

## **Special Soldier 2151**

Chapter 2151: There are 2 ways to go

Qin Yuan looked back at Chen Jixiang.

"I know you are all very worried about me now, but what I have to let you know is that no matter what happens later.

None of the things we are facing now can be solved by satisfying ourselves. "

An Ran also knew very well that Qin Yuan was under too much pressure now. No one was willing to force him to do anything, but so far, the problems they had encountered were unprecedented.

"Azhe said he could provide us with a way to go back, and I think what he said was half-truth.

We don't have to believe it completely, but we absolutely cannot give up on what he provided us, and the most critical issue is.

I feel that if we can really achieve some good results through this matter, then it can prove from the side that everything we do is the most correct choice, and there is no need to make others embarrassed.

We have no way to easily solve the situation we have encountered.

Qin Yuan, you have to know that today is different from the past. Don't forget that the God of Thunder can no longer help us do anything. His current attitude towards this matter is probably just his own failure.

All the sources of information I had were withdrawn and handed over to Du Bingbing. Although, I don't know what kind of deal the two of them made.

After discussing it, they may no longer care about our matter.

But what you must understand is that it is not easy to find an answer to the situations we encounter.

Many people may have their own ideas on this aspect, especially Du Bingbing.

His plans for these things are completely different from what we imagined. I think he should have his own ideas and special requirements.

If we can't solve this situation, I'm afraid there will be some difficulties in whatever problems we encounter next, so I have nothing to say now.

The best thing I can tell you is the issues at hand.

What should we do specifically is the most appropriate thing to do? The most important thing is not to let others doubt the difficulties we have encountered now.

Many people may think that the problems we are encountering now are quite extreme and cannot be easily solved without authorization from superiors.

That's because they don't understand the relationship between Thor and you.

To put it bluntly, the relationship between Thor and us can be said to be very good. After all, we all know in our hearts that we are all thinking about each other. How could there be any delay in communication on this matter?

So it's okay for other people to say this. As long as we think it's feasible, we can figure out all these things without anyone's explanation.

Qin Yuan, I think you are right. In fact, we cannot completely rely on anyone else with our current channels. We should make ourselves believe it.

For example, Thor's matter is a very big challenge for us. Thor, he is no longer willing to help us anymore, this is very certain.

No matter what happens next, we have to solve it ourselves.

This has also put a lot of pressure on us. You see, the manpower we need is now insufficient. This guy He Chenguang is not worthy of trust.

So, we have to think of other ways, which puts a lot of pressure on us. I think we should think about it carefully.

No matter what kind of situation we encounter next, we cannot let others make it difficult.

I have also made it very clear that what other people think is not important at all, what matters is the truest thoughts deep in our hearts. "

An Ran, after talking about these things, Qin Yuan was really enlightened.

"An Ran, thank you for being able to tell me this when I was confused.

As you just said, we don't know exactly what kind of deal there is between Lei Shen and Du Bingbing. We need to ask Lei Shen in person after returning to the army. "

"Where is instructor Gong Jian?

When he was in the army, he valued you very much, especially in this regard. He was never stingy and was willing to help us speak.

Although his position is relatively low, after all, he is still an internal member of our team and can help us. I think he should not know at this moment the trouble He Chenguang has caused us as a US spy.

In fact, he should hold a lot of secrets in his heart, but we have no way of knowing it for the time being, so there is nothing more to say about this matter.

As long as we think it is the most correct choice, others will certainly not have any concerns.

However, this will test the relationship between us. If we can think about it carefully, there shouldn't be any big problems.

However, Du Bingbing will not help us so easily. They will definitely make some deals with us. I also know that each of us has our own ideas, and we are all troubled by this matter.

Even though I have nothing to say after saying this now, the most important thing about other thoughts is that I hope all of you can understand.

No matter what happens, we are definitely responsible for it.

Azhe, what he said just now is that he is willing to send us back. This is really a very good choice. I think what Sister An Ran said is very reasonable.

We don't need to reject him, but we can stabilize him temporarily and see what channels he provides us.

If he provides us with a sea channel, then we can find another air channel.

If we ask Du Bingbing for help, as the chief of staff, he can contact our embassy in Pakistan. It is also possible to send a helicopter to send us back at that time.

The embassy should have a high degree of autonomy in sending us back, and it is definitely much easier than we thought.

Instead of insisting here all the time, we might as well think of other better ways.

I think we can keep what Azhe said. If one day we are really desperate, we have to ask this guy for help.

Qin Yuan, I know you don't want to cooperate with this person, but you have to weigh it carefully. The problems we are encountering now can no longer be delayed any longer.

Now that Efit has decided to join Mr. Norman Karim's camp, this just shows that Mr. Norman Karim may not be willing to pursue your cooperation with him anymore.

This means that we have lost the value of utilization now. Once we lose the value of utilization, I am afraid..."

Chen Jixiang, after analyzing these things, Qin Yuan also looked at him with admiration.

In the past, I just thought that this kid was a little clever, but I didn't expect that he could help me plan these things now. It's not like I brought him out to practice in vain.

It really provided a lot of help to myself.

After An Ran heard this, she also felt very relieved. Now that Chen Jixiang was there, this boy could help Qin Yuan, and they would no longer be nervous about this matter.

Maybe after this matter is finished, they can all feel relieved.

After all, for this group of people, many issues may not be worth mentioning in their minds, but the topic they are talking about now is indeed related to the interests of many people.

Mr. Norman Karim is actually planning to cooperate with Efit now, so he will definitely not continue to cooperate with Qin Yuan. Efit and Qin Yuan are simply natural enemies and cannot even coexist. .

Therefore, Efit may be able to help Mr. Norman Karim, but he will definitely provide some conditions, such as asking Mr. Norman Karim to embarrass Qin Yuan.

Thinking of this, they all became very anxious, especially An Ran.

This issue may have been overlooked before.

Mr. Norman Karim regarded Qin Yuan as a talent, so he said that Mr. Norman Karim would try his best to satisfy him. Even if he knew that he was unwilling to cooperate with him sincerely, he would definitely be tolerant of him and not kill him.

It's different now. They already have a new partner. Doesn't that mean that if Efit doesn't want Qin Yuan to stay here anymore.

I am afraid that Mr. Norman Karim will also follow suit, and then Qin Yuan and all of them will be in great danger.

When An Ran thought of this, his hands began to tremble.

Qin Yuan sat on the bed and saw An Ran's hands trembling and was very concerned.

"An Ran, what's wrong with you?

I see that your hands seem to be shaking all the time. Do you have a cold?

What you have been going through in the past two days has been really serious and caused you a lot of trouble.

It's okay, don't worry, it will be fine after we get out of this incident. After we return to our own territory and return to the army, I will definitely ask Thor to find a military doctor for you and take a good look at it. "

"That's not the case Qin Yuan, you misunderstood me.

I'm not scared or trembling, I just suddenly thought of a very important thing, and we have to take this into consideration.

If we ignore it, this will be a great loss for each of us. Please listen to me and tell you slowly. I just suddenly thought of the relationship between you and Efit. .

They have always been incompatible with each other and dislike each other. Now Efit has decided to join Mr. Norman Karim's team.

That means that he will definitely be dissatisfied with us. If he makes any demands, such as getting rid of you, and Mr. Norman Karim wants to do it, we will be in danger.

This is their territory, we have to be more careful. Now that Mr. Norman Karim is protecting you, you can naturally do whatever you want here unscrupulously.

If, after the next step, the other party has other questions about us, that would not be good.

This situation will be a very difficult problem for us to solve.

Therefore, if it really doesn't work, let's run away quickly. After running away, the other party may not be able to find us, so there won't be any embarrassment.

It won't be like the current situation, where we all stay here trembling, which can be considered frightened. "

After An Ran finished talking about these things, Chen Jixiang did think so.

Everyone agrees with this matter, and everyone is sincerely worried about Qin Yuan's safety. Although everyone knows that Qin Yuan is not an ordinary person, he is very capable and seems to have super powers. Same.

Even if they don't know that Qin Yuan has such a powerful system behind him to help him, everyone can still feel that he is extraordinary.

It's just that after Qin Yuan heard An Ran say these things, he not only didn't hesitate nor had anything to worry about, he actually took the matter of breaking the law seriously.

"An Ran, after you said this, I understood what you were worried about.

It doesn't matter, I can tell you clearly, just keep your heart in your stomach. This guy Efit will never dare to do anything to harm my life and safety. I can guarantee this.

And I also have enough confidence. If we run to now, where can we go?

This is the territory of Mr. Noman Karim. He has always covered the sky with one hand in Pakistan. No matter how far we run, we can't escape from his sphere of influence.

Fortunately, Azhe has decided to join our camp now.

He is the most proud person around Mr. Norman Karim. Once he betrays us, we have nothing to worry about. Now let's see what Mr. Norman Karim is planning to do between Jason and Effit. What kind of cooperation is there?

Jason will definitely find an opportunity to contact us again, and this secret won't last long.

There is nothing for us to be anxious about. If there are any problems next, we can just solve them together and we won't be so anxious.

Especially the situations in front of me have been discussed here, so just listen to me carefully.

Even though these current problems are troublesome, we absolutely cannot shrink back because of them. Thor has told us more than once.

Never shrink back as a human being, let alone be a coward.

There is no need for cowards in the army. If we are afraid to shrink back and run away now, then this mission will not be completed at all.

Therefore, Thor will feel very disappointed with us.

As for me, in fact, I don't want anything else in my life. I am just afraid that others will be disappointed in me and never trust me again.

I am also the king of soldiers among the special forces. I have never failed in any mission, and it is the same this time.

All you need to do is trust me and leave all other matters to me. I will definitely not let you down. "

Chapter 2152: Jason, stop pretending, I know it all

On Azhe's side, he had just come out of Qin Yuan's room.

Now he was ready to go find Jason. He knew that he could no longer waste time. Mr. Norman Karim was a very impatient person.

So Azhe turned around and looked around. He knew that the current situation was not very optimistic for him.

Immediately afterwards, Azhe came to Jason's room and saw that his room was still brightly lit. The fact that the lights were not turned off meant that this guy was still awake.

Perhaps, he didn't dare to sleep. After all, he was in a strange place, and there were so many secrets in him now. Once a person hides secrets in his heart, it means that he will suffer from insomnia.

Unless you are a person with particularly good psychological quality, you really cannot resist such great pressure.

Mr. Norman Karim is not an ordinary person, and his mission is not an ordinary mission. If he really fails, he will definitely be doomed.

What's more, he also has a daughter in Qin Yuan's hands.

In fact, thinking about this, Azhe still sympathizes with this person. Although there is not much connection between the two of them, everyone has compassion.

Moreover, after Azhe heard that Jason had a daughter, he seemed to think of his own childhood situation, and he couldn't help but sympathize with this little girl he had never met.

Knowing that he had congenital heart disease made me sympathize with him even more.

After Azhe thought for a long time, he also recalled what he had just said to Qin Yuan. In fact, he was sincerely willing to help Qin Yuan leave.

Even though he knew that this mission was very dangerous, when he was at sea, he had a pair of close friends. The captain of the maritime transport fleet was his best friend.

The relationship between the two of them is kept secret and no one knows, neither Hassan nor Mr. Noman Kadim knows about the relationship between the two of them.

It would be relatively easy for Azhe to use his relationship with this person to send Qin Yuan and the others away, but he didn't want to think about it now.

He also wanted the other party to have a more definite answer on this matter.

In a short period of time, if he did not need to complete these transactions, he would not be able to alert his friends because he was also afraid that he would implicate the people around him.

Azhe knew more clearly how dangerous the tasks he was doing now were, but he was also in a dilemma.

On the one hand, he wants to help Hassan. After all, he is his savior.

When he was a child, if it weren't for Hassan, he would have froze to death and starved to death on the streets, but Mr. Noman Karim had healing grace for him and not only nurtured him.

Instead, keep him by your side and always let him do the good things. This is the greatest trust.

For people like Mr. Noman Karim, he has a lot of money and can give charity to countless people, but his trust will never be given easily.

When you gain this trust, you gain a huge and precious treasure.

He was unwilling to deceive someone who believed in him so much, so Azhe felt very entangled and painful thinking about this. On the other hand, the relationship between him and Sophia was also unknown.

In fact, when Azhe thought of this, he smiled helplessly at the side.

How could it be Jason who should really be unable to sleep? It should be him.

So, while thinking about it, he walked to Jason's door.

Jason had not slept in the room. He was struggling with how to complete this task better. Although he had made up his mind to sacrifice himself for Qin Yuan, ensuring his own safety was definitely the most important thing.

After all, when he thought about his daughter Yaya, she was definitely not so willing to die on her own initiative.

So he has been thinking of a plan to get the best of both worlds, and he hopes he can only have a good discussion with Qin Yuan.

At this moment, with his keenness over the years, he quickly noticed someone outside the door. Jason picked up a fruit knife next to him and put it behind him.

He walked to the door with a bang and gently put his ear to the door panel.

This is a series of relatively coherent movements that seem to have been engraved in his muscle memory.

Hearing the noise outside, Azhe also knew that Jason was a very cautious person and didn't want to scare him anymore, so he knocked on the door gently.

"Jason, are you asleep?"

"Who is it? It's so late."

"It's me, Azhe!"

"Well, I haven't slept yet. I just came to Mr. Norman Karim's group. I have always been very excited and nervous. I haven't fallen asleep yet, thinking about how to complete Mr. Norman Karim's task. my task."

"Jason, it seems that you are really dedicated. No wonder Qin Yuan spoke so highly of you before.

You'd better open the door first. I came to you today for something important. If I want to tell you that it's okay, it's just the right time for the two of us to have a good discussion on how this plan should proceed. "

Jason felt that it was so late that someone came to him and there must be something fishy. His subconscious mind was not to open the door.

Because for so many years, he had not had a good night's sleep in the middle of the night, for fear that the old K, whom he had betrayed, would send a killer to find him.

"Jason, I know you have a lot of concerns and are unwilling to open the door, but I can tell you directly that Mr. Norman Karim asked me to come here.

He asked me to come to you. I have something very important to tell you. You must not waste any more time.

If Qin Yuan knew that your brother was not having a good life here, I don't know how he would feel. He would definitely be very anxious and would like to take you back to him as soon as possible. "

Jason, after hearing what Azhe said, it was obvious that he wanted to threaten himself. Although he was not satisfied, he still had to open the door.

By the way, take a look at this guy. What important things do you want to talk to him about?

So, Azhe then put the knife behind his back and quietly opened the door.

"Hurry up and take out the knife behind you. I have no ill intentions towards you, and Mr. Norman Karim asked me to come here today. At the same time, I also want to inform you that a very important news."

"As expected of someone who is valued by Mr. Norman Karim, his acuity is quite strong. He actually knows that I have a fruit knife in my hand and I can't hide anything from you. In fact, I didn't want to hide it from you.

If you want to attack me today, the two of us will have to fight to the death. It doesn't matter, my life is not worth anything. You are still in your prime, and you will definitely protect yourself. "

"Jason, I don't have time to talk to you about these things here. I am here today to tell you that many problems are not as simple and easy as you think.

When I come here today, I also have to remind you, Mr. Norman Karim, that he has his own ideas. Please calm down while you are here. This plan has changed.

I know the relationship between you and Qin Yuan. You came here today not to surrender to Mr. Norman Karim. You just wanted to find an opportunity to get specific clues about the two students of Professor Fang De.

These things have been clear in my heart for a long time. Don't treat others as fools.

Therefore, I am not afraid after saying this. You know that I came to see you today just because I want to discuss cooperation with you. We can talk straight to the point.

There's no need to be so secretive, it's really pointless.

As for me, I have always been quick-tongued and straightforward. I can tell you clearly news that is not very good for you.

Of course, the premise is that you want to know whether the information I am telling you is useful to you. "

Jason, after hearing what Azhe said, he smiled beside him.

"Since you took the initiative to come to me so late, you must have something very important that you want to talk to me about. Regardless of whether this secret is useful to me, you have already made up your mind to tell me, haven't you?"

"Okay, you've already said that, and I don't have anything to hide. I can also tell you directly that the person you dislike the most is also your former good brother.

He had suddenly made a decision that shocked us all.

Efit plans to join our group. At this moment, he is in Mr. Norman Karim's room. If you don't believe it, you can come with me and take a look. This fruit knife.

I am definitely not lying to you, because it was Mr. Norman Kaliwo who asked me to come over to you.

He knows that you and Efit had a lot of grievances in the past, and he doesn't want to affect his overall plan. He hopes that under his adjustment, the two of you can laugh away the grievances.

From then on, he became his right-hand man and worked for Mr. Norman Karim with peace of mind.

I came here today to tell you this, and I hope you will be mentally prepared in advance. Don't be too excited or feel any surprise when you meet Efit later.

Perhaps, you should know this person better than I do, and what kind of character he is.

He took the initiative to come to Mr. Norman Karim today because he lost this batch of arms, and if he couldn't explain it to Old K, he would probably end up with a bad end.

He just took the initiative to surrender today. Of course, this is just my own guess.

Exactly what he was thinking in his heart, no one could put aside his chest and take a look at it. "

Jason, when he heard Azhe say that Efit was ready to join their camp, he must have been very excited. After all, he did not have any advance expectations or mental preparation for these things.

"Efit's decision to join Mr. Norman Karim's group means that he will betray old K.

Over the years, everyone is very aware of the overt and covert battles between Mr. Norman Karim and Old K. What he does now means that he will completely betray the Old K Group.

Is it because he really has no way to explain to Old K the whereabouts of this batch of arms?

Probably not. I think Lao K is very old now, and he needs people like Effit who he has used for many years and who are trustworthy.

If only because of the problems with this batch of arms, he was not worth betraying.

Or it's because Old K is very old now, and he thinks that he really has no new hope in the group.

That's why I decided to change my family.

Of course, there is a third possibility, but I hope it is not this possibility, otherwise it will affect the overall pattern of this matter. "

Azhe asked in confusion after hearing what Jason said.

"You said there is a third possibility, but I would like to hear what this third possibility is.

Jason, please don't make any pretense here. We especially believe in you, and I can tell you that Qin Yuan is also paying attention to this matter all the time.

If you lied, I would also lie to Qin Yuan. "

"Azhe, I must remind you not to take this matter too seriously. Find out what kind of relationship you have with Qin Yuan at I can't tell you. I will be loyal to Mr. Norman Karim from now on. Since you have already asked that, I must tell you, what is the third possibility? This is just my own guess."

"Then tell me."

"The third possibility, if nothing else happens, is this guy. He colluded with Old K. He came to seek refuge with Mr. Norman Karim today just as a pretense."

"You mean the same as you?"

"Azhe, I sincerely want to say these things to you, but please don't let me embarrass you.

What do you mean by pretending like me?

I came here sincerely to help Mr. Norman Karim in exchange for the benefits I wanted.

You must not slander me here, I am also a dignified person.

If you continue like this, I don't think it is necessary for me to stay here. By then, it will affect Mr. Norman Karim's overall plan, which may not be a better thing for you. "

"Jason, there is no need to keep pretending between the two of us.

Because Qin Yuan has already told me that Qin Yuan and I now have a cooperative relationship on many things, including what is the purpose of your coming to our group today. "

"Azhe, it's useless for you to tell me all this, and I'm not interested at all.

What I want to say now is that since Mr. Norman Karim asked you to come to me to meet this guy Efit, I have nothing to say.

Let's set off now. I also want to see what kind of state this old friend of mine, whom I haven't seen for a long time, is in. Maybe the two of us can really turn our hostility into friendship. "

Chapter 2153: People who ask questions knowingly are the most stupid

Jason, looking at what Azhe said to him, he now has no way to determine whether what the other person said is true or false.

"Jason, I just told you so many things, shouldn't you express your attitude?

Or, have you always wanted to adopt a delaying method, and wait until I leave before you can consider \*\*\*\*\* Hassan? "

"Azhe, let's not discuss whether the matter between the two of us has anything to do with Qin Yuan.

Killing Hassan was an obedience test arranged for me by Mr. Norman Karim.

Only after passing this test can I join your group and become a formal person. Otherwise, even if I stay here, it will be unfair.

Mr. Norman Karim will never believe me, which means that many things are indeed not as simple as we imagine.

I don't dare to promise anything, so I advise you to think about these issues carefully for me.

Otherwise, none of us will have a good outcome.

Since I came here, many people have told me that I must be careful. Mr. Norman Karim does not allow those around him to make mistakes.

However, it seems that this may not be the case now. After all, he is very old now, and it may be possible to turn a blind eye to some things.

But these are things we leave to chance.

Now that I have left Qin Yuan's side and decided to join the group, I hope that everyone can give me more opportunities and not let me continue to hesitate or be in trouble here.

Because I know that many problems cannot be solved by me alone. Only by working together can we solve them.

Qin Yuan, the benefits he can provide me are indeed relatively few, it can be said to be very few.

But the key problem is that my daughter Yaya is still in his hands so far.

I dare not not obey Mr. Norman Karim's decision, because only she can deal with Lao K, Qin Yuan and those from the H country's special forces at the same time.

I'm really afraid that Fan Tianlei will use my daughter as a threat.

You have to know that my daughter Yaya has congenital heart disease, and she is my life.

If there was really something wrong with him, it is simply unimaginable what kind of crazy things I would do.

Azhe, maybe you don't understand that once a person is really crazy and loses control of his emotions, no one may be able to control him. "

Jason, after he said all these things desperately, part of the reason was actually to scare Azhe.

Although the other party was tentatively asking questions about the relationship between him and Qin Yuan, Jason would definitely not tell it. This matter was a secret between the two of them, and he should have a basic professional quality.

Seeing that there was nothing to gain from this situation, he also felt that he should give up quickly, but Qin Yuan had not agreed to cooperate with him until now.

"Azhe, didn't you say that Mr. Norman Karim wanted me to come over quickly? Then let's not waste time. I'm going to get dressed now. Let's leave quickly."

Afterwards, Jason casually picked up a coat in the room, put it on and prepared to go out.

When he had just stepped one foot to the door, he suddenly turned around and said to Azhe with a serious face.

"If Mr. Norman Karim trusts you so much, he should leave the specific arrangements for Professor Fangde's two students to you."

"Jason, you also said that you were unwilling to help Qin Yuan do things. What you said to me today was nothing more than a test.

Well, since you have already shown such an attitude, there is no need for me to continue to hide anything.

I can tell you clearly that only I in the group know the specific positions of these two students, Professor Fang De. Besides me, it is Mr. Norman Karim.

If you don't want to go through me, you can ask my boss directly.

He knows everything, but whether he can answer you or not is unknown. "

Jason, after hearing this, he turned back and smiled.

"Azhe, you have been following Mr. Norman Karim for so many years. Unexpectedly, you are quite cautious when talking and doing things. You also understand what I mean by what I just asked you.

Maybe there are really some opportunities for contact between you and Qin Yuan, but I can't completely believe you now because we are on different tasks. "

"Jason, you are really a very cautious guy, but have you ever thought about what should be done about Efite?

This guy has now joined the group.

And according to my opinion, Mr. Norman Karim seems to attach great importance to him and think highly of him. "

"Even if you don't tell me these words, I can still predict what kind of situation it will be. After all, Efit has been with his regular customers for so many years.

It's far beyond that. The information and secrets he has are basically priceless. Don't think that Mr. Norman Karim can replace Old K in the United States so easily.

This seems unlikely. "

Azhe, after hearing this, he sighed helplessly beside him.

"Jason, please look up and look down again to see where you are.

If you are in Mr. Noman Karim's group, how can you say these words that make others' ambitions undermine your own prestige? "

"Azhe, there is a saying, I don't know if you have heard of it.

It is said that good medicine is bitter in the mouth and is good for the disease, and true advice is bad for the ears and is good for action.

A man of Mr. Noman Karim's status has countless sycophants around him. Why is he unwilling to reuse these people?

Because their value is meaningless.

The reason why he wants me to join your camp now is simply because he wants to tell some truth from my mouth. Although Efit and I were once good brothers.

However, the reason why the two of us fell out was entirely because of differences in concepts.

He is an opportunistic guy, and although I have sometimes done some things in the world that are unacceptable to everyone.

However, I am a real person.

I just say whatever I have to say, and I never consider other people's thoughts, and there is no room for turning around. It is precisely because of my personality that I have been able to get to where I am today. "

"If you look at it this way, you and Qin Yuan can talk quite well."

"Azhe, you don't have to test me here again and again. Generally speaking, Qin Yuan and I do have a lot to say, and our behaviors and concepts are the same.

Everyone is a relatively upright person, and when faced with unfair things, we must speak out.

Including this time, he came to complete the task. The two of us met by chance. We even felt that we met too late, but I have to remind you.

Mr. Norman Karim, if you really want to enter the United States, I think now is not the right time.

Forget it, it's useless for me to tell you this.

Let's set off now, and I will personally tell Mr. Norman Karim about this matter.

Moreover, I also want to analyze this guy Efitt in front of him, and tell him how Efitt and I broke up. "

After Azhe heard what Jason said, he knew that he had no room for recovery.

"I have another very important question that I want to ask you. I hope you can answer me truthfully."

"Just tell me. Since you are so kind to me, no matter what you ask, as long as I know it, I will definitely answer you without hesitation. You can just say it directly without hesitation."

"Killing Hassan is the task given to you by Mr. Norman Karim. Have you never considered giving up this task? Do you really want to kill him?"

"Azhe, I know it may be too abrupt for me to ask this, but as I told you just now, I have such a straightforward character, so now I have to ask you directly.

What is the relationship between you and Hassan?

I have long seen that the relationship between you two is unusual, so I have to remind you to be careful. Do you think that Mr. Norman Karim cannot see what I can see? .

As a relatively trustworthy person around him, he has already known your details very clearly, so there is no need for me to say anything about the current situation.

At least, you should understand that you should have as little contact with Hassan as possible. Although you are now responsible for taking care of his food, clothing, housing and transportation in the hospital, you can be considered as abandoning the official for personal reasons, so you should not get involved in this matter.

As for Hassan, how I want to deal with it is my business and you don't need to worry here.

Therefore, I can tell you very clearly about the current situation. No matter what the situation will be next, I hope you can clearly understand that there is no way to reverse it.

Hassan, he must die!

Because he offended Efit.

Efit has always been a particularly cunning guy, and he is a person who is determined to take revenge whenever he spends money. Since Hassan has offended him, it means that there is really no room for redemption.

I also advise you to put this matter down first and don't bring it up again. This may not be good for anyone. Now that the problem has come to this point, we should just muddle along and take it one step at a time. .

No one should be embarrassed by these things anymore. I have told you the real words here. I hope you can realize the importance of this matter.

If I had known this, why did I do it in the first place?

This guy Hassan has always caused problems for Mr. Norman Kalim. It is the first time in history that he can tolerate Hassan for so many years.

Therefore, I can only tell you this. I can't control what other people think. I can only tell you what my truest thoughts are.

Even if I cannot complete this task and kill Hassan, Mr. Norman Karim will never let him go.

What's more, this time he can take the opportunity of killing Hassan to make Efit satisfied with him.

Who can refuse such a thing that kills two birds with one stone?

In fact, you already have the answer in your heart. A smart person like you will not be able to see through such a small thing. The reason why you repeatedly ask other people about this matter.

It's because you want to hear some news and thoughts about this from other people's mouths. If that's the case, I have nothing to say. "

Jason, after saying these things, he had no intention of staying.

He just turned around and prepared to leave here. After all, these questions were not enough for him to make him think that this was the right thing to do.

"Okay, you've already said that, so I don't have any other ideas, but I have to tell you that there is actually no special relationship between Hassan and I.

You must not overthink it, let alone reveal it in front of Mr. Norman Karim. Even Qin Yuan doesn't know about

"By the way, these two brothers beside me, A Kun and A Ming, do you know where they are?

I haven't seen them since I came here.

Of course, I can now understand that Mr. Norman Karim would not let me meet these two good brothers without passing the test. "

"Jason, it's good that you know. I don't want to reveal too much to you about other things. We need to have a fair deal.

But I can tell you, Kun Amin, they two are fine.

Because they were the first to surrender to Mr. Norman Karim, some tasks have been assigned to them, including patrolling the sea. "

"What did you say?

Akun and Amin were actually assigned to the maritime patrol force. Isn't that where Hassan used to be? "

"That's all I can reveal to you. Maybe they will be able to help you one day here, maybe.

It's just that I have to remind you that although they have passed Mr. Norman Karim's test.

However, after all, they are people who have betrayed their good brothers. Mr. Norman Karim will not reuse such people. "

Jason, after hearing this, shook his head helplessly.

"Azhe, you are also a very smart person. Could it be that you want to remind me from the side in this way that even if I pass the test, it will not help.

Mr. Norman Karim also won't reuse me, but it doesn't matter. I never intended for him to reuse me. I just want stability.

As for those things that prove independence, I no longer care, so you can rest assured that even if I stay here, I will never threaten your position. "

Chapter 2154: Escape is not an option

After Azhe heard Jason say this to him, he was able to relax a little.

"I never felt like anyone could threaten my position.

But the words have been said here, and I don't have any other ideas. Let's leave quickly. It's not good to keep Mr. Norman Karim waiting for too long.

I would like to see how you communicate with your former good brother.

Efit, he already hates you to the core. Of course, you also hate him. "

So, Azhe took Jason out of his room, and soon the two of them arrived at the door of Mr. Norman Karim.

"It's good to have money. Mr. Norman Karim lives in such a big villa alone, doesn't he feel like it's just a waste of time?"

"Rich people can live wherever they want. You don't need to worry about it. Just follow me in. I believe your good brother has been waiting for you for a long time."

Jason, after hearing this, he stood there with a long sigh, and walked in without saying anything.

Efit, who was inside the house, heard familiar footsteps and quickly turned around with a smile on his face to see Jason.

"I'm really in a state of confusion. Who among us could have imagined that we would meet here today?"

"Yeah, it's been a long time since I last saw Efit, and I never thought that it was indeed a coincidence that we could meet here today.

But all of this is thanks to Mr. Norman Karim's arrangements. If he hadn't worked hard to plan all this, we wouldn't be able to meet again here. "

"Jason, you used to be a person who couldn't flatter you when you were with Old K. How come you have a much higher emotional intelligence when you come to Mr. Norman Karim's place.

Could it be that he learned it from Qin Yuan?

It seems that during the half month or so that I spent with Qin Yuan, I really learned a lot from him.

I should congratulate you too.

After getting rid of this guy, he abandoned the secret and joined the camp of Mr. Norman Karim.

From now on, the two of us can fight side by side with two swords. I believe that the two of us will definitely become Mr. Norman Karim's right-hand man. "

As Effit spoke, he stretched out his hand in front of Jason, and Jason looked at this former good brother carefully.

I have to say, he also has better looks.

He has a pair of star-like eyes that really seem to be able to talk. No wonder he can charm so many girls and help him without hesitation.

Jason, at this moment, faced Effit with his hands in his pockets and took the initiative. He didn't react. Instead, he ignored it and directly skipped this part of the handshake.

"Mr. Norman Karim, thank you for helping me arrange a place to stay. It is indeed quite comfortable. It seems that joining your camp has many benefits. No wonder you have so many good brothers around you."

"Jason, as long as you are satisfied.

Although what Azhe has arranged for you is not the best, it is still much better than the environment in that club. This just shows that you are truly a talented person who knows the current affairs. "

"Hmm, I would like to thank Mr. Norman Karim for the compliment.

It's so late, what's your order for me to come here?

I am still thinking about how to complete the obedience test you gave me. If I remember correctly, the time limit you gave me is three days. "

Jason, as Qin Yuan said, he is a very cautious person.

In front of Efit, he did not say what specific tasks Mr. Norman Karim assigned him.

He was just talking about the compliance test, so that he could keep the secret and reveal the details. He was a cautious person.

"Jason, please don't misunderstand me.

It's so late. I asked Azhe to invite you here. I didn't want to urge you to complete the task, because this is something that the two of us have agreed on beforehand.

If I urge you here, I really don't understand the rules of the world, and my life for so many years has been in vain.

To be honest, I asked you to come here today because I know that you and Efit used to be good brothers, but after experiencing some unspeakable secrets, the relationship between you two is now relatively tense.

Now that Efit is here today, I am willing to be a peacemaker.

Let us resolve all the grievances between you. From now on, everyone will be our own people. What do you think? "

I have to say that Norman Karim is indeed a person who pursues high efficiency.

He got straight to the point without using any mincing words.

On the contrary, after saying it directly, Jason was caught off guard. He didn't know how to deal with the things and problems in front of him.

And at this critical time, everyone has to think carefully.

The more he talks about this key issue, the less he can be vague. The other party has already asked it directly. If he denies it, I am afraid that Mr. Norman Karim will definitely be dissatisfied.

But if Jason just agrees, let alone saying that he is a very personalityless person, and more importantly, he is unwilling to continue to cooperate with this guy Efit.

Just because I have known him for a long time, I know what a disgusting person he is.

When I was at Old K's place, I had no choice. After I left there, I still couldn't get rid of this guy's persecution.

After finally arriving in Pakistan, he still couldn't get rid of the haunting guy Efit. Jason no longer wanted to see him anymore. Enough was enough.

But what can be done? This is all I can think about.

If there are any mistakes or inappropriate answers, Mr. Norman Karim will definitely have a lot of opinions, which means that they cannot get along well with each other.

Even if he completed the task, he could not get the specific locations of Professor Fang's two students.

If he couldn't complete the task, he wouldn't be able to help Qin Yuan, so everything he did would be meaningless.

So, Jason smiled.

"Jason, don't laugh here or just say it directly. I like people who have a good time. If you can, it's okay. If you can't, you can't. I don't like this kind of ambiguous answer."

"no!"

Efit has always known his former good brother very well.

Facing Jason's answer, not only did he not feel surprised, but he nodded with satisfaction beside him.

"Efit, look at how far you have come. The other party has made it clear that they don't want to cooperate with you, but you just nodded easily."

"Mr. Norman Karim, I nod because I am very satisfied with Jason's answer.

He has not been influenced by Qin Yuan, this \*\*\*\*\* guy. He still has the same personality and uprightness as before. What he just said is all the truth. Even if he dies, he will never cooperate with me. I can understand that. "

"I'm really curious about what kind of grudges there are between the two of you that lead to the current situation where you wish you could never have any contact with each other."

"Mr. Norman Karim, I hope you understand that this is old news.

There is no point in saying this now, and I don't want to mention these things again. I just want to tell you that I will not cooperate with this person. Even if I stay with you, I will not agree to this matter.

Therefore, I hope you can still be open-minded and never force others to make things difficult for you.

I did agree to join your camp, but I did not agree to other things. I still have the right to make my own choices.

Moreover, you have also told me that if I feel that I cannot complete the task, I can leave at any time. There is no problem. If you let me join your camp now, the first partner will be this guy. if.

Then I can only tell you that I must plan to leave now.

Even if I die, I will never cooperate with him again.

I have been walking on thin ice since I was at Old K's place now. I have finally been able to step out and live the life I want, but I still have to be hindered by this guy.

It's really not worth the gain. No matter how stupid I am, I won't make such a stupid choice. "

Jason was a very personable person. After hearing this, he turned around and prepared to leave.

Azhe stood in front of him.

"Jason, I advise you to think about it carefully. Do you think this is a vegetable market? You can come and leave whenever you want."

Mr. Norman Karim stood on the steps with his hands behind his back and looked at everyone with a smile.

Everyone knows that he has always been a person who keeps his emotions secret. Even if he is angry now, there will never be any change in his expression.

At this moment, Efit walked up to Jason pretending to be pitiful and apologized to him.

"Jason, the two of us have been orphans since we were young. We have been growing up beside Lao K, and then we have been good brothers who have depended on each other for more than ten years.

In the end, you gave up all the brotherhood between us because of a woman and betrayed old K. You asked Mr. Norman Karim to judge whether I should stop you from doing such a mistake. matter. "

"Oh~

It turns out that the story between the two of you can be regarded as one in which a hero becomes a beauty out of anger. "

"I'm sorry, Mr. Norman Karim, this has happened in the past and I don't want to mention it again. Moreover, this involves the saddest thing in my life. I hope you can be a little considerate of me."

Then, Mr. Norman Karim slowly walked towards the steps step by step.

He walked up to Jason with a glass of red wine in his hand.

"Jason, I think a man should be more generous when doing things. Of course, there is a saying that you should never persuade others to do good without suffering others' suffering.

I have not experienced your pain, so many times, I can only tell you about this from a relatively neutral perspective.

However, I think since I have said this, I hope you can consider the importance of this matter for a moment. We don't need to always live in the past. People should look forward, right? "

Efite also nodded beside him.

"Jason, we have been best friends before, and we know each other very well. Even after you leave the organization, we will still be in contact."

Jason sneered after hearing this.

"It might be okay if you didn't mention this matter. Now that you mention it, you did those crazy things later. Do you want to make me even more angry?

The reason why I didn't blow your head off with a gun now is simply because I don't want your blood to stain the floor of Mr. Norman Karim's face.

If something happens after you leave this room, I can't guarantee that there will be a surgery in my hand and it will appear on your neck in the next second. I can't guarantee either. "

Jason, what he said now did not take into account at all, he was willing to cooperate with Qin Yuan because he came here. He was really angry to the extreme.

But it was precisely in this situation that Mr. Norman Karim also discovered Jason's true temperament.

Not only was he not angry when faced with this situation, but he appreciated him even more, as if he had seen Fan Tianlei in his youth.

"No wonder you and Qin Yuan can become good friends.

The two of you are very similar in how you think about each other's problems, and your personalities are also very similar.

It seems that birds of a feather flock together, and this is absolutely true.

You and Qin Yuan should indeed be good brothers, but your positions are completely different. Don't forget that you are a smuggling criminal, and Qin Yuan is a special forces soldier.

Even if you go back to country H, you two should not continue to see each other.

If he doesn't arrest you, he is completely violating his code of conduct as a special forces soldier.

If he catches you, it will violate the brotherhood between him and you. Therefore, now I advise you to stay with me is the most correct choice. You should not consider other issues. "

Jason can also feel that Mr. Norman Karim is really a very good boss.

If you sincerely stay with him, it is indeed a good choice, but he has now embarked on the right path and will never go astray again.

Immediately afterwards, Mr. Norman Karim handed the glass of red wine in his hand to Jason's hand.

"This is my newly opened red wine from 1982. It still tastes a little bitter."

Jason picked up the glass of red wine, brought it to his nose, and smelled it carefully.

Close your eyes and feel the mellow aroma of wine, mixed with some sour taste.

It seemed that he hadn't smelled such a high-end smell for a long time, it was completely the smell of money.

"The wine has a mellow aroma. It is indeed a good thing. Smell it, and it is indeed different from the ordinary ones.

If you have never had a good drink, you may not be able to understand how good he is.

However, if you go to the supermarket and buy a bottle worth more than ten yuan and compare it, you will know what is good and what is bad. "

Chapter 2155: I bought you with a bottle of red wine

Although Jason greatly appreciated this bottle of red wine, he did not think that he could commit to Mr. Norman Karim because of this incident.

"Take it..."

Mr. Norman Karim put the bottle of red wine in Jason's hand.

"Some things are just like this bottle of red wine. Since it is ready to be placed in your hands, it means that it will be your future and yours.

In fact, I don't need to tell you these things. I hope you can understand them. "

Jason smiled and said.

"Mr. Norman Karim, you are simply flattering me too much.

To tell you the truth, I really can't imagine how someone with my status can drink such expensive red wine, so please don't force it on others.

I think sometimes, what a person should choose has nothing to do with himself. The most important thing is how everyone else chooses.

I have already told you about many issues. There is nothing left to say in our hearts about these things now.

However, if you force me to cooperate with this guy Efit, it is impossible for me to cooperate with him, because this person has always been a very annoying guy.

I have been with him for so many years, and I know him very well. In this situation, I can only say that this is my destiny. I should not cooperate with this kind of person.

Regardless of other issues, I just took the initiative to come to you today out of respect for you.

For Efit, it was definitely an accident that I was able to see him here. This completely went against my original plans and ideas. Instead of forcing things like this, I might as well tell you the truth. "

Mr. Norman Karim looked back at Azhe and they all knew that all this had something to do with Qin Yuan. If it hadn't been for what Qin Yuan did, they wouldn't be where they are today.

So, Azhe walked up to Mr. Norman Karim and said to Jason.

"Jason, I always thought you were a well-planned person, but I didn't expect you to be so persistent.

Now that you have chosen to betray Qin Yuan and join our camp, I think you should understand that there is no way out for you.

Because Qin Yuan is a person who particularly hates betrayal by others. Do you know what will happen if you leave our camp now? "

"You are not the only two camps in this world. I can do my own thing without interfering with each other.

I believe that as long as I leave Mr. Norman Karim's territory and go to a place I like without interfering in any of your affairs, it may not matter.

I believe that a person like Mr. Norman Karim would not embarrass me over such a trivial matter. "

"Sometimes, you should never say this. Mr. Norman Karim has his own plan.

When you say this, you are completely putting it in a relatively high position.

Maybe he wants to reject you, so he needs to think more carefully.

But at the same time, he has his own plans for these things.

Even if you have said this, it may not be able to affect his judgment and decision.

Efite is already here today. This may be a fate, so why do you have to refuse?

Jason, I think there is another very important point that you must consider.

You don't have to care about anyone, but don't you even care about your daughter?

You joined our camp today to help your daughter find a cure. "

When Azhe said this, he completely caught Jason's weakness.

Everyone knows that he may not care about anything in his life, but the only thing he really cares about is the safety of his daughter.

"Azhe, what do you mean by that?

Those of us who are involved in the world of martial arts all know that no harm comes to the wife and children. Even if there is something wrong with what I have done, you can tell me directly, but please don't include my daughter in it. "

"I understand what you mean, but please rest assured that even if you don't stay here today, Mr. Norman Karim will not embarrass your daughter, and he will not use this matter as an issue.

Although Mr. Norman Karim has never had a child of his own in his life, he can understand your feelings as a father. I can promise you this on behalf of Mr. Norman Karim.

No matter what decision you make, he will not embarrass your daughter and will provide you with appropriate medical resources if he has them. "

After Jason heard Azhe say this, he felt a little relieved. Originally, he was very worried about his daughter and worried that these people would really threaten his daughter's life.

However, after the other party said this, it actually made him feel more relaxed.

Jason suddenly thought of a roundabout tactic.

He looked at the red wine in his hand, picked it up, and took a sip.

Mr. Norman Karim saw Jason's reaction and knew that he was now basically sure that he could agree to join their camp and block it, so there was no need to worry.

"What do you think of the taste of this red wine?"

"It seems that this red wine has been opened for a while. There is no sour taste in the mouth, but a bit more sweetness."

"You also said that you haven't had much experience in drinking this kind of high-end red wine, which is quite accurate. Every sentence is on point. It seems that you are also an expert in wine tasting."

"I don't dare to promise too much about other things, just drinking. In this aspect, when I am with the old lady, I often drink these good wines.

But after I left their group, I no longer had the opportunity to drink such high-end red wine. Over the years, I have already forgotten what it tastes like. "

"Now, it's too late to pick it up again. As long as you feel you can, nothing can stop you.

No wonder Qin Yuan values you so much, because you are a rare talent, and you can also help me get what I want in terms of old K.

As long as you can join our group, I believe nothing is impossible.

Therefore, I have said this matter more thoroughly. If you are willing, I believe there may be a good cooperation between us. "

"I hope to drink such good wine every day, after all, it is not easy to taste it once, and it is difficult to forget.

Instead of saying this, I should cherish this opportunity and drink red wine like this every day.

Being able to be with people like you, Mr. Norman Karim, I believe will be very touching and beneficial to me. If I don't agree anymore, it may be too stupid. "

Effit, after hearing what Jason said, he immediately started to make trouble.

"Jason, you have to know that no matter what, I will definitely stay in this group. I will assist Mr. Norman Karim to do many things. You just kept saying that you hate me so much that you are unwilling to follow me. I cooperate.

In this group, there is no you without me.

Why are you bribed by a measly glass of red wine now?

In my impression, you are a very persistent and strong-willed person. How could you be bribed by this thing? If you like it, you can buy it with money.

Although you have left Lao K's group and there has been no chance of making a fortune for so many years.

However, if you dabble in a little bit of all walks of life, you can at least ensure a relatively good life.

A glass of red wine easily bought you over, softening your cold and harsh attitude just now, which really made me a little suspicious.

Could it be that you adopted a roundabout tactic?

People say that a man is a man of real talent. Don't think that you can fool Mr. Norman Karim with your little tricks. If you want to play any tricks in front of him, I believe he will not let you go so easily. of.

Therefore, I must tell you this matter in advance, do not try to use any delaying and roundabout tactics in front of Mr. Norman Karim.

Don't think that if you agree easily and then do nothing or find an opportunity to run away, you no longer need to care about anything. If this is not the case, you must think carefully about it.

Personally, I definitely hope that you can stay and fight side by side with me. It can be considered that we two good brothers have been helping each other for so many years.

However, I see you like this now.

The chance of staying is still very small. For the sake of being a good brother, I have to remind you that if you want to deceive Mr. Norman Karim, you are simply asking for death. "

Azhe now has his own thoughts and calculations in his heart. For him, he does not want Jason to join this camp. He sincerely submits to Mr. Norman Karim.

Because, he himself is missing a helper. If these two guys really work together to deal with him alone, how can he still have a foothold in the group in the future?

"Jason, these words you just said seem to be true.

However, whether you have thought about it or not is your own business. You have to think about it clearly before making a decision.

Although Effit is usually quite annoying, his occasional words are quite reasonable. You should carefully measure your own mental state.

Do you sincerely want to join our group?

If you don't sincerely want to join, then our cooperation will be meaningless. You won't be able to survive for a few days in a state of seeking death. Don't try to do such stupid things for Qin Yuan. "

"Azhe, I also understand that you sincerely want to persuade me, but we all have a weighing attitude in our hearts about this matter.

What happened today was not what I wanted.

Everything was forced to do nothing. Mr. Norman Karim has just mentioned that my daughter is right, it is indeed like this. At the beginning, when I saw this guy Efit, I was very angry and unwilling to cooperate with him.

Even if I die, I don't want to continue to live in the same group with him, and we may have to go on missions together.

However, when I think about it later, how important is the grudge between us compared to my daughter's life?

What Mr. Norman Karim can provide me, no one else can give me, neither Qin Yuan nor Fan Tianlei, although they are special forces of the H country.

Fan Tianlei holds the position of chief of staff, but my relationship with them has always been that of a mouse and a cat. It is impossible for them to risk their own futures to help me.

After considering this, I knew what I should do. Even if I could give up my life for my daughter, why would I care about working with this guy again?

Besides, I don't have to be with him on every mission.

Perhaps, I have a definite answer to this matter in my own heart. As long as I have a chance in the future, I can do whatever I want.

But so far, for me, the only real solution is the safety of my daughter.

You don't have a patient with congenital heart disease around you. You don't know how difficult it is to wait for a heart.

In addition to money, this also requires connections, because there are too many people queuing up to wait for a heart. If you don't use some means to find some connections, you may not be able to wait for a suitable heart in your life. .

My daughter couldn't wait any longer and I joined Mr. Norman Kanim's group in betrayal.

Qin Yuan was also for this reason. If he gave up at this time, it would be equivalent to losing everything and losing Qin Yuan, a good brother.

I can't accept such a sunk cost.

Now that we have reached this point, it is okay to compromise on this matter. The sip of red wine I just drank really made me sober up a lot.

Or maybe I should drink the red wine from 1982. After drinking it, my whole mind will be clear.

I also understand better what I should do, and I won't do such stupid things or be stupid.

Because I know that none of this is worth it.

Even if I insist on these things, what is the use?

Adults have to take responsibility for their own lives, and they have to lower their heads appropriately so that they can give themselves and their families a better life. I now regret that I was too persistent when I was young and did not protect my wife and let him suffer. So much suffering.

Now that the same thing has happened again, I can't continue to be so persistent.

For my daughter Yaya, I am willing to endure anything.

So, today I decided to stay and cooperate with this guy Efit. "

Chapter 2156: Due to sunk costs, there is really no way to give up

Jason, after talking about these things, Efitte understood in his heart that no matter how much he distrusted this matter, there was no way to expose the other party.

Immediately afterwards, this guy Efitt clapped his hands fiercely next to him.

"Jason, I really didn't expect that you have evolved so much over the years. When you were in the group, you were a person who was not good at words. Everyone knows that you have a nickname in the group called Lao Mo.

Because you usually choose to deal with many problems silently, but your attacks are extremely vicious.

So this name that everyone gave you should not be forgotten by you after so many years. You used to have such characteristics. I never thought that you could make such a big change in your life after leaving the group and going out alone.

Or, you have been with Qin Yuan, a guy with such a good eloquence, for a long time and you have been influenced by him. "

"Effit, in the old K group, I didn't speak because of you, you like to show off, you are a performing personality.

If there is anything in front of outsiders, you can just deal with it directly. It is not my turn to express any opinions at all.

However, this time I have already said it so far, and I have nothing more to explain.

I have to remind you not to continue to say these words in front of me. I have already planned to stay, so don't make a fuss about it, otherwise don't blame me for being rude to you. "

Effit was completely speechless by what Jason said. He had to take care of Mr. Norman Karim's face no matter what, so he couldn't openly conflict with Jason here.

"Okay, now that I've said that, I don't have any other ideas that I have to remind you. No matter what the situation will be next, you have to think it through before making a decision."

"I have thought it through thoroughly. No matter what happens next, I will definitely not regret my decision to join Mr. Norman Karim's camp. If I regret it, or what I told is all lies, then I will not regret it." No matter how you punish me, Mr. Norman Karim, there is nothing you can say."

After Azhe saw Jason's attitude now, he was really a little panicked, not knowing whether what the other person said was true or false.

At this moment, Mr. Norman Karim turned his back to the liquor cabinet.

Without saying anything, he took out the half bottle of red wine he had just drunk, and then walked up to Jason.

"This bottle is the red wine you just drank. I have treasured it for many years and have not been willing to open it.

Jason, you are here today, and you know how to appreciate it, so you have met a soulmate.

Let's do this. I'll give you this bottle of red wine. Take it back and taste it slowly. "

Azhe raised his head and glanced at Mr. Norman Karim holding the red wine. He understood everything. This was a bottle of red wine he had collected many years ago.

It is true that he has never been willing to open it. Today he opened it and drank it. He also prepared to give the remaining half bottle to Jason. Now his attitude is very obvious.

"What are you waiting for? Why don't you take it quickly?

This is red wine that Mr. Norman Karim has collected for many years. He is not willing to drink it himself. There are only three bottles in the entire wine cellar. Now I have opened one bottle to give to you. It is already very rare. This is priceless. nice one. "

"No, I cannot accept something as valuable as Mr. Norman Karim's.

People say that a gentleman never robs others of their love. I was lucky enough to take a sip just now.

Today is the only time I can taste such good red wine. Please take this thing back. I really don't deserve to drink such good wine. "

Mr. Norman Karim didn't say anything, and the others walked directly in front of Jason and put the half bottle of red wine in his hand.

"Take what is given to you."

After seeing Mr. Norman Karim's attitude, Jason, it's hard for you to say anything else. After all, blindly rejecting him can be regarded as a refutation of his face.

Mr. Norman Karim's attitude was already obvious. The fact that he sent this precious bottle of red wine meant that he accepted it, and Jason believed all the reasons he just said.

"You have accepted the red wine. As for the heart problem, please give me some time.

Over in the United States, I have notified the hospital. I heard that they will soon be able to obtain a heart source, but whether the matching can be successful or not, we still have to wait. "

"Really?"

Jason was very excited after hearing this. He had already regarded Qin Yuan, a good brother, as his best friend. He was so excited that he couldn't even hold the half bottle of red wine in his hand.

"None of what I just said to you is a lie.

In the United States, they do have a heart and will soon be involved in the transplant.

But as you said, there are too many people waiting in line for a heart. If we don't take some measures, we may not be able to wait for a suitable heart in this life.

Your daughter is only less than 10 years old. It would be a pity if she was in danger. I am willing to do my best to help you, as long as you don't let me down. "

"Don't worry, Mr. Norman Karim. As long as you can provide me with such great help, you will be willing to go through fire and water no matter what I do."

"Jason, I hope I can remember what you said!"

After Mr. Norman Karim finished speaking, he gently patted Qin Yuan on the shoulder twice, then turned around and walked towards the house.

"Azhe, that's all for today. I see it's almost dawn. I want to go in and rest first. After a while, you can take Efit and Jason away first.

I hope there won't be any more conflicts between the two of them. In my group, I don't want the people under me to be disunited. If you want to stay here, you must act according to my rules. "

"Okay, I understand, Mr. Karim."

Afterwards, Norman Karim went directly back to his bedroom, never came out again, and did not participate in what happened between them. Now he was left with a non-committal attitude, and Jason was a little confused.

"So what's going on now? Do you want us to take a rest?"

Effit, he directly spread his hands to express his helplessness, and sighed after finishing what he said.

"Norman Caliser has already said that he is very tired now and does not want to listen to anything anymore. His attitude has been very obvious just now. He hopes to let you all stay, but at the same time, you must understand more. thing.

I hope you can also think clearly,

He has just said that if he wants to stay in his group, he must be united.

If there is any problem between the two of you, then don't blame him for being rude to you. Everything he said just now has been so clear.

If there are any problems between the two of you, then we can only kick you both out. "

Effit said with a smile.

"Azhe, I think you still don't understand me very well. Since Mr. Norman Karim has said this just now, I will make my attitude clearer.

The person who had the problem all along wasn't me at all, it was Jason.

He became very angry when he saw me, and there was nothing I could do.

As long as he can control his emotions and not have any conflicts with me, I believe that everything will be fine between the two of us. "

Azhe looked back at Jason.

"What do you think?"

"I have just promised Mr. Norman Karim that there will be no more problems. Since I plan to stay, it has proved that I am ready for everything and willing to accept the current situation.

What else is there to say?

If I had any more problems, I might have left just now, but I still persevered for my daughter.

This means that no matter what happens, I will definitely stick to it.

I will never leave the group easily, let alone betray Mr. Norman Karim. I have said so. I hope you can trust me and give me a chance to prove myself. "

"Yeah, Jason, I'm quite pleased that you can think it over clearly. Then there's nothing more to say. Let's go and have a rest. We'll talk about anything tomorrow."

Jason took the bottle of red wine given to him by Mr. Norman Karim and left the room.

At this moment, everyone has their own agenda and thoughts. No one is sure what the other person's mood and thoughts are, so they can only take one step at a time.

As for Qin Yuan, since everyone couldn't sleep, this night was also a sleepless night, and everyone woke up very early.

An Ran looked at Qin Yuan. They had been studying whether to report this matter to Du Bingbing.

"This night has passed, haven't you thought about it yet?"

In fact, Du Bingbing is not a scourge, as I have said just now.

If you are unwilling to raise any demands with him and take your own face into consideration, then let me tell him. Anyway, I am a young boy. Everyone knows whether what I say is right or wrong, and no one will laugh at me.

What's more, I am naturally thick-skinned, and I am not afraid of others laughing at me.

Brother Qin Yuan, what happens now depends on your attitude. I hope you won't be so persistent, just for the sake of the God of Thunder, and also for the sake of our two students, Professor Fang De. This is the situation now.

We have no choice but to make other choices, so I think it will be more appropriate if we solve this problem quickly.

It's not like wasting time here.

As for Du Bingbing, he can easily notify the embassy. After all, he has so many effective resources in his hands. It would be unreasonable for us not to make full use of them. "

An Ran glanced at Chen Jixiang.

"Qin Yuan, no matter what happens, I am willing to consider the problem from your side, but today I have to say that Chen Jixiang, what this kid said makes sense.

If you want to return to the army within the promised time, you must notify Du Bingbing now, because we have no channel to leave Pakistan.

Isn't that what you said when you set out? Let's sneak here through Jason's boat first and find the person, and then we can think of other ways.

Do you already regret it now? It is simply impossible for you to continue to go back through Jason's channel, and you should understand it yourself. "

"Yes, Jason has sacrificed so much for this. It would really be unjustifiable if we implicate him in any way, and I would feel uncomfortable too."

Chen Jixiang, after waiting for a long time, he was hesitant to say this, but he still decided to say it.

"Brother Qin Yuan, Jason is now joining Mr. Norman Karim's camp to take risks for you, but what will it be like in the end? No one of us can promise it. We can all put our hearts into it." Do you want to dig it out and take a look?"

"What do you mean?"

"Brother Qin Yuan, I want to remind you that I have no other intention of

I just want to say that it is not sure whether he is sincerely helping us or pretending to help us. If he is not sincerely helping us.

Then the danger we will encounter next will be unprecedented. After all, things are already like this. Norman Karim is naturally a very capable person.

What if he uses some extraordinary means to get Jason to join or if he himself fails to withstand the test at all?

Therefore, I think it is better for us to keep a thin line and never put all our trust in one person. I think he cannot withstand such extreme trust. "

"Yeah, that's true.

It seems that I have been in contact with Jason for a relatively long time, and I have even forgotten what kind of person he used to be.

But I still believe that this world is beautiful. He has willingly paid so much for us and will not give up so easily. Or maybe his betrayed daughter is still in our hands. Have we forgotten? "

"His subordinates A Kun and A Ming have already betrayed him. They are both good brothers. How do you think he can be any better? Or, he himself is unwilling to betray the brotherhood between us.

However, there is no choice for his daughter. He is a father first, and secondly, he is your good friend.

Only when you understand this can you prevent yourself from suffering.

Brother Qin Yuan, although the words I said are a bit unpleasant, I really think about you sincerely. Don't trust a person too much.

Isn't He Chenguang the best example?

You have been with him in the army for so many years, and you only know that he is a spy. Do you think there is anything in this world that you can 100% believe in? "

Chapter 2157: The team leader must say it in person

Qin Yuan, An Ran, and Chen Jixiang, after thinking here for a long time, they didn't know what to do next.

In fact, everyone knew very well that Qin Yuan was unwilling to take the initiative to ask Du Bingbing for help. After all, this matter was still quite stressful for the two of them.

And once any problem occurs, it will be a very troublesome thing for them.

An Ran and Chen Jixiang understood Qin Yuan's mood very well.

They also know that he is a very stubborn person. If they cannot convince him to make this decision themselves, I am afraid that things in the future will become very complicated.

"Chen Jixiang, since Qin Yuan has already said that he is unwilling to make this decision, we shouldn't force him. After all, this matter requires everyone to work together to solve it. Wishful thinking is meaningless."

"But, Sister An Ran.

We've come this far now, and there's basically no turning back.

If there is something wrong over there, what should we do?

It's not that I doubt Jason, I just think that we don't necessarily have to completely believe him. He has too many thoughts. I know that you should not trust people when you employ them, but you should not trust people when you doubt him.

If we doubt him, we should not continue to let him do such dangerous things. He has also involved himself, but we must be clear that what Mr. Norman Karim can provide him is that we will never Nothing can be given to him.

Whether it's money, power, or helping her daughter treat her illness.

Because he has money and power, these things are within his reach.

However, we are different. We have to follow the process step by step to get approval from our superiors, and we may not necessarily be able to control so many resources.

The money in our hands is also limited. Although we are very willing to help him, overall, this is not a good choice for us.

So, now that I have said this to you, no matter what situation happens next, we have to solve it slowly.

Otherwise, the pressure on us would be too great, and no one would be able to relax about all these things.

Instead of the current situation, we have reached this point and don't know what to do. What should we do next? No one can be sure what our final outcome will be.

Now for these problems, I can only say that we all have to work together to solve one person's troubles. Maybe we all have to face them together, instead of just thinking about solutions here all the time, thinking that the solutions to the problems will appear on their own. .

This is completely impossible. I know that Brother Qin Yuan is unwilling to ask Du Bingbing for help. Maybe he knows that he is a very troublesome person, or it may be related to other parties.

But I have to tell you that we have reached this point and there is no other reason to choose.

Now it is obvious that Professor Fang De's two students, I don't think Mr. Norman Karim is particularly interested in these two people. As long as we work a little harder, we should still be able to solve it.

Most of the situations have already happened. If there are others, we have to think about them slowly.

These problems now are already so serious.

If we continue like this, it may not be good for anyone, so I think it's better to calm down and carefully consider the current problem.

We have no reason to refuse because our abilities are limited.

Only Du Bingbing can help us. He is the deputy chief of staff, and his family has very rich resources. He also has some connections, so he can do this.

Including the last time, I helped Professor Fang De find special medicine. He really helped us a lot.  
"

After Chen Jixiang said these words, suddenly a person's knock on the door was heard outside. Without even thinking about it, this person must be He Chenguang.

An Ran looked at Qin Yuan in surprise.

"Shh..."

Qin Yuan signaled to those around him not to panic for the time being, as this matter had to be resolved slowly.

"Who?"

"Qin Yuan, it's me. I heard something coming from your house so late. Isn't everyone still asleep?"

"He Chenguang, we really haven't slept, and it's almost dawn now. We have been discussing what we should do next this night."

"Oh, that's it, but don't worry about many things first. We have to solve it slowly. It's not something that can be solved so easily now. According to my inference, we all still have more ideas."

"He Chenguang, since you are already here, let's come in first and then talk."

An Ran and Chen Jixiang were both very nervous. No one expected Qin Yuan to make such a decision.

"Okay, open the door now, I'll come in right now."

So, An Ran walked to the door reluctantly, opened the door and saw the other party standing at the door with a smile on his face. His expression was very relaxed. It seemed that he did not doubt his identity and was somewhat exposed.

"An Ran, Chen Jixiang, you two are here, but I am the only one who has not come here. If you have any secrets, you will not inform me. Don't you regard me as one of your own?"

At this moment, no one knew how to answer Chen Jixiang, but instead smiled and said.

"Brother Chen Guang, what exactly did you say? None of us have ever said anything to hide anything from you.

We also wanted to come over to discuss it with you, but when I went to knock on your door, the door inside your house was already locked. Even after knocking for a long time, no one responded.

Are you asleep? "

He Chenguang smiled after hearing this.

"I must have fallen asleep. You also know that I am always very slow to sleep. Small movements usually can't wake me up. Besides, after so many days of tossing, I fell asleep. It has to be a little heavy."

"We are all special forces, and we are specially trained in the army. Even if you are sleepy, you will not sleep like this. I have knocked you hard and there is still no reaction."

Chen Jixiang, this kid is a little angry.

Looking at his expression, you can tell that he must still have some difficulty controlling this matter.

However, when he turned around, he saw the serious expressions of Qin Yuan and An Ran and knew that he had said too much. If he said any more, he might be exposed.

"He Chenguang, he has been like this since he was in the army. He sleeps very deeply. Maybe he didn't hear your knock on the door, so you don't need to be so angry.

We didn't discuss anything here. The only other thing we had to do was think about how we should leave next. "

He Chenguang was a little anxious when he heard Qin Yuan say he was leaving.

"Are you going to start discussing how to leave now?

However, we have not yet rescued the two students Professor Fang De. This is our task. If we cannot complete this task, we will be very embarrassed after we go back. "

"I didn't say I was leaving now. We have all been here for so long, and we should understand that no matter what we do, we need to be prepared in advance.

Now that we all know the next plan, we have to start planning how to return.

Originally, I thought it would be no problem for us to sneak back and bring these people with us through Jason's ship, but now it seems that all this has become a fantasy.

Jason also betrayed us. We really didn't expect that so many people around us would betray us? Fortunately, you are all here. "

Qin Yuan finished speaking. After these words, everyone

Everyone was a little embarrassed, so An Ran had to change the topic.

"We should really think about how to go back as soon as possible.

After all, this is a big challenge for us, and many of the following problems cannot be solved as easily as we imagined.

The key is how to handle these things around you more appropriately.

Moreover, many people may have problems with our behavior, especially Mr. Norman Karim. We are in this club, and it does not help to stay here all the time.

It's better to think of a better way. If there is a problem, we can all solve it together. There is no need to get entangled here.

Moreover, according to my understanding of these current issues, everyone has their own ideas in their hearts.

It's better to say it out together here today. We do have a channel to go back, but Qin Yuan doesn't agree with it so far.

The two of us have been persuading each other in the room just now, and he happened to have you here now.

He Chenguang, you can persuade him to be normal on behalf of the two of us. You and he have been old comrades for so many years, and you know his temperament very well.

After analyzing all the pros and cons with him, as long as three of the four of us agree, I believe he will not have any reason to refuse. "

After He Chenguang heard what An Ran said, he smiled and said.

"It turns out that you have been discussing how to go back. In fact, I also want to return to Country H as soon as possible. After all, I have been out for such a long time. The only way to go back is through smuggling, which is definitely impossible.

Mr. Norman Karim, he already has a lot of resources in Pakistan. No matter what channel we use to go back, I am afraid we will not be able to bypass him.

This means that we have to think of other ways. I heard that Du Bingbing has become the deputy chief of staff and has taken over the position of Thor. "

"Yes, this is the solution we just told Qin Yuan, but he is a bit too stubborn and has never agreed with this solution. We really have nothing to say, and we have been here for a long time to persuade him. It's of no use."

"Qin Yuan doesn't want to ask Du Bingbing for help?

Oops, I'm really not saying that the problems you have now are not as serious as you think. It's not that you go to ask for help, he seems to have lost face. You should also consider the mentality of all of us. "

"He Chenguang, it seems that you have the same opinion as the two of them and hope that we can come to him for help, but the current problem is still very troublesome for us.

Du Bingbing, he was angry at me today. If I take the initiative to ask him for help now, do you think he might help us?

He is a girl with very strong self-esteem. "

He Chenguang nodded after hearing this.

"You are right to say that. He is indeed a person with strong self-esteem, but his feelings for you are very different. I can see it in the army.

Last time, when we went out to perform a mission, didn't we cooperate and be more happy?

It's just that he is a bit too conventional, maybe because of the education he received from childhood. We can allow different opinions to exist.

You don't have to be strict. If Du Bingbing does things according to your preferences, he won't be angry. After all, this involves the collective interests of the army and our entire country H.

He probably won't act like a girl. took advantage of this matter to embarrass you.

Believe me, the main thing is that you have to talk to him to soften him up so that he can rest assured. Even the God of Thunder no longer cares about us. If you don't have Du Bingbing's help anymore.

I'm afraid we'll have to be stuck here for the rest of our lives. If that doesn't work, you'll have to follow the old path of Mr. Norman Karim, and you'll be like Thor. "

"He Chenguang, I can't worry about other things now. Since you have all agreed on this issue,

Then I have nothing to say, I can only take one step at a time.

Who of you wants to talk to Du Bingbing? I don't want to listen to his sarcastic remarks. "

Chen Jixiang looked at Qin Yuan. Since he was really willing to agree to this matter, it seemed that he suddenly figured it out at this moment.

"Didn't I just say it all? You all are worried about this issue of face. I don't care about that. I'm just a shameless guy. Let me tell him. He probably won't embarrass me too much."

An Ran shook his head.

"No, only Qin Yuan can tell him about this matter in person. Qin Yuan is our team leader, and he will be responsible for this matter."

"Yeah, that's what I think about Qin Yuan too. As the team leader, only if you tell him in person can it work and represent our thoughts and sincerity.

If there were other unfinished tasks, I don't think he would agree so easily.

Therefore, I think in order to show our sincerity, it may be more appropriate for you to tell him personally. Nothing we say will help.

No words can compare to your words alone.

Qin Yuan, a man can bend and stretch, so why bother to stick to these seemingly useless things? "

Chapter 2158: 1st formal request

Sometimes, some things are easier said than done.

"He Chenguang, I think you all are deliberately trying to embarrass me here. You are just talking so easily, so you let me bear all this pressure alone.

It's not like you don't know that he and I have always had very different views and ideas.

If there is a problem, it may mean that we will never be able to work well together in this life.

If I take the initiative to find him, the two of us might quarrel again, which will affect our overall plan, and Du Bingbing will not help us. "

No matter what, Qin Yuan, he has really been struggling with this matter.

Everyone can see that he must have been trying to find a way to refuse to let himself bear this alone, but he is still unwilling to take the initiative to negotiate with Du Bingbing.

An Ran shook her head helplessly.

"I've already said this, if I continue to stay, it may not be good for anyone.

Qin Yuan, if you don't want to talk to him, then simply give up the position of team leader. Everything will be under my command, and I will go and negotiate with him personally. "

"This is really a very good idea. If An Ran becomes our team leader, it would be a better choice. This way we can get the best of both worlds."

"As you can imagine, it's really quite simple. How can the position of team leader be changed just by saying something?

This is what our superiors have appointed. If we change the team leader privately, how should our superiors consider our relationship after we return? "

"He Chenguang, I think you are a little too conventional.

This matter can be flexible. We have encountered many difficulties outside, so we cannot stick to the rules. We should know how to adapt.

My superiors also know my personality very well. They may do some dangerous things at some point and temporarily give the position of team leader to An Ran.

Doing so will give us all a good opportunity to realize our own value.

After I go back, I will communicate with the organization again. I believe they won't make it too difficult for me, so let's leave it at that. Now the position of team leader will be given to An Ran. "

"Okay, if you all agree now, I have nothing to say on this matter.

The key is that no matter what happens next, we have to deal with it slowly. Many people have their own ideas and judgments on this issue.

If we have a problem that can be solved here, I believe Du Bingbing, he should know that this is just a strategic tactic of changing the team leader, and it can also be regarded as a roundabout tactic.

He probably won't follow us and ask him inquiringly, because he thinks we can complete the task quickly and go back.

This is the first direct contact task he has just been promoted to the position of deputy chief of staff. He also hopes to complete it quickly to make himself proud, so he will not embarrass us. "

"Then you all have said this, and I have no reason to disagree. Let's take it one step at a time. The most important thing is to see if Du Bingbing can accept it.

It is definitely very easy for us to talk to ourselves here. We can explain it however we want. The key is whether the other party will accept your words.

Don't think that everyone is like the God of Thunder and can turn a blind eye and let us pass by. Du Bingbing is not sure. "

After Chen Jixiang finished speaking, he sat there a little angry and stopped talking.

Seeing that it was already dawn, I calculated the time difference and now I can contact Du Bingbing.

"Then I will ask him now and make the first request to him to see what his opinion is."

Therefore, An Ran had already made a lot of psychological preparations.

Next, make a call.

"Qin Yuan, I didn't expect you to call me so early in the morning. It really doesn't let me have a good night's sleep. I'm getting ready to go to work."

An Ran felt a little embarrassed when he heard Du Bingbing say this.

"Forehead...

Sorry, Du Bingbing, to bother you so early is not Qin Yuan, but me, An Ran. "

"Oh, it turns out that An Ran had something going on this morning?"

"We just studied the plan of going back all night. I hope you can provide us with some help."

"So that's it. I remember when I went there, but you helped them find a stowaway boat. Can't you just come back the same way?"

"Deputy Chief of Staff Du Bingbing, how should I explain to you that the plan for this matter has not kept up with the changes. Our original plan can no longer be implemented.

Therefore, we just need your help to help us find a reasonable channel to return.

If we waste more time here, I'm afraid it will have a lot of impact on our overall mission.

Now it can be said that we are basically at the end of our rope, so we came here to find you. I hope you can provide us with some help. "

"An Ran, the time we have known each other is relatively short.

However, since you address me by my position, I have to say something.

If you want to request a recall from your superiors, if I remember correctly, you should have to take the initiative through the team leader to request your superiors.

An Ran, when did you become the team leader? How come I don't know? "

Chen Jixiang and Qin Yuan were listening nearby and it turned out to be as planned. This guy was really making things difficult for them here.

"Du Bingbing, deputy chief of staff.

I can now formally tell you that the leader of our task team has been replaced. Qin Yuan willingly gave up the position of leader to me.

Now it is up to me as the team leader to communicate with you. "

"Qin Yuan is really a very willful person. When he handed over this task, I never thought that we would be in this situation.

how? Did he think it would be embarrassing if he couldn't complete this task, so he gave you the position of team leader and asked you to take the blame for him? "

"Du Bingbing, deputy chief of staff, I hope you won't ask too detailed questions about this matter.

We have indeed handed over the team leader. Now I am officially responsible for the completion of the entire task. If there is anything, you can communicate with me directly.

Qin Yuan, he is no longer our team leader for various reasons, so now I am here to formally request you, hoping that the headquarters will provide support and complete our plan to return to the country. "

Du Bingbing reflected for a moment, and he also understood that this should be an opportunity for Qin Yuan to surrender to him.

However, Qin Yuan has always been very face-saving, and he is not willing to speak in an honest way. He can only find a reason that seems reasonable but has no way to refuse.

After thinking about it for a few seconds, Du Bingbing smiled.

"Oh, it turns out that this is the case, so we have nothing more to say. Let's take a step at a time.

No matter what happens next, we have to think about it slowly.

Moreover, we have to plan step by step for the problems we have encountered so far. I am not deliberately trying to embarrass you here.

But our current problem is indeed serious. If you want to come back quickly, it may take a long time.

I need to coordinate with various departments and channels to help you make a plan to go back.

Of course, this question may not be appropriate to ask, but I have to tell you that I am not someone who deliberately wants to embarrass you here. I also have to coordinate all aspects, which will take some time. "

Chen Jixiang heard these conversations from the side

After that, he whispered to Qin Yuan.

"Brother Qin Yuan, I won't say so much about other things now. You should have heard and understood it now.

He didn't want to have a serious conversation with us at all. After he heard that the team leader was not you, his attitude completely changed and he kept saying some more official polite words here.

Isn't this deliberately trying to embarrass Sister An Ran?

Why coordinating various channel departments will take a certain amount of time? This does not sound wrong at first glance, but if he wants to speed up, he can do it.

In the beginning, he saved Thor as quickly as possible. "

He Chenguang, after hearing this, said angrily from the side.

"You don't understand this. When he rescued the God of Thunder, Qin Yuan went to greet him personally. Even if there were difficulties, he would still face them.

This time was different. It was a conversation between Du Bingbing and An Ran. The two of them were originally unhappy because of Qin Yuan.

It is said that when a love rival meets, he becomes extremely jealous.

Even if he could do it, it would only delay more time, not to mention there was nothing wrong with what he said.

Even if the superior department heard the recording and conversation between the two of them, they would not think there was a problem.

This is his brilliance. I really admire this woman more and more now.

No wonder he was promoted in the shortest time.

His actions and methods are beyond comparison with any of us. "

An Ran also knew that Du Bingbing was just perfunctory with him. He must be a little dissatisfied with his answer just now, so he used these methods to delay time.

"Chief of Staff Du Bingbing, since you have said so, I have nothing to explain.

Generally speaking, I am still very grateful for your help. Then I would like to boldly ask how long it will take to coordinate all aspects. "

"It doesn't take long, but for us now, many problems do appear suddenly. According to my understanding, there is nothing to say about these things now."

"Then what do you mean by that? Do you think there is a problem between the two of them?"

"Of course I don't think so. I just think there must be some reason for Qin Yuan to suddenly give up the position of team leader given to him by the chief of staff. He must be injured.

Or has it been controlled by Mr. Norman Karim?

What you are doing now is just trying to conceal the current specific situation.

An Ran, you also know that I sincerely care about you. Qin Yuan is a very self-respecting person. There are some misunderstandings between him and me. No matter what happens, I am willing to care about you from my own perspective.

I want to help you do something, so I hope you don't misunderstand me. I must tell me the truth.

I will definitely help you. Apart from me, even Thor has not been able to provide you with any definite help so far.

Therefore, I hope that there should be no concealment between us. I am very willing to help you find the channels and routes to get back. I also know that this is the first time you have asked me so formally.

It's impossible for me not to give you face. Is it so difficult for me to just listen to the truth?

Or, I don't deserve to hear your truth.

Under these conditions, whatever you want to tell me, I can only be forced to accept the information you provide me. This is not a fair thing.

You want me to help you with all my heart, but you can't tell me the truth.

Do you think this is fair to me?

If you want to put yourself in someone else's shoes, should also sympathize with me, the newly appointed deputy chief of staff. "

Du Bingbing, he seems to have changed his strategy.

Just now I was more attitude-yellow, and if I was tough for a while, I felt like I was being betrayed.

An Ran also knew that he should have heard Qin Yuan and they talking next to him, so he deliberately said this to make Qin Yuan soften his heart.

"You heard it, this guy is not afraid of me at all. Either he said that I was injured, or that I was controlled by Mr. Norman Karim. There is really no way to communicate with him."

"You'd better stop talking, he may have overheard our conversation just now."

That's why he deliberately said this to embarrass Sister An Ran.

Brother Qin Yuan, I think you should not let Sister An Ran deal with him. This guy is really difficult to deal with, let alone other people. Even I have a headache after hearing these things.

You're making things difficult for Sister An Ran, and I feel a little sorry for him.

Just go and make it clear to him alone. We just want to go back. As the deputy chief of staff, his plan to assist us in going back is reasonable. No one is willing to make things difficult for him.

If he can't do something, he can just ask his superiors for instructions. Why should he pretend to be a good person here, as if he made many decisions that went against his ancestors in order to help us.

I think it's completely unnecessary, since we don't want to accept this favor from him.

Just make it clear to him in a business-like manner that we have now formally requested our superiors to help us formulate a plan to return.

As for the hostages, we won't let them worry about it.

They just need to help us make a plan to go back, and they don't need to worry about other issues. "

Chapter 2159: Don't do things that deceive yourself and others.

After An Ran and Du Bingbing finished talking about these things, the other party did not show anything different for the time being, although he meant to embarrass An Ran.

However, considering Qin Yuan's temper, Du Bingbing naturally slowed down his tone.

"An Ran, I hope you can understand that I didn't take the initiative to embarrass you."

"Deputy Chief of Staff Du Bingbing, I can understand, but you may have more things to consider in your current position, and you can't say that you are deliberately making things difficult."

"Thank you for understanding me. When I first became chief of staff, I did feel a lot of pressure, and this matter also involves your security in Pakistan."

"When we came out, everything was left to Thor to manage. Now he has some problems, which is really unexpected."

"So, I hope you can truly accept me as part of your plan, not because I can help you, or because I am in the position of deputy chief of staff."

"Of course that's not the case."

Although An Ran didn't say anything, he still had some thoughts about this matter in his heart, but Qin Yuan didn't express his opinion now.

He was also unable to deal with the problems at hand completely in accordance with his position as team leader.

Du Bingbing was a little silent on the phone.

Chen Jixiang and He Chenguang were standing nearby, waiting and not wanting to talk.

The key is that Chen Jixiang does not want to deal with this spy whose identity has been identified.

"Brother Qin Yuan, Du Bingbing is a very smart person.

Since he has said so about this matter, I think it will not be of any substantive significance if we continue to hide it. He cannot easily deny these things he has experienced before.

We won't easily deny his decision just now, so I think we don't have too many opportunities to say anything.

Let's consider his mentality first. If we really make him anxious, we won't all get good results. "

Chen Jixiang can be regarded as a relatively knowledgeable person. No wonder he was able to gain the attention of both Qin Yuan and Lei Shen in such a short period of time.

"Chen Jixiang, I know you have a lot of changes in your heart, but you have to consider the mood of many people now, and you absolutely can't just go your own way."

He Chenguang originally didn't want to return to Country H so easily. He hoped to delay the matter here for a while. After the matter was perfectly resolved, he could kill two birds with one stone by going back.

Therefore, He Chenguang has his own ideas and opinions on this matter.

"Qin Yuan, we have a lot of things that have not been completed now. When the task is not completed, it is a bit too hasty for you to tell him this."

"He Chenguang, don't you have confidence in my abilities?

Or do you think that based on research in this area, I am a person who is not worthy of being trusted?

I've told you everything, and if you still don't agree, I don't have any other solution, but I have to remind you that we have to plan the next thing step by step.

Mr. Norman Karim has already made his own arrangements. If we delay, it will indeed be too late. Please believe in my strength. "

"Qin Yuan, when did you become so unreasonable? When did we ever doubt your strength?"

"He Chenguang, I think you have become very different since you came to Jason's ship. It seems that you have always thought that we are all alienating you."

Qin Yuan thought to himself, now that he has come to this point.

He must let the other party think carefully before speaking, otherwise this issue will become a very serious obstacle.

"He Chenguang, when we were in country H, we were the best brothers.

Now after experiencing these things, there are so many doubts between each other. Is Pakistan really a magical place? It can change people's minds. "

"Qin Yuan, what I hope you can understand is that I have always regarded you as my best friend. No matter what choice I make, please understand that I do it out of helplessness."

When He Chenguang said this, there was indeed a feeling that there was something behind his words.

Even if Qin Yuan said something stupid, he could still hear what the other party meant.

After all, Chen Jixiang is still young and a little impatient.

Hearing He Chenguang say this, he felt like giving up, or even wanting to confront him.

"Brother Chen Guang, not to mention what Brother Qin Yuan thinks, the most important thing is whether there has been any change in your own mentality. Can you really guarantee that you will still be the same as before after arriving here from country H?"

Although An Ran had been talking to Du Bingbing, he was also eavesdropping on the conversations of these people. The one he was most afraid of was Chen Jixiang. This guy couldn't keep his temper.

If the other party knew that his identity had been exposed, then the spy would probably do something outrageous. The most important thing now is to stabilize the other person's emotions and don't let him find out that he has been exposed. It may be better.

"Deputy Chief of Staff Du Bingbing, now we have made it clear to you the situation here. Although the two students Professor Fang De have not been rescued yet, please give Qin Yuan some time.

You also know that he is a very capable person. In this case, we should believe that what he said can be done. "

"Anron, as a commander, I should consider the interests of the whole.

I can promise to arrange a suitable channel for you to return, but at the same time, you have to tell me when you can complete the task. This is crucial to me.

If, after I have arranged all the channels for you, you are still unable to complete the task, it will affect their plans.

You know, even the top brass of our military cannot easily alert the embassy. It does require layer-by-layer reporting before a decision can be made.

I hope you can understand that even though I have become the deputy chief of staff, my connections in the military are still very few.

If people like me, they will give me some face.

If they look down on me, they will naturally not take me seriously, and it is impossible for them to take what I say to heart.

We are all from the army, so let's understand each other.

An Ran, I don't mean to embarrass others. I just want to tell you clearly about our current relationship. Don't place all your hopes on me alone.

An Ran, although you are now the team leader, I still hope that you can pass all the words I said to Qin Yuan word for word.

Let him understand that I am not deliberately targeting you or anyone else, I am just telling the truth. "

An Ran, after hearing this, quickly turned to look at Qin Yuan, and the two of them made eye contact.

Qin Yuan was thinking that Du Bingbing had to deal with him personally.

So, he walked directly to An Ran and took the phone into his hand.

"Du Bingbing, there are some things that you don't need to ask others to convey to me. We can just communicate directly between the two of us."

Du Bingbing heard Qin Yuan's voice and secretly rejoiced beside him.

"It turns out to be Qin Yuan, I thought you didn't want to talk to me.

In order to give up the position of team leader, you have already done this, so I definitely cannot force others to make things difficult for me. I know that you are nearby but cannot communicate with you directly. "

"Du Bingbing, I know you are a very smart woman. Now that you have discovered our secrets, there is no need for me to hide them anymore."

"What are you trying to hide from me?"

"I really don't want to take the initiative to communicate with you, because didn't the two of us have some conflicts today? You have to consider that I am very face-saving."

Du Bingbing sneered after hearing this.

"Qin Yuan, sometimes I have to say that you are really selfish and naive.

You are a face-saving person, am I not?

Comparing the two of us, I am still a girl. People say that girls have the thinnest skin. "

"Not necessarily. You are not an ordinary girl. How could an ordinary girl achieve the position of chief of staff in such a short period of time, or even be about to replace Fan Tianlei."

"Qin Yuan, please don't say that, you are talking as if I have committed a heinous crime."

In fact, if it weren't for the fact that you did something wrong in Pakistan and caused Fan Tianlei to be implicated, how could it be like this?

You should pay for your own mistakes instead of making things difficult for others all the time. This is irresponsible behavior and practice. "

"Okay, okay, let's not bicker between the two of us."

What An Ran told you just now are all the truest thoughts in my heart.

I will complete the task here soon. I hope you can provide us with a channel to return to country H smoothly. "

"Where are these two students of Professor Fang De?"

"We haven't rescued them yet."

"Qin Yuan, as a member of the special forces, I hope you can understand what your mission is. I hope you can understand better that as a member of the special forces, your mission is above all else."

"Du Bingbing, what on earth is going on with you?"

You have to know that I have been in the army for several years, and I don't need you to tell me the rules of the special forces members. "

"You just need to understand these things. Professor Fang De and these two students have not been rescued for the time being, so you want to leave. Don't you want to be a deserter?"

"deserter?"

Qin Yuan burst out laughing when he heard these two words.

"I never thought that in this life there would be people who could say that I might be a deserter."

"Facts speak louder than words. The current situation is that you want to come back even before I see the two hostages being successfully rescued. How should I arrange it with you?"

How can I report this to my superiors?

This is not something I can decide alone, why can't we understand each other. "

"Du Bingbing, don't always talk to me in such an official tone. I thought the relationship between the two of us as comrades is very deep, and there is no need to think about this. If it was Thor, he would definitely not even ask. You will definitely arrange it for me."

"It's precisely because Thor always indulges you like this that he has such serious consequences now.

I am different from him, I have never denied it!

Don't talk about feelings between the two of us. This is what you said yourself. In the army, we talk about the relationship between superiors and subordinates. I am your commander now, and I need to know the progress of your mission. "

Qin Yuan was completely speechless by Du Bingbing.

"Okay, sir, please believe me. No matter what, I will be able to rescue the hostages in the shortest possible time. This is what I promise you."

"Qin Yuan, you have already said so, there is no need for me to embarrass you any more.

Well, give me some time.

Taking advantage of this period of time, you should contact me first to see how we can rescue the hostages. I will report to my superiors.

The embassy can't be easily transferred based on my ability alone. It requires many levels of approval.

Pakistan is a troubled place in all aspects. The embassy here is not as safe as you think, and the rights are not as great. "

After An Ran heard that Du Bingbing was finally able to agree to this matter, they all naturally felt very relieved.

"You see, Qin Yuan needs to take action before the other party is willing to agree to us."

"That's not necessarily the case. The main thing is that he wants to know what our specific plan is.

Anyway, now that we have recognized him as our commander, everyone should respect him more in the future.

In fact, it was not him who pushed Thor out of this position. Thor has made everything clear to us, and there is no need for everyone to vent their resentment on him. "

Chen Jixiang also nodded beside him. He now has some changes in his view of Du Bingbing.

He Chenguang was completely panicked at this moment. He didn't know what plan and action he should take next. The task given to him by his superiors was to kill Hassan, but he did not complete it.

"We are going back so soon, so we have to hurry up and complete the task within the next few days."

"Just trust Qin Yuan in everything. He is the leader of our task team."

"An Ran, didn't Qin Yuan just hand over the position of team leader to you? It seems that you also have some regrets?"

"This is all just self-deception. I hope I won't do such stupid things again in the future. It's impossible to hide this from Du Bingbing."

Chapter 2160: Sophia gets special medicine

Qin Yuan was originally very angry about this matter, and he also had some concerns in his heart.

However, seeing that the other party had agreed to help him, he could still breathe a sigh of relief.

"Du Bingbing, I must apologize for my bad attitude toward you today.

No matter what, I hope you can forgive me. I won't say more about what happened today. I didn't take the initiative to talk to you with this attitude.

Most importantly, I hope you can understand that I am actually under a lot of pressure myself.

If this matter cannot be resolved, I am afraid it will be a big loss for us, and no one will change anything because of this.

Therefore, I hope you can understand that there is still a problem with my attitude just now.

But what I hope even more is that there will not be any other influence between us, especially since everyone has their own ideas in this regard, so there is no need for us to embarrass each other.

These things are all caused by myself and have nothing to do with you. Thank you for your wholehearted help. I am very touched by this. "

It is very rare for Qin Yuan to say such soft words.

Du Bingbing, after all, is a girl, and he still has some affection for Qin Yuan.

The reason why he faced An Ran with this attitude just now was simply that he was dissatisfied with Qin Yuan's desire to hide these things about him.

"Okay, you just saw that I promised to help you, that's why you said these things to me.

Qin Yuan, this is what you call using people to move forward and not using people to move toward the back. "

After Qin Yuan heard this, he also smiled beside him.

"Du Bingbing, I won't argue with you too much about other things. I promise you to eat spicy hotpot. I will definitely keep it in mind. When I go back, I will treat you to a spicy hotpot."

"I think you are truly suitable for the position of commander, and you are quite good at drawing pictures."

"How can I make you believe that I am not deceiving you at all, and that everything I tell is the truth."

"I've always been a person who values actions. It's meaningless to talk about everything without taking action. Just prepare to come back quickly. I'm still waiting for you to treat me to spicy hotpot."

"So how should things be arranged at the embassy?"

"You don't need to take care of this. There is a person named Wang Xin in the Pakistani embassy. He is the manager of our H embassy in Pakistan. He is a college classmate of mine. As long as I tell him, I should Not a problem."

"It seems that you already have this relationship. In the final analysis, you are just waiting for me to come and help you."

"Qin Yuan, I don't want you and An Ran to bow their heads in front of me to be satisfied.

I just want to teach you a lesson through this matter and tell you that the relationship between us is a true comrade-in-arms. You should not mix other emotions, let alone reject and avoid me, which will affect the efficiency of our mission. . "

Only at this moment did Qin Yuan understand what a sober person Du Bingbing was.

It seemed that they had indeed had many misunderstandings about this girl in the past, and they should indeed apologize to him.

Chen Jixiang, who was standing nearby, couldn't stand listening.

"Sister An Ran, I really didn't expect Brother Qin Yuan to be such a narcissistic person. Could it be that he always thought Chief of Staff Du Bingbing had a crush on him?"

"This is a matter between the two of them, we can't explain it clearly.

People say that it is difficult for an upright official to deal with family affairs. How can we explain clearly when it comes to emotional issues like this? There is no distinction between who is right and who is wrong. "

An Ran, obviously feeling this when he said this, felt a little disappointed, but at the same time, they could not continue talking.

"Qin Yuan, after I tell you these things, I hope you can understand how to deal with the relationship between us next.

It's getting late and it's almost time to go to work.

Professor Fang De is still lying in the hospital. His physical condition has improved recently after taking special medicine.

I believe that soon after you come back with these two students, they will be able to get back to normal work. "

"Professor Fangde, has his health improved?"

"This kind of special medicine requires a lot of money to get.

After using such a good thing, he will definitely get better. As long as no one attacks him again and he puts himself into normal work, it shouldn't be a problem to help us for a few years. "

Qin Yuan felt very excited after hearing Du Bingbing's words. As long as Professor Fang De can live safely, it only makes sense for him to take these two people back.

"I'll tell you the truth, actually I think Mr. Norman Karim's target may not be these two students of Professor Fangde at all.

The reason why he has not been released or told us his specific location is because he should still be making some plans.

You have to trust me, I have contacted someone I can trust.

He will definitely help us rescue these two people. You just need to help me contact the channels back.

The safety of these two people is entrusted to me. If anything goes wrong, feel free to hold me accountable. "

"You are indeed a very well-planned person. Since you have said so, I can rest assured. Leave it to me to make arrangements at the embassy. I will take the initiative to inform you after the results are available. of."

"Du Bingbing, thank you so much. Not only do you want to ensure the safety of Professor Fang De, but you also need to consider how we go back."

"I told you just now that this matter is our common task.

There is no need for you to be so polite. This is what I should do and has nothing to do with anything else. I also hope you can understand that no matter what happens, I will consider the problem from your side.

This has nothing to do with other people. As long as we can solve these things ourselves, no matter what others say, it will be in vain.

I just hope you can make this clear. "

"Yeah, I understand. It's really \*\*\*\* you."

After Qin Yuan finished talking about these things, Du Bingbing hung up the phone directly, and Qin Yuan could finally breathe a sigh of relief.

"An Ran, you two should have heard it. This guy has agreed to our next plan. He will not come back to embarrass us again."

He Chenguang, obviously did not feel very happy when he heard the good news. Instead, he was a little worried.

"He Chenguang, what's wrong with you?"

You should feel very happy to hear this good news.

We will be able to return to the army soon, and then we no longer need to worry about this matter. Instead, it is possible that all of us will receive awards from the army, and maybe our military ranks will be raised one level. "

"Qin Yuan, I hope you can understand that I have never particularly cared about this aspect.

I was just thinking about how you could let these two students of Professor Fang De come to us safely in a short period of time and embark on the journey back.

Don't forget that Jason has betrayed you.

We no longer have a way to go back. Even if Du Bingbing arranges for you to visit the embassy, if we don't find anyone, it doesn't mean we have completed the task. Are you happy so early, are there some..."

Chen Jixiang directly interrupted what He Chenguang said.

"Brother Chen Guang, I think you are too pessimistic sometimes.

Brother Qin Yuan has just said that you can just leave this matter to him. Don't you still understand his ability?

Let's not ask so much about how to do it specifically. We just need to wait. I'm just waiting to go back and receive the reward from my superiors. I can't care about so much other things.

By the way, if Brother Qin Yuan wants to eat spicy hotpot, can you take me with you? "

When Chen Jixiang saw that the spy was about to find out the details of their operation, he immediately changed the subject without giving the other party any chance.

An Ran smiled and said beside him.

"Chen Jixiang, this matter is between Qin Yuan and Du Bingbing, so don't get involved so much. If you want to eat spicy hotpot, I'll just ask you to stop.

I hope I can give the two of them a space to be alone together. "

"An Ran, please don't get me wrong. When I asked him to eat spicy hotpot, it was indeed a matter of personal emotion and nothing else."

"I didn't misunderstand, let's not mention this matter again.

Since he is relatively reassured about us and is willing to contact us to the embassy, let's take the next step quickly. "

At this moment, He Chenguang was simply confused after hearing these words. He had already missed many of Qin Yuan's plans, and now he couldn't even catch up with anything.

"Qin Yuan, you always blame me for being difficult to get along with and acting weird in front of you.

This is indeed because you don't give me so much sense of security. It seems that I have missed a lot of important things. Why can't I understand what you are saying now? "

"He Chenguang, don't doubt yourself.

We haven't done anything outrageous without hiding it from you. What's happening now is to be expected, and you will know about it when the opportunity arises in the future.

Besides, Chen Jixiang and An Ran didn't know many things, and they were arranged by me alone.

After all, there are some secrets in a foreign country that are known to one less person, which means one less risk. I hope you can understand them more. "

When He Chenguang heard this, he could clearly feel that Qin Yuan didn't seem to trust him.

"I hope you can explain to me clearly that one less person knows and one less risk is involved. Could it be that in your heart, if I know these secrets, I might leak them?"

"He Chenguang, I think sometimes you are too sensitive to me. I didn't say anything, but you think too much.

You'd better go back and rest quickly. We have to rest for a while before Mr. Norman Karim comes.

Otherwise, I really wouldn't be able to spare so much energy to play tricks with him in front of him.  
"

He Chenguang himself is also very anxious now. He has not completed the tasks assigned to him by his superiors. Instead, he has been struggling here, which really makes them at a loss.

"Qin Yuan, I know that this period of time has put a lot of pressure on you, and I hope you can understand a little bit."

"I really don't have any pressure. He Chenguang, don't think too much, just go and rest quickly."

At this moment, Sophia opened the door anxiously and rushed in.

"What's happening here?"

It really seems like the early bird catches the worm, you all got up pretty early. "

When He Chenguang saw Sophia here, he felt a little shocked, which further confirmed that Qin Yuan and the others had many things they were hiding from him.

"Sofia?"

I am indeed a little surprised that you can appear in this room. Aren't you Mr. Norman Karim's person? Why does he look so familiar with Qin Yuan? "

"After all, you have lived in the club for so many days, so it is necessary to become familiar with it.

I came in in a panic and didn't have anything else to do. I just wanted to tell you that breakfast is ready. Let's go get something to eat first.

In case, Mr. Norman Karim comes to take you to other places later, you must have energy. "

He Chenguang knew that Sophia must have something important to tell Qin Yuan if she came in in such a panic.

If he were here, he would definitely say nothing and change the subject. It would be better for him to go out quickly and create a space for them, so that he could find a chance to learn these secrets.

"Okay, breakfast is already prepared. There's no need for me to wait here. I'm going out to have breakfast first, and I have to wash my face first."

He Chenguang just said a word and went out directly.

Chen Jixiang couldn't help but ask next to him when he saw Sophia's excited look.

"Is there any news about the special medicine?"

If you come in so happily, we know that there must be results in this regard. "

"Chen Jixiang, you are really a very smart boy, you can guess everything accurately.

Yes, there is indeed news about the specific medicine, and you all have hope. "

"Is it Jas's special medicine?"

"Yes, Harry from the private hospital in the United States has already given me a reply. He told me about the special medicine. As long as we have the money, they can get it."

"Such high-tech stuff is definitely not cheap, and it's probably worth a lot of money. You have to give us a mental estimate in advance of how much it will cost."

After An Ran said these things, Sophia felt a little embarrassed next to her.

"It takes about two million. I know this number is quite scary to you. It can be regarded as an astronomical figure.

However, it's time for you to think of some ways to make money. Even if it's not for the special medicine, you still need a lot of money just for the journey back. "
