

Special Soldier 2131

Chapter 2131: I also have a mysterious informant

Qin Yuan, not only did he not expect that Hassan would always be waiting for him here, but he also did not expect that Hassan would be so straightforward and directly ask him if he wanted to rescue the hostages.

"Of course I thought about it. If I didn't want to study these two students of Professor Fang De, the successors of these two relatively powerful arms experts, I would have gone back long ago.

Why do you still stay here and mess with them for so long?

Norman Karim is definitely not someone to be trifled with. I have already seen it. I don't want to have too much entanglement with him. If I can leave here quickly, I will definitely not hesitate. of. "

"Well, I think so too. If you can really leave here quickly, it will be a better result for us.

Fan Tianlei, he has been punished for the spy system.

If you look at it according to my ideas, you should not take any chances. It is impossible for you to contact the top brass of the army, and it is impossible for them to give you more information.

What you do is completely meaningless. "

Qin Yuan was very shocked when he heard what Hassan said. The other party was already lying in the hospital. How could he know that so many things happened after he got rid of Hassan and came back.

Hassan's expression was very calm.

"Qin Yuan, you don't need to be so surprised. The things I arrange will naturally be arranged by me. You don't need to think so much about me. I have already thought about these things.

No matter what happens in the future, I will never regret what I did today. "

"Hassan, does your leg still hurt?"

"To be honest, Efit doesn't want my leg at all, he wants my life.

However, while killing me, he also wanted me to receive some punishment.

He deliberately made my life worse than death. I understand why he did this, and I can also understand his mentality.

It's just that I don't quite understand why he must do this. It will not do him any good at all. This will speed up the process of the two of us joining together to deal with him. "

"Efit is simply a pervert. If you think about him from the perspective of a normal person's logical thinking, we will only lose miserably.

Also, no matter what kind of situation we encounter next, I hope that we can work together and pay it absolutely. This guy has always been a pervert, so you should not think about it with normal people's thinking. "

"Yeah, what you said makes some sense, but we have to think slowly about what to do next.

These are the things we are encountering now.

I'm afraid, it's not as simple as you think. We have to seize every opportunity and we can't let them have any possibility of dealing with us. "

"Hassan, let me tell you the truth, I came here to see you today just to see your attitude."

"What attitude do you want to see from me?"

"It has been many years since I came back to you from country H, why are you still so worried about it?

There are a lot of concerns about this. In fact, I have already thought clearly about what the problem is in this area, but I have never come up with a suitable result.

I still hope that you can give me a definite answer as soon as possible. "

"Forget it, this has been involved many years ago. You only know that I served as a spy in Fan Tianlei's army, but you don't know how I was discovered."

"Weren't you discovered by Fan Tianlei and the young Mr. Norman Karim together, and then sent you back to the country?

Is this why you are in these difficult situations today?

Could it be that I made a mistake? Or did things change in the meantime? Do I only know a little bit? "

"The person I really hate is Norman Karim.

On the contrary, I admire Fan Tianlei very much. He is really an upright man.

I didn't have any complaints about losing at his hands. I can only say that I didn't grasp my situation well, so they discovered it and took advantage of it.

However, Norman Karim is different, he is a very excessive person.

It was his machinations that exposed me, so he is the only one I really hate. "

"Oh my god, it seems like I know something terrible again. So for all these years, you have been going against Mr. Norman Karim because you hate him from the bottom of your heart?"

"Back then, he was really a man who would do whatever it took to make meritorious deeds. He and Fan Tianlei have always been completely different.

He is willing to sacrifice anything for his career, including the life safety of his good brothers.

I have already seen these things, but I have never seriously considered them. Do you know why? "

"You mean to say that he came out of the army, came to you, and got to where he is today because of his single-handed planning, including discovering your identity as a spy, which was a great help to his career?"

"if not?

Did you really believe the nonsense he told you? He couldn't bear to part with his relationship with Fan Tianlei, it was all nonsense.

I don't deny that there is indeed some brotherly love between him and Fan Tianlei. People are not like grass and trees, but they can be ruthless.

Fan Tianlei has always been very kind to him in the army.

This guy is also very cunning, but fortunately she has never done anything excessive to Fan Tianlei, and he regards Fan Tianlei as a character who can protect him.

Over time, the relationship between the two of them became really good.

However, he never thought of bringing Fan Tianlei to Ba Kingdom, let alone giving Fan Tianlei a little of his world-shaking wealth.

Everything is just your wishful thinking. Don't say that I am slandering him, because these are all facts. "

Qin Yuan is now deep in thought.

"Is it possible that he started planning it decades ago?"

"There is nothing wrong with a person wanting to be successful. A gentleman loves money and gets it in the right way. His mistake is that he wants to take shortcuts and take those crooked roads.

I can admit that when I was a spy in Fan Tianlei's army, I was discovered by them because of my inappropriate situation. I was still relatively immature at that time.

Inadvertently, many clues were exposed, and it was understandable that they would take advantage of me. However, I never thought that they would treat me with such an attitude.

I've thought about it so much, but still no one can let me go.

In this case, I can only die with them. I expected you to come to me today. I hope that the two of us can reach a better cooperation and tacit understanding.

As long as this matter is resolved, everything else won't be a problem at all.

I also hope that you can think clearly. No matter what happens, we have to consider the other party's attitude.

Next, no matter what kind of problem you have, I hope you can think it through carefully. Don't follow me to consider these things, which will cause everyone some difficulties.

The problem has already occurred. Next, let's think clearly about how to deal with Noman Kalim. The enemy of our enemy is a friend, and the two of us are friends now. "

"Hassan, please don't blame me for saying this. It may be impolite, and I don't mean to look down on you..."

Qin Yuan still had some hesitation. He felt that Hassan no longer had the ability to compete with Mr. Norman Karim.

"Qin Yuan, you must be doubting me, I can't do anything while lying on the bed, right?

I have been operating in Pakistan for so many years. I wanted to take advantage of the conflict between him and Old K and make them dog eat dog. I did not expect that you would not cooperate with me in the wild.

I even ran out. I know that my method at that time may have been a bit extreme, and it did scare you. Now that I think about it, I have a big problem myself. Let's not talk about each other. "

Qin Yuan still felt a little guilty. Facing Hassan, he was embarrassed with his now disabled legs. He was even more embarrassed when he raised his head and faced Hassan directly.

"Hassan, I'm really sorry. I never thought it would be such a situation and result. As long as you give me some more time, I will definitely help you."

"help me?"

What can you do to help me? You are in such a serious situation now.

I have been wanting to tell you for a long time that actually I don't blame you. Even if my legs become like this, it is just God's will!

If I hadn't taken such extreme measures against you, I wouldn't have been thrown into the wilderness by you. "

Having said this, Qin Yuan thought of a very important question, which was why Hassan came back alone. Could it be that all the people around him had been killed?

"Hassan, there is something I don't know whether I should ask."

"Do you want to ask where the brothers around me have gone? Why didn't I protect me well and my leg was injured."

"You are really a very smart person."

"They have already been arranged by me. When I am alone on the road, they will put all their targets on me.

In order to protect my brothers, I had to take this extreme method.

Because I know Efit, he will definitely find an opportunity to retaliate against me, so I have already thought of this step. They have returned to a safe place now, you don't need to worry. "

"You mean you sacrificed yourself to protect these brothers of yours?"

"Any questions?"

No, Qin Yuan, you are also a special forces soldier, and you have been in the army for such a long time. You should be able to understand the feelings between brothers and comrades-in-arms. "

"Of course I can understand it, but I didn't expect it to be such a situation. I still hope you can help me.

No matter what difficult problems we encounter next, we have to solve them slowly.

Now that they have returned to a safe place, I have nothing to worry about. I just didn't expect that you are willing to sacrifice one person to protect these brothers around you. It is indeed noble and upright, and not everyone can do it. "

"What a noble person.

We brothers don't care about these reputation issues at all. They all followed me in the special forces and came to the maritime force. Basically, in the entire Pakistani environment, they are considered to be at the bottom.

However, most of them have families. If anything happens, I have to take care of their families, so it would be better to sacrifice myself.

I have lived, half my life, competing with them.

If there is no result yet, then I can only say that I am a failure. If a failure is about to die, no one will care about him. "

"Hassan, please don't say that. You are not a failure at all. You are really amazing. I admire you very much.

In all these years, I have never admired anyone, But I only admire you. "

"You kid, you really talk about people and ghosts.

By the way, the most important thing you should do now is to rescue Fan Tianlei quickly. If the top brass of Country H know that Fan Tianlei is related to the intrusion of the spy system.

I can tell you clearly that his position as chief of staff will definitely not be preserved. "

"Understood, I have perfectly solved the problems I caused myself, but now there is a particularly big difficulty, that is, no one at the top of the army can give Fan Tianlei some information.

Let him not admit it, get rid of himself quickly, and don't bear the responsibility for us. "

"I have someone who can help you!"

"You? Could it be that..."

"Qin Yuan, I don't think you need to worry so much. It's not because there are still my spies in your army, but because there are my informants in Norman Karim's camp."

"How is this possible?"

"Why is it impossible?"

"Norman Karim has always been a very cautious person. If you want to arrange some of your own people around him and are discovered by him, what will be the consequences? The skin cramps may be mild.

How could anyone do such a dangerous task? "

"There is no airtight wall in this world. Even if Norman Karim is smart, as long as we are willing to put in some effort, there will be no problem in arranging people around him.

I can assure you that my choice is something he would never have thought of, and I have been planning it for many years, even starting more than 20 years ago.

Even if he knew the truth of these things, he would still die in peace. "

Hassan's proud expression says it all...

Chapter 2132: Start layout planning

Qin Yuan hesitated for a while now. He knew that Hassan must be thinking about something in his heart.

However, these issues are not enough for everyone to worry about.

What worries me the most is other aspects.

I just didn't expect this to be the case. The more troublesome it is, the more careful you have to think about the layout. Otherwise, it will be more difficult if this happens next.

Hassan smiled like this, as if he was thoughtful.

Qin Yuan can also feel that he is thinking about too many things in his heart.

For so many years, I have been persisting in doing something, and I have never been helpless. It is really not easy.

"Don't you believe I can help you?"

"Hassan, it's not that I don't believe you will help me, I just have to hesitate first. After all, the relationship between the two of us is not as close as I thought. Now that you are telling me these things, I have some doubts. The attitude is normal."

Hassan smiled.

He looked down at his legs, and then said to Qin Yuan.

"Look at my legs, they are like this now. No matter how much hesitation I have, there is no way I can solve it.

In fact, all these things can be said just now, but if this continues, it won't matter what we do. "

"Hassan, your legs are now like this, and I feel a little uncomfortable. I never thought that such a serious situation would happen.

I still hope you can think carefully about the situations we are encountering now and what is the most appropriate thing to do, especially now that we have no other options, and even more so no way out.

I still have to thank you for thinking about these questions for me.

Hassan, don't worry, I am partially responsible for why you are like this. I will definitely take responsibility for you. No matter what situation you encounter in the future, I will definitely not let you bear these risks alone. "

"Qin Yuan, your appearance in my life has actually given me a lot of encouragement. Originally, I thought that there would not be many possibilities with Mr. Norman Karim in this life.

I also thought that I might live my life like this in a mediocre way, with no chance of turning around.

However, after meeting you, you let me know that these things turned out to be like this.

I have nothing to say, I just hope you can help me think about these things clearly.

What should we do next, no one can answer.

It's just that when we think differently, we have to clearly understand how we are inferior to them.

I have already thought about these issues very clearly in my mind.

In short, I still hope you can have a clearer understanding.

No matter what situation we encounter next, I will help you without hesitation.

Fan Tianlei can't wait any longer. In this case, let's hurry up. Leave it to me what kind of news you want to give him, and I will help you find a way. "

"Hassan, delivering news to Fan Tianlei is a very dangerous thing. I don't want to harm you."

"Listen, I told you just now. I thought I would never have a chance to take revenge in this life, but now I have such an opportunity, which means that our problem can be found."

"But..."

Qin Yuan still hesitated a little, even though he knew that he came to see Hassan today just to clarify the doubts in his heart.

However, he himself did not expect that it would be such a result.

"Well, if you are absolutely sure, then I am willing to believe what you are saying."

"Hmm, what message do you want to convey to Fan Tianlei?"

"I hope he will not take all the responsibility on himself. It is best to tell him to choose to remain silent and pretend not to know."

"Is that all?"

"And I hope he can believe me. Sooner or later, I will definitely rescue it. Also, within a week, I will take these two students of Professor Fang De back to the H country army. "

Hassan nodded silently. He now admired Qin Yuan very much. He had already reached such a serious situation, but he could still say these words so firmly.

"Well, you have come over today and explained everything clearly to me. Then you can go back and wait for the news quietly."

"Are you just going to go back and wait?"

"Of course, I can't tell you who is going to do this specifically.

Also, I think you should think carefully about it. There is one thing waiting for you to deal with, and that is the fact that Jason has left your side.

I advise you to be more cautious, whether he really wants to join Mr. Norman Karim's group, or he is pretending to want to join their group, but he is actually trying to find out some information for you.

I advise you to be cautious.

Don't let him be exposed. Protecting yourself is the most important thing. The last thing you should do now is to alert the snake. "

Qin Yuan nodded silently.

"You actually know about Jason?"

"Mr. Norman Karim has my people beside him, and I have been planning it for more than 20 years. If I don't know clearly about such a small matter, my work for more than 20 years will be in vain. "

"Hassan, I believe you more and more now. If the two of us are together, we will definitely be able to complete this task very well. We all respect each other, but I don't know what the result will be next. ."

"No matter what the outcome is, it's fine. You can't delay it any longer. Don't worry about my legs for now. It's because I've become like this that they can let their guard down on me.

Maybe, this is also a good thing for me. "

Qin Yuan was very worried about Hassan at this moment. He had become a disabled person and could not even protect himself, let alone do other things.

Efit, this guy might be ambushing them, waiting to attack them. This is a possibility.

"I've thought about it too much, it depends on whether you all are willing to bear it.

However, you cannot tell anyone about the fact that you saw me today.

It's getting late now. You'd better go back. Don't alert Mr. Norman Karim. The two of us are already united. This will give him sufficient psychological preparation.

I don't want anything to go wrong before the goal is achieved. "

I have to say that Hassan is really a very cautious person, and after what happened, he has nothing to complain about.

On the contrary, they agree with the people around them, which shows that their arrangements are quite reasonable.

"Instructor Gong Jian, you should have already contacted me."

"When Fan Tianlei was controlled by the higher-ups of the army, he was the first person I contacted. But after all, he was only an instructor and Fan Tianlei's chief of staff. The difference was too far."

"Gong Jian has always been a very cautious person. Over the years, he has also followed the steps step by step. It was not easy to get to where he is today. He has the intention to help you.

However, he does not have such ability or courage. Although he has always admired you as a person, he still has to weigh it carefully against his own interests.

Don't blame him for being a timid person. This is all the result of everyone being wise in protecting themselves. "

"Hassan, you are really a very smart person. You have completely thought of every step I take. I also admire you very much, but what should we do next?"

"You go back first. Don't worry about me here. Just wait for the news from instructor Gong Jian. If there is any special situation on Fan Tianlei's side, he will be the first to contact you."

Qin Yuan nodded.

"Well, I'll trouble you about Hassan. If you can pass on the news to Fan Tianlei, please tell him that everything is on my shoulders.

He just said that there was a problem with the spy system, not that we had invaded the spy system. He knew nothing about these things. Anyway, there was no substantive evidence. "

"How is it possible that there is no substantial evidence?

The indirect system is a super rigorous system, but if someone breaks into it, there will definitely be some signs. If you say there is no evidence at all, it seems unlikely. "

"I have already taken care of all these things. There is currently no evidence of intrusion into the spy system. As long as we insist that others will not make a fuss about this matter."

Hassan was stunned. He had never thought that Qin Yuan could be so powerful. His ability to deal with people showed that he was a person with high emotional intelligence, but even the system could be dealt with. What was going on?

"Did you hack into the spy system to collect my information?"

"You know this."

"Qin Yuan, I can see that you are a very curious person, and you must be very interested in my past.

As long as there is the slightest chance, you will not give up.

Therefore, you will definitely invade the spy system and inquire about some questions about me, but these are all fine, and you don't need to care so much about the rest.

Next, we have to arrange step by step what situations we will encounter.

Although my leg is broken now and I can't move in bed, my brain is still flexible, and the connections I have arranged over the years should have paid off.

Norman Karim is at a critical moment in his confrontation with Old K. The two of us can use this time to do a lot of things now.

Also, for these two arms experts, I actually don't think they necessarily want to stay with me.

Because they are worthless compared to his teacher, Professor Fang De. This old professor is already in your hands, so there is no point in him keeping these two people.

The most important thing is that I may want to sell some favors in front of you.

I hope you can take this opportunity to have a good communication and contact with them, but I didn't expect that you would be so repulsive, which is also beyond their expectation.

This is just my own speculation, and you don't need to think too much about it.

However, we have to think carefully about the next issues. We must not decide them loosely like this, as it will only harm everyone. "

After hearing these words, Qin Yuan had no other thoughts and could only consider this issue first.

“Hassan, then I can only trouble you.

Seeing that the situation outside is not very stable, it is not suitable for me to stay here for too long. Since I have communicated these things clearly to you, I will go back first.

Fan Tianlei, if you can help me deliver the news, then I would be very grateful to you.

Mr. Norman Karim’s friend, Azhe, has been approached more than once. He said he could help me and the higher-ups in the army pass on some news. but I didn't believe him. "

When Hassan heard the name Azhe, there was a slight emotion in his eyes, and Qin Yuan could see it.

"At this critical time, you should not trust anyone, especially the people around Norman Karim. Who is real and who is fake? We all don't know who is real or fake."

"Yes, I think so too, but I still have to make it clear to you.

If this Azhe also comes to look for you, you have to be more cautious. I think this kid may not have any ideas of his own. He and Sophia are very close. "

"Sophia?"

“Yeah, Sophia is a very young and beautiful woman next to Noman Karim.

I always feel that there may be some unknown things between Azhe and Sophia. After all, they are both young people. If they have any impulsive behavior, they can understand it. "

After Hassan heard about Azhe, his face became very serious.

"I understand, you go back first, don't worry about my legs anymore, I can still bear this, and the technology is so advanced now, I will be given a prosthetic limb.

By then, I will be the same as before. If my position in the maritime patrol force cannot continue, I will have reached the age of retirement.

For so many years, I have been in the military system and never left.

It's nothing more than wanting to clear myself of suspicion and avenge myself.

I didn't think too much about other things. I just couldn't accept it. Back then, I was a person with a bright future, but they framed me behind my back. Therefore, I must find an opportunity to take revenge. "

"Remember, I can solve these things alone..."

Chapter 2133: sneak back to the club

Qin Yuan is also very uneasy now.

He didn't know if Hassan was reliable, but he had no more choice now. Apart from joining forces with him, it was better to fight alone.

"I'm also worried about the boys around me. If this is the case, then I won't tell you so much now. Let's talk about it when we go back first. I will report to you when I get better about other things."

Hassan smiled and lay on the bed and closed his eyes, as if nothing happened.

When Qin Yuan saw that he was ready, he followed the route he had taken, put on a mask, and pretended to push the car out.

Unexpectedly, when he just left the ward, he met the people arranged by Norman Karim.

"Wait a moment!"

When he saw Qin Yuan pushing the medical cart, he felt something fishy. After all, it was already late at night, and even giving an injection and taking medicine didn't need to be so grand.

Qin Yuan knew that this man might have some suspicions and was about to stop him, so he pretended not to hear.

"Wait a moment!"

Qin Yuan directly took a scalpel and put it in the palm of his right hand. He could feel that the tone of the man behind him was obviously a little anxious.

Qin Yuan could no longer pretend not to react, so he slowly stopped.

Then, the person behind who called him ran away and came to Qin Yuan in a few steps. He stared at his car with some suspicion and wanted to see Qin Yuan's face. He only saw that he was covering his face with a mask. strict.

"What happened?"

"It's nothing, it's just that it's time to take medicine. I just came out of the ward in front to help him change the medicine."

"No, I remember the attending doctor once said that this guy has just had his leg amputated, so it's best not to disturb him for a short period of time, and it's already late at night, why did you choose to change the dressing late at night?"

You are still wearing a mask so mysteriously, take off the mask and let me see if you are a doctor in this hospital? "

"I'm sorry, it's already late at night. As doctors, it's normal for us to change dressings, especially for patients with serious injuries like him.

There may be something wrong with you appearing here. For who you are, it is normal for you to be a chaperone now. "

Qin Yuan knew very well that he must not feel guilty at this time.

If he felt guilty, others would definitely see that there was something fishy, so he could only face the person in front of him boldly.

"Do you think I'm a chaperone? You don't even know who I am, do you?"

This guy looked a little difficult to deal with. When Qin Yuan saw this situation, he had some calculations in his mind, but he just wanted to prepare to fight with this guy.

Then I saw Azhe walking slowly from a distance.

"What happened at night?"

"Brother Azhe!"

"Didn't Mr. Norman Karim tell you all? We should watch this target person in the hospital, but we can't affect other people's rest. After all, this is a public place, and we can't rely on us to come and go. deal with.

I think you shouldn't think too much about it. You should find an opportunity first and leave here first.

Don't think about other problems anymore. It's not appropriate to always look for trouble here. "

"Brother Azhe, it's so late. This doctor just came out of Hassan's room with a cart. I wonder if he wants to attack Hassan."

Azhe could tell from Qin Yuan's profile that the guy wearing the mask was someone he was familiar with.

Qin Yuan was also very anxious, and his palms were sweaty.

I don't know what choice Azhe will make.

Unexpectedly, Azhe pretended not to know Qin Yuan, but was covering up for him.

"I saw this doctor when I was upstairs. He is indeed a new intern doctor who came recently. He may have some inexperience, so he came here wearing a mask.

It was normal to change the dressing at such a late time. It may not have been done without the attending doctor's instructions. They still had to bear with it and check it carefully to prevent infection of the wound. The weather has been too hot recently. "

This one was more suspicious. After Qin Yuan's horseman experienced Azhe's lecture, he began to doubt himself a little, and hurriedly stepped forward to apologize to Qin Yuan.

"Sorry, this is what happened to this doctor. Then why didn't you tell me when I asked you just now? You made the atmosphere very tense. I really thought you were someone."

"Who could I be?"

Azhe patted Qin Yuan on the shoulder.

"I'm sorry, this doctor is not very sensible among my subordinates. You should go back first. I just came here to check. I didn't expect them to cause so much trouble.

By the way, you just visited the patient in the ward. How was his wound? Is there any inflammation? "

"Overall, his recovery is relatively good, but he still doesn't like to talk. I can understand that his body has become disabled, and everyone will be in a bad mood."

At this moment, Qin Yuan thought that he was really a good actor. It was not easy for him to be able to tell these things as if they were true.

"Thank you for your hard work. Doctor, you should go back and rest first. If anything happens, I will call you again."

After Qin Yuan nodded, he quickly pushed the cart back to the infirmary where the dressing was changed.

Seeing that the window outside had been opened, he was now very sure that Azhe had just recognized him, but he did not expose his behavior.

I don't know what the other party is thinking, maybe he wants to use this matter to threaten himself. No matter what, Qin Yuan can't wait any longer.

He quickly changed his clothes and threw all the white coat and mask into the medical waste.

He quickly climbed through the window and left here. Although he was almost discovered just now, the control equipment around here was still not particularly tight.

Qin Yuan quickly found a taxi.

Let him pull her out of here quickly. This is what makes him most at ease. Only after planning so many things, can everyone follow the next plan step by step.

"Master driver, I'm going to the Xicheng Club."

"What?"

"Xicheng Club."

Chapter 2135: He played hard to get and became deputy chief of staff.

While they, each of them, were having their own thoughts, the sky was slowly getting brighter, and soon it was early morning.

"An Ran, you've been working hard for so many days, you'd better go back and rest as soon as possible.

Because I have already thought of a way to save Fan Tianlei. As long as he receives the news, I will start taking action immediately. If this is the case, everyone must recharge their batteries.

We cannot expose our shortcomings to the other party.

I also hope that you can think clearly about what I said today and never let them take advantage of us. But I have already said that you should not think about other things in this regard.

As a girl, you don't need to worry so much in front of me. My responsibility and obligation is to protect you. "

I have to say that An Ran was generally very moved when he heard what Qin Yuan said to him.

"Qin Yuan, I kindly accept what you said, and it's your intention.

However, you must not forget that in the army, I came out to complete the mission much earlier than you. For so many years, I have been wandering outside performing these secret missions, but I have never let anyone down. Pass.

Even Fan Tianlei, a person with such high vision, admired me very much when he saw him.

That's why I came here to help you. You must not feel that you are any better than me. You must protect me and don't have so much psychological pressure.

I think your macho mentality is too strong.

Who said that we girls can't compare with your progress in completing the task? I think you are just a little too narcissistic.

Now that you have said this, I have to prove my own strength even more, and I must not let you underestimate me. "

"An Ran, I know very well that you are a very strong girl, otherwise you would not have been able to complete these tasks alone and help us make a lot of achievements for so many years.

However, there are still many differences in the situation in Pakistan today. We cannot just act according to the previous behavioral logic. We must change our behavior to catch them off guard. "

While Qin Yuan was chatting with An Ran, he suddenly received a message from instructor Gong Jian.

"Oh my God, I really didn't expect things to go so smoothly. I thought I would have to wait two to three days."

"what happened?"

An Ran was a little anxious and quickly moved his head to Qin Yuan's side. When he saw the message from instructor Gong Jian, he was finally able to let go of the big stone in his heart.

"Hello? Instructor Gong Jian."

"Qin Yuan, I just checked the time. I thought it was time for you to rest at this moment, so I didn't dare to call you and send you a message. I didn't expect you to respond so quickly. ."

"How can I sleep when these tasks are not completed? Just like you told me, I definitely can't rest assured at all, but fortunately it has been solved."

"Just now I heard from the top brass of their army that Fan Tianlei suddenly spoke.

Moreover, he denied everything, which was completely different from his usual style. Did someone reveal some information to him?

Logically speaking, it should be impossible. He has been assigned a time and place. Even if you have great skills, you would not be able to deliver the message to him. Did you do all this? "

Qin Yuan smiled.

"Instructor Gong Jian, I don't know how to describe it to you.

However, these things did go smoothly. Even I didn't expect such a result. Fortunately, Thor denied everything, so we were able to have such a good opportunity to do this.

You don't need to worry. No matter what happens, none of us can give up easily.

Thor, if he denies this matter, I will be even more relieved. "

"Yes, Thor's ability to deny all these things is indeed a big surprise for all of us. As long as he denies it, I have some evidence that I need to submit to you and ask you to help me return it to the higher-ups of the army. ."

Instructor Gong Jian was very surprised.

"Ah? How is this possible?

You are far away in Pakistan. Although you already know these things, most of them are the information I revealed to you.

You said that you still have some evidence in your hand and can submit it to them so that they can resolve these matters quickly. Why can't I believe it? "

"Instructor Gong Jian, you should know very well what kind of guy I am. After all these years, I have never been the kind of person who follows steps.

Although I am relatively far away from the troops of Country H, since I found out that Thor was implicated by me, I have begun to prepare various evidences.

I have evidence to prove that Thor has nothing to do with the leak of the spy system.

As far as I know, there should be some internal loopholes in the spy system itself, which happened to catch up with Fan Tianlei and me, so it was just a coincidence that we all encountered these things by accident, and we cannot be held responsible for it. "

Instructor Gong Jian knows the ins and outs of the whole thing. Qin Yuan has completely denied everything now. Isn't this just telling lies with his eyes open?

"Qin Yuan, I really admire you more and more as a boy. You are too courageous. I know the ins and outs of this matter. Wouldn't it be difficult for you to say this?

The top leaders of the army are not fools. Even if Fan Tianlei denies everything, it does not mean that you two have nothing to do with this matter.

After you complete this task and return to country H, you will still have to undergo endless investigations. You should be mentally prepared. "

"Of course I'm mentally prepared!"

"So, are you going to deny everything now, or do you want to take it upon yourself?

Anyway, the top brass of the army already know about the leak of the spy system, and you two will definitely not be able to escape.

If spies in the United States and some people whom Thor has offended before want to add fuel to the fire, his position may not be preserved. "

What instructor Gong Jianzhi said is also true.

Moreover, they all considered it from their perspective. After hearing this, Ran agreed very much. He also felt that Qin Yuan's doing so was indeed a bit too risky.

However, none of them knew that Qin Yuan had already arranged all this in the system.

If he was not completely sure, he would never do this. It was impossible for Qin Yuan to tell them that he had such a systematic thing, so he could only let them consider it from the side.

After thinking for a long time, Qin Yuan said slowly.

"Instructor Gong Jian, I don't know how to explain this plan to you, but I have my own secrets that I can't tell you, so I hope you won't ask too many questions.

What I can promise you is that no matter what happens, you can just blame everything on me.

After I complete these tasks, I can make up for it. What I need is Thor.

He can return to the position of chief of staff, because I know that Du Bingbing has become deputy chief of staff. Although I don't know how he operates, it is not necessarily good for us that he can achieve this position. "

"It seems that you brat is quite well informed. You found out so quickly that he has become the deputy chief of staff."

"Thor God, he has completely denied these things, which means that he must have received the signals and news from me."

"Are you working with Mr. Norman Karim?"

When instructor Gong Jian heard what Qin Yuan said, he suddenly asked very seriously.

"Why don't you believe me? You should believe what I said is right. How could I cooperate with people like them to kill me? I won't even do that."

"Despite this, I can't consider what this problem will be like. As a result, I still have to make it clear to you. No matter what happens next, you have to think clearly.

Qin Yuan, I know you are worried about the God of Thunder. Over the years, you have had a relationship with him that is both a teacher and a friend. You don't want to see him because your affairs are implicated, but you must not go there casually. Decide.

We can think clearly about these things in our hearts. No matter what the future holds, you all have to consider the results according to what I have said. Don't be too impulsive, as this will not do anyone any good. "

"Instructor Gong Jian, don't worry, I know what you mean by these words. You are afraid that I will cooperate with Norman Karim and others, so you have embarked on a path of no return.

You can rest assured on this point, although I am very worried about Thor.

However, I still have a bottom line in what I do, and I didn't choose to cooperate with them. As for Thor, I still have some plans in mind about how he will arrange it.

I think these things are enough to prove that our next decision is completely correct. As long as it is something you think, I will never have any ideas. "

After hearing this, An Ran quickly stood up and spoke for Qin Yuan.

"Instructor Gong Jian, I know that your suspicion has some basis, and I also very much agree with your idea, but Qin Yuan and I have always been together.

I can help him prove that he is not cooperating with Mr. Norman Karim in any case, which I am absolutely sure he will not do.

He won't betray his truest thoughts. You don't have to be so anxious to doubt the things he did.

Norman Karim has indeed approached him many times, but no matter what the other party's request is, he has never agreed. This is his bottom line as a soldier. We all know very well that we will not cause you any trouble because of these things. "

After An Ran said these things, instructor Gong Jian also knew Qin Yuan better.

There is not too much doubt, and his strangeness is not just a day or two. It is not that this child has no ability, but that his ability is too powerful, even beyond everyone's imagination.

"Okay, as long as you think I have a need in this regard, that's all. I have to remind you that no matter what, we as special forces in the army must have a bottom line, and we must not collude with them."

"Of course, thank you for your concern."

Since Instructor Gong Jian left Qin Yuan, and Fan Tianlei has been controlled by the higher-ups of the army, he has been very uneasy and has never been at ease.

I didn't even get a good night's sleep.

"Qin Yuan, I know that you are in a very difficult situation in Pakistan, but no matter what, you must maintain your bottom line. If necessary, you should quickly seek help from the higher-ups of the army."

"No, no matter how difficult I am now, I will never take the initiative to ask the higher-ups of the army for help. This will only make them look at me with admiration. I have already tried my best to decide these things and I have no idea. .

However, I still have to tell you that regarding what kind of Thor we are thinking now, he has completely denied these things and needs further investigation. You said you want to provide me with some evidence. "

"Thunder God has always understood me relatively well. Fortunately, he didn't speak. He waited until he received some information before denying it. This is a completely correct process. I can provide you with these clues and I will help you in the next step."

"That's good. I don't have any special ideas about other things. As long as you think these are okay, I won't suffer at all.

Fan Tianlei, he really treats you as his own child and has always been very good to you. Even if he is asked to shoulder everything on his own, he will never hesitate. "

"Yeah, I understand.

Therefore, no matter how difficult it is for me here, I will never embarrass the God of Thunder. This is a tacit understanding between the two of us. As his good apprentice, I will not let him down.

I will transmit all the relevant evidence to you in a moment. Please help me submit it to the higher-ups of the army. After they have read it, they will go to the first army for Fan Tianlei's investigation.

I believe that the suspicion of Thor will be cleared soon, and he no longer needs to stay in there. After he comes out, he can provide me with more solutions.

As soon as Fan Tianlei comes out, our mission will definitely make rapid progress. I can guarantee you that we will bring back these two students of Professor Fang De within a week.

By the way, I heard that Professor Fang De has found a special medicine and he is now out of danger? "

"Yes, this is all thanks to Deputy Chief of Staff Du Bingbing."

Chapter 2136: Looking for a qualified teammate

An Ran listened to the conversation between Qin Yuan and instructor Gong Jian. He still had some thoughts in his mind. He felt that submitting evidence was still very important. If it was left to someone he didn't trust, it might have the opposite effect.

"Have you really thought about leaving this matter to Instructor Gong Jian?"

"We are not with Thor now, and it is most appropriate for him to do this.

Moreover, we can only ask him to help us settle this matter. After all, we are far away from home, and I still have many important issues to deal with. I will definitely not be able to go back in a short time. "

"Although we can't go back now, we can think of other ways.

Instructor Gong Jian, it took him so long to get a place in the army.

It would be bad if we affected his position.

Of course it would be best if Fan Tianlei could be rescued successfully, but if he has any problems, it will only hurt others, and I don't want him to be unable to keep his position as instructor.

This is also an available candidate for us. According to my opinion, it is better for us to be cautious and not to be caught by others. "

After Qin Yuan listened to An Ran's words, he thought about it seriously, and it was not like he had never thought about this issue.

He also didn't want it because Thor's incident would affect the people around him, but he had no more choices now, and this was the only way to do it.

"An Ran, what you said makes sense, and I have also thought about this issue.

However, I have never denied my choice, which means that I have already thought about it. No matter what, I must do this to ensure everyone's safety.

These evidences are very important, and we can only rest assured if they are handed over to the people we trust most.

The matter of Thor is very important. As mentioned just now, in addition to being monitored by others to protect us, there is also a very important reason, which is that he has offended many people over the years.

Some people with ulterior motives want to take advantage of this opportunity to do something unfavorable to them. We should also avoid this direction of development.

If we just wait and successfully rescue the two students, Professor Fang De, it will be too late for us to take care of Thor's affairs.

So, after thinking about it, I thought the same way just now.

No matter what happens, we must first maintain Thor's status in the entire incident. He is indeed an extraordinary person.

No matter what happens, we all have to take responsibility for it.

And after saying so much, I still hope that everyone can think clearly about what is the most appropriate issue in this regard.

We have accumulated a lot of this evidence, and it is very difficult to find this evidence. It can prove the innocence of Thor and it is very important and cannot be handed over to people who do not trust it.

In the many years since I came to the army, I have only had two people around me. One is instructor Gong Jian, and the other is Fan Tianlei.

Apart from the two of them, to be honest, I don't trust anyone in the army, even those with a higher position than Fan Tianlei.

The internal spies haven't been caught yet. When the situation is ripe and everyone is at war, don't ask for help from those you don't trust.

Besides, I am very confident that this matter will definitely not implicate instructor Gong Jian. Instead, it may make him perform more prominently in front of the higher-ups of the army. "

"What you mean is that you hope that he can pass this matter and have a chance to perform in front of the higher-ups of the army. Although you are relatively kind-hearted, he may not be able to think of your intentions."

"Instructor Gong Jian, he definitely doesn't care about this issue. I believe he must be a person with an innocent heart!"

"Qin Yuan, although I don't know how you collected this information, I can still feel that it is really not easy for you to do this, and you really think about everyone.

Thor, I'm not sure whether he can successfully save him this time.

I don't dare to think about this. It's really too much pressure to leave everything to you alone.

Coupled with Jason's problems, I feel a little sad that you have to face so many things alone.

So whatever happens?

I hope you can think clearly that I am always by your side and I will definitely help you. If the two of us work together, it will definitely not be a problem to successfully rescue these people. "

At this moment, Qin Yuan suddenly thought that another person was indeed a good choice, but it was a bit risky.

"What did you think of again?"

"How do you know what I'm thinking of? It seems that you are really a smart person.

This is indeed the case, and I thought of a suitable candidate who can help us deliver the news. This candidate is Du Bingbing, who has just become deputy chief of staff.

If he is willing to help Thor clear away the suspicion at this time, I think he will definitely have a better impression in front of the senior leaders of the army.

This is also a very good choice for him.

I believe he will not miss this opportunity to perform.

However, doing so is indeed a big challenge for him. We don't have a deep emotional foundation, so I don't know if he will be willing to help. "

An Ran shook his head helplessly beside him.

"Qin Yuan, I think you chose Du Bingbing when you were desperate. If you had to choose between the two of them, who do you think is the more suitable candidate?"

"Du Bingbing!"

Qin Yuan didn't hesitate at all, he chose this girl directly, which made An Ran feel a little uncomfortable.

"It seems that from the bottom of your heart, the person you trust the most is still him. You have already said so. Then I have no choice. I can only support your decision."

"Don't get me wrong, I don't mean anything else, I just want to tell you.

We have had so many situations happen now.

No matter what happens next, if you want to choose someone to help you, I have no complaints and will support you. I don't think there is any improper relationship between you and Du Bingbing.

I just think that you are doing all this for Thor, and I feel very moved for him. "

At this time, He Chenguang had been eavesdropping outside for a long time. After he deceived Xiaolan, he continued to eavesdrop on the two people talking outside.

I just didn't expect that they would be so bold.

What's more, he didn't know where Qin Yuan found the so-called evidence that could prove the innocence of Thunder God and it had nothing to do with their overall incidents.

These are things that these people cannot think of even if they want to.

Qin Yuan, having such a cheating system around him really helped him a lot and made him the best person in the entire special forces.

Therefore, he was able to come here to complete the task. This is all related to cause and effect.

Qin Yuan himself didn't want to think so much. What he wanted to do was to get Fan Tianlei back successfully, and then he could be free to do these things.

Without Fan Tianlei by his side, Qin Yuan has always been in a more cautious state.

He knew that Thor could speak for himself in the army, and he could handle most things on his own.

If Thor has any shortcomings in the future, or if he does not hold such an important position in the army, no one may be able to treat him like him in the future.

Qin Yuan is not a fool, and he is unwilling to do anything to get a promotion or a salary increase.

He could only place his hope on Fan Tianlei, hoping that there would be such a person who could shield him from wind and rain at all times and take responsibility for the more impulsive things he did.

An Ran saw Qin Yuan so anxious, and he felt very distressed next to him.

"How can we help you? You have to leave everything to you alone, and we can only watch and worry from the side. Then there is no point in my coming here."

Qin Yuan could feel that An Ran, such an outstanding girl, seemed a little dull in front of him.

They even began to doubt his ability, and even more doubted Thor's purpose in letting him come here.

"An Ran, you don't need to feel that you are lacking because of others' excellence, and there is no need for the two of us to compare with each other.

Everything I did today was for all of us.

You can also see that neither Norman Karim nor Efitte are easy guys to deal with.

Especially for this Norman Karim, I hope Thor can come out quickly and help us give us an idea. After all, they were very good comrades when they were young.

Moreover, we may also know each other better about him and know what kind of temper Noman Karim is. This gives us a great possibility to solve the problem.

That's why I was anxious to let Thor out.

Don't be anxious or excited. No matter what, we have to solve this matter.

I'm always a little worried about Thor being inside. I'm afraid that many problems will arise because he was taken away by the top brass of the army and hampered. "

"I have thought about it a lot, but we don't know exactly what to do about these things. We can only listen to you alone about the things we encountered today.

I can't control much else. I know you are a very persistent person. As long as you make a decision, no one can stop you. "

When Qin Yuan heard what An Ran said, he smiled knowingly.

"Thank you for understanding my temper so well. If you hadn't been by my side, I would have been really flustered sometimes. Whenever I was particularly anxious, only two people could dissuade me.

One is the God of Thunder and the other is you. You two have a very important position in my life, so you must not doubt your own position in my life. "

Qin Yuan is sometimes quite good at making girls happy. After An Ran listened, he would immediately feel happier when he said these words.

"Then have you decided which of the two of them should do this?"

"Du Bingbing, I've measured that his instructor Gong Jian is more suitable for this matter.

Because he is a girl who is decisive, cruel, and courageous. In addition, he has just been promoted, which means that his impression among the leaders of the army is still very good.

At this time, it is the best choice for him to speak.

After all, his boss is Fan Tianlei. At this time, he can help his original boss get rid of doubts and dangers. This proves that he is a very clean person and does not have too many ideas.

It is also of great benefit to him, and I believe he will not refuse. "

"Okay, I have just said that no matter what decision you make, I will definitely support you. Since you chose Du Bingbing to do this, you should contact him quickly, Do I need to avoid it?"

"You can go and see Chen Jixiang, or both of them."

Qin Yuan had already said this, and An Ran understood it immediately. It seemed that he still hoped that he could avoid it. He didn't know if there was any ulterior secret between him and Du Bingbing.

"Yeah, okay, Chen Jixiang, this kid has always been very worried about you.

Now I can go out and tell him the good news and let him stop worrying about Thor. This kid is quite thoughtful, although he is usually very clever.

But when I think about Thor, he must still be worried about his future in the army, so I will go out and tell him the good news, so that he can feel relieved. "

When Qin Yuan saw An Ran being so considerate, he felt some indescribable feelings in his heart. He was both grateful and had a better impression of him.

"Then go ahead. I will contact Du Bingbing now. If he agrees, I will immediately transfer the evidence to him. He and instructor Gong Jian will cooperate internally and externally, and we will succeed soon."

"OK."

After saying that, An Ran opened the door and went out.

He Chenguang heard that An Ran was about to come out. He quickly found a corner and hid inside, preparing to continue eavesdropping on the conversation between Qin Yuan and Du Bingbing.

In order to return to the United States, he is basically doing whatever it takes to return to the United States, and he doesn't even care about the brotherhood he had with Qin Yuan.

After Qin Yuan thought for a long time, he quickly contacted Du Bingbing.

Unexpectedly, the other party didn't feel any surprise. He seemed to have been waiting for Qin Yuan to take the initiative to contact him.

"I've been waiting for so long, and you finally got the news. I thought you had given up."

Chapter 2137: Formal submission of evidence

Qin Yuan smiled and said.

"Doctor Du, oh, no, to be more precise, I should call you Deputy Chief of Staff Du. Congratulations. Congratulations. I didn't expect that I just left country H, and you have already been promoted in just a few days.

It really surprised me. For someone like me who has been in the army for several years, it is really embarrassing to be considered a first-class soldier in front of you now. "

"Qin Yuan, you don't have to be arrogant in front of me. I know you have always thought that my desperate behavior of just climbing up is very shameful.

However, I must remind you that only when I reach a higher position can I help you, and everyone should have dreams, and the goals we all pursue are different. "

"I understand that you can pursue more goals, and you also want to reach a higher position. To be precise, you should be motivated in a good direction.

However, if you want to make progress yourself, you shouldn't let others pay the price for you. You have been forcing Enron to find ways to help you find a specific medicine.

You obviously have channels to get this kind of special medicine, why do you still force him?

Do you know that he has been very anxious for so many days, and he almost suffered from depression due to you forcing him to do so? "

Du Bingbing heard Qin Yuan and helped An Ran speak. He was a little unhappy now.

"Qin Yuan, I know that you and An Ran have known each other for a long time, and the relationship between you two is also very unusual.

However, I still have to tell you that I do this naturally based on my thoughts.

Now you are just an ordinary soldier, you are not qualified to ask so many questions in front of me, and this is also related to the confidentiality of our entire matter.

Even if you ask too many questions, I won't be able to tell you the secrets in the army.

I know that you came to me today to ask for something from me. Do you want me to help Fan Tianlei speak in front of the senior leaders of the army? "

"The deputy chief of staff is indeed a very smart person. What you said is only half correct."

"Whether what I say is half true or completely true.

I have to tell you, even if I had just been promoted and was a popular person in the eyes of many senior military officials, I would not dare to do such a risky thing.

You should be well aware of what mistake Fan Tianlei made. He invaded our country's spy system.

Leaking so many secrets can already be treated as a crime of espionage.

Why do I have such a big reputation? Even if I tell the truth, the people who talk about it may not listen to what I say, and instead they will think that the two of us are of the same school.

By then, I had just received the promotion, and these benefits would be gone.

Since I am already a very vain woman in your heart, you can understand when I say this. I cannot be irresponsible for my future or even take risks because of you. "

"I knew you would say this. Don't worry. If I dare to come to you, I will definitely not ask you to do things that have no results. I never fight an uncertain battle.

Du Bingbing, I now have some evidence that proves that Fan Tianlei has nothing to do with the leak of the spy system. All of this is a loophole created within the spy system itself.

I can use this evidence to prove that they really wronged the Chief of Staff. "

Du Bingbing knew that Qin Yuan was a capable person, but they never expected that Qin Yuan could turn black into white.

"Qin Yuan, even if you are talking cleverly, I have to tell you that it is of no use to say these things without any basis. You must provide evidence to prove that Bantian has nothing to do with these things. You are not here at all now. Our country.

Pakistan is so far away from us, so whatever you say is what you say. Do you think everyone is a fool? You still regard the army as your own home and you can say whatever you want.

Here, everything you say requires responsibility and military responsibility. "

"Of course I understand.

If, if something is wrong, you will have to accept the punishment from above.

I have been a soldier for such a long time, and I know much more than you do. The hierarchy in the army is very strict, and the rules are relatively strict. I know these things better than you. "

"Okay, Qin Yuan will let you know the seriousness of this matter, and I won't advise you anymore.

I also want to tell you that many things are not as simple as you think. You should also think about it carefully. You cannot always let yourself say something in front of us. These problems are enough to cause catastrophe. . "

Du Bingbing is very serious now, although he has some affection for Qin Yuan.

However, when faced with matters involving interests or even more serious matters, he must still be very calm. This is the biggest difference between him and Enron. Enron has some sensibility.

Du Bingbing, he is a completely rational person. Even if he has some emotions in his heart, he can restrain them. This is what is very difficult. Sometimes he himself doubts whether he is a robot.

Perhaps, growing up in a military compound has cultivated such a calm and steady character in him.

"Qin Yuan, you probably have nothing to say now, you have been completely convinced by me.

These are all good things I'm telling you. Don't worry about anything now.

After you complete your mission and come back, I will speak for you in front of the senior leaders of the army.

Don't think about Fan Tianlei's matter anymore. As long as you are safe and sound, the most important thing is to protect yourself. "

After Qin Yuan listened to Du Bingbing's words, he murmured to himself and sneered.

"Hmph~

Protect yourself wisely?

Fortunately, you can say these four words. It seems that you still don't understand the relationship between me and Fan Tianlei. "

"What kind of place do you think the army is? Is this a place for you to talk about feelings?

Here we are talking about rules, and those who are talking about discipline are talking about evidence.

Now all the evidence shows that Fan Tianlei has violated the highest level of disciplined discipline, and it is impossible for the top management to let him go easily.

Besides, you should also know very well how many people his character has offended over the years.

There are many people who want to take this opportunity to pull it down from such a high position.

It would be a good thing if he could keep his military status. It is simply fanciful that you still hope that he can keep his position as chief of staff. "

"Du Bingbing, our views are completely different, and I don't want to explain this much to you anymore. I came here to help you today, and I just want to ask you, are you willing to help? "

"If you have evidence that proves that Fan Tianlei is completely innocent and has nothing to do with this matter, I can help you.

However, if you want me to help him speak in front of the senior leaders of the army based on emotion without any evidence, there is absolutely no way I will agree.

I can't sacrifice my own future because of your affairs.

There are many things I have to consider, not only myself, but also our entire family. I can't let our entire family be embarrassed with me. "

"Okay, since you have said so, I will tell you clearly.

I do have proof!

Moreover, the evidence is in my mobile phone. As long as you agree to help, I will submit all the evidence to you.

I can guarantee that this matter will only benefit you and not cause any harm.

The relationship between the two of us is just that of ordinary comrades-in-arms. It's impossible for me to drag you into trouble, and I don't have the guts to do so. "

Du Bingbing originally had some doubts, but when he heard Qin Yuan tell him so categorically, he somewhat believed it.

"Qin Yuan, do you mean what you said? Are you kidding me? Why do you have evidence?"

"This is my own plan. Although I have completed the task so far away, I also know that I cannot implicate those innocent people.

Therefore, I said that there is a lot of evidence inside, and after these evidences are handed over to you.

You must treat it as a first-level secret and must not leak it. This is related to Thor, his own future and his chances of escape.

If you leak this evidence and affect Fan Tianlei, the two of us will be complete enemies. I will never forgive you again. No matter what happens, I will never want to see you again in this life. "

"Are you threatening me?

Qin Yuan, when will you get rid of your arrogant attitude? You took the initiative to beg me today, not me.

You want me to help, and you still refuse to say a soft word. Is it so difficult for you to say something nice to me? "

"It's not that it's that difficult. I just want to tell you that between the two of us..."

Qin Yuan originally wanted to tell Du Bingbing that there was no possibility of any relationship between the two of them, but thinking of this, he decided to take it back. After all, he was asking for help now, and he went to help Fan Tianlei get out of the crime.

"It's nothing, I just thought of how we had such a tacit understanding last time when we completed the task in the country.

You and He Chenguang can be regarded as comrades who have gone through the test of life and death. They should be on our side and will not do things that harm us. "

"Stop telling me these useless words.

I have told you many times that no matter what happens, I am willing to face it with you, but you just don't believe me. You always think that I am a very cold person and that I am not worthy of joining. in your camp.

Okay, let's not talk so much.

I have already promised you this, how can you make me do it so that you can trust me, and when will you be willing to give me the evidence? "

"Are you anxious to see Fan Tianlei, proof that he is completely innocent?"

"I am now the deputy chief of staff. Even if Fan Tianlei is removed from his position, I will not be able to take over. He will immediately become a full chief of staff.

This will not do me any good at all. If I say this, can you believe me? "

After Qin Yuan finished speaking, Du Bingbing thought about it seriously. The two of them felt a little distrustful of each other, but no matter what, it was fine.

Du Bingbing agreed.

"I also want to tell you one thing. As long as this evidence is submitted, the other party will definitely not make any excuses. It will take about a week or three days of investigation.

Fan Tianlei should be able to come out safely, but I hope you can shorten this matter to three days, because within a week, I will take Professor Fang De's students back and successfully complete the mission. "

"Qin Yuan, I think you should stop talking nonsense. You have been in Pakistan for almost half a month.

So far, you have made no progress, and you are still trapped in this club by Norman Carem.

You said that within a week, you can complete all the tasks and bring everyone back safely. I think you are talking big. "

"Haha, Du Bingbing, you still don't understand me well enough.

No matter what price I have to pay, I will work hard for this.

I can even issue a military order. If it cannot be completed within a week, you can punish me in any way. "

"Okay, let me repeat the point of view of the Chief of Staff. I am willing to accept this military order from you. Within a week, if you cannot lead all the people to complete the mission and come back successfully, then we will punish you in any way. ."

"no problem!

You don't need any paper certificate, because I know the habits in the army, and you have become deputy staff officer.

All calls between us will be recorded, but you have the right not to let this recording be circulated.

If one day it is really useful to you, you can take out these recordings as key evidence. "

"Qin Yuan, I have only known you for a relatively short time.

However, I didn't expect that you still know me so well. We can already reach a consensus between the two of us, so you can hand over the evidence to me now.

I have obtained this evidence, and after reviewing it, I will submit it to the higher-ups of the army tomorrow morning to help you prove Fan Tianlei's innocence.

Moreover, I can also promise you that if we shorten the investigation time to three days, our family's energy is still relatively strong and we can still do it. "

Qin Yuan found Du Bingbing. In addition to the superficial reasons, there was another reason, which was because his family's energy was relatively strong and he could help the God of Thunder from the side.

"Yeah, okay, you have already said so, then I will officially submit the evidence to you now."

Chapter 2138: Submit evidence and wait for results

Qin Yuan was already preparing to submit all the evidence in his phone to Du Bingbing. Although he was a little uneasy, there was a voice in his heart that kept telling him.

Don't be suspicious when you employ people, don't use people when you are suspicious.

If you don't believe that Du Bingbing will help you, then there is no need to hand over all these important evidences to him.

Now that you have chosen, believe what the other person says and don't have any doubts.

This will only increase their own troubles, so after thinking so much, they are all relatively calm, especially Qin Yuan. He himself feels that he should do this instead of doubting more.

He just felt that these things did have some difficulties in his heart, and they were not enough to solve everything in front of him.

However, to do it well, he must believe in these things, and everything else is not so important.

"Du Bingbing, the fact that I can ask you for help today shows that I actually value the relationship between the two of us as comrades-in-arms. I hope you will never let me down."

As a result, after Du Bingbing heard Qin Yuan's words, he had no other reaction and just smiled beside him.

"why are you laughing?"

"I'm not laughing at anything, I just think you're interesting.

You obviously have some doubts about me, but when you have to choose me, you can only do this. Don't you think it's funny that you are entangled?

And now I have made these issues very clear to you.

No matter what your thoughts are, I will definitely help you, but as a result, you always have so much distrust of me over and over again. What should I do if you ask me?

You think that since I am a refined immediatist, you should not blame me for everything.

What's more, I have just been promoted in front of the senior leaders of the army, and I also want to perform well.

It depends on how you think and choose.

Don't always say these things in front of me. I don't think it's necessary. Many things may not be as simple as you think.

However, I still have to pay a lot to do this.

I have just been promoted. If the senior leaders of the army think that there is any relationship between me and Fan Tianlei, do you think it will affect my future future in the army?

I have paid so much for you, if you still have so many doubts about me.

Then I think it is really unfair behavior. "

When Qin Yuan heard Du Bingbing say this, he still felt a little embarrassed.

He knew that he shouldn't do this and it wasn't appropriate, but after thinking about it for a long time, he still had some hesitation. But it was okay. It just depends on how they think about it, which will make it more appropriate.

It won't be the case anyway, there are too many excessive ideas.

He just didn't think clearly about what to do. It was this situation that made Qin Yuan even more anxious.

He felt that since he had chosen to believe the other person, he could just close his eyes and give him everything he had.

"How is it? Qin Yuan, you haven't thought it through yet?

Do you want to hand over all the evidence to me?

If, if you think clearly, I can tell you this here. If you don't think clearly, then I have nothing to say. I can't force you to do these things. "

Qin Yuan made up his mind while thinking.

"Okay, Du Bingbing, I know I shouldn't have so much distrust and suspicion towards you. This is my own problem. I just need to adjust my mentality. You just need to agree to help me. You don't need to think about anything else." too much."

"That's good, this evidence is very important to Fan Tianlei.

It is even related to his life and death, so I hope you can think clearly about what I am telling you today. "

"I've thought it through, you told me so.

It is impossible for me to doubt your motives again. If I have any problems, it will be my own reason and has nothing to do with you.

I know that I shouldn't do or think this way, and I don't want to say too much. "

When Du Bingbing heard Qin Yuan say this, it was a sign of trust in him. In fact, he was very happy in his heart. He didn't care what kind of person he was in Qin Yuan's heart. He only cared about Qin Yuan, how much this person was in his heart. importance.

"Can I send the evidence to your mobile phone via mobile phone?"

"Don't be anxious, you should also know that all communication tools used in the army to communicate with the outside world must be monitored.

Qin Yuan, if you don't want more people to know, don't send it to my personal mobile phone.

I will give you a brand new contact information. Only when you send it to that mobile phone can you ensure that it will not be monitored by high-level officials. "

Qin Yuan was surprised that Du Bingbing's arrangement for this matter was so reasonable and even he had not thought of it at all.

"I can't see it. At such a young age, you actually know so much about these things in the army."

"It's not that I know these things in the army, I mainly know the behavior of this group of people too well.

Especially now that I have just been promoted, it is normal for them to monitor me so much.

I am also willing to accept the supervision of my superiors, because I am not afraid of doing anything wrong, and I am not afraid of ghosts knocking on the door. I have not done anything bad to our H country, and I am not afraid of them monitoring me.

However, There is a lot of confusion among the top brass of the army now, and you also know that many spies have not been caught so far.

Therefore, if I expose these things now, it is likely to have some unnecessary impact on Fan Tianlei, those spies from other countries.

What they are most afraid of is people like Fan Tianlei who refuse to take soft and hard advice.

His behavior really makes those with evil intentions tremble.

Finally, he is in trouble now. Those with ulterior motives will definitely try to make things worse for him. In order to prevent such a thing from happening, I must be careful and more careful. "

"It seems that your thoughts are really thoughtful. I also admire your thoughts."

"That's enough, Qin Yuan, although the two of us have known each other for a relatively short time, I fully understand what kind of person you are, so please stop forcibly praising me in front of me.

I know it well in my heart, and I also know the consequences of what I do. Don't worry, I am willing to pay something in order to help you. "

He Chenguang, who had been outside and listened to the conversation between the two of them, felt generally uneasy now.

Chapter 2139: Those people only do foreign work

Xiaolan, after hearing what Sophia told him, he is now sweating profusely and his hands are shaking.

Over the years since he came to Norman Karim from the United States, there has been generally no progress. The main reason why he has even gotten closer to Efit is because he is afraid.

I remember that when he first came here to work as a spy, he was full of enthusiasm and hoped to accomplish something.

But as time went by, not only did he make no progress, but he did some outrageous things during the internal compliance test, and he could no longer look back.

In addition, I saw with my own eyes how Norman Karim dealt with the traitors around him.

As a girl, it is normal for him to be a little scared. Although spies are specially trained, their endurance is generally stronger than that of many people.

However, Norman Karim himself also came from the army. His psychological quality is to compel most people, coupled with his experience in operating various things over the years.

He is the truly terrifying opponent now, and Qin Yuan has not yet realized such a serious problem.

At this time, Qin Yuan and Du Bingbing were discussing in the room how to transmit all the evidence back without anyone noticing.

"Qin Yuan, how many things do you have in your hand?"

"Why do you ask?"

"Please can you stop being so vigilant. I actually chose to ask you this question. It was naturally based on my own thoughts and plans.

I just told you, if you want to believe me, give me the evidence.

Because, before I receive these things and submit them to the higher-ups of the army, I will definitely check them. You have always been bold, and you know very well how many shady things are included in them.

I have to check it and go through careful screening before submitting it to the higher-ups of the army. Although I am willing to help you, I cannot sacrifice it at the expense of myself. "

"Du Bingbing, I accept your idea.

Don't be so sensitive all the time. It seems that no matter what I say, you feel that I am targeting you.

I am not such a person at all, and there is no way I would do this. You have already promised me, and I have nothing but gratitude for you.

I hope you can think clearly that the two of us have encountered so many difficulties.

Next, what should be the most appropriate thing to do? These issues have been dealt with a lot, and I also think you should check it out. This is all excusable.

You are willing to help me, I am grateful beyond words.

When I return to the army, don't worry, I will definitely go out and treat you to a big meal to make up for all the trust you have put in me during this period of time.

To be honest, I haven't met a friend as interesting as you for a long time.

I know how much danger and difficulty you need to face if you want to help me. Naturally, I feel the most grateful. I don't have any other ideas, and I can't be so hypocritical. "

"Qin Yuan, I have known you for such a long time.

You seem to have never said these polite words to me, but now I have heard them all, and I am very satisfied.

In this case, I will give you a mobile phone number, and then you need to enter a password when you need to transfer anything. The password is the day I enlisted in the army. "

From what Du Bingbing said, Qin Yuan could tell that the girl in front of him should care about his identity and position.

"Other girls' passwords are most likely related to more memorable dates.

For example, it's your birthday, or your boyfriend's birthday.

You actually chose this day to join the army. This is enough to show that joining the army is a very important thing for you.

Moreover, it can be regarded as a relatively profound memory in your life.

I never thought that you were someone who valued being in the army so much. I originally thought that you came to our army just to give yourself an extra layer of gold to facilitate your future development.

Now it seems that you attach great importance to this sacred profession, and I know more about you. "

"Fan Tianlei has already told you that I am a related party.

I came to the army to complete the mission with you, just to make my experience look richer, so that my future promotion in the army will be better.

However, I do have thoughts in this regard, but it is not entirely for this purpose.

Because I know what my mission is as a special forces soldier, and I don't want to explain it to you anymore.

I will definitely do what you want me to do for you, but the premise is that I will review what you transmit.

At the same time, I don't want an outstanding person like Fan Tianlei, who considers our army, to be plotted by others and never have the possibility of returning to the army in the future.

It is indeed a very important thing to betray the spy system. What I am more afraid of is that electronic spies from other countries will pour dirty water on him and slander Fan Tianlei as a real spy.

At that time, not only will he not be able to keep his position, but he will also have to undergo trial and be transferred back to other countries. This is really scary, and the reasons behind it are also chilling.

If that's the case, then I have nothing to say.

As long as you think it's okay, there is absolutely no problem with It just depends on how we discuss it. But having said so much, I still hope you can understand the difficulties we are encountering now. All can be solved.

Professor Fang De, he is slowly getting better now.

Moreover, I told him that your situation here is still very difficult, but you still did not give up on saving his two students. He can be said to be very touched.

It seems that he may still agree to help us create some more advanced weapons.

He said that for so many years, whether it was Norman Karim or Old K, not only one person came to him and asked him to help make some more advanced arms, but he never agreed.

Because this is the principle he wants to adhere to in his heart.

He hoped that there would be no war in this world, but he knew our thoughts, and after our senior leaders met with him to formally discuss some matters, he slowly realized the seriousness of what he had done. of narrowness.

Willing to help us study these things.

However, some of our students are still relatively lagging behind and need help from these two students.

Chapter 2140: Never betray your teammates

After He Chenguang came in, everyone present was a little embarrassed and didn't know what to say to him. At least everyone felt that there was nothing unnecessary to say to him.

"Why didn't you two say anything when I came in? Is there something you're hiding from me?"

"There's nothing I'm hiding from you. The main reason is that we don't know what to say right now. After all, many problems are quite troublesome."

"Did you hear the two of us talking outside?"

An Ran was better at focusing on the key points, so he immediately asked about He Chenguang.

The sudden question made him feel very embarrassed, as if he was really listening to the two of them talking secretly.

"I have nothing outside, so don't be so nervous when I hear you two. I just want to come in and discuss with you what to do next."

"What should we do next? What are you talking about?"

"Qin Yuan, stop pretending to be stupid here.

Jason, he has chosen to betray you and join Mr. Norman Karim's camp. He knows that many of our secrets have already been told. Don't let your guard down so much when facing strangers, and you shouldn't tell him. These words.

Well, now, he already knows too many secrets about us. What will we do if he tells us all the information we know? "

"Jason, he wouldn't do that."

"Hmph~

Qin Yuan, An Ran, it seems that you two are really a match made in heaven, both of you are equally clear and stupid.

If Jason doesn't do this, he won't be able to betray you and join the other side's camp. Even if he doesn't betray us more information, he knows everything about old K.

I think the current situation is very unfavorable to us, so we might as well give up the rescue plan and go back quickly. "

"The rescue plan must never be given up, and now that we have so much information, giving up casually will only make the other party anxious.

All of us have said it many times, no matter what, we cannot give up what is in front of us.

Mr. Norman Karim, he has his own thoughts and opinions, and based on what I know about this person, he hopes to make these things in the hands of old K no longer valuable.

He wants to take his place and become the controller of a new underground arms trading system. "

After An Ran listened to Qin Yuan's words, he stood there and thought about it silently and said.

"Qin Yuan, I think what you said is very reasonable. At least it's not a big deal for what we know now. And since I know these things, there is nothing to worry about."

"The underground arms trading system has nothing to do with us now.

Although this is something Fan Tianlei has always wanted, we shouldn't just implement this plan first.

The underground arms trading system has existed for so many years, and Fan Tianlei can't do anything about it. How can we have time to take care of so many things when we are here? "

"I tell you, please stop thinking about these things.

As long as we all think it is feasible, there will be no problem. And as far as I know, the underground arms trading system has always been in the hands of Old K.

However, he is getting older now, and he will definitely find someone to be his successor in the future. "

"It's useless for us to say this. As members of a special forces, we should be very strict and complete the mission according to the arrangements of our superiors.

Before leaving the H country army, the task given to us by the prisoners was to bring back these two students of Professor Fang De.

Apart from this, we should not focus our energy on other places, and this is not what we want to do.
"

He Chenguang is now anxious and a little overwhelmed. He doesn't care about many things at all. The only thing he cares about is to return to his country as soon as possible.

"He Chenguang, I think you have been a little too indulgent recently."

"Qin Yuan, what do you mean by saying that?"

"First of all, I want to state that I have no other ideas. Secondly, I want to tell you that we have been here for such a long time. Even if you don't want to stay, I can understand your mood.

However, you must not be anxious. For us, being anxious does not make any sense. "

"Qin Yuan, I also want to know what you are thinking. I have always regarded you as a good brother, and I think your ability is much stronger than mine, so I am willing to be with you.

Even in Pakistan, a strange and foreign place like Pakistan, I still believe that we have certain abilities to protect the brothers around us.

I don't know what you are thinking. If you really want to join Mr. Norman Karim's camp, you should tell me. "

Qin Yuan was completely shocked when he heard what He Chenguang said.

"I said you know what's going on? What's wrong with your brain? You actually think I want to join their camp, am I crazy?"

I keep my identity in mind at all times. I know that I am one of the best members of Country H's special forces.

There are no weak soldiers under a strong general. With a commander as strong as Fan Tianlei, how could a few of us do such opportunistic things? These two students of Professor Fang De will definitely be taken back.

By the way, there is one very important thing that you probably don't know yet. "

"What's important?"

"Du Bingbing has been promoted. He is now deputy chief of staff."

"How could it be so fast?"

We are all members of the special forces. If I don't have such qualifications, that's fine.

Qin Yuan, you have been here for so many years, and you have always made various achievements. You can probably count the third-class merits on one hand now.

If you want to be promoted, you should be promoted.

Why should a young girl who has just arrived here be promoted? I know that their family may have some background, but this may indeed be a bit unfair.

Everyone else can see that even if there are some operations, they cannot be so blatant, and they do not take us serious and hard-working people to heart. "
