Chapter 2301 I'm here, you can rest assured

Qin Yuan saw Professor Fang De's student standing in front of him, and he was a little flustered.

He quickly put away his nervousness, walked up to the man, and then looked around and found that there was indeed only one person.

Qin Yuan smiled awkwardly and asked tentatively.

"Why are you here alone?"

"I can't stay in the house anymore, so I came out to get some fresh air. I didn't expect to meet you here. What a coincidence."

"Uh..."

The other party saw Qin Yuan and seemed a little nervous. He also knew his identity. He was hiding here alone, so he must be doing something secret, so he quickly explained.

"Qin Yuan, you don't need to be so nervous. I didn't see you doing anything here alone, and I didn't hear you talking to anyone."

"You really didn't hear it, or you said it deliberately to comfort me."

"I really didn't hear it. If you really don't believe me, I'll swear to you."

As he said this, the man raised his right hand and was really ready to swear. Qin Yuan quickly stopped him.

"I think you are really persistent and serious people in scientific research. I just asked casually. How could I not believe what you said? There is no need to swear so seriously."

"I thought you were very nervous, so I thought swearing might make you feel more at ease."

"That's not necessary."

"By the way, I just happened to meet you here. I also want to ask about Mr. Fang's condition. He is older and can't stand the tossing. We have been away from him for such a long time, it is difficult to grasp his current physical condition."

Qin Yuan has always been very confused. Did Professor Fang De have no contact with his two students after they separated?

"Since you asked this, I won't treat you as an outsider. Professor Fang De asked you to stay here. He thought it was safe, but even so, you have no contact anymore?"

Qin Yuan couldn't believe that they had no contact after they separated, so he asked this question.

"There is no need for me to lie to you. Since you brought people to rescue us in person, I believe that Mr. Fang should be willing to go to your country and help you do things."

"This is still to be discussed, but at least I think talents like Professor Fang De should not suffer from unprovoked disasters. He still cares about you two students."

In order to please him, and not to lose you two talents, I took the risk to bring people to rescue you. Fortunately, things have been developing in a good direction, and you were successfully rescued."

"In fact, I also know that it is very difficult to research the two of us. Mr. Norman Karim is not easy to mess with. From that secret hut to the embassy, we have always wanted to thank you in person, but we have not found such an opportunity."

"The person you really want to thank should be Professor Fang De. I am just carrying out the task of my superiors."

The other party smiled and said to Qin Yuan.

"I think you are still a little too modest."

Anyway, I will remember your kindness, and I will definitely repay you if I have the chance in the future. If you hadn't brought people to rescue us, we might have been locked up in that hut by Mr. Norman Karim for the rest of our lives.

One day, when he finds out that we are completely useless, there is no need to keep us two for no reason, and he will definitely kill us."

Qin Yuan nodded as he listened.

"That's possible. Mr. Norman Karim is a person who puts interests above everything else. Once you two are of no use to him, he will not keep you two anymore. That's why I'm eager to bring you back."

"Then when can we leave here?"

"Is the embassy not good? Or are you not used to living here, and someone is neglecting you?"

Hearing Qin Yuan's doubts, the other party also hurriedly explained.

"That's not the case. The people at the embassy treated us very well. Even though we were in this position, they didn't treat us as outsiders. They made us feel like we were home."

"If that's the case, why should we leave in a hurry? In fact, it's not bad to stay here for a few more days."

"Qin Yuan, let me tell you the truth. In fact, we seem to have some post-traumatic stress syndrome. That is to say, if we don't leave here and get rid of Mr. Norman Karim's control for a day, we can't feel at ease. Only by going to your country can we always guarantee our safety."

"Then I don't understand, since you think our country can protect you two Why did we come to this place if we didn't want to worry about our safety?"

"This was all arranged by Professor Fang De. He thought this was an inconspicuous place where we could concentrate on our research, and he never kept in touch with us.

He was afraid that someone would use electronic technology to track our contact and then find this location.

Who would have thought that we would be spotted by Mr. Norman Karim as soon as we landed here. He took us away directly and forced us to study what he wanted.

It's a pity that all the data results are in the hands of Professor Fang De. Even if he caught the two of us, he couldn't get any answers he wanted.

At first, he thought that the two of us kept it a secret from him in order to save his own life. Later, after many tests, he completely believed that we did not have important information in our hands, so he kept us locked up.

He wanted to use the two of us to catch Professor Fang De, which allowed us to save our lives and wait for you to save him. "

After hearing what this arms expert said, Qin Yuan was really worried about himself. He was taking action too late. I was afraid there would be no way to save these two people.

At the same time, Qin Yuan could also see the other party's anxiety and nervousness, and staying here for just one day made him feel uneasy.

"I can understand how you two are feeling now. Don't worry, I have already reported it to my superiors. They are going through the process and will send a helicopter to take us back soon."

"How long we have to wait?"

Qin Yuan couldn't bear to look at the other party's expectant eyes, which made him too disappointed, so he had to make up an excuse casually.

"Maybe you who are engaged in scientific research don't understand some things. Everything in our army has to go through a process. It probably takes a few working days. Don't worry, I won't let you be raped by Norman Karim again. Take it away, sir."

The other party smiled and said.

"To tell you the truth, Qin Yuan, maybe if someone else says this to me, I will still be very worried, but when these words come out of your mouth, I feel inexplicably at ease."

"Why is this?"

"Because I saw your ability and your spirit of doing whatever it takes to save the two of us. It really moved and shocked me when I was in that room."

I can see that once a critical moment comes, I'm afraid you will sacrifice your own life to save the two of us. What reason do I have to doubt and distrust someone like you? "

Qin Yuan suddenly felt a little embarrassed to be trusted and praised like this.

"Don't ever say that. In fact, I should have done all this. You'd better go back and rest quickly. If you need anything, just tell the people at the embassy. They won't have any complaints or neglect."

"Of course I can understand that the people in charge are very kind to us, but this is not a solution after all."

It won't be very stable if we stay here for just one day. According to Mr. Norman Karim's style of dealing with people, I'm afraid he has already prepared for it. I just happened to see you here, so I will give you a warning. "

"What do you want to remind me?"

"Mr. Norman Karim is a very scheming person, he will arrange everything, and with his character he is very unwilling to admit defeat. This time, I have fallen into a big trap in your hands. I I feel that a person like him and his character will not give up easily."

He will treat you as an enemy. It's best not to leave the embassy before welcoming our plane. Don't go out before you get here. I saw that you were a little panicked just now. You seemed to want to leave. Is it okay? Is there any secret mission that you need to carry out personally?

If you don't have to do it yourself, I hope you'll stay here.

This will be safer. I can't do anything for you, I can only give you some advice. "

Sometimes sincerity is really the most touching thing.

"I can understand your feelings. Don't worry. I do have some tasks to perform, but they will never harm my own life. I still want to save my life and go back to be friends with you.

And for me, bringing you back to your own country does not mean that the task has not been completed.

I believe there is another task that is to keep you here completely and contribute to our country. You are all talents, and only the two of you can master all the research data of Professor Fang De. After all, you are his direct disciples. "

After listening to Qin Yuan's words, the other party knew that he was just trying to comfort himself, and at the same time he also wanted to reassure himself.

"Well, I don't know what the specific mission is. I think you are also a very capable person, so I won't say anything more. I won't disturb you and go back first."

"Yeah, let's go back first. You have indeed suffered a lot during this period. Take a good rest and recharge your batteries. After you go back, you have to see Professor Fang De. Don't let your teacher see you looking listless. Instead, It worries him even more."

"OK, I see."

After comforting the man, Qin Yuan also received the information passed to him by the system about all the vehicles in Mr. Norman Karim's group.

"Great, the important information has finally been passed on."

Qin Yuan returned to the office with important vehicle information and saw everyone waiting for him.

When Wang Xin saw Qin Yuan back, he seemed to be relieved.

"Oh my god, you're finally back. We've all been waiting here for you for a long time. We don't know what you did. It makes us all flustered."

"I've already told you, don't worry about me. You can continue your discussions normally. I just went out to do some personal things of my own. But now I'm ready and can leave immediately."

As Qin Yuan spoke, he went to get the workers' clothes just now and started to put them on.

Chen Jixiang saw that Qin Yuan had already started to get dressed, just because the two of them were about to set off.

Just now he endured the stinky smell and took off his clothes before putting them on again.

"Brother Qin Yuan, I'm ready. Let's set off now. Do you have any worries?"

"There's nothing to worry about. We just need to walk normally. Didn't you just say that you wanted to drive and show off your driving skills? No problem, I'll give you a chance this time."

Liu Mei was really confused when she saw Qin Yuan's resolute appearance.

"I said you are so happy in everything you do. You haven't explained clearly yet, and you are ready to drive away. Do you need us to do anything for you? There are so many vehicles outside, and you don't even ask which road you are driving from. Is the road safe to walk on?"

He Chenguang smiled and said.

"The fact that you can ask this question proves that you don't understand Qin Yuan at all. But anyone who has been with him for a long time knows that he is so vigorous and resolute in doing things. He must do what he says immediately. Obviously he is ready. "

"It's ready. I didn't see you preparing anything. What about the gun? Do you want to bring it?"

Qin Yuan took out the miniature pistol from his pocket and shook it twice.

"I can use it if I have a weapon in my hand. As for the gun you brought over, it's better for me not to use it. You two had so many conflicts just now because of this matter. It's really not good to bother you two anymore." "

Liu Mei felt a little embarrassed when Qin Yuan said this.

"That's not what I meant. I'm just worried about the situation in our embassy. But it's even more inappropriate for you to hold the gun in your hand. Don't forget that the gun in your hand has lost a bullet.

This time you go to the hospital and don't get the bullet back, so they won't be able to compare the ballistics. Now if you lose the pistol after you go out, it will be a complete crime against you. "

"Oh, what you said is so troublesome, you just want to say that I must not lose my wife and lose my troops."

"You said that yourself."

"Don't worry, I've prepared everything. Since I rushed out, it means I have a complete plan. You just wait for me here. It won't be long before I get the bullet back."

At this moment, Liu Mei didn't understand Qin Yuan's strength, so she thought he was just talking big words, and was still worried about his safety.

Chapter 2302 Successfully avoiding all surveillance vehicles

Qin Yuan could feel that his companions were caring about him, but he also hoped that everyone could relax and not be too nervous.

"Liu Mei, your attitude towards me was completely different just now, and now you care about me so much, you must have fallen in love with me, right?"

"Stop talking nonsense here, I'm afraid you'll die on the road."

Liu Mei rolled her eyes and explained forcefully.

An Ran could also tell that Qin Yuan was joking and quickly said to Liu Mei.

"Don't listen to this guy's nonsense. He just wanted to make a joke with you. He didn't expect you to be really angry. Don't be like him. We are used to his attitude."

"An Ran, looking at your face, I won't be angry."

He Chenguang thought for a long time, and he had basically guessed what Qin Yuan was going to do.

"Now that everything is ready, don't waste time. Qin Yuan, take Chen Jixiang and leave here first. Keep in touch at all times. If something unexpected happens, we can send people over to support in time. you."

"He Chenguang, after the two of us leave, you will be the only boy in the entire team. You must protect An Ran."

"of course."

Wang Xin knew that Qin Yuan was very worried about his companion.

"With me here, you don't have to worry about it. You can concentrate on what you are doing. We are waiting for you to come back. If you meet Mr. Norman Karim, don't confront him head-on."

"Yeah, don't worry."

Chen Jixiang was also completely ready. He followed Qin Yuan without missing a step.

"I said you kid is really following me every step of the way. Why are you so close to me?"

"Aren't I afraid that I won't be able to keep up with you?"

Qin Yuan was really speechless by this kid.

Wang Xin followed the two of them out of the office building.

"I said you two are walking so fast, do you know where the car is parked?"

Qin Yuan and Chen Jixiang looked at each other and smiled awkwardly.

"Then I have to trouble you to lead the two of us there. We really don't know where the car is parked."

"Then you two are walking so fast."

"We are really in a hurry to carry out the mission. Please take us there quickly."

Wang Xin shook his head helplessly. He smiled, walked up to the two people, and took them to the parking lot.

"I'll take you two to the parking lot now."

"Does this need to be said? The car must be parked in the parking lot, otherwise it can still be parked on the bed?"

"Don't be poor..."

While Wang Xin led the two of them to find the vehicle he had prepared in advance, he still felt uneasy. He knew that he was asking too many questions, and Qin Yuan would think that he was an indecisive and nagging person.

"Wang Xin, you don't need to worry about me so much. Since I have mastered all the license plate numbers of Mr. Norman Karim's group, I can perfectly avoid it."

"Do you know where these vehicles are parked?"

"Of course I have a way to know, otherwise I wouldn't have acted easily. Do you really think that I am a foolhardy person? It's too stupid to just complete the task and not care about my own life safety. "

"Qin Yuan, I believe you are a very decisive person. Because of this, I dare to take the risk and lend you the weapon. Otherwise, even if you lend me some courage, I would not dare to make such a decision. "

"That's okay, I can treat you as a good brother, and there is no need to say these polite words between us two good brothers."

In this way, the two people followed Wang Xin and quickly arrived at the underground parking lot.

Several people saw a gray van with an advertisement for a certain company on it.

"This is the vehicle I prepared for you in advance. How about it? Is it good?"

"Oh my gosh, this is so real."

Even Cheng Jixiang couldn't help but sigh that this vehicle was no different from the car driven by the maintenance workers. It was impossible to tell. Even if Mr. Norman Karim's people were ready, they would not intercept them. Such vehicles will not be intercepted.

"I didn't make it, but I found a repair company and borrowed a car."

"You went to a repair company to borrow a car. Will this reveal your identity?"

Wang Xin smiled and said to Qin Yuan.

"I know you are a very smart person, am I so stupid in your eyes?"

How could I possibly use my identity to borrow a vehicle from them in an open and honest manner? Of course, it was done after many layers of entrustment. Don't worry, all the identities are false. Even if Mr. Norman Karim wanted to check, he couldn't find me. "

"In that case, I have nothing to worry about."

"Yeah, brother Qin Yuan believes in you, so I also believe in your strength."

"I also prepared a sniper rifle for you two in the car."

When Qin Yuan heard this, he was completely shocked.

"Are you crazy? You dare to put a sniper rifle in the car. You dare to lend me such a dangerous and destructive weapon. Do you trust me a little too much?"

"Am I wrong to believe you too?"

I must have my own thoughts in doing this. I have already made preparations. If Mr. Norman Karim really discovers the traces of the two of you and wants to take you away forcibly, with some weapons in his hands, he can finally rest assured.

I don't hope that this sniper rifle will come in handy in the end, but no matter how critical it is, it will still be your bargaining chip to confront the other party. "

"It does make sense to hear what you said. If that's the case, then I won't be polite to you. I'll try not to use this sniper rifle."

"Qin Yuan, I believe you can use your own wisdom to achieve your goals. This is just a guarantee for you, and it can also be regarded as a little psychological comfort for myself.

I don't want you to be captured by Mr. Norman Karim once again after I have successfully rescued you. In this case, I will fall short of my success, and I will not be convinced. "

"Wang Xin, no matter what, I still want to thank you for your trust in me. This is really more important than anything else."

"Hurry up and get in the car. Let's keep in touch at any time."

After bidding farewell to Wang Xin, Qin Yuan got into the passenger seat.

"What are you looking at here, kid? Didn't you just agree that you would be my driver? Are you giving up now?"

Chen Jixiang was also frightened by this sniper rifle.

"I just saw this lethal weapon. I was so surprised here that I had no time to react. I will get in the car now and let you see my driving skills."

At this moment, Qin Yuan suddenly remembered an important question.

Only he can control the road layout of the entire city and the vehicle arrangements of Mr. Norman Karim. Once a boy like Chen Jixiang is allowed to drive the vehicle, he has to give him instructions, which may be a bit troublesome. After thinking for a long time, Qin Yuan opened the door and opened the door again. Got out of the car.

Qin Yuan came to the cab.

"Didn't you agree to let me drive? You don't trust me?"

"It's not that I don't believe in you. I believe in your abilities very much. It's just that now is not the time for you to show off your abilities. You go and sit in the passenger seat first."

Chen Jixiang was a little dissatisfied. He simply thought that Qin Yuan did not believe in him.

"You brat, don't pout here. It's not that I don't believe you, but I have my own arrangements. You are not familiar with the roads around you. If I want to command you, you may waste more time. If When encountering danger, our reaction speed will be slowed down."

Only then did Chen Jixiang react.

"That's right. I'm not familiar with the roads around here at all. I can only ask you to drive. Then I'll keep an eye on the surrounding situation for you from behind. I have an eye for all directions and an ear for everything."

Wang Xin saw that the two of them had arranged everything in an orderly manner, and she could feel relieved.

"In that case, you can leave now. I'll be waiting for your good news here. If you need my support, don't be polite. I'm not afraid of being troubled and dragged down by you."

"I understand, once the two of us encounter a problem that we can't solve, we will definitely trouble you."

After the two of them got into the car, Qin Yuan did not hesitate at all. He stepped on the accelerator and left the underground parking lot. The two of them arrived outside the embassy. Unexpectedly, there was a Norman Cali not far away. Mr. Tom's car.

"What's wrong? Brother Qin Yuan, did you notice anything unusual?"

"Look there is a black business car on the right, which is Mr. Norman Karim's car."

After hearing this, Chen Jixiang held the weapon tightly in his hand and stared there cautiously.

"Don't be so anxious, just like being a thief, let's just treat it as normal, and since the two of us are disguised, the other party can't tell our true identities at all.

He would not rashly stop a maintenance worker's car. If they had to stop every car on the road to check, it would be a waste of manpower and material resources. They would not be so stupid.

And I think they never imagined that we would leave in such a vehicle. They should put all their attention on what they think is a good vehicle. "

"That's right. These guys are very self-righteous sometimes. They are just stupid guys who think they are smart."

Qin Yuan drove the car leisurely and swaggered past these people. The people in the car were obviously very tired. After all, they had been waiting here for a long time without finding any trace, and their patience had long been exhausted. Empty.

After passing it smoothly, Qin Yuan said to Chen Jixiang with a smile.

"You see, I have told you a long time ago. As long as we are on the right foot and don't be too flustered, the other party will not be able to see any flaws."

"That's true, but I don't think we should be happy too early.

This was just blocked by one car. There should be some distance from here to the hospital. They would definitely not just arrange one car, there would definitely be others here.

Although we got lucky once, we can't guarantee that we will meet these same stupid guys every time. "

Qin Yuan was thinking about this question in his mind. Do I still have to wait for you to remind me?

Qin Yuan has already thought about it. With some important information transmitted to him through the system, coupled with the map navigation ability he has obtained, he has already seen through the surrounding situation and will never give anyone a chance to create a crisis. .

"The system opens the map!"

Following Qin Yuan's command, the system directly opened the map. On Qin Yuan's mobile phone, combined with the news just now, it was clear to Qin Yuan that there were vehicles lurking at every intersection.

"What system?"

"This is an AI intelligent system that I asked someone to help me research before. You don't have to ask so many questions. He has already helped me find the surrounding vehicle information. I just took a look at it. I just need to go around a few more intersections to get there smoothly. Hospital."

Chen Jixiang also stared curiously at the screen of Qin Yuan's mobile phone. Sure enough, there was a map, and a red dot was marked at each suspicious intersection.

"Is the location shown by the red dot above the place where Mr. Norman Karim sent people to ambush?"

"I didn't expect you to be quite smart, indeed."

"Who transmitted this information to you? Do you have your own people within Mr. Norman Karim's group? Is this reliable? Don't let it be a trap by the other party."

"Of course people are not completely reliable, but the system is the most reliable. Just trust me. We will reach a safe place in a while. You don't have to be so cautious. Put down the weapon in your hand quickly and be careful not to let it go off. "

"Hehe, of course not, I am very cautious and will never allow this to happen.

Besides, I am a member of the most professional special forces, so I can't even handle such a small thing. If the gun goes off, then all my years of training will be in vain. If Thor... I know, but he still didn't scold me bloody. "

"As long as you understand the seriousness of the problem, I won't explain much else to you. I just teased you. Let's continue walking. The whole journey will take about half an hour."

"Is it possible that we can get to the hospital successfully but will be targeted by them when we come back?"

"Of course this possibility cannot be ruled out, so when we come back we will no longer be able to use this vehicle and will have to switch to other vehicles."

Chen Jixiang panicked when he heard this.

"But...but Wang Xin didn't prepare a backup vehicle for us, so what should we do when we come back?"

"Do you still need to worry about this matter? Which car has the most cars in the hospital?"

"ambulance?"

After Chen Jixiang received Qin Yuan's reminder, he immediately realized it. It seemed that Qin Yuan was indeed his idol. He was so powerful and smart. There were so many ambulances in the hospital, and he could use one at any time. You can send them all back to the embassy. (End of chapter)

Chapter 2303 Returning to the hospital again is to do something big

After a while, Qin Yuan found that there were no suspicious vehicles around, so he arrived at the hospital entrance smoothly.

Shen Man went back home to rest and took a nap, and was suddenly awakened.

"Oh, I thought I would only rest for a while, but how come I suddenly fell asleep and slept so deeply."

Shen Man took out her mobile phone in a panic to check the time. Fortunately, although she slept deeply, she didn't sleep for a long time. She only rested for about an hour. It was time to get dressed and leave.

While getting dressed, Shen Man was about to call Wang Xin, because he also wanted to know what was going on with Qin Yuan.

These two people were actually in sync, and Wang Xin called him first.

"Hello?"

"From the sound of your voice, you must have just woken up. How are you? Have you rested well?"

"Since I started working with you, I haven't had a good sleep. I can only say that I have to force my vital signs to prevent me from sudden death."

"You are really a joker, but I have one thing to tell you. Qin Yuan and his team have already set off. According to the time, they are basically at the hospital entrance now."

Shen Man originally wanted to drink a cup of iced coffee after waking up to wake himself up quickly. After hearing the other party's description of the situation, he immediately put down the coffee beans in his hand.

While he was dressing himself, he held the phone between his head and shoulders to communicate with the other party.

"What? Are you saying that Qin Yuan and his team are already at the hospital entrance?"

"He took a long detour to get to the hospital entrance. If he drove at a normal speed, he would probably have run back and forth."

Shen Man said with some complaints.

"What on earth were you thinking? Since you knew Qin Yuan was so fast, why didn't you call me earlier? You let me sleep so deeply."

Originally, I set the alarm, but you also know that the biological clock cannot be changed. I wanted to rest for two hours, but I woke up after one hour. Fortunately, I woke up naturally. If you had notified me, it might have been too late."

"Shen Man, don't make yourself so nervous, okay?"

I also hope that you can have a good rest. I didn't expect this to be the case. Don't be so anxious. Even if Qin Yuan doesn't need your help, he can still complete the task smoothly."

"Wang Xin, I know that we have been on the same page for so long, and you care about me very much, but you also need to know what the current situation is. Everyone is so nervous, and it is a critical moment."

There can be no mistakes at this time. How can I relax? How can I be safe and sound? Have a good sleep."

"You are always too strict with yourself."

"Okay, I won't tell you so much for now. You should inform Qin Yuan quickly and tell him not to act rashly. If it's not the case that I receive him, he must not enter the hospital. It will be easy to expose himself."

He is not a professional actor. We nurses have worked in the hospital for so long. We have seen all kinds of people and can identify them at once."

Besides, there are other people arranged by Mr. Noman Karim in the hospital."

I will be at the hospital in about ten minutes from now. Fortunately, I found a house near the hospital. Otherwise, I really can't handle this emergency situation now."

"Then you should pay attention to your safety. The car and others drive too fast. After all, the road conditions are not good now."

"Yeah, I know, thank you for your concern."

After hanging up the phone, Wang thought that Qin Yuan had also arrived at the destination. Recalling Shen Man's instructions just now, he also thought that he should not let Qin Yuan go to the hospital in such a hurry.

Qin Yuan drove his car to the vicinity of the hospital and found an inconspicuous corner. He suddenly stopped the car inside.

Chen Jixiang saw Qin Yuan stop the car and thought something was wrong.

"What's wrong? Brother Qin Yuan, we are about to reach our destination, why did you suddenly stop? Did you find any suspicious people?"

"You don't need to make such a fuss, I didn't find any suspicious people. Although we have successfully arrived at the hospital, we must have someone to pick us up. I can't contact the nurse now."

"Little nurse?"

"Yes, it's a little nurse in this hospital."

"Brother Qin Yuan, you are really good. In such a short time, you can actually get to know a little nurse."

Qin Yuan turned around and glared at the stinky boy and said.

"What are you thinking? This is not someone I know myself. It's someone arranged by the embassy. He has been in the hospital all the time, waiting to cooperate with our work at any time.

Now he is not in the hospital, we can't go in rashly. There may be people arranged by Mr. Norman Karim in the hospital. We must be picked up by our own people before we can go in, so that we can ensure that there is no risk."

Chen Jixiang suddenly realized.

"So that's how it is. I thought you met some girl again."

While Qin Yuan was talking, Wang Xin had already contacted Qin Yuan via satellite phone.

"What's wrong?"

"I saw that you have arrived near the hospital, so I specifically reminded you not to go in for the time being."

After hearing this, Chen Jixiang whispered beside him.

"We didn't report our specific location to him, so how did he know that we were about to arrive at the hospital."

"Do you still need to ask? He must have installed a positioning system in this car. The call just now was also a satellite phone. You are really too cautious."

"Does it make any difference?"

"All he uses are satellite signals, which will not have any impact on ordinary signals. Mr. Norman Karim arranged so many vehicles to intercept around.

Presumably some signal towers will be set up to monitor our calls. Only satellite phones can avoid all electromagnetic interference.

Moreover, he can keep track of the trends on our side at any time. Working with smart people is a peace of mind and we don't have to worry about anything. "

Wang Xin heard Qin Yuan's explanation to Chen Jixiang, and he smiled and nodded.

"After I met Qin Yuan and you, I also realized what it means to work with smart people. It is very worry-free. I think the two of us can be the best partners, if you are willing to stay here."

"How can you say that I have always stayed here? Have you never thought of going back to the army to join me? With a position like yours, and with so many achievements, you might have a higher position than me when you go back. "It's high."

Wang Xin smiled and said.

"To be honest, I don't care about my position at all. As long as I can make some contributions to our country, that's the most important thing. We are all fighting for the interests of our country, so I don't have to worry about that much.

This time I am assisting you in completing your mission. Don't blame me for not telling you that I installed a positioning system on the car. "

"What are you talking about? Of course I can understand your good intentions. How could I blame you for this?

You should be more thoughtful. To be honest, even I have never thought of this matter. Fortunately, you can make up for my mistake. "

"You two really care about each other, so when can we go to the hospital? We've been waiting here for a long time."

"Yes, where is Shen Man? I don't think this little girl is unreliable. Why can't she contact him at the critical moment?"

"After returning from the embassy just now, I asked him to go home and have a good rest. He hasn't had a good night's sleep for a long time. I was also worried that he wouldn't be able to support it physically and that it would hold you back.

But don't worry, I called him just now and he is on his way to the hospital from home.

His home is very close to the hospital. It only takes about ten minutes to drive. You wait here for a while until he goes to the hospital and arranges everything before letting you in. "

Qin Yuan couldn't help but sigh after hearing this.

"Shen Man is really a responsible girl. Even his home is so close to the hospital. He is tensing his nerves all the time. He has to bear so much pressure at such a young age. In fact, I admire him too."

"We left our homes and came here just to fulfill our mission, so what does this little effort mean?

Whenever we leave our own country, we must always stay awake and vigilant outside so as not to make any mistakes. Every move we make represents the interests and honor of the country, and of course we must always be cautious. "

While Qin Yuan was talking to the other party, he noticed a person walking out of the hospital.

"Why does this guy start to look so familiar?"

Qin Yuan looked carefully, but he didn't expect that it was the boy Huang Mao who sneaked out of the hospital. Qin Yuan thought he had done something, but the boy looked around and looked around for a while and then took out a bag from his pocket. Pack of cigarettes.

"I thought he was going out to take a rest, but I didn't expect that he was going out to smoke. This brat is really too conceited. He still wants to come out to smoke at this time.

Oops, I don't know what's going on with Sophia. Azhe is out of danger after the operation. I believe that after he gets a little better, Mr. Norman Karim will have to take it back and ask him what happened. what's going on. "

When Wang Xin heard what Qin Yuan said, he asked back.

"Who did you see? Why is Huang Mao here?"

"After he helped us complete this task, he has been with Sophia in the hospital. If he hadn't sent us a car in time, we wouldn't have completed the task so easily.

In fact, I should be very grateful to him, and after discussing with him, he agreed and was willing to go back with our people and leave this place of right and wrong forever. "

Chen Jixiang looked at Huang Mao in the car and felt that this guy was obviously just a gangster.

"Brother Qin Yuan, are you not mistaken? You actually want to take this little gangster back with you?

There is no place for him in the army, and you have to discuss this matter with Thor first. I don't think Thor will agree. You see, this guy is a master at committing crimes.

Just think about it, it may be a violation of discipline for you to take him back. This will affect you. Moreover, we will be investigated after we return from here. This will undoubtedly make your investigation worse. I don't agree with you taking him back. , the risk is too great. "

"Chen Jixiang, what you said is all right, and I know you are thinking about me.

However, although Huang Mao doesn't look like much, he is very loyal. Without his help, we would not have been able to successfully complete the mission and keep him here.

Once he falls into the hands of Mr. Norman Karim, his chance of survival is basically zero. We cannot ignore the lives of others just because we have completed our mission.

Even if it is against discipline, I must take her back. What's more, I am not taking him back to arrange a position for him in the army, but to open a car dealership for him in our place.

You must not only consider yourself, it is too selfish.

In the future, no one will be willing to follow you through life and death. If I leave it alone this time, will you still complete the mission with me without worries in the future? I am afraid you will also worry about protecting yourself. "

Hearing Qin Yuan's words, Chen Jixiang had no reason to refute.

"If you say so, then I can only choose to listen to you. In fact, I am just a suggestion. From the perspective of position, you are our team leader, and obeying orders is the first priority of members of the army.

From the perspective of personal feelings, I only listen to your command, and I don't listen to others. I don't believe it. "

Qin Yuan turned around and patted the boy's shoulder, smiled and said.

"I knew you would not let me down, but don't tell He Chenguang everything about this matter after you go back."

"Yeah, I know that I can't tell him anything because this guy is not trustworthy, but even so, it is difficult to hide it from him. He is not a fool and is very smart.

Maybe he already knows about his identity and has been vigilant. Don't you think that when he talked to us, many of his tones and attitudes were different from before? "

"He also has a guilty conscience.

In any case, he can't have a substantial impact on us, which is enough. I will report the rest to my superiors after I go back and let Thor handle it. After all, he is a soldier brought by Thor. "

Wang Xin listened to what Qin Yuan said and knew that Qin Yuan was a very responsible person.

In any case, when carrying out a mission with such a person, there is no need to worry about anything. You just need to put your heart at ease and assist him wholeheartedly.

A person like Qin Yuan will never let down the people around him even if he sacrifices his own interests.

Chapter 2304 Everyone gathers in the conference room

Shen Man rushed back to the hospital from home as quickly as possible. He quickly came to his office, changed into his work uniform, and calculated that Qin Yuan should be almost here.

So Shen Man contacted Wang Xin as soon as possible.

Wang Xin and Liu Mei had been waiting for news from the hospital in the embassy. Finally, he received the news and he could breathe a sigh of relief.

"Has Qin Yuan and the others not arrived yet?"

"Shen Man, you finally replied. Qin Yuan and the others are already near the hospital, but without your guidance and command, they dare not act rashly for fear of being discovered by others."

Shen Man was relieved when he heard this.

"I knew Qin Yuan was a thoughtful person. He would not act rashly. As expected, he did not disappoint me. I was afraid that if the two of them rashly drove into the hospital and were stopped by the security guards, things would get out of hand."

"Qin Yuan is already a veteran in the army. He has performed these tasks many times and would not do such a stupid thing."

"I have known him for a short time. How could I have thought of these? Well, since they are already nearby, I will not tell you. I will go to the door to pick them up first."

"Shen Man, you have to be careful. Don't let your identity be exposed, otherwise you will fail."

"Do you still need to worry about this?"

Afterwards, Shen Man hung up the phone and took out a pack of good cigarettes from his drawer.

"If you want to ask someone to do something, you have to have the attitude of asking someone to do something. Humph..."

Shen Man put the pack of cigarettes in his pocket and walked out of the office directly, heading towards the hospital gate.

Huangmao was quite surprised to see the young nurse coming out of the hospital office at this time.

"Hey! Hello..."

He waved his hands hard and shouted easily, but he didn't dare to make too much noise for fear of disturbing others.

"Why are you still here?"

"Didn't you go home? Why are you here too?"

"In our industry, there is no such thing as vacation. I have to come here after I go home to rest for a while. Our hospital is very short of manpower. How can I rest whenever I want? Damn it, why am I telling you all this."

"What are you going to do?"

"Please, this is our hospital's territory. Do I have to report to you if I want to do anything?"

You smell like cigarettes. If you want to smoke, go out and smoke. Don't smoke in the yard of our hospital. Many patients are afraid of smelling cigarettes."

"Do you need to tell me this? I just went out to smoke and saw a suspicious vehicle."

Shen Man felt that Huangmao was deliberately reminding herself.

"I understand what you mean. Go find Sophia quickly. I can handle the things here. Tell him to be careful. Ah Zhe is still in the intensive care unit."

Huangmao understood what he said and didn't intend to bother the little nurse anymore.

Shen Man finally got rid of the annoying Huangmao and walked to the door of the hospital.

Seeing two security guards sitting in the guard room.

"At this time, there should be only one security guard on duty."

While he was struggling, one of the security guards stood up and prepared to pack up and go off work.

Shen Man thought that this was the time, and he swaggered into the security room.

"Hey, Nurse Shen? Why are you here?"

Shen Man is a famous beautiful nurse in the hospital, and everyone in the hospital knows him.

"I'm on duty today, right? It's a bit boring to stay alone in the duty room, so I came to the door to see if there's any express delivery for me recently?"

"Oh, I'll help you check."

While talking to the security guard, Shen Man stared at the surveillance camera to see if Qin Yuan and his vehicle could be found.

The security guard searched for a long time in a pile of express deliveries nearby, but didn't find Shen Man's express delivery.

"Nurse Shen, I remember correctly. If there was your express delivery, we would have kept it for you."

"Oh, I must have remembered it wrong. Are you the only one on duty tonight?"

"Yeah, that's right."

Shen Man took out the pack of cigarettes from her pocket and handed it to the security guard.

"Nurse Shen, what are you doing?"

"Since you usually help me collect express parcels so attentively, I should thank you very much.

But you also know that I don't smoke usually. This was left by someone in my car. I think it's good. It happens that you are the only one here today, and you don't need to share it with others. I'll just give it to you."

"This...is not good."

"What's wrong with this? I still have something to ask you."

"Oh, so you have something to do. It's okay. Just tell me. I will definitely help you if I can. Is there something broken in your office that you want me to help you repair it? I guess the people in the maintenance department are all off work at this time."

"You are really smart. It's true that the air conditioner in our office is broken.

But there's no need to trouble you. You are the only one on duty here tonight. It's not good for you to leave your work station. I have called the people from the maintenance company to come over.

I came to you now, hoping that you can help open the door and let their car in."

"It's just a small matter. Why are you so polite? It's just a piece of cake. No problem. I'll open the door now. You can ask the maintenance company to come over."

"Thank you."

Then, Shen Man took out his mobile phone and dialed the number of Qin Yuan that Wang Xin had given him in advance.

Qin Yuan and Chen Jixiang were waiting in the car very anxiously.

"When will there be news? If there is no news, we will be easily discovered by Mr. Noman Karim's people."

While Chen Jixiang was complaining, Qin Yuan received a call from the nurse.

"Hello? Is it the maintenance company? You can just drive the car into the hospital. I have already greeted the security personnel at the door, and they have opened the door."

Qin Yuan heard the other party's voice and knew that this was the code they had set in advance.

"Okay, I know, I'll go there."

Qin Yuan hung up the phone and stepped on the accelerator to shift gears, ready to drive the car towards the hospital.

Fortunately, they used the maintenance company's car, which was not noticeable at all. Even if they were Mr. Norman Karim's people, they would never have thought that Qin Yuan would come to the hospital in this way.

Chen Jixiang smiled and said.

"My mouth is really like a blessing. He let us in just after I complained. I was still thinking about how to go to the hospital without being easily discovered. He did not play by the routine and let us go openly."

"You should shut up quickly. Try not to talk for a while."

"Why?"

"You don't understand the language of this country. If you are not careful, you will be exposed."

"Oh, by the way, I almost forgot about this. Don't worry, Brother Qin Yuan will go in and I will treat him as a mute. I won't say anything. I will do whatever you ask me to do."

After Shen Man hung up the phone, he waited for Qin Yuan to drive over. After a while, he saw the maintenance company's car coming in this direction. At this moment, the security guard had opened the door.

"The maintenance company's car is here. Thank you so much.

I'll take them to the office now. The air conditioner in the office is broken and has been leaking. If it lasts a little longer, our office will become a water curtain cave."

"Do you need my help?"

"No, just do your own thing here. You are the only one on duty now. It won't be good if your superiors know that you left. I have already troubled you enough."

After Shen Man finished speaking, he saw the maintenance vehicle parked at the door and met Qin Yuan again. However, now that they knew each other's identities, they could communicate directly.

"I didn't expect your maintenance company to be so efficient. You came here just after I made a phone call. Come in with me. The air conditioner in our office has been leaking. Take your tools."

"Is the car parked at the door?"

"It's only a few steps from here to the office. Do you still want to drive the car into the office? Just park it at the door. When you have fixed the air conditioner, leave quickly. It won't delay you."

Qin Yuan and Chen Jixiang, the two of them got out of the car with tool boxes in a pretentious manner.

This car was specially prepared by the embassy to conceal its identity. There is no flaw at all. Anyone who sees it is just a vehicle driven by an ordinary maintenance worker, and he will never be caught by others.

After Shen Man successfully met Qin Yuan, he was finally able to breathe a sigh of relief.

"You guys are really fast. Did you see Huangmao at the door just now?"

"Yes, where is he?"

"He, Sophia and your good friend Jason are all in the pavilion in the backyard. I will bring them all here in a while. Come with me to the hospital first. I will take you to the conference room to wait."

"That's good. I hope I can get them all out this time. I will send them to the dock and arrange a boat for them to leave first. Then I can rest assured."

"Have you brought the tools? The bullet is in the safe. If you don't have tools, you may not be able to open it."

"Nowadays, safes have been upgraded. Unlike the old ones that need to be pried open by brute force, they are all digital now, and I am afraid they are all password-protected. I can't pry them open even with tools."

When Shen Man heard Qin Yuan say this, he stopped and looked at him in surprise.

"What's wrong?"

"How dare you ask me? You want to pry open the safe and get the bullets without any tools, how is that possible?"

"Don't be kidding me, you really don't have any tools, then how do you plan to open the safe? Use your fingers to poke it open, or rely on your mouth?"

Chen Jixiang has long been accustomed to Qin Yuan's operation, he is not in a hurry at all.

"Shen Man, don't be so excited, I have my reasons for doing this, please believe me.

Without any preparation, I will not come here to trouble you, I am ready, I can open this digital safe through the computer."

Qin Yuan thought to himself that he still had to make up a reason, how to fool the other party.

I am not a computer expert, but all this depends on my own recycling system.

As long as he asks the system for help, he can find the password to pry open the safe. This is easy for him, but it is incredible for other people who don't know the truth.

"Did you bring a computer?"

"No need! Any computer can do it. I am an expert in this field. Believe me."

"I didn't expect Fan Tianlei to be able to train a technology expert like you. How can a high-tech talent like you come out to personally perform such a dangerous task?"

"Oh, don't ask so many questions. Let's go in quickly."

Shen Man half-believed and half-doubted, and took Qin Yuan to the office.

"You are waiting in the conference room for me to bring Sophia and the others in, and then you can discuss it together.

This time is the most suitable. No one is here, only me. Even if someone comes, I can easily send them away."

"That's good, thank you for your trouble."

After Shen Man finished speaking, he was ready to go outside to bring people in first.

Qin Yuan almost forgot that Hassan was still in the hospital. He didn't know how he was doing now. After so many days, he believed that his injury should have improved.

But Qin Yuan didn't dare to do anything now, fearing that it would attract other people's attention.

At this time, Chen Jixiang also began to ask his doubts.

"Brother Qin Yuan, you just said that the safes have been upgraded and are not so easy to open. Did you really not prepare any tools? How can we open them in this case?"

Time is tight. In addition to getting the bullets, we also plan to send them all to the dock and arrange for the boat to leave. It seems that we are really short of time and have a heavy task.

Is there anything you need me to do for you? If so, just say it. We have to finish these things quickly, otherwise, I will always be worried about it."

"Chen Jixiang, I do have a very important task for you to do, but I don't know if you are willing to accept it."

"What?"

"I plan to let you take the boat with them."

"Ah?"

When Chen Jixiang heard the task Qin Yuan arranged for him, he was a little stunned.

"Why do you have to arrange it like this?"

"Someone needs to escort them. You are now the only person I can trust.

I am very relieved to give you this task. This boat is arranged by the embassy. I believe there should be no problems along the way. You are relatively safe."

Chapter 2305 Discussing the plan to leave early

Qin Yuan followed Shen Man to the conference room of the hospital.

At this time, there were not many staff on duty in the hospital, but Qin Yuan thought that he should be more careful and not show off and let others see him casually.

The maintenance workers they pretended to be are already very similar. At least there are no flaws in their appearance. They have to be more careful with their words and deeds. Don't reveal their secrets, otherwise the whole plan will fail and Shen Man will be implicated.

Chen Jixiang felt very uneasy after hearing what Qin Yuan said just now.

"Brother Qin Yuan, have you really thought about it, do you want me to take them back first?"

"Of course I have thought about it. I believe in your strength, and this mission is not too dangerous. Under the joint arrangements of the embassy and Thor, someone will pick you up in advance."

Chen Jixiang is not afraid, he just doesn't want to carry out this task alone. He wants to be with Qin Yuan.

"Brother Qin Yuan, let me tell you the truth, I really don't want to take them away first."

"Why?"

"We came out of the army together, so we should go back together. What does it matter if I leave alone? What's more, the matter with Mr. Norman Karim has not been completely resolved yet."

"We have successfully arrived at the embassy now. With Wang Xin helping me, you don't have to worry so much. Besides, He Chenguang and An Ran can both help me. How can I be alone?"

"Although Sister An Ran is a very experienced person, don't forget He Chenguang's identity."

Shen Man was listening to the two of them talking, and Qin Yuan quickly signaled Chen Jixiang to stop talking.

"You guys go to the conference room and wait. I will go outside to find Sophia and the others now."

After Shen Man finished speaking, he closed the door and went out.

Only Qin Yuan and Chen Jixiang were left waiting in the conference room.

"Chen Jixiang, you shouldn't have said too much in front of Shen Man just now."

"I'm sorry, Brother Qin Yuan, I'm really in a hurry. I don't want to leave with them first. Can you just not let me go on this mission?"

Isn't Jason the person you trust the most? He should be able to bring all these people back.

Besides, we are members of the army after all, and their status is so special. How should I arrange for them after they return? Should I take them back to the army and hand them over to their superiors, or let them leave like this? "

After Chen Jixiang said this, Qin Yuan said nothing more.

He felt that what this kid said made sense. He was able to carry out the mission so smoothly in this unfamiliar environment entirely because of Jason's help, but there were some things Jason did that were beyond the pale.

After Qin Yuan thought for a long time, he said with a little hesitation.

"Okay, although I am the captain of our team, I can't force you to do anything. If you don't want to, just let it go."

"Thank you, Brother Qin Yuan."

"Why thank you, idiot."

On the other side, Shen Man came out of the conference room upstairs. He went directly to the pavilion in the backyard and saw Sophia and others still waiting here.

"I said you people are really patient. You've been waiting here and not going anywhere, right?"

"Shen Man, you are finally here."

"Stop waiting here, come with me."

"Where are you taking us?"

"Sofia, you gave me the diamond bracelet and wanted me to help you. Now I want to help you, and you have so much distrust in me?"

Jason and Sophia were very happy when they heard this, but they were a little doubtful.

Shen Man has always had a cold and incomprehensible attitude. Suddenly he clearly said that he wanted to help them. It was really easy for people to think too much.

Huang Mao stood up and said this.

"Sofia, when I went outside to smoke just now, I saw Qin Yuan driving a maintenance vehicle over. Maybe that's why he suddenly decided to take us."

"Qin Yuan is here?"

Sophia was very excited when she heard this. It was as if she had grasped a life-saving straw. He knew that with Qin Yuan here, they didn't have to worry about anything.

"He was out of danger and went to the embassy, and he was still willing to come and help us. It really surprised me."

"If you believe me, come with me. If you don't believe me, leave immediately and stop staying in the hospital. Mr. Norman Karim's eyes and ears are everywhere here.

If he finds out that you have done so many things behind his back, you can imagine the consequences for yourself. "

Akun and Amin looked back at Jason.

"Boss, Qin Yuan really did not disappoint us. He is really ready to come back to help us. In this case, let's follow him in first. We are all in the hospital anyway. We are just waiting outside. It doesn't make any difference whether we follow him or not. "

Jason nodded and said.

"Sofia, I think so too. Let's follow Shen Man to the conference room first. I believe he should take us to see Qin Yuan."

When Shen Man saw that they had nothing else to say, he turned around and left, with these people following him.

"Are we going to follow you in like this? Didn't you say that we are surrounded by Mr. Norman Karim's eyes and ears?"

When Shen Man faced the other party's questions, he didn't say anything and had no intention of answering. He kept walking forward on his own.

Sophia was very worried about Azhe at this time.

"Shen Man, since Qin Yuan is here, can you let me go to the intensive care unit? I want to see Azhe's condition."

Shen Man stopped when he heard this, turned around and looked at the other person and said.

"Sofia, this is a hospital. Azhe is now a patient in the intensive care unit. Are you a doctor or an expert? Can you help him get better quickly after visiting him?"

When Huang Mao saw his attitude when talking to Sophia, he was reluctant and said angrily.

"Shen Man, you are just a little nurse, why are you so arrogant? We talk to you in such a nice manner, but you are always blaming us."

"This is a hospital, you just listen to me.

What's the point of going to see Azhe now? It will only waste more time.

Qin Yuan is waiting for you in the conference room. Azhe is in the intensive care unit and everything is normal. If he has any problems, I will naturally inform you. "

Jason saw that everyone was in a bad mood and maybe a little impatient, so he quickly tried to persuade them.

"Sofia, what the nurse said makes sense. Since Azhe is in no special condition in the intensive care unit, we don't need to worry about him.

Let's go to Qin Yuan first and see if he has any solution to this matter. Maybe he can help us. "

Sofia nodded uneasily.

"Well, I didn't think too well. In that case, let's leave quickly and don't waste time here."

Shen Man took them upstairs through the exclusive staff passage at the back. At this time, there were very few people on duty in the hospital. If they went upstairs from the staff passage, no one could see them.

"This place is too..."

"Huang Mao, this is the exclusive passage for employees of our hospital. Don't think this is some secluded place. It seems like I am going to attack you."

"Everyone should have a sense of vigilance. Wouldn't it be great if you made it clear? Tsk..."

Soon after getting on the elevator, they arrived at the door of the conference room.

At this moment, Qin Yuan and Chen Jixiang also heard it in the conference room, and there seemed to be a sound outside.

"Shh... someone is coming..."

They held tools in their hands and pressed them against the wall next to the door. After all, they didn't know who was outside, so it was better to be more cautious.

Shen Man opened the door and saw Qin Yuan and Chen Jixiang holding tools and looking cautiously beside them. He couldn't help but laugh.

"I asked you two, can you stop acting like thieves? I have brought you all the people. You can discuss what you want to say quickly, and then you have to leave here as soon as possible.

Although this is a conference room, it is a public place after all. It will not be good if someone comes and sees you. It is good for everyone to leave early. "

"What about you? Are you planning to go out first?"

Shen Man said with a sneer.

"I only helped you because I took your money. Do you want me to listen to your plans here? If something goes wrong, I will be the one to blame. Don't let me lie in this muddy water."

Of course, Shen Man couldn't eavesdrop on their conversation here. After all, his identity was not announced to the public, at least Sophia and the others didn't know about it. He could only choose to leave.

Qin Yuan also nodded and said.

"Then please go outside and look out for us first. If there is any trouble, try to alert us as soon as possible."

Shen Man pretended to be arrogant and rolled his eyes.

"I've turned out to be the one who opens the door for you. Okay, anyway, a man's money helps others to avoid disasters. Since I've received the money, I have to follow the rules. You hurry up and let me know when you're done. I'll be at the door."

After Shen Man finished speaking, he opened the door and went out.

Qin Yuan saw Jason and Sophia and quickly cared about them.

"Are you two okay, especially you, Jason? Mr. Norman Karim didn't doubt you, did he?"

"Qin Yuan, I don't know what Mr. Norman Karim's attitude towards me is now. To be honest, I'm a little unclear.

I always felt that he still didn't fully trust me, but if he doubted me, why did he let me come to the hospital alone?

This really makes me a little confused. His thoughts are too deep, and I am a little confused. "

"No matter what, we are all leaving anyway. He can think whatever he wants."

"Qin Yuan, what happened with Azhe was indeed an accident.

He is in the intensive care unit now, and I don't know when he will be released. I just asked casually, and the little nurse had a bad attitude and scolded me. I didn't dare to ask too many questions. "

"Shen Man, he does have a bit of a bad temper. Just get used to it. Anyway, we only have a superficial cooperative relationship with him. He takes our money to do things for us, so we don't need to worry about the rest.

Azhe is not too serious. He doesn't want you to go to the intensive care unit, just because he doesn't want you to disrupt his work. It's that simple.

You don't have to worry about Azhe's health, I'm still very accurate in my move.

I didn't hurt any vital parts when I fired, but I still have to say sorry to you. This is what I have to do when I'm desperate. Otherwise, I don't want to hurt Azhe. I still treat him as a good friend. ,Do you believe? "

"Qin Yuan, you don't need to apologize to me. It's Azhe's choice to do this. This is in our common interest.

If you don't have any questions now, hurry up and leave.

After Mr. Norman Karim reacts, it will be troublesome for you to leave. I'm not trying to scare you, but this is the fact.

It's better for everyone to leave early.

The current situation is indeed special. Mr. Norman Karim should have sent a lot of people to watch you around. Under this situation, it's really not optimistic. It's better to leave first."

"Yeah, I came here specifically for this matter this time. In addition to taking the bullets back, I also have to arrange for Jason and others to leave here.

This guy Efit has already run away. We are not sure what will happen next. After knowing his betrayal, Mr. Norman Karim must not trust Jason now. Jason is very dangerous.

A Kun and A Ming were also very anxious when they heard Qin Yuan say this.

"Qin Yuan, you parked the car at the door. How can you take us out without anyone noticing? "

"I've thought about it. Just now in front of outsiders, I had to park the car at the door, but I saw that there was a corner outside that was a blind spot for surveillance.

You can go to that corner and wait. After I drive the car out, you can get in the car and take you away.

I avoided Mr. Norman Karim's vehicles along the way. Don't worry, I will use the same method to send you to the dock. "

Sophia was very surprised to hear Qin Yuan say this.

"How did you successfully avoid all Mr. Norman Karim's vehicles? This is incredible. How do you know where he set up the checkpoints? "

"You don't need to ask so many questions about this. I naturally have my own way. Don't worry, I won't cheat you. We are now on the same boat. "

Chen Jixiang also said beside him.

"You have to believe in Brother Qin Yuan's strength. He won't let you down. This is how we came here just now. If there is a problem, how can we successfully reach the hospital? "

Huang Mao was very impressed with Qin Yuan at this time. Although he didn't know how he did it, he was willing to choose to trust Qin Yuan unconditionally.

"Qin Yuan, I am willing to give up my car dealership and go to other countries with you. This is enough to prove that I trust you very much." (End of this chapter)

Chapter 2306: Show your face in front of the surveillance camera, don't let the other party get

Huangmao was ready to give up everything he had here and go to a new place with Qin Yuan to start over.

It was a completely unfamiliar country and city for him.

The fact that he could make this decision was enough to show that he trusted Qin Yuan very much. Even though he had known him for a short time, he couldn't explain why he had an unconditional trust in him.

Sophia couldn't help but persuade him.

"Huangmao, it's not that I don't trust Qin Yuan, I think you should think about it."

"What to think about?"

"You have lived in this place since you were a child. Now you suddenly have to go to a strange country. Can you get used to it?"

And you are facing a new language. You don't understand the language of their country at all. How will you live there? Even if Qin Yuan is willing to help you and give you some money, I'm afraid it will be a big challenge for you."

"Sophia, I have thought about it. Nothing is impossible in this world. Since you want to face some new challenges, you must have your own adaptation process. I Trust Brother Qin Yuan. "

Chen Jixiang saw Huang Mao next to him, who was like another self. He trusted Qin Yuan unconditionally, and he was even a little "jealous."

"Brother Qin Yuan, what is this guy talking about?"

Are you really going to take him with you? What will you do after you go back?

I think he is just a gangster. We are all from the army and have legitimate identities. Lei Shen will not allow you to do this. We should not get involved too much with people of his status. It is not appropriate. "

Chen Jixiang said these words for Qin Yuan's consideration, and he did make sense.

"Since I have made this decision, I will not regret it. He has completely offended Mr. Norman Karim for us. If we don't take her away, Mr. Norman Karim will not let him go. This is what I should do.

He is just a gangster here and has not done anything illegal.

When we get to a new place, I will let him start over. It is also good to give him some money to do some small business. Maybe sometimes he can be our informant."

"Didn't you lose a lot of money and promise to give it to Azhe and others? You actually have money to do some small business for him. My God, how much private money do you have?"

"Okay, don't worry about how much private money I have.

Suppose one day you don't want to continue working in the army, I can also give you some money to do small business. That's okay."

Chen Jixiang got the answer he wanted from Qin Yuan, and he smiled.

"If you say so, it's not too biased. In this case, I won't interfere with your decision.

But the reason why I say this is not entirely because of those reasons. I still think his identity is not legitimate. Anyway, you decide for yourself.

You are the team leader. As long as you think Thor can handle Thor, he will not object. Whatever you decide, you will listen to you. Even Sister An Ran should not object."

Shen Man was guarding at the door, thinking that the communication of these guys was too slow.

It has been so long, and it has not been finished yet. Although there are few people on duty in the hospital at this time, no one will come here to disturb them.

But this is a public place after all. It is not in accordance with the rules for a nurse like me to stand outside while they discuss things in the house.

Shen Man couldn't help it and knocked on the door outside.

"Can you hurry up and have a tea party inside?"

Qin Yuan heard the other party's urging, and he also knew that he should make a decision quickly, so he quickly stood up and started to arrange the plan.

"Sophia, if you are worried about Azhe, just stay in the hospital. I only need to take Jason, Akun and Amin away."

"I know you have been thinking about this plan for a long time, and Azhe is not out of danger yet, so I can't abandon him and leave.

Mr. Norman Karim has not doubted us for the time being. Aifet has run away, and we can put all the blame on him.

After all, Azhe has been with Mr. Norman Karim since he was a child. Compared with other people, he can still get more trust. He is also older now.

There is no one around him who can be trusted. Unless it is a last resort, he will not put the target of suspicion on Azhe and me."

Sophia knew that he was completely taking advantage of Mr. Norman Karim's trust in them.

It is very immoral to take advantage of others' trust, but how can people like them care about these things?

Jason listened to Qin Yuan's arrangement and nodded.

"I know that this is the best way for us.

But how can we leave the hospital and go to the dock? Mr. Norman Karim ambushed us all along the way. His vehicles are like mobile checkpoints, keeping us tightly controlled here.

We have no way to leave at all. Qin Yuan, if you want to take us to the dock, you will also have to bear great risks. If things go wrong, the two sides will accidentally shoot.

You have almost completed the mission and saved the people who should be saved.

If you get hurt because of us, it will be a bit of a loss.

In fact, since I decided to join Mr. Norman Karim's camp, I have made all mental preparations. You don't have to worry about me, and I have nothing to say.

I decided to join his camp, and now I am asking you to save me. I must be embarrassed, as if I have really betrayed you. How can I be embarrassed to accept your help again? "

Jason said these words from the bottom of his heart. He really felt a little embarrassed, even sorry for Qin Yuan.

"How can you say that?

If it weren't for your help, I wouldn't have been able to get here smoothly and rescue the hostages.

Jason, you have your own choice. I have already said that I will not blame you, and you really helped me. Even if you sacrificed A Kun and A Ming, you never hesitated. "

When A Kun and A Ming saw how interesting Qin Yuan was, they were really impressed by this man's style.

"Qin Yuan, thank you so much, I don't know what to say.

As long as we can save our boss, it doesn't matter if we sacrifice the two of us. We have followed the boss through thick and thin for so many years. We just put our heads on our belts and are not afraid of death! "

"You two, don't talk about dying. With me here, no one will have to die."

Qin Yuan thought to himself that he was a cheating male protagonist. As long as there was a recycling system to help him, he would be able to easily resolve these dangers.

However, this matter must be kept secret. He cannot tell anyone about the system. He can only keep it in his heart.

He was about to rescue them all. What he had to do now was to go to the office and steal the important evidence of the bullet first.

Shen Man had been urging Qin Yuan and the others for a while, and no matter how anxious he was, he was embarrassed to urge Qin Yuan and the others again.

But at this moment, an accident happened. The security guard at the door just now ran into the building.

Shen Man saw a blurry figure because he didn't turn on the light.

Only when the other party walked in with a flashlight did he realize that it was the security guard at the door just now.

"It's bad, why is he here?"

Shen Man put his hands in his pockets and quickly walked over to the security guard.

He said with a smile: "Why are you here?"

"It turns out it's you, Nurse Shen. What are you doing at the door of the conference room like this? I thought it was time for patrol and I had to go inside the building to see if there are any dangerous factors."

"You are the only one on duty at the door, and you have to patrol inside the building. This is too tiring."

Shen Man tried his best to greet the other party and let him not find anyone in the conference room, but after all, there were several people in the conference room, so there would still be some movement more or less.

The security guard noticed something moving in the conference room. When he was about to step forward, he was stopped by Shen Man.

"what are you doing?"

"There seems to be some movement in the conference room, did you hear it?"

Shen Man had an idea, he smiled and said.

"Of course there will be movement if there are people in the conference room."

"Ah? So you know who is in the conference room at this late hour. Everyone has gone home. There are only a few medical staff on duty. Is there anyone still having a meeting inside?"

"You are really good at joking. It's so late. How can anyone in the meeting be the maintenance worker I just called over?"

"Why are they in there? Didn't you say the office is leaking? Why are they in the conference room?"

"You don't need to be so nervous. I'll think about it first, but it's all money, so I can't let them go in vain. The projection in the conference room is a bit hard to use, so I plan to let them take a look."

"Don't they repair air conditioners, water and electricity? Can they also repair projectors?"

"I don't care whether he can repair it or not. Let him take a look at it first."

There is an important meeting in our department tomorrow. If there is a problem with the projection, it will affect our meeting. I will ask him to check it first. Everyone in the maintenance department has already got off work. I am too embarrassed to call someone to make another trip. .

Let him try. It would be better if it can be repaired. If it cannot be repaired, I can only ask my colleagues in the maintenance department to come over early tomorrow morning and help me take a look. "

Shen Man thought to himself that he was really the chosen one for special tasks, so he said this without any doubt from the other party.

Qin Yuan and Chen Jixiang, who had already heard the noise outside, began to repair things around them in a serious manner.

Qin Yuan deliberately made some noise and said with a slight complaint.

"Oh, in such a luxurious hospital, I didn't expect that the projection equipment was from several years ago. It is normal for such old equipment to have problems. Fortunately, we have the tools to help solve it, but it will cost extra. money."

Chen Jixiang is also a clever guy.

After hearing Qin Yuan's words, he immediately followed up.

"Isn't that right? It's already so late. Even if we work overtime, we should be paid according to the overtime pay. After that, other jobs were arranged for us, and we had to charge more money. Otherwise, we would have to pay more for this trip. It's all in vain."

Shen Man heard these two people making up nonsense outside, so he could only act along.

"Oh, I told you two masters, please stop complaining, I'm sure you won't be shortchanged by the money.

Didn't I just say everything? If I can give you more overtime pay, I'll treat it as if I paid for it myself. Normally the hospital wouldn't be able to reimburse you this much money. I'll never look for someone from your company again.

There are really too many things to do here. Next time I will try to find people from our maintenance department during the day so that I don't have to trouble you guys. "

The security guard saw it, and they came to talk, and it didn't seem like there was any problem.

"Nurse Shen, maintenance workers like them always complain a little when they go out to do business at night. They won't be disadvantageous to you, right?

Do you want me to protect you here? Help them see where they can help. "

Shen Man was thinking that what he had just said was to ask him to leave as soon as possible. If he stayed, his actions would be ruined.

"No, no, I know you are the only one patrolling the door today, and they should be able to solve it soon.

Although it's relatively late, I'm not the only one in this building. There are other medical staff. What else can they do to me? You can go about your own business. It doesn't matter if no one is watching at the door.

Don't delay your own work. If you have any questions, I can call you directly through the intercom. "

When the security guard heard this, he had no choice but to leave.

Shen Man stood at the door and watched for a long time. After realizing that this guy finally left, he quickly rushed in angrily.

"Qin Yuan, what on earth is going on with you guys?"

"What's wrong? The maintenance workers we played just now are quite similar, right? There are no flaws."

Shen Man really felt it immediately and was a little speechless.

"Are you here to perform a mission or to act? What if you are here to act?"

This is not the stage for your performance. How are the discussions going?

Hurry up to the office with me first, open the safe and take out the things from the seat. Get the evidence first, and then you can figure out how to leave. But you should prioritize. "

Sophia and Huang Mao were really angry when they saw the little nurse, and they were unwilling to waste Qin Yuan's time any longer.

"Qin Yuan, what we have discussed is almost over. We will wait in the conference room until there are more people and our movements will be easily exposed. You two go to the office.

I am originally Mr. Norman Karim's man, and others can't say anything when looking at Azhe here.

I'll just show up at the door of the intensive care unit later and let Mr. Norman Karim know that I'm here all the time. It's best for Jason to come with me.

Let Mr. Norman Karim know that we are here so that he can let down his guard. He would have become suspicious if he hadn't seen us. "

Chapter 2307 A suspicious person in black clothes appeared at the embassy gate

On the other hand, after Aifet lost two important hostages, everyone thought he was going to return to K to prepare for revenge. Who could have thought that this guy would come back again.

He was wearing a black hoodie, a black hat and a mask. Although his outfit was strange, he could not be recognized as Aifet.

He actually appeared at the door of the embassy.

Standing in a corner opposite the door of the embassy, he pressed down the brim of his hat hard, for fear of showing a little bit of his face.

Looking up at the embassy in front of him, he muttered silently in his mouth.

"Qin Yuan was able to reach the embassy so smoothly and took the hostages away. I suffered such a big loss. I really can't swallow this breath. I must find a way to retaliate against him."

Aifet is a particularly vengeful person. His heart is full of resentment towards Qin Yuan and he just wants to retaliate against him.

At this time, he received a call.

It turned out to be Lao K who called. He wanted to hang up, but he didn't dare to do so.

"Hello, boss."

"Aifet, you know I'm your boss?"

"Of course."

"Come back quickly, don't waste time there."

Now that Norman Karim has lost his hostages, I'm afraid he will do a lot of crazy things. Don't stay there and get lost. Come back to us quickly.

There are important things waiting for you to do. Qin Yuan and his team have brought back two arms experts. I'm afraid they will find us next. I really need you here."

Before he answered the phone, Aifet had already guessed that it was probably Old K who urged him to go back.

That's why he didn't want to answer the call.

"Boss, I don't know how to explain this to you. It's true that I lost the hostage. I'm sorry. It was my own fault. In addition, the weapons taken away by Norman Karim have caused us heavy losses. I have to find a way to recover them."

"What can you do to recover them?"

You alone are no match for Qin Yuan and Norman Karim. I know a little about these two people. You'd better come back as soon as possible and don't waste your time there.

Otherwise, you will lose your life. Although I am very powerful in our homeland, the strong dragon cannot suppress the local snake. In this area, you still have to listen to Norman Karim."

What Lao K said was still very pertinent. He sincerely advised Efit.

"Boss, you are so good to me. I lost the munitions and the hostages, but you didn't punish me."

"These things have become established facts. What can I do even if I pursue them? Besides, I am old now, and there is no one around me who can be used. You are the only one I have watched grow up and trust the most."

Old K's sigh made Efit feel very surprised. At this time, he thought of Jason.

"Boss, Jason is also here. I don't know why he chose to be in the same camp with Qin Yuan. He betrayed the New Year. At least I have to take him back."

Old K sneered on the other end of the phone.

"Him? Don't worry about it for now. This guy betrayed me. I will definitely make him pay the price. But why not let him stay with Qin Yuan now? It will be useful in the future."

Efit heard what Old K said. He was a little confused. He felt that the other party had a plan, but it seemed that he didn't mean to explain it to him.

"I have arranged a boat at the dock. You hurry to the dock. Be careful on the way. Norman Karim has arranged many people on the road."

"I know he has arranged many people on the road, so I dare not act rashly. Now I am preparing to give them some "small gifts" at the gate of the embassy."

"How big are you? How dare you make trouble at the gate of the embassy?"

"Qin Yuan is not here now. I don't plan to act impulsively. I plan to arrange something for him here. He will know when he drives back later."

Old K knows Efit's temper and personality very well, and of course he has no intention of stopping him.

"Then hurry up. You must arrive at the dock in two hours. You can handle things here by yourself. Safety is the most important thing. Remember to be alive and come back to see me."

"Received, boss! "

After Aifet hung up the phone, he was filled with mixed feelings.

He made so many mistakes at first, and was afraid that he would be punished by the boss when he returned.

Now that Lao K had said so many things to him and forgiven him so easily, he had to make up his mind to be loyal to Lao K, even if it meant sacrificing his life.

He took out a small miniature grenade from his hand.

The reason why he came to the gate of the embassy was that he was going to place this small grenade on the road that Qin Yuan's vehicle must pass through. When the other party came back, the vehicle would run over this grenade, and then the car would be destroyed and people would die.

Aifet had already suffered some minor injuries before.

He endured the pain in his body and came to the embassy just to avenge him.

Aifet really hated Qin Yuan in his heart. Sometimes he couldn't tell whether he was jealous of Qin Yuan's ability and talent, or hated that the other party always ruined his plans.

He couldn't tell now, but no matter what, the two of them were natural enemies, and he had regarded Qin Yuan as a natural enemy.

At this time, people inside the embassy seemed to notice suspicious signs outside.

Liu Mei found Wang Xin.

Wang Xin was discussing Qin Yuan's next plan with An Ran.

He Chenguang was also beside him, but he didn't say anything, he just kept listening, because he had a lot of things to do, and he couldn't be distracted to think about anything else now.

"Liu Mei, why are you here?"

"Why, can't I come while you are discussing things here?"

"That's not what I meant. Are you looking for me for something?"

"See for yourself."

Liu Mei gave Wang Xin a screenshot of the surveillance video outside.

"Are you talking about the person at the door?"

"I've been watching this guy in the monitoring room for a long time. He definitely doesn't look like a good person. I'm afraid he wants to do something to us."

An Ran saw their discussion and already guessed that he might want to deal with them.

"Can I have a look?"

"Of course, you see."

An Ran saw this heavily armed mysterious man from the surveillance screenshots, and he immediately recognized that this man was Efit.

"Efit?"

He Chenguang heard An Ran say his name and nervously stepped forward to take a look.

An Ran turned around and said He Chenguang.

"Do you think this guy is Efit?"

He Chenguang looked at the photo and said hesitantly.

"Well...his face is completely covered. To be honest, I can't be sure it's him."

"Although his face has been blocked, it's obvious at first glance that he did it deliberately. He didn't want to reveal his true appearance. Besides, in terms of body shape, there is no one else who looks like him except Efit."

"There are a lot of people who look alike in this world, and there are a lot of people who even look alike from the front. It's not very accurate if you just judge from their body shape."

"Efit, why did he come to us? Logically speaking, he has offended Norman Karim and should quickly find a way to escape."

"This guy is a desperado, and his motive for appearing here is simple, just to take revenge on us.

He always suffered in front of Qin Yuan, and the resentment in his heart became deeper and deeper as time went by.

Maybe he wants to die with us again. I can guarantee that this person is Efit. There must be something dangerous on him. He appears at the door of the embassy. What does he want to do? "

When Liu Mei heard what An Ran said, he was also very worried.

"Then it would be terrible if this guy really is the guy. Don't worry, let me take the people out to have a look, catch him, or drive him away."

"Please wait a moment. Although we can't see his face clearly now and are not sure whether it is Efit or not, based on what we know about this person, it is almost the same.

The reason why he stood opposite the embassy was because he thought it was a blind spot for surveillance. "

After hearing this, Liu Mei said proudly.

"Their country is so unstable, how dare we leave a surveillance blind spot at the entrance of the embassy, but part of the surveillance is hidden by us and cannot be seen by the naked eye.

This is surveillance we have arranged secretly, and people in this country don't know about it.

If we go out now, there is a high probability that we can catch this guy. Anyway, we cannot let him act recklessly in front of the embassy.

If he really brought something like a bomb, then we would be really in danger. No, I still can't worry about it. I'm going to catch him now. "

Liu Mei is a somewhat impulsive person, and since he has been in a bad mood recently, he will naturally become more impulsive than before.

Wang Xin saw Liu Mei like this and grabbed his arm.

"Don't hold me back!"

"Listen first and let me tell you slowly. Impulsiveness can't solve any problems."

"Then what do you think we should do? If we don't take action after discovering dangerous factors, should we just let him cause damage here?"

"The problem is that we have captured his every move. If we go out now, we will probably alert him. He must know that we have hidden surveillance around.

By then, if he comes back again, he will be so sneaky that none of us can find him.

It's better to keep an eye on him on the surveillance camera now to see what he wants to do. I don't think he has a big, powerful bomb in his hand. "

An Ran listened and said with approval.

"Wang Xin, I agree with your idea. If you go out now, it's easy to alert others.

We can already see him on the surveillance camera, so we will wait and see what he wants to do. Logically speaking, he should not have a highly lethal bomb, and there is nothing outstanding about his body.

However, he appears here again, obviously to take revenge on us.

After comprehensive analysis, I think he should have a small bomb in his hand.

Perhaps, he already knew that Qin Yuan was out on a mission and planned to ambush Qin Yuan with small bombs on his way back. He wanted to blow up the entire embassy. That was impossible. There was only one possibility, that was him Want to take revenge on Qin Yuan alone. "

When Wang Xin heard An Ran's analysis, he smiled softly. This was what he thought.

"Heroes think alike, and I think the same way."

When Liu Mei saw the two of them like this, he felt an indescribable feeling in his heart. Anyway, he just felt uncomfortable.

He Chenguang stepped forward and took a closer look.

"When An Ran said that, of course I remembered it.

When I was working with Thor before, I saw a tiny bomb that was not very lethal, but it was enough to blow up a car.

It's small in size but somewhat lethal.

However, if you expect this bomb to blow up the entire embassy, that is impossible.

Seeing that he has his hands in his pockets all the time, there must be something in his pockets, so we should stop taking action and just keep an eye on him to see where he plans to place the bomb.

Just like what Wang Xin said just now, if this guy is alerted now, he will definitely come back.

We don't know the bomb in a place we don't know. It's better to let him think that his action is successful now, wait for him to put down the bomb, and then we can defuse the bomb after he leaves. "

After He Chenguang finished speaking, An Ran nodded in agreement.

"Let's do it this way, we all have the same idea."

Liu Mei saw that they had all agreed, and it was hard for him to say anything. The key was that although he was a little angry, he also thought that these people's plans were very reasonable.

"Well, you have already said this. It is not convenient for me to have any contrary opinions. I have always sent people there to keep an eye on him. He can't always be waiting at the door. It won't take long. He will definitely Action."

"I wonder how Qin Yuan's mission has been completed. Should we inform him in advance so that he can be mentally prepared before he encounters this guy when he comes back."

"It's better not to inform Qin Yuan for now. Anyway, we have been keeping an eye on Efit. Notifying Qin Yuan now may affect his mission. Try not to distract him. As long as we are responsible for keeping an eye on it."

"Yeah, I think so too."

Wang Xin looked at An Ran and said.

"I didn't expect the two of us to have such a tacit understanding. After this mission is over, if you don't mind, I would like to apply to my superiors to let you stay in the embassy to assist me in my work."

Liu Mei, immediately interrupted when she heard this.

"An Ran is a special operations officer trained by Fan Tianlei. Working in a boring place like the embassy is really a bit humiliating. People have their own plans, so don't make blind decisions."

One-click Recovery Since I was a Special Soldier

Wang Xin didn't expect that he and An Ran had such a tacit understanding.

"Liu Mei, you already know our decision, don't think too much, hurry up and keep an eye on Aifeite, this guy is a lunatic, you must keep an eye on him all the time."

"Wang Xin, do you think I'm the kind of person who needs you to remind me repeatedly?"

After I found out about this, I asked the people around me to keep an eye on him. I came here to ask for your opinions. If you don't let me act rashly, how dare I act casually?

Don't worry, they are also waiting for my order. I will notify them now to stay put and carefully observe the every move of this lunatic."

He Chenguang sighed helplessly.

"Aifite, this annoying guy is like a fly, always staring at us. The most important thing is that he really hates Qin Yuan. I'm afraid that we will ruin his action this time, and he has a backup plan."

After An Ran listened to the other party's words, he thought carefully for a while.

"It shouldn't be that bad.

Aifite has offended Mr. Norman Karim now. If he continues to stay here, he will only be in danger. The reason why he wants to ambush here is because he has limited time.

After the ambush, he must leave here as soon as possible, even if he knows that his plan is not 100% successful, but he has no choice.

Because his boss has given him a death order and he must go back quickly. Of course, this is just my own guess. If there is any problem, you can also tell me."

Wang Xin listened to An Ran's story seriously, and he also agreed with the other party's point of view.

"Yes, I think so too. It should be his boss, Lao K, who urged him to go back quickly. Under this circumstance, he can only give it a try."

Liu Mei saw that the two people had such a tacit understanding, and he felt bad.

Unexpectedly, after being with Wang Xin for so long, he didn't have as much tacit understanding as An Ran and him.

He Chenguang saw that Liu Mei's face had changed, and said quickly.

"Wang Xin, I know you two think alike, so don't delay Liu Mei's actions, let him go and keep an eye on this guy."

Wang Xin nodded with a knowing smile.

"Liu Mei, if that's the case, please continue to keep an eye on him, and report to me at any time if there is anything."

"Understood!"

Then, Liu Mei opened the door and walked out. He felt bad, and he closed the door with a little force.

With a "clang", the door closed tightly.

An Ran noticed that he seemed unhappy, but now he didn't have so much energy to care about other people's thoughts.

"I don't know how Qin Yuan's actions are going. He has no news, and I am always thinking about him."

He Chenguang walked to An Ran and gently patted his shoulder to comfort him.

"An Ran, let me tell you, you don't have to think too much about this matter.

Qin Yuan's strength is obvious to all of us. When we were in the army before, we saw him accomplish impossible tasks several times. Sometimes I even feel that this kid is simply assisted by God."

"Yes, after listening to you two, I feel more and more that Qin Yuan is a very powerful person.

No wonder Fan Tianlei was able to let him bring you guys here alone. At first, I thought Fan Tianlei was a bit boastful, but now I think he is too confident in his apprentice."

When He Chenguang heard this, he suddenly remembered something he was also curious about.

"By the way, Wang Xin would like to ask, what is the relationship between you and Deputy Chief of Staff Du Bingbing?"

"We are college classmates, didn't I tell you before?"

"Are you two ordinary college classmates?"

If it is an ordinary college classmate, if he asks you for help, you will help him, even if it means risking your life, you will not refuse him. In this case, the friendship between you two classmates is indeed deep enough."

He Chenguang was able to say such words, obviously with a questioning tone, or even with some gossip.

An Ran felt that he was a little rude to ask such a question, which had violated the other party's privacy.

"He Chenguang, what are you doing? This is someone's privacy issue, why are you asking so many questions? Do you want to continue to please Du Bingbing when you go back?"

After hearing this, Wang Xin immediately looked back at He Chenguang with a puzzled look.

"Oh, An Ran, please don't say that.

Even if I want to please Du Bingbing, what can I do? She doesn't care about me at all. She only cares about Qin Yuan. She even lowered her face to ask for help from her old classmate for Qin Yuan."

Wang Xin was stunned when he heard this, and then he figured it out.

A man like Qin Yuan, who is excellent, capable, and handsome, is a good match for Du Bingbing.

But what he can see more is that Qin Yuan and An Ran have an unusual relationship. Even if Du Bingbing has an idea, she probably won't have any chance.

The reason why He Chenguang said this is to find an opportunity to sow discord.

Since everyone already knows his special identity, they are on guard against him.

When An Ran heard him say this, she also knew that he wanted to sow discord between Wang Xin and Qin Yuan, so that the other party would not do their best to help them.

After that, An Ran quickly explained to Wang Xin.

"Don't get me wrong, this guy just likes to joke.

How could he have any relationship with Deputy Chief of Staff Du Bingbing? They are just ordinary comrades-in-arms, and what's more, Du Bingbing has just replaced Thor and become the commander of our team.

In order to successfully complete the task and to add a touch of color to his career, he must do his best to ask for your help.

Even if he has to use your relationship as an old classmate, there is no personal feeling involved."

Wang Xin is a very strong person.

He has been able to work in the embassy in this place for so many years, and he is so outstanding, and he has been valued by his superiors at a young age.

It is enough to show that his spiritual core is very strong.

For the tricks of sowing discord, he doesn't care at all, and he can't listen to them. He is even used to such tricks.

"An Ran, you don't have to explain so much to me. I know he is joking.

How can there be so many personal feelings in the army? We are all very professional special forces members, not to mention that I believe that Thor will not allow anything to happen.

The current situation is so tense, he also wants us to relax, I don't mind.

Besides, Du Bingbing and I are really just college classmates. Don't get me wrong. It's my job to help you complete the task this time.

Besides, I also have benefits, so it can't be said that I sacrificed anything to help Du Bingbing. This is our common interest to maintain."

After Wang Xin finished speaking, An Ran nodded with satisfaction. He knew that the other party's words would not disappoint him.

"Liu Mei is watching us alone in the monitoring room. Let's go and see where this guy Ai Fite wants to ambush."

He Chenguang saw that his instigation was unsuccessful, and it was not convenient for him to continue talking. If he continued talking, he would only expose his identity.

"Yes, yes, I was just joking.

Fortunately, you all didn't misunderstand me. Let's go find Liu Mei. I saw him slam the door and leave just now. I felt that he seemed unhappy."

"Don't mind it. He is usually like this.

Although we are superiors and subordinates in the embassy, we don't have a strict hierarchy internally.

We are more like close friends. We are of similar age and came here at about the same time. We can be regarded as a kind of support and reliance on each other. We are the closest comrades-in-arms."

"Yeah, Wang Xin, you don't have to explain so much to us. I can understand it, and I like Liu Mei's personality. It's very straightforward."

As several people talked, they were about to walk towards the monitoring room.

At this time, the phone in Wang Xin's office suddenly rang.

"Sorry, you wait here for a while, I'll see who called."

Wang Xin walked to his desk and saw that the call was from Du Bingbing. He knew that the other party must be anxious.

Wang Xin looked up at An Ran and He Chenguang.

An Ran understood immediately and said immediately.

"Since you want to answer the phone, we two will go out first. We will wait for you outside. After you finish the call, we will go to the monitoring room together."

Wang Xin felt a little embarrassed.

"An Ran, then trouble you two to wait for me outside for a while. I am really sorry."

He Chenguang and An Ran left the office.

Wang Xin picked up the phone.

"Consul Wang, I told you that you are so busy all day, and you don't have time to answer my phone call?"

"Bingbing, don't get me wrong. An Ran and the others were in my office just now, and it's not convenient for me to answer your call in front of them."

"Because you saw that the call was from my personal number, not the office number."

"Yes, I haven't seen you call me with this number for a long time, but I think you shouldn't call my office landline, you should call my private mobile phone, which is more appropriate for private calls, don't confuse public and private."

"Wang Xin, I think you must have misunderstood. The reason why I called you with this phone is because I am outside now. I went to the Exit and Entry Office and prepared to discuss the details of Qin Yuan's return to China with them."

"Deputy Chief of Staff Du, you are already He is an official.

Do you have to communicate in person for such a small matter? Just let your subordinates do it or make a phone call. Is it necessary to be so difficult?

Or is there a problem or obstacle in Qin Yuan and his return to China? "

"There are indeed some problems with the procedures for Qin Yuan and his return. You can arrange the ship as usual. I will find a way."

"Didn't we agree to take them back by helicopter?"

The ship has to go by water, which wastes a lot of time. If something unexpected happens in the vast ocean, who can guarantee their safety?

Now he has offended Mr. Norman Karim and Old K. Do you really think it is safe to go back by boat?

Only by taking a helicopter and returning to our country and the army as quickly as possible can we feel at ease. I believe you don't want Qin Yuan to be in danger. It seems that you care about him. "

Du Bingbing heard this and immediately defended himself.

"Qin Yuan is the apprentice of Lei Shen, and he was brought up by Lei Shen. Lei Shen is temporarily suspended because of some personal problems. I have just taken over to manage this task force. I don't want my team members to be in danger.

If I care about Qin Yuan, of course I care about him very much. I hope he can complete the task smoothly, so that I can also get the recognition of my superiors, which is also good for my own career planning."

"Well, since college, you have been so eloquent, I can't argue with you.

No matter what reason you use, I hope you don't worry. I have arranged the ship, but this is Qin Yuan who wants to send a few friends back to arrange it first.

As for Qin Yuan and the two arms experts, it is safest to use a helicopter."

"Does your embassy have a helicopter now?"

"Is your question a bit ignorant?"

"What's wrong? Yes or no, why are you talking so much?"

"Our embassy has limited funds. I can tell you directly, I don't have any extra helicopters here, only one helicopter is for us as a backup.

I have the right to mobilize, but I can't do this. I am not the only one in the embassy, there are other comrades and colleagues. If there is any mistake at this stage, and there is no helicopter to take them away, I will become a sinner for all eternity.

Your current status is very special, and it is not a problem to arrange a helicopter. The immigration department should be deliberately making things difficult for you.

Have you ever thought that there might be an insider?

If it doesn't work, you can consult Lei Shen. Lei Shen has been in this position for so many years. Even if he is suspended now, he still has some connections.

Let him take care of it. I think it will not be a problem to take Qin Yuan and others back within the specified time. "

"You are quite good at giving advice. Lei Shen Tai has already found me, and I have also gone there to coordinate and communicate, but it's useless to say anything. They just keep blocking the procedures and not approving them. What can I do? "

Wang Xin smiled and said when he heard this.

"Are you still the Du Bingbing I knew before? You didn't believe in this before. When you first joined the army, you were not afraid of anything. Now that you have a position, you want to take care of too many things. Are you afraid of losing your official position?"

"Wang Xin, how dare you mock me?"

"That's not what I meant. We have been friends for so many years. What's there to say? You should hurry up and make arrangements. Qin Yuan is here with me. I can guarantee his safety. Please believe me!"

Chapter 2309 Fortunately, Efit's conspiracy was discovered in time

Wang Xin has always had some doubts about the relationship between Du Bingbing and Qin Yuan.

However, he knew that Du Bingbing's character was like a powder keg and he did not dare to ask his doubts directly in front of him.

"Fan Tianlei has accumulated a lot of connections in the army over the years. If he can't do anything, then I really don't know how to take Qin Yuan and the others back."

"You have been away from the army for such a long time, and the connections you once had around you are gone. Otherwise, you could still help me."

"I'm so sorry, Bingbing."

"Wang Xin, we have been friends for so many years, don't tell me this."

"By the way, how is Professor Fang De's physical condition?"

I heard Qin Yuan say that his physical condition is not very good. If his two apprentices cannot meet Professor Fang De in time after they return, then the results of his painstaking research over the years will be in vain. "

"Actually, you shouldn't ask me that question."

"I understand that this is a secret that belongs to your middle and high-level people. I know that I am not qualified to ask."

"That's not what I meant, please don't get me wrong."

Now I can only say that we should persist one day at a time. Professor Fang De's physical condition is indeed not optimistic, and we are doing our best. "

"Professor Fang De is an internationally renowned arms expert and aerodynamics expert."

It's just that he is indeed a bit too old now. Since he has promised to do his best for our country, such a talent must not let him have any shortcomings. You must use all resources to save his life. "

"Do you still need to say this?"

I have racked my brains for this matter now, and have tried every method I can think of and try to do it.

To be honest, I also hope that he can live a long life, but who in this world can live a long life and live forever?

His two apprentices should also be able to help us. They are the only two who can understand Professor Fang De's research, so we need to get them back as soon as possible.

Otherwise, by the time Professor Fang De really has something wrong with him, it will be too late and meaningless. "

"Hmm, you have to find a solution quickly about the helicopter. Don't blame me for being too cruel. The embassy only has one helicopter. I really can't use it to send people off."

"Wang Xin, you don't need to explain so much to me. I understand in my heart. I just tested you and you were so nervous. Why are you still the same as when you were in college?"

"By the way, there's one thing I'm a little curious about why Thor was suspended? Does this matter have anything to do with you?"

"What are you thinking? Do you think I framed Thor in order to get the position of deputy chief of staff? Do you think I am this kind of person?"

"Bingbing, you have become the deputy chief of staff at a young age. Do you know how many people are jealous, and they will definitely make irresponsible remarks behind your back. You have to be aware of it. The most important thing is that Fan Tianlei is worth millions. Don't think so."

"Thor doesn't know how to do that. I followed Thor when I first joined the army. He can be regarded as my teacher in a sense.

He is very happy that I can take over his position as the leader of the special task team. Only I can protect Qin Yuan and the others in his place. "

"In that case, Lei Shen is really a very well-organized person. Apart from him, you can't think of anyone else who can help? Are you not going to use your family's connections?"

Du Bingbing heard the other party's question, and he obviously had some hesitation.

"As you just said, many people are jealous of my status. Now if I use family connections to deal with this matter, it will definitely arouse criticism from others.

I also don't want to implicate Qin Yuan and the others. They went so far this time and were able to bring people back. They can even be rated as first-class and second-class merit.

If my family were involved in this matter, their credit would be compromised.

You may not know quite what kind of person Qin Yuan is. He would rather not have these things than deal with related people. "

"Logically speaking, you shouldn't have known Qin Yuan for a long time, but you seem to know him very well."

"Wang Xin, don't have any doubts about the relationship between the two of us. We are just comrades-in-arms, but I don't deny that I personally admire Qin Yuan."

When Wang Xin heard what Du Bingbing said, he suddenly felt a little cold in his heart.

His relationship with Du Bingbing, his comrade and classmate for so many years, and his feelings for Du Bingbing were also known to Du Bingbing, but now he actually said that he admired Qin Yuan in front of him, so where did he put him?

"oh."

Du Bingbing also felt the other party's disappointment, and he tried to change the topic quickly.

"Okay, okay, let's change the topic. Stop talking about these things and stop discussing Qin Yuan."

"Don't discuss him anymore? Aren't you calling me today just to care about him?"

"Wang Xin, don't bring up other topics for me. I just want to care about you now."

"Care about me?"

"Yes, you have been in the embassy for so many years, don't you want to come back?"

"Of course I want to come back, but there is no order from above. Even if I have this idea, there is nothing I can do."

"That's all. You cooperate with Qin Yuan to do this. When it's mature, I will report to my superiors to transfer you back."

"It turns out that you don't care about me at all. You want me to help Qin Yuan with all my heart. You regard this matter as a bargaining chip that can be exchanged with me. Do you think that only if you make an equal exchange of interests with me will I do my best to help Qin Yuan?"

"Wang Xin, you are too stubborn. I thought that so many years of working experience in the embassy would make you more tactful. I didn't expect that you are still the same as before. I don't know what to say."

"I don't know what to say either. I really want to go back.

But I can't go back by myself. If I am transferred back to work in China, I hope to bring my team with me, otherwise we will stay here together.

In fact, we have already I am very familiar with this country now, and it is not as painful as when I first came here.

Even though this country is very chaotic and the customs and practices are completely different from ours, we have gradually gotten used to it. Since we chose this job in the first place, we have no right to complain. "

"I said you are simply asking for more. It is already very difficult to transfer you back alone, and you want me to transfer the people around you back as well. Isn't there a Liu Mei by your side?"

"Yes, I must take him back with me. Since you think this is an exchange of interests with me, I will naturally put forward my requirements. If you can't meet them, don't discuss this matter with me anymore."

The more the two people talked, the more tense they became. They could have a good conversation, but once Qin Yuan and Liu Mei were involved, their conversation seemed to come to an abrupt end.

"Deputy Chief of Staff Du Bingbing, I have something very important to deal with here, so I won't tell you yet. You should also find a way to bring Qin Yuan and the others back as soon as possible."

"What?"

Wang Xin hung up the phone before the other party answered.

At this moment, of course, he was very angry, and he couldn't tell why he was angry.

He couldn't tell whether he was angry because Du Bingbing cared about Qin Yuan, or when Du Bingbing refused to take Liu Mei back with him.

However, he knew that An Ran and He Chenguang were waiting for him outside the door at this moment, so he had to adjust his mood and couldn't go out angrily.

He Chenguang and An Ran waited at the door for a long time, but didn't see him come out, He Chenguang said with a slight complaint.

"Whose important call was that he left us here for so long."

"We can't care so much. This is the embassy's territory. As the consul of the embassy, he is also the top leader here. Of course, there are many things to deal with.

We are now working with him to complete these tasks. There is no relationship between superiors and subordinates.

He Chenguang, don't complain too much. If he doesn't want to help us as much as possible, we can't say anything. After all, there is no formal order from the superiors asking him to do this."

"Thor is really something. He knows that we are in a foreign country, so it's not easy to handle these interpersonal relationships, and he doesn't even ask for an order from the superiors to cooperate.

Wang Xin couldn't say anything. I'm not picky or hypocritical. I'm really just worried about Qin Yuan. He has always been like this."

"Don't think too much for now. Just do your part."

While the two of them were talking, Wang Xin walked out slowly.

"I'm really sorry to have kept you two waiting for so long. I just received a call from Deputy Chief of Staff Du Bingbing."

"Oh, so you're my old classmate. No wonder we've been talking for so long. What did you two say?"

An Ran immediately nudged He Chenguang with her arm after hearing this.

"It's okay. It's not a secret. It's all about Qin Yuan's request to have a helicopter take you back."

When He Chenguang heard this topic, he immediately became interested and asked nervously.

"Finally, there are some clues. What does Du Bingbing say?"

When can they send a plane to pick us up? We don't want to stay here any longer.

Besides, we've been here for almost a month, and we've never tried to stretch the mission line so long.

If we don't go back, our superiors may question our ability."

Wang Xin knew very well that he couldn't tell the two people in front of him about the difficulties and problems so far. He just smiled and said.

"Don't worry, the superiors are making arrangements in full swing.

Du Bingbing has just taken over the position of deputy chief of staff, and may not be familiar with many things. You have to give him some time.

Also, he just asked me to convey that he hopes you can understand each other's difficulties. He will try his best to help you solve these things in the shortest time and not let you worry too much."

"Du Bingbing has always been a very decisive girl, and we have great confidence in him.

Since he has said so, we are not afraid to wait a little longer. After all, it is safe in the embassy. Even if he offends Mr. Norman Karim, he can't bring people to break into the embassy."

"Yes, you are right to think so. Mr. Norman Karim doesn't dare to act rashly with me here. Let's go to the monitoring room first to see how Efit is doing. I don't know if he still wants to set up What kind of trap is needed to frame Qin Yuan?"

"I'll wait for you here, let's go."

Later, Wang Xin took An Ran and He Chenguang to the monitoring room.

Liu Mei was a little angry when he saw these people coming over slowly.

"You guys are finally here. I have to say that your actions are really a bit too slow."

Wang Xin knew that Liu Mei was a little dissatisfied, and she couldn't anger him at this time, so she quickly changed the subject.

"What happened to this guy Efit? Why did he disappear from the surveillance camera?"

"He must have gone to prepare some tools. I can probably guess what he wants to do."

"Oh? Then tell me what this guy wants to do?"

"You all are indeed very smart, and your guess is correct.

There is indeed a miniature grenade in his hand. This grenade should be the model we encountered in the early years and was not produced in this country.

He should have brought it from somewhere else. Although it was relatively small, it was powerful enough to blow up a tank, let alone Qin Yuan's little broken car. "

"This guy is really powerful. He was able to bring miniature grenades to our place. It's really puzzling and puzzling."

"You'd better not think about how he brought the grenade here, but think about how to crack it first.

Efit planned to press this miniature grenade under the manhole cover. After Qin Yuan's car came back, he would press it on the manhole cover and blow him up, leaving him completely unrecognizable. "

"Efit, this guy is really cruel and ruthless. Fortunately, the surveillance here can view the surrounding situation 360 degrees without blind spots, otherwise his plan would have succeeded."

"It can only be said that Qin Yuan is lucky. Since we have discovered his conspiracy, we must not let him succeed. Let's find ways to resolve these problems first."

"I guess after he laid this trap, he wouldn't leave as soon as possible.

He will definitely have to wait for a while to see if any of us have discovered it. This will cause some difficulties. If someone encounters this bomb along the way, wouldn't it hurt innocent people? "

"Don't worry, this guy Efit hates Qin Yuan with all his heart.

He has no more ideas now, even to frame other people. He feels that his grenade is the only bargaining chip that has a chance to defeat Qin Yuan. He will not allow anyone to destroy his plan and will find a way to stop it. . "

Chapter 2310 A thrilling theft plan

On the other side, in the hospital.

After Qin Yuan and his team discussed with Shen Man, he also felt that he had to leave this troubled place as soon as possible.

Sophia, at this moment, felt very complicated. She knew that Qin Yuan and his team had successfully obtained the bullet and would leave safely. It would all depend on her conscience whether she would help him next.

Huang Mao looked at Sophia and said reluctantly.

"Sister Sophia, I am going with Qin Yuan this time. I may not come back to their country in a short time."

Sophia smiled and patted Huang Mao's shoulder and said.

"You don't need to explain so much to me. In fact, I have already prepared for this matter.

Since you have decided to do this, don't hesitate any more. It's okay. Go and do what you want to do.

Since you helped Qin Yuan and the others, you have already offended Mr. Norman Karim.

Although he has not yet investigated whether this incident is related to you in a short period of time, your car dealership is clearly there after all.

A little investigation will show that these vehicles are yours.

You should know that Mr. Norman Karim's temper will not let you go. Only by following Qin Yuan to their country with Qin Yuan's protection can you be safe.

Azhe and I have helped you a lot over the years, and we also hope that you can live the life you want.

As long as you feel happy, you don't need to care about me and Azhe for other things. After all, we are Mr. Norman Karim's people, and he will not forget the old friendship."

Jason felt a little guilty. He felt that it was a bit embarrassing for him to leave like this and accept Qin Yuan's help again.

A Kun and A Ming saw his concerns.

"Boss, since Qin Yuan has already said that he will take us away, don't think too much.

He has the ability, and don't forget that your daughter Yaya is still with Fan Tianlei. Even for Yaya, we have to go back with Qin Yuan with a thick face."

Jason was like chicken blood when he heard about his only daughter. He immediately cheered up and his eyes were full of hope.

If he didn't have this daughter, he might not care.

"Yeah, you two are right. I should really cheer up. Only by working hard to survive can there be hope of survival."

Qin Yuan brought Chen Jixiang and Shen Man to the office downstairs.

"Is this the office?"

"It is here, but the safe inside is set up by a computer program, and you can't open it so easily.

Although you swear that you are sure you can open it, I have to doubt your ability. Qin Yuan is sorry, you must take practical actions to prove your ability.

Otherwise, it is hard for me to believe that you can open the safe smoothly. Don't forget that this matter cannot alarm anyone."

After Shen Man said this, Qin Yuan was also worried.

He was thinking that he was able to open the safe with the help of the one-key recovery system. He couldn't tell him this, and he couldn't let others know how to explain it to him?

"Uh..."

"Now that things have come to this, you are not going to tell me that you are not sure at all and you are playing a trick on me?"

"No, no, no, Shen Man is not like that, please don't misunderstand me.

I just wonder how to explain it to you. If you think about it from another angle, I have been able to successfully avoid all the vehicles set up by Mr. Norman Karim to intercept me along the way, and you should know that I am a computer expert."

"What does this mean? It only means that you are lucky and you have not been targeted by Mr. Norman Karim's people.

I tell you, this safe was imported from outside at a high price.

Because there are many secrets of our hospital in it, this is the same as the safe in the dean's office. Don't think of opening it by force, it is simply courting death, not only you but also me."

Chen Jixiang looked at the little nurse who was hesitating and never believed Qin Yuan, and he also felt a little impatient.

"Oh, I say you just trust Brother Qin Yuan.

He hacked into Mr. Norman Karim's main system and your vehicle management office and found the license plate numbers of all the vehicles under Mr. Norman Karim's group.

We were able to successfully avoid these vehicles, which is enough to show Brother Qin Yuan's ability.

If you don't trust others like this, how can we work together?

Could it be that when you were in the embassy and faced the orders of your superiors, you also had so many doubts about us?

We won't let you be exposed because of this matter. We know that you have been lying in ambush here for many years. We will consider our comrades, not the kind of selfish ghost who only cares about ourselves."

Shen Man was half-believing and half-doubting.

"Then let's go in quickly, I'll see if you have any way to open the safe later."

Qin Yuan directly stretched out his hands to stop Shen Man.

"Nurse Shen, you'd better wait outside the door, I'll go in and deal with it alone."

"Ah? What did you say?"

Shen Man heard Qin Yuan's arrangement, he was obviously a little shocked, and even couldn't believe it.

"Please I hope you can understand? I brought you here, and now you want to throw me away?"

"That's not what I meant. We three can't all go into the office. Someone has to keep watch outside."

"Just now in the meeting room, I was already standing guard outside for you. Now you want me to help you keep watch outside. Who am I? Am I your exclusive security guard?"

"Oh, Shen Man, didn't Wang Xin tell us all? You have to cooperate with our work regardless of everything. Sorry to bother you. Just wait here."

Shen Man was obviously dissatisfied. He didn't like being arranged and controlled by others.

He felt that Qin Yuan was not his superior, and now cooperating with his work was completely beyond the scope of his duties. The other party not only didn't believe him but also had so many excuses, which made him very unhappy.

Chen Jixiang was a guy with high emotional intelligence. When he saw that the other party was angry, he immediately stepped forward and clasped his hands together, begging the other party like a poor puppy.

"Oh, Miss Shen, you are so beautiful, you must be a kind-hearted person.

People say that appearance is determined by the heart, and this is true. You are really kind, beautiful and pretty, the best girl I have ever seen. Please help us, please."

Qin Yuan saw Chen Jixiang's operation, he was completely broken and stunned.

I didn't expect this stinky boy to be able to do such a trick.

Qin Yuan couldn't help it, he turned around and covered his mouth, laughing secretly.

Chen Jixiang also knew that Qin Yuan was laughing secretly, and Shen Man also saw through the little tricks between the two of them.

But he was embarrassed to refuse, maybe Qin Yuan really had some secrets that could not be known to others, it was also possible.

In this case, then respect each other.

Anyway, he had to watch outside, maybe someone would come over at any time, like the security guard just now who suddenly came over. Fortunately, he was watching outside, otherwise their plans would be exposed.

Shen Man quickly showed a disgusted expression.

"I told you, a boy, not to act so pretentiously in front of me. It's really disgusting.

Okay, okay, I'll help you two watch outside. If you need anything, tell me in time. There are fewer people here now. The people who will take over the shift will come later."

Chen Jixiang said with a smile.

"Sister Shen Man, thank you so much. We are very grateful to you."

After that, Chen Jixiang prepared to follow Qin Yuan into the office.

Every time Qin Yuan contacted the system secretly, he said that he wanted to go to the bathroom and had to find a place where no one was.

Now he obviously has no chance to go to the bathroom, so he has to think of other ways. The best way is to go into the office alone.

"Chen Jixiang, don't go in with me, just wait outside."

"Ah?"

"Don't react so much, didn't I say that? If you want to work with me, you have to listen to me."

"I'm afraid you can't handle it alone, so why don't you let me stay with you?"

"You little brat have been with me for so long, do you still doubt my ability? There's nothing that can't be handled, just wait here."

Shen Man didn't know why, but she always felt funny when she saw the two of them talking.

"Now you see, it's not just that he doesn't want to take me in.

Now even you are on guard all the time, and you've said so many things for Qin Yuan. Now it seems that you are completely self-indulgent, and your boss doesn't take you seriously."

"So what? Anyway, I'm used to it. Since Brother Qin Yuan is so rich, I can only wait outside."

Qin Yuan nodded with relief.

Shen Man was still a little worried, and he immediately instructed.

"Qin Yuan, time is limited. I don't care what method you use, you have to take this thing out in the shortest time.

You have a few ideas in your mind. If you really can't do it in a shorter time, you should give up if you open the safe. We will go back and think of other ways. After all, we can't expose any of us."

"Shen Man, I will do it, don't worry."

Qin Yuan said while blinking gently. I have to say that he looks quite charming like this.

Afterwards, Qin Yuan pushed the door and walked into the office alone.

What came into view was this silver safe, which looked really full of technology. There was no button outside. It should be unlocked by fingerprint or face.

Qin Yuan had long been accustomed to these things. He didn't think it was so high-tech. At least for his system, it was something that could be easily solved.

Qin Yuan looked back at the door and found that there was no movement. He began to summon the system.

"System system, come out quickly, I have something to find you."

Then the screen lit up in front of him immediately.

"Ding Dong, hello host, what can I do for you?"

"Do you see this safe in front of me? Hurry up and find a way to open it."

"Ding Dong, the system is scanning this item, please wait a moment."

The system is really an amazing thing, it scanned the result very quickly.

"Ding Dong, this safe is an advanced fingerprint unlocking safe. It does not require any password. It is a fingerprint unlocking system that can directly disrupt the safe's operating rules and help the host open the safe. May I ask if the host needs to open it now?"

"Great, I didn't expect you to be so efficient this time.

You can figure out the operating principle of this safe so quickly. In this case, don't wait. Use whatever method you have to open this safe quickly. Remember not to leave any traces."

"Ding Dong, according to the system's analysis, the operation of this safe The principle is to scan the correct fingerprint and pass the correct command to the central operating system of the safe.

Thereby verifying that the command is correct and opening the door of the safe.

The system intends to copy and intercept directly in the last step, so that the safe system mistakenly thinks that it has the correct fingerprint and unlocks it. Even if you want to investigate the entire unlocking process, there is no trace. "

"Oh, you don't have to tell me so complicated. Anyway, I don't understand these high-tech things very well, so I'll leave it to you."

"Ding Dong, trying to unlock the host, please wait."

Chen Jixiang put his ear to the door.

"What are you doing?"

"I want to hear if there is any movement inside."

"Qin Yuan has already told us to wait at the door. It is obvious that he has something he does not want us to know. Do you have to pry into other people's secrets? I think this is a very immoral behavior."

"I am just curious. How can you make it a moral behavior? I am speechless."

"Qin Yuan is really a very strange person. I can't tell the reason, but I always feel that he seems to be sneaky.

Don't you think he is a little strange? He never lets you know these things. Did he do this when he took you out to perform tasks before?"

"Sister Shen Man, as you said just now, we should respect other people's privacy.

Brother Qin Yuan has his own way of completing tasks. We naturally don't have to think too much. We just need to listen to his orders. Anyway, he can take us flying."

Sometimes Chen Jixiang also doubted whether Qin Yuan was a monster. He seemed to have the help of gods. It seemed that everything was very simple for him and could be completed easily.

Shen Man frowned and said.
