Chapter 2321 Successfully sent everyone to the dock

After listening to Qin Yuan's words, Jason turned to look at Huang Mao and said with a smile.

"Your brother is my brother, so what's the big deal about taking care of him? You still need to be polite to me for such a small matter."

Huang Mao heard their conversation and was moved and embarrassed. He felt that he really caused trouble for Qin Yuan and the others.

"Jason, you can't even protect yourself now, how can you take care of me?"

"You don't have confidence in me, do you?"

Huang Mao, let me tell you, even if I am being hunted by Mr. Norman Karim now, I still have many advantages when I return to our own country.

Don't forget, I have a group of brothers who can go through fire and water for me, so it's no problem to protect you.

Qin Yuan has already handed you over to me. Do you think Qin Yuan is an unreliable person? Since he thinks I can protect you well, you just need to trust me and don't worry about other things."

Huang Mao smiled awkwardly when he heard this.

"Hey, Jason, please don't get me wrong. I don't mean to distrust you.

I just think that there is no problem with Brother Qin Yuan's decision. I am afraid of causing trouble for you.

You do have a lot of brothers, but they don't consider me as a brother. If I implicate you, they will kill me?"

A Kun and A Ming said half-jokingly when they heard Huang Mao say this.

"You are right. The boss is the most important in our hearts. If there is any trouble because of protecting your boss, we must kill you."

"Ah?"

Huang Mao hugged his arms with both hands. He looked really weak and helpless now. He always felt like he was on a pirate ship.

"Okay, okay, don't scare him anymore. He is young and timid. If you scare him again, he might just jump out of the car and run away."

Huang Mao said at this time.

"That's not the case. I'm just at risk of being chopped if I stay here.

If I stay here and Mr. Norman Karim catches me, he will definitely kill me if he knows I'm secretly helping you.

By comparison, this is called choosing the lesser of two evils, and I can still weigh it well.

Even if I go to your country to beg, it's better than staying here, but I have sacrificed a lot after all, and my car dealership is worth a lot of money. There are many good cars in it, and I bought them at a high price."

Qin Yuan immediately exposed the yellow-haired man when he heard this.

"You do have a lot of luxury cars in your car, but you didn't buy them at a high price. How can a small gangster like you have so much capital to buy cars? You just provide them with a platform to sell cars, and they are all deposited with you."

Huangmao was very surprised when he heard Qin Yuan's words.

"How do you know so much about my car dealership business?"

Chen Jixiang said proudly.

"Do you even need to ask? Brother Qin Yuan is a god. He knows everything. Otherwise, how could he save all of you? Not to mention knowing your car model, he can easily check you thoroughly."

"So scary?"

"You also have a big data system here. All your information is in the big data system. As long as you can hack into the big data system, all your information will be exposed."

"Oh, that's it!"

While they were driving leisurely and chatting, Qin Yuan suddenly found that there seemed to be a red warning alarm nearby. There was a car of Mr. Norman Karim lying in ambush around the route they were driving.

"Don't talk for now, we have to take a detour. There are Mr. Norman Karim's cars lying in ambush around."

"Where is it? Where is it?"

"Don't panic. Brother Qin Yuan is here and won't let you get into any danger. Isn't it all shown here? All the vehicles under the name of Mr. Norman Karim's group are shown here. We just need to avoid them perfectly."

"Qin Yuan, where did you get this map from? Are you sure that the vehicles shown on it are under the name of Mr. Norman Karim's group?"

"Don't worry about this. Didn't I just say that with the big data system, everything is under control. I just need to check it out."

What vehicles and license plates are under the name of his group? I checked it with my navigation data and I understood that it can perfectly avoid all his surveillance."

"Oh, so that's the case. How did you come up with this big data system?"

Faced with Jason's questions about himself, Qin Yuan could only smile awkwardly and said something.

"No comment!"

"Okay, I get it. These are all secrets within your special forces and cannot be publicized."

In that case, I won't ask so many questions.

Anyway, since I met you, you always come up with some very strange things that shock me. I really sigh all the time. It turns out that technology has developed to this point."

"Brother Qin Yuan, how long do we have to go to the dock?"

"I just took a rough look. If we want to bypass this vehicle, we may have to take a detour of about 20 kilometers. It will take less than half an hour."

The main thing is that this car is really a bit awkward. If it were an off-road vehicle, I could take you there in ten minutes. I am a drag racing expert. "

"It's better not to race too fast, safety is the most important thing!"

There are thousands of roads, safety is the first priority, driving is irregular, relatives shed tears, have you forgotten? That's what the movies say. "

Chen Jixiang, this kid sometimes has an inexplicable sense of humor. Qin Yuan was also amused when he heard what he said.

"How long has it been and you still want to watch a movie?"

"I call this a combination of work and rest.

We have been here for almost a month. We should be able to take a few days off after returning to China. Then I will go out and have a good few days.

I want to get a massage, watch a movie, go shopping and eat delicious food, no, I want to eat hot pot!

The things we eat here all day long are no different from pig food. Do you see that? I'm already starving and thin.

We all do physical work. If we don't eat enough, we won't have any physical strength at all. When I was in the army, I always ate a lot, so they called me a loser. "

Chen Jixiang, while talking, looked forward to life after returning.

Qin Yuan was also thinking that after going back, he would be able to see Li Erniu and Wang Yanbing, two good brothers.

But I haven't seen them for a while. Since I accepted this special mission, I haven't met them until now. These old guys must be worried enough if they don't see me.

On the other side, at the embassy, Liu Mei led people to dismantle the traps and bombs set by Efit and then returned to the house. He walked to Wang Xin with the dismantled bomb and the iron ring in his hand.

"Has everything been resolved outside?"

"Of course, do you still have any disbelief in me? As long as I am here, there is nothing that cannot be solved. In my dictionary, there is nothing impossible!"

He Chenguang stepped forward and inspected the iron ring that had been removed from the bomb.

"Can I take a look?"

"Of course, take a look. You are experts in this field. We don't know much about these things. Take a look to see if it is the new type of micro bomb you are talking about."

An Ran also went up to check this thing.

"I'm really sweating for Qin Yuan. Fortunately, Liu Mei is here. If Liu Mei hadn't been watching the surveillance, we really couldn't imagine that this guy hid such a dangerous bomb under the manhole cover.

Although this bomb is relatively small in size, its power is not small at all.

This is the latest bomb introduced in the army, but you also know very well that the army only has this thing in stock, and it is not used at all in normal times.

We also met him once in the warehouse. We don't know how powerful he is, but we only saw it in a video demonstration.

It seems that Efit and Old K are really experts in selling arms.

Even the latest type of bomb can be found. Fortunately, you dismantled it in time, otherwise the consequences would be disastrous. This guy also did not pull all the safety rings directly for the sake of safety. "

Wang Xin was not from the army. He was very insensitive to these things and had never seen them before. He was just stunned when he heard them.

"What do you mean you didn't pull out all the safety rings?"

He Chenguang stepped forward to demonstrate to the other party and said while demonstrating.

"Did you see? The original shape of this bomb should be a shape like a heart.

It has two safety rings on the left and right. This guy only opened the safety ring on the left. Once the safety ring on the right was opened, it was never removed.

Maybe then, we can only watch it explode, and all the bomb disposal experts will not dare to step forward to dismantle it. Think about how powerful this bomb is. "

"I see. I didn't expect this guy to be quite afraid of death when he arrived. He left himself a way to survive."

"It is human nature to seek advantages and avoid disadvantages, let alone a person like him who is above interests.

How could Efit sacrifice himself to deal with Qin Yuan?

This bomb is worth a lot of money. The fact that he can use it to deal with Qin Yuan is enough to show that he hates Qin Yuan deeply.

However, he did not expect to encounter the mercenary Scorpion halfway. Perhaps Scorpion came here and he did not have time to open all the safety loops.

If we calculate it this way, we have to thank Mr. Norman Karim for sending a terrible mercenary like Scorpion, which actually gave us a glimmer of hope. "

When Wang Xin heard this, she felt very scared now.

"He Chenguang, I would like to ask you, if this bomb really explodes, will our embassy be implicated?"

"Didn't we all tell you just now? Although this bomb is relatively small, its power is not small at all.

He buried the bomb in the manhole cover at the entrance of the embassy. If it exploded below, not to mention the embassy, everything else around it would be blown to ashes. "

Wang Xin's face turned pale with fright when she heard this.

"Don't worry, the danger has been eliminated now, we have defused the bomb, there won't be any problems."

"It's not that I'm scared now, I just have some fear.

If this bomb really explodes in front of the embassy, then not all of us will die. I am not afraid of death. I just don't want to implicate those innocent people.

They have left their hometowns to work here for so many years. If they persist for another year or two, they will be able to be transferred back to their country to work.

If they died here at this time and at the last moment, I believe they sacrificed their lives for the country and would not have any complaints.

But what a pity, I am not afraid of death, but what I am really worried about is the other staff here. They are all innocent. This Efite is really damned. He actually used such a method to deal with Qin Yuan. "

"So, if Qin Yuan and the others stay here for one more day, not only Qin Yuan himself will be in danger, but your embassy will also be in danger. We must coordinate with them as soon as possible to send a helicopter to take us all away."

"I have already reported this matter to Du Bingbing.

He has also been coordinating with relevant departments, but you should also know very well that it is very difficult to coordinate these things in our army.

Especially Qin Yuan, they came here illegally. If the army sent someone to take them back, if someone caught them, the matter would not be clear internationally.

Therefore, it is understandable that the superiors are a little slow in the coordination process.

An Ran, He Chenguang, don't blame them. Du Bingbing was also very anxious and wanted you to go back. When the two of us were on the phone, he was also extremely anxious. "

"I believe in Du Bingbing's strength, and I also believe that he has tried his best. The next thing will just have to wait."

He Chenguang was a little shocked when he heard An Ran say that he completely believed in Du Bingbing. Both of them had a good impression of Qin Yuan. In a sense, they could be regarded as love rivals.

Assuming that it was his love rival, he would be eager to seize the opportunity to step on her. The fact that An Ran believed in Du Bingbing also showed that he was a very classy girl.

"Do you really believe him that much?"

"Of course, what I said is all from my heart. I know you are thinking that the relationship between Du Bingbing and me is relatively subtle, but I never think so. This is a major event that affects many people's lives. He will never be here. Make a fuss about this matter.

And he has now replaced Fan Tianlei and become the commander of our special forces team. Of course, he does not want his team members to be in any danger, and has been trying his best to coordinate this matter.

Let's discuss it after Qin Yuan comes back. If it doesn't work, we can only use other connections and we can all act separately. "

Chapter 2322 The information received at the last moment is accurate

An Ran was really worried for Qin Yuan. He had never thought that the power of this bomb would be so great. Fortunately, Liu Mei was able to discover it in time.

"Liu Mei, I know you have worked here for many years and have rich experience. I am really grateful to you for this matter.

Don't worry, we will report this matter to our superiors after we go back, and we will give you some rewards at that time."

Liu Mei has always been a very low-key person. When he heard An Ran say this, he was naturally happy, but he had to explain himself.

"An Ran, what I did was just my job.

I didn't plan to ask you to go back and report the basic situation to your superiors, and I didn't plan to get any benefits. If there is no benefit, will you just do nothing?

This is not my personality. I hope you can understand it. And sometimes I do have a bad temper. I hope you can be more tolerant.

The key is that it is not easy for us to work well together. Now think about it. You are going back to China soon. I think it's a pity. I personally admire you very much, An Ran."

Wang Xin saw the mutual appreciation between the two girls. He felt that this kind of thing was very gratifying.

He Chenguang was a little worried at this moment. After all, he did not go on the mission with Qin Yuan, and he was still very concerned about this matter.

"Since the bombs have been successfully dismantled, we have to search the whole city for Efit's traces."

"The bombs have been dismantled, why are you still looking for him? You know he is just a shameless villain. He only dares to do some actions and dare not confront us head-on."

At this time, He Chenguang suddenly thought of a very important thing.

This guy was scared away by the mercenary Scorpion just now. He seemed to leave in a hurry. When he was setting the bomb just now, it seemed that he had something in his mind. Maybe it was his last move. He also planned to leave next.

"Liu Mei, can you help me adjust the surveillance just now? I want to see what his expression was when he was setting the bomb."

Liu Mei felt confused when she heard this.

"He Chenguang, what are you talking about? The other party has already escaped, and the bombs have been dismantled by us. What's the point of wanting to watch the surveillance video of him not knowing about the bomb?

It's just a waste of time. Are you bored?"

"I hope you won't be in a hurry to mock me. This is a question I suddenly thought of. You will know it when you turn on the surveillance."

"It's not that I don't want to help you, but I think it's completely unnecessary. He was masked the whole time, wearing a hat and a thick hoodie. If you don't look carefully, you can't tell that this person is Efit.

Even he 's face, how can you judge his facial expression? "

"When we were in the army, we learned about psychology. It is not necessary to rely entirely on his expression to judge his body movements. We can also judge. Please believe me, I will not do such boring things for no reason.

Qin Yuan and his men are about to arrive at the dock. I am afraid that my guess is right. It will be bad if we fail to notify Qin Yuan in time. Instead, they will give the other party a chance to sabotage. "

An Ran looked at He Chenguang who was so excited. He seemed to understand what the other party wanted to do.

"Liu Mei, we suddenly thought of this matter. Please help us check it. I still have to trouble you. "

"Okay, this is not a trouble. You have already said so. It must be useful. I will help you retrieve the surveillance when he didn't know the bomb. "

At this time, Qin Yuan was already driving and was about to arrive near the dock.

He knew that according to their previous rules, the information given before was generally inaccurate. Although the previous information was encrypted, it might not be completely accurate and could change at any time.

After all, Wang Xin was the consul of the embassy, and he was not very clear about the secret combat plans in the army.

Just as he was about to watch the surveillance, a message suddenly appeared on his mobile phone, which was sent to him by Du Bingbing.

"The message said that Du Bingbing informed me that another ship had been replaced for Qin Yuan and his men. What is going on?"

He Chenguang patiently explained while waiting for the surveillance video to appear.

"Wang Xin, don't worry, and don't be too surprised. This is the tradition of our army. When we are performing a mission, we will never reveal the most important information until the last moment.

I believe that Du Bingbing should have received the news that Qin Yuan is about to arrive near the dock through the satellite signal, so he pushed this message to you. You should quickly contact Qin Yuan to tell him that the ship's information has been changed."

Although Wang Xin didn't understand why they did this, he did it for safety reasons, so he immediately prepared to contact Qin Yuan.

"Hello?"

"You don't seem to be surprised to receive my call."

"Why should I be surprised? Because I know you will definitely contact me. According to our usual mission execution habits, you should give me accurate information at this time."

After all, it was Chen Jixiang's first time to complete a mission with Qin Yuan. He didn't understand many things. He felt a little surprised when he heard what Qin Yuan said.

Jason saw Qin Yuan making a phone call nearby and was too embarrassed to disturb him, so he just pushed Chen Jixiang with his finger.

"What happened? Why are there any confidential issues involved?"

"You don't understand this matter. In fact, it is a rather troublesome matter."

"ah?"

"In fact, every time we perform a mission, we may have to get the most basic information at the last minute. I was a little confused just now, but I reacted in an instant."

While Qin Yuan was on the phone, he heard Chen Jixiang's explanation to the other party. He also felt that this guy was really a very smart guy.

Huang Mao heard their explanation beside him, and he was able to breathe a sigh of relief. He thought something had changed just now and he was in danger again. But now he couldn't withstand any danger and wind and frost.

"My dear mother, can you stop scaring me like this? It will be uploaded soon. If you do something like this to me, I thought our whereabouts were discovered, and I almost wet my pants again. "

Of course, Huang Mao is just an exaggerated expression, but everyone also seized this opportunity to ridicule him.

"Wet your pants? It shouldn't be that big of a deal. You're already so old, why do you still wet your pants? Clean up quickly and get up quickly. Don't be embarrassed here.

If you pee your pants, don't pee in the car. The smell will be very strong for all of us.

Do you want to smoke us to death? Besides, this car belongs to the embassy. You are going to pee on their car. How are we going to hand over to each other after we get back? "

Huang Mao and Chen Jixiang also bickered, going back and forth.

"It seems that you have been mentally prepared for a long time. When I received the message from Du Bingbing just now, I was still a little worried and scared. I almost thought something went wrong.

If something goes wrong with you, I will also be responsible. Now that you have received accurate information, send them on board. "

Qin Yuan smiled, but he didn't say anything. At this moment, he didn't know that Efit didn't know about the bomb at the entrance of the embassy.

On the other side, Liu Mei worked hard to find the surveillance video just now.

An Ran and He Chenguang analyzed it through body language and movements. Efit seemed to be in a hurry, and the direction he ran away seemed to be the direction of the dock.

He Chenguang realized what was going on in an instant, he exclaimed.

"Oh, no, no, no, no, don't wait any longer, many things have far exceeded our imagination.

Qin Yuan, you must be careful. It seems possible, no, it should be said that there is a huge possibility that your old rival is also near the dock. "

He Chenguang's anxious voice was also heard by Qin Yuan. He immediately understood what was going on. It seemed that they were indeed in danger this time.

"What!"

"Efit, a very powerful mini-bomb was placed at the entrance of the embassy. Fortunately, Liu Mei discovered it in time, and we have defused the bomb.

But just now I suddenly thought of a problem, that is, this guy seemed to be walking in a hurry. I judged it through his body language analysis and the direction of his escape.

Effit is most likely planning to go to the dock, return to his own country, and return to Old K.

He has now offended Mr. Norman Karim and cannot stay any longer. Hurry up and get everyone on our ship. Don't be discovered by this guy, and don't touch him. He is good. "

Qin Yuan never thought that he and this guy were so destined. Obviously, the two of them gathered here again. His most important goal now is to send these people back home safely so that he can relax. Take a breath.

Encountering danger again at this last moment, Qin Yuan was really exhausted mentally and physically. He wanted to quickly determine where this guy was. If he was in the public place and the enemy was in the dark, then he would be at a disadvantage.

"When I think of a way, we can also invade the monitoring equipment here at the dock, but it will take some time, but now it's too late."

"Effiet, it should be impossible for him to show up at the dock openly, because he is being chased by scorpions."

"Scorpion?"

Qin Yuan was shocked when he heard these two words.

"Are you talking about the internationally famous mercenary Scorpion?"

"Who else could be there besides him? The two of them met just now at the gate of the embassy. It should be that this guy betrayed Mr. Norman Karim, and the other party hired a scorpion to kill him.

Anyway, he was so frightened by the scorpion that he ran away, but I'm not sure where he is now. Based on the judgment just now, he probably went to Ma Tou, so he called you deliberately to remind you. . "

"Are you sure Scorpion's target is just him?"

Qin Yuan knew that he had offended Mr. Norman Karim before, and he was very afraid that the other party would also regard him as a target. Then he would be in trouble.

"We are not Norman. How much money did Mr. Karim give him? Who knows how many people he asked to kill? It's better for you to be careful. You have offended others yourself and know it well.

Hurry up and put a few of them on the ship, and our people will be protected, and you don't have to worry about anything.

Hurry back to the embassy. With our protection, you will be safer. Don't forget that there is Chen Jixiang beside you. He is an innocent man. "

When Qin Yuan heard the other party's reminder, his heart felt cold.

"Originally, I thought this matter would go smoothly, but I didn't expect that after going round and round, I would be back to the starting point. Well, I will think of a way for a while. I believe this guy doesn't dare to walk casually. Maybe he doesn't know us at all. Come to the dock."

The question that Qin Yuan thought of was quite critical.

Efit really didn't know that Qin Yuan and the others would come to the dock. He only knew that Qin Yuan went to the hospital to pick up Azhe and the others.

He wanted to use a bomb to kill Qin Yuan when Qin Yuan came back. How could he have thought that the other party would go to the dock and send all these people to the dock.

"This guy and I are really destined to meet each other here again.

Have you ever asked Du Bingbing for information about this ship? Is this the final accurate information? Don't replace me again halfway through. "

"I haven't asked Du Bingbing yet."

"Wang Xin, please check carefully with Du Bingbing again. I will try to hack into their monitoring system first and keep track of Efit's movements at any time.

I'm afraid this guy also wants to intercept me at the dock.

And I think Scorpion's acuity is very high. If he follows this guy to the dock and the three of us meet together, if something goes wrong and a misfire occurs, who can be responsible? "

Qin Yuan's worry is not unreasonable. Scorpion will never let this matter go so easily. He does not take action lightly and must succeed. He does not allow himself to fail.

Scorpion's international success rate has reached 99%. If he wasn't famous, how could so many people trust him and hire him even at a high price?

"What happened? Qin Yuan, can you stop scaring us? Are we unable to leave today?"

The reason why Jason asked him this was not because he was only worried about his own safety, nor was it because of selfishness and worry. He was worried that something special might happen here that would affect their plans.

Chapter 2323 Ask the system to help me find the target person

Qin Yuan thought to himself that if he could ask the system for help, he would definitely be able to find the target Efit.

But the key problem now is that everyone is surrounding him, and he doesn't know when he will have a chance to find a separate space.

Every time you contact the system, you need a separate space, and you must not let anyone know. Otherwise, the system's affairs will be exposed, which will be of no benefit to anyone.

Every time the system comes out, it will be aware of whether there are outsiders around it. If there are outsiders, it is absolutely impossible for the system to appear.

"Brother Qin Yuan, since the embassy has made everything clear to us, then you should stop hesitating and find the target person first.

If Effit cannot be found, we are all in danger now. It will not be of any benefit to us. I am also afraid that it will affect other people.

What should we do if all our efforts fail?

You must not take any chances. This guy is a top killer. After all, he has been with Old K for so many years.

Moreover, Effit himself is also a despicable and shameless person. He has been around us like flies since he came here from our country, and there is no way to get rid of him. "

After Chen Jixiang said this very worriedly, Qin Yuan nodded.

"This is what I am thinking about in my heart, but I have already thought of a good way. Don't worry, you all. When I park the car near the pier, I have to go to the toilet first."

Chen Jixiang complained helplessly beside him.

"I found that you really like going to the toilet. Every time we reach a critical moment, you always have to go to the toilet."

Qin Yuan thought to himself, if he didn't use this reason, what other reason could he use to get rid of everyone's tracking of him?

"There's nothing we can do about it. People have three urgent needs."

Jason was sitting behind Qin Yuan at this time, and he was already starting to worry.

"Mr. Norman Karim has actually sent the mercenary Scorpion here, which shows that he wants to kill all of us."

"Probably not. I have never offended Mr. Norman Karim. I am not even a little shrimp in his eyes. Will he equip the most expensive mercenaries in the world to kill me?"

Huang Mao couldn't help but complain next to him.

However, he has never complained, and he has never thought that others have caused his problems. He has no regrets at all to be able to get to this day. This is also his own choice.

There is no way for others to make these choices for him. He has already reached this point, so he can only bite the bullet and move forward. Whether it is the mercenary Scorpion or Mr. Norman Karim, whoever comes here will No matter what today, they must leave here and reach a safe place. This is the goal they set for themselves.

Jason never thought that he would encounter so many accidents since he met Qin Yuan.

"Jason, please stay here and don't run around for the time being. I don't think this guy will show up without warning. Maybe he doesn't even know that we have arrived at the dock."

"What you said makes sense. Maybe this guy doesn't even know that we are here at the dock, but what if the mercenary Scorpion comes after us?"

Qin Yuan used his hand to send the final ship information that Du Bingbing had just sent him to Chen Jixiang.

"Brother Qin Yuan, why did you send me this?"

"I'm going to go to the toilet in a moment, so you can wait in the car with them. If there's anything wrong at all, you must respond immediately."

This is all the ship information, and the general information is reflected on this.

You can follow the prompts on this mobile phone to find the ship information and the specific docking location.

There will be someone above to help you. An Ran and Du Bingbing have already been connected. If you are really chased by Efit on this road, you must not take me into consideration.

remember! You must upload to the ship with them, and then our troops will take over and you will be safe. "

"Okay, I understand, but I really can't bear to leave you. Brother Qin Yuan, we came here together to complete the mission. Do you want me to go back first?"

"Things always have priorities, and I also want you to return to the embassy with me. We will wait for the headquarters to send people and helicopters to pick us up.

However, if there is a special emergency, you should not go to me and follow them on the ship.

We are our own people on board. Once the ship reaches the high seas, it will be completely out of their control. You no longer need to worry.

After returning to China, Jason, you have to take Akun Amin and Huang Mao to find a hidden location. I'm afraid that whether it is Old K or Mr. Norman Karim, they still don't want to let you go. "

Jason only thinks about his daughter now. As long as his daughter is safe, he will do anything.

"Qin Yuan, don't worry, even if you don't tell me these things.

I also have thoughts in my heart. I will not take them to the streets openly and openly. Our status is relatively sensitive now.

And just coming back from such a mixed place, I have to quarantine myself for seven days to half a month. "

"Jason, it would be great if you could understand all this. These are all my good intentions. You must not let them down."

Wang Xin has passed all the information to Qin Yuan, and they have now arrived at the dock successfully.

After Qin Yuan got off the car, he looked around and found that the target ship was not too far away from him, but it was not convenient to park there, so he could only park here.

Now he has to contact the system quickly to see if the system can help him find Efit.

At this time, Qin Yuan came to the back of an abandoned ship nearby.

He carefully observed the surroundings again and found that no one was watching him, so he quickly stood up and walked to the side to contact the system first. Besides, Qin Yuan is a very vigilant person, and it is absolutely impossible for him to do such a loophole things.

"System system, come out quickly, I need your help now!"

"Dingdong, hello host, I haven't seen you for several days. What help do you need?"

"Haven't you upgraded the system with big data now? In that case, don't hide it, hurry up and help me use big data to find the target person. Efit is also an old friend of mine."

"Ding dong, I received the message from the host, but the target person you mentioned, Efit, is the big black dog in my note!"

Qin Yuan was angry and funny when he heard this, and wiped the sweat from his head.

"Oh, right, I almost forgot, this guy is really annoying, so when you are here, I gave him a note as a big black dog, which makes it easier to find him.

Then hurry up and help me search the system to see if there is any information about the big black dog. If nothing else, he should be within a radius of no more than five kilometers near this area. "

"Dingdong, host, could you please confirm that the search range is five kilometers?"

"I'm sure, it's probably not that big around here, he must have arrived at the dock.

As long as we search according to the prescribed scope, narrow the search scope and the time of seconds, you should be able to search, please hurry up and help me find him.

I am very anxious now and must not miss any useful news.

Efit, this guy has come to me. He is a very dangerous person. No matter what, we cannot ignore his existence.

This is very important to us. If it is really because of us that we ignore something, then we will miss very important information, and I will also harm other people. "

"Dingdong, I received the request from the host, and I am now searching for news about the big black dog nearby for you."

All Qin Yuan can do now is just wait. He originally thought that the meeting went very smoothly, but he never thought that there would be such an unexpected incident. This was a situation that he had never encountered before.

On the other side, An Ran and He Chenguang inside the embassy were waiting very anxiously, and they didn't know when they would get a definite result.

"We have been waiting for such a long time, but we still haven't heard from Qin Yuan. We don't know where Efit and the mercenary Scorpion have gone."

"Judging from the direction of the surveillance just now, shouldn't the two of them have already gone to the dock?"

"This is just our guess. You know, I am very strict, but any news must be judged through substantive evidence.

If we cannot determine their specific location now, we may have to conduct a full search first.

If we just have to conduct a full search, the amount of information we have will be too large, and it will be a waste of time. For us now, time is more precious than anything else. "

Wang Xin heard the conversation between the two of them and knew that An Ran was very anxious at this moment.

"We also have some special operations people working there at the embassy. If you are really so anxious, I will contact them and ask them to help me find the whereabouts of Efit in the embassy.

In fact, this guy poses no threat to Qin Yuan at all, and he is not Qin Yuan's opponent, but I can understand your concerns now.

The recent events have been going on for so long, and each of you is exhausted mentally and physically, very tired, and can no longer withstand any test. "

"Wang Xin, it's better not to use your special action characters for the time being."

"Aren't you anxious? I want to help you solve the problem quickly. Seeing how worried you are, I feel uneasy too."

"Wang Xin, before we came here, the work of your embassy had been going on normally, and there had never been any special incidents.

Since we came here, I have brought you so much trouble, and I am already very embarrassed.

Including Qin Yuan, he is also very guilty. Now that we are in this situation, it will be even more inconvenient for us to trouble you. If more people are exposed, your work in the past few years may have been in vain. "

"An Ran, thank you for your consideration."

"The key is that An Ran is still very confident in Qin Yuan. He believes that Qin Yuan will be able to overcome this difficulty."

At this time, good news came from Qin Yuan's system over at the dock.

"Ding Dong, host, the system has found the target person's trace for you. He is indeed nearby, and some marks have been made on him, which are now displayed on the map."

In an instant, a screen appeared in front of Qin Yuan's eyes. On the screen, he could see the surrounding floor plan. There was a red dot moving around. He could tell that the red dot was the target person.

"Isn't it just a red dot you are talking about?"

"It is a mark made by the system. This guy is the target person. It seems that he should be very close to your car."

Qin Yuan saw the situation on the map and felt the danger.

The other party may not know that they are also at the dock at this moment, but if he sees the people in the car, then he is likely to think of some other bad ideas in a hurry.

If Qin Yuan returns to the vicinity now, he will definitely meet this guy face to face.

But if he doesn't go back now, there is no way to guarantee the safety of other people in the car. He is now in a dilemma.

"System, can you help me notify Chen Jixiang and the others not to come out for the time being? They must hide in the car to be safe."

"Ding Dong, host, please rest assured. I am notifying them not to leave the car for the time being, but it is not certain whether they can receive the message.

In order to prevent the host from being exposed to the system, I notified them with your mobile phone number."

"I didn't expect that your system is quite thoughtful and has thought of all these details. In this case, I am still very grateful to you. Then tell me what we should do next?"

"Ding Dong, this suggests that the host should not show up for the time being. This moving target seems to be approaching the ship next to it. After he gets on the ship and leaves, you will appear again and you can perfectly avoid him."

"What you said makes sense. Let's do it according to the current plan."

"I will hide next to me in a while to prevent him from finding me. I am the person he hates the most. If he sees me, he is very likely to lose his mind all of a sudden."

At this moment, Chen Jixiang and others in the car also received Qin Yuan's message.

"Jason, Brother Qin Yuan just sent me a message, he told us to stay in the car for now and not go out, Aifeite is nearby."

"Did they meet?"

"I don't know about that, he just said he found this guy's trace nearby, and told us not to leave the car, we'd better keep our heads down and don't let him find us." (End of this chapter)

Chapter 2324: Aifeite found Qin Yuan at the dock and took him hostage

Chen Jixiang reminded them to quickly lower their heads and bury them in the car so that no one outside could see them.

Everyone also listened to Chen Jixiang's words and immediately lowered their heads. At least from the outside, the car looked like there was no one inside. They all just cowered and hid in the car.

"What on earth is this? Where on earth did Qin Yuan go? Why are we all left here?"

"Didn't he just say that he went to the toilet? Don't ask so many questions. He couldn't have lied to us. Do you think he left us here on purpose and ignored us?"

"But I think the current situation is very complicated. He also said just now that the mercenary Scorpion appeared with Effit. What if this guy comes to catch us?"

"Are scorpions like this enough to scare people?"

"What's wrong? He is an internationally famous mercenary, and his failure rate is basically zero. It seems that since Mr. Norman Karim has found him, it means that he has the necessary mentality and determination to do it. Get rid of us all."

After Akun and Amin finished saying these words, they immediately looked at Jason.

"Boss, we are doing this not entirely because we are timid, but also because we are worried about you. We hope you can return to China as soon as possible to reunite with your daughter.

If this mercenary and his son are finding us, you should run away first, and then leave the rest to us, and we will take care of everything.

If that doesn't work, the two of us will follow this scorpion and die together! "

When Jason heard what A Kun and A Ming said, he was very moved in his heart. At least his good brothers were really willing to go all out for him, and even sacrificed their own lives.

"No matter what happens, you must never give up your life, let alone give up on yourself. You must believe that there will always be a chance and a chance of survival."

On the other side, after Qin Yuan investigated Efit's specific location, he was also a little nervous, but fortunately, the other party was in the dark and he was in the open.

At least he won't be able to find an opportunity to take advantage of it, as long as he avoids it perfectly, now he is like a lost dog.

On the one hand, he is hunted by the mercenary Scorpion, and on the other hand, he has to avoid Mr. Norman Karim's men.

Now he should control his emotions and not make any mistakes. Once he is caught by the scorpion, he has only one way, and that is death.

At this time, Efit came to Qin Yuan's car.

He noticed that this maintenance vehicle appeared near the dock, something strange, so he muttered to himself next to it.

"Why would this vehicle that repairs air conditioners and home appliances appear near the pier? There is nothing that needs repairing here. It is not unusual at all for this vehicle to appear here."

After all, Efit has been with Old K for so many years, and his observation skills are still very meticulous. He immediately discovered something unusual and immediately started to find loopholes.

At this moment, Chen Jixiang and the others had already hid in the car and did not show their faces. Effie TV suspected that there was something wrong with the car.

It was impossible for him to directly approach to check. He was afraid that the other party would set a trap for him. Today, he encountered the mercenary Scorpion on the road, which scared him half to death.

He knew that he was no match for the opponent, and now he could be said to be defenseless. Scorpion had all kinds of destructive weapons in his hands.

In this way, he was no longer an opponent. Thinking of this, he felt very heavy and at a loss, and he didn't know how to face it.

Qin Yuan had already seen Efit from the map. This guy was approaching their vehicle, and he felt very uneasy.

I don't know if Old K and the others have sent a ship to pick up Efit. If this guy had arranged a way back for him in advance, he probably wouldn't be entangled here.

Seeing him wandering around the pier, not knowing what to do, he must have no way to go back. Under such circumstances, they must find a way to find a result, otherwise it will be troublesome to find the other party again. .

Qin Yuan is now the only one who can grasp the opponent's movements. He must quickly inform Chen Jixiang and the others that this dangerous guy is nearby.

So, Qin Yuan came up with a very good idea, which was to call Chen Jixiang first and inform him that he must hide it and don't be impulsive. If the other party dare not take the initiative to come forward, it means that he has a guilty conscience. of.

When Qin Yuan was thinking, he didn't think of Efit, so he naturally felt angry and evil in his heart.

He was able to muster up the courage to walk directly to the car.

Everyone was caught off guard. This guy had already seen it. The person in the co-pilot was Chen Jixiang.

He walked away at lightning speed, went up to the car door, opened it immediately, and pulled Chen Jixiang out of the car.

This situation really frightened Jason and Huang Mao who were sitting behind them.

Such a big thing happened when Qin Yuan was not here. How they should explain this matter to Qin Yuan was not something they could explain clearly in just a few words.

And he himself had clearly promised Qin Yuan that he would ensure everyone's safety no matter what. The sudden appearance of Efit really gave them a heavy blow.

"Efit, what are you going to do?"

"Don't get excited yet, I just want you to cooperate with me. I don't want to do anything excessive, I just want you to do a favor.

As for Qin Yuan, why didn't he see him? He is an important figure. If he is not here, my plan will have no meaning. He must cooperate personally to be effective. "

"Brother Qin Yuan is not here what you want to do, you hateful guy. If you have anything to say, just tell me."

"Tell you what? What do you think?"

"Efit, I know that you are going to jump over the wall now, but don't get excited and don't hurt Chen Jixiang. We can discuss everything easily.

If you really hurt it, we can kill it immediately. Don't forget where this is. This is the jurisdiction of the maritime patrol force.

There is a member of Mr. Norman Cammy in the maritime patrol force. If he gives an order, you will not be able to escape. I hope you can think about this matter clearly and I will not do anything stupid. "

"Oh, I never said I wanted to delete it, because it doesn't do any good for me, and I don't want it to go off in a place like this.

You should know that there is a very famous mercenary in the world called Scorpion Nguyen Van Hung, and he has come to hunt me down. "

Chen Jixiang and the others already knew about it, but at this time, in order not to be caught by him, they could only pretend not to know.

"I have only been in the army for a short time. I don't know the person you are talking about at all. Even if you kidnap me, it will be useless to threaten me with this matter."

"Chen Jixiang, you naughty brat, stop lying in front of me. I know you don't understand the mercenary Scorpion.

You will conduct training every time before, and the list of international mercenaries will be sent to your troops every once in a while.

It is impossible for you to lie in front of me without knowing how much you have mastered in a long time, and without looking at how much you weigh. Tell me the truth quickly, you brat.

At the same time, you have to tell me where Qin Yuan went. Only he can help, and the rest of me are useless. "

Jason walked out from behind with A Kun and A Ming, and Huang Mao followed closely behind.

Jason, at this moment, was really like a big brother, always protecting them behind him without any worries.

"Efit, I know there are many conflicts between you and Qin Yuan, but I hope you will not hurt Chen Jixiang for the time being, and you can speak out if you have any demands.

Now at this dock, and it is a military dock, you come to kidnap a hostage. Don't you think your behavior is very stupid? It seems that this mercenary Scorpion really scared you.

You do whatever it takes to ensure your own safety. "

"No matter what you say to me, I don't care. My biggest advantage is that I have a thick skin. As long as it can save my life, I will do anything.

Now I ask you to throw out all the weapons in your handle. Otherwise, don't blame the knife in my hand for being ruthless. He can cut this kid's throat in a minute. "

This pier is really too big. Qin Yuan just went to the side to contact the system. He has already discovered that the target person is approaching his vehicle. He now has an ominous premonition.

"Oops, this guy Efit must have discovered our traces in advance. I have to solve this problem quickly. Besides, if he kidnaps my people, it will be a disaster."

As he was thinking about the most terrifying thing, it turned out to be true. He had to run a few steps faster and came to his vehicle, where he saw Chen Jixiang being kidnapped.

"Efit, what are you going to do, you stupid guy?

I remind you, never hurt Chen Jixiang, otherwise I will never let you go. Now I tell you these are the most loyal advices. If you dare to hurt him at all, don't tell me anything. You're welcome.

There are surveillance videos all around now. If I kill you here, even if you go to the International Court of Justice, you won't have any problems and I can still get rid of the crime. Your death will be worthless. "

"Qin Yuan, you are so funny. I know you are threatening me here, but I am not afraid. The more you can threaten me, the more it shows that there is nothing wrong with my behavior. You already feel scared and fearful.

We have known each other for such a long time, and I know what your fear looks like? Even if I hold you hostage, you will not feel afraid.

But you care about the people around you. You brought this brat out, and you must bring him back intact and unscathed. "

Qin Yuan's current mentality has been figured out by the guy in front of him. He knows that he can't ask Master Ben for help now, if he finds Wang Xin.

Qin Yuan, who would also implicate him, is very hesitant and entangled now. He doesn't know how to deal with these situations better.

"Well, since you are actually living with him, it means that you have certain demands. Tell me your thoughts and demands. As long as I can satisfy them, I will never hesitate. Tell me quickly, we don't have much time."

"Before you come back, I want them to bring all the weapons to me. I want to deal with this mercenary shoe, so I must have enough chips.

I have nothing in my hand now. The only micro-bomb is still installed at the door of the embassy, but I believe that the people around you should have dismantled it, because the one I just got is too big."

After Aifet caught these things, Qin Yuan suddenly understood that this guy had been secretly observing him, and he wanted to leave him a little gift before leaving the country.

"I can forgive you for everything you did to me before, but I must remind you to release Chen Jixiang. I can give you whatever you want.

I know what you want now. You just want to return to your country as soon as possible and leave here because you are afraid of being hunted down by the mercenary Scorpion and Mr. Norman Karim."

Qin Yuan has learned some professional psychology after all. This is one of the compulsory courses in their army. This is something he must master when confronting and negotiating with hostages and kidnappers.

"It seems that you are indeed a very smart person, and you have completely grasped my mentality.

In this case, I just want to tell you to send me away quickly. Since you have brought Jason and these idiots to the dock, it means that you have a way to send them away to a safe place.

I believe that there must be people sent by your troops on the surrounding ships, just to pick them up. My only idea is to take me back and let us take your ship."

"Is Lao K so poor that he can't even send you a ship? Let me find a way to go back by myself. It's such a boss, and you are still willing to work for him. Aren't you too stupid?"

"You don't need to say anything about the things between me and the boss!

He is in trouble now and told me that I must leave here quickly. This is beyond the original plan. Don't talk nonsense here. I know you are wasting time. Don't dream of getting the people of the maritime patrol to participate in this matter.

They will never have a chance, and I won't give them a chance. Hurry up and tell me whether you agree to me or not? I want a definite answer from you. If you don't agree, there is no need for me to waste time. I'd rather die."

Chapter 2325: Efit is desperate

Efit is really trying his best this time. He is not afraid of what Qin Yuan will do to him. The key is that he must leave here successfully.

Because he is not sure whether the mercenary Scorpion has followed him now. He knows that this guy is like a dog-skin plaster. Once it gets stuck on him, he can't get rid of it.

It is precisely because of his perseverance that he was able to become a famous mercenary internationally, and his success rate has basically reached 99%.

I was in very danger this time, and I was soon doomed.

He had to ask Qin Yuan and his troops to protect him, so as to ensure his safety. Thinking of this, he naturally felt very heavy.

What is even more clear is that he must not miss such a best opportunity. Once he lets them go, it will be even more difficult for him to go back.

As long as he successfully got into Qin Yuan, the ship mercenaries in their army would not be able to do anything against him, and he knew this very well.

"Qin Yuan, don't waste time with me anymore. I have already told you about this matter and what I think in my heart. My condition is that you must take me on the boat with you and take me away from this ghost. place."

"You'd better stop joking here. We don't have such great rights at all. You should know your identity very well and bring you on board. Do you think we can leave here successfully?"

Jason saw Chen Jixiang being held hostage, and now he was very afraid that he wanted to step forward and act as a hostage to exchange with the other party.

"Effit, don't continue to quibble here. I can exchange with you as a hostage. You can release him now, as long as you hold me hostage. Our ship has not come yet.

We have been waiting here, and there is no definite result. I will take you back after our ship comes, which is too late.

There is no benefit to us being in a stalemate here. If someone from the maritime patrol discovers it later, you will have to be taken away by them first.

You can't be so extreme and only consider your current situation and not other situations. "

"Jason, the two of us have been with Old K. We know his temper and feelings very well, and we also know each other's personalities very well.

It's useless for you to tell me this, and I won't follow your advice, so I say you should give up as soon as possible.

I am a person who is not afraid of failure if I don't achieve my goal. Today there are only two results, either I will die in the hands of the mercenary Scorpion, or I will fight to the death with you. "

Qin Yuan finally understood at this moment that this guy insisted on them with a certain death mentality. If this was the case, then they had to find a way to get the best of both worlds.

Otherwise, this matter will be very difficult to handle, and they will have to find ways to get rid of this hateful guy.

At this moment, Huang Mao couldn't hold it any longer.

He was worried that this guy's hostage would affect the speed and time of their escape.

"Qin Yuan, it's not that you don't believe what you mean. If it doesn't work, let's leave quickly, or go to the embassy for help."

"Huang Mao, I know you are very scared now, but you cannot choose to escape if you are scared. Since we have reached this point now, it means that no one can really help us.

Even if I go to the embassy, it will be useless. I know the current situation very well. "

"Brother Qin Yuan, I know that everything is under your control, but what about this guy? He is holding Chen Jixiang hostage. I think he is crazy now."

"That's true. I also felt that something was not right with him. Maybe he was forced by emotions."

On the other side at the embassy, Wang Xin received some surveillance messages near the dock of the maritime patrol force.

"It's not good, look!"

An Ran and everyone hurriedly walked up to see what happened.

"Isn't this Qin Yuan and the others? Is this real-time monitoring?"

"Of course, this is what was captured by the real-time surveillance. It seems that we did ignore this guy Efit just now. He really ran away towards the dock."

"What? What about the mercenary Scorpion? Did he escape alone, or was it the mercenary Scorpion?

Escaped with him, which is very important to us, because we are not sure whether the mercenary Scorpion, the person he wanted to kill was Efit alone, or Qin Yuan and everyone else. "

"Is this still important to us? They are also very dangerous people. No matter if any of them goes to Qin Yuan, he is very dangerous.

If it really doesn't work, we can't wait any longer and send someone over as soon as possible. "

Liu Mei is the captain of the action team. Once something like this happens, he will step forward to help them without hesitation.

"Wang Xin, it's finally our action team's turn to start carrying out the mission. Now I'm just waiting for your order. As soon as your order comes, I can set off immediately. How many people do you think I can take with me?"

Wang Xin was a little hesitant now. He felt that if Effit was alone, Qin Yuan and the others would definitely not be a problem, and he was very confident in Qin Yuan's strength.

He Chenguang saw such a critical juncture at this moment. Of course, he was very worried about his good brother. When he saw the other party's hesitation, he couldn't help but sarcastic.

"I know that if you send the special team of your embassy out now, you need someone to take responsibility. Once any special problem occurs, the first person responsible is you."

Wang Xin also heard the other party's subtext.

·He Chenguang, what do you mean? Could it be that you think I didn't send someone over because I was afraid of taking responsibility? Am I this kind of person in your heart?

Although we have known each other for a relatively short time, I believe that they will not doubt me because of this kind of thing.

I have always cooperated fully with you, even if I did not take responsibility. I have done many illegal things for your sake. Do you think I hesitated at all? "

Wang Xin was originally a relatively reserved person, and he couldn't help but express so much sadness when he heard these words. An Ran could tell that he must have been really sad to say this.

"He Chenguang, what you said is indeed a bit too much. Apologize to him quickly. He is not such a person. In order to cooperate with us and Du Bingbing, he has really paid a lot and cannot force others to do anything."

"Wang Xin, I'm sorry. I admit that I was a little too impulsive just now and I shouldn't have said that, but I am also worried about Qin Yuan. He is my best brother.

And we came here to perform a mission together, and we must all return intact. I was also frightened by this mercenary Scorpion. He was really terrifying. This guy's combat power far exceeded our imagination. "

"Okay, okay, now that it's all said and done, let's not torture each other. I am also responsible for this matter, because I didn't explain clearly what I was thinking just now.

Now let me explain to you my concerns.

First of all, I think Qin Yuan and the others will definitely not have a problem dealing with an Efit, even though this guy is now in a crazy state.

But the more this happens, his emotions are very unstable. His behavior is controlled by emotions, and naturally he is also unstable. If a calm person treats a crazy and irrational person, do you think he can't take advantage?

We don't need to worry about these things at all. "

"You are right. It seems that I am indeed a little narrow-minded and did not fully consider your mood."

"Secondly, they are now guarded by members of the maritime patrol force. If we send people there at this time, they will definitely be blocked by the maritime patrol force.

We are still in a relatively hidden state now. If we are really discovered by them, then this matter will be even more unclear.

Don't forget that Qin Yuan went to the hospital to get the bullet. This is conclusive evidence.

If someone from the maritime patrol force finds this evidence, how can all this be explained clearly? They came here smuggled in, so of course the lower profile the better now. "

An Ran heard what the other party said, and he nodded happily.

"Then what can we do now? Do we have to sit back and wait for death? Do I think this is a little too irrational? It is also very dangerous to put all the pressure on Qin Yuan alone."

"It's better not to talk about this yet. There is one of our own people on the patrol team who told me the current situation. Fortunately, he informed me in time and made me mentally prepared. Otherwise, we would really be It was a bit caught off guard."

"Just now the mercenary Scorpion fled in panic at our door. So far, we have not seen him anywhere in the city."

"He failed in his mission this time. He should have gone back to Mr. Norman Karim to explain the situation."

An Ran shook his head, he didn't think so.

"I don't think Scorpion is a mercenary. He is a very extreme person. He has always been a loner. He will not go back to report to his employer until the matter has a definite outcome.

I think he must have guessed that the other party has gone to Matou now, so he plans to intercept him halfway. At this time, we should be more cautious, and we should also send people to the dock. "

An Ran knew that it was not convenient for the embassy to send people out. He felt that he was the best candidate. If he went out, he would definitely get a good result.

"Then what do you think we should do next?"

"He Chenguang, you must watch your mobile phone. You may receive messages from Qin Yuan and others at any time, but we must remember that we cannot contact them proactively.

What this guy Efit wants is to get out of here quickly. He wants to take our ship to a safe place because there are people from our troops on the ship to protect him.

In this case, he can perfectly avoid the mercenary scorpions, but after all, our ship is a military ship, so we still have to apply to our superiors for this matter. "

Wang Xin immediately stopped after hearing this.

"No, you absolutely can't apply for this matter with your superiors temporarily. We all know it well, and we can turn a blind eye and get through it.

But if once you apply to your superiors, will they turn a blind eye? They must follow the rules and regulations.

Including Du Bingbing or Lei Shen, they are unlikely to agree to let us not embarrass them. "

Wang Xin is indeed a member of the embassy. He is generally thoughtful and his words are very reasonable. Only by doing this can we get away with it.

At that time, we can pretend that we don't know that Efit is on the ship and release him without anyone noticing. At least saving the hostages is the most important thing now.

"Wang Xin, I think what you said makes a lot of sense. Let's execute the plan you said, but how can we notify Qin Yuan so that he can understand our plan? We can't take the initiative to find him at this time."

"I think the tacit understanding between us should be that we don't need to notify him, and he can understand what we think. This is the tacit understanding between good brothers."

He Chenguang smiled and said.

"You are right. This is indeed the tacit understanding that good brothers should have. It seems that the cooperation between you can be regarded as seamless. In this case, I won't say anything.

Let's do nothing now and just wait and see."

At the dock, Qin Yuan and the others are still deadlocked here.

Now, about 20 minutes have passed, and this guy is still holding Chen Jixiang with a very steady hand. It seems that he is still a very professional killer.

Jason plans to say more to distract this guy.

"Aifite, I didn't expect that you still have the basic skills after so many years, and you are still very professional in holding hostages. Now your hands are not shaking at all."

"This is related to whether I can survive. I can't be stupid at this time. No matter how tired my hands are, I must persist until I persuade you all.

Qin Yuan, I know you are a very cautious person, and you are also very cunning. I have caused you so much trouble, you must hate me for not wanting me to leave safely."

"Aifite, it seems that we know each other well. I really don't want to take you back, because this has violated some rules of our army, but you are holding my good brother hostage now, and I can't just ignore it.

How about this, as long as you don't take our army's ship, I can take a boat alone and send you back to Lao K directly. What do you think of this deal?"

Qin Yuan thinks that by adopting this method, the other party may be able to have a short thinking time, and they can take advantage of the other party's short thinking time to save the hostage.

"Don't talk nonsense. I only have one request, which is to let your ship take me back. If you don't agree to it now, I won't let you go." (End of this chapter)

Chapter 2326 Provide a solution

Aifite was sweating and nervous now, and he had no choice but to be ridiculed by Qin Yuan.

Because he knew that he had to rely on Qin Yuan to successfully leave here, which was what he had to go through. Qin Yuan seized this opportunity to ridicule him, which was within his expectations.

"Qin Yuan, our grudge is not just for this day, you should know very well in your heart that I don't want to hurt anyone this time.

I just want to leave here safely. You all have seen the ability of the mercenary Scorpion.

I don't want to have any intersection with him. In this case, the current situation is like this. You should let me leave here quickly, so that I can guarantee my safety.

I will also be punished by Lao K after I go back. Even if you hate me, you should give me a chance to leave. Now you treat me so coldly and ruthlessly, I am really too much.

I can tell you that if I don't leave now, the mercenary shoes will catch up with me in a while, and it will not be of any benefit to you at that time."

Chen Jixiang was held hostage now, but he was not particularly afraid. After all, he was still a little courageous.

"Brother Qin Yuan, you don't have to worry about my safety. Our overall plan is the most important!

We can't let him go no matter what. He has been reselling arms in various neighboring countries and has hurt many innocent people. Professor Fang De and his two students are the most direct victims, and we have witnessed it with our own eyes."

"I said you are still stubborn, I can feel that your body has begun to tremble, and you are still stubborn?"

Chen Jixiang felt a little embarrassed when he said that.

He was indeed very scared, but he was not scared to that extent. However, at this moment, he couldn't say anything. He could only keep stubborn. This was the best way to save his face.

"Chen Jixiang, don't joke here. This guy might really attack you. Do you think you are filming a TV series now? You said these words as if you were replicating the lines in the TV series."

Huangmao couldn't help but complain beside him.

At this moment, Jason stepped forward and took out a dagger from his pocket.

This frightened Efit, who thought he was going to attack him.

He was already exhausted, and after persisting for a while, he really didn't have the energy to deal with Qin Yuan, and Jason and the others rushed over.

"I tell you, I really can't beat you now, do you still want to fight me?"

"No, we want to fight one-on-one!"

"One-on-one is fine, then come on!"

Qin Yuan smiled and said.

"You're fighting against all of us?"

Oh, forget it, I don't want to waste time talking to you anymore, I know your goal is to leave here, do you think the method I just told you is feasible?

I'm very rich, you should know, it shouldn't be a problem to hire a ship to send you back."

"Bah! Qin Yuan, you are such a despicable person, you're still showing off your wealth in front of me at this time?"

"I don't want to show off my wealth to you, I just want to prove my financial strength to you.

As long as it's something I promised, I can definitely do it, why don't you want to believe it? I can find a ship to send you back, there are only You are the only one who sneaks around, and you won't let the mercenary Scorpion know.

He is not here, how can he know your route back?

You are just scared by his international reputation. He is just a mercenary. Even if he is powerful, he is not a god. How can he know everything and not hide it from his eyes?

Efit, no matter what, you are one of the most capable people around Lao K. How can you be so timid?

I was scared to the point of peeing my pants by this guy. I really want to laugh at you. Where is your courage when you deal with me? "

Qin Yuan, this is using a psychological tactic to break the opponent's defense, so as to find an opportunity to save Chen Jixiang.

"Aifite, you heard what Brother Qin Yuan said to you, right? There are many merchant ships or private cruise ships around this dock. As long as you give them money, they can take you back."

"Just before I came here, I looked at the information of ships coming and going at this dock. There will be a luxury cruise ship in about half an hour. It will be sailing on the sea. You can take the luxury cruise ship and I will help you get a luxury cabin at that time."

"I want to go back. I am on the run, not enjoying myself here. What's the point of you getting me a luxury cabin?"

"You don't know this, look at you. He must have never been on a luxury cruise ship if he looks so poor.

The luxury cabins of their luxury cruise ships are very expensive, and the security there is very strict. Shoes can't kill you in this situation.

He can't alarm the entire cruise ship, and he can't pass the security check to get to the luxury cabin to kill you.

Besides, the entire cruise ship is so big and has thousands of rooms. It's impossible for him to search every one of them to find you. This is the best way.

"What you said does make some sense, and if you agree now, you can have a comfortable and safe trip.

It's better than going back with us. Well, after returning to our army, you have to go back to your own country. Wouldn't it be more dangerous for you to go around in a circle like this? "

On the one hand, Qin Yuan's doctrine was to delay time, and on the other hand, he also wanted to use this method to make him compromise.

Because Qin Yuan knew very well that the ships sent by their troops were very concealed.

They had already gone through layers of encrypted information before they could get the specific information in their hands. How could it be easily known to him?

If this is the case, it will easily alert other people. On the way back, it is unknown what kind of damage this guy will cause on the way.

In order to ensure the safety of Jason and Huang Mao, Qin Yuan would never agree to let Efit come with him.

"I have already thought of the specific methods for you. If you agree, I can help you prepare the ferry ticket now."

Efit's trembling hands, he said beside him.

"Don't try to deceive me with this matter, although I have never been on any luxury cruise ship.

But I know that these are just tools for the world's top rich to go out for fun. These tickets need to be customized in advance. How could I not know that?

You want to help me get a luxury cruise ticket for a luxury cruise in a short period of time. This is absolutely impossible. You are just lying to me. "

At this time inside the embassy, Wang Xin and the others had heard the conversation between Qin Yuan and Efite.

He Chenguang was also very puzzled, how did Qin Yuan come up with such an idea?

"When did this guy know about luxury cruises? Even I have never heard of them. It's really surprising."

"It's better not to ask so many questions yet. Since Qin Yuan has already thought of an idea, he must want us to help him find a ticket."

"All the tickets for the luxury cruise ship are owned by Mr. Noman Karim's group, and it is impossible for us to have access to them."

An Ran heard what the other party said, and he really felt a little desperate. It seemed that this matter was indeed not so easy, and it was too difficult to solve.

"If we suddenly ask for a ticket for a luxury cruise, Mr. Norman Karim will definitely know about it. When the time comes, he will tell the relevant information to the mercenary Scorpion, and it will still be exposed."

What does Qin Yuan mean by saying this? Could he be trying to delay time? "

"No, Qin Yuan definitely doesn't want to delay time. He probably wants to send this guy away quickly. He doesn't want to alert the people in the maritime patrol force. There is evidence on him."

"Yes, I also think that Brother Qin Yuan would not do this. In this case, there must be some misunderstanding here. Let's all think about it carefully. Is there any better solution?"

"There is really no better way. Now there are two methods that don't work. Either outsmart them or forcefully save them."

"Well, since there is no better way now, we have to take it one step at a time. We must not miss a very good opportunity like this."

At this time, He Chenguang thought of the people in the embassy. The people he usually interacted with were basically wealthy business people.

"Wang Xin, haven't you met any rich people in this long time?"

Even if they are rich, they may not be able to alert Mr. Norman Karim. I don't believe that all the tickets for luxury cruise ships in the entire country are in his hands.

Think carefully about whether there is anyone else who can help?

As long as he can help us, we can accept any conditions, even if it is several times or even dozens of times higher than the original price, we can afford it. "

"He Chenguang, it's okay. When did you become so rich? How come we can't tell? Are you able to accept dozens of times more than the original price?"

He Chenguang felt a little embarrassed when he heard this, he smiled and said.

"Well... I am just an ordinary person. There is no one more ordinary than me in the army. How can I have so much money? I don't have it, but Qin Yuan does. If it doesn't work, you can put the money first Just give it a try, and we'll go back and apply to our superiors when the time comes."

"I don't think the stamp team of this luxury cruise ship will approve it if I can't apply.

There is a high probability that Qin Yuan will be the only one to bear this loss, but he should go to the God of Thunder. He had extorted money from the God of Thunder when he first joined the army. "

"Oh, Enron, how long has it been? No matter who can afford the money, we have to give it a try. It's better than just wasting it here now. And many things are indeed not as we imagined. It's so simple."

Wang Xin has been thinking hard. Among the people he has contacted in the past few years, there should be someone who can help.

But he had to choose someone who was safer. As a consul of the embassy, he usually lived a relatively simple life. If he suddenly wanted a luxury cabin ticket on a luxury cruise ship, many people would definitely question his motives.

In this way, it may be revealed that he must find someone who is rich, trustworthy, and has a strict mouth.

Wang Xin thought for a long time but couldn't think of a better idea. If everyone persists now, time will indeed be running out.

"Otherwise, we can find other people and ask them to go to Mr. Norman Karim's company to buy it and help us!"

"You can't find a white glove now, so just tell Qin Yuan directly that we can't get these tickets."

"I don't think we should give up so easily. There are always more solutions than difficulties."

On the other side, Qin Yuan was always in a stalemate with Efit, and the two of them didn't make any progress.

At this time, the mercenary Scorpion had also arrived at the dock. He was a person who would never give up easily. He had just seen the other party's fear. The reason why he had such a high probability of success was nothing more than his strong mentality.

"Qin Yuan, I don't think we should waste time any more.

This guy should also want to leave quickly. If it doesn't work, just agree to him. When we are on the ship, we will find a way to get rid of him, and we will never let you violate the discipline of the army."

Jason looked at Qin Yuan's entanglement and there was no better way. He could only come up with such an idea.

"I am also considering your safety. He is simply a poisonous snake. If you keep him by your side, he may bite you at any time and put your life in danger.

You have known him for so many years and have worked under Lao K. Don't you know him?

I am extremely disappointed with him. Every time I believe him, it will cause me serious consequences. I will learn from my mistakes and I will not believe any of his lies again."

"But I am worried about the mercenary Scorpion. He has already arrived nearby. If he sees our current situation, it will undoubtedly make our situation worse."

"Well, tell me what we should do now? But we have no better way, otherwise let's go together and take this guy down directly!"

A Kun and A Ming, Qin Yuan would never agree to the questions they raised. This would be completely risking Chen Jixiang's life.

"Absolutely not! Efit is now a desperate criminal. He knows that he is gambling with his life. If we rush in, he will be killed.

Chen Jixiang is the one I brought out. I must bring him back intact. This is what I promised Thor."

"Oh, this brat encountered such a big thing when he came out with you for the first time. It is difficult for him to cope with it. This has indeed caused a great psychological trauma to him.

If he reacted faster, he would have taken Efit down directly!"

Chapter 2327 Received the news, Scorpion arrived at the dock

After all, this was Chen Jixiang's first mission. It would have been better if He Chenguang was here. He is a national martial arts champion. No one can beat him in a hand-to-hand fight.

"Brother Qin Yuan, I have to say that I really miss He Chenguang at this time."

"What do you want him to do? He can't help you at all. Even if he is here, what can he do?"

Yes, I know he is the national martial arts champion and his strength is also very extraordinary in your army, but even if he is here, there is no way at all, and he can't do anything to me.

The current situation is indeed very serious, but I still want to tell you, don't be too happy too early, as long as I make a move, all of you will be defeated by me.

The hostage is in my hands now. If you relax a little, I will take this brat down directly.

You should think about what you should do...

Don't go the wrong way at this time. I will cut this guy's neck with a slight shake of my hand. Do you want to see his blood spurting out?"

Qin Yuan knew that Aifeite was trying to scare him, but he definitely couldn't joke with Chen Jixiang.

"As long as you release Chen Jixiang, I can satisfy any request you have. Just like what I said just now, the luxury cruise ticket, can't it solve the problem?"

"Bah! Don't talk to me here, I've told you more than once that I don't believe what you said about the luxury cruise.

Qin Yuan, do you really think that these things are something you can buy just because you have money?

This is the identity certificate of the upper class. Only people with status can get these tickets. Not just any rich man can get into the cabin of the upper class!"

I didn't expect that this guy Efit actually knew something about these things. Qin Yuan wanted to fool him, but he didn't succeed.

"What's wrong? Why are you all silent? It seems that your conspiracy has been exposed by me. I am not a stupid guy who is easy to deal with. I know your ship is nearby.

And I also know the habits of your troops. Unless it is the last moment, I will never give you definite information. Even you can only receive the news after arriving at the dock.

If nothing unexpected happens, you should have received the exact news of the cabin now. Give it to me quickly, and we will be even!"

Qin Yuan looked at the guy's hoarseness. He knew that the other party should be very anxious. It is likely that he heard about the mercenary Scorpion and became so crazy.

"I can promise you!"

"How can you promise me? What do you want to promise me?"

"I want to promise you that the current situation is indeed not something I can solve by myself, and I really don't know the ship information given to me by the army. If you don't believe me, I can give you my phone and you can check it yourself!"

"Your phone has a lot of secrets. I don't have time to listen to your commands here. Don't forget that this kid is in my hands now!"

Jason and Huangmao were also very anxious. They didn't expect this guy to suddenly appear and give them an unexpected blow.

"Qin Yuan, if it doesn't work, let me exchange. I think Chen Jixiang, this stinky boy, seems to be unable to hold on. He encountered so many things when he came out with you to perform a mission for the first time. I'm afraid his psychological defense line has collapsed."

At this time, Aifet shouted to them again.

"I don't want to waste time with you at this time, just take me to a safe place.

As long as I can leave this dock and prevent the mercenary scorpion from catching up with me, can't you meet this requirement?

And I can tell you clearly that I am the only one who knows all the underground arms trading business controlled by Lao K. Assuming that you really want to investigate this matter, I am the only key witness.

I can also obtain more evidence. If I die, you will never know the truth. This is what Fan Tianlei has been investigating, right?"

This guy Efit should be completely unable to hold on.

Otherwise, he would not take out the real killer. The underground arms trading has always been what Qin Yuan and others are investigating, and it is also a matter that has troubled Thor for many years.

If this case can really be solved, Thor will resume his position as chief of staff without any obstacles.

This is a very remarkable achievement. Qin Yuan wants to seize this opportunity to help Thor. After all, Thor was suspended because of him.

"Of course I know you are the key person, otherwise I would have dealt with you long ago."

"Don't joke about you being able to deal with me. All your weapons are lying on the ground.

If you dare to bend down to pick them up, I will not be polite. At worst, we will die together. Anyway, I won't be too lonely with you guys accompanying me to the underworld."

Qin Yuan slowly took out a miniature pistol from his arms.

Jason really didn't understand why Qin Yuan couldn't hide such a weapon?

Taking it out at this time, isn't it obvious that he wants to provoke the other party? This is too dangerous.

What is Qin Yuan's purpose in doing this? He certainly won't hurt Chen Jixiang, but Qin Yuan is indeed too impulsive.

"Qin Yuan, why did you take out this micro-pistol?

Put it away quickly, don't let anyone see it, especially since this guy in front of us has caused us so much trouble now, don't be stupid at this time."

"So you actually have a weapon in your hand. It seems that I am really too anxious and I actually overlooked that you are a sinister and cunning person."

Qin Yuan sneered and asked back.

"Efit, you said I'm a cunning person, then what are you?

This is nothing more than a means of protecting myself. I don't like to expose everything to the enemy. I like to keep a hand. We have known each other for such a long time, don't you know this habit of mine?"

"You dare to take out the micro-pistol at this time, what do you want to say?

You want to say that you have always been protecting me. Even if you know that I am a threat to your life, you don't want to kill me. You want to try to move me here and let me tell you everything about Lao K's arms trade."

"Since you already know my purpose, what's the point of asking these? If you can tell me all these things now, I will answer We will use our ship to take you away."

"Didn't you just say that the army's ship didn't come?"

"I can tell you clearly that the ship that came to pick up Jason is not a ship of the army at all. Think about it, Chen Jixiang, He Chenguang, An Ran, the four of us plus Professor Fang De's two students are the key figures of this mission. Only if we go back to the army in person will the army send a ship to pick them up.

Jason and Huang Mao, they are not members of the army at all. Why waste the army's resources to pick them up? Have you never thought about this question?"

When Ai Fite heard Qin Yuan say this, he was stunned for a moment, because according to reason, it was indeed such a procedure. They should not get help from the army. They must have found their own connections.

"I am indeed a little confused. It should be your own connections. Forget it, I don't care so much. No matter whose ship it is, as long as you let me get on the ship, I will let this person go."

At this moment, the mercenary Scorpion followed Ai Fite and arrived at the dock.

He has been using his unique tracking method to find his "prey".

"This guy is really powerful. He was able to escape from my hands. But it's also quite interesting. I like the cat and mouse game."

At the embassy, Liu Mei has been tracking Scorpion's steps.

They installed some special substances at the door of the embassy. As long as they reach the door of the embassy, they will be contaminated by this substance. At that time, they can use special instruments to finally find their traces.

An Ran was very worried about Qin Yuan and the others. Looking at the moving target on the big screen, he pointed to this point and asked.

"Who is this moving target? Is it Efit or Scorpion?"

"It's Scorpion. Efit has been kidnapping there. Chen Jixiang has never moved. This moving target is Scorpion. It seems that he has arrived at the dock."

He Chenguang is still a little curious about their current technology. He doesn't know what method the other party used to track this internationally famous mercenary.

He is a very mysterious guy. If he doesn't show up on his own initiative, others will have no way to find his trace.

"What technology did you use? Is it satellite technology or something advanced? How can tracking technology track this mercenary Scorpion? It seems that this guy is going to be unlucky in your hands."

"He Chenguang, don't ask so many questions. Now is not the time to understand these things.

These specific technical issues may be their secrets, or they may be provided exclusively to them by the army. Even if you ask them, they may not be able to answer you."

"Oh, by the way, it's all because I'm too curious. As long as I see something I don't know or understand, I want to ask more questions."

"Okay, okay, if that's the case, we have to find a way to quickly notify Qin Yuan's mercenary Scorpion, since we have arrived at the dock. , which means he will soon attack these people.

I don't know if Qin Yuan is among his targets, but I think since Mr. Norman Karim is so angry, he thinks Qin Yuan has ruined his plan.

He will never give up. From this aspect alone, Qin Yuan and his team are in great danger.

We must quickly notify them and leave and retreat!

At least hide from this mercenary scorpion. We are all unsure about what kind of lethal weapons he has. Instead of looking for trouble in this uncertain situation, it is better to..."

While He Chenguang was talking, Liu Mei suddenly found that the mercenary scorpion on the screen was slowly approaching Qin Yuan and his team.

"Don't worry, everyone. This mercenary scorpion is slowly approaching Qin Yuan and his team. We have to find a way to notify them and retreat quickly. "

An Ran was not in a hurry at this time. He thought that the appearance of the mercenary Scorpion might be a turning point. In this way, the situation would become very chaotic and they would be able to find a chance to escape.

"Let's secretly inform Qin Yuan now and tell him that the mercenary Scorpion is already nearby. If Ai Fite knows, he will definitely not care about Chen Jixiang and will only run for his life."

When Ai Fite was holding Chen Jixiang hostage, he heard his cell phone ringing. Then he didn't take it out to see it, but just sneered beside him.

"I say you guys are really too stupid. You tried to send a message to my phone so that I could take out my phone to see it. While I was analyzing it, you rescued the hostages?"

When Qin Yuan heard the other party say this, he was confused and thought that this guy must have some kind of persecution delusion.

"I'm wondering if you're crazy or have paranoia. None of us can move our hands now. You've been staring at us. Who did you see take out their phone to send you a message?"

I think it must be some message from Old K. Maybe he has found a way for you to go back. Why don't you take a look first?"

When Efit heard this, he also considered that it might be a message from Old K, but he didn't dare to move casually now. Chen Jixiang was at least his only lifeline.

"If it's Old K, he'll notify me later. If it's you guys who want to distract me, I won't look at it now."

Qin Yuan contacted the system in advance, and he also marked the mercenary Scorpion as the target person.

At this time, Qin Yuan's phone also received some messages. When his phone rang, Efit was very nervous, and he strangled Chen Jixiang's neck fiercely again.

"Oh my god, be gentle, my neck is about to break. If you can't do it, just give me a quick death. You seem to be crushing my Adam's apple."

"Why are you talking so much? It's already very difficult to save a life. Don't say these nonsense in front of me!"

"As a hostage, don't I have any basic demands? Please don't treat me like this. I am an innocent person."

"You are really a chatterbox. You have been with Qin Yuan for a long time and have learned these bad habits from him. Shut up quickly and don't interfere with my actions. Otherwise, I will really cut your throat if I shake my hand."

At this time, Qin Yuan took out his mobile phone. He saw that Scorpion had come nearby, so he quickly said to Efit.

"Scorpion has come near the dock. This is my kind reminder to you because I am not sure whether his target is you or me!"

Chapter 2328: First time meeting a mercenary face to face

Efit was completely confused when he saw Qin Yuan's cell phone.

"You lied! It must be a piece of information you found at random to try to deceive me. Do you look at me like a fool?"

It's impossible to believe what you said, Qin Yuan, at least in my heart, you are a very cunning person, and the two of us have been in contact so many times.

Every time I fall into your trap, don't worry, I won't be so stupid this time. "

"Efit, I have to tell you, if you don't believe me this time, it proves that you are an out-and-out fool!"

Because I don't want to face this mercenary Scorpion. Now is the only time I can say these words to you sincerely. I am very worried that his target is me! "

"So you are also afraid of the mercenary Scorpion. Qin Yuan, I have known you for so long, and I have never seen you be afraid of anything."

"It's not that I'm afraid of him, but I'm worried that he will hurt the innocent people around me. Chen Jixiang and Jason were forced to face these risks because they followed me. I can't implicate them. Can you understand? "

"I do understand your feelings, but I still have to tell you a cruel reality. If you don't agree to let me leave here with you, let's all face the mercenary Scorpion."

I want to see how capable this guy is. This is also the first time that we may fight side by side. Thinking about it, I am a little excited. "

"Who wants to fight alongside you? I don't want to waste time anymore at this time. Please leave me immediately and stop talking nonsense.

The current situation is very serious for us. If you expose any problems inadvertently, the other party will definitely catch you. "

When Efit heard Qin Yuan say this, he was not surprised at all. ,

He felt that all this was expected, and since he had offended Mr. Norman Karim, he should pay some price for it.

This seemed to be the truth, but he did not expect that Mr. Norman Karim would send the mercenary Scorpion here.

This guy's international reputation is so great that he has never failed. The mere appearance of his reputation is enough to scare people.

"Then tell me what to do now? I have no other option. The only way is to hold Chen Jixiang hostage and let you face these things with me. I believe you will not give up so easily. .

Even though Thor is no longer the chief of staff, I think he can still help you. At least the trusted commander named Du Bingbing is still quite interesting to you, isn't he? "

After Efit said this, Qin Yuan was completely confused. How could this guy know about his affairs with Du Bingbing?

"I don't know what you are talking about, but there is indeed a new commander now.

In the past, Thor really admired me very much. He would do his best to support me in whatever I asked him to do, whether it was building relationships in the army or asking him to provide me with some financial help.

He has never hesitated or refused, but now myopia is different from the past.

He is no longer in the position of chief of staff, and the ship today has nothing to do with him. I spent a lot of money to find connections before someone came to pick us up.

If you hope that people from the army can protect you, it is absolutely impossible, because there is no one from the army on the ship. "

Jason was already anxious beside him. He didn't know when he would be able to get rid of this hateful guy.

"I would say that all of us should not hesitate. Since the current problems have already occurred, it is better to prepare everything in advance."

Huang Mao thought of a very good idea at this time, which was to attract his attention.

Then other people took advantage of him not paying attention and directly rescued the hostages. Maybe this was the best way, but they didn't let him take action now, fearing that something would go wrong. After all, the knife was in Chen's hand. If there is a problem on Jixiang's neck at this time, who can be responsible for it?

"Are you sure you don't want the ticket for the luxury cruise?"

"Of course I don't need it, because these don't mean anything to me. You can't give me what I really want. Just tell me the truth.

Has this mercenary Scorpion really arrived at the dock now?

It seems that he should become our two common enemies, and you have to find ways to get rid of him, so as to ensure your own safety. I'm not kidding you. "

After Qin Yuan heard what the other party said, he felt that he should not cooperate with this guy, otherwise he would lose the bargaining chip that scared him.

Although this mercenary Scorpion might become his enemy, Qin Yuan felt a little more confident after seeing Efite in front of him being so afraid of him.

"Don't say this yet. Did you see the moving target on the screen? This is the mark I made on him."

How could Efitt believe what Qin Yuan said.

"Stop joking. You have never met this person. How could you possibly have the opportunity to mark his body?"

"Whether you believe it or not, this is the truth!"

Effit thought that this matter was related to his own life and safety, so he would rather believe it than not.

His eyes turned around, and he was clearly thinking about what to do next.

"Oh, anyway, my arms are sore now, and there is no better time to waste here with you. You have your own principles, and I have things I must do."

A Kun and A Ming have been looking around, afraid that the target person will appear.

If this mercenary really came to the dock, they might be in danger, but fortunately they are in large numbers, so they should not lose to this guy.

"Brother, in fact, time is more precious to us now. We can delay time, but Qin Yuan and others can't afford it."

"Yeah, in fact, I think so in my heart, but this guy doesn't give us any chance at all. He is an experienced old man."

"Then you say, we can't just sit and wait for death, otherwise..."

While they were discussing frantically, a suspicious person appeared around them.

He was wearing a black hoodie and a hat, and a black mask. His dress was really a bit too strange.

People have to think too much. Perhaps in their impression, people who are truly powerful or mysterious should dress like this.

A Kun and A Ming found the trace of this person at the first time. They felt that it was too suspicious. They should quickly inform Qin Yuan. Qin Yuan was confronting the other party with all his heart and soul at this time. He had no chance to check the suspicious person around him.

He remained calm, with his hands in the pockets of his hoodie, as if he was touching something. This is a typical killer's action.

They are all mixed up in the underworld, and they can judge that the other party should have weapons in his hands. At this time, Efit also found that this guy was very suspicious.

Although he was fully armed and couldn't even see the other party's face clearly, he could judge from the action just now that it was likely that he was coming for himself. He reacted quickly.

At the moment when the other party fired, he immediately tilted his head to dodge. This shot completely broke the tranquility around him, and everyone was stunned.

Qin Yuan's first reaction when he heard the gunshot was of course to be afraid that Chen Ji would also take advantage of the time when Efit tilted his head and escape from his men.

"What's going on? What happened? Why did the gunshot suddenly sound?"

"Oh, do you need to ask? There was a suspicious guy wearing black clothes and covering his face just now. He fired the gun there."

"Where is Efit? Where did this guy go?"

Due to the struggle just now, Chen Jixiang's neck was accidentally cut by the knife. Fortunately, the wound was not very deep, and the aorta was not cut. It was just an ordinary skin injury.

Qin Yuan saw Chen Ji, and felt very distressed and self-blame in his heart. He quickly took out a handkerchief from his pocket and handed it to Chen Jixiang.

"Just now, I was really scared to death. This guy's technique is still very accurate."

"Hurry up and cover the wound to prevent the blood from flowing out. How do you feel? Are you dizzy?"

Chen Jixiang dipped his hand in the blood on his neck. Seeing that the amount of blood was not large, he was not worried because he was injured without any preparation just now.

So he did not feel fear or fear, or even pain, but felt a sudden mosquito bite on his neck.

"It's okay, don't worry, it didn't hurt the aorta, nor did it hurt my roots. Fortunately, I reacted quickly just now, but I can tell that this guy didn't shoot at me."

At this moment, both of them disappeared.

Jason walked up slowly and said to Qin Yuan.

"Judging from the signs just now, this guy should not be coming for you. His technique is very accurate. I have never seen anyone with such accurate shooting skills.

No wonder he can become an internationally famous mercenary. His price and commission are scary. Whenever he makes a move, he should not fail."

"It's so dangerous. This is the first time I've met a mercenary face to face. I've never been like this before, but he covered his face, so we never saw what he looked like."

"All those who saw what he looked like should be the dead souls of his men."

"Is this guy really that scary? Did you exaggerate him a little too much?"

"It's not that we want to exaggerate it too much, but in fact it is like this. You also saw his technique just now. , if you were slightly off by 1 cm, you would be the one who got shot in the head today, but Efit is also experienced and dodged in time, nothing could hurt him."
"

"Since this guy has already run away, let's leave here quickly. Over there is the information of the ship. Let's upload it to the ship and there will be troops to protect us.

At that time, I can also complete a handover with them, and you don't have to worry about your safety anymore."

"Why didn't you agree just now?"

"As long as Efit doesn't achieve his goal, he will never fight to the death with us. In fact, this kind of person is the most afraid of death. He is more afraid of death than us. His desire to survive has always been very strong. He wants to use this matter to threaten me, it is impossible.

I know that there is no way for a person to break through the victory limit. If his arm is held like this, it will definitely be sore and painful. If there is a slight chance, Chen Jixiang, this kid will have a chance to escape. "

"I thought you didn't care about me, brother Qin Yuan?"

"How long has it been? You still have the intention to joke here. How could I not care about you? You are the person I personally brought out. If there are any mistakes, I will be responsible.

I treat you like a younger brother, how could I let others hurt you? But you don't have to worry about this. I've already thought about it and he has no intention of following us now.

He is being chased by the mercenary Scorpion behind him. He has already panicked and has lost his mind. It is safest for us to go to our destination now. You all pack up and follow me. "

At this moment, Huang Mao suddenly felt a little scared and touched himself. He didn't bring any weapons, not even a nail clipper.

"Should we find a place to buy some weapons?"

"What weapons do you want to buy?"

"Even if we can't buy a pistol, we must at least buy a few knives, even fruit knives. I don't even have a nail clipper on me now. If we encounter any danger on the road, wouldn't we have to go empty-handed? Seize the white blade?"

"Huang Mao, I think you are too brave. You don't have to worry about this. After we get on the ship, there will be special people to protect us. You don't need to have any worries at all. There will be people to help us with everything. solve.

The problem now is that we have to find the full-time information quickly. This will also take a while. The embassy must be waiting very anxiously. "

"Well, in that case, I will believe you once. Anyway, if you bring me to your territory, you have to be responsible for protecting me. This brat like me is very timid. If it doesn't work, I will be the first one. surrender."

In fact, many people think that Qin Yuan made a mistake in bringing Huang Mao back. They had only known him for a short time and did not know this person very well.

If he had not offended Mr. Norman Karim, he should not have taken it away. It is taken away now solely to save him.

"The ship should be coming to pick us up over there. I looked at the man standing on the deck of the ship. He had a golden medal on his chest. This is the message we agreed on before. There should be no mistake."

Chapter 2329 The golden medal proves that he is one of us

Chen Jixiang murmured to himself.

"Why is it like a joint? It's so mysterious. I still don't know about the golden medal. Brother Qin Yuan, why didn't you tell me earlier?"

"These secrets are our final results. I can never tell anyone until the last moment, especially if this guy finds out, we will all be in trouble."

"No way, Brother Qin Yuan, don't you even trust me? It's in vain that I follow you loyally. Everyone laughs at me for being the most loyal dog around you."

Qin Yuan couldn't help but laugh when he heard Chen Jixiang say this.

"There is nothing wrong with a loyal dog. I think a loyal dog is the most loyal. If you can stay with me, I will never let you be a loyal dog, because you are my good brother. "

Jason was very moved when he heard what Qin Yuan said. He knew that Qin Yuan had never looked down on anyone in his heart. He treated everyone equally and regarded them as good brothers.

"This guy Efit has left. What should we do next? It would be a pity to give up like this."

"This mercenary Scorpion, if nothing unexpected happened when he faced us face to face just now, he should not appear in front of us. He has seen all of us just now and did not attack us, which means that he has only one target, and that is Effie special."

"Qin Yuan, just listen to what I say that is not pleasant to hear. I think you have offended Mr. Norman Karim, and he should hate you deeply.

He didn't use the mercenary Scorpion to kill you at this time. It's really unimaginable why he would do this. "

"Then I don't know. Maybe Mr. Norman Karim also did it for the sake of Thor, so he didn't want to kill you. He knew that you never wanted to surrender from the beginning to the end, you were just perfunctory with him. That's all.

In fact, I think this guy is a very complex person. We cannot describe him as simply good or bad. His humanity itself is complex.

We have no way to say whether he did it right or wrong, because everyone's perspective is different. He thinks about these issues from his own perspective, and we cannot say these things to him casually. "

"Since they have left now, it means we are safe. Hurry and go to the dock over there to look for a person with a gold medal on his clothes. As long as we find him, it means we have found the target person."

Chen Jixiang, this stubborn character has come up again.

"Brother Qin Yuan, how do you know that the person wearing the golden medal must be one of us? With the current level of technology, this thing can be faked at any time. What if it is faked to deceive us?"

"I asked you, have you read too many TV series and novels? Even making a fake golden medal is very expensive.

They have no reason to do this, because we are not worthy of them at all. Come with me quickly. After sending them to the dock and leaving, we can rest assured. "

Jason heard that Qin Yuan had been thinking about himself, and he still felt a little embarrassed.

"The more you behave like this, Qin Yuan, the more regretful I feel in my heart. Naturally, we two brothers don't have to say these polite words, but I also know that I have caused you a lot of trouble.

Although you asked me to smuggle you here when you came, you have always been taking care of me along the way, including this period of time here.

And you also took care of my daughter. I really don't know how to thank you. Even I was very anxious and couldn't do anything for you, leaving you to withstand the pressure alone. As your brother, I feel a little embarrassed. I can't bear it. "

"Jason, please don't say these things to me. Do we need to say these things between two brothers? As long as you leave here and return home safely, I will find someone to help you."

"Didn't He Chenguang come with you? Who else can you ask to help me?"

"Am I the only good friend in my life like him? There are also Li Erniu and Wang Yanbing. At least they haven't come yet. I believe that they will not refuse me as long as I ask for help. We are the best." friend."

"No wonder you didn't bring them over when Thor asked you to take the two of them to complete the mission. It turns out you had already thought about it."

"I am a very planned person. I have already guessed that various special events will happen after we get here, but it doesn't matter.

As long as they stay in the base camp, they can help us at any time. For example, if we encounter a crisis now and cannot go through the normal procedures of returning, we need them to find some human resources to help us. "

"Wang Xin, I've been so worried about this that my hair will turn gray overnight. Why didn't you tell me earlier? You've been making things difficult for him and Du Bingbing."

"I also want to see if Du Bingbing has such strength. Now that he has replaced Thor, he has become the commander of our team.

I hope he is worthy of this position. This is also a test for him. Although I am his subordinate now, I still have high requirements for my superiors. "

Huang Mao heard Qin Yuan say these words from the side and thought that this guy was just bragging. He had already completely deceived a subordinate, and he still wanted to test the superior. It was really bragging and had no edge.

"Huang Mao, don't look at me like this in disbelief. I'm telling you, everything is possible for me and there is nothing I can't do.

Since I want to test him, it means that he is already within the scope of my selection. If I think he is nothing, I will not bother to talk to him. "

"Du Bingbing will definitely be furious if he hears you say this. The relationship between the two of you has eased before. You also said that you would treat him to spicy hotpot when you go back. Have you forgotten?"

Huang Mao asked quickly after hearing this.

"What is Malatang? It sounds delicious, but I have never eaten it. You have all seen the things I have eaten all day long in this land since I was a child."

"Spicy hotpot is our specialty there. Let Jason treat you to it after you go."

"That's so embarrassing. It's already very difficult for you to ask Jason to take care of me, and you have to ask him to spend money to treat me to spicy hotpot."

Huang Mao didn't even know what Malatang was. Of course he thought it was expensive food, so they all couldn't forget it. Everyone couldn't help but laugh when he heard what he said.

"Mala Tang is not an expensive thing. For 20 yuan, you can eat enough to hold on to the wall."

"Ah? You have the nerve to treat such a cheap thing to me. If I knew it was so cheap, I wouldn't be reluctant to eat it. Seeing how you are obsessed with it, you are really worthless. It seems you have never seen anything in the world."

While they were talking and laughing, a man in light green clothes walked slowly in front of everyone, with a golden medal on his chest.

"Excuse me, are you here to buy some fresh crabs?"

"I think you got the wrong person. I'm here to buy fresh black tiger prawns."

"We also have black tiger prawns here. We go out to sea to fish. In addition to crabs, there are also some fresh hairtails and all kinds of seafood. Do you want to get on the boat and take a look?"

Chen Jixiang is also a relatively smart person. He immediately understood that Qin Yuan should be suitable for the guy in front of him who was just checking the code.

And he has never heard of these accounts. It seems that Qin Yuan does have a lot of things hidden from him, but he doesn't care so much. Who makes him have a relatively low level and has no way to contact the senior officials.

"We can go to your boat to see if there is any cheap seafood, but since you took the initiative to bring it, you can give us the lowest price."

"As long as you buy enough, I can give you a cheaper price."

"Are there any other guests on board?"

"There are relatively few seafood today. You are the first customers I meet. After you have selected them, I will sell the rest in the market and I will not receive other customers."

After finishing speaking, Qin Yuan also smiled and nodded, walked forward to shake hands with the other party.

"It's very dangerous here. We have seen some suspicious people just now. Fortunately, you didn't show up in time and were not discovered by this suspicious person."

"Sir, I have been watching secretly from the side. If this guy keeps holding our own people hostage, I may start to rob him."

"Of course don't shoot. This is a military dock. Don't alert more people. I have some suspicious items on my person. I will give them to you to take away later."

"Let's talk about it on the boat first."

These people saw Qin Yuan talking to them about the secret code, but of course they didn't dare to say anything at all. It was not until they confirmed each other's identity that they followed the guy with the golden medal on the boat.

After getting on the boat, the inside of the boat should be made of special materials, at least bulletproof materials.

"I finally picked you up successfully. I've been waiting here, very anxious, and I know, it's not particularly peaceful here recently. Do you want to all come with me?"

"How many weapons are on board?"

"There are several submachine guns and pistols, as well as some warranty items. Don't worry, I will definitely be able to send them safely to the high seas."

"In that case, I have nothing to worry about. These people are all my good brothers. You take them back first. Besides, Thor has been stopped recently. After you take them back, go find Du Bingbing. "

"Deputy Chief of Staff Du Bingbing?"

"Yes, just look for him, he should be able to help us, but now I have established contact with him.

There are some misunderstandings between the two of us. If he gives you a problem after meeting you, you should ignore him. I will tell you in advance and you should be more patient. "

"Hmm, okay, you have already said that, so I have nothing to question. In this case, we will arrange it this way. I need a few people to go with me. Will you all go with me?"

Chen Jixiang waved his hand.

"Just take the four of them with you. I have to stay here to help Brother Qin Yuan. We still have many unresolved things here, and there are also the two students of Professor Fang De..."

When Chen Jixiang said this, he realized that he had indeed said the wrong thing. This was a secret and could not be known to anyone.

"Don't say too much yet. There are some secrets that I don't want to know too much about. It's not good for any of us, and it also violates the regulations of our army."

"After all, they have been living in this mixed place for a while. After they return, don't take them to the army to find a hospital to quarantine them for 10 days and a half."

"Don't worry, I already know all these things, Chief Qin Yuan. Deputy Chief of Staff Du Bingbing has made arrangements with us in advance. It's just that you can't go back. It is indeed a bit regretful. In fact, if you can go back with me, This boat can take you back together.

If you have to wait for the helicopter, there are some problems with the above process, and Du Bingbing asked me to tell you. "

"How many of us are left in the embassy? If we haven't come with you, please leave quickly.

You have also seen the dangerous person just now. You must be careful if you reach the high seas on the road. I am afraid of old K. He also sent a ship over. "

"Old K? You mean Old K who buys and sells arms in that neighboring country?"

"He is just a very difficult guy to deal with, and the Efit beside him is the one who held us hostage just now."

"No wonder he looks so familiar to me. It turns out he is an old rival with you. Fortunately, I didn't shoot just now, otherwise it would have really affected your plan.

In this case, they can come with me. After taking them back, I believe you can free your hands and feet to carry out the mission. "

"I didn't expect that you guy really knows me well. What's your name? Don't tell me now. I will find you again when I get back. I will tell my superiors that you will be transferred to our army and follow me. That's it."

"Li Erniu and I know each other. We are from the same hometown."

"It turns out that you are a fellow villager of Li Erniu. No wonder your accent sounds familiar to me. We are really on our own helping our own people. This can be regarded as a beautiful coincidence."

Then, Qin Yuan turned around and said to Jason.

"After you leave here later, I can finally feel relieved, but we must keep in touch at all times. They have satellite signals on the ship. We can always keep in touch and report your location to me at any time.

I can't rest assured until you return to our country, otherwise I'm not sure what will happen on the sea. You'd better not sleep, it's too deep.

Only by staying vigilant at all times can you protect your own safety, do you understand?"

Chapter 2330 Check the spare weapons in person

After Qin Yuan had told the other party everything, he was still a little worried.

After all, he was a soldier, and he was very clear about the models and specifications of these weapons, and whether they could be used normally, so he said to his companion next to him.

"You told me a lot just now, now take me to check these weapons first."

The other party was a little confused when he heard Qin Yuan say that. Their time was very limited, and if they checked the weapons again, it might be too late.

"Qin Yuan, I have just reported everything to you in detail. Don't you believe what I said? Am I not worthy of your trust? You actually want to check the weapons in person?"

"Don't get me wrong. You are Li Erniu's friend. How could I not trust you?"

But I have always been very cautious. I don't want any mistakes in the process of executing the mission. It is better to check in advance.

At the same time, it is also better to clarify each other's responsibilities.

In case someone will take this opportunity to do something on the road, it is a very important time now. It is always right for everyone to be careful. Even if it is to save time, it is not bad to have this awareness. After all, if these weapons really have mistakes, you will be in danger."

Jason knew that Qin Yuan did this for himself, and he felt very relieved.

"Okay, Commander Qin Yuan, since you have said so, I have no reason to refuse the weapon. Let's go check it out in the cabin at the back."

"Jason, you guys wait here, Chen Jixiang, come with me."

"Me?"

"Don't talk nonsense, come with me quickly, and I will teach you some experience by the way."

Hearing Qin Yuan say this, Chen Jixiang was still very happy. He followed Qin Yuan out to perform the mission just to learn more about this experience from excellent people.

After finally waiting for this opportunity, he would never give up easily. When he heard Qin Yuan calling him, he ran up happily.

"Great, Brother Qin Yuan, as long as you are willing to teach me some experience, this is really great for me."

"Don't bother to flatter me first, come here, there are some things I have to tell you slowly."

Qin Yuan took Chen Jixiang and his companions to the cabin at the back and found that the cabin was relatively damp inside.

"How can you put these weapons in such a humid space? If it is too humid and the humidity is too high, there is no way to control the moisture. You know what the consequences will be."

"Of course I know that I am also engaged in this kind of work, and I can't be so careless. I just think it won't take too long to go back, and my weapons will not be dampened by water if they are placed here."

"It's better to be careful. On the way back, anything can happen. You can't push all this to an uncertain result here."

"Okay, Commander Qin Yuan, it seems that you are still very experienced. After listening to what you said, I understand that I will go to open the vent next to it in a while."

"Since there is a vent, it should be opened quickly. When at sea, the overall environment is relatively humid. If it affects the use of weapons, you will be helpless when you encounter the enemy. "

"We usually receive training on land. These are just some of the things we have learned in the training courses, and we have not been in actual combat, so we still lack some experience in this regard. Please understand. "

"Don't be nervous, I don't mean to blame you. Everyone has their own strengths and weaknesses. Some things you know may not be known by me.

So we are also learning from each other. There is no such thing as me commanding or guiding you. Don't have too much psychological pressure. "

Qin Yuan is still good at controlling people's hearts. He knows that if he uses this way of communication to talk to the other party, he can have a greater degree of acceptance.

Qin Yuan walked up and checked the weapons.

He picked up a sniper rifle casually. Seeing that they were all relatively new weapons, they should be specially approved by the superiors for this special mission.

"These things should not have been used. Are you sure they can be used normally?"

"There should be no mistakes in the things the army gave us. If there is a problem with the guns the army gave us, then wouldn't we be infiltrated from the inside?"

I don't think it should be that bad..."

"I'm just guessing. You don't have to be so nervous. I'll open it and see if the ammunition clip inside can be used normally."

"Of course, you can check it casually. This is all my superiors who asked me to pick you up. I should listen to your orders. After all, you are the boss, and I have nothing to say."

"I have already said that you don't have to have too much psychological pressure. These people are not only my friends, but also the hostages I rescued and my mission. In order to successfully complete the mission, I will do whatever it takes."

"Commander Qin Yuan, this is the first time I meet you. I also heard about it from Li Erniu. I have long known that you are a soldier king.

Today, I have the opportunity to learn from you, which is also my own gain. I hope that I can brag to my comrades in the army when I go back that I have accepted your guidance."

Hearing the other party say this, Qin Yuan felt a little embarrassed. He was not a soldier king, and without the help of the system, what could he be? Now with the help of the system, he was like the male protagonist with a golden finger.

"These are all experiences accumulated slowly. You are still young now. You will understand them when you have more experience. But don't be afraid of these. Don't bully the poor young man in his late stage."

Chen Jixiang, it was the first time he saw Qin Yuan checking something, and he was so serious. He used to think of him as a careless person.

Unexpectedly, at this time, he could handle all these things so carefully. This was also something Chen Jixiang did not expect. It seems that people are indeed multifaceted.

Qin Yuan opened the ammunition clip to check the humidity inside. There was no problem and it could be used normally, so he was not worried.

"It is normal to clip this, everything is fine, there is no problem."

The other party finally breathed a sigh of relief when he heard Qin Yuan say this. After all, these things were collected from the ammunition depot by himself. If there was really any mistake, in addition to blaming himself for being careless, he could only take the blame.

"You are young and may not have much experience on your first mission. If something similar happens in the future, you must check more. This is your life-saving tool."

"Yeah, don't worry, Commander Qin Yuan, I know. By the way, how do you plan to settle these people after they go back?"

"Didn't I tell you when we were outside just now? Why do you ask again?"

"Uh... When we were outside just now, all of them were present. I'm afraid that what you said was to take their fate into consideration."

There are only three of us here and no outsiders. This is our internal communication. You can tell me how to arrange them after we go back."

"I didn't expect that you, a kid, would have such a mind. You are right to do this, but I still make the same decision as before."

After returning, find Settle them in one place, and then go find Lei Shen or Du Bingbing, they should be able to help her get you.

The identities of several of them are indeed quite special, and some of the senior officers of the army will also have some interest in them, which shows that many things are not as we please, and we can do whatever we want. "

"I can understand what you mean. Their identities are quite special. Are you afraid that someone will investigate when you go back?"

There should be no problems in the army. Deputy Chief of Staff Du Bingbing has repeatedly told me about the special identities of several of them. "

"As long as Du Bingbing supports us behind the scenes, I am still quite confident, but..."

Qin Yuan hesitated when he received this. He considered Lei Shen. Because of his recent suspension of his position, he didn't want to implicate others.

"Have you ever seen Thor before you came here?"

"Thor, wasn't he suspended? According to normal procedures, I wouldn't have had the chance to see him, so he didn't tell me anything.

But I know that all this is your arrangement. When I get here, I only need to contact you. The fewer people who know about this secret mission, the better.

Before I set off, I only met Deputy Chief of Staff Du Bingbing and a few senior officials.

No one knows that I'm here to perform a mission. Our navigation information is relatively hidden. Only after returning to our territorial waters can a signal appear.

This mission is very confidential, and it is the highest level of confidentiality.

I believe there will be no mistakes, and others will not know either. I dare not say anything casually. As for me, I was recommended by Li Erniu. You should not doubt me. "

"You are a very thoughtful boy. Li Erniu's friends are also my friends. I will not doubt you."

"Thank you for your trust, Commander Qin Yuan."

"Are there other people on the ship besides you? Don't tell me that you are alone to carry out such an important mission."

"No, but I am the only one with the gold medal who can work with you. The others are pretending to be sailors and are always around."

After hearing this, Chen Jixiang realized that Qin Yuan and his team were so covert and secretive in carrying out their mission. If he hadn't seen it with his own eyes, he would have thought that these things could only exist in TV dramas and novels.

"The string of secret codes you exchanged when you met just now really shocked me. I thought you two were really just chatting."

"Chen Jixiang, you are still young now, and you haven't seen many things. Of course you will feel surprised, but you will have many opportunities to see such scenes in the future. The next time there is a similar mission, I will leave it to you."

"Really? If there is such an opportunity, I will feel extremely honored to be able to perform a secret mission."

"Of course it is true, but it is not this time. I have checked all the ship information. It seems that there will be no problem. You should call the others back quickly and drive the boat away from here."

"Captain Qin Yuan, are you really not going back with us?"

"I can't go back with you. The mission is not over yet. I can only wait for the helicopter of the army to come to rescue. The current situation is indeed very special. When you are in the high seas, you may encounter Efit again."

"Is this the guy just now? I looked at him as if he was a bit eager to jump over the wall. He shouldn't be enough to be a threat to us."

I don't have to worry at all, not to mention that we have so many weapons on the ship that we can't beat him alone. If this is worth fearing, then we should not be special forces at all. "

"Okay, I didn't expect that your boy still has some blood. No wonder Li Erniu often mentions you as a good brother in front of me. You are indeed a person worth trusting. In this case, then I have nothing to worry about."

Jason and the others were waiting outside. Seeing Qin Yuan and the others whispering inside, A Kun and A Ming felt a little uneasy.

"Boss, what do you think we should do about this matter? Can such a small boat really take us back successfully? If Qin Yuan doesn't go back with us, I don't have the confidence in my heart. I always feel fuzzy. of."

"Akun, you have experienced so many missions, are you a little flustered this time?"

I am still scared by Mr. Norman Karim. Don't worry, even if he covers the sky with one hand here, he will not be able to do anything when he reaches the sea.

Otherwise, he wouldn't have found the mercenary Scorpion to deal with us. He must have been desperate and chose such an extreme method. "

"We just heard some legends about the mercenary Scorpion, but we didn't expect this guy to be so powerful."

"This is also the first time I've seen him. I've only heard about him before, but he still hasn't revealed his true face. No one has ever seen what he looks like specifically.

This is also one of his essential qualities as a killer. Once his true appearance is revealed, his sense of mystery will no longer be so strong, and the probability of successful missions will be even smaller. "

"Efite used to be with you. You should know this guy very well. He was so scared by this mercenary Scorpion that he almost peed his pants. Is this guy really as powerful as we imagined?"

"I think this has something to do with people's hearts. He has created a very powerful illusion for us, which means that fear has begun to arise in our hearts.

We had some fear of him before we met, which can only mean that he deliberately wanted to create such a terrifying atmosphere for us.

Mercenary Scorpion, no matter how powerful he is, is just an ordinary person, not a god. As long as he is an ordinary person, we have a chance to confront him head-on. "(End of chapter)
