

# One-click Recovery Since I was a Special Soldier

## Chapter 2281 I guess I have no other options

Jason has been thinking about how to find Qin Yuan to help him, but in fact he is a little unable to open his mouth.

A man was wandering on the street, feeling aimless. He knew he had to hurry up. Mr. Norman Karim did not force him to follow him. This was the best time to go to the hospital. Given the opportunity, maybe he can go to the hospital to check the situation there first.

Later, Jason had made up his mind that he had to go to the hospital for a checkup no matter what. If possible, he would arrange for Akun and Amin to leave first.

Jason stopped a car casually on the road.

"Go to the central hospital."

The driver stepped on the accelerator and drove the car quickly to the Central Hospital. As soon as he got off the car, he saw Sophia standing outside.

"How did you come?"

"Where are Akun and Amin?"

"The two of them went to buy food. After struggling for so long, no one had eaten anything and they were a little hungry."

Jason looked at Sophia with a bad expression. It was most likely because he had not had any rest in the past two days, and some emergencies had caused him to be mentally and physically exhausted.

"Did Mr. Norman Karim ask you to come?"

Jason shook his head.

"He didn't ask me to come. I wanted to come and have a look myself."

"Such a big thing happened, and Qin Yuan is not here anymore. He has arrived at a safe place. You should have arranged for A Kun and A Ming to help him solve it."

"Although I have joined Mr. Norman Karim's group, Qin Yuan and I are brothers after all. I can't betray him so easily. I will naturally help him if he can."

"Stop joking here. I think you have thought too little. From the moment you planned to help Qin Yuan, you should have understood that Mr. Norman Karim is not so easy to mess with. I'm afraid he already knows. These things are related to you, so you are at a loss now."

"Sofia, you have been following Mr. Norman Karim for such a long time and you should know him very well. Instead of making fun of me here, why don't we come up with a solution together."

"What else can we do now? Although Azhe is out of danger."

But he still hasn't woken up. Mr. Norman Karim has not made any movement so far. The more calm and composed he is, the more panicked I feel. It's like the sea before the storm, waiting in calm. Some choppy. "

"We both have the same idea. We always think he will cause trouble."

"That's true. Based on what I know about him, he is not a person who gives up easily. The two of us should try to be more careful. He may not necessarily have what kind of ideas he has. Moreover, these issues are all important to us now. quite difficult."

Just as the two of them were talking, Huang Mao, A Kun and A Ming had already bought food and came back from outside.

As soon as they saw Jason Akun and Amin, they immediately ran up and asked.

"Boss, why are you here?"

"Are you two okay?"

"Both of us are fine and not injured at all. We discussed this with Qin Yuan before. He shot Azhe and there is no danger of illness. Azhe has now completed the operation."

Looking at Jason's embarrassed look, the two of them knew that something was most likely going to happen.

"What's going on? There must be something important for you to come here in person."

"Mr. Norman Karim has some suspicions about you two, and perhaps he wants to question you two individually."

I don't know what kind of method I will use. I'm a little flustered now. I was a little too impulsive. In order to help Qin Yuan, I actually got the two of you involved. I came here just to arrange for you to get out of here quickly. "

"Arrange for the two of us to leave here quickly?"

"Yes, this situation is very risky now. If you continue to stay here, I'm afraid there will be many emergencies. You have followed me for so many years and you have worked hard without any regrets.

I can't hold you all back because of my own thoughts, so I have already thought of a good way, which is for everyone to find an opportunity to leave here. "

Huang Mao heard what Jason said and sneered beside him.

"Are you kidding? Do you think you can leave Mr. Noman Karim's place at any time?

Since he is already in this situation, it means that he is already prepared and will not let you go easily. If he is not monitoring you now, it means that everything is under his control. I am not trying to scare you. What I said is true. "

"who are you?"

Jason looked Huang Mao up and down. He looked carefree and didn't look like a good person.

"He is one of our little brothers. He also helped a lot this time. You two should not quarrel first, let alone regard each other as enemies. Sit down and talk calmly. I also don't want Akun and Amin to Something happened."

So, Sophia took a few of them to a pavilion behind the hospital.

"Let's talk while eating. We have to maintain sufficient physical strength. I don't know if there are any special events that happened. Efite ran out. I don't know if he will cause trouble."

"Don't worry, he will definitely not cause trouble, because he himself has already escaped."

"Jason, you mean he's run away?"

"Yeah, yes, that's true. He has already run away, and he doesn't know where he is going. You don't have to be so anxious now. You have to decide on these things slowly.

He must have left here and returned to Old K. It is quite intriguing to hear what he meant.  
"

"What did he say? I'm a little curious."

"It doesn't matter what he said. The most important thing is that he cannot be allowed to meet Mr. Norman Karim, otherwise your lies will most likely be exposed. Although Azhe was injured this time, it looked very serious on the surface.

However, a detailed investigation can also show that there are no serious injuries. The key is not to let Mr. Norman Karim find out that you and Qin Yuan have made a game and lure him into the game. "

"He shouldn't find out about this for the time being. After all, Qin Yuan is a member of the special forces, and he doesn't want anyone to die, so Mr. Norman Karim shouldn't have too many doubts about this.

The key lies in what should be done next. Akun and Amin will definitely not be able to return to the group. They must arrange a ship to send them away first. It is best to leave here. If Qin Yuan can help, maybe A little smoother. "

Huang Mao was a little curious after hearing Sophia's words.

"You are facing such a big crisis now, all because of Qin Yuan. Is it difficult for him to do you a favor?

I don't think he is that kind of selfish person. Let's go directly to him and send A Kun and A Ming to a safe place. It's not something we can't do. It just depends on whether Qin Yuan is willing to help. "

"Whether he is willing to help or not, we cannot morally kidnap him. I don't want the brotherhood with him to become so tense, and I think many things are indeed more difficult than we think. Everyone must be more sensible. You can't be so impulsive."

"He has reached a safe place now, and there is no need to worry about his words and deeds.

But we are different. We must remain vigilant at all times and never let Mr. Norman Karim feel that we are betraying him. This is a very difficult matter to solve.

I know that what people like him hate most is betrayal by those around him. If he knew that you didn't have such thoughts and thoughts, it would be difficult to live. "

Huang Mao said this because he cared about Sophia, which everyone can understand.

"Azhe hasn't woken up yet. Although he is out of danger, I don't want these things to cause him a great sense of crisis again, so I will solve it alone.

A Kun and A Ming must not get into trouble. They helped others and got involved in these things for no reason.

We can't let their lives be in danger. I believe Qin Yuan thinks the same way. Let's contact Qin Yuan first to see what he thinks. But so far, we still have a very important thing to do. Take care of it.

It was necessary to get the bullet fired from Qin Yuan's pistol to completely escape this danger. Otherwise, he would not be able to afford the crisis of public opinion. "

"How could you forget these things? You are right. This bullet is indeed a key piece of evidence. We must not let it fall into the hands of Mr. Norman Karim, otherwise he will definitely take advantage of it. Public opinion has made Qin Yuan and the others even more nervous, and this matter is unavoidable. "

"Then have you figured out how to get this bullet back?"

"There is a young nurse in the hospital who should know Qin Yuan. We want to ask him to help."

After hearing this, Jason immediately looked in the direction of the hospital.

"This hospital should be controlled by Mr. Norman Karim. The person you are looking for must be reliable. He should know Mr. Norman Karim's means and status. It is too risky to do such a thing. , is this person willing to help us?"

"I gave him a diamond bracelet, which was priceless, and he agreed at first.

However, after he came back, he returned the diamond bracelet to me. I don't know what it means and whether he is willing to help. But I can be sure that even if he is not willing to help, he will not reveal our secrets. I am very sure of this. Yes, I believe he is not such a person. "

When Jason heard what Sophia said, he was a little confused.

"Sofia, please don't blame me. My doubts are reasonable. I just want to ask you how to be sure that he will not betray you?"

"This is Qin Yuan's own judgment. You should trust his judgment instead of questioning me here. Although it may be rude to say this, the most important thing is to ensure everyone's safety and not to question Qin Yuan's decision. "

Jason looked a little angry when he saw Sophia, and he couldn't say anything else. He still had a lot of doubts about this little nurse in his heart.

Because he doesn't believe that the other party will help you unconditionally after only meeting him once. This seems impossible and sounds a bit too abstract. It would be okay if it was Qin Yuan's decision.

"Qin Yuan said this, then I can't care about other people's thoughts, as long as you think it is reliable, the most important thing is not to delay everyone's serious business, this is a very important point.

And I think Qin Yuan has arrived at a safe place. He can have enough energy to help us do these things. We need to find a ship to let A Kun and A Ming leave here quickly. I believe that only Qin Yuan can do this. Yuan and his friends can do it. "

"Yeah, that's what I thought in my heart, but I believe Jason you are desperate and came here to discuss these matters with me.

What you do is equivalent to betraying Mr. Norman Karim. You have to think carefully. After finally joining the group, if you betray him again, I'm afraid you won't be in trouble either. "

After Jason heard Sophia's question, he sneered and said.

"You don't need to question me here. I have already thought about these things. From the moment I decided to help Qin Yuan, I have no intention of living a stable life.

My daughter is under Qin Yuan's care and is doing very well now. I do all this for my daughter.

So, I hope you can understand my difficulties.

But Akun and Amin are my good brothers, and I can't be so selfish that I only consider myself and not them. It is indeed a difficult problem for me now.

I don't know how to choose, but I can't hurt my brother no matter what. I can't afford this price. If there is anything wrong between the two of them, I will probably have to live with guilt for the rest of my life. "

Akun and Amin were very moved when they heard what Jason said.

"Boss, we will listen to you no matter what you ask us to do, whether it is to help Qin Yuan or to do other things.

We have never regretted it. You don't need to tell us this, and I don't think you should sacrifice yourself to consider being a younger brother for us. You should listen to the boss, right? "

Huang Mao was actually moved when he saw the brotherly love among them.

"I didn't expect your relationship to be so good. I have nothing to say, but I still have to remind you to hurry up. If you want to arrange for A Kun and A Ming to leave here early, I can go to the dock to help them find a boat. "

"Are you really willing to help us?"

"People are wandering in the world, and who can do it without anyone's help? This time I will help you, and maybe you can help me one day. This kind of thing is mutual. I understand the rules of the world.

Stop talking nonsense and think clearly about whether they want to leave. Time is more important than life now. "

### Chapter 2282: Reluctantly arranging for the brothers to leave first

Jason looked at Huang Mao and said this to himself while frowning. He was quite surprised.

"I didn't expect you to be more anxious than me."

"I'm not worried for you, I'm worried for Sophia and Azhe. Now Norman Karim has obviously begun to doubt you. If you wait until he takes the initiative to ask, your situation will be very passive."

Sophia didn't say anything at the time. He couldn't blame anyone at this time.

"Jason, I think what Huang Mao said makes sense. Since you are facing so many difficulties to help Qin Yuan, he will never sit idly by."

"Of course it's impossible for Qin Yuan to ignore it, but I'm really embarrassed to ask him now. He has just escaped from danger and can finally be quiet for a while. I'm also a little embarrassed to disturb him at this critical moment. "

"If you really regard him as a good brother, there will be nothing you can't talk about. I can handle the matter of arranging the ship by myself. Now you have to communicate with Qin Yuan first about the next specific plan. Does he suggest A Kun and A Ming leave first?"

I have to say that although Huang Mao is relatively young, he has considered these things very thoughtfully, and what he said is quite reasonable.

After Shen Man arranged these things, he also checked where the bullets were placed, so he packed up and left the emergency room to prevent others from suspecting him.

As soon as Shen Man walked to the door, he found that all these people were gone.

"It's strange. Just now a bunch of people were arguing here and now no one can be seen so soon. What's going on?"

Shen Man was very worried at this moment. He was afraid that Mr. Norman Karim would come and take these people away, so that they would really be in danger.

When he was confused, he tried to walk outside. When he reached the back of the hospital, he saw these people chatting in the pavilion.

"I've been looking for you for a long time, and it turns out you are here."

Everyone looked in the direction of the sound.

"Shen Man, we all ran here, and you can find it, which is really amazing."

"What are you people sneaking around here? Are you talking bad about me?"

As Shen Man spoke, he looked up and found that another person he had never seen suddenly appeared among them.

Wearing a nurse's uniform, Shen Man walked up to the crowd step by step with his hands in his pockets.

"Who is this? Why haven't I seen it before?"

Shen Man looked at Jason and looked up and down at this person he had never seen before.

"Isn't it normal for someone you've never met to appear in such a large hospital? Doesn't it mean that everyone needs to be recognized by you?"

"Huang Mao, don't act like you've taken a drug. I'm just asking casually. After all, the hospital is not an ordinary public place. If someone suspicious appears, I have to ask a few more questions."

"You are right, but you are a little too nosy outside. This has nothing to do with you. It is more important to do your own thing well than anything else. Don't meddle in everything here."

"Things within my duties? If I only focused on doing my duties, I probably wouldn't come over to help you."

When Sophia heard this, she looked up suddenly.

"Help us? How?"

"I know this bullet is very important to you. I tried to bring it over just now, but this thing is really sensitive and I have to wait until the dean comes back before handling it.

What a coincidence is that the director is not in the hospital on a business trip these days. He won't be back until next week, so you don't have enough time to steal it. "

Huang Mao and Sophia felt a little hopeful after hearing this. They had been worried about how they could steal things in such a place openly, but now they felt confident after hearing the little nurse's words.

"It's a good time for you, the dean, to go on a business trip. It also gives us a chance."

"Although the director is not in the hospital, I advise you not to be too happy. Mr. Norman Karim should be watching this thing all the time.

Therefore, I don't think you can get it so easily. I just went to help you check where it is placed, so that you can find it quickly when you do it. "

"If you didn't accept the diamond bracelet, would you still help us?"

"Are you kidding me? Sister, you don't lack this kind of money at all. Well, not accepting the diamond bracelet just shows that I want to help you from the bottom of my heart. If you believe it, just listen to me and don't believe it. I can't I don't have time to prove to these irrelevant people whether I am worthy of trust."

"Did Qin Yuan ask you to help us?"

"I've only met him once, and I'm not even familiar with him. Why should I help him?"

"Boss, our conversation just now needs to continue. Have you decided yet? When will you arrange for A Kun and A Ming to leave here?"

After hearing this, Shen Man looked back, smiled and said.

"You must be discussing some more important things. It's not convenient for me to be here. The important information has already been disclosed to you. In that case, I will go back first."

Shen Man turned around and was about to leave.

Huang Mao stepped forward and grabbed his arm in desperation.

"Don't mess around in a place like this in broad daylight. If you have anything to say, just say it."

"You misunderstood. I didn't want to pull you off. I just thought that since you are willing to help and we are willing to reveal some information, why can't you speak more clearly?"

You just told us that this bullet was listed as a key target, and that your director will not return to the hospital in the near future, but you did not tell us where the bullet was placed. How do we know how to deal with it? "

"I have just said that it has nothing to do with Qin Yuan and it has nothing to do with you people.

Why should I tell you in such detail? It's up to you how to deal with these things. If I tell you everything, then I will be on your side. If anything happens, I will be blamed. "

After Sophia heard this, she took out this diamond bracelet from her pocket.

"I'll give this to you."

Shen Man looked down at the diamond bracelet sparkling in the sun, curled his lips and smiled.

"You don't think you think I'm playing hard to get here just to get the diamond bracelet, right?"

"Otherwise you've been here for a long time and never given us a definite answer. What's the point? People and money are more important than money. As long as I give you some benefits, you will be motivated to do things for us."

"No, no, no, on the contrary, I don't agree with the idea that people and money are dead. I only agree that life comes first. If I lose my life, what do I need the money for?"

"Stop wasting your time here and tell us quickly before you are willing to help us."

Huang Mao was really worried. He looked at the little girl in front of him and wondered if she was playing tricks. They always spoke completely without saying anything, which made people think.

"I told you, you little yellow-haired puppy, not to worry. As I said just now, I tried to check it out for you. However, this thing is placed in the attending doctor's safe and cannot be easily accessed. , I advise you to be more cautious."

"Prying safes is my specialty."

"This kind of expertise is not something you can show off all the time. I advise you to wait until it gets dark before taking action. At this time, the doctor has just finished the operation and is resting in his office.

You are not going to pry open his safe in front of him and take away such an important thing. "

"Thank you for the reminder. You can help us think of so many things. We are very grateful for other things. We don't dare to ask for too much."

"Sofia, I won't joke with you now. In fact, I am still willing to help you, but it has nothing to do with this diamond bracelet. I hope you don't think of me as such a philistine."

"I can understand that you have been doing your best to help us, but at this moment we have to discuss with Qin Yuan whether to send Akun and Amin away first."

After Shen Man heard this, he looked back at A Kun and A Ming.

"After experiencing so many things, the two of them are indeed not suitable to stay here. If possible, let them leave first."

"Let them leave first?"

"Of course, this is just my own suggestion. You can ask Qin Yuan what you want to do specifically. He has the right to decide these things, and he thinks more clearly than you all."

"It's just Qin Yuan. He has gone to a safe place now. It may not be convenient for us to disturb him."

"He went to a safe place, and it's not like he went to a place where there is no way to contact him. You can try to contact him first. After all, he took the lead in this matter, and he should be responsible.

I don't see him as an irresponsible guy who just takes advantage of others and doesn't care. He should do his best to help you find a solution, and I know that these friends of his have a lot of resources in their hands. I will help you arrange a boat to leave this place at any time. "

"I didn't expect that you are not old, and you are pretty good at judging people. In this case, I have nothing to say. You should go back to work first, and we will discuss how to tell Qin Yuan about this matter. After all, it is still There's some trouble."

Jason has always been very conflicted. Apart from not wanting to trouble Qin Yuan, he was also embarrassed to speak.

"I advise you not to be so mother-in-law. If you really think about your brothers, don't think about that."

"That's fine, but Huang Mao can handle the matter of arranging the ships by himself."

Shen Man looked at Huang Mao with disdain.

"Please don't look at me like this, it makes me look like a waste."

"I don't mean to look down on you, I just want to tell you that arranging the ship to leave here this time requires a big project and must be concealed. These friends around you may not be able to help.

You still have to have someone with more authority to use some special channels to send them out safely. "

"Shen Man, I see that you are not very old, but your words are quite unpleasant. How come all the friends around me have become bad friends?"

"It's just a joke. Besides, it's just an adjective, so you don't have to mind it too much.

Forget it, I still have a lot of things of my own to deal with. If you want to get this bullet, you have to do it as soon as possible. I advise you to wait until it gets dark today to find a way. The longer you delay, the more likely you will be. Long nights and many dreams.

But you can't move during the day, so tonight is your best chance, don't miss it. "

Shen Man just left the place with just one sentence, which made the people around him a little confused. Everyone didn't know why he chose to help him. Maybe he also had a special identity, but these people didn't know it.

Huang Mao is very angry now.

"This guy is really annoying. His words are so unpleasant. I didn't expect that a pretty girl would speak so unpleasantly."

Sophia stepped forward and patted Huang Mao's shoulder gently, looked at Shen Man's leaving figure, smiled and said.

"It's not that he speaks harshly, he's just a little girl who likes to joke. You don't have to worry about it. It's just that he can be so helpful. We are indeed very surprised."

"Right, are you also particularly suspicious of him? I have long seen that his identity is very suspicious."

"I'm not doubting him, I'm just considering that no more people can be implicated no matter what, and I don't think he was sent by Mr. Norman Karim. No matter what idea he came up with, it was all in For our consideration, this is also something that surprised me.

Taking advantage of the time just now, I also thought about it, why not just contact Qin Yuan like he said.

Even if we don't want to speak out, we still have to find a way. This is related to the safety of too many people, and we cannot be irresponsible.

Choosing to hide these things simply for the sake of one's own face is irresponsible behavior towards A Kun and A Ming. Since they have been involved in this matter, no one can be immune. "

After hearing this, A Kun and A Ming also understood their situation, but the two of them did not want to leave their boss even more.

"Boss, we two can leave here, but what about you?"

"I have to stay here to deal with the aftermath. I can't go with you."

"No, we are all good brothers. If we want to stay, we can stay together. If we want to leave, we can leave together. How can you stay here alone?"

We have been following you for so many years, and we must never abandon you. We took it upon ourselves to seek refuge with Mr. Norman Karim for the sake of your safety.

Now that we've come this far, we don't mind taking another step forward. "

## One-click Recovery Since I was a Special Soldier

### Chapter 2283: Revealing that there are people inside the hospital

Qin Yuan was silent for a long time, watching the sky outside slowly darken...

"Why are you all silent?"

He Chenguang leaned against the wall with his hands in his pockets and lowered his head. At this moment, everyone was exhausted.

"What else is there to say? Now that you have left this kind of evidence that can prove your identity there, it is always a hidden danger."

"He Chenguang, don't provoke Qin Yuan anymore. He also knows that it is a hidden danger, but there is no better way. If it can be solved, we will not delay it for so long. We don't let you go back to rest. We stay here to discuss it together."

"An Ran, whenever Qin Yuan is mentioned, you must stand up to defend him."

Chen Jixiang was silent for a long time. Seeing that everyone was distressed by this matter, he stood up angrily and said.

"If it doesn't work, let me go to the hospital in person and steal the bullet back. Anyway, such important evidence must not be in their hands. This will have a great impact on our troops. I don't want Thor to be criticized because of this matter."

"You are a little too impulsive. Sophia can help us keep an eye on it. If there is a special situation, she will help us find a solution in time."

An Ran was a little worried.

"Not to mention Sophia, she has deceived me many times in the past. I don't trust this person anymore. Even if he stays there, he may not help us wholeheartedly. After all, he is not one of us, so we have to be careful in advance."

Both sides were arguing.

After Qin Yuan thought for a long time, he felt that he should take the risk and go there. He must check the situation nearby first, and he suddenly thought of A Kun and A Ming, who might be in danger now.

According to the time, Sophia has already reported the specific situation to Mr. Norman Karim. I am afraid that he may not completely believe what A Kun and A Ming said and take relevant measures against him.

Qin Yuan was indeed too anxious just now, and he ignored this point.

He forgot how much difficulty A Kun and A Ming would face if they helped him lie, and that they would also be suspected by Mr. Norman Karim, so he had to go there in person now to make sure that these two people were fine before he could rest assured.

Then, Qin Yuan stood up from his seat.

"What are you going to do?"

"I have to go to the hospital. This matter is the tail I left behind, and I have to solve it myself."

An Ran stood up desperately and grabbed Qin Yuan's arm.

"No! You can't go out now.

Mr. Norman Karim is likely to have someone ambush us outside. He doesn't care whether he can recover his losses. He just wants to vent his anger for his losses. I believe he will definitely have someone outside to watch us. What if he ambushes a sniper?"

"Sniper? Does he want to kill me?"

"It's hard to say in this mixed place."

"It doesn't matter. I'm wearing a bulletproof vest. Besides, I'm the best one in the special forces. Can't I detect a sniper nearby?"

"Don't joke. A sniper can hit you even if you are hundreds of meters away. Can you know what the situation is? It's the most dangerous when you are unprepared. I finally got back here. Let's calm down first."

He Chenguang yawned and said.

"Qin Yuan, if you ask me, don't bother with their business. Since we are safe, why should you care about others? Just make sure you are safe."

Qin Yuan looked at the man in front of him in surprise.

"He Chenguang, are you kidding me? What do you mean by just taking care of ourselves and not taking care of others? You are really going too far."

"They are not good people. What we are doing is called proper use of effective resources. Anyway, our own mission has been completed. You just need to wait for Du Bingbing to send a helicopter to pick us up and we will be done.

Why do you have to care about so many things about them? It's really not worth it to put yourself in a dangerous situation."

What He Chenguang said was really chilling.

"You know that Brother Qin Yuan is not such a person, but you still say this. It's obvious that you are deliberately making trouble."

Chen Jixiang didn't dare to speak loudly, so he had to complain quietly beside him.

He Chenguang's ears were not deaf, and he heard the complaints of Chen Jixiang.

"You guys are talking about the code of conduct, but what about the reality?

You are still putting yourself in a dangerous situation. Although it may not be good for me to do this, you have to look at who the specific target is.

Bad guys like them have done so many bad things with Norman Karim. The sooner they are dealt with, the sooner they can help their people solve their difficulties."

An Ran and Chen Jixiang did not agree with this view.

"People say that people with different opinions cannot work together. It seems that our views are indeed quite different. We can't understand it, and you can't think about this matter from our perspective. I think it's better to forget it and let Qin Yuan decide for himself."

Qin Yuan stood there thinking for a long time. He was also under great pressure at this moment.

"An Ran, you understand that if I don't get my bullet back, it means that we have been controlled by others. I don't like to do things unfavorably. Once I want to do something, I have to do my best."

After hearing what Qin Yuan said, An Ran smiled and nodded.

"I knew there was no way to stop you. It doesn't matter. You can go if you want, but you have to discuss it with Wang Xin in advance."

"After all, he is the person in charge here. If anything happens, I must discuss it with him first, but there is a high probability that he will not support my decision."

"Let's try it first. If he thinks the same as you, I think the two of you will feel like old friends at first sight. Maybe he can really understand your thoughts and support you."

Qin Yuan said with a bitter smile.

"I hope so."

Later, when Qin Yuan was about to go out, he unexpectedly saw Liu Mei.

"Didn't you go back to rest? Why are you here?"

"Rest? For us, there is no such word as rest. If you haven't left here for a day, it means that our mission has not been completed. I don't dare to go back to rest. I have to protect your safety here."

Qin Yuan stood at the door and looked to the left and right. After looking for a long time, he didn't think there was any danger here.

"This is your own territory. Do you still need to stand guard here? That would be very tiring."

"Then there's nothing you can do. I just have to stand guard here, and even if I stay here to watch you, Wang Xin won't feel at ease."

"I'll go talk to him myself."

"casual!"

Qin Yuan left the room, walked to the door of Wang Xin's office, and knocked gently.

"come in."

"I'm sorry to bother you at this time. Look, it's almost dark outside. You guys should be off work by now."

After Wang Xin heard Qin Yuan's words, he smiled.

"If you have anything to say, just say it directly. Don't beat around the bush here. I'm the kind of person who only works in an office.

get off work? It's a bit too luxurious for us. As long as we stay in this position for a day, we have to ensure that everything is under our control. I don't dare to leave my job casually. "

"Don't you have a normal and regular schedule here?"

"This place is a mixed bag, and it's very unsafe. We don't have our own schedule. It's just a shift system. When one person takes a break, the other one has to work here in time."

"Our country is so powerful, is it possible that someone still dares to cause trouble here?"

"You don't understand this. You have to be controlled by others on other people's territory. No matter how strong our national power is, we have to accept this unspoken rule. I don't dare to leave my post casually. When the time comes, I'll switch shifts with other colleagues to take a break."

"It turns out it's so hard here for you guys. I thought..."

"Do you think we are like an unattended territory here, and you can do whatever you want? Don't forget that what we represent outside is the honor and face of the country, and we don't dare to relax casually."

"Wang Xin, these words you said really make me admire you more and more."

"Don't interrupt. Just tell me quickly. Why did you come to see me today? I think you have something on your mind."

"I made a plan with Azhe to shoot him after you left. So now that the bullet is in their hands, I have to get it back first."

"It turns out that this incident has made you brooding, and you haven't had a good rest until now."

"With such solid evidence in their hands, how can I possibly have a good night's sleep? I have to go get it back first."

"Sophia, won't he help you? Isn't he always around there?"

"Sophia also has her own affairs to deal with. I'm a little embarrassed to go to him directly. Can you understand? And now all he thinks about is Azhe. But if the other party is not out of danger, he can't solve it well. These things also make me feel a little distressed."

"So, you want to go back to the hospital alone to retrieve the bullet."

"Don't be kidding, you know I can't let you go. I took you back from Norman Karim with such great effort, and now I want you to go back and take risks. How is this possible?"

"It's obviously unrealistic. Just give up now. Don't try to convince me. I won't agree."

"Wang Xin, actually I had predicted before I came to see you again that you would not agree to this."

"In that case, does it mean that you did it knowing that you couldn't do it? Du Bingbing said that you are a very stubborn person. I didn't expect it to be so. Knowing that I would never agree to you, but still coming to me does not count. You are awesome."

"Then what are your plans now?"

"Qin Yuan, you have to know what the current mood is like. Mr. Norman Karim is very angry. He no longer cares about whether he can recover his losses and takes these two hostages back. He just wants to take you back. Solve it."

"Do you know how dangerous it is for you to go out? You are simply a living target. They will definitely try their best to kill you. If you are in any danger, what will Chen Jixiang and others do?"

"I believe the quality of the body armor made in our country is still good."

Wang Xin couldn't help laughing when he heard Qin Yuan's humorous and refusal answer.

"Qin Yuan, at this time, you can still joke and be so humorous. I really admire your mentality.

No matter how good the bulletproof vest is, it only plays an auxiliary preventive role. It is not a diamond armor that can't be penetrated by the most powerful gun.

You are also a member of the special forces, playing with guns all day long. You should know how terrible all kinds of pistols are. This is not a problem that a bulletproof vest can solve.

If a bulletproof vest can guarantee a person's safety, there may be no more gunshots in the world."

"I didn't expect you to speak like this "It's so disorganized that even I don't know how to refute it."

"If you don't know how to refute it, don't refute me. Hurry up and pack up your things, leave my office and go back to have a good rest. Du Bingbing should have some results tomorrow. You also know that they are usually very slow in going through the process, and it takes some time."

"Of course I know that they are a little slow in going through the process, so I am anxious. Please, can you consider it for me and stop doing this."

Wang Xin didn't intend to tell Qin Yuan, but seeing him so anxious, she felt bad.

"Theoretically, I shouldn't tell you this secret. It's a matter of principle, but since you are so anxious to leave, I will tell you a little bit. We have our own people doing special work in the hospital. He should find a way to help you get the bullet back."

Qin Yuan was very shocked when he heard this, and thought that Wang Xin was lying to him to stop him.

"Are you telling the truth or not? The hospital is Mr. Norman Karim's territory."

"Such an important issue, do you think I need to lie to you? I have already planted someone there. He has been working in the hospital all the time. No one will doubt his identity. He can help us solve these problems when necessary. It can be regarded as an unexpected chess piece."

"From what you said, it seems that you have been lurking there for many years. You can plant people in such a place. It's really amazing."

"Now you should be assured of what I said. I will never lie to you, especially to deceive you on such a principled issue, which is to disrupt our overall plan.

I know you are very anxious, but don't worry." (End of this chapter)

# One-click Recovery Since I was a Special Soldier

## Chapter 2284: My heart is in my throat

Even though Qin Yuan knew that the other party was a trustworthy person, he just couldn't put all his hopes on one person now.

"Wang Xin, can you understand my mood? Even though I know you are a reliable person, I can't help but be anxious."

After Wang Xin listened to Qin Yuan's words, he walked forward with a smile, put his hands on Qin Yuan's shoulders and pressed down, letting him sit on the chair, trying to make the other person relax.

"Listen to me first and tell you slowly. I have arranged for my own people at the hospital. You don't have to worry so much. He has been in the hospital for so many years and knows the situation there very well."

"I want to know who this person is, do I know him?"

When Wang Xin heard what Qin Yuan said, he put away the smile on his face and said to Qin Yuan seriously.

"Qin Yuan, as a member of the special forces, you should know this information. I can't tell anyone that this is a matter of principle. I personally want to tell you everything to reassure you, but this is against discipline and you won't You don't understand me?"

After Wang Xin said this, Qin Yuan felt speechless. Although he wanted to know all this, he could not force the other party to violate discipline.

"Okay, you've already said that. If I still press you, you're going too far. You've already blocked my mouth, and I can't say anything else."

"You can stay here with peace of mind. We can arrange for you to go back after the procedures over there are completed."

After hearing this, Qin Yuan sighed helplessly and said.

"The procedures in the army are very cumbersome. I'm afraid we have to spend a week here. How are Professor Fang De's two students?"

"They are fine. I have asked a doctor to check them. They are not seriously ill. Although they have been under the control of Mr. Norman Karim during this period, they are still considered safe and safe. It doesn't affect their health, so you don't have to worry so much."

"Physical health is secondary. After all, they still have value. Mr. Norman Karim is unlikely to threaten their lives. It's just that I'm afraid that being locked up for so long will cause some psychological problems."

"Oh, Qin Yuan, why are you so worried about me? I have already found a psychiatrist to help them with psychological counseling. There must be no problem. People like them who are engaged in scientific research have very strong psychological qualities. They are not as strong as you think. Fragile."

"If I had been controlled by others for so long, I would definitely have problems in my heart."

"So you are not suitable for scientific research, but you are suitable for this kind of action with swords and swords."

After Wang Xin finished speaking, she and Qin Yuan looked at each other and smiled, and everyone stopped talking.

"By the way, Mr. Norman Karim has not taken any action so far. I sent people to watch outside and there was no movement at all. If something goes wrong, there must be a monster. If he takes any crazy action, I won't be very concerned about it. Surprisingly, he is so calm and calm now, which makes me a little worried."

Qin Yuan has been thinking about it. He doesn't know how to solve this matter, but he can also expect that the other party will not give up so easily. If they have a way now, they should find Efite first.

"Wang Xin, you should be able to check the entry and exit status at any time. Can you help me find this guy Aifik?"

"I knew you would think of this problem. In fact, I have already helped you do this. However, this guy is quite cautious. No trace of him has been found so far. Maybe he is no longer here. "

"What you mean is that it is very possible that he went back to find Old K. It is also possible. After all, he has offended Mr. Norman Karim. If he does not return to Old K quickly, his life will not be saved. "

"Yeah, that's what I think in my heart. No matter where he goes, as long as he can ensure that he is safe and doesn't fall into the hands of Mr. Norman Karim, there will be no problem."

Qin Yuan touched his chin and thought for a long time before speaking.

"Yes, if we don't get caught by Mr. Norman Karim, he won't be able to have substantial evidence to identify us. This way we will be safe and I can rest assured."

"That's alright. Is there anything else you need to worry about?"

While Qin Yuan was talking, he suddenly received a message from Jason on his mobile phone.

"I'll check my phone first, sorry."

So, Qin Yuan took out his phone to watch TV and saw the message Jason sent him.

"It's urgent, please call back if it's convenient."

"What's wrong?"

Wang Xin saw some changes in Qin Yuan's face, and asked anxiously from the side.

"look by yourself!"

Qin Yuan turned the phone to the other party. Wang Xin looked at the message on it carefully, and said with a slight smile at the corner of his mouth.

"I knew he would definitely try his best to find you, but now that he has found your head, don't run away anymore. Isn't this what you have been thinking about in your heart?"

"How do you know what I'm thinking about?"

"Akun and Amin have helped you with so many things. It must be very dangerous now. The other party coming to you probably wants to help you and arrange for his good brothers to leave this dangerous place as soon as possible."

Qin Yuan looked at Wang Xin in disbelief.

"Okay, I said your observation skills are really getting stronger and stronger. You also seem to have the ability to predict the unknown. You can actually see through what the person on the other side of the phone is thinking."

"Let's just talk to each other. We are both clever people. Why do you have to tease me?"

"Then what do you think I should do now? Is it convenient for me to call him back?"

"This is your phone and the messages you receive. It's up to you to do whatever you want."

The reason why Qin Yuan asked this was because he felt that Jason's identity was relatively sensitive. Contacting Jason in such a place might bring some unnecessary trouble to Wang Xin. He had to obtain the other party's consent before he could do anything. Able to make decisions.

"It's okay, Qin Yuan, you don't have to worry about what I think, just do what you want to do. No one here monitors your mobile phone. If there is an internal investigation in the future, I will not tell anyone what happened today. Yeah, I just pretended I didn't see anything."

"There should be surveillance in your office."

"Yeah, yes, there must be surveillance in an office like ours, so if you want to contact him, just go out and call him. It's best not to let anyone know if there is a corner in the yard. Monitored, you can make calls there."

"This is equivalent to revealing your secret to me. You know how to find surveillance blind spots in this position. What if I leak your secret in the future?"

Wang Xin smiled softly, and then said very confidently.

"First of all, I have never done anything that is unworthy of my position, and it is even less likely that I will betray the interests of the country. Secondly, it is impossible for you to betray me. Although we have known each other for a relatively short time, I believe in your character."

Qin Yuan smiled evilly.

"Wang Xin, do you believe in my character or do you believe in Du Bingbing's vision of people?"

"I didn't expect you to see through my heart. I trust both of you. Go ahead and contact them. I also have some work to deal with here. By the way, I can help you to urge the internal process to be completed as soon as possible. That's it. We can arrange a helicopter to take you back so that you don't have to worry about long nights."

"You just need to deal with your own work. You don't need to help me with the process. This is something that offends people. I can't let you do it."

"Forget it, rather than keeping you troublesome here, I would rather offend people and send you back as soon as possible, so that I can breathe a sigh of relief."

After all, if people like you stay with me for even one day, I will be in endless trouble.

In order for me to have a good night's sleep, I'd better take the time to arrange for you to go back. I believe Du Bingbing has done his best. There are still some mistakes so far, which may not be what he wanted. "

"At this time, you are still helping Du Bingbing speak.

Don't worry, I have never doubted his motives. I know that he has done his best for us. It's just that the internal process problem is troublesome, and maybe Thor is also involved in this matter.

After all, we are people sent by Thor, and we did not come here through regular channels. They must investigate first and then go through the normal process after feeling relieved.

I know this matter is very troublesome. I can't blame Du Bingbing, let alone you. Anyone can only say that this matter is a coincidence. "

"I didn't expect you to be so considerate. If that's the case, then I don't need to explain too much to you. I hope you can understand my difficulties."

After hearing this, Qin Yuan stood up and walked to Wang Xin, holding a mobile phone in one hand and gently patting the other person's shoulder with the other.

"Okay, now that we've talked it over, there's nothing left to worry about.

I will go out and reply to Jason now. I believe he is also waiting impatiently. He must have been struggling for a long time before taking the initiative to contact me. If there is any other way, he is not willing to come and trouble me. "

After finishing speaking, Qin Yuan went out, preparing to find the blind spot in the yard that was not monitored.

On the other side, in the pavilion of the hospital, everyone was anxiously waiting for news about Qin Yuan.

"I have already sent him a message. Please wait patiently. It is not particularly convenient for him to contact us in that place."

Huang Mao was a little unconvinced. After all, he was a gangster and didn't know much about this internal process.

"I don't believe it. Even if it is inconvenient, is it possible that there is no time to reply to the message?

Even if it's not convenient to talk on the phone, I should still send you a message so that we won't be so anxious waiting here. He should also know that if we weren't desperate, we wouldn't bother him, but now he doesn't seem to want to help us. mean. "

"Don't say that yet. Qin Yuan is not this kind of person. You don't know him well."

Huang Mao sneered and said to Jason.

"Stop joking here. I don't know him well enough? I know him too well. Okay, and you haven't known him for a long time. Why do you pat your chest and give him a guarantee? Is that hard? If not, aren't you afraid of chilling your subordinates?"

A Kun and A Ming smiled and said beside them.

"Huang Mao, we have been following the boss for so many years. No matter what decision he makes, we believe it is for our own good and the most correct one. If he believes in Qin Yuan, we will not have any doubts about the other party."

Huang Mao waved his hand after hearing this.

"I can't understand the brotherhood between you. Even if you don't care about your own life, you still want to help each other. It really makes me feel quite surprised.

Perhaps a small gangster like me will never understand your so-called Jianghu morality.

At least in my heart, you are just blindly obeying. I don't know if Qin Yuan is trustworthy. If he really gives up on you, I will rush to his place and kill him first."

"Don't talk nonsense here. Qin Yuan's place is very hidden, and not everyone can enter. Why do you say you can handle it?"

"I am just taking revenge on him and breaking my promise. Otherwise, I wouldn't dare to provoke Qin Yuan casually. He doesn't look like this kind of person. I hope we are not wrong."

After Jason sent this message to Qin Yuan, his fingers are shaking and his heart is a little weak.

He knew that he had betrayed Qin Yuan in the past. Although he did not sell him out, he still chose to join Mr. Norman Karim's group, which was also a kind of betrayal.

So he was in contact with Qin Yuan now, and he felt that this was human nature, but even so, he was willing to do this for his brother.

A Kun and A Ming also saw Jason's nervousness, so they said next to him.

"Boss, you don't have to worry so much. We don't really care whether Qin Yuan is willing to help us or not. Besides, we don't want to leave here in the first place. We want to face these risks together with you."

"Don't talk nonsense, Mr. Norman Karim has already started to act. If he takes you back and interrogates you about this matter, you may not be able to bear it."

"You underestimate us too much. No matter how severe the torture is, we will never betray your boss. Please believe that we are not afraid of death."

"I know you are not afraid of death, but in fact, what people fear most is to live a life worse than death. I can't watch my good brother endure this for me, so I would rather you leave here quickly than anything else." (End of this chapter)

## One-click Recovery Since I was a Special Soldier

### Chapter 2285 Trust is more important than anything else

After Qin Yuan walked out of the room, he was going to go to the yard to look for the surveillance blind spot that Wang Xin mentioned.

After wandering around the yard for a long time, he still couldn't find this place, and then he complained to himself.

"Is this guy Wang Xin playing tricks on me?"

After searching for a long time, I still couldn't find any place he mentioned to avoid surveillance. Could it be that he was wasting my time on purpose? If I knew about it, I would definitely not be able to spare him. "

Qin Yuan complained while looking around for that place.

Sure enough, he saw it immediately.

"It turns out to be here. After searching for a long time, I finally found the place he mentioned."

So, Qin Yuan couldn't wait to come to this corner with his mobile phone.

"Hello?"

Jason on the other side was very excited when he saw Qin Yuan calling him.

"it's me."

"Jason, I know you have something to do with me. I seized this opportunity to call you. I can't let others know about the relationship between us. You also know that my identity is relatively sensitive. So if you have anything to say, you have to say it quickly."

After Jason heard Qin Yuan's words, he felt a little embarrassed, thinking that he had caused trouble to Qin Yuan, but he hesitated and hesitated for a long time without saying anything.

"Jason, if you have anything to ask me for help, just say it directly. Is there any need to beat around the bush?

You know I don't like fiddling, I just say what I have to say! I know you must have come to me for help because of A Kun and A Ming.

Otherwise, you are too embarrassed to speak out because you chose to help Mr. Noman Karim. You think you are sorry for the brotherly relationship between us, so you are too embarrassed to come and trouble me. Am I right? "

"Qin Yuan, you are really a god, you have seen through all my thoughts and thoughts.

I do want to ask you for help because of this matter, but I hesitated for a long time, not knowing how to tell you. After all, I made the wrong choice, and I am embarrassed to ask for help in front of you now. "

"You have helped me so much and you only asked me for help.

If I still don't agree to you, it's really too much. You don't have to worry so much about A Kun and A Ming. I won't let anything happen to them. After all, they cooperated with me to complete these things.

If I put them in danger, I'm afraid I won't be able to hold my head high in the future. Instead of benefiting from others' help, I will be in danger. If I tell them, who will be willing to cooperate with me in the future? "

"I knew that as long as I came to you, you would not refuse. I was indeed not wrong about the person."

"Jason, please don't say that. If you really thought so, you wouldn't be so hesitant. I will definitely help Akun and Amin.

And I will try my best to help them arrange a boat to leave here first. Someone will help me do this. You just need to let them arrive at the dock on time within the specified time.

As for where to go, do you have any ideas now? "

Jason had no better idea now. He might be discovered by Mr. Norman Karim wherever he went, and there was no way to guarantee 100% safety. He was also very confused and looked back at Akun and Amin.

"Do you two have any good ideas? Where do you want to go? You can just say Qin Yuan will help you."

Akun and Amin looked at each other and they had reached an agreement.

"Boss, you don't have to go to all the trouble to help us arrange this. No matter what, it's impossible for us to abandon you. If you leave, you have to stay. If we all stay together, we can leave together."

After hearing this, Sophia shook her head helplessly.

"I know that you two are very much talking about brotherhood now, but this is not a time for you to show brotherhood and arrange for you to leave and be obedient. Don't make your own decisions.

Thinking that staying here with Jason means you value brotherhood, but you are actually holding him back.

After you two successfully leave here, Jason will have follow-up methods. Don't forget that his daughter is still under the control of Mr. Norman Karim. Even if he doesn't consider anything else, You have to take care of your daughter. "

"Sofia, don't even think about lying to me. Our married daughter will have no problem with Fan Tianlei. We don't believe that Mr. Norman Karim has such great ability to find someone in the army."

"You don't understand the psychology of a father, but he won't do anything if there is any danger. It is more important for you to listen to Qin Yuan and leave here quickly than anything else. I will notify you of any news later.

You don't need to think about other things now. You only need to think about where it is safer for you to go. The most important thing is not to cause trouble to everyone. "

"Yes, Jason has thought so much for you, and it would be a waste of his feelings if you are still so stubborn.

I also advise you not to think about where to go first and then ask Qin Yuan to help you arrange the ship. I think it is more appropriate for you to return to Fan Tianlei now. "

"Yeah, that's what I think too. At any rate, Mr. Norman Karim and Fan Tianlei have a mutual relationship. If you return to him, there won't be any trouble."

"We have decided to stay here and not go anywhere. Unless we let Jason go with us, can't we all leave here together? There is no value in him staying here anyway.

This guy Efit can run away, but we will still be caught by him? "

"Efit is different from you, he is protected by Old K.

Although Old K's current strength is not as good as before, it is still more than enough to protect an Efit, and Mr. Norman Karim is unlikely to take the initiative to come to their territory to capture Efit.

That's why he was able to leave here blatantly. If you don't run away like you, except for Qin Yuan's protection, there will be nothing. Living is more important than anything else. As long as you are alive, there is hope. "

What Sophia said really surprised Qin Yuan. What he said was very philosophical and convincing.

So, after Qin Yuan thought about it for a long time, he slowly spoke.

"Jason, I can understand your current mood. In fact, what Akun and Amin said makes sense. It's not impossible for you to leave with them. You go back and find Thor first. He will protect you. Our country cannot put anyone at risk."

After Jason heard Qin Yuan's words, he nodded silently.

"I just think Mr. Norman Karim will have more plans next, and he is going to grab resources from Old K's territory.

Moreover, you have been fighting with Old K for so many years, and you must be trying to get some clues. If I stay with him, I can help him better, and you can make up for my previous mistakes. "

At this point, Qin Yuan suddenly realized that Jason was unwilling to leave and was going to go to Old K to help him collect information.

"Jason! Although we two hit it off, we have only known each other for a short time. You are so good to me, and I really can't accept it with peace of mind. Please stop interfering in old K's affairs. Take care of your daughter better than Nothing matters.

Listen, just leave here with A Kun and A Ming right now. I will help you arrange a boat immediately. Everything will be easy to talk about when you get to the dock. Anyway, you have always been in the business of smuggling. The specific details and how to escape. Here, you know much better than me.

We will send a helicopter from the army to take us back. It is not convenient for you to follow us through this channel.

Otherwise, there is no way I would abandon you and go back alone. You just need to stay here and wait for my news to arrange the ship and then find someone to take you to the dock. "

Huang Mao heard Qin Yuan's words beside him and said with a smile.

"Who are you looking for to take them back to the dock? There are ready candidates right now. Why don't you think about it? Or do you think you don't look down on me, a little bastard?"

Huang Mao offered to help them, which surprised Qin Yuan.

"Huang Mao, you have been involved in this matter too much, and there is no one to protect you. If you let Mr. Norman Karim find out that all this is related to you, he will kill you like killing an ant. Simple, don't you want your life?"

"I just need to ask you one thing. Do you not believe in my abilities or my personality? Do you think I will betray you in the middle?"

Sophia quickly stood up and explained.

"Huang Mao, please don't misunderstand. Qin Yuan didn't mean this. We all believe in you, but we just don't want to implicate you.

At present, Azhe is also injured, which is quite serious. We can't protect you better, so we don't want you to take risks. Don't get involved in this matter. Let Qin Yuan arrange other people. "

"Qin Yuan and the others represent different people. If Mr. Norman Karim and the people from the maritime patrol force discover the people sent by Qin Yuan, I am afraid they will not be able to explain clearly.

Qin Yuan has risked his life to help you all. We can't let him take so many risks. This is completely inappropriate. "

At this time, Huang Mao could still think so thoughtfully, which indeed surprised Qin Yuan. He did not expect that this boy would have so many ideas at such a young age.

"Huang Mao, if you don't mind, just go with them. You just drive them to the dock, and then you leave with them and go to our country. Life is the same there, and our country is better." It's a paradise you've never seen before."

In fact, Huang Mao also yearned for the ideal place that Qin Yuan and the others said, but he did not dare to take this step easily.

"I'm just a little gangster, how can I follow them?

How am I going to live with nothing after going there? Should I be asked to beg on the street? I finally managed to save up a car dealership here. Although I don't make much, I can barely survive and can guarantee my seemingly glorious life.

The days of just hanging around will be over in this life. I'd better not go. If I go, I might cause trouble for you. "

"You always want us to believe you, why can't you believe me once? I think your child has great potential. If you are willing to go back with me, I can arrange some positions for you, and you can be my informant."

When Sophia heard Qin Yuan's arrangement, she felt that he was so thoughtful that Sophia had not even considered it.

"Qin Yuan, I have to say you are really amazing. You can think of all these things so carefully. It would be great if Huang Mao is willing to join you. It is better to have a promising future than to stay here.

Mr. Norman Karim's next plan must be to deal with Lao K. And you have been monitoring Lao K for so many years. You must want to gain something, but this is all part of the layout of the next plan.

You must first ensure that A Kun and A Ming leave quickly. Without substantial evidence here, Mr. Norman Karim will not have more doubts about A Zhe.

At that time, we can put all the blame on this guy Aifite. We can perfectly get ourselves out of it and will not arouse Mr. Norman Karim's suspicion."

Qin Yuan has already made arrangements. All the plans depend on whether these people are willing to believe him and listen to his arrangements once.

Huang Mao gritted his teeth and sighed for a long time before nodding and saying.

"Qin Yuan, since you believe me, I choose to believe you this time. I can go with A Kun and A Ming."

"Not only the two of them, Jason must also leave here. At that time, Mr. Norman Karim can only accept the loss and admit that he was fooled by the two of them.

Even if he is angry because he suffered a loss, these two arms experts are of no use to Mr. Norman Karim. After all, the real secrets are in the hands of Professor Fang De, so he will not be so angry.

I can only blame myself for suffering a dumb loss, that's all.

He will vent all his anger on me, but I will leave here by then, and he will have no way to vent even if he wants to."

"Qin Yuan, you are only busy arranging others, don't you consider yourself? The bullet has not been taken back yet."

Sophia also reminded Qin Yuan because she cared about him, but Qin Yuan chose to believe his companions.

Seeing that Wang Xin seemed to be confident about this matter, Qin Yuan did not have too many doubts. Through this, he had completely believed in the ability of this young man. He was not a person who would talk big. Since he confidently promised Qin Yuan, he would definitely do it.

"Wang Xin has already promised me that he will find a way to get the bullet back. You don't have to worry about it. After arranging the paper delivery, you should leave here immediately. Don't let Mr. Norman Kalim react in advance and chase you. It will be bad."  
(End of this chapter)

## One-click Recovery Since I was a Special Soldier

### Chapter 2286: Setting up checkpoints on the road

Although Qin Yuan had arranged everything, he felt that it was a bit inappropriate for him to promise to help Jason and the others leave on behalf of Wang Xin.

"Since Qin Yuan has arranged all this, we will listen to him."

Sofia felt that this matter was really complicated, and they seemed not to realize what Mr. Norman Karim would do next.

"Qin Yuan, I am not telling you these things to pour cold water on you.

I just wonder if you have ever thought about it. Maybe Mr. Norman Karim has already anticipated our next move, so he deliberately asked Jason to come over and tip us off. Huang Mao drove away later on the road. It is very likely that a card will be blocked. "

Huang Mao was surprised when he heard Sophia say this.

"Probably not. He has never doubted Jason."

Sophia smiled bitterly.

"Mr. Norman Karim has doubts, he never trusts anyone 100%.

The same goes for Azhe and I. Qin Yuan, if you are willing to help, I hope you will be a good person and do it to the end. Can you send a car from Wang Xin to take them to the dock? "

After Sophia finished speaking, he also realized that his idea was a bit excessive. This was not something Qin Yuan could decide alone. Saying this also made Qin Yuan feel a little embarrassed.

"Wang Xin has a special status and cannot be involved in this matter casually. I can only try to discuss it with him. I can't guarantee you that he will definitely agree, and there is no superiority between the two of us. I can't order him because of his level."

After Sophia heard Qin Yuan's words, he nodded slowly and said.

"I understand, but you go and discuss it with them. They have to help us arrange a boat to leave here. If it is convenient, send a car to pick us up. We can't stay here for too long in the hospital."

"Yeah, don't worry, I understand."

While Qin Yuan was on the phone here, he looked at An Ran in the distance, as if he was very anxious.

"I won't tell you anymore. I have something going on here. Let's keep in touch at any time."

"That's fine. Even though you are in this safe place, you still have to be vigilant at all times."

After hanging up the phone, Qin Yuan quickly walked to An Ran and asked.

"You've been watching me here for a long time, making me a little panicked. Are you looking for me for something?"

"I heard that you went to Wang Xin for a long time and I didn't see you come back. I knew that you must be worried about the situation there, so I came here to see if there was anyone who needed help."

After hearing what An Ran said, Qin Yuan smiled.

"I didn't expect you to be the one who knows me best. I'm really worried about the situation there, so I came here to call."

"This place is full of surveillance, and it's not appropriate for you to contact them now.

I know that when I say this, you may think that I am a ruthless person, but I am only doing this for your own good. After returning, you will be investigated by the army.

If all the evidence shows that you have had a close relationship with them, it will be even more unclear for you to explain. Now that we have reached a safe place, we should try to ignore these people. "

Qin Yuan knew very well that An Ran did everything for his own sake, so how could he blame the other party?

"Of course I can understand your mentality, but I can't just ignore it. Since we left so many problems, we must find ways to help them solve them. I just talked to Jason on the phone. I hope we can help them arrange a boat to leave here."

"You don't have such great ability. It seems that you will have to trouble Wang Xin to arrange the boat."

"Yes, this is the difficulty of this matter. I don't know how to tell them that the other party has helped us too much, and now this matter is really against discipline. I'm afraid he won't help.

But so far, I can't find a better helper besides him, so I can only bite the bullet and tell him to give it a try, just in case the other party agrees. "

"But if the other party doesn't agree, what are you going to do?"

An Ran only needed one sentence to make Qin Yuan speechless. He didn't know how to explain this matter, but he knew better that if he did nothing, he would not be able to feel at ease. of.

At this moment, Qin Yuan suddenly thought of a more important thing, which was whether the surveillance problem had been solved and all their images in this country had been eliminated.

Even if Mr. Norman Karim finds the maritime patrol force, they don't have any evidence. At that time, he can simply deny it. There is no way to prove that they have been here. Only then can Qin Yuan be completely relieved. .

Therefore, Qin Yuan wanted to go to a hidden corner and contact the system first to see if he had solved the problem of deleting the screen. This matter really couldn't be delayed any longer. If that didn't work, he would have to take other measures. measures.

An Ran looked at Qin Yuan standing there in a daze, thinking that his words had hit him.

"You don't have to be like this. What I just said is rational. Maybe there are other ways to turn this matter around. Looking at your disappointed look, you seem to have lost confidence. Did what I said make you feel uncomfortable? "

After hearing An Ran's words, Qin Yuan came back to his senses and said with a smile.

"No, everything you said is for my consideration.

Loyalty is harsh to the ears. I understand this. How could I be angry with you?

I don't feel disappointed with myself. On the contrary, I feel more confident. I believe that as long as we can withstand such challenges, there is no difficulty that we cannot face.

When Fan Tianlei chose me to come here, it showed that he recognized my strength very much. How could I belittle myself and doubt myself?

And I believe that our people are very loyal. Even if I ask Wang Xin for help, he will never refuse me. I can see that he is a person with such a character, and I also believe in Du Bingbing's vision. "

"Wang Xincan has known you for how long. Are you so confident in this person?"

"What I believe more is the vision of our army in selecting people. The fact that he can follow the arrangements from above and come here to be the consul shows that he is an unusual person. He has already achieved this position at a young age. He is very outstanding. .

I think it's impossible for him to refuse to save me, and he will definitely help me. Just wait and see. Let's go find him together now and tell him about this matter. "

While Qin Yuan was telling An Ran this with great interest, he didn't notice that An Ran's expression was different.

"Qin Yuan, wait a minute, I hope you can understand what I mean when I come here to say these words to you. I just want to advise you to stop worrying about Jason's affairs."

Qin Yuan walked a few steps and immediately stopped when he heard these words. He turned back and looked at An Ran with disbelief.

"are you joking?"

“Do you look at me like I’m joking?

Qin Yuan, I am telling you this matter very seriously. It is not conducive to our overall plans and actions. You should not do it. Doing so will only cause more trouble to Thor and will always hinder Thor. , are you willing to see this happen?

Thor has sacrificed so much for us, he almost lost his position as chief of staff.

Please, let’s not cause him any more trouble, and don’t bother anyone with this matter. Let them figure out how to handle it themselves. Jason has been on the road for so many years. I don’t believe it. There was no way he could save himself. "

Qin Yuan saw An Ran being so excited, although he didn't understand why he was like this, but he still thought that An Ran was doing it for his own good, so he was not angry.

Although Qin Yuan sometimes has a short temper, he has never lost his temper when facing An Ran.

Immediately afterwards, Qin Yuan turned around and walked to An Ran, put his hands on his shoulders, and said comforting words.

"Anron, I know that what you have experienced recently has been too much, and you may have a traumatic emergency syndrome reaction."

"Are you saying this because you think I have a psychological problem?"

"Otherwise, it would be hard for me to imagine why you could break through the defense so easily this time after you have been performing missions alone outside for so many years."

An Ran lowered his head, shook his head helplessly, and then sneered.

"Qin Yuan, I hope you can understand that our mission this time is unusual. I don't want to take advantage of each other, but I think you should not be involved in these things now. This will be very bad for you and will also cause problems. Thor, are you really willing to watch Thor bear these mistakes for us?"

"Thor God, he won't blame me. He understands me very well and knows that no matter what I do, I do it for my own reasons, so I believe it is impossible for him to blame me. The relationship between our master and disciple is not the same. It needs to be said so clearly."

"What about He Chenguang?

How are you going to deal with his problem? Now that we know his identity, we can't let him have the opportunity to cause trouble, so we have to transfer him back to his country as soon as possible. "

"You don't need to worry so much about He Chenguang. All his actions are within our control. He can't make any splash in the palm of my hand."

"You are really too confident in yourself, Qin Yuan. I'm afraid that the longer you delay, the longer you delay. Many things will exceed your ability to control and things will go wrong.

Qin Yuan, please believe me!

Based on my experience in carrying out missions over the years, it is the best choice to go back at all costs now. The army will also investigate you for about a month.

Your identities are very sensitive during this period. If you continue to participate in these matters, it will really not be conducive to your personal investigation. When the time comes, it will also be a difficult obstacle for Fan Tianlei to restore his identity as Chief of Staff. "

"An Ran, Jason and his subordinates A Kun and A Ming have sacrificed so much for us. Even if they are as powerful as Mr. Norman Karim, they have never been afraid that I will not save them.

Please understand me. Even if I don't want to be a member of the special forces, I will never give up my good friends easily. This is my way of dealing with people and my principles. "

While the two of them were arguing endlessly, Liu Mei was hurriedly walking towards Qin Yuan and the others in the office.

"Stop talking now, I see Liu Mei is here."

"Qin Yuan, I've been looking for you for a long time, and you're here."

"What does this mean? Can't I just walk around here?"

Liu Mei said a little embarrassed.

"Qin Yuan, what are you talking about?

I'm not the person in charge here, so what right do I have to restrict your actions?

I came to you mainly because I have an important matter to report to you. We have discovered that Mr. Norman Karim seems to have started to take action, so Wang Xin asked me to come and inform you so that you can be mentally prepared in advance."

An Ran was anxious about this matter when he got the news, and he must have been very surprised.

"They have taken action, what action?"

"According to the detection report of our colleagues on the road, Mr. Norman Karim has set up some interception cards on the road, and it is very likely that he is monitoring Qin Yuan's actions.

Maybe they have already noticed that we will have other arrangements and deployments in advance. If you want to leave this city, it may be a bit difficult. They have a lot of subordinates.

As the saying goes, a strong dragon cannot suppress a local snake. You should understand what I mean."

"It seems that they have guessed that we are likely to leave here, so they have racked their brains to think of this method."

"Mr. Norman Karim is a very smart person. He will not let us leave easily. No matter what the motive is, the ultimate goal is only one, which is to stop You have to be mentally prepared to leave here.

Qin Yuan, it's not that we don't want to help, but there are too many interests involved in this matter. If something goes wrong, I'm afraid we can't explain it to the army.

Du Bingbing's control over us is very strict, and I don't want to offend their people for no reason. The best way is to arrange for you to leave the country as soon as possible.

Although I have been waiting for your army to send someone to pick you up, I always think this is a way of waiting, which is not ideal. In my opinion, you may need to move your position and leave us. "

"Liu Mei, are you ordering us to leave?"

"How can I do that? I just consider the current interests. You also have to understand our difficulties here."

## One-click Recovery Since I was a Special Soldier

## Chapter 2287 Need to bear huge risks

After Liu Mei told Qin Yuan these things, An Ran became even more worried.

"Then what should we do next? If everything up to the top is blocked, it will be difficult for Jason and the others to leave."

"An Ran, don't be anxious first. There is a saying that when a car reaches the mountain, there will be a road, and when a boat reaches the bridge, it will be straight."

After hearing what Qin Yuan said, Liu Mei sneered.

"why are you laughing?"

"I think you seem to be a relatively rational person, and you don't seem to be an emotional person. Why do you still use this kind of words to comfort yourself when the situation is already so serious? What you mean is that you don't need to do anything, just If you wait like this, there will be a way out naturally? "

"Of course that's not what I meant."

"Then you should think of a solution quickly. I don't want Wang Xin to be affected by a wrong decision of yours."

After Qin Yuan heard this, he showed a very gossipy smile.

"Wang Xin? Do you care about him?"

"Nonsense! He is my superior and I don't care about him. Should I care about you? What's more, he is the consul here. I have worked with him for many years. I will not be used to it if I suddenly change my superior. "

Qin Yuan smiled and said.

"Then you don't have to worry. If something goes wrong, I believe you will not be able to escape responsibility. Maybe you will be transferred to another place with him, and you can still be colleagues."

After listening to Qin Yuan's words, Liu Mei knew that he was deliberately angry with her here.

"Liu Mei, don't listen to his nonsense here. He's just joking with you. How could we possibly cause you to lose your jobs? Besides, no matter what, even if we think of other ways, we can't do it for Jason." and sacrifice his companions."

"I don't care what your plans are. Things have reached this point anyway, so it's better to have some plans in advance."

"To tell you the truth, I have been admonishing Qin Yuan here just now to leave Jason and the others alone.

Now that you are here, you can tell Qin Yuan the seriousness of the situation, and by the way, it can also make him sober up. He should realize earlier that it is unrealistic to continue to interfere in this matter, and it would be good to make him sober up. "

"An Ran is right, since you have arrived at a safe place, don't worry about other people.

It doesn't matter if you have this ability yourself. You can do whatever you want. But the problem now is that you don't have this ability yourself. You still want to ask Wang Xin to help. Do you think this is taking someone else's favor for yourself? Do something? "

"I admit that I do not have enough ability to help them now, but since we can do it here, why not do it? Just watch Mr. Norman Karim torture them?"

"Qin Yuan, I really understand now that you are an idealist. You think of this matter too simply. We have been here for so many years and we know Mr. Norman Karim very well. He doesn't Will give up so easily.

No, I will inform Wang Xin now and ask him to contact Du Bingbing quickly and send a helicopter to take you back as soon as possible. Then I can feel relieved. "

After Liu Mei finished speaking, he left directly. Only Qin Yuan and An Ran were left, looking at each other.

"You can tell by the look on his face that he really cares about Wang Xin."

"Of course I can see it. Although he looks like a boy, he has a delicate mind and is still a girl after all.

No matter what his motives are, we can't blame him. Everyone is in a bad mood sometimes, not to mention that the situation is forcing us now. I won't say anything, and you don't have to explain it on his behalf. "

An Ran is very distressed at this moment.

"Since Mr. Norman Karim has arranged a car to patrol the area, he will not let you go easily. You can see from his determination that he is very worried about this matter.

No one has ever been able to arrange so many things around him, causing him to suffer a big loss, but he has nowhere to talk to.

I believe he hates you to the core now. You'd better be careful and don't continue to interfere with this kind of thing. Azhe himself has the intention of betraying him. If he is really punished, he deserves it. . "

On the other side, Liu Mei angrily left the pavilion in the backyard and prepared to go to Wang Xin's office.

"Who is it?"

"it's me!"

"come in."

Later, Liu Mei walked into the office angrily and saw him like this. Wang Xin knew that he must have something important to tell her. After working with him for so many years, she knew that he had a straight temper.

"What's wrong? Who provoked you to be so angry?"

"Who else could it be? It's this guy Qin Yuan."

"I guess it has something to do with him. You don't have to worry so much. He has a cynical character. He is unforgiving and doesn't speak nicely, but he doesn't have a bad heart."

"I knew he had such a character, so I didn't say anything. You didn't seem to understand what I meant."

Wang Xin was sitting on a chair and stood up nervously when he heard Liu Mei say this.

"I do not understand?"

"You can still handle official business here so calmly. Don't you know there's chaos outside?"

Wang Xin raised the corners of her mouth slightly and said with a smile.

"So you were talking about the situation outside. I know that Mr. Norman Karim has sent people to block the roads. I discovered it when I checked the surveillance just now."

"Since you already know that the current situation is so tense, you can still sit here so calmly. I understand your stable character, but I didn't expect you to be so stable.

It seems that you don't take this matter to heart. You have not just been here for a day or two, and you should have some understanding of Mr. Norman Karim.

I know that he is a guy who is not easy to mess with. Now that he has made such a big move, it is obvious that he is unwilling to let Qin Yuan go. If you don't contact Du Bingbing quickly and take him back, you can still sit here with peace of mind. I'm talking, it's incredible. "

"What's the use of being anxious? I've been working here for so long, and my biggest experience is that you can't be anxious about anything. Once you are anxious, there will be big mistakes. Since the other party has already started to take action, what can we do?"

"Did Qin Yuan tell you that he planned to ask you to send a car to send Jason and the others away?"

"He didn't even tell me this, but to be honest, I was somewhat mentally prepared."

"You are already mentally prepared. Do you know Qin Yuan this well? It seems that this guy is right."

"What did he say?"

"He said that you will not leave us alone, and that you will help us deal with these things. I didn't think so at first, but now that I think about it, he knows more about you than I do."

It's just that I don't think you should care about this matter. It involves the interests of many parties, so why do you need to take a trip into this muddy water?

This is obviously Du Bingbing's own business, so you quickly call him to inform him and ask him to find a way to take the person away.

If Qin Yuan and his group stay here for one more day, we will be in additional danger.

To be honest, we have been working here safely and have never made any major mistakes for so many years. If Qin Yuan destroys our reputation this time..."

Before Liu Mei could finish speaking, Wang Xin interrupted him directly.

"You don't understand. I don't want to embarrass Du Bingbing now. I have already told him about this matter, and he will definitely try his best to do it. He and I are college classmates and I know his character very well."

There is no news so far, which means that he must have encountered some difficulties there. Among the troops, he is only a small chief of staff, and there are still superiors who do not make his own decisions on anything. "

"It turns out that by saying all this, you are just caring about Du Bingbing."

No wonder you are willing to pay so much to help Qin Yuan. Is it for your college classmates and your friendship as classmates?

Is this more important than your personal future? I say all this for your consideration. Why can't you think about your future and the future of all of us here?

If you can finish this session safely, you will most likely be able to return to your own country and no longer need to stay here. "

"Liu Mei, let me tell you the truth.

I really care about Du Bingbing, and I also care about Qin Yuan's mission this time. I don't want to embarrass everyone, and today I am in the process of saving Professor Fang De and these two students.

I have seen what happened. The two people named A Kun and A Ming were very cooperative. Judging from their performance alone, Qin Yuan is worthy of our helping hand.

I think what Qin Yuan said is very reasonable. We should not only consider our own interests, but also consider the situation of other people. Otherwise, who will sincerely help us in the future?

You can't just think about yourself as a person. It's a bit too selfish. Such a person may not be able to go far in the current situation of sophistication. "

After Liu Mei heard these words, he couldn't tell for a while whether the other party was educating him or wanting to express his position.

"Then you mean that you will help Qin Yuan do these things without hesitation?"

"I will help her, but I will not be completely reckless. I will consider the overall situation and formulate a relatively complete plan. You should understand that I am not the kind of impulsive person who does anything without considering the consequences."

After Liu Mei heard this, she nodded slowly, seemingly relieved.

"Wang Xin, I feel relieved with your words. I don't want to say so much about other issues. But since the current situation is so tense, what method do you plan to use to bring Jason and the others to justice?" Are they being sent out?

It is easy to arrange ships at the dock, but under such tight defense, it is indeed difficult to send people out in a grand manner. "

"I haven't thought about it so far. Why don't you call Qin Yuan over and I'll discuss it with him."

"If you want to call Qin Yuan, go ahead yourself. I lost my temper just now and offended both of them. I don't want to go to them personally. It seems to be an admission that I did just that. It's the same as wrong."

"When will you change your arrogant character? Okay, you don't have to worry so much. I'll go find Qin Yuan and the others."

After Wang Xin finished speaking, he was about to open the door of the office and go out to find Qin Yuan. Unexpectedly, as soon as he opened the door, he found Qin Yuan and An Ran standing outside the door and looking at him blankly.

"Oh, you two didn't say anything when you came here. You really shocked me."

An Ran felt that there might be some misunderstanding, so he quickly explained.

"Wang Xin, don't think too much. We just got here and didn't intentionally stand outside the door to eavesdrop on you."

After Liu Mei heard the sound in the room, he quickly walked out, frowning.

"You said you didn't stand outside and eavesdrop. The reason for us to talk is really far-fetched.

Please, next time you lie, can you think of a reason that is worthy of belief and will not raise suspicion? As soon as I opened the door, I saw the two of you standing outside and said that I wasn't eavesdropping. Only we devils would believe it. "

Qin Yuan didn't think too much, let alone give in to the other party.

"If that doesn't work, go and adjust the monitoring. Anyway, we two did not eavesdrop on you. The only one who is clean will be cleansed. I am not afraid of being accused by others."

"Okay, okay, you two don't argue here. This is my office, not a vegetable market. It doesn't matter whether you overheard or not. We are all our own people, and we have nothing to hide. It's a secret, why are you so nervous?"

Qin Yuan muttered quietly.

"That's right, we were obviously discussing work issues openly, but now I'm so nervous. I don't know why I thought you two were having an underground affair in the office."

"What did you say?"

Liu Mei stretched out her hand and pointed at Qin Yuan angrily.

When An Ran saw this situation, he quickly stepped forward to smooth things over.

"I'm really sorry. He's just a bad-mouthed person. He's just joking. Don't take it seriously. Besides, the atmosphere is so tense now, so just treat it as a joke to let everyone relax."

"It's a pity that I don't think the joke you told is very funny. Jokes that slander other people's reputations should be avoided in the future as they can easily offend people."

An Ran quickly turned around and glared at Qin Yuan. Everyone stopped talking, and the conflict ended abruptly.

"You guys come in first. I know what you want to talk to me about, but this matter is very hidden after all. We can't discuss it outside the door. Come in, let's sit down and talk slowly."

An Ran and Qin Yuan looked at each other and followed each other into the office.

## One-click Recovery Since I was a Special Soldier

### Chapter 2288 The other party has narrowed the surveillance range

Qin Yuan followed Wang Xin to the office and saw Liu Mei's serious face as soon as he sat down.

"Please, don't look like this when you see me. It really makes me feel a little uncomfortable."

Liu Mei didn't take it seriously after hearing Qin Yuan's words.

"I am naturally cold-faced and don't like to smile. Do you want to force me to smile at you?"

"That's not what I meant, I just thought..."

Before Qin Yuan finished speaking, An Ran interrupted him.

"Qin Yuan, stop joking, let's study the next plan carefully."

Wang Xin nodded and said.

"That's right, Liu Mei, don't look like this when you see Qin Yuan. We all come from the same place, and we should help each other. If you face Qin Yuan with such a negative attitude, I can't guarantee it. Our plan can go smoothly.

No matter what we do, the most important thing is to be united. If we have such big differences internally, don't worry, we will definitely fail. "

After Wang Xin educated Liu Mei seriously, Liu Mei could only say coldly.

"I'll try my best. The two of us have worked together for so long. You should know that my personality is suitable for people I don't like. It's difficult for me to face them with a good attitude."

Qin Yuan also knew that his idea was indeed a bit excessive. He could sympathize with Jason, and even choose to risk everything to help Jason, but he could not force others to make the same choice as him.

"An Ran also persuaded me a lot outside just now, telling me not to get involved in this matter anymore, but you should also know my character, and I promised Azhe to cooperate with him before.

Originally I promised to give him some money, which was not a small amount, but I asked Thor to collect it for me, but he is still in the hospital and is unconscious after surgery. I can't give him the money at this time. he. "

"Qin Yuan, it turns out that this guy once asked you for some money.

But having said that, if the things that money can solve are not big things, you can give him the money directly. If there are any problems later, we can find a solution. Now we have to ensure that you successfully leave this place of right and wrong. ah. "

"Wang Xin, I understand what you mean. It's just that so far, Du Bingbing has not made any arrangements. How to take us back? We didn't come through formal channels in the first place. Jason is the witness."

"Are you afraid that Jason will join forces with Mr. Norman Karim to betray you in front of the maritime patrol force? That you came here smuggled in?"

"probably not!"

"Should? No, what I need now is a definite answer. Don't use moral standards to speculate on anyone's life and death. Everything else is trivial."

"You must not forget that Jason's daughter is still in the army and is under the joint custody of Lei Shen and Du Bingbing."

"Qin Yuan, stop joking here. We all know you very well. You are not the kind of person who would threaten others with life and death, let alone threaten the life of other people's daughters. You can't do this even more. Something like that."

After hearing the other party's evaluation of himself, Qin Yuan lowered his head and smiled helplessly.

"It seems that you all know me quite well. Sometimes I am a strong person but a tough person on the outside. But I am soft in my heart. If I were asked to use this method to deal with them, I really can't do it. "

At this moment, Liu Mei's intercom headset seemed to receive some information, and he could only be seen saying with a solemn expression.

"Okay, I understand, don't act rashly for now, you continue to monitor."

Seeing Liu Mei's nervous look, everyone turned their attention to him.

"You don't need to be so surprised. The people arranged by Mr. Norman Karim, who I think are the same as you imagined, are gradually narrowing the scope and approaching us."

After hearing this, An Ran stood up nervously and said.

"How can this be? This is our territory. Even if Mr. Norman Karim can cover the sky with one hand here, he wouldn't dare to offend us easily."

"An Ran, don't be too naive. The mainland is going to different sides. As long as he doesn't step into the cordon, there will be no problem. There will be no problem if he sends people here to see him. Is it possible that you still don't allow people to walk on the street? Stand?"

"Yes, Mr. Norman Karim has made it clear that he is going to be a rogue. I'm most afraid that he will inform the people in the maritime patrol force now."

Qin Yuan smiled and said.

"It doesn't matter. I'm not afraid even if he informs the maritime patrol now, because I'm mentally prepared to fight them to the end. They don't have any substantial evidence, and they can't come here to search. "

"Since you have been to this place, there is no way that there are no traces of you. Although our place is not particularly developed, the streets and alleys are also monitored."

"Monitoring? Haha, as long as he can find traces of me in the surveillance, he is considered to be powerful.

Didn't I tell you before I came here? You don't have to worry about surveillance. I have used black technology to delete all surveillance content containing our images. "

Wang Xin looked at Qin Yuan's confident look and was very confident in his arrangement.

Liu Mei didn't believe it so easily, mainly because he had never seen such an operation before.

"Don't dream here, delete all the surveillance. I heard you bragging in the car just now, and I thought you were bragging.

I didn't expect that you still insisted on your statement at this time. How can you be so capable? If you have such a great ability, you don't need to be a member of the special forces. You can become a hacker directly, and I'm afraid you can also reach the top level."

Qin Yuan knew very well that this was not achieved by his technology, but by the help of the system. He was a person with a golden finger, and he couldn't tell them that he could only lie to these people and say that it was his technology. It was normal for them not to trust him.

Wang Xin obviously didn't believe it either, he asked weakly.

"Qin Yuan, the current situation is already like this. I hope you can stop joking with us. Can you really delete all the surveillance content?

This project is too large, and each monitoring device is connected to a different main device. There is no way to do it. If you want to do it, you need to hack into countless systems at the same time. This technology is too powerful."

"That's right, I think this guy is just bragging. Since I saw him, I have never seen him holding something like a computer. How can he operate the system to enter the main device and delete data?"

An Ran has known Qin Yuan for such a long time, and An Ran doesn't feel strange no matter how many accidents happen to him.

Even if Qin Yuan didn't explain clearly every time, why these things happened to him, why he could do such incredible things.

But An Ran always believed in Qin Yuan. Since he had promised, he would never be joking, and he would never joke with the lives of so many people.

"Wang Xin, I know your worry is justified.

But since Qin Yuan has said it, we have to believe that he can do it, otherwise Mr. Norman Karim would not use such a tough method to force us now.

He must have notified the maritime patrol team long ago, holding our evidence. Now he has no movement at all, which means that this method is not feasible, so he will use such an extreme method."

An Ran finished speaking, and after this, Liu Mei and Wang Xin also had some independent thinking. Fortunately, after thinking for a long time, although everyone felt that it was a bit unbelievable, they still chose to believe Qin Yuan.

"Right, is that it? You don't need to worry about anything I promised. I will definitely do it. How could I go back on my word and lie to you?"

"Even so, I hope you won't be too happy too soon. You insist on helping them leave here. Now, let alone them leaving, even if we leave this gate, we will be monitored by Mr. Norman Karim. How can we go to the dock to arrange a boat to leave?"

"Liu Mei, I see that you are also a pretty good special operations officer. How come you can't even think of online communication?"

"Online communication, don't think it's too simple. Although everything here has blocked the outside signals, they can't monitor us, but it is also possible that online communication is the most unsafe way.

It is not certain when the other party will eavesdrop on us. In order to ensure everyone's safety, we can't take such risks, and we are here. There are too many secrets in it. If the other party hacks in, it will be terrible. "

"I think you guys are a little too timid. What's so scary?

Our technology is the strongest in the world today. They can't possibly eavesdrop on our situation here. Let's find a way to arrange the ship. I have already promised them.

And they are already waiting at the hospital, waiting for news from us. They have helped us, and we can't just pat our butts and leave without caring about the life and death of others. This is a very selfish behavior. I can't do it. "

"Qin Yuan, you are really too selfish. Do you think this is a selfish behavior? If you can't do it, do you have to transfer the risk to us? "

"An Ran, I really have nothing to say to him. Please explain to him why I do this. This guy is so unreasonable, I am speechless. "

So, An Ran smiled gently and explained patiently.

On the other side, He Chenguang and Chen Jixiang were resting in the room, but they were in completely different moods.

Chen Jixiang also saw that He Chenguang was very anxious now. Everyone knew his identity. Since they already knew the current situation, they had to make new considerations.

"Hey, Brother Chenguang, don't hang around here. I was a little dizzy. I saw you hanging around here for a long time without any results. I was really worried about you."

"What do you know, kid? Don't you think about Qin Yuan? The current situation is so tense, all the pressure has been transferred to him alone. As his comrades and good brothers, we can't do anything. How can I not be nervous?"

Chen Jixiang asked deliberately after hearing this.

"So you are worried about Brother Qin Yuan?"

"What do you mean? If I don't worry about him, who else can I worry about?"

"Oh, there is nothing to worry about. Look up and see where we are now. Since we are already here, it means we are safe enough.

We just need to wait for the plane from the army to take us back. The hostages have been successfully rescued. This shows that we have the protection of the country and don't have to worry about anything. "

"After all, you are still much younger and think too simplistically. I must tell you, don't think that we are safe here, but there is no guarantee what will happen if we don't go beyond this limit."

"Then I can't control that much. Anyway, I think there won't be any danger with Brother Qin Yuan here. I didn't expect that I, at such a young age, would gain so much the first time I went out with him. The least I can do when I go back is It can also be considered a third-class meritorious service.

Hehe, this guy Li Zheng joined the army with me, and now I have surpassed him. "

He Chenguang looked at Chen Jixiang in front of him. This brat had completed a little of his task, but he was just so stinky.

"I think you kid, don't be too happy. Everything is possible until there is no result. Although Qin Yuan is a good companion and you do feel safe with him, but this time you didn't do anything. Isn't it a bit fanciful to think of a third-class performance after returning home?"

After Chen Jixiang heard this, he smiled and thought to himself that he had caught He Chenguang. As a person with a special status, isn't this worthy of a third-class merit? Thinking about it, what I said was a bit conservative.

"Whatever, no matter what, I still have some merits. This trip is not in vain, and following Brother Qin Yuan is also well-informed. I know how hard it is to complete the task outside. Go back I will cherish my career even more in the future.

But even if there are similar tasks in the future, I will still volunteer. Maybe I will face more risks when I go to the next place. "

"Others go out to perform special tasks, and they are still frightened after they return. You are addicted, and you want to come out again. I think you really don't know how high the sky is."

## One-click Recovery Since I was a Special Soldier

### Chapter 2289 Someone deliberately slowed down the process

Special Forces Office.

"What? Arrange a plane to pick up Qin Yuan, their procedures have not been resolved yet, what are you guys doing?"

"I'm sorry, Deputy Chief of Staff, we don't know the specific reason, it has been submitted to the review department, but there is no news so far."

"Without news, won't you take the initiative to urge? Are you all dead, or don't you have a mouth?"

"Deputy Chief of Staff, calm down first, we have sent people to urge, but every time we go, they say the process is under review.

They said that this is a cross-border operation after all, and the process is complicated, involving many departments that need to be coordinated.

Therefore, we dare not rush them rashly. You should know that the superiors of their department are very strict. That's A well-known ghost-seeker."

"I don't care what kind of ghost-seeker he is. The situation over there can't be delayed any longer. I have already promised Qin Yuan that we must send a plane to pick them up in

the shortest possible time. The longer it takes, the more trouble we will have, which will be detrimental to our overall action."

"Deputy Chief of Staff, I also understand the importance of this matter, but people of our level simply can't urge them. Everyone is arrogant and we dare not say anything.

If it is convenient, you can go and communicate with their superiors in person. After all, you are the deputy chief of staff and you may still have some face. If we go, we will either look at their faces or be turned away."

Du Bingbing looked at the girl below. Although he was her subordinate, he had just joined the army not long ago.

"I understand that it is not easy for you newcomers. They will not care about your feelings after you go there.

I understand that a higher rank will crush you. I don't want to embarrass you, but I have to tell you a lot of things, which are not as complicated as you think.

Sometimes you think things are too complicated, but you can't communicate with them. You don't know how to deal with them after a few casual words."

"But... I just came here after all. I really don't dare to say anything. I'm afraid they will..."

Du Bingbing looked at the girl in front of him who was about to cry anxiously. He didn't have the heart to embarrass her. He had just taken the position of chief of staff and must be more careful.

"I'm going to call their director now. I don't believe that a simple matter can become so complicated!"

After Du Bingbing finished speaking, he picked up the phone very angrily and prepared to settle accounts with these people first.

But he didn't think that he was angry now. When he was angry, he couldn't say anything good. After all, although it was a military business, he should have a bit of a begging attitude when asking them for help.

"Deputy Chief of Staff, I advise you to calm down for now. The situation there is more complicated.

And I think you are too angry now. When people are angry, they always say some unpleasant words, which may affect the relationship between you and the final result."

After hearing this, Du Bingbing slammed the table fiercely.

"I don't believe it. It should be a formal process. I have already left. I have provided all the information they need. What else can I say?"

Could it be that they are deliberately making things difficult for me, Du Bingbing, or do they dare to say such things to me because they see that I am the newly appointed Chief of Staff?"

"This has always been the case in the army. Although I am new here, I can also feel that there is a bit of a depressing atmosphere here."

After Du Bingbing was persuaded by the girl for a while, he sighed and sat in his chair.

He is now extremely anxious and really worried about Qin Yuan's situation. What he fears most now is that Qin Yuan will take the initiative to contact him, because he doesn't know how to explain this matter to the other party.

At this time, there was a knock on the door.

"Who is it?"

"Deputy Chief of Staff, it's me, Fan Tianlei!"

Du Bingbing heard that Lei Shen came to him on his own initiative, and he quickly came back to his senses and said to the girl below.

"Okay, I have a general understanding of their situation, you can go out first.

Do your job well and don't be lax. In addition, check the submitted materials carefully again. It's not that I don't trust you newcomers, but everyone is careless sometimes.

Especially for this kind of documents, there is no mistake at all.

In addition, I am not a person who likes to punish others. I hope you can correct your mistakes in time. Of course, I don't say this to put pressure on you, but I hope you can be a rigorous person, which is a necessary quality in the army."

"Okay, Deputy Chief of Staff, I remember what you said. I will check it again now. Do you need to urge the review department to complete the process?"

"No need for the time being. Seeing that it is almost time to get off work today, if you urge them now, it will only make them more disgusted. In this way, we have no reason."

"Okay, I understand."

Du Bingbing had no choice. He knew that it was not a problem with the process and the materials now, but someone deliberately blocked it and did not give instructions. He must

have encountered some obstacles. Fan Tianlei happened to come, and he could have a good discussion with the other party.

"Deputy Chief of Staff, if there is nothing else, I will go back first."

"You go back, I have already told you everything that should be explained. By the way, please ask Chief of Staff Fan Tianlei outside the door to come in."

"Okay, I understand."

Then, the girl went out, opened the door and saw Thor standing at the door.

"Chief of Staff Fan, our Deputy Chief of Staff invites you to come in and talk."

"Yes."

Fan Tianlei saw that the door was already open, and he walked to the door and still knocked on the door twice gently.

"Thor, can you not be so polite? I already knew it was you outside just now. Now the door is open, do you still need to knock on the door again?"

Fan Tianlei smiled helplessly and said.

"No way, these are the rules that should be followed. Everyone's office in the army has top secrets, and the procedures must be followed. I can't be so selfish as to ignore these and only consider myself."

"Thor, I hope you don't say these polite words to me. After all, I am a soldier you brought up. If you are ranked by seniority, you can be regarded as half of my master."

"I have been suspended now, and the rules must be followed. If I hadn't been suspended, I could call you directly to come to my office to report to me. Now I have to go there in person."

Du Bingbing, while talking, walked to the water dispenser and poured a glass of water.

"Let's drink some water first, and talk slowly. You know, young people like us usually prefer coffee, not tea. Maybe there is no tea you like here, so just make do with it. Or drink some coffee?"

"Forget it. Just like you said, you young people like coffee and milk tea. I really can't get used to this sweet thing. Coffee is bitter like Chinese medicine, so I can't drink it.

But, do you young people think that we old people are a bit out of date? We don't drink this kind of freshly brewed tea anymore. We drink this now!"

Fan Tianlei said as he took out a bottle of cold tea from his pocket.

"This?"

"In order to improve my work efficiency, I should drink this kind of tea now."

Du Bingbing was really amused by Fan Tianlei, and she didn't know whether to laugh or cry.

"This is not tea, this is clearly a drink."

"Haha, now this is called new tea, you can finally see it, I am not an antique, this thing was recommended to me when Qin Yuan was here."

After hearing the word Qin Yuan, Du Bingbing also knew the purpose of Lei Shen coming here today.

"Thor, if you say so, I understand, I guess you are here to urge me, you should know that I plan to send a plane to pick up Qin Yuan and others."

"Yeah, although I am temporarily suspended now, fortunately, I can get some news here if there is any movement. I heard that Qin Yuan and others have successfully arrived at a safe place, and now they are waiting for our people to pick them up?"

"Yes, Wang Xin from the embassy is my college classmate.

I have told him the cause and effect of this matter, and he is very willing to help. He has successfully brought Qin Yuan and Professor Fang De back. The two students were taken over.

However, when they went there, they did not go through formal channels but smuggled there. It is unlikely to bring them back through formal channels now.

We can only send a plane to pick them up, and it is best to do it secretly without letting anyone know, otherwise it may affect our international reputation.

This matter is of great importance. I am also struggling to apply to my superiors many times. I don't know why the process is always not going through. I feel that someone must be deliberately messing with me here. "

After hearing Du Bingbing's description, Fan Tianlei also nodded silently.

"Let me tell you the truth. Someone must have deliberately messed with your process. The problem will not be so difficult to solve. And as far as I know, many things may be far more complicated than we imagined. "

Fan Tianlei has always been mysterious in his words, which really makes people a little confused.

"Thor, since you have heard some news, and you came here today to answer my questions, please don't keep me in suspense. Please explain it clearly.

In theory, there will be no problems with the process. If there are really problems with the details of the process or the application documents, they would have used this to make a fuss.

Now I go to them, they can't say anything, but they are hesitant.

This is enough to prove that they are deliberately blocking the process, but they don't have a good reason, so they can't say anything, but at the same time, our difficulties are also difficult to solve.

If they don't say the specific reason, we naturally can't find a solution here. In addition, their director, Lao Lu, is known as the ghost-seeing worry, and no one wants to talk to him. I really don't know what to do."

After hearing Du Bingbing's description, Fan Tianlei smiled and said.

"Old Lu is indeed a troublemaker. I'm afraid there's something wrong with your current process review. It may not be his personal instruction. Generally speaking, he is very cautious about such things and will not openly embarrass you kids."

"You mean it may not be Old Lu who is deliberately blocking our process now?"

"Based on what I know about him, there is a high probability that he has nothing to do with him. Someone must be deliberately trying to embarrass you under the guise of Lao Lu, but they are notoriously difficult to get along with. Anyone who comes to them will Everyone has to bow their head."

"Yeah, you should have heard me talking to this little girl outside the door just now. Every time they go there, they don't give a good look and push too much. They say there is something wrong with the process, and we can't even refute it. There is no room for it."

Fan Tianlei could tell that Du Bingbing was really worried about Qin Yuan, that's why he was so concerned about this matter, and he was relieved.

The reason why Fan Tianlei came here today was not only because he heard that Qin Yuan and the others were coming back, but mainly because he heard that there were always problems with this process and no instructions were given. The God of Thunder was really too anxious to wait.

So, I decided to come and see for myself what was going on.

He was afraid that Du Bingbing didn't help Qin Yuan and the others on purpose, but what he saw and heard today was able to clear up his doubts. This girl didn't mean to delay and not help, but she did encounter a problem.

"Thunder God, if I remember correctly, you should be about the same age as Lao Lu. You have worked here together for so many years, aren't you familiar with each other?"

Fan Tian Leiting was tested by Du Bingbing, and he also understood what this little girl meant.

"Du Bingbing, let me tell you the truth. The reason why Lao Lu is called a ghost is because he is insecure. If you want to break away from the relationship and go through the back door, it is probably unrealistic. Formal procedures are still required. Go."

"Thor God, you must have misunderstood. I don't want to find some connections through the back door. We have submitted all the formal information. If we have the opportunity to meet Lao Lu, we can make it clear to him in person and avoid communicating through too many people. , but problems may arise."

"Do you want to go to Lao Lu in person and explain these things clearly?"

"Thunder God, Qin Yuan and the others are your people after all. They have been out for such a long time. Now they are just one step away from successfully returning here. Why don't we do everything we can to help?"

## One-click Recovery Since I was a Special Soldier

### Chapter 2290: There is no point in being anxious about some things

Qin Yuan was silent now, sweating profusely.

An Ran felt a little distressed when she saw him like this, and then she walked forward and put her hand on Qin Yuan's shoulder.

"Wang Xin has promised us that he will help. Don't be too anxious. Some things cannot be solved in a hurry."

"I understand, it's just that my personality is like this. Not being able to relax will always put pressure on myself. What's more, if I haven't got the bullet back yet, there will always be someone else's hands on it. I don't feel at ease."

"I know you have been thinking about this matter. How about this? I will go to the hospital myself and help you get the bullet back."

After An Ran said this, Qin Yuan was really entangled and worried. He never thought that An Ran could make such a decision. He really paid too much for himself.

"You want to go there?"

"Yes, in this case I am the only one who takes action personally."

Liu Mei saw An Ran's attitude and felt a little surprised.

"You are unfamiliar with this place and want to go to the hospital in person to help Qin Yuan get the bullet back. Do you know that this may be life-threatening?"

"I know everything, but in order to make everyone feel at ease, I have to do this. Sometimes, for the sake of the overall situation, someone has to sacrifice."

"sacrifice?"

"It's not as serious as you think. I have been performing special tasks outside for so many years. I don't believe how difficult it is for me to go to a hospital and get a small bullet."

Qin Yuan paused for a long time and said slowly.

"An Ran, I can't control so much other things, but purely for this task, I have great faith in your personal strength. I think you have the ability to get the bullet."

After Wang Xin heard what Qin Yuan said, he was also very anxious. He thought Qin Yuan would really agree to such a risky idea.

"Qin Yuan, I said you must not go to the hospital to get bullets at this time. I have already handed over this task to the person I arranged. It won't be long before he will give us a result."

"But we shouldn't wait any longer. Mr. Norman Karim has already started taking action. He has arranged for a large number of people to keep approaching us. I don't want to implicate you."

"Qin Yuan, what you said is really outrageous. What do you mean by complicating us?"

I have already told you that we are people of the same country. We should help each other at any time. I am not afraid of Mr. Norman Karim. I don't believe that he dares to openly come to the embassy to find people. . "

Wang Xinyi said these words righteously, hoping that Qin Yuan could stay here with peace of mind and not make him feel a little nervous or guilty. After all, some things cannot be solved in a hurry.

"I'm not afraid of Mr. Norman Karim, but I think that since he is so anxious now, he will definitely do some excessive behavior. You have worked here conscientiously for many years, and there has never been any Error, I can't cause you any trouble just because I'm here."

While they were talking, they suddenly heard someone knocking on the door outside. Liu Mei stepped forward and looked at the intercom. The screen on it showed that it was Chen Jixiang. This guy was here.

"Qin Yuan, come over and take a look."

"What?"

Qin Yuan walked over and saw Chen Jixiang, a brat, shaking his head helplessly.

"He must have been a little anxious before he came here. Why is he the only one here, but he didn't see He Chenguang?"

Qin Yuan muttered to himself that only Chen Jixiang came by himself, and An Ran was a little anxious.

"Does that mean he left any morning light alone in the room?"

After An Ran finished speaking, he turned around and looked at Qin Yuan, but at this moment Wang Xin didn't know He Chenguang's identity.

After Qin Yuan also realized this, he quickly opened the door.

"Why are you here, kid?"

Qin Yuan's serious face immediately made Chen Jixiang feel at a loss.

"I...I'm just too bored to stay alone in the room. I plan to come over to see you two. I don't know how your mission is going. We two are really bored staying in the room. , and I'm also very worried, I heard that Mr. Norman Karim is coming soon."

"I want you to stay in the house and don't ask about these things. I'm here. What else do you have to worry about?"

After hearing this, Chen Jixiang frowned and said.

"How could I not be worried? We came out to complete the task together, and now everything is left to you. Are we just trash?"

If you can't do anything well, then why did you ask me to come out with you? I don't think it is a good protection for me to always live under your protection. I need more opportunities to exercise. "

"Where is He Chenguang?"

"He was staying in the room. I asked him to come out with me, but he didn't come."

Qin Yuan gritted his teeth and said in a low voice.

"Just leave him alone in the room. Have you forgotten everything I said?"

At this moment, Chen Jixiang and Qin Yuan looked at each other in confusion. This boy was considered smarter and he reacted immediately.

"Oh, I'm really sorry, Qin Yuan, I didn't think of this. I was so anxious that I thought of coming out to see what was going on here. I shouldn't have left him alone in the room. I'll go now. Find him."

Wang Xin saw the two of them talking from the side and felt that something was a little strange, but he didn't ask too much. After all, whatever these two people said was the privacy of some tasks within their group, and it was not convenient for him. Know more.

Liu Mei couldn't control that much, he told An Ran.

"What's wrong with He Chenguang? Why can't he be left alone in the room? Do I think a grown man would be so timid? We are so safe here, what does he fear if he stays alone in the room? "

An Ran was suddenly speechless.

"We have divided the tasks into groups. The two of them must be together, otherwise it will disrupt our plan. This is a secret within our group."

"What is the secret? Then we are not qualified to know? We are helping you complete your mission. It seems not good to hide too much from us."

"Liu Mei, since An Ran doesn't want to talk, don't ask so many questions. Let's discuss it first. How about I urge Du Bingbing to see when he can send a plane over?"

After Wang Xin finished speaking, Qin Yuan stopped him directly.

"Don't go looking for Du Bingbing yet. I believe he has already thought a lot about us. So far, he has no news and has not given us a confirmation. As a result, he must have encountered some resistance.

If you really push him, it will only put more psychological pressure on him, which is not conducive to our overall situation.

It doesn't matter if he hasn't sent a plane over now. Once the other party sends a plane over, we have to leave this place immediately. Don't forget that the bullets haven't been retrieved yet, and Jason and others have not successfully sent them out.

Our task is not considered completed. I have always been very neat in doing things and don't like to leave things to others to solve, so this period of time just gave us an opportunity. "

"What you said makes sense, but for us so far, many things are not as simple as imagined."

Chen Jixiang realized that he had done something wrong, and he hurried back.

When he returned to the door of the room, he did not push the door open first. He just listened outside the door to see if there were any other movements. He walked to the door and looked into the room along the crack of the door.

At this moment, Chen Jixiang realized how careless he was. How could he let such a person act alone in such a special place? This was the worst thing he did.

"What are you looking at?"

He Chenguang suddenly appeared behind Chen Jixiang and casually asked him what he was peeking at. This made Chen Jixiang feel a little flustered. His little thoughts had been discovered by the other party.

"What didn't you see?"

"Is it because the embassy is too big? You can't find the room and you plan to take a peek here, or do you suspect that I am doing something alone in the room and plan to spy on me secretly? Who asked you to do this? Is it Qin Yuan? "

"I think you have all misunderstood. I have no such idea at all. Why do I want to secretly monitor you? Have you done something with a guilty conscience? That's why you say this?"

"I definitely won't do anything with a guilty conscience, but I would like to know why you are peeking at me here?"

He Chenguang had already suspected that everyone knew his identity. He was always very vigilant, and now he caught Chen Jixiang peeking at him.

He understood even more that it was very likely that his identity was exposed, and he would not dare to stay here anymore and would have to find an opportunity to go back.

"The reason I was able to find a certain room and peek at the door was not to spy on you.

But I was afraid that you were sleeping and pushing the door open rashly might disturb you, so I planned to peek inside secretly at the door. I didn't expect that it would cause such a big misunderstanding. It was really an own incident. "

"Is it really?"

"Of course it is, otherwise what else could be going on? Would I lie to you over such a trivial matter? Really..."

Chen Jixiang, this kid is sweating profusely now.

But now he doesn't understand even more, where did He Chenguang go while he was out for a while, and why he saw him appear behind him as soon as he returned to the room.

This was enough to show that he really had something in his heart and took advantage of the short time he was out to sneak into the embassy to check on the situation.

It seems that this guy really knows his identity very well, he understands what he is doing, and he never forgets to perform these special tasks of his.

"Since we are both back, don't stand at the door. Let's go in first."

"Have you gone to find Qin Yuan?"

"I'm just worried about them. After all, Brother Qin Yuan still has some tasks to complete. Let me see if there is anyone who needs help. Then what are you doing out there?"

"It's my first time coming to the embassy, can't I just take a look around?"

"You also know that this is an embassy, and many places involve secrets. How can it be a place that we can visit casually?"

You don't care about your identity. If any of their secrets are leaked, we won't be able to tell. Then we will have to be investigated by the army, which is really not worth the gain. "

"I see that you are very articulate, and you can think of everything so thoughtfully. You can think of some things that even I can't think of."

"The main thing is to see if anyone really has a guilty conscience."

"What does it mean to be a thief with a guilty conscience?"

The prerequisite for having a guilty conscience is that we have really done something wrong, but I don't think there is anything we have done badly now, it's just that the overall problem is more troublesome.

It's a little difficult for us to leave here now. We can only wait for the army to send a plane to pick him up. What's more, we have caught up with Fan Tianlei. He has been transferred and there is no way to help us. What can we think of? "

"You are right. It is precisely because of these things that I am worried that Brother Qin Yuan will be too stressed, so I want to see if there is anything I can do to help. It is already so serious, and you still have other things on your mind. stroll."

"That's because I believe in Qin Yuan's ability. Even if Mr. Norman Karim really comes to challenge Qin Yuan, he still has the ability to deal with him. You and Qin Yuan have only known each other for a relatively short time.

How long have you, a young boy, been with him? I have been comrades-in-arms with him for several years. Don't you still understand his abilities? He is just like Monkey Sun, full of abilities. "

"Is Brother Qin Yuan really as powerful as you say?"

"Of course, otherwise why do you think Thor would send him all the way here to complete the mission?"

It's just because of his ability and reaction speed, coupled with his extraordinary observation skills, that such a person is the chosen one.

We also have to believe in Thor's choice, but one good thing about completing the mission with Qin Yuan is that we don't have to worry about anything, he will handle everything very properly.

Brat, just wait and get some rewards when you go back. A person like you can at least get third-class merit. "

Chen Jixiang could tell that the other party was telling him these words just to divert his attention.

"Oh, is that really true? If I can achieve third-class martial arts, my life will be worthwhile. At least my trip with you two won't be in vain.

I have only been in the army for a short period of time, and I can't even think about being a third-class meritorious officer. "
