Seeing Qin Yuan's surprised look at this time, Fan Tianlei also said directly:

"Although those people will not be so frantic to come to the troops directly to find you, in order to ensure your safety, it is best not to go out. After all, the current situation is indeed a bit complicated."

Qin Yuan was personally recognized by the military as the strongest soldier king. If something goes wrong at this time, the military will make a big joke.

Not to mention that Fan Tianlei now puts all his hopes on Qin Yuan. Although Qin Yuan's ability is very strong, but this kind of thing is not afraid of ten thousand things just in case.

Fan Tianlei wanted to comfort Qin Yuan at this time. After all, Qin Yuan was wanted by the Fusang Association for the country. The country naturally wanted to ensure Qin Yuan's safety.

"Hey hey!"

But Fan Tianlei hadn't spoken yet. When he looked up, he found that Qin Yuan's face was full of smiles! Suddenly he was dumbfounded!

Is there someone who would laugh after hearing that he was wanted?

The reason why Qin Yuan laughed was not because of anything else, but because at this moment, he suddenly heard a sound from the system!

"Ding dong, it is detected that the host is wanted, and the survival mission is activated. There will be masters above the ground list to besiege the host. Every time a ground list master is killed, the host will get a grid!"

"System, how many masters are there?"

Qin Yuan asked the system directly in his heart at this time, and the system also replied:

"Answer the host, there are 1,000 masters in the ranking!"

1000?

Qin Yuan's eyes were the staring boss. If all the 1,000 masters attacked him, and then killed all the 1,000 people, wouldn't it be possible to get 1,000 grids!

1000 grids, why not enough!

Thinking about it, I feel beautiful!

Seeing Qin Yuan's smile that looked like a foolish man, Fan Tianlei felt that his heart was hairy, and said to Qin Yuan:

"Qin Yuan, are you okay?"

Hearing this, Qin Yuan immediately reacted, and explained to Fan Tianlei:

"What can I do, it's okay, but I think this Fusang Society is a bit too stingy, how can a master like me say it can be hundreds of millions!"

Fan Tianlei was speechless for a while. He had only heard of people who felt scared after being offered a reward. He had never seen someone like Qin Yuan, but instead disliked the low price of the reward.

"Okay. Actually, many international mercenaries and criminals are wanted. You don't have to take this matter too seriously. Generally, as long as you don't go out, they won't take action against you. Once the limelight is over, there is currently no mission. Let's train the players at home first."

Qin Yuan directly grabbed Fan Tianlei, and said to Fan Tianlei:

"This is not okay. I tell you if there is a task, you can't forget me. After all, you are not afraid of stealing, but you are worried about it. If there is any task that can directly leave the country, remember to call me, I It's good to take this opportunity to see who dared to attack me."

Fan Tianlei's face was even more ugly, and he said to Qin Yuan:

"You have to be careful. The 30 million bounty has been able to allow some people on the top and bottom rankings to contain you. There are still many masters in them, just like the old cats and daddy you killed before. In the list, it can only rank up to more than 900!"

"Most of these people have their own unique skills, and can even kill an entire special team by themselves, so you still don't care."

Hearing such words, Qin Yuan laughed completely.

Just like old cats and old daddy's trash, Qin Yuan just waved and killed him. He didn't even use 50% of his strength. Even the top players in the top rankings, do they have this ability?

"Okay, I know, I'll be careful, but it's the same sentence, don't give me a task because of such a thing, after all, you have promised me that you will not question my decision, the real Warriors can only be trained by blood and fire!"

Hearing this, Fan Tianlei also smiled bitterly. He felt that the previous sentence seemed to have dug a big hole for himself.

But Fan Tianlei did not take this matter too seriously, after all, Qin Yuan had already given him a lot of surprises.

A big whale like Qin Yuan, even if you want to close him, the small pond cannot be closed.

This guy's stage is the world!

At this time, Qin Yuan left Fan Tianlei's office whistling. Fan Tianlei's news may be bad news for others, but it is extremely good for Qin Yuan.

If there is a lack of grids in the future, then just show a shyness, and then attract the masters of the rankings to attack yourself, then the grid will be rushing!

When the time comes, isn't it possible that everything can be stuffed into the grid, how can Qin Yuan be cultivated into a versatile talent!

Thinking of this situation, Qin Yuan couldn't stop the corners of his mouth rising, as if such a life had already arrived.

Qin Yuan went straight back to where he lived. Now that Qin Yuan has become a major, he also has his own separate residence, but when he was packing his luggage, Qin Yuan touched something.

Looking at this weird thing, Qin Yuan remembered that this thing is nothing else, it is the dragon pecking cone that Qin Yuan found among the rocks on the beach before!

Qin Yuan was thinking at the time, this thing is strange, if it is placed in the grid, will he give himself some unusual skills.

It's just that because I was so happy to be with Mu Qingmei later, I forgot about it.

Since it was really Qin Yuan's thing, Mu Qingmei naturally packed Qin Yuan and put it in his backpack. After all, this thing was considered a small souvenir between the two of them.

Qin Yuan couldn't help showing a smile, and then directly received the dragon pecking cone into the grid.

After all, no matter where you are, you don't have your own grid security.

"Ding Dong, special items are found, do you want to recycle them?"

Yep?

Hearing this voice, Qin Yuan was stunned!

This is, I found Bom again?

Chapter 203: Capability refinement

Qin Yuan clearly remembered that the last thing that happened was the red flag. The red flag had a huge effect. Could this little dragon pecking cone be comparable to the red flag?

Qin Yuan's eyes were filled with excitement, and then he said directly to the system:

"Recycle!"

Then the system rang directly:

"Ding Dong~ Please start choosing the host!"

But after hearing this sound, Qin Yuan couldn't stop being a little disappointed. After all, the red flag at that time did not sound the skill reminder sound for a while, but this dragon pecking cone sounded directly, look. It's still far behind that red flag.

However, things like Hongqi are hard to find after all, so Qin Yuan laughed at himself, and then began to see what skills this thing could give him.

"1, get a world-class meteor pendant! (Requires two grids

"2, get world-class organ skills!"

"3, get world-class flying knife skills!"

Yep?

Seeing the system prompt Qin Yuan at this time, he felt strange for a while.

What kind of skill is this meteor pendant? Why does it need to consume two grids?

But Qin Yuan still has 7 grids left, and he is considered rich. Since this thing is a little abnormal, it is better to try it. Anyway, the system must be high-quality, and there will be no completely useless skills!

"System, I choose item 1!"

"Ding Dong, congratulations to the host for choosing successfully and obtaining a world-class meteor pendant!"

"World Class Meteor Pendant: Exclusive skill for the dragon-pecking cone weapon, you must have the dragon-pecking cone to use it, it is powerful. Reward a dragon-pecking cone forging technology."

At this time, Qin Yuan felt that his hands seemed to have changed with the sound of the system, and he also had some more skills in his mind. It should be the use of the dragon cone.

There is also an unopened scroll, which should be the forging technology of the dragon pecking cone.

It seems that these two checkered flowers are worth it. After all, there is an extra pecking dragon cone forging technique. Although it is not what Qin Yuan specifically wants, it can be regarded as an ability!

It's just the 4 words in the system prompt that interest Qin Yuan the most!

is powerful!

These 4 words are not common to the system, after all, Qin Yuan had acquired so many skills before, and he did not give such a prompt.

This made Qin Yuan a little curious about how powerful this so-called meteor pendant is!

Just do it, anyway, Qin Yuan still has a dragon-pecking cone that is about to be damaged.

Normal use is not good, but a simple experiment is still possible.

Qin Yuan directly took the dragon pecking cone and came to a small forest, opened his own ability, and found that there was no one around, Qin Yuan nodded, and then started the experiment.

Qin Yuan took out the dragon pecking cone. This dragon pecking cone was a bit rusty, but it was still solid.

Qin Yuan recalled the prompt of the system, and then directly channeled his power into his arm, aimed at a tree, and then directly flicked it, and the dragon pecking cone in his hand disappeared!

Qin Yuan suddenly felt a little weak in his body, as if he had taken away some of his strength!

Then Qin Yuan heard a series of sounds, but when Qin Yuan turned his head and looked at everything in front of him, he was completely stunned!

I saw the tree in front of me as a target. There was a big hole in the trunk, and a smaller hole in the back tree, and then it was even smaller...

In the end, Qin Yuan followed the traces and finally found the launched dragon pecking cone on a large rock.

At this time, the dragon pecking cone has been completely broken into a piece of fine sand, and only a little debris in the center is stuck in the stone.

Qin Yuan looked incredulous, he didn't expect this skill to be so powerful!

penetrates so many trees, and can still beat this stone through!

This is already stronger than some anti-tank sniper equipment!

If you use an intact dragon pecking cone, I am afraid that the power will be even greater!

At this time, Qin Yuan was completely stunned. He was still worried about his poker skills when he met a real master, and some of them were not powerful enough. As a result, he gave himself such a skill directly!

If the poker skill is a small pistol, then this falling star is a sniper gun!

Qin Yuan just wanted to take out this little bit of debris, but found that after taking it in his hand, the debris had also been broken into pieces!

"No wonder you need special matching weapons, ordinary flying knives simply cannot withstand such a powerful force!"

Qin Yuan murmured a word, and then there was a hint of ecstasy on his face!

The power of this meteor drop is so huge, it is enough to become his own assassin!

Going down with this flying knife, I am afraid that even the tank can directly penetrate it. What kind of person can stop it?

But Qin Yuan calmed down very quickly. The most urgent task now is to prepare some dragon-pecking cones as a supporting method.

So Qin Yuan directly opened the scroll in his mind, it was the dragon-pecking cone forging technique!

"Ding Dong, congratulations to the host for acquiring the dragon-pecking cone forging technique, which requires an advanced ability forging master!"

After opening this scroll, Qin Yuan's mind suddenly had some more forging skills of the dragon pecking cone, but seeing these tips, Qin Yuan was completely dumbfounded!

Ye still need a master forging ability?

Qin Yuan took a closer look at this forging technique and found that the forging of the dragon pecking cone was not a very easy event, but extremely complicated, I am afraid that ordinary craftsmen would not be able to do it.

As expected, this killer is not so easy to obtain!

Qin Yuan is not sad, anyway, he still has 5 squares, enough to use!

And Qin Yuan still has a wish, that is, to set up an arsenal, research new weapons, and completely upgrade the guns in the army.

If Qin Yuan wants to do this, then the master forging ability is not a waste.

So Qin Yuan thought about it for a while, and he moved directly in the direction of the library!

After I got the points to the library, I searched for books on forging directly on the computer, but Qin Yuan was shocked by this.

He thought that forging was just a very simple technique, but all of this came out, a series of books!

"Temperature Control"

"The Art of Quenching"

"Sturdy Metal"

"Machine Tool Use Skills"

.....

Seeing this series of book titles at this time, Qin Yuan was completely dizzy, but still gritted his teeth and went directly to the bookshelf!

Qin Yuan directly found a book, and then recovered it into the grid!

"1, get world-class ore screening technology!"

"2, obtain world-class alloy manufacturing technology!"

"3, get world-class heat mastering technology!"

Sure enough, the system directly refines these abilities, it is not an easy forging skill!

Chapter 204: Contribute to the country

After such a long time, Qin Yuan also discovered the characteristics of system skills.

If you want to recycle high-tech weapons or artificially manufactured items, then most of them will get the skills or production methods of this kind of thing, which will be related to this thing.

And if the creature is recycled, it will bring some direct changes to Qin Yuan!

In this way, recycling high technology is a bit at a loss, but when I think about it, it is not!

Because of these abilities, it can bring earth-shaking changes to the world!

is like the previous Ramanra virus antibody, and even won a Nobel Prize!

Therefore, Qin Yuan does not feel distressed when he is used to obtain these skills. He now has five grids, which is enough!

Then, Qin Yuan began to choose!

"Ding Dong~ Host selection succeeded!"

"Ding Dong..."

Qin Yuan made several choices and directly selected all the three forging types of skills, and then Qin Yuan heard a voice:

"Ding Dong, congratulations to the host, for obtaining advanced skills, master forging!"

With the prompt sound of the system, Qin Yuan has also directly changed from a military novice to a master of military manufacturing!

There are various forging techniques in his mind!

Qin Yuan's eyes also flashed a hint of excitement. After all, these techniques of his are extremely complicated. It would take decades for ordinary people to reach Qin Yuan's level even with a master leading the door.

If you are unlucky, you won't even reach it for a lifetime!

When I arrived at Qin Yuan, he just needed a grid!

At this time, Qin Yuan showed a smile. When he was driving a jeep or acquiring gun skills, there were all the transformation and manufacturing skills of these things.

Now that he has the ability of a master forging, Qin Yuan may be able to choose those skills and make all these things!

Thinking of this, Qin Yuan also walked out of the library happily, and then planned to apply to Fan Tianlei, to go to the military factory, and start to forge a dragon-pecking cone for himself!

"What, go to the military factory? What are you doing in the military factory?"

When Fan Tianlei heard Qin Yuan's application, he was dumbfounded. How could this guy think of it?

"Of course I have my work to do. I go to the military factory to take a good look at what others do. I may be able to open an military factory in the future!"

Qin Yuan smiled, and Fan Tianlei was speechless, and you also want to open an army factory, why don't you go to heaven?

"Qin Yuan, don't go too far. Now your task is to train members of the red blood cell team. Didn't you say that you want to turn red blood cells into cancer cells? Isn't this still unfinished?"

Fan Tianlei bitterly wanted to make Qin Yuan dispel this idea. With a hammer and a stick, I am afraid that nothing can be done well.

"Now the training is on the right track. I don't need me to watch it anymore. Now what they need most is the training of blood and fire. Look at Li Erniu and others. They followed me on a mission. The strength is better than others. People have changed significantly, so, if you want these guys to take shape quickly, the point is not me, but you. You must get us enough tasks."

Qin Yuan said with a smile on his face, and Fan Tianlei heard this, but with a face of mmp, has it become his own pot after a long time?

But Fan Tianlei still had no way to refute Qin Yuan. After all, Qin Yuan was right. Li Erniu and others followed Qin Yuan on a trip to the Feizhou. Both their strength and xinxing were greatly improved.

"Okay, I can't tell you, the military factory, right? I'll see if I can get you a visit card."

Hearing that Fan Tianlei had agreed, Qin Yuan naturally left with a smile on his face.

But since there is no way to go directly to the military factory, Qin Yuan wants to find Mu Qingmei. After all, Qin Yuan remembers that he still owes Long Xiaoyun a set of training methods.

With the ability to train the special forces, wouldn't it be very easy to give some advice to the people in the Wolf Squadron?

Qin Yuan once again arrived at the wolf base, this time, he also prepared a bunch of flowers for Mu Qingmei.

At this time, the guards who stood guard at the door were all looking at Qin Yuan with a hey expression on his face. Of course, Qin Yuan didn't pay any attention to it. Anyway, this is the envy and hatred of single dogs. He is a real person, so he doesn't care about them. !

Qin Yuan walked directly into the hospital where Mu Qingmei was located, but when he saw Qin Yuan, the few nurses rushed over with a smile:

"Come to see Doctor Mu, I'll call for you!"

Qin Yuan nodded, but after a while, the little nurse let Qin Yuan go in directly.

Qin Yuan went directly into Mu Qingmei's room. He thought that Mu Qingmei was seeing a patient, but found out that Mu Qingmei was actually wearing yoga clothes. Practicing some strange moves in front of the mirror!

Mu Qingmei was also a little surprised to see Qin Yuan, and said to Qin Yuan:

"You're here."

"No, what are you doing? In the training camp, will you still practice yoga every day?"

There was a black line on Qin Yuaner's forehead at this time, and when she heard this, Mu Qingmei also whitened Qin Yuan and said to Qin Yuan:

"What do you want? Did you know that there is a game department in the military region? This is because they asked me to create a warm-up exercise, wearing yoga clothes, just for convenience."

"Game Department?"

After hearing such words, Qin Yuan reacted. Isn't this the department where Tang Xinyi works?

"The game department actually needs this?"

"Of course, after all, it is to train the military's coordination and physical fitness. It is more appropriate for us doctors to compile it. After compiling, let you male soldiers collect information. I am the teacher Xiao Tang in the game department. I recommend you, do well!"

Mu Qingmei said this, looking at no one around Qin Yuan's face.

But at this moment, Qin Yuan heard the voice of the system:

"Ding Dong, the system releases tasks, becomes a motion capturer in the game department, and rewards a grid!"

Hearing this voice, Qin Yuan's eyes brightened. There are good things, naturally a lot more positive, and he said directly to Mu Qingmei:

"Come on, talk to me well, what should I do!"

Mu Qingmei saw Qin Yuan's look full of interest at this time, but he groaned:

"I didn't see you being so active just now, but when I heard the name of Teacher Xiao Tang, I became so excited and said, are you hiding something from me?"

"What nonsense, I am happy to contribute to the country!"

Qin Yuan said solemnly, and Mu Qingmei glanced at Qin Yuan, but didn't say anything.

Chapter 205: Sorry to interrupt

After that, Qin Yuan rehearsed the exercises similar to aerobics compiled by Mu Qingmei. After practicing for a while, he didn't seem to have any reaction except for a little fever.

"how about it?"

Mu Qingmei asked Qin Yuan, and Qin Yuan looked at Mu Qingmei, but only laughed.

It's not that this thing is completely useless, but Qin Yuan's physical fitness is really too strong. For Qin Yuan, this thing is like a marathon champion, jogging for a kilometer.

The heat on Qin Yuan's body was not so much that it was exercised, but rather it was caused by physical contact with Mu Qingmei, rubbing against each other, and straining.

Mu Qingmei saw Qin Yuan's appearance, also a little discouraged.

Qin Yuan quickly comforted: "Don't be sad, I think this thing is very useful to warm up."

"Okay, I'm not a little girl anymore. I understand that this kind of thing does not mean much to you well-trained special forces. I'll take a good look at how I can adjust the movements better. some."

After saying this, Mu Qingmei regrouped, and then continued to modify his own set of actions.

Seeing Mu Qingmei's serious look, Qin Yuan also showed a slight smile, but he hoped that Mu Qingmei could do his own thing.

However, Qin Yuan really doesn't understand this design similar to dance and movement. Although Qin Yuan's current medical skills are good, he has no dance skills and can only watch.

At this moment, Qin Yuan saw some books on one side, and asked Mu Qingmei:

"what is this?"

"Reference books, some books about gymnastics and dance."

Mu Qingmei casually replied, but Qin Yuan took it over and found that the top one was actually "The Eighth National Radio Gymnastics"!

Qin Yuan is completely dumbfounded, can this broadcast gymnastics be used?

But Qin Yuan thought about it carefully, and it seemed that it was indeed useful. If this broadcast gymnastics is done in accordance with strict standards, the physical fitness of ordinary people can indeed be improved.

Presumably, when the broadcast gymnastics was set up, the editors also spent a lot of effort.

In this way, Qin Yuan had an idea. He didn't know what kind of skills he would give him by putting this broadcast gymnastics in the grid.

Then Qin Yuan took advantage of Mu Qingmei not paying attention, and directly received the book into the grid.

"Ding Dong~ Please start choosing the host!"

With the prompt sound of the system, three options suddenly appeared in front of Qin Yuan!

"1, get world-class bodybuilding skills!"

"2, get world-class ligament extension surgery!"

"3, get a world-class gymnastics performance!"

Seeing these three options, Qin Yuan's eyes suddenly brightened!

This broadcast gymnastics is really effective!

Qin Yuan looked at these three options. Now he doesn't need to participate in the sports meeting, so he doesn't need gymnastics performances. This ligament stretching technique is obviously more suitable for women, but in the end he set his sights on the first option!

"System~ I choose item 1!"

"Ding Dong, congratulations to the host for your successful choice! Get world-class bodybuilding skills!"

And what happened in Qin Yuan's mind following this prompt sound was that there was an extra villain who seemed to have a very slow gymnastic technique similar to Tai Chi, constantly fiddling with his body.

And Qin Yuan didn't care at the beginning, but when he saw the muscles of the villain, he was extremely surprised to find that this set of gymnastics could exercise all the muscles of the whole body!

If you are a person who exercises regularly, you can understand the difficulty. The large muscles of the body are relatively easy to exercise, but the small muscles like ribs, fingers,

and various places are very difficult to exercise. I am afraid that it will cost a lot. With great strength, we can train these places to produce results.

But this exercise is completely different. All muscles are treated the same. As long as it is done once, all the muscles on the body can be fully exercised!

Qin Yuan only watched this villain demonstrate one section, there should be a lot of content behind it, presumably as long as you continue to choose, you will be able to get a complete set of physical training!

Qin Yuan immediately asked Mu Qingmei excitedly:

"Do you have any other books on radio gymnastics."

Hearing this, Mu Qingmei was also taken aback. He didn't know what Qin Yuan wanted to do, but he found it for Qin Yuan.

And Qin Yuan took a look and found that this was all from the first to the ninth set, and he was immediately happy.

"I have some thoughts, I will show you later."

After finishing these words, Qin Yuan ran to the door directly holding these books, and then received these books into the grid, after a while, he directly upgraded this physical exercise technique to the universe level!

As expected by Qin Yuan, this universe-level physical training technique will unlock all the contents!

Qin Yuan did a little experiment and found that this physical exercise technique is equally effective for his own body that has been systematically modified!

After practicing several times, Qin Yuan felt a trace of fatigue in his heart.

If ordinary people get started, wouldn't they be able to train them to death?

Qin Yuan shook his head, and at this moment Mu Qingmei also followed out and said to Qin Yuan:

"How is it, is there any inspiration?"

Qin Yuan looked at Mu Qingmei, but showed a smile, then said to Mu Qingmei:

"I have an idea now, do you want me to teach you to experiment?"

Mu Qingmei's eyebrows looked at the strange smile on Qin Yuan's face, always feeling that something was not good, but he still agreed.

After five minutes, Mu Qingmei's face flushed, and she lay weakly on the floor. He pointed Qin Yuan with his finger, but he didn't say anything.

And Qin Yuan looked at Mu Qingmei happily, and felt that the effect of this exercise technique was really quack!

"Okay, you don't have to refer to me. Anyway, you haven't even finished the first step I will give you a good massage. You can rest here."

Qin Yuan said to Mu Qingmei, and then stretched out a pair of big hands toward Mu Qingmei's body!

Mu Qingmei was weak at this time, and could not stop Qin Yuan's movements, but at this moment, a voice came from outside the door, and a figure walked in directly:

"Mu Qingmei, I'm here!"

This is Long Xiaoyun!

While Long Xiaoyun opened the door, he saw Mu Qingmei's weakness, and Qin Yuan stretched out his hand on one side, his eyes straightened suddenly, and a panic in his heart:

"Sorry, I'm sorry!"

Then he closed the door directly!

Long Xiaoyun is not a little girl anymore. Naturally, he understands what is going on. Seeing Mu Qingmei lying on the ground with a weak body, Long Xiaoyun's heart beats wildly. Is this too bold?

Chapter 206: training

Qin Yuan and Mu Qingmei saw Long Xiaoyun's reaction and looked at each other.

However, Qin Yuan quickly reacted and said to the outside quickly:

"Okay, come in!"

Long Xiaoyun came in cautiously when he heard this voice, and found that Mu Qingmei was already wearing some clothes.

At this time, Long Xiaoyun looked at Qin Yuan and Mu Qingmei very strangely, and then whispered:

"Although I know that the two of you are a couple, after all, the influence is not good, at least not in this kind of public place."

Mu lightly brows to death, her eyes are almost turned to the sky, and Qin Yuan also smiled, and said to Long Xiaoyun:

"You misunderstood, I just asked Mu Qingmei to help me experiment. My newly created physical exercise is not what you imagined. Oh, by the way, you didn't want me to give you the wolf Does the staff provide a training plan? I think I don't need to think about it now, just relying on this exercise is enough!"

Hearing what Qin Yuan said, Long Xiaoyun was a little surprised, frowned and said to Qin Yuan:

"Is what you said is true? I really want you to help us put forward some opinions. Now everyone is waiting outside, don't think one thing is one thing."

"Of course it is true, but I seriously considered it. Later, because the Wolf Squadron only needs to conduct actual combat training, this physical exercise with me is enough. As for other aspects, it can be directly halved. Like what weight-bearing cross-country, heavy load You don't need to do anything squatting."

What is it? Don't even do these things?

Qin Yuan's voice was not small, and it was also directly transmitted outside. Shao Bing and others standing outside were all confused.

And this Shao Bing pushed the door directly and walked in, and said to Qin Yuan'er:

"Great God Qin, you are not lying to me, what are you going to teach us?"

"That's right, Master, although those trainings are boring and hard work, at least they can grow muscles!"

"Yes, Nong is not afraid that the Wolf Squadron will overtake Nong's RBC, so deliberately!"

Hearing this, although everyone knew that they were joking, they laughed happily.

The opportunity for them to say this to Qin Yuan, but not many.

And seeing these people smiling so happily, Qin Yuan's eyes flashed a little bit of playfulness, and now he is smiling so happily, you people will not be able to laugh after a while.

"It's actually very simple. I just found a new training method with more intensity and efficiency. That is to let you do... broadcast gymnastics!"

"Broadcast gymnastics?"

All the people in War Wolf were completely dumbfounded. They thought Qin Yuan was joking, but Qin Yuan was serious.

"Why, look down on radio gymnastics? If any of you can do this radio gymnastics completely, then I will teach him how to do it? If you don't want kung fu, I can still apply to your superiors and let you Take a week off!"

Hearing this, everyone in War Wolf's eyes lit up. After all, they had already seen Qin Yuan's skills with their own eyes, and they were extremely powerful.

If you can teach Qin Yuan a martial arts, it will be great.

This is quite tempting for these eager soldiers.

Not to mention there is still a week off.

"Hey, isn't it just broadcast gymnastics? Don't worry about doing it again, let alone doing it again, I will do it 10 times and 20 times, I will show it to you!"

"Yes! Radio gymnastics only! I didn't know how many times I did it when I was young."

Seeing these people so confident, Qin Yuan still showed a slight smile, and then said to several people:

"Well? Go and find an open place outside."

Qin Yuan took these people out of the small clinic directly to the small playground outside, and then said to these people:

"Take off your shirt first and follow my actions. Whoever can complete this set of action standards will be rewarded!"

Speaking these words, Qin Yuan directly took off his shirt, and then showed the starting movement of the bodybuilding technique.

Looking at Qin Yuan's extremely confident look, Shao Bing, Banzhuan and the others were also serious. After all, they knew how powerful Qin Yuaner really was. Since Qin Yuan was so confident, it must be a little difficult.

Although broadcast gymnastics is simple, they are not professional athletes after all. If some movements are too difficult, they will not be able to do them.

But when they saw Qin Yuan moving, they were full of confusion.

Because Qin Yuan's current movements are not difficult to understand, and they are also very slow, it looks like Tai Chi, and it doesn't look like doing exercises.

Qin Yuan'er took a look and found that these people were still there, and said in dissatisfaction:

"What are you doing? Do it with me."

"No, Master, are you teaching us Tai Chi? We are not performing arts, we don't need to practice this."

Lengfeng is relatively familiar with Qin Yuan after all, so I directly put forward this opinion, and Banzhuan also said impatiently:

"Great God Qin, I am the most impatient to practice this kind of thing. It's like a girl, it's not good at all. If this is seen by our enemy, won't we be laughed at?"

Although the others didn't speak, they frowned. Even Long Xiaoyun didn't understand what Qin Yuan wanted to do.

But Mu Qingmei, who was standing on the side and weakened, shook her head. She had this idea at the beginning, but it quickly proved how stupid her idea was!

Long Xiaoyun was puzzled, but at this time he still had to maintain Qin Yuan's dignity, and said to the team members at hand:

"What do you do with so much nonsense, let you do it, do it and execute the order. I will be with you!"

Hearing Long Xiaoyun's words, these talents reluctantly followed Qin Yuan's movements, but there was a feeling of this movement.

"Oh, this thing seems interesting."

At this time, Yu Fei said in surprise, and Shao Bing's expression also changed.

The complexions of several people are relieved a lot, because this set of movements is really very comfortable. They have just run 10 kilometers cross-country with weight the thighs are still a little sore, but after doing this, they I feel relieved a lot.

Seeing these people's comfortable faces, Qin Yuan showed a smile, just as the so-called rat shovel-the big head is behind, let you taste the sweetness first, and then the real test will come!

Hu~

Qin Yuan sighed for a long time, made the first move to the extreme, and then took advantage of the trend to make the second move!

At this time, several people in the Wolf Squadron began to notice the difficulty!

The players with poor physique had deformed their movements at this time, and Yu Fei and Death Sanba, who had good physical strength, had some wrong actions. Only Leng Feng and Shao Bing completed the second action completely.

It's just that even so, the two of them are blushing.

Qin Yuan looked at these people, the corners of his mouth curled, and then the third action directly shot.

At this moment, even Leng Feng and Shao Bing couldn't hold on. The whole body was shaking like an electric shock.

Everyone feels like they have a big rock tied to their body, and the weight of this big rock and all the muscles on the body are uncomfortable.

When Qin Yuan did the fourth move, he turned his head and found that everyone was tired and paralyzed on the ground.

Chapter 206: motion capture

Looking at these guys Qin Yuan, there was a smile on his face:

"What's the matter? Didn't you say that this movement is soft? Why can't you even do the third movement?"

Hearing this sentence, the stiffest brick felt that the muscles all over his body were torn apart, and he opened his mouth, but not a single tone was squeezed out.

And Death 38 on one side just hummed twice, looking at the expression, it was almost impossible to hold the urine.

At this time, Shao Bing struggled to sit up from the ground, looked at Qin Yuan and said:

"Great God Qin, what is this technique for training?"

"You are all veterans. Naturally, in terms of fighting, the stronger ones will take advantage anyway. As the so-called one-strength reduction ten will, your previous training is all to stimulate the growth of your muscles. , But there are some small muscles that you can't train at all with your training methods, and on the battlefield, you can beat the opponent one second before you can knock the opponent down."

Hearing this, Shao Bing and others nodded.

"If you can really practice this thing to the limit, you may be able to achieve my level."

After Qin Yuan'er finished saying these words, she stood upside down directly and supported herself!

Shao Bing and the others looked at each other, although this is more powerful, but they are not completely unable to do it.

But in the next second, their eyes widened, because Qin Yuan directly used 5 fingers to prop up his entire body!

This kind of operation can only be seen on the kind of strange things on TV.

However, Shao Bing also knew people like that before. Most of them exercised the muscles in this place for many years. Only those five fingers were more powerful.

These special soldiers, naturally, would not do such unnecessary things.

But if all the small muscles on the body can be trained to this level, then their strength will definitely be greatly improved!

And listening to what Qin Yuan meant, if they could complete this bodybuilding technique completely, they would be able to reach this state!

At this moment, all eyes lit up.

Qin Yuan smiled, no wonder those veterans always like to train new recruits, this is really a strange feeling.

No one dared to say that Qin Yuan taught them radio gymnastics anymore.

After that, Qin Yuan filmed the bodybuilding technique into a video and left it directly to Long Xiaoyun and others, and then returned to his red blood cell team.

The people of the Wolf Squadron have already practiced, so how can the people of the red blood cells escape?

Soon, of course, at night, there was also a bunch of soft-footed shrimp in the red blood cell training base.

Since this bodybuilding technique was so effective, Qin Yuan gave Fan Tianlei a copy of this bodybuilding technique and asked him to do favors. Therefore, it didn't take long for the entire wolfya training base to be a piece of soft-footed shrimp.

And a few days later, when Tang Xinyi came to the red blood cell to find someone and saw a group of weak men practicing shooting, Tang Xinyi's eyes straightened with fright.

Did she go to the wrong place?

When I came before, it didn't seem like that!

However, Fan Tianlei, who was walking with Tang Xinyi, was happy, and said to Tang Xinyi:

"Teacher Xiao Tang, you don't have to worry about that. Although they are not good-looking, their overall strength is very strong. Don't you want to put that bodybuilding technique into your game? Let's see the actual effect!"

"No, this, is the effect too good? If there is an emergency, can you respond quickly?"

Tang Xinyi said with a sullen expression, while Fan Tianlei blew a whistle when he heard this:

"set!"

However, Tang Xinyi was extremely surprised to find that with the whistle, the soldiers who looked soft had instantly turned into steel, their spirits changed directly, and they quickly ran here to gather!

Of course there are exceptions. There is a guy who was lazy at the beginning, but now when he gathers, he is still lazy.

And Tang Xinyi took a closer look and found that this person was Qin Yuan who hadn't seen him for a long time!

When Fan Tianlei saw Qin Yuan's appearance, he was a bit speechless, but he was helpless, and said to Tang Xinyi:

"Teacher Xiao Tang, you know this too. It is our battle hero Qin Yuan. Your bodybuilding technique this time was also invented by him. If you want to add this bodybuilding technique to your game, find him it's the best."

At this moment, Tang Xinyi saw Qin Yuan's slack look, and she felt helpless, but she had also seen Qin Yuan's power and understood how powerful Qin Yuan was.

"Comrade Qin Yuan, I don't know if you would like to help my game department."

"Yes! What's unwilling to do!"

Qin Yuan directly smiled and said, these days, he has been extremely comfortable, although Fan Tianlei did not get him the pass to the military factory, but he also let him find a place where he can make dragon pecking cones.

He had just recovered the dragon pecking cone before, and raised the ability of this meteor falling to the universe level.

I also experimented with the power of this meteor pendant, which made Qin Yuan extremely satisfied.

So Qin Yuan was in a good mood, not to mention that it was still Qin Yuan's task to participate in this game by .

Tang Xinyi didn't expect Qin Yuan to speak so well, and soon brought Qin Yuan to the game office.

To be honest, Qin Yuan grew up in an orphanage, and has never had the opportunity to touch any games.

He hasn't played any soul dulo, Super Mario, or anything like cs at the back.

But when I heard people talk about it, I felt a little envious.

In the original book, although Qin Yuan knew how to do it, there was no detailed presentation in this section, so Qin Yuan didn't know what Tang Xinyi's game was like.

As soon as Qin Yuan stepped into the game, the system suddenly heard a sound:

"Ding Dong, congratulations to the host for completing the task and becoming a motion capturer in the game department. Reward a grid!"

Qin Yuan couldn't help but feel happy, this grid is relatively easy to get.

Chapter 208: Start

The game manager was also very happy when he saw Qin Yuan's arrival. After all, Qin Yuan is now a small well-known character.

The next thing is very simple. Just like in the original book, Qin Yuan put on a set of motion-sensing equipment and started to capture motion.

However, during the motion capture, he needed to take off his clothes, so Qin Yuan did not hesitate and took off his shirt directly.

Qin Yuan had never played with this kind of thing before, and he seemed a little surprised when he came into contact with this kind of equipment.

For Qin Yuan, there is no difficulty in such a thing, just to follow Tang's favorite prompts to perform various tactical moves.

"Damn, isn't it a little too handsome?"

But when Qin Yuan took off his clothes, the eyes of the female technicians below were shining. They looked at Qin Yuan's sculpturally patchy muscles, and there was saliva flowing from their mouths!

This muscle makes people have the desire to take a bite!

Tang Jingyi couldn't help but feel her heart sway, but she quickly reacted and whispered to these people:

"Okay, don't be a nympho, and work quickly."

Hearing that the boss had already spoken, these technicians also continued their hand movements, only wiping the corners of their mouths from time to time.

Of course Qin Yuan could hear what the women were talking about, but he had no choice but to gesture to Tang Xinyi to indicate that he was ready.

And Tang Xinyi also began to enter the state, let Qin Yuan make some movements, eyes are always staring at the data on the computer, and Qin Yuan's movements, from time to time to correct some technical errors for Qin Yuan.

And Qin Yuan's reaction was very fast, so their progress was also very fast, it was just a morning, they had already completed this basic movement seven or eighty-eight!

"Okay, it's been hard work, everyone come and rest, it's almost done!"

Qin Yuan had been tossing all morning at this time, and some beads of sweat appeared on his body. Although these movements were just warm-ups for Qin Yuan, they were still full of fun.

Qin Yuan picked up a bottle of water at this time and drank it all in one gulp, while looking at the sweat bead on Qin Yuan, several designers around couldn't help but swallow.

"Okay, you drink slowly. As a special officer, don't you understand that after strenuous exercise, you can't drink water like this?"

Tang Xinyi spoke to Qin Yuan with some concern, but Qin Yuan just smiled. With his current strength, such damage is naturally immune.

Qin Yuan asked Tang Xinyi:

"How long will it take to complete?"

"Now that the most basic introductory actions have been completed, the rest is advanced actions. By the way, Qin Yuan, how much do you know about our game?"

Tang Xinyi smiled at Qin Yuan and said, but when he heard this, Qin Yuan frowned slightly, because he really didn't know much about such games.

Qin Yuan has not played any of the various VR games currently on the market, and only heard of such a way.

"This is because I have less knowledge. I really haven't played such a game, but I think the research in your army should be different from the ordinary market."

"Of course, this is a brand new attempt. The above is also very important to us, and it has given us a lot of convenience. We naturally have to be serious."

After that, Tang Xinyi began to introduce their game to Qin Yuan:

"The original intention of our research on this game is to train fighters. It is equivalent to a higher level of video presentation materials. It will naturally be extremely realistic and serious, but no matter how much I say, it is better for you to try it yourself. If you have played, are you interested in experiencing our levels?"

Tang Xinyi said maliciously, but Qin Yuan was taken aback for a moment:

"Level? Isn't this a somatosensory game for you? Why are you still related to the level?"

"For this game, we have specially set up some real institutions in the camp, so that when experimenting, there will be more touches. If you are interested, you can challenge it!"

"Oh?"

Qin Yuan was also interested this time. Isn't this the so-called military breakthrough training? Listening to Tang Xinyi's words, it seemed very interesting.

But at this moment, Qin Yuan suddenly heard a voice in his mind:

"Ding Dong, congratulations to the host for getting the task, full marks for passing the military training of the Game Department, and rewarding a grid!"

Hearing this voice at this time, Qin Yuan was immediately full of energy, and said to Tang Xinyi:

"Okay, I just finished warming up, take this opportunity, go directly to see what your game looks like."

Tang Xinyi saw the excitement of Qin Yuan, took Qin Yuan directly to a room, and then said to Qin Yuan:

"Next, you have to use the technical actions you demonstrated before to pass this camp, and when you pass the camp, defeat the gangsters who suddenly appeared. There will be all kinds of people around. The small ball flew out to simulate bullets. I personally remind you that we have invited a lot of testers to participate in this game before, but they didn't even pass it!"

Qin Yuan took a closer look at this room like the maze at this time, and nodded: "It's okay, just let you see who is the real master."

This time Qin Yuan was also completely serious, and seeing that Qin Yuan was mentally prepared, Tang Xinyi walked over and handed Qin a helmet with a signal indicator and a pistol with a trigger. deep.

"This is your weapon. It feels similar to a normal assault rifle. It can be used normally in the game. This helmet has an immersive feel. Together with the surrounding designs, it is enough You have a real experience."

Qin Yuan took these two things and brought them directly.

Then Tang Xinyi saw that Qin Yuan had been equipped, and several operators under him did it, and the whole room suddenly became dark.

Qin Yuan walked to the forefront of the level with somatosensory glasses.

At this moment, in Qin Yuan's eyes, the rough bunkers just now became extremely real, which made Qin Yuan a little surprised.

Tang Xinyi looked at Qin Yuan at this time, and said to Qin Yuan: "3, 2, 1 start!"

With this sound, Qin Yuan rushed out like a cheetah, and he ran or jumped, and his whole body quickly turned into a flash of lightning, looking like a cheetah.

Chapter 209: give up?

When she saw Qin Yuan's movements, Tang Xinyi was also shocked. She didn't expect Qin Yuan to have time to adapt, and then suddenly pressed a button on her hand to the bottom!

Qin Yuan spotted a gangster at this time, and he jumped out from behind a wall. With a flick of the gun in his hand, a bullet shot out instantly, hitting the gangster in the forehead!

Then Qin Yuan found that in the upper right corner of himself, there was a word that added 10 points.

This is quite interesting!

Qin Yuan thought about it with interest, and in the next second, another gangster appeared directly behind Qin Yuan, and this one was even more hateful, because this gangster also carried a hostage on his body. If Qin Yuan is nervous, If you shoot directly, I'm afraid this bullet will hit the hostage directly!

However, Qin Yuan's reaction ability is beyond ordinary after all. At the moment of shooting, he directly deflected the gun in his hand and shot the gangster on the side!

At this time, the surrounding people also remembered a burst of dada, a red attack trajectory, appeared in Qin Yuan's line of sight, this is a bullet!

And Qin Yuan can dodge even real bullets. Naturally, he is not afraid of these and keeps on moving. He either dodges the bullet directly or blocks it by cover!

In this way, as Qin Yuan continued to move forward, his movements became faster and faster, and the frequency of the appearance of those bandits became higher and higher, and the speed of the small **** around him became faster!

But Qin Yuan was not hit by any bullets, nor did he reveal any gangsters, all of them scored full marks.

And when the last gangster appeared, Qin Yuan shot directly. Just about to kill the gangster, he suddenly realized that the gun in his hand had no bullets!

At this time, a small ball rushed directly towards Qin Yuan, but Qin Yuan did not advance or retreat, but directly loosened the gun mold in his hand and slammed it at the gangster!

With a click, the doll representing the culprit was directly smashed into pieces by Qin Yuan!

"Ding Dong! The test is over!"

Qin Yuan removed his eyes at this time and looked at the gangster whose head had been smashed off. It was just a sign with the gangster, and he was depressed.

Just now, he did not expect that the weapon in his hand would have no bullets. If he hadn't reacted quickly, he would have been directly hit by those red balls.

And this gangster only took one second to appear. If Qin Yuan hesitated for too long, he might lose the chance to score.

Seeing Qin Yuan's operation, the staff standing in the audience were completely stunned.

Because of this kind of operation, they didn't think about it at all. After all, who could think that in a vr game, you can throw the pistol in your hand!

This is a loophole they deliberately left to prank others, who would have thought that Qin Yuan would crack it instantly!

"Damn, this is too powerful."

"It's not a human being. We didn't even think of it. There is such a way to crack it."

"My god, is this the strength of the real top special forces? God-like reaction speed."

Qin Yuan heard the exclamation of these people at this time, shook his head, and asked Tang Xinyi:

"how about it?"

"It's beyond people's imagination, it's awesome, but the pistol sensor that you dropped is of great value, don't you think..."

Qin Yuan was a little dumbfounded when he heard this, and said depressed, "I will pay!"

"Haha, teasing you!"

Tang Xinyi looked at Qin Yuan with admiration at this time. She also wanted to use this technique to let Qin Yuan eat a turtle. Who would have thought that Qin Yuan would give him such a surprise.

"I have decided to add this last action of you to the game as a hidden way to pass the level!"

Tang Xinyi said to Qin Yuan excitedly:

"Do you know that many of the people I asked before were all planted in the last step. After all, they never thought that the stabbing gun in their hands would have no bullets, or they would be hit by bullets, or it was time to think. It's too long and was avoided by the culprits. You are the only one, and I think of throwing the gun over!"

Qin Yuan couldn't help but shook his head, feeling a little speechless. Although such a situation may indeed occur on the battlefield, if a real special soldier does not even understand the weapons in his hand, then he deserves to die!

But Qin Yuan thought for a while, but seriously said to Tang Xinyi:

"I think the difficulty of your game is a little too high? Even without the last option to dig a hole, it is difficult to complete without long training."

Hearing what Qin Yuan said, Tang Xinyi showed a sly smile and said to Qin Yuan:

"Of course, because I have adjusted the difficulty of your game to the highest level, have you noticed that these hostage bandits are appearing faster and faster, and those red **** appear faster and faster, that is, you, If it is someone else, even if there is no final level, it will be difficult for them to pass the level. So far, you are the number one in this game record!"

And Qin Yuan heard this, and just wanted to answer something, but suddenly heard a loud noise from the system:

"Ding Dong, congratulations to the host for completing the mission, successfully clearing the military game, and unlocking a grid!"

Qin Yuan also took a sigh of relief To be honest, although this game is cumbersome, it is actually quite interesting. It can effectively enhance the fun of training, and it must be helpful to those soldiers.

"Qin Yuan? Qin Yuan?"

It's just that Qin Yuan just came to his senses, but he saw Tang Xinyi in front of him looking at herself with a puzzled expression.

"Oh, I'm sorry, I'm lost, what you said just now, I didn't hear it, can you say it again?"

Qin Yuan said apologetically to Tang Xinyi, and Tang Xinyi gave Qin Yuan a blank look, and then said:

"What I asked you just now was, do you think my game has training effects for special forces of your level?"

Hearing this, Qin Yuan thought about it carefully, and then said to Tang Xinyi:

"If you don't, it's a lie. If you want to achieve a high score in this game, the amount of exercise is still quite large. If you play this game, your physical fitness and neural response can indeed be improved, but if you want to pass this To train truly top-level special forces in a way, I advise you to give up this idea."

"Why? I think it is so difficult, even you are not easy to bend."

Tang Xinyi is a little strange. After all, she feels that the difficulty has been adjusted to a very high level. Even some well-trained special forces cannot complete it. Why does Qin Yuan say that this method should be abandoned?

Chapter 210: condemn

Seeing Tang Xinyi's confused look, Qin Yuan laughed:

"It's very simple, because the real special forces are never trained, but played on the battlefield. The game is always a game. If you want to truly become a special soldier, actual combat experience is absolutely indispensable. It is a completely different experience from hitting a target. I think you should have an experience of this."

Hearing this, Tang Xinyi was silent for a while. She was thinking that her own game might have a great effect, but Qin Yuan was extremely correct. Their current level of technology is not enough to simulate the real killing of others. a feeling of!

But soon Tang Xinyi's mentality was adjusted, and said to Qin Yuan:

"Oh, forget it, I know, people like you are greedy, but I am greedy. I think military movements and physical strength can be trained in this way. After all, like you Perverted people are rare."

"This sentence, I assume you are complimenting me!"

Qin Yuan smiled slightly.

Tang Xinyi looked at Qin Yuan and smiled, and said to Qin Yuan:

"Okay, it's getting late, if you don't want to take a shower and change into clean clothes, you have helped us a lot, so I ask you to have a good meal!"

"Where can I eat good?"

Qin Yuan's eyes lit up. Could it be that Tang Xinyi had the permission to go out directly?

"Of course I went to the cafeteria, what do you think?"

"Ugh....."

Qin Yuan suddenly sighed. It turned out that he was going to the cafeteria. The dishes in the cafeteria were not as delicious as the dishes he cooked.

But if you don't eat anything, just go.

Thinking of this, Qin Yuan planned to take a shower, but at this moment, Qin Yuan went to the phone, but it rang

When he heard this ringtone, Qin Yuan's face changed suddenly, he walked over and connected the phone!

This is a bell that only sounds when there is a major situation. Hearing the sound inside, Qin Yuan knew that this time things might not be easy!

Then Qin Yuan said to Tang Xinyi: "I'm sorry, I'm afraid there is no way to eat with you this time. Send me back first."

Tang Xinyi asked Qin Yuan with questioning eyes, but Qin Yuan pursed his lips and smiled.

Tang Xinyi understood what Qin Yuan meant, and then closed her mouth without asking more questions.

Qin Yuan said to Tang Xinyi: "Don't worry, you can invite me to eat again when I come back from my mission."

After , Tang Xinyi quickly sent Qin Yuan back to the red blood cell training base, and when Qin Yuan came back, he found that the people in the red blood cell base had already gathered.

At this time, He Chenguang saw Qin Yuan entering the ranks, and said in a low voice: "Captain, what is the origin of this time?"

Qin Yuan also whispered:

"I don't know, but it sounds like something is not small, because the voice of No. 5 is almost deformed just now.

Hearing this, the faces of several people also became serious. After all, what can make Fan Tianlei lose his temper must be unusual.

At this time, Fan Tianlei also arrived here soon, his face was extremely ugly, and he looked at the players in front of him and said in a low voice:

"I won't talk about other things, Qin Yuan, you take a group of your red blood cells to the war room to listen to the battle plan.

Qin Yuan agreed, and then took He Chenguang and others to the combat meeting room.

Soon Qin Yuan and others arrived in the conference room, but found that the entire red blood cell training base, all the characters with faces and faces had arrived. Qin Yuan even saw He Zhijun's image on the computer on the side, which was driving in his own office. Electronic meeting.

I didn't even leave the time for this meeting, and started an electronic conference directly. It seems that the matter this time is really big.

The surrounding lights soon dimmed, and a figure suddenly appeared on the big screen, it was Lieutenant General Gao Shiwei.

Soon the meeting began, Gao Shiwei said in a deep voice:

"Golden Eagle, you first introduce the basic situation to everyone."

Fan Tianlei nodded, then stood up directly, holding a projector in his hand, and playing a few photos.

At this time, looking at these photos, the people of the Red Blood Cell Team suddenly felt a twitch, and their faces became extremely serious.

Sure enough, as they thought, the task this time is extremely difficult!

Because these two photos are not enemies, but dozens of corpses!

The first photo is on a fishing boat. The fishing boat is full of bullet holes and looks like it will sink soon. The fishing boat is also filled with blood stains. Although it is only a picture, it is It makes people seem to be able to smell the pungent blood.

The remaining picture is even more difficult to look at directly, because it is full of corpses that have been soaked!

These corpses have been male and female, and they are all tied behind their backs by people. Let alone resisting, I am afraid that it will be difficult for them to struggle a few times. Moreover, these people have a lot of bullet marks on their bodies. obvious.....

These people were first caught by the enemy, then shot, and finally thrown into the water.

I don't know how much time has been soaked, these corpses looked extremely scary, and each of these people looked like they were obviously from Yan country.

Seeing here, Qin Yuan suddenly heard a clenched fist, and Chen Sheng, who was standing on the side, said, "Is this the merchant ship of our Yan country Who did it, it was on our eyelids? This is how you hurt our citizens of Yan Country!"

At this time, Fan Tianlei also said to everyone with a serious face:

"The two photos you are looking at are just taken today, and they are located in the Meigong River on the border of our country!"

Brow River!

Hearing this name, Qin Yuan frowned immediately.

Mei Gong River Basin, located at the border between the country and our country, the environment is complex, and it is even closer to the poison nest, the silver triangle, which is famous throughout the world!

Silver triangle is almost synonymous with ice.

This is a world-famous ice-making factory, and it is located at the intersection of the three countries. It is not easy to manage and the transportation is developed. Countless criminals gather here to form a lawless black zone.

At this time, Fan Tianlei continued:

"This time, there were 13 Yanguo crew members who were killed in the Meigong River Channel. According to the report of the Taiguo police, these 13 crew members were identified as poisoned rice. They found 900,000 cases of new ice surface from this ship. !"

"Everyone understands what the 900,000 new-type ice surfaces represent? And our country's work in this area is extremely strict. Every ice surface is stained with the blood of our anti-drug police, so this is what happened. , The international condemnation voices against our Yan country!"
