

## Special Soldier 2211

Chapter 2211 System upgrade to version 4.0

An Ran was still a little worried about Qin Yuan.

They all know that Qin Yuan has gone through so many things, and he has really shouldered too much. It is really unreasonable for him to pay for everyone's things alone.

"Qin Yuan, when you were in the army, you were a very delicate and heavy-minded person.

If you have anything to say, you don't want to tell us friends clearly. You are just responsible for these things alone.

I hope you don't put all the pressure on yourself. With so many things, don't you really consider letting us help you share them? "

Chen Jixiang was also beside him and continued what An Ran said.

"Yes, Brother Qin Yuan, it is imminent for us to go back now. If you have to bear all this alone, we will really be worried."

"You two, just relax and leave this matter to me.

Moreover, didn't Du Bingbing agree today? He will definitely help us find a good way back.

He is in contact with the embassy, but there should be no results in a short time.

Because you need to go through procedures, and they are transnational procedures.

You also know that the high-level people in the army are generally not that efficient in doing things. Unless someone specially urges them repeatedly, they can pay a little more attention to this matter. "

Chen Jixiang shook his head helplessly after hearing this.

"The efficiency of these people has always been like this. As a new recruit in the army, I have experienced it."

"That's fine then."

"Du Bingbing, since he has promised me, I believe he will definitely be able to help us accomplish these things. Since we have asked him for help, we should trust him."

"Yeah, An Ran is more knowledgeable than you. What you said is what I think, and he is now the commander of our team.

Even if it is not for us and for his own future, he will definitely do his best. "

"No, mainly for you, he can do his best."

After An Ran finished speaking these things, the environment suddenly turned cold.

Everyone didn't know what to say, especially Qin Yuan. He didn't want this matter to involve his and Du Bingbing's personal emotional issues.

"Let's go back and rest first, and recharge our batteries. There are still many things waiting for us to do. In case the embassy has contacted us in advance, we have to have a plan for the next step."

"What about He Chenguang? What should he do?"

"In the short term, we cannot affect his plans.

I believe that his superiors still have some relatively private plans for him. We just need to protect our secrets and not let others know.

As for what plans they have, we can't control that much. "

An Ran was still a little worried about He Chenguang. He didn't want to cause trouble at this critical time.

"Let's do this. Chen Ji wants you to go rest first and leave the rest to me. I'm going to watch He Chenguang outside. He has been colluding with Xiaolan. We don't know what the two of them are discussing. clear."

"This Xiaolan has indeed caused us a lot of losses. It's best to get rid of this guy completely."

Qin Yuan was still a little nervous when he heard what Chen Jixiang said, fearing that it would be terrible if the child did something outrageous when he got excited.

"Chen Jixiang, I must remind you to calm down quickly and don't have other thoughts."

"Brother Qin Yuan, how could I do this?"

Even in a foreign country, I always remember that I am a member of the special forces of country H. "

"It's good that you can understand this. At least we won't live up to Thor's expectations and requirements for us.

In fact, he should be quite anxious. Let's just stop here with the embassy matter. If someone helps us contact him, we don't need to worry about it.

However, after the contact is established, you may have to go to the consul Wang Xin of the embassy in person.

Du Bingbing said that this person was his classmate in college, and the relationship between the two people should be quite unusual. Otherwise, he would not ask this person for help for such an important matter. "

"It seems that Du Bingbing has really paid a lot for us. You have to treat us to this spicy hotpot."

"You brat, it's been so long and you still make fun of me.

Go back and have a good rest first. If necessary, you must be optimistic about this guy as An Ran said and don't let him do something too outrageous.

We can no longer bear any hardships. Before embarking on the journey back, we must not continue to cause trouble here. "

Chen Jixiang and An Ran nodded, and they left without any other reaction.

After Qin Yuan saw this situation, he had nothing to say.

The key is when can I solve all the problems of these people?

"Finally I'm the only one left here. I need to contact the system first to see if he has any good ideas.

I haven't contacted the system for a long time. Fortunately, I have the help of such a system by my side. Otherwise, I would really have no confidence in doing things. "

"System, system, come out quickly. I really need your help now."

After Qin Yuan finished speaking, a screen lit up in front of his eyes. This was a familiar feeling to him.

"In the past, when you appeared in the system, the screen was always blue. Why did it turn into a white screen today?"

"Dingdong, hello, director, long time no see. I'm glad to be able to serve you again. The system has been upgraded after a period of rest and has now been upgraded to the 4.0 system."

"4.0 system?"

Qin Yuan still has some doubts. This system is already very powerful. Now that it has been upgraded to the 4.0 system, it may bring a lot of surprises to him.

"It seems that your systems are really smart. You were able to upgrade them yourself without benefiting from me, and you even upgraded them to a new version.

Seeing so many changes, I seem to be a little anxious.

I usually use black boxes and white boxes to exchange certain abilities. What does it mean that you have a blue box this time? "

"Ding dong, remind the owner that the current system has been upgraded to a new version. The blue box represents new functions, which means that the owner can continue to develop more functions to serve your life."

Qin Yuan became even more interested when he heard this.

"What is the function of the blue box? Tell me quickly, I'm really curious."

"Ding dong, the blue box represents a new physical upgrade, which means that as long as the owner exchanges a certain ability, he can obtain related physical abilities."

"Physical upgrade?"

What difference does this make? In the past, when I exchanged, I could also increase my ability in a certain aspect. This time, I was a little caught off guard. "

"Dingdong, the physical upgrade of the blue box in version 4.0 is mainly that the owner can use other people's special abilities on his own body.

For example, you can transfer all the corresponding academic knowledge and knowledge that others have learned to yourself, or you can transfer the characteristics of a certain animal or object to your own body, allowing you to completely Become a person with super powers. "

Qin Yuan was stunned now.

He thought to himself, I'll go! This is so cool~

If I could really have so many superpowers, wouldn't I become a superhero now, just like the one in the movie?

By then, I, a special soldier, would be making a fuss out of a molehill. I should be protecting the universe.

No, when Qin Yuan thought of this, he suddenly discovered that there was a misunderstanding in his thinking. What kind of super power he could acquire must be that others had this ability.

However, he had another idea, that is to say, if he transfers the knowledge that others have learned to himself, then he will become an academic expert, no matter what.

"System, what you said really made me very interested, but what I'm more curious about is that even if I obtain this kind of superpower.

So can these people who have gained superpowers from me still be the same as before?

Or, it's like some kind of ability transfer. After I gain superpowers, their abilities will be wiped out.

To completely become a useless person is equivalent to stealing these abilities from other people's bodies. This is the behavior of a thief and I cannot do it. "

"Dingdong, Master, you don't have to worry. In this case, the corresponding skills you acquire do not affect the original owner's ownership of this ability."

"Aoao, if you want to say that, I understand. It means that I can obtain any ability with the help of the system. If that's the case..."

Qin Yuan suddenly thought of a very good idea.

It was through the brand-new functions of this system that he obtained the knowledge that Professor Fang De and his two students could learn and master, and even obtained the knowledge from Professor Fang De.

By then, he can become an arms expert.

The knowledge Professor Fang De has learned in his life is not wasted, and will be cremated with him when the time comes.

Thinking about it, this is indeed a very good idea. If he can obtain the relevant information held by Professor Fang De's two students, it means that he will not have to go to all the trouble to bring back the two hostages.

However, this idea only occurred for a few seconds.

Qin Yuan turned around, and he understood the meaning of why he came here.

First of all, if he acquires this ability, he will have no way to explain it to others when he returns to the army. He cannot tell others. He has a system that can help him obtain these things.

Secondly, as a member of the special forces, he deeply understands the importance of completing the mission, which means that he must complete the mission when he comes here today.

No matter what happens, it must not affect the progress of his mission. This is the responsibility of a special forces soldier.

Furthermore, so far, he has come to save Professor Fang De's two students not just because they have a certain ability. If it comes to mastering knowledge and ability, Professor Fang De may not have the help of these two students. Be able to do your own research.

For Professor Fang De, these two people are by no means as simple as his students.

They treat them as their own children. The emotional value they can provide is far different from the technological value and cannot be compared at all.

Thinking of this, Qin Yuan completely nipped this idea in the bud. He absolutely could not do this. Professor Fang De's two students must be taken back.

"Well, if you say so about the system, I'm quite curious, and I also want to try this new function.

It's just that I don't have so much time so far. I will try it again when I have more time when I return to our country.

Now you have to help me find a way back. "

"Dingdong, as long as the director requests it, we will definitely do our best and help the master find a way to go back.

Based on the system's scan of the owner's mind, it has completely understood your inner thoughts.

It seems that you don't particularly trust either the embassy or Azhe, and you want to have another information channel that is exclusive to you. "

"The system understands me better. I am not used to leaving my destiny in other people's hands. I am used to controlling my own destiny and controlling everything.

This means that I must have a definite answer to these things now. I will not fight a battle that I am not sure about. "

"Dingdong, the system shows based on the current information that if you really want to have a channel to go back by yourself, it seems that you still have to trouble Fan Tianlei about this matter."

"Thor? He is no longer the mission commander of our team.

Even if we trouble him, we have to go through Du Bingbing. If we contact him without permission, Du Bingbing will definitely be unhappy if he knows about it, which will also affect Thor's status in the army.

No matter what, we can't act so selfishly. We must consider other people's thoughts and ideas.

Your idea is not a good one, and I don't really agree with it. Is there any other channel? Please help me think about it. "

After Qin Yuan finished speaking, he only saw a refresh button that kept spinning in a circle on the system screen.

"It seems that the system has really been thinking after listening to my words, so let's give him some time to think, and at the same time, I can use my own brain to think carefully.

Which channel is the most reliable, and only I can control it, and I cannot let others know. "

Chapter 2212 System upgrade, double cheating again

Qin Yuan is talking to the system.

Now his system has been completely upgraded to a brand new version and has entered the 4.0 era.

This also means that he will have many things and opportunities that he can take advantage of, and this will be a once-in-a-lifetime opportunity for him.

It's just that although it provided him with strong support, Qin Yuan still doesn't know clearly how to use this system.

"The system, as you just said, has been upgraded to a new version, and I feel very excited about this function after you finished talking about it.

It's just that you didn't tell me how to use this function. "

"Ding dong, the system prompts the owner that there is a laser scanner inside each small blue box. If you get this laser scanner and scan it, you will be the holder of the ability you want to obtain, and you will obtain this ability."

"Is it that simple?"

"Dingdong, of course, this function requires certain system data to support it."

"Just tell me what price I need to pay. In the past, I needed merit points, but what do I need now?"

"Dingdong, getting the right to unlock this function still requires a lot of merit points, so the host is kindly requested to work harder."

Qin Yuan feels that he is about to be fooled by this system now.

Although the system has been upgraded, he is almost cheating again, but he still needs a lot of merit points as support, which means that he has to exchange some with others.

"Okay, it's the same as what you said.

I don't have much hope anymore, I just want to go back as soon as possible.

However, if it comes to the embassy, I'm afraid I need that super strong negotiating ability to communicate with them, otherwise I won't have any advantage. "

"Dingdong, according to the system's scan, the master's negotiation ability has reached the top level now. There are no problems. No other assistance from the system is needed."

"Hey, I also want to thank you. This system has affirmed me. In this case, I have nothing to say. You should leave first. I need to take the initiative to contact the H country troops. "

"Dingdong, does the master need any other help?"

"You don't need any other help for the time being. Just upgrade it slowly. When will I be able to upgrade to the point where I don't need these things anymore, I will be happy."

After Qin Yuan finished speaking, he only saw the screen in front of him dimming and the system gradually disappearing.

Although he has obtained a brand new function, he does not have any plans to activate it yet.

Maybe, it will definitely be helpful in future tasks. I have simply reached the peak of my life again.

"Finally I'm the only one left. I can be a little quieter. At least I know that this system is around. I'm not too worried.

Now we have to ask Fan Tianlei what he thinks of the embassy and whether he supports our decision.

After all, casually alerting the embassy still requires a lot of procedures. If Thor doesn't agree, then forget about it. "

When Qin Yuan was in a daze, Azhe suddenly sent Qin Yuan a contact phone number. He was really caught off guard.

"Azhe, you just contacted me and came to see me again. Did something happen?"

"I'm going to tell you something that may surprise you.

However, it is best for you to be mentally prepared in advance. If you discover these things without knowing it, I think you will be under a lot of pressure. "

"Azhe, what happened? You had better tell me in advance, so you don't have to make me wait here for so long."

"That's right, since I found out about this, there's nothing to explain.

Jason, he just agreed.

Even if this guy Efit is involved, he is willing to join our group and fight side by side with Efit.

How about it? Will you be very surprised after hearing this news? "

"Jason, the decision he made has nothing to do with me. Since he has already agreed, I have nothing to say."

Seeing Qin Yuan so calm, Azhe had some doubts.

"Jason, I pretended to surrender to Mr. Norman Karim just for you, but now you are so calm about this matter and don't care about it.

Do you know how much useful information he has? If this guy really betrays you, you may not be able to return to your country H at all. "

"No matter what you say, Jason used to be my good brother.

If he feels that betraying me would be very beneficial to him, I have nothing to say. Now that the initiative is in his hands, what can I do if I am anxious. "

"I think you are going crazy now. You can't care about anything so much. What are you thinking about? It's time for you to go back quickly."

"Azhe, you also know what my mission here is this time, namely these two students of Professor Fang De.

Now, the only person who has the exact location coordinates of these two people is you.

You are the only one who knows where they are. If you are willing to tell me, I can go back now without causing any further trouble to you.

Although I know that you and Sophia may be doing some tasks in secret, I don't want Mr. Norman Karim to know about it, and I don't want to be involved in these things with you.

It's enough that we each do our own thing, and there's no need to think about anything else. You'd better hurry up and tell me first, when can I let you tell me all the truth. "

"Qin Yuan, it turns out that you are still very anxious about this matter. In the past, your attitude seemed indifferent, but now I have changed a lot."

"I want to know where these two people are. This is my mission as a member of the special forces and the purpose of my coming to Pakistan."

Azhe sighed helplessly after hearing this.

"Qin Yuan, I can't control so much other things, so I'll just tell you the truth.

In fact, Professor Fang De's two students did not play a big role at all, although they seemed to be experts in arms dynamics.

But in fact, they are nothing compared to their teacher, Professor Fang De. All the core technologies are in the hands of Professor Fang De, and these two people cannot do any experiments alone.

Moreover, they still don't understand the language with us, so we have to find a translator when we need to communicate with them.

In other words, there is simply no use for him to stay here.

In fact, Mr. Norman Karim doesn't particularly care about these two people anymore. The reason why he has never planned to release them is because he just wants to take advantage of them.

Maybe there will be some opportunities in the future, after all, a lot of money has been invested in them.

Maybe you don't know Mr. Norman Karim very well. He is a person who demands rewards for his efforts. If you can pay all these funds, you will not let him go to waste.

Make it profitable for him, and maybe he can release these two people directly and let you go back.  
"

When Qin Yuan heard what Azhe said, he was so arrogant.

"Azhe, maybe you and Mr. Norman Karim have been together for a long time. You don't know what money is. A lot of money is a small amount for you, but for me, I may not be able to make it back in a few years." "

"That's probably not the case. You are such a powerful hero and should be highly valued in the army. The other party is also willing to provide you with many generous conditions. Now you are crying in front of me and saying that you have no money. I don't believe it either. "

To be honest, Qin Yuan did ask Fan Tianlei for a lot of money before joining the army, but at that time he squandered it all to make himself more comfortable.

If it were really used for something now, he wouldn't be able to use it much, but a smaller amount would definitely be fine. It's just that he didn't want to talk to Azhe about money easily now.

"Azhe, when you say this, I seem to understand that you should be more honest as a person.

Since you want to ask me for money, you can just say you want a reasonable amount, and then secretly put these two people back, and I will still be able to meet your request. "

"Okay, please speak quickly.

The two of us are happy people together, so naturally we don't need to talk too much nonsense.

Now that this matter has been satisfied, I have nothing to say. The key lies in how to deal with this matter in the future. "

"Okay, that's it for now. Then just tell me what you think. How much money will it take to release him?"

"Fifty million!"

"H country's currency?"

"My appetite is not that big, just Pakistani currency."

Qin Yuan is a very smart person, and his brain works very quickly. He immediately calculated the specific amount of money in his mind. Although it was not as exaggerated as he imagined, it was still a large amount of money.

"I don't have that much money now, can I have a little less?"

"Qin Yuan, do you think you are bargaining in the vegetable market now?"

Although these two students, Professor Fang De, are not of much use, if I sell them to Old K, they may be much more than that. "

"Do you have any connection with the United States?"

"Business cannot be just hanging on a tree. It's the same with you. If you don't agree, I'll do the deal with someone else."

"Well, I think that after communicating through Sophia, our relationship may be different from other people's, and we can be a little more open-minded towards me. It seems that no matter who you attack, it's the same. It costs the same amount of money.

Logically speaking, you are Mr. Norman Karim's right-hand man.

You should have accumulated a lot of wealth over the years, why are you still so greedy? Does this money really make sense to you? "

"Who in this world would hate having too much money?

Of course, the more of these things, the better. Once we have money, we have a lot of freedom to choose.

Sophia and I, even if we leave the group in the future, we will have enough living conditions to ensure that we will not be like Jason, who is now in this desolate state. "

"Yeah, you're right. Since you already have the idea of betraying Mr. Norman Karim, why don't you quickly choose to leave while the chaos is happening?

After we leave, it will not be easy for you and Sofia to leave again. "

"What do you think?"

Azhe's rhetorical question immediately made Qin Yuan understand why they didn't leave quickly.

It turns out that it was all for Hassan. Hassan's safety issue has not been resolved yet, and it is impossible for Azhe to leave him alone and take Sophia away like this.

It seems that there is still room for careful discussion on this matter.

"I can understand that Hassan is a reason why you are worried. Do you plan to take him with you?"

"It is impossible for him to leave with me. He must stay in Pakistan. Even if he is now a disabled person, he will never give up his country and go to a foreign country. So as long as his safety can be guaranteed can."

"He did a good job as an undercover agent at the beginning and was considered promising. Why was he exposed and turned into this after he came back?"

I believe it is related to Mr. Norman Karim. "

"This is all in the past, so don't mention it again. Hassan won't tell you. Anyway, generally speaking, you have nothing to do with these things, so don't worry too much. .

The most important thing is to quickly find a way to save Professor Fang De and these two students. I don't want to embarrass you.

As long as you can afford the price, you can take these two people away at will.

Mr. Norman Karim shouldn't mind either, because the two of them don't have much use value anymore. For people who can't do experiments, they are not much different from useless people.

Keeping them is just a waste of your energy.

I can only tell you this much. If you agree, we will make the next step quickly. If you don't agree, I won't talk nonsense.

We can only think of other ways. If these two students of Professor Fang De have no use value, Mr. Norman Karim will have to deal with them. "

"Don't mention..."

Qin Yuan couldn't help but stop him.

"Let me think about it, this money is not a small amount to me. I am not as rich as you think, and the special forces in the army are not as profitable as you think."

"I understand that the money is neither too much nor too little. It is still difficult for you to take it alone. You may need time to discuss it with An Ran. I believe he should have some savings."

Chapter 2213 Raise money first and then talk

Although Azhe said he wanted a lot of money, Qin Yuan knew very well that if he really couldn't provide it, he would have to think of other ways.

"Azhe, money is indeed a good thing. I can't provide that much money on my own, and I think the money you want far exceeds the value of it."

"Qin Yuan, what do you mean by that?"

Could it be that you mean that these two students of Professor Fang De have no value in your heart?

In other words, they are far less than what you have to pay.

If this is the case, I have nothing to say. I can only tell you that the key is that the current problem is very troublesome, and what you say does not count at all.

Moreover, the initiative is now in my hands and in the hands of Mr. Norman Karim. Maybe others also have some initiative, but it is not in your hands.

You have to think carefully, even if it is for yourself, don't be so stingy.

You should know very well what the consequences of being greedy for money will be. "

Qin Yuan heard Azhe say this and sneered beside him.

"Azhe, what you said is a bit too ignorant. How could I be greedy for money? I just think it should be worth the money."

"Then you can tell me what, in your eyes, is worth the money?"

"In addition to these two students, Professor Fang De, you should also provide me with something else to show your value."

"I don't think I need to provide something to prove my worth in front of you, because I feel it is pointless."

"Azhe, what you want to do most now is not to get more money, but to take Sophia away from Mr. Norman Kalim's group.

I don't know what kind of conflicts there are between you.

Perhaps for many people, joining Mr. Noman Karim's camp and gaining his trust is a good thing that they never dreamed of.

But you are still anxious to leave. Maybe you want to go ashore while everything is safe, right? "

After Azhe heard Qin Yuan's analysis, he did not object, but he also did not give any answer.

"Qin Yuan, what the two of us are discussing now is how to save the two students Professor Fang De, isn't it?

In this case, I don't think there is any need to consider other things. Let's get down to business. When can you raise the money to me? "

"It seems that money is really important to you. I don't have that much money, so I can only ask An Ran.

However, I have a very important question that I urgently need to tell you. "

"Jason?"

"It seems that you are really a very smart person, you figured it out so quickly.

It turns out that you already have a definite plan for these things in your heart. In this case, I have nothing to say. The key is whether you are also interested in these things. "

"If Jason stays in the group, it will definitely have a great impact on my personal status.

To be honest, I don't want him to stay, but now he seems to have accepted Efite as a person and the things that happened between them.

I think he may really want to betray you. Even if the things you discussed at the beginning are false, it may have changed for him now. "

Although Azhe said this, Qin Yuan definitely didn't want to believe that the brotherly love between him and Jason was gone.

"Jason, you were planning to join your group just because of me.

Now that there are other solutions to this matter, I don't think he should be allowed to stay here any longer and undergo the test of Mr. Norman Karim.

Please notify me and ask him to come back quickly. "

"Qin Yuan, let me see if you are used to coming and going freely. Do you really think Mr. Norman Karim's group is a vegetable market? You can come and go at will."

"I didn't mean this at all. You also understand why we got to this point in the first place, and the next thing will be more complicated.

You already know the specific locations of these two students, Professor Fang De, and are willing to exchange information with me.

Then there is no point for him to stay, and he has to kill Hassan, which is his mission.

If you want to protect Hassan, get him back as soon as possible. It will be good for both of us. "

After Azhe heard Qin Yuan's words, he thought about it again and again.

"Jason also has a daughter, Mr. Norman Karim, who can provide him with generous medical resources."

"I can also still have some resources in my hands.

As long as you are willing to cooperate with me and help me with this matter, there will definitely be no solution that cannot be solved. The key lies in how we all deal with this problem. "

"Well, I don't have anything to say. The problem is that you have to inform me and ask him to come back as soon as possible."

Qin Yuan's tough attitude made it impossible to refuse.

"Well, let's do this. When we find a chance, Jason and I will come out and talk to you about this matter alone. We also have to tell you when is the best time to rescue people."

"What can that do?

Anyway, we have reached this point now, and if we continue to refuse, it will not make much sense.

Efit's current situation is also relatively complicated. The key lies in how to make the problem at hand go smoothly. "

"Jason, when are you going to visit Hassan's hospital?"

"I don't know about this. The task was given to him by Mr. Norman Karim. How to arrange and plan it is his own business. It seems that we don't need to interfere so much."

"Okay, let's do that. Do you have to wait until I collect all the money before you can be willing to tell me the specific locations of Professor Fang De's two students?"

If there is no money, then there is no need to discuss this matter? "

"Yes, I have formal uses for all the money. As long as you are willing to provide it to me, I will definitely not let you down, and I will be willing to hand over these two people to you."

After Azhe finished talking about these things, Qin Yuan was now troubled. Although money was not a big problem for him.

But after all he calculated, it was basically all his savings.

Once the money is spent, it is impossible for Fan Tianlei to reimburse himself.

Qin Yuan didn't feel sorry for the money. He just felt that there was no need to be blackmailed by this guy when there were better channels. Thinking about it, he felt aggrieved.

"Azhe, I told you just now that I don't have much money on hand. Let me discuss it with An Ran."

"Then I advise you to discuss it quickly, time waits for no one."

After Azhe finished speaking, he hung up the phone directly, and now Qin Yuan was left alone to think about these things.

For him, many problems are indeed not as easy to solve as imagined, but he doesn't want to just take out the money.

So, Qin Yuan opened it directly and checked his account balance on his mobile phone. The calculation was about the same. He was indeed able to withdraw all his savings.

"I only have this little money left~

No matter what, I have to save some for me. It's not that I'm stingy and don't want to use money to do things. It's just that after the money is taken out, the higher-ups in the army will definitely not reimburse me.

At that time, won't it become my own loss?

Although I am a special soldier, I am not taken advantage of. I am not willing to do anything high-minded. If it were not for these two students, Professor Fang De, I would not have lost so much money.

no! I still have to have a good talk with Fan Tianlei or Du Bingbing. "

As he spoke, he checked his balance.

It's impossible for Qin Yuan to say that he doesn't care about money. This is all his hard-earned money, which he blackmailed Fan Tianlei before joining the army.

"Thor God, you are fine now. You are so peaceful at home, and you don't have to worry about any of our affairs."

"Qin Yuan, I told you, you brat, don't be so arrogant in my place. If you have anything to say, just say it directly."

"The time to complete the task I promised you is coming soon. I still don't have any news. Aren't you anxious?"

"Du Bingbing, you have officially succeeded me and become the commander of your team. What else do you want?"

"Thunder God, Du Bingbing, how can he compare with you?

It's just a girl, and he is quite persistent in many things. He will only help us if we ask him. "

Fan Tianlei smiled after hearing what Qin Yuan said.

"That means you are indeed encountering some difficulties now. Do you want to ask me for help?"

"There is a person named Azhe next to Mr. Norman Karim. He seems to have his own plan and is willing to provide me with the specific locations of Professor Fangde's two students through some monetary transactions."

Fan Tianlei couldn't help laughing after hearing what Qin Yuan said.

"Sometimes I really don't understand. You might be said to be greedy for money, but you are willing to give a lot of yourself.

Say you are a good person, but now you are worried about money again. "

"Thor God, I tell you, don't think too extreme as a person. I am a good person and I care about money, so there won't be any conflict at all.

I just want to tell you, can you think of a way for me? The amount he wants is not small. "

"How many?"

Qin Yuan didn't say anything. He directly sent the balance of his bank card to Fan Tianlei.

"It seems that he wants all your savings, so you got anxious and called me in a panic."

"Thor, as a chief of staff for so many years, you have no children of your own and are not married. You must not know how important money is to a man.

I don't think you can even spend the money.

I was in the army all day, and I didn't go out to buy anything or have any other entertainment.

You have saved all this money, you should be the richest person among all of us. "

Fan Tianlei couldn't laugh or cry after hearing what Qin Yuan said.

"Is there any conflict between me having money and me not spending money?"

You kid obviously wants to blackmail me. You already blackmailed me once before you came to the army, and now you want to take my money.

What I gave you were all my personal savings. After being in contact with you for so many years, not only did I not save more money, but I was blackmailed by you. "

"Thor God, you see that you are so excited, does that mean that money is indeed very important.

Don't be so stingy, I don't want you to pay the money alone.

Of course, I can't afford so much myself. What I'm showing you is all my savings.

Apart from these, I really don't have a penny left. I think the army should pay for this matter, and neither of us should use our personal savings to advance the payment. "

"It is impossible to ask the army to pay for you. It is impossible for me to agree, and it is even more impossible for Du Bingbing to agree to you. I advise you to give up this idea quickly and think of other ways to raise money. "

"The country of Pakistan is a mixed place. It's very easy to make money here. It just depends on whether I am willing or not."

"I said, you kid, are you threatening me?"

You must not joke about your future, because with such a small amount of money, you will go astray. How should I explain to the senior management? We all let you go in the first place, but we believed in your character very much, so don't do this to me. "

"Thor, haven't you ever heard of a hero being killed for a penny?"

Fan Tianlei was completely speechless by Qin Yuan. He had no choice but to pamper his soldiers.

"Where's An Ran?"

"He is not with me now, and I have to make it clear to you that you must not have any ideas about him."

"I know that the relationship between you two is very unusual, and you won't be so protective of your shortcomings."

"Thor, this has nothing to do with the personal relationship between the two of us. I just think it is really difficult for him to be a girl wandering outside. He has been performing field missions for so many years.

We all know very well how he saved all the money in his hands. Don't try to influence him. If you want An Ran to be involved in this matter, then I can only spend all my savings. . "

Fan Tianlei did not expect that Qin Yuan would be so kind to An Ran and Jingran, and that such a stingy person would be willing to spend all his savings on tasks after hearing about An Ran.

No one had thought that the God of Thunder was just testing Qin Yuan.

Of course, it's impossible to just watch him bear all this alone.

After all, it is not a small number. It is really too much for one person to bear the pressure.

Chapter 2214 Thunder God is really too broad

Qin Yuan didn't mean to blackmail the God of Thunder by saying so much.

He just felt that since he had given something, he must let others know about it. Of course, including Thor, there was absolutely no way he would let his contribution become meaningless.

Fan Tianlei is not a stingy person either.

Especially at such a critical time, he would definitely not hold Qin Yuan back in terms of money.

"Qin Yuan, I will only tell you this once, and I will only tell you one person. Since the current situation is like this, then I will help you pay part of the money."

"Part of it?"

"You brat, you have money in your own hands, but you still want me to give it all out? And after you pay, tell Du Bingbing and ask him to go back and find time to reimburse you."

"Du Bingbing, as a newly appointed chief of staff, it is impossible for him to reimburse me. Although he is quite rich himself, he will never occupy public resources."

"As long as you know."

Qin Yuan understood at once that Fan Tianlei might have said this because he wanted Du Bingbing to contribute, so that if everyone worked together to complete a matter, it might be much easier to solve than imagined.

"Qin Yuan, I know very well what kind of person you are. Well, I don't have much funds that can be embezzled for the time being. I'll give you one million first."

"one million?"

Qin Yuan was simply dumbfounded. He had already blackmailed Thor once when he first came to the army. He didn't expect that this guy still had so much money in his hands. It seemed that he had really found the right person.

"Thor God, are you too rich?"

"I said you must not misunderstand. The reason why I have so much money in my hands is because I have not corrupted or violated the law, nor have I done anything illegal.

Mainly, I want to tell you that, just like you said, I am not married and do not have a wife and children to support.

I have room and board here in the army, so I don't need to spend any money at all. In addition, I am a relatively good person. After so many years of promotion and various bonuses, I finally have this.

When I gave you that money, the army later tried every means to reimburse me.

This money is all my savings. I saved it by frugality. You have to give it to him to use it just right. "

Fan Tianlei is a real person, and Qin Yuan knows that it is absolutely impossible for him to lie to him about money.

"Thor God, it's really hard for you. You have to give me all the money you spent so frugally."

"So you don't need my help?"

"Of course not, hehe, I still want the money.

However, logically speaking, I have to go through the process of saying these polite words, otherwise I will appear to be too impersonal. "

"Don't go through these useless procedures between the two of us. After this time and experience, we should think about how to spend the money just right.

Don't let this guy Azhe deceive you. He is very clever with Mr. Norman Karim, and you have to figure out what exactly he wants so much money for.

You don't really want to elope with Sophia, do you?

Do you think he can really escape the clutches of Mr. Norman Karim? I think it is very likely that his money was used for Hassan's retirement. "

"Thor, your idea is really too bold. Hassan is an old stubborn. He has now become a disabled person and is unwilling to leave Pakistan.

How could it be possible to use this money for retirement? He's not that kind of person. "

"You would also say that he is now a disabled person. Otherwise, you should ask Du Bingbing how much it costs to make a top-notch prosthesis."

"That's right. Hassan is no longer the free-moving person he used to be. He has become a disabled person and will need to be taken care of in the future. Plus prosthetic limbs and all kinds of messy expenses, he really needs money. .

However, I really don't understand what the relationship is between Azhe and Hassan?

Would he have no money following Mr. Noman Karim for so many years?

It's really too much to blackmail us. Sometimes being too greedy is not necessarily a good thing. He will have to pay the price sooner or later. "

"Qin Yuan, everyone has their own difficulties. Let's try to understand him. Maybe he has other uses for the money. Anyway, don't be so mean when you speak."

"Thor God, I say you are really kind-hearted. If you have so much money, please give me a little more. If you give it to them, it will all be wasted."

Although Qin Yuan said so, he thought it was a bit excessive for the other party to ask for so much money, but he also sympathized with Hassan in his heart, as his whole life had been ruined.

Perhaps, Thor still feels a little guilty about him, so he is willing to pay this money to make up for the things he did wrong when he was young, which may be good for all of them.

"Does Instructor Gong Jian know about this?"

"How could he know? When we were young, Noman Karim and I, together with He Fei at that time, captured the spy Hassan.

At that time, he had not yet joined the army.

Don't tell him about this. He doesn't have much money, and people in his hometown often need him to send money back. We can just raise it. "

"It's not easy for Instructor Gong Jian. After so many years, it's not easy to get into this position where I can get more salary and support people in my hometown.

I know that he is cautious and not very wealthy financially, so I will definitely not ask for money from him.

Don't worry, Thor, this money is just a loan from you and I, and I will pay it back to you if I have time in the future. "

It's not that Qin Yuan is unwilling to take the money alone, he just feels that he can't live without working capital now.

If he takes out all his money, he will feel very insecure. When he has the opportunity in the future, he will return all the hard-earned money to Fan Tianlei.

"Don't talk nonsense with me here. The money has arrived. Please check it."

"Thor God, why are you so impulsive? You are still under surveillance. You are not afraid of being discovered by the higher-ups for such a large transfer."

"Why am I so afraid of being discovered by them? I wish they would quickly find out that I transferred so much money.

If I have any problem, I only receive income but not payment. It is my account that receives the money, not the money that is transferred out of my account. Don't you understand this?

As long as I don't get richer, they won't target me. "

Qin Yuan smiled and nodded.

"That's true. They just don't want us to be a little more generous. I have already received the money."

Without saying a word, Fan Tianlei directly transferred one million to Qin Yuan for his mission this time, and did not declare that he must pay it back or reimburse him.

It seems that he is really a person who is willing to do anything to complete the task.

Even if he has to pay his own money, he will not hesitate.

For Thor, what is really needed is the value of self-achievement, not what money and power can bring. He just wants to do more for the army wholeheartedly.

"Thor God, thank you so much. It's really a help in times of need."

"Stop telling me these sweet words and protect your money. Pakistan is a mixed place. If people know that you are so rich, be careful of being robbed.

By then, we will have nothing but human and financial resources.

By the way, Professor Fang De heard that the situation has improved a lot. If he could see these two students in a short time, he would definitely be very happy.

They are willing to serve us. With such powerful arms experts, our overall capabilities can be raised to a higher level.

Maybe, during the next exercise, the weapons we can bring out will be enough to shock the world. "

Listening to Fan Tianlei's very excited tone as he spoke, Qin Yuan could feel that he was really someone who was willing to sacrifice everything for his ideals.

Such people should not be implicated and wronged by themselves for no reason at all.

After he returns, the first thing he needs to do is to prove to Thor and resolve everything so that he can return to the position of chief of staff.

“Didn’t Professor Fang De already have a specific medicine?”

This special medicine is a very good thing for him, allowing him to quickly recover his physical condition, which we all can see.

However, in the final analysis, I still have to thank Du Bingbing for this matter.

He still has some very important resources in his hands, otherwise we would not be able to successfully obtain this special medicine and successfully restore Professor Fang De to health. "

"Du Bingbing didn't tell you, this kind of special medicine is not a one-time use."

"What do you mean?"

"The effect of this special medicine can only last for about three days. If he can always maintain his current good condition, I am afraid that he cannot do without this special medicine.

Moreover, this kind of special medicine is relatively expensive, and it has always been paid for by the top brass of the army after going through the process. "

"Oh, that doesn't matter.

As long as we don't pay for it ourselves, it's a good deal.

Besides, Professor Fang De originally served the army, so it didn’t matter if they asked for some money, but we almost got in with our money and efforts. "

"I said you are a kid who never suffers losses. Now that you have got so much money, what are you going to do next?"

“An Ran, I don’t know about this yet.

I don’t really want him to know. If he learns that we have raised so much money for Azhe, he will definitely be dissatisfied and even feel a little distressed.

And he still feels that I don't treat him as a good friend, and I don't tell him such an important thing. Instead, I come to help you who is already in trouble. "

"Yeah, that's what I think of An Ran. This girl is a very heavy-minded person. Even though he is usually very optimistic, he thinks a lot and in most cases cannot relax.

For so many years, he has been asked to perform field missions, which has caused a lot of psychological pressure on him.

Speaking of which, I am responsible for this matter.

I shouldn't have let him go out as a girl to do field work in the first place.

Just wait. After you come back this time, I will report it to the higher-ups of the army and ask him to stay here and not go out again. "

"There should be many important matters unresolved in the United States. It's probably not realistic for you to ask him to give up his position as a field officer now, and he won't be able to listen to you so easily."

"An Ran is a girl who always does things from beginning to end."

"Mr. Norman Karim's affairs have not been completed yet. Maybe he plans to go to the United States next. By then, we will have many interests entangled with him there, and we may have to trouble Anron.

After all, he has stayed in that country for a long time and knows it well. "

"It seems that your kid has already arranged the next action plan for yourself. Before returning to country H, you have already started planning the next action.

Great, verbal praise for you. "

"The thing I hate the most in my life is verbal praise. It's of no use. It would be better if you gave me some money, or gave me some rewards, or gave me a promotion."

"You just think about money every day. Can't these verbal praises I give you boost your confidence? This is an emotional value that money and the material conditions you mentioned cannot give you."

"No no no, Thor.

You also said that you know me better, but what you just said just doesn't understand me well enough. For me, there is no need for emotional value. As long as there is money and material value, my emotions will naturally be high. "

Although Qin Yuan was joking, in fact he was indeed such a person who liked to muddle through and did not like those gimmicky things.

"Qin Yuan, don't worry. As long as you complete this task and our military level has improved to a certain extent, I believe that the higher-ups in the army will not treat you badly.

What you want will naturally come to you. The key lies in whether you have the ability to catch the wealth and wealth from the sky. "

"Extreme wealth?

Then how could I not catch it? Everything that has been delivered to my door must be caught by me alone. It is impossible to give it to anyone.

No, it should be given to Chen Jixiang. This kid is quite dedicated, especially for this matter, he really paid a lot. I am also very grateful to him.

If we didn't have such an opportunity, we wouldn't know what to do next.

Therefore, I have nothing to say about these things. The key lies in whether they can do it. "

"Qin Yuan, you used to be a soldier who followed me, and I brought you out hand in hand. Now you lead your own apprentice, so you won't be bad at all."

Chapter 2215 The money is in place and it's time to do the work

After hearing this, Qin Yuan was now very satisfied. He felt that this was Fan Tianlei's recognition of him from the side.

So, he said with some pride after hearing this.

"Thor God, if you put it like that, your emotional intelligence is simply too high, and you have praised both of us."

"Oh, in all these years, I have never heard anyone say that I have high emotional intelligence. You were the first to say it, and I felt a little surprised and a little surprised."

"What you just said just praised both of us.

A strict teacher produces a good disciple. With a teacher like you, I can naturally bring out a good disciple like Chen Jixiang.

It's just that this kid is following me. I have no intention of making him my apprentice. Let's talk about what happens in the future. At least for now we are just following the original way of calling him and not making him my apprentice.

After all, he is also the instructor of Gong Jian, and we cannot just arrange it for him here.

After returning home, I still have to ask instructor Gong Jian about his attitude. He may not be willing to release this ghostly boy like Chen Jixiang. "

"Gong Jian has trained many outstanding talents over the years, but there has never been a suitable person to help him.

It is not easy to have such a Chen Jixiang, he must grasp it well, and it will be easy to deal with other things in the future. "

"Yes, it took a lot of effort for Instructor Gong Jian to have such an outstanding talent, but we still snatched him away."

"It's better not to say so much. I've already transferred the money to you. It's up to you to do things with the money."

"Thor God, there is a transfer record between the two of us. If you regret it, you can just tell me and I will return the money to you now."

"Come on, you think I don't know that this kid like you is a Pixiu type.

It is simply a fantasy that you are willing to take out the benefits that have come into your pocket.

However, since these things have been given to you, I no longer worry about them.

If I were that kind of stingy person, I wouldn't agree to this. You have nothing to worry about. You'd better think about what to do next.

The crux of the problem is, after Azhe receives the money, can he do things? What if he wants to take advantage of others? "

"A black man eats a black man?"

"Now that we have thought of this, we have to do something. He has been with Mr. Norman Karim for so many years. Do you think that the experience he has accumulated is no less than you."

"Even if I lend him some courage, he won't dare to hack my money. If it doesn't work, he'll be dead."

"Qin Yuan, I don't want to say so much about other things, but now I have to remind you that we are members of Zhongzhong's special forces and are different from them."

"Oh, Thor, I asked you, do you have any shadow of what happened back then?

Are you afraid that I will become the second Norman Karim, from a very good young and promising special forces member to the boss of a group? "

"I have to say, I was a little worried.

But after thinking about it, I don't need to worry about this kid because I know you are the same person as me.

I'm not very interested in these things, and no amount of money can buy you off.

Although, I just said that your boy seems to be a Pixiu who can only go in and out, but this is only because the relationship between the two of us is relatively good.

There is nothing to say about other things. You just have to see what to do in the future. These things are not so easy for us to solve. "

"Okay, Thor, I won't tell you anything unnecessary. Since you have told me so, I can understand that you trust me very much."

"Qin Yuan, of course I believe you. You are the most proud disciple around me."

"With your words, I feel relieved. Now that I'm ready to cooperate with Azhe, I have to deal with some things quickly. The longer I delay, the more trouble I may cause."

"Then go quickly and contact me anytime if anything happens.

By the way, don't forget to report it to Du Bingbing. You have to ask him to help you solve the situation at the embassy, and you can't take the money in vain.

Tell him so that he can find a suitable reason to reimburse you after you return. "

"I know Thor, when did you become such a mother-in-law?"

"Okay, I won't argue with you anymore, I have my own things to deal with."

After saying this, he hung up the phone half a day later.

When Qin Yuan saw him like this, he was really worried about himself. In fact, Fan Tianlei is a very decisive person, and he is not a person who likes to grind.

The reason why he talks so much to himself is entirely because of worry, which Qin Yuan can understand.

Qin Yuan thought that now that he had enough funds in hand, it was time to negotiate with Azhe.

However, he had to contact Jason first to see what he was thinking.

Qin Yuan also has some doubts about Jason now, and is not particularly confident.

After all, this matter involved his daughter, and there was no way to replace the medical resources the other party could provide him.

After saying these things, Qin Yuan directly contacted Jason.

Jason was lying on the bed doing nothing, planning how to go to the central hospital and quickly solve the task assigned to him by Norman Karim.

"Qin Yuan?"

"Jason, how are you? I haven't contacted you during this time. I'm really worried about you. I'm afraid something will go wrong here."

"I don't have any special circumstances here. There is one thing I just want to tell you."

"This guy Efit is planning to join Mr. Norman Karim's group, right?"

"Yes, this guy is indeed ready to join the group now, but he didn't expect what the consequences will be next."

"Then I don't know."

These current problems are quite troublesome for us, and no one knows what we should do next.

This guy has always been a scheming guy and I'm really not sure if he actually plans to join Mr. Norman Karim's camp.

What if this guy is just releasing the ecstasy bomb? Help Old K buy time. "

"Ecstasy bomb?"

When Qin Yuan heard what Jason said, he still had some doubts. Neither of them were quite sure what kind of plan this cunning and cunning figure was planning.

"As far as I know, he has been with Old K for so many years. Even if he made a little mistake, he probably wouldn't choose to betray him like this.

Old K is a person with very special methods. If you offend him, the consequences will be disastrous.

Of course, Effit is becoming more and more cunning, and he is no longer the same person as the person I knew back then. "

"It seems that this matter is not as simple as imagined. I came to you today mainly to tell you that if you have nothing to do, come back quickly when you have an opportunity. Don't stay there anymore."

"Is it possible that you really cooperated with Azhe?"

"To be precise, it's not a cooperation between the two of us, it should be a kind of transaction.

I promised him something. As long as he can do it, he will help me solve the difficulties I encountered. Professor Fang De, the two students, should be able to find them soon. "

"Qin Yuan, no matter what kind of deal you two made, I hope you can think clearly. You are a special soldier of Country H. You cannot make these deals with him in private. It is too dangerous for you."

"Jason, thank you for considering me, but for me now, these dangers are all I can bear. I am just afraid that something special will happen to you next.

Now Mr. Norman Karim is forcing you to kill Hassan. Don't forget this. If you do it, there will be no room for change.

If there is no other way, we can delay it for now, and we will think of other ideas after you find specific clues.

Now that we have a good solution, we are sure that Azhe is willing to help us.

Jason, you should quickly find a way to get out of his group. Leave the rest to me. Only if you come back safe and sound can I do this. "

"This guy Efit has joined this group and started monitoring me. If I want to leave easily, I'm afraid it won't be easy."

"Why don't you ask Azhe for help?"

"This man is a very cunning person. Despite his young age, he is very experienced in doing things.

After several contacts with him, I can feel that there are still many things about this guy that we must be on guard against, so no matter what other things are like, after this matter is explained clearly, we have to think about it next. What should be done.

You must not let him succeed easily or agree to any problems.

Therefore, don't worry about anything else. Qin Yuan asked me to stay and help you. "

"Jason, I just thought that if you could come back soon, I wouldn't have to worry about other things. You staying with them is always a threat to me."

"The problem is that I have no way to leave now. My two brothers, A Kun and A Ming, are still in the group. If I leave alone, what will they do?"

If Jason hadn't suddenly mentioned his two little brothers, A Kun and A Ming, Qin Yuan seemed to have almost forgotten about them.

"Yeah, why did I forget about these two people? They should have been placed in not particularly important positions. You have nothing to worry about."

"If we want to leave, we have to leave here together, or I have to stand with my brothers.

Qin Yuan, don't worry, no matter what, I will definitely keep myself safe and won't let you go back with guilt. "

After Jason finished speaking, Qin Yuan felt worried about these words.

"Why do you say that? I went back with guilt. Could it be that you don't want to go back to Country H with me?"

"The specific country no longer has any substantive significance to me. In fact, I also have a special idea this time. I want to stay in Mr. Norman Karim's group."

Qin Yuan was stunned when he heard this.

"Jason, what did you say?"

"Qin Yuan, please listen to my explanation first, I don't mean to betray you.

I just want to tell you my thoughts. I think the best way for me is to stay.

Only if I stay with Mr. Norman Karim, I may have more hopes and challenges. Maybe I was born to be the one who should eat this dinner in my whole life. "

"What about Efit?"

"I just want to be myself and don't care what other people think.

I plan to stay and have nothing to do with him.

Although, the two of us were enemies in the past, and we also had a lot of grudges.

But this time, since Mr. Norman Karim took the initiative to resolve the issue, I thought I would just let it go, but for the sake of my daughter Yaya, I also wanted to stay here. "

"Jason, what nonsense are you talking about? You also know that your daughter Yaya is still in our army, so what does it mean if you stay here?"

"Qin Yuan, actually everyone has their own way to go. Don't worry. Even if I stay in the group, I will never betray you. You can still do your own things."

"If you stay with Mr. Norman Karim, we will be enemies.

By then, will there be any talk of betrayal?

We are directly in two camps. There is no room for change. Our brotherhood ends here. You have to think clearly. "

"Qin Yuan, I have thought about this matter very clearly. If I have time, I will talk to Mr. Norman Karim again. I believe he sincerely wants to invite me to join."

"Jason, I really hope you can come back to us. I have arranged a way back. I believe we will be able to leave Pakistan soon."

"Qin Yuan, actually I don't come back to you so as not to hold you back.

It's already very difficult for you people to go back. If you bring me, A Kun and A Ming, there will be too many people. If the lineup is too large, it will be easily discovered by others.

If you don't consider us, it might be easier for you to go back.

I have already thought about this matter clearly, you don't need to persuade me anymore.

However, I believe in my heart that no matter what happens, as your brother, I will never do anything to feel sorry for you or even betray you. "

After Jason finished speaking, he fell silent, Qin Yuanyue fell silent, and neither of them said anything else.

Qin Yuan knew that perhaps from this moment on, they would embark on completely different paths...

Chapter 2216 Send the person to the hospital first

Now Qin Yuan is alone in the house, thinking quietly...

"Jason, although you have chosen your own path, I hope you will never take the wrong path."

After saying this to himself, Qin Yuan quickly picked up the phone and looked at the remaining balance inside, thinking that he had to quickly transfer the balance to Azhe.

At this moment, He Chenguang was in the bathroom and suddenly noticed something was wrong. When he opened the door, he saw that the American spy Xiaolan who had contacted him before was lying in a pool of blood.

"ah....."

He Chenguang was very surprised. He had never thought that this would be the case.

What should he do now? Go tell Qin Yuan, or go to Sophia, the person in charge of this club?

After He Chenguang calmed down for a while, he thought that none of the options were good. Now he should be calmer, pretend not to see it, open the door and walk out.

No, at this moment he had other thoughts. He thought that he had to find a witness for himself. Although he did not do this at all, he had no way to get rid of the connection with Xiaolan.

"Is this guy dead?"

He Chenguang originally thought that he would step forward first, take a look at Xiaolan's breathing, and see if there was anything wrong with Xiaolan.

But now this is still a bit troublesome for him, and he shouldn't get close to Xiaolan in the short term.

He thinks that he should not get too close now, because once he gets too close, it will have a great impact on him.

Therefore, he has already made up his mind to leave this room first. He must ensure his innocence and safety.

After He Chenguang left the room like this, he felt that what happened to Xiaolan was really inexplicable, and it was not something he could have predicted. It was completely unexpected.

However, he didn't know why this happened. He couldn't let others catch him. The main reason was that he didn't want to expose his identity.

He Chenguang now felt that it would be most appropriate if Chen Jixiang took the initiative to find out about Xiaolan.

I don't know how he died here, but I think he must have offended Mr. Norman Karim, and it is possible that he was dealt with without anyone noticing.

This kid Chen Jixiang is in a daze in his room right now.

He felt that many things were not as simple as he imagined, and he had to go to Qin Yuan to discuss it quickly.

Although, he has been clearly told that he does not need to worry about this matter. With Qin Yuan and An Ran at his side, he just needs to enjoy the existing plan.

But he is also a care-taker by nature, and he is still worried about this matter. He thinks that if he can know more, the better, and he will be more helpful to Qin Yuan and An Ran.

Sophia also had some opinions of his own on this matter. After making some arrangements, he was going to find the people he contacted and get rid of these special medicines first.

"Harry, you promised to give me the special medicine before, but now there's no news about it?"

"Sophia, don't worry yet.

Regarding the relationship between the two of us, I won't let you worry about the special medicine. Now that I have agreed, I will never let you down.

Please believe me and give me a little more time.

Mr. Norman Karim has not cared about things in our hospital for several days. It seems that he is a little relaxed about this.

This means that we still have a lot of things to deal with.

Let's do this. I'll bring you the special medicine within three days. I will never go back on my promise to you. Do we need to say so much about the relationship between the two of us? "

"Harry, it's not that I don't believe you, it's just that my time is still very tight.

If the special medicine is not available in time, it will have a huge impact on my side.

I hope you can understand. I don't mean to force you, but right now, we do have a lot to deal with. "

Sophia is very anxious now. He knows very well that if he doesn't solve the problem of special medicine quickly, it will cause them a lot of trouble.

This cannot be solved easily. More people must know, especially Qin Yuan, who knows that he, as a partner, can be trusted.

"I know the relationship between you and Azhe. You also asked for this special medicine for Azhe."

After Harry finished saying this, you could hear a little sadness in his tone.

"Harry, now Mr. Norman Karim has many plans of his own, and we have no way to affect his overall development.

Please believe me, no matter what happens, I will treat you as my best friend.

I don't want to involve you. If you really think that the problems we are encountering now are very difficult, I won't force you to help me. "

"Of course I didn't mean it.

Since you have already promised something, how can you go back on it?

Don't worry, no matter what the reason is, I will definitely protect you. I will definitely mail the special medicine to you within three days. The weather at sea is not very good now, and it will be slower if you take the waterway. "

He Chenguang heard these words from the side, and he knew it very well.

Sofia is indeed not a person that Mr. Norman Karim can trust. This girl really thinks too much. We must first find out what is the most important thing in his heart.

So far, he doesn't know that there is something wrong with Xiaolan. This is a great opportunity for He Chenguang to get rid of his suspicion, and he will never miss it so easily.

Especially for them, they have to think clearly about this matter, otherwise it will affect everyone's overall plan.

"Harry, as long as you are willing to help me, no matter what price you have to pay, I will be willing to do so, as long as these problems can be solved."

“Sofia, how could I possibly make you pay?

I am willing to help you free of charge and without any scruples. Don't worry, if you want special medicine, I will get it to you on time. "

After He Chenguang finished listening, he knew that Sophia had finished contacting her and was about to go out, so he hurried back to his room.

Even now, he has not recovered, and he is not sure who is behind the attack on Xiaolan again.

"Who killed this Xiaolan? He was just a spy. Generally speaking, it was not a big deal and it was impossible to have an impact on other people.

Now that he appears here, it is really surprising.

It should be that Mr. Norman Karim can't tolerate him anymore, but that's not necessarily the case. He clearly knows that he is an American spy and has placed him in this club for so many years.

You didn't let him know some important secrets, but now you want to do something to him?

Could this matter have something to do with Qin Yuan? It seems that Qin Yuan may have been plotted. "

At this moment, the murderer who unknowingly killed Xiaolan is outside snooping around. This person is Efite.

“Huh, Mr. Norman Karim is really a very thoughtful person.

At this time, he asked me to do this. Since he has already arranged it, I can only obey his arrangement, and I have nothing to say.

I want to see what these guys are thinking, so that I won't get into trouble here.

Qin Yuan thought he was about to leave this place, but now it seems that it is impossible for him to leave so easily without explaining Xiaolan's matter clearly.

Let me see how he, a special soldier, will explain to the higher-ups of the army after he returns.

The American spy who went on a mission died, and He Chenguang, I believe that Qin Yuan must be incomprehensible and cannot explain clearly, so that would be great.

As long as their side is more chaotic, the information on my side will be better informed. "

The reason why Efit appeared in this club tonight was entirely due to the mission given to him by Mr. Norman Karim.

Since he wants to join the group, there must be some tests for him.

Especially at a critical time like now, he is absolutely not allowed to have any personal ideas and must follow the organization's arrangements.

The more Chen Jixiang thinks about it, the more troubled he becomes. He can't sleep at all now.

So, when he got up and prepared to go to the bathroom, he strolled to the door of the bathroom and felt something was wrong. He always felt unusually quiet and even smelled a smell of blood.

Based on his acumen from so many years of training, he immediately felt that something was wrong.

Fortunately, he was mentally prepared when he opened the door, but he was really shocked. He had never encountered such a situation in the army for so many years.

"Xiaolan?"

Chen Jixiang couldn't care less. He couldn't care whether this guy was an undercover agent or not, and he couldn't care about why this guy was lying here.

His first reaction was to see if the person could be saved.

Chen Jixiang quickly ran to Xiaolan who was lying on the ground, and quickly touched the arteries in his neck with his hand. He found that there was no longer any beating feeling, but his body was still warm, so there must be nothing wrong with him. How long.

"I'm afraid the murderer has already escaped."

At this moment, Xiaolan's hand miraculously moved, which Chen Jixiang did not expect.

He quickly touched the artery on his neck again. He was so nervous just now that he didn't realize that this guy was not dead.

"This pulse is really too weak. Fortunately, I discovered it in time. Otherwise, you might have died here today. I have to find someone to rescue you first."

This club has been booked by Mr. Norman Karim, and except for a few of them, there are no outsiders at all.

Chen Jixiang didn't care so much and shouted directly in the bathroom.

"Come here, someone has been killed, come here quickly!"

Qin Yuan was inside the house preparing to transfer the money to Azhe, and was startled when he heard the shouting outside.

"What? Kill?"

Qin Yuan and An Ran could no longer care about these things and quickly walked out of their rooms.

"Brother Qin Yuan, come here and see if he's alive. He can still be saved, but his pulse is weak. We have to send him to the hospital quickly."

"Where's Sophia?"

"He should still be on the phone inside the house. Why don't I go call him."

Sophia also heard this cry, and then he quickly put down the things in his hands and walked over. He Chenguang came out at about the same time as Sophia.

Sophia was also shocked when she saw this situation.

"Oh my God, what is going on? How? Why is he lying here?"

"Don't worry about it for now. Call an ambulance quickly. He should still have time to rescue him."

Although Sophia knows who Xiaolan is, she has been with him for so many years, so maybe they still have some small feelings between them.

I didn't want to see him suffer such a risk, so I didn't care so much at all and just saved it first.

"I'm calling an ambulance now."

So, Sophia didn't care so much and called an ambulance directly.

He has already guessed that there is a high probability that this is Mr. Norman Karim's arrangement, but he can't say it now, and these are completely uncertain. Even if it is Mr. Norman Karim's arrangement, they have no way to stop it. .

"What the hell is going on? There are only a few of us in the house."

"All four of us can see how there could be a murderer among us. Who would attack him? It just depends on who he should have offended."

As Qin Yuan spoke, he looked at He Chenguang next to him.

"You must not look at me like this. Although he seems to be relatively close to me, I have no real relationship with him.

Especially in this situation, you should not talk nonsense.

No matter what happens, we all have to bear the responsibility together. Don't try to say that you want to put all the responsibility on me alone. "

"He Chenguang, please calm down first, none of us said these things have anything to do with you.

No one would think like this, and no one would have such thoughts. What is the meaning of what you are saying now? It is better to think about a suitable method first, so that we will not get entangled here. "

"Who will accompany Xiaolan to the hospital later?"

"The best hospital in the center of Pakistan is the hospital in Hassan. Their medical resources are relatively advanced, so I had no choice but to go there."

"Sofia, do you want to report to Mr. Norman Karim?"

"It's more important to save people. Mr. Norman Karim should be resting at this time. Don't worry about so much for now. Send him to the hospital first."

Chapter 2217 The money thing was accidentally revealed

After Sophia heard Qin Yuan's order, he still had some hesitation.

Because he knew very well that this club was not accessible to just anyone. Since Xiaolan's life was now in danger, Mr. Norman Karim must have arranged it behind the scenes.

What's more, everyone knows Xiaolan's identity as an American spy, but no one has said it clearly yet.

He Chenguang was the person who least expected Xiaolan to wake up.

After all, after people have experienced strong winds and waves, they will definitely have some manifestations of great enlightenment.

What if this guy wakes up and starts to feel that he no longer wants to be a spy, or has no sense of identification with this identity, and feels like betraying or even leaving.

This is really not a good time for them. If this continues, they will be in trouble.

He Chenguang can no longer control so much, he just wants to delay time quickly.

"Qin Yuan, don't be anxious yet.

Fortunately, this boy Chen Jixiang discovered it in time, so we can know these current problems. Since he is not dead, we have many ways to save him.

If I go to the hospital at this time, I am afraid that Mr. Noman Karim will be alarmed. "

"So what if Mr. Norman Karim is alerted?"

"That's not what I meant, I just want to tell you that our current situation is still very passive. If something special happens, you have to think about it earlier.

In our eyes, these current problems have to be solved.

We all know very well what kind of person Mr. Norman Kalibu is. He is a very capable person.

His unwillingness to participate in these things now just illustrates the doubts in his heart?

Let me tell you, we must not move around casually.

What's more, this is their own club, and if someone is killed, it's his own employee and it has nothing to do with us.

We are the special forces of country H who are here to perform special tasks. We don't want to affect their internal conflicts, so we can only take it slowly and wait one step at a time. "

Although An Ran didn't like Xiaolan very much, everyone had a good mentality and didn't want to die without rescuing someone.

"He Chenguang, what do you mean by these words now?

Is it possible that, since we come from different countries, we shouldn't be involved in these events?

Then Xiaolan is also innocent. Are you saying this because you don't want to care about what he means? "

"An Ran, please don't be so excited. I didn't say anything else, but I was thinking about this issue. We should be more cautious."

"He Chenguang, you and Qin Yuan are good brothers. You should know his way of doing things very well. The cautious words you are saying now are really hard to understand."

"Qin Yuan, An Ran, he simply misunderstood me, please explain it to me quickly in front of him.

What exactly is going on? I don't have any other intentions. As long as it's good for our overall plan, I definitely won't have any objections.

The key is, what do you think in your heart? Don't always think that I am deliberately influencing your noble and honorable behavior. "

"Okay, please stop arguing now. Sophia has already called for an ambulance. He will take Xiaolan to the hospital soon."

He Chenguang is not very happy now.

He felt that the other party seemed to doubt him a little, but he couldn't blame others for doubting his thoughts and behavior. It was really too abnormal.

As a member of the special forces, how could he ignore life safety?

He couldn't do this at all. No matter what the reason was, he had to protect the people around him.

"Chen Jixiang, Xiaolan was suddenly injured today, and it was very serious. She almost died. Fortunately, you discovered it in time."

"Brother Qin Yuan, please don't praise me like this. It's not that I discovered it in time, but that this matter is inherently strange, and I can't influence everyone just because of my judgment.

So no matter what happens, I will definitely be the first to protect the other person's life. Safety is the most important thing.

We can't think too much about other things.

Let's not talk so much, let's take him to the hospital first. It doesn't seem appropriate for Sophia to go alone, so why not inform Azhe quickly. "

"Should we inform Azhe now?"

Qin Yuan was thinking about him, but he had just contacted Azhe, and the attitude there was obvious, and he was still quite disgusted with this matter.

"Sofia, what do you think?"

"It's definitely not a big deal for me to go to the hospital alone. I've dealt with a lot of things alone over the years, but I have to inform Azhe about this matter."

"I can understand that at such a critical time, you really need someone to help you. We will definitely not affect you."

"I want to know now who did all this!"

Although Xiaolan has not had any good friends in the club for so many years, she has not offended anyone. Now we are not able to explain this situation clearly. "

"Will Mr. Norman Karim be held accountable?"

Qin Yuan thought to himself that this person was not particularly cautious until now, and it should be impossible to hold him accountable.

"Mr. Norman Karim should still be thinking about how to get Efit to join his camp."

"Let's see. The ambulance should arrive in about ten minutes. It might not be appropriate for me to go to the club alone. Qin Yuan, please go with me."

An Ran was still a little worried about Qin Yuan.

"Is it appropriate for you to go to the club?"

"Since Sophia has invited me now, let me go with him. I believe that a man must be around for this matter."

"But, Mr. Norman Karim, he said that we cannot leave this club in a short period of time.

If he becomes unhappy in any way after finding out, it will only affect the relationship between you. I say this because I want to be cautious and don't want to offend anyone. "

While An Ran was talking, he looked at Qin Yuan with a special look. Qin Yuan could feel that he was doing it for his own good.

"An Ran, come here, I have something to tell you."

"What's wrong? Qin Yuan?"

"I know that everything you are saying now is for my own good, because you are afraid that I will offend Mr. Norman Karim.

But now Xiaolan's situation is indeed quite special. You also know his true identity. Haven't you discovered that He Chenguang has been preventing us from saving Xiaolan? "

"I also discovered his identity, and we all know it well, but he shouldn't dare to hurt Xiaolan directly, right?"

"Although He Chenguang is an American spy, he can be regarded as a relatively self-restrained person. Even if he wants to keep secrets, he will never do it at the expense of human life."

"What if this is the request of the superiors?"

"Although American spies are not particularly humane and often do not follow the rules, my intuition tells me that this time it has nothing to do with him.

I'm afraid it was that guy Efit who did it. He must be very afraid that some of his details will be exposed.

Therefore, I rushed over to kill her at this moment. Unexpectedly, Chen Jixiang discovered her in time and saved her. "

"What were you doing in the room just now?"

"An Ran, why do you ask that? It seems like I'm a little nervous. You don't doubt that I did it, do you?"

"Qin Yuan, it's time to stop joking. I just think the atmosphere just now was weird, and many people shouldn't behave like this.

I now have a bold idea. Maybe the first person who found Xiaolan injured in the bathroom was not Chen Jixiang at all. "

"He Chenguang?"

"Hmm, I don't know why this idea keeps wandering in my mind. Maybe it's a woman's sixth sense.

It's a kind of intuition, but no matter what, we have to think it through carefully. What if you go now and make this guy anxious, and he runs away because of it. "

"Although He Chenguang is an American spy, I know that he is a person who particularly cares about honor.

He will never run away so easily. Even if we confront him face to face, he may not admit it.

What we have to do now is not to alert the snake. I will go to the hospital with Sophia later. By the way, I can go to Hassan and tell him about the special medicine. "

"Sofia just agreed to help us find this special medicine. We are not sure whether we can find it yet. Tell Hassan that it is too early. If he wants to do something again after he has hope, we will be very passive. "

"What is the relationship between Hassan and Azhe? We have to find out.

The relationship between these two people has always been very confusing, and I believe that the relationship between them must be unusual. "

"Yeah, Azhe seems to have been trying every means to help Hassan, even if he doesn't care about his current status, he must help this person.

The relationship between the two of them is definitely unusual, I can basically be sure of this. "

"Hmm, I don't have anything else to say. The key is how to handle this matter appropriately.

We must not let anyone take advantage of us again. Du Bingbing has helped us contact the channels back. As long as the embassy agrees, I will immediately transfer the money to Azhe. "

Qin Yuan was so anxious that he spilled the beans about the money.

An Ran is a very smart woman, he asked quickly after hearing this.

"Wait a minute Qin Yuan, what kind of money did you want to transfer to Azhe?"

Qin Yuan realized that he had said something wrong, so he quickly shut up and said with a smile.

"An Ran, you must have heard wrong, I didn't say anything about money just now."

"It's already this time, can you please stop beating around the bush with me?"

Why do you want to transfer money to Azhe?

Did you make some deal with him secretly behind his back?

Qin Yuan, you must know your identity and don't go astray. You cannot cooperate with such a person. There will be no good end for seeking skin from a tiger. "

"You really heard wrong. I didn't say anything just now, and there is no way to talk about transferring money.

We have known each other for so many years. Is it possible that you still don't understand what I think?

I don't care about money or not. The most important thing is to complete the task.

Thor also knows me very well. You must never doubt that I will take the wrong path. I will not cooperate with these people. If I have even the slightest evil thoughts, I will be hit by a car when I go out. "

"Stop talking nonsense here."

"Oh, An Ran, just trust me, you won't go the wrong way.

This is something I have insisted on for many years. How could I change my beliefs because of a small thing?

This time I have already united with Du Bingbing, and I have listened to you and made peace with him. There is no need to cooperate with this guy Azhe. "

"If you don't tell me clearly about this matter today, I won't let you leave. Even if the ambulance comes later, I won't let you go with Sophia."

Qin Yuan knew An Ran's stubborn temperament, and he must be the one who could see such things.

"Well, in that case, I have nothing to say. I will talk to you about money slowly after I come back. Please be sure to believe me."

Seeing Qin Yuan's serious look, An Ran was embarrassed to say anything else.

"Well, now we are the only ones who can be trusted. We shouldn't hide anything from each other. If you have anything to say, you must tell me clearly.

Don't worry about money issues, and don't go the wrong way because of money. If you need money, just tell me. After all these years, I still have some funds in my hand. "

Qin Yuan thought to himself that he knew that An Ran had saved a lot of money and was considered a little rich woman, but there was no reason for a man to ask a woman for money.

Moreover, this matter is for the mission of their army. Logically speaking, the funds should be approved by the higher-ups of the army.

But it was too troublesome to go through the process now, so he had no choice but to go down and ask Fan Tianlei for help.

Assuming that if the money really goes nowhere, he will find a way to return it to Fan Tianlei in the future.

While they were struggling, they heard the sound of an ambulance outside.

"Hurry up and get ready. The ambulance is already here. Let's get Xiaolan into the ambulance first."

"He is now very vulnerable due to major arterial bleeding.

We are not professionals and don't know how to move the patient. It may be safer to wait for professional doctors and nurses to come up and then use a stretcher to carry him away.

Let's preserve the scene first and don't destroy the evidence at the scene. "

Chapter 2218 Do you care about life or secrets?

Chen Jixiang saw the situation happening now, and he couldn't refuse.

"Xiaolan is like this today, and it's entirely his own fault.

What good things can an American spy do? If he does something wrong, he should be held responsible for it.

If it weren't for him to sow discord, the relationship between us and He Chenguang made him make so many wrong decisions, and I wouldn't be where I am today.

If, if we didn't have any ideas here, I believe that there would be no way they would give us another chance. Fortunately, nothing big happened. "

"Okay, I know you have a lot of dissatisfaction right now, but you have to stabilize your emotions and don't expose our important news."

"Brother Qin Yuan, don't worry.

Although I am very emotionally unstable and angry right now, I know what priorities are and there is absolutely no way it will affect your plans.

It is even less likely that our current situation will be exposed. We have to wait until you come back.  
"

"Yeah, you and An Ran are here to protect her. You are now the one who can stand alone in our team. Don't live up to the importance I place on you."

"Brother Qin Yuan, don't worry. As long as you give me a chance, I will give you a miracle."

"You are so glib all day."

After giving these instructions, Qin Yuan walked directly to Sophia.

"I have made arrangements for them. I will go to the Central Hospital with you next."

"Uh-huh."

Sophia nodded. Although he knew that it was not appropriate for Qin Yuan to appear in the Central Hospital now, he had no better way. He could not let him go to the hospital alone, otherwise he would not be able to explain Xiaolan's current situation clearly.

So, after a while, An Ran saw that Qin Yuan had no reaction, and he didn't say anything about the money when he asked him about it. It seemed that she could only wait for him to come back.

Soon the Pakistani ambulance arrived downstairs. They came up with a stretcher and took Xiaolan down first.

"How is he doing now? Is there any chance he can be saved?"

"According to the current situation, he has lost too much blood. It is better for you to be cautious. We are not sure about his specific condition now, nor can we guarantee it.

We can only carefully send her back to the hospital first. He is indeed relatively weak now, which may cause brain hypoxia. Even after he wakes up, he may be in a vegetative state. "

Qin Yuan had already expected this. Excessive blood loss caused brain hypoxia, which may cause permanent damage to his body even after he wakes up.

The person who can be so ruthless in this situation is really not an ordinary person.

Sophia and Qin Yuan nervously got into the ambulance to accompany Xiaolan.

"Even if you don't inform Mr. Norman Karim, I think you should inform Azhe now."

"Azhe, he goes to the Central Hospital every few hours to see Hassan, so even if I don't notify him, I should be able to meet him by chance in the hospital."

"Pakistan's medical resources have always been scarce and poor. I advise you to find someone to make arrangements in advance. If you sincerely don't want this girl to die like this."

After Sophia listened to Qin Yuan's words, he weighed it himself.

Although he didn't like Xiaolan, he didn't know if his life was in danger, so he couldn't just let him die like this.

Otherwise, you won't be able to explain clearly.

If Mr. Norman Karim really falls out one day, he will definitely talk about this matter, but he will not be able to defend himself.

"Well, I don't have any good ideas now, so I can only inform Azhe first and see what he thinks.

Qin Yuan, thank you for being with me. You really helped me a lot. If it weren't for you, I'd probably be completely numb today. "

"Don't say so much. No matter how strong you are, you are still a girl. I believe you did not expect that Xiaolan would suffer the consequences today."

"That's true."

"Sofia, I see that you are a little nervous now and may be incoherent. How about this? I will inform Azhe on your behalf and I will take the initiative to tell him if you have anything to say."

"fair enough."

Therefore, after Qin Yuan got Sophia's consent, he directly contacted Azhe first.

"Hello? Qin Yuan, have you thought about it now? Have you prepared the money?"

"Don't tell me anything about money. There is something important I want to tell you. Xiaolan was suddenly attacked. It's very serious now. Sophia and I are taking him to the hospital. "

"Xiaolan was attacked?"

"Looking at your surprised and expected tone, I knew that you might not know anything about these things, but you are not surprised by today's results."

"Efit has joined our group.

Ever since there was such a person in the group, I have long forgotten what an accident is. It is reasonable for any abstract things to happen again, and this guy must have something to do with it.  
"

"Are you saying that what happened today has something to do with Efit?"

"Qin Yuan, now I can't guarantee you whether it has something to do with him. I can only tell you that many things may be more complicated than we imagined."

What Azhe said was also ambiguous, and no one understood what he meant.

But Qin Yuan is no longer interested at all. He just wants to solve the troubles in front of him as soon as possible. It seems that they are not suitable to stay in this mixed country.

"Azhe, we are on our way to the hospital. We will be there in about twenty minutes. I know what the medical resources in your country are like. I called you in advance just to let you make arrangements there. one time."

"If an American spy's life is really in danger, I don't think it's worth opening a green channel for him. What he will become like today is completely self-inflicted."

"What do you mean by that?"

"Xiao Lan, he is not only a spy, but also often informs this guy Efit.

Mr. Norman Karim has already mastered this matter. Otherwise, how could he throw such an outstanding talent into the club and not reuse him? "

"The American spy is also a living person. And I have known him for so many days in the club. I think he is also a very simple guy. He is also a poor person who was deceived by Efit."

"Qin Yuan, you are really kind-hearted. In order to save a spy, you actually ignored your own safety. What if this guy wakes up and brings you some trouble? Will you regret saving him?"

"I never regret anything I've done.

Regardless of whether he is a spy or a special identity, in my eyes, he is just a living life now.

After rescuing him, he can return to his own country if he wants. If he wants to continue helping Efit, it has nothing to do with me.

Because we are not going to take the same path in the future, and I don't expect what kind of gains he can bring me. "

"You are such a kind-hearted person.

Only consider the situation of others and completely ignore your own situation.

Well, in that case, I have nothing to refuse. After all, Mr. Norman Karim has never explicitly said that if something happens to him, we will not provide any assistance.

But I must remind you that the trouble he got into today was definitely not due to Efit's own initiative. Perhaps Mr. Norman Karim asked him to do so. "

"Thank you, Azhe, for being so considerate. In fact, I know very well that everything that happened today may be just a small arrangement of Mr. Norman Karim, otherwise Efit would not be so big. The courage of the dog."

"Since you know all these things, there is no need for me to explain to you any more. You can just think about it yourself and don't regret it."

Qin Yuan said nothing more. It was impossible for him to regret it. Although he knew Xiaolan's true identity, he also knew that he had been provoking He Chenguang to do dangerous things.

However, he really had no way to see a girl in her prime, her life in danger, but he remained indifferent.

In fact, if Qin Yuan used some tricks here, or caused something to happen to the ambulance, even if he said he wanted to go to the toilet and delayed Xiaolan for a while, Xiaolan might not be saved.

However, as a member of the special forces, he really couldn't do such an inhumane thing.

Even if it threatens his plan, he can't just give up a person's life. At least he tried hard.

If, despite his efforts, he still couldn't be saved, it would be fate, but he couldn't just watch as he didn't save people even though he had the chance.

"Are you ready for the money I want?"

"Xiaolan, after all, is an employee of Mr. Norman Karim. Even his current affairs are arranged by Mr. Norman Karim, and no one else knows about it.

Once the doctors in the hospital saw that he was from your group, and then saw you appearing, they naturally did not dare to delay, and they would use the best medical resources to save him. "

"You should know very well in your heart that what I'm talking about is not the money for treating diseases and saving lives, but the transaction between me and you."

"You have already prepared it. As long as you can give me what I want, this little money is nothing to me."

"I can tell you now where exactly these two students, Professor Fang De, are, and you can take them away during the chaos."

"You probably don't want me to take this opportunity to take people away, but you want to get the money as quickly as possible."

Although I don't understand why you are so short of money, I must still remind you not to do these little tricks. Mr. Norman Karim can detect it. "

"Now that you have prepared the money, don't hesitate any longer here."

"Let's go to the hospital first. After all, there is a dying patient in this car. After he recovers, we will discuss the money issue."

"Oh well."

After hanging up the phone, Qin Yuan spoke to the driver in Pakistani language.

"In our country, ambulances can run through red lights. I hope you can drive faster. The patients behind you may not be able to hold on for long. Time is of the essence now."

"We must abide by traffic rules here. Since you have used an ambulance, you must abide by our regulations. Who will be responsible for the fine after speeding? Are you responsible?"

"Sofia, I have never heard of ambulances, and speeding fines. Time is life, isn't that true for you?"

"Pakistan does not have any special conditions in this regard. No matter what happens, traffic rules must be followed."

When Qin Yuan heard this, he almost laughed.

"Usually, I see all kinds of people driving randomly on the street. No one obeys the traffic rules at all. Now when it comes to treating patients and saving people, you have no principles.

I don't care, drive for me quickly, we can't let him die here today.

Xiaolan is not only an American spy, he also has many important clues in his hands that we have no chance to obtain.

Today has come to this point. We must think carefully before making a decision. We must not let all our arrangements go to waste. "

"Qin Yuan, I really want to ask you a question."

"Sofia, just say what you want to say directly, don't beat around the bush like this."

"Okay, are you so nervous Xiaolan because you are worried about his life safety, or do you want to get the secrets in his hands?"

"I want to get these secrets in his hands and I care about his life and safety. These two things do not conflict at all, and both of them can be met. Why should I choose one over the other."

"I understand, you are such a shrewd person.

Use this opportunity to play the emotional card with him. If he wakes up and thinks that you are his savior, he may no longer care about his own identity and will tell you all the secrets she knows. "

"Maybe you have some ideas in this regard.

But I ask you all to understand that I am a special forces soldier after all, and I will never allow anyone to die in front of me like this, and now we have a great chance of rescue.

If we lose this opportunity just because this guy drives slowly, I will never allow it. "

When Qin Yuan said this, he said it in the Pakistani language. The driver also completely understood it, but he still pretended not to care.

Qin Yuan took out a knife and waved it in front of his eyes several times.

Chapter 2219 This is called, money can make the world go round.

Qin Yuan took out the knife and waved it in front of the driver's eyes a few times, and the driver suddenly became angry.

"What do you mean if there is something that cannot be easily discussed and discussed?"

Do you think I will be afraid of you if you use knives and guns? If you have the ability, just take a knife and chop me first. I want to see if you can get to the hospital smoothly. "

Sophia saw Qin Yuan's reaction, and he was also a little worried.

Because he knew that Qin Yuan's temper could not be provoked so easily. Although he was also thinking about Xiaolan, he was really excited like this now.

Pakistan is always a more complicated place than he imagined.

It's useless to tell him about this situation now. It's better to listen to the driver honestly. He didn't do it on purpose. In fact, he just wanted some money.

So Sophia took out some money from her bag and handed it to the driver.

The driver glanced at it out of the corner of his eye and saw that it was probably the number he was satisfied with.

Then, he stretched out his hand and put the money into his pocket, then smiled and pushed the knife in Qin Yuan's hand outward.

"Oh, harmony brings wealth, harmony brings wealth."

"Bah, he is really a money-minded guy. That was not your attitude just now."

"Boss, there is no need to be so angry. There is no money in this world, and you still want to do things? If you take out the money earlier, there will be less trouble. Don't worry, I will send you to the hospital within 5 minutes. "

Qin Yuan was so angry that he was speechless.

He thought to himself that it wasn't that he had nothing to do with this guy, but mainly because Xiaolan could no longer hold on for too long and his current physical condition was quite tense.

Sophia also advised Qin Yuan.

"Pakistan is such a place, there is no need for you to be angry with them.

But don't use force if money can solve it, because it will not do you any good, and time is more important than anything else to us now, isn't it? "

"Okay, I'm just angry that this guy took advantage of me."

"The environment in Pakistan is like this, and it is not just his problem.

If we change to another driver today, he will make the same choice because he knows that we are pressed for time, so no matter what conditions he proposes, we must agree. "

Qin Yuan thought in his heart that the country of Ba is really a mixed place, and it is really incomparable with the country of H. This kind of thing will never happen in the country of H.

Qin Yuan is becoming more and more anxious now, eager to return to his country.

He knew that it was very urgent for him now and he could no longer stay here. If he continued to stay here, it would really have a great impact on his outlook on life.

After the driver took the money, his efficiency improved a lot.

He stepped on the accelerator and rushed out. There was no one on the street at this time, so he should drive faster. And after taking the money, he didn't care even if he ran a red light.

"It's true that money can make money work."

"If the ancestors stayed, there must be some truth to it.

We don't have to be surprised at all that money can make all the difference, and we should have more understanding of their choices. "

"I finally know what money ability is."

"Now you should understand why Azhe cares about you asking for so much money."

Qin Yuan was surprised to hear Sophia say this.

"How do you know that Azhe asked me for some money?"

"You don't need to tell me about this, I know it, because the two of us urgently need a lot of funds now.

With a bully like you, he doesn't care who wants the money, but you have to be willing to take it no matter how much money you want. "

"Sofia, I think you went a little too far, and you actually said that I was taken advantage of?"

"There's nothing I can do, you took the initiative to deliver it to me.

Since you want to know Professor Fang De, these two students have to get money to do things somewhere.

Although these two people have no use value, we still have to get some money before we can be willing to help you. This matter is understandable. As long as you can accept it, you will soon be able to find the whereabouts of these two people. . "

“Sophia, I know money is a good thing.

There is no one in this world who doesn't like money, and I am the same, but can't you be more accommodating? The amount Azhe asked me for was really too big and I couldn't afford it. "

"I can understand how you feel now.

However, I hope you can understand the difficulties we are facing. It definitely makes sense to ask you for the money, and people are selfish.

You cannot ask us to risk our lives to help you. If your request proves that you are also selfish and have not considered the safety of both of our lives.

Mr. Norman Karim cannot be deceived so easily.

Even if he doesn't care about these two people, we can't reveal the hiding places of these two people casually. This is against our group's regulations.

You should know what the consequences will be without me telling you.

Moreover, we are not forcing you to make a deal. If you feel that these two people are not worth the money, you can choose to refuse. "

Qin Yuan sighed helplessly.

“Oh my God, can you say something new?

It's this sentence again. If I don't want to, I can refuse this deal~

You know very well in your heart that I have no choice. I came here this time just to take these two people back. If I reject this deal, when will I be able to find these two hostages?

You never seem to think about others. You are always selfishly thinking about yourself. You always ask me to consider your difficulties from a human perspective.

However, you don't seem to have properly considered the difficulties I'm going through now.

So what is there to say about these words now? It's just that we have all reached this point and have to face it. This is a very cruel fact. "

Sophia lowered her head, and he had nothing to say. While the two of them were talking, the driver had already taken them to the central hospital.

"The central hospital has arrived. The nurse will take him to the emergency department in a while. You don't have to worry. My mission has been completed. Is there anything else?"

"I only gave you the money to do these jobs."

"Handsome guy, I have to remind you that the beauty sitting next to you got the money, and you didn't get a dime."

"you....."

After the driver finished speaking, he left humming a tune.

Qin Yuan and Sophia were also driven out of the car by him. Now everyone is in a good mood, except Qin Yuan.

"Xiaolan has been pushed to the emergency room, what should we do now?"

"All we can do now is wait here for other things. You don't have to worry so much. Have you informed Azhe?"

"Didn't I call him just now? He hasn't come over yet, but I think it's necessary to inform him again."

Sophia nodded.

"Since it was you who made the deal with Azhe, you should be responsible for informing him. Maybe he will listen to you more."

"With this kind of relationship between you two, will he listen to me?"

"Qin Yuan, what I hope you can understand is that no matter what happens, you must remember that we will never betray you, and the money we are asking you for now will be useful."

By the way, Hassan is in this hospital, I believe you have seen him too.

However, Mr. Norman Karim will definitely know about the big commotion everywhere tonight. As for whether he will come here to meet you, I am not sure.

I think the problems Xiaolan encountered today were probably Mr. Norman Karim's idea.

He felt that this person could no longer stay, and there was no need to stay, so he naturally wanted to get rid of her.

After all, having a spy by your side is like having a knife by your side that may stab you at any time. "

While Xiaolan and Qin Yuan were talking, the nurse hurried out of the emergency room.

"Who has blood type O?"

"What's wrong? Did our friend just need a blood transfusion?"

"We don't have enough type O blood now. There is no blood of this type in the blood bank. If any of you have the same blood type, hurry up and come over and transfuse some. Otherwise, his life may be in danger." "

"I'm not blood type O."

Qin Yuan wondered if this was coming for him. Coincidentally, he himself had type O blood.

"I have type O blood. How much do I need?"

"400C C."

"Fortunately, there is so much blood left. Is this all you need?"

"There is still some stock in the blood bank, but it is generally not enough now. We need some support. Please come over and do a blood test first."

"Well, I don't have anything to say. After all, this matter is all my fault, so I'll go see what's going on first.

Sophia, let you wait here. By the way, tell Azhe to come over quickly. We can no longer support him here. If he has people with type O blood, bring a few over. "

"Yeah, I know, be careful."

Qin Yuan was still very conflicted. He felt that he shouldn't donate blood like this. After all, he still had to be cautious about this matter.

Places like Pakistan are very worried that their medical equipment is not clean enough, and donating blood is a big deal.

"When I go in later, I want to check your blood transfusion equipment."

"This is the first time I've met someone like you, and I didn't expect you know a lot.

Don't worry, everything here is very clean and won't cause you any trouble. After all, this is the largest hospital in the center of Pakistan. "

"It's not that I don't believe in the size of your hospital, it's that I don't believe in your country."

The little nurse heard what Qin Yuan said and subconsciously looked back at him.

The little nurse with long eyelashes looks like she is only in her early 20s, with a somewhat mixed-race look. Her eyes are dark brown, and she looks really beautiful.

Thick eyebrows and long eyelashes give people a sense of endless reverie.

Qin Yuan was stunned for a moment. He himself did not expect such a situation.

"Are you not from Pakistan?"

"Isn't it obvious enough? I'm definitely not from your country."

"Then you speak Pakistani quite well. How many years have you been here?"

"It only lasted about a month. Although this month is not a long time, I have experienced a lot."

"Are you someone related to the Norman Karim Group?"

"How do you know?"

"The person who is with Sophia is definitely not an ordinary person. I know the girl who came in for emergency treatment today. Her name is Xiaolan and she often appears in the club."

"Since you know him, you must use all your skills to save her."

After Qin Yuan said this, the little nurse subconsciously stopped, and then faced Qin Yuan and said with a serious face.

"You should be very aware of Xiaolan's situation today. He is a person close to Mr. Norman Karim. He definitely did not commit suicide or encounter any accident."

Looking at his wounds, I could tell that someone must have attacked him.

We can do our best to save him. This is the bounden duty of doctors to treat every patient equally.

However, even after we revive him, he will lose too much blood and it is very likely that he will suffer from hypoxia in the brain and may lose his memory or become a vegetative state in a more severe case.

Of course, if Mr. Norman Karim has other instructions, I cannot guarantee you that if he is not discharged from the hospital, he is likely to encounter other accidents. "

Looking at this little nurse saying these few words, it seems quite similar. Although he is relatively young, I have to say that his ability to deal with people is still very extraordinary, and his logical thinking ability is also very strong.

"Has Mr. Noman Karim really reached the point where he covers the sky with one hand in your country of Pakistan?

If you think there is something wrong with him, you can report it to the relevant departments. "

"The less trouble, the better."

"But you just said that it is a doctor's bounden duty to treat illnesses and save lives."

"In our place, no one wants to provoke Mr. Noman Karim. I am just an ordinary person. Why do you ask me to risk my life for you?

Forget it, it's better not to say so much. I've already told you what needs to be reminded.

I think you are also a very smart person. Even if I don't remind you, you can understand the powerful relationship between this. Come in with me for a blood test first. "

Qin Yuan saw that this little nurse did not look like an ordinary person. He was very expressive and courageous. If other people were unwilling to be troublesome, they would not have said this to him at all.

Chapter 2220 This girl is extraordinary

I don't know why, maybe because of his sixth sense, Qin Yuan always felt that this little nurse was not simple.

He looks very beautiful and doesn't look like an ordinary person. If he looks like this, he might have been targeted by that group of people.

"I see you're not very young, why are you starting to work at such a young age?"

"You're still young, shouldn't you go out to work?"

"That's not what I meant."

"I think the younger you are, the more you should work hard, so that you can get more benefits for yourself, and many things are not as simple as you think."

I think it's better for you to be more careful. After all, these problems have to be solved slowly for many people. Even if I tell you too much, it doesn't make sense. I think you seem to be indifferent. "

The little nurse said something that he couldn't understand.

So Qin Yuan smiled and said.

"I haven't asked you what your name is yet."

"I asked you to come over to give the patient a blood transfusion, not to strike up a conversation."

"Oh, little sister, I didn't expect that all of you medical students are quite unique."

"What you mean by this is that in addition to chatting up me, you have also chatted up with many people?"

"You can't say that. I have a colleague who also studies medicine and has the same personality as you, but the difference between him and you is that he doesn't like to express as much as you do."

He doesn't like to talk in a cold and frosty manner, which fits his name very well. "

"If nothing else, it should be a girl."

"I have to say, you are really smart."

Qin Yuan is always like this. Sometimes he blames himself, why is he so charming?

However, he still couldn't help chatting with others. After saying these words, there was no other reaction. He knew more and more clearly in his heart that everything that happened today was definitely not as simple as imagined and had to be measured slowly. Only then.

"Are you bleeding?"

"Of course I'm not a manly man, how can I faint with blood? Those are all tricks you little girls are good at."

"Okay, you don't need to write. Originally, I wanted to find you a blindfold and cover your eyes. But now it seems there is no need."

"Just come here with confidence, I won't have any reaction."

Qin Yuan suddenly remembered that he had never donated blood before, and he didn't seem to know much about it. Although some people didn't allow it, he fainted from needles.

Just when the little nurse took out the needle for drawing blood, Qin Yuan suddenly felt a little numb all over his body.

"Are you injecting pigs or cows? Why are they so thick?"

"Didn't you just say you don't faint? Why are you a little scared when you see this needle? This is not an injection for pigs, nor is it an injection for cows. It is specially used to draw blood."

"There is no need to use such a thick needle to draw blood. You probably want to draw more blood."

"You can question other things, but you cannot question my professionalism. Besides, although our medical resources in Pakistan are not as good as your country, we cannot just draw blood casually. You can rest assured about this.

Oops, just close your eyes and leave it to me. As long as you don't think about the pain, you won't feel any pain. "

"What's the difference between this and hiding one's ears?"

"Just be obedient and draw blood, and I'll tell you my name in a moment."

"This is quite interesting~"

Qin Yuan then closed his eyes. He was just fighting this little girl on purpose. Although he felt that the thick needle was a bit scary, he was also a special soldier and would not act like a coward.

Qin Yuan closed his eyes and felt the pain the moment the needle penetrated his skin, and now he felt uncomfortable all over.

Qin Yuan frowned slightly and the little nurse next to him also covered her mouth when she saw him like this and couldn't help but snicker.

"You look quite handsome, but I didn't expect you to be just like ordinary people."

"No matter how handsome I am, I still feel pain. Be careful and don't puncture my blood vessels."

"As long as you don't talk or move around, I will definitely not make any mistakes. Don't look at my young age now. I have been here for several years."

"Okay, I definitely believe in your professionalism, so I will leave myself to you and help me draw blood soon.

Speaking of which, is there any help on his side?

I also feel that he lost too much blood, and it seems to be quite dangerous. If it is hopeless, there is no point in drawing blood from me. "

"Your girlfriend is already so seriously injured. I asked you to draw some blood for her, and you still make irresponsible remarks."

Qin Yuan asked in surprise after hearing this.

"Who told you that he is my girlfriend?"

"Maybe the one outside is your girlfriend. You guys always like to mess around with men and women. It seems that the three of you probably have some relationship problems and drove him to commit suicide."

"Sister, I say you are a nurse and a professional after all. No one commits suicide by slitting their carotid artery. Most people commit suicide by slitting their wrists."

"Just because I am a nurse, you should not doubt my professionalism. Judging from his wounds, I think it is more likely that he committed suicide."

"What?"

Qin Yuan was a little confused now. Wasn't Xiaolan's injury caused by Efite? Why did he commit suicide?

Qin Yuan is a little doubtful now, maybe they are all a little preconceived.

As long as he saw Xiaolan lying in a pool of blood, in a very serious situation, he would think that he was harmed by someone, just like what the little nurse said just now.

Of course, it is not ruled out that he committed suicide and cut his wrists. This kind of plot is usually only performed in TV series.

And Qin Yuan remembered that when he received emergency rescue training in the army, the teacher once told them that the possibility of committing suicide by cutting his wrists was extremely slim.

Because the wrist is full of veins, even if it is cut, the wound will not be deep and it will not bleed too much, and it will solidify in a short time.

Unless the wound is deeper, soak yourself in the bathtub, just like in the TV series.

Only by allowing the pressure in the water to continuously release his blood pressure would he die from excessive blood loss. Now it seems that if he really wants to commit suicide, it seems that he must have given up all hope.

Although all this is a mystery, Qin Yuan doesn't want to think about it so much, and he is not interested in these things.

He just wanted to call Azhe over quickly, give him the money, and ask him to reveal the specific locations of the two students, Professor Fang De, so that he could complete his mission.

While Qin Yuan was thinking, the little nurse patted Qin Yuan on the shoulder and said with a smile.

"It's over, don't be so nervous, he should have started blood transfusion inside.

However, we cannot guarantee what the specific situation will be.

You also know that Pakistan's medical resources are indeed limited compared to your country, and everyone is lazy. They don't care about angels in white here saving lives and healing the wounded. Only money is the last word. "

"I already experienced this when I came here just now. Even the driver of the ambulance dared to take advantage of it."

"This kind of situation will never happen in country H unless something unexpected happens. I can be very sure about this. But since it has already developed to this point, I don't think you need to think too much about it. "

"You still know these bad habits in your country. Why don't you have a good talk with the dean? How many lives will be wasted with an ambulance attitude like this."

"Qin Yuan, these things have nothing to do with you, so don't worry about it. I know you won't be able to stay with us for long. Just complete your mission and go back."

"By the way, you haven't told me your name yet?"

"As promised, my name is Shen Man, nice to meet you."

"Shen Man? This name is quite nice. Nice to meet you. You actually know that my name is Qin Yuan?"

"Don't forget what kind of hospital this is. Everyone who is related to Mr. Noman Karim knows everyone, so you don't need to be too surprised. The last time you came here to see Hassan, I I've already seen you."

"Last time?"

"The last time you sneakily stole a doctor's white coat, put it on and went to see Hassan, I was on duty at the nurse's station at the time."

"What the hell?"

After Shen Man finished speaking, this sentence really shocked Qin Yuan.

At that time, he saw no one around and started to act. How could there be such a little girl hiding in the dark?

It seems that I haven't carried out special tasks for too long. Maybe my sense of smell has deteriorated and I don't even know that I'm being observed secretly.

"I think you are just kidding me. I don't know what you are talking about."

It is impossible for Qin Yuan to admit it now. He can only choose to pretend to be stupid and pretend that this incident has never happened. Anyway, he has no substantive evidence.

"Oh, I think you should stop talking so much, but even if I found your trace, I didn't tell anyone, and only one person saw it. Do you want to kill me to silence me?"

"You little girl are really funny. I don't have time to joke with you. Since the blood has been drawn, I will go out first. My friend is still outside."

"Is Hassan important to you?"

Just as Qin Yuan was leaving desperately, he heard Shen Man ask softly from behind. Qin Yuan stopped and went out without saying anything or paying attention to the girl.

After Qin Yuan went out, he saw Sophia waiting anxiously next to him.

"You finally came out, how's it going?"

"I finally know what it means to lose my wife and lose my army. I haven't completed my mission yet. I sent him to the hospital and gave him 400 CC of blood."

"How is Xiaolan? Can he wake up?"

"Shen Man said that it is still unknown whether he can wake up due to excessive bleeding and hypoxia in the brain, and it is also unknown whether he will become a vegetative state after waking up."

"Who is Shen Man?"

"That's the nurse who came over just now to ask me for a blood transfusion."

Sophia smiled helplessly after hearing this.

"why are you laughing?"

"Qin Yuan, let me tell you, you are so talented. You can even think of such a method. You have only known her for a few minutes, and you already know her name.

No wonder, you still don't have a girlfriend. Who can be at ease with someone like you, who flirts with flowers like a butterfly? "

"This can only be blamed on me being too handsome and attracting bees and butterflies."

Sophia shook her head helplessly.

"By the way, I have something very important that I want to tell you. Shen Man just told me that his wounds don't look like they were caused by anyone else. It is very likely that he committed suicide."

"suicide?"

Not to mention Qin Yuan was surprised, even Sophia, who knew the truth, was also surprised now.

"Don't listen to this little girl fooling you here. What can he see at such a young age? He just looks at us as inexperienced and just fools you with a few words."

"I think what he said is quite reasonable. We were not sure about this until Xiaolan woke up. If he really committed suicide, maybe it had nothing to do with Mr. Norman Karim.

Do we think of him as a little too evil? "

As Qin Yuan spoke, he began to fall into self-doubt.

Many things are different in his eyes, and he has experienced most of the problems, but he has never considered what the situation will be like.

What's happening now really makes it difficult for him to make a choice, and there are indeed many situations that he doesn't know how to deal with.

"If you want me to say these things, don't think too much about it.

Many questions may be reflected in things we already know, but we don't have a definite answer yet. If you have thoughts in this regard, don't worry, wait for us to talk slowly. "

"I just informed Azhe.

He will come over when he is ready. You don't have to worry so much, and there is no need to rush. And as far as I know, there is no problem for us to figure out.

The key is whether we can all have a definite answer. We can't just go by the current situation. This is not good for everyone. "

"Okay, if you want to say that, I understand what you mean. After all, he came here a while ago with Mr. Norman Karim. If there is any other news, maybe he can tell us as soon as possible."

"No matter what, since this Xiaolan is related to Efite, I always feel that Xiaolan's current situation is inseparable from this Efite.

Maybe this guy was behind it. Although he may not have caused the wounds by others, he could have caused them indirectly. "
