Chapter 2311 Someone peeped and got startled

Qin Yuan was communicating with the system in the room. With the help of the system, his plan was going smoothly.

Shen Man outside the door looked at Chen Jixiang with squinted eyes.

"A slick-tongued guy like you is afraid of you to complete such an important task."

Chen Jixiang was obviously a little dissatisfied.

"Shen Man, you are wrong to say that. My slickness has nothing to do with my ability. It does not affect my ability."

"If you don't pay attention to your mouth outside, it will sooner or later cause trouble for Qin Yuan. You must pay attention to it."

"Don't worry, I'm not like this in front of Brother Qin Yuan. He is willing to bring me to this place because he likes my intelligence and agility."

"You are quite confident."

"That can't be helped. If you don't believe in yourself, who can believe in your strength?"

Shen Man didn't say anything else, but made the other party feel what it means to be speechless as a goddess.

In the office, Qin Yuan waited for the result of the system.

"System system, please hurry up, I don't have enough time here."

If we can't finish all these things within the specified time, then we are likely to be discovered by others.

This hospital is arranged by Mr. Norman Karim. To be precise, it is very dangerous here."

"Ding Dong, host, please wait patiently, the system is helping you crack the password..."

Qin Yuan watched the time pass by, and he was naturally very nervous.

Shen Man was also sweating outside.

At this moment, he still had some doubts about Qin Yuan's ability, at least he didn't understand why Qin Yuan had to enter the office alone.

Even if he said that he was a computer expert and could crack the password of the safe through technological means.

However, there was only an office computer used by doctors in the office, and he didn't know the computer password and many details. How could he judge that he could open the safe smoothly?

"Is Qin Yuan reliable?"

"Of course he is reliable, is there any need to ask?"

"He said he is a computer expert, but he didn't ask me to prepare a computer for him, so how can he crack the safe with a password?"

After hearing this question, Chen Jixiang was a little confused, although he didn't understand what means and methods were used to open the safe.

However, he was still willing to choose to trust Qin Yuan unconditionally.

"Oh, Shen Man, you still have some doubts about Brother Qin Yuan's ability. I was the same when I first met him, but gradually I was convinced by his ability.

He is indeed a very magical person. Sometimes it is hard to tell what kind of ability he relies on to accomplish these impossible tasks.

But everyone has their own secrets. Since he regards these as secrets and is unwilling to share them with us.

We just need to believe in him, and I know very well that as long as I am with him, no matter what task I do, I feel very confident."

"From this point of view, you are more like a brainless fan of Qin Yuan."

After hearing this, Chen Jixiang was a little embarrassed and smiled.

"It doesn't matter, you can say whatever you want. In fact, I think maybe I am a little bit like a brainless fan. There is no way, his personality charm is too strong."

Shen Man really felt very speechless, and he didn't want to say anything more.

"You wait at the door by yourself."

"What about you?"

"I'll go patrol the ward next door first."

"What time is it? Are you still concerned about your identity as a nurse?"

You should stay here with me and make sure nothing unexpected happens. You want to patrol the ward, but you can go after our mission is over."

The reason why Shen Man made this decision suddenly was mainly because he saw that a mysterious figure appeared around them just now.

Shen Man analyzed it carefully and found that this person should not be Sophia or Huangmao.

They should listen to Qin Yuan's words now and stay in the conference room all the time. They will not come out easily if they don't want to.

According to his analysis, the mysterious figure outside just now should be Hassan if nothing unexpected happens.

"I think it's really useless for you to stare with your big eyes. A mysterious person appeared around just now. Didn't you see it?"

Chen Jixiang immediately became alert after hearing this.

"Who? I didn't see him."

"You were so busy bragging about Qin Yuan's ability that you forgot why you were here."

After hearing this, Chen Jixiang felt a little embarrassed and realized that he had indeed failed in his duty.

"Shen Man, I'm so sorry. Fortunately, you can see the special situation around you. If that's the case, then you go first. There shouldn't be any danger."

"After all, this is a hospital and Mr. Norman Karim's territory. Even if there is danger, he should have sent someone here. Others dare not come here to make trouble casually."

"If you say so, I'm even more nervous. Maybe they have already noticed that we left the embassy and came to the hospital to catch us."

"Didn't you say that Qin Yuan's whereabouts along the way were very secretive? He perfectly avoided the vehicle checkpoints set by Mr. Norman Karim."

"That's right, we did avoid it perfectly."

But what if the other party still noticed it? This situation cannot be ruled out. Otherwise, I will go with you, or you stay here and watch, and I will go to see if there is any mysterious person."

"I think it's better to forget it. You stay here by yourself. You are not familiar with your hospital. I have worked here for several years and know the situation around here very well."

Chen Jixiang nodded after hearing this.

"What you said makes sense. If that's the case, I won't argue with you. But don't try to be brave. If you are really sent by Mr. Norman Karim, you may have been exposed."

At that time, don't worry about the two of us. Leave the hospital first and ensure your own safety."

"If I leave the hospital first, you two won't be able to escape."

"There is no way. First of all, you are a girl, we must protect you first. Secondly, the two of us are more capable than you alone. This is called weighing the pros and cons."

Shen Man heard Chen Jixiang say this, and for some reason, he felt a little touched.

"You usually talk nonsense, but you act like a real man now."

"What do you mean like? I am good. I do have some sense of humor that many people don't expect, but this does not affect me in the process of executing the mission. I am a very serious person who can weigh the pros and cons."

"You are the only one who makes this decision, so it doesn't count. Qin Yuan is the leader of your task force. Will he agree to let me go first? Will you cover me?"

"I think you think too much. He will never refuse, and he will make the same decision as me."

Shen Man laughed when he heard Chen Jixiang say this.

"Well, in that case, I thank you for your friendship."

After Shen Man finished speaking, he left here. He just wanted to tease this kid. He saw that the person outside just now was Hassan.

He knew that although Hassan had become a disabled person, he had some resentment towards Qin Yuan and others.

At the same time, he should also want to care about Azhe's situation.

Shen Man has observed the two of them for a while and found that there are indeed many things wrong. Although he did not figure out what kind of special relationship the two people have, he just felt that the two people's conditions are very unusual.

Then, Shen Man came to Hassan's room alone and saw that he was not lying on the bed, but sitting on a chair.

"Mr. Hassan, you should rest here and should not walk around casually."

"You saw me."

"I am a nurse in this hospital. I am on duty today. I must be more careful than usual."

I saw you running around casually, so I hurried over to remind you that it is not particularly safe outside. You are safest just lying on the bed.

And your body has not fully recovered one leg. It is gone, so don't walk around."

"I want to see how Azhe is doing? I heard that he was injured. I wanted to go to his ward at the nearest hospital. I didn't expect to see you at the door. I know who the person next to you is. It's Chen Jixiang."

When Shen Man heard the other party say this, he understood the other party's intention and didn't plan to continue to hide it.

"Yes, it is indeed the Chen Jixiang you know."

"Why is he here?"

"They want to come here to get some important things, and I am responsible for cooperating with them."

"You should know that the owner of this hospital is Mr. Norman Karim. Do you dare to do this?"

"So what? People die for money and birds die for food. They gave me a lot of benefits and money. Even for these benefits, I believe I should help them."

"Your identity should not be simple."

Shen Man heard what the other party said. He paused for a moment, but said nothing, just smiled simply.

"You don't need to be so nervous. I'm not very interested in the relationship between you and Qin Yuan."

I know Qin Yuan has started to cooperate with Azhe now. The relationship between Azhe and I is not simple. I believe you should be able to see that I will not expose anything that is good for him.

Just pretend that I didn't see anything today. No matter what happened, I won't tell anyone. If you can save Azhe and Sofia, I can cooperate with you in any way they want."

"I didn't expect you to be so good to Azhe. To put it another way, your leg injury is also related to Qin Yuan. Don't you hate him?"

"It is indeed related to the normal time, but the culprit is someone else, so I can't say I hate him. I can only say that I didn't think about my plan well, which led to the current consequences."

"Hassan, you are still quite sober. In that case, I believe what you said. Sophia is in the hospital, and Azhe is also in this hospital. He is in the intensive care unit. Do you want to go see him? If you want to see him, maybe I can help you."

"Intensive care unit? Then isn't his condition very serious?"

Shen Man could see that Hassan was very anxious. He was very concerned about Azhe's condition. His eyes revealed tension and concern.

People's eyes can't lie. This is not fake.

"You don't have to be so nervous. He is indeed in the intensive care unit, but because it is safer there, all kinds of instruments and equipment are very complete. In fact, his condition is not particularly serious. He will wake up soon."

After Shen Man explained, Hassan still didn't believe it.

"Are you really telling me the truth? You didn't lie to me, did you?"

"Why would I lie to you? There's no point in lying to you about this kind of thing.

Sophia is also in this hospital. I've told him all the things just now, and he understands.

In that case, you don't have to worry too much. You just stay here and take good care of yourself. After Qin Yuan and the others leave, I'll take you to the Zhengzhou ICU to see Azhe."

Hassan smiled and nodded after hearing this.

"Thank you so much. If you can help me give Azhe some advice, I'll die without regrets."

Through the conversation with Hassan just now, Shen Man was able to basically judge that this person probably had no ill intentions. He should really care about Azhe, but he just happened to see them.

"Well, if that's the case, then you can have a good rest in the room. There is a button next to it, which is for calling us medical staff. If you have any questions, you can press that button and I will receive the message directly.

I see that your legs are not very convenient to move, so don't walk around. If you have any questions, just call me through this button."

"Thank you so much, Nurse Shen."

"It's okay, this is what I should do."

Shen Man arranged it, and Hassan finally breathed a sigh of relief. He thought this guy came here to spy on some secrets and planned to threaten them, but he didn't expect that he was just simply concerned about Azhe.

Shen Man returned to the door of the office and saw that Chen Jixiang was still guarding here, and Qin Yuan still didn't come out.

"How is it? Is everything alright?"

"Nothing is alright, just don't worry, it's just a patient who wants to go out but can't find the way."

"Oh, okay, as long as there is no special situation, I'm afraid you can't handle it alone."

"Since I dare to promise you this, I can do it, nothing is impossible."

Chapter 2060 System Help, Get Back Important Evidence

The system is operating to help Qin Yuan open the safe.

Qin Yuan has been waiting here for a long time, and he must still be a little panicked in his heart. After all, the hospital is Mr. Norman Karim's territory.

The longer you wait in the hospital, the easier it is to be discovered by Mr. Norman Karim.

Chen Jixiang looked at his watch at the door.

"Brother Qin Yuan has been in for almost half an hour. Should we knock on the door to remind him?"

"I don't care. Qin Yuan is your superior. You should know his temper very well. If you ask me now, I can't make a decision."

Chen Jixiang thought about it and let it go.

He knew that Qin Yuan's temper was still very impulsive, and he had just said that if there was no accident, he should not be disturbed. If he knocked on the door to remind him, he would probably be criticized by Qin Yuan.

"Then let's wait a little longer. There are still eight minutes to half an hour. If he doesn't come out in half an hour, even if he scolds me, I will knock on the door to ask what's going on."

"That's fine. At least no one has found any problems here, so it's not dangerous."

Qin Yuan knew very well that time was wasting bit by bit, and he couldn't wait any longer.

"System, system, when can it be cracked? Is the password of a safe so difficult to crack? Logically speaking, the fingerprints you collected last time to open the safe should not be too far away from today, so it shouldn't be so troublesome."

"Ding Dong, please wait patiently, the system is being cracked..."

"I have been waiting for the result very patiently. Please give me a specific time. When can it be opened?"

"Ding Dong, please wait for about 10 minutes."

"Well, you said 10 minutes. If you haven't finished it in 10 minutes, see how I deal with you!"

You have been with me for such a long time. Although you have helped me a lot, I find that your efficiency is getting lower and lower. You also said that you are a one-key recycling system and that you have been upgrading all the time, but you are always unreliable at critical moments."

Chen Jixiang was also very curious about what Qin Yuan said in the room. He put his ear against the door.

"Can you stop being so gossipy?"

"Shen Man, don't talk here. I have explained it just now. I am concerned about Brother Qin Yuan's performance."

"Forget it, I don't see how much you care about him, I can only see that you are very curious about what he is doing in the house.

In that case, just rush in and take a look. Anyway, you are his most capable subordinate, he won't blame you, and I believe Qin Yuan is not such a petty person."

Shen Man said this deliberately, he hoped that Chen Jixiang could go into the house to see what was going on.

After all, he himself was also very curious, the key point was that he really couldn't figure out why he had to operate these things behind people's backs.

What secrets does Qin Yuan have? And it seems to be a secret that cannot be told, which makes others think more.

"Let's not worry about it, this is his exclusive secret."

"Is there any god around him to help him?"

Chen Jixiang has been counting the time. Seeing that half an hour is about to come, he really can't help it. Without discussing with the nurse next to him, he knocked on the door gently.

"Brother Qin Yuan? Are you still in there? When will it be over?"

Qin Yuan heard Chen Jixiang knocking on the door. He knew that the other party must have been waiting very anxiously. This was understandable. Anyone waiting outside without being able to see the situation inside would be very worried.

"What's the matter?"

"Oh, so you are still in there. I thought you were not in there."

"You two are outside to watch the door. If I am not here, where else can I go? I think you two guys are really funny."

"Do you really not need help?"

Shen Man really couldn't help it, so she asked Qin Yuan like this.

"I really don't need help, so don't mess around here. I can handle it by myself. If there's any problem, I'll call you from inside the room.

Didn't I say that when I came in? Don't mess around. I'll be done soon. Wait about 7 or 8 minutes. Even cracking the system will take time.

I can't just say I can open the safe. If I had that ability, all the safe manufacturers in the world would probably ban me."

Shen Man couldn't help laughing when he heard Qin Yuan say that.

"I didn't expect you to be so humorous. Hurry up. Sophia and the others are waiting in the conference room inside. They should be very anxious."

Qin Yuan finally got a little impatient. He frowned and said, trying to suppress the anger in his heart.

"I know. You don't need to urge me. I'm also very anxious now. I'll get the result in a while and I'll go out directly. Don't worry about me."

When Qin Yuan finished speaking, the system suddenly reminded him that the test had been completed.

"Ding Dong, host, the password of the safe has been successfully detected for you. Does the host need to open the safe now?"

"Has the detection been completed now?"

"Ding Dong, yes, does the host need to open the safe now?"

"Of course it will be opened now. Do you still need to ask? Hurry up, I can't wait any longer."

As the system heard the command, it opened the safe in front of it at once. Qin Yuan saw a small black box in the safe. If nothing unexpected happened, this should be the bullet shot from his gun.

"After waiting for so long, the safe was finally opened."

Qin Yuan was about to walk over, but suddenly remembered that the safe was operated by password, so he had to wear a pair of gloves to avoid fingerprints.

Now he was here to crack these evidences. If fingerprints were stained, it would be troublesome.

Thinking of this, Qin Yuan immediately walked to the side and took out a pair of gloves covered with gasoline from his toolbox.

He put it on his hand with some disdain, and didn't care so much. Normal maintenance workers' gloves are like this. Qin Yuan thought that he had no right to dislike the dirty gloves.

After putting on the gloves, Qin Yuan walked to the safe. He didn't touch other parts of the safe. He just took out the black box from it gently and carefully.

When he opened it, it was indeed his bullet. Qin Yuan was extremely excited at this moment. Since he had got the bullet, he had to leave here as soon as possible. It was not suitable to stay here for a long time.

Chen Jixiang had been waiting anxiously outside. He was sweating profusely now.

"Why hasn't Brother Qin Yuan come out yet? The first time I came out alone with him to complete the task was so thrilling. It really made me nervous."

Shen Man glanced at Chen Jixiang and said with a little disdain.

"I say you are such a short-tempered fellow. It's really bad enough that Qin Yuan brought you out.

Since he has already said that one person can definitely handle it in there, you don't have to worry so much. At least no one has found anything special about you, and no one doubts your identity. Let's wait a little longer."

"Yeah, I think so too."

Qin Yuan successfully got the bullet, thinking that for the sake of safety, he couldn't take it away with the black box.

Normally, this couldn't be done.

Qin Yuan had an idea, and he took out a prepared bullet from his pocket.

This bullet was brand new, unused, and there was no trace of it. He got it from Efit secretly and it finally came in handy.

Qin Yuan placed the bullet in the black box, took out his own bullet and put it in his pocket.

For safety reasons, Qin Yuan also zipped up his pocket.

After everything was ready, Qin Yuan said to the system.

"System, system, everything is ready, please relock the safe quickly, don't reveal any traces, we are ready here."

"Ding Dong, please close the door of the safe, the system will delete the opening record of the safe for you."

"That's good."

"Clang", as the door of the safe closed, Qin Yuan's hanging heart finally fell, and finally got the evidence, no one could use this bullet to make a fuss about their special mission.

This can also be regarded as destroying the evidence, so that others don't have to catch the handle, and the most important thing is not to implicate Thor because of this matter.

After all, they came here illegally. If they catch substantial evidence of shooting, their international reputation will be affected. In terms of business, Thor's reputation will also be affected.

"Ding Dong, host, please rest assured that the system has deleted all the evidence. There will be no loopholes."

"If you say so, then I am completely relieved."

Then, Qin Yuan took his toolbox and looked around the room. After finding that there were indeed no loopholes, he opened the door with the toolbox.

Shen Man and Chen Jixiang finally saw Qin Yuan coming out. They were finally relieved and relieved.

"What are you thinking about?"

"Oh my god, Brother Qin Yuan, you finally came out. We waited at the door for a long time and didn't see any trace of you. We were really scared. But fortunately, you have gotten rid of everything and came out smoothly. Then we have nothing to worry about."

"How do you know I got the evidence?"

"I know your character too well. You are very stubborn and unyielding.

If you really didn't get what you wanted, you wouldn't come out so easily.

Just like I knocked on the door just now, you wouldn't come out if you didn't get it. Even if someone found our traces, you had to have a result."

"I didn't expect you to know me well. Since you know me so well, why did you knock on the door just now to ask about the situation inside? Are you not confident in my ability?"

"Of course not, I just care."

Chen Jixiang was beside him, embarrassed, pouting. He knew that Qin Yuan would definitely criticize him for this matter when he came out, but he could accept it. It was nothing big, and it was within his expectations.

At this time, Shen Man looked at the clock on the wall. He knew that after a while, the people who came to work in the second half of the night would come to hand over to him.

"Okay, okay, you two stop arguing here. Now that we have everything, let's go first. By the way, Qin Yuan, there is no evidence left in the room, right?"

"Shen Man, I didn't expect you, a young nurse, to be so cautious. Don't worry, there is no evidence in the room that can be found.

It has been cleaned up. Don't worry, there will be no flaws, and it will not affect you."

"You must make sure that the bullet you got is yours, don't make a mistake."

"Do you think I'm a fool? If I can't even do this, how can I have the face to talk to you here."

"Let's go back to the meeting room first, Sophia and the others are still waiting.

Discuss how they will get out. You two can drive out of the hospital openly, but they can't sit and go out with your car. I have to think of a way to send them out secretly."

Qin Yuan knew that it was indeed a headache to send them all out.

"There is a security guard standing at the door now. He has been observing the situation inside. He knows that you called the maintenance workers and that Sophia and the others are here.

If Jason and Huangmao leave with us, this matter will become very difficult. Let's go back to the conference room and discuss it."

While Shen Man took them back to the conference room, he was also thinking about how to send them all out, and it was done without anyone noticing.

At this time, Shen Man saw the trash can next to the corridor. He thought of a very good way, but he had to go back and discuss it with these people. They might not accept this method.

In a blink of an eye, they returned to the laboratory.

Sophia saw Qin Yuan coming back and asked with concern.

"Did your plan succeed? We have been waiting for so long, and we are also very anxious."

"With me here, you can rest assured as soon as possible. There is nothing that cannot be accomplished. I have successfully obtained it. We can retreat now."

Jason smiled when he heard Qin Yuan's words.

"I know you'll be fine. I'll just be at your side, so just rest assured."

"Although my mission is complete, you still don't know how to leave here. You can't leave the hospital with my car. The security guards at the door are watching you all the time."

A Kun and A Ming also nodded.

"Yes, Qin Yuan, you are right. We also think so in our hearts. We can't leave the hospital with you, so what should we do?"

One-click Recovery Since I was a Special Soldier

Chapter 2312: Using medical waste recycling to send people away

Shen Man was always alert. He was afraid that something unexpected would happen around him. After all, Qin Yuan had successfully retrieved the evidence and no one had discovered it.

At this time, the most important thing they should do was to leave here quickly. This was more important than anything else.

"Qin Yuan, since everything has been retrieved, you should find a way to leave quickly.

The security guard outside should have been watching the situation in our house all the time. He must be wondering why you haven't left for so long while repairing an air conditioner."

Qin Yuan nodded.

Chen Jixiang said half-jokingly.

"Shen Man, I really don't know what you think in your heart. You don't think that the security guard at the door has been staring at you all the time.

Is it because you look good?

What a joke, you are guilty of a guilty conscience. It's a technical job for a maintenance worker to repair an air conditioner."

"I say, why do you always contradict me? Do you have a rebuttal personality?"

Chen Jixiang and Shen Man are like natural enemies. They will attack each other over time.

Qin Yuan looked at the two of them and felt very speechless. He sighed and said.

"Shen Man, we have finished here. I know you are doing this for our own good. You hope that we can leave here quickly. Let's study the route back first."

"Qin Yuan, I hope you can understand that I don't have a problem with my attitude and want to drive you away.

This is not a club. You can drink tea and chat here. We are on a mission.

Anything wrong may arouse Mr. Norman Karim's suspicion and make all our plans fail.

You should find a way to leave quickly. You can't go back to the embassy directly this time. Don't you have to send them to the dock first?"

Hearing the other party's urging, Qin Yuan must have been a little unhappy at first. He was very confident in the one-key recovery system.

This system can protect itself well and perfectly avoid Mr. Norman Karim's surveillance. This time, it was also through the system that he was able to successfully open the safe and get the evidence.

Chen Jixiang looked at Jason and seemed to be quite nervous.

"Jason, don't worry. Since Brother Qin Yuan has already promised you, we will definitely find a way to send you to the dock."

"But Mr. Norman Karim seems to have sent a lot of people to guard at various intersections.

You are lucky to be able to reach the hospital smoothly without being discovered by him. If you send us to the dock again, it will be very easy to expose your identity.

This will be a very difficult thing for you. I also hope that you can think of a solution. At least don't let it implicate you.

If Because if I implicate Qin Yuan again, I will feel really bad.

As a friend, I not only can't help you, but also trouble you again and again. I feel really guilty. "

"Jason, I have told you many times.

Don't feel guilty and sorry for this matter. If it weren't for you, we wouldn't be able to come here smoothly to complete the task and successfully bring back Professor Fang De's two students. This is all thanks to your help. "

A Kun and A Ming, the two of them looked at each other, thought for a long time and said to Qin Yuan.

"Brother Qin Yuan, as long as we can send our boss to the dock smoothly and leave this place, we can use ourselves to attract Mr. Norman Karim's attention and make him think that the boss is with us, and you can find a gap to leave. "

"You two want to use the strategy of luring the tiger away from the mountain?"

"This is really a bad idea. "

After Qin Yuan said this, A Kun and A Ming were a little confused.

The two of them originally thought that they could leave smoothly by proposing such a solution with good intentions, but they didn't expect Qin Yuan to completely deny their ideas.

"If you two stay here and let your boss go back alone, all the pressure will be placed on him.

You two have been with him for so many years, and he has treated you two as his own brothers.

How could he abandon you here because of these things?

I can't do that either. If you two fall into the hands of Mr. Norman Karim, it will really be a dead end.

I know it's a dead end, but I still push you on this road, which is my fault.

I am the most powerful special forces member in our place. Anything entrusted to me will never go wrong.

It's not impossible to successfully send you to the dock.

Okay, let's not talk so much for now. I have thought of a good way. You will follow the nurse and sneak out from the employee passage later."

Shen Man heard Qin Yuan's words and shook his head.

"Qin Yuan, I will only promise you this one thing. You really can push all the problems onto me and ask me to help you."

"Shen Man, I don't want to say anything about taking money to help others get rid of disasters.

I just want to say that you should be able to help us. Didn't you just say that you have a good idea? Why not tell me."

Shen Man knew very well that he had already promised Wang Xin that this mission must be completed. He had no way to escape from it, both in public and in private.

And when he saw the trash can just now, he thought of a very good idea.

"Qin Yuan, I have a very good idea. How about telling you about it?"

"What is the idea? Just tell me when you think of it.

Shen Man, after all, you are a staff member of this hospital. You know better than us how to leave here, and it will not be discovered by others. You know this place better than us."

"Although this method is very good, they have to suffer a little."

"What kind of suffering? As long as they can leave here, it doesn't matter. I don't care so much."

Shen Man shook his head helplessly.

"Qin Yuan, don't be so anxious to answer for others.

It's not you who have to suffer. I have to ask Jason and his two good brothers first whether they can accept my method. If they can't accept it, I'm afraid I don't have any better ideas."

Sophia asked curiously.

"What is the solution?"

"As long as we can leave here, we will not hesitate to pay a higher price, let alone suffer a little."

"When I returned to the meeting room just now, I saw the trash can next to it, and suddenly I remembered that it was almost midnight.

At this time every day, the people at the garbage station will come to collect our medical waste.

You may not know that medical waste must be handled specially. If you can hide in the medical waste barrel and let the people at the garbage station take it out without anyone noticing, no one will suspect it.

These garbage collectors come on time every day, and even the security guards are a little annoyed.

Medical waste is very dirty and may contain some viruses. No one will come forward to check it so carefully. This method is a bit dirty, but it is the best way for you to leave.

At the same time, it will not be discovered by Mr. Norman Karim. Using this method, you can leave here without anyone noticing. I believe you should not refuse it."

After Shen Man finished talking about this idea, Qin Yuan agreed.

"This is a very good method. The more unexpected it is, the greater the chance of our success."

"Although this method is good, I just said that medical waste is very dirty. There may be things you can't imagine, such as some body tissues, or medical equipment..."

Shen Man said it in a rather tactful way.

Ordinary people may not be able to imagine what medical waste is. They only think of it as used medical equipment. They didn't imagine that there would be more unacceptable things, which is even more irritating than kitchen waste.

Jason heard that both of them agreed with this method, and he himself would not refuse it. As long as he insisted on the belief of going back to see his daughter, he could accept any difficulties.

"Ms. Shen Man, thank you for coming up with such a good idea for us. I have no objection. No matter what is in the medical waste, just close your eyes and hold your breath, be patient, and get out of this door.

We can accept everything. Don't forget that I was on the edge of a knife before. I haven't touched many things, but I am not such a timid person.

Besides, I don't have so many thoughts in my heart. My heart is clean, so I naturally don't care about these.

This method is really very good, but I still have to trouble you to help us arrange this hospital. You are the most familiar with it. Please take us there.

Hide us in the medical waste bin and wait for the car to arrive. We will leave Qin Yuan and Chen Jixiang, or we can drive away from the main entrance of the hospital openly. We will choose a place to meet."

Jason knew that the little nurse was doing her best to help them.

Although he didn't understand why Qin Yuan was able to persuade the little nurse to help, he believed that the other party must be considering them, and he certainly couldn't be picky about the way to escape at this time.

"Jason, you have to think it through. This thing is not something that ordinary people can endure. If you can't hold on halfway, make abnormal sounds, or vomit, you may be discovered by the driver."

A Kun and A Ming nodded firmly.

"As long as we can avoid Mr. Norman Karim, we have nothing to worry about.

I don't believe there is anyone more terrible than him in the world. Compared to saving your own life, it is not impossible to endure something that you can't accept normally."

After hearing this, Sophia began to admire these people.

Because he knew very well what was in the medical waste.

"It's good that you can hold on, but don't let down Shen Man and others' kindness.

He arranged for you to escape, which is not easy. If you are not careful, you will offend Mr. Norman Karim. You must cherish this opportunity."

"Of course, Miss Sophia, don't worry, as long as we can successfully leave here, you will be safe."

"By the way, Qin Yuan, when you were taking something in the office just now, I saw Hassan. He came out of the ward and met me and Chen Jixiang guarding the door."

"What? You met Hassan? Did this guy say anything? If he found your trace, will he tell Mr. Norman Karim?"

Sophia came out to explain before Shen Man answered Qin Yuan's question.

"Don't worry, Qin Yuan Hassan will not tell anyone about these things. He hopes that Azhe and I are safe more than anyone else."

"Okay, Sophia, since you have said so, I don't have to worry anymore. You have known each other for such a long time, you must know each other very well, and you can be regarded as family.

Then I won't care about you. I will take them away now.

Send them to the dock first. They may experience a lot along the way. Only by sending them away can we ensure the safety of everyone. No matter what happens, everyone can blame it on this guy Efit.

Anyway, he has betrayed Mr. Norman Karim and left the group. If there is any dirty water, you can throw it on him, but there will be no evidence."

"Yeah, Qin Yuan, you can take them away boldly. I don't care.

Norman Karim Mr. Mu has no one else around him who is trustworthy. He can't leave me and Azhe, but you have to fulfill your promise. Don't forget to transfer the money to me. "

"I'm not the kind of person who doesn't keep his word. Azhe is injured now. I have successfully retrieved the bullet. I will transfer the money to you now. You can receive it on behalf of Azhe."

"You have agreed with Azhe. You are willing to transfer the money to me. Aren't you afraid that I will embezzle all the money?"

"Sophia, I can doubt anything, but I won't doubt the relationship between you and Azhe. How could you do such a thing?"

"Azhe should have given you his account. You can just transfer it to him. He will be able to see it as soon as he wakes up."

Qin Yuan was about to transfer the money to Azhe's account when he suddenly realized that the recent situation was complicated.

Mr. Norman Karim also wanted to investigate them. If he found that Azhe had a large amount of money in his account, he might really suspect them.

It is better to transfer the money to Hassan, so that this money has nothing to do with Azhe and Sophia, and Mr. Norman Karim will have no way to investigate.

The relationship between Hassan and Azhe is a bit mysterious.

However, Qin Yuan can guarantee that their relationship is also an unbreakable one, and it will not change because of a sum of money. At least Qin Yuan can trust Hassan, and this is also a way to keep it secret.

"Sophia, I have a bold idea. After I leave, I will directly transfer the money to Hassan and transfer it to his account. Let him receive it on behalf of Azhe, so that Mr. Norman Karim will not find out about you."

"This is a good idea."

Chapter 2313: Hiding in a plastic bag, disguised as medical waste

Qin Yuan seriously thought about the way of leaving proposed by Shen Man. Perhaps there is no better way than this.

"Shen Man, you are really a genius.

No wonder Wang Xin can value you so much and let you come out to perform these tasks alone. Your ability is beyond my expectations.

This is a very good way. As long as they can endure the disgusting things like medical waste, it will definitely not be a problem to escape smoothly."

"Qin Yuan, let's do it now. Where is the medical waste station? Can we get off the bus halfway?"

"Normally, every night, there will be special staff to come to our hospital to collect some medical waste of the day. Because of the special nature of medical waste, the medical waste of the day must be processed on the same day."

Shen Man raised her hand and looked at the time while speaking.

"They come here at this time every day, about half an hour later, the medical waste station is in the suburbs of the east city."

"If we follow this garbage truck to the suburbs of the east city, it will be completely opposite to the direction of the dock."

Qin Yuan also nodded.

"You can choose to get off the bus halfway. You don't have to follow them all the way to the garbage station. You have time to leave. It's not just our hospital, there are other hospitals as well.

The nearby hospitals are all handled by this garbage disposal company.

You can get off the bus halfway, or get off when he goes to another hospital. There is always a chance to escape from the bus. Don't follow them to the garbage station.

These medical wastes will be sent to the compression box once they arrive at the garbage station.

If you are thrown into the garbage compression box, you will die.

So, you must get off the bus halfway!

Qin Yuan, don't you know the local situation very well? See where it is better to meet them, and let them get off there."

Qin Yuan closed his eyes, and there was an accurate map in his mind. This is also the ability given to him by the system.

"Besides your central hospital, there is also a Friendship Hospital around here."

"Yes, there is a Friendship Hospital on the next street. It is relatively small and must have less medical waste.

In the past, he would go to Friendship Hospital first, then come to our place, and then go directly to other places along the main road."

"Friendship Hospital is the best place to get off.

But according to the usual habits of this garbage collector, he must go to Friendship Hospital first.

How about this, Shen Man, can you find a way to contact him and tell him that you are in a hurry to deal with these medical wastes today, and let him come to our place first, and then go to Friendship Hospital."

Shen Man heard Qin Yuan's words, and he really felt very speechless.

"This work is usually done by the logistics support department. How can I, a nurse on duty, contact them? I don't even have the contact information of this rubbish master."

"Anyway, you have been in the hospital for such a long time, you must have a lot of acquaintances.

Oh, just help me think of a way. Friendship Hospital is the best place to get off.

I can drive directly to the side. There is a corner there. There should be no one watching. It is best to meet them there."

Chen Jixiang saw that Qin Yuan had been asking for a long time, but the other party was unmoved.

"Shen Man, beautiful lady, please help us think of a solution. If we leave here quickly, you will be relieved. Just think of sending all of us away."

"I have never accepted these sweet words. No matter what you say, I can't do it. I don't have any better way.

But there is one thing you said that I agree with.

Send you away quickly, and I can be completely quiet.

However, I will go to the duty room of the logistics department first to see if I can find the phone number of the garbage recycling master to contact him first and ask him to come to our hospital first.

But, let me be frank.

I can only try to help you. If you can't find his contact information, don't think about getting off around Friendship Hospital. You can get off at other places along the way. Qin Yuan can drive a little further to meet you."

When Chen Jixiang saw that the other party agreed, he immediately clasped his hands together to express his gratitude.

"Shen Man, thank you so much. I knew you would not let us down. You will definitely find ways to help us with such a big thing. In that case, go quickly. We will wait for you in the conference room."

"You can't stay in the conference room any longer.

The cleaning lady who cleans up in the middle of the night may come out. When she sees you all here, she will not only feel confused, but may also report to her superiors.

You should go out from the back door first and return to the pavilion in the yard.

At this time, it is already dark outside, and no one will go to the pavilion. It is highly unlikely that anyone will find you. You should be careful when you talk and don't let others know. That's all."

Qin Yuan felt very confused.

"In the middle of the night, there is still a cleaning lady coming out to clean up. Don't be kidding, but am I a three-year-old child?"

"This hospital is invested by Mr. Norman Karim. Of course, his requirements for this place are unusual.

He said that the hospital is a gathering place for viruses and must be more careful than anywhere else. He asked the cleaning lady to work in two shifts. One person must come out to clean and continue disinfection in the middle of the night to ensure everyone's safety and the safety of the entire hospital. tidy.

This was the request of Mr. Norman Karim, the shareholder at that time, and no one could refute it.

What's the point of me deceiving you at this time? Besides, the security guard just now noticed something moving in the conference room.

It's not very convenient, so I'll continue to let you stay here.

You go out through the back door and go into the pavilion. When I find the garbage truck master's phone number, I will arrange for them to wait in the garbage disposal room. "

Seeing that what he said made sense, Qin Yuan did not continue the argument and took Chen Jixiang and Jason to the pavilion at the back.

"Is Shen Man reliable?"

Huang Mao still expressed some doubts about the little nurse. He didn't know why the other party spared no effort to help them.

"Don't trust those who employ, and those who doubt, don't trust. I have told you this truth many times.

I think he is also busy for us, all for the sake of Qin Yuan. He will do his best to help us, and it is good for him to send you away quickly now. "

Qin Yuan looked at Huang Mao and smiled.

"You should stop having so many doubts. You should learn to think like me. After all, you will have to follow me in the future."

"I abandoned everything here and returned to your country with you, but you didn't report it to your superiors. Will they accept me?

If they don't accept it, I really don't know what to do in a foreign country.

At that time, I'm afraid it will be difficult to come back. I'm just a little gangster. I have to work so hard to ask you to help me. I don't understand. "

"I have a particularly good comrade. He was once a gangster, but Thor discovered his strengths and brought him into our special forces.

After a period of training, he is now a person who can stand alone. I believe he will not reject you. "

When Chen Jixiang heard Qin Yuan's words, he immediately knew who the other person was talking about.

"Brother Qin Yuan, are you talking about Wang Yanbing?"

"I didn't expect that you have been in the army for a relatively short time, but you are quite familiar with the situation here.

Yes, I'm talking about him. He used to be just a little gangster, but Thor has trained him into a particularly outstanding member of the special forces. "

When Huang Mao heard what Qin Yuan said, he still had some hesitation. At least he had no intention of joining the special forces of other countries.

"Brother Qin Yuan, I agreed to go with you. On the one hand, I want to ensure my own safety, and on the other hand, I want to leave here.

Because I know your country is much stronger than ours.

However, I have no intention of becoming a member of the special forces. Don't get me wrong.

When you get there, don't take me to introduce Thor. I don't want to join your team. I just want to live my own life and don't want to get involved in this anymore. "

"Don't worry, this is all your choice.

I will never force you to do these things. I will not force you to join our team, nor will I force you to become a member of the special forces. I understand this very well. . "

Huang Mao finally felt relieved when he heard what Qin Yuan said.

Unexpectedly, the mission went so smoothly this time. After a while, Shen Man quickly walked out of the office, came to the pavilion, and found them.

"You moved quite quickly this time, which we are a little bit unaccustomed to."

"I found the driver's phone number, and I told him just now. He said he would be able to reach our hospital in about 10 minutes.

Fortunately, I called in time and he did not go directly to the nearby Friendship Hospital.

Otherwise, our plan will be ruined. Let's not say so much. I will take Jason and Huang Mao to the garbage room. All the medical garbage is in that room. The driver will take it directly when he arrives. Walk. "

"Normally it might be better if you hide one person, but now you have to take four people there. Is it really easy to hide?"

"No one will look through medical waste because there are many disabled and broken arms in it."

"ah?"

When Jason and Huang Mao heard this, they were very surprised and dumbfounded.

"Is there any surprise? I told you when we were in the room just now that medical waste is completely different from ordinary waste. You should know something about it.

I have brought a disposable disinfectant suit and disinfectant mask for each of you.

You all should wear some protection and don't make any mistakes. There may be viruses in the medical waste. Don't escape. If you don't escape, it will be bad if you contract some virus. "

This set of operations by Shen Man made Qin Yuan sigh. He is really a very smart girl, and he arranges every step carefully.

"Please change into this disposable disinfection suit quickly. Be patient. The Friendship Hospital next door is very close. Qin Yuan, you drive the car and take Chen Jixiang away now. Go to the Friendship Hospital next door and wait."

"Yes, this arrangement is indeed very meticulous. Thank you."

"You can leave here early and not cause me trouble. That's the real thank you."

Qin Yuan looked back at Chen Jixiang and said.

"Everything has been taken. You have also taken our toolboxes, right? Nothing is left behind?"

"Don't worry, Brother Qin Yuan has all these things in my hands. Nothing will be left out. Let's go to the door and drive away."

Qin Yuan walked to Jason and said to him.

"Jason, I'll leave the three of them to you. You must take them and make sure they don't make any noise on the road. We'll meet near the Friendship Hospital in a while. Take off your protective clothing after you get out of the garbage truck."

"Don't worry, Qin Yuan, even if you don't tell me about these things, I can think that you must ensure your own safety. If there are any special emergencies on the road, don't worry about us."

"No special incidents will happen. As long as we work together, there will always be a way to solve the problem."

"You two men, don't be so clingy here, hurry up and follow me."

Then, Shen Man took Jason and the other four to the garbage room of the hospital.

The four of them had already changed into the disinfection suits and disinfection masks prepared in advance.

When they came to the garbage room, even if they were mentally prepared, they still couldn't accept the scene in front of them. There were all kinds of strange smells as soon as they came in.

"What is this smell? Even with a mask, it can't be covered. It smells like blood."

"The garbage from doctors' surgeries is usually in this room. There must be some blood. Just bear with it. Only when this kind of garbage is taken out will no one check it. Only then can your safety be guaranteed. Is life more important or cleanliness more important?"

"If that's the case, life is more important."

"Do you see the garbage bag next to you? Each of you will get into the garbage bag."

"Oh my God, such a big black garbage bag, let alone one person, it's easy to fit two people."

"If we get into the garbage bag, will the driver have the strength to lift us up?"

"Do you think he will put all the garbage into the car with his own hands?"

His car has a conveyor belt that can automatically convey the garbage to the cargo box at the back. Just listen to me and wait here honestly.

By the way, quickly turn your mobile phones to silent mode. Don't let your mobile phone ring in the middle of the journey, or the driver will be half dead."

Chapter 2314: Mercenary

Jason immediately took out his cell phone, and then said to A Kun and A Ming next to him.

"Shen Man has already said that we should turn off our cell phones or mute them quickly, and we must not make any sound. If someone hears it, it will be difficult. You must be careful."

"Boss, don't worry, we will not do anything dangerous.

We know very well that Qin Yuan has carefully arranged this matter. It is not easy for us to get to where we are today. We must not drag everyone down at this time."

"How is it? Are you all ready?"

"Everything is ready. Do you think there is any problem with the way we wear protective clothing and masks?"

"That's not a problem. The main thing is that I hope you can isolate the dirt in the trash can.

Medical waste is the dirtiest waste in the world. It may carry bacteria and viruses. You can escape, but you are infected with bacteria and viruses. That's not worth it."

Huang Mao felt a little scared when he heard this.

"Shen Man, can you not say such scary things?"

"I have already given you advance warning. You are a grown man, are you still afraid of these things? You are not a grown woman, so don't embarrass men."

Huang Mao was originally a somewhat childish guy. Hearing this, he immediately straightened his back and said.

"Who said I am a timid guy? After all, I am also a man who stands tall and upright!"

After that, Huang Mao directly picked up a black garbage bag and got in first.

Afterwards, Jason also brought two plastic bags and handed them to A Kun and A Ming.

"Let's all go in quickly, the driver may come in a while."

"Yeah, okay, boss, we understand, we will listen to you."

The four people got into the garbage bag directly, and then squatted on the ground. From a distance, they really looked no different from ordinary garbage, and they could not be seen with the naked eye.

Shen Man stood by and saw that they had merged with all the garbage without any flaws. He was finally able to breathe a sigh of relief.

"I have taken care of everything here. The driver will come in and put you directly in the trash can. When we arrive at Friendship Hospital, you can find a chance to leave."

"Yeah, I see. Thank you for your arrangement. You can go back first."

"I can't go back first. I have to wait here for the driver to come. I have to see you get on the car."

"I don't think so. Didn't you say that the driver doesn't know how to check medical waste?"

"Although he doesn't know how to check medical waste, I have to see if there are any sharp objects in the garbage container to avoid hurting you."

"You are such a careful person that you can think of this. Thank you."

"Don't tell me this. I am also taking money and helping people to eliminate disasters. I just do things for money."

Jason didn't say anything in the garbage bag. He actually guessed the identity of the young nurse, but he couldn't expose it unless the other party wanted to admit it.

At this time, Qin Yuan and Chen Jixiang had already picked up the tool box and walked to the door and came to the front of their vehicle.

The security guard in the guard room also saw it, and the two of them walked out directly.

"Why did this guy come out again?"

"Don't be nervous, this is his job after all, just deal with it calmly, there won't be any problem."

"Oh, have the air conditioners in the two masters been repaired?"

"It has been repaired, and the projection equipment in the conference room, which is really a big project.

I just told this young nurse to give us more money. He is a bit stingy, but let it go after thinking about it, this is an urgent job after all.

He is a little girl and there is nothing he can do. The two of us can't make it difficult for him. He has already repaired it, so we left. It's already late at night, and we who do hard work have to go home and rest."

The security guard smiled and saw that there was nothing wrong with the two of them, and thought they were quite nice.

"It's so late, thank you for your hard work, I'll open the door for you now, do you want to come to my place to have a drink of water before leaving?"

"No need, thank you very much, master, we are all low-level staff, we can understand each other."

The security guard smiled, hurried back to his security room and opened the door.

Qin Yuan and Chen Jixiang also got in the car, and the two of them waved to the security guard while sitting in the car.

"Thank you very much, security master, we'll leave now."

"Yes, drive slowly~"

Qin Yuan stepped on the accelerator and rushed out of the hospital immediately. As long as he left this environment, Qin Yuan could finally breathe a sigh of relief.

"Brother Qin Yuan, have we succeeded?"

"Of course, this is a really good plan."

"You are so amazing, no wonder everyone says that they feel more at ease when they are on a mission with you. I finally understand it, but I am curious, how did you open the safe in the house alone?"

"Don't be curious about everything, you little brat, I will teach you when I have the chance in the future, this is a unique secret."

After listening to Qin Yuan's words, Chen Jixiang scratched his head.

"You have too many unique secrets. Sometimes you can be familiar with the local terrain inexplicably, and sometimes you can perfectly avoid all the vehicles of Mr. Norman Karim.

Now you can open the safe. My God, I wonder if you are a god?"

It is normal for Chen Jixiang to have these doubts.

After all, Qin Yuan is so amazing that everyone is very impressed, but there is nothing to do.

Qin Yuan can't tell them that he has a one-key recycling system in his body, which they don't have. This is his own protagonist halo and golden finger.

"I don't know what's going on with Shen Man."

Just when Chen Jixiang finished speaking, Qin Yuan saw a garbage collection truck from the rearview mirror of the vehicle, slowly driving into the hospital.

"If nothing unexpected happens, the plan is going perfectly, and this garbage truck has already driven into the hospital."

"What should we do then?"

This Chao looked at the screen in front of the vehicle, which was connected to the system. As long as he drove according to the map above, he could perfectly avoid all the surveillance personnel of Mr. Norman Karim.

He saw that there was indeed a blind spot for surveillance around Friendship Hospital, where no one was monitoring, so Qin Yuan decided to drive there.

"Let's go to the vicinity of Friendship Hospital first."

"I'll do whatever you say, your decision will never be wrong."

In the garbage storage room of the hospital, Shen Man learned from the security guard's reminder that the garbage truck had come in.

"Everyone, get ready. The garbage collection vehicle has come in. I'll just watch you get on the garbage truck. Qin Yuan has also arrived near Friendship Hospital. You can contact him later."

After Shen Man explained everything, he walked outside to greet the driver.

"Master, you came so soon?"

"Nurse Shen? Why are you here? You are already very busy on duty here today, and you still have to watch the garbage delivery?"

"There is no way. We are a little special today. There is a problem with our fresh air system. If these garbage are piled here for a long time, they will definitely smell and produce a lot of bacteria.

So, I contacted you to come to our place to collect the garbage first, and then go to Friendship Hospital. I am really sorry to disrupt your usual plan and cause you trouble, master."

The driver is still quite easy-going and easy to talk to.

"Oh, what's the big deal?

Anyway, I just eat this bowl of rice and do this job.

It's up to me where to go first and where to go later. Everyone has special circumstances. If the fresh air system in your hospital is broken, it's a big deal. You have to find someone to clean it up quickly."

"Don't mention it. I just found someone from a maintenance company. At first, I thought it was the air conditioner in the office that was broken. After they checked it, they came to the conclusion.

It turned out that the fresh air system of the entire hospital was broken. It was a big project that they couldn't do.

We have to wait until tomorrow after work and let our professional colleagues in the maintenance department come to check it. I can only trouble the driver to take away the garbage first."

"Okay, okay, then I won't waste time, let's get started."

"Yeah."

After the driver got on the car, he started the automatic garbage collection transmission system and directly collected all the garbage on the ground in the hospital into the container behind his vehicle.

Shen Man watched these people being received into the trash can without any reaction, and he was finally relieved.

"Driver, you are really neat and fast."

"I have been doing this job for so many years, I am already familiar with it. Well, I won't bother you anymore. I will go to Friendship Hospital now."

"Yes, thank you, Master."

"Hey, you are welcome."

After the driver got on the car, the garbage truck drove away directly.

Shen Man sent a message to Qin Yuan without saying anything.

"Hello?"

"The people have been sent away. You should hurry to the Friendship Hospital to meet them. My mission is completed. Sophia is the only one left in the hospital. Do you have any instructions for her?"

"Sophia is a very smart person. I don't need to worry about her.

I still have to thank you for this matter. It's really hard for you to toss and turn for so long this night. When we return to China, we will tell the superiors about this matter clearly and they will definitely give you credit."

"Qin Yuan, you don't need to say these polite words to me. Whether to take the credit or not is up to the superiors. If Wang Xin hadn't told me this, I'm too lazy to help you.

Now that everything is done, I can finally breathe a sigh of relief.

You should leave quickly, but be careful on the way. Norman Karim has not made any movement so far. Sometimes no movement is the most terrifying. Maybe he is holding back some big moves. "

"Thank you for your reminder. We have arrived near the Friendship Hospital. After they get off the car, I will be able to take them away smoothly. I will send these people to the dock and send them back to the country first. I can finally fulfill a wish. "

"It's best not to implicate Wang Xin. "

"I didn't expect you to care about him so much?"

"Isn't it normal for me to care about him? He is my superior, I have been with him for so many years, he knows everything I have done here, only he can understand what I have done for so many years."

"You are really a stubborn guy, all right, I won't argue with you so much, I'm leaving first."

On the other side, in Mr. Norman Karim's office.

This guy is really holding back, he is sitting in a chair opposite a man with a very serious expression.

"I am really a little helpless to call you over here, I know you are very capable, this job is a bit difficult, are you willing to take it?"

The man said with a cold face and expressionless face.

"Money makes the world go round. Money is everything for us in this line of work. As long as I pay him enough, I don't care who he is."

"Okay, you look very confident in your abilities. You are indeed a famous scorpion in the underworld."

"Mr. Norman Karim, it is not easy for you to find me on your own initiative. Let's negotiate the price in advance. How many people do you want to kill? As a mercenary, I charge per head."

"You only need to help me deal with Qin Yuan, but this guy's ability is also extraordinary. I'm afraid you can't do it."

"Qin Yuan? Is he the man under Fan Tianlei? "

"I didn't expect you to know something about him. Has anyone asked you to buy his life before?"

"Mr. Norman Karim, please understand that these are all confidential information within our industry and cannot be disclosed casually. I can't tell you the specifics. You just need to tell me what to do."

"Qin Yuan is Fan Tianlei's man. I don't want to kill him. I just want to teach him a lesson."

In fact, this young man is quite capable. I admire him very much. But I know that he is as stubborn as Fan Tianlei. They are the same kind of people and are very righteous.

What I really want you to help me deal with is Efit. "

"Efit? Is it the one next to Lao K? "

"Scorpion, you really deserve to be the strongest mercenary on the road now. You know something about everything."

In that case, I don't need to explain too much to you. This guy should still be here with us. Get rid of him before he leaves us. Don't let him go back to Lao K. "

"I guess he should be ready to go back. It seems If so, the time is tight and the task is heavy. "

"Scorpion, you are very capable. After all, the price is here. People say you get what you pay for. I spent such a high price to find you, so please don't let me down."

"Mr. Norman Karim, I have already said that you don't have to worry about anything. As long as you pay the money, I can handle any difficult things for you."

"The thing I lack the most in my life is money. Just do as I say. This guy should be near the embassy. Try not to shoot near the embassy."

After "Scorpion" said this, he was now full of confidence and felt that there would be no problem with him.

He completely ignored Qin Yuan's abilities, and he didn't even know that Qin Yuan's body had a one-click recovery system that was always helping him.

Mr. Norman Karim looked at Scorpion with confidence, he smiled and said.

"You should be very clear in your mind. Usually when you reach my level, I don't need to worry about money at all. As long as you can help me, you can ask for any amount."

After saying that, Mr. Norman Karim took out a check from his pocket and handed it to Scorpion.

Scorpion took it and saw that the check was empty, with nothing written on it. He understood it immediately, and then smiled crookedly.

"Mr. Norman Karim is indeed a very generous person. If he gives me a blank check, does it mean that I can fill in the numbers myself?"

"Of course, I am also very famous in the Tao. You should know very well that I have always been very generous with my actions. As long as I can complete the tasks I entrust you with, it doesn't matter how much money you want.

In addition, I can also give you a house or a luxury car, so you can settle down anywhere in the world.

Or what kind of request do you make, as long as you can help me deal with Efit, this guy is so annoying, he is like a fly. "

"Effit is just a bedbug. Mr. Norman Calip spent so much money to get rid of such a pest. I don't know if it is worth it."

"As long as I feel it's worth it, I have found his traces. He is near the embassy and seems to be causing trouble again."

"Since Mr. Norman Karim has found his switchboard, why not send someone to deal with it directly? If you want me to go, is it possible that I am more trustworthy than your men?"

"Scorpion, as I said just now, I feel most at ease only if I leave this matter to you."

"Okay, I'll accept this check first."

"Aren't you going to fill in a number first?"

"I also have a very professional ethics on the road. I don't dare to raise a price casually for things that haven't been completed.

Only after completing the task can I fill in the numbers I want on this piece of paper openly. I think there is no problem with this. "

"Okay, I am indeed very confident. It seems that I did not find the wrong person. I tried my best to find you through various channels, but it was not easy."

"Okay, Mr. Norman Karim, I will accept this check first, and I will come to you to get the money after the matter is completed."

"You also trust me. Aren't you afraid that I won't admit it?"

"Didn't you say that yourself just now? You are well-known in the Tao for being generous, and you are not short of money at all, so why would you give me three melons and two dates?"

Mr. Norman Karim nodded happily.

Scorpion put on the hat on the back of his clothes, put on a black mask, put his hands in his pockets, and left Mr. Norman Karim's office.

Mr. Norman Karim looked at his back and felt that the other party was still very confident in his affairs.

"As long as there are scorpions, I believe we can solve the problem."

On the other side, here at the embassy, Wang Xin and An Ran were staring at the screen.

"This guy has already started setting up, but he has no intention of leaving. What should we do? Are we going to defuse the bomb now? If we don't take action, Qin Yuan will be back soon, and it will be too late for us to do anything. "

"Liu Mei, don't worry. Everything is under our control, so what do you have to worry about? We have seen every move of this guy Efit.

I will contact Qin Yuan soon and tell him to be careful. "

"The key is that we can't contact Qin Yuan easily now. I'm afraid that he will be distracted. I heard that he has left the hospital and is preparing to send Jason to the dock."

When Wang Xin heard this, he immediately remembered that he had to quickly mobilize the ship and go to the dock. They could set off as soon as Qin Yuan and his people arrived.

When He Chenguang heard this, he was also a little worried about Qin Yuan's safety, and immediately stepped forward to ask.

"Wang Xin, how are the preparations for the ships at the dock? As soon as Qin Yuan and the others arrive, they must leave immediately without any delay."

"He Chenguang, don't worry, I've already made arrangements over there, so there's no need to worry.

As long as Qin Yuan and the others arrive, I will be able to let them leave here smoothly. Please believe in my ability. I have been operating here for so many years and there will be no mistakes. You don't need to worry so much. "

When He Chenguang heard this, he was a little unhappy.

"What do you mean by that? I'm just kindly reminding you, it's not that I don't believe you don't need it, I would be so repulsive.

I know that you are the person in charge of the embassy and the consul here. You have been working here for many years and are very experienced. I have no intention of teaching you how to do things. "

An Ran saw that the two of them seemed to be quarreling, and quickly pulled away from He Chenguang.

"He Chenguang, what are you doing? Everyone is on the verge of danger now. They are very nervous and have a lot of psychological pressure."

"An Ran, I didn't say anything just now, but he was so angry. I don't know where the anger came from."

When they were arguing, Liu Mei shouted loudly beside them.

"Can you all stop arguing? A very mysterious person appeared here. Can you guys take a look at who this guy is?"

"Please, what's the big deal? It's normal for people to come and go on the street. If we have to check every person who passes by, then we don't have to do anything else today."

An Ran ignored their complaints and looked back at the person on the screen.

This person covered himself tightly, wearing a mask and black plastic gloves.

"This person is definitely not an ordinary passerby."

"Why are you so sure?"

"Based on my understanding over the years, I believe he is a very suspicious guy. Looking at his appearance, he walks very cautiously, and he has signs of training. He is definitely not an ordinary person.

Looking at his walking posture, he is always alert.

It seems that he is ready to take out his gun at any time. No, this guy must be a killer. Could it be that Mr. Norman Karim sent another person over? Does he really want to put Qin Yuan to death?"

"Don't rush to make a judgment. Now we are just scaring ourselves. Let's see who this person is first."

At this time, Wang Xin received the message sent by Du Bingbing.

He took out his mobile phone and his eyes widened. He couldn't believe it. It seems that they were negligent. They had been sending people to watch over the customs, but they didn't expect him to sneak in.

"Don't argue for now, everyone. If nothing unexpected happens, the man I saw outside should be the legendary mercenary Scorpion."

"What did you say? The guy outside is a mercenary Scorpion, how could that be possible?"

"Who is Scorpion?"

"Scorpion's real name is Ruan Wenxiong. He is an internationally famous mercenary, and he has extraordinary abilities. As long as he is given a task, there is nothing he can't complete. His price is very high, and not everyone can afford it."

"If that's the case, then there is nothing to doubt. The person who invited him here must be Mr. Norman Karim. Only he can afford the price."

When Wang Xin thought of this, he was really worried.

Du Bingbing hurriedly passed this message to him just to remind him, but he was already very worried about Qin Yuan.

He knew that Qin Yuan had offended Mr. Norman Karim. What if this guy really came to kill Qin Yuan?

Then this matter will be difficult to handle. Qin Yuan cannot be in any danger, let alone in his own territory and jurisdiction. Otherwise, everything he has done will be in vain.

An Ran has been operating internationally, and he knows how powerful Scorpion is.

"We must not act rashly against Scorpion. He is an independent mercenary, but there must be someone behind him to protect him. We cannot guarantee who it is."

"Are you so scared?"

"The bombs outside have been set up for a while. I am afraid that there will be some conflict between the two of them. However, Scorpion found the embassy directly after entering the country.

I think his information should be very accurate. Doesn't he know that Qin Yuan is not in the embassy?

Maybe I think he is not coming for Qin Yuan. All this is possible. Let's not scare ourselves first, and there are so many people in the embassy.

We still have a lot of weapons. No matter what, we can solve these problems in time.

Go and tell Du Bingbing first, tell him not to worry, and don't panic when he sees Scorpion. After all, we have more people and he is only one person. No matter how strong he is, he can't break through our defense line."

At this time, Wang Xin didn't wait for a reply, Du Bingbing called and he roared on the other end of the phone.

"I'm asking you how you do things? Haven't you seen any news about Scorpion's entry? The customs has already arranged people, why don't you just keep an eye on him!"

"So what?"

"I see you're still keeping people calm here, I really can't explain to you, what kind of person Scorpion is, you should know very well, he is a mercenary being hunted by the international community.

Do you know how many deadly weapons he has in his hands? If he hurts Qin Yuan, how can we carry out the next mission?"

Wang Xin hadn't seen Du Bingbing so angry for a long time, he sighed helplessly and said.

"Don't be so angry, calm down."

"Tell me how I should calm down? I've been waiting for you for so long and there's no result."

"If you want to say that, then we have to have a good talk.

I've always told you to send a helicopter to pick up Qin Yuan and the others, but now there's no progress on your side, and you blame me instead.

What can I do? I can't directly ask my superiors to mobilize a helicopter. This matter can only be left to you alone. If you can't do it, I can't do anything."

"Didn't I explain this to you when I called just now? I'm not deliberately making things difficult for you, but I can't communicate with my superiors, and one of their departments is making things difficult for me.

I've also looked for Fan Tianlei, but he was stuck on the process when he mobilized all the connections around him and refused to move on.

A special department like ours cannot be managed across levels.

I'm also very anxious in my heart. If there is any way, I won't blame you here, but I still hope you can calm down and let Qin Yuan and others come back quickly, and don't do anything dangerous again."

After Du Bingbing said this, Wang Xin was a little confused.

"What do you mean by that? Who told you that Qin Yuan was not in the embassy?"

"There are always people in the embassy who report to me at any time. I was very angry when I knew about this. I didn't want Qin Yuan to do such a dangerous thing. I thought you would drag him away, but I didn't expect you to be so willful.

Wang Xin, you have always been a very principled person. How come you become so unprincipled and agree to him casually after being with Qin Yuan?

The people he wants to save are simply insignificant, and they are not our comrades in the army. What does it matter what they do?"

"Du Bingbing, you have really changed. How can you become so hard-hearted? Even if they are not our comrades in the army, they are also Qin Yuan's good friends.

Qin Yuan not only has to go to the hospital to get the evidence back, but he also has to bring these people back. He can successfully arrive here and save Professor Fang De's two students, relying entirely on these insignificant people. The person I want.

And Jason's daughter is still here with us. Do you want to let a girl with congenital heart disease lose her father? "

"In the army, military orders are as strict as a mountain. It's useless for you to tell me all this. What I want is the result. You are obviously violating the rules now.

If the top brass of the army knew about this, all of you would be punished. Don't you understand this? "

"Don't blame me here. Scorpion has come to the outside of the embassy. I have to react quickly. I don't know if he is coming for Qin Yuan or if he has other purposes. "

"Has Scorpion arrived outside the embassy? "

"Didn't I tell you just now? Scorpion has arrived outside the embassy, but I'm not sure who he is targeting.

If he really wants to kill Qin Yuan, at least Qin Yuan, who is safe in Qin Yuan City, is not in the embassy now, which also guarantees his safety by accident. "

Chapter 2316 The target fled and the mercenaries failed

Wang Xin heard the other party's hysteria and sighed helplessly.

At this time, He Chenguang couldn't stand it anymore, so he quickly stepped forward and said.

"Deputy Chief of Staff Du Bingbing, calm down first.

Things are not as bad as you think. We have been monitoring the other party's every move. Everything is under our control. There will be no danger or mistakes. Why do you have to be so excited?"

"He Chenguang? Is it you?"

"Of course it's me. Who else can it be?"

"Why didn't you go with Qin Yuan to perform the mission?"

"Qin Yuan can take Chen Jixiang with him. Do you want me to go with him?"

"Chen Jixiang is just a young man who has just joined the army for a short time. Do you really think you can let him do such an important thing? I am still a little worried."

"Chen Jixiang has indeed joined the army for a short time, but he also Qin Yuan personally requested to bring him along.

Besides, since this guy can participate in our operation this time, it means that his ability is completely fine, including Thor's recognition of him.

Don't look at his young age and distrust him in various ways. As our superior, you should have full trust in us. "

"He Chenguang, you are here to teach me?"

"How dare I, Deputy Chief of Staff Du Bingbing.

There is one more thing you must not forget, that is, the commander of our group is Qin Yuan, who is also our team leader. He asked me to stay here to protect An Ran. Should I object?"

"Qin Yuan asked you to stay in the embassy to protect An Ran?"

Du Bingbing was obviously unhappy when she heard this.

An Ran also knew that Du Bingbing still had some unspeakable feelings for Qin Yuan.

"Deputy Chief of Staff, please don't misunderstand. Qin Yuan just asked me to stay here to pick him up.

I believe he should be back soon. We have just discovered the mercenary outside. If you don't call us in time, we won't miss this important information."

"Okay, as long as you know it, I sent you the information about Scorpion's entry as soon as I received it, but this guy's actions were also very fast.

I just received the news of his entry, and he has arrived at the embassy in a blink of an eye.

No matter what his purpose is, he must not be allowed to hurt our people. I am very worried that he was sent by Lao K to assassinate these two arms experts.

You have spent a lot of effort to rescue the people, and there must be no mistakes at this last moment."

"No problem."

Du Bingbing knew that she shouldn't say this, but she couldn't help it.

"In addition, I personally disagree with Qin Yuan taking these gangsters back, and I don't want Qin Yuan to meddle in their affairs. I think this is a very dangerous thing, and the gains do not outweigh the losses."

"You should know Qin Yuan's temper very well. No matter what we say, he will only do it according to his own ideas. I can't persuade him."

"I still need to check Jason's background."

"Okay, this is a normal process. We can understand it. I believe Qin Yuan will not say anything."

Liu Mei was too lazy to pay attention to them. He had been staring at the surveillance on the screen without slacking off. At this time, he found that the mercenary on the screen met Aifet.

Just outside the embassy, the mercenary Scorpion blocked Aifet's escape.

Aifet is also a very smart person. He looked up and knew that this guy's identity was not simple. They were all mixed in this way, and they could see each other's background at a glance.

"A good dog doesn't stand in the way."

"Are you Efit?"

"If you came here specifically to find me, you shouldn't have failed to recognize me."

Scorpion took out a photo from his pocket, and it was indeed this guy after a comparison.

"It's you, that's for sure."

Efit was also very alert at this moment, with a gun in one hand and a knife in the other.

"Who sent you here?"

"I'm just doing things for money, there's no deep hatred between us, if you report to the King of Hell, don't report my name."

"Are you the internationally famous mercenary Scorpion?"

"Good boy, you still have some knowledge, yes, it's me."

"I've heard that you are a very powerful mercenary, and the price is not cheap, but there is no mission that you can't complete.

You get what you pay for, it's worth it to find you no matter how expensive it is.

It seems that this person must want to kill me, and he must hate me very much.

I guess Qin Yuan and Fan Tianlei would not do such a thing. The person who asked you to come and kill me must be Mr. Norman Karim. Only he has money and connections to find and hire you. "

"Do you have any last words?"

"This is too funny. Do you know where this is? This is the embassy. Do you dare to shoot here?"

"There are countless ways to kill people. It doesn't necessarily mean shooting. I have my own ideas. You just need to tell me if you have any last words. In terms of humanistic care, I can help you convey them. "

When Efit heard this, he sneered.

"You are the most arrogant mercenary I have ever seen. I can't care so much. I am in a hurry to go to the dock. You can brag here."

Aifite just lowered his head and prepared to move forward.

Suddenly, a sharp blade was placed around his neck.

"I have already said that you can't beat me."

"Oh? Is that really the case? Then I want to try."

Aifite has been in the market for so many years, selling arms in various countries. He is the most capable assistant around Lao K and the person Lao K has cultivated since he was a child.

In addition to business management, his skills are also very good.

Usually, he asks others to help him do these things. He never does it himself. Today, no one is around to help him, and everything can only rely on himself.

He is not afraid of the other party's sharp knife at all, even if it is only a few centimeters away from his artery, he has never been afraid.

Aifite took a step back gently, and the knife immediately slashed towards his neck mercilessly.

Fortunately, he dodged in time and dodged the knife attack by bending backwards.

"Sure enough, no wonder you were so calm just now."

"Then I have to thank you for your compliment."

Efit was not afraid at all. He immediately took out a butterfly knife from his pocket.

He turned his fingers and wrists a few times to make his eyes dazzled. This action was really beautiful and handsome.

"Are you prepared?"

"Of course, but if we don't have a life-saving guy in our pocket, how dare we run around casually?"

Liu Mei, who had been staring at the surveillance on the screen at the embassy, hurried to them and said loudly.

"Don't argue here. The fight has already started outside. They have already used knives. Come and see what we should do. Should we go out and stop them?"

He Chenguang saw that they were fighting on their own. It seemed that this guy was not coming for Qin Yuan, so he didn't need to worry.

"It's a dog-eat-dog fight between them. Let's just watch the fun and don't bother too much.

Anyway, this guy Efit has always been against us, and he is also someone close to Old K.

I don't know how many bad things he has done over the years. If this mercenary Scorpion really gets rid of him, it can be regarded as getting rid of harm for the people. We must not get involved."

Wang Xin and An Ran looked at each other. They had completely different ideas.

"Nothing can happen around the embassy. Although they are not targeting Qin Yuan, this guy has a lot of evidence in his hands.

He has clues to many of the things that Lei Shen has been investigating. We shouldn't let him be killed like this."

"An Ran, why are you as confused as Qin Yuan?

You two really have a common language. One of you risked his life to send these gangsters to the dock and send them back to the country safely. You are good, still thinking about this guy Ai Fite."

"I believe if Qin Yuan takes it, he will make the same choice as me.

Although Ai Fite is very annoying and hateful, he can't be killed now. He has a lot of important evidence and clues in his hands.

We also plan to get important clues from him. This is something that Lei Shen has been investigating for many years, but we must not let the clues be cut off like this."

At this time, Du Bingbing knew what he was thinking. He had no way to influence anyone, so he had to choose to turn a blind eye. He hung up the phone directly and pretended not to know and let them deal with it themselves.

Wang Xin saw that the other party hung up the phone, so he turned the phone around and showed it to An Ran.

An Ran immediately understood that Du Bingbing also wanted to use the cold treatment method to let them make their own choices.

He did this to help Fan Tianlei. This was something that Lei Shen had been investigating for so many years. It was not easy to get some results, but there must be no mistakes at this time.

"Du Bingbing still cares about our feelings."

"What?"

He Chenguang was really confused now.

"Then you have made a decision. I will take people out now. I should be able to interrupt them and give Efit a chance to escape."

"Looking at the screen, his movements and skills are really good. Although we have had many interactions with him before, we have never fought face to face like this.

To be honest, his two moves really surprised me.

But it is obvious that this shoe is more capable of gaining the upper hand. This guy was injured before and has not recovered yet. He is definitely not a match for Scorpion.

This guy's sword is deadly. If he really cuts the opponent's throat with a knife, even if he is a god, it will be difficult to save him here."

"Wang Xin, then I will take people out now."

"Yeah, you just take people out. When they see someone from the embassy go out, they will naturally stop fighting, which is considered to be a chance for the other party to escape."

He Chenguang was a little worried, and he hurried forward to say.

"Why don't you let me go with Liu Mei? I'm a national martial arts champion, so I'm quite skilled."

"All members of the special forces are skilled, so let Liu Mei go by herself. We don't plan to fight any of them today, and your skills as a national martial arts champion may not be of any use."

He Chenguang was really frustrated.

"Since I left the army and came here, I have been an idle worker all day long. No tasks have been assigned to me. I can't hold it in any longer. Now that I finally get a chance, you don't let me show off."

An Ran smiled and said.

"Forget it, He Chenguang, I believe that even if you were here normally, he wouldn't let you do such a dangerous thing. We should stay here honestly and don't go out."

When He Chenguang saw that everyone was opposed, he couldn't say anything else. After all, they were all members of the special forces, and the most important thing they cared about was the collective honor.

"Okay, then Liu Mei, you have to be careful."

Afterwards, Liu Mei put down the things in her hands and took the intercom with her and led people out of the side door of the embassy. As soon as he opened the side door with a few people, Scorpion and Efite noticed someone coming out.

"It is destined that I should not die today."

Scorpion covered his face and looked back at someone coming out of the embassy. He didn't dare to deal with Efitte openly here. While he was distracted, Efitte ran away quickly.

"Why....."

"What are you doing here?"

Scorpion turned around and saw that Efitte had already disappeared without a trace. It was definitely too late for him to chase him now.

"You guys are so abominable, do you know that you've ruined a good thing?"

"This is the embassy. We have received the immigration investigation notification report. Your identity is suspicious. We should send you to the local immigration management office for a thorough check."

"Checking me? Dreaming!"

Scorpion threw a smoke bomb directly, and he ran away quickly.

Liu Mei stood alone, this was the effect he wanted to achieve.

"The person has run away, let's go back quickly and save this guy's life again. These are things Qin Yuan is dealing with. We can't go against his will and deal with it casually if he's not here."

In the monitoring room, Wang Xin and An Ran saw Scorpion and ran away.

Efitte also fled, and they finally breathed a sigh of relief. However, there was still one important thing that had not been dealt with, that is, the bomb Efitte had just arranged had not yet been dismantled.

"After saving this guy once, when we meet him again, we must talk about this matter and let him repay our life-saving grace."

"This mercenary Scorpion is really powerful. If we hadn't appeared just now, Efitte would have been saved today. Now that he has lost his target, how should he explain to Mr. Norman Karim?"

"I really don't know if our group of people have any talismans on us. Mercenaries like Scorpion, who have never failed in the international arena, feel like they have failed for the first time in front of us."

Chapter 2317 Companions request transnational action

Special Forces Command Headquarters.

Wang Yanbing and Li Erniu were wandering around the office like headless flies.

"We have lost contact with Qin Yuan for such a long time, and we still can't find him. What should we do? Ever since he went to the God of Thunder, we have been unable to find him."

Li Erniu is a very impulsive person, and his temper has always been like this for so many years. It is precisely because of this that Fan Tianlei did not dare to film some relatively secret missions for him.

Wang Yanbing felt much better. He knew that Qin Yuan had gone to a far away place to complete the task. This task was directly assigned by his superiors and they had no right to guide him.

"Why was Thor stopped? We still don't know."

After Li Erniu said this, Wang Yanbing quickly stretched out his hand and made a gesture to signal the other party to stop talking.

"What can't be said!"

"Don't yell first, look at where this is, this is the command headquarters.

We came here today specifically to solve Qin Yuan's problem. We also want to request cross-border operations to help our comrades. How could a commander with such a temper like you agree to us. "

"Well, I'm too anxious. As you know, we recently received news that Scorpion has started to take action. I'm afraid his target is Qin Yuan. This guy is a well-known mercenary in the world. He has never failed. "

"Of course I know. The two of us decided to go together, just for the sake of our good brothers."

While the two of them were talking, He Zhijun walked in from outside.

"brigadier?"

He Zhijun is the brigade commander of the Langya Special Forces Brigade. He is also one of Qin Yuan's good friends. The two of them can be regarded as friends forever.

"Why are you two here? It seems that we are on the same page today. We all came here for the same purpose."

Wang Yanbing and Li Erniu said in unison.

"For Qin Yuan?"

He Zhijun closed his eyes and nodded.

"Brigadier, you already have your own Langya Special Forces Brigade, and you are already very busy with the affairs there. How can you still care about Qin Yuan's affairs?"

"I heard that Fan Tianlei was suspended recently. I don't know the reason. I wanted to come over and ask. Originally, he was the commander of Qin Yuan's special task force, but now he has been replaced by Du Bingbing..."

He Zhijun was about to say "girly", but he felt that such words seemed disrespectful and immediately swallowed the word back.

"Brigadier Commander, we also heard that we were a little worried about this matter, so we came here to have a look. I don't know what happened to their task group. Why did they suddenly need to change commanders? This is a military change of generals on the spot. "It's a big taboo."

"Actually, I have looked for Gong Jian before."

"Instructor Gong Jian? It's also true that he has a better relationship with Thor.

However, Lei Shen wants to take responsibility for this matter alone, and he will not tell anyone. Can we contact the local embassy first to see if they have any news about Qin Yuan. "

"If you want to contact the embassy, you must get approval from your superiors.

The embassy is a rather special place, and we do not have the right to directly work with them.

Cross-department operations and cross-level operations are absolutely not allowed. If you violate these two regulations, you will have to take off your military uniform. "

"Hey, Director, please stop scaring us here."

"You two have been waiting in the office for so long. Has the commander seen you?"

What I was most afraid of was the sudden silence. After He Zhijun asked this question, the two people stopped talking.

"I already have a rough idea just by looking at the expressions on the two of you."

"What should we do? You can also help us think of ideas. In fact, we are really worried that Qin Yuan is not only alone with him, but also with Chen Jixiang and He Chenguang."

"I'm not worried about He Chenguang. His force value is relatively high, and he can be regarded as an old partner with Qin Yuan. They have completed many impossible tasks together through thick and thin.

The two people cooperate very well and have a high degree of tacit understanding. I believe Thor. He should have his own reasons for sending these two people out. We don't need to question Thor's decision.

The key is Chen Jixiang. This kid is just a new recruit. He has just joined the army not long ago. If there is something wrong with this, won't his family go crazy?

How should we explain to their family? This kid doesn't know the local language.

Why did Qin Yuan take him with him? I really can't figure it out.

However, I can feel that Qin Yuan has an inexplicable appreciation for this boy. Perhaps Chen Jixiang's ruffian character is a bit similar to when he first joined the army. "

"I heard that Qin Yuan saved an international arms expert without borders during another special operation mission. Is his action this time related to his discovery of Professor Fang De?"

"I've also heard about this, but I haven't contacted them for a long time.

The missions of Qin Yuan and He Chenguang have always been relatively secret, and it is not convenient for us to know too much. Since we are all so anxious, we might as well go find Du Bingbing first. "

After He Zhijun said this, Li Erniu was obviously a little reluctant.

"Du Bingbing? Why are you looking for him? He is just a little girl. He doesn't explain many things very clearly, and I don't want to answer too many questions with him. He usually has a cold face, as if everyone else is It's like owing him money."

"That's because you don't know what kind of relationship there is in his family. Everyone in his family is in the military, including the Air Force and the Navy."

"Then he can be regarded as a weakling among our troops."

"Don't speak ill of others behind their backs. Moreover, he is still a girl. The fact that he can become deputy chief of staff in such a short period of time shows that he is a very capable person.

This has nothing to do with his family relationship, so please don't get upset here. "

Wang Yanbing doesn't have many ideas now. He knows that Qin Yuan usually works very efficiently. It has been almost a month since he has not come back. He must have encountered some problem.

"By the way, Brigadier, we have one more important thing that we haven't told you. That is that we received news from an informant. He said that the internationally famous mercenary Scorpion has gone to Qin Yuan and the others. I don't know. Are you going for Qin Yuan?"

He Zhijun was very shocked after hearing this.

"Scorpion? Ruan Wenxiong?"

"Yes, that's him."

"Oh my God, why is this guy here all of a sudden?"

"Then I don't know. I don't think there are many coincidences in this world.

Since he appeared there at this critical time point, it means that he must be heading for Qin Yuan. We must be very confident in Qin Yuan's ability.

But there is no guarantee that he can still resolve the crisis in the face of such danger.

Therefore, we were so anxious that we came to the commander when we had no other choice. It would be better if the commander could directly mobilize several of our transnational operations.

But the commander is too busy. He has been in meetings and has no time to see us. We have no chance to explain everything clearly to him.

We are not worried about our good brothers. After waiting for so long and there is no news, it is not an option to stay in the office all the time. "

"The commander has been in a meeting?"

"Yes, this is the response his secretary gave us from the time we arrived in this office until now."

He Zhijun smiled bitterly when he heard what Li Erniu said.

"I said you two fools are too obedient. When I told you there was a meeting, you just waited here obediently. Didn't you hear the implication?"

"What's the implication? Neither of us heard anything. Our superiors asked us to wait here, and we don't dare to move around casually, so we'll just keep waiting here."

"Wrong, I have already received the message from the commander that he has no meeting today.

That's why I made a special trip to see him. Since the secretary has already told you this, and is just embarrassed to refuse you openly, he must know that you are here for Qin Yuan's affairs. "

"So that's it. It seems that I was really wrong. Why are we two still waiting here? If you hadn't come over to remind us, we wouldn't have known we were so stupid until now."

"Okay, okay, now that I've made everything clear to you, don't wait here, and don't embarrass the commander's secretary all the time.

Let's go find Du Bingbing. Maybe he has a clearer understanding of the ins and outs of this matter, and Thor has been suspended recently, so it's not convenient for us to find him. "

"Thunder God has been suspended. Why can't we find him conveniently? Do you want Mingzhe to protect yourself?"

Li Erniu is a very stubborn person.

"It's not because we don't want to contact Thor, and now is not the best time. We don't know why Thor was forced to suspend his duties.

Maybe we should go to Du Bingbing first. He is very clear about this matter, and I think he should be willing to help. "

He Zhijun really deserves to be a brigade commander. He thinks about issues more comprehensively than ordinary people. After listening to his words, these two people seemed to have a sudden enlightenment.

"If we want to request cross-border action, we can't go beyond our superiors. Isn't this called standing across a pot, a table, and a kang?"

"What do you mean?"

"Being separated by a pot, a table, and a kang means that we should deal with problems beyond the level. We should go to the superiors step by step to solve the problem."

"Don't keep telling me your hometown dialect. I really don't understand it."

"Okay, okay, you two, don't quarrel. Let's leave now. I think it's almost time. If we go a little later, Du Bingbing will probably get off work."

"He has just become the deputy chief of staff. It is the time when he should perform well, and he can still get off work at the right time? What's more, Qin Yuan and the others can be said to be in a state of uncertainty over there."

"Li Erniu, if you don't know idioms, don't use them casually. The meaning of life or death is really too serious."

"It's not serious. I personally don't think it's serious at all. Although I haven't been on a cross-border mission, I have never eaten pork and I have seen pigs running away."

I know that it is very troublesome to handle cross-border tasks together. The local embassy consul may not be able to cooperate with our work smoothly. In addition, Qin Yuan is a somewhat aloof person.

Once his bad temper comes up, no one will get used to it. How can someone like him take care of him and fully cooperate with his actions? "

"You have the nerve to talk about Qin Yuan's bad temper, but your temper is enough to drink a pot."

While listening to them, He Zhijun looked at the secretary sitting next to the desk outside. The secretary had been squinting at the situation inside the room.

He was probably also thinking that he had never met such a stubborn person. The commander had used this excuse to excuse many people in the past.

Everyone knew it and tacitly understood that only these two people were waiting here and refused to leave until now. If He Zhijun hadn't come here, they would still have planned to stay here.

He Zhijun couldn't help laughing when he thought of this.

"Brigadier, why are you laughing here?"

"You two have been here all this time, waiting stupidly without even looking at the secretary at the door. It's almost time to get off work."

You two fools have been waiting here without thinking about other people's thoughts and ideas. Fortunately, I came here in time and took you away.

Come with me quickly and find Du Bingbing before getting off work. Even for Qin Yuan's sake, we have to block him in the office and not let him get off work on the hour. "

After a few people finished speaking, they prepared to leave the commander's office. They originally wanted to seek advice on cross-border operations, but they had not seen their superiors so far, so they could not say anything else.

The commander's secretary next to him breathed a sigh of relief when he saw that these annoying guys were finally gone.

Then the secretary said to himself.

"Are all the members of the special forces so stubborn? I feel that I have said these words very straightforwardly, but they still don't understand why they insist on waiting here. Fortunately, the brigade commander of the Langya Special Forces Brigade came .

Otherwise, I will stay here with them and work overtime today, hum..."

Du Bingbing, who was in the office on the other side, watched the time pass by bit by bit, but the procedures for cross-border pick-ups had not yet been approved by superiors for coordinating case handling.

Even Du Bingbing himself doesn't know where the problem occurred that led to the current result.

He didn't mean not to send someone there, but he really had no better way.

While he was upset, several big men appeared outside the door.

"What are you really afraid of? Why did they come here?"

Wang Yanbing, Li Erniu and He Zhijun stood at the door of Du Bingbing's office.

When they were about to knock on the door, Du Bingbing opened the door and walked out.

"What are you guys doing here? It's scary to stand at the door of my office like a door god."

Chapter 2318 No matter how many people go, it will be useless

When Du Bingbing saw the three of them coming to him, he sighed helplessly.

"It's almost time to get off work. Are you coming to me because you don't want me to get off work on time?"

The reason why Du Bingbing said this was that he was pretending to be nonchalant. He knew that he could not show any nervousness or anxiety in front of these people, so that they would be even more worried about Qin Yuan.

"What time is it already? You still have to get off work on time. What are you going to do? Go shopping or buy clothes?"

"I can do whatever I want during off hours. Do I still need to report to you? If you continue like this, I will contact your superiors and take you all back. Just be honest."

"Miss Du Bingbing, this is the first time we come to you for help.

I have never met you before, nor have I had any interaction with you, but I have long heard that you are a person with a unique personality. "

Wang Yanbing can be considered relatively civilized. He did not directly anger the other party, but only mocked him in a more tactful way.

"I have a unique personality? Wang Yanbing, are you scolding me for being withdrawn in a roundabout way? I don't care about your thoughts and ideas."

Li Erniu was not that civilized. He stepped forward and fired directly at Du Bingbing like a straight cannon.

"Deputy Chief of Staff Du Bingbing, please stop wrangling in front of us.

We have already heard about this matter. When will Qin Yuan come back?

He went on a mission to a surrounding country. We have known this for a long time. This is no secret. Moreover, Fan Tianlei was suspended recently. You just happened to be promoted at this time. How do you think you should explain this matter? "

Du Bingbing sneered after hearing this.

"I really don't understand more and more what thoughts and ideas you reckless people have.

I got promoted, does it have anything to do with Fan Tianlei?

He was suspended because of his own mistakes, and I was promoted because I was doing a better job.

There is no connection or conflict between the two.

Don't you think that I framed Fan Tianlei and forced him to stop his position? This is a place where the army has strict hierarchy and rules. I don't have such great means and abilities. "

He Zhijun could see that the Du Bingbing in front of him was a little pepper.

"Don't be so angry yet. The two of them don't have any other meaning when they say these words. They are just worried about Qin Yuan.

He has been taking He Chenguang on a mission for such a long time, and there is still no news.

Logically speaking, he should have returned a long time ago. We know Qin Yuan's abilities, but he never goes out to perform tasks for more than a month. "

"If you want to take one month as a deadline, you don't have one month now.

Why are you so impatient to come find me? And you are not qualified to ask me these questions face to face. Our levels are different. You must be aware of your own level issues. "

Du Bingbing is definitely not someone to be trifled with. He was able to become deputy chief of staff at such a young age. Besides his good luck, his abilities should not be underestimated.

"We know that you have a very good relationship with Qin Yuan and the others, and now you have replaced Fan Tianlei as their main commander.

They contact you directly about everything. What kind of difficulties are there?

You can tell them whether they are being detained there or if they have difficulties in the process of coming back, and we can help you. "

Du Bingbing also wanted to seek help from others because he had already approached Thor once, but the answer given to him by Thor was a procedural issue and there was nothing anyone could do.

Li Erniu walked to the sofa angrily and sat down.

"you....."

"Li Erniu, what are you doing? You sat down in someone else's office. Get up quickly."

"Didn't he just say that it's time to get off work? Since it's time to get off work, he doesn't have the right to order us. Isn't it okay for me to sit casually in the office? This is all public territory. "

Du Bingbing felt quite relieved when she saw him like this. These people didn't care about their identities. Even if they were punished by the army, they still came to ask about Qin Yuan's safety. It seemed that they really wanted to put him in trouble. Became good brothers.

Du Bingbing had already walked to the clothes rack at the door, picked up her bag and was getting ready to get off work.

Seeing that they had no intention of leaving, Du Bingbing turned around and hung the bag inside on the shelf, and then took off her coat and hung it up.

"Deputy Chief of Staff Du Bingbing, are you planning to stay?"

"You guys are all staying here, and I definitely want to stay with you, but I'm also quite curious about how you guys found my office.

I have just been promoted and just came to this office. I haven't said hello to everyone in a few days. During this time, I have been busy with Qin Yuan's affairs and never had the chance to meet you.

And I plan to wait for Qin Yuan and He Chenguang to come back successfully, and then hold a meeting to have a good talk with you thorny heads. "

"Prickhead? Who is Thornhead?"

Wang Yanbing laughed when he heard this.

"We are relieved to hear what you said. It seems that you have been busy with Qin Yuan's affairs during this period. In this case, we brothers will not beat around the bush with you. We want to apply for transnational operations."

Du Bingbing was stunned when she heard this.

"What did you say? You guys want to apply for transnational operations? Are you going to find Qin Yuan? It seems that you already know where he is going."

"Of course we know. Ever since Qin Yuan brought back Professor Fang De, he has been busy with some secret tasks all day long. We also know Professor Fang De himself very well and know what research he is engaged in.

I heard that he still had two students trapped in neighboring countries. Qin Yuan should have gone on this mission.

If we are not mistaken, this must be the case.

Of course, this matter involves the secrets of the army. It's normal if you don't want to tell us. We can judge from your expression whether our guess is correct or not. "

"You can tell from my expression, how many of you have studied psychology?"

"These are all compulsory courses for the military. Of course we have had some exposure to psychology."

"Oh, yes, that's true. I almost forgot. These are compulsory courses in the army. It seems that you guys have mastered them quite well."

He Zhijun really didn't want to waste any more time, so he stood up and said straight to the point.

"Du Bingbing, we know that there is a Mr. Norman Karim in the neighboring country. He was a good brother with Fan Tianlei when he was young, and he was once a member of ours.

However, after experiencing many things, he devoted himself to his own organization and had long since left our military organization.

If I meet him, I think Qin Yuan will encounter a lot of difficulties.

This guy is not an easy one to deal with. The few of us who want to apply for transnational operations are just to help Qin Yuan. I believe that the members of our Langya Special Forces Brigade are qualified for this task. "

"Members of the Spike Special Forces Brigade?"

"Yes, we want the entire Langya Special Forces Brigade to participate in this cross-border operation and bring Qin Yuan and the others back by force."

Du Bingbing originally had some distrust of these people, but after seeing their attitudes, he was finally able to relax his vigilance. At this time, he also softened his attitude and spoke to these people gently.

"Wang Yanbing, Li Erniu, He Zhijun, you are all Qin Yuan's good brothers. I am not surprised that you came to see me today, but I must tell you that it is in vain that many of you come now.

The reason why Qin Yuan has not come back for so long is not because his mission has not been completed. His mission has been completed long ago.

It's that he is trapped there. Now I want to apply to my superiors to send a helicopter to bring them back. But the superiors' procedures did not pass, mainly because they are stuck here. "

"What? Qin Yuan has already completed the mission, but his superiors don't agree to send a helicopter to pick them up now?"

Li Erniu said with some confusion.

"If the helicopter doesn't work, we can take the waterway. Didn't Qin Yuan and the others get there by smuggling?"

"They used to pass through the river, but now this method simply doesn't work. Their team is too huge.

After rescuing these two students of Professor Fang De, their team, together with He Chenguang, Chen Jixiang and An Ran, totaled about six people.

Such a team is too large, and it is not reliable to come back in a sneaky way. The key is that they still have to protect two hostages, which will distract some of their energy. "

"That's true. I believe Deputy Chief of Staff Du Bingbing has already thought about this plan.

If possible, he would not fail to take advantage of it. Qin Yuan himself should have thought that since he planned to stay there, it meant that he had been waiting for news from the army.

After all, he still hoped to send a helicopter to take them back through the army, which would be enough to ensure everyone's safety.

It wasn't that Qin Yuan wanted to escape and come back in this safer way, but he had considered the problem of Professor Fang De's two students.

He finally tried every possible means to rescue the two hostages, and he absolutely couldn't let anything go wrong on the way back.

Otherwise, everything will be in vain. I know Qin Yuan too well. He would rather be trapped there and do nothing than make a wrong decision and lose everything. "

After He Zhijun said this, Du Bingbing nodded with satisfaction.

"What you said is right. If Qin Yuan hears it, he will definitely be very happy, because that is what he really thinks in his heart.

Now you should understand, it's not that I don't help them, but that I have nothing to do now. I have to quickly find out who is blocking the process. "

"This person is not easy to find. Everyone in the army knows about Qin Yuan's bad temper. In addition, he and Lei Shen master and apprentice have offended many people.

Someone deliberately got stuck on this matter and refused to pass the process, just to teach them a lesson through this matter. "

"So I wanted to go to the surrounding units to investigate after get off work to see if there were any results. As a result, I was about to leave you, and you guys stopped me here."

After Du Bingbing finished speaking, the three people looked at each other awkwardly.

Li Erniu also saw through Du Bingbing's character. He knew that she was a very good girl.

"Uh... I'm so sorry. My attitude just now was really not very good. It seems..."

Li Erniu put his hands on both sides of his thighs tightly, and awkwardly put away his legs from the sofa, and then stood up.

Du Bingbing thought he looked quite cute in this contrast, and couldn't help laughing.

"You were just being so arrogant in front of me, but now you're thinking about the issue of politeness. Sit down quickly. As you said, we're all off work, so we can have a good discussion.

After all, I've just been here for a short time, and I don't know many people very well.

I can sort out the whole process with you, including which unit is the intermediate node, who is responsible for approval, and where it is not approved.

You can also help me analyze where the process is stuck.

I have been looking for friends who are familiar with Qin Yuan, and you took the initiative to deliver it to me. This is also very good, and I can trust you first."

When Li Erniu heard Du Bingbing say this, he realized that this girl had such a good personality.

He is not only a little hot pepper, but also a relatively easy-going person. When everyone sees that she looks fair and clean, they all think that he is as cold as he looks on the surface and is unwilling to pay attention to these people.

"I didn't expect that Deputy Chief of Staff Du Bingbing is also a heroine. The last time I saw someone with such a good personality was An Ran."

"Yeah, An Ran is really good, and his relationship with Qin Yuan is also very special."

After Du Bingbing finished speaking, none of them spoke.

"I'm just asking casually. You don't have to be so nervous. It's normal for a guy like Qin Yuan to have a few girls like him."

"Deputy Chief of Staff Du Bingbing, you don't like Qin Yuan too, do you?"

"What did you say?"

Wang Yanbing's voice was very low, and Du Bingbing really didn't hear it clearly.

"Oh, I said you're not worried about Qin Yuan too, are you?"

"Of course I'm worried about him. This is my first job after taking over Thor's job after I was promoted, but don't get me wrong. I don't want to steal Thor's credit. He was just temporarily suspended for some reasons.

When Qin Yuan comes back and explains some things clearly, I believe he will be able to resume his job. He will continue to be your chief of staff normally, and I will be his deputy."

Chapter 2319 Successfully escaped from the garbage truck

In cities in neighboring countries, Qin Yuan parked his car opposite the Friendship Hospital.

Chen Jixiang looked around and looked around.

"Brother Qin Yuan, is it safe for us to park the car here? Mr. Norman Karim's people won't come here to catch us. We two don't have weapons in our hands. If they attack us in large numbers, Come up, we might just have to catch him."

"I asked you, can this kid like you have some potential?

With me by your side, what are you afraid of? Didn't you keep saying you trusted my ability? Why are you starting to have doubts now?

Don't worry, even if they come to attack us, with me standing in front to take bullets for you, what are you afraid of? "

"Brother Qin Yuan, I am really touched when you say this.

However, I don't want you to be in any danger. It's better for all of us to be safe. Mr. Norman Karim is an inhumane guy.

If we cannot successfully send Jason and the others away this time, what will happen next? I can't even think about it.

We can ignore other people, such as Azhe.

He belongs to Mr. Norman Karim, but Jason can be considered our friend after all, and he has sacrificed a lot for us. The key is that his daughter is still fostered by Fan Tianlei. "

"I didn't expect you to be quite interesting. I thought you would choose to escape out of fear."

"I'm not that kind of person. You didn't bring He Chenguang out this time. It's absolutely right. His force value is relatively high and he can stay in the embassy to protect Sister An Ran."

"safely?"

Qin Yuan couldn't help laughing when he heard this.

"You have only known An Ran for a relatively short time, so maybe you don't know much about him.

You know that he performs international missions and often performs secret missions. His adaptability is stronger than mine and he does not need anyone to protect him. He is not the little girl you imagine who needs protection from others. "

"Brother Qin Yuan, tell me who is more powerful in your mind, Sister An Ran or Du Bingbing?"

Chen Jixiang asked and smiled mischievously beside him. Qin Yuan immediately saw what he was thinking.

"I said that you brat didn't learn well, but instead you said such things in front of me.

I can tell you that the two of them have similar status in my heart. They are both very outstanding girls, and both of them have higher positions than me.

I'm just an ordinary soldier. I've been in the army for a few more years and have more experience than you.

However, both of them are relatively high-ranking people, and even Thor is never stingy in praising them.

Although Du Bingbing is relatively aloof, his abilities cannot be underestimated. He has now become deputy chief of staff at a young age, which speaks volumes. "

After hearing this, Chen Jixiang covered his mouth and snickered.

"Brother Qin Yuan, I originally thought that Sister An Ran's status in your heart was unparalleled. I didn't expect you to pay more attention to Du Bingbing now. He is very interesting to you. Didn't you also say that you would treat others to spicy food when you go back? Is it hot?"

"I was just joking with him casually.

How could a cold-blooded person like Du Bingbing like eating Malatang?

Besides, his status is extraordinary, and you know it very well. You can't even eat Malatang, such a cheap thing, if you invite him to dinner.

We have to treat him to a seafood dinner no matter what. He has paid a lot for our actions.

I should express my gratitude to him, but this will all happen after we successfully return to the army. It is still a bit too early to say this now. "

"Du Bingbing's feelings for you are extraordinary. He is willing to do anything for you."

"If you continue to talk nonsense, you brat, I will leave you here and not take you back to the country."

"That's not possible. I made an appointment with Li Erniu. After we go back, the two of us are going to have a good vacation and relax for a few days."

"Li Erniu? When did you have contact with him?"

"He and I were in the same company. Of course we knew each other, and he was the one who took me with me when I first joined the army. But later he was assigned to do other things and didn't have much contact. But the two of us The two are always in touch."

"So that's it. I think you should have less contact with Li Erniu. He is just a big boss. Now is the age of knowledge. Anyone who can master knowledge can rise up as fast as Du Bingbing."

"Isn't it because of his family connections that Du Bingbing was able to go up?"

"Don't listen to those people's gossip. They just don't want to admit Du Bingbing's excellence. How can he be promoted so quickly in our army if he has connections? Moreover, he is still a girl, and there is much room for promotion in our army. People need to be small."

At this time, at the embassy, they discovered that the mercenary shoes had left, and Liu Mei also led people to dismantle the bomb planted by Efite.

Immediately afterwards, Liu Mei said to Wang Xin on the intercom.

"We have successfully dismantled the bomb under the manhole cover just now. Oh my God, this bomb is a specially made model. It seems that this guy really hates Qin Yuan and wants to blow him to pieces with this bomb. .

This bomb is worth a lot of money, and it is absolutely extraordinary that it can be brought here from other countries. "

"The bombs may not be brought from other countries. Don't forget that Aifeite is Lao K's subordinate. What kind of business is Lao K doing? It's arms trading."

"You are right. They sell these things. It is normal to have some inventory.

However, I am a little scared now. This guy is a dangerous person. He is a time bomb. What if he has other lethal weapons? Maybe he has been watching us all the time."

He Chenguang regarded Qin Yuan as his best brother. After hearing this, he was also a little worried.

"What you said is very likely to happen. I am also very worried now. Why don't I intercept Qin Yuan halfway and explain these things to him so that he can be careful."

An Ran saw that He Chenguang was so anxious, and he quickly comforted him.

"He Chenguang, you don't have to worry about these things. In fact, I have already thought about it in my heart.

I will inform Qin Yuan on the phone in a while. The message at the dock has been arranged. He will send Jason and his brothers back to our country and let them go first."

"Wang Xin, is the dock really ready? It would be terrible if something goes wrong after Qin Yuan and his men arrive.

Mr. Norman Karim has too many people. He is likely to intercept them halfway. We must prepare everything in advance to ensure that they can set sail immediately after arriving at the dock.

When they arrive at the dock, they can get on the boat and leave directly to ensure the safety of these people."

"Yeah, I think so in my heart. In this case, this is the only arrangement. You go and inform them now to let Qin Yuan take people to the dock quickly. I don't know if he has met up with Jason."

As soon as the voice fell, Shen Man contacted the embassy.

"Consul Wang Xin, I have completed my mission now. Qin Yuan and his team have already driven away from the hospital, taken the bullets, and the evidence is gone.

Now you can act boldly, even if Mr. Norman Karim finds the maritime patrol.

There is no substantial evidence, and there is no way to prove that Qin Yuan and his team have been here. And I heard Qin Yuan say that he has the ability to delete all surveillance. In this case, let's arrange it this way."

"Yeah, that's right, you are right, Qin Yuan has the ability to delete surveillance. I don't know how he did it, but I know very well that he did succeed, which also surprised me."

He Chenguang looked at the surprised Wang Xin and said calmly.

"You don't have to worry about this matter. Qin Yuan is a very magical person. He will definitely do what he says he will do and will not lie to us. He will not let anyone around him be in any danger."

"Well, since the things at the hospital have been resolved, you should also be careful to prevent Mr. Norman Karim's people from discovering your plans at any time."

"Don't worry, I have been in the hospital for so many years, and no one has ever doubted me."

"Yeah, if there is nothing else, then I will hang up first. No, I have an important question to feedback to you later."

Shen Man was obviously a little impatient when she heard this.

"Do you know how many hours I have slept these days? I can't even open my eyes now. If there is anything important to report to me, it's better not to tell me if it doesn't matter to me."

"I don't want to waste my time talking to you. I just want to tell you the most important thing. That is the mercenary Scorpion. He came to our country."

"Scorpion? Ruan Wenxiong?"

"Shen Man, you know a lot. You can even call him by his nickname."

"What's the matter? Of course I know his name. How did he come here? He has been performing special missions internationally. He can come here today, which means someone hired him, and the price must be very high."

Scorpion has been blacklisted by various countries. Wherever he goes, many people will avoid him. I believe that he came here this time. The letter should be related to Qin Yuan."

"Do you think so too?"

"Here, the only person who can cover the sky with one hand and afford a high commission is Mr. Norman Karim. His biggest worry so far is that if Qin Yuan can get rid of this guy, he should be willing to spend any amount of money."

But I can't think that Mr. Norman Karim knew Fan Tianlei when he was young and knew that Qin Yuan was a soldier under Fan Tianlei.

In this case, why can't he give Fan Tianlei some face and let Qin Yuan go? What's the point of doing this now? "

"You'd better not care about the grudge between the two of them. Even Qin Yuan himself can't explain this matter clearly. I tell you that it is because such a dangerous person came to our vicinity that you have to be alert. "

When Shen Man heard this, he couldn't help yawning and said.

"Twelve points of energy? I tell you, I don't even have two points of energy now. I'm really sleepy now. If you ask me, you'd better stop torturing me. "

"Oh, you look so tired. Go back and rest. Stop nagging here. Qin Yuan and the others have left the hospital and are going to the dock next. It has nothing to do with you. You can't help them."

"Wang Xin, you told me this. There is no need for me. I will go back and rest now. I am too lazy to tell you this."

Shen Man hung up the phone directly. Although he said this, he was still very worried about Qin Yuan. He was going to put on his clothes and observe secretly outside to see if he could find Qin Yuan and his vehicle.

See if these people can get out of the garbage truck and transfer to Qin Yuan's car. Maybe there will be some mistakes in the middle. If there is only a place where he is needed, he can help in time.

On the other side, Jason ran down from the garbage truck with his two brothers, A Kun and A Ming, and Huang Mao. There were still some traces of black plastic bags on their bodies.

After coming out, A Kun and A Ming held the fence beside them and vomited directly.

"Ugh..."

"I can't hold it anymore. I couldn't help it when I saw you vomiting. I didn't expect these medical wastes to be so disgusting. At first, I thought I could accept it. Now I finally understand that these doctors are not ordinary people. No wonder they are called angels in white. They are so great.

There are all kinds of things in these medical wastes. The smell inside is something I will remember for the rest of my life. It's even worse than the smell in the morgue."

"The temperature in the morgue is very low, so there shouldn't be any smell."

"Yellow hair, you can actually hold on. It really surprises us. We thought you would be the first one to give up?"

"I can only hold on to this moment to save my own life." Yes, what else do you think?

I couldn't bear it anymore, I almost vomited. I will never have anything to do with medical waste again in my life, even if it's kitchen waste or cat and dog feces, I can tolerate it.

What's more, there are many viruses in this medical waste.

By the way, I remember the nurse gave us some disinfectant spray just now, let's spray it quickly, and go to Qin Yuan's car later, don't pass the virus to him. "

"Okay, now that you said that, I just remembered that he did give each of us a small transparent bottle of spray just now, let's spray it first. "

At this moment, Qin Yuan and Chen Jixiang, the two of them have been hiding in the car watching the actions of these people.

"Look at how painful they are next to them, is it necessary to be like this? I didn't expect these big men to be spoiled and couldn't stand staying in the garbage truck for a while. "

Chapter 2320 These information can only be seen after being decrypted

At this time, Jason also saw that the car parked next to him was a little strange.

"Don't cry, the car next to him should be Qin Yuan. I seem to have seen him vaguely."

"Ah? He's too fast."

He just came back from the hospital and was ready to park here, and he parked specifically where we got off.

He is really a god-level figure, as if he knows what we will do next. I feel that he is a bit scary now."

Chen Jixiang saw them whispering next to him through the window, and he smiled and said.

"Brother Qin Yuan, these people must be wondering why we can find their location accurately. They are so impressed by you now."

Let alone them, I have always admired you very much.

In this case, let them come quickly, don't waste time, maybe Mr. Norman Karim will send someone to find us in a while."

"Even if Mr. Norman Karim sends someone, I'm not afraid."

"Oh, of course I know you are not afraid of him. If you are afraid of him, you would not offend him again and again like this."

"Then what are you worried about?"

"I'm worried that we'd better not have too many conflicts with him, or even accidentally shoot him. We are about to leave here, why bother to cause trouble?"

I'm afraid Sister An Ran has already been in the embassy. I can't bear to think about it anymore.

Let's send them to the dock quickly, and this matter will come to an end. After sending them back to China, we don't have to worry about anything.

By the way, did the embassy tell us where their ship is docked? After we send it there, how can they find people?

The current situation is more troublesome. Mr. Norman Karim's people are also in the maritime patrol force.

Even if we have taken the evidence back, what if they stop us halfway and don't let them leave here, and they just happened to find this bullet from you.

This is solid evidence, and all our efforts will be in vain. "

Qin Yuan realized at this time that Chen Jixiang was a more careful person. He thought he was just a nervous brat before.

"I didn't expect that you have made a lot of progress by coming out with me this time. You wouldn't think so much before. Don't worry, I have arranged everything, and the embassy has also told me the specific location of the ship. "

Jason tentatively protected A Kun and A Ming behind him, and Huang Mao followed them closely behind.

Jason walked directly to the side of the car, and Qin Yuan rolled down the window.

Seeing that it was Qin Yuan and Jason sitting in the car, he was finally relieved, and he immediately smiled with relief.

"Finally I've waited for you here."

"Don't say so much for now, get in the car, and take you away quickly. By the way, you didn't leave any traces when you got off."

"Qin Yuan, don't worry.

We have prepared all of this very well, and there will be no traces left for them.

If Mr. Norman Karim wants to track us, it is absolutely impossible, and there are no surveillance equipment around, we have completely avoided it.

Jason is still very professional in this regard. Don't forget that he used to be a man who followed Lao K and was not so careless."

"Just now I saw you holding the fence and vomiting all the time, so I didn't tell you to wait until you finished vomiting before getting in the car, otherwise I can't explain to the embassy if you vomit in the car."

A Kun and A Ming felt a little embarrassed.

"Qin Yuan, I really want to thank you this time. You caused trouble on our ship when you came here. This time we are even."

"You are Jason's good brothers, which means you are my good brothers. I will never care about these things with you. Besides, you didn't treat me badly when you were on the ship."

You are targeting He Chenguang. If you have the chance, you should apologize to him. But I believe there are many opportunities. We will have the chance to meet again after we return to China."

At this time, Huangmao was reluctant to leave.

"Are we going to the dock now? I have no money, nothing to bring, and I haven't dealt with my car dealership."

"Yellow Hair, I know it's not easy for you to abandon everything here and follow us. The reason you made this decision is entirely because you trust me."

Don't worry, I won't let you down. I will be responsible for you wherever I take you."

At that time, if you want to follow me, I can also allow you to join the special forces, but I will first conduct a partial investigation on you to ensure that you have no murders and have not done anything illegal."

"I definitely don't have any murders!"

I wanted to join Mr. Norman Karim's group at the beginning, but he didn't allow me because he didn't like my overall strength, but now I think I should thank him at that time."

If I really joined Mr. Norman Karim's group, I might be a fugitive now, and there is no way to go back to the country with you."

And I can't go with you, otherwise it might implicate you."

Now my hands are very clean. I can give you the final guarantee on this, and please believe me. But I did leave with you, but I don't want to join the special forces."

I think you are working too hard, and some tasks really require risking your life to do."

I don't want to die. I cherish my life very much. It was not easy for my mother to give birth to me. I have to protect myself. After I go there, I can do other things. "

Chen Jixiang knew that the other party was joking and said this deliberately.

"It seems that you are really a person who cherishes life, but this is good. It shows that you have a strong will to survive. Since Brother Qin Yuan wants to take you back, you can go back with us.

I won't let you starve to death after you go back.

Because it seems that you can make money by begging for food and making money by picking up garbage. Why not open a garbage station to recycle garbage? This is a very good thing. "

"Recycle trash? I..."

As soon as Huang Mao heard the word garbage, he recalled the medical garbage they saw in the trash can just now.

"Hurry up and open the window. This kid might be vomiting. Don't vomit in my car."

"Your car isn't very clean either. Don't worry. I just felt a little nauseous just thinking about these things. Brother Qin Yuan, let me tell you, you must not stand and talk without pain in your back.

If it were you in this garbage truck, you would definitely not have an easy time.

Because the things inside are so dirty that you have never seen them before. Just like Jason said, if it is domestic garbage, even animal feces, I can tolerate it.

However, biological waste is really unbearable. There are viruses in these medical wastes. "

"Huh? There's still a virus?"

"Then have you disinfected it? Don't bring the virus in our car. When the time comes, we can go back unharmed. If we are infected with so many viruses, it will be for nothing."

"The little nurse gave each of us a bottle of disinfectant.

They told us to take off our protective clothing after getting off the bus, and then disinfect our entire bodies, but there was no problem. "

Qin Yuan smiled and said.

"In fact, these medical wastes are disinfected before being processed. Their hospitals are very strict in these matters and will not let the virus spread.

If medical waste could spread the virus casually, wouldn't the whole city be destroyed?

They are still very cautious when handling these things. The little nurse is a professional. He knows what to do and will tell us thoughtfully.

Since he didn't say anything, there must be no problem. Just disinfect it yourself.

But you may have to stay on the ship for a few days on the way back. If you have any discomfort, you must bring it up immediately. "

Huang Mao felt a little excited when he heard this.

"Oh, so I've never been on a boat before. This is also a new experience in my life. What does it feel like to be on a boat?"

A Kun and A Ming looked at each other and smiled when they heard this, and then said.

"Huang Mao, I think your first boat ride may not be a good experience, because I don't know how your balance is. If you feel that your balance is not good, you will suffer along the way and get seasick. It can torture people to death."

"What balance?"

"It seems to have something to do with what body is in your mind. Just like some people are born not to get seasick and can do whatever they want in bed. Some people will start vomiting as soon as they get on the boat. You quickly pray that you are not like that. Be the kind of person who is prone to seasickness, otherwise you will definitely have a hard time these days."

At this time, Qin Yuan also saw that Jason seemed to have something to say, but did not say it.

"Jason, I have always regarded you as my good brother. If you have anything to say, it's okay. I think you want to ask your daughter Yaya."

"Yeah, I don't know how Yaya is doing now. He must be feeling very uncomfortable not seeing his father for so long, but these can be overcome. I just don't know how his illness is."

"Du Bingbing has been helping you find a doctor, and he is also helping Yaya find a replacement heart, but you should know very well that you need to queue up for a heart transplant.

You have to wait in line for his turn when you have a suitable match.

However, they have been trying their best to help you find Yaya. The situation is quite stable now. Du Bingbing will send me some news about him from time to time.

We haven't been in contact for a while, so I didn't send it to you. I hope you don't worry too much. Even if we are unreliable, Thor is also very reliable. "

"I heard Thor was suspended."

"The information on your side is quite good. You said that Thor was indeed forced to stop, just to let him rest for a while. This matter has something to do with me.

But you don't need to worry about Thor. Although he is not in the position of chief of staff, he has not been dismissed. After I go back and submit some materials to explain clearly to my superiors, he will resume his position.

And no matter what, the position of Thor is not directly related to your daughter Yaya. I sent her directly to the hospital where Du Bingbing will take care of her. "

"Can I see my daughter immediately after I go back?"

"It's better not to. You know, their country is not safe, and you just stayed in the medical waste for such a long time. After you go back, you can self-isolate for a week or half a month. It's okay, then go to see your daughter."

After Jason heard Qin Yuan's additional explanation, he was relieved. When he first heard Qin Yuan refuse him, he was really worried that Qin Yuan would refuse him to see his daughter.

Qin Yuan drove and looked at his expression, and he could also analyze his thoughts.

"Chen Jixiang, Wang Xin should have sent you some specific information about the ship. You can open it and check it out.

This needs to be decrypted, because this journey is a secret and cannot be let anyone know casually. It is mainly to guard against Mr. Norman Karim. We have our own people around him as an insider, and he must have his own people here."

"Brother Qin Yuan, don't worry, I have just received the message sent to me by the embassy. I know how to decrypt it specifically. I am working on it now. It will take about three to five minutes to get it done."

Huang Mao had never seen such a posture before, and he was shocked.

"So when you send messages, they are also confidential. No wonder you can keep so many secrets. So that's how it is. I'm really shocked. I've learned a lot from being with you today."

Ah Kun and Ah Ming are slowly preparing to leave here. They can finally relax a little and are not as nervous as before.

"In that case, you should hurry up and think about what else you need to tell us."

"Qin Yuan, we came here together by boat. Now we are leaving. Don't you want to go with us?"

"Don't forget, I am not the only one with Chen Jixiang, but also He Chenguang and An Ran. They are still waiting for me at the embassy. The most important thing is that the purpose of my coming here this time is to rescue Professor Fang De's two students.

They are also at the embassy. I need my superiors to send a helicopter to pick us up. This requires procedures. I am not sure when I can go back. You should be able to settle down after you return home."

"I understand. Your mission has not been completely completed. You can't leave here casually. It seems that we have to go back first. After we go back and settle down, we will contact each other about everything."

Qin Yuan said a little embarrassedly.

"Jason, in fact, I have caused you a lot of trouble, but this time I still want to trouble you to take care of Huangmao for me. When I go back, you can hand him over to me. You take care of him for a while. Please."
