

Special Soldier 2171

Chapter 2171: Help stop espionage plans

After Qin Yuan finished speaking, he nodded silently next to him for a long time. After all, this was not much different from his psychological understanding.

"I said, what the **** is going on with you, you brat? Why do you start to doubt that I will consider these things about you?

I would never think so, and I know you are my proudest apprentice. "

"Hey, Thor, you see what you just said is clearly doubting me, so the things I am considering now must be approved by you. I have nothing to say about this.

As long as you can believe my words, I will definitely not let you down. This is enough to explain everything. If you have any other ideas, there is no problem for us to discuss any plans.

This Azhe, he now has a way to betray Mr. Norman Karim.

Of course I know that this is a very dangerous task, and I can't stop him from doing it.

But at the same time, I can't support him in doing this. I can only use the contradiction between the two of them to achieve my own goals. "

Fan Tianlei smiled at the side and said to Qin Yuan.

"I've been talking about you until now. I really don't know what to say to you. It seems that you are very cunning around me. It is indeed the most suitable for you to go to Pakistan this time. Other than that, Besides, there is no one more suitable than you."

"Okay, don't tell me so much. I'll just take what you said as a compliment to me."

"Now that these things have been decided in general, what should we do next? I see that you all have a lot of tangles, so why not tell me all the plans."

After An Ran saw this situation from the side, he was now very anxious.

He also knew that he could not delay it any longer.

After all, this is definitely not a good result for them. If all these things go wrong, they will all waste a lot of time. This is a situation that no one wants to see.

"Qin Yuan, since we have reached a consensus on the spy matter, it means that you will need to ask Azhe for help soon.

This matter cannot be delayed any longer. Let's discuss this issue with Thor now. You should contact Azhe immediately. "

"Is there any need to be in such a hurry?"

"He Chenguang, he has been gone for such a long time now. If it was because of these problems, we would definitely have other ideas.

He should be going to kill Hassan. This task is very important to him and he will do whatever it takes to complete it in the shortest possible time. Moreover, he also knows which hospital it is in. "

"An Ran, don't worry. Norman Karim's management is not so lax. Even if he can find any hospital or ward, he will definitely not be able to get it so easily."

Unexpectedly, just when Qin Yuan and An Ran were discussing this matter, they suddenly received news from Azhe, and he told Qin Yuan.

"He Chenguang, he came to the hospital alone."

Qin Yuan saw the contact messages that Azhe sent to him. He was not too surprised because these things were expected by them, which meant that this guy's identity was now completely exposed.

"Azhe just sent me a message.

He Chenguang went to the hospital alone. Now we need to reply to him about something, and he will help us complete it. "

"Stop thinking so much and ask Azhe to stop him quickly. No matter what, Hassan can never die in his hands. This is our bottom line.

Hassan was used by Mr. Norman Karim to stimulate Jason. If we mess up this matter, it will be difficult for Jason. "

"Even if we don't consider Jason's problem, we still have to consider our own interests. Hassan must not make him still of great use value to us.

Efit, this guy has also been mastered by Hassan with a lot of evidence, which means that he will also be the target of Efit's death. Now that Hassan has become disabled, it is Efit who did it. of. "

Fan Tianlei heard such a complicated situation on the phone, and he was very worried now.

"Qin Yuan, I really didn't expect that in less than a month since you came to Ba, how could you have so many complicated situations happen to you? Can you really handle these by yourself?"

Qin Yuan actually felt powerless in his heart. Fortunately, he had an invincible system that could help him. This was just like using a plug-in.

Just imagine, without this invincible system to help him, Qin Yuan would have died more than once by now.

So, he gritted his teeth and told Fan Tianlei.

"Thor, you don't have to worry about me. I already knew how serious and dangerous this mission is before I come here again.

I only agreed after weighing all the things and felt it was necessary to do this. Even if I really die here, I won't blame you. "

“Bah, I said you brat, don’t say these unlucky words here, okay?”

Those who die easily, or those who are alive at a young age, should not be so crow-mouthed all the time.

Say some auspicious words, and I believe you will complete the task in the shortest time and return triumphantly. "

Sometimes when Qin Yuan heard the God of Thunder say these words, he was moved and thought this guy was quite funny.

"Thor God, I said you are a big man, why have you become so particular now? I just said it casually. You don't need to be so nervous. How could I die so easily? I just want to express how I regard death as home. a feeling of.

What I just want to tell you is that no matter what happens after I complete this mission and return to the army, you have to give me a promotion and a salary increase. Otherwise, I will not agree. "

"If you don't agree with me, just complete this task. I believe that the senior leaders of the army will not treat you badly.

There is no doubt about this, and you don’t have to think about it so much anymore.

As long as you live safely and come back to me with no shortage of arms or legs, no matter what, you must be careful about this guy Efit.

He is very insidious, and now he has dared to attack Hassan.

Who is Hassan? He is the captain of the maritime patrol force.

Although he didn't have any substantial power in his hands, after all, he still had a position. It was a bit too unscrupulous for Efit to dare to attack him openly.

You must be careful and don't be fooled by this guy's opportunity.

I'm just worried about you right now. You're not as good as Effit when it comes to using dirty tricks. Bad guys like them have no bottom line in what they do.

Compared with them, it is simply not worth mentioning, because we are good people, we always have relatively high moral standards, and you have all kinds of disciplines on your back.

It is always binding you to complete various tasks.

That's all I'm most worried about you now. After considering these circumstances, I have nothing to say. Let's consider more ideas.

As long as we can take care of these others, I don't have anything to worry about at all.

But now, there is still a more troublesome thing for us that has not been solved, that is, if there are any more ideas in the future.

You have to think it over carefully and don't hide anything because of these things.

We all can no longer continue to struggle. Now I can only give all my confidence to Du Bingbing. He will command you as a trusted commander.

It's only now that I can slowly put my mind at ease about these things.

Fortunately, you have An Ran and Chen Jixiang by your side. This guy can help you, so I don't have to worry so much.

I'm afraid I can no longer participate in this matter.

After that, you can only leave it to Du Bingbing. You quickly contact Azhe and see what is going on with He Chenguang. Since this guy has found the hospital, it means that he is desperate to take action. .

You also have to think about how to let him know that you have not been exposed when he comes back.

And you perform these dramas well without knowing it. Sometimes you know the truth clearly, but you still have to force yourself to pretend to be ignorant, which is the most difficult thing.

None of us are professional actors, and they might really show their flaws. If he notices any important news, don't blame this spy for he will probably jump over the wall in a hurry.

At that time, it is very likely to threaten your life safety.

Let me reiterate, as long as you brats like me are safe and have enough arms and legs to come back, I will do whatever you want, even if you no longer serve as chief of staff in the future, I will do it.

Now I have long treated you as my own children, so don't say anything else in the future.

I am being more selfish in saying this, because in my heart, you are just like my children.

There may be no need to talk about other things, but I have to tell you clearly and understand this matter.

Hurry up and contact this guy named Azhe.

Only he can help you, because this person is very cautious and careful. Only by solving his current problems can we deal with the next situation. "

After Qin Yuan heard what the God of Thunder said, he must still be very moved now, and other things are not so important and urgent.

"Don't worry if you are tired. No matter what, I will definitely not put the people around me, including myself, in any danger.

You also know that I have always been a guy who is very afraid of death. Although I have joined the army, what I care about most is my own life.

I have contacted Azhe just now. The fact that he was able to provide me with this matter really means that it is very important news. It is better to prevent him from pretending to negotiate with the other party.

He Chenguang, he was able to quietly walk to the hospital to kill Hassan, which means that he is probably no longer afraid of being exposed.

If we want to successfully bring him back to Country H, it means that we have to plan in more detail. Just like what Thor just said, we have to act. "

After Chen Jixiang heard what Qin Yuan said, he smiled helplessly beside him.

"What do other people think? I don't care. I just never considered that we actually came out to complete the task and actually had to act.

Well, I wonder if Azhe will provide us with corresponding help.

After all, he also wants to complete his mission, and he needs us to make some exchanges of interests with him. I'm afraid that he will do things that have no bottom line and push it on us.

When the time comes, brother Qin Yuan, won't you be coerced by them?

Azhe now wants to replace Mr. Norman Karim. If one day he really succeeds, will the relationship between you two be like the relationship between Thor and Norman Karim?

In the past, they were using each other, but in the end when they no longer have common interests, they will become enemies.

Thor, haven't you considered it yet?

The reason why Mr. Norman Karim asked Jason to kill Hassan was because he wanted you to be involved in this matter. I don't know what kind of conflicts the two of you have.

Why do he hate you so much and want to involve you in these messy things? Have you never considered that these things are probably just his remaining traps.

So, after thinking so much just now, we don't have a definite answer.

Only after this matter is resolved perfectly can everyone feel at ease. Now you can finally understand why we all do this.

Because this guy, he is just eager for the higher-ups in the army to give you a very serious punishment, so that he may feel sorry in his heart. "

"I think you should stop thinking about this aspect. If we all really have so much hesitation, then we should stop talking about it.

The more we think about it now, the more complex the problems we will face next will become.

Thor, don't take what this guy Chen Jixiang just said to you to heart. It doesn't make any sense if you think about it so much now. You'd better recover from your injuries. "

Fan Tianlei heard what they said to him. After these words, he was now deeply lost in thought, and he was also recalling the past with Norman Karim when he was young.

"It seems that he really hates it. I don't want me to sit in the position of chief of staff again. The story between the two of us is very long, and I can't explain it in just a few words now."

Chapter 2172: Use tricks to deal with spies

On the other side, Pakistan Central Hospital.

Hassan and Azhe were sitting in the room, silent.

Hassan looked at Azhe's solemn expression and couldn't help but ask directly.

"Azhe, you have already planned so much for me. It is really not worth it. If Norman Karim, an old fox, discovers this, both your and Sophia's lives will be in danger."

"Don't tell me these things anymore. Since I have agreed to the choice, no matter how dangerous or difficult it is, I will definitely not give up.

I have also discussed this with Sophia, and he is not afraid that Mr. Norman Karim will know the truth about this matter.

If this is the case, then we should give it a try.

I have been stuck in a lot of obstacles after following Mr. Norman Karim for so many years. This time, I believe I will succeed. "

"As long as it's a bet, there's a chance of winning and a chance of losing. We can't afford the chance of losing. Do you think you are Qin Yuan?

Even if Mr. Norman Karim knew the purpose of his coming here, he would never want to harm his life because he felt that he was a rare talent.

But you are different. What kind of person is Norman Karim? What he fears most is the betrayal of those around him.

He can't stand this. If he really knew that you had thoughts and thoughts about betraying him, you would be more uncomfortable than death. He would not kill you so easily. He would make your life miserable. dead.

I have seen this man's methods with my own eyes, and I know how powerful and terrifying he is.

At the same time, I don't want you to suffer the same thing again.

Look at my current fate, isn't it miserable enough?

When I came back from country H, I already knew that the truest thought in his heart was that he was particularly insidious, even more dangerous than Fan Tianlei.

Fan Tianlei is a gentleman, but his perspective is different from ours. He will never do such insidious things to threaten and intimidate us.

But Norman Karim is different.

For so many years, you have been walking on thin ice around him, and you have finally carefully convinced him that after he treats you as his right hand and trains you, you will have a lot of glory and wealth by his side.

Why must we take this risky approach?

Just because of Qin Yuan, they are here, are you going to fish in troubled waters?

Go and complete your own actions. Even if you are exposed by then, you can dump everything on Qin Yuan. I think it is really bad to do this.

Qin Yuan is innocent in the final analysis. The relationship between you and Sophia has caused great harm to An Ran.

The two of us also belong to different countries, but we should unite together to deal with the powerful United States, even if we are likely to fail.

But you should try to deal with it. He definitely can't just sit back and wait for death.

We are all doing this for our own benefit, and you have to think about it carefully. Don't be so stupid and do this for me. I really don't want you to be in any danger.

Qin Yuan just now, didn't he take the initiative to contact you? Is there any task I want to give you?
"

After Azhe heard these questions that Hassan raised about himself, he remained silent and didn't want to tell him.

"Hurry up and speak, I'll ask you again!

This is a very serious issue. You can't help Qin Yuan just like this. He is a very dangerous person. If Mr. Norman Karim knew about it, he would definitely not let him go so easily. "

"Hassan, I've told you what's going on with you so many times, and you still think you're not worthy of being believed? If that's the case, then I have nothing to say.

I've been telling you for a long time that you are not willing to do these things yourself.

There is nothing I can do, but we must not feel a sense of failure in all tasks just because of this.

I believe that as long as we all work together, the other party will definitely not notice that we have any leverage.

These are the truest thoughts in our hearts. I don't believe they would do this, and I don't think they have such ability. No matter what Qin Yuan thinks, I am definitely completely different from yours. of.

This time today he made some demands on me, and I also know what his ultimate goal is.

In this case, we no longer need to be afraid of him.

I already understand what his ultimate goal is, so why must I be afraid of his decision.

I've told you this more than once, but you just don't want to believe it. You should always believe in my ability. I will definitely have a way to save you.

You don't have to worry about this, I won't let anyone hurt you.

You see, you have become a disabled person now. If your life is in danger, then I think these people are a bit too cruel. This is called extermination.

Leaving a way out for others also leaves a way out for yourself.

Never force others to do something excessive, as this is not good for everyone.

At that time, if it is really a desperate matter, I will see what they can use to fight us.

Qin Yuan, the request he made to me was to save your life no matter what.

Because this involves Jason and Fan Tianlei, the two things together will definitely lead to some more ideas that need to be considered.

Forget it, I'll tell you the truth, I don't plan to hide it from you like this.

He Chenguang, this guy seemed to have sneaked out of the club just now, and he wanted to come and assassinate you. "

"Assassinate me?"

Hassan couldn't believe that the other party had already set a target on him, and he sneered beside him.

"These guys are so cruel. I never thought they would have such an idea. I have already given up, and I don't want to continue to struggle with them. Why do they have to put me to death?"

"He Chenguang is an American spy. I believe that if I don't tell you this, you must have some thoughts in your own mind. But now that you know it, we have to be on guard against him."

"Azhe, to tell you the truth, I really have nothing to guard against now. If they want to kill me, just let them do it. Anyway, I have survived this time.

Now that I have lost a leg and become a disabled person, there is no point in living anymore.

I can't accomplish anything I want to accomplish in this life, so what do you think is the point of my life? "

"Hassan, if I hadn't met you when I was a child, I would have starved to death on the roadside by now. It was you who saved me and gave me a life, so I will definitely not let you die now.

Not only He Chenguang, but also Kasang wants to kill you. He has already given Jason a chance to complete the declaration, which is to ask Jason to come over and kill you.

As long as he can complete this task, Mr. Norman Karim will completely trust him, but Qin Yuan will not let him do this.

Because doing so also threatened Fan Tianlei.

The whole thing was very complicated, and I didn't expect that two arms experts would create so many messy things that we couldn't handle.

But don't worry, no matter what, I won't let anyone hurt you.

Whether it is Mr. Norman Karim or others until now, he does not know the relationship between the two of us, if he knows that the relationship between the two of us is like this.

It's impossible for him to keep me by his side.

Therefore, now we should solve it before he discovers these things.

This guy has now taken all of Old K's arms into his own hands. He has been silent for so many years and is finally ready to take action.

Mr. Norman Karim is a very tough person. Before he is sure, he will never drive casually and will only endure the humiliation for so many years.

He has endured the humiliation and bear the burden enough. Now that he plans to attack Old K, this matter will become more complicated. We should seize this opportunity, either he will die or Old K will die.

Qin Yuan is the handle we use. As long as we seize this opportunity, I don't believe that we can't defeat them both at the same time.

When the time comes, everything is in the hands of Sophia and I, and we will take good care of you together.

You won't have to worry about it for the rest of your life.

After leaving the maritime patrol force, staying with us ensures that you will have food and clothing for the rest of your life. What are you worried about?

I'm sure you'll say no, but I have to tell you now.

You have become a disabled person and can't do anything.

Even when you were young, you have to give up those dreams of not wanting a mobile phone.

People, living is the most important thing.

Haven't you realized this truth after so many years?

In the past, you were a passionate young man who willingly worked as a spy for the country of Pakistan. Even if you came back and had your whole life ruined for the rest of your life, you still didn't care.

Don't you think that your life is a little too aggrieved?

Now that I'm giving you another chance to choose, do you want to do it again?

Just look at Fan Tianlei's fate and you will know that you are the same as him, both of you are a little too persistent.

Just blindly believe in something that doesn't exist.

Sooner or later, he will be hurt. Now all this is enough to prove Fan Tianlei. He was locked up for investigation by the higher-ups of the army.

And now you are lying in the hospital and have lost a leg. Do you think it makes sense to do this?

Have you realized your ideals and values again? "

After Hassan heard what Azhe said to him, he also fell into deep thought. In fact, after all these years, he has known his fate, but he still has not chosen to give up.

"I decided to stick to what I insisted on when I was young, and I am still right now.

Even if I didn't end up well, I still think it's right. Ever since I kidnapped Qin Yuan today.

After them, I felt that I might have undergone a lot of psychological changes. As long as I could achieve my goals, I would use any means. I really shouldn't do this. "

"He Chenguang, he will come to kill you soon, but Qin Yuan just told me that he must find ways to stop him. No matter what, his identity as a spy cannot be revealed."

"Did Qin Yuan tell you not to expose the spy's identity?"

"He didn't say that I thought of it myself. I believe that there should be no problem with my judgment. It is impossible for them to expose the people around them at this critical moment. They can only use the method of playing tricks."

"He Chenguang, if he dares to come late at night, it means that he doesn't care about his identity at all, and it is very likely that he will be exposed. He will choose other channels and ideas. If this is the case, find Shuyuan [www.zhaoshuyuan .com](http://www.zhaoshuyuan.com) if we do this again.

He is not a fool. He will definitely know that his identity has been exposed, and it will not be good for Qin Yuan and them after he returns. "

"That's Qin Yuan's own business. Since he has asked me to do this now, according to the regulations of our cooperation, I will definitely agree to him.

No matter what happens to them after they come down, it has nothing to do with me.

If Qin Yuan is going to fail, then I can only admit that I made the wrong bet.

I will look for other opportunities in the future, but don't worry, I won't let any of them hurt your life. "

"Well, this is the case now. I have nothing to say. As long as you all think about it clearly, there are other issues that we have to think about slowly.

Regarding the current situation, don't worry anymore. Since this guy came to kill me on his own initiative, it means that he must have some ideas of his own.

You'd better go out and see if he's already outside the door. How are you going to deal with it? He had to be steady, and he asked him not to realize that his identity had been exposed. "

After hearing what Hassan said, Azhe thought about it for a long time. He really didn't know what to do, but at the same time, he didn't want to break his trust with Qin Yuan.

"Hassan, while Jason hasn't taken action yet, let's take care of it first. Besides, the fact that he is not afraid of exposing his identity and hurting you already means that he is very anxious."

At this moment, Azhe suddenly thought of a very important thing: Xiaolan.

"It must be Xiaolan who is instigating him behind the scenes. I have already thought of it. I should have thought of it a long time ago!"

Chapter 2173: Protection for the rest of your life

After Azhe told Hassan that the spy in the club was probably Xiaolan, Hassan couldn't believe it. After all, he didn't have much contact with Xiaolan.

"I think this matter is still open to discussion, especially now that we have all gone through so many things, it will definitely not be solved so easily.

According to what I know about Xiaolan, he must have been ambushing many people in the club. Even Mr. Norman Karim has not discovered his true identity.

However, if he is really an American spy, it should not affect our judgment on this matter. "

Hassan, he is a little confused now, after all, this matter also involves Qin Yuan.

So, when he thought about so many people wanting to kill him, he had no choice but to sneer.

"I really didn't expect that I would still be of such great value despite my old age, and that so many people would be vying to take my life."

When Azhe heard Hassan's self-deprecating remarks, he felt helpless, and he felt some distress in his heart.

"Hassan, please don't say that. No matter what happens, I will definitely protect you."

"Azhe, I know, it's actually not easy for you to get to this point. This time when you cooperate with Qin Yuan, you must be careful about Mr. Norman Kalim, he is definitely not a vegetarian.

He Chenguang, the fact that he risked his identity to kill me shows that he has already been mentally prepared. We must not give him any more opportunities. "

"Of course, I understand how important we are now, but we absolutely cannot give him more opportunities.

How about this, you just lie here honestly, and when he comes later, how about we make a decision to expose him face to face? "

After Azhe finished speaking, Hassan quickly stopped him.

"No, Qin Yuan contacted us today. He mainly wants you to stop He Chenguang. If the two of us confront him face to face, this guy will probably expose his identity by jumping over the wall.

At that time, Qin Yuan, even if they want to act, it will be impossible..."

"Acting? What kind of drama is Qin Yuan playing?"

"According to my speculation, they are probably not planning to reveal He Chenguang's current identity for the time being, which means that the other party is probably thinking about other things.

For us, this cannot be solved by friendship, so we still have to think of a better way, and we must not just give up on this matter.

I have indeed thought of many solutions in the past, especially in this regard, but until now, we do not have a definite answer.

Qin Yuan, he should have his own ideas. According to my understanding of him, he definitely does not intend to expose the other party's identity for the time being, and wants to use his tactics to his advantage.

After all, if you catch a living spy, you can get some evidence.

It is far better than killing a former companion of his, and it is impossible for him to do such an insidious behavior, so I think he should want to temporarily save his life. "

"However, He Chenguang has come here desperately now. If we continue to act stupid, will our truest thoughts be completely exposed.

Hassan, you are different now. You have lost one leg and become a disabled person. It is very inconvenient to move around.

Just ask me to go out and send him away. "

After Azhe thought for a long time, he felt that keeping quiet was the best way.

"Now that we have received the message from Qin Yuan, I can only send more people here to protect you. He naturally returned after waiting for a few hours with no results."

"Yeah, you're smarter. This is also a good idea, but it's hard work. You have to watch me here all day and night."

"As long as I can keep you safe, that's more important than anything else. What I'm most afraid of right now is Jason.

This guy can do anything if his mind gets hot, and it will be too late to regret it by then. "

"Yes, in the final analysis, I, an old man, am not afraid of death. I just feel that it is not worth wasting your life just for me.

Jason, if you want to gain the trust of Mr. Norman Kalim, you have to hurt me. This is indeed not worth the gain.

I don't know what Qin Yuan thinks. Now I am no longer afraid of death, because I have become a disabled person and I no longer have many thoughts and ideas.

Azhe, I know that if I say this, you will definitely feel very uncomfortable, but I still have to tell you, if one day something unexpected happens to me.

You should stop thinking about dealing with Mr. Norman Kalim and just stay by his side.

He is currently competing for interests with Old K. He has no more thoughts on you, and he has never thought that the most important person around him would betray him.

In fact, it can't be called a betrayal. From the beginning to the end, you have never sincerely submitted to him. "

"Hassan, no one knows about our relationship, not even Qin Yuan. All the information he has now is just his own guess. He thinks he is very smart and knows everything.

In fact, he is just a fool who needs to be manipulated.

The current situation in Pakistan is very complicated. When he completes the exchange of interests between us, I will hand over the two arms experts to him. "

When he heard this, he was very confused. He never thought that Azhe would make such a choice.

"Do you know where these two arms experts are?"

"Of course I know. Since I brought them to my side, I have arranged all their food, clothing, housing and transportation by myself.

I arranged them in a bomb shelter.

It was a very secluded place and provided all the materials they needed for experiments, but these two guys couldn't research anything without their teacher.

Moreover, our language is different from his, so there is no way to communicate at all. I have already wanted to deal with these two people, so I just gave them to Qin Yuan as a favor.

He needs these two troops or experts, but we don't need them at all. Mr. Norman Karim also knows that these two people are of no use at all. They don't have any core secrets in their hands.

All the core secrets are in the hands of Professor Fang De. "

"I can't believe that this old man can still have one hand."

"I'm afraid Qin Yuan himself doesn't know about this matter. The reason why he is so anxious is entirely because Professor Fang De is not long gone and he has already suffered from cancer.

Even with the special medicines provided by Sophia's private hospital, he would not live long.

Qin Yuan, if he knew it, he would probably be even more anxious. Even if I knew the secret, I would never be able to tell him that he needs to implement it step by step according to the plan.

The first thing is to let him deal with Efit, this person is Old K's right-hand man. If he can be dealt with, I can take his place.

Many things can be communicated directly to me, and there is no need for him to continue nagging in the middle. On the contrary, it will cause us a lot of trouble.

Qin Yuan doesn't know these things, but I believe he is a very smart person, and it will not take long to analyze the key to these things. "

"Sofia didn't tell you, how is the situation there?"

"Sofia has been keeping an eye on An Ran. However, after he changed into An Ran last time, the other party has always been more wary of him."

"An Ran, this girl is indeed quite smart, and she has been performing special secret missions outside for so many years. It is really not easy for him to trust Sophia easily.

I believe this girl is very clear about this truth, and it is impossible for Sophia to gain his trust again no matter what. "

"I heard Sophia say it.

It is impossible for him to know what Qin Yuan, An Ran, and Chen Jixiang are secretly talking about in the room.

Even if they are close, these people can easily detect it. I really don't know how Qin Yuan did it, but no matter what, it's fine. Anyway, their thoughts have no conflict with us.

What they are anxious about now is to get Fan Tianlei to come out quickly. If Fan Tianlei cannot even keep the position of chief of staff, no one will help Qin Yuan in the future. "

"Fan Tianlei, he is indeed a very good person. If he loses his position as chief of staff so easily, this is a position that he spent his entire life to reach.

He is a very persistent person and does not pursue any promotion at all. He just wants to realize his dream. He is Qin Yuan, the boss of Nian.

This person was very pure when he was a spy in country H.

I already admired what he did very much, but I didn't expect that such a series of things would happen later, making the two of us become enemies of life and death.

I hope there won't be any separation between you and Qin Yuan, it's better to get to this point. "

"Hassan, don't worry, no matter what happens between me and Qin Yuan, I will never give up so easily.

As we have already said, since we can all solve these problems face to face, you don't have anything to worry about.

As for other issues, you don't need to think about them. You just need to leave them to me. Just lie down here and take good care of yourself. Then I will go to the private hospital in Sofia to help you customize a prosthetic limb.

It is enough to ensure that you can live a safe and sound life for the rest of your life. You don't have to worry so much anymore. You have given everything you have for the country of Pakistan in your life.

I don't have any other ideas, just Qin Yuan, they just need to complete the task quickly and leave our territory quickly, and don't affect my plan next time.

Mr. Norman Karim, he has slowly started to implement this step according to his own plan. If Jason kills him, you will have completely cut off any possibility of contact between him and Qin Yuan. "

"You said there was no problem at the time. In fact, Jason was just a pitiful cannon fodder."

"Jason...is really pitiful.

No matter what, Qin Yuan, even if he has the same means as Thunder, it is impossible to save his life, no matter if he kills you or not.

It is impossible for Mr. Norman Karim to keep his life any longer. Now he is just pretending to be a coward, so that Qin Yuan can relax his vigilance and delay time. "

"Azhe, since you already know Mr. Norman Karim's truest thoughts, why don't you tell Qin Yuan all these things? If he loses Jason, this good brother will probably go crazy."

Azhe said with a sneer from the side.

"What does all this have to do with me? I don't care if he is crazy or not. I just need to achieve my goal. Looking for Jason from Shuyuan www.zhaoshuyuan.com. He really shouldn't keep him anymore. "

"Then what are you going to do and just let them do it? Jason will definitely not succeed. Qin Yuan also knows it in his heart. Maybe he has already expected that Jason will probably die."

"Then I don't care..."

Hassan looked at the indifferent Azhe next to him. He was completely different from the boy he had raised since childhood.

"It's really hard to imagine what you have been through over the years. When I picked you up on the roadside, you were a very optimistic boy."

"Hassan, please stop talking. It was so many years ago. I have already forgotten it. To me, it is just like the past."

"I asked you to be my eyes and ears with Mr. Norman Karim. I just wanted you to help me find out information. I never wanted you to be an indifferent person."

I see you can't come out now. Is this the worst decision I've made in my life? "

"No, Hassan."

No, the worst decision you made in your life was not to place me next to Mr. Norman Karim, but to believe their decision so easily to go to country H and become a spy.

If you had not gone there, you would never have known Fan Tianlei or the He Fei that he was.

Maybe you already have a relatively high position in the army, at least like the current Fan Tianlei, you can achieve the position of chief of staff. "

"Azhe, maybe I should tell you the truth. I have never regretted this matter, even though I can no longer look back.

That experience indeed brought me a lot of pain, but at the same time it also gave me a lot of gain.

Chapter 2175: Pretend nothing happened

He Chenguang simply held his miniature pistol in his hand. He didn't know that he was also being targeted by the gun in the dark.

Neither Azhe nor Hassan are easy to mess with.

Although Hassan said verbally not to provoke this guy easily, and it was best not to have any conflicts with him, in his heart he had already had murderous intentions when facing him.

"He Chenguang, if nothing else happens, he should have left by now, and he has left very completely. He should not come back again. I believe Qin Yuan will give us an explanation after he returns."

"Qin Yuan now knows that he is an American spy.

This means that there will definitely be no peace between them. According to my understanding of Qin Yuan, the next thing will become very complicated. "

Azhe looked at the spy outside. He really wanted to kill the spy because he just wanted to kill Hassan, but he had already promised Qin Yuan and was unwilling to expose the spy's identity.

What's more, we should remain calm and deal with this matter first.

The two of them can't control what others think, but for them now, many things are definitely not as simple as they imagined, and they must first grasp the current situation.

Otherwise, it will be very difficult for them to do what they do next.

He Chenguang is alone outside now, and he has not completed the tasks assigned to him by his superiors. Overall, he is still a failure, and now he is becoming more and more extreme.

I was in a very bad mood, and even didn't want to go back to the club anymore. I simply left without helping anyone.

However, what he now knows better is that the American spy organization has strict control over them. If they really run away like this, it won't be long before the army will send someone to look for him.

By then, he himself would not be able to escape death.

At this critical moment, He Chenguang knew that he was really desperate.

He also had to think of other ways. It would be better to leave here first. If this continues, what will happen next? He has no bottom line in his heart.

He knew that as a spy, it was not easy to reach this point.

However, he didn't dare to say anything anymore. After all, he came here with Qin Yuan, and he had to listen to Qin Yuan's words for everything.

Qin Yuan was quietly beside him, pretending as if nothing had happened. He didn't know that the other party was completely attracted to him, and that he would act with him after his identity returned.

This means that the road ahead for them will be very difficult.

Fortunately, Fan Tianlei has come out now. At least He Chenguang thinks that Fan Tianlei still believes in him. As long as he can rely on him, he should have nothing to worry about.

So, on the street at night.

He Chenguang actually felt like he was cornered now, but this was because he had expected that he had reached this point, and there was no room for maneuver.

"Haha~

I used to be so famous in the United States, but the best person in the army did not expect to come here. All the light was blocked by Qin Yuan. I was in a dilemma.

Now I can't even assassinate anyone. I even began to doubt whether I was a qualified spy. "He Chenguang was mocking himself while talking to himself next to him, while feeling in a dilemma on the street.

"I have nothing to say now. I can only go back first. Although Thor still trusts me for the time being, I should calm down first and not let others discover my identity."

He Chenguang, he thought he had taken care of everything before going out, but he didn't expect that he would be targeted by this boy Chen Jixiang.

Azhe saw He Chenguang preparing to leave near their hospital with his head downcast as if he had lost a battle, so he hurriedly said to Qin Yuan.

"Qin Yuan, he has gone back, you should finally be mentally prepared in advance.

Act well in front of him, don't let him find out, you already know his identity.

At that time, when he is desperate, he may do some more extreme things, which you cannot afford.
"

"I understand, thank you."

On the Qin Yuan side of the club, he has received some information provided to him by Azhe, and is able to stabilize the situation for the time being.

"How about it?"

Chen Jixiang and An Ran were watching Qin Yuan from the side. Both of them were very nervous and concerned about Qin Yuan's current state, knowing that he could not accept the betrayal of his good brother.

"Azhe just told me that he went to the hospital for a walk and left after finding that there was no chance.

What happens next is up to us. He is already preparing to return to the club. We have to act well and try not to reveal any relevant clues that we already know in front of him.

When the time comes, prevent him from jumping over the wall and doing some more extreme things.

We can't afford it, especially at this critical time.

Azhe has already agreed to tell me where these two students of Professor Fang De are, and we have to think of a way first.

Azhe, the reason why he handed these two people over to me.

I think the main reason is that these two people basically have little use value, so Mr. Noman Kalim does not look at them particularly closely.

All core technologies are truly in the hands of their teacher, Professor Fang De.

Because of this, it is relatively easy for us to save the two of them, and you don't need to worry so much. "

An Ran said after thinking for a long time.

"But these two students of Professor Fang De are his direct students.

Only these two students can grasp a little bit of the foundation and important content of the science that he has studied all his life, if neither of them has it.

So who can still master these? I can't believe it.

The following problems are already very serious for us. Although we don't know what to do next, I have already thought about it now.

No matter what happens, we have to think clearly and we must not let them threaten us in any way.

This is really stupid, and most people cannot accept the same result. "

"Yeah, I understand the importance of this matter.

However, every time I see this traitor, I want to beat him hard. I feel that he is really too much towards us. Most people don't want to pose any kind of threat to him and this guy, but he is so harmful to us. Such a big threat.

I have said for a long time that most of the time he is not worthy of being trusted, but you all still don't believe me. In this case, I have nothing more to say.

As long as there is a slight chance, I will never let it go. Moreover, we have no way of knowing what these guys are like. Should we just let them develop like this? "

After Chen Jixiang said these words very angrily, Qin Yuan walked to him and gently patted his shoulder in order to comfort him.

"I told you, kid, don't be angry for now. I know there are many things that you can't endure.

I also understand that you are a kid who doesn't tolerate criticism, but you are still relatively young and you don't quite understand many things, especially compared to the current situation, we should choose to be patient. "

"But how long can I endure it?"

"When I return to the H-country army and return to our true place, I have Fan Tianlei protecting me. When the time comes, he will directly return to the position of chief of staff.

We have nothing to worry about anymore. Don't forget that there are two guys around us now who need to deal with it. One is Xiaolan, who is suspected of being a spy.

The other one is Sophia, but since he is now standing with Azhe, it means that he is not our enemy, nor can he be regarded as our enemy.

Then we should consider other things next, and we must not let them think that we have something to bully.

Most of the current situations are indeed not very optimistic for you, but you must not be too pessimistic.

After I know these things, you should think carefully about what is most appropriate to do next. For us now, most situations have to be taken slowly.

An Ran, Azhe has already told me.

He Chenguang, he will slip away, as if he has lost a battle, standing on the roadside looking very pitiful, so we should basically not mess with him unless necessary.

He is very likely to go to extremes now, especially since others have discovered his identity as a spy. This is indeed a troublesome thing.

Thinking of this, I have nothing to say. We must take one step at a time.

Many things are indeed troublesome for us, but we absolutely cannot give up just because of this matter. In most cases, we have nothing to say.

As long as we take into account other people's opinions on this matter, we have to implement it slowly.

Based on my understanding of them, as long as we solve all these problems today, I don't believe they will have any doubts.

Also, in most cases, we are not able to think about other things.

Thor, he has just told us, I guess Du Bingbing will contact us soon, because apart from him, I have no better commander. "

As soon as An Ran heard that Du Bingbing was going to become their commander, he now had an indescribable feeling in his heart. He didn't know why. Anyway, he just felt uncomfortable and didn't want to think too much about them.

"An Ran, I know you don't like Du Bingbing."

"Qin Yuan, we are all very experienced old special forces soldiers. Do you think I will be an emotional person? It's not that I don't like him, I just think he has too many ideas.

We are now in a very critical period. If he disagrees with us or has different ideas, he will make a very wrong choice and all of our lives will be in his hands.

On the contrary, I think Du Bingbing is a very refined egoist. Although he is very smart, we don't know what choices he will make. "

Chen Jixiang thought the same way, but none of them could refuse the arrangements made by the top brass of the army.

"Okay, this matter has developed to this point, so don't say anything else. We no longer have any chance to choose.

Based on what I know about them, what exactly happens next? Let's just wait and see. Anyway, when He Chenguang comes back soon, you will act as if nothing happened.

I believe that in order to confirm our current movements, he may come out directly to observe what we are all doing.

If he finds out, if we keep having meetings in this room, we will probably find something. "

"Yes, I think what Qin Yuan said is quite reasonable."

After hearing this, Chen Jixiang asked nervously from the side.

"At that moment, does it mean that we each have to go back to our own rooms to sleep, and then pretend that nothing happened? Don't forget that there is that guy named Xiaolan.

He is a very dangerous person. I even saw him hooking up with Efit next to him.

Maybe this guy is with Efit, helping Efit come here to frame us. Efit is already our old rival. No matter what, please don't give him any chance. "

Qin Yuan had a bold idea at this moment.

"I have a guess, but I don't know if it is reliable. Of course, this is just a bold guess. I don't have any evidence or any way to let you know.

Based on my understanding of this matter, I think this Xiaolan is probably an American spy. "

Chen Jixiang asked in disbelief.

"ah?

It's not possible, Brother Qin Yuan.

This guy looks so thin and looks like a little girl, how could he be an American spy? I don't think he is just a love-minded little girl. "

"People should not be judged by their appearance.

Chen Jixiang, I told you that you really judge people by their appearance. Who told you that a skinny guy like him couldn't be a spy?

Americans are very cunning, especially their troops.

It's even more difficult to find someone who looks unlikely to be a spy to do this job, and someone else finds out, you know? "

Chapter 2176: Common goal, first solve the spy in the club

Chen Jixiang was completely surprised now.

To be more precise, his own three views have been refreshed. He never thought that there would be an American spy beside him, and he was the most unlikely person.

"I said you are all just kidding me. I never had any guard against him. I just thought he was just a little girl who wanted to be with Norman Karim and Sophia.

Now you tell me that he is the darkest person, I really can't believe it.

Well, since you have all said this, then I can only trust your judgment. No matter what kind of situation we encounter next, we have to take it one step at a time.

We must not let others discover that we are in such a difficult situation now.

No matter what happens, we have to deal with it slowly. Fortunately, we can already understand most of the situations, now that we already know that he is a spy.

Then we have to be more careful with him. Nothing can make him continue to sow discord here, and according to Brother Qin Yuan's analysis.

It is very possible that this guy has some unknown secret with Effit. If so, it would be very convenient for him to betray us. "

After what Chen Jixiang said, Qin Yuan also had the same idea, but he felt that he should seek the opinions of Sophia and Azhe.

"Azhe and Sophia should know the identity of this guy named Xiaolan. I think no matter what choice we make next, we have to think about it slowly.

It is impossible for Xiaolan to stay here any longer. Even if he is not a spy, he is still with Efite's group.

After all, they cannot be our teammates, they will definitely be our enemies.

As a result, there is another enemy beside us, which means nothing. Let's deal with her first.

We can't control that much about how other people think about it. It's just that it's more complicated to consider the current situation.

If he has this idea, then we shouldn't keep him here any longer.

Simply, it makes no sense at all. It's better to deal with this guy first and then talk about it. I don't believe that he might cause us a lot of harm.

God didn't know it, but she was solved unknowingly, which meant that we could relax a little bit.

It's just that he can be regarded as someone close to Norman Karim. For Norman Karim, he can reject anyone, but others cannot reject him casually.

If we easily touch the people around him, you can imagine what the consequences will be. "

At this moment, everyone suddenly noticed something moving outside the door.

Qin Yuan protected An Ran and Chen Jixiang behind him. He stood in front and stepped forward, and saw Sophia standing outside through the crack in the door.

At this time, these people were all confused...

Could it be that Sofia outside heard everything they just said in the room?

As soon as An Ran saw that it was Sophia, he was very angry and opened the door directly, then pulled Sophia into the room and stared at him fiercely.

"Don't look at me like that."

"Sofia, you have lied to me, time and time again.

Could it be that this time, what kind of behavior and motives do you want to do around us?

I've already told you, don't say these words in front of me, I don't want to have any interaction with you. "

"An Ran, please don't be so angry yet. I can assure you that I didn't hear anything outside just now. I wasn't eavesdropping on your conversation at all. Why are you so nervous?"

"Forget it, do you think all of us are big fools? You didn't eavesdrop on us, why did you stand behind us secretly?

Now what you have done has completely proved that you are such a person.

I really have nothing to say to you. I think you are too shameless to do this in the first place.

It really surprised us and surprised me.

At this point, I have nothing to say, so you'd better explain it to me quickly.

Why are you standing outside and listening to us quietly? Tell me clearly what you heard.

Otherwise, I won't let you go today.

The worst case scenario is that we will fight to the death. Even if I fight you, I won't let you reveal any of our secrets and information. "

As An Ran said this, he took out a small scalpel from his pocket at lightning speed and put it against Sophia's neck.

"An Ran, it seems that you are still in good shape for a spy. You are really good, and you can reach out very well. You took out the scalpel so quickly, but I don't think you have any need to do so."

"How long has it been since Sofia, and you are still saying these useless things in front of us?"

"I don't mean to tell you something useless.

I just want to tell you that the situations we are encountering now are indeed not easy to solve.

Moreover, most people have no other ideas and can only consider the situations in front of them. "

"Okay, you've already said this, so I don't need to explain to you any more, but I still have to tell you that no matter what happens next, you don't want to get it in front of us easily. What.

Most people may not understand that we will compromise with you easily. Do you also think that we will compromise with you easily? This is absolutely impossible.

Even if we are from the army, if you encounter us, it is impossible for us to harm your life. Then let me tell you that I am completely different from them. For so many years, I have already had the same mentality as them while wandering outside as a spy. A lot has changed.

If I want to kill you, it will be easy. Don't let me do anything to you. "

Sophia also knew that An Ran was definitely not threatening him. Even if An Ran killed him and went back, would Qin Yuan and Chen Jixiang in front of him expose An Ran to the top brass of the army?

"An Ran, you don't need to scare me here.

I know that it is possible for you to do something to me when you are excited. I never think that I need a place to escape.

But after I tell you about the current situation, I hope you can understand it a little bit. It is completely different from what you imagined.

I didn't overhear you talking outside just now, but we now have a common goal, which is to deal with Xiaolan first.

I understand that you spies have some immunity when you are outside. Having some rights in your hands does not mean that you have no right to kill at all.

So, you weren't threatening me just now. Your scalpel was only a few millimeters away from my aorta.

As long as your hand slipped a little, I'm afraid I would have fallen into a pool of blood by now.

I know you still haven't hurt me because I have value and you think I have some relationship with Azhe.

I can tell you right now that yes, Azhe and I do have some special relationship.

However, what I want to tell you is that you must not be so anxious or so excited. No matter what happens, you absolutely cannot imagine what the result will be next.

Perhaps, you have been speculating on this issue for a long time. I don't want to explain anything to you. I just want to tell you that many people are innocent.

However, this guy Xiaolan is indeed an American spy.

Mr. Norman Karim has always placed him here because he still has some use value. He can contact Efit with our side.

It is convenient to pass some relatively wrong news to Efit, allowing him to make mistakes to provide us with more space and value.

It's just that this guy doesn't know anything now. You also understand that people become very stupid once they fall into feelings.

Efit, this guy, really deceived Xiao Lan.

The two of them also have many improper relationships, which you all know, so now the two of us have reached a consensus, which is to get rid of this guy first.

Because Efit has no use value anymore, Old K is already at a disadvantage. "

After Sophia finished talking about these things beside him, Qin Yuan must have had a lot of thoughts in his heart, and he didn't know what to do for a while.

However, after talking about these things, they should have a new understanding, especially about the relationship between Sophia and Azhe.

Just when Qin Yuan wanted to ask questions.

Sophia, he smiled and said,

"I know that you all have always wanted to know if there is any kind of relationship between me and Azhe, and I can tell you now.

There is indeed some relationship between Azhe and I, but this does not affect any transactions between us.

Ah Zhe, he did give us a lot of support. In a general sense, we can be considered partners, but it's not as complicated as you think.

We are both people who want to fight against Mr. Noman Karim, so we hit it off and we naturally came together. You don't need to feel any surprise.

In order to make you believe that we sincerely want to cooperate with you, the specific coordinates of these two students, Professor Fang De, will be placed in your hands soon, and you can just leave at that time. "

Qin Yuan and An Ran looked at each other.

It had been such a long time since they came to Pakistan, and without any progress, the other party was willing to call these two people out directly. They were indeed very surprised, and they never thought it would be such a result.

"Who knows if you are telling the truth or not? You lied to me more than once. At least from my point of view, you are an untrustworthy person."

"Of course I know that from my perspective, I am not worthy of being trusted, but I still have to tell you specifically that no matter what happens, you have to believe in me."

The two students of Professor Fang De were arranged by Azhe personally. Apart from him, only Mr. Norman Karim knew about it.

Do you think Mr. Norman Karim might hand these two people over to you for no reason without any exchange of benefits?

This is a completely impossible situation, so don't dream about it. "

Qin Yuan thought that everything was similar to what he expected, but now Sophia suddenly appeared.

"You also know that we are from country H, from the army."

In this case, it is impossible for us to kill anyone easily. Even if you just said that we have certain immunity, we will not be able to kill people like this.

Xiaolan, if he is a traitorous spy, he should be sent back to his home country to deal with him.

Instead of us arranging his life and death here, we have no such right. "

Sofia said with a sneer from the side.

"Qin Yuan, I really didn't expect you to have such big ideas. Considering these things, I really have nothing to say."

However, many problems are indeed different from what we imagined. If you want to continue talking like this, then I think it is really meaningless.

Most people may really be thinking about completely different situations than we are, but you have to think about your own conditions.

Xiaolan, his identity as a spy.

Although it has been completely exposed so far, it is really impossible for us to send him back to his home country.

I don't think you should have such thoughts. Although Efitt is generally using him, he also has a lot of clues and evidence about Efitt.

It is impossible for Efite to give up on Xiaolan so easily. I hope you can understand this. "

"Of course I can understand it, but these issues are indeed more complicated and troublesome for us now. If you want to cooperate with us, you have to show sincerity."

"I think I have been very sincere, but I just don't understand what kind of sincerity you want?"

Qin Yuan, he stood there and stared at Xiaolan, never speaking, because he was thinking, he was thinking quickly, and wanted to solve these things in the shortest possible time.

"Jason, what I want most right now is for Jason to answer me safely."

After Sophia listened to Qin Yuan's words, he was completely silent, because he knew that this was an absolutely impossible thing to accomplish.

For them, it would be even more difficult for Jason to successfully come back than to kill Xiaolan. This was an impossible task.

Chapter 2177: Don't act in a hurry

Sophia came in and talked to Qin Yuan. After they talked about this matter, Qin Yuan, each of them was very confused.

They knew what attitude they should use to deal with this matter next, but they also knew very well that no matter what the outcome was, it would not affect their decision.

"Okay, now that I've said that, I don't have anything else to explain. As long as this matter is resolved, there is nothing I can do to make everyone feel uncomfortable."

"Sofia, since you have come here to tell us these words, I must also tell you what our truest thoughts are in our hearts.

In fact, we have told you many times at the beginning. No matter what, you must tell the truth in front of us. Don't think that we are deceiving you, just like you are deceiving us.

But now this is actually not the case at all.

According to what I know about you, although the relationship between you and Azhe is relatively good, it is absolutely impossible for you to come and confuse us. In this case, we will not allow this to happen.

Miss Sophia, these problems are very obvious now. If you continue like this, there will be no good consequences for anyone. "

An Ran looked at Yan Sophia from the side. He was tired now and really didn't want to talk to him anymore, but this guy kept pestering An Ran.

"He Chenguang, you should already know his identity as a spy by now. In this case, you must not do anything to alert the enemy.

I have told you for a long time about the importance of this matter and what you can do next. You have to think about it slowly. You must not ignore it.

To be honest, Azhe has already told me that no matter what, he will help you deal with Xiaolan's problem. "

At this time, Chen Jixiang thought of something more important.

"Sofia, I don't know that coming here to say these things to me is probably because I don't want to help us enough. I still have to tell you the truest thoughts in our hearts.

If you want to help us, we don't necessarily need your help. Although there is a spy around us, we have no real evidence of this. We can't believe the things you learned by eavesdropping on us. .

You have deceived Sister An Ran not once or twice. Now that you are saying this in front of us, do you think we all will believe you? Even if Brother Qin Yuan believes in me, he won't be able to trust you.

Sophia, you are a very insidious and cunning person, so don't say these things in front of us. Now that these issues have been stated openly, you should just admit it and let us go. "

Sophia sneered from the side and said to Qin Yuan.

"Qin Yuan, I have always thought you are a very smart and cautious person. Now that we have come to this point, I think there is nothing to hide from you.

Do you really think you can come and go freely in this club without my help?

I also know that you have left our club more than once. I don't need to tell you where you went. "

"There's nothing more to say.

It turns out you already knew..."

Qin Yuan is now in a very confused state. He originally thought that he had blocked all signals by using the system. So how did this guy know?

Could it be that this guy has been following me secretly?

"Sophia, I know that we are considering this issue from different perspectives. We cannot say that you are selfish or have done something unethical.

It's just that it's really inappropriate for you to sneak around and follow me. I think I should have some rights of my own, rather than having you say something to me next to me.

Well, now that I have decided these things I don't need to think about anything else. As long as these are all settled, I don't believe we will have any other ideas.

What's more, we've already come this far, so if you have something to say, just say it directly.

There is no need to beat around the bush with us here. I don't like to say this in a roundabout way, because it doesn't make any sense. You should be able to understand what I mean by these words.

In this case, just say what you want to do.

Whether you are helping Mr. Noman Karim or Azhe, as long as we have common interests, we can handle our relationship well. I don't need to explain this to you so much. "

"Okay, Qin Yuan, after all, you can be regarded as a relatively happy person. Okay, let's talk this matter out to each other. No matter how we solve it, I will give you a plan, that is, you don't have to worry so much. .

I came here today with no intention of revealing your words to anyone. In the final analysis, I consider things from your side.

You have come to Pakistan. In such a long time, I have never heard any explanation from you. I also have to slowly consider the next decision.

For a long time, we have indeed not considered the issue so thoughtfully, but now we are absolutely not allowed to do anything excessive.

I've told you that Xiaolan must be dealt with, and the sooner we deal with him, the better. "

At this critical moment, An Ran thought of a particularly important thing.

This may not be what he really thinks in his heart, it's just because he doesn't believe Sophia.

"Qin Yuan, no matter what Sophia said, it is absolutely impossible for me to have the same idea as him, because I know the importance of this matter.

Xiaolan, his identity as a spy has been exposed. If something happens to him at this critical moment, do you think we will alert him?

He Chenguang, who has been with you for so many years, still has some acumen, and after all, he is also a spy and has received professional training.

This means that if there is any trouble around him at that time, he will definitely be able to discover it immediately.

It is impossible for us to seize this point and act accordingly, so there is no need to say anything more at this point.

Let's just settle these things. I don't care what other people think. I don't care that much.

As long as you all understand, I can't possibly think otherwise.

In this case, I have nothing to say. You should just take it one step at a time. In this case, we can only consider this aspect.

We can't control so much what other people think, we can only control ourselves, which is more important than anything else.

If you have any other ideas, say them directly. Of course, I am just providing you with an opinion. It is your business not to adopt it.

Don't think that the advice I provide may be difficult to implement.

You just suspect that I am here to cause trouble for you on purpose. It does not do any good for me to cause trouble for you, because it may threaten the safety of the people around you.

In my heart, I am quite clear about these things. No matter what happens next, you must listen to me. I can't control so much what other people think.

That being the case, I have nothing more to say.

Let's think about other things. These are just the problems in front of us. It is naturally good to be able to solve them, but it is not possible to solve them.

We don't have any other options, so you should understand what we are going to do about these things now, right?

Also, no matter what happens, we have to think carefully about what we should do next.

There is a Xiaolan beside Mr. Norman Karim. Do you know why he has never been reused?

It was because I had always doubted his identity that I threw him into this club. I am telling you these words from the bottom of my heart.

I just want to provide you with some useful advice. Even if you doubt my words, you must not doubt my sincerity.

This is enough for me and you to analyze these things. Xiaolan's identity is rather suspicious.

If you go to deal with him personally, you will definitely suffer your own consequences. When the troops return, you will have to undergo endless investigations.

In fact, according to you, it doesn't matter if someone in your army kills a spy.

However, I don't want you to get your hands dirty.

Such an investigation will cause endless troubles, and with a personality like Qin Yuan's, it's probably easy to offend people in the army.

You are a younger version of Fan Tianlei.

In this case, you have to consider how to solve this problem in the future, so in order to make you believe that I have given you a very good idea.

Just use Mr. Norman Karim to get rid of this guy Xiaolan.

If you really know, if you have any other ideas, you can also have some definite answers because of this matter.

After you go back, you will not be subject to endless investigations.

I decided to use the anime Mr. Kalim to deal with Xiaolan, the spy. I don't believe that we can't even solve this matter, so what else can we talk about. "

After Sophia said these things, Qin Yuan and the others were indeed very surprised.

Every word and sentence he said was for Qin Yuan.

They were thinking that this guy was really sincere and wanted to help them. Qin Yuan was suddenly at a loss.

"Sofia, it seems that you already know Xiaolan's true identity. Now that you have this evidence, why don't you get rid of him earlier.

If this scourge stays with you, it will still cause you a lot of trouble. Should you keep him here and wait to deal with it today? "

Sophia glanced at An Ran, then smiled helplessly beside her.

"An Ran, I can't control so much other things, but I can definitely have a larger say in this matter.

In fact, I don't have the ability to predict things at all. I just know that Xiaolan is a problematic person, but I didn't know that I would run into you people one day. "

The boy Chen Jixiang seemed to have suddenly enlightened when he heard Sophia say this, and he smiled beside him.

"It turns out that you are really the mastermind behind this, and you are the most powerful person. You have already known that Xiaolan's true identity is so shady, but you have never exposed him."

It was only then that Sofia told them the truth.

"You must not forget who Mr. Norman Kalim is. He is also from the army. He is already used to the characteristics of the spies around him. He once told us.

These spies all have a special smell, so she can tell the He Chenguang next to you at a glance. "

After Qin Yuan heard what Sophia said, he smiled bitterly beside him. Find the bookstore
www.zhaoshuyuan.com

"Actually, I don't know what will happen next. In the end, Mr. Norman Karim is indeed more skilled than Thor.

He Chenguang has been with Lei Shen for so many years, and no one has ever doubted his identity.

And you have revealed all these things in just a few words, which means that you are indeed very amazing.

At this point, I have nothing to explain.

However, you all must solve all these things and don't let them worry about many problems.

Indeed, we have already said this, but we should not just ignore this matter.

This is of no benefit to us. Since we have all said this, he should quickly find a better way to solve it.

Moreover, after I have told you these things, I hope you can seriously consider how to solve it.

Staying here for one day will only destroy our plan more completely.

Because he is not only a spy, he also has an improper relationship with Efit, and the two of them have maintained contact for so many years.

These are all in my hands. In fact, ever since Mr. Norman Karim asked me to investigate Xiaolan's identity, I already know that he is not a simple person.

I also already knew that he was a spy, and even more aware of the secret connection between him and Efit.

The reason why I have never recorded it is because I am waiting for this day.

Only if I use my identity as a spy in a fair and reasonable manner to seek more benefits for myself can I consider such a good resource wasted. "

Chapter 2178: Use the method of killing with a borrowed knife again

Chen Jixiang is also a smart person.

After Xiaolan finished talking about these things, first of all, he was not too surprised. Secondly, he lamented that Sofia was really too ruthless and wanted to use borrowed knives to kill people.

"Mr. Norman Karim, did you ever ask you to investigate Xiaolan's identity?"

"Of course, he has been able to dominate the country of Pakistan for so many years. Do you really think that he did it entirely through these means? He is a very shrewd person, but he must investigate everyone around him clearly. Only then can you rest assured.

Xiaolan, he came here from the United States. Not to mention whether there is any relationship between him and Efit, even if he is a spy, it will not be of any benefit to us.

At the beginning, Mr. Norman Karim suspected that Xiao Lan might be Efit's man, but by chance, the two of them did collude together.

I already have all their evidence. You don't have to worry. If you want to get rid of him, you don't have to resort to murder. I will submit these evidence to Mr. Norman Kalim at the appropriate time and he will clean it up himself. portal. "

After Sophia finished talking about these things, Qin Yuan and An Ran looked at each other.

"Sofia, the fact that you were able to tell all these things in front of me really shocked both of us. Aren't you afraid that we will think you are a difficult person to get along with and start to have some doubts about you? ?"

"I don't care at all about people who are difficult to get along with. In fact, I already have a definite answer to this matter in my heart.

No matter what other people think about it, it's not something I would think about.

However, many things did have a definite answer before, but there is no suitable result until now.

If you think so, do we have any definite answer?

We can only make these clear. If you have any other ideas, we can also say it better, but these problems now are indeed more difficult.

Let's get rid of Xiaolan first and then talk about it. Only after getting rid of her through the hands of Mr. Norman Karim, He Chenguang, the spy, will not have any doubts.

We can all get rid of our own identities, and Norman Karim can also have a better and more satisfying idea.

This is simply killing multiple birds with one stone. Instead of doing such good business, why do you have to choose those not-so-good ones?

It was right for me to come out in time to stop you, otherwise you would all have to adopt some more extreme methods.

I know that you are worried about Jason, but I can tell you in the short term, nothing will happen to Jason, but in the long run, he may not be able to save his life.

Mr. Noman Kalim will definitely deal with his words,

At this point, you don't need to have any hope at all. I can tell you now that I have met too many people around him for so many years.

If he hadn't been so merciful, the entire sea might have been filled with people. "

Qin Yuan knew that after this bad news, he simply couldn't accept Jason now. In the end, he took this road for himself, although Qin Yuan had some mental preparations that this was a dead end.

But watching his good brother die, he still couldn't do it, so he made up his mind and made a bold decision.

No matter what, we must save the marriage. Since we want to save Jason, we must discuss the conditions with Azhe again.

"Qin Yuan, don't think that since you have known Azhe for such a long time, he will help you in some ways. If there is a way, he will not let me come to you..."

"What do you mean, do you mean that Azhe asked you to come here to find me?"

"Of course, he asked me to come here. Otherwise, I wouldn't have taken the initiative to tell you these things. In fact, I have always wanted to hide my identity.

But when he saw that Hassan was about to be killed, he was completely panicked.

Jason, there is no way he can evade this next mission, either he will die or Hassan will die. "

Chen Jixiang, this guy has a lot of clever ideas. He suddenly thought of a good idea.

"Brother Qin Yuan, I have a good way to save both Hassan's life and Jason's."

Everyone heard that he had such a good idea and quickly turned their attention to him.

"You have such a good method, why didn't you tell me earlier? We are all struggling here, and there has been no good result for so long. Tell us quickly. Let us hear what is going on? Is it you? It's nonsense here."

"How can I talk nonsense? In fact, I have been thinking about this issue for a long time. Ever since Jason joined Mr. Norman Karim's camp, I knew that he would definitely be embarrassed.

Instead of letting him kill Hassan, it would be better to let him take the initiative to kill Hassan. "

"What do you mean by this? Why do I feel a little unreliable?"

"Let Hassan fake death!"

"What?"

After everyone heard Chen Jixiang's bold idea, everyone was at a loss and even felt that this kid was simply daydreaming.

Especially An Ran, who shook his head helplessly beside him.

"Chen Jixiang, what's going on with you, a thief? Have you watched too many TV series?

How could a situation like suspended animation exist? We are all people who have learned modern knowledge, how could we be deceived by such a small trick? Especially someone as smart as Mr. Norman Karim. "

"You don't know this. There is a saying that we have seen strong winds and waves, but we capsized in the gutter.

We can use this to deal with Mr. Norman Karim. He may not have thought that there would be such a result. The most important thing is that he would not have thought that Azhe around him was also lying to him.

As long as he trusts Azhe, it will be very easy for us to do whatever we want. We want to make Hassan fake death, but we just need a special medicine. "

Qin Yuan, he said expressionlessly from the side.

"I know that the United States is known as the most developed place in the world in medicine. If there is such a special medicine, you have to go to this place to find it."

"That's right.

If I remember correctly, doesn't Miss Sophia have a private hospital in the United States, and you know their assistant director Harry.

In this case, he can help you, he can help you get special medicine, and he can also help you get some medicine to fake death. "

"Chen Jixiang, I have to say that you are a bit smart, but this matter is a little too beautiful.

In fact, it is not just what we consider, but many problems may be different from what we expected. If this is the case, we have to consider other things.

Perhaps, in the eyes of many people, they just thought of this, but there is no definite answer, but you should not do this either. This is disrespectful to people. "

"I didn't have any other thoughts, I just thought of this.

I admit that it is indeed a TV series and I have watched it a bit too much, but this matter will never be so impossible for Hassan and Jason. One of them must die.

If Jason fails to complete the task, I'm afraid Mr. Norman Kalim will have to deal with him personally. Then it will be even more difficult for you to arrange for him to fake his death. "

An Ran looked back at Sophia, her eyes full of expectation.

"Don't look at me like this. In fact, that private hospital is not just my own. I just manage it on behalf of Mr. Norman Kalim.

If he really had any suspicion about me because of this, it would be impossible for me to get this medicine, and there would be a discrepancy record every time we get the medicine.

Do you remember the last time you asked me to help you find a special medicine to treat Professor Fangde? I really helped you find it, and I didn't want to deliberately reveal this matter to Mr. Norman Karim.

An Ran, now that I have said this, I have to explain to you again that I did not intentionally lie to you here because there are too many people involved in this matter.

There is a lot of valuable research in the United States, so he has to read every record that goes in and out of the warehouse every day. It is very difficult to take these medicines away from his hands.

Even if the relationship between Harry and I is relatively hidden, they don't know that the two of us have been secretly communicating behind our backs, and there is no way he can come up with this special medicine.

The last time he helped me secretly get special medicine, he was accidentally discovered by Mr. Norman Karim, so he discussed it with me directly and the two of us decided to expose the matter.

Therefore, we can keep our own safety. An Ran is sorry, I shouldn't use you like this, but I ask you to believe that I will never deliberately take credit for your things in front of him. "

After Sophia finished explaining these things, An Ran felt a little unbearable next to her.

"Okay, as long as you explain this matter to me clearly and understand it, I won't argue with you anymore. What I hated most in the past was being deceived by others.

Sometimes I even doubt my own judgment. You clearly regard me as your best friend, why would you betray me for your own interests?

Now that you've explained it, everyone has their own time.

Let's just write off all the things you told me today. No one of us should embarrass the other. In fact, everyone has difficulties. It is more important for everyone to understand each other. "

After Sophia heard what An Ran said, he was very moved now, but it was too difficult for him to get something that could stop the pulse and heartbeat and then save them.

Immediately afterwards, An Ran turned back and glanced at Qin Yuan with a very expectant look.

"I think Chen Jixiang's plan is quite feasible. Apart from this, we have no other method. If we can rescue them, these two hostages still need a way to return."

"How should we go back?

If nothing else happens, I remember that there should be an embassy of country H in Pakistan. If we can go back through their formal channels, no one will catch us. "

"It is absolutely impossible for you to go back through the embassy. Our troops have no right to mobilize their resources."

"Qin Yuan, you really don't understand Du Bingbing's ability when you say this. He is a very powerful person. I heard that one of his uncles works in the embassy.

As long as we can contact our embassy through him, we will have an open and honest shelter, and everything can be brought back smoothly. Find the bookstore www.zhaoshuyuan.com

Whether it's spy He Chenguang or your best brother Jason. "

After Sophia thought about it for a long time, he also felt that this medicine sounded outrageous, but it was not necessarily impossible, but they were not in the medical field.

Maybe he didn't know much about this aspect at all, so he might as well consult Harry first. If there really was such a thing, he would try his best to get it.

"An Ran, I already know this matter very clearly. If you have any other ideas, I won't be able to give you a definite answer.

But I can help you consult. If there is such a special medicine, I will help you find a way to get it, and this special medicine is not necessarily only available in our private hospital.

As long as it does not go in and out of the private hospital through our private hospital, I believe Norman Karim will not find anything. This is also possible.

An Ran, the last time we didn't get the special medicine for you, it was because that special medicine was only available in our private hospital and was not available elsewhere.

If you want to achieve this effect of suspended animation, I think the spy organization is likely to have this thing, because this is what they often need. "

After Qin Yuan thought about it for a long time, he felt that the United States was indeed more developed than Country H in some aspects, especially in the medical field, so things that he had not heard about in China were not necessarily the same in the United States. No.

So, Qin Yuan turned around and said to Sophia.

"I know that this thing is very likely to be fake and exists entirely in our imagination, but I hope you can try to help me find it. If you can succeed, I will be really grateful to you. "

Chapter 2179: Conspiracy

After Sophia finished talking about these things, Qin Yuan felt that his idea was too bold at first. If he followed this plan, he would mobilize a lot of connections and resources, and not everyone would necessarily cooperate.

An Ran also knew that this matter was indeed bold, but he was not sure.

If they deny this matter, they will have other opportunities, so he still felt that after thinking for a long time.

Even if it is impossible, try to do it. You must not leave this opportunity to others.

This has reached a critical moment. Fan Tianlei has completely ignored this matter and can only let them solve it themselves.

Chen Jixiang is a kid who is bold in thinking and doing many things when he is young.

However, before Qin Yuan does anything, he must consider many factors. If he fails, everyone may be in doom.

At this critical moment, Chen Jixiang suddenly thought of a question.

"Brother Qin Yuan, when we were communicating with Azhe just now.

They said that He Chenguang had already returned to our club, and if we delayed any longer, he might discover our traces.

By then, all plans are likely to fall apart.

How about this, I'll go back first and pretend nothing happened. I'll hold him steady and don't let him notice any factors.

After all, this is indeed a serious matter for me, so after considering these problems, I also thought that I should not indulge in this anymore.

I should become more mature. I shouldn't have to listen to your arrangements for everything. If it comes out like this, I will be like a burden.

Not only can I not help you, but I am asking you to consider my safety before considering anything.

Rather than doing this, it would be better for me not to come here, and instead cause you trouble. "

After Qin Yuan heard what Chen Jixiang said, he felt a little uncomfortable.

I used to think that this kid was more lively and smart, but I never thought that he was such a thoughtful person. The more situations there were, the less I dared to say anything casually in front of him.

That's why I think about it so much.

After listening to what he said, Qin Yuan knew that he had to comfort him as soon as possible, otherwise he would think more about it, which would be detrimental to their relationship.

"Chen Jixiang, what on earth is going on with this kid?

Why do we have to consider so much?

I have never said that you are a burden. In fact, I am willing to take you out because of your advantages rather than your shortcomings. "

An Ran glanced at Sophia. Although the things they just said sounded a little unreliable, they must not delay everyone's overall plan just because of this.

"Sophia, it stands to reason that you have already deceived me once.

There is a saying that once you are unfaithful, you will be disloyal a hundred times.

However, I still choose to believe you this time. I hope you will never let us down. We have really blocked our lives. If you want to lie to me again..."

When An Ran said this, he stopped.

Because he didn't know what kind of cruel words he would say, but these things were already very obvious to him. If there were any other problems, he seemed to have no chance to retaliate against the other party.

Therefore, after considering these things, An Ran also felt that Qin Yuan had chosen to believe Sophia.

I can only trust him once without any reason.

"An Ran, I admit that I did consider these things in the past, and they were a bit careless, but I never thought it would be such a result.

First of all, I still hope you can trust me, otherwise I won't be able to face any other problems alone, actually until now.

I still feel a lot of guilt for deceiving you, but I can't explain too much.

I know that even if I explain, you will think that I am quibbling.

Therefore, I think sometimes actions may be more important than admitting mistakes. As long as I show these actions, I believe that one day you will be able to trust me again.

In fact, all my life, I have been with Mr. Norman Karim, and I have never had a true good friend except you.

I sincerely regard you as a good friend. In fact, I am also very uncomfortable with your deception.

The last time Mr. Norman Cali took out these special medicines, I was completely confused. I never thought that he would do it so decisively.

Because these special medicines are very valuable, he is basically involved in the decision-making and production alone.

We are all just watching from the sidelines. Instead of thinking about this aspect, we should think about other special medicines that may only be available in this private hospital.

Moreover, his prevention and control is very strict, so I can't help you take it out. I have contacted Harry privately more than once, and he has promised me some relevant things.

If there was a way, he would definitely quietly get some of these special medicines, which were considered scarce resources and could not be bought even if he had money.

Fortunately, the Du Bingbing you know is a very powerful person.

I don't know where he mastered a large amount of medical resources. He tried every means to get medicinal materials from there. In the entire world, only that country has them, and they are not available elsewhere.

Therefore, after considering these issues, I must tell you that if you want more specific medicines, I cannot promise them to you.

However, for the medicine I mentioned today that can make people fake death, maybe I can try to find Harry, he has already promised me.

In fact, there is one thing that I have been hiding from you.

I have already made a plan to fake my death. As long as no one finds me, I can leave here quickly and do my own things. "

After Qin Yuan heard this, he asked with some confusion from the side.

"Sofia, you went to find this medicine in advance. Do you really want to leave Mr. Norman Karim?

I really don't understand this matter. Although following him may not necessarily lead to a righteous path, at least your status will not be affected in any way.

It is also because you have such rights by his side. If you leave him or betray him, unless you can achieve 100% success.

Otherwise, this is no different from your own death. I don't know what you and Azhe are thinking.

What kind of relationship do you two have? That's why I am willing to care about you two as friends. I think this matter is too dangerous.

This is not much different from walking on the edge of a cliff. You should know better than me what kind of person Mr. Norman Karim is.

He has always been cruel to people who betrayed him.

What kind of means he will use to deal with it, I think you can understand it without me having to say more, so now that I have told you these things, I must remind you that no matter what kind of person you encounter next, the result is that you Everyone has to accept their fate.

You must not continue like this. There will be no better opportunities and choices for you.

Anyway, that's all I've said, but if you are really single-minded and determined to do this, I won't be able to stop you.

After all, this is a matter between the two of you, and I already regard you as friends.

I know that Azhe knows the specific locations of the two students taught by Fang De, and he must use relevant methods to exchange benefits with me before he can tell me.

As long as I don't step into the gray area and don't violate our bottom lines, I am willing to do anything.

Now it seems that he must have had his own terms of exchange, which is to let me rescue Hassan safely.

On this point, I can completely agree to follow your words.

If I can find this kind of medicine that allows him to fake death, I can successfully rescue Hassan.

At the same time, Jason was also rescued. Now that this happens, I can't predict the next move.

In fact, there is no need for Jason to stay with Mr. Norman Cary.

Because Azhe was able to provide me with all the information he could collect in detail. Now it seems that Jason has done all this.

It just proves that the brotherly feelings between him and me, to put it harshly, may not have any substantive meaning, and it is not enough that I still remember his kindness to me and dare not forget it all the time.

Just like people can't forget their roots. After thinking so much, I have nothing to say.

Let's act in this way. I believe there won't be much time left for Jason, and Mr. Norman Kalim will definitely urge me quickly.

He hurried to kill Hassan. Since this is the case, it means that we don't know when we will be able to successfully solve these problems.

Rather than this, we can only endure this silently. "

After Qin Yuan finished speaking, after these things, none of them thought that they would be in the state they encountered, except An Ran and Chen Jixiang.

One thing they were sure of was that this mission would be over soon.

After returning, it is uncertain how they will deal with the American spies, and there is another very important thing.

All their current plans must be updated and reported to Commander Du Bingbing.

Du Bingbing has been watching by their side. Although everyone's ideas have been very different from his for a long time, now he has actually replaced Fan Tianlei.

He will only be locked up in this position. No matter what kind of plan he has, he must be told.

An Ran, thinking of this, he had to remind Qin Yuan.

"When we were on the phone with Thor just now, Thor basically explained everything clearly to the two of us, so since he has already planned to give up the position of commander.

Doesn't it mean that we have to report to Du Bingbing before taking action? If he doesn't agree with our plan, then I don't know what to do next.

Although, these questions are definitely a difficult thing for me now.

However, I also know more clearly that we have to try to do it. Even after reporting to Du Bingbing, he will not agree that we still have to do it.

Because this matter is our responsibility and obligation, and it is also an iron-clad regulation in the army. You should know it better than me. "

After Qin Yuan heard An Ran's reminder to him, he was also very moved next to him.

He knew that since An Ran had made such a decision, it was all because he cared about himself. Du Bingbing was a person who was particularly prone to making troubles, and he cared very much about his current identity and status as deputy chief of staff.

If you don't report these things to him, you will have no way to explain it after you go back.

In particular, look for Shuyuan [www. zhaoshuyuan.com](http://www.zhaoshuyuan.com) If people like them who come from other countries to complete their missions go back, they may have to undergo endless investigations.

Since they are going to be investigated, it means that they need a superior like Du Bingbing to write a relevant investigation report for them. This shows their attitude towards handling this matter. To put it bluntly, they still want to ask for help.

At this time, Qin Yuan showed some impatience.

Chen Jixiang also saw it.

So, he quickly persuaded Qin Yuan.

"No matter what happens today, we have to talk to Du Bingbing.

If he doesn't agree to the problems we are encountering now, we all don't know what will happen next.

Therefore, this is completely a risky behavior. Since this is the case, I have nothing to say, as long as we all solve these things.

I don't believe there will be any influence on our decision.

Rather than this, we might as well think about other things. If this is solved, I can determine what kind of situation they will be in next.

So, now that I have said these things, you should understand the truest feelings in my heart.

What Sister An Ran said is very reasonable. Even if you don't want to report it to him, you still have to consider the situation where people have to bow their heads under the roof.

Du Bingbing has always been a very cautious person and will never allow others to question and betray him.

If, because of this incident, there is some unpleasantness between him and you after you go back.

You have to work under him. Although Fan Tianlei has been protecting you in the past, his position as chief of staff is now in name only. "

Chapter 2180: Acting with each other

After returning, it's not certain whether he can still be in this position.

You have to think carefully about your own future. You can't be so impulsive in life and work. Plus, Jason helped us this time.

After I go back, I will definitely be gossiped about by others again.

Jason's daughter is still in the hands of Du Bingbing. You have to think carefully even for these children.

Don't let others think there is a big problem. This will be bad for all of us. Therefore, you should carefully consider the persuasion we are giving you now. Don't think that these are all nonsense. "

After Qin Yuan heard the advice given to him by Chen Jixiang, this brat.

He was also beside him, shaking his head helplessly.

He never imagined that such an experienced veteran like himself would one day have to listen to the orders of a brat like Chen Jixiang.

So, having said so much now, he doesn't have any other good ideas. He can only solve the problems in front of him first.

After considering so many issues, they can only plan the next thing according to their current ideas.

Sofia is a very sensible person and saw them struggling with this matter.

He could only find a way to hide out first. After all, they were still discussing matters related to their mission. It seemed inappropriate to forcefully pry into their secrets here.

On the contrary, it would arouse others' suspicion, so after thinking about it for a long time, Sophia smiled and said to An Ran.

"An Ran, I don't care what other people think.

However, I have to tell you my truest thoughts. Now that we have considered these issues, we have to take the next step.

You guys should continue discussing how to report things to your superiors here. I will go back and resolve these matters with them first. Besides, I also understand that in most cases, it is indeed not optimistic for us.

However, now that this matter has come to this point, I can no longer choose to escape. It was Azhe who asked me to come to you. He is not afraid that his behavior will be exposed and he is not afraid.

I'm afraid of what kind of problems the two of us will encounter. He completely trusts you.

In fact, 100% trust is enough, so no matter what happens next, we have to consider these issues.

You must never decide something so impulsively. Since I have nothing to say about the current situation, it depends on what to do next.

If you all have nothing to do, I will make the decision alone, so now that I have said it, you should feel relieved. "

After everyone saw Sophia's attitude, they all knew that he wanted to hide out deliberately. In fact, Qin Yuan could also judge it by his attitude.

They should have no other ideas next, especially after they have already experienced these things, which is a very easy solution for them.

If anyone else makes irresponsible remarks, they will not be given a chance to do so.

Rather than saying this, it is better to let them think quickly about what they should do next, which would be a more appropriate choice. After considering the trouble they are in because of this matter, no one will mention it again.

At this time, Chen Jixiang also thought about what kind of difficulties they would face next.

He thought about it for a long time before speaking.

"Brother Qin Yuan, I have told you just now, but you have never taken my words to heart. In fact, this is the situation.

We must not be so optimistic. We don't know what kind of results will be waiting for us next.

He Chenguang, this guy is completely determined now.

He is not a person worthy of our trust at all. If this is the case, I have nothing to say. I can only wait for this matter to be resolved perfectly before we can all rest assured.

So, I have nothing to say now. As long as you all are sure, I can be completely relieved about this result.

You have already said that you don't know what to do about this matter, but I will never allow others to ignore so many details, as long as I am by your side.

I will definitely be attentive and serve you wholeheartedly. I can't care so much about what other people think. It's enough for me to only consider your truest inner thoughts. "

When Qin Yuan thought of this, he sighed helplessly.

"Oh, I have never considered that this would be the case.

I originally thought that this guy was trustworthy, but who would have thought that he really disappointed me. From beginning to end, he didn't even treat me as one of his own for a moment.

This kid has been in trouble all the time. If I am in this situation, then I have nothing to say, I can only bear it silently.

However, you all must remember that no matter what, you must never betray the people around you.

In fact, now that I think about it, it's quite ridiculous. This can't be considered a betrayal on his part.

Generally speaking, we just think about the problem from different perspectives. He has his own position and I have my principles. We all have different views and do not work together.

If we want to express resentment, we can only resent that the two of us were not born in the same camp.

Others may make corresponding changes for the sake of their good brother, but the two of us have completely different concepts and feel that he has his own superiors to obey.

Therefore, many things are also in a dilemma for him. If one day the two of us really explain everything clearly to the point, then

That means that our friendship has completely come to an end.

In fact, I don't want to force him to do something he doesn't want to do, and I don't want anyone to force me to do something I don't want to do.

But at the same time, what can we say.

These things are just destined. I have never regretted having him as a good brother. Of course, I believe the same is true for him.

The only thing to blame is that our two positions are completely different. I can't think too much about what others think. It's enough for us to just do our own thing well. "

He Chenguang has been standing outside at this moment. He has not returned to the club yet.

Because, he has discovered that the club seems to be lit all the time. Instead of doing this, he might as well wait for the other party to be completely silent before going back.

But at the same time, he would be a little anxious and entangled because he didn't know what kind of situation he would face.

If they waited until dawn before going back, they all didn't know what would happen. Instead of doing this, he might as well wait outside and wait slowly as a spy.

What he is best at is dormant, and what he is best at is waiting.

Only when the best time comes, can you act. You are not good at pretending, but you are good at making yourself more awake and blowing the cold wind outside.

Perhaps, it is a channel to make him more awake.

After thinking about it for a long time, He Chenguang looked up at the stars in the sky. At this moment, he might have thought of the little moments he had spent with Qin Yuan and every night he spent in the H national team.

He knew that he was getting closer to his hometown and closer to returning to the place he dreamed of most.

But the breakup of the brotherly relationship between him and Qin Yuan is getting closer and closer.

If he had a choice, he would never be a spy again.

Because this loss was too great. Without the constraints of this identity, he and Qin Yuan could have been the closest and friendly partners and friends.

Who could have expected that this would be the case now? None of them expected it, and no one had the ability to predict the future, so after thinking about these things.

They can only explain these things clearly first, and forget it once they understand.

No one should have any trouble following.

He Chenguang, after thinking of this, he shed tears silently.

"Seeing that they are almost asleep, I won't go back anymore. It's really too cold outside. Thinking of this, I really miss my bed."

So, after He Chenguang was talking to himself for a long time, he found that the lights above had been turned off. He felt that there was no need to stay anymore. Instead of doing this, he might as well think about how to quickly Find your way back.

He came to his window and he remembered lowering a rope.

At this moment, I saw someone I didn't want to see. This person was Efit. I didn't expect that this guy had been waiting for me.

"Efit?"

"He Chenguang, you should be very surprised to see me here at night. In fact, I am waiting for you here, so there is no need to feel any surprise."

"snort..."

I feel more hateful when I see you than when I see a ghost. Rather than seeing such a disgusting face like yours, it would be better for me to see a ghost. "

"He Chenguang, please don't say that. After all, Qin Yuan and I are relatively good friends, and we are both old friends. Why do we need to say bad words to each other."

"Effit, I'm telling you, you don't know that the sky is high and the earth is high. I have become good friends with you since then. You don't have to worry about thunder and lightning when you tell me this."

"We should have something to talk about between the two of us. I know where you went at night, and whoever revealed this to you is understandable.

I also have relatively reliable information. It would be rude if you refused to say these things in front of me.

So what will happen, don't blame me for being rude to you.

In fact, many things are just the most entangled areas in our hearts.

After you slowly let go of these things, you will most likely become enlightened.

Of course, you may feel that it is inappropriate for me to say this to you now, but you can also consider it slowly and carefully, and don't let others make things difficult for you. "

"I don't have anything to be embarrassed about. What's really embarrassing is that you all have this attitude and based on my understanding of you people, you completely deliberately revealed this news to me.

I want to put the relationship between Qin Yuan and me at a very tense point.

Since I have nothing to say in this case, I still have to tell you that no matter what happens, you have to think clearly for me. Don't blame me when the time comes. I won't be polite to you. "

With Effit beside him, he seemed to be confident.

"You don't have to say these words in front of me. As an American spy, the you I know now is not much different from the original you.

I also know what you did today. Do you want me to tell Qin Yuan all this? "

"What's the use of telling him? Anyway, I've made it clear to you about the current situation. If something like this happens again, don't blame me for being rude to you."

"You're not too polite. It's completely useless to tell Shuyuan www.zhaoshuyuan.com now, and I'm not interested either. No matter what happens next, you'd better think about yourself. .

How are you sure you went out Qin Yuan at night? They don't know, so how can you be sure that they don't know your identity as a spy? "

Although He Chenguang felt that Efit in front of him was talking nonsense to him, he also felt that it was excusable and that it was something more questionable.

"What you said does make some sense, but if Qin Yuan knew my identity as a spy, how could he say these things to me?"

"Don't you understand this? This is the great thing about Qin Yuan. He will not let you realize that he has discovered your status. He will make you punished.

He is going to take you, the spy, back to the army of Country H. When the time comes, he will take your credit and receive the reward. What are you still doing here pretending to be? "

He Chenguang, after hearing what Efit said, he was still worried.

But soon, he completely got rid of this worry. He felt that all these were his unnecessary worries, and even felt a little guilty.

If he hadn't felt guilty in his heart, he wouldn't have doubted Qin Yuan.

"Efit, what on earth do you want to tell me? That girl named Xiaolan upstairs should be yours, because you let her sow discord in front of me.

No matter what happens, it's impossible for me to tell him my true identity, even if you already know it, but you don't have any evidence. "

"Who told you that I don't have the evidence to prove that you are a spy? I just don't want to show it because I think you are still valuable."
