

Special Soldier 2161

Chapter 2161: If it doesn't work, there is still system help.

Although He Chenguang had already gone out at this time, what Sophia said made Qin Yuan fall deeply into thought.

He was afraid that these secrets would be heard by others, and he was also afraid of what tricks Sophia was playing with him.

After all, now is a very critical time. If the interests of many parties are really touched, then it will be difficult for me to handle it next.

The key is that he cannot decide these thoughts alone. Many people are counting on him, which puts Qin Yuan under great pressure.

At least he can think that he still has the ability to solve these problems.

However, now he doesn't want to agree to anything so easily, and he doesn't want others to know his secret.

Now that Sophia said that she has found a specific medicine, it means that they can indeed take the next step.

Qin Yuan is still under a lot of psychological pressure now. He doesn't want others to know about the special medicine, especially He Chenguang. This guy always puts him in trouble.

On such a critical issue, I cannot be vague.

After Sophia finished talking about these things, he looked back at Qin Yuan who seemed to be thoughtful, which meant he was even more anxious.

"Qin Yuan, I hope you can take these things I just told you to heart.

In fact, no matter what happens, I hope you can understand that I have never been vague about this aspect.

Ever since you told me about this, I have been trying every possible means to help you find specific medicines, and now I finally found a private hospital in the United States.

The new product that has just been developed over there has not been made known to anyone yet. "

When Qin Yuan heard what Sophia said, he didn't understand.

"Since this is a newly developed special medicine that no one knows about, how did you learn about it?

Saying this just makes me feel a little suspicious. "

"Qin Yuan, I hope you will never doubt what I told you. The special medicine was developed by a private hospital in the United States.

The director of this private hospital is a good friend of mine named Harry.

During this time, I have been communicating with him, and he is willing to tell me what is going on.

I think you must not think too much. I am definitely willing to help you. No matter what the reason is, I hope you don't doubt me.

And even if I don't help you in this matter, I will still help Azhe. "

Originally, Qin Yuan was unwilling to believe what Sophia said, but looking at his expression when he mentioned Azhe, he could tell that he was not lying, and he was willing to try to believe him once.

An Ran had some doubts at this time.

"Sofia, I remember you once told us that Mr. Norman Karim has always managed the private hospital in the United States very strictly.

Once a new special medicine is released, he will definitely know it immediately, so how can it be hidden from him? "

"An Ran, you are indeed a very smart person.

However, I can tell you whether the newly developed special medicine will be successful or not, it depends on Harry not confirming its success in his profession.

How could Mr. Norman Karim know?

Only after his side confirms the success through professional knowledge can the other side know about it. Therefore, Harry is now willing to temporarily suppress this successfully researched special effect for me, without letting anyone know, and directly use it for us.

But the premise is that you dare to believe in his professional ability. "

After Chen Jixiang heard this, he stood there and thought deeply for a while.

"Brother Qin Yuan, our real goal now is to save people, not to harm them. Do you dare to give this kind of special medicine to Hassan or Jason without professional approval?"

"You are right to worry. I am also doubting this issue. You have to give me some time to slowly

Just think it over carefully. "

"Qin Yuan, let's not talk about other things for now. Just consider time. You can't think about it for too long. Time waits for no one."

"Sofia, this matter involves life safety. You have to make me mentally prepared. In this situation, I can't be satisfied by myself."

An Ran looked at Sophia's anxious expression and felt that he must be very anxious too. Although he didn't understand why he would think about it so much, this matter had to be considered slowly and long-term.

"Since Harry is a member of your group, it means that he and Mr. Norman Karim should know each other and know what kind of person he is.

That he dares to help you under such conditions shows that the relationship between the two of you is really extraordinary. "

"Qin Yuan, you don't have to beat around the bush here.

You can express all your doubts, I don't have any objections.

I just want to tell you that we have experienced these things now. If you doubt me like this again, it only means that we are wasting our time. Don't blame others for not giving you a chance. "

"Sofia, our current situation is also very serious. You should be able to see that I don't want to force you here.

I just want to tell you that no matter what happens next, you can understand our current difficulties. I am indeed very anxious to go back.

And, I hope both Jason and Hassan are safe.

No matter what, I have to take Jason back with me. His daughter is still in our army. How can a father like him not go back? "

"Jason?

Qin Yuan, I completely think you are just joking with me now.

How could he go back with you?

Having joined the camp of Mr. Norman Karim, it is impossible to go back. There is no turning back on this matter. Mr. Norman Karim has been keeping an eye on him and there is no way he would give up so easily. "

"That's why I'm troubling you and Azhe."

"It seems that Azhe has told you everything about our relationship. Even if he hasn't told you everything, he is still inseparable.

I have nothing to hide. Azhe and I are indeed planning something in secret, but the premise is that it does not affect the safety of other people. "

"Sofia, Qin Yuan doesn't have any other intentions.

The reason why he said this is simply to tell you that we are not interested in these things between you and Azhe, and we don't want to know. As long as we can ensure everyone's safety, we will not force you. "

"An Ran, I think you guys want to leave here quickly now.

In that case, I have nothing to say.

Think for yourselves when you can leave here. "

Qin Yuan at least still has a trump card, which is the system that allows him to protect himself. At least this system will not betray him.

Therefore, after thinking about these things, he is relatively happy now. As long as this matter can be solved, there is nothing else worth the trouble. "

"Sophia, if we want this special medicine now, how long will it take to get it?"

An Ran and Chen Jixiang saw that Qin Yuan was really anxious to get this special medicine. They had nothing to say, knowing that Qin Yuan was impatient.

"If we use water transportation from the United States to Pakistan, it will take about three to five days."

"Water transportation? Isn't this a little too slow?"

"Qin Yuan, how can a smart person like you be so confused all of a sudden?"

This kind of special medicine has not been approved yet. If it is transported by air, there is a high probability that it will not be successfully delivered here. It can only be transported by sea. "

"Yes, I am indeed too anxious."

Qin Yuan patted his head gently as he spoke. How could he suddenly become so stupid?

He must be troubled by these things.

"If it's three to five days, it's enough for us. It depends on whether your plan can go smoothly."

"Qin Yuan, do you mean to cooperate with us?"

"Don't forget that I am a member of the special forces of country H. We have red lines here. As long as we don't step on the red lines, I have no problem cooperating with you."

"That's fine. If you are willing to cooperate with me, I will definitely be happy."

However, I hope you can understand that no matter what situation you encounter next, never let others make it difficult.

This matter cannot be solved by one person. It depends on whether the plan of most people can achieve a good cooperative effect. "

"Sophia, now that you know our identities, you should understand our difficulties. No matter what happens, we must not let go of this matter so easily."

"An Ran, I can understand what you mean.

Now it seems that I should do something to prove that I sincerely want to cooperate with you, right?
"

"Mr. Norman Karim is a very powerful opponent, and we don't want to stumble upon him."

"Okay, no problem at all.

What we are doing now is like pulling teeth out of a tiger's mouth. If Mr. Norman Karim knew about it, we would not have a good result.

The relationship between us now is one of mutual prosperity and mutual loss. "

Chen Jixiang sneered and said.

"According to what you said, we must really work together now, and we must not let down each other's expectations."

"That's right. If you agree, I will inform Harry now to mail this special medicine to me as soon as possible."

"Hmm, then go ahead."

Sophia nodded and left Qin Yuan's room. After seeing him go out, Chen Jixiang asked anxiously.

"Brother Qin Yuan, what's going on with you? Do you really believe this guy?"

"We are at a dead end now. If we don't believe Sophia, no one can leave here easily. Let him get this special medicine for the time being.

It can distract him. At the same time, if this special medicine is really effective, it will also be a good help to us. "

Watching Qin Yuan make this decision, An Ran knew very well that he would not give up on Jason easily.

"Have you considered?"

"I have already thought about it. No matter how high the price is, I cannot let Jason stay here alone. If he stays here alone, he will die.

Mr. Noman Karim will not let him off easily, I am sure of that. "

"But Jason, after all, is quite complicated. Even if we can protect him now, we all know what kind of trial he will receive when he returns to Country H."

"Then let's wait until we get back."

An Ran looked at the door worriedly.

"What's wrong?"

"Let me see if anyone is eavesdropping outside."

"He Chenguang should have gone back to sleep. Even if he has any suspicions, it is absolutely impossible for him to show them in front of us."

"But I'm still worried. His status is quite special, and we can't deal with him according to the original plan."

"An Ran, you don't have to worry so much. In fact, I think you have been a little too anxious all this time. for my thoughts on this aspect. We have to take a step at a time before talking."

"Qin Yuan, why do you look like you are not worried at all? Are you already confident about this matter, but you have never told us."

Well, I can't say that yet. "

Qin Yuan now thinks that he needs a completely private space and needs help from the system.

See what kind of help the system can provide you recently.

Although it is not an option to always trouble the system, life is like this when there is no way to cheat.

"Du Bingbing said he would contact the embassy for us, but I don't know when we will get the news."

"Sister An Ran, don't think so much here, let alone be anxious. Since the other party has already said that they are willing to help us contact them, we have nothing to worry about.

Communication with the embassy still needs to go through procedures. In a short period of time, he should not give us any definite results. "

"I also understand this. As the deputy chief of staff, it is indeed a bit difficult for us to contact him about these matters. It can also be seen that he sincerely supports us.

But, I don't know why, I always feel a little flustered.

The goal for just the few of us is huge enough, and we will definitely attract attention when we leave here.

If we add the two students Professor Fang De, the goal is a bit too big, and it seems a little impossible to leave Pakistan secretly. "

"An Ran, I find that you always like to put some invisible pressure on yourself.

Just leave it alone and leave this matter to me. Who made me the team leader?

As for you two, just wait patiently for the news that we can return successfully. "

Chapter 2162: System upgraded to version 4.0

An Ran was still a little worried about Qin Yuan.

They all know that Qin Yuan has gone through so many things, and he has really shouldered too much. It is really unreasonable for him to pay for everyone's things alone.

"Qin Yuan, when you were in the army, you were a very delicate and heavy-minded person.

If you have anything to say, you don't want to tell us friends clearly. You are just responsible for these things alone.

I hope you don't put all the pressure on yourself. With so many things, don't you really consider letting us help you share them? "

Chen Jixiang was also beside him and continued what An Ran said.

"Yes, Brother Qin Yuan, it is imminent for us to go back now. If you have to bear all this alone, we will really be worried."

"Dingdong, hello, director, long time no see. I'm glad to be able to serve you again. The system has been upgraded after a period of rest and has now been upgraded to the 4.0 system."

"Ding dong, the blue box represents a new physical upgrade, which means that as long as the owner exchanges a certain ability, he can obtain related physical abilities."

Even if it is not for us and for his own future, he will definitely do his best. "

Because you need to go through procedures, and they are transnational procedures.

You also know that the high-level people in the army are generally not that efficient in doing things. Unless someone specially urges them repeatedly, they can pay more attention to this matter. "

"In the past, when you appeared in the system, the screen was always blue. Why did it turn into a white screen today?"

"System 4.0?"

After Qin Yuan finished speaking, a screen lit up in front of his eyes. This was a familiar feeling to him.

"Dingdong, as long as the director requests it, we will definitely do our best and help the master find a way to go back.

"The efficiency of these people has always been like this. As a new recruit in the army, I have experienced it."

"Thor? He is no longer the mission commander of our team.

However, after the contact is established, you may have to go to the consul Wang Xin of the embassy in person.

"Dingdong, the system shows based on the current information that if you really want to have a channel to go back by yourself, it seems that you still have to trouble Fan Tianlei about this matter."

For example, you can transfer all the corresponding academic knowledge and knowledge that others have learned to yourself, or you can transfer the characteristics of a certain animal or object to your own body, allowing you to completely Become a person with super powers. "

"Aoao, if you want to say that, I understand. It means that I can obtain any ability with the help of the system. If that's the case..."

"This Xiaolan has indeed caused us a lot of losses. It's best to get rid of this guy completely."

To completely become a useless person is equivalent to stealing these abilities from other people's bodies. This is the behavior of a thief and I cannot do it. "

An Ran was still a little worried about He Chenguang. He didn't want to cause trouble at this critical time.

As for what plans they have, we can't control that much. "

"Let's do this. Chen Ji wants you to go rest first and leave the rest to me. I'm going to watch He Chenguang outside. He has been colluding with Xiaolan. We don't know what the two of them are discussing. clear."

First of all, if he acquires this ability, he will have no way to explain it to others when he returns to the army. He cannot tell others. He has a system that can help him obtain these things.

"You two, just relax and leave this matter to me.

He thought to himself, I'll go! This is so cool~

After An Ran finished speaking these things, the environment suddenly turned cold.

It was through the brand-new functions of this system that he obtained the knowledge that Professor Fang De and his two students could learn and master, and even obtained the knowledge from Professor Fang De.

So can these people who have gained superpowers from me still be the same as before?

By then, he can become an arms expert.

Thinking about it, this is indeed a very good idea. If he can obtain the relevant information held by Professor Fang De's two students, it means that he will not have to go to all the trouble to bring back the two hostages.

Chen Jixiang and An Ran nodded, and they left without any other reaction.

Now you have to help me find a way back. "

Du Bingbing said that this person was his classmate in college, and the relationship between the two people should be quite unusual. Otherwise, he would not ask this person for help for such an important matter. "

The knowledge Professor Fang De has learned in his life is not wasted, and will be cremated with him when the time comes.

After Qin Yuan saw this situation, he had nothing to say.

"Brother Qin Yuan, how could I do this?

Even in a foreign country, I always remember that I am a member of the special forces of country H. "

This means that I must have a definite answer to these things now. I will not fight a battle that I am not sure about. "

Go back and have a good rest first. If necessary, you must be optimistic about this guy as An Ran said and don't let him do something too outrageous.

He is in contact with the embassy, but there should be no results in a short time.

Qin Yuan turned around, and he understood the meaning of why he came here.

Qin Yuan still has some doubts. This system is already very powerful. Now that it has been upgraded to the 4.0 system, it may bring a lot of surprises to him.

They treat them as their own children. The emotional value they can provide is far different from the technological value and cannot be compared at all.

Qin Yuan was still a little nervous when he heard what Chen Jixiang said, fearing that it would be terrible if the child did something outrageous when he got excited.

"Physical upgrade?

What difference does this make? In the past, when I exchanged, I could also increase my ability in a certain aspect. This time, I was a little caught off guard. "

No matter what happens, it must not affect the progress of his mission. This is the responsibility of a special forces soldier.

I haven't contacted the system for a long time. Fortunately, I have the help of such a system by my side. Otherwise, I would really have no confidence in doing things. "

No matter what, we can't act so selfishly. We must consider other people's thoughts and ideas.

Qin Yuan was stunned now.

It's just that I don't have much time so far. I will try it again when I have more time when I return to our country.

For Professor Fang De, these two people are by no means as simple as his students.

Moreover, didn't Du Bingbing agree today? He will definitely help us find a good way back.

"The system understands me better. I am not used to leaving my destiny in other people's hands. I am used to controlling my own destiny and controlling everything.

"System, system, come out quickly. I really need your help now."

Qin Yuan became even more interested when he heard this.

Chen Jixiang shook his head helplessly after hearing this.

Your idea is not a good one, and I don't really agree with it. Is there any other channel? Please help me think about it. "

In fact, he should be quite anxious. Let's just stop here with the embassy matter. If someone helps us contact him, we don't need to worry about it.

"Dingdong, Master, you don't have to worry. In this case, the corresponding skills you acquire do not affect the original owner's ownership of this ability."

The key is when can I solve all the problems of these people?

"Ding dong, remind the owner that the current system has been upgraded to a new version. The blue box represents new functions, which means that the owner can continue to develop more functions to serve your life."

"In the short term, we cannot affect these plans of his."

It seems that you don't particularly trust either the embassy or Azhe, and you want to have another information channel that is exclusive to you. "

"Finally I'm the only one left here. I need to contact the system first to see if he has any good ideas."

"That's fine then."

"Well, if you say so about the system, I'm quite curious, and I also want to try this new function."

Secondly, as a member of the special forces, he deeply understands the importance of completing the mission, which means that he must complete the mission when he comes here today.

Based on the system's scan of the owner's mind, it has completely understood your inner thoughts.

However, he had another idea, that is to say, if he transfers the knowledge learned by others to himself, then he will become an academic expert, no matter what.

"No, mainly for you, he can do his best."

"It seems that your systems are really smart. You were able to upgrade them yourself without benefiting from me, and you even upgraded them to a new version."

"Dingdong, the physical upgrade of the blue box in version 4.0 is mainly that the owner can use other people's special abilities on his own body.

Everyone didn't know what to say, especially Qin Yuan. He didn't want this matter to involve his and Du Bingbing's personal emotional issues.

Furthermore, so far, he has come to save these two students of Professor Fang De not just because they have a certain ability. If it comes to mastering knowledge and ability, Professor Fang De may not have the help of these two students. Be able to do your own research.

Even if we trouble him, we have to go through Du Bingbing. If we contact him without permission, Du Bingbing will definitely be unhappy if he knows about it, which will also affect Thor's status in the army.

"Chen Jixiang, I must remind you to calm down quickly and don't have other thoughts."

I believe that his superiors still have some relatively private plans for him. We just need to protect our secrets and not let others know.

"Yeah, An Ran is more knowledgeable than you. What you said is what I think, and he is now the commander of our team.

However, this idea only occurred for a few seconds.

"What is the function of the blue box? Tell me quickly, I'm really curious."

Qin Yuan suddenly thought of a very good idea.

"It seems that Du Bingbing has really paid a lot for us. You have to treat us to this spicy hotpot."

"Let's go back and rest first, and recharge our batteries. There are still many things waiting for us to do. In case the embassy has contacted us in advance, we have to have a plan for the next step."

"It's good that you can understand this. At least we won't live up to Thor's expectations and requirements for us.

"System, what you said really made me very interested. But what I am more curious about is that even if I obtain this kind of super power.

"You brat, it's been so long and you still make fun of me.

We can no longer bear any hardships. Before embarking on the journey back, we must not continue to cause trouble here. "

No, when Qin Yuan thought of this, he suddenly discovered that there was a misunderstanding in his thinking. What kind of super power he could acquire must be that others had this ability.

Or, it's like some kind of ability transfer. After I gain superpowers, their abilities will be wiped out.

Thinking of this, Qin Yuan completely nipped this idea in the bud. He absolutely could not do this. Professor Fang De's two students must be taken back.

"What about He Chenguang? What should he do?"

By then, I, a special soldier, would be making a fuss out of a molehill. I should be protecting the universe.

If I could really have so many superpowers, wouldn't I become a superhero now, just like the one in the movie?

Seeing so many changes, I seem to be a little anxious.

Chapter 2163: System upgrade, double cheating again

Qin Yuan is talking to the system.

Now his system has been completely upgraded to a brand new version and has entered the 4.0 era.

This also means that he will have many things and opportunities that he can take advantage of, and this will be a once-in-a-lifetime opportunity for him.

It's just that although it provided him with strong support, Qin Yuan still doesn't know clearly how to use this system.

"The system, as you just said, has been upgraded to a new version, and I feel very excited about this function after you finished talking about it.

It's just that you didn't tell me how to use this function. "

"Ding dong, the system reminds the owner that there is a laser scanner inside each small blue box. If you get this laser scanner and scan it, you will be the holder of the ability you want to obtain, and you will obtain this ability."

"I want to know where these two people are. This is my mission as a member of the special forces and the purpose of my coming to Pakistan."

Maybe you don't know Mr. Norman Karim very well. He is a person who demands rewards for his efforts. If you can pay all these funds, you will not let him go to waste.

"Hey, I also want to thank you. This system has affirmed me. In this case, I have nothing to say. You should leave first. I need to take the initiative to contact the H country troops. "

"Dingdong, getting the right to unlock this function still requires a lot of merit points, so the host is kindly requested to work harder."

Qin Yuan feels that he is about to be fooled by this system now.

"Qin Yuan, it turns out that you are still very anxious about this matter. In the past, your attitude seemed indifferent, but now I have changed a lot."

Azhe sighed helplessly after hearing this.

It's enough that we each do our own thing, and there's no need to think about anything else. You'd better hurry up and tell me first, when can I let you tell me all the truth. "

"He did a good job as an undercover agent at the beginning and was considered promising. Why was he exposed and turned into this after he came back?"

"Well, it's the same as what you said.

Keeping them is just a waste of your energy.

How about it? Will you be very surprised after hearing this news? "

Mr. Norman Karim shouldn't mind either, because the two of them don't have much use value anymore. For people who can't do experiments, they are not much different from useless people.

"Azhe, maybe you and Mr. Norman Karim have been together for a long time. You don't know what money is. A lot of money is a small amount for you, but for me, I may not be able to make it back in a few years." "

"My appetite is not that big, just Pakistani currency."

"I'm going to tell you something that may surprise you.

"Fifty million!"

When Qin Yuan was in a daze, Azhe suddenly sent Qin Yuan a contact phone number. He was really caught off guard.

After all, casually alerting the embassy still requires a lot of procedures. If Thor doesn't agree, then forget about it. "

"Azhe, you just contacted me and came to see me again. Did something happen?"

You should have accumulated a lot of wealth over the years, why are you still so greedy? Does this money really make sense to you? "

"Is it that simple?"

To be honest, Qin Yuan did ask Fan Tianlei for a lot of money before joining the army, but at that time he squandered it all to make himself more comfortable.

"You don't need any other help for the time being. Just upgrade slowly. When will I be able to upgrade to the point where I don't need these things anymore, I will be happy."

"I don't have that much money now, can I have a little less?"

Now that this matter has been satisfied, I have nothing to say. The key lies in how to deal with this matter in the future. "

"Qin Yuan, do you think you are bargaining in the vegetable market now?"

Although these two students, Professor Fang De, are not of much use, if I sell them to Old K, they may be much more than that. "

"Business cannot be just hanging on a tree. It's the same with you. If you don't agree, I'll do the deal with someone else."

If he feels that betraying me would be very beneficial to him, I have nothing to say. Now that the initiative is in his hands, what can I do if I am anxious. "

"It is impossible for him to leave with me. He must stay in Pakistan. Even if he is now a disabled person, he will never give up his country and go to a foreign country. So as long as his safety can be guaranteed can."

"Jason, the decision he made has nothing to do with me. Since he has already agreed, I have nothing to say."

"Do you have any connection with the United States?"

"I think you are going crazy now. You can't care about anything so much. What are you thinking about? It's time for you to go back quickly."

"That's right, since I found out about this, there's nothing to explain.

As long as you can afford the price, you can take these two people away at will.

Do you know how much useful information he holds? If this guy really betrays you, you may not be able to return to your country H at all. "

"Just tell me what price I need to pay. In the past, I needed merit points, but what do I need now?"

Logically speaking, you are Mr. Norman Karim's right-hand man.

"Qin Yuan, I can't control so much other things, so I'll just tell you the truth.

Azhe's rhetorical question immediately made Qin Yuan understand why they didn't leave quickly.

However, it is best for you to be mentally prepared in advance. If you discover these things without knowing it, I think you will be under a lot of pressure. "

Make it profitable for him, and maybe he can release these two people directly and let you go back.
"

Sophia and I, even if we leave the group in the future, we will have enough living conditions to ensure that we will not be like Jason, who is now in this desolate state. "

You are the only one who knows where they are. If you are willing to tell me, I can go back now without causing any further trouble to you.

We can only think of other ways. If these two students of Professor Fang De have no use value, Mr. Norman Karim will have to deal with them. "

"That's probably not the case. You are such a powerful hero and should be highly valued in the army. The other party is also willing to provide you with many generous conditions. Now you are crying in front of me and saying that you have no money. I don't believe it either. "

"I can understand that Hassan is a reason why you are worried. Do you plan to take him with you?"

"What do you think?"

"Dingdong, of course, this function requires certain system data to support it."

The most important thing is to quickly find a way to save Professor Fang De and these two students. I don't want to embarrass you.

Although I know that you and Sophia may be doing some tasks in secret, I don't want Mr. Norman Karim to know about it, and I don't want to be involved in these things with you.

In fact, Mr. Norman Karim doesn't particularly care about these two people. The reason why he has never planned to release them is because he just wants to take advantage of them.

Although the system has been upgraded, he is almost cheating again, but he still needs a lot of merit points as support, which means that he has to exchange some with others.

"Don't mention..."

Even if this guy Efit is involved, he is willing to join our group and fight side by side with Efit.

"H country's currency?"

"Azhe, you also know what my mission here is this time, namely these two students of Professor Fang De.

In other words, there is simply no use for him to stay here.

"I'm finally the only one left. I can be a little quieter. At least I know that this system is around. It's not too worrying.

"This is all in the past, so don't mention it again. Hassan won't tell you. Anyway, generally speaking, you have nothing to do with these things, so don't worry too much. .

Now, the only person who can have the specific location coordinate information of these two people is you.

I don't have much hope anymore, I just want to go back as soon as possible.

It seems that there is still room for careful discussion on this matter.

"Who in this world would hate having too much money?

Of course, the more of these things, the better. Once we have money, we have a lot of freedom to choose.

I believe it is related to Mr. Norman Karim. "

"Okay, please speak quickly.

"Dingdong, does the master need any other help?"

In fact, Professor Fang De's two students did not play a big role at all, although they seemed to be experts in arms dynamics.

When Qin Yuan heard what Azhe said, he was so arrogant.

After Qin Yuan finished speaking, he only saw the screen in front of him dimming and the system gradually disappearing.

"Yeah, you're right. Since you already have the idea of betraying Mr. Norman Karim, why don't you quickly choose to leave while the chaos is happening?

After we leave, it will not be easy for you and Sofia to leave again. "

I can only tell you this much. If you agree, we will make the next step quickly. If you don't agree, I won't talk nonsense.

"Azhe, what happened? You had better tell me in advance, so you don't have to make me wait here for so long."

Now we have to ask Fan Tianlei what he thinks of the embassy and whether he supports our decision.

"Dingdong, according to the system's scan, the master's negotiation ability has reached the top level now. There are no problems. No other assistance from the system is needed."

"Well, I think that after communicating through Sophia, our relationship may be different from other people's, and we can be a little more open-minded towards me. It seems that no matter who you attack, it's the same. It costs the same amount of money.

Maybe there will be some opportunities in the future, after all, a lot of money has been invested in them.

Qin Yuan is a very smart person, and his brain works very quickly. He immediately calculated the specific amount of money in his mind. Although it was not as exaggerated as he imagined, it was still a large amount of money.

Seeing Qin Yuan so calm, Azhe had some doubts.

Although he has obtained a brand new function, he does not have any plans to activate it yet.

Jason, he just agreed.

The two of us are happy people together, so naturally we don't need to talk too much nonsense.

"Jason, look for But it was because of you that I pretended to surrender to Mr. Norman Karim. Now you are so calm about this matter and don't care about it.

"No matter what you say, Jason used to be my good brother.

Since you want to ask me for money, you can just tell me a reasonable amount, and then secretly put these two people back, and I will still be able to meet your request. "

"Okay, that's it for now. Then just tell me what you think. How much money will it take to release him?"

It turns out that it was all for Hassan. Hassan's safety issue has not been resolved yet, and it is impossible for Azhe to leave him alone and take Sophia away like this.

Maybe, it will definitely be helpful in future tasks. I am simply reaching the peak of my life again.

"Azhe, when you say this, I seem to understand that you should be honest as a person.

If it was really used for something now, he wouldn't be able to use it much, but a smaller amount would definitely be fine. It's just that he didn't want to talk to Azhe about money easily now.

But in fact, they are nothing compared to their teacher, Professor Fang De. All the core technologies are in the hands of Professor Fang De, and these two people cannot do any experiments alone.

Chapter 2164: Let's raise money first

Although Azhe said he wanted a lot of money, Qin Yuan knew very well that if he really couldn't provide it, he would have to think of other ways.

"Azhe, money is indeed a good thing. I can't provide that much money on my own, and I think the money you want far exceeds the value of it."

"Qin Yuan, what do you mean by that?"

Could it be that you mean that these two students of Professor Fang De have no value in your heart?

In other words, they are far less than what you have to pay.

If this is the case, I have nothing to say. I can only tell you that the key is that the current problem is very troublesome, and what you say does not count at all.

Moreover, the initiative is now in my hands and in the hands of Mr. Norman Karim. Maybe others also have some initiative, but it is not in your hands.

After Azhe finished talking about these things, Qin Yuan was now troubled. Although money was not a big problem for him.

"Azhe, I told you just now that I don't have much money on hand. Let me discuss it with An Ran."

"Then I advise you to discuss it quickly, time waits for no one."

"Then you can tell me what, in your eyes, is worth the money?"

It's impossible for Qin Yuan to say that he doesn't care about money. This is all his hard-earned money, which he blackmailed Fan Tianlei before joining the army.

Please notify me and ask him to come back quickly. "

But you are still anxious to leave. Maybe you want to go ashore while everything is safe, right? "

"Jason?"

I don't think you can even spend the money.

You have to think carefully, even if it is for yourself, don't be so stingy.

Fan Tianlei was completely speechless by Qin Yuan. He had no choice but to pamper his soldiers.

no! I still have to have a good talk with Fan Tianlei or Du Bingbing. "

Now that there are other solutions to this matter, I don't think he should be allowed to stay here any longer and undergo the test of Mr. Noman Karim.

Say you are a good person, but now you are worried about money again. "

So, Qin Yuan opened it directly, checked his account balance on his mobile phone, and calculated that it was about the same. He was indeed able to withdraw all his savings.

Although Azhe said this, Qin Yuan definitely didn't want to believe that the brotherly love between him and Jason was gone.

"Azhe, what you said is a bit too ignorant. How could I be greedy for money? I just think it should be worth the money."

"I don't know about this. The task was given to him by Mr. Norman Karim. How to arrange and plan it is his own business. It seems that we don't need to interfere so much."

"Jason, you were planning to join your group just because of me.

For him, many problems are indeed not as easy to solve as imagined, but he doesn't want to just take out the money.

"That means you are indeed encountering some difficulties now. Do you want to ask me for help?"

"Well, I don't have anything to say. The problem is that you have to inform me and ask him to come back as soon as possible."

"I can also still have some resources in my hands.

Perhaps for many people, joining Mr. Norman Karim's camp and gaining his trust is a good thing that they never dreamed of.

"It seems that you are really a very smart person, you figured it out so quickly.

"I only have this little money left~

"The country of Pakistan is a mixed place. It is very easy to make money here. It just depends on whether I am willing or not."

As long as you are willing to cooperate with me and help me with this matter, there will definitely be no solution that cannot be solved. The key lies in how we all deal with this problem. "

After Azhe heard Qin Yuan's words, he thought about it again and again.

"Jason, when are you going to visit Hassan's hospital?"

Qin Yuan didn't say anything. He directly sent the balance of his bank card to Fan Tianlei.

As he spoke, he checked his balance.

"Thor, haven't you ever heard of a hero being killed for a penny?"

You must not joke about your future, because with such a small amount of money, you will go astray. How should I explain to the senior management? We all let you go at the beginning, but we believed in your character very much, so don't do this to me. "

"It seems that he wants all your savings, so you got anxious and called me in a panic."

Qin Yuan heard Azhe say this and sneered beside him.

"In addition to these two students, Professor Fang De, you should also provide me with something else to show your value."

Once the money is spent, it is impossible for Fan Tianlei to reimburse himself.

Don't be so stingy, I don't want you to pay the money alone.

"Yes, I have formal uses for all the money. As long as you are willing to provide it to me, I will definitely not let you down, and I will be willing to hand over these two people to you."

But after all he calculated, it was basically all his savings.

To be honest, I don't want him to stay, but now he seems to have accepted Efite as a person and the things that happened between them.

"Thunder God, Du Bingbing, how can he compare with you?

"Thor God, you are fine now. You are so peaceful at home, and you don't have to worry about any of our affairs."

"It is impossible to ask the army to pay for you. It is impossible for me to agree, and it is even more impossible for Du Bingbing to agree to you. I advise you to give up this idea quickly and think of other ways to raise money. "

"Thor God, I tell you, don't think too extreme as a person. I am a good person and I care about money, so there won't be any conflict at all.

However, I have a very important question that I urgently need to tell you. "

"Is there any conflict between me having money and me not spending money?

Fan Tianlei did not expect that Qin Yuan would be so kind to An Ran and Jingran, and that such a stingy person would be willing to spend all his savings on tasks after hearing about An Ran.

I was in the army all day, and I didn't go out to buy anything or have any other entertainment.

"What can that do?

I think he may really want to betray you. Even if the things you discussed at the beginning are false, it may have changed for him now. "

Qin Yuan didn't feel sorry for the money. He just felt that there was no need to be blackmailed by this guy when there were better channels. Thinking about it, he felt aggrieved.

"Qin Yuan, what the two of us are discussing now is how to save the two students Professor Fang De, isn't it?

In this case, I don't think there is any need to consider other things. Let's get down to business. When can you raise the money to me? "

Then there is no point for him to stay, and he has to kill Hassan, which is his mission.

Of course, I can't afford so much myself. What I'm showing you is all my savings.

"Okay, let's do that. Do you have to wait until I collect all the money before you can be willing to tell me the specific locations of Professor Fang De's two students?

"I said, you kid, are you threatening me?

If you want to protect Hassan, get him back as soon as possible. It will be good for both of us. "

"Sometimes I really don't understand. You might be said to be greedy for money, but you are willing to give a lot of yourself.

"He is not with me now, and I have to make it clear to you that you must not have any ideas about him."

"Well, let's do this. When we find a chance, Jason and I will come out and talk to you about this matter alone. We also need to tell you when is the best time to rescue people."

If there is no money, then there is no need to discuss this matter? "

After Azhe finished speaking, he hung up the phone directly, and now Qin Yuan was left alone to think about these things.

"The time to complete the task I promised you is coming soon. I still have no news, so aren't you anxious?"

I don't know what kind of conflicts there are between you.

"Thor God, you see that you are so excited, does that mean that money is indeed very important.

"Qin Yuan, I told you, you brat, don't be so arrogant in my place. If you have anything to say, just say it directly."

You should know very well what the consequences of being greedy for money will be. "

"If Jason stays in the group, it will definitely have a great impact on my personal status.

After Azhe heard Qin Yuan's analysis, he did not object, but he also did not give any answer.

"Thor, this has nothing to do with the personal relationship between the two of us. I just think it is really difficult for him to be a girl wandering outside. He has been performing field missions for so many years.

It turns out that you already have a definite plan for these things in your heart. In this case, I have nothing to say. The key is whether you are also interested in these things. "

"I didn't mean this at all. You also understand why we got to this point in the first place, and the next thing will be more complicated.

"I don't think I need to provide something to prove my worth in front of you, because I feel it is pointless."

Fan Tianlei couldn't help laughing after hearing what Qin Yuan said.

"Thor, as a chief of staff for so many years, you have no children of your own and are not married. You must not know how important money is to a man.

You kid obviously wants to blackmail me. You already blackmailed me once before you came to the army, and now you want to take my money.

At that time, won't it become my own loss?

Although I am a special soldier, I am not taken advantage of. I am not willing to do anything high-minded. If it were not for these two students, Professor Fang De, I would not have lost so much money.

Efit's current situation is also relatively complicated. The key lies in how to make the problem at hand go smoothly. "

"Qin Yuan, let me see if you are used to coming and going freely. Do you really think Mr. Norman Karim's group is a vegetable market? You can come and go at will."

You have saved all this money, you should be the richest person among all of us. "

Qin Yuan's tough attitude made it impossible to refuse.

It's just a girl, and he is quite persistent in many things. He will only help us if we ask him. "

I just want to tell you, can you think of a way for me? The amount he wants is not small. "

"Where's An Ran?"

Anyway, we have reached this point now, and if we continue to refuse, it will not make much sense.

No matter what, I have to save some for me. It's not that I'm stingy and don't want to use money to do things. It's just that after the money is taken out, the higher-ups in the army will definitely not reimburse me.

We all know exactly how he saved the money in his hands. Don't mess with his ideas. If you want An Ran to participate in this matter, then I can only spend all my savings. "

"How many?"

Fan Tianlei couldn't laugh or cry after hearing what Qin Yuan said.

"There is a person named Azhe next to Mr. Norman Karim. He seems to have his own plan and is willing to provide me with the specific locations of Professor Fangde's two students through some monetary transactions."

What I gave you were all my personal savings. After being in contact with you for so many years, not only did I not save more money, but I was blackmailed by you. "

"Du Bingbing, you have officially succeeded me and become the commander of your team. What else do you want?"

"I know that the relationship between you two is very unusual, and you won't be so protective of your shortcomings."

You already know the specific locations of these two students, Professor Fang De, and are willing to exchange information with me.

"It seems that money is really important to you. I don't have that much money, so I can only ask An Ran.

Fan Tianlei smiled after hearing what Qin Yuan said.

"Azhe, what you want to do most now is not to get more money, but to take Sophia away from Mr. Norman Kalim's group.

"Jason also has a daughter, Mr. Norman Karim, who can provide him with generous medical resources."

Apart from these, I really don't have a penny left. I think the army should pay for this matter, and neither of us should use our personal savings to advance the payment. "

No one had thought that the God of Thunder was just testing Qin Yuan.

Of course, it's impossible to just watch him bear all this alone.

After all, it is not a small number. It is really too much for one person to bear the pressure.

Chapter 2165: Thor, it's so wide

Qin Yuan didn't mean to blackmail the God of Thunder by saying so much.

He just felt that since he had given something, he must let others know about it. Of course, including Thor, there was absolutely no way he would let his contribution become meaningless.

Fan Tianlei is not a stingy person either.

Especially at such a critical time, he would definitely not hold Qin Yuan back in terms of money.

"Qin Yuan, I will only tell you this once, and I will only tell you one person. Since the current situation is like this, then I will help you pay part of the money."

"Part of it?"

"You brat, you have money in your own hands, but you still want me to give it all out? And after you pay, tell Du Bingbing and ask him to go back and find time to reimburse you."

As long as we don't pay for it ourselves, it's a good deal.

It's not that Qin Yuan is unwilling to take the money alone, he just feels that he can't live without working capital now.

This money is all my savings. I saved it by frugality. You have to give it to him to use it just right. "

Such people should not be implicated and wronged by themselves for no reason at all.

Speaking of which, I am responsible for this matter.

If I have any problem, I only receive income but not payment. It is my account that receives the money, not the money that is transferred out of my account. Don't you understand this?

"I said you must not misunderstand. The reason why I have so much money in my hands is because I have not corrupted or violated the law, nor have I done anything illegal.

Qin Yuan understood at once that Fan Tianlei might have said this because he wanted Du Bingbing to contribute, so that if everyone worked together to complete a matter, it might be much easier to solve than imagined.

"No no no, Thor.

Maybe, during the next exercise, the weapons we can bring out will be enough to shock the world. "

"Does Instructor Gong Jian know about this?"

Great, verbal praise for you. "

He still has some very important resources in his hands, otherwise we would not be able to successfully obtain this special medicine and successfully restore Professor Fang De to health. "

Then how could I not catch it? Everything that has been delivered to my door must be caught by me alone. It is impossible to give it to anyone.

"Thor God, are you too rich?"

"Mr. Norman Karim's affairs have not been completed yet. Maybe he plans to go to the United States next. By then, we will have many interests entangled with him there, and we may have to trouble Anron.

I know that he is cautious and not very wealthy financially, so I will definitely not ask for money from him.

Besides, Professor Fang De originally served the army, so it didn't matter if they asked for some money. We almost got in with our money and our lives. "

You don't really want to elope with Sophia, do you?

Do you think he can really escape the clutches of Mr. Noman Karim? I think the money was probably used for Hassan's retirement. "

"Thor God, I say you are really kind-hearted. If you have so much money, please give me a little more. If you give it to them, it will all be wasted."

Don't let this guy Azhe fool you, he is very clever when it comes to Mr. Norman Karim, and you have to figure out what exactly he wants so much money for.

If he takes out all his money, he will feel very insecure. When he has the opportunity in the future, he will return all the hard-earned money to Fan Tianlei.

At that time, he had not yet joined the army.

"So you don't need my help?"

"Thor, your idea is really too bold. Hassan is an old stubborn. He has become a disabled person and is unwilling to leave Pakistan.

Qin Yuan smiled and nodded.

"I said you are a kid who never suffers losses. Now that you have got so much money, what are you going to do next?"

When I gave you that money, the army later tried every means to reimburse me.

I shouldn't have let him go out as a girl to do field work in the first place.

"Extreme wealth?"

"An Ran is a girl who always does things from beginning to end."

"It's not easy for Instructor Gong Jian. After so many years, it's not easy to get into this position where I can get more salary and support people in my hometown.

Just wait. After you come back this time, I will report it to the higher-ups of the army and ask him to stay here and not go out again. "

They are willing to serve us. With such powerful arms experts, our overall capabilities can be raised to a higher level.

"Qin Yuan, I know very well what kind of person you are. Well, I don't have much funds that can be embezzled for the time being. I'll give you one million first."

"Yeah, that's what I think of An Ran. This girl is a very heavy-minded person. Even though he is usually very optimistic, he thinks a lot and in most cases cannot relax.

"Why am I so afraid of being discovered by them? I wish they would quickly find out that I transferred so much money.

"Qin Yuan, don't worry. As long as you complete this task and our military level has improved to a certain extent, I believe that the higher-ups in the army will not treat you badly.

After all, he has stayed in that country for a long time and knows it well. "

"Du Bingbing, as a newly appointed chief of staff, it is impossible for him to reimburse me. Although he is quite rich himself, he will never occupy public resources."

Perhaps, Thor still feels a little guilty about him, so he is willing to pay this money to make up for the things he did wrong when he was young, which may be good for all of them.

"There should be many important matters unresolved in the United States. It's probably unrealistic for you to ask him to give up his position as a field officer now, and he won't be able to listen to you so easily."

You also said that you know me better, but what you just said just doesn't understand me well enough. For me, there is no need for emotional value. As long as there is money and material value, my emotions will naturally be high. "

Although Qin Yuan was joking, in fact he was indeed such a person who liked to muddle through and did not like those gimmicky things.

"Qin Yuan, everyone has their own difficulties. Let's try to understand him. Maybe he has other uses for the money. Anyway, don't be so mean when you speak."

This special medicine is a very good thing for him, allowing him to quickly recover his physical condition, which we all can see.

"Of course not, hehe, I still want the money.

Listening to Fan Tianlei's very excited tone as he spoke, Qin Yuan could feel that he was really someone who was willing to sacrifice everything for his ideals.

"Thor God, thank you so much. It's really a help in times of need."

Qin Yuan was simply dumbfounded. He had already blackmailed Thor once when he first came to the army. He didn't expect that this guy still had so much money in his hands. It seemed that he had really found the right person.

"Stop telling me these sweet words and protect your money. Pakistan is a mixed place. If people know that you are so rich, be careful of being robbed.

How is it possible to use this money for retirement? He's not that kind of person. "

"That's right. Hassan is no longer the free-moving person he used to be. He has become a disabled person and will need to be taken care of in the future. Plus prosthetic limbs and all kinds of messy expenses, he really needs money. .

"What do you mean?"

"You just think about money every day. Can't these verbal praises I give you boost your confidence? This is an emotional value that money and the material conditions you mentioned cannot give you."

Fan Tianlei is a real person, and Qin Yuan knows that it is absolutely impossible for him to lie to him about money.

"Don't go through these useless procedures between the two of us. After this time and experience, we should think about how to spend the money just right.

"Thor God, it's really hard for you. You have to give me all the money you saved so hard."

However, I really don't understand what the relationship is between Azhe and Hassan?

Would he have no money following Mr. Noman Karim for so many years?

It's really too much to blackmail us. Sometimes being too greedy is not necessarily a good thing. He will have to pay the price sooner or later. "

And he still feels that I don't treat him as a good friend, and I don't tell him such an important thing. Instead, I come to help you who is already in trouble. "

"The effect of this special medicine can only last for about three days. If he can always maintain his current good condition, I am afraid that he cannot do without this special medicine.

For Thor, what is really needed is the value of self-achievement, not what money and power can bring. He just wants to do more for the army wholeheartedly.

"An Ran, I don't know about this yet.

However, in the final analysis, I still have to thank Du Bingbing for this matter.

Moreover, this kind of special medicine is relatively expensive, and it has always been paid for by the top brass of the army after going through the process. "

By the way, Professor Fang De heard that the situation has improved a lot. If he can see these two students in a short time, he will definitely be very happy.

I don't really want him to know. If he learns that we have raised so much money for Azhe, he will definitely be dissatisfied and even feel a little distressed.

I have room and board here in the army, so I don't need to spend any money at all. In addition, I am a relatively good person. After so many years of promotion and various bonuses, I finally have this.

Although Qin Yuan said so, he thought it was a bit excessive for the other party to ask for so much money, but he also sympathized with Hassan in his heart, as his whole life had been ruined.

"How could he know? When I was young, Noman Karim and I, together with He Fei at that time, captured the spy Hassan.

"Du Bingbing didn't tell you, this kind of special medicine is not a one-time use."

"one million?"

Don't worry, Thor, this money is just a loan from you and I, and I will pay it back to you if I have time in the future. "

For so many years, he has been asked to perform field missions, which has caused a lot of psychological pressure on him.

"Oh, that doesn't matter.

However, I have to go through the process of saying these polite words, otherwise I will appear to be too impersonal. "

"Thor God, why are you so impulsive? You are still under surveillance. You are not afraid of being discovered by the higher-ups for such a large transfer."

By then, we will have nothing but human and financial resources.

“Didn't Professor Fang De already have a specific medicine?

As long as I don't get richer, they won't target me. "

What you want will naturally come to you. The key lies in whether you have the ability to catch the wealth and wealth from the sky. "

After he returns, the first thing he needs to do is to prove to Thor, resolve everything, and to let him return to the position of chief of staff.

"As long as you know."

"The thing I hate the most in my life is verbal praise. It's of no use. It would be better if you gave me some money, or gave me some rewards, or gave me a promotion."

Mainly, I want to tell you that, just like you said, I am not married and do not have a wife and children to support.

"It seems that your kid has already arranged the next action plan for yourself. Before returning to country H, you have already started planning the next action.

No, it should be given to Chen Jixiang. This kid is quite dedicated, especially for this matter, he really paid a lot. I am also very grateful to him.

"You would also say that he is now a disabled person. Otherwise, you should ask Du Bingbing how much it costs to make a top-notch prosthesis."

Don't tell him about this. He doesn't have much money, and people in his hometown often need him to send money back. We can just raise it. "

Without saying a word, Fan Tianlei directly transferred one million to Qin Yuan for his mission this time, and did not declare that he must pay it back or reimburse him.

Chapter 2166: Now that the money is in place, it's time to do the work

After hearing this, Qin Yuan was now very satisfied. He felt that this was Fan Tianlei's recognition of him from the side.

So, he said with some pride after hearing this.

"Thor God, if you put it like that, your emotional intelligence is simply too high, and you have praised both of us."

"Oh, in all these years, I have never heard anyone say that I have high emotional intelligence. You were the first to say it, and I felt a little surprised and a little surprised."

"What you just said just praised both of us.

A strict teacher produces a good disciple. With a teacher like you, I can naturally bring out a good disciple like Chen Jixiang.

It's just that this kid is following me. I have no intention of making him my apprentice. Let's talk about what happens in the future. At least for now we are just following the original way of calling him and not making him my apprentice.

After all, he is also the instructor of Gong Jian, and we cannot just arrange it for him here.

After returning home, I still have to ask instructor Gong Jian about his attitude. He may not be willing to release this ghostly boy like Chen Jixiang. "

"Gong Jian has trained many outstanding talents over the years, but there has never been a suitable person to help him.

It is not easy to have such a Chen Jixiang, he must grasp it well, and it will be easy to deal with other things in the future. "

"Yes, it took a lot of effort for Instructor Gong Jian to have such an outstanding talent, but we still snatched him away."

"It's better not to say so much. I've already transferred the money to you. It's up to you to do things with the money."

"Thor God, there is a transfer record between the two of us. If you regret it, you can just tell me and I will return the money to you now."

"Come on, you think I don't know that this kid like you is a Pixiu type.

It is simply a fantasy that you are willing to take out the benefits that have come into your pocket.

However, since these things have been given to you, I no longer worry about them.

If I were that kind of stingy person, I wouldn't agree to this. You have nothing to worry about. You'd better think about what to do next.

The crux of the problem is, after Azhe receives the money, can he do things? What if he wants to take advantage of others? "

"A black man eating a black man?"

"Now that we have thought of this, we have to do something. He has been with Mr. Norman Karim for so many years. Do you think that the experience he has accumulated is no less than you."

"Even if I lend him some courage, he won't dare to hack my money. If it doesn't work, he'll be dead."

"Qin Yuan, I don't want to say so much about other things, but now I have to remind you that we are members of Zhongzhong's special forces and are different from them."

"Oh, Thor, I asked you, do you have any shadow of what happened back then?

Are you afraid that I will become the second Norman Karim, from a very good young and promising special forces member to the boss of a group? "

"I have to say, I was a little worried.

But then I think about it, I don't need to worry about this kid because I know you are the same person as me.

I'm not very interested in these things, and no amount of money can buy you off.

Although, I just said that your kid seems to be like a Pixiu who can only go in and out, but this is only because the relationship between the two of us is relatively good.

There is nothing to say about other things. You just have to see what to do in the future. These things are not so easy for us to solve. "

"Okay, Thor, I won't tell you anything unnecessary. Since you have told me so, I can understand that you trust me very much."

"Qin Yuan, of course I believe you. You are the most proud disciple around me."

"With your words, I feel relieved. Now that I'm ready to cooperate with Azhe, I have to deal with some things quickly. The longer it takes, the more trouble it may cause."

"Then go quickly and contact me anytime if anything happens.

By the way, don't forget to report it to Du Bingbing. You have to ask him to help you solve the situation at the embassy, and you can't take the money in vain.

Tell him so that he can find a suitable reason to reimburse you after you return. "

"I know Thor, when did you become such a mother-in-law?"

"Okay, I won't argue with you anymore, I have my own things to deal with."

After saying this, he hung up the phone half a day later.

When Qin Yuan saw him like this, he was really worried about himself. In fact, Fan Tianlei is a very decisive person, and he is not a person who likes to grind.

The reason why he talks so much to himself is entirely because of worry, which Qin Yuan can understand.

Qin Yuan thought that now that he had enough funds in hand, it was time to negotiate with Azhe.

However, he had to contact Jason first to see what he was thinking.

Qin Yuan also has some doubts about Jason now, and is not particularly confident.

After all, this matter involved his daughter, and there was no way to replace the medical resources the other party could provide him.

After saying these things, Qin Yuan directly contacted Jason.

Jason was lying on the bed doing nothing, looking for to plan how to go to the central hospital and quickly solve the task assigned to him by Norman Karim.

"Qin Yuan?"

"Jason, how are you? I haven't contacted you during this period. I'm really worried about you and afraid that something will go wrong here."

"I don't have any special circumstances here. There is one thing I just want to tell you."

"This guy Efit is planning to join Mr. Norman Karim's group, right?"

"Yes, this guy is indeed ready to join the group now, but he didn't expect what the consequences will be next."

"Then I don't know."

These current problems are quite troublesome for us, and no one knows what we should do next.

This guy has always been a scheming guy and I'm really not sure if he's actually planning on joining Mr. Norman Karim's side.

What if this guy is just releasing the ecstasy bomb? Help Old K buy time. "

"Ecstasy bomb?"

Chapter 2167: Send the person to the hospital first.

Now Qin Yuan is alone in the house, thinking quietly...

"Jason, although you have chosen your own path, I hope you will never take the wrong path."

After saying this to himself, Qin Yuan quickly picked up the phone and looked at the remaining balance inside. He thought that he had to quickly transfer the balance to Azhe.

At this moment, He Chenguang was in the bathroom and suddenly noticed something was wrong. When he opened the door, he saw that the American spy Xiaolan who had contacted him before was lying in a pool of blood.

"ah..."

He Chenguang was very surprised. He had never thought that this would be the case.

What should he do now? Go tell Qin Yuan, or go to Sophia, the person in charge of this club?

After He Chenguang calmed down for a while, he thought that none of the options was good. Now he should be calmer, pretend not to see it, open the door and walk out.

No, at this moment he had other thoughts. He thought that he had to find a witness for himself. Although he did not do this at all, he had no way to get rid of the connection with Xiaolan.

"Is this guy dead?"

He Chenguang originally thought that he would step forward first, take a look at Xiaolan's breathing, and see if there was anything wrong with Xiaolan.

If the special medicine is not available in time, it will have a huge impact on my side.

Please believe me, no matter what happens, I will treat you as my best friend.

Please believe me and give me a little more time.

Although, he has been clearly told that he does not need to worry about this matter. With Qin Yuan and An Ran at his side, he just needs to enjoy the existing plan.

I don't want to involve you. If you really think that the problems we are encountering now are very difficult, I won't force you to help me. "

"Harry, you promised to give me the special medicine before, but now there's no news about it?"

Sofia is indeed not a person that Mr. Norman Karim can trust. This girl really thinks too much. We must first find out what is most important in his heart.

However, he didn't know why this happened. He couldn't let others catch him. The main reason was that he didn't want to expose his identity.

Therefore, he has already made up his mind to leave this room first. He must ensure that he is innocent and safe.

Even now, he has not recovered, and he is not sure who is behind the attack on Xiaolan again.

Let's do this. I'll bring you the special medicine within three days. I will never go back on my promise to you. Do we need to say so much about the relationship between the two of us? "

I am willing to help you free of charge and without any scruples. Don't worry, if you want special medicine, I will get it to you on time. "

But now this is still a bit troublesome for him, and he should not get close to Xiaolan in the short term.

Sophia also had some opinions of his own on this matter. After making some arrangements, he was going to find the people he contacted and get rid of these special medicines first.

"I know the relationship between you and Azhe. You also asked for this special medicine for Azhe."

I hope you can understand. I don't mean to force you, but right now, we do have a lot to deal with. "

"Harry, it's not that I don't believe you, it's just that my time is still very tight.

Don't worry, no matter what the reason is, I will definitely protect you. I will definitely mail the special medicine to you within three days. The weather at sea is not very good now, and it will be slower if you take the waterway. "

Mr. Norman Karim has not cared about things in our hospital for several days. It seems that he is a little relaxed about this.

"Sofia, how could I possibly make you pay?

Sophia is very anxious now. He knows very well that if he doesn't solve the problem of special medicine quickly, it will cause them a lot of trouble.

"Of course I didn't mean it.

"Harry, as long as you are willing to help me, no matter what price you have to pay, I will be willing to do so, as long as these problems can be solved."

But he is also a care-taker by nature, and he is still worried about this matter. He thinks that if he can know more, the better, and he will be more helpful to Qin Yuan and An Ran.

After He Chenguang listened next to him, he knew that Sophia had finished contacting her and was about to go out, so he hurried back to his room.

After Harry finished saying this, you could hear a little sadness in his tone.

Especially for them, they have to think clearly about this matter, otherwise it will affect everyone's overall plan.

Since you have already promised something, how can you go back on it?

As for the relationship between the two of us, I won't let you worry about the special medicine. Now that I have agreed, I will never let you down.

This means that we still have a lot of things to deal with.

“Sophia, don't be anxious yet.

I don't know how he died here, but I think he must have offended Mr. Norman Karim, and it is possible that he was dealt with without anyone noticing.

"Harry, now Mr. Norman Karim has many plans of his own, and we have no way to affect his overall development.

He thinks that he should not get too close now, because once he gets too close, it will have a great impact on him.

This kid Chen Jixiang is in a daze in his room right now.

He Chenguang heard these words from the side, and he knew it very well.

So far, he doesn't know that there is something wrong with Xiaolan. This is a great opportunity for He Chenguang to get rid of his suspicion, and he will never miss it so easily.

This is not something that can be solved easily. must be known to more people, especially Qin Yuan, who knows that his partner can be trusted.

He Chenguang now feels that it would be most appropriate if Chen Jixiang took the initiative to find out about Xiaolan.

He felt that many things were not as simple as he imagined, and he had to go to Qin Yuan to discuss it quickly.

After He Chenguang left the room like this, he felt that what happened to Xiaolan was really inexplicable, and it was not something he could have predicted. It was completely unexpected.

"Who killed this Xiaolan? He was just a spy. Generally speaking, it was not a big deal, and it was impossible to have an impact on other people.

Now that he appears here, it is really surprising.

It should be that Mr. Norman Karim can't tolerate him anymore, but that's not necessarily the case. He clearly knows that he is an American spy and has placed him in this club for so many years.

You didn't let him know some important secrets, but now you want to do something to him?

Could this matter have something to do with Qin Yuan? It seems that Qin Yuan may have been plotted. "

Chapter 2168: I accidentally let it slip about money.

After Sophia heard Qin Yuan's order, he still had some hesitation.

Because he knew very well that this club was not accessible to just anyone. Since Xiaolan's life was now in danger, Mr. Norman Karim must have arranged it behind the scenes.

What's more, everyone knows Xiaolan's identity as an American spy, but no one has said it clearly yet.

He Chenguang was the person who least expected Xiaolan to wake up.

After all, after people have experienced strong winds and waves, they will definitely have some manifestations of great enlightenment.

What if this guy wakes up and starts to feel that he no longer wants to be a spy, or has no sense of identification with this identity, and feels like betraying or even leaving.

This is really not a good time for them. If this continues, they will be in trouble.

He Chenguang can no longer control so much, he just wants to delay time quickly.

"Qin Yuan, don't be anxious yet.

Fortunately, this boy Chen Jixiang discovered it in time, so we can know these current problems. Since he is not dead, we have many ways to save him.

We all know very well what kind of person Mr. Norman Kalibu is. He is a very capable person.

Although An Ran didn't like Xiaolan very much, everyone had a good mentality and didn't want to die without rescuing someone.

Qin Yuan was thinking about him, but he had just contacted Azhe, and the attitude there was obvious, and he was still quite disgusted with this matter.

"An Ran, please don't be so excited. I didn't say anything else, but I was thinking about this issue. We should be more cautious."

"He Chenguang, you and Qin Yuan are good brothers. You should know his way of doing things very well. The cautious words you are saying now are really hard to understand."

An Ran was still a little worried about Qin Yuan.

We are the special forces of country H who came here to perform tasks specifically. We don't want to affect their internal conflicts, so we can only take it slowly and wait one step at a time. "

"Mr. Norman Karim should still be thinking about how to get Efit to join his camp."

"So what if Mr. Norman Karim is alerted?"

So no matter what happens, I will definitely be the first to protect the other person's life. Safety is the most important thing.

"Let's see. The ambulance should arrive in about ten minutes. It might not be appropriate for me to go to the club alone. Qin Yuan, please go with me."

He Chenguang is not very happy now.

"I want to know now who did all this!

Although Xiaolan has not had any good friends in the club for so many years, she has not offended anyone. Now we are not able to explain this situation clearly. "

If he becomes unhappy in any way after finding out, it will only affect the relationship between you. I say this because I want to be cautious and don't want to offend anyone. "

"But, Mr. Norman Karim, he said that we cannot leave this club in a short period of time.

"I can understand that at such a critical time, you really need someone to help you. We will definitely not affect you."

He felt that the other party seemed to doubt him a little, but he couldn't blame others for doubting his thoughts and behavior. It was really too abnormal.

Let's not talk so much, let's take him to the hospital first. It doesn't seem appropriate for Sophia to go alone, so why not inform Azhe quickly. "

Qin Yuan thought to himself that this person was not particularly cautious until now, and it should be impossible to hold him accountable.

"It's definitely not a big deal for me to go to the hospital alone. I've dealt with a lot of things alone over the years, but I have to inform Azhe about this matter."

We can't think too much about other things.

"That's not what I meant, I just want to tell you that our current situation is still very passive. If something special happens, you have to think about it earlier.

If I go to the hospital at this time, I am afraid that Mr. Noman Karim will be alarmed. "

The key is, what do you think in your heart? Don't always think that I am deliberately influencing your noble and honorable behavior. "

"Should we inform Azhe now?"

Then Xiaolan is also innocent. Are you saying this because you don't want to care about what he means? "

"Chen Jixiang, Xiaolan was suddenly injured today, and it was very serious. She almost died. Fortunately, you discovered it in time."

What's more, this is their own club, and if a person's life is lost, it's his own employee and it has nothing to do with us.

"Since Sophia has invited me now, let me go with him. I believe that a man must be around for this matter."

"Okay, please stop arguing now. Sophia has already called for an ambulance. He will take Xiaolan to the hospital soon."

"Is it appropriate for you to go to the club?"

"Will Mr. Noman Karim be held accountable?"

Doesn't his unwillingness to participate in these things just illustrate the doubts in his heart?

"He Chenguang, what do you mean by these words now?"

Is it possible that, since we come from different countries, we shouldn't be involved in these events?

"Brother Qin Yuan, please don't praise me like this. It's not that I discovered it in time, but that this matter is inherently strange. I can't find it because of my own judgment. Affects everyone.

What exactly is going on? I don't have any other intentions. As long as it's good for our overall plan, I definitely won't have any objections.

In our eyes, these current problems have to be solved.

"Sofia, what do you think?"

Let me tell you, we must not move around casually.

As a member of the special forces, how could he ignore life safety?

He couldn't do this at all. No matter what the reason was, he had to protect the talents around him.

"Qin Yuan, An Ran, he simply misunderstood me, please explain it to me quickly in front of him.

While An Ran was talking, he looked at Qin Yuan with a special look. Qin Yuan could feel that he was doing it for his own good.

"An Ran, come here, I have something to tell you."

"What's wrong? Qin Yuan?"

"I know that everything you are saying now is for my own good, because you are afraid that I will offend Mr. Norman Karim.

Chapter 2169: Do you care about life or secrets?

Chen Jixiang saw the situation happening now, and he couldn't refuse.

"Xiaolan is like this today, and it's entirely his own fault.

What good things can an American spy do? If he does something wrong, he should be held responsible for it.

If it weren't for him to sow discord, the relationship between us and He Chenguang made him make so many wrong decisions, and I wouldn't be where I am today.

If, if we didn't have any ideas here, I believe that there would be no way they would give us another chance. Fortunately, nothing big happened. "

"Okay, I know you have a lot of dissatisfaction right now, but you have to stabilize your emotions and don't expose our important news."

"Brother Qin Yuan, don't worry.

Although I am very emotionally unstable and angry right now, I know what priorities are and there is absolutely no way it will affect your plans.

It is even less likely that our current situation will be exposed. We have to wait until you come back.
"

"Yeah, you and An Ran are here to protect her. You are now the one who can stand alone in our team. Don't live up to the importance I place on you."

Sophia nodded. Although he knew that it was not appropriate for Qin Yuan to appear in the Central Hospital now, he had no better way. He could not let him go to the hospital alone, otherwise he would not be able to explain Xiaolan's current situation clearly.

So, after a while, An Ran saw that Qin Yuan had no reaction, and he didn't say anything about the money when he asked him about it. It seemed that she could only wait for him to come back.

After Sophia listened to Qin Yuan's words, he weighed it himself.

Although he didn't like Xiaolan, he didn't know if his life was in danger, so he couldn't just let him die like this.

"Even if you don't inform Mr. Norman Karim, I think you should inform Azhe now."

"Uh-huh."

Otherwise, you won't be able to explain clearly.

Sophia and Qin Yuan nervously got into the ambulance to accompany Xiaolan.

"You are so glib all day long."

We can only carefully send her back to the hospital first. He is indeed relatively weak now, which may cause brain hypoxia. Even after he wakes up, he may be in a vegetative state. "

"According to the current situation, he has lost too much blood. It is better for you to be cautious. We are not sure about his specific condition now, nor can we guarantee it.

The person who can be so ruthless in this situation is really not an ordinary person.

"Pakistan's medical resources have always been scarce and poor. I advise you to find someone to make arrangements in advance. If you sincerely don't want this girl to die like this."

Soon the Pakistani ambulance arrived downstairs. They came up with a stretcher and took Xiaolan down first.

"How is he doing now? Is there any chance he can be saved?"

"I have made arrangements for them. I will go to the Central Hospital with you next."

After giving these instructions, Qin Yuan walked directly to Sophia.

"Azhe, he goes to the Central Hospital every few hours to see Hassan, so even if I don't inform him, I should be able to meet him by chance in the hospital."

Qin Yuan had already expected this. Excessive blood loss caused brain hypoxia, which may cause permanent damage to his body even after he wakes up.

"Brother Qin Yuan, don't worry. As long as you give me a chance, I will give you a miracle."

If Mr. Norman Karim really falls out one day, he will definitely talk about this matter, but he will not be able to defend himself.

"Well, I don't have any good ideas now, so I can only inform Azhe first and see what he thinks.

Qin Yuan, thank you for being with me. You really helped me a lot. If it weren't for you, I'd probably be completely numb today. "

"Don't say so much. No matter how strong you are, you are still a girl. I believe you did not expect that Xiaolan would suffer the consequences today."

"That's true."

"Sofia, I see that you are a little nervous now and may be incoherent. How about this? I will inform Azhe on your behalf and I will take the initiative to tell him if you have anything to say."

"fair enough."

Therefore, after Qin Yuan got Sophia's consent, he directly contacted Azhe first.

"Hello? Qin Yuan, have you thought about it now? Have you prepared the money?"

"Don't tell me anything about money. There is something important I want to tell you. Xiaolan was suddenly attacked. It's very serious now. Sophia and I are taking him to the hospital. "

"Xiaolan was attacked?"

"Looking at your surprised and expected tone, I knew that you might not know anything about these things, but you are not surprised by today's results."

"Efit has joined our group.

Ever since there was such a person in the group, I have long forgotten what an accident is. It is reasonable for any abstract things to happen again, and this guy must have something to do with it.
"

"Are you saying that what happened today has something to do with Efit?"

"Qin Yuan, Now I can't guarantee you whether it has something to do with him. I can only tell you that many things may indeed be more complicated than we imagined."

What Azhe said was also ambiguous, and no one understood what he meant.

But Qin Yuan is no longer interested at all. He just wants to solve the troubles in front of him as soon as possible. It seems that they are not suitable to stay in this mixed country.

"Azhe, we are on our way to the hospital. We will be there in about twenty minutes. I know what the medical resources in your country are like. I called you in advance just to let you make arrangements there. one time."

"If an American spy's life is really in danger, I don't think it's worth opening a green channel for him. What he will become like today is completely self-inflicted."

"What do you mean by that?"

"Xiao Lan, he is not only a spy, but also often informs this guy Efit.

Mr. Norman Karim has already mastered this matter. Otherwise, how could he throw such an outstanding talent into the club and not reuse him? "

Chapter 2170: This is called, money can make the devil push the wheels.

Qin Yuan took out the knife and waved it in front of the driver's eyes a few times, and the driver suddenly became angry.

"What do you mean if there is something that cannot be easily discussed and discussed?"

Do you think I will be afraid of you if you use knives and guns? If you have the ability, just take a knife and chop me first. I want to see if you can get to the hospital smoothly. "

Sophia saw Qin Yuan's reaction, and he was also a little worried.

Because he knew that Qin Yuan's temper could not be provoked so easily. Although he was also thinking about Xiaolan, he was really excited like this now.

Pakistan is always a more complicated place than he imagined.

It's useless to tell him about this situation now. It's better to listen to the driver honestly. He didn't do it on purpose. In fact, he just wanted some money.

So Sophia took out some money from her bag and handed it to the driver.

"But you just said that it is a doctor's bounden duty to treat illnesses and save lives."

Sophia nodded.

Qin Yuan was so angry that he was speechless.

The little nurse with long eyelashes looks like she is only in her early 20s, and she has a somewhat mixed-race look. Her eyes are dark brown, and she looks really pretty.

"Has Mr. Noman Karim really reached the point where he covers the sky with one hand in your country of Pakistan?"

If you think there is something wrong with him, you can report it to the relevant departments. "

"Okay, I'm just angry that this guy took advantage of me."

"I only gave you the money to do these jobs."

You know very well in your heart that I have no choice. I came here this time just to take these two people back. If I reject this deal, when will I be able to find these two hostages?

Qin Yuan sighed helplessly.

"It's not that I don't believe in the size of your hospital, it's that I don't believe in your country."

Sophia also advised Qin Yuan.

Qin Yuan was surprised to hear Sophia say this.

Don't worry, everything here is very clean and won't cause you any trouble. After all, this is the largest hospital in the center of Pakistan. "

Although these two people have no use value, we still have to get some money before we can be willing to help you. This matter is understandable. As long as you can accept it, you will soon be able to find the whereabouts of these two people. . "

The little nurse heard what Qin Yuan said and subconsciously looked back at him.

"Didn't I call him just now? He hasn't come over yet, but I think it's necessary to inform him again."

"you..."

"If the ancestors stayed, there must be some truth to it.

After the driver took the money, his efficiency improved a lot.

We can do our best to save him. This is the bounden duty of doctors to treat every patient equally.

"Qin Yuan, what I hope you can understand is that no matter what happens, you must remember that we will never betray you, and the money we are asking you for now will be useful.

"I can understand how you feel now.

However, you don't seem to have properly considered the difficulties I'm going through now.

"With this kind of relationship between you two, will he listen to me?"

"Now you should understand why Azhe cares about you asking for so much money."

After Qin Yuan said this, the little nurse subconsciously stopped, and then faced Qin Yuan and said with a serious face.

But there is such a big commotion everywhere tonight, Mr. Norman Karim will definitely know about it. As for whether he will come here to meet you, I am not sure.

I think the problems Xiaolan encountered today were probably Mr. Norman Karim's idea.

"All we can do now is wait here for other things. You don't have to worry so much. Have you informed Azhe?"

"There's nothing you can do about it, you took the initiative to deliver it to me.

"What's wrong? Did our friend just need a blood transfusion?"

"Oh my God, can you say something new?"

It's this sentence again. If I don't want to, I can refuse this deal~

We don't have to be surprised at all that money can make all the difference, and we should have more understanding of their choices. "

While Xiaolan and Qin Yuan were talking, the nurse hurried out of the emergency room.

"Since you know him, you must use all your skills to save her."

"Since it was you who made the deal with Azhe, you should be responsible for informing him. Maybe he will listen to you more."

Looking at this little nurse saying these few words, it seems to be quite similar. Although he is relatively young, I have to say that his ability to deal with people is still very extraordinary, and his logical thinking ability is also very strong.

"The person who is with Sophia is definitely not an ordinary person. I know the girl who came in for emergency treatment today. Her name is Xiaolan and she often appears in the club."

"It only lasted about a month. Although this month is not a long time, I have experienced a lot."

Qin Yuan is becoming more and more anxious now, eager to return to his country.

He thought to himself that it wasn't that he had nothing to do with this guy, but mainly because Xiaolan could no longer hold on for too long and his current physical condition was quite tense.

Looking at his wounds, I could tell that someone must have attacked him.

Even if he doesn't care about these two people, we can't reveal the hiding places of these two people casually. This is against our group's regulations.

"how do you know?"

Qin Yuan wondered if this was coming for him. Coincidentally, he himself had type O blood.

"Who has blood type O?"

Thick eyebrows and long eyelashes give people a sense of endless reverie.

He knew that it was very urgent for him now and he could no longer stay here. If he continued to stay here, it would really have a great impact on his outlook on life.

So what is there to say about these words now? It's just that we have all reached this point and have to face it. This is a very cruel fact. "

Sophia lowered her head, and he had nothing to say. While the two of them were talking, the driver had already taken them to the central hospital.

Since you want to know Professor Fang De, these two students have to get money to do things somewhere.

He felt that this person could no longer stay, and there was no need to stay, so he naturally wanted to get rid of her.

"Isn't it obvious enough? I'm definitely not from your country."

"Are you someone related to the Norman Karim Group?"

Places like Pakistan are very worried that their medical equipment is not clean enough, and donating blood is a big deal.

"I have type O blood. How much do I need?"

After all, having a spy by your side is like having a knife by your side that may stab you at any time. "

"The central hospital has arrived. The nurse will take him to the emergency department in a while. You don't have to worry. My mission has been completed. Is there anything else?"

There is no one in this world who doesn't like money, and I am the same, but can't you be more accommodating? The amount Azhe asked me for was really too big and I couldn't afford it. "

"Okay, I don't have anything to say. After all, this matter is all my fault, so I'll go see what's going on first.

"How do you know that Azhe asked me for some money?"

Sophia, let you wait here. By the way, tell Azhe to come over quickly. We can no longer support him here. If he has people with type O blood, bring a few over. "

After the driver finished speaking, he left humming a tune.

"You should be very aware of Xiaolan's situation today. He is a person close to Mr. Norman Karim. He definitely did not commit suicide or encounter any accident.

"You don't need to tell me about this, I know it, because the two of us urgently need a lot of funds now.

"Handsome guy, I have to remind you that the beauty sitting next to you got the money, and you didn't get a dime."

Mr. Norman Karim cannot be deceived so easily.

"In our place, no one wants to provoke Mr. Norman Karim. I am just an ordinary person. Why do you ask me to risk my life for you?

Moreover, we are not forcing you to make a deal. If you feel that these two people are not worth the money, you can choose to refuse. "

"We don't have enough type O blood now. There is no blood of this type in the blood bank. If any of you have the same blood type, hurry up and come over and transfuse some. Otherwise, his life may be in danger." "

Then, he stretched out his hand and put the money into his pocket, then smiled and pushed the knife in Qin Yuan's hand outward.

If we change to another driver today, he will make the same choice because he knows that we are pressed for time, so no matter what conditions he proposes, we must agree. "

You never seem to think about others. You are always selfishly thinking about yourself. You always ask me to consider your difficulties from a human perspective.

“Sofia, I know money is a good thing.

But don't use force if money can solve it, because it will not do you any good, and time is more important than anything else to us now, isn't it? ”

"It's true that money can make money work."

"Boss, there is no need to be so angry. There is no money in this world, and you still want to do things? If you take out the money earlier, there will be less trouble. Don't worry, I will send you to the hospital within 5 minutes. ”

"Then you speak Pakistani quite well. How many years have you been here?"

"Bah, he is really a money-minded guy. That was not your attitude just now."

"I'm not blood type O."

“The environment in Pakistan is like this, and it is not just his problem.

"Fortunately, there is so much blood left. Is this all you need?"

However, I hope you can understand the difficulties we are facing. It definitely makes sense to ask you for the money, and people are selfish.

You cannot ask us to risk our lives to help you. If your request proves that you are also selfish and have not considered the safety of our two lives.

"I finally know what money ability is."

However, even after we revive him, he will lose too much blood and it is very likely that he will suffer from hypoxia in the brain and may lose his memory or become a vegetative state in a more severe case.

The driver glanced at it out of the corner of his eye and saw that it was probably the number he was satisfied with.

Qin Yuan was stunned for a moment. He himself did not expect such a situation.

By the way, Hassan is in this hospital, I believe you have seen him too.

"Oh, harmony brings wealth, harmony brings wealth."

"When I go in later, I want to check your blood transfusion equipment."

Qin Yuan was still very conflicted. He felt that he shouldn't donate blood like this. After all, he still had to be cautious about this matter.

"Yeah, I know, be careful."

He stepped on the accelerator and rushed out. There was no one on the street at this time, so he should drive faster. And after taking the money, he didn't care even if he ran a red light.

"This is the first time I've met someone like you, and I didn't expect you know a lot.

Of course, if Mr. Norman Karim has other instructions, I cannot guarantee you that if he is not discharged from the hospital, he is likely to encounter other accidents. "

"400cc."

You should know what the consequences will be without me telling you.

"The less trouble, the better."

Qin Yuan and Sophia were also driven out of the car by him. Now everyone is in a good mood, except Qin Yuan.
