

Special Soldier 2191

Chapter 2191: Reveal this woman's identity

Azhe picked up the pistol and pointed it at Effit. Although he also wanted to scare the other party, the other party did not look afraid at all.

At this moment, he felt very defeated, and it seemed that his position was destined to be taken away by the person in front of him soon.

He was very afraid of losing the trust of Mr. Norman Kalim, and even more afraid of losing his important position in the group.

The most favorable competitor to him now is this guy.

He has had so many problems now, so who knows if there are any other channels to learn about these things?

Therefore, these current problems are not easy for him to solve.

Many people have their own ideas. It is definitely not something like this that can make them relax all their vigilance. After thinking about it for a long time, Mr. Norman Kalim looked at Azhe and it was impossible for him to take action.

So, he stretched out his hand and waved it a few times.

After Azhe saw Mr. Norman Karim's signal, he also understood that he should not do this. While he did not take action, he would only give others more opportunities.

In this way, this guy Efit will laugh at himself that he should go now and notify Qin Yuan quickly.

Just now, I was thinking of going to coffee to inform Qin Yuan of this matter, but Effit kept urging me outside the room.

As a result, he did not have the time or opportunity to inform Qin Yuan.

But he also knew that this was very important information, and it was not to please Qin Yuan, or to really regard it as a good friend.

He only knew that only Qin Yuan could deal with this guy Efit, and he had to use his own means to inform Qin Yuan of this important news before he could truly help him.

Therefore, after thinking for a long time, since Mr. Norman Karim had already signaled him to put down the gun, he could no longer take any future actions.

Otherwise, if you go against the leader's wishes, you will become very miserable, and you will have to pay the price for it.

Generally speaking, this kind of thing is nothing special to him. He must find a way to solve it himself to reassure them all.

Therefore, after thinking about it for a long time, there was nothing more to say. I could only watch the people in front of me and take some actions of my own.

Instead of letting others slander him all the time, it would be more appropriate to let him explain these things clearly and understand them for a long time.

Since he is no longer so optimistic about these things, he must find a way to let everyone know.

Therefore, many problems are not easy to solve for the two of them. The more they are in this situation, the more they have to relax their vigilance.

At the very least, no one should know what they have done to bring Mr. Norman Kalim back.

Seeing Ah Zhe look so angry, he also knew that he had to control Ah Zhe's emotions first, otherwise Ah Zhe would do something excessive.

The Efit plan may be cancelled.

In the final analysis, even if he wanted Efit to join him, he had to consider Azhe's mood, or that he had been following him for so many years and had helped him do a lot of things.

You can't completely ignore Azhe, but considering Azhe's situation, Efit will definitely have some thoughts of his own.

At this moment, he also knew that there was no room for the two people to unite, and a choice had to be made between the two of them.

But now at the same time, these things are not so easily accomplished.

Azhe knew very well that he had two purposes now. One purpose was to get Hassan out of these dangers, and the other purpose was to let Qin Yuan successfully take away the two hostages.

After all, the exchange of interests between him and Qin Yuan had to be done, even if he was unwilling to give up these two arms experts.

However, until now, Azhe suddenly thought of an important thing, that is, he seemed to be the only one who knew where these two experts lived.

Suppose that if something goes wrong, the first person Mr. Norman Karim will suspect is himself.

At the same time, Azhe also came up with a very good idea, which was to expose the locations of these two people to Efit. If these two good people really ran away one day, he could blame Efit for everything. Fate's head.

He can be perfectly invisible, because, at least he thinks that until now, he has no capital to compete with Mr. Norman Karim.

Therefore, he was particularly opposed to Efit joining this group just now. When he was always afraid of threatening his position, he suddenly figured it out. After this, he felt that the joining of this person could bring him more benefits. Opportunity.

Therefore, he also relaxed his attitude a little beside him. He was not as nervous as before, and he didn't need to explain his purpose to everyone.

This matter is definitely a good opportunity for him. If he seizes this opportunity, he will not need to make others anxious in the next step.

Azhe slowly put down the pistol. Effit also knew that this man would definitely not harm his life. This was certain because he did not dare to betray his boss, Mr. Norman Karim.

"Azhe, I said you are really interesting. You are just wasting your time with me here. I have made it clear to you. No matter what kind of problem occurs, no one can take my place. .

I can provide Mr. Norman Karim with more information about old K, can you? "

After hearing this, Azhe understood that this person was definitely provoking others in front of him. No matter what happened, he had to make him understand that no one could take his place.

"Effit, When he was in Country H, Qin Yuan looked down on you very much.

I think there must be a proper resolution between the two of you, but after going through these problems, I have to tell you clearly and understand that you still have big problems. "

"Azhe, the two of us are discussing how to realize our own value in front of Mr. Norman Karim.

Instead, I want to discuss the relationship between Qin Yuan and me with you.

Although, I have to admit that the relationship between Qin Yuan and I does have a big problem, because there is no tacit understanding between the two of us. "

"Qin Yuan is a very smart man. If you don't get a better opportunity by following him, then I can only say that it is your own problem.

Next, no matter what happens, you have to find ways to solve the problems in front of you.

Effit, don't think that others can listen to you whatever you say or do. You are definitely not able to think clearly about these things now.

Although you must have a good idea for most of the following situations, you must also think about these issues clearly before proceeding.

Chapter 2192: Advice No. 1

After Efit heard this, it was a huge humiliation for himself. He was unwilling to face such a fact, so after thinking about it for a long time, he sneered.

"Azhe, you don't have to always blame Qin Yuan. Even if Qin Yuan is excellent, what can he do?

He has not joined your camp, and you are just wishful thinking. I don't want to tell you too much about many things, because I feel that it doesn't make much sense to tell you too much.

However, you must think carefully about this issue now, how to deal with my relationship next, now that I have decided to join your camp.

It just shows that no matter what happens, I will definitely not regret it.

There is nothing to say about this matter. I hope you all can understand, so the questions are now very clear. If you really have something to say to me.

Now I can say it directly, Mr. Norman Karim, I also want a definite answer from you whether you really want me to join your group.

If you want to, you can just say it, and I will join your camp at all costs.

However, if you don't want me to join and are still here to deceive me, I think such a thing may not make much sense and will only waste our mutual time.

Let me tell you the truth, I am indeed at the end of my rope.

I don't know how to answer Old K anymore. As he gets older, his temper is getting worse and worse. If he knows that I lost this batch of arms, I don't know what I should do. How to face him.

Because this batch of arms was what he needed to get very cautiously, but I used this batch of arms to frame Jason and Qin Yuan, so I fell into your trap.

I admit, you are indeed much better than me. These things are all within your calculations. It's because I didn't think clearly that I am no match for you at all.

Now I have taken the initiative to surrender. If you are willing to accept me, I will definitely help you at all costs. But if you are unwilling to accept me, then I can only say that I am disturbing you today, and you should treat me as not coming. Live it.

After I go back, I believe that Old K will definitely punish me, but he won't kill me. I just don't want to continue acting in front of him, so I will take the initiative to come to you.

I have nothing to say. Now that this matter has come to this point, I can only blame myself for not having any ideas.

Forget it, there's nothing else to say, that's all I want to say. If you think I'm not as good as Qin Yuan, and you want someone as powerful as Qin Yuan to join your camp, that's fine with me. It can be said.

After all, this is the truth. This is the only way we can do these things now. If there are other reasons, I can only say that it is my own problem and has nothing to do with you.

If you don't want me to join, I have nothing to say, but I have to tell you that doing so will indeed make you suffer greater losses. I am also a talent.

I, Efit, am not as useless as you think. Qin Yuan is very powerful, but when I was in Country H, Qin Yuan did suffer a lot under my hands.

Therefore, the two of us are now in a state of tit-for-tat, either you die or I live. "

After Efit said these things, Azhe looked back at Mr. Norman Karim, hoping that Mr. Norman Karim would not believe his nonsense.

"Mr. Karim, I think this guy is completely unreliable. He has said so many unreliable things in front of us now. He can betray old K, and he can betray you in the future."

"Azhe, you have always been afraid that I will join your group. You are afraid that I will replace your position as the second-in-command in the group. You don't have to be so guilty. This is based on ability. If you don't have this ability.

Even if I don't replace you today, sooner or later someone will replace you. You won't stay so comfortable next to Norman Karim forever. "

"Efit, what do you mean by this? Do you really think you are powerful?

You were pretending to be calm just now when I took out the gun.

Mr. Norman Karim, you always regard me as the most important, but I don't want to argue with you now, it's useless.

I have a lot of important things to do. It is Norman Karim who has the final say whether to let you join or not. It is impossible for me to interfere with any of his decisions. "

Efit turned back and glanced at Mr. Norman Karim. He had to confirm whether the other party sincerely wanted to let him join.

"With regard to Mr. Norman Karim and Jason, I can only say that I was a little impulsive.

I shouldn't be so anxious to use this batch of arms to avenge him for so many years of grudges and grudges between me and him. I didn't expect you to be really interested in this batch of arms.

In fact, for so many years, you have been tolerated by all parties, including the entire shipping business. How did I know that you would explode in an instant and completely break up with him?

If I had known that there would be these fights between the two of you, I would not have gotten involved. After all, it is called a fight between the kings of hell, and the little devil will suffer.

In the end, tool people like us are just chess pieces for your use.

Therefore, I can only say that reaching this point today is due to my own stupidity and has nothing to do with anyone else. I should bear the corresponding responsibility for this.

But I have to tell you that no matter what happens next, what I say must be sincere. I know that Lao K's side is no longer as good as yours.

So far, I finally know what is most important. I should choose some better people who can help my eyesight, instead of saying these words here without any basis.

Mr. Norman Karim, I can do whatever you want me to do as my test, because I know Jason also needs so many tests when he joins your camp.

Today, I have joined, so it is not normal to not have a test.

You can directly say that there is no problem in what kind of test you want to put on me to prove my sincerity. As long as I can do it, I will definitely perform it positively. "

Azhe said sarcastically from the side.

Chapter 2193: Let the two of them meet

Mr. Norman Karim, after hearing these things, he still has some doubts in his heart.

Although he had never believed Jason, he still believed that what he said was quite reasonable. However, at this moment, Azhe beside him was a little nervous.

He was ready to explain all these things clearly to Qin Yuan so that Qin Yuan could be mentally prepared in advance.

However, the current situation is definitely not optimistic for him, because they can't tell what kind of thing is happening on Qin Yuan's side for the time being.

And if this guy Effit meets his former good brother and now his enemy Jason, something might happen again.

This will be a very troublesome problem for the two of them.

"Efit, I don't think you should say these useless words here alone. After all, you and Jason were good brothers once, but now you take the initiative to say that this is not good and that is not good in front of all of us.

Have you never thought that Mr. Norman Karim may not be able to believe what you said after he knows these words of yours?

Now these things are not very optimistic for you. I think you should weigh them carefully.

What is right and what is wrong.

Don't let others take advantage of it. At a critical time like this, if you make a mistake, it will not be conducive to Mr. Norman Karim letting you stay.

Even if it is, he is already preparing to arrange a room for you to rest.

However, in the end, we are still not sure that we must let you stay. If it doesn't work, you have to go back first. Let us think about the next issues ourselves.

Anyway, it doesn't have much to do with you. I don't think you need to think so much here. "

"Azhe, what Mr. Norman Karim said just now is very clear. If you are unwilling to listen to him, I think your current position can be replaced."

"Efit, it seems that the two of us have different opinions and do not agree with each other. There is no need to say anything more to each other.

Because these things are already very obvious, no matter what other people think next, this will be a huge challenge for me anyway. "

At this moment, Mr. Norman Karim watched the two of them chattering here, and it could be said that they disliked each other. He also knew that these two people would definitely not work well together.

However, he still wanted to keep this guy, after all, Efite had been following Old K for so many years.

I still have great faith in his style of dealing with people and doing things.

The most important thing is that he has mastered many secrets of their group, which is a good thing that cannot be bought with money.

Therefore, instead of letting others have their thoughts on this matter, it is better to let them think about it carefully. If there are other people's thoughts, then they cannot let this aspect have more concerns again.

"Azhe, don't be so aggressive when you speak. Since there is nothing more to say about this matter, we have to find a way. If they have other ideas, we can only let others go. finished.

I have decided to let Effit stay again. I know you may have a lot of dissatisfaction in your heart, especially about this matter. "

"Mr. Karim, I have already told you that no matter what happens in the future, we have to think about it slowly. It's just that these problems now must be faced directly for us.

Qin Yuan, the situation over there is already very tense. I think if you have any other ideas, you can say it directly to avoid us wasting time here. "

After Azhe said these things, he wanted to leave and inform Qin Yuan first. After all, these questions were already very nervous for him, but so far, he didn't have a definite answer.

Mr. Noman Kalim has not let him go yet.

If Azhe finds a chance to escape, he will definitely arouse others' suspicion, which is not something he can accept.

Therefore, after thinking about it for a long time, he could only stand there and look at Effit's disgusting face to no avail.

"Azhe, you also arranged Jason's residence before, so I just want to think about what to do next. After all, these things now have to be measured slowly for us.

This guy Qin Yuan will definitely not help us. We have to find some solutions ourselves. "

This guy Efit heard Mr. Norman Karim mention Qin Yuan, and he became energetic.

"I think Qin Yuan is indeed a talented person, but he is unwilling to help you.

He only has Country H and Fan Tianlei in his heart, and according to my understanding, there were a lot of grievances between you and Fan Tianlei when you were young.

It's best not to let Qin Yuan join our group, as this will only cause you more trouble.

It is possible that instead of helping you, he will cause trouble for you, which will affect our overall plan. In fact, I know that what Mr. Norman Karim really wants is not these two useless arms experts.

What you really want is the resources in Old K's hands. You want to annex them, and you want to transfer all the industries to the United States. "

This Efit is indeed a smarter person.

The words he said were exactly the same as Norman Karim's truest thoughts in his heart. He already knew that these two arms experts did not have much use value.

The reason why he has been reluctant to let Qin Yuan succeed is entirely because he does not want Fan Tianlei to have such a big contribution.

Because he knows that the ranks in the army are very strict. If Fan Tianlei really achieves such a big gain, he will definitely be promoted to a higher level after returning, and it will be possible to become a commander by then.

This will not allow him to get what he wants. When he was young, he and Fan Tianlei were in a state of competition with each other. If he gets such an opportunity, then Fan Tianlei may have a better career in the future.

"Efit, I didn't expect that you are quite knowledgeable. It's exactly what I thought.

I have been thinking about this issue in my heart. Now that you are by my side to help, I feel that it can bring me better results.

Therefore, I have nothing to say about these issues. I just have to let you understand that no matter what kind of situation we encounter next, we have to take our time to measure it.

Qin Yuan, he is not a guy who can be easily provoked, he is a very thoughtful person.

If we can't get what we want in this regard, then we have to consider other issues, so instead of this situation, I have nothing to say.

You can stay here for now. I want to call Jason over first so that you two can have a good conversation face to face. "

"Mr. Karim, Jason is currently studying how to complete the task you gave him. Hassan's problem has not been solved yet.

For the time being, it is better not to let the two of them meet. I am afraid that after the two of them meet, there may be conflicts again. This is not good for you and is not conducive to our overall plan. "

"It's okay, Azhe.

Let me tell you, you don't need to be so anxious about this matter. Since everything is under our control, I don't believe they will find the opportunity to do anything excessive.

Let Jason come over first. The two of them will meet sooner or later. Let them meet and discuss it first. And now I have a better idea, which is to let Efit and Jason go together. Finish this for Hassan.

I know that there is a big conflict between Efit and Hassan.

If he could take revenge in person, I believe Effit would be even happier. This would also be conducive to our cooperation.

Even if it is a meeting gift I gave him, as long as you join my group, you can get anything you want. I have always told the people around me.

As long as you are willing to listen to me and help me, it is possible to achieve anything you want, and you will not be disappointed, so you should call them over first.

The next things will be resolved later. I also understand that there are big problems between the two of them, but this will definitely not affect our next actions.

From now on, everyone will be a family sooner or later. Don't act like you can't resolve any conflicts with each other. When they were with Old K, they all worked together.

Moreover, I also want to use this to test Jason's inner thoughts.

If he could put aside these past grudges and help me properly, I would never treat him badly. "

That's it, after talking about it, they didn't have any other ideas after these things.

However, the current problem cannot be solved easily. Azhe knew very well what kind of situation he would be in if he got married. He did not sincerely surrender to Mr. Norman Karim at all.

He had his own ideas, and he wanted to use this opportunity to help Qin Yuan steal more secrets, but now he was unable to do so.

Since he wanted to cooperate with Qin Yuan, Jason couldn't escape unscathed, so Azhe was becoming more and more anxious and nervous.

He wanted to quickly inform Qin Yuan of the problems at hand, especially since Efit had joined their group.

This is definitely an unexpected situation for them, and no one is sure what to do next.

Therefore, for these current problems, they have to slowly find a better solution. Now Efit has come up with his own attitude.

He wants to make the other party believe that his best way is to let the other party find a more suitable reason. If they are involved in this matter, it will be a big trouble for them.

It's better to think of a better way.

Therefore, they all have nothing to say now. They can only convince them that all this can be accomplished after solving the immediate problem first.

Azhe looked back at Efit, who was looking at him triumphantly.

As if he was declaring his sovereignty, Azhe never expected that this guy Efit would gain the attention of Mr. Norman Karim as soon as he came to the group.

If this situation is allowed to develop, he will lose more.

He must now cooperate with Qin Yuan. This will be a particularly good opportunity for Qin Yuan. In the past, he had been worried about whether Azhe sincerely wanted to cooperate with him.

Everyone was reluctantly working together to make do with each other just to seek common interests. If Qin Yuan knew about it, he would definitely be very happy after this incident.

Because Azhe had no way out, he had to cooperate with him in order to gain more benefits.

Otherwise, his position will be replaced by Efit, and he will no longer have any say in the group, for a person who has always been in second place.

He must not be able to accept the sudden loss of so many rights. No matter how much it costs, he must take back these things that belong to him.

So, after Azhe thought about it for a long time, he looked back at Efitte with the same eyes proudly.

"Azhe, it seems that you thought of a lot of things just now. You'd better call Jason over first. I also want to resolve these conflicts between the two of us with him."

"Jason, he is resting in the next room right now. If you have anything to do, you can go find him first.

If you don't have anything to do, it won't be of much use if you stay here.

Since Mr. Norman Kalim has already given orders, I can only do what he said.

I'm going to call Jason over now. Don't worry, he is studying ***** Hassan. This is also to give you a good meeting gift. "

"Azhe, you don't have to be dissatisfied. Although I am very confident that I can take your place, it probably won't be possible in a short time.

It's okay, you don't have to have such a sense of crisis. I hope the two of us can work together well instead of causing internal friction.

This will only cause more trouble to Mr. Norman Karim.

Do you think what I said makes sense?

I have experienced many similar things in the old K's group before, and I don't want the same problem to happen again.

The reason why I will join your group is mainly to save my own life, and I don't want to give Old K the chance to hurt me.

I really don't think about other things that much. You don't need to treat me as an imaginary enemy.
"

Chapter 2194: Not an imaginary enemy

Mr. Norman Karim's private club.

He Chenguang faced the moonlight and planned to return to the club quietly first. He originally thought that no one knew about this matter.

However, he had been talking to Efit for such a long time outside, but could not reach a suitable result.

The most important thing is that this guy also told himself that there were many useless things that he didn't expect at all.

He Chenguang also felt that he had been delayed for too long, and it seemed that he should go back to see him quickly.

Qin Yuan, I don't know what they are thinking in their hearts.

It would be bad if the other party didn't sleep and discovered some flaws in himself. At least for now, he didn't want others to know his identity.

Therefore, He Chenguang is now nervous and a little scared because he has done something wrong, and naturally he doesn't want others to know and is even more afraid of others knowing.

When I walked upstairs to the club, I found that there seemed to be no movement in their house, and they didn't see the brat Chen Jixiang.

Not to mention that Xiaolan's entire club was empty, as if everyone else was sleeping. This was definitely a good thing for him, but he didn't know why.

Perhaps because of his sixth sense, or perhaps because of his own guilty conscience, he always felt that something was not right about this matter.

There is a very weird feeling.

Sometimes, many things are too normal, but they also reveal abnormalities.

He Chenguang quietly walked to Qin Yuan's room.

He showed that he had been eavesdropping outside for a while and found that there was no movement. However, he was not sure about Qin Yuan. They were now ready to sleep and rest.

There must be a lot of things he wanted to talk about between him and An Ran, but he had to go back to his room to take a look before talking.

Afterwards, He Chenguang quietly prepared to return to his room. When he passed by Chen Jixiang, he found that he had turned on the light when he was in the room.

At this time, I really shocked myself. Could it be that this kid knew that he had gone out just now.

Chen Jixiang, rubbing his eyes with both hands, pretended to be anxious.

"Brother Chen Guang?

Why are you here if you don't sleep at night? "

"I was going to go to the toilet, but I didn't expect that I woke you up even though I was very careful. It's okay. You kid, just go on sleeping. No one will disturb you."

"Oh, it turns out you need to go to the toilet. I thought you were out."

"Where else can I go if I don't go to the toilet at night?

I see you, you just think too much and make yourself a little confused. Go to bed quickly. Don't think so much. There may be more important things tomorrow. "

"What more important things can we do now? We just eat when we are full, sleep when we are full, and eat when we are full. Like a little pig, there is no meaning at all. We can only wait here honestly."

"It's already very difficult for your boy to be able to wait here. If others find out, there will be so much trouble between us.

No matter what happens next, we may not be able to solve it.

So, don't be so anxious about these problems now. It's better to fall asleep first and talk about it later. I'll go to the toilet first and go back.

I also have to take a good rest. These problems now are more complicated, and we can't just let others grasp some handles, so I won't say anything now.

Just leave most things to Qin Yuan. We just need to listen to him, the team leader, and we will do whatever he asks us to do. Don't think too much or ask too many questions.

All we can do now is listen to him.

By the way, I don't know how Thor is doing now. Didn't I hear that he has been released?

If he is released, he should be able to be our team leader. He is the chief of staff and can provide us with a lot of important information and news.

Therefore, you don't have to worry so much. With Thor here, we will definitely be able to complete the mission and return quickly. "

Chen Jixiang looked at He Chenguang. He was also inside. He really had a lot of complicated emotions now. He tried his best to control his emotions.

After all, he really couldn't believe that the guy next to him was actually a spy, and he was a spy who had been by his side for so many years, which really made him feel very troubled.

"You'd better not say too much now. Since we're in this situation now, we'd better go back and rest first.

I don't want to sleep here either, Brother Qin Yuan, they have already rested.

Brother Chen Guang, stop thinking about other things and solve this problem first. I believe we will be able to achieve more and better results.

Anyway, there is nothing more to say about this matter. Since this is the current situation, we can only take it one step at a time. Maybe Mr. Norman Karim will come to embarrass us again tomorrow, which is also possible.

This guy always wants to come over and make things difficult for us.

Brother Qin Yuan is impossible to help him, and now that Jason has left, we don't even have anyone we trust to tell you what a sad thing it is. "

He Chenguang, he came here mainly to test Chen Jixiang. This brat seemed to have no problem with him, and he could finally feel relieved.

"Okay then, just go back to sleep, and you don't have to worry so much about other things.

Just follow Qin Yuan's arrangements. We don't have much experience to do these things now. Qin Yuan is our team leader after all. Just follow his arrangements. "

After finishing speaking, He Chenguang walked directly towards the bathroom. After all, for him, he had to perform to the end.

He was very afraid of encountering something else on the road. What other people were most afraid of was meeting Xiaolan. This guy was so elusive and sneaky all day long that it made him feel particularly uneasy.

Qin Yuan and An Ran were in the room and knew that He Chenguang had returned and heard all the conversations he had with Chen Jixiang just now.

The other party already asked him if he was out, but he still didn't admit it.

What else can be said about this? It's just his own guilty conscience. Qin Yuan's heart is very complicated now. He can't believe that this good brother in front of him is actually a spy.

Moreover, he is the most difficult to accept the kind of spy. He feels too uncomfortable now and has nothing to say, let alone the mood of others.

Rather than embarrassing everyone like this, it is better to consider other ideas.

An Ran looked at Qin Yuan, and with the frown on his face, he knew that he was feeling very uncomfortable now. No matter what, he had to consider the mood of other people first.

If these things cause them a lot of trouble.

Then, it's unknown what other ideas they will have next, so for them, they have to think about An Ran slowly and have to persuade Qin Yuan on these issues.

"Qin Yuan, I know you feel very uncomfortable right now, and you don't want to face these situations, but this is the fact. Even if you feel uncomfortable, we have to do our own things well.

There is nothing left to say about these problems now, and it is impossible for us to believe him anymore. We should know his true identity earlier.

It is a good thing for us that we can take precautions early and prevent him from doing more wrong things. What we can do now is to stand still and don't let him find out.

We all already know these secrets, lest he jump over the wall in a hurry and do something outrageous.

You listen first and I tell you slowly. You can leave this matter to me. I believe he never took action when he went out just now, nor did he find a suitable opportunity.

Azhe has already told you everything. Let's just take it step by step slowly. I don't believe this guy. He really did something excessive.

Instead of waiting here all the time, we should take the initiative.

Let's contact Azhe first to see how the situation is on his side. I always felt that when Efitte was talking to He Chenguang downstairs just now, he didn't get some definite answers.

This guy is considered a relatively professional spy, and he still refuses to admit his identity, even if the facts are in front of him.

It's impossible for him to admit this, but we still admire him.

Efit did not sow discord, and he did not gain He Chenguang's trust, which meant that he might think of other things next.

Therefore, let's stop talking so much and consider what is the most appropriate next step.

As long as we work together, I don't believe there are any difficulties that cannot be solved.

Instead of this situation, we have nothing to say. You listen first and I slowly explain to you the powerful relationship between this. Mr. Norman Karim, he is very anxious now.

He wants someone to help him do something, but these things cannot be done just by what we say.

So, you don't have to think too much first.

You don't need to be under too much psychological pressure, Chen Jixiang, this kid has grown up now, and he can help us do many important things on his own.

I have nothing to say about this, but now it depends on what you think. Don't put too much psychological pressure on yourself.

If you are under too much psychological pressure, I will also be very uneasy. Then I don't want to see this situation, let alone affect the relationship between us. Can you understand?

In fact, I have known you for such a long time, and I am really afraid that you will become very nervous. If you have other ideas about the same thing, it will definitely be very troublesome for us.

Fan Tianlei, he has already told us that the next tasks will probably be handed over to Du Bingbing. Facing a team leader like him, do you have any thoughts? "

After Qin Yuan heard An Ran's words, he felt very upset and covered his head with his hands in a defensive posture.

"I know you don't want to mention Du Bingbing, but this is something we have to face. Even if you are trying to escape, it's impossible. You should first think about how to solve the problems in front of you.

Du Bingbing is not something that can be dealt with so easily.

He has a lot of ideas. Now we can only choose to cooperate with him. There is no more suitable candidate. You should believe that Thor's judgment is definitely not wrong and he will not harm us. "

"An Ran, I don't know why, but I feel really upset right now, and I really don't want to deal with these things.

Because this is really a difficult problem for me to solve. You also know that I have always been a person who values love and affection. What is happening now really makes me feel very uneasy.

I don't want all of them to indulge in this matter, and I don't want Du Bingbing to join our small team.

My hope is that we can accomplish this together, rather than relying on anyone.

Du Bingbing, he does have a lot of connections. I don't deny that his connections are also very strong. Ordinary people can't compare with him.

Therefore, we can only endure it when

Should everything in this world be done through relationships? Isn't this a little unfair?

I want to do my own thing and don't want to consider anyone else's mentality and thoughts. Is this wrong?

He Chenguang, he has been with us for so many years, and now he tells me that he is a spy sent by the United States. I really don't know how to respond to this matter.

I even dare not imagine what would happen next if we didn't discover his true identity? Would he really do these crazy things that would betray us? "

"Qin Yuan, you are also a very smart and wise person. Have you not figured it out yet?"

"What do you want to say?"

"Never test human nature, let alone test the relationships with those around you.

In fact, He Chenguang did nothing wrong. Even if he was a spy, he did nothing wrong.

This is his mission, this is what he should do, you two just have different positions, he is not a bad person, I hope you can understand this. "

"I really didn't expect you to be able to speak for her at this time. If it were Chen Jixiang, he wouldn't be able to stand it anymore."

"Chen Jixiang, he is still a little too young. He can't calm down now, so we will give him a break. The most important thing is to let him control his mood. I'm afraid that when he sees He Chenguang, he will feel sad in his heart. It doesn't feel good."

"Actually, when the two of them were talking just now, I believe that this kid has controlled his emotions. Otherwise, if he were in the army, with his impulsive personality, he would have rushed forward and punched him a few times."

"You have the nerve to say it, it's not because he has been with you for a long time and has been exposed to your impulsive temper."

Chapter 2195: Quarreling over Thor

After An Ran said this, Qin Yuan also shook his head helplessly beside him.

He also laughed immediately. After all, this was a very funny thing to him, and he had never thought of his temper.

He was able to influence this boy Chen Jixiang, but Chen Jixiang was still the one on the left and right. This boy was too easy to be influenced.

But in the final analysis, he has improved a lot and is less impulsive than before.

It's even better than when Qin Yuan was young. When Qin Yuan was his age, he was much more impulsive than he is now.

"An Ran, please stop talking about this boy Chen Jixiang like this. In fact, he is not easy to do. He doesn't have such a temper at all. You have really wronged him.

I think this is what young guys should do, manage their temper well when they are young.

Don't let others worry, this is the most appropriate thing. If you have no backbone when you are young, it will be even more troublesome when you grow up.

I remember Thor once told me more than once that he said that a young man should have a bit of a temper. Otherwise, how can he do it if he has no personality at all?

I now very much agree with what Thor said.

This young man Chen Jixiang has great potential, and now I already agree with his way of dealing with people in all aspects.

No matter what happens next, I will definitely train him well.

Moreover, I hope that he can become the second me. If he can become as good as me, I will be able to feel much more relaxed in the future.

He can help Thor on my behalf without having to do many things personally. "

An Ran smiled and said to Qin Yuan.

"I think you think it's quite beautiful now. How do you know that this Chen Jixiang wants to be the second you? He has never said anything."

"Whether he said it or not, I have to think this way. In fact, he can be completely himself, but I can feel the admiration this child has for me."

"It's better not to talk about this yet.

He Chenguang, how do you plan to deal with his situation? Lei Shen has already given us a definite answer. No matter what kind of problems we face next, it is best not to reveal his identity and take it back. "

"Aren't we already confirmed? What to do with these applications? Why do you have any other ideas? Do you have any concerns?"

"I didn't have any other concerns at the time. I just thought that when he came back this time, he might have known about it after communicating with Effit, and we discovered his true identity.

Once this happens, maybe he will really jump over the wall.

By then, whatever happens will not be solved so easily. I think we should plan it carefully and never let others take advantage of it.

Especially in this situation, we have nothing to say. If the other party has ideas, we should work hard and let them know our ideas seriously.

We can't just go our own way, especially Thor. His current situation is not particularly optimistic. We should contact Du Bingbing to see what his opinion is. "

When Du Bingbing was mentioned, Qin Yuan became very unhappy. He did not want to mention this person.

Because this was already a very dissatisfying part of his heart. He felt that this guy had so many conflicts with himself, but An Ran was a little too kind now.

"An Ran, I have to tell you, I may not be able to control so much other things, but I don't want to contact Du Bingbing. You also know what kind of character he is. Since I have said it today, I don't want to contact him. If you cooperate with him, he must be holding a grudge."

"Qin Yuan, don't be so persistent.

In fact, I think Du Bingbing is a really good person. You should first ask him how he should view He Chenguang as an American spy.

He is also a very relational person. If he offends him and goes back, it will not be good to Thor. Thor, he used to be a very individual person.

However, now that he has experienced so many things, his edges and corners have long been smoothed away. "

Qin Yuan couldn't believe what An Ran said, and he felt a little unbelievable after hearing it.

"An Ran, what do you mean?

Do you think Thor asked us to do this because he was afraid of Du Bingbing? I don't think that's the case.

Have you misunderstood Thor a little too much? What you said is simply an insult to him. I have been with Thor since I came to the army.

He is an upright and upright person, and he would never do anything like you. Moreover, I think we have to slowly weigh and consider these issues, and we cannot listen to other people's ideas.

An Ran, once we follow other people's ideas, you should be very clear about the consequences that will follow. So in fact, I have nothing to say and I have to tell you.

No matter what you think next, it is absolutely impossible for me to take the initiative to contact Du Bingbing. This is my principle and bottom line. Du Bingbing, this guy has caused us so much trouble.

Isn't it a bit too proactive for you to take the initiative to contact him now? I know that he has now become the deputy chief of staff and has a much stronger position than all of us.

However, you should also consider my mood, please don't always force me, and your comments about Thor just now made me feel very uncomfortable.

It is impossible for me to believe that Thor is such a person, and I am not willing to let others slander him like this. He is a very upright person deep down.

If you say that he deliberately gave up the position of team leader in order to please Du Bingbing, a well-connected person, I don't agree with it.

He has always been worried about these things around us. How could he do this?

If he really does this, it will simply betray the brotherly relationship between us. I never want to have anything to do with him in the future.

I don't even want to stay with him anymore. Sometimes if he is like this, I even feel that he is not as good as Instructor Gong Gong. I have always not liked one thing about Instructor Gong Gong.

It's because he is so tactful and has a lot of worldly knowledge. He himself makes it clear, and there are many problems that he has always struggled with.

I have nothing to say otherwise, but I must remind you.

No matter what happens, we must never do this kind of thing, because it will have a deep impression on many people's thoughts.

Once this happens, we have nothing to say and must think more.

Therefore, I think you should give up this idea as soon as possible. This idea is really terrible and it has caused us a lot of trouble.

If you don't say anything, I believe you can think clearly. As for how to deal with He Chenguang, please give me some time to think about it myself.

I have thought it all through, and I will tell you later that it is getting late. You should go back and rest first. I think I still have very important things to deal with. "

After Qin Yuan finished speaking, after these things, he turned his head very angry and never looked at anyone again.

After all, these things are definitely not the right choice for him.

"You are always like this. Whenever you are dissatisfied with something, you always react like this. Can you be more mature?"

"An Ran, it's not that I'm immature, but I just can't understand what you are thinking, especially with this problem.

Thor has paid so much for us, so forget it if we don't know how to be grateful to him. Do you still doubt that he gave up this position on purpose?

In fact, the main reason why he lost his position as team leader was because I secretly invaded the spy system and implicated him.

There is nothing to say about this matter.

I already feel very guilty, but it still makes me doubt that Thor did it on purpose. Why did he do this on purpose? Was he trying to please Du Bingbing? "

An Ran, seeing Qin Yuan so angry, did not dare to refute Qin Yuan's thoughts again, but that was definitely not what he thought in his heart.

The reason why he felt that Thor would give up this position was not to please Du Bingbing, but to bring Du Bingbing and Qin Yuan together. There are more connections between the two of them.

He wanted to play a role in communication in the middle, but when An Ran thought about it, he had nothing to say, and he must have felt very uncomfortable.

However, this matter cannot be known to others.

He was too embarrassed to say anything, as if he really had some thoughts about Qin Yuan, which would only cause misunderstanding between the two of them, which might not be suitable for either of them.

"An Ran, why don't you speak?

Is it because some of what I just said was too harsh and made you feel uncomfortable? "

An Ran saw that Qin Yuan had been telling him that his attitude on this matter had softened, and he felt a little better.

The main reason why they have such a tense relationship now is because the current problems are not clearly explained. Everyone knows that they are very troubled because there are many things to face next.

"It's nothing. I'm going back to rest first. It's getting late as you just said. Let's go back and have a good rest. I don't know if Mr. Norman Karim will come to give us problems tomorrow.

Ever since Jason decided to join his camp, the current problems will become very complicated. He will definitely not be complete. I believe Jason, we still have to solve these problems through our relationship.

Therefore, I have nothing to say. Let me go back and rest first. We both had bad attitudes just now. No matter what happens, it cannot affect the attitudes and relationships between each other.

I admit that I did make some mistakes. You should go to bed early and talk about it tomorrow. "

An Ran, after saying these things, he was ready to leave, because he was indeed a little angry just now. Qin Yuan had never spoken to him in such a stern tone.

After all, this matter involves the relationship between Thor and Du Bingbing. In fact, the reason why Qin Yuan is so anxious is to tell An Ran.

He won't go to see Du Bingbing because he cares about An Ran, but both of them are relatively angry now, so it will definitely be difficult to communicate.

As a result, everyone's tone is rather harsh now, and An Ran is also a very considerate person.

He knew that since everyone was relatively angry now, they would certainly not have anything nice to say, so it was better to go back and rest quickly, and wait until tomorrow to talk about anything else after they sobered up.

It can be considered a little better, but some of his current thoughts are too simple.

It was impossible for Qin Yuan to let him leave.

Just when An Ran opened the door and was about to leave, she unexpectedly saw Chen Jixiang. This kid standing at the door really shocked An Ran.

"Sister An Ran."

Chen Jixiang was shocked by his sudden appearance and com himself was a little embarrassed, and then he spoke awkwardly next to him in a silly and naive tone.

"You're up late at night. What are you doing here? Didn't Qin Yuan just say that? I asked you to deal with He Chenguang without making him suspicious. At the same time, you can rest directly and don't have to come back. Why are you coming back? What's up?"

"Oh, it's been a long night, and I really can't sleep alone. I'm so angry with this guy that my hands are shaking. If I don't come here to vent to you, I'm afraid I'll be ***** to death today."

After hearing this, Qin Yuan quickly sat up from the bed, walked to Chen Jixiang's side, and looked at the boy curiously.

"What happened to make you so angry? You need to calm down first and slowly tell me if there is any conflict between you and him."

"There are no other conflicts. When I met him today, I asked him what he was doing. This guy refused to tell me the truth. Tell me whether he is annoying or not."

"He Chenguang is an American spy. You already know his true identity, so why are you angry here? This is completely unnecessary. Don't think too much. He can just say whatever he likes."

It's impossible for him to tell you where he went today. He will definitely lie to you. This is all expected. If you say this, you are just looking for trouble for yourself.

Pakistan is not very safe so far.

Sophia had just gone out to look for the kind of medicine that could fake death, and she didn't know if she could succeed on Jason's side. She might only have about three days.

To be precise now, if the delay continues in less than three days, Mr. Norman Karim will have no way to explain it. "

"That further illustrates that we must quickly come up with a plan of action."

Chapter 2196: Progress is good news

After Qin Yuan heard this, he sighed helplessly.

"Why..."

He also wanted to take action, and he didn't want to delay it any longer, but he couldn't act rashly now, because if he was not careful, he might really implicate Jason.

"Brother Qin Yuan, please calm down. No matter what happens, don't be so impulsive. There is no explanation for this kind of thing for us.

But I must tell you that I have known for a long time that the problems we are facing are serious, but you cannot just go your own way.

Although the problems we are encountering now are more difficult to solve, Lei Shen will definitely get better if things go slowly, and he will also provide us with help.

We have stabilized and improved, and we will definitely be able to solve it if we are given some time.

I know that you are very worried about Jason now, but we really can't delay it any longer. We can't rely entirely on Sophia for the wedding situation.

Do you really believe what he said to us? Do you really think he is trustworthy?

He has deceived Sister An Ran more than once. It is because of his personality that we cannot trust him easily, so now I also feel that we have to find a way ourselves.

He Chenguang has experienced a lot of things so far, which is enough to show that we have to think more about it. The help he has provided us now is very little.

On the contrary, they will provide us with reverse help. In this case, I think it would be unreasonable to hide everything from him if we want to take action.

He is a spy, and a very successful lurking spy. This shows that he has a very smart mind, and he sees and hears from all directions every day.

He would be able to detect the slightest mistake immediately. It is important that we can find these two students of Professor Fang De, but it is not possible to let him, a spy who has been lurking in our army for so many years, go to jail. And retreat.

Therefore, now I think our plan must be more thorough.

Brother Qin Yuan, Sister An Ran, if you really completely believe in Azhe and Sophia, these two male and female evil spirits, I think our problem will be more serious.

Of course, this is just my own judgment.

In fact, we have been out for such a long time. I already miss home and don't want to stay here anymore. There is no point in being trapped in the club every day.

Mr. Norman Karim, he has not always appeared in this club recently, which is enough to show that he has no more energy to continue to talk to us.

After he has clearly known that you will not help him, he must have other plans, and if he takes this batch of arms from Lao K, I believe he will never give up so easily.

He will definitely allocate part of his energy to deal with old K. This will give us many opportunities to turn around this Azhe, if he really wants to cooperate with us.

You don't need to offer him any excessive conditions. You just need to ask him to provide us with the specific locations of Professor Fang De's two students.

As long as we find these two people, we can go back immediately without wasting any more time.

See if what I say makes sense. Brother Qin Yuan, I really can't wait any longer. I think if you think what I say makes sense, let's take action immediately.

If you think what I'm saying doesn't make sense, just think of other ways. Anyway, it's better than wasting time here. Since the problems have already occurred, we have to find ways to solve them instead of procrastinating here.

Through my contact with He Chenguang today, I think he is quite cautious.

As soon as he came back, he went to interview each of us in our rooms. This was enough to show that he actually felt guilty in his heart.

He Chenguang seems to be very afraid of you. He thinks you are a very smart person and a powerful opponent, which is why he is so cautious.

Otherwise, he would never do this. As for Mr. Norman Karim's situation, we can't know too much in detail, so let's go find Professor Fang De and these two students first.

After all, this is the only important purpose of our coming here this time.

Except for this matter, everything else is just a foil. You should distinguish the priorities. This may not be appropriate for me to say.

After all, you are our team leader, but I think we all work together to complete the task. If you have something to say, you have to speak up directly to make everyone feel at ease. "

After Chen Jixiang finished speaking, Qin Yuan and An Ran present were stunned.

They had never thought that this boy could think so thoughtfully, and every one of them was well-founded.

Even, they don't know how to refute.

In this way, Qin Yuan was even more relieved. He did not feel angry, nor did he feel that he was being questioned. Instead, he saw a new talent waving to him.

Chen Jixiang, although what he said just now was plausible, he must still be very nervous after seeing Qin Yuan's serious face now.

In fact, he was afraid of offending Qin Yuan, so he regarded Qin Yuan as his idol.

Seeing that Qin Yuan was silent and silently observing him, Chen Jixiang was already scared to death, his heart was trembling, and his palms were all sweaty.

An Ran's face was very serious just now. After seeing this boy Chen Jixiang in this situation, he was also nearby and couldn't help but laugh.

"Chen Jixiang, you don't need to be so nervous. What you said just now is very correct. In fact, Qin Yuan doesn't think there is anything wrong with what you said. You can see that he is very serious now, but he has no reaction.

This explains it below. He thinks everything you said is right. In fact, during the half hour or so you went back to rest, the two of us were also discussing this matter. I also advised him that no matter what, he should first Communicate with Du Bingbing. "

"So you have been discussing this matter. What is the result? Does Brother Qin Yuan agree?"

"If he agreed, I wouldn't have opened the door and was going to go back to rest. He also criticized me just now and felt that I shouldn't have said that. He didn't want to contact Du Bingbing."

An Ran is eager to find Chen Jixiang who is an ally with him. The two of them can work together to persuade Qin Yuan, which will make it more likely.

Sure enough, after Chen Jixiang heard these things, he was also very helpless. He felt that Qin Yuan was indeed a little too persistent and should not do this.

"Brother Qin Yuan, isn't Sister An Ran the one you trust the most? You are willing to believe and consider whatever he tells you. In this case, you should consider his thoughts.

Du Bingbing is now the leader of our task force, and was handed over to him by Thor himself. You should have more trust in him. In fact, he is not an unreasonable person.

Du Bingbing has been helping you take care of Professor Fang De and doing his best to find special medicine.

Although sometimes he does have some problems with his behavior, his ability and concern for you cannot be denied here. "

"Stop it!

Let's just talk about completing the task now. Don't talk about other concerns about me. It's out of the question. He and I are just very ordinary friends.

No, the two of us are not even ordinary friends. He is just a very ordinary comrade in my opinion, so you should not continue talking about this matter. It will not be good for all of us.

Now that the problem is obvious, we have nothing to say.

I thought about it just now, and I really should contact Du Bingbing first and tell him about the spy. The reason why I was very angry just now is not just because you all misunderstood Thor.

The main reason is that I think He Chenguang's current identity must be kept secret and not let more people know.

If his companions in the army leak the information to the United States, we will be in a very passive position.

Now all these things have come to nothing.

You must listen to me. I didn't mean to lose my temper like this, it's just my attitude. Although there have always been problems, you all know me very well, so don't be the same as me.

I admit, I was a little impatient just now, but I have to apologize to you. I know you are doing it for my own good, but you can't say that to Thor next time. "

An Ran, after hearing this, he had nothing to explain.

"I know Qin Yuan, I understand why you are so angry, and I also admit that there was a problem with my attitude just now, but what should we do now?

As long as there is some progress in this matter, it will be a good thing, but we are still in a stalemate here, which is really a waste of time.

There is no way to deny this, and I understand your anxiety and impatience, but after all, you are our team leader, and you have to give us ideas.

If you yourself are panicking, then we are really completely panicked.

Therefore, after considering so many things, I think we still have to ask Azhe. After all, he has been in Mr. Norman Karim's group for so many years, and the other party also trusts him enough.

Since he has the confidence to cooperate with us, we must seize this opportunity. Doesn't he want to save Hassan's life?

If he wants to do this, he must pay the price.

In fact, Hassan's life or death has nothing to do with us. Whether he is dead or alive has nothing to do with us. All we want is the two students of Professor Fang De.

Azhe just wants Hassan to be safe and sound. The two of us need to be clear about what we want before we can make an exchange of interests. Do you understand what I mean? "

An Ran, after saying these things, Qin Yuan stood there blankly, and he also fell into deep contemplation.

He felt that what An Ran said was very reasonable, and his logic was clear and his thoughts were relatively clear. It was enough for him to just do what the other party said.

Perhaps, there is no need to think so much about other things, but he thinks too much and completely ignores everyone's feelings.

So Qin Yuan smiled and said beside him.

"Okay, now you two have joined forces to guide me on what to do. It doesn't matter. You must not misunderstand me. I am not angry.

I just think that when we come out to complete the task, we should brainstorm what we have to say. It is much better for us to discuss it together than for me to decide alone.

Now that these things are very obvious, I have nothing to say, as long as we follow our original plan.

I will contact Azhe soon, and I will use this matter to negotiate with him after daybreak.

If he wants to keep Hassan, he must help us keep Jason, and to help us find these two students of Professor Fang De, now I also have a very bold decision.

Although, I think this may be more troublesome, and Jason is ready to sacrifice, but we cannot let him do this.

He is just an innocent father. Rather than putting him in danger, it would be better for me to face these things myself. I have already thought about it.

How to negotiate with Mr. Norman Karim once he wants to threaten me with Jason.

We have to take some extraordinary measures to solve it, so I have nothing to say now. If you all think about it clearly, I will naturally still have no problem.

However, we will be under great pressure next. After all, many things are completely different from what we imagined, and there will be a lot of pressure.

It was beyond our expectation, so I have nothing to say now, as long as we can be satisfied with this matter.

Everything else will be solved naturally, so don't wait for Sophia in a hurry.

After he finds this special medicine, we can take the next step. Hassan will definitely not be able to deceive Mr. Norman Karim so easily.

To be precise, I don't understand why Mr. Norman Karim killed Hassan now.

Maybe there is any grudge between the two of them over the years and they need to take this opportunity to resolve it together. It is also possible, but at the same time.

Whether he had other purposes, we don't know.

It must be within our consideration range. You don't need to think about anything else, as long as this thing can be done better.

Naturally, we do not need to let others do more for us. All these are our own tasks, and only we can solve them.

As for whether to inform Du Bingbing.

You two already have a common opinion, and it is impossible for me to go against your ideas. I will tell Du Bingbing when I get the chance.

Chapter 2197: It is recommended to seek organizational help

Pakistan, suburban villa.

Mr. Norman Kalim stood there and looked at the two guys, Azhe and Efit, and he now had his own plans for these things in his heart.

"Efit, you have been emphasizing to me just now how loyal you are and want to join our camp, right? In fact, for me, trusting someone is very simple.

It just depends on whether he and I have common interests. As long as you let me know that we have common interests, I will definitely believe you.

Otherwise, I think saying all this might be of no use.

After all, many things are relatively sad for everyone in this regard. At this critical time, we can't say anything. We can only see what each other is thinking.

You think I would be willing to help you, that's because you are valuable enough, and I know the hatred between Hassan and you.

So I want Jason to kill him, which can not only test Jason, but also give you a starting point. "

After Efit heard this, he nodded beside him.

"There must be common interests between the two of us. Maybe we had some misunderstandings in this regard in the past, but now for me, I should also think about what I should do."

"Qin Yuan, do you know what he wants to do now?"

"Qin Yuan, as a member of the H Army, is from Fan Tianlei, and you and Fan Tianlei know each other very well, so I don't need to say more."

Efit smiled beside him. The reason why he said this was to make Mr. Norman Karim feel that he had a lot of information.

"Azhe, originally I wanted you to take Efit to rest, but since he is unwilling to rest now, he wants to stay here to talk about Qin Yuan's problem.

Please call Jason over. I think these things should be brought to an end. If there are any more problems for us in the future, we will have no way to solve them.

It is better that we finalize the plan before everything happens.

This may be better for everyone. "

When Azhe thought of this, he finally knew that he would have a suitable opportunity to help Qin Yuan.

After taking advantage of the opportunity to find Jason, he went out and tipped off Qin Yuan first. He must tell him everything that happened here.

The most important thing is to tell Qin Yuan that Efit has changed his mind and joined their own group.

If Mr. Norman Karim is really reused, this will be a very big challenge and problem for them.

"Yeah, I understand, Mr. Karim, I'm going to inform Jason now."

"By the way, Azhe, has Jason done anything different since he came here?"

"Mr. Norman Karim, what is the difference? I want to know if you have any important clues?"

"No, in fact, until now, I am more suspicious of his motives. I don't think he and Qin Yuan will break up so easily."

After Azhe heard this, he would definitely help Jason speak.

"Jason, after all, he probably does it for his daughter. Maybe he doesn't care so much about other things, but now this matter may involve his daughter.

I think he should be more cautious in general and not give in like we said,

Just keep it in your heart. No matter what, I think he would not dare to betray you. This is really too courageous.

Even if you ask him to do this, I believe he won't dare to do it. Even if he doesn't think about it for himself, he must think about it for his daughter who has congenital heart disease. "

After Efit heard this, he immediately added insult to injury.

"Azhe, I have to say that you are really a very simple person. Jason's daughter is already in Fan Tianlei's hands, and Qin Yuan has already sent her back.

So generally speaking, being in the H country army means that his daughter is relatively safe for the time being, and there is no need for him to go and think too much about a problem that he doesn't have to worry about.

Generally speaking, he has no worries now. Maybe he wants to sacrifice himself for Qin Yuan, or even if he is determined to steal these secrets in front of you, it is possible.

I advise you to think carefully and don't let us all down at this critical moment. These issues have already been made very obvious.

If you all really think so, then I have to remind you that no matter what happens next, you must think clearly and don't let others make it difficult.

At this critical moment, I no longer want to think about anything, so I have to tell you what problems we will encounter next. So, can you understand what I think now?

I am here today just to remind you that you must be careful about Jason. He is really a very cunning person. Do not believe him for no reason.

You must force him to do some obedience tests to prove that he is sincere, or is he deliberately helping Qin Yuan to bring me here as an undercover agent to help him steal more effective information.

Qin Yuan is a very charming person.

You have to admit this, and sometimes even I have to admit that if I were not on the opposite side of him, maybe I would have been attracted by his personality charm. These are all possible. "

Mr. Norman Karim heard Efit's evaluation of Qin Yuan, and he smiled helplessly beside him.

"It seems that you two are really in love with each other, and you two can be regarded as admiring each other."

"It's not very clear whether he appreciates me, but I still like Qin Yuan very much.

If we weren't from different angles now and had different interests to consider, maybe I would really be willing to become very good friends with him. "

After hearing this, Azhe mocked quietly from the side.

"You think you can become good friends with others, but they may not necessarily want to be friends with you. Sometimes it is important to be self-aware."

"Azhe, go find Jason now."

"Effit, I'm a little worried about this guy staying here alone in the room with you. It's better to let someone else go."

"If I am worried about this, how can I control such a large group?"

I have never seen any kind of storms and waves in the past few decades, so how could I be worried about him?

I used to be a special forces soldier, have you forgotten?

Although I may not have carried out a mission for so many years, I still haven't slacked off on some basic skills. If he really wants to compete with me, I can always accompany him. "

Azhe was waiting for Mr. Nomankarim to repeatedly ask him to go out, so that he would not arouse suspicion in anything he did.

"Well, I can't control so much other things, but Mr. Karim, you must be careful.

Efit, I have to remind you, this is our territory.

If you have any motives or ideas, you must carefully weigh them before taking action.

Otherwise, if I really get hold of something, don't blame us all for being rude to you. This is something within our control. "

Efit, he said with a playful smile after hearing this.

"Azhe, even if you don't believe what I say, you should believe Mr. Norman Karim. He has told you so many things. You have nothing to worry about.

Even if I had the courage, I wouldn't dare to do it here.

Don't forget, I came to you today on my own initiative just to save my own life, if I have any motive for my behavior now.

I'm afraid, I can't save my own life. When the time comes, my coming here will be meaningless. Everyone wants to survive, who wants to die? "

"Efit, you can understand that the current form is fine."

After saying the harsh words, Azhe didn't care so much and went out directly.

Now he basically wants to find an opportunity as soon as possible to tell Qin Yuan about Efit first, but he thinks that time is tight now.

If I miss something, I'm afraid it will have a great impact on them next.

So he thought about it for a long time and then quietly walked to a corner and took out a tiny mobile phone that was used exclusively for communication between him and Qin Yuan.

He dialed the dedicated contact number with Qin Yuan.

At this moment, Qin Yuan was facing the current situation, and he knew that he had nothing to explain.

The only thing that can be done is to let them relax. Everyone has their own ideas, and he can't just have his own way, so he thought about it for a long time.

Qin Yuan also understood that he had to understand clearly that the situation in front of him was definitely not very beneficial to him.

An Ran looked at Chen Jixiang.

"We all already understand what should be said. No matter what happens next, you must know that we are actually very good to you.

Don't talk so much about He Chenguang's current problems.

Everyone already understands that his true identity is a very good thing for us, and there is no need for us to worry about other things.

So, now you should be able to understand what we are thinking.

For the time being, we should stay put and don't expose his identity. No matter what kind of trouble he will cause us, we can only turn a blind eye.

Try not to let him know more of our secrets.

Because, we may not think so comprehensively about many things, but for us, these current problems are definitely something that must be solved urgently.

We should resolve the matter between Jason and Hassan first, and then find an opportunity to ask Azhe to bring out the two students Professor Fang De or let him directly tell us their specific locations.

After finding these two people, we were able to complete the mission.

However, how we leave now is still a relatively difficult problem to solve. Even after finding these two people, I believe Norman Karim.

With him covering the sky in Pakistan with one hand, it is impossible for us to leave this place easily without his permission.

We have to think of a good way. "

"Yes, Mr. Norman Karim is in Pakistan, and now he has an unparalleled status with one hand covering the sky. We cannot offend him easily, so I also have a better way."

After hearing Chen Jixiang, this kid was able to start coming up with ideas. Qin Yuan felt a little relieved.

"Okay, An Ran and I have been thinking about it for a long time, but we haven't figured out how to leave this ghost place without anyone noticing."

"This matter can be solved easily because there is one person who can help us."

"Who are you talking about?"

"Du Bingbing!"

"Do you mean to ask us to ask Du Bingbing for help? Doesn't that mean that I don't have the ability to complete everything now and have to ask Du Bingbing for help."

No, it is absolutely impossible for me to do this. He has just become deputy chief of staff, and it is impossible for me to let him completely replace Fan Tianlei. "

"Brother Qin Yuan, I think you are really too persistent sometimes."

We are now considering how to complete this task so that we can quickly return to our troops and make us all feel at ease. Why do you have to consider these things?

What's so great about bowing to him? In his eyes, you have always been a good person and have experienced a lot of things.

But now if you are unwilling to bow your head, it will really cause us a lot of trouble.

Besides, it's not a big deal to bow to him now, so why are you so nervous?

There are many issues, and I don't want to talk too much to you. I think if I continue talking, it may have a great impact on your self-esteem.

But I must remind you, don't always insist on having your own way. These current problems are what we should really solve.

Many things may indeed be troublesome in our hearts, but we have the ability to solve these current problems instead of escaping here.

You should go back and have a good discussion with Du Bingbing. He will definitely help us, and it will be much better than the desperate situation we have now.

Even if we really receive these two students from Professor Fang De, how can we take them back?

Now we have a large number of people, and don't forget, we also have an American spy with us, which will now cause us a lot of obstacles.

If he causes trouble on the road, or makes other problems, deliberately exposing our mission and identity, it will be even more difficult for us to return to our own country. What we are really guarding against now is He Chenguang. "

Chapter 2198: Test before assigning tasks

An Ran, seeing that Chen Jixiang could tell Qin Yuan these things face to face, he could finally breathe a sigh of relief.

In fact, An Ran also thinks so in his heart. The best way for them now is to ask Du Bingbing for help, because he has now replaced Fan Tianlei as the leader of this task team.

Moreover, he has a lot of resources at his disposal and can contact many important people and give them some key help.

In this unfamiliar place, if someone can provide great help, it will definitely be good news for them.

However, Qin Yuan was too persistent. He was unwilling to bow to Du Bingbing. He wanted to complete all tasks independently.

This can prove his ability. In fact, Qin Yuan has been a little too conceited for such a long time.

I would rather carry it all alone than let everyone help together.

An Ran has already discovered his problem a long time ago. Since there is a problem, everyone should solve it and face it in time. Avoiding is always of no benefit and is not a good way to deal with the problem.

Therefore, An Ran watched Qin Yuan's face become more and more serious after Chen Jixiang said these things. Everyone knew that he must be angry.

He must be very opposed to asking Du Bingbing for help.

Moreover, unless nothing unexpected happens, he will not agree. Regarding these issues, everyone has clear ideas in their hearts.

But the more this happens, the more they have to think carefully and not be so impulsive. Only Du Bingbing can help them, so why run away?

"Qin Yuan, what Chen Jixiang just said is also the truest thought in our hearts. I think you should stop evading.

When it's time to ask for help from the troops and headquarters, we shouldn't have any hesitation.

This will only waste our own time. I don't think there is anything shameful about bowing down to Du Bingbing. Haven't you heard that a man can bend and stretch? "

Although Qin Yuan knew this truth, he was still unwilling to do it.

"snort...

Everyone knows the truth, but if they really want to do it, not everyone may be able to do it.

What I want to tell you now is that I still don't quite agree with this.

Please give me some more time to think about it carefully. After I think about it clearly, I will naturally give you a definite answer.

I won't let you all follow me on any further adventures.

Even if I sacrifice my own life, I will definitely protect you. You have nothing to worry about. "

When Chen Jixiang heard what Qin Yuan said, he was really anxious.

"Brother Qin Yuan, why have we been talking for so long and you still don't understand.

We are not afraid of death, nor are we afraid that we will not be able to return to our country. We are just worried about whether this task can be completed.

Have you forgotten our mission as special forces?

We should meticulously carry out the tasks assigned to us by our superiors, instead of you just caring about your own face. Even if you said these words to Du Bingbing today, it made him feel very sad. You are not willing to face him again. .

No problem, let me tell him in person.

Anyway, I don't want to lose face. I have only been in the army for a short time and I know very few people. I don't care about the issue of losing face.

Let me tell him. As long as I express too much, he should be able to understand your attitude and will not embarrass us.

I have said this very clearly. If you continue like this, I have nothing to say. But for us now, many issues must be thought through before making a decision.

Brother Qin Yuan, the more you are in such a panic, the less we know what to do.

I have told you these words more than once, but you still don't want to believe me. Do you think I am a child?

Although I have less mission experience, I know what we should do.

You should stop going your own way, leave this matter to me, and let me tell Du Bingbing. Since it will not be damaged, your face will also allow us to have a good result.

Now you finally understand. Sister An Ran and I both agree that if you really have any questions, let's vote by a show of hands now. "

Chen Jixiang, this guy can finally be a man for once.

Seeing that he could grow so quickly, Qin Yuan must have been quite pleased, so he smiled happily beside him.

"I was really angry just now. Do you think there is anything funny about me? Isn't it a bit disrespectful to me? You still treat me as a child."

"Chen Jixiang, you are actually right, I remember every word.

Seeing your anxious look, I completely understand that your boy is really able to stand alone now.

It's not like I brought you out this time in vain. You didn't let me down. You are right. "

"Brother Qin Yuan, I know what's going on with you. I lost my temper just now, but instead of being angry with me, you are here to comfort me.

Could it be you? You are testing me here on purpose. You two are really bad. "

An Ran smiled softly.

"Chen Jixiang, it was your brother Qin Yuan who came up with this idea.

He feels that since He Chenguang can no longer help us and has proven that he is a spy, we should train a new person who can help us.

He mainly wants to see your adaptability and resilience, and most importantly, his courage.

Qin Yuan always said that you usually look timid towards him, but it is a test to see if you can bravely stand up and point out his mistakes when he actually does something wrong.

It looks very good today, and we all saw you right.

It is really not easy for you not to believe what Qin Yuan said at the critical moment, but to be able to bravely stand up and explain what went wrong with him.

I also admire you very much. It's time to give you some important tasks and let you complete them alone. We should also give you more opportunities.

Always seizing opportunities, but not giving you young people a channel to practice. How can you grow up like this?

From now on, He Chenguang's position should be completely replaced by you.

There is no need for him to appear as a spy anymore. As long as you stay with Qin Yuan, I believe there is no task that cannot be completed. "

Chen Jixiang, after hearing this, he couldn't believe that his ears were so excited.

"Brother Qin Yuan, Sister An Ran, it turns out that these words you two said have been testing me.

Although I was a little angry just now, I have come to my senses now, but it is worth being happy. I finally don't have to do nothing all day long.

If you all can give me something to do, my trip will not be in vain.

Otherwise, just staying in this club all day, I really feel like a waste, unable to do anything. "

"Chen Jixiang, don't say that either. In fact, Qin Yuan has always been willing to give you a chance and treats you as one of his own.

It's nothing serious, and you don't need to be so anxious.

The problems are now obvious, and we all have our own tasks to do next. "

Qin Yuan also nodded beside him.

Just when he was about to say some words of encouragement, his cell phone, which was the secret communication stipulated between him and Azhe, suddenly rang.

"Who is it so late?"

"Azhe!"

"He is not always with Mr. Norman Karim. He is still not resting so late. It should be very important to contact you proactively. Is there anything wrong there? Is something wrong with Jason? Already?"

"We don't know about this. Don't think too much about it for now. I have to see what happened to him first. Don't panic."

So, Qin Yuan cautiously answered the phone.

But he didn't say anything. After all, he didn't know what was happening on the other side. If this secret was discovered by others, he could get rid of these suspicions in time.

"Qin Yuan, I want to tell you some bad news."

"I really didn't expect that what I heard when I first connected the phone was bad news. Then you could tell me what the bad news was, so that I could be mentally prepared."

"Until now, I have not been mentally prepared. I feel that after I tell you, you may not be able to digest these serious bad news."

"Whether I can digest it and stabilize my mood is my own business. It's your business whether you want to tell me now."

"If I didn't tell you, why would I risk contacting you so late?"

"Then why don't you hurry up and tell me what the bad news is? Don't let me continue to worry here."

After An Ran and Chen Jixiang heard the bad news, both of them were a little nervous and their palms were sweaty.

"Efit, this guy has come to our place now. He just talked with Mr. Norman Karim and is ready to join our group!"

"What did you say? Efit?"

This guy wants to join your group, so what does Mr. Norman Karim mean? Did he agree? "

"He must have agreed very much, and this matter seemed to have been within his expectation. He asked Jason to kill Hassan just to have an attitude in front of him."

When Qin Yuan heard this unexpected bad news, he was completely confused.

What exactly is going on? What happened?

Why would the other party want to please this guy Efit? Is it okay to kill Hassan just to please this guy Efit? However, although he was shocked at first, after thinking about it for a few seconds, Qin Yuan immediately realized that these current forms are indeed serious.

"I see!"

Efit, he is from Old K, and Mr. Norman Karim's real target now is not us, nor the two arms experts, because these two arms experts are without their teacher Professor Fang De. under.

They can't do anything and generally have no value or meaning.

Therefore, he has completely given up on these two guys. His real goal now is to challenge Old K to get all the resources in the old gangster into his own hands.

I believe that his main position in the future may not be in this small country of Pakistan. He is very likely to prepare to go to the United States.

I want to ask Old K to hand over everything. He wants to replace the other party's position and resources. It seems that I really underestimated him.

Unexpectedly, he has such great ambitions, and since he has already started to take action, if he has this idea, then Efit, who has been with Old K for more than 20 years, will be a very valuable person. Guy.

Therefore, he will do everything possible to please him.

It seems that we really underestimated the communication and scheming between these two people. In this case, I have nothing to say, we can only admit it.

I have to admit that their plan is really perfect. We can't say anything to bookstore and we can't do anything. We can only listen to their arrangements.

Azhe, fortunately you were able to inform me in time, I still want to thank you, but this matter is not necessarily bad news for me.

I already know clearly that Mr. Norman Karim does not pay special attention to these two arms experts.

This means that it will be very easy to complete our mission, so now I need you, Azhe, to tell me where these two arms experts are.

As long as I rescue them, I have completed my mission.

I don't need to worry about other issues, as for the matter between Mr. Norman Karim and Efit.

This involves, on the other hand, I need to wait until I return to the army to discuss it with the higher-ups of the army to see if they will let me complete this matter.

I think, as a special forces soldier in the army.

The most important thing is to have clear goals. I should know what I should do and what my tasks are, instead of putting everything on my shoulders like this, which is meaningless.

So now I have it all figured out.

No matter what happens next, I definitely have my own thoughts, so please don't continue to tell me this.

Not sleepy, I don't care whether he wants to join Mr. Norman Karim's camp, because I know that my own mission will be completed soon. "

After Azhe heard what Qin Yuan said, he was still a little angry in his heart. He felt that this guy started to only think about himself. They had agreed that the two of them would work together.

"Qin Yuan, what you are saying now is that you are ready to throw me away and not care about anything?"

Chapter 2199 Join forces to deal with one person

At this moment, after Chen Jixiang heard what Qin Yuan said, he began to believe it, so he quickly turned around and said to An Ran.

"Sister An Ran, Brother Qin Yuan, he is so powerful, his ability to deceive people is simply better than those organizations that specialize in deceiving people.

If he joins those organizations that deceive people, he will definitely become the leader.

Perhaps this is what those people often say is gold, which will shine sooner or later.

It is understandable that a candidate as powerful as Brother Qin Yuan will achieve great things sooner or later. Not only because of this matter, but also other things.

So, now I have nothing to say, I just admire him so much.

If I were given another chance, I would definitely choose to be by his side.

No matter what price he has to pay, Azhe must consider it carefully before making a decision.

However, I have nothing to say about these things now.

We still have to think of more ways, and most people probably think the same as me.

This matter cannot be handled so easily.

Ah Zhe, he is not so easily deceived. "

Chen Jixiang, after hearing this, he had nothing to refute.

"Sister An Ran, don't worry. I already know about this matter. What should be done more appropriately? I will definitely not let them worry about me.

It's just that we want Azhe to tell everything now. It's not a problem that can be solved so clearly. Although Brother Qin Yuan is very anxious, for us now.

Acting rashly is not the right choice. Sometimes the more anxious you are, the easier it is to make mistakes. Professor Fang De's two students can no longer persist.

If they really have a big impact on us, we won't know what to do at that time.

Jason, after all, he went to Mr. Norman Karim's camp this time because of Brother Qin Yuan. If there is really something wrong with him, I believe we may feel a little regretful for the rest of our lives. "

Qin Yuan is negotiating with Azhe.

There may be no need to say anything else about other things, but these current issues will be a particularly important problem for them.

"Qin Yuan, you told me so many things just now, but now I may not be able to give you a definite answer.

I know many people have thoughts on this.

However, we cannot solve these problems quickly. Even if Jason wants to cooperate with me, I have to communicate with him.

He is the person next to Old K. Although I have never met Old K in person, I can feel that the person who can enjoy being around him is definitely not a simple person.

Just like what you just said, he betrayed old K and is still alive today, and he can still get the attention of Mr. Norman Karim. He must be a particularly powerful talent. "

Qin Yuan nodded with satisfaction after hearing this.

"That's right, Azhe, your guess is absolutely correct. If that's the case, do you have anything going on now? If nothing happens, you can go find Jason.

The three of us can start a remote meeting, and I can plan the next tasks.

However, no matter what, I must remind you that although the next tasks are arranged by me, I also hope that you can find the opportunity to understand how this matter should be handled.

I can help you do something you want to do, such as solving the problem of Efit and not putting Hassan's life in danger. "

"Qin Yuan, I know you are a very well-planned person. What you just said is that you want to have a fair and just transaction with me, right?

You think you have done two things for me, but I can only provide you with the specific locations of these two students, Professor Fang De. This is just one thing, and you feel it is unfair.

It doesn't matter, since you sincerely want to cooperate with me, I also want to make you a friend.

I can promise you that not only will I help you rescue these two students of Professor Fang De, but I can also help you find a ship to send you all away without anyone noticing.

Let you return to country H smoothly. In this way, your mission can be completely completed, and you don't need to pay any price. "

Qin Yuan knew very well that there was no free lunch in this world.

All sales must be conducted under fair and just conditions.

The reason why Azhe proposed such an idea was simply because he felt that if he stopped imposing these conditions, Qin Yuan would not be able to agree so easily anyway.

That's why he said this now. This is indeed a once-in-a-lifetime opportunity for Qin Yuan, but he is unwilling to give up this opportunity.

After all, what Qin Yuan now knows more clearly is that many people have already had their own plans for these, and they cannot be solved so easily.

"Okay, now there's nothing more I can say about this situation.

Qin Yuan, whether you are willing to cooperate with me or not, I have to tell you that these are the only conditions I can provide you. If you are not satisfied with this, then our cooperation may come to an end.

"Azhe, I may not be able to control so much other things.

But if you want to put forward such conditions to me, you have to give me some time to discuss it carefully.

I didn't come here alone this time. I came here with my companions, so I have to discuss with them how to do this. I can't act arbitrarily. "

"Qin Yuan, I can tell you clearly that this time when I went out at night, it was Mr. Norman Karim who asked me to invite Jason over.

Maybe he wants to take advantage of this opportunity to resolve the conflict between Jason and Effit. Both of them will become his right-hand men, and then I will have no position even more. "

"It turns out you have such long-term thinking, don't worry.

Jason, it is impossible for him to choose to stay in your group, let alone become your competitor. "

"You're not the roundworm in Jason's belly. Why do you think I can 100% believe what you say? Maybe no one in this world can refuse glory and wealth.

What Mr. Norman Karim could provide him far exceeded what Old K could provide him back then.

You know why Mr. Norman Karim has been able to stand tall covering the sky with one hand for so many years.

Moreover, with so many people around him willing to believe in him, do they still want to help him even if they risk their lives?

That's because he is good enough to his brothers. If he has 10 yuan, he may only keep three yuan for himself, and the rest will be distributed to these brothers. "

When Qin Yuan heard this, he hesitated a little.

"Azhe, since the two of us have already talked here, I will take the liberty to interrupt.

Since you have always said that Mr. Norman Karim is so good, why did you choose to betray him?
"

After Azhe heard what Qin Yuan said, he didn't expect that the other party would ask you such a philosophical question.

"Qin Yuan, I think the relationship between the two of us is just an ordinary cooperative relationship.

If you ask this question, it is indeed too much. The reason why I do this is naturally my own reason. I am not a young man who can betray others casually because of interests.

In fact, I felt very uncomfortable when Mr. Norman Karim betrayed me with so much kindness to me, but I had to do it.

In fact, I am also in a dilemma.

If I could choose, I would rather be an ordinary person. I don't want to get more things, and I don't want to pay anything. I just want to live a stable life.

It is also quite difficult to do this. Being able to live a stable life may be relatively simple for ordinary people, but for those of us who lick blood on the tip of a knife, it may be more difficult than saving this life. "

Qin Yuan also fell into deep thought after hearing what Azhe said.

"It's not easy for everyone to live in this world. Maybe everyone should understand each other. Let's stop here first. You can go find Jason quickly.

Since Mr. Norman Karim asked you to do this, he will also be suspicious if you delay for too long. He is a very smart man. Don't think that you can fool him with these little tricks. "

Qin Yuan could be regarded as a kind reminder to Azhe. He also felt that it was not easy for Azhe. He had experienced too many things over the years. We were all poor people, so there was no need to make things difficult for each other.

"What about these partnerships between the two of us?"

"Isn't your companion Sophia still in this club?"

I also need to have a good discussion with my companions. Let's do this. You can't wait for my notification about Jason's matter. I hope you can keep an eye on it and never put him in any danger.

"

"Jason is now a powerful weapon for me to deal with Efit. I will not put him in danger. Don't worry."

After Qin Yuan heard Azhe say this, he could finally put his heart in his stomach.

In the past, he might have had to worry about whether Jason's life would be in danger next, but now Efit's initiative to join Mr. Norman Karim's camp has given Azhe some sense of crisis.

Afterwards, the two of them hung up the phone without saying anything. Chen Jixiang and An Ran quickly walked to Qin Yuan and asked anxiously.

"I just heard Azhe say on the phone what happened to this guy Efit? He has joined Mr. Norman Karim's group. How is this possible? He is obviously a member of Old K.

In their profession, the most taboo thing is betrayal. Efit wouldn't dare to betray old K if he doesn't understand this. Is he crazy? "

Only then did Qin Yuan remember that An Ran had stayed in the United States for a period of time and was considered a spy. He also knew a lot about things on the road. Maybe he had met Old K himself and knew what kind of person he was.

"An Ran, what do you mean by this? Old K should be a very scary person?"

"It can't be said to be scary. When I was working as a spy in the United States to collect information, I met him once. He was just an old man with white hair.

Think about it, he is now over sixty years old, and he has controlled all the industries in the United States for about thirty or forty years.

Think about how deep-rooted his power must be.

Mr. Norman Karim is certainly very powerful, but if he wants to overthrow the resources in Old K, it will be really difficult for him to have all these resources in his own hands. I believe he has also been pursuing this plan for many years. . "

"The two of them fighting over these things only made things difficult for the people around them. We are all just a part of all their plans."

"Yes, by the way, I heard from Azhe. He just said that not only can he provide us with the specific locations of Professor Fang De's two students, but he can also find a ship to send us back.

Aren't we worried that there is no way to go back?

He was able to provide us with such help, which indeed made us feel that this transaction was worth doing. "

After Qin Yuan heard this, he smiled helplessly beside him.

"An Ran, why have you suddenly become so innocent? Do you dare to sit on the boat he provided us on the sea?"

Chen Jixiang is also a very alert person. When he heard what Qin Yuan said, he immediately understood what it meant.

"Brother Qin Yuan, do you mean that this guy Azhe wants to use the ship to harm us?

Probably not, he has such courage? "

"Anyone who can have a place next to Mr. Norman Karim is very powerful. We must not underestimate him. Moreover, I only half-believe what he said today.

I didn't completely believe what he said.

Similarly, it is impossible for him to completely believe what I say. This kind of cooperation is to see who can persist longer. "

Chen Jixiang really feels that his head hurts very much now.

"Oh, if I had known better, I wouldn't have chosen this path. Being a happy special soldier in the army is no better than anything else. I train with weights every day, then go to the cafeteria to eat and then go shooting.

This is the life I should live. You guys here seem to be studying the most powerful brain. This matter is so complicated that I dare not even imagine it.

If it were me, I would have been very happy with what Azhe just told me. I agreed to his conditions. There would be no doubt at all. I am very anxious to go back now. "

"Chen Jixiang, you need to calm down.

It is precisely because they know that we need such conditions that he said this. "

Chapter 2200 There are two ways to go

Qin Yuan looked back at Chen Jixiang.

"I know you are all very worried about me now, but what I have to let you know is that no matter what happens later.

None of the things we are facing now can be solved by satisfying ourselves. "

An Ran also knew very well that Qin Yuan was under too much pressure now. No one was willing to force him to do anything, but so far, the problems they had encountered were unprecedented.

"Azhe said he could provide us with a way to go back, and I think what he said was half-truth.

We don't have to believe it completely, but we absolutely cannot give up on what he provided us, and the most critical issue is.

I feel that if we can really achieve some good results through this matter, then it can prove from the side that everything we do is the most correct choice, and there is no need to make others embarrassed.

We have no way to easily solve the situation we have encountered.

Qin Yuan, you have to know that today is different from the past. Don't forget that the God of Thunder can no longer help us do anything. His current attitude towards this matter is probably just his own failure.

All the sources of information I had were withdrawn and handed over to Du Bingbing. Although, I don't know what kind of deal the two of them made.

After discussing it, they may no longer care about our matter.

But what you must understand is that it is not easy to find an answer to the situations we encounter.

Many people may have their own ideas on this aspect, especially Du Bingbing.

His plans for these things are completely different from what we imagined. I think he should have his own ideas and special requirements.

If we can't solve this situation, I'm afraid there will be some difficulties in whatever problems we encounter next, so I have nothing to say now.

The best thing I can tell you is the issues at hand.

What should we do specifically is the most appropriate thing to do? The most important thing is not to let others doubt the difficulties we have encountered now.

Many people may think that the problems we are encountering now are quite extreme and cannot be easily cracked without authorization from superiors.

That's because they don't understand the relationship between Thor and you.

To put it bluntly, the relationship between Thor and us can be said to be very good. After all, we all know in our hearts that we are all thinking about each other. How could there be any delay in communication on this matter?

So it's okay for other people to say this. As long as we think it's feasible, we can figure out all these things without anyone's explanation.

Qin Yuan, I think you are right. In fact, we cannot completely rely on anyone else for our current channels. We should make ourselves believe it.

For example, Thor's matter is a very big challenge for us. Thor, he is no longer willing to help us anymore, this is very certain.

No matter what happens next, we have to solve it ourselves.

This has also put a lot of pressure on us. You see, the manpower we need is now insufficient. This guy He Chenguang is not worthy of trust.

So, we have to think of other ways, which puts a lot of pressure on us. I think we should think about it carefully.

No matter what kind of situation we encounter next, we cannot let others make it difficult.

I have also made it very clear that what other people think is not important at all, what matters is the truest thoughts deep in our hearts. "

An Ran, after talking about these things, Qin Yuan was really enlightened.

"An Ran, thank you for being able to tell me this when I was confused.

As you just said, we don't know exactly what kind of deal there is between Lei Shen and Du Bingbing. We need to ask Lei Shen in person after returning to the army. "

"Where is instructor Gong Jian?

When he was in the army, he valued you very much, especially in this regard. He was never stingy and was willing to help us speak.

Although his position is relatively low, after all, he is still an internal person who can help us. I think he should not know at this moment the trouble He Chenguang has caused us as a US spy.

In fact, he should hold a lot of secrets in his heart, but we have no way of knowing it for the time being, so there is nothing more to say about this matter.

As long as we think it is the most correct choice, others will certainly not have any concerns.

However, this will test the relationship between us. If we can think about it carefully, there shouldn't be any big problems.

However, Du Bingbing will not help us so easily. They will definitely make some deals with us. I also know that each of us has our own ideas, and we are all troubled by this matter.

Even though I have nothing to say after saying this now, the most important thing about other thoughts is that I hope all of you can understand.

No matter what happens, we are definitely responsible for it.

Azhe, what he said just now is that he is willing to send us back. This is really a very good choice. I think what Sister An Ran said is very reasonable.

We don't need to reject him, but we can stabilize him temporarily and see what channels he provides us.

If he provides us with a sea channel, then we can find another air channel.

If we ask Du Bingbing for help, as the chief of staff, he can contact our embassy in Pakistan. It is also possible to send a helicopter to take us back by then.

The embassy should have a high degree of autonomy in sending us back, and it is definitely much easier than we thought.

Instead of insisting here all the time, we might as well think of other better ways.

I think we can keep what Azhe said. If one day we are really desperate, we have to ask this guy for help.

Qin Yuan, I know you don't want to cooperate with this person, but you have to weigh it carefully. The problems we are encountering now can no longer be delayed any longer.

Now that Efit has decided to join Mr. Norman Karim's camp, this just shows that Mr. Norman Karim may not be willing to pursue your cooperation with him anymore.

This means that we have lost the value of utilization now. Once we lose the value of utilization, I am afraid..."

Chen Jixiang, after analyzing these things, Qin Yuan also looked at him with admiration.

In the past, I just thought that this kid was a little smart, but I didn't expect that he would be able to help me plan these things now, and it wouldn't be in vain to bring him out to practice.

It really provided a lot of help to myself.

After An Ran heard this, she also felt very relieved. Now that Chen Jixiang was there, this boy could help Qin Yuan, and they would no longer be nervous about this matter.

Maybe after this matter is finished, they can all feel relieved.

After all, for this group of people, many issues may not be worth mentioning in their minds, but the topic they are talking about now is indeed related to the interests of many people.

Mr. Norman Karim is actually planning to cooperate with Efit now, so he will definitely not continue to cooperate with Qin Yuan. Efit and Qin Yuan are simply natural enemies and cannot even coexist. .

Therefore, Efit may be able to help Mr. Norman Karim, but he will definitely provide some conditions, such as asking Mr. Norman Karim to embarrass Qin Yuan.

Thinking of this, they all became very anxious, especially An Ran.

This issue may have been overlooked before.

Mr. Norman Karim regarded Qin Yuan as a talent, so he said that Mr. Norman Karim would try his best to satisfy him. Even if he knew that he was unwilling to cooperate with him sincerely, he would definitely be tolerant of him and not kill him.

It's different now. They already have a new partner. Doesn't that mean that if Effit doesn't want Qin Yuan to stay here?

I am afraid that Mr. Norman Karim will also follow suit, and then Qin Yuan and all of them will be in great danger.

When An Ran thought of this, his hands began to tremble.

Qin Yuan sat on the bed and saw An Ran's hands trembling and was very concerned.

"An Ran, what's wrong with you?"

I see that your hands seem to be shaking all the time. Do you have a cold?

What you have been going through in the past two days has been really serious and caused you a lot of trouble.

It's okay, don't worry, it will be fine after we get out of this incident. After we return to our own territory and return to the army, I will definitely ask Thor to find a military doctor for you and take a good look at it. "

"That's not the case, Qin Yuan, you misunderstood me.

I'm not scared or trembling, I just suddenly thought of a very important thing, and we have to take this into consideration.

If we ignore it, it will be a great loss for each of us. Please listen to me and tell you slowly. I just suddenly thought of the relationship between you and Efit. .

They have always been incompatible with each other and dislike each other. Now Efit has decided to join Mr. Norman Karim's team.

That means that he will definitely be dissatisfied with us. If he makes any demands, such as getting rid of you, and Mr. Norman Karim wants to do it, we will be in danger.

This is their territory, we have to be more careful. Now that Mr. Norman Karim is protecting you, you can naturally do whatever you want here unscrupulously.

If, after the next step, the other party has other questions about us, that would not be good.

This situation will be a very difficult problem for us to solve.

Therefore, if it really doesn't work, let's run away quickly. After running away, the other party may not be able to find us, so there won't be any embarrassment.

It won't be like the current situation, where we all stay here shivering, which can be considered frightened. "

After An Ran finished talking about these things, Chen Jixiang did think so.

Everyone agrees with this matter, and everyone is sincerely worried about Qin Yuan's safety. Although everyone knows that Qin Yuan is not an ordinary person, he is very capable and seems to have super powers. Same.

Even if they don't know that Qin Yuan has such a powerful system behind him to help him, everyone can still feel that he is extraordinary.

It's just that after Qin Yuan heard An Ran say these things, he not only didn't hesitate nor had anything to worry about, he actually took the matter of breaking the law seriously.

"An Ran, after you said this, I understood what you were worried about.

It doesn't matter, I can tell you clearly, just keep your heart in your stomach. This guy Efit will never dare to do anything to harm my life and safety. I can guarantee this.

And I also have enough confidence. If we run now, where will we go?

This is the territory of Mr. Noman Karim. He has always covered the sky with one hand in Pakistan. No matter how far we run, we can't escape from his sphere of influence.

Fortunately, Azhe has decided to join our camp now.

He is the most proud person around Mr. Norman Karim. Once he betrays us, we have nothing to worry about. Now let's see what Mr. Norman Karim is planning to do between Jason and Efit. What kind of cooperation is there?

Jason will definitely find an opportunity to contact us again, and this secret won't last long.

There is nothing for us to be anxious about. If there are any problems next, we can just solve them together and we won't be so anxious.

Especially the situations in front of us, I have already talked about it here, so you should listen to me carefully.

Even though these current problems are troublesome, we must not shrink back because of them. Thor has told us more than once.

Never shrink back as a human being, let alone be a coward.

There is no need for cowards in the army. If we are afraid to shrink back and run away now, then this mission will not be completed at all.

Therefore, Thor will feel very disappointed with us.

As for me, in fact, I don't want anything else in my life. I am just afraid that others will be disappointed in me and never trust me again.

I am also the king of soldiers among the special forces. I have never failed in any mission, and it is the same this time.

All you need to do is trust me and leave the rest to me. I will definitely not let you down. "
